The governor may issue additional orders to extend the state disaster emergency for additional periods not to exceed six months.

4. Whenever the governor shall find that a disaster is of such severity and magnitude that effective response is beyond the capabilities of the state and the affected jurisdictions, he shall make an appropriate request for federal assistance available under federal law, and may make available out of any funds provided under the governmental emergency fund or such other funds as may be available, sufficient funds to provide the required state share of grants made under any federal program for meeting disaster related expenses including those available to individuals and families.

5. The legislature may terminate at any time a state disaster emergency issued under this section by concurrent resolution.

§ 28-a. Post disaster recovery planning. 1. Whenever a state disaster emergency has been declared any county, city, town or village included in such disaster area shall prepare a local recovery and redevelopment plan, unless the legislative body of the municipality shall determine such plan to be unnecessary or impractical. Prior to making such determination, the municipality shall notify the commission of its intent to forego preparation and provide an opportunity to comment to the commission. Within fifteen days after the declaration of a state disaster, any county, city, town or village included in such disaster area shall report to the commission whether the preparation of a recovery and redevelopment plan has been commenced, and if not, the reasons for not preparing such plan. Within sixty days after the declaration of a state disaster, the commission shall report to the governor and the legislature the status of local recovery and redevelopment plans, including the name of any municipality which has failed or refused to commence the development of a recovery and redevelopment plan.

2. The commission shall provide technical assistance in the development of such plans upon the request of such county, city, town or village.

3. A local recovery and redevelopment plan shall include, but need not be limited to: plans for replacement, reconstruction, removal or relocation of damaged or destroyed facilities; proposed new or amended regulations such as zoning, subdivision, building or sanitary ordinances and codes; and plans for economic recovery and community development. Such plans shall take into account and to the extent practicable incorporate relevant existing plans and policies and such plans shall take into account the need to minimize the potential impact of any future disasters on the community.

4. Proposed plans shall be presented at a public hearing upon five days notice published in a newspaper of general circulation in the area affected and transmitted to the radio and television media for publication and broadcast. Such notice shall state the time and place of the hearing and indicate where copies of the proposed plan may be

inspected or obtained. Any county, city, town, or village preparing a recovery and redevelopment plan pursuant to this subdivision may, upon mutual agreement with any other such county, city, town or village, hold a joint hearing to consider such recovery and redevelopment plan.

5. Such plans shall be prepared within forty-five days after the declaration of a state disaster and shall be transmitted to the commission. The commission shall provide its comments on the plan within ten days after receiving such plan.

6. A plan shall be adopted by such county, city, town or village within ten days after receiving the comments of the commission. The adopted plan may be amended at any time in the same manner as originally prepared, revised and adopted.

7. The adopted plan shall be the official policy for recovery and redevelopment within the municipality.

8. Nothing in this section shall preclude any municipality from applying for or accepting and receiving any federal funds.

§ 29. Direction of state agency assistance in a disaster emergency.

Upon the declaration of a state disaster emergency the governor may direct any and all agencies of the state government to provide assistance under the coordination of the disaster preparedness commission. Such state assistance may include: (1) utilizing, lending, or giving to political subdivisions, with or without compensation therefor, equipment, supplies, facilities, services of state personnel, and other resources, other than the extension of credit; (2) distributing medicine, medical supplies, food and other consumable supplies through any public or private agency authorized to distribute the same; (3) performing on public or private lands temporary emergency work essential for the protection of public health and safety, clearing debris and wreckage, making emergency repairs to and temporary replacements of public facilities of political subdivisions damaged or destroyed as a result of such disaster; and (4) making such other use of

their facilities, equipment, supplies and personnel as may be necessary to assist in coping with the disaster or any emergency resulting therefrom.

§ 29-a. Suspension of other laws. 1. Subject to the state constitution, the federal constitution and federal statutes and regulations, the governor may by executive order temporarily suspend specific provisions of any statute, local law, ordinance, or orders, rules or regulations, or parts thereof, of any agency during a state disaster emergency, if compliance with such provisions would prevent, hinder, or delay action necessary to cope with the disaster.

2. Suspensions pursuant to subdivision one of this section shall be subject to the following standards and limits:

a. no suspension shall be made for a period in excess of thirty days, provided, however, that upon reconsideration of all of the relevant facts and circumstances, the governor may extend the suspension for additional periods not to exceed thirty days each;

b. no suspension shall be made which does not safeguard the health and welfare of the public and which is not reasonably necessary to the disaster effort;

c. any such suspension order shall specify the statute, local law, ordinance, order, rule or regulation or part thereof to be suspended and the terms and conditions of the suspension;

d. the order may provide for such suspension only under particular circumstances, and may provide for the alteration or modification of the requirements of such statute, local law, ordinance, order, rule or regulation suspended, and may include other terms and conditions;

e. any such suspension order shall provide for the minimum deviation from the requirements of the statute, local law, ordinance, order, rule or regulation suspended consistent with the disaster action deemed

necessary; and

f. when practicable, specialists shall be assigned to assist with the related emergency actions to avoid needless adverse effects resulting from such suspension.

3. Such suspensions shall be effective from the time and in the manner prescribed in such orders and shall be published as soon as practicable in the state bulletin.

4. The legislature may terminate by concurrent resolution executive orders issued under this section at any time.

§ 29-b. Use of disaster emergency response personnel in disasters. 1. State use of disaster emergency response personnel and non-state resource providers. a. The governor may, in their discretion, direct the state disaster preparedness commission to conduct an emergency exercise or drill, under its direction, in which all or any of the personnel and resources of the agencies of the commission of the state may be utilized to perform the duties assigned to them in a disaster, for the purpose of protecting and preserving human life or property in a disaster. During a disaster or such drill or exercise, disaster emergency response personnel in the state shall operate under the direction and command of the chair of such commission, and shall possess the same powers, duties, rights, privileges and immunities as are applicable in a civil defense drill held at the direction of the state civil defense commission under the provisions of the New York state defense emergency act.

b. The governor may deploy non-state resource providers to another compact member jurisdiction under any compact in this article. When authorized to provide assistance and deployed by the legally designated state official or officials, non-state resource providers shall be deemed agents of the state for purposes of the deployment and shall be entitled to the rights and benefits provided to state resource providers by the compact, subject to any terms and conditions of the requesting state. Non-state resource providers shall not offer assistance to, or

request assistance from, another compact member jurisdiction. The division of homeland security and emergency services shall serve as the coordinator for offers and requests for assistance and facilitator of the reimbursement of non-state resource providers by the requesting state. The division of homeland security and emergency services shall not be responsible for reimbursement until the division receives payment from the requesting compact member jurisdiction.

2. Local use of disaster emergency response personnel. a. Upon the threat or occurrence of a disaster, and during and immediately following the same, and except as otherwise provided in paragraph d of this subdivision, the county chief executive may direct the emergency management director of a county to assist in the protection and preservation of human life or property by calling upon disaster emergency response personnel employed by or supporting that county, as specified in the county comprehensive emergency management plan, to perform the emergency response duties assigned to them.

b. The disaster emergency response personnel of the county shall be regarded as a reserve disaster force to be activated, in whole or in part, by the county emergency management director upon the direction of the county chief executive when the county chief executive, in his or her discretion, is convinced that the personnel and resources of local municipal and private agencies normally available for disaster assistance are insufficient adequately to cope with the disaster.

c. Except as provided in paragraph d of this subdivision, the county chief executive may exercise the power conferred upon him in paragraph a of this subdivision, or may deactivate the disaster emergency response personnel of the county in whole or in part, on his own motion or upon the request of the chief executive officer of a village, town or city located within the county of which he is an officer.

d. Where the local office of public safety or emergency management in a city is independent of the county office of public safety or emergency management and is not consolidated therewith, the county chief executive may direct the emergency management director of the county to render

assistance within such city only when the chief executive officer of such city has certified to him that the disaster emergency response personnel of the city have been activated pursuant to the provisions of subdivision three of this section and that all resources available locally are insufficient adequately to cope with the disaster.

e. When performing disaster assistance pursuant to this section, county disaster emergency response personnel shall operate under the direction and command of the county emergency management director and his or her duly authorized deputies, and shall possess the same powers, duties, rights, privileges and immunities they would possess when performing their duties in a locally sponsored civil defense drill or training exercise in the civil or political subdivision in which they are enrolled, employed or assigned emergency response responsibilities.

f. The chief executive officer of a city shall be responsible for the conduct of disaster operations within the city, including the operations directed by the county emergency management director when rendering disaster assistance within a city pursuant to this section.

g. Outside of a city, the sheriff of the county, and in Nassau county the commissioner of police of the county of Nassau, shall supervise the operations of the emergency management director when rendering peace officer duties incident to disaster assistance. The sheriff and such commissioner may delegate such supervisory power to an elected or appointed town or village official in the area affected.

h. Neither the chief executive officer of a city, nor the county chief executive, nor any elected or appointed town or village official to whom the county chief executive has delegated supervisory power as aforesaid shall be held responsible for acts or omissions of disaster emergency response personnel when performing disaster assistance.

3. City use of disaster emergency response personnel. a. Upon the threat or occurrence of a disaster, and during and immediately following the same, and except as otherwise provided in paragraph d of this subdivision, the chief executive of a city may direct the emergency

management director of the city to assist in the protection and preservation of human life or property by calling upon city disaster emergency response personnel to perform the emergency response duties assigned to them.

b. The disaster emergency response personnel of the city shall be regarded as a reserve disaster force to be activated, in whole or in part, by the city emergency management director upon the direction of the chief executive officer of the city when the latter, in his or her discretion, is convinced that the personnel and resources of local municipal and private agencies normally available for disaster assistance are insufficient adequately to cope with the disaster.

c. Except as provided in paragraph d of this subdivision, the chief executive officer of a city may exercise the power conferred upon him in paragraph a of this subdivision, or may deactivate the disaster emergency response personnel of the city in whole or in part, on his own motion or upon the request of the head of the city police force.

d. Where the local office of emergency management in a city is under the jurisdiction of a consolidated county office of civil defense as provided in the New York state defense emergency act, the chief executive officer of such city seeking the assistance of disaster emergency response personnel in the protection and preservation of human life or property within such city because of such disaster, must request the same from the county chief executive in which such city is located, in the same manner as provided for assistance to towns and villages in subdivision two of this section.

e. When performing disaster assistance pursuant to this subdivision, disaster emergency response personnel shall operate under the direction and command of the city emergency management director and his or her duly authorized deputies, and shall possess the same powers, duties, rights, privileges, and immunities they would possess when performing their duties in a locally sponsored civil defense drill or training exercise in the city in which they are enrolled, employed or assigned emergency response responsibilities.

f. Where the city disaster emergency response personnel have been directed to assist in local disaster operations pursuant to paragraph a of this subdivision, and the chief executive officer of the city is convinced that the personnel and resources of local municipal and private agencies normally available for disaster assistance, including local disaster emergency response personnel, are insufficient adequately to cope with the disaster, he or she may certify the fact to the county chief executive and request the county chief executive to direct the county emergency management director to render assistance in the city, as provided in subdivision two of this section.

g. The chief executive officer of a city shall be responsible for the conduct of disaster operations within the city, including the operations directed by the county emergency management director, when rendering disaster assistance within a city pursuant to this subdivision.

h. Neither the chief executive officer of a city, nor the county chief executive, shall be held responsible for acts or omissions of disaster emergency response personnel when performing disaster assistance.

§ 29-c. Radiological preparedness. 1. The commission:

(a) may monitor directly and record the off-site presence of radioactive material in the vicinity of nuclear electric generating facilities located in the state of New York;

(b) shall obtain from the licensees, United States nuclear regulatory commission-required high range radiation, temperature and pressure levels in the containment buildings and in the containment building vents of nuclear electric generating facilities located in the state of New York; and,

(c) shall obtain, subject to the approval of the United States nuclear regulatory commission, any reactor data provided by the licensee to the United States nuclear regulatory commission, which the disaster preparedness commission determines, as a result of the report issued pursuant to section twenty-nine-d of this article, to be a reliable indicator of a possible radiological accident.

Upon the occurrence of a radiological accident, the commission shall promptly provide appropriate and available radioactivity monitoring data to any chief executive who requests it. For the purposes of this section, the term "radiological accident" shall be limited to a radiological accident occurring at a nuclear electric generating facility.

2. (a) Any licensee of the United States nuclear regulatory commission for a nuclear electric generating facility shall be liable for an annual fee to support state and local governmental responsibilities under accepted radiological emergency preparedness plans related to the facility operated by such licensee.

(b) The amount of such fee shall be one million dollars. Such fee, which shall be payable to the commission on or before December first, shall be expended or distributed only by appropriation.

3. Such fees shall be expended by the commission for purposes of supporting state and local government responsibilities under accepted radiological emergency preparedness plans, including:

(a) purchase, installation, maintenance and operation of equipment used by the commission and local governments to monitor and record the potential and actual presence of radioactive materials within the appropriate planning radius from a nuclear electric generating facility;

(b) purchase, storage and distribution by the commission of equipment, drugs or other material for the purpose of protecting public health and safety;

(c) personal service, administrative costs and contractual services;

(d) emergency services personnel training and the plans, development, implementation, testing and revisions; and,

(e) the state or local share when applying for matching funds.

3-a. (a) Notwithstanding the provisions of subdivision three of this section, the New York state emergency management office (SEMO) and the coalition of nuclear counties, which constitutes the counties of Monroe, Wayne, Oswego, Orange, Putnam, Rockland and Westchester, shall each receive an equal one-half portion of the total amount of proceeds

resulting from the total assessments and contributions made pursuant to this section.

(b) The one-half portion of the proceeds resulting from the total assessments and contributions made pursuant to this section received by the coalition of nuclear counties shall be distributed pursuant to the following formula:

Monroe county 12.3%

Orange county 10%

Oswego county 12.5%

Putnam county 9.8%

Rockland county 18%

Wayne county 12.4%

Westchester county 25%

§ 29-d. Reports. In order to assess the present preparedness in the state for any radiological accident and to determine the need for, and appropriateness of, any additional specific steps by state government, the commission shall report to the governor and the legislature by January first, nineteen hundred eighty-two, its findings, recommendations and proposed legislation where appropriate concerning:

1. The need for and appropriateness of additional specific state activities or programs beyond those required by the accepted radiological emergency preparedness plans or provided for under existing law, including but not limited to:

- (a) radiological monitoring equipment;
- (b) warning systems and equipment;
- (c) medical technologies and equipment;
- (d) plume transport and dose assessment models; and

(e) nuclear fuel cycle and materials licensees other than electric generating facilities.

2. Any such recommendations shall be developed in consultation with all concerned public and private parties and shall:

- (a) take into account proven safety effectiveness;
- (b) outline any proposed costs and the means for meeting such costs;
- (c) consider related activities of the United States nuclear regulatory commission or others; and
- (d) when appropriate, discuss alternatives and various implementation stages.

§ 29-e. New York state emergency assistance program. 1. For purposes of this section the following terms shall have the following meanings:

(a) "Infrastructure" shall mean and include publicly owned storm and sanitary sewers, water supply systems, drainage systems, transportation systems, roads and bridges.

(b) "Municipality" shall mean any county, city, village, or town of the state.

(c) "Public facilities" shall mean and include publicly owned buildings, including traditional government buildings, such as courthouses, firehouses, police stations, parks, recreational facilities, and correctional facilities.

(d) "Fund" shall mean the state's contingency reserve fund established by law.

(e) "The office of emergency management" shall mean the office within the division of homeland security and emergency services.

2. The governor may, upon a finding that a municipality in the state has suffered substantial damage by an unanticipated natural disaster which has resulted in significant economic distress within such municipality, issue a declaration of significant economic distress in accordance with the provisions herein. In determining whether such significant economic distress exists, the governor shall consider whether the following criteria have been met:

- (a) the municipality suffered a substantial loss of assessed value;

(b) substantial damage has occurred to municipal buildings, facilities and infrastructure;

(c) the cost incurred by the municipality for clean-up operations is significant;

(d) businesses within the municipality have experienced significant economic loss due to the inability to conduct normal business due to the disaster;

(e) a significant increase in unemployment claims filed by persons employed within the municipality has occurred; and

(f) the county or the county within which the municipality is located has been declared eligible by the United States small business administration for physical disaster and economic injury disaster loans. In addition, the governor shall also consider the extent that other financial resources, including federal assistance and insurance, are available to assist the municipality to repair damage caused by the disaster.

3. (a) Upon the issuance of a declaration of significant economic distress due to unanticipated natural disaster by the governor, a municipality recognized by the governor as being affected by such disaster which occurred on or after December first, nineteen hundred ninety-two, may apply to the division of homeland security and emergency services on a form prescribed by such office, for reimbursement from the state's contingency reserve fund for reimbursement of extraordinary and unanticipated costs associated with the reconstruction or repair of public buildings, facilities or infrastructure.

(b) Where the municipality applying for assistance authorized pursuant to this section is a city, and such application pertains to a county wholly contained within such city, such city may submit separate applications for such assistance for each such county.

(c) Such municipality shall be granted the assistance provided pursuant to this section, within the amounts made available by appropriation from the fund, upon approval of such application, provided that such municipality agrees to have a local disaster preparedness plan pursuant to section twenty-three of this article in effect by December thirty-first, nineteen hundred ninety-three. On or after December thirty-first, nineteen hundred ninety-three, no municipality shall be

eligible for reimbursement of such expenses unless such plan is in effect.

(d) Municipalities which have received assistance pursuant to this section shall, as soon thereafter as may be possible, amend their respective local disaster preparedness plans to include corrective measures that must be taken in order to avoid, to the extent possible, similar emergencies in the future.

(e) Municipalities applying for assistance pursuant to this section shall accurately describe the emergency conditions which necessitate the expenditure of funds for which reimbursement is being sought pursuant to this section.

(f) In providing assistance pursuant to this section, the division of homeland security and emergency services may give preference to applicants which demonstrate the greatest need or which document that such assistance will be utilized to bring the applicant into compliance with federal or state law.

(g) In the event that amounts appropriated are insufficient to provide for full reimbursement of all extraordinary and unanticipated costs incurred by such municipality approved for reimbursement pursuant to this section, the division of homeland security and emergency services is authorized to provide a pro rata share of the appropriations, appropriated herein, to such municipality.

4. (a) The commissioner of the division of homeland security and emergency services as defined in article twenty-six of this chapter with the advice and consent of the disaster preparedness commission created pursuant to this article, shall have the power to make such rules and regulations as may be necessary and proper to effectuate the purposes of this section.

(b) The commissioner of the division of homeland security and emergency services shall by March fifteenth of each year report to the governor and the legislature describing the activities and operation of the program authorized by this section. Such report shall set forth the number of reimbursement applications received and approved; the identities of the counties, cities, towns and villages receiving reimbursement together with the amount and purpose of the reimbursement.

§ 29-g. Emergency management assistance compact. 1. The emergency management assistance compact is made and entered into by and between the participating member states which enact this compact, hereinafter called party states. For the purposes of this agreement, the term "states" is taken to mean the several states, the commonwealth of Puerto Rico, the District of Columbia, and all United States territorial possessions.

The purpose of this compact is to provide for mutual assistance between the states entering into this compact in managing any emergency or disaster that is duly declared by the governor of the affected state or states, whether arising from natural disaster, technological hazard, man-made disaster, civil emergency aspects of resource shortages, community disorders, insurgency or enemy attack.

This compact shall also provide for mutual cooperation in emergency-related exercises, testing or other training activities using equipment and personnel simulating performance of any aspect of the giving and receiving of aid by party states or subdivisions of party states during emergencies, such actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of the states' national guard forces, either in accordance with the national guard mutual assistance compact or by mutual agreement between states.

2. Each party state entering into this compact recognizes that many emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential in managing these and other emergencies under this compact. Each state further recognizes that there will be emergencies which require immediate access and present procedures to apply outside resources to make a prompt and effective response to such an emergency. This is because few, if any, individual states have all the resources they may need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.

The prompt, full and effective utilization of resources of the participating states, including any resources on hand or available from the federal government or any other source, that are essential to the safety, care and welfare of the people in the event of any emergency or disaster declared by a party state, shall be the underlying principle on which all provisions of this compact shall be understood.

On behalf of the governor of each state participating in the compact, the legally designated state official who is assigned responsibility for emergency management will be responsible for formulation of the appropriate interstate mutual aid plans and procedures necessary to implement this compact.

3. (a) It shall be the responsibility of each party state to formulate procedural plans and programs for interstate cooperation in the performance of the responsibilities listed in this section. In formulating such plans, and in carrying them out, the party states, insofar as practical, shall:

(1) Review individual state hazard analysis and, to the extent reasonably possible, determine all those potential emergencies the party states might jointly suffer, whether due to natural disaster, technological hazard, man-made disaster, emergency aspects or resource shortages, civil disorders, insurgency or enemy attack.

(2) Review party states' individual emergency plans and develop a plan which will determine the mechanism for the interstate management and provision of assistance concerning any potential emergency.

(3) Develop interstate procedures to fill any identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans.

(4) Assist in warning communities adjacent to or crossing the state boundaries.

(5) Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue and critical lifeline equipment, services and resources, both human and material.

(6) Inventory and set procedures for the interstate loan and delivery of human material resources, together with procedures for reimbursement or forgiveness.

(7) Provide, to the extent authorized by law, for temporary suspension of any statutes or ordinances that restrict the implementation of the above responsibilities.

(b) The authorized representative of a party state may request assistance of another party state by contacting the authorized representative of that state. The provisions of this agreement shall only apply to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request shall be confirmed in writing within thirty days of the verbal request. Requests shall provide the following information:

(1) A description of the emergency service function for which assistance is needed, such as, but not limited to, fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services, and search and rescue.

(2) The amount and type of personnel, equipment, materials and supplies needed, and a reasonable estimate of the length of time that they will be needed.

(3) The specific place and time for staging of the assisting party's response and a point of contact at that location.

(c) There shall be frequent consultation between state officials who have assigned emergency management responsibilities and other appropriate representatives of the party states with affected jurisdictions and the United States government, with free exchange of information, plans and resource records relating to emergency capabilities.

4. Any party state requested to render mutual aid or conduct exercises and training for mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof provided, that it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for such state.

Each party state shall afford to the emergency forces of any party state, while operating within its state limits under the terms and

conditions of this compact, the same powers (except that of arrest unless specifically authorized by the receiving state), duties, rights and privileges as are afforded forces of the state in which they are performing emergency services. Emergency forces will continue under the command and control of their regular leaders, but the organizational units will come under the operational control of the emergency services authorities of the state receiving assistance. These conditions may be activated, as needed, only subsequent to a declaration of a state of emergency or disaster by the governor of the party state that is to receive assistance or commencement of exercises or training for mutual aid and shall continue so long as the exercises or training for mutual aid are in progress, the state, or states, of emergency or disaster remains in effect or loaned resources remain in the receiving states, whichever is longer.

5. Whenever any person holds a license, certificate or other permit issued by any state party to the compact evidencing the meeting of qualifications for professional, mechanical or other skills, and when such assistance is requested by the receiving party state, such person shall be deemed licensed, certified, or permitted by the state requesting assistance to render aid involving such skill to meet a declared emergency or disaster, subject to such limitations and conditions as the governor of the requesting state may prescribe by executive order or otherwise.

6. Officers or employees of a party state rendering aid in another state pursuant to this compact shall be considered agents of the requesting state for tort liability and immunity purposes and no party state or its officers or employees rendering aid in another state pursuant to this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. Good faith shall not include willful misconduct, gross negligence or recklessness.

7. Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that

among the states that are parties hereto, this instrument contains elements of a broad base common to all states, and nothing contained herein shall preclude any state from entering into supplementary agreements with another state or affect any other agreements already in force between states. Supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel, and equipment and supplies.

8. Each party state shall provide for the payment of compensation and death benefits to injured members of the emergency forces of that state and representatives of deceased members of such forces in case such members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within their own state.

9. Any party state rendering aid in another state pursuant to this compact shall be reimbursed by the party state receiving such aid for any loss or damage to or expense incurred in the operation of any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with such requests provided, that any aiding party state may assume, in whole or in part, such loss, damage, expense or other cost, or may loan such equipment or donate such services to the receiving party state without charge or cost provided, however, that any two or more party states may enter into supplementary agreements establishing a different allocation of costs among those states. Expenses under subdivision eight of this section shall not be reimbursable under this provision.

10. Plans for the orderly evacuation and interstate reception of portions of the civilian population as the result of any emergency or disaster of sufficient proportions to so warrant, shall be worked out and maintained between the party states and the emergency management/services directors of the various jurisdictions where any type of incident requiring evacuations might occur. Such plans shall be put into effect by request of the state from which evacuees come and

shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing and medical care will be provided, the registration of the evacuees, the providing of facilities for the notification of relatives or friends, and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies and all other relevant factors. Such plans shall provide that the party state receiving evacuees and the party state from which the evacuees come shall mutually agree as to reimbursement of out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for transportation, food, clothing, medicines and medical care, and like items. Such expenditures shall be reimbursed as agreed by the party state from which the evacuees come. After the termination of the emergency or disaster, the party state from which the evacuees come shall assume the responsibility for the ultimate support of repatriation of such evacuees.

11. (a) This compact shall become operative immediately upon its enactment into law by any two states; thereafter, this compact shall become effective as to any other state upon its enactment by such state.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until thirty days after the governor of the withdrawing state has given notice in writing of such withdrawal to the governors of all other party states. Such action shall not relieve the withdrawing state from obligations assumed hereunder prior to the effective date of withdrawal.

(c) Duly authenticated copies of this compact and of such supplementary agreements as may be entered into shall, at the time of their approval be deposited with each of the party states and with the federal emergency management agency and other appropriate agencies of the United States government.

12. This compact shall be construed to effectuate the purposes stated in subdivision one of this section. If any provision of this compact is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of this compact and the applicability thereof to other persons and

circumstances shall not be affected thereby.

13. Nothing in this compact shall authorize or permit the use of military forces by the National Guard of a state at any place outside the state in any emergency for which the president is authorized by law to call into federal service the militia, or for any purposes for which the use of the army or the air force would in the absence of express statutory authorization be prohibited under section 1385 of title 18, United States code.

14. The legally designated state official who is assigned responsibility for emergency management shall not offer resources to, or request resources from, another compact member state, without prior discussion with and concurrence from the state agency, department, office, division, board, bureau, commission or authority that may be asked to provide resources or that may utilize resources from another compact member state.

15. The director of the state emergency management office shall, on or before the first day of January, two thousand two, provide to the legislature and the governor copies of all mutual aid plans and procedures promulgated, developed or entered into after the effective date of this section. The director of the state emergency management office shall annually hereafter provide the legislature and governor with copies of all new or amended mutual aid plans and procedures on or before the first day of January of each year.

§ 29-h. Intrastate mutual aid program. 1. Creation. There is hereby created the intrastate mutual aid program to complement existing mutual aid agreements in the event of a disaster that results in a formal declaration of an emergency by a participating local government. All local governments within the state, excepting those which affirmatively choose not to participate in accordance with subdivision four of this section, are deemed to be participants in the program; provided, however, with respect to school districts and boards of cooperative educational services, such participation shall be limited to the sharing

of facilities management and administrative personnel and equipment.

2. Definitions. As used in this section, the following terms shall have the following meanings:

a. "Employee" means any person holding a position by election, appointment, or employment by a local government;

b. "Local government" means any county, city, town, village, school district or board of cooperative educational services of the state;

c. "Local emergency management director" means the local government official responsible for emergency preparedness, response and recovery;

e. "Assisting local government" means one or more local governments that provide assistance pursuant to a request for assistance from a requesting local government during a declared emergency, or for the purposes of conducting training, or undertaking a drill or exercise;

f. "Disaster" shall have the same meaning as in section twenty of this article;

g. "School district" shall have the same meaning as in title two of the education law, including any public school district and any special act school district as defined in section four thousand one of the education law; and

2. Whenever required by the governor, attend in person, or by one of his deputies, any term of the supreme court or appear before the grand

jury thereof for the purpose of managing and conducting in such court or before such jury criminal actions or proceedings as shall be specified in such requirement; in which case the attorney-general or his deputy so attending shall exercise all the powers and perform all the duties in respect of such actions or proceedings, which the district attorney would otherwise be authorized or required to exercise or perform; and in any of such actions or proceedings the district attorney shall only exercise such powers and perform such duties as are required of him by the attorney-general or the deputy attorney-general so attending. He may agree that a referee, to be appointed in an action to which the state is a party, shall receive such compensation at such rate per day as the court in the order of reference may specify. He may with the approval of the governor retain counsel to recover moneys or property belonging to the state, or to the possession of which the state is entitled, upon an agreement that such counsel shall receive reasonable compensation, to be fixed by the attorney-general, out of the property recovered, and not otherwise.

8. Whenever in his judgment the public interest requires it, the attorney-general may, with the approval of the governor, and when directed by the governor, shall, inquire into matters concerning the public peace, public safety and public justice. For such purpose he may, in his discretion, and without civil service examination, appoint and employ, and at pleasure remove, such deputies, officers and other persons as he deems necessary, determine their duties and, with the approval of the governor, fix their compensation. All appointments made pursuant to this subdivision shall be immediately reported to the governor, and shall not be reported to any other state officer or department. Any officer participating in such inquiry and any person examined as a witness upon such inquiry who shall disclose to any person other than the governor or the attorney-general the name of any witness examined or any information obtained upon such inquiry, except as directed by the governor or the attorney-general, shall be guilty of a misdemeanor.

9. Bring and prosecute or defend upon request of the commissioner of labor or the state division of human rights, any civil action or proceeding, the institution or defense of which in his judgment is necessary for effective enforcement of the laws of this state against discrimination by reason of age, race, sex, creed, color, national origin, sexual orientation, gender identity or expression, military status, disability, predisposing genetic characteristics, familial status, marital status, citizenship or immigration status, or domestic violence victim status, or for enforcement of any order or determination of such commissioner or division made pursuant to such laws.

10. Prosecute every person charged with the commission of a criminal offense in violation of any of the laws of this state against discrimination because of age, race, sex, creed, color, national origin, sexual orientation, gender identity or expression, military status, disability, predisposing genetic characteristics, familial status, marital status, citizenship or immigration status, or domestic violence victim status, in any case where in his judgment, because of the extent

of the offense, such prosecution cannot be effectively carried on by the district attorney of the county wherein the offense or a portion thereof is alleged to have been committed, or where in his judgment the district attorney has erroneously failed or refused to prosecute. In all such proceedings, the attorney-general may appear in person or by his deputy or assistant before any court or any grand jury and exercise all the powers and perform all the duties in respect of such actions or proceedings which the district attorney would otherwise be authorized or required to exercise or perform.

11. Prosecute and defend all actions and proceedings in connection with safeguarding and enforcing the state's remainder interest in any trust which meets the requirements of subparagraph two of paragraph (b) of subdivision two of section three hundred sixty-six of the social services law.

12. The term "repeated" as used herein shall include repetition of any separate and distinct fraudulent or illegal act, or conduct which affects more than one person. Notwithstanding any law to the contrary, all monies recovered or obtained under this subdivision by a state agency or state

official or employee acting in their official capacity shall be subject to subdivision eleven of section four of the state finance law.

In connection with any such application, the attorney general is authorized to take proof and make a determination of the relevant facts and to issue subpoenas in accordance with the civil practice law and rules. Such authorization shall not abate or terminate by reason of any action or proceeding brought by the attorney general under this section.

13. Prosecute any person for perjury committed during the course of any investigation conducted by the attorney-general pursuant to statute. In all such proceedings, the attorney-general may appear in person or by his deputy or assistant before any court or any grand jury and exercise all the powers and perform all the duties necessary or required to be exercised or performed in prosecuting any such person for such offense.

15. In any case where the attorney general has authority to institute a civil action or proceeding in connection with the enforcement of a law of this state, in lieu thereof he may accept an assurance of discontinuance of any act or practice in violation of such law from any person engaged or who has engaged in such act or practice. Such assurance may include a stipulation for the voluntary payment by the alleged violator of the reasonable costs and disbursements incurred by the attorney general during the course of his investigation. Evidence of a violation of such assurance shall constitute prima facie proof of violation of the applicable law in any civil action or proceeding thereafter commenced by the attorney general.

16. (a) Notwithstanding any other law to the contrary, in resolving, by agreed judgment, stipulation, decree, agreement to settle, assurance of discontinuance or otherwise, any claim or cause of action, whether filed or unfiled, actual or potential, and whether arising under common law, equity, or any provision of law, a state agency or a state official or employee acting in their official capacity shall not have the authority to include or agree to include in such resolution any term or condition that would provide the state agency, official, or employee, their agent or designee, the settling party, or any third party with

control or discretion over how any moneys to be paid by the settling party would be used, spent, or allocated.

(b) Paragraph (a) of this subdivision shall not apply to any provision in the resolution of a claim or cause of action providing (1) moneys to be distributed to the federal government, to a local government, or to any holder of a bond or other debt instrument issued by the state, any public authority, or any public benefit corporation; (2) moneys to be distributed solely or exclusively as a payment of damages or restitution to individuals or entities that were specifically injured or harmed by the defendant's or settling party's conduct and that are identified in, or can be identified by the terms of, the relevant judgment, stipulation, decree, agreement to settle, assurance of discontinuance, or relevant instrument resolving the claim or cause of action; (3) moneys recovered or obtained by the attorney general where application of paragraph (a) of this subdivision is prohibited by federal law, rule, or regulation, or would result in the reduction or loss of federal funds or eligibility for federal benefits pursuant to federal law, rule, or regulation; (4) moneys recovered or obtained by or on behalf of a public authority, a public benefit corporation, the department of taxation and finance, the workers' compensation board, the New York state higher education services corporation, the tobacco settlement financing corporation, a state or local retirement system, an employee health benefit program administered by the New York state department of civil service, the Title IV-D child support fund, the lottery prize fund, the abandoned property fund, or an endowment of the state university of New York or any unit thereof or any state agency, provided that all of the moneys received or recovered are immediately transferred to the relevant public authority, public benefit corporation, department, fund, program, or endowment; (5) moneys to be refunded to an individual or entity as (i) an overpayment of a tax, fine, penalty, fee, insurance premium, loan payment, charge or surcharge; (ii) a return of seized assets; or (iii) a payment made in error; (6) moneys to be used to prevent, abate, restore, mitigate or control any identifiable instance of prior or ongoing water, land or air pollution; and/or (7) state moneys received as part of any statewide opioid settlement agreements as defined in section 25.18 of the mental hygiene law, to be spent on eligible expenditures as defined in section 25.18 of the mental hygiene law.

(c) Where an agreed judgment, stipulation, decree, agreement to settle, assurance of discontinuance or other legal instrument resolves (1) any claim or any cause of action asserted by a state agency or a state official or employee acting in their official capacity and (2) any claim or cause of action asserted by one or more foreign jurisdictions or third parties, paragraph (a) of this subdivision shall only apply to the resolution of the claim or cause of action asserted by the state agency, official, or employee.

17. The attorney general may investigate and prosecute every person or entity charged with the commission of a criminal offense in violation of the laws of this state applicable to any crime that affects the title to, encumbrance of, or the possession of real property, including but not limited to deed theft, larceny, criminal possession of stolen property, offering a false instrument for filing, falsifying business records, residential mortgage fraud, or scheme to defraud. In all such proceedings, the attorney general may appear in person or by the attorney general's deputy before any court of record or any grand jury and exercise all the powers and perform all the duties in respect of such actions or proceedings which the district attorney would otherwise be authorized or required to exercise or perform. Nothing herein shall in any way abrogate, supersede, or interfere with the authority of the district attorney of a county in which an offense occurs to investigate, initiate and/or prosecute any such crime.

18. Notwithstanding any other law to the contrary, in any civil enforcement action initiated by the attorney-general, neither the attorney-general nor the department of law has, or shall be deemed to have, possession, custody, or control of, or the right, authority, or practical ability to obtain documents, communications, other information, or personnel of any agency, entity, or authority other than the department of law.

§ 63-a. Action by attorney-general for forfeiture of public office.

The attorney-general may maintain an action, upon his own information or upon the complaint of a private person, against a public officer, civil

or military, who has done or suffered an act which by law works a forfeiture of his office.

§ 63-b. Action by attorney-general against usurper of office or franchise. 1. The attorney-general may maintain an action, upon his own information or upon the complaint of a private person, against a person who usurps, intrudes into, or unlawfully holds or exercises within the state a franchise or a public office, civil or military, or an office in a domestic corporation. The attorney-general may set forth in the complaint, in his discretion, the name of the person rightfully entitled to the office and facts showing his right thereto. Judgment may be rendered upon the right of the defendant and of the party so alleged to be entitled, or only upon the right of the defendant, as justice requires. Where two or more persons claim to be entitled to the same office or franchise, the attorney-general may bring the action against all to determine their respective rights thereto.

2. If the complaint sets forth the name of the person rightfully entitled to the office and the facts showing his right thereto, a provisional order to arrest the defendant may be granted by the court if the defendant by means of his usurpation or intrusion has received any fees or emoluments belonging to the office.

3. Where a defendant is adjudged to be guilty of usurping or intruding into or unlawfully holding or exercising an office, franchise or privilege, final judgment shall be rendered, ousting and excluding him therefrom, and in favor of the state or the relator, as the case requires, for the costs of the action. As a part of the final judgment in an action for usurping or intruding into or unlawfully holding or exercising an office, franchise or privilege, the court, in its discretion, also may award that the defendant, or, where there are two or more defendants, that one or more of them, pay to the state a fine not exceeding two thousand dollars. The judgment for the fine may be docketed and execution may be issued thereupon in favor of the state, as if it had been rendered in an action to recover the fine.

4. Where final judgment has been rendered upon the right and in favor of the person alleged in the complaint to be entitled to an office, he may recover, by action against the defendant, the damages which he has sustained in consequence of the defendant's usurpation, intrusion into, unlawful holding or exercise of the office.

§ 63-c. Action by the people for illegal receipt or disposition of public funds or other property. 1. Where any money, funds, credits, or other property, held or owned by the state, or held or owned officially or otherwise for or in behalf of a governmental or other public interest, by a domestic, municipal, or other public corporation, or by a board, officer, custodian, agency, or agent of the state, or of a city, county, town, village or other division, subdivision, department, or portion of the state, has heretofore been, or is hereafter, without right obtained, received, converted, or disposed of, an action to recover the same, or to recover damages or other compensation for so obtaining, receiving, paying, converting, or disposing of the same, or both, may be maintained by the state in any court of the state, or before any court or tribunal of the United States, or of any other state, or of any territory of the United States, or of any foreign country, having jurisdiction thereof, although a right of action for the same cause exists by law in some other public authority, and whether an action therefor in favor of the latter is or is not pending when the action in favor of the state is commenced. The attorney-general shall commence an action, suit or other judicial proceeding, as prescribed in this section, whenever he deems it for the interests of the state so to do; or whenever he is so directed, in writing, by the governor.

2. Upon the commencement by the state of any action, suit or other judicial proceeding, as prescribed in this section, the entire cause of action, including the title to the money, funds, credits, or other property, with respect to which the suit or action is brought, and to the damages or other compensation recoverable for the obtaining, receipt, payment, conversion or disposition thereof, if not previously so vested, is transferred to and becomes absolutely vested in the state.

3. Any court of the state in which an action is brought by the state, as prescribed in this section, may direct, by the final judgment therein, or by a subsequent order, that any money, funds, damages, credits, or other property, recovered by or awarded to the plaintiff therein, which, if that action had not been brought, would not have vested in the state, be disposed of, as justice requires, in such a manner as to reinstate the lawful custody thereof, or to apply the same or the proceeds thereof to the objects and purposes for which they were authorized to be raised or procured; after paying into the state treasury out of the proceeds of the recovery all expenses incurred by the state in the action.

4. Any corporation, board, officer, custodian, agency, or agent, in behalf of any city, county, town, village, or other division, subdivision, department, or portion of the state, which was not a party to an action, brought as prescribed in this section, and which claims to be entitled to the custody or disposition of any of the money, funds, damages, credits, or other property, recovered by, or awarded to the plaintiff, by the final judgment in the action, or any of the proceeds thereof, and not disposed of as prescribed in subdivision three, may bring a special proceeding against the attorney-general at any time after the actual collection of the money and its payment into the state treasury, or the actual receipt of the property by the state, in the supreme court, county of Albany, seeking disposition of the money or other property.

5. Notwithstanding any other law to the contrary, including without limitation; section sixty-four of this article; the education law; the retirement and social security law and the administrative code of the city of New York, the portion of all money received by the attorney general in connection with the settlement of an action arising out of the management, operation, investments of or otherwise in connection with a retirement or other fund established pursuant to the education law, the retirement and social security law or the administrative code of the city of New York attributable to the harm suffered by such fund shall be deposited into such fund.

§ 63-d. Attorney-general; death penalty prosecutions. 1. The attorney-general shall, whenever required by the governor or his designee after a request of the governor by a district attorney, direct that the resources and personnel of the department of law be used to provide assistance relating to the prosecution or appeal of any case where the defendant may be subject to the penalty of death. Such assistance shall include the use of any department resource or services, which the attorney-general deems proper, and may be performed or provided by the attorney-general or any employee of the department of law. Assistance pursuant to this section may only be provided with respect to proceedings where:

(i) the defendant is represented by counsel appointed pursuant to the provisions of section thirty-five-b of the judiciary law or the defendant is receiving expert, investigative or other services pursuant to such section, or

(ii) the defendant, through counsel retained privately by the defendant through his or her own means or through the means of a person other than the defendant, or through representation by pro bono counsel, is able to marshal substantially greater legal and investigatory resources than those reasonably available to the district attorney.

2. A request of the governor made by a district attorney for assistance in a death penalty case shall be accompanied by a certificate of need stating that as a result of cases where the defendant may be subject to the penalty of death additional resources or personnel are needed to supplement the district attorney's staff and available resources in order to fulfill such district attorney's responsibilities.

§ 63-e. Office of immigrant trust. 1. (a) There is hereby established an immigrant trust office in the department of law. The head of the unit shall be appointed by the attorney general.

(b) Notwithstanding any other provision of law, rule, or regulation to the contrary, the attorney general shall establish, through executive order, processes and procedures for screening such unit head and the entire unit from records, communication, and information related to the

civil defense of state officials and employees, and persons involved in the civil defense of state officials and employees from records, communication, and information relating to an investigation or investigations by such unit relating to potential violation of this law. The executive order establishing screens shall be sufficient to satisfy the rules of professional conduct regarding conflicts and to protect the rights of state officials and employees who are the subject of an investigation or civil action under this section by ensuring that the individuals conducting or otherwise involved in such investigation or civil action do not have access to any non-public records or information obtained in the course of the office's civil defense of state employees.

2. Notwithstanding any other provision of law, the immigrant trust office shall establish and maintain a process to solicit and receive complaints from the public alleging knowing, intentional, or willful violations of article fifteen-AA of this chapter, section one hundred seventy-k of this chapter, article nineteen-D of the general municipal law, and section thirty-two hundred one-b of the education law, by state and local entities, officers, or employees, or their contractors, including the improper or unlawful use of state or local resources for immigration enforcement and the improper or unlawful sharing of information by state or local entities, officers, or employees, or their contractors, with federal immigration authorities.

3. (a) The immigrant trust office shall have the power to investigate complaints or violations of article fifteen-AA of this chapter, section one hundred seventy-k of this chapter, article nineteen-D of the general municipal law, and section thirty-two hundred one-b of the education law. Such power shall also include the ability to:

- (i) take proof and issue subpoenas in accordance with the civil practice law and rules;

- (ii) subpoena and enforce the attendance of witnesses;

- (iii) administer oaths or affirmations and examine witnesses under oath;

- (iv) notwithstanding any laws to the contrary, examine and copy or remove documents or records of any kind prepared, maintained, or held by any employer or agency;

(v) visit and inspect all local correctional facilities, and speak with people detained therein for the purposes of investigating potential violations and ensuring compliance with this section; and

(vi) perform any other functions that are necessary or appropriate to fulfill the duties and responsibilities of office.

(b) The attorney general shall have the powers enumerated under paragraph (a) of this subdivision with respect to any entity covered by article fifteen-AA of this chapter, section one hundred seventy-k of this chapter, article nineteen-D of the general municipal law, and section thirty-two hundred one-b of the education law, and its employees and agents as outlined in this section, except:

(i) agencies under the executive authority of the governor;

(ii) entities that are statutorily entitled to representation by the department of law;

(iii) entities whose officers and employees are statutorily entitled to representation by the department of law; and

(iv) entities that are subject to the jurisdiction of the New York court of claims.

(c) Upon referral by the governor, the attorney general shall have the powers enumerated under paragraph (a) of this subdivision with regard to employees and agents of:

(i) agencies under the executive authority of the governor;

(ii) entities that are statutorily entitled to representation by the department of law pursuant to section seventeen of the public officers law;

(iii) entities whose officers and employees are statutorily entitled to representation by the department of law; and

(iv) entities that are subject to the jurisdiction of the New York court of claims.

(d) Nothing in this section shall in any way limit rights or remedies which are otherwise available under law to the attorney general or any other person.

4. Upon receipt and review of a complaint, deemed credible, of a violation of article fifteen-AA of this chapter, or section one hundred seventy-k of this chapter, or upon its own initiative when the office learns through the regular course of its duties of a suspected violation

of article fifteen-AA of this chapter, or section one hundred seventy-k of this chapter, the office shall, where the alleged violation involves a state agency or a state employee, transmit a request for a referral regarding such credible complaint to the governor. The governor shall review such request and make a determination on whether to refer the matter to the office for investigation, and upon such referral back to the office, the office shall investigate the alleged violation and, if warranted, may commence a civil action for appropriate injunctive or declaratory relief, enter into assurances of discontinuance, or seek the imposition of a period of monitoring of the state entity by the office.

5. Upon receipt of a complaint deemed credible of a violation of article nineteen-D of the general municipal law, or section one hundred seventy-k of this chapter, or upon its own initiative when the office learns through the regular course of its duties of a suspected violation of article nineteen-D of the general municipal law, or section one hundred seventy-k of this chapter that involves a county, locality, or municipal corporation entity or employee, the office shall, notwithstanding any other provision of law, investigate the matter and, if warranted, may commence a civil action for appropriate injunctive or declaratory relief, enter into assurances of discontinuance, or seek the imposition of a period of monitoring of the municipal government entity by the office.

6. Upon receipt of a complaint deemed credible of a violation of section thirty-two hundred one-b of the education law or upon its own initiative when the office learns through the regular course of its duties of a suspected violation of such section, the office shall, notwithstanding any other provision of law, investigate the matter and, if warranted, may commence a civil action for appropriate injunctive or declaratory relief, enter into assurances of discontinuance, or seek the imposition of a period of monitoring of the school by the office.

§ 64. Costs recovered. Costs recovered by the attorney-general may be applied by him in payment of the expenses incurred by him in the action or proceeding in which they are received, or of any expenditure which he

is authorized to incur not otherwise provided for. He shall, at the close of each fiscal year, render to the comptroller an account of such costs received, with vouchers of such expenditures. During the fiscal year, the comptroller is authorized to transfer any amount available within the account dedicated for this purpose to the general fund, upon the request of the director of the budget. In the event insufficient cash remains in such account to meet expenditures against available appropriations from such account, the comptroller is authorized to transfer the amounts necessary to meet such expenditures from the general fund; provided however that in no event shall the cumulative value of any such transfers from the general fund made to such account within a single fiscal year exceed ten percent of the value of the appropriations made in such fiscal year from such account or the cumulative balance of transfers from the account to the general fund. The comptroller shall establish such accounts and records as are necessary to provide an accurate accounting and reporting of the transfers to or from the general fund.

§ 65. Register. The attorney-general shall keep a register of all actions and proceedings prosecuted or defended by him, and of all proceedings in relation thereto, and shall deliver the same to his successor.

§ 66. Destruction of certain records, books and other data by the attorney-general. In any action or proceeding or by other process of law, in which a money judgment or award shall have been procured in favor of the people of the state of New York, any department of the state of New York, or duly constituted division, bureau or board thereof, and which judgment or award has been duly paid and satisfied, the department of law, with the consent of the commissioner of education as provided by section one hundred forty-seven of the education law, may after the expiration of six years from the time of payment of said judgment or award destroy all statistics, documents and papers filed with or used by the department of law in procuring said judgment or award.

§ 67. Additional counsel. The governor or attorney-general may designate and employ such additional attorneys or counsel as may be necessary to assist in the transaction of any of the legal business mentioned in section sixty-three of this chapter and such attorneys or counsel shall be paid a reasonable fee upon the certificate of the governor and attorney-general, the amount thereof to be audited and allowed by them or to be paid by the attorney-general out of costs, penalties and judgments collected by him, prior to the payment thereof into the state treasury as required by section one hundred twenty-one of the state finance law.

§ 70. Deputy attorney-general to act as special district attorney.

Whenever the governor shall advise the attorney-general that he has reason to doubt whether in any county the law relating to crimes against the elective franchise is properly enforced, the attorney-general shall require from the district attorney of such county, and it shall be the duty of such district attorney forthwith to make to the attorney-general a report of all prosecutions and complaints within his county during the year then last past for offenses under the election law and of the action had thereon.

The attorney-general shall assign one or more of his deputies to take charge of prosecutions under the election law. Such deputy shall represent the people of this state in all such prosecutions before all magistrates and in all courts and before any grand jury having cognizance thereof. The deputies so assigned shall be appointed pursuant to section sixty-two of this chapter. They may be especially appointed thereunder for the purpose of such assignment and for the performance of the duties herein described.

Whenever the attorney-general shall advise the governor that there is occasion for an extraordinary term in any such county to inquire into and try cases arising under article sixteen of the election law, the

governor may appoint an extraordinary term of the supreme court to be constituted and held for the trial of criminal cases in such county, pursuant to section one hundred forty-nine of the judiciary law. Grand and petit juries shall be drawn and summoned for said term in the manner provided by law, and such cases shall be brought before such inquest and court as the attorney-general shall direct. All the provisions of sections sixty-three and sixty-seven of this chapter shall apply to such extraordinary term.

It shall be the duty of the district attorney of the county, and of the assistants, clerks and employees in his office, and of all police authorities, officers and men within any such county, to render to the attorney-general and his deputy whenever requested, all aid and assistance within their power in such prosecutions and in the conduct of such cases. The jurisdiction conferred upon the attorney-general herein to prosecute crimes, is concurrent in each county with that of the district attorney; but whichever of such officers shall first assume jurisdiction of a particular offense shall have exclusive jurisdiction to prosecute for the same unless or until the governor shall, by written order filed with both such officers, give such jurisdiction to the other.

§ 70-a. Statewide organized crime task force. 1. There shall be established within the department of law a statewide organized crime task force which, pursuant to the provisions of this section, shall have the duty and power:

(a) To conduct investigations and prosecutions of organized crime activities carried on either between two or more counties of this state or between this state and another jurisdiction;

(b) To cooperate with and assist district attorneys and other local law enforcement officials in their efforts against organized crime.

2. Notwithstanding any other provision of law, the governor and the attorney general may, and without civil service examination, jointly appoint and employ, fix his compensation, and at pleasure remove, a deputy attorney general in charge of the organized crime task force. The

attorney general may, and without civil service examination, appoint and employ, and at pleasure remove, such assistant deputies, accountants and other persons as he deems necessary, determine their duties and, with the approval of the governor, fix their compensation. The payments of salaries and compensation of such officers and employees shall be in the same manner as is prescribed in subdivision eight of section sixty-three of this chapter.

3. The deputy attorney general in charge of the organized crime task force may request and shall receive from the division of state police, the state department of taxation and finance, the state department of labor, the temporary state commission of investigation, and from every department, division, board, bureau, commission or other agency of the state, or of any political subdivision thereof, cooperation and assistance in the performance of his duties. Such deputy attorney general may provide technical and other assistance to any district attorney or other local law enforcement official requesting such assistance in the investigation or prosecution of organized crime cases.

4. The deputy attorney general in charge of the organized crime task force is empowered to conduct hearings at any place within the state, to administer oaths or affirmations, subpoena witnesses, compel their attendance, examine them under oath or affirmation, and require the production of any books, records, documents or other evidence he may deem relevant or material to an investigation. He is empowered to apply for search warrants pursuant to article six hundred ninety of the criminal procedure law, and, except in exigent circumstances, shall give prior notice of the application to the district attorney of the county in which such a warrant is to be executed, and in such circumstances, shall give such notice as soon thereafter as practicable; provided, however, that the failure to give notice of a search warrant application to a district attorney shall not be a ground to suppress the evidence seized in executing the warrant. He may designate an assistant to exercise any such powers. Every witness attending before such deputy attorney general or his assistant shall be examined privately and the particulars of such examination shall not be made public. If a person subpoenaed to attend upon such inquiry fails to obey the command of a

subpoena without reasonable cause, or if a person in attendance upon such inquiry shall, without reasonable cause, refuse to be sworn or to be examined or to answer a question or to produce a book or paper, when ordered so to do by the officer conducting such inquiry, he shall be guilty of a class A misdemeanor.

5. Upon the application of the deputy attorney general in charge of the organized crime task force, the supreme court or a justice thereof may impound any exhibit marked in evidence in any hearing held in connection with an investigation conducted by such deputy attorney general, and may order such exhibit to be retained by, or delivered to and placed in the custody of, such deputy. When so impounded, such exhibit shall not be taken from the custody of such deputy except upon further order of the court or a justice thereof made upon five days notice to such deputy, or upon his application or with his consent.

6. In any hearing held in connection with an investigation conducted by the deputy attorney general in charge of the organized crime task force, the attorney general may confer immunity in accordance with the provisions of section 50.20 of the criminal procedure law, but only after affording the appropriate district attorney the opportunity to be heard in respect to any objections which he may have to the granting of such immunity.

7. With the approval of the governor and with the approval or upon the request of the appropriate district attorney, the deputy attorney general in charge of the organized crime task force, or one of his assistants, may attend in person any term of the county court or supreme court having appropriate jurisdiction, including an extraordinary special or trial term of the supreme court when one is appointed pursuant to section one hundred forty-nine of the judiciary law, or appear before the grand jury thereof, for the purpose of managing and conducting in such court or before such jury a criminal action or proceeding concerned with an offense where any conduct constituting or requisite to the completion of or in any other manner related to such offense occurred either in two or more counties of this state, or both within and outside this state. In such case, such deputy attorney

general or his assistant so attending shall exercise all the powers and perform all the duties in respect of such actions or proceedings, which the district attorney would otherwise be authorized or required to exercise or perform. In any of such actions or proceedings the district attorney shall only exercise such powers and perform such duties as are required of him by such deputy attorney general.

§ 70-b. Office of special investigation. 1. There shall be established within the office of the attorney general an office of special investigation. Notwithstanding any other provision of law, the office of special investigation shall investigate and, if warranted, prosecute any alleged criminal offense or offenses committed by a person, whether or not formally on duty, who is a police officer, as defined in subdivision thirty-four of section 1.20 of the criminal procedure law, or a peace officer as defined in section 2.10 of the criminal procedure law, provided that such peace officer is employed or contracted by an education, public health, social service, parks, housing or corrections agency, or is a peace officer as defined in subdivision twenty-five of section 2.10 of the criminal procedure law, concerning any incident in which the death of a person, whether in custody or not, is caused by an act or omission of such police officer or peace officer or in which the attorney general determines there is a question as to whether the death was in fact caused by an act or omission of such police officer or peace officer.

2. The attorney general has investigative authority and criminal jurisdiction under this section at the time of the death of the person and the attorney general retains investigative authority and criminal jurisdiction over the incident unless the attorney general determines that such incident does not meet the requirements of this section. If the attorney general determines the incident does not meet the requirements for the attorney general to have investigative authority and criminal jurisdiction pursuant to this section, the attorney general shall, as soon as practicable, provide written notice of such determination to the district attorney for the county in which the incident occurred.

3. In connection with any particular incident encompassed by this section, the attorney general shall conduct a full, reasoned and independent investigation, including but not limited to: (a) gathering and analyzing evidence; (b) conducting witness interviews; (c) reviewing and commissioning any necessary investigative and scientific reports; and (d) reviewing audio and video-recordings. The attorney general shall be empowered to subpoena witnesses, compel their attendance, examine them under oath before himself or herself or a magistrate and require that any books, records, documents or papers relevant or material to the inquiry be turned over to him or her for inspection, examination or audit, pursuant to the civil practice law and rules, in connection with such incident.

3-a. (a) The attorney general shall maintain the confidentiality of all video footage and audio recordings received and reviewed.

(b) Disclosure of any audio recordings or video footage shall be delayed, at the attorney general's discretion, only if such a disclosure would compromise an ongoing criminal investigation or prosecution, or at the request of the decedent's family.

(c) Redactions of audio records or video footage shall be made pursuant to its video release policy.

(d) Nothing in this subdivision shall be construed to prohibit or restrict the disclosure of audio recordings or video footage to any person or entity otherwise lawfully entitled to receive such recordings or footage pursuant to law, court order, or lawful process.

4. The attorney general shall have criminal jurisdiction over any criminal conduct arising from any incident herein, and shall exercise all of the powers and perform all of the duties with respect to such actions or proceedings that a district attorney would otherwise be authorized or required to exercise or perform, including all the powers necessary to prosecute acts and omissions and alleged acts and omissions to obstruct, hinder or interfere with any inquiry, prosecution, trial or judgment arising from the incident. The criminal jurisdiction of the office of special investigation shall displace and supersede the jurisdiction of the district attorney where the incident occurred; and

such district attorney shall only have the powers and duties reserved to him or her in writing by the attorney general.

5. The attorney general shall designate a deputy attorney general for special investigation to exercise the powers and duties of the office of special investigation, who shall be in the exempt class of the civil service. The deputy attorney general may designate deputies or assistants, who shall be in the exempt class of the civil service, as necessary and appropriate. The other employees of the office of special investigation within the department of law, who are not otherwise exempt, shall all be in the competitive class of the civil service and shall be considered for purposes of article fourteen of the civil service law to be public employees in the civil service of the state, and shall be assigned to the appropriate collective bargaining unit. Employees serving in positions in newly created titles shall be assigned to the same collective bargaining units as they would have been assigned to were such titles created prior to the establishment of the office of special investigation within the department of law by this chapter. The deputy attorney general for special investigation may appear and conduct proceedings in person or by his or her deputy or assistant before any court or grand jury in connection with proceedings under this section.

6. (a) For any incident under this section, the office of special investigation shall issue a public report and post the report on its website whenever the office of special investigation initiates an investigation and (i) the office of special investigation declines to present evidence to a grand jury or (ii) the office of special investigation does present evidence to a grand jury but the grand jury declines to return indictment on any charges. The report will include, to the extent possible and lawful, the results of the investigation of the incident.

(b) The report shall also include: (i) with respect to subparagraph (i) of paragraph (a) of this subdivision, an explanation as to why the office of special investigation declined to present evidence to a grand jury; and (ii) any recommendations for systemic or other reforms arising from the investigation.

7. Six months after this subdivision takes effect, and annually on such date thereafter, the office of special investigation shall issue a report, which shall be made available to the public and posted on the website of the department of law, which shall provide information on the matters investigated by such office during such reporting period. The information presented shall include, but not be limited to: the county and geographic location of each matter investigated; a description of the circumstances of each case; racial, ethnic, age, gender and other demographic information concerning the persons involved or alleged to be involved; information concerning whether a criminal charge or charges were filed against any person involved or alleged to be involved in such matter; the nature of such charges; and the status or, where applicable, outcome with respect to all such criminal charges. Such report shall also include recommendations for any systemic or other reforms recommended as a result of such investigations.

8. (a) Notwithstanding any other provision of law, rule or regulation to the contrary, in a matter in which the attorney general's authority established under this section conflicts, or has a reasonable risk of conflicting, with the attorney general's representation of state employees in civil litigation under section seventeen of the public officers law, the attorney general may designate a deputy attorney general or assistant attorney general, including any person designated under subdivision five of this section, as provided by section nine of the public officers law, to act as attorney general for that matter in the attorney general's stead.

(b) Notwithstanding any other provision of law, rule or regulation to the contrary, the attorney general shall establish through rules and regulations, processes and procedures for screening (i) the person so designated pursuant to paragraph (a) of this subdivision, and the entire prosecution team, from records, communication, and information related to the civil defense of a police officer or peace officer as defined in subdivision one of this section, and (ii) persons involved in the civil defense of a police officer or peace officer as defined in subdivision one of this section from records, communication, and information related to the investigation and, where appropriate, prosecution of state peace or police officers under this section. The rules and regulations

establishing screens shall be sufficient to satisfy the rules of professional conduct regarding conflicts and to protect the rights of state peace and police officers who are the subject of an investigation or prosecution under this section by ensuring that the individuals conducting or otherwise involved in such investigation or prosecution do not have access to any confidential information obtained in the course of the office's civil defense of state employees.

§ 70-c. Task force on social media and violent extremism. 1.

Establishment and organization. (a) There is hereby established a task force on social media and violent extremism within the department of law.

(b) to determine, with respect to such allegations, whether social media companies may be civilly or criminally liable for their role in promoting, facilitating, or providing a platform for individuals and groups to plan and promote acts of violence as described in paragraph (c) of subdivision one of this section, or whether further investigation by the department of law is warranted or whether a referral to an appropriate federal, state or local law enforcement agency is necessary, and to assist in such investigations, if requested by a federal, state, or local law enforcement agency;

(c) to prepare and make public reports regarding the work of the task force, provided, however that such reports shall not include confidential or other protected information or any information that pertains to or may interfere with ongoing or future investigations;

(d) to review and examine periodically the use, operations, policies, programs, and practices of social media companies and any role they may have in promoting, facilitating, and providing platforms for individuals and groups to plan and promote acts of violence as described in paragraph (c) of subdivision one of this section;

(e) to cooperate with and assist the division of homeland security and emergency services or any other state or local agency as may be appropriate in their efforts to counter acts of violence as described in paragraph (c) of subdivision one of this section;

(f) to review the final report of the domestic terrorism task force established pursuant to section six of part R of chapter fifty-five of the laws of two thousand twenty, setting forth the findings, conclusions, recommendations, and activities of the task force, to examine and evaluate how to prevent mass shootings by domestic terrorists in New York state in furtherance of the goals of the task force on social media and violent extremism;

§ 71. Attorney-general authorized to appear in cases involving the constitutionality of an act of the legislature, or a rule or regulation adopted pursuant thereto. 1. Whenever the constitutionality of a statute, or a rule or regulation adopted pursuant thereto is brought into question upon the trial, hearing or appeal of any action or proceeding, civil or criminal, in any court of record of original or appellate jurisdiction, and proof of the notice of such constitutional challenge, as required by paragraph one of subdivision (b) of section one thousand twelve of the civil practice law and rules, has not been filed, the court or justice before whom such action or proceeding is pending, shall make an order, directing the party desiring to raise such

question, to serve notice thereof on the attorney-general, and providing that the attorney-general be permitted to appear at any such trial or hearing in support of the constitutionality of such statute, or rule or regulation adopted pursuant thereto. The court or justice before whom any such action or proceeding is pending may also make such order upon the application of any party thereto, and the court shall make such order in any such action or proceeding upon motion of the attorney-general. When such order has been made in any manner mentioned in this section and notice pursuant to such order has been given, the attorney-general shall be permitted to appear in such action or proceeding in support of the constitutionality of such statute, or a rule or regulation adopted pursuant thereto.

2. In the event the constitutionality of a statute, or rule or regulation adopted pursuant thereto is brought into question and the party questioning such constitutionality, or any other party to the action or proceeding serves the attorney-general pursuant to paragraph one of subdivision (b) of section one thousand twelve of the civil practice law and rules, proof of such service upon the attorney-general shall be accepted by the court in satisfaction of the provisions of subdivision one of this section.

3. The court having jurisdiction in an action or proceeding in which the constitutionality of a statute, rule or regulation is challenged, shall not consider any challenge to the constitutionality of such statute, rule or regulation unless proof of service of the notice required by this section or required by subdivision (b) of section one thousand twelve of the civil practice law and rules is filed with such court.

3. Functions, duties and responsibilities. The inspector shall have the following functions, duties and responsibilities:

§ 90. Department of state; secretary of state. There shall be in the state government a department of state. The head of the department shall be the secretary of state who shall be appointed by the governor by and with the advice and consent of the senate and hold office until the end of the term of the governor by whom he was appointed and until his successor is appointed and has qualified. The secretary of state shall receive an annual salary within the amount appropriated therefor and his reasonable expenses when necessarily absent on public business pertaining to the duties of his office.

In addition to those divisions created and continued within the Department of State by other statutes, the secretary of state may establish such other divisions and bureaus in the department of state as he may deem necessary. He may prescribe the duties and powers of such divisions and bureaus which shall be exercised and performed under his supervision.

§ 91. Rules. Subject to and in conformity with the provisions of the constitution and laws of the state, the secretary of state may adopt and promulgate such rules which shall regulate and control the exercise of the powers of the department of state and the performance of the duties of officers, agents and other employees thereof.

§ 92. Deputies. The secretary of state shall appoint a deputy, who may perform all the duties of the secretary of state. Any such deputy shall receive an annual salary to be fixed by the secretary of state within the amount appropriated therefor. The secretary of state may also appoint and fix the compensation of such other deputies, assistants and employees as he shall deem necessary within the amount appropriated therefor and prescribe their powers and duties.

§ 93. Custody of records. 1. The secretary of state shall have the custody of all laws and concurrent resolutions of the legislature, all documents issued under the great seal, all books, records, deeds, parchments, maps and papers deposited or kept in his or her office, and shall properly arrange and preserve them.

2. The records in the custody of the secretary of state need not be retained in the form in which the record is received so long as the technology used to retain such record results in a permanent record which may be accurately reproduced during the period for which the record is required to be retained. The secretary of state may promulgate rules and regulations relating to the use by the department of state of automatic data processing, telecommunications and other information technologies for the processing of records for retention by the department of state.

§ 93-a. Examination of reports. The secretary of state shall examine all reports required to be filed with the department of state pursuant to article seven-A of this chapter in order to determine the nature and extent of the in-kind support provided by any covered entity to one or

more recipient entities, as such terms are defined in section one hundred seventy-two-e of this chapter, and the nature and extent of covered communications by any covered entity, as such terms are defined in section one hundred seventy-two-f of this chapter. Notwithstanding any inconsistent provision of law, whenever the secretary of state, in consultation with the department of taxation and finance or the department of law, determines that the nature and extent of a covered entity's in-kind support to other entities or the nature and extent of a covered entity's spending on covered communications is inconsistent with the charitable purposes of such covered entity, the secretary shall cause the reports required by article seven-A of this chapter filed by such entity to be published on the website of the department of state upon such finding. Provided, however, that such publishing shall not include the names and addresses of individual donors to covered entities nor shall such publishing include the covered entity's Internal Revenue Service Form 990 Schedule B. The secretary shall report to the governor, the temporary president of the senate and the speaker of the assembly, by December thirty-first, two thousand twenty-two, and annually thereafter, on topics including but not limited to: the nature and extent of in-kind support provided by covered entities to recipient entities, as such terms are defined in section one hundred seventy-two-e of this chapter and the nature and extent of expenditures for covered communications. § 94. Commission on ethics and lobbying in government. 1. (a) Commission established. If any commissioner determines a conflict of interest may exist, the commissioner shall, in writing, notify the other members of the commission setting forth the possible conflict of interest. The commissioner may recuse themselves from all subsequent involvement in the consideration and determination of the matter. If, after the disclosure, the commissioner does not recuse themselves from the matter, the commission, by a majority vote finding that the disclosed information creates a substantial conflict of interest, shall remove the conflicted commissioner from all subsequent involvement in the consideration and determination of the matter, provided the reason for the decision is clearly stated in the determination of the commission.

(c) The commission shall conduct any investigation necessary to carry out the provisions of this section. Pursuant to this power and duty, the commission may administer oaths or affirmations, subpoena witnesses, compel their attendance and testimony, and require the production of any books or records which it may deem relevant or material. The respondent shall have fifteen days from receipt of the written notice to provide any preliminary response or information the respondent determines may benefit the commission or commission staff in its work. After the review and investigation, the staff shall prepare a report to the commission setting forth the allegation or allegations made, the evidence gathered in the review and investigation tending to support and disprove, if any, the allegation or allegations, the relevant law, and a recommendation for the closing of the matter as unfounded or unsubstantiated, for settlement, for guidance, or moving the matter to a confidential due process hearing. The commission shall, by majority vote, return the matter to the staff for further investigation or accept or reject the staff recommendation.

(g) In an investigation involving a victim the commission shall ensure

that any interview of such victim is upon such victim's consent and that the investigator or investigators interviewing such victim have adequate trauma informed and victim centered investigative training. If a victim is requested to testify at a hearing, the commission shall provide sufficient notice to the victim of such request. Regardless of whether a victim is requested to or testifies at a hearing, the victim shall be informed as to how any statements made or information provided will be used in an investigation.

(h) Upon the conclusion of an investigation, if the commission, after consideration of a staff report, determines by majority vote that there is credible evidence of a violation of the laws under its jurisdiction, it shall provide the respondent timely notice for a due process hearing. The commission shall also inform the respondent of its rules regarding the conduct of adjudicatory proceedings and appeals and the other due process procedural mechanisms available to the respondent. If after a hearing the complaint is unsubstantiated or unfounded, the commission shall provide written notice to the respondent, complainant, if any, and victim, if any, provided that such notice shall not include any personally identifying information or information tending to identify any party involved in an investigation.

(i) The hearing shall be conducted before an independent arbitrator. Such hearing shall afford the respondent with a reasonable opportunity to appear in person, and by attorney, give sworn testimony, present evidence, and cross-examine witnesses.

(j) The commission may, at any time, develop procedures and rules for resolution of de minimus or minor violations that can be resolved outside of the enforcement process, including the sending of a confidential guidance or educational letter.

(k) The jurisdiction of the commission when acting pursuant to this section shall continue notwithstanding that a statewide elected official or a state officer or employee or member of the legislature or legislative employee separates from state service, or a political party chair ceases to hold such office, or a candidate ceases to be a candidate, or a lobbyist or client of a lobbyist ceases to act as such, provided that the commission notifies such individual or entity of the alleged violation of law within two years from the individual's separation from state service or termination of party service or

candidacy, or from the last report filed pursuant to article one-A of the legislative law. Nothing in this section shall serve to limit the jurisdiction of the commission in enforcement of subdivision eight of section seventy-three of the public officers law.

(l) If the commission's vote to proceed to a due process hearing after the completion of an investigation does not carry, the commission shall provide written notice of the decision to the respondent, complainant, if any, and victim, if any, provided that such notice shall not include any personally identifying information or information tending to identify any party involved in an investigation.

(m) If the commission determines a complaint or referral lacks specific and credible evidence of a violation of the laws under its jurisdiction, or a matter is closed due to the allegations being unsubstantiated prior to a vote by the commission, such records and all related material shall be exempt from public disclosure under article six of the public officers law, except the commission's vote shall be publicly disclosed in accordance with articles six and seven of the public officers law. The commission shall provide written notice of such closure to the respondent, complainant, if any, or victim, if any, provided that such notice shall not include any personally identifying information or information tending to identify any party involved in an investigation.

(o) The commission shall be deemed to be an agency within the meaning of article three of the state administrative procedure act and shall adopt rules governing the conduct of adjudicatory proceedings and appeals taken pursuant to a proceeding commenced under article seventy-eight of the civil practice law and rules relating to the assessment of the civil penalties or the recommendation of employee discipline herein authorized. Such rule shall provide for due process procedural mechanisms substantially similar to those set forth in article three of the state administrative procedure act but such mechanisms need not be identical in terms or scope.

The commission shall provide to the legislative ethics commission copies of the full investigative file and hearing record.

(ii) With respect to the investigation of any individual who is not a member of the legislature or a legislative employee or candidate for member of the legislature, if after its investigation and due process hearing, the commission has found, by a majority vote, a substantial basis to conclude that the individual or entity has violated the public officers law, section one hundred seven of the civil service law, or the legislative law, the commission shall determine whether, in addition to or in lieu of any fine authorized by this article, the matter should be referred to their employer for discipline with a warning, admonition, censure, suspension or termination or other appropriate discipline. With regard to statewide elected officials, the commission may not order suspension or termination but may recommend impeachment. Within five days of the filing of such emergency measure in the office of the department of state, the agency taking such action shall send or transmit, as the case may be, the temporary president of the senate and

the speaker of the assembly a notification containing the information required by subdivision two of this section; provided, however, such notification shall also: (a) include a brief statement setting forth the reasons why the agency finds that it is necessary for the preservation of the public health, safety or general welfare to dispense with the requirements of subdivision two of this section and adopt the rule as an emergency measure, and (b) provide the date the emergency measure will terminate if the agency does not intend to adopt such measure as a permanent rule, or indicate that the agency intends to adopt such measure as a permanent rule, in which case compliance with the notification requirements of this section shall be deemed satisfied. The effectiveness of any such emergency measure, unless adopted as a permanent rule in the manner prescribed by law, shall not exceed ninety days after the filing of such measure in the office of the department of state, provided, however, if such emergency measure is readopted prior to the expiration of such ninety day period such readoption and any subsequent readoptions shall remain in effect for no longer than sixty days.

4. The legislature in the joint rules of the senate and assembly may exempt from the requirements of this section certain rules which have or would have no significant fiscal implications.

5. This section does not relieve any agency from compliance with any statute requiring that its rules be filed with or approved by designated persons or bodies before they become effective.

6. A proceeding to invalidate any rule on the ground of noncompliance with the procedural requirements of this section must be commenced by the temporary president of the senate or the speaker of the assembly within four months from the effective date of the rule. 3. Upon the receipt of such an application, the agency which adopted the rule shall forthwith by order suspend its applicability to the petitioning municipal corporation for the balance of such corporation's current fiscal year, unless the agency determines by order, within

thirty days of receipt of such application, that the immediate implementation of the rule is necessary for public health, safety or welfare, or that its postponement would be contrary to express provision of law. A copy of any order issued pursuant to this section shall be sent to the temporary president of the senate, the speaker of the assembly and the administrative regulations review commission.

4. This section shall not relieve a municipal corporation from complying with a rule until such time that the agency which has adopted the rule shall issue an order pursuant to this section suspending its applicability to such corporation.

§ 102. Filing and publication of codes, rules and regulations. 1. a. No code, rule or regulation shall become effective until it is filed with the secretary of state, unless a later date is required by statute or is specified by such code, rule or regulation.

b. identification of such material, including but not limited to: applicable titles, dates, editions, page numbers, section numbers, and authors, the names and addresses of the publisher from whom a copy may be obtained, and the designated office or offices of the adopting agency at which such material is available for public inspection and copying.

d. No amendment to any material identified pursuant to paragraph c of this subdivision shall be effective unless adopted in compliance with the applicable provisions of law and filed with the secretary of state pursuant to this section.

e. The secretary of state shall promulgate rules establishing procedure, forms, style and font for submission of every such code, rule and regulation required to be submitted by this section.

2. Immediately upon adopting any new code, rule or regulation including any rule as defined in the state administrative procedure act, or any amendment to or repeal thereof, except such as relate solely to the organization or internal management of a department, board, bureau, authority, commission or other agency of the state, the original thereof shall be filed in the office of the department of state. Attached thereto shall be a certificate, in a form prescribed by the secretary of state, citing the statutory authority including particular sections and subdivisions pursuant to which each such change or new code, rule or regulation was adopted, the date of adoption, and the date of publication in the state register of the notice required under the provisions of the state administrative procedure act as well as the date and manner of publication of any additional prior notice required under any other statute. Such certificate shall be signed by the head of the department, board, bureau, authority, commission, or other agency of the state, or if such head is a board or commission, by the chairman or secretary thereof, or, in lieu of such signatures, it may be signed by a person designated by such head or chairman aforementioned, provided such designation is made in writing, contains therein the signature of the

person designated, and is filed with the department of state. The secretary of state shall reject any rule submitted for filing in the event that either the notice required by subdivision five or six of section two hundred two of the state administrative procedure act, or the attached certificate, reveals that the rule was not adopted in substantial compliance with section two hundred two of such act.

3. It shall be the duty of the secretary of state to prepare a master compilation of all such codes, rules and regulations in such form and order as he may determine. He shall not, however, change the language of any existing code, rule or regulation except a title or explanatory caption; but he shall recommend any such change as he may deem advisable to the department, board, bureau, officer, authority, commission or other agency of the state authorized to adopt such code, rule or regulation. Such master compilation shall include all codes, rules and regulations except such as relate solely to the organization or internal management of a department, board, bureau, authority, commission or other agency of the state, in effect on the first day of January, nineteen hundred forty-five, and which he shall certify as a true copy of the master compilation prepared by him.

in the Code of Federal Regulations or in the Federal Register; or (ii) readily available without charge on the internet to the legislative library and, within each judicial department of the state, one court law library designated by the chief administrator of the courts; provided that for materials readily available on the internet, the agency shall identify the address at which such materials can be accessed;

d. notwithstanding any provisions of law to the contrary, photocopies of any codes, rules and regulations shall be available to the public upon payment of a fee not to exceed twenty-five cents per page; and

e. the secretary of state shall cause such compilation to be printed; however, he may exclude from such printed compilation any previously published portion of a rule which is precisely identified in the text thereof pursuant to paragraph c of subdivision one of this section.

5. The compilation printed pursuant to paragraph e of subdivision four of this section shall be known as the "official compilation of codes, rules and regulations of the state of New York" and shall presumptively establish the codes, rules and regulations of the state of New York, except such as relate solely to the organization or internal management of a department, board, bureau, authority, commission or other agency of the state, in force and effect on the first day of January, nineteen hundred forty-five. The official supplements to such compilation published as hereinafter provided shall presumptively establish any changes in such codes, rules and regulations and any new codes, rules or regulations except such as relate solely to the organization or internal management of a department, board, bureau, authority, commission or other agency of the state, affected by addition, amendment or repeal, or adopted during the period ending on the thirty-first day of December in any year immediately preceding the publication of such supplement. Nothing in such official compilation or any new edition thereof or official supplement thereto shall be construed as repealing or amending any code, rule or regulation adopted by any department, board, bureau, authority, commission or other agency of the state, and in case of any inconsistency arising through omission or otherwise between the official compilation and such codes, rules and regulations as filed in the office

of the secretary of state, the latter shall prevail.

§ 103. Future editions and supplements of official compilations. 1.

In any year the secretary of state may, whenever he shall believe that the public interest will be served thereby, cause a new edition of such official compilation or any volume thereof to be published, which compilation shall be published as soon as practicable, and shall set forth the codes, rules and regulations except such as relate solely to the organization or internal management of a department, board, bureau, authority, commission or other agency of the state on file in the office of the department of state on the date as of which such new edition is published.

2. The secretary of state may, whenever he deems it to be necessary, cause to be published an official supplement to the official compilation, showing all new and all changes in existing codes, rules and regulations adopted since the effective date of the codes, rules and regulations embraced in the latest edition of the official compilation or since the end of the period covered by the preceding supplement.

3. Any new edition of such compilation published as heretofore provided, and any supplementation thereof or thereto, shall presumptively establish that the codes, rules and regulations contained therein are on file in the department of state, and are effective, unless otherwise stated, on the date as of which such new edition, or any volume thereof, or a supplementation thereto, is published.

4. Any code, rule or regulation contained in any new edition of the official compilation, or any volume thereof, or any supplementation thereto, shall not be printed in any official supplement published for any period prior to the date as of which such new edition, volume, or supplementation is published.

§ 104. Departmental cooperation. The secretary of state may advise with the several departments, boards, bureaus, officers, authorities,

commissions and other agencies of the state which are authorized by statute to issue codes, rules or regulations, to the end that the same may, so far as possible, be uniform in style and form, be properly numbered and captioned and be free from matter which is obsolete.

§ 104-a. Departmental cooperation regarding water quality. The secretary of state shall cooperate with the environmental facilities corporation to establish methods to facilitate loans to eligible borrowers and to develop educational materials for eligible borrowers about the low-interest loans available through the water pollution control linked deposit program, established by article sixteen of the state finance law, and to develop an application form to be provided to lenders for linked deposit loan requests. For residential and small business on-site wastewater treatment systems projects, the department shall require owners of such systems to submit the results of inspections of such systems at the time of an application for financial assistance pursuant to article sixteen of the state finance law. The department may promulgate rules and regulations necessary and reasonable for the operation of the program, including but not limited to standards for the inspection of residential and small business on-site wastewater treatment systems.

§ 105. Changes in codes, rules or regulations. Changes in any code, rule or regulation except such as relates solely to the organization or internal management of a department, board, bureau, authority, commission or other agency of the state shall be made by a department, board, bureau, officer, authority, commission or other agency of the state only by addition, amendment or repeal. Every resolution or order affecting such an addition, amendment or repeal shall refer to the appropriate title and to the appropriate section or paragraph as published in the official compilation or supplement thereto. In the case of a proposed new code, rule or regulation except such as relates solely to the organization or internal management of a department, board, bureau, authority, commission or other agency of the state for which there is no appropriate title, the head of such department, board,

bureau, authority, commission or other agency of the state shall confer with the secretary of state and shall, prior to the adoption of any resolution establishing such code, rule or regulation, have his approval in writing of the proposed title, captions and numbers of such code, rule or regulation and any parts, paragraphs or sections thereof.

§ 106. Proof of codes, rules and regulations. Any code, rule or regulation of the state of New York may be read in evidence from the official compilation or supplement thereto. To entitle any copy of a code, rule or regulation published, other than those published in such official compilation or supplement thereto, to be read in evidence there shall be contained in the same book or pamphlet a printed certificate of the secretary of state that such copy is a correct transcript of the text of the code, rule or regulation as published in such official compilation or supplement thereto. For such a certificate the secretary of state shall collect such a fee as he shall deem just and reasonable.

§ 106-a. Internet access to the New York code, rules and regulations. The department of state shall post or maintain a link on its website to an unofficial version of the New York codes, rules, and regulations, which shall be provided at no cost to the end users. All state agencies which have adopted rules and regulations shall maintain a link to the department of state website which contains such link.

§ 107. Intergovernmental agreements. 1. The secretary of state shall compile and keep current a list of all interstate compacts and other intergovernmental agreements between or among states, subdivisions of this state and other states, or between this state or any subdivision thereof and the federal government having the force of law to which this state or any subdivision thereof is party. Such list shall contain the citations to the statutes or other official documents of this state containing the text of any such compact or agreement together with a listing of all other jurisdictions party to the compact or agreement, the date on which each such jurisdiction entered into participation in

such compact or agreement with this state or subdivision thereof; the status of each such compact or agreement in respect of withdrawals therefrom and the citations to any act or resolution of the congress of the United States, if any, consenting to such compact or agreement. The list required to be kept pursuant to this subdivision also shall include compacts and agreements adopted by this state or any subdivision thereof but not in effect by reason of the absence of such other parties thereto as may be necessary to make the compact or agreement effective and binding.

2. In any case where the statutes of this state do not contain the full text of a compact or agreement to which subdivision one of this section applies, the secretary of state shall receive a true copy of the compact or agreement and keep the same on file.

3. Any amendment, supplementary agreement or administrative rule or regulation having the force of law implementing, adding to or modifying any such compact or agreement to which this state or a subdivision thereof is party shall be listed or filed in the same manner as the compact or agreement itself.

4. The secretary of state shall make the list maintained by him pursuant to this act and any information contained therein available to any person upon request, but shall not be required to furnish copies of any compact or agreement, unless so required by a provision of law or administrative rule other than this section.

An application for an appointment as notary public shall be in form and set forth such matters as the secretary of state shall prescribe. Every person appointed as notary public must, at the time of his or her appointment, be a resident

of the state of New York or have an office or place of business in New York state. services law, within a period of one year after the applicant has received a discharge other than bad conduct or dishonorable from such service. In any case, the appointment or reappointment of any applicant is in the discretion of the secretary of state. The secretary of state may suspend or remove from office, for misconduct, any notary public appointed by him or her but no such removal shall be made unless the person who is sought to be removed shall have been served with a copy of the charges against him or her and have an opportunity of being heard. No person shall be appointed as a notary public under this article who has been convicted, in this state or any other state or territory, of a crime, unless the secretary makes a finding in conformance with all applicable statutory requirements, including those contained in article twenty-three-A of the correction law, that such convictions do not constitute a bar to appointment.

2. A person regularly admitted to practice as an attorney and counsellor in the courts of record of this state, whose office for the practice of law is within the state, may be appointed a notary public and retain his office as such notary public although he resides in or removes to an adjoining state. Transmission may be accomplished by electronic means that results in a submission of such records and fees by the secretary of state to the county clerk. For purposes of this section, "electronic" shall have the same meaning as set forth in section three hundred two of the state technology law.

(e) The county clerk shall make a proper record of commissions transmitted to that office by the secretary of state pursuant to the provisions of this section.

3. Electronic notarization. (a) After registration of the capability to perform electronic notarial acts pursuant to section one hundred thirty-five-c of this article, the secretary of state shall transmit to the county clerk the exemplar of the notary public's electronic signature and any change in commission number or expiration date of the notary public's commission. Transmission may be accomplished by electronic means.

(b) Registration of the capability to perform electronic notarizations shall be treated as a new appointment by the secretary of state.

4. Fees. (a) Except for changes made in an application for reappointment, the secretary of state shall receive a non-refundable fee of ten dollars for changing the name or address of a notary public.

(b) The secretary of state may issue a duplicate identification card to a notary public for one lost, destroyed or damaged upon application therefor on a form prescribed by the secretary of state and upon payment of a non-refundable fee of ten dollars. Each such duplicate identification card shall have the word "duplicate" stamped across the face thereof, and shall bear the same number as the one it replaces.

(c) The secretary of state shall accept payment for any fee relating to appointment or reappointment as a notary in the form of cash, money order, certified check, company check, bank check or personal check. county clerk may certify as to the official character of such notary public. The secretary of state shall collect for each certificate of official character issued the sum of one dollar. The county clerk and register of any county with whom a certificate of official character has been filed shall collect for filing the same the sum of ten dollars. For each certificate of official character issued, with seal attached, by any county clerk, the sum of five dollars shall be collected.

§ 133. Certification of notarial signatures. The county clerk of a county in whose office any notary public has qualified or has filed their autograph signature and a certificate of official character, shall, when so requested and upon payment of a fee of three dollars, affix to any certificate of proof or acknowledgment or oath signed by such notary anywhere in the state of New York, a certificate under their hand and seal, stating that a commission or a certificate of official character of such notary with their autograph signature has been filed in the county clerk's office, and that the county clerk was at the time of taking such proof or acknowledgment or oath duly authorized to take the same; that the county clerk is well acquainted with the handwriting of such notary public or has compared the signature on the certificate of proof or acknowledgment or oath with the autograph signature deposited in their office by such notary public and believes that the signature is genuine. An instrument with such certificate of authentication of the county clerk affixed thereto shall be entitled to be read in evidence or to be recorded in any of the counties of this state in respect to which a certificate of a county clerk may be necessary for either purpose. In addition to the foregoing powers, a county clerk of a county in whose office a notary public has qualified may certify the signature of an electronic notary public, registered with the secretary of state pursuant to section one hundred thirty-five-c of this article, provided such county clerk has received from the secretary of state, an exemplar of the notary public's registered electronic signature.

A notary public shall not, directly or indirectly, demand or receive for the protest for the non-payment of any note, or for the non-acceptance or non-payment of any bill of exchange, check or draft and giving the requisite notices and certificates of such protest, including his notarial seal, if affixed thereto, any greater fee or reward than seventy-five cents for such protest, and ten cents for each notice, not exceeding five, on any bill or note. 3. A notary public shall not use terms in a foreign language in any advertisement for his or her services as a notary public that mean or imply that the notary public is an attorney licensed to practice in the state of New York or in any jurisdiction of the United States. The secretary shall designate by rule or regulation the terms in a foreign language that shall be deemed to mean or imply that a notary public is licensed to practice law in the state of New York and the use of which shall be prohibited by notary publics who are subject to this section.

When used in this section, the word "cigarette" shall mean any roll for smoking made wholly or in part of tobacco or of any other substance, irrespective of size or shape and whether or not such tobacco or substance is flavored, adulterated or mixed with any other ingredient, the wrapper or cover of which is made of paper or any other substance or material except

2. a. Within two years after this section takes effect, the office of fire prevention and control shall promulgate fire safety standards for cigarettes sold or offered for sale in this state. Such standards shall take effect as provided in subdivision four of this section and shall insure either:

(1) That such cigarettes, if ignited, will stop burning within a time period specified by the standards if the cigarettes are not smoked during that period; or

(2) That such cigarettes meet performance standards prescribed by the office of fire prevention and control to limit the risk that such cigarettes will ignite upholstered furniture, mattresses or other household furnishings.

b. In promulgating fire safety standards for cigarettes pursuant to this section, the office of fire prevention and control, in consultation with the department of health, shall consider whether cigarettes manufactured in accordance with such standards may reasonably result in increased health risks to consumers.

c. The office of fire prevention and control shall be responsible for administering the provisions of this section.

d. The office of fire prevention and control shall report to the governor and the legislature no later than eighteen months after this section takes effect on the status of its work in promulgating the fire safety standards required by this subdivision.

e. When a cigarette is suspected of having ignited a fire, and the office of fire prevention and control receives information regarding the brand and style of such cigarette pursuant to section two hundred four-d or ninety-one-a of the general municipal law, and where such brand and style had been previously certified pursuant to subdivision three of

this section and the package has been marked as required by subdivision six of this section, the office of fire prevention and control shall conduct random testing on cigarettes of the same brand and style in order to determine whether such cigarettes meet the fire safety standards mandated by this section; provided however that such testing shall not be required if the office of fire prevention and control has tested such brand and style within the preceding three months.

3. On and after the date the fire safety standards take effect in accordance with subdivision four of this section, no cigarettes shall be sold or offered for sale in this state unless the manufacturer thereof has certified in writing to the office of fire prevention and control that such cigarettes meet the performance standards prescribed by the office of fire prevention and control pursuant to subdivision two of this section.

(a) Such certifications must be based upon testing conducted by a laboratory that has been accredited pursuant to Standard ISO/IEC 17025 of the international organization for standardization, or such other comparable accreditation standard as the office of fire prevention and control shall require by regulation.

(b) Such certification shall be signed by an officer of the manufacturer and shall contain for each cigarette brand style such information as shall be deemed necessary by the office of fire prevention and control, including but not limited to: (i) the brand and style; (ii) length in millimeters; (iii) circumference in millimeters; (iv) flavor, if applicable; (v) filter or non-filter; (vi) package description; (vii) the name, address and telephone number of the laboratory, if different than the manufacturer that conducted the test; (viii) the date that the testing occurred; and (ix) a notarized statement from an officer or director of the laboratory certifying that the cigarette meets the performance standards prescribed by the office of fire prevention and control.

(c) If a manufacturer has certified a cigarette pursuant to this subdivision, and thereafter makes any change to such cigarette that is likely to alter its compliance with the fire safety standards mandated by this section, then before such cigarette may be sold or offered for sale in this state such manufacturer shall retest such cigarette in

accordance with the testing standards prescribed by the office of fire prevention and control and maintain records of such retesting as required by subdivision seven of this section. Any such altered cigarette which does not meet the performance standard prescribed by the office of fire prevention and control may not be sold in the state. Copies of such written certifications shall be provided by the certifying manufacturer to all wholesale dealers, as defined in subdivision eight of section four hundred seventy of the tax law, and all agents, as defined in subdivision eleven of section four hundred seventy of the tax law. The office of fire prevention and control shall prescribe procedures by which stamping agents, wholesale dealers or retail dealers are notified of which cigarettes have been certified by manufacturers as meeting the performance standards prescribed by the office of fire prevention and control, which may include the maintenance of a website listing certified cigarette brands and styles.

4. The fire safety standards required pursuant to subdivision two of this section shall take effect on such date as the office of fire prevention and control shall specify in promulgating such standards and such date shall be the earliest practicable date by which manufacturers of cigarettes can comply with such standards; provided, however, that such date shall not be later than one hundred eighty days after such standards are promulgated. On and after such date, no person or entity shall sell in this state cigarettes that have not been certified by the manufacturer in accordance with subdivision three of this section or that have not been marked in the manner required by subdivision six of this section; provided, however, that nothing in this subdivision shall be construed to prohibit any person or entity from selling or offering for sale cigarettes that have not been certified by the manufacturer in accordance with subdivision three of this section and have not been marked in the manner required by subdivision six of this section if such cigarettes are or will be stamped for sale in another state or are packaged for sale outside the United States.

Any person engaged in the business of selling cigarettes in or for shipment into New York who possesses cigarettes that have not been certified or marked in accordance with the requirements of this section shall be deemed to be offering such cigarettes for sale in New York. An agent licensed in more than one state may rebut such presumption by establishing: (i) that such cigarettes have been physically segregated from cigarettes offered for sale in New York; and (ii) no New York tax stamps have been placed on any cigarettes that have not been certified or marked in accordance with this section. In addition to any penalties imposed by this section the commissioner of taxation and finance, after an opportunity for a hearing has been afforded pursuant to subdivision five of section four hundred eighty of the tax law, shall suspend for six months the license of any agent issued pursuant to section four hundred seventy-two of the tax law, the license of any wholesale dealer issued pursuant to section four hundred eighty of the tax law, or the registration of any retail dealer issued pursuant to section four hundred eighty-a of the tax law, when such agent, wholesale dealer or retail dealer violates this section three or more times within a three year period, provided such violations occurred on at least three separate calendar days.

knowingly makes a false certification pursuant to subdivision three of this section shall be subject to a civil penalty of at least seventy-five thousand dollars and not to exceed two hundred fifty thousand dollars for each such false certification, and any entity that fails to pay a civil penalty imposed pursuant to this paragraph within thirty days after such penalty is imposed, shall be subject to a bar from selling cigarettes covered by that false certification in this state until the state receives full payment of such penalty.

c. There is hereby established in the custody of the state comptroller a special fund to be known as the "Cigarette Fire Safety Act Fund". Such fund shall consist of all moneys recovered from the assessment of civil penalties authorized by this subdivision. Such monies shall be deposited to the credit of the fund and shall, in addition to any other moneys made available for such purpose, be available to the office of fire prevention and control for the purpose of fire safety and prevention programs. All payments from the cigarette fire safety act fund shall be made on the audit and warrant of the state comptroller on vouchers certified and submitted by the state fire administrator.

6. No cigarettes shall be distributed, sold or offered for sale in this state unless the manufacturer has placed on each individual package the letters "FSC" which signifies Fire Standards Compliant. Such letters shall appear in eight point type and be permanently printed, stamped, engraved or embossed on the package at or near the UPC Code, if present. Any package containing such symbol is deemed to be in compliance with the office of fire prevention and control regulations set forth in 19 NYCRR 429.8.

7. a. Each manufacturer shall maintain copies of the reports of all tests conducted on all cigarettes for a period of three years, and shall make copies of such reports available to the office of fire prevention and control and the attorney general upon written request; provided, however, that any manufacturer that fails to make copies of such reports available within sixty days of receiving such a written request shall be subject to a civil penalty not to exceed ten thousand dollars for each day after the sixtieth day that such manufacturer does not make such

copies available and shall be subject to a bar from selling or offering to sell cigarettes in New York until such copies are made available.

b. Testing performed or sponsored by the office of fire prevention and control in order to determine a cigarette's compliance with the fire safety standards mandated by this section shall be conducted (i) in accordance with the requirements applicable to manufacturers pursuant to the regulations of the office of fire prevention and control, and (ii) by a laboratory that has been accredited pursuant to Standard ISO/IEC 17025 of the international organization for standardization or such other comparable accreditation standard as the office of fire prevention and control shall require by regulation.

8. a. To enforce the provisions of this section, the commissioner of taxation and finance and the state fire administrator may take administrative action imposing the civil penalties and suspensions authorized by subdivision five of this section. In addition, the attorney general may bring an action on behalf of the people of the state of New York to enjoin acts in violation of this section and to recover any civil penalties unless civil penalties have been previously recovered in such administrative proceedings.

b. Any enforcement officer as defined in section thirteen hundred ninety-nine-t of the public health law shall have the power to impose upon any retail dealer the civil penalties authorized by subdivision five of this section, following a hearing conducted in the same manner as hearings conducted under article thirteen-E of the public health law.

c. To enforce the provisions of this section, the commissioner of taxation and finance and the state fire administrator, or their duly authorized representatives, are hereby authorized to examine the books, papers, invoices and other records of any person in possession, control or occupancy of any premises where cigarettes are placed, stored, sold or offered for sale, as well as the stock of cigarettes in any such premises. Every person in the possession, control or occupancy of any premises where cigarettes are placed, sold or offered for sale, is hereby directed and required to give the commissioner of taxation and

The office of fire prevention and control may require, pursuant to such uniform standards

The office of fire prevention and control shall promulgate such rules and regulations as are necessary to advance the purposes of this section. The remainder of the community services block grant funds received by the state shall be distributed pursuant to a contract by the secretary in the following order of preference: a sum of up to one-half of one percent of the community services block grant funds received by the state to Indian tribes and tribal organizations as defined in this article, on the basis of need; and to community based organizations. 2. For purposes of evaluations conducted under this section, recipients shall make available to the secretary, or any duly authorized officer or employee of the department, appropriate books, documents, papers and records for examination, copying or mechanical reproduction

on or off the premises of the recipient upon a reasonable request therefor.

§ 159-1. Decertification and reduction of entity shares. 1. Any eligible entity that received funding in the previous federal fiscal year through a community services block grant made under this article shall not have its funding terminated under this article or reduced below the proportional share of funding the entity received in the immediately preceding federal fiscal year, as determined pursuant to section one hundred fifty-nine-i of this article, unless, after providing notice and an opportunity for a hearing on the record, the state determines that cause exists for such termination or such reduction, subject to review by the secretary of the United States department of health and human services. For purposes of making a determination that cause exists for:

(a) a funding reduction, the term "cause" shall include

(1) a statewide redistribution of funds provided through a community services block grant under this article to respond to

(A) the results of the most recently available census or other appropriate data;

(B) the designation of a new eligible entity; or

(C) severe economic dislocation; and

(2) the failure of an eligible entity to comply with the terms of an agreement or a state plan, or to meet a state requirement, as described in this section; or

2. If the state determines, on the basis of a final decision in a review pursuant to this article, that an eligible entity fails to comply with the terms of an agreement or the state plan to provide services under this article or to meet appropriate standards, goals, and other requirements established by the state (including performance objectives), the state shall:

(a) inform the entity of the deficiency to be corrected;

(b) require the entity to correct the deficiency;

(c) (1) offer training and technical assistance, if appropriate, to help correct the deficiency, and prepare and submit to the secretary of the United States department of health and human services a report stating the reasons for the determination; or

(2) if the state determines that such training and technical assistance are not appropriate, it shall prepare and submit to the secretary of the United States department of health and human services a report stating the reasons for the determination;

(d) (1) at the discretion of the state (taking into account the seriousness of the deficiency and the time reasonably required to correct the deficiency), allow the entity to develop and implement and submit to the state, within sixty days after being informed of the deficiency, a quality improvement plan to correct such deficiency within a reasonable period of time, as determined by the state; and

(2) not later than thirty days after receiving from an eligible entity a proposed quality improvement plan pursuant to subparagraph one of this paragraph, either approve such proposed plan or specify the reasons why the proposed plan cannot be approved; and

(e) after providing adequate notice and an opportunity for a hearing, initiate proceedings to terminate the designation of or reduce the funding under this article of the eligible entity unless the entity corrects the deficiency.

3. A determination to terminate the designation or reduce the funding of an eligible entity pursuant to subdivision two of this section is reviewable by the secretary of the United States department of health and human services, pursuant to the processes set forth in the federal community services block grant act of 1981, as amended.

§ 159-m. Designation and redesignation of eligible entities in unserved areas. 1. Qualified organization in or near area. (a) In general. If any geographic area of the state is not, or ceases to be, served by an eligible entity under this article, and if the governor decides to serve such area, the governor may solicit applications from, and designate as an eligible entity

(1) a private nonprofit organization (which may include an eligible entity) that is geographically located in the unserved area, that is capable of providing a broad range of services designed to eliminate poverty and foster self-sufficiency, and that meets the requirements of this article; and

(2) a private nonprofit eligible entity that is geographically located in an area contiguous to or within reasonable proximity of the unserved area and that is already providing related services in the unserved area.

(b) Requirement. In order to serve as the eligible entity for the area, an entity described in subparagraph two of paragraph (a) of this subdivision shall agree to add additional members to the board of the entity to ensure adequate representation

(1) in each of the three required categories described in paragraph (a) of subdivision two of section one hundred fifty-nine-e of this article, by members that reside in the community comprised by the unserved area; and

(2) in the category described in subparagraph two of paragraph (a) of subdivision two of section one hundred fifty-nine-e of this article, by members that reside in the neighborhood to be served.

2. Special consideration. In designating an eligible entity under subdivision one of this section, the governor shall grant the designation to an organization of demonstrated effectiveness in meeting the goals and purposes of this article and may give priority, in granting the designation, to eligible entities that are providing related services in the unserved area, consistent with the needs identified by a community-needs assessment.

3. No qualified organization in or near area. If no private, nonprofit organization is identified or determined to be qualified under subdivision one of this section to serve the unserved area as an eligible entity the governor may designate an appropriate political subdivision of the state to serve as an eligible entity for the area. In order to serve as the eligible entity for that area, the political subdivision shall have a tripartite board or other mechanism as required in section one hundred fifty-nine-e of this article.

§ 159-n. Report of the secretary. The secretary of state shall report to the governor and the legislature by March fifteenth of each year on the administration of the community services block grant program. The report shall include, but not be limited to, the results of the monitoring and evaluation of recipients of funds under the program and any recommendation for changes which the secretary of state deems necessary for the effective administration of the program.

§ 160-a. Definitions. As used in this article the following terms shall mean:

1. "Analysis" is a study of real estate or real property other than estimating value.
2. "Appraisal" or "real estate appraisal" means an analysis, opinion or conclusion relating to the nature, quality, value or utility of specified interests in, or aspects of, identified real estate. An appraisal may be classified by subject matter into either a valuation or an analysis.

A licensing appraisal or appraisal report represents to the public that it meets the appraisal standards as prescribed by the board.

§ 160-b. Use of the title "state certified real estate appraiser" or "state licensed real estate appraiser" or "state licensed real estate appraiser assistant". 1. Only a person certified under this article shall use the title "state certified real estate appraiser" or licensed

under this article shall use the title "state licensed real estate appraiser" or "state licensed real estate appraiser assistant" or assume that title or any title, designation or abbreviation likely to create the impression of certification or license by this state as a real estate appraiser or real estate appraiser assistant. After December thirty-first, nineteen hundred ninety-one, only a person who is certified or licensed pursuant to this article shall describe or refer to any appraisal or other evaluation of real estate located in this state by the term "certified" or "licensed".

2. Nothing in this article shall preclude a person who is not a state certified or licensed real estate appraiser or a licensed real estate appraiser assistant from appraising real estate for compensation.

§ 160-c. State board of real estate appraisal. 1. There is hereby established within the department of state a state board of real estate appraisal which shall consist of nine members, three of whom shall be public members and six of whom shall be real estate appraisers, who shall have and exercise the powers of the board as set forth in section one hundred sixty-d of this article.

2. 4. The executive secretary and real estate appraiser members first appointed to the board shall be certified designated members in good standing of a nationally recognized real estate appraisal organization that as of June first, nineteen hundred eighty-nine, required appraisal experience, education and testing in order to become a designated member, in addition to adherence to standards of professional practice in order to retain such designation. Each real estate appraiser member of the board appointed after January first, nineteen hundred ninety-six, must be a state certified real estate appraiser. At least one-half of the appraiser members appointed after January first, nineteen hundred ninety-six, shall hold the general appraisal certificate. Any vacancy occurring on the board shall be filled within sixty days of its occurrence, in the same manner as the member whose vacancy is being filled was appointed. A person appointed to fill a vacancy occurring other than by expiration of a term shall be appointed for the unexpired term of the member he succeeds. No person shall serve as a member of the board for more than two consecutive terms. The public members of the board shall not be engaged in the practice of real estate appraising.

§ 160-d. Powers of the board. 1. The board shall adopt rules and regulations in aid or furtherance of this article and shall have the following powers and duties:

a. To define, with respect to each category of state certified real estate appraisers, state licensed real estate appraisers, and state licensed real estate appraiser assistants, the type of educational experience, appraisal experience and equivalent experience that will meet the statutory requirements of this article, provided, however, that in no event shall the experience, education and examination requirements adopted by the board be less than the minimum criteria established by the Appraisal Subcommittee of the Federal Financial Institutions Examination Council or by the Appraiser Qualification Board of the Appraisal Foundation as referred to in title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989;

b. To establish examination specifications consistent with the

standards of the Appraisal Qualifications Board of the Appraisal Foundation for state licensed real estate appraiser assistants, state licensed real estate appraisers and each category of state certified real estate appraisers, to provide or procure appropriate examination questions and answers and to establish procedures for grading examinations;

c. To define, with respect to state licensed real estate appraiser assistants, state licensed real estate appraisers and each category of state certified real estate appraisers, the continuing education requirements for the renewal of a license or a certification that will meet the statutory requirements provided in this article;

d. To review the standards for the development and communication of real estate appraisals provided in this article and to adopt regulations explaining and interpreting such standards, provided, however, that such standards must, at a minimum, conform to the uniform standards of professional appraisal as promulgated by the Appraisal Standards Board of the Appraisal Foundation; and

e. To prescribe the scope of practice for state licensed real estate appraiser assistants, state licensed real estate appraisers and each category of state certified real estate appraisers, provided, however, that in no event shall the scope of practice prescribed by the board be less than the scope of practice established by the Appraisal Subcommittee of the Federal Financial Institutions Examination Council or by the Appraiser Qualification Board of the Appraisal Foundation as referred to in title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989;

f. To perform such other functions and duties as may be necessary in carrying out the provisions of this article.

2. The board shall promulgate rules and regulations prescribing the form and content of each appraisal report. Such rules and regulations shall include but are not limited to the following requirements:

a. Each appraisal report shall clearly and accurately disclose any extraordinary assumption or limited condition that directly affects an appraisal.

b. Each written appraisal report shall comply with the following specific reporting guidelines:

(1) Identify and describe the real estate being appraised;

(2) Identify the real property being appraised;

(3) Define the opinion that is the purpose of the appraisal and describe the scope of the appraisal;

(4) Set forth the effective date of the opinion and the date of the appraisal report;

(5) Set forth the appraiser's opinion of the highest and best use of the real estate being appraised when such an opinion is necessary and appropriate;

(6) Set forth the appraisal procedure followed, the data considered and the reasoning that supports the analyses, opinions and conclusions;

(7) Set forth all assumptions and limiting conditions that affect the analyses, opinions and conclusions in the appraisal report; and

(8) Set forth any additional information that may be appropriate to show compliance with, and identify permitted departures from, the requirements for the development of appraisals as provided in this article or as established by the board.

3. The board shall establish standards of developing an appraisal. Such standards shall, among other things, state the following guidelines:

a. All state certified or licensed real estate appraisers conducting certified or licensed appraisals, performing appraisal service or issuing an appraisal shall:

(1) Be aware of, understand and correctly employ those recognized appraisal methods and techniques that are necessary to produce a credible analysis, opinion or conclusion;

(2) Not commit a substantial error or omission of commission which results from a significant departure from the recognized appraisal methods and techniques;

(3) Not commit a substantial error or omission of commission that significantly affects an analysis, opinion or conclusion;

(4) Identify the real estate and real property under consideration, define the opinion that is the purpose of the appraisal, consider the scope of the appraisal service and identify the effective date of the opinion;

(5) Identify and consider the appropriate procedures and market data required to perform the appraisal service, where appropriate;

(6) Consider the effect on use and value of the following factors: existing land use regulations, reasonably probable modifications of land use regulations, economic demand, the physical adaptability of the property, neighborhood trends and the highest and best use of the property;

(7) Consider the effect on the property being appraised of anticipated public or private improvements, located on or off the site, to the extent that market actions reflect the anticipated improvements as of the effective appraisal date;

(8) Recognize that land may be appraised as though vacant and available for development and that the appraisal of improvements is based on their actual contributions to the site;

(9) Appraise proposed improvements only after examining and having available for future examination plans, specifications or other documentation sufficient to identify the scope and character of the proposed improvements, evidence indicating the probable time of completion of the proposed improvements, and reasonably clear and appropriate evidence supporting development costs, anticipated earnings, occupancy projections and the anticipated competition at the time of completion; and

(10) Base estimates of anticipated future rent and expenses for the real estate and real property being appraised on reasonably clear and appropriate evidence.

b. In addition to the foregoing, an appraiser shall define the value being considered. If the value estimate is a statement or estimate of market value, he or she shall clearly indicate whether the statement or estimate is the most probable price in terms of cash or financial arrangements equivalent to cash or other terms as may be precisely

defined. If an estimate of value is based on submarket financing or financing with unusual conditions or incentives, the terms of such a typical financing shall be clearly set forth, their contributions to, or negative influence on value shall be described and estimated, and the market data supporting the valuation estimate shall be described and explained.

c. For each real property appraisal analysis, opinion or conclusion that contains an estimate of value, a state certified or licensed real estate appraiser shall observe all of the following specific real property appraisal guidelines:

(1) Consider whether an appraised fractional interest, physical segment or partial holding contributes pro rata to the value of the whole;

(2) Identify any personal property or other items that are not real estate but are included with or considered in connection with real estate being appraised and contribute to the total value estimate or conclusion;

(3) Consider and analyze any current agreement of sale, option or listing of the real estate and real property being appraised, if the information is available to the person in the normal course of business;

(4) Consider and analyze any prior sales of the property being appraised that occurred within one year;

(5) When estimating the value of a leased fee estate or a leasehold estate, analyze and consider the effect on value, if any, of the terms and conditions of the lease; and

(6) Give careful consideration to the effect on value, if any, of the assemblage of the various estates or component parts of an estate and refrain from estimating the value of the whole solely by adding together the individual values of its various estates or component parts.

d. In developing a review appraisal, a state certified or licensed real estate appraiser shall observe all of the following specific appraisal guidelines:

(1) Identify the appraisal report being reviewed, the real estate being appraised, the real property being appraised, the effective date of the opinion in the original report, the date of the original report

and the date of the review;

(2) Identify the scope of the review process to be conducted, including a determination of whether or not it is appropriate or essential to inspect the appraised property and the data presented;

(3) Form an opinion as to the adequacy and relevance of the data used and the propriety of any adjustment made;

(4) Form an opinion as to whether or not the appraisal methods and techniques used were appropriate and, if not, the reasons for the person's disagreement with the original appraisal; and

(5) Form an opinion as to whether or not the analyses, opinions or conclusions in the report being reviewed are correct or appropriate and, if not, state his or her analyses, opinions or conclusions and his or her reasons for disagreement with the original appraisal.

e. In developing an appraisal for an employer or a client, a state certified or licensed real estate appraiser shall carefully consider and determine whether the appraisal service to be performed is intended to result in an analysis, opinion or conclusion of a disinterested third party and therefore would be classified as an appraisal assignment as defined in subdivision two of section one hundred sixty-x of this article. If the appraisal service to be performed is not intended to result in an analysis, opinion or conclusion of a disinterested third party, the person shall then carefully consider whether or not he or she would be perceived by third parties or the public as acting as a disinterested third party.

f. Prior to entering into an agreement to perform a real property appraisal service, a state certified or licensed real estate appraiser shall carefully consider the knowledge and experience that will be required to complete the appraisal service competently and either:

(1) Have the knowledge and experience necessary to complete the appraisal service competently; or

(2) Immediately disclose the lack of knowledge or experience to the client and take all steps necessary to complete the appraisal service competently.

g. A state certified or licensed real estate appraiser may enter into

an agreement to perform a real property appraisal service that calls for something less than, or different from, the work that would otherwise be required by the specific appraisal guidelines, provided that prior to entering into the agreement, he or she has done all of the following:

(1) The state certified or licensed real estate appraiser has determined that the appraisal service to be performed is not so limited in scope that the resulting analysis, opinion or conclusion concerning real estate or real property would tend to mislead or confuse the client, the users of the appraisal report or the public; and

(2) The state certified or licensed real estate appraiser has advised the client that the appraisal service calls for something less than, or different from, the work required by the specific appraisal guidelines, and therefore the appraisal report will include a qualification that reflects the limited or differing scope of the appraisal service.

§ 160-e. Powers of the department. The department shall have the following powers and duties:

1. To receive applications for certification and licensing;
2. To establish the administrative procedures for processing applications for certification and licensing;
3. To approve or disapprove applications for certification or license and issue certificates or licenses;
4. To maintain a registry of the names and addresses of people certified or licensed under this article;
5. To retain records and all application materials submitted to it;
6. To approve courses and seminars for original certification or licensing and continuing education to ensure that the same are consistent with the standards established by the board, or equivalent to those required by such standards;

7. To assist the board in such other manner as the board may request;

With the application for recertification or renewal of license, the state certified real estate appraiser or state licensed real estate appraiser shall present evidence in the form prescribed by the department of having completed the continuing education requirements, if any, for renewal specified in this article.

c. If the applicant satisfies the requirements for renewal during the extended term of certification or license, the beginning date of the new renewal certificate or license shall be the day following the expiration of the certificate or license previously held by the applicant.

2. If a person fails to renew a certificate as a state certified real estate appraiser, or license as a state licensed real estate appraiser, prior to its expiration or within a period of extension granted by the department pursuant to this article, the person may obtain a recertification or renewal of license by satisfying all of the requirements for renewal and by the payment of a late renewal fee.

2. No certificate or license shall be issued under the provisions of this article to a corporation, partnership, firm or group. This shall not be construed to prevent a state certified or licensed real estate appraiser from signing an appraisal report on behalf of a corporation, partnership, firm or group practice.

§ 160-t. Continuing education. 1. As a prerequisite to recertification or renewal of license, a certified or licensed real estate appraiser shall present evidence satisfactory to the department of having met the continuing education requirements, if any, pursuant to this article.

2. The basic continuing education requirement for recertification or renewal of license shall be the completion by the applicant, during the

immediately preceding term of certification or license, of not less than twenty-eight classroom hours of instruction in courses or seminars which have received the approval of the department. Computer based and distance learning courses may be approved by the department so long as providers demonstrate the ability to monitor and verify participation by the real estate appraiser for the specified time periods.

3. In lieu of meeting the requirements of subdivision two of this section an applicant for recertification or renewal of license may satisfy all or part of the requirements by presenting evidence of the following:

a. Completion of an educational program of study determined by the department to be equivalent, for continuing education purposes, to courses approved by the department pursuant to subdivision two of this section; or

4. The secretary of state or her duly appointed designee shall adopt regulations upon recommendation by the board for implementations of the provisions of this article to assure that persons renewing their certifications as state certified real estate appraisers or licenses as state licensed real estate appraisers have current knowledge of real property appraisal theories, practices and techniques which will provide a high degree of service and protection to those members of the public with whom they deal in a professional relationship under authority of the certification or license. The regulations shall prescribe the following:

6. No amendment or repeal of a regulation adopted by the secretary of state or her duly appointed designee pursuant to this section shall operate to deprive a state certified real estate appraiser of credit toward recertification, or a state licensed real estate appraiser of credit toward renewal of license, for any course of instruction completed by the applicant prior to the amendment or repeal of the regulation which would have qualified for continuing education credit under the regulation as it existed prior to the repeal or amendment.

7. A certification as a state certified real estate appraiser, or a license as a state licensed real estate appraiser, that has been revoked as a result of disciplinary action by the department shall not be reinstated unless the applicant presents evidence of completion of the continuing education required by this article. 8. The board shall prescribe the continuing education requirements for licensed real estate appraiser assistants; provided, however, that in no

event shall such requirements be less than the minimum criteria established by the Appraisal Subcommittee of the Federal Financial Institutions Examination Council or by the Appraiser Qualification Board of the Appraisal Foundation as referred to in title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989.

k. Violating the confidential nature of governmental records to which he or she gained access through employment or engagement as an appraiser by a governmental agency;

l. Entry of a final civil judgment against the person on grounds of fraud, misrepresentation or deceit in the making of any appraisal of

3. The provisions of subdivisions one and two of this section shall also be applicable to licensed real estate appraiser assistants.

§ 160-v. Due process. 1. 3. Any final decision or order of the department in certifying or denying certification or in recertification, or in licensing, denying license, or in renewal of a license, under this article or in revoking or suspending such certification or license or imposing any fine or reprimand on the holder of such certification or license shall be subject to review by a proceeding brought under and pursuant to article seventy-eight of the civil practice law and rules at the insistence of the applicant for such certification, the holder of the certificate or license so revoked or suspended or the person fined, reprimanded or otherwise aggrieved.

§ 160-x. Classification of services. 1. A client or employer may retain or employ a state certified or licensed real estate appraiser to act as a disinterested third party in rendering an unbiased estimate of value or analysis. A client or employer may also retain or employ a state certified or licensed real estate appraiser to provide specialized services to facilitate the client's or employer's objectives. In either case, the appraisal and the appraisal report must comply with the provisions of this article.

2. For the purposes of this article, the term "appraisal assignment" means an engagement for which an appraiser is employed or retained to act, or would be perceived by third parties or the public as acting, as a disinterested third party in rendering an unbiased analysis, opinion or conclusion relating to the nature, quality, value or utility of specified interests in, or aspects of, identified real estate.

3. For the purposes of this article, the term "specialized services" means those appraisal services which do not fall within the definition of appraisal assignment. The term "specialized services" may include valuation work and analysis work. Regardless of the intention of the

client or employer, if the state certified or licensed real estate appraiser would be perceived by third parties or the public as acting as a disinterested third party in rendering an unbiased analysis, opinion or conclusion, the work is classified as an appraisal assignment and not "specialized services".

§ 160-y. Contingent fees. 1. A state certified or licensed real estate appraiser may not accept a fee for an appraisal assignment as defined in section one hundred sixty-x of this article, that is contingent upon the appraiser reporting a predetermined estimate, analysis, or opinion or is contingent upon the opinion, conclusion or valuation reached, or upon the consequences resulting from the appraisal assignment.

2. A state certified or licensed real estate appraiser who enters into an agreement to perform specialized services, as defined in section one hundred sixty-x of this article, may be paid a fixed fee or a fee that is contingent on the results achieved by the specialized services.

3. If a state certified or licensed real estate appraiser enters into an agreement to perform specialized services for a contingent fee, this fact shall be clearly stated in each written report. In each written report, this fact shall be clearly stated in a prominent location in such report and also in each letter of transmittal and in the certification or authentication of the statements made by the appraiser in such a report.

§ 160-z. Retention of records. 1. A state certified or licensed real estate appraiser shall retain for three years, originals or true copies of all written contracts engaging his or her services for real property appraisal work, and all reports and supporting data assembled and formulated by the appraiser in preparing the reports.

2. Such period for retention of records is applicable to each engagement of the services of the appraiser and shall commence upon the date of the submittal of the appraisal to the client unless, within such

three year period, such appraiser is notified that the appraisal or report is involved in litigation, in which event the three year period for the retention of records shall commence upon the date of the final disposition of such litigation.

3. All records required to be maintained under the provisions of this article shall be made available by the state certified or licensed real estate appraiser for inspection and copying by the board on reasonable notice to such appraiser. All such records copied by the board shall be kept confidential, except where disclosure of same is required by law or mandate of a court.

§ 160-aa. Transitional licensing. Consistent with the intent and purpose of this article, and without the disapproval of the appraisal subcommittee of the federal financial institutions examination council, the board may prescribe requirements for transitional licenses which shall expire no later than January first, nineteen hundred ninety-three.

§ 160-bb. Severability. If any clause, sentence, paragraph, section or part of this article shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section, or part thereof directly involved in the controversy in which such judgment shall have been rendered.

(d) At the expiration of a director's term, the authority that appointed such director pursuant to subdivision one of this section or paragraph (c) of this subdivision shall re-appoint such director for an

additional term or appoint a new director for such subsequent term, provided however that no individual may serve as director for more than three successive terms.

§ 160-gg. Plan of operation. 1. Within seventy-five days of the effective date of this article, the fund shall file with the department its plan of operation, which shall be designed to assure the fair, reasonable and equitable administration of the fund. The plan of operation and any subsequent amendments thereto shall become effective upon being filed with the department.

2. The plan of operation shall constitute the by-laws of the fund and shall, in addition to the requirements enumerated elsewhere in this article:

(a) establish procedures for collecting and managing the assets of the fund;

(g) establish procedures to ensure prompt and accurate notification to the fund by its members of all accidents and injuries to black car operators, and provide for full reimbursement of the fund by any central dispatch facility whose failure to provide such notification results in the imposition of a penalty on the fund by the board; and

(h) contain such additional provisions as the board of the fund may deem necessary or proper for the execution of the powers and duties of the fund.

§ 160-hh. Membership in the fund; registration with the department. 1.

The membership of the fund shall be composed of all central dispatch facilities. Each central dispatch facility shall be required, as a condition of doing business within this state, to pay the department a two hundred dollar annual fee for the purpose of registering as a member of the fund and receiving a certificate of registration. Such sums shall be used by the department for the administration of this article. The initial registration fee shall be due no later than ninety days after the effective date of this article. The department shall have the power to assess an additional fee against each registrant in the amount necessary to provide it with sufficient funds to cover its expenses in performing its duties pursuant to this article. The department shall provide the fund with an updated list of registrants on a monthly basis.

2. All central dispatch facilities shall be required, as a condition of obtaining or retaining their license from the local licensing authority, if any, to (a) be members of the fund; (b) be registered with the department as members of the fund; and (c) submit to the local licensing authority a copy of its certificate of registration as proof of such membership and registration.

3. Within sixty days of the effective date of this article, the board of the fund shall, on the basis of information from trade papers, local licensing authorities and other sources, identify the central dispatch facilities subject to this article and, on a regular and ongoing basis, confirm that all such entities have registered in accordance with subdivision one of this section.

§ 160-ii. Securing of compensation. 1. Within two hundred ten days of

the effective date of this article, the fund shall secure the payment of workers' compensation to all black car operators entitled thereto pursuant to this chapter by either: (a) self-insuring in accordance with subdivision three of section fifty of the workers' compensation law and the rules promulgated by the board pursuant to such section or (b) purchasing workers' compensation insurance covering, on a blanket basis, all black car operators who are the fund's employees pursuant to section two of the workers' compensation law.

2. If the fund initially seeks to apply to the board for authorization to self-insure pursuant to subdivision three of section fifty of the workers' compensation law, it shall submit its application and accompanying proof to the board within one hundred fifty days of the effective date of this article. The board shall notify the fund and the secretary in writing of any change in the fund's status as a self-insurer or of any additional requirements that the board may deem necessary for continuation of such status.

3. If the fund chooses to secure the payment of workers' compensation pursuant to the workers' compensation law by purchasing an insurance policy from the state insurance fund or a, licensed insurer, it shall file with the department no later than thirty days after the commencement of a new policy year a copy of the policy it has purchased. In such case, the department shall be treated by the insurer as a certificate holder for purposes of receiving notice of cancellation of the policy.

* 5. The fund shall have the authority to provide additional health benefits, consistent with its plan of operation, for all black car operators entitled thereto pursuant to this chapter, provided that the fund shall have complied with all applicable statutory and regulatory requirements. The surcharge amount not related to payments of workers' compensation claims and the administration of those claims shall be up

to one-half of one percent (0.5%).

§ 160-jj. Assessment of fund members; customer surcharges; audit powers of the fund, the board and the fund's insurer. 1. To pay (a) the costs of the insurance purchased pursuant to subdivision three of section one hundred sixty-ii of this article or (b) the benefits due under the workers' compensation law in the event the fund self-insures pursuant to subdivision two of section one hundred sixty-ii of this article, and to pay (c) its expenses in carrying out its powers and duties under this article and (d) its liabilities, if any, pursuant to section fourteen-a of the workers' compensation law, the fund shall ascertain by reasonable estimate the total funding necessary to carry on its operations.

2. Based upon its estimation of operating costs, the fund shall establish a proposed uniform percentage surcharge to be added to (a) the invoices or billings for covered services sent to the customers of the fund's members by a member or its agent and (b) the credit payments for covered services received by a member or its agent. The proposed surcharge shall become effective thirty days after being filed with the department. Notwithstanding the foregoing, beginning on the first day of the first calendar month that shall commence at least seventy-five days after the effective date of this article, and until the fund shall have filed with the department a different surcharge amount, a three percent surcharge shall be added to every invoice or billing for covered services sent by a member or its agent to, and every credit payment for covered services received by a member or its agent from, the customers of the fund's members. Each member of the fund shall be liable for payment to the fund of an amount equal to the product of (i) the percentages surcharge due pursuant to this article, divided by one hundred and (ii) all payments received by the member or its agent for covered services from the member's customers, as provided in this subdivision, regardless of whether the surcharge was billed or charged.

3. No local licensing authority or the department or the New York

state department of motor vehicles shall issue, continue or renew any license or registration certificate, or permit for the operation of any central dispatch facility unless such central dispatch facility, as a condition of maintaining its license and/or registration certificate, adds the surcharge required by this section to every invoice and billing for covered services sent to, and every credit payment for covered services received from, its customers and pays to the fund no later than the fifteenth day of each month the total surcharges due pursuant to this article.

4. Each central dispatch facility shall submit to the fund with its monthly payment a detailed accounting of the charge and surcharge amounts charged to and received from customers for covered services during the previous month. The first such payment and accounting shall be due on the fifteenth day of the month following the imposition of the surcharge pursuant to subdivision two of this section.

5. Should the fund determine that the surcharge amounts that have been paid to it are inadequate to meet its obligations under this article, it shall determine the surcharge rate required to eliminate such deficiency and shall file such revised surcharge rate with the department in accordance with subdivision two of this section. Commencing thirty days after such filing, the members of the fund shall charge the revised surcharge rate and shall pay to the fund the total amount of surcharges in accordance with this article.

6. The fund shall have the power directly or through its agent to conduct financial audits of its members to verify their compliance with the requirements of this article. The fund or its agent shall be afforded convenient access at all reasonable hours to all books, records and other documents of its members that may be relevant to such audits.

7. For the purposes of conducting payroll audits, an insurer providing coverage to the fund pursuant to this article may treat the members of the fund as policyholders. Members of the fund shall be required to do all things required of employers pursuant to section one hundred thirty-one of the workers' compensation law, and shall be required to

provide the board access to any and all records and information as otherwise required by the workers' compensation law and the regulations promulgated thereunder, and shall be liable as provided in the workers' compensation law for any failure so to do.

§ 160-kk. Financial oversight of the fund. No later than May first of each year, the fund shall submit to the governor and legislature certified financial statements prepared in accordance with generally accepted accounting principles by a certified public accountant. The members of the fund shall be required on and after January first of each year to afford the certified public accountant convenient access at all reasonable hours to all books, records and other documents, including but not limited to invoices and vouchers, necessary or useful in the preparation of such statements and in the verification of the monthly statements submitted to the fund.

§ 160-ll. Exemption from taxes. The fund shall be exempt from payment of all fees and taxes levied by this state or any of its subdivisions, except taxes levied on real property.

§ 160-mm. Liability insurance. The fund shall purchase such insurance as is necessary to protect the fund and any director, officer, agent or other representative from liability for their administration of the fund, and shall, to the extent permitted by law, indemnify such directors, officers, agents or other representatives and hold them harmless from liability for their administration of the fund.

§ 160-nn. Regulations. The department shall adopt regulations implementing the provisions of this article, including the conduct and notice of hearings held pursuant to section one hundred sixty-00 of this article.

§ 160-oo. Violations; penalties; appeals. 1. (a) If the secretary believes a violation of this article by a fund member may have occurred, the secretary shall notify the local licensing authority of such fact and, upon notice to the fund member, a hearing shall be held by such local licensing authority to determine whether such violation occurred. In the absence of a local licensing authority, or if the local licensing authority chooses not to hold such hearing, the hearing shall be held by the secretary.

(b) If the fund believes that a central dispatch facility has failed to pay the fund the assessments due pursuant to this article, or has failed to pay the reimbursement due pursuant to paragraph (g) of subdivision two of section one hundred sixty-gg of this article, it shall make a referral to the a local licensing authority, or, in the absence of a local licensing authority, to the department. Upon receipt of such a referral, the local licensing authority or the department shall be required to hold a hearing pursuant to paragraph (a) of this subdivision.

2. Except as otherwise provided in this section, a fund member that is found, after a hearing held pursuant to subdivision one of this section, to have violated a provision of this article, or a rule promulgated by the department pursuant to this article, shall be liable for a fine in an amount not to exceed ten thousand dollars per violation.

Notwithstanding the foregoing, a fund member that fails to bill or that collects and fails to submit to the fund the required surcharges shall be subject, in addition to payment to the fund of the amount overdue plus interest on such amount as herein provided, to a penalty, at the discretion of the local licensing authority, if any, or, in the absence of such authority, of the department, of (a) up to five thousand dollars for each twenty days the payment is overdue, or (b) revocation of its membership in the fund and of its certificate of registration, or (c) both a monetary penalty and revocation of its membership in the fund and of its certificate of registration. The rate of interest applicable pursuant to this section shall be twelve percent per annum. Any monetary penalty imposed pursuant to this subdivision shall be retained by the department or the local licensing authority and be used to defray the costs of administering this article. The responsible persons, of a

central dispatch facility that are found, after a hearing held pursuant to subdivision one of this section, to be in default to the fund for assessments owed pursuant to this article, shall be personally liable for the amount of such assessments determined to be then due and outstanding, including interest on such assessments awarded pursuant to this subdivision, and for all monetary penalties imposed pursuant to this subdivision.

"Responsible persons," for purposes of this subdivision, include: (i) the directors of a central dispatch facility that is a corporation; (ii) the managers of a central dispatch facility that is a limited liability company or its members if management of the central dispatch facility is vested in its members; (iii) the general partner or partners of a central dispatch facility that is a partnership; (iv) all individuals who directly or indirectly own, control or hold the power to vote ten percent or more of the voting interests of any corporation, joint stock company, partnership, association, trust, limited liability company or similar entity that manages a central dispatch facility; and (v) the president, secretary and treasurer of a central dispatch facility, regardless of its form of organization.

Failure of the central dispatch facility, or of its responsible persons to pay any assessments or penalties awarded pursuant to this subdivision within twenty days of issuance of a valid order so to do, or in the event an appeal has been taken from the determination of the department or the local licensing authority, to deposit with the secretary or the local licensing authority within twenty days of the issuance of the determination from which the appeal is taken the total amount of the award as security for its payment, shall entitle the secretary or the local licensing authority to file with the clerk of Albany county a certified copy of the determination of the department or local licensing authority, and thereupon judgment shall be entered in the supreme court by the clerk of Albany county in conformity therewith immediately upon such filing. Such judgment shall be entered in the same manner, have the same effect and be subject to the same proceedings as though rendered in a suit duly heard and determined by the supreme court, except that no appeal may be taken therefrom.

3. Within twenty days after issuance by the department or local licensing authority of a determination adverse to a central dispatch facility following a hearing held pursuant to subdivision one of this section, an appeal may be taken therefrom to the appellate division of the supreme court, third department, by the aggrieved central dispatch facility. The attorney general shall represent the department or the local licensing authority thereon.

§ 160-bbb. Independent livery driver benefit fund. 1. There is hereby created a not-for-profit corporation to be known as the New York independent livery driver benefit fund. To the extent that the provisions of the not-for-profit corporation law do not conflict with the provisions of this article, or with the plan of operation established pursuant to this article, the not-for-profit corporation law shall apply to the fund, which shall be a type C corporation pursuant to such law. If an applicable provision of this article or of the fund's plan of operation relates to a matter embraced in a provision of the

not-for-profit corporation law but is not in conflict therewith, both provisions shall apply. The fund shall perform its functions in accordance with its plan of operation, and shall exercise its powers through a board of directors established pursuant to this article.

2. Within thirty days of the effective date of this article, there shall be appointed a board of directors of the fund, consisting of nine directors appointed by the governor, one of whom shall be chosen upon nomination of the temporary president of the senate; one of whom shall be chosen upon nomination of the speaker of the assembly; one of whom shall be chosen upon nomination of the chair of the workers' compensation board; one of whom shall be chosen on nomination of the superintendent of financial services; one of whom shall be chosen on nomination of the American Federation of Labor-Congress of Industrial Organizations of New York; and four of whom shall be chosen without prior nomination, at least two of which shall be a livery registrant or owner, officer or director of a livery base or livery registrant. The initial terms of directors shall be staggered, the four directors appointed by the governor without prior nomination serving for initial terms of three years from the effective date of this article, the two directors appointed upon nomination of the speaker of the assembly and temporary president of the senate serving for initial terms of two years from the effective date of this article, and the three directors on nomination of the superintendent of financial services, the chair of the workers' compensation board and the American Federation of Labor-Congress of Industrial Organizations of New York serving for initial terms of one year from the effective date of this article. The subsequent terms of all directors shall be three years. The board of directors shall have the power to remove for cause any director. The failure of any nominating authority to appoint a director within the time set by this subdivision shall not bar the fund from operating, so long as at least six directors have been appointed.

3. The directors shall elect annually from among their number a chair and a vice chair who shall act as chair in the chair's absence.

4. For their attendance at meetings, the directors of the fund shall

be entitled to compensation, as authorized by the directors, in an amount not to exceed two hundred dollars per meeting per director and to reimbursement of their actual and necessary expenses.

5. Directors of the fund, except as otherwise provided by law, may engage in private or public employment or in a profession or business.

6. (a) All of the directors shall have equal voting rights and five or more directors shall constitute a quorum. The affirmative vote of four directors shall be necessary for the transaction of any business or the exercise of any power or function of the fund.

(b) A vacancy occurring in a director position shall be filled in the same manner as the initial appointment to that position, provided however that no individual may serve as director for more than three successive terms.

(c) The board of directors may:

(i) delegate to one or more of its directors, officers, agents or employees such powers and duties as it may deem proper;

(ii) establish the procedure by which the fund shall determine how to provide the benefits due pursuant to this article;

(iii) establish accounting and record-keeping procedures for all financial transactions of the fund, its agents and the board of directors;

(iv) establish a procedure for determining and collecting the appropriate amount of assessments under and as consistent with this article;

(v) set forth the procedures by which the fund may exercise the audit rights granted to it under this article;

(vi) establish procedures to ensure prompt and accurate notification to the fund by independent livery bases of all deaths of independent livery drivers, and all injuries to livery drivers that resulted from a crime for which there is a police report, and provide for full reimbursement of the fund by any member whose failure to provide such notification results in the imposition of a penalty on the fund by the workers' compensation board;

(vii) recommend changes in the law or regulations governing workers' compensation benefits with livery drivers; and

(viii) engage in such additional actions as the board of directors may deem necessary or proper for the execution of the powers and duties of the fund.

§ 160-ccc. Contributions to the fund. Each independent livery base shall be assessed an annual payment to the fund, to be set by the board of directors no later than January first of each calendar year or such other date as the board of directors may set consistent with, and as necessary to effectuate, this article. The total amount of the payment shall be determined by the fund as sufficient to provide it with total assets equal to one hundred fifty percent of the cost of an insurance policy issued under section one hundred sixty-ddd of this article, and to provide for any administrative expense of the fund. Each independent livery base's own share of such payments shall be determined by a formula set by the board of directors, to be based on the number of liveries affiliated with each livery base at the time the payments are calculated, or such other measure set by the chair of the workers' compensation board. Each independent livery base shall make the payments assessed against it annually within thirty days of assessment. If it is determined by the board of directors that there may be an insufficient amount of money in the fund to purchase the requisite coverage or to pay administrative expenses in a given year, the board of directors may require each independent livery base to make an additional payment to the fund based on the amount of its affiliated drivers on an annualized basis or such other criteria as shall be established by the chair of the workers' compensation board, except that no such payments shall be assessed, such that the fund will have funds greater than necessary to provide compensation under the workers' compensation law, to the extent set forth in section one hundred sixty-ddd of this article for eighteen months.

§ 160-ddd. Use of the fund. Moneys deposited into the fund shall be used to provide benefits under the workers' compensation law, by purchase of a policy from the state insurance fund, or from a carrier licensed to write workers' compensation insurance to the extent

permitted by section three thousand four hundred fifty-one of the insurance law, for livery drivers dispatched by independent livery bases, to provide benefits under the workers' compensation law for deaths of livery drivers arising out of and in the course of providing covered services, and all injuries arising out of and in the course of providing covered services either: (1) resulting from a crime against such livery driver as evidenced by a police report or (2) for the following conditions: (a) the amputation or loss of an arm, leg, hand, foot, multiple fingers, index finger, multiple toes, ear, or nose, (b) paraplegia or quadriplegia, or (c) total and permanent blindness or deafness. The provisions of the workers' compensation law shall govern any application for and the receipt of such benefits.

§ 160-eee. Regulations. The chair of the workers' compensation board may promulgate regulations necessary to effectuate the provisions of this article.

§ 160-fff. Membership in the fund. 1. The membership of the fund shall be comprised of all independent livery bases. If the workers' compensation board or local taxi and limousine commission revokes a livery base's authorization to act as an independent livery base, it shall cease to be a member of the fund within thirty days. Such revocation shall not entitle the livery base to the return of any moneys deposited into the fund.

2. Each livery base shall be required, as a condition of obtaining or retaining any license it receives to operate as a livery base from a local taxi and limousine commission either: (a) to be a member of the fund, to submit to the local taxi and limousine commission proof of such membership and to maintain such records as the workers' compensation board, state department of motor vehicles or local taxi and limousine commission may direct in order to carry out the livery base's responsibilities under this article, and as necessary to determine the appropriate cost of compensation the fund must provide under the workers' compensation law; or (b) to present proof to the local taxi and

limousine commission that it has secured compensation under the workers' compensation law, to the extent required of employers, for all livery drivers it dispatches.

3. Each local taxi and limousine commission shall supply the fund and the workers' compensation board, at any such time as the fund or workers' compensation board requests, a list of all liveries affiliated with each livery base licensed by the commission.

4. The fund shall, within seventy-five days of the appointment of the fund's board of directors, provide to its members a copy of the proposed plan of operation filed with the workers' compensation board and all local taxi and limousine commissions and shall inform its members of their rights and duties pursuant to this article.

§ 160-ggg. Plan of operation. 1. Within seventy-five days of the appointment of the fund's board of directors, the fund shall file with the workers' compensation board and local taxi and limousine commissions its plan of operation, which shall be designed to assure the fair, reasonable and equitable administration of the fund. The plan of operation and any subsequent amendments thereto shall become effective upon being filed with the workers' compensation board and all taxi and limousine commissions.

2. The plan of operation shall constitute the by-laws of the fund and shall, in addition to the requirements enumerated elsewhere in this article:

(a) establish procedures for collecting and managing the assets of the fund;

(b) establish regular places and times for meetings of the fund's board of directors;

(c) establish accounting and record-keeping procedures for all financial transactions of the fund, its agents and the board of directors;

(d) establish a procedure for determining and collecting the appropriate amount of assessments under this article; and

(e) contain such additional provisions as the board of directors of the fund may deem necessary or proper for the execution of the powers and duties of the fund.

§ 160-hhh. Violations; penalties; appeals. 1. Any person that knowingly submits a materially false statement on the affirmation provided for in section eighteen-c of the workers' compensation law shall be guilty of a class A misdemeanor. Any person that commits a second or subsequent offense under this subdivision shall be guilty of a class E felony.

2. The workers' compensation board or local taxi and limousine commission may, upon its own motion or the application of a local taxi and limousine commission or the independent livery fund, and upon notice to the independent livery base, conduct a hearing as to the validity of any affirmation filed under section eighteen-c of the workers' compensation law, or to determine whether there has been any other violation of this article. Should the workers' compensation board or local taxi and limousine commission determine that the certification contains any materially false statements, the workers' compensation board may:

(a) revoke the livery base's authorization as an independent livery base for a period of up to five years;

(b) impose a civil penalty of up to ten thousand dollars; and/or

(c) refer the independent livery base to the local taxi and limousine commission for such additional sanction as it may impose under its rules and regulations.

3. Any independent livery base which has been found on two separate occasions, under subdivision two of this section, to have made a materially false statement in its certification shall be permanently barred from acting as an independent livery base.

4. If an independent livery base fails to submit to the independent livery driver benefit fund any required charge, the workers' compensation board or local taxi and limousine commission may order that

it pay into the fund, upon application of the fund and following notice to the independent livery base (a) the amount overdue plus interest on such amount, and/or (b) a penalty of up to five hundred dollars for each thirty days after notice is given that the payment is overdue. The workers' compensation board or local taxi and limousine commission may suspend or revoke such livery base's authorization to act as an independent livery base for failure to make such payment. The rate of interest applicable to this subdivision shall be twelve percent per annum. Any monetary penalty imposed pursuant to this subdivision shall be retained by the workers' compensation board and be used to defray the costs of administering this article.

5. If the workers' compensation board or local taxi and limousine commission determines that any independent livery base has made any material misrepresentations, or temporarily altered the affiliation of any livery, livery driver or livery registrant, for the purpose of reducing its payments into the fund, the workers' compensation board or local taxi and limousine commission may suspend the livery base's membership in the fund for a period of up to two years, and may impose a penalty of up to five thousand dollars.

6. If the workers' compensation board or local taxi and limousine commission determines that any independent livery base has coerced any livery driver into making false statements or refraining from reporting any violations of this article, the workers' compensation board or local taxi and limousine commission may suspend the livery base's membership in the fund for a period of up to two years, and may impose a penalty of up to five thousand dollars.

7. Except as otherwise provided in this section, a livery base that is found to have violated a provision of this article or a rule promulgated by the workers' compensation board or local taxi and limousine commission pursuant to this article shall be liable for a fine in an amount not to exceed five thousand dollars per violation.

8. If the fund has reason to believe a violation of this article by a fund member may have occurred, the fund shall notify the workers'

compensation board. Upon receipt of such a referral, the workers' compensation board shall hold a hearing to determine the validity of the charge, or refer the matter to the local taxi and limousine commission for such determination.

9. The responsible persons of an independent livery base shall be personally liable for the amount of any monetary penalties awarded pursuant to this subdivision. "Responsible persons," for purposes of this subdivision, shall be: (a) the directors of a livery base that is a corporation; (b) the managers of a livery base that is a limited liability company or its members if management of a livery base is vested in its members; (c) the general partner or partners of a livery base that is a partnership; (d) all individuals who directly or indirectly own, control or hold the power to vote ten percent or more of the voting interests of any corporation, joint stock company, partnership, association, trust, limited liability company or similar entity that manages a livery base; and (e) the president, secretary and treasurer of a livery base, regardless of its form of organization.

10. Failure of the independent livery base, or of its responsible persons, to pay any charges or penalties awarded pursuant to this section within twenty days of issuance of a valid order so to do, or in the event an appeal has been taken from the determination of the workers' compensation board, to deposit with the workers' compensation board within twenty days of the issuance of the determination from which the appeal is taken the total amount of the award as security for its payment, shall entitle the workers' compensation board or local taxi and limousine commission to file with the clerk of Albany county or the county where the local taxi and limousine commission is located a certified copy of the determination of the workers' compensation board or the local taxi and limousine commission, and thereupon judgment shall be entered in the supreme court by the clerk of the county where the determination is filed immediately upon such filing. Such judgment shall be entered in the same manner, have the same effect and be subject to the same proceedings as though rendered in a suit duly heard and determined by the supreme court, except that no appeal may be taken therefrom.

11. Within twenty days after issuance by the workers' compensation board of a determination adverse to a livery base pursuant to this section, an appeal may be taken therefrom to the appellate division of the supreme court, third department, by the aggrieved party.

12. If the membership of an independent livery base in the independent livery fund is suspended for failure to pay assessments under this article, the livery base may make application for reinstatement only upon payment of such assessments and such penalties and interest as the local taxi and limousine commission or workers' compensation board has imposed, or upon the agreement by the base and fund to a schedule for such payment.

13. Any sanction imposed under this section shall be after notice to the independent livery base and an opportunity for a hearing.

§ 160-iii. Insurance premiums. Nothing in this article or in the provisions of the workers' compensation law pertaining to coverage of livery drivers under this article shall be construed as limiting the discretion of the state insurance fund, in providing coverage to the New York independent livery driver benefit fund, inc., in choosing a premium basis, rating plan or setting a rate to cover the risk posed by insuring such fund.

§ 160-hhhh. Owner requirements. Applicants shall cooperate with any such background investigation conducted by the department.

2. Each person that owns more than ten percent of an appraisal management company shall be of good moral character, as determined by the department. Applicants shall cooperate with any such background investigation conducted by the department.

3. Each appraisal management company applying for a certificate of registration shall certify to the department that it has reviewed each entity that owns more than ten percent of the appraisal management company and that no entity that owns more than ten percent of the appraisal management company is more than ten percent owned by any person that has had a license or certificate to act as an appraiser denied, revoked, or surrendered in lieu of a pending revocation.

§ 160-jjjj. Employee requirements. 1. An appraisal management company that applies for a certificate of registration shall not knowingly employ, utilize, or engage, for any real estate appraisal, valuation service or appraisal review assignment, a person who has had a license or certificate to act as an appraiser in this state or in any other state denied, revoked, or surrendered in lieu of possible discipline, unless such license has been reinstated.

2. Prior to placing an assignment for an appraisal or valuation service with an appraiser on the appraiser panel of an appraisal management company, the appraisal management company shall verify that the appraiser receiving the assignment is a competent appraiser as defined by the USPAP Competency Rule with regards to geographic area and

the type of property being appraised. An appraiser is deemed part of an appraisal management company panel as of the earliest date on which: (a) the appraisal management company accepts the appraiser for consideration for future appraisal assignments in covered transactions or for secondary mortgage market participants in connection with covered transactions; or (b) engages the appraiser to perform one or more appraisals on behalf of a creditor for a covered transaction or secondary mortgage market participant in connection with covered transactions.

3. An appraisal management company may not hire, employ or engage, or in any way contract with or pay a person who is not licensed or certified as a real estate appraiser by the department pursuant to article six-E of this chapter for the purposes of performing an appraisal as defined in this article. Nothing in this section shall prohibit an appraisal management company from hiring, employing, engaging or contracting with or paying a person to perform a property inspection, or property evaluation if they are licensed as an appraiser, a real estate broker including associate real estate brokers and real estate salespersons pursuant to article twelve-A of the real property law or a home inspector pursuant to article twelve-B of the real property law, or a person to perform a broker price opinion if they are licensed as a real estate broker including associate real estate brokers and real estate salespersons pursuant to article twelve-A of the real property law.

4. An appraiser shall be considered part of an appraisal management company's appraiser panel until: (a) the appraisal management company sends a written notice to such appraiser removing such appraiser with an explanation; or (b) receives a written notice from such appraiser asking to be removed or of the death or incapacity of such appraiser.

§ 160-kkkk. Restrictions. An appraisal management company that applies for a certificate of registration shall not knowingly:

1. Employ any person in a position in which the person has the

responsibility to order appraisals or valuation services or to review completed appraisals who has had a license, registration or certificate to act as an appraiser in this state or in any other state, denied, revoked, or surrendered in lieu of a pending revocation, unless such license has been reinstated;

2. Enter into any independent contractor arrangement, whether in verbal, written, or by other form, with any person who has had a license, registration or certificate to act as an appraiser in this state or in any other state, denied, revoked, or surrendered in lieu of a pending revocation, unless such license has been reinstated; and

3. Enter into any contract, agreement, or other business relationship, whether in verbal, written, or other form, with any entity that employs, has entered into an independent contract arrangement, or has entered into any contract, agreement, or other business relationship, whether in verbal, written, or any other form, with any person who has ever had a license, registration or certificate to act as an appraiser in this state or in any other state, denied, revoked, or surrendered in lieu of a pending revocation, unless such license has been reinstated.

§ 160-1111. Recordkeeping. Records shall be maintained for a period of at least five years after such appraisal is completed or two years after final disposition of a judicial proceeding related to such assignment, whichever period expires later. Appraisal management companies shall make records available to the department upon request. Appraisal management companies shall also allow the department to examine the books and records of the appraisal management company and require it to submit reports, information and documents upon request. Appraisal management companies shall also allow the department to verify that the appraisers on such panel hold a valid license or certification.

§ 160-mmmm. Appraiser independence; unlawful acts. Each appraisal management company shall ensure that real estate appraisals are conducted independently and free from inappropriate influence and coercion. Notwithstanding any other provision of this article, it shall be unlawful for any employee, director, officer, or agent of an appraisal management company registered in this state pursuant to this article to:

1. Compensate, coerce, extort, collude, instruct, induce, bribe, or intimidate, or attempt to compensate, coerce, extort, collude, instruct, induce, bribe, or intimidate a person, firm or other entity conducting or involved in an appraisal for the purpose of causing the appraised value assigned under the appraisal or other valuation services to the property to be based on any factor other than the independent judgment of the appraiser;

2. Mischaracterize the appraised value of a property in conjunction with a consumer credit transaction;

3. Seek to influence an appraiser or otherwise to encourage a targeted value in order to facilitate the making or pricing of a consumer credit transaction;

4. Act without just cause to withhold or threaten to withhold timely payment for an appraisal report or for other valuation services rendered with such appraisal report or services provided in accordance with the contract between parties;

5. Act without just cause to withhold or threaten to withhold future business, or to demote or terminate an appraiser without just cause;

management company or hold an appraisal management company harmless for any liability, damage, losses, or claims arising out of the services performed by such appraisal management company, and not the services performed by the appraiser;

8. Condition the request for an appraisal or the payment of an earned fee, salary or bonus, on the opinion, conclusion, or valuation to be reached, or on a preliminary estimate or opinion requested from an appraiser;

9. Request that an appraiser provide an estimated, predetermined, or desired valuation in an appraisal report, or provide estimated values or comparable sales at any time prior to the appraiser's completion of an appraisal;

10. Provide to an appraiser an anticipated, estimated, encouraged, or desired value for a subject property or a proposed or target amount to be loaned to the borrower, except that a copy of the sales contract for purchase transactions may be provided; or

11. Provide to an appraiser, or any entity or person related to the appraiser, stock or any other financial or non-financial benefits in exchange for appraising property in a manner other than that which is within the independent opinion of the appraiser.

Nothing in this section shall be construed as prohibiting the appraisal management company from asking an appraiser to consider additional, appropriate property information, including: additional comparable properties to make or support an appraisal; provide further detail, substantiation, or explanation for the appraiser's value conclusion; or correct errors in the appraisal report.

§ 160-nnnn. Mandatory reporting. An appraisal management company that has a reasonable basis to believe an appraiser within the appraisal management company's appraisal panel is failing to comply with the uniform standards of professional appraisal practice, is violating

applicable laws, or is otherwise engaging in unethical or unprofessional conduct shall immediately refer such matter to the department.

§ 160-0000. Unprofessional conduct. 1. Appraisal management companies shall not engage in unprofessional conduct including, but not limited to the following:

(a) Requiring an appraiser to modify any aspect of an appraisal report or valuation service report, unless such modifications are appropriate according to USPAP;

(c) Requiring an appraiser to prepare an appraisal report or valuation service under a time frame that such appraiser believes, in their professional judgment, does not afford such appraiser the ability to meet all the relevant legal and professional obligations including USPAP requirements. Notwithstanding the foregoing provisions of this paragraph, all appraisal reports should be completed within a reasonable timeframe and appraisers may not unnecessarily delay completing appraisal assignments;

(d) Prohibiting or inhibiting communication between the appraiser and the lender, a real estate licensee, or any other person from whom such appraiser, in their professional judgment is relevant;

(e) Requiring the appraiser to do anything that does not comply with USPAP, or any assignment conditions and certifications required by the client;

(f) Making any portion of the appraiser's fee or the appraisal management company's fee contingent upon a favorable outcome, including, but not limited to, the closing of a loan, requiring a specific dollar amount be achieved by such appraiser in the appraisal report, making requests for the purpose of facilitating a mortgage loan transaction, setting a broker price opinion, or setting any other real property price or value estimation that does not qualify as an appraisal; or

(g) Each appraisal management company operating in this state shall make payment to an appraiser for the completion of an appraisal or

valuation assignment within thirty days of the date on which such appraiser transmits or otherwise provides the completed appraisal or valuation services to the appraisal management company or its assignee;

2. It shall be unlawful for an appraisal management company to:

(a) Knowingly fail to compensate an appraiser at a rate that is reasonable and customary for appraisal or other valuation services being performed in the market area of the property being appraised without the services of an appraisal management company in a manner that is either inconsistent with, or would violate section 1639(e) of the federal Truth in Lending Act (15 USC §1639(e));

(b) Knowingly include any fees for appraisal management services that are performed by the appraisal management company for a lender, client, or other person in the amount that it charges the lender, client, or other person for the actual completion of an appraisal or valuation service by an appraiser that is part of the appraiser panel of the appraisal management company;

(c) Knowingly fail to separate any and all fees charged to a client by the appraisal management company for the actual completion of an appraisal by an appraiser from the fees charged to a lender, client, or any other person by an appraisal management company for appraisal management services;

(d) Knowingly prohibit an appraiser from recording the fee that such appraiser was paid by the appraisal management company for the performance of the appraisal within the appraisal report that is submitted by such appraiser to the appraisal management company;

(e) Knowingly fail to separately state the fees paid to an appraiser for appraisal services and the fees charged by the appraisal management company for services associated with the management of the appraisal process to the client, borrower and any other payer. Appraisal management companies shall provide a copy of the appraiser's invoice with a copy of any appraisal report submitted to a client or a client's representative;

(f) Knowingly allow the removal from rotation of an appraiser from an appraiser panel, without prior written notice to such appraiser with just cause; or

(g) Knowingly obtain, use, or pay for a second or subsequent appraisal

or the ordering of an automated valuation model or any other valuation service in connection with a mortgage financing transaction unless there is a reasonable basis to believe that the initial appraisal was flawed or tainted and such basis is clearly and appropriately noted in the loan file, or unless such appraisal or automated valuation model is done pursuant to a bona fide pre- or post-funding appraisal review or quality control process. Nothing in this paragraph shall prohibit an AMC from obtaining additional appraisals if required by a lending program, or if such additional appraisals are required by applicable local, state, or federal law.

§ 160-pppp. Alteration of appraisal reports. An appraisal management company shall not alter, modify, or otherwise change a completed appraisal or valuation service report submitted by an appraiser by removing such appraiser's signature or seal or by adding information to, or removing information from such report with intent to change the valuation conclusion. § 160-qqqq. Enforcement. The department shall report any such violations by appraisal management companies to the appraisal subcommittee.

the holder thereof, and at least twenty days prior to the date set for the hearing, notify, in writing, the holder of such license of any charges made and shall afford such licensee an opportunity to be heard in person or by counsel in reference thereto. Such written notice may be served by personal delivery to the licensee, or by certified mail to the last known business address of such licensee or unlicensed person, or by any method authorized by the civil practice law and rules. The hearing on such charges shall be at such time and place as the department shall prescribe.

Each such applicant or licensee shall be obliged, on request of the department, to supply such information as may be required concerning his or its business, business practices or business methods, or proposed business practices or methods.

For the purpose of enforcing the provisions of this article, and in making investigations relating to any violation thereof, and for the purpose of investigating the character, competency and integrity of the applicants or licensees hereunder, and for the purpose of investigating the business, business practices and business methods of any applicant or licensee, or of the officers or agents thereof, the department, acting by such officer or person in the department as the secretary of state may designate, shall have the power to subpoena and bring before the officer or person so designated any person in this state and require the production of any books, records or papers which he deems relevant

to the inquiry and administer an oath to and take testimony of any person or cause his or her deposition to be taken, except that any applicant or licensee or officer or agent thereof shall not be entitled to fees and/or mileage. A subpoena issued under this section shall be regulated by the civil practice law and rules.

2. § 160-www. Severability. Should the courts of this state declare any provision of this article unconstitutional, or unauthorized, or in conflict with any other section or provision of this article, such decision shall affect only such section or provision so declared to be unconstitutional or unauthorized and shall not affect any other section or part of this article.

From time to time, the head of a department may require from any board, commission or other body in the department or from any subordinate officer or employee, division or bureau of the department, or from any institution subject to the supervision of the department, or from any agency of the department, such reports or information as such head may deem necessary. Unless expressly authorized by the head of the department, there shall be hereafter no separate report, annual or otherwise, directly to the legislature or governor by any such board, commission, body, officer, division, bureau, institution or agency notwithstanding any existing provision of law authorizing or requiring such report.

§ 164-a. Report and publication economy regulations. 1. The commissioner of the office of general services, in consultation with the state comptroller, shall establish regulations providing for cost savings in the printing and distribution of reports and other publications by agencies, departments and authorities of the state. § 164-b. State aid to rural areas: agency reports. 1. Legislative intent. The legislature hereby finds, declares and determines that:

- (a) enhanced access to financial and technical assistance available from state agencies is of great significance to rural communities;
- (b) grants and other forms of state assistance are not always easily attainable by rural areas with the greatest need;
- (c) rural areas across the state continue to suffer from high levels of unemployment and poverty, limited access to health care and other human services, individual isolation, shortfalls in family income and

educational attainment, as well as the inability to undertake infrastructure investment and business development;

(d) rural communities often lack sufficient expertise and staff to prepare and process applications for aid, as well as address the requirements associated with administration of any proceeds. This, coupled with disproportionate competition with large metropolitan and suburban communities for a diminishing number of grants often places a rural community at a disadvantage when attempting to advance the betterment of its citizens;

(e) improved awareness of the ways state agencies provide financial and technical assistance would enhance opportunities for rural areas to make use of such resources, strengthening their ability to respond to modern challenges.

2. Definitions. For the purposes of this section, the following terms shall have the following meanings:

(a) "Rural area" shall mean those portions of the state so defined by subdivision seven of section four hundred eighty-one of this chapter;

(e) "Rural advisory committee" means a committee created pursuant to statute or through administrative action by a state agency for the purposes of assisting such agency to develop and implement programs for

rural areas;

(f) "Regulatory flexibility" means the conscious consideration of the ability of affected individuals and/or groups in rural areas to respond to state agency rules and regulations and the state agency's attempt to mitigate any negative impacts which may result from such requirements on said individuals and/or groups.

3. Annual reports of state agencies.

(a) In addition to any existing requirements of state agencies for the submission of annual reports, such agencies shall also annually provide:

(i) a listing and description of any set-asides for rural areas in New York state. Such reports shall include the number of applications submitted, the number of applications approved, and the proportionate share of dollars and/or technical assistance rendered to public and/or private sector interests within rural areas of the state;

(iii) a listing and description of existing and/or new rural program development efforts within the agency, or of which the agency is a part;

(iv) a description of existing and/or new rule-making or regulatory flexibility afforded to rural areas of the state; and

(v) recommendations for any statutory change, as well as financial and other resources to improve state agency assistance and responsiveness to rural areas of the state.

(b) In a form prescribed by the governor, all state agencies, as defined in this section, shall report the annual information required in paragraph (a) of this subdivision to the governor, with a copy also submitted to the speaker of the assembly, the temporary president of the senate, the minority leader of the assembly, the minority leader of the senate, and the chairman and vice-chairman of the New York state legislative commission on the development of rural resources established pursuant to chapter four hundred twenty-eight of the laws of nineteen hundred eighty-two. § 164-d. Availability of application forms. 1. The state and every state agency, department, bureau, board, authority, office, commission, or any other instrumentality of the state shall make the various application forms developed and distributed by such agency or instrumentality for public use that are readily convertible to internet form and are intended to be commonly used by the general public available on the internet.

2. Nothing in this section shall require that an agency or other state entity or instrumentality accept or process application forms submitted through the internet, or post application forms including user-specific data on the internet.

The commission may employ such persons and incur such expenses as may be necessary for the performance of its duties within the amounts appropriated therefor. The commission shall report to the legislature whenever the commission deems it necessary and shall report to the legislature upon its request. Such reports shall consist of an account of the transactions of the commission and its advice and recommendations.

§ 166. Record of appearances. Every regulatory agency of the state shall keep a record of appearances before it or its appropriate divisions or bureaus of attorneys, agents and representatives appearing on behalf of any person, firm, corporation or association subject to its regulatory jurisdiction, for which they receive a fee, which record shall be open to public inspection. Each regulatory agency shall file the record with the New York temporary state commission on lobbying on forms prescribed by the commission. The record shall be filed quarterly on the fifteenth day of the month following the end of the quarter. The term "regulatory agency" as used in this section shall mean the department of financial services, department of financial services, state liquor authority, department of agriculture and markets, department of education, department of environmental conservation, department of health, division of housing and community renewal, department of state, other than the division of corporations and state records, department of public service, the industrial board of appeals in the department of labor and the department of law, other than when the attorney general or his agents or employees are performing duties specified in section sixty-three of this chapter.

This subdivision shall not be construed to prevent any other state agency, board, or commission from posting data collected pursuant to subdivision one of this section on the agency's, board's, or commission's internet web site, in the manner prescribed by this section. A state agency, board, or commission that cannot comply with the requirements of this section shall, at least sixty days before the applicable deadline, post publicly on its web site a written progress report that describes with specificity the steps the agency, board, or commission has taken to comply with this section, the impediments that prevented compliance, the efforts undertaken by the agency, board, or commission to come into compliance, and an estimated timeframe for compliance. The written report shall be updated every six months from the date of the original posting.

The data shall be made available to the public in accordance with state and federal law, except for personal identifying information, which shall be deemed confidential, by posting the data on the internet web site of the agency, board, department, or commission on or before January first, two thousand twenty-seven, and annually thereafter. If the data quality is determined to be insufficient for publication, an explanation of the problem with the data quality shall be included in any report or publication made available to the public. This subdivision shall not be construed to prevent any other state agency from posting data collected pursuant to subdivision one of this section on the agency's internet web site, in the manner prescribed by this section.

3. A state agency, board, or commission that cannot comply with the requirements of this section shall, at least sixty days before the applicable deadline, post publicly on its web site a written progress report that describes with specificity the steps the agency, board, or commission has taken to comply with this section, the impediments that prevented compliance, the efforts undertaken by the agency, board, or commission to come into compliance, and an estimated timeframe for compliance. The written report shall be updated every six months from the date of the original posting.

Each state agency, when it issues its gender-based violence and the workplace policy, shall provide a copy of that policy and the information for its designated domestic violence agency liaison to the office for the prevention of domestic violence, and shall notify the office of any subsequent modifications of the policy or the contact information for the domestic violence agency liaison.

4. (a) Every covered employee shall participate in a gender-based violence and the workplace training developed by the office for the prevention of domestic violence and made available on the statewide learning management system annually.

(b) As used in this subdivision, "covered employee" shall mean all officers and employees working in the executive chamber in the office of the governor and New York State agencies who supervise other officers

(b) "Committee" means the Native American burial site review committee created by subdivision three of this section.

(c) "Culturally-affiliated group" means any group, including a Native American Nation or tribe, whose past or present government, or traditional culture or religion, was or is affiliated with human remains or funerary objects which are the subject of this section.

(d) "Forensic anthropologist or bioarchaeologist" means a person qualified in the medicolegal or osteological investigation/examination of human skeletal remains.

(e) "Funerary objects" means any item or items reasonably believed to have been placed with human remains at the time of burial, including but not limited to burial markers, items of personal adornment, vessels, beads, tools, implements, ceremonial objects and other artifacts.

(f) "Human remains" means the remains of any part of the body of a deceased person, excluding teeth.

(g) "Lineal descendant" means a genealogical descendant established by oral tradition, traditional Indigenous knowledge, or written record.

(h) "Native American Nation or tribe" means any Native American tribe, nation or group.

(i) "State archaeologist" means the person appointed to such office pursuant to section two hundred thirty-five of the education law.

2. Applicability. (a) This section shall apply to all lands within the state except for lands located upon any Native American territory or reservation located wholly or partly within the state.

(b) Subdivisions three, four, five, six, and seven of this section shall not apply to any project that has been reviewed pursuant to section 14.09 of the parks, recreation, and historic preservation law or to state participation in any review conducted pursuant to section 106 of the National Historic Preservation Act. If any human remains are discovered during the project, the applicant shall immediately notify the state archaeologist.

3. Native American burial site review committee. (a) There is hereby established a Native American burial site review committee consisting of the following:

(i) one member to be appointed by each of the Native American Nations or tribes recognized by the state;

(ii) the state archaeologist;

(iii) a forensic anthropologist or bioarchaeologist appointed by the executive director of the New York state museum;

(iv) the chair of the human remains committee or other designee of the New York Archaeological Council; and

(v) one member with expertise in the field of historic preservation appointed by the commissioner of the office of parks, recreation and historic preservation.

(b) The committee shall elect a chairperson from among its members. The members who are not public employees shall be reimbursed by the state for their reasonable, necessary expenses incurred in the performance of committee functions. Three-fifths of the members of the committee shall constitute a quorum for the purpose of conducting business. A majority vote of all members who have been appointed or who are serving ex-officio shall be necessary for action. Any vacancy shall be filled in the same manner as the original appointment.

(c) It shall be the function of the committee to determine the lineal descendants and/or culturally-affiliated groups for Native American human remains and funerary objects subject to this section, and to provide notice to such descendants and/or groups as provided in this section. The state archaeologist shall prepare, and the committee shall adopt, standard procedures for determining the lineal descendants and culturally-affiliated groups for human remains as required by this section, including acceptable types of proof of such descent and affiliation. Such procedures shall include dispute resolution methods to resolve disagreements among the committee members.

4. Discovery of burial site; reporting requirements. (a) Any person who in the course of any ground-disturbing activity discovers a burial site, human remains or funerary objects shall immediately cease any further disturbance of such site, remains or objects, and shall immediately report such discovery to the coroner or medical examiner in the county in which the remains were discovered. The coroner or medical examiner shall, within ninety-six hours, determine whether any actions are required pursuant to the provisions of article seventeen-A of the county law. If any such remains appear to the coroner or medical examiner to be more than fifty years old, the coroner or medical examiner shall immediately provide notice of the discovery of such remains to the state archaeologist, who shall in turn convey such notice to the other members of the committee. If no action is required under article seventeen-A of the county law, or once such actions are undertaken and no further action is required, the state archaeologist and the committee may commence their inspection or examination of the remains or objects. Any inspection or examination shall be made in situ except as necessary to comply with such article seventeen-A, this

section, or to determine the age of the remains. The state archaeologist and the committee may use ground penetrating radar or other pertinent technology or equipment on any portion of the project site that has yet to be disturbed to determine if any other remains exist within the project site.

(b) The state archaeologist, or a registered archeologist or registered professional archeologist as may be designated by the state archaeologist, shall, upon receiving notice from a coroner or medical examiner of the discovery of human remains, inspect the site, remains and/or objects which are the subject of such notice. Within ten days of receiving such notice, the state archaeologist shall prepare a report thereon and provide a copy of the report to the committee and to the property owner. The report shall be based upon physical examination of the discovered burial site, remains and/or objects, and shall contain the state archaeologist's conclusion as to whether such site, remains and/or objects may be of Native American origin. In the event the state archaeologist determines there is a reasonable possibility the site contains multiple remains, an additional period of ten days may be provided for assessment by the state archaeologist in consultation with the culturally-affiliated group to determine the parameters of the site. In preparing the report, the state archaeologist may seek and obtain assistance from any employee of the regents, from the committee, and from the office of parks, recreation and historic preservation.

(c) The committee may recommend to the office of parks, recreation, and historic preservation that the site should be designated as a place of historic interest under section twelve-a of the Indian law.

5. Determination of and notification to lineal descendants or culturally-affiliated groups. (a) If the state archaeologist, the forensic anthropologist or bioarchaeologist, and the committee agree that the burial site does not wholly or partly contain human remains or funerary objects that are of Native American origin, it shall be the responsibility of the state archaeologist to determine, as soon as practicable, whether there are any reasonably ascertainable lineal descendants or culturally-affiliated groups with respect to such site, remains or objects and, immediately upon making such determination, to provide notice to such descendants or groups of the reported discovery.

(b) If the state archaeologist, the forensic anthropologist or bioarchaeologist, and the committee agree that the burial site wholly or partly contains human remains or funerary objects that may be of Native American origin, it shall be the responsibility of the committee to determine the lineal descendants or culturally-affiliated groups. Such determination shall be made as soon as practicable after the committee receives a report from the state archaeologist concerning the burial site. Immediately upon making such determination, the committee shall provide notification to such descendants or groups of the reported discovery.

(c) The committee shall have stewardship of Native American human remains and funerary objects from the time it receives notification from the state archaeologist pursuant to subdivision four of this section until the lineal descendants and/or culturally-affiliated groups receive notification from the committee pursuant to this subdivision, at which time such lineal descendants and/or culturally-affiliated groups shall have the right of possession and stewardship of such remains and objects. Upon notification to such lineal descendants or culturally-affiliated groups pursuant to this subdivision, ownership of and responsibility for the human remains and funerary objects shall vest exclusively in such descendants or groups, which shall have authority to determine their disposition subject to the provisions of this section.

(d) The state archaeologist shall have stewardship of non-Native American human remains and funerary objects from the time he or she receives notification from the coroner or medical examiner pursuant to subdivision four of this section until the lineal descendants and/or culturally-affiliated groups receive notification from the state archaeologist pursuant to this paragraph, at which time such lineal descendants and/or culturally-affiliated groups shall have the right of possession and stewardship of such remains and objects. Upon notification to such lineal descendants or culturally-affiliated groups pursuant to this subdivision, ownership of and responsibility for the human remains and funerary objects shall vest exclusively in such descendants or groups, which shall have authority to determine their disposition subject to the provisions of this section.

(e) Where a burial site contains both Native American and non-Native American human remains or funerary objects, the committee shall be

responsible for the Native American burials at the site, and the state archaeologist shall be responsible for all other burials at the site. Once stewardship of each is determined, the procedures established in paragraphs (c) and (d) of this subdivision shall apply.

6. Disposition of remains and objects. (a) Within ten days after receiving notification from the state archaeologist to lineal descendants or a culturally-affiliated group, other than a Native American Nation or tribe, of the discovery of a burial site, the descendants or group shall advise the state archaeologist in writing as to the preferred disposition of the discovered remains or objects, which may include a request to protect the burial site and keep the remains interred where they were found. The state archaeologist shall consult with the property owner to try to facilitate the request of the lineal descendants or culturally-affiliated group.

(b) Within sixty days after receiving notification from the committee to a lineal descendant or culturally-affiliated group of the discovery of a burial site, the descendants or group shall advise the committee in writing as to the preferred disposition of the discovered remains or objects, which may include a request to protect the burial site and keep the remains interred where they were found. The committee shall consult with the property owner to try to facilitate the request of the lineal descendants or culturally-affiliated group.

(c) No later than ten days after receiving the report from the state archaeologist pursuant to subdivision four of this section, the property owner shall inform the state archaeologist of their decision with respect to the interment of the remains on their property. The report from the state archaeologist to the property owner shall clearly include that the property owner has ten days to notify the state archaeologist of their decision. If a property owner fails to notify the state archaeologist of their decision, the state archaeologist or the committee, as appropriate, shall abide by the decision of the lineal descendants or culturally-affiliated group.

(d) Only the state archaeologist, a registered archaeologist, or a registered professional archaeologist may touch or handle any remains or funerary objects.

7. Disposition of human remains and funerary objects, generally. (a) The property owner, their agents, assignees, employees, family members, friends, acquaintances, or any other individuals acting on behalf of such property owner, other than the state archeologist or a registered archeologist or a registered professional archaeologist hired by the property owner and acting pursuant to paragraph (d) of this subdivision, are strictly prohibited from moving, relocating, transferring, selling, possessing, touching, handling, or otherwise intentionally disturbing, in any manner, all human remains and funerary objects that are discovered on site. Except as necessary to carry out the purposes of this section, burial sites, human remains and funerary objects shall remain undisturbed after discovery and during the process established by this section.

(b) While the disposition of the remains shall be determined by the lineal descendants or culturally-affiliated group, and the property owner, the preferred disposition as a matter of policy is to have the remains stay interred where they are discovered.

(c) (i) If the lineal descendants, or culturally-affiliated group, and the property owner agree that the remains shall stay interred, the committee or state archaeologist, as appropriate, shall establish a plan of action for the preservation and protection of the remains.

(ii) If the lineal descendants or culturally-affiliated group requests that the remains be excavated and moved to a different location, the committee or state archaeologist, as appropriate, shall establish and implement a plan of action for the respectful, dignified excavation and removal of the remains.

(iii) If the lineal descendants or culturally-affiliated group advise that the remains stay interred, but the property owner notifies of their decision, as provided in this section, that the remains should be removed, the committee or state archaeologist, as appropriate, shall establish and implement a plan of action for the respectful, dignified excavation and removal of the remains. Such plan shall not be inconsistent with the provisions of this section. The committee or state archaeologist may, prior to the execution of the plan of action, consult with the property owner in an attempt to realize the request of the lineal descendants or culturally-affiliated group. The committee or state archaeologist may use a mediator, at no cost to the property owner

unless mediation is requested by the property owner, as part of this process.

(d) (i) If the plan of action has not been implemented within ninety days of the notification to the state archaeologist by the coroner or medical examiner pursuant to paragraph (a) of subdivision four of this section, and any additional time provided pursuant to paragraph (b) of subdivision four of this section, the property owner may decide to excavate and remove the remains, provided that they shall engage a registered archeologist or a registered professional archaeologist, registered with the Register of Professional Archaeologists and who practices in the field of bioarchaeology or forensic anthropology, to excavate and remove the remains in a respectful and dignified manner that is not inconsistent with the provisions of this section, and provided further that the property owner may request the state archeologist to perform any such excavation or removal. The culturally-affiliated group shall have the right to have a cultural monitor on site prior to and during any excavation and removal of human remains or funerary objects. Failure of the culturally-affiliated group to have a monitor on site shall not be grounds to prohibit, prevent, or pause any excavation, removal, or other conduct as provided in this section.

(ii) If the plan of action has been substantially implemented but not completed within the ninety-day period, and any additional time provided pursuant to paragraph (b) of subdivision four of this section, the committee or state archaeologist may have one additional ten-day period to complete the excavation and removal. The state archaeologist, in consultation with the committee, where appropriate, shall determine whether the plan of action has been substantially implemented.

(iii) Any excavation and removal caused by the property owner pursuant to this paragraph shall be done at the expense of the property owner and shall be performed and supervised by the registered archaeologist, or a registered professional archaeologist, hired by the property owner pursuant to this subdivision, provided that the property owner may request the state archeologist to complete any such excavation or removal even after the ninety-day implementation period or any additional time provided in this section has expired. The culturally-affiliated group may select a cultural monitor to observe the

work. Such archaeologist shall review the established plan of action with the state archaeologist or the committee, as appropriate, and act in accordance with that plan. For the purposes of this paragraph, only the state archaeologist, as provided in this section, or the registered archaeologist or registered professional archaeologist hired to perform the excavation pursuant to this subdivision may have physical contact with or otherwise disturb the remains or burial site.

(iv) The state archaeologist or committee shall make themselves available to the registered archaeologist or registered professional archaeologist forthwith for the purposes of discussing the established plan of action for the site. If the state archaeologist or committee fails to make themselves available forthwith, the registered archaeologist or registered professional archaeologist may proceed with the excavation and removal.

(v) If no plan of action has been established prior to the expiration of the ninety-day period, and any additional time provided pursuant to paragraph (b) of subdivision four of this section, the registered archaeologist or registered professional archaeologist may proceed with the excavation and removal in a professional, respectful, dignified manner that is not inconsistent with the provisions of this section.

(vi) Any remains or funerary objects excavated from the site as a result of the implementation of the process established by this paragraph shall be deposited with the New York state museum for disposition.

(vii) Notwithstanding any conflicting provision of this section, the state archeologist may at any time monitor and observe any excavation and removal performed pursuant to this section.

(e) If the state archaeologist and the committee have been unable to identify the lineal descendants or culturally-affiliated group for human remains or funerary objects, the state archaeologist shall take stewardship of the remains and shall make the recommendation for their disposition in accordance with the provisions of this section.

(f) Notwithstanding any conflicting provision of paragraph (d) of this subdivision, for project sites that contain the remains of six or more individuals, if the state archaeologist determines that additional time is necessary for the excavation of such site, an additional thirty-day period may be added before the remains can be excavated and removed by

the property owner. If the state archeologist continues to find that additional time is necessary, the period before remains can be excavated and removed by the property owner may be extended multiple times in increments of thirty days. The state archaeologist must provide a copy of each such determination to the property owner in writing. The property owner may bring an action pursuant to article seventy-eight of the civil practice law and rules to review the determination of the state archaeologist pursuant to this paragraph.

8. Penalties. (a) Any person who fails to report the discovery of a burial site, human remains or funerary objects as required by subdivision four of this section shall be guilty of a class B misdemeanor, as defined in the penal law.

(b) Any person other than the state archaeologist, or a person or group with a right to remove or a right of possession or stewardship pursuant to this section, or a designee thereof, who intentionally removes human remains or funerary objects from a burial site shall be guilty of a class A misdemeanor, as defined in the penal law.

(c) Any person (i) who knowingly defaces or destroys a burial site, human remains or funerary objects, or (ii) who, knowing that a burial site, human remains, or funerary objects exist causes another person to deface or destroy such burial site, human remains, or funerary objects, or (iii) who possesses human remains or funerary objects with intent to sell such remains or artifacts, or (iv) who sells or attempts to sell human remains or funerary objects, except when authorized by law, shall be guilty of a class E felony, as defined in the penal law.

9. Enforcement. The attorney general or any aggrieved party, including the committee and any lineal descendant or culturally-affiliated group, may bring an action in supreme court in the judicial district where the remains or objects covered by this section are located to enjoin violations or threatened violations of this section, and to recover such remains or objects.

A bona fide officer, volunteer, or employee of a charitable organization or an attorney at law retained by a charitable organization or an individual engaged solely to draft applications for funding from a governmental agency or an entity exempt from taxation pursuant to section 501(c)(3) of the internal revenue code, shall not be deemed a fund raising counsel.

4. Any charitable organization required to register with the attorney general pursuant to this article and properly registered pursuant to article eight of the estates, powers and trusts law that has not previously registered pursuant to this article shall not be required to register separately, but shall file with the attorney general a statement that it is registered pursuant to article eight of the estates, powers and trusts law. Such statement shall be accompanied by all additional documents required to complete registration pursuant to this article, including any additional financial filings required by this article.

5. Registration pursuant to this article shall remain in effect unless it is either cancelled as provided in this article, withdrawn by the organization or the organization has failed to file the required financial report and such failure has not been remedied pursuant to subdivision seven of this section.

6. Every registered organization shall file with the attorney general within thirty days of any material change in the information required to be furnished by such organization under subdivision one of this section a prescribed form stating any such changes and signed under penalties for perjury by the president or other authorized officer of the organization.

7. In no event shall a registration of a charitable organization to solicit contributions in New York pursuant to this article continue, or be continued, in effect after the date such organization should have filed, but failed to file, a financial report in accordance with the requirements of section one hundred seventy-two-b of this article, and such organization shall not be eligible to file a new registration pursuant to this article until it shall have filed the required financial report or reports with the attorney general. If any such report is subsequently filed such organization shall file a new registration pursuant to this article, upon the payment of a re-registration fee of one hundred fifty dollars to the attorney general.

8. 9. No charitable organization, professional fund raiser, fund raising counsel or commercial co-venturer shall use or exploit the fact of its registration or the registration of any other registrant under this article or article eight of the estates, powers and trusts law so as to lead the public to believe that registration in any manner constitutes an endorsement or approval by the state.

10. To the extent practicable, the attorney general shall develop a single registration and uniform set of reporting forms to be filed in accordance with the requirements of this subdivision and those of section 8-1.4 of the estates, powers and trusts law. These forms shall avoid duplication with and make maximum use of information required in federal reporting forms filed with the attorney general.

§ 172-a. Certain persons exempted. 1. This article shall not apply to corporations organized under the religious corporations law, and other religious agencies and organizations, and charities, agencies, and organizations operated, supervised, or controlled by or in connection with a religious organization.

attorney general:

(a) An educational institution confining its solicitation of contributions to its student body, alumni, faculty and trustees, and their families.

(c) Persons requesting any contributions for the relief of any individual, specified by name at the time of the solicitation, if all of the contributions collected, without any deductions whatsoever, are paid to or for the benefit of the named beneficiary. Prior to the commencement of any such solicitation, the principal person requesting contributions may file with the attorney general a form, provided by the attorney general, which shall read as follows:

CHARITABLE SOLICITATION FOR THE RELIEF OF AN INDIVIDUAL

NAME AND ADDRESS OF THE PRINCIPAL PERSON REQUESTING CONTRIBUTIONS

PURPOSE OF THE SOLICITATION

NAME AND ADDRESS OF SECONDARY BENEFICIARY (IF ANY)

LIST NO MORE THAN THREE SECONDARY BENEFICIARIES

The principal person requesting contributions may, on such form designate up to three secondary individuals or charitable organizations as charitable beneficiaries who shall be entitled to such contributions in the event circumstances change rendering it impossible or impracticable to use any or all of the money collected for the primary beneficiary. The designation of one or more secondary beneficiaries shall be ineffective unless such form has been filed with the attorney general and all persons requesting contributions shall have informed any person solicited at the time of any solicitation of such filing. In the event that it is or may be impossible or impracticable to use any or all of the money collected for the benefit of the primary beneficiary, and (i) no secondary beneficiary has been properly designated pursuant to

this paragraph, or (ii) no secondary beneficiary exists, then the attorney general, the primary beneficiary, or any person who requested contributions may petition the supreme court, on notice to the attorney general, the primary beneficiary if living, any secondary beneficiaries, and the principal person who requested the contributions for an order directing that any moneys remaining shall be transferred to a charitable organization with purposes similar to those for which such contributions were collected. In the event that money collected for the relief of any individual, without any deductions whatsoever, is paid to or for the benefit of the primary beneficiary within sixty days of its receipt, then all requirements of this paragraph shall be deemed to have been complied with. For the purposes of this section, the term "principal person requesting the contributions" shall mean any person who is primarily responsible for soliciting funds for the relief of an individual, but shall not include any person who solicits funds when all such funds are subsequently transferred over to a principal person requesting contributions.

(d) Any charitable organization which solicits or receives gross contributions of less than twenty-five thousand dollars during a fiscal year of such organization, provided none of its fund raising is carried on by professional fund raisers or fund raising counsel. However, if the gross contributions received by such charitable organization during any fiscal year of such organization shall be in excess of twenty-five thousand dollars, it shall within thirty days after the date it shall have received gross contributions in excess of twenty-five thousand dollars register with the attorney general as required by section one hundred seventy-two of this article.

(e) Any charitable organization receiving an allocation from a federated fund, incorporated community appeal or a united way, provided such fund, appeal or united way is complying with the provisions of this article relating to registration and filing of financial reports with the attorney general, and provided such organization does not receive, in addition to such allocation, gross contributions in excess of twenty-five thousand dollars during the fiscal year, and provided further that all the fund-raising functions of such organizations are carried on by persons who are unpaid for such services. However, if the gross contributions other than such allocation received by such

charitable organization during any fiscal year of such organization shall be in excess of twenty-five thousand dollars, it shall within thirty days after the date it shall have received such contributions in excess of twenty-five thousand dollars register with the attorney general as required by section one hundred seventy-two of this article.

(f) A local post, camp, chapter or similarly designated element, or a county unit of such elements, of a bona fide veterans' organization which issues charters to such local elements throughout this state, a bona fide organization of volunteer firefighters, an organization providing volunteer ambulance service (as defined in section three thousand one of the public health law) or a bona fide auxiliary or affiliate of such organizations, provided all its fund-raising activities are carried on by members of such an organization or an affiliate thereof and such members receive no compensation, directly or indirectly, therefor.

(h) A charitable organization which receives all or substantially all of its funds from a single governmental agency and reports annually to that agency provided such reports contain financial information substantially similar in content to that required by subdivision one of section one hundred seventy-two-b of this article; provided, however, that such organization may receive no more than twenty-five thousand dollars from sources other than the government agency to which it reports.

(i) Any police department, sheriff's department or other governmental law enforcement agency.

(j) The state parent teachers association and any parent teachers association affiliated with an educational institution that is subject to the jurisdiction of the state education department.

§ 172-b. Reports by registered charitable organizations; registration to be cancelled for failure to file. 1. Every charitable organization

registered or required to be registered pursuant to section one hundred seventy-two of this article which shall receive in any fiscal year gross revenue and support in excess of one million dollars shall file with the attorney general an annual written financial report, on forms prescribed by the attorney general, on or before the fifteenth day of the fifth calendar month after the close of such fiscal year. The annual financial report shall be accompanied by an annual financial statement which includes an independent certified public accountant's audit report containing an opinion that the financial statements are presented fairly in all material respects and in conformity with generally accepted accounting principles, including compliance with all pronouncements of the financial accounting standards board and the American Institute of Certified Public Accountants that establish accounting principles relevant to not-for-profit organizations. Such financial report shall include a statement of any changes in the information required to be contained in the registration form filed on behalf of such organization. The financial report shall be signed by the president or other authorized officer and the chief fiscal officer of the organization who shall certify under penalties for perjury that the statements therein are true and correct to the best of their knowledge, and shall be accompanied by an opinion signed by an independent public accountant that the financial statement and balance sheet therein present fairly the financial operations and position of the organization. A fee of twenty-five dollars payable to the attorney general shall accompany such financial report at the time of filing, provided however, that any such organization that is registered with the attorney general pursuant to article eight of the estates, powers and trusts law is required to file only one annual financial report which meets the filing requirements of this article and section 8-1.4 of the estates, powers and trusts law.

2. Every charitable organization registered or required to be registered pursuant to section one hundred seventy-two of this article which shall receive in gross revenue and support in any fiscal year at least two hundred fifty thousand dollars but not more than one million dollars shall file an annual financial report. The annual financial report shall be accompanied by an annual financial statement which includes an independent certified public accountant's review report in

accordance with "statements on standards for accounting and review services" issued by the American Institute of Certified Public Accountants. The annual financial statement shall be prepared in conformity with generally accepted accounting principles, including compliance with all pronouncements of the financial accounting standards board and the American Institute of Certified Public Accountants that establish accounting principles relevant to not-for-profit organizations. Such financial report shall be filed with the attorney general, upon forms prescribed by the attorney general on an annual basis on or before the fifteenth day of the fifth calendar month after the close of such fiscal year, which shall include a financial report covering such fiscal year in accordance with such requirements as the attorney general may prescribe. Such financial report shall include a statement of any changes in the information required to be contained in the registration form filed on behalf of such organization. The financial report shall be signed by the president or other authorized officer and the chief fiscal officer of the organization who shall certify under penalties for perjury that the statements therein are true and correct to the best of their knowledge. A fee of twenty-five dollars payable to the attorney general shall accompany such financial report at the time of filing, provided, however, that any such organization that is registered with the attorney general pursuant to article eight of the estates, powers and trusts law is required to file only one annual financial report which meets the filing requirements of this article and section 8-1.4 of the estates, powers and trusts law. Notwithstanding the requirements of this section, if upon review of an independent certified public accountant's review report filed pursuant to this subdivision, the attorney general determines that a charitable organization should obtain an independent certified public accountant's audit report, such organization shall obtain and file with the attorney general an audit report that meets the requirements of subdivision one of this section within one hundred twenty days of the attorney general's request for such report.

2-a. Every charitable organization registered or required to be registered pursuant to section one hundred seventy-two of this article which shall receive in any fiscal year of such organization gross

revenue and support not in excess of two hundred fifty thousand dollars shall file with the attorney general an unaudited financial report on forms prescribed by the attorney general, on or before the fifteenth day of the fifth calendar month after the close of such fiscal year. Such financial report shall include a statement of any changes in the information required to be contained in the registration form filed on behalf of such organization. The financial report shall be signed by the president or other authorized officer and the chief fiscal officer of the organization who shall certify under penalties for perjury that the statements therein are true and correct to the best of their knowledge. A fee of twenty-five dollars payable to the attorney general shall accompany such financial report at the time of filing. Provided, however, that any such organization that is registered with the attorney general pursuant to article eight of the estates, powers and trusts law is required to file only one annual financial report which meets the filing requirements of this article and section 8-1.4 of the estates, powers and trusts law.

3. For any fiscal year of any organization registered pursuant to section one hundred seventy-two of this article in which such organization would have been exempt from registration pursuant to section one hundred seventy-two of this article if it had not been so registered, or in which it did not solicit or receive contributions, such organization shall file, instead of the financial reports required by subdivision one, two or two-a of this section, a report, signed under penalties for perjury by the president or other authorized officer and the chief fiscal officer, in the form prescribed by the attorney general stating the nature of the exemption and the facts upon which it is based or that such organization did not solicit or receive contributions in such fiscal year. The report shall include a statement of any changes in the information required to be contained in the registration form filed on behalf of such organization and may include a notice, signed under penalties for perjury by the president or other authorized officer, on a form prescribed by the attorney general, that such organization's registration is being withdrawn.

4. (a) Upon prior written authorization by the attorney general any

charitable organization registered pursuant to section one hundred seventy-two of this article, which is the parent organization of one or more affiliates thereof, and such affiliates, may comply with the reporting requirements of subdivision one, two, two-a or three of this section, by filing a combined written annual financial report upon forms prescribed by the attorney general.

(b) As used in this subdivision the term "affiliate" shall include any chapter, branch, auxiliary, or other subordinate unit of any registered charitable organization, howsoever designated, whose policies, fund raising activities, and expenditures are supervised or controlled by such parent organization.

(c) There shall be appended to each combined annual financial report a schedule, containing such information as may be prescribed by the attorney general, reflecting the activities of each affiliate, which shall contain a statement signed under penalties for perjury, by the president or other authorized officer certifying that the information contained therein is true.

(d) The failure of a parent organization to file a combined annual financial written report shall not excuse either the parent organization or its affiliates from complying with the provisions of subdivision one, two, two-a or three of this section.

(e) A combined annual financial report filed pursuant to this subdivision shall be accompanied by a fee, paid to the attorney general, of twenty-five dollars plus ten dollars for each organization included in such annual financial report, but the aggregate fee shall not exceed five hundred dollars.

5. The attorney general shall cancel the registration of any organization which fails to comply with subdivision one, two, two-a or three of this section within the time therein prescribed, or fails to furnish such additional information as is requested by the attorney general within the required time; except that the time may be extended by the attorney general for a period not to exceed one hundred eighty days. Notice of such cancellation shall be mailed to the registrant at least twenty days before the effective date thereof.

6. Every charitable organization registered or required to register

pursuant to section one hundred seventy-two of this article shall keep and maintain records, books and reports for at least three years after the end of the period of registration to which they relate which shall at all times be available for inspection, by the attorney general, or any duly authorized representatives at the principal office of such organization.

8. Any financial report filed by any charitable organization required to be registered but which has not previously registered pursuant to this article or article eight of the estates, powers and trusts law must be accompanied by all registration material required to be filed by this article.

charitable organization, or any partner, principal, officer, trustee or director thereof, in any action or proceeding brought by the attorney general or any other party under the provisions of this article. Any such charitable organization may file with the secretary of state of the state of New York a designation, duly acknowledged in accordance with procedures for such filing with the secretary of state, irrevocably appointing the secretary of state as its agent upon whom may be served any such process; provided, however, that a designation filed with the secretary of state pursuant to section three hundred fifty-two-a of the general business law or section thirteen hundred four of the not-for-profit corporation law shall serve also as such designation.

4. If a covered entity's or recipient entity's annual report filed pursuant to section one hundred seventy-two-b of this article does not include a completed Internal Revenue Service Form 990 schedule B and that covered entity makes, or that recipient entity receives, qualifying donations pursuant to subdivision two of this section, that entity shall in addition to filing a disclosure with the department of law, also file with the department of state a complete Internal Revenue Service Form 990 Schedule B, regardless of whether such form is submitted or required to be submitted to the Internal Revenue Service.

Covered communication shall not include: (i) communications with a professional journalist or newscaster, including an editorial board or editorial writer of a newspaper, magazine, news agency, press

(c) "Expenditures for covered communications" shall mean: (i) any expenditure made, liability incurred, or contribution provided for covered communications; or (ii) any other transfer of funds, assets, services or any other thing of value to any individual, group, association, corporation whether organized for profit or not-for-profit, labor union, political committee, political action committee, or any other entity for the purpose of supporting or engaging in covered communications by the recipient or a third party.

Such publishing shall not include the names and addresses of individual donors to covered entities, nor shall such publishing include the covered entity's Internal Revenue Service Form 990 Schedule B. Such report shall not be made public pursuant to this section if, based upon a review of the relevant facts presented by the covered entity, such disclosure may cause harm, threats, harassment, or reprisals to the source of the donation or to individuals or property affiliated with the source of the donation. The covered entity may appeal the secretary's determination and such appeal shall be heard by a judicial hearing officer who is

§ 173. Professional fund-raisers, commercial co-venturers and fund raising counsel. 1. Registration and bond required. No person shall act as a professional fund raiser or fund raising counsel on behalf of a charitable organization required to be registered pursuant to this article before registering with the attorney general or after the expiration or cancellation of such registration or any renewal thereof. Applications for registration and re-registration shall be in writing, under oath, in the form prescribed by the attorney general and shall be accompanied by an annual fee in the sum of eight hundred dollars. A professional fund raiser shall at the time of filing each application for registration or re-registration, file with, and have approved by, the attorney general a bond. In said bond, the filer shall be the principal obligor, in the sum of ten thousand dollars, with one or more sureties whose liability in the aggregate as such sureties will at least equal the said sum. The bond which may be in the form of a rider to a larger blanket liability bond shall run to the attorney general for the use of the state and to any person who may have a cause of action against the obligor of said bond for any malfeasance or misfeasance in the conduct of such solicitation. Registration or re-registration when effected shall be for a period of one year, expiring one year from the date of registration or re-registration and may be renewed upon written application, under penalties for perjury, in the form prescribed by the

attorney general and the filing of the bond and the fee prescribed herein for each additional one year period. Applications for registration and re-registration and bonds, when filed with the attorney general, shall become public records of the attorney general. If there is any material change in the information provided in any such application for registration or re-registration, the applicant or registrant shall notify the attorney general, under penalties for perjury, in writing within twenty days of such change.

2. Books and records. A professional fund raiser, commercial co-venturer and fund raising counsel shall maintain accurate and current books and records of all activities conducted pursuant to contracts required under section one hundred seventy-three-a of this article; which, until at least three years shall have elapsed after the end of the effective period of the contract to which they relate, shall be kept in such person's office available for inspection and examination and/or audit by the charitable organization and/or attorney general or any duly authorized representative. Provided, however, that any such books and records obtained by the attorney general shall not be available to the public for inspection. A professional fund raiser, commercial co-venturer and fund raising counsel shall, within seven days of a request of any charitable organization with which it has contracted, provide copies of such records to the charitable organization.

3. Violations. Any person who wilfully violates the provisions of this section is guilty of a misdemeanor.

§ 173-a. Contracts of professional fund raisers, fund raising counsel and commercial co-venturers; closing statements; final accountings. 1. No person shall act as a professional fund raiser, fund raising counsel or commercial co-venturer before he has a written contract with the charitable organization or other person benefitting from his services. A professional fund raiser or fund raising counsel shall within ten days after its execution by the parties thereto file with the attorney general a copy of each contract entered into between such professional fund raiser or fund raising counsel and a charitable organization

required to be registered pursuant to this article, certified under penalties for perjury by said professional fund raiser or fund raising counsel to be a true and correct copy of such contract. When the services to be performed under such contracts include the oral solicitation of funds from the public, such oral presentations shall be deemed to be part of the contract and shall be reduced to a writing which in the case of a professional fund raiser shall be filed with the attorney general by the registrant at the time such contracts are filed. If there is any change in the presentation filed with the attorney general, the registrant shall notify the attorney general in writing within five days of such change. No services shall be performed under such a contract until the professional fund-raiser shall have received an acknowledgement from the attorney general of the receipt of a copy of such contract or such contract shall have been on file with the attorney general for at least fifteen days, whichever is shorter. Provided, however, that no services shall be performed pursuant to such contract if, within fifteen days of filing, the attorney general has notified the professional fund raiser or fund raising counsel and the charitable organization of any deficiencies in the contract and/or the registration and filing under this article. True and correct copies of such contracts shall be kept on file in the offices of the charitable organization and the professional fund raiser, fund raising counsel or commercial co-venturer during the term thereof and until the expiration of a period of three years subsequent to the date the solicitation of contributions provided for therein actually terminates. Within ninety days after the termination of any such contract, the professional fund raiser shall file with the attorney general a closing statement, signed under penalties for perjury by all parties to the contract on forms prescribed by the attorney general. Such statement shall disclose gross revenue, all expenditures incurred in the performance of the contract, and all funds paid to the professional fund raiser and charitable organization. In the event that a contract term is longer than a one year period, the professional fund raiser shall file an interim statement, at least annually. No person shall act as a sub-contractor on behalf of another professional fund raiser prior to obtaining a written contract with such professional fund raiser and written consent from the charity on whose behalf fundraising activities are to be conducted pursuant to such

contract, and such written consent shall have been attached to such contract and filed with the attorney general pursuant to subdivision one of this section. Willful violation of this section shall be a misdemeanor.

2. Every contract between a professional fund raiser and a charitable organization shall contain or shall be deemed to contain a provision that within five days of receipt by the professional fund raiser or any other person the gross revenue received from any solicitation shall be deposited in a bank account under the exclusive control of the charity.

3. Within ninety days after the termination of a sales promotion advertised to benefit a charitable organization, a commercial co-venturer shall provide such organization with an accounting stating the number of items sold, the dollar amount of each sale and the amount paid or to be paid to the charitable organization. In the event that any such sales promotion is longer than a one year period, the commercial co-venturer shall provide the charitable organization with an interim report, at least annually.

4. A charitable organization which enters into a contract with a commercial co-venturer shall file with the attorney general on the date that the next financial report is due to be filed the following information on forms prescribed by the attorney general and signed under penalties for perjury by an officer: (a) a list of the names and addresses of all commercial co-venturers authorized by the charitable organization to use its name during the year covered by that financial report and, if known, during the year following the year covered by the financial report, (b) a statement of the financial terms and any conditions of each co-venture contract, and (c) a statement whether each commercial co-venturer has provided the charitable organization with an accounting as prescribed by subdivision three of this section.

§ 173-b. Professional solicitor. 1. Registration required. No person shall act as a professional solicitor in the employ of a professional fund raiser required to register pursuant to section one hundred

seventy-three of this article before he or she has registered with the attorney general or after the expiration or cancellation of such registration or any renewal thereof. Application for registration or re-registration shall be in writing and signed under penalties for perjury in the form prescribed by the attorney general and shall be accompanied by a fee in the sum of eighty dollars. Such registration or re-registration when effected shall be for a period of one year, expiring one year from the date of such registration or re-registration, and may be renewed upon written application, signed under penalties for perjury, in the form prescribed by the attorney general and the payment of the fee prescribed herein, for additional one year periods. Applications for registration and re-registration, when filed with the attorney general, shall become public records in the office of the attorney general.

2. Limitations upon professional solicitors for law enforcement support organizations. No person or professional solicitor, in the course of soliciting or collecting funds on behalf of any law enforcement support organization, shall engage in any acts prohibited by subdivision seventeen of section one hundred seventy-two-d of this article, or by paragraph (h) of subdivision two of section one hundred seventy-five of this article, provided, however, that no criminal liability shall attach to any law enforcement support organization or its officers because of the activities of any professional solicitor employed on behalf of such organization.

3. Violations. Any person who wilfully violates the provisions of this section is guilty of a misdemeanor.

§ 173-c. Non-resident professional fund raisers, fund raising counsel, professional solicitors and commercial co-venturers; designation of secretary of state as agent for service of process; service of process.

1. Any professional fund raiser, fund raising counsel, professional solicitor or commercial co-venturer resident or whose principal place of business is without the state or organized under and by virtue of the laws of another or foreign state, who or which has been engaged by or on

behalf of any charitable organization to conduct any fund raising activities in this state and/or solicit contributions from people in this state shall be deemed to have irrevocably appointed the secretary of state as the agent upon whom may be served any summons, subpoena, subpoena duces tecum, other process or notice directed to such professional fund raiser, fund raising counsel, professional solicitor, commercial co-venturer or any partner, principal, officer, or director thereof, in any action or proceeding brought by the attorney general or any other party under the provisions of this section. Any such professional fund raiser, fund raising counsel, professional solicitor or commercial co-venturer may file with the secretary of state a designation, in terms complying herewith, duly acknowledged, irrevocably appointing the secretary of state as the agent upon whom may be served any such process; provided, however, that a designation filed with the secretary of state pursuant to section three hundred fifty-two-a of the general business law, section thirteen hundred four of the not-for-profit corporation law, or section thirteen hundred four of the business corporation law shall serve also as such designation.

2. Service of such process or notice upon the secretary of state shall be made by personally delivering to and leaving with the secretary of state or any person authorized by the secretary of state to accept such service a copy thereof at the office of the department of state in the city of Albany, and such service shall be sufficient service provided that notice of such service and a copy of such process are forthwith sent by the attorney general or other party as the case may be to such professional fund raiser, fund raising counsel, professional solicitor or commercial co-venturer by certified mail with return receipt requested, at the office address as set forth in the registration form required to be filed with the attorney general pursuant to sections one hundred seventy-three and one hundred seventy-three-b of this article, or in default of the filing of such form, at the last address known to the attorney general or other party. Service of such process shall be complete ten days after the receipt by the attorney general or other party of a return receipt purporting to be signed by the addressee or a person qualified to receive the addressee's certified mail, in accordance with the rules and customs of the post office department, or,

if acceptance was refused by the addressee or the agent, ten days after the return to the attorney general or other party of the original envelope bearing a notation by the postal authorities that receipt thereof was refused.

§ 174. Solicitation by unregistered charitable organizations, professional fund-raisers or commercial co-venturers a fraud upon the people of the state. 1. No charitable organization shall employ any professional fund raiser or commercial co-venturer unless and until such fund raiser or commercial co-venturer is registered pursuant to this article. Any such contract of employment shall be voidable at the option of the charitable organization.

2. No professional fund raiser or commercial co-venturer shall enter into any contract or raise any funds for any organization required to be registered pursuant to this article unless such charitable organization actually so registered.

3. No professional fund raiser required to be registered under this article shall employ any professional solicitor who is not registered in accordance with this article.

4. In addition to all other remedies provided by law the attorney general may bring an action to enjoin the violation of the provisions of this section. The attorney general may give notice of at least fifteen days in writing by registered or certified mail to the organization, person or persons violating the provisions hereof, requiring that registration be accomplished or that the solicitation funds be immediately terminated. The failure to immediately discontinue solicitation or to register in accordance with the provisions of this article within fifteen days of service of such notice shall be deemed to be a continuing fraud upon the people of the state of New York.

§ 174-a. Contracts with charitable organizations. 1. Whenever a charitable organization contracts with a professional fund raiser or

fund raising counsel or commercial co-venturer, the charitable organization shall have the right to cancel the contract without cost, penalty, or liability for a period of fifteen days following the date on which said contract is filed with the attorney general pursuant to the provisions of this article, regardless of the date of execution of said contract. Any provision in the contract that is intended to waive this right of cancellation shall be void and unenforceable.

2. A charitable organization may cancel a contract signed pursuant to subdivision one of this section by a written notice of cancellation. If given by mail, cancellation shall be deemed effective when deposited in a mailbox, properly addressed and postage prepaid. The notice shall be sufficient if it states that the charitable organization does not intend to be bound by the contract.

3. Whenever a charitable organization cancels a contract pursuant to the provisions of this section, it shall mail a duplicate copy of the notice of cancellation to the attorney general, at the address designated for that purpose.

4. Every contract entered into pursuant to subdivision one of this section shall contain, in a conspicuous typeface:

(a) a concise, accurate statement of the charitable organization's right to cancel;

(b) a concise, accurate statement of the period during which the contract may be cancelled;

(c) the address to which the notice of cancellation is to be sent;

(d) the address of the attorney general to which a duplicate of the notice of cancellation is to be sent; and

(e) a clear statement of the financial arrangement including, if applicable, a statement of the percentage of the total funds collected on behalf of the charitable organization which shall be paid to the professional fund raiser or any other person for purposes other than the exclusive benefit of the charitable organization.

5. Any funds collected by any professional fund raiser, fund raising counsel, professional solicitor, commercial co-venturer, charitable

organization or any other person in violation of this section shall be deemed to be held in trust for the benefit of the charitable organization without deduction for costs or expenses of any nature. A charitable organization shall be entitled to recover all funds collected in violation of this section together with costs, disbursements and allowances.

6. The failure of a professional fund raiser, fund raising counsel or commercial co-venturer to immediately discontinue solicitation or any other fund raising activity upon receipt of a notice of cancellation in accordance with the provisions of this article within fifteen days of the cancellation of the contract shall be deemed to be a continuing fraud upon the people of the state of New York.

7. In addition to all other remedies provided by law the attorney general may bring an action to enjoin the violation of the provisions of this section and to recover restitution, damages, costs and attorneys fees.

§ 174-b. Solicitation. 1. Any solicitation, by any means, including but not limited to oral solicitation, by or on behalf of a registered charitable organization which is required to file financial reports pursuant to this article and has filed all such reports, shall include therein a statement that upon request, a person may obtain from the organization or from the charities registry on the attorney general's website, a copy of the last financial report filed by the organization with the attorney general. Such statement shall specify the address of the organization and the address of the attorney general, to which such request should be addressed and in the case of a written solicitation, must be placed conspicuously in the material with print no smaller than ten point bold face type or, alternatively, no smaller than the size print used for the most number of words in the statements. Provided, however, such statement need not be made where the space for a printed advertisement or promotional time in any media has been donated or made available to the charitable organization at no cost and such space or time does not reasonably permit inclusion of such statement.

2. Any solicitation used by or on behalf of any charitable organization shall include:

(a) a clear description of the programs and activities for which it has requested and has expended or will expend contributions or shall include therein a statement that, upon request, a person may obtain from the organization such a description; and

(b) a statement identifying the website and telephone number of the New York state office of the attorney general where an individual can receive information on charitable organizations.

(c) If the solicitation is by an institution subject to article five-A of the not-for-profit corporation law, and is for an endowment fund, the solicitation must include a statement that, unless otherwise restricted by the gift instrument pursuant to paragraph (b) of section five hundred fifty-three of the not-for-profit corporation law, the institution may expend so much of an endowment fund as it deems prudent after considering the factors set forth in paragraph (a) of section five hundred fifty-three of the not-for-profit corporation law.

3. In addition to any other disclosure required by law, any solicitation by any means by a professional fund raiser or professional solicitor on behalf of a charitable organization required to be registered pursuant to this article shall clearly and unambiguously disclose:

(a) the name of the professional fund raiser as on file with the attorney general and that the solicitation is being conducted by a professional fund raiser;

(b) the name of the individual professional solicitor as on file with the attorney general and that the individual is receiving compensation for conducting the solicitation; and

(c) a statement identifying the website and telephone number of the office of the attorney general where an individual can receive information on charitable organizations.

4. If any charitable organization makes contributions to another organization which is not its affiliate as defined by paragraph (b) of subdivision four of section one hundred seventy-two-b of this article,

such solicitation shall include a statement that such contributions have been made and that a list of all organizations which have received contributions during the past twelve months from the soliciting organization may be obtained from that organization provided, however, a united way, federated fund or incorporated community appeal, by or through which a donation is merely transferred to a charity selected by the donor, need not include such donor selected organizations in the list.

5. A charitable organization shall comply with all requests made pursuant to subdivisions two and four of this section within fifteen days of their receipt. In the event that a charitable organization required to register pursuant to this article has not previously been required to file an annual report with the attorney general, the solicitation shall state the date when such report will be filed. Provided, however, that no additional solicitation shall be permitted by charitable organizations until an annual report is filed, if the report is delayed beyond one year.

§ 174-c. Sales advertised to benefit a charitable organization. All advertising, of every kind and nature, that a sale of goods, services, entertainment or any other thing of value will benefit a charitable organization shall set forth the anticipated portion of the sales price, anticipated percentage of the gross proceeds, anticipated dollar amount per purchase, or other consideration or benefit the charitable organization is to receive. Provided, however, that advertising for sales by a charitable organization that has not used the services of a professional fund raiser or commercial co-venturer in any way for the sale shall not be subject to the requirement of this section.

§ 174-d. Unauthorized use of names when soliciting or collecting contributions.

1. No person shall, for the purpose of soliciting contributions from persons in this state, use the name of any other person, except that of

an officer, director or trustee of the charitable organization by or for which contributions are solicited, without the written consent of such other person.

2. A person shall be deemed to have used the name of another person for the purpose of soliciting contributions if such latter person's name is listed on any stationery, advertisement, brochure or correspondence in or by which a contribution is solicited by or on behalf of a charitable organization or his name is listed or referred to in connection with a request for a contribution as one who has contributed to, sponsored or endorsed the charitable organization or its activities.

3. Nothing contained in this section shall prevent the publication of names of contributors without their written consents, in an annual or other periodic report issued by a charitable organization for the purpose of reporting on its operations and affairs to its membership or for the purpose of reporting contributions to contributors.

4. A violation of this section shall be a misdemeanor.

§ 175. Enforcement by attorney general. 1. An action for violation of this article may be prosecuted by the attorney general, or his deputy, in the name of the people of the state, and in any such action, the attorney general or his deputy, shall exercise all the powers and perform all duties which the district attorney would otherwise be authorized to exercise or to perform therein.

2. In addition to any other action or proceeding authorized by law and any action or proceeding by the attorney general, the attorney general may bring an action or special proceeding in the supreme court, in the name and in behalf of the people of the state of New York, against a charitable organization and any other persons acting for it or in its behalf to enjoin such organization and/or persons from continuing the solicitation or collection of funds or property or engaging therein or doing any acts in furtherance thereof, and to cancel any registration statement previously filed with the attorney general pursuant to this

article and for an order awarding restitution and damages, penalties and costs; and removing any director or other person responsible for the violation of this article; dissolving a corporation and other relief which the court may deem proper, whenever the attorney general shall have reason to believe that the charitable organization or other person:

(a) is violating or has violated any of the provisions of this article;

(b) has refused or failed, or any of its principal officers has refused or failed, after notice, to produce any records of such organizations;

(c) is employing or about to employ, or there is employed or about to be employed, in any solicitation or collection of funds or other property for such organization, any device, scheme or artifice to defraud or for obtaining money or property by means of a false pretense, representation or promise;

(d) has made a material false statement in an application, registration or statement required to be filed pursuant to this article;

(e) (i) has failed or is failing to apply the funds solicited from the public in a manner substantially consistent with its charitable purposes or solicitation or has engaged in repeated fraudulent or illegal activities, acts or conduct in connection with the solicitation for charitable purposes; (ii) or, in the case of a law enforcement support organization, has failed or is failing to apply the funds solicited from the public in a manner substantially consistent with the purposes of the solicitation or has engaged in repeated fraudulent or illegal activities, acts or conduct in connection with the solicitation for purposes of the law enforcement support organization;

(f) violates any order or determination made by the attorney general pursuant to the provisions of this article;

(g) has used or intends to use false or materially misleading advertising or promotional material in connection with any solicitation or with any commercial co-venture or fails to disclose the information required to be disclosed pursuant to section one hundred seventy-four-b of this article; or

(h) is a law enforcement support organization and is employing or about to employ, or there is employed or about to be employed, in any solicitation or collection of funds or other property for such

organization, any device, scheme or artifice to defraud or for obtaining money or property by means of a false pretense, representation or promise which shall include, without limitation, making any of the following representations: (i) that professional fund raisers or solicitors are police officers or employees of any law enforcement agency, (ii) that funds collected will be used to aid widows and children of police officers slain in the line of duty or for any other charitable program unless the organization is actually engaged in such a program, (iii) that contributors will receive special benefits from police officers, and (iv) that contributions are tax deductible as a charitable contribution or as a business expense unless they so qualify under the applicable provisions of the internal revenue code.

In connection with such proposed action or proceeding the attorney general is authorized to take proof, issue subpoenas and administer oaths in the manner provided in the civil practice law and rules.

3. Upon a showing by the attorney general in an application for an injunction that any person engaged in solicitation has been convicted in this state or elsewhere of a felony or of a misdemeanor involving the misappropriation, misapplication or misuse of the money or property of another, and who has not, subsequent to such conviction, received executive pardon therefor or a certificate of relief from disabilities or a certificate of good conduct pursuant to article twenty-three of the correction law, the supreme court, after a hearing, may enjoin such person from engaging in any solicitation.

4. The attorney general may exercise the authority granted in this section against any charitable organization which operates under the guise or pretense of being an organization exempted by the provisions of section one hundred seventy-two-a of this article and is not in fact an organization entitled to such an exemption.

5. Whenever the attorney general shall have reason to believe that any professional fund-raiser, fund raising counsel, professional solicitor or commercial co-venturer is operating in violation of the provisions of this article, or has made any false statement in any application,

registration or statement required to be filed pursuant to this article, or if any professional fund-raiser, fund raising counsel, or commercial co-venturer has refused or failed, after notice, to produce any records demanded of him, or there is employed or is about to be employed in any solicitation or collection of contributions for a charitable or religious organization any device, scheme or artifice to defraud or for obtaining money or property by means of any false pretense, representation or promise, in addition to any other action or proceeding authorized by law, he may bring in the supreme court an action or proceeding in the name, and on behalf, of the people of the state of New York against such professional fund-raiser, fund raising counsel, commercial co-venturer, professional solicitor, and any other person who has participated or is about to participate in such solicitation or collection by employing such device, scheme, artifice, false representation or promise, to enjoin such professional fund-raiser, fund raising counsel, commercial co-venturer, professional solicitor, or other person from continuing such solicitation or collection or engaging therein or doing any acts in furtherance thereof, or to cancel any registration statement previously filed with the attorney general.

6. Whenever the attorney general has determined to commence an action under this article, he may present to any justice of the supreme court, before beginning such action, an application in writing for an order directing the person or persons mentioned in the application to appear before the justice of the supreme court or referee designated in such order and answer such questions as may be put to them or to any of them, or to produce such papers, documents and books concerning the practices to which the action which he has determined to bring relates, and it shall be the duty of the justice of the supreme court to whom such application for the order is made to grant such application. The application for such order made by the attorney general may simply show upon his information and belief that the testimony of such person or persons is material and necessary. The provisions of the civil practice law and rules relating to an application for an order for the examination of witnesses before the commencement of an action and the method of proceeding on such examination, shall not apply except as herein prescribed. The order shall be granted by the justice of the

supreme court to whom the application has been made with such preliminary injunction or stay as may appear to such justice to be proper and expedient and shall specify the time when and place where the witnesses are required to appear. The justice or referee may adjourn such examination from time to time and witnesses must attend accordingly. The testimony of each witness must be subscribed by him and all must be filed in the office of the clerk of the county in which such order for examination is filed. The order for such examination must be signed by the justice making it and service of a copy thereof with an endorsement by the attorney general signed by him or his deputy, to the effect that the person named therein is required to appear and be examined at the time and place and before the justice or referee specified in such endorsement, shall be sufficient notice for the attendance of witnesses. Such endorsement may contain a clause requiring such person to produce at such examination all books, papers and documents in his possession or under his control relating to the subject of such examination. The order shall be served upon the person named in the endorsement aforesaid by showing him the original order and delivering to and leaving with him at the same time a copy thereof, endorsed as above provided, and by paying or tendering to him the fee allowed by law to witnesses subpoenaed to attend trials of civil actions in any court of record in this state.

7. In addition to any other action authorized by law, the attorney general may bring an action or special proceeding in the supreme court to recover any civil penalties assessed by the attorney general.

8. Nothing contained in section one hundred seventy-seven of this article shall prevent, limit, restrict, impede or delay the attorney general from instituting, at any time, any action or proceeding authorized by the provisions of this article or any other appropriate law, as he may deem necessary.

§ 175-a. Application of article. This article shall not be construed to limit or restrict the exercise of the powers or the performance of the duties of the attorney general or district attorney which they

otherwise are authorized to exercise or perform under any other provision of law.

§ 200. Office of general services. There is hereby created an office of general services in the executive department. The head of the office of general services shall be the commissioner of general services. He shall be appointed by the governor by and with the advice and consent of the senate and hold office during the pleasure of the governor. He shall receive a salary to be fixed by the governor within the amount appropriated therefor. Such commissioner, subject to rules prescribed by the governor, may establish such bureaus or divisions in the office of general services as he may deem necessary and may appoint such deputies, directors, assistants and other employees as may be needed for the performance of his duties and may prescribe their powers and duties and fix their compensation within the amount appropriated therefor. Such office may have an office seal. The principal office of the office of general services shall be in the city of Albany, and branch offices may be established by direction of the governor, subject to appropriations for their maintenance.

Such commissioner may adopt, amend or rescind rules and regulations relating to the discharge of his functions, powers and duties and those of the office of general services as prescribed by law. Nothing contained herein shall limit or impair compliance with the requirements of section one hundred sixty-three of the state finance law, with respect to rules promulgated by the commissioner pursuant to such section.

§ 201. State agency employee vehicle efficiency. 1. For the purpose of this section:

a. "state agency" means any department of the executive, any bureau, commission, agency, board or other agency, any public authority, and the judiciary and the legislature.

b. "state office" means any building or facility in the state wherein one hundred or more employees, in aggregate, of any state agency are

located whether or not such office building or facility is owned, rented or leased by the state.

2. Each state agency shall institute a program at each state office to increase the average passenger occupancy per vehicle in commuting trips between home and the work place. In the area designated as severe non-attainment for ozone, as designated by the administrator of the United States environmental protection agency, such increase shall be not less than twenty-five percent above the average vehicle occupancy standard for such trips as such standard is established in accordance with the federal Clean Air Act, 42 U.S.C. Section 7401 et seq., as amended by Public Law 101-549, November fifteenth, nineteen hundred ninety, hereinafter referred to as "the Act", and regulations promulgated pursuant thereto. Where parking for a state agency occurs on properties under the jurisdiction of the office of general services, the state agency shall institute such program in consultation with the commissioner of general services. Where parking for a state office occurs on properties not controlled by the office of general services, each state agency shall be solely responsible for instituting such program. When instituting such a program, a state agency shall take into account the location of each facility, the availability of mass transit, and the scheduling of employees at each work site using such facility. Such program may include designation of parking spaces to be used exclusively by multiple occupancy vehicles, provided that the number of such spaces shall be determined with reference to the ability of users of such facilities to engage in ride-sharing, provided, however, that the designation of such spaces shall in no way displace handicapped parking spaces established pursuant to section twelve hundred three-c of the vehicle and traffic law. A plan for such program shall be completed on or before November fifteenth, nineteen hundred ninety-five, and implemented on or before November fifteenth, nineteen hundred ninety-seven.

3. The provisions of this section shall not exclude any state agency from any duty or responsibility to implement an employee trip reduction program pursuant to section 7511a(d)(1)(B) of the Act. To the extent permitted by the Act, programs instituted under this provision may be

used to comply with the employee trip reduction provisions of section 7511a(d)(1)(B) of the Act. Implementation of this section shall be consistent with any agreements which may be made as a result of collective bargaining or other negotiations between the state and its affected employee unions.

§ 201-a. State clean-fueled vehicle program. 1. There shall be created within the office of general services a clean-fueled vehicle program, with the purpose of acquiring clean-fueled vehicles for state use and testing and evaluating clean-fueled vehicle technologies.

3. The office of general services, in coordination with the New York state energy research and development authority, and the department of environmental conservation, shall be responsible for developing a state clean-fueled vehicle strategy which shall determine how best to incorporate clean-fueled vehicles into the state fleet. In developing the strategy, the office of general services shall consider such factors as: the duty to be performed by the vehicle, the terrain and climate of the area of the state in which the vehicle is to be used, and other factors the office of general services, in coordination with the New York state energy research and development authority and the department of environmental conservation, deem relevant.

4. The office of general services, in coordination with the New York state energy research and development authority, the department of motor vehicles and the department of environmental conservation, shall issue a report to the governor and the legislature on or before April first, nineteen hundred ninety-seven setting forth the state's strategy for the acquisition and utilization of clean-fueled vehicles and shall update

such strategy periodically.

Such strategies shall include: necessary amendments of state procurement policies to allow and encourage acquisition of clean-fueled vehicles, development of policy recommendations to establish incentives for acquisition of clean-fueled vehicles for use by individuals and private fleets, expeditious review of policies and procedures identified as barriers to clean-fueled vehicle introduction, and revision of such policies and procedures as appropriate. The report shall also assess existing infrastructure, determine what changes are necessary to support a sustainable clean-fueled vehicles market and recommend how best to implement those changes. The report shall assess factors including but not limited to the following: the availability and viability of existing or developing technology, sufficient public recharging/refueling capability, standards for recharging/refueling technologies, utility power quality, vehicle registration considerations, public outreach and safety training, battery recycling capability, insurance and liability considerations, and clean-fueled vehicle acquisition incentives. The report shall also determine the number of clean-fueled vehicles for immediate use in the state fleet that can be supported by existing infrastructure.

6. Immediately after submission of the report defined in subdivision five of this section, the office of general services shall begin a project to implement the recommendations and strategies of such report.

7. The office of general services shall develop a specific plan to procure and install necessary infrastructure for a sustainable state clean-fueled vehicle fleet, including a time frame for such procurement and installation. In developing such plan, the office of general services shall consider to the greatest extent possible any steps which will encourage the utilization of clean-fueled vehicles by the private sector. The office of general services shall either begin to acquire and install necessary infrastructure or issue requests for proposals for such procurement and installation, no later than January first, nineteen

hundred ninety-eight, provided however, that no acquisition of clean-fueled vehicles, or installation of associated infrastructure, from the proceeds of bonds issued pursuant to the Clean Water/Clean Air Bond Act of 1996, shall occur prior to April first, nineteen hundred ninety-seven.

8. The office of general services shall develop a specific plan for the procurement of clean-fueled vehicles for use in the state fleet. Procurement of clean-fueled vehicles and utilization in the state fleet using proceeds of bonds sold pursuant to the Clean Water/Clean Air Bond Act of 1996 shall begin as soon as possible after the issuance of, and in accordance with, the report defined in subdivision five of this section.

9. The office of general services, department of economic development, and the department of environmental conservation, shall evaluate the potential for developing a private clean-fueled vehicle industry in the state and submit recommendations from time to time to the legislature and the governor for attracting such industry, by either established motor vehicle producers or other companies, to the state.

§ 202. General duties. The office of general services shall provide coordinated services in support of state departments and agencies, and, as specified, authorities, municipalities and not-for-profit organizations, hereafter for the purposes of this section referred to as agencies. Such support services shall (i) serve to conserve state resources, (ii) benefit multiple agencies, and (iii) be consistent with the needs and interests of the agencies receiving those services. Support services may be delivered directly by the office of general services or by other means which ensure the cost effectiveness of those services. The commissioner of general services may recommend to the governor new services which could be offered by the office of general services, and that would reduce state or local expenditures and facilitate the mission of agencies currently receiving or which could receive such services.

§ 202-a. Language translation services. 1. Each state agency that provides direct public services in New York state shall translate all vital documents relevant to services offered by the agency into the twelve most common non-English languages spoken by limited-English proficient individuals in the state, based on the data in the most recent American Community Survey published by United States Census Bureau. Agencies subject to this section, in their discretion, may offer up to four additional languages beyond the twelve most common languages. Such additional languages shall be decided by the state agency in consultation with the office of general services and approved by the office of general services based on the number of limited-English proficient immigrants of five years or less in New York state in need of language translation services according to the American Community Survey, including the growth of recent arrival populations in the geographic regions in which the agency's services are offered, the population of limited-English proficient individuals served by the agency, feedback from impacted community or advocacy groups, and any other relevant data published by the United States Census Bureau.

2. Each agency subject to the provisions of this section shall designate a language access coordinator who will work with the office of general services to ensure compliance with the requirements of this section.

3. Each agency subject to the provisions of this section shall develop a language access plan and submit such plan to the office of general services.

(a) An agency's initial language access plan shall be issued by the agency within ninety days of the effective date of this section.

(iv) a training plan for agency employees which includes, at minimum, annual training on the language access policies of the agency and training in how to provide language assistance services;

(v) a plan for annual internal monitoring of the agency's compliance with this section;

(vi) a description of how the agency intends to notify the public of the agency's offered language assistance services;

(vii) an assessment of the agency's service populations to determine whether additional languages of translation should be added beyond the top twelve languages;

(viii) an explanation as to how the agency determined it would provide any additional language beyond the top twelve languages required by this section; and

(ix) the identity of the agency's language access coordinator.

4. Each agency subject to the provisions of this section shall:

(a) provide interpretation services between the agency and an individual in each individual's primary language with respect to the provision of services or benefits by the agency; and

(b) publish the agency's language access plan on the agency's website.

5. For purposes of this section, "vital document" means any paper or digital document that contains information that is critical for obtaining agency services or benefits or is otherwise required to be completed by law.

6. The office of general services will ensure agency compliance with this section and shall prepare an annual report, which shall be made public on the office of general services website, detailing each agency's progress and compliance with this section.

therefor by the legislature and subject to the written approval of the attorney general, to pay and cause to be satisfied and discharged claims for damage to personal or real property or for bodily injuries or wrongful death caused in connection with the operation of a motor vehicle (a) by officers or employees of the state, while acting within the scope of their employment, or (b) by other authorized persons providing service to state government while providing such service, or (c) with relation to motor vehicles which are assigned on a permanent basis with unrestricted use to state officers or employees, when caused by such officer or employee or by a person requested to operate such motor vehicle by such officer or employee in the course of or in connection with the use of such motor vehicle by such officer or employee. Such claims payments shall be made in accordance with a contract with a private firm to process, adjust, investigate, negotiate, settle, pay, and subrogate such claims on behalf of the state, as specified in such contract, provided that such firm is duly licensed to perform such services by the state department of financial services.

Notwithstanding any other provision of law, any such contract may provide for the payment of benefits up to a maximum of fifty thousand dollars for any occurrence in accordance with article fifty-one of the insurance law and for such payments, not based on tort, the attorney general's approval shall not be required. Notwithstanding any other provision of law, any payment of other property damage or bodily injury or wrongful death claims caused by a tort of such officers, employees, or other authorized personnel shall not exceed a maximum of twenty-five thousand dollars for each claimant in accordance with such terms, conditions and requirements as shall be set forth in such contract. Nothing contained in this section or in any contract provided for herein shall impair any right or obligation in connection with any executed contract of insurance entered into by the state separate and apart from the authority granted herein. No moneys appropriated for the

purposes of this section shall be available for expenditure from such appropriation until a certificate of approval has been issued by the director of the budget and copies of such certificate filed with the state comptroller, the chairman of the senate finance committee, and the chairman of the assembly ways and means committee.

(b) Continued funding of the operations of each center shall be based upon a showing that: the center continues to comply with the criteria established by the office pursuant to paragraph (b) of subdivision two of this section; a demonstration of assistance to small businesses in New York state through research, technology transfer or other means as approved by the office; compliance with the rules, regulations and guidelines of the office; and, compliance with any contracts between the office and the designated applied research center.

4. From such funds as may be appropriated for this purpose by the legislature, the office may provide grants to any one college or college-affiliated research institution for purposes of planning and program development aimed at enabling such college or college-affiliated research institution to qualify for designation as a center. Such grants shall be awarded on a competitive basis, and shall be available only to those applicants which, in the judgment of the office, may reasonably be expected to be designated as centers. No applicant shall receive more than one such grant.

5. (a) From such funds as may be appropriated for the purpose of incentive grants or other funds which may be available from the office to enhance center activities in areas of crucial interest in the state's economic development, the office may provide grants, on a competitive

basis, to centers for projects including, but not limited to, those which:

(i) explore new technologies with commercial application conducted jointly by two or more centers or a center and non-center university, college or community college;

(ii) are aimed at enhancing or accelerating the process of bringing new products, particularly those under development by new small businesses, to the marketplace; or

(iii) increase technology transfer projects with the state's mature manufacturing industries in applying technology in their manufacturing processes or for new product development.

(b) State support for incentive grants may be matched on an individual basis by the office, which may consider the type of project and the availability of amounts from private, university and governmental, other than state, sources.

6. (a) The office shall make a biannual report of the CART program to the governor and the legislature not later than September first of every other year. Such report shall include, but not be limited to, the results of an evaluation of each center by the office, a description of the achievement of each center, any deficiencies in the operation of each center or its research, education and technology transfer activities, remedial actions recommended by the office, remedial actions taken by each center, a description of the small business assistance provided by each center, a description of any incentive grant program awarded a grant by the office and the achievements of such program, and the amount of financial assistance provided by the office and the level of matching funds provided by each center and the uses of such monies.

(b) Bi-annual reports shall include a discussion of any fields of technology that the office has identified as having significant potential for economic growth or improved productivity and stability of New York state businesses and in which collaboration with a center for advanced technology is encouraged.

§ 210. Division of state police. The division of state police in the executive department shall be known as the "New York State Police." The head of the New York state police shall be the superintendent of state police who shall be appointed by the governor by and with the advice and consent of the senate, and hold office during his or her pleasure. The superintendent shall be a member of the state police, shall receive as salary such sum as may be appropriated by law, and shall accrue such leave credits and be eligible for the same retirement benefits, service credits and other benefits as any other member of the state police. If, prior to appointment, the superintendent served as a member of the state police, he or she, upon appointment, shall be entitled to continue to accrue and receive such credits and benefits as he or she would have been entitled to accrue and receive prior to appointment.

If, prior to his or her appointment, the superintendent shall have served as a member of the State Police for a period of ten years or more, he or she shall, provided he or she is not eligible for retirement, upon termination of service as superintendent, be reappointed, without examination, as a member of the state police in the grade held by him or her prior to appointment as superintendent, notwithstanding the absence of any vacancy in such grade. For the purpose of determining the annual salary to be paid upon such reappointment, the period of service as superintendent shall be counted as service in the grade to which reappointed.

§ 211. Employees. The superintendent may appoint such employees as may be necessary and fix their compensation within such sum as may be appropriated by law. Persons appointed to competitive positions within the division who meet the definition of veteran or disabled veteran as defined in section eighty-five of the civil service law shall be entitled to additional credit and preference as conferred by that law and in the same manner, except that, notwithstanding any law to the contrary, with respect to any candidate applying for credit in a competitive examination for original appointment as a disabled or non-disabled veteran, such candidate may apply provisionally for such credit while still an active member of the armed forces. The application for provisional credit may be made at any time between the date of his or her application for the competitive examination and the date the eligible list is established. In cases where there has been a provisional application, the superintendent shall grant final credit only if the candidate renews his or her application within ninety days following termination of the candidate's military duty, and the candidate's period of eligibility on the list has not expired, and the candidate satisfies the appropriate statutory requirements for eligibility. Pending the granting of final credit, the candidate's ranking on any eligible list shall reflect the provisional credit.

§ 212. Equipment. The superintendent is authorized on behalf of the state to purchase, lease or lease-purchase, within the amounts

appropriated therefor, necessary equipment and supplies, including but not limited to, vehicles and aircraft subject to the approval of the director of the budget, and uniforms; when any state property shall become unfit for use it shall be disposed of in accordance with the provisions of the finance law.

§ 213. Acquisition of real property. 1. The superintendent shall from time to time establish headquarters or substations in such localities as he shall deem most suitable for the efficient performance of police duty in the rural sections of the state, and for that purpose and for other purposes of the division he may, when an appropriation therefor has been made by the legislature, acquire, in the name of the people of the state of New York, by lease, purchase, lease-purchase subject to the approval of such lease-purchase agreement by the director of the budget or, pursuant to the provisions of the eminent domain procedure law, any real property which he may deem necessary therefor; provided, however, that no such real property shall be so acquired by purchase or lease-purchase unless the title thereto shall be approved by the attorney general.

2. Whenever real property is to be acquired pursuant to the eminent domain procedure law, the superintendent shall cause to be made by the state department of transportation an accurate acquisition map.

3. On the approval of such map by the superintendent of the division of state police, the original tracing of such map shall be filed in the main office of the division of state police pursuant to the provisions of the eminent domain procedure law.

4. If the superintendent shall determine, prior to the filing of such map in the office of the clerk or register of the county, that changes, alterations or modifications of such map as filed in the main office of the division of state police should be made, he or she shall, subject to the provisions of article two of the eminent domain procedure law, if applicable, direct the preparation by the department of transportation of an amended map. On the approval of such amended map by the superintendent, it shall be filed in the main office of the division of

state police and the amended map shall thereupon in all respects and for all purposes supersede the map previously filed.

5. If the superintendent shall determine, prior to the filing of a copy of such acquisition map in the office of the county clerk or register as provided in section four hundred two of the eminent domain procedure law, that such map should be withdrawn, he or she may file a certificate of withdrawal in the offices of the division of state police and of the department of law. Upon the filing of such certificate of withdrawal, the map to which it refers shall be cancelled and all rights thereunder shall cease and determine.

6. The superintendent shall deliver to the attorney general a copy of such acquisition map, whereupon it shall be the duty of the attorney general to advise and certify to the superintendent the names of the owners of the property, easements, interests or rights described in the said acquisition map, including the owners of any right, title or interest therein pursuant to the requirements of section four hundred three of the eminent domain procedure law.

7. If, at or after the vesting of title to such property in the people of the state of New York as provided for in the eminent domain procedure law, the superintendent shall deem it necessary to cause the removal of an owner or occupant from any real property so acquired, he may cause such owner or occupant to be removed therefrom by proceeding in accordance with section four hundred five of the eminent domain procedure law. The proceeding shall be brought in the name of the superintendent as agent of the state and the attorney general shall represent the petitioner in the proceedings. No execution shall issue for costs, if any, awarded against the state or the superintendent, but they shall be part of the costs of the acquisition of the real property and be paid in like manner. Proceedings may be brought separately against one or more of the owners or occupants of any such property, or one proceeding may be brought against all or several of the owners or occupants of any or all such property within the territorial jurisdiction of the same court, justice or judge; precepts or final orders shall be made for immediate removal of persons defaulting in

appearance or in answering, or withdrawing their answers, if any, without awaiting the trial or decision of issues raised by contestants, if any.

8. Upon making any agreement provided for in section three hundred four of the eminent domain procedure law, the superintendent shall deliver to the comptroller such agreement and a certificate stating the amount due such owner or owners thereunder on account of such appropriation of his or their property and the amounts so fixed shall be paid out of the state treasury after audit by the comptroller from moneys appropriated for the acquisition of such real property, but not until there shall have been filed with the comptroller a certificate of the attorney general showing the person or persons claiming the amount so agreed upon to be legally entitled thereto.

9. Application for reimbursement of incidental expenses as provided in section seven hundred two of the eminent domain procedure law shall be made to the superintendent upon forms prescribed by him and shall be accompanied by such information and evidence as the superintendent may require. Upon approval of such application, the superintendent shall deliver a copy thereof to the comptroller together with a certificate stating the amount due thereof, and the amount so fixed shall be paid out of the state treasury after audit by the comptroller from moneys appropriated for the acquisition of property under this section.

10. The commissioner, with the approval of the director of the budget, shall establish and may from time to time amend rules and regulations authorizing the payment of actual reasonable and necessary moving expenses of occupants of property acquired pursuant to this section; of actual direct losses of tangible personal property as a result of moving or discontinuing a business or farm operation, but not exceeding an amount equal to the reasonable expenses that would have been required to relocate such property, as determined by the commissioner; and actual reasonable expenses in searching for a replacement business or farm; or in hardship cases for the advance payment of such expenses and losses. For the purposes of making payment of such expenses and losses only the term "business" means any lawful activity conducted primarily for

assisting in the purchase, sale, resale, manufacture, processing or marketing of products, commodities, personal property or services by the erection and maintenance of an outdoor advertising display or displays, whether or not such display or displays are located on the premises on which any of the above activities are conducted. Such rules and regulations may further define the terms used in this subdivision. In lieu of such actual reasonable and necessary moving expenses, any such displaced owner or tenant of residential property may elect to accept a moving expense allowance, plus a dislocation allowance, determined in accordance with a schedule prepared by the commissioner and made a part of such rules and regulations. In lieu of such actual reasonable and necessary moving expenses, any such displaced owner or tenant of commercial property who relocates or discontinues his business or farm operation may elect to accept a fixed relocation payment in an amount equal to the average annual net earnings of the business or farm operation, except that such payment shall be not less than two thousand five hundred dollars nor more than ten thousand dollars. In the case of a business, no such fixed relocation payment shall be made unless the commissioner finds and determines that the business cannot be relocated without a substantial loss of its existing patronage, and that the business is not part of a commercial enterprise having at least one other establishment, which is not being acquired by the state or the United States, which is engaged in the same or similar business. In the case of a business which is to be discontinued but for which the findings and determinations set forth above cannot be made, the commissioner may prepare an estimate of what the actual reasonable and necessary moving expenses, exclusive of any storage charges, would be if the business were to be relocated and enter into an agreed settlement with the owner of such business for an amount not to exceed such estimate in lieu of such actual reasonable and necessary moving expenses. Application for payment under this subdivision shall be made to the commissioner upon forms prescribed by him and shall be accompanied by such information and evidence as the commissioner may require. Upon approval of such application, the commissioner shall deliver a copy thereof to the comptroller together with a certificate stating the amount due thereunder, and the amount so fixed shall be paid out of the state treasury after audit by the comptroller from moneys

appropriated for the acquisition of property under this section. As used in this subdivision the term "commercial property" shall include property owned by an individual, family, partnership, corporation, association or a nonprofit organization and includes a farm operation. As used in this subdivision the term "business" means any lawful activity, except a farm operation, conducted primarily for the purchase, sale, lease and rental of personal and real property, and for the manufacture, processing, or marketing of products, commodities, or any other personal property; for the sale of services to the public; or by a nonprofit organization.

11. Authorization is hereby given to the commissioner to make supplemental relocation payments, separately computed and stated, to displaced owners and tenants of residential property acquired pursuant to this section who are entitled thereto, as determined by him. The commissioner, with the approval of the director of the budget, may establish and from time to time amend rules and regulations providing for such supplemental relocation payments. Such rules and regulations may further define the terms used in this subdivision. In the case of property acquired pursuant to this section which is improved by a dwelling actually owned and occupied by the displaced owner for not less than one hundred eighty days immediately prior to initiation of negotiations for the acquisition of such property, such payment to such owner shall not exceed fifteen thousand dollars. Such payment shall be the amount, if any, which, when added to the acquisition payment equals the average price, established by the commissioner on a class, group or individual basis, required to obtain a comparable replacement dwelling that is decent, safe and sanitary to accommodate the displaced owner, reasonably accessible to public services and places of employment and available on the private market, but in no event shall such payment exceed the difference between acquisition payment and the actual purchase price of the replacement dwelling. Such payment shall include an amount which will compensate such displaced owner for any increased interest costs which such person is required to pay for financing the acquisition of any such comparable replacement dwelling. Such amount shall be paid only if the dwelling acquired pursuant to this section was encumbered by a bona fide mortgage which was a valid lien on such

dwelling for not less than one hundred eighty days prior to the initiation of negotiations for the acquisition of such dwelling. Such amount shall be equal to the excess in the aggregate interest and other debt service costs of that amount of the principal of the mortgage on the replacement dwelling which is equal to the unpaid balance of the mortgage on the acquired dwelling, over the remainder term of the mortgage on the acquired dwelling, reduced to discounted present value. The discount rate shall be the prevailing interest rate paid on savings deposits by commercial banks in the general area in which the replacement dwelling is located. Any such mortgage interest differential payment shall, notwithstanding the provisions of section twenty-six-b of the general construction law, be in lieu of and in full satisfaction of the requirements of such section. Such payment shall include reasonable expenses incurred by such displaced owner for evidence of title, recording fees and other closing costs incident to the purchase of the replacement dwelling, but not including prepaid expenses. Such payment shall be made only to a displaced owner who purchases and occupies a replacement dwelling which is decent, safe and sanitary within one year subsequent to the date on which he is required to move from the dwelling acquired pursuant to this section or the date on which he receives from the state final payment of all costs of the acquired dwelling, whichever occurs later, except advance payment of such amount may be made in hardship cases. In the case of property acquired pursuant to this section from which an individual or family, not otherwise eligible to receive a payment pursuant to the above provisions of this subdivision, is displaced from any dwelling thereon which has been actually and lawfully occupied by such individual or family for not less than ninety days immediately prior to the initiation of negotiations for the acquisition of such property, such payment to such individual or family shall not exceed four thousand dollars. Such payment shall be the amount which is necessary to enable such individual or family to lease or rent for a period not to exceed four years, a decent, safe, and sanitary dwelling of standards adequate to accommodate such individual or family in areas not generally less desirable in regard to public utilities and public and commercial facilities and reasonably accessible to his place of employment, but shall not exceed four thousand dollars, or to make the down payment, including reasonable expenses incurred by such

individual or family for evidence of title, recording fees, and other closing costs incident to the purchase of the replacement dwelling, but not including prepaid expenses, on the purchase of a decent, safe and sanitary dwelling of standards adequate to accommodate such individual or family in areas not generally less desirable in regard to public utilities and public and commercial facilities, but shall not exceed four thousand dollars, except if such amount exceeds two thousand dollars, such person must equally match any such amount in excess of two thousand dollars, in making the down payment. Such payments may be made in installments as determined by the commissioner. Application for payment under this subdivision shall be made to the commissioner upon forms prescribed by him and shall be accompanied by such information and evidence as the commissioner may require. Upon approval of such application, the commissioner shall deliver a copy thereof to the comptroller, together with a certificate stating the amount due thereunder, and the amount so fixed shall be paid out of the state treasury after audit by the comptroller from moneys appropriated for the acquisition of property under this section.

12. The owner of any real property so acquired may present to the court of claims, pursuant to section five hundred three of the eminent domain procedure law a claim for the value of such property acquired and for legal damages caused by such acquisition, as provided by law for the filing of claims with the court of claims. Awards and judgments of the court of claims shall be paid in the same manner as awards and judgments of that court for the acquisition of lands generally and shall be paid out of the state treasury after audit by the comptroller from moneys appropriated for the acquisition of such real property.

13. If the superintendent shall determine subsequent to the acquisition of a temporary easement in any real property that the purposes for which such easement right was acquired have been accomplished and that the exercise of such easement is no longer necessary, he shall make his certificate that the exercise of such easement is no longer necessary and that such easement right is therefore terminated, released and extinguished. The superintendent shall cause such certificate to be filed in the office of the department

of state and upon such filing all rights acquired by the state in such property shall cease and determine. The superintendent shall cause a certified copy of such certificate as so filed in the office of the department of state to be mailed to the owner of the property affected, as certified by the attorney general, if the place of residence of such owner is known or can be ascertained by a reasonable effort and such superintendent shall cause a further certified copy of such certificate to be filed in the office of the recording officer of each county in which the property affected or any part thereof is situated. On the filing of such certified copy of such certificate with such recording officer, it shall be his duty to record the same in his office in the books used for recording deeds and to index the same against the name of the people of the state of New York as grantor.

§ 214. Establishment of training school. The superintendent may establish and maintain a training school and make rules and regulations for the conduct thereof; provided, however, that such regulations shall provide that the children or surviving spouse of a state police officer killed in the line of duty shall, if otherwise qualified, have a prior and preferred right over other applicants to appointment to such training school or academy.

§ 214-a. Child abuse prevention. The superintendent shall, for all members of the state police: (1) develop, maintain and disseminate written policies and procedures pursuant to title six of article six of the social services law and applicable provisions of article ten of the family court act, regarding the mandatory reporting of child abuse or neglect, reporting procedures and obligations of persons required to report, provisions for taking a child into protective custody, mandatory reporting of deaths, immunity from liability, penalties for failure to report and obligations for the provision of services and procedures necessary to safeguard the life or health of the child; and (2) establish, and implement on an ongoing basis, a training program for all current and new employees regarding the policies and procedures established pursuant to this section.

§ 214-b. Family offense intervention. The superintendent shall, for all members of the state police including new and veteran officers, develop, maintain and disseminate, in consultation with the state office for the prevention of domestic violence, written policies and procedures consistent with article eight of the family court act and applicable provisions of the criminal procedure and domestic relations laws, regarding the investigation of and intervention in incidents of family offenses. Such policies and procedures shall make provision for education and training in the interpretation and enforcement of New York's family offense laws, including but not limited to:

(a) intake and recording of victim statements, and the prompt translation of such statements if made in a language other than English, in accordance with subdivision (c) of this section, on a standardized "domestic violence incident report form" promulgated by the state division of criminal justice services in consultation with the superintendent and with the state office for the prevention of domestic violence, and the investigation thereof so as to ascertain whether a crime has been committed against the victim by a member of the victim's family or household as such terms are defined in section eight hundred twelve of the family court act and section 530.11 of the criminal procedure law;

(b) the need for immediate intervention in family offenses including the arrest and detention of alleged offenders, pursuant to subdivision four of section 140.10 of the criminal procedure law, and notifying victims of their rights, in their native language, if identified as other than English, in accordance with subdivision (c) of this section, including but not limited to immediately providing the victim with the written notice provided in subdivision six of section 530.11 of the criminal procedure law and subdivision five of section eight hundred twelve of the family court act.

(c) The superintendent, in consultation with the division of criminal justice services and the office for the prevention of domestic violence shall determine the languages in which such translation required by subdivision (a) of this section, and the notification required pursuant to subdivision (b) of this section, shall be provided. Such

determination shall be based on the size of the New York state population that speaks each language and any other relevant factor. Such written notice required pursuant to subdivision (b) of this section shall be made available to all state police officers in the state.

§ 214-c. Elder abuse awareness. The superintendent, in cooperation with the state office for the aging and the office of children and family services, shall, for all members of the division of state police: (1) develop, maintain and disseminate educational material relating to abuse of adults, including physical abuse, sexual abuse, emotional abuse, active neglect, passive neglect, self neglect, and financial exploitation, as such terms are defined in section four hundred seventy-three of the social services law, and identity theft, and (2) establish and implement written procedures and policies in the event a member of the division of state police encounters such abuse, including the provision of information and referral.

§ 214-d. Human trafficking awareness. The superintendent, in consultation with the office of temporary and disability assistance and the division of criminal justice services, shall: (1) develop, maintain and disseminate to all members of the state police, including new and veteran officers, written policies, procedures and educational materials relating to human trafficking victims, including services available for victims of human trafficking, as referenced in section four hundred eighty-three-bb of the social services law; and (2) establish and implement written procedures and policies in the event a member of the division of state police encounters an individual believed to be a victim of human trafficking, which shall include, but not be limited to, the provision of information and/or referral to an appropriate provider of social and legal services to human trafficking victims, in accordance with such section four hundred eighty-three-bb.

§ 214-e. Cardiopulmonary resuscitation training and retraining. 1. For the purposes of this section, "cardiopulmonary resuscitation" shall have

the same meaning as provided in subdivision six of section six hundred twenty-one of the general business law.

2. Each member of the division of state police shall be:

- (a) trained in cardiopulmonary resuscitation during the training process to become a trooper;
- (b) retrained in cardiopulmonary resuscitation every two years; and
- (c) required to demonstrate the satisfactory completion of training in cardiopulmonary resuscitation.

§ 214-f. Emergency situations involving people with autism spectrum disorder and other developmental disabilities. The superintendent shall, for all members of the state police:

1. Develop, maintain and disseminate, in consultation with the commissioner of the office for people with developmental disabilities, written policies and procedures consistent with section 13.43 of the mental hygiene law, regarding the handling of emergency situations involving individuals with autism spectrum disorder and other developmental disabilities. Such policies and procedures shall make provisions for the education and training of new and veteran police officers on the handling of emergency situations involving individuals with developmental disabilities; and

2. Recommend to the governor, rules and regulations with respect to establishment and implementation on an ongoing basis of a training program for all current and new police officers regarding the policies and procedures established pursuant to this subdivision, along with recommendations for periodic retraining of police officers.

§ 214-g. Opioid antagonist awareness. (2) establish and implement written procedures and policies in the event a member of the division of state police encounters a person who possesses opioid antagonists.

*** § 214-h. *** § 214-h. Model law enforcement death notification policy.** The superintendent, in collaboration with the office of victim services, shall, for all members of the division of state police:

1. Develop, maintain and disseminate a model law enforcement death notification policy setting forth recommended policies and procedures regarding in-person death notifications to a deceased individual's next of kin. Such policies and procedures shall make provisions for education and training of current and new police officers in the planning, preparation, and delivery of in-person death notifications, including but not limited to, policies and procedures for:

(a) the identification of the deceased individual, the collection of accurate information regarding the deceased individual, and the identification of the deceased individual's next of kin;

(b) the actual delivery of in-person death notifications to the deceased individual's next of kin within twenty-four hours following the identification of such individual; provided, however, such policies and procedures shall provide that, in the event that an in-person death notification cannot be provided to the deceased individual's next of kin within such timeframe, the failure or delay of such notification shall be documented and such notification shall instead be made as soon as

practicable; and

(c) providing information to the deceased individual's next of kin regarding the existence of programs and support services available to them.

2. Recommend to the governor rules and regulations with respect to the establishment and implementation on an ongoing basis of a training program for all current and new police officers regarding the policies and procedures established pursuant to this section, along with recommendations for periodic retraining of police officers.

3. Disseminate the model law enforcement death notification policy promulgated in accordance with this section to all members of the state police and develop a model training program for all current and new police officers regarding the policies and procedures established pursuant to such section.

* NB There are 2 § 214-h's

§ 214-i. Child-sensitive arrests. The superintendent, in consultation with the office of children and family services, shall develop, maintain and disseminate to all members of the state police written policies and procedures, regarding child-sensitive arrest practices. Such policies and procedures shall address situations in which the parent, guardian, or other person legally charged with the care or custody of a child less than eighteen years old is arrested. Such policies and procedures shall include, but not be limited to:

minimizing the impact of the emotional harm caused by witnessing such arrests; and

(d) information on the availability of access to community-based providers of crisis intervention, child protection and other supportive resources that could aid the child of an arrested parent, guardian or other person legally charged with the care or custody of such child.

§ 214-j. Critical incident policy. 1. As used in this section, the following terms shall have the following meanings:

(a) "Critical incident" shall mean the following actions when performed by a member or experienced by a member in the course of official duties: (i) an action that directly causes serious physical injury or death to another person or member; (ii) a discharge of a firearm by a member directed at another person; (iii) a traffic accident or incident involving a division vehicle, aircraft, or vessel that results in serious physical injury or death; or (iv) any other incident deemed appropriate by the superintendent or their designee.

(b) "Serious physical injury" shall mean an injury that, based on the facts and circumstances reasonably known at the time of the incident, appears to involve a substantial risk of death or an obvious and severe impairment of a major bodily function, such that a reasonable person would conclude the injury is life-threatening or significantly life-altering, without regard to later medical findings, prognosis, or outcome. The determination of a "serious physical injury" shall be made by the superintendent or their designee based on the observable conditions and available information at the time the supervisor arrives at the scene of the critical incident, and shall not be affected by subsequent medical evaluation or recovery. "Serious physical injury" shall include, but not be limited to, suspected spinal cord injury or paralysis, severe penetrating head injury, massive blood loss, or loss of limb.

(c) "Directly involved" shall mean any member who was physically present within the immediate proximity of a critical incident at the time it occurred and whose direct exposure to the incident placed the member within the immediate zone of operational engagement, regardless of whether the member discharged a weapon or otherwise used force.

(d) "Primary member" means any directly involved member who justifiably used deadly physical force during the critical incident, or whose actions during the critical incident appear to be the most immediate and substantial cause of death or serious physical injury to a person.

2. The superintendent shall develop, maintain, and disseminate to all members of the division of state police a critical incident paid leave policy that provides for paid critical incident leave in accordance with this section.

3. Such critical incident paid leave policy shall guarantee: (a) paid critical incident leave of at least twenty calendar days for any primary member whose official actions were the direct and proximate cause of the death of another person; (b) paid critical incident leave of at least ten calendar days for any other member directly involved in the critical incident; and (c) paid critical incident leave under such other circumstances the superintendent or their designee determines appropriate. Such leave shall constitute a separate category of leave and shall not count against vacation, sick, or personal leave accruals. Such leave, where appropriate, shall be designated as family and medical leave act and/or count against a member's workers' compensation leave entitlement.

4. Critical incident paid leave shall begin as soon as possible after the critical incident, provided that initial supervisory inquiries of the involved members shall occur before leave commences. Critical incident leave may only be delayed to ensure minimum necessary staffing levels or protect community safety. Delays shall only be as long as necessary to address such concerns. Upon agreement of the member and the superintendent or their designee, the member shall be allowed to return to duty prior to the completion of the period of critical incident leave.

6. 7. The superintendent is authorized to promulgate rules and regulations to implement, administer, and enforce the provisions of this section.

b. The salary schedules in subparagraphs one, two, three and four of paragraph a of this subdivision shall reflect a five-step progression from the entry level, step 1 salary to the highest level, step 5, for the position of trooper.

c. The salary schedules in paragraph a of this subdivision reflect the basic annual salary for employees in those titles listed whose principal place of employment, or in the case of a field employee, whose official station as determined in accordance with the regulations of the state comptroller is located in the locations listed in the salary schedule. The salary schedules shall not be applicable to those members in the title of Special Trooper.

2-a. The superintendent may also appoint a division physician who shall be the medical consultant and chief medical examiner of the New York state police, and assistant division physicians each of whom shall be an assistant medical consultant and assistant chief medical examiner of the New York state police.

3. The sworn members of the New York state police shall be appointed by the superintendent and permanent appointees may be removed by the superintendent only after a hearing. No person shall be appointed to the New York state police force as a sworn member unless such person shall be a citizen of the United States, between the ages of twenty-one and forty-three years. Notwithstanding any other provision of law or any general or special law to the contrary the time spent on military duty, not exceeding a total of six years, shall be subtracted from the age of any applicant who has passed their forty-third birthday, solely for the

purpose of permitting qualification as to age and for no other purpose. Such limitations as to age however shall not apply to persons appointed to the positions of counsel, first assistant counsel, assistant counsel, and assistant deputy superintendent for employee relations nor to any person appointed to the bureau of criminal investigation pursuant to section two hundred sixteen of this article nor shall any person be appointed unless such person has fitness and good moral character and shall have passed a physical and mental examination based upon standards provided by the rules and regulations of the superintendent.

Appointments shall be made for a probationary period which, in the case of appointees required to attend and complete a basic training program at the state police academy, shall include such time spent attending the basic school and terminate one year after successful completion thereof. All other sworn members shall be subject to a probationary period of one year from the date of appointment. Following satisfactory completion of the probationary period the member shall be a permanent appointee.

Voluntary resignation or withdrawal from the New York state police during such appointment shall be submitted to the superintendent for approval. Reasonable time shall be required to account for all equipment issued or for debts or obligations to the state to be satisfied.

Resignation or withdrawal from the division during a time of emergency, so declared by the governor, shall not be approved if contrary to the best interest of the state and shall be a misdemeanor. No sworn member removed from the New York state police shall be eligible for reappointment. The superintendent shall make rules and regulations subject to approval by the governor for the discipline and control of the New York state police and for the examination and qualifications of applicants for appointment as members thereto and such examinations shall be held and conducted by the superintendent subject to such rules and regulations. The superintendent is authorized to charge a fee of twenty dollars as an application fee for any person applying to take a competitive examination for the position of trooper, and a fee of five dollars for any competitive examination for a civilian position. The superintendent shall promulgate regulations subject to the approval of the director of the budget, to provide for a waiver of the application fee when the fee would cause an unreasonable hardship on the applicant and to establish a fee schedule and charge fees for the use of state

police facilities.

3-a. Notwithstanding any other law, rule or regulation to the contrary, the superintendent shall promulgate rules and regulations subject to approval by the governor for the administration of supplemental competitive examinations, to be given at not less than six month intervals for two years following the application deadline date of the regular competitive examination for the position of trooper, for individuals who, on the application deadline date or on the date of the regular competitive examination, are in the active military service and are otherwise qualified to sit for such exam.

4. The comptroller is hereby authorized to deduct from the salary of any member of the New York state police or any employee of the New York state police who holds life or group insurance under any salary savings plan of the insurer such amounts, for payment of the premium thereon, as such member or employee may specify in writing filed with the comptroller, and to transmit to the insurer the sums so deducted. Any such written authorization may be withdrawn by such member or employee at any time upon filing written notice of such withdrawal with the comptroller. Notwithstanding the foregoing provisions of this subdivision, the employee organization certified, pursuant to article fourteen of the civil service law, to represent the collective negotiating unit consisting of troopers in the division of state police shall have exclusive payroll deduction of membership dues and premiums for insurance and mass-merchandized automobile and homeowners' insurance policies for members of such collective negotiating unit and the employee organization certified to represent the collective negotiating unit consisting of commissioned and non-commissioned officers and the employee organization certified to represent the collective negotiating unit consisting of investigators, senior investigators and investigative specialists in the division of state police shall have exclusive payroll deduction of premiums for insurance programs for members of such collective negotiating unit for which it is so certified. Payroll deductions for such dues and premiums for members of such collective negotiating units shall not be authorized for any other employee organization or group except by express written approval of such

appropriate certified employee organization.

5. Whenever the superintendent finds that under community wage practices in private or other public employment in one or more areas or locations in the state, wage rates of police officers in a given location are substantially higher than the wage rates paid by the state, he or she may, subject to the approval of the director of the budget, authorize a pay differential to be added as an adjustment to the established salary rates for the same or related occupations in the state police in such areas or locations. A pay differential under this subdivision shall be a percentage or a fixed dollar amount as prescribed in each case by the superintendent subject to the approval of the director of the budget. Such differentials shall be in addition to and shall not be part of a member's basic annual salary, and shall not affect or impair any performance advancement payments, performance awards, longevity payments or other rights or benefits to which a member may be entitled under the provisions of this chapter, provided, however, that any differential payable pursuant to this subdivision shall be included as compensation for retirement purposes. A pay differential shall be terminated for any member when he or she ceases to be employed in the position, or area or location for which such pay differential was authorized. A pay differential shall remain in effect until terminated by the superintendent, with the consent of the director of the budget or until a new pay differential is authorized pursuant to this subdivision. The director of the budget may adopt such regulations as he or she may deem necessary to carry out the provisions of this subdivision.

§ 216. Bureau of criminal investigation. 1. The superintendent may continue, within the New York state police, a bureau of criminal investigation and assign to it members of the New York state police in such numbers and appoint to it such investigative specialists in such numbers as may be required for the purpose of preventing, investigating and detecting violations of the criminal laws of the state, and conducting such other investigations as may be provided for by law. Members of the New York state police assigned to the bureau of criminal investigation and investigative specialists appointed to the bureau by

the superintendent shall be classified as (a) investigators; (b) senior investigators; (c) lieutenants; (d) captains; provided, however, that investigative specialists appointed to the bureau of criminal investigation may be appointed as investigators or senior investigators at salaries to be determined by the superintendent with the approval of the director of the budget within the range from minimum to maximum provided for in this section for the positions to which appointments are made. Investigative specialists appointed to the bureau of criminal investigation shall be deemed to be members of the New York state police upon the filing by them of the constitutional oath of office, but shall not be eligible for transfer to the uniform force unless otherwise qualified under section two hundred fifteen of this article. The superintendent may employ, from time to time, within the appropriation, such skilled experts, scientists, technicians or other specially qualified persons as he deems necessary to aid the bureau and the New York state police in preventing or detecting crime, apprehending criminals, or preparing and presenting evidence of violations of the criminal laws of the state. Upon request of the head of any state department, or of any police agency or of any district attorney within the state, the superintendent may assign to such requesting authority members of the state police attached to the bureau of criminal investigation in such numbers and for such periods of time as he may deem necessary for the purpose of investigating and detecting felonies committed within the state. Members of the state police assigned or appointed to the bureau of criminal investigation are empowered to cooperate with departments of the United States government in the investigation of violations of the federal laws of the grade of felony within this state. The superintendent may, from time to time, establish headquarters or stations in such localities of the state as he shall deem most suitable for the efficient operation of the bureau of criminal investigation.

2. (a) There shall be within the bureau of criminal investigation a hate crime task force. The superintendent shall assign to it such personnel as may be required for the purpose of preventing, investigating, and detecting hate crimes as defined in article four hundred eighty-five and sections 240.30 and 240.31 of the penal law.

When at all possible, the task force members shall assist and support other law enforcement agencies in preventing, investigating, and detecting offenses committed due to a perception or belief regarding the race, color, national origin, ancestry, gender, religion, religious practice, age, disability or sexual orientation of a person.

(b) The task force shall issue reports and publications, in conjunction with the division of human rights and the division of criminal justice services, in order to inform persons of all available rights and remedies under the penal law as referenced in paragraph (a) of this subdivision, as well as prohibitions against discrimination because of age, race, creed, color, national origin, sexual orientation, military status, sex, disability, familial status, domestic violence victim status, genetic predisposition status, or marital status as those terms are defined by article fifteen of this chapter.

(c) The first report issued by the hate crimes task force, as required by paragraph (b) of this subdivision, shall be issued within ninety days of the effective date of this subdivision. Subsequent reports shall be issued annually thereafter.

develop and implement a strategy for the interdiction of guns illegally entering New York from supplier states. The strategy shall include identifying and prosecuting gun traffickers and suppliers of such guns who may be violating federal, state or local laws, and cooperating with the United States department of treasury, bureau of alcohol, tobacco and firearms and appropriate prosecutorial agencies and law enforcement agencies in supplier states in the investigation and enforcement of such laws. District attorneys are authorized to enter into collaborative agreements with prosecutorial and other governmental agencies and entities in supplier states in an effort to stop the movement of illegal guns into New York.

4. The superintendent of the division of state police shall establish and maintain within the division a criminal gun clearinghouse as a central repository of information regarding all guns seized, forfeited, found or otherwise coming into the possession of any state or local law enforcement agency which are believed to have been used in the commission of a crime. Every report made to the criminal gun clearinghouse will result in the prompt submission of a request to the national tracing center of the bureau of alcohol, tobacco, firearms and explosives to trace the movement of the subject gun and such federal agency will be requested to provide the results of such a trace to the superintendent of the division of state police and to the law enforcement agency that submitted the clearinghouse report.

5. All state and local law enforcement agencies shall participate in the bureau of alcohol, tobacco, firearms and explosives collective data sharing program for the purpose of sharing gun trace reports among all law enforcement agencies in the state on a reciprocal basis.

Such information shall be provided to the extent allowable by federal, state or any other applicable law.

7. (a) Whenever a state or local law enforcement agency seizes or recovers a gun that was unlawfully possessed, recovered from the scene of a crime, or is reasonably believed to have been used or associated with the commission of a crime, or is recovered by the agency as an abandoned or discarded gun, the agency shall arrange for every such gun that is determined to be suitable for test-firing and of a type that is eligible for national integrated ballistic information network data entry and correlation to be test-fired as soon as practicable, and the results of that test-firing shall be submitted forthwith to the national integrated ballistic information network to determine whether the gun is associated or related to a crime, criminal event, or any individual associated or related to a crime or criminal event or reasonably believed to be associated or related to a crime or criminal event.

(b) Whenever a state or local law enforcement agency recovers any ammunition cartridge case that is of a type that is eligible for national integrated ballistic information network data entry and correlation at a crime scene, or has reason to believe that such recovered ammunition cartridge case is related to or associated with the commission of a crime or the unlawful discharge of a gun, the agency shall, as soon as practicable, arrange for the ballistics information to be submitted to the national integrated ballistic information network.

4. The office shall recommend to the commissioner rules and regulations which shall include guidelines and procedures on the placement of sex offenders designated as level two or level three offenders pursuant to article six-C of the correction law. Such regulations shall instruct local probation departments to consider certain factors when investigating and approving the residence of level two or level three sex offenders sentenced to a period of probation. A court with respect to such a probationer and the parole board with respect to such a parolee shall, subject to regulation by the division control admissions to and discharges from such hostels and foster homes. When placement is made in any hostel or foster home, or in any facility other than a public institution, such placement whenever practicable shall be in a hostel, or facility operated by or in the home of a person or persons of the same religious faith as the probationer or parolee.

2. The office shall have authority and the duty to stimulate programs for the development of hostels and foster homes for the care of

probationers and parolees under the age of twenty-one years.

Any such agreement shall provide for the proportionate cost, including but not limited to salaries and employer's retirement contributions, of such joint county probation service to be borne by each county and may provide that the treasurer of one county participating in such agreement shall be the custodian of the moneys made available for expenditure for the purposes of such joint county probation service and that such treasurer may make payments from such moneys for such purposes upon audit of the appropriate auditing officer or body of such county. Such agreement may provide for such other matters as are necessary and proper to effectuate the purposes of this subdivision.

3. A local probation department which authorizes indemnification under this section, however, shall not be subject to the obligations imposed by this section unless such volunteer shall, within five days of the time he is served with any summons, complaint, process, notice, demand or pleading, deliver the original or a copy thereof to the local department and unless such person shall cooperate fully with the local probation department in the defense of said claim, demand or suit. Upon

The department shall waive all or part of such fee where, because of the indigence of the offender, the payment of said surcharge would work an unreasonable hardship on the person convicted, his or her immediate family, or any other person who is dependent on such person for financial support.

2. The provisions of subdivision six of section 420.10 of the criminal procedure law shall govern for purposes of collection of the administrative fee.

§ 259-i. Procedures for the conduct of the work of the state board of parole.

2. Parole. * (a) (i) Except as provided in subparagraph (ii) of this paragraph, at least one month prior to the date on which an incarcerated individual may be paroled pursuant to subdivision one of section 70.40 of the penal law, a member or members as determined by the rules of the board shall personally interview such incarcerated individual and determine whether he or she should be paroled in accordance with the guidelines adopted pursuant to subdivision four of section two hundred fifty-nine-c of this article. If parole is not granted upon such review, the incarcerated individual shall be informed in writing within two weeks of such appearance of the factors and reasons for such denial of parole. Such reasons shall be given in detail and not in conclusory terms. The board shall specify a date not more than twenty-four months from such determination for reconsideration, and the procedures to be followed upon reconsideration shall be the same. If the incarcerated individual is released, he or she shall be given a copy of the conditions of parole. Such conditions shall where appropriate, include a requirement that the parolee comply with any restitution order, mandatory surcharge, sex offender registration fee and DNA databank fee previously imposed by a court of competent jurisdiction that applies to the parolee. The conditions shall indicate which restitution collection agency established under subdivision eight of section 420.10 of the criminal procedure law, shall be responsible for collection of restitution, mandatory surcharge, sex offender registration fees and DNA databank fees as provided for in section 60.35 of the penal law and section eighteen hundred nine of the vehicle and traffic law. If the

incarcerated individual is released, he or she shall also be notified in writing that his or her voting rights will be restored upon release.

(ii) Any incarcerated individual who is scheduled for presumptive release pursuant to section eight hundred six of the correction law shall not appear before the board as provided in subparagraph (i) of this paragraph unless such incarcerated individual's scheduled presumptive release is forfeited, canceled, or rescinded subsequently as provided in such law. In such event, the incarcerated individual shall appear before the board for release consideration as provided in subparagraph (i) of this paragraph as soon thereafter as is practicable.

* NB Effective until September 1, 2027

* (a) At least one month prior to the expiration of the minimum period or periods of imprisonment fixed by the court or board, a member or members as determined by the rules of the board shall personally interview an incarcerated individual serving an indeterminate sentence and determine whether he or she should be paroled at the expiration of the minimum period or periods in accordance with the procedures adopted pursuant to subdivision four of section two hundred fifty-nine-c of this article. If parole is not granted upon such review, the incarcerated individual shall be informed in writing within two weeks of such appearance of the factors and reasons for such denial of parole. Such reasons shall be given in detail and not in conclusory terms. The board shall specify a date not more than twenty-four months from such determination for reconsideration, and the procedures to be followed upon reconsideration shall be the same. If the incarcerated individual is released, he or she shall be given a copy of the conditions of parole. Such conditions shall where appropriate, include a requirement that the parolee comply with any restitution order and mandatory surcharge previously imposed by a court of competent jurisdiction that applies to the parolee. The conditions shall indicate which restitution collection agency established under subdivision eight of section 420.10 of the criminal procedure law, shall be responsible for collection of restitution and mandatory surcharge as provided for in section 60.35 of the penal law and section eighteen hundred nine of the vehicle and traffic law. If the incarcerated individual is released, he or she shall also be notified in writing that his or her voting rights will be restored upon release.

* NB Effective September 1, 2027

(b) Persons presumptively released, paroled, conditionally released or released to post-release supervision from an institution under the jurisdiction of the department, the department of mental hygiene or the office of children and family services shall, while on presumptive release, parole, conditional release or post-release supervision, be in the legal custody of the department until expiration of the maximum term or period of sentence, or expiration of the period of supervision, including any period of post-release supervision, or return to imprisonment in the custody of the department, as the case may be.

(c) (A) Discretionary release on parole shall not be granted merely as a reward for good conduct or efficient performance of duties while confined but after considering if there is a reasonable probability that, if such incarcerated individual is released, he or she will live and remain at liberty without violating the law, and that his or her release is not incompatible with the welfare of society and will not so deprecate the seriousness of his or her crime as to undermine respect for law. In making the parole release decision, the procedures adopted pursuant to subdivision four of section two hundred fifty-nine-c of this article shall require that the following be considered: (i) the institutional record including program goals and accomplishments, academic achievements, vocational education, training or work assignments, therapy and interactions with staff and incarcerated individuals; (ii) performance, if any, as a participant in a temporary release program; (iii) release plans including community resources, employment, education and training and support services available to the incarcerated individual; (iv) any deportation order issued by the federal government against the incarcerated individual while in the custody of the department and any recommendation regarding deportation made by the commissioner of the department pursuant to section one hundred forty-seven of the correction law; (v) any current or prior statement made to the board by the crime victim or the victim's representative, where the crime victim is deceased or is mentally or physically incapacitated; (vi) the length of the determinate sentence to which the incarcerated individual would be subject had he or she received a sentence pursuant to section 70.70 or section 70.71 of the penal law for a felony defined in article two hundred twenty or article

two hundred twenty-one of the penal law; (vii) the seriousness of the offense with due consideration to the type of sentence, length of sentence and recommendations of the sentencing court, the district attorney, the attorney for the incarcerated individual, the pre-sentence probation report as well as consideration of any mitigating and aggravating factors, and activities following arrest prior to confinement; and (viii) prior criminal record, including the nature and pattern of offenses, adjustment to any previous probation or parole supervision and institutional confinement. The board shall provide toll free telephone access for crime victims. In the case of an oral statement made in accordance with subdivision one of section 440.50 of the criminal procedure law, the parole board member shall present a written report of the statement to the parole board. A crime victim's representative shall mean the crime victim's closest surviving relative, the committee or guardian of such person, or the legal representative of any such person. Such statement submitted by the victim or victim's representative may include information concerning threatening or intimidating conduct toward the victim, the victim's representative, or the victim's family, made by the person sentenced and occurring after the sentencing. Such information may include, but need not be limited to, the threatening or intimidating conduct of any other person who or which is directed by the person sentenced. Any statement by a victim or the victim's representative made to the board shall be maintained by the department in the file provided to the board when interviewing the incarcerated individual in consideration of release. A victim or victim's representative who has submitted a written request to the department for the transcript of such interview shall be provided such transcript as soon as it becomes available.

(B) Where a crime victim or victim's representative as defined in subparagraph (A) of this paragraph, or other person submits to the parole board a written statement concerning the release of an incarcerated individual, the parole board shall keep that individual's name and address confidential.

(d) (i) Notwithstanding the provisions of paragraphs (a), (b) and (c) of this subdivision, after the incarcerated individual has served his or her minimum period of imprisonment imposed by the court, or at any time after the incarcerated individual's period of imprisonment has commenced

for an incarcerated individual serving a determinate or indeterminate term of imprisonment, provided that the incarcerated individual has had a final order of deportation issued against him or her and provided further that the incarcerated individual is not convicted of either an A-I felony offense other than an A-I felony offense as defined in article two hundred twenty of the penal law or a violent felony offense as defined in section 70.02 of the penal law, if the incarcerated individual is subject to deportation by the United States Bureau of Immigration and Customs Enforcement, in addition to the criteria set forth in paragraph (c) of this subdivision, the board may consider, as a factor warranting earlier release, the fact that such incarcerated individual will be deported, and may grant parole from an indeterminate sentence or release for deportation from a determinate sentence to such incarcerated individual conditioned specifically on his or her prompt deportation. The board may make such conditional grant of early parole from an indeterminate sentence or release for deportation from a determinate sentence only where it has received from the United States Bureau of Immigration and Customs Enforcement assurance (A) that an order of deportation will be executed or that proceedings will promptly be commenced for the purpose of deportation upon release of the incarcerated individual from the custody of the department of correctional services, and (B) that the incarcerated individual, if granted parole or release for deportation pursuant to this paragraph, will not be released from the custody of the United States Bureau of Immigration and Customs Enforcement, unless such release be as a result of deportation without providing the board a reasonable opportunity to arrange for execution of its warrant for the retaking of such person.

(ii) An incarcerated individual who has been granted parole from an indeterminate sentence or release for deportation from a determinate sentence pursuant to this paragraph shall be delivered to the custody of the United States Bureau of Immigration and Customs Enforcement along with the board's warrant for his or her retaking to be executed in the event of his release from such custody other than by deportation. In the event that such person is not deported, the board shall execute the warrant, effect his return to imprisonment in the custody of the department and within sixty days after such return, provided that the person is serving an indeterminate sentence and the minimum period of

imprisonment has been served, personally interview him or her to determine whether he or she should be paroled in accordance with the provisions of paragraphs (a), (b) and (c) of this subdivision. The return of a person granted parole from an indeterminate sentence or release for deportation from a determinate sentence pursuant to this paragraph for the reason set forth herein shall not be deemed to be a parole delinquency and the interruptions specified in subdivision three of section 70.40 of the penal law shall not apply, but the time spent in the custody of the United States Bureau of Immigration and Customs Enforcement shall be credited against the term of the sentence in accordance with the rules specified in paragraph (c) of that subdivision. Notwithstanding any other provision of law, any incarcerated individual granted parole from an indeterminate sentence or release for deportation from a determinate sentence pursuant to this paragraph who is subsequently committed to imprisonment in the custody of the department for a felony offense committed after release pursuant to this paragraph shall have his parole eligibility date on the indeterminate sentence for the new felony offense, or his or her conditional release date on the determinate sentence for the new felony offense, as the case may be, extended by the amount of time between the date on which such incarcerated individual was released from imprisonment in the custody of the department pursuant to this paragraph and the date on which such incarcerated individual would otherwise have completed service of the minimum period of imprisonment on the prior felony offense.

(e) Notwithstanding the requirements of paragraph (a) of this subdivision, the determination to parole an incarcerated individual who has successfully completed the shock incarceration program pursuant to section eight hundred sixty-seven of the correction law may be made without a personal interview of the incarcerated individual and shall be made in accordance with procedures set forth in the rules of the board. If parole is not granted, the time period for reconsideration shall not exceed the court imposed minimum.

3. Revocation of presumptive release, parole, conditional release and post-release supervision. (a) (i) If the parole officer having charge of a presumptively released, paroled or conditionally released person or a

person released to post-release supervision or a person received under the uniform act for out-of-state parolee supervision shall have probable cause to believe that such person has committed a technical violation, such parole officer shall report such fact to a member of the board, or to any officer of the department designated by the board, and thereupon a written notice of violation may be issued according to the terms of subparagraph (iii) of paragraph (c) of this subdivision, and shall be promptly served upon such person. If the releasee has failed to appear as directed in response to a notice of violation and has failed to appear voluntarily within forty-eight hours after such time and the person would be subject to incarceration pursuant to subparagraph (xii) of paragraph (f) of this subdivision should the violation be sustained at a final revocation hearing, a warrant may be issued for the retaking of such person and for his temporary detention pending a recognizance hearing in accordance with the rules of the board. If the person has intentionally failed to appear as directed in response to a notice of violation and has intentionally failed to appear voluntarily within forty-eight hours after such time and the person would not be subject to incarceration pursuant to paragraph (f) of this subdivision should the violation be sustained at a final revocation hearing, no warrant shall issue and the violation shall be deemed sustained. Notice of that decision shall be promptly served upon the releasee. In such case, within one month of the date the notice of decision was served upon the releasee, the releasee may move to vacate such a sustained violation if the releasee can show by a preponderance of the evidence that the notice of violation was not properly served or the failure to appear was otherwise excusable. If the parole officer having charge of a person under community supervision shall have probable cause to believe that such person has committed a non-technical violation, such parole officer shall report such fact to a member of the board, or to any officer of the department designated by the board, and thereupon a notice of violation may be issued or a warrant may be issued for the retaking of such person and for his temporary detention in accordance with the rules of the board. However, if a releasee has been determined to be currently unfit to proceed to trial or is currently subject to a temporary or final order of observation pursuant to article seven hundred thirty of the criminal procedure law, no notice of violation or warrant shall be

issued. The issuance of a notice of violation, service of a notice of violation, service of a notice of decision, and the retaking and detention of any person for whom a warrant has been issued pursuant to this subparagraph may be further regulated by rules and regulations of the department not inconsistent with this article. A warrant issued pursuant to this section shall constitute sufficient authority to the superintendent or other person in charge of any jail, penitentiary, lockup or detention pen to whom it is delivered to hold in temporary detention the person named therein pending a recognizance hearing pursuant to subparagraph (iv) of this paragraph. It shall not be a condition of parole nor may a notice of violation or a warrant be issued due to a releasee being in the company of or fraternizing with any person the releasee knows has a criminal record or knows has been adjudicated a youthful offender or due to conduct related to cannabis that is lawful pursuant to the laws of New York.

(ii) A warrant issued for a presumptive release, a parole, a conditional release or a post-release supervision violator may be executed by any parole officer or any officer authorized to serve criminal process or any peace officer, who is acting pursuant to his special duties, or police officer. Any such officer to whom such warrant shall be delivered is authorized and required to execute such warrant by taking such person and having him detained as provided in this paragraph.

(iii) Where the alleged violator is detained in another state pursuant to such warrant and is not under parole supervision pursuant to the uniform act for out-of-state parolee supervision or where an alleged violator under parole supervision pursuant to the uniform act for out-of-state parolee supervision is detained in a state other than the receiving state, the warrant will not be deemed to be executed until the alleged violator is detained exclusively on the basis of such warrant and the department has received notification that the alleged violator (A) has formally waived extradition to this state or (B) has been ordered extradited to this state pursuant to a judicial determination. The alleged violator will not be considered to be within the convenience and practical control of the department until the warrant is deemed to be executed.

(iv) Notwithstanding the provisions of any other law, upon execution

of a warrant issued pursuant to this section for any releasee alleged to have committed a violation of a condition of release in an important respect in the city of New York, the authorized officer shall present the releasee to the criminal court of the city of New York or the supreme court criminal term in the county where the violation is alleged to have been committed for a recognizance hearing within twenty-four hours of the execution of the warrant. If no such court of record is available to conduct any business of any type within twenty-four hours of the execution of the warrant, the recognizance hearing shall commence on the next day such a court in the jurisdiction is available to conduct any business of any type. For any releasee alleged to have committed a violation of a condition of release in an important respect outside of the city of New York, the authorized officer shall present the releasee to a county court, district court or city court in the county or city where the violation is alleged to have been committed for a recognizance hearing. If no such court of record is available to conduct any business of any type within twenty-four hours of the execution of the warrant, the recognizance hearing shall commence on the next day such court is available to conduct any business of any type.

(v) At a recognizance hearing, the department shall have the burden of demonstrating to the court that the executed warrant was properly issued and served pursuant to this section. The department shall be responsible for presenting information to the court regarding the alleged violation and the releasee's community supervision record. If the alleged violation is the subject of a pending criminal prosecution, the department shall coordinate with the office of the district attorney to ensure information regarding the alleged violation and the releasee's community supervision record is presented to the court. At a recognizance hearing, the department shall have the burden of demonstrating to the court that the executed warrant was properly issued and served pursuant to this section. The department shall be responsible for presenting information to the court regarding the alleged violation and the releasee's community supervision record. If the alleged violation is the subject of a pending criminal prosecution, the department shall coordinate with the office of the district attorney to ensure information regarding the alleged violation and the releasee's community supervision record is presented to the court.

(vi) At a recognizance hearing, the court shall consider all available evidence of the releasee's employment, family and community ties including length of residency in the community, history of reporting in a timely fashion to a parole or supervisory officer, and other indicators of stability. At the conclusion of the recognizance hearing, the court may order that the releasee be detained pending a preliminary or final revocation hearing only upon a finding that the releasee currently presents a substantial risk of willfully failing to appear at the preliminary or final revocation hearings and that no non-monetary condition or combination of conditions in the community will reasonably assure the releasee's appearance at the preliminary or final revocation hearing. Otherwise, the court shall release the releasee on the least restrictive non-monetary conditions that will reasonably assure the releasee's appearance at subsequent preliminary or revocation hearings, with a presumption of release on recognizance. The court shall explain its decision on the record or in writing. If non-monetary conditions of release are imposed, the releasee shall not be required to pay for any part of the cost of such conditions.

(vii) The alleged violator shall have a right to representation by counsel at the recognizance hearing. In any case, including when a court is called upon to evaluate the capacity of an alleged violator to participate in a recognizance proceeding, where such person is financially unable to retain counsel, the court in which any criminal case against the individual is pending, or if there is no such case pending, the criminal court of the city of New York, the county court or district court in the county where the violation is alleged to have occurred or where the hearing is to be held, shall assign counsel in accordance with the county or city plan for representation placed in operation pursuant to article eighteen-B of the county law.

(viii) If the violation charge involves conduct that would constitute a new felony or misdemeanor offense, such recognizance hearing may be held at the same time as a proceeding pursuant to article five hundred thirty of the criminal procedure law for any warrants issued by the department prior to such proceeding. If at the proceeding pursuant to article five hundred thirty of the criminal procedure law the court imposes bail on the new alleged criminal offense or commits the releasee to the custody of the sheriff pursuant to article five hundred thirty of

the criminal procedure law and the releasee secures release by paying bail or under non-monetary conditions or by operation of law, then the releasee shall not be detained further based solely on the warrant issued by the department. If the department issues a warrant for a non-technical violation for alleged criminal conduct that has already been the subject of a court's order pursuant to article five hundred thirty of the criminal procedure law, then within twenty-four hours of execution of the warrant the releasee shall be provided a recognizance hearing pursuant to this subparagraph, provided, however, that if no court as defined in subparagraph (iv) of this paragraph is available to conduct any business of any type within twenty-four hours of the execution of the warrant, then the recognizance hearing shall commence on the next day such court is available to conduct any business of any type.

(b) A person who shall have been taken into custody pursuant to this subdivision for violation of one or more conditions of presumptive release, parole, conditional release or post-release supervision shall, insofar as practicable, be incarcerated in the county or city in which the arrest occurred.

(c) (i) (A) For any alleged technical violation for which a notice of violation was issued or a person was released on recognizance pursuant to subparagraph (iv) of paragraph (a) of this subdivision, the department shall within ten days of the issuance of the notice of violation or the order of release on recognizance afford the person a preliminary revocation hearing before a hearing officer designated by the department. Such hearing officer shall not have had any prior supervisory involvement over the alleged violator. Such hearing shall not be held at a correctional facility, detention center or local correctional facility. The hearing shall be scheduled and held in a courthouse, in cooperation with the chief administrator of the courts and the chief administrator's designees, provided, however, that if such a courthouse is not reasonably available for such hearing, the department may designate a suitable office or other similar facility that is not a correctional facility, detention center or local correctional facility for such hearing.

(B) For any alleged violation for which a court issued an order detaining a person, within five days of the issuance of such order to

detain or execution of a warrant for the violation, the department shall afford such person a preliminary hearing before a hearing officer designated by the department. Such hearing officer shall not have had any prior supervisory involvement over the alleged violator. For any alleged violation for which a person was released on recognizance, within ten days of the issuance of the order of release on recognizance, the department shall afford such person a preliminary revocation hearing.

(ii) The preliminary presumptive release, parole, conditional release or post-release supervision revocation hearing shall be scheduled and held in a courthouse, in cooperation with the chief administrator of the courts and the chief administrator's designees, provided, however, that if such a courthouse is not reasonably available for such hearing, the department may designate a suitable office or other similar facility that is not a correctional facility, detention center or local correctional facility for such hearing.

(iii) The alleged violator shall, at the time a notice of violation is issued or at the time of a recognizance hearing, be given written notice of the time, place and purpose of the preliminary hearing, or if no preliminary hearing is required pursuant to this section, of the final revocation hearing. The notice shall state what conditions of community supervision are alleged to have been violated, and in what manner; that such person shall have the right to appear and speak in his or her own behalf; that he or she shall have the right to introduce letters and documents; that he or she may present witnesses who can give relevant information to the hearing officer; that he or she has the right to confront the witnesses against him or her; that such person shall have the right to representation by counsel at any preliminary and final revocation hearings; and the name and contact details for institutional defenders or assigned private counsel, as applicable. Adverse witnesses may be compelled to attend the preliminary hearing unless the prisoner has been convicted of a new crime while on supervision or unless the hearing officer finds good cause for their non-attendance. As far as practicable or feasible, any additional documents having been collected or prepared that are relevant to the charge shall be delivered to the alleged violator.

(iv) The standard of proof at the preliminary hearing shall be a

preponderance of the evidence to believe that the releasee has violated one or more conditions of his or her community supervision in an important respect. Proof of conviction of a crime committed while under supervision shall constitute prima facie evidence of a violation of a condition of community supervision for the purposes of this subparagraph.

(v) At the preliminary hearing, the hearing officer shall review the violation charges with the alleged violator, direct the presentation of evidence concerning the alleged violation, receive the statements of witnesses and documentary evidence on behalf of the prisoner, and allow cross examination of those witnesses in attendance.

(vi) At the conclusion of the preliminary hearing, the hearing officer shall inform the alleged violator of his or her decision as to whether there is probable cause to believe that the presumptive releasee, parolee, conditional releasee or person on post-release supervision has violated one or more conditions of his or her release in an important respect. Based solely on the evidence adduced at the hearing, the hearing officer shall determine whether there is probable cause to believe that such person has violated his or her presumptive release, parole, conditional release or post-release supervision in an important respect. The hearing officer shall in writing state the reasons for his or her determination and the evidence relied on. A copy of the written findings shall be sent to both the alleged violator and his or her counsel.

(vii) If the hearing officer is satisfied that there is no probable cause to believe that such person has violated one or more conditions of release in an important respect, he or she shall dismiss the notice of violation and direct such person be restored to supervision.

(viii) If the hearing officer is satisfied that there is probable cause to believe that such person has violated one or more conditions of release in an important respect, he or she shall so find.

(ix) If the hearing officer finds by a preponderance of the evidence that such person has violated one or more conditions of community supervision in an important respect, the releasee shall, at the conclusion of the preliminary hearing be given written notice of the time, place and purpose of the final revocation hearing. The notice shall state what conditions of community supervision are alleged to have

been violated, when, where and in what manner; that such person shall have the right to representation by counsel at any final revocation hearing; that such person shall have the right to appear and speak in his or her own behalf; that he or she shall have the right to introduce letters and documents; that he or she may present witnesses who can give relevant information to the hearing officer; that he or she has the right to confront the witnesses against him or her; and the name and contact details for institutional defenders or assigned private counsel, as applicable. Any additional documents having been collected or prepared that support the charges shall be delivered to the releasee. Adverse witnesses may be compelled to attend the final revocation hearing unless the prisoner has been convicted of a new crime while on supervision or unless the hearing officer finds good cause for their non-attendance.

(x) The alleged violator shall have a right to representation by counsel at the preliminary hearing. In any case, including when a court is called upon to evaluate the capacity of an alleged violator in a preliminary proceeding, where such person is financially unable to retain counsel, the criminal court of the city of New York, the county court or district court in the county where the violation is alleged to have occurred or where the hearing is held, shall assign counsel in accordance with the county or city plan for representation placed in operation pursuant to article eighteen-B of the county law.

* (d) If a finding of probable cause is made pursuant to this subdivision either by a determination at a preliminary hearing or by the waiver thereof, or if the releasee has been convicted of a new crime while under presumptive release, parole, conditional release or post-release supervision, the board's rules shall provide for (i) declaring such person to be delinquent as soon as practicable and shall require reasonable and appropriate action to make a final determination with respect to the alleged violation or (ii) ordering such person to be restored to presumptive release, parole, conditional release or post-release supervision under such circumstances as it may deem appropriate or (iii) when a presumptive releasee, parolee, conditional releasee or person on post-release supervision has been convicted of a new felony committed while under such supervision and a new indeterminate or determinate sentence has been imposed, the board's

rules shall provide for a final declaration of delinquency. The incarcerated individual shall then be notified in writing that his or her release has been revoked on the basis of the new conviction and a copy of the commitment shall accompany said notification. The incarcerated individual's next appearance before the board shall be governed by the legal requirements of said new indeterminate or determinate sentence, or shall occur as soon after a final reversal of the conviction as is practicable.

* NB Effective until September 1, 2027

* (d) If a finding of probable cause is made pursuant to this subdivision either by determination at a preliminary hearing or by the waiver thereof, or if the releasee has been convicted of a new crime while under his present parole or conditional release supervision, the board's rules shall provide for (i) declaring such person to be delinquent as soon as practicable and shall require reasonable and appropriate action to make a final determination with respect to the alleged violation or (ii) ordering such person to be restored to parole supervision under such circumstances as it may deem appropriate or (iii) when a parolee or conditional releasee has been convicted of a new felony committed while under his or her present parole or conditional release supervision and a new indeterminate sentence has been imposed, the board's rules shall provide for a final declaration of delinquency. The incarcerated individual shall then be notified in writing that his or her release has been revoked on the basis of the new conviction and a copy of the commitment shall accompany said notification. The incarcerated individual's next appearance before the board shall be governed by the legal requirements of said new indeterminate sentence, or shall occur as soon after a final reversal of the conviction as is practicable.

* NB Effective September 1, 2027

(e) (i) If the alleged violator requests a local revocation hearing, he or she shall be given a revocation hearing reasonably near the place of the alleged violation or arrest if he or she has not been convicted of a crime committed while under supervision. However, the board may, on its own motion, designate a case for a local revocation hearing.

(ii) If there are two or more alleged violations, the hearing may be conducted near the place of the violation chiefly relied upon as a basis

for the issuance of the warrant as determined by the board.

(iii) If a local revocation hearing is not ordered pursuant to subparagraph (i) of this paragraph the alleged violator shall be given a revocation hearing upon his or her return to a state correctional facility.

(f) (i) For any releasee charged with a violation at a preliminary hearing:

(A) If a court issued an order detaining a person after a finding by a preponderance of the evidence that such person committed a violation then within thirty days of the finding by a preponderance of the evidence determination at the preliminary hearing, the department shall afford such person a final revocation hearing in person before a hearing officer designated by the department. Such hearing officer shall not have had any prior supervisory involvement over the alleged violator.

(B) (1) If a notice of violation was issued or such person was released on recognizance the department shall within forty-five days of the issuance of the notice of violation or the order of release on recognizance afford the person a final revocation hearing before a hearing officer designated by the department. Such hearing officer shall not have had any prior supervisory involvement over the alleged violator.

(2) The final revocation hearing shall not be held at a correctional facility, detention center or local correctional facility. Such hearing shall be scheduled and held in a courthouse, in cooperation with the chief administrator of the courts and the chief administrator's designees, provided, however, that if such a courthouse is not reasonably available for such hearing, the department may designate a suitable office or other similar facility that is not a correctional facility, detention center or local correctional facility for such hearing.

(3) The department shall have six months from the date of the effective date of the chapter of the laws of two thousand twenty-one that amended this paragraph to begin to hold such hearings at allowable locations.

(C) However, if an alleged violator requests and receives any postponement of his or her revocation hearing, or consents to a postponed revocation proceeding initiated by the board, or if an alleged

violation, by his actions otherwise precludes the prompt conduct of such proceedings, the time limit may be extended.

(ii) The revocation hearing shall be conducted by a presiding officer who may be a member or a hearing officer designated by the board in accordance with rules of the board.

(iii) Both the alleged violator and an attorney who has filed a notice of appearance on his or her behalf in accordance with the rules of the board of parole shall be given written notice of the date, place and time of the hearing pursuant to subparagraph (ix) of paragraph (c) of this subdivision.

(iv) The alleged violator shall be given written notice of the rights enumerated in subparagraph (iii) of paragraph (c) of this subdivision as well as of his or her right to present mitigating evidence relevant to restoration to presumptive release, parole, conditional release or post-release supervision and his or her right to counsel.

(v) The alleged violator shall have a right to representation by counsel at the revocation hearing. In any case, including when a superior court is called upon to evaluate the capacity of an alleged violator in a revocation proceeding, where such person is financially unable to retain counsel, the criminal court of the city of New York, the county court or district court in the county where the violation is alleged to have occurred or where the hearing is held, shall assign counsel in accordance with the county or city plan for representation placed in operation pursuant to article eighteen-B of the county law. He or she shall have the right to confront and cross-examine adverse witnesses, unless there is good cause for their non-attendance as determined by the presiding officer; present witnesses and documentary evidence in defense of the charges; and present witnesses and documentary evidence relevant to the question whether reincarceration of the alleged violator is appropriate.

(vi) At the revocation hearing, the charges shall be read and the alleged violator shall be permitted to plead not guilty, guilty, guilty with explanation or to stand mute. As to each charge, evidence shall be introduced through witnesses and documents, if any, in support of that charge. At the conclusion of each witness's direct testimony, he or she shall be made available for cross-examination. If the alleged violator intends to present a defense to the charges or to present evidence of

mitigating circumstances, the alleged violator shall do so after presentation of all the evidence in support of a violation of presumptive release, parole, conditional release or post-release supervision.

(vii) All persons giving evidence at the revocation hearing shall be sworn before giving any testimony as provided by law.

(viii) At the conclusion of the hearing the presiding officer may sustain any or all of the violation charges or may dismiss any or all violation charges. He or she may sustain a violation charge only if the charge is supported by clear and convincing evidence. Conduct that formed the basis of an arrest shall not form a basis of a sustained parole violation if a court has adjudicated the matter with an acquittal, adjournment in contemplation of dismissal, or violation.

(ix) If the presiding officer is not satisfied that there is clear and convincing evidence in support of the violation, he or she shall dismiss the violation, cancel the delinquency and restore the person to presumptive release, parole, conditional release or post-release supervision.

(x) If the presiding officer is satisfied that there is clear and convincing evidence that the alleged violator violated one or more conditions of release in an important respect, he or she shall so find. For each sustained technical violation the presiding officer shall direct that no earned time credits shall be awarded for the thirty day period commencing from the date of the sustained violation. For any absconding violation found, the presiding officer shall direct that no earned time credits shall be awarded for the entire time period during which a releasee was found to have absconded from supervision.

(xi) Incarceration shall not be imposed for any technical violation, except as provided in subparagraph (xii) of this paragraph.

(xii) For each violation found, the presiding officer may (A) direct that the releasee be restored to supervision; (B) as an alternative to reincarceration, direct the releasee receive re-entry services in the community from qualified nonprofit agencies; or (C) direct the violator's reincarceration and for non-technical violations fix a date for consideration by the board for re-release on presumptive release, or parole or conditional release, as the case may be; or (D) for non-technical violations in the case of persons released to a period of

post-release supervision, direct the violator's reincarceration up to the balance of the remaining period of post-release supervision, not to exceed five years; provided, however, that a defendant serving a term of post-release supervision for a conviction of a felony sex offense defined in section 70.80 of the penal law may be subject to a further period of imprisonment up to the balance of the remaining period of post-release supervision, shall apply for technical violations; and the following limitations:

(1) Absconding. For absconding up to seven days reincarceration may be imposed for the first violation, up to fifteen days reincarceration may be imposed for the second violation, and up to thirty days reincarceration may be imposed for the third or any subsequent violation;

(2) Sanctions for certain technical violations. Reincarceration shall not be imposed for a sustained technical violation that involves: (a) violating curfew; (b) alcohol use, provided however that incarceration is permissible for alcohol use if the person is subject to community supervision due to a conviction for driving under the influence of alcohol; (c) drug use, provided, however incarceration is permissible for drug use if the person is subject to community supervision due to a conviction for driving under the influence of drugs; (d) failing to notify parole officer of a change in employment or program status; (e) failing to pay surcharges and fees; (f) obtaining a driver's license or driving a car with a valid driver's license, provided however incarceration is permissible if either action is explicitly prohibited by the person's conviction; (g) failing to notify community supervision officer of contact with any law enforcement agency, provided however, incarceration is permissible if the person intended to hide illegal behavior; (h) failing to obey other special conditions, provided however that incarceration is permissible if the failure cannot be addressed in the community and all reasonable community-based means to address the failure have been exhausted; and

(3) Sanctions for all other technical violations. For all other technical violations, no period of reincarceration may be imposed for the first and second substantiated technical violations for which incarceration may be imposed; up to seven days reincarceration may be imposed for the third substantiated technical violation for which

incarceration may be imposed; up to fifteen days reincarceration may be imposed for the fourth substantiated technical violation for which incarceration may be imposed; up to thirty days reincarceration may be imposed for the fifth and subsequent substantiated technical violations for which incarceration may be imposed.

(xiii) If a warrant was executed pursuant to subparagraph (iv) of paragraph (a) of this subdivision by a criminal court and the court released the person pending a preliminary or final revocation hearing, any period of reincarceration imposed pursuant to this paragraph shall be counted from the date of issuance of a determination after a final revocation hearing that the person has violated one or more conditions of community supervision, and the time between execution of the warrant and release of the person pending a preliminary or final revocation hearing shall count toward any period of reincarceration imposed pursuant to this paragraph. If a releasee is committed to the custody of the sheriff pursuant to article five hundred thirty of the criminal procedure law, any time the person spent confined in a correctional facility or local correctional facility shall be credited toward any period of reincarceration imposed pursuant to this paragraph. In all cases, the presiding officer shall impose the least restrictive reasonable sanction. Any periods of reincarceration imposed pursuant to this section shall run concurrently if more than one violation is sustained. If a period of reincarceration is imposed pursuant to this paragraph, the releasee shall be released from custody upon expiration of the period or the end of the releasee's period of community supervision, whichever shall be sooner. For the violator serving an indeterminate sentence who while re-incarcerated has not been found by the department to have committed a serious disciplinary infraction, such violator shall be re-released on the date fixed at the revocation hearing. For the violator serving an indeterminate sentence who has been found by the department to have committed a serious disciplinary infraction while re-incarcerated, the department shall refer the violator to the board for consideration for re-release to community supervision. Upon such referral the board may waive the personal interview between a member or members of the board and the violator to determine the suitability for re-release when the board directs that the violator be re-released upon expiration of the time assessment. The

board shall retain the authority to suspend the date fixed for re-release based on the violator's commission of a serious disciplinary infraction and shall in such case require a personal interview be conducted within a reasonable time between a panel of members of the board and the violator to determine suitability for re-release. If an interview is required, the board shall notify the violator in advance of the date and time of such interview in accordance with the rules and regulations of the board.

(xiv) If the presiding officer sustains any violations, such officer must prepare a written statement, to be made available to the alleged violator and his or her counsel, indicating the evidence relied upon and the reasons for revoking presumptive release, parole, conditional release or post-release supervision, and for the disposition made. The presiding officer shall also advise the alleged violator in a written statement that revocation will result in loss of the right to vote while he or she is serving the remainder of his or her felony sentence in a correctional facility and that the right to vote will be restored upon his or her release.

(xv) If at any time during a revocation proceeding the alleged violator, his or her counsel, or an employee of the department contends, or if it reasonably appears to the hearing officer, that the alleged violator is an incapacitated person as that term is defined in subdivision one of section 730.10 of the criminal procedure law and no judicial determination has been made that the alleged violator is an incapacitated person, the revocation proceeding shall be temporarily stayed until the superior court determines whether or not the person is fit to proceed. The matter shall be promptly referred to the superior court for determination of the alleged violator's fitness to proceed in a manner consistent with the provisions of article seven hundred thirty of the criminal procedure law, provided however that the superior court shall immediately appoint counsel for any unrepresented alleged violator eligible for appointed counsel under subparagraph (v) of this paragraph. The court shall decide whether or not the alleged violator is incapacitated within thirty days of the referral from the hearing officer. If the court determines that the alleged violator is not an incapacitated person, the court shall order that the matter be returned to the board of parole for continuation and disposition of the

revocation proceeding. If the court determines that the alleged violator is an incapacitated person and if no felony charges are pending against the alleged violator, the court shall issue a final order of observation committing such person to the custody of the commissioner of mental health or the commissioner of developmental disabilities for care and treatment in an appropriate institution in a manner consistent with subdivision one of section 730.40 of the criminal procedure law. If a final order of observation has been issued pursuant to this section, the hearing officer shall dismiss the violation charges and such dismissal shall act as a bar to any further proceeding under this section against the alleged violator for such violations. If felony criminal charges are pending at any time against an alleged violator who has been referred to superior court for a fitness evaluation but before a determination of fitness has been made pursuant to this section, the court shall decide whether or not the alleged violator is incapacitated pursuant to article seven hundred thirty of the criminal procedure law and the revocation proceeding shall be held in abeyance until such decision has been reached. The hearing officer shall adopt the capacity finding of the court and either terminate the revocation process if an order of observation has been made by the court or proceed with the revocation hearing if the alleged violator has been found not to be an incapacitated person.

(g) Revocation of presumptive release, parole, conditional release or post-release supervision shall not prevent re-parole or re-release provided such re-parole or re-release is not inconsistent with any other provisions of law. When there has been a revocation of the period of post-release supervision imposed on a felony sex offender who owes three years or more on such period imposed pursuant to subdivision two-a of section 70.45 of the penal law, and a time assessment of three years or more has been imposed, the violator shall be reviewed by the board of parole and may be restored to post-release supervision only after serving three years of the time assessment, and only upon a determination by the board of parole made in accordance with the procedures set forth in this section. Even if the hearing officer has imposed a time assessment of a certain number of years of three years or more, the violator shall not be released at or before the expiration of that time assessment unless the board authorizes such release, the

period of post-release supervision expires, or release is otherwise authorized by law. If a time assessment of less than three years was imposed upon such a defendant, the defendant shall be released upon the expiration of such time assessment, unless he or she is subject to further imprisonment or confinement under any other law.

(h) If the alleged violation is not sustained and the alleged violator is restored to supervision, the interruptions specified in subdivision three of section 70.40 of the penal law shall not apply, but the time spent in custody in any state or local correctional institution shall be credited against the term of the sentence in accordance with the rules specified in paragraph (c) of such subdivision.

(i) Where there is reasonable cause to believe that a presumptive releasee, parolee, conditional releasee or person under post-release supervision has absconded from supervision the board may declare such person to be delinquent. This paragraph shall not be construed to deny such person a preliminary revocation hearing upon his retaking, nor to relieve the department of any obligation it may have to exercise due diligence to retake the alleged absconder, nor to relieve the parolee or releasee of any obligation he may have to comply with the conditions of his release.

4. Appeals. (a) Except for determinations made upon preliminary hearings upon allegations of violation of presumptive release, parole, conditional release or post-release supervision, all determinations made pursuant to this section may be appealed in accordance with rules promulgated by the board. Any board member who participated in the decision from which the appeal is taken may not participate in the resolution of that appeal. The rules of the board may specify a time within which any appeal shall be taken and resolved.

(b) Upon an appeal to the board, the incarcerated individual may be represented by an attorney. Where the incarcerated individual is financially unable to provide for his or her own attorney, upon request an attorney shall be assigned pursuant to the provisions of subparagraph (v) of paragraph (f) of subdivision three of this section.

(c) All board of parole administrative appeal findings and recommendations shall be published within one hundred twenty days of the determination on a publicly accessible website that includes a

word-searchable database. The department of corrections and community supervision shall provide electronic or print copies of such findings and recommendations to all correctional facility law libraries on a quarterly basis. Copies of such individual findings and recommendations shall also be made available upon written request to the department of corrections and community supervision. Information which would reveal confidential material that may not be released pursuant to federal or state law shall be redacted from any such website or findings and recommendations.

4-a. Appeals from non-technical violation findings. (a) Notwithstanding the provisions of any other law, when in a violation proceeding brought pursuant to this section, any of the charges sustained by the hearing officer would constitute a misdemeanor or felony if such charge were or had been brought in a criminal court, the releasee may, in lieu of an administrative appeal to the board pursuant to subdivision four of this section, appeal such determination to the lowest level of the following courts serving the jurisdiction in which the hearing was held or in which any such sustained conduct was alleged to have occurred: city court, district court, county court or supreme court; provided, however, that if any such misdemeanor or felony charge was prosecuted in any city, district, county or supreme court, such appeal shall be filed in that court.

(b) The appeal shall be commenced by the filing of a notice of appeal in the same manner as an appeal to the appellate division as set forth in paragraphs (a), (b), (d) and (e) of subdivision one and subdivision six of section 460.10 of the criminal procedure law. Counsel shall be assigned to the individual, if unable to afford counsel, by the court before which the appeal is taken or is to be taken. Such court may stay such determination pending the appeal, in a manner consistent with the provisions of section 460.50 of the criminal procedure law or as otherwise authorized. Within thirty days after receiving such a notice of appeal, the board shall serve on the individual or counsel and file with such court a transcript of the proceedings before the hearing officer prepared pursuant to paragraph (a) of subdivision six of this section, and copies of the documents, photographs and records considered by the hearing officer, and provide access to any other evidence

considered by the hearing officer who made such determination.

(c) The appeal shall be perfected in the manner set forth in section 460.70 of the criminal procedure law, other provisions of law generally applicable to criminal appeals, and authorized rules implementing this section promulgated by the chief administrator of the courts. The department shall have responsibility for presenting the department's position through any submissions to the court on the appeal. The department shall coordinate with relevant district attorneys to ensure appropriate information may be provided to the court. The district attorney of the jurisdiction may appear on any such appeal without the necessity of a motion or order of the court.

(d) On such appeal, the reviewing city, district, county or supreme court shall consider de novo the issues raised by the appellant, including but not limited to the following: (a) whether any sustained violation charge should have been sustained; (b) whether reduction or dismissal of the alleged violation charge or charges is warranted, in accordance with the principles set forth in section 170.40 or section 210.40 of the criminal procedure law or otherwise; and (c) whether any time assessment and other authorized sanction imposed by the hearing officer should be vacated, reduced or, notwithstanding any law, rule or regulation to the contrary, ordered to run concurrently with any other sentence, time assessment, or period of reincarceration imposed.

5. Actions of the board. Any action by the board or by a hearing officer pursuant to this article shall be deemed a judicial function and shall not be reviewable if done in accordance with law.

6. Record of proceedings. (a) (i) The board shall provide for the making of a verbatim record of each parole release interview, except where a decision is made to release the incarcerated individual to parole supervision, and each preliminary and final revocation hearing, except when the decision of the presiding officer after such hearings result in a dismissal of all charged violations of parole, conditional release or post release supervision.

(ii) Notwithstanding the provisions of subparagraph (i) of this paragraph, the board shall provide for the making of a verbatim record of each parole release interview in all proceedings where the

incarcerated individual is a detained sex offender as such term is defined in subdivision (g) of section 10.03 of the mental hygiene law. Such record shall be provided to the office of mental health for use by the multidisciplinary staff and the case review panel pursuant to section 10.05 of the mental hygiene law.

(b) The chairman of the board of parole shall maintain records of all parole interviews and hearings for a period of twenty-five years from the date of the parole release interview or until expiration of the maximum term of sentence.

7. Deaf person before the board. Whenever any deaf person participates in an interview, parole release hearing, preliminary hearing or revocation hearing, there shall be appointed a qualified interpreter who is certified by a recognized national or New York state credentialing authority to interpret the proceedings to and the statements or testimony of such deaf person. The department shall determine a reasonable fee for all such interpreting services, the cost of which shall be a charge upon the department.

8. Foreign born or non-English speaking person before the board. Upon notification from the department pursuant to section two hundred fifty-nine-e of this article, or upon the request of any foreign born or non-English speaking person who is scheduled to participate in an interview, parole release hearing, preliminary hearing or revocation hearing, there shall be appointed from the New York state office of general services statewide administrative services contract, a qualified interpreter to interpret the proceedings to and the statements or testimony of such person. The board shall determine a reasonable fee for all such interpreting services, the cost of which shall be a charge upon the board of parole. No such request or appointment shall cause a delay of release from incarceration of such person.

9. The board shall promulgate rules and regulations to facilitate the presence of nonprofit service providers able to offer relevant community-based services to releasees at all preliminary and final revocation hearings for the purpose of helping people subject to community supervision successfully complete such supervision and avoid

future such supervision, and to help ensure presiding officers impose the least restrictive reasonable sanction for any violation of community supervision.

§ 259-j. Discharge of sentence. 1. Except where a determinate sentence was imposed for a felony other than a felony defined in article two hundred twenty or article two hundred twenty-one of the penal law, if the board of parole is satisfied that an absolute discharge from presumptive release, parole, conditional release or release to a period of post-release supervision is in the best interests of society, the board may grant such a discharge prior to the expiration of the full term or maximum term to any person who has been on unrevoked community supervision for at least three consecutive years. A discharge granted under this section shall constitute a termination of the sentence with respect to which it was granted. No such discharge shall be granted unless the board is satisfied that the parolee or releasee, otherwise financially able to comply with an order of restitution and the payment of any mandatory surcharge, sex offender registration fee or DNA databank fee previously imposed by a court of competent jurisdiction, has made a good faith effort to comply therewith.

2. The chairman of the board of parole shall promulgate rules and regulations governing the issuance of discharges from community supervision pursuant to this section to assure that such discharges are consistent with public safety.

3. Notwithstanding any other provision of this section to the contrary, where a term of post-release supervision in excess of five years has been imposed on a person convicted of a crime defined in article one hundred thirty of the penal law, including a sexually motivated felony, the board of parole may grant a discharge from post-release supervision prior to the expiration of the maximum term of post-release supervision. Such a discharge may be granted only after the person has served at least five years of post-release supervision, and only to a person who has been on unrevoked post-release supervision for at least three consecutive years. No such discharge shall be granted

unless the board of parole or the department acting pursuant to its responsibility under subdivision one of section two hundred one of the correction law consults with any licensed psychologist, qualified psychiatrist, or other mental health professional who is providing care or treatment to the supervisee; and the board: (a) determines that a discharge from post-release supervision is in the best interests of society; and (b) is satisfied that the supervisee, otherwise financially able to comply with an order of restitution and the payment of any mandatory surcharge, sex offender registration fee, or DNA data bank fee previously imposed by a court of competent jurisdiction, has made a good faith effort to comply therewith. Before making a determination to discharge a person from a period of post-release supervision, the board of parole may request that the commissioner of the office of mental health arrange a psychiatric evaluation of the supervisee. A discharge granted under this section shall constitute a termination of the sentence with respect to which it was granted.

4. Notwithstanding any other provision of law, a person granted discharge pursuant to subdivision one of this section shall be provided a certificate of relief from disabilities pursuant to section seven hundred three of the correction law or a certificate of good conduct pursuant to section seven hundred three-b of the correction law, as applicable.

§ 259-k. Access to records and institutions. 1. All case files shall be maintained by the department for use by the department and board. The department and board and authorized officers and employees thereof shall have complete access to such files and the board of parole shall have the right to make such entries as the board of parole shall deem appropriate in accordance with law.

2. The board shall make rules for the purpose of maintaining the confidentiality of records, information contained therein and information obtained in an official capacity by officers, employees or members of the board of parole.

3. Members of the board and officers and employees of the department providing community supervision services and designated by the commissioner shall have free access to all incarcerated individuals confined in institutions under the jurisdiction of the department, the office of children and family services and the department of mental hygiene in order to enable them to perform their functions, provided, however, that the department of mental hygiene may temporarily restrict such access where it determines, for significant clinical reasons, that such access would interfere with its care and treatment of the mentally ill incarcerated individual. If under the provisions of this subdivision an incarcerated individual is not accessible for release consideration by the board, that incarcerated individual shall be scheduled to see the board in the month immediately subsequent to the month within which he or she was not available.

4. Upon a determination by the department and board of parole that records regarding an individual presently under the supervision of the department are relevant to an investigation of child abuse or maltreatment conducted by a child protective service pursuant to title six of article six of the social services law, the department and board shall provide the records determined to be relevant to the child protective service conducting the investigation. The department and board shall promulgate rules for the transmission of records required to be provided under this section.

§ 259-1. Cooperation. 1. It shall be the duty of the commissioner of corrections and community supervision to ensure that all officers and employees of the department shall at all times cooperate with the board of parole and shall furnish to such members of the board and employees of the board such information as may be appropriate to enable them to perform their independent decision making functions. It is also his or her duty to ensure that the functions of the board of parole are not hampered in any way, including but not limited to: a restriction of resources including staff assistance; limited access to vital information; and presentation of an incarcerated individual's information in a manner that may inappropriately influence the board in

its decision making. Where an incarcerated individual has appeared before the board prior to having completed any program assigned by the department, and such program remains incomplete by no fault of the incarcerated individual, and where the board has denied such incarcerated individual release pursuant to paragraph (a) of subdivision two of section two hundred fifty-nine-i of this article, the department shall prioritize such an incarcerated individual's placement into the assigned program.

2. The official in charge of each institution wherein any person is confined under a definite sentence of imprisonment, all officers and employees thereof and all other public officials shall at all times cooperate with the board of parole, and shall furnish to such board, its officers and employees such information as may be required by the board to perform its functions hereunder. The members of the board, its officers and employees shall at all times be given free access to all persons confined in any such institution under such sentence and shall be furnished with appropriate working space in such institution for such purpose without charge therefor.

3. It shall be the duty of the clerk of the court, the commissioner of mental hygiene and all probation officers and other appropriate officials to send such information as may be in their possession or under their control to the chairman of the board upon request in order to facilitate the work of the board.

§ 259-m. Compacts with other states for out-of-state parolee supervision. 1. The governor is hereby authorized and directed to enter into a compact on behalf of the state of New York with any state of the United States legally joining therein in the form substantially as follows:

A COMPACT

Entered into by and among the contracting states, signatories hereto, with the consent of the Congress of the United States of America, granted by an act entitled "An act granting the consent of Congress to

any two or more states to enter into agreements or compacts for cooperative effort and mutual assistance in the prevention of crime and for other purposes."

The contracting states solemnly agree:

(1) That it shall be competent for the duly constituted judicial and administrative authorities of a state party to this compact (herein called "sending state") to permit any person convicted of an offense within such state and placed on probation or released on parole to reside in any other state party to this compact (herein called "receiving state") while on probation or parole, if

(a) Such person is in fact a resident of or has his family residing within the receiving state and can obtain employment there;

(b) Though not a resident of the receiving state and not having his family residing there, the receiving state consents to such person being sent there.

Before granting such permission, opportunity shall be granted to the receiving state to investigate the home and prospective employment of such person.

A resident of the receiving state, within the meaning of this section, is one who has been an actual inhabitant of such state continuously for more than one year prior to his coming to the sending state and has not resided within the sending state more than six continuous months immediately preceding the commission of the offense for which he has been convicted.

(2) That each receiving state will assume the duties of visitation of and supervision over probationers or parolees of any sending state and in the exercise of those duties will be governed by the same standards that prevail for its own probationers and parolees.

(3) That duly accredited officers of a sending state may at all times enter a receiving state and there apprehend and retake any person on probation or parole. For that purpose no formalities will be required other than establishing the authority of the officer and the identity of the person to be retaken. All legal requirements to obtain extradition of fugitives from justice are hereby expressly waived on the part of

states party hereto, as to such persons. The decision of the sending state to retake a person on probation or parole shall be conclusive upon and not reviewable within the receiving state; provided, however, that if at the time when a state seeks to retake a probationer or parolee there should be pending against him within the receiving state any criminal charge, or he should be suspected of having committed within such state a criminal offense, he shall not be retaken without the consent of the receiving state until discharged from prosecution or from imprisonment for such offense.

(4) That the duly accredited officers of the sending state will be permitted to transport prisoners being retaken through any and all states parties to this compact, without interference.

(5) That the governor of each state may designate an officer who, acting jointly with like officers of other contracting states, if and when appointed, shall promulgate such rules and regulations as may be deemed necessary to more effectively carry out the terms of this compact.

(6) That this compact shall become operative immediately upon its ratification by any state as between it and any other state or states so ratifying. When ratified it shall have the full force and effect of law within such state, the form of ratification to be in accordance with the laws of the ratifying state.

(7) That this compact shall continue in force and remain binding upon each ratifying state until renounced by it. The duties and obligations hereunder of a renouncing state shall continue as to parolees or probationers residing therein at the time of withdrawal until retaken or finally discharged by the sending state. Renunciation of this compact shall be by the same authority which ratified it, by sending six months' notice in writing of its intention to withdraw from the compact to the other states party hereto.

2. The chairman of the board of parole shall have power and shall be charged with the duty of promulgating such rules and regulations as may be deemed necessary to carry out the terms of a compact entered into by the state pursuant to this section.

3. If any section, sentence, subdivision or clause of this section is

for any reason held invalid or to be unconstitutional, such decision shall not affect the validity of the remaining portions of this section.

4. This section may be cited as the uniform act for out-of-state parolee supervision.

PURPOSE

The compacting states to this interstate compact recognize that each state is responsible for the supervision of adult offenders in the community who are authorized pursuant to the bylaws and rules of this compact to travel across state lines both to and from each compacting state in such a manner as to track the location of offenders, transfer supervision authority in an orderly and efficient manner, and when necessary return offenders to the originating jurisdictions. The

compacting states also recognize that Congress, by enacting the Crime Control Act, 4 U.S.C. Section 112 (1965), has authorized and encouraged compacts for cooperative efforts and mutual assistance in the prevention of crime. It is the purpose of this compact and the interstate commission created pursuant to this compact, through means of joint and cooperative action among the compacting states: to provide the framework for the promotion of public safety and protect the rights of victims through the control and regulation of the interstate movement of offenders in the community; to provide for the effective tracking, supervision and rehabilitation of these offenders by the sending and receiving states; and to equitably distribute the costs, benefits and obligations of the compact among the compacting states. In addition, this compact will: create an interstate commission which will establish uniform procedures to manage the movement between states of adults placed under community supervision and released to the community under the jurisdiction of courts, paroling authorities, corrections or other criminal justice agencies which will promulgate rules to achieve the purpose of this compact; ensure an opportunity for input and timely notice to victims and to jurisdictions where defined offenders are authorized to travel or to relocate across state lines; establish a system of uniform data collection, access to information on active cases by authorized criminal justice officials, and regular reporting of compact activities to heads of state councils, state executive, judicial and legislative branches, and criminal justice administrators; monitor compliance with rules governing interstate movement of offenders and initiate interventions to address and correct non-compliance; and coordinate training and education regarding regulations of interstate movement of offenders for officials involved in such activity. The compacting states recognize that there is no "right" of any offender to live in another state and that duly accredited officers of a sending state may at all times enter a receiving state and there apprehend and retake any offender under supervision subject to the provisions of this compact and bylaws and rules promulgated thereto. It is the policy of the compacting states that the activities conducted by the interstate commission created by this compact are the formation of public policies and are therefore public business.

Public notice shall be given of all meetings and meetings shall be open to the public.

The interstate commission shall establish an executive committee which shall include commission officers, members and others as shall be determined by the by-laws. The executive committee shall have the power to act on behalf of the interstate commission during periods when the interstate commission is not in session, with the exception of rulemaking and/or amendment to the compact. The executive committee oversees the day-to-day activities managed by the executive director and interstate commission staff; administers enforcement and compliance with the provisions of the compact, its by-laws and as directed by the interstate commission and performs other duties as directed by the commission or set forth in the by-laws.

ARTICLE IV THE STATE COUNCIL

Each member state shall create a state council for interstate adult offender supervision which shall be responsible for the appointment of the commissioner who shall serve on the interstate commission from that state. Each state council shall appoint as its commissioner the compact administrator from that state to serve on the interstate commission in such capacity under or pursuant to applicable law of the member state. While each member state may determine the membership of its own state council, its membership must include at least one representative from the legislative, judicial and executive branches of government, victims groups and compact administrators. Each compacting state retains the right to determine the qualifications of the compact administrator who shall be appointed by the state council or by the governor in consultation with the legislature and the judiciary. In addition to appointment of its commissioner to the national interstate commission, each state council shall exercise oversight and advocacy concerning its participation in interstate commission activities and other duties as may be determined by each member state including but not limited to, development of policy concerning operations and procedures of the compact within that state. The compact administrator shall be appointed by the governor in consultation with the temporary president of the senate, the speaker of the assembly and the chief judge of the court of appeals. Notwithstanding any civil service or other similar laws of any compacting state, the by-laws shall exclusively govern the personnel policies and programs of the interstate commission;

8. providing transition rules for "start up" administration of the compact; and

9. establishing standards and procedures for compliance and technical assistance in carrying out the compact.

(b) Officers and staff. The officers so elected shall serve without compensation or remuneration from the interstate commission; provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for any actual and necessary costs and expenses incurred by them in the performance of their duties and responsibilities as officers of the interstate commission.

The interstate commission shall, through its executive committee, appoint or retain an executive director for such period, upon such terms and conditions and for such compensation as the interstate commission may deem appropriate. The executive director shall serve as secretary to the interstate commission, and hire and supervise such other staff as may be authorized by the interstate commission, but shall not be a member.

(d) Qualified immunity, defense and indemnification. The members, officers, executive director and employees of the interstate commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability cause or arising out of any actual or alleged act, error or omission that occurred within the scope of interstate commission employment, duties or responsibilities; provided, that nothing in this subdivision shall be construed to protect any such person from suit and/or liability for any damage, loss, injury or liability caused by the intentional or willful and wanton misconduct of any such person. The interstate commission shall defend the commissioner of a compacting state, or his or her representatives or employees, or the interstate commission's representatives or employees, in any civil action seeking to impose liability, arising out of any actual or alleged act, error or omission that occurred within the scope of interstate commission employment, duties or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties or responsibilities; provided, that the actual or alleged act, error or omission did not result from intentional wrongdoing on the part of such person.

The interstate commission shall indemnify and hold the commissioner of a compacting state, the appointed designee or employees, or the interstate commission's representatives or employees, harmless in the amount of any settlement or judgment obtained against such persons arising out of any actual or alleged act, error or omission that occurred within the scope of interstate commission employment, duties or

responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of interstate commission employment, duties or responsibilities, provided, that the actual or alleged act, error or omission did not result from gross negligence or intentional wrongdoing on the part of such person.

ARTICLE VII

ACTIVITIES OF THE INTERSTATE COMMISSION

The interstate commission shall meet and take such actions as are consistent with the provisions of this compact.

Except as otherwise provided in this compact and unless a greater percentage is required by the by-laws, in order to constitute an act of the interstate commission, such act shall have been taken at a meeting of the interstate commission and shall have received an affirmative vote of a majority of the members present.

Each member of the interstate commission shall have the right and power to cast a vote to which that compacting state is entitled and to participate in the business and affairs of the interstate commission. A member shall vote in person on behalf of the state and shall not delegate a vote to another member state. However, a state council shall appoint another authorized representative, in the absence of the commissioner from that state, to cast a vote on behalf of the member state at a specified meeting. The by-laws may provide for members' participation in meetings by telephone or other means of telecommunication or electronic communication. Any voting conducted by telephone, or other means of telecommunication or electronic communication shall be subject to the same quorum requirements of meetings where members are present in person.

The interstate commission shall meet at least once during each calendar year. The chairperson of the interstate commission may call additional meetings at any time and, upon the request of a majority of the members, shall call additional meetings.

The interstate commission's by-laws shall establish conditions and

procedures under which the interstate commission shall make its information and official records available to the public for inspection or copying. The interstate commission may exempt from disclosure any information or official records to the extent they would adversely affect personal privacy rights or proprietary interests. In promulgating such rules, the interstate commission may make available to law enforcement agencies records and information otherwise exempt from disclosure, and may enter into agreements with law enforcement agencies to receive or exchange information or records subject to nondisclosure and confidentiality provisions.

Public notice shall be given of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The interstate commission shall promulgate rules consistent with the principles contained in the "Government in Sunshine Act," 5 U.S.C. Section 552(b), as may be amended. The interstate commission and any of its committees may close a meeting to the public where it determines by a two-thirds vote that an open meeting would be likely to:

- (a) relate solely to the interstate commission's internal personnel practices and procedures;
- (b) disclose matters specifically exempted from disclosure by statute;
- (c) disclose trade secrets or commercial or financial information which is privileged or confidential;
- (d) involve accusing any person of a crime, or formally censuring any person;
- (e) disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;
- (f) disclose investigatory records compiled for law enforcement purposes;
- (g) disclose information contained in or related to examination, operating or condition reports prepared by, or on behalf of or for the use of, the interstate commission with respect to a regulated entity for the purpose of regulation or supervision of such entity;
- (h) disclose information, the premature disclosure of which would significantly endanger the life of a person or the stability of a regulated entity; or

(i) specifically relate to the interstate commission's issuance of a subpoena, or its participation in a civil action or proceeding.

For every meeting closed pursuant to this article, the interstate commission's chief legal officer shall publicly certify that, in his or her opinion, the meeting may be closed to the public, and shall reference each relevant exemptive provision. The interstate commission shall keep minutes which shall fully and clearly describe all matters discussed in any meeting and shall provide a full and accurate summary of any actions taken, and the reasons therefor, including a description of each of the views expressed on any item and the record of any rollcall vote (reflected in the vote of each member on the question). All documents considered in connection with any action shall be identified in such minutes.

The interstate commission shall collect standardized data concerning the interstate movement of offenders as directed through its by-laws and rules which shall specify the data to be collected, the means of collection and data exchange and reporting requirements.

ARTICLE VIII

RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

The interstate commission shall promulgate rules in order to effectively and efficiently achieve the purposes of the compact including transition rules governing administration of the compact during the period in which it is being considered and enacted by the states.

Rulemaking shall occur pursuant to the criteria set forth in this article and the by-laws and rules adopted pursuant thereto. Such rulemaking shall substantially conform to the principles of the federal Administrative Procedure Act, 5 U.S.C.S. section 551 et seq., and the Federal Advisory Committee Act, 5 U.S.C.S. app. 2, section 1 et seq., as may be amended (hereinafter referred to as "APA"). All rules and amendments shall become binding as of the date specified in each rule or amendment.

If a majority of the legislatures of the compacting states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

When promulgating a rule, the interstate commission shall:

- (a) publish the proposed rule stating with particularity the text of the rule which is proposed and the reason for the proposed rule;
- (b) allow persons to submit written data, facts, opinions and arguments, which information shall be publicly available;
- (c) provide an opportunity for an informal hearing; and
- (d) promulgate a final rule and its effective date, if appropriate, based on the rulemaking record.

Not later than sixty days after a rule is promulgated, any interested person may file a petition in the United States District Court for the District of Columbia or in the Federal District Court where the interstate commission principal office is located for judicial review of such rule. If the court finds that the interstate commission's action is not supported by substantial evidence, (as defined in the APA), in the rulemaking record, the court shall hold the rule unlawful and set it aside. Subjects to be addressed within twelve months after the first meeting must at a minimum include:

1. notice to victims and opportunity to be heard;
2. offender registration and compliance;
3. violations/returns;
4. transfer procedures and forms;
5. eligibility for transfer;
6. collection of restitution and fees from offenders;
7. data collection and reporting;

8. the level of supervision to be provided by the receiving state;

9. transition rules governing the operation of the compact and the interstate commission during all or part of the period between the effective date of the compact and the date on which the last eligible state adopts the compact; and

10. mediation, arbitration and dispute resolution.

The existing rules governing the operation of the previous compact superceded by this compact shall be null and void twelve months after the first meeting of the interstate commission created pursuant to this compact.

Upon determination by the interstate commission that an emergency exists, it may promulgate an emergency rule which shall become effective immediately upon adoption, provided that the usual rulemaking procedures provided hereunder shall be retroactively applied to said rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule.

ARTICLE IX

OVERSIGHT, ENFORCEMENT AND DISPUTE RESOLUTION BY THE INTERSTATE COMMISSION

(a) Oversight. The interstate commission shall oversee the interstate movement of adult offenders in the compacting states and shall monitor such activities being administered in non-compacting states which may significantly affect compacting states.

The courts and executive agencies in each compacting state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. In any judicial or administrative proceeding in a compacting state pertaining to the subject matter of this compact which may affect the powers, responsibilities or actions of the interstate commission, the interstate commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding

for all purposes.

(b) Dispute resolution. The compacting states shall report to the interstate commission on issues or activities of concern to them, and cooperate with and support the interstate commission in the discharge of its duties and responsibilities.

The interstate commission shall attempt to resolve any disputes or other issues which are subject to the compact and which may arise among compacting states and non-compacting states.

The interstate commission shall enact a by-law or promulgate a rule providing for both mediation and binding dispute resolution for disputes among the compacting states.

(c) Enforcement. The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions of this compact using any or all means set forth in article XII, subdivision (b), of this compact.

ARTICLE X FINANCE

The interstate commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization and ongoing activities.

The interstate commission shall levy on and collect an annual assessment from each compacting state to cover the cost of the internal operations and activities of the interstate commission and its staff which must be in a total amount sufficient to cover the interstate commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the interstate commission, taking into consideration the population of the state and the volume of interstate movement of offenders in each compacting state and shall promulgate a rule binding upon compacting states which governs said assessment.

The interstate commission shall not incur any obligations of any kind prior to securing the funds adequate to meet the same; nor shall the

interstate commission pledge the credit of any of the compacting states, except by and with the authority of the compacting state.

The interstate commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the interstate commission shall be subject to the audit and accounting procedures established under its by-laws. However, all receipts and disbursements of funds handled by the interstate commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the interstate commission.

ARTICLE XI

COMPACTING STATES, EFFECTIVE DATE AND AMENDMENT

Any state, as defined in article II of this compact, is eligible to become a compacting state. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than thirty-five of the states. The initial effective date shall be the later of July first, two thousand three, or upon enactment into law by the thirty-fifth jurisdiction. Thereafter it shall become effective and binding, as to any other compacting state and in the state of New York, upon enactment of the compact into law by that state. The governors of non-member states or their designees will be invited to participate in interstate commission activities on a non-voting basis prior to adoption of the compact by all states and territories of the United States.

Amendments to the compact may be proposed by the interstate commission for enactment by the compacting states. No amendment shall become effective and binding upon the interstate commission and the compacting states unless and until it is enacted into law by unanimous consent of the compacting states.

ARTICLE XII

WITHDRAWAL, DEFAULT, TERMINATION AND JUDICIAL ENFORCEMENT

(a) Withdrawal. Once effective, the compact shall continue in force and remain binding upon each and every compacting state; provided, that a compacting state may withdraw from the compact ("withdrawing state") by enacting a statute specifically repealing the statute which enacted

the compact into law.

The effective date of withdrawal is the effective date of the repeal.

The withdrawing state shall immediately notify the chairperson of the interstate commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The interstate commission shall notify the other compacting states of the withdrawing state's intent to withdraw within sixty days of its receipt thereof.

The withdrawing state is responsible for all assessments, obligations and liabilities incurred through the effective date of withdrawal, including any obligations, the performance of which extend beyond the effective date of withdrawal. Reinstatement following withdrawal of any compacting state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the interstate commission.

(b) Default. If the interstate commission determines that any compacting state has at any time defaulted ("defaulting state") in the performance of any of its obligations or responsibilities under this compact, the by-laws or any duly promulgated rules the interstate commission may impose any or all of the following penalties:

1. Fines, fees and costs in such amounts as are deemed to be reasonable as fixed by the interstate commission;

2. Remedial training and technical assistance as directed by the interstate commission;

3. Suspension and termination of membership in the compact. Suspension shall be imposed only after all other reasonable means of securing compliance under the by-laws and rules have been exhausted. Immediate notice of suspension shall be given by the interstate commission to the governor, the chief justice or chief judicial officer of the state, the majority and minority leaders of the defaulting state's legislature, and the state council.

The grounds for default include, but are not limited to, failure of a compacting state to perform such obligations or responsibilities imposed upon it by this compact, interstate commission by-laws, or duly promulgated rules. The interstate commission shall immediately notify the defaulting state in writing of the penalty imposed by the interstate commission on the defaulting state pending a cure of the default. The interstate commission shall stipulate the conditions and the time period within which the defaulting state must cure its default. If the defaulting state fails to cure the default within the time period specified by the interstate commission, in addition to any other penalties imposed herein, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the compacting states and all rights, privileges and benefits conferred by this compact shall be terminated from the effective date of suspension. Within sixty days of the effective date of termination of a defaulting state, the interstate commission shall notify the governor, the chief justice or chief judicial officer, the majority and minority leaders of the defaulting state's legislature, and the state council of such termination.

The defaulting state is responsible for all assessments, obligations and liabilities incurred through the effective date of termination including any obligations, the performance of which extends beyond the effective date of termination.

The interstate commission shall not bear any costs relating to the defaulting state unless otherwise mutually agreed upon between the interstate commission and the defaulting state.

Reinstatement following termination of any compacting state requires both a reenactment of the compact by the defaulting state and the approval of the interstate commission pursuant to the rules.

(c) Judicial enforcement. The interstate commission may, by majority vote of the members, initiate legal action in the United States District Court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its offices to enforce compliance with the provisions of

the compact, its duly promulgated rules and by-laws, against any compacting state in default. In the event judicial enforcement is necessary the prevailing party shall be awarded all costs of such litigation including reasonable attorneys' fees.

(d) Dissolution of compact. The compact dissolves effective upon the date of the withdrawal or default of the compacting state which reduces membership in the compact to one compacting state.

Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be wound up and any surplus funds shall be distributed in accordance with the by-laws.

ARTICLE XIII

SEVERABILITY AND CONSTRUCTION

The provisions of this compact shall be severable, and if any phrase, clause, sentence or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

The provisions of this compact shall be liberally constructed to effectuate its purposes.

ARTICLE XIV

BINDING EFFECT OF COMPACT AND OTHER LAWS

(a) Other laws. Nothing in this compact prevents the enforcement of any other law of a compacting state that is not inconsistent with this compact.

All compacting states' laws conflicting with this compact are superseded to the extent of the conflict.

(b) Binding effect of the compact. All lawful actions of the interstate commission, including all rules and by-laws promulgated by the interstate commission, are binding upon the compacting states.

All agreements between the interstate commission and the compacting states are binding in accordance with their terms.

Upon the request of a party to a conflict over meaning or

interpretation of interstate commission actions, and upon a majority vote of the compacting states, the interstate commission may issue advisory opinions regarding such meaning or interpretation.

In the event any provision of this compact exceeds the constitutional limits imposed on the legislature of any compacting state, the obligations, duties, powers or jurisdiction sought to be conferred by such provision upon the interstate commission shall be ineffective and such obligations, duties, powers or jurisdiction shall remain in the compacting state and shall be exercised by the agency thereof to which such obligations, duties, powers or jurisdiction are delegated by law in effect at the time this compact becomes effective.

medical parole any incarcerated individual serving an indeterminate or determinate sentence of imprisonment who, pursuant to subdivision two of this section, has been certified to be suffering from a terminal condition, disease or syndrome and to be so debilitated or incapacitated as to create a reasonable probability that he or she is physically or cognitively incapable of presenting any danger to society, provided, however, that no incarcerated individual serving a sentence imposed upon a conviction for murder in the first degree or an attempt or conspiracy to commit murder in the first degree shall be eligible for such release, and provided further that no incarcerated individual serving a sentence imposed upon a conviction for any of the following offenses shall be eligible for such release unless in the case of an indeterminate sentence he or she has served at least one-half of the minimum period of the sentence and in the case of a determinate sentence he or she has served at least one-half of the term of his or her determinate sentence: murder in the second degree, manslaughter in the first degree, any offense defined in article one hundred thirty of the penal law or an attempt to commit any of these offenses. Solely for the purpose of determining medical parole eligibility pursuant to this section, such one-half of the minimum period of the indeterminate sentence and one-half of the term of the determinate sentence shall not be credited with any time served under the jurisdiction of the department prior to the commencement of such sentence pursuant to the opening paragraph of subdivision one of section 70.30 of the penal law or subdivision two-a of section 70.30 of the penal law, except to the extent authorized by subdivision three of section 70.30 of the penal law.

* NB Effective until September 1, 2027

* (a) The board shall have the power to release on medical parole any incarcerated individual serving an indeterminate or determinate sentence of imprisonment who, pursuant to subdivision two of this section, has been certified to be suffering from a terminal condition, disease or syndrome and to be so debilitated or incapacitated as to create a reasonable probability that he or she is physically or cognitively incapable of presenting any danger to society, provided, however, that no incarcerated individual serving a sentence imposed upon a conviction for murder in the first degree or an attempt or conspiracy to commit murder in the first degree shall be eligible for such release, and

provided further that no incarcerated individual serving a sentence imposed upon a conviction for any of the following offenses shall be eligible for such release unless in the case of an indeterminate sentence he or she has served at least one-half of the minimum period of the sentence and in the case of a determinate sentence he or she has served at least one-half of the term of his or her determinate sentence: murder in the second degree, manslaughter in the first degree, any offense defined in article one hundred thirty of the penal law or an attempt to commit any of these offenses. Solely for the purpose of determining medical parole eligibility pursuant to this section, such one-half of the minimum period of the indeterminate sentence and one-half of the term of the determinate sentence shall not be credited with any time served under the jurisdiction of the department prior to the commencement of such sentence pursuant to the opening paragraph of subdivision one of section 70.30 of the penal law or subdivision two-a of section 70.30 of the penal law, except to the extent authorized by subdivision three of section 70.30 of the penal law.

* NB Effective September 1, 2027

(b) Such release shall be granted only after the board considers whether, in light of the incarcerated individual's medical condition, there is a reasonable probability that the incarcerated individual, if released, will live and remain at liberty without violating the law, and that such release is not incompatible with the welfare of society and will not so deprecate the seriousness of the crime as to undermine respect for the law, and shall be subject to the limits and conditions specified in subdivision four of this section. Except as set forth in paragraph (a) of this subdivision, such release may be granted at any time during the term of an incarcerated individual's sentence, notwithstanding any other provision of law.

(c) The board shall afford notice to the sentencing court, the district attorney and the attorney for the incarcerated individual that the incarcerated individual is being considered for release pursuant to this section and the parties receiving notice shall have fifteen days to comment on the release of the incarcerated individual. Release on medical parole shall not be granted until the expiration of the comment period provided for in this paragraph.

2. (a) The commissioner, on the commissioner's own initiative or at the request of an incarcerated individual, or an incarcerated individual's spouse, relative or attorney, may, in the exercise of the commissioner's discretion, direct that an investigation be undertaken to determine whether a diagnosis should be made of an incarcerated individual who appears to be suffering from a terminal condition, disease or syndrome. Any such medical diagnosis shall be made by a physician licensed to practice medicine in this state pursuant to section sixty-five hundred twenty-four of the education law. Such physician shall either be employed by the department, shall render professional services at the request of the department, or shall be employed by a hospital or medical facility used by the department for the medical treatment of incarcerated individuals. The diagnosis shall be reported to the commissioner and shall include but shall not be limited to a description of the terminal condition, disease or syndrome suffered by the incarcerated individual, a prognosis concerning the likelihood that the incarcerated individual will not recover from such terminal condition, disease or syndrome, a description of the incarcerated individual's physical or cognitive incapacity which shall include a prediction respecting the likely duration of the incapacity, and a statement by the physician of whether the incarcerated individual is so debilitated or incapacitated as to be severely restricted in his or her ability to self-ambulate or to perform significant normal activities of daily living. This report also shall include a recommendation of the type and level of services and treatment the incarcerated individual would require if granted medical parole and a recommendation for the types of settings in which the services and treatment should be given.

(b) The commissioner, or the commissioner's designee, shall review the diagnosis and may certify that the incarcerated individual is suffering from such terminal condition, disease or syndrome and that the incarcerated individual is so debilitated or incapacitated as to create a reasonable probability that he or she is physically or cognitively incapable of presenting any danger to society. If the commissioner does not so certify then the incarcerated individual shall not be referred to the board for consideration for release on medical parole. If the commissioner does so certify, then the commissioner shall, within seven

working days of receipt of such diagnosis, refer the incarcerated individual to the board for consideration for release on medical parole. However, no such referral of an incarcerated individual to the board shall be made unless the incarcerated individual has been examined by a physician and diagnosed as having a terminal condition, disease or syndrome as previously described herein at some time subsequent to such incarcerated individual's admission to a facility operated by the department of correctional services.

(c) When the commissioner refers an incarcerated individual to the board, the commissioner shall provide an appropriate medical discharge plan established by the department. The department is authorized to request assistance from the department of health and from the county in which the incarcerated individual resided and committed his or her crime, which shall provide assistance with respect to the development and implementation of a discharge plan, including potential placements of a releasee. The department and the department of health shall jointly develop standards for the medical discharge plan that are appropriately adapted to the criminal justice setting, based on standards established by the department of health for hospital medical discharge planning. The board may postpone its decision pending completion of an adequate discharge plan, or may deny release based on inadequacy of the discharge plan.

3. Any certification by the commissioner or the commissioner's designee pursuant to this section shall be deemed a judicial function and shall not be reviewable if done in accordance with law.

4. (a) Medical parole granted pursuant to this section shall be for a period of six months.

(b) The board shall require as a condition of release on medical parole that the releasee agree to remain under the care of a physician while on medical parole and in a hospital established pursuant to article twenty-eight of the public health law, a hospice established pursuant to article forty of the public health law or any other placement that can provide appropriate medical care as specified in the medical discharge plan required by subdivision two of this section. The medical discharge plan shall state that the availability of the

placement has been confirmed, and by whom. Notwithstanding any other provision of law, when an incarcerated individual who qualifies for release under this section is cognitively incapable of signing the requisite documentation to effectuate the medical discharge plan and, after a diligent search no person has been identified who could otherwise be appointed as the incarcerated individual's guardian by a court of competent jurisdiction, then, solely for the purpose of implementing the medical discharge plan, the facility health services director at the facility where the incarcerated individual is currently incarcerated shall be lawfully empowered to act as the incarcerated individual's guardian for the purpose of effectuating the medical discharge.

(c) Where appropriate, the board shall require as a condition of release that medical parolees be supervised on intensive caseloads at reduced supervision ratios.

(d) The board shall require as a condition of release on medical parole that the releasee undergo periodic medical examinations and a medical examination at least one month prior to the expiration of the period of medical parole and, for the purposes of making a decision pursuant to paragraph (e) of this subdivision, that the releasee provide the board with a report, prepared by the treating physician, of the results of such examination. Such report shall specifically state whether or not the parolee continues to suffer from a terminal condition, disease, or syndrome, and to be so debilitated or incapacitated as to be severely restricted in his or her ability to self-ambulate or to perform significant normal activities of daily living.

(e) Prior to the expiration of the period of medical parole the board shall review the medical examination report required by paragraph (d) of this subdivision and may again grant medical parole pursuant to this section; provided, however, that the provisions of paragraph (c) of subdivision one and subdivision two of this section shall not apply.

(f) If the updated medical report presented to the board states that a parolee released pursuant to this section is no longer so debilitated or incapacitated as to create a reasonable probability that he or she is physically or cognitively incapable of presenting any danger to society or if the releasee fails to submit the updated medical report then the

board may not make a new grant of medical parole pursuant to paragraph (e) of this subdivision. Where the board has not granted medical parole pursuant to such paragraph (e) the board shall promptly conduct through one of its members, or cause to be conducted by a hearing officer designated by the board, a hearing to determine whether the releasee is suffering from a terminal condition, disease or syndrome and is so debilitated or incapacitated as to create a reasonable probability that he or she is physically or cognitively incapable of presenting any danger to society and does not present a danger to society. If the board makes such a determination then it may make a new grant of medical parole pursuant to the standards of paragraph (b) of subdivision one of this section. At the hearing, the releasee shall have the right to representation by counsel, including the right, if the releasee is financially unable to retain counsel, to have the appropriate court assign counsel in accordance with the county or city plan for representation placed in operation pursuant to article eighteen-B of the county law.

(g) The hearing and determination provided for by paragraph (f) of this subdivision shall be concluded within the six month period of medical parole. If the board does not renew the grant of medical parole, it shall order that the releasee be returned immediately to the custody of the department.

(h) In addition to the procedures set forth in paragraph (f) of this subdivision, medical parole may be revoked at any time upon any of the grounds specified in paragraph (a) of subdivision three of section two hundred fifty-nine-i of this article, and in accordance with the procedures specified in subdivision three of section two hundred fifty-nine-i of this article.

(i) A releasee who is on medical parole and who becomes eligible for parole pursuant to the provisions of subdivision two of section two hundred fifty-nine-i of this article shall be eligible for parole consideration pursuant to such subdivision.

5. A denial of release on medical parole or expiration of medical parole in accordance with the provisions of paragraph (f) of subdivision four of this section shall not preclude the incarcerated individual from reapplying for medical parole or otherwise affect an incarcerated

individual's eligibility for any other form of release provided for by law.

6. To the extent that any provision of this section requires disclosure of medical information for the purpose of processing an application or making a decision, regarding release on medical parole or renewal of medical parole, or for the purpose of appropriately supervising a person released on medical parole, and that such disclosure would otherwise be prohibited by article twenty-seven-F of the public health law, the provisions of this section shall be controlling.

7. The commissioner and the chairman of the board shall be authorized to promulgate rules and regulations for their respective agencies to implement the provisions of this section.

8. Any decision made by the board pursuant to this section may be appealed pursuant to subdivision four of section two hundred fifty-nine-i of this article.

9. The chairman shall report annually to the governor, the temporary president of the senate and the speaker of the assembly, the chairpersons of the assembly and senate codes committees, the chairperson of the senate crime and corrections committee, and the chairperson of the assembly corrections committee the number of incarcerated individuals who have applied for medical parole; the number who have been granted medical parole; the nature of the illness of the applicants, the counties to which they have been released and the nature of the placement pursuant to the medical discharge plan; the categories of reasons for denial for those who have been denied; the number of releasees who have been granted an additional period or periods of medical parole and the number of such grants; the number of releasees on medical parole who have been returned to imprisonment in the custody of the department and the reasons for return.

10. Notwithstanding any other provision of law, in the case of an incarcerated individual whose terminal condition, disease or syndrome

meets the criteria for medical parole as set forth in paragraph (a) of subdivision one of this section, and who is not serving a sentence for one or more offenses set forth in paragraph (i) of subdivision one of section eight hundred six of the correction law which would render such incarcerated individual ineligible for presumptive release, the granting of medical parole shall be determined by the commissioner provided that a release of such incarcerated individual shall be in accordance with subdivision eleven of this section. In such case, the provisions that would have applied to and the procedures that would have been followed by the board of parole pursuant to this section shall apply to and be followed by the commissioner.

11. (a) After the commissioner has made a determination to grant medical parole pursuant to subdivision ten of this section, the commissioner shall notify the chairperson of the board of parole, or their designee who shall be a member of the board of parole, and provide him or her with all relevant records, files, information and documentation, which includes but is not limited to the criminal history, medical diagnosis and treatment pertaining to the terminally ill incarcerated individual no more than five days from the date of the determination. (b) The chairperson or his or her designee shall either accept the commissioner's grant of medical parole, in which case the incarcerated individual may be released by the commissioner, or conduct further review. This decision or review shall be made within five days of the receipt of the relevant records, files, information and documentation from the commissioner. The chairperson's further review may include, but not be limited to, an appearance by the terminally ill incarcerated individual before the chairperson or his or her designee. (c) After this further review, the chairperson shall either accept the commissioner's grant of medical parole, in which case the incarcerated individual may be released by the commissioner, or the chairperson shall schedule an appearance for the terminally ill incarcerated individual before the board of parole.

In the event the terminally ill incarcerated individual is scheduled to make an appearance before the board of parole pursuant to this subdivision, the matter shall be heard by a panel that does not include

the chairperson or any member of the board of parole who was involved in the review of the commissioner's determination.

§ 259-s. Release on medical parole for incarcerated individuals suffering significant debilitating illnesses. 1. (a) The board shall have the power to release on medical parole any incarcerated individual serving an indeterminate or determinate sentence of imprisonment who, pursuant to subdivision two of this section, has been certified to be suffering from a significant and permanent non-terminal condition, disease or syndrome that has rendered the incarcerated individual so physically or cognitively debilitated or incapacitated as to create a reasonable probability that he or she does not present any danger to society, provided, however, that no incarcerated individual serving a sentence imposed upon a conviction for murder in the first degree or an attempt or conspiracy to commit murder in the first degree shall be eligible for such release, and provided further that no incarcerated individual serving a sentence imposed upon a conviction for any of the following offenses shall be eligible for such release unless in the case of an indeterminate sentence he or she has served at least one-half of the minimum period of the sentence and in the case of a determinate sentence he or she has served at least one-half of the term of his or her determinate sentence: murder in the second degree, manslaughter in the first degree, any offense defined in article one hundred thirty of the penal law or an attempt to commit any of these offenses. Solely for the purpose of determining medical parole eligibility pursuant to this section, such one-half of the minimum period of the indeterminate sentence and one-half of the term of the determinate sentence shall not be credited with any time served under the jurisdiction of the department prior to the commencement of such sentence pursuant to the opening paragraph of subdivision one of section 70.30 of the penal law or subdivision two-a of section 70.30 of the penal law, except to the extent authorized by subdivision three of section 70.30 of the penal law.

(b) Such release shall be granted only after the board considers whether, in light of the incarcerated individual's medical condition, there is a reasonable probability that the incarcerated individual, if

released, will live and remain at liberty without violating the law, and that such release is not incompatible with the welfare of society and will not so deprecate the seriousness of the crime as to undermine respect for the law, and shall be subject to the limits and conditions specified in subdivision four of this section. In making this determination, the board shall consider: (i) the nature and seriousness of the incarcerated individual's crime; (ii) the incarcerated individual's prior criminal record; (iii) the incarcerated individual's disciplinary, behavioral and rehabilitative record during the term of his or her incarceration; (iv) the amount of time the incarcerated individual must serve before becoming eligible for release pursuant to section two hundred fifty-nine-i of this article; (v) the current age of the incarcerated individual and his or her age at the time of the crime; (vi) the recommendations of the sentencing court, the district attorney and the victim or the victim's representative; (vii) the nature of the incarcerated individual's medical condition, disease or syndrome and the extent of medical treatment or care that the incarcerated individual will require as a result of that condition, disease or syndrome; and (viii) any other relevant factor. Except as set forth in paragraph (a) of this subdivision, such release may be granted at any time during the term of an incarcerated individual's sentence, notwithstanding any other provision of law.

(c) The board shall afford notice to the sentencing court, the district attorney, the attorney for the incarcerated individual and, where necessary pursuant to subdivision two of section two hundred fifty-nine-i of this article, the crime victim, that the incarcerated individual is being considered for release pursuant to this section and the parties receiving notice shall have thirty days to comment on the release of the incarcerated individual. Release on medical parole shall not be granted until the expiration of the comment period provided for in this paragraph.

2. (a) The commissioner, on the commissioner's own initiative or at the request of an incarcerated individual, or an incarcerated individual's spouse, relative or attorney, may, in the exercise of the commissioner's discretion, direct that an investigation be undertaken to determine whether a diagnosis should be made of an incarcerated

individual who appears to be suffering from a significant and permanent non-terminal and incapacitating condition, disease or syndrome. Any such medical diagnosis shall be made by a physician licensed to practice medicine in this state pursuant to section sixty-five hundred twenty-four of the education law. Such physician shall either be employed by the department, shall render professional services at the request of the department, or shall be employed by a hospital or medical facility used by the department for the medical treatment of incarcerated individuals. The diagnosis shall be reported to the commissioner and shall include but shall not be limited to a description of the condition, disease or syndrome suffered by the incarcerated individual, a prognosis concerning the likelihood that the incarcerated individual will not recover from such condition, disease or syndrome, a description of the incarcerated individual's physical or cognitive incapacity which shall include a prediction respecting the likely duration of the incapacity, and a statement by the physician of whether the incarcerated individual is so debilitated or incapacitated as to be severely restricted in his or her ability to self-ambulate or to perform significant normal activities of daily living. This report also shall include a recommendation of the type and level of services and treatment the incarcerated individual would require if granted medical parole and a recommendation for the types of settings in which the services and treatment should be given.

(b) The commissioner, or the commissioner's designee, shall review the diagnosis and may certify that the incarcerated individual is suffering from such condition, disease or syndrome and that the incarcerated individual is so debilitated or incapacitated as to create a reasonable probability that he or she is physically or cognitively incapable of presenting any danger to society. If the commissioner does not so certify then the incarcerated individual shall not be referred to the board for consideration for release on medical parole. If the commissioner does so certify, then the commissioner shall, within seven working days of receipt of such diagnosis, refer the incarcerated individual to the board for consideration for release on medical parole. However, no such referral of an incarcerated individual to the board of parole shall be made unless the incarcerated individual has been examined by a physician and diagnosed as having a condition, disease or

syndrome as previously described herein at some time subsequent to such incarcerated individual's admission to a facility operated by the department.

(c) When the commissioner refers an incarcerated individual to the board, the commissioner shall provide an appropriate medical discharge plan established by the department. The department is authorized to request assistance from the department of health and from the county in which the incarcerated individual resided and committed his or her crime, which shall provide assistance with respect to the development and implementation of a discharge plan, including potential placements of a releasee. The department and the department of health shall jointly develop standards for the medical discharge plan that are appropriately adapted to the criminal justice setting, based on standards established by the department of health for hospital medical discharge planning. The board may postpone its decision pending completion of an adequate discharge plan, or may deny release based on inadequacy of the discharge plan.

3. Any certification by the commissioner or the commissioner's designee pursuant to this section shall be deemed a judicial function and shall not be reviewable if done in accordance with law.

4. (a) Medical parole granted pursuant to this section shall be for a period of six months.

(b) The board shall require as a condition of release on medical parole that the releasee agree to remain under the care of a physician while on medical parole and in a hospital established pursuant to article twenty-eight of the public health law, a hospice established pursuant to article forty of the public health law or any other placement, including a residence with family or others, that can provide appropriate medical care as specified in the medical discharge plan required by subdivision two of this section. The medical discharge plan shall state that the availability of the placement has been confirmed, and by whom. Notwithstanding any other provision of law, when an incarcerated individual who qualifies for release under this section is cognitively incapable of signing the requisite documentation to effectuate the medical discharge plan and, after a diligent search no

person has been identified who could otherwise be appointed as the incarcerated individual's guardian by a court of competent jurisdiction, then, solely for the purpose of implementing the medical discharge plan, the facility health services director at the facility where the incarcerated individual is currently incarcerated shall be lawfully empowered to act as the incarcerated individual's guardian for the purpose of effectuating the medical discharge.

(c) Where appropriate, the board shall require as a condition of release that medical parolees be supervised on intensive caseloads at reduced supervision ratios.

(d) The board shall require as a condition of release on medical parole that the releasee undergo periodic medical examinations and a medical examination at least one month prior to the expiration of the period of medical parole and, for the purposes of making a decision pursuant to paragraph (e) of this subdivision, that the releasee provide the board with a report, prepared by the treating physician, of the results of such examination. Such report shall specifically state whether or not the parolee continues to suffer from a significant and permanent non-terminal and debilitating condition, disease, or syndrome, and to be so debilitated or incapacitated as to be severely restricted in his or her ability to self-ambulate or to perform significant normal activities of daily living.

(e) Prior to the expiration of the period of medical parole the board shall review the medical examination report required by paragraph (d) of this subdivision and may again grant medical parole pursuant to this section; provided, however, that the provisions of paragraph (c) of subdivision one and subdivision two of this section shall not apply.

(f) If the updated medical report presented to the board states that a parolee released pursuant to this section is no longer so debilitated or incapacitated as to create a reasonable probability that he or she is physically or cognitively incapable of presenting any danger to society or if the releasee fails to submit the updated medical report then the board may not make a new grant of medical parole pursuant to paragraph (e) of this subdivision. Where the board has not granted medical parole pursuant to such paragraph (e) the board shall promptly conduct through one of its members, or cause to be conducted by a hearing officer designated by the board, a hearing to determine whether the releasee is

suffering from a significant and permanent non-terminal and incapacitating condition, disease or syndrome and is so debilitated or incapacitated as to create a reasonable probability that he or she is physically or cognitively incapable of presenting any danger to society and does not present a danger to society. If the board makes such a determination then it may make a new grant of medical parole pursuant to the standards of paragraph (b) of subdivision one of this section. At the hearing, the releasee shall have the right to representation by counsel, including the right, if the releasee is financially unable to retain counsel, to have the appropriate court assign counsel in accordance with the county or city plan for representation placed in operation pursuant to article eighteen-B of the county law.

(g) The hearing and determination provided for by paragraph (f) of this subdivision shall be concluded within the six month period of medical parole. If the board does not renew the grant of medical parole, it shall order that the releasee be returned immediately to the custody of the department of correctional services.

(h) In addition to the procedures set forth in paragraph (f) of this subdivision, medical parole may be revoked at any time upon any of the grounds specified in paragraph (a) of subdivision three of section two hundred fifty-nine-i of this article, and in accordance with the procedures specified in subdivision three of section two hundred fifty-nine-i of this article.

(i) A releasee who is on medical parole and who becomes eligible for parole pursuant to the provisions of subdivision two of section two hundred fifty-nine-i of this article shall be eligible for parole consideration pursuant to such subdivision.

5. A denial of release on medical parole or expiration of medical parole in accordance with the provisions of paragraph (f) of subdivision four of this section shall not preclude the incarcerated individual from reapplying for medical parole or otherwise affect an incarcerated individual's eligibility for any other form of release provided for by law.

6. To the extent that any provision of this section requires disclosure of medical information for the purpose of processing an

application or making a decision, regarding release on medical parole or renewal of medical parole, or for the purpose of appropriately supervising a person released on medical parole, and that such disclosure would otherwise be prohibited by article twenty-seven-F of the public health law, the provisions of this section shall be controlling.

7. The commissioner and the chair of the board shall be authorized to promulgate rules and regulations for their respective agencies to implement the provisions of this section.

8. Any decision made by the board pursuant to this section may be appealed pursuant to subdivision four of section two hundred fifty-nine-i of this article.

9. The chair of the board shall report annually to the governor, the temporary president of the senate and the speaker of the assembly, the chairpersons of the assembly and senate codes committees, the chairperson of the senate crime and corrections committee, and the chairperson of the assembly corrections committee the number of incarcerated individuals who have applied for medical parole under this section; the number who have been granted medical parole; the nature of the illness of the applicants, the counties to which they have been released and the nature of the placement pursuant to the medical discharge plan; the categories of reasons for denial for those who have been denied; the number of releasees who have been granted an additional period or periods of medical parole and the number of such grants; the number of releasees on medical parole who have been returned to imprisonment in the custody of the department and the reasons for return.

*** § 259-t. Permitted activities.** Where any person is granted presumptive release, parole, conditional release, release to post-release supervision or any other type of supervised release, the state board of parole shall not deem a person to be in violation of and the state board of parole shall not terminate such granted presumptive

release, parole, conditional release, release to post-release supervision or any other type of supervised release solely because such person engaged in bona fide work for an employer, including travel time to or from bona fide work, during curfew times set by conditions of probation, parole, presumptive release, conditional release or release to post-release supervision. For purposes of this section, bona fide work is work performed as an employee for an employer, as defined in section two of the labor law.

Any such amount resulting in a reduction of the municipal share shall not be considered in calculating the municipal share of any future program;

(a) For an employer or licensing agency, because of an individual's age, race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, disability, predisposing genetic characteristics, familial status, marital status, or status as a victim of domestic violence, to refuse to hire or employ or to bar or to discharge from employment such individual or to discriminate against such individual in compensation or in terms, conditions or privileges of employment.

(b) For an employment agency to discriminate against any individual because of age, race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, disability, predisposing genetic characteristics, familial status, marital status, or status as a victim of domestic violence, in receiving, classifying, disposing or otherwise acting upon applications for its services or in referring an applicant or applicants to an employer or employers.

(c) For a labor organization, because of the age, race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, disability, predisposing genetic characteristics, familial status, marital status, or status as a victim of domestic violence, of any individual, to exclude or to expel from its membership such individual or to discriminate in any way against any of its members or against any employer or any individual employed by an employer.

(d) For any employer or employment agency to print or circulate or cause to be printed or circulated any statement, advertisement or publication, or to use any form of application for employment or to make any inquiry in connection with prospective employment, which expresses directly or indirectly, any limitation, specification or discrimination as to age, race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, disability, predisposing genetic characteristics, familial status, marital status, or status as a victim of domestic violence, or any intent to make any such limitation, specification or

discrimination, unless based upon a bona fide occupational qualification; provided, however, that neither this paragraph nor any provision of this chapter or other law shall be construed to prohibit the department of civil service or the department of personnel of any city containing more than one county from requesting information from applicants for civil service examinations concerning any of the aforementioned characteristics, other than sexual orientation, for the purpose of conducting studies to identify and resolve possible problems in recruitment and testing of members of minority groups to ensure the fairest possible and equal opportunities for employment in the civil service for all persons, regardless of age, race, creed, color, national origin, citizenship or immigration status, sexual orientation or gender identity or expression, military status, sex, disability, predisposing genetic characteristics, familial status, or marital status.

(e) For any employer, labor organization or employment agency to discharge, expel or otherwise discriminate against any person because he or she has opposed any practices forbidden under this article or because he or she has filed a complaint, testified or assisted in any proceeding under this article.

(f) Nothing in this subdivision shall affect any restrictions upon the activities of persons licensed by the state liquor authority with respect to persons under twenty-one years of age.

Such harassment is an unlawful

discriminatory practice when it subjects an individual to inferior terms, conditions or privileges of employment because of the individual's membership in one or more of these protected categories. The fact that such individual did not make a complaint about the harassment to such employer, licensing agency, employment agency or labor organization shall not be determinative of whether such employer, licensing agency, employment agency or labor organization shall be liable. Nothing in this section shall imply that an employee must demonstrate the existence of an individual to whom the employee's treatment must be compared. It shall be an affirmative defense to liability under this subdivision that the harassing conduct does not rise above the level of what a reasonable victim of discrimination with the same protected characteristic or characteristics would consider petty slights or trivial inconveniences.

1-a. It shall be an unlawful discriminatory practice for an employer, labor organization, employment agency or any joint labor-management committee controlling apprentice training programs:

(c) To discriminate against any person in his or her pursuit of such programs or to discriminate against such a person in the terms, conditions or privileges of such programs because of race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, familial status, marital status, or status as a victim of domestic violence;

(d) To print or circulate or cause to be printed or circulated any

statement, advertisement or publication, or to use any form of application for such programs or to make any inquiry in connection with such program which expresses, directly or indirectly, any limitation, specification or discrimination as to race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, familial status, marital status, or status as a victim of domestic violence, or any intention to make any such limitation, specification or discrimination, unless based on a bona fide occupational qualification.

2. (a) It shall be an unlawful discriminatory practice for any person, being the owner, lessee, proprietor, manager, superintendent, agent or employee of any place of public accommodation, resort or amusement, because of the race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, disability, marital status, or status as a victim of domestic violence, of any person, directly or indirectly, to refuse, withhold from or deny to such person any of the accommodations, advantages, facilities or privileges thereof, including the extension of credit, or, directly or indirectly, to publish, circulate, issue, display, post or mail any written or printed communication, notice or advertisement, to the effect that any of the accommodations, advantages, facilities and privileges of any such place shall be refused, withheld from or denied to any person on account of race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, disability or marital status, or that the patronage or custom thereof of any person of or purporting to be of any particular race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex or marital status, or having a disability is unwelcome, objectionable or not acceptable, desired or solicited.

(b) Nothing in this subdivision shall be construed to prevent the barring of any person, because of the sex of such person, from places of public accommodation, resort or amusement if the division grants an exemption based on bona fide considerations of public policy; nor shall this subdivision apply to the rental of rooms in a housing accommodation

which restricts such rental to individuals of one sex.

(c) For the purposes of paragraph (a) of this subdivision, "discriminatory practice" includes:

(i) a refusal to make reasonable modifications in policies, practices, or procedures, when such modifications are necessary to afford facilities, privileges, advantages or accommodations to individuals with disabilities, unless such person can demonstrate that making such modifications would fundamentally alter the nature of such facilities, privileges, advantages or accommodations;

(ii) a refusal to take such steps as may be necessary to ensure that no individual with a disability is excluded or denied services because of the absence of auxiliary aids and services, unless such person can demonstrate that taking such steps would fundamentally alter the nature of the facility, privilege, advantage or accommodation being offered or would result in an undue burden;

(iii) a refusal to remove architectural barriers, and communication barriers that are structural in nature, in existing facilities, and transportation barriers in existing vehicles and rail passenger cars used by an establishment for transporting individuals (not including barriers that can only be removed through the retrofitting of vehicles or rail passenger cars by the installation of a hydraulic or other lift), where such removal is readily achievable;

(iv) where such person is a local or state government entity, a refusal to remove architectural barriers, and communication barriers that are structural in nature, in existing facilities, and transportation barriers in existing vehicles and rail passenger cars used by an establishment for transporting individuals (not including barriers that can only be removed through the retrofitting of vehicles or rail passenger cars by the installation of a hydraulic or other lift), where such removal does not constitute an undue burden; except as set forth in paragraph (e) of this subdivision; nothing in this section would require a public entity to: necessarily make each of its existing facilities accessible to and usable by individuals with disabilities; take any action that would threaten or destroy the historical significance of an historic property; or to make structural changes in existing facilities where other methods are effective in achieving compliance with this section; and

(v) where such person can demonstrate that the removal of a barrier under subparagraph (iii) of this paragraph is not readily achievable, a failure to make such facilities, privileges, advantages or accommodations available through alternative methods if such methods are readily achievable.

(d) For the purposes of this subdivision:

(i) "Readily achievable" means easily accomplishable and able to be carried out without much difficulty or expense. In determining whether an action is readily achievable, factors to be considered include:

(A) the nature and cost of the action needed under this subdivision;

(B) the overall financial resources of the facility or facilities involved in the action; the number of persons employed at such facility; the effect on expenses and resources or the impact otherwise of such action upon the operation of the facility;

(C) the overall financial resources of the place of public accommodation, resort or amusement; the overall size of the business of such a place with respect to the number of its employees; the number, type and location of its facilities; and

(D) other similar services and actions.

(A) The nature and cost of the action needed under this article;

(B) The overall financial resources of the site or sites involved in

the action; the number of persons employed at the site; the effect on expenses and resources; legitimate safety requirements that are necessary for safe operation, including crime prevention measures; or the impact otherwise of the action upon the operation of the site;

(C) The geographic separateness, and the administrative or fiscal relationship of the site or sites in question to any parent corporation or entity;

(D) If applicable, the overall financial resources of any parent corporation or entity; the overall size of the parent corporation or entity with respect to the number of its employees; the number, type, and location of its facilities; and

(E) If applicable, the type of operation or operations of any parent corporation or entity, including the composition, structure, and functions of the workforce of the parent corporation or entity.

(iv) "Reasonable modifications in policies, practices, procedures" includes modification to permit the use of a service animal by a person with a disability, consistent with federal regulations implementing the Americans with Disabilities Act, Title III, at 28 CFR 36.302(c).

(e) Paragraphs (c) and (d) of this subdivision do not apply to any air carrier, the National Railroad Passenger Corporation, or public transportation facilities, vehicles or services owned, leased or operated by the state, a county, city, town or village, or any agency thereof, or by any public benefit corporation or authority.

2-a. It shall be an unlawful discriminatory practice for the owner, lessee, sub-lessee, assignee, or managing agent of publicly-assisted housing accommodations or other person having the right of ownership or possession of or the right to rent or lease such accommodations:

(a) To refuse to sell, rent or lease or otherwise to deny to or withhold from any person or group of persons such housing accommodations because of the race, creed, color, disability, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, age, sex, marital status, status as a victim of domestic violence, lawful source of income or familial status of such person or persons, or to represent that any housing accommodation or land is not available for inspection, sale, rental or lease when in fact it is so available.

(c-1) To print or circulate or cause to be printed or circulated any statement, advertisement or publication, or to use any form of application for the purchase, rental or lease of such housing accommodation or to make any record or inquiry in connection with the prospective purchase, rental or lease of such a housing accommodation which expresses, directly or indirectly, any limitation, specification or discrimination as to race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, lawful source of income or familial status, or any intent to make any such limitation, specification or discrimination.

(d) (1) To refuse to permit, at the expense of the person with a disability, reasonable modifications of existing premises occupied or to be occupied by the said person, if the modifications may be necessary to afford the said person full enjoyment of the premises, in conformity with the provisions of the New York state uniform fire prevention and building code, except that, in the case of a rental, the landlord may, where it is reasonable to do so, condition permission for a modification

on the renter's agreeing to restore the interior of the premises to the condition that existed before the modification, reasonable wear and tear excepted.

(2) To refuse to make reasonable accommodations in rules, policies, practices, or services, when such accommodations may be necessary to afford a person with a disability equal opportunity to use and enjoy a dwelling, including the use of an animal as a reasonable accommodation to alleviate symptoms or effects of a disability, and including reasonable modification to common use portions of the dwelling, or

(3) In connection with the design and construction of covered multi-family dwellings for first occupancy after March thirteenth, nineteen hundred ninety-one, a failure to design and construct dwellings in accordance with the accessibility requirements of the New York state uniform fire prevention and building code, to provide that:

(i) The public use and common use portions of the dwellings are readily accessible to and usable by disabled persons with disabilities;

(ii) All the doors are designed in accordance with the New York state uniform fire prevention and building code to allow passage into and within all premises and are sufficiently wide to allow passage by persons in wheelchairs; and

(iii) All premises within covered multi-family dwelling units contain an accessible route into and through the dwelling; light switches, electrical outlets, thermostats, and other environmental controls are in accessible locations; there are reinforcements in the bathroom walls to allow later installation of grab bars; and there are usable kitchens and bathrooms such that an individual in a wheelchair can maneuver about the space, in conformity with the New York state uniform fire prevention and building code.

(e) Nothing in this subdivision shall restrict the consideration of age in the rental of publicly-assisted housing accommodations if the division grants an exemption based on bona fide considerations of public policy for the purpose of providing for the special needs of a particular age group without the intent of prejudicing other age groups.

(f) Nothing in this subdivision shall be deemed to restrict the rental of rooms in school or college dormitories to individuals of the same sex.

3. (a) It shall be an unlawful discriminatory practice for an employer, licensing agency, employment agency or labor organization to refuse to provide reasonable accommodations to the known disabilities, or pregnancy-related conditions, of an employee, prospective employee or member in connection with a job or occupation sought or held or participation in a training program.

(b) Nothing contained in this subdivision shall be construed to require provision of accommodations which can be demonstrated to impose an undue hardship on the operation of an employer's, licensing agency's, employment agency's or labor organization's business, program or enterprise.

In making such a demonstration with regard to undue hardship the factors to be considered include:

(i) The overall size of the business, program or enterprise with respect to the number of employees, number and type of facilities, and size of budget;

(ii) The type of operation which the business, program or enterprise is engaged in, including the composition and structure of the workforce; and

(iii) The nature and cost of the accommodation needed.

(c) Nothing in this subdivision regarding "reasonable accommodation" or in the chapter of the laws of two thousand fifteen which added this paragraph shall alter, diminish, increase, or create new or additional requirements to accommodate protected classes pursuant to this article other than the additional requirements as explicitly set forth in such chapter of the laws of two thousand fifteen.

(b) For any employer, licensing agency or employment agency to print or circulate or cause to be printed or circulated any statement, advertisement or publication, or to use any form of application for employment or to make any inquiry in connection with prospective employment, which expresses, directly or indirectly, any limitation, specification or discrimination on account of age respecting individuals eighteen years of age or older, or any intent to make any such limitation, specification, or discrimination.

(c) For any employer, licensing agency or employment agency to discharge or otherwise discriminate against any person because he or she has opposed any practices forbidden under this article or because he or she has filed a complaint, testified or assisted in any proceeding under this article.

(d) Notwithstanding any other provision of law, no employee shall be subject to termination or retirement from employment on the basis of age, except where age is a bona fide occupational qualification reasonably necessary to the normal operation of a particular business, where the differentiation is based on reasonable factors other than age, or as otherwise specified in paragraphs (e) and (f) of this subdivision or in article fourteen-A of the retirement and social security law.

(e) Nothing contained in this subdivision or in subdivision one of this section shall be construed to prevent the compulsory retirement of any employee who has attained sixty-five years of age, and who, for a two-year period immediately before retirement, is employed in a bona fide executive or a high policymaking position, if such employee is entitled to an immediate nonforfeitable annual retirement benefit from a pension, profit-sharing, savings, or deferred compensation plan, or any combination of such plans, of the employer of such employee, which equals, in the aggregate, at least forty-four thousand dollars; provided that for the purposes of this paragraph only, the term "employer" includes any employer as otherwise defined in this article but does not include (i) the state of New York, (ii) a county, city, town, village or any other political subdivision or civil division of the state, (iii) a school district or any other governmental entity operating a public school, college or university, (iv) a public improvement or special

district, (v) a public authority, commission or public benefit corporation, or (vi) any other public corporation, agency, instrumentality or unit of government which exercises governmental power under the laws of the state. In applying the retirement benefit test of this paragraph, if any such retirement benefit is in a form other than a straight life annuity with no ancillary benefits, or if employees contribute to any such plan or make rollover contributions, such benefit shall be adjusted in accordance with rules and regulations promulgated by the division, after an opportunity for public hearing, so that the benefit is the equivalent of a straight life annuity with no ancillary benefits under a plan to which employees do not contribute and under which no rollover contributions are made.

(f) Nothing contained in this subdivision, in subdivision one of this section or in article fourteen-A of the retirement and social security law shall be construed to prevent the compulsory retirement of any employee who has attained seventy years of age and is serving under a contract for unlimited tenure, or a similar arrangement providing for unlimited tenure, at a nonpublic institution of higher education. For purposes of such subdivisions or article, the term "institution of higher education" means an educational institution which (i) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (ii) is lawfully authorized to provide a program of education beyond secondary education, and (iii) provides an educational program for which it awards a bachelor's degree or provides not less than a two-year program which is acceptable for full credit toward such a degree.

(g) In the event of a conflict between the provisions of this subdivision and the provisions of article fourteen-A of the retirement and social security law, the provisions of article fourteen-A of such law shall be controlling.

But nothing contained in this subdivision, in subdivision one of this section or in article fourteen-A of the retirement and social security law shall be construed to prevent the termination of the employment of any person who, even upon the provision of reasonable accommodations, is physically unable to perform his or her duties or to affect the

retirement policy or system of any employer where such policy or system is not merely a subterfuge to evade the purposes of said subdivisions or said article; nor shall anything in such subdivisions or such article be deemed to preclude the varying of insurance coverages according to an employee's age.

The provisions of this subdivision shall not affect any restriction upon the activities of persons licensed by the state liquor authority with respect to persons under twenty-one years of age.

3-b. It shall be an unlawful discriminatory practice for any real estate broker, real estate salesperson or employee or agent thereof or any other individual, corporation, partnership or organization for the purpose of inducing a real estate transaction from which any such person or any of its stockholders or members may benefit financially, to represent that a change has occurred or will or may occur in the composition with respect to race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, disability, marital status, status as a victim of domestic violence, or familial status of the owners or occupants in the block, neighborhood or area in which the real property is located, and to represent, directly or indirectly, that this change will or may result in undesirable consequences in the block, neighborhood or area in which the real property is located, including but not limited to the lowering of property values, an increase in criminal or anti-social behavior, or a decline in the quality of schools or other facilities.

4. It shall be an unlawful discriminatory practice for an educational institution to deny the use of its facilities to any person otherwise qualified, or to permit the harassment of any student or applicant, by reason of his race, color, religion, disability, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, marital status, or status as a victim of domestic violence, except that any such institution which establishes or maintains a policy of educating persons of one sex exclusively may admit students of only one sex.

5. (a) It shall be an unlawful discriminatory practice for the owner, lessee, sub-lessee, assignee, or managing agent of, or other person having the right to sell, rent or lease a housing accommodation, constructed or to be constructed, or any agent or employee thereof:

(1) To refuse to sell, rent, lease or otherwise to deny to or withhold from any person or group of persons such a housing accommodation because of the race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, lawful source of income or familial status of such person or persons, or to represent that any housing accommodation or land is not available for inspection, sale, rental or lease when in fact it is so available.

(2) To discriminate against any person because of race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, lawful source of income or familial status in the terms, conditions or privileges of the sale, rental or lease of any such housing accommodation or in the furnishing of facilities or services in connection therewith.

(3) To print or circulate or cause to be printed or circulated any statement, advertisement or publication, or to use any form of application for the purchase, rental or lease of such housing accommodation or to make any record or inquiry in connection with the prospective purchase, rental or lease of such a housing accommodation which expresses, directly or indirectly, any limitation, specification or discrimination as to race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, lawful source of income or familial status, or any intent to make any such limitation, specification or discrimination.

(4) (i) The provisions of subparagraphs one and two of this paragraph shall not apply (1) to the rental of a housing accommodation in a building which contains housing accommodations for not more than two families living independently of each other, if the owner resides in one

of such housing accommodations, (2) to the restriction of the rental of all rooms in a housing accommodation to individuals of the same sex or (3) to the rental of a room or rooms in a housing accommodation, if such rental is by the occupant of the housing accommodation or by the owner of the housing accommodation and the owner resides in such housing accommodation or (4) solely with respect to age and familial status to the restriction of the sale, rental or lease of housing accommodations exclusively to persons sixty-two years of age or older and the spouse of any such person, or for housing intended and operated for occupancy by at least one person fifty-five years of age or older per unit. In determining whether housing is intended and operated for occupancy by persons fifty-five years of age or older, Sec. 807(b) (2) (c) (42 U.S.C. 3607 (b) (2) (c)) of the federal Fair Housing Act of 1988, as amended, shall apply. However, such rental property shall no longer be exempt from the provisions of subparagraphs one and two of this paragraph if there is unlawful discriminatory conduct pursuant to subparagraph three of this paragraph.

(ii) The provisions of subparagraphs one, two, and three of this paragraph shall not apply (1) to the restriction of the rental of all rooms in a housing accommodation to individuals of the same sex, (2) to the rental of a room or rooms in a housing accommodation, if such rental is by the occupant of the housing accommodation or by the owner of the housing accommodation and the owner resides in such housing accommodation, or (3) solely with respect to age and familial status to the restriction of the sale, rental or lease of housing accommodations exclusively to persons sixty-two years of age or older and the spouse of any such person, or for housing intended and operated for occupancy by at least one person fifty-five years of age or older per unit. In determining whether housing is intended and operated for occupancy by persons fifty-five years of age or older, Sec. 807(b) (2) (c) (42 U.S.C. 3607 (b) (2) (c)) of the federal Fair Housing Act of 1988, as amended, shall apply.

(b) It shall be an unlawful discriminatory practice for the owner, lessee, sub-lessee, or managing agent of, or other person having the right of ownership or possession of or the right to sell, rent or lease, land or commercial space:

(1) To refuse to sell, rent, lease or otherwise deny to or withhold

from any person or group of persons land or commercial space because of the race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, or familial status of such person or persons, or to represent that any housing accommodation or land is not available for inspection, sale, rental or lease when in fact it is so available;

(2) To discriminate against any person because of race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, or familial status in the terms, conditions or privileges of the sale, rental or lease of any such land or commercial space; or in the furnishing of facilities or services in connection therewith;

(3) To print or circulate or cause to be printed or circulated any statement, advertisement or publication, or to use any form of application for the purchase, rental or lease of such land or commercial space or to make any record or inquiry in connection with the prospective purchase, rental or lease of such land or commercial space which expresses, directly or indirectly, any limitation, specification or discrimination as to race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, or familial status; or any intent to make any such limitation, specification or discrimination.

(4) With respect to age and familial status, the provisions of this paragraph shall not apply to the restriction of the sale, rental or lease of land or commercial space exclusively to persons fifty-five years of age or older and the spouse of any such person, or to the restriction of the sale, rental or lease of land to be used for the construction, or location of housing accommodations exclusively for persons sixty-two years of age or older, or intended and operated for occupancy by at least one person fifty-five years of age or older per unit. In determining whether housing is intended and operated for occupancy by persons fifty-five years of age or older, Sec. 807(b) (2) (c) (42 U.S.C. 3607(b) (2) (c)) of the federal Fair Housing Act of 1988, as amended, shall apply.

(c) It shall be an unlawful discriminatory practice for any real estate broker, real estate salesperson or employee or agent thereof:

(1) To refuse to sell, rent or lease any housing accommodation, land or commercial space to any person or group of persons or to refuse to negotiate for the sale, rental or lease, of any housing accommodation, land or commercial space to any person or group of persons because of the race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, lawful source of income or familial status of such person or persons, or to represent that any housing accommodation, land or commercial space is not available for inspection, sale, rental or lease when in fact it is so available, or otherwise to deny or withhold any housing accommodation, land or commercial space or any facilities of any housing accommodation, land or commercial space from any person or group of persons because of the race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, lawful source of income or familial status of such person or persons.

(2) To print or circulate or cause to be printed or circulated any statement, advertisement or publication, or to use any form of application for the purchase, rental or lease of any housing accommodation, land or commercial space or to make any record or inquiry in connection with the prospective purchase, rental or lease of any housing accommodation, land or commercial space which expresses, directly or indirectly, any limitation, specification, or discrimination as to race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, lawful source of income or familial status; or any intent to make any such limitation, specification or discrimination.

(3) With respect to age and familial status, the provisions of this paragraph shall not apply to the restriction of the sale, rental or lease of any housing accommodation, land or commercial space exclusively to persons fifty-five years of age or older and the spouse of any such person, or to the restriction of the sale, rental or lease of any housing accommodation or land to be used for the construction or

location of housing accommodations for persons sixty-two years of age or older, or intended and operated for occupancy by at least one person fifty-five years of age or older per unit. In determining whether housing is intended and operated for occupancy by persons fifty-five years of age or older, Sec. 807 (b) (2) (c) (42 U.S.C. 3607 (b) (2) (c)) of the federal Fair Housing Act of 1988, as amended, shall apply.

(d) It shall be an unlawful discriminatory practice for any real estate board, because of the race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, age, sex, disability, marital status, status as a victim of domestic violence, lawful source of income or familial status of any individual who is otherwise qualified for membership, to exclude or expel such individual from membership, or to discriminate against such individual in the terms, conditions and privileges of membership in such board.

(e) It shall be an unlawful discriminatory practice for the owner, proprietor or managing agent of, or other person having the right to provide care and services in, a private proprietary nursing home, convalescent home, or home for adults, or an intermediate care facility, as defined in section two of the social services law, heretofore constructed, or to be constructed, or any agent or employee thereof, to refuse to provide services and care in such home or facility to any individual or to discriminate against any individual in the terms, conditions, and privileges of such services and care solely because such individual is a blind person. For purposes of this paragraph, a "blind person" shall mean a person who is registered as a blind person with the commission for the visually handicapped and who meets the definition of a "blind person" pursuant to section three of chapter four hundred fifteen of the laws of nineteen hundred thirteen entitled "An act to establish a state commission for improving the condition of the blind of the state of New York, and making an appropriation therefor".

(f) The provisions of this subdivision, as they relate to age, shall not apply to persons under the age of eighteen years.

(g) It shall be an unlawful discriminatory practice for any person offering or providing housing accommodations, land or commercial space as described in paragraphs (a), (b), and (c) of this subdivision to make or cause to be made any written or oral inquiry or record concerning

membership of any person in the state organized militia in relation to the purchase, rental or lease of such housing accommodation, land, or commercial space, provided, however, that nothing in this subdivision shall prohibit a member of the state organized militia from voluntarily disclosing such membership.

(h) It shall be an unlawful discriminatory practice for any person to discriminate against any individual in making real estate appraisal services available or to base a real estate appraisal, estimate, or opinion of value on the race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, lawful source of income, or familial status of either the prospective owners or occupants of the real property, the present owners or occupants of the real property, or the present owners or occupants of the real properties in the vicinity of the property. Nothing in this section shall prohibit a real estate appraiser from taking into consideration factors other than race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, lawful source of income, or familial status.

5-a. (a) For any case alleging housing discrimination under this article, an unlawful discriminatory practice may be established by a practice's discriminatory effect, even if such practice was not motivated by a discriminatory intent. The practice may still be lawful if supported by a legally sufficient justification, as defined in paragraph (c) of this subdivision.

(b) For the purposes of this subdivision, a practice has a discriminatory effect where it actually or predictably results in a disparate impact on a group of persons or creates, increases, reinforces, or perpetuates segregated housing patterns because of race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, age, disability, marital status, status as a victim of domestic violence, lawful source of income or familial.

(c) (1) A legally sufficient justification exists where the challenged

practice:

(i) is necessary to achieve one or more substantial, legitimate, nondiscriminatory interests of the respondent; and

(ii) those interests could not be served by another practice that has a less discriminatory effect.

(2) A legally sufficient justification shall be supported by evidence and may not be hypothetical or speculative. The burdens of proof for establishing each of the two elements of a legally sufficient justification are set forth in paragraph (d) of this subdivision.

(d) (1) The complainant shall have the burden of proving that a challenged practice caused or predictably will cause a discriminatory effect.

(2) Once the complainant satisfies the burden of proof set forth in subparagraph one of this paragraph, the respondent shall have the burden of proving that the challenged practice is necessary to achieve one or more substantial, legitimate, nondiscriminatory interests of the respondent.

(3) If the respondent satisfies the burden of proof set forth in subparagraph two of this paragraph, the complainant may still prevail upon proving that the substantial, legitimate, nondiscriminatory interests supporting the challenged practice could be served by another practice that has a less discriminatory effect.

(e) A demonstration that a practice is supported by a legally sufficient justification, as defined in paragraph (c) of this subdivision, may not be used as a defense against a claim of intentional discrimination.

(f) Nothing in this subdivision shall be construed or interpreted as limiting, restricting, overriding, or supplanting any broader interpretation of the discriminatory practices described in this article or the availability of liability under this article.

5-b. (a) For any case alleging employment discrimination under this article, an unlawful discriminatory practice may be established by a practice's discriminatory effect, even if such practice was not motivated by a discriminatory intent. The practice may still be lawful if supported by a legally sufficient justification, as defined in paragraph (c) of this subdivision.

(b) For the purposes of this subdivision, a practice has a discriminatory effect where it actually or predictably results in a disparate impact on a group of persons, because of their membership in a class protected under this section.

(c) (i) A legally sufficient justification exists where the challenged practice:

(A) is job related for the position in question and consistent with business necessity; and

(B) that the business necessity could not be served by another practice that has a less discriminatory effect.

(ii) A legally sufficient justification shall be supported by evidence and may not be hypothetical or speculative. The burdens of proof for establishing each of the two elements of a legally sufficient justification are set forth in paragraph (d) of this subdivision.

(d) (i) The complainant shall have the burden of proving that a challenged practice caused or predictably will cause a discriminatory effect.

(ii) Once the complainant satisfies the burden of proof set forth in subparagraph one of this paragraph, the respondent shall have the burden of proving that the challenged practice is job related for the position in question and consistent with business necessity.

(iii) If the respondent satisfies the burden of proof set forth in subparagraph two of this paragraph, the complainant may still prevail upon proving that the business necessity could be served by another practice that has a less discriminatory effect.

(e) A demonstration that a practice is supported by a legally sufficient justification, as defined in paragraph (c) of this subdivision, may not be used as a defense against a claim of intentional discrimination.

(f) Nothing in this subdivision shall be construed or interpreted as limiting, restricting, overriding, or supplanting any broader interpretation of the discriminatory practices described in this article or the availability of liability under this article.

6. It shall be an unlawful discriminatory practice for any person to aid, abet, incite, compel or coerce the doing of any of the acts forbidden under this article, or to attempt to do so.

7. It shall be an unlawful discriminatory practice for any person engaged in any activity to which this section applies to retaliate or discriminate against any person because such person has (i) opposed any practices forbidden under this article, (ii) filed a complaint, testified, or assisted in any proceeding under this article, or (iii) requested a reasonable accommodation under this article. Retaliation may include, but is not limited to, disclosing an employee's personnel files because such employee has (i) opposed any practices forbidden under this article, (ii) filed a complaint, testified, or assisted in any proceeding under this article, or (iii) requested a reasonable accommodation under this article, except where such disclosure is made in the course of commencing or responding to a complaint in any proceeding under this article or any other civil or criminal action or other judicial or administrative proceeding as permitted by applicable law.

8. It shall be an unlawful discriminatory practice for any party to a conciliation agreement made pursuant to section two hundred ninety-seven of this article to violate the terms of such agreement.

9. (a) It shall be an unlawful discriminatory practice for any fire department or fire company therein, through any member or members thereof, officers, board of fire commissioners or other body or office having power of appointment of volunteer firefighters, directly or indirectly, by ritualistic practice, constitutional or by-law prescription, by tacit agreement among its members, or otherwise, to deny to any individual membership in any volunteer fire department or fire company therein, or to expel or discriminate against any volunteer member of a fire department or fire company therein, because of the race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, marital status, status as a victim of domestic violence, or familial status, of such individual.

(b) Upon a complaint to the division, as provided for under subdivision one of section two hundred ninety-seven of this article, and in the event the commissioner finds that an unlawful discriminatory

practice has been engaged in, the board of fire commissioners or other body or office having power of appointment of volunteer firefighters shall be served with any order required, under subdivision four of section two hundred ninety-seven of this article, to be served on any or all respondents requiring such respondent or respondents to cease and desist from such unlawful discriminatory practice and to take affirmative action. Such board shall have the duty and power to appoint as a volunteer firefighter, notwithstanding any other statute or provision of law or by-law of any volunteer fire company, any individual whom the commissioner has determined to be the subject of an unlawful discriminatory practice under this subdivision. Unless such board has been found to have engaged in an unlawful discriminatory practice, service upon such board of such order shall not constitute such board or its members as a respondent nor constitute a finding of an unlawful discriminatory practice against such board or its members.

10. (a) It shall be an unlawful discriminatory practice for any employer, or an employee or agent thereof, to impose upon a person as a condition of obtaining or retaining employment, including opportunities for promotion, advancement or transfers, any terms or conditions that would require such person to violate or forego a sincerely held practice of his or her religion, including but not limited to the observance of any particular day or days or any portion thereof as a sabbath or other holy day in accordance with the requirements of his or her religion or the wearing of any attire, clothing, or facial hair in accordance with the requirements of his or her religion, unless, after engaging in a bona fide effort, the employer demonstrates that it is unable to reasonably accommodate the employee's or prospective employee's sincerely held religious observance or practice without undue hardship on the conduct of the employer's business. Notwithstanding any other provision of law to the contrary, an employee shall not be entitled to premium wages or premium benefits for work performed during hours to which such premium wages or premium benefits would ordinarily be applicable, if the employee is working during such hours only as an accommodation to his or her sincerely held religious requirements. Nothing in this paragraph or paragraph (b) of this subdivision shall alter or abridge the rights granted to an employee concerning the

payment of wages or privileges of seniority accruing to that employee.

(b) Except where it would cause an employer to incur an undue hardship, no person shall be required to remain at his or her place of employment during any day or days or portion thereof that, as a requirement of his or her religion, he or she observes as his or her sabbath or other holy day, including a reasonable time prior and subsequent thereto for travel between his or her place of employment and his or her home, provided however, that any such absence from work shall, wherever practicable in the reasonable judgment of the employer, be made up by an equivalent amount of time and work at some other mutually convenient time, or shall be charged against any leave with pay ordinarily granted, other than sick leave, provided further, however, that any such absence not so made up or charged, may be treated by the employer of such person as leave taken without pay.

(c) It shall be an unlawful discriminatory practice for an employer to refuse to permit an employee to utilize leave, as provided in paragraph (b) of this subdivision, solely because the leave will be used for absence from work to accommodate the employee's sincerely held religious observance or practice.

(d) As used in this subdivision: (1) "undue hardship" shall mean an accommodation requiring significant expense or difficulty (including a significant interference with the safe or efficient operation of the workplace or a violation of a bona fide seniority system). Factors to be considered in determining whether the accommodation constitutes an undue economic hardship shall include, but not be limited to:

(i) the identifiable cost of the accommodation, including the costs of loss of productivity and of retaining or hiring employees or transferring employees from one facility to another, in relation to the size and operating cost of the employer;

(ii) the number of individuals who will need the particular accommodation to a sincerely held religious observance or practice; and

(iii) for an employer with multiple facilities, the degree to which the geographic separateness or administrative or fiscal relationship of the facilities will make the accommodation more difficult or expensive.

Provided, however, an accommodation shall be considered to constitute an undue hardship if it will result in the inability of an employee to

perform the essential functions of the position in which he or she is employed.

(2) "premium wages" shall include overtime pay and compensatory time off, and additional remuneration for night, weekend or holiday work, or for standby or irregular duty.

(3) "premium benefit" shall mean an employment benefit, such as seniority, group life insurance, health insurance, disability insurance, sick leave, annual leave, or an educational or pension benefit that is greater than the employment benefit due the employee for an equivalent period of work performed during the regular work schedule of the employee.

In the case of any employer other than the state, any of its political subdivisions or any school district, this subdivision shall not apply where the uniform application of terms and conditions of attendance to employees is essential to prevent undue economic hardship to the employer. In any proceeding in which the applicability of this subdivision is in issue, the burden of proof shall be upon the employer. If any question shall arise whether a particular position or class of positions is excepted from this subdivision by this paragraph, such question may be referred in writing by any party claimed to be aggrieved, in the case of any position of employment by the state or any of its political subdivisions, except by any school district, to the civil service commission, in the case of any position of employment by any school district, to the commissioner of education, who shall determine such question and in the case of any other employer, a party claiming to be aggrieved may file a complaint with the division pursuant to this article. Any such determination by the civil service commission shall be reviewable in the manner provided by article seventy-eight of the civil practice law and rules and any such determination by the commissioner of education shall be reviewable in the manner and to the same extent as other determinations of the commissioner under section three hundred ten of the education law.

11. Nothing contained in this section shall be construed to bar any religious or denominational institution or organization, or any organization operated for charitable or educational purposes, which is

operated, supervised or controlled by or in connection with a religious organization, from limiting employment or sales or rental of housing accommodations or admission to or giving preference to persons of the same religion or denomination or from taking such action as is calculated by such organization to promote the religious principles for which it is established or maintained.

12. Notwithstanding the provisions of subdivisions one, one-a and three-a of this section, it shall not be an unlawful discriminatory practice for an employer, employment agency, labor organization or joint labor-management committee to carry out a plan, approved by the division, to increase the employment of members of a minority group (as may be defined pursuant to the regulations of the division) which has a state-wide unemployment rate that is disproportionately high in comparison with the state-wide unemployment rate of the general population. Any plan approved under this subdivision shall be in writing and the division's approval thereof shall be for a limited period and may be rescinded at any time by the division.

13. It shall be an unlawful discriminatory practice (i) for any person to boycott or blacklist, or to refuse to buy from, sell to or trade with, or otherwise discriminate against any person, because of the race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, status as a victim of domestic violence, disability, or familial status, or of such person, or of such person's partners, members, stockholders, directors, officers, managers, superintendents, agents, employees, business associates, suppliers or customers, or (ii) for any person wilfully to do any act or refrain from doing any act which enables any such person to take such action. This subdivision shall not apply to:

- (a) Boycotts connected with labor disputes; or
- (b) Boycotts to protest unlawful discriminatory practices.

14. In addition to reasonable modifications in policies, practices, or procedures, including those defined in subparagraph (iv) of paragraph (d) of subdivision two of this section or reasonable accommodations for persons with disabilities as otherwise provided in this section,

including the use of an animal as a reasonable accommodation, it shall be an unlawful discriminatory practice for any person engaged in any activity covered by this section to deny access or otherwise to discriminate against a blind person, a person who is deaf or hard of hearing or a person with another disability because he or she is accompanied by a dog that has been trained to work or perform specific tasks for the benefit of such person by a professional guide dog, hearing dog or service dog training center or professional guide dog, hearing dog or service dog trainer, or to discriminate against such professional guide dog, hearing dog or service dog trainer engaged in such training of a dog for use by a person with a disability, whether or not accompanied by the person for whom the dog is being trained.

15. It shall be an unlawful discriminatory practice for any person, agency, bureau, corporation or association, including the state and any political subdivision thereof, to deny any license or employment to any individual by reason of his or her having been convicted of one or more criminal offenses, or by reason of a finding of a lack of "good moral character" which is based upon his or her having been convicted of one or more criminal offenses, when such denial is in violation of the provisions of article twenty-three-A of the correction law. Further, there shall be a rebuttable presumption in favor of excluding from evidence the prior incarceration or conviction of any person, in a case alleging that the employer has been negligent in hiring or retaining an applicant or employee, or supervising a hiring manager, if after learning about an applicant or employee's past criminal conviction history, such employer has evaluated the factors set forth in section seven hundred fifty-two of the correction law, and made a reasonable, good faith determination that such factors militate in favor of hire or retention of that applicant or employee. No person, agency, bureau, corporation, association, the state or any political subdivision thereof, shall require an individual to provide a copy of his or her criminal history record that he or she obtained pursuant to the rules and regulations of the division of criminal justice services.

16. It shall be an unlawful discriminatory practice, unless specifically required or permitted by statute, for any person, agency,

bureau, corporation or association, including the state and any political subdivision thereof, to make any inquiry about, whether in any form of application or otherwise, or to act upon adversely to the individual involved, any arrest or criminal accusation of such individual not then pending against that individual which was followed by a termination of that criminal action or proceeding in favor of such individual, as defined in subdivision two of section 160.50 of the criminal procedure law, or by an order adjourning the criminal action in contemplation of dismissal, pursuant to section 170.55, 170.56, 210.46, 210.47, or 215.10 of the criminal procedure law, or by a youthful offender adjudication, as defined in subdivision one of section 720.35 of the criminal procedure law, or by a conviction for a violation sealed pursuant to section 160.55 of the criminal procedure law or by a conviction which is sealed pursuant to section 160.59 or 160.58 of the criminal procedure law, or by a conviction which is sealed pursuant to section 160.57 of the criminal procedure law, except where such conviction record is accessed pursuant to subparagraph (vii), (viii), or (xvi) of paragraph (d) of subdivision one of section 160.57 of the criminal procedure law, in connection with the licensing, housing, employment, including volunteer positions, or providing of credit or insurance to such individual; provided, further, that no person shall be required to divulge information pertaining to any arrest or criminal accusation of such individual not then pending against that individual which was followed by a termination of that criminal action or proceeding in favor of such individual, as defined in subdivision two of section 160.50 of the criminal procedure law, or by an order adjourning the criminal action in contemplation of dismissal, pursuant to section 170.55 or 170.56, 210.46, 210.47 or 215.10 of the criminal procedure law, or by a youthful offender adjudication, as defined in subdivision one of section 720.35 of the criminal procedure law, or by a conviction for a violation sealed pursuant to section 160.55 of the criminal procedure law, or by a conviction which is sealed pursuant to section 160.58 or 160.59 of the criminal procedure law, or by a conviction which is sealed pursuant to section 160.57 of the criminal procedure law, except where such conviction record is accessed pursuant to subparagraph (vii), (viii), or (xvi) of paragraph (d) of subdivision one of section 160.57 of the criminal procedure law. An individual required or

requested to provide information in violation of this subdivision may respond as if the arrest, criminal accusation, or disposition of such arrest or criminal accusation did not occur. The provisions of this subdivision shall not apply to the licensing activities of governmental bodies in relation to the regulation of guns, firearms and other deadly weapons or in relation to an application for employment as a police officer or peace officer as those terms are defined in subdivisions thirty-three and thirty-four of section 1.20 of the criminal procedure law; provided further that the provisions of this subdivision shall not apply to an application for employment or membership in any law enforcement agency with respect to any arrest or criminal accusation which was followed by a youthful offender adjudication, as defined in subdivision one of section 720.35 of the criminal procedure law, or by a conviction for a violation sealed pursuant to section 160.55 of the criminal procedure law, or by a conviction which is sealed pursuant to section 160.58 or 160.59 of the criminal procedure law, or by a conviction which is sealed pursuant to section 160.57 of the criminal procedure law. For purposes of this subdivision, an action which has been adjourned in contemplation of dismissal, pursuant to section 170.55 or 170.56, 210.46, 210.47 or 215.10 of the criminal procedure law, shall not be considered a pending action, unless the order to adjourn in contemplation of dismissal is revoked and the case is restored to the calendar for further prosecution.

17. Nothing in this section shall prohibit the offer and acceptance of a discount to a person sixty-five years of age or older for housing accommodations.

18. It shall be an unlawful discriminatory practice for the owner, lessee, sub-lessee, assignee, or managing agent of, or other person having the right of ownership of or possession of or the right to rent or lease housing accommodations:

(1) To refuse to permit, at the expense of a person with a disability, reasonable modifications of existing premises occupied or to be occupied by the said person, if the modifications may be necessary to afford the said person full enjoyment of the premises, in conformity with the provisions of the New York state uniform fire prevention and building

code except that, in the case of a rental, the landlord may, where it is reasonable to do so, condition permission for a modification on the renter's agreeing to restore the interior of the premises to the condition that existed before the modification, reasonable wear and tear excepted.

(2) To refuse to make reasonable accommodations in rules, policies, practices, or services, when such accommodations may be necessary to afford said person with a disability equal opportunity to use and enjoy a dwelling, including the use of an animal as a reasonable accommodation to alleviate symptoms or effects of a disability, and including reasonable modification to common use portions of the dwelling, or

(3) In connection with the design and construction of covered multi-family dwellings for first occupancy after March thirteenth, nineteen hundred ninety-one, a failure to design and construct dwellings in accordance with the accessibility requirements for multi-family dwellings found in the New York state uniform fire prevention and building code to provide that:

(i) The public use and common use portions of the dwellings are readily accessible to and usable by persons with disabilities;

(ii) All the doors are designed in accordance with the New York state uniform fire prevention and building code to allow passage into and within all premises and are sufficiently wide to allow passage by persons in wheelchairs; and

(iii) All premises within covered multi-family dwelling units contain an accessible route into and through the dwelling; light switches, electrical outlets, thermostats, and other environmental controls are in accessible locations; there are reinforcements in the bathroom walls to allow later installation of grab bars; and there are usable kitchens and bathrooms such that an individual in a wheelchair can maneuver about the space, in conformity with the New York state uniform fire prevention and building code.

19. (a) Except as provided in paragraph (b) of this subdivision, it shall be an unlawful discriminatory practice of any employer, labor organization, employment agency, licensing agency, or its employees, agents, or members:

(1) to directly or indirectly solicit, require, or administer a

genetic test to a person, or solicit or require information from which a predisposing genetic characteristic can be inferred as a condition of employment, preemployment application, labor organization membership, or licensure; or

(2) to buy or otherwise acquire the results or interpretation of an individual's genetic test results or information from which a predisposing genetic characteristic can be inferred or to make an agreement with an individual to take a genetic test or provide genetic test results or such information.

(b) An employer may require a specified genetic test as a condition of employment where such a test is shown to be directly related to the occupational environment, such that the employee or applicant with a particular genetic anomaly might be at an increased risk of disease as a result of working in said environment.

(c) Nothing in this section shall prohibit the genetic testing of an employee who requests a genetic test and who provides written and informed consent to taking a genetic test for any of the following purposes:

(1) pursuant to a workers' compensation claim;

(2) pursuant to civil litigation; or

(3) to determine the employee's susceptibility to potentially carcinogenic, toxic, or otherwise hazardous chemicals or substances found in the workplace environment only if the employer does not terminate the employee or take any other action that adversely affects any term, condition or privilege of employment pursuant to the genetic test results.

(d) If an employee consents to genetic testing for any of the aforementioned allowable reasons, he or she must be given and sign an authorization of consent form which explicitly states the specific purpose, uses and limitations of the genetic tests and the specific traits or characteristics to be tested.

21. Nothing in this section shall prohibit the offer and acceptance of a discount for housing accommodations to a person with a disability, as defined in subdivision twenty-one of section two hundred ninety-two of this article.

22. (a) It shall be an unlawful discriminatory practice for an employer or licensing agency, because of any individual's status as a victim of domestic violence, to refuse to hire or employ or license or to bar or to discharge from employment such individual or to discriminate against such individual in compensation or in terms, conditions or privileges of employment.

(b) It shall be an unlawful discriminatory practice for an employer or employment agency to print or circulate or cause to be printed or circulated any statement, advertisement or publication, or to use any form of application for employment or to make any inquiry in connection with prospective employment which expresses, directly or indirectly, any limitation, specification or discrimination as to status as a victim of domestic violence, or any intent to make any such limitation, specification or discrimination; provided, however, that no provision of this subdivision shall be construed to prohibit the employer from making any inquiry or obtaining information for the purpose of providing assistance to, or a reasonable accommodation in accordance with the provisions of this subdivision to, a victim of domestic violence.

(c)(1) It shall be an unlawful discriminatory practice for an employer to refuse to provide a reasonable accommodation to an employee who is known by the employer to be a victim of domestic violence, limited to those accommodations set forth in subparagraph two of this paragraph, when such employee must be absent from work for a reasonable time, unless such absence would cause an undue hardship to the employer as set forth in subparagraph three of this paragraph, provided, however that the employer may require an employee to charge any time off pursuant to this section against any leave with pay ordinarily granted, where available, unless otherwise provided for in a collective bargaining agreement or existing employee handbook or policy, and any such absence that cannot be charged may be treated as leave without pay. An employee who must be absent from work in accordance with subparagraph two of this paragraph shall be entitled to the continuation of any health insurance coverage provided by the employer, to which the employee is otherwise entitled during any such absence.

(2) An employer is required to provide a reasonable accommodation to an employee who is a victim of domestic violence who must be absent from work for a reasonable time, in accordance with the provisions of

subparagraph one of this paragraph, limited to the following:

(i) Seeking medical attention for injuries caused by domestic violence including for a child who is a victim of domestic violence, provided that the employee is not the perpetrator of the domestic violence against the child; or

(ii) Obtaining services from a domestic violence shelter, program, or rape crisis center as a result of domestic violence; or

(iii) Obtaining psychological counseling related to an incident or incidents of domestic violence, including for a child who is a victim of domestic violence, provided that the employee is not the perpetrator of the domestic violence against the child; or

(iv) Participating in safety planning and taking other actions to increase safety from future incidents of domestic violence, including temporary or permanent relocation; or

(v) Obtaining legal services, assisting in the prosecution of the offense, or appearing in court in relation to the incident or incidents of domestic violence.

(3) An employer is required to provide a reasonable accommodation for an employee's absence in accordance with the provisions of subparagraphs one and two of this paragraph unless the employer can demonstrate that the employee's absence would constitute an undue hardship to the employer. A determination of whether such an absence will constitute an undue hardship shall include consideration of factors such as:

(i) The overall size of the business, program or enterprise with respect to the number of employees, number and type of facilities, and size of budget; and

(ii) The type of operation in which the business, program or enterprise is engaged, including the composition and structure of the workforce.

(4) An employee who must be absent from work in accordance with the provisions of subparagraph one of this paragraph shall provide the employer with reasonable advance notice of the employee's absence, unless such advance notice is not feasible.

(5) An employee who must be absent from work in accordance with the provisions of subparagraph one of this paragraph and who cannot feasibly give reasonable advance notice of the absence in accordance with subparagraph four of this paragraph must, within a reasonable time after

the absence, provide a certification to the employer when requested by the employer.

Such certification shall be in the form of:

(i) A police report indicating that the employee or his or her child was a victim of domestic violence;

(ii) A court order protecting or separating the employee or his or her child from the perpetrator of an act of domestic violence;

(iii) Other evidence from the court or prosecuting attorney that the employee appeared in court; or

(iv) Documentation from a medical professional, domestic violence advocate, health care provider, or counselor that the employee or his or her child was undergoing counseling or treatment for physical or mental injuries or abuse resulting in victimization from an act of domestic violence.

(6) Where an employee has a physical or mental disability resulting from an incident or series of incidents of domestic violence, such employee shall be treated in the same manner as an employee with any other disability, pursuant to the provisions of this section which provide that discrimination and refusal to provide reasonable accommodation of disability are unlawful discriminatory practices.

(d) To the extent allowed by law, employers shall maintain the confidentiality of any information regarding an employee's status as a victim of domestic violence.

§ 296-a. Unlawful discriminatory practices in relation to credit. 1. It shall be an unlawful discriminatory practice for any creditor or any officer, agent or employee thereof:

a. In the case of applications for credit with respect to the purchase, acquisition, construction, rehabilitation, repair or maintenance of any housing accommodation, land or commercial space to discriminate against any such applicant because of the race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, age, sex, marital status, status as a victim of domestic violence, disability, or

familial status of such applicant or applicants or any member, stockholder, director, officer or employee of such applicant or applicants, or of the prospective occupants or tenants of such housing accommodation, land or commercial space, in the granting, withholding, extending or renewing, or in the fixing of the rates, terms or conditions of, any such credit;

b. To discriminate in the granting, withholding, extending or renewing, or in the fixing of the rates, terms or conditions of, any form of credit, on the basis of race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, age, sex, marital status, status as a victim of domestic violence, disability, or familial status;

c. To use any form of application for credit or use or make any record or inquiry which expresses, directly or indirectly, any limitation, specification, or discrimination as to race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, age, sex, marital status, status as a victim of domestic violence, disability, or familial status;

d. To make any inquiry of an applicant concerning his or her capacity to reproduce, or his or her use or advocacy of any form of birth control or family planning;

e. To refuse to consider sources of an applicant's income or to subject an applicant's income to discounting, in whole or in part, because of an applicant's race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, age, sex, marital status, status as a victim of domestic violence, childbearing potential, disability, or familial status;

f. To discriminate against a married person because such person neither uses nor is known by the surname of his or her spouse.

This paragraph shall not apply to any situation where the use of a

surname would constitute or result in a criminal act.

2. Without limiting the generality of subdivision one of this section, it shall be considered discriminatory if, because of an applicant's or class of applicants' race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, age, sex, marital status, status as a victim of domestic violence, disability, or familial status, (i) an applicant or class of applicants is denied credit in circumstances where other applicants of like overall credit worthiness are granted credit, or (ii) special requirements or conditions, such as requiring co-obligors or reapplication upon marriage, are imposed upon an applicant or class of applicants in circumstances where similar requirements or conditions are not imposed upon other applicants of like overall credit worthiness.

3. It shall not be considered discriminatory if credit differentiations or decisions are based upon factually supportable, objective differences in applicants' overall credit worthiness, which may include reference to such factors as current income, assets and prior credit history of such applicants, as well as reference to any other relevant factually supportable data; provided, however, that no creditor shall consider, in evaluating the credit worthiness of an applicant, aggregate statistics or assumptions relating to race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, marital status, status as a victim of domestic violence or disability, or to the likelihood of any group of persons bearing or rearing children, or for that reason receiving diminished or interrupted income in the future.

3-a. It shall not be an unlawful discriminatory practice to consider age in determining credit worthiness when age has a demonstrable and statistically sound relationship to a determination of credit worthiness.

4. a. If so requested by an applicant for credit, a creditor shall furnish such applicant with a statement of the specific reasons for

rejection of the applicant's application for credit.

b. If so requested in writing by an individual who is or was married, a creditor or credit reporting bureau shall maintain in its records a separate credit history for any such individual. Such separate history shall include all obligations as to which such bureau has notice with respect to which any such person is or was individually or jointly liable.

5. No provision of this section providing spouses the right to separately apply for credit, borrow money, or have separate credit histories maintained shall limit or foreclose the right of creditors, under any other provision of law, to hold one spouse legally liable for debts incurred by the other.

6. Any person claiming to be aggrieved by an unlawful discriminatory practice engaged in by a regulated creditor, in lieu of the procedure set forth in section two hundred ninety-seven of this article, may file a verified complaint with the superintendent, as provided hereinafter; provided, however, that the filing of a complaint with either the superintendent or the division shall bar subsequent recourse to the other agency, as well as to any local commission on human rights, with respect to the grievance complained of.

7. In the case of a verified complaint filed with the superintendent the following procedures shall be followed:

a. After receipt of the complaint, the superintendent shall make a determination within thirty days of whether there is probable cause to believe that the person named in the complaint has engaged in or is engaging in an unlawful discriminatory practice. If the superintendent determines there is no such probable cause, the complaint shall be dismissed. If the superintendent determines that there is such probable cause, he or she shall attempt to resolve such complaint by conference and conciliation. If conciliation is achieved, the terms shall be recorded in a written agreement signed by the creditor and complainant, a copy of which shall be forwarded to the commissioner.

b. If conciliation is not achieved, the superintendent or his or her designated representative shall conduct a hearing with respect to the alleged violation of this section. All interested parties shall be entitled to adequate and timely notice of the hearing. Such parties shall have the right to be represented by counsel or by other representatives of their own choosing; to offer evidence and witnesses in their own behalf and to cross-examine other parties and witnesses; to have the power of subpoena exercised in their behalf; and to have access to a written record of such hearing. The superintendent or his or her representative shall not be bound by the strict rules of evidence prevailing in courts of law or equity. The testimony taken shall be under oath and a record shall be made of the proceedings. A written decision shall be made by the superintendent or his or her designated representative separately setting forth findings of fact and conclusions of law. A copy of such decision shall be forwarded to the commissioner.

c. If the superintendent finds that a violation of this section has occurred, the superintendent shall issue an order which shall do one or more of the following:

(1) impose a fine in an amount not to exceed ten thousand dollars for each violation, to be paid to the people of the state of New York;

(2) award compensatory damages to the person aggrieved by such violation;

(3) for a claim of sex discrimination only, award reasonable attorney's fees attributable to such claim to any prevailing party; provided, however, that a prevailing respondent or defendant in order to recover such reasonable attorney's fees must make a motion requesting such fees and show that the action or proceeding brought was frivolous. In no case shall attorney's fees be awarded to the department, nor shall the department be liable to a prevailing party for attorney's fees. In order to find the action or proceeding to be frivolous, the superintendent must find in writing one or more of the following:

(a) the action or proceeding was commenced, used or continued in bad faith, solely to delay or prolong the resolution of the litigation or to harass or maliciously injure another; or

(b) the action or proceeding was commenced or continued in bad faith

without any reasonable basis and could not be supported by a good faith argument for an extension, modification or reversal of existing law. If the action or proceeding was promptly discontinued when the party or attorney learned or should have learned that the action or proceeding lacked such a reasonable basis, the court may find that the party or the attorney did not act in bad faith.

(4) require the regulated creditor to cease and desist from such unlawful discriminatory practices;

(5) require the regulated creditor to take such further affirmative action as will effectuate the purposes of this section, including, but not limited to, granting the credit which was the subject of the complaint.

d. Any complainant, respondent or other person aggrieved by any order or final determination of the superintendent may obtain judicial review thereof.

8. Where the superintendent makes a determination that a regulated creditor has engaged in or is engaging in discriminatory practices, the superintendent is empowered to issue appropriate orders to such creditor pursuant to the banking law. Such orders may be issued without the necessity of a complaint being filed by an aggrieved person.

9. Whenever any creditor makes application to the superintendent of financial services to take any action requiring consideration by the superintendent of the public interest and the needs and convenience thereof, or requiring a finding that the financial responsibility, experience, charter, and general fitness of the applicant, and of the members thereof if the applicant be a co-partnership or association, and of the officers and directors thereof if the applicant be a corporation, are such as to command the confidence of the community and to warrant belief that the business will be operated honestly, fairly, and efficiently, such creditor shall certify to the superintendent compliance with the provisions of this section. In the event that the records of the department of financial services show that such creditor has been found to be in violation of this section, such creditor shall describe what action has been taken with respect to its credit policies

and procedures to remedy such violation or violations. The superintendent shall, in approving the foregoing applications and making the foregoing findings, give appropriate weight to compliance with this section.

10. Any complaint filed with the superintendent pursuant to this section shall be so filed within one year after the occurrence of the alleged unlawful discriminatory practice.

11. The superintendent is hereby empowered to promulgate rules and regulations hereunder to effectuate the purposes of this section.

12. The provisions of this section, as they relate to age, shall not apply to persons under the age of eighteen years.

§ 296-c. Unlawful discriminatory practices relating to interns. 1. As used in this section, "Intern" means a person who performs work for an employer for the purpose of training under the following circumstances:

a. the employer is not committed to hire the person performing the work at the conclusion of the training period;

b. the employer and the person performing the work agree that the person performing the work is not entitled to wages for the work performed; and

c. the work performed:

(1) provides or supplements training that may enhance the employability of the intern;

(2) provides experience for the benefit of the person performing the work;

(3) does not displace regular employees; and

(4) is performed under the close supervision of existing staff.

2. It shall be an unlawful discriminatory practice for an employer to:

a. refuse to hire or employ or to bar or to discharge from internship an intern or to discriminate against such intern in terms, conditions or privileges of employment as an intern because of the intern's age, race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, disability, predisposing genetic characteristics, marital status, or status as a victim of domestic violence;

b. discriminate against an intern in receiving, classifying, disposing or otherwise acting upon applications for internships because of the intern's age, race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, disability, predisposing genetic characteristics, marital status, or status as a victim of domestic violence;

c. print or circulate or cause to be printed or circulated any statement, advertisement or publication, or to use any form of application for employment as an intern or to make any inquiry in connection with prospective employment, which expresses directly or indirectly, any limitation, specification or discrimination as to age, race, creed, color, national origin, citizenship or immigration status, sexual orientation, gender identity or expression, military status, sex, disability, predisposing genetic characteristics, marital status or status as a victim of domestic violence, or any intent to make any such limitation, specification or discrimination, unless based upon a bona fide occupational qualification; provided, however, that neither this paragraph nor any provision of this chapter or other law shall be construed to prohibit the department of civil service or the department of personnel of any city containing more than one county from requesting information from applicants for civil service internships or examinations concerning any of the aforementioned characteristics, other than sexual orientation, for the purpose of conducting studies to identify and resolve possible problems in recruitment and testing of members of minority groups to ensure the fairest possible and equal opportunities for employment in the civil service for all persons, regardless of age, race, creed, color, national origin, citizenship or immigration status, sexual orientation, military status, sex,

disability, predisposing genetic characteristics, marital status or status as a victim of domestic violence;

d. to discharge, expel or otherwise discriminate against any person because he or she has opposed any practices forbidden under this article or because he or she has filed a complaint, testified or assisted in any proceeding under this article; or

e. to compel an intern who is pregnant to take a leave of absence, unless the intern is prevented by such pregnancy from performing the activities involved in the job or occupation in a reasonable manner.

3. It shall be an unlawful discriminatory practice for an employer to:

a. engage in unwelcome sexual advances, requests for sexual favors, or other verbal or physical conduct of a sexual nature to an intern when:

(1) submission to such conduct is made either explicitly or implicitly a term or condition of the intern's employment;

(2) submission to or rejection of such conduct by the intern is used as the basis for employment decisions affecting such intern; or

(3) such conduct has the purpose or effect of unreasonably interfering with the intern's work performance by creating an intimidating, hostile, or offensive working environment; or

b. subject an intern to unwelcome harassment based on age, sex, race, creed, color, sexual orientation, gender identity or expression, military status, disability, predisposing genetic characteristics, marital status, status as a victim of domestic violence, national origin, or citizenship or immigration status, or where such harassment has the purpose or effect of unreasonably interfering with the intern's work performance by creating an intimidating, hostile, or offensive working environment.

4. Nothing in this section shall affect any restrictions upon the activities of persons licensed by the state liquor authority with respect to persons under twenty-one years of age.

5. Nothing in this section shall create an employment relationship between an employer and an intern for the purposes of articles six, seven, eighteen or nineteen of the labor law.

§ 296-d. Unlawful discriminatory practices relating to non-employees.

It shall be an unlawful discriminatory practice for an employer to permit unlawful discrimination against non-employees in its workplace. An employer may be held liable to a non-employee who is a contractor, subcontractor, vendor, consultant or other person providing services pursuant to a contract in the workplace or who is an employee of such contractor, subcontractor, vendor, consultant or other person providing services pursuant to a contract in the workplace, with respect to an unlawful discriminatory practice, when the employer, its agents or supervisors knew or should have known that such non-employee was subjected to an unlawful discriminatory practice in the employer's workplace, and the employer failed to take immediate and appropriate corrective action. In reviewing such cases involving non-employees, the extent of the employer's control and any other legal responsibility which the employer may have with respect to the conduct of the person who engaged in the unlawful discriminatory practice shall be considered.

§ 297. Procedure. 1. Any person claiming to be aggrieved by an unlawful discriminatory practice may, by himself or herself or his or her attorney-at-law, make, sign and file with the division a complaint in writing under oath or by declaration which shall state the name and address of the person alleged to have committed the unlawful discriminatory practice complained of and which shall set forth the particulars thereof and contain such other information as may be required by the division. The commissioner of labor or the attorney general, or the executive director of the justice center for the protection of people with special needs, or the division on its own motion may, in like manner, make, sign and file such complaint. In connection with the filing of such complaint, the attorney general is authorized to take proof, issue subpoenas and administer oaths in the manner provided in the civil practice law and rules. Any employer whose

employees, or some of them, refuse or threaten to refuse to cooperate with the provisions of this article, may file with the division a verified complaint asking for assistance by conciliation or other remedial action.

2. a. After the filing of any complaint, the division shall promptly serve a copy thereof upon the respondent and all persons it deems to be necessary parties, and make prompt investigation in connection therewith. Within one hundred eighty days after a complaint is filed, the division shall determine whether it has jurisdiction and, if so, whether there is probable cause to believe that the person named in the complaint, hereinafter referred to as the respondent, has engaged or is engaging in an unlawful discriminatory practice. If it finds with respect to any respondent that it lacks jurisdiction or that probable cause does not exist, the commissioner shall issue and cause to be served on the complainant an order dismissing such allegations of the said complaint as to such respondent.

b. Notwithstanding the provisions of paragraph a of this subdivision, with respect to housing discrimination only, after the filing of any complaint, the division shall, within thirty days after receipt, serve a copy thereof upon the respondent and all persons it deems to be necessary parties, and make prompt investigation in connection therewith. Within one hundred days after a complaint is filed, the division shall determine whether it has jurisdiction and, if so, whether there is probable cause to believe that the person named in the complaint, hereinafter referred to as the respondent, has engaged or is engaging in an unlawful discriminatory practice. If it finds with respect to any respondent that it lacks jurisdiction or that probable cause does not exist, the commissioner shall issue and cause to be served on the complainant an order dismissing such allegations of the said complaint as to such respondent.

3. a. If in the judgment of the division the circumstances so warrant, it may, at any time after the filing of the complaint, endeavor to eliminate such unlawful discriminatory practice by conference, conciliation and persuasion. Each conciliation agreement shall include

provisions requiring the respondent to refrain from the commission of unlawful discriminatory practices in the future and may contain such further provisions as may be agreed upon by the division, the complainant, and the respondent, including a provision for the entry in the supreme court in any county in the judicial district where the alleged unlawful discriminatory practice was committed, or where any respondent resides or maintains an office for the transaction of business, or where the housing accommodation, land or commercial space specified in the complaint is located, of a consent decree embodying the terms of the conciliation agreement. The division shall not disclose what has transpired in the course of such endeavors.

b. If a conciliation agreement is entered into, the division shall issue an order embodying such agreement and serve a copy of such order upon all parties to the proceeding, and if a party to any such proceeding is a regulated creditor, the division shall forward a copy of the order embodying such agreement to the superintendent.

c. If the division finds that noticing the complaint for hearing would be undesirable, the division may, in its unreviewable discretion, at any time prior to a hearing before a hearing examiner, dismiss the complaint on the grounds of administrative convenience. However, in cases of housing discrimination only, an administrative convenience dismissal will not be rendered without the consent of the complainant. The division may, subject to judicial review, dismiss the complaint on the grounds of untimeliness if the complaint is untimely or on the grounds that the election of remedies is annulled.

4. a. Within two hundred seventy days after a complaint is filed, or within one hundred twenty days after the court has reversed and remanded an order of the division dismissing a complaint for lack of jurisdiction or for want of probable cause, unless the division has dismissed the complaint or issued an order stating the terms of a conciliation agreement not objected to by the complainant, the division shall cause to be issued and served a written notice, together with a copy of such complaint, as the same may have been amended, requiring the respondent or respondents to answer the charges of such complaint and appear at a

public hearing before a hearing examiner at a time not less than five nor more than fifteen days after such service and at a place to be fixed by the division and specified in such notice. The place of any such hearing shall be the office of the division or such other place as may be designated by the division. The case in support of the complaint shall be presented by one of the attorneys or agents of the division and, at the option of the complainant, by his or her attorney. With the consent of the division, the case in support of the complainant may be presented solely by his or her attorney. No person who shall have previously made the investigation, engaged in a conciliation proceeding or caused the notice to be issued shall act as a hearing examiner in such case. Attempts at conciliation shall not be received in evidence. At least two business days prior to the hearing the respondent shall, and any necessary party may, file a written answer to the complaint, sworn to subject to the penalties of perjury, with the division and serve a copy upon all other parties to the proceeding. A respondent who has filed an answer, or whose default in answering has been set aside for good cause shown may appear at such hearing in person or otherwise, with or without counsel, cross examine witnesses and the complainant and submit testimony. The complainant and all parties shall be allowed to present testimony in person or by counsel and cross examine witnesses. The hearing examiner may in his or her discretion permit any person who has a substantial personal interest to intervene as a party, and may require that necessary parties not already parties be joined. The division or the complainant shall have the power reasonably and fairly to amend any complaint, and the respondent and any other party shall have like power to amend his or her answer. The hearing examiner shall not be bound by the strict rules of evidence prevailing in courts of law or equity. The testimony taken at the hearing shall be under oath and a record made.

b. If the respondent fails to answer the complaint, the hearing examiner designated to conduct the hearing may enter the default and the hearing shall proceed on the evidence in support of the complaint. Such default may be set aside only for good cause shown upon equitable terms and conditions.

c. Within one hundred eighty days after the commencement of such hearing, a determination shall be made and an order served as hereinafter provided. If, upon all the evidence at the hearing, the commissioner shall find that a respondent has engaged in any unlawful discriminatory practice as defined in this article, the commissioner shall state findings of fact and shall issue and cause to be served on such respondent an order, based on such findings and setting them forth, and including such of the following provisions as in the judgment of the division will effectuate the purposes of this article: (i) requiring such respondent to cease and desist from such unlawful discriminatory practice; (ii) requiring such respondent to take such affirmative action, including (but not limited to) hiring, reinstatement or upgrading of employees, with or without back pay, restoration to membership in any respondent labor organization, admission to or participation in a guidance program, apprenticeship training program, on-the-job training program or other occupational training or retraining program, the extension of full, equal and unsegregated accommodations, advantages, facilities and privileges to all persons, granting the credit which was the subject of any complaint, evaluating applicants for membership in a place of accommodation without discrimination based on race, creed, color, national origin, sex, disability or marital status, and without retaliation or discrimination based on opposition to practices forbidden by this article or filing a complaint, testifying or assisting in any proceeding under this article; (iii) awarding of compensatory damages to the person aggrieved by such practice; (iv) awarding of punitive damages, in cases of employment discrimination related to private employers, and, in cases of housing discrimination, with damages in housing discrimination cases in an amount not to exceed ten thousand dollars, to the person aggrieved by such practice; (v) requiring payment to the state of profits obtained by a respondent through the commission of unlawful discriminatory acts described in subdivision three-b of section two hundred ninety-six of this article; and (vi) assessing civil fines and penalties, in an amount not to exceed fifty thousand dollars, to be paid to the state by a respondent found to have committed an unlawful discriminatory act, or not to exceed one hundred thousand dollars to be paid to the state by a respondent found to have committed an unlawful discriminatory act which is found to be

willful, wanton or malicious; (vii) requiring a report of the manner of compliance. If, upon all the evidence, the commissioner shall find that a respondent has not engaged in any such unlawful discriminatory practice, he or she shall state findings of fact and shall issue and cause to be served on the complainant an order based on such findings and setting them forth dismissing the said complaint as to such respondent. A copy of each order issued by the commissioner shall be delivered in all cases to the attorney general, the secretary of state, if he or she has issued a license to the respondent, and such other public officers as the division deems proper, and if any such order issued by the commissioner concerns a regulated creditor, the commissioner shall forward a copy of any such order to the superintendent. A copy of any complaint filed against any respondent who has previously entered into a conciliation agreement pursuant to paragraph a of subdivision three of this section or as to whom an order of the division has previously been entered pursuant to this paragraph shall be delivered to the attorney general, to the secretary of state if he or she has issued a license to the respondent and to such other public officers as the division deems proper, and if any such respondent is a regulated creditor, the commissioner shall forward a copy of any such complaint to the superintendent.

d. The division shall establish rules of practice to govern, expedite and effectuate the foregoing procedure and its own actions thereunder.

e. Any civil penalty imposed pursuant to this subdivision shall be separately stated, and shall be in addition to and not reduce or offset any other damages or payment imposed upon a respondent pursuant to this article. In cases of employment discrimination where the employer has fewer than fifty employees, such civil fine or penalty may be paid in reasonable installments, in accordance with regulations promulgated by the division. Such regulations shall require the payment of reasonable interest resulting from the delay, and in no case permit installments to be made over a period longer than three years.

5. Any complaint filed pursuant to this section must be so filed within three years after the alleged unlawful discriminatory practice.

6. At any time after the filing of a complaint with the division alleging an unlawful discriminatory practice under this article, if the division determines that the respondent is doing or procuring to be done any act tending to render ineffectual any order the commissioner may enter in such proceeding, the commissioner may apply to the supreme court in any county where the alleged unlawful discriminatory practice was committed, or where any respondent resides or maintains an office for the transaction of business, or if the complaint alleges an unlawful discriminatory practice under subdivision two-a or paragraph (a), (b) or (c) of subdivision five of section two hundred ninety-six of this article, where the housing accommodation, land or commercial space specified in the complaint is located, or, if no supreme court justice is available in such county, in any other county within the judicial district, for an order requiring the respondents or any of them to show cause why they should not be enjoined from doing or procuring to be done such act. The order to show cause may contain a temporary restraining order and shall be served in the manner provided therein. On the return date of the order to show cause, and after affording all parties an opportunity to be heard, if the court deems it necessary to prevent the respondents from rendering ineffectual an order relating to the subject matter of the complaint, it may grant appropriate injunctive relief upon such terms and conditions as it deems proper.

7. Not later than one year from the date of a conciliation agreement or an order issued under this section, and at any other times in its discretion, the division shall investigate whether the respondent is complying with the terms of such agreement or order. Upon a finding of non-compliance, the division shall take appropriate action to assure compliance.

8. No officer, agent or employee of the division shall make public with respect to a particular person without his consent information from reports obtained by the division except as necessary to the conduct of a proceeding under this section.

9. Any person claiming to be aggrieved by an unlawful discriminatory

practice shall have a cause of action in any court of appropriate jurisdiction for damages, including, in cases of employment discrimination related to private employers and housing discrimination only, punitive damages, and such other remedies as may be appropriate, including any civil fines and penalties provided in subdivision four of this section, unless such person had filed a complaint hereunder or with any local commission on human rights, or with the superintendent pursuant to the provisions of section two hundred ninety-six-a of this article, provided that, where the division has dismissed such complaint on the grounds of administrative convenience, on the grounds of untimeliness, or on the grounds that the election of remedies is annulled, such person shall maintain all rights to bring suit as if no complaint had been filed with the division. At any time prior to a hearing before a hearing examiner, a person who has a complaint pending at the division may request that the division dismiss the complaint and annul his or her election of remedies so that the human rights law claim may be pursued in court, and the division may, upon such request, dismiss the complaint on the grounds that such person's election of an administrative remedy is annulled. Notwithstanding subdivision (a) of section two hundred four of the civil practice law and rules, if a complaint is so annulled by the division, upon the request of the party bringing such complaint before the division, such party's rights to bring such cause of action before a court of appropriate jurisdiction shall be limited by the statute of limitations in effect in such court at the time the complaint was initially filed with the division. Any party to a housing discrimination complaint shall have the right within twenty days following a determination of probable cause pursuant to subdivision two of this section to elect to have an action commenced in a civil court, and an attorney representing the division of human rights will be appointed to present the complaint in court, or, with the consent of the division, the case may be presented by complainant's attorney. A complaint filed by the equal employment opportunity commission to comply with the requirements of 42 USC 2000e-5(c) and 42 USC 12117(a) and 29 USC 633(b) shall not constitute the filing of a complaint within the meaning of this subdivision. No person who has initiated any action in a court of competent jurisdiction or who has an action pending before any administrative agency under any other law of

the state based upon an act which would be an unlawful discriminatory practice under this article, may file a complaint with respect to the same grievance under this section or under section two hundred ninety-six-a of this article. In cases of housing discrimination only, a person whose complaint has been dismissed by the division after investigation for lack of jurisdiction or lack of probable cause may file the same cause of action in a court of appropriate jurisdiction pursuant to this section, unless judicial review of such dismissal has been sought pursuant to section two hundred ninety-eight of this article. The attorney general shall have the power to commence an action or proceeding in the supreme court of the state of New York, if, upon information or belief, the attorney general is of the opinion that an employer has been, is, or is about to violate the provisions regarding unlawful discriminatory retaliation pursuant to subdivision seven of section two hundred ninety-six of this article. Nothing in this section shall in any way limit rights or remedies which are otherwise available under law to the attorney general or any other person authorized to bring an action under this section.

10. In an action or proceeding at law under this section or section two hundred ninety-eight of this article, the commissioner or the court may in its discretion award reasonable attorney's fees to any prevailing or substantially prevailing party; provided, however, that a prevailing respondent or defendant in order to recover such reasonable attorney's fees must make a motion requesting such fees and show that the action or proceeding brought was frivolous; and further provided that in a proceeding brought in the division of human rights, the commissioner may only award attorney's fees as part of a final order after a public hearing held pursuant to subdivision four of this section. In no case shall attorney's fees be awarded to the division, nor shall the division be liable to a prevailing or substantially prevailing party for attorney's fees, except in a case in which the division is a party to the action or the proceeding in the division's capacity as an employer. Expert witness fees may be awarded in the same manner as attorney's fees. In cases of employment discrimination, a respondent shall only be liable for attorney's fees under this subdivision if the respondent has been found liable for having committed an unlawful discriminatory

practice. In order to find the action or proceeding to be frivolous, the court or the commissioner must find in writing one or more of the following:

(a) the action or proceeding was commenced, used or continued in bad faith, solely to delay or prolong the resolution of the litigation or to harass or maliciously injure another; or

(b) the action or proceeding was commenced or continued in bad faith without any reasonable basis and could not be supported by a good faith argument for an extension, modification or reversal of existing law. If the action or proceeding was promptly discontinued when the party or attorney learned or should have learned that the action or proceeding lacked such a reasonable basis, the court may find that the party or the attorney did not act in bad faith.

§ 298. Judicial review and enforcement. Any complainant, respondent or other person aggrieved by an order of the commissioner which is an order after public hearing, a cease and desist order, an order awarding damages, an order dismissing a complaint, or by an order of the division which makes a final disposition of a complaint may obtain judicial review thereof, and the division may obtain an order of court for its enforcement and for the enforcement of any order of the commissioner which has not been appealed to the court, in a proceeding as provided in this section. Such proceeding shall be brought in the supreme court in the county wherein the unlawful discriminatory practice which is the subject of the order occurs or wherein any person required in the order to cease and desist from an unlawful discriminatory practice or to take other affirmative action resides or transacts business. Such proceeding shall be initiated by the filing of a notice of petition and petition in such court. Thereafter, at a time and in a manner to be specified by rules of court, the division shall file with the court a written transcript of the record of all prior proceedings. Upon the filing of a notice of petition and petition, the court shall have jurisdiction of the proceeding and of the questions determined therein, except that where the order sought to be reviewed was made as a result of a public hearing held pursuant to paragraph a of subdivision four of section two hundred ninety-seven of this article, the court shall make an order

directing that the proceeding be transferred for disposition to the appellate division of the supreme court in the judicial department embracing the county in which the proceeding was commenced. The court shall have power to grant such temporary relief or restraining order as it deems just and proper, and to make and enter upon the pleadings, testimony, and proceedings set forth in such transcript an order enforcing, modifying, and enforcing as so modified, or setting aside in whole or in part such order. No objection that has not been urged in prior proceedings shall be considered by the court, unless the failure or neglect to urge such objection shall be excused because of extraordinary circumstances. Any party may move the court to remit the case to the division in the interests of justice for the purpose of adducing additional specified and material evidence and seeking findings thereon, provided he or she shows reasonable grounds for the failure to adduce such evidence in prior proceedings. The findings of facts on which such order is based shall be conclusive if supported by sufficient evidence on the record considered as a whole. All such proceedings shall be heard and determined by the court and any appeal taken from its judgment or order shall be reviewed by the appropriate appellate court as expeditiously as possible and with lawful precedence over other matters. The jurisdiction of the courts over these proceedings, as provided for herein, shall be exclusive and their judgments and orders shall be final, subject to appellate review in the same manner and form and with the same effect as provided for appeals from a judgment in a special proceeding. The division's copy of the testimony shall be available at all reasonable times to all parties for examination without cost and for the purposes of judicial review of such order. Any appeal under this section and any proceeding, if instituted under article seventy-eight of the civil practice law and rules to which the division or the board is a party shall be heard on the record without requirement of printing. The division may appear in court by one of its attorneys. A proceeding under this section when instituted by any complainant, respondent or other person aggrieved must be instituted within sixty days after the service of such order. In cases of housing discrimination only, a complaint dismissed after investigation for lack of jurisdiction or lack of probable cause may either be appealed pursuant to this section or the same cause of action may be filed in a court of

appropriate jurisdiction pursuant to section two hundred ninety-seven of this article.

§ 298-a. Application of article to certain acts committed outside the state of New York. 1. The provisions of this article shall apply as hereinafter provided to an act committed outside this state against a resident of this state or against a corporation organized under the laws of this state or authorized to do business in this state, if such act would constitute an unlawful discriminatory practice if committed within this state.

2. If a resident person or domestic corporation violates any provision of this article by virtue of the provisions of this section, this article shall apply to such person or corporation in the same manner and to the same extent as such provisions would have applied had such act been committed within this state except that the penal provisions of such article shall not be applicable.

3. If a non-resident person or foreign corporation violates any provision of this article by virtue of the provisions of this section, such person or corporation shall be prohibited from transacting any business within this state. Except as otherwise provided in this subdivision, the provisions of section two hundred ninety-seven of this article governing the procedure for determining and processing unlawful discriminatory practices shall apply to violations defined by this subdivision insofar as such provisions are or can be made applicable. If the division of human rights has reason to believe that a non-resident person or foreign corporation has committed or is about to commit outside of this state an act which if committed within this state would constitute an unlawful discriminatory practice and that such act is in violation of any provision of this article by virtue of the provisions of this section, it shall serve a copy of the complaint upon such person or corporation by personal service either within or without the state or by registered mail, return receipt requested, directed to such person or corporation at his or her or its last known place of residence or business, together with a notice requiring such person or corporation to

appear at a hearing, specifying the time and place thereof, and to show cause why a cease and desist order should not be issued against such person or corporation. If such person or corporation shall fail to appear at such hearing or does not show sufficient cause why such order should not be issued, the division shall cause to be issued and served upon such person or corporation an order to cease or desist from the act or acts complained of. Failure to comply with any such order shall be followed by the issuance by the division of an order prohibiting such person or corporation from transacting any business within this state. A person or corporation who or which transacts business in this state in violation of any such order is guilty of a class A misdemeanor. Any order issued pursuant to this subdivision may be vacated by the division upon satisfactory proof of compliance with such order. All orders issued pursuant to this subdivision shall be subject to judicial review in the manner prescribed by article seventy-eight of the civil practice law and rules.

§ 299. Penal provision. Any person, employer, labor organization or employment agency, who or which shall wilfully resist, prevent, impede or interfere with the division or any of its employees or representatives in the performance of duty under this article, or shall wilfully violate an order of the division or commissioner, shall be guilty of a misdemeanor and be punishable by imprisonment in a penitentiary, or county jail, for not more than one year, or by a fine of not more than five hundred dollars, or by both; but procedure for the review of the order shall not be deemed to be such wilful conduct.

§ 300. Construction. The provisions of this article shall be construed liberally for the accomplishment of the remedial purposes thereof, regardless of whether federal civil rights laws, including those laws with provisions worded comparably to the provisions of this article, have been so construed. Exceptions to and exemptions from the provisions of this article shall be construed narrowly in order to maximize deterrence of discriminatory conduct. Nothing contained in this article shall be deemed to repeal any of the provisions of the civil rights law

or any other law of this state relating to discrimination; but, as to acts declared unlawful by section two hundred ninety-six of this article, the procedure herein provided shall, while pending, be exclusive; and the final determination therein shall exclude any other state civil action based on the same grievance of the individual concerned. If such individual institutes any action based on such grievance without resorting to the procedure provided in this article, he or she may not subsequently resort to the procedure herein.

§ 301. Separability. If any clause, sentence, paragraph or part of this article or the application thereof to any person or circumstances, shall, for any reason, be adjudged by a court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder of this article.

The provisions of the regulations pertaining to personal net worth shall, to the extent practicable, be implemented by June thirtieth, two thousand twenty and shall consider adjustments for inflation annually on January first of the previous year according to the consumer price index.

3. Solely for the purpose of providing the opportunity for meaningful participation by certified businesses in the performance of state contracts as provided in this section, state contracts shall include leases of real property by a state agency to a lessee where: the terms of such leases provide for the construction, demolition, replacement, major repair or renovation of real property and improvements thereon by such lessee; and the cost of such construction, demolition, replacement, major repair or renovation of real property and improvements thereon shall exceed the sum of one hundred thousand dollars. Reports to the director pursuant to section three hundred fifteen of this article shall include activities with respect to all such state contracts. Contracting agencies shall include or require to be included with respect to state contracts for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon, such provisions as may be necessary to effectuate the provisions of this section in every bid specification and state contract, including, but not limited to: (a) provisions requiring contractors to make a good faith effort to solicit active participation by enterprises identified in the directory of certified businesses; (b) requiring the parties to agree as a condition of entering into such contract, to be bound by the provisions of section three hundred sixteen of this article; and (c) requiring the contractor to include the provisions set forth in paragraphs (a) and (b) of this subdivision in every subcontract in a manner that the provisions will be binding upon each subcontractor as to work in connection with such contract. Provided, however, that no such provisions shall be binding upon contractors or subcontractors in the performance of work or the provision of services that are unrelated, separate or distinct from the state contract as expressed by its terms, and nothing in this section shall authorize the director or any contracting agency to impose any requirement on a contractor or subcontractor except with respect to a state contract.

4. In the implementation of this section, the contracting agency shall (a) consult the findings contained within the disparity study evidencing relevant industry specific disparities in the utilization of minority and women-owned businesses relative to their availability;

(b) implement a program that will enable the agency to evaluate each contract to determine the appropriate goal for participation by minority-owned business enterprises and women-owned business enterprises;

5. (a) Contracting agencies shall administer the rules and regulations promulgated by the director in a good faith effort to achieve the maximum feasible participation by minority and women owned business enterprises adopted pursuant to this article and the regulations of the director. Such rules and regulations: shall require a contractor to submit a utilization plan after bids are opened, when bids are required, but prior to the award of a state contract; shall require the contracting agency to review the utilization plan submitted by the contractor and to post the utilization plan and any waivers of compliance issued pursuant to subdivision six of this section on the website of the contracting agency; shall require the contracting agency to notify the contractor in writing within a period of time specified by the director as to any deficiencies contained in the contractor's utilization plan; shall require remedy thereof within a period of time specified by the director; shall require the contractor to submit compliance reports relating to the operation and implementation of any utilization plan; shall not allow any automatic waivers but shall allow a contractor to apply for a partial or total waiver of the minority and women-owned business enterprise participation requirements pursuant to subdivisions six and seven of this section; shall allow a contractor to file a complaint with the director pursuant to subdivision eight of this section in the event a contracting agency has failed or refused to issue

a waiver of the minority and women-owned business enterprise participation requirements or has denied such request for a waiver; and shall allow a contracting agency to file a complaint with the director pursuant to subdivision nine of this section in the event a contractor is failing or has failed to comply with the minority and women-owned business enterprise participation requirements set forth in the state contract where no waiver has been granted.

(b) The rules and regulations promulgated pursuant to this subdivision regarding a utilization plan shall provide that where enterprises have been identified within a utilization plan, a contractor shall attempt, in good faith, to utilize such enterprise at least to the extent indicated. A contracting agency may require a contractor to indicate, within a utilization plan, what measures and procedures he or she intends to take to comply with the provisions of this article, but may not require, as a condition of award of, or compliance with, a contract that a contractor utilize a particular enterprise in performance of the contract.

(c) The rules and regulations promulgated pursuant to this subdivision regarding compliance reports shall provide that such reports shall include a standardized prepayment declaration, to be completed before each payment to a contractor, in which: (i) a representative of the contractor lists any business that was or shall be relied upon for credit toward minority and women-owned business enterprise participation and states under penalty of perjury that such business or businesses appeared on the division's directory of certified minority and women-owned business enterprises at the time of contracting and that each business performed or shall perform a commercially useful function on the contract; and (ii) a representative of any business that was or shall be relied upon for credit toward minority and women-owned business enterprise participation states under penalty of perjury that it appeared on the division's directory of certified minority and women-owned business enterprises at the time of contracting and performed or shall perform a commercially useful function on the contract. Such standardized prepayment declarations shall be submitted electronically on a centralized state registry designated by the division prior to any payment to a contractor. The rules and regulations promulgated pursuant to this subdivision may also require the contractor

or subcontractor to submit documentation, as needed, to support any statements made in such standardized prepayment declarations.

(d) Without limiting other grounds for the disqualification of bids or proposals on the basis of non-responsibility, a contracting agency may disqualify the bid or proposal of a contractor as being non-responsible for failure to remedy notified deficiencies contained in the contractor's utilization plan within a period of time specified in regulations promulgated by the director after receiving notification of such deficiencies from the contracting agency. Where failure to remedy any notified deficiency in the utilization plan is a ground for disqualification, that issue and all other grounds for disqualification shall be stated in writing by the contracting agency. Where the contracting agency states that a failure to remedy any notified deficiency in the utilization plan is a ground for disqualification the contractor shall be entitled to an administrative hearing, on a record, involving all grounds stated by the contracting agency. Such hearing shall be conducted by the appropriate authority of the contracting agency to review the determination of disqualification. A final administrative determination made following such hearing shall be reviewable in a proceeding commenced under article seventy-eight of the civil practice law and rules, provided that such proceeding is commenced within thirty days of the notice given by certified mail return receipt requested rendering such final administrative determination. Such proceeding shall be commenced in the supreme court, appellate division, third department and such proceeding shall be preferred over all other civil causes except election causes, and shall be heard and determined in preference to all other civil business pending therein, except election matters, irrespective of position on the calendar. Appeals taken to the court of appeals of the state of New York shall be subject to the same preference.

6. (a) Where it appears that a contractor cannot, after a good faith effort, comply with the minority and women-owned business enterprise participation requirements set forth in a particular state contract, a contractor may file a written application with the contracting agency requesting a partial or total waiver of such requirements setting forth the reasons for such contractor's inability to meet any or all of the

participation requirements together with an explanation of the efforts undertaken by the contractor to obtain the required minority and women-owned business enterprise participation. In implementing the provisions of this section, the contracting agency shall consider the number and types of minority and women-owned business enterprises available to provide goods or services required under the contract in the region in which the state contract is to be performed, the total dollar value of the state contract, the scope of work to be performed and the project size and term. If, based on such considerations, the contracting agency determines there is not a reasonable availability of contractors on the list of certified business to furnish services for the project, it shall issue a waiver of compliance to the contractor. In making such determination, the contracting agency shall first consider the availability of other business enterprises located in the region and shall thereafter consider the financial ability of minority and women-owned businesses located outside the region in which the contract is to be performed to perform the state contract.

(b) Upon the issuance of all waivers of compliance as provided in paragraph (a) of this subdivision, the contracting agency shall: (i) report the issuance of the waiver to the director; and (ii) publish on the contracting agency's website on a monthly basis, if practicable, but no less than on a quarterly basis, in a location easily accessible to the general public: (1) information identifying the contract, including the value of the contract; (2) the name of the contractor receiving the waiver; (3) the date of the waiver; (4) whether the waiver was a partial or total waiver; and (5) the specific contract provisions to which the waiver applies.

7. For purposes of determining a contractor's good faith effort to comply with the requirements of this section or to be entitled to a waiver therefrom the contracting agency shall consider:

(a) whether the contractor has advertised in general circulation media, trade association publications, and minority-focus and women-focus media and, in such event, (i) whether or not certified minority or women-owned businesses which have been solicited by the contractor exhibited interest in submitting proposals for a particular project by attending, or having attended, a pre-bid conference, if any,

scheduled by the state agency awarding the state contract with certified minority and women-owned business enterprises; and

(ii) whether certified businesses which have been solicited by the contractor have responded in a timely fashion to the contractor's solicitations for timely competitive bid quotations prior to the contracting agency's bid date; and

(b) whether the contractor provided timely written notification of subcontracting opportunities on the state contract to appropriate certified businesses that appear in the directory of certified businesses prepared pursuant to paragraph (f) of subdivision three of section three hundred eleven of this article; and

(c) whether the contractor can reasonably structure the amount of work to be performed under subcontracts in order to increase the likelihood of participation by certified businesses.

8. In the event that a contracting agency fails or refuses to issue a waiver to a contractor as requested within twenty days after having made application therefor pursuant to subdivision six of this section or if the contracting agency denies such application, in whole or in part, the contractor may file a complaint with the director pursuant to section three hundred sixteen of this article setting forth the facts and circumstances giving rise to the contractor's complaint together with a demand for relief. The contractor shall serve a copy of such complaint upon the contracting agency by personal service or by certified mail, return receipt requested. The contracting agency shall be afforded an opportunity to respond to such complaint in writing.

9. If, after the review of a contractor's minority and women-owned business utilization plan or review of a periodic compliance report and after such contractor has been afforded an opportunity to respond to a notice of deficiency issued by the contracting agency in connection therewith, it appears that a contractor is failing or refusing to comply with the minority and women-owned business participation requirements as set forth in the state contract and where no waiver from such requirements has been granted, the contracting agency may file a written complaint with the director pursuant to section three hundred sixteen of this article setting forth the facts and circumstances giving rise to

the contracting agency's complaint together with a demand for relief. The contracting agency shall serve a copy of such complaint upon the contractor by personal service or by certified mail, return receipt requested. The contractor shall be afforded an opportunity to respond to such complaint in writing.

*** § 313-a. Diversity practices of state contractors.** The director shall promulgate rules and regulations setting forth measures and procedures to require all contracting agencies, where practicable, feasible and appropriate, to assess the diversity practices of contractors submitting bids or proposals in connection with the award of a state contract. Such rules and regulations shall take into account: the nature of the labor, services, supplies, equipment or materials being procured by the state agency; the method of procurement required to be used by a state agency to award the contract and minority and women-owned business utilization plans required to be submitted pursuant to sections three hundred twelve and three hundred thirteen of this article; and such other factors as the director deems appropriate or necessary to promote the award of state contracts to contractors having sound diversity practices. Such assessment shall not in any way permit the automatic rejection of a bid or procurement contract proposal based on lack of adherence to diversity practices. Each bid or proposal shall be analyzed on an individual per bid or per proposal basis with the contractor's diversity practices considered as only a part of a wider consideration of several factors when deciding to award or decline to award a bid or proposal. The director shall develop the rules and regulations required hereunder only after consultation with the state procurement council established by section one hundred sixty-one of the state finance law.

*** § 314. Statewide certification program.** 1. The director shall promulgate rules and regulations providing for the establishment of a statewide certification program including rules and regulations

governing the approval, denial or revocation of any such certification including revocations for convictions for fraudulently misrepresenting the status of minority or women-owned business enterprises. Such rules shall set forth the maximum personal net worth of a minority group member or woman who may be relied upon to certify a business as a minority-owned business enterprise or women-owned business enterprise with a minimum personal net worth threshold of fifteen million dollars, and may thereafter establish different maximum levels of personal net worth for minority group members and women on an industry-by-industry basis for such industries as the director shall determine. Such regulations relating to the classification of the industry-by-industry personal net worth thresholds above the fifteen million dollar threshold shall consider the personal net worth of the owners of both certified and non-certified businesses, including but not limited to, prime contractors and subcontractors, as well as any such other factors needed to establish such thresholds. Such rules and regulations shall include, but not be limited to, such matters as may be required to ensure that the established procedures thereunder shall at least be in compliance with the code of fair procedure set forth in section seventy-three of the civil rights law, and consistent with the provisions of article twenty-three-A of the correction law.

2. For the purposes of this article, the office shall be responsible for verifying businesses as being owned, operated, and controlled by minority group members or women and for certifying such verified businesses. The director shall prepare a directory of certified businesses for use by contracting agencies and contractors in carrying out the provisions of this article. The director shall periodically, but no less than annually, update the directory.

2-a. (a) The director shall establish a procedure enabling the office to accept New York municipal corporation certification verification for minority and women-owned business enterprise applicants in lieu of requiring the applicant to complete the state certification process. The director shall promulgate rules and regulations to set forth criteria for the acceptance of municipal corporation certification. All eligible municipal corporation certifications shall require business enterprises

seeking certification to meet the following standards:

(i) have at least fifty-one percent ownership by a minority or a women-owned enterprise and be owned by United States citizens or permanent resident noncitizens;

(ii) be an enterprise in which the minority and/or women-ownership interest is real, substantial and continuing;

(v) be subject to a physical site inspection to verify the fifty-one percent ownership requirement;

(vi) be owned by an individual or individuals, whose ownership, control and operation are relied upon for certification, with a personal net worth that does not exceed fifteen million dollars and such other amount as the director shall set forth in regulations, as adjusted annually for inflation according to the consumer price index; and

(vii) be an enterprise that is a small business pursuant to subdivision twenty of section three hundred ten of this article.

(b) The director shall work with all municipal corporations that have a municipal minority and women-owned business enterprise program to develop standards to accept state certification to meet the municipal corporation minority and women-owned business enterprise certification standards.

(c) The director shall establish a procedure enabling the division to accept federal certification verification for minority and women-owned business enterprise applicants, provided said standards comport with those required by the state minority and women-owned business program, in lieu of requiring the applicant to complete the state certification process. The director shall promulgate rules and regulations to set forth criteria for the acceptance of federal certification.

2-b. The director shall establish a procedure enabling an applicant who was a military service member to prove his or her race or ethnicity, date of birth, place of birth and verification of address for purposes of certification of the applicant's business as a minority-owned business by submission of the DD Form 214 issued to the applicant by the

United States department of defense upon such applicant's retirement, separation, or discharge from active duty in the armed forces of the United States, provided the DD Form 214 contains such information, in lieu of requiring the applicant to otherwise prove his or her race or ethnicity. The director shall promulgate rules and regulations to set forth criteria for the acceptance of the DD Form 214 by the office.

2-c. (a) Each business applying for minority or women-owned business enterprise certification pursuant to this section must agree to allow: (i) the department of taxation and finance to share its tax information with the division; and (ii) the department of labor to share its tax and employer information with the division.

(b) Such information provided pursuant to paragraph (a) of this subdivision shall be kept confidential by the division as such information is kept by the department of taxation and finance or the department of labor and use of such information shall be limited to the certification application process, or other uses approved or consented to by the business enterprise or applicant.

3. Following application for certification pursuant to this section, the director shall provide the applicant with written notice of the status of the application, including notice of any outstanding deficiencies, within twenty-one days. Within forty-five days of submission of a final completed application, the director shall provide the applicant with written notice of a determination by the office approving or denying such certification and, in the event of a denial a statement setting forth the reasons for such denial. Upon a determination denying or revoking certification, the business enterprise for which certification has been so denied or revoked shall, upon written request made within thirty days from receipt of notice of such determination, be entitled to a hearing before an independent hearing officer designated for such purpose by the director. In the event that a request for a hearing is not made within such thirty day period, such determination shall be deemed to be final. The independent hearing officer shall conduct a hearing and upon the conclusion of such hearing, issue a written recommendation to the director to affirm, reverse or modify such determination of the director. Such written recommendation

shall be issued to the parties. The director, within thirty days, by order, must accept, reject or modify such recommendation of the hearing officer and set forth in writing the reasons therefor. The director shall serve a copy of such order and reasons therefor upon the business enterprise by personal service or by certified mail return receipt requested. The order of the director shall be subject to review pursuant to article seventy-eight of the civil practice law and rules.

4. The director may, after performing an availability analysis and upon a finding that industry-specific factors coupled with personal net worth or small business eligibility requirements pursuant to subdivisions nineteen and twenty of section three hundred ten of this article, respectively, have led to the significant exclusion of businesses owned by minority group members or women in that industry, grant provisional MWBE certification status to applicants from that designated industry, provided, however, that all other eligibility requirements pursuant to subdivision seven or fifteen of section three hundred ten of this article, as applicable, are satisfied. Any industry-based determination made under this section by the director shall be made widely available to the public and posted on the division's website.

5. (a) With the exception of provisional MWBE certification, as provided for in subdivision twenty-three of section three hundred ten of this article, all minority and women-owned business enterprise certifications shall be valid for a period of five years.

(b) Within eighteen months of the expiration of a minority and women-owned business enterprise certification and the submission of a new and completed application for minority and women-owned business enterprise certification, if there is no change in the ownership or capital contribution relied upon for certification of the enterprise and no material change in the nature or management of the enterprise from the time of approval of a previous minority and women-owned business enterprise certification that was approved within the previous six years and six months, if such application is compliant with 5 NYCRR 144 then there shall be a rebuttable presumption that the previous minority-owned business enterprise satisfies the requirements of paragraphs (a) and (b)

of subdivision seven of section three hundred ten of this article and that the previous women-owned business enterprise satisfies the requirements of paragraphs (a) and (b) of subdivision fifteen of section three hundred ten of this article.

(c) The division in its discretion may review applications subject to this rebuttable presumption and issue such determination pursuant to all applicable laws and regulations. Any presumption of minority and women-owned business enterprise certification shall expire upon the final determination of an application for certification.

NEW YORK STATE MARTIN LUTHER KING, JR.

INSTITUTE FOR NONVIOLENCE ACT

Section 320. Legislative findings and declaration.

321. Definitions.

322. The New York state Martin Luther King, Jr. institute for nonviolence.

323. Powers and duties.

324. Fellowships.

325. Grants.

326. Reporting.

327. Contributions to the institute.

§ 320. Legislative findings and declaration. The legislature finds and declares that an institution embodying the heritage, ideals and concerns of the people of the state of New York for peace and social justice as exemplified by the philosophy and nonviolent leadership of Dr. Martin Luther King, Jr. is an appropriate response to the significant public need for the state to develop methods in addition to current law enforcement responses to curb the use of violence and encourage the nonviolent management of social conflict.

It is further found and declared that people throughout the state fear violence and deplore the social injustice that can give rise to

violence. New York state citizens are experiencing increasing racial and cultural hostilities stemming from rapid social change and real and perceived conflicts over group and individual interests and they may be disadvantaged by a lack of problem-solving skills for redressing these social conflicts.

It is further found and declared that many potentially destructive conflicts between different societal groups and interests have been resolved constructively and effectively at the national, state and local level through the use of nonviolent methods as were advocated and exemplified by the life of Dr. Martin Luther King, Jr.

It is further found and declared there is a need to examine the history, nature, elements and future of nonviolent processes for conflict resolution, and to develop new techniques to promote nonviolence solutions to economic, political, social and cultural conflicts in the state. Such activities conducted through government, private enterprise, and voluntary associations can be strengthened by a state institution devoted to research, education and training and the provision of information services with respect to nonviolent conflict resolution techniques.

To accomplish these public purposes, it therefore is necessary that the state of New York establish the New York state Martin Luther King, Jr. institute for nonviolence to serve the citizens of the state and their government through education and training opportunities, basic and applied research opportunities, and information services, with respect to the promotion of nonviolent methods and techniques to resolve conflicts among individuals and groups of New York state citizens.

§ 321. Definitions. The following terms as used in this article shall have the following meanings.

1. "Board" shall mean the board of directors of the institute.

institute for nonviolence established by section three hundred twenty-two of this article.

From among the ten directors appointed by him, the governor shall appoint a chairperson who shall serve for a term of three years.

Members of the board of directors shall serve the following terms of office:

2. In the event of a vacancy occurring in the office of a director by death, resignation or otherwise, the governor shall appoint a successor, with the advice and consent of the New York state senate, to serve for the balance of the unexpired term.

3. The board of directors shall provide for the holding of regular and special meetings. A majority of the directors shall constitute a quorum for the transaction of any business and, unless a greater number is required by the by-laws of the corporation, the acts of a majority of the directors present at a meeting at which a quorum is present shall be deemed to be the acts of the board.

4. The board of directors shall adopt by-laws for the corporation and may appoint such officers and employees as it deems advisable and may fix their compensation and prescribe their duties.

5. The directors appointed by the governor shall serve without salary, but each director, including the chairperson shall be entitled to reimbursement for such director's reasonable actual and necessary expenses incurred in the performance of his or her official duties, and except in the case of any director who serves as a member of the legislature or serves in an ex officio capacity, a per diem allowance when rendering services as such director.

The corporation, its directors, officers and employees shall be subject to the provisions of sections seventy-three and seventy-four of the public officers law.

§ 323. Powers and duties. The institute shall have the following

8. To adopt, amend and alter by-laws, not inconsistent with the laws of the state of New York;

9. To charge and collect subscription and other participation costs and fees for its services, including publications, and courses of study;

10. The institute may sue and be sued, complain, and defend in any court of competent jurisdiction; and

11. The institute may do any and all lawful acts and things necessary or desirable to carry out the objectives and purposes of this article.

§ 324. Fellowships. ARTICLE 16-A
HIGHWAY SAFETY

Section 330. Legislative findings and statement of purpose.

331. Definitions.

332. State highway safety program.

333. Local highway safety programs.

334. Federal aid.

§ 330. Legislative findings and statement of purpose. The rising toll of deaths and injuries resulting from highway accidents is a matter of state concern. Although the state and local governments presently are active in virtually all areas of highway safety, no formal mechanism exists for the integration and coordination of existing safety efforts. The establishment of a statewide highway safety program, under the guidance and direction of the governor, will provide this needed mechanism, and will result in the unification of state and local efforts in the struggle to reduce highway deaths and injuries.

§ 331. Definitions. For the purposes of this article, the following terms shall have the following meanings:

1. "State highway safety program" means all highway safety programs conducted by the state and political subdivisions of the state.

2. "Approved local highway safety program" means a program established by a political subdivision which has been approved pursuant to the provisions of this article.

3. "Political subdivision" means a city or town with a population in excess of fifty thousand, and every county not wholly included within a city, and any combination of the foregoing having at least one common boundary.

4. "Designee" means the public officer or state agency designated by the governor to act in his behalf in carrying out the provisions of this article.

§ 332. State highway safety program. 1. Notwithstanding any inconsistent provision of law, general, special or local, the governor is hereby empowered to contract and to do all other things necessary or convenient in behalf of the state to secure the full benefits available under the federal highway safety act of nineteen hundred sixty-six and any acts amendatory or supplemental thereto. The governor shall coordinate the highway safety activities of state and local agencies, other public and private agencies, and of interested organizations and individuals to effectuate the purposes of that act and shall be the official of this state having the ultimate responsibility of dealing with the federal government with respect to the state highway safety program.

§ 333. Local highway safety programs. 1. The governor or his designee is hereby empowered to promulgate rules and regulations establishing standards and procedures relating to the content, coordination, submission and approval of local highway safety programs. Such rules and regulations may include, but need not be limited to, requirements in the following areas of highway safety:

- (a) traffic engineering and control;
- (b) traffic enforcement;
- (c) emergency medical care;
- (d) investigation and surveillance of accident locations; and
- (e) highway safety education.

2. To qualify for receipt of federal funds, each political subdivision shall:

(a) If a city or town, appoint, and such political subdivisions are hereby authorized to so appoint, a highway safety committee to coordinate local highway safety efforts. The chairman of such committee shall be responsible for coordinating the local highway safety program with the state program in the manner required by the rules and regulations of the governor or his designee.

(b) If a county, establish a county traffic safety board as authorized by article forty-three of the vehicle and traffic law. The chairman of

such board shall be responsible for coordinating the local highway safety program with the state program in the manner required by the rules and regulations of the governor or his designee.

(c) If any combination of a city, town or county having at least one common boundary, appoint, and such political subdivisions are hereby authorized to so appoint, a regional highway safety committee to coordinate regional highway safety efforts. Such committee shall consist of at least one member from each participating city, town or county. The chairman of such committee shall be responsible for coordinating the regional highway safety program with the state program in the manner required by the rules and regulations of the governor or his designee.

(d) Submit to the governor or his designee a local highway safety program in accordance with and meeting the standards established by rules and regulations promulgated pursuant to subdivision one of this section.

(e) Submit to the governor or his designee such other information as may be required to carry out the purposes of this article.

§ 334. Federal aid. 1. The department of taxation and finance shall accept and receive any and all grants of money awarded to the state and its political subdivisions under the federal highway safety act of nineteen hundred sixty-six, and acts amendatory or supplemental thereto. All monies so received shall be deposited by the department of taxation and finance in a special fund or funds and shall be used exclusively for establishing and administering highway safety programs pursuant to the provisions of this article. Such money shall be paid from said fund or funds upon audit and warrant of the comptroller on vouchers of or certification by the governor or his designee.

2. At least forty per cent of the federal funds so received shall be allocated and paid to those political subdivisions which have established approved local highway safety programs. In determining the allocation of such amount among such political subdivisions, the governor or his designee shall consider the following factors:

- (a) the relative populations of such political subdivisions;
- (b) the total costs of the local highway safety programs;

(c) the amount of state aid and other funds received by such political subdivisions for highway safety purposes; and

(d) the safety value of any special highway safety projects conducted by such political subdivisions.

3. The federal funds remaining after the allocations and payments have been made pursuant to subdivision two of this section shall be utilized for such highway safety purposes as the governor or his designee shall deem appropriate.

- 382-b. Residential buildings with truss type, pre-engineered wood or timber construction; notice requirements.
383. Construction with other laws; severability.

§ 370. Short title. This article shall be known and may be cited as the "New York state uniform fire prevention and building code act".

§ 371. Statement of legislative findings and purposes. 1. The legislature hereby finds and declares that:

a. The present level of loss of life, injury to persons, and damage to property as a result of fire demonstrates that the people of the state have yet to receive the basic level of protection to which they are entitled in connection with the construction and maintenance of buildings;

b. There does not exist for all areas of the state a single, adequate, enforceable code establishing minimum standards for fire protection and construction, maintenance and use of materials in buildings. Instead, there exists a multiplicity of codes and requirements for various types of buildings administered at various levels of state and local government. There are, in addition, extensive areas of the state in which no code at all is in effect for the general benefit of the people of the state;

c. The present system of enforcement of fire protection and building construction codes is characterized by a lack of adequately trained personnel, as well as inconsistent qualifications for personnel who administer and enforce those codes;

d. Whether because of the absence of applicable codes, inadequate code provisions or inadequate enforcement of codes, the threat to the public health and safety posed by fire remains a real and present danger for the people of the state; and

e. The multiplicity of fire protection and building construction code requirements poses an additional problem for the people of the state since it increases the cost of doing business in the state by perpetuating multiple requirements, jurisdictional overlaps and business uncertainties, and, in some instances, by artificially inducing high construction costs.

2. The legislature declares that it shall be the public policy of the state of New York to:

a. Immediately provide for a minimum level of protection from the hazards of fire in every part of the state;

b. Provide for the promulgation of a uniform code addressing building construction and fire prevention in order to provide a basic minimum level of protection to all people of the state from hazards of fire and inadequate building construction. In providing for such a uniform code, it is declared to be the policy of the state of New York to:

(1) reconcile the myriad existing and potentially conflicting regulations which apply to different types of buildings and occupancies;

(2) recognize that fire prevention and fire prevention codes are closely related to the adequacy of building construction codes, that the greatest portion of a building code's requirements are fire safety oriented, and that fire prevention and building construction concerns should be the subject of a single code;

(3) recognize that the decarbonization of new and existing buildings is closely related to the state's clean energy and climate agenda as described in the New York climate leadership and community protection act set forth in chapter one hundred six of the laws of two thousand nineteen, and that the uniform code shall enable the state's clean energy objectives;

(4) place public and private buildings on an equal plane with respect to fire prevention and adequacy of building construction;

(5) require new and existing buildings alike to keep pace with advances in technology concerning fire prevention and building construction, including, where appropriate, that provisions apply on a retroactive basis; and

(6) provide protection to both residential and non-residential buildings;

c. Insure that the uniform code be in full force and effect in every area of the state;

d. Encourage local governments to exercise their full powers to administer and enforce the uniform code; and

e. Provide for a uniform, statewide approach to the training and qualification of personnel engaged in the administration and enforcement of the uniform code.

Standards requiring that, in each building that has one or more areas classified as assembly group A occupancies or mercantile group M occupancies and in which at least one diaper changing station, deck, table, or similar amenity is installed, a sign shall be posted in a conspicuous place in each public toilet room indicating the location of the nearest diaper changing station, deck, table, or similar amenity that is available for use by the gender using such public toilet room. The requirements of this subdivision shall apply without regard to whether the diaper changing station, deck, table, or similar amenity was installed voluntarily or pursuant to subdivision sixteen of this section or any other applicable law, statute, rule, or regulation. No such sign shall be required in a public toilet room in which any diaper changing station, deck, table, or similar amenity is located.

18. Standards requiring that grease traps or interceptors located in a place that may be accessible by the public, or located inside any food service establishment, or located in any other building that is open to the public, shall be designed and maintained to withstand expected loads and to prevent unauthorized access. Such standards shall also include requiring the installation of a warning sign or symbol, as determined by the council, on or in the vicinity of such grease traps or interceptors.

Such standards shall apply to new and existing grease traps and interceptors. For the purposes of this subdivision, "food service establishment" shall have the same meaning as in part fourteen of title ten of the New York code of rules and regulations.

19. a. To support the goal of zero on-site greenhouse gas emissions and help achieve the state's clean energy and climate agenda, including but not limited to greenhouse gas reduction requirements set forth within chapter one hundred six of the laws of two thousand nineteen, also known as the New York state climate leadership and community protection act, the uniform code shall prohibit the installation of fossil-fuel equipment and building systems, in any new building not more than seven stories in height, except for a new commercial or industrial building greater than one hundred thousand square feet in conditioned floor area, on or after December thirty-first, two thousand twenty-five, and the uniform code shall prohibit the installation of fossil-fuel equipment and building systems, in all new buildings on or after December thirty-first, two thousand twenty-eight.

b. The provisions set forth in paragraph a of this subdivision shall not be construed as applying to buildings existing prior to the effective date of the applicable prohibition, including to:

(i) the repair, alteration, addition, relocation, or change of occupancy or use of such buildings; and

(ii) the installation or continued use and maintenance of fossil-fuel equipment and building systems, including as related to cooking equipment, in any such buildings.

c. In addition, in effectuating the provisions set forth in paragraph a of this subdivision the code shall include exemptions for the purposes of allowing the installation and use of fossil-fuel equipment and building systems where such systems are installed and used:

(i) for generation of emergency back-up power and standby power systems;

(ii) in a manufactured home as defined in subdivision seven of section six hundred one of the executive law; or

(iii) in a building or part of a building that is used as a

manufacturing facility, commercial food establishment, laboratory, car wash, laundromat, hospital, other medical facility, critical infrastructure, including but not limited to emergency management facilities, wastewater treatment facilities, and water treatment and pumping facilities, agricultural building, fuel cell system, or crematorium, as such terms are defined by the code council.

d. Where the uniform code includes an allowed exemption pursuant to subparagraph (i) or (iii) of paragraph c of this subdivision, other than agricultural buildings as defined by the council, such exemption shall include provisions that, to the fullest extent feasible, limit the use of fossil-fuel equipment and building systems to the system and area of the building for which a prohibition on fossil-fuel equipment and building systems is infeasible; except with respect to servicing manufacturing or industrial processes, require the area or service within a new building where fossil-fuel equipment and building systems are installed be electrification ready; and minimize emissions from the fossil-fuel equipment and building systems that are allowed to be used, provided that such provisions do not adversely affect health, safety, security, or fire protection. Financial considerations shall not be sufficient basis to determine physical or technical infeasibility.

e. Exemptions included in the uniform code pursuant to this subdivision shall be periodically reviewed by the code council to assure that they continue to effectuate the purposes of paragraph a of this subdivision and subparagraph three of paragraph b of subdivision two of section three hundred seventy-one of this article to the fullest extent feasible.

f. The code shall allow for exemption of a new building construction project that requires an application for new or expanded electric service, pursuant to subdivision one of section thirty-one of the public service law and/or section twelve of the transportation corporations law, when electric service cannot be reasonably provided by the grid as operated by the local electric corporation or municipality pursuant to subdivision one of section sixty-five of the public service law; provided, however, that the public service commission shall determine

reasonableness for purposes of this exemption. For the purposes of this paragraph, "grid" shall have the same meaning as electric plant, as defined in subdivision twelve of section two of the public service law.

g. For the purposes of this subdivision:

(i) "Fossil-fuel equipment and building systems" shall mean (A) equipment, as such term is defined in section 11-102 of the energy law, that uses fossil-fuel for combustion; or (B) systems, other than items supporting an industrial or commercial process as referred to in the definition of equipment in section 11-102 of the energy law, associated with a building that will be used for or to support the supply, distribution, or delivery of fossil-fuel for any purpose, other than for use by motor vehicles.

(ii) "Electrification ready" means the new building or portion thereof where fossil-fuel equipment and building systems are allowed to be used which contains electrical systems and designs that provide sufficient capacity for a future replacement of such fossil-fuel equipment and building systems with electric-powered equipment, including but not limited to sufficient space, drainage, electrical conductors or raceways, bus bar capacity, and overcurrent protective devices for such electric-powered equipment.

20. a. Except as otherwise provided by statute, no change to the building code shall become effective until at least ninety days after the date on which notice of such change has been published in the state register, unless the council finds that:

(i) an earlier effective date is necessary to protect health, safety and security; or

(ii) the change to the code will not impose any additional compliance requirements on any person.

b. Notwithstanding the provisions of paragraph a of this subdivision, the council may provide that, in the period during which changes to the code have been adopted but are not yet effective pursuant to paragraph a of this subdivision, a person shall have the option of complying with either the provisions of the code as changed or with the code provisions as they were set forth immediately prior to the change.

§ 379. Incorporation of higher standards by council upon recommendation of local government; local building regulations. 1.

Except in the case of factory manufactured homes, intended for use as one or two family dwelling units or multiple dwellings of not more than two stories in height, the legislative body of any local government may duly enact or adopt local laws or ordinances imposing higher or more restrictive standards for construction within the jurisdiction of such local government than are applicable generally to such local government in the uniform code. Within thirty days of such enactment or adoption, the chief executive officer, or if there be none, the chairman of the legislative body of such local government, shall so notify the council, and shall petition the council for a determination of whether such local laws or ordinances are more stringent than the standards for construction applicable generally to such local government in the uniform code. Such local laws or ordinances shall take full force and effect upon an affirmative determination by the council as provided herein.

2. If the council finds that such higher or more restrictive standards are reasonably necessary because of special conditions prevailing within the local government and that such standards conform with accepted engineering and fire prevention practices and the purposes of this article, the council shall adopt such standards, in whole or part. The council shall have the power to limit the term or duration of such standards, impose conditions in connection with the adoption thereof, and to terminate such standards at such times, and in such manner as the council may deem necessary, desirable or proper.

3. Nothing in this article shall be construed to prohibit any municipality from adopting or enacting any building regulations relating to any matter as to which the uniform fire prevention and building code does not provide, but no municipality shall have the power to supersede, void, repeal or make more or less restrictive any provisions of this article or of rules or regulations made pursuant hereto.

4. Within one hundred twenty days after the effective date of the uniform code, a local government may by resolution duly enacted petition the council for a determination as to whether an existing building and/or fire code in force in said local government is more stringent than the uniform code. During the period in which the council is considering such petition such local code shall remain in full force and effect. If, after review, the council determines that such local code is less stringent than the uniform code the council shall notify the chief executive officer or, if there be none, the chairman of the legislative body of such local government and the uniform code shall, thirty days after the date of notification, apply in such local government. If the council finds that such local code is not less stringent than the uniform code such local code shall continue in full force and effect until the council, upon its own initiative, reviews such local code and determines that it is no longer more stringent, whereupon the council shall notify the chief executive officer or chairman of the legislative body of such local government and thirty days after the date of notification the uniform code shall apply in such local government.

5. Notwithstanding the provisions of subdivision one of this section, the legislative body of Nassau county may have duly enacted or adopted or may duly enact or adopt local laws or ordinances imposing higher or more restrictive standards for construction within the jurisdiction of the county than are applicable generally to the county in the uniform code. The chief executive officer, or if there be none, the chairman of the legislative body of the county, shall notify the council, and shall petition the council for a determination of whether such preexisting local laws or ordinances, or within thirty days of such enactment or adoption of such local laws or ordinances, are more stringent than the standards for construction applicable generally to such county in the uniform code. During the period in which the council is considering such petition, such local laws or ordinances shall remain in full force and effect.

f. establishment of a procedure whereby any provision or requirement of the uniform code may be varied or modified in cases where strict compliance with such provision or requirement would entail practical difficulties or unnecessary hardship or would otherwise be unwarranted. Such procedure shall be designed to insure that any such variance or modification shall not substantially affect adversely provisions for health, safety and security, and that equally safe and proper alternatives may be prescribed. Requests for a variance shall be resolved within sixty days of the date of application unless a longer period is required for good cause shown,

Nothing in the rules shall require or be construed to require regular,

periodic inspections of (A) owner-occupied one and two-family dwellings, or (B) agricultural buildings used directly and solely for agricultural purposes, provided, however that this shall not be a limitation on inspections conducted at the invitation of the owner or where conditions on the premises threaten or present a hazard to public health, safety, or welfare.

2. Except as may be provided in regulations of the secretary pursuant to subdivision one of this section, every local government shall administer and enforce the uniform fire prevention and building code and the state energy conservation construction code on and after the first day of January, nineteen hundred eighty-four, provided, however, that a local government may enact a local law prior to the first day of July in any year providing that it will not enforce such codes on and after the first day of January next succeeding. Section 390. Display of American flag on uniforms of public employees.

§ 390. Display of American flag on uniforms of public employees.

Notwithstanding any other law, any public employee required to wear a uniform during the course of public employment shall not be deemed to violate any law, rule, code or regulation regulating the style or appearance of uniform solely by virtue of the display on the shoulder area of the sleeve of such uniform of an American flag not larger than three inches by five inches. The exact location of the flag on the sleeve may be specified by the appropriate executive officer.

ARTICLE 19
**DISPLAY AND USE OF THE FLAG OF
THE UNITED STATES OF AMERICA IN PARKS AND
ON PUBLIC BUILDINGS**

Section 400. Legislative findings and objectives.

401. Definitions.

402. Application.

403. Rules; manner of display.

403-a. Display of prisoner of war and missing in action flag.

403-b. Display of flag in certain parks.

§ 400. Legislative findings and objectives. The American flag is the symbol of our country, of the ideals embodied in our constitution, and is the symbol of the spirit which should animate our institutions. It is the emblem of freedom in its truest and best sense, signifying government resting on the consent of governed; liberty regulated by law; the protection of the weak against the strong; and security against the exercise of arbitrary power and as such it is recognized that the flag and all it symbolizes occasions deep emotional feeling in many people. Because of the flag's significance as a symbol of our country, and the feeling our citizens have toward it, the flag should not be a vehicle for the expression of political, social or economic philosophy as some groups and individuals have tried to use it.

Therefore, the legislature hereby finds and declares that the best interests of the people of the state of New York will be served by enacting a comprehensive article setting forth rules for the display and use of the American flag on and in public buildings within the state in order to give the flag the respect it is due and to lessen the possibility that the flag could be used to express political, social or economic causes.

§ 401. Definitions. As used in this article, unless a different

meaning clearly appears from the context, the following terms shall have the following meanings:

1. "Flag" shall mean the flag of the United States of America.

2. "Public building" shall mean all buildings including grounds and premises adjacent or appurtenant thereto or connected thereto belonging to the state, county, town, village, school district or any other political or civil subdivision of state or local government.

3. "Local agency" shall include all county, city, town and village governing bodies, all other public corporations, special districts and school districts in the state.

4. "State agencies" shall include any department, division, board, bureau, commission, office, agency, authority or public corporation of the state.

§ 402. Application. The rules and procedures for display and use of the flag set forth in this article shall govern the display of the flag on all public buildings within the state and shall supersede any contrary rule or custom of state or local agencies governing display provided, however, a school district may promulgate its own regulations to allow the flag to be flown at half-staff to commemorate the death of a present or former board member, present employee, teacher, student, clerk or custodian.

§ 403. Rules; manner of display. The following rules and customs shall be deemed the proper manner to display the flag:

1. The flag shall be displayed only from sunrise to sunset on buildings and on stationary flagstaffs in the open. However, the flag may be displayed at night upon special occasions when it is desired to produce a patriotic effect.

2. The flag shall be displayed daily, weather permitting, on or near the main administration building of every public institution, whenever such institution is open to the public. The flag shall also be displayed, weather permitting, on the following days in each year: the first day of January, known as New Year's day; the third Monday of January, known as Dr. Martin Luther King, Jr. day; the twelfth day of February, known as Lincoln's birthday; the third Monday in February, known as Washington's birthday; the last Monday in May, known as Memorial day; the second Sunday of June, known as Flag day; the fourth day of July, known as Independence day; the first Monday in September, known as Labor day; the third Friday in September, known as National POW/MIA Recognition day, except if such date of commemoration cannot be observed due to a religious holiday, such observances shall then be conducted on the second Friday in September; September eleventh, known as September 11th Remembrance Day; the second Monday in October, known as Columbus day; the eleventh day of November, known as Veterans day; the fourth Thursday in November, known as Thanksgiving day; the seventh day of December, known as Pearl Harbor day; and the twenty-fifth day of December, known as Christmas day, and if any of such days except Flag day is Sunday, the next day thereafter; each general election day, and each day appointed by the President of the United States or by the Governor of this state as a day of general thanksgiving or for displaying the flag.

3. The flag shall not be displayed on days when the weather is inclement.

4. The flag shall be displayed in or near every polling place on election days.

5. The flag shall be displayed daily during school days in, on or near every schoolhouse.

6. The flag shall be hoisted briskly and lowered ceremoniously.

7. No person shall display the flag of the United Nations or any other national or international flag equal, above, or in a position of

superior prominence or honor to, or in place of, the flag of the United States provided, that nothing in this section shall make unlawful the continuance of the practice heretofore followed of displaying the flag of the United Nations in a position of superior prominence or honor, and other national flags in positions of equal prominence or honor, with that of the flag of the United States at the headquarters of the United Nations.

8. When a number of flags of states or localities or pennants of societies are grouped and displayed from staffs, the flag of the United States of America shall be at the center and at the highest point of the group.

9. When flags of states, cities, or localities, or pennants of societies are flown on the same halyard with the flag of the United States, the latter shall always be at the peak. When the flags are flown from adjacent staffs, the flag of the United States shall be hoisted first and lowered last. No such flag or pennant shall be placed above the flag of the United States or to the right of the flag of the United States.

10. When the flag of the United States is displayed from a staff projecting horizontally or at an angle from the window sill, balcony, or front of a building, the union of the flag shall be placed at the peak of the staff unless the flag is at half-staff. When the flag is suspended over a sidewalk from a rope extending from a house to a pole at the edge of the sidewalk, the flag shall be hoisted out, union first, from the building.

11. When the flag is displayed otherwise than by being flown from a staff, it shall be displayed flat, whether indoors or out, or so suspended that its folds fall as free as though the flag were staffed.

12. When the flag is displayed over the middle of the street, it shall be suspended vertically with the union to the north in an east and west street or to the east in a north and south street.

13. The flag, when flown at half-staff, shall be first hoisted to the peak for an instant and then lowered to the half-staff position. The flag shall be again raised to the peak before it is lowered for the day. By "half-staff" is meant lowering the flag to one-half the distance between the top and bottom of the staff. Crepe streamers shall not be affixed to spear heads or flagstaffs except by order of the President of the United States or the Governor of this state.

ARTICLE 19-F

RURAL AFFAIRS ACT

Section 480. Declaration of purpose.

481. Definitions.

482. State office of rural affairs.

- 483. General functions, powers and duties.
- 484. Assistance of other state agencies.
- 485. Functions, powers and duties of other departments and state agencies.
- 486. Comprehensive grant information.
- 487. Implementation of services.
- 488. Participation of federal and local agencies, individuals and corporations.
- 489. Temporary assignment or permanent transfer of personnel.
- 490. Reports to the governor and the legislature.
- 491. Contract authority.

§ 480. Declaration of purpose. The legislature finds and determines that:

1. The public perception of the state's rural regions has been characterized by inaccurate awareness or understanding; therefore many existing laws, regulations, policies and programs have not completely addressed the real needs of people living within the state's rural environs.

2. The state's rural territory is vast in size, exceptionally diverse, possesses abundant natural and cultural resources, and, together with its economic, human and community resources, contributes greatly to the quality and maintenance of life of all people of the state, and hence to a healthier, more prosperous state.

3. The state's rural areas are decentralized and unique; their enhancement and protection require special attention in order to effectively address distinct rural conditions, needs, and strengths.

4. Improvement in the well-being of individuals and families in the state's rural areas has, in many instances, been unbalanced, and characterized by a growing inequality or relative deprivation. Additionally, such indispensable community needs as transportation; housing; public facilities; business and industry; education and

culture; governmental and environmental management; health and human services; require further study and state action if proper responses to unique rural needs are to be developed.

5. The state has demonstrated sensitivity to the needs of rural localities and has attempted to preserve the viability and quality of life in rural areas. Such commitments to rural preservation and development have to be continued and broadened to encompass a wide range of rural endeavors.

6. Federal, state, and local resources and individual effort available to address rural needs are often isolated and limited to individual symptoms of blight and deterioration. Related programs are frequently inaccessible to rural residents they are designed to serve. The placement of such programs within the various organizational structures is indistinct and many rural localities have inadequate numbers of managerial, professional or technical personnel to pursue such assistance. Additionally, many public and private agencies also lack adequate staffing to adapt programs and services to the special needs and requirements of rural citizens and their environs. This situation has contributed to a growing confusion and disintegrating force that discourages coordinated individual policy and program development and delivery of services intended to address the needs of rural localities and citizens. Consequently, the energies and resources of the many individual federal, state, and local, and public and private initiatives that could help answer rural needs and capitalize on the strengths of rural areas, are often frustrated or diminished in their effect.

7. An important role and challenge for state government, therefore, is to get diverse groups to work together for the betterment of rural New York, and to combine their efforts in imaginative ways to the end that all regions of the state may always offer the highest possible quality of life, cultural and material standards of living, without sacrificing individual freedom or responsibility. The legislature believes that such individual efforts can be significantly enhanced, and support and sustain each other in the public interest; and many useful and innovative responses to rural needs will be possible, if a more focused

and coordinated interdisciplinary approach for addressing rural problems and opportunities is made available through state government.

8. The development of proper responses to rural needs, including the capability to anticipate and respond to individual needs on a broad scale, would also be promoted if a more sharply defined rural affairs avenue within state government was made available to policymakers. Specifically, the legislature seeks to amplify the efforts of existing agencies and individuals who are interested in such rural policy areas as human services and community life; health care; education; business, economic development, and employment; agriculture; environment, land use, and natural resources; transportation; community facilities, housing, and community revitalization; local government and management.

9. No permanent state agency has been specifically created, empowered and funded to promote, harmonize or assist such efforts of existing agencies and individuals that address the unique needs, conditions, and strengths of rural areas of the state. It is, therefore, the intent of the legislature to create a state office of rural affairs. The agency shall serve as a one-stop contact point for rural governments, service providers, state and federal agencies, and for individuals interested in rural policies and programs of the state; and strive to promote cooperative and integrated efforts among such agencies and programs that are designed to address rural needs; and shall recommend to the governor and the legislature the suitable use of policies, programs, long-range plans, laws and regulatory mechanisms in order to meet such needs.

§ 481. Definitions. When used in this article:

1. "Office" means the state office of rural affairs created by this article.
2. "Director" means the chief administrative officer of the state office of rural affairs.
3. "State agency" means any department, office, council, or agency of

the state, or any public benefit corporation or authority authorized by the laws of the state.

7. "Rural areas" means counties within the state having less than two hundred thousand population, and the municipalities, individuals, institutions, communities, programs and such other entities or resources as are found therein. In counties of two hundred thousand or greater population, "rural areas" means towns with population densities of one hundred fifty persons or less per square mile, and the villages, individuals, institutions, communities, programs and such other entities or resources as are found therein.

8. "Rural development and revitalization" shall mean those policies, programs, laws, regulations, or other matters having to do with rural areas including, but not limited to, human services and community life; health care; education; business, economic development, and employment; agriculture; environment, land use, and natural resources; transportation; community facilities, housing; and local government services and management.

Any plan of prevention and remediation required to be developed pursuant to paragraph (b) of this subdivision by a facility supervised by the division shall be submitted to and approved by the division in accordance with time limits established by regulations of the division. *** § 501-e. Interstate compact for juveniles.** The interstate compact for juveniles is hereby enacted into law and entered into with all other jurisdictions legally joining therein in a form substantially as follows:

THE INTERSTATE COMPACT FOR JUVENILES

ARTICLE I

PURPOSE

The compacting states to this interstate compact recognize that each state is responsible for the proper supervision or return of juveniles,

delinquents and status offenders who are on probation or parole and who have absconded, escaped or run away from supervision and control and in so doing have endangered their own safety and the safety of others. The compacting states also recognize that each state is responsible for the safe return of juveniles who have run away from home and in doing so have left their state of residence. The compacting states also recognize that congress, by enacting the Crime Control Act, 4 U.S.C. Section 112 (1965), has authorized and encouraged compacts for cooperative efforts and mutual assistance in the prevention of crime. It is the purpose of this compact, through means of joint and cooperative action among the compacting states to:

A. ensure that the adjudicated juveniles and status offenders subject to this compact are provided adequate supervision and services in the receiving state as ordered by the adjudicating judge or parole authority in the sending state;

B. ensure that the public safety interests of the citizens, including the victims of juvenile offenders, in both the sending and receiving states are adequately protected;

C. return juveniles who have run away, absconded or escaped from supervision or control or have been accused of an offense to the state requesting their return;

D. make contracts for the cooperative institutionalization in public facilities in member states for delinquent youth needing special services;

E. provide for the effective tracking and supervision of juveniles;

F. equitably allocate the costs, benefits and obligations of the compacting states;

G. establish procedures to manage the movement between states of juvenile offenders released to the community under the jurisdiction of courts, juvenile departments, or any other criminal or juvenile justice

agency which has jurisdiction over juvenile offenders;

H. insure immediate notice to jurisdictions where defined offenders are authorized to travel or to relocate across state lines;

I. establish procedures to resolve pending charges (detainers) against juvenile offenders prior to transfer or release to the community under the terms of this compact;

J. establish a system of uniform data collection on information pertaining to juveniles subject to this compact that allows access by authorized juvenile justice and criminal justice officials, and regular reporting of compact activities to heads of state executive, judicial, and legislative branches and juvenile and criminal justice administrators;

K. monitor compliance with rules governing interstate movement of juveniles and initiate interventions to address and correct noncompliance;

L. coordinate training and education regarding the regulation of interstate movement of juveniles for officials involved in such activity; and

M. coordinate the implementation and operation of the compact with the interstate compact for the placement of children, the interstate compact for adult offender supervision and other compacts affecting juveniles particularly in those cases where concurrent or overlapping supervision issues arise.

It is the policy of the compacting states that the activities conducted by the interstate commission created herein are the formation of public policies and therefore are public business. Furthermore, the compacting states shall cooperate and observe their individual and collective duties and responsibilities for the prompt return and acceptance of juveniles subject to the provisions of this compact. The provisions of this compact shall be reasonably and liberally construed

to accomplish the purposes and policies of the compact.

INTERSTATE COMMISSION FOR JUVENILES

A. The compacting states hereby create the "interstate commission for juveniles." The commission shall be a body corporate and joint agency of the compacting states. The commission shall have all the responsibilities, powers and duties set forth herein, and such additional powers as may be conferred upon it by subsequent action of the respective legislatures of the compacting states in accordance with the terms of this compact.

B. The interstate commission shall consist of commissioners appointed by the appropriate appointing authority in each state pursuant to the rules and requirements of each compacting state and in consultation with the state council for interstate juvenile supervision created hereunder. The commissioner shall be the compact administrator, deputy compact administrator or designee from that state who shall serve on the interstate commission in such capacity under or pursuant to the applicable law of the compacting state.

C. In addition to the commissioners who are the voting representatives of each state, the interstate commission shall include individuals who are not commissioners, but who are members of interested organizations. Such non-commissioner members must include a member of the national organizations of governors, legislators, state chief justices, attorneys general, interstate compact for adult offender supervision, interstate compact for the placement of children, juvenile justice and juvenile corrections officials, and crime victims. All non-commissioner members of the interstate commission shall be ex-officio (non-voting) members. The interstate commission may provide in its bylaws for such additional ex-officio (non-voting) members, including members of other national organizations, in such numbers as shall be determined by the commission.

D. Each compacting state represented at any meeting of the commission is entitled to one vote. A majority of the compacting states shall

constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the interstate commission.

E. The commission shall meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the compacting states, shall call additional meetings. Public notice shall be given of all meetings and meetings shall be open to the public.

F. The interstate commission shall establish an executive committee, which shall include commission officers, members, and others as determined by the bylaws. The executive committee shall have the power to act on behalf of the interstate commission during periods when the interstate commission is not in session, with the exception of rulemaking and/or amendment to the compact. The executive committee shall oversee the day-to-day activities of the administration of the compact managed by an executive director and interstate commission staff; administer enforcement and compliance with the provisions of the compact, its bylaws and rules, and perform such other duties as directed by the interstate commission or set forth in the bylaws.

G. Each member of the interstate commission shall have the right and power to cast a vote to which that compacting state is entitled and to participate in the business and affairs of the interstate commission. A member shall vote in person and shall not delegate a vote to another compacting state. However, a commissioner, in consultation with the state council, shall appoint another authorized representative, in the absence of the commissioner from that state, to cast a vote on behalf of the compacting state at a specified meeting. The bylaws may provide for members' participation in meetings by telephone or other means of telecommunication or electronic communication.

H. The interstate commission's bylaws shall establish conditions and procedures under which the interstate commission shall make its information and official records available to the public for inspection or copying. The interstate commission may exempt from disclosure any information or official records to the extent they would adversely

affect personal privacy rights or proprietary interests.

I. Public notice shall be given of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. 8. disclose information, the premature disclosure of which would significantly endanger the stability of a regulated person or entity; or
9. specifically relate to the interstate commission's issuance of a subpoena, or its participation in a civil action or other legal proceeding.

J. For every meeting closed pursuant to this provision, the interstate commission's legal counsel shall publicly certify that, in the legal counsel's opinion, the meeting may be closed to the public, and shall reference each relevant exemptive provision. The interstate commission shall keep minutes which shall fully and clearly describe all matters discussed in any meeting and shall provide a full and accurate summary of any actions taken, and the reasons therefor, including a description of each of the views expressed on any item and the record of any roll call vote (reflected in the vote of each member on the question). All documents considered in connection with any action shall be identified in such minutes.

K. The interstate commission shall collect standardized data concerning the interstate movement of juveniles as directed through its rules which shall specify the data to be collected, the means of collection and data exchange and reporting requirements. Such methods of data collection, exchange and reporting shall insofar as is reasonably possible conform to up-to-date technology and coordinate its information functions with the appropriate repository of records.

ARTICLE IV

C. Qualified immunity, defense and indemnification.

1. The interstate commission's executive director and employees shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to any actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities; provided, that any such person shall not be protected from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of any such person.

2. The liability of any commissioner, or the employee or agent of a commissioner, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. commissioner or the commissioner's representatives or employees in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

4. The interstate commission shall indemnify and hold the commissioner of a compacting state, or the commissioner's representatives or employees, or the interstate commission's representatives or employees, harmless in the amount of any settlement or judgment obtained against such persons arising out of any actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

ARTICLE VI

RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

A. The interstate commission shall promulgate and publish rules in order to effectively and efficiently achieve the purposes of the compact.

If the court finds that the interstate commission's action is not supported by substantial evidence in the rulemaking record, the court shall hold the rule unlawful and set it aside. For purposes of this subdivision, evidence is substantial if it would be considered substantial evidence under the model state administrative procedures act.

D. If a majority of the legislatures of the compacting states rejects a rule, those states may, by enactment of a statute or resolution in the same manner used to adopt the compact, cause such rule to have no further force and effect in any compacting state.

c. Fines, fees, and costs in such amounts as are deemed to be reasonable as fixed by the interstate commission; and

d. Suspension or termination of membership in the compact, which shall be imposed only after all other reasonable means of securing compliance under the bylaws and rules have been exhausted and the interstate commission has therefore determined that the offending state is in default. Immediate notice of suspension shall be given by the interstate commission to the governor, the chief justice or the chief judicial officer of the state, the majority and minority leaders of the defaulting state's legislature, and the state council. The grounds for default include, but are not limited to, failure of a compacting state to perform such obligations or responsibilities imposed upon it by this compact, the bylaws, or duly promulgated rules and any other grounds designated in commission bylaws and rules. The interstate commission shall immediately notify the defaulting state in writing of the penalty imposed by the interstate commission and of the default pending a cure of the default. The commission shall stipulate the conditions and the time period within which the defaulting state must cure its default. If the defaulting state fails to cure the default within the time period specified by the commission, the defaulting state shall be terminated

from the compact upon an affirmative vote of a majority of the compacting states and all rights, privileges and benefits conferred by this compact shall be terminated from the effective date of termination.

2. Within sixty days of the effective date of termination of a defaulting state, the commission shall notify the governor, the chief justice or chief judicial officer, the majority and minority leaders of the defaulting state's legislature, and the state council of such termination.

3. The defaulting state is responsible for all assessments, obligations and liabilities incurred through the effective date of termination including any obligations, the performance of which extends beyond the effective date of termination.

4. The interstate commission shall not bear any costs relating to the defaulting state unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state.

5. Reinstatement following termination of any compacting state requires both a reenactment of the compact by the defaulting state and the approval of the interstate commission pursuant to the rules.

C. Judicial enforcement.

The interstate commission may, by majority vote of the members, initiate legal action in the United States district court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its offices, to enforce compliance with the provisions of the compact, its duly promulgated rules and bylaws, against any compacting state in default. In the event judicial enforcement is necessary the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

D. Dissolution of compact.

1. The compact dissolves effective upon the date of the withdrawal or default of any compacting state, which reduces membership in the compact to one compacting state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be concluded and any surplus funds shall be distributed in accordance with the bylaws.

ARTICLE XII

SEVERABILITY AND CONSTRUCTION

A. The provisions of this compact shall be severable, and if any phrase, clause, sentence or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

ARTICLE XIII

BINDING EFFECT OF COMPACT AND OTHER LAWS

A. Other laws.

1. Nothing herein prevents the enforcement of any other law of a compacting state that is not inconsistent with this compact.

2. All compacting states' laws other than state constitutions and other interstate compacts conflicting with this compact are superseded to the extent of the conflict.

B. Binding effect of the compact.

1. All lawful actions of the interstate commission, including all rules and bylaws promulgated by the interstate commission, are binding upon the compacting states.

2. All agreements between the interstate commission and the compacting states are binding in accordance with their terms.

3. Upon the request of a party to a conflict over meaning or interpretation of interstate commission actions, and upon a majority vote of the compacting states, the interstate commission may issue advisory opinions regarding such meaning or interpretation.

4. In the event any provision of this compact exceeds the constitutional limits imposed on the legislature of any compacting state, the obligations, duties, powers or jurisdiction sought to be conferred by such provision upon the interstate commission shall be ineffective and such obligations, duties, powers or jurisdiction shall remain in the compacting state and shall be exercised by the agency thereof to which such obligations, duties, powers or jurisdiction are delegated by law in effect at the time this compact becomes effective.

The appointments provided for in this section shall be made within ninety days of the effective date of this section. Each appointed member of the council shall serve a term of five years. Provided further, however, that counsel shall be assigned immediately, and continue to represent the youth until any retained counsel appears. The court shall schedule a court appearance for the youth no later than ten days after the initial court appearance, and every ten days thereafter, while the youth is detained pursuant to the interstate compact for juveniles unless any such appearance is waived by the attorney for the child.

2. Authorization for day placement. The director is authorized to establish day placement programs for eligible youth as defined by the director, pursuant to the rules and regulations of the division. The director's decision to allow a youth to participate in the day placement program shall be discretionary. 5. Interruption of placement. Consistent with the rule and regulation of the division, in any case where a youth fails to report to the facility or program specified by the director, the term of placement shall be interrupted and such interruption shall continue until the youth reports to such facility or program or is otherwise returned to the custody of the division.

6. Modification or termination of day placement. It shall be within the discretion of the director to modify or terminate a youth's participation in day placement at any time. If the day placement is terminated the youth shall be immediately placed in a residential facility consistent with the court order.

Decisions of the director regarding day placement pursuant to this section or any conditional release or discharge pursuant to sections five hundred ten-a and five hundred hundred ten-c of this article shall be deemed a judicial function and shall not be reviewable if done in accordance with law.

§ 503. Detention. 1. The division shall establish regulations for the operation of secure and non-secure detention facilities pursuant to this article and section two hundred eighteen-a of the county law.

2. To assure that adequate, suitable and conveniently accessible accommodations and proper care will be available when required for detention, the division may contract for or establish, operate, maintain and certify secure and non-secure detention facilities if funds shall have been made available for the lease or purchase and maintenance and operation of appropriate facilities.

3. Each social services district may establish, operate and maintain secure and non-secure detention facilities for the purposes defined in section five hundred two of this article. Each such detention facility shall be established, operated and maintained in compliance with this article and the regulations of the division for youth.

4. The office of children and family services shall visit and inspect all facilities used for detention and make periodic reports of the operation and adequacy of such facilities, and the need for provision of such facilities to the county executive, if there be one, the county legislature and the family court judges of the county in which such facilities are located, and the office of court administration.

5. No detention facility shall receive or care for children detained pursuant to the family court act or the criminal procedure law unless certified by the division, which certification shall include a maximum-capacity which shall not be exceeded. No certification shall be issued or renewed unless such a facility has developed and implemented a procedure, consistent with appropriate collective bargaining agreements and applicable provisions of the civil service law, for reviewing and evaluating the backgrounds of and the information supplied by any person applying to be an employee, volunteer or consultant, which shall include but not be limited to the following requirements: that the applicant set forth his or her employment history, provide personal and employment references and sign a sworn statement indicating whether the applicant, to the best of his or her knowledge, has ever been convicted of a crime

in this state or any other jurisdiction.

(a) The division shall promulgate regulations governing procedures for certification of detention facilities and for renewal, suspension and revocation of such certifications. Such regulations shall provide for a hearing prior to the suspension or revocation of a certification.

(b) The office of children and family services may suspend a certification for good cause shown. Suspension shall mean that no persons coming within the provisions of article three or seven of the family court act and no alleged or convicted juvenile offender may be received for care in a detention facility, but persons already in care may remain in care. The office may impose such conditions in the event of a suspension as it shall deem necessary and proper.

(c) Such office may revoke a certification for good cause shown. Revocation shall mean that no persons coming within the provisions of article three or seven of the family court act and no alleged or convicted juvenile offender may be received for care nor remain at the detention facility.

6. The division shall be responsible for bringing violations of law pertaining to detention of juveniles to the attention of each appropriate attorney for the child or counsel for the defendant who may petition for habeas corpus for persons aggrieved thereby.

7. The person in charge of each detention facility shall keep a record of all time spent in such facility for each youth in care. The detention facility shall deliver a certified transcript of such record to the office, social services district, or other agency taking custody of the youth pursuant to article three or seven of the family court act, before, or at the same time as the youth is delivered to the office, district or other agency, as is appropriate.

8. The division shall list all facilities certified for the detention of children and shall file a copy of that list periodically with the clerk of the family court in each county, the clerk of the criminal court of the city of New York, the clerk of the supreme court in each county within the city of New York and the clerk of the county court in each county outside the city of New York.

§ 503-a. Temporary hold over units. 1. The division may establish secure temporary hold over units at its facilities for the accommodation of youth placed with the division pursuant to article three of the family court act, who are being transported to a division facility or program, a court appearance or a home visit, where travel arrangements or the distance to be travelled requires such a holdover. No youth shall be held in these units in excess of twenty-four hours unless emergency conditions, including illness of the youth or severe weather, prevent travel.

2. Temporary hold over units may be established on a regional basis. Contact between youth who are housed in a hold over unit and residents of the facility shall be minimal. Youth staying in a temporary hold over unit shall be under supervision at all times. At least one staff on duty shall be of the same gender as the youth.

3. The temporary hold over units shall contain individual sleeping rooms, dining facilities and an area for recreation.

4. Juvenile offenders committed to the custody of the division shall not be housed in temporary hold over units at any time. Notwithstanding any other law, the division shall have the authority to house any adjudicated youth placed with the division pursuant to article three of the family court act, in a secure temporary hold over unit, subject to the provisions of this section.

§ 504. Division facilities. 1. The office of children and family services shall operate and maintain secure, limited secure and non-secure facilities for the care, custody, treatment, housing,

education, rehabilitation and guidance of youth placed with or committed to the office of children and family services.

2. Each separate facility may bear the name, designated by the division, of an individual known for outstanding service to youth.

3. A youth attending a local public school while in residence at a division facility shall be deemed a resident of the school district where the youth's parent or guardian resides at the commencement of each school year for the purpose of determining which school district shall be responsible for the youth's tuition.

4. The division shall determine the particular division facility or program in which a child placed with the division shall be cared for, based upon an evaluation of such child. The division shall also have authority to discharge or conditionally release children placed with it and to transfer such children from a limited secure or non-secure facility to any other limited secure or non-secure facility, when the interest of such children requires such action; provided that a child transferred to a non-secure facility from a limited secure facility may be returned to a limited secure facility upon a determination by the division that, for any reason, care and treatment at the non-secure facility is no longer suitable.

§ 504-a. Secure facilities. 1. As used in this article, "secure facility" means a residential facility in which a juvenile delinquent may be placed under this article, which is characterized by physically restricting construction, hardware and procedures, and is designated as a secure facility by the division under this section.

2. Secure facilities shall provide appropriate services to the residents, including but not limited to: residential care, educational and vocational training, physical and mental health services, and employment counseling.

3. A youth shall be placed in or transferred to a secure facility

only:

(a) limitations as to capacity;

(b) services to be provided and conditions to be maintained;

(c) a grievance procedure for residents to be run by the division, with the use of personnel separate from that of the facility;

(d) procedures for admission to and release or transfer from the facility;

(e) periodic inspection by the division, not to be conducted by personnel of the facility.

5. A juvenile delinquent residing in a facility operated pursuant to this title may be maintained in group confinement if he constitutes a serious and evident danger to himself or other persons, if such confinement is clearly necessary to prevent escape, if the child demonstrates by his behavior that he is in need of special care and attention in a living unit separate from his normal surroundings, or if such confinement is necessary for purposes of the child's own protection. The division shall promulgate regulations providing for a procedure governing transfers to group confinement and periodic review of such confinement.

§ 504-b. Transport and warrant units. The division is authorized to establish transport and warrant units and designate employees to be assigned to such units. Such units shall have the powers and responsibilities specified in regulations promulgated by the division, including but not limited to the conveyance of youth placed with or committed to the custody of the division to and from its facilities. Employees of such unit who are specifically designated by the director in writing, shall have the power and authority of peace officers in

respect thereto.

§ 505. Directors of facilities. 1. There shall be a facility director of each office of children and family services operated facility. Such facility director shall be appointed by the commissioner of the office of children and family services and the position shall be in the noncompetitive class and designated as confidential as defined by subdivision two-a of section forty-two of the civil service law. The facility director shall have such experience and other qualifications as may be prescribed by the director of classification and compensation within the department of civil service in consultation with the commissioner of the office of children and family services based on differences in duties, levels of responsibility, size and character of the facility, knowledge, skills and abilities required, and other factors affecting the position. Such facility director shall serve at the pleasure of the commissioner of the office of children and family services.

2. Subject to regulations of the division, the facility director of a state facility in the division shall:

- (a) operate and manage the facility,

3. Subject to the regulations of the division, the facility director may authorize the use of the buildings and grounds of the facility by a municipality, special district or non-profit association, corporation or organization for educational, recreational, social and civic purposes whenever such use may promote better relationships with the community in which the facility is located, provided, however, that such use does not interfere with the purposes and program of the facility.

§ 506. Claims for damage to employees' personal property. Claims for damages to personal property of employees of the division for youth caused by youths in program may be examined, audited and certified for

payment by the state comptroller. Such claims must be approved by the director of the division for youth prior to submission to the office of the state comptroller. The payment of any such claim shall not exceed the sum of three hundred fifty dollars.

§ 507-a. Placement and commitment; procedures. 1. Youth may be placed in or committed to the custody of the division:

(a) for placement, as a juvenile delinquent pursuant to the family court act; or

(b) for commitment pursuant to the penal law.

2. (a) Consistent with other provisions of law, only those youth who have reached the age of twelve but who have not reached the age of twenty-one, unless such youth is over the age of seven and less than twelve years of age and has been adjudicated a juvenile delinquent pursuant to subparagraph (iii) of paragraph (a) of subdivision one of section 301.2 of the family court act, may be placed in the custody of the office of children and family services. Except as provided for in paragraph (a-1) of this subdivision, no youth who has reached the age of twenty-one may remain in custody of the office of children and family services.

(a-1) (i) A youth who is committed to the office of children and family services as a juvenile offender or a juvenile offender adjudicated as a youthful offender may remain in the custody of the office during the period of his or her sentence beyond the age of twenty-one in accordance with the provisions of subdivision five of section five hundred eight of this title but in no event may such a youth remain in the custody of the office beyond his or her twenty-third birthday; and (ii) a youth found to have committed a designated class A felony act who is restrictively placed with the office under subdivision four of section 353.5 of the family court act for committing an act on or after the youth's sixteenth birthday may remain in the custody of the office of children and family services up to the age of twenty-three in accordance with his or her placement order.

(a-2) Whenever it shall appear to the satisfaction of the office of children and family services that any youth placed therewith is not of

proper age to be so placed or is not properly placed, or is mentally or physically incapable of being materially benefited by the program of the office, the office shall cause the return of such youth to the county from which placement was made.

(b) The division shall deliver such youth to the custody of the placing court, along with the records provided to the division pursuant to section five hundred seven-b of this article, there to be dealt with by the court in all respects as though no placement had been made.

(c) The cost and expense of the care and return of such youth incurred by the division shall be reimbursed to the state by the social services district from which such youth was placed in the manner provided by section five hundred twenty-nine of this article.

3. The division may photograph any youth in its custody. Such photograph may be used only for the purpose of assisting in the return of conditionally released children and runaways pursuant to section five hundred ten-b of this article. Such photograph shall be destroyed immediately upon the discharge of the youth from division custody.

4. (a) A youth placed with or committed to the division may, immediately following placement or commitment, be remanded to an appropriate detention facility.

(b) The office of children and family services shall admit a child placed with the office to a facility of the office within fifteen days of the date of the order of placement with the office and shall admit a juvenile offender, youthful offender or adolescent offender committed to the office to a facility of the office within ten days of the date of the order of commitment to the office, except as provided in section five hundred seven-b of this article.

5. Consistent with other provisions of law, in the discretion of the commissioner of the office of children and family services, youth placed within the office under the family court act who attain the age of eighteen while in custody of the office and who are not required to remain in the placement with the office as a result of a dispositional order of the family court may reside in a placement in an authorized agency or a non-secure facility until the age of twenty-one, provided

that such youth attend a full-time vocational or educational program and are likely to benefit from such program.

§ 507-b. Placement and commitment; papers to be furnished. 1. No placement or commitment order to the division which recites the facts upon which it was based shall be deemed or held to be invalid by reason of any imperfection or defect in form.

2. The court shall immediately notify the division of the placement or commitment of any youth therewith. The orders of the court and copies of the probation report and all other relevant evaluative records in the possession of the court, detention facility, and probation department related to such youth, including but not limited to any diagnostic, educational, medical, psychological and psychiatric records, fingerprints, photographs, a certified copy of the sentence and any pre-sentence memoranda filed with the court, where applicable, and reports relating to assaults or other violent acts, attempts at suicide or escape by the youth shall be delivered together with the youth or earlier to a person authorized by the director to receive the child, notwithstanding any contrary provision of law.

3. The court shall, before placing or committing any such youth, inquire into and determine the age of the youth at the time of placement or commitment, and the youth's age as so determined shall be stated in the order. The statement of the age of such youth in such order shall be conclusive evidence as to such age in any action to recover damages for allegedly unlawful detention under such order, and shall be presumptive evidence thereof in any other inquiry, action or proceeding relating to such detention.

4. Notwithstanding the time frames provided in paragraph (b) of subdivision four of section five hundred seven-a of this article, the division may delay acceptance of a youth placed or committed to the division in accordance with division regulations promulgated prior to the effective date of this subdivision.

§ 507-c. Restrictive placements. 1. The division shall promulgate regulations governing restrictive placements of juveniles under section 353.5 of the family court act, not inconsistent with such act.

2. The regulations shall establish within the division a restrictive placement committee. The division shall make and revise as needed a plan for the care, treatment, services and supervision of each youth under restrictive placement, which plan shall be reviewed and may be revised by the committee. The youth may not be released or transferred from a facility without the approval of the committee, except by written order of the director.

3. For youths placed with the division pursuant to a restrictive placement under section 353.5 of the family court act, the division shall (a) report in writing to the court not less than once every six months during the placement on the status, adjustment and progress of the respondent, unless otherwise provided in the order of disposition; and (b) provide intensive supervision of the youth whenever he or she is not in a secure or residential facility of the division.

§ 507-d. Confinement of juvenile delinquents under sentence of the courts of the United States. The directors of secure and limited secure facilities shall receive and safely keep in such facilities, subject to the provisions of this article, any person not over the age of sixteen years convicted of any offense against the United States, and sentenced to imprisonment by any court of the United States, sitting within this state, until such sentences be executed, or until such delinquent shall be discharged by due course of law, conditioned upon the United States supporting such delinquent and paying the expenses attendant upon the execution of such sentence.

§ 508. Juvenile offender and adolescent offender facilities. 1. The office of children and family services shall maintain secure facilities for the care and confinement of juvenile offenders and adolescent

offenders committed for a sentence pursuant to the sentencing provisions of the penal law. Such facilities shall provide appropriate services to juvenile offenders and adolescent offenders including but not limited to residential care, educational and vocational training, physical and mental health services, and employment counseling.

2. Juvenile offenders and adolescent offenders shall be confined in such facilities until the age of twenty-one in accordance with their sentences, and shall not be released, discharged or permitted home visits except pursuant to the provisions of this section.

3. The office of children and family services shall report in writing to the sentencing court and district attorney, not less than once every six months during the period of confinement, on the status, adjustment, programs and progress of the offender.

The office of children and family services may transfer an offender not less than eighteen years of age to the department of corrections and community supervision if the commissioner of the office certifies to the commissioner of corrections and community supervision that there is no substantial likelihood that the youth will benefit from the programs offered by office facilities.

4. The office of children and family services may apply to the sentencing court for permission to transfer a youth not less than sixteen nor more than eighteen years of age to the department of corrections and community supervision. Such application shall be made upon notice to the youth, who shall be entitled to be heard upon the application and to be represented by counsel. The court shall grant the application if it is satisfied that there is no substantial likelihood that the youth will benefit from the programs offered by the office facilities.

5. The office of children and family services may transfer an offender not less than eighteen nor more than twenty-one years of age to the department of corrections and community supervision if the commissioner of the office certifies to the commissioner of corrections and community

supervision that there is no substantial likelihood that the youth will benefit from the programs offered by office facilities.

6. At age twenty-one, all juvenile offenders shall be transferred to the custody of the department of corrections and community supervision for confinement pursuant to the correction law.

7. While in the custody of the office of children and family services, an offender shall be subject to the rules and regulations of the office, except that his or her parole, temporary release and discharge shall be governed by the laws applicable to incarcerated individuals of state correctional facilities and his or her transfer to state hospitals in the office of mental health shall be governed by section five hundred nine of this title; provided, however, that an otherwise eligible offender may receive the six-month limited credit time allowance for successful participation in one or more programs developed by the office of children and family services that are comparable to the programs set forth in section eight hundred three-b of the correction law, taking into consideration the age of offenders. The commissioner of the office of children and family services shall, however, establish and operate temporary release programs at office of children and family services facilities for eligible juvenile offenders and adolescent offenders and contract with the department of corrections and community supervision for the provision of parole supervision services for temporary releasees. The rules and regulations for these programs shall not be inconsistent with the laws for temporary release applicable to incarcerated individuals of state correctional facilities. For the purposes of temporary release programs for juvenile offenders and adolescent offenders only, when referred to or defined in article twenty-six of the correction law, "institution" shall mean any facility designated by the commissioner of the office of children and family services, "department" shall mean the office of children and family services, "incarcerated individual" shall mean a juvenile offender or adolescent offender residing in an office of children and family services facility, and "commissioner" shall mean the commissioner of the office of children and family services. 9. Notwithstanding any provision of law, including section five hundred one-c of this article, the office of children and family services shall make records pertaining to a person convicted of a sex offense as defined in subdivision (p) of section 10.03 of the mental hygiene law available upon request to the commissioner of mental health or the commissioner of the office for people with developmental disabilities, as appropriate; a case review panel; and the attorney general; in accordance with the provisions of article ten of the mental hygiene law.

§ 509. Transfers to state hospitals and schools in the department of mental hygiene. 1. (a) The director of the division for youth may apply for the transfer of any child in the care of the division to the department of mental hygiene for care and treatment in a state hospital or school under the jurisdiction of said department whenever it appears to the satisfaction of the director of the division:

(i) that such child is living with mental illness or a developmental disability and will substantially benefit from care and treatment in

such a state school or hospital; and

(ii) that the interests of the state will be best served thereby.

(b) The office for people with developmental disabilities may receive, treat and otherwise care for such a child pursuant to article nine or fifteen of the mental hygiene law if suitable for admission thereunder.

2. (a) Except in the case of an emergency requiring immediate admission to a state hospital pursuant to the mental hygiene law, a child in the care of the division may be transferred:

(i) after notice thereof has been given to the child to be transferred, his parents or legal guardian, and his attorney of record, if any; and

(ii) after he has been afforded an opportunity to be heard with respect thereto at a hearing conducted by an impartial hearing officer and to be represented at such hearing by counsel. If in the judgment of the division such child is financially unable to obtain counsel, the division shall pay such counsel's fees as shall be necessary to assure adequate representation for such child.

(b) The hearing officer may accept the written waiver by a child of his right to a hearing, provided the child knowingly and voluntarily executed such waiver with the advice of counsel.

3. A child transferred pursuant to this section:

(a) shall continue to be under the general care and supervision of the division for youth except that he shall be temporarily cared for and treated by the institution to which the transfer is made.

(b) shall be subject to the laws and rules pertaining to the institution to which he is admitted; and

(c) shall be entitled to the same rights and procedures under the mental hygiene law as any other person admitted or converted in status thereunder.

4. Whenever the commissioner of mental health or the director of a residential treatment facility for children and youth, or the commissioner of developmental disabilities finds that care and treatment of a child transferred pursuant to this section or section 353.4 of the family court act is no longer suitable under the mental hygiene law, he

or she shall forthwith so certify and discharge the child to the custody of the child himself or herself, his or her parents, his or her legal guardian, the local department of social services or the office of children and family services, as appropriate, except that so long as there is a valid order of the family court placing the child with the office of children and family services, or a valid order of a criminal court sentencing a child to the office of children and family services, the child shall be returned to the care and custody of the office of children and family services. The duration of the placement or sentence with the such office of a child transferred pursuant to this section shall not be extended or increased by reason of any such transfer.

5. All expenses incident to a transfer under this section shall be borne by the division, subject to the provisions of title four of this article. 8. Notwithstanding any other provision of law to the contrary, juvenile offenders shall be transferred only to a facility under the jurisdiction of the office of mental health specially designed for the care and treatment of juvenile offenders which is characterized by physically restricting construction, hardware and procedures.

without endangering the public safety; provided, however, that no youth while absent from a facility or program without the consent of the director of such facility or program shall be conditionally released by the division solely by reason of the absence. The division may establish regulations in connection with such conditional release.

2. It shall be a condition of such release that the youth so released shall continue to be the responsibility of the division for the period provided in the order of placement, notwithstanding the youth's conditional release therefrom, and that the division, pursuant to its regulations, may cause such youth to be returned to a division facility or authorized agency at any time within the period of placement, where there is a violation of the conditions of release or a change of circumstances.

If the youth so released is not subject to article sixty-five of the education law and does not elect to participate in an educational program leading to a high school diploma, steps shall be taken to the extent possible to facilitate the youth's gainful employment or enrollment in a vocational program following release.

4. In addition to the other requirements of this section, no youth placed with the division pursuant to a restrictive placement under the family court act shall be released except pursuant to section 353.5 of the family court act.

§ 510-b. Return of conditionally released children or runaways. 1. If a child under the jurisdiction of the division runs away from a division facility or an authorized agency or violates any condition of release therefrom, or if there is a change of circumstances, the division shall cause said child to be apprehended and returned to a division facility or authorized agency pursuant to the regulations of the division.

2. 4. The division, pursuant to its regulations, shall issue a warrant directed generally to any peace officer, acting pursuant to such officer's special duties, or police officer in the state for the apprehension and return of any runaway or conditionally released child under the jurisdiction of the division and such warrant shall be executed by any peace officer, acting pursuant to such officer's special duties, or police officer to whom it may be delivered. The division also shall provide relevant law enforcement agencies within forty-eight hours with any photographs of any runaway or conditionally released child for whom a warrant is issued together with any pertinent information relative to such child. Such photographs shall remain the property of the division and shall be kept confidential for use solely in the apprehension of such child. Such photographs shall be returned promptly to the division upon apprehension of such child, or upon the demand of the division.

5. A magistrate may cause a runaway or released child to be held in custody until returned to the division.

6. consent of the director of such facility or authorized agency, the absence shall interrupt the calculation of the time of such placement or commitment and such interruption shall continue until the return of the child to the facility or authorized agency in which the child was placed or committed. Any time spent by such child in custody from the date of absence to the date the placement pursuant to article three of the family court act or commitment pursuant to the penal law resumes shall be credited against the time of such placement or commitment provided:

(a) That such custody was due to an arrest or surrender based upon the absence; or

(b) That such custody arose from an arrest or surrender on another charge which did not culminate in a conviction, adjudication or adjustment.

8. When a youth who is absent without consent from division custody is apprehended outside of the state of New York, the terms of the interstate compact on juveniles, set forth in chapter one hundred fifty-five of the laws of nineteen hundred fifty-five, as amended, shall govern the return of such youth to division custody.

§ 510-c. Discharge from custody. 1. The division may discharge from its custody any child placed with the division whenever it deems such discharge to be in the best interest of the child and there is reasonable probability that the child can be discharged without endangering the public safety; provided, however, that no child while absent from a division facility without the consent of the director of such facility shall be discharged by the division solely by reason of the absence, and provided further that no child in the custody of the division and transferred to the department of mental hygiene, while absent from a department of mental hygiene facility without the consent of the superintendent or director of such facility, shall be discharged by the division.

2. Except as provided in subdivision three of this section, any child who has been placed with the office of children and family services shall be deemed to have been discharged therefrom if, during the period

provided in the order of placement or extension thereof, the child is convicted of a crime or adjudicated a youthful offender, and is committed to an institution in the department of corrections and community supervision or department of mental hygiene, or receives a one year sentence in a local correctional facility.

3. A child placed with the division pursuant to a restrictive placement under the family court act shall not be discharged solely by reason of conviction for a crime or adjudication as a juvenile delinquent or youthful offender, nor shall any such child be discharged except pursuant to section 353.5 of the family court act.

4. Upon the placement of any child eighteen years of age or over, or upon the eighteenth birthday of any child placed in the custody of the division for an adjudication of juvenile delinquency for having committed an act which if committed by an adult would constitute a felony, and still in the custody of the division, the division shall notify the division of criminal justice services of such placement or birthday provided, however, in the case of a child eleven or twelve years of age, at the time the act or acts were committed, the division of criminal justice services shall not be provided with the child's name, unless the acts committed by such child would constitute a class A or B felony. Upon the subsequent discharge of said child it shall be the duty of the division to notify the division of criminal justice services of that fact and the date of discharge. For the purposes of this subdivision, a child's age shall be determined to be the age stated in the placement order.

§ 512. Weekly allowances; work experience. 1. Every child being cared for in a division facility may receive a weekly allowance approved by the director of the budget, in accordance with regulations of the division, as compensation for work or services performed in a division facility. Such weekly allowance shall be paid from moneys appropriated to the division for maintenance and operation.

2. A child who is being cared for in a division facility may, with the

permission of the facility director, work outside of such facility when attendance upon instruction is not required pursuant to the education law. No such child may be permitted to work unless the conditions of work, including wages, meet the standards therefor prescribed pursuant to the labor law. The facility director may require that a part of the wages of such child, not to exceed twenty-five per centum thereof, be deposited in a general welfare fund to be utilized for the benefit of all children in such facility.

§ 512-a. Earnings of youth. The division for youth may grant compensation to youth for work performed in division facility programs, or pursuant to work programs in accordance with rules and regulations established by the division for youth and approved by the director of the budget. Such rules and regulations need not be uniform as to each program and may establish, on the basis of work performed, the amount of compensation to be paid and the manner in which it is to be paid to each youth, or paid to the youth's dependents, or credited to the youth's account until his or her discharge from such program. Such compensation may be paid from moneys appropriated to the division for youth for maintenance and operation.

§ 513. Career education. 1. Purpose. 7. Distribution of proceeds. Pursuant to rules, regulations, policies or procedures of the director of the division, moneys of the fund shall be disbursed as follows: (i) an amount equal to the proceeds from the sale of the product produced by one resident may be deposited to the account of such resident or paid directly to such resident; or (ii) an amount equal to the proceeds from the sale of a product produced by two or more residents may be divided equally among such residents and deposited to their respective accounts or paid directly to them. In determining the amount of the proceeds from a sale of a product that may

be deposited to the account of a resident, or paid directly to a resident, the director of the division for youth shall provide for a deduction from the sum of the proceeds of the reasonable expenses of the division for youth incident to the sale, including but not limited to, the value of materials and supplies for the production of the product supplied without financial charge to the resident and the expense of transporting the product for sale, display or otherwise. The amount deducted for such expenses shall be deposited in the career education fund and expended to pay for services and expenses of operating career education programs at division for youth facilities pursuant to this chapter.

§ 515. Freedom of worship. It shall be the duty of the division to afford a child placed with it freedom of worship as provided for in the state constitution.

§ 517. Commissaries. The director of the division for youth may authorize the director of any facility operated by the division to establish a commissary in such facility for the use of residents and employees. The moneys received by the director of the division from the sales of the commissary shall be deposited in a special fund to be known as the commissary fund and such funds shall be used for the general purposes of the facilities subject to the provisions of section fifty-three of the state finance law.

§ 518. Restitution; services for public good. The division shall

develop and operate programs for youths placed or referred to the division or in conjunction with an order provided in section 353.6 of the family court act. The division shall promulgate regulations as required in such section.

to the United States in order to provide for continued federal tax exempt status for the bonds and notes. Unless expended earlier, moneys shall be maintained in a reserve fund created for a not-for-profit corporation to which a facility rehabilitation grant was awarded for a period of fifteen years from the date of commencement of renovation, rehabilitation, repair, remodeling or improvement, and for a period of thirty years from the date of commencement of construction on a new facility project. At the end of such fifteen or thirty years, as the case may be, any moneys then still to the credit of a reserve fund shall be transferred to the state's general fund.

2. No youth center shall be sited, constructed, reconstructed, rehabilitated, altered or improved pursuant to a grant or award made pursuant to this title, except in compliance with the requirements of local laws, ordinances, codes, charters or regulations applicable to such siting, construction, reconstruction, rehabilitation, alteration or improvement.

Municipalities shall implement the use of detention risk assessment instruments in a manner prescribed by the office so as to inform detention decisions. Notwithstanding any other provision of state law to the contrary, data necessary for completion of a detention risk assessment instrument may be shared among law enforcement, probation, courts, detention administrators, detention providers, and the attorney for the child upon retention or appointment; solely for the purpose of

accurate completion of such risk assessment instrument, and a copy of the completed detention risk assessment instrument shall be made available to the applicable detention provider, the attorney for the child and the court.

Such plan developed by the office shall be subject to the approval of the director of the budget. The office is authorized, in its discretion, to make advance distributions to a municipality in anticipation of state reimbursement.

(c) A municipality may also use the funds distributed to it for juvenile detention services under this section for a particular program year for sixty-two percent of a municipality's eligible expenditures for supervision and treatment services for juveniles programs approved under section five hundred twenty-nine-b of this title for services that were not reimbursed from a municipality's distribution under such program provided to at-risk, alleged or adjudicated juvenile delinquents or persons alleged or adjudicated to be in need of supervision, or alleged to be or convicted as juvenile offenders in community-based non-residential settings. Any claims submitted by a municipality for reimbursement for detention services or supervision and treatment services for juveniles provided during a particular program year for which the municipality does not receive state reimbursement from the municipality's distribution of detention services funds for that program year may not be claimed against the municipality's distribution of funds available under this section for the next applicable program year. The office may require that such claims be submitted to the office electronically at such times and in the manner and format required by the office.

(ii) The office of children and family services shall consult with individuals with professional research experience and expertise in criminal justice; social work; juvenile justice; and applied mathematics, psychometrics and/or statistics to assist the office in determining the method it will use to: develop, validate and revalidate such detention risk assessment instrument; and analyze the effectiveness of the use of such detention risk assessment instrument in accomplishing its intended goals; and analyze, to the greatest extent possible any disparate impact on detention outcomes for juveniles based on race, sex, national origin, economic status and any other constitutionally protected class, regarding the use of such instrument. The office shall consult with such individuals regarding whether it is appropriate to attempt to analyze whether there is any such disparate impact based on sexual orientation and, if so, the best methods to conduct such analysis. The office shall take into consideration any recommendations given by such individuals involving improvements that could be made to such instrument and process.

(iii) Data collected for the purposes of completing the detention risk assessment instrument from any source other than an officially documented record shall be confirmed as soon as practicable. Should any data originally utilized in completing the risk assessment instrument be

found to conflict with the officially documented record, the risk assessment instrument shall be completed with the officially documented data and any corresponding revision to the risk categorization shall be made. The office shall periodically revalidate any approved risk assessment instrument. The office shall conspicuously post any approved detention risk assessment instrument on its website and shall confer with appropriate stakeholders, including but not limited to, attorneys for children, presentment agencies, probation, and the family court, prior to revising any validated risk assessment instrument. § 534. Short title. This article shall be known and may be cited as the "waterfront commission act".

§ 534-a. Legislative findings and declarations. 1. The state of New York hereby finds and declares that:

In 1953, the conditions under which waterfront labor was employed within the port of New York district were depressing and degrading to such labor, resulting from the lack of any systematic method of hiring, the lack of adequate information as to the availability of employment, corrupt and discriminatory hiring practices, criminal practices, and coercion of employees or employers. Now, it continues to be in the best interest of the state to regulate activities within the port of New York district in this state to prevent such conditions and to prevent circumstances that result in waterfront laborers suffering from irregularity of employment, fear and insecurity, inadequate earnings, an unduly high accident rate, subjection to borrowing at usurious rates of interest, exploitation and extortion as the price of securing employment, a loss of respect for the law, and destruction of the dignity of an important segment of American labor, and to prevent a direct encouragement of crime which imposes a levy of greatly increased costs on food, fuel and other necessities handled in and through the port of New York district in this state.

It is in the best interest of the state to ensure that the function of loading and unloading trucks and other land vehicles at piers and other waterfront terminals should be performed, as in every other major American port, without the abuses of the public loader system, and by the carriers of freight by water, stevedores and operators of such piers and other waterfront terminals or the operators of such trucks or other land vehicles. Therefore, it is in the best interest of the state to regulate the occupations of longshore workers, stevedores, pier superintendents, hiring agents, and security officers, who are affected

with a public interest, which is an exercise of the police power of this state. It is further in the best interest of the state to ensure that the method of employment of longshore workers and security officers be conducted through employment information centers to prevent grave injury to the welfare of waterfront laborers and of the people at large and to ensure the preservation of the fundamental rights and liberties of labor, the economic stability of the port of New York district in this state, and the advancement of law enforcement therein.

Although law enforcement's efforts against traditional organized crime influence have been successful, such influence remains a significant threat in the New York metropolitan area, particularly in the port. Continued oversight is essential to ensure fair and nondiscriminatory hiring practices, to eliminate labor racketeering and the victimization of legitimate union members and port businesses, and to prevent organized crime figures from directly operating at the critical points of interstate and international shipping.

To preserve the safety and welfare of the state, it is the intent of this act to prevent and eradicate mismanagement, abuse of labor, coercion, corruption, prevalence of organized crime and other criminal activity, to exclude or remove from the port workforce individuals who were convicted of serious crimes or who associate with organized crime in violation of this act, to overcome discrimination and other unfair hiring practices, and to extirpate corruption and racketeering in the port of New York district in this state.

2. Nothing in this section contained shall be deemed to permit any such loading or unloading of any waterborne freight at any place by any such person by means of any independent contractor, or any other agent other than an employee, unless such independent contractor is a person permitted by this section to load or unload such freight at such place in the person's own right.

§ 534-i. Longshore workers' register. 1. The commission shall maintain a longshore workers' register in which shall be included all qualified longshore workers eligible, as provided, for employment as such in the port of New York district in this state. No person shall act as a longshore worker within the port of New York district in this state unless at the time such person is included in the longshore workers' register, and no person shall employ another to work as a longshore worker within the port of New York district in this state unless at the time such other person is included in the longshore workers' register.

2. Any person applying for inclusion in the longshore workers' register shall file at such place and in such manner as the commission

shall designate a written statement, signed and verified by such person, setting forth the person's full name, residence address, social security number, and such further facts and evidence as the commission may prescribe to establish the identity of such person and the person's criminal record, if any.

3. The commission may in its discretion deny application for inclusion in the longshore workers' register by a person:

(a) Who has been convicted by a court of the United States or any state or territory thereof, without subsequent pardon, of treason, murder, manslaughter or of any crime punishable by death or imprisonment for a term exceeding three hundred sixty-four days or of any of the misdemeanors or offenses described in paragraph (b) of subdivision three of section five hundred thirty-four-f of this article or of attempt or conspiracy to commit any of such crimes;

(b) Who knowingly or willingly advocates the desirability of overthrowing or destroying the government of the United States by force or violence or who shall be a member of a group which advocates such desirability knowing the purposes of such group include such advocacy;

(c) Whose presence at the piers or other waterfront terminals in the port of New York district in this state is found by the commission on the basis of the facts and evidence before it, to constitute a danger to the public peace or safety.

4. Unless the commission shall determine to exclude the applicant from the longshore workers' register on a ground set forth in subdivision three of this section it shall include such person in the longshore workers' register. The commission shall issue a determination within thirty days of receipt of the application provided, however, that this time requirement shall not apply for any period of delay caused or requested by the applicant. If the commission cannot make a determination within that time, it shall notify the applicant that the application is still under review. The commission may permit temporary registration of any applicant under the provisions of this section pending final action on an application made for such registration. Any such temporary registration shall be valid for a period not in excess of six months.

5. The commission shall have power to reprimand any longshore worker registered under this section or to remove that person from the longshore workers' register for such period as it deems in the public interest for any of the following offenses:

(a) Conviction of a crime or other cause which would permit disqualification of such person from inclusion in the longshore workers' register upon original application;

(b) Fraud, deceit or misrepresentation in securing inclusion in the longshore workers' register;

(c) Transfer or surrender of possession to any person either temporarily or permanently of any card or other means of identification issued by the commission as evidence of inclusion in the longshore workers' register, without satisfactory explanation;

(d) False impersonation of another longshore worker registered under this section or of another person licensed under this act;

(e) Willful commission of or willful attempt to commit at or on a waterfront terminal or adjacent highway any act of physical injury to any other person or of willful damage to or misappropriation of any other person's property, unless justified or excused by law; and

(f) Any other offense described in paragraphs (c), (d), (e), and (f) of subdivision seven of section five hundred thirty-four-f of this article.

6. Whenever, as a result of legislative amendments to this act or of a ruling by the commission, registration as a longshore worker is required for any person to continue employment, such person shall be registered as a longshore worker without regard to the provisions of section five hundred thirty-four-l of this article, provided, however, that such person satisfies all the other requirements of this act for registration as a longshore worker.

7. The commission shall have the right to recover possession of any card or other means of identification issued as evidence of inclusion in the longshore workers' register if the holder thereof has been removed from the longshore workers' register.

8. Nothing contained in this article shall be construed to limit in any way any rights of labor reserved by section five hundred thirty-four-q of this article.

§ 534-j. List of qualified longshore workers for employment as checkers. 1. The commission shall maintain within the longshore workers' register a list of all qualified longshore workers eligible, as provided in this section, for employment as checkers in the port of New York district in this state. No person shall act as a checker within the port of New York district in this state unless at the time such person is included in the longshore workers' register as a checker, and no person shall employ another to work as a checker within the port of New York district in this state unless at the time such other person is included in the longshore workers' register as a checker.

2. Any person applying for inclusion in the longshore workers' register as a checker shall file at any such place and in such manner as the commission shall designate a written statement, signed and verified by such person, setting forth the following:

(a) The full name, residence, place and date of birth and social security number of the applicant;

(b) The present and previous occupations of the applicant, including the places where such person was employed and the names of that person's employers;

(c) Such further facts and evidence as may be required by the commission to ascertain the character, integrity and identity of the applicant.

3. No person shall be included in the longshore workers' register as a checker:

(a) Unless the commission shall be satisfied that the applicant possesses good character and integrity;

(b) If the applicant has, without subsequent pardon, been convicted by a court of the United States or any state or territory thereof, of the commission of, or the attempt or conspiracy to commit, treason, murder, manslaughter or any crime punishable by death or imprisonment for a term

exceeding three hundred sixty-four days or any of the following misdemeanors or offenses: illegally using, carrying or possessing a pistol or another dangerous weapon; making or possessing burglar's instruments; buying or receiving stolen property; unlawful entry of a building; aiding an escape from prison; unlawfully possessing, possessing with intent to distribute, sale or distribution of a controlled dangerous substance (controlled substance) or a controlled dangerous substance analog (controlled substance analog); petty larceny, where the evidence shows the property was stolen from a vessel, pier or other waterfront terminal; and violation of the act. Any such applicant ineligible for inclusion in the longshore workers' register as a checker by reason of any such conviction may submit satisfactory evidence to the commission that the person has for a period of not less than five years, measured as provided in this section, and up to the time of application, so acted in a manner as to warrant inclusion in the longshore workers' register as a checker, in which event the commission may, in its discretion, issue an order removing such ineligibility. The aforesaid period of five years shall be measured either from the date of payment of any fine imposed upon such person or the suspension of sentence or from the date of such person's unrevoked release from custody by parole, commutation or termination of such person's sentence;

(c) If the applicant knowingly or willfully advocates the desirability of overthrowing or destroying the government of the United States by force or violence or shall be a member of a group which advocates such desirability, knowing the purposes of such group include such advocacy.

4. When the application shall have been examined and such further inquiry and investigation made as the commission shall deem proper and when the commission shall be satisfied therefrom that the applicant possesses the qualifications and requirements prescribed by this section, the commission shall include the applicant in the longshore workers' register as a checker. The commission may permit temporary registration as a checker to any applicant under this section pending final action on an application made for such registration, under such terms and conditions as the commission may prescribe, which shall be valid for a period to be fixed by the commission, not in excess of six months.

5. The commission shall have power to reprimand any checker registered under this section or to remove such person from the longshore workers' register as a checker for such period of time as it deems in the public interest for any of the following offenses:

(a) Conviction of a crime or other cause which would permit disqualification of such person from inclusion in the longshore workers' register as a checker upon original application;

(b) Fraud, deceit or misrepresentation in securing inclusion in the longshore workers' register as a checker or in the conduct of the registered activity;

(c) Violation of any of the provisions of this act;

(d) Criminal possession of a controlled substance or criminal sale of a controlled substance;

(e) Inducing or otherwise aiding or abetting any person to violate the terms of this act;

(f) Paying, giving, causing to be paid or given or offering to pay or give to any person any valuable consideration to induce such other person to violate any provision of this act or to induce any public officer, agent or employee to fail to perform the person's duty under this act;

(g) Consorting with known criminals for an unlawful purpose, provided, however, that consorting without unlawful purpose shall be insufficient grounds for reprimand;

(h) Transfer or surrender of possession to any person either temporarily or permanently of any card or other means of identification issued by the commission as evidence of inclusion in the workers' register without satisfactory explanation;

(i) False impersonation of another longshore worker or of another person licensed under this act.

6. The commission shall have the right to recover possession of any card or other means of identification issued as evidence of inclusion in the longshore workers' register as a checker in the event that the holder thereof has been removed from the longshore workers' register as a checker.

7. Any applicant ineligible for inclusion in the longshore workers' register as a checker by reason of the provisions of paragraph (b) of subdivision three of this section may petition for and the commission may issue an order removing the ineligibility. A petition for an order to remove ineligibility may be made to the commission before or after the hearing required by section five hundred thirty-four-n of this article.

8. Nothing contained in this section shall be construed to limit in any way any rights of labor reserved by section five hundred thirty-four-q of this article.

§ 534-k. Regularization of longshore workers' employment. 1. The commission shall, at regular intervals, remove from the longshore workers' register any person who shall have been registered for at least nine months and who shall have failed during the preceding six calendar months either to have worked as a longshore worker in the port of New York district or to have applied for employment as a longshore worker at an employment information center in the port of New York district for such minimum number of days as shall have been established by the commission pursuant to subdivision two of this section.

2. On or before each succeeding first day of June or December, the commission shall, for the purposes of subdivision one of this section, establish for the six-month period beginning on each such date a minimum number of days and the distribution of such days during such period.

3. In establishing any such minimum number of days or period, the commission shall observe the following standards:

(a) To encourage as far as practicable the regularization of the employment of longshore workers;

(b) To bring the number of eligible longshore workers more closely into balance with the demand for longshore workers' services within the port of New York district in this state without reducing the number of eligible longshore workers below that necessary to meet the requirements of longshore workers in the port of New York district in this state;

(c) To eliminate oppressive, unlawful, discriminatory, and corrupt hiring practices affecting longshore workers and waterborne commerce in the port of New York district in this state; and

(d) To eliminate unlawful practices injurious to waterfront labor.

4. A longshore worker who has been removed from the longshore workers' register pursuant to this section may seek reinstatement upon fulfilling the same requirements as for initial inclusion in the longshore workers' register, but not before the expiration of one year from the date of removal, except that immediate reinstatement shall be made upon proper showing that the registrant's failure to work or apply for work the minimum number of days above described was caused by the fact that the registrant was engaged in the military service of the United States or was incapacitated by ill health, physical injury, or other good cause.

5. Notwithstanding any other provision of this article, the commission shall at any time have the power to register longshore workers on a temporary basis to meet special or emergency needs.

6. Notwithstanding any other provisions of this section, the commission shall have the power to remove from the longshore workers' register any person (including those persons registered as longshore workers for less than nine months) who shall have failed to have worked as a longshore worker in the port of New York district for such minimum number of days during a period of time as shall have been established by the commission. In administering this section, the commission, in its discretion, may count applications for employment as a longshore worker at an employment information center established under section five hundred thirty-four-o of this article as constituting actual work as a longshore worker, provided, however, that the commission shall count as actual work the compensation received by any longshore worker pursuant to the guaranteed wage provisions of any collective bargaining agreement relating to longshore workers. Prior to the commencement of any period of time established by the commission pursuant to this section, the commission shall establish for such period the minimum number of days of work required and the distribution of such days during such period and shall also determine whether or not application for employment as a

longshore worker shall be counted as constituting actual work as a longshore worker. The commission may classify longshore workers according to length of service as a longshore worker and such other criteria as may be reasonable and necessary to carry out the provisions of this act. The commission shall have the power to vary the requirements of this section with respect to their application to the various classifications of longshore workers. In administering this section, the commission shall observe the standards set forth in section five hundred thirty-four-l of this article. Nothing in this section shall be construed to modify, limit or restrict in any way any of the rights protected by section five hundred thirty-four-q of this article.

§ 534-l. Suspension or acceptance of applications for inclusion in the longshore workers' register; exceptions. 1. The commission shall have the power to make determinations to suspend the acceptance of applications for inclusion in the longshore workers' register for such periods of time as the commission may from time to time establish and, after any such period of suspension, the commission shall have the power to make determinations to accept applications for such period of time as the commission may establish or in such number as the commission may determine, or both. Such determinations to suspend or accept applications shall be made by the commission: (a) on its own initiative when it determines that continued acceptance of applications for inclusion in the longshore workers' register will violate the standards set forth in subdivision two of this section; or (b) upon the joint recommendation in writing of stevedores and other employers of longshore workers in the port of New York district in this state, acting through their representative for the purpose of collective bargaining with a labor organization representing such longshore workers in such district and such labor organization; or (c) upon the petition in writing of a stevedore or another employer of longshore workers in the port of New York district in this state which does not have a representative for the purpose of collective bargaining with a labor organization representing such longshore workers. The commission shall have the power to accept or reject such joint recommendation or petition. All joint recommendations or petitions filed for the acceptance of applications with the

commission for inclusion in the longshore workers' register shall include:

- (i) the number of employees requested;
- (ii) the category or categories of employees requested;
- (iii) a detailed statement setting forth the reasons for such joint recommendation or petition;
- (iv) in cases where a joint recommendation is made under this section, the collective bargaining representative of stevedores and other employers of longshore workers in the port of New York district in this state and the labor organization representing such longshore workers shall provide the allocation of the number of persons to be sponsored by each employer of longshore workers in the port of New York district in this state; and
- (v) any other information requested by the commission.

2. In administering the provisions of this section, the commission shall observe the following standards:

- (a) To encourage as far as practicable the regularization of the employment of longshore workers;
- (b) To bring the number of eligible longshore workers into balance with the demand for longshore workers' services within the port of New York district in this state without reducing the number of eligible longshore workers below that necessary to meet the requirements of longshore workers in the port of New York district in this state;
- (c) To encourage the mobility and full utilization of the existing work force of longshore workers;
- (d) To protect the job security of the existing work force of longshore workers by considering the wages and employment benefits of prospective registrants;
- (e) To eliminate oppressive, unlawful, discriminatory, and corrupt hiring practices injurious to waterfront labor and waterborne commerce in the port of New York district in this state, including, but not limited to, those oppressive, unlawful, discriminatory, and corrupt hiring practices that may result from either a surplus or shortage of waterfront labor;
- (f) To consider the effect of technological change and automation and such other economic data and facts as are relevant to a proper

determination; and

(g) To protect the public interest of this state.

3. (a) In observing the foregoing standards and before determining to suspend or accept applications for inclusion in the longshore workers' register, the commission shall consult with and consider the views of, including any statistical data or other factual information concerning the size of the longshore workers' register submitted by, carriers of freight by water, stevedores, waterfront terminal owners and operators, any labor organization representing employees registered by the commission, and any other person whose interests may be affected by the size of the longshore workers' register. The commission shall publish on its website the justification for any determination to suspend applications for inclusion in the longshore workers' register, and shall notify the governor and the legislature of such suspension, within ten days of such action.

(b) Any recommendation or petition granted hereunder shall be subject to such terms and conditions as the commission may prescribe consistent with the provisions of this act or any regulations promulgated thereof.

4. Any determination by the commission pursuant to this section to suspend or accept applications for inclusion in the longshore workers' register shall be made upon a record, shall not become effective until five days after notice thereof to the collective bargaining representative of stevedores and other employers of longshore workers in the port of New York district in this state and to the labor organization representing such longshore workers and/or the petitioning stevedore or other employer of longshore workers in the port of New York district in this state and shall be subject to judicial review for being arbitrary, capricious, and an abuse of discretion in a proceeding jointly instituted by such representative and such labor organization and/or by the petitioning stevedore or other employer of longshore workers in the port of New York district in this state. Such judicial review proceeding may be instituted in the manner provided by the law of this state for review of the final decision or action of administrative agencies of this state, provided, however, that such proceeding shall be decided directly by the appellate division as the court of first

instance (to which the proceeding shall be transferred by order of transfer by the supreme court in the state of New York by notice of appeal from the commission's determination) and provided further that notwithstanding any other provision of law in this state no court shall have power to stay the commission's determination prior to final judicial decision for more than fifteen days. In the event that the court enters a final order setting aside the determination by the commission to accept applications for inclusion in the longshore workers' register, the registration of any longshore workers included in the longshore workers' register as a result of such determination by the commission shall be cancelled.

5. This section shall apply, notwithstanding any other provision of this act, provided however, such section shall not in any way limit or restrict the provisions of this subdivision empowering the commission to register longshore workers on a temporary basis to meet special or emergency needs or the provisions of subdivision four of section five hundred thirty-four-k of this article relating to the immediate reinstatement of persons removed from the longshore workers' register pursuant to this section.

6. Upon the granting of any joint recommendation or petition under this section for the acceptance of applications for inclusion in the longshore workers' register, the commission shall accept applications upon written sponsorship from the prospective employer of longshore workers. The sponsoring employer shall furnish the commission with the name, address and such other identifying or category information as the commission may prescribe for any person so sponsored. The sponsoring employer shall certify that the selection of the persons so sponsored was made in a fair and non-discriminatory basis in accordance with the requirements of the laws of the United States and the state of New York dealing with equal employment opportunities. Notwithstanding any of the foregoing, where the commission determines to accept applications for inclusion in the longshore workers' register on its own initiative, such acceptance shall be accomplished in such manner deemed appropriate by the commission.

7. Notwithstanding any other provision of this article, the commission may include in the longshore workers' register under such terms and conditions as the commission may prescribe:

(a) a person issued registration on a temporary basis to meet special or emergency needs who is still so registered by the commission; and

(b) a person defined as a longshore worker in subparagraph four of paragraph (a), or paragraph (b) of subdivision twelve of section five hundred thirty-four-b of this article who is employed by a stevedore defined in paragraph (c) or (d) of subdivision twenty-two of section five hundred thirty-four-b of this article and whose employment is not subject to the guaranteed annual income provisions of any collective bargaining agreement relating to longshore workers.

8. The commission may include in the longshore workers' register, under such terms and conditions as the commission may prescribe, persons issued registration on a temporary basis as a longshore worker or a checker to meet special or emergency needs and who are still so registered by the commission upon the enactment of this act.

9. Nothing in this section shall be construed to modify, limit or restrict in any way any of the rights protected by section five hundred thirty-four-q of this article.

§ 534-m. Security officer. 1. No person shall act as a security officer within the port of New York district in this state without first having obtained a license from the commission or previously, from the bi-state commission, and no person shall employ a security officer who is not so licensed.

2. A license to act as a security officer shall be issued only upon written application, duly verified, which shall state the following:

(a) The full name, residence, business address (if any), place and date of birth and social security number of the applicant;

(b) The present and previous occupations of the applicant, including the places where the person was employed and the names of the person's employers;

(c) The citizenship of the applicant and, if the person is a naturalized citizen of the United States, the court and date of naturalization; and

(d) Such further facts and evidence as may be required by the commission to ascertain the character, integrity and identity of the applicant.

3. No such license shall be granted:

(a) Unless the commission shall be satisfied that the applicant possesses good character and integrity;

(b) If the applicant has, without subsequent pardon, been convicted by a court of the United States or of any state or territory thereof of the commission of, or the attempt or conspiracy to commit, treason, murder, manslaughter or any crime punishable by death or imprisonment for a term exceeding one year or any of the misdemeanors or offenses described in paragraph (b) of subdivision three of section five hundred thirty-four-f of this article;

(c) Unless the applicant shall meet such reasonable standards of physical and mental fitness for the discharge of a security officer's duties as may from time to time be established by the commission;

(d) If the applicant shall be a member of any labor organization which represents longshore workers or pier superintendents or hiring agents; but nothing in this section shall be deemed to prohibit security officers from being represented by a labor organization or organizations which do not also represent longshore workers or pier superintendents or hiring agents. The American Federation of Labor and Congress of Industrial Organizations and any other similar federation, congress or other organization of national or international occupational or industrial labor organizations shall not be considered an organization which represents longshore workers or pier superintendents or hiring agents within the meaning of this section although one of the federated or constituent labor organizations thereof may represent longshore workers or pier superintendents or hiring agents;

(e) If the applicant knowingly or willfully advocates the desirability of overthrowing or destroying the government of the United States by force or violence or shall be a member of a group which advocates such desirability, knowing the purposes of such group include such advocacy.

4. When the application shall have been examined and such further inquiry and investigation made as the commission shall deem proper and when the commission shall be satisfied therefrom that the applicant possesses the qualifications and requirements prescribed by this section and regulations issued pursuant thereto, the commission shall issue and deliver a license to the applicant. The commission may issue a temporary permit to any applicant for a license under the provisions of this section pending final action on an application made for such a license. Any such permit shall be valid for a period not in excess of six months.

5. A license granted pursuant to this section shall continue for a term of three years. A license may be renewed by the commission for successive three-year periods upon fulfilling the same requirements as set forth in this section for an original application.

6. Notwithstanding any provision set forth in this section, a license to act as a security officer shall continue and need not be renewed, provided the licensee shall, as required by the commission:

- (a) Submit to a medical examination and meet the physical and mental fitness standards established by the commission pursuant to paragraph (c) of subdivision three of this section;
- (b) Complete a refresher course of training; and
- (c) Submit supplementary personal history information.

7. Any license issued pursuant to this section may be revoked or suspended for such period as the commission deems in the public interest or the licensee thereunder may be reprimanded for any of the following offenses:

- (a) Conviction of a crime or other cause which would permit or require the person's disqualification from receiving a license upon original application;
- (b) Fraud, deceit or misrepresentation in securing the license; and
- (c) Any other offense described in paragraphs (c), (d), (e), (f), (g), (h), and (i) of subdivision seven of section five hundred thirty-four-f of this article.

8. The commission shall, at regular intervals, cancel the license or temporary permit of a security officer who shall have failed during the preceding twelve months to have worked as a security officer in the port of New York district a minimum number of hours as shall have been established by the commission, except that immediate restoration of such license or temporary permit shall be made upon proper showing that the failure to so work was caused by the fact that the licensee or permittee was engaged in the military service of the United States or was incapacitated by ill health, physical injury or other good cause.

9. Any applicant for security officer ineligible for a license by reason of the provisions of paragraph (b) of subdivision three of this section may petition for and the commission may issue an order removing the ineligibility. A petition for an order to remove ineligibility may be made to the commission before or after the hearing required by section five hundred thirty-four-n of this article.

§ 534-n. Hearings, determinations and review. 1. The commission shall not deny any application for a license or registration without giving the applicant or prospective licensee reasonable prior notice and an opportunity to be heard by the commission.

2. Any application for a license or for inclusion in the longshore workers' register, and any license issued or registration made, may be denied, revoked, or suspended only in the manner prescribed in this section.

3. The commission may on its own initiative or on complaint of any person, including any public official or agency, institute proceedings to revoke or suspend any license or registration after a hearing at which the licensee or registrant and any person making such complaint shall be given an opportunity to be heard, provided that any order of the commission revoking or suspending any license or registration shall not become effective until fifteen days subsequent to the serving of notice thereof upon the licensee or registrant unless in the opinion of the commission the continuance of the license or registration for such

period would be inimical to the public peace or safety. Such hearings shall be held in such manner and upon such notice as may be prescribed by the rules of the commission, but such notice shall be of not less than ten days and shall state the nature of the complaint.

4. Pending the determination of such hearing pursuant to subdivision three of this section, the commission may temporarily suspend a permit, license or registration until further order of the commission if in the opinion of the commission the continuance of the permit, license or registration for such period is inimical to the public peace or safety.

(a) The commission may temporarily suspend a permit, license or registration pursuant to the provisions of this subdivision until further order of the commission or final disposition of the underlying case, where the permittee, licensee or registrant has been indicted for, or otherwise charged with, a crime which is equivalent to a felony in the state of New York or any crime punishable by death or imprisonment for a term exceeding three hundred sixty-four days or where the permittee or licensee is a security officer who is charged by the commission pursuant to this section with misappropriating any other person's property at or on a pier or other waterfront terminal.

(b) In the case of a permittee, licensee or registrant who has been indicted for, or otherwise charged with, a crime, the temporary suspension shall terminate immediately upon acquittal or upon dismissal of the criminal charge, unless in the opinion of the commission the continuance of any such permit, license or registration is inimical to the public peace or safety.

(c) A person whose permit, license or registration has been temporarily suspended may, at any time, demand that the commission conduct a hearing as provided for in this section. Within sixty days of such demand, the commission shall commence the hearing and, within thirty days of receipt of the administrative judge's report and recommendation, the commission shall render a final determination thereon; provided, however, that these time requirements, shall not apply for any period of delay caused or requested by the permittee, licensee or registrant. Upon failure of the commission to commence a hearing or render a determination within the time limits prescribed herein, the temporary suspension of the licensee or registrant shall

immediately terminate. Notwithstanding any other provision of this subdivision, if a federal, state, or local law enforcement agency or prosecutor's office shall request the suspension or deferment of any hearing on the ground that such a hearing would obstruct or prejudice an investigation or prosecution, the commission may in its discretion, postpone or defer such hearing for a time certain or indefinitely. Any action by the commission to postpone a hearing shall be subject to immediate judicial review as provided in subdivision seven of this section.

(d) The commission may in addition, within its discretion, bar any permittee, licensee or registrant whose license or registration has been suspended pursuant to this section, from any employment by a licensed stevedore or a carrier of freight by water during the period of such suspension, if the alleged crime that forms the basis of such suspension involves the possession with intent to distribute, sale, or distribution of a controlled dangerous substance (controlled substance), or controlled dangerous substance analog (controlled substance analog), racketeering or theft from a pier or waterfront terminal.

5. The commission, or such officer, employee or agent of the commission as may be designated by the commission for such purpose, shall have the power to issue subpoenas to compel the attendance of witnesses and the giving of testimony or production of other evidence and to administer oaths in connection with any such hearing. It shall be the duty of the commission or of any officer, employee or agent of the commission designated by the commission for such purpose to issue subpoenas at the request of and upon behalf of the licensee, registrant or applicant. The commission or such person conducting the hearing shall not be bound by common law or statutory rules of evidence or by technical or formal rules of procedure in the conduct of such hearing.

6. Upon the conclusion of the hearing, the commission shall take such action upon such findings and determination as it deems proper and shall execute an order carrying such findings into effect. The action in the case of an application for a license or registration shall be the granting or denial thereof. The action in the case of a licensee shall be revocation of the license or suspension thereof for a fixed period or

reprimand or a dismissal of the charges. The action in the case of a registered longshore worker shall be dismissal of the charges, reprimand or removal from the longshore workers' register for a fixed period or permanently.

7. The action of the commission in denying any application for a license or in refusing to include any person in the longshore workers' register under this act or in suspending or revoking such license or removing any person from the longshore workers' register or in reprimanding a licensee or registrant shall be subject to judicial review by a proceeding instituted in this state at the instance of the applicant, licensee or registrant in the manner provided by state law for review of the final decision or action of an agency of this state provided, however, that notwithstanding any other provision of law the court shall have power to stay for not more than thirty days an order of the commission suspending or revoking a license or removing a longshore worker from the longshore workers' register.

8. At hearings conducted by the commission pursuant to this section, applicants, prospective licensees, licensees and registrants shall have the right to be accompanied and represented by counsel.

9. After the conclusion of a hearing but prior to the making of an order by the commission, a hearing may, upon petition and in the discretion of the hearing officer, be reopened for the presentation of additional evidence. Such petition to reopen the hearing shall state in detail the nature of the additional evidence, together with the reasons for the failure to submit such evidence prior to the conclusion of the hearing. The commission may upon its own motion and upon reasonable notice reopen a hearing for the presentation of additional evidence. Upon petition, after the making of an order of the commission, rehearing may be granted in the discretion of the commission. Such a petition for rehearing shall state in detail the grounds upon which the petition is based and shall separately set forth each error of law and fact alleged to have been made by the commission in its determination, together with the facts and arguments in support thereof. Such petition shall be filed with the commission not later than thirty days after service of such

order, unless the commission for good cause shown shall otherwise direct. The commission may upon its own motion grant a rehearing after the making of an order.

§ 534-o. Employment information centers. 1. The commission shall establish and maintain one or more employment information centers within the port of New York district in this state at such locations as it may determine. No person shall, directly or indirectly, hire any person for work as a longshore worker or security officer within the port of New York district in this state, except through such particular employment information center or centers as may be prescribed by the commission. No person shall accept any employment as a longshore worker or security officer within the port of New York district in this state, except through such an employment information center. At each such employment information center the commission shall keep and exhibit the longshore workers' register and any other records it shall determine to the end that longshore workers and security officers shall have the maximum information as to available employment as such at any time within the port of New York district in this state and to the end that employers shall have an adequate opportunity to fill their requirements of registered longshore workers and security officers at all times.

2. Every employer of longshore workers or security officers within the port of New York district in this state shall furnish such information as may be required by the rules and regulations prescribed by the commission with regard to the name of each person hired as a longshore worker or security officer, the time and place of hiring, the time, place and hours of work, and the compensation therefor.

§ 534-p. Implementation of telecommunications hiring system for longshore workers and checkers; registration of telecommunications system controller. 1. The commission may designate one of the employment information centers it is authorized to establish and maintain under section five hundred thirty-four-o of this article for the implementation of a telecommunications hiring system through which

longshore workers and checkers may be hired and accept employment without any personal appearance at said center. Any such telecommunications hiring system shall incorporate hiring and seniority agreements between the employers of longshore workers and checkers and the labor organization representing longshore workers and checkers in the port of New York district in this state, provided said agreements are not in conflict with the provisions of the article.

2. The commission shall permit employees of the association representing employers of longshore workers and checkers and of the labor organization representing longshore workers and checkers in the port of New York district in this state, or of a joint board of such association and labor organization, to participate in the operation of said telecommunications hiring system, provided that any such employee is registered by the commission as a "telecommunications system controller" in accordance with the provisions, standards and grounds set forth in the act with respect to the registration of checkers. No person shall act as a "telecommunications system controller" unless that person is so registered. Any application for such registration and any registration made or issued may be denied, revoked, or suspended, as the case may be, only in the manner prescribed in section five hundred thirty-four-n of this article. Any and all such participation in the operation of said telecommunications hiring system shall be monitored by the commission.

3. Any and all records, documents, tapes, discs and other data compiled, collected or maintained by said association of employers, labor organization and joint board of such association and labor organization pertaining to the telecommunications hiring system shall be available for inspection, investigation and duplication by the commission.

§ 534-q. Construction of act. 1. This act is not designed and shall not be construed to limit in any way any rights granted or derived from any other statute or any rule of law for employees to organize in labor organizations, to bargain collectively and to act in any other way

individually, collectively, and through labor organizations or other representatives of their own choosing. Without limiting the generality of the foregoing, nothing contained in this act shall be construed to limit in any way the right of employees to strike.

2. This act is not designed and shall not be construed to limit in any way any rights of longshore workers, hiring agents, pier superintendents or security officers or their employers to bargain collectively and agree upon any method for the selection of such employees by way of seniority, experience, regular gangs or otherwise, provided that such employees shall be licensed or registered hereunder and such longshore workers and security officers shall be hired only through the employment information centers established hereunder and that all other provisions of this act be observed.

§ 534-r. Certain solicitations prohibited; prohibition against the holding of union position by officers, agents or employees who have been convicted of certain crimes and offenses. 1. No person shall solicit, collect or receive any dues, assessments, levies, fines or contributions, or other charges within the state for or on behalf of any labor organization which represents employees registered or licensed pursuant to the provisions of this article or which derives its charter from a labor organization representing one hundred or more of such registered or licensed employees, if any officer, agent or employee of such labor organization, or of a welfare fund or trust administered partially or entirely by such labor organization or by trustees or other persons designated by such labor organization, has been convicted by a court of the United States, or any state or territory thereof, of a felony, any misdemeanor involving moral turpitude or any crime or offense enumerated in paragraph (b) of subdivision three of section five hundred thirty-four-j of this article, unless such person has been subsequently pardoned therefor by the governor or other appropriate authority of the state or jurisdiction in which such conviction was had or has received a certificate of good conduct from the board of parole pursuant to the provisions of this chapter to remove the disability. No person so convicted shall serve as an officer, agent or employee of such

labor organization, welfare fund or trust unless such person has been so pardoned or has received a certificate of good conduct. No person, including such labor organization, welfare fund or trust, shall knowingly permit such convicted person to assume or hold any office, agency, or employment in violation of this section.

2. As used in this section, the term "labor organization" shall mean and include any organization which exists and is constituted for the purpose in whole or in part of collective bargaining, or of dealing with employers concerning grievances, terms and conditions of employment, or of other mutual aid or protection; but it shall not include a federation or congress of labor organizations organized on a national or international basis even though one of its constituent labor organizations may represent persons so registered or licensed.

3. Any person who shall violate this section shall be guilty of a misdemeanor punishable by a fine of not more than five hundred dollars or imprisonment for not more than three hundred sixty-four days, or both.

4. If upon application to the commission by an employee who has been convicted of a crime or offense specified in subdivision one of this section the commission, in its discretion, determines in an order that it would not be contrary to the purposes and objectives of this act for such employee to work in a particular employment for a labor organization, welfare fund or trust within the meaning of subdivision two of this section, the provisions of subdivision two of this section shall not apply to the particular employment of such employee with respect to such conviction or convictions as are specified in the commission's order. This section is applicable only to those employees who for wages or salary perform manual, mechanical, or physical work of a routine or clerical nature at the premises of the labor organization, welfare fund or trust by which they are employed.

5. No person who has been convicted of a crime or offense specified in subdivision one of this section shall directly or indirectly serve as an officer, agent or employee of a labor organization, welfare fund or

trust unless such person has been subsequently pardoned for such crime or offense by the governor or other appropriate authority of the state or jurisdiction in which such conviction was had or has received a certificate of good conduct or other relief from disabilities arising from the fact of conviction from a board of parole or similar authority or has received pursuant to subdivision one of this section an order of exception from the commission. No person, including a labor organization, welfare fund or trust within the meaning of subdivision one of this section, shall knowingly permit any other person to assume or hold any office, agency or employment in violation of this section.

6. The commission may maintain a civil action against any person, labor organization, welfare fund or trust or officers thereof to compel compliance with this section, or to prevent any violations, the aiding and abetting thereof, or any attempt or conspiracy to violate this section, either by mandamus, injunction or action and upon a proper showing a temporary restraining order or other appropriate temporary order shall be granted ex parte and without bond pending final hearing and determination. Nothing in this section shall be construed to modify, limit or restrict in any way the provisions of subdivision one of this section.

§ 534-s. General violations; prosecutions; penalties. 1. Any person who, having been duly sworn or affirmed as a witness in any such hearing, shall willfully give false testimony or who shall willfully make or file any false or fraudulent report or statement required by this article to be made or filed under oath, shall be guilty of a misdemeanor, punishable by a fine of not more than one thousand dollars or imprisonment for not more than three hundred sixty-four days, or both.

3. Any person who, having been duly sworn or affirmed as a witness in any investigation, interview or other proceeding conducted by the commission pursuant to the provisions of this article, shall willfully give false testimony shall be guilty of a misdemeanor, punishable by a fine of not more than one thousand dollars or imprisonment for not more than three hundred sixty-four days, or both.

4. The commission may maintain a civil action on behalf of the state against any person who violates or attempts or conspires to violate this section or who fails, omits, or neglects to obey, observe, or comply with any order or direction of the commission, to recover a judgment for a money penalty not exceeding five hundred dollars for each and every offense. Every violation of any such provision, order or direction, shall be a separate and distinct offense, and, in case of a continuing violation, every day's continuance shall be and be deemed to be a separate and distinct offense. Any such action may be compromised or discontinued on application of the commission upon such terms as the court may approve and a judgment may be rendered for an amount less than the amount demanded in the complaint as justice may require.

5. The commission may maintain a civil action against any person to compel compliance with any of the provisions of this act or to prevent violations, attempts or conspiracies to violate any such provisions, or interference, attempts or conspiracies to interfere with or impede the enforcement of any such provisions or the exercise performance of any power or duty thereunder, either by mandamus, injunction or action.

6. Any person who violates or attempts or conspires to violate any other provision of this article shall be guilty of a misdemeanor, punishable by a fine of not more than five hundred dollars or by imprisonment for not more than three hundred sixty-four days, or both.

7. Any person who interferes with or impedes the orderly registration of longshore workers pursuant to this act or who conspires to or attempts to interfere with or impede such registration shall be guilty of a misdemeanor, punishable by a fine of not more than five hundred dollars or by imprisonment for not more than three hundred sixty-four

days, or both.

8. Any person who directly or indirectly inflicts or threatens to inflict any injury, damage, harm or loss or in any other manner practices intimidation upon or against any person in order to induce or compel such person or any other person to refrain from registering pursuant to this act shall be guilty of a misdemeanor, punishable by a fine of not more than five hundred dollars or by imprisonment for not more than three hundred sixty-four days, or both.

9. Any person who shall violate any of the provisions of this article or of section five hundred thirty-four-x of this article for which no other penalty is prescribed shall be guilty of a misdemeanor, punishable by a fine of not more than five hundred dollars or by imprisonment for not more than three hundred sixty-four days, or both.

10. No person shall, without a satisfactory explanation, loiter upon any vessel, dock, wharf, pier, bulkhead, terminal, warehouse, or other waterfront facility or within five hundred feet thereof in that portion of the port of New York district within the state of New York.

11. Any person who, without justification or excuse in law, directly or indirectly intimidates or inflicts any injury, damage, harm, loss or economic reprisal upon any person licensed or registered by the commission, or any other person, or attempts, conspires or threatens so to do, in order to interfere with, impede or influence such licensed or registered person in the performance or discharge of the person's duties or obligations shall be punishable as provided in subdivision three of section five hundred thirty-four-r of this article.

12. In any prosecution under this act, it shall be sufficient to prove only a single act or a single holding out or attempt prohibited by law, without having to prove a general course of conduct, in order to prove a violation.

§ 534-t. Denial of applications. In addition to the grounds elsewhere

set forth in this article, the commission may deny an application for a license or registration for any of the following:

1. Conviction by a court of the United States or any state or territory thereof of coercion;

Conviction by any such court, after having been previously convicted by any such court of any crime or of the offenses set forth in this article, of a misdemeanor or any of the following offenses: assault, malicious injury to property, malicious mischief, unlawful taking of a motor vehicle, corruption of employees or possession of lottery or number slips;

3. Fraud, deceit or misrepresentation in connection with any application or petition submitted to, or any interview, hearing or proceeding conducted by the commission;

4. Violation of any provision of this act or commission of any offense under this article;

5. Refusal on the part of any applicant, or prospective licensee, or of any member, officer or stockholder required by subdivision two of section five hundred thirty-four-g of this article to sign or be identified in an application for a stevedore license, to answer any material question or produce any material evidence in connection with the person's application or any application made on the person's behalf for a license or registration pursuant to this article;

6. Association with a person who has been identified by a federal, state, or local law enforcement agency as a member or associate of an organized crime group, a terrorist group, or a career offender cartel, or who is a career offender, under circumstances where such association creates a reasonable belief that the participation of the applicant in any activity required to be licensed under this article would be inimical to the policies of this article, provided, however, that association without the requisite showing of inimicality as set forth herein shall be insufficient grounds for denial; or

7. Conviction of a racketeering activity or knowing association with a person who has been convicted of a racketeering activity by a court of the United States or any state or territory thereof under circumstances where such association creates a reasonable belief that the participation of the applicant in any activity required to be licensed under this article would be inimical to the policies of this article, provided, however, that association without the requisite showing of inimicality as set forth herein shall be insufficient grounds for denial.

§ 534-u. Revocation of licenses and registrations. In addition to the grounds elsewhere set forth in this article, any license or registration issued or made pursuant thereto may be revoked or suspended for such period as the commission deems in the public interest or the licensee or registrant may be reprimanded, for:

1. Conviction of any crime or offense in relation to gambling if the crime or offense was committed at or on a pier or other waterfront terminal or within five hundred feet thereof;

2. Willful commission of, or willful attempt to commit at or on a waterfront terminal or adjacent highway, any act of physical injury to any other person or of willful damage to or misappropriation of any other person's property, unless justified or excused by law;

3. Receipt or solicitation of anything of value from any person other than a licensee's or registrant's employer as consideration for the selection or retention for employment of such licensee or registrant;

4. Coercion of a licensee or registrant to make purchases from or to utilize the services of any person;

5. Refusal to answer any material question or produce any evidence lawfully required to be answered or produced at any investigation, interview or other proceeding conducted by the commission pursuant to

the provisions of this act, or, if such refusal is accompanied by a valid plea of privilege against self-incrimination, refusal to obey an order to answer such question or produce such evidence made by the commission pursuant to the provisions of subdivision one of section five hundred thirty-four-v of this article;

6. Association with a person who has been identified by a federal, state, or local law enforcement agency as a member or associate of an organized crime group, a terrorist group, or a career offender cartel, or who is a career offender, under circumstances where such association creates a reasonable belief that the participation of the licensee or registrant in any activity required to be licensed under this act would be inimical to the policies of this article, provided however that association without the requisite showing of inimicality as set forth herein shall be insufficient grounds for revocation; or

7. Conviction of a racketeering activity or knowing association with a person who has been convicted of a racketeering activity by a court of the United States or any state or territory thereof under circumstances where such association creates a reasonable belief that the participation of the licensee or registrant in any activity required to be licensed under this act would be inimical to the policies of this article, provided, however, that association without the requisite showing of inimicality as set forth herein shall be insufficient grounds for revocation.

§ 534-v. Refusal to answer question, immunity; prosecution. 1. In any investigation, interview or other proceeding conducted under oath by the commission or any duly authorized officer, employee or agent thereof, if a person refuses to answer a question or produce evidence of any other kind on the ground that the person may be incriminated thereby, and, notwithstanding such refusal, an order is made upon twenty-four hours' prior written notice to the attorney general of the state of New York, and to the appropriate district attorney or prosecutor having an official interest therein, by the commissioner or by the commissioner's designees appointed pursuant to the provisions of subdivision three of

section five hundred thirty-four-c of this article, that such person answer the question or produce the evidence, such person shall comply with the order. If such person complies with the order, and if, but for this subdivision, would have been privileged to withhold the answer given or the evidence produced by the person, then immunity shall be conferred upon the person, as provided for in this section. "Immunity" as used in this subdivision means that such person shall not be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which, in accordance with the order by the commission or the commissioner's designees appointed pursuant to the provisions of subdivision three of section five hundred thirty-four-c of this article, such person gave answer or produced evidence, and that no such answer given or evidence produced shall be received against the person upon any criminal proceeding. But the person may nevertheless be prosecuted or subjected to penalty or forfeiture for any perjury or contempt committed in answering, or failing to answer, or in producing or failing to produce evidence, in accordance with the order, and any such answer given or evidence produced shall be admissible against the person upon any criminal proceeding concerning such perjury or contempt. Immunity shall not be conferred upon any person except in accordance with the provisions of this subdivision. If, after compliance with the provisions of this subdivision, a person is ordered to answer a question or produce evidence of any other kind and complies with such order, and it is thereafter determined that the attorney general or appropriate district attorney or prosecutor having an official interest therein not notified, such failure or neglect shall not deprive such person of any immunity otherwise properly conferred upon the person.

2. If a person, in obedience to a subpoena directing the person to attend and testify, comes into this state from another state, the person shall not, while in this state pursuant to such subpoena, be subject to arrest or the service of process, civil or criminal, in connection with matters which arose before the person's entrance into this state under the subpoena.

§ 534-w. Annual preparation of a budget request and assessments. 1.

The commission shall annually submit a budget request, which shall be submitted to the director of the budget in such form as the director may require.

2. After taking into account such funds as may be available, the balance of the commission's budgeted expenses shall be assessed upon employers of persons registered or licensed under this act. Each such employer shall pay an assessment computed upon the gross payroll payments made by such employer to longshore workers, pier superintendents, hiring agents and security officers for work or labor performed within the port of New York district in this state, at a rate, not in excess of two per cent, computed by the commission in the following manner: the commission shall annually estimate the gross payroll payments to be made by employers subject to assessment and shall compute a rate thereon which will yield revenues sufficient to finance the commission's budget for each year. Such budget to be assessed upon employers may include a reasonable amount not to exceed ten percent of the total of all other items of expenditure contained therein, which shall be allocated to an applicable fund balance to be held in the commission's employers assessment account.

3. The commission may provide by regulation for the collection and auditing of assessments. Such assessments shall be payable pursuant to such provisions for administration, collection and enforcement as the state may provide by legislation. In addition to any other sanction provided by law, the commission may revoke or suspend any license held by any person under this article, or the person's privilege of employing persons registered or licensed hereunder, for non-payment of any assessment when due.

4. The assessment pursuant to this section shall be in lieu of any other charge for the issuance of licenses to stevedores, pier superintendents, hiring agents and security officers or for the registration of longshore workers or the use of an employment information center. The commission shall establish reasonable procedures for the consideration of protests by affected employers concerning the

estimates and computation of the rate of assessment.

§ 534-x. Payment of assessment. 1. Every person subject to the payment of any assessment under the provisions of section five hundred thirty-four-w of this article shall file on or before the fifteenth day of the first month of each calendar quarter-year a separate return, together with the payment of the assessment due, for the preceding calendar quarter-year during which any payroll payments were made to longshore workers, pier superintendents, hiring agents or security officers for work performed as such within the port of New York district in this state. Returns covering the amount of assessment payable shall be filed with the commission on forms to be furnished for such purpose and shall contain such data, information or matter as the commission may require to be included therein. The commission may grant a reasonable extension of time for filing returns, or for the payment of assessment, whenever good cause exists. Every return shall have annexed thereto a certification to the effect that the statements contained therein are true.

2. Every person subject to the payment of assessment hereunder shall keep an accurate record of that person's employment of longshore workers, pier superintendents, hiring agents or security officers, which shall show the amount of compensation paid and such other information as the commission may require. Such records shall be preserved for a period of three years and be open for inspection at reasonable times. The commission may consent to the destruction of any such records at any time after said period or may require that they be kept longer, but not in excess of six years.

3. (a) The commission shall audit and determine the amount of assessment due from the return filed and such other information as is available to it. Whenever a deficiency in payment of the assessment is determined the commission shall give notice of any such determination to the person liable therefor. Such determination shall finally and conclusively fix the amount due, unless the person against whom it is assessed shall, within thirty days after the giving of notice of such

determination, apply in writing to the commission for a hearing, or unless the commission on its own motion shall reduce the same. After such hearing, the commission shall give notice of its decision to the person liable therefor. A determination of the commission under this section shall be subject to judicial review, if application for such review is made within thirty days after the giving of notice of such decision. Any determination under this section shall be made within five years from the time the return was filed and if no return was filed such determination may be made at any time.

(b) Any notice authorized or required under this section may be given by mailing the same to the person for whom it is intended at the last address given by that person to the commission, or in the last return filed by that person with the commission under this section, or, if no return has been filed then to such address as may be obtainable. The mailing of such notice shall be presumptive evidence of the receipt of same by the person to whom addressed. Any period of time, which is determined according to the provisions of this section, for the giving of notice shall commence to run from the date of mailing of such notice.

4. Whenever any person shall fail to pay, within the time limited herein, any assessment which the person is required to pay to the commission under the provisions of this section the commission may enforce payment of such fee by civil action for the amount of such assessment with interest and penalties.

5. The employment by a nonresident of a longshore worker, or a licensed pier superintendent, hiring agent or security officer in this state or the designation by a nonresident of a longshore worker, pier superintendent, hiring agent or security officer to perform work in this state shall be deemed equivalent to an appointment by such nonresident of the secretary of state to be the nonresident's true and lawful attorney upon whom may be served the process in any action or proceeding against the nonresident growing out of any liability for assessments, penalties or interest, and a consent that any such process against the nonresident which is so served shall be of the same legal force and validity as if served personally within the state and within the territorial jurisdiction of the court from which the process issues.

Service of process within this state shall be made by either:

(a) personally delivering to and leaving with the secretary of state duplicate copies thereof at the office of the department of state, in which event the secretary of state shall forthwith send by registered mail one of such copies to the person at the last address designated by the person to the commission for any purpose under this section or in the last return filed by the person under this section with the commission or as shown on the records of the commission, or if no return has been filed, at the person's last known office address within or outside of the state; or

(b) personally delivering to and leaving with the secretary of state a copy thereof at the office of the department of state and by delivering a copy thereof to the person, personally outside of the state. Proof of such personal service outside of the state shall be filed with the clerk of the court in which the process is pending within thirty days after such service and such service shall be complete ten days after proof thereof is filed.

6. Whenever the commission shall determine that any moneys received as assessments were paid in error, it may cause the same to be refunded, provided an application therefor is filed with the commission within two years from the time the erroneous payment was made.

7. In addition to any other powers authorized hereunder, the commission shall have power to promulgate reasonable rules and regulations to effectuate the purposes of this section.

8. Any person who shall willfully fail to pay any assessment due hereunder, shall be assessed interest at a rate of one percent per month on the amount due and unpaid and penalties of five percent of the amount due for each thirty days or part thereof that the assessment remains unpaid. The commission, may, for good cause shown, abate all or part of such penalty.

9. Any person who shall willfully furnish false or fraudulent information or shall willfully fail to furnish pertinent information, as required, with respect to the amount of assessment due, shall be guilty

of a misdemeanor, punishable by a fine of not more than one thousand dollars, or imprisonment for not more than three hundred sixty-four days, or both.

10. All funds of the commission received as payment of any assessment or penalty under this section shall be deposited with the comptroller. The comptroller may require that all such deposits be secured by obligations of the United States or of the state of New York of a market value equal at all times to the amount of the deposits, and all banks and trust companies are authorized to give such security for such deposits.

11. The commission shall reimburse the state for any funds advanced to the commission exclusive of sums appropriated pursuant to section five hundred thirty-four-w of this article.

§ 534-y. Transfer of officers, employees. 1. Any officer or employee in the state, county or municipal civil service in either state who shall transfer to service with the commission may be given one or more leaves of absence without pay and may, before the expiration of such leave or leaves of absence, and without further examination or qualification, return to the person's former position or be certified by the appropriate civil service agency for retransfer to a comparable position in such state, county, or municipal civil service if such a position is then available.

2. The commission may, by agreement with any federal agency from which any officer or employee may transfer to service with the commission, make similar provision for the retransfer of such officer or employee to such federal agency.

3. Any officer or employee in the state, county or municipal service in New York state who shall transfer to service with the commission and who is a member of the New York state and local retirement system, shall continue to have all rights, privileges, obligations and status with respect to such system as provided under the retirement and social

security law.

§ 534-z. Annual report. 1. The commission shall submit an annual report to the governor, the speaker of the assembly, and the temporary president of the senate on or before the first day of September of each year detailing the previous fiscal year. The commission shall post such report on its website upon the submission to the officials outlined in this section.

ARTICLE 19-L

NEW YORK STATE NEIGHBORHOOD BASED INITIATIVES ACT

Section 548-a. Legislative findings and intent.

548-b. Definitions.

548-c. Neighborhood based initiatives project; services and activities.

548-d. Application for funding.

548-e. Neighborhood based initiatives oversight committee.

548-f. Administration.

548-g. Evaluation.

548-h. Reports.

§ 548-a. Legislative findings and intent. Many recent studies have pointed out that although New York has an array of human services and programs that are spread across numerous state programmatic and regulatory agencies, there is no unified strategy for service delivery.

Although problematic statewide, the absence of a service coordination and delivery strategy critically impairs the ability of communities suffering from widespread poverty to fully benefit from such services.

The legislature hereby finds and declares that there is a need to develop a strategy for distressed neighborhoods to assist them in identifying ways to expand and strengthen the services in their communities, to improve the delivery of such services, and to help identify and eliminate barriers to the effective delivery of services to their residents.

The legislature further finds that the provision of services is only a partial solution to the complex problems of economically and socially distressed areas. Neighborhood stabilization and improvement also require an assessment of the long term housing and economic needs of the community and a strategic plan for the stabilization and development of the community. Therefore, it is the intent of the legislature to establish neighborhood based initiatives to first provide integrated and coordinated services for people in crisis or with a potential for being in crisis in selected distressed neighborhoods and then to assist the neighborhoods in developing a long range plan so that such neighborhoods can take steps to improve their overall economic and social condition.

§ 548-b. Definitions. As used in this article:

1. "Committee" shall mean the neighborhood based initiatives oversight committee established in accordance with section five hundred forty-eight-e of this article.

2. "Eligible applicant" shall mean a not-for-profit private or public agency, a school district, a local governmental agency, or a combination of such entities.

3. "Project" shall mean a neighborhood based initiatives project established in accordance with section five hundred forty-eight-c of this article.

4. "Department" shall mean the department of social services.

5. "Neighborhood based initiatives unified contract" or "contract" shall mean the sole written agreement for a project between the department, as representative of the committee, and the approved applicant, providing for the terms under which funds may be used to finance allowable project costs as defined in section five hundred forty-eight-f of this article.

6. "Neighborhood based initiatives advisory council" or "council" shall mean a voluntary group representing, to the greatest extent possible, the following: neighborhood residents, local government, the business and economic development community, service providers, charitable organizations, the legal community, and educational institutions, who shall be responsible for development of the plan required in section five hundred forty-eight-c of this article.

7. "Action plan" shall mean the strategic neighborhood action plan as described in subdivision three of section five hundred forty-eight-c of this article.

§ 548-c. Neighborhood based initiatives project; services and activities. 1. Project establishment. Neighborhood based initiative projects shall be established pursuant to this article. Each approved project shall have as its primary components an action plan, the creation of a council, and the provision of programs and services as described in this section.

2. Programs and services. a. Projects shall provide for coordinated, accessible services, which shall include:

i. comprehensive crisis intervention services on a twenty-four hour-a-day basis which shall provide for information and referral services and case management services, and may provide for mental health services, alcohol and substance abuse services, child care services,

All state or municipal printed forms for a police primary investigation report shall include a space to indicate that the victim did or did not receive information on victim's rights, office of victim services assistance and relevant local assistance pursuant to subdivision one of section six hundred twenty-five-a of this article.

4. In addition, the commissioner of the division of criminal justice services, in cooperation with the office, shall develop and implement a standardized procedure to be used by police officers, county sheriffs' departments and state police officers whereby family members and dependents who may be eligible to receive awards under this article are notified about the existence of such awards and the existence of any other relevant services or programs.

§ 626. Out-of-pocket loss; definition. 1. Out-of-pocket loss shall mean unreimbursed and unreimbursable expenses or indebtedness reasonably incurred for medical care or other services necessary as a result of the injury upon which such claim is based, including such expenses incurred as a result of the exacerbation of a pre-existing disability or condition directly resulting from the crime or causally related to the crime. Such expenses or indebtedness shall include the cost of counseling for the eligible spouse, domestic partner, grandparents,

parents, stepparents, guardians, brothers, sisters, stepbrothers, stepsisters, children, stepchildren or grandchildren of a homicide victim, and crime victims who have sustained a personal physical injury as the direct result of a crime and the spouse, children or stepchildren of such physically injured victim. For the purposes of this subdivision, the victim of a sex offense as defined in article one hundred thirty of the penal law is presumed to have suffered physical injury. Such counseling may be provided by local victim service programs, where available. It shall also include the cost of residing at or utilizing services provided by shelters for battered spouses and children who are eligible pursuant to subdivision two of section six hundred twenty-four of this article, and the cost of reasonable attorneys' fees for representation before the office and/or before the appellate division upon judicial review not to exceed one thousand dollars.

2. Out-of-pocket loss shall also include the cost of counseling for a child victim and the parent, stepparent, grandparent, guardian, brother, sister, stepbrother or stepsister of such victim, pursuant to regulations promulgated to carry out the provisions and purposes of this article.

3. Notwithstanding any inconsistent provision of this article, and without regard to the financial difficulty of the claimant, out-of-pocket loss also shall include the cost of unreimbursed and unreimbursable counseling expense or indebtedness reasonably incurred by relief workers who worked at the World Trade Center site in the immediate aftermath of the September eleventh, two thousand one terrorist attacks, or incurred by individuals who personally witnessed such attacks, where such counseling expense or indebtedness is incurred as a direct result of such work or of the witnessing of such attacks, and is incurred on or before December thirty-first, two thousand seven.

§ 627. Determination of claims. 1. The office shall determine claims in accordance with rules and regulations promulgated by the director. Such rules and regulations must provide for:

(a) written notification to an applying victim of their right to

representation by counsel, as well as their potential eligibility for an award of attorney's fees pursuant to subdivision one of section six hundred twenty-six of this article;

(b) administrative procedures regarding the intake and initial processing of claims, including mandatory timelines for the initiation of investigation of a properly filed claim;

(c) the investigation and determination of claims regardless of whether the alleged criminal has been arrested, charged, apprehended or prosecuted for or convicted of any crime based upon the same incident, or has been acquitted, or found not guilty of the crime in question owing to criminal irresponsibility or other legal exemption;

(d) the rebuttable presumption that a child reported missing for a time period exceeding seven days is a victim of a crime;

(e) the generation of a written decision for each properly filed claim, and written notice to the claimant of the written decision and their right to a copy of such a decision, as well as any rights to appeal that the claimant may have of the decision and a projected date of payment in the case of an award to the claimant;

(f) expedited determination of claims with respect to a livery operator within thirty days of the date upon which the claim was accepted for filing, as well as standards for awards of loss of earnings or support granted pursuant to rules and regulations promulgated in accordance with the provisions of this subdivision and subdivision three of section six hundred thirty-one of this article. Each award for loss of earnings pursuant to rules and regulations promulgated in accordance with this subdivision made with respect to a claim involving a livery operator assault victim shall be for such period of time as the office determines that the livery operator assault victim is unable to work and has lost earnings as a result of such assault, in an amount not to exceed twenty thousand dollars. Such award shall be distributed in increments of five hundred dollars per week. Each award for loss of support pursuant to rules and regulations promulgated in accordance with this subdivision made with respect to a claim involving a livery operator homicide victim shall be in the amount of twenty thousand dollars, distributed in increments of five hundred dollars per week; and

(g) provisions for any claimant to submit an additional claim for any loss of earnings or support in excess of the amount awarded pursuant to

rules and regulations in accordance with paragraph (f) of this subdivision, or an additional claim for any other award pursuant to rules and regulations promulgated in accordance with this article, in each case pursuant to and in accordance with the other provisions of this article or any rules and regulations promulgated in accordance thereof and subject to any applicable maximum award limitations contained in this article.

2. The claimant may, within thirty days after receipt of the decision of the office regarding a claim, make an application in writing to the director of the office for reconsideration of such decision. The director, or his or her designee, shall consider such applications in accordance with rules and regulations promulgated by the director and may affirm or modify the decision. The decision of the director, or his or her designee, shall become the final determination of the office regarding the claim.

§ 629. Judicial review. 1. Within fifteen days after receipt of the copy of the report containing the final decision of the office, the comptroller shall, if in his judgment the award is illegal or excessive, notify the office of his conclusion, state the reasons for that conclusion, and provide specific recommendations for modification. Upon receiving such notification, the office shall have fifteen days within which to review and either modify or re-affirm its award. If after such modification or reaffirmation the comptroller continues to adjudge the award to be illegal or excessive, he may within fifteen days after receipt of such modification or reaffirmation, commence a proceeding in the appellate division of the supreme court, third department, to review the decision of the office. Such proceeding shall be heard in a summary manner and shall have precedence over all other civil cases in such court. Any claimant aggrieved by a final decision of the office may commence a proceeding to review that decision pursuant to article seventy-eight of the civil practice law and rules.

2. Any such proceeding shall be commenced in accordance with the civil practice law and rules.

§ 630. Emergency awards. 1. Notwithstanding the provisions of section six hundred twenty-seven of this article, if it appears to the office, that such claim is one with respect to which an award probably will be made, and undue hardship will result to the claimant if immediate payment is not made, the office may make one or more emergency awards to the claimant pending a final decision of the office or payment of an award in the case, provided, however, that the total amount of such emergency awards shall not exceed twenty-five hundred dollars. The amount of such emergency awards shall be deducted from any final award made to the claimant, and the excess of the amount of any such emergency award over the amount of the final award, or the full amount of any emergency awards if no final award is made, shall be repaid by the claimant to the office.

2. Notwithstanding the provisions of subdivision one of this section, if the crime upon which the claim is based resulted in the death of the victim, and it appears to the office that such claim is one with respect to which an award probably will be made, and undue hardship will result to the claimant if immediate payment is not made, the office may make one or more emergency awards to the claimant for reasonable burial expenses pending a final decision of the office or payment of an award in the case; provided, however, that the total amount of an emergency award or awards for reasonable burial expenses shall not exceed six thousand dollars. The amount of such emergency award or awards shall be deducted from any final award made to the claimant, and the excess of the amount of any such award or awards over the amount of the final award, of the full amount of an emergency award or awards if no final award is made, shall be repaid by the claimant to the office.

§ 631. Awards. 1. (a) No award shall be made unless the office finds that: (i) a crime was indicated by the records of a support agency for survivors of crime or the records of a criminal justice agency; (ii) such crime directly resulted in personal physical injury to or the exacerbation of a preexisting disability, or condition, or death of, the

victim; and (iii) the records of a support agency for survivors of crime or the records of a criminal justice agency show that such crime was reported.

(b) For the purposes of this subdivision, "criminal justice agency" shall include, but not be limited to, a police department, a district attorney's office, and any other governmental agency having responsibility for the enforcement of the criminal laws of the state.

(c) For the purposes of this subdivision a "support agency for survivors of crime" or any derivative term thereof shall include:

(i) a governmental agency responsible for child and/or adult protective services pursuant to title six of article six of the social services law and/or title one of article nine-B of the social services law, and any medical facility established under the laws of the state that provides a forensic physical examination for victims of rape and sexual assault; or

(ii) in cases involving any sex offense or family offense a support agency for survivors of crime shall also include a family court; or

(iii) in cases where a physically injured claimant and/or victim is unable to report to or otherwise cooperate with a criminal justice agency because of the victim's age, physical condition, psychological state, cultural or linguistic barriers, or any other health or safety concern that jeopardizes the victim's wellbeing, a support agency for survivors of crime shall also include:

(A) a court which issued a temporary or permanent restraining order or protective order against the party or parties alleged to have committed the crime against the victim, or

(B) a "victim services provider" which shall mean a city or state contracted victim service provider who has provided services to the victim of the crime, or other eligible claimants as identified in section six hundred twenty-four of this article, or a licensed medical or mental health services provider providing care to a victim of crime within their licensed discipline and who can attest that the victim of a crime suffered a personal physical injury related to or connected to the crime upon which the claim is based.

1-a. No award shall be made for a frivolous lawsuit unless the office finds that the victim has been awarded costs pursuant to section

eighty-three hundred three-a of the civil practice law and rules and the individual responsible for the payment of costs is unable to pay such costs provided, however, that in no event shall the amount of such costs exceed two thousand five hundred dollars.

1-b. Where supporting evidence under subdivision one of this section is provided by any victim services provider, pursuant to clause (B) of subparagraph (iii) of paragraph (c) of subdivision one of this section, (a) a provider which is a city or state contracted victim service provider shall attest that (i) such provider and any entity associated with such provider does not have a pecuniary interest in the outcome of the claim, but if so, (ii) a referral shall be made from such provider and any entity associated with such provider immediately upon the decision of the office, and (iii) it is understood that no contractual reimbursements or other payments shall be made by the office to the provider and any entity associated with such provider for any crime related services provided to that victim after such decision by the office, and (b) all victim services providers, pursuant to clause (B) of subparagraph (iii) of paragraph (c) of subdivision one of this section shall also attest that the victim's injuries are the result of a crime.

1-c. In the event that inconsistent reports among two or more support agencies for survivors of crime exist for the same incident, the office shall consider the totality of the circumstances among all reports in the light most favorable to the victim and/or claimant, in order to accomplish the purpose of this article.

2. Any award made pursuant to this article shall be in an amount not exceeding out-of-pocket expenses, including indebtedness reasonably incurred for medical or other services necessary as a result of the injury upon which the claim is based; loss of earnings or support resulting from such injury not to exceed thirty thousand dollars; loss of savings not to exceed thirty thousand dollars; burial expenses not exceeding twelve thousand dollars of a victim who died on or after November first, nineteen ninety-six as a direct result of a crime; the costs of crime scene cleanup and securing of a crime scene not exceeding twenty-five hundred dollars; reasonable relocation expenses not

exceeding twenty-five hundred dollars; reasonable employment-related transportation expenses, not exceeding twenty-five hundred dollars and the unreimbursed cost of repair or replacement of articles of essential personal property lost, damaged or destroyed as a direct result of the crime. An award for loss of earnings shall include earnings lost by a parent or guardian as a result of the hospitalization of a child victim under age eighteen for injuries sustained as a direct result of a crime. In addition to the medical or other services necessary as a result of the injury upon which the claim is based, an award may be made for rehabilitative occupational training for the purpose of job retraining or similar employment-oriented rehabilitative services based upon the claimant's medical and employment history. For the purpose of this subdivision, rehabilitative occupational training shall include but not be limited to educational training and expenses. An award for rehabilitative occupational training may be made to a victim, or to a family member of a victim where necessary as a direct result of a crime. An award for employment-related transportation expenses shall be limited to the time period necessary due to the personal physical injuries sustained as a direct result of the crime upon which the claim is based, as determined by the medical information collected during the investigation of the claim.

3. Any award made for loss of earnings or support shall, unless reduced pursuant to other provisions of this article, be in an amount equal to the actual loss sustained, provided, however, that no such award shall exceed six hundred dollars for each week of lost earnings or support. Awards with respect to livery operator victims pursuant to paragraphs (f) and (g) of subdivision one of section six hundred twenty-seven of this article shall be granted in the amount and in the manner provided therein. The aggregate award for all such losses pursuant to this subdivision, including any awards made pursuant to paragraphs (f) and (g) of subdivision one of section six hundred twenty-seven of this article, shall not exceed thirty thousand dollars. If there are two or more persons entitled to an award as a result of the death of a person which is the direct result of a crime, the award shall be apportioned by the office among the claimants.

3-a. Any award made for loss of savings shall, unless reduced pursuant to other provisions of this article, be in an amount equal to the actual loss sustained.

4. Any award made pursuant to this article shall be reduced by the amount of any payments received or to be received by the claimant as a result of the injury (a) from or on behalf of the person who committed the crime, (b) under insurance programs mandated by law, (c) from public funds, (d) under any contract of insurance wherein the claimant is the insured or beneficiary, (e) as an emergency award pursuant to section six hundred thirty of this article. Notwithstanding the foregoing, where the person injured is a livery operator victim, because undue hardship may result to the claimant if immediate payment is not made, any award pursuant to paragraphs (f) and (g) of subdivision one of section six hundred twenty-seven of this article shall be granted without reduction for workers' compensation benefits to be received, if any.

5. (a) Except as provided in paragraph (g) of this subdivision, in determining the amount of an award, the office shall determine whether, because of such victim's conduct, the victim of such crime contributed to the infliction of such victim's injury, and the office shall reduce the amount of the award or reject the claim altogether, in accordance with such determination.

(b) Notwithstanding the provisions of paragraph (a) of this subdivision, the office shall disregard for this purpose the responsibility of the victim for such victim's own injury where the record shows that the person injured was acting as a good samaritan, as defined in this article.

(c) Notwithstanding any inconsistent provision of this article, where the person injured acted as a good samaritan, the office may, without regard to the financial difficulty of the claimant, make an award for out-of-pocket losses. Such award may also include compensation for any loss of property up to five thousand dollars suffered by the victim during the course of such victim's actions as a good samaritan.

(d) Notwithstanding any inconsistent provision of this article, where a person acted as a good samaritan, and was killed as a direct result of the crime, the office may, without regard to the financial difficulty of

the claimant, make a lump sum award to such claimant for actual loss of support not to exceed thirty thousand dollars.

(e) Notwithstanding any inconsistent provision of this article, where a police officer or firefighter, both paid and volunteer, dies from injuries received in the line of duty as a direct result of a crime, the office may, without regard to the financial difficulty of the claimant, make an award for the unreimbursed counseling expenses of the eligible spouse, domestic partner, parents, siblings or children of such victim, and/or the reasonable burial expenses incurred by the claimant.

(f) Notwithstanding the provisions of paragraph (a) of this subdivision, the office shall disregard for this purpose the responsibility of the victim for such victim's own loss of savings.

(g) Notwithstanding the provisions of paragraph (a) of this subdivision, when determining a claim made by a person eligible under paragraph (b), (c) or (d) of subdivision one of section six hundred twenty-four of this article, if the crime upon which the claim is based resulted in the death of the victim, the office shall not consider whether, because of their conduct, the victim of such crime contributed to their death.

6. (a) Claims may be approved only if the office finds that unless the claimant's award is approved he or she will suffer financial difficulty. However, no finding of financial difficulty is required for a claim for an emergency award or an award less than ten thousand dollars. In determining financial difficulty, the office shall consider all relevant factors, including but not limited to:

- (1) the number of claimant's dependents;
- (2) reasonable living expenses of the claimant and his family;
- (3) any special health, rehabilitative or educational needs of the claimant and his dependents;
- (4) the claimant's employment situation including income and potential earning capacity;
- (5) the claimant's net financial resources after authorized deduction as provided in paragraphs (b) and (c) of this subdivision;
- (6) whether claimant's financial resources will become exhausted during his lifetime; and
- (7) the nature and the amount of claimant's total debt and

liabilities, including the amount of debt incurred or to be incurred to pay for losses and expenses of the crime, and the extent to which claimant's essential assets will have to be liquidated.

(b) Claimant's net financial resources do not include the present value of future earnings, and shall be determined by the office by deducting from his total financial resources the value, within reasonable limits, of the following items:

(1) a homestead, not exceeding five hundred thousand dollars, or a total of ten years' rent for a renter;

(2) personal property consisting of clothing and strictly personal effects;

(3) household furniture, appliances and equipment;

(4) tools and equipment necessary for the claimant's trade, occupation or business;

(5) a family automobile;

(6) life insurance, except in death claims; and

(7) retirement, education and health plans or contributions to a retirement or pension program including but not limited to contributions to: (i) employee profit sharing plans, (ii) employee money purchase plans, (iii) 401 (k) plans, (iv) simplified employee pensions (SEP), (v) individual retirement accounts (IRA), (vi) 403 (b) plans, (vii) 457 plans, (viii) Keogh plans, (self employed), and (ix) any other plan or account for which contributions are made primarily for retirement purposes.

(c) The office, after taking into consideration the claimant's financial resources, may exempt that portion of the victim's or claimant's annual income required to meet reasonable living expenses and the value of inventory or other property necessary for the claimant's business or occupation or the production of income required to meet reasonable living expenses. In no event shall the aggregate value of exemptions under this paragraph exceed one hundred thousand dollars.

(d) Nothing contained in this subdivision shall be construed to mean that the office must maintain the same standard of living enjoyed by the claimant prior to the death or injury.

(e) The director shall promulgate such rules and regulations as are necessary for the implementation of this section.

7. Notwithstanding the provisions of subdivision six of this section, an award shall include out-of-pocket expenses, including indebtedness reasonably incurred by the victim of a sex offense or the person responsible for the victim of such sex offense, as such sex offense is defined in article one hundred thirty of the penal law, for a hospital or medical examination in connection with the investigation or prosecution of any such offense.

8. Notwithstanding the provisions of subdivisions one, two and three of this section, an elderly or disabled victim who has not been physically injured as a direct result of a crime, shall only be eligible for an award that includes the unreimbursed cost of repair or replacement of essential personal property that has been lost, damaged or destroyed as a direct result of a crime, transportation expenses incurred for necessary court appearances in connection with the prosecution of such crimes and the unreimbursed cost of counselling provided to the elderly or disabled victim on account of mental or emotional stress or financial counselling provided to the elderly or disabled victim on account of financial difficulty resulting from the incident in which the crime occurred if such counselling or financial counselling is commenced within one year from the date of the incident. For purposes of this subdivision, "necessary court appearances" shall include, but not be limited to, any part of trial from arraignment through sentencing, pre and post trial hearings and grand jury hearings.

8-a. Notwithstanding the provisions of subdivision one of this section, a vulnerable elderly person or an incompetent or physically disabled person, as defined in section 260.31 of the penal law, who has not been physically injured as a direct result of a crime, shall be eligible for an award that includes loss of savings.

9. (a) Any award made for the cost of repair or replacement of essential personal property, including cash losses of essential personal property, shall be limited to an amount of twenty-five hundred dollars, except that all cash losses of essential personal property shall be limited to the amount of one hundred dollars. In the case of medically necessary life-sustaining equipment which was lost or damaged as the

direct result of a crime, the award shall be limited to the amount of ten thousand dollars.

(b) Notwithstanding the provisions of paragraph (a) of this subdivision, in the case of cash losses which were the result of an act or series of acts of larceny as defined in article one hundred fifty-five of the penal law, perpetrated by the same actor indicated by a report or reports obtained from a criminal justice agency as defined in subdivision one of this section, and a receipt, receipts or similar documentation is provided showing such cash loss or losses, a single claim may be filed and an award may be made for cash losses of essential personal property for each act up to a cumulative amount of no more than twenty-five hundred dollars.

10. Notwithstanding any contrary provision of law, an award shall include reasonable transportation expenses incurred for necessary court appearances in connection with the prosecution of such crimes upon which the claim is based. For purposes of this subdivision, "necessary court appearances" shall include but not be limited to any part of a proceeding from arraignment through sentencing, pre and post trial hearings and grand jury hearings.

* NB Effective until May 9, 2027

* (a) Notwithstanding any other provision of law, rule, or regulation

to the contrary, when any New York state accredited hospital, accredited sexual assault examiner program, or licensed health care provider furnishes services to any sexual assault survivor, including but not limited to a health care forensic examination in accordance with the sex offense evidence collection protocol and standards established by the department of health, such hospital, sexual assault examiner program, or licensed healthcare provider shall provide such services to the person without charge and shall bill the office directly. The office, in consultation with the department of health, shall define the specific services to be covered by the sexual assault forensic exam reimbursement fee, which must include at a minimum forensic examiner services, hospital or healthcare facility services related to the exam, and any necessary related laboratory tests or pharmaceuticals based upon the department of health's Medicaid reimbursement rates; including but not limited to HIV post-exposure prophylaxis provided by a hospital emergency room at the time of the forensic rape examination pursuant to paragraph (f) of subdivision one of section twenty-eight hundred five-i of the public health law. The office, in consultation with the department of health, shall also generate the necessary forms for the direct reimbursement procedure and regulations setting the usual and customary rates for the itemized charges related to an exam of a sexual assault survivor.

* NB Effective May 9, 2027

(b) The rate for reimbursement shall be the amount of itemized charges, to be reimbursed at the usual and customary rates as established pursuant to this subdivision and which shall cumulatively not exceed (1) eight hundred dollars for an exam of a sexual assault survivor where no sexual offense evidence collection kit is used; (2) one thousand two hundred dollars for an exam of a sexual assault survivor where a sexual offense evidence collection kit is used; and (3) two thousand five hundred dollars for an exam of a sexual assault survivor, with or without the use of a sexual offense evidence collection kit, and with the provision of the full regimen of necessary HIV post-exposure prophylaxis. The hospital, sexual assault examiner program, or licensed health care provider must accept this fee as payment in full for these specified services. No additional billing of the survivor for said services is permissible. A sexual assault survivor

may voluntarily assign any private insurance benefits to which they are entitled for the healthcare forensic examination, in which case the hospital or healthcare provider may not charge the office; provided, however, in the event the sexual assault survivor assigns any private health insurance benefit, such coverage shall not be subject to annual deductibles or coinsurance or balance billing by the hospital, sexual assault examiner program or licensed health care provider. A hospital, sexual assault examiner program or licensed health care provider shall, at the time of the initial visit, request assignment of any private health insurance benefits to which the sexual assault survivor is entitled on a form prescribed by the office; provided, however, such sexual assault survivor shall be advised orally and in writing that they may decline to provide such information regarding private health insurance benefits if they believe that the provision of such information would substantially interfere with their personal privacy or safety and in such event, the sexual assault forensic exam fee shall be paid by the office. Such sexual assault survivor shall also be advised that providing such information may provide additional resources to pay for services to other sexual assault victims. Such sexual assault survivor shall also be advised that the direct reimbursement program established by this subdivision does not automatically make them eligible for any other compensation benefits available from the office including, but not limited to, reimbursement for mental health counseling expenses, relocation expenses, and loss of earnings, and that such compensation benefits may only be made available to them should the sexual assault survivor or other person eligible to file pursuant to section six hundred twenty-four of this article, file a compensation application with the office. If such sexual assault survivor declines to provide such health insurance information, they shall indicate such decision on the form provided by the hospital, sexual assault examiner program or licensed health care provider, which form shall be prescribed by the office.

17. Notwithstanding the provisions of subdivision one of this section, where a child victim has not been physically injured as a direct result of a crime or any violation listed in subdivision twelve of this section, or has witnessed a crime or any violation listed in subdivision twelve of this section in which no physical injury occurred, the claimant shall only be eligible for an award that includes the unreimbursed cost of repair or replacement of essential personal property of the child victim that has been lost, damaged or destroyed as a direct result of a crime or any violation listed in subdivision twelve of this section, transportation expenses incurred by the claimant for necessary court appearances of the child victim in connection with the prosecution of such crimes, and, if counseling is commenced within one year from the date of the incident or its discovery, (1) the unreimbursed cost of counseling provided to the child victim on account

of mental or emotional stress resulting from the incident in which the crime or any violation listed in subdivision twelve of this section occurred, and/or (2) the unreimbursed cost of counseling provided to the claimant eligible under paragraph (h) of subdivision one of section six hundred twenty-four of this article and resulting from the incident in which the crime or any violation listed in subdivision twelve of this section occurred.

18. Notwithstanding any inconsistent provision of this article and subject to any applicable maximum award limitations contained in this section, where a victim has died as a direct result of the crime upon which the claim is based and the crime occurred in the residence of a person eligible pursuant to paragraphs (k) and (l) of subdivision one of section six hundred twenty-four of this article, the office may make no more than one award for crime scene clean-up related to such residence.

§ 631-a. Crime victim service programs. 1. The office shall make grants, within amounts appropriated for that purpose, for crime victim service programs to provide services to crime victims and witnesses. These programs shall be operated at the community level by not-for-profit organizations, by agencies of local government or by any combination thereof. Crime victim service programs may be designed to serve crime victims and witnesses in general in a particular community, or may be designed to serve a category of persons with special needs relating to a particular kind of crime.

2. The director shall promulgate regulations, relating to these grants, including guidelines for its determinations.

(a) These regulations shall be designed to promote:

(i) alternative funding sources other than the state, including local government and private sources;

(ii) coordination of public and private efforts to aid crime victims; and

(iii) long range development of services to all victims of crime in the community and to all victims and witnesses involved in criminal prosecutions.

(b) These regulations shall also provide for services including, but not limited to:

(i) assistance to claimants seeking crime victims compensation benefits;

(ii) referrals, crisis intervention and other counseling services;

(iii) services to elderly victims and to child victims and their families;

(iv) transportation and household assistance;

(v) outreach to the community and education and training of law enforcement and other criminal justice officials to the needs of crime victims; and

(vi) services to victims of a mass shooting as defined in subdivision eleven of section eight hundred thirty-five of this chapter or of a shooting incident in which four or more people are injured.

§ 632. Manner of payment. 1. The award shall be paid in a lump sum, except that in the case of death or protracted disability the award shall provide for periodic payments to compensate for loss of earnings or support. No award made pursuant to this article shall be subject to execution or attachment other than for expenses resulting from the injury which is the basis for the claim.

2. Where a person entitled to receive an award is a person under the age of eighteen years, an incompetent, or a conservatee, the award may be paid to a relative, guardian, committee, conservator, or attorney of such person on behalf of and for the benefit of such person. In such case the payee shall be required to file a periodic accounting of the award with the office and to take such other action as the office shall determine is necessary and appropriate for the benefit of the person under the age of eighteen years, incompetent or conservatee.

probation, parole, conditional release, period of post-release supervision by the department of corrections and community supervision or term of supervised release with the United States probation office or United States parole commission. For purposes of this subparagraph, such period of non-compliance shall be measured, as applicable, from the earliest date of delinquency determined by the department of corrections and community supervision, or from the earliest date on which a declaration of delinquency is filed pursuant to section 410.30 of the criminal procedure law and thereafter sustained, or from the earliest date of delinquency determined in accordance with applicable federal law, rules or regulations, and shall continue until a final determination sustaining the violation has been made by the trial court, the department of corrections and community supervision, or appropriate federal authority; or

(B) a class B felony offense defined in the penal law;

(C) an offense for which a merit time allowance may not be received against the sentence pursuant to paragraph (d) of subdivision one of section eight hundred three of the correction law;

(E) grand larceny in the fourth degree as defined in subdivision six of section 155.30 or grand larceny in the second degree as defined in section 155.40 of the penal law;

(F) criminal possession of stolen property in the second degree as defined in section 165.52 of the penal law; or

(G) an offense in any jurisdiction which includes all of the essential elements of any of the crimes specified in clauses (A) through (F) of this subparagraph and either the crime victim as defined in subparagraph (i) of paragraph (d) of this subdivision was a resident of this state at the time of the commission of the offense or the act or acts constituting the crime occurred in whole or in part in this state.

(ii) Notwithstanding the provisions of subparagraph (i) of this paragraph a "specified crime" shall not mean or include an offense defined in any of the following articles of the penal law: articles one hundred fifty-eight, one hundred seventy-eight, two hundred twenty, two hundred twenty-one, two hundred twenty-five, and two hundred thirty.

(f) "Earned income" means income derived from one's own labor or through active participation in a business as distinguished from income from, for example, dividends or investments.

2. (a) Every person, firm, corporation, partnership, association or other legal entity, or representative of such person, firm, corporation, partnership, association or entity, which knowingly contracts for, pays, or agrees to pay: (i) any profits from a crime as defined in paragraph (b) of subdivision one of this section, to a person charged with or convicted of that crime, or to the representative of such person as defined in subdivision six of section six hundred twenty-one of this article; or (ii) any funds of a convicted person, as defined in paragraph (c) of subdivision one of this section, where such conviction is for a specified crime and the value, combined value or aggregate value of the payment or payments of such funds exceeds or will exceed ten thousand dollars, shall give written notice to the office of the payment or obligation to pay as soon as practicable after discovering that the payment or intended payment constitutes profits from a crime or funds of a convicted person.

(b) Notwithstanding subparagraph (ii) of paragraph (a) of this subdivision, whenever the payment or obligation to pay involves funds of a convicted person that a superintendent, sheriff or municipal official receives or will receive on behalf of an incarcerated individual serving a sentence with the department of corrections and community supervision or prisoner confined at a local correctional facility and deposits or will deposit in an incarcerated individual account to the credit of the incarcerated individual or in a prisoner account to the credit of the prisoner, and the value, combined value or aggregate value of such funds exceeds or will exceed ten thousand dollars, the superintendent, sheriff or municipal official shall also give written notice to the office.

Further, whenever the state or subdivision of the state makes payment

or has an obligation to pay funds of a convicted person, as defined in subparagraph (ii) or (iii) of paragraph (c) of subdivision one of this section, and the value, combined value or aggregate value of such funds exceeds or will exceed ten thousand dollars, the state or subdivision of the state shall also give written notice to the office.

In all other instances where the payment or obligation to pay involves funds of a convicted person, as defined in subparagraph (ii) or (iii) of paragraph (c) of subdivision one of this section, and the value, combined value or aggregate value of such funds exceeds or will exceed ten thousand dollars, the convicted person who receives or will receive such funds, or the representative of such person as defined in subdivision six of section six hundred twenty-one of this article, shall give written notice to the office.

(c) The office, upon receipt of notice of a contract, an agreement to pay or payment of profits from a crime or funds of a convicted person pursuant to paragraph (a) or (b) of this subdivision, or upon receipt of notice of funds of a convicted person from the superintendent, sheriff or municipal official of the facility where the incarcerated individual or prisoner is confined pursuant to section one hundred sixteen or five hundred-c of the correction law, shall notify all known crime victims of the existence of such profits or funds at their last known address.

3. Notwithstanding any inconsistent provision of the estates, powers and trusts law or the civil practice law and rules with respect to the timely bringing of an action, any crime victim shall have the right to bring a civil action in a court of competent jurisdiction to recover money damages from a person convicted of a crime of which the crime victim is a victim, or the representative of that convicted person, within three years of the discovery of any profits from a crime or funds of a convicted person, as those terms are defined in this section. Notwithstanding any other provision of law to the contrary, a judgment obtained pursuant to this section shall not be subject to execution or enforcement against the first one thousand dollars deposited in an incarcerated individual account to the credit of the incarcerated individual pursuant to section one hundred sixteen of the correction law or in a prisoner account to the credit of the prisoner pursuant to

section five hundred-c of the correction law. In addition, where the civil action involves funds of a convicted person and such funds were recovered by the convicted person pursuant to a judgment obtained in a civil action, a judgment obtained pursuant to this section may not be subject to execution or enforcement against a portion thereof in accordance with subdivision (k) of section fifty-two hundred five of the civil practice law and rules. If an action is filed pursuant to this subdivision after the expiration of all other applicable statutes of limitation, any other crime victims must file any action for damages as a result of the crime within three years of the actual discovery of such profits or funds, or within three years of actual notice received from or notice published by the office of such discovery, whichever is later.

4. Upon filing an action pursuant to subdivision three of this section, the crime victim shall give notice to the office of the filing by delivering a copy of the summons and complaint to the office. The crime victim may also give such notice to the office prior to filing the action so as to allow the office to apply for any appropriate provisional remedies which are otherwise authorized to be invoked prior to the commencement of an action.

5. Upon receipt of a copy of a summons and complaint, or upon receipt of notice from the crime victim prior to filing the action as provided in subdivision four of this section, the office shall immediately take such actions as are necessary to:

(a) notify all other known crime victims of the alleged existence of profits from a crime or funds of a convicted person by certified mail, return receipt requested, where the victims' names and addresses are known by the office;

(b) publish, at least once every six months for three years from the date it is initially notified by a victim, pursuant to subdivision four of this section, a legal notice in newspapers of general circulation in the county wherein the crime was committed and in counties contiguous to such county advising any crime victims of the existence of profits from a crime or funds of a convicted person. For crimes committed in a county located within a city having a population of one million or more, the notice shall be published in newspapers having general circulation in

such city. The office may, in its discretion, provide for such additional notice as it deems necessary;

(c) avoid the wasting of the assets identified in the complaint as the newly discovered profits from a crime or as funds of a convicted person, in any manner consistent with subdivision six of this section.

6. The office, acting on behalf of the plaintiff and all other victims, shall have the right to apply for any and all provisional remedies that are also otherwise available to the plaintiff.

(a) The provisional remedies of attachment, injunction, receivership and notice of pendency available to the plaintiff under the civil practice law and rules, shall also be available to the office in all actions under this section.

(b) On a motion for a provisional remedy, the moving party shall state whether any other provisional remedy has previously been sought in the same action against the same defendant. The court may require the moving party to elect between those remedies to which it would otherwise be entitled.

7. (a) (i) Whenever it appears that a person or entity has knowingly and willfully failed to give notice in violation of paragraph (a) or (b) of subdivision two of this section, other than the state, a subdivision of the state, or a person who is a superintendent, sheriff or municipal official required to give notice pursuant to this section or section one hundred sixteen or section five hundred-c of the correction law, the office shall be authorized to serve a notice of hearing upon the person or entity by personal service or by registered or certified mail. The notice shall contain the time, place and purpose of the hearing. In addition, the notice shall be accompanied by a petition alleging facts of an evidentiary character that support or tend to support that the person or entity, who shall be named therein as a respondent, knowingly and willfully failed to give notice in violation of paragraph (a) or (b) of subdivision two of this section. Service of the notice and petition shall take place at least fifteen days prior to the date of the hearing.

(ii) The director or any individual designated by the director, shall preside over the hearing, shall administer oaths, may issue subpoenas and shall not be bound by the rules of evidence or civil procedure, but

his or her determination shall be based on a preponderance of the evidence. At the hearing, the burden of proof shall be on the office. The office shall produce witnesses and present evidence in support of the alleged violation, which may include relevant hearsay evidence. The respondent, who may appear personally at the hearing, shall have the right of counsel and may cross-examine witnesses and produce evidence and witnesses in his or her behalf, which may include relevant hearsay evidence. The issue of whether the person who received an alleged payment or obligation to pay committed the underlying crime shall not be re-litigated at the hearing. Where the alleged violation is the failure to give notice of a payment amount involving two or more payments the combined value or aggregate value of which exceeds ten thousand dollars, no violation shall be found unless it is shown that such payments were intentionally structured to conceal their character as funds of a convicted person, as defined in this section.

(iii) At the conclusion of the hearing, if the director or designated individual is not satisfied that there is a preponderance of evidence in support of a violation, the director or designated individual shall dismiss the petition. If the director or designated individual is satisfied that there is a preponderance of the evidence that the respondent committed one or more violations, the director or designated individual shall so find. Upon such a finding, the director or designated individual shall prepare a written statement, to be made available to the respondent and respondent's counsel, indicating the evidence relied on and the reasons for finding the violation.

(iv) The director shall adopt, promulgate, amend and repeal administrative rules and regulations governing the procedures to be followed with respect to hearings, including rules and regulations for the administrative appeal of a decision made pursuant to this paragraph, provided such rules and regulations are consistent with the provisions of this subdivision.

(b)(i) Whenever it is found pursuant to paragraph (a) of this subdivision that a respondent knowingly and willfully failed to give notice in violation of paragraph (a) or (b) of subdivision two of this section, the office shall impose an assessment of up to the amount of the payment or obligation to pay and a civil penalty of up to one thousand dollars or ten percent of the payment or obligation to pay,

whichever is greater. If a respondent fails to pay the assessment and civil penalty imposed pursuant to this paragraph, the assessment and civil penalty may be recovered from the respondent by an action brought by the attorney general, upon the request of the office, in any court of competent jurisdiction. The office shall deposit the assessment in an escrow account pending the expiration of the three year statute of limitations authorized by subdivision three of this section to preserve such funds to satisfy a civil judgment in favor of a person who is a victim of a crime committed by the convicted person to whom such failure to give notice relates. The office shall pay the civil penalty to the state comptroller who shall deposit the money in the state treasury pursuant to section one hundred twenty-one of the state finance law to the credit of the criminal justice improvement account established by section ninety-seven-bb of the state finance law.

(ii) The office shall then notify any crime victim or crime victims, who may have a claim against the convicted person, of the existence of such moneys. Such notice shall instruct such person or persons that they may have a right to commence a civil action against the convicted person, as well as any other information deemed necessary by the office.

(iii) Upon a crime victim's presentation to the office of a civil judgment for damages incurred as a result of the crime, the office shall satisfy up to one hundred percent of that judgment, including costs and disbursements as taxed by the clerk of the court, with the escrowed fund obtained pursuant to this paragraph, but in no event shall the amount of all judgments, costs and disbursements satisfied from such escrowed funds exceed the amount in escrow. If more than one such crime victim indicates to the office that they intend to commence or have commenced a civil action against the convicted person, the office shall delay satisfying any judgment, costs and disbursements until the claims of all such crime victims are reduced to judgment. If the aggregate of all judgments, costs and disbursement obtained exceeds the amount of escrowed funds, the amount used to partially satisfy each judgment shall be reduced to a pro rata share.

(iv) After expiration of the three year statute of limitations period established in subdivision three of this section, the office shall review all judgments that have been satisfied from such escrowed funds. In the event no claim was filed or judgment obtained prior to the

expiration of the three year statute of limitations, the office shall return the escrowed amount to the respondent. In the event a claim or claims are pending at the expiration of the statute of limitations, such funds shall remain escrowed until the final determination of all such claims to allow the office to satisfy any judgment which may be obtained by the crime victim. Upon the final determination of all such claims and the satisfaction of up to one hundred percent of such claims by the office, the office shall be authorized to impose an additional civil penalty of up to one thousand dollars or ten percent of the payment or obligation to pay, whichever is greater. Prior to imposing any such penalty, the office shall serve a notice upon the respondent by personal service or by registered or certified mail of the intent of the office to impose such penalty thirty days after the date of the notice and of the opportunity to submit documentation concerning the office's determination. After imposing and deducting any such additional civil penalty, the office shall distribute such remaining escrowed funds, if any, as follows: fifty percent to the state comptroller, who shall deposit the money in the state treasury pursuant to section one hundred twenty-one of the state finance law to the credit of the criminal justice improvement account established by section ninety-seven-bb of the state finance law; and fifty percent to the respondent.

(v) Notwithstanding any provision of law, an alleged failure by a convicted person to give notice under this section may not result in proceedings for an alleged violation of the conditions of probation, parole, conditional release, post release supervision or supervised release unless: one or more claims were made by a crime victim against the convicted person pursuant to this section, and the office imposes an assessment and/or penalty upon the convicted person pursuant to this section, and the convicted person fails to pay the total amount of the assessment and/or penalty within sixty days of the imposition of such assessment and/or penalty.

(vi) Records maintained by the office and proceedings by the office based thereon regarding a claim submitted by a victim or a claimant shall be deemed confidential, subject to the exceptions that appear in subdivision one of section six hundred thirty-three of this article.

§ 633. Confidentiality of records. 1. Records maintained by the office and proceedings by the office based thereon regarding a claim submitted by a victim or a claimant shall be deemed confidential and shall not be shared with any government or private entity, with the following exceptions:

(a) requests for information based on legitimate criminal justice purposes provided that, in such cases in which the crime victim reported to a support agency that is also a victim services provider as defined in clause (B) of subparagraph (iii) of paragraph (c) of subdivision one of section six hundred thirty-one of this article, the office shall not provide any personally identifying information or information tending to identify the victim or claimant;

(b) judicial subpoenas;

(c) requests for information by the victim or claimant or his or her authorized representative; or

(d) for purposes necessary and proper for the administration of this article.

2. All other records, including but not limited to, records maintained pursuant to sections six hundred thirty-one-a and six hundred thirty-two-a of this article and proceedings by the office based thereon shall be public record.

3. Any report or record obtained by the office, the confidentiality of which is protected by any other law or regulation, shall remain confidential subject to such law or regulation.

§ 634. Subrogation. 1. (a) Acceptance of an award made pursuant to this article shall subrogate the state, to the extent of such award, to any right or right of action accruing to the claimant or the victim to recover payments on account of losses resulting from the crime with respect to which the award is made. Upon the payment of an award, the office may, by writing, notify the claimant that such claimant has ninety days, or thirty days prior to the date of expiration of the applicable statute of limitations, whichever period is shorter, within which to commence an action against his assailant or any third party

who, as a result of the crime, may be liable in damages to the claimant. If the claimant fails to commence an action within the time provided herein, such failure shall, after written notification by the office to the claimant, operate as an assignment of the claimant's cause of action against the assailant or such other third party to the state; provided, however, that should the claimant's cause of action be in an amount in excess of the office's award, such assignment shall be for only that portion of the cause of action which equals the amount of the award.

(b) The office of victim services shall review those claims that have been approved by the office and that have resulted in an award in excess of one thousand dollars for the purpose of identifying those causes of action that are likely to result in recovery of the state's payment to the victim. The office shall submit a list of these claims on a monthly basis to the attorney general with all necessary information relating to the case including whether the claimant's cause of action has been assigned to the office.

(c) The attorney general may commence an action against the defendant convicted of the crime or third party for money damages to the extent of the award paid, and the claimant shall retain a right of action, subject to defenses, to recover damages for the full amount of loss incurred by him as a result of the crime less the amount assigned to the state by operation of this subdivision. Notwithstanding any other provision of law, an action brought by the attorney general pursuant to this paragraph against the defendant convicted of the crime must be commenced within seven years of the crime or pursuant to the time frames authorized in subdivision three of section six hundred thirty-two-a of this article. A claimant who retains such right of action shall be permitted to intervene in any action brought pursuant to this subdivision by the attorney general. Any action brought by the attorney general may be compromised or settled provided the attorney general and the office find that such action is in the best interests of the state.

2. Acceptance of an award made pursuant to this article shall create a lien in favor of the state on the proceeds of any recovery from the person or persons liable for the injury or death giving rise to the award by the office, whether by judgment, settlement or otherwise, after the deduction of the reasonable and necessary expenditures, including

attorney's fees, incurred in effecting such recovery, to the total amount of the award made by the office. Such lien shall attach to any moneys received or to be received by the claimant or victim on account of losses resulting from the crime. Should the claimant or victim secure a recovery from the person or persons liable for the injury or death giving rise to the award by the office, whether by judgment, settlement or otherwise, such claimant may, upon notice to the office, apply to the court in which the action was instituted, or to any court of competent jurisdiction if no action was instituted, for an order apportioning the reasonable and necessary expenditures, including attorney's fees, incurred in effecting such recovery. Such expenditures shall be equitably apportioned by the court between the claimant and the office. A copy of such lien shall be mailed to the clerk of the county within which the crime occurred and such clerk will file the copy in accordance with the duties of such clerk as set forth in section five hundred twenty-five of the county law. The amount of such lien may be compromised or settled by the office provided the office finds that such action is in the best interests of the state, or payment of the full amount of the lien to the state would cause undue hardship for the victim.

2-a. To the extent the office has made an award pursuant to this article for burial expenses, such amount shall be considered among reasonable funeral expenses of the decedent pursuant to subdivision one of section eighteen hundred eleven of the surrogate's court procedure act, to be recovered by the office, provided, however, that if a beneficiary of the victim's estate is also a person eligible to receive an award pursuant to section six hundred twenty-four of this article, the office shall recover such amounts pursuant to subdivision two of this section to the extent an award has been made to such person, prior to pursuing recovery from the victim's estate. Any recovery from a victim's estate under this subdivision shall reduce the state's lien under this section to the extent of the recovery by the office.

3. Any claimant who has received an award under this article, or his guardian, judicially appointed personal representative, or his estate, who brings an action for damages against the person or persons liable

for the injury or death giving rise to an award by the office under this article shall give written notice to the office of the commencement of such action at the time such action is commenced. Such notice shall be served personally or by certified mail, return receipt requested.

4. The attorney general may intervene, as of right, in any such action on behalf of the state of New York for the purpose of recovering the subrogated interest due the state of New York under the provisions of this article.

5. The director shall adopt rules and regulations to carry out the provisions and purposes of this section.

6. The office shall compile information on the number of cases submitted to the attorney general, the number of actions instituted by the attorney general to recover payments made to crime victims, the dollar amount of recoveries made in such actions both on behalf of the state and any awards made to victims who intervene in such actions. The office shall include this information, and any recommendations to the governor and legislature to improve the collection of awards, in its annual report.

§ 635. Severability of provisions. If any provision of this article or the application thereof to any person or circumstances is held invalid, the remainder of this article and the application of such provision to other persons or circumstances shall not be affected thereby.

§ 636. Community violence intervention act. 1. Legislative findings. The legislature hereby finds and declares that gun violence and other forms of violence constitute a crisis that poses a serious threat to the health and quality of life of all residents of the state of New York. An epidemic of violence is tearing at the fabric of life in many urban areas. The legislature further finds that funds from the Victims of Crime Act should be used to support hospital based violence intervention programs and community based violence intervention programs.

2. Community violence intervention grants. The office shall dedicate ten percent or more of the total funding received per award cycle pursuant to the federal Victims of Crime Act of 1984 to support:

(a) "community-based violence intervention programs" which shall mean a violence intervention program that is: (i) a nonprofit organization; and (ii) provides intensive counseling, case management, and social services to individuals who are recovering from injuries resulting from violence or who were witness to acts of violence;

(b) "hospital-based violence intervention programs" which shall mean a violence intervention program that is: (i) operated by: (A) a public hospital; or (B) a nonprofit or government entity in collaboration with a public or not-for-profit hospital; and (ii) provides intensive counseling, case management, and social services to individuals who are recovering from injuries resulting from violence or who were witness to acts of violence.

3. The office shall promulgate guidance relating to community violence intervention for hospital-based violence intervention programs and community-based violence intervention programs.

(a) This guidance shall be designed to promote:

(i) alternative funding sources other than the state, including local government and private sources as well as funding from the federal Victims of Crime Act of 1984;

(ii) coordination of public and private efforts to aid individuals who are recovering from injuries resulting from violence or who were witnesses to acts of violence; and

(iii) long range development of services to victims of violent crimes in the community.

(b) This guidance shall also provide for:

(i) clearly defined and measurable objectives intended to demonstrate that a program is developed and evaluated through scientific research and data collection with measurable evidence of positive outcomes related to violence intervention;

(ii) a description of how the nonprofit organization proposes to use the funding to:

(A) establish or enhance community-based violence intervention

programs;

(B) enhance coordination of existing violence intervention programs, if any, to minimize duplication of services; and

(C) plan for the collection of relevant data; and

(iii) outreach to the community and education and training of law enforcement and other criminal justice officials to the needs of victims of violent crimes in the community, to perpetrators of violent crimes and to witnesses of violent crimes involved in criminal prosecutions.

4. To the extent practicable, the office shall make efforts to inform community-based violence intervention programs and hospital-based intervention programs about anticipated awards.

649. Miscellaneous.

§ 640. Fair treatment standards for crime victims. 1. The commissioner of the division of criminal justice services, in consultation with the director of the office of victim services and other appropriate officials, shall promulgate standards for the treatment of the innocent

victims of crime by the agencies which comprise the criminal justice system of the state.

2. For the purposes of this article the term "criminal justice" shall include juvenile justice and the objectives and criteria set forth in sections six hundred forty-one and six hundred forty-two of this article shall apply to presentment agencies as defined in subdivision twelve of section 301.2 of the family court act.

§ 641. Objectives of fair treatment standards. The object of such fair treatment standards shall be to:

1. Ensure that crime victims routinely receive emergency social and medical services as soon as possible and are given information pursuant to section six hundred twenty-five-a of this chapter on the following:

(a) availability of crime victim compensation;

(b) availability of appropriate public or private programs that provide counseling, treatment or support for crime victims, including but not limited to the following: rape crisis centers, victim/witness assistance programs, elderly victim services, victim assistance hotlines and domestic violence shelters;

(c) the role of the victims in the criminal justice process, including what they can expect from the system as well as what the system expects from them; and

(d) stages in the criminal justice process of significance to a crime victim, and the manner in which information about such stages can be obtained.

2. Ensure routine notification of a victim or witness as to steps that law enforcement officers or district attorneys can take to protect victims and witnesses from intimidation.

3. Ensure notification of victims, witnesses, relatives of those victims and witnesses who are minors, and relatives of homicide victims, if such persons provide the appropriate official with a current address and telephone number, either by phone or by mail, if possible, of

judicial proceedings relating to their case, including:

- (a) the arrest of an accused;
- (b) the initial appearance of an accused before a judicial officer;
- (c) the release of an accused pending judicial proceedings; and
- (d) proceedings in the prosecution of the accused including entry of a plea of guilty, trial, sentencing, but prior to sentencing specific information shall be provided regarding the right to seek restitution and reparation, and where a term of imprisonment is imposed, specific information shall be provided regarding maximum and minimum terms of such imprisonment.

1. The victim of a violent felony offense, a felony involving physical injury to the victim, a felony involving property loss or damage in excess of two hundred fifty dollars, a felony involving attempted or threatened physical injury or property loss or damage in excess of two hundred fifty dollars or a felony involving larceny against the person shall, unless he or she refuses or is unable to cooperate or his or her whereabouts are unknown, be consulted by the district attorney in order to obtain the views of the victim regarding disposition of the criminal case by dismissal, plea of guilty or trial. In such a case in which the victim is a minor child, or in the case of a homicide, the district attorney shall, unless the family refuses or is unable to cooperate or his, her or their whereabouts are unknown, consult for such purpose with the family of the victim. In addition, the district attorney shall, unless he or she (or, in the case in which the victim is a minor child or a victim of homicide, his or her family) refuses or is unable to cooperate or his, her or their whereabouts are unknown, consult and obtain the views of the victim or family of the victim, as appropriate, concerning the release of the defendant in the victim's case pending judicial proceedings upon an indictment, and concerning the availability of sentencing alternatives such as community supervision and restitution from the defendant. The failure of the district attorney to so obtain the views of the victim or family of the victim shall not be cause for

delaying the proceedings against the defendant nor shall it affect the validity of a conviction, judgment or order.

2. The victims and other prosecution witnesses shall, where possible, be provided, when awaiting court appearances, a secure waiting area that is separate from all other witnesses.

2-a. (a) All police departments, as that term is defined in subdivision a of section eight hundred thirty-seven-c of this chapter, district attorneys' offices and presentment agencies, as that term is defined in subdivision twelve of section 301.2 of the family court act, shall provide a private setting for interviewing victims of a crime defined in article one hundred thirty or section 255.25, 255.26 or 255.27 of the penal law. For purposes of this subdivision, "private setting" shall mean an enclosed room from which the occupants are not visible or otherwise identifiable, and whose conversations cannot be heard, from outside such room. Only (i) those persons directly and immediately related to the interviewing of a particular victim, (ii) the victim, (iii) a social worker, rape crisis counselor, psychologist or other professional providing emotional support to the victim, unless the victim objects to the presence of such person and requests the exclusion of such person from the interview, and (iv) where appropriate, the parent or parents of the victim, if requested by the victim, shall be present during the interview of the victim.

(b) All police departments, as that term is defined in subdivision a of section eight hundred thirty-seven-c of this chapter, shall provide victims of a crime defined in article one hundred thirty of the penal law with the name, address, and telephone of the nearest rape crisis center in writing.

4. The victim or witness who so requests shall be assisted by law enforcement agencies and district attorneys in informing employers that the need for victim and witness cooperation in the prosecution of the

case may necessitate absence of that victim or witness from work. In addition, a victim or witness who, as a direct result of a crime or of cooperation with law enforcement agencies or the district attorney in the investigation or prosecution of a crime is unable to meet obligations to a creditor, creditors or others should be assisted by such agencies or the district attorney in providing to such creditor, creditors or others accurate information about the circumstances of the crime, including the nature of any loss or injury suffered by the victim, or about the victim's or witness' cooperation, where appropriate.

5. Victim assistance education and training, with special consideration to be given to victims of domestic violence, sex offense victims, elderly victims, child victims, and the families of homicide victims, shall be given to persons taking courses at state law enforcement training facilities and by district attorneys so that victims may be promptly, properly and completely assisted.

Law enforcement officers shall inform the victim of their right to have their statement be taken at such workplace when officers have reason to believe the victim was assaulted pursuant to section 120.05 of the penal law.

§ 642-a. Fair treatment of child victims as witnesses. To the extent permitted by law, criminal justice agencies, crime victim-related agencies, social services agencies and the courts shall comply with the following guidelines in their treatment of child victims:

1. To minimize the number of times a child victim is called upon to recite the events of the case and to foster a feeling of trust and confidence in the child victim, whenever practicable and where one

exists, a multi-disciplinary team as established pursuant to subdivision six of section four hundred twenty-three of the social services law and/or a child advocacy center shall be used for the investigation and prosecution of child abuse cases involving abuse of a child, as described in paragraph (i), (ii) or (iii) of subdivision (e) of section one thousand twelve of the family court act, sexual abuse of a child or the death of a child.

2. Whenever practicable, the same prosecutor should handle all aspects of a case involving an alleged child victim.

3. To minimize the time during which a child victim must endure the stress of his involvement in the proceedings, the court should take appropriate action to ensure a speedy trial in all proceedings involving an alleged child victim. In ruling on any motion or request for a delay or continuance of a proceeding involving an alleged child victim, the court should consider and give weight to any potential adverse impact the delay or continuance may have on the well-being of the child.

4. The judge presiding should be sensitive to the psychological and emotional stress a child witness may undergo when testifying.

5. In accordance with the provisions of article sixty-five of the criminal procedure law, when appropriate, a child witness as defined in subdivision one of section 65.00 of such law should be permitted to testify via live, two-way closed-circuit television.

6. In accordance with the provisions of section 190.32 of the criminal procedure law, a person supportive of the "child witness" or "special witness" as defined in such section should be permitted to be present and accessible to a child witness at all times during his testimony, although the person supportive of the child witness should not be permitted to influence the child's testimony.

7. A child witness should be permitted in the discretion of the court to use anatomically correct dolls and drawings during his testimony.

701. Definitions.

702. Most integrated setting coordinating council; organization.

703. Functions, powers and duties of the council.

§ 700. Legislative findings and intent. The Americans with Disabilities Act requires New York state to ensure that people of all ages with disabilities reside and function in the most integrated setting possible. In order to ensure that the state of New York is in compliance with the requirements of the Olmstead decision, the legislature hereby finds that it is incumbent upon New York state to develop and implement a plan to reasonably accommodate the desire of people of all ages with disabilities to avoid institutionalization and be appropriately placed in the most integrated setting possible.

(c) the identification of what community-based services are available to individuals of all ages with disabilities in the state of New York and an assessment of the extent to which these programs are able to serve people in the most integrated settings;

(k) an evaluation of how quality assurance and quality improvement can be conducted effectively as more people of all ages with disabilities live in community settings; and

(l) an examination of how the overall system of health and long term care can best be managed so that placement in the most integrated setting becomes the norm.

2. The council shall contract with an independent organization with expertise in the provision of community-based services for individuals of all ages with disabilities and with expertise in the area of program evaluation research to conduct an evaluation of the council's plan created pursuant to subdivision one of this section and the implementation of such plan. Such evaluation shall be completed three years after the effective date of this article.

§ 800. Short title. This article shall be known as the "Adirondack Park Agency Act."

§ 801. Statement of legislative findings and purposes. The Adirondack park is abundant in natural resources and open space unique to New York and the eastern United States. The wild forest, water, wildlife and aesthetic resources of the park, and its open space character, provide an outdoor recreational experience of national and international significance. Growing population, advancing technology and an expanding

economy are focusing ever-increasing pressures on these priceless resources.

Our forefathers saw fit nearly a century ago to provide rigid constitutional safeguards for the public lands in the Adirondack park. Today forest preserve lands constitute approximately forty percent of the six million acres of land in the park. The people of the state of New York have consistently reiterated their support for this time-honored institution.

Continuing public concern, coupled with the vast acreages of forest preserve holdings, clearly establishes a substantial state interest in the preservation and development of the park area. The state of New York has an obligation to insure that contemporary and projected future pressures on the park resources are provided for within a land use control framework which recognizes not only matters of local concern but also those of regional and state concern.

In the past the Adirondack environment has been enhanced by the intermingling of public and private land. A unique pattern of private land use has developed which has not only complemented the forest preserve holdings but also has provided an outlet for development of supporting facilities necessary to the proper use and enjoyment of the unique wild forest atmosphere of the park. This fruitful relationship is now jeopardized by the threat of unregulated development on such private lands. Local governments in the Adirondack park find it increasingly difficult to cope with the unrelenting pressures for development being brought to bear on the area, and to exercise their discretionary powers to create an effective land use and development control framework.

The basic purpose of this article is to insure optimum overall conservation, protection, preservation, development and use of the unique scenic, aesthetic, wildlife, recreational, open space, historic, ecological and natural resources of the Adirondack park.

A further purpose of this article is to focus the responsibility for developing long-range park policy in a forum reflecting statewide

concern. This policy shall recognize the major state interest in the conservation, use and development of the park's resources and the preservation of its open space character, and at the same time, provide a continuing role for local government.

The Adirondack park land use and development plan set forth in this article recognizes the complementary needs of all the people of the state for the preservation of the park's resources and open space character and of the park's permanent, seasonal and transient populations for growth and service areas, employment, and a strong economic base, as well. In support of the essential interdependence of these needs, the plan represents a sensibly balanced apportionment of land to each. Adoption of the land use and development plan and authorization for its administration and enforcement will complement and assist in the administration of the Adirondack park master plan for management of state land. Together, they are essential to the achievement of the policies and purposes of this article and will benefit all of the people of the state.

Accordingly, it is the further purpose of this article to adopt and implement the land use and development plan and to provide for the plan's maintenance, administration and enforcement in a continuing planning process that recognizes matters of local concern and those of regional and state concern, provides appropriate regulatory responsibilities for the agency and the local governments of the park and seeks to achieve sound local land use planning throughout the park.

For the purposes hereof, "lawfully" means in full compliance with all applicable laws, rules and regulations, including, without limitation, possession of and compliance with any permit or other approval required under the public health law, the environmental conservation law, any local or other governmental regulation.

50. "Principal building" means any one of the following:

e. each motel unit, hotel unit or similar tourist accommodation unit which is attached to a similar unit by a party wall, each accommodation unit of a tourist home or similar structure, and each tourist cabin or similar structure for rent or hire involving less than three hundred feet of floor space, constitutes one-tenth of a principal building;

f. each commercial use structure and each industrial use structure in excess of three hundred square feet constitutes one principal building, except that for a commercial use structure which involves the retail sale or rental or distribution of goods, services or commodities, each eleven thousand square feet of floor space, or portion thereof, of such commercial use structures constitutes one principal building;

g. all agricultural use structures and single family dwellings or mobile homes occupied by a farmer of land in agricultural use, his employees engaged in such use and members of their respective immediate families, will together constitute and count as a single principal

building;

h. up to four community housing dwelling units which qualify pursuant to subdivision seventeen-a of this section and are located on a contiguous parcel meeting the overall intensity guidelines constitute one principal building;

i. any other structure which exceeds twelve hundred fifty feet of floor space constitutes one principal building;

j. a structure containing a commercial use which is also used as a single family dwelling constitutes one principal building.

An accessory structure does not constitute a principal building.

51. "Private sand, gravel or topsoil extraction" means any extraction from the land of sand, gravel or topsoil for the purpose of use, but not sale, by the owner of the land or any extraction for the purpose of sale of less than fifty cubic yards in any two year period.

61. "State agency" means any department, bureau, commission, board or other agency of the state, including any public benefit corporation any member of which is appointed by the governor.

62. "Structure" means any object constructed, installed or placed on land to facilitate land use and development or subdivision of land, such as buildings, sheds, single family dwellings, mobile homes, signs, tanks, fences and poles and any fixtures, additions and alterations thereto.

63. "Subdivision of land" or "subdivision" means any division of land into two or more lots, parcels or sites, whether adjoining or not, for the purpose of sale, lease, license or any form of separate ownership or occupancy (including any grading, road construction, installation of utilities or other improvements or any other land use and development preparatory or incidental to any such division) by any person or by any other person controlled by, under common control with or controlling such person or by any group of persons acting in concert as part of a

common scheme or plan. Subdivision of land shall include any map, plat or other plan of the division of land, whether or not previously filed. Subdivision of land shall not include the lease of land for hunting and fishing and other open space recreation uses.

64. "Tourist accommodation" means any hotel, motel, resort, tourist cabin or similar facility designed to house the general public.

65. "Tourist attraction" means any man-made or natural place of interest open to the general public and for which an admittance fee is usually charged, including but not limited to animal farms, amusement parks, replicas of real or fictional places, things or people and natural geological formations.

66. "Waste disposal area" means any area for the disposal of garbage, refuse and other wastes, including sanitary landfills and dumps, other than an on-site disposal area directly associated with an industrial use.

67. "Watershed management or flood control project" means any dam, impoundment, dike, rip rap or other structure or channelization or dredging activity designed to alter or regulate the natural flow or condition of rivers or streams or the natural level or condition of lakes or ponds. Any such project for which a permit or approval is required prior to commencement from the department of environmental conservation is not a watershed management or flood control project or a use for the purposes of this article.

68. "Wetlands" means any land which is annually subject to periodic or continual inundation by water and commonly referred to as a bog, swamp or marsh which are either (a) one acre or more in size or (b) located adjacent to a body of water, including a permanent stream, with which there is free interchange of water at the surface, in which case there is no size limitation.

§ 803. Adirondack park agency. There is hereby created in the

executive department, the Adirondack park agency, which shall consist of the following members: the commissioner of environmental conservation, the secretary of state, the commissioner of commerce and eight members to be appointed by the governor by and with the advice and consent of the senate. The governor shall designate a chairman from among the members appointed to the agency, who shall serve at the governor's pleasure. None of the members appointed by the governor shall be officers or employees of any state department or agency.

Five members appointed by the governor shall be full-time residents within the Adirondack park provided, however, that no two such members shall be residents of the same county except for such members initially appointed before January first, nineteen hundred seventy-three, who may be reappointed for additional successive terms. Three members appointed by the governor shall be residents of the state outside the Adirondack park. Not more than five appointed members shall be of the same political party.

All appointments shall be made for terms of four years; provided that the first member appointed by the governor pursuant to the increase of members from seven to eight shall be appointed for a term expiring on the thirtieth day of June, nineteen hundred seventy-six. Each of such appointed members of the agency shall hold office for the term for which he was appointed and until his successor shall have been appointed and qualified or until he shall resign or be removed in the manner provided by law. In the case of any vacancy other than one arising by expiration of term, an appointment to fill the vacancy shall be made for the remainder of the unexpired term.

The designated chairman shall receive an annual salary of thirty thousand dollars. The other members of the agency, except those who serve ex officio, shall receive one hundred dollars per diem, not to exceed five thousand dollars per annum compensation for their services as members of the agency. All members, except those who serve ex officio, shall be allowed the necessary and actual expenses incurred in the performance of duties under this article.

A majority of the members of the agency shall constitute a quorum for the transaction of any business or the exercise of any power or function of the agency and affirmative vote by a majority of the members of the agency, except as is otherwise specifically provided in this article, shall be required to exercise any power or function of the agency. Votes of any member shall be cast in person and not by proxy. The agency may delegate to one or more of its members, officers, agents and employees, such powers and duties as it deems proper.

The commissioner of environmental conservation and the commissioner of commerce and the secretary of state may, by official authority filed in their respective agencies, and with the Adirondack park agency, designate a deputy or other officer to exercise his powers and perform his duties, including the right to vote, on the agency.

§ 803-a. Adirondack park local government review board. 1. For the purpose of advising and assisting the Adirondack park agency in carrying out its functions, powers and duties, there is hereby established the Adirondack park local government review board. Such board shall consist of twelve members, each of whom shall be a resident of a county wholly or partly within the park. No more than one member shall be a resident of any single county. Each member shall be appointed by or in the manner determined by the legislative body of each such county.

3. The review board shall elect, for such term as it may determine, a chairman from among its membership and such other officers as it deems necessary.

4. The review board shall meet regularly at least four times each year. Special meetings may be called by the chairman and shall be called by him at the request of a majority of the review board.

5. No member of the review board shall be disqualified from holding any other office or employment by reason of his appointment hereunder, notwithstanding the provisions of any general, special or local law.

6. The members of the review board shall receive no compensation for their services but their respective appointing authorities may provide for payment of their actual and necessary expenses incurred in the performance of their duties hereunder.

7. In addition to any other functions or duties specifically required or authorized in this article, the review board shall monitor the administration and enforcement of the Adirondack park land use and development plan and periodically report thereon, and make recommendations in regard thereto, to the governor and the legislature, and to the county legislative body of each of the counties wholly or partly within the park.

§ 804. General powers and duties of the agency. The agency shall have the power:

1. To sue and be sued;

8. To contract for and to accept any assistance, including but not limited to gifts, grants or loans of funds or of property from the federal government or any agency or instrumentality thereof, or from any agency or instrumentality of the state, or from any other public or private source and to comply, subject to the provisions of this article, with the terms and conditions thereof, subject to the approval of the director of the budget;

9. To adopt, amend and repeal, after public hearing (except in the case of rules and regulations that relate to the organization or internal management of the agency), such rules and regulations, consistent with this article, as it deems necessary to administer this article, and to do any and all things necessary or convenient to carry out the purposes and policies of this article and exercise powers granted by law; and

10. To report periodically to the governor and the legislature on the conduct of its activities but not less than once a year, furnishing a copy of each such report to the clerk of the county legislative body of each county wholly or partly within the park and to the review board.

§ 805. Adirondack park land use and development plan. 1. Adoption; status report. a. The Adirondack park land use and development plan is hereby adopted and shall hereafter serve to guide land use planning and development throughout the entire area of the Adirondack park, except for those lands owned by the state.

b. The agency shall, in consultation with the Adirondack park local government review board, continually review and evaluate the land use and development plan as an ongoing planning process in the light of

changing needs and conditions. The agency shall consult and work closely with local governments and local, county and regional planning agencies in this ongoing planning process, particularly as it pertains to their respective territorial areas and jurisdictions. In February, nineteen hundred seventy-six, the agency shall submit a comprehensive report to the governor and the legislature, furnishing a copy thereof to the clerk of the county legislative body of each county wholly or partly within the park and to the review board concerning the status of this planning process and the administration and enforcement of the land use and development plan, as provided for herein, by the agency and local governments.

2. Official Adirondack park land use and development plan map. a. The official Adirondack park land use and development plan map shall have the land use planning and regulatory effect authorized under this article.

b. Within twenty days after the enactment of this section, the agency shall file the Official Adirondack park land use and development plan map, as approved by the agency on March third, nineteen hundred seventy-three, and filed in the capitol, at its headquarters and a certified copy thereof with the secretary of state and reasonable facsimiles thereof with the review board and the clerk of each county and local government wholly or partially within the Adirondack park. Within twenty days after any amendment to the plan map, whether by law or by the agency, except an amendment granting in part a request by the legislative body of a local government pursuant to subparagraph three of paragraph c of this subdivision, the agency shall enter such amendment on the plan map filed at its headquarters and file a certified copy thereof with the review board and each of the state and local officers with whom a copy of the plan map is on file hereunder. The agency shall enter and file amendments granting in part a request by the legislative body of a local government pursuant to subparagraph three of paragraph c of this subdivision no sooner than sixty days and no later than ninety days after making such amendments. Such state and local officers shall enter such amendment on the plan map on file with them upon receipt of such certified copy in accordance with procedures prescribed by the

agency. Such amendments shall take effect upon conclusion of such twenty-day or ninety-day filing period.

c. The agency may make the following amendments to the plan map in the following manner: (1) Any amendment to reclassify land from any land use area to any other land use area or areas, if the land involved is less than twenty-five hundred acres, after public hearing thereon and upon an affirmative vote of two-thirds of its members, at the request of any owner of record of the land involved or at the request of the legislative body of a local government.

(2) Any amendment to reclassify land from any land use area to any other land use area or areas for which a greater intensity of development is allowed under the overall intensity guidelines if the land involved is less than twenty-five hundred acres, after public hearing thereon and upon an affirmative vote of two-thirds of its members, on its own initiative.

(3) Any amendment to reclassify land from any land use area to any other land use area or areas, if the reclassification effects a comprehensive review and evaluation of the plan map, at the request of the legislative body of a local government which has (a) completed and submitted to the agency a current and comprehensive inventory and analysis of the natural resource, open space, public, economic and other land use factors as may reflect the relative development amenability and limitations of the lands within its entire jurisdiction, and (b) formally adopted after public hearing a comprehensive master plan prepared pursuant to section two hundred seventy-two-a of the town law or section 7-722 of the village law, after public hearing thereon and upon an affirmative vote of a majority of its members. If the agency grants the amendment request in part, it shall not enter or file the amendment or amendments for a period of sixty days thereafter, during which time the legislative body of the local government may withdraw its request.

(4) Any amendment to clarify the boundaries of the land use areas as shown on the plan map, to correct any errors on the map or effect other technical changes on the map, upon an affirmative vote of a majority of its members and without a public hearing thereon, unless the agency determines that a public hearing is appropriate, on its own motion or at

the request of the legislative body of a local government or at the request of any owner of record of the land involved.

(5) Before making any plan map amendment, except pursuant to subparagraph four of this paragraph, the agency must find that the reclassification would accurately reflect the legislative findings and purposes of section eight hundred one of this article and would be consistent with the land use and development plan, including the character description and purposes, policies and objectives of the land use area to which reclassification is proposed, taking into account such existing natural resource, open space, public, economic and other land use factors and any comprehensive master plans adopted pursuant to the town or village law, as may reflect the relative development amenability and limitations of the land in question. The agency's determination shall be consistent with and reflect the regional nature of the land use and development plan and the regional scale and approach used in its preparation.

d. The agency may, after consultation with the Adirondack park local government review board, recommend to the governor and legislature any other amendments to the plan map after public hearing thereon and upon an affirmative vote of a majority of its members.

e. Upon receipt of a request to amend the plan map or upon determining to amend the map on its own initiative, the agency shall provide notice of receipt of the request or notice of the determination and a brief description of the amendment requested or contemplated to the Adirondack park local government review board, the chairman of the county planning agency, if any, the chairman of the appropriate regional planning board, and to the chief elected officer, clerk and planning board chairman, if any, of the local government wherein the land is located, and shall invite their comments.

f. The public hearings required or authorized in this subdivision shall be held by the agency in each local government wherein such land is located after not less than fifteen days notice thereof by publication at least once in a newspaper of general circulation in such local government or local governments, by conspicuous posting of the

land involved, and by individual notice served by certified mail upon each owner of such land to the extent discernible from the latest completed tax assessment roll and by mail upon the Adirondack park local government review board, the persons named in paragraph e of this subdivision, and the clerk of any local government within five hundred feet of the land involved.

g. The agency shall act upon requests for amendments to the plan map within one hundred twenty days of receipt of a request in such form and manner as it shall prescribe; provided, however, that in the case of requests concerning which it determines to hold a public hearing, it shall, within ninety days of receipt of the request, schedule the hearing and shall act within sixty days of the close of the hearing. In the case of a request received when snow cover or ground conditions prevent such field investigation as is necessary to act with respect to the request, or in the case of a request or series of related requests exceeding five hundred acres, the time periods herein provided shall be extended an additional ninety days or until adequate field inspection is possible, whichever is the lesser period. Any of the time periods specified in this paragraph may be waived or extended for good cause by written request of the applicant and consent of the agency or by written request of the agency and consent by the applicant.

3. Land use areas: character descriptions, and purposes, policies and objectives; overall intensity guidelines; classification of compatible uses lists. a. The primary uses on the classification of compatible uses list for each land use area except hamlet areas, as set forth in this subdivision, are those uses generally considered compatible with the character, purposes, policies and objectives of such land use area, so long as they are in keeping with the overall intensity guideline for such area. The secondary uses on such list are those which are generally compatible with such area depending upon their particular location and impact upon nearby uses and conformity with the overall intensity guideline for such area.

b. The classification of compatible uses lists shall also include any additions thereto by agency amendment pursuant to this section, and the

agency may, after consultation with the Adirondack park local government review board, recommend subtractions thereto to the governor and legislature upon an affirmative vote of a majority of its members and after public hearing thereon. The agency may amend the classification of compatible uses lists to make additions thereto after public hearing thereon and upon an affirmative vote of two-thirds of its members. A certified copy of the agency's resolution adopting such amendment shall, within twenty days after adoption thereof, be filed by the agency with the Adirondack park local government review board and the same state and local officers with whom the plan map is required to be filed under paragraph b of subdivision two and with the legislature. Such amendments shall take effect upon conclusion of such twenty-day filing period. The public hearings authorized or required in this paragraph shall be held in any county wholly or partially within the Adirondack park after not less than fifteen days notice thereof by publication at least once in a newspaper of general circulation in each county wholly or partially within the park and in at least three metropolitan areas of the state, and individual notice served by mail upon:

- (1) the chairman of the planning board, if any, and the clerk of each local government, and the chairman of the county planning agency, if any, and the clerk of each county, wholly or partially within the park;
- (2) the chairman of each regional planning agency whose jurisdiction is wholly or partially within the park; and
- (3) the Adirondack park local government review board.

c. Hamlet areas. (1) Character description. Hamlet areas, delineated in brown on the plan map, range from large, varied communities that contain a sizeable permanent, seasonal and transient populations with a great diversity of residential, commercial, tourist and industrial development and a high level of public services and facilities, to smaller, less varied communities with a lesser degree and diversity of development and a generally lower level of public services and facilities.

(2) Purposes, policies and objectives. Hamlet areas will serve as the service and growth centers in the park. They are intended to accommodate a large portion of the necessary and natural expansion of the park's housing, commercial and industrial activities. In these areas, a wide

variety of housing, commercial, recreational, social and professional needs of the park's permanent, seasonal and transient populations will be met. The building intensities that may occur in such areas will allow a high and desirable level of public and institutional services to be economically feasible. Because a hamlet is concentrated in character and located in areas where existing development patterns indicate the demand for and viability of service and growth centers, these areas will discourage the haphazard location and dispersion of intense building development in the park's open space areas. These areas will continue to provide services to park residents and visitors and, in conjunction with other land use areas and activities on both private and public land, will provide a diversity of land uses that will satisfy the needs of a wide variety of people.

The delineation of hamlet areas on the plan map is designed to provide reasonable expansion areas for the existing hamlets, where the surrounding resources permit such expansion. Local government should take the initiative in suggesting appropriate expansions of the presently delineated hamlet boundaries, both prior to and at the time of enactment of local land use programs.

(3) All land uses and development are considered compatible with the character, purposes and objectives of hamlet areas.

(4) No overall intensity guideline is applicable to hamlet areas.

d. Moderate intensity use area. (1) Character description. Moderate intensity use areas, delineated in red on the plan map, are those areas where the capability of the natural resources and the anticipated need for future development indicate that relatively intense development, primarily residential in character, is possible, desirable and suitable.

These areas are primarily located near or adjacent to hamlets to provide for residential expansion. They are also located along highways or accessible shorelines where existing development has established the character of the area.

Those areas identified as moderate intensity use where relatively intense development does not already exist are generally characterized

by deep soils on moderate slopes and are readily accessible to existing hamlets.

(2) Purposes, policies and objectives. Moderate intensity use areas will provide for development opportunities in areas where development will not significantly harm the relatively tolerant physical and biological resources. These areas are designed to provide for residential expansion and growth and to accommodate uses related to residential uses in the vicinity of hamlets where community services can most readily and economically be provided. Such growth and the services related to it will generally be at less intense levels than in hamlet areas.

(3) Guidelines for overall intensity of development. The overall intensity of development for land located in any moderate intensity use area should not exceed approximately five hundred principal buildings per square mile.

(4) Classification of compatible uses:

Primary uses in moderate intensity use areas:

1. Single family dwellings.
2. Individual mobile homes.
3. Open space recreation uses.
4. Agricultural uses.
5. Agricultural use structures.
6. Forestry uses.
7. Forestry use structures.
8. Hunting and fishing cabins and hunting and fishing and other private club structures.
9. Game preserves and private parks.

10. Cemeteries.

11. Private roads.

12. Private sand and gravel extractions.

1. Multiple family dwellings.

2. Mobile home courts.

3. Public and semi-public buildings.

4. Municipal roads.

5. Agricultural service uses.

6. Commercial uses.

18. Mineral extractions.

19. Mineral extraction structures.

20. Watershed management and flood control projects.

21. Sewage treatment plants.

22. Major public utility uses.

23. Industrial uses.

e. Low intensity use areas. (1) Character description. Low intensity use areas, delineated in orange on the plan map, are those readily accessible areas, normally within reasonable proximity to a hamlet, where the physical and biological resources are fairly tolerant and can withstand development at an intensity somewhat lower than found in hamlets and moderate intensity use areas. While these areas often exhibit wide variability in the land's capability to support development, they are generally areas with fairly deep soils, moderate slopes and no large acreages of critical biological importance. Where these areas are adjacent to or near hamlets, clustering homes on the most developable portions of these areas makes possible a relatively high level of residential units and local services.

(2) Purposes, policies and objectives. The purpose of low intensity

use areas is to provide for development opportunities at levels that will protect the physical and biological resources, while still providing for orderly growth and development of the park. It is anticipated that these areas will primarily be used to provide housing development opportunities not only for park residents but also for the growing seasonal home market. In addition, services and uses related to residential uses may be located at a lower intensity than in hamlets or moderate intensity use areas.

(3) Guidelines for overall intensity of development. The overall intensity of development for land located in any low intensity use area should not exceed approximately two hundred principal buildings per square mile.

(4) Classification of compatible uses:

Primary uses in low intensity use areas:

1. Single family dwellings.
2. Individual mobile homes.
3. Open space recreation uses.
4. Agricultural uses.
5. Agricultural use structures.
6. Forestry uses.
7. Forestry use structures.
8. Hunting and fishing cabins and hunting and fishing and other private club structures.
9. Game preserves and private parks.
10. Private roads.

11. Cemeteries.

12. Private sand and gravel extractions.

13. Public utility uses.

14. Accessory uses and structures to any use classified as a compatible use.

Secondary uses in low intensity use areas:

1. Multiple family dwellings.

2. Mobile home courts.

3. Public and semi-public buildings.

4. Municipal roads.

5. Agricultural service uses.

6. Commercial uses.

7. Tourist accommodations.

8. Tourist attractions.

9. Marinas, boatyards and boat launching sites.

10. Golf courses.

11. Campgrounds.

12. Group camps.

13. Ski centers.

14. Commercial seaplane bases.

15. Commercial or private airports.

16. Sawmills, chipping mills, pallet mills and similar wood using facilities.

17. Commercial sand and gravel extractions.

18. Mineral extractions.

19. Mineral extraction structures.

20. Watershed management and flood control projects.

21. Sewage treatment plants.

22. Waste disposal areas.

23. Junkyards.

24. Major public utility uses.

25. Industrial uses.

f. Rural use areas. (1) Character description. Rural use areas, delineated in yellow on the plan map, are those areas where natural resource limitations and public considerations necessitate fairly stringent development constraints. These areas are characterized by substantial acreages of one or more of the following: fairly shallow soils, relatively severe slopes, significant ecotones, critical wildlife habitats, proximity to scenic vistas or key public lands. In addition, these areas are frequently remote from existing hamlet areas or are not readily accessible.

Consequently, these areas are characterized by a low level of development and variety of rural uses that are generally compatible with

the protection of the relatively intolerant natural resources and the preservation of open space. These areas and the resource management areas provide the essential open space atmosphere that characterizes the park.

(2) Purposes, policies and objectives. The basic purpose and objective of rural use areas is to provide for and encourage those rural land uses that are consistent and compatible with the relatively low tolerance of the areas' natural resources and the preservation of the open spaces that are essential and basic to the unique character of the park. Another objective of rural use areas is to prevent strip development along major travel corridors in order to enhance the aesthetic and economic benefit derived from a park atmosphere along these corridors.

Residential development and related development and uses should occur on large lots or in relatively small clusters on carefully selected and well designed sites. This will provide for further diversity in residential and related development opportunities in the park.

(3) Guideline for overall intensity of development. The overall intensity of development for land located in any rural use area should not exceed approximately seventy-five principal buildings per square mile.

(4) Classification of compatible uses.

Primary uses in rural use areas:

1. Single family dwellings.
2. Individual mobile homes.
3. Open space recreation uses.
4. Agricultural uses.
5. Agricultural use structures.
6. Forestry uses.

7. Forestry use structures.

8. Hunting and fishing cabins and hunting and fishing and other private club structures.

9. Game preserves and private parks.

10. Cemeteries.

11. Private roads.

12. Private sand and gravel extractions.

13. Public utility uses.

14. Accessory uses and structures to any use classified as a compatible use.

Secondary uses in rural use areas:

1. Multiple family dwellings.

2. Mobile home courts.

3. Public and semi-public buildings.

4. Municipal roads.

5. Agricultural service uses.

6. Commercial uses.

7. Tourist accommodations.

8. Marinas, boatyards and boat launching sites.

9. Golf courses.

10. Campgrounds.
11. Group camps.
12. Ski centers.
13. Commercial seaplane bases.
14. Commercial or private airports.
15. Sawmills, chipping mills, pallet mills and similar wood using facilities.
16. Commercial sand and gravel extractions.
17. Mineral extractions.
18. Mineral extraction structures.
19. Watershed management and flood control projects.
20. Sewage treatment plants.
21. Waste disposal areas.
22. Junkyards.
23. Major public utility uses.
24. Industrial uses.

g. Resource management areas. (1) Character description. Resource management areas, delineated in green on the plan map, are those lands where the need to protect, manage and enhance forest, agricultural, recreational and open space resources is of paramount importance because of overriding natural resource and public considerations. Open space

uses, including forest management, agriculture and recreational activities, are found throughout these areas.

Many resource management areas are characterized by substantial acreages of one or more of the following: shallow soils, severe slopes, elevations of over twenty-five hundred feet, flood plains, proximity to designated or proposed wild or scenic rivers, wetlands, critical wildlife habitats or habitats of rare and endangered plant and animal species.

Other resource management areas include extensive tracts under active forest management that are vital to the wood using industry and necessary to insure its raw material needs.

Important and viable agricultural areas are included in resource management areas, with many farms exhibiting a high level of capital investment for agricultural buildings and equipment. These agricultural areas are of considerable economic importance to segments of the park and provide for a type of open space which is compatible with the park's character.

(2) Purposes, policies and objectives. The basic purposes and objectives of resource management areas are to protect the delicate physical and biological resources, encourage proper and economic management of forest, agricultural and recreational resources and preserve the open spaces that are essential and basic to the unique character of the park. Another objective of these areas is to prevent strip development along major travel corridors in order to enhance the aesthetic and economic benefits derived from a park atmosphere along these corridors.

Finally, resource management areas will allow for residential development on substantial acreages or in small clusters on carefully selected and well designed sites.

(3) Guidelines for overall intensity of development. The overall intensity of development for land located in any resource management area should not exceed approximately fifteen principal buildings per square mile.

(4) Classification of compatible uses.

(2) Purposes, policies and objectives. Industrial use areas will encourage the continued operation of major existing industrial and

mineral extraction uses important to the economy of the Adirondack region and will provide suitable locations for new industrial and mineral extraction activities that may contribute to the economic growth of the park without detracting from its character. Land uses that might conflict with existing or potential industrial or mineral extraction uses are discouraged in industrial use areas.

(4) No overall intensity guideline is applicable to industrial use areas.

4. Development considerations. The following are those factors which relate to potential for adverse impact upon the park's natural, scenic, aesthetic, ecological, wildlife, historic, recreational or open space resources and which shall be considered, as provided in this article, before any significant new land use or development or subdivision of land is undertaken in the park. § 806. Shoreline restrictions. 1. In order to provide adequate protection of the quality of the lakes, ponds, rivers and streams of the park and the qualities of their shorelines, no person shall undertake any new land use or development or subdivision of land that involves any shoreline within the park, except in compliance, at a minimum, with the following restrictions. In addition, compliance with these restrictions shall be required by the agency in its review of any project under section eight hundred nine and, at a minimum, by any local government in the adoption and enforcement of a local land use program. All distances

contained in these restrictions shall be measured horizontally. For the purpose of this section, any lot, parcel or site that adjoins a shoreline, includes a shoreline or, in whole or in part, is located at or within the minimum set back requirement as provided in subparagraph two of paragraph a of this subdivision, and any land use or development on such a lot, parcel or site, shall be deemed to involve that shoreline.

a. In the case of the shorelines of all lakes and ponds and the shorelines of any river designated to be studied as a wild, scenic or recreational river in accordance with the environmental conservation law or any river or stream navigable by boat, including canoe, the following restrictions shall apply:

(1) The minimum lot width measured along the shoreline for each one family residential structure shall be fifty feet in hamlet areas, one hundred feet in moderate intensity use areas, one hundred twenty-five feet in low intensity use areas, one hundred fifty feet in rural use areas, and two hundred feet in resource management areas; provided that the minimum lot width for a lot not adjoining or including shoreline which is deemed to involve shoreline for the purposes of this section may be measured lateral to the shoreline at any point on the lot. Nothing herein shall be deemed to preclude the application of appropriate shoreline restrictions to new uses other than one family residential structures subject to project review by the agency or to an approved local land use program.

(2) The minimum setback of all principal buildings and accessory structures in excess of one hundred square feet, other than docks or boathouses, from the mean high-water mark shall be fifty feet in hamlet areas and moderate intensity use areas, seventy-five feet in low intensity and rural use areas, and one hundred feet in resource management areas.

(3) The removal of vegetation, including trees, shall be permitted on shorefront lots provided the following standards are met:

(a) Within thirty-five feet of the mean high-water mark not more than thirty percent of the trees in excess of six inches diameter at breast height existing at any time may be cut over any ten-year period.

(b) Within six feet of the mean high-water mark no vegetation may be

removed, except that up to a maximum of thirty percent of the shoreline may be cleared of vegetation on any individual lot. This provision shall be adhered to in addition to (a) above.

(c) The above cutting standards shall not be deemed to prevent the removal of diseased vegetation or of rotten or damaged trees or of other vegetation that present safety or health hazards.

(4) The following minimum shoreline frontages shall be required in all land use areas for deeded or contractual access to all such lakes, ponds, rivers or streams for five or more lots, parcels or sites or multiple family dwelling units not having separate and distinct ownership of shore frontage:

(a) Where five to twenty lots or multiple family dwelling units are involved, a total of not less than one hundred feet.

(b) Where more than twenty and not more than one hundred lots or multiple dwelling units are involved, a minimum of three feet for each additional lot or multiple dwelling unit in excess of twenty.

(c) Where more than one hundred and not more than one hundred fifty lots or multiple dwelling units are involved, a minimum of two feet for each additional lot or multiple dwelling unit in excess of one hundred.

(d) Where more than one hundred fifty lots or multiple dwelling units are involved, a minimum of one foot for each additional lot or multiple dwelling unit in excess of one hundred fifty.

b. In the case of all lakes, ponds, rivers and streams, the minimum setback of any on-site sewage drainage field or seepage pit shall be one hundred feet from the mean high-water mark in all land use areas.

2. In all of the above restrictions, the term "mean high-water mark" shall mean the spillway elevation contour, which is at seven hundred seventy-one feet elevation above mean sea level, whenever the Great Sacandaga Lake is involved.

3. a. Any person seeking a variance from the strict letter of the shoreline restrictions in connection with any new land use or development or subdivision of land proposed to be located in a land use area governed by an approved local land use program shall make application therefor to the local government as provided in such

approved local land use program. If a person is seeking such a variance in a land use area not governed by an approved local land use program, he shall make application therefor to the agency whether or not the agency has project review jurisdiction over the new land use or development or subdivision of land involved. Upon such application, and after public hearing thereon, the local government or the agency shall, where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of the restrictions, have authority to vary or modify the application of such restrictions relating to the use, construction or alteration of buildings or structures, or the use of land, so that the spirit of such restrictions shall be observed, public safety and welfare secured and substantial justice done.

b. The local government shall act upon any application to it within the time provided for in its local land use program. The agency shall act upon any application to it which is associated with a project subject to its review jurisdiction within the period provided in section eight hundred nine. In the case of any other application, the agency shall schedule a public hearing within fifteen days of receipt of an application in such form and manner as it shall prescribe. The public hearing shall be commenced within thirty days of the date it is scheduled. The agency shall act upon a variance application within forty-five days of the receipt by the agency of a complete record, as that term is defined in paragraphs (a) through (e) of subdivision one of section three hundred two of the state administrative procedure act.

4. The shoreline restrictions shall not apply to any emergency land use or development which is immediately necessary for the protection of life or property as defined by the agency in its rules and regulations governing its procedures to review projects as authorized in section eight hundred nine.

5. In order to encourage clustering of buildings and the maintenance of undeveloped shorelines, as an alternative to minimum lot widths of the shoreline restriction, shoreline development may take place in the following land use areas upon the following approximate overall

intensities of principal buildings (other than boathouses) per linear mile of shoreline or proportionate fraction thereof:

Principal Buildings

Land Use Areas	Per Linear Mile
Hamlet	106
Moderate Intensity	53
Low Intensity	42
Rural Use	36
Resource Management	26

This alternative method of cluster shoreline development shall only be employed where a single ownership or a group of two or more owners acting in concert is involved. In addition, approval of this method of development must carry with it provisions, whether by deed restriction, restrictive covenant or other similar appropriate means, to insure the retention in open space of the undeveloped portions of shoreline developed on a cluster basis. The agency, within its project review jurisdiction, or a local government under an approved local land use program, may apply these optional shoreline clustering provisions. Any person proposing to undertake new land use or development or subdivision of land in a land use area not governed by an approved local land use program and that is not subject to the agency's project review jurisdiction, may apply to the agency for a permit to employ such alternative method and the agency shall have authority to grant such a permit if the above required terms and conditions are met. The agency shall act upon such application within thirty days after receipt thereof.

§ 807. Local land use programs. 1. The agency is authorized to review and approve any local land use program proposed by a local government

and formally submitted by the legislative body of the local government to the agency for approval. Within a period of ninety days after such submission, or such longer period as may be agreed upon in writing by the agency and the local government, the agency shall review the local land use program and approve or disapprove it, or approve it subject to conditions. The agency shall approve the local land use program if the agency determines that such program meets all of the criteria set forth in subdivision two. If the agency fails to take final action on the local land use program within such ninety-day or longer period agreed upon by the agency and local government, the local land use program shall be deemed approved by the agency and the agency shall, upon the request of the legislative body of the local government, issue a certification to such effect to such chief elected official. Amendments to an approved local land use program that do not relate or pertain to the criteria for approval of a local land use program set forth in subdivision two of section eight hundred seven shall not be subject to approval by the agency. All amendments to an approved local land use program that do relate to such criteria shall be subject to approval by the agency as set forth in subdivision two of section eight hundred seven for approval of an initial local land use program.

2. The agency shall approve a local land use program if the agency determines that such program meets all of the following criteria: a. It is in furtherance and supportive of the land use and development plan.

b. It is compatible with the character descriptions and purposes, policies and objectives of the land use areas, and, in regard to its map, compatible with the plan map.

c. It reasonably applies the overall intensity guidelines for the land use areas in the light of the particular needs and conditions of the local government. In applying the overall intensity guideline for a given land use area, the local land use program may provide for both greater and lesser intensity of development within such area provided that the overall intensity shall not exceed such guideline. In no event, however, shall bodies of water, such as lakes or ponds, located in a land use area be taken into account in the application of the overall

intensity guideline for such area. The local land use program may disregard principal buildings in existence on August one, nineteen hundred seventy-three in applying the overall intensity guidelines for a land use area. If it does so, the land directly related to such principal buildings shall not be used in the computation of the total land area available for new principal buildings. The local land use program may be more restrictive than the overall intensity guidelines.

d. It reasonably applies the classification of compatible uses lists in the light of the needs and conditions of the local government. Accordingly, the local land use program may include uses not on these lists or exclude those that are on them, reclassify those classified on such lists as primary uses to secondary uses and those classified on such lists as secondary uses to primary uses, or prohibit any of the uses on such lists.

e. It incorporates at a minimum the shoreline restrictions as they relate to any shoreline within the local government. As an alternative to minimum lot sizes on shorelines, the optional shoreline clustering provisions contained in subdivision five of section eight hundred six may be employed in regard to all or specified portions of a shoreline in single ownerships or in situations involving a group of two or more owners acting in concert.

f. It requires review of class B regional projects and provides that any such project shall not be approved unless the local government body or officer having jurisdiction under the program determines that the undertaking or continuance of such project will not have an undue adverse impact upon the natural, scenic, aesthetic, ecological, wildlife, historic, recreational or open space resources of the park or upon the ability of the public to provide supporting facilities and services made necessary by the project, taking into account the commercial, industrial, residential, recreational or other benefits that might be derived from the project. In making this determination, as to the impact of the project upon the resources of the park, the local government body or officer having jurisdiction shall be required under the local land use program to apply the development considerations. The

local land use program may expand upon the development considerations, but shall not eliminate any of them. The local land use program shall include a provision to insure that no class B regional project shall be disapproved except after public hearing thereon.

g. It contains adequate authority and provision for its administration and enforcement, including, at the option of the legislative body of the local government, authority to regulate any pre-existing land use or development, or any prefilled subdivision plat. The source of such authority shall be the municipal home rule law or any other applicable state enabling law. Notwithstanding any general or special law to the contrary, a local government may provide in its local land use program, if such program is approved by the agency, for planning board action without public hearings on subdivision plats of less than five lots, parcels or sites, provided that no such provision may authorize the planning board to disapprove any subdivision plat without having first conducted a public hearing, as required by law. In addition, the legislative body of a local government may include in its local land use program, if such program is approved by the agency, and to the extent permissible within the proper exercise of the police power, such procedures as may be necessary and appropriate for the review of class B regional projects as required in paragraph f of this subdivision, and, in connection with the granting of a permit for such projects: (1) authority to require restriction of land against further development of principal buildings, whether by deed restriction, restrictive covenant or other similar appropriate means, to ensure that the overall intensity guidelines as applied in the local land use program shall be respected; and

(2) authority, to the extent otherwise authorized by law, to impose reasonable requirements and conditions to insure that an approved class B regional project will be adequately supported by services and improvements made necessary by such project and to insure that such a project shall be completed in accordance with the terms and conditions of the approval.

3. The agency may separately review and approve, disapprove, or approve subject to conditions, significant components of a local land

use program which relate or pertain to the entire territorial jurisdiction of a local government, if proposed by the local government and formally submitted by its legislative body. The agency shall approve such components if the agency determines that such criteria of subdivision two of this section as shall be relevant to each such component are met. Provided, however, that the separately approved components of a local land use program shall not be deemed an approved local land use program for the purposes of this section, section eight hundred eight or section eight hundred nine of this article, unless and until all of the components of the local land use program shall have been approved pursuant to the terms of this subdivision or subdivision four of this section. Each such component shall be reviewed and acted upon in accordance with the procedures and within the time periods specified in subdivision one of this section relative to review of local land use programs.

4. The agency may review and approve, disapprove, or approve subject to conditions, an industrial site plan review law or ordinance, whether or not submitted as a component of a local land use program, if proposed by a local government and formally submitted by its legislative body. The agency shall approve such law or ordinance if the agency determines that such criteria of subdivision two of this section as shall be relevant to industrial uses and to sawmills, chipping mills, pallet mills and similar wood using facilities are met. Such law or ordinance shall provide for the review of such uses and facilities pursuant to the criteria and procedures set forth in paragraph f of subdivision two of this section. Notwithstanding any general or special law to the contrary, such law or ordinance shall relate and pertain to not more than two particular sites totalling one hundred acres or less, identified by the local government after a comprehensive study of the entire area within its jurisdiction, as appropriate for industrial uses and wood using facilities; provided, however, that no such site shall be located in a resource management area and no such site may be located in a rural use area remote from existing hamlet areas, or along major travel corridors where a park atmosphere prevails. Upon approval, or approval subject to conditions by the agency, and upon valid enactment or adoption of such law or ordinance, the authority of the agency over

such uses and facilities pursuant to sections eight hundred six and eight hundred nine of this article shall be vested in the local government, whether or not such uses are class A regional projects. Such laws or ordinances shall be reviewed and acted upon in accordance with the procedures and within the time periods specified in subdivision one of this section relative to review of local land use programs. Section eight hundred eight of this article shall govern the administration and enforcement of such laws or ordinances.

5. The agency may review and approve, disapprove or approve subject to conditions, a local land use program insofar as it relates or pertains to one or more land use areas within the territorial jurisdiction of the local government which in the aggregate is a significant geographical portion of the territorial jurisdiction of the local government, if proposed by the local government and formally submitted by its legislative body. The agency shall approve such program if the agency determines that all criteria of subdivision two of this section are met with respect to such geographical portion. If approved, or approved subject to conditions by the agency, such validly enacted or adopted program, insofar as it pertains to such geographical portion, shall be deemed an approved local land use program with respect to such geographical portion in accordance with the terms and conditions of such approval, for the purposes of this section, section eight hundred eight and section eight hundred nine of this article. Provided, that nothing contained in this subdivision shall supercede or be construed in derogation of the provisions and requirements of the town law and village law otherwise applicable to the valid enactment or adoption of such program. The program, insofar as it pertains to such geographical portion, shall be reviewed and acted upon in accordance with the procedures and within the time periods specified in subdivision one of this section relative to review of local land use programs.

6. The agency shall, in its review of local land use programs, consult with appropriate public agencies, and shall provide opportunity for the Adirondack park local government review board and the appropriate county and regional planning agencies to review and comment on such programs under review.

7. The agency shall encourage and assist local governments in the preparation of local land use programs, including the provision of data, technical assistance and model provisions. Such model provisions shall be made available by the agency as soon as possible after the effective date of the adoption of the land use and development plan.

§ 808. Administration and enforcement of approved local land use programs. 1. Local land use programs that have been approved by the agency and validly enacted or adopted shall be administered and enforced as provided for in such approved programs.

2. Upon receipt of an application to undertake any class B regional project that is permissible under an approved local land use program, the local government body or officer having jurisdiction thereof shall give written notice thereof to the agency, together with such pertinent information as the agency may deem necessary. The agency shall have standing to participate as a party in the local review of such project, including any public hearing thereon, and to have the issuance of a permit therefor by such body or officer reviewed under article seventy-eight of the civil practice law and rules and to bring proceedings in any court of competent jurisdiction to have any undertaking pursuant to such permit restrained, enjoined, corrected or abated.

3. Upon receipt of an application for a variance from any provision of an approved local land use program involving land in any land use area other than a hamlet, including any shoreline restriction, the local government body or officer having jurisdiction thereof shall give written notice thereof to the agency together with such pertinent information as the agency may deem necessary. If such variance is granted, it shall not take effect for thirty days after the granting thereof. If, within such thirty day period, the agency determines that such variance involves the provisions of the land use and development plan as approved in the local land use program including any shoreline restriction and was not based upon the appropriate statutory basis of

practical difficulties or unnecessary hardships, the agency may reverse the local determination to permit the variance. If the agency so acts, the appropriate local government officer or body, as well as any other person aggrieved by such action, shall have standing to have such action reviewed under article seventy-eight of the civil practice law and rules.

4. The agency, after consultation with the Adirondack park local government review board, shall have standing to institute a proceeding in any court of competent jurisdiction to revoke its approval of a local land use program and reassert its review jurisdiction over class B regional projects under section eight hundred nine whenever the agency determines by a two-thirds affirmative vote of its members that the local government body or officer having jurisdiction has repeatedly or frequently failed or refused, after due notice and requests from the agency, and with such body or officer having had full opportunity to be heard on all issues involved, to administer or enforce the approved local land use program to adequately carry out the policies, purposes and objectives of the approved program or of the land use and development plan. Not earlier than one year after any such successful reassertion by the agency, or such earlier time as may be mutually agreed to, the legislative body of the local government involved may submit its local land use program, or any amended version thereof, or a newly proposed program to the agency for approval as provided for in section eight hundred seven for the initial approval of a local land use program.

5. The agency shall be a party who shall be joined, pursuant to the terms of subdivision a of section one thousand one of the civil practice law and rules, in any action initiated by or against a local government, or an instrumentality, agent or employee thereof, in which the issues to be adjudicated relate or pertain to the criteria for approval of a local land use program set forth in subdivision two of section eight hundred seven of this article. In any other action initiated by or against a local government, or an instrumentality, agent or employee thereof, joinder of the agency shall be governed by the terms of section one thousand two of the civil practice law and rules.

6. In any action where the agency is a party pursuant to the first sentence of subdivision five of this section, the attorney general shall, at the request of the local government and without cost to local government, also represent the local government as to those issues which are common to both the agency and the local government, and as to which both seek the same or substantially similar determination.

§ 809. Agency administration and enforcement of the land use and development plan. 1. The agency shall have jurisdiction to review and approve all class A regional projects, including those proposed to be located in a land use area governed by an approved local land use program, and all class B regional projects in any land use area not governed by an approved and validly enacted or adopted local land use program.

All projects shall be reviewed and acted upon as expeditiously as practical. In particular, to facilitate the review of minor project applications, the agency shall develop simplified application forms to deal with such projects, and will comply with the special procedures for such projects set forth in this section. For the purposes of this section, "minor project" shall mean any individual single family dwelling or mobile home or any subdivision involving two lots, parcels or sites.

2. a. Any person proposing to undertake a class A regional project in any land use area, or a class B regional project in any land use area not governed by an approved and validly enacted or adopted local land use program, shall make application to the agency for approval of such project and receive an agency permit therefor prior to undertaking the project. Such application shall be filed in such form and manner as the agency may prescribe. The agency shall, upon receipt of such application, provide notice of receipt of the application and a brief description of the project to the Adirondack park local government review board, the chairman of the county planning board, if any, of the county wherein the project is proposed to be located, to the chairman of

the appropriate regional planning board, and to the chief elected officer, clerk and planning board chairman, if any, of the local government wherein such project is proposed to be located. The agency shall, upon request, furnish or make a copy of the application available to the review board or to the officials listed in this paragraph.

b. On or before fifteen calendar days after the receipt of such application the agency shall notify the project sponsor by certified mail whether or not the application is complete. For the purposes of this section, a "complete application" shall mean an application for a permit which is in an approved form and is determined by the agency to be complete for the purpose of commencing review of the application but which may need to be supplemented during the course of review as to matters contained in the application in order to enable the agency to make the findings and determinations required by this section. If the agency fails to mail such notice within such fifteen-day period, the application shall be deemed complete. If the agency determines the application is not complete, the notice shall include a concise statement of the respects in which the application is incomplete. The submission by the project sponsor of the requested additional information shall commence a new fifteen calendar day period for agency review of the additional information for the purposes of determining completeness. If the agency determines the application is complete, the notice shall so state.

A notice of application completion shall not be required in the case of applications for minor projects which the agency determines to be complete when filed. Such applications shall be deemed complete for the purposes of this section upon the date of receipt.

c. The project sponsor shall not undertake the project for a period of ninety days, or in the case of a minor project, forty-five days, following the date of such notice of application completion, or the date the application is deemed complete pursuant to the provisions of this section, unless a permit is issued prior to the expiration of such periods.

d. Immediately upon determining that an application is complete, the agency shall, except in relation to minor projects, cause a notice of application to be published in the next available environmental notice bulletin published by the department of environmental conservation pursuant to section 3-0306 of the environmental conservation law, which publication shall be not later than ten calendar days after the date of such notice. The time period for public comment on a permit application shall be stated in the notice of application. The agency shall at the same time mail a copy of the notice of application completion to the Adirondack park local government review board and to the persons named in paragraph a of subdivision two of this section, and invite their comments.

3. a. Within the time periods specified in paragraphs b and c of this subdivision, the agency shall make a decision on a permit application by notifying the project sponsor by certified mail of its decision to approve the project, approve the project subject to conditions or disapprove the project.

b. In the case of an application for a permit for which no public hearing has been held, the agency decision shall be mailed on or before ninety calendar days or, in the case of a minor project, forty-five calendar days, after the agency notifies the project sponsor that the application is complete or after the application is deemed complete pursuant to the provisions of this section.

c. In the case of an application for a permit for which a public hearing has been held, the agency decision shall be mailed on or before sixty calendar days after receipt by the agency of a complete record, as that term is defined in paragraphs (a) through (e) of subdivision one of section three hundred two of the state administrative procedure act.

d. If the agency determines to hold a public hearing on an application for a permit, the agency shall notify the project sponsor of its determination by certified mail on or before sixty calendar days or, in the case of a minor project, forty-five calendar days after the agency notifies the project sponsor that the application is complete or after

the application is deemed complete pursuant to the provisions of this section. The determination of whether or not to hold a public hearing on an application shall be based on whether the agency's evaluation or comments of the review board, local officials or the public on a project raise substantive and significant issues relating to any findings or determinations the agency is required to make pursuant to this section, including the reasonable likelihood that the project will be disapproved or can be approved only with major modifications because the project as proposed may not meet statutory or regulatory criteria or standards. The agency shall also consider the general level of public interest in a project. No project may be disapproved without a public hearing first being held thereon.

e. If the agency has notified the project sponsor of its determination to hold a public hearing, the sponsor shall not undertake the project during the time period specified in paragraph c of this subdivision. The notice of determination to hold a public hearing shall state that the project sponsor has the opportunity within fifteen days to withdraw his application or submit a new application. A public hearing shall commence on or before ninety calendar days, or in the case of a minor project, seventy-five days, after the agency notifies the project sponsor that the application is complete or after the application is deemed complete pursuant to the provisions of this section. In addition to notice of such hearing being mailed to the project sponsor, such notice shall also be given by publication at least once in the environmental notice bulletin and in a newspaper having general circulation in each local government wherein the project is proposed to be located, by conspicuous posting of the land involved, and by individual notice served by certified mail upon each owner of record of the land involved, and by mail upon: the Adirondack park local government review board, the persons named in paragraph a of subdivision two of this section, any adjoining landowner, to the extent reasonably discernible from the latest completed tax assessment roll, and the clerk of any local government within five hundred feet of the land involved. Public hearings held pursuant to this section shall be consolidated or held jointly with other state or local agencies whenever practicable.

4. The agency shall make provision in its rules and regulations adopted pursuant to subdivision fourteen of this section for the Adirondack park local government review board and county and regional planning agencies receiving notice under subdivision two to have opportunity to review and render advisory comments on the project under review by the agency.

5. Notice of an agency decision shall be given by mail to those entitled to individual notice of application under subdivision two and notice of hearing under subdivision three, if a hearing is held. If the decision is approval, the agency shall within ten days of issuance of its notification of approval grant a permit to the project sponsor to undertake the project. If the decision is approval subject to conditions, the agency shall grant a permit only upon satisfactory fulfillment of such conditions. Approval subject to conditions shall expire six months from the date of such approval, or such longer time as is specified in the notification or approval, unless a permit has been granted. An agency permit shall serve as authorization for the project sponsor to undertake the project in accordance with the terms and conditions thereof.

6. a. If the agency fails to mail a decision on an application for a permit within the time periods specified in paragraphs b and c of subdivision three of this section, the project sponsor may cause notice of such failure to be made to the agency by means of certified mail, return receipt requested, addressed to the agency at its headquarters office. If, within five working days after the receipt of such notice the agency fails to mail a decision, the application shall be deemed approved and a permit deemed granted subject to any standard terms or conditions applicable to such a permit and the agency shall provide the project sponsor with a written certification to this effect.

b. Any time period specified in this section may be waived and extended for good cause by written request of the project sponsor and consent of the agency, or by written request of the agency and consent of the project sponsor.

c. At any time during the review of an application for a permit or a request by a permit holder for the renewal, reissuance, or modification of an existing permit pursuant to subdivision eight of this section, the agency may request additional information from the project sponsor or permit holder with regard to any matter contained in the application or request when such additional information is necessary for the agency to make any findings or determinations required by law. Such a request shall not extend any time period for agency action contained in this section. Failure by the project sponsor or permit holder to provide such information may be grounds for denial by the agency of the application or request.

7. a. A permit or certificate issued by the agency pursuant to subdivision five or six of this section shall expire within sixty days from the date thereof unless within such sixty-day period such permit or certificate shall have been duly recorded in the name of the landowner in the office of the clerk of the county wherein the project is proposed to be located. Where a permit involves action in concert by two or more landowners as described by paragraph c of subdivision ten of this section, the permit shall be recorded in the name of each landowner.

b. A permit when properly recorded shall operate and be construed as actual notice of the right to undertake the project and of the terms and conditions imposed by such permit. Such right shall extend to and such terms and conditions shall be binding upon all subsequent grantees of the land area subject to the permit, except those conditions which by their nature or wording are to be performed by the original project sponsor and except as may be otherwise provided by the terms of such permit.

c. If a project for which a permit has been granted, or a certificate issued, is not in existence within two years after the recording of such permit or certificate, unless the terms of the permit provides for a longer period of time, the project may not thereafter be undertaken or continued unless an application for a new permit therefor has been applied for and granted in the same manner and subject to all conditions governing the application for and granting of a permit as provided in

this section. In determining whether to provide a longer period of time by when the project must be in existence, the agency shall give due consideration to the potential of the land related to the project to remain suitable for the use allowed by the permit and to the economic considerations attending the project.

8. a. Upon the provision of notice stating the grounds for its action and giving an opportunity for hearing to the permit holder, the agency may modify, suspend or revoke a permit.

b. A permit holder may make written request to the agency for the renewal, reissuance, or modification of an existing permit. Such a request shall be accompanied by sufficient information supporting the request for the agency action sought.

(1) In the case of a request which does not involve a material change in permit conditions, the applicable law, environmental conditions or technology since the date of issuance of the existing permit, the agency shall on or before fifteen calendar days after the receipt of a request mail a written determination to the permit holder of its decision on the request. If the decision is to deny the request, the permit holder shall be afforded an opportunity for hearing and notice of such decision shall be given by the agency in the next available issue of the environmental notice bulletin.

(2) In the case of a request which may involve a material change as described in subparagraph one of this paragraph, the agency shall on or before fifteen calendar days after the receipt of a request mail a written determination to the permit holder that the request shall be treated as an application for a new permit.

If pursuant to subparagraph one or two of this paragraph, the agency fails to mail a written determination to the permit holder within such fifteen calendar day period, the provisions of subdivision six of this section shall apply.

9. The agency shall not approve any class A regional project proposed to be located in a land use area governed by an approved local land use program, or grant a permit therefor, unless it first determines that

such project meets all of the pertinent requirements and conditions of such approved local land use program and that the project would not have an undue adverse impact upon the natural, scenic, aesthetic, ecological, wildlife, historic, recreational or open space resources of the park or upon the ability of the public to provide supporting facilities and services made necessary by the project, taking into account the commercial, industrial, residential, recreational or other benefits that might be derived from the project. In making this determination, as to the impact of the project upon such resources of the park, the agency shall consider those pertinent factors contained in the development considerations and provided for in such approved local land use program. The agency shall, in connection with its review of a project under this subdivision, make provision in its rules and regulations adopted under subdivision fourteen for the early involvement of the local government wherein such project is proposed to be located in the review of such project on an informal basis. Such local government shall have standing as a party in any public hearing on such project held by the agency.

10. The agency shall not approve any project proposed to be located in any land use area not governed by an approved local land use program, or grant a permit therefor, unless it first determines that such project meets the following criteria:

a. The project would be consistent with the land use and development plan.

b. The project would be compatible with the character description and purposes, policies and objectives of the land use area wherein it is proposed to be located. If the project is on the classification of compatible uses list for the land use area involved, there shall be a presumption of compatibility with the character description, purposes, policies and objectives of such land use area. If the project is a class B regional project because, as provided in section eight hundred ten, it is not listed as either a primary use or a secondary use on the classification of compatible uses list for the land use area wherein it is proposed to be located, there shall be a presumption that such project would not be compatible with the character description,

purposes, policies and objectives of such land use area and the burden shall be on the project sponsor to demonstrate such compatibility to the satisfaction of the agency.

c. The project would be consistent with the overall intensity guideline for the land use area involved. A landowner shall not be allowed to construct, either directly or as a result of a proposed subdivision, more principal buildings on the land included within the project than the overall intensity guideline for the given land use area in which the project is located. In determining the land area upon which the intensity guideline is calculated and which is included within a project, the landowner shall only include land under his ownership and may include all adjacent land which he owns within that land use area irrespective of such dividing lines as lot lines, roads, rights of way, or streams and, in the absence of local land use programs governing the intensity of land use and development, irrespective of local government boundaries. Principal buildings in existence within the area included within a project, as such area is defined by the landowner, shall be counted in applying the intensity guidelines. As between two or more separate landowners in a given land use area the principal buildings on one landowner's property shall not be counted in applying the intensity guidelines to another landowner's project, except that two or more landowners whose lands are directly contiguous and located in the same general tax district or special levy or assessment district may, when acting, in concert in submitting a project, aggregate such lands for purposes of applying the intensity guidelines to their lands thus aggregated. The area upon which the intensity guideline is calculated shall not include (a) bodies of water, such as lakes and ponds, (b) any land in the same ownership that is directly related to any principal building in existence on August first, nineteen hundred seventy-three, which land is not included in the project, and (c), in the case of any principal building constructed after August first, nineteen hundred seventy-three, any land in the same or any other ownership that was included within the area of any previous project in order to comply with the overall intensity guideline.

d. The project would comply with the shoreline restrictions if

applicable. The agency may require a greater setback of any on-site sewage drainage field or seepage pit than required under the shoreline restrictions if it determines that soils or other pertinent conditions require such greater setback to reasonably protect the water quality of the water body involved.

e. The project would not have an undue adverse impact upon the natural, scenic, aesthetic, ecological, wildlife, historic, recreational or open space resources of the park or upon the ability of the public to provide supporting facilities and services made necessary by the project, taking into account the commercial, industrial, residential, recreational or other benefits that might be derived from the project. In making this determination, as to the impact of the project upon such resources of the park, the agency shall consider those factors contained in the development considerations of the plan which are pertinent to the project under review.

11. Where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of the provisions of the plan or the shoreline restrictions, the agency shall have authority in connection with a project under its review to vary or modify, after public hearing thereon, the application of any of such provisions or restrictions relating to the use, construction or alteration of buildings or structures, or the use of land, so that the spirit of the provisions or restrictions shall be observed, public safety and welfare secured and substantial justice done.

12. The agency may conduct such investigations, examinations tests and site evaluations as it deems necessary to verify information contained in an application for a development permit, and the project sponsor, or owner of the land upon which the project is proposed, shall grant the agency or its agents permission to enter upon his land for these purposes.

13. The agency shall have authority to impose such requirements and conditions with its granting of a permit as are allowable within the proper exercise of the police power. The agency shall have specific

authority in connection with its project review jurisdiction: a. To impose reasonable conditions and requirements, including the posting of performance bonds in favor of the local government as obligee, to ensure that any project for which a permit is granted will be adequately supported by basic services and improvements made necessary by the project. The cost of any such services or improvements may be imposed by requiring that the project sponsor provide the service or improvement or reserve land, or any interest therein, or contribute money in lieu thereof to the local government wherein the project is proposed to be located if such local government consents thereto. In the exercise of the authority contained in this provision, the agency shall consult with the affected municipalities and give due consideration to their views.

b. To impose reasonable conditions and requirements to ensure that a project for which a permit is granted by the agency, when undertaken or continued, will be completed in accordance with the terms and conditions of the permit, and that the project sponsor furnish appropriate guarantees of completion or otherwise demonstrate financial capacity to complete the project or any material part thereof and furnish appropriate guarantees or otherwise demonstrate that the project will be managed and maintained once completed in accordance with the terms of the permit.

c. To impose reasonable conditions and requirements to ensure that upon approval of a project the applicable overall intensity guideline for the land use area involved will be respected. Such requirement may include the restriction of land against further development of principal buildings, whether by deed restriction, restrictive covenant or other similar appropriate means.

d. To allow, upon request of a project sponsor, projects to be reviewed conceptually, and thereafter or simultaneously therewith to be divided into and reviewed by sections, and to grant or deny permits for such sections. Conceptual determinations may be made, and sectional permits may be granted subject to the provision of those requirements and conditions for improvements and services for, and for completion of the total project as the agency deems reasonable and necessary.

Conceptual review shall focus upon the existing environmental setting and the likely impacts which would result from the project, including all proposed phases or segments thereof, but shall not result in a binding approval or disapproval. The agency shall in rules and regulations establish criteria, guidelines, and procedures for the conceptual and sectional review of proposed projects. Except to the extent, and only for such period of time as otherwise specifically stated in the agency's decision upon an application for a sectional permit, the granting of any sectional permit shall not constitute a finding, or be binding upon the agency, with respect to any portion of the total project not included in the section for which the permit is granted.

e. To issue a general permit for any class of projects concerning which the agency determines it may make the requisite statutory findings on a general basis.

14. The agency may, after public hearing, adopt, and have authority to amend or repeal, rules and regulations, consistent with the provisions of this section, to govern its project review procedures and to provide further guidance to potential project sponsors through further definition of the development considerations as they would apply to specific classes of projects in specific physical and biological conditions. Such rules and regulations may include but not be limited to:

a. Procedures prior to formal application to the agency for a permit for the informal discussion of preliminary plans for a proposed project and for preliminary approval or recommendations in regard to the project. Such informal discussion shall be optional with the project sponsor and no such preliminary approval or recommendations shall relieve the sponsor from complying with the provisions governing submission of a project for review and obtaining a permit therefor as provided in this section.

b. Procedures for cooperation and joint action, including joint hearings, insofar as practical, with other state agencies having review

or regulatory jurisdiction which relates with that of the agency's so as to avoid unnecessary costs and burdens both to the state and to project sponsors and landowners.

c. Procedures to insure communication and discussion with any federal agency, including the Army Corps of engineers and the soil conservation service, in regard to any federal development proposals in the park.

Such agency rules and regulations, and any amendments thereof, shall be adopted only after consultation with the Adirondack park local government review board and at least one public hearing thereon. Fifteen days notice of such hearing shall be made by publication at least once in a newspaper of general circulation in each county wholly or partially within the Adirondack park and in at least three metropolitan areas of the state, and by individual notice served by mail upon the clerk of each county and each local government of the park, and the chairman of all local government, county and regional planning agencies having jurisdiction in the park. Such notice shall contain a statement describing the subject matter of the proposed rules and regulations, and the time and place of the hearing and where further information thereon may be obtained.

15. This section shall not apply to any emergency project which is immediately necessary for the protection of life or property as defined by the agency by rule and regulation adopted under subdivision fourteen.

§ 811. Special provisions relating to agency project review jurisdiction and the shoreline restrictions. 1. Notwithstanding any other provision of this article, including the provisions of the land use and development plan and the shoreline restrictions, the following provisions shall apply in connection with the project review jurisdiction of the agency under section eight hundred nine and application of the shoreline restrictions either by the agency in the review of a project or by operation of section eight hundred six.

a. Single family dwelling on existing vacant lot. One single family dwelling or mobile home shall be allowed to be built on any vacant lot which was on record on the date that this act shall become a law regardless of the overall intensity guidelines, or the minimum lot width provisions of the shoreline restrictions. For the purposes of this

exemption, such a lot must not adjoin other lots in the same ownership, provided however, that all such lots in the same ownership may be treated together as one lot. In addition to the foregoing exemption, where the agency has jurisdiction, for a reason other than its location in a critical environmental area, of a single family dwelling or mobile home on a lot described in this paragraph which is owned by an individual who has continually owned such lot since May twenty-second, nineteen hundred seventy-three, it may not disapprove the project on any of the grounds specified in paragraph e of subdivision ten of section eight hundred nine, but may impose such reasonable conditions on the type and manner of placement of any individual on-site sewage disposal facilities as are in furtherance of the purposes of this article and in compliance with applicable standards of the department of health.

b. Conversions of certain existing uses. Those structures in existence on the date that this act shall become a law that are associated with resort hotels, rental cottages and group camps shall be allowed to be converted from their previous use to individual single family residence use, notwithstanding the fact that such structures, as converted, do not conform to the overall intensity guidelines or the shoreline restrictions.

c. Gifts, devises and inheritances. The mere division of land resulting from bona fide gift, devise or inheritance by and from natural persons shall not be subject to review by the agency. New land use or development on lots, parcels or sites conveyed by individuals, who on the date that this act shall become law own such land, to members of their immediate families by bona fide gift, devise or inheritance, shall be exempt from the overall intensity guidelines and the minimum lot size criteria specified in the class B regional project lists for the purpose of constructing one single family dwelling or mobile home on any such lot, parcel or site.

2. Any pre-existing land use and development shall not be subject to review by the agency.

3. Any (a) pre-existing subdivision of land, (b) any subdivision or

portion of a subdivision that involves seventy-five or fewer lots, parcels or sites for the completion of which any or all permits and other approvals required by or pursuant to law were obtained after July first, nineteen hundred seventy-one and for which all such required permits were in full force and effect on July thirty-first, nineteen hundred seventy-three, or (c) individual single family dwelling or mobile home, erected or placed on any lot, parcel or site in any subdivision referred to in clauses (a) and (b) hereof which has been approved by the state department of health, shall not be subject to review by the agency, provided, however, that a subdivision or portion of a subdivision described in clause (b) hereof shall become subject to review by the agency on August first, nineteen hundred seventy-four if such subdivision or portion is not in existence on said date. Any individual single family dwelling or mobile home referred to in clause (c) of this subdivision hereof shall not be subject to the minimum lot width provisions of the shoreline restrictions.

4. With respect to any land use or development or subdivision of land or portion thereof approved by the agency under its interim project review authority, in section eight hundred fifteen, such land use or development or subdivision or portion thereof may proceed in accordance with the terms of the approval and shall not be subject to further review by the agency so long as such land use or development or subdivision or portion thereof is substantially commenced and/or material expenditures and financial obligations have been incurred with regard to such land use or development or subdivision or portion thereof within two years of such approval.

5. Any existing land use or development, including any structure being restored or rebuilt in whole or in part, being increased or expanded, whether in successive stages or at one time, to a total of less than twenty-five percent of its size or square footage at the date of enactment or when originally built or undertaken, whichever is later, shall not be subject to review by the agency. Any material increase or expansion thereafter shall constitute a reviewable land use or development if otherwise within the agency's review jurisdiction. In no case shall any increase or expansion violate, or increase non-compliance

with, the minimum setback requirements of the shoreline restrictions. Notwithstanding the foregoing, a single family dwelling or mobile home may always be enlarged or rebuilt to any extent provided that it continues to be used as such, provided, however, that no such increase or expansion shall violate, or increase any non-compliance with, the minimum setback requirements of the shoreline restrictions.

§ 812. Public hearings. 1. Public hearings authorized or required by section eight hundred nine to be held by the agency in connection with the review of projects shall be conducted as provided in this section, the applicable project review rules and regulations of the agency adopted under subdivision fourteen of such section, and the state administrative procedure act.

2. Notice of such public hearings shall be given as required in section eight hundred nine. Individual notices of hearing required under such section shall be served by mail in the manner required by section eight hundred nine of this article to the last known address of such individuals. Individual notice of hearing shall also be so served on any other person or agency, public or private, as may be required under the agency's project review rules and regulations.

3. Parties to a public hearing shall be the project sponsor and any person or agency entitled to individual notice and any other person or agency as may be authorized under the agency's project review rules and regulations.

4. The public hearing may, if authorized by the agency's project review rules and regulations, be conducted by any member or designee of the agency, but any findings, decision, order, permit or certificate of the agency shall be adopted by the agency, all members voting having familiarized themselves with the record.

5. The agency, or member or designee thereof presiding at the hearing shall have power to administer oaths and issue subpoenas to compel the attendance of witnesses and the production of relevant documents and

papers, including witnesses and documents requested by the parties.

6. The parties shall be afforded the opportunity to present evidence and argument and, in the case of the project sponsor, any person or agency entitled by law to individual notice and any other public agency, to cross-examine witnesses on all relevant issues, but the member or designee presiding may impose reasonable limitations as to time and number of persons heard.

7. The agency shall keep a verbatim record of the proceedings and certified copies shall be made available, and for such reasonable charges, as may be provided by rule or regulation of the agency.

§ 813. Penalties and enforcement. 1. Any person who violates any provision of this article or any rule or regulation promulgated by the agency, or the terms or conditions of any order or permit issued by the agency pursuant to this article shall be liable to a civil penalty of not more than five hundred dollars for each day or part thereof during which such violation continues. The civil penalties provided by this subdivision shall be recoverable in an action instituted in the name of the agency by the attorney general on his own initiative or at the request of the agency.

2. Alternatively or in addition to an action to recover the civil penalties provided by subdivision one of this section, the attorney general may institute in the name of the agency any appropriate action or proceeding to prevent, restrain, enjoin, correct or abate any violation of, or to enforce, any provision of this article or any rule or regulation promulgated by the agency, or the terms or conditions of any order or permit issued by the agency pursuant to this article. The court in which the action or proceeding is brought may order the joinder of appropriate persons as parties and may order the appropriate person or the person responsible for the violation to take such affirmative measures as are properly within its equitable powers to correct or ameliorate the violation, having regard to the purposes of this article and the determinations required by subdivision ten of section eight

hundred nine.

3. Such civil penalty may be released or compromised by the agency before the matter has been referred to the attorney general, and where such matter has been referred to the attorney general, any such penalty may be released or compromised and any action or cause of action commenced to recover the same may be settled or discontinued by the attorney general with the consent of the agency.

§ 814. State agency projects. 1. Any state agency which intends to undertake any new land use or development within the Adirondack park, other than land use or development by the department of environmental conservation pursuant to the master plan for management of state lands, irrespective of whether the land use area wherein the project is proposed to be located is governed by an approved local land use program shall give due regard to the provisions of the plan and the shoreline restrictions and shall file a notice of such intent thereof with the agency. Such notice shall be filed at the earliest time practicable in the planning of such project, and in no event later than the submission of a formal budget request for the funding of such project or any part thereof. Such notice shall contain a description of the proposed project, together with such additional information relating thereto as the agency may determine necessary and appropriate for the purposes of this section. The state agency shall not undertake such project for a period of thirty days, or such earlier time as the agency may specify, following the filing of the notice of intent.

2. During such thirty-day period, the agency may review the project to determine whether it: a. might be inconsistent with the provisions of the plan and shoreline restrictions, or

b. may have an undue adverse impact upon the natural, scenic, aesthetic, ecological, wildlife, historic, recreational or open space resources of the park, taking into account the economic and social benefits to be derived from such project. In making such determination, the agency shall apply the development considerations.

3. If, on or before the conclusion of such thirty-day period, the agency determines that the project will not be inconsistent with such provisions or restrictions and will not have an undue adverse impact upon such resources, it shall report its findings to the state agency. If the agency determines, at or before the conclusion of such period, that the project might be inconsistent with such provisions or restrictions, or might have such an undue adverse impact upon such resources, it shall notify the state agency by mail, that the agency will hold public hearing on the project within thirty days of such notice and, at the same time, issue an order to the state agency not to undertake the project for up to ninety days following the commencement of such public hearing. During such ninety-day or lesser period, the agency shall further review the project and determine whether or not it will be inconsistent with such provisions or restrictions or have such undue adverse impact. On or before the conclusion of such ninety-day period, the agency shall report its findings in the manner provided above.

4. This section shall not apply to any emergency project which is immediately necessary for the protection of life or property as defined by the agency by rule and regulation.

5. The agency may adopt, and have authority to amend or repeal, rules and regulations, consistent with this section, to govern its procedures for the reviews authorized by this section.

§ 815. Interim development controls. 1. The legislature hereby finds that development is taking place in the Adirondack park which threatens the accomplishment of the basic purpose of this article to insure optimum overall conservation, protection, preservation, development and use of the park's unique scenic, historic, ecological and natural resources. Such development presents an imminent danger to the integrity of an area of the state which has always been considered a priceless possession of the people of this state. If such development is left uncontrolled until the land use and development plan is effective and

its implementation is underway, the purposes of this article may be irreparably and irreversibly compromised. It would, therefore, be prejudicial to the interests of the people of the state to delay regulatory action until the land use and development plan becomes effective as adopted in this article. Accordingly, the agency is authorized until August one, nineteen hundred seventy-three to exercise the powers set forth in this section.

2. The agency shall, after public hearing, adopt, and may from time to time amend, rules and regulations to carry out the purposes of this section for the review of any proposed development in the Adirondack park which might have an adverse effect upon the park's unique scenic, historic, ecological and natural resources, hereinafter referred to as a project, including criteria by which such project shall be evaluated by the agency. Such review shall not include review of projects on state lands within the park. The rules and regulations of the agency currently in force and effect shall remain in force to the extent consistent with this section and unless and until otherwise amended.

3. Before adopting or amending such rules and regulations, the agency shall submit them to the department of environmental conservation for comments and recommendation.

4. Such rules and regulations may exclude projects in specified areas or specified kinds of projects and shall exclude (a) bona fide management, including logging, of forests, woodlands or plantations or the construction or maintenance of woodroads, landings or temporary structures, directly associated with such management, (b) bona fide management of land for agriculture, livestock raising, horticulture and orchards and (c) any project involving less than five acres and fewer than five lots, from review under this section.

5. Such rules and regulations shall set forth a procedure for the informal discussion of preliminary and informal plans for a project and for preliminary approval or recommendations by the agency with respect to the project. Such informal discussion shall be optional with the project sponsor, and no such preliminary approval or recommendations by

the agency shall relieve any agency or person from complying with any provision of this section.

6. This section shall not apply to any emergency project which is immediately necessary for the protection of life or property as defined by the agency by rule and regulation.

7. A public or private agency or person proposing to undertake a project subject to review under this section or the rules and regulations adopted hereunder, shall submit to the agency a description thereof, in such form and manner as shall be sufficient to enable the agency to make the findings and determinations required by this section. For a period of ninety days following the submission of such description to the agency, or until such earlier time as the agency may specify, such agency or person shall not undertake or continue such project. The agency shall review such description to determine the effect of the proposed project upon the scenic, historic, ecological and natural resources of the park, and to assess the commercial, industrial, residential, recreational or other benefits of the project.

8. If, on or before the conclusion of such ninety-day period and after a public hearing is held on the project in accordance with subdivision nine the agency finds that the proposed project (1) is not in substantial conformity with the policies of this article and (2) would have a substantial and lasting adverse impact upon such resources of the park, it may issue an order upon the project sponsor prohibiting the commencement or continuation of the project until August first, nineteen hundred seventy-three. The findings and order of the agency shall be in writing and notice of the findings and order shall be mailed to persons to whom it is directed at their last known address.

9. Notice of a formal hearing shall be given by conspicuous posting of the land which is or will be subject to the agency action in question and by publication at least once in a newspaper of general circulation in the county or counties wherein such land is situated. In addition, individual notice shall be given by depositing the same in the mails addressed at the last known address to: (1) The owner or owners of the

land which is or will be subject to the agency order; (2) the public or private agency or person proposing to undertake the project; and (3) the local government or local governments exercising jurisdiction over the land which is or will be subject to the agency order.

Notices shall be given at least seven days in advance of the hearing and shall contain a statement describing the matters to be considered at the hearing, the time and place where further details may be obtained, and the time and place of the hearing.

10. Any review and determination made pursuant to this section shall take into account existing local controls.

11. All orders made by the agency shall be enforceable by appropriate proceedings at law or in equity and any person who violates any provision of this section or rules, regulations and orders adopted pursuant thereto may be fined for not more than five hundred dollars or imprisoned not more than thirty days, or both. Each day the violation continues is hereby deemed to be a separate offense for purposes of determining the amount of such fines and length of imprisonment.

12. A project which has been approved by the agency shall also be subject to approval by local government if such approval is required by law.

13. In regard to a project with respect to which the ninety-day period specified in subdivision seven hereof has been commenced on or before July thirty-first, nineteen hundred seventy-three, unless the agency approves said project in accordance with the provisions of this section, the project sponsor may not undertake said project if it is of a type subject to the agency's project review jurisdiction under section eight hundred nine until the sponsor has obtained a permit therefor as required therein.

14. If the agency approves a project reviewed under this section, the project sponsor may request, within ten days thereafter, and the agency shall issue within ten days after receipt of such request, a certificate

to the effect that the project is approved and may be undertaken or continued, and that permit therefor as called for in section eight hundred nine is not required for such project so long as the project is completed within two years after issuance of such certificate. Irrespective of whether a certificate is issued pursuant to this section, a permit shall be required for the undertaking or continuation of a project approved under this section if such project is not completed within two years after its approval.

15. For the purposes of this section, the term "development" shall mean any activity which materially affects the existing conditions, use or appearance of any land, structure or improvement including the division of any land into parcels or units but shall not include the division of any land resulting from devise, inheritance, gift or operation of law.

§ 816. Master plan for management of state lands. 1. The department of environmental conservation is hereby authorized and directed to develop, in consultation with the agency, individual management plans for units of land classified in the master plan for management of state lands heretofore prepared by the agency in consultation with the department of environmental conservation and approved by the governor. Such management plans shall conform to the general guidelines and criteria set forth in the master plan. Until amended, the master plan for management of state lands and the individual management plans shall guide the development and management of state lands in the Adirondack park.

2. The master plan and the individual management plans shall be reviewed periodically and may be amended from time to time, and when so amended shall as amended henceforth guide the development and management of state lands in the Adirondack park. Amendments to the master plan shall be prepared by the agency, in consultation with the department of environmental conservation, and submitted after public hearing to the governor for his approval.

3. The agency and department are hereby authorized to develop rules

and regulations necessary, convenient or desirable to effectuate the purposes of this section.

§ 817. Activities of the United States in the Adirondack park. 1. It is hereby declared to be the policy of this state that new land use or development or acquisition of land by the United States within the Adirondack park shall conform to the land use and development plan and the master plan for the management of state lands so far as practicable, and to any further extent as the Congress of the United States may by law provide.

2. The agency may, upon request of the United States, advise whether any particular proposed land use and development or acquisition will conform to the land use and development plan or the master plan.

§ 818. Judicial review. 1. Any act, omission, or order of the agency or of any officer or employee thereof, pursuant to or within the scope of this article, may be reviewed at the instance of any aggrieved person in accordance with article seventy-eight of the civil practice law and rules, but application for such review must be made not later than sixty days from the effective date of the order or the date when the act or omission occurred.

2. Any local government which appears as a party in any proceeding before the agency, shall have standing to have the agency's decision on such project reviewed pursuant to article seventy-eight of the civil practice law and rules.

§ 819. Applicability. 1. No provision of this article shall be construed to prohibit any local government from adopting and enforcing land use and development controls for lands, other than those owned by the state.

2. Any local land use program which has been validly enacted or

adopted by a municipality shall be valid and enforceable notwithstanding its not having been approved by the agency, and any new land use or development or subdivision of land shall be subject to the provisions of such local land use program and to the shoreline restrictions contained in section eight hundred six. If the agency has project review jurisdiction over any such land use or development or subdivision of land under section eight hundred nine, such land use, development or subdivision shall, in addition to its being subject to the provisions of any such local land use program, be subject to such agency jurisdiction. The project sponsor may not undertake or continue such land use, development or subdivision, however, or any part thereof, notwithstanding the granting of a permit therefor by the agency, unless such undertaking or continuance is also permitted by the municipality under and in accordance with the provisions of its local land use program.

3. No provision of this article shall be deemed to prohibit any land use and development or subdivision of land existing prior to the effective date of this article, including those uses and development and subdivisions of land expressly not subject to agency review as provided in section eight hundred eleven.

4. Nothing in this article shall be construed to empower the agency to acquire any interest in real property by purchase or condemnation. No right of first refusal or first option to purchase in favor of the agency, the department of environmental conservation or any other state agency shall in any way be created by this article or the land use and development plan.

5. Nothing in this article shall be construed to supersede or replace or diminish in any way any regulatory or review authority of any other state agency.

§ 820. Severability. If any section of this article or the application thereof to any person or circumstances shall be adjudged invalid by a court of competent jurisdiction, such order or judgment shall be

confined in its operation to the controversy in which it was rendered, and shall not affect or invalidate the remainder of any provision of any section or the application of any part thereof to any other person or circumstance and to this end the provisions of each section of the article are hereby declared to be severable.

(ii) The director may establish aspirational goals for the expected participation of minority group members and women for municipalities where the director deems feasible and appropriate.

(iii) The director shall, in establishing the aspirational goals, consider the findings of the most recent disparity study and any

(b) The director shall update the aspirational goals on a periodic basis, no less than biannually.

(b) Goals for the participation of minority group members and women shall set forth separate goals for each of the following groups in each construction trade, profession, and occupation:

Every contractor responding to an invitation for bids, request for proposals, or other solicitation that will result in the award of a state contract subject to workforce participation goals pursuant to this section shall agree to make a good faith effort to achieve such workforce participation goal or request a waiver of such goal.

(a) A contractor that certifies that it will make a good faith effort to achieve a workforce participation goal shall provide with its response to the applicable invitation for bids, request for proposals, or other solicitation:

(i) A certification stating that the contractor will make a good faith effort to achieve the applicable workforce participation goal and will contractually require any subcontractors to the contractor to make a good faith effort to achieve the applicable workforce participation goal in any subcontracted work;

(ii) The level of anticipated participation by minority group members and women as employees to the contractor, or, if the state agency has specifically indicated that such documentation is not required as part of the response to the invitation for bids, request for proposals, or other solicitation, a date certain for the submission of such documentation after the award of the state contract;

(iii) A list of all subcontractors anticipated to perform work on the state contract and the level of anticipated participation by minority group members and women as employees to each subcontractor, or, if the state agency has specifically indicated that such documentation is not required as part of the response to the invitation for bids, request for proposals, or other solicitation, a date certain for the submission of such documentation after the award of the state contract; and

(iv) Such other information as the contracting state agency shall require.

(b) A contractor that requests a waiver of a workforce participation goal shall provide with its response to the applicable invitation for bids, request for proposals, or other solicitation:

(i) Numerical evidence setting forth why the achievement of the workforce participation goal is not practical, feasible, or appropriate

in light of the construction trades, professions, and occupations required to perform the work of the state contract;

(ii) Documentation of the contractor's efforts, and any efforts by subcontractors to the contractor, to promote the inclusion of minority group members and women in construction trades, professions, and occupations required in the performance of the state contract;

(iv) A list of all subcontractors anticipated to perform work on the state contract and the level of anticipated participation by minority group members and women as employees to each subcontractor; and

(v) Any other relevant information evidencing that the contractor's achievement of the workforce participation goal would not be practical, feasible, or appropriate.

4. A state agency may not award a state contract to a contractor unless the contractor has (i) certified that it will make a good faith effort to achieve the applicable workforce participation goal and provided documentation of the workforce anticipated to perform the work of the state contract or (ii) submitted a waiver request which the state agency deems to reflect the maximum feasible participation of minority group members and women in each of the construction trades, professions, and occupations required in performance of the work of the state contract.

(a) In the event that a contractor submits a certification or waiver request that is accepted by the state agency, the state agency shall establish in the state contract the expected level of participation by minority group members and women in each of the construction trades, professions, and occupations required in performance of the work of the state contract, require that the contractor make good faith efforts to achieve such workforce participation goals, require that the contractor require any subcontractors to make a good faith effort to achieve the applicable workforce participation goal in any subcontracted work.

or the state agency determines that a contractor's waiver request does not demonstrate that the applicable workforce participation goal is impractical, unfeasible, or inappropriate, the state agency shall notify the contractor of the deficiency in writing and provide the contractor five business days to remedy the noticed deficiency. A state agency may reject any bid or proposal of a contractor that fails to timely respond to a notice of deficiency or to provide documentation remedying the deficiency to the satisfaction of the state agency.

(c) Where failure to remedy any notified deficiency in the workforce utilization plan is a ground for disqualification, that issue and all other grounds for disqualification shall be stated in writing by the contracting state agency. The director shall establish via regulation, rules for state contracting agencies aimed at the measurement, reduction and elimination of erroneous business disqualifications including a process affording a contractor notice and an opportunity to be heard related to such disqualifications.

Where the contractor's inability to achieve the workforce participation goal on a state contract is attributable to the failure of one or more subcontractors to make good faith efforts to achieve the maximum feasible participation of minority group members and women in the performance of the work of the state contract, the contractor shall identify such subcontractor or subcontractors to the contracting state agency.

2. A state agency shall grant a request for a waiver of workforce participation goals on a state contract where:

3. Exceptions. A peer support communication shall not be confidential if:

(a) it contains or reveals a specific threat of suicide, an expression of suicidal ideation, engagement in self-harm, or a threat of bodily harm or death, provided disclosure of such communication shall only be permitted for the purpose of preventing or mitigating such harm and is made to a person or persons reasonably in a position to provide assistance in preventing or mitigating such harm.

(b) it contains an admission of criminal conduct; or

(c) the peer support participant has provided consent for disclosure, which may be provided at any time, and the disclosure is consistent with such consent.

§ 837-aa. Firearm prevention technology requirements for three-dimensional printers. 1. As used in this section, the following terms shall have the following meanings:

(a) "Three-dimensional printer" means:

(i) any machine capable of rendering a three-dimensional object from a digital design file using additive manufacturing; or

(ii) any machine capable of making three-dimensional modifications to an object from a digital design file using subtractive manufacturing.

(b) "Blocking technology" means hardware, software, firmware, or other integrated technological measures capable of ensuring a three-dimensional printer will not proceed to print any print job unless the underlying three-dimensional printing file has been evaluated by a firearms blueprint detection algorithm and determined not to be a printing file that would produce a firearm or illegal firearm parts.

(c) "Firearms blueprint detection algorithm" means a software service that evaluates three-dimensional printing files, whether in the form of stereolithography (STL) files or other computer aided design files or geometric code, to determine if they can be used to program a three-dimensional printer to produce a firearm or illegal firearm parts, and flag any such files to prevent their use to manufacture said firearm or illegal firearm parts.

(d) "Illegal firearm parts" means an unfinished frame or receiver, a

major component of a firearm, or any part designed and intended for use in converting a semi-automatic weapon into a machine gun, including, but not limited to, a pistol converter.

(e) All other terms shall have the same meaning given to such terms in section 265.00 of the penal law.

2. Within ninety days of the effective date of this section, the division, the department of state, and the state university of New York shall convene a working group which shall include experts in additive manufacturing technology, artificial intelligence and digital security, firearms regulation, public safety, consumer product safety, and any other relevant disciplines determined by the division to be necessary to perform the functions prescribed herein. No later than one year after the working group convenes, the working group shall make recommendations regarding the minimum safety standards a three-dimensional printer's blocking technology must meet in order to comply with the requirements of section three hundred ninety-six-eeee of the general business law. Such recommendations shall address, at a minimum, available and appropriate types of blocking technology, including minimum performance standards for those technologies and for firearms blueprint detection algorithms, necessary safeguards to reduce the risk of circumvention of blocking technology, and alignment with existing state and federal law. Provided, however, that if the working group determines that it is not technologically feasible to require three-dimensional printers sold in the state of New York to include blocking technology, the working group shall so report, and no regulations shall be required to be promulgated pursuant to this section, until such time as the working group determines that it is technologically feasible.

3. The division shall:

(a) within nine months of receiving the recommendations from the working group pursuant to subdivision two of this section, unless the working group reports that it is not technologically feasible to require three-dimensional printers sold in New York to include blocking technology, in consultation with the department of state, promulgate and publish rules or regulations establishing performance standards for blocking technology and any other rules and regulations as may be

necessary to carry out the provisions of this section, section three hundred ninety-six-eeee of the general business law, and article thirty-nine-DDDD of the general business law; and

(b) be authorized to create and maintain a library of firearms blueprint files and illegal firearm parts blueprint files, and maintain and update the library, including by adding new files that enable the three-dimensional printing of firearms or illegal firearm parts and including scans of seized firearms. In furtherance of this authorization, the division may designate another government agency or an academic or research institution in this state to assist with the creation and maintenance of the file library. The library shall be made available to three-dimensional printer manufacturers, vendors with demonstrated expertise in software development, or experts in computational design or public safety, for the development or improvement of blocking technology and firearm blueprint detection algorithms. The division shall establish safeguards to prevent unauthorized access to and misuse of the library and shall prohibit all persons who are granted access to the library from misusing, selling, disseminating, or otherwise publishing its contents.

§ 838. Identification of unknown dead and missing persons. 1. Every county medical examiner and coroner shall promptly furnish the division and the National Missing and Unidentified Persons System created by the Office of Justice Program's National Institute of Justice, with copies of fingerprints on standardized eight inch by eight inch fingerprint cards or the equivalent digital image, personal descriptions and other identifying data, including date and place of death, of all deceased persons whose deaths are in a classification requiring inquiry by the medical examiner or coroner where the deceased is not identified or the medical examiner or coroner is not satisfied with the decedent's identification. The division shall promptly make available personal descriptions and other identifying data, including date and place of death, of such deceased persons to all law enforcement agencies in the state, and upon request, to law enforcement agencies outside of the state.

2. In any case where it is not physically possible to furnish prints of the ten fingers of the deceased, prints or partial prints of any fingers with other identifying data shall be forwarded by the county medical examiner or coroner to the division.

3. In addition to the foregoing provisions of this section, the county medical examiner or coroner shall cause a dentist authorized to practice pursuant to article one hundred thirty-three of the education law or a dental student in a registered school of dentistry in this state to carry out a dental examination of the deceased. The medical examiner or coroner shall forward the dental examination records to the division on a form supplied by the division for that purpose.

4. The division shall compare the fingerprints received from the county medical examiners or coroners to fingerprints on file with the division for purposes of attempting to determine the identity of the deceased. Other descriptive data supplied with the fingerprints shall also be compared to records maintained by the division concerning missing persons. The division shall submit the results of the comparisons to the appropriate medical examiner or coroner and if a tentative or positive identification is made, to the law enforcement authority which submitted the report of the missing person.

5. (a) (i) When any person makes a report of a missing person to a law enforcement authority, the authority shall request a member of the family or next of kin of the missing person to authorize the release to the division of the dental records of the person reported missing. The release shall be on a form supplied by the division. If the person reported missing is still missing thirty days after the report is made, the law enforcement authority shall deliver the release to the dentist or dentists of the missing person, and request the dentist or dentists to deliver such records, including dental x-rays, to the division within ten days. The form of such request shall also include means by which the law enforcement authority shall be notified of the delivery of such records.

(ii) When the person reported missing has not been found within thirty days and no family or next of kin exists or can be located, the law

enforcement authority may execute a written declaration, stating that an active investigation seeking the location of the missing person is being conducted, and that the dental records are necessary for the exclusive purpose of furthering the investigation. Such written declaration, signed by a peace officer, is sufficient authority for the dentist or dentists to release the missing person's dental records, including dental x-rays, to the division.

(b) Upon receipt of a properly executed release and request or declaration, the dentist or dentists shall forward the dental records, including dental x-rays, to the division, where a file shall be maintained concerning persons reported to it as missing and who have not been reported to it as found. The file shall contain dental records and such other information as the division finds to be relevant to assisting in the location of a missing person. The law enforcement authority shall be notified of the delivery of such records.

6. The division shall compare the dental records received from the county medical examiners or coroners to dental records of missing persons on file with the division. The division shall submit the results of the comparison to the appropriate medical examiner or coroner and if a tentative or positive identification is made, to the law enforcement authority which submitted the report of the missing person.

7. (a) When a person previously reported missing has been found, the superintendent of state police, sheriff, chief of police, coroner or medical examiner, or other law enforcement authority shall erase all records with respect to such person and/or destroy any documents which are maintained pursuant to this section and shall report to the division that the person has been found and that the records and documents have been so erased or destroyed. After receiving such a report, the division shall erase all records with respect to such person and/or destroy any documents which are maintained pursuant to this section.

(b) Nothing in paragraph (a) of this subdivision shall be construed as prohibiting law enforcement agencies from maintaining case files relating to vulnerable adults, as defined in section eight hundred thirty-seven-f-one, who were reported missing, provided, however, that any DNA, fingerprints and/or dental records acquired in the course of

such investigation shall be erased and/or destroyed in accordance with paragraph (a) of this subdivision after the person previously reported missing has been found.

(c) (i) Notwithstanding the provisions of paragraph (a) of this subdivision, if a vulnerable adult, as defined in section eight hundred thirty-seven-f-one of this article, previously reported missing has been found, the division shall maintain a sealed record of the case file for a period of ten years, after which it shall be erased and/or destroyed. The sealed record shall be unsealed if the individual to whom the record pertains is reported missing on a subsequent occasion or if needed for evidentiary purposes in any civil litigation against the division or its personnel that arises from the investigation. However, in the event that there are grounds for a criminal action arising from the investigation, nothing in this subdivision shall be interpreted as prohibiting the division from allowing such records to remain unsealed until such criminal action is concluded or otherwise resolved.

(ii) The division shall establish rules and regulations relating to the unsealing of records. Such rules and regulations shall require that, pursuant to subparagraph (i) of this paragraph, the process of unsealing such records shall take no longer than two hours from the time the division receives a report that a vulnerable adult, for whom there is a previous record, is missing.

8. The information contained in the division's missing person files shall be made available by it to law enforcement agencies attempting to locate missing persons.

9. Notwithstanding any other provision of law, no criminal justice agency shall establish or maintain any policy which requires the observance of a waiting period before accepting and investigating a missing child report. Upon receipt of a report of a missing child, criminal justice agencies shall make entries of such report to the register in the manner provided by section eight hundred thirty-seven-e of this article.

10. Notwithstanding any other provision of law, no criminal justice agency shall establish or maintain any policy that requires the

observance of a waiting period before accepting and investigating a report of a missing vulnerable adult as defined in section eight hundred thirty-seven-f-one of this article. Upon receipt of a report of such missing vulnerable adult, criminal justice agencies shall make entries of such report in the manner provided by subdivision eleven of this section.

11. Whenever a criminal justice agency determines that a person is a missing vulnerable adult, as defined in section eight hundred thirty-seven-f-one of this article, or that an unidentified living person may be a missing vulnerable adult, such criminal justice agency shall enter the report of such missing vulnerable adult in any database of missing persons maintained by the division and the federal government.

(e) Each forensic laboratory, within one hundred twenty days after receiving each sexual offense evidence kit pursuant to paragraph (d) of this subdivision shall assess case specific information for CODIS eligibility and, if eligible, analyze the kits and attempt to develop CODIS eligible profiles for any potential perpetrators and shall, within ninety days of such assessment, report the results to the submitting agency and the appropriate prosecutorial entity.

(f) The failure of any such police agency, prosecutorial agency or forensic laboratory to comply with a time limit specified in this section or section eight hundred thirty-eight-b of this article shall not, in and of itself, constitute a basis for a motion to suppress evidence in accordance with section 710.20 of the criminal procedure law.

2. (a) Each forensic laboratory in the state shall report to the division, on a quarterly basis, in writing, on (i) the number of sexual offense evidence kits it received, (ii) the number of such kits processed for the purpose of developing Combined DNA Index System (CODIS) eligible profiles of any potential perpetrators, and (iii) the number of kits not processed for testing, including, the reason such kits were ineligible for processing.

offense evidence kit and the submission of any such kit to the forensic laboratory.

(c) The division shall provide to the senate and assembly leaders such quarterly reports received from the forensic labs and police and prosecutorial agencies pursuant to paragraphs (a) and (b) of this subdivision by January first, two thousand eighteen and annually thereafter.

3. Each police agency, prosecutorial agency and other law enforcement agency within this state shall adopt policies and procedures concerning contact with victims of sexual offenses, and the provision of information to victims upon request, concerning sexual offense evidence collected or received from them. The policies and procedures shall be victim-focused, meaning systematically focused on the needs and concerns of victims to ensure the compassionate and sensitive delivery of services in a nonjudgemental manner, and shall include, at a minimum, a requirement that:

(a) the police agency, prosecutorial agency or other law enforcement agency designate at least one person, who is trained in trauma and victim response through a program meeting minimum standards established by the division of criminal justice services, following appropriate guidelines on evidence-based, trauma-informed practices, which may include guidelines from the Substance Abuse and Mental Health Services Administration, within its agency to receive all inquiries concerning sexual offense evidence kits from victims; and

The police or prosecutorial agency or other law enforcement agency in possession of a sexual offense evidence kit shall notify the sexual offense victim at least ninety days prior to the expiration of the twenty-year storage period in accordance with paragraph (k) of subdivision two of section twenty-eight hundred five-i of the public health law.

ARTICLE 36-A

NEW YORK MOTOR VEHICLE THEFT AND INSURANCE FRAUD PREVENTION PROGRAM

Section 846-i. Short title.

846-j. Legislative findings.

846-k. Definitions.

846-l. New York motor vehicle theft and insurance fraud prevention board.

846-m. Plan of operation and grant award process.

§ 846-i. Short title. This article shall be known and cited as the "New York motor vehicle theft and insurance fraud prevention demonstration program".

§ 846-j. Legislative findings. Motor vehicle theft and motor vehicle insurance fraud is a major problem in this state costing honest motor vehicle policyholders billions of dollars annually. As the cost of motor vehicle insurance continues to rise, this essential coverage has become less affordable and more out of reach for many New Yorkers. Between nineteen hundred eighty-five and nineteen hundred ninety-two, New York has seen over a fifty percent increase in the number of motor vehicle thefts. Over one hundred sixty thousand motor vehicles are stolen annually in this state at a cost of over seven hundred million dollars. Between nineteen hundred eighty-six and nineteen hundred ninety-two, New York has also seen a one hundred sixty-six percent increase in the number of reported fraudulent claims; estimates have put the cost to policyholders for fraudulent activities at ten percent of premiums paid. The legislature acknowledges a direct relationship between the incidence of motor vehicle theft, motor vehicle insurance fraud and the cost of

motor vehicle insurance premium rates. The legislature finds, therefore, that to reduce the overall cost of motor vehicle insurance in this state, measures must be enacted which specifically address the incidence of motor vehicle theft and motor vehicle insurance fraud. This legislation creates the motor vehicle theft and insurance fraud prevention demonstration program, the goals of which are as follows: to provide an integrated means to prevent, deter and reduce the incidence of motor vehicle theft and motor vehicle insurance fraud by developing and providing funding for demonstration programs which include education on motor vehicle theft and insurance fraud prevention, programs on motor vehicle theft and insurance fraud prevention and specialized law enforcement units to combat motor vehicle theft and insurance fraud.

§ 846-k. Definitions. As used in this article, the following terms shall have the following meanings:

1. "Board" means the New York motor vehicle theft and insurance fraud prevention board.
2. "Fee" means the motor vehicle theft and insurance fraud prevention fee established pursuant to section nine thousand one hundred ten of the insurance law.
3. "Fund" means the motor vehicle theft and insurance fraud prevention fund established pursuant to section eighty-nine-d of the state finance law.
4. "Program" means the New York motor vehicle theft and insurance fraud prevention demonstration program.
5. "Provider agency" means a locality, governmental agency, or not-for-profit organization of any character that provides one or more motor vehicle theft or insurance fraud prevention or driver safety activities in accordance with a plan approved by the board.
6. "Motor vehicle" shall be defined as in section one hundred

twenty-five of the vehicle and traffic law, except that it shall also include trailers, semi-trailers and tractors other than tractors used exclusively for agricultural purposes, and shall exclude fire and police vehicles, farm equipment, including self-propelled machines used exclusively in growing, harvesting or handling farm produce, tractors used exclusively for agricultural purposes, or for snow plowing other than for hire, and self-propelled caterpillar or crawler-type equipment while being operated on the contract site.

§ 846-1. New York motor vehicle theft and insurance fraud prevention board. 1. There is hereby created in the division of criminal justice services the New York motor vehicle theft and insurance fraud prevention board (hereinafter "board"), which shall consist of the following members:

(a) The commissioner of criminal justice services (hereinafter "commissioner"), or his designee, who shall serve as the voting chairperson of the board;

(b) Three voting members appointed by the governor on the recommendation of the speaker of the assembly provided, however, that no more than two such appointments made pursuant to this paragraph shall be from the same category of members as provided for in subdivision two of this section.

(c) Three voting members appointed by the governor on the recommendation of the temporary president of the senate provided, however, that no more than two such appointments made pursuant to this paragraph shall be from the same category of members as provided for in subdivision two of this section; and

(d) Five voting members appointed by the governor provided, however, that no more than two such appointments made pursuant to this paragraph shall be from the same category of members as provided for in subdivision two of this section.

2. The members of the board appointed on the recommendation of the speaker of the assembly and the temporary president of the senate, and the members of the board appointed by the governor pursuant to paragraph (d) of subdivision one of this section, shall be representative of

consumers of motor vehicle insurance, motor vehicle insurance companies, law enforcement agencies and the judicial system. The appointments shall be made not later than one hundred eighty days after the date on which this section shall have become law. Members of the board who are not public officials shall serve for a term of four years. Members of the board shall serve without compensation, except that members of the board who are not public officials shall be entitled to receive reasonable reimbursement for expenses incurred by them in performance of their duties as members of the board. A majority of the members of the board shall constitute a quorum for the transaction of business at a meeting. Action may be taken by the board at a meeting upon a vote of the majority of its members present. Every member of the board shall be entitled to designate a representative to attend, in his or her place, a meeting of the board and to vote or otherwise act in his or her behalf, provided, however, that a member may not designate such a representative more than once each year. Written notice of such designation shall be furnished to the board by the designating member prior to any meeting attended by his or her representative. Any such representative shall serve at the pleasure of the designating member. No such representative shall be authorized to delegate any of his or her duties or functions to any other person. The board shall meet at least four times each year, and at other times at the call of the chairperson or upon the written request of two-thirds of the members of the board.

(d) Appoint such employees and agents as the commissioner may deem necessary, fix their compensation within the limitations provided by

law, and prescribe their duties;

(e) Request from the division of state police, from county or municipal police departments and agencies, from the department of financial services, from the department of motor vehicles, from the office of court administration, from any other state department or agency or public authority, or from any insurer which offers motor vehicle insurance such assistance and data as are useful for the purposes and objectives of the program;

(f) Cooperate with and assist political subdivisions of the state in the development of local programs to prevent motor vehicle theft and insurance fraud;

(g) Advise and assist the superintendent of financial services pursuant to section two thousand three hundred forty-eight of the insurance law; and

(h) Submit, no later than February fifteenth of each year to the governor and the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee, a written report on the board's activities, the activities of grant recipients, the results achieved by the grant recipients in improving the detection, prevention or reduction of motor vehicle theft and insurance fraud and the impact such efforts may have on motor vehicle insurance rates.

§ 846-m. Plan of operation and grant award process. 1. In accordance with the legislative intent of this article, the board shall develop and recommend to the commissioner a plan of operation which shall provide for a coordinated approach to curtailing motor vehicle theft and motor vehicle insurance fraud throughout the state. The plan shall provide an integrated means to detect, prevent, deter and reduce motor vehicle theft and motor vehicle insurance fraud by providing funds, upon the recommendation of the board and approved by the commissioner, to meet these objectives. The plan of operation shall include but not be limited to: an assessment of the scope of the problem of motor vehicle theft and motor vehicle insurance fraud, including a regional analysis of the incidence of motor vehicle theft and motor vehicle insurance fraud and related activities; an analysis of various methods of combating the problem; and the development of a request for proposals process,

consistent with the plan, for applications from provider agencies to receive grants from the fund.

2. (a) The moneys received by the fund shall be expended in a manner that is consistent with the plan of operation, pursuant to appropriation, only to reimburse costs incurred by provider agencies for pilot program activities relating to the detection, prevention or reduction of motor vehicle theft and motor vehicle insurance fraud.

(b) Activities eligible for funding include, but are not limited to, the following: prosecution and adjudication services; law enforcement services; neighborhood or community based programs designed to reduce the incidence of motor vehicle theft and motor vehicle insurance fraud; educational programs designed to inform owners of motor vehicles concerning activities designed to prevent the incidence of theft of motor vehicles and fraudulent claims practices; and programs designed to examine, evaluate and make recommendations relating to the efficacy of motor vehicle theft prevention devices or methods including, but not limited to, passive tracking devices designed to identify the location of a motor vehicle at any given point in time and window glass etching with vehicle identification numbers or any other unique identifying symbol including decal programs such as New York city's operation combat auto theft (C.A.T.). Funds provided under this program shall be used to augment, and not to supplant, the provider agency's current funding, if any, for motor vehicle theft and insurance fraud detection, prevention, or reduction activities.

(c) In allocating the moneys for the program, the commissioner, upon recommendation of the board, shall, to the greatest extent possible, take into account the geographic incidence of motor vehicle theft and insurance fraud, whereby localities with the greatest incidence of motor vehicle theft and insurance fraud shall be targeted for the purposes of this program.

(d) The state comptroller shall conduct an audit of all moneys received and expended by the fund as well as all other funds expended from any other source for the purposes of this program, and shall submit a written report detailing such audit to the governor and legislature on or before March first of each year.

ARTICLE 37

TUG HILL COMMISSION

Section 847-a. Statement of legislative findings and purpose.

847-b. Tug Hill commission; continuation.

847-c. Tug Hill commission powers and duties.

847-d. Compensation.

847-e. Reports.

847-f. Commission staff; benefits.

§ 847-a. Statement of legislative findings and purpose. The legislature hereby finds that for approximately twenty-five years, the Tug Hill commission has provided essential planning and technical services to the sixty-two local governments and to residents in the twenty-one hundred square mile Tug Hill region.

The legislature further finds that, lying between Lake Ontario, the Black River and Oneida Lake, is a region of approximately twenty-one hundred square miles that encompasses towns and villages scattered in a vast acreage of forest and farm land. The core of the region encompasses more than eight hundred square miles of remote forest land and the headwaters of several major rivers, with much of the area inaccessible by public road. These lands and waters are important to the state of New York as municipal water supply, as wildlife and plant habitat, as key resources supporting forest industry, farming, recreation and tourism and traditional land uses such as hunting and fishing. State assistance through the Tug Hill commission to help Tug Hill local governments and organizations is merited and needed because of the importance of these resources to the state, and because of the small population and relative poverty of the region.

The legislature further finds that the Tug Hill commission, originally established in nineteen hundred seventy-two as a temporary state commission, has studied the Tug Hill region, provided technical assistance to the region's local governments and reported to the governor and legislature regarding the conservation and development of

the Tug Hill region. The purpose of the commission is to enable local governments, private organizations, and individuals to shape the future of the Tug Hill region, and to demonstrate and communicate ways that this can be done by other rural areas. Commission programs are geared toward the conservation and productive use of the natural resources of the region, strengthening of the long-term economy, employment, cultural and social resources, and the general well-being of the rural communities. The commission has facilitated local action as the most enduring and cost-effective method of retaining the rural and remote character of this land, and of retaining the independent way of life of its people and their economy.

The legislature finds that the Tug Hill commission's track record demonstrates its capability for working together with towns and villages for appropriate community and economic development and resource protection. Its continuation will enable municipalities to perform their basic local government functions.

It is the purpose of this article to insure continued municipal assistance, conservation, preservation and development in the region by continuing the Tug Hill commission, in order to serve those local government and regional needs, now and in the future.

§ 847-b. Tug Hill commission; continuation. There is hereby continued the Tug Hill commission, hereinafter referred to as the commission, to consist of nine members to be appointed as follows: three by the governor, three by the temporary president of the senate and three by the speaker of the assembly. All of the appointees of each such officer shall be residents of the Tug Hill region, which includes, in Jefferson county, the towns of Adams, Champion, Lorraine, Rodman, Rutland, Watertown and Worth; in Lewis county, the towns of Denmark, Harrisburg, Lewis, Leyden, Lowville, Martinsburg, Montague, Osceola, Pinckney, Turin and West Turin; in Oneida county, the towns of Annsville, Ava, Boonville, Camden, Florence, Floyd, Forestport, Lee, Remsen, Steuben, Trenton, Vienna and Western; and in Oswego county, the towns of Albion, Amboy, Boylston, Constantia, Hastings, Orwell, Parish, Redfield, West

Monroe and Williamstown. At least two commissioners shall be selected from each of the four counties respectively. The commission shall choose from among its members a chairman, vice-chairman and secretary. The members of the Tug Hill commission serving on the effective date of this article shall continue in office and shall be deemed and held to constitute the members of the Tug Hill commission until their terms expire on August first, nineteen hundred ninety-eight. Thereafter, the term of office of each member appointed shall be for five years. Each member shall hold office until a successor has been appointed and qualified. Vacancies in membership of the commission occurring from any cause shall be filled by the officer authorized to make the original appointment of the member whose office becomes vacant.

§ 847-c. Tug Hill commission powers and duties. The commission shall have the following powers and duties:

1. To adopt and use a seal; to sue and be sued; to appoint and remove officers, agents and employees and determine their qualifications, duties and compensation; to acquire, hold and dispose of personal property; to retain or employ counsel, private consultants, and independent contractors; to make and execute contracts and all other instruments necessary or convenient for the exercise of its powers and functions under this article.

2. To prepare, publish and disseminate information or reports to highlight for state agencies, local governments, and the general public issues, problems, and opportunities relevant to the Tug Hill region, in concert with state and federal agencies and others.

3. To stimulate action by public and private organizations on regionwide issues, problems and opportunities that affect the Tug Hill region, with primary emphasis on possible solutions at the local level and with attention to the ways in which information developed and experience gained in the Tug Hill region may be usefully shared elsewhere in New York state.

4. To request and receive from any department, division, office, board, bureau, commission, agency, or instrumentality of the state and from any political subdivision or agency thereof, such assistance and data as will enable it to conduct its studies and investigations hereunder.

5. To assist local governments and other appropriate state and local organizations to plan and work for a positive future, and to do this, as far as possible, through intermunicipal cooperation and through technical assistance, including planning assistance, legal assistance, training, citizen education and participation assistance, and assistance in preparation of grant applications to other entities.

6. To serve a coordinating role in utilizing the capabilities of other organizations to carry out the duties prescribed in this section.

7. To establish a central clearinghouse for technical studies, which may be used by members of the public, local governments, and state agencies in addressing state and regionwide resource conservation and development issues.

8. To develop agreements with local, county, or regional agencies to provide staff services; through grants or contracts to help finance services for intermunicipal cooperation; to provide planning services in conjunction with county planning departments and regional planning boards, and to provide supplementary technical assistance and educational services through public or private groups.

9. To apply for and receive from the federal and state government and public and private agencies, funds to accomplish the purposes of the commission and to solicit, receive and utilize gifts and donations of any kind from any source.

10. To assist municipalities in preparing and adopting comprehensive planning programs, including appropriate laws, ordinances and codes.

11. To enter into agreements for the extension of its powers and

duties to other local governments, in concert with local, state and federal agencies and others.

12. To lease and manage real property, solely for the purpose of providing for the official offices of said commission.

§ 847-d. Compensation. The members of such commission shall receive no compensation for their services but shall be reimbursed for their expenses actually and necessarily incurred in the performance of their duties hereunder within the amount available therefor by appropriation. Notwithstanding any inconsistent provisions of law, general, special or local, no officer or employee of the state or of any civil division thereof, shall be deemed to have forfeited or shall forfeit his office or employment by reason of his or her acceptance of membership on such commission.

§ 847-e. Reports. The commission shall report on its progress in relation to its legislative purpose to the governor and to the legislature annually on or before the thirty-first day of March of each year. The commission shall also report every five years on the results of a survey of local officials throughout the Tug Hill region in regard to the effectiveness of commission programs.

§ 847-f. Commission staff; benefits. The Tug Hill commission staff shall be eligible for management/confidential benefits as are available in subdivision two of section eleven of chapter four hundred sixty of the laws of nineteen hundred eighty-two as amended.

6. The program of business permit assistance will thereby constitute an economic advantage to the state and facilitate such undertakings as commercial, industrial and residential developments; medical, social, and educational installations; industrial location or expansion; changes in manufacturing, production, and distribution processes; local government projects; and general construction.

*** § 894. Declaration of purpose.** The legislature finds and determines as follows:

1. The urban areas of the state of New York have unique characteristics, needs, conditions and opportunities. These urban areas are vital to the economic, social and general health of our state. The

magnitude of the challenge of economic habilitation of those distressed urban areas which are in need of assistance is such that a concentrated effort by the state in cooperation with these communities is required.

2. Past efforts on the part of the state to facilitate necessary assistance to distressed urban areas have been characterized by specific and innovative program approaches to individual symptoms of blight and deterioration. The state has firmly established through these individual program approaches its commitment to preserving the viability of urban areas. Numerous agencies have been created, empowered and funded to assist and coordinate these efforts in specific areas of need.

3. Efforts have further been made, through the establishment of the urban affairs cabinet, to facilitate and to enhance the coordination of state programs and efforts intended to remedy the problems of urban blight and deterioration.

4. Despite these tangible past and present commitments to urban preservation and development, the legislature hereby finds and determines that many of the urban areas of our state continue to suffer from blight and deterioration of basic public services, the private economic sector, housing stock and other critical elements of community vitality.

5. It is further found and declared that the numerous efforts of the state designed to address and to correct existing and encroaching indices of community distress must be strengthened and enhanced and assistance to local and community agencies and organizations designed to maximize the amount of financial and other assistance directed to distressed urban areas must be improved.

6. It is therefore, the intent of the legislature to establish an office of urban revitalization. The legislature intends that such office shall augment the efforts of the urban cabinet in coordinating the programs and efforts of the state agencies and public benefit corporations to remedy existent problems in distressed urban areas. Said office shall also be empowered to assure the provision of technical

assistance to localities and community organizations engaging the improvement of economic, housing, industrial and commercial revitalization of distressed communities. The legislature intends that this office serve these organizations in order to maximize their abilities to successfully obtain assistance from all available private and public sources.

7. It is further the intent of the legislature to empower the office to initiate, subject to legislative authorization and appropriations for that purpose, programs of financial assistance to local and community agencies and organizations consistent with the policy of enhancing the revitalization of distressed urban areas.

8. These programs of assistance to distressed urban communities and community organizations will thereby constitute an economic advantage to the state and facilitate the implementation of the revitalization of distressed urban areas.

WATERFRONT REVITALIZATION

OF COASTAL AREAS AND INLAND WATERWAYS

- Section 910. Legislative findings.
911. Definitions.
912. Declaration of policy.
913. Functions; powers and duties.
914. Coastal area boundary.
915. Optional local government waterfront revitalization programs for coastal areas and inland waterways.
- 915-b. Water dependent uses.
916. Benefits of approved waterfront revitalization programs.
917. Technical assistance.
918. Financial assistance.
919. Coordination of state actions and programs.

921. Amendment of coastal zone management program.

§ 910. Legislative findings. The legislature hereby finds that New York state's coastal area and inland waterways are unique with a variety of natural, recreational, industrial, commercial, ecological, cultural, aesthetic and energy resources of statewide and national significance.

The resources of the state's coastal areas and inland waterways are increasingly subject to the pressures of population growth and economic development, which include requirements for industry, commerce, residential development, recreation and for the production of energy. These competing demands result in the loss of living marine resources and wildlife, the diminution of open space areas, shoreline erosion,

permanent, adverse changes to ecological systems and a loss of economic opportunities.

The social and economic well-being and the general welfare of the people of the state are critically dependent upon the preservation, enhancement, protection, development and use of the natural and man-made resources of the state's coastal area and inland waterways.

The legislature further finds that it is in the interest of the people of the state that coordinated and comprehensive policy and planning for preservation, enhancement, protection, development and use of the state's coastal and inland waterway resources take place to insure the proper balance between natural resources and the need to accommodate the needs of population growth and economic development.

969. Limitations on the regulation of hunting, fishing and recreational activities.
970. Affect on other laws.
- 970-a. Severability.

§ 960. Short title. This article shall be known and may be cited as the "Long Island South Shore Estuary Reserve Act."

§ 961. Legislative declaration. The legislature hereby declares it to be in the public interest to protect and manage the South Shore Estuary System as a single integrated estuary. It is further in the public interest to establish a council made up of representatives of state and local governments and private citizens to create a South Shore Estuary Reserve, prepare a comprehensive management plan and make recommendations to preserve, protect and enhance the natural, recreational, economic and educational resources of the reserve, which the state and local governments may incorporate into policy, laws or regulations.

§ 961-a. Legislative findings and intent. The legislature hereby finds that the tidal waters located between the southern shore of Long Island and the coastal barrier beaches constitute a maritime region of statewide importance, referred to as the South Shore Estuary.

The legislature finds that within the South Shore Estuary and the associated lands and water bodies that discharge into or affect the South Shore Estuary, that the federal, state and local governments own and manage significant interdependent properties in the form of parks, preserves, historic sites, open space and underwater lands, which help to sustain biological productivity and diversity, economic viability and recreational enjoyment.

The legislature also finds that the South Shore Estuary System contains and supports many unique marine habitats and locally significant populations and a diversity of rare, threatened and endangered species of plants and animals and the protection of their habitats is in the best interest of the people of New York.

The legislature further finds that the South Shore Estuary system contains numerous streams that flow into the bays; freshwater and tidal wetlands that serve as a breeding ground, source of primary production for the food chain and a natural filter media; and productive clam fisheries that are mutually supportive and ultimately dependent upon the maintenance of the hydrologic and ecologic integrity of the region.

The legislature, in addition, finds that the South Shore Estuary is of tremendous economic and social importance to the state, containing the largest concentration of recreational and commercial vessels, marinas and other water dependent businesses, supporting hundreds of baymen with a livelihood harvesting clams, finfish and other marine organisms and providing recreation opportunities to millions of residents and tourists each year.

The legislature finds that there is a multitude of governmental entities and agencies that share responsibility for the regulation, management, and protection of the Estuary and its resources and which

govern private and public land use and activities; and despite existing programs, the water quality and productivity of the South Shore Estuary have declined due to the intensity and variety of land uses in a highly developed suburban setting which produce point and nonpoint source of pollution.

The legislature finds that this region, in which there are private and public water and land uses which depend upon the health and productivity of the South Shore Estuary, could better be protected and managed through the development of a comprehensive management plan.

Therefore, the legislature finds that the purpose of this article is to provide a means for public and private interests to act collectively and pool resources and expertise to: integrate and coordinate existing programs and studies; identify and make recommendations to mitigate pollution sources in order to maintain or enhance water quality, maximize natural productivity and improve management of shellfish harvest areas to insure economic viability and minimize health risk; make recommendations on policies designed to balance the preservation of natural resources while providing adequate access and use of resources for the public as well as stability for water dependent businesses and tourism; make recommendations on methods to protect the value of existing public and private investment that has already been made in the region; and provide direction for state and local governments to protect, preserve and properly manage the unique natural resources of the South Shore estuary for the benefit of existing and future generations.

However, it is not the legislature's intent for this article or the management plan created pursuant to this article to be construed to require or to be used as a basis for requiring a cumulative analysis or a generic environmental impact statement pursuant to article eight of the environmental conservation law from any applicant, owner of property, the state, its political subdivision or any agencies thereof as a precondition for the approval of any proposed development, action or alteration of the same proposed to be undertaken within the geographic area designated as the Long Island South Shore Estuary

Reserve, unless otherwise required by law.

§ 962. Definitions. As used in this article, the following terms shall mean and include:

4. ARTICLE 49-A

NEW YORK STATE FAMILY POLICY

Section 990. Legislative findings.

991. Family policy guidelines.

992. Implementation of the family policy.

§ 990. Legislative findings. 1. The legislature finds that the children of this state are at the same time both our most important resource and our most vulnerable citizens. Children best develop their

unique potential in a caring and healthy family environment either with their birth parents or other relatives or in an adoptive family, with support from other nurturing environments, especially the schools and the community. As such, children need a special state policy to ensure the strength and viability of their families.

2. The legislature further finds that there is a critical lack of services available to families and that the shortage of such services is exacerbated by a lack of coordination of the many existing programs and policies of state and local governments that impact on children and families. The legislature also finds that the planning and provision of services for children and their families would be enhanced by the establishment of a family policy to ensure that all state and local planning and provision of services are effectuated in a manner that maximizes support and strengthening of the family structure. Such actions also must be directed toward stemming the human and financial costs of the unnecessary placement of children outside their homes, while ensuring the safety and well-being of children by providing needed services to them and their families and, when appropriate, toward supporting permanency planning for children through adoption or other means.

§ 991. Family policy guidelines. All state and local government programs should be guided by the following principles:

1. Families are best served by comprehensive programs which are directed towards all aspects of individual and family development.

2. Families who are the consumers of services should be partners in the planning, delivery and evaluation of those services.

3. Families needs can be met best by developing and nurturing their inherent strengths.

4. Families deserve a realistic level of economic security.

5. Families receive the greatest benefit from flexible, accessible and comprehensive services which are delivered in a manner which is culturally and linguistically sensitive to their needs.

6. Families are best served when intervention occurs as early as possible and is designed to give priority to prevention of family disintegration. Primary emphasis should be given to establishing safe, nurturing environments which support the healthy growth of all family members.

7. Families who have members placed in care settings outside the nuclear family must be provided with services to help them reunite. If return is not possible, plans for alternative permanent care must be made by agencies caring for the child.

8. Families deserve services which are coordinated and where special attention is paid to ongoing accessibility to multiple services.

9. Families receive the greatest benefit from effective services delivered by a qualified, trained workforce. This workforce, especially direct caregivers, must receive professional recognition, support and appropriate compensation.

10. Families need public and voluntary human services systems which work together and are accountable to society, each other and the people they serve.

§ 992. Implementation of the family policy. The family policy shall be implemented by the state council on children and families pursuant to paragraph (f) of subdivision two of section 483-b of the social services law.

relating to such crime was commenced within the period specified by section 30.10 of the criminal procedure law, or (ii) a criminal action was commenced against the individual relating to such crime which resulted in a complete acquittal, or (iii) a criminal action against the individual relating to such crime resulted in a conviction that was subsequently reversed or vacated, or for which the individual was granted a pardon pursuant to article two-A of this chapter, such individual may apply to the supreme court or the court in which the judgment of conviction was originally entered for an order directing the expungement of any DNA record and any samples, analyses, or other documents relating to the DNA testing of such individual in connection with the investigation or prosecution of such crime. A copy of such application shall be served on the district attorney and an order directing expungement may be granted if the court finds that the individual has satisfied the conditions of one of the subparagraphs of this paragraph; that if a judgment of conviction was reversed or vacated, all appeals relating thereto have been concluded and the individual will not be retried, or, if a retrial has occurred, the trier of fact has rendered a verdict of complete acquittal, and that expungement will not adversely affect the investigation or prosecution of some other person or persons for the crime. If an order directing the expungement of any DNA record and any samples, analyses or other documents relating to the DNA testing of such individual is issued, such record and any samples, analyses, or other documents shall, at the discretion of the possessor thereof, be destroyed or returned to such individual or to the attorney who represented him or her in connection with the application for the order of expungement.

§ 995-d. Confidentiality. 1. All records, findings, reports, and results of DNA testing performed on any person shall be confidential and may not be disclosed or redisclosed without the consent of the subject of such DNA testing. Notwithstanding the provisions of subdivision one of this section, a DNA record maintained in the state DNA identification index may be disclosed pursuant to section nine hundred ninety-five-c of this article.

§ 995-e. Applicability. This article shall not apply to a forensic DNA laboratory operated by any agency of the federal government, or to any forensic DNA test performed by any such federal laboratory.
