§ 829. Evaluation. The commissioner, in consultation with appropriate heads of departments, shall prepare and furnish to the legislature a report, not later than one year after the effective date of this article, on the centers established under this article, including:

1. A thorough assessment of each center;

2. Recommendations concerning the administration and expansion of such centers;

3. A detailed statement of the findings and conclusions of the studies conducted under section eight hundred twenty-seven of this article; and

4. Such recommendations for legislative or other action as the commissioner may consider appropriate.
