§ 25.18 Trail grooming equipment; requirements. Any combination of equipment used to maintain the snow surface of snowmobile trails shall be equipped with:

1. a head light and tail light as required of snowmobiles in this article, as well as a revolving, rotating, flashing, oscillating or constantly moving amber lamp with a minimum candlepower of sufficient intensity to be plainly visible from a distance of five hundred feet from the front and rear during hours of darkness under normal atmospheric conditions; and

2. reflector material as required for snowmobiles.
