2. No loan shall be guaranteed by the authority with respect to a project unless: (a) the project occupant has obtained firm commitments satisfactory to the authority from banking organizations for the financing of the project cost exclusive of the amount to be provided by the project occupant; (b) the authority is satisfied that the project occupant may be reasonably expected to comply with the terms of any loan for which a guarantee is sought; (c) the amount of the guarantee is eighty percent or less of the project cost; and (d) the loan is secured by a mortgage or security instrument which is not a junior encumbrance or other collateral deemed satisfactory to protect the authority's interest.

§ 1837-c. Regulations by authority. The authority shall promulgate rules and regulations to effectuate the purposes of this subtitle which shall be subject to the approval of the director of the budget.

§ 1838. Bonding guarantee assistance program. 1. There is hereby created a state bonding guarantee assistance program to enable small businesses, and minority-owned and women-owned business enterprises, certified as a minority-owned or women-owned business enterprise pursuant to article fifteen-A of the executive law, to meet payment and/or performance bonding requirements by providing additional financial backing needed to induce a surety company to issue a bond for construction projects, including but not limited to, government sponsored, transportation related construction projects. For purposes of this section, the term small business shall have the same meaning as defined in section one hundred thirty-one of the economic development law. Such program shall give preference to minority-owned and women-owned business enterprises and shall:

(a) make available funds to surety companies providing bonds to small businesses and minority-owned or women-owned business enterprises in an amount equal to a percentage not to exceed fifty percent of the face value of bonds issued by the surety.

(b) provide technical assistance in completing bonding applications for small businesses and minority-owned or women-owned business enterprises seeking to become eligible for bonding in preparation for bidding on construction projects, including transportation related projects. The authority shall refer such businesses to the department of economic development and the urban development corporation for technical assistance as such businesses may need, including but not limited to:

(i) a review of the applicants' market and business competitive strategy;

(ii) consultation and review of the development and planned implementation of a working capital budget;

(iii) assistance with applications for the receipt of funding from other financial sources and providing referrals to other appropriate public and private sources of financing; and

(iv) assistance from the regional offices of the department of economic development, pursuant to article eleven of the economic development law, and the entrepreneurial assistance program, pursuant to article nine of such law, and any other such program receiving state funds from the department of economic development or the urban development corporation or any other state agency that is intended to provide technical assistance to small businesses and minority-owned and women-owned small business enterprises.

2. Criteria and regulations. (a) The authority shall by rule establish criteria for such program, such criteria to include detailed provisions for eligibility.

(b) The authority shall promulgate rules and regulations to effectuate the purposes of this section which shall be approved by the director of the budget.

TITLE 9

NEW YORK STATE ENERGY RESEARCH AND DEVELOPMENT AUTHORITY

§ 1850. Short title. This title may be cited as the "New York state energy research and development authority act".

§ 1850-a. Legislative declaration. It is hereby declared that the need for obtaining and maintaining an adequate and continuous supply of safe, dependable and economical power and energy is a matter of serious concern to the people of the state; that accelerated development and use within the state of new energy technologies to supplement energy derived from existing sources will promote the state's economic growth, protect its environmental values and be in the best interests of the health and welfare of the state's population; and that such development and use requires special efforts to foster research, development, and demonstration in the methods of production and use of new energy technologies. The objective of this title is the development and utilization of safe, dependable, renewable and economic energy sources and the conservation of energy and energy resources.

It is further declared that implementation of this objective can best be effectuated by changing and reconstituting the New York state atomic and space development authority into the New York state energy research and development authority. While maintaining its present commitments to its bondholders, the authority shall direct its efforts toward the development of new energy technologies, with special emphasis on renewable energy sources and energy conservation technologies.

It is further declared and found that the objective of this title can be achieved by (1) continuing the authority's authorization to issue bonds and notes and to lend or otherwise apply the proceeds therefrom for the benefit of gas and power companies in financing projects including, without limitation, experimental or developmental facilities implementing new energy technologies, pollution control facilities, facilities required by the public interest in development, health, recreation, safety, conservation of natural resources and aesthetics, and facilities for the furnishing of electric energy or gas, and (2) empowering the authority to issue bonds and notes and to lend or otherwise apply the proceeds therefrom to finance special energy projects for the benefit of persons in the state.

§ 1851. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. "Nuclear fission energy" shall mean all forms of energy released in the course of nuclear fission.

2. "Authority" shall mean the New York state energy research and development authority continued pursuant to section one thousand eight hundred fifty-two of this title.

3. "Bonds" and "notes" shall mean such bonds and notes as are issued by the authority pursuant to this title.

4. "Comptroller" shall mean the comptroller of the state.

5. "Person" shall mean any natural person, firm, association, public or private corporation, public utility, organization, partnership, trust, estate, or joint stock company, or any political subdivision of the state, or any officer or agent thereof.

6. "Real property" shall mean lands, waters, rights in lands or waters, structures, franchises, improvements and interests in land, including lands under water and riparian rights, and any and all other things and rights usually included within said term and includes also any and all interests in such property less than full title, such as easements permanent or temporary, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments in every estate, interest or right, legal or equitable.

7. "State" shall mean the state of New York.

8. "State agency" shall mean any officer, department, board, commission, bureau, division, corporation, agency or instrumentality of the state.

9. "Commissioner" shall mean the commissioner of transportation of the state of New York.

10. "New energy technologies" shall mean all methods used to produce, distribute, conserve and store energy by methods not in common

commercial use, with emphasis on renewable energy sources including but not limited to solar, wind, bioconversion and solid waste.

11. "Energy conservation technologies" shall mean all methods of conserving energy, of improving the efficiency of energy utilization and of preserving and protecting the environment and the public health and safety in connection with the use of energy.

13. "Special energy project" shall mean any land, works, system, building or other improvement, and all real and personal properties of any nature or any interest in any of them deemed necessary or desirable in connection therewith or incidental thereto, whether or not now in existence or under construction, which shall be suitable for or related to the furnishing, generation, production, exploration, transmission, distribution, conservation, conversion or storage of energy or energy resources, or the conversion of oil-burning facilities to alternate fuels, or for the acquisition, extraction, conversion, transportation, storage, loading, unloading or reprocessing of fuel of any kind for industrial, manufacturing, warehousing, commercial, storage, research, recreational, educational, dormitory, health, mental hygiene or multi-family housing facilities or purposes and which may, but shall not be required to, employ new energy technologies.

14. "Low-level radioactive waste" shall mean radioactive waste that:

a. is not high-level radioactive waste, transuranic waste, spent nuclear fuel, or the tailings or wastes produced by the extraction or concentration of uranium or thorium from any ore processed primarily for its source material content; and

b. the United States nuclear regulatory commission, consistent with federal law, and in accordance with paragraph a of this subdivision, classifies as low-level radioactive waste.

15. "Low-level radioactive waste management facilities" shall mean facilities for permanent disposal of low-level radioactive waste and any associated facilities for treatment and handling of such waste,

including but not limited to, facilities for purposes of stabilization, volume reduction, or the protection of health and safety of workers or members of the public.

16. "Permanent disposal facilities" shall mean low-level radioactive waste management facilities for permanent disposal of low-level radioactive waste generated within the state of New York other than such waste which is a federal responsibility pursuant to the provisions of federal law pertaining to state and federal responsibilities for disposal of low-level radioactive waste.

17. "Generate" or "generation", when used with respect to low-level radioactive waste, shall mean the production, or causing the production of, or activity which otherwise results in the creation or increase in volume of low-level radioactive waste. A person who generates low-level radioactive waste includes one who personally, or through the actions of any agent, employee, or contractor, generates low-level radioactive waste.

18. "Generation attribute certificates" shall mean the environmental, vintage and other attributes associated with the generation of kilowatt-hours and/or megawatt-hours of electrical energy. Generation attribute certificates shall exist as a commodity separate and apart from kilowatt-hours and/or megawatt-hours.

§ 1852. New York state energy research and development authority. 1. The authority heretofore known and designated as the "New York state atomic and space development authority" is hereby continued and shall hereafter be known and designated as the New York state energy research and development authority. Reference in any provision of law, general, special or local, or in any rule, regulation or public document to the New York state atomic research and development authority or to the New York state atomic and space development authority shall be deemed to be and construed as a reference to the authority continued by this section. The authority shall be a body corporate and politic, constituting a public benefit corporation.

2. The membership of the authority shall consist of thirteen members, to be as follows: the commissioner of the department of transportation, the commissioner of the department of environmental conservation, the chair of the public service commission, the president and chief executive officer of the power authority of the State of New York, all of whom shall serve ex-officio; and nine members appointed by the governor by and with the advice and consent of the senate; one of whom shall be an engineer or a research scientist with a degree in the physical sciences or engineering who has not been employed in the nuclear fission field for three years preceding the appointment and who shall not be so employed during his or her term; one of whom shall be an economist who shall not have received more than one-tenth of his or her income from an electric utility or gas utility for three years preceding the appointment and who shall not so derive more than one-tenth of his or her income during such term; one of whom who shall be a member of a not-for-profit environmental group; one of whom shall be a member of a not-for-profit consumer group; one of whom who shall be an officer of a utility primarily engaged in the distribution of gas; and one of whom shall be an officer of an electric utility. The governor shall designate the chair. Of the nine members appointed by the governor, two shall be appointed for terms expiring April first, nineteen hundred seventy-eight, two for terms expiring April first, nineteen hundred eighty, two for terms expiring April first, nineteen hundred eighty-one, and three for terms expiring April first, nineteen hundred eighty-two. Persons appointed by the governor for full terms as successors to such members shall serve for terms of six years each commencing as of April first. In the event of a vacancy occurring in the office of a member by death, resignation or otherwise, the governor shall appoint a successor, by and with the advice and consent of the senate, to serve the balance of the unexpired term.

3. The chairman shall preside over meetings of the authority and shall serve as the primary liaison between the members and authority staff. A vice-chairman may be elected by the authority from among its other members to serve as such at the pleasure of the authority. The vice-chairman shall preside over all meetings of the authority in the

absence of the chairman and shall have such other duties as the authority may prescribe. The president shall be the chief executive officer of the authority and shall be primarily responsible for the discharge of the executive and administrative functions of the authority.

4. The members, including the chair, shall serve without compensation for their services, but they shall be entitled to reimbursement for their actual and necessary expenses incurred in the performance of their official duties.

5. Any member may engage in private employment, or in a profession or business, subject to the limitations contained in sections seventy-three and seventy-four of the public officers law; provided however, that notwithstanding any other provision of law, the members of the authority who are officers of an electric utility or a utility primarily engaged in the distribution of gas shall not be prohibited from participating and voting on any bond issue of the authority relating to air and water pollution facilities for any utility other than for the utilities of which such members are officers respectively. The authority shall, for the purposes of such sections, be a "state agency" and all members, including the chair, shall be "officers" of the agency for the purposes of said sections.

6. Notwithstanding any inconsistent provisions of law, general, special or local, no officer or employee of the state, or of any civil division thereof, shall be deemed to have forfeited or shall forfeit his office or employment by reason of his acceptance of membership on the authority; provided, however, a member who holds such other public office or employment shall receive no additional compensation or allowance for services rendered pursuant to this article, but shall be entitled to reimbursement for his actual and necessary expenses incurred in the performance of such services.

7. The governor may remove any member for inefficiency, neglect of duty or misconduct in office after giving him a copy of the charges against him, and an opportunity to be heard, in person or by counsel, in

his defense, upon not less than ten days' notice. If any member shall be so removed, the governor shall file in the office of the department of state a complete statement of charges made against such member, and his findings thereon, together with a complete record of the proceedings.

8. A majority, but no fewer than five, of the members of the authority then in office shall constitute a quorum for the transaction of any business or the exercise of any power of the authority.

9. The authority may appoint such persons to serve as officers, agents or employees of the authority as it may deem advisable and may prescribe their duties and fix their compensation, subject to the civil service law and the rules and regulations of the civil service commission of the state.

10. The authority may appoint one or more advisory committees consisting of not more than seven members each to consider and advise the authority upon all matters submitted to them by the authority and to recommend to the authority such changes in the administration of this title and the operations of the authority as the advisory committee may deem desirable. Members of advisory committees shall serve without salary for such terms, not to exceed four years, as the authority may determine, and shall be entitled to reimbursement for their actual and necessary travel expenses incurred in the performance of their official duties.

§ 1853. Approval power of the governor. 1. No action taken at any meeting of the authority shall have force or effect until the governor shall have an opportunity to approve or veto the same.

2. For the purpose of procuring such approval or veto, the authority shall by rule designate an officer of the authority to transmit to the governor at the executive chamber in Albany a certified copy of the minutes of every meeting of the authority as soon after the holding of such meeting as such minutes can be written out. The governor shall, within fifteen days after such minutes shall have been delivered to the

executive chamber as aforesaid, cause the same to be returned to the authority either with his approval or with his veto of any action therein recited as having been taken, provided, however, that if the governor shall not return the said minutes within the said period then at the expiration thereof any action therein recited shall have full force and effect according to the wording thereof.

3. If the governor within the said period returns the said minutes with a veto against any action recited therein, then such action shall be null and void.

4. The governor may by order filed with the authority relieve the authority from the duty of procuring his approval of its action upon any particular matter or class of matters, and thereupon the authority shall be relieved from reporting the same to him.

§ 1854. Purposes and specific powers of the authority. * The purposes of the authority shall be to develop and implement new energy technologies and invest in build-ready sites, as defined in subdivision eight of section nineteen hundred one of this article, consistent with economic, social and environmental objectives, to develop and encourage energy conservation technologies, to promote, develop, encourage and assist in the acquiring, constructing, improving, maintaining, equipping and furnishing of industrial, manufacturing, warehousing, commercial, research and industrial pollution control facilities at the Saratoga Research and Development Center, and to promote, develop, encourage and assist special energy projects and thereby advance job opportunities, health, general prosperity and economic welfare of the people of the state of New York. In carrying out such purposes, the authority shall, with respect to the activities specified, have the following powers:

* NB Effective until December 31, 2030

* The purposes of the authority shall be to develop and implement new energy technologies consistent with economic, social and environmental objectives, to develop and encourage energy conservation technologies, to promote, develop, encourage and assist in the acquiring, constructing, improving, maintaining, equipping and furnishing of

industrial, manufacturing, warehousing, commercial, research and industrial pollution control facilities at the Saratoga Research and Development Center, and to promote, develop, encourage and assist special energy projects and thereby advance job opportunities, health, general prosperity and economic welfare of the people of the state of New York. In carrying out such purposes, the authority shall, with respect to the activities specified, have the following powers:

* NB Effective December 31, 2030

1. Research, development and demonstration. To conduct, sponsor, assist and foster programs of research, development and demonstration in new energy technologies including but not limited to (a) energy conservation, (b) production of power from new sources with emphasis on renewable energy sources such as solar, wind, bioconversion and solid waste, (c) storage of energy with emphasis on inertial and battery storage, (d) conversion and/or technological improvement of facilities now utilizing nuclear fission energy and fossil fuel energy technologies, (e) transmission and distribution of power, and (f) conversion of energy and improvements of efficiencies of such conversion, including the power after assessing and taking into account environmental considerations thereof, to establish, acquire, operate, develop and manage facilities therefor.

2. The provision of services. To provide services required for the development and use of new energy technologies and related methods by the industrial, commercial, medical, scientific, public interest, educational and governmental organizations within the state, including the power to establish, acquire and develop facilities therefor not otherwise available within the state, and to operate and manage such facilities.

3. Cooperation with gas and power companies. To contract with or enter into joint undertakings with any gas or power company, or power authority of the state of New York, or more than one of them, to

(a) Participate in the construction and operation of experimental or developmental facilities which implement new energy technologies which have prospects of reducing the economic, environmental and social costs of energy production and utilization.

(b) Participate in the incorporation of features, including facilities which incorporate new energy technologies, in nuclear power plants and the construction of associated facilities to the extent required by the public interest in development, health, recreation, safety, conservation of natural resources and aesthetics.

(c) Participate in the incorporation of features, including facilities which incorporate new energy technologies, in fossil fuel power plants and the construction of associated facilities to the extent required by the public interest in development, health, recreation, safety, conservation of natural resources and aesthetics.

(d) Participate in the construction of facilities to be used for the furnishing of electric energy or gas to the extent required by the public interest in development, health, recreation, safety, conservation of natural resources and aesthetics.

(e) Develop, prepare, and furnish by sale or lease real property owned, held, or acquired by the authority within the state to be used for the construction and operation of generating facilities based on new energy technologies and related facilities, provided that no such contract or joint venture shall be entered into which shall permit the authority to distribute or sell any power or energy to any person or entity other than the other contracting party or parties or joint venturer or venturers, and provided further that all power and energy received by power authority of the state of New York, pursuant to any such contract or joint venture, shall be distributed and sold only to such persons as power authority of the state of New York may sell power pursuant to law.

4. Water desalination. To contract with one or more water distribution companies or agencies to participate in the construction and operation of power generating facilities for the purpose of desalination or distribution of water, and to develop, prepare, and furnish by sale or lease, real property owned, held or acquired by the authority within the state to be used for the construction and operation of such facilities and facilities related thereto, provided that the authority shall not enter into any such contract relating to any such facility which also produces electric power for purposes of sale unless the authority also

contracts with one or more power companies with respect to the construction and operation of such facility and the distribution and use of such power.

5. The dissemination of information. To accumulate and disseminate information relating to the development and use of new energy technologies and energy conservation technologies, including the power to conduct, sponsor, assist and foster studies and surveys, and publish the results thereof.

6. (a) To continue, modify, amend, or terminate such contractual agreements as may be in force at the effective date of this subdivision with regard to the Western New York Nuclear Service Center and the Saratoga Research and Development Center, or take such other action as the authority may deem necessary or appropriate with respect to such Centers in the furtherance of the public interest in safe, reliable and economical energy supplies or protection of public health and safety and the environment.

(b) (i) Notwithstanding the provisions of any general or special law to the contrary, the director of the budget and the chair of the authority are each authorized to enter into one or more service contracts, and to amend or supplement any existing service contract, with respect to programs, projects, and activities of the authority pursuant to this subdivision, upon such terms as the director of the budget and the chair of the authority may agree, including, but not limited to, provisions relating to the respective obligations of the state and the authority with respect to administration, management, maintenance, and use of the real property at the Western New York Nuclear Service Center held by the authority, design, construction, modification, operation, and maintenance of facilities thereon, and implementation of programs, projects, or activities to improve or correct conditions thereon, including, but not limited to, the West Valley demonstration project, and provisions providing for the payment of (A) all fees and charges of, and expenses and other non-asset costs of financing incurred by, the authority in connection with the issuance and administration of special obligation bonds or notes to pay for or reimburse the state with respect to such actions, and (B) all debt service payments on such bonds and notes. Provided, however, that the aggregate net proceeds of any such bonds or notes issued, excluding any bonds or notes issued for the purpose of refunding other bonds and notes issued under this subdivision, shall not exceed the aggregate of amounts appropriated for such actions in the state fiscal year ending March thirty-one, nineteen hundred ninety-three and any state fiscal year thereafter up to and including the state fiscal year ending March thirty-first, nineteen hundred ninety-nine, not including amounts to be applied to the payment of all fees and other charges of, and expenses and other non-asset costs of financing incurred by, the authority in connection with the issuance and administration of such bonds and notes; and, capitalized interest and debt service reserve funds established for such bonds or notes and the acquisition of insurance, letters of credit or other credit enhancement or liquidity facilities obtained in connection with such bonds or notes.

(ii) Of the moneys expended from appropriations made for the legal requirements of the state debt service and lease purchase payments and other special contractual obligations, for payment to the authority for payment of principal and interest on bonds issued to finance activities at the Western New York Nuclear Service Center pursuant to one or more service contracts between the state and the authority, an amount not to exceed the amount of such payment as determined by the director of the budget shall be reimbursed to the comptroller according to a schedule determined by the director of the budget, for deposit in the general debt service fund, by the authority.

(iii) Any such contract entered into pursuant to subparagraph (i) of this paragraph shall not exceed thirty years in duration and shall provide that the obligation of the state to fund or to pay the amounts therein provided for shall not constitute a debt of the state within the meaning of any constitutional or statutory provision and shall be deemed executory only to the extent of moneys available therefor and that no liability shall be incurred by the state beyond the moneys available for such purpose, and that such obligation is subject to annual appropriation by the legislature.

(iv) Any such contract or any payments made or to be made thereunder may be assigned and pledged by the authority as security for its bonds and notes issued to pay for or reimburse the state with respect to

actions undertaken pursuant to this subdivision.
(v) The comptroller is authorized to receive from the authority any portion of proceeds of special obligation bonds or notes issued to pay for or reimburse the state with respect to actions undertaken pursuant to this subdivision and to credit such amounts to the capital projects fund or any other appropriate fund.

7. To advise the legislature of recommendations for implementing new energy technologies and energy conservation measures, annually or so often as the authority shall deem appropriate.

8. Special energy projects. (a) To extend credit and make loans from bond proceeds to any person for the construction, acquisition, installation, reconstruction, improvement, maintenance, equipping, furnishing or leasing of any special energy project or for the reimbursement to any person for costs incurred in connection with a special energy project completed or not completed at the time of such credit or loan, which credits or loans may, but need not, be secured by mortgages, contracts, leases or other instruments, upon such terms and conditions as the authority shall determine reasonable in connection with such credits or loans.
(b) In the exercise of powers granted in paragraph a of this subdivision in connection with any special energy project, to require the inclusion in any contract, lease, loan agreement or other instrument of such provisions for the financing of such project and such other financial or other covenants as the authority may deem necessary or desirable and to do all things and to execute all instruments necessary and desirable in connection therewith; provided, however, that no contract, lease, loan agreement or other agreement entered into by the authority in furtherance of this authorization shall permit the authority to distribute or sell any power or energy to any person other than a contracting party.

10. To coordinate the state's administration of any energy or energy resource programs of the federal government, including but not limited to those concerned with conservation, allocation, management or education, and to formulate and from time to time revise a state energy

conservation plan to be submitted pursuant to the federal Energy Policy and Conservation Act of 1975 last amended by Pub. L. 102-486, Title I, §123(a).

10-a. (a) To administer the air pollution mitigation fund established pursuant to section ninety-nine-g of the state finance law and consisting of moneys collected by the public service commission as an air pollution mitigation offset pursuant to subdivision two of section sixty-six-k of the public service law.

(b) To disburse moneys from such fund for the following purposes: (i) to reduce acid precipitation through energy efficiency, or through public benefit research and development, including, but not limited to, renewable energy; or (ii) the monitoring of, or research related to, the impact of acid precipitation deposition.

(c) To establish guidelines pertaining to the allocation of moneys from such fund.

11. To advise and assist the governor and the legislature in the development and implementation of state policies relating to energy and energy resources.

12. To require and receive from any agency of the state or any political subdivision thereof assistance and data.

13. To act as a central repository and clearinghouse for information on all energy and energy resource related matters including, but not limited to, the availability and use of the most energy efficient and environmentally sensitive outdoor lighting available for public and private uses.

14. To apply for and to administer federal research and development grants and other monies for the benefit of consumers.

15. To prepare an integrated resource plan specifying actions to be taken in the event of the declaration by the governor of an energy or fuel supply emergency pursuant to section 5-117 of the energy law.

16. To promulgate energy use standards after consultation with the commissioner of the office of general services for the purchase, lease, use or maintenance of state buildings and equipment.

17. To implement the provisions of sections 5-108, 5-111, 5-113 and 5-117 of article five and articles six, seven, eight and ten of the energy law.

18. To provide for the deposit of all or a portion of the proceeds collected by the authority from the auction or sale of emission allowances allocated by the department of environmental conservation to the authority pursuant to regulations adopted by the department of environmental conservation to a green jobs-green New York fund to be established in the custody of the commissioner of taxation and finance. The monies in such fund shall be available for the green jobs-green New York program pursuant to title nine-A of article eight of this chapter.

19. To, on its own or through a qualified entity, directly or indirectly, and in consultation with the department of public service:

(a) develop and administer a generation attribute tracking system that records generation attribute information within the state, and processes generation attribute information from energy outside the state that is imported to and consumed within the state, as a basis for creating generation attribute certificates;

(b) assign initial ownership of generation attribute certificates;

(c) provide for the transfer or conveyance, ownership and retirement of generation attribute certificates;

(d) obtain generation, delivery and consumption information from independent system operators, generators, public utility companies, and retail load-serving entities producing, delivering or selling electricity in the state, including, but not limited to, "electric corporations" as defined under subdivision thirteen of section two of the public service law, "cooperatives" as defined under subdivision (a) of section two of the rural electric cooperative law, and any publicly- or municipally-owned utilities, including the power authority of the state of New York and the Long Island power authority, deemed necessary by the authority to verify or supplement such generation attribute tracking system;

(e) facilitate participation in, and use of, such generation attribute tracking system by buyers, sellers and brokers with respect to the ownership, transfer or conveyance, and retirement of generation attribute certificates; and

(f) perform such additional activities as may be deemed necessary by the authority to ensure cooperation and the smooth exchange of information among and between the generation attribute tracking system and similar systems within or outside the state.

20. To administer a program, using funds provided for such purpose, to provide a grant based on standards and guidelines established by the authority for costs as follows:

(a) for each retail outlet that is in operation before April first, two thousand fourteen and is subject to the requirements of paragraph (a) of subdivision three of section one hundred ninety-two-h of the agriculture and markets law:

(i) no greater than ten thousand dollars required to prewire such retail outlet with an appropriate transfer switch for using an alternate generated power source as defined in section one hundred ninety-two-h of the agriculture and markets law; or

(ii) no greater than thirteen thousand dollars required to prewire such retail outlet with an appropriate transfer switch for using an alternate generated power source as defined in section one hundred ninety-two-h of the agriculture and markets law and purchase such power source to be permanently affixed at the site.

(b) for each retail outlet that is in operation before April first, two thousand fourteen and is subject to the requirements of paragraph (b) of subdivision three of section one hundred ninety-two-h of the agriculture and markets law, no greater than ten thousand dollars required to: (i) prewire an existing retail outlet with an appropriate transfer switch for using an alternate generated power source as defined in section one hundred ninety-two-h of the agriculture and markets law; and/or (ii) purchase such power source to be permanently affixed at the site.

(c) to the extent funds are available, for retail outlets that become operational on or after April first, two thousand fourteen, or to which subdivision two of section one hundred ninety-two-h of the agriculture and markets law becomes applicable after the effective date of this subdivision, which grants shall otherwise be subject to the same amounts, purposes and restrictions as paragraphs (a) and (b) of this subdivision.

(d) to the extent funds are available, for retail outlets that voluntarily apply before April first, two thousand fifteen and are located on a strategic upstate highway as defined in paragraph (e) of this subdivision or within one-half mile by road measurement from an exit road on a strategic upstate highway, in such amounts and for such purposes as set forth in subparagraphs (i) and (ii) of paragraph (a) of this subdivision.

(e) "Strategic upstate highway" means the following:

(i) I-87 beginning at the Rockland-Orange county line thence northerly passing through or in the vicinity of Albany to the intersection with I-90, the foregoing route being a portion of the New York state thruway; thence continuing northerly to the New York-Canada border;

(ii) I-90 beginning at I-87 in the vicinity of Albany thence westerly passing through or in the vicinity of Schenectady, Utica, Syracuse, Rochester, and Buffalo; thence continuing southwesterly to the New York-Pennsylvania border, the foregoing route being a portion of the New York state thruway;

(iii) the Berkshire section of the New York state thruway beginning at I-87 thence easterly to the intersection with I-90 and continuing on I-90 to the New York-Massachusetts border;

(iv) I-84 beginning at the New York-New Jersey border thence easterly passing through or in the vicinity of Newburgh, thence continuing easterly and southeasterly to the New York-Connecticut border;

(v) I-88 beginning at I-81 in the vicinity of Binghamton thence northeasterly to I-90 in the vicinity of Schenectady;

(vi) I-86/State Route 17 beginning at I-87 in the vicinity of Woodbury thence westerly and northwesterly passing through or in the vicinity of Binghamton, Elmira, and Jamestown, continuing to the New York-Pennsylvania border;

(vii) I-81 beginning at the New York-Pennsylvania border thence northerly passing through or in the vicinity of Syracuse and Watertown, continuing to the New York-Canada border;

(viii) I-390 beginning at I-86 in the vicinity of Avoca thence northwesterly and northerly to I-490 in the vicinity of Rochester; and

(ix) I-190 beginning at I-90 in the vicinity of Buffalo, thence westerly, northwesterly, and northerly through Buffalo, across Grand Island, the foregoing route being a portion of the New York state thruway, and thence generally westerly to the United States-Canada border in the vicinity of Lewiston.

The authority may offer any funds provided for such purpose and not expended to retail outlets that are not included in paragraphs (a) through (d) of this subdivision but that voluntarily seek to participate in such program.

21. To administer a program to establish a pool of generators for retail outlets as defined in section one hundred ninety-two-h of the agriculture and markets law. The authority may enter into or facilitate contracts, lease agreements and any other instruments subject to the provisions of law, with companies providing generators and generator services to provide for such pool and the deployment and installation of generators in the pool. Retail outlets that elect to participate in the program and are subject to the requirements of paragraph (a) of subdivision three of section one hundred ninety-two-h of the agriculture and markets law shall be required only to pay the actual cost of generator rental, deployment and installation in the event that emergency deployment is required, provided, that a participant must abide by the terms of any contract or written agreement covering the rental, deployment and installation of such generator. In the event that an insufficient number of generators is available to meet required emergency deployment, the authority in consultation with the commissioner of homeland security and emergency services shall prioritize such retail outlets as are most essential to public safety and well-being during the energy or fuel supply emergency. When generators from such program are deployed, the authority shall provide public notice on its website, to the media and through other means practicable of those retail outlets where generators are deployed.

22. To administer a program to provide technical assistance to school

districts, school bus fleet operators and public transportation systems on managing zero-emission vehicle fleets and the charging or fueling infrastructure for such zero-emission vehicle fleets.

23. No later than December thirty-first, two thousand twenty-five, and annually thereafter, the authority shall issue a report on the availability of zero-emission school buses and charging or fueling infrastructure that meet the criteria established in subdivision two of section thirty-six hundred thirty-eight of the education law. The authority shall provide technical assistance to school districts, upon request, in pursuing state and federal grants and other funding opportunities to support the purchase and contracting requirements set forth in subdivision two of section thirty-six hundred thirty-eight of the education law.

24. All revenues generated pursuant to regulations or actions taken by the department, the authority or any other state entity, pursuant to sections 75-0107 and 75-0109 of the environmental conservation law, shall be placed into a segregated authority funding account, established pursuant to section eighteen hundred fifty-nine of this title, prior to programmatic or administrative allocation, and shall not be commingled with other authority funds.

25. Within thirty days following receipt of revenues generated pursuant to regulations or actions taken by the department, the authority or any other state entity pursuant to sections 75-0107 and 75-0109 of the environmental conservation law, the authority shall make the following transfers from such segregated authority funding account:

(a) Not less than thirty percent to the New York climate action fund consumer climate action account established pursuant to section ninety-nine-qq of the state finance law;

(b) Up to three percent to the New York climate action fund industrial small business climate action account established pursuant to section ninety-nine-qq of the state finance law; and

(c) Not less than sixty-seven percent to the New York climate action fund climate investment account established pursuant to section ninety-nine-qq of the state finance law.

26. Climate affordability study. The authority and the department of environmental conservation, in consultation with the division of the budget, the department of public service, and the department of taxation and finance, shall conduct a study and issue a report with recommendations for the use of moneys transferred to the consumer climate action account established pursuant to section ninety-nine-qq of the state finance law. Such report shall be guided by the final scoping plan prepared pursuant to section 75-0103 of the environmental conservation law and shall consider, among other things: (a) structure and distribution of benefits in an equitable manner, accounting for potential disproportionate impacts to low-income households and disadvantaged communities; (b) implementation of a variety of mechanisms to meet the varied needs of the people of the state, which may include direct payments, tax credits, transit vouchers, utility assistance, or other financial benefits that are reasonable and practicable; (c) financial benefits that ensure that individuals receiving means-tested government assistance receive benefits that will not constitute income for purposes of any such means-tested government assistance programs; and (d) benefit programs that limit the administrative effort required of recipients. Such study shall be completed by the first of January, two thousand twenty-four, and shall be delivered to the governor and the legislature.

In exercising the powers granted by this title, the authority shall, insofar as practicable, cooperate and act in conjunction with industrial, commercial, medical, scientific, public interest and educational organizations within the state, and with agencies of the federal government, of the state and its political subdivisions, of other states, and joint agencies thereof.

In carrying out its corporate purposes and in exercising the powers granted by this title, the authority shall be regarded as performing an essential governmental function.

§ 1854-a. Nuclear waste repository siting. 1. As used or referred to in this title: a. "Repository for the terminal storage of nuclear waste" shall mean a facility where nuclear waste is disposed of in such a way as to be permanently isolated from the environment for the period of time that is necessary for such wastes to become harmless, even if such facility contains a means for retrieving such wastes. This term shall include deep geological formations and any other disposal technology authorized by the National Waste Terminal Storage Program, but shall not include existing nuclear waste facilities at the Western New York Nuclear Services Center.

b. "Nuclear waste" shall mean high level liquid radioactive wastes, solid high level radioactive wastes, spent nuclear fuel elements, and wastes bearing quantities of transuranic elements which are not authorized for burial in shallow land burial areas pursuant to regulation or license by the United States Nuclear Regulatory Commission or the state of New York pursuant to agreement with the United States Nuclear Regulatory Commission.

2. No repository for the terminal storage of nuclear waste as defined in this section shall be sited, constructed, or operated within the state, unless the legislature and the governor of the state shall be consulted and shall concur by statute in the establishment of such repository.

3. Prior to approval by the legislature the authority shall, upon the request of the governor, review any proposal for a repository for the terminal storage of nuclear waste and, in order to assist the governor and the legislature in their determinations of need and safety, the authority shall:

a. Conduct or cause to be conducted a complete study on all issues involved in the establishment of a repository for the terminal storage of nuclear waste, including but not limited to, all long and short term health and safety aspects, the reliability of long-term isolation, the relationship between federal and state responsibility, and the potential state fiscal responsibility both one time and recurring.

b. Solicit and evaluate reports and recommendations from the state energy office, department of environmental conservation, department of public service, department of transportation, department of commerce, department of health and any other state agencies that are deemed appropriate.

c. Prepare and submit to the legislature an environmental impact statement pursuant to article eight of the environmental conservation law.

d. Determine whether the proposed technology and proposed site can be utilized for the safe and permanent disposal of nuclear waste and will not result in a significant environmental hazard or other threat to the public health, safety or welfare.

e. Conduct public hearings in various parts of the state in such a way as to insure the widest possible input from residents of the state including but not limited to residents who live in close proximity to a proposed site or sites.

f. Prepare a detailed estimate of the anticipated costs to construct and operate such a repository for the terminal storage of nuclear waste, the extent to which such costs will be borne by the state and the time period of probable continued costs.

§ 1854-b. Low-level radioactive waste management facilities. In addition to those purposes otherwise set forth in this title, the purposes of the authority shall include the management of low-level radioactive waste. In carrying out that purpose, the authority shall have the powers and responsibilities set forth in sections eighteen hundred fifty-four-c and eighteen hundred fifty-four-d of this title, in addition to those otherwise set forth in this title.

§ 1854-c. Permanent disposal facilities. 1. The authority shall consult and cooperate with the department of environmental conservation and the commission for siting low-level radioactive waste disposal facilities pursuant to the provisions of article twenty-nine of the environmental conservation law and such department and commission shall make available to the authority all information with respect to potential sites and disposal methods which may be relevant to the design of, or preparation of applications for state licenses, permits, or other approvals for, such facilities. The authority shall make preparations for submitting as soon as practicable applications for any state licenses, permits, or other approvals required for the construction and operation of permanent disposal facilities.

2. Upon certification by the department of environmental conservation of siting and disposal method selections for permanent disposal facilities pursuant to section 29-0105 of the environmental conservation law, the authority shall immediately complete development of and submit, as soon as practicable after such certification, but no later than the first day of January nineteen hundred ninety, complete applications for any state licenses, permits, or other approvals required for the construction and operation of such permanent disposal facilities, in accordance with the siting and disposal method certification of such department. Upon such certification, the authority shall also immediately take steps to acquire and hold in the name of the state of New York any property interests which it may need to obtain for such permanent disposal facilities.

3. Upon receipt of required state licenses, permits, or other approvals for such permanent disposal facilities and if access is not available on reasonable terms to disposal facilities outside of New York for low-level radioactive waste estimated to be generated within New York state during the life of such permanent disposal facilities, the authority is authorized and directed to immediately construct, and to operate and maintain, permanent disposal facilities in accordance with such licenses, permits, and other approvals. Permanent disposal facilities shall be completed and begin operation no later than the first day of January nineteen hundred ninety-three.

§ 1854-d. Generator reporting and fees. 1. Reports. a. Any person who generates low-level radioactive waste in New York shall submit to the authority, on dates specified by the authority, but in no event later than nine months after the effective date of the low-level radioactive waste management act and, thereafter, no less frequently than annually, reports detailing the classes and quantities of low-level radioactive waste generated, stored by the generator for decay or for later transfer to other facilities, or transferred by the generator to other facilities, the general type of generator (e.g., medical, university, industry, electric utility, government), and such additional information as the authority may reasonably require on the nature and characteristics (including, without limitation, chemical and physical characteristics, properties, or constituents, radionuclides present, curie content or concentration of radioactivity) of such waste and the extent of reduction in quantity and the nature and extent of reduction or other change in the nature or characteristics of such waste as a result of treatment or interim storage after generation and before delivery to facilities for permanent disposal of such waste. The authority shall provide by regulation appropriate procedures for the preparation and submission of such reports, including procedures to designate a person or persons responsible for such filing when more than one person is the generator of the same waste. Such reports shall be subject to the provisions of article six of the public officers law.

b. Commencing no later than the first day of July nineteen hundred eighty-seven, the authority shall submit annually to the governor, the temporary president of the senate, the speaker of the assembly, the minority leader of the senate, and the minority leader of the assembly, and thereafter, not later than one hundred eighty days after the end of each calendar year, a report summarizing and categorizing, by type of generator and region of generation, the nature, characteristics, and quantities of low-level radioactive waste generated in New York during such calendar year.

2. Fees. a. (i) Pursuant to this title the authority shall, pursuant to regulations promulgated in accordance with article two of the state administrative procedure act, establish, revise, assess, and collect

reasonable rates, charges, or other fees upon the disposal of low-level radioactive waste generated in New York sufficient to fully recover all costs and expenses of the state and its agencies and authorities associated with low-level radioactive waste management facilities. Such assessed rates, charges, or other fees shall be paid to the authority in the manner, and accompanied by such returns, reports, or other documentation as the authority may prescribe. Fees paid shall be treated as expenses for purposes of recovery in rates. Surcharges collected by or for facilities which accept low-level radioactive waste generated in New York State for disposal pursuant to the Federal Low-level Radioactive Waste Policy Amendments of nineteen hundred eighty-five (Pub. Law 99-240), but deposited in escrow pursuant to section 5 (d) (2) of such law shall be paid to and received by the authority. Such payments shall be disbursed or transferred pursuant to this paragraph and shall be used for the purpose of reducing the amounts otherwise recoverable as assessments imposed pursuant to paragraph c of this subdivision.

(ii) The authority shall deposit the proceeds from such rates, charges, or other fees in a separate segregated account maintained solely for the purpose of holding such deposits. The authority shall first apply the proceeds of the account to payments of principal and interest on bonds, notes or other obligations issued by the authority for the purposes of the low-level radioactive waste management act. Upon appropriation or pursuant to other legislative authorization, disbursements or transfers from such account shall be made solely for other costs and expenses incurred under the low-level radioactive waste management act.

(iii) In establishing, revising, assessing, and collecting such reasonable rates, charges, or other fees associated with low-level radioactive waste management facilities or incurred under the low-level radioactive waste management act, the authority shall include, but need not be limited to, such amounts as will meet all incremental costs and expenses of:

A. selecting, developing, licensing, constructing, operating, and maintaining such facilities;

B. establishing reserves for related purposes, including, but not limited to, debt service, decontamination and decommissioning, closure, and post-closure care, and contingencies;

C. making reimbursements of expenditures from appropriations to state agencies or authorities to implement the low-level radioactive waste management act; and

D. making payments in lieu of taxes.

(iv) The authority may establish and revise, not inconsistent with federal law and regulation, reasonable classifications of low-level radioactive waste based upon the nature, class, characteristics (other than type of generator) or condition of such waste. The authority may utilize such classifications for purposes of establishing or revising the rates, charges, or other fees upon the disposal of such waste pursuant to paragraphs b and c of this subdivision.

b. Upon delivery of low-level radioactive waste to permanent disposal facilities owned or operated by the authority, the rates, charges, or other fees as established or revised by the authority for disposal of such waste at such facilities, and related services, shall be paid. Such rates, charges, or other fees shall be sufficient to meet all costs and expenses which may be reasonably and practically identified or allocated to permanent disposal facilities, over the life of such facilities, and the low-level radioactive waste disposed of at such facilities, including without limitation, all costs and expenses associated with: development, licensing, operation, maintenance, and meeting debt service requirements, or requirements for repayment of expenditures from appropriations for capital costs of such facilities, which requirements are due after such facilities begin accepting low-level radioactive waste; establishing reserves, including but not limited to reserves for decontamination and decommissioning, closure and post-closure care, and contingencies, including but not limited to potential accidents, damages, and injuries; and making any payments in lieu of taxes or fees for local assistance and repayments of any amounts expended from appropriations for aid to localities with respect to permanent disposal facilities, provided, however, that all capital costs incurred prior to the receipt and acceptance of low-level radioactive waste at the disposal facilities shall be recovered in a period of not less than twenty years after such receipt and acceptance.

c. (i) During the period before the commencement of operation of permanent disposal facilities owned or operated by the authority, expenditures from appropriations to the departments of environmental conservation and health and the commission for siting low-level radioactive waste disposal facilities for the purpose of implementing the low-level radioactive waste management act shall be recovered through assessment against United States nuclear regulatory commission licensees for nuclear electric generating facilities located in the state of New York which have full power operating licenses. For the state fiscal year ending March thirty-first, nineteen hundred eighty-seven and each successive state fiscal year until commencement of operation of the permanent disposal facilities, the chairman of the authority shall estimate such expenditures and shall assess such estimated expenditures on a pro rata basis in proportion to the number of reactors with full power operating licenses of each such licensee. For the assessment for the state fiscal year ending March thirty-first, nineteen hundred eighty-seven, such estimated expenditures shall be based upon actual appropriations available to such state agencies for such fiscal year for such purpose and shall be billed by the authority as soon as practicable after the effective date of the low-level radioactive waste management act and paid by such licensees not later than December thirty-first, nineteen hundred eighty-six. For the assessment for each subsequent fiscal year, such estimated expenditures shall be based upon the proposed appropriations to such state agencies for such purpose, net of any over or under assessment for prior fiscal years compared to the latest available data on such expenditures for such prior fiscal years, and shall be billed by the authority on or before February first preceding such fiscal year and paid on or before April first of such fiscal year; provided, however, that a licensee may elect to make partial payments for such assessments on March tenth of the preceding fiscal year and on June tenth, September tenth, and December tenth of such fiscal year. Each such partial payment shall be an amount not less than twenty-five per centum of the total annual assessment against such licensee for the relevant fiscal year. The authority shall establish and maintain records to account for assessments made against and received from each licensee. Upon receipt of such assessments, and pursuant to an agreement with the director of the budget, the authority shall transmit to the state comptroller such amount as shall be required to reimburse actual expenditures made and subject to assessment. The amounts so assessed, notwithstanding their assessment, shall be included as cost and expenses for purposes of computing and imposing rates, charges, or other fees pursuant to paragraphs a and b of this subdivision. In imposing such rates, charges, or other fees pursuant to such paragraph b, the authority shall provide a credit to the assessed licensees until such time as the aggregate of all such credits for a licensee shall equal the actual assessments paid by such licensee, plus interest at a reasonable market rate.

(ii) In the calculation of the assessment due pursuant to this paragraph for any fiscal year beginning on or after April first, nineteen hundred ninety-seven, the net of any over or under assessment for fiscal years ending on or before March thirty-first, nineteen hundred ninety-six, shall be deemed to be zero.

d. (i) The authority may refuse to accept at facilities established pursuant to section eighteen hundred fifty-four-b of this title any low-level radioactive waste generated by a person who has failed to submit to the authority, the one or more reports required by the authority pursuant to subdivision one of this section.

(ii) The proceeds of any penalty or interest collected pursuant to subparagraph (i) of paragraph a of subdivision three of this section shall be remitted to the authority for the purposes of the low-level radioactive waste management act.

3. Violations. a. Any failure or refusal to file a report, return, or other documentation, or related information, required pursuant to the provisions of this section shall be deemed a violation of the provisions of, and a failure to perform a duty imposed by, this section and shall be subject to the following civil and criminal penalties:

(i) By a civil penalty, in the case of a first violation, not to exceed five thousand dollars, and in the case of a second or subsequent violation, a civil penalty not to exceed ten thousand dollars; which penalty may be assessed and collected by a court in any action or proceeding pursuant to subparagraph (ii) of this paragraph in addition to any criminal penalty which may be assessed for such violation.

(ii) By a misdemeanor, in the case of a willful violation by a person having any of the culpable mental states defined in section 15.05 of the penal law, which shall be deemed a misdemeanor, and upon a first conviction thereof, by a fine not to exceed five thousand dollars, or by imprisonment for a term of not more than six months, or both such fine and imprisonment; and, upon a second or subsequent conviction thereof, punishment by a fine not to exceed ten thousand dollars, or by imprisonment for a term of not more than one year, or by both such fine and imprisonment.

b. The attorney general shall institute such civil proceedings as the authority may request for the purpose of enforcing the provisions of this section, and such criminal proceedings as the authority may request for the purpose of prosecuting criminal violations of this section.

4. Upon appropriation or other legislative authorization and consistent with a repayment agreement executed with the director of the budget, the authority shall repay from the special account established pursuant to subparagraph (ii) of paragraph a of subdivision two of this section to the general fund, capital projects fund, or any other fund all amounts expended from appropriations made to the authority, the department of environmental conservation, the commission for siting low-level radioactive waste disposal facilities, the department of health, or the department of labor for actual and incremental expenses in the selection, development, licensing, construction, operation, maintenance, decontamination and decommissioning, closure and post-closure care of low-level radioactive waste management facilities, including any regulatory program associated therewith, or for aid to localities.

5. The authority may establish reasonable terms and conditions for receipt, acceptance or disposal of low-level radioactive waste at any facilities developed pursuant to section eighteen hundred fifty-four-c

of this title, including but not limited to packaging, identification of the nature and sources of the waste and the generators, shippers, or carriers of such waste, or other persons having any care or custody of such waste from the place of generation to arrival at such facilities, and requirements for bonds, insurance, or other forms of financial protection or assurance of performance by persons responsible for such waste.

6. Title to any low-level radioactive waste shall at all times remain in the generator of such waste, including the period following acceptance of such waste by the authority at the permanent disposal facilities. Acceptance at permanent disposal facilities shall not occur until completion of such inspection and examination of the waste and determination of compliance with applicable terms and conditions, including but not limited to payment of applicable fees, as the authority may require.

7. Notwithstanding the provisions of subdivision twelve of section eighteen hundred fifty-five of this title, the authority shall enter into agreements to pay annual sums in lieu of taxes to any municipality or taxing district of the state with respect to any real property acquired and held by the authority in the state or improvements to any real property held by the authority in the state, which real property was acquired or improvements were made after the effective date of the low-level radioactive waste management act and for the purposes of such act; provided, that any amount so paid shall be recovered through rates, charges, or other fees applicable to disposal of low-level radioactive waste, pursuant to subdivision two of this section.

8. Actions by the authority pursuant to the provisions of section eighteen hundred fifty-four-c of this title shall be subject, where applicable, to the environmental and judicial review provisions set forth in article twenty-nine of the environmental conservation law.

§ 1855. General powers of the authority. Subject to the other provisions of this title and the provisions of any contract with bondholders or noteholders, the authority shall have the following powers in addition to any powers specifically conferred upon the authority elsewhere in this title:

1. To sue and be sued.

2. To have a seal and alter the same at pleasure.

3. To make and alter by-laws for its organization and internal management.

4. To make rules and regulations governing the exercise of its corporate powers and the fulfillment of its corporate purposes under this title and title nine-A of this article, which shall be filed with the department of state in the manner provided by section one hundred two of the executive law.

5. To purchase, receive, lease or otherwise acquire, to hold in the name of the state or otherwise, and to sell, convey, mortgage, lease, pledge or otherwise dispose of, upon such terms and conditions as the authority may deem advisable, real and personal property, together with such rights and privileges as may be incidental and appurtenant thereto and to the use thereof, including but not restricted to any real property acquired or held by the authority pursuant to the provisions of section eighteen hundred fifty-six of this title and any real or personal property acquired by the authority in the satisfaction of obligations contained in contracts, leases or other arrangements.

6. To enter into contracts, leases or other arrangements providing for the establishment, operation, development and management of any property or facility under the jurisdiction of the authority.

7. To enter into contracts, leases or other arrangements permitting any person to use any property or facility under the jurisdiction of the authority; permitting such person to build or add facilities or improvements upon such property or facility; and providing, at the discretion of the authority, for the acquisition by the authority of any

such facilities or improvements built or added by such person, upon such terms and conditions as the authority may deem advisable.

8. To sell or otherwise make available, upon such terms and conditions as the authority may deem advisable, any product, by-product or service produced in or provided by any facility under its jurisdiction.

9. To fix and collect fees, rentals and charges for the use of any property or facility under its jurisdiction, or for the sale of any product, by-product or service produced in or provided by any such facility, and to establish the rights and privileges created upon payment thereof. Such fees, rentals and charges shall be established by the authority so as to produce, in the judgment of the authority, revenues sufficient, together with any other funds available to the authority, to meet the expenses of maintenance and operation of the facilities of the authority, to repay any moneys repayable to the state, to fulfill the terms of agreements with the holders of its bonds, notes or other obligations, and to provide funds for such other corporate purposes as the authority may deem appropriate.

10. To enter into any contracts and to execute all instruments necessary or convenient for the exercise of its corporate powers and the fulfillment of its corporate purposes under this title.

11. To borrow money and to issue bonds, notes or other obligations and to provide for the rights of the holders thereof.

12. To enter into agreements to pay annual sums in lieu of taxes to any municipality or taxing district of the state in respect of any real property which is owned by the authority, leased by the authority to a person and located in such municipality or taxing district, provided, however, that the amount so paid for any year upon any such property shall not exceed the sum last paid as taxes on such property to such municipality or taxing district prior to the time of its acquisition by the authority.

13. To procure insurance, or obtain indemnification from the federal

government or other persons, against any loss in connection with the assets of the authority and any liability in connection with the activities of the authority, such insurance or indemnification to be procured or obtained in such amounts, and from such sources, as the authority deems to be appropriate.

14. To accept any gifts or grants or loans of funds or property or financial or other aid in any form from the federal government or any agency or instrumentality thereof or from the state or from any other source and to comply, subject to the provisions of this title, with the terms and conditions thereof.

15. To enter into any lands, waters or premises for the purpose of making borings, soundings, surveys or other investigations necessary to the purposes of the authority or to public health and safety.

16. To engage the services of bond counsel, financial advisors, accountants, engineers, attorneys and other private consultants on a contract basis for rendering professional and technical assistance and advice.

17. To do all things necessary or convenient to carry out its corporate purposes and exercise the powers given and granted by this title.

§ 1856. Acquisition of real property. 1. Upon determination by the authority that any real property is necessary for its corporate purposes, the commissioner shall, if so requested by the authority, acquire the same in the name of the state by dedication, by agreement, by condemnation pursuant to the condemnation law, or by appropriation in the manner provided by section thirty of the highway law, and payment therefor shall be made by the authority from the proceeds of sale of its bonds, notes or other obligations, or from other available moneys therefor. The authority shall hold such property in the name of the state and shall have the right to possess and use for its corporate purposes, so long as its corporate existence shall continue, all such real property and rights in real property so acquired.

2. At any time after this title shall become effective, the authority may, by resolution, assume jurisdiction over and hold in the name of the state all or any part of the real property acquired and held in the name of the state by the state office of atomic development. Upon the effective date of such resolution, the authority shall hold any such real property in the name of the state and shall have the right to possess and use for its corporate purposes, so long as its corporate existence shall continue, any such real property.

§ 1857. Officers and employees; transfer, promotion and seniority. 1. Officers and employees of state departments and agencies may be transferred to the authority and officers and employees of the authority may be transferred to state departments and agencies without examination and without loss of any civil service status or rights. No such transfer may, however, be made except with the approval of the head of the state department or division involved and the director of the budget and the chairman of the authority and in compliance with the rules and regulations of the state civil service commission.

2. Promotions from positions in state departments and agencies to positions in the authority, and vice versa, may be made from interdepartmental promotion lists resulting from promotion examinations in which both employees of the authority and employees of the state are eligible to participate.

3. In computing seniority for purposes of promotion or for the purposes of suspension or demotion upon the abolition of positions in the service of the authority or in the service of the state, in the case of an employee of the authority a period of prior employment in the service of the state shall be counted in the same manner as though such period of employment had been in the service of the authority, and in the case of an employee of the state a period of prior employment in the service of the authority shall be counted in the same manner as though such period of employment had been in the service of the state. For the

purposes of the establishment and certification of preferred lists, employees suspended from the authority shall be eligible for reinstatement in the service of the state, and employees suspended from the service of the state shall be eligible for reinstatement in the service of the authority, in the same manner as though the authority were a department of the state.

§ 1858. Assistance by state officers, departments, boards, divisions and commissions. At the request of the authority, engineering and legal services for such authority shall be performed by the department of transportation and the department of law, respectively, and all other state agencies shall upon request by the authority render services within their respective functions.

§ 1859. Deposit, investment and accounting of moneys of the authority. 1. (a) All moneys of the authority, from whatever source derived, shall be paid to the commissioner of taxation and finance as agent of the authority, who shall not commingle such moneys with any other moneys. Such moneys shall be deposited in a separate bank account or accounts. Such bank account or accounts known as the "atomic and space development operating fund" are hereby continued and shall be known and hereby designated as the energy research and development operating fund. The moneys in such fund may be expended for payment of any and all costs and expenditures as required for the corporate purposes of the authority; provided, until such time as the state of New York is reimbursed in full for all moneys repayable to the state by the authority, all expenditures from this fund shall be subject to the prior approval of the director of the budget of the state of New York. The moneys in such fund when made available shall be paid out on check of the commissioner of taxation and finance on requisition of the chairman of the authority or of such other person as the authority shall authorize to make such requisition. All deposits of such moneys shall, if required by the commissioner of taxation and finance or the authority, be secured by obligations of the United States or of the state of New York of a market value equal at all times to the amount of the deposit and all banks and trust companies are authorized to give such security for such deposits.

(b) All funds collected by the authority as a requirement of contracts for the procurement of renewable energy certificates that are related to renewables development on viable agricultural lands, as defined in section three hundred one of the agriculture and markets law, shall be deposited in the agricultural and farmland viability protection fund pursuant to section ninety-nine-pp of the state finance law.

2. Notwithstanding the provisions of subdivision one of this section, the authority shall have power, subject to the approval of the commissioner of taxation and finance, to contract with the holders of any of its bonds or notes, as to the custody, collection, securing, investment and payment of any moneys of the authority, or of any moneys held in trust or otherwise for the payment of bonds or notes or in any way to secure notes or bonds, and to carry out any such contract. Moneys held in trust or otherwise for the payment of bonds or notes or in any way to secure notes or bonds and deposits of such moneys may be secured in the same manner as moneys of the authority, and all banks and trust companies are authorized to give such security for such deposits.

3. Any moneys of the authority not required for immediate use may, at the discretion of the authority, be invested by the commissioner of taxation and finance in obligations of the state or of the United States of America, obligations the principal and interest of which are guaranteed by the state or the United States of America or certificates of deposit of banks or trust companies in this state. The authority may also allocate to one or more reserve funds such moneys or other assets of the authority as the authority may deem necessary or convenient to carry out its corporate purposes and to exercise its corporate powers and, upon direction by the authority, the commissioner of taxation and finance shall invest all or part of the moneys in any such fund in securities in which moneys of the authority not required for immediate use may be invested or in securities in which the trustee or trustees of any public retirement system or pension fund shall have the power to invest the moneys thereof pursuant to article four-a of the retirement and social security law, in each case in such securities as may be specifically designated by the authority. Each reserve fund established

pursuant to this subdivision shall be deemed a separate fund as defined in and for purposes of article four-a of the retirement and social security law. All certificates of deposit in which moneys of the authority are invested pursuant to this subdivision shall, if required by the commissioner of taxation and finance or the authority, be secured in the same manner as moneys of the authority, and all banks and trust companies are authorized to give such security for such certificates.

4. Subject to the provisions of any contract with bondholders and noteholders and to the approval of the comptroller, the authority shall prescribe a system of accounts.

§ 1860. Bonds and notes. 1. The authority shall have the power and is hereby authorized to issue at one time or in series from time to time its negotiable bonds and notes in conformity with applicable provisions of the uniform commercial code in such principal amounts as, in the opinion of the authority, shall be necessary to provide sufficient moneys for achieving the authority's corporate purposes, including the establishment of reserves to secure the bonds and notes and the payment of interest on bonds and notes.

2. The authority shall have power from time to time to renew bonds or notes or to issue renewal bonds or notes for such purpose, to issue bonds or notes to pay bonds or notes, and, whenever it deems refunding expedient, to refund any bond or note by the issuance of new bonds or notes, whether the bonds or notes to be refunded have or have not matured, and may issue bonds or notes partly to refund bonds or notes then outstanding and partly for any other corporate purpose of the authority. Bonds or notes issued for refunding purposes shall be sold and the proceeds applied to the purchase, redemption or payment of the bonds or notes to be refunded.

3. Except as may otherwise be expressly provided by the authority, every issue of bonds or notes shall be general obligations payable out of any moneys or revenues of the authority, subject only to any agreements with the holders of bonds or notes pledging any receipts or

revenues.

4. The bonds and notes shall be authorized by resolution of the authority, shall bear such date or dates and mature at such time or times as such resolution shall provide, except that notes and any renewals thereof shall mature within five years from their respective dates of issuance or renewal, as the case may be, and bonds shall mature within forty years from their respective dates of issuance or renewal, as the case may be. The bonds and notes shall bear interest at such rate or rates, be in such denomination, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms of redemption as such resolution or resolutions may provide.

5. Bonds and notes shall be sold by the authority, at public or private sale, at such price or prices as the authority may determine. Bonds and notes of the authority shall not be sold by the authority at private sale unless such sale and the terms thereof have been approved in writing by the comptroller, where such sale is not to the comptroller, or by the director of the budget, where such sale is to the comptroller.

6. In the discretion of the authority any bonds or issue of bonds or notes or issue of notes may be secured by such resolution or by a trust indenture by and between the authority and a corporate trustee which may be any trust company or bank having the powers of a trust company in the state or by a secured loan agreement or other instrument. Such resolution, trust indenture, loan agreement or other instrument may contain any usual or customary provisions, covenants or limitations for bonds or notes of similar nature which shall be a part of the contract with the holders thereof, including such provisions for protecting and enforcing the rights and remedies of bondholders and noteholders as may be reasonable and proper and not in violation of law.

7. Any resolution or resolutions authorizing any notes or bonds or any issue thereof may contain provisions, which shall be a part of the

contract with the holders thereof, as to:

(a) pledging all or part of the fees, charges, gifts, grants, rents, revenues or other moneys received or to be received and leases or agreements to secure the payment of the notes or bonds or of any issue thereof subject to such agreements with bondholders as may then exist;

(b) the rates of the fees or charges to be established, and the amounts to be raised in each year thereby and the use and disposition of the fees, charges, gifts, grants, rents, revenues or other moneys received or to be received;

(c) the setting aside of reserves or sinking funds, and the regulation and disposition thereof;

(d) limitations on the purpose to which the proceeds of sale of any issue of notes or bonds then or thereafter to be issued may be applied and pledging such proceeds to secure the payment of the notes or bonds or of any issue thereof;

(e) limitations on the issuance of additional notes or bonds; the terms upon which additional notes or bonds may be issued and secured; the refunding of outstanding or other notes or bonds;

(f) the procedure, if any, by which the terms of any contract with bondholders or noteholders may be amended or abrogated, the amount of notes or bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(g) any other matters, of like or different character, which in any way affect the security or protection of the notes or bonds.

8. It is the intention hereof that any pledge made by the authority shall be valid and binding from the time when the pledge is made, that the moneys so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and that the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

9. Neither the members of the authority nor any person executing the bonds or notes shall be liable personally on the bonds or notes or be

subject to any personal liability or accountability by reason of the issuance thereof.

10. Subject to such agreements with bondholders or noteholders as may then exist, the authority shall have power out of any funds available therefor to purchase bonds or notes at a price not exceeding (a) if the notes or bonds are then redeemable, the redemption price then applicable plus accrued interest to the next interest payment date thereon, or (b) if the notes or bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the notes or bonds become subject to redemption plus accrued interest to said date. Bonds and notes so purchased shall thereupon be cancelled.

11. The state does hereby pledge to and agree with the holders of any bonds or notes that the state will not limit or alter the rights and powers vested in the authority by this title to fulfill the terms of any contract made by the authority with such holders, or in any way impair the rights and remedies of such holders until such bonds and notes, together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged. The authority is authorized to include this pledge and agreement of the state, insofar as it refers to holders of any bonds or notes, in any contract with such holders.

§ 1860-a. Reserve funds and appropriations. 1. The authority may create and establish one or more reserve funds to be known as debt service reserve funds and may pay into such reserve funds (a) any moneys appropriated and made available by the state for the purposes of such funds, (b) any proceeds of sale of bonds and notes to the extent provided in the resolution of the authority authorizing the issuance thereof, (c) any moneys directed to be transferred by the authority to such funds, and (d) any other moneys which may be made available to the authority for the purposes of such funds from any other source or sources. The moneys held in or credited to any debt service reserve fund established under this subdivision, except as hereinafter provided, shall be used solely for the payment of the principal of bonds of the authority secured by such reserve fund, as the same mature, required payments to any sinking fund established for the amortization of such bonds (hereinafter referred to as "sinking fund payments"), the purchase or redemption of such bonds of the authority, the payment of interest on such bonds of the authority or the payment of any redemption premium required to be paid when such bonds are redeemed prior to maturity; provided, however, that moneys in any such fund shall not be withdrawn therefrom at any time in such amount as would reduce the amount of such fund to less than the maximum amount of principal and interest maturing and becoming due in any succeeding calendar year on the bonds of the authority then outstanding and secured by such reserve fund, except for the purpose of paying principal and interest on the bonds of the authority secured by such reserve fund maturing and becoming due and sinking fund payments for the payment of which other moneys of the authority are not available. Any income or interest earned by, or increment to, any such debt service reserve fund due to the investment thereof may be transferred to any other fund or account of the authority to the extent it does not reduce the amount of such debt service reserve fund below the maximum amount of principal and interest maturing and becoming due in any succeeding calendar year on all bonds of the authority then outstanding and secured by such reserve fund. In computing the amount of any debt service reserve fund for the purposes of this section, securities in which all or a portion of such reserve fund are invested shall be valued at par or, if purchased at less than par, at their cost to the authority.

2. The authority shall not issue bonds at any time if the maximum amount of principal and interest maturing and becoming due in a succeeding calendar year on the bonds outstanding and then to be issued and secured by a debt service reserve fund will exceed the amount of such reserve fund at the time of issuance, unless the authority, at the time of issuance of such bonds, shall deposit in such reserve fund from the proceeds of the bonds so to be issued, or otherwise, an amount which together with the amount then in such reserve fund, will be not less than the maximum amount of principal and interest maturing and becoming due in any succeeding calendar year on the bonds then to be issued and

on all other bonds of the authority then outstanding and secured by such reserve fund.

3. To assure the continued operation and solvency of the authority for the carrying out of the public purposes of this act provision is made in subdivision one of this section for the accumulation in each debt service reserve fund of an amount equal to the maximum amount of principal and interest maturing and becoming due in any succeeding calendar year on all bonds of the authority then outstanding and secured by such reserve fund. In order further to assure the maintenance of such debt service reserve funds, there shall be annually apportioned and paid to the authority for deposit in each debt service reserve fund such sum, if any, as shall be certified by the chairman of the authority to the governor and state director of the budget as necessary to restore such reserve fund to an amount equal to the maximum amount of principal and interest maturing and becoming due in any succeeding calendar year on the bonds of the authority then outstanding and secured by such reserve fund. The chairman of the authority shall annually, on or before December first, make and deliver to the governor and state director of the budget his certificate stating the sum, if any, required to restore each such debt service reserve fund to the amount aforesaid, and the sum or sums so certified, if any, shall be apportioned and paid to the authority during the then current state fiscal year. The principal amount of bonds secured by a debt service reserve fund or funds to which state funds are apportionable pursuant to this subdivision shall be limited to the total amount of bonds and notes outstanding on the effective date of this act, plus the total amount of bonds and notes contracted after the effective date of this act to finance projects in progress on the effective date of this act as determined by the New York state public authorities control board created pursuant to section fifty of this chapter whose affirmative determination shall be conclusive as to all matters of law and fact solely for the purposes of the limitations contained in this subdivision, but in no event shall the total amount of bonds so secured by such a debt service reserve fund or funds exceed nine million six hundred sixty thousand dollars, excluding bonds issued to refund such outstanding bonds until the date of redemption of such outstanding bonds. As outstanding bonds so secured

are paid, the amount so secured shall be reduced accordingly but the redemption of such outstanding bonds from the proceeds of refunding bonds shall not reduce the amount so secured.

4. All amounts paid over to the authority by the state pursuant to the provisions of this section shall constitute and be accounted for as advances by the state to the authority and, subject only to the rights of the holders of any bonds or notes of the authority theretofore or thereafter issued, shall be repaid to the state from all available operating revenues of the authority in excess of debt service reserve fund requirements and operating expenses.

5. As used in this section, (a) the term "operating expenses" shall mean ordinary expenditures for operation and administration of the authority, including maintenance, repair and replacement of authority property; and (b) the term "available operating revenues" shall mean all amounts received on account of rentals and fees charged by the authority, if any, and income or interest earned or added to funds of the authority due to the investment thereof, and not required under the terms or provisions of any covenant or agreement with holders of any bonds or notes of the authority to be applied to any purposes other than payment of operating expenses of the authority.

§ 1861. Exemption from taxation of the property and income of the authority. The property of the authority and its income and operations shall be exempt from taxation.

§ 1862. Exemption from taxation of bonds and notes. The state covenants with the purchasers and with all subsequent holders and transferees of bonds and notes, in consideration of the acceptance of and payment for the bonds and notes, that the bonds and notes and the income therefrom, and all moneys, funds and revenues pledged to pay or secure the payment of such bonds and notes shall at all times be free from taxation, except for estate and gift taxes and taxes on transfers.

§ 1863. Bonds and notes legal investments for fiduciaries. The bonds and notes are hereby made securities in which all public officers and bodies of the state and all municipalities and municipal subdivisions, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks, savings associations, including savings and loan associations and building and loan associations, investment companies and other persons carrying on a banking business, all administrators, guardians, executors, trustees and other fiduciaries, and all other persons whatsoever who are now or who may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them. Notwithstanding any other provisions of law, the bonds and notes of the authority are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities and municipal subdivisions for any purpose for which the deposit of bonds or other obligations of the state is now or may hereafter be authorized.

§ 1864. Right of state to require redemption of bonds. Notwithstanding and in addition to any provisions for the redemption of bonds which may be contained in any contract with the holders of the bonds, the state may, upon furnishing sufficient funds therefor, require the authority to redeem, prior to maturity, as a whole, any issue of bonds on any interest payment date not less than twenty years after the date of the bonds of such issue at one hundred five per cent of their face value and accrued interest or at such lesser redemption price as may be provided in the bonds in case of the redemption thereof as a whole on the redemption date. Notice of such redemption shall be published in at least two newspapers published and circulating respectively in the cities of Albany and New York at least twice, the first publication to be at least thirty days before the date of redemption.

§ 1865. Rights and remedies of bondholders and noteholders. The holders of bonds and notes shall have the following rights and remedies, subject to the terms of the resolution authorizing such bonds and notes or any trust indenture, secured loan agreement or other instrument related thereto:

1. In the event that the authority shall default in the payment of principal of or interest on any issue of bonds or notes after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title, or shall default in any contract made with the holders of any issue of bonds or notes, the holders of twenty-five per centum in aggregate principal amount of the bonds or notes of such issue then outstanding, by instrument or instruments filed in the office of the clerk in the county of Albany and approved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds or notes for the purposes herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds or notes then outstanding shall, in his or its own name

(a) by suit, action or special proceeding, enforce all rights of the bondholders or noteholders, including the right to require the authority to collect fees, rentals and charges adequate to carry out any agreements with the holders of such bonds or notes and to perform its duties under this title;

(b) bring suit upon such bonds or notes;

(c) by action or suit in equity, require the authority to account as if it were the trustee of an express trust for the holders of such bonds or notes;

(d) by action or suit in equity, enjoin any act or things which may be unlawful or in violation of the rights of the holders of such bonds or notes;

(e) declare all such bonds or notes due and payable, and if all defaults shall be made good then with the consent of the holders of twenty-five per centum of the principal amount of such bonds or notes then outstanding, to annul such declaration and its consequences.

3. Such trustee, whether or not the issuance of bonds or notes represented by such trustee had been declared due and payable, shall be entitled as of right to the appointment of a receiver of any property of the authority, the fees, rentals, charges or other revenues of which are pledged for the security of the bonds or notes of such issue and such receiver may enter and take possession of such property, or any part or parts thereof and operate and maintain the same and receive all fees, charges, rentals and other revenues thereafter arising therefrom and exercise such other powers of the authority as the court may deem advisable and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any fees, charges, rentals and other revenues derived from such properties.

4. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders or noteholders in the enforcement and protection of their rights.

5. The supreme court shall have jurisdiction of any suit, action or proceeding by the trustee on behalf of such bondholders or noteholders. The venue of any such suit, action or proceeding shall be laid in the county of Albany.

6. Before declaring the principal of bonds or notes due and payable, the trustee shall first give thirty days' notice in writing to the governor, to the authority, to the comptroller and to the attorney-general of the state.

§ 1866. State not liable on bonds and notes. The bonds and notes shall not be a debt of the state of New York nor shall the state be liable thereon and such bonds and notes shall contain on the face thereof a statement to that effect.

§ 1867. Annual reports. 1. For the purpose of furnishing the state with systematic information regarding the status and the activities of the authority, the authority shall submit to the governor, the chairman of the senate finance committee, the chairman of the assembly ways and means committee and the state comptroller, within ninety days after the end of its fiscal year, a complete and detailed report setting forth: (1) its operations and accomplishments; (2) its receipts and disbursements, or revenues and expenses, during such fiscal year in accordance with the categories or classifications established by the comptroller and including but not limited to a breakdown of operating expenditures and revenues by facility, by maintenance and by personnel; a breakdown of capital expenditures, including an analysis of all projects begun, completed or in progress in that fiscal year; (3) an explanation of depreciation, policies, reserve funds and investments; (4) its assets and liabilities at the end of such fiscal year including the status of reserve, depreciation, special or other funds and including the receipts to and payments from these funds, and the status of funds received from federal and state governments; and (5) a schedule of its bonds and notes outstanding at the end of its fiscal year, together with a statement of the amounts redeemed and incurred during such fiscal year.

2. The authority, so long as it is not subject to the civil service law, shall within ninety days after the end of its fiscal year submit to the governor, the chairman of the senate finance committee and the chairman of the assembly ways and means committee a report on its personnel policies and practices with regard to recruitment, selection, promotion, classification, compensation, transfer, separation, employee relations and services and equal opportunity programs.

3. The comptroller shall be charged with seeing that the reports mandated in subdivision one are filed on time and that they are sufficiently comprehensive. The comptroller shall report any

deficiencies to the governor and to the legislative chairmen named in subdivision two of this section.

4. The authority shall submit annually to the governor, for his approval, and to the budget director, the state comptroller and the head of any executive agency having energy related responsibilities, chairman of the senate finance committee, and chairman of the assembly ways and means committee, its proposed operating budget for the next ensuing fiscal year and the operating budget for the present fiscal year.

5. The budget shall be submitted in a form and on the date specified by the budget director, including, but not limited to, information on rates, contracts, revenue and sources of revenue.

6. The comptroller shall each year certify to the budget director, the governor and the legislative chairmen named in subdivision two of this section specific amounts for which the authority is obligated to the state.

7. (a) The authority shall submit to the governor, the chair of the senate finance committee, and the chair of the assembly ways and means committee, and publish on the authority's public website a semi-annual report for the time period ending March thirty-first no later than June first and for the time period ending September thirtieth no later than December first of each year detailing the authority's activities for the previous six month reporting period.

(b) The semi-annual report required pursuant to paragraph (a) of this subdivision shall include information with respect to all proceeds collected and administered by the authority pursuant to an order of the public service commission, including assessments, fees, taxes, transfers, corporate income or surcharges imposed on energy consumers or power generators. The semi-annual report shall include, at a minimum, the following:

1. total revenues collected by the authority in the reporting period;

2. a list of requests for proposals, program opportunity notices, or

similar solicitations, that have been issued in the reporting period;

3. a description of the criteria and standards utilized for awarding a request for proposal, a program opportunity notice, or similar solicitation;

4. a regional report on all projects selected for funding by the authority during the reporting period, including the county and utility service territory in which the project is located, and the total value of these projects statewide and by region;

5. all disbursements or expenditures of revenues pursuant to a request for proposal, a program opportunity notice, or similar solicitation; and

6. a list of all contracts executed and completed during the reporting period including a description of each project.

(c) The president and chief executive officer of the authority shall provide notice to the director of the division of the budget, the chairman of the senate finance committee and the chairman of the assembly ways and means committee of any report that is more than sixty days delinquent. Should the authority be delinquent in submitting its report by more than one hundred eighty days, the president and chief executive officer shall provide notice of such delinquency to the director of the division of the budget, the chairman of the senate finance committee, the chairman of the assembly ways and means committee, and the state comptroller.

(d) Reporting requirements. The information for the report required under this subdivision shall be current to within sixty days of the actual release of the report.

§ 1867-a. Federal insurance or guaranty; taxable bond option. (a) The authority is authorized to obtain from any department or agency of the United States of America or non-governmental insurer any insurance or guaranty, to the extent now or hereafter available, as to, or of, or for the payment or repayment of interest or principal, or both, or any part thereof, on any bonds or notes issued by the authority, or on any municipal obligations of governmental units or cooperatives purchased or held by the authority; and to enter into any agreement or contract with respect to any such insurance or guaranty, except to the extent that the same would in any way impair or interfere with the ability of the authority to perform and fulfill the terms of any agreement made with the holders of the bonds or notes of the authority.

(b) The authority may covenant and consent that the interest on certain of its bonds shall be includible, under the Internal Revenue Code of 1954 or any subsequent corresponding internal revenue law of the United States, in the gross income of the holders of the bonds to the same extent and in the same manner that the interest on bills, bonds, notes or other obligations of the United States is includible in the gross income of the holders thereof under said Internal Revenue Code or any such subsequent law.

§ 1868. Inconsistent provisions of other acts. Insofar as the provisions of this title are inconsistent with the provisions of any other act, general or special, the provisions of this title shall be controlling, provided, however, nothing contained in any provision of this title shall be construed to relieve the authority of the obligation on its part to comply with the provisions of article nine of the public authorities law in force on the effective date of this title, including the obligation to submit an annual report as specified therein.

§ 1868-a. Actions. Except in an action for wrongful death, an action against the authority founded on tort shall not be commenced more than one year and ninety days after the cause of action therefor shall have accrued, nor unless a notice of claim shall have been served on the authority within the time limited by, and in compliance with all the requirements of section fifty-e of the general municipal law. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

§ 1869. Termination of the authority. The authority and its corporate existence shall continue until terminated by law, provided, however, that no such law shall take effect so long as the authority shall have bonds, notes or other obligations outstanding. Upon termination of the existence of the authority all its rights, property, assets and funds shall pass to and be vested in the state. For the purposes of this section, any appropriation or advance made to the authority by the state, which has not been repaid, shall not be deemed to be an outstanding obligation of the authority.

§ 1870. Title not affected if in part unconstitutional or ineffective. If any subtitle, section, subdivision, paragraph, sentence, clause or provision of this title shall be unconstitutional or be ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid or effective and no other subtitle, section, subdivision, paragraph, sentence, clause or provision shall on account thereof be deemed invalid or ineffective.

*** § 1871. Public service law not applicable to authority.** Except to the extent articles seven and eight of the public service law apply to the siting and operation of a major utility transmission or major steam electric generating facility, the authority shall not be subject to the provisions of the public service law or to regulation by or the jurisdiction of the department of public service or the public service commission by reason of any contract, agreement or arrangement entered into by the authority with any power company, any water distribution company or agency or the power authority of the state of New York, or more than one of the above, or by reason of any action taken thereunder by the authority.

* NB Expired January 1, 1979 applicable until such date

§ 1872. Green residential building program. 1. Definitions. As used in this section, the following terms shall have the following meanings:

(a) "Green residential building standards" means standards, guidelines, a rating system, and/or criteria relating to design and building techniques established or promulgated by the authority pursuant to this section, which are intended to: (i) promote smart growth and smart site planning; (ii) reduce greenhouse gas emissions; (iii) achieve energy efficiency and reduce energy consumption; (iv) facilitate the incorporation of environmentally responsible products; (v) promote the efficient use of natural resources; (vi) promote the conservation of materials and resources; (vii) reduce waste; and (viii) create a healthy indoor living environment.

(b) "Owner" means a person who owns a residential building on the date that: (i) a certificate of occupancy is issued to such building in the case of a new residential building; or (ii) substantial renovations to an existing residential building are completed pursuant to standards and criteria established by the authority.

(c) "Qualified occupied square footage" means the habitable spaces of a residential building pursuant to standards and criteria established by the authority, and shall not include storage areas, mechanical rooms, utility rooms, and attic and crawl spaces.

(d) "Residential building" means a single family home or multi-family home with less than twelve dwelling units pursuant to standards and criteria established by the authority.

(e) "Substantial renovations" mean significant improvements or restorations to, or substantial replacement or repair of materials, systems or components of, a residential building pursuant to standards and criteria established by the authority.

2. Application of program. The authority is hereby authorized to establish and administer a green residential building program to provide incentives for the construction of new residential buildings, and the substantial renovation of residential buildings, pursuant to standards and criteria established by the authority.

3. Incentive payments. (a) As part of the green residential building program created pursuant to this section, the authority is authorized to provide for and award incentive payments to:

(i) qualified owners of new residential buildings that the authority determines have been constructed pursuant to applicable green residential building standards, and that satisfy other program standards and criteria as established by the authority, and who have received a certificate of occupancy for such building on and after January first, two thousand ten, and before October thirty-first, two thousand thirteen; and

(ii) qualified owners of existing residential buildings that the authority determines have undergone substantial renovations pursuant to applicable green residential building standards, and that satisfy other applicable program standards and criteria as established by the authority, where the renovations to such building are completed on and after January first, two thousand ten, and before October thirty-first, two thousand thirteen.

In determining the amount of an incentive payment, the authority is authorized to consider whether the person who is eligible to receive the incentive payment has received, will be receiving or is eligible to receive financial assistance or incentives from any other source for the construction or renovations that are the subject of an incentive payment.

(b) No incentive payment made pursuant to this subdivision shall exceed:

(i) with respect to a residential building with two or fewer dwelling units, an amount equal to the product of the amount of qualified occupied square footage, not to exceed two thousand square feet, and three dollars and seventy-five cents;

(ii) with respect to a residential building with greater than two dwelling units but fewer than six dwelling units, an amount equal to the product of the amount of qualified occupied square footage, not to exceed three thousand square feet, and three dollars and seventy-five cents;

(iii) with respect to a residential building with at least six dwelling units, an amount equal to the product of the amount of qualified occupied square footage, not to exceed four thousand square feet, and three dollars and seventy-five cents; and

(c) In addition to the limitations on incentive payments set forth in paragraph (b) of this subdivision, no qualified owner shall receive more than one hundred twenty thousand dollars in qualified incentive payments during any calendar year.

4. Regulations. (a) The authority shall promulgate rules and regulations to establish green residential building standards and/or criteria as part of any green residential building program created pursuant to this section. In establishing such standards and criteria, the authority may consult standards and criteria established or adopted by other organizations, including but not limited to, the United States green building council under its leadership in energy and environmental design programs and the American National Standards Institute.

(b) The authority shall promulgate rules and regulations for the administration of any green residential building established pursuant to this section, including but not limited to eligibility criteria, application procedures, award determinations, dollar-per-square footage award levels, training and qualification procedures for builders and technicians, and inspection procedures, documentation and compliance requirements for the program.

(c) The authority is authorized to: (i) consult with the department of environmental conservation, the department of state, the division of housing and community renewal and any other agency or public authority which the authority deems appropriate in the development of green residential building standards and any other standards and criteria developed pursuant to this subdivision; (ii) prepare, in consultation with such agencies and authorities, and to make available to the public, green residential building program manuals and brochures for the purpose of ensuring that the standards and criteria applicable to such program are available to persons who may wish to participate in the program, to facilitate the construction of green buildings and the renovation of existing residential buildings using green construction principles; and (iii) coordinate the administration of any green residential building program created pursuant to this section with other programs that are administered by the authority.

5. Reporting. No later than September first, two thousand eleven and September first of each year thereafter, the president shall prepare and furnish a written report to the governor, the temporary president of the senate, and the speaker of the assembly concerning the authority's

activities under this section. Such report shall include, but shall not be limited to:

(a) the name and address of each recipient of incentive payments made by the authority pursuant to this section during the preceding calendar year;

(b) the amount of any incentive payment made to each such person; and

(c) a description of the project and the work performed that earned the incentive payment.

§ 1872-a. Affordable residential green building program. Notwithstanding any law, rule or regulation to the contrary, the authority shall establish and administer a program pursuant to standards and criteria established by the authority which would provide information and resources including technical assistance, access to industry standards, and financing available through the authority or other public or private sector sources, to developers, builders, design professionals, and potential owners for the construction of new residential buildings which are affordable. Such resources shall be available based upon the use of design and building techniques established by the authority which promote integrated design practices for new construction smart growth and smart planning, the reduction of greenhouse gas emissions, achieve energy efficiency and reduce energy consumption, encourage the incorporation of environmentally responsible products, promote the efficient use of all heating fuels and natural resources, reduce waste and promote a healthy indoor living environment while maintaining affordability for household incomes as provided in this section. The authority shall create and maintain guidelines to establish affordable green residential building standards and criteria, and to connect potential owners, builders, developers, and design professionals associated with the construction of residential buildings with resources for financing, best practices for construction, and other information to achieve these standards and criteria for implementation of such program. The authority shall prepare an annual report on such program which shall be posted on the authority's website.

§ 1873. Examination and reporting of energy efficiency grant recipients; required. The authority shall submit to the governor, the speaker of the assembly, the temporary president of the senate, the chair of the state energy planning board, the chair of the assembly energy committee, the ranking minority member of the assembly energy committee, the chair of the senate energy and telecommunications committee, the ranking minority member of the senate energy and telecommunications committee, the chair of the assembly corporations, authorities and commissions committee, the ranking minority member of the assembly corporations, authorities and commissions committee, the chair of the senate corporations, authorities and commissions committee, the ranking minority member of the senate corporations, authorities and commissions committee and the chair of the renewable energy subcommittee in the assembly a copy of the annual report the authority is required to produce to comply with the public service commission order establishing the energy efficiency portfolio standard and approving programs.

§ 1875. Legislative findings and declaration of intent. The legislature hereby finds and declares that energy is essential to maintain the industrial vitality of New York state. The legislature further finds that, because of the state's limited indigenous energy resource, efficient energy use is especially crucial to sustain its competitive posture.

The legislature finds that many of the issues related to energy efficiency in industry are associated with high temperature operations and that insufficient research has been conducted to discover technologies to increase the efficiency of these operations.

The legislature therefore declares that a coherent research program focused on high temperature technology be established under the auspices of the authority within a major university of the state. The legislature further declares that such program shall further the energy conservation objectives of the state and is an appropriate use of petroleum overcharge restitution funds.

§ 1876. High temperature technology research program established. There is hereby established the New York state high temperature technology research program at Rensselaer Polytechnic Institute.

§ 1877. Purposes of the high temperature technology research program. The purpose of the program shall be to enhance industrial energy efficiency pertaining to high temperature operations. In developing the program, Rensselaer Polytechnic Institute shall conduct, support and monitor high temperature technology research which addresses one or more of the following technical subjects:

1. high temperature lubrication;

2. high temperature materials and structures;

3. high temperature energy transfer and conversion;

4. high temperature materials processing; and

5. use of expert systems in high temperature technology.

§ 1878. State coordination, oversight and technology transfer. The New York state energy research and development authority shall exercise oversight over such program; in consultation with Rensselaer Polytechnic Institute, coordinate the direction of the program with other research under the auspices of the authority and insure, where appropriate, the expeditious transfer of technology resulting from such program to New York state industries.

§ 1879. Funds. The New York state energy research and development authority is hereby authorized to disburse funds to Rensselaer Polytechnic Institute to carry out the purposes of this program.

§ 1880. Legislative findings and declaration of intent. The legislature hereby finds that improvement in the efficiency of electrical transmission will enable utilities to conserve fossil fuel, including imported oil, by increasing the capacity of transmission lines. The legislature further finds that experiments in high phase order electric transmission indicate that transmission efficiency may be able to be increased by over seventy percent and that, if practical, will reduce the need to construct new rights of way, produce lower electric and magnetic fields, less radio and television interference at less cost and environmental impact. The legislature therefore declares that high phase order technology be tested under actual operating conditions.

§ 1881. High phase order electric transmission research project. The purpose of this project shall be to convert an existing transmission line to a high phase order line, carry out test and operation procedures and provide results of these procedures for evaluation.

§ 1882. School energy efficiency collaboration program. 1. The purpose of the school energy collaborative program shall be to reduce redundancies, raise awareness and promote the efficient implementation of public school energy projects across New York state.

2. In developing this multidisciplinary collaborative program, the authority shall work in partnership with the New York power authority, the Long Island power authority, the state education department, the New York association of school business officials, the New York state school boards association, energy service companies, utility programs and other school administrators.

3. The authority shall serve as the lead agency in developing a collaborative program by November first, two thousand seventeen and shall serve as the lead contact for all public schools interested in pursuing energy efficiency projects.

4. The collaborative program may provide support on:

(a) developing the technical aspects of energy projects;

(b) sharing case studies and other information on completed projects;

(c) developing demonstrations;

(d) providing training opportunities for building operators;

(e) providing a comprehensive catalog of informational and financial resources available to schools pursuing energy projects; and

(f) anything else the collaborative deems to be appropriate in furthering their purpose.

5. The authority shall provide all other collaborative members with updated information regarding the program for further distribution. The state education department may, through regular communications with school districts, promote the existence of the collaboration.

§ 1883. State oversight and funding. The New York state energy research and development authority shall exercise oversight over such program and is hereby authorized to disburse funds to the New York State Electric and Gas Corporation to carry out the purpose of this program.

§ 1884. Zero-emission bus roadmap. 1. The authority, in consultation with the department of public service and the department of transportation, shall create a zero-emission public transportation system and school bus roadmap for the state which shall identify the actions needed to meet the fleet sales and conversion targets established in section thirty-six hundred thirty-eight of the education law. The roadmap shall include but not be limited to: (a) financial and technical guidance related to the purchasing, retrofitting, operation, and maintenance of zero-emission buses; (b) an identification and siting plan for charging and fueling infrastructure; (c) an identification of the necessary investments in the electric transmission and distribution grid; (d) an identification of how to ensure related facility upgrades are coordinated to maximize the cost effectiveness and overall system reliability; (e) the available federal, state, and local funding to purchase or lease zero-emission buses or convert existing buses to zero-emissions; (f) an identification of new incentives and programs to advance the deployment and adoption of zero-emission buses; and (g) streamlining actions to facilitate the conversion of public transportation systems and school bus fleets.

2. The authority shall convene a technical advisory group made up of diverse stakeholders to provide the authority with relevant technical, policy, and market expertise. The authority shall further develop a stakeholder engagement process to solicit feedback on the roadmap and raise consumer awareness and education across the state.

3. The authority shall report its findings and any recommendations to the governor, the temporary president of the senate, and the speaker of the assembly no later than one year after the effective date of this section. The roadmap shall be updated every three years and made publicly available on the authority's website.

§ 1885. Mechanical insulation energy savings program. 1. Definitions. For purposes of this section:

(a) "Applicant" shall mean any school district and may at the discretion of the authority include any public housing or public hospital, with a building or buildings that have a potential need for mechanical insulation upgrades. The minimum size for any single building to be considered shall be twenty thousand square feet.

(b) "Mechanical insulation" shall mean insulation materials, facings and accessory products used for thermal requirements for mechanical piping and equipment, hot and cold applications, heating, ventilation, and air-conditioning applications.

(c) "Qualified audit" shall mean a mechanical insulation audit of a building by a qualified contractor, which identifies missing, damaged or improperly installed mechanical insulation. Such audit shall include an estimate of installation costs along with estimated energy and cost savings. Such audit shall be provided by the qualified contractor at no cost to the authority or applicant.

(d) "Qualified mechanical insulation expenditures" shall mean the purchase of insulation materials, facings and accessory products used for thermal requirements for mechanical piping and equipment, hot and cold applications, and heating, ventilation, and air-conditioning applications and all associated labor costs properly allocable to on-site preparation, assembly and original installation, so long as performed by a qualified contractor and in accordance with sections two hundred twenty, two hundred twenty-b and two hundred twenty-i of the labor law.

(e) "Qualified contractor" shall mean an insulation contractor that is party to an apprenticeship agreement, as defined in section eight hundred sixteen of the labor law, which is in good standing, appropriate for the type and scope of work to be performed, including the minimum American Society of Heating, Refrigerating, and Air-Conditioning Engineers Standard 90.1-2007, providing the energy standard for buildings except low-rise residential buildings.

2. Subject to monies made available to the authority for the proper administration of the program created pursuant to this section, the authority is hereby authorized and directed to establish and administer within one year of the effective date of this section, a mechanical insulation energy savings program to issue competitive grants on a first come first served basis for applicants that have completed a qualified audit, which will cover at least fifty, but no more than seventy-five, percent of the qualified mechanical insulation expenditures.

The authority may coordinate with another state agency or authority, or an office thereof, to establish and administer this program.

3. The authority shall develop and publish guidelines establishing the evaluation criteria and competitive application process for the mechanical insulation energy savings program pursuant to this section.

TITLE 9-A

GREEN JOBS-GREEN NEW YORK PROGRAM

§ 1890. Short title. This title shall be known and may be cited as the "green jobs-green New York act of 2009".

§ 1891. Definitions. As used in this section, the following terms shall have the following meanings:

1. "Applicant" means a person who owns, leases or manages a structure and who has the authority to contract for the provision of qualified energy efficiency services to such structure.

2. "Authority" shall have the same meaning as in subdivision two of section eighteen hundred fifty-one of this article.

3. "Constituency-based organization" means an organization incorporated for the purpose of providing services or other assistance to economically or socially disadvantaged persons within a specified community, and which is supported by, or whose actions are directed by, members of the community in which it operates.

4. "Distribution utility" means any gas or electric corporation providing gas or electricity to end use consumers that is a public utility company, including a municipality, or a public utility authority organized pursuant to article five of this chapter.

5. "Eligible project" means qualified energy efficiency services for a non-residential structure, a residential structure or a multi-family structure. An eligible project shall not be considered (a) a major capital improvement pursuant to subparagraph (g) of paragraph one of subdivision g of section 26-405 of the administrative code of the city of New York, subparagraph (k) of paragraph one of subdivision g of section 26-405 of the administrative code of the city of New York, paragraph six of subdivision c of section 26-511 of the administrative code of the city of New York, paragraph three of subdivision d of section six of section four of chapter five hundred seventy-six of the laws of nineteen hundred seventy-four, and the second undesignated paragraph of paragraph (a) of subdivision four of section four of chapter two hundred seventy-four of the laws of nineteen hundred forty-six; or (b) an individual apartment improvement pursuant to subparagraph (e) of paragraph one of subdivision g of section 26-405 of the administrative code of the city of New York, paragraph thirteen of subdivision c of section 26-511 of the administrative code of the city of New York, paragraph one of subdivision d of section six of section four of chapter five hundred seventy-six of the laws of nineteen hundred seventy-four, and clause five of the second undesignated paragraph of paragraph (a) of subdivision four of section four of chapter two hundred seventy-four of the laws of nineteen hundred forty-six.

6. "Energy audit" means a formal evaluation of a building's energy consumption for the purpose of identifying methods to improve energy efficiency and conserve energy, including associated health and safety issues, conducted pursuant to standards established by the authority.

7. "Green jobs-green New York revolving loan fund" or "revolving loan fund" means the green jobs-green New York revolving loan fund created by subdivision one of section eighteen hundred ninety-six of this title.

8. "Multi-family structure" means a multi-unit residential building with five or more dwelling units.

9. "Non-residential structure" means a building that is used or occupied by a small business or a not-for-profit corporation.

10. "Not-for-profit corporation" means a corporation defined in subdivision five of paragraph (a) of section one hundred two of the not-for-profit corporation law.

11. "Program" means the green jobs-green New York energy conservation and community sustainability program created by this title.

12. "Qualified energy efficiency services" means a modification to a structure, based on recommendations contained in an energy audit performed under the program created under section eighteen hundred ninety-two of this title or as otherwise approved by the authority, which is consistent with standards established by the authority, that will increase the energy efficiency and conservation of an existing structure, including but not limited to:

(a) application of weatherstripping, caulking, sealant and other materials around doors, windows, and other areas of a building for the purpose of insulating or sealing openings in the building envelope and within the building to mitigate energy loss;

(b) testing, repairing and replacing heating or cooling systems or components of such systems;

(c) thermostat upgrades;

(d) water heater repair and replacement;

(e) roof, chimney, fireplace and roof vent repair, insofar as such repairs are determined by an energy audit to be necessary to mitigate energy loss or resolve energy-system related health and safety issues;

(f) repair and replacement of storm windows, permanent windows and exterior doors;

(g) repair or replacement of major household appliances;

(h) installation of thermal solar heat or hot water systems;

(i) addition of insulation to exterior walls or ceilings;

(j) replacement of inefficient light bulbs and lighting fixtures and systems;

(k) minor repairs that are necessary to ensure maximum efficiency from the provision of qualified energy efficiency services;

(l) installation of carbon monoxide detectors and indoor environmental testing and mitigation deemed necessary as a result of the provision of other qualified energy efficiency services;

(m) fuel switching to convert an electrically-heated building to a more efficient heating source provided that significant energy cost-savings can be demonstrated pursuant to standards established by the authority;

(n) installation of energy technologies eligible for net energy metering pursuant to section sixty-six-j or sixty-six-l of the public service law; and

(o) purchase and installation of geothermal energy systems.

13. "Residential structure" means a residential building that has four or fewer dwelling units.

14. "Small business" shall have the same meaning as in section one hundred thirty-one of the economic development law.

15. "Structure" means (a) a non-residential structure, (b) a residential structure, and (c) a multi-family structure.

§ 1892. Purpose. There is hereby created a green jobs-green New York program. The purpose of the program is to:

1. promote energy efficiency, energy conservation and the installation of clean energy technologies;

2. reduce energy consumption and energy costs;

3. reduce greenhouse gas emissions;

4. support sustainable community development;

5. create green job opportunities, including opportunities for new entrants into the state's workforce, the long-term unemployed and displaced workers; and

6. use innovative financing mechanisms to finance energy efficiency

improvements through energy cost savings.

§ 1893. Administration by the authority. Within six months of the effective date of this title, the authority is hereby authorized and directed to establish and administer the green jobs-green New York program. The authority shall implement the program in consultation with the division of housing and community renewal, the department of labor, the office of temporary and disability assistance, the department of public service, the power authority of the state of New York, the Long Island power authority, the department of economic development and the department of environmental conservation. The authority is authorized and directed to:

1. use monies made available for the program pursuant to section eighteen hundred ninety-nine-a of this title to achieve the purposes of the program;

2. enter into contracts with constituency-based organizations and other entities through the competitive grants process authorized by this title;

3. enter into contracts with one or more program implementers to perform such functions as the authority deems appropriate; and

4. exercise such other powers as are necessary for the proper administration of the program.

§ 1894. Competitive grants for outreach, enrollment and related services. 1. The authority shall issue one or more program opportunity notices or requests for proposals to solicit applications from partnerships or consortia comprised of constituency-based organizations which can connect community members to the program, including facilitating awareness of the program and enrollment, and (a) distribution utilities, (b) contractors that have signed enforceable agreements to meet standards set by the authority, including standards for local hiring and pre-apprenticeship and apprenticeship and other labor-management training program participation, (c) workforce development organizations that will recruit unemployed individuals, and provide training and job placement in conjunction with contractors pursuant to section eighteen hundred ninety-seven of this title; and/or (d) organized trades and their certification or apprenticeship programs. The authority shall specifically solicit applications that propose to demonstrate the feasibility of innovative financing mechanisms, including but not limited to applications undertaken in partnership with distribution utilities that propose to demonstrate the feasibility of on-bill financing. The public service commission and other appropriate agencies are authorized to coordinate with the authority and applicants in developing and implementing proposed demonstrations of innovative financing mechanisms.

2. In awarding grants, the authority shall:

(a) target communities in areas where energy costs are particularly high in relation to a measure of median household income as determined by the authority; or which have been designated as a nonattainment area for one or more pollutants pursuant to section 107 of the federal Clean Air Act (42 U.S.C. section 4207);

(b) give preference in awards to applicants that include significant participation by minority and women owned business enterprises and/or to applications to serve economically distressed communities;

(c) ensure that the awards as a whole reflect the geographic diversity of the state; and

(d) award a sufficient number of grants to make it possible to fully commit the resources allocated during the initial phase of the program.

3. (a) The authority is authorized to consult with the department of public service, the division of housing and community renewal, the department of labor and the department of environmental conservation, as appropriate, in making any determinations contemplated by this section.

(b) The authority shall consult with representatives of businesses who provide home heating oil, propane and other petroleum-based heating products to develop innovative financing mechanisms for energy efficiency retrofits.

(c) The authority shall consult with the division of housing and community renewal and the council established pursuant to section eighteen hundred ninety-eight of this title to develop strategies to mitigate any adverse economic impact of the program on tenants, including but not limited to residents of in rent-regulated housing or recipients of housing subsidies.

4. Any organization using funding provided under the program for marketing or other outreach activities shall not commingle such marketing or outreach activities with any other advocacy or policy promotion efforts.

§ 1895. Energy audits. 1. The program shall make available to applicants who would be eligible to apply for financial assistance under this section energy audits performed by certified auditors or auditors using commonly-employed energy auditing tools and technologies, as determined appropriate by the authority. The authority shall be authorized to dedicate an appropriate portion of program funds allocated for the funding of energy audits pursuant to section eighteen hundred ninety-nine-a of this title to non-residential properties that are occupied or used by a small business or not-for-profit corporation with ten or fewer employees.

2. The authority shall establish standards for energy audits based on building type and other relevant considerations.

3. The authority shall establish a schedule of fees for energy audits based on the type and nature of the energy audit and other relevant considerations. The schedule shall include a sliding scale which provides that audit fees shall be waived for residential applicants whose demonstrated income is less than two times the median county household income, and the full fees shall be paid by applicants whose median county household income is not less than four times the median county household income. Applicants whose demonstrated incomes fall between these levels shall pay a pro rata percentage of the audit fees. The authority may provide for discounted fees for small businesses or

not-for-profit corporations with ten or fewer employees.

§ 1896. Green jobs-green New York revolving loan fund. 1. (a) There is hereby created a green jobs-green New York revolving loan fund. The revolving loan fund shall consist of:

(i) all moneys made available for the purpose of the revolving loan fund pursuant to section eighteen hundred ninety-nine-a of this title;

(ii) payments of principal and interest, including any late payment charges, made pursuant to loan or financing agreements entered into with the authority or its designee pursuant to this section; and

(iii) any interest earned by the investment of moneys in the revolving loan fund.

(b) The revolving loan fund shall consist of two accounts:

(i) one account which shall be maintained for monies to be made available to provide loans to finance the cost of approved qualified energy efficiency services for residential structures and multi-family structures, and

(ii) one account which shall be maintained for monies made available to provide loans to finance the cost of approved qualified energy efficiency services for non-residential structures. The initial balance of the residential account established in subparagraph (i) of this paragraph shall represent at least fifty percent of the total balance of the two accounts. The authority shall not commingle the monies of the revolving loan fund with any other monies of the authority or held by the authority, nor shall the authority commingle the monies between accounts. Payments of principal, interest and fees shall be deposited into the account created and maintained for the appropriate type of eligible project.

(c) In administering such program, the authority is authorized and directed to:

(i) use monies made available for the revolving loan fund to achieve the purposes of this section by section eighteen hundred ninety-nine-a of this title, including but not limited to making loans available for eligible projects;

(ii) enter into contracts with one or more program implementers to perform such functions as the authority deems appropriate;

(iii) establish an on-bill recovery mechanism for repayment of loans for the performance of qualified energy efficiency services for eligible projects provided that such on-bill recovery mechanism shall provide for the utilization of any on-bill recovery programs established pursuant to section sixty-six-m of the public service law and section one thousand twenty-hh of this chapter;

(iv) establish standards for customer participation in such on-bill recovery mechanism, including standards for reliable utility bill payment, current good standing on any mortgage obligations, and such additional standards as the authority deems necessary; provided that in order to provide broad access to on-bill recovery, the authority shall, to the fullest extent practicable, consider alternative measures of creditworthiness that are prudent in order to include participation by customers who are less likely to have access to traditional sources of financing;

(v) to the extent feasible, make available on a pro rata basis, based on the number of electric customers within the utility service territory, to combination electric and gas corporations that offer on-bill recovery pursuant to section sixty-six-m of the public service law and the Long Island power authority, up to five hundred thousand dollars to defray costs directly associated with changing or upgrading billing systems to accommodate on-bill recovery charges;

(vi) within thirty days of closing of a loan to a customer, pay a fee of one hundred dollars per loan to the combination electric and gas corporation in whose service territory such customer is located or to the Long Island power authority if such customer is located in the service territory of that authority to help defray the costs that are directly associated with implementing the program;

(vii) within thirty days of closing of a loan to a customer, pay a servicing fee of one percent of the loan amount to the combination electric and gas corporation in whose service territory such customer is located or to the Long Island power authority if such customer is located in the service territory of that authority to help defray the costs that are directly associated with the program; and

(viii) exercise such other powers as are necessary for the proper administration of the program, including at the discretion of the authority, entering into agreements with applicants and with such state or federal agencies as necessary to directly receive rebates and grants available for eligible projects and apply such funds to repayment of applicant loan obligations.

2. (a) The authority shall provide financial assistance in the form of loans for the performance of qualified energy efficiency services for eligible projects on terms and conditions established by the authority.

(b) Loans made by the authority pursuant to this section shall be subject to the following limitations:

(i) eligible projects shall meet cost effectiveness standards developed by the authority;

(ii) loans shall not exceed thirteen thousand dollars per applicant for approved qualified energy efficiency services for residential structures, and twenty-six thousand dollars per applicant for approved qualified energy efficiency services for non-residential structures, provided, however, that the authority may permit a loan in excess of such amounts if the total cost of energy efficiency measures financed by such loan will achieve a payback period of fifteen years or less, but in no event shall any such loan exceed twenty-five thousand dollars per applicant for residential structures and fifty thousand dollars per applicant for non-residential structures; and for multi-family structures loans shall be in amounts determined by the authority, provided, however, that the authority shall assure that a significant number of residential structures are included in the program;

(iii) no fees or penalties shall be charged or collected for prepayment of any such loan; and

(iv) loans shall be at interest rates determined by the authority to be no higher than necessary to make the provision of the qualified energy efficiency services feasible.

In determining whether to make a loan, and the amount of any loan that is made, the authority is authorized to consider whether the applicant or borrower has received, or is eligible to receive, financial assistance and other incentives from any other source for the qualified energy efficiency services which would be the subject of the loan. In determining whether a loan will achieve a payback period of fifteen years or less pursuant to subparagraph (ii) of this paragraph, the authority may consider the amount of the loan to be reduced by the amount of any rebates for qualified energy efficiency services received by the applicant or by the authority on behalf of an applicant.

(c) Applications for financial assistance pursuant to this section shall be reviewed and evaluated by the authority or its designee pursuant to eligibility and qualification requirements and criteria established by the authority. The authority shall establish standards for (i) qualified energy efficiency services, and (ii) measurement and verification of energy savings. Such standards shall meet or exceed the standards used by the authority for similar programs in existence on the effective date of this section.

(d) The amount of a fee paid for an energy audit provided under section eighteen hundred ninety-five of this title may be added to the amount of a loan that is made under this section to finance the cost of an eligible project conducted in response to such energy audit. In such a case, the amount of the fee may be reimbursed from the fund to the borrower.

(e) In establishing an on-bill recovery mechanism:

(i) the cost-effectiveness of an eligible project shall be evaluated solely on the basis of the costs and projected savings to the applying customer, using standard engineering assessments and prior billing data and usage patterns; provided however that based upon the most recent customer data available, on an annualized basis, the monthly on-bill repayment amount for a package of measures shall not exceed one-twelfth of the savings projected to result from the installation of the measures provided further that nothing herein shall be construed to prohibit or prevent customers whose primary heating energy source is from deliverable fuels from participating in the program;

(ii) the authority shall establish a process for receipt and resolution of customer complaints concerning on-bill recovery charges and for addressing delays and defaults in customer payments; and

(iii) the authority may limit the availability of lighting measures or household appliances that are not permanently affixed to real property.

(f) Prior to or at the closing of each loan made pursuant to this section, the authority shall cause a notice to be provided to each customer receiving such loan stating, in clear and conspicuous terms:

(i) the financial and legal obligations and risks of accepting such loan responsibilities, including the obligation to provide or consent to the customer's utility providing the authority information on the sources and quantities of energy used in the customer's premises and any improvements or modifications to the premises, use of the premises or energy consuming appliances or equipment of any type that may significantly affect energy usage;

(ii) that the on-bill recovery charge will be billed by such customer utility company and that failure to pay such on-bill recovery charge may result in the customer having his or her electricity and/or gas terminated for non-payment, provided that such utility company follows the requirements of article two of the public service law with respect to residential customers;

(iii) that incurring such loan to undertake energy-efficiency projects may not result in lower monthly energy costs over time, based on additional factors that contribute to monthly energy costs;

(iv) that the program is operated by the authority and it is the sole responsibility of the authority to handle consumer inquiries and complaints related to the operation and lending associated with the program, provided further that the authority shall provide a mechanism to receive such consumer inquiries and complaints.

(g) Any person entering into a loan agreement pursuant to this section shall have the right to cancel any such loan agreement until midnight of the fifth business day following the day on which such person signs such agreement provided the loan proceeds have not yet been disbursed.

3. The authority shall evaluate the cost-effectiveness of the on-bill recovery mechanism on an on-going basis. (a) In conducting such evaluation, the authority shall request each customer to provide:

(i) information on energy usage and/or permission to collect information on energy usage from utilities and other retail vendors, including but not limited to information required to be furnished to consumers under article seventeen of the energy law;

(ii) information on other sources of energy used in the customer's premises; and

(iii) information on any improvements or modifications to the premises that may significantly affect energy usage.

(b) At a minimum the authority shall collect and maintain information for dates prior to the performance of qualified energy efficiency services, to establish a baseline, and for dates covering a subsequent time period to measure the effectiveness of such measures. Such data shall be correlated with information from the energy audit and any other relevant information, including information on local weather conditions, and shall be used to evaluate the on-bill recovery program and to improve the accuracy of projections of cost-effectiveness on an on-going basis. An analysis of such data shall be included in the annual report prepared pursuant to section eighteen hundred ninety-nine of this title.

(c) All information collected by the authority shall be confidential and shall be used exclusively for the purposes of this subdivision.

4. Qualified energy efficiency services that have been paid for in whole or in part with the proceeds of a loan under this title shall be considered a special energy project pursuant to section eighteen hundred fifty-one of this article.

5. (a) For each loan issued for qualified energy efficiency services that is to be repaid through an on-bill recovery mechanism, the New York state energy research and development authority shall record, pursuant to article nine of the real property law, in the office of the appropriate recording officer, a declaration with respect to the property improved by such services of the existence of the loan and stating the total amount of the loan, the term of the loan, and that the loan is being repaid through a charge on an electric or gas meter associated with the property. The declaration shall further state that it is being filed pursuant to this section and, unless fully satisfied prior to sale or transfer of the property, the loan repayment utility meter charge shall survive changes in ownership, tenancy, or meter account responsibility and, until fully satisfied, shall constitute the obligation of the person responsible for the meter account. Such declaration shall not constitute a mortgage and shall not create any security interest or lien on the property. Upon satisfaction of the loan, the authority shall file a declaration of repayment pursuant to article nine of the real property law.

(b) The recording officer shall record such declarations in the same book, provided under section three hundred fifteen of the real property law, in which such recording officer records deeds.

§ 1897. Training services. 1. The authority, in consultation with the department of labor, shall enter into contracts with constituency-based organizations, workforce development organizations, labor organizations, and other training-related organizations, for the purpose of supporting the "green jobs-green New York program" with employment and training services. Such contracts shall provide for (a) training of individuals to participate in outreach and marketing activities, perform energy audits and provide qualified energy efficiency services and (b) provision of job placement services to such individuals. To the extent permitted by statute, regulation or federal grant a preference shall be given for training and placement of women, minorities, low-income individuals and populations with barriers to employment.

2. Training services authorized pursuant to this subdivision shall include, as appropriate, but not be limited to:

(a) incremental occupational training to unemployed workers with good work histories;

(b) work-readiness and entry-level technical training to individuals with weak work histories;

(c) apprenticeship qualifying, apprenticeship and labor-management certification training;

(d) training that is designed to lead to certification in energy auditing and energy performance contracting;

(e) skills upgrading for incumbent workers, including workers performing weatherization activities under division of housing and community renewal programs;

(f) work support, where appropriate and to the extent that funding is available, to individuals who obtain employment through the "green jobs-green New York program" created by this title, to assist such individuals to retain employment and continue to upgrade their skills.

3. For quality assurance purposes, organizations providing training services pursuant to this section shall possess certifications and accreditations deemed appropriate by the authority, in consultation with

the department of labor.

4. The authority, in cooperation with the department of labor, shall facilitate coordination between constituency-based organizations, workforce development organizations, labor organizations and auditing and energy performance services contractors to provide job opportunities for individuals participating in training programs and receiving placement services pursuant to this section.

5. The authority, in cooperation with the department of labor, shall:
(a) encourage local workforce investment boards created pursuant to the federal workforce investment act of 1998 (Public Laws 105-220) to make available training and job placement services authorized pursuant to this subdivision within each local workforce investment area:
(b) access training services available through the department of labor; and
(c) apply for available federal funding for appropriate training services pursuant to the provisions of the american recovery and reinvestment act of 2009 (Public Laws 111-5) and any other applicable federal law.

6. The department of labor shall coordinate with the authority in implementing this section.

7. The authority shall prescribe conditions for training that will include identifiable standards for all education and training activities authorized under this section, and will designate a certificate to be issued to any trainee that successfully meets such standards and completes the required education and training.

§ 1898. Advisory council. 1. The authority shall establish a green jobs-green New York advisory council to advise the authority on the creation and implementation of the program. The council shall consist of:
(a) the president of the authority; the secretary of state; the commissioner of housing and community renewal; the commissioner of

labor; the commissioner of temporary and disability assistance; the chair of the department of public service; the president of the power authority of the state of New York; the president of the Long Island power authority; the commissioner of economic development; the commissioner of environmental conservation; or the designees of such persons; and

(b) representatives of constituency-based community groups; consumer advocates on utility and housing issues; community-based workforce development groups; unions, including building trades and property services; home performance contractors; large-scale construction contractors; and investment market experts.

2. The president of the authority shall serve as the chair of the council.

§ 1899. Annual reporting. No later than October first, two thousand ten and October first of each year thereafter, the president of the authority shall issue an annual report to the governor, the temporary president of the senate, the speaker of the assembly, the minority leader of the senate and the minority leader of the assembly concerning the authority's activities related to the green jobs - green New York program created pursuant to this title. Such report shall include, but not be limited to the following information:

1. The status of the authority's activities and outcomes related to section eighteen hundred ninety-five of this title. Such report shall include, but not be limited to: (a) the number and type of energy audits performed pursuant to section eighteen hundred ninety-five of this title; (b) any other contracts entered into relating to the program; and (c) any recommendations for program improvements;

2. The status of the authority's activities and outcomes related to section eighteen hundred ninety-four of this title. Such report shall include, but not be limited to: (a) contracts entered into pursuant to section eighteen hundred ninety-four of this title; (b) the geographical area or areas served by each entity; (c) the amount of the grants

disbursed to each entity; (d) any other contracts entered into relating to the program; and (e) any recommendations for program improvements;

3. The status of the authority's activities and outcomes related to section eighteen hundred ninety-six of this title. Such report shall include, but not be limited to:

(a) the number of persons who have applied for and received financial assistance through the revolving loan fund;

(b) the revolving loan fund account balances;

(c) the number of loans in default;

(d) the amount and nature of the costs incurred by the authority for the activities described in paragraph (c) of subdivision one of section eighteen hundred ninety-six of this title;

(e) the authority's activities and outcomes related to establishing an on-bill recovery mechanism, including the number of persons who have applied for and who have received financial assistance that utilizes on-bill recovery and the results of the evaluation program performed pursuant to subdivision three of section eighteen hundred ninety-six of this title;

(f) the amount expended by the authority in support of the program and the purposes for which such funds have been expended;

(g) the number of customers participating in the program, separately stating the number of residential and non-residential customers and the amounts financed;

(h) the number of program participants who are in arrears in their utility accounts for electric and/or gas service;

(i) the number of program participants who are in arrears in their on-bill recovery charge payments;

(j) the number of program participants whose utility service has been terminated for non-payment;

(k) a description of the geographic distribution of loans made;

(l) an estimate of the energy savings resulting from this program;

(m) an estimate of the average project cost; and

(n) in consultation with the department of labor, an estimate of the number of jobs created under the program.

4. The status of the authority's activities and outcomes related to

solicitation of applications to demonstrate the feasibility of innovative financing mechanisms as described in subdivision one of section eighteen hundred ninety-four of this title;

5. The status of the authority's activities and outcomes related to section eighteen hundred ninety-seven of this title. Such report shall include, but not be limited to: (a) the number of individuals receiving training services; (b) the type of training services provided to such individuals; (c) the identity of organizations providing training services; (d) the amount of funds awarded to each such organization; and (e) the number of individuals placed in full-time employment; and

6. The overall effectiveness, progress and outcomes by the authority related to the green-jobs green New York program. Such report shall include but not be limited to: (a) key findings by the authority; (b) to the extent possible a calculation of the energy savings achieved; and (c) any recommendations for program improvements and expansion of the program.

§ 1899-a. Funds, administration and evaluation and coordination. 1. The authority is authorized to accept, as agent of the state, any gift, grant, devise or bequest, whether conditional or unconditional, including but not limited to federal grants, and to use monies made available for the program from any public or private source, for the purpose of implementing the components of the program as set forth in section eighteen hundred ninety-three through section eighteen hundred ninety-nine of this title, inclusive.

2. The authority shall be entitled to recover from the monies made available for the program its own necessary and documented costs incurred in administering the program and evaluating the effectiveness of the program; provided, however, the sum that may be recovered for the authority's administrative costs shall not exceed seven percent of the monies made available for the program, and the sum that may be recovered for the authority's evaluation costs shall not exceed five percent of the monies made available for the program.

* Title 9-B

CLEAN ENERGY RESOURCES DEVELOPMENT AND INCENTIVES PROGRAM

* NB Repealed December 31, 2030

*** § 1900. Statement of legislative intent.** It is the intent of the legislature in enacting this title to empower the New York state energy research and development authority to establish effective programs and other mechanisms to: (1) foster and encourage the orderly and expedient siting and development of renewable energy facilities and qualified energy storage systems, particularly at sites which are difficult to develop, consistent with applicable law for the purpose of enabling the state to meet CLCPA targets as defined in subdivision one of section one hundred thirty-seven of article eight of the public service law; (2) incentivize the re-use of previously developed sites for renewable energy facilities and qualified energy storage systems to protect the value of taxable land, capitalize on existing infrastructure; (3) support the provision of benefits to communities that host renewable energy facilities and qualified energy storage systems; and (4) protect environmental justice areas from adverse environmental impacts.

* NB Repealed December 31, 2030

*** § 1901. Definitions.** As used in this title, the following terms shall have the following meanings:

1. "Authority" shall have the same meaning as in subdivision two of section eighteen hundred fifty-one of this article.

2. "Commission" shall mean the public service commission.

3. "Departments" shall mean the department of environmental conservation, the department of agriculture and markets, the department of economic development and the department of public service.

4. "Environmental justice area" shall mean a minority or low-income community that may bear a disproportionate share of the negative environmental consequences resulting from industrial, municipal, and commercial operations or the execution of federal, state, local, and tribal programs and policies.

5. "Host community" shall mean any municipality within which a major renewable energy facility or qualified energy storage system, or any portion thereof, has been proposed for development.

6. "Renewable energy facility" shall have the same meaning as renewable energy systems defined in section sixty-six-p of the public service law.

7. "Municipality" shall mean a county, city, town or village or political subdivision.

8. "Build-ready site" shall mean a site for which the authority has secured permits, property interests, agreements and/or other authorizations necessary to offer such site for further development, construction and operation of a renewable energy facility, with or without a paired qualified energy storage system, or a stand-alone qualified energy storage system, in accordance with the other provisions of this title.

9. "Qualified energy storage system" shall have the same meaning as qualified energy storage system defined in section seventy-four of the public service law.

* NB Repealed December 31, 2030

*** § 1902. Powers and duties.** The authority is hereby authorized and directed to undertake such actions it deems necessary or convenient to foster and encourage the siting and development of build-ready sites throughout the state in accordance with this title, work in collaboration with the department of public service and the New York state urban development corporation and any of their affiliates, including without limitation:

1. (a) Locate, identify and assess sites within the state that appear suitable for the development of build-ready sites with a priority given to dormant electric generating sites, and preference to previously developed sites, provided that land used in agricultural production as defined by the department of agriculture and markets, with additional consideration for land within an agricultural district or land that contains mineral soil groups 1-4, shall not be deemed suitable for the development of a build-ready site except when necessary for generator lead lines and other equipment needed for interconnection of projects to the electric system. Such assessment may include but need not be limited to the following considerations:

(i) natural conditions at the site that are favorable to renewable energy generation;

(ii) current land uses at or near the site;

(iii) environmental conditions at or near the site;

(iv) the availability and characteristics of any transmission or distribution facilities on or near the site that could be used to facilitate the delivery of energy from the site, including existing or potential constraints on such facilities;

(v) the potential for the development of energy storage facilities at or near the site;

(vi) potential impacts of development on environmental justice communities; and

(vii) expressions of commercial interest in the site or general location by developers of major renewable energy facilities.

(b) (i) In making such assessment the authority shall give priority to previously developed sites, existing or abandoned commercial sites, including without limitation brownfields, landfills, former commercial or industrial sites, dormant electric generating sites, or otherwise underutilized sites; and

(ii) the authority may establish a renewable energy generation project in furtherance of an agrivolatic project, where "agrivoltaic project" shall mean the simultaneous use of areas of land for both solar power generation and agriculture, specific to the practice of such dual-use solar energy project, where any of the previously developed sites listed in subparagraph (i) of this paragraph is reclaimed as farmland.

2. Notwithstanding any provision of law to the contrary that would require the authority to locate sites through a competitive procurement, negotiate and enter into agreements with persons who own or control interests in favorable sites for the purpose of securing the rights and interests necessary to enable the authority to establish build-ready sites;

3. Establish procedures and protocols for the purpose of establishment and transfer of build-ready sites which shall include, at a minimum: (a) written notice at the earliest practicable time to a municipality in which a potential build-ready site has been identified, provided however, that the authority shall not deem any site for qualified energy storage systems suitable without first consulting any municipalities with jurisdiction over the potential build-ready site and obtaining their approval; and (b) a preliminary screening process to determine, in consultation with the department of environmental conservation, whether the potential build-ready site is located in or near an environmental justice area and whether an environmental justice area would be adversely affected by development of a build-ready site;

4. Undertake all work and secure such permits as the authority deems necessary or convenient to facilitate the process of establishing build-ready sites and for the transfer of the build-ready sites to developers selected pursuant to a publicly noticed, competitive bidding process authorized by law;

* 5. Notwithstanding title five-A of article nine of this chapter or section two thousand eight hundred twenty-seven-a of this chapter, establish a build-ready program, including eligibility and other criteria, pursuant to which the authority would, through a competitive

and transparent bidding process, and using single purpose project holding companies established by or on behalf of the authority and having no separate and independent operational control, acquire, sell and transfer rights and other interests in build-ready sites and development rights to developers for the purpose of facilitating the development of renewable energy facilities on such build-ready sites, which single purpose project holding companies shall be subject to the laws of this chapter until conveyed to third parties. Such transactions may include the transfer of rights, interests and obligations existing under agreements providing for host community benefits negotiated by the authority pursuant to programs established pursuant to subdivision six of this section on such terms and conditions as the authority deems appropriate;

* NB Effective until April 19, 2030

* 5. Notwithstanding title five-A of article nine of this chapter, establish a build-ready program, including eligibility and other criteria, pursuant to which the authority would, through a competitive and transparent bidding process, transfer rights and other interests in build-ready sites and development rights to developers for the purpose of facilitating the development of renewable energy facilities on such build-ready sites. Such transactions may include the transfer of rights, interests and obligations existing under agreements providing for host community benefits negotiated by the authority pursuant to programs established pursuant to subdivision six of this section on such terms and conditions as the authority deems appropriate;

* NB Effective April 19, 2030

6. Establish one or more programs pursuant to which property owners and communities would receive incentives to host major renewable energy facilities or qualified energy storage systems developed for the purpose of advancing the state policies embodied in this article. Such program may include without limitation, and notwithstanding any other provision of law to the contrary, provisions for the authority to negotiate and enter into agreements with property owners and host communities providing for incentives, including a payment in lieu of taxes, the transfer of the authority's interests in such agreements to developers to whom build-ready sites are transferred, and the provision of

information and guidance to stakeholders concerning incentives. The authority shall maintain a record of such programs and incentives, and shall publish such record on the authority's website;

7. Procure the services of one or more service providers, including without limitation environmental consultants, engineers and attorneys, to support the authority's responsibilities under this section and perform such other functions as the authority deems appropriate;

8. In consultation with the department of economic development, the department of labor and other state agencies and authorities having experience with job training programs, assess the need for and availability of workforce training in the local area of build-ready sites to support green jobs development with special attention to environmental justice communities and, subject to available funding, establish one or more programs pursuant to which financial support can be made available for the local workforce and under-employed populations in the area;

9. Manage, allocate and spend any monies made available to the authority in furtherance of this title as the authority determines to be appropriate for the proper administration of programs created pursuant to this title. The authority shall, in identifying build-ready sites, consider the ability to recoup funds allocated or spent in furtherance of the programs created pursuant to this title. Any proceeds, less program expenses and administration, so earned by the authority pursuant to this title shall be reinvested in accordance with a plan approved by the commission;

10. Where the authority determines that it would be beneficial to the policy embodied in this title, offer financing or other incentives to eligible developers through a competitive process, including without limitation measures and activities undertaken by the authority in conjunction with its administration of the state's clean energy standard or similar program as established in commission orders, including without limitation orders issued in commission case number 15-E-0302; and

11. Request and receive the assistance of, the departments or any other state agency or authority, within their respective relevant subject matter expertise, to support the administration of the program created pursuant to this title.

* NB Repealed December 31, 2030

*** § 1903. Eligibility.** The authority may establish and revise any eligibility and evaluation criteria it deems appropriate for the proper administration of the programs created pursuant to this title.

* NB Repealed December 31, 2030

*** § 1904. Funding.** 1. The authority may seek funding from any authorized or other available source to administer this program.

2. Without limiting the foregoing, the authority shall submit a petition or other appropriate filing to the commission describing the activities it has taken and plans to undertake in furtherance of the policy embodied in this title. Such filing may include a request for funding to allow such activities to proceed promptly and for a period of at least five years from the date of the order responding to such petition. The commission shall, in accordance with and as promptly as authorized by existing law and regulation but in no event more than four months following the submission of the petition, issue an order responding to such petition subject to any necessary and reasonable limitations based on the public service law.

* NB Repealed December 31, 2030

*** § 1905. Reporting.** 1. Effective April first, two thousand twenty-one, the authority shall issue an annual report specifying:

(a) any proceeds, less program expenses and administration, so earned by the authority pursuant to this title;

(b) the sites auctioned for development pursuant to subdivision 5 of section nineteen hundred two of this title;

(c) the identity of developers to whom rights have been transferred pursuant to section nineteen hundred two of this title; and,

(d) the resulting renewable energy production.

2. The authority shall submit such report to the governor, the temporary president of the senate, and the speaker of the assembly. A copy of the report shall also be posted on the authority's website.

* NB Repealed December 31, 2030

* TITLE 9-C

RENEWABLE ENERGY OUTREACH AND COMMUNITY PLANNING ASSISTANCE PROGRAM

* NB Repealed December 31, 2031

*** § 1910. Statement of legislative findings and intent.** 1. Findings. The legislature hereby finds, determines, and declares:

(a) New York will need to accelerate the deployment of renewable energy projects, both large-scale and distributed energy systems, in order to achieve the mandates of the New York state climate leadership and community protection act enacted as chapter one hundred six of the laws of two thousand nineteen (the "CLCPA").

(b) In addition to the authority's procurement programs and improved state permitting processes, renewable energy projects require collaboration between host communities and renewable energy developers in order to be successfully and appropriately sited and constructed.

(c) Local land use decisions are important to meeting the goals of the CLCPA, but communities often do not have capacity or sufficient tools and information to effectively plan for renewable energy siting.

(d) Community concerns regarding the potential impacts of large-scale and distributed energy systems are different, but both can provide energy cost savings for residents and businesses in the community, local infrastructure improvement, local tax revenue and economic benefits, local job creation, and cleaner air.

(e) There has been a lack of information about the local benefits and impacts of renewable energy technology development and the best ways for communities to maximize benefits while avoiding and mitigating impacts.

(f) A multi-pronged approach is necessary to provide communities, including disadvantaged communities as designated under the CLCPA, with the information and tools necessary to support the appropriate siting and acceptance of renewable energy sources, including wind, solar, storage and transmission and distribution upgrades.

2. Intent. It is the intent of the legislature in enacting this title to empower the authority to establish effective programs and mechanisms to:

(a) Educate the public and build consensus on the benefits of a shift to renewable energy technologies, which will provide jobs, lower energy costs and reduce price volatility, and reduce the need for fossil fuel based power, bringing clean air and public health benefits and reduced greenhouse gas emissions that lead to climate change and its impacts;

(b) Provide information and assistance to communities and local representatives to promote the appropriate and successful siting of renewable energy projects, including wind, solar, storage and transmission and distribution system upgrades;

(c) Equip local governments with the tools they need to effectively consider natural and working lands, the potential for co-location and dual-use solutions, effective utilization of previously disturbed or developed sites, and protecting disadvantaged communities when planning for renewable energy projects in their communities; and

(d) Help communities develop and adopt local planning, zoning and other policies that support the sustainable and equitable development of local renewable energy technology through processes that ensure and enhance public outreach, education and engagement, particularly in frontline communities that have historically been disenfranchised and discriminated against in the local land use decision-making process.

* NB Repealed December 31, 2031

*** § 1911. Definitions.** As used in this title, the following terms shall have the following meanings:

1. "Authority" shall have the same meaning as in subdivision two of section eighteen hundred fifty-one of this article.

2. "Departments" shall mean the department of environmental conservation, the department of agriculture and markets, the department of economic development, and the department of public service.

3. "Disadvantaged communities" shall have the same meaning as defined in subdivision five of section 75-0101 of the environmental conservation law.

4. "Renewable energy" shall have the same meaning as defined in section sixty-six-p of the public service law.

5. "Renewable energy technology" shall mean all methods used to generate, distribute, store, and support the use of renewable energy systems.

* NB Repealed December 31, 2031

*** § 1912. Powers and duties.** The authority is hereby authorized and directed to undertake such actions it deems necessary or convenient to establish, augment, or expand existing renewable energy outreach and community planning programs to provide information, resources and technical assistance to support the siting, development, and acceptance of renewable energy technologies, including:

1. Developing and enhancing a community education and engagement program to inform New Yorkers about the climate crisis and the benefits of shifting to a clean energy economy and conducting outreach, providing information and education, and building consensus on the environmental and local benefits of renewable energy technologies. Such strategic education and outreach shall include:

(a) Effective communication, engagement and public outreach to communities, including disadvantaged communities, to provide education and information on maximizing the benefits that renewable energy technologies can provide while demonstrating strategies and solutions that are available to ensure that community benefits are meaningful and negative impacts are avoided, reduced, or mitigated;

(b) Comprehensive education and outreach to local governments that may host renewable energy technologies to provide objective information about the impacts of renewable energy development and mitigation opportunities; and

(c) Facilitation of forums for communities, regions, renewable energy developers, and other stakeholders to exchange information and ensure that all have access to the factual information necessary to support the appropriate siting of facilities and acceptance of renewable energy technologies.

2. Collaborating with community stakeholders, the agriculture and forestry sectors, and the renewable energy industry to develop, facilitate, and provide centralized access to renewable energy planning resources and assistance for local governments. Such resources shall include publicly available data resources, including a mapping tool, related to renewable energy development to help municipal representatives and local communities make informed land use decisions and communicate local priorities to developers.

(a) The renewable energy development data resources, including a mapping tool, shall be available on the authority's website and shall provide sufficient information and guidance to allow communities to undertake a comprehensive evaluation of the potential for renewable energy development and to plan proactively for deployment that maximizes local benefit and avoids, reduces, or mitigates negative impact on lands with agricultural soils, farming, forests, and other competing uses.

(b) The renewable energy development data resources may use publicly available information and shall be designed to facilitate participation by local governments, renewable energy developers and other stakeholders in existing renewable energy siting and planning processes.

(c) The renewable energy development data resources shall provide, to the extent available information on agricultural, environmental, energy system and other resources relevant to renewable energy technology siting, such as: land use cover data; disadvantaged communities; brownfields; previously disturbed and developed sites such as large rooftops, parking lots, landfills, etc.; agricultural soils and agricultural districts; forests; wetlands, floodplains, and waterbodies; historic, cultural, and archaeological resources; public parks, preserves and recreational resources; conserved and protected lands; hosting capacity; distribution, and transmission lines; and topography as relevant to siting renewable energy technology.

3. Providing technical assistance and training to local governments and other stakeholders on the use of such information and resources, including the renewable energy development data resources.

4. Consulting, collaborating with, and/or procuring the services of service providers, including, but not limited to: regional planning associations, non-profits, and community-based organizations, to conduct outreach and education about renewable energy benefits, develop new renewable energy planning tools and resources, including renewable energy development data resources, and to provide technical assistance and training to municipalities to support the authority's responsibilities under this section.

5. Managing, allocating, and spending any monies made available to the authority in furtherance of this title as the authority determines to be appropriate for the proper administration of the program created pursuant to this title.

6. Requesting and receiving the assistance of the departments or any other state agency or authority, within their respective relevant subject matter expertise, to support the administration of the program created pursuant to this title.

* NB Repealed December 31, 2031

*** § 1913. Reporting.** 1. Effective April first, two thousand twenty-five, the authority shall issue an annual report regarding the renewable energy technology outreach and community planning assistance program, and provide recommendations for improvements to the program. Such report shall include:

(a) the number and identity of local governments directly reached through the education, engagement and outreach efforts;

(b) the number of forums held for communities, developers, and other stakeholders and description of the findings;

(c) the number, description and status of renewable energy technology planning tools and resources developed, including the mapping tool;

(d) the number of service providers and contracts awarded;

(e) the amount of funds invested in the renewable energy outreach and community planning assistance program; and

(f) any additional information relevant to assessing program effectiveness.

2. The authority shall submit such report to the governor, the temporary president of the senate, and the speaker of the assembly. A copy of the report shall also be posted on the authority's website.

* NB Repealed December 31, 2031

*** § 1914. Reporting.** 1. Effective April first, two thousand twenty-four, the authority shall issue an annual report regarding the effectiveness of the program and providing recommendations for improvements to the program. Such report shall include:

(a) the number and identity of communities and local governments reached through the comprehensive education, engagement and outreach effort;

(b) the number of regional discussion forums held for communities and developers, and identification of attendees and description of outcomes;

(c) the number, description and status of renewable energy planning tools and resources developed, including the clean energy development mapping tool;

(d) the number and identity of local governments receiving technical assistance and training on the clean energy mapping tool and other resources;

(e) the number of service providers and contracts awarded;

(f) the amount of funds invested in the clean energy outreach and community planning program; and

(g) any additional information relevant to assessing program effectiveness.

2. The authority shall submit such report to the governor, the temporary president of the senate, and the speaker of the assembly. A copy of the report shall also be posted on the authority's website.

* NB Repealed December 31, 2031

TITLE 10-B

UPPER MOHAWK VALLEY MEMORIAL AUDITORIUM AUTHORITY

§ 1940. Short title. This title shall be known and may be cited as the "Upper Mohawk Valley memorial auditorium authority act."

§ 1941. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. "Auditorium" means the auditorium commonly known as the Utica memorial auditorium located in the city of Utica, as well as surrounding lands, including all structures appurtenant thereto, located in the vicinity of Oriskany street west and Charles street, as the same may be reconstructed, enlarged or modified from time to time.

2. "Authority" means the corporation created by section one thousand nine hundred forty-two of this title.

3. "Bonds" means the bonds, notes or other evidences of indebtedness issued by the authority pursuant to this title, and the provisions of this title relating to bonds and bondholders shall apply with equal force and effect to notes and noteholders, respectively, unless the context otherwise clearly requires.

4. "City" means the city of Utica, Oneida county.

5. "Civil service commission" means the civil service commission of the county of Oneida.

6. "Comptroller" means the comptroller of the state.

7. "Construction" or "Constructed" means the acquisition, erection, building, alteration, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of the auditorium; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedure and other actions preliminary or incidental thereto and claims arising therefrom.

8. "Cost" as applied to the auditorium, includes the cost of construction, the cost of the acquisition of all property, including real property and other property, both real, personal and mixed, improved and unimproved, the cost of the demolishing, removing or relocating any buildings or structures on lands so acquired, including the cost of acquiring any lands to which such buildings or structures may be moved or relocated, the cost of all machinery, apparatus and equipment, financing charges, interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultant and legal services, the cost of guarantee, bond insurance or other credit support devices and the cost of other expenses necessary or incidental to the construction of the auditorium and the acquisition of property therefor and the financing of the construction and acquisition of property, including the amount authorized in the resolution of the authority providing for the issuance of bonds to be paid into any reserve or other special funds from the proceeds of such bonds and the financing of the placing of the auditorium in operation, including reimbursement to any municipality, state agency, the state, the United States government, or any other person for expenditures that would be costs of the auditorium hereunder had they been made directly by the authority.

9. "Council" means the common council of the city.

10. "County" means the county of Oneida, New York.

11. "County executive" means the county executive of the county.

12. "County legislature" means the county legislature of the county.

13. "Governing body" means the members of the authority, constituting and acting as the governing body of the authority.

14. "Municipality" means the county and any city, town, village or school district located within or partly within the service area.

15. "Person" means any natural person, firm, partnership, association, joint venture or corporation, exclusive of a public corporation as defined pursuant to article two-A of the general construction law.

16. "Real property" means lands, structures, franchise, rights and interests in land, air space, waters, lands under water, riparian rights, and air rights and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interests including, but not limited to, easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgments, mortgages or otherwise.

17. "Revenues" means all fees, charges and other income and receipts derived from the operation of the auditorium including, without limiting the generality of the foregoing, investment proceeds and proceeds of insurance, condemnation, and sale or other disposition of assets, together with all federal, state or municipal aid, if any.

18. "Service area" means the area comprising the entirety of the city and of the towns of Deerfield, Kirkland, Marcy, New Hartford, Trenton and Whitestown, including all villages located entirely or partly therein.

19. "State" means the state of New York.

20. "State agency" means any state office, public benefit corporation, department, board, commission, bureau or division, or other agency or instrumentality of the state.

§ 1942. Upper Mohawk Valley memorial auditorium authority. 1. A public corporation, to be known as the "Upper Mohawk Valley memorial auditorium authority" is hereby created for the public purposes and charged with the duties and having the powers provided in this title. The authority shall be a body corporate and politic constituting a public benefit corporation. The governing body of the authority shall consist of a total of seven members until January thirty-first, two thousand nineteen, three of whom shall be appointed by the county executive, without confirmation of the county legislature, and four of whom shall be appointed by the county legislature, without county executive right to veto. The first members appointed by the county executive shall be appointed for the following terms of office: one for a term ending on December thirty-first of the first year following the year in which this title shall have become law, one for a term ending on December thirty-first of the third year following the year in which this title shall have become law and one for a term ending on December thirty-first of the fifth year following the year in which this title shall have become law. The first members appointed by the county legislature shall be appointed for the following terms of office: one for a term ending on December thirty-first of the first year following the year in which this title shall have become law, one for a term ending on December thirty-first of the third year following the year in which this title shall have become law, and two for a term ending on December thirty-first of the fifth year following the year in which this title shall have become law. Commencing February first, two thousand nineteen, the governing body of the authority shall consist of a total of nine members, five of whom shall be appointed by the county executive, without confirmation of the county legislature, and four of whom shall be appointed by the county legislature, without county executive right to veto. The seven members appointed to the board prior to February first, two thousand nineteen, shall continue their existing five year terms pursuant to this section. The fourth member appointed by the county executive shall be for a term ending on December thirty-first, two thousand twenty-one. The fifth member appointed by the county executive shall be for a term ending on December thirty-first, two thousand twenty-two. Subsequent appointments of members shall be made for a term of five years ending in each case on December thirty-first of the last year of such term. All members shall continue to hold office until their successors are appointed and qualify. Vacancies shall be filled in the manner provided for original appointment. Vacancies, occurring otherwise than by expiration of term of office, shall be filled by appointment for the unexpired terms. Members may be removed from office by the party which appointed such member for inefficiency, neglect of duty or misconduct in office; provided, however, that such member shall be given a copy of the charges against him or her and an opportunity of being heard in person, or by counsel, in his or her defense upon not less than ten days notice. The members of the authority shall receive no compensation for their services, but shall be reimbursed for their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title; provided, however, that no member shall be reimbursed for any expense exceeding one thousand dollars incurred with respect to any individual purpose unless the governing body at a meeting duly called and held when a quorum of five members are present shall have authorized the incurrence of such expense by such member. The powers of the authority shall be vested in and be exercised by the governing body at a meeting duly called and held where a quorum of five members are present. No action shall be taken except pursuant to the favorable vote of at least five voting members. All votes must be made in person at a meeting and no vote may be made by proxy. The governing body may delegate to one or more of its members, officers, agents or employees such powers and duties as it may deem proper.

2. The officers of the authority shall consist of a chair, a vice-chair, a treasurer and a secretary, which secretary need not be a member of the authority. Such officers shall be appointed by the governing body and shall serve in such capacities at the pleasure of the governing body. In addition to the secretary, the governing body may appoint and at pleasure remove such additional officers and employees as it may determine necessary for the performance of the powers and duties of the authority and fix and determine their qualifications, duties and compensation, subject to the provisions of the civil service law. The governing body may also from time to time contract for expert professional services. The members, officers, executive director, if any, comptroller, if any, and counsel, if any, shall be an exempt position under any rule or classification of the civil service commission. The treasurer shall execute a bond, conditioned upon the faithful performance of the duties of his or her office, the amount and

sufficiency of which shall be approved by the governing body and the premium therefor shall be paid by the authority.

3. Notwithstanding any inconsistent provision of any general, special or local law, ordinance, resolution or charter, no officer, member or employee of the state, any municipality or any public corporation shall forfeit his or her office or employment by reason of his or her acceptance of appointment as a member, officer or employee of the authority, nor shall service as such member, officer or employee be deemed incompatible or in conflict with such office, membership or employment.

4. (a) The county executive shall file on or before December thirty-first of the year in which this title shall have become a law, in the office of the secretary of state, a certificate signed by the county executive setting forth: (l) the name of the authority; (2) the names of the members appointed by the county executive and the county legislature and their terms of office; and (3) the effective date of this title. If such certificate is not filed with the secretary of state on or before such date, then the corporate existence of the authority shall thereupon terminate and it shall thereupon be deemed to be and shall be dissolved.

(b) Except as provided in paragraph (a) of this subdivision, the authority and its corporate existence shall continue until terminated by law, provided, however, that no such law shall take effect so long as the authority shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof. Upon termination of the existence of the authority, all of the rights and properties of the authority then remaining shall pass to and vest in the county in such a manner as prescribed by law.

5. It is hereby determined and declared, that the authority and the carrying out of its powers and duties are in all respects for the benefit of the people within the service area and the state for the improvement of their health, welfare and prosperity and that such purposes are public purposes and that the authority is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

6. Nothing in this title shall be construed to obligate the state in any way in connection with the operations or obligations of the authority.

§ 1943. Powers of the authority. Except as otherwise limited by this title, the authority shall have the power:

1. To sue and be sued.

2. To have a seal and alter the same at pleasure.

3. To borrow money and issue bonds, notes or other obligations for its corporate purposes and to provide for the rights of the holders thereof.

4. To enter into contracts and to execute all instruments necessary or convenient or desirable for the purposes of the authority to carry out any powers expressly given to it in this title.

5. To acquire by purchase, gift, grant, transfer, contract or lease or by condemnation pursuant to the eminent domain procedure law, lease as lessee, hold, and use any property, real, personal or mixed or any interest therein constituting or for use in connection with the auditorium, as the authority may deem necessary, convenient or desirable to carry out the purpose of this title and, subject to any limitations in any agreement entered into pursuant to this title, to sell, lease as lessor, transfer or otherwise dispose of any such property or interest therein. In connection with the acquisition of any such property, the authority may assume any obligations of the owner of such property and, to the extent required by the terms of any indentures or other instruments under which such obligations were issued, the authority may assume and agree to perform covenants and observe the restrictions contained in such instruments; and furthermore the owner of any property which the authority is authorized to acquire is hereby authorized to sell or otherwise transfer the same to the authority, whereupon the authority shall become charged with the performance of all public duties

with respect to such property with which such owner was charged and such owner shall become discharged from the performance thereof.

6. To develop, construct, operate, maintain and manage or contract for the operation, maintenance or management of, or for services to be performed in connection with, the auditorium; to allow the use of the auditorium for the conduct of professional and amateur athletic events, entertainment, cultural and artistic events and, or, civic events and activities related thereto; and to rent parts thereof and to grant concessions, all on such terms and conditions as the authority may determine.

7. To apply to the appropriate agencies and officials of the federal, state and local governments for such licenses, permits or approvals of its plans as it may deem necessary or advisable, and upon such terms and conditions as it may deem appropriate, and to accept, in its discretion, such licenses, permits or approvals as may be tendered to it by such agencies and officials.

8. To appoint such officers and employees as are required for the performance of its duties, to fix and determine their qualifications, duties and compensation, and to retain or employ counsel, auditors, engineers and private consultants on a contract basis or otherwise for rendering professional or technical services and advice.

9. To make plans and studies necessary, convenient or desirable for the effectuation of the purposes and powers of the authority and to prepare recommendations in regard thereto.

10. To enter upon such lands or premises as in the judgment of the authority shall be necessary for the purpose of making surveys, sounding, boring and examinations to accomplish any purpose authorized by this title, the authority being liable only for actual damage done.

11. To apply for and to accept any gifts or grants or loans of funds or property or financial or other aid in any form from the federal government or any agency or instrumentality thereof, or from the state

or any agency or instrumentality thereof or from any other source, for any or all of the purposes specified in this title, and to comply, subject to the provisions of this title, with the terms and conditions thereof.

12. To make and amend by-laws for its organization and management and regulation of its affairs and rules and regulations governing the exercise of its powers and the fulfillment of its purposes under this title. A copy of such rules, regulations and by-laws, and all amendments thereto, duly certified by the secretary of the authority shall be filed in the office of the county clerk.

13. To enter into cooperative agreements with other authorities, with municipalities, individuals, or corporations, within or without the service area, for any lawful purposes necessary or desirable to effect the purposes of this title upon such terms and conditions as the authority shall be determined to be reasonable.

14. With the consent of the chief executive officer of municipalities within the service area, to use officers and employees of such municipalities and to pay a proper portion of compensation or costs for the services of such officers or employees.

15. To establish, fix, revise, charge, collect and enforce fees and charges for the use of the auditorium so as to provide revenues which, together with other earnings of the auditorium, if any, are at least sufficient at all times to pay, as the same shall become due, the expense of operating and maintaining the auditorium together with proper reserves for maintenance, contingencies and all other obligations and indebtedness of the authority.

16. To pledge its revenues and mortgage any or all of its properties to secure the obligations of the authority.

17. To establish and maintain such reserves, special funds and accounts, to be held in trust or otherwise, as may be required by any agreement with bondholders and, or, any municipality.

18. For the purposes of article fifteen-A of the executive law only, the authority shall be deemed a state agency as that term is used in such article, and its contracts for procurement, design, construction, services, and materials shall be deemed state contracts within the meaning of that term as set forth in such article.

19. To do all things necessary, convenient or desirable to carry out its purposes and for the exercise of the powers granted in this title.

§ 1944. Appropriations for purposes of the authority; transfer of property to the authority; acquisition of property by municipality for authority; contracts with municipality. 1. In addition to any powers granted to it by law, any municipality may, from time to time, appropriate by resolution sums of money for purposes of the authority to defray auditorium costs or any other costs and expenses of the authority or to pay amounts payable or anticipated to be payable to the authority pursuant to any agreement authorized by this title. Subject to the rights of bondholders, such municipality may determine if the moneys so appropriated shall be subject to repayment by the authority and, in such event, the manner and time or times for such repayment.

2. Any municipality may give, grant, sell, convey, loan or license the use of or lease to the authority any property, real, personal or mixed, which is useful to the authority in order to carry out its powers under this title. Any such transfer of property shall be for such term and upon such terms and conditions, subject to the rights of bondholders, as the authority and such municipality may agree, including provision for the authority to assume the primary responsibility for the payment of any bonds or notes issued by such municipality for such property.

3. Notwithstanding the provisions of any other law, general, special or local to the contrary, real property acquired by the authority or any municipality from the state may be used for any corporate purpose of the authority.

4. One or more municipality and/or the authority shall have the power to contract, from time to time, between or among themselves, in relation to the auditorium which contracts may include any or all of the following provisions: (i) requiring the use by any municipality of the auditorium; (ii) limiting the right, including a prohibition, of any municipality to construct a facility which will serve the same, or substantially the same, function as the auditorium; (iii) requiring the authority to reserve time in the auditorium to assure the availability to any municipality of a specified use of the auditorium; (iv) providing for specified minimum periodic payments by a municipality to the authority, whether or not the auditorium is actually used by the municipality, subject to such limitations, exceptions and provisions therein, and (v) requiring any municipality to pay to the authority such amounts as shall be necessary to assure the continued operation of the authority. All such payments shall be determined and paid in such manner and at such times as may be provided in such contracts.

5. Any gift, grant, sale, conveyance, loan, contract or lease authorized by this section may be made or entered into by any municipality and/or the authority without a public hearing being first held therein and no such gift, grant, sale, conveyance, loan, contract or lease shall be subject to referendum, permissive or otherwise.

6. Notwithstanding the provisions of any law, general, special or local, or charter provision to the contrary, the city, by the affirmative vote of not less than a majority of the entire voting strength of the board of estimate of said city, may sell or transfer, by deed, lease or other arrangement, to the authority the auditorium. Any such agreement of sale or transfer shall be upon such terms and conditions as the governing body of said city and the authority may agree.

§ 1945. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue bonds, notes or other obligations to pay the costs of the auditorium or for any other corporate purpose, including the establishment of reserves to secure the bonds, the payment of principal of, premium, if any, and interest on the bonds and the payment of incidental expenses in connection therewith. The aggregate principal amount of such bonds, notes or other obligations shall not exceed fifty million dollars ($50,000,000), excluding bonds, notes or other obligations issued to refund or otherwise repay bonds, notes or other obligations theretofore issued for such purposes; provided, however, that upon any such refunding or repayment the total aggregate principal amount of outstanding bonds, notes or other obligations may be greater than fifty million dollars ($50,000,000) only if the present value of the aggregate debt service of the refunding or repayment bonds, notes or other obligations to be issued shall not exceed the present value of the aggregate debt service of the bonds, notes or other obligations so to be refunded or repaid. For purposes hereof, the present values of the aggregate debt service of the refunding or repayment bonds, notes or other obligations and of the aggregate debt service of the bonds, notes or other obligations so refunded or repaid, shall be calculated by utilizing the effective interest rate of the refunding or repayment bonds, notes or other obligations, which shall be that rate arrived at by doubling the semi-annual interest rate (compounded semi-annually) necessary to discount the debt service payments on the refunding or repayment bonds, notes or other obligations from the payment dates thereof to the date of issue of the refunding or repayment bonds, notes or other obligations and to the price bid including estimated accrued interest or proceeds received by the authority including estimated accrued interest from the sale thereof. The authority shall have power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee of any bonds.

2. The authority shall have power from time to time to renew bonds or to issue renewal bonds for such purpose, to issue bonds to pay bonds, and, whenever it deems refunding expedient, to refund any bond by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose of the authority. Bonds (other than notes or other evidence of indebtedness) issued for refunding

purposes, which have a final maturity date longer than the maturity of the bonds being refunded, shall be approved by a resolution of the county legislature adopted by a majority vote and approved by the county executive. Bonds issued for refunding purposes shall be sold and the proceeds applied to the purchase, redemption or payment of the bonds or notes to be refunded.

3. Bonds issued by the authority may be general obligations secured by the faith and credit of the authority or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the authority under which the bonds shall be authorized to be issued, subject as to priority only to any agreements with the holders of outstanding bonds pledging any particular property, revenues or moneys. The authority may also enter into loan agreements, lines of credit and other security agreements and obtain for or on its behalf letters of credit, insurance, guarantees or other credit enhancements to the extent now or hereafter available, in each case for securing its bonds or to provide direct payment of any costs which the authority is authorized to pay.

4. Bonds shall be authorized by resolution of the authority, be in such denominations and bear such date or dates and mature at such time or times, as such resolution may provide, provided that bonds and renewals thereof shall mature within forty years from the date of original issuance of any such bonds.

Bonds shall be subject to such terms of redemption, bear interest at such rate or rates, be payable at such times, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution may provide. Notwithstanding any other provision of law, the bonds of the authority issued pursuant to this section shall be sold to the bidder offering the lowest true interest cost, taking into consideration any premium or discount not less than four nor more than fifteen days, Sundays excepted, after a notice of such sale has been published at least once in a newspaper of general circulation in the area served by the authority, which shall state the terms of the sale. The terms of the sale may not change unless notice of such change is published in such newspaper at least one day prior to the date of the sale as set forth in the original notice of sale. Advertisements shall contain a provision to the effect that the authority, in its discretion, may reject any or all bids made in pursuance of such advertisements, and in the event of such rejection, the authority is authorized to negotiate a private or public sale or readvertise for bids in the form and manner above described as many times as, in its judgment, may be necessary to effect satisfactory sale.

Notwithstanding the provisions of the preceding paragraph, whenever in the judgment of the authority the interests of the authority will be served thereby, the members of the authority, on the written recommendation of the chairperson, may authorize the sale of such bonds at private or public sale on a negotiated basis or on either a competitive or negotiated basis. The authority shall set guidelines governing the terms and conditions of any such private or public sales. The private or public bond sale guidelines set by the authority shall include, but not be limited to, a requirement that where the interests of the authority will be served by a private or public sale of bonds, the authority shall select underwriters for each private or public bond sale conducted pursuant to a request for proposal process and consideration of proposals from qualified underwriters taking into account, among other things, qualifications of underwriters as to experience, their ability to structure and sell authority bond issues, anticipated costs to the authority, the prior experience of the authority with the firm, if any, the capitalization of such firms, participation of qualified minority and women-owned business enterprise firms in such private or public sales of bonds of the authority and the experience and ability of firms under consideration to work with minority and women-owned business enterprises so as to promote and assist participation by such enterprises.

The authority shall have the power from time to time to amend such private bond sale guidelines in accordance with the provisions of this subdivision.

No private or public bond sale on a negotiated basis shall be conducted by the authority without prior approval of the state comptroller and the county comptroller. The authority shall annually prepare and approve a bond sale report which shall include the private or public bond sale guidelines as specified in this subdivision, amendments to such guidelines since the last private or public bond sale report, an explanation of the bond sale guidelines and amendments, and the results of any sale of bonds conducted during the fiscal year. Such bond sale report may be a part of any other annual report that the authority is required to make.

The authority shall annually submit its bond sale report to the state comptroller and the county comptroller and copies thereof to the senate finance committee and the assembly ways and means committee.

The authority shall make available to the public copies of its bond sale report upon reasonable request thereof.

Nothing contained in this subdivision shall be deemed to alter, affect the validity of, modify the terms of or impair any contract or agreement made or entered into in violation of, or without compliance with, the provisions of this subdivision.

5. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to: (a) pledging all or part of the revenues, other monies or property of the authority to secure the payment of the bonds, or any costs of issuance thereof, including but not limited to any contracts, earnings or proceeds of any grant to the authority received from any private or public source subject to such agreements with bond holders as may then exist;

(b) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(c) limitations on the purpose to which the proceeds from the sale of bonds may be applied;

(d) the rates, rents, fees and other charges to be fixed and collected

by the authority and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) limitations on the right of the authority to restrict and regulate the use of the auditorium or part thereof in connection with which bonds are issued;

(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) the procedure, if any, by which the terms of any contract with bond holders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) the creation of special funds into which any revenues or monies may be deposited;

(i) the terms and provisions of any trust, mortgage, deed or indenture securing the bonds under which the bond may be issued;

(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustees appointed by the bond holders to appoint a trustee pursuant to this title or limiting the rights, duties and powers of such trustee;

(k) defining the acts or omissions to act which may constitute a default in the obligations and duties of the authority to the bond holders and providing for the rights and remedies of the bond holders in the event of such default, including as a matter of right appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) limitations on the power of the authority to sell or otherwise dispose of the auditorium or any part thereof;

(m) limitations on the amount of revenues and other monies to be expended for operating, administrative or other expenses of the authority;

(n) the payment of the proceeds of bonds, revenues and other monies to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine; and

(o) any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

6. In addition to the powers herein conferred upon the authority to secure its bonds, the authority shall have power in connection with the issuance of bonds to adopt resolutions and enter into such trust indentures, agreements or other instruments as the authority may deem necessary, convenient or desirable concerning the use or disposition of its revenues or other monies or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, monies or property and the doing of any act, including refraining from doing any act which the authority would have the right to do in the absence of such resolutions, trust indentures, agreements or other instruments. The authority shall have power to enter into amendments of any such resolutions, trust indentures, agreements or other instruments. The provisions of any such resolutions, trust indentures, agreements or other instruments may be made a part of the contract with the holders of bonds of the authority.

7. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, monies, accounts, contract rights, general intangibles or other personal property made or created by the authority shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

8. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to

the provisions of the bonds for registration.

9. Neither the members of the authority nor any person executing its bonds shall be liable personally on its bonds or be subject to any personal liability or accountability by reason of the issuance thereof.

10. Subject to such agreements with bondholders as may then exist, the authority shall have power out of any funds available therefor to purchase bonds of the authority, which shall thereupon be cancelled, at a price not exceeding (a) if the bonds are then redeemable, the redemption price then applicable plus accrued interest to the next interest payment date, or (b) if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date. Bonds so purchased shall thereupon be cancelled.

§ 1946. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to this title:

1. In the event that the authority shall default in the payment of principal or of interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of Oneida county and provided or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may and, upon written request of the holders of twenty-five percent in principal amount of such bonds outstanding, shall in his, her or its own name:

(a) by action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the authority to collect fees and charges adequate to carry out any agreement as to, or pledge of, such fees and charges and to require the authority to carry out any other agreements with any municipality and/or the holders of such bonds to perform its duties under this title;

(b) bring an action or proceeding upon such bonds;

(c) by action or proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) by action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five percent of the principal amount of such bonds then outstanding, annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in Oneida county.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days notice in writing to the authority.

6. Any such trustee, whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the properties the revenues of which are pledged for the security of the bonds of such issue, and, subject to any pledge or agreement with holders of such bonds, such receiver may enter and take possession of such part or parts of the properties and shall take possession of all moneys and other property derived from such part or parts of such

properties and proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith which the authority is under obligation to do, and to operate, maintain and reconstruct such part or parts of the properties and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee, the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenue derived from the properties.

§ 1947. State or municipality not liable on authority bonds. Neither the state nor any municipality shall be liable on the bonds of the authority and such bonds shall not be a debt of either the state, or any municipality, and each such bond shall contain, on the face thereof, a statement to such effect.

§ 1948. Moneys of the authority. All moneys of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in a bank or trust company in the state designated by the governing body. The moneys in such accounts shall be paid out on check of the treasurer upon requisition by the governing body or of such other person or persons as the governing body may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States or of the state of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. To the extent practicable, consistent with the cash requirements of the authority, all such moneys shall be deposited in interest bearing accounts. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds as to the custody, collection, security, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and to carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bond and deposits of such moneys may be secured in the same manner as moneys of the authority and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the authority not required for immediate use or disbursement may, at the discretion of the authority, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. Subject to the provisions of any contract with bondholders and with the approval of the comptroller, the authority shall prescribe a system of accounts.

§ 1949. Bonds legal investments for fiduciaries. The bonds of the authority are hereby made securities in which all public officials and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are not or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them. Notwithstanding any inconsistent provision of law, the bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purposes for which the deposit of bonds or other obligations of this state is now or hereafter may be authorized.

§ 1949-a. Agreement with state. The state does hereby pledge to and agree with the holders of any bonds issued by the authority pursuant to this title and with those persons or public corporations who may enter into contracts with the authority pursuant to the provisions of this title that the state will not alter, limit or impair the rights hereby vested in the authority to purchase, construct, own and operate, maintain, repair, improve, reconstruct, renovate, rehabilitate, enlarge, increase and extend, or dispose of the auditorium, or any part or parts thereof for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any contracts or agreements made with or for the benefit of the holders of bonds or with any person or public corporation with reference to such project or part thereof, or in any way to impair the rights and remedies of the holders of bonds, until the bonds, together with interest thereon, including interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the holders of bonds, are fully met and discharged and such contracts are fully performed on the part of the authority. The authority is authorized to include this pledge and agreement of the state in any agreement with the holders of bonds.

§ 1949-b. Tax exemption and tax contract by the state. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the state of New York and is a public purpose. Accordingly, the authority shall be regarded as performing an essential governmental function in the exercise of the powers conferred upon it by this title, and the authority shall not be required to pay any fees, taxes, special ad valorem levies or assessments of any kind, whether state or local, including but not limited to fees, taxes, special ad valorem levies or assessments on real property, franchise taxes, sales taxes or other taxes, upon or with respect to any property owned by it or under its jurisdiction, control or supervision, or upon the uses thereof, or upon or with respect to its activities or operations in furtherance of the powers conferred upon it by the title, or upon or with respect to any fares, tolls, rentals, rates, charges, fees, revenues or other income received by the authority. Notwithstanding the previous sentence, the authority shall be required to pay water and pure water fees or charges as may be negotiated by any public corporation. The construction, use, occupation or possession of any property owned by the authority or the county, including improvements thereon, by any person or public corporation under a lease, lease and sublease or any other agreement shall not operate to abrogate or limit the foregoing exemption, notwithstanding that the lessee, user, occupant or person in possession shall claim ownership for federal income tax purposes.

2. Any bonds issued pursuant to this title together with the income therefrom shall at all times be exempt from taxation.

3. The state hereby convenants with the purchasers and with all subsequent holders and transferees of bonds issued by the authority pursuant to this title, in consideration of the acceptance of and payment for the bonds, that the bonds of the authority issued pursuant to this title and the income therefrom and all revenues, monies, and other property pledged to pay or to secure the payment of such bonds shall at all times be free from taxation.

§ 1949-c. Actions against the authority. 1. Except for wrongful death actions, no action or special proceeding shall be prosecuted or maintained against the authority for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence or wrongful act of the authority or of any member, officer, agent or employee thereof, unless (a) a notice of claim shall have been made and served upon the authority within the time limit prescribed by and in compliance with section fifty-e of the general municipal law, (b) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

2. Wherever a notice of claim is served upon the authority, the authority shall have the right to demand an examination of the claim

relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority may require any person presenting for settlement an account or claim for any cause whatever against the authority, to be sworn before a member, counsel, officer or employee of the authority designated for such purpose concerning such account or claim and, when so sworn, to answer orally as to any facts relative to such account or claim. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. Any action or proceeding to which the authority or the people of the state may be parties, in which any question arises as to the validity of this title, shall be preferred over all other civil causes of action or cases, except election causes of action or cases, in all courts of the state and shall be heard and determined in preference to all other civil business pending therein except election causes, irrespective of position on the calendar. The same preference shall be granted upon application of the authority or its counsel in any action or proceeding questioning the validity of this title in which the authority may be allowed to intervene. The venue of any such action or proceeding shall be laid in the supreme court of the county.

5. The rate of interest to be paid by the authority upon any judgment for which it is liable, other than a judgment on bonds or the authority, shall be the rate prescribed by section three-a of the general municipal law. Interest on payments of principal or interest on any bonds in default shall accrue at the rate or rates set forth in such bonds from the due date thereof until paid or otherwise satisfied.

§ 1949-d. Contracts. All contracts for construction shall be let by the authority in conformity with the applicable provisions of section one hundred thirty-five of the state finance law and shall be let in accordance with the provisions of state law pertaining to prevailing wages, labor standards and working hours.

The authority may, in its discretion, assign contracts for supervision and coordination to the successful bidder for any subdivision of work for which the authority receives bids. The authority shall not award any construction contract except to the lowest bidder who, in its opinion, is qualified to perform the work required and who is responsible and reliable. The authority may, however, reject any or all bids or waive any informality in a bid if it believes that the public interest will be promoted thereby. The authority may reject any bid if, in its judgment, the business and technical organization, plant, resources, financial standing, or experience of the bidder justifies such rejection in view of the work to be performed.

§ 1949-e. Code of ethics. 1. Definition. As used in this section the term "authority employee" shall mean any member, officer or employee of the authority.

2. Rule with respect to conflicts of interest. No authority employee should have any interest, financial or otherwise, direct or indirect, or engage in any business or transaction or professional activity or incur any obligation of any nature, which is in substantial conflict with the proper discharge of his or her duties in the public interest.

3. Standards. a. No authority employee should accept other employment which will impair his or her independence of judgment in the exercise of his or her official duties.

b. No authority employee should accept employment or engage in any business or professional activity which will require the employee to disclose confidential information which he or she has gained by reason of his or her official position or authority.

c. No authority employee should disclose confidential information acquired by the employee in the course of his or her official duties nor use such information to further his or her personal interests.

d. No authority employee should use or attempt to use his or her official position to secure unwarranted privileges or exemptions for himself or herself or others.

e. No authority employee should engage in any transaction as representative or agent of the authority with any business entity in which he or she has a direct or indirect financial interest that might reasonably tend to conflict with the proper discharge of his or her official duties.

f. An authority employee should not by his or her conduct give reasonable basis for the impression that any person can improperly influence such employee or unduly enjoy his or her favor in the performance of his or her official duties, or that he or she is affected by the kinship, rank, position or influence of any party or person.

g. An authority employee should abstain from making personal investments in enterprises which he or she has reason to believe may be directly involved in decisions to be made by the employee or which will otherwise create substantial conflict between his or her duty in the public interest and his or her private interest.

h. An authority employee should endeavor to pursue a course of conduct which will not raise suspicion among the public that he or she is likely to be engaged in acts that are in violation of his or her trust.

i. No authority employee employed on a full-time basis nor any firm or association of which such an employee is a member nor corporation a substantial portion of the stock of which is owned or controlled directly or indirectly by such employee, should sell goods or services to any person, firm, corporation or association which is licensed or whose rates are fixed by the authority in which such employee serves or is employed.

j. If any authority employee shall have a financial interest, direct or indirect, having a value of ten thousand dollars or more in any activity which is subject to the jurisdiction of a regulatory agency, he or she should file with the secretary of state a written statement that he or she has such a financial interest in such activity which statement shall be open to public inspection.

4. Violations. In addition to any penalty contained in any other provision of law any such authority employee who shall knowingly and intentionally violate any of the provisions of this section may be fined, suspended or removed from office or employment.

§ 1949-f. Equal employment opportunity. The authority shall ensure that all employees or applicants for employment are afforded equal employment opportunity without discrimination.

§ 1949-g. Transfer of officers and employees. 1. In accordance with the provisions of section seventy of the civil service law, any officer or employee of the city, may, at the request of the authority and with the consent of the mayor of the city, be transferred to the authority and shall be eligible for such transfer and appointment, without further examination, to applicable offices, positions and employment under the authority. Any such officers or employees so transferred to the authority pursuant to this section, who are members of or benefit under any existing pension or retirement fund or system, shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law, but during the period of their employment by the authority, all contributions to such funds or systems to be paid by the employer on account of such officers or employees shall be paid by the authority.

2. A transferred employee shall remain in the same collective bargaining unit as was the case prior to his or her transfer; successor employees to the positions held by such transferred employees shall, consistent with the provisions of article fourteen of the civil service law, be included in the same unit as their predecessors. Employees serving in positions in newly created titles shall be assigned to the same collective bargaining unit as they would have been assigned to such

unit were such titles created prior to the establishment of the authority. Nothing contained in this title shall be construed (a) to diminish the rights of employees pursuant to a collective bargaining agreement or (b) to affect existing law with respect to an application to the public employment relations board seeking a designation by the board that certain persons are managerial or confidential.

§ 1949-h. Audit and annual report. In conformity with the provisions of section five of article ten of the constitution, the accounts of the authority shall be subject to the supervision of the comptroller and an annual audit shall be performed by an independent certified accountant. The authority shall annually submit to the governor and comptroller and to the chairs of the senate finance and assembly ways and means committees a detailed report pursuant to the provisions of section two thousand eight hundred of this chapter, and a copy of such report shall be filed with the clerk of the county and city.

§ 1949-i. Limited liability. Neither the members of the governing body of the authority, nor any officer or employee acting in their behalf shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the properties of the authority or from carrying out any of the powers expressly given in this title; provided, however, that this section shall not be held to apply to any independent contractor.

§ 1949-j. Separability. If any clause, sentence, paragraph, section, or part of this title shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section, or part thereof involved in the controversy in which such judgment shall have been rendered.

§ 1949-k. Effect of inconsistent provisions. In so far as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of any charter, local law, ordinance or resolution of any municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the authority otherwise set forth in this title. Except as specifically provided for in this title, in the performance of any of its functions, powers and duties, the authority shall be subject to all applicable general or special laws of the state, the county charter, and any local law, ordinance or resolution of the county.

TITLE 11
TROY INDUSTRIAL DEVELOPMENT AUTHORITY

§ 1950. Short title. This title may be cited as the "Troy Industrial Development Authority Act."

§ 1951. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. The term "authority" shall mean the Troy Industrial Development Authority, the corporation created by section nineteen hundred fifty-two of this title;

2. The term "board" shall mean the members of the authority;

3. The term "city" shall mean the city of Troy;

4. The term "bonds" shall mean the bonds, notes, interim certificates and other obligations or evidences of indebtedness issued by the authority pursuant to this title;

5. The term "project" shall mean any land in one or more areas of the city and any building, structure, facility or other improvement thereon, including, but not limited to machinery and equipment and all real and personal property deemed necessary in connection therewith, whether or not now in existence or under construction, which shall be necessary or

suitable for manufacturing, warehousing, research, commercial or industrial purposes and which may include or mean an industrial pollution control facility.

6. The term "project occupant" shall mean the industrial manufacturing or commercial enterprise which proposes to use a project, as defined in subdivision five of this section, undertaken by the authority.

7. The term "revenues" shall mean any revenues, rents, fees or other charges derived by or on behalf of the authority from any project.

8. The term "state" shall mean the state of New York.

9. The term "industrial pollution control facility" shall mean any equipment, improvement, structure or facility or any land and any building, structure, facility or other improvement thereon, or any combination thereof, and all real and personal property deemed necessary therewith, which are not of a character or nature then or formerly furnished or supplied by the city, having to do with or the end purpose of which is the control, abatement or prevention of land, sewer, water, air, noise or general environmental pollution deriving from the operation of industrial, manufacturing, warehousing, commercial and research facilities, including, but not limited to any air pollution control facility, noise abatement facility, water management facility, waste water collecting system, waste water treatment works, sewage treatment works system, sewage treatment system or solid waste disposal facility or site.

11. "Financial assistance" shall mean the proceeds of bonds issued by the authority, straight-leases, or exemptions from taxation claimed by a project occupant as a result of the authority taking title, possession or control (by lease, license or otherwise) to the property or equipment of such project occupant or of such project occupant acting as an agent of the authority.

12. "Straight-lease transaction" shall mean a transaction in which the authority takes title, possession or control (by lease, license or

otherwise) to the property or equipment of a project occupant, entitling such property or equipment to be exempt from taxation according to the provisions of section nineteen hundred sixty-three of this title, and no financial assistance in the form of the proceeds of bonds issued by the authority is provided to the project occupant.

13. "Affected tax jurisdiction" shall mean any municipality or school district, in which a project is located, which will fail to receive real property tax payments, or other tax payments which would otherwise be due, except for the tax exempt status of the authority involved in a project.

14. "Payments in lieu of taxes" shall mean any payment made to an agency, or affected tax jurisdiction, equal to the amount, or a portion, of real property taxes, or other taxes, which would have been levied by or on behalf of an affected tax jurisdiction if the project was not tax exempt by reason of authority involvement.

15. "Highly distressed area" means (a) a census tract or tracts or block numbering areas or areas or such census tract or block numbering area contiguous thereto which, according to the most recent census data available, has:

(i) a poverty rate of at least twenty percent for the year to which the data relates or at least twenty percent of households receiving public assistance; and

(ii) an unemployment rate of at least 1.25 times the statewide unemployment rate for the year to which the data relates; or

(b) a city, town, village or county within a city with a population of one million or more for which: (i) the ratio of the full value property wealth, as determined by the comptroller for the year nineteen hundred ninety, per resident to the statewide average full value property wealth per resident; and (ii) the ratio of the income per resident; as shown in the nineteen hundred ninety census to the statewide average income per resident; are each fifty-five percent or less of the statewide average; or

(c) an area which was designated an empire zone pursuant to article eighteen-B of the general municipal law.

§ 1952. Troy industrial development authority. A board to be known as the "Troy industrial development authority" is hereby created. Such board shall be a body corporate and politic, constituting a public benefit corporation and its existence shall commence upon the appointment of the members as herein provided. Its members shall consist of a chair and eight other members, all of whom shall be appointed by the mayor of the city for a term of three years, and shall include two members of the common council of the city, one representative of the city school board, and one representative from each of the fields of business, industry and labor. Every appointment to the board shall be subject to confirmation by the common council of the city. The chair and each member shall continue to serve until the appointment and confirmation of his or her successor. Vacancies in such board occurring otherwise than by expiration of term shall be filled by the mayor by appointment for the unexpired term subject to confirmation by the common council of the city. The mayor may remove the chair or any member of the board for inefficiency, neglect of duty or misconduct in office, after giving him or her a copy of the charges against him or her and an opportunity of being heard in person, or by counsel, in his or her defense upon not less than ten days' notice. Such removal must be approved by the city council of the city. The members of the board shall be entitled to no compensation for their services but shall be entitled to reimbursement for their actual and necessary expenses incurred in the performance of their official duties. Notwithstanding any inconsistent provisions of law, general, special or local, no officer or employee of the city shall be deemed to have forfeited or shall forfeit his or her office or employment by reason of his or her acceptance of membership on the board created by this section, provided, however, that a member who holds such other public office or employment shall receive no additional compensation or allowance for services rendered pursuant to this title, but shall be entitled to reimbursement for his or her actual and necessary expenses incurred in the performance of such services. The power of the authority shall be vested in and exercised by a majority of the members of the board. Such a board may delegate to one or more of its members, or to its officers, agents and employees, such powers and duties as it may deem proper. Such board and its corporate existence shall continue in accordance with section nineteen hundred sixty-seven of this title. Upon its ceasing to exist, all rights and properties shall pass to and be vested in the city.

§ 1952-a. Video recordings of open meetings and public hearings. The authority shall, to the extent practicable, stream all open meetings and public hearings on its website in real-time. The authority shall post video recordings of all open meetings and public hearings on its website within five business days of the meeting or hearing and shall maintain such recordings for a period of not less than five years.

§ 1953. Purpose and powers of the authority. The purposes of the authority shall be to promote, develop, encourage and assist in the acquiring, constructing, reconstructing, improving, maintaining, equipping and furnishing industrial, manufacturing, warehouse, commercial and research facilities including industrial pollution control facilities, transportation facilities including but not limited to those relating to water, highway, rail and air, in one or more areas of the city, particularly but not exclusively at the site of what was formerly the Troy airport including an airstrip or airport located in the southern section of the city and thereby advance the job opportunities, health, general prosperity and economic welfare of the people of said city and to improve their standard of living; provided, however, that the authority shall not undertake any project if the completion thereof would result in the removal of an industrial or manufacturing plant of the project occupant from one area of the state to another area of the state or in the abandonment of one or more plants or facilities of the project applicant located within the state, provided, however, that neither restriction shall apply if the authority shall determine on the basis of the application before it that the project is reasonably necessary to discourage the project occupant from removing such other plant or facility to a location outside the state or is reasonably necessary to preserve the competitive position of the project occupant in its respective industry. Except as otherwise provided for in this section, no financial assistance of the authority shall be provided in respect of any project where facilities or property that are primarily used in making retail sales to customers who personally visit such facilities constitute more than one-third of the total project cost. For the purposes of this article, "retail sales" shall mean: (i) sales by a registered vendor under article twenty-eight of the tax law primarily engaged in the retail sale of tangible personal property, as defined in subparagraph (i) of paragraph four of subdivision (b) of section eleven hundred one of the tax law; or (ii) sales of a service to such customers. Except, however, that tourism destination projects shall not be prohibited by this paragraph. For the purpose of this paragraph, "tourism destination" shall mean a location or facility which is likely to attract a significant number of visitors from outside the economic development region as established by section two hundred thirty of the economic development law in which the project is located.

Notwithstanding the provisions of this section to the contrary, such financial assistance may, however, be provided to a project where facilities or property that are primarily used in making retail sales of goods or services to customers who personally visit such facilities to obtain such goods or services constitute more than one-third of the total project cost, where: (i) the predominant purpose of the project would be to make available goods or services which would not, but for the project, be reasonably accessible to the residents of the city of Troy because of a lack of reasonably accessible retail trade facilities offering such goods or services; or (ii) the project is located in a highly distressed area. With respect to projects authorized pursuant to this paragraph no project shall be approved unless the authority shall find after the public hearing required by section twenty-three hundred seven of this chapter that undertaking the project will serve the public purposes of this article by preserving permanent, private sector jobs or increasing the overall number of permanent, private sector jobs in the state. Where the authority makes such a finding, prior to providing financial assistance to the project by the authority, the chief executive officer of the city of Troy shall confirm the proposed action of the authority. To carry out said purposes, the authority shall have power:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To acquire, hold and dispose of personal property for its corporate purpose;

4. To acquire by purchase, grant, lease, gift, condemnation, or otherwise and to use, real property or rights or easements therein necessary for its corporate purposes, and to sell, convey, mortgage, lease, pledge, exchange or otherwise dispose of any such property in such manner as the authority shall determine. With respect to real property conveyed to it by the city, however, such power of disposition shall be limited as hereinafter provided in section nineteen hundred fifty-five of this title;

5. To make by-laws for the management and regulation of its affairs and, subject to agreements with its bondholders, for the regulation of the use of the project;

6. With the consent of the city, to use agents, employees and facilities of the city, paying the city its agreed proportion of the compensation or costs;

7. To appoint officers, agents and employees, to prescribe their qualifications and to fix their compensation and to pay the same out of funds of the authority, subject, however, to the provisions of the civil service law as hereinafter provided in section nineteen hundred fifty-four of this title;

8. To appoint an attorney, who may be the corporation counsel of the city, and to fix the attorney's compensation for services which shall be payable to the attorney, and to retain and employ private consultants for professional and technical assistance and advice; provided that an attorney acting as bond counsel for a project must file with the

authority a written statement in which the attorney identifies each party to the transaction which such attorney represents. If bond counsel provides any legal services to parties other than the authority, the written statement must describe the nature of legal services provided by such bond counsel to all parties to the transaction, including the nature of the services provided to the authority;

9. To make contracts and leases upon such terms as the authority shall deem appropriate, including without limitation leases which grant the tenant of a project an option to renew or an option to purchase the project, or both, at a fixed or otherwise predetermined price and to execute all instruments necessary or convenient;

10. To acquire, construct, reconstruct, lease, improve, maintain, equip or furnish one or more projects;

11. To accept gifts, grants, loans or contributions from, and enter into contracts or other transactions with, the United States and the state or any agency of either of them, any municipality, any public or private corporation or any other legal entity, and to use any such gifts, grants, loans or contributions for any of its corporate purposes;

12. To borrow money and to issue bonds and to provide for the rights of the holders thereof;

13. To designate the depositories of its money either within or without the state of New York;

14. To enter into agreements requiring payments in lieu of taxes. Such agreements shall be in writing and in addition to other terms shall contain: the amount due annually to each affected tax jurisdiction (or a formula by which the amount due can be calculated), the name and address of the person, office or agency to which payment shall be delivered, the date on which payment shall be made, and the date on which payment shall be considered delinquent if not paid. Unless otherwise agreed by the affected tax jurisdictions, any such agreement shall provide that payments in lieu of taxes shall be allocated among affected tax

jurisdictions in proportion to the amount of real property tax and other taxes which would have been received by each affected tax jurisdiction had the project not been tax exempt due to the status of the authority involved in the project. A copy of any such agreement shall be delivered to each affected tax jurisdiction within fifteen days of signing the agreement. In the absence of any such written agreement, payments in lieu of taxes made by an agency shall be allocated in the same proportions as they had been prior to January first, nineteen hundred ninety-three for so long as the authority's activities render a project non-taxable by affected tax jurisdictions. A notification of the expiration of such agreement shall be delivered to the affected tax jurisdiction two years prior to the expiration of such agreement and immediately upon early termination of an agreement;

15. To establish and reestablish its fiscal year; and

16. To do all things necessary or convenient to carry out its purposes and exercise the powers expressly given in this title.

§ 1953-a. Additional prerequisites to the provision of financial assistance. Prior to providing any financial assistance of more than one hundred thousand dollars to any project, the authority must comply with the following prerequisites:

1. The authority must adopt a resolution describing the project and the financial assistance that the authority is contemplating with respect to such project. Such assistance shall be consistent with the uniform tax exemption policy adopted by the agency pursuant to subdivision one of section nineteen hundred sixty-three-a of this chapter, unless the agency has followed procedures for deviation from such policy specified in subdivision two of such section.

1-a. The authority shall deliver a copy of the resolution adopted pursuant to subdivision one of this section by certified mail, return receipt requested or an electronic correspondence with a read receipt, to the chief executive officer of each affected tax jurisdiction. When the affected tax jurisdiction is a school district, the authority shall deliver a copy of such resolution by certified mail, return receipt requested or an electronic correspondence with a read-receipt, to the district clerk and district superintendent of each affected school district.

2. The authority must hold a public hearing with respect to the project and the proposed financial assistance being contemplated by the authority. At said public hearing, interested parties shall be provided reasonable opportunity, both orally and in writing, to present their views with respect to the project.

3. The authority must give at least ten days published notice of said public hearing and shall, at the same time, provide notice of such hearing to the chief executive officer of the affected tax jurisdiction within which the project is located. The notice of hearing must state the time and place of the hearing, contain a general, functional description of the project, describe the prospective location of the project, identify the initial owner, operator or manager of the project and generally describe the financial assistance contemplated by the authority with respect to the project.

4. The authority shall establish a procedure for compliance with the notification requirements, including identification of the notification method, under subdivision one-a of this section and subdivision two of section nineteen hundred sixty-three-a of this title.

§ 1954. Civil service status of officers and employees. Officers and employees of any board, commission or department of the city may be transferred to the authority in accordance with the provisions of the civil service law and shall be eligible for such transfer and appointment without examination to offices and positions under the authority. Officers and employees of the city who are members or beneficiaries of any existing pension or retirement system shall continue to have the rights, privileges, obligations and status with respect to such system or systems as are now prescribed by law, and all such employees who have been appointed to positions in the service of the city under the rules of the municipal civil service commission of the city shall have the same status with respect thereto after transfer to the authority as they had under their original appointments. The appointment and promotion of all employees of the authority shall be made in accordance with the provisions of the civil service law and the rules of the city civil service commission.

§ 1954-a. Conflicts of interest. All members, officers and employees of the authority shall be subject to the provisions of article eighteen of the general municipal law.

§ 1955. Conveyance of property by the city to the authority and conveyance and leasing of said property by the authority. 1. The city may, by duly adopted resolution of the city council or by instruments authorized by such resolution, convey, with or without consideration, to the authority real and personal property owned by the city for use by the authority as a project. In case of real property so conveyed, the title thereto shall remain in the city but the authority shall have the use thereof for so long as its corporate existence shall continue and said real property shall be under its jurisdiction, control and supervision within the ambit of section nineteen hundred sixty-three of this title and exempt from all taxes and assessments except such payments in lieu thereof as may be contained in such resolution or instrument of conveyance.

2. To the end that the city or any school district wherein a project or projects or a part thereof of the authority are located may not suffer undue loss of taxes and local improvement assessments the authority in connection with property owned or held by it within the city and such district, is hereby authorized to pay annually in lieu of taxes and local improvement assessments to the city or such school district such sum as may be mutually agreed between the authority and the city or such school district as the case may be. The city and any such school district wherein a project or part thereof of the authority

is located is hereby authorized and empowered to enter into an agreement or agreements with the authority to accept the payment or payments which the authority is hereby authorized and empowered to make. The sum so received by the city or any such school district shall be devoted to purposes to which taxes may be applied.

3. The city is authorized to install streets and utilities in the area of the project and to contract with the authority with respect to payments in lieu of local improvement assessments therefor and the authority is authorized so to contract and to make appropriate payments in accordance therewith.

4. The authority is authorized, in the event it leases any of the real property conveyed to it by the city, to provide that a portion of the rental derived therefrom shall be allocated to the aforesaid payments in lieu of taxes and assessments and to pay over said portion to the city or school district, as the case may be. The consent of the city or school district as to the method and amount of such allocation shall be appended to any such lease.

§ 1955-a. Compensation procurement and investment. 1. The compensation of an officer or full-time employee of the authority (but not including part-time employees or consultants, including accountants, attorneys and bond counsel to the authority) shall not be contingent on the granting of financial assistance by the authority.

2. The provisions of section one hundred four-b of the general municipal law shall be applicable to the procurement of goods and services paid for by the authority for its own use and account.

3. The provisions of sections ten and eleven of the general municipal law shall be applicable to deposits and investments of funds for an agency's own use and account.

§ 1956. Construction and purchase contracts. The provisions of law relating to the requirement of public bidding with respect to the construction of public facilities or projects shall not be applicable to the acquisition, construction, reconstruction, improvement, maintenance, equipping and furnishing of projects authorized by this title.

§ 1957. Moneys of the authority. All moneys of the authority, from whatever source derived, shall be paid to the authority's appointed chief financial officer of the city as agent of the authority, who shall not commingle such moneys with any other moneys. Such moneys shall be deposited in a separate bank account or accounts. The moneys in such accounts shall be paid out by the authority's appointed chief financial officer on requisition of the chair of the authority or of such person as the authority may authorize to make such requisitions. All deposits of such moneys shall, if required by the authority, be secured by obligations of a market value equal at all times to the amount of the deposit, and all banks and trust companies are authorized to give such security for such deposits. The comptroller of the city and his or her legally authorized representatives are authorized and empowered from time to time to examine the accounts and books of the authority, including its receipts, disbursements, contracts, leases, sinking funds, investments and any other records and papers relating to its financial standing. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any of its bonds as to the custody, collection, securing, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and to carry out any such contract notwithstanding that such contract may be inconsistent with the previous provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys may be secured in the same manner as moneys of the authority, and all banks and trust companies are authorized to give such security for such deposits. The accounts of the authority shall be subject to the supervision of the state comptroller and he or she or his or her legally authorized representatives are hereby authorized and empowered from time to time to examine the accounts and books of the authority, including its receipts, disbursements, contracts, sinking funds, investments and any other matter relating to its financial standing and fiscal affairs. The authority shall render a complete annual account of its proceedings to the city council at its first meeting in April of each and every year.

§ 1958. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue its negotiable bonds in conformity with applicable provisions of the uniform commercial code for any of its corporate purposes without limitation as to amount. The authority shall have power from time to time and whenever it deems refunding expedient, to refund any bonds by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other purpose hereinabove described. The refunding bonds may be exchanged for the bonds to be refunded, with such cash adjustments as may be agreed, or may be sold and the proceeds applied to the purchase or payment of the bonds to be refunded. In computing the total amount of bonds of the authority which may at any time be outstanding the amount of the outstanding bonds to be refunded from the proceeds of the sale of new bonds or by exchange of new bonds shall be excluded. Except as may otherwise be expressly provided by the authority, the bonds of every issue shall be general obligations of the authority payable out of any moneys or revenues of the authority, subject only to any agreements with the holders of particular bonds pledging any particular moneys or revenues.

2. The bonds shall be authorized by resolution of the authority and shall bear such date or dates, mature at such time or times, bear interest at such rates, payable at such time or times, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America at such place or places and be subject to such terms of redemption, as such resolution or resolutions may provide. The bonds may be sold at public or private sale for such price or prices as the authority shall determine.

3. Any resolution or resolutions authorizing any bonds or any issue of bonds may contain provisions, which shall be a part of the contract with the holders of the bonds thereby authorized, as to

(a) pledging all or any part of the revenues of a project or projects to secure the payment of the bonds, subject to such agreements with bondholders or the city as may then exist;

(b) the rentals, fees and other charges to be charged, and the amounts to be raised in each year thereby, and the use and disposition of the revenues;

(c) the setting aside of reserves or sinking funds, and the regulation and disposition thereof;

(d) limitations on the right of the authority to restrict and regulate the use of a project;

(e) limitations on the purpose to which the proceeds of sale of any issue of bonds then or thereafter to be issued may be applied and pledging such proceeds to secure the payment of the bonds or any issue of the bonds;

(f) limitations on the issuance of additional bonds; the terms upon which additional bonds may be issued and secured; the refunding of outstanding or other bonds;

(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) limitations on the amount of moneys derived from a project to be expended for operating, administrative or other expenses of the authority;

(i) vesting in a trustee or trustees such property, rights, powers and duties in trust as the authority may determine which may include any or all the rights, powers and duties of the trustees appointed by the bondholders pursuant to section nineteen hundred sixty-five of this title, and limiting or abrogating the right of the bondholders to appoint a trustee under said section or limiting the rights, duties and powers of trustee; and

(j) any other matters, of like or different character, which in any way affect the security or protection of the bonds.

§ 1959. Notes of the authority. The authority shall have power from time to time to issue its negotiable notes in conformity with applicable provisions of the uniform commercial code and from time to time issue renewal notes (herein referred to as notes) maturing not later than five years from their respective original dates in an amount not exceeding at any time one hundred thousand dollars, over and above the amount of bonds authorized by subdivision one of section nineteen hundred fifty-eight of this title, for any purpose or purposes for which bonds may be issued, whenever the authority shall determine that payment thereof can be made in full from any moneys or revenues which the authority expects to receive from any source. Such notes may, among other things, be issued to provide funds to pay preliminary costs of surveys, plans or other matters relating to any proposed project. The authority may pledge such moneys or revenues (subject to any other pledge thereof) for the payment of the notes and may in addition secure the notes in the same manner and with the same effect as herein provided for bonds. The notes shall be issued in the same manner as bonds. The authority shall have power to make contracts for the future sale from time to time of the notes, by which the purchasers shall be committed to purchase the notes from time to time on terms and conditions stated in such contracts, and the authority shall have power to pay such consideration as it shall deem proper for such commitments. In case of default on its notes or violation of any of the obligations of the authority to the noteholders, the noteholders shall have all the remedies provided herein for bondholders. Such notes shall be as fully negotiable as the bonds of the authority.

§ 1960. Agreements of the city and state. The city is authorized to, and the state does hereby, pledge to and agree with the holders of the bonds that neither the city nor the state, respectively, will limit or alter the rights, hereby vested in the authority to acquire, construct, reconstruct, improve, maintain, equip and finish the project or projects, to establish and collect rentals, fees and other charges and to fulfill the terms of any agreements made with the holders of the bonds, nor in any way impair the rights and remedies of the bondholders, until the bonds, together with interest thereon, with interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders, are fully met and discharged.

§ 1961. State and city not liable on bonds. The bonds and other obligations of the authority shall not be a debt of the state or of the city, and neither the state nor the city shall be liable thereon, nor shall they be payable out of any funds other than those of the authority.

§ 1962. Bonds legal investments for public officers. The bonds or notes are hereby made securities in which all public officers and bodies of this state and all municipalities and municipal subdivisions, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, and all other persons whatsoever except as hereinafter provided, who are now or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them: provided that, notwithstanding the provisions of any other general or special law to the contrary, such bonds shall not be eligible for the investment of funds, including capital, of trusts, estates or guardianships under the control of individual administrators, guardians, executors, trustees and other individual fiduciaries. The bonds or notes are also hereby made securities which may be deposited with and shall be received by all public officers and bodies of this state and all municipalities and municipal subdivisions for any purpose for which the deposit of bonds or other obligations of this state is now or may hereafter be authorized.

§ 1963. Tax exemptions. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the city and its environs, and is a public purpose, and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall be required to pay no taxes or assessments upon any of the property acquired by it or under its jurisdiction or control or supervision or upon its activities. Provided, however, if the authority is located within a transportation district referenced in paragraph (a) of subdivision two of section two hundred fifty-three of the tax law, it shall not be exempt from the additional tax on each mortgage of real property situated within the state imposed by such paragraph.

2. Any bonds or notes issued pursuant to this title, together with the income therefrom, as well as the property of the authority, shall be exempt from taxation, except for transfer and estate taxes.

3. Agents of the authority and project operators shall annually file a statement with the department of taxation and finance, on a form and in such a manner as is prescribed by the commissioner of taxation and finance, of the value of all sales and use tax exemptions claimed by such agents or agents of such agents or project operators, including, but not limited to, consultants or subcontractors of such agents or project operators, under the authority granted pursuant to this section. The penalty for failure to file such statement shall be the removal of the authority to act as an agent of the authority or as a project operator.

4. (a) Within thirty days of the date that the authority designates a project operator or other person to act as agent of the authority for purposes of providing financial assistance consisting of any sales and compensating use tax exemption to such person, the agency shall file a statement with the department of taxation and finance relating thereto, on a form and in such manner as is prescribed by the commissioner of taxation and finance, identifying each such agent so named by the authority, setting forth the taxpayer identification number of each such agent, giving a brief description of the property and/or services

intended to be exempted from such taxes as a result of such appointment as agent, indicating the authority's rough estimate of the value of the property and/or services to which such appointment as agent relates, indicating the date when such designation as agent became effective and indicating the date upon which such designation as agent shall cease.

(b) Within thirty days of the date that the authority's designation described in paragraph (a) of this subdivision has been amended, terminated, been revoked, or become invalid or ineffective for any reason, the authority shall file a statement with the department of taxation and finance relating thereto, on a form and in such manner as is prescribed by the commissioner of taxation and finance, identifying each such agent so named by the authority in the original designation and setting forth the taxpayer identification number and other identifying information of each such agent, the date as of which the original designation was amended, terminated, revoked, or became invalid or ineffective and the reason therefor, together with a copy of the original designation.

§ 1963-a. Uniform tax exemption policy. 1. The authority shall establish a uniform tax exemption policy, with input from affected local taxing jurisdictions, which shall be applicable to provisions of financial assistance pursuant to section nineteen hundred fifty-three-a of this title and shall provide guidelines for the claiming of real property, mortgage recording, and sales tax exemptions. Such guidelines shall include, but not be limited to: period of exemption; percentage of exemption; types of projects for which exemptions can be claimed; procedures for payments in lieu of taxes and instances in which real property appraisals are to be performed as a part of an application for tax exemption; in addition, the authority in adopting such policy shall consider such issues as: the extent to which a project will create or retain permanent, private sector jobs; the estimated value of any tax exemption to be provided; whether affected tax jurisdictions should be reimbursed by the project occupant if a project does not fulfill the purposes for which an exemption was provided; the impact of a proposed project on existing and proposed businesses and economic development projects in the vicinity; the amount of private sector investment generated or likely to be generated by the proposed project; the demonstrated public support for the proposed project; the likelihood of accomplishing the proposed project in a timely fashion; the effect of the proposed project upon the environment; the extent to which the project will utilize, to the fullest extent practicable and economically feasible, resource conservation, energy efficiency, green technologies, and alternative and renewable energy measures; the extent to which the project will provide onsite child care services or otherwise facilitate new child care services; the extent to which the proposed project will require the provision of additional services, including, but not limited to additional educational, transportation, police, emergency medical or fire services; and the extent to which the proposed project will provide additional sources or revenue for municipalities and school districts.

2. The authority shall establish a procedure for deviation from the uniform tax exemption policy required pursuant to this section. The authority shall set forth in writing the reasons for deviation from such policy, and shall further notify by certified mail, return receipt requested or an electronic correspondence with a read-receipt, the affected tax jurisdictions of the proposed deviation from such policy and the reasons therefor. When the affected tax jurisdiction is a school district, the authority shall notify by certified mail, return receipt requested or an electronic correspondence with a read-receipt, the district clerk and district superintendent of each affected school district.

§ 1963-b. Special provisions applicable to state sales and compensating use taxes and certain types of facilities. The provisions of section eight hundred seventy-five of the general municipal law shall apply to the provisions of this title and to the authority created by this title with the same force and effect as if the provisions of such section eight hundred seventy-five had been incorporated in full into this title and had expressly referred to the provisions of this title and to such authority, with such changes to such section as are necessary to refer to the provisions of this title and to the authority created by this title.

§ 1964. Tax contract by the state. The state covenants with the purchasers and with all subsequent holders and transferees of bonds or notes issued by the authority pursuant to this title, in consideration of the acceptance of and payment for the bonds or notes, that the bonds and notes of the authority issued pursuant to this title and the income therefrom, and all moneys, funds and revenues pledged to pay or secure the payment of such bonds or notes shall at all times be free from taxation except for estate taxes and taxes on transfers by or in contemplation of death.

§ 1964-a. Financial records. 1. The authority shall maintain books and records in such form as may be prescribed by the state comptroller.

2. Annually within ninety days following the close of its fiscal year, the authority shall prepare and file a financial report for that fiscal year complying with the requirements of section eight hundred fifty-nine of the general municipal law.

3. If the authority fails to file or substantially complete, as determined by the state comptroller, the financial statement required by section eight hundred fifty-nine of the general municipal law, the penalties set forth in section eight hundred fifty-nine of the general municipal law shall apply to the authority.

4. The authority shall mail or deliver to the chief executive officer and the governing body of the city of Troy and make available for public inspection and comment its proposed budget for the forthcoming fiscal year, no later than twenty business days before adoption. At such time, the authority shall file its proposed budget with the clerk of the city of Troy. Such proposed budget shall contain detailed estimates of the amount of revenues to be received and expenditures to be made during the forthcoming fiscal year. Following its consideration of the comments received, the authority may revise its budget accordingly and shall file the revised budget with the clerk of the city of Troy.

5. Payments in lieu of taxes received by the authority shall be paid over to each affected tax jurisdiction within thirty days of receipt.

6. Payments in lieu of taxes which are delinquent under the agreement or which the authority fails to remit pursuant to subdivision five of this section shall be subject to a late payment penalty of five percent of the amount due which shall be paid by the project occupant (where taxes are delinquent because of the occupant's failure to make the required payment) or the agency (because of the agency's failure to remit pursuant to subdivision five of this section) to the affected tax jurisdiction at the time the payment in lieu of taxes is paid. For each month, or part thereof, that the payment in lieu of taxes is delinquent beyond the first month, interest shall accrue to and be paid by the project occupant (where taxes are delinquent because of the occupant's failure to make the required payment) or the agency (because of the agency's failure to remit pursuant to subdivision five of this section) to the affected tax jurisdiction on the total amount due plus a late payment penalty in the amount of one percent per month until the payment is made.

7. An affected tax jurisdiction which has not received a payment in lieu of taxes due to it under an agreement may commence legal action in any court of competent jurisdiction directly against any person, firm, corporation, organization or agency which is obligated to make payments in lieu of taxes under an agreement and has failed to do so. In such an action, the affected tax jurisdiction shall be entitled to recover the amount due, the late payment penalty, interest, expenses, costs and disbursements together with the reasonable attorneys' fees necessary to prosecute such action. Nothing herein shall be construed as providing an affected tax jurisdiction with the right to sue and recover from an agency which has not received payments in lieu of taxes from a project occupant.

8. Any refinancing of a project shall be subject to the provisions of section nineteen hundred fifty-three-a of this chapter, except where such refinancing was previously approved pursuant to such section.

9. Agents of the authority and project operators shall annually file a statement with the state department of taxation and finance, on a form and in such a manner as is prescribed by the commissioner of taxation and finance, of the value of all sales and use tax exemptions claimed by such agents or agents of such agents or project operators, including, but not limited to, consultants or subcontractors of such agents or project operators under the authority granted pursuant to this section. The penalty for failure to file such statement shall be removal of authority to act as agent of the authority or project operator.

§ 1965. Remedies of bondholders. 1. In the event that the authority shall default in the payment of principal of or interest on any issue of the bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title, or shall default in any agreement made with the holders of any issue of the bonds, the holders of twenty-five per centum in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county of Rensselaer and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purposes herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds then outstanding shall, in his or its own name

(a) by suit, action or special proceeding enforce all rights of the bondholders, including the right to require the authority to collect revenues adequate to carry out any agreement as to, or pledge of, such revenues, and to require the authority to carry out any other agreements with the holders of such bonds and to perform its duties under this title;

(b) bring suit upon such bonds;

(c) by action or special proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) by action or special proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds;

(e) declare all such bonds due and payable, and if all defaults shall be made good then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. The supreme court shall have jurisdiction of any suit, action or proceeding by the trustee on behalf of bond-holders. The venue of any such suit, action or proceeding shall be laid in the county of Rensselaer.

4. Before declaring the principal of all such bonds due and payable, the trustee shall first give thirty days' notice in writing to the authority.

5. Any such trustee, whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project the revenues of which are pledged for the security of the bonds of such issue, and such receiver may enter and take possession of such part or parts of the project and, subject to any pledge or agreement with bondholders, shall take possession of all moneys and other property derived from or applicable to the acquisition, construction, operation, maintenance and reconstruction of such part or parts of the project and proceed with the acquisition of any necessary real property in connection with the project that the authority has covenanted to construct, and with any construction which the authority is under obligation to do and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee, the fee,

counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from such project.

6. Such trustee shall, in addition to the foregoing, have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

§ 1966. Actions against the authority. 1. In an action against the authority founded upon tort, the complaint shall contain an allegation that at least thirty days have elapsed since the demand, claim or claims upon which the action is founded were presented to a member of the authority and to its secretary or to its chief executive officer, and that the authority has neglected or refused to make an adjustment or payment thereof for thirty days after the presentment.

2. In a case founded upon tort, a notice of claim shall be required as a condition precedent to the commencement of an action or special proceeding against the authority or an officer, appointee or employee thereof, and the provisions of section fifty-e of the general municipal law shall govern the giving of such notice. No action shall be commenced more than one year and ninety days after the cause of action therefor shall have accrued.

§ 1967. Termination of the authority. Whenever all of the bonds issued by the authority shall have been redeemed or cancelled, and all straight-lease transactions have been terminated, the authority shall cease to exist and all rights, titles, and interest and all obligations and liabilities thereof vested in or possessed by the authority shall thereupon vest in and be possessed by the city of Troy.

§ 1967-a. Equal opportunity. 1. The authority shall ensure that all employees and applicants for employment are afforded equal employment opportunity without discrimination.

2. Except as is otherwise provided by collective bargaining contracts or agreements, new employment opportunities created as a result of projects of the agency shall be listed with the New York State Department of Labor Community Services Division, and with the administrative entity of the service delivery area created by the federal job training partnership act (P.L. No. 97-300) in which the project is located. Except as is otherwise provided by collective bargaining contracts or agreements, sponsors of projects shall agree, where practicable, to first consider persons eligible to participate in federal job training partnership (P.L. No. 97-300) programs who shall be referred by administrative entities of service delivery areas created pursuant to such act or by community services division of the department of labor for such new employment opportunities.

§ 1968. Title not affected if in part unconstitutional or ineffective. If any section, clause or provision of this title shall be unconstitutional or be ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 1969. Inconsistent provisions in other acts superseded. Insofar as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of any local law of the city, the provisions of this title shall be controlling.

TITLE 12

§ 1970. Short title. This title shall be known and may be cited as the "battery park city authority act".

§ 1971. Statement of legislative findings and purposes. It is hereby found and declared that there exists on the lower West side of the county of New York, North of Battery Park and on and adjacent to the Hudson River, a blighted area, defined in this title as the Battery Park project area, marked by substandard, insanitary, deteriorated and deteriorating conditions, in which area there exists obsolete and dilapidated buildings and structures, including piers, of defective construction and outmoded design, lacking proper sanitary facilities and adequate fire and safety protection, and with insufficient light and ventilation and inadequate maintenance; buildings or structures abandoned or not utilized in whole or in part; obsolete systems of utilities; poorly or improperly designed street patterns and intersections with inadequate access to areas; traffic congestion; and obsolete street widths, sizes and shapes, all of which hamper and impede the proper and economic development of such area and of the city of New York and of the state as a whole.

It is further found and declared that such area is no longer suitable or useful for piers or for facilities appurtenant to the loading and unloading of commercial cargo, and that retaining piers in such area creates a blighting effect on such area and on surrounding areas and is detrimental to the development of such area and to the growth and prosperity of the county and city of New York and of the state as a whole.

It is hereby declared that the improvement of such area, the elimination of pier facilities and of the present structures therein, and the replanning, reconstruction and redevelopment of such area including the filling of the Hudson River at such area up to the present pierhead line, the preparation of the resulting land for development, and the creation in such area, in cooperation with the city of New York and the private sector, of a mixed commercial and residential community, with adequate utilities systems and civic and public facilities such as schools, open public spaces, recreational and cultural facilities, is necessary for the prosperity and welfare of the people of the city of New York and of the state as a whole, and is a public use and public purpose for which tax exemptions may be granted, and that the powers and duties of battery park city authority as hereinafter recited are necessary and proper for the purpose of achieving such ends.

It is hereby further found and declared that there continues to exist throughout the city of New York a seriously inadequate supply of safe and sanitary dwelling accommodations for persons and families of low income. This condition is contrary to the public interest and threatens the health, safety, welfare, comfort and security of the people of the state. The ordinary operations of private enterprise cannot provide an adequate supply of safe and sanitary dwelling accommodations at rentals which persons and families of low income can afford. In order to encourage the investment of private capital and provide such dwelling accommodations, provision should be made for mortgage loans at low interest rates to housing companies which, subject to regulations as to rents, profits, dividends and disposition of their property, supply such dwelling accommodations and other facilities incidental or appurtenant thereto to such persons and families.

Therefore, it is hereby found and declared that Battery Park city authority, through the issuance of bonds and notes to the private investing public, by encouraging maximum participation by the private sector of the economy, including the sale or lease of the authority's interest in projects at the earliest time deemed feasible, and through participation in programs undertaken by the state, its agencies and subdivisions, and by the federal government, may provide or obtain the capital resources necessary to provide dwelling accommodations for persons and families of low income, and facilities incidental or appurtenant thereto, and, where necessary, to carry out the clearance, replanning, reconstruction and rehabilitation of such substandard and insanitary areas.

It is hereby further found and declared that the acquisition and construction of adequate, safe and sanitary dwelling accommodations for persons and families of low income and such facilities as may be incidental or appurtenant thereto, are public uses and public purposes for which public money may be loaned and private property may be acquired and tax exemptions granted, and that the powers and duties of battery park city authority or its subsidiaries as hereinafter recited are necessary and proper for the purpose of achieving the ends here recited.

§ 1972. Definitions. As used in this title, the following words and phrases shall have the following meanings unless the context shall indicate another or different meaning or intent:

(1) "Authority". The corporate governmental agency created by section nineteen hundred seventy-three of this title.

(2) "Bonds" and "Notes". The bonds, notes and obligations issued by the authority pursuant to this title.

(3) "City". The city of New York.

(4) "Comptroller". The comptroller of the State of New York.

(5) "Battery Park project area". All that portion of the City of New York, County of New York, State of New York generally bounded by the easterly line of West Street, the northerly line of lot number 10 in block 130 as shown on the tax maps of the City of New York, borough of Manhattan, and its extensions easterly to West Street and westerly to the United States pierhead line as now constituted, the said United States pierhead line, the lands of Battery Park and the southerly line of Battery Place.

(6) "Project". One or more works or improvements including lands, buildings, improvements, real, personal or mixed property or any interest therein, acquired, owned, constructed, reconstructed, rehabilitated or improved by the authority, or caused to be acquired, owned, constructed, reconstructed, rehabilitated or improved by the authority within the project area as defined herein, all as the authority shall deem necessary, together with lands, buildings and improvements outside the project area required for relocation of city facilities and for vehicular and pedestrian access roads, rights of way, utility and other easements to and from the project area all as the authority shall deem necessary and as shall be determined by agreement with the city.

(7) "Project cost". The sum total of all costs incurred by the authority in carrying out all works and undertakings which the authority deems reasonable and necessary for the development of the project. These shall include but are not necessarily limited to the costs of all necessary studies, surveys, plans and specifications, architectural, engineering or other special services, acquisition of land and any buildings thereon, site preparation and development, construction, reconstruction, rehabilitation and improvement of the project area; the

necessary expenses incurred in connection with the initial occupancy of the project; the administrative and operating expenses of the authority; the cost of financing the project, including interest on bonds and notes issued by the authority to finance the project from the date thereof to the date when the authority shall determine that the project be deemed substantially complete; the cost of other necessary items, including any indemnity and surety bonds and premiums on insurance, legal fees, fees and expenses of trustees, depositories and paying agents for the bonds and notes issued by the authority; relocation costs, all as the authority shall deem necessary and the costs of acquisition and construction of lands, buildings and improvements outside the project area for relocation of city facilities whether such costs are incurred by the authority or by the city for and on behalf of the authority and for vehicular and pedestrian access roads, rights of way, utility and other easements to and from the project area, all as the authority shall deem necessary and as shall be determined by agreement with the city.

(8) "Real property". Lands, structures, improvements, franchises and interests in land, including lands under water, waterfront property, marginal streets and riparian rights, space rights and air rights and any and all other things and rights usually included within said term and any fixtures, equipment and article of personal property affixed to or used in connection therewith. Real property shall also mean and include any and all interests in such property less than full title, such as easements, incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgments, mortgages or otherwise, and also all claims for damages for such real estate.

(9) "State". The state of New York.

(10) "State agency". Any officer, board, department, commission, bureau, division, public corporation, agency or instrumentality of the state.

(11) "Subsidiary". A corporation created pursuant to section nineteen hundred seventy-four-a of this title.

(12) "Residential housing facilities". One or more works or improvements containing one or more residential dwelling units, including, but not limited to, single room occupancy units, and including the real and personal property acquired, owned, constructed,

equipped, improved, enlarged, rehabilitated or renovated to provide such accommodations and such incidental and appurtenant commercial, social, recreational or communal facilities, to be located without the Battery Park project area and within the city.

(13) "Excess revenues". All revenues from the Battery Park project area in excess of those needed (i) to satisfy bond and note covenants (other than as they relate to bonds and notes issued pursuant to section nineteen hundred seventy-four-c of this title and section six hundred fifty-four-c of the private housing finance law) including those covenants which require that the authority maintain its revenues and reserve funds in an amount necessary to permit it to discharge its debt service obligations, (ii) to fulfill its legal and financial commitments, and (iii) to pay its operating and maintenance expenses.

(14) "Housing New York program". The housing New York program established by section four of the housing New York program act.

(15) "Housing New York corporation". The subsidiary corporation of the New York city housing development corporation created by section six hundred fifty-four-c of the private housing finance law.

§ 1973. Battery park city authority. (1) There is hereby created the battery park city authority which shall be a body corporate and politic, constituting a public benefit corporation. Its membership shall consist of seven members to be appointed by the governor with the advice and consent of the senate. One of the members first appointed shall serve for a term ending four years from January first next succeeding his appointment; one of such members shall serve for a term ending five years from such date; and one of such members shall serve for a term ending six years from such date. Provided, however, that two board members first appointed on or after the effective date of chapter seven hundred sixty-six of the laws of two thousand five shall serve an initial term of two years; provided further that two other board members first appointed on or after the effective date of chapter seven hundred sixty-six of the laws of two thousand five shall serve an initial term of four years. Their successors shall serve for terms of six years each. Members shall continue in office until their successors have been appointed and qualified and the provisions of section thirty-nine of the public officers law shall apply. In the event of a vacancy occurring in the office of a member by death, resignation or otherwise, the governor shall appoint a successor with the advice and consent of the senate to serve for the balance of the unexpired term. After the effective date of the chapter of the laws of two thousand seventeen that amended this subdivision, if the membership of the corporation is such that less than two of the members are residents of Battery Park city as described by the Battery Park project area defined by subdivision five of section nineteen hundred seventy-two of this title, any appointments made shall be residents of Battery Park city. Appointments shall continue in such a manner until two of the members of the corporation are residents of Battery Park city. Thereafter, two of the corporation's members shall be residents of Battery Park city.

(1-a) All board members shall recuse themselves from matters pending before the board in the event of a conflict of interest, consistent with the provisions of subdivision three of this section and subdivision two of section twenty-eight hundred twenty-five of this chapter, sections seventy-three and seventy-four of the public officers law, and relevant authorities budget office guidance.

(1-b) All board members appointed under the provisions of this section shall have relevant real estate, corporate board, financial, legal, urban planning and/or design, architectural, governmental or security experience.

(2) The members shall elect the chairman of the authority from among their number. The members shall serve without salary or other compensation, but each member shall be entitled to reimbursement for actual and necessary expenses incurred in the performance of his or her official duties. Anything to the contrary contained herein notwithstanding, any member who serves as an employee of the authority shall be entitled to receive such salary as the members may determine for services as such employee.

(3) Such members other than those serving as employees of the authority may engage in private employment, or in a profession or business. The authority, its members, officers and employees shall be subject to the provisions of sections seventy-three and seventy-four of the public officers law.

(4) Notwithstanding any inconsistent provision of law, general,

special or local, no officer of the state or of any civil division thereof shall be deemed to have forfeited or shall forfeit his office or employment by reason of his acceptance of membership on the authority created by this section.

(5) The governor may remove any member for inefficiency, neglect of duty or misconduct in office after giving him a copy of the charges against him and an opportunity to be heard, in person or by counsel, in his defense, upon not less than ten days notice. If any such member shall be removed, the governor shall file in the office of the department of state a complete statement of the charges made against such member and his findings thereon, together with a complete record of the proceedings.

(6) The authority in its corporate existence shall continue until terminated by law, provided, however, that no such law shall take effect so long as the authority shall have bonds, notes and other obligations outstanding, unless adequate provision has been made for the payment thereof in the documents securing the same. Upon termination of the existence of the authority, all its rights and properties shall vest in the state.

(7) A majority of the members of the authority shall constitute a quorum for the transaction of any business or the exercise of any power or function of the authority. The authority may delegate to one or more of its members, or to its officers, agents or employees, such powers and duties as it may deem proper.

§ 1974. Powers of the authority. The authority shall have power:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To acquire, lease, hold, mortgage and dispose of real property and personal property or any interest therein for its corporate purposes;

4. To acquire, construct, improve, enlarge, operate and maintain a project within the project area as defined herein and all other

structures, appurtenances and facilities necessary or convenient in connection therewith, provided, however, that all contracts for construction let by the authority shall be let in conformity with the provisions of section one hundred thirty-five of the state finance law, except that contracts for construction let by subsidiaries of the authority shall be governed instead by the applicable provisions of the private housing finance law;

5. To appoint officers, agents and employees, prescribe their qualifications and duties and fix their compensation;

6. To make by-laws for the management and regulation of its affairs, and, subject to agreements with bondholders, for the regulation of the projects;

7. With the consent of the city to use agents, employees and facilities of the city, paying to the city its agreed proportion of the compensation or cost;

8. To make contracts and to execute all necessary or convenient instruments, including leases and subleases, evidences of indebtedness, negotiable or non-negotiable;

9. To engage the services of consultants on a contract basis for rendering professional and technical assistance and advice;

10. To accept grants, loans or contributions from the United States, or the state or the city, or any agency or instrumentality of any of them, or from any other source and to expend the proceeds for any corporate purpose;

11. To fix, establish and collect rates, rentals, fees and other charges for the use of the project, subject to and in accordance with such agreements with bondholders and noteholders as may be made as hereinafter provided;

12. To create subsidiaries pursuant to section nineteen hundred

seventy-four-a of this title;

13. To lend or donate monies, whether secured or unsecured, to any subsidiary, and to purchase, sell or pledge the shares, bonds or other obligations or securities thereof, on such terms and conditions as the authority may deem advisable;

14. To make loans secured by a first mortgage, and to make temporary loans or advances, to any housing company organized to provide housing within the Battery Park city project area pursuant to and subject to the provisions of article two, article four or article eleven of the private housing finance law, including any subsidiary of the authority, and to undertake commitments therefor. Any such commitments or loans may contain such terms and conditions not inconsistent with the provisions of this title as the authority may deem necessary or desirable to secure repayment of its loan, the interest, if any, thereon and other charges in connection therewith;

15. Subject to the provisions of any contract with noteholders or bondholders, to sell, at public or private sale, any mortgage or other security for a mortgage loan made by the authority;

16. In connection with the making of mortgage loans and commitments therefor, to make, fix or establish and collect such fees and charges, including but not limited to reimbursement of all costs of financing by the authority, service charges and insurance premiums, as the authority shall determine to be reasonable subject to the provisions of any contract with noteholders or bondholders;

17. To procure or agree to the procurement of insurance or guarantees from the federal government of the payment of any bonds or notes, mortgages or any other evidences of indebtedness issued by the authority or its subsidiaries, including the power to pay premiums on any such insurance;

18. Subject to the provisions of any contract with noteholders or bondholders, to consent to the modification, with respect to rate of

interest, time of payment of any installment of principal or interest, security or any other term, of any mortgage, mortgage loan, mortgage loan commitment, contract or agreement of any kind to which the authority is a party;

19. In connection with any property on which the authority has made a mortgage loan, to foreclose on any such property or commence any action to protect or enforce any right conferred upon the authority by any law, mortgage, contract or other agreement, and to bid for and purchase such property at any foreclosure or at any other sale, or acquire or take possession of any such property; and in such event the authority may complete, administer, pay the principal of and interest on any obligations incurred in connection with such property, and dispose of, and otherwise deal with, such property, in such manner as may be necessary or desirable to protect the interests of the authority therein;

20. To manage any project, whether or not then owned or leased by the authority, and to enter into agreements with the state or any municipality or any agency or instrumentality thereof, or with any person, firm, partnership or corporation, either public or private, for the purpose of causing any project to be managed;

21. To procure insurance against any loss in connection with its property and other assets and operations in such amounts and from such insurers as it deems desirable;

22. Notwithstanding the provisions of this title or of any other law, general, special or local, whenever the authority shall find that the maximum rentals charged tenants of the dwellings in any project financed by the authority in whole or in part shall not be sufficient, together with all other income of the mortgagor, to meet within reasonable limits all necessary payments to be made by the mortgagor of all expenses including fixed charges, sinking funds, reserves and dividends, to request the mortgagor to make application to vary the rental rate for such dwellings so as to secure sufficient income, and upon failure of the mortgagor to take such action within sixty days after receipt of

written request from the authority to do so, to vary such rental rate by action of the authority.

23. To do all things necessary or convenient to carry out the powers expressly given in this title.

24. To borrow money and issue negotiable bonds, notes or other obligations and to provide for the rights of the holders thereof;

25. To carry out its powers and responsibilities with respect to the chapter of the laws of nineteen hundred ninety which enacted this subdivision.

§ 1974-a. Subsidiaries; how created. 1. The authority by resolution from time to time may direct any of its members, officers or employees to organize one or more wholly-owned subsidiary corporations pursuant and subject to article two, article four or article eleven of the private housing finance law. Such resolution shall prescribe the purposes for which such subsidiary is to be organized.

2. The authority may transfer to any subsidiary any money or real or personal or mixed property or any project in order to carry out the purposes of this title. Each such subsidiary shall have all the privileges, immunities, tax exemptions and other exemptions of the authority to the extent the same are not inconsistent with the statute or statutes pursuant to which such subsidiary was organized. Except as may be inconsistent with the provisions of this title, such subsidiary shall have all the rights and powers granted to housing companies by the private housing finance law and by any other statute pursuant to which such subsidiary was organized.

3. No member or officer of the authority shall receive any additional compensation, either direct or indirect, other than reimbursement for actual and necessary expenses incurred in the performance of his duties, by reason of his serving as a member, director, trustee or officer of any subsidiary.

§ 1974-b. Lease and other agreements. 1. As used or referred to in this title, unless a different meaning clearly appears from the context:

(a) "owner" shall mean any individual, partnership, trust or public or private corporation (including a cooperative housing corporation), holding the tenant's interest in a residential lease.

(b) "residential lease" shall mean a lease, sublease or other agreement that relates to all or a portion of a project, where all of such project, or the portion thereof to which such lease, sublease or other agreement relates, is designed and intended for the purpose of providing housing accommodations and such facilities as may be incidental thereto, the landlord's interest in which is held by the authority at the time such lease, sublease or other agreement is entered into.

(c) "underlying parcel" shall mean a parcel subject to a residential lease; provided, however, that in any case where the tenant's interest in a residential lease is held by a unit owner, "underlying parcel" shall mean the parcel in which the unit is included.

(d) the terms "unit owner" and "unit" shall have the meanings specified in section three hundred thirty-nine-e of the real property law. The term "parcel" shall have the meaning specified in section one hundred two of the real property tax law; provided, however, that in any case where the tenant's interest in a residential lease is held by a unit owner, "parcel" shall mean the real property deemed to be a parcel pursuant to paragraph (a) of subdivision two of section three hundred thirty-nine-y of the real property law.

2. (a) If an underlying parcel is exempt from real property taxes, or no real property taxes are payable with respect thereto, pursuant to the provisions of section nineteen hundred eighty-one of this title or of section twenty-two of chapter one hundred seventy-four of the laws of nineteen hundred sixty-eight, the residential lease for such underlying parcel shall provide for the payment by the owner of such residential lease to the authority of annual or other periodic amounts equal to the amount of real property taxes that otherwise would be paid or payable with respect to such underlying parcel, after giving effect to any real

property tax abatements and exemptions, if any, which would be applicable thereto, if the provisions of section nineteen hundred eighty-one of this title or of section twenty-two of chapter one hundred seventy-four of the laws of nineteen hundred sixty-eight were not applicable to such underlying parcel.

(b) If an underlying parcel is owned by the city of New York, the residential lease for such underlying parcel shall provide for the payment by the owner of such residential lease to the city of New York of annual or other periodic amounts equal to the amount of real property taxes that are payable with respect to such underlying parcel, after giving effect to any real property tax abatements and exemptions, if any, which are applicable thereto.

(c) Where the owner of a residential lease is assessed for real property taxes with respect to the underlying parcel subject to such residential lease pursuant to section five hundred two of the real property tax law and section three hundred thirty-nine-y of the real property law, payment of such real property taxes shall be credited against the annual or periodic amounts of tax equivalency payments, payments in lieu of taxes or similar payments required to be paid under such residential lease.

§ 1974-c. Additional powers of the authority. 1. It is hereby found and declared that the legislature, pursuant to the housing New York program act, has established a housing New York program under which the city of New York, any agency or instrumentality thereof (other than the housing New York corporation) and the New York city housing development corporation will cause the acquisition, construction, equipping, improving, rehabilitation and renovation of dwelling accommodations within the city of New York for persons and families for whom the ordinary operations of private enterprise cannot supply such accommodations; that such program is necessary in order to increase the presently inadequate supply of dwelling accommodations in such city for persons and families of low and moderate income; that such program shall require a substantial commitment of funds from public sources; and that the need for such moneys necessitates that the authority be granted the additional powers and be made subject to the additional requirements of this section. The legislature therefore finds that the authority, subject to the terms and conditions specified herein, should be given the power to assign certain excess revenues to secure bonds and notes to be issued by the housing New York corporation for use by the city of New York, and any agency or instrumentality thereof (other than the housing New York corporation) or the New York city housing development corporation in the housing New York program; that the assignment of such excess revenues for the financing of residential housing facilities in accordance with the housing New York program is a public purpose for which moneys may be granted; and that the powers and duties of the authority as recited in this section are necessary and proper for achieving the ends herein recited.

2. In addition to the powers of the authority set forth in section nineteen hundred seventy-four of this title, the authority shall have the power:

(a) to borrow money by issuing bonds and notes and to issue such bonds and notes for the purposes of (i) repaying appropriations from the state to the authority in accordance with the provisions of any repayment agreements with the state, (ii) furthering the development of the infrastructure of the Battery Park project area, and (iii) refunding any bonds and notes of the authority issued pursuant to this section;

(b) subject to the provisions of any contract with noteholders and bondholders, to (i) pledge any excess revenues or assets (other than real property) of the authority, including, but not limited to such excess revenues as the authority shall deem necessary, to secure any bonds or notes issued by the authority pursuant to this section and (ii) assign such excess revenues as the authority shall deem necessary to secure any bonds or notes issued or any agreeements entered into by the housing New York corporation pursuant to section six hundred fifty-four-c of the private housing finance law or pay any expenses related thereto for the purpose of financing the acquisition, construction, equipping, improvement, enlargement, rehabilition and renovation of residential housing facilities in accordance with the provisions of the housing New York program and to enter into any agreement or execute any document to accomplish the foregoing;

(c) to procure insurance, letters of credit or other credit enhancements with respect to its bonds or notes issued pursuant to this section and to pay the premiums and fees therefor;

(d) to adopt, amend or rescind rules and regulations appropriate to carry out its corporate purposes and to establish such requirements and enter into such agreements to achieve the objectives of this section; and

(e) to exercise any and all other powers authorized by this title and not inconsistent with the provisions of this section.

3. Notwithstanding any contrary provision of law, general, special, or local, no moneys of the authority, or moneys received from the authority, which are expended pursuant to a chapter of the laws of nineteen hundred eighty-six entitled "An Act to enact the housing New York program act for the purpose of establishing a housing New York program and to amend the public authorities law, in relation to authorizing Battery Park city authority to assign excess revenues to secure bonds to be issued by the housing New York corporation and the private housing finance law, in relation to creating such corporation and authorizing the financing of certain housing accommodations within the city of New York", shall be used by the authority, directly or indirectly, for the design, planning, acquisition, financing, construction or implementation of any landfill or any pilings, platforms, decks or similar structures and in addition, any dredging or filling activities, in the Hudson river between the northern boundary of the Battery Park project area as provided for in subdivision five of section nineteen hundred seventy-two of this title and forty-second street in the city of New York except to the extent that such activities are necessary to maintain the Battery Park project area landfill site, nor shall any such moneys authorized to be assigned or pledged by such act be assigned or pledged, directly or indirectly, to secure or pay the debt service on any bonds or notes issued or any agreements entered into by the housing New York corporation if the proceeds of such bonds or notes are to be used directly or indirectly, or the purpose of such agreements is to accomplish directly or indirectly, any of the prohibited activities listed in this subdivision.

4. No excess revenues may be assigned by the authority to the housing

New York corporation to finance residential housing facilities pursuant to section six hundred fifty-four-c of the private housing finance law unless the authority has entered into an agreement or agreements with the housing New York corporation, which provides, in addition to any other terms and conditions, that:

(a) such residential housing facilities are to provide dwelling accommodations which are to be occupied by persons and families for whom the ordinary operations of private enterprise cannot provide an adequate supply of safe, sanitary and affordable dwelling accommodations;

(b) neither the state nor the authority are to have any responsibility as to the financing, operation, maintenance, repair or use of such residential housing facilities unless otherwise specifically provided by law;

(c) the housing New York corporation shall use the moneys assigned to it by the authority pursuant to this section to secure and pay bonds and notes issued to finance residential housing facilities in accordance with provisions of the housing New York program and shall comply with the terms and conditions of the housing New York program act and this section; and

(d) the timing, amount, maturity schedule and all other terms and conditions of any issuance of bonds or notes by the housing New York corporation pursuant to section six hundred fifty-four-c of the private housing finance law, will provide for the authority's requirements as to the development, management or operation of the project and the effect of such terms and conditions on the availability of excess revenues and the pledge or assignment thereof.

5. For the purposes of furthering the development of the infrastructure of the Battery Park project area and repaying appropriations from the state to the authority pursuant to this section, the authority may, in addition to the authorization contained in subdivision one of section nineteen hundred seventy-seven-a of this title, borrow money by issuing bonds or notes in an aggregate principal amount not exceeding one hundred million dollars plus a principal amount of bonds or notes issued (i) to fund any related debt service reserve fund, (ii) to provide capitalized interest, and (iii) to provide fees and other charges and expenses, including underwriters' discount,

related to the issuance of such bonds or notes and the maintenance of such reserves, all as determined by the authority, excluding bonds and notes issued to refund outstanding bonds and notes issued pursuant to this section.

In computing the total principal amount of bonds and notes that may at any time be issued for any purpose under this title, the amount of the outstanding bonds or notes that constitutes interest under the United States Internal Revenue Code of nineteen hundred fifty-four, as amended to the effective date of this section, shall be excluded.

6. The authority may covenant and consent that the interest on any of its bonds or notes issued pursuant to subdivision five of this section shall be includible, under the United States Internal Revenue Code of nineteen hundred fifty-four or any subsequent corresponding internal revenue law of the United States, in the gross income of the holders of the bonds or notes to the same extent and in the same manner that the interest on bills, bonds, notes or other obligations of the United States is includible in the gross income of the holders thereof under said Internal Revenue Code or any such subsequent law.

7. The state of New York does pledge to and agree with the holders of any bonds or notes issued by the housing New York corporation under section six hundred fifty-four-c of the private housing finance law, that the state will not limit or alter the rights hereby vested in the authority to fulfill the terms of any agreements made with such corporation to assign any excess revenues, or in any way impair the rights and remedies of such corporation thereunder, until the bonds and notes, together with interest thereon, interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders and noteholders are fully met and discharged.

8. It is the intention of the legislature that any assignment of excess revenues or portion thereof by the authority pursuant to this section shall be valid and binding from the time when the assignment is made in accordance with its terms; that the excess revenues so assigned

by the authority shall immediately be subject to the lien of such assignment without any physical delivery thereof or further act, and that the lien of any such assignment shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether such parties have notice thereof. Neither the resolution or any other instrument by which an assignment is created need be recorded.

§ 1974-d. Contracts. In connection with development, construction, operations and maintenance contracts for projects of the authority, minority and women-owned business enterprises and minority group members and women shall be given the opportunity for meaningful participation. The authority shall establish measures and procedures to secure meaningful participation by minority and women-owned business enterprises on contracts for projects of the authority. Such measures and procedures shall also promote the employment of minority group members and women on such contracts. For the purposes thereof, "minority business enterprise" shall mean any business enterprise which is at least fifty-one per centum owned by, or in the case of a publicly owned business, at least fifty-one per centum of the stock of which is owned by citizens or permanent resident noncitizens who are Black, Hispanic, Asian or American Indian, and such ownership interest is real, substantial and continuing and "women-owned business enterprise" shall mean any business enterprise which is at least fifty-one per centum owned by, or in the case of a publicly owned business, at least fifty-one percent of the stock of which is owned by citizens or permanent resident noncitizens who are women and such ownership interest is real, substantial and continuing. The provisions of this section shall not be construed to limit the ability of any minority or women-owned business enterprise to bid on any contract. In order to implement the requirements and objectives of this section in connection with such projects, the authority shall be responsible for monitoring compliance with the provisions hereof, providing advice on the availability of competitive qualified minority and women-owned business enterprises to perform contracts proposed to be awarded, and making recommendations to improve the access of minority and women-owned business enterprises to these contracts.

§ 1975. Moneys of the authority. 1. All moneys of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in a bank or banks in the state designated by the authority. The moneys in such accounts shall be paid by the treasurer or other agent duly designated by the authority on requisition of the chairman of the authority or of such other person or persons as the authority may authorize to make such requisitions. All deposits of such moneys, shall, if required by the authority, be secured by obligations of the United States or of the state of New York of a market value equal at all times to the amount of the deposit and all banks and trust companies are authorized to give such security for such deposits. The obligations shall either be deposited with the treasurer or be held by a trustee or agent satisfactory to the authority. The comptroller and his legally authorized representatives are authorized and empowered from time to time to examine the accounts and books of the authority, including its receipts, disbursements, contracts, leases, sinking funds, investments and any other records and papers relating to its financial standing.

2. Notwithstanding any provision of law to the contrary, the authority is hereby authorized to contribute two hundred million dollars to the state treasury to the credit of the general fund.

3. Any moneys of the authority, including the proceeds of bonds or notes, not required for immediate use may, at the discretion of the authority be invested in obligations of the state or of the United States of America or obligations the principal of and interest on which are guaranteed by the state or the United States of America, or in any other obligations in which the comptroller of the state of New York is authorized to invest pursuant to section ninety-eight of the state finance law.

4. The authority shall have power to contract with holders of any of its bonds or notes, as to the custody, collection, securing, investment,

and payment of any moneys of the authority, of any moneys held in trust or otherwise for the payment of bonds or notes, and to carry out such contract. Moneys held in trust or otherwise for the payment of bonds or notes or in any way to secure bonds or notes and deposits of such moneys may be secured in the same manner as moneys of the authority, and all banks and trust companies are authorized to give such security for such deposits.

5. Subject to the provisions of any contract with bondholders or noteholders and to the approval of the comptroller, the authority shall prescribe a system of accounts.

§ 1976. Bonds of the authority. * 1. The authority shall have power and is hereby authorized from time to time to issue its negotiable bonds in conformity with applicable provisions of the uniform commercial code for any corporate purpose, including incidental expenses in connection therewith. The authority shall have power from time to time and whenever it deems refunding expedient to refund any bonds by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose. Except as may be otherwise expressly provided by the authority, every issue of bonds by the authority shall be general obligations payable out of any moneys, earnings, or revenues of the authority, subject only to any agreements with the holders of particular bonds, pledging any particular moneys, earnings or revenues.

* NB There are two sub one's

* 1. The authority shall have power and is hereby authorized from time to time to issue its negotiable bonds for any corporate purpose, including incidental expenses in connection therewith. The authority shall have power from time to time and whenever it deems refunding expedient, to refund any bonds by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose. Except as may be otherwise expressly provided by the authority, every issue of bonds by the authority shall be general obligations payable out of any moneys, earnings, or revenues of the

authority, subject only to any agreements with the holders of particular bonds, pledging any particular moneys, earnings or revenues. Whether or not the bonds are of such form and character as to be negotiable instruments under article eight of the uniform commercial code, the bonds shall be and are hereby made negotiable instruments within the meaning of and for all the purposes of article eight of the uniform commercial code, subject only to the provisions of the bonds for registration.

* NB There are two sub one's

2. The bonds shall be authorized by resolution of the authority and shall bear such date or dates, mature at such time or times, bear interest at such rate or rates, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms of redemption prior to maturity as such resolution or resolutions may provide.

3. All bonds of the authority shall be sold at public or private sale as may be determined by the authority.

4. Any resolution or resolutions authorizing any bonds or any issue of bonds may contain provisions, which shall be a part of the contract with the holders of the bonds thereby authorized, as to

(a) pledging all or any part of the moneys, earnings, income and revenues derived from the project to secure the payment of the bonds or of any issue of the bonds, subject to such agreements with bondholders as may then exist;

(b) the rates, rentals, fees and other charges to be fixed, established and collected and the amounts to be raised in each year thereby, and the use and disposition of the earnings and other revenues;

(c) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(d) limitations on the right of the authority to restrict and regulate the use of the project;

(e) limitations on the purposes to which and the manner in which the proceeds of sale of any bonds or any issue of bonds may be applied;

(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured, and the refunding of outstanding bonds or other bonds;

(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) the creation of special funds into which any earnings or revenues of the authority may be deposited;

(i) the terms and provisions of any mortgage or trust deed or indenture securing the bonds or under which the bonds may be issued;

(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders pursuant to section nineteen hundred eighty-three of this title, and limiting or abrogating the right of the bondholders to appoint a trustee under such section or limiting the rights, powers and duties of such trustee;

(k) defining the acts or omissions to act which shall constitute a default in the obligations and duties of the authority to the bondholders and providing the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of this state and other provisions of this title;

(l) limitations on the power of the authority to sell or otherwise dispose of its properties;

(m) limitations on the amount of moneys derived from the project to be expended for operating, administrative and other expenses of the authority;

(n) the protection and enforcement of the rights and remedies of the bondholders;

(o) the obligations of the authority in relation to the construction, maintenance, operation, repairs and insurance of the project and the safeguarding and application of all moneys;

(p) the payment of the proceeds of bonds and revenues of the project to a trustee or other depositary, and for the method of disbursement thereof and such safeguards and restrictions as the authority may determine;

(q) any other matters, of like or different character which may in any way affect the security or protection of the bonds.

5. It is the intention of the legislature that any pledge of earnings, revenues or other moneys made by the authority shall be valid and binding from the time when the pledge is made; that the earnings, revenues or other moneys so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and that the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

6. Neither the members of the authority nor any person executing the bonds or other obligations shall be liable personally on the bonds or other obligations or be subject to any personal liability or accountability by reason of the issuance thereof.

7. The authority shall have power out of any funds available therefor to purchase (as distinguished from the power of redemption hereinabove provided) any bonds, and all bonds so purchased shall be cancelled.

8. In the discretion of the authority, the bonds may be secured by a trust indenture by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company in the state of New York. Such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the construction, maintenance, operation, repair and insurance of the project, and the custody, safeguarding and application of all moneys. The authority may provide by such trust indenture for the payment of the proceeds of the bonds and the revenues of the project to

the trustee under such trust indenture or other depository, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out such trust indenture may be treated as a part of the cost of maintenance, operation and repairs of the project. If the bonds shall be secured by a trust indenture the bondholders shall have no authority to appoint a separate trustee to represent them.

§ 1977. Notes of the authority. The authority shall have power and is hereby authorized to issue negotiable bond anticipation notes in conformity with applicable provisions of the uniform commercial code and may renew the same from time to time but the maximum maturity of such notes, including renewals thereof, shall not exceed seven years from the date of issue of such original note. Such notes shall be payable from any moneys of the authority available therefor and not otherwise pledged or from the proceeds of sale of the bonds of the authority in anticipation of which they were issued. The notes may be issued for any corporate purpose of the authority. Whether or not the notes are of the form and character as to be negotiable instruments under article eight of the uniform commercial code, the notes shall be and are hereby made negotiable instruments within the meaning of and for all the purposes of article eight of the uniform commercial code, subject only to provisions of the notes for registration. The notes shall be issued in the same manner as the bonds and such notes and the resolution or resolutions authorizing the same may contain any provisions, conditions or limitations which the bonds or a bond resolution of the authority may contain. Such notes may be sold at public or private sale. The authority shall have power to make contracts for the future sale from time to time of the notes, pursuant to which the purchaser shall be committed to purchase the notes from time to time on terms and conditions stated in the contracts, and the authority shall have power to pay such consideration as it shall decree proper for such commitments. In case of default on its notes or violation of any obligations of the authority to the noteholders, the noteholders shall have all the remedies provided herein for bondholders. Such notes shall be as fully negotiable as the bonds of the authority.

§ 1977-a. Bond and Note Authorization. 1. (a) For the purpose of financing project costs for the project for the Battery Park project area other than the financing of loans, advances and mortgage loans to housing companies organized to provide housing within the Battery Park project area, the authority may issue bonds and notes in an aggregate principal amount at any one time outstanding not exceeding three hundred million dollars, excluding bonds and notes issued to refund outstanding bonds and notes.

(b) Commodities and futures exchange facility. For the purpose of financing project costs to further the development of a commodities and futures exchange facility as part of the project to be located in the Battery Park project area, the authority may, in addition to the authorizations contained elsewhere in this title, borrow money by issuing bonds or notes in an aggregate principal amount not exceeding one hundred ten million dollars plus a principal amount of bonds or notes issued (i) to fund any related debt service reserve fund, (ii) to provide capitalized interest, and (iii) to provide fees and other charges and expenses, including underwriters' discount, related to the issuance of such bonds or notes and the maintenance of such reserves, all as determined by the authority, excluding bonds and notes issued to refund outstanding bonds and notes issued pursuant to this section. The authority may make loans from the proceeds of such issuance and may make temporary loans or advances, for the purpose of developing a commodities and futures exchange within the Battery Park project area, and may undertake commitments therefor. Any such loans, advances or commitments shall be secured by a mortgage on or security interest in the property interests of such exchanges within the Battery Park project area and shall contain such terms and conditions not inconsistent with the provisions of this title as the authority may deem necessary or desirable to secure payment of its loan, the interest thereon and other changes in connection therewith.

(c) Additional authorizations. In addition to the authorizations contained elsewhere in this title, the authority may issue indebtedness for the purpose of refunding outstanding indebtedness of the housing New York corporation which is secured by revenues of the authority, and indebtedness for the purpose of refunding such refunding indebtedness issued by the authority including the funding of reserves and providing for fees and other charges and expenses, including underwriters' discounts, related to the issuance of such refunding bonds or notes, all as determined by the authority.

(d) Additional authorizations. For the purpose of financing capital costs in connection with development of the project area, the authority may, in addition to the authorizations contained elsewhere in this title, borrow money by issuing bonds or notes in an aggregate principal amount not exceeding one hundred fifty million dollars plus a principal amount of bonds or notes issued (i) to fund any related debt service reserve fund, (ii) to provide capitalized interest, and (iii) to provide for fees and other charges and expenses including any underwriters' discounts, related to the issuance of such bonds or notes, all as determined by the authority, excluding bonds and notes issued to refund outstanding bounds and notes issued pursuant to this section.

(e) Additional authorizations. For the purpose of financing costs of the state, the authority may, in addition to the authorizations contained elsewhere in this title, borrow money by issuing bonds or notes in an aggregate principal amount not exceeding two hundred fifty million dollars plus a principal amount of bonds or notes issued (i) to fund any related debt service reserve fund, (ii) to provide capitalized interest, and (iii) to provide for fees and other charges and expenses including any underwriters' discounts, related to the issuance of such bonds or notes, all as determined by the authority, excluding bonds and notes issued to refund outstanding bonds and notes issued pursuant to this section.

(f) Additional authorizations. For the purpose of financing capital costs in connection with a program of infrastructure construction, improvements and other capital expenditures for the project area, the authority may, in addition to the authorizations contained elsewhere in this title, borrow money by issuing bonds and notes in an aggregate principal amount not exceeding two billion five hundred million dollars, plus a principal amount of bonds or notes issued (i) to fund any related debt service reserve fund, (ii) to provide capitalized interest, and (iii) to provide for fees and other charges and expenses including any underwriters' discounts, related to the issuance of such bonds or notes, all as determined by the authority, excluding bonds and notes issued to refund outstanding bonds and notes issued pursuant to this section.

2. For the purposes of financing loans, advances and mortgage loans to housing companies organized pursuant to article two, article four or article eleven of the private housing finance law, including subsidiaries of the authority, for housing accommodations to be erected in the Battery Park project area, the authority may issue bonds and notes in an aggregate principal amount at any one time outstanding not exceeding four hundred million dollars, excluding bonds and notes issued to refund outstanding bonds and notes.

3. The fixing of the statutory maximums as provided in subdivisions one and two of this section shall not be construed as constituting a contract between the authority and the holders of its bonds or notes that additional bonds and notes may not be issued subsequently by the authority in the event that such statutory maximums shall subsequently be increased by law.

4. The authority shall have the power to enter into interest rate exchange agreements, which shall mean written contracts entered into in connection with the issuance of authority debt or in connection with such authority debt already outstanding to provide for exchange of payments based upon fixed and/or variable interest rates, and shall be for exchanges in currency of the United States of America only. The authority shall have the power: (a) until December thirty-first, two thousand three, to enter into such interest rate exchange agreements, and (b) thereafter to enter into replacements and substitutions for and amendments to exchange agreements, provided that no such replacement, substitution or amendment shall increase the notional principal amount under an exchange agreement or extend the term of an exchange agreement. The authority shall be subject to subdivision three of section sixty-nine-d of the state finance law.

§ 1977-b. Reserve funds and appropriations. 1. In addition to setting aside of such other reserves or sinking funds as it shall deem advisable and necessary, and the regulation and disposition thereof, the authority shall create and establish a special fund to be known as and hereinafter called the "Battery Park project area capital reserve fund" and shall pay into such fund (a) any moneys appropriated and made available by the state only for the purposes of such fund, (b) any proceeds of sale of any bonds issued to finance the Battery Park project area to the extent provided in the resolution of the authority authorizing the issuance thereof, (c) any funds directed to be transferred by the authority to such fund, and (d) any other moneys made available to the authority only for the purposes of such fund from any other source or sources. The moneys held in or credited to such capital reserve fund, except as hereinafter provided, shall be used solely for the payment of the principal of such bonds or of the sinking fund payments hereinafter mentioned with respect to such bonds, the purchase or redemption of such bonds, the payment of interest on such bonds, or the payment of any redemption premium required to be paid when any of such bonds are redeemed prior to maturity; provided, however, that moneys in such fund shall not be withdrawn therefrom at any time in such amount as would reduce the amount of such fund to less than the amount of the Battery Park project area capital reserve fund requirement hereinbelow referred to, except for the purpose of making with respect to such bonds payment, when due, of principal, interest and the sinking fund payments hereinafter mentioned for the payment of which other moneys of the authority are not available. Moneys in such capital reserve fund not required for immediate use or disbursement may be invested in obligations of the state or the United States of America or obligations the principal and interest of which are guaranteed by the state or the United States of America or obligations of agencies of the United States of America which may from time to time be legally purchased by savings banks of the state as investment of funds belonging to them or in their control. In computing the amount of such capital reserve fund for the purposes of this section, securities in which all or a portion of such fund are invested shall be valued at par or, if purchased at less than par, at their cost to the authority.

2. The authority shall not issue any of such bonds at any time secured by such capital reserve fund if the amount in such capital reserve fund

at the time of issuance does not equal or exceed the amount of said capital reserve fund requirement unless the authority at the time of issuance of such bonds shall deposit in such fund from the proceeds of such bonds or other sources an amount which together with the amount then in such fund will not be less than the amount of said capital reserve fund requirement.

3. In order to assure the continued operation and solvency of the authority for the fulfillment of its corporate purposes with respect to the Battery Park project area, the chairman of the authority shall annually, on or before December first, make and deliver to the governor and director of the budget his certificate stating the sum, if any, required to restore such capital reserve fund to the amount as of the particular date of computation equal to the greatest (herein sometimes called the "Battery Park project area capital reserve fund requirement") of the respective amounts for the then current or any future fiscal year of the authority, of annual debt service with respect to such bonds, such annual debt service for any fiscal year being the amount of money equal to the aggregate of (a) all interest payable during such fiscal year on all such bonds outstanding on said date of computation, plus (b) the principal amount of all such bonds outstanding on said date of computation which mature during such fiscal year, plus (c) all amounts specified in any resolution of the authority authorizing any of such bonds as payable during such fiscal year as a sinking fund payment with respect to any of such bonds which mature after such fiscal year, all calculated on the assumption that bonds will after said date of computation cease to be outstanding by reason, but only by reason, of the payment of bonds when due and the payment when due and application in accordance with the resolution authorizing those bonds of all of such sinking fund payments payable at or after said date of computation; and there shall be annually apportioned and paid to the authority for deposit in such capital reserve fund the sums so certified by the chairman of the authority. All sums so apportioned and paid shall be deposited by the authority in such capital reserve fund. The principal amount of bonds secured by such capital reserve fund to which state funds are apportionable pursuant to this subdivision shall be limited to the total amount of bonds and notes outstanding on the effective date of

this act, plus the total amount of bonds and notes contracted after the effective date of this act to finance projects in progress on the effective date of this act as determined by the New York state public authorities control board created pursuant to section fifty of this chapter whose affirmative determination shall be conclusive as to all matters of law and fact solely for the purposes of the limitations contained in this subdivision, but in no event shall the total amount of bonds so secured by such a capital reserve fund or funds exceed two hundred million dollars, excluding bonds issued to refund such outstanding bonds until the date of redemption of such outstanding bonds. As outstanding bonds so secured are paid, the amount so secured shall be reduced accordingly but the redemption of such outstanding bonds from the proceeds of refunding bonds shall not reduce the amount so secured.

4. All amounts paid over to the authority by the state pursuant to the provisions of this section shall constitute and be accounted for as advances by the state to the authority and, subject only to the rights of the holders of any bonds or notes of the authority theretofore or thereafter issued, shall be repaid to the state from all available operating revenues of the authority in excess of the capital reserve fund requirement and operating expenses.

5. As used in this section, (a) the term "operating expenses" for the fiscal year shall mean ordinary expenditures for operation and administration of the authority; and (b) the term "available operating revenues" for the fiscal year shall mean all amounts received on account of rentals and fees charged by the authority, if any, and income or interest earned or added to funds of the authority due to the investment thereof, and not required under the terms or provisions of any convenant or agreement with holders of any bonds or notes of the authority to be applied to any purposes other than payment of expenses of the authority.

6. This section is applicable only to the Battery Park project area capital reserve fund.

§ 1977-c. Reserve funds and appropriations for loans, advances and mortgage financing to housing companies.

1. Definitions.

(a) "Revenues". All amounts received on account of fees and other charges imposed by the authority for loans, advances and mortgage loans, if any, and all or any part of the moneys received in payment of loans, advances and mortgage loans and interest thereon, including prepayments.

(b) "Housing loan capital reserve fund requirement". The amount of money, as of any particular date of computation and with reference to outstanding bonds issued by the authority for the purposes of financing loans, advances and mortgage loans to housing companies, equal to the greatest of the respective amounts for the then current or any future fiscal year of the authority, of annual debt service with respect to such bonds.

For purposes of the housing loan capital reserve fund requirement, "annual debt service" shall mean an amount of money equal to the aggregate of:

(i) All interest payable during such fiscal year on all such bonds outstanding on said date of computation; plus,

(ii) The principal amount of all such bonds outstanding on said date of computation which mature during such fiscal year; plus,

(iii) All amounts specified in any resolution of the authority authorizing any of such bonds as payable during such fiscal year as a sinking fund payment with respect to any of such bonds which mature after such fiscal year, such sinking fund payments to be calculated on the assumption that bonds will after said date of computation cease to be outstanding by reason, but only by reason, of the payment of bonds when due and the payment when due and application in accordance with the resolution authorizing those bonds of all of such sinking fund payments payable at or after said date of computation.

(c) "Operating expenses". All ordinary expenditures for operation and administration of the authority in connection with its loans, advances and mortgage loans to housing companies.

(d) "Amortized value". When used with respect to securities purchased at a premium above or a discount below par, the value as of any given date obtained by dividing the total amount of the premium or discount at which such securities were purchased by the number of days remaining to maturity on such securities at the time of such purchase and by multiplying the amount so calculated by the number of days having passed since the date of such purchase; and (a) in the case of securities purchased at a premium, by deducting the product thus obtained from the purchase price, and (b) in the case of securities purchased at a discount, by adding the product thus obtained to the purchase price.

2. Reserve funds. (a) In addition to the setting aside of such other reserves or sinking funds as it shall deem advisable and necessary, and the regulation and disposition thereof, the authority may create and establish one or more capital reserve funds for bonds issued by the authority for the purposes of financing loans, advances and mortgage loans to housing companies.

(b) The authority shall pay into each such fund: (i) any monies appropriated and made available by the state only for the purposes of such fund; (ii) any proceeds of the sale of any bonds issued to the extent provided in the resolution of the authority authorizing the issuance of such bonds; (iii) any moneys directed to be transferred by the authority to such fund; and (iv) any other moneys made available to the authority only for the purposes of such fund from any other source or sources.

(c) The moneys held in or credited to each such capital reserve fund, except as hereinafter provided, shall be used solely for the payment of the principal of bonds issued to finance loans, advances and mortgage loans to housing companies or of the sinking fund payments with respect to such bonds, the purchase or redemption of such bonds, the payment of interest on such bonds or the payment of any redemption premium required to be paid when any of such bonds are redeemed prior to maturity; provided, however, that moneys in such capital reserve fund shall not be withdrawn therefrom at any time in such amount as would reduce the amount of such fund to less than the amount of the housing loan capital reserve fund requirement therefor, except for the purpose of making with respect to such bonds payment, when due, of principal, interest and the sinking fund payments for the payment of which other moneys of the authority are not available. All income or interest earned by, or increment to, each such capital reserve fund due to the investment thereof may be transferred by the authority to other funds or accounts of the authority to the extent it does not reduce the amount of such capital reserve fund below the housing loan capital reserve fund requirement therefor.

(d) Moneys in such a capital reserve fund not required for immediate use or disbursement may be invested in obligations of the state or the United States of America or obligations the principal of and interest on which are guaranteed by the state or the United States of America or obligations of agencies of the United States of America or obligations which may from time to time be legally purchased by savings banks of the state, as investment of funds belonging to them or in their control. In computing the amount of a capital reserve fund for the purposes of this section, securities in which all or a portion of such fund are invested shall be valued at par if purchased at par or, if purchased at other than par, at their amortized value.

(e) The authority shall not issue any bonds at any time secured by such a capital reserve fund if the amount in the capital reserve fund which will secure such bonds at the time of issuance does not equal or exceed the amount of the housing loan capital reserve fund requirement for such fund unless the authority at the time of issuance of such bonds shall deposit in such fund from the proceeds of such bonds or other sources an amount which together with the amount then in such fund will not be less than the amount of the housing loan capital reserve fund requirement for such fund.

3. Preservation of solvency. (a) In order to assure the continued operation and solvency of the authority for the fulfillment of its corporate purposes, the chairman of the authority shall annually, on or before December first, make and deliver to the governor and director of the budget his certificate stating the sum, if any, required to restore each capital reserve fund to the housing loan capital reserve fund requirement therefor. There shall be annually apportioned and paid to the authority for deposit in each such capital reserve fund the sum so certified by the chairman of the authority as required to restore such capital reserve fund to the housing loan capital reserve fund requirement therefor. All sums so apportioned and paid shall be

deposited by the authority in the respective capital reserve funds. The principal amount of bonds secured by a capital reserve fund or funds to which state funds are apportionable pursuant to this paragraph shall be limited to the total amount of bonds and notes outstanding on the effective date of this act, plus the total amount of bonds and notes contracted after the effective date of this act to finance projects in progress on the effective date of this act as determined by the New York state public authorities control board created pursuant to section fifty of this chapter whose affirmative determination shall be conclusive as to all matters of law and fact solely for the purposes of the limitations contained in this paragraph, but in no event shall the total amount of bonds so secured by such a capital reserve fund or funds exceed eighty-five million dollars, excluding bonds issued to refund such outstanding bonds until the date of redemption of such outstanding bonds. As outstanding bonds so secured are paid, the amount so secured shall be reduced accordingly but the redemption of such outstanding bonds from the proceeds of refunding bonds shall not reduce the amount so secured.

(b) All amounts paid over to the authority by the state pursuant to the provisions of this section shall constitute and be accounted for as advances by the state to the authority and, subject only to the rights of the holders of any bonds or notes of the authority theretofore or thereafter issued, shall be repaid to the state from all available revenues of the authority in excess of housing loan capital reserve fund requirements and operating expenses.

4. Applicability. This section is applicable solely to capital reserve funds for bonds issued to finance housing loans, advances and mortgage loans and is not applicable to the Battery Park project area capital reserve fund.

§ 1978. Agreements of the state. The state of New York does pledge to and agree with the holders of the bonds and notes that the state will not limit or alter the rights hereby vested in the authority to acquire, lease, mortgage or dispose of real or personal property or any interest therein or construct, improve, enlarge, operate and maintain the project, to fix, establish and collect the rates, rentals, fees and other charges referred to in this act and to fulfill the terms of any agreements made with the holders of the bonds and notes, or in any way impair the rights and remedies of such bondholders and noteholders until the bonds and notes, together with interest thereon, interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders and noteholders are fully met and discharged.

§ 1979. State and city not liable on bonds and notes. The bonds, notes and other obligations of the authority shall not be a debt of the state of New York or of the city, and neither the state nor the city shall be liable thereon, nor shall they be payable out of any funds other than those of the authority.

§ 1980. Bonds and notes legal investments for public officers and fiduciaries. The bonds and notes are hereby made securities in which all public officers and bodies of this state and all municipalities and municipal subdivisions, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds, including capital in their control or belonging to them. The bonds and notes are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities and municipal subdivisions for any purpose for which the deposit of bonds or other obligations of this state is now or may hereafter be authorized.

§ 1981. Exemption from taxes. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the state of New York, the county of New York, and the city, and is a public purpose, and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall be required to pay no taxes upon any of the properties acquired by it or under its jurisdiction or control or supervision or upon its activities.

2. All bonds, notes and other obligations issued pursuant to this title, together with the income therefrom, as well as the income and property of the authority, shall be exempt from taxation, except for transfer and estate taxes.

§ 1982. Tax contract by the state. The state of New York covenants with the purchasers and with all subsequent holders and transferees of bonds and notes issued by the authority pursuant to this title, in consideration of the acceptance of and payments for the bonds and notes, that the bonds and notes of the authority issued pursuant to this title and the income therefrom, and all moneys, funds and revenues pledged to pay or secure the payment of such bonds and notes, shall at all times be free from taxation except for transfer and estate taxes.

§ 1983. Remedies of bondholders. 1. In the event that the authority shall default in the payment of principal of or interest on any issue of the bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title, or shall default in any agreement made with the holders of any issue of the bonds, the holders of twenty-five per centum in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the Register of the city of New York in the county of New York and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purposes herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds then outstanding shall, in his or its own name

(a) by mandamus or other suit, action or proceeding at law or in equity enforce all rights of the bondholders, including the right to require the authority to collect revenues, rates, rentals, fees and other charges adequate to carry out any agreement as to, or pledge of such revenues, rates, rentals, fees and other charges and to require the authority to carry out any other agreements with the holders of such bonds and to perform its duties under this title;

(b) bring suit upon such bonds;

(c) by action or suit in equity, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) by action or suit in equity, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds;

(e) declare all such bonds due and payable, and if all defaults shall be made good then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. The supreme court shall have jurisdiction of any suit, action or proceeding by the trustee on behalf of bondholders.

4. Before declaring the principal of all such bonds due and payable the trustee shall first give thirty days' notice in writing to the authority.

5. Any such trustee whether or not the issue of bonds represented by such trustee be declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project the revenues of which are pledged for the security of the bonds of such issue, and such receiver may enter and take possession of such part or parts of such project, and, subject to any pledge or agreement with bondholders, shall take possession of all moneys and other property derived from such part or parts of such project and proceed with any construction thereon or the acquisition of any property, real or

personal, in connection therewith which the authority is under obligation to do, and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom, subject to any pledge thereof or agreement with bondholders relating thereto, and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

6. Such trustees shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

§ 1984. Actions. In any case founded upon tort a notice of claim shall be required as a condition precedent to the commencement of an action or special proceeding against the authority or any officer, appointee or employee thereof, and the provisions of section fifty-e of the general municipal law shall govern the giving of such notice. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter. Except in an action for wrongful death, an action against the authority for damages for injuries to real or personal property, or for the destruction thereof, or for personal injuries, alleged to have been sustained, shall not be commenced more than one year and ninety days after the cause of action therefor shall have accrued.

§ 1985. Limitation of liability. Neither the members of the authority, nor any person or persons acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from the acquisition, construction, improvement, enlargement, operation and maintenance of the project, or any part or parts thereof, or from carrying out any of the powers expressly given in this act.

§ 1986. Assistance by state officers, departments, agencies and commissions.

(1) The department of audit and control, department of law, the division of housing and community renewal and all other state agencies may render such services to the authority within their respective functions as may be requested by the authority.

(2) Upon request of the authority, any state agency is hereby authorized and empowered to transfer to the authority such officers and employees as it may deem necessary from time to time to assist the authority in carrying out its functions and duties under this title. Officers and employees so transferred shall not lose their civil service status or rights.

§ 1987. Separability. If any section, clause or provision of this title shall be held unconstitutional, or be ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective and no other section, clause or provision shall, on account thereof, be deemed invalid or ineffective.

§ 1988. Effect of inconsistent provisions. In so far as the provisions of this title are inconsistent with the provisions of any other act, general or special, the provisions of this title shall be controlling.

TITLE 13

ONONDAGA COUNTY SOLID WASTE DISPOSAL AUTHORITY

§ 2015. Short title. This section shall be titled Onondaga county solid waste disposal authority.

§ 2016. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context.

1. The term "authority" shall mean the corporation created by section two thousand seventeen of this title;

2. The term "county" shall mean the county of Onondaga;

3. The term "treasurer" shall mean the treasurer of the authority;

4. The term "comptroller" shall mean the comptroller of the state of New York;

5. The term "personnel commissioner" shall mean the personnel commissioner of the county of Onondaga;

6. The term "properties" shall mean the receiving/transfer and/or treatment stations including the plants, works, instrumentalities or part thereof and appurtenances thereto, lands, easements, rights in land, rights-of-way, contract rights, franchises, approaches and equipment;

7. The term "bonds" shall mean the bonds, notes and obligations, issued by the authority, pursuant to this act;

8. The term "revenues" shall mean all charges and other income derived by the operation of the authority;

9. The term "municipality" shall mean any county, city, town, village, town water district, fire district, fire protection district, fire alarm district, school district, and any other political subdivision of the state.

§ 2017. Onondaga county solid waste disposal authority. 1. A corporation known as the "Onondaga county solid waste disposal authority" is hereby created for the purposes and charged with the duties and having the powers provided in this title. The authority shall be a body corporate and politic constituting a public benefit corporation. It shall consist of five members, all of whom shall be residents of the county, who shall be appointed by the county executive of the county of Onondaga subject to confirmation by a majority of the Onondaga county legislature. The first members shall be appointed for the following terms from the effective date of this act, as follows: two for a term of three years, two for a term of two years and one for a term of one year. Subsequent appointments shall be made in the same manner and for terms of three years. All members shall continue to hold office until their successors are appointed and qualify. The first chairman shall be designated by the county executive. Subsequent chairmen shall be elected annually by the members of the authority. Vacancies, occurring otherwise than by expiration of term of office, shall be filled by appointments by the county executive for the unexpired terms. Members of the authority may be removed from office for the same reasons and in the same manner as may be provided by law for the removal of officers of the county. The members of the authority shall receive no compensation for their services but shall be reimbursed for all their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the authority shall be vested in and be exercised by the members at a meeting duly called and held and three members shall constitute a quorum. No action shall be taken except pursuant to the favorable vote of at least three members. The authority may delegate to one or more of its members, officers, agents or employees such powers and duties as it may deem proper.

2. The authority and its corporate existence shall continue until all its liabilities have been met and its bonds have been paid in full or such liabilities or bonds have otherwise been discharged and thereupon all rights and properties of the authority shall pass to and be vested in the county of Onondaga.

3. The officers of the authority shall consist of a chairman, a vice-chairman and a treasurer, who shall be members of the authority, and a secretary, who need not be a member of the authority. The vice-chairman, treasurer and secretary shall be appointed by the authority and shall serve at the pleasure of the authority. The authority may appoint and at pleasure remove an attorney and an engineer, which positions, in addition to the position of secretary, shall be in the exempt class of the civil service, and such additional officers and employees as it may require for the performance of its duties, fix and determine their qualifications, duties and compensation, subject to the provisions of the civil service law of the state of New York. The authority may also from time to time contract for expert

professional services. The treasurer shall execute a bond, conditioned upon the faithful performance of the duties of his office, the amount and sufficiency of which shall be approved by the authority and the premium therefor shall be paid by the authority.

4. It is hereby determined and declared that the authority and the carrying out of its powers, purposes and duties are in all respects for the benefit of the people of the county of Onondaga and the state of New York, for the improvement of their health, welfare and prosperity and that the said purposes are public purposes and that the authority is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

5. Upon creation of the authority, from time to time the county legislature may, by resolution, appropriate sums of money to defray the preliminary expenses of the authority. The moneys so appropriated shall be repaid by the authority to the county out of the proceeds of the first bond issue of the authority.

§ 2018. Powers of the authority. The authority shall have power:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To acquire, in the name of the authority, lease, hold and dispose of real estate and personal property or any interest therein for its corporate purposes, including the power to purchase prospective or tentative awards in connection with the exercise of the power of condemnation hereinafter granted;

4. To acquire in the name of the authority any lands, easements, rights in lands, contract rights and franchises for the purpose of erecting receiving/transfer stations and/or treatment stations including equipment or any other property incidental to and included in such improvements;

5. To receive, transport, process and dispose of solid waste materials;

6. To condemn in the name of the authority, within the territorial limits of the county of Onondaga, any lands, easements or rights in land required by the authority for the purpose of constructing and erecting proper receiving/transfer and/or treatment stations;

7. To construct and develop disposal sites for solid waste materials within the county of Onondaga, and to have the right to contract with other municipalities or any other governmental subdivision for disposal outside the county of Onondaga, and to purchase, lands, easements, rights in lands and rights-of-way in connection therewith within such county and to own and operate, maintain, repair, improve, reconstruct, enlarge and extend, subject to provision of this title, any of its properties acquired or constructed under this title, all of which, together with the acquisition of such properties, are hereby declared to be public purposes;

8. To receive from any or all municipalities, as well as private parties, within the county of Onondaga, or from such other sources as the authority may deem proper, solid wastes for the purpose of disposal thereof, with the right of the authority to sell and dispose of any such products of the waste material as they may deem best and proper;

9. To contract with municipalities within the county of Onondaga or outside the county of Onondaga or with private contractors for the purpose of treating and disposing of solid waste materials;

10. To acquire, hold, use, lease, sell, transfer and dispose of any property, real, personal or mixed, or any interest therein, for its corporate purposes;

11. To make by-laws for the management and regulation of its affairs and subject to agreements with bondholders, rules for the receiving and disposing of solid wastes and charges therefor. A copy of such rules and

by-laws, and all amendments thereto, duly certified by the secretary of the authority shall be filed in the office of the clerk of the county and thereafter published once in two newspapers having a general circulation in the county;

12. To use the officers, employees, facilities and equipment of the county with the consent of the county, paying a proper portion of the compensation or cost;

13. To make contracts and to execute all necessary or convenient instruments, including evidences of indebtedness, negotiable or non-negotiable;

14. To enter on any lands, waterways and premises for the purpose of making surveys, soundings and examinations;

15. To borrow money and to issue negotiable bonds or notes or other obligations and to fund or refund the same, and to provide for the rights of the holders of its obligations;

16. To fix rates and collect charges for the use of the facilities of, or services rendered by, or any commodities furnished by the authority such as to provide revenues sufficient at all times to pay, as the same shall become due, the principal and interest on the bonds, notes or other obligations of the authority together with the maintenance of proper reserves therefor, in addition to paying as the same shall become due the expense of operating and maintaining the properties of the authority together with proper reserves for depreciation, maintenance and contingencies and all other obligations and indebtedness of the authority;

17. To accept grants, loans or contributions from the United States, the state of New York, or any agency or instrumentality of either of them, or the county, or an individual, by bequest or otherwise, and to expend the proceeds for any purposes of the authority;

18. To do all things necessary or convenient to carry out the powers

expressly given in this title.

§ 2019. Moneys of the authority. All moneys of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in a bank or banks in the state of New York designated by the authority. The moneys in such accounts shall be paid out on check of the treasurer on requisition by the authority or of such other person or persons as the authority may authorize to make such requisitions. All deposits of such moneys shall, if required by the comptroller or the authority, be secured by obligations of the United States or of the state of New York or of the county of a market value equal at all times to the amount of deposit and all banks and trust companies are authorized to give such security for such deposits. The comptroller and his legally authorized representatives of the county of Onondaga, and the comptroller if they so elect, are hereby authorized and empowered from time to time to examine the accounts and books of the authority, including its receipts, disbursements, contracts, leases, sinking funds, investments and any other matters relating to its financial standing. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any of its bonds as to the custody, collection, security, investment and payment of any moneys of the authority, or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys may be secured in the same manner as moneys of the authority, and all banks and trust companies are authorized to give such security for such deposits.

§ 2020. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue its negotiable bonds for any of its corporate purposes, including incidental expenses in connection therewith, and to secure the payment of the same by a lien or pledge covering all or part of its contract, earnings or revenues. The authority shall have power from time to time whenever it deems refunding expedient, to refund any bonds by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any of its corporate purposes. Except as may be otherwise expressly provided by the authority, every issue of bonds by the authority shall be general obligations payable out of any moneys, earnings or revenues of the authority, subject only to any agreements with the holders of particular bonds pledging any particular moneys, earnings or revenues. Notwithstanding the fact that the bonds may be payable from a special fund, if they are otherwise of such form and character as to be negotiable instruments under the terms of negotiable instruments law (constituting chapter thirty-eight of the consolidated laws) the bonds shall be and are hereby made negotiable instruments within the meaning of and for all the purposes of the negotiable instruments law, subject only to the provisions of the bonds for registration.

2. The bonds shall be authorized by resolution of the authority and shall bear such date or dates, mature at such time or times not exceeding forty years from their respective dates, bear interest at the best possible interest rate per annum as may be obtainable, be in such denominations, be in such form either coupon or registered, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America, at such place or places and be subject to such terms of redemption, as such resolution or resolutions may provide.

All bonds of the authority shall be sold at public or private sale as the authority shall determine. No bonds of the authority may be sold at private sale, however, unless such sale and the terms thereof have been approved by the county legislature. If such bonds are sold at public sale, such sale shall be upon sealed bids to the bidder who shall offer the lowest interest cost to the authority to be determined by the authority. Notice of any public sale shall be published at least once, not less than ten nor more than forty days before the date of sale, in a financial newspaper published and circulated in the city of New York and designated by the authority. The notice shall call for the receipt of sealed bids and shall fix the date, time and place of sale.

3. Any resolution or resolutions authorizing any bonds or any issue of bonds may contain provisions, which shall be a part of the contract with the holders of the bonds thereby authorized, as to

(a) pledging all or any part of the moneys, earnings, income and revenues derived from all or any part of the properties of the authority to secure the payment of the bonds or of any issue of the bonds subject to such agreements with bondholders as may then exist;

(b) the rates, rentals, fees and other charges to be fixed and collected and the amounts to be raised in each year thereby, and the use and disposition of the earnings and other revenues;

(c) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(d) limitations on the right of the authority to restrict and regulate the use of the properties in connection with which such bonds are issued;

(e) limitations in the purposes to which and the manner in which the proceeds of sale of any issue of bonds may be applied;

(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured; the refunding of outstanding or other bonds;

(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) the creation of special funds into which any earnings or revenues of the authority may be deposited;

(i) the terms and provisions of any mortgage or trust deed or indenture securing the bonds or under which bonds may be issued;

(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders pursuant to section eleven hundred forty-three hereof, and limiting or abrogating the right of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of such trustee;

(k) defining the acts or omissions to act which shall constitute a default in the obligations and duties of the authority to the bondholders and providing the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of this state and other provisions of this title;

(l) limitations on the power of the authority to sell or otherwise dispose of its properties;

(m) any other matters, of like or different character which in any way affect the security or protection of the bonds;

(n) limitations on the amount of moneys derived from the properties to be expended for operating, administrative or other expenses of the authority;

(o) the protection and enforcement of the rights and remedies of the bondholders;

(p) the obligations of the authority in relation to the construction, maintenance, operation, repairs and insurance of the properties, the safeguarding and application of all moneys and as to the requirements for the supervision and approval of consulting engineers in connection with construction, reconstruction and operation;

(q) the payment of the proceeds of bonds and revenues of the the properties to a trustee or other depositary, and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine.

4. It is in the intention of the legislature that any pledge of earnings, revenues or other moneys made by the authority shall be valid and binding from the time when the pledge is made; that the earnings, revenues or other moneys so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and that the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

5. Neither the members of the authority nor any person executing the bonds or other obligations shall be liable personally on the bonds or other obligations or be subject to any personal liability or accountability by reason of the issuance thereof.

6. The authority shall have power out of any funds available therefor to purchase (as distinguished from the power of redemption hereinabove provided) any bonds issued by it or which may be assumed by such authority at a price of not more than the principal amount thereof and accrued interest, and all such bonds shall be cancelled.

7. In the discretion of the authority, the bonds may be secured by a trust indenture by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company in the state of New York. Such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the construction, maintenance, operation, repair and insurance of the properties, and the custody, safeguarding and application of all moneys, and may provide that the properties shall be constructed and paid for under the supervision and approval of consulting engineers. The authority may provide by such trust indenture for the payment of the proceeds of the bonds and the revenues of the properties to the trustee under such trust indenture or other depository, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out such trust indenture may be treated as a part of the cost of maintenance, operation and repairs of the properties. If the bonds shall be secured by a trust indenture the bondholders shall have no authority to appoint a separate trustee to represent them.

Notwithstanding any other provisions of this title, any resolution or resolutions authorizing bonds or notes of the authority shall contain a covenant by the authority that it will at all times maintain rates, fees, rentals and/or other charges sufficient to pay, and that any contracts entered into by the authority for the receipt and treatment and/or disposal of solid wastes shall contain rates, fees, rentals or other charges sufficient to pay, the cost of operation and maintenance of the properties, the principal of and interest on any obligation issued pursuant to such resolution or resolutions as the same severally become due and payable, and to maintain any reserves or other funds required by the terms of such resolution or resolutions.

§ 2021. Notes of the authority. The authority shall have power and is hereby authorized to issue negotiable bond anticipation notes and may renew the same from time to time but the maximum maturity of any such note, including renewals thereof, shall not exceed five years from the date of issue of such original note. Such notes shall be paid from any moneys of the authority available therefor and not otherwise pledged or from the proceeds of sale of the bonds of the authority in anticipation of which they were issued. The notes shall be issued in the same manner as the bonds and such notes and the resolution or resolutions authorizing the same may contain any provisions, conditions or limitations which the bonds or a bond resolution of the authority may contain. Such notes may be sold at public or private sale at not less than par and shall bear interest at the legal interest rate. Such notes shall be as fully negotiable as the bonds of the authority.

§ 2022. Duty of authority to maintain and operate. It shall be the duty of the authority, subject to any limitation on the amount of revenues to be expended for such purpose, to maintain and operate and where necessary to reconstruct its properties.

§ 2023. Transfer of officers and employees. Any public officer or employee under civil service, selected by the authority may, with the consent of the commission, board or department by which he or she has been employed, be transferred to the authority and shall be eligible for such transfer and appointment without examination to comparable offices, positions and employment under the authority. The salary or compensation of any such officer or employee shall after such transfer be paid by the authorty. But notwithstanding the provisions of this act, any such officers or employees so transferred to the authority, pursuant to the provisions of this section, who are members of or beneficiaries under any existing pension or retirement system, shall continue to have all rights, privileges, obligations and status with respect to such fund system or systems as are now prescribed by law, but during the period of their employment by the authority, all contributions to any pension or retirement fund or system to be paid by the employer on account of such officers or employee, shall be paid by the authority; and all such officers and employees who have been appointed to positions under the rules and classifications of the state civil service commission shall have the same status with respect thereto after transfer to the authority as they had under their original appointments. It is hereby declared that in the interest of efficiency and in so far as it may be practicable, all employees engaged in the operation of any property or properties, except in an executive capacity, at the time such property or properties shall have been acquired by the authority, pursuant to the provisions of this act, shall become the employees of the authority. The authority shall be deemed an employer within the meaning of the state labor relations law. The appointment and promotion of all employees of the authority shall be made in accordance with the provisions of the civil service law (constituting chapter seven of the consolidated laws).

§ 2024. Agreements of the state. The state of New York does pledge to and agree with the holders of the bonds or notes that the state will not limit or alter the rights hereby vested in the authority to acquire, construct, maintain, operate, reconstruct and improve the properties, to establish and collect the revenues, rates, rentals, fees and other charges referred to in this title and to fulfill the terms of any agreements made with the holders of the bonds or notes, or in any way impair the rights and remedies of such bondholders or noteholders, until the bonds or notes together with interest thereon, interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of the bondholders or noteholders are fully met and discharged.

§ 2025. State, county and municipalities not liable on bonds or notes. The bonds or notes of the authority shall not be a debt of the state of New York or of the county or of any municipality in the county, and neither the state nor the county nor any municipality in the county shall be liable thereon, nor shall they be payable out of any funds other than those of the authority.

§ 2026. Bonds and notes legal investments for fiduciaries. The bonds, or notes, are hereby made securities in which all public officers and bodies of this state and all municipalities and municipal subdivisions, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, and all other persons whatsoever, except as hereinafter provided, who are now or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them; provided that, notwithstanding the provisions of any other general or special law to the contrary, such bonds or notes shall not be eligible for the investment of funds including capital, of trusts, estates or guardianships under the control of individual administrators, guardians, executors, trustees and other individual fiduciaries. The bonds or notes are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities and municipal subdivisions for any purpose for which the deposit of bonds or other obligations of this state is now or may hereafter be authorized.

§ 2027. Exemption from taxes. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the county of

Onondaga and its environments, and is a public purpose, and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall be required to pay no taxes upon any of the properties acquired by it or under its jurisdiction or control or supervision or upon its activities.

2. Any bonds or notes issued pursuant to this title, together with the income therefrom, as well as the property of the authority, shall be exempt from taxation, except for transfer and estate taxes.

§ 2028. Tax contract by the state. The state of New York covenants with the purchasers and with all subsequent holders and transferees of bonds or notes issued by the authority pursuant to this title, in consideration of the acceptance of and payment for the bonds or notes that the bonds and notes of the authority issued pursuant to this title and the income therefrom, and all moneys, funds and revenues pledged to pay or secure the payment of such bonds or notes, shall at all times be free from taxation except for transfer and estate taxes.

§ 2029. Officers and employees not to be interested in transactions. It shall be a misdemeanor for any of the members of the authority, or any officer, agent, servant or employee thereof, employed or appointed by them to be in any way or manner interested directly or indirectly in the furnishing of work, materials, supplies or labor, or in any contract therefor which the authority is empowered by this title to make.

§ 2030. Contracts. All contracts, or orders, for work, material or supplies performed or furnished in connection with construction shall be awarded by the authority pursuant to resolution. Such contracts, or orders, for work, material or supplies needed for any particular purpose involving an expenditure of more than two thousand five hundred dollars shall be awarded only after inviting sealed bids or proposals therefor. The notice inviting sealed proposals shall be published at least once in a newspaper or trade paper selected by the authority for such purpose, such publication to the be at least ten days before the date for the receipt of bids. If the authority shall not deem it for the interest of the authority to reject all bids, it shall award the contract to the lowest bidder, unless the authority shall determine that it is for the public interest that a bid other than the lowest bid should be accepted. In any contract for work, material or supplies, there shall be inserted in the discretion of the authority a provision that additional work may be done or material or supplies furnished for the purpose of completing such contract at an expense not exceeding fifteen per centum of the amount of such contract if such additional work, materials or supplies shall be ordered by the authority. The bidder whose bid is accepted shall give security for the faithful performance of the contract, and such other security as the authority may require, and may be required to maintain for such period as shall be stipulated any construction done under the contract, all in the manner prescribed and required by the authority; and the sufficiency of such security shall, in addition to the justification and acknowledgment, be approved by the authority. All bids or proposals shall be publicly opened by the authority or its duly authorized agent. If the bidder whose bid has been accepted after advertising shall neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him on his bid or proposal, or, if he accepts but does not execute the contract and give proper security the authority shall have the right to declare his deposit forfeited, and thereupon it shall be readvertised and relet as above provided. In case any work shall be abandoned by any contractor, the authority may, if the best interest of the authority be thereby served, adopt on behalf of the authority any or all subcontracts made by such contractor for such work and all such subcontractors shall be bound by such adoption if made; and the authority shall in the manner provided herein readvertise and relet the work specified in the original contract exclusive of so much thereof as shall be provided for in the subcontract or subcontracts so adopted. No bid shall be accepted from or any contracts awarded to, any person or corporation who is in arrears to the authority, or the county of Onondaga upon any debt or contract, or is a defaulter as surety or otherwise upon any obligation of the authority, or the county. Every contract involving an expenditure of more than two thousand five hundred dollars when made and entered into as herein provided for shall be executed in duplicate, one copy of which shall be held by the authority and one copy of which shall be delivered to the contractor.

§ 2031. Remedies of bondholders. 1. In the event that the authority shall default in the payment of principal of or interest on any issue of the bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title, or shall default in any agreement made with the holders of any issue of the bonds, the holders of twenty-five per centum in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county of Onondaga and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purposes herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds then outstanding shall, in his or its own name

(a) by mandamus or other suit, action or proceeding at law or in equity enforce all rights of the bondholders, including the right to require the authority to collect revenues, rates, rentals, fees and other charges adequate to carry out any agreement as to, or pledge of such revenues, rates, rentals, fees and other charges and to require the authority to carry out any other agreements with the holders of such bonds and to perform its duties under this title;

(b) bring suit upon such bonds;

(c) by action or suit in equity, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) by action or suit in equity, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds;

(e) declare all such bonds due and payable, and if all defaults shall be made good then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul

such declaration and its consequences.

3. The supreme court shall have jurisdiction of any suit, action or proceeding by the trustee on behalf of bondholders.

4. Before declaring the principal of all such bonds due and payable the trustee shall first give thirty days' notice in writing to the authority.

5. Any such trustee whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the properties the revenues of which are pledged for the security of the bonds of such issue and such receiver may enter and take possession of such part or parts of the properties and subject to any pledge or agreement with bonders shall take possession of all moneys and other property derived from such part or parts of the properties and proceed with any construction thereon or the acquisition of any property, real or personal in connection therewith which the authority is under obligation to do, and to operate, maintain and reconstruct such part or parts of the properties and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the properties.

6. Such trustees shall in addition to the foregoing have and possess all of the powers necessary or appopriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

§ 2032. Actions. In any case founded upon tort a notice of claim shall be required as a condition precedent to the commencement of an action or special proceeding against the authority or any officer, appointee or employee thereof, and the provisions of section fifty-e of the general municipal law shall govern the giving of such notice. Except in an action for wrongful death, an action against the authority for damages for injuries to real or personal property, or for the destruction thereof, or for personal injuries, alleged to have been sustained, shall not be commenced more than one year and ninety days after the cause of action therefor shall have accrued.

§ 2033. Audit of authority; annual report. In conformity with the provisions of section five of article ten of the constitution, the accounts of the authority shall be subject to the supervision of the state comptroller and such state comptroller and his legally authorized representatives are hereby authorized and empowered from time to time to examine the accounts and the books of the authority, including its receipts, disbursements, contracts, leases, sinking funds, investments and any other matters relating to its financial standing. The authority shall annually submit to the governor and the comptroller and to the legislature a detailed report pursuant to the provisions of section twenty-eight hundred of this chapter, and a copy of such report shall be filed with the chief fiscal officer of the county.

§ 2034. Limitation of liability. Neither the members of the authority, nor any person or persons acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from the erection, construction, reconstruction, maintenance or operation of the properties or any of the improvements or from carrying out any of the powers expressly given in this title.

§ 2035. Title not affected if in part unconstitutional or ineffective. If any section, clause or provision of this title shall be held unconstitutional, or be ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective and no other section, clause or provision shall, on account thereof, be deemed invalid or ineffective.

§ 2036. Effect of inconsistent provisions. In so far as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of any local law of any city, the provisions of this title shall be controlling. Nothing contained in this title shall be held to alter or abridge the powers and duties of the state department of health over solid waste disposal matters.

*** § 2037. Limitation on power of the authority.** Notwithstanding any other provision of this title, the authority, on and after the effective date of this section, shall not exercise any of the powers granted pursuant to subdivisions three, four, six, seven, eight, nine, ten, thirteen, fourteen and fifteen of section two thousand eighteen, or section two thousand twenty or two thousand twenty-one of this title, without approval by resolution of the county legislature; provided, however, that the authority may continue to exercise such powers granted pursuant to subdivisions three, four, six, seven, eight, nine, ten, thirteen, fourteen and fifteen of section two thousand eighteen of this title as may be necessary for the routine operation and ordinary maintenance of the properties of the authority unless the county legislature otherwise acts to the contrary within forty-five days of the submission to the county legislature of a request by the authority for approval to exercise any such powers.

* NB Expired April 1, 1982

TITLE 13-AA

MONTGOMERY, OTSEGO, SCHOHARIE SOLID WASTE MANAGEMENT AUTHORITY

§ 2041. Short title. This title shall be known and may be cited as the "Montgomery, Otsego, Schoharie solid waste management authority act".

§ 2041-a. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. "Area of operation" shall mean any or all of the participating counties.

2. "Authority" shall mean the public benefit corporation created by section two thousand forty-one-b of this title, known as the Montgomery, Otsego, Schoharie solid waste management authority.

2-a. "Authorities budget office" shall mean the independent entity within the department of state established pursuant to section four of this chapter.

3. "Bonds" shall mean the bonds, notes or other evidences of indebtedness issued by the authority pursuant to this title and the provisions of this title relating to bonds and bondholders which shall apply with equal force and effect to notes and noteholders, respectively, unless the context otherwise clearly requires.

4. "Construction" shall mean the acquisition, erection, building, alteration, repair, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of a solid waste management resource recovery facility including any appurtenances thereto which may be necessary or desirable to promote the efficiency or effectiveness of a project; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures and other actions incidental thereto.

5. "Cost", as applied to any contract, means and includes the cost of construction, the cost of the acquisition of all property, including real property and other property, both real and personal and improved and unimproved, the cost of demolishing, removing or relocating any buildings or structures on lands so acquired, including the cost of relocating tenants or other occupants of the buildings or structures on such land and the cost of acquiring any lands to which such buildings or structures may be moved or relocated, the cost of all systems,

facilities, machinery, apparatus and equipment, financing charges, interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultants' and legal services, the cost of lease guarantee or bond insurance, other expenses necessary or incidental to the construction of such project and the financing of the construction thereof, including the amount authorized in the resolution of the authority providing for the issuance of bonds to be paid into any reserve or other special fund from the proceeds of such bonds and the financing of the placing of any project in operation, including reimbursement to a county, any municipality, state authority, the state, the United States government or any other person for expenditures that would be costs of the project hereunder had they been made directly by the authority.

6. "Governing body" shall mean the members of the authority constituting and acting as the governing body of the authority.

7. "Legislative body" or "legislative bodies" shall mean any or all of the boards of supervisors of the counties of Montgomery and Schoharie and the board of representatives of the county of Otsego.

8. "Municipality" shall mean any county, including any participating county, city, town, village, refuse district under the county law, improvement district under the town law, any other such instrumentality, including an agency or public corporation of the state, or any of the foregoing, or any combination thereof.

9. "Participating counties" shall mean those of the counties of Montgomery, Otsego and Schoharie that shall have appointed members of the authority and shall have filed a certificate in accordance with section two thousand forty-one-b of this title.

10. "Person" shall mean any natural person, partnership, association, joint venture or corporation, exclusive of a public corporation.

11. "Primary public water supply aquifer" shall mean a highly

productive water bearing formation identified by the department consisting of unconsolidated (non-bedrock) geologic deposits, which: (1) receives substantial recharge from the overlying land surface; and (2) is presently utilized as a major source of water for public water supply.

12. "Principal aquifer" shall mean unconsolidated (non-bedrock) geologic deposits identified by the department which: (1) receives substantial recharge from the overlying land surface; (2) is known to be highly productive or whose geology suggests a potentially abundant source of water; and (3) is not presently used as a major source of water for public water supply.

13. "Project" shall mean any solid waste management resource recovery facility and any appurtenances thereto necessary or desirable to promote the efficiency or effectiveness of any facility, of which, or any portion of which, the planning, development, financing, construction, operation or maintenance is authorized to be undertaken in whole or in part by the authority pursuant to this title.

14. "Real property" shall mean lands, structures, franchises and interests in land, waters, lands underwater, riparian rights, air rights, space rights and any fixtures, equipment and articles of personal property affixed to or used in connection therewith, and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interests including, but not limited to easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgment, mortgages or otherwise and all claims for damages for such real estate.

15. "Resource recovery" shall mean the separation, extraction and recovery of usable materials, energy or heat from solid waste through source separation, incineration, recycling centers or other programs, projects or facilities.

16. "Revenues" shall mean all rates, fees, rents, charges and other income derived by the authority from its operations.

17. "Solid waste" shall mean all putrescible and non-putrescible solid wastes, including, but not limited to, materials or substances discarded or rejected, whether as being spent, useless, worthless or in excess to the owners at the time of such discard or rejection or for any other reason, or are being accumulated, stored, or physically, chemically or biologically treated prior to being discarded, having served their intended use, or are a manufacturing by-product, including, but not limited to, garbage, refuse, and other discarded solid materials, including solid waste materials resulting from industrial, commercial and agricultural operations and from community activities, sludges from air or water pollution control facilities or water supply treatment facilities, rubbish, ashes, contained gaseous material, incinerator residue, demolition and construction debris and offal, but not including sewage and other highly diluted water-carried materials or substances and those in gaseous form, special nuclear or by-product material within the meaning of the Atomic Energy Act of 1954, as amended, or waste which appears on the list or satisfies the characteristics of hazardous waste promulgated by the commissioner of environmental conservation pursuant to section 27-0903 of the environmental conservation law.

18. "Solid waste management resource recovery facility" or "facility" shall mean any facility, plant, works, system, building, structure, improvement, machinery, equipment, fixture or other real or personal property which is being used, occupied or employed for or is incidental to the collecting, receiving, transporting, storage, processing, or disposal of solid waste or the recovery by any means of any material or energy product or resource therefrom including, but not limited to, recycling centers, transfer stations, baling facilities, rail haul or maritime facilities, collection vehicles, processing systems, resource recovery facilities, steam and electric generating and transmission facilities, including auxiliary facilities to supplement or temporarily replace such generating facilities, steam distribution and related plants and facilities, sanitary landfills, leachate treatment facilities, plants and facilities for compacting, composting or

pyrolization of solid wastes, secure land burial facilities, landspreading facilities, surface impoundments and waste oil storage, reprocessing and recycling facilities, incinerators, and other solid waste disposal, reduction or conversion facilities and resource recovery equipment and disposal equipment as defined in subdivisions four and five of section 51-0903 of the environmental conservation law. Any such facility producing either electricity or shaft horsepower and useful thermal energy shall constitute a co-generation facility as defined in subdivision two-a of section two of the public service law.

19. "Source separation" shall mean the segregation of recyclable materials from the solid waste stream at the point of generation for separate collection, sale or other disposition.

20. "State" shall mean the state of New York.

§ 2041-b. Montgomery, Otsego, Schoharie solid waste management authority. 1. A corporation known as the Montgomery, Otsego, Schoharie solid waste management authority is hereby created for the public purposes and charged with the duties and having the powers provided in this title. The authority shall be a body corporate and politic constituting a public benefit corporation consisting of members appointed by the participating counties. Its membership shall consist of a board of no more than eight members, who shall be appointed as follows: three members from the county of Montgomery to be appointed by the chairman of the board of supervisors and confirmed by the board of supervisors of such county all of whom shall be residents of the county and at least one of whom shall be a resident of the city of Amsterdam; three members from the county of Otsego to be appointed by the chairman of the board of representatives and confirmed by the board of representatives of such county all of whom shall be residents of the county and at least one of whom shall be a resident of the city of Oneonta; two members from the county of Schoharie both of whom shall be residents of the county, and who shall be appointed by the chairman of the board of supervisors and confirmed by the board of supervisors of such county. The first members of the authority shall be appointed for the following terms from the thirty-first day of December of the year in which this title shall take effect; one member each to be appointed by each county for a term of four years; one member each to be appointed by each county for a term of two years; one member to be appointed by the county of Montgomery for a term of three years; one member to be appointed by the county of Otsego for a term of three years. Subsequent appointments of members shall be made in the same manner and for terms of four years ending in each case on the thirty-first day of December of the last year of each such term. All members shall continue to hold office until their successors are appointed and qualify. Vacancies occurring at the end of a term shall each be filled in the manner provided for original appointment and for a four year term. Vacancies occurring otherwise than by expiration of a term shall be filled by the affected participating county in the same manner respectively, for the unexpired terms. Members may be removed from office by the governing body of the county from which appointed for inefficiency, neglect of duty or misconduct in office after the authority or governing body has given such member a copy of the charges against him and an opportunity to be heard in person or by counsel in his defense, upon not less than ten days notice. If any member shall be so removed, there shall be filed with the chairman of the authority and the chairman of such governing body a complete statement of charges made against such member and the findings of the governing body thereon, together with a complete record of the proceeding.

2. The members of the authority shall receive no compensation for their services whether as members or officers of the authority but shall be reimbursed for all their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the authority shall be vested in the members thereof in office from time to time and a majority of members shall constitute a quorum at any meeting of the authority. No vacancy in the membership of the authority shall impair the right of such members to exercise all the rights and perform all the duties of the authority. Any action taken by the authority under the provisions of this title may be authorized at a meeting of the authority by resolution approved by a majority of the total number of members then in office, which resolution shall take

effect immediately.

3. The officers of the authority shall consist of a chairman, a vice-chairman and a treasurer, who shall be members of the authority and a secretary, who need not be a member of the authority. Such officers shall be selected by the governing body and shall serve in such capacities at the pleasure of the governing body. In addition to the secretary, the governing body may appoint and at pleasure remove an executive director, an attorney, an engineer and such additional officers and employees as it may determine necessary for the performance of the powers and duties of the authority, which positions shall be in the exempt class of civil service, and fix and determine their qualifications, duties and compensation, subject to the provisions of the civil service law, provided however, that no elected official of a participating county or any municipality therein shall be appointed as an employee of the authority; provided, however, that nothing contained in this section shall prohibit an elected official of a participating county or municipality therein from furnishing work, materials, supplies or labor pursuant to a contract which the authority is empowered to make pursuant to this title. The governing body may delegate to one or more of its members, officers, agents, or employees such powers and duties as it may deem proper. The governing body may also from time to time contract for expert professional services. The treasurer shall execute a bond, conditioned upon the faithful performance of the duties of his office, the amount and sufficiency of which shall be approved by the governing body and the premium for which shall be paid by the authority.

4. (a) Each of the counties of Montgomery, Otsego and Schoharie electing to participate in the authority shall file, on or before October first of the year following the year in which this title shall take effect, in the office of the secretary of state, a certificate signed by the chairman of its legislative body setting forth: the name of the authority; the names of the members appointed by that county; and the effective date of this title.

(b) The authority shall be perpetual in duration and shall continue until terminated by law, except if the certificate referred to in paragraph (a) of this subdivision is not filed by two or more counties on or before the date specified in such paragraph, then the corporate existence of the authority shall thereupon terminate and it shall be deemed to be and shall be dissolved, provided, however, that no such termination shall take effect so long as the authority shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof. Upon any termination of the existence of the authority, all of the rights and properties of the authority then remaining shall pass to and be vested in the participating counties in accordance with such law.

5. It is hereby determined and declared, that the authority and the carrying out of its powers and duties are in all respects for the benefit of the people of the participating counties and the state for the improvement of their health, welfare, and prosperity and that such purposes are public purposes and that the authority is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

§ 2041-c. Advances on behalf of authority; transfer of property to authority; acquisition of property by participating counties for authority. 1. In addition to any powers granted to it by law, any participating county may by resolution advance sums of money to or on behalf of the authority to defray project costs or any other costs and expenses of the authority to be incurred prior to the first issuance of bonds. Subject to the rights of any bondholders, the moneys so appropriated may be repaid by the authority to the participating county at such time and in such manner as may be agreed upon between the authority and the participating county.

2. Any participating county or any other municipality within the area of operation may give, grant, sell, convey, loan or license the use of or lease to the authority any property or facility which is useful to the authority in order to carry out its powers under this title. Any such transfer of property shall be upon such terms and conditions, subject to the rights of any bondholders, as the authority and the participating county or other municipality may agree.

3. Notwithstanding the provisions of any other law, general, special or local, real property acquired by the authority or any participating county from the state may be used for any corporate purpose of the authority.

§ 2041-d. Powers of the authority. The authority shall have the power:

1. To sue and be sued.

2. To have a seal and alter the same.

3. To acquire in the name of the authority, hold, sell, lease, mortgage or otherwise dispose of property, real, personal or mixed, or any interest therein, without limitation, for its corporate purposes.

4. To condemn, in the name of the authority pursuant to the eminent domain procedure law, any real property within the area of operation and required by the authority to carry out the powers granted by this title.

5. To collect, receive, extract, transport, process, dispose of, sell, store, convey, recycle, and deal with, in any lawful manner and way, solid waste and any products or by-products thereof now or hereafter developed or discovered, including any energy generated by the operation of any solid waste management resource recovery facility. Any such disposal or sale may be effected on such terms and in such manner as the authority may deem proper.

6. To plan, develop, purchase and construct projects and to pay the cost thereof and to have the right to contract in relation thereto with municipalities or persons within or without the area of operation and to own and operate, maintain, repair, improve, reconstruct, renovate, rehabilitate, replace, enlarge, increase and extend, subject to the provisions of this title, any of its projects acquired or constructed under this title, and to enter into contracts for any and all such purposes and for the management and operation of a project, and to sell,

lease, mortgage or otherwise dispose of any project or part thereof to the state, any person, public corporation, or municipality, subject to such conditions and limitations as the authority may determine to be in the public interest.

7. To assist in the planning, development and construction of and the financing of the cost of any project to be located in the area of operation whether or not such project is to be owned or operated by the authority, which assistance may include loans to any person or municipality.

8. To collect or receive from the United States, the state, any participating county, any other municipality, public corporation, corporation or person, solid waste for the purpose of treatment or disposal thereof, with the right of the authority to sell and dispose of any products or by-products, including energy, of such process of treatment or disposal, as the authority may deem proper.

9. To contract with any participating county, other municipalities, state agencies, public corporations, corporations or persons within or without the area of operation, for the purpose of collecting, receiving, treating and disposing of solid waste, including, without limitation, to contract with participating counties, other municipalities, state agencies, public corporations or persons for the delivery of all solid waste generated within a stated area to a specific facility.

10. To make by-laws for the management and regulation of its affairs and, subject to agreements with bondholders, for the regulation of the use of any project or other property of the authority, which by-laws and all amendments thereto, duly certified by the secretary of the authority, shall be filed in the office of the authority and in the office of the clerk of the legislative body of each participating county, and to provide for the enforcement of such by-laws by legal or equitable actions or proceedings which are or may be provided or authorized by law. In addition, the legislative bodies shall have power to prescribe that violations of specific by-laws of the authority, including, without limitation, any failure to comply with any by-law

requiring the payment of any fee or other charge by any person in connection with the delivery of solid waste to any facility or any other use of any facility by such person, shall constitute offenses or infractions and provide for the punishment of violations thereof.

11. With the consent of the chairman of the legislative body of a participating county or the legislative body of any municipality, to use the officers or employees of such participating county or any municipality within a participating county and to pay a proper portion of the compensation or costs for the services for such officers or employees. Provided, however, that a full time officer, member or employee shall not be compensated in the aggregate in an amount in excess of such officer's, member's or employee's full time compensation without the express approval of the county legislature.

12. To make contracts and to execute all necessary or convenient instruments, including evidences of indebtedness, negotiable or non-negotiable.

13. To enter on any lands, waterways or premises within the area of operation for the purpose of making surveys, soundings, and examinations, any liability for which shall not exceed actual damages.

14. To borrow money and to issue bonds for any of its corporate purposes, to secure the same with its revenues or other funds, to fund or refund the same, and to provide for the rights of the holders thereof.

15. Subject to any limitations imposed by any contract pursuant to subdivision one of section two thousand forty-one-t of this title, to fix and collect rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, or any commodities furnished by, the authority and to contract with any participating county, other municipality or person in respect thereto, so as to provide revenues sufficient at all times to pay, as the same shall become due, the principal and interest on the bonds of the authority, together with the maintenance of proper reserves therefor, in addition to paying, as the

same shall become due, the expenses of operating and maintaining the properties of the authority, together with proper reserves for debt service, depreciation, maintenance and contingencies and all other obligations and indebtedness of the authority, provided, however, that the authority shall not have the power, within any city, to collect rentals, charges, rates or fees from the owners of real estate, or the occupants of real estate (other than the occupants of premises owned or controlled by the authority, or by the state or any civil division thereof), for services or facilities furnished or supplied in connection with such real estate, if such services or facilities are of a character or nature that, as of the effective date of this title, are or formerly were furnished or supplied by the city, unless the electors of the city shall approve the granting to the authority of such powers by a majority vote at a general or special election in the city.

16. To accept gifts, grants, loans or contributions from the United States, the state or any authority or instrumentality of either of them, or any municipality or from any person, by bequest or otherwise, and to expend the proceeds for any corporate purposes of the authority.

17. To enter into agreements, in its discretion, to pay annual sums in lieu of taxes to any municipality, political subdivision or taxing district of the state in respect to any real property which is owned by the authority and located in such municipality, political subdivision or taxing district.

18. To establish standards and criteria which shall be used to determine if real property shall be utilized in conjunction with any solid waste management program provided, however, that in no instance shall such standards and criteria provide for the placement of sanitary landfills, leachate treatment facilities, secure land burial facilities, landspreading facilities, surface impoundments and waste oil storage facilities over a primary public water supply aquifer or principal aquifer. Once such standards and criteria are established, no real property shall be acquired except in accordance with such standards and criteria. Such standards and criteria shall be established after a public hearing in each participating county upon such proposed standards

and criteria, which public hearing shall be on at least ten days notice in a newspaper or newspapers of general circulation in the counties of Montgomery, Otsego and Schoharie. Such notice shall also be sent by regular mail to the clerk of each municipality in such three counties, including the clerk of each county.

19. To make payments to, and settle claims asserted by owners of property in proximity to and adversely affected by, landfill facilities of the authority in order to compensate such owners in whole or in part for diminution of the value of their property, if any, directly resulting from the siting of the authority landfill facility or the activities undertaken therein. The amount and manner of such payments shall be determined by resolution of the authority, and shall be based on real estate market studies and/or appraisals undertaken at the direction of the authority, in such form and substance satisfactory to the authority. The authority may establish rules and regulations setting forth the specifications pursuant to which real estate market studies and/or appraisals shall be conducted and such other rules and regulations as may be necessary to effectuate the purposes of this subdivision. Such rules and regulations shall include a requirement that all property owners requesting payments in accordance therewith must file a claim with the authority by a date specified by the authority. Any payments made pursuant to the provisions of this subdivision shall be considered a cost of the authorities in the computation of rates, fees, and charges in accordance with subdivision fifteen of this section.

20. In addition to the power granted by subdivision seventeen of this section, to make payments to and settle claims asserted by municipalities either adversely affected by landfill facilities of the authority, or, in which landfill facilities of the authority are located to compensate such municipalities for additional municipal service support, monitoring and similar activities occasioned by the siting, construction, and operation of said landfill. The amount and manner of such payments shall be determined by resolution of the authority in its discretion and shall be utilized by the recipient municipality in conformance with the purposes heretofore set forth. Any payments made

pursuant to the provisions of this subdivision shall be considered a cost of the authority and may be included in the computation of rates, fees and charges in accordance with this section.

21. To do all things necessary or convenient to carry out the powers expressly given in this title.

§ 2041-e. Governmental capacity of the authority and municipalities. The authority, participating counties and other municipalities within the area of operation, in carrying out their respective powers and duties under this title, shall be deemed to be acting in a governmental capacity. The construction, operation and maintenance of any project financed in whole or in part by the authority, shall be deemed to be the performance of an essential government function by the authority acting in its governmental capacity, whether such project shall be owned or operated by the authority or by any person or other public corporation.

§ 2041-f. Transfer of officers and employees. Any officer or employee of a participating county or of any municipality located within a participating county under civil service who is selected by the authority may, with the consent of the legislative body of the employing county or municipality, be transferred to the authority and shall be eligible for such transfer and appointment, without examination, to applicable offices, positions and employment under the authority. The salary or compensation of any such officer or employee, after such transfer, shall be paid by the authority. Any such officers or employees so transferred to the authority pursuant to this section who are members of or benefit under any existing pension or retirement fund or system shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law but, during this period of their employment by the authority, all contributions to such fund or system heretofore made by the employing county or municipality, shall be made by the authority. All such officers or employees so transferred to the authority who have been appointed to positions under the rules and classifications of the personnel officer of the county or any employing municipality shall have the same status with respect thereto after transfer to the authority as they had under their original appointment.

§ 2041-g. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue bonds in such principal amounts as it may determine to be necessary to pay the cost of any project or for any other corporate purpose, including incidental expenses in connection therewith. The authority shall have power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee of any bonds. The authority shall have power from time to time to refund any bonds by the issuance of new bonds whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose. Bonds issued by the authority may be general obligations secured by the faith and credit of the authority or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the authority under which the bonds shall be authorized to be issued, subject as to priority only to any agreements with the holders of outstanding bonds pledging any particular property, revenues or moneys. The authority may also enter into loan agreements, lines of credit and other security agreements and obtain for or on its behalf letters of credit in each case for securing its bonds or to provide direct payment of any costs which the authority is authorized to pay.

2. Bonds shall be authorized by resolution of the authority, be in such denominations and bear such date or dates and mature at such time or times, as such resolution may provide, provided that bonds and renewals thereof shall mature within thirty years from the date of original issuance of any such bonds. Obligations with a maturity of five years or less from the date of their original issuance may be designated as notes. Bonds and notes shall be subject to such terms of redemption, bear interest at such rate or rates, be payable at such times, be in registered form, be executed in such manner, be payable in such medium

of payment at such place or places, and be subject to such terms and conditions as such resolution may provide. Bonds may be sold at public or private sale for such price or prices, in such manner and from time to time, as the authority shall determine, provided that no bonds of the authority, other than obligations designated as notes, shall be sold by the authority at private sale unless such sale and the terms thereof have been approved in writing by the state comptroller, where such sale is not to the comptroller, or by the state director of the budget, where such sale is to the comptroller. The authority may pay all expenses, premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale of bonds.

3. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to:

(a) pledging all or any part of the revenues, other moneys or property of the authority to secure the payment of the bonds, or any costs of issuance thereof, including but not limited to any contracts, earnings or proceeds of any grant to the authority received from any private or public source subject to such agreements with bondholders as may then exist;

(b) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(c) limitations on the purpose to which the proceeds from the sale of bonds may be applied;

(d) the rates, rents, fees and other charges to be fixed and collected by the authority and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) limitations on the right of the authority to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;

(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) the creation of special funds into which any revenues or moneys may be deposited;

(i) the terms and provisions of any trust, mortgage, deed or indenture securing the bonds under which the bonds may be issued;

(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustees appointed by the bondholders pursuant to section two thousand forty-one-h of this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of such trustee;

(k) defining the acts or omissions to act which may constitute a default in the obligations and duties of the authority to the bondholders and providing for the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) limitations on the power of the authority to sell or otherwise dispose of any project or any part thereof;

(m) limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the authority;

(n) the payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine; and

(o) any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

4. In addition to the powers herein conferred upon the authority to secure its bonds, the authority shall have power in connection with the issuance of bonds to enter into such agreements as the authority may deem necessary, convenient or desirable concerning the use or disposition of its revenues or other moneys or property, including the

mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, moneys or property and the doing of any act, including refraining from doing any act which the authority would have the right to do in the absence of such agreements. The authority shall have power to enter into amendments of any such agreements within the powers granted to the authority by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of bonds of the authority.

5. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the authority shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

6. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

7. Neither the members of the authority nor any person executing bonds shall be liable personally thereon or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The authority, subject to such agreements with bondholders as then may exist, shall have power out of any moneys available therefor to purchase bonds of the authority, which shall thereupon be cancelled, at a price not exceeding (i) if the bonds are then redeemable, the redemption price then applicable, plus accrued interest to the next

interest payment date or, (ii) if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date.

§ 2041-h. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to subdivision three of section two thousand forty-one-g of this title:

1. In the event that the authority shall default in the payment of principal or of interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county in which the principal office of the authority is located and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds outstanding, shall in its own name:

(a) by action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the authority to collect rents, rates and charges adequate to carry out any agreement as to, or pledge of, such rents, rates and charges and to require the authority to carry out any other agreements with the holders of such bonds to perform its duties under this title;

(b) bring an action or proceeding upon such bonds;

(c) by action or proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) by action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in the county where the principal office of the authority is located.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days notice in writing to the authority.

6. Any such trustee whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project, the revenues of which are pledged for the security of the bonds of such issue, and such receiver may enter and take possession of such part or parts of the project and, subject to any pledge or agreement with the holders of such bonds, shall take possession of all moneys and other property derived from such part or parts of the project and proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith that the authority is under obligation to do, and operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee, the fees, counsel fees and expenses of the trustee and of the receiver, if any,

shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

§ 2041-i. State, county and municipalities not liable on authority bonds. Neither the state, the participating counties nor any other municipality or public corporation shall be liable on the bonds of the authority and such bonds shall not be a debt of the state, the participating counties or any other municipality or public corporation, and such bonds shall contain on the face thereof a statement to such effect.

§ 2041-j. Moneys of the authority. All moneys of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in interest-bearing accounts in a bank or banks in the state designated by the governing body. The moneys in such accounts shall be paid out on check of the treasurer upon requisition by the governing body or of such other person or persons as the governing body may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States, the state, or the participating counties, of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds as to the custody, collection, security, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys may be secured in the same manner as moneys of the authority and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the authority not required for immediate use or disbursement may, at the discretion of the authority, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. Subject to the provisions of any contract with bondholders and with the approval of the comptroller, the authority shall prescribe a system of accounts.

§ 2041-k. Bonds legal investment for fiduciaries. The bonds of the authority are hereby made securities in which all public officials and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or other obligations of the state may properly and legally invest funds including capital in their control or belonging to them. The bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purposes for which the deposit of bonds or other obligations of this state is now or hereafter may be authorized.

§ 2041-l. Agreement with state. The state does hereby pledge to and agree with the holders of any bonds issued by the authority pursuant to this title that the state will not alter, limit or impair the rights hereby vested in the authority to purchase, construct, own and operate, maintain, repair, improve, reconstruct, renovate, rehabilitate, enlarge, increase and extend, or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any agreements made with or for the benefit of the holders of bonds or with any public corporation or person with reference to such project or part thereof, or in any way to impair the rights and remedies of the holders of bonds, until the bonds, together with interest thereon, including interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the holders of bonds, are fully met and discharged, provided, however, that this section shall not be construed to limit in any manner the ability of the state to alter, amend or enforce laws or regulations to protect public health and the environment. The authority is authorized to include this pledge and agreement of the state in any agreement with the holders of bonds.

§ 2041-m. Exemption from taxes, assessments and certain fees. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the participating counties and the state and is a public purpose and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay any taxes or assessments upon any property acquired or owned by it or under its jurisdiction, control or supervision or upon its activities, income and operations, or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf. The construction, use, occupation or possession of any property owned by the authority or any participating county, including improvements thereon, by any person or public corporation under a lease, lease and sublease or any other agreement shall not operate to abrogate or limit the foregoing exemption, notwithstanding that the lessee, user, occupant or person in possession shall claim ownership for federal income tax purposes. Mortgages made or financed, directly or indirectly, by the authority shall be exempt from the mortgage recording taxes imposed by article eleven of the tax law. The authority shall be deemed a public authority for the purposes of section four hundred twelve of the real property tax law.

2. Any bonds issued pursuant to this title together with the income therefrom as well as the property of the authority shall be exempt from taxes, except for estate or gift taxes on such bonds and taxes on transfers. The state hereby covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the authority pursuant to this title, in consideration of the acceptance of any

payment for the bonds of the authority issued pursuant to this title and the income therefrom and all revenues, moneys, and other property pledged to secure the payment of such bonds shall at all times be free from taxation, except for estate or gift taxes on such bonds and taxes on transfers.

§ 2041-n. Actions against authority. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the authority, its members, officers, or employees for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence, tort or wrongful act of the authority or of any member, officer, agent or employee thereof, unless (i) a notice of claim shall have been made and served upon the authority within the time limit by and in compliance with section fifty-e of the general municipal law, (ii) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (iii) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter. Except that actions to recover damages for personal injury or injury to property caused by the latent effects of exposure to any substance or combination of substances, in any form, upon or within the body or upon or within property shall be governed by section two hundred fourteen-c of the civil practice law and rules.

2. Whenever a notice of claim is served upon the authority, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority may require any person presenting for settlement an

account or claim for any cause whatever against the authority to be sworn before a member, counsel or an attorney, officer or employee of the authority designated for such purpose, concerning such account or claim and, when so sworn, to answer orally as to any facts relative to such account or claim. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. Any action or proceeding to which the authority or the people of the state may be parties, in which any question arises as to the validity of this title, shall be preferred over all other civil causes of action or cases, except election causes of action or cases, in all courts of the state and shall be heard and determined in preference to all other civil business pending therein except election causes, irrespective of position on the calendar. The same preference shall be granted upon application of the authority or its counsel in any action or proceeding questioning the validity of this title in which the authority may be allowed to intervene. The venue of any such action or proceeding shall be laid in the supreme court of the county in which the principal office of the authority is located.

5. The rate of interest to be paid by the authority upon any judgment for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section five thousand four of the civil practice law and rules. Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

§ 2041-o. Contracts. All contracts or orders for work, material or supplies performed or furnished in connection with construction, shall be awarded by the authority pursuant to resolution of the governing body except as hereinafter provided. Such awards, when applicable, shall be made in compliance with paragraph (e) of subdivision four and subdivision seven of section one hundred twenty-w of the general municipal law. In any construction contract, the authority may provide a program for the payment of damages for delays and incentive awards in order to encourage timely project completion. An action, suit or proceeding contesting the validity of a contract awarded pursuant to this section, or the validity of the procedures relating to such award, shall be governed by the provisions of subdivision six of section one hundred twenty-w of the general municipal law and the term "municipality" as used in such subdivision six shall mean the authority.

The bidder whose bid is accepted shall give security for the faithful performance of the contract, and such other security as the authority may require, and may be required to maintain any construction done under the contract for such period as shall be stipulated, all in the manner prescribed and required by the authority and the sufficiency of such security shall, in addition to the justification and acknowledgement, be approved by the authority. All bids or proposals shall be publicly opened by the governing body or its duly authorized agent. If the bidder whose bid or proposal has been accepted after advertising shall neglect or refuse to accept the contract within five days after written notice that the contract has been awarded to him on his bid proposal or, if he accepts but does not execute the contract and give proper security, the authority shall have the right to declare his deposit forfeited. In case any work shall be abandoned by any contractor, the authority may, if it determines that the public interest is thereby served, adopt on behalf of the authority any or all subcontracts made by such contractor for such work and all such subcontractors shall be bound by such adoption if made. No bid proposal shall be accepted from or any contract awarded to, any person or corporation who is in arrears to the authority or any participating county upon any obligation of the authority or any participating county. Every contract shall be executed in duplicate, one copy of which shall be held by the authority and one copy of which shall be delivered to the contractor. The authority may adopt, utilize, ratify and confirm any request for proposals, invitation for sealed bids, plans, specifications and notices heretofore or hereafter published by any participating county with respect to any proposed project. The provisions of this section shall supersede any inconsistent provisions of the general municipal law, or any other general, special or local law, or the charter of any participating county.

The authority shall ensure that, where possible, all employees or applicants for employment are afforded equal employment opportunity without discrimination.

§ 2041-p. Interest in contracts prohibited. It shall be a misdemeanor for any member of the governing body or any officer, agent, servant or employee of the authority to be in any way or manner interested, directly or indirectly, in the furnishing of work, materials, supplies or labor, or in any contract therefor which the authority is empowered by this title to make.

§ 2041-q. Audit and annual report. In conformity with the provisions of section five of article ten of the constitution, the accounts of the authority shall be subject to the supervision of the state comptroller and an annual audit shall be performed by an independent certified accountant. The authority shall annually submit to the governor and state comptroller and to the state legislature a detailed report pursuant to the provisions of section two thousand eight hundred of title one of article nine of this chapter, and a copy of such report shall be filed with the chairman of the legislative body of each participating county. The authority shall comply with the provisions of sections two thousand eight hundred one, two thousand eight hundred two, and two thousand eight hundred three of title one of article nine of this chapter.

§ 2041-r. Limited liability. Neither the members of the governing body, nor any municipality, officer, or employee acting in its behalf, while acting within the scope of his or her authority, shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the properties of the authority or from carrying out any of the powers expressly given in this title provided, however, that this shall not be held to apply to any independent contractor.

§ 2041-s. Agreements with the participating counties. Each participating county is authorized to pledge to and agree with the holders of any bonds issued by the authority pursuant to this title that the county will not alter, limit or impair the rights hereby vested in the authority to purchase, construct, own and operate, maintain, repair, improve, reconstruct, renovate, rehabilitate, enlarge, increase and extend, or dispose of any project, or any part or parts thereof, for which bonds of the authority shall be issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any agreements made with or for the benefit of the holders of bonds or with any public corporation or person with reference to such project or part thereof, or in any way to impair the rights and remedies of the holders of bonds, until the bonds, together with the interest thereon, including interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the holders of bonds are fully met and discharged.

§ 2041-t. Special powers of participating counties and municipalities. 1. The participating counties and one or more municipalities within the area of operation, or the authority and the participating counties, shall have power to contract from time to time between or among themselves, or among themselves and with the authority, in relation to the collecting, receiving, transporting, storage, processing or disposal of solid waste or for the purchase or use of any materials, energy, by-products or residue generated by or resulting from the operation of any facility. Any such contract to which the authority, or any participating county, or any municipality within the area of operation, are parties may include provisions stipulating the minimum or maximum rates, rentals, fees and other charges to be collected for the use and availability of facilities. Any such contract may also include provisions in connection with a facility obligating such participating county or municipality to deliver or cause to be delivered, periodically to a specified facility or facilities, all or any portion of the solid waste generated in such participating county or municipality for processing or disposal and to make periodic payments for such processing or disposal whether or not delivery of any such solid waste shall be made, subject only to such exceptions, terms and conditions as may be provided therein.

2. To further the governmental and public purposes of the authority, including the implementation of any contract or proposed contract contemplated by this title, any participating county and municipalities within the area of operation shall have power to adopt and amend local laws, ordinances and regulations imposing appropriate and reasonable limitations on competition with respect to collecting, receiving, transporting, delivering, storing, processing and disposing of solid waste or the recovery by any means of any material or energy product or resource therefrom, and shall further have the power to adopt and amend local laws requiring that all solid waste generated, originated or brought within their respective boundaries, subject to such exceptions as may be determined to be in the public interest, shall be delivered to a specified facility or facilities; provided, however, that any such local law enacted by a participating county shall take precedence over and shall supersede any inconsistent provisions of any such local law enacted by a municipality within that participating county. Any such local law shall be adopted in accordance with the procedure provided by the municipal home rule law, except that no such local law shall be subject to either mandatory or permissive referendum. For the purposes of this section, solid waste shall have the same meaning as defined in section two thousand forty-one-a of this title, but shall not include any scrap or other material of value separated from the waste stream and held for purposes of materials recycling. Upon the adoption of any local law, ordinance or regulation pursuant to this section, the participating county or municipality shall file with the commissioner of the department of environmental conservation a verified copy of such local law, ordinance or regulation.

3. Each participating county is authorized to resell or otherwise dispose of all or any part of the materials, energy, by-products or residue purchased, received or obtained from the authority pursuant to subdivision one of this section. Any resale or other disposition may be made in such manner as each participating county may deem proper and upon such terms and conditions as may be agreed upon by the parties

thereto.

4. Each participating county and all other municipalities within the area of operation shall have power to perform such other acts, to enter into such other contracts, including contracts between or among themselves, execute such instruments and to undertake such future proceedings as shall be determined necessary or desirable to effectuate the purpose of this title, including the making of gifts, grants, loans or contributions to the authority.

5. Except as otherwise provided by section one hundred twenty-w of the general municipal law, any contract entered into by a municipality in connection with, or in any manner relating to, any project or facility pursuant to this section may be for such term or duration, not to exceed twenty-five years, as may be agreed upon by the parties thereto.

6. Any contract entered into pursuant to this section to which the authority shall be a party may be pledged by the authority as security for any issue of bonds, and may be assigned, in whole or in part, by the authority to any public corporation or person which shall construct, purchase, lease or otherwise acquire any facility, or part thereof, financed in whole or in part by the authority.

7. Any contract, lease or agreement entered into by the authority pursuant to this title and which provides for the construction of a facility which combusts solid waste shall provide for the utilization of Best Available Control Technology to control the environmental impact of such facility. Such technology may include fabric filtration and dry scrubbers to control particulate and acid gas emissions. Any facility at a minimum shall be constructed and operated in compliance with requirements of the department of environmental conservation. Any such contract, lease or agreement also shall include but not be limited to provisions for:

(a) monitoring of emissions for toxic air contaminants or surrogates thereof where appropriate to determine permit compliance at least twice during the first year of operation and after any detection of permit violations, and at least annually thereafter; such monitoring to include provisions for use of statistically valid sampling procedures in all monitoring; and

(b) sampling and testing of ash and dust residues at least semi-annually, pursuant to a method assuring statistical validity, to determine appropriate disposition or disposal based on relative toxicity.

§ 2041-u. Solid waste reserve fund. The legislative body of each participating county may establish a special fund, to be known as the solid waste reserve fund of that county. There shall be credited to such reserve fund all amounts paid to the participating county and specifically designated by the payor for deposit in such reserve fund, together with such county moneys as may be appropriated thereto from time to time. Moneys in such reserve funds may be appropriated only for the purpose of paying amounts due from the county under the terms of any contract entered into pursuant to this title, for which an insufficient or no provision has otherwise been made, except that upon the adoption of a resolution by at least a two-thirds vote of the voting strength of the participating county's legislative body, all or any portion of the moneys in such reserve fund may be transferred to any other reserve fund established by the county pursuant to the general municipal law. To the extent not inconsistent with the provisions of this section, the management of such reserve fund and the investment of moneys therein shall be subject to the provisions of section six-h of the general municipal law.

§ 2041-v. Transfer of environmental applications, proceedings, approvals and permits. 1. Any application in relation to the purpose of or contemplated by this title or any proceeding commenced by any participating county, with the department of environmental conservation, the department of transportation or any other state agency or instrumentality or with the United States environmental protection agency or any other federal agency or instrumentality shall inure to and for the benefit of the authority to the same extent and in the same manner as if the authority had been a party to such application or proceeding and the authority shall be deemed a party thereto, to the extent not prohibited by any federal law. Any license, approval, permit or decision issued or granted pursuant to or as a result of any such application or proceeding shall inure to the benefit of and be binding upon the authority and shall be assigned and transferred by the participating county to the authority, unless such assignment and transfer is prohibited by federal law.

2. All such applications, proceedings, licenses, approvals, permits and decisions shall further inure to and for the benefit of and be binding upon any person leasing, acquiring, constructing, maintaining, using or occupying any facility financed in whole or in part by the authority.

§ 2041-w. Dissolution. 1. Notwithstanding any provision of law to the contrary, the Montgomery, Otsego, Schoharie county solid waste management authority shall be dissolved on a date established by resolution adopted upon a vote of a majority of the board of directors of said authority. In any such resolution, the date of dissolution shall not occur prior to the termination of the "Service Agreement" dated as of May first, nineteen eighty-nine, as amended by amendment No. 1 dated as of May first, two thousand ten, by and between the counties of Montgomery, Otsego and Schoharie and the authority, nor later than October first, two thousand fourteen. Upon the adoption of such resolution, the board of directors shall make provision for the winding down of the business and affairs of the authority, and shall distribute the assets and liabilities of the authority to the member counties as of a transfer date or dates established by the authority, which shall be on or prior to the date of dissolution, all in accordance with subdivisions two and three of this section.

2. In distribution of the assets and liabilities of the authority to the member counties, the following transactions shall occur:
(a) The authority shall convey, and the counties of Montgomery, Otsego and Schoharie, respectively, shall accept, all of the authority's right title and interest in the real property, structures and improvements

constituting the transfer stations owned by the authority, including but not limited to any and all permits and licenses attendant thereto, according to the following distribution, without regard to appraised value and without other consideration except as set forth in this section.

(i) to the county of Montgomery, the transfer stations known as the Western transfer station located at 4583 Route 5S in Sprakers, N.Y., and the Amsterdam transfer station located at 1247 Route 5S in Amsterdam, N.Y.;

(ii) to the county of Otsego, the transfer stations known as the Northern transfer station located at 5802 State highway 28 in Cooperstown, N.Y., and the Oneonta transfer station located at 75 Silas Lane in Oneonta, N.Y.; and

(iii) to the county of Schoharie the transfer station known as the Schoharie transfer station located at 2805 Route 7 in Cobleskill, N.Y. together with the balance of the real property owned by the authority at such location, including but not limited to the administrative office building of the authority located adjacent to said transfer station.

(b) Concurrently with the conveyance of title to the real property and improvements described in paragraph (a) of this subdivision, the authority shall convey, and the counties of Montgomery, Otsego and Schoharie, respectively, shall accept, with respect to each such transfer station, all of the authority's right title and interest in the moveable fixtures and equipment located at, and attendant to, the operation of such transfer stations. The inventory of moveable fixtures and equipment prepared by the authority as of November fourth, two thousand thirteen and on file with the clerk of each county, unless otherwise agreed by the counties, shall be the basis for such transfers, subject to ordinary use by the authority prior to the transfer date. On the written request of any of the counties, made not later than fifteen days after the first of the conveyances described in paragraph (a) of this subdivision, the authorities budget office shall designate a mediator and/or an appraiser to examine the distribution of moveable fixtures and equipment at each of the transfer stations, which mediator or appraiser shall be authorized to order a more equitable distribution of such moveable fixtures and equipment, to ensure that each such transfer station is functionally capable of continuing operations after the authority ceases provision of solid waste services. Any such order issued by such mediator or appraiser shall be final and binding on each of the counties.

(c) The authority shall convey, and the counties of Montgomery, Otsego and Schoharie shall accept, in common ownership, all of the authority's right title and interest in the real property, structures and improvements constituting the landfills more fully described in the "Post Closure Monitoring and Maintenance Agreement" dated December tenth, two thousand nine, entered into between the Montgomery, Otsego, Schoharie county solid waste management authority and the three counties, together with all monies held by the authority in the landfill operating account and the authority's interest in the post closure reserve account established pursuant to said agreement. From and after the transfer of title to the landfills from the authority to the counties, the authority shall have no future obligation and responsibility under said Post Closure Monitoring and Maintenance Agreement, which responsibilities shall be assumed by the counties.

(d) Concurrently with the conveyance of title to the real property and improvements described in paragraph (c) of this subdivision, the authority shall convey, and the counties of Montgomery, Otsego and Schoharie shall accept in common ownership, with respect to each such landfill, all of the authority's right title and interest in the moveable fixtures and equipment located at, and attendant to, the monitoring, maintenance and other post-closure activities required at such landfills by law. The inventory of moveable fixtures and equipment referred to in paragraph (b) of this subdivision shall be the basis for such transfers, subject to ordinary use by the authority prior to the transfer date.

(e) Upon the completion of the property transfers set forth in paragraphs (a), (b), (c) and (d) of this subdivision, but in any event not later than October first, two thousand fourteen, all other assets of the authority, including all operating and reserve funds, shall be distributed to the member counties in accordance with the allocation percentages specified in the "Post Closure Monitoring and Maintenance Agreement", dated December tenth, two thousand nine, entered into between the Montgomery, Otsego, Schoharie county solid waste management authority and the three counties, provided however, that the board of directors of the authority shall be authorized to set aside such funds as are necessary and proper to settle, pay, and otherwise resolve all outstanding accounts, claims, and other liabilities of the authority prior to the date of dissolution, and any remainder shall be distributed to the member counties pursuant to the allocation established in this paragraph; and provided further, that in the event that any funds set aside by the board of directors to resolve outstanding accounts, claims, and other liabilities of the authority are insufficient for such purpose, the counties shall be responsible for the payment of any lawful obligations, accounts, claims and liabilities of the authority in accordance with the allocation percentages specified in the aforesaid "Post Closure Monitoring and Maintenance Agreement".

(f) Notwithstanding any other provision of law to the contrary, all transfers provided for in this section shall be without regard to appraised value, and without other consideration. It is hereby determined that the transfers of property pursuant to this section are for the benefit of the people of the participating counties and the state and are for a public purpose. The dissolution of the authority as provided in this section and the transfers of property authorized and directed in this section shall be deemed to be ministerial acts of an official nature, involving no exercise of discretion, within the meaning of paragraph (ii) of subdivision five of section 8-0105 of the environmental conservation law.

3. Upon dissolution, the books and records of the authority shall be delivered to the custody of the county of Schoharie, and shall be made available, at reasonable times, to any receiver appointed pursuant to this subdivision and to authorized representatives of the counties of Montgomery, Otsego and Schoharie on request, and to other persons in accordance with law. The finances and accounts of the authority as of the date of dissolution shall be the subject of a final audit, which shall be subject to the review and approval of the authorities budget office, and any accounts payable and receivable, and any claims, obligations or other liabilities remaining unsettled or unresolved at the date of dissolution shall be assigned to a receiver to be appointed by the authorities budget office. Unless otherwise agreed by the counties and the authorities budget office, such receiver shall be

selected from a list of qualified persons maintained by the office of court administration and the compensation and conduct of such receiver shall be governed by the rules of the chief judge. Said receiver shall be authorized to pay, collect, settle or resolve all such accounts, claims, obligations and liabilities in accordance with law, and to defend and maintain actions at law with respect thereto in the name of the authority.

§ 2041-x. Separability. If any clause, sentence, paragraph, section, or part of this title shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section, or part thereof involved in the controversy in which such judgment shall have been rendered.

§ 2041-y. Effect of inconsistent provisions. Insofar as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of the county charter, any local law, ordinance or resolution of a participating county or any other municipality within the area of operation, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the authority otherwise set forth in this title. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation or the department of health.

TITLE 13-B

ONONDAGA COUNTY RESOURCE RECOVERY AGENCY

§ 2045-a. Short title. This title shall be known and may be cited as the "Onondaga county resource recovery agency act".

§ 2045-b. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. "Agency" shall mean the public benefit corporation created by section two thousand forty-five-c of this title, known as the Onondaga county resource recovery agency.

2. "Bonds" shall mean the bonds, notes or other evidences of indebtedness issued by the agency pursuant to this title and the

provisions of this title relating to bonds and bondholders shall apply with equal force and effect to notes and noteholders, respectively, unless the context otherwise clearly requires.

3. "Cost", as applied to any project, shall include the cost of construction, the cost of the acquisition of all property, including real property and other property, both real and personal and improved and unimproved, the cost of demolishing, removing or relocating any buildings or structures on lands so acquired, including the cost of acquiring any lands to which such buildings or structures may be moved or relocated, the cost of all systems, facilities, machinery, apparatus and equipment, financing charges, interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultants' and legal services, the cost of lease guarantee or bond insurance, other expenses necessary or incidental to the construction of such project and the financing of the construction thereof, including the amount authorized in the resolution of the agency providing for the issuance of bonds to be paid into any reserve or other special fund from the proceeds of such bonds and the financing of the placing of any project in operation, including reimbursement to the county, or any municipality, state agency, the state, the United States government, or any other person for expenditures that would be costs of the project hereunder had they been made directly by the agency.

4. "County" shall mean the county of Onondaga.

5. "Construction" shall mean the acquisition, erection, building, alteration, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of a solid waste management-resource recovery facility; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures and other actions incidental thereto.

6. "Governing body" shall mean the members of the agency constituting

and acting as the governing body of the agency.

7. "Municipality" shall mean any county, city, town or village or any combination thereof.

8. "Person" shall mean any natural person, partnership, association, joint venture or corporation, exclusive of a public corporation.

9. "Project" shall mean any solid waste management-resource recovery facility, the planning, development, financing, construction, operation, or maintenance of which is authorized to be undertaken in whole or in part by the agency pursuant to this title.

10. "Real property" shall mean lands, structures, franchises and interests in land, waters, lands under water, riparian rights and air rights and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interests including, but not limited to, easements, rights of way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgments, mortgages or otherwise.

11. "Resource recovery" shall mean the separation, extraction and recovery of usable materials, energy or heat from solid waste through source separation, recycling centers or other programs, projects or facilities.

12. "Revenues" shall mean all rates, fees, rents, charges and other income derived by the agency from its operations.

13. "Solid waste" shall mean all materials or substances discarded or rejected as being spent, useless, worthless, or in excess to the owners at the time of such discard or rejection, including but not limited to garbage, refuse, industrial and commercial waste, sludges from air or water pollution control facilities or water supply treatment facilities, rubbish, ashes, contained gaseous material, incinerator residue, demolition and construction debris and offal, but not including sewage

and other highly diluted water-carried materials or substances and those in gaseous form, source, special nuclear or by-product material within the meaning of the Atomic Energy Act of 1954, as amended, and waste which appears on the list of hazardous waste promulgated by the commissioner of environmental conservation pursuant to section 27-0903 of the environmental conservation law.

14. "Solid waste management-resource recovery facility" or "facility" shall mean any facility, plant, works, system, building, structure, improvement, machinery, equipment, fixture or other real or personal property which is to be used, occupied or employed beyond the initial solid waste collection process for the receiving, transporting, storage, processing, or disposal of solid waste or the recovery by any means of any material or energy product or resource therefrom including but not limited to recycling centers, transfer stations, baling facilities, rail haul or maritime facilities, processing systems, resource recovery facilities, steam and electric generating and transmission facilities, including auxiliary facilities to supplement or temporarily replace such generating facilities, steam distribution facilities, sanitary landfills, plants and facilities for compacting, composting or pyrolization of solid wastes, incinerators, and other solid waste disposal, reduction or conversion facilities and resource recovery equipment and disposal equipment as defined in subdivisions four and five of section 51-0903 of the environmental conservation law.

15. "State" shall mean the state of New York.

16. "Source separation" shall mean the segregation of recyclable materials from the solid waste stream at the point of generation for separate collection, sale or other disposition.

§ 2045-c. Onondaga county resource recovery agency. 1. A corporation known as the Onondaga county resource recovery agency is hereby created for the public purposes and charged with the duties and having the powers provided in this title. The agency shall be a body corporate and politic constituting a public benefit corporation. It shall consist of eleven members, provided, however, that after July thirty-first, nineteen hundred eighty-nine, such board shall consist of fifteen members, who shall be appointed as follows: (i) four by the county executive; (ii) three by the chairman of the county legislature; (iii) two by the mayor of the city of Syracuse, subject to confirmation by the common council of such city, provided, however, that after July thirty-first, nineteen hundred eighty-nine, such mayor may make four additional appointments to the board subject to confirmation by the common council of such city; (iv) one by the town board of the town of Camillus, except that any other provision of any other law to the contrary notwithstanding, this appointment shall expire on July thirty-first, nineteen hundred eighty-nine, and replaced by a member to be appointed by the town board of the town in which the agency sanitary landfill portion of the solid waste management-resource recovery facility is designated to be located or is designated as the preferred site by resolution of the county legislature, as provided in subdivision one-a of this section; and (v) one by the town board of the town of Onondaga, except that any other provision of any other law to the contrary notwithstanding this appointment shall expire on July thirty-first, nineteen hundred eighty-nine, and be replaced by a member to be appointed by the town board of the town in which the agency waste-to energy portion of the solid waste management-resource recovery facility is designated to be located by resolution of the county legislature. The appointments by the county executive and the chairman of the county legislature each shall be subject to confirmation by the county legislature. In making appointments of members, the county executive and the chairman of the county legislature shall give due consideration to the representation of diverse geographical areas. The first members appointed by the county executive shall be appointed for the following terms of office: one for a term ending on December thirty-first, nineteen hundred eighty-two; one for a term ending on December thirty-first, nineteen hundred eighty-three; and two for a term ending on December thirty-first, nineteen hundred eighty-four. The first members appointed by the chairman of the county legislature shall be appointed for staggered terms of office ending on December thirty-first in each of the years nineteen hundred eighty-two to nineteen hundred eighty-four, inclusive. The first members appointed by the mayor of the city of Syracuse shall be appointed for staggered terms of office ending, respectively, on December thirty-first in each of the years nineteen hundred eighty-two and nineteen hundred eighty-three, except that if such appointments were not made prior to such dates, then the first two members appointed by such mayor shall be appointed for staggered terms of office ending, respectively, on December thirty-first in each of the years nineteen hundred ninety and nineteen hundred ninety-one; and provided further that of the four additional members appointed pursuant to this subdivision by such mayor to the board after July thirty-first, nineteen hundred eighty-nine, two shall be appointed for terms of office ending on December thirty-first, nineteen hundred ninety-one, and two shall be appointed for terms of office ending on December thirty-first, nineteen hundred ninety-two. The first member appointed by the town board of the town of Camillus shall be appointed for a term of office ending on December thirty-first, nineteen hundred eighty-two. The first member appointed by the town board of the town in which the agency sanitary landfill portion of the solid waste management-resource recovery facility is designated to be located or is designated as the preferred site shall be appointed for a term of office ending on December thirty-first, nineteen hundred ninety-one. The first member appointed by the town board of the town of Onondaga shall be appointed for a term of office ending on December thirty-first, nineteen hundred eighty-three. Except as provided herein, subsequent appointments of members shall be made by the same appointing authorities for a term of three years ending in each case on December thirty-first of the last year of such term. No person who has served as a member for two consecutive terms shall be eligible for reappointment as a member for a third term, except after an interval of at least three years. All members shall continue to hold office until their successors are appointed and qualify. Vacancies shall be filled in the manner provided for original appointments. Vacancies, occurring otherwise than by expiration of term of office, shall be filled for the unexpired terms. Members may be removed from office for the same reasons and in the same manner as may be provided by law for the removal of officers of the county. The members of the agency shall receive no compensation for their services but shall be reimbursed for all their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the agency shall be vested in and be exercised by the governing body at a meeting duly called and held and six members shall constitute a quorum provided that after July thirty-first, nineteen hundred eighty-nine, eight members shall constitute a quorum. No action shall be taken except pursuant to the favorable vote of at least six members provided that after July thirty-first, nineteen hundred eighty-nine, no action shall be taken except pursuant to the favorable vote of at least eight members. The governing body may delegate to one or more of its members, officers, agents or employees such powers and duties as it may deem proper.

1-a. Pursuant to a resolution adopted by the county legislature on or before the effective date of this subdivision designating a town as the preferred site for the agency sanitary landfill portion of the solid waste management-resource recovery facility, the town board of such town may appoint a member to serve on the agency board until: (a) an explicit finding by resolution of the county legislature with respect to the preferred site, pursuant to subdivision eight of section 8-0109 of the environmental conservation law; or (b) withdrawal of the preferred site from consideration by resolution of the county legislature and designation of another preferred site in another town by resolution of such legislature; or (c) expiration of the term of the member from the town designated as the preferred site, whichever shall occur first. In the event that an explicit finding has not been made by resolution of the county legislature with respect to the preferred site prior to the expiration of the term, the town board of the town designated as the preferred site by resolution of the county legislature prior to the effective date of this subdivision may reappoint such member or a new member for an additional term not to exceed one year. In the event the county legislature shall designate another preferred site in another town by a resolution, the term of the member then serving from the town previously identified by such county legislature as the preferred site shall terminate on the effective date of such resolution and the newly designated town shall succeed to the rights of the town initially identified as the preferred site, as shall be true of any subsequent town identified by resolution of the county legislature as the preferred site for the sanitary landfill; provided, however that the first term of any such member shall expire on December thirty-first of the year in which he or she has been appointed. Upon adoption of a resolution by the county legislature making an explicit finding with respect to the site of the sanitary landfill portion of the solid waste management-resource recovery facility, pursuant to subdivision eight of section 8-0109 of the environmental conservation law, the town board of the town in which such sanitary landfill is designated to be located by such resolution may appoint one member to the agency board to succeed the member appointed by the previously identified by resolution of the county legislature as the preferred site for such landfill.

2. The officers of the agency shall consist of a chairman, a vice-chairman and a treasurer, who shall be members of the agency, and a secretary, who need not be a member of the agency. Such officers shall be appointed by the governing body and shall serve at the pleasure of the governing body. The governing body may appoint and at pleasure remove an attorney and an engineer, which positions, in addition to the position of secretary, shall be in the exempt class of the civil service, and such additional officers and employees as it may determine necessary for the performance of the powers and duties of the agency, and fix and determine their qualifications, duties and compensation, subject to the provisions of the civil service law. The governing body may also from time to time contract for expert professional services. The treasurer shall execute a bond, conditioned upon the faithful performance of the duties of his office, the amount and sufficiency of which shall be approved by the governing body and the premium therefor shall be paid by the agency.

3. Notwithstanding any inconsistent provision of any general, special or local law, ordinance, resolution or charter, no officer, member or employee of the state, any municipality, or any public benefit corporation, shall forfeit his or her office or employment by reason of his or her acceptance of appointment as a member, officer, agent or employee of the agency, nor shall service as such member, officer, agent or employee be deemed incompatible or in conflict with such office, membership or employment; provided, however, that no public official elected to his or her office pursuant to the laws of the state or any

municipality thereof may serve as a member of the governing body of the agency during his or her term of office.

4. (a) The county executive shall file on or before March thirty-first, nineteen hundred eighty-two, in the office of the secretary of state, a certificate signed by the county executive setting forth: (1) the name of the agency; (2) the names of the members appointed by the county executive and at least three other members of the agency and their terms of office; and (3) the effective date of this title. The agency shall be perpetual in duration, except that if such certificate is not filed with the secretary of state on or before such date, then the corporate existence of the agency shall thereupon terminate and it shall thereupon be deemed to be and shall be dissolved.

(b) Except as provided in paragraph (a) of this subdivision, the agency and its corporate existence shall continue until terminated by law, provided, however, that no such law shall take effect so long as the agency shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof. Upon termination of the existence of the agency, all of the rights and properties of the agency then remaining shall pass to and vest in the county.

5. In addition to any powers granted to it by law, the county legislature from time to time may appropriate by resolution sums of money to defray project costs or any other costs and expenses of the agency, to be incurred prior to the first issuance of bonds. Subject to the rights of bondholders, the county legislature may determine if the moneys so appropriated shall be subject to repayment by the agency to the county and, in such event, the manner and time or times for such repayment.

6. The agency shall not be deemed a successor in interest to the Onondaga county solid waste disposal authority for any purpose whatsoever. In the event that the county acquires any property from such authority and thereafter transfers such property to the agency, the agency shall not by reason of receiving such property become obligated for any indebtedness or liability of such authority. The agency, upon a

determination that it is in the public interest, may assume and pay any compromised or settled claim against such authority which shall be outstanding as of the date of the first issuance of bonds. Nothing in this title shall be construed to require the agency to assume any liability of such authority.

7. It is hereby determined and declared, that the agency and the carrying out of its powers and duties are in all respects for the benefit of the people of the county and the state of New York for the improvement of their health, welfare and prosperity and that such purposes are public purposes and that the agency is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

§ 2045-d. Transfer of property to agency; acquisition of property by county for agency. 1. The county or any other municipality may give, grant, sell, convey, loan, license the use of or lease to the agency any property or facility which is useful in connection with the exercise by the agency of its powers under this title. Any such gift, grant, sale, conveyance, loan, license or lease shall be upon such terms and conditions, subject to the rights of the holders of any bonds, as the agency and the county or other municipality may agree.

2. The county may acquire by purchase or condemnation real property in the name of the county for any corporate purpose of the agency.

3. Notwithstanding the provisions of any other law, general, special or local, real property acquired by the agency or the county from the state may be used for any corporate purpose of the agency.

§ 2045-e. Powers of the agency. The agency shall have the power:

1. To sue and be sued;

2. To have a seal and alter the same;

3. To acquire in the name of the agency, hold, sell, lease, mortgage or otherwise dispose of property, real, personal or mixed, or any interest therein, without limitation, for its corporate purposes; provided, however, that (i) the agency shall not have the power of eminent domain, (ii) the acquisition by the agency of any real property designated as the site for any facility shall be subject to prior approval by the county legislature, and (iii) in selecting the location for any such site the agency shall give consideration to the present and any proposed land use character of the area in which such site is to be located and the zoning laws or regulations, if any, otherwise generally applicable to such area;

4. To receive, transport, process, dispose of, sell, store, convey, recycle, and deal with, in any lawful manner and way, solid waste and any products or by-products thereof now or hereafter developed or discovered, including any energy generated by the operation of any solid waste management-resource recovery facility. Any such disposal or sale may be effected on such terms and in such manner as the agency may deem proper;

5. To plan, develop and construct projects and to pay the cost thereof and to have the right to contract in relation thereto with municipalities or persons within or without the county and to own and operate, maintain, repair, improve, reconstruct, enlarge, and extend, subject to the provisions of this title, any of its projects acquired or constructed under this title, and to sell, lease, mortgage or otherwise dispose of any project or part thereof to any person or public corporation, subject to such conditions and limitations as the agency may determine to be in the public interest;

6. To assist in the planning, development and construction of and the financing of the cost of any solid waste management-resource recovery facility to be located in the county whether or not such solid waste management-resource recovery facility is to be owned or operated by the agency, which assistance may include loans to any person or public corporation. Any such solid waste management-resource recovery facility

producing either electricity or shaft horsepower and useful thermal energy shall constitute a co-generation facility as defined in subdivision two-a of section two of the public service law;

7. To receive from the United States, the state, the county, any other municipality or public corporation or person, solid waste for the purpose of treatment or disposal thereof, with the right of the agency to sell and dispose of any products or by-products (including energy) of such process of treatment or disposal, as the agency may deem proper;

8. To contract with the county, other municipalities, state agencies, public corporations or persons within or without the county, for the purpose of receiving, treating and disposing of solid waste including without limitation to contract with persons for the delivery of all solid waste generated within a stated area to a specific solid waste management-resource recovery facility;

9. To make by-laws for the management and regulation of its affairs and, subject to agreements with bondholders, for the regulation of the use of any project or other property of the agency, which by-laws and all amendments thereto, duly certified by the secretary of the agency, shall be filed in the office of the agency and in the office of the clerk of the county, and to provide for the enforcement of such by-laws by legal or equitable proceedings which are or may be provided or authorized by law. In addition, the county legislature shall have power to prescribe that violations of specific by-laws of the agency shall constitute offenses or infractions and provide for the punishment of violations thereof by civil penalty;

10. With the consent of the county executive, to use officers or employees of the county and to pay a proper portion of the compensation or costs for the services for such officers or employees;

11. To make contracts and to execute all necessary or convenient instruments, including evidences of indebtedness, negotiable or non-negotiable;

12. To enter, with the consent of the county executive, on any lands, waterways and premises for the purpose of making surveys, soundings, and examinations, and liability therefor shall not exceed actual damages;

13. To borrow money and to issue bonds and to fund or refund the same, and to provide for the rights of the holders thereof;

14. Subject to any limitations imposed by any contract pursuant to subdivision two of section two thousand forty-five-t of this title, to determine classification of users, to fix and collect, including directly from service recipients, including owners of real property within the county from whom waste is disposed at agency facilities, rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, or any commodities furnished by, the agency, which rates, rentals, fees and other charges may be different for each classification of users and may reflect the source and composition of solid waste and may provide for fee reductions to the user in proportion to waste generated or to reflect participation in source separation programs, and to contract with any municipality in the county in respect thereto, so as to provide revenues sufficient at all times to pay, as the same shall become due, the principal and interest on the bonds of the agency, together with the maintenance of proper reserves therefor, in addition to paying, as the same shall become due, the expenses of operating and maintaining the properties of the agency, together with proper reserves for debt service, depreciation, maintenance and contingencies and all other obligations and indebtedness of the agency. In any instance where the county is or would be required by law, with respect to solid waste management, to conduct a public hearing in connection with a contract, lease, service agreement, classification of user, rate, rental, fee or other charge, the agency shall not enter into such contract, lease, service agreement, or establish, fix, or revise any classification of user, rate, rental, fee or other charge unless and until the agency has held a public hearing at which interested persons have had an opportunity to be heard concerning the same, provided however, that if the county has conducted a public hearing in connection with such contract, lease, service agreement, classification of user, rate, rental, fee or other charge, the agency shall not be required to

hold a public hearing. Notice of such public hearing shall be published at least ten days before the date set therefor, in at least one newspaper of general circulation in the county. Such notice shall set forth the date, time and place of such hearing and shall include a brief description of the matters to be considered at such meeting. A copy of the notice shall be filed in the office of the clerk of the county and shall be available for inspection by the public. At any such hearing, any interested persons shall have an opportunity to be heard concerning the matters under consideration. Any decision by the agency at such public hearing shall be in writing and be made available in the office of the agency for public inspection during regular office hours. All rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, the agency and billed directly by the agency to the service recipient pursuant to a classification of users adopted by the agency as herein provided shall be a lien upon the real property upon which, or in connection with which, services were provided, as and from the first date fixed for payment of such rates, rentals, fees and other charges. Any such lien shall take precedence over all other liens or encumbrances, except taxes or assessments. The treasurer of the agency shall prepare and transmit to the respective legislative body of each municipality, on or before the first day of December in each year, a list of those properties within each respective municipality for which such services were provided and from which the payment of rates, rentals, fees and other charges are in arrears for a period of thirty days or more after the last day fixed for payment of such rates, rentals, fees and other charges without penalty. The list shall contain a brief description of the properties for which such services were provided, the names of the persons or corporations liable to pay for the same, and the amount chargeable to each, including penalties and interest computed to December thirty-first of that year. Each governing body shall levy such sums against the properties liable and shall state the amount thereof in a separate column in the annual tax rolls of the various municipalities under the heading "solid waste disposal charge". Such amounts, when collected by the several municipal collectors or receivers of taxes, shall be paid over to the treasurer of the agency. Alternatively, the legislative body of any municipality which provides solid waste collection service to all or a portion of the properties within its boundaries using municipally owned and operated collection vehicles may execute an agreement with the agency to collect and be responsible for the collection of, on behalf of the agency, any overdue or delinquent rates, rentals, fees or other charges and such municipality shall have the power to pay directly to the agency such overdue or delinquent rates, rentals, fees and other charges whether or not they are actually collected from the service recipients of such municipality. The legislative body of any such municipality entering into such an agreement with the agency on or after the effective date of this subdivision, shall be required prior to entering into such an agreement, to provide notice of, and convene a public hearing on such an agreement under the same terms and conditions of public notice and hearing required of the agency pursuant to this subdivision.

All of the provisions of the tax law of the state governing enforcement and collection of unpaid taxes or assessments for special improvements not inconsistent herewith shall apply to the collection of such unpaid rates, rentals, fees and other charges. Except as may be otherwise expressly permitted under this title, any such rates, rentals, fees and other charges shall be fixed without discrimination among the municipalities within the county entering into contracts with the county pursuant to section two thousand forty-five-t of this title on or before the first date on which the county enters into a contract with the agency pursuant to paragraph (i) of subdivision two of such section two thousand forty-five-t of this title. The agency shall in no event fix any such rates, rentals, fees or other charges with respect to municipalities entering into such contracts with the county subsequent to such date in amounts less than those fixed with respect to municipalities entering into such contracts with the county on or before such date;

15. To accept gifts, grants, loans or contributions from the United States, the state or any agency or instrumentality of either of them, or any municipality or from any person, by bequest or otherwise, and to expend the proceeds for any corporate purposes of the agency; and

16. To make payments to, and settle claims asserted by owners of

property in proximity to and adversely affected by, landfill facilities of the agency in order to compensate such owners in whole or in part for diminution of the value of their property, if any, directly resulting from the siting of the agency landfill facility or the activities undertaken therein. The amount and manner of such payments shall be determined by resolution of the agency, and shall be based on real estate market studies and/or appraisals undertaken at the direction of the agency, in such form and substance satisfactory to the agency. The agency shall establish rules and regulations setting forth the specifications pursuant to which real estate market studies and/or appraisals shall be conducted and such other rules and regulations as may be necessary to effectuate the purposes of this subdivision. Such rules and regulations shall include a requirement that all property owners requesting payments in accordance therewith must file a claim with the agency by a date specified by the agency. Any payments made pursuant to the provisions of this subdivision shall be considered a cost of the agency in the computation of rates, fees, and charges in accordance with subdivision fourteen of this section.

17. To do all things necessary or convenient to carry out the powers expressly given in this title.

§ 2045-f. Governmental capacity of the agency and municipalities. The county, other municipalities within the county and the agency in carrying out their respective powers and duties under this title shall be deemed to be acting in a governmental capacity. The construction, operation and maintenance of any project financed in whole or in part by the agency, shall be deemed to be the performance of an essential governmental function by the agency acting in its governmental capacity, whether such project shall be owned or operated by the agency or by any person or other public corporation.

§ 2045-g. Transfer of officers and employees. Any officer or employee of the county or of the Onondaga county solid waste disposal authority, under civil service, selected by the agency may, with the consent of the county or such authority, be transferred to the agency and shall be eligible for such transfer and appointment, without examination, to applicable offices, positions and employment under the agency. The salary or compensation of any such officer or employee, after such transfer, shall be paid by the agency. Any such officers or employees so transferred to the agency pursuant to this subdivision, who are members of or benefit under any existing pension or retirement fund or system, shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law, but during the period of their employment by the agency, all contributions to such fund or system to be paid by the employer on account of such officers or employees shall be paid by the agency. All such officers or employees so transferred to the agency who have been appointed to positions under the rules and classifications of the personnel officer of the county shall have the same status with respect thereto after transfer to the agency as they had under their original appointment.

§ 2045-h. Bonds of the agency. 1. The agency shall have the power and is hereby authorized from time to time to issue bonds, in conformity with applicable provisions of the uniform commercial code, in such principal amounts as it may determine to be necessary to pay the cost of any project or for any other corporate purpose, including incidental expenses in connection therewith. The agency shall have power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee of any bonds. The agency shall have power from time to time to refund any bonds by the issuance of new bonds whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose. Bonds issued by the agency may be general obligations secured by the faith and credit of the agency or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the agency under which the bonds shall be authorized to be issued and subject to any agreements with the holders of outstanding bonds pledging any particular revenues or moneys.

2. Bonds shall be authorized by resolution of the agency, be in such denominations and bear such date or dates, mature at such time or times, except that notes and any renewals thereof shall mature within five years from the date of the original issuance and bonds and any renewals thereof shall mature within thirty years from the date of the original issuance. The bonds and notes shall be subject to such terms of redemption, bear interest at such rate or rates payable at such times, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution may provide. Bonds may be sold at public or private sale for such price or prices as the agency shall determine. Bonds of the agency shall not be sold by the agency at private sale unless such sale and the terms thereof have been approved in writing by the comptroller, where such sale is not to the comptroller, or by the director of the budget, where such sale is to the comptroller.

3. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to:

(a) pledging all or any part of the revenues, other moneys or property of the agency to secure the payment of the bonds, including but not limited to any contracts, earnings or proceeds of any grant to the agency received from any private or public source;

(b) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(c) limitations on the purpose to which the proceeds from the sale of bonds may be applied;

(d) the rates, rents, fees and other charges to be fixed and collected by the agency and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) limitations on the right of the agency to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;

(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds, the holders of which must consent thereto and the manner in which such consent may be given;

(h) the creation of special funds into which any revenues or moneys may be deposited;

(i) the terms and provisions of any trust deed or indenture securing the bonds under which the bonds may be issued;

(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the agency may determine which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders pursuant to section two thousand forty-five-i of this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of such trustee;

(k) defining the acts or omissions to act which may constitute a default in the obligations and duties of the agency to the bondholders and providing for the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) limitations on the power of the agency to sell or otherwise dispose of any project or any part thereof;

(m) limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the agency;

(n) the payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the agency may determine; and

(o) any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

4. In addition to the powers herein conferred upon the agency to secure its bonds, the agency shall have power in connection with the issuance of bonds to enter into such agreements as the agency may deem

necessary, consistent or desirable concerning the use or disposition of its revenues or other moneys or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, moneys or property and the doing of any act (including refraining from doing any act) which the agency would have the right to do in the absence of such agreements. The agency shall have power to enter into amendments of any such agreements within the powers granted to the agency by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of bonds of the agency.

5. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the agency shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or otherwise against the agency irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

6. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

7. Neither the members of the agency nor any person executing bonds shall be liable personally thereon or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The agency, subject to such agreements with bondholders as then may exist, shall have power out of any moneys available therefor to purchase bonds of the agency, which shall thereupon be cancelled, at a price not

exceeding (i) if the bonds are then redeemable, the redemption price then applicable, plus accrued interest to the next interest payment date, (ii) if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date.

§ 2045-i. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to paragraph (j) of subdivision three of section two thousand forty-five-h of this title:

1. In the event that the agency shall default in the payment of principal of or interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the agency shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds outstanding, shall in his or its own name:

(a) by action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the agency to collect rents, rates and charges adequate to carry out any agreement as to, or pledge of such rents, rates and charges and to require the agency to carry out any other agreements with the holders of such bonds to perform its duties under this title;

(b) bring an action or proceeding upon such bonds;

(c) by action or proceeding, require the agency to account as if it were the trustee of an express trust for the holders of such bonds;

(d) by action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in the county.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days notice in writing to the agency.

6. Any such trustee whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project the revenues of which are pledged for the security of the bonds of such issue and such receiver may enter and take possession of such part or parts of the project and subject to any pledge or agreement with holders of such bonds shall take possession of all moneys and other property derived from such part or parts of the project and proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith which the agency is under obligation to do, and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the agency under the direction of the court. In any suit, action or proceeding by the trustee the fees, counsel fees and expenses of the trustee and of the receiver, if any,

shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

§ 2045-j. State, county and municipalities not liable on agency bonds. Neither the state, the county nor any other municipality or public corporation shall be liable on the bonds of the agency and such bonds shall not be a debt of the state, the county or any other municipality or public corporation, and such bonds shall contain on the face thereof, a statement to such effect.

§ 2045-k. Moneys of the agency. All moneys of the agency from whatever source derived shall be paid to the treasurer of the agency and shall be deposited forthwith in a bank or banks in the state designated by the governing body. The moneys in such accounts shall be paid out on check of the treasurer upon requisition by the governing body or of such other person or persons as the governing body may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States or of the state or of the county of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. The agency shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds as to the custody, collection, security, investment and payment of any moneys of the agency or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys may be secured in the same manner as moneys of the agency and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the agency not required for immediate use or disbursement may, at the discretion of the agency, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. Subject to the provisions of any contract with bondholders and with the approval of the comptroller, the agency shall prescribe a system of accounts.

§ 2045-l. Bonds legal investment for fiduciaries. The bonds of the agency are hereby made securities in which all public officials and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or other obligations of the state may properly and legally invest funds including capital in their control or belonging to them. The bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purposes for which the deposit of bonds or other obligations of this state is now or hereafter may be authorized.

§ 2045-m. Agreement with the state. The state does hereby pledge to and agree with the holders of any bonds issued by the agency pursuant to this title that the state will not alter or limit the rights hereby vested in the agency to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the agency shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any agreement made with or for the benefit of the holders of bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of bondholders, until the bonds, together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged. The agency is authorized to include this pledge and agreement of the state in any agreement with bondholders.

§ 2045-n. Exemption from taxes, assessments and certain fees. 1. It is hereby determined that the creation of the agency and the carrying out of its corporate purposes is in all respects for the benefit of the people of the county and the state and is a public purpose and the agency shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay any taxes or assessments upon any property owned by it or under its jurisdiction, control or supervision or upon its activities, or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf. The construction, use, occupation or possession of any property owned by the agency or the county, including improvements thereon, by any person or public corporation under a lease, lease and sublease or any other agreement shall not operate to abrogate or limit the foregoing exemption, notwithstanding that the lessee, user, occupant or person in possession shall claim ownership for federal income tax purposes. The agency shall be deemed a public authority for the purposes of section four hundred twelve of the real property tax law.

2. Except in the case of a municipality in which there shall be located a solid waste management-resource recovery facility, the agency shall not be authorized to make any payments in lieu of real property taxes or assessments. The provisions of this subdivision shall not be deemed to prohibit the agency from paying for specific governmental services provided to it by any municipality, fire district or fire protection district, and any fire district or fire protection district providing such services is hereby authorized to charge for such services and to receive such payments.

3. Any bonds issued pursuant to this title together with the income therefrom as well as the property of the agency shall be exempt from taxes, except for transfer and estate taxes. The state hereby covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the agency pursuant to this title, in consideration of

the acceptance of and payment for the bonds, that the bonds of the agency issued pursuant to this title and the income therefrom and all revenues, moneys, and other property pledged to secure the payment of such bonds shall at all times be free from taxation, except for transfer and estate taxes.

§ 2045-o. Actions against agency. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the agency for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence or wrongful act of the agency or of any member, officer, agent or employee thereof, unless (a) a notice of claim shall have been made and served upon the agency within the time limit by and in compliance with section fifty-e of the general municipal law, (b) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the agency for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

2. Wherever a notice of claim is served upon the agency, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The agency may require any person, presenting for settlement an account or claim for any cause whatever against the agency to be sworn before a member, counsel or an attorney, officer or employee of the agency designated for such purpose, concerning such account or claim and when so sworn, to answer orally as to any facts relative to such account or claim. The agency shall have power to settle or adjust all claims in favor of or against the agency.

4. The rate of interest to be paid by the agency upon any judgment for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section five thousand four of the civil practice law and rules. Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

§ 2045-p. Contracts. 1. All contracts or orders, for work, material or supplies performed or furnished in connection with construction, shall be awarded by the agency pursuant to resolution of the governing body except as hereinafter provided. Such awards, when applicable, shall be made in compliance with paragraph (e) of subdivision four and subdivision seven of section one hundred twenty-w of the general municipal law. In any construction contract, the agency may provide a program for the payment of damages for delays and incentive awards in order to encourage timely project completion. An action, suit or proceeding contesting the validity of a contract awarded pursuant to this section, or the validity of the procedures relating to such award, shall be governed by the provisions of subdivision six of section one hundred twenty-w of the general municipal law and the term "municipality" as used in such subdivision six shall mean the agency.

2. The bidder whose bid is accepted shall give security for the faithful performance of the contract, and such other security as the agency may require, and may be required to maintain any construction done under the contract for such period as shall be stipulated, all in the manner prescribed and required by the agency and the sufficiency of such security shall, in addition to the justification and acknowledgment, be approved by the agency. All bids or proposals shall be publicly opened by the governing body or its duly authorized agent. If the bidder whose bid or proposal has been accepted after advertising shall neglect or refuse to accept the contract within five days after written notice that the contract has been awarded to him on his bid or proposal, or, if he accepts but does not execute the contract and give proper security, the agency shall have the right to declare his deposit

forfeited. In case any work shall be abandoned by any contractor, the agency may, if it determines that the public interest is thereby served, adopt on behalf of the agency any or all subcontracts made by such contractor for such work and all such subcontractors shall be bound by such adoption if made. No bid or proposal shall be accepted from or any contract awarded to, any person or corporation who is in arrears to the agency or the county upon any obligation of the agency or of the county. Every contract involving an expenditure of more than five thousand dollars when made and entered into as herein provided for shall be executed in duplicate, one copy of which shall be held by the agency and one copy of which shall be delivered to the contractor. The agency may adopt, utilize, ratify and confirm any request for proposals, invitation for sealed bids, plans, specifications and notices heretofore or hereafter published by the county with respect to any proposed project, and the agency may adopt, utilize, accept and confirm any bids or proposals submitted to the county and heretofore or hereafter received and publicly opened by the county. The provisions of this section shall supersede any inconsistent provisions of the general municipal law, any other general, special or local law, or the charter of the county. The agency shall be deemed an authority for the purpose of section twenty-eight hundred seventy-eight of this chapter.

§ 2045-q. Interest in contracts prohibited. It shall be a misdemeanor for any member of the governing body or any officer, agent, servant or employee of the agency to be in any way or manner interested, directly or indirectly, in the furnishing of work, materials, supplies or labor, or in any contract therefor which the agency is empowered by this title to make.

§ 2045-r. Audit and annual report. In conformity with the provisions of section five of article ten of the constitution, the accounts of the agency shall be subject to the supervision of the state comptroller. The agency shall annually submit to the governor and state comptroller and to the state legislature a detailed report pursuant to the provisions of section two thousand five hundred of this chapter, and a copy of such report shall be filed with the county executive. The agency shall comply with the provisions of sections two thousand five hundred one, two thousand five hundred two, and two thousand five hundred three of title one of article nine of this chapter.

§ 2045-s. Limited liability. Neither the members of the governing body, nor any municipality, officer or employee acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the properties of the agency or from carrying out any of the powers expressly given in this title; provided, however, that this section shall not be held to apply to any independent contractor.

§ 2045-t. Pledge by county; contracts with municipalities; powers of municipalities. 1. The county is hereby authorized to pledge to and agree with the holders of the bonds that the county will not limit or impair the rights hereby vested in the agency to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the agency shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title and to fulfill the terms of any agreements made with the holders of the bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of the bondholders, until the bonds, together with interest thereon, with interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders are fully met and discharged.

2. The county and one or more municipalities within the county, or the agency and the county, shall have power to contract from time to time between or among themselves, or among themselves and with the agency, in relation to the receiving, transporting, storage, processing or disposal of solid waste or for the purchase or use of any materials, energy,

by-products or residue generated by or resulting from the operation of any solid waste management-resource recovery facility. Any such contract to which the county and any municipality within the county are parties may include provisions stipulating the maximum rates, rentals, fees and other charges to be collected for the use of facilities. Any contract to which the agency and the county are parties may include provisions (i) requiring the periodic delivery to the facilities of the agency of minimum amounts of solid waste and providing for specified minimum periodic payments whether or not such delivery is made, (ii) limiting the right of the agency to receive or to contract to receive, treat and dispose of solid waste originating outside the county, or (iii) requiring the county to pay, within appropriations available therefor, such amounts as shall be necessary to assure the continued operation and solvency of the agency, such payments to be determined and paid in such manner and at such times as may be provided in such contract. To further the governmental and public purposes of the agency including the implementation of any contract or proposed contract contemplated by this title, the county and all other municipalities within the county shall have power to adopt and amend local laws imposing appropriate and reasonable limitations on competition, including, without limiting the generality of the foregoing, as to the municipalities within the county local laws requiring that all solid waste generated or originating within their respective boundaries, subject to such exceptions as may be determined to be in the public interest, shall be delivered to a specified solid waste management-resource recovery facility; provided, however, that the county shall not be empowered under this section to adopt any such local law requiring the delivery of solid waste to a specified solid waste management-resource recovery facility. Any such local law shall be adopted in accordance with the procedure provided by the municipal home rule law, except that no such local law shall be subject to either mandatory or permissive referendum.

3. The county is hereby authorized to resell or otherwise dispose of all or any part of the materials, energy, by-products or residue purchased from the agency pursuant to subdivision two of this section. Any resale or other disposition may be made in such manner as the county may deem proper and upon such terms and conditions as may be agreed upon

by the parties thereto.

4. The county and all other municipalities within the county shall have power to perform such other acts, to enter into such other contracts, including contracts between or among themselves, execute such instruments and to undertake such future proceedings as shall be determined necessary or desirable to effectuate the purposes of this title, including the making of gifts, grants, loans or contributions to the agency.

5. Any contract entered into by a municipality pursuant to this section may be for such term or duration, not to exceed twenty-five years, as may be agreed upon by the parties thereto, except that any contract relating to or affecting the security of any project financed in whole or in part by the agency may provide that the same shall remain in full force and effect so long as the bonds issued for such project shall remain outstanding or until adequate provision has been made for the payment or satisfaction thereof.

6. Any contract entered into pursuant to this section to which the agency shall be a party may be pledged by the agency as security for any issue of bonds, and may be assigned, in whole or in part, by the agency to any public corporation or person which shall construct, purchase, lease or otherwise acquire any solid waste management-resource recovery facility, or part thereof, financed in whole or in part by the agency.

§ 2045-u. Solid waste facility reserve fund. The county legislature may establish a special fund, to be known as the solid waste facility reserve fund of the county. There shall be credited to such reserve fund all amounts paid to the county and specifically designated by the payor for deposit in such reserve fund, together with such county moneys as may be appropriated thereto from time to time. Moneys in such reserve fund may be appropriated only for the purpose of paying amounts due from the county under the terms of any contract entered into pursuant to this title, for which an insufficient or no provision has otherwise been made, except that upon the adoption of a resolution by at least a two-thirds vote of the voting strength of the county legislature, all or any portion of the moneys in such reserve fund may be transferred to any other reserve fund established by the county pursuant to the general municipal law. To the extent not inconsistent with the provisions of this subdivision, the management of such reserve fund and the investment of moneys therein shall be subject to the provisions of section six-h of the general municipal law.

§ 2045-v. Transfer of environmental applications, proceedings, approvals and permits. 1. Any application in relation to the purposes of or contemplated by this title heretofore filed, or any proceeding heretofore commenced, by the county with the state department of environmental conservation, the department of transportation or any other state agency or instrumentality or with the United States environmental protection agency or any other federal agency or instrumentality shall inure to and for the benefit of the agency to the same extent and in the same manner as if the agency had been a party to such application or proceeding from its inception, and the agency shall be deemed a party thereto, to the extent not prohibited by any federal law. Any license, approval, permit or decision heretofore or hereafter issued or granted pursuant to or as a result of any such application or proceeding shall inure to the benefit of and be binding upon the agency and shall be assigned and transferred by the county to the agency, unless such assignment and transfer is prohibited by federal law.

2. All such applications, proceedings, licenses, approvals, permits and decisions shall further inure to and for the benefit of and be binding upon any person leasing, acquiring, constructing, maintaining, using or occupying any facility financed in whole or in part by the agency.

§ 2045-w. Separability clause. If any section, clause or provision in this title shall be held by a competent court to be unconstitutional or ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective, and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 2045-x. Effect of inconsistent provisions. In so far as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of the county charter or any local law, ordinance or resolution of the county or any other municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the agency otherwise set forth in this title. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation.

TITLE 13-C

TOWN OF ISLIP RESOURCE RECOVERY AGENCY

2046-u. Title not affected if in part unconstitutional or ineffective.

§ 2046-a. Short title. This title may be cited as the "Islip resource recovery agency act".

§ 2046-b. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. "Agency" shall mean the public benefit corporation created by section two thousand forty-six-c of this title and shall be deemed a public authority.

2. "Bonds and notes" shall mean the bonds, notes or other obligations issued by the agency pursuant to this title and the provisions of this title relating to bonds and bondholders shall apply with equal force and effect to notes and noteholders, respectively, unless the context otherwise clearly requires.

3. "Construction" shall mean the erection, building, acquisition, alteration, reconstruction, improvement, enlargement or extension of a solid waste management-resource recovery facility; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures and other actions incidental thereto.

4. "Cost", as applied to any project, shall include the cost of acquisition of any project, the cost of construction of the project, the cost of acquisition of all property, including real property and other property, both real and personal and improved and unimproved, the cost of demolishing, removing or relocating any buildings or structures on land so acquired, including the cost of acquiring any land to which such buildings may be moved or relocated, the cost of all systems, facilities, machinery, apparatus and equipment, financing charges,

interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultants and legal services, the cost of lease guarantee or bond or note insurance, other expenses necessary or incidental to the construction of such project and the financing of the construction thereof, including the amount authorized in the resolution of the agency providing for the issuance of bonds or notes to be paid into any reserve or other special fund from the proceeds of such bonds or notes and the financing of the placing of any project in operation, including reimbursement to the town for expenditures made with the prior approval of the agency, that would be costs of the project hereunder had they been made directly by the agency.

5. "Governing body" shall mean the directors of the agency.

6. "Municipality" shall mean any county, city, town, village, school district, fire district or a county or town acting on behalf of an improvement district.

7. "Person" shall mean any natural person, partnership, association, joint venture or corporation, exclusive of a public corporation.

8. "Project" shall mean any solid waste management-resource recovery facility, the planning, financing, construction, operation or maintenance of which is authorized to be undertaken, in whole or in part, by the agency pursuant to this title, including any real property required in connection therewith.

9. "Real property" shall mean lands, structures, franchises and interests in land, waters, lands under water, riparian rights and air rights and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interests including, but not limited to, easements, rights of way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgments, mortgages or otherwise.

10. "Revenues" shall mean all rates, fees, rents, charges and other income derived by the agency from its operations.

11. "Resource recovery" shall mean the separation, extraction and recovery of usable materials, energy or heat from solid waste through source separation, recycling centers or other programs, projects or facilities.

12. "Solid waste" shall mean all putrescible and non-putrescible solid wastes, including, but not limited to, materials or substances discarded or rejected as being spent, useless, worthless, or in excess to the owners at the time of such discard or rejection, including but not limited to garbage, refuse, industrial and commercial waste, sludges from air or water pollution control facilities or water supply treatment facilities, rubbish, ashes, contained gaseous material, incinerator residue, demolition and construction debris and offal, but not including sewage and other highly diluted water-carried materials or substances and those in gaseous form, source, special nuclear or by-product material within the meaning of the Atomic Energy Act of nineteen hundred fifty-four, as amended, and waste which appears on the list of hazardous waste promulgated by the commissioner of environmental conservation pursuant to section 27-0903 of the environmental conservation law.

13. "Solid waste management-resource recovery facility" or "facility" shall mean any facility, plant, works, system, building, structure, improvement, machinery, equipment, fixture or other real or personal property which is to be used, occupied or employed beyond the initial solid waste collection process for the receiving, transporting, storage, processing or disposal of solid waste or the recovery by any means of any material or energy product or resource therefrom including but not limited to recycling centers, transfer stations, baling facilities, rail haul or maritime facilities, processing systems, resource recovery facilities, steam and electric generating facilities, including auxiliary facilities to supplement or temporarily replace such generating facilities, steam distribution facilities, sanitary landfills, plants and facilities for compacting, composting or

pyrolyzation of solid wastes, incinerators, and other solid waste disposal, reduction or conversion facilities and resource recovery equipment and disposal equipment as defined in subdivisions four and five of section 51-0903 of the environmental conservation law.

14. "Source separation" shall mean the segregation of recyclable materials from the solid waste stream at the point of generation for separate collection, sale or other disposition.

15. "State" shall mean the state of New York.

16. "Town" shall mean the town of Islip.

17. "Town board" shall mean the town board of the town of Islip.

§ 2046-c. The Islip resource recovery agency. 1. A corporation known as the "Islip resource recovery agency" is hereby created for the purposes and charged with the duties and having the powers provided in this title. The agency shall be a body corporate and politic constituting a public benefit corporation. Its membership shall consist of a board of five directors comprised, ex-officio, of the members of the town board. A quorum of the governing body shall consist of at least three members for the transaction of any business or the exercise of any power. At any meeting of the agency where a quorum is present, the governing body shall have the power to act by the vote of a majority of all its members. The agency may delegate to one or more of its members, or its officers, agents or employees, such powers and duties as it may deem proper. No member of the agency shall be appointed or serve as an officer, agent or employee of the agency. The members of the agency shall receive no compensation for their services but shall be reimbursed for all their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title.

2. The officers of the agency shall consist of a president, executive vice-president, treasurer and a secretary appointed by the agency for a term not to exceed five years. The executive vice-president shall

possess such professional qualifications as shall be established by the commissioner of environmental conservation and shall perform such powers and duties with respect to the supervision of design and construction of projects as may be determined by the governing body. The agency may terminate the office of executive vice-president at any time after the completion of construction of any project. The president, treasurer and secretary shall execute bonds, each conditioned on the faithful performance of the duties of his office, the amount and sufficiency of each of which shall be approved by the governing body, and the premium therefor shall be paid by the agency. The agency may appoint an attorney who may be an officer of the agency, to act as its general counsel. Other officers may be appointed as the agency may deem proper. The agency may also from time to time contract for expert and professional services. No member of the agency shall be eligible to serve as an officer of the agency.

3. Notwithstanding any inconsistent provisions of this or any other law, general, special or local, no officer or employee of the state, or of any municipality thereof, shall be deemed to have forfeited or shall forfeit his office or employment or any benefits provided under the retirement and social security law by reason of his acceptance of appointment as an officer, agent or employee of the agency, provided, however, that no member of the town board shall be eligible for appointment as an officer, agent or employee of the agency.

4. It is hereby determined and declared that the agency and the carrying out of its powers, purposes and duties are in all respects for the benefit of the people of the town and the state, for the improvement of their health, welfare and prosperity and that said purposes are public purposes and that the agency is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

5. The agency and its corporate existence shall continue until terminated by law, provided, however, that no such law shall take effect so long as the agency shall have bonds, notes or other obligations outstanding, unless adequate provision has been made for the payment or

satisfaction thereof. Upon termination of the existence of the agency, all of the rights and properties of the agency then remaining shall pass to and be vested in the town in accordance with such law.

6. From time to time, the town board may, by resolution, appropriate moneys to be advanced to the agency for the purpose of defraying project costs or any other costs and expenses of the agency. The moneys so advanced shall be repaid by the agency, subject to the rights of the holders of any bonds or notes, at such time and in such manner as may be agreed upon between the agency and the town board.

7. There shall be an annual independent audit of the accounts and business practices of the agency performed by independent outside auditors. Any such auditor shall serve no more than three consecutive years.

§ 2046-d. State and town not liable on bonds or notes. Neither the state, the town nor any other municipality or other public corporation shall be liable on the bonds and notes of the agency and such bonds and notes shall not be a debt of the state, the town or any other municipality or public corporation, and such bonds and notes shall contain on the face thereof a statement to such effect.

§ 2046-e. Transfer of property. The town is authorized and empowered to give, grant, sell, convey, loan, license the use of or lease, to the agency, any property or facility of the town which is useful in connection with the exercise by the agency of its powers under this title. Any such gift, grant, sale, conveyance, loan, license or lease shall be upon such terms and conditions, subject to the rights of the holders of any bonds or notes, as the agency and the town may agree.

§ 2046-f. Powers. The agency shall have the power:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To acquire, hold or lease, in the name of the agency or to sell, mortgage, lease, or otherwise dispose of property, real, personal, mixed, or any interest therein, without limitation for its corporate purposes, provided that the agency may not acquire any real property without the town except with the consent of the town board of the town in which such property is located or, if located within the boundaries of a village, with the consent of the board of trustees of such village;

4. To receive, collect, transport, process, dispose of, sell, store, convey, recycle and deal with, in any lawful manner and way, solid waste and any by-products thereof now or hereafter developed or discovered, including energy generated by the operation of any facility;

5. To condemn with consent of town board and the supervisor in the name of the agency, pursuant to the eminent domain procedure law, any real property within the town required by the agency to carry out the powers granted by this title;

6. To plan, construct and develop projects and to have the right to contract in relation thereto with the town and with other municipalities or persons within or without the town and to own, acquire and purchase real property in connection therewith and to own and operate, maintain, repair, improve, reconstruct, enlarge and extend, subject to the provisions of this title, any of its properties acquired or constructed under this title, and to sell, lease, mortgage or otherwise dispose of any project or part thereof to any persons or municipality, subject to such conditions and limitations as the agency may determine to be in the public interest;

7. To assist in the planning, construction and development of and the financing of the cost of any solid waste management-resource recovery facility to be located in the town whether or not such facility is to be owned or operated by the agency, which assistance may include loans to any person or public corporation. Any such solid waste

management-resource recovery facility producing either electricity or shaft horsepower and useful thermal energy shall constitute a co-generation facility as defined in subdivision two-a of section two of the public service law;

8. To receive from the United States, the state, the town, any other municipality or public corporation or person, or from such other sources as the agency may deem proper, solid waste for the purpose of treatment or disposal thereof, with the right of the agency to sell and dispose of any products or by-products of such process of treatment or disposal, as the agency may deem proper;

9. To contract with the town, other municipalities, state agencies or authorities, or persons for the purpose of receiving, treating and disposing of solid waste by the agency;

10. To adopt by-laws for the management and regulation of its affairs, subject to agreements with bondholders and noteholders, rules for the receiving and disposing of solid waste and charges therefor. A copy of such rules and by-laws, and all amendments thereto, duly certified by the secretary of the agency shall be filed in the office of the agency;

11. To use officers or employees of the town, subject to the payment to the town by the agency of a proper portion of the compensation or costs for the services of such officers or employees;

12. To make contracts and to execute all necessary or convenient instruments, including evidences of indebtedness, negotiable or non-negotiable;

13. To enter with consent of the town supervisor on any lands, waterways and premises for the purpose of making surveys, soundings and examinations, and liability therefor shall not exceed actual damages;

14. To borrow money and to issue negotiable bonds or notes or other obligations and to fund or refund the same, and to provide for the rights of the holders of its bonds or notes;

15. To fix and collect rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, or any commodities furnished by the agency so as to provide revenues sufficient at all times to pay, as the same shall become due, the principal and interest on the bonds, notes or other obligations of the agency together with the maintenance of proper reserves therefor, in addition to paying, as the same shall become due, the expenses of operating and maintaining the properties of the agency, together with proper reserves for debt service, depreciation, maintenance and contingencies and all other obligations and indebtedness of the agency;

16. To accept grants, loans or contributions from the United States, the state or any agency or instrumentality of either of them, or any municipality or individual, by bequest or otherwise, and to expend the proceeds for any purposes of the agency, providing however, that any resource recovery facility or project constructed with state assistance shall be designed and constructed using proven technology acceptable to the commissioner of environmental conservation;

17. To do all things necessary or convenient to carry out the powers expressly given in this title.

§ 2046-g. Bonds and notes. 1. The agency shall have the power and is hereby authorized from time to time to issue bonds and notes, in conformity with applicable provisions of the uniform commercial code, in such principal amounts as it may determine to be necessary to pay the cost of any project or for any other corporate purpose, including incidental expenses in connection therewith provided such bonds and notes shall in no event exceed fifty million dollars in outstanding indebtedness at any time, except as any such higher amount has been approved in advance of issuance by the qualified voters of the town of Islip at a public referendum conducted pursuant to the rules and regulations of the state board of elections. The agency shall have power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee of any bonds or notes. The agency shall have power from time to time to refund any bonds or notes by the issuance of new bonds or notes whether the bonds or notes to be refunded have or have not matured, and may issue bonds or notes partly to refund bonds or notes then outstanding and partly for any other corporate purpose. Bonds or notes issued by the agency may be general obligations secured by the faith and credit of the agency or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the agency under which the bonds or notes shall be authorized to be issued and subject to any agreements with the holders of outstanding bonds and notes pledging any particular revenues or moneys.

2. The bonds and notes shall be authorized by resolution of the governing body, shall bear such date or dates, shall mature at such time or times, shall bear interest at such rate or rates, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places and be subject to such terms of redemption as such resolution or resolutions may provide, provided that no note or any renewal thereof shall mature more than five years after the date of issue of the original note and provided that no bond shall mature more than forty years after the date of the original issuance. The bonds and notes of the agency may be sold by the agency at public or private sale at such price or prices as the agency shall determine, provided that the terms of any private sale of bonds shall be approved in writing by the state comptroller where such sale is not to the state comptroller, or by the director of the division of the budget where such sale is to the state comptroller. The agency may pay all expenses, premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale thereof.

3. Any resolution or resolutions authorizing any bonds or notes or any issue thereof may contain provisions, which shall be a part of the contract with the holders thereof, as to:

(a) pledging all or any part of the moneys or revenues derived by the agency from the ownership or operation of, or otherwise in connection with, any project or projects or any part or parts thereof to secure the payment of the bonds or notes or of any issue thereof, subject to such agreements with bondholders or noteholders as may then exist;

(b) the amount, use and disposition of the rates, rentals, fees and other charges to be fixed and collected by the agency;

(c) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(d) limitations on the right of the agency to restrict and regulate the use of the properties in connection with which such bonds or notes are issued;

(e) limitations on the purpose to which the proceeds of sale of bonds or notes may be applied;

(f) limitations on the issuance of additional bonds or notes, the terms upon which additional bonds or notes may be issued and secured and the refunding of outstanding or other bonds or notes;

(g) the procedure, if any, by which the terms of any contract with bondholders or noteholders may be amended or abrogated, the amount of bonds or notes the holders of which must consent thereto, and the manner in which such consent may be given;

(h) the creation of special funds into which any moneys or revenues of the agency may be deposited;

(i) the terms and provisions of any mortgage or trust deed or indenture securing the bonds or notes or under which the bonds or notes may be issued;

(j) vesting in a trustee or trustees such property, rights, powers and duties in trust as the agency may determine which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders or noteholders pursuant to this title, and limiting or abrogating the right of the bondholders or noteholders to appoint a trustee under this title or limiting the rights, powers and duties of such trustee;

(k) defining the acts or omissions to act which shall constitute a default in the obligations and duties of the agency to the bondholders or noteholders and providing the rights and remedies of the bondholders or noteholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) limitations on the power of the agency to sell or otherwise dispose of its properties;

(m) limitations on the amount of money derived from the properties to be expended for operating, administrative or other expenses of the agency;

(n) the protection and enforcement of the rights and remedies of the bondholders or noteholders;

(o) the obligations of the agency in relation to the construction, maintenance, operation, repairs and insurance of the properties of the agency, the safeguarding and application of all moneys and the requirements for the supervision and approval of consulting engineers in connection with construction, maintenance and operation of such properties;

(p) the payment of the proceeds of bonds and notes and other moneys and revenues of the agency to a trustee or other depositary, and for the method of disbursement thereof with such safeguards and restrictions as the agency may determine;

(q) any other matters, of like or different character which in any way affect the security or protection of the bonds and notes.

4. In addition to the powers herein conferred upon the agency to secure its bonds and notes, the agency shall have power in connection with the issuance of bonds and notes to enter into such agreements as the agency may deem necessary, convenient or desirable concerning the use or disposition of its moneys or property including the mortgaging of only such property and the entrusting, pledging or creation of any other security interest in any such moneys or property and the doing of any act, including refraining from doing any act, which the agency would have the right to do in the absence of such agreements. The agency shall have power to enter into amendments of any such agreements within the powers granted to the agency by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of the bonds and notes of the agency.

5. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues,

moneys, accounts, contract rights, general intangibles or other personal property made or created by the agency shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or otherwise against the agency irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

6. Whether or not the bonds or notes are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds and notes are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds and notes for registration.

7. Neither the directors of the agency nor any person executing the bonds or notes shall be liable personally on the bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The agency, subject to such agreements with bondholders or noteholders as may then exist, shall have power out of any funds available therefor to purchase bonds or notes of the agency, which shall thereupon be cancelled, at a price not exceeding (a) if the bonds or notes are then redeemable, the redemption price then applicable plus accrued interest to the next interest payment thereon, or (b) if the bonds or notes are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds or notes become subject to redemption plus accrued interest to such date.

§ 2046-h. Remedies of bondholders and noteholders. Subject to resolutions adopted pursuant to paragraph (j) of subdivision three of section two thousand forty-six-g of this title:

1. In the event that the agency shall default in the payment of principal of or interest on any issue of bonds or notes after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the agency shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds or notes, the holders of twenty-five per cent in aggregate principal amount of the bonds or notes, of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county of Suffolk and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds or notes for the purpose herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in aggregate principal amount of such bonds or notes outstanding, shall in his or its own name:

(a) by suit, action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders or noteholders, including the right to require the agency to collect rentals, rates, fees and charges adequate to carry out any agreement as to, or pledge of such rentals, rates, charges and other fees and to require the agency to carry out any other agreements with the holders of such bonds or notes to perform its duties under this title;

(b) bring suit upon such bonds or notes;

(c) by action or suit, require the agency to account as if it were the trustee of an express trust for the holders of such bonds or notes;

(d) by action or suit, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds or notes;

(e) declare all such bonds or notes due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum in aggregate principal amount of such bonds or notes then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders or noteholders in the enforcement and

protection of their rights.

4. The supreme court shall have jurisdiction of any suit, action, or proceeding by the trustee on behalf of such bondholders or noteholders. The venue of any such suit, action or proceeding shall be laid in the county of Suffolk.

5. Before declaring the principal of bonds or notes due and payable, the trustee shall first give thirty days notice in writing to the governing body and president of the agency.

6. Any such trustee whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the properties the revenues of which are pledged for the security of the bonds or notes of such issue and such receiver may enter and take possession of such part or parts of the properties and subject to any pledge or agreement with holders of bonds or notes shall take possession of all moneys and other property derived from such part or parts of the properties and proceed with any construction thereon or the acquisition of any property, real or personal in connection therewith which the agency is under obligation to do, and to operate, maintain and reconstruct such part or parts of the properties and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with bond or note holders relating thereto and perform the public duties and carry out the agreements and obligations of the agency under the direction of the court. In any suit, action or proceeding by the trustee the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the properties.

§ 2046-i. Actions against agency. 1. In every action against the agency for damages, for injuries to real or personal property or for the destruction thereof, or for personal injuries or death, the complaint shall contain an allegation that at least thirty days have elapsed since the demand, claim or claims upon which such action is founded were presented to a member of the agency or other officer designated for such purpose and that the agency has neglected or refused to make an adjustment or payment thereof.

2. Except in an action for wrongful death, an action against the agency founded on tort shall not be commenced more than one year and ninety days after the cause of action therefor shall have accrued, nor unless a notice of claim shall have been served on the agency within the time limited by and in compliance with all the requirements of section fifty-e of the general municipal law. An action against the agency for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

3. The agency may require any person, presenting for settlement an account or claim for any cause whatever against the agency, to be sworn before a director, counsel or an attorney, officer or employee of the agency designated for such purpose, concerning such account or claim and when so sworn to answer orally as to any facts relative to such account or claim. The agency shall have power to settle or adjust all claims in favor of or against the agency.

4. The rate of interest to be paid by the agency upon any judgment for which it is liable, other than a judgment on its bonds or notes, shall not exceed nine per centum per annum.

§ 2046-j. Moneys of the agency. All moneys of the agency from whatever source derived shall be paid to the treasurer of the agency and shall be deposited forthwith in a bank or banks in the state designated by the agency. The moneys in such accounts shall be paid out on check of the treasurer upon requisition by the agency or of such other person or persons as the agency may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States or of the state or of the town of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. To the extent practicable, consistent with the cash requirements of the agency, all such moneys shall be deposited in interest bearing accounts. The agency shall have power, notwithstanding the provisions of this section, to contract with the holders of any of its bonds or notes as to the custody, collection, security, investment and payment of any moneys of the agency, or any moneys held in trust or otherwise for the payment of bonds or notes or in any way to secure bonds or notes, and carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds or notes or in any way to secure bonds or notes and deposits of such moneys may be secured in the same manner as moneys of the agency and all banks and trust companies are authorized to give such security for such deposits. Subject to any agreements with the holders of any of its bonds or notes, any moneys of the agency not required for immediate use or distribution may, at the discretion of the agency, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. Subject to any agreements with the holders of any of its bonds or notes, the agency with the approval of the state comptroller shall prescribe a system of accounts.

§ 2046-k. Transfer of officers and employees. Any officer or employee of the town selected by the agency may, with the consent of the town, be transferred to the agency. The salary or compensation of any such officer or employee shall, after such transfer, be paid and fixed by the agency. Notwithstanding the provisions of this title any such officers or employees so transferred to the agency pursuant to the provisions of this section, who are members of or beneficiaries under any existing pension or retirement system, shall continue to have all rights, privileges, obligations and status with respect to such fund, system or systems as are now prescribed by law, but during the period of their employment by the agency, all contributions to any pension or retirement system to be paid by the employer on account of such officers or employees, shall be paid by the agency.

§ 2046-l. Agreements of the state. The state does pledge to and agree with the holders of the bonds or notes that the state will not limit or alter the rights hereby vested in the agency to acquire, construct, maintain, operate, reconstruct and improve any project, or part or parts thereof, for which bonds or notes shall have been issued, to establish and collect rates, rentals, fees and other charges referred to in this title and to fulfill the terms of any agreement made with the holders of the bonds or notes, or in any way impair the rights and remedies of such bondholders or noteholders, until the bonds or notes together with interest thereon, interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of the bondholders or noteholders are fully met and discharged.

§ 2046-m. Bonds and notes as legal investments. The bonds and notes are hereby made securities in which all public officers and bodies of this state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies, trusts, estates, or guardianships under the control of individual administrators, guardians, executors, trustees and other individual fiduciaries, and other persons carrying on a banking business, and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or notes or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them. The bonds or notes are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purpose for which the deposit of bonds or notes or other obligations of this state is now or may hereafter be authorized.

§ 2046-n. Tax exemption. 1. It is hereby determined that the creation of the agency and the carrying out of its corporate purposes is in all respects for the benefit of the people of the town and the state and is a public purpose, and the agency shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay taxes or assessments upon any of the real property or improvements thereon acquired by it or under its jurisdiction or control or supervision or upon its activities or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf.

2. The bonds and notes issued pursuant to this title, together with the income therefrom, and all its fees, charges, gifts, grants, revenues, receipts and other moneys received or to be received, pledged to pay or secure the payment of such bonds or notes, shall at all times be free from taxation, except for estate and gift taxes and taxes on transfers.

§ 2046-o. Tax contract. The state covenants with the purchasers and with all subsequent holders and transferees of bonds or notes issued by the agency pursuant to this title, in consideration of the acceptance of and payment for the bonds or notes that the bonds and notes of the agency issued pursuant to this title and the income therefrom, and all moneys, funds and revenues pledged to pay or secure the payment of such bonds or notes, shall at all times, be free from taxation except for estate and gift taxes and taxes on transfers.

§ 2046-p. Disinterested officers. It shall be a misdemeanor for any director, officer, agent or employee of the agency to be in any way or manner interested, directly or indirectly, in the furnishing of work, materials, supplies or labor, or in any contract therefor, which the agency is empowered by this title to make.

§ 2046-q. Audit and annual report. In conformity with the provisions of section five of article ten of the constitution, the accounts of the agency shall be subject to the supervision of the state comptroller. The agency shall annually submit to the governor and the state comptroller and to the state legislature a detailed report pursuant to the provisions of sections two thousand five hundred, two thousand five hundred one, two thousand five hundred two and two thousand five hundred three of title one of article nine of this chapter, and a copy of such report shall be filed with the town clerk.

§ 2046-r. Limited liability. Neither the directors of the agency, nor the town or any other municipality, nor any person, or persons acting in behalf of the agency, while acting within the scope of their authority, shall be subject to any personal liability resulting from the erection, construction, reconstruction, maintenance or operation of any project or from carrying out any of the powers expressly given in this title; provided, however, that this section shall not be held to apply to any independent contractor.

§ 2046-s. Contracts. All contracts or orders, for work, material or supplies performed or furnished in connection with construction, shall be awarded by the agency pursuant to resolution of the governing body except as hereinafter provided. Such awards, when applicable, may be made in compliance with paragraph (e) of subdivision four and subdivision seven of section one hundred twenty-w of the general municipal law. In any construction contract, the agency may provide a program for the payment of damages for delays and incentive awards in order to encourage timely project completion. An action, suit or proceeding contesting the validity of a contract awarded pursuant to this section, or the validity of the procedures relating to such award, shall be governed by the provisions of subdivision six of section one hundred twenty-w of the general municipal law and the term "municipality" as used in such subdivision six shall mean the agency.

The bidder whose bid is accepted shall give security for the faithful performance of the contract, and such other security as the agency may require, and may be required to maintain any construction done under the contract for such period as shall be stipulated, all in the manner prescribed and required by the agency and the sufficiency of such security shall, in addition to the justification and acknowledgment, be approved by the agency. All bids or proposals shall be publicly opened by the governing body or its duly authorized agent. If the bidder whose bid or proposal has been accepted shall neglect or refuse to accept the contract within five days after written notice that the contract has been awarded to him on his bid or proposal, or, if he accepts but does not execute the contract and give proper security, the agency shall have the right to declare his security forfeited. In case any work shall be abandoned by any contractor, the agency may, if it determines that the public interest is thereby served, adopt on behalf of the agency any or all subcontracts made by such contractor for such work and all such subcontractors shall be bound by such adoption if made. No bid or proposal shall be accepted from or any contract awarded to, any person or corporation which is in arrears to the agency or the town upon any obligation of the agency or of the town. Every contract involving an expenditure of more than five thousand dollars when made and entered into as herein provided for shall be executed in duplicate, one copy of which shall be held by the agency and one copy of which shall be delivered to the contractor. The agency may adopt, utilize, ratify and confirm any request for proposals, invitation for sealed bids, plans, specifications and notices heretofore or hereafter published by the town with respect to any proposed project, and the agency may adopt, utilize, accept and confirm any bids or proposals submitted to the town and heretofore or hereafter received and publicly opened by the town. The provisions of this section shall supersede any inconsistent provisions of the general municipal law, any other general, special or local law. The agency shall be deemed an authority for the purpose of section twenty-six hundred four of this chapter.

§ 2046-t. Agreements with the town. 1. The town is hereby authorized to pledge to and agree with the holders of the bonds and notes that:

(a) The town will not limit or alter the rights hereby vested in the agency to acquire, construct, maintain, reconstruct and operate any project, to establish and collect rates, rents, fees and other charges and to fulfill the terms of any agreements made with the holders of the bonds and notes, or in any way impair the rights and remedies of the bondholders or noteholders, until the bonds or notes, together with interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders or noteholders, are fully met and discharged; and

(b) Subject to such exceptions and limitations as may be deemed in the public interest, no facilities except those acquired, constructed and operated by the agency will be acquired, constructed or operated by the town, or by any public benefit or other corporation the members or the majority of which are appointed by the town board, until all bonds and notes, together with interest thereon, interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders or noteholders are fully met and discharged.

2. The town is hereby authorized from time to time to contract with the agency in relation to the receiving, transporting, storage, processing or disposal of solid waste or for the purchase or use of materials, energy, by-products or residue generated by or resulting from the operation of any solid waste management-resource recovery facility. Such contracts may be for the periods agreed upon by the parties, but not exceeding forty years, and without limiting the generality of the foregoing, may include provisions requiring (i) the periodic delivery of minimum amounts of solid waste and specified minimum periodic payments whether or not such delivery is made, and (ii) the payment, within appropriations available therefor, of such amounts as shall be necessary to assure the continued operation and solvency of the agency, such payments to be determined and paid in such manner and at such times as may be provided in such contracts.

3. To further the governmental and public purposes of the agency, including the implementation of any contract or proposed contract contemplated by this title, the town and all other municipalities within the town are hereby authorized and empowered to adopt and amend local laws imposing appropriate and reasonable limitations on competition within the town, including the areas within any incorporated villages in

the town, with respect to collecting, receiving, transporting, delivering, storing, processing, and disposing of solid waste or the recovery by any means of any material or energy product or resource therefrom, including, without limiting the generality of the foregoing, local laws requiring that all solid waste generated, originated or brought within their respective boundaries, subject to such exceptions as may be determined to be in the public interest, shall be delivered to a specified solid waste management-resource recovery facility; provided, however, that any such local law enacted by the town shall take precedence over and shall supersede any inconsistent provisions of any such local law enacted by a municipality within the town. Any such local law shall be adopted in accordance with the procedure provided by the municipal home rule law, except that no such local law shall be subject to either mandatory or permissive referendum.

§ 2046-u. Title not affected if in part unconstitutional or ineffective. If any provision of any section of this title or the application thereof to any person or circumstance shall be adjudged invalid by a court of competent jurisdiction, such order or judgment shall be confined in its operation to the controversy in which it was rendered, and shall not affect or invalidate the remainder of any provision of any section of this title or the application of any part thereof to any other person or circumstance and to this end the provisions of each section of this title are hereby declared to be severable. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation.

TITLE 13-D

DUTCHESS COUNTY RESOURCE RECOVERY AGENCY

§ 2047-a. Short title. This title shall be known and may be cited as the "Dutchess County Resource Recovery Agency Act."

§ 2047-b. Definitions. As used or to refer to in this title, unless a different meaning clearly appears from the context:

1. "Agency" means the public benefit corporation created by section two thousand forty-six-c of this title, known as the Dutchess County Resource Recovery Agency.

2. "Area of operation" means the county of Dutchess.

3. "Bonds" means the bonds, notes or other evidences of indebtedness issued by the agency pursuant to this title and the provisions of this title relating to bonds and bondholders shall apply with equal force and effect to notes and noteholders, respectively, unless the context otherwise clearly requires.

4. "Cost" as applied to any project, includes the cost of construction, the cost of the acquisition of all property, including real property and other property, both real and personal and improved and unimproved, the cost of demolishing, removing or relocating any buildings or structures on lands so acquired, including the cost of acquiring any lands to which such buildings or structures may be moved or relocated, the cost of all systems, facilities, machinery, apparatus and equipment, financing charges, interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultants' and legal services, the cost of lease guarantee or bond insurance, other expenses necessary or incidental to the construction of such project and the financing of the construction thereof, including the amount authorized in the resolution of the agency providing for the issuance of bonds to be paid into any reserve or other special fund from the proceeds of such bonds and the financing of the placing of any project in operation, including reimbursement to the county, or any municipality, state agency, the state, the United States government, or any other person for expenditures that would be costs of the project hereunder had they been made directly by the agency.

5. "County" means the county of Dutchess.

6. "Construction" means the acquisition, erection, building, alteration, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of a solid waste management-resource recovery facility; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings,

specifications, procedures and other actions incidental thereto.

7. "Governing body" means the members of the agency constituting and acting as the governing body of the agency.

8. "Municipality" means any county, city, town, village, improvement district, or public corporation of the state, or any combination thereof.

9. "Person" means any natural person, partnership, association, joint venture or corporation, exclusive of a public corporation.

10. "Project" means any solid waste management-resource recovery facility, the planning, development, financing, construction, operation, or maintenance of which is authorized to be undertaken in whole or in part by the agency pursuant to this title.

11. "Real property" means lands, structures, franchises and interests in land, waters, lands underwater, riparian rights and air rights and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interests including, but not limited to easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgment, mortgages or otherwise.

12. "Resource recovery" means the separation, extraction and recovery of usable materials, energy or heat from solid waste through source separation, recycling centers or other programs, projects or facilities.

13. "Revenues" means all rates, fees, rents, charges and other income derived by the agency from its operations.

14. "Solid waste" means all materials or substances discarded or rejected as being spent, useless, worthless, or in excess to the owners at the time of such discard or rejection, including but not limited to garbage, refuse, industrial and commercial waste, sludges from air or

water pollution control facilities or water supply treatment facilities, rubbish, ashes, contained gaseous material, incinerator residue, demolition and construction debris and offal, but not including sewage and other highly diluted water-carried materials or substances and those in gaseous form, source, special nuclear or by-product material within the meaning of the Atomic Energy Act of 1954, as amended, and waste which appears on the list of hazardous waste promulgated by the commissioner of environmental conservation pursuant to section 27-0903 of the environmental conservation law.

15. "Solid waste management-resource recovery facility" or "facility" means any facility, plant, works, system, building, structure, improvement, machinery, equipment, fixture or other real or personal property which is to be used, occupied or employed for the collecting, receiving, transporting, storage, processing, or disposal of solid waste or the recovery by any means of any material or energy product or resource therefrom including but not limited to recycling centers, transfer stations, baling facilities, rail haul or maritime facilities, collection vehicles processing systems, resource recovery facilities, steam and electric generating and transmission facilities, including auxiliary facilities to supplement or temporarily replace such generating facilities, steam distribution facilities, sanitary landfills, plants and facilities for compacting, composting or pyrolization of solid wastes, incinerators, and other solid waste disposal, reduction or conversion facilities and resource recovery equipment and disposal equipment as defined in subdivisions four and five of section 51-0903 of the environmental conservation law.

16. "State" means the state of New York.

17. "Source separation" means the segregation of recyclable materials from the solid waste stream at the point of generation for separate collection, sale or other disposition.

§ 2047-c. Dutchess County Resource Recovery Agency. 1. A corporation known as the Dutchess County Resource Recovery Agency is hereby created for the public purposes and charged with the duties and having the powers provided in this title. The agency shall be a body corporate and politic constituting a public benefit corporation. It shall consist of seven members, three of whom shall be appointed by the county executive, without confirmation of the county legislature, three of whom shall be appointed by the chairman of the county legislature subject to confirmation by the county legislature but without executive right to veto, and one of whom shall be jointly appointed by the county executive and the chairman of the county legislature, subject to confirmation by the county legislature. Subsequent appointment of members shall be made for a term of three years ending in each case on December thirty-first of the last year of such term. No person who has served as a member for two consecutive three year terms shall be eligible for reappointment as a member for a third term, except after an interval of at least three years. All members shall continue to hold office until their successors are appointed and qualify. Vacancies shall be filled in the manner provided for original appointment. Vacancies, occurring otherwise than by expiration of term of office, shall be filled for the unexpired terms. Members may be removed from office for the same reasons and in the same manner as may be provided by law for the removal of officers of the county. The members of the agency shall receive no compensation for their services but shall be reimbursed for all their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the agency shall be vested in and be exercised by the governing body at a meeting duly called and held and four members shall constitute a quorum. No action shall be taken except pursuant to the favorable vote of at least four members. The governing body may delegate to one or more of its members, officers, agents or employees such powers and duties as it may deem proper.

2. The officers of the agency shall consist of a chairman, a vice-chairman and a treasurer, who shall be members of the agency, and a secretary, who need not be a member of the agency. Such officers shall be appointed by the governing body and shall serve at the pleasure of the governing body. In addition to the secretary, the governing body may appoint and at pleasure remove such additional officers and employees as it may determine necessary for the performance of the powers and duties

of the agency, which positions shall be in the exempt class of civil service and fix and determine their qualifications, duties and compensation, subject to the provisions of the civil service law. The governing body may also from time to time contract for expert professional services. The treasurer shall execute a bond, conditioned upon the faithful performance of the duties of his office, the amount and sufficiency of which shall be approved by the governing body and the premium therefor shall be paid by the agency.

3. Notwithstanding any inconsistent provision of any general, special or local law, ordinance, resolution or charter, no officer, member or employee of the state, any municipality, or any public benefit corporation, shall forfeit his or her office or employment by reason of his or her acceptance of appointment as a member, officer, agent or employee of the agency, nor shall service as such member, officer, agent or employee be deemed incompatible or in conflict with such office, membership or employment; provided, however, that no public official elected to his or her office pursuant to the laws of the state or any municipality thereof may serve as a member of the governing body of the agency during his or her term of office.

4. (a) The county executive shall file on or before March thirty-first, nineteen hundred eighty-three, in the office of the secretary of state, a certificate signed by the county executive setting forth: (1) the name of the agency; (2) the names of the members appointed by the county executive and their terms of office; and (3) the effective date of this title. The agency shall be perpetual in duration, except that if such certificate is not filed with the secretary of state on or before such date, then the corporate existence of the agency shall thereupon terminate and it shall thereupon be deemed to be and shall be dissolved.

(b) Except as provided in paragraph (a) of this subdivision, the agency and its corporate existence shall continue until terminated by law, provided, however, that no such law shall take effect so long as the agency shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof. Upon termination of the existence of the agency, all of the rights and properties of the agency then remaining shall pass to and vest in the county.

5. In addition to any powers granted to it by law, the county legislature from time to time may appropriate by resolution sums of money to defray project costs or any other costs and expenses of the agency. Subject to the rights of bondholders, the county legislature may determine if the moneys so appropriated shall be subject to repayment by the agency to the county and, in such event, the manner and time or times for such repayment.

6. It is hereby determined and declared, that the agency and the carrying out of its powers and duties are in all respects for the benefit of the people of the county and the state for the improvement of their health, welfare and prosperity and that such purposes are public purposes and that the agency is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

§ 2047-d. Transfer of property to agency; acquisition of property by county for agency. 1. The county or any other municipality may give, grant, sell, convey, loan, license the use of or lease to the agency any property or facility which is useful in connection with the exercise by the agency of its powers under this title. Any such gift, grant, sale, conveyance, loan, license or lease shall be upon such terms and conditions, subject to the rights of the holders of any bonds, as the agency and the county or other municipality may agree.

2. The county may acquire by purchase or condemnation real property in the name of the county for any corporate purpose of the agency.

3. Notwithstanding the provisions of any other law, general, special or local, real property acquired by the agency or the county from the state may be used for any corporate purpose of the agency.

§ 2047-e. Powers of the agency. The agency shall have the power:

1. To sue and be sued;

2. To have a seal and alter the same;

3. To acquire in the name of the agency, hold, sell, lease, mortgage or otherwise dispose of property, real, personal or mixed, or any interest therein, without limitation, for its corporate purposes; provided, however, that in the acquisition of any real property designated as the site for any facility, the agency shall give consideration to the present and any proposed land use character of the area in which the site is to be located and the zoning laws or regulations, if any, otherwise generally applicable to such area.

4. To take by eminent domain, subject to the approval of the county legislature and the county executive in the name of the agency, pursuant to the eminent domain procedure law, within the area of operation any real property required by the agency to carry out the powers granted by this title.

5. To collect, receive, transport, process, dispose of, sell, store, convey, recycle, and deal with, in any lawful manner and way, solid waste and any products or by-products thereof now or hereafter developed or discovered, including any energy generated by the operation of any solid waste management-resource recovery facility. Any such disposal or sale may be effected on such terms and in such manner as the agency may deem proper.

6. To plan, develop and construct projects and to pay the cost thereof and to have the right to contract in relation thereto with municipalities or persons within or without the county and to own and operate, maintain, repair, improve, reconstruct, enlarge, and extend, subject to the provisions of this title, any of its projects acquired or constructed under this title, and to sell, lease, mortgage or otherwise dispose of any project or part thereof to any person or public corporation, subject to such conditions and limitations as the agency

may determine to be in the public interest.

7. To assist in the planning, development and construction of and the financing of the cost of any solid waste management-resource recovery facility to be located in the county whether or not such solid waste management-resource recovery facility is to be owned or operated by the agency, which assistance may include loans to any person or public corporation. Any such solid waste management-resource recovery facility producing either electricity or shaft horsepower and useful thermal energy shall constitute a co-generation facility as defined in subdivision two-a of section two of the public service law.

8. To collect or receive from the United States, the state, the county, any other municipality or public corporation or person, solid waste for the purpose of treatment or disposal thereof, with the right of the agency to sell and dispose of any products or by-products (including energy) of such process of treatment or disposal, as the agency may deem proper;

9. To contract with the county, other municipalities, state agencies, public corporations or persons within or without the county, for the purpose of collecting, receiving, treating and disposing of solid waste including without limitation to contract with persons for the delivery of all solid waste generated within a stated area to a specific solid waste management-resource recovery facility.

10. To make by-laws for the management and regulation of its affairs and, subject to agreements with bondholders, for the regulation of the use of any project or other property of the agency, which by-laws and all amendments thereto, duly certified by the secretary of the agency, shall be filed in the office of the agency and in the office of the clerk of the county, and to provide for the enforcement of such by-laws by legal or equitable proceedings which are or may be provided or authorized by law. In addition, the county legislature shall have power to prescribe that violations of specific by-laws of the agency shall constitute offenses or infractions and provide for the punishment of violations thereof by civil penalty.

11. With the consent of the county executive, to use officers or employees of the county and to pay a proper portion of the compensation or costs for the services for such officers or employees.

12. To make contracts and to execute all necessary or convenient instruments, including evidences of indebtedness, negotiable or non-negotiable.

13. To enter on any lands with the consent of the county executive, waterways and premises within the county for the purpose of making surveys, soundings, and examinations, and liability therefor shall not exceed actual damages.

14. To borrow money and to issue bonds and to fund or refund the same, and to provide for the rights of the holders thereof.

15. Subject to any limitations imposed by any contract pursuant to subdivision two of section two thousand forty-six-t of this title, to fix and collect rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, or any commodities furnished by, the agency so as to provide revenues sufficient at all times to pay, as the same shall become due, the principal and interest on the bonds of the agency, together with the maintenance of proper reserves therefor, in addition to paying, as the same shall become due, the expenses of operating and maintaining the properties of the agency, together with proper reserves for debt service, depreciation, maintenance and contingencies and all other obligations and indebtedness of the agency.

16. To accept gifts, grants, loans or contributions from the United States, the state or any agency or instrumentality of either of them, or any municipality or from any person, by bequest or otherwise, and to expend the proceeds for any corporate purposes of the agency; and

17. To negotiate a fee per ton of waste processed or other benefit with the municipality hosting a solid waste management facility; and

18. To do all things necessary or convenient to carry out the powers expressly given in this title.

§ 2047-f. Governmental capacity of the agency and municipalities. The county, other municipalities within the county and the agency in carrying out their respective powers and duties under this title shall be deemed to be acting in a governmental capacity. The construction, operation and maintenance of any project financed in whole or in part by the agency, shall be deemed to be the performance of an essential governmental function by the agency acting in its governmental capacity, whether such project shall be owned or operated by the agency or by any person or other public corporation.

§ 2047-g. Transfer of officers and employees. Any officer or employee of the county under civil service, selected by the agency may, with the consent of the county executive, be transferred to the agency and shall be eligible for such transfer and appointment, without examination, to applicable offices, positions and employment under the agency. The salary or compensation of any such officer or employee, after such transfer, shall be paid by the agency. Any such officers or employees so transferred to the agency pursuant to this section, who are members of or benefit under any existing pension or retirement fund or system, shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law, but during the period of their employment by the agency, all contributions to such funds or system to be paid by the employer on account of such officers or employees shall be paid by the agency. All such officers or employees so transferred to the agency who have been appointed to positions under the rules and classifications of the personnel officer of the county shall have the same status with respect thereto after transfer to the agency as they had under their original appointment.

§ 2047-h. Bonds of the agency. 1. The agency shall have the power and is hereby authorized from time to time to issue bonds, in conformity with applicable provisions of the uniform commercial code, in such principal amounts as it may determine to be necessary to pay the cost of any project or for any other corporate purpose, including incidental expenses in connection therewith. The agency shall have power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee of any bonds. The agency shall have power from time to time to refund any bonds by the issuance of new bonds whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose. Bonds issued by the agency may be general obligations secured by the faith and credit of the agency or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the agency under which the bonds shall be authorized to be issued and subject to any agreements with the holders of outstanding bonds pledging any particular revenues or moneys.

2. Bonds shall be authorized by resolution of the agency, be in such denominations and bear such date or dates and mature at such time or times, as such resolution may provide, except that notes and any renewals thereof shall mature within five years from the date of the original issuance and bonds shall mature within thirty years from the date of original issuance of any such bond or note. The bonds and notes shall be subject to such terms of redemption, bear interest at such rate or rates payable at such times, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution may provide. Bonds may be sold at public or private sale for such price or prices as the agency shall determine. Bonds of the agency shall not be sold by the agency at private sale unless such sale and the terms thereof have been approved in writing by the state comptroller, where such sale is not to the comptroller, or by the state director of the budget, where such sale is to the comptroller.

3. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with

the holders of the bonds thereby authorized as to:

(a) Pledging all or any part of the revenues, other moneys or property of the agency to secure the payment of the bonds, including but not limited to any contracts, earnings or proceeds of any grant to the agency received from any private or public source;

(b) The setting aside of reserves and the creation of sinking funds and the regulations and disposition thereof;

(c) Limitations on the purpose to which the proceeds from the sale of bonds may be applied;

(d) The rates, rents, fees and other charges to be fixed and collected by the agency and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) Limitations on the right of the agency to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;

(f) Limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds, the holders of which must consent thereto and the manner in which such consent may be given;

(h) The creation of special funds into which any revenues or moneys may be deposited;

(i) The terms and provisions of any trust deed or indenture securing the bonds under which the bonds may be issued;

(j) Vesting in a trustee or trustees such properties, rights, powers and duties in trust as the agency may determine which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders pursuant to section two thousand forty-six-i of this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of such trustee;

(k) Defining the acts or omissions to act which may constitute a default in the obligations and duties of the agency to the bondholders and providing for the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) Limitations on the power of the agency to sell or otherwise dispose of any project or any part thereof;

(m) Limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the agency;

(n) The payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the agency may determine; and

(o) Any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

4. In addition to the powers herein conferred upon the agency to secure its bonds, the agency shall have power in connection with the issuance of bonds to enter into such agreements as the agency may deem necessary, consistent or desirable concerning the use or disposition of its revenues or other moneys or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, moneys or property and the doing of any act (including refraining from doing any act) which the agency would have the right to do in the absence of such agreements. The agency shall have power to enter into amendments of any such agreements within the powers granted to the agency by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of bonds of the agency.

5. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the agency shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims

of any kind in tort, contract or otherwise against the agency irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

6. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

7. Neither the members of the agency nor any person executing bonds shall be liable personally thereon or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The agency, subject to such agreements with bondholders as then may exist, shall have power out of any moneys available therefor to purchase bonds of the agency, which shall thereupon be cancelled, at a price not exceeding (i) if the bonds are then redeemable, the redemption price then applicable, plus accrued interest to the next interest payment date, (ii) if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date.

§ 2047-i. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to paragraph (j) of subdivision three of section two thousand forty-six-h of this title:

1. In the event that the agency shall default in the payment of principal or of interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the agency shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in aggregate

principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds outstanding, shall in his or its own name:

(a) By action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the agency to collect rents, rates and charges adequate to carry out any agreement as to, or pledge of such rents, rates and charges and to require the agency to carry out any other agreements with the holders of such bonds to perform its duties under this title;

(b) Bring an action or proceeding upon such bonds;

(c) By action or proceeding, require the agency to account as if it were the trustee of an express trust for the holders of such bonds;

(d) By action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) Declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in the county.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days notice in writing to the agency.

6. Any such trustee whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project the revenues of which are pledged for the security of the bonds of such issue and such receiver may enter and take possession of such part or parts of the project and subject to any pledge or agreement with holders of such bonds, shall take possession of all moneys and other property derived from such part or parts of the project and proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith that the agency is under obligation to do, and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the agency under the direction of the court. In any suit, action or proceeding by the trustee the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

§ 2047-j. State, county and municipalities not liable on agency bonds. Neither the state, the county nor any other municipality or public corporation shall be liable on the bonds of the agency and such bonds shall not be a debt of the state, the county or any other municipality or public corporation, and such bonds shall contain on the face thereof, a statement to such effect.

§ 2047-k. Moneys of the agency. All moneys of the agency from whatever source derived shall be paid to the treasurer of the agency and shall be deposited forthwith in a bank or banks in the state designated by the governing body. The moneys in such accounts shall be paid out on check of the treasurer upon requisition by the governing body or of such other person or persons as the governing body may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States or of the state or of the county or any municipality of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. The agency shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds as to the custody, collection, security, investment and payment of any moneys of the agency or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys may be secured in the same manner as moneys of the agency and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the agency not required for immediate use or disbursement may, at the discretion of the agency, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. Subject to the provisions of any contract with bondholders and with the approval of the comptroller, the agency shall prescribe a system of accounts.

§ 2047-l. Bonds legal investment for fiduciaries. The bonds of the agency are hereby made securities in which all public officials and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or other obligations of the state may properly and legally invest funds including capital in their control or belonging to them. The bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purposes for which the deposit of bonds or other obligations of this state is now or hereafter may be authorized.

§ 2047-m. Agreement with the state. The state does hereby pledge to and agree with the holders of any bonds issued by the agency pursuant to this title that the state will not alter or limit the rights hereby vested in the agency to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the agency shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any agreement made with or for the benefit of the holders of bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of bondholders, until the bonds, together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged. The agency is authorized to include this pledge and agreement of the state in any agreement with bondholders.

§ 2047-n. Exemption from taxes, assessments and certain fees. 1. It is hereby determined that the creation of the agency and the carrying out of its corporate purposes is in all respects for the benefit of the people of the county and the state and is a public purpose and the agency shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay any taxes or assessments upon any property owned by it or under its jurisdiction, control or supervision or upon its activities, or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf. The construction, use, occupation or possession of any property owned by the agency or the county, including improvements thereon, by any person or public corporation under a lease, lease and sublease or any other agreement shall not operate to abrogate or limit the foregoing exemption, notwithstanding that the lessee, user, occupant or person in possession shall claim ownership for federal income tax purposes. The agency shall be deemed a public authority for the purposes of section four hundred twelve of the real property tax law.

2. Any bonds issued pursuant to this title together with the income therefrom as well as the property of the agency shall be exempt from taxes, except for transfer and estate taxes. The state hereby convenants with the purchasers and with all subsequent holders and transferees of bonds issued by the agency pursuant to this title, in consideration of the acceptance of any payment for the bonds, that the bonds of the agency issued pursuant to this title and the income therefrom and all revenues, moneys, and other property pledged to secure the payment of such bonds shall at all times be free from taxation, except for transfer and estate taxes.

§ 2047-o. Actions against agency. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the agency for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence or wrongful act of the agency or of any member, officer, agent or employee thereof, unless (i) a notice of claim shall have been made and served upon the agency within the time limit by and in compliance with section fifty-e of the general municipal law, (ii) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (iii) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the agency for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

2. Wherever a notice of claim is served upon the agency, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The agency may require any person, presenting for settlement an account or claim for any cause whatever against the agency to be sworn before a member, counsel or an attorney, officer or employee of the agency designated for such purpose, concerning such account or claim and when so sworn, to answer orally as to any facts relative to such account or claim. The agency shall have power to settle or adjust all claims in favor of or against the agency.

4. The rate of interest to be paid by the agency upon any judgment for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section three-a of the general municipal law. Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

§ 2047-p. Contracts. All contracts or orders, for work, material or supplies performed or furnished in connection with construction, shall be awarded by the agency pursuant to resolution of the governing body except as hereinafter provided. Such awards, when applicable, shall be made in compliance with paragraph (e) of subdivision four and subdivision seven of section one hundred twenty-w of the general municipal law. In any construction contract, the agency may provide a program for the payment of damages for delays and incentive awards in order to encourage timely project completion. An action, suit or proceeding contesting the validity of a contract awarded pursuant to this section, or the validity of the procedures relating to such award, shall be governed by the provisions of subdivision six of section one hundred twenty-w of the general municipal law and the term "municipality" as used in such subdivision six shall mean the agency.

The bidder whose bid is accepted shall give security for the faithful performance of the contract, and such other security as the agency may require, and may be required to maintain any construction done under the contract for such period as shall be stipulated, all in the manner prescribed and required by the agency and the sufficiency of such security shall, in addition to the justification and acknowledgement, be approved by the agency. All bids or proposals shall be publicly opened by the governing body or its duly authorized agent. If the bidder whose bid or proposal has been accepted after advertising shall neglect or refuse to accept the contract within five days after written notice that the contract has been awarded to him on his bid or proposal, or, if he accepts but does not execute the contract and give proper security, the agency shall have the right to declare his deposit forfeited. In case any work shall be abandoned by any contractor, the agency may, if it determines that the public interest is thereby served, adopt on behalf of the agency any or all subcontracts made by such contractor for such work and all such subcontractors shall be bound by such adoption if made. No bid or proposal shall be accepted from or any contract awarded to, any person or corporation who is in arrears to the agency or the county upon any obligation of the agency or of the county. Every contract involving an expenditure of more than five thousand dollars when made and entered into as herein provided for shall be executed in duplicate, one copy of which shall be held by the agency and one copy of which shall be delivered to the contractor. The agency may adopt, utilize, ratify and confirm any request for proposals, invitation for sealed bids, plans, specifications and notices heretofore or hereafter published by the county with respect to any proposed project, and the agency may adopt, utilize, accept and confirm any bids or proposals submitted to the county and heretofore or hereafter received and publicly opened by the county. The provisions of this section shall supersede any inconsistent provisions of the general municipal law, any other general, special or local law, or the charter of the county. The agency shall be deemed an authority for the purpose of section twenty-six hundred four of this chapter.

§ 2047-q. Interest in contracts prohibited. It shall be a misdemeanor for any member of the governing body or any officer, agent, servant or employee of the agency to be in any way or manner interested, directly or indirectly, in the furnishing of work, materials, supplies or labor, or in any contract therefor which the agency is empowered by this title to make.

§ 2047-r. Audit and annual report. In conformity with the provisions of section five of article ten of the constitution, the accounts of the agency shall be subject to the supervision of the state comptroller. The agency shall annually submit to the governor and state comptroller and to the state legislature a detailed report pursuant to the provisions of section two thousand five hundred of title one of article nine of this chapter, and a copy of such report shall be filed with the county executive. The agency shall comply with the provisions of sections two thousand five hundred one, two thousand five hundred two, and two thousand five hundred three of title one of article nine of this chapter.

§ 2047-s. Limited liability. Neither the members of the governing body, nor any municipality, officer or employee acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the properties of the agency or from carrying out any of the powers expressly given in this title; provided, however, that this section shall not be held to apply to any independent contractor.

§ 2047-t. Pledge by county; contracts with municipalities; powers of municipalities. 1. The county is hereby authorized to pledge to and agree with the holders of the bonds that the county will not limit or impair the rights hereby vested in the agency to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the agency shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title and to fulfill the terms of any agreements made with the holders of the bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of the bondholders, until the bonds, together with interest thereon, with interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders are fully met and discharged.

2. The county and one or more municipalities within the county, or the agency and the county, shall have power to contract from time to time between or among themselves, or among themselves and with the agency, in relation to the collecting, receiving, transporting, storage, processing or disposal of solid waste or for the purchase or use of any materials, energy, by-products or residue generated by or resulting from the operation of any solid waste management-resource recovery facility. Any such contract to which the county and any municipality within the county are parties may include provisions stipulating the maximum rates, rentals, fees and other charges to be collected for the use of facilities. Any contract to which the agency and the county are parties may include provisions (i) requiring the periodic delivery to the particular facilities of minimum amounts of solid waste and providing for specified minimum periodic payments whether or not such delivery is made or (ii) requiring the county to pay, within appropriations available therefor, such amounts as shall be necessary to assure the continued operation and solvency of the agency, such payments to be determined and paid in such manner and at such times as may be provided in such contract.

3. In recognition of existing state policy, as declared in title one of article twenty-seven of the environmental conservation law, the legislature hereby affirms the primacy of the local and regional role in resource recovery procedures. To further the governmental and public purposes of the agency, including the implementation of any contract or proposed contract contemplated by this title, the county and all other municipalities within the county shall have the power to adopt and amend local laws imposing appropriate and reasonable limitations on competition with respect to collecting, receiving, transporting, delivering, storing, processing and disposing of solid waste or the recovery by any means of any material or energy product or resource therefrom, including, without limiting the generality of the foregoing, local laws requiring that all solid waste generated, originated or

brought within their respective boundaries, subject to such exceptions as may be determined to be in the public interest, shall be delivered to a specified solid waste management-resource recovery facility; provided, however, that any such local law enacted by the county shall take precedence over and shall supersede any inconsistent provisions of any such local law enacted by a municipality within the county. Any such local law shall be adopted in accordance with the procedure provided by the municipal home rule law, except that no such local law shall be subject to either mandatory or permissive referendum.

4. The county is hereby authorized to resell or otherwise dispose of all or any part of the materials, energy, by-products or residue purchased from the agency pursuant to subdivision two of this section. Any resale or other disposition may be made in such manner as the county may deem proper and upon such terms and conditions as may be agreed upon by the parties thereto.

5. The county and all other municipalities within the county shall have power to perform such other acts, to enter into such other contracts, including contracts between or among themselves, execute such instruments and to undertake such future proceedings as shall be determined necessary or desirable to effectuate the purpose of this title, including the making of gifts, grants, loans or contributions to the agency.

6. Any contract entered into by a municipality pursuant to this section may be for such term or duration, not to exceed twenty-five years, as may be agreed upon by the parties thereto, except that any contract relating to or affecting the security of any project financed in whole or in part by the agency may provide that the same shall remain in full force and effect so long as the bonds issued for such project shall remain outstanding or until adequate provision has been made for the payment or satisfaction thereof.

7. Any contract entered into pursuant to this section to which the agency shall be a party may be pledged by the agency as security for any issue of bonds, and may be assigned, in whole or in part, by the agency

to any public corporation or person which shall construct, purchase, lease or otherwise acquire any solid waste management-resource recovery facility, or part thereof, financed in whole or in part by the agency.

§ 2047-u. Solid waste facility reserve fund. The county legislature may establish a special fund, to be known as the solid waste facility reserve fund of the county. There shall be credited to such reserve fund all amounts paid to the county and specifically designated by the payor for deposit in such reserve fund, together with such county moneys as may be appropriated thereto from time to time. Moneys in such reserve funds may be appropriated only for the purpose of paying amounts due from the county under the terms of any contract entered into pursuant to this title, for which an insufficient or no provision has otherwise been made, except that upon the adoption of a resolution by at least a two-thirds vote of the voting strength of the county legislature, all or any portion of the moneys in such reserve fund may be transferred to any other reserve fund established by the county pursuant to the general municipal law. To the extent not inconsistent with the provisions of this subdivision, the management of such reserve fund and the investment of moneys therein shall be subject to the provisions of section six-h of the general municipal law.

§ 2047-v. Transfer of environmental applications, proceedings, approvals and permits. 1. Any application in relation to the purposes of or contemplated by this title heretofore filed, or any proceeding heretofore commenced, by the county with the state department of environmental conservation, the department of transportation or any other state agency or instrumentality or with the United States environmental protection agency or any other federal agency or instrumentality shall inure to and for the benefit of the agency to the same extent and in the same manner as if the agency had been a party to such application or proceeding from its inception, and the agency shall be deemed a party thereto, to the extent not prohibited by any federal law. Any license, approval, permit or decision heretofore or hereafter issued or granted pursuant to or as a result of any such application or proceeding shall inure to the benefit of and be binding upon the agency and shall be assigned and transferred by the county to the agency, unless such assignment and transfer is prohibited by federal law.

2. All such applications, proceedings, licenses, approvals, permits and decisions shall further inure to and for the benefit of and be binding upon any person leasing, acquiring, constructing, maintaining, using or occupying any facility financed in whole or in part by the agency.

§ 2047-w. Separability. If any section, clause or provision in this title shall be held by a competent court to be unconstitutional or ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective, and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 2047-x. Effect of inconsistent provisions. In so far as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of the county charter or any local law, ordinance or resolution of the county or any other municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the agency otherwise set forth in this title. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation.

TITLE 13-F

TOWN OF NORTH HEMPSTEAD SOLID WASTE MANAGEMENT AUTHORITY

§ 2049-a. Short title. This title shall be known and may be cited as the "town of North Hempstead solid waste management authority act".

§ 2049-b. Definitions. As used in this title, unless a different meaning clearly appears from the context:

1. "Authority" shall mean the public benefit corporation created by section two thousand forty-nine-c of this title, known as the town of North Hempstead solid waste management authority.

2. "Bonds" shall mean the bonds, notes or other evidences of indebtedness issued by the authority pursuant to this title and the provisions of this title relating to bonds and bondholders shall apply with equal force and effect to notes and noteholders, respectively, unless the context otherwise clearly requires.

3. "Construction" shall mean the acquisition, erection, building, alteration, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of a solid waste management-resource recovery facility; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures and other actions preliminary or incidental thereto.

4. "Cost", as applied to any project, shall mean and include the cost of planning and design, construction, the cost of the acquisition of all property, including real property and other property, both real and personal and improved and unimproved, the cost of demolishing, removing or relocating any buildings or structures on lands so acquired, including the cost of acquiring any lands to which such buildings or structures may be moved or relocated, the cost of all systems, facilities, machinery, apparatus and equipment, financing charges, interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultant and legal services, the cost of lease guarantee or bond insurance and the cost of other expenses necessary or incidental to the construction of such project and the financing of the construction thereof, including the amount authorized in the resolution of the authority providing for the issuance of bonds to be paid into any reserve or other special fund from the proceeds of such bonds and the financing of the placing of any project in operation, including reimbursement to the town or any municipality or state agency, the state, the United States government or any other person for expenditures that would be costs of the project hereunder had they been made directly by the authority.

5. "Governing body" shall mean the members of the authority constituting and acting as the governing body of the authority.

6. "Municipality" shall mean any county, city, town, village, refuse district under the county law, improvement district under the town law, any other such instrumentality, including any agency or public corporation of the state, any such instrumentality created under the Nassau county civil divisions act, or any of the foregoing, or any combination thereof.

7. "Person" shall mean any natural person, partnership, association, joint venture or corporation, exclusive of a public corporation.

8. "Project" shall mean any solid waste management-resource recovery facility of which, or any portion of which, the planning, development, financing, construction, operation or maintenance is authorized to be undertaken in whole or in part by the authority pursuant to this title.

9. "Real property" shall mean lands, structures, franchises and interests in land, waters, lands underwater, riparian rights and air rights and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interests including, but not limited to, easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgments, mortgages or otherwise.

10. "Resource recovery" shall mean the separation, extraction or recovery of usable materials, energy or heat from solid waste through source separation, incineration, recycling centers or other programs, projects or facilities.

11. "Revenues" shall mean all rates, fees, rents, charges and other income derived by the authority from its operations.

12. "Solid waste" shall mean all putrescible and non-putrescible solid

wastes, including, but not limited to, materials or substances discarded or rejected, whether as being spent, useless, worthless or in excess to the owners at the time of such discard or rejection or for any other reason, is being accumulated, stored, or physically, chemically or biologically treated prior to being discarded, has served its intended use, or is a manufacturing or mining by-product, including, but not limited to, garbage, refuse, and other discarded solid materials, including solid waste materials resulting from industrial, commercial, mining and agricultural operations and from community activities, sludges from air or water pollution control facilities or water supply treatment facilities, rubbish, ashes, contained gaseous material, incinerator residue, demolition and construction debris and offal, but not including sewage and other highly diluted water-carried materials or substances and those in gaseous form, special nuclear or by-product material within the meaning of the Atomic Energy Act of 1954, as amended, and waste which appears on the list of hazardous waste promulgated by the commissioner of environmental conservation pursuant to section 27-0903 of the environmental conservation law.

13. "Solid waste management-resource recovery facility" or "facility" shall mean any facility, plant, works, system, building, structure, improvement, machinery, equipment, fixture or other real or personal property which is to be used, occupied or employed for or is incidental to the collecting, receiving, transporting, storage, processing, or disposal of solid waste or the recovery by any means of any material or energy product or resource therefrom including, but not limited to, recycling centers, transfer stations, shredding or baling facilities, rail haul or maritime facilities, collection vehicles, processing systems, resource recovery facilities, steam and electric generating and transmission facilities, including auxiliary facilities to supplement or temporarily replace such generating facilities, steam distribution facilities, sanitary landfills, leachate treatment facilities, plants and facilities for compacting, composting or pyrolization of solid wastes, secure land burial facilities, landspreading facilities, surface impoundments and waste oil storage, reprocessing and rerefining facilities, incinerators and other solid waste disposal, reduction or conversion facilities, and "resource recovery equipment" and "disposal

equipment" as such terms are defined in subdivisions four and five of section 51-0903 of the environmental conservation law. Any such facility producing either electricity or shaft horsepower and useful thermal energy shall constitute a co-generation facility as defined in subdivision two-a of section two of the public service law.

14. "Source separation" shall mean the segregation of recyclable materials from the solid waste stream at the point of generation for separate collection, sale or other disposition.

15. "State" shall mean the state of New York.

16. "Town" shall mean the town of North Hempstead.

§ 2049-c. Town of North Hempstead solid waste management authority. 1. A corporation known as the Town of North Hempstead solid waste management authority is hereby created for the public purposes and charged with the duties and having the powers provided in this title. The authority shall be a body corporate and politic constituting a public benefit corporation and a public authority. Its membership shall consist of a board of seven directors comprised, ex-officio, of the members of the town board.

2. The members of the authority shall receive no compensation for their services, whether as members or officers of the authority, but shall be reimbursed for all of their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the authority shall be vested in and be exercised by the governing body at a meeting duly called and held where a quorum of four members are present. No action shall be taken except by the favorable vote of at least four members. The officers of the authority, in addition to the chairman, shall consist of a vice-chairman and a treasurer who shall be members of the authority, and a secretary, who need not be a member of the authority. The officers of the authority other than the chairman shall be selected by the members of the authority, and such officers shall serve in such capacities at the

pleasure of the authority. In addition to the position of secretary, the authority may appoint and at pleasure remove an executive director, attorney and engineer, which positions shall be in the exempt class of the civil service, and such additional officers and employees as it may deem necessary, and may determine and fix their qualifications, duties and compensation, without regard to whether they are or shall also be employees or agents of the town and are or shall be being compensated as such, subject to the provisions of the civil service law. The authority may delegate to one or more of its members, officers, agents or employees any such powers as it may deem proper. The authority may also contract for expert professional services. The treasurer shall execute a bond conditioned on the faithful performance of the duties of his or her office, the amount of sufficiency of which shall be approved by the governing body and the premium for which shall be paid by the authority.

3. Notwithstanding any inconsistent provision of any general, special or local law, ordinance, resolution or charter, no officer, member or employee of the state, any municipality or any public benefit corporation shall forfeit his or her office or employment by reason of his or her acceptance of appointment as a member, officer, agent or employee of the authority, nor shall service as a member, officer, agent or employee be deemed incompatible or in conflict with such office, membership or employment.

4. (a) The town shall file on or before March thirty-first of the year following the year in which this title shall have become a law, in the office of the secretary of state, a certificate signed by the town supervisor setting forth: (1) the name of the authority; (2) the names of the members; and (3) the effective date of this title.

(b) The authority shall be perpetual in duration, except that if the certificate referred to in paragraph (a) of this subdivision is not filed with the secretary of state on or before the date specified in such paragraph, then the corporate existence of the authority shall thereupon terminate and it shall be deemed to be and shall be dissolved, and except, further, that the authority and its corporate existence may be terminated by law or by resolution of the town board, provided, however, that no such termination shall take effect so long as the authority shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof. Upon any termination of the existence of the authority, all of the rights and properties of the authority then remaining shall pass to and vest in the town. In connection with any such termination pursuant to a resolution of the town board, the town supervisor shall, within thirty days of the effective date of such termination, file in the office of the secretary of state a certificate setting forth the name of the authority and the effective date of the termination.

§ 2049-d. Powers of the authority. The authority shall have the power:

1. To sue and be sued;

2. To have a seal and alter the same;

3. To acquire in the name of the authority, hold, sell, lease, mortgage or otherwise dispose of property, real, personal or mixed, or any interest therein, without limitation, for its corporate purposes;

4. To condemn, with the consent of the town board and the supervisor, in the name of the authority, pursuant to the eminent domain procedure law, any real property required by the authority to carry out the powers granted by this title provided that condemnation of any real property not located within the town shall require the consent of the board of the town where such real property is located;

5. To collect, receive, extract, transport, process, dispose of, sell, store, convey, recycle and deal with, in any lawful manner and way, solid waste and any products or by-products thereof now or hereafter developed or discovered, including any energy generated by the operation of any facility on such terms and in such manner as the authority may deem proper;

6. To plan, develop and construct projects and to pay the cost thereof and to have the right to contract in relation thereto with

municipalities or persons and to own and operate, maintain, repair, improve, reconstruct, enlarge and extend, subject to the provisions of this title, any of its projects acquired or constructed under this title, and to sell, lease, mortgage or otherwise dispose of any project or part thereof to any person or public corporation, subject to such conditions and limitations as the authority may determine to be in the public interest;

7. To assist in the planning, development and construction of and the financing of the cost of any facility whether or not such facility is to be owned or operated by the authority, which assistance may include loans to any person or public corporation;

8. To collect or receive from the United States, the state, the town, any other municipality or public corporation or person solid waste for the purpose of treatment or disposal thereof, with the right of the authority to sell and dispose of any products or by-products, including energy, of such process of treatment or disposal, as the authority may deem proper;

9. To contract with the town, other municipalities, state agencies, public corporations or persons, for the purpose of collecting, receiving, treating and disposing of solid waste, including, without limitation, to contract with municipalities, state agencies, public corporations or persons for the delivery of all solid waste generated within a stated area to a specific facility;

10. To make by-laws for the management and regulation of its affairs and, subject to agreements with bondholders, for the regulation of the use of any project or other property of the authority, which by-laws and all amendments thereto, duly certified by the secretary of the authority, shall be filed in the office of the authority and in the office of the clerk of the town, and to provide for the enforcement of such by-laws by legal or equitable proceedings which are or may be provided or authorized by law. In addition, the town shall have power to prescribe under the town code that violations of specific by-laws of the authority, including, without limitation, any failure to comply with any

by-law requiring the payment of any fee or other charge by any person in connection with the delivery of solid waste to any facility or any other use of any facility by such person, shall constitute offenses or infractions and provide for the punishment of violations thereof by civil and criminal penalties;

11. To make contracts and to execute all necessary or convenient instruments, including evidences of indebtedness, negotiable or non-negotiable;

12. To enter on any lands, waterways or premises for the purpose of making surveys, soundings and examinations, any liability for which shall not exceed actual damages;

13. To borrow money and to issue bonds and to fund or refund the same, and to provide for the rights of the holders thereof;

14. To fix and collect rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, or any commodities furnished by, the authority so as to provide revenues sufficient at all times to pay, as the same shall become due, the principal and interest on the bonds of the authority, together with the maintenance of proper reserves therefor, in addition to paying, as the same shall become due, the expenses of operating and maintaining the properties of the authority, together with proper reserves for debt service, depreciation, maintenance and contingencies and all other obligations and indebtedness of the authority;

15. To accept gifts, grants, loans or contributions from the United States, the state or any agency or instrumentality of either of them, or any municipality or from any person or public corporation, by bequest or otherwise, and to expend the proceeds for any corporate purposes of the authority; and

16. To do all things necessary or convenient to carry out the powers expressly given in this title.

§ 2049-e. Advances on behalf of authority; transfer of property to authority; acquisition of property by town for authority. 1. In addition to any powers granted to it by law, the town may by resolution advance sums of money to or on behalf of the authority to defray project costs or any other costs and expenses of the authority to be incurred prior to the first issuance of bonds. Subject to the rights of any bondholders, the moneys so appropriated shall be repaid by the authority to the town at such time and in such manner as may be agreed upon between the authority and the town board.

2. The town or any other municipality may give, grant, sell, convey, loan or license the use of or lease to the authority any property or facility which is useful to the authority in order to carry out its powers under this title. Any such transfer of property shall be upon such terms and conditions, subject to the rights of any bondholders, as the authority and the town or other municipality may agree.

3. Notwithstanding the provisions of any other law, general, special or local, real property acquired by the authority or the town from the state may be used for any corporate purpose of the authority.

§ 2049-f. Transfer of officers and employees. Any officer or employee of the town under civil service who is selected by the authority may, with the consent of the town supervisor, be transferred to the authority and shall be eligible for such transfer and appointment, without examination, to applicable offices, positions and employment under the authority. The salary or compensation of any such officer or employee, after such transfer, shall be paid by the authority. Any such officers or employees so transferred to the authority pursuant to this section, who are members of or benefit under any existing pension or retirement fund or system, shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law, but during the period of their employment by the authority, all contributions to such funds or system shall be paid by the authority. All such officers or employees so transferred to the authority who have been appointed to positions under the rules and classifications of the personnel officer of the town shall have the same status with respect thereto after transfer to the authority as they had under their original appointment.

§ 2049-g. Governmental capacity of the authority and municipalities. The authority, the town and other municipalities, in carrying out their respective powers and duties under this title, shall be deemed to be acting in a governmental capacity. The construction, operation and maintenance of any project financed in whole or in part by the authority shall be deemed to be the performance of an essential governmental function by the authority acting in its governmental capacity, whether such project shall be owned or operated by the authority or by any person or public corporation.

§ 2049-h. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue bonds in such principal amounts as it may determine to be necessary to pay the cost of any project or for any other corporate purpose, including incidental expenses in connection therewith. The authority shall have the power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee of any bonds. The authority shall have the power from time to time to refund any bonds by the issuance of new bonds whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose. Bonds issued by the authority may be general obligations secured by the faith and credit of the authority or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the authority under which the bonds shall be authorized to be issued and subject to any agreements with the holders of outstanding bonds pledging any particular revenues or moneys.

2. Bonds shall be authorized by resolution of the authority, be in

such denominations, bear such date or dates and mature at such time or times as such resolution shall provide, provided that bonds and any renewals thereof shall mature within forty years from the date of the original issuance of any such bonds. Obligations with a maturity of five years or less from the date of their original issuance may be deisgnated as notes. Bonds shall be subject to such terms of redemption, bear interest at such specified rate or rates, or, with respect to obligations designated as notes, at such rate or rates not in excess of such specified rate or rates, be payable at such times, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium or payment at such place or places, and be subject to such terms and conditions as such resolution may provide. Bonds may be sold at public or private sale for such price or prices as the authority shall determine, provided that no bonds of the authority, other than obligations designated as notes, may be sold by the authority at private sale unless such sale and the terms thereof have been approved in writing by the state comptroller where such sale is not to be to such comptroller, or by the state director of the budget where such sale is to be to said comptroller. The authority may pay all expenses, premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale of bonds.

3. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to:

(a) pledging all or any part of the moneys or revenues, other moneys or property of the authority to secure the payment of the bonds or of any issuance thereof, including but not limited to any contracts, earnings or proceeds of any grant to the authority received from any private or public source subject to such agreements with bondholders as may then exist;

(b) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(c) limitations on the purpose to which the proceeds from the sale of bonds may be applied;

(d) the rates, rents, fees and other charges to be fixed and collected

by the authority and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) limitations on the right of the authority to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;

(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) the creation of special funds into which any revenues or moneys may be deposited;

(i) the terms and provisions of any trust, mortgage or deed or indenture securing the bonds under which the bonds may be issued;

(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustees appointed by the bondholders pursuant to section two thousand forty-nine-i of this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of such trustee;

(k) defining the acts or omissions to act which may constitute a default in the obligations and duties of the authority to the bondholders and providing for the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) limitations on the power of the authority to sell or otherwise dispose of any project or any part thereof;

(m) limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the authority;

(n) the payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine; and

(o) any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

4. In addition to the powers herein conferred upon the authority to secure its bonds, the authority shall have power in connection with the issuance of bonds to enter into such agreements as the authority may deem necessary, convenient or desirable concerning the use or disposition of its revenues or other moneys or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, moneys or property and the doing of any act, including refraining from doing any act which the authority would have the right to do in the absence of such agreements. The authority shall have power to enter into amendments of any such agreements within the powers granted to the authority by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of bonds of the authority.

5. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the authority shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

6. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to

any provisions of the bonds for registration.

7. Neither the members of the authority nor any person executing bonds shall be liable personally thereon or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The authority, subject to such agreements with bondholders as then may exist, shall have power out of any moneys available therefor to purchase bonds of the authority, which shall thereupon be cancelled, at a price not exceeding (a) if the bonds are then redeemable, the redemption price then applicable, plus accrued interest to the next interest payment date or (b) if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date.

§ 2049-i. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to paragraph (j) of subdivision three of section two thousand forty-nine-h of this title:

1. In the event that the authority shall default in the payment of principal of or interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county of Nassau and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may and, upon written request of the holders of twenty-five per centum in principal amount of such bonds outstanding, shall in his or its own name:

(a) by action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the authority to collect rents, rates and charges adequate to carry out any agreement as to, or pledge of, such rents, rates and charges and to require the authority to carry out any other agreements with the holders of such bonds to perform its duties under this title;

(b) bring an action or proceeding upon such bonds;

(c) by action or proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) by action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in the county of Nassau.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days notice in writing to the authority.

6. Any such trustee, whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project, the revenues of which are pledged for the security of the bonds of such issue, and such receiver may enter and take possession of such part or parts of the project and, subject to any pledge or agreement with holders of such bonds, shall take possession of all moneys and other property derived from such part or parts of the project and

proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith that the authority is under obligation to do, and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

§ 2049-j. State, town and municipalities not liable on bonds. Neither the state, town nor any other municipality or public corporation shall be liable on the bonds of the authority and such bonds shall not be a debt of the state, town or any other municipality or public corporation, and such bonds shall contain, on the face thereof, a statement to such effect.

§ 2049-k. Moneys of the authority. All moneys of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in a bank or banks in the state designated by the governing body. The moneys in such accounts shall be paid out on check of the treasurer upon requisition by the governing body or of such other person or persons as the governing body may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States, the state or the town of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds as to the custody, collection, security, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and to carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys may be secured in the same manner as moneys of the authority and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the authority not required for immediate use or disbursement may, at the discretion of the authority, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. Subject to the provisions of any contract with bondholders and with the approval of the comptroller, the authority shall prescribe a system of accounts.

§ 2049-l. Bonds legal investment for fiduciaries. The bonds of the authority are hereby made securities in which all public officials and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them. The bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purposes for which the deposit of bonds or other obligations of this state is now or hereafter may be authorized.

§ 2049-m. Agreement with the state. The state does hereby pledge to and agree with the holders of any bonds issued by the authority pursuant to this title that the state will not alter or limit the rights hereby vested in the authority to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title to fulfill the terms of any agreement made with or for the benefit of the holders of bonds or with any public corporation or person with reference to such project or part thereof, or in any way to impair the rights and remedies of bondholders until the bonds, together with the interest thereon, including interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged. The authority is authorized to include this pledge and agreement of the state in any agreement with bondholders.

§ 2049-n. Agreement with the town. The town is authorized to pledge to and agree with the holders of any bonds issued by the authority pursuant to this title that the town will not limit or impair the rights hereby vested in the authority to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title and to fulfill the terms of any agreements made with the holders of the bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of the bondholders, until the bonds, together with interest thereon, with interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders are fully met and discharged.

§ 2049-o. Exemption from taxes, assessments and certain fees. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the town and the state and is a public purpose and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay any taxes or assessments upon any property owned by it or under its jurisdiction, control or supervision or upon its activities or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf. The construction, use, occupation or possession of any property owned by the authority or the town, including improvements thereon, by any person or public corporation under a lease, lease and sublease or any other agreement shall not operate to abrogate or limit the foregoing exemption, notwithstanding that the lessee, user, occupant or person in possession shall claim ownership for federal income tax purposes.

2. Any bonds issued pursuant to this title together with the income therefrom as well as the property of the authority shall be exempt from taxes, except for transfer and estate taxes. The state hereby covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the authority pursuant to this title, in consideration of the acceptance of any payment for the bonds, that the bonds of the authority issued pursuant to this title and the income therefrom and all revenues, moneys, and other property pledged to secure the payment of such bonds shall at all times be free from taxation, except for transfer and estate taxes.

§ 2049-p. Actions against authority. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the authority for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence or wrongful act of the authority or of any member, officer, agent or employee thereof, unless (a) a notice of claim shall have been made and served upon the authority within the time limit by and in compliance with section fifty-e of the general municipal law or (b) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused and (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

2. Whenever a notice of claim is served upon the authority, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority may require any person, presenting for settlement an account or claim for any cause whatever against the authority, to be sworn before a member, counsel or an attorney, officer or employee of the authority designated for such purpose concerning such account or claim and, when so sworn, to answer orally as to any facts relative to such account or claim. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. The rate of interest to be paid by the authority upon any judgment for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section five thousand four of the civil practice law and rules. Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

§ 2049-q. Contracts. 1. All contracts or orders for work, material or supplies performed or furnished in connection with construction shall be awarded by the authority pursuant to resolution of the governing body except as hereinafter provided. Such awards, when applicable, shall be made in compliance with paragraph (e) of subdivision four and subdivision seven of section one hundred twenty-w of the general municipal law. In any construction contract, the authority may provide a program for the payment of damages for delays and incentive awards in order to encourage timely project completion. An action, suit or proceeding contesting the validity of a contract awarded pursuant to this section, or the validity of the procedures relating to such award, shall be governed by the provisions of subdivision six of section one hundred twenty-w of the general municipal law and the term "municipality" as used in such subdivision six shall mean the authority.

2. The bidder whose bid is accepted shall give security for the faithful performance of the contract, and such other security as the authority may require, and may be required to maintain any construction done under the contract for such period as shall be stipulated, all in the manner prescribed and required by the authority and the sufficiency of such security shall, in addition to the justification and acknowledgement, be approved by the authority. All bids or proposals shall be publicly opened by the governing body or its duly authorized agent. If the bidder whose bid or proposal has been accepted after advertising shall neglect or refuse to accept the contract within five days after written notice that the contract has been awarded to him on his bid or proposal or if he accepts but does not execute the contract and give proper security, the authority shall have the right to declare his deposit forfeited. In the event that any work shall be abandoned by any contractor the authority may, if it determines that the public interest is thereby served, adopt on behalf of the authority any or all subcontracts made by such contractor for such work and all such subcontractors shall be bound by such adoption if made. No bid or proposal shall be accepted from or any contract awarded to any person or corporation who is in arrears to the authority or the town upon any obligation of the authority or of the town. Every contract shall be executed in duplicate, one copy of which shall be held by the authority and one copy of which shall be delivered to the contractor. The authority may adopt, utilize, ratify and confirm any request for proposals, invitation for sealed bids, plans, specifications and notices heretofore or hereafter published by the town with respect to any proposed project. The provisions of this section shall supercede any inconsistent provisions of the general municipal law, or any other general, special or local law.

§ 2049-r. Interest in contracts prohibited. It shall be a misdemeanor for any member of the governing body or any officer, agent, servant or employee of the authority to be in any way or manner interested, directly or indirectly, in the furnishing of work, materials, supplies or labor, or in any contract therefor which the authority is empowered by this title to make.

§ 2049-s. Audit and annual report. In conformity with the provisions of section five of article ten of the constitution, the accounts of the authority shall be subject to the supervision of the state comptroller and an annual audit shall be performed by an independent certified accountant. The authority shall annually submit to the governor and state comptroller and to the state legislature a detailed report pursuant to the provisions of section two thousand five hundred of title one of article nine of this chapter, and a copy of such report shall be filed with the town supervisor. The authority shall comply with the provisions of sections two thousand five hundred one, two thousand five hundred two, and two thousand five hundred three of title one of article nine of this chapter.

§ 2049-t. Limited liability. Neither the members of the governing body, nor any municipality, officer or employee acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the properties of the authority or from carrying out any of the powers expressly given in this title; provided, however, that this section shall not be held to apply to any independent contractor.

§ 2049-u. Contracts with municipalities; powers of municipalities. 1. The town and one or more municipalities within the town, or the authority and the town, shall have power to contract from time to time between or among themselves, or among themselves and with the authority in relation to the collecting, receiving, transporting, storage, processing or disposal of solid waste or for the purchase or use of any materials, energy, by-products or residue generated by or resulting from the operation of any solid waste management facility. Any such contract to which the authority and any municipality are parties may include provisions stipulating the maximum rates, rentals, fees and other charges to be collected for the use of facilities. To further the governmental and public purposes of the authority, including the implementation of any contract or proposed contract contemplated by this title, the authority and all other municipalities within the town shall have power to adopt and amend local laws imposing appropriate and reasonable limitations on competition including, without limiting the generality of the foregoing, local laws requiring that all solid waste generated or originated within their respective boundaries, subject to such exceptions as may be determined to be in the public interest, shall be delivered to a specified solid waste management facility. The town shall be empowered under this section to adopt any such local law requiring the delivery of solid waste to a specified solid waste management facility. Any such local law shall be adopted in accordance with the procedure provided by the municipal home rule law, except that no such local law shall be subject to either mandatory or permissive referendum.

2. The town is hereby authorized to resell or otherwise dispose of all or any part of the materials, energy, by-products or residue purchased, received or obtained from the authority pursuant to subdivision one of this section. Any resale or other disposition may be made in such manner as the town may deem proper and upon such terms and conditions as may be agreed upon by the parties thereto.

3. The town and all other municipalities shall have power to perform such other acts, to enter into such other contracts, including contracts between or among themselves, execute such instruments and to undertake such future proceedings as shall be determined necessary or desirable to effectuate the purpose of this title, including the making of gifts, grants, loans or contributions to the authority.

4. Notwithstanding any other law, general, special or local, any contract entered into by a municipality in connection with, or in any manner relating to, any project or facility pursuant to this section may be for such term or duration, not to exceed twenty years, as may be agreed upon by the parties thereto, except that any such contract may provide that the same shall remain in full force and effect so long as the bonds issued for or in connection with such project, including any

renewals thereof, shall remain outstanding or until adequate provision has been made for the payment or satisfaction thereof.

5. Any contract entered into pursuant to this section to which the authority shall be a party may be pledged by the authority as security for any issue of bonds, and may be assigned, in whole or in part, by the authority to any public corporation or person which shall construct, purchase, lease or otherwise acquire any solid waste management facility, or part thereof, financed in whole or in part by the authority.

§ 2049-v. Environmental applications, proceedings, approvals and permits. 1. Any application in relation to the purposes of or contemplated by this title, or any proceeding commenced by the town, with the state department of environmental conservation, the department of transportation or any other state agency or instrumentality or with the United States environmental protection agency or any other federal agency or instrumentality shall inure to and for the benefit of the authority to the same extent and in the same manner as if the authority had been a party to such application or proceeding, and the authority shall be deemed a party thereto, to the extent not prohibited by any federal law. Any license, approval, permit or decision issued or granted pursuant to or as a result of any such application or proceeding shall inure to the benefit of and be binding upon the authority and shall be assigned and transferred by the town to the authority, unless such assignment and transfer is prohibited by federal law.

2. All such applications, proceedings, licenses, approvals, permits and decisions shall further inure to and for the benefit of and be binding upon any person leasing, acquiring, constructing, maintaining, using or occupying any facility financed in whole or in part by the authority.

§ 2049-w. Separability. If any section, clause or provision in this title shall be held by a competent court to be unconstitutional or ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective, and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 2049-x. Effect of inconsistent provisions. In so far as the provisions of this title are inconsistent with the provisions of any other act, general or special, or any local law, ordinance or resolution of the town or any other municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the authority otherwise set forth in this title. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation.

TITLE 13-FF

ONEIDA-HERKIMER SOLID WASTE MANAGEMENT AUTHORITY

§ 2049-aa. Short title. This title shall be known and may be cited as the "Oneida-Herkimer solid waste management authority act".

§ 2049-bb. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. "Area of operation" means either or both the counties of Oneida and Herkimer.

2. "Authority" means the public benefit corporation created by section two thousand forty-nine-cc of this title, known as the Oneida-Herkimer solid waste management authority.

3. "Bonds" means the bonds, notes or other evidences of indebtedness issued by the authority pursuant to this title and the provisions of this title relating to bonds and bondholders which shall apply with equal force and effect to notes and noteholders, respectively, unless the context otherwise clearly requires.

4. "Construction" means the acquisition, erection, building, alteration, repair, improvement, increase, enlargement, extension,

reconstruction, renovation or rehabilitation of a solid waste management-resource recovery facility; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures and other actions incidental thereto.

5. "Cost" as applied to any project, means and includes the cost of construction, the cost of the acquisition of all property, both real and personal and improved and unimproved, the cost of demolishing, removing or relocating any buildings or structures on lands so acquired, including the cost of relocating tenants or other occupants of the buildings or structures on such land and the cost of acquiring any lands to which such building or structures may be moved or relocated, the cost of all systems, facilities, machinery, apparatus and equipment, financing charges, interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultants' and legal services, the cost of lease guarantee, credit enhancement or bond insurance, other expenses necessary or incidental to the construction of such project and the financing of the construction thereof, including the amount authorized in the resolution of the authority providing for the issuance of bonds to be paid into any reserve or other special fund from the proceeds of such bonds and the financing of the placing of any project in operation, including reimbursement to either of the counties, any municipality, state agency, the state, the United States government or any other person for expenditures that would be costs of the project hereunder had they been made directly by the authority.

6. "Counties" means the counties of Oneida or Herkimer, or Oneida and Herkimer individually, as shall be determined by the usage of such terms in this title.

7. "Governing body" means the members of the authority constituting and acting as the governing body of the authority.

8. "Legislative body" or "legislative bodies" means either or both of

the county legislatures of the counties of Oneida and Herkimer.

9. "Municipality" means any county, city, town, village, improvement district, or area established under the town law, refuse district established under the county law, district or area having powers similar to a refuse district created under any general or special law, or public corporation of the state, or any combination thereof.

10. "Person" means any natural person, partnership, association, joint venture or corporation, exclusive of a public corporation.

11. "Project" means any solid waste management-resource recovery facility, and any appurtenances thereto necessary or desirable to promote the efficiency or effectiveness of any facility, the planning, development, financing, construction, operation, or maintenance of which is authorized to be undertaken in whole or in part by the authority pursuant to this title.

12. "Real property" means lands, structures, franchises and interests in land, waters, lands underwater, riparian rights and air rights and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interests including, but not limited to, easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgment, mortgages or otherwise and all claims for damage for such real property.

13. "Resource recovery" means the separation, extraction and recovery of usable materials, energy or heat from solid waste through source separation, recycling centers or other programs, projects or facilities.

14. "Revenues" means all rates, fees, rents, charges and other income derived by the authority from its operation.

15. "Solid waste" means all putrescible and non-putrescible solid wastes, including, but not limited to, materials or substances discarded

or rejected as being spent, useless, worthless, or in excess to the owners at the time of such discard or rejection, or are being accumulated, stored, or physically, chemically or biologically treated prior to being discarded or rejected, having served their intended use, or as a manufacturing by-product, including, but not limited to, garbage, refuse, industrial, commercial and agricultural waste sludges from air or water pollution control facilities or water supply treatment facilities, rubbish, ashes, contained gaseous material, incinerator residue, demolition and construction debris and offal, but not including sewage and other highly diluted water-carried materials or substances and those in gaseous form, special nuclear or by-product material within the meaning of the Atomic Energy Act of 1954, as amended, or waste which appears on the list or satisfies the characteristics of hazardous waste promulgated by the commissioner of environmental conservation pursuant to section 27-0903 of the environmental conservation law.

16. "Solid waste management-resource recovery facility" or "facility" means any facility, plant, works, system, building, structure, improvement, machinery, equipment, fixture or other real or personal property which is to be used, occupied or employed for or is incidental to the collecting, receiving, transporting, storage, processing, or disposal of solid waste or the recovery by any means of any material or energy product or resource therefrom including, but not limited to, recycling centers, transfer stations, baling facilities, rail haul or maritime facilities, collection vehicles, processing systems, resource recovery facilities, steam and electric generating and transmission facilities, including auxiliary facilities to supplement or temporarily replace such generating facilities, steam distribution and related plants and facilities, sanitary landfills, leachate treatment facilities, plants and facilities for compacting, composting or pyrolization of solid wastes, secure land burial facilities, landspreading facilities, surface impoundments and waste oil storage, reprocessing and recycling facilities, incinerators, and other solid waste disposal, reduction or conversion facilities and resource recovery equipment, source separation equipment and disposal equipment as defined in subdivisions four and five of section 51-0903 of the environmental conservation law. Any such facility producing either electricity or

shaft horsepower and useful thermal energy shall constitute a co-generation facility as designated in subdivision two-a of section two of the public service law.

17. "Source separation" means the segregation of recyclable materials from the solid waste stream at the point of generation for separate collection, sale or other disposition.

18. "State" means the state of New York.

§ 2049-cc. Oneida-Herkimer solid waste management authority. 1. A corporation known as the Oneida-Herkimer solid waste management authority is hereby created for the public purposes and charged with the duties and having the powers provided in this title. The authority shall be a body corporate and politic constituting a public benefit corporation. It shall consist of ten members, four of whom shall be appointed by the legislative body of the county of Oneida, three of whom shall be appointed by the county executive of the county of Oneida, and three of whom shall be appointed by the legislative body of the county of Herkimer. The first members appointed by the legislative body of the county of Oneida shall be appointed for the following staggered terms of office: one member: five year term; one member: four year term; one member: three year term; one member: two year term. The first members appointed by the county executive of the county of Oneida shall be appointed for the following staggered terms of office: one member: five year term; one member: four year term; one member: three year term. The first members appointed by the legislative body of the county of Herkimer shall be appointed for the following staggered terms of office: one member: five year term; one member: four year term; one member: three year term. Subsequent appointment of members by each legislative body and such county executive shall be made for a term of five years ending in each case on December thirty-first of the last year of such term. All members shall continue to hold office until their successors are appointed and qualify. Vacancies shall be filled by the affected legislative body or county executive in the manner provided for in the original appointment. Vacancies, occurring otherwise than by expiration of term of office, shall be filled by the affected legislative body or county executive for the unexpired terms. Members may be removed from office by the county executive or by the legislative body of the county which appointed such members for inefficiency, neglect of duty or misconduct in office; provided, however, that such member shall be given a copy of the charges against him and an opportunity of being heard in person, or by counsel, in his defense upon not less than ten days notice. The members of the authority shall receive such compensation for their services on a per diem basis as the legislative bodies of the counties shall determine and shall be reimbursed for all their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the authority shall be vested in and be exercised by the governing body at a meeting duly called and held and five of the members shall constitute a quorum. No action shall be taken except pursuant to the favorable vote of not less than a majority of the ten members which the authority would have would there be not vacancies and were none of the members disqualified from acting. The governing body may delegate to one or more of its members, officers, agents or employees such powers and duties as it may deem proper.

2. The officers of the authority shall consist of a chairman, a vice-chairman and a treasurer, who shall be members of the authority, and a secretary, who need not be a member of the authority. Such officers shall be appointed by the governing body and shall serve at the pleasure of the governing body. In addition to the secretary, the governing body may appoint and at pleasure remove an attorney, engineer and executive director which positions shall be in the exempt class of civil service and such additional officers and employees as they may determine necessary for the performance of the powers and duties of the authority, and fix and determine their qualifications, duties and compensation, subject to the provisions of the civil service law. The governing body may also, from time to time, contract for expert professional services. The treasurer shall execute a bond, conditioned upon the faithful performance of the duties of his office, the amount and sufficiency of which shall be approved by the governing body and the premium therefor shall be paid by the authority.

3. Notwithstanding any inconsistent provisions of any general, special or local law, ordinance, resolution or charter, no officer, member or employee of the state, the counties, any other municipality, or any public benefit corporation, shall forfeit his or her office of employment by reason of his or her acceptance of appointment as a member, officer, agent or employee of the authority, nor shall service as such member, officer, agent or employee be deemed incompatible or in conflict with such office, membership or employment.

4. Each of the counties electing to participate in the authority shall file on or before December thirty-first of the year in which this title shall take effect, in the office of the secretary of state, a certificate signed by the chairman of its legislative body setting forth: (a) the name of the authority; (b) the names of the members appointed by such county legislature and the county executive of such county, where applicable, and their terms of office; and (c) the effective date of this title. The authority shall be perpetual in duration, except that if such certificate is not filed with the secretary of state on or before such date than the corporate existence of the authority shall thereupon terminate and it shall thereupon be deemed to be and shall be dissolved; provided, however, that no such termination shall take effect so long as the authority shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof. Upon termination of the existence of the authority, all of the rights and properties of the authority then remaining shall pass to and vest in the counties.

5. In the event that the chairman of the county legislature of only one of the counties shall file in the office of the secretary of state the certificate described in subdivision four of this section, then the solid waste management authority provided for in this title shall be created as the solid waste management authority for such county and the authority shall be created to serve the area of such county and shall have all powers set forth in this title. In such event, the authority shall be known as the solid waste management authority of that county, this title shall be known and cited as the solid waste management authority act of that county, the area of operation shall be limited to

that county, legislative body or legislative bodies shall mean the legislative body of that county, the membership of the authority shall consist of the members to be appointed by the legislative body and, if such certificate shall be filed by the chairman of the county legislature of the county of Oneida, by the county executive of such county and all references to the counties or each of the counties shall mean the county in which such chairman shall have filed such certificate. All other references or provisions in this title to more than one county shall be deemed to refer solely to such participating county, it being the intention of this section to permit the creation of the authority for only one county if such other county shall elect not to participate.

6. It is hereby determined and declared, that the authority and the carrying out of its powers and duties are in all respects for the benefit of the people of the counties and the state for the improvement of their health, welfare and prosperity and that such purposes are public purposes and that the authority is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

§ 2049-dd. Advances on behalf of authority; transfer of property to authority; acquisition of property for authority. 1. In addition to any powers granted to it by law, the legislative body of the counties may, from time to time, appropriate by resolution sums of money to defray project costs or any other costs and expenses of the authority. Subject to the rights of bondholders, each such legislative body may determine if the moneys so appropriated shall be subject to repayment by the authority to any such county and, in such event, the manner and time or times for such repayment.

2. The counties or any other municipality within the area of operation, may give, grant, sell, convey, loan, license the use of or lease to the authority any property or facility which is useful in connection with the exercise by the authority of its powers under this title. Any such gift, grant, sale, conveyance, loan, license or lease

shall be for such consideration, be upon such terms and conditions, subject to the rights of the holders of any bonds, as the authority and such county or other municipality may agree. Any such gifts, grant, sale, conveyance, loan or license shall not be subject to referendum, permissive or mandatory. The authority, in furtherance of any purchase, conveyance or lease of any property or facility from any county or other municipality, may assume the primary responsibility for the payment of the principal and interest on any bonds or notes issued by such county or other municipality for such property or facility. For purposes of section 136.00 of the local finance law, any agreement by the authority to assume the primary responsibility for the payment of the principal and interest on any bonds or notes issued by any such county or other municipality shall, so long as such agreement shall continue to be honored by the authority, cause such bonds or notes to be deemed to have been refunded and any such county or other municipality may deduct from its gross indebtedness any outstanding indebtedness contracted for such property or facility to be acquired by the authority.

3. The counties may acquire by purchase or condemnation real property in the name of such counties or county for any corporate purpose of the authority.

4. Notwithstanding the provisions of any other law, general, special or local, real property acquired by the authority or the counties from the state may be used for any corporate purpose of the authority.

§ 2049-ee. Powers of the authority. The authority shall have the power:

1. To sue and be sued.

2. To have a seal and alter the same.

3. To acquire in the name of the authority, hold, sell, lease, mortgage or otherwise dispose of property, real, personal or mixed, or any interest therein, without limitation, for its corporate purposes and

to take by eminent domain, in the name of the authority, pursuant to the eminent domain procedure law, any real property required to carry out its corporate purposes; provided, however, that in the acquisition of any real property designated as the site for any facility, the authority shall give consideration to the present and any proposed land use character of the area in which the site is to be located and zoning laws or regulations, if any, otherwise generally applicable to such area.

4. To collect, receive, extract, transport, process, dispose of, sell, store, convey, recycle, and deal with, in any lawful manner and way, solid waste generated within the area of operation and any products or by-products thereof now or hereafter developed or discovered, including any energy generated by the operation of any solid waste management-resource recovery facility. Any such disposal or sale may be effected on such terms and in such manner as the authority may deem proper.

5. To plan, develop and construct projects and to pay the cost thereof and to have the right to contract in relation thereto with the counties, or other municipalities or persons within or without the area of operation and to own and operate, maintain, repair, improve, reconstruct, renovate, rehabilitate, replace, increase, enlarge, and extend, subject to the provisions of this title, any of its projects acquired or constructed under this title, and to enter into contracts for any and all such purposes and for the management and operation of a project, and to sell, lease, mortgage or otherwise dispose of any project or part thereof to any person or public corporation, municipality or the state, subject to such conditions and limitations as the authority may determine to be in the public interest.

6. To assist in the planning, development and construction of and the financing of the cost of any project to be located in the area of operation, whether or not such project is to be owned or operated by the authority, which assistance may include loans to any person or public corporation.

7. To collect or receive, from the counties, any other municipality

located wholly or partially within the area of operation or public corporation or person, solid waste generated within the area of operation for the purpose of treatment or disposal thereof, with the right of the authority to sell and dispose of any products or by-products (including energy) of such process of treatment or disposal, as the authority may deem proper provided, however, that the authority may collect and receive recyclable material regardless of the place of generation of such recyclable materials.

8. To contract with the counties, or other municipalities, state agencies, public corporations or persons within or without the area of operation, for the purpose of collecting, receiving, treating and disposing of solid waste, including, without limitation, to contract with persons for the delivery of all solid waste generated within a stated area to a specific solid waste management-resource recovery facility provided, however, that no solid waste generated outside of the area of operation, other than recyclable materials, shall be received, collected, treated, or disposed of by the authority.

9. To make by-laws for the management and regulation of its affairs and, subject to agreements with bondholders, for the regulation of the use of any project or other property of the authority, which by-laws and all amendments thereto, duly certified by the secretary of the authority, shall be filed in the office of the authority and in the office of the clerk of each of the legislative bodies of the counties, and to provide for the enforcement of such by-laws by legal or equitable proceedings which are or may be provided or authorized by law. In addition, the legislative bodies shall have power to prescribe that violations of specific by-laws of the authority, including, without limitation, any failure to comply with any by-law requiring the payment of any fee or other charge by any person in connection with the delivery of solid waste to any facility or any other use of any facility by such person, shall constitute offenses or infractions and provide for the punishment of violations thereof by civil penalty.

10. With the consent of the appropriate legislative body, or the chief executive officer of the legislative body of any other municipality, to

use officers or employees of such county or municipality and to pay a proper portion of compensation or costs for the services for such officers or employees.

11. To make contracts and to execute all necessary or convenient instruments, including evidences of indebtedness, negotiable or non-negotiable.

12. To enter on any lands, waterways or premises within the area of operation for the purpose of making surveys, soundings, and examinations, any liability for which shall not exceed actual damages.

13. To borrow money and to issue bonds for any of its corporate purposes, to secure the same with its revenues or other funds to fund or refund the same, and to provide for the rights of the holders thereof.

14. Subject to any limitations imposed by any contract pursuant to subdivision two of section two thousand forty-nine-tt of this title, to determine classifications of users, to fix and collect rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, or any commodities furnished by, the authority, which rates, rentals, fees and other charges may be different for each classification of user and may reflect the source and composition of solid waste and provide for fee reductions to the user in proportion to waste generated or to reflect participation in source separation programs, and to contract with the counties or any other municipality or person in respect thereto, so as to provide revenues sufficient at all times to pay, as the same shall become due, the principal and interest on the bonds of the authority, together with the maintenance of proper reserves therefor, in addition to paying, as the same shall become due, the expenses of operating and maintaining the properties of the authority, together with proper reserves for debt service, depreciation, maintenance and contingencies and all other obligations and indebtedness of the authority. No such rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, the authority shall be established, fixed or revised unless the authority shall have held a public hearing at which the users of the facilities of, or services

rendered by, the authority together with the owners of property served or to be served and others interested have had the opportunity to be heard concerning the same. Notice of such public hearing shall be published by the authority at least ten days before the date set therefor in at least one newspaper having a general circulation in each of the counties. Such notice shall set forth the date, time and place of such hearing and shall include a brief description of the matters to be considered at such hearing. A copy of the notice shall be filed in the office of the clerk of each of the counties and shall be available for inspection by the public. At any such hearing, any person shall have an opportunity to be heard concerning the matters under consideration. Any decision of the authority on matters considered at any such public hearing shall be in writing and shall be made available to any such person in the office of the authority during regular office hours. All rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, the authority shall be a lien upon the real property upon which, or in connection with which, services were provided as and from the first date fixed for payment of such rates, rentals, fees and other charges. Any such lien shall take precedence over all other liens or encumbrances, except taxes or assessments. The treasurer of the authority shall prepare and transmit to the respective legislative body of each county, on or before the first day of December in each year, a list of those properties within each respective county for which such services were provided and which the payment of rates, rentals, fees and other charges are in arrears for a period of thirty days or more after the last day fixed for payment of such rates, rentals, fees and other charges without penalty. The list shall contain a brief description of the properties for which such services were provided, the names of the persons or corporations liable to pay for the same, and the amount chargeable to each, including penalties and interests computed to December thirty-first of that year. Each governing body shall levy such sums against the properties liable and shall state the amount thereof in a separate column in the annual tax rolls of the various municipalities under the heading "solid waste disposal charge". Such amounts, when collected by the several municipal collectors or receivers of taxes, shall be paid over to each respective county treasurer, who immediately shall pay the same over to the treasurer of the authority. All of the provisions of the tax laws of the state covering enforcement and collection of unpaid taxes or assessments for special improvements not inconsistent herewith shall apply to the collection of such unpaid rates, rentals, fees and other charges.

15. To accept gifts, grants, loans or contributions from the United States, the state or any authority or instrumentality of either of them, or any municipality or from any person, by bequest or otherwise, and to expend the proceeds for any corporate purposes of the authority.

16. To enter into agreements, in its discretion, to pay annual sums in lieu of taxes to the counties or any other municipality, political subdivision or taxing district of the state in respect to any real property which is owned by the authority and located in such counties, municipality, political subdivision or taxing district.

17. To do all things necessary or convenient to carry out the power expressly given in this title.

§ 2049-ff. Governmental capacity of the authority and municipalities. The counties, other municipalities within the area of operation and the authority, in carrying out their respective powers and duties under this title, shall be deemed to be acting in a governmental capacity. The construction, operation and maintenance of any project financed in whole or in part by the authority shall be deemed to be the performance of an essential governmental function by the authority acting in its governmental capacity, whether such project shall be owned or operated by the authority or by any person or other public corporation.

§ 2049-gg. Transfer of officers and employees. Any officer or employee of the counties or any other municipality within the area of operation, under civil service, who is selected by the authority may, with the consent of the chief executive officer of the legislative body of the employing county or municipality, be transferred to the authority and shall be eligible for such transfer and appointment, without examination, to applicable offices, positions and employment under the authority. The salary or compensation of any such officer or employee, after such transfer, shall be paid by the authority. Any such officers or employees so transferred to the authority pursuant to this section who are members of or benefit under any existing pension or retirement fund or system shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law, but, during the period of their employment by the authority, all contributions to such fund or system to be paid by the employer on account of such officers or employees shall be paid by the authority. All such officers or employees so transferred to the authority who have been appointed to positions under the rules and classifications of the personnel officer of the county or other employing municipality shall have the same status with respect thereto after transfer to the authority as they had under their original appointment.

§ 2049-hh. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue bonds in such principal amounts as it may determine to be necessary to pay the cost of any project or for any other corporate purpose, including incidental expenses in connection therewith. The authority shall have power from time to time to refund any bonds by the issuance of new bonds whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose. Bonds issued by the authority may be general obligations secured by the faith and credit of the authority or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the authority under which the bonds shall be authorized to be issued, subject as to priority only to any agreements with the holders of outstanding bonds pledging any particular property, revenues or moneys. The authority may also enter into loan agreements, lines of credit and other security agreements and obtain for or on its behalf letters of credit, insurance, guarantee or other credit support to the extent now or hereafter available, in each case for securing its bonds or to provide direct payment of any costs which the authority is authorized to pay.

2. Bonds shall be authorized by resolution of the authority, be in such denominations and bear such date or dates and mature at such time or times, as such resolution may provide, provided that bonds shall mature within thirty years from the date of original issuance of any such bonds. Obligations with a maturity of five years or less from the date of their original issuance may be denominated as notes. Bonds shall be subject to such terms of redemption, bear interest at such rate or rates, which may vary from time to time, be payable at such times, be in such form, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, shall be subject to tender to the authority with or without extinction or cancellation and be subject to such terms and conditions as such resolution may provide. Bonds may be sold at public or private sale for such price or prices as the authority shall determine, provided that no bonds of the authority shall be sold by the authority at private sale unless such sale and the terms thereof have been approved in writing by the state comptroller, which such sale is not to the comptroller, or by the state director of the budget, where such sale is to the comptroller. The authority may pay all expenses, premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale of bonds.

3. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to:

(a) Pledging all or any part of the revenues, other moneys or property, of the authority to secure the payment of the bonds, including but not limited to any contracts, earnings or proceeds of any grant to the authority received from any private or public source, subject to such agreements as may then exist;

(b) The setting aside of reserves and the creation of sinking funds and the regulations and disposition thereof;

(c) Limitations on the purpose to which the proceeds from the sale of the bonds may be applied;

(d) The rates, rents, fees and other charges to be fixed and collected

by the authority and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) Limitations on the right of the authority to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;

(f) Limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto and the manner in which such consent may be given;

(h) The creation of special funds into which any revenues or moneys may be deposited;

(i) The terms and provisions of any trust, mortgage, deed or indenture securing the bonds under which the bonds may be issued;

(j) Vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders pursuant to section two thousand forty-nine-ii of this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of such trustee;

(k) Defining the acts or omission to act which may constitute a default in the obligations and duties of the authority to the bondholders and providing for the rights and remedies of the bondholders in the event of such default including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) Limitations on the power of the authority to sell or otherwise dispose of any project or any part thereof;

(m) Limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the authority;

(n) The payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine; and

(o) Any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

4. In addition to the powers herein conferred upon the authority to secure its bonds, the authority shall have power in connection with the issuance of bonds to enter into such agreements as the authority may deem necessary, convenient or desirable concerning the use or disposition of its revenues or other moneys or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues or other moneys or property and the doing of any act, including refraining from doing any act, which the authority would have the right to do in the absence of such agreements. The authority shall have power to enter into amendments of any such agreements within the powers granted to the authority by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of bonds of the authority.

5. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the authority shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or perfected against the authority irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

6. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of

and for the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

7. Neither the members of the authority nor any person executing bonds shall be liable personally thereon or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The authority, subject to such agreements with bondholders as then may exist, shall have power out of any moneys available therefor to purchase bonds of the authority which shall thereupon be cancelled, at a price not exceeding (a) if the bonds are then redeemable, the redemption price then applicable, plus accrued interest to the next interest payment date, (b) if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date.

§ 2049-ii. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to subdivision three of section two thousand forty-nine-hh of this title:

1. In the event that the authority shall default in the payment of principal or of interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in the aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county in which the principal office of the authority is located and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may, and upon written request of the holder of

twenty-five per centum in principal amount of such bonds outstanding, shall in his or its own name:

(a) By action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the authority to collect rents, rates and charges adequate to carry out any agreement as to, or pledge of, such rents, rates and charges and to require the authority to carry out any other agreements with the holders of such bonds to perform its duties under this title;

(b) Bring an action or proceeding upon such bonds;

(c) By action or proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) By action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) Declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in the county where the principal office of the authority is located.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days notice in writing to the authority.

6. Any such trustee whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project, the revenues of which are pledged for the security of the bonds of such issue, and such receiver may enter and take possession of such

part or parts of the project and, subject to any pledge or agreement with holders of such bonds, shall take possession of all moneys and other property derived from such part or parts of the project and proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith that the authority is under obligation to do, and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom, subject to any pledge thereof or agreement with bondholders relating thereto, and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee, the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

§ 2049-jj. State, counties and municipalities not liable on authority bonds. Neither the state, the counties nor any other muncipality or public corporation shall be liable on the bonds of the authority and such bonds shall not be a debt of the state, the counties or any other municipality or public corporation, and such bond shall contain on the face thereof, a statement to such effect.

§ 2049-kk. Moneys of the authority. All moneys of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in interest bearing accounts in a bank or banks in the state designated by the governing body. The moneys in such accounts shall be paid out on check of the treasurer upon requisition by the governing body or of such other person or persons as the governing body may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States, the state or of the counties of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds as to the custody, collection, security, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys may be secured in the same manner as moneys of the authority and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the authority not required for immediate use or disbursement may, at the discretion of the authority, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. Subject to the provisions of any contract with bondholders and with the approval of the comptroller, the authority shall prescribe a system of accounts.

§ 2049-ll. Bonds legal investment for fiduciaries. The bonds of the authority are hereby made securities in which all public officials and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or other obligations of the state may properly and legally invest funds including capital in their control or belonging to them. The bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purposes for which the deposit of bonds or other obligations of this state is now or hereafter may be authorized.

§ 2049-mm. Agreement with the state. The state does hereby pledge to and agree with the holders of any bonds issued by the authority pursuant to this title that the state will not alter or limit the rights hereby vested in the authority to purchase, construct, own and operate, maintain, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any agreement made with or for the benefit of the holders of bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of bondholders, until the bonds, together with the interest thereon, including interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged; provided, however, that this section shall not be construed to limit in any manner the ability of the state to alter, amend, or enforce laws or regulations to protect public health and the environment. The authority is authorized to include this pledge and agreement of the state in any agreement with bondholders.

§ 2049-nn. Exemption from taxes, assessments and certain fees. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the counties and the state and is a public purpose and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay any taxes or assessments upon any property owned by it or under its jurisdiction, control or supervision or upon its activities, income and operations, or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf provided, however, that the authority shall annually pay a sum in lieu of taxes to each of the municipalities in which any real property owned by or under its jurisdiction, control or supervision of the authority are located in an amount equal to the taxes and assessments which would have been levied upon such real property in an unimproved state had such real property been owned by a person whose real property is subject to taxation. The construction, use, occupation or possession of any property owned by the authority or the counties, including improvements thereon, by any person or public corporation under a lease, lease and sublease or any other agreement shall not operate to abrogate or limit the foregoing exemption, notwithstanding that the lessee, user, occupant or person in possession shall claim ownership for federal income tax purposes. Mortgages made or financed, directly or indirectly, by the authority shall be exempt from the mortgage recording taxes imposed by article eleven of the tax law.

2. Any bonds issued pursuant to this title together with the income therefrom as well as the property of the authority shall be exempt from taxes, except for transfer, and estate and gift taxes. The state hereby covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the authority pursuant to this title, in consideration of the acceptance of any payment for the bonds, that the bonds of the authority issued pursuant to this title and the income therefrom and all revenues, moneys, and other property pledged to secure the payment of such bonds shall at all times be free from taxation, except for transfer, and estate and gift taxes.

§ 2049-oo. Actions against authority. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the authority for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence or wrongful act of the authority or of any member, officer, agent or employee thereof, unless (a) a notice of claim shall have been made and served upon the authority within the time limit by and in compliance with section fifty-e of the general municipal law, (b) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter. Actions to recover damages for personal injury or injury to property caused by the latent effects of exposure to any substance or combination of substances, in any form, upon or within the body, or upon or within property, shall be governed by section two hundred fourteen-c of the civil practice law and rules.

2. Wherever a notice of claim is served upon the authority, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority may require any person, presenting for settlement an account or claim for any cause whatever against the authority to be sworn before a member, counsel or an attorney, officer or employee of the authority designated for such purpose, concerning such account or claim and when so sworn, to answer orally as to any facts relative to such account or claim. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. The rate of interest to be paid by the authority upon any judgment for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section three-a of the general municipal law. Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

§ 2049-pp. Contracts. All contracts or orders, for work, material and supplies performed or furnished in connection with construction, shall be awarded, when applicable, pursuant to paragraph (e) of subdivision four of section one hundred twenty-w of the general municipal law and such award shall be made by the authority pursuant to resolution of the governing body except as hereinafter provided. The authority, upon the receipt of proposals pursuant to a request for proposals issued in accordance with paragraph (e) of subdivision four of section one hundred twenty-w of the general municipal law, may, in its discretion, defer public announcement of proposed bids to facilitate and enhance the authority's ability to enter into negotiations with one or more proposers until such time as the authority shall determine to be in the best interest of the project, but in no event later than the date of the award of the contract. In any construction contract, the authority may provide a program for the payment of damages for delays and incentive awards in order to encourage timely project completion. An action, suit or proceeding contesting the validity of a contract awarded pursuant to this section, or the validity of the procedures relating to such award, shall be governed by the provisions of subdivision six of section one hundred twenty-w of the general municipal law and the term "municipality" as used in such subdivision six shall mean the authority. Every contract when made and entered into as herein provided for shall be executed in duplicate, one copy of which shall be held by the authority and one copy of which shall be delivered to the contractor. The authority may adopt, utilize, ratify and confirm any request for proposals, invitation for sealed bids, plans, specifications and notices heretofore or hereafter published by either of the counties with respect to any proposed project, and the authority may adopt, utilize, accept and confirm any bids or proposals submitted to either of the counties and heretofore and hereafter received and publicly opened by such county. The provisions of this section shall supersede any inconsistent provisions of the general municipal law, any other general, special or local law, or the charter of either county.

§ 2049-qq. Interest in contracts prohibited. It shall be a misdemeanor for any member of the governing body or any officer, agent, servant or employee of the authority to be in any way of manner interested, directly or indirectly, in the furnishing of work, materials, supplies or labor, or in any contract therefor which the authority is empowered by this title to make.

§ 2049-rr. Audit and annual report. In conformity with the provisions of section five of article ten of the state constitution, the accounts of the authority shall be subject to the supervision of the state comptroller. The authority shall annually submit to the governor and state comptroller and to the state legislature a detailed report pursuant to the provisions of section two thousand eight hundred of title one of article nine of this chapter, and a copy of such report shall be filed with the chairman of each legislative body. The authority shall comply with the provisions of sections two thousand eight hundred one, two thousand eight hundred two and two thousand eight hundred three of title one of article nine of this chapter.

§ 2049-ss. Limited liability. Neither the members of the governing body, nor any municipality, officer or employee acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the properties of the authority or from carrying out any of the powers expressly given in this title; provided, however, that this section shall not be held to apply to any independent contractor.

§ 2049-tt. Pledge by counties; contracts with municipalities; powers of municipalities. 1. The counties are hereby authorized to pledge to and agree with the holders of any bonds that the counties will not limit or impair the rights hereby vested in the authority to purchase, construct, own and operate, maintain, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title and to fulfill the terms of any agreements made with the holders of the bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of the bondholders, until the bonds, together with interest thereon, including interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders are fully met and discharged.

2. The counties and one or more municipalities within the area of operation, or the authority and the counties, shall have power to contract from time to time between or among themselves, or among

themselves and with the authority, in relation to the collecting, receiving, transporting, storage, processing or disposal of recyclables and/or solid waste or for the purchase or use of any materials, energy, by-products or residue generated by or resulting from the operation of any solid waste management-resource recovery facility. Any such contract to which the authority, the counties or any municipality within the area of operation are parties may include provisions stipulating the minimum and/or maximum rates, rentals, fees and other charges to be collected for the use and availability of facilities. Any contract may also include provisions: (a) requiring any such county or municipality to deliver, or cause to be delivered, periodically to a specified facility or facilities all or any portion of the solid waste generated, originated or brought within such county or municipality or minimum amounts of solid waste and providing for specified minimum periodic payments whether or not such delivery of any such solid-waste is made; (b) reserving to any such county or municipality, and granting by the authority to any such county or municipality, a portion of or the entirety of the capacity of a solid waste management-resource recovery facility as any such county or municipality determines is reasonably necessary to meet its present and reasonably anticipated needs and providing for specified minimum periodic payments in consideration thereof, or (c) requiring the counties to pay such amounts as shall be necessary to assure the continued operation and solvency of the authority, all such payments to be determined and paid in such manner and at such times as may be provided in such contract.

3. To further the governmental and public purposes of the authority, including the implementation of any contract or proposed contract contemplated by this title, and in recognition of the public policy of the state in the area of the control and management of solid waste and solid waste disposal activities to displace competition with regulation or monopoly public control, the counties and all other municipalities within the area of operation, as instrumentalities of the state, shall have the power to adopt and amend local laws, ordinances and regulations imposing appropriate and reasonable limitations on competition with respect to collecting, receiving, transporting, delivering, storing, processing and disposing of solid waste or the recovery by any means of

any material or energy product or resource therefrom, including, without limiting the generality of the foregoing, local laws requiring that all solid waste generated, originated or brought within their respective boundaries, subject to such exceptions as may be determined to be in the public interest, shall be delivered to a specified solid waste management-resource recovery facility; provided, however, that any such local law, ordinance or regulation enacted by the counties shall take precedence over and shall supersede any inconsistent provisions of any such local law, ordinance or regulation enacted by any other municipality within the area of operation. Any such local law shall be adopted in accordance with the procedure provided by the municipal home rule law, except that no such local law shall be subject to either mandatory or permissive referendum. Any such local law may include provisions for the enforcement thereof and penalties for the violation thereof, which may provide, but shall not be limited to providing, that any violation of a local law shall constitute an offense or infraction, and may provide that any violation may be punished by civil penalty, fine or other monetary charge, and/or, the suspension or revocation of permits or licenses granted by any other jurisdiction with respect to the collecting, receiving, transporting, delivery or storing of solid waste. For the purposes of this section, solid waste shall have the meaning set forth in subdivision fifteen of section two thousand forty-nine-bb of this title, but shall not include any scrap or other material of value separated from the waste stream and held for purposes of materials recycling. Upon the adoption of any local law, ordinance or regulation pursuant to this section, the counties or other municipality shall file a verified copy of such local law, ordinance or regulation with the commissioner of the department of environmental conservation; provided, however, that the failure to so file such a local law, ordinance or regulation shall not invalidate such local law, ordinance or regulation. Upon the adoption or amendment of any local law or ordinance pursuant to section one hundred twenty-aa of the general municipal law, either or both counties, by their respective legislative body, is authorized and empowered to delegate and assign to the authority, in whole or in part, by contract and on such terms as the parties may agree, the administration and implementation of the source separation and recycling program. Such delegation and assignment powers should be in addition to any other contracting powers and authority the counties may have under this section.

4. The counties are hereby authorized to resell or otherwise dispose of all or any part of the materials, energy, by-products or residue purchased from the authority pursuant to this section. Any resale of or other disposition may be made in such manner as the counties may deem proper and upon such terms and conditions as may be agreed upon by the parties thereto.

5. The counties and all other municipalities within the area of operation shall have power to perform such other acts, to enter into such other contracts, including contracts between or among themselves, execute such instruments and to undertake such future proceedings as shall be determined necessary or desirable to effectuate the purpose of this title, including the making of gifts, grants, loans or contributions to the authority.

6. Any contract entered into by the counties or other municipality pursuant to this section may be for such term or duration, not to exceed twenty-five years, as may be agreed upon by the parties thereto.

7. Any contract entered into pursuant to this section to which the authority shall be a party may be pledged by the authority as security for any issue of bonds, and may be assigned, in whole or in part, by the authority, to any public corporation or person which shall construct, purchase, lease or otherwise acquire any solid waste management-resource recovery facility, or part thereof, financed in whole or in part by the authority.

§ 2049-uu. Solid waste facility reserve fund. The legislative bodies of the counties may establish a special fund, to be known as solid waste facility reserve fund of such county. There shall be credited to such reserve fund all amounts paid to such county and specifically designated by the payor for deposit in such reserve fund, together with such county moneys as may be appropriated thereto from time to time. Moneys in such reserve funds may be appropriated only for the purpose of paying amounts due from the county under the terms of any contract entered into pursuant to this title, for which an insufficient or no provision has otherwise been made, except that upon the adoption of a resolution by at least a two-third vote of the voting strength of such counties legislative body, all or any portion of the moneys in such reserve fund may be transferred to any other reserve fund established by the county pursuant to the general municipal law. To the extent not inconsistent with the provisions of this section, the management of such reserve fund and the investment of moneys therein shall be subject to the provisions of section six-h of the general municipal law.

§ 2049-vv. Transfer of environmental applications, proceedings, approvals and permits. 1. Any application in relation to the purposes of or contemplated by this title heretofore filed, or any proceeding heretofore or hereafter commenced, by either of the counties with the state department of environmental conservation, the department of transportation or any other state authority or instrumentality or with the United States environmental protection agency or any other federal authority or instrumentality shall inure to and for the benefit of the authority to the same extent and in the same manner as if the authority had been a party to such application or proceeding from its inception, and the authority shall be deemed a party thereto, to the extent not prohibited by any federal law. Any license, approval, permit or decision heretofore or hereafter issued or granted pursuant to or as a result of any such application or proceeding shall inure to the benefit of and be binding upon the authority and shall be assigned and transferred by such county to the authority, unless such assignment and transfer is prohibited by federal law.

2. All such applications, proceedings, licenses, approvals, permits and decisions shall further inure to and for the benefit of and be binding upon any person leasing, constructing, maintaining, using or occupying any facility financed in whole or in part by the authority.

§ 2049-ww. Preference for actions or proceedings against authority. Any action or proceeding to which the authority or the people of the state may be parties, in which any question arises as to the validity of this title, shall be preferred over all other civil causes of action or cases, except election causes of action or cases, in all courts of the state and shall be heard and determined in preference to all other civil business pending therein, except election causes, irrespective of position on the calendar. The same preference shall be granted upon application of the authority or its counsel in any action or proceeding questioning the validity of this title in which the authority may be allowed to intervene. The venue of any such action or proceeding shall be laid in the supreme court of the county in which the principal office of the authority is located.

§ 2049-xx. Separability. If any section, clause or provision in this title shall be held by a court of competent jurisdiction to be unconstitutional or ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective, and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 2049-yy. Effect of inconsistent provisions. Insofar as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of any county charter or any local law, ordinance or resolution of the counties or any other municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the authority otherwise set forth in this title. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation or the department of health.

TITLE 13-G

ULSTER COUNTY RESOURCE

RECOVERY AGENCY

§ 2050-a. Short title. This title shall be known and may be cited as the "Ulster county resource recover agency act".

§ 2050-b. Definitions. As used or referred to in this title, unless a different meaning clearly appears in the context, the following terms shall have the following meanings:

1. "Agency" means the public benefit corporation created by section two thousand fifty-c of this title, known as the Ulster county resource recovery agency.

2. "Area of operation" means the county of Ulster.

3. "Bonds" means the bonds, notes or other evidences of indebtedness issued by the agency pursuant to this title and the provisions of this title relating to bonds and bondholders shall apply with equal force and effect to notes and noteholders, respectively, unless the context otherwise clearly requires.

4. "Cost" as applied to any project, includes the cost of construction, the cost of the acquisition of all property, including real property and other property, both real and personal and improved and unimproved, the cost of demolishing, removing or relocating any buildings or structures on lands so acquired, including the cost of acquiring any lands to which such building or structures may be moved or relocated, the cost of all systems, facilities, machinery, apparatus and equipment, financing charges, interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultants and legal services, the cost of lease guarantee, credit enhancement or bond insurance, other expenses necessary or incidental to the construction of such project and the financing of the construction thereof, including the amount authorized in the resolution of the agency providing for the issuance of bonds to be paid into any reserve or other special fund from the proceeds of such bonds and the financing of the placing of any project in operation, including reimbursement to the county, or any municipality, state agency, the state, the United States government, or any other person for expenditures that would be costs of the project hereunder had they been made directly by the agency.

5. "County" means the county of Ulster.

6. "County legislature" means the legislative body of the county.

7. "Construction" means the acquisition, erection, building, alteration, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of a solid waste management-resource recovery facility; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures and other actions incidental thereto.

8. "Governing body" means the members of the agency constituting and acting as the governing body of the agency.

9. "Municipality" means any county, city, town, village, improvement district, or public corporation of the state, or any combination thereof.

10. "Person" means any natural person, partnership, association, joint venture or corporation, exclusive of a public corporation.

11. "Project" means any solid waste management-resource recovery facility, the planning, development, financing, construction, operation, or maintenance of which is authorized to be undertaken in whole or in part by the agency pursuant to this title.

12. "Real property" means lands, structures, franchises and interest in lands, waters, lands under water, riparian rights and air rights and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interest including, but not limited to easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgment, mortgages or otherwise.

13. "Resources recovery" means the separation, extraction and recovery of usable materials, energy or heat from solid waste through source separation, recycling centers or other programs, projects or facilities.

14. "Revenues" means all rates, fees, rents, charges and other income derived by the agency from its operation.

15. "Solid waste" means all materials or substances discarded or rejected as being spent, useless, worthless, or in excess to the owners at the time of such discard or rejection, including but not limited to garbage, refuse, industrial and commercial waste, sludges from air or water pollution control facilities or water supply treatment facilities, rubbish, ashes, contained gaseous material, incinerator residue, demolition and construction debris and offal, but not including sewage and other highly diluted water-carried materials or substances and those in gaseous form, source, special nuclear or by-product material within the meaning of the Atomic Energy Act of 1954, as amended, or waste which appears on the list of hazardous waste promulgated by the commissioner of environmental conservation pursuant to section 27-0903 of the environmental conservation law.

16. "Solid waste management-resource recovery facility" or "facility" means any facility, plant, works, system, building, structure, improvement, machinery, equipment, fixture or other real or personal property which is to be used, occupied or employed for or is incidental to the collecting, receiving, transporting, storage, processing, or disposal of solid waste or the recovery by any means of any material or energy product or resource therefrom including but not limited to recycling centers, transfer stations, baling facilities, rail haul or maritime facilities, collection vehicles, processing systems, resource recovery facilities, steam and electric generating and transmission facilities, including auxiliary facilities to supplement or temporarily replace such generating facilities, steam distribution and related plants and facilities, sanitary landfills, leachate treatment facilities, landspreading facilities, waste oil storage, reprocessing and recycling facilities, plants and facilities for compacting, composting or pyrolization of solid wastes, incinerators, and other

solid waste disposal, reduction or conversion facilities and resource recovery equipment and disposal equipment as defined in subdivisions four and five of section 51-0903 of the environmental conservation law. Any such facility producing either electricity or shaft horsepower and useful thermal energy shall constitute a co-generation facility as defined in subdivision two-a of section two of the public service law.

17. "State" means the state of New York.

18. "Source separation" means the segregation of recyclable materials from the solid waste stream at the point of generation for separate collection, sale or other disposition.

§ 2050-c. Ulster county resource recovery agency. 1. A corporation known as the Ulster county resource recovery agency is hereby created for the public purposes and charged with the duties and having the powers provided in this title. The agency shall be a body corporate and politic constituting a public benefit corporation. It shall consist of five members to be appointed by the chairman of the county legislature including one member recommended to the chairman by the minority leader of the county legislature. All members so appointed shall be subject to confirmation by the county legislature. In making appointments of members, the chairman of the county legislature shall give due consideration to the representation of diverse geographical areas. The first members appointed by the chairman of the county legislature shall be appointed for the following terms of office; one for a term ending on December thirty-first, nineteen hundred eighty-seven; two for a term ending on December thirty-first, nineteen hundred eighty-eight; and two for a term ending on December thirty-first, nineteen hundred eighty-nine. Subsequent appointment of members shall be made for a term of three years ending in each case on December thirty-first of the last year of such term. All members shall continue to hold office until their successors are appointed and qualify. Vacancies shall be filled in the manner provided for original appointment. Vacancies occurring otherwise than by expiration of term of office shall be filled for the unexpired terms. Members may be removed from office for the same reasons and in the same manner as may be provided by law for the removal of officers of the county. The members of the agency shall receive no compensation for their services but shall be reimbursed for all their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the agency shall be vested in and be exercised by the governing body at a meeting duly called and held and three members shall constitute a quorum. No action shall be taken except pursuant to the favorable vote of at least three members. The governing body may delegate to one or more of its members, officers, agents or employees such powers and duties as it may deem proper.

2. The officers of the agency shall consist of a chairman, a vice chairman and a treasurer, who shall be members of the agency, and a secretary, who need not be a member of the agency. Such officers shall be appointed by the governing body and shall serve at the pleasure of the governing body. In addition to the secretary, the governing body may appoint and and at pleasure remove an attorney, engineer and executive director and such additional officers and employees as it may determine necessary for the performance of the powers and duties of the agency, which positions shall be in the exempt class of civil service and fix and determine their qualifications, duties and compensation, subject to the provisions of the civil service law. The governing body may also from time to time contract for expert professional services. The treasurer shall execute a bond, conditioned upon the faithful performance of the duties of his office, the amount and sufficiency of which shall be approved by the governing body and the premium therefor shall be paid by the agency.

3. Notwithstanding any inconsistent provisions of any general, special or local law, ordinance, resolution or charter, no officer, member or employee of any municipality or any public benefit corporation within the county or any adjoining county, shall forfeit his or her office or employment by reason of his or her acceptance of appointment as a member, officer, agent or employee of the agency, nor shall service as such member, officer, agent or employee be deemed incompatible or in conflict with such office, membership or employment. Provided, however, that a full time officer, member or employee shall not be compensated in

the aggregate in an amount in excess of such officer's member's or employee's full time compensation without the express approval of the county legislature; and provided, further, however, that no public official elected to his or her office pursuant to the laws of the state or any municipality thereof may serve as a member of the governing body of the agency during his or her term of office.

4. (a) The chairman of the county legislature shall file on or before July first, nineteen hundred eighty-seven, in the office of the secretary of state, a certificate setting forth: (1) the name of the agency; (2) the names of the members appointed by the chairman of the county legislature and their terms of office; and (3) the effective date of this title. The agency shall be perpetual in duration, except that if such certificate is not filed with the secretary of state on or before such date then the corporate existence of the agency shall thereupon terminate and it shall thereupon be deemed to be and shall be dissolved.

(b) Except as provided in paragraph (a) of this subdivision, the agency and its corporate existence shall continue until terminated by law, provided, however, that no such law shall take effect so long as the agency shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof. Upon termination of the existence of the agency, all of the rights and properties of the agency then remaining shall pass to and vest in the county.

5. In addition to any powers granted to it by law, the county legislature from time to time may appropriate by resolution sums of money to defray project costs or any other costs and expenses of the agency. Subject to the rights of bondholders, the county legislature may determine if the moneys so appropriated shall be subject to repayment by the agency to the county and, in such event, the manner and time or times for such repayment.

6. It is hereby determined and declared, that the agency and the carrying out of its powers and duties are in all respects for the benefit of the people of the county and the state for the improvement of their health, welfare and prosperity and that such purposes are public

purposes and that the agency is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

§ 2050-d. Transfer of property to agency; acquisition of property by county for agency. 1. The county or any other municipality may give, grant, sell, convey, loan, license the use of or lease to the agency any property or facility which is useful in connection with the exercise by the agency of its powers under this title. Any such gift, grant, sale, conveyance, loan, license or lease shall be upon such terms and conditions, subject to the rights of the holders of any bonds, as the agency and the county or other municipality may agree.

2. The county may acquire by purchase or condemnation real property in the name of the county for any corporate purpose of the agency.

3. Notwithstanding the provisions of any other law, general, special or local, real property acquired by the agency or the county from the state may be used for any corporate purpose of the agency.

§ 2050-e. Powers of the agency. The agency shall have the power:

1. To sue and be sued;

2. To have a seal and alter the same;

3. To acquire in the name of the agency, hold, sell, lease, mortgage or otherwise dispose of property, real, personal or mixed, or any interest therein, without limitation, for its corporate purposes; provided, however, that in the acquisition of any real property designated as the site for any facility, the agency shall give consideration to the present and any proposed land use character of the area in which the site is to be located and zoning laws or regulations, if any, otherwise generally applicable to such area;

4. To take by eminent domain, subject to the approval of the county legislature in the name of the agency, pursuant to the eminent domain procedure law, within the area of operation any real property required by the agency to carry out the powers granted by this title;

5. To collect, receive, transport, process, dispose of, sell, store, convey, recycle, and deal with, in any lawful manner and way, solid waste and any products or by-products thereof now or hereafter developed or discovered, including any energy generated by the operation of any solid waste management-resource recovery facility. Any such disposal or sale may be effected on such terms and in such manner as the agency may deem proper;

6. To plan, develop and construct projects and to pay the cost thereof and to have the right to contract in relation thereto with municipalities or persons within or without the county and to own and operate, maintain, repair, improve, reconstruct, enlarge, and extend, subject to the provisions of this title, any of its projects acquired or constructed under this title and to sell, lease, mortgage or otherwise dispose of any project or part thereof to any person or public corporation, subject to such conditions and limitations as the agency may determine to be in the public interest;

7. To assist in the planning, development, construction and the financing of the cost of any solid waste management-resource recovery facility to be located in the county whether or not such solid waste management-resource recovery facility is to be owned or operated by the agency, which assistance may include loans to any person or public corporation.

8. Subject to the provisions of any laws or resolutions of the county, to collect or receive from the United States, the state, the county, any other municipality or public corporation or person, solid waste for the purpose of treatment or disposal thereof, with the right of the agency to sell and dispose of any products or by-products (including energy) of such process of treatment or disposal, as the agency may deem proper;

9. Subject to the provisions of any laws or resolutions of the county, to contract with the county, or other municipalities, state agencies, public corporations or persons within or without the county, for the purpose of collecting, receiving, treating and disposing of solid waste including without limitation to contract with persons for the delivery of all solid waste generated within a stated area to a specific solid waste management-resource recovery facility;

10. To make by-laws for the management and regulation of its affairs and, subject to agreements with bondholders, for the regulation of the use of any project or other property of the agency, which by-laws and all amendments thereto, duly certified by the secretary of the agency, shall be filed in the office of the agency and in the office of the clerk of the county, and to provide for the enforcement of such by-laws by legal or equitable proceedings which are or may be provided or authorized by law. In addition, the county legislature shall have power to prescribe that violations of specific by-laws of the agency shall constitute offenses or infractions and provide for the punishment of violations thereof by civil penalty;

11. With the consent of the chairman of the county legislature, to use officers or employees of the county and to pay a proper portion of compensation or costs for the services for such officers or employees;

12. To make contracts and to execute all necessary or convenient instruments, including evidences of indebtedness, negotiable or nonnegotiable;

13. To enter on any lands, waterways and premises within the county for the purpose of making surveys, soundings and examinations, and liability therefor shall not exceed actual damages;

14. To borrow money and to issue bonds and to fund or refund the same, and to provide for the rights of the holders thereof;

15. Subject to any limitations imposed by any contract pursuant to subdivision two of section two thousand fifty-t of this title, to fix

and collect rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, or any commodities furnished by, the agency so as to provide revenues sufficient at all times to pay, as the same shall become due, the principal and interest on the bonds of the agency, together with the maintenance of proper reserves therefor, in addition to paying, as the same shall become due, the expenses of operating and maintaining the properties of the agency, together with proper reserves for debt service, depreciation, maintenance and contingencies and all other obligations and indebtedness of the agency;

16. To accept gifts, grants, loans or contributions from the United States, the state or any agency or instrumentality of either of them, or any municipality or from any person, by bequest or otherwise, and to expend the proceeds for any corporate purposes of the agency; and

17. To do all things necessary or convenient to carry out the power expressly given in this title.

§ 2050-f. Governmental capacity of the agency and municipalities. The county, other municipalities within the county and the agency in carrying out their respective powers and duties under this title shall be deemed to be acting in a governmental capacity. The construction, operation and maintenance of any project financed in whole or in part by the agency, shall be deemed to be the performance of an essential governmental function by the agency acting in its governmental capacity, whether such project shall be owned or operated by the agency or by any person or other public corporation.

§ 2050-g. Transfer of officers and employees. Any officer or employee of the county or a municipality under civil service, selected by the agency may, with the consent of the chairman of the county legislature, be transferred to the agency and shall be eligible for such transfer and appointment, without examination, to applicable offices, positions and employment under the agency. The salary or compensation of any officer or employee, after such transfer, shall be paid by the agency. Any such officers or employees so transferred to the agency pursuant to this section, who are members of or benefit under any existing pension or retirement fund or system, shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law, but during the period of their employment by the agency, all contributions to such funds or system to be paid by the employer on account of such officers or employees shall be paid by the agency. All such officers or employees so transferred to the agency who have been appointed to positions under the rules and classifications of the personnel officer of the county shall have the same status with respect thereto after transfer to the agency as they had under their original appointment.

§ 2050-h. Bonds of the agency. 1. The agency shall have the power and is hereby authorized from time to time to issue bonds, in conformity with applicable provisions of the uniform commercial code, in such principal amounts as it may determine to be necessary to pay the cost of any project or for any other corporate purpose, including incidental expenses in connection therewith. The agency shall have power from time to time to refund any bonds by the issuance of new bonds whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose. Bonds issued by the agency may be general obligations secured by the faith and credit of the agency or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the agency under which the bonds shall be authorized to be issued and subject to any agreements with the holders of outstanding bonds pledging any particular revenues or moneys. The agency may also enter into bank loan agreements, lines of credit and other security agreements and obtain for or on its behalf letters of credit in each case for securing its bonds or to provide direct payment of any costs which the agency is authorized to pay.

2. Bonds shall be authorized by resolution of the agency, be in such denominations and bear such date or dates and mature at such time or times, as such resolution may provide, except that notes and any

renewals thereof shall mature within five years from the date of the original issuance and bonds shall mature within thirty years from the date of original issuance of any such bond or note. The bonds and notes shall be subject to such terms of redemption, bear interest at such rate or rates payable at such times, be in such form, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution may provide. Bonds may be sold at public or private sale for such price or prices as the agency shall determine. Bonds of the agency shall not be sold by the agency at private sale unless such sale and the terms thereof have been approved in writing by the state comptroller, which such sale is not to the comptroller, or by the state director of the budget, where such sale is to the comptroller. The agency may pay all expenses, premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale of bonds.

3. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to:

(a) Pledging all or any part of the revenues, other moneys or property, of the agency to secure the payment of the bonds, including but not limited to any contracts, earnings or proceeds of any grant to the agency received from any private or public source;

(b) The setting aside of reserves and the creation of sinking funds and the regulations and disposition thereof;

(c) Limitations on the purpose to which the proceeds from the sale of the bonds may be applied;

(d) The rates, rents, fees and other charges to be fixed and collected by the agency and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) Limitations on the right of the agency to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;

(f) Limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds, the holders of which must consent thereto and the manner in which such consent may be given;

(h) The creation of special funds into which any revenues or moneys may be deposited;

(i) The terms and provisions of any trust deed or indenture securing the bonds under which the bonds may be issued;

(j) Vesting in a trustee or trustees such properties, rights, powers and duties in trust as the agency may determine which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders pursuant to section two thousand fifty-i of this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of such trustee;

(k) Defining the acts or omission to act which may constitute a default in the obligations and duties of the agency to the bondholders and providing for the rights and remedies of the bondholders in the event of such default including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(1) Limitations on the power of the agency to sell or otherwise dispose of any project or any part thereof;

(m) Limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the agency;

(n) The payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository and for the method of disbursement thereof with such safeguards and restrictions as the agency may determine; and

(o) Any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

4. In addition to the powers herein conferred upon the agency to secure its bonds and the notes, the agency shall have power in connection with the issuance of bonds and notes to enter into such agreements as the agency may deem necessary, convenient or desirable

concerning the use or disposition of its moneys or property including the mortgaging of any such property and the entrusting, pledging or creation of any other security interest in any such moneys or property and the doing of any act, including refraining from doing any act, which the agency would have the right to do in the absence of such agreements. The agency shall have power to enter into amendments of any such agreements within the powers granted to the agency by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of bonds and notes of the agency.

5. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the agency shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or perfected against the agency irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

6. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of and for the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

7. Neither the members of the agency nor any person executing bonds shall be liable personally thereon or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The agency, subject to such agreements with bondholders as then may exist, shall have power out of any moneys available therefor to purchase bonds of the agency, which shall thereupon be cancelled, at a price not

exceeding (a) if the bonds are then redeemable, the redemption price then applicable, plus accrued interest to the next interest payment date, (b) if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date.

§ 2050-i. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to paragraph (j) of subdivision three of section two thousand fifty-h of this title:

1. In the event that the agency shall default in the payment of principal or of interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the agency shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may, and upon written request of the holder of twenty-five per centum in principal amount of such bonds outstanding, shall in his or its own name:

(a) By action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the agency to collect rents, rates and charges adequate to carry out any agreement as to, or pledge of such rents, rates and charges and to require the agency to carry out any other agreements with the holders of such bonds to perform its duties under this title;

(b) Bring an action or proceeding upon such bonds;

(c) By action or proceeding, require the agency to account as if it were the trustee of an express trust for the holders of such bonds;

(d) By action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) Declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in the county.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days notice in writing to the agency.

6. Any such trustee whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project the revenues of which are pledged for the security of the bonds of such issue and such receiver may enter and take possession of such part or parts of the project and subject to any pledge or agreement with holders of such bonds, shall take possession of all moneys and other property derived from such part or parts of the project and proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith that the agency is under obligation to do, and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the agency under the direction of the court. In any suit, action or proceeding by the trustee the fees, counsel fees and expenses of the trustee and of the receiver, if any,

shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

§ 2050-j. State, county and municipalities not liable on agency bonds. Neither the state, the county nor any other municipality or public corporation shall be liable on the bonds of the agency and such bonds shall not be a debt of the state, the county or any other municipality or public corporation and such bonds shall contain on the face thereof, a statement to such effect.

§ 2050-k. Moneys of the agency. All moneys of the agency from whatever source derived shall be paid to the treasurer of the agency and shall be deposited forthwith in interest-bearing accounts in a bank or banks in the state designated by the governing body. The moneys in such accounts shall be paid out on check of the treasurer upon requisition by the governing body or of such other person or persons as the governing body may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States or of the state or of the county or any municipality of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. The agency shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds as to the custody, collection, security, investment and payment of any moneys of the agency or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys may be secured in the same manner as moneys of the agency and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the agency not required for immediate use or disbursement may, at the discretion of the agency, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. Subject to the provisions of any contract with bondholders and with the approval of the comptroller, the agency shall prescribe a system of accounts.

§ 2050-l. Bonds legal investment for fiduciaries. The bonds of the agency are hereby made securities in which all public officials and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or other obligations of the state may properly and legally invest funds including capital in their control or belonging to them. The bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purposes for which the deposit of bonds or other obligations of this state is now or hereafter may be authorized.

§ 2050-m. Agreement with the state. The state does hereby pledge to and agree with the holders of any bonds issued by the agency pursuant to this title that the state will not alter or limit the rights hereby vested in the agency to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the agency shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any agreement made with or for the benefit of the holders of bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of bondholders, until the bonds, together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged; provided, however, that nothing in this section shall limit the ability of the state to enforce environmental and public health laws. The agency is authorized to include this pledge and agreement of the state in any agreement with bondholders.

§ 2050-n. Exemption from taxes, assessments and certain fees. 1. It is hereby determined that the creation of the agency and the carrying out of its corporate purposes is in all respects for the benefit of the people of the county and the state and is a public purpose and the agency shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay any taxes or assessments upon any property owned by it or under its jurisdiction, control or supervision or upon its activities, or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf. The construction, use, occupation or possession of any property owned by the agency or the county, including improvements thereon, by any person or public corporation under a lease, lease and sublease or any other agreement shall not operate to abrogate or limit the foregoing exemption, notwithstanding that the lessee, user, occupant or person in posssession shall claim ownership for federal income tax purposes. The agency shall be deemed a public authority for the purposes of section four hundred twelve of the real property tax law.

2. Any bonds issued pursuant to this title together with the income therefrom as well as the property of the agency shall be exempt from taxes, except for transfer and estate taxes. The state hereby covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the agency pursuant to this title, in consideration of the acceptance of any payment for the bonds, that the bonds of the agency issued pursuant to this title and the income therefrom and all revenues, moneys and other property pledged to secure the payment of such bonds shall at all times be free from taxation, except for transfer and estate taxes.

§ 2050-o. Actions against agency. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the agency for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence or wrongful act of the agency or of any member, officer, agent or employee thereof, unless (a) a notice of claim shall have been made and served upon the agency within the time limit by and in compliance with section fifty-e of the general municipal law, (b) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the agency for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter. Actions to recover damages for personal injury or injury to property caused by the latent effects of exposure to any substance or combination of substances, in any form, upon or within the body or upon or within property shall be governed by section two hundred fourteen-c of the civil practice law and rules.

2. Wherever a notice of claim is served upon the agency, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The agency may require any person, presenting for settlement an account or claim for any cause whatever against the agency to be sworn before a member, counsel or an attorney, officer or employee of the agency designated for such purpose, concerning such account or claim and when so sworn, to answer orally as to any facts relative to such account or claim. The agency shall have power to settle or adjust all claims in favor of or against the agency.

4. The rate of interest to be paid by the agency upon any judgment for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section three-a of the general municipal law.

Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

§ 2050-p. Contracts. All contracts or orders, for work, material or supplies performed or furnished in connection with construction, shall be awarded by the agency pursuant to resolution of the governing body except as hereinafter provided. Such awards, when applicable, shall be made in compliance with the general municipal law. Prior to entering into any contract, the agency shall seek the opinion of the attorney general with respect to conformance of such contract with the anti-trust laws, and of the comptroller with respect to conformance to the general municipal law. The agency may execute any contract within thirty days after such opinions are sought, whether nor not they have been received. In any construction contract, the agency may provide a program for the payment of damages for delays and incentive awards in order to encourage timely project completion. An action, suit or proceeding contesting the validity of a contract awarded pursuant to this section, or the validity of the procedures relating to such award, shall be governed by the provisions of subdivision six of section one hundred twenty-w of the general municipal law and the term "municipality" as used in such subdivision six shall mean the agency.

§ 2050-q. Interest in contracts prohibited. It shall be a misdemeanor for any member of the governing body or any officer, agent, servant or employee of the agency to be in any way or manner interested, directly or indirectly, in the furnishing of work, materials, supplies or labor, or in any contract therefor which the agency is empowered by this title to make.

§ 2050-r. Audit and annual report. In conformity with the provisions of section five of article ten of the state constitution, the accounts of the agency shall be subject to the supervision of the state comptroller. The agency shall annually submit to the governor and state comptroller and to the state legislature a detailed report pursuant to the provisions of section two thousand five hundred of title one of article nine of this chapter, and a copy of such report shall be filed with the chairman of the county legislature. The agency shall comply with the provisions of sections two thousand five hundred one, two thousand five hundred two and two thousand five hundred three of title one of article nine of this chapter.

§ 2050-s. Limited liability. Neither the members of the governing body, nor any municipality, officer or employee acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the properties of the agency or from carrying out any of the powers expressly given in this title; provided, however, that this section shall not be held to apply to any independent contractor.

§ 2050-t. Pledge by county; contracts with municipalities; powers of municipalities. 1. The county is hereby authorized to pledge to and agree with the holders of the bonds that the county will not limit or impair the rights hereby vested in the agency to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the agency shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title and to fulfill the terms of any agreements made with the holders of the bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of the bondholders, until the bonds, together with interest thereon, with interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders are fully met and discharged.

2. The county and one or more municipalities within the county, or the agency and the county, shall have power to contract from time to time

between or among themselves, or among themselves and with the agency, in relation to the collecting, receiving, transporting, storage processing or disposal of solid waste or for the purchase or use of any materials, energy, by-products or residue generated by or resulting from the operation of any solid waste management-resource recovery facility. Any such contract to which the county and any municipality within the county are parties may include provisions stipulating the maximum rates, rentals, fees and other charges to be collected for the use of facilities. Any contract to which the agency and the county are parties may include provisions (a) requiring the periodic delivery to the particular facilities of minimum amounts of solid waste and providing for specified minimum periodic payments whether or not such delivery is made subject to such limitations, exceptions and provisions therein or (b) requiring the county to pay, within appropriations available therefor, such amounts as shall be necessary to assure the continued operation and solvency of the agency, such payments to be determined and paid in such manner and at such times as may be provided in such contract.

3. To further the governmental and public purposes of the agency, including the implementation of any contract or proposed contract contemplated by this title, the county shall have the power to adopt and amend local laws imposing appropriate and reasonable limitations on competition with respect to collecting, receiving, transporting, delivering, storing, processing and disposing of solid waste or the recovery by any means of any material or energy product or resource therefrom, including, local laws requiring that all solid waste generated, originated or brought within their respective boundaries, subject to such exceptions as may be determined to be in the public interest, shall be delivered to a specified solid waste management-resource recovery facility; provided, however, that any such local law enacted by the county shall take precedence over and shall supersede any inconsistent provisions of any local law enacted by a municipality within the county. Any such local law shall be adopted in accordance with the procedure provided by the municipal home rule law, except that no such local law shall be subject to either mandatory or permissive referendum. For purposes of this subdivision, solid waste

shall have the meaning specified in this title, but shall not include any scrap or other material of value separated from the waste stream and held for purposes of materials recycling.

4. The county is hereby authorized to resell or otherwise dispose of all or any part of the materials, energy, by-products or residue purchased from the agency pursuant to subdivision two of this section. Any resale of or other disposition may be made in such manner as the county may deem proper and upon such terms and conditions as may be agreed upon by the parties thereto.

5. The county and all other municipalities within the county shall have power to perform such other acts, to enter into such other contracts, including contracts between or among themselves, execute such instruments and to undertake such future proceedings as shall be determined necessary or desirable to effectuate the purpose of this title, including the making of gifts, grants, loans or contributions to the agency.

6. Except as otherwise provided by section one hundred twenty-w of the general municipal law, any contract entered into by a municipality pursuant to this section may be for such term or duration, not to exceed twenty-five years, as may be agreed upon by the parties thereto, except that any contract relating to or affecting the security of any project financed in whole or in part by the agency may provide that the same shall remain in full force and effect as long as the bonds issued for such project shall remain outstanding or until adequate provision has been made for the payment or satisfaction thereof.

7. Any contract entered into pursuant to this section to which the agency shall be a party may be pledged by the agency as security for any issue of bonds, and may be assigned, in whole or in part, by the agency, to any public corporation or person which shall construct, purchase, lease or otherwise acquire any solid waste management-resource recovery facility, or part thereof, financed in whole or in part by the agency.

8. Any contract, lease or agreement entered into by the agency

pursuant to this title and which provides for the construction of a facility which combusts solid waste, shall provide for the utilization of the best available technology to control the environmental impact of such facility. Such technology may include fabric filtration and dry scrubbers to control particulate and acid gas emissions. Any facility at a minimum shall be constructed and operated in compliance with requirements of the department of environmental conservation. Any such contract, lease or agreement also shall include but not be limited to provisions for:

(a) Monitoring of emissions for toxic air contaminants or surrogates thereof where appropriate to determine permit compliance at least twice during the first year of operation and after any detection of permit violations, and at least annually thereafter; such monitoring to include provisions for use of statistically valid sampling procedures in all monitoring; and

(b) Sampling and testing of ash and dust residues at least semi-annually, pursuant to a method assuring statistical validity, to determine appropriate disposition or disposal based on relative toxicity.

Any such contract, lease or agreement also may include provisions for the payment of up to one dollar and twenty-five cents per ton of solid waste processed at such facility. Such payments shall be apportioned as follows: one dollar or a portion thereof to such town or city in which the facility is located; and twenty-five cents or a portion thereof to such fire district or to such city, for fire protection purposes, in which such facility is located.

§ 2050-u. Solid waste facility reserve fund. The county legislature may establish a special fund, to be known as solid waste facility reserve fund of the county. There shall be credited in such reserve fund all amounts paid to the county and specifically designated by the payor for deposit in such reserve fund, together with such county moneys as may be appropriated thereto from time to time. Moneys in such reserve fund shall be deposited in interest-bearing accounts and may be appropriated only for the purpose of paying amounts due from the county under the terms of any contract entered into pursuant to this title, for which an insufficient or no provision has otherwise been made, except that upon the adoption of a resolution by at least a two-third vote of the voting strength of the county legislature, all or any portion of the moneys in such reserve fund may be transferred to any other reserve fund established by the county pursuant to the general municipal law. To the extent not inconsistent with the provisions of this section, the management of such reserve fund and the investment of moneys therein shall be subject to the provisions of section six-h of the general municipal law.

§ 2050-v. Affirmative action. 1. Any contracts entered into pursuant to this title shall contain the following provisions:

(a) The contractor will not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability, or marital status, and will undertake or continue programs of affirmative action to insure that minority group persons and women are afforded equal employment opportunity without discrimination. Such action shall be taken with reference, but not be limited to recruitment, employment, job assignment, promotion, upgrading, demotion, transfer, layoff, termination, rates of pay or other forms of compensation, and selections for training or retraining, including apprenticeship and on-the-job training.

(b) At the request of the agency, the contractor shall request each employment agency, labor union, or authorized representative of workers with which he has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, labor union or representative shall not discriminate because of race, creed, color, national origin, sex, age, disability or marital status and that such union or representative will cooperate in the implementation of the contractor's obligations hereunder.

(c) The contractor will state, in all solicitations or advertisements for employees placed by or on behalf of the contractor, in performance of the contract that all qualified applicants will be afforded equal employment opportunity without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The contractor will include the provisions of paragraphs (a) through (c) of this subdivision in every subcontract or purchase order in such a manner that such provisions will be binding upon each subcontractor or vendor as to its working connection with a contract.

2. The agency shall establish procedures and guidelines to ensure that contractors and subcontractors undertake programs of affirmative action as required by this section. Such procedures may require, after notice in a bid solicitation, the submission of an affirmative action program prior to the award of any contract, or at any time thereafter, and may require the submission of compliance reports relating to the operation and implementation of any affirmative action program adopted hereunder. Such procedures and guidelines shall be consistent with the guidelines promulgated by the office of federal contract compliance programs of the United States department of labor pursuant to presidential executive order eleven thousand two hundred forty-six, as amended, and any state statutory or regulatory requirements. The agency shall, in the promulgation of procedures and guidelines pursuant to this section, cooperate with any federal, state or local agency established for the purpose of implementing affirmative action compliance programs.

3. The agency in awarding contracts for design, construction, services or materials, shall seek meaningful participation in the performance of contracts by minority business enterprises and shall establish measures and procedures to identify those contracts and items of work for which minority business enterprises may best bid to actively and affirmatively promote and assist their participation so as to facilitate the award of a fair share of contracts to such enterprises. For purposes hereof, "minority business enterprise" shall mean any business enterprise which is at least fifty-one per centum owned by, or in the case of a publicly owned business, at least fifty-one per centum of the stock of which is owned by citizens or permanent resident noncitizens who are Black, Hispanic, Asian, American Indian or women, and such ownership interest is real, substantial and continuing. The provisions of this subdivision shall not be construed to limit the ability of any minority business enterprise to bid on any contract.

4. In the implementation of subdivisions one and two of this section, the agency shall consider compliance by any contractor with the requirements of any federal, state or local law concerning equal employment opportunity, which may effectuate the requirements of this section. If the agency determines that by virtue of the imposition of the requirements of any such law, in respect to contracts affected by this section, that the provisions thereof duplicate or conflict with such law, the agency shall waive the applicability of this section to the extent of such duplication or conflict.

5. In order to implement the requirements and objectives of this section, the agency shall be responsible for monitoring the contractors' compliance with the provisions hereof, for advising contractors on the availability of competing qualified minority business enterprises to perform contracts proposed to be awarded and for making recommendations to contractors to improve the access of minority business enterprises to such contracts.

6. Nothing in this section shall be construed to impair the ability of the agency to enter into contracts in accordance with the provisions of the general municipal law.

§ 2050-w. Transfer of environmental applications, proceedings, approvals and permits. 1. Any application in relation to the purposes of or contemplated by this title heretofore filed, or any proceeding heretofore commenced, by the county with the department of environmental conservation, the department of transportation or any other state agency or instrumentality or with the United States environmental protection agency or any other federal agency or instrumentality shall inure to and for the benefit of the agency to the same extent and in the same manner as if the agency had been a party to such application or proceeding from its inception, and the agency shall be deemed a party thereto, to the extent not prohibited by any federal law. Any license, approval, permit or decision heretofore or hereafter issued or granted pursuant to or as a result of any such application or proceeding shall inure to the benefit of and be binding upon the agency and shall be assigned and transferred by the county to the agency, unless such assignment and transfer is prohibited by federal law.

2. All such applications, proceedings, licenses, approvals, permits and decisions shall further inure to and for the benefit of and be binding upon any person leasing, acquiring, constructing, maintaining, using or occupying any facility financed in whole or in part by the agency.

§ 2050-x. Preference for actions or proceedings against agency. Any action or proceeding to which the agency or the people of the state may be parties, in which any question arises as to the validity of this title, shall be preferred over all other civil causes of action or cases, except election causes of action or cases, in all courts of the state and shall be heard and determined in preference to all other civil business pending therein, except election cases, irrespective of position on the calendar. The same preference shall be granted upon application of the agency or its counsel in any action or proceeding questioning the validity of this title in which the agency may be allowed to intervene. The venue of any such action or proceeding shall be laid in the supreme court of the county.

§ 2050-y. Separability. If any section, clause or provision in this title shall be held by a court of competent jurisdiction to be unconstitutional or ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective, and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 2050-z. Effect of inconsistent provisions. In so far as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of the county charter or any local law, ordinance or resolution of the county or any other municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the agency otherwise set forth in this title. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation and the department of health.

TITLE 13-H

EASTERN RENSSELAER COUNTY SOLID WASTE MANAGEMENT AUTHORITY

§ 2050-aa. Short title. This title shall be known and may be cited as the "Eastern Rensselaer County solid waste management authority act".

§ 2050-bb. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. "Area of operation" means area within the boundaries of those towns included in subdivision eighteen of this section which elect to participate in the authority pursuant to subdivision four of section two thousand fifty-cc of this title.

2. "Authority" means the public benefit corporation created by section two thousand fifty-cc of this title, known as the Eastern Rensselaer county solid waste management authority.

3. "Bonds" means the bonds, notes or other evidences of indebtedness issued by the authority pursuant to this title and the provisions of this title relating to bonds and bondholders which shall apply with equal force and effect to notes and noteholders, respectively, unless the context otherwise clearly requires.

4. "Construction" means the acquisition, erection, building, alteration, repair, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of a solid waste management-resource recovery facility; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures and other actions incidental thereto.

5. "Cost" as applied to any project, means and includes the cost of

construction, the cost of the acquisition of all property, both real and personal and improved and unimproved, the cost of demolishing, removing or relocating any buildings or structures on lands so acquired, including the cost of relocating tenants or other occupants of the buildings or structures on such land and the cost of acquiring any lands to which such building or structures may be moved or relocated, the cost of all systems, facilities, machinery, apparatus and equipment, financing charges, interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultants' and legal services, the cost of lease guarantee, credit enhancement or bond insurance, other expenses necessary or incidental to the construction of such project and the financing of the construction thereof, including the amount authorized in the resolution of the authority providing for the issuance of bonds to be paid into any reserve or other special fund from the proceeds of such bonds and the financing of the placing of any project in operation, including reimbursement to either of the towns, any municipality, state agency, the state, the United States government or any other person for expenditures that would be costs of the project hereunder had they been made directly by the authority.

6. "Governing body" means the members of the authority constituting and acting as the governing body of the authority.

7. "Legislative body" or "legislative bodies" means either or all of the legislatures of those towns included in subdivision eighteen of this section.

8. "Municipality" means any county, city, town, village, improvement district, or area established under the town law, refuse district established under the county law, district or area having powers similar to a refuse district created under any general or special law, or public corporation of the state, or any combination thereof.

9. "Person" means any natural person, partnership, association, joint venture or corporation, exclusive of a public corporation.

10. "Project" means any solid waste management-resource recovery facility, and any appurtenances thereto necessary or desirable to promote the efficiency or effectiveness of any facility, the planning, development, financing, construction, operation, or maintenance of which is authorized to be undertaken in whole or in part by the authority pursuant to this title.

11. "Real property" means lands, structures, franchises and interests in land, waters, lands underwater, riparian rights and air rights and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interests including, but not limited to, easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgment, mortgages or otherwise and all claims for damage for such real property.

12. "Resource recovery" means the separation, extraction and recovery of usable materials, energy or heat from solid waste through source separation, recycling centers or other programs, projects or facilities.

13. "Revenues" means all rates, fees, rents, charges and other income derived by the authority from its operation.

14. "Solid waste" means all putrescible and non-putrescible solid wastes, including, but not limited to, materials or substances discarded or rejected as being spent, useless, worthless, or in excess to the owners at the time of such discard or rejection, or are being accumulated, stored, or physically, chemically or biologically treated prior to being discarded or rejected, having served their intended use, or as a manufacturing by-product, including, but not limited to, garbage, refuse, industrial, commercial and agricultural waste sludges from air or water pollution control facilities or water supply treatment facilities, rubbish, ashes, contained gaseous material, incinerator residue, demolition and construction debris and offal, but not including sewage and other highly diluted water-carried materials or substances

and those in gaseous form, special nuclear or by-product material within the meaning of the Atomic Energy Act of 1954, as amended, or waste which appears on the list or satisfies the characteristics of hazardous waste promulgated by the commissioner of environmental conservation pursuant to section 27-0903 of the environmental conservation law.

15. "Solid waste management-resource recovery facility" or "facility" means any facility, plant, works, system, building, structure, improvement, machinery, equipment, fixture or other real or personal property which is to be used, occupied or employed for or is incidental to the collecting, receiving, transporting, storage, processing, or disposal of solid waste or the recovery by any means of any material or energy product or resource therefrom including, but not limited to, recycling centers, transfer stations, baling facilities, rail haul or maritime facilities, collection vehicles, processing systems, resource recovery facilities, steam and electric generating and transmission facilities, including auxiliary facilities to supplement or temporarily replace such generating facilities, steam distribution and related plants and facilities, sanitary landfills, leachate treatment facilities, plants and facilities for compacting, composting or pyrolization of solid wastes, secure land burial facilities, landspreading facilities, surface impoundments and waste oil storage, reprocessing and recycling facilities, incinerators, co-composting recycling facilities and other solid waste disposal, reduction or conversion facilities and resource recovery equipment, source separation equipment and disposal equipment as defined in subdivisions four and five of section 51-0903 of the environmental conservation law. Any such facility producing either electricity or shaft horsepower and useful thermal energy shall constitute a co-generation facility as designated in subdivision two-a of section two of the public service law.

16. "Source separation" means the segregation of recyclable materials from the solid waste stream at the point of generation for separate collection, sale or other disposition.

17. "State" means the state of New York.

18. "Towns" means the towns of Stephentown, Berlin, Petersburg, Grafton, Hoosick, Pittstown, Poestenkill, Schaghticoke, Sand Lake, Nassau, Schodack, Brunswick, village of Schaghticoke, village of Castleton-on-Hudson, village of Nassau, village of Valley Falls, and the village of Hoosick jointly or individually as shall be determined by the usage of such terms in this title, or such of them that satisfy the requirements of subdivision four of section two thousand fifty-cc of this title by filing the certificate required by that section.

§ 2050-cc. Eastern Rensselaer county solid waste management authority. 1. A corporation known as the Eastern Rensselaer county solid waste management authority is hereby created for the public purposes and charged with the duties and having the powers provided in this title. The authority shall be a body corporate and politic constituting a public benefit corporation. It shall consist of a maximum of seventeen members and a minimum of six members, one member appointed by each legislative body of the towns constituting the authority. Each member shall be appointed to serve a five year term. Subsequent appointment of members by each legislative body shall be made for a term of five years ending in each case on December thirty-first of the last year of such term. All members shall continue to hold office until their successors are appointed and qualify. Vacancies shall be filled by the affected legislative body in the manner provided for in the original appointment. Vacancies, occurring otherwise than by expiration of term of office, shall be filled by the affected legislative body for the unexpired terms. Members may be removed from office by the legislative body of the town which appointed such members for inefficiency, neglect of duty or misconduct in office; provided, however, that such member shall be given a copy of the charges against him and an opportunity of being heard in person, or by counsel, in his defense upon not less than ten days notice. The members of the authority shall be reimbursed for all their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the authority shall be vested in and be exercised by the governing body at a meeting duly called and held and a majority of the members shall constitute a quorum. No action shall be taken except pursuant to the favorable vote of not less than a majority of the members which the authority would have would there be no vacancies and were none of the members disqualified from acting. The governing body may delegate to one or more of its members, officers, agents or employees such powers and duties as it may deem proper.

2. The officers of the authority shall consist of a chairman, a vice-chairman and a treasurer, who shall be members of the authority, and a secretary, who need not be a member of the authority. Such officers shall be appointed by the governing body and shall serve at the pleasure of the governing body. In addition to the secretary, the governing body may appoint and at pleasure remove an attorney, engineer and executive director which positions shall be in the exempt class of civil service and such additional officers and employees as they may determine necessary for the performance of the powers and duties of the authority, and fix and determine their qualifications, duties and compensation, subject to the provisions of the civil service law. The governing body may also, from time to time, contract for expert professional services. The treasurer shall execute a bond, conditioned upon the faithful performance of the duties of his office, the amount and sufficiency of which shall be approved by the governing body and the premium therefor shall be paid by the authority.

3. Notwithstanding any inconsistent provisions of any general, special or local law, ordinance, resolution or charter, no officer, member or employee of the state, Rensselaer county, the towns, any other municipality, or any public benefit corporation, shall forfeit his or her office of employment by reason of his or her acceptance of appointment as a member, officer, agent or employee of the authority, nor shall service as such member, officer, agent or employee be deemed incompatible or in conflict with such office, membership or employment.

4. The chairman of the town legislature of each of the towns shall file on or before December thirty-first, nineteen hundred ninety, in the office of the secretary of state, a certificate approved by the legislature setting forth: (a) the name of the authority; (b) the name of the member appointed by such town legislature; (c) a verified copy of

a duly adopted local law or ordinance as prescribed in section one hundred twenty-aa of the general municipal law; and (d) the effective date of this title. The authority shall be perpetual in duration, except that if any town shall not file such certificate, such town shall not be included within the definition of "towns" as such term is defined in subdivision eighteen of section two thousand fifty-bb of this title, and further, if such certificate is not filed by six or more towns with the secretary of state on or before such date then the corporate existence of the authority shall thereupon terminate and it shall thereupon be deemed to be and shall be dissolved; provided, however, that no such termination shall take effect so long as the authority shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof. Prior to termination of the existence of the authority, all of the rights and properties of the authority then remaining shall pass to and vest in the towns in such manner as shall be determined by the towns.

5. It is hereby determined and declared, that the authority and the carrying out of its powers and duties are in all respects for the benefit of the people of the towns and the state for the improvement of their health, welfare and prosperity and that such purposes are public purposes and that the authority is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

§ 2050-dd. Advances on behalf of authority; transfer of property to authority; acquisition of property for authority. 1. In addition to any powers granted to it by law, the legislative body of the towns may, from time to time, appropriate by resolution sums of money to defray project costs or any other costs and expenses of the authority. Subject to the rights of bondholders, each such legislative body may determine if the moneys so appropriated shall be subject to repayment by the authority to any such town and, in such event, the manner and time or times for such repayment. The towns or any other municipality within the area of operation, may give, grant, sell, convey, loan, license the use of or lease to the authority any property or facility which is useful in connection with the exercise by the authority of its powers under this title. Any such gift, grant, sale, conveyance, loan, license or lease shall be for such consideration, be upon such terms and conditions, subject to the rights of the holders of any bonds, as the authority and such town or other municipality may agree. Any such gifts, grant, sale, conveyance, loan or license shall not be subject to referendum, permissive or mandatory.

2. The towns may acquire by purchase or condemnation real property in the name of such towns or town for any corporate purpose of the authority.

§ 2050-ee. Powers of the authority. The authority shall have the power:

1. To sue and be sued.

2. To have a seal and alter the same.

3. To acquire in the name of the authority, hold, sell, lease, mortgage or otherwise dispose of property, real, personal or mixed, or any interest therein within the area of operation, without limitation, for its corporate purposes and to take by eminent domain, in the name of the authority, pursuant to the eminent domain procedure law, any real property required to carry out its corporate purposes; provided, however, that in the acquisition of any real property designated as the site for any facility, the authority shall give consideration to the present and any proposed land use character of the area in which the site is to be located and zoning laws or regulations, if any, otherwise generally applicable to such area. The authority shall not determine to construct a facility outside of its area of operation without approval of the solid waste management planning unit (as that term is defined in section 27-0107 of the environmental conservation law) responsible for the municipality in which such facility is to be constructed and without the approval of the chief executive officer and local legislative body of such municipality. The authority shall not site a solid waste

management-resource recovery facility within an agricultural district established pursuant to article twenty-five-AA of the agriculture and markets law.

4. To collect, receive, extract, transport, process, dispose of, sell, store, convey, recycle, and deal with, in any lawful manner and way solid waste and any products or by-products thereof now or hereafter developed or discovered, including any energy generated by the operation of any solid waste management-resource recovery facility. Any such disposal or sale may be effected on such terms and in such manner as the authority may deem proper.

5. To plan, develop and construct projects and to pay the cost thereof and to have the right to contract in relation thereto with the towns, or other municipalities or persons within or without the area of operation and to own and operate, maintain, repair, improve, reconstruct, renovate, rehabilitate, replace, increase, enlarge, and extend, subject to the provisions of this title, any of its projects acquired or constructed under this title, and to enter into contracts for any and all such purposes and for the management and operation of a project, and to sell, lease, mortgage or otherwise dispose of any project or part thereof to any person or public corporation, municipality or the state, subject to such conditions and limitations as the authority may determine to be in the public interest.

6. To assist in the planning, development and construction of and the financing of the cost of any project to be located in the area of operation, whether or not such project is to be owned or operated by the authority.

7. To collect or receive from the United States, the state, any county within the state, the towns, any other municipality or public corporation or person, solid waste for the purpose of treatment or disposal thereof, with the right of the authority to sell and dispose of any products or by-products (including energy) of such process of treatment or disposal, as the authority may deem proper.

8. To contract with the towns, or other municipalities, state agencies, public corporations or persons within or without the area of operation, for the purpose of collecting, receiving, treating and disposing of solid waste, including, without limitation, to contract with persons for the delivery of all solid waste generated within a stated area to a specific solid waste management-resource recovery facility.

9. To make by-laws for the management and regulation of its affairs and, subject to agreements with bondholders, for the regulation of the use of any project or other property of the authority, which by-laws and all amendments thereto, duly certified by the secretary of the authority, shall be filed in the office of the authority and in the office of the clerk of each of the legislative bodies of the towns, and to provide for the enforcement of such by-laws by legal or equitable proceedings which are or may be provided or authorized by law. In addition, the legislative bodies shall have power to prescribe that violations of specific by-laws of the authority, including, without limitation, any failure to comply with any by-law requiring the payment of any fee or other charge by any person in connection with the delivery of solid waste to any facility or any other use of any facility by such person, shall constitute offenses or infractions and provide for the punishment of violations thereof by civil penalty.

10. With the consent of the appropriate legislative body of any other municipality, to use officers or employees of such town or municipality and to pay a proper portion of compensation or costs for the services for such officers or employees.

11. To make contracts and to execute all necessary or convenient instruments, including evidences of indebtedness, negotiable or non-negotiable.

12. To enter on any lands, waterways or premises within the area of operation for the purpose of making surveys, soundings, and examinations, any liability for which shall not exceed actual damages.

13. To borrow money and to issue bonds for any of its corporate purposes, to secure the same with its revenues or other funds or refund the same, and to provide for the rights of the holders thereof.

14. Subject to any limitations imposed by any contract pursuant to subdivision two of section two thousand fifty-tt of this title, to determine classifications of users, to fix and collect rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, or any commodities furnished by, the authority, which rates, rentals, fees and other charges may be different for each classification of user and may reflect the source and composition of solid waste, and to contract with the towns or any other municipality or person in respect thereto, so as to provide revenues sufficient at all times to pay, as the same shall become due, the principal and interest on the bonds of the authority, together with the maintenance of proper reserves therefor, in addition to paying, as the same shall become due, the expenses of operating and maintaining the properties of the authority, together with proper reserves for debt service, depreciation, maintenance and contingencies and all other obligations and indebtedness of the authority. No such rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, the authority shall be established, fixed or revised unless the authority shall have held a public hearing at which the users of the facilities of, or services rendered by, the authority together with the owners of property served or to be served and others interested have had the opportunity to be heard concerning the same. Notice of such public hearing shall be published by the authority at least ten days before the date set therefor in at least one newspaper having a general circulation in each of the towns. Such notice shall set forth the date, time and place of such hearing and shall include a brief description of the matters to be considered at such hearing. A copy of the notice shall be filed in the office of the clerk of each of the towns and shall be available for inspection by the public. At any such hearing, any person shall have an opportunity to be heard concerning the matters under consideration. Any decision of the authority on matters considered at any such public hearing shall be in writing and shall be made available to any such person in the office of the authority during regular office hours. All

rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, the authority shall be a lien upon the real property upon which, or in connection with which, services were provided. Any such lien shall take precedence over all other liens or encumbrances, except taxes or assessments. The treasurer of the authority shall prepare and transmit to the respective legislative body of each town, on or before the first day of December in each year, a list of those properties within each respective town for which such services were provided and which the payment of rates, rentals, fees and other charges are in arrears for a period of thirty days or more after the last day fixed for payment of such rates, rentals, fees and other charges without penalty. The list shall contain a brief description of the properties for which such services were provided, the names of the persons or corporations liable to pay for the same, and the amount chargeable to each, including penalties and interests computed to December thirty-first of that year. Each governing body shall levy such sums against the properties liable and shall state the amount thereof in a separate column in the annual tax rolls of the various municipalities under the heading "solid waste disposal charge". Such amounts, when collected by the several municipal collectors or receivers of taxes, shall be paid over to each respective town treasurer, who immediately shall pay the same over to the treasurer of the authority. All of the provisions of the tax laws of the state covering enforcement and collection of unpaid taxes or assessments for special improvements not inconsistent herewith shall apply to the collection of such unpaid rates, rentals, fees and other charges.

15. To accept gifts, grants, loans or contributions from the United States, the state or any authority or instrumentality of either of them, or any municipality or from any person, by bequest or otherwise, and to expend the proceeds for any corporate purposes of the authority.

16. To enter into agreements, in its discretion, to pay annual sums in lieu of taxes to the towns or any other municipality, political subdivision or taxing district of the state in respect to any real property which is owned by the authority and located in such towns, municipality, political subdivision or taxing district.

17. To covenant and consent that the interest on any of its bonds or notes issued pursuant to this title shall be includible, under the United States Internal Revenue Code of 1986, or any subsequent corresponding internal revenue law of the United States, in gross income of the holders of the bonds or notes to the same extent and in the same manner that the interest on bills, bonds, notes or other obligations of the United States is includible in the gross income of the holders thereof under said Internal Revenue Code or any such subsequent law.

18. To do all things necessary or convenient to carry out the power expressly given in this title.

§ 2050-ff. Governmental capacity of the authority and municipalities. The towns, other municipalities within the area of operation and the authority, in carrying out their respective powers and duties under this title, shall be deemed to be acting in a governmental capacity. The construction, operation and maintenance of any project financed in whole or in part by the authority shall be deemed to be the performance of an essential governmental function by the authority acting in its governmental capacity, whether such project shall be owned or operated by the authority or by any person or other public corporation.

§ 2050-gg. Transfer of officers and employees. In accordance with section seventy of the civil service law, any officer or employee of a participating municipality under civil service who is selected by the authority may, with the consent of the chief elected official of such municipality, be transferred to the authority and shall be eligible for such transfer and appointment, without examination, to applicable offices, positions and employment under the authority. The salary or compensation of any such officer or employee, after such transfer, shall be paid by the authority. Any such officers or employees so transferred to the authority pursuant to this section who are members of or benefit under any existing pension or retirement fund or system shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law but, during the period of their employment by the authority, all contributions to such fund or system shall be paid by the authority. All such officers or employees so transferred to the authority who have been appointed to positions under the rules and classifications of the personnel officer of the applicable participating municipality shall have the same status with respect thereto after transfer to the authority as they had under their original appointment.

§ 2050-hh. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue bonds in such principal amounts as it may determine to be necessary to pay the cost of any project or for any other corporate purpose, including the establishments of reserves to secure the bonds, the payment of principal of, premium, if any, and interest on the bonds and the payment of incidental expenses in connection therewith. The authority shall have power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee of any bonds. The aggregate principal amount of such bonds, notes or other obligations shall not exceed fifty million dollars ($50,000,000), excluding bonds, notes or other obligations issued to refund or otherwise repay bonds, notes or other obligations theretofore issued for such purposes; provided, however, that upon any such refunding or repayment the total aggregate principal amount of outstanding bonds, notes or other obligations may be greater than fifty million dollars ($50,000,000) only if the present value of the aggregate debt service of the refunding or repayment bonds, notes or other obligations to be issued shall not exceed the present value of the aggregate debt service of the bonds, notes or other obligations so to be refunded or repaid. For purposes hereof, the present values of the aggregate debt service of the refunding or repayment bonds, notes or other obligations and of the aggregate debt service of the bonds, notes or other obligations so refunded or repaid, shall be calculated by utilizing the effective interest rate of the refunding or repayment bonds, notes or other obligations, which shall be that rate arrived at by doubling the semi-annual interest rate (compounded semi-annually) necessary to discount the debt service payments on the refunding or repayment bonds, notes or other obligations from the payment dates thereof to the date of issue of the refunding or repayment bonds, notes or other obligations and to the price bid including estimated accrued interest or proceeds received by the authority including estimated accrued interest from the sale thereof. The authority shall have power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee of any bonds. The authority shall have power from time to time to refund any bonds by the issuance of new bonds whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose. Bonds issued by the authority may be general obligations secured by the faith and credit of the authority or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the authority under which the bonds shall be authorized to be issued, subject to any agreements with the holders of outstanding bonds pledging any particular property, revenues or moneys. The authority may also enter into bank loan agreements, lines of credit and other security agreements and obtain for or on its behalf letters of credit in each case for securing its bonds or to provide direct payment of any costs which the authority is authorized to pay.

2. Bonds shall be authorized by resolution of the authority, be in such denominations and bear such date or dates and mature at such time or times, as such resolution may provide, provided that bonds and renewals thereof shall mature within thirty years from the date of original issuance of any such bonds. Obligations with a maturity of five years or less from the date of their original issuance may be designated as notes.

Bonds and notes shall be subject to such terms of redemption, bear interest at such rate or rates, be payable at such times, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution may provide.

Notwithstanding any other provision of law, the bonds of the authority issued pursuant to this section shall be sold to the bidder offering the lowest true interest cost, taking into consideration any premium or discount not less than four nor more than fifteen days, Sundays excepted, after a notice of such sale has been published at least once in a newspaper of general circulation in the area served by the authority, which shall state the terms of the sale. The terms of the sale may not change unless notice of such change is published in such newspaper at least one day prior to the date of the sale as set forth in the original notice of sale. Advertisements shall contain a provision to the effect that the authority, in its discretion, may reject any or all bids made in pursuance of such advertisements, and in the event of such rejection, the authority is authorized to negotiate a private or public sale or readvertise for bids in the form and manner above described as many times as, in its judgment, may be necessary to effect a satisfactory sale.

Notwithstanding the provisions of the preceding paragraph, whenever in the judgment of the authority the interests of the authority will be served thereby, the members of the authority, on the written recommendation of the executive director, may authorize the sale of such bonds at private or public sale on a negotiated basis or on either a competitive or negotiated basis. The authority shall set guidelines governing the terms and conditions of any such private or public sales.

The private or public bond sale guidelines set by the authority shall include, but not be limited to a requirement that where the interests of the state will be served by a private or public sale of bonds, the authority shall select underwriters for private or public bond sales conducted pursuant to a request for proposal process undertaken at least once annually and consideration of proposals from qualified underwriters taking into account, among other things, qualifications of underwriters as to experience, their ability to structure and sell authority bond issues, anticipated costs to the authority, the prior experience of the authority with the firm, if any, the capitalization of such firms, participation of qualified minority and women-owned business enterprise firms in such private or public sales of bonds of the authority and the experience and ability of firms under consideration to work with minority and women-owned business enterprises so as to promote and assist participation by such enterprises.

The authority shall have the power from time to time to amend such private bond sale guidelines in accordance with the provisions of this subdivision.

No private or public bond sale on a negotiated basis shall be conducted by the authority without prior approval of the comptroller.

The authority shall annually prepare and approve a bond sale report which shall include the private or public bond sale guidelines as specified in this subdivision, amendments to such guidelines since the last private or public bond sale report, an explanation of the bond sale guidelines and amendments, and the results of any sale of bonds conducted during the fiscal year. Such bond sale report may be a part of any other annual report that the authority is required to make.

The authority shall annually submit its bond sale report to the comptroller and copies thereof to the senate finance committee and the assembly ways and means committee.

The authority shall make available to the public copies of its bond sale report upon reasonable request therefor.

Nothing contained in this subdivision shall be deemed to alter, affect the validity of, modify the terms of or impair any contract or agreement made or entered into in violation of, or without compliance with, the provisions of this subdivision.

3. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to:

(a) pledging all or any part of the revenues, other moneys or property of the authority to secure the payment of the bonds, or of any costs of issuance thereof, including but not limited to any contracts, earnings or proceeds of any grant to the authority received from any private or public source subject to such agreements as they may exist;

(b) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(c) limitations on the purpose to which the proceeds from the sale of bonds may be applied;

(d) the rates, rents, fees and other charges to be fixed and collected by the authority and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) limitations on the right of the authority to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;

(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) the procedure, if any, by which the terms of any contracts with bondholders may be amended or abrogated, the amount of bonds, the holders of which must consent thereto, and the manner in which such consent may be given;

(h) the creation of special funds into which any revenues or moneys may be deposited;

(i) the terms and provisions of any trust, mortgage, deed or indenture securing the bonds under which the bonds may be issued;

(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustees appointed by the bondholders pursuant to section twenty-seven hundred fifty-eight of this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of such trustee;

(k) defining the acts or omissions to act which may constitute a default in the obligations and duties of the authority to the bondholders and providing for the rights and remedies of the bondholders in the event of such default, including as a matter of right, the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) limitations on the power of the authority to sell or otherwise dispose of any project or any part thereof;

(m) limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the authority;

(n) the payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine; and

(o) any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

4. In addition to the powers herein conferred upon the authority to secure its bonds, the authority shall have power in connection with the issuance of bonds to enter into such agreements as the authority may deem necessary, convenient or desirable concerning the use or disposition of its revenues or other moneys or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, moneys or property and the doing of any act, including refraining from doing any act which the authority would have the right to do in the absence of such agreements. The authority shall have power to enter into amendments of any such agreements within the powers granted to the authority by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of bonds of the authority.

5. Any provisions of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the authority shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims

of any kind in tort, contract or otherwise against the authority irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created, nor any financing statement, need be recorded or filed.

6. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of and for the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

7. Neither the members of the authority nor any person executing bonds shall be liable personally thereon or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The authority, subject to such agreements with bondholders as then may exist, shall have power, out of any moneys available therefor, to purchase bonds of the authority, which shall thereupon be cancelled, at a price not exceeding (i) if the bonds are then redeemable, the redemption price then applicable, plus accrued interest to the next interest payment date or, (ii) if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date.

§ 2050-ii. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to subdivision three of section two thousand fifty-hh of this title:

1. In the event that the authority shall default in the payment of principal or of interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in the aggregate

principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the town in which the principal office of the authority is located and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may, and upon written request of the holder of twenty-five per centum in principal amount of such bonds outstanding, shall in his or its own name:

(a) By action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the authority to collect rents, rates and charges adequate to carry out any agreement as to, or pledge of, such rents, rates and charges and to require the authority to carry out any other agreements with the holders of such bonds to perform its duties under this title;

(b) Bring an action or proceeding upon such bonds;

(c) By action or proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) By action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) Declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in the county where the principal office of the authority is located.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days notice in writing to the authority.

6. Any such trustee whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project, the revenues of which are pledged for the security of the bonds of such issue, and such receiver may enter and take possession of such part or parts of the project and, subject to any pledge or agreement with holders of such bonds, shall take possession of all moneys and other property derived from such part or parts of the project and proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith that the authority is under obligation to do, and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom, subject to any pledge thereof or agreement with bondholders relating thereto, and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee, the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

§ 2050-jj. State, towns and municipalities not liable on authority bonds. Neither the state, the towns nor any other municipality or public corporation shall be liable on the bonds of the authority and such bonds shall not be a debt of the state, the towns or any other municipality or public corporation, and such bond shall contain on the face thereof, a statement to such effect.

§ 2050-kk. Moneys of the authority. All moneys of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in interest bearing accounts in a bank or banks in the state designated by the governing body. The moneys in such accounts shall be paid out on check of the treasurer upon requisition by the governing body or of such other person or persons as the governing body may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States, the state or of the towns of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds as to the custody, collection, security, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and carry out any such contract. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys may be secured in the same manner as moneys of the authority and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the authority not required for immediate use or disbursement may, at the discretion of the authority, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. Subject to the provisions of any contract with bondholders and with the approval of the comptroller, the authority shall prescribe a system of accounts.

§ 2050-ll. Bonds legal investment for fiduciaries. The bonds of the authority are hereby made securities in which all public officials and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or other obligations of the state may properly and legally invest funds including capital in their control or belonging to them. The bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purposes for which the deposit of bonds or other

obligations of this state is now or hereafter may be authorized.

§ 2050-mm. Agreement with the state. The state does hereby pledge to and agree with the holders of any bonds issued by the authority pursuant to this title that the state will not alter or limit the rights hereby vested in the authority to purchase, construct, own and operate, maintain, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any agreement made with or for the benefit of the holders of bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of bondholders, until the bonds, together with the interest thereon, including interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged; provided, however, that this section shall not be construed to limit in any manner the ability of the state to alter, amend, or enforce laws or regulations to protect public health and the environment. The authority is authorized to include this pledge and agreement of the state in any agreement with bondholders.

§ 2050-nn. Exemption from taxes, assessments and certain fees. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the towns and the state and is a public purpose and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay any taxes or assessments upon any property owned by it or under its jurisdiction, control or supervision or upon its activities, income and operations, or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf provided, however, that the authority shall annually pay a sum in lieu of taxes to each of the municipalities in which any real property owned by or under its jurisdiction, control or supervision of the authority are located in an amount equal to the taxes and assessments which would have been levied upon such real property in an unimproved state had such real property been owned by a person whose real property is subject to taxation. The construction, use, occupation or possession of any property owned by the authority or the towns, including improvements thereon, by any person or public corporation under a lease, lease and sublease or any other agreement shall not operate to abrogate or limit the foregoing exemption, notwithstanding that the lessee, user, occupant or person in possession shall claim ownership for federal income tax purposes. Mortgages made or financed, directly or indirectly, by the authority shall be exempt from the mortgage recording taxes imposed by article eleven of the tax law.

2. Any bonds issued pursuant to this title together with the income therefrom as well as the property of the authority shall be exempt from taxes, except for transfer, and estate and gift taxes. The state hereby covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the authority pursuant to this title, in consideration of the acceptance of any payment for the bonds, that the bonds of the authority issued pursuant to this title and the income therefrom and all revenues, moneys, and other property pledged to secure the payment of such bonds shall at all times be free from taxation, except for transfer, and estate and gift taxes.

§ 2050-oo. Actions against authority. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the authority for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence or wrongful act of the authority or of any member, officer, agent or employee thereof, unless (a) a notice of claim shall have been made and served upon the authority within the time limit by and in compliance with section fifty-e of the general municipal law, (b) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter. Actions to recover damages for personal injury or injury to property caused by the latent effects of exposure to any substance or combination of substances, in any form, upon or within the body, or upon or within property, shall be governed by section two hundred fourteen-c of the civil practice law and rules.

2. Wherever a notice of claim is served upon the authority, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority may require any person, presenting for settlement an account or claim for any cause whatever against the authority to be sworn before a member, counsel or an attorney, officer or employee of the authority designated for such purpose, concerning such account or claim and when so sworn, to answer orally as to any facts relative to such account or claim. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. The rate of interest to be paid by the authority upon any judgment for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section three-a of the general municipal law. Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

§ 2050-pp. Contracts. All contracts or orders, for work, material and supplies performed or furnished in connection with construction, shall be awarded, when applicable, pursuant to paragraph (e) of subdivision four of section one hundred twenty-w of the general municipal law and such award shall be made by the authority pursuant to resolution of the governing body except as hereinafter provided. In any construction contract, the authority may provide a program for the payment of damages for delays and incentive awards in order to encourage timely project completion. An action, suit or proceeding contesting the validity of a contract awarded pursuant to this section, or the validity of the procedures relating to such award, shall be governed by the provisions of subdivision six of section one hundred twenty-w of the general municipal law and the term "municipality" as used in such subdivision six shall mean the authority. Every contract when made and entered into as herein provided for shall be executed in duplicate, one copy of which shall be held by the authority and one copy of which shall be delivered to the contractor. The authority may adopt, utilize, ratify and confirm any request for proposals, invitation for sealed bids, plans, specifications and notices heretofore or hereafter published by either of the towns with respect to any proposed project, and the authority may adopt, utilize, accept and confirm any bids or proposals submitted to either of the towns and heretofore and hereafter received and publicly opened by such town. The provisions of this section shall supersede any inconsistent provisions of the general municipal law, any other general, special or local law, or the charter of either town.

§ 2050-qq. Interest in contracts prohibited. It shall be a misdemeanor for any member of the governing body or any officer, agent, servant or employee of the authority to be in any way of manner interested, directly or indirectly, in the furnishing of work, materials, supplies or labor, or in any contract therefor which the authority is empowered by this title to make.

§ 2050-rr. Audit and annual report. In conformity with the provisions of section five of article ten of the state constitution, the accounts of the authority shall be subject to the supervision of the state comptroller. The authority shall annually submit to the governor and state comptroller and to the state legislature a detailed report pursuant to the provisions of section two thousand eight hundred of title one of article nine of this chapter, and a copy of such report shall be filed with each legislative body. The authority shall comply with the provisions of sections two thousand eight hundred one, two thousand eight hundred two and two thousand eight hundred three of title one of article nine of this chapter.

§ 2050-ss. Limited liability. Neither the members of the governing body, nor any municipality, officer or employee acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the properties of the authority or from carrying out any of the powers expressly given in this title; provided, however, that this section shall not be held to apply to any independent contractor.

§ 2050-tt. Pledge by towns; contracts with municipalities; powers of municipalities. 1. The towns are hereby authorized to pledge to and agree with the holders of any bonds that the towns will not limit or impair the rights hereby vested in the authority to purchase, construct, own and operate, maintain, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title and to fulfill the terms of any agreements made with the holders of the bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of the bondholders, until the bonds, together with interest thereon, including interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders are fully met and discharged.

2. The authority and the towns shall have power to contract from time to time in relation to the collecting, receiving, transporting, storage, processing or disposal of solid waste or for the purchase or use of any materials, energy, by-products or residue generated by or resulting from

the operation of any solid waste management-resource recovery facility. Any such contract to which the authority, the towns or any municipality within the area of operation are parties may include provisions stipulating the minimum and/or maximum rates, rentals, fees and other charges to be collected for the use and availability of facilities. Any contract may also include provisions: (a) requiring any such town or municipality to deliver, or cause to be delivered, periodically to a specified facility or facilities all or any portion of the solid waste generated, originated or brought within such town or municipality and providing for specified minimum periodic payments whether or not such delivery of any such solid-waste is made; (b) reserving to any such town or municipality, and granting by the authority to any such town or municipality, a portion of or the entirety of the capacity of a solid waste management-resource recovery facility as any such town or municipality determines is reasonably necessary to meet its present and reasonably anticipated needs and providing for specified minimum periodic payments in consideration thereof, or (c) requiring the towns to pay such amounts as shall be necessary to assure the continued operation and solvency of the authority, all such payments to be determined and paid in such manner and at such times as may be provided in such contract.

3. To further the governmental and public purposes of the authority, including the implementation of any contract or proposed contract contemplated by this title, and in recognition of the public policy of the state in the area of the control and management of solid waste and solid waste disposal activities to displace competition with regulation or monopoly public control, the towns and all other municipalities within the area of operation, as instrumentalities of the state, shall have the power to adopt and amend local laws, ordinances and regulations imposing appropriate and reasonable limitations on competition with respect to collecting, receiving, transporting, delivering, storing, processing and disposing of solid waste or the recovery by any means of any material or energy product or resource therefrom, including, without limiting the generality of the foregoing, local laws requiring that all solid waste generated, originated or brought within their respective boundaries, subject to such exceptions as may be determined to be in the

public interest, shall be delivered to a specified solid waste management-resource recovery facility; provided, however, that any such local law, ordinance or regulation enacted by the towns shall take precedence over and shall supersede any inconsistent provisions of any such local law, ordinance or regulation enacted by any other municipality within the area of operation. Any such local law shall be adopted in accordance with the procedure provided by the municipal home rule law, except that no such local law shall be subject to either mandatory or permissive referendum. Any such local law may include provisions for the enforcement thereof and penalties for the violation thereof, which may provide, but shall not be limited to providing, that any violation of a local law shall constitute an offense or infraction, and may provide that any violation may be punished by civil penalty, fine or other monetary charge, and/or, the suspension or revocation of permits or licenses granted by any other jurisdiction with respect to the collecting, receiving, transporting, delivery or storing of solid waste. Upon the adoption of any local law, ordinance or regulation pursuant to this section, the towns or other municipality shall file a verified copy of such local law, ordinance or regulation with the commissioner of the department of environmental conservation; provided, however, that the failure to so file such a local law, ordinance or regulation shall not invalidate such local law, ordinance or regulation. Upon the adoption or amendment of any local law or ordinance pursuant to section one hundred twenty-aa of the general municipal law, any or all of the towns, by their respective legislative body, is authorized and empowered to delegate and assign to the authority, in whole or in part, by contract and on such terms as the parties may agree, the administration and implementation of the source separation and recycling program. Such delegation and assignment powers should be in addition to any other contracting powers and authority the towns may have under this section.

For purposes of this subdivision, solid waste shall have the meaning specified in this title, but shall not include any scrap or other material of value separated from the waste stream and held for purposes of materials recycling.

4. The towns are hereby authorized to resell or otherwise dispose of all or any part of the materials, energy, by-products or residue purchased from the authority pursuant to this section. Any resale of or other disposition may be made in such manner as the towns may deem proper and upon such terms and conditions as may be agreed upon by the parties thereto.

5. The towns and all other municipalities within the area of operation shall have power to perform such other acts, to enter into such other contracts, including contracts between or among themselves, execute such instruments and to undertake such future proceedings as shall be determined necessary or desirable to effectuate the purpose of this title, including the making of gifts, grants, loans or contributions to the authority.

6. Any contract entered into pursuant to this section to which the authority shall be a party may be pledged by the authority as security for any issue of bonds, and may be assigned, in whole or in part, by the authority, to any public corporation or person which shall construct, purchase, lease or otherwise acquire any solid waste management-resource recovery facility, or part thereof, financed in whole or in part by the authority.

§ 2050-uu. Solid waste facility reserve fund. The legislative bodies of the towns may establish a special fund, to be known as solid waste facility reserve fund of such town. There shall be credited to such reserve fund all amounts paid to such town and specifically designated by the payor for deposit in such reserve fund, together with such town moneys as may be appropriated thereto from time to time. Moneys in such reserve funds may be appropriated only for the purpose of paying amounts due from the town under the terms of any contract entered into pursuant to this title or for the construction, operation or closure of solid waste management facilities within the town, for which an insufficient or no provision has otherwise been made, except that upon the adoption of a resolution by at least a two-third vote of the voting strength of such towns legislative body, all or any portion of the moneys in such reserve fund may be transferred to any other reserve fund established by the town pursuant to the general municipal law. To the extent not inconsistent with the provisions of this section, the management of such reserve fund and the investment of moneys therein shall be subject to the provisions of section six-h of the general municipal law.

§ 2050-vv. Transfer of environmental applications, proceedings, approvals and permits. Any application in relation to the purposes of or contemplated by this title or any proceeding commenced by any participating municipality with the state department of environmental conservation, the department of transportation or any other state agency or instrumentality or with the United States environmental protection agency or any other federal agency or instrumentality shall inure to and for the benefit of the authority to the same extent and in the same manner as if the authority has been a party to such application or proceeding and the authority shall be deemed a party thereto, to the extent not prohibited by any federal law. Any license, approval, permit or decision issued or granted pursuant to or as a result of any such application or proceeding shall inure to the benefit of and be binding upon the authority and shall be assigned and transferred by the participating municipality to the authority, unless such assignment and transfer is prohibited by federal law.

§ 2050-ww. Preference for actions or proceedings against authority. Any action or proceeding to which the authority or the people of the state may be parties, in which any question arises as to the validity of this title, shall be preferred over all other civil causes of action or cases, except election causes of action or cases, in all courts of the state and shall be heard and determined in preference to all other civil business pending therein, except election causes, irrespective of position on the calendar. The same preference shall be granted upon application of the authority or its counsel in any action or proceeding questioning the validity of this title in which the authority may be allowed to intervene. The venue of any such action or proceeding shall be laid in the supreme court of the county in which the principal office of the authority is located.

§ 2050-xx. Separability. If any section, clause or provision in this title shall be held by a court of competent jurisdiction to be unconstitutional or ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective, and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 2050-yy. Effect of inconsistent provisions. Insofar as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of any town charter or any local law, ordinance or resolution of the towns or any other municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the authority otherwise set forth in this title. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation or the department of health.

TITLE 13-I

COUNTY OF FRANKLIN SOLID WASTE MANAGEMENT AUTHORITY

§ 2051-a. Short title. This title shall be known and may be cited as the "County of Franklin Solid Waste Management Authority Act."

§ 2051-b. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. "Authority" shall mean the public benefit corporation created by section two thousand fifty-one-c of this title, known as the county of Franklin solid waste management authority.

2. "Bonds" shall mean the bonds, notes or other evidences of indebtedness issued by the authority pursuant to this title and the provisions of this title relating to bonds and bondholders shall apply with equal force and effect to notes and noteholders, respectively, unless the context otherwise clearly requires.

3. "Construction" shall mean the acquisition, erection, building, alteration, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of a solid waste management

facility; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures and other actions incidental thereto.

4. "Cost", as applied to any project, shall mean and include the cost of construction, the cost of the acquisition of all property, including real property and other property, both real and personal and improved and unimproved, the cost of demolishing, removing or relocating any buildings or structures on lands so acquired, including the cost of relocating tenants or other occupants of the buildings or structures on such land, including the cost of acquiring any lands to which such buildings or structures may be moved or relocated, the cost of all systems, facilities, machinery, apparatus and equipment, financing charges, interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultant and legal services, the cost of lease guarantee or bond insurance and the cost of other expenses necessary or incidental to the construction thereof, including the amount authorized in the resolution of the authority providing for the issuance of bonds to be paid into any reserve or other special fund from the proceeds of such bonds, the financing of the placing of any project in operation and reimbursement to the county, any municipality, and state agency, the state, the United States government or any other person for expenditures that would be costs of the project hereunder had they been made directly by the authority.

5. "County" shall mean the county of Franklin.

6. "Governing body" shall mean the members of the authority constituting and acting as the governing body of the authority.

7. "Municipality" shall mean any county, city, town, village or any combination thereof.

8. "Person" shall mean any natural person, partnership, association,

joint venture or corporation, exclusive of a public corporation.

9. "Project" shall mean any solid waste management facility, the planning, development, financing, construction, operation or maintenance of which is authorized to be undertaken in whole or in part by the authority pursuant to this title.

10. "Real property" shall mean lands, structures, franchises and interests in land, waters, lands underwater, riparian rights and air rights and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interests including, but not limited to, easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgments, mortgages or otherwise.

11. "Resource recovery" shall mean the separation, extraction and recovery of usable materials, energy or heat from solid waste through source separation, recycling centers or other programs, projects or facilities.

12. "Revenues" shall mean all rates, fees, rents, charges and other income derived by the authority from its operations.

13. "Solid waste" shall mean all materials or substances discarded or rejected as being spent, useless, worthless or in excess to the owners at the time of such discard or rejection, including, but not limited to, garbage, refuse, industrial and commercial waste, sludges from air or water pollution control facilities or water supply treatment facilities, rubbish, ashes, contained gaseous material, incinerator residue, demolition and construction debris and offal, but not including sewage and other highly diluted water-carried materials or substances and those in gaseous form, source, special nuclear or by-product material within the meaning of the Atomic Energy Act of 1954, as amended, or waste which appears on the list or satisfies the characteristics of hazardous waste promulgated by the commissioner of environmental conservation pursuant to section 27-0903 of the environmental conservation law.

14. "Solid waste management facility" or "facility" shall mean any facility, plant, works, system, building, structure, improvement, machinery, equipment, fixture or other real or personal property which is to be used, occupied or employed beyond the initial solid waste collection process for the receiving, transporting, storage, processing, or disposal of solid waste or the recovery by any means of any material or energy product or resource therefrom including but not limited to recycling centers, transfer stations, baling facilities, rail haul or maritime facilities, processing systems, resource recovery facilities, steam and electric generating and transmission facilities, including auxiliary facilities to supplement or temporarily replace such generating facilities, steam distribution facilities, sanitary landfills, plants and facilities for compacting, composting or pyrolization of solid wastes, incinerators and other solid waste disposal, reduction or conversion facilities and resource recovery equipment source separation equipment and disposal equipment as defined in subdivisions four and five of section 51-0903 of the environmental conservation law.

15. "Source separation" shall mean the segregation of recyclable materials from the solid waste stream at the point of generation for separate collection, sale or other disposition.

16. "State" shall mean the state of New York.

§ 2051-c. County of Franklin solid waste management authority. 1. A corporation known as the County of Franklin solid waste management authority is hereby created for the public purposes and charged with the duties and having the powers provided in this title. The authority shall be a body corporate and politic constituting a public benefit corporation. It shall consist of seven members who shall be appointed by the county legislature.

2. The first members of the authority shall be appointed according to the following schedule for their terms of office; two for a one-year

term ending on December thirty-first of the year following the year in which this title shall have become a law; two for a two-year term ending on December thirty-first of the second year following the year in which this title shall have become a law; and three for a three-year term ending on December thirty-first of the third year following the year in which this title shall have become a law. Subsequent appointments of members shall be made in the same manner and for terms of three years ending in each case on December thirty-first of the last year of each such term. No person who has served as a member for two consecutive terms shall be eligible for reappointment as a member for a third term except after an interval of at least three years. All members shall continue to hold office until their successors are appointed and qualify. Vacancies occurring at the end of a term shall each be filled and appointed for a three-year term. Vacancies occurring otherwise than by expiration of term shall be filled in the same manner, respectively, for the unexpired term. Members may be removed from office for the same reasons and in the same manner as provided by law for the removal of officers of the county. Appointments to fill expired and unexpired terms shall be made within sixty days upon receipt of notification by the chairman of the county legislature that a vacancy exists.

3. The members of the authority shall receive no compensation for their services but shall be reimbursed for all of their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the authority shall be vested in and be exercised by the governing body at a meeting duly called and held where a quorum of four members are present. No action shall be taken except by the favorable vote of at least four members. The officers of the authority shall consist of a chairman, a vice-chairman and a treasurer who shall be members of the authority, and a secretary who need not be a member of the authority. The officers of the authority shall be selected by the authority and shall serve in such capacities at the pleasure of the authority. In addition to the position of secretary, the authority may appoint and at pleasure remove an executive director, attorney and engineer, which positions shall be in the exempt class of the civil service, and such additional officers and employees as it may deem necessary, and may determine and fix their qualifications, duties

and compensation, subject to the provisions of the civil service law. The authority may delegate to one or more of its members, officers, agents or employees any such powers as it may deem proper. The authority may also contract for expert professional services. The treasurer shall execute a bond conditioned on the faithful performance of the duties of his or her office, the amount and sufficiency of which shall be approved by the governing body and the premium for which shall be paid by the authority.

4. Notwithstanding any inconsistent provision of any general, special or local law, ordinance, resolution or charter, no officer, member or employee of the state, any municipality or any public benefit corporation shall forfeit his or her office or employment by reason of his or her acceptance of appointment as a member, officer, agent or employee of the authority, nor shall service as a member, officer, agent or employee of the authority be deemed incompatible or in conflict with such office, membership or employment.

5. In addition to any powers granted to it by law, the county legislature may appropriate by resolution sums of money to defray project costs or any other costs and expenses of the authority to be incurred prior to the first issuance of bonds. Subject to the rights of bondholders, the county legislature may determine if the moneys so appropriated shall be subject to repayment by the authority to the county and, in such eventuality, the manner and schedule for such repayment.

6. (a) The county shall file on or before March thirty-first of the year following the year in which this title shall have become a law, in the office of the secretary of state, a certificate approved by the legislature and signed by the chairman of the county legislature setting forth: (1) the name of the agency; (2) the names of the members appointed by the county legislature and (3) the effective date of this title. The authority shall be perpetual in duration, except that if such certificate is not filed with the secretary of state on or before such date, then the corporate existence of the authority shall thereupon terminate and it shall be deemed to be and shall be dissolved.

(b) Except as provided in paragraph (a) of this subdivision, the authority and its corporate existence shall continue until terminated by law provided, however, that no such law shall take effect so long as the authority shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof. Upon termination of the existence of the authority, all of the rights and properties of the authority then remaining shall pass to and vest in the county.

7. It is hereby determined that the authority and the carrying out of its powers and duties are in all respects for the benefit of the people of the county and the state for the improvement of their health, welfare and prosperity and that such purposes are public purposes and that the authority is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

§ 2051-d. Transfer of property to authority; acquisition of property by county for authority. 1. The county or any other municipality may give, grant, sell, convey, loan, license the use of or lease to the authority any property or facility which is useful to the authority in order to carry out its powers under this title. Any such transfer of property shall be upon such terms and conditions, subject to the rights of the holders of any bonds, as the authority and the county or other municipality may agree.

2. Notwithstanding the provisions of any other law, general, special or local, real property acquired by the authority or the county from the state may be used for any corporate purpose of the authority.

§ 2051-e. Powers of the authority. The authority shall have the power:

1. To sue and be sued;

2. To have a seal and alter the same;

3. To acquire in the name of the authority, hold, sell, lease, mortgage or otherwise dispose of property, real, personal or mixed, or any interest therein, without limitation, for its corporate purposes;

4. To condemn, in the name of the authority pursuant to the eminent domain procedure law, any real property within the county and required by the authority to carry out the powers granted by this title.

5. To collect, receive, transport, process, dispose of, sell, store, convey, recycle and deal with, in any lawful manner and way, solid waste and any products or by-products thereof now or hereafter developed or discovered, including any energy generated by the operation of any solid waste management facility. Any such disposal or sale may be effected on such terms and in such manner as the authority may deem proper;

6. To plan, develop and construct projects and to pay the cost thereof and to have the right to contract in relation thereto with municipalities or persons within or without the county and to own and operate, maintain, repair, improve, reconstruct, enlarge and extend, subject to the provisions of this title, any of its projects acquired or constructed under this title, and to sell, lease, mortgage or otherwise dispose of any project or part thereof to any person or public corporation, subject to such conditions and limitations as the authority may determine to be in the public interest;

7. To assist in the planning, development and construction of and the financing of the cost of any solid waste management facility to be located in the county whether or not such solid waste management facility is to be owned or operated by the authority, which assistance may include loans to any person or public corporation. Any such solid waste facility producing either electricity or shaft horsepower and useful thermal energy shall constitute a co-generation facility as defined in subdivision two-a of section two of the public service law;

8. To collect, receive from the United States, the state, the county, any other municipality or public corporation or person solid waste for the purpose of treatment or disposal thereof, with the right of the

authority to sell and dispose of any products or by-products (including energy) of such process of treatment or disposal, as the authority may deem proper;

9. To contract with the county, other municipalities, state agencies, public corporations or persons within or without the county, for the purpose of receiving, treating and disposing of solid waste including without limitation to contract with municipalities, state agencies, public corporations or persons for the delivery of all solid waste generated within a stated area to a specific solid waste management facility;

10. To make by-laws for the management and regulation of its affairs and, subject to agreements with bondholders, for the regulation of the use of any project or other property of the authority, which by-laws and all amendments thereto, duly certified by the secretary of the authority, shall be filed in the office of the authority and in the office of the clerk of the county, and to provide for the enforcement of such by-laws by legal or equitable proceedings which are or may be provided or authorized by law. In addition, the county legislature shall have power to prescribe that violations of specific by-laws of the authority shall constitute offenses or infractions and provide for the punishment of violations thereof by civil and criminal penalties;

11. With the consent of the chairman of the county legislature, to use officers or employees of the county and to pay a proper portion of the compensation or costs for the services for such officers or employees;

12. To make contracts and to execute all necessary or convenient instruments, including evidences of indebtedness, negotiable or non-negotiable;

13. To enter on any lands, waterways or premises for the purpose of making surveys, soundings and examinations, any liability for which shall not exceed actual damages;

14. To borrow money and to issue bonds and to fund or refund the same,

and to provide for the rights of the holders thereof;

15. To fix and collect rates, rentals, fees and other charges for the use of the facilities of, or services rendered by, or any commodities furnished by, the authority so as to provide revenues sufficient at all times to pay, as the same shall become due, the principal and interest on the bonds of the authority, together with the maintenance of proper reserves therefor, in addition to paying, as the same shall become due, the expenses of operating and maintaining the properties of the authority, together with proper reserves for debt service, depreciation, maintenance and contingencies and all other obligations and indebtedness of the authority;

16. To accept gifts, grants, loans or contributions from the United States, the state or any agency or instrumentality of either of them, or any municipality or from any person or public corporation, by bequest or otherwise, and to expend the proceeds for any corporate purposes of the authority;

17. To act as an agency, as such term is used in section two hundred fifty-one of the county law; and

18. To do all things necessary or convenient to carry out the powers expressly given in this title.

§ 2051-f. Governmental capacity of the authority and municipalities. The county, other municipalities within the county and the authority in carrying out the respective powers and duties under this title shall be deemed to be acting in a governmental capacity. The construction, operation and maintenance of any project financed in whole or in part by the authority shall be deemed to be the performance of an essential governmental function by the authority acting in its governmental capacity, whether such project shall be owned or operated by the authority or by any person or other public corporation.

§ 2051-g. Transfer of officers and employees. Any officer or employee of the county under civil service, selected by the authority may, with the consent of the chairman of the county legislature, be transferred to the authority and shall be eligible for such transfer and appointment, without examination, to applicable offices, positions and employment under the authority. The salary or compensation of any such officer or employee, after such transfer, shall be paid by the authority. Any such officers or employees so transferred to the authority pursuant to this section, who are members of or benefit under any existing pension or retirement fund or system, shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law, but during the period of their employment by the authority, all contributions to such funds or system to be paid by the employer on account of such officers or employees shall be paid by the authority. All such officers or employees so transferred to the authority who have been appointed to positions under the rules and classifications of the personnel officer of the county shall have the same status with respect thereto after transfer to the authority as they had under their original appointment.

§ 2051-h. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue bonds, in conformity with applicable provisions of the uniform commercial code, in such principal amounts as it may determine to be necessary to pay the cost of any project or for any other corporate purpose, including incidental expenses in connection therewith. The authority shall have power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee of any bonds. The authority shall have power from time to time to refund any bonds by the issuance of new bonds whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose. Bonds issued by the authority may be general obligations secured by the faith and credit of the authority or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the authority under which the bonds shall be authorized to be issued and subject to any agreements with the holders of outstanding bonds pledging any particular revenues or moneys.

2. Bonds shall be authorized by resolution of the authority, be in such denominations, bear such date or dates and mature at such time or times as such resolution shall provide, except that notes and any renewals thereof shall mature within five years from the date of the original issuance and bonds and any renewals thereof shall mature within thirty years from the date of the original issuance of any such bonds or notes. The bonds and notes shall be subject to such terms of redemption, bear interest at such rate or rates payable at such times, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution may provide. Bonds may be sold at public or private sale for such price or prices as the authority shall determine. Bonds of the authority shall not be sold by the authority at private sale unless such sale and the terms thereof have been approved in writing by the state comptroller where such sale is not to be to such comptroller, or by the state director of the budget where such sale is to said comptroller.

3. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to:

(a) pledging all or any part of the revenues, other moneys or property of the authority to secure the payment of the bonds, including but not limited to, any contracts, earnings or proceeds of any grant to the authority received from any private or public source;

(b) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(c) limitations on the purpose to which the proceeds from the sale of bonds may be applied;

(d) the rates, rents, fees and other charges to be fixed and collected by the authority and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) limitations on the right of the authority to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;

(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) the creation of special funds into which any revenues or moneys may be deposited;

(i) the terms and provisions of any trust, deed or indenture securing the bonds under which the bonds may be issued;

(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustees appointed by the bondholders pursuant to section two thousand fifty-one-i of this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of the trustee;

(k) defining the acts or omissions to act which may constitute a default in the obligations and duties of the authority to the bondholders and providing for the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) limitations on the power of the authority to sell or otherwise dispose of any project or any part thereof;

(m) limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the authority;

(n) the payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine; and

(o) any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

4. In addition to the powers herein conferred upon the authority to secure its bonds, the authority shall have power in connection with the issuance of bonds to enter into such agreements as the authority may deem necessary, consistent or desirable concerning the use or disposition of its revenues or other moneys or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, moneys or property and the doing of any act, (including refraining from doing any act) which the authority would have the right to do in the absence of such agreements. The authority shall have power to enter into amendments of any such agreements within the powers granted to the authority by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of bonds of the authority.

5. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the authority shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

6. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

7. Neither the members of the authority nor any person executing bonds shall be liable personally thereon or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The authority, subject to such agreements with bondholders as then may exist shall have power out of any moneys available therefor to purchase bonds of the authority, which shall thereupon be cancelled, at a price not exceeding (a) if the bonds are then redeemable, the redemption price then applicable, plus accrued interest to the next interest payment date or (b) if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date.

§ 2051-i. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to paragraph (j) of subdivision three of section two thousand fifty-one-h of this title:

1. In the event that the authority shall default in the payment of principal of or interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may and, upon written request of the holders of twenty-five per centum in principal amount of such bonds outstanding, shall in his or its own name:

(a) by action or proceeding in accordance with the civil practice law

and rules, enforce all rights of the bondholders, including the right to require the authority to collect rents, rates and charges adequate to carry out any agreement as to, or pledge of, such rents, rates and charges and to require the authority to carry out any other agreements with the holders of such bonds to perform its duties under this title;

(b) bring an action or proceeding upon such bonds;

(c) by action or proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) by action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in the county.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days notice in writing to the agency.

6. Any such trustee, whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project, the revenues of which are pledged for the security of the bonds of such issue, and such receiver may enter and take possession of such part or parts of the project and, subject to any pledge or agreement with holders of such bonds, shall take possession of all moneys and other property derived from such part or parts of the project and proceed with any construction thereon or the acquisition of any

property, real or personal, in connection therewith that the authority is under obligation to do, and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

7. The county is authorized to pledge to and agree with the holders of the bonds that the county will not limit or impair the rights hereby vested in the authority to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title and to fulfill the terms of any agreements made with the holders of the bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of the bondholders, until the bonds, together with interest thereon, with interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders are fully met and discharged.

§ 2051-j. State, county and municipalities not liable on bonds. Neither the state, county nor any other municipality or public corporation shall be liable on the bonds of the authority and such bonds shall not be a debt of the state, county or any other municipality or public corporation, and such bonds shall contain, on the face thereof, a statement to such effect.

§ 2051-k. Moneys of the authority. All moneys of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in interest bearing accounts in a bank or banks in the state designated by the governing body. The moneys in such accounts shall be paid out on check of the treasurer upon requisition by the governing body or of such other person or persons as the governing body may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States, the state or the county of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds as to the custody, collection, security, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and to carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys may be secured in the same manner as moneys of the authority and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the authority not required for immediate use or disbursement may, at the discretion of the authority, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. Subject to the provisions of any contract with bondholders and with the approval of the comptroller, the authority shall prescribe a system of accounts.

§ 2051-l. Bonds and notes as legal investment. The bonds of the authority are hereby made securities in which all public officials and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or notes, or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them. The bonds and notes are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purposes for which the deposit of bonds or notes or other obligations of this state is now or hereafter may be authorized.

§ 2051-m. Agreement with the state. The state does hereby pledge to and agree with the holders of any bonds issued by the authority pursuant to this title that the state will not alter or limit the rights hereby vested in the authority to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title to fulfill the terms of any agreement made with or for the benefit of the holders of bonds or with any public corporation or person with reference to such project or part thereof, or in any way to impair the rights and remedies of bondholders until the bonds, together with the interest thereon, including interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged, provided, however, that this section shall not be construed to limit in any manner the ability of the state to alter, amend or enforce laws or regulations to protect public health and the environment. The authority is authorized to include this pledge and agreement of the state in any agreement with bondholders.

§ 2051-n. Exemption from taxes, assessments and certain fees. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the county and the state and is a public purpose and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay any taxes or assessments upon any property owned by it or under its jurisdiction, control or supervision or upon its activities or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf. The construction, use, occupation or possession of any property owned by the authority or the county, including improvements thereon, by any person or public corporation under a lease, lease and sublease or any other agreement shall not operate to abrogate or limit the foregoing exemption, notwithstanding that the lessee, user, occupant or person in possession shall claim ownership for federal income tax purposes. Mortgages made or financed, directly or indirectly, by the authority shall be exempt from the mortgage recording taxes imposed by article eleven of the tax law. The authority shall be deemed a public authority for the purposes of section four hundred twelve of the real property tax law.

2. Any bonds issued pursuant to this title together with the income therefrom as well as the property of the authority shall be exempt from taxes, except for transfer and estate taxes. The state hereby covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the authority pursuant to this title, in consideration of the acceptance of any payment for the bonds, that the bonds of the authority issued pursuant to this title and the income therefrom and all revenues, moneys, and other property pledged to secure the payment of such bonds shall at all times be free from taxation, except for transfer and estate taxes.

§ 2051-o. Actions against the authority. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the authority for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence or wrongful act of the authority or of any member, officer, agent or employee thereof, unless (a) a notice of claim shall have been made and served upon the authority within the time limit by and in compliance with section fifty-e of the general municipal law, or (b) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter. Actions to recover damages for personal injury or injury to property caused by the latent effects of exposure to any substance or combination of substances, in any form, upon or within the body or upon or within property shall be governed by section two hundred fourteen-c of the civil practice law and rules.

2. Wherever a notice of claim is served upon the authority, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority may require any person, presenting for settlement an account or claim for any cause whatever against the authority, to be sworn before a member, counsel or an attorney, officer or employee of the authority designated for such purpose concerning such account or claim and, when so sworn, to answer orally as to any facts relative to such account or claim. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. The rate of interest to be paid by the authority upon any judgment for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section three-a of the general municipal law. Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

§ 2051-p. Contracts. 1. All contracts or orders for work, material or supplies performed or furnished in connection with construction shall be awarded by the authority pursuant to resolution of the governing body except as hereinafter provided. Such awards, when applicable, shall be made in compliance with paragraph (e) of subdivision four and subdivision seven of section one hundred twenty-w of the general municipal law. In any construction contract, the authority may provide a program for the payment of damages for delays and incentive awards in order to encourage timely project completion. An action, suit or proceeding contesting the validity of a contract awarded pursuant to this section, or the validity of the procedures relating to such award, shall be governed by the provisions of subdivision six of section one hundred twenty-w of the general municipal law and the term "municipality" as used in such subdivision six shall mean the authority.

2. The bidder whose bid is accepted shall give security for the faithful performance of the contract, and such other security as the authority may require, and may be required to maintain any construction done under the contract for such period as shall be stipulated, all in the manner prescribed and required by the authority and the sufficiency of such security shall, in addition to the justification and acknowledgement, be approved by the authority. All bids or proposals shall be publicly opened by the governing body or its duly authorized agent. If the bidder whose bid or proposal has been accepted after advertising shall neglect or refuse to accept the contract within five days after written notice that the contract has been awarded to him on his bid or proposal or if he accepts but does not execute the contract and give proper security, the authority shall have the right to declare his deposit forfeited. In case any work shall be abandoned by any contractor, the authority may, if it determines that the public interest is thereby served, adopt on behalf of the authority any or all subcontracts made by such contractor for such work and all such subcontractors shall be bound by such adoption if made. No bid or proposal shall be accepted from or any contract awarded to any person or corporation who is in arrears to the authority or the county upon any obligation of the authority or of the county. Every contract shall be executed in duplicate, one copy of which shall be held by the authority and one copy of which shall be delivered to the contractor. The authority may adopt, utilize, ratify and confirm any request for proposals, invitation for sealed bids, plans, specifications and notices

heretofore or hereafter published by the county with respect to any proposed project. The provisions of this section shall supersede any inconsistent provisions of the general municipal law, or any other general, special or local law, or the charter of the county. The authority shall be deemed an authority for the purpose of section twenty-eight hundred seventy-eight of this chapter.

§ 2051-q. Interest in contracts prohibited. It shall be a misdemeanor for any member of the governing body or any officer, agent, servant or employee of the authority to be in any way or manner interested, directly or indirectly, in the furnishing of work, materials, supplies or labor, or in any contract therefor which the authority is empowered by this title to make.

§ 2051-r. Audit and annual report. In conformity with the provisions of section five of article ten of the constitution, the accounts of the authority shall be subject to the supervision of the state comptroller and an annual audit shall be performed by an independent certified accountant. The authority shall annually submit to the governor and state comptroller and to the state legislature a detailed report pursuant to the provisions of section two thousand eight hundred of title one of article nine of this chapter, and a copy of such report shall be filed with the chairman of the Franklin county legislature. The authority shall comply with the provisions of sections two thousand eight hundred one, two thousand eight hundred two, and two thousand eight hundred three of title one of article nine of this chapter.

§ 2051-s. Limited liability. Neither the members of the governing body, nor any municipality, officer or employee acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the properties of the authority or from carrying out any of the powers expressly given in this title; provided, however, that this section shall not be held to apply to any independent contractor.

§ 2051-t. Contracts with municipalities; powers of municipalities. 1. The county and one or more municipalities within the county, or the authority and the county, shall have power to contract from time to time between or among themselves, or among themselves and with the authority, in relation to the receiving, transporting, storage, processing or disposal of solid waste or for the purchase or use of any materials, energy, by-products or residue generated by or resulting from the operation of any solid waste management facility. Any such contract to which the authority and any municipality within the county are parties may include provisions stipulating the maximum rates, rentals, fees and other charges to be collected for the use of facilities. Any contract to which the authority and the county are parties may include provisions (i) requiring the periodic delivery to the particular facilities of minimum amounts of solid waste and providing for specified minimum period payments whether or not such delivery is made, or (ii) requiring the county to pay, within appropriations available therefor, such amounts as shall be necessary to assure the continued operation and solvency of the agency, such payments to be determined and paid in such manner and at such times as may be provided in such contract.

2. In recognition of existing state policy, as declared in title one of article twenty-seven of the environmental conservation law, the legislature hereby affirms the primacy of the local and regional role in resource recovery procedures. To further the governmental and public purposes of the authority, including the implementation of any contract or proposed contract contemplated by this title, the county and all other municipalities within the county shall have power to adopt and amend local laws, ordinances and regulations imposing appropriate and reasonable limitations on competition with respect to collecting, receiving, transporting, delivering, storing, processing and disposing of solid waste or the recovery by any means of any material or energy product or resource therefrom, and shall further have the power to adopt and amend local law requiring that all solid waste generated, originated or brought within their respective boundaries, subject to such exceptions as may be determined to be in the public interest, shall be

delivered to a specified facility or facilities; provided however, that any such local law enacted by the county shall take precedence over and shall supersede any inconsistent provisions of any such local law enacted by a municipality with the county. Any such local law shall be adopted in accordance with the procedure provided by the municipal home rule law, except that no such local law shall be subject to either mandatory or permissive referendum. For the purposes of this section, solid waste shall have the same meaning as defined in section two thousand fifty-one-b of this title, but shall not include any scrap or other material of value separated from the waste stream and held for purposes of materials recycling. Upon the adoption of any local law, ordinance or regulation pursuant to this section, the participating county or municipality shall file with the commissioner of the department of environmental conservation a verified copy of such local law, ordinance or regulation.

3. The county is hereby authorized to resell or otherwise dispose of all or any part of the materials, energy, by-products or residue purchased from the authority pursuant to subdivision one of this section. Any resale or other disposition may be made in such manner as the county may deem proper and upon such terms and conditions as may be agreed upon by the parties thereto.

4. The county and all other municipalities within the county shall have power to perform such other acts, to enter into such other contracts, including contracts between or among themselves, execute such instruments and to undertake such future proceedings as shall be determined necessary or desirable to effectuate the purpose of this title, including the making of gifts, grants, loans or contributions to the authority.

5. Except as otherwise provided by section one hundred twenty-w of the general municipal law, any contract entered into by a municipality pursuant to this section may be for such term or duration, not to exceed twenty-five years, as may be agreed upon by the parties thereto.

6. Any contract entered into pursuant to this section to which the

authority shall be a party may be pledged by the authority as security for any issue of bonds, and may be assigned, in whole or in part, by the authority to any public corporation or person which shall construct, purchase, lease or otherwise acquire any solid waste management facility, or part thereof, financed in whole or in part by the authority.

§ 2051-u. Solid waste reserve fund. The county legislature may establish a special fund, to be known as the solid waste reserve fund of the county. There shall be credited to such reserve fund all amounts paid to the county and specifically designated by the payor for deposit in such reserve fund, together with such county moneys as may be appropriated thereto from time to time. Moneys in such reserve fund may be appropriated only for the purpose of paying amounts due from the county under the terms of any contract entered into pursuant to this title, for which an insufficient or no provision has otherwise been made, except that upon the adoption of a resolution by at least a two-thirds vote of the voting strength of the county legislature, all or any portion of the moneys in such reserve fund may be transferred to any other reserve fund established by the county pursuant to the general municipal law. To the extent not inconsistent with the provisions of this section, the management of such reserve fund and the investment of moneys therein shall be subject to the provisions of section six-h of the general municipal law.

§ 2051-v. Environmental applications, proceedings, approvals and permits. 1. Any application in relation to the purposes of or contemplated by this title, or any proceeding commenced, by the county with the state department of environmental conservation, the department of transportation or any other state agency or instrumentality shall inure to and for the benefit of the authority to the same extent and in the same manner as if the authority had been a party to such application or proceeding, and the authority shall be deemed a party thereto, to the extent not prohibited by any federal law. Any license, approval, permit or decision issued or granted pursuant to or as a result of any such application or proceeding shall inure to the benefit of and be binding upon the authority and shall be assigned and transferred by the county to the authority unless such assignment and transfer is prohibited by federal law.

2. All such applications, proceedings, licenses, approvals, permits and decisions shall further inure to and for the benefit of and be binding upon any person leasing, acquiring, constructing, maintaining, using or occupying any facility financed in whole or in part by the authority.

§ 2051-w. Separability. If any section, clause or provision in this title shall be held by a competent court to be unconstitutional or ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective, and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 2051-x. Effect of inconsistent provisions. In so far as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of the county charter or any local law, ordinance or resolution of the county or any other municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the authority otherwise set forth in this title. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation or the department of health.

TITLE 13-L

ONEIDA COUNTY SPORTS FACILITY AUTHORITY ACT

§ 2052-a. Short title. This title shall be known and may be cited as the "Oneida county sports facility authority act."

§ 2052-b. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. "Authority" means the corporation created by section two thousand fifty-two-c of this title.

2. "Board" means the members of the authority constituting and acting as the governing body of the authority.

3. "Comptroller" means the comptroller of the state.

4. "Construct", "construction" or "constructed" means the acquisition, erection, building, alteration, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of the sports facility, as the case may be; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedure and other actions preliminary or incidental thereto.

5. "Cost" as applied to any project, includes the cost of construction, the cost of the acquisition of all property, including real property and other property, both real, personal and mixed and improved and unimproved, the cost of the demolishing, removing or relocating of any buildings or structures on lands so acquired, including the cost of acquiring any lands to which such buildings or structures may be moved or relocated, the cost of the sports facility, machinery, apparatus and equipment, the cost of engineering and architectural surveys, plans and specifications, the cost of consultant and legal services, the cost of other expenses necessary or incidental to the construction of any project and the financing of the construction thereof and the financing of the placing of any project in operation, including reimbursement to the county or any municipality, state agency, the state, the United States government or any other person for expenditures that would be costs of a project hereunder had they been made directly by the authority.

6. "County" means the county of Oneida.

7. "County executive" means the county executive of the county, being the chief executive officer of the county.

8. "County board of legislators" means the board of legislators of the county.

9. "Municipality" means any county, city, town, village, or city

school district, union free school district, central school district or common school district, any other such instrumentality, including any agency or public corporation of the state, or any of the foregoing or any combination thereof.

10. "Murnane Field" means the stadium commonly known by that name, located in the city of Utica, as well as the surrounding lands, including all structures appurtenant thereto, located in the vicinity of Sunset Avenue and Burrstone Road in the city of Utica, which shall include all of the property deeded to the city of Utica by deed dated February third, nineteen hundred eight and thereafter conveyed to the Utica city school district by deed dated March fourteenth, nineteen hundred seventy-seven, except for any portions of the said property which have been appropriated by the state of New York or otherwise conveyed.

11. "Person" means any natural person, partnership, association, joint venture or corporation, exclusive of a public corporation.

12. "Project" means the sports facility, including the structures or parts thereof and appurtenances thereto, real property or any other property incidental to and included in such facility or part thereof, and any improvements, extensions and betterments.

13. "Real property" means lands, structures, franchises, rights and interests in land and air rights, and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interests including, but not limited to, easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgments, mortgages or otherwise and also claims for damage to real estate.

14. "Sports facility" means Murnane Field in the city of Utica.

15. "State" means the state of New York.

16. "State agency" means any state officer, public benefit corporation, department, board, commission, bureau, division or other agency or instrumentality of the state.

§ 2052-c. Oneida county sports facility authority. 1. A public corporation, to be known as the "Oneida county sports facility authority" is hereby created for the public purposes and charged with the duties and having the powers provided in this title. The authority shall be a body corporate and politic constituting a public benefit corporation, the objects of which in the judgment of the legislature cannot be attained under general laws. The board of the authority shall consist of a total of seven members, three of whom shall be appointed by the county executive, without confirmation of the county board of legislators, and four of whom shall be appointed by the county board of legislators, without county executive right to veto. The first members appointed by the county executive shall be appointed for the following terms of office: one for a term ending on December thirty-first of the first year following the year in which this title shall have become law, one for a term ending on December thirty-first of the third year following the year in which this title shall have become law and one for a term ending on December thirty-first of the fifth year following the year in which this title shall have become law. The first members appointed by the county board of legislators shall have the following terms of office: one for a term ending on December thirty-first of the first year following the year in which this title shall have become law, one for a term ending on December thirty-first of the third year following the year in which this title shall have become law, and two for a term ending on December thirty-first of the fifth year following the year in which this title shall have become law. Subsequent appointments of members shall be made for a term of five years ending in each case on December thirty-first of the last year of such term. All members shall continue to hold office until their successors are appointed and qualify. Vacancies shall be filled in the manner provided for original appointment. Vacancies, occurring otherwise than by expiration of term of office, shall be filled by appointment for the unexpired terms. Members may be removed from office for the same reasons and in the same manner as may be provided by law for the removal of officers of the county. The members of the authority shall receive no compensation for their services, but shall be reimbursed for their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the authority shall be vested in and be exercised by the board at a meeting duly called and held where a quorum of four members are present. No action shall be taken except pursuant to the favorable vote of at least four voting members. The board may delegate to one or more of its members, officers, agents or employees such powers and duties as it may deem proper.

2. The officers of the authority shall consist of a chairman, who shall be a member of the authority, and a vice-chairman and a treasurer, who shall be members of the authority, and a secretary, who need not be a member of the authority. Such officers shall be appointed by the board and shall serve in such capacities at the pleasure of the board. In addition to the secretary, the board may appoint and at pleasure remove such additional officers and employees as it may determine necessary for the performance of the powers and duties of the authority and fix and determine their qualifications, duties and compensation, subject to the provisions of the civil service law. The appointment and promotion of all employees of the authority shall be made in accordance with the provisions of the civil service law and county civil service rules, and such employees shall be entitled to membership in the county pension and retirement system, and shall be entitled to the same rights and obligations thereunder as the employees of the county. The board may also from time to time contract for expert professional services, and may retain or employ counsel, auditors, engineers and private consultants on a contract basis or otherwise for rendering professional or technical services and advice. The treasurer shall execute a bond, conditioned upon the faithful performance of the duties of his or her office, the amount and sufficiency of which shall be approved by the board and the premium therefor which shall be paid by the authority.

3. Notwithstanding any inconsistent provision of any general, special or local law, ordinance, resolution or charter, no officer, member or

employee of the state, any municipality or any public benefit corporation shall forfeit his or her office or employment by reason of his or her acceptance of appointment as a member, officer, agent or employee of the authority, nor shall service as such member, officer, agent or employee be deemed incompatible or in conflict with such office, membership or employment and any such officer, member or employee may accept such appointment and serve as a member, officer, agent or employee of the authority without forfeiture of any other office or position of public employment by reason thereof.

4. (a) The county executive shall file on or before December thirty-first of the year in which this title shall have become a law, in the office of the secretary of state, a certificate signed by the county executive setting forth: (1) the name of the authority; (2) the names of the members initially appointed and their terms of office; and (3) the effective date of this title. The authority shall be perpetual in duration, except that if such certificate is not filed with the secretary of state on or before such date, then the corporate existence of the authority shall thereupon terminate and it shall thereupon be deemed to be and shall be dissolved.

(b) Except as provided in paragraph (a) of this subdivision, the authority and its corporate existence shall continue until terminated by law. Upon termination of the existence of the authority, all of the rights and each project of the authority then remaining shall pass to and vest in the county.

5. It is hereby determined and declared, that the authority and the carrying out of its powers and duties are in all respects for the benefit of the people of the county and the state for the improvement of their health, welfare and prosperity and that such purposes are public purposes and that the authority is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

§ 2052-d. Powers of the authority. The authority shall have the power:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To enter into contracts and to execute all instruments necessary or convenient or desirable for the purposes of the authority to carry out any powers expressly given it in this title;

4. To acquire, lease as lessee, hold and use by purchase, gift, grant, transfer, contract or lease any real or personal property or any interest therein, as the authority may deem necessary, convenient or desirable to carry out the purpose of this title. In connection with the acquisition of any such property, the authority may assume any obligations of the owner of such property and, to the extent required by the terms of any indentures or other instruments under which such obligations were issued, the authority may assume and agree to perform covenants and observe the restrictions contained in such instruments; and furthermore the owner of any property which the authority is authorized to acquire is hereby authorized to sell or otherwise transfer the same to the authority, whereupon the authority shall become charged with the performance of all public duties with respect to such property with which such owner was charged and such owner shall become discharged from the performance thereof;

5. To develop, construct, operate, maintain, manage or contract for the operation, maintenance or management of Murnane Field; to allow the use of Murnane Field by professional athletic teams for the conduct of professional and amateur athletic events and activities related thereto and, in its discretion, other organized public use and to allow the use of Murnane Field by the Utica city school district for the organized use of its students, subject only to general rules for the use of such sports facility and reasonable scheduling requirements; to contract for the operation and maintenance of the sports facility under its jurisdiction or for services to be performed in connection therewith; to rent parts thereof and to grant concessions, all on such terms and conditions as it may determine;

6. To lease the project of the authority to the county or any other municipality in the county, or any instrumentality thereof, upon such terms and conditions as shall be determined by the authority, the county, the municipality or such instrumentality, as the case may be;

7. To apply to the appropriate agencies and officials of the federal, state and local governments for such licenses, permits or approvals of its plans or projects as it may deem necessary or advisable, and upon such terms and conditions as it may deem appropriate, and to accept, in its discretion, such licenses, permits or approvals as may be tendered to it by such agencies and officials;

8. To make plans and studies necessary, convenient or desirable for the effectuation of the purposes and powers of the authority and to prepare recommendations in regard thereto;

9. To enter upon such lands or premises as in the judgment of the authority shall be necessary for the purpose of making surveys, soundings, borings and examinations to accomplish any purpose authorized by this title, the authority being liable only for actual damage done;

10. To apply for and to accept any gifts or grants or loans of funds or property or financial or other aid in any form from the federal government or any agency or instrumentality thereof, or from the state or any agency or instrumentality thereof, or from any other source, for any or all of the purposes specified in this title, and to comply, subject to the provisions of this title, with the terms and conditions thereof;

11. To enter into cooperative agreements with other authorities, municipalities, district corporations, individuals or corporations, within or without the county, for any lawful purposes necessary or desirable to effect the purposes of this title upon such terms and conditions as shall be determined to be reasonable;

12. To make bylaws and rules for the management and regulation of its affairs and for the regulation of any project. A copy of such bylaws and

rules, and all amendments thereto, duly certified by the secretary of the authority shall be filed in the office of the county clerk of the county and shall be published thereafter once in each of two newspapers having a general circulation in the county. Violations of such rules shall be punishable by fine, not exceeding fifty dollars, or by imprisonment for not longer than thirty days, or both;

13. To fix rates and collect charges for the use of the project so as to provide revenues sufficient at all times to pay, as the same shall become due, the expense of operating and maintaining the project of the authority together with proper reserves for maintenance, contingencies and all other obligations and indebtedness of the authority;

14. With the consent of the county board of legislators, to use officers and employees of the county, including the county attorney's office, and to pay a proper portion of compensation or costs for the services of such officers or employees; and

15. To do all things necessary, convenient or desirable to carry out its purposes and for the exercise of the powers granted in this title.

§ 2052-e. Appropriations for purposes of the authority; transfer of property to authority; acquisition of property by county or other municipality for authority; contracts with county or other municipality; use of Murnane Field by Utica city school district. 1. In addition to any powers granted to it by law, the county board of legislators, or the finance board, as such term is defined in the local finance law, of any other municipality in the county may, from time to time, appropriate by resolution sums of money for purposes of the authority to defray project costs or any other costs and expenses of the authority or to pay amounts payable or anticipated to be payable to the authority pursuant to any contract or lease authorized by this title. Such county board of legislators or finance board may determine if the moneys so appropriated shall be subject to repayment by the authority to the appropriate municipality and, in such event, the manner and time or times for such repayment. In the event there shall remain at the end of any fiscal year of the county or any such municipality an unexpended balance of any such appropriation, such unexpended balance shall remain on deposit in the fund or account and such appropriation shall not lapse.

2. Notwithstanding the provisions of any other law, general, special or local to the contrary, real property acquired by the authority, the county or any other municipality from the state may be used for any corporate purpose of the authority.

3. The county, one or more municipalities and the authority shall have the power to contract, from time to time, between or among themselves, in relation to the use of the project of the authority, which contracts may include any or all of the following provisions: (a) requiring the use of such project by the county or such municipality for a specified period of time; (b) limiting the right, including a prohibition, of the county or any such municipality to construct a sports facility which will serve the same, or substantially the same, function as the project owned, leased or to be constructed or leased by the authority; (c) providing for specified minimum periodic payments whether or not a project is actually used, subject to such limitations, exceptions and provisions therein; and (d) requiring the county or any such municipality to pay to the authority such amounts as shall be necessary to assure the continued operation of the authority. All such payments shall be determined and paid in such manner and at such times as may be provided in such contracts.

4. Any gift, grant, sale, conveyance, loan, contract or lease authorized by this section may be made or entered into by the county, any other such municipality and/or the authority and no such gift, grant, sale, conveyance, loan, contract or lease shall be subject to referendum, permissive or otherwise.

5. Notwithstanding the provisions of any other law, general, special or local to the contrary, the authority shall allow the Utica city school district to use Murnane Field, and the Utica city school district shall be authorized to use Murnane Field, for the use of its students, subject only to general rules for the use of such sports facility and

reasonable scheduling requirements, without charge to said school district, except for reimbursement of actual expenses occasioned by its use.

§ 2052-f. Governmental capacity of the authority and municipalities. The authority, the county and the other municipalities, in carrying out their respective powers and duties under this title, shall be deemed to be acting in a governmental capacity and in the performance of an essential governmental function.

§ 2052-g. Transfer of officers and employees. Any public officer or employee under civil service who is selected by the authority may, with the consent of the commission, board or chief executive officer of the municipality by which he or she has been employed, be transferred to the authority and shall be eligible for such transfer and appointment without examination to comparable offices, positions and employment under the authority. The salary or compensation of any such officer or employee, after such transfer, shall be paid by the authority. Any such officers or employees so transferred to the authority pursuant to this section, who are members of or benefit under any existing pension or retirement fund or system, shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law, but, during the period of their employment by the authority, all contributions to such funds or systems to be paid by the employer on account of such officers or employees shall be paid by the authority. All such officers or employees so transferred to the authority who have been appointed to positions under the rules and classifications of the civil service commission shall have the same status with respect thereto after transfer to the authority as they had under their original appointment.

§ 2052-h. Moneys of the authority. All moneys of the authority from whatever source derived shall be paid to the treasurer of the authority, or to the county commissioner of finance as agent of the authority if the board shall so determine, and shall be deposited forthwith in a bank or banks in the state designated by the board. The moneys in such accounts shall be paid out on check of the treasurer or county commissioner of finance, as the case may be, upon requisition by the board or of such other person or persons as the board may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States or of the state or of the county or of any other municipality within the county of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the authority not required for immediate use or disbursement may, at the discretion of the authority, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. With the approval of the comptroller, the authority shall prescribe a system of accounts.

§ 2052-i. Exemption from taxes, assessments and certain fees. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the county and the state and is a public purpose and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay any taxes, special ad valorem levies or special assessments upon any property owned by it or under its jurisdiction, control or supervision or upon its activities or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf.

§ 2052-j. Actions against authority. 1. No action or special proceeding shall be prosecuted or maintained against the authority for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence or wrongful act of the authority or of any member, officer, agent or employee thereof, unless (a) a notice of claim shall have been made and served upon the authority within the time limit prescribed by and in compliance with section fifty-e of the general municipal law, (b) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based.

2. Wherever a notice of claim is served upon the authority, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority may require any person presenting for settlement an account or claim for any cause whatever against the authority, to be sworn before a member, counsel, officer or employee of the authority designated for such purpose concerning such account or claim and, when so sworn, to answer orally as to any facts relative to such account or claim. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. The rate of interest to be paid by the authority upon any judgment for which it is liable shall be the rate prescribed by section three-a of the general municipal law.

§ 2052-k. Construction and purchase contracts. The authority shall let contracts for construction or purchase of supplies, materials, or equipment pursuant to sections one hundred one and one hundred three of the general municipal law. Nothing in this section shall be construed to limit the powers of the authority to do any construction directly by the officers, agents and employees of the authority.

§ 2052-l. Interest in contracts prohibited. It shall be a misdemeanor for any member of the board or any officer, agent, servant or employee of the authority to be in any way or manner interested, directly or indirectly, in the furnishing of work, materials, supplies or labor or in any contract therefor which the authority is empowered by this title to make.

§ 2052-m. Authority shall be deemed state agency. For the purposes of article fifteen-A of the executive law only, the authority shall be deemed a state agency as that term is used in such article, and its contracts for design, construction, services and materials shall be deemed state contracts within the meaning of that term as set forth in such article.

§ 2052-n. Audit and annual report. In conformity with the provisions of section five of article ten of the constitution, the accounts of the authority shall be subject to the supervision of the comptroller. The authority shall annually submit to the governor and comptroller and to the state legislature a detailed report pursuant to the provisions of section two thousand eight hundred of title one of article nine of this chapter, and a copy of such report shall be filed with the county executive and with the county board of legislators. The authority shall comply with the provisions of sections two thousand eight hundred one, two thousand eight hundred two and two thousand eight hundred three of title one of article nine of this chapter.

§ 2052-o. Books and records. The county comptroller and his legally authorized representatives are authorized and empowered from time to time to examine the accounts and books of the authority, including its receipts, disbursements, contracts, leases, sinking funds, investments and any other records and papers relating to its financial standing.

§ 2052-p. Limited liability. Neither the members of the board, nor any municipality, officer or employee acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the projects of the authority or from carrying out any of the powers expressly given in this title; provided, however, that this section shall not be held to apply to any independent contractor.

§ 2052-q. Environmental applications, proceedings, approvals and permits. 1. Any application in relation to the purposes of or contemplated by this title heretofore filed, or any proceeding heretofore commenced, or any determination or decision heretofore made by the county or any municipality and sent to or filed with the state department of environmental conservation or any other state agency or instrumentality or with the United States environmental protection agency or any other federal agency or instrumentality shall inure to and for the benefit of the authority to the same extent and in the same manner as if the authority had been a party to such application or proceeding from its inception, and the authority shall be deemed a party thereto, to the extent not prohibited by any federal law. Any license, approval, permit or decision heretofore or hereafter issued or granted pursuant to or as a result of any such application or proceeding shall inure to the benefit of and be binding upon the authority and shall be assigned and transferred by the county or any such municipality to the authority, unless such assignment and transfer is prohibited by federal law.

2. All such applications, proceedings, licenses, approvals, permits and decisions shall further inure to and for the benefit of and be binding upon any person leasing, acquiring, constructing, maintaining, using or occupying any project financed in whole or in part by the authority.

§ 2052-r. Separability. If any section, clause or provision in this title shall be held by a competent court to be unconstitutional or ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective, and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 2052-s. Effect of inconsistent provisions. In so far as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of any charter, local law, ordinance or resolution of the county, or other municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the authority otherwise set forth in this title. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation or the department of health.

TITLE 13-M

ROCKLAND COUNTY SOLID WASTE MANAGEMENT AUTHORITY

§ 2053-a. Short title. This title shall be known and may be cited as the "Rockland County Solid Waste Management Authority Act."

§ 2053-b. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. "Animal shelter" shall mean any facility, building, or structure, where temporary or permanent housing and care is provided to stray, abandoned, abused, seized, impounded, owner-surrendered or otherwise unwanted animals.

2. "Animal management services" shall mean any and all services provided to promote animal care and to protect public health and safety, including, but not limited to the following services: providing housing and care for stray, abandoned, abused, seized, impounded, owner-surrendered or otherwise unwanted animals in an animal shelter; the processing and disposal of animal waste; the disposal of dead wildlife removed from roadways following wildlife-vehicle collisions; providing animal control; and any other similar service related thereto.

3. "Authority" shall mean the public benefit corporation created by section two thousand fifty-three-c of this title, known as the Rockland county solid waste management authority and shall also hereby be known as Rockland Green and/or RG Cares.

4. "Bonds" shall mean the bonds, notes or other evidences of indebtedness issued by the authority pursuant to this title and the

provisions of this title relating to bonds and bondholders and shall apply with equal force and effect to notes and obligations and noteholders and obligation holders, respectively, unless the context otherwise clearly requires.

5. "Construction" shall mean the acquisition, erection, building, alteration, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of a solid waste management facility or animal shelter; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures and other actions incidental thereto subject to the provisions of section two thousand fifty-three-f of this title.

6. "Cost," as applied to any project, shall mean and include the cost of construction, the cost of the acquisition of all property, including real property and other property, both real and personal and improved and unimproved, subject to the provisions of section two thousand fifty-three-f of this title, the cost of demolishing, removing or relocating any buildings or structures on lands so acquired, including the cost of relocating tenants or other occupants of the buildings or structures on such land, including the cost of acquiring any lands to which such buildings or structures may be moved or relocated, the cost of all systems, facilities, machinery, apparatus and equipment, financing charges, interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultant, legal and other professional services, the cost of lease guarantee or bond insurance and the cost of other expenses necessary or incidental to the construction thereof, including the amount authorized in the resolution of the authority providing for the issuance of bonds to be paid into any reserve or other special fund from the proceeds of such bonds, the financing of the placing of any project in operation and reimbursement to the county, any municipality, any state agency, the state, the United States government or any other person for expenditures that would be costs of the project hereunder had they been made directly by the authority.

7. "County" shall mean the county of Rockland.

8. "Governing body" shall mean the members of the authority constituting and acting as the governing body of the authority.

9. "Municipality" shall mean any county, city, town, village, district or any combination thereof.

10. "Person" shall mean any natural person, partnership, association, joint venture or corporation, exclusive of a public corporation.

11. "Project" shall mean any solid waste management facility or animal shelter, the planning, development, financing, construction, operation or maintenance of which is authorized to be undertaken in whole or in part by the authority pursuant to this title.

12. "Real property" shall mean lands, structures, franchises and interests in land, waters, lands underwater, riparian rights and air rights and any and all things and rights included within said term and includes not only fees simple absolute, but also any and all lesser interests including, but not limited to, easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgments, mortgages or otherwise.

13. "Resource recovery" shall mean the separation, extraction and recovery of usable materials, energy or heat from solid waste through source separation, recycling centers, composting, combustion or other programs, projects or facilities.

14. "Revenues" shall mean all rates, fees, rents, charges, receipts and other income derived by the authority from its operations.

15. "Solid waste" shall mean all putrescible and non-putrescible solid wastes, including, but not limited to, materials or substances which are discarded or rejected as being spent, useless, worthless, or in excess

to the owners at the time of such discard or rejection, or which are being accumulated, stored, or physically, chemically or biologically treated prior to being discarded or rejected, having served their intended use, or which are manufacturing by-products, including, but not limited to, garbage, refuse, industrial, commercial and agricultural waste sludges from air or water pollution control facilities or water supply treatment facilities, rubbish, ashes, contained gaseous material, incinerator residue, demolition and construction debris and offal, but not including sewage and other highly diluted water carried materials or substances and those in gaseous form, special nuclear or by-product material within the meaning of the Atomic Energy Act of 1954, as amended, or waste which appears on the list or satisfies the characteristics of hazardous waste promulgated by the commissioner of environmental conservation pursuant to section 27-0903 of the environmental conservation law or any scrap or other material of value held for purposes of materials recycling other than materials designated as recyclables, pursuant to section one hundred twenty-aa of the general municipal law.

16. "Solid waste management facility" or "facility" shall mean any facility, plant, works, system, building, structure, improvement, machinery, equipment, fixture or other real or personal property which is to be used, occupied or employed beyond the initial solid waste collection process for the receiving, transporting, storage, processing, treatment, or disposal of solid waste or the recovery by any means of any material or energy product or resource therefrom including but not limited to recycling centers, material recovery facilities, mixed waste processing facilities, household hazardous waste facilities, transfer stations, shredding facilities, baling facilities, rail haul or maritime facilities, processing systems, resource recovery facilities, steam and electric generating and transmission facilities, including auxiliary facilities to supplement or temporarily replace such generating facilities, steam distribution facilities, sanitary landfills, plants and facilities for compacting, composting or pyrolization of solid wastes or manufacturing or enhancing the value of materials or commodities recovered from solid waste, incinerators and other solid waste disposal, reduction or conversion facilities and resource recovery

equipment, source separation equipment and disposal equipment as defined in subdivisions four and five of section 51-0903 of the environmental conservation law.

17. "Solid waste management plan" shall mean the Rockland county integrated solid waste management plan as it may be adopted, amended and supplemented from time to time in accordance with section 27-0107 of the environmental conservation law.

18. "Source separation" shall mean the segregation of recyclable materials from the solid waste stream at the point of generation for separate collection, sale or other disposition.

19. "State" shall mean the state of New York.

§ 2053-c. Rockland county solid waste management authority. 1. Upon compliance with the requirements of subdivision seven of this section, a corporation known as the Rockland county solid waste management authority shall be deemed to have been created hereby for the public purposes and charged with the duties and having the powers provided in this title. The authority shall be a body corporate and politic constituting a public benefit corporation. In order to be more consistent with the authority's goals, mission and objectives, the authority shall also be known as Rockland Green and/or RG Cares.

2. The authority shall consist of seventeen members. Eight members shall be members of the county legislature. Five of the eight legislative members shall be appointed by the chairman of the county legislature and three shall be appointed by the minority leader of the county legislature, subject in each case to confirmation by a majority of the county legislature. No such appointment shall be effective unless there shall be, among the legislative members of the authority, a resident of each of the five towns in the county. Residency shall be determined as of the effective date of appointment, and subsequent changes in residency shall not effect the validity of the appointment or the authority of the legislative member to serve in the authority. Each

of the legislative members of the authority initially appointed and certified to the secretary of state shall serve for a term ending on January fifteen, nineteen hundred ninety-four. Subsequent appointments of legislative members of the authority shall be made in the same manner and for terms of two years. All legislative members shall continue to hold office until their successors are appointed and qualify. Vacancies occurring otherwise than by expiration of term shall be filled in the same manner, respectively, for the unexpired term. Members may be removed from office for the same reasons and in the same manner as provided by law for the removal of officers of the county. Appointments to fill expired and unexpired terms shall be made within sixty days upon receipt of notification by the chairman of the board of supervisors that a vacancy exists.

3. Five members of the authority shall consist, ex officio, of the supervisors of the five towns in the county. The term of each town supervisor serving ex officio as a member of the authority shall coincide with such member's term of elective office. No person shall be both an appointed member from the county legislature and a town supervisor serving ex officio as a member of the authority. Two members of the authority shall be appointed by and shall serve at the pleasure of the county executive of the county. Two members shall be mayors of villages contained within the county of Rockland and shall be appointed by the county legislature upon the recommendation of the Rockland county conference of mayors. The term of each mayor serving as a member of the authority shall coincide with such member's term of elective office, not to exceed two years. No such mayor shall be selected from a village that has failed to sign the intermunicipal recyclables management agreement. Such mayors are to be selected from different towns within Rockland county, and for the purposes of determining which town a mayor is determined to be from, if the jurisdiction of the municipality in which a mayor presides spans more than one town, that mayor shall not be restricted from appointment because one portion of his jurisdiction is coterminous with that of another mayor chosen as a member of the authority. Any member of the authority, whether appointed or serving ex officio, may be removed from office by a vote of ten members of the authority for gross neglect of duty, misconduct, maladministration or

malfeasance in office, including the unexcused failure to attend three consecutive regular meetings of the authority.

4. The members of the authority shall receive no compensation for their services but shall be reimbursed for all of their actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the authority shall be vested in and be exercised by the governing body at a meeting duly called and held where a quorum of eight members is present. No action shall be taken except by the favorable vote of at least eight members. The officers of the authority shall consist of a chairman, a vice-chairman and a treasurer who shall be members of the authority, and a secretary who need not be a member of the authority. The officers of the authority shall be selected by the authority and shall serve in such capacities at the pleasure of the authority. In addition to such officers, the authority may appoint and at its pleasure remove an executive director, attorney and engineer, which positions shall be in the exempt class of the civil service, and such additional officers and employees as it may deem necessary, and may determine and fix their qualifications, duties and compensation, subject to the provisions of the civil service law. The authority may delegate to one or more of its members, officers, agents or employees any such powers as it may deem proper. The authority may also contract for expert professional services. The treasurer shall execute a bond conditioned on the faithful performance of the duties of his or her office, the amount and sufficiency of which shall be approved by the governing body and the premium for which shall be paid by the authority.

5. Notwithstanding any inconsistent provision of any general, special or local law, ordinance, resolution or charter, no officer, member or employee of the state, any municipality or any public benefit corporation shall forfeit his or her office or employment by reason of his or her acceptance of appointment as a member, officer, agent or employee of the authority, nor shall service as a member, officer, agent or employee of the authority be deemed incompatible or in conflict with such office, membership or employment. The members and employees of the authority shall be subject to all requirements of state and county law

pertaining to ethics and financial disclosure to which members of the county legislature and employees of the county, respectively, are subject.

6. In addition to any powers granted to it by law, the county legislature may appropriate by resolution with the concurrence of the county executive sums of money to defray project costs or any other costs and expenses of the authority to be incurred prior to the first issuance of bonds. Subject to rights of bondholders, the county legislature with the concurrence of the county executive may determine if the moneys so appropriated shall be subject to repayment by the authority to the county and, in such eventuality, the manner and schedule for such repayment.

7. (a) The county shall file on or before the twelve month anniversary of the date on which this title shall have become a law, in the office of the secretary of state, a resolution of the county legislature adopted following a public hearing approving the creation of the authority, together with a certificate approved by the county legislature and signed by the county executive setting forth: (1) the name of the authority; (2) the names of the initial members; and (3) the effective date of this title. The authority shall be perpetual in duration, except that if such resolution and certificate are not filed with the secretary of state on or before such date, then the power of the legislature of the county to approve the creation of the authority shall thereupon lapse, the authority shall not be deemed to have been created hereby and shall not exist or be deemed to have existed, and the provisions of this title shall no longer have any force or effect.

(b) Except as provided in paragraph (a) of this subdivision, the authority and its corporate existence shall continue until terminated by law; provided, however, that no such law shall take effect so long as the authority shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof. Upon termination of the existence of the authority, all of the rights and properties of the authority then remaining shall pass to and vest in the county.

8. It is hereby determined that the authority and the carrying out of its powers and duties are in all respects for the benefit of the people of the county and the state for the improvement of their health, welfare and prosperity and that such purposes are public purposes and that the authority is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

9. In exercising the powers conferred upon it by this title, the authority shall at all times act in accordance with, and be in compliance with, the provisions of the solid waste management plan.

§ 2053-d. Transfer of property to authority; acquisition of property by county for authority. 1. The county or any other municipality may give, grant, sell, convey, loan, license the use of or lease to the authority any property or facility which is useful to the authority in order to carry out its powers and duties under this title. Any such transfer of property shall be upon such terms and conditions, subject to the rights of the holders of any bonds, subject to the provisions of section two thousand fifty-three-f of this title, as the authority and the county or other municipality may agree.

2. Notwithstanding the provisions of any other law, general, special or local, real property acquired by the authority, subject to the provisions of section two thousand fifty-three-f of this title, or the county from the state may be used for any corporate purpose of the authority.

§ 2053-e. Powers of the authority. The authority shall have the power:

1. To sue and be sued.

2. To have a seal and alter the same.

3. To acquire in the name of the authority, hold, sell, lease, mortgage or otherwise dispose of property, real, personal or mixed, or

any interest therein, without limitation, for its corporate purposes. In selecting the location for any real property to be acquired or leased, the authority shall give consideration to the present and any proposed land use character of the area in which such site is to be located and shall be subject to and exempt from the zoning laws or regulations, if any, otherwise generally applicable to such area to the same extent that the county is subject to and exempt from the zoning laws or regulations otherwise generally applicable to such area. The authority shall not acquire or lease any interest in real property except upon compliance with the procedure set forth in section two thousand fifty-three-f of this title.

4. To condemn in the name of the authority pursuant to the eminent domain procedure law, any real property within the county and required by the authority to carry out the powers granted by this title, subject to the provisions of section two thousand fifty-three-f of this title.

5. To collect, receive, transfer, transport, process, dispose of, sell, store, convey, recycle, compost, combust and deal with, in any lawful manner and way, solid waste and any products or by-products thereof now or hereafter developed or discovered, including any recovered materials, compost or energy produced or generated by the operation of any solid waste management facility. Any such disposal or sale may be effected on such terms and in such manner as the authority may deem proper.

6. To plan, develop and construct projects and to pay the cost thereof and to contract in relation thereto with municipalities or persons within or without the county and to own and operate, maintain, repair, improve, reconstruct, enlarge and extend, subject to the provisions of this title, any of its projects acquired or constructed under this title, and to sell, lease, mortgage, grant a security interest in, pledge, encumber, or otherwise dispose of any project or part thereof to any person, municipality or public corporation, subject to such conditions and limitations as the authority may determine to be in the public interest, and to apply for, hold and perform its obligations under any permit, license, approval, or other legal entitlement which

may be required for its projects, services or exercise of powers.

7. To assist in the planning, development, construction and operation of and the financing of the cost of any solid waste management facility to be located in the county whether or not such solid waste management facility is to be owned by the authority, which assistance may include loans to any person or public corporation.

8. To collect or receive from the United States, the state, the county, any other municipality or public corporation or person, subject to the limitations of section two thousand fifty-three-f of this title, solid waste for the purpose of treatment or disposal thereof, with the right of the authority to sell and dispose of any products or by-products (including recovered materials, compost or energy) of such process of treatment or disposal, as the authority may deem proper.

9. To contract with the county, other municipalities, state agencies, public corporations or persons within or without the county, for the purpose of receiving, treating and disposing of solid waste or for any other purpose authorized hereunder, including, without limitation, the power to contract with municipalities, state agencies, public corporations or persons for the delivery of all solid waste generated within a stated area to a specific solid waste management facility.

10. To make rules, regulations and by-laws pertaining to and governing the management and regulation of its affairs and, subject to agreements with bondholders, the use of any project or other property of the authority and the provision of any service by the authority, which rules, regulations and by-laws and all amendments thereto, duly certified by the secretary of the authority, shall be filed in the office of the authority and in the office of the clerk of the county, and to provide for the enforcement of such rules, regulations and by-laws by legal or equitable proceedings which are or may be provided or authorized by law. In addition, the county legislature shall have power to prescribe that violations of specific rules, regulations and by-laws of the authority shall constitute violations and provide for the enforcement of violations thereof by civil penalties, including any such

rules, regulations and by-laws requiring the payment of generator, user or hauler fees by any person in connection with the service or availability or service by any facility owned or under contract to the authority.

11. With the consent of the county executive, to use officers or employees of the county and to pay a proper portion of the compensation or costs for the services for such officers or employees.

12. To make contracts and to execute all necessary or convenient agreements, documents and instruments, including evidences of indebtedness, negotiable or non-negotiable.

13. To enter on any lands, waterways or premises for the purpose of making surveys, soundings and examinations, any liability for which shall not exceed actual damages.

14. To borrow money and to issue bonds and to fund or refund the same, and to provide for the right of the holders thereof.

15. To procure insurance, letters of credit, lines of credit, or other credit enhancement with respect to its bonds or notes issued pursuant to this title, or facilities for the payment of tenders of such bonds or notes or facilities for the payment upon maturity of short-term notes not renewed.

16. To enter into interest rate exchange or similar arrangements with any person under such terms and conditions as the authority may determine including, without limitation, provisions as to default or early termination and indemnification by the authority or any other party thereto for loss of benefits as a result thereof.

17. To fix and collect, as more fully set forth in section two thousand fifty-three-g of this title, rates, rentals, fees and other charges for the use of the facilities of, or services provided by, or any commodities furnished by, the authority, and to contract with any municipality in respect thereto, so as to provide revenues sufficient at

all times to pay, as the same shall become due, the principal and interest on the bonds of the authority, together with the maintenance of proper reserves therefor, in addition to paying, as the same shall become due, the expenses of operating and maintaining the properties and business of the authority and meeting all of its contractual and other obligations, together with proper reserves for debt service, depreciation, maintenance and contingencies and all other obligations and indebtedness of the authority.

18. To enter into agreements, in its direction, to pay annual sums in lieu of taxes to any municipality in respect to any real property which is owned by the authority and located in such municipality, political subdivision or taxing district.

19. To accept gifts, grants, loans or contributions from the United States, the state or any agency or instrumentality of either of them, or any municipality or from any person or public corporation, by bequest or otherwise, and to expend the proceeds for any corporate purposes of the authority.

20. To covenant and consent that the interest on any of its bonds or notes issued pursuant to this title shall be includible, under the United States Internal Revenue Code of 1986, as amended, or any subsequent corresponding internal revenue law of the United States, in gross income of the holder of the bonds or notes to the same extent and in the same manner that the interest on bills, bonds, notes or other obligations of the United States is includible in the gross income of the holders thereof under said Internal Revenue Code or any such subsequent law.

21. To act as an agency, as such term is used in section two hundred fifty-one of the county law.

22. The authority may acquire, hold, own, lease, establish, construct, effectuate, operate, maintain, renovate, improve, extend or repair any of its facilities for the purposes of operating an animal shelter and providing animal management services on behalf of one or more

municipalities located in the county of Rockland pursuant to the agriculture and markets law and will be subject to regulation by the department of agriculture and markets for the purposes of registration, inspection, and any oversight or regulation.

23. To do all things necessary or convenient to carry out the powers expressly given in this title.

§ 2053-f. Certain county rights. The authority shall not (1) acquire or lease any interest in real property, or (2) accept or permit the acceptance at facilities owned or under contract with the authority of solid waste originating outside the county, unless (i) at least forty-five days prior notice of the acquisition or lease of any interest in real property by the authority or any such acceptance of solid waste originating outside the county shall have been given to the county legislature, and (ii) no objection, by resolution of the county legislature, shall have been made and delivered to the agency within such forty-five days.

§ 2053-g. Charges by the authority; method of collection. 1. The authority may fix and collect, on any equitable basis, rates, rentals, fees and other charges for the use of facilities of or services or commodities provided by the authority, including the availability of any of the foregoing from the authority. Such rates, rentals, fees and other charges may be fixed and collected from any person to whom such facilities, services or commodities are provided by or made available from the authority, including generators of solid waste and owners of real property upon which solid waste is generated. Such rates, rentals, fees and other charges may be the same or different for each classification of user or service recipient and may, by way of example, reflect the source and composition of solid waste and may provide for fee reductions to the users or service recipients in proportion to waste generated or to reflect participation in source separation programs. In any instance where the county is or would be required by law, with respect to solid waste management, to conduct a public hearing in connection with a user or rate, rental, fee or other charge, the authority shall not establish, fix, or revise any classification of user or service recipient, rate, rental, fee or other charge unless and until the authority has held a public hearing at which interested persons have had an opportunity to be heard concerning the same; provided however, that if the county has conducted a public hearing in connection with such rate, rental, fee or other charge, the authority shall not be required to hold a public hearing. Notice of any such public hearing shall be published at least ten days before the date set therefor, in at least one newspaper of general circulation in the county. Such notice shall set forth the date, time and place of such hearing and shall include a brief description of the matters to be considered at such meeting. A copy of the notice shall be available for inspection by the public. At any such hearing, any interested persons shall have an opportunity to be heard concerning the matters under consideration. Any decision by the authority at such public hearing shall be in writing and be made available in the office of the authority for public inspection during regular office hours.

2. All rates, rentals, fees and other charges for the use of the facilities of, or services provided or made available by, the authority and billed directly by the authority to the user or service recipient pursuant to a classification of users or service recipients adopted by the authority as herein provided shall be a lien upon the real property upon which, or in connection with which, services are provided or made available, as and from the first date fixed for payment of such rates, rentals, fees and other charges. Any such lien shall take precedence over all other liens or encumbrances, except taxes or assessments. The treasurer of the authority shall prepare and transmit to the respective legislative body of each municipality, on or before the first day of December in each year, a list of those properties within each respective municipality using such facilities or for which such services were provided or made available and from which the payment of rates, rentals, fees and other charges are in arrears for a period of thirty days or more after the last day fixed for payment of such rates, rentals, fees and other charges without penalty. The list shall contain a brief description of such properties, the names of the persons or corporations

liable to pay for the same, and the amount chargeable to each, including penalties and interest computed to December thirty-first of that year. Each governing body shall levy such sums against the properties liable and shall state the amount thereof in a separate column in the annual tax rolls of the various municipalities under the headings "solid waste disposal charge" and "animal management charge", as appropriate. Such amounts, when collected by the several municipal collectors or receivers of taxes, shall be paid over to the treasurer of the authority. Alternatively, the legislative body of any municipality which provides solid waste collection service to all or a portion of the properties within its boundaries using municipally owned and operated collection vehicles may execute an agreement with the authority to collect and be responsible for the collection of, on behalf of the authority, any overdue or delinquent rates, rentals, fees or other charges and such municipality shall have the power to pay directly to the authority such overdue or delinquent rates, rentals, fees and other charges whether or not they are actually collected from the users or service recipients of such municipality. All of the provisions of the tax law of the state governing enforcement and collection of unpaid taxes or assessments for special improvements not inconsistent herewith shall apply to the collection of such unpaid rates, rentals, fees and other charges.

§ 2053-h. Governmental capacity of the authority and municipalities. The county, other municipalities within the county and the authority in carrying out the respective powers and duties under this title shall be deemed to be acting in a governmental capacity. The construction, operation and maintenance of any project financed in whole or in part by the authority shall be deemed to be the performance of an essential governmental function by the authority acting in its governmental capacity, whether such project shall be owned or operated by the authority or by any person or other public corporation.

§ 2053-i. Transfer of officers and employees. Any officer or employee of the county under civil service or otherwise, selected by the authority, may, with the consent of the county executive, be transferred to the authority and shall be eligible for such transfer and appointment, without examination, to applicable offices, positions and employment under the authority. The salary or compensation of any such officer or employee, after such transfer, shall be paid by the authority. Any such officers or employees so transferred to the authority pursuant to this section, who are members of or benefit under any existing pension or retirement fund or system, shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law, but during the period of their employment by the authority, all contributions to such funds or system to be paid by the employer on account of such officers or employees shall be paid by the authority. All such officers or employees so transferred to the authority who have been appointed to positions under the rules and classifications of the personnel officer of the county shall have the same status with respect thereto after transfer to the authority as they had under their original appointment.

§ 2053-j. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue bonds or notes in such principal amounts as it may determine to be necessary to pay the cost of any project or for any other corporate purpose, including incidental expenses in connection therewith. The authority shall have power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee of any bonds. The authority shall have power from time to time to refund any bonds by the issuance of new bonds whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose. Bonds issued by the authority may be general obligations secured by the faith and credit of the authority or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the authority under which the bonds shall be authorized to be issued and subject to any agreements with the holders of outstanding bonds pledging any particular revenues or moneys. The authority may also enter into loan agreements, lines of credit and other security agreements and obtain for or on its behalf letters of credit in each case for securing its bonds or to provide direct payment of any costs which the authority is authorized to pay.

2. Bonds shall be authorized by resolution of the authority, be in such denominations, bear such date or dates and mature at such time or times as such resolution shall provide, except that notes and any renewals thereof shall mature within five years from the date of the original issuance and bonds and any renewals thereof shall mature within thirty years from the date of the original issuance of any such bonds or notes. The bonds and notes shall be subject to such terms of redemption, bear interest at such rate or rates payable at such times, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution may provide. Bonds may be sold at public or private sale for such price or prices as the authority shall determine. Bonds of the authority shall not be sold by the authority at private sale unless such sale and the terms thereof have been approved in writing by the state comptroller where such sale is not to be to such comptroller, or by the state director of the budget where such sale is to said comptroller. The authority may pay all expenses, premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale of bonds.

3. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to:

(a) pledging all or any part of the revenues, other moneys or property of the authority to secure the payment of the bonds, including but not limited to, any assets, contracts, investment securities, earnings or proceeds of any grant to the authority received from any private or public source, subject to such agreements with bondholders as may then exist;

(b) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(c) limitations on the purpose to which the proceeds from the sale of

bonds may be applied;
(d) the rates, rents, fees and other charges to be fixed and collected by the authority and the amount to be raised in each year thereby and the use and disposition of revenues;
(e) limitations on the right of the authority to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;
(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;
(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;
(h) the creation of special funds into which any revenues or moneys may be deposited;
(i) the terms and provisions of any trust, deed or indenture securing the bonds under which the bonds may be issued;
(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine, which may include any or all of the rights, powers and duties of the trustees appointed by the bondholders pursuant to section two thousand fifty-three-i of this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of the trustee;
(k) defining the acts or omissions to act which may constitute a default in the obligations and duties of the authority to the bondholders and providing for the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;
(l) limitations on the power of the authority to sell or otherwise dispose of any project or any part thereof;
(m) limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the authority;

(n) the payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine; and

(o) any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

4. In addition to the powers herein conferred upon the authority to secure its bonds, the authority shall have power in connection with the issuance of bonds to enter into such agreements as the authority may deem necessary, consistent or desirable concerning the use of disposition of its revenues or other moneys or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, moneys or property and the doing of any act (including refraining from doing any act) which the authority would have the right to do in the absence of such agreements. The authority shall have power to enter into amendments of any such agreements within the powers granted to the authority by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of bonds of the authority.

5. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the authority shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security is created nor any financing statement need be recorded or filed.

6. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code,

the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

7. Neither the members of the authority nor any person executing bonds shall be liable personally thereon or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The authority, subject to such agreements with bondholders as then may exist, shall have power out of any moneys available therefor to purchase bonds of the authority, which shall thereupon be cancelled, at a price not exceeding (a) if the bonds are then redeemable, the redemption price then applicable, plus accrued interest to the next interest payment date or (b) if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date.

§ 2053-k. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to subdivision three of section two thousand fifty-three-j of this title:

1. In the event that the authority shall default in the payment of principal of or interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county and proved or acknowledged in the same manner as deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may and, upon written request of the holders of

twenty-five per centum in principal amount of such bonds outstanding, shall in his or its own name:

(a) by action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the authority to collect rents, rates, fees and charges adequate to carry out any agreement as to, or pledge of, such rents, rates, fees and charges and to require the authority to carry out any other agreements with the holders of such bonds to perform its duties under this title;

(b) bring an action or proceeding upon such bonds;

(c) by action or proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) by action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in the county.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days' notice in writing to the authority.

6. Any such trustee, whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project, the revenues of which are pledged for the security of the bonds

of such issue, and such receiver may enter and take possession of such part or parts of the project and, subject to any pledge or agreement with holders of such bonds, shall take possession of all moneys and other property derived from such part or parts of the project and proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith that the authority is under obligation to do, and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

7. The county is authorized to pledge to and agree with the holders of the bonds that the county will not limit or impair the rights hereby vested in the authority to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds or notes of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title and to fulfill the terms of any agreements made with the holders of the bonds or notes or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of the bondholders, until the bonds, together with interest thereon, with interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders are fully met and discharged.

§ 2053-l. State, county and municipalities not liable on bonds. Neither the state, county nor any other municipality or public corporation shall be liable on the bonds of the authority and such bonds shall not be a debt of the state, county or any other municipality or public corporation, and such bonds shall contain, on the face thereof, a statement to such effect.

§ 2053-m. Moneys of the authority. All moneys of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in interest bearing accounts in a bank or banks in the state designated by the governing body. The moneys in such accounts shall be paid out on check of the treasurer, upon requisition by the governing body or of such other person or persons as the governing body may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States, the state or the county of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds, as to the custody, collection, security, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and to carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds, or in any ways to secure bonds, and deposits of such moneys may be secured in the same manner as moneys of the authority and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the authority not required for immediate use or disbursement may, at the discretion of the authority, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law, as amended from time to time. Subject to the provisions of any contract with bondholders and with the approval of the comptroller, the authority shall prescribe a system of accounts.

§ 2053-n. Bonds and notes as legal investment. The bonds of the authority are hereby made securities in which all public officials and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or notes, or other obligations of the state may properly and legally invest funds including capital in their control or belonging to them. The bonds and notes are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purposes for which the deposit of bonds or notes or other obligations of this state is now or hereafter may be authorized.

§ 2053-o. Agreement with the state. The state does hereby pledge to and agree with the holders of any bonds or notes issued by the authority pursuant to this title that the state will not alter or limit the rights hereby vested in the authority to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title to fulfill the terms of any agreement made with or for the benefit of the holders of bonds or notes or with any public corporation or person with reference to such project or part thereof, or in any way to impair the rights and remedies of bondholders until the bonds or notes, together with the interest thereon, including interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged, provided, however, that this section shall not be construed to limit in any manner the ability of the state to alter, amend or enforce laws or regulations to protect public health and the environment. The authority is authorized to include this pledge and agreement of the state in any agreement with bondholders.

§ 2053-p. Exemption from taxes, assessments and certain fees. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the county and the state and is a public purpose and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay any taxes, special ad valorem levies or special assessments upon any property owned by it or under its jurisdiction, control or supervision or upon its activities or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf. The construction, use, occupation or possession of any property owned by the authority or the county, including improvements thereon, by any person or public corporation under a lease, lease and sublease or any other agreement shall not operate to abrogate or limit the foregoing exemption, notwithstanding that the lessee, user, occupant or person in possession shall claim ownership for federal income tax purposes. Mortgages made or financed, directly or indirectly, by the authority shall be exempt from the mortgage recording taxes imposed by article eleven of the tax law. The authority shall be deemed a public authority for the purposes of section four hundred twelve of the real property tax law.

2. Any bonds issued pursuant to this title together with the income therefrom as well as the property of the authority shall be exempt from taxes, except for transfer and estate taxes. The revenues, moneys and all other property and all transactions and activities of the authority shall be exempt from all taxes and governmental fees or charges, whether imposed by the state or any municipality, including without limitation real estate taxes, franchise taxes, sales taxes or other excise taxes. The state hereby covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the authority pursuant to this title, in consideration of the acceptance of any payment for the bonds, that the bonds of the authority issued pursuant to this title and the income therefrom and all revenues, moneys, and other property pledged to secure the payment of such bonds shall at all times be free from taxation except for transfer and estate taxes.

§ 2053-q. Actions against the authority. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the authority for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence or wrongful act of the authority or of any member, officer, agent or employee thereof, unless (a) a notice of claim shall have been made and served upon the authority within the time limit by and in compliance with section fifty-e of the general municipal law, or (b) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter. Actions to recover damages for personal injury or injury to property caused by the latent effects of exposure to any substance or combination of substances, in any form, upon or within the body or upon or within property shall be governed by section two hundred fourteen-c of the civil practice law and rules.

2. Wherever a notice of claim is served upon the authority, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority may require any person, presenting for settlement an account or claim for any cause whatever against the authority, to be sworn before a member, counsel or an attorney, officer or employee of the authority designated for such purpose concerning such account or claim and, when so sworn, to answer orally as to any facts relative to such account or claim. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. The rate of interest to be paid by the authority upon any judgment

for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section three-a of the general municipal law. Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

5. Any action or proceeding to which the authority or the people of the state may be parties, in which any question arises as to the validity of this title, shall be preferred over all other civil causes of action or cases, except election causes of action or cases, in all courts of the state and shall be heard and determined in preference to all civil business pending therein, except election causes, irrespective of position on the calendar. The same preference shall be granted upon application of the authority or its counsel in any action or proceeding questioning the validity of this title in which the authority may be allowed to intervene. The venue of any such action or proceeding shall be laid in the supreme court of the county in which the principal office of the authority is located.

§ 2053-r. Contracts. 1. All contracts or orders for work, material or supplies performed or furnished in connection with construction shall be awarded by the authority pursuant to resolution of the governing body except as hereinafter provided. Such awards, when applicable, shall be made in compliance with paragraph (e) of subdivision four and subdivision seven of section one hundred twenty-w of the general municipal law. In any construction contract, the authority may provide a program for the payment of damages for delays and incentive awards in order to encourage timely project completion. An action, suit or proceeding contesting the validity of a contract awarded pursuant to this section, or the validity of the procedures relating to such award, shall be governed by the provisions of subdivision six of section one hundred twenty-w of the general municipal law and the term "municipality" as used in such subdivision six shall mean the authority.

2. The person whose bid or proposal is accepted shall give security for the faithful performance of the contract, and such other security as

the authority may require, and may be required to maintain any construction done under the contract for such period as shall be stipulated, all in the manner prescribed and required by the authority and the sufficiency of such security shall, in addition to the justification and acknowledgement, be approved by the authority. All bids or proposals shall be publicly opened by the governing body or its duly authorized agent. If the person whose bid or proposal has been accepted after advertising shall neglect or refuse to accept the contract within five days after written notice that the contract has been awarded to him on his bid or proposal or if he accepts but does not execute the contract and give proper security, the authority shall have the right to declare his deposit forfeited. In case any work shall be abandoned by any contractor, the authority may, if it determines that the public interest is thereby served, adopt on behalf of the authority any or all subcontracts made by such contractor for such work and all such subcontractors shall be bound by such adoption if made. No bid or proposal shall be accepted from or any contract awarded to any person or corporation who is in arrears to the authority or the county upon any obligation of the authority or of the county. Every contract shall be executed in duplicate, one copy of which shall be held by the authority and one copy of which shall be delivered to the contractor. The authority may adopt, utilize, ratify and confirm any request for proposals, invitation for sealed bids, plans, specifications and notices heretofore or hereafter published by the county with respect to any proposed project. The provisions of this section shall supersede any inconsistent provisions of the general municipal law, or any other general, special or local law, or the charter of the county. The authority shall be deemed an authority for the purpose of section twenty-eight hundred seventy-eight of this chapter.

3. For the purposes of article fifteen-A of the executive law only, the authority shall be deemed a state agency as that term is used in such article, and its contracts for design, construction, services and materials shall be deemed state contracts within the meaning of that term as set forth in such article.

§ 2053-s. Interest in contracts prohibited. It shall be a misdemeanor for any member of the governing body or any officer, agent, servant or employee of the authority to be in any way or manner interested, directly or indirectly, in the furnishing of work, materials, supplies or labor, or in any contract therefor which the authority is empowered by this title to make.

§ 2053-t. Audit and annual report. In conformity with the provisions of section five of article ten of the constitution, the accounts of the authority shall be subject to the supervision of the state comptroller and an annual audit shall be performed by an independent certified accountant. The authority shall annually submit to the governor and state comptroller and to the state legislature a detailed report pursuant to the provisions of section two thousand eight hundred of this chapter, and a copy of such report shall be filed with the county executive and the chairman of the county legislature. The authority shall comply with the provisions of sections two thousand eight hundred one, two thousand eight hundred two and two thousand eight hundred three of this chapter.

§ 2053-u. Limited liability. Neither the members of the governing body, nor any municipality, officer or employee acting on its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the properties of the authority or from carrying out any of the powers expressly given in this title; provided, however, that this section shall not be held to apply to any independent contractor.

§ 2053-v. Contracts with municipalities; powers of municipalities. 1. The county and one or more municipalities within the county, or the authority and the county, shall have power to contract from time to time between or among themselves, or among themselves and with the authority, in relation to the receiving, transporting, storage, processing, treatment or disposal of solid waste or for the purchase or use of any materials, energy, byproducts or residue generated by or resulting from the operation of any solid waste management facility. Any such contract to which the authority, the county and any municipality within the county are parties may include provisions stipulating the maximum rates, rentals, fees and other charges to be collected for the use or availability of facilities. Any contract to which the authority, the county and any municipality within the county are parties may include provisions (i) requiring the periodic delivery to the particular facilities of minimum amounts of solid waste and providing for specified minimum period payments whether or not such delivery is made, or (ii) requiring the county and any municipality within the county to pay, within appropriations available therefor, such amounts as shall be necessary to assure the continued operation and solvency of the authority, such payments to be determined and paid in such manner and at such times as may be provided in such contract or contracts.

2. In recognition of existing state policy, as declared in title one of article twenty-seven of the environmental conservation law, the legislature hereby affirms that the basic responsibility for the planning and operation of solid waste management facilities remains with local governments; and further recognizes the county's role as planning unit under section 27-0107 of the environmental conservation law. To further the governmental and public purposes of the authority, including the implementation of any contract or proposed contract contemplated by this title, and in recognition of the public policy of the state in the area of the control and management of solid waste and solid waste disposal activities to displace competition with regulation or monopoly public control, the county and all other municipalities within the county shall have the power to adopt and amend local laws, ordinances and regulations imposing appropriate and reasonable limitations on competition with respect to collecting, receiving, transporting, delivering, storing, processing, treating and disposing of solid waste or the recovery by any means of any material or energy product or resource therefrom, and shall further have the power to adopt and amend local laws requiring that all solid waste generated, originated or brought within their respective boundaries, subject to such exceptions as may be determined to be in the public interest, shall be delivered to

a specified facility or facilities; provided however, that any such local law enacted by the county shall take precedence over and shall supersede any inconsistent provisions of any such local law enacted by a municipality with the county. Any such local law shall be adopted in accordance with the procedure provided by the municipal home rule law, except that no such local law shall be subject to either mandatory or permissive referendum. Any such local law may include provisions for the enforcement thereof and penalties for the violation thereof, which may provide, but shall not be limited to providing, that any violation of a local law may be punished by civil penalty, fine or other monetary charge, and/or, the suspension or revocation of permits or licenses granted by any other jurisdiction with respect to the collecting, receiving, transporting, delivery or storing of solid waste. For the purposes of this section, solid waste shall have the same meaning as defined in section two thousand fifty-three-b of this title. Upon the adoption of any local law, ordinance or regulation pursuant to this section, the county or municipality shall file with the commissioner of the department of environmental conservation a verified copy of such local law, ordinance or regulation; provided, however, that failure to so file such a local law, ordinance or regulation shall not invalidate such local law, ordinance or regulation. The foregoing provisions of this subdivision shall not be construed to limit, alter or abridge the powers granted to the county under the provisions of chapter five hundred sixty-nine of the laws of nineteen hundred ninety-one, as amended.

3. The county is hereby authorized to resell or otherwise dispose of all or any part of the materials, energy, by-products or residue purchased from the authority pursuant to subdivision one of this section. Any resale or other disposition may be made in such manner as the county may deem proper and upon such terms and conditions as may be agreed upon by the parties thereto.

4. The county and all other municipalities within the county shall have power to perform such other acts, to enter into such other contracts, including contracts between or among themselves, execute such instruments and to undertake such future proceedings as shall be

determined necessary or desirable to effectuate the purpose of this title, including the making of gifts, grants, loans or contributions to the authority.

5. Except as otherwise provided by section one hundred twenty-w of the general municipal law, any contract entered into by a municipality pursuant to this section may be for such term or duration, not to exceed thirty years, as may be agreed upon by the parties thereto.

6. Any contract entered into pursuant to this section to which the authority shall be a party may be pledged by the authority as security for any issue of bonds, and may be assigned, in whole or in part, by the authority to any public corporation or person which shall construct, purchase, lease or otherwise acquire any solid waste management facility, or part thereof, financed in whole or in part by the authority.

§ 2053-w. Solid waste reserve fund. The county legislature may establish a special fund, to be known as the solid waste reserve fund of the county. There shall be credited to such reserve fund all amounts paid to the county and specifically designated by the payor for deposit in such reserve fund, together with such county moneys as may be appropriated thereto from time to time. Moneys in such reserve fund may be appropriated only for the purpose of paying amounts due from the county under the terms of any contract entered into pursuant to this title, for which an insufficient or no provision has otherwise been made, except that upon the adoption of a resolution by at least a two-thirds vote of the voting strength of the county legislature, all or any portion of the moneys in such reserve fund may be transferred to any other reserve fund established by the county pursuant to the general municipal law. To the extent not inconsistent with the provisions of this section, the management of such reserve fund and the investment of moneys therein shall be subject to the provisions of section six-h of the general municipal law.

§ 2053-x. Environmental applications, proceedings, approvals and permits. 1. Any application in relation to the purposes of or contemplated by this title, or any proceeding commenced in relation thereto, by the county with the state department of environmental conservation, the department of transportation or any other state agency or instrumentality shall inure to and for the benefit of the authority to the same extent and in the same manner as if the authority had been a party to such application or proceeding, and the authority shall be deemed a party thereto, to the extent not prohibited by any federal law. Any license, approval, permit or decision issued or granted pursuant to or as a result of any such application or proceeding shall inure to the benefit of and be binding upon the authority and shall be assigned and transferred by the county to the authority unless such assignment and transfer is prohibited by federal law.

2. All such applications, proceedings, licenses, approvals, permits and decisions shall further inure to and be for the benefit of and be binding upon any person leasing, acquiring, constructing, maintaining, using or occupying any facility financed in whole or in part by the authority.

§ 2053-y. Separability. If any section, clause or provision in this title shall be held by a competent court to be unconstitutional or ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective, and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 2053-z. Effect of inconsistent provisions. In so far as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of the county charter or any local law, ordinance or resolution of the county or any other municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the authority otherwise set forth in this title. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation or the department of health.

TITLE 14

*** BROOME COUNTY SPORTS CENTER AUTHORITY**

* NB Authority dissolved September 1, 1977

*** § 2050. Short title.** This title may be cited as the "Broome County Sports Center Authority Act".

* NB Authority dissolved September 1, 1977

*** § 2051. Legislative findings.** It is hereby found, determined and declared that the construction and operation of a sports center at a suitable location within the county of Broome, to be determined by the local legislative body of Broome county, which sports center shall provide adequate facilities for such amateur, professional and scholastic sports events as the authority shall deem advisable; for the conduct of meetings, exhibitions and other events of civic, community and general public interest essential to the health, welfare and prosperity of the people of the county of Broome; that the erection and maintenance of a sports center is essential to maintain the competitive position of the county of Broome in the field of sports and exhibition in relation to other counties within the state of New York and other municipalities outside the state of New York; that the location of such a sports center within the county of Broome, to be determined by the local legislative body of such county and the creation and maintenance of adequate traffic, parking, transportation and other facilities incidental and useful in the operation of a sports center is part of an overall community rehabilitation and improvement project and are in all respects beneficial to the people of the state of New York, and more particularly for the people of the county of Broome, for the improvement of their health, welfare, recreation and prosperity, for the promotion of competitive sports for youth and the prevention of juvenile delinquency; and that such purposes are public purposes which cannot be adequately attained except by the exercise of the powers of government, and that the authority is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

* NB Authority dissolved September 1, 1977

*** § 2052. Definitions.** As used to refer to in this title, unless a different meaning clearly appears in the context:

(a) The term "authority" shall mean a corporation created by section four of this title;

(b) The term "county" shall mean the county of Broome;

(c) The term "bonds" shall mean the bonds authorized in this title;

(d) The term "board" shall mean the members of the authority;

(e) The term "real property" shall mean lands, structures, franchises and interest in lands, and any and all things usually included within the said term, and includes not only fees, simple or absolute, but also any and all lesser interests, such as easements, rights of way, uses, leases, licenses, and all other incorporeal hereditaments in every estate, interest or right, legal or equitable, including terms of years, and liens thereon by way of judgments, mortgages or otherwise, and also claims for damage to real estate;

(f) The term "project" shall mean the sports center and shall include all real and personal property, driveways, roads, approaches, structures, parking lots, mechanical equipment and all appurtenances and facilities either on, above, or under the ground which are used or useable in connection with such Sports Center.

* NB Authority dissolved September 1, 1977

*** § 2053. Broome county sports center authority.** A board to be known as "Broome county sports center authority" is hereby created. The board shall be a body corporate and politic constituting a public benefit corporation, and its existence shall commence upon the appointment of the members as herein provided. It shall consist of a chairman and four other members, all of whom shall be appointed by the local legislative body of Broome county. The appointment of a chairman shall be for a term of six years, and of the other four members, two for a term of two years, and two for a term of four years, respectively, from the first day of September, nineteen hundred sixty-eight. At the expiration of such terms the terms of office of their successors shall be six years. Each member shall continue to serve until the appointment and qualification of his successor. Vacancies in such board occurring otherwise than by expiration of term shall be filled for the unexpired term. The members of the board shall choose from their number a vice chairman. The local legislative body of Broome county may remove any member of the board for inefficiency, neglect of duty, or misconduct in office, giving him a copy of the charges against him and an opportunity of being heard in person, or by counsel, in his defense upon not less than ten days' notice. Members of the board shall be entitled to no compensation for their services, but shall be entitled to reimbursement for their actual and necessary expenses incurred in the performance of their official duties. The powers of the authority shall be vested in and exercised by a majority of the members of the board then in office. The board may delegate to one or more of its members or to its officers, agents and employees such powers and duties as it may deem proper. The board, and its corporate existence, shall continue only for a period of nine years, and thereafter until all its liabilities have been met and its bonds have been paid in full or such liabilities or bonds have otherwise been discharged, except that no additional liabilities may be incurred after the termination of its corporate existence. Upon its ceasing to exist, all its rights and property shall pass to the County.

* NB Authority dissolved September 1, 1977

*** § 2054. Purposes and powers of the authority.** The purposes of the authority shall be to construct, operate and maintain the project consisting of the Broome county sports center and facilities in connection therewith. To carry out the purposes the authority shall have power:

(a) To sue and be sued;

(b) To acquire, hold and dispose of personal property for its corporate purposes;

(c) To have a seal and alter the same at pleasure;

(d) To make by-laws for the management and regulation of its affairs and, subject to agreements with bondholders, for the regulation of the project;

(e) With the consent of the local legislative body of Broome county to use agents, employees and facilities of the county, including the county attorney's office, paying to the county its agreed portion of the compensation or costs;

(f) To appoint officers, agents and employees; and to describe their qualifications and fix their compensation; subject, however, to the provisions of the civil service law as hereinafter provided.

(g) To make contracts and leases, and to execute all instruments necessary or convenient;

(h) To construct such buildings, structures, parking and other facilities as may be necessary or convenient;

(i) To reconstruct, improve, maintain and operate the project;
(j) To collect rentals, fees and other charges for the use of the project subject to and in accordance with such agreements with bondholders as may be hereinafter provided;
(k) To contract for the services of architects, engineers, lawyers, financial and other professional advisers and to fix their compensation;
(l) To construct, operate and maintain the project; to contract for the construction, operation and maintenance of any part thereof, or for services to be performed in connection therewith; to rent parts thereof, and grant concessions, all on such terms and conditions as it may determine; provided, however, that the location of the site of the project and the plans thereof shall be subject to the prior approval of the local legislative body of Broome county.
* NB Authority dissolved September 1, 1977

*** § 2055. Acquisition of land for the project.** The authority may acquire lands for the project. It shall have the power to sell, lease or otherwise dispose of said real property and shall retain and have the power to use the proceeds of sale, rentals or other moneys derived from the disposition thereof for its purposes.

Notwithstanding any law to the contrary, the county may, by legal instrument authorized by a resolution, lease real property, owned by the county, to the authority, with or without consideration, for so long as the authority's existence shall continue.
* NB Authority dissolved September 1, 1977

*** § 2056. Civil service status of employees.** The appointment and promotion of all employees of the authority shall be made in accordance with the provisions of the civil service law and the rules of the Broome county civil service commission, and such employees shall be entitled to membership in the county pension and retirement system, and shall be entitled to the same rights and obligations thereunder as the employees of the county.
* NB Authority dissolved September 1, 1977

*** § 2057. Contracts.** The authority shall let contracts for construction and materials in the manner provided by law for contracts of the county, except that where the estimated expense of a contract does not exceed two thousand five hundred dollars such contract may be entered into without public letting provided, however, that where the board determines that it would be detrimental to the authority to comply with this section, it may enter into a contract without complying herewith.

* NB Authority dissolved September 1, 1977

*** § 2058. Moneys of the authority.** All moneys of the authority shall be paid to the county treasurer as agent of the authority, who shall designate depositories and who shall not commingle such moneys with any other moneys. The moneys shall be deposited in a separate bank account or accounts. The moneys in such accounts shall be paid out on checks of the treasurer on requisition of the chairman of the authority or of such other person or persons as the authority may authorize upon proper audit of the county of Broome.

All deposits of such moneys shall, if required by the treasurer, be secured by obligations of the United States or of the state of New York, of a market value equal at all times to the amount of the deposit, and all banks and trust companies are authorized to give such security for the deposits.

The Broome county auditor and his legally authorized representatives are authorized and empowered from time to time to examine the accounts and books of the authority, including its receipts, disbursements, contracts, leases, sinking funds, investments and any other records and papers relating to its financial standing.

The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any of its bonds as to the custody, collection, securing, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and to carry out any such contract notwithstanding that such contract may be inconsistent with the previous provisions of this section. Moneys held in trust or otherwise for the payment of bonds and the deposits of such moneys may be secured in the same manner as moneys of the authority, and all banks and trust companies are authorized to give such security for such deposits.

* NB Authority dissolved September 1, 1977

*** § 2059. Bonds of the authority.** a. The authority shall have the power and is hereby authorized from time to time to issue its negotiable bonds in conformity with applicable provisions of the uniform commercial code for its corporate purposes in the aggregate principal amount of not exceeding one million dollars. The authority shall have power from time to time and whenever it deems refunding expedient, to refund any bonds by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other purpose hereinabove described. In computing the total amount of bonds of the authority which may at any time be outstanding the amount of the outstanding bonds to be refunded from the proceeds of the sale of new bonds or by exchange for new bonds shall be excluded. Except as may otherwise be expressly provided by the authority, the bonds of every issue shall be general obligations of the authority payable out of any moneys or revenues of the authority, subject only to any agreements with the holders of particular bonds pledging any particular moneys or revenues.

b. The bonds shall be authorized by resolution of the board and shall bear such date or dates, mature at such time or times, not exceeding thirty years from their respective dates, bear interest at such rate or rates, not exceeding five per centum per annum payable annually or semi-annually, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America at such place or places, and be subject to such terms of redemption prior to maturity, at par or a price not exceeding one hundred five per centum of the face value, as such resolution or resolutions may provide. The bonds of the authority may be sold at public or private sale. The bonds shall be sold for a price not less than ninety-eight per centum of the par value thereof, plus accrued interest, provided always that the interest cost on such bonds shall not exceed five per centum per annum.

c. Any resolution or resolutions authorizing any bonds or any issue of bonds may contain provisions, which shall be a part of the contract with the holders of the bonds thereby authorized, as to

(1) pledging all or any part of the revenues of the project to secure the payment of the bonds, subject to such agreements with bondholders as may then exist;

(2) the rentals, fees and other charges to be charged, and the amounts to be raised in each year thereby, and the use and disposition of the revenues;

(3) the setting aside of reserves or sinking funds, and the regulation and disposition thereof;

(4) limitations on the right of the authority to restrict and regulate the use of the project;

(5) limitations on the purpose to which the proceeds of sale of any issue of bonds then or thereafter to be issued may be applied and pledging such proceeds to secure the payment of the bonds or of any issue of the bonds;

(6) limitations on the issuance of additional bonds; the terms upon which additional bonds may be issued and secured: the refunding of outstanding or other bonds;

(7) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(8) limitations on the amount of moneys derived from the project to be expended for operating, administrative or other expenses of the authority;

(9) vesting in a trustee or trustees such property, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders pursuant to section seventeen hereof and limiting or

abrogating the right of the bondholders to appoint a trustee under said section or limiting the rights, duties and powers of such trustee;

(10) any other matters, of like or different character, which in any way affect the security or protection of the bonds.

d. It is the intention hereof that any pledge of revenues or other moneys made by the authority shall be valid and binding from the time when the pledge is made; that the revenues or other moneys so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act; and that the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

e. Neither the members of the authority nor any person executing the bonds shall be liable personally on the bonds or be subject to any personal liability or accountability by reason of the issuance thereof.

f. The authority shall have power out of any funds available therefor to purchase bonds. The authority shall cancel such bonds.

* NB Authority dissolved September 1, 1977

*** § 2060. Notes of the authority.** The authority shall have power from time to time to issue negotiable notes in conformity with applicable provisions of the uniform commercial code and from time to time to issue renewal notes, herein referred to as notes, maturing not later than five years from their respective dates in an amount which, together with bonds then outstanding, shall not at any one time exceed the amount stated in subdivision a. of section nineteen hundred eighty-four of this title excluding bonds issued to fund said notes. Subject to any agreements with bondholders thereof the authority may pledge such moneys or revenues for the payment of the notes and may in addition secure the notes in the same manner and with the same effect as herein provided for bonds. The notes shall be issued in the same manner as bonds. The authority shall have power to make contracts for the future sale from time to time of the notes, by which the purchasers shall be committed to purchase the notes from time to time on terms and conditions stated in such contracts, and the authority shall have power to pay such consideration as it shall deem proper for such commitments. In case of default on its notes, or violation of any of the obligations of the authority to the noteholders, the noteholders shall have all the remedies provided herein for bondholders.

* NB Authority dissolved September 1, 1977

*** § 2061. Agreements of the state.** The state of New York does pledge to and agree with the holders of the bonds that the state will not limit or impair the rights hereby vested in the authority to acquire, construct, maintain, reconstruct and operate the project, to establish and collect rentals, fees and other charges and to fulfill the terms of any agreements made with the holders of the bonds, or in any way impair the rights and remedies of the bondholders, until the bonds, together with interest thereon, with interest on any paid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders are fully met and discharged.

* NB Authority dissolved September 1, 1977

*** § 2062. New York state and Broome county not liable on bonds.** The bonds and other obligations of the authority shall not be a debt of the state of New York or of the county of Broome, and neither the state nor the county shall be liable thereon, nor shall they be payable out of any funds other than those of the authority.

* NB Authority dissolved September 1, 1977

*** § 2063. Bonds legal investments for public officers and fiduciaries.** The bonds are hereby made securities in which all public officers and bodies of this state and all municipalities and municipal subdivisions, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, investment companies and other persons carrying on a banking business and all other persons whatsoever, except as hereinafter provided, who are now or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them; provided that, notwithstanding the provisions of any other general or special law to the contrary, such shall not be eligible for the investment of funds, including capital, trusts, estates or guardianships under the control of individual administrators, guardians, executors, trustees and other individual fiduciaries. The bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities and municipal subdivisions for any purpose for which the deposit of bonds or other obligations of this state is now or may hereafter be authorized.

* NB Authority dissolved September 1, 1977

*** § 2064. Exemptions from taxation.** It is hereby found, determined and declared that the creation of the authority and the carrying out of its corporate purposes will alleviate juvenile delinquency, will improve the general health and welfare, will in all respects benefit the people of the state of New York, and constitutes a public purpose, and that the authority will be performing an essential governmental function in the exercise of the powers conferred upon it by this title, and the state of New York covenants with the holders of the bonds that the authority shall be required to pay no taxes or assessments upon any of the property acquired by it or under its jurisdiction, control, possession or supervision or upon its activities in the operation and maintenance of the project or any tolls, revenues or other income received by the authority and that the bonds of the authority and the income therefrom shall at all times be exempt from taxation, except for transfer and estate taxes.

* NB Authority dissolved September 1, 1977

*** § 2065. Tax contract by the state.** The state of New York covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the authority pursuant to this title, in consideration of the acceptance of and payment for the bonds, that the bonds of the authority issued pursuant to this title and the income therefrom, and all moneys, funds and revenues pledged to pay or secure the payment of such bonds, shall at all times be free from taxation except for transfer and estate taxes.

* NB Authority dissolved September 1, 1977

*** § 2066. Remedies of bondholders.** a. In the event that the authority shall default in the payment of principal of or interest on any issue of the bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title, or shall default in any agreement made with the holders of any issue of the bonds, the holders of twenty-five per centum in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county of Broome and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purposes herein provided.

b. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds then outstanding shall, in his or its own name

(1) by suit, action or proceeding at law or in equity enforce all rights of the bondholders, including the right to require the authority to collect revenues adequate to carry out by any agreement as to, or pledge of, such revenues, and to require the authority to carry out any other agreements with the holders of such bonds and to perform its duties under this title;

(2) bring suit upon such bonds;

(3) by action in suit in equity, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(4) by action or suit in equity, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds;

(5) declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

c. The supreme court shall have jurisdiction of any suit, action or proceeding by the trustee on behalf of the bondholders. The venue of any such suit, action or proceeding shall be laid in the county of Broome.

d. Before declaring the principal of all such bonds due and payable, the trustee shall first give thirty days' notice in writing to the authority.

e. Any such trustee, whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project the revenues of which are pledged for the security of the bonds of such issue, and the receiver may enter and take possession of such part or parts of the project and, subject to any pledge or agreement with bondholders, shall take possession of all moneys and other property derived from or applicable to the construction, operation, maintenance and reconstruction of such part or parts of the project and proceed with any construction thereon which the authority is under obligation to do and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee, the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements, and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from such project.

f. The trustee shall, in addition to the foregoing, have and possess

all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

* NB Authority dissolved September 1, 1977

*** § 2067. Actions against the authority.** a. In every action against the authority for damages, for injuries to real or personal property, or for the destruction thereof, or for personal injuries or death, the complaint shall contain an allegation that at least thirty days have elapsed since the demand, claim or claims upon which such action is founded were presented to a member of the authority, or to its secretary, or to its chief executive officer and that the Authority has neglected or refused to make an adjustment or payment thereof for thirty days after such presentment.

b. An action against the authority founded in tort shall not be commenced more than one year after the cause of action therefor shall have accrued, nor unless a notice of claim shall have been served on the authority within the time limited, and in compliance with all the requirements of section fifty-e of the general municipal law.

c. All actions against the authority of whatsoever nature shall be brought in the county of Broome.

* NB Authority dissolved September 1, 1977

*** § 2068. Title not affected if in part unconstitutional or ineffective.** If any section, clause or provision of this title shall be unconstitutional or be ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

* NB Authority dissolved September 1, 1977

*** § 2069. Inconsistent provisions in other acts superseded.** Insofar as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of any local law of the county, the provisions of this title shall be controlling.

* NB Authority dissolved September 1, 1977

TITLE 15

AUBURN INDUSTRIAL DEVELOPMENT AUTHORITY

§ 2300. Short title. This title may be cited as the "Auburn Industrial Development Act."

§ 2302. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. The term "authority" shall mean the Auburn Industrial Development Authority, the corporation created by section twenty-three hundred four of this title;

2. The term "board" shall mean the members of the authority;

3. The term "city" shall mean the city of Auburn;

4. The term "bonds" shall mean the bonds, notes, and other obligations issued by the authority pursuant to this title;

5. The term "project" shall mean any land in one or more areas of the city and within or outside or partially within and partially outside the city and any building, structure, facility or other improvement thereon, including, but not limited to machinery and equipment and all real and personal properties deemed necessary in connection therewith, whether or not now in existence or under construction, which shall be necessary or suitable for industrial, warehousing, research or commercial purposes, or for use by a federal agency or a medical facility and which may include or mean an industrial pollution control facility or a civic facility, provided, however, the authority shall not provide financial

assistance in respect of any project wholly or partially outside the city provided, however, that the authority may provide financial assistance for such a project where a portion of the project outside the city is contiguous to a portion of the project located within the city if the authority obtains the prior consent thereto by the governing body or bodies of all the other cities, towns or villages in which a part or parts of the project is, or is to be, located.

6. The term "project occupant" shall mean the industrial, manufacturing or commercial enterprise, medical facility, or federal agency which proposes to use a project, as defined in subdivision five of this section, undertaken by the authority.

7. The term "revenues" shall mean any revenues, rents, fees or other charges derived by or on behalf of the authority from any project.

8. The term "state" shall mean the state of New York.

9. The term "federal agency" shall mean and include the United States of America and any department of or corporation, agency or instrumentality heretofore or hereafter created, designated or established by the United States of America, and any independent establishment of the executive branch of the government of the United States of America, including the United States postal service.

10. The term "medical facility" shall mean a hospital or other facilities, whether or not operated for profit, for the prevention, diagnosis or treatment of human disease, pain, injury, disability, deformity or physical condition.

11. The term "industrial pollution control facility" shall mean any equipment, improvement, structure or facility or any land and any building, structure, facility or other improvement thereon, or any combination thereof, and all real and personal property deemed necessary therewith, which are not of a character or nature then or formerly furnished or supplied by the city, having to do with or the end purpose of which is the control, abatement or prevention of land, sewer, water,

air, noise or general environmental pollution deriving from the operation of industrial, manufacturing, warehousing, commercial, medical and research facilities and facilities for use by a federal agency, including, but not limited to any air pollution control facility, noise abatement facility, water management facility, waste water collecting system, waste water treatment works, sewage treatment works system, sewage treatment system or solid waste disposal facility or site.

12. The term "financial assistance" shall mean the proceeds of bonds issued by the authority, straight-leases or exemptions from taxation claimed by a project occupant as a result of the authority taking title, possession or control (by lease, license or otherwise) to the property or equipment of such project occupant or of such project occupant acting as an agent of the authority.

13. The term "straight-lease transaction" shall mean a transaction in which the authority takes title, possession or control (by lease, license or otherwise) to the property or equipment of a lessee, entitling such property or equipment to be exempt from taxation according to the provisions of section twenty-three hundred twenty-six of this title, and no financial assistance in the form of the proceeds of bonds issued by the authority is provided to the project occupant.

14. The term "affected tax jurisdiction" shall mean any municipality or school district, in which a project is located, which will fail to receive real property tax payments, or other tax payments which would otherwise be due, except for the tax exempt status of the authority involved in a project.

15. The term "payments in lieu of taxes" shall mean any payment made to an agency, or affected tax jurisdiction equal to the amount, or a portion, of real property taxes, or other taxes, which would have been levied by or on behalf of an affected tax jurisdiction if the project was not tax exempt by reason of authority involvement.

16. "Highly distressed area" means (a) a census tract or tracts or block numbering areas or areas or such census tract or block numbering

area contiguous thereto which, according to the most recent census data available, has:

(i) A poverty rate of at least twenty percent for the year to which the data relates or at least twenty percent of households receiving public assistance; and

(ii) An unemployment rate of at least 1.25 times the statewide unemployment rate for the year to which the data relates; or

(b) A city, town, village or county within a city with a population of one million or more for which: (i) the ratio of the full value property wealth, as determined by the comptroller for the year nineteen hundred ninety, per resident to the statewide average full value property wealth per resident; and (ii) the ratio of the income per resident; as shown in the nineteen hundred ninety census to the statewide average income per resident; are each fifty-five percent or less of the statewide average; or

(c) An area which was designated an empire zone pursuant to article eighteen-B of the general municipal law.

§ 2304. Auburn industrial development authority. A public benefit corporation to be known as the "Auburn industrial development authority" is hereby created. Such board shall be a body corporate and politic, constituting a public benefit corporation and its existence shall commence upon the appointment of the members as herein provided. Its members shall consist of a chairman and eight other members all of whom shall be appointed by the mayor of the city for a term of three years, and shall include two members of the common council of the city, one representative of the city school board and one representative from each of the fields of business, industry and labor. Every appointment to the board shall be subject to confirmation by the common council of the city. The chairman and each member shall continue to serve until the appointment and confirmation of his successor. Vacancies in such board occurring otherwise than by expiration of term shall be filled by the mayor by appointment for the unexpired term subject to confirmation of the common council of the city. The mayor may remove the chairman or any member of the board for inefficiency, neglect of duty or misconduct in office, after giving him a copy of the charges against him and an opportunity of being heard in person, or by counsel, in his defense upon not less than ten days' notice. Such removal must be approved by the common council of the city. The members of the board shall be entitled to no compensation for their services but shall be entitled to reimbursement for their actual and necessary expenses incurred in the performance of their official duties. Notwithstanding any inconsistent provisions of law, general, special or local, no officer or employee of the city shall be deemed to have forfeited or shall forfeit his office or employment by reason of his acceptance of membership of the authority created by this article, provided, however, that a member who holds such other public office or employment shall receive no additional compensation or allowance for services rendered pursuant to this title, but shall be entitled to reimbursement for his actual and necessary expenses incurred in the performance of such services. The power of the authority shall be vested in and exercised by a majority of the members of the authority. The authority may delegate to one or more of its members, or to its officers, agents and employees, such powers and duties as it may deem proper. Such board and its corporate existence shall continue only for a period of ten years and thereafter until all its liabilities have been met and its bonds have been paid in full or such liabilities or bonds have otherwise been discharged. Upon its ceasing to exist, all rights and properties shall pass to and be vested in the city.

§ 2305. Video recordings of open meetings and public hearings. The authority shall, to the extent practicable, stream all open meetings and public hearings on its website in real-time. The authority shall post video recordings of all open meetings and public hearings on its website within five business days of the meeting or hearing and shall maintain such recordings for a period of not less than five years.

§ 2306. Purpose and powers of the authority. The purposes of the authority shall be to promote, develop, encourage and assist in the acquiring, constructing, reconstructing, improving, maintaining, equipping and furnishing industrial, manufacturing, warehouse, commercial and research facilities and facilities for use by a federal agency or a medical facility including industrial pollution control facilities, which may include transportation facilities including but not limited to those relating to water, highway, rail and air, in one or more areas of the city, and thereby advance the job opportunities, health, general prosperity and economic welfare of the people of said city and to improve their medical care and standard of living; provided, however, that the authority shall not undertake any project if the completion thereof would result in the removal of an industrial or manufacturing plant of the project occupant from one area of the state to another area of the state or in abandonment of one or more plants or facilities of the project applicant located within the state, provided, however, that neither restriction shall apply if the authority shall determine on the basis of the application before it that the project is reasonably necessary to discourage the project occupant from removing such other plant or facility to a location outside the state or is reasonably necessary to preserve the competitive position of the project occupant in its respective industry. Except as otherwise provided for in this section, no financial assistance of the authority shall be provided in respect of any project where facilities or property that are primarily used in making retail sales to customers who personally visit such facilities constitute more than one-third of the total project cost. For the purposes of this article, "retail sales" shall mean: (i) sales by a registered vendor under article twenty-eight of the tax law primarily engaged in the retail sale of tangible personal property, as defined in subparagraph (i) of paragraph four of subdivision (b) of section eleven hundred one of the tax law; or (ii) sales of a service to such customers. Except, however, that tourism destination projects shall not be prohibited by this paragraph. For the purpose of this paragraph, "tourism destination" shall mean a location or facility which is likely to attract a significant number of visitors from outside the economic development region as established by section two hundred thirty of the economic development law, in which the project is located.

Notwithstanding the provisions of this section to the contrary, such financial assistance may, however, be provided to a project where facilities or property that are primarily used in making retail sales of goods or services to customers who personally visit such facilities to obtain such goods or services constitute more than one-third of the total project cost, where: (i) the predominant purpose of the project would be to make available goods or services which would not, but for the project, be reasonably accessible to the residents of the city of Auburn because of a lack of reasonably accessible retail trade facilities offering such goods or services; or (ii) the project is located in a highly distressed area. With respect to projects authorized pursuant to this paragraph no project shall be approved unless the authority shall find after the public hearing required by section twenty-three hundred seven of this title that undertaking the project will serve the public purposes of this article by preserving permanent, private sector jobs or increasing the overall number of permanent, private sector jobs in the state. Where the authority makes such a finding, prior to providing financial assistance to the project by the authority, the chief executive officer of the city of Auburn shall confirm the proposed action of the authority. To carry out said purpose, the authority shall have power:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To acquire, hold and dispose of personal property for its corporate purpose;

4. To acquire by purchase, grant, lease, gift, condemnation, or otherwise and to use, real property or rights or easements therein necessary for its corporate purposes, and to sell, convey, mortgage, lease, pledge, exchange or otherwise dispose of any such property in such manner as the authority shall determine. With respect to real property conveyed to it by the city, however, such power of disposition shall be limited as hereinafter provided in section twenty-three hundred ten of this title;

5. To make by-laws for the management and regulation of its affairs and, subject to agreements with its bondholders, for the regulation of

the use of the project.

6. With the consent of the city, to use agents, employees and facilities of the city, paying the city its agreed proportion of the compensation or costs.

7. To appoint officers, agents and employees, to prescribe their qualifications and to fix their compensation and to pay the same out of funds of the authority, subject, however, to the provisions of the civil service law hereinafter provided in section twenty-three hundred eight of this title;

8. To retain and employ financial advisors, engineers, architects, attorneys and other consultants for professional and technical assistance and advice; that an attorney acting as bond counsel for a project must file with the authority a written statement in which the attorney identifies each party to the transaction which such attorney represents. If bond counsel provides any legal services to the parties other than the authority, the written statement must describe the nature of legal services provided by such bond counsel to all parties to the transaction, including the nature of the services provided to the authority;

9. To make contracts and leases upon such terms as the authority shall deem appropriate, including without limitation leases which grant the tenant of a project an option to renew or an option to purchase the project, or both, at a fixed or otherwise predetermined price, and to execute all instruments necessary or convenient;

10. To acquire, construct, reconstruct, lease, improve, maintain, equip or furnish one or more projects;

11. To accept gifts, grants, loans or contributions from, and enter into contracts or other transactions with, the United States and the state or any agency of either of them, any municipality, any public or private corporation or any other legal entity, and to use any such gifts, grants, loans or contributions for any of its corporate purposes;

12. To borrow money and to issue bonds and to provide for the rights of the holders thereof;

13. To designate the depositories of its money in the city of Auburn.

14. To enter into agreements requiring payments in lieu of taxes. Such agreements shall be in writing and in addition to other terms shall contain: the amount due annually to each affected tax jurisdiction (or a formula by which the amount due can be calculated), the name and address of the person, office or agency to which payment shall be delivered, the date on which the payment shall be made, and the date on which payment shall be considered delinquent if not paid. Unless otherwise agreed by the affected tax jurisdictions, any such agreement shall provide that payments in lieu of taxes shall be allocated among affected tax jurisdictions in proportion to the amount of real property tax and other taxes which would have been received by each affected tax jurisdiction had the project not been tax exempt due to the status of the agency involved in the project. A copy of any such agreement shall be delivered to each tax affected jurisdiction within fifteen days of signing the agreement. In the absence of any such written agreement, payments in lieu of taxes shall be allocated in the same proportions as they had been prior to January first, nineteen hundred ninety-three for so long as the authority's activities render a project non-taxable by affected tax jurisdictions. A notification of the expiration of such agreement shall be delivered to the affected tax jurisdiction two years prior to the expiration of such agreement and immediately upon early termination of an agreement;

15. To establish and reestablish its fiscal year; and

16. To do all things necessary or convenient to carry out its purposes and exercise the powers expressly given in this title.

§ 2307. Additional prerequisites to the provision of financial assistance. Prior to providing any financial assistance of more than one hundred thousand dollars to any project, the authority must comply with the following prerequisites:

1. The authority must adopt a resolution describing the project and the financial assistance that the authority is contemplating with respect to such project. Such assistance shall be consistent with the uniform tax exemption policy adopted by the agency pursuant to subdivision one of section twenty-three hundred fifteen of this chapter, unless the agency has followed procedures for deviation from such policy specified in subdivision two of such section.

1-a. The authority shall deliver a copy of the resolution adopted pursuant to subdivision one of this section by certified mail, return receipt requested or an electronic correspondence with a read-receipt, to the chief executive officer of each affected tax jurisdiction. When the affected tax jurisdiction is a school district, the authority shall deliver a copy of such resolution by certified mail, return receipt requested or an electronic correspondence with a read-receipt, to the district clerk and district superintendent of each affected school district.

2. The authority must hold a public hearing with respect to the project and the proposed financial assistance being contemplated by the authority. At said public hearing, interested parties shall be provided reasonable opportunity, both orally and in writing, to present their views with respect to the project.

3. The authority must give at least ten days published notice of said public hearing and shall, at the same time, provide notice of such hearing to the chief executive officer of each affected tax jurisidiction within which the project is located. The notice of hearing must state the time and place of the hearing, contain a general, functional description of the project, describe the prospective location of the project, identify the initial owner, operator or manager of the project and generally describe the financial assistance contemplated by the authority with respect to the project.

4. The authority shall establish a procedure for compliance with the notification requirements, including identification of the notification method, of subdivision one-a of this section and subdivision two of section twenty-three hundred fifteen of this title.

§ 2308. Civil service status of officers and employees. Officers and employees of any board, commission or department of the city may be transferred to the authority in accordance with the provisions of the civil service law and shall be eligible for such transfer and appointment without examination to offices and positions under the authority. Officers and employees of the city who are members or beneficiaries of any existing pension or retirement system shall continue to have the rights, privileges, obligations and status with respect to such system or systems as are now prescribed by law, and all such employees who have been appointed to positions in the service of the city under the rules of the municipal civil service commission of the city shall have the same status with respect thereto after transfer to the authority as they had under their original appointments. The appointment and promotion of all employees of the authority shall be made in accordance with the provisions of the civil service law and the rules of the city civil service commission.

§ 2309. Conflicts of interest. All members, officers, and employees of the authority shall be subject to the provisions of article eighteen of the general municipal law.

§ 2310. Conveyance of property by the city to the authority and conveyance and leasing of said property by the authority. 1. The city may, by duly adopted resolution of the common council or by instruments authorized by such resolution, convey, with or without consideration, to the authority real and personal property owned by the city for use by the authority as a project. In case of real property so conveyed, the title thereto shall remain in the city but the authority shall have the use thereof for so long as its corporate existence shall continue and said real property shall be under its jurisdiction, control and supervision within the ambit of section twenty-three hundred twenty-six of this title and exempt from all taxes and assessments except such payments in lieu thereof as may be contained in such resolution or instrument of conveyance. However, such property may be sold, or optioned for sale, by the authority (1) under the payment or agreement to pay reasonable consideration to the city or to the authority according to their respective interest, and (2) upon approval of the terms of such sale, or option for sale, by duly adopted resolution of the common council.

2. To the end that the city or any school district wherein a project or projects or a part thereof of the authority are located may not suffer undue loss of taxes and local improvement assessments the authority in connection with property owned or held by it within the city and such district, is hereby authorized to pay annually in lieu of taxes and local improvement assessments to the city or such school district such sum as may be mutually agreed between the authority and the city or such school district as the case may be. The city and any such school district wherein a project or part thereof of the authority is located is hereby authorized and empowered to enter into an agreement or agreements with the authority to accept the payment or payments which the authority is hereby authorized and empowered to make. The sum so received by the city or any such school district shall be devoted to purposes to which taxes may be applied.

3. The city is authorized to install streets and utilities in the area of the project and to contract with the authority with respect to payments in lieu of local improvement assessments therefor and the authority is authorized so to contract and to make appropriate payments in accordance therewith.

4. The authority is authorized in the event it leases any of the real property conveyed to it by the city, to provide that a portion of the rental derived therefrom shall be allocated to the aforesaid payments in lieu of taxes and assessments and to pay over said portion to the city or school district, as the case may be. The consent of the city or

school district as to the method and amount of such allocation shall be appended to any such lease.

§ 2311. Compensation, procurement and investment. 1. The compensation of an officer or full-time employee of the authority (but not including part-time employees or consultants, including accountants, attorneys and bond counsel to the authority) shall not be contingent on the granting of financial assistance by the authority.

2. The provisions of section one hundred four-b of the general municipal law shall be applicable to the procurement of goods and services paid for by the authority for its own use and account.

3. The provisions of sections ten and eleven of the general municipal law shall be applicable to deposits and investments of funds for an agency's own use and account.

§ 2312. Construction and purchase contracts. The provisions of section eight hundred eighty-four of the general municipal law relating to public bidding with respect to the construction of public facilities or projects shall be applicable to the acquisition, construction, reconstruction, or improvement of projects authorized by this title.

§ 2314. Moneys of the authority. All moneys of the authority, from whatever source derived, shall be paid to the treasurer of the city as agent of the authority, who shall not commingle such moneys with any other moneys. Such moneys shall be deposited in a separate bank account or accounts. The moneys in such accounts shall be paid out by the treasurer on requisition of the chairman of the authority or of such person as the authority may authorize to make such requisitions. All deposits of such moneys shall, if required by the treasurer or the authority, be secured by obligations of the United States or the state of a market value equal at all times to the amount of the deposit, and all banks and trust companies are authorized to give such security for such deposits. The treasurer and his legally authorized representatives are authorized and empowered from time to time to examine the accounts and books of the authority, including its receipts, disbursements, contracts, leases, sinking funds, investments and any other records and papers relating to its financial standing. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any of its bonds as to the custody, collection, securing, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and to carry out any such contract notwithstanding that such contract may be inconsistent with the previous provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys may be secured in the same manner as moneys of the authority, and all banks and trust companies are authorized to give such security for such deposits. The accounts of the authority shall be subject to the supervision of the state comptroller and he or his legally authorized representatives are hereby authorized and empowered from time to time to examine the accounts and books of the authority, including its receipts, disbursements, contracts, sinking funds, investments and any other matter relating to its financial standing and fiscal affairs. The authority shall render a complete annual account of its proceedings to the city council at its first meeting in February of each and every year.

§ 2315. Uniform tax exemption policy. 1. The authority shall establish a uniform tax exemption policy, with input from affected local taxing jurisdictions, which shall be applicable to provisions of financial assistance pursuant to section twenty-three hundred seven of this title and shall provide guidelines for the claiming of real property, mortgage recording, and sales tax exemptions. Such guidelines shall include, but not be limited to: period of exemption; percentage of exemption; types of projects for which exemptions may be claimed; procedures for payments in lieu of taxes and instances in which real property appraisals are to be performed as a part of an application for tax exemption; in addition, the authority in adopting such policy shall consider such issues as: the extent to which a project will create or retain permanent, private sector jobs; the estimated value of any tax exemption to be provided; whether affected tax jurisdictions should be reimbursed by the project occupant if a project does not fulfill the purposes for which an exemption was provided; the impact of a proposed project on existing and proposed businesses and economic development projects in the vicinity; the amount of private sector investment generated or likely to be generated by the proposed project; the demonstrated public support for the proposed project; the likelihood of accomplishing the proposed project in a timely fashion; the effect of the proposed project upon the environment; the extent to which the project will utilize, to the fullest extent practicable and economically feasible, resource conservation, energy efficiency, green technologies, and alternative and renewable energy measures; the extent to which the project will provide onsite child care services or otherwise facilitate new child care services; the extent to which the proposed project will require the provision of additional services, including, but not limited to additional educational, transportation, police, emergency medical or fire services; and the extent to which the proposed project will provide additional sources of revenue for municipalities and school districts.

2. The authority shall establish a procedure for deviation from the uniform tax exemption policy required pursuant to this section. The authority shall set forth in writing the reasons for deviation from such policy, and shall further notify by certified mail, return receipt requested or an electronic correspondence with a read-receipt, the affected local taxing jurisdictions of the proposed deviation from such policy and the reasons therefor. When the affected tax jurisdiction is a school district, the authority shall notify by certified mail, return receipt requested or an electronic correspondence with a read-receipt, the district clerk and district superintendent of each affected school district.

§ 2316. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue its negotiable bonds for any of its corporate purposes in an aggregate principal amount not exceeding five hundred million dollars, including interest during construction and a reasonable period thereafter and such expenses as may be deemed by the board necessary or desirable to the financing thereof and placing the project or projects in operation. The authority shall have power from time to time and whenever it deems refunding expedient, to refund any bonds by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other purpose hereinabove described. The refunding bonds may be exchanged for the bonds to be refunded, with such cash adjustments as may be agreed, or may be sold and the proceeds applied to the purchase or payment of the bonds to be refunded. In computing the total amount of bonds of the authority which may at any time be outstanding the amount of the outstanding bonds to be refunded from the proceeds of the sale of new bonds or by exchange of new bonds shall be excluded. Except as may otherwise be expressly provided by the authority, the bonds of every issue shall be general obligations of the authority payable out of any moneys or revenues of the authority, subject only to any agreements with the holders of particular bonds pledging any particular moneys or revenues. Whether or not the bonds are of such form and character as to be negotiable instruments under article eight of the uniform commercial code the bonds shall be and are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

2. The bonds shall be authorized by resolution of the authority and shall bear such date or dates, mature at such time or times not exceeding thirty years from their respective dates, bear interest at such rates, not exceeding fifteen per centum per annum payable annually or semi-annually, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America at such place or places and be subject to such terms of redemption, as such resolution or resolutions may provide. The bonds may be sold at public or private sale for such price or prices as the authority shall determine, but which shall not at the time of sale yield more than fifteen per centum per annum.

3. Any resolution or resolutions authorizing any bonds or any issue of bonds may contain provisions, which shall be a part of the contract with the holders of the bonds thereby authorized, as to

(a) pledging all or any part of the revenues of a project or projects to secure the payment of the bonds, subject to such agreements with bondholders or the city as may then exist;

(b) the rentals, fees and other charges to be charged, and the amounts to be raised in each year thereby, and the use and disposition of the revenues;

(c) the setting aside of reserves or sinking funds, and the regulation and disposition thereof;

(d) limitations on the right of the authority to restrict and regulate the use of a project;

(e) limitations on the purpose to which the proceeds of sale of any issue of bonds then or thereafter to be issued may be applied and pledging such proceeds to secure the payment of the bonds or any issue of the bonds;

(f) limitations on the issuance of additional bonds; the terms upon which additional bonds may be issued and secured; the refunding of outstanding or other bonds;

(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) limitations on the amount of moneys derived from a project to be expended for operating, administrative or other expenses of the authority;

(i) vesting in a trustee or trustees such property, rights, powers and duties in trust as the authority may determine which may include any or all the rights, powers and duties of the trustees appointed by the bondholders pursuant to section twenty-three hundred thirty hereof, and limiting or abrogating the right of the bondholders to appoint a trustee under said section or limiting the rights, duties and powers of trustee;

(j) any other matters, of like or different character, which in any way affect the security or protection of the bonds.

§ 2318. Notes of the authority. The authority shall have power from time to time to issue notes and from time to time issue renewal notes (herein referred to as notes) maturing not later than five years from their respective original dates in an amount not exceeding at any time one hundred thousand dollars, over and above the amount of bonds authorized by subdivision one of section twenty-three hundred sixteen of this title, for any purpose or purposes for which bonds may be issued, whenever the authority shall determine that payment thereof can be made in full from any moneys or revenues which the authority expects to receive from any source. Such notes may among other things, be issued to provide funds to pay preliminary costs of studies, surveys, plans or other matters relating to any proposed project. The authority may pledge such moneys or revenues (subject to any other pledge thereof) for the payment of the notes and may in addition secure the notes in the same manner and with the same effect as herein provided for bonds. The notes shall be issued in the same manner as bonds. The authority shall have power to make contracts for the future sale from time to time of the notes, by which the purchasers shall be committed to purchase the notes from time to time on terms and conditions stated in such contracts, and the authority shall have power to pay such consideration as it shall deem proper for such commitments. In case of default on its notes or violation of any of the obligations of the authority to the noteholders, the noteholders shall have all the remedies provided herein for bondholders. Such notes shall be as fully negotiable as the bonds of the authority.

§ 2320. Agreements of the city and state. The city is authorized to, and the state does hereby, pledge to and agree with the holders of the bonds that neither the city nor the state, respectively, will limit or alter the rights, hereby vested in the authority to acquire, construct, reconstruct, improve, maintain, equip and finish the project or projects, to establish and collect rentals, fees and other charges and to fulfill the terms of any agreements made with the holders of the bonds, nor in any way impair the rights and remedies of the bondholders, until the bonds, together with interest thereon, with interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of the bondholders, are fully met and discharged.

§ 2322. State and city not liable on bonds. The bonds and other obligations of the authority shall not be a debt of the state or of the city, and neither the state nor the city shall be liable thereon, nor shall they be payable out of any funds other than those of the authority.

§ 2324. Bonds as legal investments. The bonds are hereby made securities in which all public officers and bodies of this state and all municipalities and municipal subdivisions, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, and all other persons whatsoever except as hereinafter provided, who are now or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them: provided that, notwithstanding the provisions of any other general or special law to the contrary, such bonds shall not be eligible for the investment of funds, including capital, of trusts, estates or guardianships under the control of individual administrators, guardians, executors, trustees and other individual fiduciaries. The bonds are also hereby made securities which may be deposited with and shall be received by all public officers and bodies of this state and all municipalities and municipal subdivisions for any purpose for which the deposit of bonds or other obligations of this state is now or may hereafter be authorized.

§ 2326. Tax exemptions. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the city and its environs, and is a public purpose, and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall be required to pay no taxes or assessments upon any of the property acquired by it or under its jurisdiction or control or supervision or upon its activities. Provided, however, if the authority is located within a transportation district referenced in paragraph (a) of subdivision two of section two hundred fifty-three of the tax law, it shall not be exempt from the additional tax on each mortgage of real property situated within the state imposed by such paragraph.

2. Any bonds or notes issued pursuant to this title, together with the income therefrom, as well as the property of the authority, shall be exempt from taxation, except for transfer and estate taxes.

3. Agents of the authority and project operators shall annually file a statement with the department of taxation and finance, on a form and in such a manner as is prescribed by the commissioner of taxation and finance, of the value of all sales and use tax exemptions claimed by such agents or agents of such agents or project operators, including, but not limited to, consultants or subcontractors of such agents or project operators, under the authority granted pursuant to this section. The penalty for failure to file such statement shall be the removal of the authority to act as an agent of the authority or as a project operator.

4. (a) Within thirty days of the date that the authority designates a project operator or other person to act as agent of the authority for purposes of providing financial assistance consisting of any sales and compensating use tax exemption to such person, the agency shall file a statement with the department of taxation and finance relating thereto, on a form and in such manner as is prescribed by the commissioner of taxation and finance, identifying each such agent so named by the authority, setting forth the taxpayer identification number of each such agent, giving a brief description of the property and/or services intended to be exempted from such taxes as a result of such appointment as agent, indicating the authority's rough estimate of the value of the

property and/or services to which such appointment as agent relates, indicating the date when such designation as agent became effective and indicating the date upon which such designation as agent shall cease.

(b) Within thirty days of the date that the authority's designation described in paragraph (a) of this subdivision has been amended, terminated, been revoked, or become invalid or ineffective for any reason, the authority shall file a statement with the department of taxation and finance relating thereto, on a form and in such manner as is prescribed by the commissioner of taxation and finance, identifying each such agent so named by the authority in the original designation and setting forth the taxpayer identification number and other identifying information of each such agent, the date as of which the original designation was amended, terminated, revoked, or became invalid or ineffective and the reason therefor, together with a copy of the original designation.

§ 2326-a. Special provisions applicable to state sales and compensating use taxes and certain types of facilities. The provisions of section eight hundred seventy-five of the general municipal law shall apply to the provisions of this title and to the authority created by this title with the same force and effect as if the provisions of such section eight hundred seventy-five had been incorporated in full into this title and had expressly referred to the provisions of this title and to such authority, with such changes to such section as are necessary to refer to the provisions of this title and to the authority created by this title.

§ 2327. Financial records. 1. The authority shall maintain books and records in such form as may be prescribed by the state comptroller.

2. Annually within ninety days following the close of its fiscal year, the authority shall prepare and file a financial report for that fiscal year complying with the requirements of section eight hundred fifty-nine of the general municipal law.

3. If the authority fails to file or substantially complete, as determined by the state comptroller, the financial statement required by section eight hundred fifty-nine of the general municipal law, the penalties set forth in section eight hundred fifty-nine of the general municipal law shall apply to the authority.

4. The authority shall mail or deliver to the chief executive officer and the governing body of the city of Auburn and make available for public inspection and comment, its proposed budget for the forthcoming fiscal year, no later than twenty business days before adoption. At such time the authority shall file its proposed budget with the clerk of the city of Auburn. Such proposed budget shall contain detailed estimates in writing of the amount of revenues to be received and expenditures to be made during the forthcoming fiscal year. Following its consideration of the comments received, the agency may revise its budget accordingly and shall file the revised budget with the clerk of the city of Auburn.

5. Payments in lieu of taxes received by the authority shall be paid over to each affected tax jurisdiction within thirty days of receipt.

6. Payments in lieu of taxes which are delinquent under the agreement or which the authority fails to remit pursuant to subdivision five of this section shall be subject to a late payment penalty of five percent of the amount due which shall be paid by the project occupant (where taxes are delinquent because of the occupant's failure to make the required payment) or the agency (because of the agency's failure to remit pursuant to subdivision five of this section) to the affected tax jurisdiction at the time the payment in lieu of taxes is paid. For each month, or part thereof, that the payment in lieu of taxes is delinquent beyond the first month, interest shall accrue to and be paid to the affected tax jurisdiction on the total amount due plus a late payment penalty in the amount of one percent per month until the payment is made.

7. An affected tax jurisdiction which has not received a payment in lieu of taxes due to it under an agreement may commence legal action in any court of competent jurisdiction directly against any person, firm,

corporation, organization or agency which is obligated to make payments in lieu of taxes under an agreement and has failed to do so. In such an action, the affected tax jurisdiction shall be entitled to recover the amount due, the late payment penalty, interest, expenses, costs and disbursements together with the reasonable attorneys' fees necessary to prosecute such action. Nothing herein shall be construed as providing an affected tax jurisdiction with the right to sue and recover from an agency which has not received payments in lieu of taxes from a project occupant.

8. Any refinancing of a project shall be subject to the provisions of section twenty-three hundred seven of this chapter, except where such refinancing was previously approved pursuant to such section.

9. Agents of the authority and project operators shall annually file a statement with the state department of taxation and finance, on a form and in such a manner as is prescribed by the commissioner of taxation and finance, of the value of all sales and use tax exemptions claimed by such agents or agents of such agents or project operators, including, but not limited to, consultants or subcontractors of such agents or project operators under the authority granted pursuant to this section. The penalty for failure to file such statements shall be removal of authority to act as agent of the authority or project operator.

§ 2328. Tax contract by the state. The state covenants with the purchasers and with all subsequent holders and transferees of bonds or notes issued by the authority pursuant to this title, in consideration of the acceptance of and payment for the bonds or notes, that the bonds and notes of the authority issued pursuant to this title and the income therefrom, and all moneys, funds and revenues pledged to pay or secure the payment of such bonds or notes shall at all times be free from taxation except for estate taxes and taxes on transfers by or in contemplation of death.

§ 2329. Equal opportunity. 1. The authority shall ensure that all employees and applicants for employment are afforded equal employment opportunity without discrimination.

2. Except as is otherwise provided by collective bargaining contracts or agreements, new employment opportunities created as a result of projects of the agency shall be listed with the New York state department of labor community services division, and with the administrative entity of the service delivery area created by the federal job training partnership act (P.L. No. 97-300) in which the project is located. Except as is otherwise provided by collective bargaining contracts or agreements, sponsors of projects shall agree, where practicable, to first consider persons eligible to participate in federal job training partnership (P.L. No. 97-300) programs who shall be referred by administrative entities of service delivery areas created pursuant to such act or by the community services division of the department of labor for such new employment opportunities.

§ 2330. Remedies of bondholders. 1. In the event that the authority shall default in the payment of principal of or interest on any issue of the bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title, or shall default in any agreement made with the holders of any issue of the bonds, the holders of twenty-five per centum in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county of Cayuga and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purposes herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds then outstanding shall, in his or its own name.

(a) by suit, action or special proceeding enforce all rights of the bondholders, including the right to require the authority to collect revenues adequate to carry out any agreement as to, or pledge of, such revenues, and to require the authority to carry out any other agreements with the holders of such bonds and to perform its duties under this title;

(b) bring suit upon such bonds;

(c) by action or special proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) by action or special proceeding enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds;

(e) declare all such bonds due and payable, and if all defaults shall be made good then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. The supreme court shall have jurisdiction of any suit, action or proceeding by the trustee on behalf of bond-holders. The venue of any such suit, action or proceeding shall be laid in the county of Cayuga.

4. Before declaring the principal of all such bonds due and payable, the trustee shall first give thirty days' notice in writing to the authority.

5. Any such trustee, whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project the revenues of which are pledged for the security of the bonds of such issue, and such receiver may enter and take possession of such part or parts of the project and, subject to any pledge or agreement with bondholders, shall take possession of all moneys and other property derived from or applicable to the acquisition, construction, operation, maintenance and reconstruction of such part or parts of the project and proceed with the acquisition of any necessary real property in connection with the project that the authority has covenanted to construct, and with any construction which the authority is under obligation to do and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter

arising therefrom subject to any pledge thereof or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee, the fee, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from such project.

6. Such trustee shall, in addition to the foregoing, have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

§ 2332. Actions against the authority. 1. In an action against the authority founded upon tort, the complaint shall contain an allegation that at least thirty days have elapsed since the demand, claim or claims upon which the action is founded were presented to a member of the authority and to its secretary or to its chief executive officer, and that the authority has neglected or refused to make an adjustment or payment thereof for thirty days after the presentment.

2. In a case founded upon tort, a notice of claim shall be required as a condition precedent to the commencement of an action or special proceeding against the authority or an officer, appointee or employee thereof, and the provisions of section fifty-e of the general municipal law shall govern the giving of such notice. No action shall be commenced more than one year and ninety days after the cause of action therefor shall have accrued.

§ 2333. Limitation of liability. Except for acts of omission or commission, with a specific intent to defraud, neither the members of the authority, nor any person or persons acting in its behalf, and within the scope of their authority, shall be subject to any personal liability resulting from the issuance of any notes or bonds of the authority; from the erection, construction, reconstruction, maintenance or operation of any project; or from carrying out any of the powers expressly given in this title.

§ 2334. Termination of the authority. Whenever all of the bonds issued by the authority shall have been redeemed or cancelled, and all straight-lease transactions have been terminated, the authority shall cease to exist and all rights, titles, and interest and all obligations and liabilities thereof vested in or possessed by the authority shall thereupon vest in and be possessed by the city of Auburn.

§ 2336. Title not affected if in part unconstitutional or ineffective. If any section, clause or provisions of this title shall be unconstitutional or be ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 2338. Inconsistent provisions in other acts superseded. Insofar as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of any local law of the city, the provisions of this title shall be controlling.

TITLE 17

STATE OF NEW YORK MORTGAGE AGENCY ACT

PART I

§ 2400. Short title. This title shall be known and may be cited as the "state of New York mortgage agency act".

§ 2401. Legislative findings. * It is hereby found and declared that there continues to exist throughout the state a seriously inadequate supply of safe and sanitary dwelling accommodations, including accommodations for persons and families of low income, and a seriously inadequate supply of credit available for new residential improvement loans at carrying charges within the financial means of persons and families of low or moderate income. This condition is contrary to the public interest and threatens the health, safety, welfare, comfort and security of the people of the state. It is found and declared that one major cause of this condition has been recurrent, cyclical shortages of funds in private banking channels available for residential mortgages. Such shortages have contributed to drastic reductions in construction starts of new residential units. In addition, they have made the sale and purchase of existing residential units a virtual impossibility in many parts of the state. The ordinary operations of private enterprise have not in the past corrected these conditions.

* NB Effective until July 23, 2027

* It is hereby found and declared that there continues to exist throughout the state a seriously inadequate supply of safe and sanitary dwelling accommodations, including accommodations for persons and families of low income. This condition is contrary to the public interest and threatens the health, safety, welfare, comfort and security of the people of the state. It is found and declared that one major cause of this condition has been recurrent, cyclical shortages of funds in private banking channels available for residential mortgages. Such shortages have contributed to drastic reductions in construction starts of new residential units. In addition, they have made the sale and purchase of existing residential units a virtual impossibility in many parts of the state. The ordinary operations of private enterprise have not in the past corrected these conditions.

* NB Effective July 23, 2027

It is further found and declared that the drastic reduction in residential construction starts associated with such shortages have caused a condition of substantial unemployment and underemployment in the construction industry which results in hardships to many individuals and families, wastes vital human resources, increases the public assistance burdens of the state and municipalities, impairs the security of family life, impedes the economic and physical development of municipalities and adversely affects the welfare and prosperity of all the people of the state. A stable supply of adequate funds for residential mortgages is required to spur new housing starts in an orderly and sustained manner and thereby to reduce the hazards of unemployment and underemployment in the construction industry. The unaided operations of private enterprise have not met and cannot meet the need for a stable supply of adequate funds for residential mortgage financing.

It is further found and declared that these conditions associated with such recurrent shortages of residential mortgage funds contribute to the persistence of slums and blight and to the deterioration of the quality of the environment and living conditions of a large number of persons residing in the state of New York, have adversely affected the economy of the state as a whole and are contrary to the declared policy of the state to promote a vigorous and growing economy, to prevent economic stagnation, to increase revenues to the state and to its municipalities and to achieve stable local economies.

* Based upon the experience of the past, most recently during the periods of illiquidity which occurred in nineteen hundred sixty-six and again in nineteen hundred sixty-nine, shortages of funds for residential mortgages in the private banking system can be expected to recur from time to time in varying degrees of severity with the adverse consequences described above. To avoid or minimize such consequences, to bring greater stability to the residential construction industry and related industries, and thus to assure a steady flow of production of new housing units, there should be created a corporate governmental agency to be known as the "state of New York mortgage agency" which, through issuance of bonds and notes to the private investing public during periods when there is an inadequate supply of credit available for new loans for residential housing and housing improvement purposes, may (i) purchase existing mortgages from banks and direct an amount

equal to the proceeds from the liquidated mortgage investments into new mortgages on residential family dwelling units, (ii) purchase new mortgages on residential family dwelling units, (iii) purchase new housing loans for the rehabilitation or improvement of residential family dwelling units, and (iv) purchase lease-to-own mortgage loans.

* NB Effective until July 23, 2027

* Based upon the experience of the past, most recently during the periods of illiquidity which occurred in nineteen hundred sixty-six and again in nineteen hundred sixty-nine, shortages of funds for residential mortgages in the private banking system can be expected to recur from time to time in varying degrees of severity with the adverse consequences described above. To avoid or minimize such consequences, to bring greater stability to the residential construction industry and related industries, and thus to assure a steady flow of production of new housing units, there should be created a corporate governmental agency to be known as the "state of New York mortgage agency" which, through issuance of bonds and notes to the private investing public, may purchase existing mortgages from banks within the state during periods when there is an inadequate supply of credit available for new residential mortgage loans and direct an amount equal to the proceeds from the liquidated mortgage investments into new mortgages on residential real property for family units.

* NB Effective July 23, 2027

It is further found and declared that in addition to issuance of bonds and notes for such purposes, the accessibility of credit available for new loans for residential housing and housing improvement purposes will also be increased by making available to the people of the state to the fullest extent possible the benefit of federal programs providing credits against income tax for a portion of interest paid on residential mortgage and housing loans.

The secondary mortgage market provided by the corporate governmental agency created by this title is hereby found and determined to be an appropriate and effective means of making residential mortgages a more attractive investment for the private banking system, of reducing the volatility of mortgage flows over the business cycle, and of providing greater stability for the economies of the state and its municipalities.

It is further found and determined that it has long been the public policy of the state to encourage every student who has the desire and capacity to pursue a post-secondary education. To this end, the state has developed one of the foremost systems of public higher education in the nation, as well as a substantial program of grants and loans to help finance the education of students attending both public and private post-secondary educational institutions.

Nevertheless, the rising costs to students of post-secondary education are placing the goal of such study beyond the financial reach of a growing proportion of our potential student population, particularly those young men and women coming from families of low- and middle-income. To effectively meet this fiscal crisis in post-secondary education, which is contrary to the general welfare of our citizens, it is hereby found and determined that the student loan programs in the state should be restructured to make available to every student financial assistance in the attainment of his college or career education and that the state of New York mortgage agency should be authorized to issue its bonds and notes for the purpose of making available funds with which to make available such student loans.

It is further found and determined that there is a need to establish a program to assist homeowners in the state of New York who have been affected by the national mortgage crisis who are either delinquent on their mortgage payments or are in danger of going into default because of economic hardship, as such term is defined under the agency's guidelines, in consultation with the advisory council established in subdivision three of section twenty-four hundred five-f of this part, who may lose their homes to foreclosure, or who may have abandoned their homes due to economic hardship and who may benefit from assistance. In addition, the existence of vacant, abandoned, distressed, dilapidated or reasonably beyond repair properties may contribute to the persistence of conditions that increase blight and add to the deterioration of the quality of the environment and living conditions of a large number of persons residing in the state. To address these conditions, it is hereby found and determined that the state of New York mortgage agency shall be authorized to create and manage a fund to acquire residences and to purchase mortgages and mortgage notes, or to provide monies to eligible institutions to acquire residences and to purchase mortgages and mortgage notes and to carry out such other functions in connection with such acquisitions as are necessary to accomplish the purposes of this paragraph. In connection therewith, the state of New York mortgage agency shall be authorized to create a subsidiary corporation to carry out the program authorized under this paragraph.

It is further found and determined that there is a shortage of adequate funds to assist in the new construction of modular and manufactured housing, and to assist in the purchase of existing modular and manufactured housing.

§ 2402. Definitions. As used in this title, the following words and terms shall have the following meanings unless the context shall indicate another or different meaning or intent:

(1) "Agency". The state of New York mortgage agency, the corporate governmental agency created by section two thousand four hundred three of this title.

* (2) "Bank". Any bank or trust company, savings bank, savings and loan association, industrial bank, credit union, national banking association, federal savings and loan association, federal savings bank or federal credit union which is located in the state. The term "bank" shall also include a New York state licensed mortgage banker, or a domestic not-for-profit corporation whose public purposes include combatting community deterioration and which is an exempt organization as defined in paragraph (e) of subdivision one of section five hundred ninety of the banking law, or an entity exempt from licensing provisions in accordance with paragraph (a) of subdivision two of such section, which in any such case is approved as a mortgage lender by the Federal National Mortgage Association or by the Federal Home Loan Mortgage Corporation, or domestic not-for-profit corporations that are certified by the United States department of treasury as community development financial institutions or licensed by the New York state department of

financial services.

* NB Effective until July 23, 2027

* (2) "Bank". Any bank or trust company, savings bank, savings and loan association, industrial bank, credit union, national banking association, federal savings and loan association or federal credit union which is located in the state.

* NB Effective July 23, 2027

(3) "Bonds" and "Notes". The bonds and notes respectively issued by the agency pursuant to this title.

(4) "Comptroller". The comptroller of the state.

* (5) "Mortgage". A loan owed to a bank secured by a first lien on (i) a fee simple or leasehold estate in real property, or (ii) any other instrument which shall constitute or create a security interest in tangible personal property constituting modular or manufactured housing, located in the state and improved by a residential structure or, on which a residential structure for use as single-family modular or manufactured housing purchased and sited on land shall be constructed using the proceeds of such loan, whether or not insured or guaranteed by the United States of America or any agency thereof. The term "mortgage" shall also include a loan owed to a bank secured by a second lien on (i) a fee simple or leasehold estate in real property, or (ii) any other instrument which shall constitute or create a security interest in tangible personal property constituting modular or manufactured housing, located in the state and improved by a residential structure or on which a residential structure for use as single-family modular or manufactured housing purchased and sited on land shall be constructed using the proceeds of the related loan described in paragraph (a) or (b) of this subdivision, whether or not insured or guaranteed by the United States of America or any agency thereof, provided, however, that such second lien: (a) secures a loan purchased by the agency, and (b) is made at the same time as a first lien securing a loan purchased by the agency pursuant to its programs or by a government sponsored enterprise or is made at the same time as a new housing loan purchased by the agency pursuant to section twenty-four hundred five-c of this part. The term "mortgage" shall also include loans made by the agency and secured by a second lien on (i) a fee simple or leasehold estate in real property, or (ii) any other instrument which shall constitute or create a security

interest in tangible personal property constituting modular or manufactured housing, located in the state and improved by a residential structure or on which a residential structure for use as single-family modular or manufactured housing purchased and sited on land shall be constructed using the proceeds of such loan, whether or not insured or guaranteed by the United States of America or any agency thereof, provided however, that the loan made by the agency and secured by such second lien is made at the same time as a first lien securing a mortgage loan purchased by the agency pursuant to its programs or by a government sponsored enterprise. In the case of any second lien purchased or made hereunder, the mortgagor shall be obligated to contribute from his or her own verifiable funds an amount not less than such percentage as the agency shall determine, of the lower of the purchase price or appraised value of the property subject to the first lien. "Real property" as used in this subdivision shall include air rights.

For the purposes of this title and subdivision ten of section two hundred ten-B of the tax law, "mortgage" shall include housing loans as defined below. Except for the purposes of subdivision seven of section twenty-four hundred five and subdivision eight of section twenty-four hundred five-b of this part, "mortgage" shall also include a loan owed to a bank by an individual borrower incurred for the purpose of financing the purchase of certificates of stock or other evidence of ownership of an interest in, and a proprietary lease from, a cooperative housing corporation formed for the purpose of the cooperative ownership of residential real estate in the state, secured by an assignment or transfer of the benefits of such cooperative ownership, and containing such terms and conditions as the agency may approve.

* NB Effective until July 23, 2027

* (5) "Mortgage". A loan owed to a bank secured by a first lien on a fee simple or leasehold estate in real property located in the state and improved by a residential structure, whether or not insured or guaranteed by the United States of America or any agency thereof. The term "mortgage" shall also include a loan owed to a bank secured by a second lien on a fee simple or leasehold estate in real property located in the state and improved by a residential structure, whether or not insured or guaranteed by the United States of America or any agency

thereof, provided, however, that such second lien: (a) secures a loan purchased by the agency, and (b) is made at the same time as a first lien securing a loan purchased by the agency pursuant to its programs or by a government sponsored enterprise or is made at the same time as a new housing loan purchased by the agency pursuant to section twenty-four hundred five-c of this part. The term "mortgage" shall also include loans made by the agency and secured by a second lien on a fee simple or leasehold estate in real property located in the state and improved by a residential structure, whether or not insured or guaranteed by the United States of America or any agency thereof, provided however, that the loan made by the agency and secured by such second lien is made at the same time as a first lien securing a mortgage loan purchased by the agency pursuant to its programs or by a government sponsored enterprise. In the case of any second lien purchased or made hereunder, the mortgagor shall be obligated to contribute from his or her own verifiable funds an amount not less than such percentage as the agency shall determine, of the lower of the purchase price or appraised value of the property subject to the first lien. "Real property" as used in this subdivision shall include air rights.

Except for the purposes of subdivision seven of section two thousand four hundred five of this part, "mortgage" shall also include a loan owed to a bank by an individual borrower incurred for the purpose of financing the purchase of certificates of stock or other evidence of ownership of an interest in, and a proprietary lease from, a cooperative housing corporation formed for the purpose of the cooperative ownership of residential real estate in the state, secured by an assignment or transfer of the benefits of such cooperative ownership, and containing such terms and conditions as the agency may approve.

* NB Effective July 23, 2027 until July 23, 2027

* (5) "Mortgage". A loan owed to a bank secured by a first lien on a fee simple or leasehold estate in real property located in the state and improved by a residential structure, whether or not insured or guaranteed by the United States of America or any agency thereof. The term "mortgage" shall also include a loan owed to a bank secured by a second lien on a fee simple or leasehold estate in real property located in the state and improved by a residential structure, whether or not

insured or guaranteed by the United States of America or any agency thereof, provided, however, that such second lien: (a) secures a loan purchased by the agency, and (b) is made at the same time as a first lien securing a loan purchased by the agency pursuant to its programs or is made at the same time as a new housing loan purchased by the agency pursuant to section twenty-four hundred five-c of this part. The term "mortgage" shall also include loans made by the agency and secured by a second lien on a fee simple or leasehold estate in real property located in the state and improved by a residential structure, whether or not insured or guaranteed by the United States of America or any agency thereof, provided however, that the loan made by the agency and secured by such second lien is made at the same time as a first lien securing a mortgage loan purchased by the agency pursuant to its programs or by a government sponsored enterprise. In the case of any second lien, the mortgagor shall be obligated to contribute from his or her own verifiable funds an amount not less than such percentage as the agency shall determine, of the lower of the purchase price or appraised value of the property subject to the first lien. "Real property" as used in this subdivision shall include air rights.

Except for the purposes of subdivision seven of section two thousand four hundred five of this part, "mortgage" shall also include a loan owed to a bank by an individual borrower incurred for the purpose of financing the purchase of certificates of stock or other evidence of ownership of an interest in, and a proprietary lease from, a cooperative housing corporation formed for the purpose of the cooperative ownership of residential real estate in the state, secured by an assignment or transfer of the benefits of such cooperative ownership, and containing such terms and conditions as the agency may approve.

* NB Effective July 23, 2027

(6) "State". The state of New York.

(7) "State agency". Any office, department, board, commission, bureau, division, public corporation, agency or instrumentality of the state.

(8) "College". Any institution of higher education recognized and approved as such by the regents of the university of the state which provides a course of study leading to the granting of a post-secondary degree or diploma.

(9) "Career institution". A business, trade, technical or other occupational school approved as such by the regents of the university of the state or accredited by a nationally recognized accrediting agency or association accepted as such by the regents of the university of the state.

(10) "Loan". A loan which the New York higher education assistance corporation has guaranteed or agreed to guarantee pursuant to article fourteen of the education law to a person who is attending or plans to attend, on a full-time or part-time basis, a college or career institution, for the purpose of assisting such person to meet his expenses of higher or career education; provided, however, in no event shall the amount of any such loan for any school year exceed the total amount of (i) the borrower's tuition and educational fees payable to the college or career institution he is attending or is planning to attend, and (ii) sums actually expended or incurred for room and board during such period, reduced by the total amount of (i) all General and Special Purpose Awards (as provided in article thirteen of the education law), and (ii) all other forms of direct financial aid received by the borrower during such period, however denominated and from whatever source (other than the borrower's family), which by its terms is not repayable by the borrower.

* (11) "Existing mortgage". A mortgage for which funds were advanced prior to the date of the most recent invitation of the agency to banks to sell mortgages to the agency.

* NB Repealed July 23, 2027

* (12) "Forward commitment mortgage". A mortgage, which includes construction loans for single-family modular or manufactured housing purchased and sited on land, for which a commitment to advance funds is made not earlier than the date the agency issues an invitation to purchase mortgages or such later date as specified in the invitation. A mortgage made in satisfaction of the obligation of a bank under section twenty-four hundred five of this part is not a forward commitment mortgage.

* NB Repealed July 23, 2027

* (13) "Housing loan". A loan owed to a bank, secured in a manner satisfactory to the agency, to improve, rehabilitate, reconstruct or redevelop one to four unit residences located in the state. The loan

shall be insured or guaranteed by the United States of America or any agency thereof, or by a firm which is authorized by the superintendent of financial services of the state of New York to issue such policies in the state.

* NB Repealed July 23, 2027

* (14) "Persons and families of low or moderate income". Persons and families within the state who are determined by the agency to lack sufficient income to pay enough to cause an adequate supply of credit to be made available for new residential improvement loans at carrying charges within the financial means of such persons and families and whose incomes are below the income levels determined by the agency to be in need of the assistance made available by this title, taking into consideration, without limitation, such factors as the following: (i) the amount of the total income of such persons and families, (ii) the size of the family unit, (iii) the cost to improve, rehabilitate, reconstruct or redevelop residential family dwelling units, (iv) the ability of such persons and families to pay the amounts charged in regular banking channels for credit for such improvement, rehabilitation, reconstruction, or redevelopment work, and (v) standards established by various programs of the federal government for determining eligibility based on income of such persons and families.

* NB Repealed July 23, 2027

(15) "Blending". The financing of a single mortgage loan partly with the proceeds of bonds issued pursuant to subdivision one of section twenty-four hundred seven of this title and partly with the proceeds of bonds issued pursuant to subdivision two of such section.

(16) "Employer". Any corporation, partnership, or sole proprietorship which maintains an office in the state.

* (17) "Government sponsored enterprises". Privately owned, publicly chartered entities, and wholly-owned corporate instrumentalities of the United States within the department of housing and urban development, created pursuant to 12 USC 1717(a)(2)(A), all created by Congress to encourage lending and reduce costs primarily in the housing sector of the economy, and any successor entity or entities created by Congress to continue to serve said purposes.

* NB Repealed July 23, 2027

§ 2403. State of New York mortgage agency. (1) There is hereby created the state of New York mortgage agency. The agency shall be a corporate governmental agency of the state, constituting a political subdivision and public benefit corporation. Its membership shall consist of nine directors as follows: the comptroller or a member appointed by the comptroller who shall serve until his or her successor is appointed, the director of the budget of the state of New York, the commissioner of housing and community renewal, one director appointed by the temporary president of the senate, one director appointed by the speaker of the assembly, and four directors to be appointed by the governor with the advice and consent of the senate. The director first appointed by the governor pursuant to chapter three hundred fifty-six of the laws of two thousand four, which amended this subdivision, shall serve for a term ending four years from January first next succeeding his or her appointment. The other directors first appointed by the governor shall be appointed within ten days of the effective date of this title and shall serve for terms ending two, three and four years, respectively, from January first next succeeding their appointment. Their successors shall serve for terms of four years each. The directors appointed by the governor shall continue in office until their successors have been appointed and qualified. The directors appointed by the temporary president of the senate and the speaker of the assembly shall serve at the pleasure of the temporary president of the senate and the speaker of the assembly respectively. In the event of a vacancy occurring in the office of a director by death, resignation or otherwise, such vacancy shall be filled, for the unexpired term, if applicable, in the same manner as the original appointment. From the four directors appointed by him or her, the governor shall designate the chair of the agency. The governor shall designate the first chair within ten days of the effective date of this title.

(2) The directors, including the chairman, shall serve without salary or other compensation, but each director shall be entitled to reimbursement for actual and necessary expenses incurred in the performance of his or her official duties.

(3) Such directors other than the comptroller, the budget director, and the commissioner of housing and community renewal may engage in

private employment, or in a profession or business. The agency, its directors, officers and employees shall be subject to the provisions of sections seventy-three and seventy-four of the public officers law.

(4) Notwithstanding any inconsistent provisions of law, general, special or local, no officer or employee of the state or of any civil division thereof shall be deemed to have forfeited or shall forfeit his office or employment by reason of his acceptance of membership on the agency created by this section; provided, however, a director who holds such other public office or employment shall receive no additional compensation or allowance for services rendered pursuant to this title, but shall be entitled to reimbursement for his actual and necessary expenses incurred in the performance of such services.

(5) The governor may remove any director appointed by him for inefficiency, neglect of duty or misconduct in office after giving him a copy of the charges against him and an opportunity to be heard, in person or by counsel, in his defense, upon not less than ten days' notice. If any such director shall be removed, the governor shall file in the office of the department of state a complete statement of charges made against such director and his findings thereon, together with a complete record of the proceeding.

(6) The agency and its corporate existence shall continue until terminated by law, provided, however, that no such law shall take effect so long as the agency shall have bonds, notes and other obligations outstanding, unless adequate provision has been made for the payment thereof. Upon termination of the existence of the agency, all its rights and properties shall pass to and be vested in the state.

(7) A majority of the directors of the agency then in office shall constitute a quorum for the transaction of any business or the exercise of any power or function of the agency. The agency may delegate to one or more of its directors, or its officers, agents or employees, such powers and duties as it may deem proper. The executive director appointed by the agency shall be the chief executive officer of the agency.

(8) The commissioner of housing and community renewal and the director of the budget each may appoint a person from their respective division to represent such member, respectively, at all meetings of the agency from which such member may be absent. Any such representative so

designated shall have the power to attend and to vote at any meeting of the agency from which the member so designating him as a representative is absent with the same force and effect as if the member designating him were present and voting. Such designation shall be by written notice filed with the chairman of the agency by each of the said members. The designation of such persons shall continue until revoked at any time by written notice to the chairman by the respective member making the designation. Such designation shall not be deemed to limit the power of the appointing member to attend and vote at any meeting of the agency.

§ 2404. Powers of the agency. Except as otherwise limited by this title, the agency shall have power:

(1) To sue and be sued;

(2) To have a seal and alter the same at pleasure;

(3) To make and execute contracts and all other instruments necessary or convenient for the exercise of its powers and functions under this title;

(4) To make and alter by-laws for its organization and internal management;

(5) To acquire, hold and dispose of real and personal property for its corporate purposes;

(6) To appoint officers, agents and employees, prescribe their duties and qualifications and fix their compensation;

* (7) To (a) acquire, and contract to acquire, existing mortgages owned by banks and to enter into advance commitments to banks for the purchase of said mortgages, all subject to the provisions of section twenty-four hundred five of this part, (b) acquire, and contract to acquire, forward commitment mortgages made by banks and to enter into advance commitments to banks for the purchase of said mortgages, all subject to the provisions of section twenty-four hundred five-b of this part, (c) acquire, and contract to acquire, new housing loans made by banks and to enter into advance commitments to banks for the purchase of said housing loans, all subject to the provisions of section twenty-four hundred five-c of this part, (d) to acquire and contract to acquire mortgages pursuant to section twenty-four hundred five-d of this title, and (e) acquire, and contract to acquire, new construction mortgage

loans for single-family modular or manufactured housing purchased and sited on land owned by banks and to enter into advance commitments to banks for the purchase of such mortgages, all subject to the provisions of section twenty-four hundred five-b of this part;

* NB Effective until July 23, 2027

* (7) To acquire, and contract to acquire, mortgages owned by banks and to enter into advance commitments to banks for the purchase of said mortgages, all subject to the provisions of section two thousand four hundred five of this title;

* NB Effective July 23, 2027

(8) Subject to any agreement with bondholders or noteholders, to invest moneys of the agency not required for immediate use, including proceeds from the sale of any bonds or notes, in obligations of the state or the United States of America or obligations the principal and interest of which are guaranteed by the state or the United States of America or in certificates of deposit or time deposits secured in such manner as the agency shall determine, or in obligations of any agency of the state or the United States of America which may from time to time be legally purchased by savings banks within the state as an investment of funds belonging to them or in their control, or in obligations of the Federal National Mortgage Association.

(9) Subject to any agreement with bondholders or noteholders, to sell any mortgages or other personal property acquired by the agency at public or private sale and at such price or prices as it shall determine, provided, however, that a private sale shall be limited to an agency of the federal government, the federal national mortgage association, or a sale of a mortgage to a bank from which it was originally purchased. If the agency determines to sell mortgages at public sale, a notice of such sale shall be published at least once at least five days prior to the date of such sale in a financial newspaper or journal published in the city of New York;

(10) Subject to any agreement with bondholders or noteholders, to purchase bonds or notes of the agency, which shall thereupon be cancelled, at a price not exceeding (a) if the bonds or notes are then redeemable, the redemption price then applicable plus accrued interest to the next interest payment date thereon, or (b) if the bonds or notes are not then redeemable, the redemption price applicable on the first

date after such purchase upon which the notes or bonds become subject to redemption at the option of the agency plus accrued interest to said date;

(11) To borrow money and to issue negotiable bonds and notes and to provide for the rights of the holders thereof;

(12) To engage the services of private consultants on a contract basis for rendering professional and technical assistance and advice;

(13) To make and execute contracts for the servicing of mortgages acquired by the agency pursuant to this title, and to pay the reasonable value of services rendered to the agency pursuant to those contracts;

(14) To renegotiate, refinance or foreclose, or contract for the foreclosure of, any mortgage in default; to waive any default or consent to the modification of the terms of any mortgage; to commence any action to protect or enforce any right conferred upon it by any law, mortgage, contract or other agreement, and to bid for and purchase such property at any foreclosure or at any other sale, or acquire or take possession of any such property; to operate, manage, lease, dispose of, and otherwise deal with such property, in such manner as would further the purposes of the agency, subject to any agreement with its bondholders or noteholders;

(15) To contract for and to accept any gifts or grants or loans of funds or property or financial or other aid in any form from the federal government or any agency or instrumentality thereof, or from the state or any agency or instrumentality thereof, or from any other source and to comply, subject to the provisions of this title, with the terms and conditions thereof;

(16) To enter into agreements, in its discretion, to pay annual sums in lieu of taxes to any municipality or taxing district of the state in respect of any real property which is owned by the agency and located in such municipality or taxing district, provided, however, that the amount so paid for any year upon such property shall not exceed the sum last paid as taxes on such property to such municipality or taxing district prior to the time of its acquisition by the agency;

(17) Make and contract to make loans and purchase and contract to purchase loans made by banks, pension funds, credit unions, colleges or vocational institutions, all subject to the provisions of section twenty-four hundred five-a of this title;

(18) Procure or require the procurement of a policy or policies of group life insurance to insure repayment of loans made or acquired by the agency in event of the death of the borrower;

(19) Subject to provisions of section two thousand four hundred five-a and any agreement with bondholders or noteholders, renegotiate or refinance any loan in default; waive any default or consent to the modification of the terms of any loan; forgive all or part of any indebtedness; and commence any action or proceeding to protect or enforce any right conferred upon it by law, loan agreement, contract or other agreement;

(20) Prescribe standards and criteria for the granting of applications for loans and loan purchases, insofar as such standards and criteria are not inconsistent with this title;

(21) Make and execute contracts for the administration or servicing of any loan made or acquired by the agency and pay the reasonable value of services rendered to the agency pursuant to such contracts;

(22) Subject to any agreement with bondholders or noteholders, sell any loans made or acquired by the agency at public or private sale and at such price or prices and on such terms as the agency shall determine;

(23) Establish, revise from time to time, charge and collect such premiums or fees in connection with loans and purchases, as the agency shall determine.

(23-a) To and shall develop, promote and ensure that, where possible, minority groups which traditionally have been disadvantaged, and women are afforded equal opportunity for contracts in connection with development and construction contracts for developments, facilities and projects financed by the issuance of bonds, notes and other obligations of the agency.

(24) To establish and administer a mortgage credit certificate program, as defined in the internal revenue code of the United States, in conformity with that and other applicable provisions of such code and any regulations issued thereunder by the United States department of the treasury, to issue mortgage credit certificates pursuant to such program, and to make all elections and determinations relating to such program, including without limitation, an election not to issue all or any portion of the private activity bond volume allocated to the agency.

(25) In connection with the issuance of bonds for the purpose of

furthering forward commitment mortgage programs described in section twenty-four hundred five-b of this title, where the mortgagor is to receive mortgage credit certificates issued by the agency, to covenant and consent that the interest on any of its bonds shall be includible, under the United States Internal Revenue Code of nineteen hundred eighty-six, as amended or any subsequent corresponding internal revenue law of the United States, in the gross income of the holders of the bonds to the same extent and in the same manner that the interest on bills, bonds, notes or other obligations of the United States is includible in the gross income of the holders thereof under said Internal Revenue Code or any such subsequent law.

(26) Participation in housing programs. Subject to any agreement with bondholders and noteholders, the agency is hereby authorized, at the direction of the director of the budget, to transfer to the state comptroller for deposit in the New York state infrastructure trust fund to the credit of the housing reserve account established by section eighty-eight of the state finance law, as an expense of the agency, any payment, less applicable expenses, received on account of interest and principal on any mortgages owned by the agency pursuant to the agency additional mortgage loan fund established pursuant to the homeowner mortgage revenue bonds general resolution and not pledged (i) to pay principal of and interest on bonds and notes pursuant to any resolution or trust indenture under which bonds or notes of the agency are authorized to be issued, (ii) to the payment of losses upon the foreclosure, default or delinquency of mortgage loans pledged under any resolution or trust indenture under which bonds or notes of the agency are authorized to be issued and (iii) to pay the reimbursement obligation of the agency to any providers of credit enhancement with respect to (i) or (ii) above in connection with any resolution. Such transfer shall be made in such amounts and at such times as specified in an agreement executed between the agency and the director of the budget, provided, however, that no further transfers for deposit shall be made to such housing reserve account from the agency after the sum of (i) the cumulative total of such deposits and (ii) the payments of the aggregate reserve amount of the agency made pursuant to section seven of the chapter of the laws of nineteen hundred eighty-eight adding this subdivision, equals eighty million dollars.

(27) Additional participation in housing or other state programs. (a) Subject to any agreement with bondholders and noteholders, the agency is hereby authorized, at the direction of the director of the budget, to transfer to the state comptroller for deposit in such fund or account as provided in such direction as an expense of the agency, an amount not to exceed twenty-two million dollars, provided that such amount is made available to the agency directly or indirectly pursuant to (i) the agency's defeasance of its home mortgage revenue bonds, series one through four and/or (ii) the issuance of bonds or notes, proceeds of which will be transferred to the state and used for the purpose of state programs, which bonds or notes shall be payable in whole or in part from assets made available to the agency pursuant to such defeasance. Such transfer shall be made in such amounts and at such times as specified in an agreement or agreements executed between the agency and the director of the budget, with copies to be provided to the chairman of the assembly ways and means committee and the chairman of the senate finance committee.

(b) The provisions of section seventeen of the public officers law shall apply to members of the board of directors, officers, employees and agents of the agency in connection with any and all claims, demands, suits, actions or proceedings which may be made or brought against any of them arising out of any determinations made or actions taken or omitted to be taken in compliance with any undertakings under or pursuant to the terms of this subdivision. The provisions of this paragraph shall be in addition to and shall not supplant any indemnification or other benefits heretofore or hereafter conferred upon members of the board of directors, officers, employees and agents of the agency, by action of such agency or otherwise.

(c) The state shall and hereby agrees to and does indemnify and save harmless the agency from and against any and all liability, loss, damage, interest, judgments and liens growing out of, and any and all costs and expenses (including, but not limited to, counsel fees and disbursements) arising out of or incurred in connection with any and all claims, demands, suits, actions or proceedings which may be made or brought against it arising out of any determinations made or actions taken or omitted to be taken or compliance with any obligations under or pursuant to the terms of this subdivision; except for fraudulent acts, actions taken in bad faith, gross negligence or willful misconduct.

(28) To establish and administer a lease-purchase program or programs in accordance with section twenty-four hundred five-d of this title.

(29) To pay or reimburse any federal recapture income tax payable by a borrower in connection with a mortgage loan;

(30) To make loans secured by mortgages secured by a second lien on a fee simple or leasehold estate in real property located in the state and improved by a residential structure, whether or not insured or guaranteed by the United States of America or any agency thereof, provided however, that the loan made by the agency and secured by such second lien is made at the same time as a first lien securing a mortgage loan purchased by the agency pursuant to its programs or by a government sponsored enterprise.

(31) To administer the fund and operate the program set forth in section twenty-four hundred five-f of this part.

(32) To form a subsidiary to be known as "the state of New York mortgage agency community restoration fund" for the purpose of using funds available to the agency under the program set forth in section twenty-four hundred five-f of this part and of owning and holding any residences, mortgages and mortgage notes acquired by the agency, and to otherwise carry out the purposes of section twenty-four hundred five-f of this part. Such subsidiary created pursuant to this subdivision may exercise and perform one or more of the purposes, powers, duties, functions, rights and responsibilities of the agency, other than the issuance of indebtedness, in connection with real and personal property with respect to which the agency holds or held a mortgage, security interest or other collateral. Such subsidiary shall have the power to own, acquire and dispose of real property, and to acquire, own and hold, service and dispose of mortgages and mortgage notes. It shall have the right to foreclose or contract to foreclose on any mortgage acquired by such subsidiary, under the laws of the state, to commence any action to protect or to enforce the rights conveyed to it by law, contract or any agreement and to dispose of any such property and to otherwise proceed with any action as may be necessary to protect the interests of said subsidiary. Notwithstanding any other provision of law to the contrary, the transfer of title to such subsidiary or any other actions taken by the agency or such subsidiary to enforce the agency's rights under the

mortgage, security interest or other collateral interest or to protect, acquire, own, manage or dispose of the property shall be deemed to be a corporate purpose of the agency granted to it to carry out the purposes of section twenty-four hundred five-f of this part. Such subsidiary shall be established in the form of a public benefit corporation by executing and filing with the secretary of state a certificate of incorporation which shall identify the agency as the entity organizing such subsidiary and set forth the name of such subsidiary public benefit corporation, its duration, the location of its principal office and its corporate purposes as provided in this subdivision and which certificate may be amended from time to time by the filing of amendments thereto with the secretary of state, provided that the subsidiary created hereunder shall cease to exist at such time as the program authorized under section twenty-four hundred five-f of this part is no longer in existence. Such subsidiary shall be organized as a public benefit corporation, shall be a body politic and corporate, and shall have all the privileges, immunities, tax exemptions and other exemptions of the agency. The members of such subsidiary shall be the same as the members of the agency.

(33) To do any and all things necessary or convenient to carry out its purposes and exercise the powers given and granted in this title.

*** § 2405. Purchase of existing mortgages.** (1) A purpose of the agency shall be to purchase existing mortgages from banks within the state during periods when there is an inadequate supply of credit available for new residential mortgages and to require such banks to invest an amount equal to the proceeds thereof as rapidly as possible in new mortgages on residential real property for family units within the state.

It is hereby found and declared that such activities by the agency will alleviate a condition of affairs in this state which is contrary to the public health, safety and general welfare and which has constituted in the past and from time to time in the future can be expected to constitute a public emergency. It is further found and declared that such purposes are in all respects for the benefit of the people of the state of New York and the agency shall be regarded as performing an essential governmental function in carrying out its purposes and in exercising the powers granted by this title.

(2) The agency shall purchase existing mortgages from banks at such prices and upon such terms and conditions as it shall determine; provided, however, that the total purchase price for all existing mortgages which the agency commits to purchase from a bank at any one time shall in no event be more than the total of the unpaid principal balances thereof, plus accrued interest thereon.

(3) (a) The agency shall require as a condition of purchase of existing mortgages from banks that such banks shall, within such period as may be approved by the agency not in excess of ninety days of receipt of the purchase price, enter into written commitments to loan and shall, within such period as may be approved by the agency, loan an amount equal to the entire purchase price of such existing mortgages on new mortgages within the state having such terms as the agency may prescribe.

(b) (i) The proportionate dollar amount of commitments from each agency issue of bonds or notes used to purchase mortgages from banks in each region of the state, as such regions are set forth in subdivision nine of section twenty-four hundred twenty-six of this title shall, subject to subparagraph (ii) hereof, reflect the proportion that the number of families in each region bears to the number of families in the state as a whole.

(ii) To the extent that the reasonable demand by banks in any region is insufficient to accommodate the proportion of an agency issue of bonds or notes determined pursuant to subparagraph (i) hereof for such region, the agency shall use reasonable efforts to purchase mortgages such that the excess funds from such region are distributed among the other regions in proportion to the relative reasonable demand. In determining reasonable demand, the agency shall consider, among other things, historical demand for mortgages in such regions, the dollar amount of offers by banks to sell mortgages to the agency and the reasonableness of such offers, considering the size, mortgage history, total assets, liquidity and financial ability of the bank to conform to the contract of sale and the bank's record of compliance with agency requirements.

(iii) The agency shall use its best efforts to the end that not less than one-sixth in dollar amount of new mortgages resulting from its program of purchasing mortgages shall be on newly constructed residences. A newly constructed residence is defined as a one to four family dwelling not previously occupied.

(iv) During the time that the agency is accepting offers to sell mortgages from banks, the agency shall advertise, in newspapers of general circulation within the state, the fact that it is accepting offers from banks, and such other information as the agency determines to be helpful in generating maximum participation by banks and potential mortgagors. All banks within each such region shall be invited by the agency to participate in the agency's purchase of mortgages from the proceeds of the sale of each issue by the agency of its bonds and notes. The allocation of the proceeds of each such agency issue among the banks requesting participation within each region shall, to the extent practicable, maximize the number of banks which participate. Any commitment between the agency and a bank shall require that the bank provide the agency with such information, as may be deemed necessary by the agency, for the agency to assure that the requirements of this title or any other requirements imposed by the agency with respect to the purchase of mortgages with the proceeds of any agency issue of bonds or notes has been fulfilled.

(c) No commitment to loan or loan on a mortgage secured or to be secured by a multiple dwelling shall satisfy the requirement of paragraph (a) of this subdivision unless the prior written approval of such commitment shall have been obtained from the agency. The agency may refuse to approve any commitment to lend on such a multiple dwelling mortgage if so required by the terms of any bonding resolution and shall not approve any commitment to lend on such a multiple dwelling mortgage if the approval thereof would increase the total dollar amount of such commitments on multiple dwelling mortgages approved by the agency to an amount in excess of forty percent of the total purchase price of all mortgages theretofor purchased by the agency pursuant to this section.

(4) In the case of individual borrowers, new mortgages made by banks that sell existing mortgages to the agency shall bear interest computed in accordance with section 5-501 of the general obligations law (whether or not insured or guaranteed by the United States of America or any

agency thereof) at a rate which does not exceed the maximum interest rate, if any, set by the agency for such mortgages. The agency may set such a maximum interest rate chargeable to individual borrowers on such new mortgages, notwithstanding the maximum interest rate, if any, fixed by section 5-501 of the general obligations law or any other law not specifically amending or applicable to this section, at the rate that the existing mortgages purchased by the agency were discounted to yield plus an interest differential, not in excess of one percent per annum, which the agency from time to time shall determine to be adequate consideration to induce such banks to sell existing mortgages to the agency and to loan an amount equal to the proceeds on new mortgages in furtherance of the purposes of and subject to the conditions of this title. In the case of corporate borrowers, such new mortgages shall bear interest at a rate not substantially lower than the rate of interest that banks are charging at the time of commitment on comparable new mortgages. Each such bank that sells existing mortgages to the agency shall annually account and pay over to the agency or to the New York state housing finance agency for deposit in and for the purposes of the low rent lease account as set forth in paragraphs (a) and (b) of subdivision four of section forty-four-a of the private housing finance law or any successor entity as the agency may direct, or to both the agency and the New York state housing finance agency for such deposit and purposes in such proportions as the agency may direct, an amount equal to the difference between (a) the total amount of interest (which shall include all charges to individual and corporate borrowers that would be treated as interest under section 5-501 of the general obligations law and any regulations of the superintendent of financial services pursuant to section fourteen-a of the banking law) received by it during the preceding year on all such new mortgages and (b) the total amount of interest which such new mortgages would have yielded if the interest thereon had been at the maximum rate chargeable to individual borrowers on such new mortgages plus an additional interest differential, not in excess of one percent per annum, determined by the agency to be adequate consideration to induce participating banks to make new loans on multiple dwellings.

(5) The agency shall require the submission to it by each bank from which the agency has purchased existing mortgages evidence satisfactory

to the agency of the making of new mortgage loans and of paying over to the low rent lease account as required by this section and in connection therewith may, through its employees or agents or those of the department of financial services, inspect the books and records of any such bank.

(6) Compliance by any bank with the terms of its agreement with or undertaking to the agency with respect to the making of any new mortgages in connection with the sale of existing mortgages and of paying over to the low rent lease account may be enforced by decree of the supreme court. The agency may require as a condition of purchase of existing mortgages from any national banking association the consent of such association to the jurisdiction of the supreme court over any such proceeding. The agency may also require agreement by any bank, as a condition of the agency's purchase of existing mortgages from such bank, to the payment of penalties to the agency for violation by the bank of its undertakings to the agency, and such penalties shall be recoverable at the suit of the agency.

(7) The agency shall require as a condition of purchase of any existing mortgage from a bank that the bank represent and warrant to the agency that

(a) the unpaid principal balance of the mortgage and the interest rate thereon have been accurately stated to the agency;

(b) the amount of the unpaid principal balance is justly due and owing;

(c) the bank has no notice of the existence of any counterclaim, offset or defense asserted by the mortgagor or any successor in interest;

(d) the mortgage is evidenced by a bond or promissory note and a mortgage document which has been properly recorded with the appropriate public official;

(e) the mortgage constitutes a valid first lien or second lien on the real property described to the agency in accordance with subdivision five of section twenty-four hundred two of this part subject only to real property taxes not yet due, installments of assessments not yet due, and easements and restrictions of record which do not adversely affect, to a material degree, the use or value of the real property or improvements thereon;

(f) the mortgage when made was lawful under the banking law or federal law, whichever governs the affairs of the bank, and would be lawful on the date of purchase by the agency if made by the bank on that date in the amount of the then unpaid principal balance;

(g) the mortgagor is not now in default in the payment of any installment of principal or interest, escrow funds, real property taxes or otherwise in the performance of his obligations under the mortgage documents and has not to the knowledge of the bank been in default in the performance of any such obligation for a period of longer than sixty days during the life of the mortgage; and

(h) the improvements to the mortgaged real property are covered by a valid and subsisting policy of insurance issued by a company authorized by the superintendent of financial services to issue such policies in the state of New York and providing fire and extended coverage to an amount not less than eighty percent of the insurable value of the improvements to the mortgaged real property.

(8) Each bank shall be liable to the agency for any damages suffered by the agency by reason of the untruth of any representation or the breach of any warranty and, in the event that any representation shall prove to be untrue when made or in the event of any breach of warranty, the bank shall, at the option of the agency, repurchase the existing mortgage for the original purchase price adjusted for amounts subsequently paid thereon, as the agency may determine.

(9) The agency need not require the recording of an assignment of any existing mortgage purchased by it from a bank pursuant to this section and shall not be required to notify the mortgagor of its purchase of the mortgage. The agency shall not be required to inspect or take possession of the mortgage documents if the bank from which the existing mortgage is purchased by the agency shall enter a contract to service such mortgage and account to the agency therefor.

(10) Notwithstanding any other provision of law, the agency is authorized to require, as a condition to the purchase from banks of existing mortgages, such restrictions upon assumability of each new mortgage as the agency may determine to be necessary or desirable to assure the exemption from federal income taxes of the interest payable on its bonds and notes. Such restrictions shall be enforceable by the originating bank, the agency, and any successor holder of the mortgage

unless expressly waived in writing by or on behalf of the agency.

(11) The agency shall maintain a continuous review of the availability of funds in regular banking channels for mortgages. Except as stated herein with respect to forward commitment mortgages and housing loans, in the event that the agency shall determine that an adequate supply of funds exists in regular banking channels for mortgages the agency shall not authorize the issuance of bonds for the purchase of mortgages except refunding bonds, until such time as the agency shall determine that the supply of funds available for mortgages is again inadequate. The agency shall notify the governor, the temporary president of the senate, and the speaker of the assembly of any determination that there is an inadequate supply of funds available for mortgages made by it under this subdivision. Discontinuance by the agency of the purchase of mortgages pursuant to a determination that an adequate supply of funds exists in regular banking channels shall not constitute, or in any way effect, termination of the agency as provided in subdivision six of section two thousand four hundred three of this title. Notwithstanding the foregoing, the agency may issue bonds or notes for the purpose of furthering forward commitment mortgage programs described in section twenty-four hundred five-b of this title and housing loan programs described in section twenty-four hundred five-c of this title if the agency shall determine that such programs will increase the supply of credit available for new residential mortgages and new residential improvement loans at carrying charges within the financial means of persons and families of low or moderate income.

* NB Effective until July 23, 2027

* § 2405. Purchase of mortgages. (1) The purpose of the agency shall be to purchase mortgages from banks within the state during periods when there is an inadequate supply of credit available for new residential mortgage loans and to require such banks to invest an amount equal to the proceeds thereof as rapidly as possible in new mortgages on residential real property for family units within the state.

It is hereby found and declared that such activities by the agency will alleviate a condition of affairs in this state which is contrary to the public health, safety and general welfare and which has constituted in the past and from time to time in the future can be expected to constitute a public emergency. It is further found and declared that such purposes are in all respects for the benefit of the people of the state of New York and the agency shall be regarded as performing an essential governmental function in carrying out its purposes and in exercising the powers granted by this title.

(2) The agency shall purchase mortgages from banks at such prices and upon such terms and conditions as it shall determine; provided, however, that the total purchase price for all mortgages which the agency commits to purchase from a bank at any one time shall in no event be more than the total of the unpaid principal balances thereof.

(3) (a) The agency shall require as a condition of purchase of mortgages from banks that such banks shall, within such period as may be approved by the agency not in excess of ninety days of receipt of the purchase price, enter into written commitments to loan and shall, within such period as may be approved by the agency, loan an amount equal to the entire purchase price of such mortgages on new mortgages within the state having such terms as the agency may prescribe.

(b) (i) The proportionate dollar amount of commitments from each agency issue of bonds or notes used to purchase mortgages from banks in each region of the state, as such regions are set forth in subdivision nine of section twenty-four hundred twenty-six of this title shall, subject to subparagraph (ii) hereof, reflect the proportion that the number of families in each region bears to the number of families in the state as a whole.

(ii) To the extent that the reasonable demand by banks in any region is insufficient to accommodate the proportion of an agency issue of bonds or notes determined pursuant to subparagraph (i) hereof for such region, the agency shall use reasonable efforts to purchase mortgages such that the excess funds from such region are distributed among the other regions in proportion to the relative reasonable demand. In determining reasonable demand, the agency shall consider, among other things, historical demand for mortgages in such regions, the dollar amount of offers by banks to sell mortgages to the agency and the reasonableness of such offers, considering the size, mortgage history, total assets, liquidity and financial ability of the bank to conform to the contract of sale and the bank's record of compliance with agency requirements.

(iii) The agency shall use its best efforts to the end that not less than one-sixth in dollar amount of new mortgages resulting from its program of purchasing mortgages shall be on newly constructed residences. A newly constructed residence is defined as a one to four family dwelling not previously occupied.

(iv) During the time that the agency is accepting offers to sell mortgages from banks, the agency shall advertise, in newspapers of general circulation within the state, the fact that it is accepting offers from banks, and such other information as the agency determines to be helpful in generating maximum participation by banks and potential mortgagors. All banks within each such region shall be invited by the agency to participate in the agency's purchase of mortgages from the proceeds of the sale of each issue by the agency of its bonds and notes. The allocation of the proceeds of each such agency issue among the banks requesting participation within each region shall, to the extent practicable, maximize the number of banks which participate. Any commitment between the agency and a bank shall require that the bank provide the agency with such information, as may be deemed necessary by the agency, for the agency to assure that the requirements of this title or any other requirements imposed by the agency with respect to the purchase of mortgages with the proceeds of any agency issue of bonds or notes has been fulfilled.

(c) No commitment to loan or loan on a mortgage secured or to be secured by a multiple dwelling shall satisfy the requirement of paragraph (a) of this subdivision unless the prior written approval of such commitment shall have been obtained from the agency. The agency may refuse to approve any commitment to lend on such a multiple dwelling mortgage if so required by the terms of any bonding resolution and shall not approve any commitment to lend on such a multiple dwelling mortgage if the approval thereof would increase the total dollar amount of such commitments on multiple dwelling mortgages approved by the agency to an amount in excess of forty percent of the total purchase price of all mortgages theretofor purchased by the agency pursuant to this section.

(4) In the case of individual borrowers, such new mortgages shall bear interest computed in accordance with section 5-501 of the general obligations law (whether or not insured or guaranteed by the United States of America or any agency thereof) at a rate which does not exceed

the maximum interest rate, if any, set by the agency for such mortgages. The agency may set such a maximum interest rate chargeable individual borrowers on such new loans, notwithstanding the maximum interest rate fixed by section 5-501 of the general obligations law, at the rate that the mortgages purchased by the agency were discounted to yield plus an interest differential, not in excess of one percent per annum, which the agency from time to time shall determine to be adequate consideration to induce such banks to sell existing mortgages to the agency and to loan an amount equal to the proceeds on new mortgages in furtherance of the purposes of and subject to the conditions of this title. In the case of corporate borrowers, such new mortgages shall bear interest at a rate not substantially lower than the rate of interest that banks are charging at the time of commitment on comparable new mortgage loans. Each such bank shall annually account and pay over to the agency or to the New York state housing finance agency for deposit in and for the purposes of the low rent lease account as set forth in paragraphs (a) and (b) of subdivision four of section forty-four-a of the private housing finance law or any successor entity as the agency may direct, or to both the agency and the New York state housing finance agency for such deposit and purposes in such proportions as the agency may direct, an amount equal to the difference between (a) the total amount of interest (which shall include all charges to individual and corporate borrowers that would be treated as interest under section 5-501 of the general obligations law and any regulations of the superintendent of financial services pursuant to section fourteen-a of the banking law) received by it during the preceding year on all such new mortgages and (b) the total amount of interest which such mortgages would have yielded if the interest thereon had been at the maximum rate chargeable individual borrowers on such new loans plus an additional interest differential, not in excess of one percent per annum, determined by the agency to be adequate consideration to induce participating banks to make new loans on multiple dwellings.

(5) The agency shall require the submission to it by each bank from which the agency has purchased mortgages evidence satisfactory to the agency of the making of new mortgage loans and of paying over to the low rent lease account as required by this section and in connection therewith may, through its employees or agents or those of the

department of financial services, inspect the books and records of any such bank.

(6) Compliance by any bank with the terms of its agreement with or undertaking to the agency with respect to the making of any mortgage loans and of paying over to the low rent lease account may be enforced by decree of the supreme court. The agency may require as a condition of purchase of mortgages from any national banking association the consent of such association to the jurisdiction of the supreme court over any such proceeding. The agency may also require agreement by any bank, as a condition of the agency's purchase of mortgages from such bank, to the payment of penalties to the agency for violation by the bank of its undertakings to the agency, and such penalties shall be recoverable at the suit of the agency.

(7) The agency shall require as a condition of purchase of any mortgage from a bank that the bank represent and warrant to the agency that

(a) the unpaid principal balance of the mortgage and the interest rate thereon have been accurately stated to the agency;

(b) the amount of the unpaid principal balance is justly due and owing;

(c) the bank has no notice of the existence of any counterclaim, offset or defense asserted by the mortgagor or his successor in interest;

(d) the mortgage is evidenced by a bond or promissory note and a mortgage document which has been properly recorded with the appropriate public official;

(e) the mortgage constitutes a valid first lien or second lien on the real property described to the agency in accordance with subdivision five of section twenty-four hundred two of this part subject only to real property taxes not yet due, installments of assessments not yet due, and easements and restrictions of record which do not adversely affect, to a material degree, the use or value of the real property or improvements thereon;

(f) the mortgage loan when made was lawful under the banking law or federal law, whichever governs the affairs of the bank, and would be lawful on the date of purchase by the agency if made by the bank on that date in the amount of the then unpaid principal balance;

(g) the mortgagor is not now in default in the payment of any installment of principal or interest, escrow funds, real property taxes or otherwise in the performance of his obligations under the mortgage documents and has not to the knowledge of the bank been in default in the performance of any such obligation for a period of longer than sixty days during the life of the mortgage, and

(h) the improvements to the mortgaged real property are covered by a valid and subsisting policy of insurance issued by a company authorized by the superintendent of financial services to issue such policies in the state of New York and providing fire and extended coverage to an amount not less than eighty percent of the insurable value of the improvements to the mortgaged real property.

(8) Each bank shall be liable to the agency for any damages suffered by the agency by reason of the untruth of any representation or the breach of any warranty and, in the event that any representation shall prove to be untrue when made or in the event of any breach of warranty, the bank shall, at the option of the agency, repurchase the mortgage for the original purchase price adjusted for amounts subsequently paid thereon, as the agency may determine.

(9) The agency need not require the recording of an assignment of any mortgage purchased by it from a bank pursuant to this section and shall not be required to notify the mortgagor of its purchase of the mortgage. The agency shall not be required to inspect or take possession of the mortgage documents if the bank from which the mortgage is purchased by the agency shall enter a contract to service such mortgage and account to the agency therefor.

(10) The agency shall maintain a continuous review of the availability of funds in regular banking channels for new mortgage loans. In the event that the agency shall determine that an adequate supply of funds exists in regular banking channels for new mortgage loans the agency shall not authorize the issuance of bonds for the purchase of mortgages except refunding bonds, until such time as the agency shall determine that the supply of funds available for mortgages is again inadequate. The agency shall notify the governor, the temporary president of the senate, and the speaker of the assembly of any determination that there is an inadequate supply of funds available for mortgages made by it under this subdivision. Discontinuance by the agency of the purchase of

mortgages pursuant to a determination that an adequate supply of funds exists in regular banking channels shall not constitute, or in any way effect, termination of the agency as provided in subdivision six of section two thousand four hundred three of this title.

* NB Effective July 23, 2027

§ 2405-a. Education loans. (1) For purposes of this section, the following words and terms shall have the following meaning unless the context shall indicate another or different meaning or intent:

(a) "Corporation" shall mean the New York state higher education services corporation.

(b) "Education Loan" shall mean: (i) a New York higher education loan program loan made pursuant to part v of article fourteen of the education law; or (ii) a loan under Part B of Title IV of the Higher Education Act of nineteen hundred sixty-five, as amended, including but not limited to a loan described in subdivision ten of section twenty-four hundred two of this part; provided, that the borrower shall be required to apply the net proceeds of such loans to pay the student's costs of post-secondary education or to repay one or more such loans incurred for such purpose.

(2) In addition to the powers of the agency pursuant to the other sections of this title, the agency shall have power:

(a) To enter into one or more agreements with the corporation and to perform or contract for the performance of its obligations under any such agreement;

(b) To make and contract to make and to acquire and contract to acquire education loans and to enter into advance commitments for the purchase of said education loans;

(c) Subject to any agreement with bondholders or noteholders, to invest moneys of the agency not required for immediate use, including proceeds from the sale of any bonds or notes, in education loans;

(d) To make and execute contracts for the marketing, origination, servicing, collection, administration, guarantee, securing, and financing of education loans originated or acquired by the agency pursuant to this title, and to pay the reasonable value of services rendered to the agency pursuant to those contracts;

(e) Subject to any agreement with bondholders or noteholders, to renegotiate or refinance any education loan that has been acquired by the agency or which the agency has committed to purchase that is in default; to waive any default or consent to the modification of the terms or any such education loan; to forgive all or part of any indebtedness; and to commence any action or proceeding to protect or enforce any right conferred upon it with respect to any such education loan by law, loan agreement, contract or other agreement;

(f) To prescribe standards and criteria for the origination of education loans to be eligible for acquisition by the agency and for education loans purchased by the agency;

(g) Subject to any agreement with bondholders or noteholders, to sell any education loans made or acquired by the agency at public or private sale and at such price or prices and on such terms as the agency shall determine;

(h) To establish, revise from time to time, charge and collect such premiums or fees in connection with education loans and its participation in the New York higher education loan program as the agency shall determine; and

(i) Subject to any agreement with bondholders or noteholders, to invest moneys pledged to secure bonds issued for the corporate purposes authorized by this section not required for immediate use in investments authorized for investment of state funds under section ninety-eight or ninety-eight-a of the state finance law.

(3) The agency shall have the power and is hereby authorized from time to time to issue its bonds and notes pursuant to section two thousand four hundred six of this title for the corporate purposes authorized by this section, including without limitation for the purposes of financing and refinancing education loans and of refunding any bonds or notes issued for such purpose.

(4) Each lender or service provider who makes a representation or warranty to the agency with respect to an education loan shall be liable to the agency for any damages suffered by the agency by reason of the untruth of such representation or the breach of such warranty and, in the event that any representation shall prove to be untrue when made or in the event of any breach of warranty, such person shall, at the option of the agency, repurchase the education loan for the price provided in

the applicable financing agreement, as the agency may determine.

(5) It is the intent of the legislature that any pledge by the agency of education loans or of earnings, revenues or other moneys receivable from any source, including without limitation default payments by the New York higher education loan program variable rate default reserve fund, the New York higher education loan program fixed rate default reserve fund, or the state of New York mortgage agency New York higher education loan program default reserve fund, as applicable, with respect to education loans financed by the agency, shall be valid and binding from the time when the pledge is made. The education loans, earnings, revenues or other moneys so pledged and thereafter received by the agency or its agent, including without limitation the higher education services corporation or any education loan servicer, shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the agency or its agent, including without limitation the higher education services corporation or any education loan servicer, irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

(6) The state of New York mortgage agency New York higher education loan program default reserve fund. (a) There is hereby created and established in the sole custody of the state of New York mortgage agency a special fund to be known as the state of New York mortgage agency New York higher education loan program default reserve fund which shall be for the exclusive benefit of the holders of education loans that the agency has acquired, or agreed to acquire, under the New York higher education loan program, codified in part V of article fourteen of the education law.

(b) Amounts held in this fund shall not be, or be deemed, funds of the state or funds under the management of the state, the agency, or the corporation. The obligations of such fund shall not be, or be deemed, the debts or obligations of the state and the state shall not be, or be deemed, in any way obligated to: any holder of any such education loan; any holder of bonds issued pursuant to section two thousand four hundred six of this part for the corporate purposes authorized in section two thousand five-a of this article; any fiduciary or provider of any credit facility, liquidity facility or interest rate exchange agreement with respect to such bonds; or any other creditor of this fund.

(c) Such fund shall consist of: (i) all moneys received by the higher education services corporation pursuant to paragraph (b) of subdivision seven of section six hundred ninety-two of the education law, in connection with education loans that the agency has acquired or agreed to acquire under the New York higher education loan program education loans; (ii) any transfers from the New York higher education loan program variable rate default reserve fund created by section seventy-eight-a of the state finance law or from the New York higher education loan program fixed rate default reserve fund created by section seventy-eight-b of the state finance law; and (iii) any appropriation payment or transfer to the agency for such purpose.

(d) The agency shall establish accounts within the fund and priorities of payment from such accounts and shall invest the fund in investments authorized for investment of state funds under section ninety-eight or ninety-eight-a of the state finance law.

(e) This fund, including all sub-accounts thereof, shall be segregated from all other funds kept by the agency and shall not be used for any other purpose beyond those set forth in part V of article fourteen of the education law or in this section. The agency shall utilize monies in the fund solely to pay the outstanding principal, capitalized and unpaid accrued interest on defaulted education loans described in paragraph a of this subdivision.

(f) Nothing contained in this section shall prevent the agency, or the corporation, from receiving grants, gifts or bequests for the purposes of this fund and depositing them into the fund according to law, rules, or regulations.

(g) The agency shall make payments from the monies in this fund in amounts and at times required pursuant to part V of article fourteen of the education law.

*** § 2405-b. Purchase of forward commitment mortgages.** (1) A purpose of the agency shall be to purchase forward commitment mortgages from banks within the state during periods when there is an inadequate supply of credit available for new residential mortgages or available for such loans at carrying charges within the financial means of persons and families of low and moderate income.

It is hereby found and declared that such activities by the agency will alleviate a condition in this state which is contrary to the public health, safety and general welfare and which has constituted in the past and from time to time in the future can be expected to constitute a public emergency. It is further found and declared that such purposes are in all respects for the benefit of the people of the state of New York and the agency shall be regarded as performing an essential governmental function in carrying out its purposes and in exercising the powers granted by this title.

(2) The agency shall purchase forward commitment mortgages from banks at such prices and upon such terms and conditions as it shall determine; provided, however, that the total purchase price, exclusive of any amounts representing a refund of commitment or other fees paid by a bank to the agency, for all mortgages which the agency commits to purchase from a bank at any one time shall in no event be more than the total of the unpaid principal balances thereof, plus accrued interest thereon.

(3) In conducting its program of purchasing forward commitment mortgages, the agency shall be governed by the provisions of paragraph (b) of subdivision three of section twenty-four hundred five of this part; however, with respect to new construction loans for single-family modular or manufactured housing purchased and sited on land, the agency shall be governed by the provisions of only subparagraph (iii) of paragraph (b) of subdivision three of section twenty-four hundred five of this part.

(4) The agency shall require as a condition of purchase of forward commitment mortgages from banks that each such bank certify that each such forward commitment mortgage is to an individual borrower and is in addition to the mortgages such certifying bank otherwise would have made.

(5) Notwithstanding the maximum interest rate, if any, fixed by section 5-501 of the general obligations law or any other law not specifically amending or applicable to this section, the agency may set the interest rate to be borne by forward commitment mortgages purchased

by the agency from banks at a rate or rates which the agency from time to time shall determine, provided however, that if such mortgages are financed through the issuance of the agency's bonds or notes, the interest rate shall be at least sufficient, together with any other available monies, to provide for the payment of its bonds and notes, and forward commitment mortgages bearing such interest rate shall not be deemed to violate any such law or to be unenforceable if originated by a bank in good faith pursuant to an undertaking with the agency with respect to the sale thereof notwithstanding any subsequent failure of the agency to purchase the mortgage or any subsequent sale or disposition of the mortgage by the agency to such bank or any other person.

(6) The agency shall require the submission to it by each bank from which the agency has purchased forward commitment mortgages evidence satisfactory to the agency of the making, and if applicable, the servicing, of such forward commitment mortgages in conformity with such bank's undertaking with the agency and in connection therewith may, through its employees or agents or those of the department of financial services, inspect the books and records of any such bank.

(7) Compliance by any bank with the terms of its agreement with or undertaking to the agency with respect to the sale, and if applicable, the servicing, of forward commitment mortgages may be enforced by decree of the supreme court. The agency may require as a condition of purchase of forward commitment mortgages from any bank the consent of such bank to the jurisdiction of the supreme court over any such proceeding. The agency may also require agreement by any bank, as a condition of the agency's purchase of forward commitment mortgages from such bank, to the payment of penalties to the agency for violation by the bank of its undertakings to the agency, and such penalties shall be recoverable at the suit of the agency.

(8) The agency shall require as a condition of purchase of any forward commitment mortgage from a bank that the bank represent and warrant to the agency that:

(a) other than with respect to new construction loans for single-family modular or manufactured housing purchased and sited on land, the mortgage was not made in satisfaction of an obligation of the bank under section twenty-four hundred five of this part;

(b) the unpaid principal balance of the mortgage and the interest rate thereon have been accurately stated to the agency;

(c) the amount of the unpaid principal balance is justly due and owing;

(d) the bank has no notice of the existence of any counterclaim, offset or defense asserted by the mortgagor or any successor in interest;

(e) the mortgage is evidenced by a bond or promissory note and a mortgage document which has been properly recorded with the appropriate public official or by an instrument which shall constitute or create a security interest in tangible personal property constituting modular or manufactured housing purchased by the agency;

(f) the mortgage constitutes a valid first lien, or second lien on the real property or tangible personal property constituting modular or manufactured housing, described to the agency in accordance with subdivision five of section twenty-four hundred two of this part subject only to real property taxes or other taxes not yet due, installments of assessments not yet due, and easements and restrictions of record which do not adversely affect, to a material degree, the use or value of the real property, tangible personal property constituting modular or manufactured housing or improvements thereon;

(g) the mortgagor is not now in default in the payment of any installment of principal or interest, escrow funds, real property taxes or otherwise in the performance of his obligations under the mortgage documents and has not to the knowledge of the bank been in default in the performance of any such obligation for a period of longer than sixty days during the life of the mortgage; and

(h) the improvements to, or new construction of single-family modular or manufactured housing purchased and sited on land, the mortgaged real property or tangible personal property constituting modular or manufactured housing, are covered by a valid and subsisting policy of insurance issued by a company authorized by the superintendent of financial services to issue such policies in the state of New York and providing fire and extended coverage to an amount not less than eighty percent of the insurable value of the improvements to, or new construction of, the mortgaged real property or tangible personal property constituting modular or manufactured housing.

(9) Each bank shall be liable to the agency for any damages suffered by the agency by reason of the untruth of any representation or the breach of any warranty and, in the event that any representation shall prove to be untrue when made or in the event of any breach of warranty, the bank shall, at the option of the agency, repurchase the mortgage for the original purchase price adjusted for amounts subsequently paid thereon, as the agency shall determine.

(10) The agency need not require the recording of an assignment of any forward commitment mortgage purchased by it from a bank pursuant to this section and shall not be required to notify the mortgagor of its purchase of the mortgage. The agency shall not be required to inspect or take possession of the mortgage documents if the bank from which the forward commitment mortgage is purchased by the agency shall enter a contract to service such mortgage and account to the agency therefor.

(11) Notwithstanding any other provision of law, the agency is authorized to require, as a condition to the purchase from banks of any forward commitment mortgage, such restrictions upon assumability of the mortgage, default provisions, rights to accelerate, and other terms applicable to such forward commitment mortgages made by the bank pursuant to undertakings with the agency with respect to the sale thereof as the agency may determine to be necessary or desirable to assure the repayment of its bonds and notes and the exemption from federal income taxes of the interest payable on its bonds and notes. All such terms shall be enforceable by the originating bank, the agency, and any successor holder of the mortgage unless expressly waived in writing by or on behalf of the agency.

* NB Repealed July 23, 2027

*** § 2405-c. Purchase of new housing loans.** (1) The agency is hereby directed, to the extent it finds it practicable, to establish a program whereby it purchases new housing loans from banks within the state during periods when there is an inadequate supply of credit available for new residential improvement loans or available for such loans at carrying charges within the financial means of persons and families of low or moderate income.

It is hereby found and declared that such activities by the agency will alleviate a condition in this state which is contrary to the public health, safety and general welfare and which has constituted in the past and from time to time in the future can be expected to constitute a public emergency. It is further found and declared that such purposes are in all respects for the benefit of the people of the state of New York and the agency shall be regarded as performing an essential governmental function in carrying out its purposes and in exercising the powers granted by this title.

(2) The agency shall purchase new housing loans from banks at such prices and upon such terms and conditions as it shall determine; provided, however, that each borrower receiving a housing loan purchased by the agency shall be a person of low or moderate income and provided further that the total purchase price, exclusive of any amounts representing a refund of commitment or other fees paid by a bank to the agency, for all housing loans which the agency commits to purchase from a bank at any one time shall in no event be more than the total of the unpaid principal balances thereof, plus accrued interest thereon.

(3) In conducting its program of purchasing new housing loans, the agency shall not be governed or limited by the provisions of clause (i), (ii) or (iii) of paragraph (b) of subdivision three of section twenty-four hundred five of this title.

(4) The agency shall require as a condition of purchase of new housing loans from banks that each such bank certify that each such new housing loan is to an individual borrower and is in addition to the housing loans such certifying bank otherwise would have made.

(5) Notwithstanding the maximum interest rate, if any, fixed by section 5-501 of the general obligations law or any other law not specifically amending or applicable to this section, the agency may set the interest rate to be borne by new housing loans purchased by the agency from banks at a rate or rates which the agency from time to time shall determine to be at least sufficient, together with any other available monies, to provide for the payment of its bonds and notes, and new housing loans bearing such interest rate shall not be deemed to violate any such law or to be unenforceable if originated by a bank in good faith pursuant to an undertaking with the agency with respect to the sale thereof notwithstanding any subsequent failure of the agency to

purchase the housing loan or any subsequent sale or disposition of the housing loan by the agency to such bank or any other person.

(6) The agency shall require the submission to it by each bank from which the agency has purchased new housing loans evidence satisfactory to the agency of the making, and if applicable, the servicing, of such new housing loans in conformity with such bank's undertaking with the agency and in connection therewith may, through its employees or agents or those of the department of financial services, inspect the books and records of any such bank.

(7) Compliance by any bank with the terms of its agreement with or undertaking to the agency with respect to the sale, and if applicable, the servicing, of new housing loans may be enforced by decree of the supreme court. The agency may require as a condition of purchase of new housing loans from any national bank the consent of such bank to the jurisdiction of the supreme court over any such proceeding. The agency may also require agreement by any bank, as a condition of the agency's purchase of new housing loans from such bank, to the payment of penalties to the agency for violation by the bank of its undertakings to the agency, and such penalties shall be recoverable at the suit of the agency.

(8) The agency shall require as a condition of purchase of any new housing loan from a bank that the bank represent and warrant to the agency that:

(a) the unpaid principal balance of the housing loan and the interest rate thereon have been accurately stated to the agency;

(b) the amount of the unpaid principal balance is justly due and owing;

(c) the bank has no notice of the existence of any counterclaim, offset or defense asserted by the mortgagor or any successor in interest;

(d) the housing loan is evidenced and secured in the manner specified in the bank's undertaking to the agency and all required loan documents have been properly recorded with any appropriate public official;

(e) the housing loan is secured by the security described to the agency subject only to liens, security interests and encumbrances described to the agency;

(f) the borrower is not now in default in the payment of any installment of principal or interest, escrow funds, real property taxes or otherwise in the performance of his obligations under the loan documents and has not to the knowledge of the bank been in default in the performance of any such obligation for a period of longer than sixty days during the life of the housing loan;

(g) the residential family dwelling unit improved, rehabilitated, reconstructed or redeveloped with the proceeds of the housing loan is covered by a valid and subsisting policy of insurance issued by a company authorized by the superintendent of financial services to issue such policies in the state of New York and providing fire and extended coverage to the extent specified in the bank's undertaking to the agency; and

(h) the housing loan is insured or guaranteed by the United States of America or any agency thereof, or by a firm which is authorized by the superintendent of financial services of the state of New York to issue such policies in the state.

(9) Each bank shall be liable to the agency for any damages suffered by the agency by reason of the untruth of any representation or the breach of any warranty and, in the event that any representation shall prove to be untrue when made or in the event of any breach of warranty, the bank shall, at the option of the agency, repurchase the housing loan for the original purchase price adjusted for amounts subsequently paid thereon, as the agency shall determine.

(10) The agency need not require the recording or filing of an assignment of any new housing loan purchased by it from a bank pursuant to this section and shall not be required to notify the borrower of its purchase of the housing loan. The agency shall not be required to inspect or take possession of the loan documents if the bank from which the new housing loan is purchased by the agency shall enter a contract to service such housing loan and account to the agency therefor.

(11) Notwithstanding any other provision of law, the agency is authorized to require, as a condition to the purchase from banks of new housing loans, such restrictions upon assumability of the loan, default provisions, rights to accelerate, and other terms applicable to new housing loans made by banks pursuant to undertakings with the agency with respect to the sale thereof as the agency may determine to be necessary or desirable to assure the repayment of its bonds and notes

and the exemption from federal income taxes of the interest payable on its bonds and notes. All such terms shall be enforceable by the originating bank, the agency, and any successor holder of the housing loan unless expressly waived in writing by or on behalf of the agency.

(12) In conducting its program of purchasing new housing loans, the agency shall use its best efforts to work in conjunction with and maximize the participation of programs operated by not-for-profit corporations or charitable organizations for the improvement, rehabilitation, reconstruction or redevelopment of one to four unit residences.

* NB Repealed July 23, 2027

*** § 2405-d. Lease-to-own program.** (1) The agency is authorized to participate in lease-to-own programs as described in this section. The purpose of a lease-to-own program is to provide mortgage financing for a residence occupied as a primary residence by a prospective mortgagor pursuant to a lease-to-own contract with the owner of such property. The lease-to-own contract shall provide for the eventual purchase by the resident of the residence and an interim lease of the residence prior to the closing of the purchase thereof. The party to the lease-to-own contract who is the seller of the residence is referred to in this section as the "seller". The prospective purchaser who is a party to the lease-to-own contract is referred to in this section as the "tenant-purchaser". A "residence" for the purpose of this section is a single-family home, a condominium housing unit or a housing unit owned by a cooperative housing corporation.

(2) The agency may contract to acquire and may acquire a mortgage loan or loans made by a bank to a seller who has entered a lease-to-own contract with an eligible tenant-purchaser for the property which is the subject of and security for such mortgage loan.

(3) (a) The lease-to-own contract shall contain:

(i) a lease of the residence, or in the case of cooperative housing units a sublease, for a term not to exceed five years.

(ii) provision for a rental payment not less than the sum of (A) an amount sufficient to pay the estimated real property taxes and insurance on the residence, or in the case of a cooperative unit, the maintenance charges; (B) the cost of routine maintenance of the residence unless the lease-to-own contract requires the tenant-purchaser to perform such maintenance at his own expense; (C) an amount sufficient to pay the interest on the mortgage loan held by the agency on the residence less the estimated earnings on the escrow fund provided for in subdivision four of this section which is allocable to such mortgage held by the agency; (D) an amount to be held in escrow, referred to as the "tenant-purchaser escrow", which, when accumulated over the period of the lease-to-own contract, will amount to a sum sufficient to pay the tenant-purchaser's required down payment under the lease-to-own contract plus the estimated closing costs of purchase which will be allocable to the tenant-purchaser, including the seller's closing costs at the initial closing of the mortgage to the seller; and (E) in the case of a condominium unit, common charges.

(iii) provisions obligating the tenant-purchaser to buy and the seller to sell the residence at the end of the lease term.

(iv) a provision under which the seller waives specific performance with respect to the tenant-purchaser's obligation to purchase.

(v) a provision that default by the tenant-purchaser under the provisions of the lease-to-own contract shall result in the forfeiture to the seller of all amounts in the tenant-purchaser escrow.

(vi) a provision that the tenant-purchaser shall have the option upon reasonable notice to the seller and the agency to elect to close the purchase of the residence at an earlier date than that specified in the lease-to-own contract.

(vii) a provision that the rent shall be adjusted under the lease-to-own contract periodically to take account of changes in taxes, insurance, escrow earnings and other variables intended to be covered by the tenant's rental payment.

(viii) a provision governing the consequences of default by each of the parties.

(b) The provisions of the emergency housing rent control law, the local emergency housing rent control act, the city rent and rehabilitation law, the emergency tenant protection act of nineteen seventy-four and the New York city rent stabilization law of nineteen hundred sixty-nine shall not apply to a residence subject to a lease-to-own mortgage, provided that the mortgage is purchased by the agency. Such exemption shall begin at the commencement of the lease term and shall endure for so long thereafter as the agency holds the mortgage loan. The agency shall not sell the mortgage loan prior to the closing of the transfer of title to the tenant-purchaser or default by the tenant-purchaser under the lease-to-own contract.

(c) The agency shall adopt procedures to ensure that the payments contemplated by subparagraph (ii) of paragraph (a) of this subdivision are in fact applied to those purposes.

(4) (a) The mortgage loan documents with respect to a mortgage loan acquired by the agency pursuant to this section shall provide that there shall be retained as additional security for the mortgage loan an amount not less than fifteen percent of the purchase price stated in the lease-to-own contract. The amount retained shall be disbursed in cash at the mortgage closing to an escrow fund held by the owner of the mortgage. When the agency becomes the owner of the mortgage loan, the agency shall receive the escrow amount to be held by the agency in escrow. The escrowed funds may be invested by the agency in securities in which the agency is authorized to invest its own funds. All banks and trust companies are authorized to give such security for deposits by the agency of escrowed funds as determined by the agency. The escrow amounts pertaining to various lease-to-own mortgage loans may be commingled for investment purposes, but the agency shall keep books of account showing the amount to the credit of each individual escrow account. The investment earnings on each individual escrow account shall be credited to the interest payment on the applicable mortgage loan.

(b) The agency shall advise the seller at periodic convenient intervals of the amount of such earnings with respect to each mortgage loan.

(5) With the agency's approval, the lease-to-own contract may provide that, so long as the seller is not in default, in lieu of the establishment of a tenant-purchaser escrow account, that the portion of the tenant-purchaser's rental payments allocable to such an account may be received by the seller first as reimbursement of the seller's costs of closing of the initial mortgage to the seller and, second, to be credited to the purchase price of the premises.

(6) (a) At the closing of the transfer of title to the residence to the tenant-purchaser pursuant to the lease-to-own contract, the agency

shall disburse the escrow amount to or for the account of the tenant-purchaser.

(b) At such closing, the agency shall require the tenant-purchaser to furnish private mortgage insurance if such insurance is required in the case of other mortgage loans under this title. If such insurance is not obtainable in the private market at the time of such closing, the agency is authorized to issue such insurance.

(7) The agency shall establish such requirements with regard to lease-to-own contracts, lease-to-own residences, the qualifications of tenant-purchasers, and the agency's participation in any lease-to-own program, as may be deemed appropriate by the agency to achieve the objectives of this section. The agency's requirements, including but not limited to income limits applicable to the tenant-purchaser and the purchase price of the residence, must be satisfied at or before the time the mortgage loan is purchased, and the tenant-purchaser must be deemed qualified by the agency at the time.

(8) Notwithstanding any other provision of law, the agency is authorized to require, as a condition to the financing of any mortgage with respect to a lease-purchase residence, such restrictions upon assumability of the mortgage, default provisions, rights to accelerate, and other terms as the agency may determine to be necessary or desirable. All such terms shall be enforceable by the originating bank, the agency, and any successor holder of the mortgage unless expressly waived in writing by or on behalf of the agency.

(9) The provisions of this section shall expire and be of no further force and effect on and after July first, nineteen hundred ninety-five.

* NB Expired July 1, 1995

§ 2405-e. Purchase of employer assisted forward commitment mortgages. (1) In accordance with the authority set forth in section twenty-four hundred five-b of this title, the agency may purchase employer assisted forward commitment mortgages from banks at such prices and upon such terms and conditions as it shall determine. In conducting its program of purchasing employer assisted forward commitment mortgages, the agency shall be governed by the provisions of section twenty-four hundred five-b of this title. The board of directors of the agency shall establish from time to time maximum income limits of persons eligible to receive such mortgages, which income limits shall not exceed the latest maximum income limits permitted under the Internal Revenue Code of 1986, as amended, for mortgages financed by mortgage revenue bonds. An employer may develop additional qualifications for eligible employees beyond those qualifications provided for in this section, provided that such qualifications are non-discriminatory and are pre-approved by the agency; the employer, however, shall remain solely responsible for determining and insuring the legality of such qualifications and may not rely on any agency reviews, approvals, legal opinions or statements.

(2) To participate in an employer assisted forward commitment mortgage program, an employer must be a corporation, partnership, or sole proprietorship which maintains an office in the state and must satisfy the requirements set forth in guidelines established by the agency.

(3) For any employer assisted forward commitment mortgage, the maximum loan-to-value ratio shall be established by the agency, provided that such loan shall not exceed one hundred percent of the appraised value of the mortgaged premises. Reasonable closing costs for the loan may be amortized over the life of the loan, provided that the final loan amount does not exceed one hundred percent of the appraised value of the mortgaged premises.

(4) The agency shall require any employer participating in the employer assisted forward commitment mortgage program to guarantee to pay up to twenty percent of the total outstanding mortgage indebtedness (as determined by the agency) for each employee who obtains a mortgage loan under the provisions of this section and who defaults on such mortgage loan during the first seven years of such loan, regardless of whether such borrower is an employee of such employer at the time of the default.

§ 2405-f. New York state community restoration fund. (1) Definitions. For the purposes of this section, the following terms shall have the following meanings:

(a) "fund" shall mean the New York state community restoration fund established pursuant to subdivision two of this section;

(b) "residential home loan" shall mean a first or subordinate lien loan, including mortgage loans purchased by the agency under section twenty-four hundred five-b of this part, that is secured by a borrower's interest in: (i) residential real property, including as defined in section thirteen hundred five of the real property actions and proceedings law, and any improvements or structures thereon; (ii) a share or shares of a cooperative corporation that entitles a borrower to a housing unit; or (iii) a residential structure that is part of a condominium development. Residential home loan shall also include interest, taxes, homeownership associations fees, carrying charges, and other liens encumbering the residence;

(c) "vacant and abandoned" residential real property shall mean (i) residential real property, as defined in section thirteen hundred five of the real property actions and proceedings law, where the property is not occupied by the tenant, as that term is defined in section thirteen hundred five of the real property actions and proceedings law, homeowner, or mortgagor and (ii) either:

(A) the property is a risk to the health, safety, or welfare of the public, or any adjoining or adjacent property owners, due to acts of vandalism, loitering, criminal conduct, or physical destruction or deterioration of the property; or

(B) the relevant governmental authority has declared the property unfit for occupancy and either ordered that the property remain vacant and unoccupied or ordered that the property be demolished; or

(C) each homeowner or mortgagor has separately informed the mortgagee, in writing, that they do not intend to occupy the property in the future, and

(iii) where indicia of lack of occupancy may include, but shall not be limited to: (A) overgrown or dead vegetation; (B) accumulation of newspapers, circulars, flyers, or mail; (C) past due utility notices, disconnected utilities or utilities not in use; (D) accumulation of trash, refuse or other debris; (E) absence of window coverings such as curtains, blinds, or shutters; (F) absence of furnishings or personal items consistent with residential habitation; (G) one or more boarded, missing or broken windows; (H) the property is open to casual entry or trespass; (I) the property has a building or structure that is or appears structurally unsound or has any other condition that presents a potential hazard or danger to the safety of persons, and

(iv) where such residential real property shall not be considered "vacant and abandoned" if, on the property: (A) there is an unoccupied building which is undergoing construction, renovation, or rehabilitation that is proceeding to completion, and the building is in compliance with all applicable ordinances, codes, regulations, and statutes; (B) there is a building that is secure, but is the subject of a probate action, action to quiet title, or other similar ownership dispute; (C) there is a building damaged by natural disaster upon declaration of a state disaster emergency by the governor pursuant to section twenty-eight of the executive law relating to any claim arising from the cause of such declaration, while awaiting funds to repair; or (D) there is a building occupied on a seasonal basis, but otherwise secure;

(d) "homeowner" shall mean a natural person who has a legal interest in the property other than a tenant and is the occupant of a residence that secures such residential home loan;

(e) "eligible institution" shall mean a community development financial institution or a community development financial institution partnered with a not-for-profit, housing counseling agency, land bank, or other local government entity, or any of the aforementioned, either on their own or partnered with a community development financial institution. An eligible community development financial institution shall have a record of success in serving investment areas or targeted populations; and/or shall have agreed to expand its operations into a new investment area or to serve a new targeted population, offer more products or services, or increase the volume of its current business. Eligible not-for-profits shall, among other things, have the ability to: undertake repair or rehabilitation efforts; carry out property and asset management, including servicing, undertake demolition; and/or provide assistance in finding housing options, market properties for sale or rental; coordinate, provide, and/or connect homeowners to counseling, mediation, legal representation, and negotiate on behalf of homeowners seeking a residential home loan payment modification, provide training and support for counselors, mediators, and attorneys regarding such assistance to homeowners, as well as provide credit counseling;

(f) "community development financial institution" or "CDFI" shall mean an organization located in this state which has been certified as a community development financial institution by the federal community development financial institutions fund, as established pursuant to 12 U.S.C. 4701 et seq., as amended from time to time;

(g) "investment area" means a geographic area that is determined by the agency, from time to time, as meeting criteria indicative, as of such time, of economic distress, including unemployment rate; foreclosure rate; percentages and numbers of low-income residents; per capita income and per capita real property wealth; and such other indicators of distress as the agency shall determine. Economically distressed areas may include counties, cities, municipalities, block numbering areas, and census tracts. The program shall to the fullest extent possible strive for regional diversity in providing foreclosure relief and assistance consistent with the program goals to communities throughout New York state that are impacted by the foreclosure crises;

(h) "lender" means banks as defined in section twenty-four hundred two of this part, investors including institutional investors, the agency, any state agency authorized to acquire and hold residential home loans, mortgage servicers and other private, non-bank entities that may own and hold a mortgage and mortgage note, the federal housing administration, the U.S. department of agriculture rural development corporation, the U.S. department of housing and urban development, the federal housing finance agency, and any privately owned, publicly chartered entities and wholly-owned corporate instrumentalities of the United States within the U.S. department of housing and urban development created by congress to encourage lending and reduce costs primarily in the housing sector of the economy; and

(i) "residence" means residential real property as defined in section thirteen hundred five of the real property actions and proceedings law.

(2) The agency is hereby directed to establish and administer a fund to be known as the "New York state community restoration fund," which shall consist of monies deposited therein. Nothing contained in this section shall prevent the agency from receiving grants, gifts, or other monies from other sources, or bequests and depositing them into the fund. The agency shall not commingle the monies in such fund with any other monies of the agency.

(3) The monies in the fund shall be eligible to be used by the agency under program guidelines established by the board of directors of the agency, in consultation with an advisory council to be created by the

agency comprised of a minimum of seven members, where a majority of the membership of the council will be comprised of representatives from non-profit members of the community with knowledge of foreclosures, housing, or community development needs in communities hard hit by foreclosures. The guidelines shall include, among other things, requirements to ensure that fund monies are expended based upon demonstrable community needs, for the purposes set forth in this subdivision, and may also be awarded by the agency to eligible institutions following the process established pursuant to subdivision four of this section, to:

(a) acquire, purchase, or sell residences and/or mortgage notes on residential home loans and residences at or below market rates, or at par if so required to satisfy legal or programmatic restrictions applicable to the purchase of any mortgage loans expected to be acquired, from lenders, or from local, state, and/or the federal government at auction, short sale, or other private or public sale with the intent to:

(i) where possible, provided the homeowner can demonstrate an economic hardship, as such term is defined under the agency's guidelines, in consultation with the advisory council, modify the residential home loan to an affordable rate to keep the current homeowners in the property;

(ii) permit the homeowner, provided the homeowner can demonstrate an economic hardship, as such term is defined under the agency's guidelines, in consultation with the advisory council, to transfer his or her ownership interest in the home to the agency or to an eligible institution and to remain in the residence as a tenant on agreed-upon terms, or obtain assistance from the agency or an eligible institution to acquire a new affordable residence;

(iii) rehabilitate distressed properties; and/or

(iv) demolish homes that are dilapidated or reasonably beyond repair.

(b) make grants and loans to eligible homeowners or to potential buyers of residences in the investment areas; or

(c) fund not-for-profit developers, affordable housing developers, and not-for-profit agencies to acquire vacant and abandoned properties or other real property, mortgages, or mortgage notes acquired under this program, and develop such properties into affordable housing and to work with homeowners in the investment area eligible to be assisted under this section, through activities such as foreclosure prevention counseling, providing new homeowner training, home repair and rehabilitation, property and asset management, demolition, and marketing properties for sale and rental.

(4) (a) In awarding funding to eligible institutions, the agency shall select from eligible institutions pursuant to criteria established by the agency's board of directors, in consultation with the advisory council established in subdivision three of this section, which criteria shall include, but not be limited to:

(i) the experience and background of the eligible institution's board of directors or management team;

(ii) the extent of need within the investment areas or targeted populations;

(iii) the extent of economic distress within the investment areas or the extent of need within the targeted populations;

(iv) the extent of the eligible institution's current and planned community involvement;

(v) the extent to which the eligible institution will increase its resources through coordination with other eligible institutions or encourage collaborative applications by multiple eligible institutions;

(vi) in the case of an institution with a prior history of serving investment areas or targeted populations, the extent of success in serving such areas or populations;

(vii) the extent to which eligible institutions would use funds to restructure residential home loans to allow homeowners to continue to occupy their residences; and

(viii) other factors deemed to be appropriate by the agency.

(b) In allocating funding to eligible institutions, the agency shall be authorized to make funding available in any manner necessary for such eligible institution to participate in auctions disposing of mortgage notes or residences.

(5) The agency's board of directors shall establish, in consultation with the advisory council established in subdivision three of this section, guidelines to:

(a) develop application and reporting procedures for eligible institutions to use to apply for funds to carry out the provisions of this section and criteria for use by the eligible institutions that receive funds pursuant to this section to evaluate applications for assistance from homeowners;

(b) develop guidelines for funds issued to and loans issued by the agency and by eligible institutions, including guidelines for use by the agency for purchase and sales of residences and/or mortgages and notes;

(c) establish the procedure by which eligible institutions are selected and compensated, including establishing the relative importance and/or weight given to each criterion;

(d) establish terms by which eligible institutions shall maintain and utilize funds received pursuant to this section, provided however that eligible institutions shall keep such funds separate from all other of its business or fiduciary accounts; and

(e) establish terms by which the eligible institutions shall repay the fund for monies allocated to them pursuant to this section, if applicable.

(6) Nothing in this section shall preclude an eligible institution from working with or coordinating activities and/or services with any entity that handles and facilitates the transfers of mortgage notes and/or property to eligible entities under this section; provided, however, that any funds awarded to an eligible institution shall only be used to advance the purposes of this section.

(7) The agency shall submit a report to the governor, the speaker of the assembly, the minority leader of the assembly, the temporary president of the senate, and the minority leader of the senate on or before the first of February each year. Such report shall include, but not be limited to, a detailed description of the use of funds by the agency for programs under this section, and of the use of funds for each eligible institution receiving funds under this section.

§ 2406. Bonds and notes of the agency. (1) Subject to the approval of the New York public authorities control board in accordance with the provisions of chapter thirty-nine of the laws of nineteen hundred seventy-six, as amended and subject to the provisions of section two thousand four hundred seven of this title, the agency shall have the power and is hereby authorized from time to time to issue its negotiable bonds and notes in conformity with applicable provisions of the uniform commercial code in such principal amounts as, in the opinion of the agency, shall be necessary to provide sufficient funds for achieving the corporate purposes thereof, including the purchase of mortgages from banks, the payment of interest on bonds and notes of the agency, establishment of reserves to secure such bonds and notes, the transfer of money to the state as described in subdivision twenty-seven of section twenty-four hundred four of this chapter, and all other expenditures of the agency incident to and necessary or convenient to carry out its corporate purposes and powers, except the operating expenses of the agency.

(2) Except as may otherwise be expressly provided by the agency, all bonds and notes issued by the agency shall be general obligations of the agency, secured by the full faith and credit of the agency and payable out of any moneys, assets, or revenues of the agency, subject only to any agreement with bondholders or noteholders pledging any particular moneys, assets or revenues.

(3) Bonds and notes shall be authorized by a resolution or resolutions of the agency adopted as provided by this title; provided, however, that any such resolution authorizing the issuance of bonds or notes may delegate to an officer of the agency the power to issue such bonds or notes from time to time and to fix the details of any such issues of bonds or notes by an appropriate certificate of such authorized officer.

(4) Such bonds or notes shall bear such date or dates, shall mature at such time or times, shall bear interest at such rate or rates, shall be of such denominations, shall be in such form, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America at such place or places within or without the state, be subject to such terms of redemption prior to maturity as may be provided by such resolution or resolutions or such certificate with respect to such bonds or notes, as the case may be; provided, however, that the maximum maturity of bonds shall not exceed forty years from the date thereof and the maximum maturity of notes or any renewals thereof shall not exceed seven years from the date of the original issue of such notes.

(5) Any bonds or notes of the agency may be sold at such price or prices, at public or private sale, in such manner and from time to time as may be determined by the agency, and the agency may pay all expenses,

premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale thereof. No bonds or notes of the agency may be sold at private sale, however, unless such sale and the terms thereof have been approved in writing by (a) the comptroller if such sale is not to the comptroller and the comptroller is not then serving as a director of the agency, or (b) the state director of the budget, if such sale is to the comptroller or the comptroller is then serving as a director of the agency.

(6) The agency is authorized to provide for the issuance of its bonds or notes (including bonds, notes or other obligations the interest on which is includable under the United States Internal Revenue Code of nineteen hundred eighty-six, as amended, or any subsequent corresponding internal revenue law of the United States, in the gross income of the holders of the bonds to the same extent and in the same manner that the interest on bills, bonds, notes or other obligations of the United States is includable in the gross income of the holders thereof under said Internal Revenue Code or any such subsequent law) for the purpose of refunding any bonds or notes of the agency then outstanding, including the payment of any redemption premiums thereon and any interest accrued or to accrue to the redemption date next succeeding the date of delivery of such refunding bonds or notes. The proceeds of any such bonds or notes issued for the purpose of so refunding outstanding bonds or notes shall be forthwith applied to the purchase or retirement of such outstanding bonds or notes or the redemption of such outstanding bonds or notes on the redemption date next succeeding the date of delivery of such refunding bonds or notes and may, pending such application, be placed in escrow to be applied to such purchase or retirement or redemption on such date. Any such escrowed proceeds, pending such use, may be invested and reinvested in obligations of or guaranteed by the state or the United States of America, or in certificates of deposit or time deposits secured in such manner as the agency shall determine, or in obligations of any agency of the state or the United States of America which may from time to time be legally purchased by savings banks within the state as an investment of funds belonging to them or in their control, or in obligations of the Federal National Mortgage Association, maturing at such time or times as shall be appropriate to assure the prompt payment, as to principal, interest

and redemption premium, if any, on the outstanding bonds or notes to be so refunded by purchase, retirement or redemption, as the case may be. The interest, income and profits, if any, earned or realized on any such investment may also be applied to the payment of the outstanding bonds or notes to be so refunded by purchase, retirement or redemption, as the case may be. After the terms of the escrow have been fully satisfied and carried out, any balance of such proceeds and interest, if any, earned or realized on the investments thereof may be returned to the agency for use by it in any lawful manner. All such bonds or notes shall be issued and secured and shall be subject to the provisions of this title in the same manner and to the same extent as any other bonds or notes issued pursuant to this title.

(7) Whether or not the bonds and notes are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds and notes are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds and notes for registration.

(8) Subject only to the provisions of sections two thousand four hundred seven and two thousand four hundred eight of this title, any resolution or resolutions authorizing any bonds or notes of the agency may contain provisions which may be a part of the contract with the holders of such bonds or notes, as to: (a) pledging or creating a lien, to the extent provided by such resolution or resolutions, on all or any part of any monies or property of the agency or of any moneys held in trust or otherwise by others for the payment of such bonds or notes; (b) otherwise providing for the custody, collection, securing, investment and payment of any moneys of the agency; (c) the setting aside of reserves or sinking funds and the regulation or disposition thereof; (d) limitations on the purpose to which the proceeds of sale of any issue of such bonds or notes then or thereafter to be issued may be applied; (e) limitations on the issuance of additional bonds or notes, the terms upon which additional bonds or notes may be issued and secured, and upon the refunding of outstanding or other bonds or notes; (f) the procedure, if any, by which the terms of any contract with the holders of bonds or notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent thereto and the manner in which such

consent may be given; (g) the creation of special funds into which any moneys of the agency may be deposited; (h) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the agency may determine, which may include any or all of the rights, powers and duties of the trustee appointed pursuant to section two thousand four hundred nine of this title, and limiting or abrogating the right of the holders of bonds or notes to appoint a trustee under such section or limiting the rights, duties and powers of such trustee; (i) defining the acts or omissions to act which shall constitute a default in the obligations and duties of the agency and providing for the rights and remedies of the holders of bonds or notes in the event of such default, providing, however, that such rights and remedies shall not be inconsistent with the general laws of this state and other provisions of this title; and (j) any other matters of like or different character, which in any way affect the security and protection of the bonds or notes and the rights of the holders thereof.

(9) Any resolution or resolutions or trust indenture or indentures under which bonds or notes of the agency are authorized to be issued may contain provisions for vesting in a trustee or trustees such properties, rights, powers and duties in trust as the agency may determine which may include any or all of the rights, powers and duties of the trustee appointed by the holders of any issue of notes or bonds pursuant to section two thousand four hundred nine of this title, in which event the provisions of said section two thousand four hundred nine authorizing the appointment of a trustee by such holders of bonds or notes shall not apply.

(10) It is the intention of the legislature that any pledge of mortgages, housing loans, property, earnings, revenues or other moneys made by the agency shall be valid and binding from the time when the pledge is made; that the mortgages, housing loans, property, earnings, revenues or other moneys so pledged and thereafter received by the agency or its agent, including a servicing bank shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and that the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the agency or its agent, including a servicing bank irrespective of whether such parties have notice thereof.

Neither the resolution nor any other instrument by which a pledge is created need be recorded.

(11) Neither the members of the agency nor any person executing the bonds or other obligations shall be liable personally on the bonds or other obligations or be subject to any personal liability or accountability by reason of the issuance thereof.

§ 2407. Bond limits. (1) Except for notes issued in nineteen hundred seventy and nineteen hundred seventy-one, the agency shall not issue bonds and notes, the interest on which is not included in the gross income of the holders of the bonds and notes under the United States Internal Revenue Code of 1986, as amended, or any subsequent corresponding internal revenue law of the United States, in an aggregate principal amount exceeding ten billion nine hundred twenty million dollars, excluding from such limitation (a) an amount equal to any original issue discount from the principal amount of any bonds or notes issued, (b) bonds and notes issued to refund outstanding bonds and notes, and (c) bonds and notes not described in paragraph (b) of this subdivision issued to refund outstanding bonds and notes in accordance with the provisions of the Internal Revenue Code of 1986 or the Tax Reform Act of 1986, as amended, where such bonds or notes are not included in the statewide volume cap on private purpose bonds under section 146 of such code provided, however, that upon any refunding pursuant to this paragraph or paragraph (b) of this subdivision, such exclusion shall apply only to the extent that the amount of the refunding bonds or notes does not exceed (i) the outstanding amount of the refunded bonds or notes, plus (ii) to the extent permitted by applicable federal tax law, costs of issuance of the refunding bonds or notes to be financed from the proceeds of the refunding bonds or notes. No such bond or note shall be issued by the agency on or after July twenty-third, two thousand twenty-seven, excluding bonds and notes issued to refund outstanding bonds and notes. No more than two billion four hundred million dollars of proceeds of bonds or notes issued by the agency pursuant to this subdivision shall be used for mortgage purposes by blending with proceeds of bonds issued pursuant to subdivision two of this section.

(2) In connection with the issuance of bonds for the purpose of furthering programs described in this title, the agency is authorized to covenant and consent that the interest on any of its bonds, notes or other obligations shall be includable, under the United States Internal Revenue Code of 1986, as amended or any subsequent corresponding internal revenue law of the United States, in the gross income of the holders of the bonds to the same extent and in the same manner that the interest on bills, bonds, notes or other obligations of the United States is includable in the gross income of the holders thereof under said Internal Revenue Code or any such subsequent law. Pursuant to this subdivision, the agency shall not issue bonds, notes or other obligations in an aggregate principal amount exceeding one billion nine hundred fifty million dollars, excluding from such limitation bonds, notes or other obligations issued to refund outstanding bonds, notes or other obligations. No such bond, note or other obligation shall be issued by the agency on or after July twenty-third, two thousand twenty-seven, excluding bonds, notes or other obligations issued to refund outstanding bonds, notes or other obligations and no mortgages shall be purchased with the proceeds of such bonds, notes or other obligations after such date. The board of directors of the agency shall establish program guidelines for purposes of bonds, notes or other obligations issued pursuant to this subdivision. The board of directors shall establish from time to time maximum income limits of persons eligible to receive mortgages financed by bonds, notes or other obligations issued pursuant to this subdivision, which income limits with respect to one-third of the total principal amount of mortgages authorized to be so financed shall not exceed one hundred twenty-five percent of the latest maximum income limits permitted under the Internal Revenue Code of 1986, as amended, for mortgagors financed by mortgage revenue bonds, with respect to one-third of such principal amount authorized to be so financed, shall not exceed one hundred thirty-five percent of such income limits, and with respect to one-third of such principal amount authorized to be so financed, shall not exceed one hundred fifty percent of such limits, provided that notwithstanding the foregoing, the maximum income limits of persons eligible to receive mortgages financed by the agency under its neighborhood revitalization program (and any successor program) shall not exceed one hundred fifty

percent of the latest maximum income limits permitted under the Internal Revenue Code of 1986, as amended, for mortgagors financed by mortgage revenue bonds.

(3) The fixing of the statutory maximums in this section shall not be construed as constituting a contract between the agency and the holders of its bonds or notes that additional bonds and notes may not be issued subsequently by the agency in the event that such statutory maximums shall subsequently be increased by law.

§ 2408. Reserve funds and appropriations. (1) The agency may create and establish one or more reserve funds to be known as debt service reserve funds and pay into any such reserve fund (a) any moneys appropriated by the state for the purposes of such fund, (b) any proceeds of sale of bonds and notes to the extent provided in the resolution of the agency authorizing the issuance thereof, (c) any moneys directed to be transferred by the agency to such debt service reserve fund, and (d) any other moneys made available to the agency for the purposes of such fund from any other source or sources. The moneys held in or credited to any debt service reserve fund established under this subdivision, except as hereinafter provided, shall be used solely for the payment of the principal of bonds of the agency secured by such debt service reserve fund, as the same mature, required payments to any sinking fund established for the amortization of such bonds (hereinafter referred to as "sinking fund payments"), the purchase or redemption of such bonds of the agency, the payment of interest on such bonds of the agency or the payment of any redemption premium required to be paid when such bonds are redeemed prior to maturity, provided, however, that moneys in such fund shall not be withdrawn therefrom at any time in such amount as would reduce the amount of such fund to less than the maximum amount of the principal and interest maturing and becoming due in any succeeding state fiscal year on the bonds of the agency then outstanding and secured by such reserve fund, except for the purpose of paying the principal of and interest on such bonds of the agency secured by such reserve fund maturing and becoming due and sinking fund payments for the payment of which other moneys of the agency are not available. Any income or interest earned by, or increment to, any such debt service reserve fund due to the investment thereof may be transferred to any other fund or account of the agency to the extent it does not reduce the amount of such debt service reserve fund below the maximum amount of principal and interest maturing and becoming due in any succeeding state fiscal year on all bonds of the agency then outstanding and secured by such reserve fund. Moneys in any debt service reserve fund not required for immediate use or disbursement may be invested in obligations of the state or the United States of America or obligations the principal and interest of which are guaranteed by the state or the United States of America or in obligations of any agency of the state or the United States of America which may from time to time be legally purchased by savings banks within the state as an investment of funds belonging to them or in their control. In computing the amount of any debt service reserve fund for the purposes of this section, securities in which all or a portion of such reserve fund are invested shall be valued at par or, if purchased at less than par, at their cost to the agency. If the agency shall create and establish one or more debt service reserve funds as herein provided, the agency shall not issue bonds at any time if the maximum amount of principal and interest maturing and becoming due in a succeeding state fiscal year on the bonds outstanding and then to be issued and secured by a debt service reserve fund will exceed the amount of such reserve fund at the time of issuance, unless the agency, at the time of issuance of such bonds, shall deposit in such reserve fund from the proceeds of the bonds to be issued, or otherwise an amount which together with the amount then in such reserve fund, will be not less than the amount of principal and interest maturing and becoming due in any succeeding state fiscal year on the bonds then to be issued and on all other bonds of the agency then outstanding and secured by such reserve fund.

(2) To assure the continued operation and solvency of the agency for the carrying out of the public purposes of this act, provision is made in subdivision one of this section for the accumulation in each debt service reserve fund of an amount equal to the maximum amount of principal and interest maturing and becoming due in any succeeding state fiscal year on all bonds of the agency then outstanding and secured by such reserve fund. In order to further assure the continued operation and solvency of the agency for the fulfillment of its corporate

purposes, there shall be annually apportioned and paid to the agency for deposit in each debt service reserve fund such sum, if any, as shall be certified by the chairman of the agency to the governor and director of the budget, as necessary to restore any such debt service reserve fund to an amount equal to the maximum amount of principal and interest maturing and becoming due in any succeeding state fiscal year on the bonds of the agency then outstanding and secured by such reserve fund; in which case such sum so apportioned and paid shall be deposited by the agency in such debt service reserve fund. The principal amount of bonds secured by a debt service reserve fund or funds to which state funds are apportionable pursuant to this subdivision shall be limited to the total amount of bonds and notes outstanding on the effective date of this act, plus the total amount of bonds and notes contracted after the effective date of this act to finance projects in progress on the effective date of this act as determined by the New York state public authorities control board created pursuant to section fifty of this chapter whose affirmative determination shall be conclusive as to all matters of law and fact solely for the purposes of the limitations contained in this subdivision, but in no event shall the total amount of bonds so secured by such a debt service reserve fund or funds exceed three hundred eighty-seven million dollars, excluding bonds issued to refund such outstanding bonds until the date of redemption of such outstanding bonds. As outstanding bonds so secured are paid, the amount so secured shall be reduced accordingly but the redemption of such outstanding bonds from the proceeds of refunding bonds shall not reduce the amount so secured.

(3) The agency may create and establish such other reserve funds as it shall deem advisable and necessary.

(4) All amounts paid over to the agency by the state pursuant to the provisions of this section shall constitute and be accounted for as advances by the state to the agency and, subject only to the rights of the holders of any bonds or notes of the agency theretofore or thereafter issued, shall be repaid to the state from all available operating revenues of the agency in excess of amounts required for the debt service reserve funds and operating expenses.

(5) The chairman of the agency shall make and deliver to the governor and director of the budget on or before December first, nineteen hundred

seventy and on or before December first in each year thereafter, a certificate stating the amount estimated to be required for payment of or provision for expenses of the agency for the next ensuing state fiscal year. The amount so stated for any such ensuing state fiscal year shall be the sum of the amounts, if any, estimated for such fiscal year, by which anticipated operating expenses will exceed available operating revenues that the agency anticipates with reasonable certainty it will receive during such fiscal year. To assure the continued operation and solvency of the agency for the fulfillment of its corporate purposes, there shall be apportioned and paid to the agency after audit by and upon the warrant of the comptroller on vouchers certified or approved by the officer or officers authorized by the agency, not more than the amount so stated for expenses of the agency for such fiscal year.

(6) As used in this section, (a) the term "operating expenses" for the fiscal year shall mean ordinary expenditures for operation and administration of the agency; and (b) the term "available operating revenues" for the fiscal year shall mean all amounts received on account of mortgages acquired by the agency, fees charged by the agency, if any, and income or interest earned or added to funds of the agency due to the investment thereof, and not required under the terms or provisions of any covenant or agreement with holders of any bonds or notes of the agency to be applied to any purposes other than payment of expenses of the agency.

§ 2409. Remedies of bondholders and noteholders. (1) In the event that the agency shall default in the payment of principal or of interest on any issue of bonds or notes after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the agency shall fail or refuse to comply with the provisions of this title, or shall default in any agreement made with the holders of any issue of bonds or notes, the holders of twenty-five per centum in aggregate principal amount of the bonds or notes of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county in which the principal office of the agency is located, and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds or notes for the purposes herein provided.

(2) Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds or notes then outstanding shall, in his or its own name,

(a) enforce all rights of the bondholders or noteholders, including the right to require the agency to collect interest and amortization payments on the mortgages held by it adequate to carry out any agreement as to, or pledge of, such interest and amortization payments, and to require the agency to carry out any other agreements with the holders of such bonds or notes and to perform its duties under this title;

(b) bring suit upon such bonds or notes;

(c) by action or suit, require the agency to account as if it were the trustee of an express trust for the holders of such bonds or notes;

(d) by action or suit, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds or notes;

(e) declare all such bonds or notes due and payable and if all defaults shall be made good then with the consent of the holders of twenty-five per centum of the principal amount of such bonds or notes then outstanding, to annul such declaration and its consequences.

(3) Such trustee shall in addition to the foregoing have and possess all the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders or noteholders in the enforcement and protection of their rights.

(4) Before declaring the principal of bonds or notes due and payable, the trustee shall first give thirty days' notice in writing to the governor, to the agency and to the attorney general of the state.

(5) The supreme court shall have jurisdiction of any suit, action or proceeding by the trustee on behalf of bondholders or noteholders. The venue of any such suit, action, or proceeding shall be laid in the county in which the principal office of the agency is located.

§ 2410. State and municipalities not liable on bonds, notes or insurance commitments or contracts or development corporation credit support. The bonds, notes, insurance commitments or contracts or development corporation credit support and other obligations of the agency shall not be a debt of the state of New York or of any municipality, and neither the state nor any municipality shall be liable thereon, nor shall they be payable out of any funds other than those of the agency.

§ 2411. Agreement of the state. The state of New York does hereby pledge to and agree with the holders of any bonds or notes or any mortgage insurance contract issued under this title that the state will not limit or alter the rights hereby vested in the agency to fulfill the terms of any agreements made with the holders thereof, or in any way impair the rights and remedies of such holders until such bonds or notes together with the interest thereon, with interest on any unpaid installments of interest, or insurance contracts and all costs and expenses in connection with any action or proceedings by or on behalf of such holders, are fully met and discharged. The agency is authorized to include this pledge and agreement of the state in any agreement with the holders of such bonds or notes or insurance contracts.

§ 2412. Property and income. 1. The property of the agency and its income and operations shall be exempt from taxation or assessments of every kind and nature, other than assessments for local improvements and the tax imposed by article eleven of the tax law; nor shall the agency be required to pay any recording fee or transfer tax of any kind on account of instruments recorded by it or on its behalf.

2. Notwithstanding the provisions of subdivision one of this section, all mortgages recorded prior to the effective date of this subdivision as to which an assignment to the agency has been recorded shall be recordable, enforceable, assignable and valid for all purposes as if the mortgage recording tax had been paid regardless of whether a mortgage recording tax was paid thereon.

§ 2413. Exemption from taxation of bonds and notes and insurance

commitments and loans. It is hereby determined that the creation of the agency is in all respects for the benefit of the people of the state, for the improvement of their health and welfare, and for the promotion of the economy, and that said purposes are public purposes and the agency will be performing an essential governmental function in the exercise of the powers conferred upon it by this title, and the state covenants with the purchasers and all subsequent holders and transferees of bonds and notes issued by the agency, in consideration of the acceptance of and payment for the bonds and notes, that the bonds and notes of the agency, issued pursuant to this title and the income therefrom and all its fees, charges, gifts, grants, revenues, receipts, and other moneys received or to be received, pledged to pay or secure the payment of such bonds or notes shall at all times be free from taxation, except for estate or gift taxes and taxes on transfers and in addition all other property of the agency and its income and operations shall be exempt from taxation.

§ 2414. Bonds and notes as legal investments for public officers and fiduciaries. The bonds and notes of the agency are hereby made securities in which all public officers and bodies of this state and all municipalities and municipal subdivisions, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, all administrators, guardians, executors, trustees and other fiduciaries, and all other persons whatsoever who are now or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them. The bonds and notes are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities and municipal subdivisions for any purpose for which the deposit of bonds or other obligations of this state is now or may hereafter be authorized.

§ 2415. Moneys of the agency. (1) All moneys of the agency from whatever source derived, except as otherwise authorized or provided in this title, shall be paid to the treasurer of the agency and shall be deposited forthwith in a bank or banks in the state designated by the agency. The moneys in such accounts shall be withdrawn on the order of such person or persons as the agency may authorize. All deposits of such moneys shall, if required by the agency, be secured in such manner as the agency may determine. The comptroller and his legally authorized representatives are authorized and empowered from time to time to examine the accounts and books of the agency, including its receipts, disbursements, contracts, leases, sinking funds, investments and any other records and papers relating to its financial standing. Such an examination shall be conducted by the comptroller at least once in every five years; the comptroller is authorized, however, to accept from the agency, in lieu of such an examination, an external examination of its books and accounts made at the request of the agency, within thirty days after receipt by the agency, the agency shall submit a copy of the report of every external examination of the books and accounts of the agency with respect to insurance contracts, other than copies of the reports of such examinations made by the comptroller.

(2) The agency shall have power to contract with holders of any of its bonds or notes, as to the custody, collection, securing, investment, and payment of any moneys of the agency, of any moneys held in trust or otherwise for the payment of bonds or notes, and to carry out such contract. Moneys held in trust or otherwise for the payment of bonds or notes or in any way to secure bonds or notes and deposits of such moneys may be secured in the same manner as moneys of the agency, and all banks and trust companies are authorized to give such security for such deposits.

(3) Subject to the provisions of any contract with bondholders or noteholders and to the approval of the comptroller, the agency shall prescribe a system of accounts.

(4) The agency shall submit to the governor, chairman of the senate finance committee, chairman of the assembly ways and means committee and the comptroller, within thirty days of the receipt thereof by the agency, a copy of the report of every external examination of the books and accounts of the agency other than copies of the reports of such

examinations made by the comptroller.

§ 2416. Actions. In any case founded upon tort a notice of claim shall be required as a condition precedent to the commencement of an action or special proceeding against the agency or any officer, appointee or employee thereof, and the provisions of section fifty-e of the general municipal law shall govern the giving of such notice.

Except in an action for wrongful death, no action shall be commenced (a) prior to the expiration of thirty days from the date on which the demand, claim or claims upon which the action is founded were presented to a director of the agency or other officer thereof designated for such purpose nor (b) more than one year and ninety days after the cause of action therefor shall have accrued. An action against the agency for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

§ 2417. Limitation of liability. Neither the members of the agency, nor any person or persons acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from carrying out any of the powers expressly given in this act.

§ 2418. Assistance by state officers, departments, boards and commissions; transfer of officers and employees.

(1) The department of audit and control, department of law, and all other state agencies may render such services to the agency within their respective functions as may be requested by the agency.

(2) Officers and employees of state departments and agencies may be transferred to the agency and officers and employees of the agency may be transferred to state departments and agencies without examination and without loss of any civil service status or rights. No such transfer may, however, be made except with the approval of the head of the state

department or division involved, the director of the budget and the chairman of the agency, and in compliance with the rules and regulations of the civil service commission of the state.

§ 2419. Annual report. The agency shall submit to the governor, the chairman of the senate finance committee, the chairman of the assembly ways and means committee, the comptroller and the director of the budget within six months after the end of its fiscal year, a complete and detailed report setting forth: (1) its operations and accomplishments; (2) its receipts and expenditures during such fiscal year in accordance with the categories or classifications established by the agency for its operating and capital outlay purposes, including a listing of all private consultants engaged by the agency on a contract basis and a statement of the total amount paid to each such private consultant; (3) its assets and liabilities at the end of its fiscal year, including a schedule of its mortgages and the status of reserve, special or other funds; (4) a schedule of its bonds and notes outstanding at the end of its fiscal year, together with a statement of the amounts redeemed and incurred during such fiscal year; (5) a schedule of mortgages which have been insured during such year and mortgages for which there exists an outstanding commitment to insure and the status of the mortgage insurance fund and other funds established by the corporation; and with respect to the agency's fiscal years ending after nineteen hundred eighty-five; (6) a breakdown by region (as defined in subdivision nine of section two thousand four hundred twenty-six of this title) of the average income of recipients of SONYMA mortgage loans for such fiscal year, stated separately for SONYMA's tax exempt and blended program and SONYMA's taxable program; (7) a breakdown by region of the income distribution of recipients of SONYMA mortgage loans for such fiscal year, stated separately for SONYMA's tax exempt and blended program and SONYMA's taxable program; and (8) a breakdown by region of the average purchase price of structures acquired with SONYMA mortgage loans for such fiscal year, stated separately for SONYMA's tax exempt and blended program and SONYMA's taxable program. With respect to the schedule mentioned in item five hereof, such schedule shall be submitted within ninety days after the end of its fiscal year and shall be submitted to the temporary president of the senate and speaker of the assembly in addition to the aforementioned officers.

§ 2419-a. Additional reports. 1. Within six months after the end of its fiscal year the agency shall submit to the governor, the majority leader of the senate, the speaker of the assembly, the comptroller and the director of the budget a complete and detailed report setting forth data establishing compliance with the provisions of subdivision three of section twenty-four hundred five of this article by the agency and each bank which participated in the agency's purchase of mortgages from the proceeds of the sale of each issue by the agency of its bonds and notes made on and after the effective date of this section.

2. The agency shall provide to the commissioner of housing and community renewal, on a timely basis, with the data and other information necessary to compile the report or reports required pursuant to section twenty of the public housing law.

§ 2420. Court proceedings; preferences; venue. Any action or proceeding to which the agency or the people of the state of New York may be parties, in which any question arises as to the validity of this act, shall be preferred over all other civil causes except election causes in all courts of the state of New York and shall be heard and determined in preference to all other civil business pending therein except election causes, irrespective of position on the calendar. The same preference shall be granted upon application of counsel to the agency in any action or proceeding questioning the validity of this title in which he may be allowed to intervene. The venue of any such action or proceeding shall be laid in the county in which the principal office of the agency is located.

§ 2420-a. Validity. Bonds, insurance commitments or contracts and development corporation credit support may contain a recital that they are issued or executed, respectively, pursuant to this section, which recital shall be conclusive evidence of their validity, respectively, and the regularity of the proceedings related thereto.

§ 2421. Inconsistent provisions of other laws superseded. Insofar as the provisions of this title are inconsistent with the provisions of any other law, general, special or local, the provisions of this title shall be controlling. It is the intent of the legislature that the provisions of this title relating to mortgage commitments and laws be construed liberally so as to effectuate the public and governmental purpose thereof.

§ 2422. Construction. This title, being necessary for the welfare of the state and its inhabitants, shall be liberally construed so as to effectuate its purposes.

§ 2423. Separability. If any clause, sentence, paragraph, section or part of this title shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or part thereof directly involved in the controversy in which such judgment shall have been rendered.

PART II

§ 2425. Statement of legislative findings and purpose with respect to insurance commitments or contracts by the agency. It is hereby found that there exist in many cities, towns and villages of the state neighborhoods which are blighted, are becoming blighted or may become blighted because of substandard, insanitary, deteriorated or deteriorating conditions, including undermaintained and deteriorating housing accommodations and related retail and other community facilities.

It is further found that there exists throughout the state a seriously inadequate supply of safe, sanitary and affordable housing accommodations for persons of low income. As a result, a large portion of the state's population, including many persons of low income, must continue to reside in undermaintained and deteriorating housing accommodations. These conditions are contrary to the public interest and threaten the health, safety, welfare, comfort and security of the people of the state.

It is further found that a deficiency of mortgage financing is one of the causes of the above conditions. The unaided efforts of private enterprise have not been able to provide nor can they provide sufficient funds to refinance existing mortgage indebtedness and to undertake necessary preservation and rehabilitation of housing accommodations and related retail and other community facilities within neighborhoods which are blighted, are becoming blighted or may become blighted.

It is further found that the lack of mortgage insurance for loans to refinance existing indebtedness and to undertake necessary preservation and rehabilitation of housing accommodations and related retail and other community facilities within such neighborhoods is one reason that the available funds are not sufficient to satisfy the mortgage financing needs of such neighborhoods.

It is further found that the conditions set forth herein accelerate the deterioration of housing accommodations, related retail and other community facilities as well as the neighborhoods in which such real property is located. Uncorrected, such conditions will increase the rate of abandonment and destruction of housing accommodations and related retail and other community facilities. Abandonment and destruction, in turn, erode the local tax base, which deprives cities, towns and villages of revenues needed for essential services such as police, sanitation and fire fighting. Failure to fund essential services could require the state to provide costly financial assistance to ameliorate the emergency conditions thus created.

It is further found that if mortgage insurance were available for loans to refinance existing indebtedness and to undertake necessary preservation and rehabilitation of housing accommodations and related retail and other community facilities, the conditions of blight within such neighborhoods could be ameliorated or averted.

It is therefore declared to be a public purpose of the state, in order to promote the preservation of neighborhoods which are blighted, are becoming blighted or may become blighted, to provide safe, sanitary and affordable housing accommodations to persons, including those of low income, who reside in such neighborhoods, and to discourage disinvestment and encourage the investment of mortgage capital in the real estate situated in such neighborhoods by authorizing the agency to insure qualified mortgage loans in such neighborhoods subject to the terms and provisions hereinafter set forth.

The necessity in the public interest for the provisions hereinafter enacted is hereby declared as a matter of legislative determination.

* Also, it is hereby found that it has become very expensive and programmatically restrictive for the agency and for other entities to

purchase mortgage pool insurance coverage. It is therefore declared to be in the public interest to authorize the agency to use the mortgage insurance fund to provide mortgage pool insurance for mortgages which the agency purchases pursuant to its programs, and to provide mortgage pool insurance for certain other entities in accordance with the provisions of this title.

* NB Repealed July 23, 2027

Also, it is hereby found and declared that it is in the public interest to facilitate the financial activities of the development corporation by providing a source or potential source of payment into funds established by such corporation for the payment of financial obligations or financial rights of such corporation under bonds or ancillary bond facilities.

§ 2426. Definitions. As used in sections twenty-four hundred twenty-five through twenty-four hundred twenty-nine inclusive.

1. "Financial institution". Any bank, trust company, national bank, savings bank, state or federal savings and loan association, or state or federal credit union, insurance company, pension fund or retirement system of any corporation, association, any other entity which is owned or controlled by any one or more of the above, provided the same is supervised by or responsible to any agency of the federal government, the state, any department thereof or the governing body of any city, town or village of the state or any other entity approved by the agency or any one or more of the above when lawfully acting as a trustee or otherwise in a fiduciary capacity. The term "financial institution" shall also include the New York state housing finance agency and the New York state urban development corporation, the New York city housing development corporation, the New York city department of housing preservation and development and any person who is approved as a mortgage lender by the federal housing administration for purposes of insurance issued by such administration or licensed by the state of New York as a mortgage banker.

2. "Housing accommodation". Any existing building, structure, unit thereof or unimproved real property, which is used or occupied, or is intended to be used or occupied, wholly or partly, as the home or residence of one or more persons.

3. "Other real property". Any existing building, structure or unimproved property which is used or occupied, or is intended to be used or occupied, primarily for the retail sale of goods or the rendering of services.

4. "Mortgage insurance fund". The mortgage insurance fund established pursuant to section twenty-four hundred twenty-nine-b of this article.

5. "Mortgage insurance fund requirement". For any category of loans or development corporation credit support as of any particular date of computation, an amount of money or cash equivalents equal to (a) the aggregate of (i) such insured amounts of each category of loans and such amount of development corporation credit support as the agency has determined to be due and payable as of such date pursuant to its contracts to insure mortgages or provide development corporation credit support plus (ii) an amount equal to twenty per centum of the amounts of each category of loans insured under the agency's insurance contracts plus twenty per centum of the amounts to be insured under the agency's commitments to insure less the amounts payable in each category of loans pursuant to subparagraph (i) of this paragraph, provided, however, that if the board of directors of the agency shall have established a per centum for a category of loans, or for one or more loans within such categories, pursuant to subdivision seven of section twenty-four hundred twenty-eight of this part, such per centum shall be substituted for twenty per centum in this paragraph for such category or loan, and provided further, that no such new per centum shall be lower than twenty per centum plus (iii) an amount equal to the respective amounts established by contract with respect to each reserve and financial support fund (which may be determined by reference to percentages of amounts required or permitted to be on deposit in said funds and may be different for each such fund) for which the agency has determined that the development corporation credit support account established under

section twenty-four hundred twenty-nine-b of this part is or will be a source or potential source of development corporation credit support, less the amounts payable with respect to development corporation credit support pursuant to subparagraph (i) of this paragraph less (b) the aggregate of the amount of each reinsurance contract procured in connection with agency obligations determined by the board of directors of the agency to be a reduction pursuant to this paragraph in calculating the mortgage insurance fund requirement. For purposes of pool insurance, in no event shall the reserve requirement be less than twenty percent of the amounts insured under the agency's insurance contracts.

6. "Mortgagee". The lender under a mortgage eligible for insurance pursuant to section twenty-four hundred twenty-eight of this chapter, and its successors and assigns approved by the agency.

7. "Mortgagor". The original borrower under a mortgage eligible for insurance pursuant to section twenty-four hundred twenty-eight of this chapter, and its successors and assigns approved by the agency.

8. "Operating expenses". All costs of administering the agency, including but not limited to salaries and wages, expenses of administering staff functions, fees of consultants, legal fees, charges incurred for servicing insured mortgage loans, money management, office rents, utility charges, cost of supplies, furnishings, equipment, machinery and apparatus, maintenance and repair of property and other expenses incurred in connection with the foregoing.

9. "Region". One or more of the following named areas comprised of the counties indicated:

(1) Buffalo: Cattaraugus, Chautauqua, Erie and Niagara counties;

(2) Rochester: Genesee, Livingston, Monroe, Ontario, Orleans, Seneca, Wayne, Wyoming and Yates counties;

(3) Syracuse: Cayuga, Cortland, Madison, Onondaga and Oswego counties;

(4) Elmira-Binghamton: Allegany, Broome, Chemung, Chenango, Delaware, Otsego, Schuyler, Steuben, Tioga and Tompkins counties;

(5) Mid-Hudson: Columbia, Dutchess, Greene, Orange, Putnam, Sullivan

and Ulster counties;
(6) Capital: Albany, Montgomery, Rensselaer, Saratoga, Schenectady and Schoharie counties;
(7) Mohawk Valley-Northern: Clinton, Essex, Franklin, Fulton, Hamilton, Herkimer, Jefferson, Lewis, Oneida, St. Lawrence, Warren and Washington counties;
(8) Downstate: Rockland and Westchester counties;
(9) Long Island: Nassau and Suffolk counties;
(10) New York City: the five counties comprising the city of New York.

10. "Rehabilitation". Repairs, alterations or improvements of a housing accommodation designed to raise the housing standards therein or, in the case of other real property, designed to provide needed improvements therein.

11. "Preservation loan". A loan extended by a financial institution for the purposes of refinancing existing indebtedness secured by one or more mortgages on a housing accommodation or other real property and/or financing the acquisition of a housing accommodation or other real property and which otherwise complies with the conditions established pursuant to section twenty-four hundred twenty-eight of this chapter.
* 12. "Rehabilitation loan". A loan extended by a financial institution which may include the refinancing of existing indebtedness, if any, secured by one or more mortgages on the housing accommodation or other real property to be rehabilitated or financing the acquisition of the housing accommodation or other real property to be rehabilitated, and which otherwise complies with the conditions established pursuant to section twenty-four hundred twenty-eight of this part, provided however that a sum equal to at least twenty percent of the amount of the loan shall be used for the cost of rehabilitation of, or construction of improvements on a housing accommodation or other real property; provided further that such percentage shall not be required for a community residence as such term is defined in subdivision twenty-eight of section 1.03 of the mental hygiene law, or for any other residential facility funded by, under contract with, or subject to regulation by or under the jurisdiction of the department of mental hygiene, providing services to persons with mental disabilities as such term is defined in subdivision

three of such section.

* NB Effective until July 23, 2027

* 12. "Rehabilitation loan". A loan extended by a financial institution which may include the refinancing of existing indebtedness, if any, secured by one or more mortgages on the housing accommodation or other real property to be rehabilitated or financing the acquisition of the housing accommodation or other real property to be rehabilitated, and which otherwise complies with the conditions established pursuant to section twenty-four hundred twenty-eight of this chapter, provided however that a sum equal to at least twenty-five percent of the amount of the loan shall be used for the cost of rehabilitation of, or construction of improvements on a housing accommodation or other real property.

* NB Effective July 23, 2027

13. "Residential purposes". The use or intended use of any space as the home or residence of one or more persons, excluding use as a housing accommodation for transients, but including use or intended use for emergency, transitional or shelter housing.

14. "Cash equivalent". A letter of credit, insurance policy, surety, guarantee or other security arrangement.

15. "Pool insurance". Mortgage insurance provided by the agency to insure an aggregate of mortgage loans.

16. Reverse mortgage. A reverse mortgage loan pursuant to section two hundred eighty or two hundred eighty-a of the real property law shall mean a loan which is secured by a first mortgage on real property improved by a one to four-family residence or condominium that is the residence of the mortgagor, the proceeds of which are advanced to the mortgagor during the loan term in equal installments, in advances through a line of credit or otherwise, in lump sums, or through a combination thereof. A reverse mortgage may be structured to provide for the addition of accrued but unpaid interest to principal. Such reverse mortgage loan may provide for an initial lump-sum advance wherein the mortgagor may receive an amount necessary to pay closing costs,

including but not limited to loan or commitment fees, if any, insurance premiums, the cost of house repairs, legal fees, the cost of annuities, the costs of third party counseling, the amount necessary to pay off existing mortgages or liens, and other appropriate costs.

17. "Ancillary bond facility". That portion of an ancillary bond facility, as defined in the convention center development corporation act, with respect to which the corporation has an actual or potential financial obligation or financial right.

18. "Bonds". Bonds as defined in the convention center development corporation act.

19. "Corporation". The convention center development corporation, created by the convention center development corporation act.

20. "Development corporation credit support". The sum of the respective amounts (or percentages) of required or permissive funding by the corporation of each reserve and financial support fund established by the corporation for its bonds and, to the extent not otherwise provided in respect of the support of bonds, for its ancillary bond facilities for which the agency has determined that the development corporation credit support account established under section twenty-four hundred twenty-nine-b of this part is or will be a source or potential source of funding.

21. "Reserve and financial support fund". The convention center development fund created by the convention center development corporation act and each fund (including, but not limited to, any fund or account in the nature of a reserve fund, a debt service fund, a revenue fund, a redemption fund or a reimbursement fund) established by the corporation in connection with its bonds or ancillary bond facilities from which amounts are required to be, or available to be, applied in satisfaction of financial obligations or financial rights of the corporation under such bonds or ancillary bond facilities.

22. "Convention center development corporation act". The convention

center development corporation act, constituting chapter thirty-five of the laws of nineteen hundred seventy-nine, as amended, by the chapter of the laws of two thousand four which added this subdivision.

§ 2427. Additional powers of the agency. The agency shall have the following additional powers only with respect to insuring mortgage loans and providing development corporation credit support:

1. To establish and levy fees and charges in connection with the processing of applications for mortgage insurance;

* 2. (a) To issue commitments to insure mortgages and to enter into contracts of mortgage insurance,

(b) to issue commitments to provide and to provide pool insurance for one or more aggregates of mortgage loans purchased by the agency pursuant to its forward commitment program, or for one or more aggregates of mortgage loans on single or multi-family residential buildings made by a domestic not-for-profit corporation whose public purposes include combating community deterioration and which is approved as a mortgage lender by the federal housing administration for purposes of insurance issued by such administration, and which is a qualified seller-servicer for the federal national mortgage association and the federal home loan mortgage corporation or for one or more aggregates of preservation loans made by a financial institution with respect to a building owned by a cooperative housing corporation, and

(c) to fulfill its obligations and enforce its rights under any insurance so furnished as provided in this article and such rules and regulations as may be adopted by the agency;

* NB Effective until July 23, 2027

* 2. To enter into commitments to insure mortgages and contracts of mortgage insurance and to fulfill its obligations and enforce its rights under any insurance so furnished as provided in this article and such rules and regulations as may be adopted by the agency;

* NB Effective July 23, 2027

3. To pay, pursue to final collection, compromise, waive or release any right, title, claim, lien or demand, however acquired, including any

equity or right of redemption;

4. To foreclose any mortgage in default or commence any action to protect or enforce any right conferred upon it by any law, mortgage, contract or other agreement, and to bid for and purchase such property at any foreclosure or at any other sale, or otherwise to acquire or take possession of any such property;

5. To deal with, hold, administer, manage, rent, repair, insure or sell, lease or otherwise dispose of any property conveyed to or acquired by the agency and to enter into agreements with the state, any city, town or village of this state or any person, firm, partnership or corporation, either public or private, for the purpose of causing any such property to be so dealt with;

6. To procure insurance against any loss in connection with its property and other assets and to procure reinsurance in connection with its obligations, all in such amounts and from such insurers as it deems necessary or desirable;

7. To consent to the modification, with respect to rate of interest, time of payment of any installment of principal or interest, security or any other term, of any mortgage, mortgage loan, contract or agreement of any kind which the agency has insured or to which the agency is a party;

8. To sell, at public or private sale, any mortgage, mortgage participation or other obligation held by the agency;

9. To invest any funds held in reserves or sinking funds or any funds not required for immediate use or disbursement, at the discretion of the agency, in obligations of the state or federal government or of any city of the state, the principal and interest of which are guaranteed by the state or federal government, obligations of agencies of the federal government, or in Government National Mortgage Association mortgage backed securities, or special time deposits in, or certificates of deposit issued by, a bank or trust company authorized to do business in the state and secured by a pledge of obligations of the United States of

America or obligations of the state, any city of the state, other municipal corporation, school district or district corporation of the state or obligations of agencies of the federal government, provided that any such investment from time to time (1) may be legally purchased by savings banks of the state as investments of funds belonging to them or in their control and (2) shall be approved by the comptroller.

10. To provide development corporation credit support.

§ 2428 Insurance of mortgages. 1. The agency is authorized, subject to the provisions of this article, to make commitments to insure and to contract to insure mortgage loans eligible for insurance hereunder.

* 1-a. The agency may issue commitments to provide and may provide pool insurance in an amount not in excess of twenty-five percent of the outstanding principal indebtedness at the time of commitment of any aggregate of mortgage loans or with respect to mortgage loans acquired pursuant to section twenty-four hundred five-b of this title, twenty-five percent of the initial principal indebtedness of any aggregate of mortgage loans.

* NB Repealed July 23, 2027

2. The agency shall limit its insurance on a rehabilitation or preservation loan to an amount not in excess of fifty per centum of the outstanding principal indebtedness, provided, however, that the agency may insure an amount not in excess of seventy-five per centum of the outstanding principal indebtedness of a rehabilitation loan if it shall find, pursuant to rules or regulations which it shall establish that the extent of rehabilitation is sufficient to justify such additional insurance, provided further, however, that the agency may insure an amount equal to the full outstanding principal indebtedness when the loan has been made by a public benefit corporation of the state of New York which public benefit corporation has issued or will issue bonds or notes, some or all of the proceeds of which bonds or notes were used or will be used to make such loan, or when the loan has been made by a public employee pension fund.

However, the sum of the percentage of any mortgage loan insured by the agency and the percentage of such loan insured or to be insured by any other party shall not exceed one hundred per centum of the outstanding principal indebtedness.

* 2-a. The agency may issue a commitment to provide and may insure a preservation loan in an amount equal to the full outstanding principal indebtedness of such preservation loan if: (a) the existing indebtedness shall have been originated during the period from January first, two thousand four through December thirty-first, two thousand eight; (b) the amount of each insured preservation loan shall not exceed one hundred fifty million dollars; (c) such preservation loan shall preserve or create affordable housing accommodations; and (d) the preservation loan shall have been made by a public benefit corporation of the state of New York which public benefit corporation has issued or will issue bonds or notes, some or all of the proceeds of which bonds or notes shall have been, or will be, used to make such preservation loan, or the preservation loan shall have been made by a public employee pension fund.

* NB Repealed July 23, 2027

* 3. Except for pool insurance, and except as otherwise provided in subdivision three-a of this section, the agency shall not issue a commitment to insure nor shall it insure any loan unless it shall first find (a) that the property which is the security for such loan is located in a neighborhood characterized by a deficiency of available mortgage financing; (b) that such deficiency has caused or threatens to cause undermaintained and deteriorating housing accommodations and substandard and insanitary neighborhoods; (c) that the granting of such loan will aid in the preservation or rehabilitation of the neighborhood in which such property is located; (d) if the property which is the security for such loan is not a housing accommodation, that the granting of such loan will assist in preventing the deterioration of housing accommodations in the neighborhood in which such property is located; (e) that the sum of (i) twenty percentum or such percentum as may be established by the board of the agency pursuant to subdivision seven of this section, of the amount of such loan which is to be insured, plus (ii) the amount of the mortgage insurance fund requirement for the category of loan does not exceed the amount available in the special

account; and (f) that the property which is the security for such loan meets such other requirements as the agency may from time to time establish by guidelines adopted by the agency.

The agency shall not issue a commitment to provide pool insurance nor shall it provide such insurance unless it shall first find (a) that the sum of (i) twenty per centum, or such per centum as may be established by the board of the agency pursuant to subdivision seven of this section, of the amount of such loans or aggregate of loans which is to be insured, plus (ii) the amount of the mortgage insurance fund requirement for the category of loan does not exceed the amount available in the pool insurance account; and (b) that the property which is the security for such loan or loans meets such other requirements as the agency may from time to time establish by guidelines adopted by the agency.

The agency may issue a commitment to insure and may insure an existing loan, first when an application for such mortgage insurance is pending prior to the making of a loan, when significant circumstances beyond the reasonable control of the mortgagor and mortgagee necessitate the making of the loan prior to the issuance of the commitment to insure and when it is determined by the agency that such loan would not have been made except for the reasonable expectation that the agency would insure the loan, or second, as part of a transaction in which the financial institution requesting insurance makes additional loan or loans which qualify for insurance by the agency, in accordance with provisions of this section and requirements established by the agency, in a total amount such that the uninsured portion of such additional loan or loans equals or exceeds the insured portion of such existing loan or loans.

* NB Effective until July 23, 2027

* 3. The agency shall not issue a commitment to insure nor shall it insure any loan unless it shall first find (a) that the property which is the security for such loan is located in a neighborhood characterized by a deficiency of available mortgage financing; (b) that such deficiency has caused or threatens to cause undermaintained and deteriorating housing accommodations and substandard and insanitary neighborhoods; (c) that the granting of such loan will aid in the

preservation or rehabilitation of the neighborhood in which such property is located; (d) if the property which is the security for such loan is not a housing accommodation, that the granting of such loan will assist in preventing the deterioration of housing accommodations in the neighborhood in which such property is located; (e) that the sum of (i) twenty percentum or such percentum as may be established by the board of the agency pursuant to subdivision seven of this section, of the amount of such loan which is to be insured, plus (ii) the amount of the mortgage insurance fund requirement for the category of loan does not exceed the amount available in the special account; and (f) that the property which is the security for such loan meets such other requirements as the agency may from time to time establish by rules and regulations.

The agency may issue a commitment to insure and may insure an existing loan, first when an application for such mortgage insurance is pending prior to the making of a loan, when significant circumstances beyond the reasonable control of the mortgagor and mortgagee necessitate the making of the loan prior to the issuance of the commitment to insure and when it is determined by the agency that such loan would not have been made except for the reasonable expectation that the agency would insure the loan, or second, as part of a transaction in which the financial institution requesting insurance makes additional loan or loans which qualify for insurance by the agency, in accordance with provisions of this section and requirements established by the agency, in a total amount such that the uninsured portion of such additional loan or loans equals or exceeds the insured portion of such existing loan or loans.

* NB Effective July 23, 2027

* 3-a. The agency may issue a commitment to insure and may insure any loans or aggregate of loans and may issue a commitment to provide and may provide mortgage pool insurance on any loans or aggregate of loans, notwithstanding the criteria set forth in subparagraph (a), (b), (c) or (d) of the opening paragraph of subdivision three of this section provided that it shall find that the property which is the security for such loan or loans is either: (a) located within an empire zone designated pursuant to article eighteen-B of the general municipal law, or (b) will provide affordable housing, or (c) the entity providing the

project's mortgage financing was or is created by local, state or federal legislation and certifies to the agency that the project meets the program criteria applicable to such entity, or (d) providing a retail or community service facility that would not otherwise be provided.

* NB Repealed July 23, 2027

3-b. Notwithstanding any other provision of law to the contrary, when such insurance is not available through the private market the agency may insure reverse mortgage loans which meet the following conditions:

(a) the authorized lender requires primary mortgage insurance on the real property and the applicant is unable to procure such mortgage insurance in the private market;

(b) the reverse mortgage loan is issued pursuant to section two hundred eighty or two hundred eighty-a of the real property law;

(c) the reverse mortgage loan amount shall not exceed the loan to value ratio as may be determined by the superintendent of financial services; and

(d) the real property which is the security for such reverse mortgage loan meets such other requirements as the agency may from time to time establish.

* 4. To be eligible for insurance under this article, a mortgage loan shall (a) (i) be a first lien of the kind which is commonly given to secure advances on, or the unpaid purchase price of, real property, or tangible personal property constituting modular or manufactured housing in the case of mortgage loans purchased by the agency under its forward commitment program, under the laws of the state together with any credit instrument secured thereby, provided, however, that a mortgage loan may be a second lien if such mortgage loan was purchased by the agency or (ii) be secured by an assignment or transfer of stock certificates or other evidence of ownership interest of the borrower in, and a proprietary lease from, a corporation formed for the purpose of the cooperative ownership of residential real estate in the state; (b) secure a rehabilitation or preservation loan on real property held in fee simple or on a leasehold under a proprietary lease or a lease having a period of years to run at the time the mortgage is insured under this article of at least twenty per centum greater duration than the

remaining term of the mortgage; (c) contain terms with respect to prepayment, insurance, repairs, alterations, payment of taxes, special assessments, service charges, default reserves, delinquency charges, foreclosure proceedings, additional and secondary liens, and such other matters as the agency may in its discretion prescribe; (d) be accompanied by certificates, issued by such officers of the mortgage financial institutions, independent appraisers or other persons as the agency may require, certifying that (i) where appropriate, the annual income to be derived from the property equals not less than one hundred and five per centum of the annual charges and expenses, including provision for reserves, satisfactory to the agency, for the amortization of subordinate mortgage loans over the remaining terms of such loans notwithstanding the provisions thereof; (ii) the remaining useful life of the property is greater than the term of the mortgage; and (iii) the property does not contain any substantial violations of local building maintenance and construction codes, except that in the case of a loan made to the owner of a property containing any such violations, the agency may insure or commit to insure such loan if the mortgagee and the owner have submitted a plan, satisfactory to the agency to eliminate such violations and the issuance of such insurance shall be conditioned on removal of such violations to the satisfaction of the local code enforcement agency; and (e) satisfy such additional terms and conditions as the agency may prescribe. For pool insurance, the requirements of paragraph (b) of this subdivision shall not be applicable.

* NB Effective until July 23, 2027

* 4. To be eligible for insurance under this article, a mortgage loan shall (a) (i) be a first lien of the kind which is commonly given to secure advances on, or the unpaid purchase price of, real property under the laws of the state together with any credit instrument secured thereby, provided, however, that a mortgage loan may be a second lien if such mortgage loan was purchased by the agency or (ii) be secured by an assignment or transfer of stock certificates or other evidence of ownership interest of the borrower in, and a proprietary lease from, a corporation formed for the purpose of the cooperative ownership of residential real estate in the state; (b) secure a rehabilitation or preservation loan on real property held in fee simple or on a leasehold under a proprietary lease or a lease having a period of years to run at

the time the mortgage is insured under this article of at least twenty per centum greater duration than the remaining term of the mortgage; (c) contain terms with respect to prepayment, insurance, repairs, alterations, payment of taxes, special assessments, service charges, default reserves, delinquency charges, foreclosure proceedings, additional and secondary liens, and such other matters as the agency may in its discretion prescribe; (d) be accompanied by certificates, issued by such officers of the mortgage financial institutions, independent appraisers or other persons as the agency may require, certifying that (i) where appropriate, the annual income to be derived from the property equals not less than one hundred and five per centum of the annual charges and expenses, including provision for reserves, satisfactory to the agency, for the amortization of subordinate mortgage loans over the remaining terms of such loans notwithstanding the provisions thereof; (ii) the remaining useful life of the property is greater than the term of the mortgage; and (iii) the property does not contain any substantial violations of local building maintenance and construction codes, except that in the case of a loan made to the owner of a property containing any such violations, the agency may insure or commit to insure such loan if the mortgagee and the owner have submitted a plan, satisfactory to the agency to eliminate such violations and the issuance of such insurance shall be conditioned on removal of such violations to the satisfaction of the local code enforcement agency; and (e) satisfy such additional terms and conditions as the agency may prescribe.

* NB Effective July 23, 2027

5. In addition to the conditions set forth in subdivisions three and four of this section, the agency shall not insure nor issue a commitment to insure any rehabilitation loan unless it shall first find that rehabilitation is necessary to upgrade the property and that rehabilitation will not necessitate more than a minimum amount of relocation of the residents of any housing accommodation.

6. A financial institution may request insurance by written application to the agency in such form and manner, together with such information and documents, as the agency may prescribe. No application shall be complete unless and until the financial institution has paid

such processing fees and other charges as the agency may impose in connection therewith. The agency shall signify its acceptance of such application for insurance by issuance of a commitment to insure or a contract of insurance.

7. * (a) The board of directors of the agency may, from time to time, by vote of a majority of all of its members, establish a percentage greater than the per centum set in subdivision five of section twenty-four hundred twenty-six of this title for any or all of the following categories of loans insurable by the agency or for one or more loans within such categories: one to four family dwellings one unit of which is owner-occupied; one to four family dwellings which are not owner-occupied; five or more family dwellings; proprietary leases; condominiums; loans secured by other real property; loans purchased or to be purchased by the agency with proceeds of bonds or notes issued by the agency; loans securing bonds or notes issued by the agency; loans covered by pool insurance; or, combinations thereof. The board shall specify such percentage and shall specify the date on which the establishment of such percentage shall take effect as to (i) commitments issued on or after such date and (ii) nothing contained in this section shall be construed to prohibit the board of directors of the agency from reducing the per centum used in calculating the mortgage insurance fund requirement, provided such new per centum is not less than that set in subdivision five of section twenty-four hundred twenty-six of this title.

* NB Effective until July 23, 2027

* (a) The board of directors of the agency may, from time to time, by vote of a majority of all of its members, establish a percentage other than the percentum set in subdivision five of section twenty-four hundred twenty-six of this chapter for any or all of the following categories of loans insurable by the agency: single family residences which are owner-occupied; single family residences which are not owner-occupied; multi-family residences; proprietary leases; condominiums and loans secured by other real property; or, combinations thereof. The board shall specify such percentage in multiples of five and shall specify the date on which the establishment of such percentage shall take effect as to commitments issued on or after such date.

* NB Effective July 23, 2027

(b) No change in the amount of moneys which must be held in or credited to the mortgage insurance fund pursuant to paragraph (a) of this subdivision shall have force or effect until the governor of the state of New York shall have an opportunity to approve or veto it. For the purpose of procuring such approval or veto, the secretary of the board shall transmit to the governor at the executive chamber in Albany a certified copy of that portion of the minutes of the meeting of the board in which such change was discussed and voted upon as soon after the holding of such meeting as the minutes can be prepared. The governor shall, within thirty days, Saturdays, Sundays and public holidays excepted, after such minutes shall have been delivered at the executive chamber as aforesaid, cause the same to be returned to the board either with his approval or with his veto, provided, however, that if the governor shall not return such minutes within such period then at the expiration thereof the change therein authorized will have full force and effect according to the wording thereof. If the governor within such period returns such minutes with a veto against the change, then such change shall be null and void.

* 8. Notwithstanding any contrary provisions of this article or of any other law, rule or regulation, on and after the effective date of this subdivision;

(a) Except for pool insurance, the agency shall not issue a commitment to insure nor shall it provide loan insurance for any loan if twenty percent (or such other percentage as may be established pursuant to subdivision seven of this section) of the amount to be insured exceeds ten percent of the mortgage insurance fund requirement for all loans insured and loans for which commitments to insure have been issued at that time.

(b) If less than fifty percent, or none of the space of the project is or is to be used for residential purposes, the amount of such loan insurance shall not exceed five million dollars and no such loan insurance may be issued unless the agency finds that the space which is to be used for other than residential purposes is to be used to provide the residents of the neighborhood with retail and community service facilities which would not otherwise be provided. The provisions of this paragraph shall not apply to loan insurance for projects which provide

temporary shelter for homeless persons or community health facilities.
(c) The agency shall not issue a commitment to insure nor shall it provide loan insurance for a preservation loan unless: (i) such loan is made with respect to a one to four family dwelling; or (ii) such loan is made with respect to a building, which on the effective date of this subparagraph, is owned by a cooperative housing corporation formed for the purpose of the cooperative ownership of residential real estate in the state where such refinancing is not otherwise available and such loan will facilitate or accommodate affordable homeownership opportunities; or (iii) such loan is made with respect to the real property and improvements owned by a cooperative housing corporation formed for the purpose of the cooperative ownership of residential manufactured homes in the state where such refinancing is not otherwise available and such loan will facilitate or accommodate affordable homeownership opportunities; or (iv) such loan is made with respect to multi-family residential buildings with existing indebtedness originated during the period from January first, two thousand four through December thirty-first, two thousand eight, where such loan will facilitate or accommodate the preservation of affordable housing accommodations.
* NB Effective until July 23, 2027
* 8. Notwithstanding any contrary provisions of this article or of any other law, rule or regulation, on and after the effective date of this subdivision;
(a) The agency shall not issue a commitment to insure nor shall it provide loan insurance for an amount in excess of the lesser of ten million dollars or forty percent of the amount of money on deposit in the mortgage insurance fund at that time.
(b) If less than fifty percent, or none of the space of the project is or is to be used for residential purposes, the amount of such loan insurance shall not exceed five million dollars and no such loan insurance may be issued unless the agency finds that the space which is to be used for other than residential purposes is to be used to provide the residents of the neighborhood with retail and community service facilities which would not otherwise be provided.
(c) The agency shall not issue a commitment to insure nor shall it provide loan insurance for a preservation loan unless (i) such loan is made with respect to a one to four family dwelling; or (ii) such loan is

made with respect to a building, which on the effective date of this subparagraph, is owned by a cooperative housing corporation formed for the purpose of the cooperative ownership of residential real estate in the state where such refinancing is not otherwise available and such loan will facilitate or accommodate affordable homeownership opportunities; or (iii) such loan is made with respect to the real property and improvements owned by a cooperative housing corporation formed for the purpose of the cooperative ownership of residential manufactured homes in the state where such refinancing is not otherwise available and such loan will facilitate or accommodate affordable homeownership opportunities.

* NB Effective July 23, 2027

§ 2428-a. Development corporation credit support account as source of development corporation credit support. 1. The agency is authorized, subject to the provisions of this title, to provide the development corporation credit support account as a source or potential source of payment of development corporation credit support. The agency may provide the development corporation credit support account as a source or potential source of payment of all or any development corporation credit support upon the terms (which shall include a requirement to repay to the mortgage insurance fund any amounts transferred to the corporation or the convention center development fund) and under the conditions it shall set forth in the applicable contracts between the agency and such other parties (including the corporation) as the agency shall deem appropriate with respect to the applicable reserve and financial support funds which are to receive the benefit of such development corporation credit support. The agency may not execute a contract to provide development corporation credit support if, at the time such contract is executed, such execution would impair any then-existing credit rating of the single family pool insurance account or the project pool insurance account.

2. For purposes of determining the mortgage insurance fund requirement with respect to the development corporation credit support account, the board of directors of the agency, by a vote of a majority of all of its

members, shall approve or authorize the applicable contracts which shall establish the amount of the required or permitted deposits in each reserve and financial support fund (which may be determined by reference to percentages of such required or permitted amounts) for which the development corporation credit support account is or will be a source or potential source of development corporation credit support. Such amounts (or percentages) may be different for each reserve and financial support fund.

3. For purposes of section twenty-four hundred eleven of this title, a development corporation credit support agreement shall be deemed and regarded as a mortgage insurance contract for the benefit of parties to such agreement.

§ 2429. Rentals. Notwithstanding the provisions of, or any regulation promulgated pursuant to, the emergency housing rent control law, the local emergency housing rent control act or local law enacted pursuant thereto, all dwelling units in a multiple dwelling the rehabilitation or construction of which commenced after July first, nineteen hundred seventy-eight and which is financed by a loan insured by the agency, except for dwelling units occupied by reason of ownership of stock in a cooperative, shall be subject to the rent stabilization law of nineteen hundred sixty-nine or the emergency tenant protection act of nineteen seventy-four, if applicable in the geographic area in which the multiple dwelling is located, beginning immediately after initial rents as established under applicable provisions of the rent stabilization law of nineteen hundred sixty-nine, the emergency tenant protection act of nineteen seventy-four or the private housing finance law for such dwelling units become effective on the basis of such rehabilitation or construction, provided that any occupant in possession of a dwelling unit that first becomes subject to the rent stabilization law of nineteen hundred sixty-nine or the emergency tenant protection act of nineteen seventy-four pursuant to this section shall be offered a two-year lease notwithstanding any contrary provisions of, or regulations adopted pursuant to, such law or act, at the initial rent established for such dwelling unit.

§ 2429-a. Payment of insurance and development corporation credit support. 1. The agency shall establish procedures to be followed by a mortgagee in the event of a default under the terms of any mortgage insured by the agency. The agency may require that prior to submitting a claim to the agency for payment of insurance the mortgagee shall take such actions with respect to the property securing the defaulted mortgage as may be specified by the agency to be satisfactory evidence of a continuing default, including but not limited to the following: (i) becoming lawfully the mortgagee in possession thereof; (ii) causing a receiver to be appointed of such property; (iii) obtaining voluntary conveyance of the mortgagor's right and title to such property; or (iv) obtaining by foreclosure clear and unencumbered title to such property, all in such manner as the agency may require. Following submission of a valid claim the agency shall pay an amount which shall not exceed the lesser of (1) the then outstanding insured principal amount of the mortgage multiplied by the per centum of such outstanding amount insured by the agency and a per centum of the mortgagee's cost arising from the default, inclusive of public liens and delinquent and unpaid interest, all as the agency may from time to time allow, which per centum shall not exceed the per centum of the outstanding principal indebtedness insured by the agency or (2) the insured amount of the mortgage at the date of execution of the insurance contract or its latest amendment, if any, except that the agency shall pay the greater of the two amounts on claims by a public employee pension fund, or by a public benefit corporation derived from the sale of notes or bonds issued by said corporation, provided that no more than the actual loss suffered by such public employee pension fund or public benefit corporation shall be paid. Such payment may be made by the agency in a lump sum, or in partial payments made within such period of time as may be agreed to between the agency and the mortgagee, all in accordance with procedures to be established by the agency.

2. The agency shall establish, by contract or otherwise, procedures to be followed with respect to development corporation credit support for which the development corporation credit support account has been

determined by the agency to be a source or potential source of payment.

§ 2429-b. Mortgage insurance fund. * 1. (a) The agency shall create and establish a mortgage insurance fund. Within such fund, the agency shall establish: (i) a special account, which shall be divided into sub-accounts for each region as defined in subdivision nine of section twenty-four hundred twenty-six of this title; (ii) a single family pool insurance account; (iii) a project pool insurance account; and (iv) a development corporation credit support account. The single family pool insurance account shall be used for all business relating to the insurance of mortgages on properties with one to four dwelling units, the project pool insurance account shall be used for all business relating to the insurance of mortgages on properties other than those with one to four dwelling units, and the development corporation credit support account shall be used for all business relating to development corporation credit support. Separate sub-accounts may be established within the special account, the pool insurance accounts, and the development corporation credit support account as deemed appropriate by the agency.

(b) (i) The mortgage insurance fund shall be used as a revolving fund for carrying out the provisions of this title with respect to mortgages insured and development corporation credit support, provided thereunder. (ii) The agency shall pay into such fund all moneys which may be made available to the agency for the purposes of such fund from any source, including but not limited to the moneys received from recording officers pursuant to the provisions of subdivision two of section two hundred sixty-one of the tax law. The agency shall credit the amount of moneys received from the recording officer of each county, pursuant to subdivision two of section two hundred sixty-one of the tax law, to the special account. In any fiscal year, no more than fifty per centum of the amount received from the recording officers during the consecutive twelve month period ending on the preceding March thirty-first may be used by the agency for the purpose of insuring mortgages on property located in any one region pursuant to section two thousand four hundred twenty-eight of this part, provided, however, that this provision shall not include or be applied to pool insurance of mortgage loans purchased by the agency. The agency shall credit any other moneys which may be made available to the agency for the purposes of such fund from any other source to the special account, the single family pool insurance account, the project pool insurance account, or the development corporation credit support account, as appropriate. Any income or interest earned by, or increment to, the mortgage insurance fund due to the investment thereof shall be credited to the special account, the applicable pool insurance account, or the development corporation credit support account, as appropriate.

(c) The agency may credit from the special account to the single family pool insurance account, to the project pool insurance account and to the development corporation credit support account such moneys as are required to satisfy the mortgage insurance fund requirement of such accounts, except that during any twelve-month period ending on March thirty-first the aggregate amount credited to the development corporation credit support account (excluding amounts described in the last sentence of paragraph (b) of this subdivision) shall not exceed the lesser of (i) fifty million dollars or (ii) the aggregate of the amounts required under the contracts executed by the agency to provide development corporation support.

(d) Moneys, investments and cash equivalents of the special account, the single family pool insurance account, the project pool insurance account and the development corporation credit support account shall be kept separate and shall not be commingled with each other or with any other accounts which may be established from time to time, except as otherwise authorized by this section.

(e) Moneys, investments and cash equivalents of the pool insurance accounts and the development corporation credit support account shall be excluded from the excess balance calculation set forth in subdivision two of this section. However, if at any time the moneys, investments and cash equivalents (valued as determined by the agency) of either pool insurance account or the development corporation credit support account exceed the amount necessary to attain and maintain the credit rating or, with respect to development corporation credit support, credit worthiness (as determined by the agency) required to accomplish the purposes of such account the agency shall transfer such excess to the special account and such excess shall be included in the excess balance calculation.

* NB Effective until July 23, 2027

* 1. The agency shall create and establish a mortgage insurance fund. Within such fund, the agency shall establish a special account, which shall be divided into sub-accounts for each region as defined in subdivision nine of section twenty-four hundred twenty-six of this part and a development corporation credit support account. The development corporation credit support account shall be used for all business related to development corporation credit support. Separate sub-accounts may be established within the development corporation credit support account as deemed appropriate by the agency. The mortgage insurance fund shall be used as a revolving fund for carrying out the provisions of this title with respect to mortgages insured and development corporation support provided thereunder. The agency shall pay into such fund all moneys which may be made available to the agency for the purposes of such fund from any source, including but not limited to the moneys received from recording officers pursuant to the provisions of subdivision two of section two hundred sixty-one of the tax law. The agency shall credit the amount of moneys received from the recording officer of each county, pursuant to subdivision two of section two hundred sixty-one of the tax law, to the special account. In any calendar year, no more than fifty per centum of the amount received from the recording officers and credited to the special account during the consecutive twelve month period ending on the preceding December thirty-first may be used by the agency for the purpose of insuring mortgages on property located in any one region pursuant to section two thousand four hundred twenty-eight of this part. The agency shall credit any other moneys which may be made available to the agency for the purposes of such fund from any other source to the special account or the development corporation credit support account, as appropriate. Any income or interest earned by, or increment to, the mortgage insurance fund due to the investment thereof shall be credited to the special account or the development corporation credit account, as appropriate.

* NB Effective July 23, 2027

* 1-a. All moneys held in the mortgage insurance fund, except as hereinafter provided, shall be used, as required, solely for the payment of the agency's liabilities arising from mortgages insured as provided

in section twenty-four hundred twenty-nine-a of this part and from the provision of development corporation credit support as provided in section twenty-four hundred twenty-eight-a of this part; provided, however, that no moneys shall be withdrawn from any account at any time in such amount as would reduce the amount of, as applicable, the special account, either pool insurance account or the development corporation credit support account to less than its applicable mortgage insurance fund requirement, except for the purpose of paying such liabilities as the same become due and for the payment of which other moneys of the agency are not available. All payments pursuant to section twenty-four hundred twenty-nine-a of this part, and expenses attributable thereto shall be debited to the special account or the single family pool insurance account or the project pool insurance account or the development corporation credit support account, as appropriate, within the mortgage insurance fund. All other operating expenses of the agency with respect to insurance of mortgages and providing development corporation credit support shall be debited to the special account, the single family pool insurance account, the project pool insurance account or the development corporation credit support account within the mortgage insurance fund, as appropriate.

* NB Effective until July 23, 2027

* 1-a. All moneys held in the mortgage insurance fund, except as hereinafter provided, shall be used, as required, solely for the payment of the agency's liabilities arising from mortgages insured as provided in section twenty-four hundred twenty-nine-a of this part and from the provision of development corporation credit support as provided in section twenty-four hundred twenty-eight-a of this part; provided, however, that no moneys shall be withdrawn from any account at any time in such amount as would reduce the amount of, as applicable, the special account or the development corporation credit support account to less than its applicable mortgage insurance fund requirement, except for the purpose of paying such liabilities as the same become due and for the payment of which other moneys of the agency are not available. All payments pursuant to section twenty-four hundred twenty-nine-a of this part, and expenses attributable thereto shall be debited to the special account or the development corporation credit support account within the mortgage insurance fund. All other operating expenses of the agency with

respect to insurance of mortgages and providing development corporation credit support shall be debited to the special account or the development corporation credit support account within the mortgage insurance fund, as appropriate.

* NB Effective July 23, 2027

2. On or before March twentieth in each year, the board of directors of the agency shall determine the amount estimated to be received by the agency from the additional tax imposed pursuant to subdivision one-a of section two hundred fifty-three of the tax law and deposited in the mortgage insurance fund and credited to the special account plus any other monies deposited in such account plus the amount of reserves available in such special account with respect to mortgage loans that were previously insured in accordance with section twenty-four hundred twenty-eight or development corporation credit support previously provided pursuant to section twenty-four hundred twenty-eight-a of this part under contracts or commitments that have been satisfied or cancelled, pursuant to subdivision one of this section, except charges and fees levied by the agency pursuant to section twenty-four hundred twenty-nine-c of this part, which shall be added in the computation only when such a commitment is cancelled or expires or when the insurance or contractual arrangement to provide development corporation credit support applied for is declared effective. Such determination made on or before March twentieth in each year shall be made for the consecutive twelve-month period ending on the subsequent March thirty-first. The board shall then determine the estimated excess balance, if any, in such special account by determining the amount by which such credits exceed twenty per centum, or such other per centums or amounts as may have been established by the board of directors of the agency pursuant to subdivision seven of section twenty-four hundred twenty-eight of this part, of the amounts insured or committed to be insured and the amounts of development corporation credit support established by the board of directors of the agency pursuant to section twenty-four hundred twenty-eight-a of this part to be provided during such twelve-month period plus any payments by the agency during such twelve-month period on account of a mortgage or development corporation credit support contract entered into during such twelve-month period ending on such

March thirty-first, plus the operating expenses of the agency during such twelve-month period with respect to insurance of mortgages or provision of development corporation credit support, which amount may not exceed an amount determined and certified by the director of the budget, with notification to the chairman of the senate finance committee and chairman of the assembly ways and means committee. On or before May fifteenth, the board shall determine any adjustment to the estimated excess balance necessary to reflect the variance, if any, between such estimated excess balance and the actual excess balance computed as of March thirty-first, and shall certify such adjustment to the director of the budget. The agency shall include such adjustment in the estimated excess balance determination for the following fiscal year, unless otherwise instructed by the director of the budget. The agency shall submit to the director of the budget an estimate of such operating expenses on or before the tenth business day in March of each year and the director of the budget shall make such certification before March twentieth of each year.

Upon making the determination of the estimated excess balance, the agency shall certify such determination to the director of the budget, the chairmen of the senate finance committee and the assembly ways and means committee, and the comptroller. Payment of such actual or estimated excess balance shall be made within ninety days after March twentieth. The agency shall, at the direction of the director of the budget, pay such estimated or actual excess balance, if any, from the special account to the comptroller for deposit to the state general fund; provided, however, that if the aggregate amount in the special account as of such date is less than the mortgage insurance fund requirement, the agency shall retain all or that portion of any such estimated or actual excess balance in such special account necessary to increase the aggregate amount in such special account to the mortgage insurance fund requirement. The director of the budget shall notify the chairmen of the senate finance committee and the assembly ways and means committee ten days prior to the issuance of the directive in respect to the payment of the estimated or actual excess balance to the general fund.

Further provided, however, that the budget to be submitted to the legislature by the governor pursuant to article seven of the constitution shall separately state the amount of such estimated or actual excess balance determined as hereinabove prescribed, if any, which shall be included in the monies and revenues estimated to be available during the current and ensuing fiscal years, respectively.

3. The moneys in such fund shall be deposited in one or more banks or trust companies designated in the manner provided by law, as depositories of the funds of the state. The agency may invest the moneys in such fund in obligations specified in subdivision four of this section. Any interest earned or capital gain realized on the money so deposited or invested shall accrue to and become part of such fund. The separate identity of such fund shall be maintained whether its assets consist of cash or investments or both.

4. Moneys in such fund may be invested (a) in special time deposit accounts in, or certificates of deposit issued by, a bank, trust company, savings bank or savings and loan association located and authorized to do business in this state, provided, however, that such time deposit account or certificate of deposit shall be payable within such time as the proceeds may be needed to meet expenditures estimated to be incurred by the agency and provided further that such time deposit account or certificate of deposit be secured by a pledge of obligations of the United States of America or obligations of the state, any city of the state, or other municipal corporation, school district or district corporation of the state or obligations of agencies of the federal government; or (b) in obligations of the United States of America or the state which may from time to time be legally purchased by savings banks within the state as an investment of funds belonging to them or in their control, or in obligations of the Federal National Mortgage Association, or (c) in Government National Mortgage Association mortgage backed securities, provided such obligations shall be payable or redeemable at the option of the owner within such times as the proceeds may be needed to meet expenditures estimated to be incurred by the agency.

5. In computing the amount of the mortgage insurance fund for the

purposes of this section, securities in which all or a portion of such fund shall be invested shall be valued at par if purchased at par, or if purchased at other than par, at amortized value. Amortized value, when used with respect to securities purchased at a premium above or a discount below par, shall mean the value as of any given date obtained by dividing the total premiums or discount at which such securities were purchased by the number of interest payments remaining to maturity on such securities after such purchase and by multiplying the amount so calculated by the number of interest payment dates having passed since the date of such purchase; and (i) in the case of securities purchased at a premium by deducting the product thus obtained from the purchase price, and (ii) in the case of securities purchased at a discount by adding the product thus obtained to the purchase price.

6. The agency may create and establish such other fund or funds as may be necessary or desirable for the carrying out of its corporate purposes.

§ 2429-c. Charges and fees. * 1. The agency shall fix a premium charge for its insurance of mortgages pursuant to this article which, except for pool insurance, shall not be less than an amount equivalent to one-quarter of one per centum per annum nor more than an amount equivalent to two per centum per annum of the outstanding principal amount of the insurable mortgage loan at any time, without taking into account delinquent payments or prepayments.

* NB Effective until July 23, 2027

* 1. The agency shall fix a premium charge for its insurance of mortgages pursuant to this article which shall not be less than an amount equivalent to one-quarter of one per centum per annum nor more than an amount equivalent to two per centum per annum of the outstanding principal amount of the insurable mortgage loan at any time, without taking into account delinquent payments or prepayments.

* NB Effective July 23, 2027

2. The agency may establish and levy such other charges and fees in connection with applications for mortgage insurance and insurance

commitments as it may deem appropriate and necessary. Such charges and fees shall not exceed a total of two percent of the outstanding principal amount of the insurable mortgage loan.

3. Such premium charges and other charges shall be payable by the mortgagor in cash in such manner as may be prescribed by the agency.

4. Such premium charges and other charges and fees shall not be deemed to be interest for the purposes of sections 5-501 of the general obligations law.

5. The agency may, in its discretion, fix a premium charge for its provision of development corporation credit support pursuant to this part.

§ 2429-d. Contributions to agency. Notwithstanding the provisions of any general or special law or the provisions of any certificate of incorporation, charter or other articles of organization, all domestic corporations or associations organized for the purpose of carrying on business in this state, and any other persons are hereby authorized to make contributions to the agency.

§ 2429-e. Examination. At least once in each calendar year the agency shall be examined by the superintendent of financial services for the purposes of determining the agency's net worth and the soundness of its management and operating policies. The agency shall not, however, be deemed to be a banking organization. The agency shall pay the cost of each such examination. Copies of each examination report, including the findings, conclusions and recommendations of the examiners, shall be furnished to the agency. The agency shall furnish a complete copy of each report, including the findings, conclusions and recommendations of the examiners, to the comptroller.

§ 2429-f. Special provisions relating to directors of the agency. The agency may purchase from, sell to, borrow from, loan to, contract with or otherwise deal with any corporation, trust, association, partnership or other entity in which any director of the agency has a financial interest, direct or indirect, provided that (1) such interest is disclosed to the board prior to the consummation of such transaction, (2) such disclosure is recorded in the minutes of the agency and (3) no director having such a financial interest may participate in any decision affecting such transaction.

TITLE 18

STATE OF NEW YORK MUNICIPAL BOND BANK AGENCY ACT

§ 2430. Short title. This title shall be known and may be cited as the "state of New York municipal bond bank agency act"

§ 2431. Legislative findings. It is hereby declared to be in the public interest and to be the policy of the state to foster and promote by all reasonable means the provision of adequate capital markets and facilities for borrowing money by its several municipalities for the financing of their public improvements or purposes from proceeds of bonds or notes issued by those municipalities, and to assist those municipalities in fulfilling their needs for improvements by use of creation of indebtedness and to the extent possible to reduce costs of indebtedness to taxpayers and residents of the state and to encourage continued investor interest in the purchase of bonds or notes of municipalities as sound and preferred securities for investment. It is in the public interest and is the policy of the state to encourage its municipalities to continue their independent undertakings of public improvements and purposes and the financing thereof and to assist them therein by making funds available at reduced interest costs for orderly financing of public improvements and purposes, particularly for those municipalities not otherwise able to borrow for those purposes. It is further declared the state should exercise its power in the interest of its municipalities to further and implement those policies by authorizing a state instrumentality to be created as a body corporate and politic to have full powers to borrow money and to issue its bonds and notes to make funds available through the facilities of that instrumentality at reduced rates and on more favorable terms for borrowing by municipalities through the purchase by that instrumentality of the bonds or notes of municipalities and by granting broad powers to the instrumentality to accomplish and to carry out the aforesaid policies of the state which are in the public interest of the state and of its taxpayers and residents. It is further declared to be in the public interest and is the policy of the state that such instrumentality should so conduct its operations, including the full utilization of existing public corporations, as to provide the lowest rates in terms of borrowing to municipalities as is consistent with a self-supporting operation with no expectation of subsidization with state funds.

It is further declared to be in the public interest and it is the policy of the state to provide a means by which certain cities may receive moneys to refund certain property taxes determined to be in excess of state constitutional tax limits or to reimburse such cities for the prior refunding of such taxes.

It is further declared to be in the public interest and it is the policy of the state to provide a means by which certain special program municipalities may receive moneys for the purpose of paying the cost of settling litigation involving the city school districts of such special program municipalities and the teachers' unions thereof.

It is hereby further declared that many municipalities are owed millions of dollars annually in unpaid property taxes. Such uncollected taxes adversely impact the municipalities' ability to timely collect the moneys necessary to meet their operating expenditures and provide for the delivery of necessary local government services, amplifying the risk of future real property tax increases and negatively impacting those taxpayers who timely remit payment. It is hereby further declared that limited means exist for municipalities to expedite the collection of such delinquent taxes and that as a result such delinquencies often remain unpaid thereby creating a lien against the affected real property and that the sale of such tax liens will enable municipalities to expedite the receipt of anticipated revenues and provide a funding source which will enable municipalities to more effectively carry out their public purposes. It is further declared that the state should exercise its power in the interest of its municipalities to facilitate the sale and purchase of tax liens by authorizing such instrumentality, a trust or other single purpose entity or entities created by such instrumentality, to have full powers to borrow money and to issue its bonds, notes, certificates of participation or other obligations to make funds available to municipalities through the facilities of said instrumentality by the purchase through that instrumentality of the delinquent tax liens created and held by municipalities and by granting broad powers to such instrumentality to accomplish and to carry out the aforesaid policies of the state which are in the public interest of the state and of its taxpayers and residents.

It is hereby further found and declared that, on September eleventh, two thousand one, events occurred that resulted in dramatic and unforeseen negative fiscal changes which affected the state and certain municipalities thereof. The impact of these events, if left unremediated, is contrary to the public interest of the state and such municipalities, and threatens a decline in the general prosperity and economic welfare of the inhabitants of such municipalities and the people of the state. Accordingly, it is a matter of substantial and imperative state concern that such municipalities not fail to address local needs and thereby suffer adverse consequences. It is further declared to be in the public interest and it is the policy of the state to provide a means for such municipalities to receive assistance to meet their obligations and thereby be assisted in relieving the effects of the negative fiscal changes caused by the September eleventh, two thousand one events.

It is further declared to be in the public interest and it is the policy of the state to provide a means by which the enlarged city school district of the city of Troy may receive moneys for the specific object and purpose of liquidating the projected accumulated deficit in its general fund at the close of its fiscal year ending June thirtieth, two thousand two, including any budget notes and revenue anticipation notes which may be a part of the deficit.

It is further declared to be in the public interest and it is the policy of the state to provide a means by which the Shoreham-Wading River Central School District may receive moneys for the specific object and purpose of mitigating the adverse fiscal impact resulting from the loss to the district of a significant majority of the taxable property that it depended on for support of its educational programs.

It is further declared to be in the public interest and it is the policy of the state to provide a means by which a municipality in the state can take advantage of the opportunities for borrowing to provide for public improvements afforded by the American Recovery and Reinvestment Act of 2009 and to do so by authorizing a state instrumentality to borrow money and use the proceeds to purchase obligations issued by a municipality under the American Recovery and Reinvestment Act of 2009, thereby resulting in efficiencies and interest rate savings to the municipality.

It is further declared to be in the public interest and it is the policy of the state to provide a means by which state and local first-responder public safety agencies can establish regional communications capabilities, intended to serve as a part of a statewide interoperable network, and to do so by authorizing a state instrumentality to borrow money and use the proceeds to purchase obligations issued by a municipality to fund these communications capabilities, thereby resulting in savings for taxpayers.

§ 2432. Definitions. As used in this title, the following words and terms shall have the following meanings unless the context shall indicate another or different meaning or intent:

(1) "Agency". The state of New York municipal bond bank agency, the corporate governmental agency created by section two thousand four hundred thirty-three of this title.

(2) "Bonds" and "Notes". The bonds and notes, including any special

program bonds, special school purpose bonds, recovery act bonds, and public safety communications bonds respectively issued by the agency pursuant to this title. Bonds and notes shall not include any tax lien collateralized securities issued pursuant to this title.

(3) "Municipal Bond". A bond or note or evidence of debt payable from any local revenues, including taxes, assessments and rents, which a municipality may lawfully issue to finance local improvements and public purposes, including local ARRA bonds and local public safety communications bonds, but does not include (a) any bond or note or evidence of debt issued by any other state or any public body or municipal corporation thereof, (b) any special program agreement, or (c) any special school purpose agreement or any special school deficit program agreement.

4. "Municipality." Any public corporation enumerated in subdivisions one, two, two-a, two-b, and three of section 2.00 of the local finance law.

(5) "State Aid". All payments and contributions made by the state to and in aid of a municipality as may be provided by law, other than payments of state contributions for old age assistance, family assistance, aid to the blind, aid to the disabled, safety net assistance and local social services administration costs.

(5-a) "School aid". Any apportionment of public money made by the state to or for the benefit (i) of a city school district located within a special program municipality, or (ii) a special school deficit program district, as provided for by article seventy-three of the education law; provided that, with respect to any provisions of this title relating to special school purpose bonds and special school purpose agreements, the term school aid shall have the meaning set forth in section ninety-two-aa of the state finance law.

(5-b) "School Aid Revenues". School aid paid or payable by the comptroller to the agency pursuant to section ninety-two-aa of the state finance law.

(5-c) "Special School Purpose School Aid Revenues". The balance of school aid that does not constitute school aid revenues and that is to be transferred by the comptroller to a special school purpose municipality pursuant to section ninety-two-aa of the state finance law.

(6) "Comptroller". The comptroller of the state of New York.

(7) "State". The state of New York.

(8) "State Agency". Any office, department, board, commission bureau, division, public benefit corporation, agency or instrumentality of the state.

(9) "Amortized Value". When used with respect to securities purchased at a premium above or a discount below par, the value as of any given date obtained by dividing the total amount of the premium or discount at which such securities were purchased by the number of days remaining to maturity on such securities at the time of such purchase and by multiplying the amount so calculated by the number of days having passed since the date of such purchase; and (a) in the case of securities purchased at a premium, by deducting the product thus obtained from the purchase price, and (b) in the case of securities purchased at a discount, by adding the product thus obtained to the purchase price.

(10) "Debt Service Reserve Fund Requirement". With respect to any debt service reserve fund created by section twenty-four hundred thirty-nine of this title relating to bonds other than special program bonds or special school purpose bonds or special school deficit program bonds or recovery act bonds or public safety communications bonds, as of any particular date of computation, an amount of money equal to the greatest of the respective amounts, for the then current or any succeeding calendar year, of annual debt service payments required to be made to the agency on all municipal bonds purchased with the proceeds of bonds which bonds are secured by such debt service reserve fund, such annual debt service payments for any calendar year being an amount of money equal to the aggregate of (a) all interest payable during such calendar year on all municipal bonds purchased by the agency and then outstanding on said date of computation which are secured by such debt service reserve fund, plus (b) the principal amount of all municipal bonds purchased by the agency and then outstanding on said date of computation which mature during such calendar year and are secured by such debt service reserve fund; and with respect to any debt service reserve fund created by section twenty-four hundred thirty-nine of this title relating to an issue or issues of special program bonds or special school purpose bonds or special school deficit program bonds or recovery act bonds or public safety communications bonds, such amount as shall be

determined by the agency.

(11) "Sinking Fund Payments". The amount of money specified in a resolution authorizing term bonds as payable into a sinking fund for the amortization of such term bonds.

(12) "Special Program Municipality". Any city having a population of less than one million but more than three hundred fifty thousand; and any city having a population of less than two hundred fifty thousand but more than two hundred thousand, determined according to the federal decennial census of nineteen hundred eighty. Such term shall also include the city of Syracuse solely for the purpose of the city of Syracuse and the board of education of the city school district of the city of Syracuse cooperative school reconstruction act and the city of Yonkers solely for the purpose of the Yonkers city school district joint schools construction and modernization act.

(13) "Special Program Bonds". An issue of bonds of the agency, all or a portion of the proceeds of which are made available to a special program municipality in connection with the execution by the agency and such special program municipality of a special program agreement.

(14) "Special Program Agreement". An agreement between the agency and a special program municipality entered into pursuant to section two thousand four hundred thirty-five-a of this title.

(15) "Tax Lien". An interest in or encumbrance on real property, whether or not evidenced by a written instrument, arising from an unpaid tax, special ad valorem levy, special assessment or other charge imposed upon real property by or on behalf of a municipal corporation or special district. The amount represented by a tax lien shall include all interest, penalties, charges and surcharges imposed pursuant to law.

(16) "Tax Lien Entity". A trust, limited liability company or other special purpose entity or entities created by or at the request of the agency for the purpose of purchasing tax liens from municipalities and issuing tax lien collateralized securities or in connection with such a purchase or issuance.

(17) "Tax Lien Collateralized Securities". Bonds, notes, certificates of participation or other obligations issued by the agency or its tax lien entity the repayment of which are secured only by tax liens and any other funds pledged for the repayment of such securities.

(18) "Purchase and Sale Agreement". An agreement between the agency or

its tax lien entity and a municipality entered into pursuant to section twenty-four hundred thirty-five-b of this title.

(19) "Special School Purpose Municipality". For purposes of this title, a special school purpose municipality shall be (a) each of the cities of New York, Buffalo, Yonkers, Rochester, or Syracuse in the state of New York, or (b) any school district in the state of New York which has prior year claims due and payable pursuant to section thirty-six hundred four of the education law as of May fifteenth, two thousand two which exceeds one million dollars, or (c) any school district in the state of New York other than a city school district in a city having a population of one million or more which has a prior year claim due and payable pursuant to section thirty-six hundred four of the education law as of February fifteenth, two thousand six which exceeds thirty million dollars.

(20) "Special School Purpose Bonds". An issue of bonds of the agency, all or a portion of the proceeds of which are made available to a special school purpose municipality in connection with the execution by the agency and such special school purpose municipality of a special school purpose agreement. The proceeds of such special school purpose bonds shall only be made available to a special school purpose municipality if (i) the interest payable on the special school purpose bonds of such special school purpose municipality qualify for exclusion from gross income for federal income tax purposes pursuant to the Internal Revenue Code of 1986, as amended, and (ii) under the principles relating to such exclusion, such special school purpose bonds may be issued with a final maturity of not less than ten years.

(21) "Special School Purpose Agreement". An agreement between the agency and a special school purpose municipality entered into pursuant to section two thousand four hundred thirty-five-d of this title.

(22) "Special School Deficit Program District". The enlarged city school district of the city of Troy in the state of New York is a special school deficit program district for the purposes of this chapter.

(23) "Special School Deficit Program Bonds". An issue of bonds of the agency, all or a portion of the proceeds of which are made available to a special school deficit program district in connection with the execution by the agency and such special school deficit program district

of a special school deficit program agreement.

(24) "Special School Deficit Program Agreement". An agreement between the agency and a special school deficit program district entered into pursuant to section two thousand four hundred thirty-five-e of this title.

(25) "Public safety communications bonds". Bonds of the agency, all or a portion of the proceeds of which are used to purchase a local public safety communication bond. The amount of such bonds issued by the agency shall not exceed one billion dollars.

(26) "Recovery Act Bonds". An issue of bonds of the agency, all or a portion of the proceeds of which are used to purchase local ARRA bonds.

(27) "Local ARRA Bonds". A municipal bond issued to finance or refinance purposes eligible, in whole or in part, for subsidies or tax credits under the American Recovery and Reinvestment Act of 2009.

(28) "Local public safety communications bonds". A municipal bond issued to finance or fund all or a portion of the costs of building regional, interoperable public communications networks for statewide use by first-responder agencies in the state, including equipment and incidental costs. Local public safety communication bonds may also be issued to refinance outstanding bonds issued by municipalities for the purposes described herein provided that present value savings are realized from such a refunding.

§ 2433. State of New York municipal bond bank agency. (1) There is hereby created the state of New York municipal bond bank agency. The agency shall be a body corporate and politic constituting a public benefit corporation. Its membership shall consist of seven directors as follows: the comptroller or a director appointed by the comptroller who shall serve until a successor is appointed, the secretary of state, the director of the budget, the chairman of the New York state housing finance agency and three directors to be appointed by the governor with the advice and consent of the senate, at least one of whom shall be an elected official of a municipality as defined in this title. The directors first appointed by the governor shall serve for terms ending two, three and four years, respectively, from January first next succeeding their appointment. Their successors shall serve for terms of four years each. Directors shall continue in office until their successors have been appointed and qualified. In the event of a vacancy occurring in the office of a director by death, resignation or otherwise, the governor shall appoint a successor with the advice and consent of the senate to serve for the balance of the unexpired term. Each director appointed by the governor shall be a citizen of the United States and a resident of the state. The chairman of the New York state housing finance agency shall serve as chairman of the agency.

(2) The powers of the agency shall be vested in and exercised by a majority of the directors of the agency then in office. The secretary of state and the director of the budget, each may appoint a person from their respective office, division or agency to represent such director, respectively, at all meetings of the agency from which such director may be absent. Any such representative so designated shall have the power to attend and to vote at any meeting of the agency from which the director so designating him as a representative is absent with the same force and effect as if the director designating him were present and voting. Such designation shall be by written notice filed with the chairman of the agency by each of the said directors. The designation of such persons shall continue until revoked at any time by written notice to the chairman by the respective director making the designation. Such designation shall not be deemed to limit the power of the appointing director to attend and vote at any meeting of the agency.

(3) The directors shall serve without salary or other compensation, but each director, except for those who serve ex officio, shall be entitled to reimbursement for actual and necessary expenses incurred in the performance of his or her official duties.

(4) Such directors, except as otherwise provided by law, may engage in private employment, or in a profession or business. The agency, its directors, officers and employees shall be subject to the provisions of sections seventy-three and seventy-four of the public officers law.

(5) The chief executive officer of the agency shall be the executive director of the New York state housing finance agency.

(6) Notwithstanding any inconsistent provisions of law, general, special or local, no officer or employee of the state or of any civil division thereof shall be deemed to have forfeited or shall forfeit his office or employment by reason of his acceptance of membership on the

agency created by this section; provided, however, a director who holds such other public office or employment shall receive no additional compensation or allowance for services rendered pursuant to this title, but shall be entitled to reimbursement for his actual and necessary expenses incurred in the performance of such services.

(7) The governor may remove any director appointed by him for inefficiency, neglect of duty or misconduct in office after giving him a copy of the charges against him and an opportunity to be heard, in person or by counsel in his defense, upon not less than ten days' notice. If any such director shall be removed, the governor shall file in the office of the department of state a complete statement of charges made against such director and his findings thereon, together with a complete record of the proceeding.

(8) The agency and its corporate existence shall continue until terminated by law, provided, however, that no such law shall take effect so long as the agency shall have bonds, notes and other obligations outstanding, unless adequate provision has been made for the payment thereof. Upon termination of the existence of the agency, all its rights and properties shall pass to and be vested in the state.

(9) A majority of the directors of the agency then in office shall constitute a quorum for the transaction of any business or the exercise of any power or function of the agency. The agency may delegate to one or more of its directors, or its officers, agents or employees, such powers and duties as it may deem proper.

§ 2434. Powers of the agency. Except as otherwise limited by this title, the agency shall have power:

(1) To sue and be sued;

(2) To have a seal and alter the same at pleasure;

(3) To make and execute contracts and all other instruments necessary or convenient for the exercise of its powers and functions under this title, including, without limitation, any special program agreement entered into pursuant to the provisions of section twenty-four hundred thirty-five-a of this title, any purchase and sale agreement entered into pursuant to the provisions of section twenty-four hundred thirty-five-b of this title and any special school deficit program

agreement entered into pursuant to section twenty-four hundred thirty-five-e of this title;

(4) To make and alter by-laws for its organization and internal management;

(5) To acquire, hold and dispose of real and personal property for its corporate purposes;

(5-a) To establish, create or otherwise form and control one or more trusts or other single purpose entities to facilitate the purchase of tax liens and the issuance of tax lien collateralized securities;

(6) To appoint officers, agents and employees, prescribe their duties and qualifications and fix their compensation;

(7) To acquire, and contract to acquire, bonds issued by municipalities and to enter into advance commitments to municipalities for the purchase of said bonds, all subject to the provisions of section two thousand four hundred thirty-five of this title;

(7-a) To acquire, and contract to acquire, tax liens and to enter into advance commitments with a municipality for the purchase of such tax liens, all subject to the provisions of section twenty-four hundred thirty-five-b of this title;

(7-b) To acquire and contract to acquire local ARRA bonds, and to enter into arrangements with a municipality for the purchase of its local ARRA bonds;

(7-c) To acquire and contract to acquire, and to enter into arrangements with a municipality for the purchase of its local public safety communications bonds.

(8) Subject to any agreement with bondholders or noteholders, to invest moneys of the agency not required for immediate use or disbursement, including proceeds from the sale of any bonds or notes, in (a) obligations of the state or the United States of America, (b) obligations the principal of and interest on which are guaranteed by the state or by the United States of America or an agency or instrumentality of the United States of America, (c) obligations of agencies or instrumentalities of the United States of America or (d) interest bearing time deposits of banks or trust companies secured by obligations described in clauses (a), (b) or (c) of this subdivision or by obligations of agencies or instrumentalities of the state;

(9) Subject to any agreement with bondholders or noteholders, to

purchase bonds or notes of the agency, which shall thereupon be cancelled, at a price not exceeding (a) if the bonds or notes are then redeemable, the redemption price then applicable plus accrued interest to the next interest payment date thereon, or (b) if the bonds or notes are not then redeemable, the redemption price applicable on the first date after such purchase upon which the notes or bonds become subject to redemption plus accrued interest to said date;

(10) To borrow money and to issue negotiable bonds and notes and to provide for and secure the payment thereof and to provide for the rights of the holders thereof;

(11) To make and execute contracts for the servicing of municipal bonds acquired by the agency pursuant to this title, and for the servicing of special program agreements, special school purpose agreements and special school deficit program agreements, and to pay the reasonable value of services rendered to the agency pursuant to those contracts;

(11-a) To make and execute contracts for professional services including, but not limited to, attorneys, financial advisors, due diligence providers and other professional services related to the servicing of tax liens acquired by the agency or its tax lien entity pursuant to this title, and for the servicing of tax lien purchase and sale agreements, and to pay the reasonable value of services rendered to the agency or its tax lien entity pursuant to those contracts;

(12) To contract with the New York State housing finance agency to render such services as the agency may deem appropriate, including but not limited to the use of the premises, personnel and personal property of the New York State housing finance agency, and to pay the reasonable costs thereof and provide for the reimbursement to the New York state housing finance agency for any expenses necessarily incurred by the New York state housing financing agency in carrying out the terms of such contract. Any such contract shall be subject to the separate approval of the director of the budget;

(13) To contract for and to accept any gifts or grants or loans of funds or property or financial or other aid in any form from the federal government or any agency or instrumentality thereof, or from the state or any agency or instrumentality thereof, or from any other source and to comply, subject to the provisions of this title, with the terms and

conditions thereof;

(14) To acquire, hold, use and dispose of its income, revenues, funds and moneys;

(15) To fix, revise, from time to time, charge and collect such fees and charges, including but not limited to reimbursement of all costs of financing by the agency and its tax lien entity, and service charges, as the agency shall determine to be reasonable;

(16) Subject to any agreement with bondholders or noteholders, consent to the modification with respect to rate or rates of interest, time of payment of any installment of principal or interest, security or any other term of any municipal bond of which it is the holder, or of any contract or agreement of any kind to which it is a party;

(16-a) Subject to any agreement with the holders or owners of tax lien collateralized securities, consent to the modification with respect to the time of payment, interest or penalties of a tax lien owned by the agency or its tax lien entity, or of any other contract or agreement to which it is a party;

(17) To establish any terms and provisions with respect to any purchase of municipal bonds by the agency, including date and maturities of the bonds, provisions as to redemption or payment prior to maturity, and any other matters which are necessary, desirable or advisable in the judgment of the agency;

(17-a) To establish any terms and provisions with respect to any purchase of tax liens by the agency or its tax lien entity, including the sale date and, subject to terms of the tax liens purchased, provisions as to redemption or payment prior to the stated redemption date, and any other matters which are necessary, desirable or advisable in the judgment of the agency;

(18) To establish any terms and provisions with respect to any special program agreement, special school purpose agreement or special school deficit program agreement, including any terms for payment, and any other matters which are necessary, desirable or advisable in the judgment of the agency;

(18-a) To establish any terms and provisions with respect to any tax lien purchase and sale agreement, including any terms for payment, and any other matters which are necessary, desirable or advisable in the judgment of the agency;

(19) To certify to the comptroller the need for diversion of state aid payable to any municipality in default on its bonds or failing to make the required appropriation for interest and principal on any bonds held by the agency pursuant to the provisions of section twenty-four hundred thirty-six of this title;

(20) To certify to the comptroller the need for diversion of state aid payable to any special program municipality failing to make a scheduled payment to or for the account of the agency under a special program agreement entered into by the agency for the purpose described in paragraph (a) of subdivision one of section twenty-four hundred thirty-five-a of this title;

(21) To pledge or assign, as security for any of its bonds or notes, any moneys, funds, municipal bonds, special program agreements, special school purpose agreements, or special school deficit program agreements, assets or revenues of the agency, including, without limitation, any state aid or school aid received or receivable pursuant to section twenty-four hundred thirty-six of this title;

* (21-a) To certify to the comptroller the need for diversion of school aid payable to any special program municipality failing to make a scheduled payment to or for the account of the agency under a special program agreement entered into by the agency for the purpose described in paragraph (b) of subdivision one of section twenty-four hundred thirty-five-a of this title;

* NB There are 2 sub (21-a)'s

* (21-a) To pledge or assign as security for any tax lien collateralized securities any tax liens, moneys, funds, tax lien purchase and sale agreements, assets or revenue of the agency or its tax lien entity;

* NB There are 2 sub (21-a)'s

(21-b) To certify to the comptroller, with a copy to the commissioner of education, the amounts required with respect to special school purpose bonds as described in section twenty-four hundred thirty-five-d of this title.

(21-c) To certify to the comptroller, with a copy to the commissioner of education, the need for diversion of school aid payable to a special school deficit program district to make a scheduled payment to or for the account of the agency under a special school deficit program agreement entered into by the agency pursuant to section twenty-four hundred thirty-five-e of this title.

(22) To do any and all things necessary or convenient to carry out its purposes and exercise powers given and granted in this title.

§ 2435. Loans to municipalities. 1. The agency may purchase, and contract to purchase, municipal bonds from municipalities at such price or prices, upon such terms and conditions and in such manner, not inconsistent with the provisions of the local finance law, as the agency shall deem advisable; provided, however, that the average interest rate payable on all municipal bonds (taken as a group) purchased with the proceeds of an issue of bonds shall equal or exceed the interest rate on such issue of bonds. The agency shall not purchase the municipal bonds of any municipality if (i) the aggregate principal amount thereof, together with the aggregate principal balances of the municipal bonds of such municipality then outstanding and held by the agency, exceed an amount equal to ten percent of the aggregate principal amount of the statutory authorization at the time for the issuance of bonds and notes, as provided in section twenty-four hundred thirty-eight of this title, and (ii) the aggregate principal amount thereof exceeds an amount equal to fifty percent of the aggregate principal amount of all municipal bonds proposed to be so purchased at the time; provided, however, that this sentence shall not apply to local ARRA bonds or local public safety communications bonds.

2. The agency shall require as a condition of purchase of municipal bonds from municipalities that each such municipality shall agree (i) to pledge its full faith and credit for the payment of the principal of and interest on such municipal bonds, (ii) to make annual appropriations for amounts required for the payment of such principal and interest, and (iii) if at any time the municipality fails to make the required appropriation to pay such principal and interest, or fails to make the payment of the required principal and interest, the provisions of section twenty-four hundred thirty-six and/or twenty-four hundred thirty-six-b of this title shall take effect. All municipalities selling municipal bonds to the agency are hereby authorized to make and carry

out the agreements with the agency required in this subdivision.

3. In connection with the sale or proposed sale of municipal bonds to the agency, any municipality may, notwithstanding the provisions of any general or special law to the contrary, pay (i) such fixed or annual charges as may be prescribed from time to time by the agency for or with respect to the purchase by the agency of the municipal bonds of such municipality, and (ii) all charges or expenses necessary for the conversion or reconversion of any of its municipal bonds from or into coupon form or registered form as may be required by the agency in connection with any sale or other disposition of such municipal bonds.

§ 2435-a. Special program agreements. (1) In order to fulfill the purposes of this title and to provide a means by which the special program municipalities may (a) receive moneys to refund certain property taxes determined to be in excess of state constitutional tax limits or to reimburse the special program municipalities for the prior refunding of such taxes or (b) receive moneys to be applied to the cost of settling litigation involving the city school districts of special program municipalities and the teachers' unions in such special program municipalities, or (c) receive moneys for the financing of public improvements to be applied to the cost of the reconstruction, rehabilitation or renovation of an educational facility pursuant to the provisions of subdivision (b) of section sixteen of chapter six hundred five of the laws of two thousand, or (d) receive moneys for the financing of public improvements to be applied to the cost of a project for design, reconstruction or rehabilitation of a school building pursuant to the provisions of section fourteen of the city of Syracuse and the board of education of the city school district of the city of Syracuse cooperative school reconstruction act, or (e) receive moneys for the financing of public improvements to be applied to the cost of a project for design, reconstruction or rehabilitation of a school building, or the construction of a new school building, pursuant to the provisions of section twelve of the Yonkers city school district joint schools construction and modernization act, and notwithstanding any general or special law to the contrary, the agency and each special program municipality are hereby authorized to enter into one or more special program agreements, which special program agreements shall, consistent with the provisions of this title, contain such terms, provisions and conditions as, in the judgment of the agency, shall be necessary or desirable. Each special program agreement shall specify the amount to be made available to the respective special program municipality from the proceeds of an issue of special program bonds and shall require such special program municipality, subject to appropriation by the appropriate legislative body of such special program municipality, to make payments to the agency in the amounts and at the times determined by the agency to be necessary to provide for payment of such issue of special program bonds and such other fees, charges, costs and other amounts as the agency shall in its judgment determine to be necessary or desirable.

(2) Any special program agreement entered into pursuant to subdivision one of this section shall provide that the obligation of the special program municipality executing such special program agreement to fund or pay the amounts therein provided for shall not constitute a debt of such special program municipality within the meaning of any constitutional or statutory provision and shall be deemed executory only to the extent of moneys available and that no liability shall be incurred by such special program municipality beyond the moneys available for the purpose, and that such obligation is subject to annual appropriation by the appropriate legislative body of such special program municipality.

§ 2435-b. Tax lien purchase and sale agreements. (1) In order to fulfill the purposes of this title and to provide a means by which municipalities may collect the moneys necessary to fund their expenditures and provide revenue to fund any other lawful purpose and notwithstanding any general or special law to the contrary, the agency or its tax lien entity and any municipality are hereby authorized to enter into one or more purchase and sale agreements for the sale of tax liens by such municipality and the purchase of such tax liens by the agency or its tax lien entity, which purchase and sale agreements shall, consistent with the provisions of this title, contain such terms, provisions and conditions as, in the judgment of the agency or its tax lien entity, shall be necessary or desirable. Each purchase and sale agreement shall specify the amount to be made available to the respective municipality from the proceeds of an issue of tax lien collateralized securities which amount may be more or less than the face amount of the tax liens purchased by the agency or its tax lien entity, and any other amounts which may be made available to the respective municipality on a contingent basis under the terms of the agreement. In addition, each purchase and sale agreement may require such municipality, subject to appropriation by the appropriate legislative body of such municipality, to make provisions for the payment of such other fees, charges, costs and other amounts as the agency shall in its judgment determine to be necessary or desirable.

(2) Any purchase and sale agreement entered into pursuant to subdivision one of this section shall provide that the obligation of the municipality executing such purchase and sale agreement to fund or pay the amounts therein provided for shall not constitute a debt of such municipality within the meaning of any constitutional or statutory provision and shall be deemed executory only to the extent of moneys available and that no liability shall be incurred by such municipality beyond the moneys available for such purpose, and that any such payment obligation of such municipality other than the timely payment of any moneys collected by it and due to the agency or its tax lien entity as a result of the redemption of tax liens which are the subject of such purchase and sale agreements, is subject to appropriation by the appropriate legislative body of such municipality.

§ 2435-c. Purchase of tax liens. (1) The agency or its tax lien entity may purchase, and contract to purchase, tax liens from municipalities at such price or prices, upon such terms and conditions and in such manner, as the agency shall deem advisable.

(2) The agency shall require as a condition of purchase of tax liens from municipalities that each such municipality shall agree (i) to promptly pay, as directed by the agency, any moneys collected by the municipality in connection with the redemption and cancellation of such tax liens, (ii) to pay, subject to appropriation by the appropriate legislative body of such municipality, any amounts due and owing to the

agency or its tax lien entity as a result of the sale of such tax liens, (iii) to make such covenants, representations, and warranties with respect to the tax liens sold as required to effectuate the sale of such tax liens and facilitate the marketing of tax lien collateralized securities issued by the agency or its tax lien entity and (iv) to accept a note or other instrument issued by the agency or its tax lien entity to evidence any contingent amounts payable under the terms of the purchase and sale agreement. All municipalities selling tax liens to the agency or its tax lien entity are hereby authorized to make and carry out the agreements with the agency or its tax lien entity as required in this subdivision. All municipalities are also authorized to sell on their own behalf, or have the agency or its tax lien entity sell on their own behalf, all or part of the contingent amounts payable to such municipalities under the terms of a tax lien purchase and sale agreement.

(2-a) In connection with the purchase or proposed purchase of tax liens by the agency or its tax lien entity, the agency or its tax lien entity may purchase, and contract to purchase, real property from municipalities acquired by the municipalities pursuant to any tax enforcement proceeding, and which have not yet been disposed of by such municipalities.

(3) In connection with the sale or proposed sale of tax liens to the agency or its tax lien entity, any municipality may, notwithstanding the provisions of any general or special law to the contrary, pay (i) such fixed or annual charges as may be prescribed from time to time by the agency for or with respect to the purchase by the agency or its tax lien entity of the tax liens of such municipality, and (ii) all charges or expenses necessary for the conversion or reconversion of any of its tax liens into such form as may be required by the agency in connection with any sale or other disposition of such tax liens.

§ 2435-d. Special school purpose agreements. In order to fulfill the purposes of this title and to provide a means by which the special school purpose municipalities may receive assistance to meet their obligations and, notwithstanding any general or special law to the contrary, the agency and each special school purpose municipality are hereby authorized to enter into one or more special school purpose agreements in accordance with the provisions of this title as to financing of costs by the agency, the application of school aid revenues to the agency to secure its bonds and further assurances in respect of the agency's receipt of such revenues. Any such special school purpose agreements shall not constitute indebtedness of the special school purpose municipality for purposes of section 20.00 of the local finance law or any constitutional or statutory limitation. In addition, any special school purpose bonds issued in connection with such special school purpose agreement shall not constitute a debt of the state or of the applicable special school purpose municipality under any constitutional or statutory provision. Any such school aid revenues shall belong to the agency, shall not be, or be treated as, revenues of the special school purpose municipality for appropriation, accounting or any other purpose, provided, however, that such school aid revenues shall be deemed to be revenues of the special school purpose municipality for the purpose of any computation of federal or state aid, and shall not be consolidated, commingled or otherwise combined with any other moneys of the agency and any such special school purpose agreement shall include a statement to such effect. Any such school aid revenues and any such special school purpose agreements may be pledged by the agency in accordance with and with the effect of subdivision ten of section two thousand four hundred thirty-seven of this title to secure its bonds and may not be modified thereafter except as provided by the terms of the pledge. Each special school purpose agreement shall specify the amount to be made available to the respective special school purpose municipality through the proceeds of an issue of special school purpose bonds and such other matters as the agency shall determine necessary or desirable as to the application of bond proceeds or the security of the bonds. Such special school purpose agreement shall also provide that the agency shall not be entitled to receive any special school purpose school aid revenues. The receipt of the proceeds of any issue of special school purpose bonds by the special school purpose municipality shall be deemed to satisfy an equivalent amount of prior year claims owed to the school district of such special school purpose municipality pursuant to section thirty-six hundred four of the education law, and such proceeds provided pursuant to this section shall not reduce the apportionments payable for approved project costs pursuant to subdivisions six, six-a and six-b and paragraph c of subdivision fourteen of section thirty-six hundred two and subdivision twelve of section thirty-six hundred forty-one of the education law and may be used by an eligible school district to fund the principal amount of any costs that are in excess of the costs approved for an apportionment pursuant to such subdivisions six, six-a or six-b of section thirty-six hundred two or subdivision twelve of section thirty-six hundred forty-one of the education law.

§ 2435-e. Special School Deficit Program Agreements. (1) In order to fulfill the purposes of this title and to provide a means by which a special school deficit program district may receive assistance to meet its obligations and, notwithstanding any general or special law to the contrary, the agency and the special school deficit program district are, subject to the provisions of subdivision (3) of this section, hereby authorized to enter into one or more special school deficit program agreements, which special school deficit program agreements shall, consistent with the provisions of this title, contain such terms, provisions and conditions as, in the judgement of the agency, shall be necessary or desirable. Each special school deficit program agreement shall specify the amount to be made available to the special school deficit program district through the proceeds of an issue of special school deficit program bonds and shall require such special school deficit program district, subject to appropriation by the board of education of such special school deficit program district, to make payments to the agency in the amounts and at the times determined by the agency to be necessary to provide for payment of such issue of special school deficit program bonds and such other fees, charges, costs, and other amounts as the agency shall in its judgement determine to be necessary or desirable.

(2) Any special school deficit program agreement entered into pursuant to subdivision one of this section shall provide that the obligations thereunder to fund or pay the amounts therein provided for shall not constitute a debt of the state or such special school deficit program district within the meaning of any constitutional or statutory provision and shall be deemed executory only to the extent of moneys available and

that no liability shall be incurred by the state or such special school deficit program district beyond the moneys available for the purpose, and that such obligation is subject to annual appropriation by the board of education of such special school deficit program district.

§ 2436. State aid guarantee. 1. In the event that a municipality fails to make any payment of principal or interest on its municipal bonds, the chairman of the agency shall certify to the comptroller that the municipality has failed to meet its obligations. Such certificate shall be in such form as the agency deems desirable, but shall include the exact amount of interest and principal required to satisfy the municipality's obligations to the agency.

2. The comptroller, upon receipt of such certificate from the agency, shall withhold from the municipality any state aid payable to such municipality to the extent necessary to meet the certified amount of interest or principal and shall immediately pay over to the agency the amount so withheld.

3. Pending payment to the agency from the comptroller of any such state aid withheld from a municipality, the agency shall, if payments of interest or principal are due on the agency's bonds, withdraw an amount sufficient to meet such amounts withheld from a municipality from the debt service reserve fund securing such bonds. Any such amount withdrawn from such debt service reserve fund shall be paid into such debt service reserve fund upon receipt by the agency from the comptroller of any state aid withheld. Any amount so paid to the agency from such state aid shall not obligate the state to make, nor entitle the municipality to receive, any additional amounts of state aid.

4. In the event that a special program municipality shall fail to make a payment in such amount (as calculated in accordance with the special program agreement to which such municipality shall be a party) and by such date as is provided to be made by such municipality in its special program agreement, the chairman of the agency shall so certify to the comptroller. Such certificate shall be in such form as the agency deems

desirable, but shall specify the amount by which such payment shall have been deficient. The comptroller, upon receipt of such certificate from the agency, shall withhold from such special program municipality any state aid payable to such municipality to the extent of the amount so stated in such certificate as not having been made, and shall immediately pay over to the agency the amount so withheld; provided, however, that in the case of a special program agreement entered into for the purpose described in paragraph (b) or (c) or (d) or (e) of subdivision one of section twenty-four hundred thirty-five-a of this title, the comptroller shall be authorized to withhold from the special program municipality such school aid as is payable to the city school district of the special program municipality, to the extent of the amount so stated in such certificate as not having been made, and shall immediately pay over to the agency the amount so withheld. Any amount so paid to the agency from such state and/or school aid shall not obligate the state to make, nor entitle the special program municipality to receive, any additional amounts of state and/or school aid. Nothing contained therein shall be deemed to prevent the state from modifying, reducing or eliminating any program or programs of state and/or school aid; nor shall the state be obligated by the terms hereof to maintain state and/or school aid at any particular level or amount.

5. In the event that a special school deficit program district shall fail to make a payment in such amount (as calculated in accordance with the special school deficit program agreement to which such school district shall be a party) and by such date as is provided to be made by such school district in its special school deficit program agreement, the chairman of the agency shall so certify to the comptroller, with a copy to the commissioner of education. Such certificate shall be in such form as the agency deems desirable, but shall specify the amount by which such payment shall have been deficient. The comptroller, upon receipt of such certificate from the agency, shall withhold from such special school deficit program district any school aid payable to such special school deficit program district to the extent of the amount so stated in such certificate as not having been made, and shall immediately pay over to the agency the amount so withheld. Any amount so paid to the agency from such school aid shall not obligate the state to

make, nor entitle the special school deficit program district to receive, any additional amounts of school aid. Nothing contained therein shall be deemed to prevent the state from modifying, reducing or eliminating any program or programs of school aid; nor shall the state be obligated by the terms hereof to maintain school aid at any particular level or amount.

§ 2436-a. School aid revenues. With respect to each issue of outstanding special school purpose bonds, the chairman of the agency shall annually certify, or in the case of the first such certificate within thirty days after the sale of an issue of special school purpose bonds, to the comptroller and the director of the budget, with a copy to the commissioner of education, a schedule setting forth the amount of school aid revenue necessary for payment of the following obligations:

(a) all interest and all payments of principal and redemption premium, if any, on such special school purpose bonds maturing or otherwise coming due during the subsequent state fiscal year;

(b) the amounts required to be deposited in any debt service reserve fund with respect to such special school purpose bonds;

(c) the amount, if any, due to any provider of any bond credit or liquidity facility, representing payments made by it as provided in the applicable resolution or trust indenture, including any related reasonable interest, fees or charges so provided;

(d) the amount, if any, required to be rebated to the United States to provide for continued federal tax exemption of such special school purpose bonds; and

(e) any administrative or other fees, costs or charges due to the agency or any other party in connection with such special school purpose bonds.

The certification may be amended and, in the event of a bond sale, shall be amended no later than thirty days after such sale. The schedule accompanying such certification shall provide for such payment dates as the agency deems appropriate to ensure that sufficient funds will be available to meet its obligations relating to such special school purpose bonds as they come due.

§ 2436-b. Local ARRA bonds. (1) The agency may purchase local ARRA bonds using the proceeds of recovery act bonds, subject to the provisions of this section and to any other provision of law applicable to the municipality and bonds it issues, including any debt limitation applicable to the municipality that issued the local ARRA bond, as well as to the other provisions of this title. To the extent that any such other provision of law conflicts with a provision of this section, the provision of this section shall control, except as otherwise stated.

(2) Subject to the provisions of this section:

(a) Local ARRA bonds issued by a county, except a county wholly within a city, may be additionally secured by a pledge to the agency of its available county sales tax revenues subject to the provisions of subdivision five of this section.

(b) Local ARRA bonds issued by a city may be additionally secured by a pledge to the agency of its available city sales tax revenues or its available mortgage recording tax revenues, or both subject to the provisions of subdivision five of this section.

(c) Local ARRA bonds issued by a town may be additionally secured by a pledge to the agency of its available mortgage recording tax revenues subject to the provisions of subdivision five of this section.

(d) Local ARRA bonds issued by a village may be additionally secured by a pledge to the agency of its available mortgage recording tax revenues subject to the provisions of subdivision five of this section.

(3) (a) Nothing contained in this title shall limit the right and obligations of a municipality to comply with the provisions of any existing contract with or for the benefit of the holders of any of its other bonds, notes or other obligations.

(b) Nothing contained in this title shall be construed to limit the power of a municipality to determine, from time to time, within available funds for the municipality, the purposes for which expenditures are to be made by the municipality and the amounts of such expenditures.

(c) Nothing contained in this title shall alter, limit, modify or impair the right of any school district or of any city, town, or village within a county to receive from the county net collections, as authorized by section twelve hundred sixty-two of the tax law or other applicable provision of part four of article twenty-nine of the tax law or by an unconsolidated state law that notwithstands such provision of the tax law, from the county's sales and compensating use taxes imposed pursuant to the authority of subpart B of part one of article twenty-nine of the tax law. Further, nothing contained in this title shall alter, limit, modify or impair the right of any city or town within a county to receive from the county the net amount of mortgage recording tax revenues imposed by subdivision one of section two hundred fifty-three of the tax law, as authorized by subdivision three of section two hundred sixty-one of the tax law.

(d) The agency's recovery act bonds secured by payments of principal and interest due with respect to local ARRA bonds shall not be a debt of either the state or any municipality, and neither the state nor any municipality shall be liable thereon, nor shall they be payable out of any funds other than those of the agency; and such recovery act bonds shall contain on the face thereof a statement to such effect.

(e) Subject to the provisions of any contract with holders of bonds, notes or other obligations, proceeds of recovery act bonds to be paid to a municipality to purchase its local ARRA bonds shall be paid to the municipality and shall not be commingled with any other money of the agency.

(f) Nothing contained in this title shall be construed to create a debt of the state within the meaning of any constitutional or statutory provisions. Any provision with respect to state aid shall be deemed executory only to the extent of moneys available, and no liability shall be incurred by the state beyond the moneys available for that purpose, and any payment to be made by the comptroller of state aid is subject to annual appropriation of state aid by the state legislature.

(g) Nothing contained in this title shall be deemed to restrict the right of the state to amend, repeal, modify, or otherwise alter any provision of law relating to state aid to municipalities. The agency shall include in any resolution, contract, or agreement with holders of its bonds, notes or other obligations a provision which states that no default occurs as a result of the state's exercising its right to amend, repeal, modify, or otherwise alter any provision of law relating to state aid to municipalities.

(4) (a) A municipality may covenant and agree that the municipality will not limit, alter or impair the rights hereby vested in the agency to fulfill the terms of any agreements made with holders of the agency's recovery act bonds, the proceeds of which were used to purchase the municipality's local ARRA bonds, such holders pursuant to this title, or in any way impair the rights and remedies of such holders or the security for such bonds, until such bonds, together with the interest thereon and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully paid and discharged. Nothing contained in this title shall be deemed to restrict any right of the municipality to amend, modify, repeal or otherwise alter any local laws, ordinances or resolutions imposing or relating to taxes or fees, or appropriations relating to such taxes or fees, or setting aside or allocating and applying, paying or using net collections pursuant to the authority of part four of article twenty-nine of the tax law or pursuant to the authority of any other provision of state law that notwithstands a provision of such part, so long as, after giving effect to such amendment, modification or other alteration, the aggregate amount as then projected by the municipality of (i) sales and compensating use taxes imposed by the municipality pursuant to the authority of subpart B of part one of article twenty-nine of the tax law (to the extent that the municipality is authorized to impose such taxes and is imposing them at the time it issues its local ARRA bonds); and (ii) all such net collections to be set aside or to be allocated and applied, paid or used by the municipality pursuant to the authority of part four of article twenty-nine of the tax law or pursuant to any other provision of state law that notwithstands a provision of such part four during each of the agency's fiscal years following the effective date of such amendment, modification or other alteration shall be not less than two hundred percent of maximum annual debt service on the municipality's local ARRA bonds then outstanding. Notwithstanding anything to the contrary in this section, a municipality that imposes sales and compensating use taxes at the time it issues local ARRA bonds further agrees that it shall continue to impose such taxes during the time such bonds are outstanding at the maximum rate authorized therefor, without regard to any additional rate, provided that any increase in the rate of such taxes to

satisfy this obligation shall comply with the applicable provisions of subpart B of part one of article twenty-nine of the tax law.

(b) Any such agreement with a municipality may be pledged by the agency to secure its recovery act bonds used to purchase local ARRA bonds issued by that municipality and may not be modified thereafter except as provided by the terms of the pledge or subsequent agreements with the holders of such recovery act bonds.

(c) The agency shall not include within any resolution, contract or agreement with holders of recovery act bonds any provision which provides that a default occurs as a result of a municipality exercising its right to amend, modify, repeal or otherwise alter such taxes, fees or appropriations or such net collections. Nothing in this title shall be deemed to obligate a municipality to make any payments or impose any taxes or set aside or allocate and apply, pay or use net collections pursuant to the authority of part four of article twenty-nine of the tax law or pursuant to the authority of an unconsolidated state law that notwithstands a provision of such part; except that a municipality shall impose taxes pursuant to the authority of subpart B of part one of article twenty-nine of the tax law at the maximum rate authorized therefor, without regard to any additional rate, provided that any increase in the rate of such taxes to satisfy this obligation shall comply with the applicable provisions of subpart B of part one of article twenty-nine of the tax law.

(5) (a) If a municipality fails to pay to the agency any principal or interest due on its local ARRA bonds secured by a pledge of its available local sales and use tax revenues or its available mortgage recording tax revenues, or both, as described in subdivision two of this section, the chairman of the agency shall notify the comptroller in writing that such municipality has failed to meet its obligations. Such notice shall set forth in detail the term, amount, interest rate, and payment schedule of the local ARRA bonds in default, and the exact amounts of principal and interest due from such municipality in default. The agency shall provide a copy of such notice to the chief fiscal officer of such municipality in default and, in the case of a default by a city, town, or village with respect to local ARRA bonds secured by mortgage recording tax revenues, also to the chief fiscal officer of the county in which the city, town, or village is located. The agency shall

provide such notice to the comptroller at least thirty days prior to the date that the comptroller is expected to withhold and pay over local sales and use tax revenues to the agency.

(b) Upon the comptroller receiving such complete, certified written notice from the agency, the comptroller shall, notwithstanding any provision of section twelve hundred sixty-one of the tax law to the contrary, pay to the agency, on or before the fifteenth day of each month, all or a portion of the local sales and use tax revenues due the municipality in default, until the amount certified in default has been extinguished. The comptroller shall make such payments to the agency only out of net collections not otherwise pledged, required to be intercepted or otherwise encumbered by provisions of law in effect immediately prior to the date the municipality's local ARRA bonds secured by a pledge authorized by this section shall have been issued.

(c) Upon receiving such complete, certified written notice from the agency, the chief fiscal officer of a county, notwithstanding the provisions of section two hundred sixty-one of the tax law, shall pay over to the comptroller, the net amount of mortgage recording tax revenues imposed by subdivision one of section two hundred fifty-three of the tax law due to the city, town, or village in default. The chief fiscal officer of the county shall continue to make those payments to the comptroller until the agency sends certified notice to the officer and to the comptroller that the city or town is no longer in default. The comptroller shall pay to the agency, on or before the fifteenth day of each month, all or a portion of the mortgage recording tax revenues received from the chief fiscal officer of the county, until the amount certified in default has been extinguished.

(d) Such payments by the comptroller to the agency shall be made on account of, and for the benefit of, the municipality in default. If so requested by the agency, as indicated in its certified notice to the comptroller, the comptroller shall make such payments to a trustee pursuant to an indenture for holders of the recovery act bonds issued by the agency that were used to purchase the municipality's local ARRA bonds in default. Such payments by the comptroller on behalf of such municipality shall be applied by the agency or, if paid directly to the trustee, by such trustee, to cure that municipality's default. To the extent the comptroller makes any such payment to the agency or to such a trustee, the municipality's default shall be cured.

(e) The comptroller shall not be responsible for any inaccuracy in the amount of such payments based upon the notice furnished by the agency. The comptroller shall not be required to make payments under this subdivision which are greater than the amounts of local sales and use tax revenues due the municipality, as certified to the comptroller by the commissioner of taxation and finance as provided in subdivision (c) of section twelve hundred sixty-one of the tax law (subject to the limitation in paragraph (b) of this subdivision), or which are greater than the amount of net mortgage recording tax revenues paid to the comptroller by the chief fiscal officer of the county. After the comptroller makes any payments of net collections required under this section, the comptroller shall pay any balance of net collections due such municipality to such municipality in the manner provided in subdivision (c) of section twelve hundred sixty-one of the tax law or other applicable law. The comptroller shall be required to make payments under this section for only so long as the municipality is in default as certified in the agency's notice to the comptroller.

(f) The authority in this section to withhold local sales and use tax revenues and mortgage recording tax revenues and pay them over to the agency shall be in addition to the state aid guaranty set forth in section twenty four hundred thirty-six of this title; and the agency may certify that either or both revenue sources may be withheld to the extent necessary to satisfy the municipality's unmet obligations to the agency.

(g) Any withholding of revenues pursuant to this subdivision or state aid pursuant to section twenty-four hundred thirty-six of this title with respect to local ARRA bonds shall be made in consultation with the director of the budget of the state; provided, however, such consultation shall not delay or otherwise adversely affect the agency's right to receive timely payment of such revenues and/or state aid.

(6) When used in this section, the following terms shall have the following meanings unless the context clearly indicates otherwise:

(a) "Sales and compensating use taxes" means taxes imposed by a county or city pursuant to the authority of subpart B of part one of article twenty-nine of the tax law.

(b) "Net collections" shall have the same meaning as in subdivision

(f) of section twelve hundred sixty-two of the tax law.

(c) "County sales tax revenues" means net collections set aside for county purposes pursuant to subdivision (a) of section twelve hundred sixty-two of the tax law or other applicable provision of part four of article twenty-nine of the tax law, from a county's sales and compensating use taxes.

(d) "City sales tax revenues" means net collections from a city's sales and compensating use taxes.

(e) "Municipality" means municipality as defined in paragraph one of section 2.00 of the local finance law.

(f) "Local sales and use tax revenues" means any of the tax revenues defined in paragraph (c) or (d) of this subdivision, or any combination of them, as the case may be.

(g) "Secure" means a pledge of sales and compensating use taxes or mortgage recording taxes for the purposes of default by a municipality as a result of a failure to pay debt service on its local ARRA bonds.

§ 2436-c. Local public safety communications bonds. (1) The agency may purchase local public safety communications bonds using the proceeds of public safety communication bonds, subject to the provisions of this section and to any other provision of law applicable to the municipality and bonds it issues, including any debt limitation applicable to the municipality that issued the local public safety communications bond, as well as to the other provisions of this title. To the extent that any such other provision of law conflicts with a provision of this section, the provision of this section shall control, except as otherwise stated.

(2) Local public safety communications bonds shall be payable from funds provided by a municipality for payment thereof as well as any monies available from special public safety communications agreements.

(3) The agency's public safety communications bonds secured by payments of principal and interest due with respect to local public safety communications bonds shall not be a debt of either the state or any municipality, and neither the state nor any municipality shall be liable thereon, nor shall they be payable out of any funds other than those of the agency; and such local public safety communications bonds shall contain on the face thereof a statement to such effect.

(4) Subject to the provisions of any contract with holders of bonds, notes or other obligations, proceeds of public safety communications bonds to be paid to a municipality to purchase its local public safety communications bonds shall be paid to the municipality and shall not be commingled with any other money of the agency.

(5) Nothing contained in this title shall be construed to create a debt of the state within the meaning of any constitutional or statutory provisions.

(6) (a) A municipality may covenant and agree that the municipality will not limit, alter or impair the rights hereby vested in the agency to fulfill the terms of any agreements made with holders of the agency's public safety communications bonds, the proceeds of which were used to purchase the municipality's local public safety communications bonds, or in any way impair the rights and remedies of such holders or the security for such bonds, until such bonds, together with the interest thereon and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully paid and discharged.

(b) Any such agreement with a municipality may be pledged by the agency to secure its public safety communications bonds used to purchase local public safety communications bonds issued by that municipality and may not be modified thereafter except as provided by the terms of the pledge or subsequent agreements with the holders of such public safety communications bonds.

§ 2437. Bonds and notes of the agency. (1) Subject to the provisions of section two thousand four hundred thirty-eight of this title, the agency shall have the power and is hereby authorized from time to time to issue its negotiable bonds and notes in conformity with applicable provisions of the uniform commercial code in such principal amounts as, in the opinion of the agency, shall be necessary to provide sufficient funds for achieving the corporate purposes thereof, including the purchase of municipal bonds, the providing of certain amounts to special program municipalities from the proceeds of special program bonds, the providing of certain amounts to special school purpose municipalities from the proceeds of special school purpose bonds, the providing of certain amounts to a special school deficit program district from the proceeds of special school deficit program bonds, the payment of interest on bonds and notes of the agency, establishment of reserves to secure such bonds and notes, payment of letter of credit, bond insurance and other credit and liquidity support facility fees, premiums, reimbursements and expenses, fees and expenses of trustees and paying agents and other financing costs including any accrued costs payable to the New York state housing finance agency pursuant to any contract entered into under subdivision twelve of section two thousand four hundred thirty-four of this title and all other expenditures of the agency incident to and necessary or convenient to carry out its corporate purposes and powers, except the operating expenses of the agency.

(2) Except as may otherwise be expressly provided by the agency, all bonds and notes issued by the agency shall be general obligations of the agency, secured by the full faith and credit of the agency and may be payable out of any moneys, assets, or revenues of the agency, subject only to any agreements with holders of particular bonds or notes pledging any particular moneys, assets or revenues, all as may be designated in the proceedings of the agency under which the bonds or notes shall be authorized to be issued.

(3) Bonds and notes shall be authorized by a resolution or resolutions of the agency adopted as provided by this title; provided, however, that any such resolution authorizing the issuance of bonds or notes may delegate to an officer of the agency the power to issue such bonds or notes from time to time and to fix the details of any such issues of bonds or notes by an appropriate certificate of such authorized officer.

(4) Such bonds or notes shall bear such date or dates, shall mature at such time or times, shall bear interest at such rate or rates, shall be of such denominations, shall be in such form, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America at such place or places within or without the state, be subject to such terms of redemption prior to maturity and have such other terms as may be provided by such resolution or resolutions or such certificate with respect to such bonds or notes, as the case may be; provided, however, that the maximum maturity of bonds other than special program bonds, special school purpose bonds or

special school deficit program bonds shall not exceed forty years from the date thereof, the maximum maturity of special program bonds shall not exceed thirty years, the maximum maturity of special school purpose bonds shall not exceed twenty years, the maximum maturity of special school deficit program bonds shall not exceed ten years and the maximum maturity of notes or any renewals thereof shall not exceed five years from the date of the original issue of such notes.

(5) Any bonds or notes of the agency other than special program bonds, special school purpose bonds, special school deficit program bonds, recovery act bonds or public safety communications bonds shall be sold at public sale and from time to time upon such terms and at such prices as may be determined by the agency, and the agency may pay all expenses, premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale thereof. Any special program bonds, special school purpose bonds, special school deficit program bonds, recovery act bonds or public safety communications bonds shall be sold at public or private sale and from time to time upon such terms and at such prices as may be determined by the agency, and the agency may pay all expenses, premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale thereof provided, however, that special program bonds relating to a special program agreement entered for the purpose described in paragraph (b) of subdivision one of section twenty-four hundred thirty-five-a of this title shall be sold on or before June thirtieth, two thousand one. No special program bonds, special school purpose bonds, special school deficit program bonds, or recovery act bonds, or public safety communications bonds of the agency may be sold by the agency at private sale, however, unless such sale and the terms thereof have been approved in writing by (a) the comptroller, where such sale is not to the comptroller, or (b) the director of the budget, where such sale is to the comptroller.

(6) The agency is authorized to provide for the issuance of its bonds or notes for the purpose of refunding any bonds or notes of the agency then outstanding, including the payment of any redemption premiums thereon and any interest accrued or to accrue to the redemption date next succeeding the date of delivery of such refunding bonds or notes. The proceeds of any such bonds or notes issued for the purpose of so

refunding outstanding bonds or notes, may, in the discretion of the agency, be applied to the purchase or retirement at maturity of such outstanding bonds or notes or the redemption of such outstanding bonds or notes on the redemption date next succeeding the date of delivery of such refunding bonds or notes, or both such purposes, and may, pending such application, be placed in escrow to be applied to such purchase or retirement at maturity or redemption on such date as may be determined by the agency. Any such escrowed proceeds, pending such use, may be invested and reinvested in obligations of or guaranteed by the state or the United States of America, or in certificates of deposit or time deposits secured in such manner as the agency shall determine, maturing at such time or times as shall be appropriate to assure the prompt payment, as to principal, interest and redemption premium, if any, on the outstanding bonds or notes to be so refunded by purchase, retirement at maturity or redemption, as the case may be. The interest, income and profits, if any, earned or realized on any such investment may also be applied to the payment of the outstanding bonds or notes to be so refunded by purchase, retirement at maturity or redemption, as the case may be. After the terms of the escrow have been fully satisfied and carried out, any balance of such proceeds and interest, if any, earned or realized on the investments thereof may be returned to the agency for use by it in any lawful manner. All such bonds or notes shall be issued and secured and shall be subject to the provisions of this title in the same manner and to the same extent as any other bonds or notes authorized pursuant to this title.

(7) Whether or not the bonds and notes are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds and notes are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds and notes for registration.

(8) Subject only to the provisions of sections two thousand four hundred thirty-eight and two thousand four hundred thirty-nine of this title, any resolution or resolutions authorizing any bonds or notes of the agency may contain provisions which may be a part of the contract with the holders of such bonds or notes, as to: (a) pledging or creating a lien, to the extent provided by such resolution or resolutions, on all

or any part of any monies or assets of the agency or of any moneys held in trust or otherwise by others for the payment of such bonds or notes; (b) otherwise providing for the custody, collection, securing, investment and payment of any moneys of the agency; (c) the setting aside of reserves or sinking funds and the regulation or disposition thereof; (d) limitations on the purpose to which the proceeds of sale of any issue of such bonds or notes then or thereafter to be issued may be applied; (e) limitations on the issuance of additional bonds or notes, the terms upon which additional bonds or notes may be issued and secured, and upon the refunding of outstanding or other bonds or notes; (f) the procedure, if any, by which the terms of any contract with the holders of bonds or notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent thereto and the manner in which such consent may be given; (g) the creation of special funds into which any moneys of the agency may be deposited; (h) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the agency may determine, which may include any or all of the rights, powers and duties of the trustee appointed pursuant to section two thousand four hundred forty of this title, and limiting or abrogating the right of the holders of bonds or notes to appoint a trustee under such section or limiting the rights, duties and powers of such trustee; (i) defining the acts or omissions to act which shall constitute a default in the obligations and duties of the agency and providing for the rights and remedies of the holders of bonds or notes in the event of such default, providing, however, that such rights and remedies shall not be inconsistent with the general laws of this state and other provisions of this title; and (j) any other matters of like or different character, which in any way affect the security and protection of the bonds or notes and the rights of the holders thereof.

(9) Any resolution or resolutions or trust indenture or indentures under which bonds or notes of the agency are authorized to be issued may contain provisions for vesting in a trustee or trustees such properties, rights, powers and duties in trust as the agency may determine which may include any or all of the rights, powers and duties of the trustee appointed by the holders of any issue of notes or bonds pursuant to section two thousand four hundred forty of this title, in which event the provisions of said section two thousand four hundred forty

authorizing the appointment of a trustee by such holders of bonds or notes shall not apply.

(10) It is the intention of the legislature that any pledge of earnings, revenues, other moneys or assets made by the agency shall be valid and binding from the time when the pledge is made; that the earnings, revenues, other moneys or assets so pledged and thereafter received by the agency shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and that the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the agency irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

(11) Neither the members of the agency nor any person executing the bonds or other obligations shall be liable personally on the bonds or other obligations or be subject to any personal liability or accountability by reason of the issuance thereof.

§ 2437-a. Tax lien collateralized securities. (1) The agency or its tax lien entity shall have the power and is hereby authorized from time to time to issue its tax lien collateralized securities in such principal amounts as, in the opinion of the agency, shall be necessary to provide sufficient funds for the purchase of tax liens, or the refunding of outstanding securities of the agency or its tax lien entity, establishment of reserves to secure such tax lien collateralized securities, payment of letter of credit, bond insurance and other credit and liquidity support facility fees, premiums, reimbursements and expenses, fees and expenses of trustees and paying agents and other financing costs including any accrued costs payable to the New York state housing finance agency pursuant to any contract entered into under subdivision twelve of section twenty-four hundred thirty-four of this title and all other expenditures of the agency or its tax lien entity incident to and necessary or convenient to the purchase of municipal tax liens.

(2) Except as may otherwise be expressly provided by the agency, all tax lien collateralized securities issued by the agency or its tax lien

entity shall be special limited obligations of the agency or its tax lien entity payable only upon the redemption of the tax liens purchased or the liquidation of the related real estate parcels and other collateral or credit enhancement agreements pledged to secure such obligations, subject to any agreements pledging any particular moneys, assets or revenues, all as may be designated in the proceedings of the agency under which said tax lien collateralized securities shall be authorized to be issued.

(3) Tax lien collateralized securities shall be authorized by a resolution or resolutions of the agency adopted as provided by this title; provided, however, that any such resolution authorizing the issuance of such securities may delegate to an officer of the agency the power to issue such securities from time to time and to fix the details of any such issues of tax lien collateralized securities by an appropriate certificate of such authorized officer.

(4) Tax lien collateralized securities shall bear such date or dates, shall mature at such time or times, shall bear interest at such rate or rates, shall be of such denominations, shall be in such form, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America at such place or places within or without the state, be subject to such terms of redemption prior to maturity and have such other terms as may be provided by such resolution or resolutions or such certificate with respect to such securities, as the case may be.

(5) Any tax lien collateralized security of the agency or its tax lien entity may be sold at public or private sale and from time to time upon such terms and at such prices as may be determined by the agency, and the agency may pay all expenses, premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale thereof.

(6) Whether or not tax lien collateralized securities are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, tax lien collateralized securities are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the tax lien collateralized securities for registration.

(7) Any resolution or resolutions authorizing any tax lien

collateralized securities of the agency or of its tax lien entity may contain provisions which may be a part of the contract with the holders of securities, as to: (i) pledging or creating a lien, to the extent provided by such resolution or resolutions, on all or any part of any moneys or assets of the agency and its tax lien entity or of any moneys held in trust or otherwise by others for the payment of such securities; (ii) otherwise providing for the custody, collection, securing, investment and payment of any moneys of the agency; (iii) the setting aside of reserves or sinking funds and the regulation or disposition thereof; (iv) limitations on the purpose to which the proceeds of sale of any issue of securities then or thereafter to be issued may be applied; (v) limitations on the issuance of additional securities, the terms upon which additional securities may be issued and secured, and upon the refunding of outstanding or other securities; (vi) the procedure, if any, by which the terms of any contract with the holders of such securities may be amended or abrogated, the amount of such securities the holders of which must consent thereto and the manner in which such consent may be given; (vii) the creation of special funds into which any moneys of the agency may be deposited; (viii) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the agency may determine; (ix) defining the acts or omissions to act which shall constitute a default in the obligations and duties of the agency and providing for the rights and remedies of the holders of such securities in the event of such default, providing, however, that such rights and remedies shall not be inconsistent with the general laws of this state and other provisions of this title; and (x) any other matters of like or different character, which in any way affect the security and protection of the tax lien collateralized securities and the rights of the holders thereof.

(8) Any resolution or resolutions or trust indenture or indentures under which tax lien collateralized securities of the agency or its tax lien entity are authorized to be issued may contain provisions for vesting in a trustee or trustees such properties, rights, powers and duties in trust as the agency may determine.

(9) It is the intention of the legislature that any pledge of tax liens, earnings, revenues, other moneys or assets made by the agency or its tax lien entity shall be valid and binding from the time when the

pledge is made; that the tax liens, earnings, revenues, other moneys or assets so pledged and thereafter received by the agency or its tax lien entity shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and that the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the agency or its tax lien entity irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

(10) Neither the members of the agency nor any person executing the tax lien collateralized securities shall be liable personally on the tax lien collateralized securities or be subject to any personal liability or accountability by reason of the issuance thereof.

§ 2438. Bond authorization. (1) The agency shall not issue bonds and notes in an aggregate principal amount at any one time outstanding exceeding one billion dollars, excluding tax lien collateralized securities, special school purpose bonds, special school deficit program bonds, special program bonds issued to finance the reconstruction, rehabilitation or renovation of an educational facility pursuant to the provisions of subdivision (b) of section sixteen of chapter six hundred five of the laws of two thousand, special program bonds issued to finance the cost of a project for design, reconstruction or rehabilitation of a school building pursuant to the provisions of section fourteen of the city of Syracuse and the board of education of the city school district of the city of Syracuse cooperative school reconstruction act, special program bonds issued to finance the cost of a project for design, construction, reconstruction or rehabilitation of a school building pursuant to the provisions of section thirteen of the Yonkers city school district joint schools construction and modernization act, recovery act bonds, public safety communications bonds and bonds and notes issued to refund outstanding bonds and notes.

(2) The agency shall not issue special school purpose bonds in an aggregate principal amount in excess of: for the city of New York, four hundred thirty-five million dollars; for the city of Buffalo, four million seven hundred thousand dollars; for the city of Rochester, five

million one hundred thousand dollars; for the city of Syracuse, eight hundred thousand dollars; and for the city of Yonkers, three hundred thousand dollars; or the amount of prior year claims that are due and payable to each such school district of each such special school purpose municipality pursuant to section thirty-six hundred four of the education law. Such amount shall exclude bonds issued to fund any debt service reserve fund, bonds issued to refund such special school purpose bonds, bonds issued to pay the costs of issuance of such special school purpose bonds and the amount of bonds that would constitute interest under the Internal Revenue Code of 1986, as amended. Notwithstanding any provision of law to the contrary, the special school purpose bonds issued for the city of New York shall be issued in such principal amount as will provide funds sufficient to pay interest on such bonds for a period of at least two years after the date of issuance thereof and such amount shall be excluded from the limitation contained in this subdivision.

(3) The agency shall not issue special school deficit program bonds (a) prior to the time the state comptroller determines the amount of the accumulated projected deficit of a special school deficit program district in its general fund at the close of its current fiscal year ending June thirtieth, two thousand two, including any budget notes and revenue anticipation notes which may be part of such deficit, as provided in a chapter of the laws of two thousand two, and (b) in aggregate principal amount in excess of the lesser of (i) the amount of such deficit as determined by the state comptroller or (ii) sixteen million five hundred thousand dollars, excluding bonds to fund any debt service reserve fund, bonds issued to refund special school deficit program bonds, bonds issued to pay the costs of issuance of such special school deficit program bonds and the amount of bonds that would constitute interest under the Internal Revenue Code of 1986, as amended.

(4) The fixing of the statutory maximum in this section shall not be construed as constituting a contract between the agency and the holders of its bonds or notes that additional bonds and notes may not be issued subsequently by the agency in the event that such statutory maximum shall subsequently be increased by law.

§ 2439. Reserve funds and appropriations. The agency shall create and establish one or more special funds to be known as debt service reserve funds and shall pay into such reserve funds (a) any moneys appropriated and made available by the state for the purposes of such funds, (b) any proceeds of sale of bonds or notes, to the extent provided in the resolution of the agency authorizing the issuance thereof and (c) any other moneys which may be available to the agency for the purposes of such funds from any other source or sources. The moneys held in or credited to the debt service reserve fund established under this subdivision, except as hereinafter provided, shall be used solely for the payment of the principal of the bonds of the agency secured by such reserve fund, as the same mature, sinking fund payments, the purchase of such bonds of the agency, the payment of interest on such bonds of the agency, or the payment of any redemption premium required to be paid when such bonds are redeemed prior to maturity, provided, however, that moneys in any such fund shall not be withdrawn therefrom at any time in such amount as would reduce the amount of such fund to less than the debt service reserve fund requirement, except for the purpose of paying principal and interest on the bonds of the agency secured by such reserve fund maturing and becoming due and any sinking fund payments and for the payment of which other moneys of the agency are not available. Moneys in any debt service reserve fund not required for immediate use or disbursement, at the discretion of the agency may be invested in any investments approved or authorized in accordance with the provisions of section ninety-eight of the state finance law. In computing the amount of any debt service reserve fund for the purposes of this section, securities in which all or a portion of such fund are invested shall be valued at par if purchased at par, or if purchased at other than par, at amortized value. The agency shall not issue bonds at any time if upon issuance, the amount in the debt service reserve fund securing such bonds will be less than the debt service reserve fund requirement, unless the agency, at the time of issuance of such bonds, shall deposit in such reserve fund from the proceeds of the bonds so to be issued, or otherwise, an amount which, together with the amount then in such reserve fund, will be not less than the debt service reserve fund requirement.

Any excess in any debt service reserve fund at the close of any fiscal year of the agency over the debt service reserve fund requirement may be transferred to any other fund or account of the agency as the agency may determine.

§ 2440. Remedies of bondholders and noteholders. (1) In the event that the agency shall default in the payment of principal or of interest on any issue of bonds or notes after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the agency shall fail or refuse to comply with the provisions of this title, or shall default in any agreement made with the holders of any issue of bonds or notes, the holders of twenty-five per centum in aggregate principal amount of the bonds or notes of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county in which the principal office of the agency is located, and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds or notes for the purposes herein provided.

(2) Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds or notes then outstanding shall, in his or its own name.

(a) enforce all rights of the bondholders or noteholders, including the right to require the agency to collect interest and principal payments on the bonds held by it adequate to carry out any agreement as to, or pledge of, such interest and principal payments, and to require the agency to carry out any other agreements with the holders of such bonds or notes and to perform its duties under this title:

(b) bring suit upon such bonds or notes:

(c) by action or suit, require the agency to account as if it were the trustee of an express trust for the holders of such bonds or notes:

(d) by action or suit, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds or notes:

(e) declare all such bonds or notes due and payable and if all defaults shall be made good then with the consent of the holders of twenty-five per centum of the principal amount of such bonds or notes then outstanding, to annul such declaration and its consequences.

(3) Such trustee shall in addition to the foregoing have and possess all the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

(4) Before declaring the principal of bonds or notes due and payable, the trustee shall first give thirty days' notice in writing to the governor, to the agency and to the attorney general of the state.

(5) The supreme court shall have jurisdiction of any suit, action or proceeding by the trustee on behalf of bondholders or noteholders. The venue of any such suit, action, or proceeding shall be laid in the county in which the principal office of the agency is located.

(6) The remedies granted by this section shall not apply to tax lien collateralized securities. The remedies available to the holders of such securities shall be expressly limited to those set forth in the contract with the owners of such securities.

§ 2441. State and municipalities not liable on bonds and notes. The bonds, notes, tax lien collateralized securities and other obligations of the agency and its tax lien entity shall not be a debt of the state of New York or of any municipality, and neither the state nor any municipality shall be liable thereon, nor shall they be payable out of any funds other than those of the agency pledged therefor and such bonds, notes, tax lien collateralized securities and other obligations shall contain on the face thereof a statement to such effect.

§ 2442. Agreement of the state. (1) The state of New York does hereby pledge to and agree with the holders of any bonds, notes or tax lien collateralized securities issued under this title that the state will not limit or alter the rights hereby vested in the agency to fulfill the terms of any agreements made with the holders thereof, or in any way impair the rights and remedies of such holders until such bond, notes or tax lien collateralized securities together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of such holders, are fully met and discharged. The agency is authorized to include this pledge and agreement of the state in any agreement with the holders of such bonds, notes or tax lien collateralized securities. Nothing contained in this title shall be deemed to restrict any right of the state to amend, modify, repeal or otherwise alter (a) any provision of law relating to state aid, or (b) statutes imposing or relating to taxes or fees, or (c) appropriations relating thereto.

(2) The agency shall not include within any resolution, contract or agreement with holders of the bonds, notes or other obligations issued under this title any provision which provides that a default occurs as a result of the state exercising its right to amend, modify, or repeal or otherwise alter (a) any provision of law relating to state aid; or (b) statutes imposing or relating to taxes or fees, or (c) appropriations relating thereto. Nothing in this title shall be deemed to obligate the state to make any payments or impose any taxes to satisfy the debt service obligations of the agency.

§ 2443. Property and income. The property of the agency and its income and operations shall be exempt from taxation or assessments of every kind and nature, nor shall the agency be required to pay any recording fee or transfer tax of any kind on account of instruments recorded by it or on its behalf.

§ 2444. Exemption from taxation of bonds, notes and tax lien collateralized securities. It is hereby determined that the creation of the agency is in all respects for the benefit of the people of the state, for the improvement of their health and welfare, and for the promotion of the economy, and that said purposes are public purposes and the agency will be performing an essential governmental function in the exercise of the powers conferred upon it by this title, and the state covenants with the purchasers and all subsequent holders and transferees of bonds, notes, and tax lien collateralized securities issued by the agency and its tax lien entity, in consideration of the acceptance of and payment for the bonds, notes, and tax lien collateralized securities that the bonds, notes and tax lien collateralized securities of the agency, and its tax lien entity, issued pursuant to this title and the income therefrom and all its fees, charges, gifts, grants, revenues, receipts, and other moneys received or to be received, pledged to pay or secure the payment of such bonds, notes or tax lien collateralized securities shall at all times be free from taxation, except for estate or gift taxes and taxes on transfers.

§ 2445. Bonds and notes as legal investments for public officers and fiduciaries. The bonds and notes of the agency are hereby made securities in which all public officers and bodies of this state and all municipalities and municipal subdivisions, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, all administrators, guardians, executors, trustees and other fiduciaries, and all other persons whatsoever who are now or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them. The bonds and notes are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities and municipal subdivisions for any purpose for which the deposit of bonds or other obligations of this state is now or may hereafter be authorized.

§ 2446. Moneys of the agency. (1) Subject to any agreement with bondholders or noteholders or except as otherwise authorized or provided in this act, all moneys of the agency from whatever source derived shall be paid to the comptroller of the agency and shall be invested in any investments approved or authorized in accordance with the provisions of section ninety-eight of the state finance law. The moneys in such accounts shall be paid by the comptroller or other agent duly designated by the agency on requisition of the chairman of the agency or of such other person or persons as the agency may authorize to make such requisitions. All deposits of such moneys, shall, if required by the agency, be secured by (i) obligations of the United States of America or of the state of a market value equal at all times to the amount of the deposit and all banks and trust companies are authorized to give such security for such deposits or (ii) in such other manner as the agency may require. The obligations securing such deposits shall either be deposited with the comptroller of the agency or be held by a trustee or agent satisfactory to the agency. The comptroller or his legally authorized representatives are authorized and empowered from time to time to examine the accounts and books of the agency, including its receipts, disbursements, contracts, leases, sinking funds, investments and any other records and papers relating to its financial standing.

(2) The agency shall have power to contract with holders of any of its bonds or notes, as to the custody, collection, securing, investment, and payment of any moneys of the agency, of any moneys held in trust or otherwise for the payment of bonds or notes, and to carry out such contract. Moneys held in trust or otherwise for the payment of bonds or notes or in any way to secure bonds or notes and deposits of such moneys may be secured in the same manner as moneys of the agency, and all banks and trust companies are authorized to give such security for such deposits.

(3) Subject to the provisions of any contract with bondholders or noteholders and to the approval of the comptroller, the agency shall prescribe a system of accounts.

(4) The agency shall submit to the governor, chairman of the senate finance committee, chairman of the assembly ways and means committee and the comptroller, within thirty days of the receipt thereof by the agency, a copy of the report of every external examination of the books and accounts of the agency other than copies of the reports of such examinations made by the comptroller.

§ 2447. Actions. In any case founded upon tort a notice of claim shall be required as a condition precedent to the commencement of an action or special proceeding against the agency or any officer, appointee or employee thereof, and the provisions of section fifty-e of the general municipal law shall govern the giving of such notice.

Except in an action for wrongful death, no action shall be commenced (a) prior to the expiration of thirty days from the date on which the demand, claim or claims upon which the action is founded were presented to a director of the agency or other officer thereof designated for such purpose nor (b) more than one year and ninety days after the cause of action therefor shall have accrued. An action against the agency for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

§ 2448. Limitation of liability. Neither the members of the agency, nor any person or persons acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from carrying out any of the powers expressly given in this act.

§ 2449. Assistance by state officers, departments, boards and commissions. All officers, departments, boards, agencies, divisions and commissions of the state may render any services to the agency as are within the area of their respective governmental functions as fixed by law and as may be requested by the agency and shall comply promptly with any reasonable request by the agency as to the making of any study or review as to desirability, need, cost or expense with respect to any public project, purpose or improvement, or the financial feasibility thereof or the financial or fiscal responsibility or ability in connection therewith of any (a) municipality making application for loan to the agency and for the purchase by the agency of municipal bonds to be issued by that municipality, or (b) any special program municipality making application for the benefit of proceeds of special program bonds to be issued by the agency.

§ 2450. Annual report. The agency shall submit to the governor, the chairman of the senate finance committee, the chairman of the assembly ways and means committee, the comptroller and the director of the budget within six months after the end of its fiscal year, a complete and detailed report setting forth: (1) its operations and accomplishments; (2) its receipts and expenditures during such fiscal year in accordance with the categories or classifications established by the agency for its operating and capital outlay purposes, including a listing of all private consultants engaged by the agency on a contract basis and a statement of the total amount paid to each such private consultant; (3) its assets and liabilities at the end of its fiscal year, including a schedule of the municipal bonds held and the status of reserve, special or other funds; and (4) a schedule of its bonds and notes outstanding at the end of its fiscal year, together with a statement of the amounts redeemed and incurred during such fiscal year.

§ 2451. Court proceedings; preferences; venue. Any action or proceeding to which the agency or the people of the state of New York may be parties, in which any question arises as to the validity of this act, shall be preferred over all other civil causes except election causes in all courts of the state of New York and shall be heard and determined in preference to all other civil business pending therein except election causes, irrespective of position on the calendar. The same preference shall be granted upon application of counsel to the agency in any action or proceeding questioning the validity of this title in which he may be allowed to intervene. The venue of any such action or proceeding shall be laid in the county in which the principal office of the agency is located.

§ 2452. Inconsistent provisions of other laws superseded. Insofar as the provisions of this title are inconsistent with the provisions of any other law, general, special or local, the provisions of this title shall be controlling.

§ 2453. Construction. This title, being necessary for the welfare of the state and its inhabitants, shall be liberally construed so as to effectuate its purposes.

§ 2454. Separability. If any clause, sentence, paragraph, section or part of this title shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not effect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or part thereof directly involved in the controversy in which such judgment shall have been rendered.

* TITLE 19

NEW YORK STATE SPORTS AUTHORITY

* NB (Disbanded March, 1980)

*** § 2460. Short title.** This title may be cited as the New York state sports authority act.
* NB (Disbanded March, 1980)

*** § 2461. Legislative findings.** It is hereby found, determined and declared that there is an immediate need to promote the further development of recreational opportunities in the state by facilitating the acquisition, construction and rehabilitation of sports complexes, stadiums, arenas and related facilities for the holding of professional and amateur athletic events; to provide a means to attract and locate major professional team franchises in the state. It is further declared it is desirable that a state sports authority be created for the purpose of providing and maintaining such sports facilities and the creation and maintenance of facilities incidental or useful in the operation of sports facilities. It is hereby further declared that the corporate purposes and powers conferred under this title and the expenditure of public moneys pursuant thereto constitute a serving of a valid public purpose.
* NB (Disbanded March, 1980)

*** § 2462. Definitions.** As used or referred to in this title, unless a different meaning clearly appears from the context:

1. The term "state" shall mean the state of New York;

2. The term "authority" shall mean the corporate body created by section two thousand four hundred sixty-three of this title;

3. The terms "bonds and notes" shall mean the bonds and notes authorized in this title;

4. The term "participating municipality" shall mean any public benefit corporation, city, county, town, village or any combination thereof exercising its powers throughout the political subdivision in which a sports facility is or is proposed to be located, which submits a plan pursuant to the provisions of section twenty-four hundred sixty-five of this title or which joins in the submission of such plan with such a municipality or corporation;

5. The term "sports facility" shall mean a sports complex, stadium, or arena and other related facilities suitable for the holding of athletic or sporting events, including parking therefor;

6. The "comptroller" shall be the comptroller of the state;

7. The "commissioner of taxation and finance" shall be the commissioner of taxation and finance of the state;

8. The term "state aid" shall mean any moneys payable by the comptroller to any participating municipality pursuant to section fifty-four of the state finance law and section one hundred twelve of the highway law;

9. The term "amortized value" shall mean that for securities purchased at a premium above or a discount below par, the value as of any given date obtained by dividing the total amount of the premium or discount at which such securities were purchased by the number of days remaining to maturity on such securities at the time of such purchase and by multiplying the amount so calculated by the number of days having passed since the date of such purchase; and (a) in the case of securities

purchased at a premium, by deducting the product thus obtained from the purchase price, and (b) in the case of securities purchased at a discount, by adding the product thus obtained to the purchase price.
* NB (Disbanded March, 1980)

*** § 2463. New York state sports authority.** 1. For the purpose of effectuating the policy declared in section twenty-four hundred sixty-one of this chapter, there is hereby created a corporate instrumentality of the state to be known as "New York state sports authority" in this title referred to as "the authority", which shall be a body corporate and politic constituting a public benefit corporation. The authority shall consist of five members to be appointed by the governor, by and with the advice and consent of the senate. Of the members first appointed, one shall serve for a term ending April first, nineteen hundred seventy-four; one of such members shall serve for a term ending one year from such date; one of such members shall serve for a term ending two years from such date; one of such members shall serve for a term ending three years from such date; and one of such members shall serve for a term ending four years from such date. Their successors shall serve for terms of five years each. Each member shall hold office until his successor has been appointed and qualified. The governor shall designate one of the members to be chairman who shall be the chief executive officer of the authority.

2. The chairman and the other members shall receive compensation within the amounts made available by appropriation therefor. Each member, including the chairman, shall be entitled to reimbursement for his actual and necessary expenses incurred in the performance of his official duties.

3. The chairman shall be the chief executive officer of the authority and shall be responsible for the discharge of the executive and administrative functions and powers of the authority, but he shall be empowered to delegate any one or more of such functions or powers, including, without limitations, that of appointment, discipline and removal of officers or employees, to one or more executive officers

appointed by the board.

4. The authority shall be a "state agency" for the purposes of sections seventy-three and seventy-four of the public officers law.

5. Notwithstanding any inconsistent provisions of this or any other law, general, special or local, no officer or employee of the state, or of any public corporation as defined in the general corporation law, shall be deemed to have forfeited or shall forfeit his office or employment or any benefits provided under the retirement and social security law or under any public retirement system maintained by the state or any of its subdivisions by reason of his acceptance of membership on or chairmanship of the authority; provided, however, a member or chairman who holds such other public office or employment shall receive no additional compensation for services rendered pursuant to this title, but shall be entitled to reimbursement for his actual and necessary expenses incurred in the performance of such services.

6. The governor may remove any member for inefficiency, neglect of duty or misconduct in office after giving him a copy of the charges against him and an opportunity to be heard, in person or by counsel in his defense, upon not less than ten days' notice. If any member shall be so removed, the governor shall file in the office of the department of state a complete statement of charges made against such member, and his findings thereon, together with a complete record of the proceedings.

7. The authority shall continue so long as it shall have bonds or other obligations outstanding and until its existence shall be terminated by law. Upon the termination of the existence of the authority, all its rights and properties shall pass to and be vested in the state.

* NB (Disbanded March, 1980)

*** § 2464. General powers of the authority.** Except as otherwise limited by this title, the authority shall have power:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To acquire, hold and dispose of personal property for its corporate purposes, including the power to purchase prospective or tentative awards in connection with the appropriation of real property;

4. To acquire, in the name of the authority, by purchase or appropriation, real property or rights or easements therein necessary or convenient for its corporate purposes, and, except as may otherwise be provided herein, to use the same so long as its corporate existence shall continue;

5. To make and alter by-laws for its organization and internal management, and rules and regulations governing the exercise of its powers and the fulfillment of its purposes under this title;

6. To appoint such officers and employees as it may require for the performance of its duties, and to fix and determine their qualifications, duties, and compensation and to retain or employ counsel, auditors, engineers, architects and private consultants on a contract basis or otherwise for rendering professional or technical services and advice;

7. To make contracts and leases, and to execute all instruments necessary or convenient;

8. To examine and approve all leases and agreements of a participating municipality, relating to the sports facility;

9. To acquire, construct, reconstruct, construct additions to, improve, maintain and operate sports facilities including, but not limited to, buildings, structures, parking and other facilities ancillary or appurtenant to such sports facilities as may be necessary or convenient until responsibility therefor may be transferred to the participating municipality;

10. To contract for and to accept any gifts or grants or loans of funds or property or financial or other aid in any form from the federal government or any agency or instrumentality thereof, or from the state or any agency or instrumentality thereof, or from any other source, public or private, and to comply, subject to the provisions of this title, with the terms and conditions thereof;

11. To fix and collect any payments, fees and other charges for the use of the sports facility subject to and in accordance with such agreements with bondholders as may be made as hereinafter provided;

12. To borrow money and issue negotiable bonds and notes or other obligations and to provide for and secure the payment thereof and to provide for the rights of the holders thereof;

13. To invest any funds held in reserve or sinking funds, or any moneys not required for immediate use or disbursement, at the discretion of the authority, in (a) obligations of the state or the United States government, its agencies and instrumentalities, (b) obligations the principal and interest of which are guaranteed by the state or the United States government, (c) certificates of deposit of banks or trust companies in this state, secured, if the authority shall so require, by obligations of the United States or of the state of New York of a market value equal at all times to the amount of the deposit, and (d) as to the said reserve and sinking funds, other securities in which the trustee or trustees of any public retirement system or pension fund has the power to invest the moneys thereof pursuant to article four-a of the retirement and social security law, each such reserve and sinking fund being treated as a separate fund for the purposes of the said article four-a of the retirement and social security law;

14. To make plans, surveys, and studies necessary, convenient or desirable to the effectuation of the purposes and powers of the authority and to prepare recommendations in regard thereto;

15. To enter upon such lands, waters or premises as in the judgment of

the authority may be necessary, convenient or desirable for the purpose of making surveys, soundings, borings and examinations to accomplish any purpose authorized by this title, the authority being liable for actual damage done;

16. To do all things necessary, convenient or desirable to carry out its purposes and for the exercise of the powers granted in this title.

Notwithstanding the foregoing provisions of this section, no power granted under this title shall be exercised by the authority without the prior submission of a plan to it by a participating municipality in accordance with the provisions of section twenty-four hundred sixty-five hereof.

* NB (Disbanded March, 1980)

*** § 2465. Plans for sports facilities.** Any participating municipality may by resolution of its governing body or in the case of the city of New York, the board of estimate, prepare and submit a plan to the authority for the acquisition, construction, improvement or modernization of a sports facility. Such a plan may be jointly sponsored by any number of participating municipalities. After submission of a plan by one or more participating municipalities for a sports facility, the authority shall conduct a comprehensive evaluation study concerning the request, including but not limited to the amateur and professional team interest in the facility, potential local support, economic feasibility, the possibilities of multi-purpose use and the availability of land, transportation and ancillary facilities.

* NB (Disbanded March, 1980)

*** § 2466. The acquisition of real property.** 1. The authority may from time to time determine what real property is necessary for the construction, improvement and operation of a sports facility and for parking and access thereto. If funds are made available by the authority for payment of the cost and expense of the acquisition thereof, the commissioner of transportation when requested by the authority shall acquire such real property in the name of the state by appropriation, and, when necessary, remove the owner or occupant thereof and obtain possession for the authority according to the procedure provided by section three hundred forty-seven of the highway law. The authority shall have the right to possess and use for its corporate purposes so long as its corporate existence shall continue all such real property and rights in real property so acquired.

2. Claims for the value of the property appropriated and for legal damages caused by any such appropriation shall be adjusted and determined by the commissioner of transportation with the approval of the authority, or by the court of claims as provided in said section three hundred forty-seven of the highway law. When a claim has been filed with the court of claims, the claimant shall cause a copy of such claim to be served upon the authority and the authority shall have the right to be represented and heard before said court. All awards and judgments arising from such claims shall be paid out of moneys of the authority.

3. The authority may also, and in any case, acquire real property in the name of the authority by deed and may pay such price therefor as shall be agreed with the owner thereof.

4. A participating municipality may, by resolution of its governing body or in the case of the city of New York, the board of estimate, convey by deed, with or without consideration, to the authority for so long as its corporate existence shall continue, any lands owned by the municipality. In the event the authority shall determine the land is excess and is no longer required for authority purposes, it shall reconvey the property with any improvements thereon to the municipality.

5. After consultation with the participating municipality, the authority shall, in constructing, reconstructing, rehabilitating, altering or improving any project, comply with the requirements of local laws, ordinances, codes, charters or regulations applicable to such construction, reconstruction, rehabilitation, alteration or improvement, provided, however, that when, in the discretion of the authority, such

compliance is not feasible or practicable, the authority shall comply with the requirements of the state building code, formulated by the state building code council pursuant to article eighteen of the executive law, applicable to such construction, reconstruction, rehabilitation, alteration or improvement.

6. (a) All contracts for the construction, reconstruction, rehabilitation or improvement of buildings or structures let by the authority shall comply with the applicable provisions of section one hundred thirty-five of the state finance law. The authority in preparing separate specifications may provide for assignment of responsibility for coordination of any of the contracts for such work to a responsible person, firm or corporation.

(b) The authority shall not award any construction contract except to the lowest bidder who in its opinion is qualified to perform the work required and is responsible and reliable. The authority may, however, reject all bids or waive any informality in a bid if it believes that the public interest will be promoted thereby. The authority may reject any bid if in its judgment the business and technical organization, plant, resources, financial standing or experience of the bidder, compared with the work to be performed, justifies such rejection.

(c) Any construction contract awarded by the authority shall contain such other terms and conditions, and such provisions for penalties, as the authority may deem desirable.

* NB (Disbanded March, 1980)

*** § 2467. Bond and note authorization.** 1. The authority shall have the power and is hereby authorized to issue from time to time its negotiable bonds and notes in conformity with applicable provisions of the uniform commercial code in such principal amounts as the authority shall determine to be necessary to provide sufficient funds for achieving any of its corporate purposes, including the payment of all or any part of the cost of acquiring, constructing, reconstructing, constructing additions to, improving, maintaining and operating sport facilities, including but not limited to buildings, structures, parking and other facilities ancillary or appurtenant to such sports facilities, the payment of interest on bonds and notes of the authority, the establishment of reserves to secure such bonds and notes of the authority and the payment of all other expenditures, including operating expenses, of the authority incident to or necessary or convenient to carry out its corporate purposes and powers.

2. The authority shall have the power to issue from time to time (i) notes to renew notes and (ii) bonds to pay notes, including the interest thereon and redemption premium, if any, and, whenever it deems refunding expedient, to refund any bonds of the authority then outstanding, whether the bonds to be refunded have or have not matured, including the payment of any redemption premium thereon and any interest accrued or to accrue to the earliest or subsequent date of redemption, purchase or maturity of such bonds, by the issuance of new bonds, and, if deemed advisable by the authority, to issue bonds partly to refund bonds then outstanding and partly for any of its corporate purposes. The refunding bonds may be exchanged for the bonds to be refunded or sold and the proceeds applied to the purchase, redemption or payment of such bonds. Pending such purchase, redemption or payment, such proceeds may be invested and reinvested in obligations of or guaranteed by the United States of America, or in obligations of agencies of the United States of America, secured in such manner as the authority shall determine, maturing at such time or times as shall be appropriate to assure the prompt payment, as to principal, interest and redemption premium, if any, on the outstanding bonds to be refunded. The interest and earned increment, if any, resulting from any such investment, may also be applied to the purchase, redemption or payment of the outstanding bonds to be so refunded and any balance remaining upon completion of the purchase, redemption or payment of all such outstanding bonds shall be returned to the authority for use by it in any lawful manner.

3. No bonds or notes of the authority shall be issued if upon such issuance the aggregate principal amount of bonds and notes of the authority then outstanding exceeds three hundred fifty million dollars, provided that such statutory maximum principal amount shall not be construed as constituting a contract between the authority and the holders of its bonds or notes that additional bonds or notes may not be

issued subsequently by the authority in the event that such statutory maximum shall be increased subsequently by law and provided further that, in determining such aggregate principal amount there shall be deducted (i) all sums then available for the payment of such bonds or notes either at maturity or through the operation of a sinking fund; (ii) the aggregate principal amount of outstanding bonds issued (a) to refund notes and (b) to refund bonds theretofore issued and then outstanding; and (iii) the aggregate principal amount of outstanding notes issued to renew notes theretofore issued and then outstanding.

4. The issuance of bonds and notes by the authority shall be authorized by resolution or resolutions of the authority without further authorization or approval, which resolution or resolutions shall be a part of the contract with the holders of the bonds or notes thereby authorized and may contain provisions as to:

(a) pledging all or any part of the moneys, earnings, income and revenues derived from the project to secure the payment of the bonds or of any issue of the bonds, subject to such agreements with bondholders as may then exist;

(b) the payments, fees or other charges to be fixed, established and collected and the amounts to be raised in each year thereby, and the use and disposition of the moneys, earnings, income and other revenues;

(c) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(d) limitations on the right of the authority to restrict and regulate the use of a sports facility or sports facilities;

(e) limitations on the purposes to which and the manner in which the proceeds of sale of any bonds or any issue of bonds may be applied;

(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured; and the refunding of outstanding bonds or other bonds;

(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) the creation of special funds into which any earnings or revenues of the authority may be deposited;

(i) the terms and provisions of any mortgage or trust deed or indenture securing the bonds or under which the bonds may be issued;

(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders pursuant to section twenty-four hundred seventy-five of this title, and limiting or abrogating the right of the bondholders to appoint a trustee under such section or limiting the rights, powers and duties of such trustee;

(k) defining the acts or omissions to act which shall constitute a default in the obligations and duties of the authority to the bondholders and providing the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of this state and other provisions of this title;

(l) limitations on the power of the authority to sell or otherwise dispose of its properties;

(m) limitations on the amount of moneys derived from a sports facility or sports facilities to be expended for operating, administrative and other expenses of the authority;

(n) the protection and enforcement of the rights and remedies of the bondholders;

(o) the obligations of the authority in relation to the construction, maintenance, operation, repairs and insurance of a sports facility or sports facilities and the safeguarding and application of all moneys;

(p) the payment of the proceeds of bonds and revenues of a sports facility or sports facilities to a trustee or other depositary, and for the method of disbursement thereof and such safeguards and restrictions as the authority may determine;

(q) any other matters, of like or different character which may in any way affect the security or protection of the bonds.

* NB (Disbanded March, 1980)

*** § 2468. Bonds and notes of the authority.** 1. All bonds and notes issued by the authority may be secured by the full faith and credit of the authority subject only to any agreements with the holders of particular bonds pledging any particular revenues or moneys of the authority, all as may be provided in the proceedings of the authority pursuant to which the bonds or notes shall be authorized to be issued.

2. Bonds and notes issued by the authority shall bear such date or dates and shall mature at such time or times as shall be provided by any such resolution of the authority, except that no note or any renewal thereof shall mature more than five years from the date of the original note and no bond shall mature more than forty years from the date of its issue.

3. Bonds may be issued in one or more series as serial bonds payable in annual installments or as term bonds or as a combination thereof. Bonds and notes shall bear interest at such rate or rates, be in such denominations, be in such form either payable to bearer with coupons or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment, at such place or places within or without the state, and be subject to such terms of redemption, with or without premium, as may be provided by any such resolution of the authority. Any signature, manual or facsimile, of an officer of the authority appearing on bonds or notes or coupons shall be valid and sufficient for all purposes whether or not such officer shall then be in office. The authority may also provide for the authentication of the bonds or notes by a trustee or fiscal agent.

4. The resolution authorizing the issuance of any bonds or notes may provide that such bonds and notes may be payable at such place or places, within or without the state, may bear interest at such rate or rates, may be payable at such time or times, may be in such form and evidenced in such manner, and may contain such other provisions not inconsistent herewith, including provisions as to reserve or sinking funds, security for the payment of bonds or notes, redemption or refunding of bonds or notes, events of default, remedies of bondholders or noteholders, appointment of trustees or fiscal agents, custody, collection, securing, investment and payment of any money of the authority and amendment or abrogation of such provisions, all as the

authority shall determine.

5. Any bonds or notes of the authority may be sold at such price or prices, at public or private sale, in such manner and from time to time as may be determined by the authority, and the authority may pay all expenses, premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale thereof. No bonds or notes of the authority may be sold at private sale, however, unless such sale and the terms thereof have been approved in writing by (i) the comptroller of the state of New York where such sale is not to such comptroller, or (ii) the state director of the budget where such sale is to such comptroller.

6. The authority may issue one or more series of bonds or notes whether in connection with or secured by the same or a different project or portion thereof except as may otherwise be provided in the proceedings under which such bonds or notes shall be authorized to be issued.

7. Neither the members, directors, officers or employees of the authority nor any person executing the bonds or notes of the authority shall be liable personally on the bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

8. Issuance by the authority of one or more series of bonds or notes for one or more purposes shall not preclude it from issuing other bonds or notes in connection with the same sports facility or any other sports facility, but the proceedings whereunder any subsequent bonds or notes may be issued shall recognize and protect any prior pledge or lease made for any prior issue of bonds or notes unless in the proceedings authorizing such prior issue the right is reserved to issue subsequent bonds or notes on a parity with such prior issue.

9. All bonds or notes authorized under this section and the interest coupons applicable thereto are hereby made and shall be construed to be negotiable instruments.

10. The authority shall have power out of any funds available therefor to purchase (as distinguished from the power of redemption herein provided) any bonds or notes of the authority, and all bonds so purchased shall be cancelled.
* NB (Disbanded March, 1980)

*** § 2469. Security for bonds or notes; construction and acquisition of sports facilities.** 1. The principal of and interest on any bonds or notes issued by the authority may be secured by a pledge of any revenues and receipts of the authority and may be secured by a lease or other instrument covering all or any part of a sports facility, including any additions, improvements, extensions to or enlargements of any sports facilities thereafter made.

2. Bonds or notes issued for the acquisition, construction, reconstruction, construction of additions to, rehabilitation, or improvement of a sports facility may also be secured by an assignment of any lease of such sports facility and by an assignment of the revenues and receipts derived by the authority from any such lease.

3. Each pledge, agreement, mortgage or other instrument made for the benefit or security of any of the bonds or notes of the authority shall continue effective until the principal of and interest on the bonds or notes for the benefit of which the same were made shall have been fully paid, or until provisions shall have been made for such payment in the manner provided in the resolution or resolutions under which the same may be authorized.

4. The authority may provide in any proceedings under which bonds or notes may be authorized that any sports facility or part thereof may be constructed, reconstructed, rehabilitated or improved by the authority, or any participating municipality, and may also provide in such proceedings for the time and manner of and requisites for disbursements to be made for the cost of such construction, and for all such certificates and approvals of construction and disbursements as the authority shall deem necessary and provide for in such proceedings.

5. Any pledge of earnings, revenues or other moneys made by the authority shall be valid and binding from the time when the pledge is made; that the earnings, revenues or other moneys so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and that the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

6. In the discretion of the authority, the bonds may be secured by a trust indenture by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company in the state of New York. Such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the acquisition, construction, reconstruction, construction of additions to, improvement and maintenance and operation, repair and insurance of the sports facilities, and the custody, safeguarding and application of all moneys. The authority may provide by such trust indenture for the payment of the proceeds of the bonds and the revenues of the project to the trustee under such trust indenture or other depository, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out such trust indenture may be treated as a part of the cost of maintenance, operation and repairs of the project. If the bonds shall be secured by a trust indenture the bondholders shall have no authority to appoint a separate trustee to represent them.

* NB (Disbanded March, 1980)

*** § 2470. Resources of authority.** 1. The authority may receive, accept, invest, administer, expend and disburse for its corporate purposes appropriations from the capital construction fund and the state purposes fund of the state, payments made to it by participating municipalities, and other revenues and moneys made available or to be made available to it from any or all sources for the construction, acquisition, reconstruction, rehabilitation and improvement of sports facilities, including gifts, grants and loans from the federal government, any state agency, any county, city, town or village, any private foundation, organization or individual, or any other source.

2. All moneys of the authority, other than appropriations and except as otherwise authorized or provided herein, shall be paid to the commissioner of taxation and finance as agent of the authority, who shall not commingle such moneys with any other moneys. Such moneys shall be deposited in two or more separate bank accounts, and one of such accounts, to which shall be credited all income from investments or other accounts and all other moneys received or to be received annually by the authority on a recurring basis, shall be denominated the "sports facilities income fund account". The moneys in such fund account shall be paid out on checks signed by the commissioner of taxation and finance on requisition of the chairman of the authority or such other officer or employee or officers or employees as the authority shall authorize to make such requisition. All deposits of such moneys shall, if required by the commissioner of taxation and finance or the authority, be secured by obligations of the United States or of the state of a market value equal at all times to the amount of the deposit and all banks and trust companies are authorized to give such security for such deposits.

3. Any such moneys of the authority not required for immediate use may, at the discretion of the authority, be invested by the commissioner of taxation and finance in obligations of the United States or the state or obligations the principal and interest of which are guaranteed by the United States or the state.

4. The comptroller, or his legally authorized representative is hereby authorized and empowered from time to time to examine the books and accounts of the authority including its receipts, disbursements, contracts, reserve funds, investments, and any other matters relating to its financial standing. Such an examination shall be conducted by the

comptroller at least once in every five years; the comptroller is authorized, however, to accept from the authority, in lieu of such an examination, an external examination of its books and accounts made at the request of the authority.

* NB (Disbanded March, 1980)

*** § 2471. Lease agreements.** 1. Any agreement entered into between the authority and a participating municipality may provide for (i) the construction, acquisition, reconstruction, rehabilitation or improvement of one or more sports facilities, and (ii) the leasing thereof and of the land upon which the same is erected and upon completion of construction, acquisition, reconstruction, rehabilitation or improvement for a term not exceeding forty years and upon such terms and conditions including annual lease rental as may be agreed upon.

2. The participating municipality shall make payments to the authority subject to local appropriation therefor in accordance with the leasing agreement entered into pursuant to subdivision one of this section. The authority may pledge or assign any or all moneys in the sports facilities income fund account and in any rental reserve account established pursuant to section twenty-four hundred seventy-two of this title and any or all moneys which may be in either or both such accounts in the future, whether equal to or in excess of the amount of such payments due or becoming due in any year, and any or all right, title and interest of the authority in and to the moneys in or to be deposited in such fund accounts.

3. The attorney general shall pass upon the form and sufficiency and manner of execution of any lease agreement entered into pursuant to this section and the same shall not be effective unless so approved by him.

4. The state shall not be liable for any payments payable to the authority by a participating municipality pursuant to the terms of a lease agreement entered into pursuant to this section and such agreement shall contain among its terms a statement to such effect.

* NB (Disbanded March, 1980)

* **§ 2472. Reserve fund.** 1. The authority may create and establish one or more reserve funds to be known as debt service reserve funds and may pay into such reserve funds (a) any payments received from a participating municipality (b) any moneys appropriated and made available by the state for the purposes of such funds (c) any proceeds of sale of bonds and notes to the extent provided in the resolution of the authority authorizing the issuance thereof (d) any moneys directed to be transferred by the authority to such funds, and (e) any other moneys which may be made available to the authority for the purposes of such funds from any other source or sources. The moneys held in or credited to any debt service reserve fund established under this subdivision, except as hereinafter provided, shall be used solely for the payment of the principal of and interest on bonds of the authority secured by such reserve fund, as the same mature, required payments to any sinking fund established for the amortization of such bonds (hereinafter referred to as "sinking fund payments"), the purchase or redemption of such bonds of the authority or the payment of any redemption premium required to be paid when such bonds are redeemed prior to maturity; provided, however, that moneys in any such fund shall not be withdrawn therefrom at any time in such amount as would reduce the amount of such fund to less than the maximum amount of principal and interest maturing and becoming due in the then current or any succeeding calendar year on the bonds of the authority then outstanding and secured by such reserve fund, except for the purpose of paying principal and interest on the bonds of the authority secured by such reserve fund maturing and becoming due and sinking fund payments for the payment of which other moneys of the authority are not available. Any income or interest earned by, or increment to, any such debt service reserve fund due to the investment thereof may be transferred to any other fund or account of the authority to the extent it does not reduce the amount of such debt service reserve fund below the maximum amount of principal and interest maturing and becoming due in the then current or any succeeding calendar year on all bonds of the authority then outstanding and secured by such reserve fund. In computing the amount of any debt service reserve fund for the purposes of this section, securities in which all

or a portion of such reserve fund are invested shall be valued at par if purchased at par or, if purchased at other than par, at amortized value.

2. The authority shall not issue bonds at any time if the maximum amount of principal and interest maturing and becoming due in the then current or any succeeding calendar year on the bonds outstanding and then to be issued and secured by a debt service reserve fund will exceed the amount of such reserve fund at the time of issuance, unless the authority, at the time of issuance of such bonds, shall deposit in such reserve fund from the proceeds of the bonds so to be issued, or otherwise, an amount which together with the amount then in such reserve fund, will be not less than the maximum amount of principal and interest maturing and becoming due in the then current or any succeeding calendar year on the bonds then to be issued and on all other bonds of the authority then outstanding and secured by such reserve fund.

3. To assure the continued operation and solvency of the authority for the carrying out of the public purposes of this act, provision is made in subdivision one of this section for the accumulation in each debt service reserve fund of an amount equal to the maximum amount of principal and interest maturing and becoming due in the then current or any succeeding calendar year on all bonds of the authority then outstanding and secured by such reserve fund.

4. Upon full amortization of any outstanding bonds issued for the acquisition, construction or rehabilitation of sports facilities, the authority is empowered to provide for the transfer or sale of such facilities to the participating municipality.

* NB (Disbanded March, 1980)

*** § 2473. State aid guarantee; withholding thereof.** 1. In the event that a participating municipality fails to make its required payment, in whole or in part, to the authority, the chairman of the authority shall certify to the comptroller that such municipality has failed to meet its obligations. Such certificate shall be in such form as the authority deems desirable, but shall include the exact amount of payment required to satisfy such municipality's obligation to the authority.

2. The comptroller, upon receipt of such certificate from the authority, shall withhold from the city, county, town or village or, in the event the participating municipality is a public benefit corporation from the city, county, town or village on whose behalf such corporation was created, state aid payable to such city, county, town or village to the extent necessary to meet the required amount of payments. The comptroller shall immediately pay over to the sports facilities income fund account the amount so withheld.

* NB (Disbanded March, 1980)

*** § 2474. Extraordinary conditions provision.** In the event that a participating municipality fails to make its required payment in whole or in part, to the authority because of extraordinary conditions beyond the control of the participating municipality as determined by the authority, the chairman of the authority shall certify such conditions to the comptroller. The comptroller upon receipt of such certification from the authority shall withhold state aid in the same manner as set forth in section twenty-four hundred seventy-three in an amount not to exceed eighty per centum of the total required payment minus the amount paid by the municipality. The comptroller shall immediately pay over to the sports facilities income fund account the amount so withheld. In such cases, the authority shall provide for the outstanding amounts so due in an appropriate and timely manner.

* NB (Disbanded March, 1980)

*** § 2475. Remedies of bondholders and noteholders.** 1. In the event that the authority shall default in the payment of principal or of interest on any issue of bonds or notes after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title, or shall default in any agreement made with the holders of any issue of bonds or notes, the holders of twenty-five per centum in aggregate principal amount of the bonds or notes of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county in which the principal office of the authority is located, and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds or notes for the purposes herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds or notes then outstanding shall, in his or its own name:

(a) enforce all rights of the bondholders or noteholders, including the right to require the authority to collect interest and principal payments on the bonds held by it adequate to carry out any agreement as to, or pledge of, such interest and principal payments, and to require the authority to carry out any other agreements with the holders of such bonds or notes and to perform its duties under this title.

(b) bring suit upon such bonds or notes.

(c) by action or suit, require the authority to account as if it were the trustee of an express trust for the holders of such bonds or notes.

(d) by action or suit, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds or notes.

(e) declare all such bonds or notes due and payable and if all defaults shall be made good then with the consent of the holders of twenty-five per centum of the principal amount of such bonds or notes then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. Before declaring the principal of bonds or notes due and payable, the trustee shall first give thirty days' notice in writing to the governor, to the authority and to the attorney general of the state.

5. The supreme court shall have jurisdiction of any suit, action or

proceeding by the trustee on behalf of bondholders or noteholders. The venue of any such suit, action, or proceeding shall be laid in the county in which the principal office of the authority is located.

* NB (Disbanded March, 1980)

*** § 2476. State and municipalities not liable on bonds and notes.** The bonds, notes and other obligations of the authority shall not be a debt of the state of New York or of any municipality, and neither the state nor any municipality shall be liable thereon, nor shall they be payable out of any funds other than those of the authority.

* NB (Disbanded March, 1980)

*** § 2477. Agreement of the state.** The state of New York does hereby pledge to and agree with the holders of any bonds or notes issued under this title that the state will not limit or alter the rights hereby vested in the authority to fulfill the terms of any agreements made with the holders thereof, or in any way impair the rights and remedies of such holders until such bonds or notes together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of such holders, are fully met and discharged. The authority is authorized to include this pledge and agreement of the state in any agreement with the holders of such bonds or notes.

* NB (Disbanded March, 1980)

*** § 2478. Property and income.** The property of the authority and its income and operations shall be exempt from taxation, assessments or service charges of every kind and nature, and the authority shall not be required to pay any recording fee or transfer tax of any kind on account of instruments recorded by it or on its behalf.

* NB (Disbanded March, 1980)

*** § 2479. Exemption from taxation of bonds and notes.** It is hereby determined that the creation of the authority is in all respects for the benefit of the people of the state, for the improvement of their health and welfare, and for the promotion of the economy, and that said purposes are public purposes and the authority will be performing an essential governmental function in the exercise of the powers conferred upon it by this title, and the state covenants with the purchasers and all subsequent holders and transferees of bonds and notes issued by the authority, in consideration of the acceptance of and payment for the bonds and notes, that the bonds and notes of the authority, issued pursuant to this title and the income therefrom and all its fees, charges, gifts, grants, revenues, receipts, and other moneys received or to be received, pledged to pay or secure the payment of such bonds or notes shall at all times be free from taxation, except for estate or gift taxes and taxes on transfers.

* NB (Disbanded March, 1980)

*** § 2480. Bonds and notes as legal investments for public officers and fiduciaries.** The bonds and notes of the authority are hereby made securities in which all public officers and bodies of this state and all political subdivisions thereof, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, all administrators, guardians, executors, trustees and other fiduciaries, and all other persons who are now or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them. The bonds and notes are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all political subdivisions thereof for any purpose for which the deposit of bonds or other obligations of this state is now or may hereafter be authorized.

* NB (Disbanded March, 1980)

*** § 2481. Actions.** In any case founded upon tort a notice of claim shall be required as a condition precedent to the commencement of an action or special proceeding against the authority or any officer, appointee or employee thereof, and the provisions of section fifty-e of the general municipal law shall govern the giving of such notice.

Except in an action for wrongful death, no action shall be commenced (a) prior to the expiration of thirty days from the date on which the demand, claim or claims upon which the action is founded were presented to a director of the authority or other officer thereof designated for such purpose nor (b) more than one year after the cause of action therefor shall have accrued. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

* NB (Disbanded March, 1980)

*** § 2482. Limitation of liability.** Neither the members of the authority, nor any person or persons acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from carrying out any of the powers expressly given in this act.

* NB (Disbanded March, 1980)

*** § 2483. Assistance by state officers, departments, boards and commissions.** All officers, departments, boards, agencies, divisions and commissions of the state may render any services to the authority as are within the area of their respective governmental functions as fixed by law and as may be requested by the authority and shall comply promptly with any reasonable request by the authority as to the making of any study or review as to desirability, need, cost or expense with respect to any public project, purpose or improvement, or the financial feasibility thereof or the financial or fiscal responsibility or ability in connection therewith of any municipality making application for loan to the authority.

* NB (Disbanded March, 1980)

*** § 2484. Annual report.** The authority shall submit to the governor, the chairman of the senate finance committee, the chairman of the assembly ways and means committee, the comptroller and the director of the budget within six months after the end of its fiscal year, a complete and detailed report setting forth: (1) its operations and accomplishments; (2) its receipts and expenditures during such fiscal year in accordance with the categories or classifications established by the authority for its operating and capital outlay purposes, including a listing of all private consultants engaged by the authority on a contract basis and a statement of the total amount paid to each such private consultant; (3) its assets and liabilities at the end of its fiscal year, including the status of reserve, special or other funds; and (4) a schedule of its bonds and notes outstanding at the end of its fiscal year, together with a statement of the amounts redeemed and incurred during such fiscal year.

* NB (Disbanded March, 1980)

*** § 2485. Court proceedings; preferences; venue.** Any action or proceeding to which the agency or the people of the state of New York may be parties, in which any question arises as to the validity of this act, shall be preferred over all other civil causes except election causes in all courts of the state of New York and shall be heard and determined in preference to all other civil business pending therein except election causes, irrespective of position on the calendar. The same preference shall be granted upon application of counsel to the authority in any action or proceeding questioning the validity of this title in which he may be allowed to intervene. The venue of any such action or proceeding shall be laid in the county in which the principal office of the authority is located.

* NB (Disbanded March, 1980)

*** § 2486. Inconsistent provisions of other laws superseded.** Insofar as the provisions of this title are inconsistent with the provisions of any other law, general, special or local, the provisions of this title shall be controlling.

* NB (Disbanded March, 1980)

*** § 2487. Construction.** This title, being necessary for the welfare of the state and its inhabitants, shall be liberally construed so as to effectuate its purposes.

* NB (Disbanded March, 1980)

*** § 2488. Separability.** If any clause, sentence, paragraph, section or part of this title shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or part thereof directly involved in the controversy in which such judgment shall have been rendered.

* NB (Disbanded March, 1980)

TITLE 21

SARATOGA SPRINGS CITY CENTER AUTHORITY

§ 2490-a. Short title. This title may be cited as the "Saratoga Springs city center authority".

§ 2490-b. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. The term "authority" shall mean the corporation created by section twenty-four hundred ninety-c of this title;

2. The term "city" shall mean the city of Saratoga Springs, Saratoga county, New York;

3. The term "board" shall mean the members of the authority;

4. The term "mayor" shall mean the mayor of the city of Saratoga Springs;

5. The term "city council" shall mean the city council of the city of Saratoga Springs;

6. The term "bonds" shall mean the bonds and where applicable, the notes authorized in this title;

7. The term "real property" shall mean lands, including air and subsurface rights and lands under water, structures, franchises and interests in lands and any and all things usually included within the said terms, including not only fees simple absolute but also any and all lesser interests, such as easements, rights of way, uses, leases,

licenses, and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms of years, and liens thereon by way of judgments, mortgages or otherwise, and also claims for damage to real estate;

8. The term "project" shall mean the Saratoga Springs city center to be constructed within the city for the purpose of providing convention or trade show facilities and shall include all real and personal property, driveways, roads, approaches, structures, parking lots, mechanical equipment and all appurtenances and facilities either on, above, or under the ground which are used or useable in connection with such city center.

§ 2490-c. Saratoga Springs city center authority. A board to be known as the Saratoga Springs city center authority is hereby created. The board shall be a body corporate and politic, constituting a public benefit corporation, and its existence shall commence upon the appointment of the members as herein provided. It shall consist of a chairman and six other members all of whom shall be appointed by the mayor with the consent of the city council. Initially, three members shall be appointed for six years; two members for five years; and two members for four years. At the expiration of such terms, the terms of office of their successors shall be six years. Each member shall continue to serve until the appointment and qualification of his successor. Vacancies in such board occurring otherwise than by expiration of term shall be filled for the unexpired term. The mayor, or his designated representative from the city council, shall serve as an ex officio, nonvoting member of the board while in office. The board may delegate to one or more of its members, or to its officers, agents and employees, such powers and duties as it may deem proper. Members of the board shall be entitled to no compensation for their services, but shall be entitled to reimbursement for their actual and necessary expenses incurred in the performance of their official duties. The powers of the authority shall be vested in and exercised by a majority of the voting members of the board then in office. The authority, and its corporate existence, shall continue only for a period of fifty years, and thereafter, until all its liabilities have been met and its bonds have been paid in full or such liabilities or bonds have been otherwise discharged, except that no additional liabilities may be incurred after the termination of its corporate existence. Upon its ceasing to exist, all its rights and property shall pass to the city.

§ 2490-d. Purposes and powers of the authority. The purposes of the authority shall be to construct, operate and maintain the project consisting of the Saratoga Springs city center authority and facilities in connection therewith. To carry out the purposes the authority shall have power:

1. To sue and be sued;

2. To acquire, hold and dispose of personal property for its corporate purposes;

3. To have a seal and alter the same at pleasure;

4. To make by-laws for the management and regulation of its affairs and, subject to agreements with bondholders, for the regulation of the project;

5. With the consent of the city council, to use agents, employees and facilities of the city, paying to the city its agreed portion of the compensation or costs;

6. To appoint officers, agents and employees; and to describe their qualifications and fix their compensation; subject, however, to the provisions of the civil service law as hereinafter provided;

7. To make contracts and leases, and to execute all instruments necessary or convenient;

8. To construct such buildings, structures, parking and other facilities as may be necessary or convenient;

9. To reconstruct, improve, maintain and operate the project;

10. To collect rentals, fees and other charges for the use of the project subject to and in accordance with such agreements with bondholders as may be hereinafter provided;

11. To contract for the services of architects, engineers, lawyers, financial and other professional advisers and to fix their compensation;

12. To construct, operate and maintain the project; to contract for the construction, operation and maintenance of any part thereof, or for services to be performed in connection therewith; to rent part thereof, and to grant concessions, all on such terms and conditions as it may determine; provided, however, that the location of the site of the project and the plans thereof shall be subject to the prior approval of the city council.

§ 2490-e. Acquisition of land for the project. 1. The authority may acquire lands by purchase or condemnation for the project. It shall have the power to sell, lease or otherwise dispose of said real property and shall retain and have the power to use the proceeds of sale, rental or other moneys derived from the disposition thereof for its purposes.

2. Notwithstanding any law to the contrary the city may, by legal instrument authorized by a resolution, lease real property owned by the city to the authority, with or without consideration, for so long as the authority's existence shall continue.

3. Notwithstanding any other provision of law, the city may by legal instrument authorized pursuant to resolution, purchase, lease, license or otherwise acquire the project or any interest therein, including terms of years; and, by resolution, establish a capital reserve fund for the purpose of financing all or a part of the cost of such purchase, lease, license or other acquisition, including rent related to the acquisition of a leasehold interest in the project, and make

expenditures from such fund for such purposes.

§ 2490-f. Civil service status of employees. The appointment and promotion of all employees of the authority shall be made in accordance with the provisions of the civil service law and the rules of the city of Saratoga Springs civil service commission, and such employees shall be entitled to membership in the city pension and retirement system, and shall be entitled to the same rights and obligations thereunder as the employees of the city.

§ 2490-g. Contracts. The authority shall let contracts for construction and materials in the manner provided by law for contracts of the city.

§ 2490-h. Moneys of the authority. 1. All moneys of the authority shall be paid to the commissioner of finance of the city of Saratoga Springs as agent for the authority, who shall designate depositories and who shall not commingle such moneys with any other moneys. The moneys in such accounts shall be paid out on checks of the commissioner of finance on requisition of the chairman of the authority or of such other person or persons as the authority may authorize upon proper audit of the city.

2. At the end of every fiscal year, the authority shall pay all excess funds to the city for its use. The term excess funds shall mean authority moneys not required for the authority's budget in the next fiscal year. In addition, the authority, with the consent of the city council, can retain funds in a special capital account as a reserve fund for possible future capital projects such as major repairs, reconstruction or renovation of the civic center, additional equipment or replacement of existing fixtures and equipment. The size of the capital account shall be mutually agreed to by the authority and the city, and no funds shall be expended from the said capital account without the consent of the city council.

3. All deposits of such moneys shall, if required by the commissioner of finance, be secured by obligations of the United States or of the state of New York, of a market value equal at all times to the amount of the deposit, and all banks and trust companies are authorized to give such security for the deposits.

4. The city of Saratoga Springs commissioner of finance and his legally authorized representative are authorized and empowered from time to time to examine the accounts and books of the authority, including all receipts, disbursements, contracts, leases, sinking funds, investments and any other records and papers relating to its financial standing.

5. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any of its bonds as to the custody, collection, securing, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and to carry out any such contract notwithstanding that such contract may be inconsistent with the previous provisions of this section. Moneys held in trust or otherwise for the payment of bonds and the deposits of such moneys may be secured in the same manner as moneys of the authority, and all banks and trust companies are authorized to give such security for such deposits.

§ 2490-i. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue its negotiable bonds in conformity with applicable provisions of the uniform commercial code for its corporate purposes in the aggregate principal amount of not exceeding fifteen million dollars. The authority shall have power from time to time and whenever it deems refunding expedient to refund any bonds by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other purpose hereinabove described. In computing the total amount of bonds of the authority, which may at any time be outstanding, the amount of the outstanding bonds to be refunded from the proceeds of the sale of new bonds or by exchange for new bonds shall be excluded. Except as may otherwise be expressly provided by the authority, the bonds of every issue shall be general obligations of the authority payable out of any moneys or revenues of the authority, subject only to any agreements with the holders of particular bonds pledging any particular moneys or revenues.

2. Bonds shall be authorized by resolution of the authority, be in such denominations and bear such date or dates, mature at such time or times, except that notes and any renewals thereof shall mature within five years from the date of the original issuance and bonds and any renewals thereof shall mature within thirty years from the date of the original issuance. The bonds and notes shall be subject to such terms of redemption, bear interest at such rate or rates payable at such times, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution may provide. Bonds may be sold at public or private sale for such price or prices as the authority shall determine.

3. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to:

(a) Pledging all or any part of the revenues, other moneys or property of the authority to secure the payment of the bonds, including but not limited to any contracts, earnings or proceeds of any grant to the authority received from any private or public source;

(b) The setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(c) Limitations on the purpose to which the proceeds from the sale of bonds may be applied;

(d) The rates, rents, fees and other charges to be fixed and collected by the authority and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) Limitations on the right of the authority to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;

(f) Limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds, the holders of which must consent thereto and the manner in which such consent may be given;

(h) The creation of special funds into which any revenues or moneys may be deposited;

(i) The terms and provisions of any trust deed or indenture securing the bonds under which the bonds may be issued;

(j) Vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders pursuant to section twenty-four hundred ninety-j of this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of such trustee;

(k) Defining the acts or omissions to act which may constitute a default in the obligations and duties of the authority to the bondholders and providing for the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) Limitations on the power of the authority to sell or otherwise dispose of any project or any part thereof;

(m) Limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the authority;

(n) The payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine; and

(o) Any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

4. In addition to the powers herein conferred upon the authority to secure its bonds, the authority shall have power in connection with the issuance of bonds to enter into such agreements as the authority may deem necessary, consistent or desirable concerning the use or disposition of its revenues or other moneys or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, moneys or property and the doing of any act (including refraining from doing any act) which the authority would have the right to do in the absence of such agreements. The authority shall have power to enter into amendments of any such agreements within the powers granted to the authority by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of bonds of the authority.

5. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the authority shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether or not such parties have notice thereof. No instrument by which such a plege or security interest is created nor any financing statement need be recorded or filed.

6. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

7. Neither the members of the authority nor any person executing bonds shall be liable personally thereon or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The authority, subject to such agreements with bondholders as then may exist, shall have power out of any moneys available therefor to purchase bonds of the authority, which shall thereupon be cancelled, at a price not exceeding:

(a) If the bonds are then redeemable, the redemption price then applicable, plus accrued interest to the next interest payment date;

(b) If the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date.

§ 2490-j. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to paragraph (j) of subdivision three of section twenty-four hundred ninety-i of this title. 1. In the event that the authority shall default in the payment of principal of or interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county of Saratoga and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds outstanding, shall in his or its own name:

(a) By action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the authority to collect rents, rates and charges adequate to carry out any agreement as to, or pledge of such rents, rates and charges and to require the authority to carry out any other agreements

with the holders of such bonds to perform its duties under this title;
(b) Bring an action or proceeding upon such bonds;
(c) By action or proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;
(d) By action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and
(e) Declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in the county of Saratoga.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days notice in writing to the authority.

6. Any such trustee whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project the revenues of which are pledged for the security of the bonds of such issue and such receiver may enter and take possession of such part or parts of the project and subject to any pledge or agreement with holders of such bonds shall take possession of all moneys and other property derived from such part or parts of the project and proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith which the authority is under obligation to do, and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge thereof or agreement with

bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action, or proceeding by the trustee the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

7. The trustee shall, in addition to the foregoing, have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

§ 2490-k. State, city and municipalities not liable on authority bonds. Neither the state, the city nor any other municipality or public corporation shall be liable on the bonds of the authority and such bonds shall not be a debt of the state, the city or any other municipality or public corporation, and such bonds shall contain on the face thereof a statement to such effect.

§ 2490-l. Bonds legal investment for fiduciaries. The bonds of the authority are hereby made securities in which all public officials and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or other obligations of the state may properly and legally invest funds including capital in their control or belonging to them. The bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities for any purposes for which the deposit of bonds or other

obligations of this state is now or hereafter may be authorized.

§ 2490-m. Agreement with the state. The state hereby pledges to and agrees with the holders of any bonds issued by the authority pursuant to this title, that the state will not alter or limit the rights hereby vested in the authority to purchase, construct, maintain, operate, repair, improve, increase, enlarge, extend, reconstruct, renovate, rehabilitate or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any agreement made with or for the benefit of the holders of bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of bondholders, until the bonds, together with the interest thereon, with interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of such holders are fully met and discharged. The authority is authorized to include this pledge and agreement of the state in any agreement with bondholders.

§ 2490-n. Exemption from taxes, assessments and certain fees. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the state and is a public purpose and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall not be required to pay any taxes or assessments upon any property owned by it or under its jurisdiction, control or supervision or upon its activities, or any filing, recording or transfer fees or taxes in relation to instruments filed, recorded or transferred by it or on its behalf. The construction, use, occupation or possession of any property owned by the authority, including improvements thereon, by any person or public corporation under a lease, lease and sublease or any other agreement shall not operate to abrogate or limit the foregoing exemption, notwithstanding that the lessee, user, occupant or person in possession shall claim ownership for federal income tax purposes. The authority shall be deemed a public authority for the purposes of section four hundred twelve of the real property tax law.

2. Any bonds issued pursuant to this title together with the income therefrom as well as the property of the authority shall be exempt from taxes, except for transfer and estate taxes. The state hereby covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the authority pursuant to this title, in consideration of the acceptance of and payment for the bonds, that the bonds of the authority issued pursuant to this title and the income therefrom and all revenues, moneys, and other property pledged to secure the payment of such bonds shall at all times be free from taxation, except for transfer and estate taxes.

§ 2490-o. Actions against authority. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the authority for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence or wrongful act of the authority or of any member, officer, agent or employee thereof, unless:

(a) Notice of claim shall have been made and served upon the authority within the time limit by and in compliance with section fifty-e of the general municipal law;

(b) It shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused;

(c) The action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based; and

(d) An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

2. Wherever a notice of claim is served upon the authority it shall

have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority may require any person presenting for settlement an account or claim for any cause whatever against the authority to be sworn before a member, counsel or an attorney, officer or employee of the authority designated for such purpose concerning such account or claim and when so sworn, to answer orally as to any facts relative to such account or claim. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. The rate of interest to be paid by the authority upon any judgment for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section five thousand four of the civil practice law and rules. Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

§ 2490-p. Title not affected if in part unconstitutional or ineffective. If any section, clause or provision of this title shall be unconstitutional or be ineffective in whole or in part, to the extent that it is not unconstitutional or ineffective, it shall be valid and effective and no other section, clause or provision shall on account thereof be deemed invalid or ineffective.

§ 2490-q. Inconsistent provisions in other acts superseded. Insofar as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of any local law of the city, the provisions of this title shall be controlling.

* TITLE 25

NEW YORK CITY SPORTS AUTHORITY

*** § 2500. Short title.** This title may be cited as the "New York city sports authority act".

* NB (Discontinued-Board of Directors never appointed)

*** § 2501. Definitions.** As used or referred to in this title, unless a different meaning clearly appears from the context, the following terms shall mean and include:

1. "Amortized value". For securities purchased at a premium above or a discount below par, the value as of any given date obtained by dividing the total amount of the premium or discount at which such securities were purchased by the number of days remaining to maturity on such securities at the time of such purchase and by multiplying the amount so calculated by the number of days having passed since the date of such purchase; and (a) in the case of securities purchased at a premium, by deducting the product thus obtained from the purchase price, and (b) in the case of securities purchased at a discount, by adding the product thus obtained to the purchase price.

2. "Authority". The corporation created by section twenty-five hundred three of this title.

3. "Board of estimate". The board of estimate of the city of New York.

4. "Bonds". The bonds authorized by this title.

5. "City". The city of New York.

6. "City council". The city council of the city of New York.

7. "Comptroller". The comptroller of the city of New York.

8. "Corporation counsel". The corporation counsel of the city of New York.

9. "Governor". The governor of the state of New York.

10. "Mayor". The mayor of the city of New York.

11. "Notes". The notes authorized by the title.

12. "Real property". Lands, including air and subsurface rights and lands under water, structures, franchises and interests in lands and any and all things usually included within the said terms, including not only fees simple absolute but also any and all lesser interests, such as

easements, rights of way, uses, leases, licenses, and all other incorporeal heriditaments and every estate, interest or right, legal or equitable, including terms of years, and liens thereon by way of judgments, mortgages or otherwise, and also claims for damage to real estate.

13. "Sports facility". Real property in the city of New York but not in the borough of Brooklyn used or to be used primarily for the conduct of sports events, including a sports complex, stadium or arena and other related facilities suitable for the holding of athletic or sports events, including parking therefor.

14. "State". The state of New York.
* NB (Discontinued-Board of Directors never appointed)

*** § 2502. Legislative findings and statement of purposes.** It is hereby found, determined and declared that the city has acquired certain large sports facilities located in the city, including Yankee stadium, Shea stadium, Randall's island stadium and Singer bowl and may contemplate the acquisition or construction of other sports facilities; that other sports facilities are maintained or will be constructed in the city by public or private corporations; that the maintenance and operation of such facilities in the most efficient and economical manner possible through the flexible and imaginative use of business and management skills, the coordination of their activities, the providing of amateur, professional and scholastic sports events, meetings, exhibitions, cultural events and other events of civic, community and general public interest in such facilities, the promotion of the city's competitive position in the field of sports in relation to other large cities, and the carrying out of these purposes and the functions, powers and duties provided in this act are essential for the health, welfare, recreation and prosperity of the people of the city and state, for the promotion of competitive sports for youth and the prevention of juvenile delinquency and for the improvement of trade and commerce in the city and the state.

It is hereby further found, determined and declared that at all levels of government--federal, state and local--experience has shown that when government operates in a field usually reserved for private enterprise, a public authority is a useful device to provide the creativity and independence which regular government agencies cannot offer and that therefore it is in the public interest to create such an authority and to vest such powers in the authority as are necessary or convenient to implement the foregoing purposes since neither unaided private enterprise nor government alone can adequately perform them; that the creation and operation of the authority, as hereafter provided, is in all respects for the benefit of the people of the city and the state, and is a governmental, state, city and public purpose; and that the exercise by such authority of the functions, powers, and duties as hereinafter provided, constitutes the performance of an essential public and governmental function.

* NB (Discontinued-Board of Directors never appointed)

*** § 2503. New York city sports authority.** 1. There is hereby created the New York city sports authority which shall be a corporate governmental agency, constituting a public benefit corporation. Upon submission of a plan pursuant to section twenty-four hundred sixty-five of the New York state sports authority act the authority shall qualify as a "participating municipality" within the meaning of and for the purposes of the New York state sports authority act. Its membership shall consist of sixteen members, who shall constitute the board of directors. Fifteen members shall be appointed by the governor, five of whom shall be designated by the mayor and five of whom shall be designated by the city council. The remaining member shall be chief executive officer of the authority. Such chief executive officer shall be chosen by the aforementioned fifteen members from persons other than themselves and shall serve at the pleasure of the board of directors with powers and duties as set forth in the by-laws of the authority. The members shall designate from among themselves the person who shall be chairman of the board of directors.

2. Members, except for the chief executive officers shall be appointed

for a term of six years from the effective dates of their appointments, provided, however, that six members first appointed by the governor shall each serve for a six year term, two of whom shall have been designated by the mayor and two of whom shall have been designated by the city council; six members first appointed by the governor shall each serve for a five year term, two of whom shall have been designated by the mayor and two of whom shall have been designated by the city council; and three members first appointed by the governor shall each serve for a four year term, one of whom shall have been designated by the mayor and one of whom shall have been designated by the city council. Each member shall continue to serve until the appointment and qualification of his successor. If at any time there is a vacancy in the membership of the authority by reason of death, resignation, disqualification or otherwise, such vacancy shall be filled for the unexpired term in the same manner as the original appointment.

3. A majority of the whole number of members then in office shall constitute a quorum for the transaction of any business or the exercise of any power of the authority. Except as otherwise specified in this title, for the transaction of any business or the exercise of any power of the authority, the authority shall have power to act by a majority of the members present at any meeting at which a quorum is in attendance. No vote at such meeting shall be cast by proxy. The authority may delegate to one or more of its members, officers, agents and employees, such powers as the members may deem proper.

4. The members of the authority except for the president, acting in his capacity as chief executive officer of the authority, shall serve without salary, but each member shall be reimbursed for his actual and necessary expenses incurred in the performance of his official duties as a member of the authority. The members of the authority may engage in private employment or in a profession or business (if not otherwise prohibited from so doing by virtue of any other public office), subject to the limitations contained in sections seventy-three and seventy-four of the public officers law. The authority shall, for the purposes of such sections, be a "state agency" and the members thereof shall be "officers" of the agency for the purpose of said sections.

5. The members of the authority by a majority vote of the whole number of members then in office may remove any member for cause, provided that such member be first furnished with a written list of charges against him and given an opportunity to be heard, in person or by counsel, upon not less than ten days' notice.

6. Notwithstanding any inconsistent provisions of law, general, special or local, no officer or employee of the state, any city, county, town or village, any other political or civil division of the state, any municipality, any governmental entity operating any public school or college, any school district or other public agency or instrumentality or unit of government which exercise governmental powers under the laws of the state, shall forfeit his office or employment by reason of his acceptance of appointment or service as a member, officer or agent of the authority; nor shall such service as such member, officer or agent of the authority be deemed incompatible or in conflict with such office or employment.

7. The authority shall continue until its liabilities have been met or otherwise discharged or provided for and until its existence shall have been terminated by law. Upon the termination of the existence of the authority, all of its rights and property shall pass to and be vested in the city.

8. On or before November fifteenth of each year, the authority shall submit to each member of the board of estimate and to the chairman of the finance committee of the city council, a financial statement for the preceding city fiscal year, a report of its activities during that year, and a report on its program for both the current and next succeeding city fiscal years.

* NB (Discontinued-Board of Directors never appointed)

*** § 2504. General powers of the authority.** In the exercise of the powers conferred and the performance of duties imposed upon the authority and subject to limitations contained elsewhere in this title, the authority shall have the following general powers:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To make and alter by-laws for the management and regulations of its affairs and subject to agreements with bondholders for the regulation of any sports facility;

4. To make and execute contracts and all other instruments, including leases, subleases and evidences of indebtedness necessary or convenient to accomplish its corporate purposes;

5. To prescribe a system of accounts for the authority;

6. To purchase, receive, take by gift, grant, devise, bequest or otherwise, lease, accept jurisdiction over or otherwise acquire, own, hold, manage, operate, improve, employ, use and otherwise deal in and with, real or personal property, necessary or convenient for its corporate purposes;

7. To sell or otherwise dispose of personal property held in its corporate name;

8. Subject to the approval of the mayor, to execute and deliver deeds for real property held in its corporate name and to transfer, lease, sublease or otherwise dispose of or make available real property upon such terms as shall be agreed upon;

9. To accept grants, loans, contributions, subsidies or other forms of financial assistance from the United States, the state or the city, or any agency or instrumentality thereof, and from any other source, and to use same or expend the proceeds thereof for its corporate purposes;

10. With the consent of the city to use agents, employees and facilities of the city, including the corporation counsel, paying to the

city its agreed proportion of the compensation or costs;

11. To appoint officers, agents and employees, to prescribe their qualifications and to fix their compensation; subject, however, to the provisions of the civil service law, as hereinafter provided;

12. To engage the services of construction, engineering, architectural, legal, financial or other consultants surveyors and appraisors, necessary or convenient for its corporate purposes, on a contract basis or as employees, for professional service and technical assistance and advice;

13. To construct, reconstruct, improve, maintain, or operate or cause to be constructed, reconstructed, improved, maintained or operated such buildings, structures, parking and other facilities as may be necessary or convenient;

14. To fix and collect rents, rates, fees and other charges for service rendered by the authority or for the use of its property;

15. To procure such insurance as the authority deems necessary;

16. With the consent of the mayor to form or cause to be formed, subsidiary corporations pursuant to any general law of the state necessary or convenient for its corporate purposes;

17. To undertake planning, design and feasibility studies in accordance with the terms and conditions of any agreement with the city; or, subject to the approval of the mayor in accordance with the terms and conditions of any agreement to which the city is not a party;

18. To enter into agreements with the city and the state and the United States, or any agency or instrumentality thereof, individual, firm or corporation for any lawful purpose necessary or convenient for its corporate purposes; and

19. To do all things necessary or convenient for its corporate

purposes.
* NB (Discontinued-Board of Directors never appointed)

*** § 2505. Acquisition of real property for the authority and contracts with the city.** 1. The city may, by resolution of the board of estimate, or by deed authorized by such a resolution, convey for so long as the authority's corporate existence shall continue, lease for not more than ninety-nine years or grant other authorizations with or without consideration, to the authority for the use and occupancy of the authority or any subsidiary of the authority for its corporate purposes, real property then owned by the city and such conveyance, lease or authorization may reserve to the city such rights as may be agreed upon between the city and the authority.

2. The city may acquire real property in the name of the city for conveyance or lease to the authority pursuant to subdivision one of this section or for the management or operation thereof by the authority pursuant to subdivision four of this section or for the purpose of the widening of existing roads, streets, parkways, avenues or elevated highways connecting with such real property or for such purposes and partly for other city purposes by purchase or condemnation in the manner provided by law for the acquisition of real property by the city. The city shall have power to acquire by condemnation property already devoted to another public use. Such roads, streets, parkways, avenues and elevated highways connected with such real property shall be operated, maintained and reconstructed by the city, and except as agreed upon between the city and the authority, with the approval of the board of estimate, the city shall have exclusive jurisdiction over them.

2-a. Notwithstanding the provisions of any general, special or local law or charter, the city is hereby empowered to purchase or lease from the authority for a term not exceeding ninety-nine years a sports facility, or enter into any other agreement relating to a sports facility, upon such terms and conditions as may be agreed upon by the city and the authority.

3. Notwithstanding the provisions of section 107.00 of the local finance law, for the purpose of financing and paying for the cost of the acquisition of such property and the renovation thereof the city is hereby authorized and empowered, without providing from current funds any part of such costs or otherwise complying with the provisions of such section 107.00 but upon compliance with all other applicable provisions of the local finance law, to issue bonds and notes and to make expenditures from the proceeds of such bonds and notes or from any fund into which such proceeds are paid. Notwithstanding the provisions of section 11.00 of the local finance law, the period of probable usefulness for the effectuation of any of the objects or purposes in connection with the acquisition or renovation of such real property is hereby determined to be forty years. Nothing herein contained, however, shall prevent the application of the period of probable usefulness prescribed in any subdivision of said section 11.00 of the local finance law for any object or purpose constituting a separable part of such objects and purposes.

4. The city may enter into agreements with the authority for the management or operation in whole or in part of a sports facility owned or acquired by the city.

5. Subject to the approval of the board of estimate, the city may enter into agreements with the authority to pay for planning, design and feasiblity studies undertaken or caused to be undertaken by the authority.

6. Since the authority's continued discharge of its public and governmental purposes is of benefit to the city, the city shall pay, within the appropriations available therefor, if any, the expenses of the establishment and continued operation of the authority.

7. Notwithstanding any other provision of law, the city shall have the power to contract indebtedness and to issue its obligations pursuant to the local finance law for the purpose of financing any payment authorized to be made by the city pursuant to subdivisions four, five or six of this section. Any such payment shall constitute an object or

purpose for which the period of probable usefulness is hereby determined to be five years.

* NB (Discontinued-Board of Directors never appointed)

*** § 2506. Moneys of the authority.** 1. Subject to the provisions of this title, the members of the authority shall receive, accept, invest, administer, expend and disburse for its corporate purposes all monies for the authority from whatever sources derived.

2. The monies of the authority shall be paid to the comptroller as the agent of the authority, who shall designate depositories and who shall not commingle such moneys with any other moneys. Such moneys shall be deposited in a separate bank account or accounts. The moneys in such account or accounts shall be paid out on checks by the comptroller on requisitions of the chairman of the board of directors of the authority or of such other person or persons as the authority may authorize to make such requisitions after audit by the comptroller in the manner provided by the New York city charter. All deposits of such moneys shall, if required by the comptroller or the authority, be secured by obligations of the United States or of the state or of the city of a market value equal at all times to the amount of the deposit, and all bank and trust companies are authorized to give such security for such deposits. The comptroller and his legally authorized representative are authorized and empowered from time to time to examine the accounts and books of the authority, including its receipts, disbursements, contracts, leases, investments and any other records and papers relating to its financial standing.

* NB (Discontinued-Board of Directors never appointed)

*** § 2507. Employees of the authority.** 1. Notwithstanding any inconsistent provision of this title, the appointment and promotion of all employees of and for the authority shall be made in accordance with the provisions of the civil service law under the rules of the city civil service commission. Such employees shall be under the jurisdiction of such city civil service commission and their compensation shall be fixed by the authority.

2. The city and the authority shall have the power to provide for the transfer to the authority of agents and employees and the use of the facilities of the city to enable the authority to fulfill its corporate purposes. Employees of the city to be transferred to the authority pursuant to this title shall be eligible for such transfer and appointment to offices and positions of the authority without further examination, and all such employees who have been appointed to positions in the city service in accordance with the provisions of the civil service law under the rules of the city civil service commission shall have the same status with respect thereto in the service of the authority as they had in city service. Employees who are members or beneficiaries of any existing pension or retirement system shall continue to have such rights, privileges, obligations or status with respect to such system or systems as are prescribed by law on the date this title takes effect, and all such employees who have been appointed to positions in city service in accordance with the provisions of the civil service law under the rules of the city civil service commission shall have the same status with respect thereto in the service of the authority as they had in city service.

* NB (Discontinued-Board of Directors never appointed)

*** § 2508. Contracts of the authority.** 1. All contracts for the construction, reconstruction, rehabilitation or improvement of buildings or structures shall be let in the manner provided by law for contracts of the city. The authority in preparing separate specifications may provide for assignment of responsibility for coordination of any of the contracts for such work to a responsible person, firm or corporation.

2. The authority shall not award any construction contract except to the lowest bidder who in its opinion is qualified to perform the work required and is responsible and reliable. The authority may, however, reject all bids or waive any informality in a bid if it believes that the public interest will be promoted thereby. The authority may reject any bid if in its judgment the business and technical organization,

plan, resources, financial standing or experience of the bidder, compared with the work to be performed, justifies such rejection.

3. Any construction contract awarded by the authority shall contain such other terms and conditions, and such provisions for penalties, as the authority may deem desirable.

* NB (Discontinued-Board of Directors never appointed)

*** § 2508-a. Certain property acquired by authority.** In the event that the New York state sports authority upon full amortization of any outstanding bonds issued for the acquisition, construction or rehabilitation of a sports facility, transfers such sports facility to the authority pursuant to subdivision four of section twenty-four hundred seventy-two of this chapter, such sports facility shall pass to and be vested in the city.

* NB (Discontinued-Board of Directors never appointed)

*** § 2508-b. Payments to the city.** Notwithstanding any provision of law, the authority may with respect to any sports facility provide in any lease or sublease that rental payments to the authority made pursuant to such lease or sublease shall include an amount which the authority shall pay to the city which shall constitute a payment in lieu of taxes with respect to such sports facility.

* NB (Discontinued-Board of Directors never appointed)

*** § 2509. Bond and note authorization.** 1. The authority shall have the power and is hereby authorized to issue from time to time its negotiable bonds and notes in conformity with applicable provisions of the uniform commercial code in such principal amounts as the authority shall determine to be necessary to provide sufficient funds for achieving any of its corporate purposes, including the payment of all or any part of the cost of acquiring, constructing, reconstructing, constructing additions to, improving, maintaining and operating sports facilities, including but not limited to buildings, structures, parking and other facilities for such sports facilities, the payment of interest on bonds and notes of the authority, the establishment of reserves to secure such bonds and notes of the authority and the payment of all other expenditures, including operating expenses, of the authority incident to or necessary or convenient to carry out its corporate purposes and powers.

2. The authority shall have the power to issue from time to time (i) notes to renew notes and (ii) bonds to pay notes, including the interest thereon and redemption premium, if any, and, whenever it deems refunding expedient, to refund any bonds of the authority then outstanding, whether the bonds to be refunded have or have not matured, including the payment of any redemption premium thereon and any interest accrued or to accrue to the earliest or subsequent date of redemption, purchase or maturity of such bonds, by the issuance of new bonds, and, if deemed advisable by the authority, to issue bonds partly to refund bonds then outstanding and partly for any of its corporate purposes. The refunding bonds may be exchanged for the bonds to be refunded or sold and the proceeds applied to the purchase, redemption or payment of such bonds. Pending such purchase, redemption or payment, such proceeds may be invested and reinvested in obligations of or guaranteed by the United States of America, or in obligations of agencies of the United States of America, secured in such manner as the authority shall determine, maturing at such time or times as shall be appropriate to assure the prompt payment, as to principal, interest and redemption premium, if any on the outstanding bonds to be refunded. The interest and earned increment, if any, resulting from any such investment, may also be applied to the purchase, redemption or payment of the outstanding bonds to be so refunded and any balance remaining upon completion of the purchase, redemption or payment of all such outstanding bonds shall be returned to the authority for use by it in any lawful manner.

3. No bonds or notes of the authority shall be issued if upon such issuance the aggregate principal amount of bonds and notes of the authority then outstanding exceeds one hundred million dollars, provided that such statutory maximum principal amount shall not be construed as constituting a contract between the authority and the holders of its

bonds or notes that additional bonds or notes may not be issued subsequently by the authority in the event that such statutory maximum shall be increased subsequently by law and provided further that, in determining such aggregate principal amount there shall be deducted (i) all sums then available for the payment of such bonds or notes either at maturity or through the operation of a sinking fund; (ii) the aggregate principal amount of outstanding bonds issued (a) to refund notes and (b) to refund bonds theretofore issued and then outstanding; and (iii) the aggregate principal amount of outstanding notes issued to renew notes theretofore issued and then outstanding.

4. The issuance of bonds and notes by the authority shall be authorized by resolution or resolutions of the authority without further authorization or approval, which resolution or resolutions shall be a part of the contract with the holders of the bonds or notes thereby authorized and may contain provisions as to:

(a) pledging all or any part of the moneys, earnings, income and revenues derived from the project to secure the payment of the bonds or of any issue of the bonds, subject to such agreements with bondholders as may then exist;

(b) the payments, fees or other charges to be fixed, established and collected and the amounts to be raised in each year thereby, and the use and disposition of the moneys, earnings, income and other revenues;

(c) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(d) limitations on the right of the authority to restrict and regulate the use of a sports facility or sports facilities;

(e) limitations on the purposes to which and the manner in which the proceeds of sale of any bonds or any issue of bonds may be applied;

(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured; and the refunding of outstanding bonds or other bonds;

(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) the creation of special funds into which any earnings or revenues

of the authority may be deposited;
(i) the terms and provisions of any mortgage or trust deed or indenture securing the bonds or under which the bonds may be issued;
(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders pursuant to section twenty-five hundred thirteen of this title, and limiting or abrogating the right of the bondholders to appoint a trustee under such section or limiting the rights, powers and duties of such trustee;
(k) defining the acts or omissions to act which shall constitute a default in the obligations and duties of the authority to the bondholders and providing the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of this state and other provisions of this title;
(l) limitations on the power of the authority to sell or otherwise dispose of its properties;
(m) limitations on the amount of moneys derived from a sports facility or sports facilities to be expended for operating, administrative and other expenses of the authority;
(n) the protection and enforcement of the rights and remedies of the bondholders;
(o) the obligations of the authority in relation to a sports facility or sports facilities and the safeguarding and application of all moneys;
(p) the payment of the proceeds of bonds and revenue of a sports facility or sports facilities to a trustee or other depository, and for the method of disbursement thereof and such safeguards and restrictions as the authority may determine;
(q) any other matters of like or different character which may in any way affect the security or protection of the bonds.
* NB (Discontinued-Board of Directors never appointed)

*** § 2510. Bonds and notes of the authority.** 1. All bonds and notes issued by the authority may be secured by the full faith and credit of the authority subject only to any agreements with the holders of particular bonds pledging any particular revenues or moneys of the authority, all as may be provided in the proceedings of the authority pursuant to which the bonds or notes shall be authorized to be issued.

2. Bonds and notes issued by the authority shall bear such date or dates and shall mature at such time or times as shall be provided by any such resolution of the authority, except that no note or any renewal thereof shall mature more than five years from the date of the original note and no bond shall mature more than forty years from the date of its issue.

3. Bonds may be issued in one or more series as serial bonds payable in annual installments or as term bonds or as a combination thereof. Bonds and notes shall bear interest at such rate or rates, be in such denominations, be in such form either payable to bearer with coupons or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment, at such place or places within or without the state, and be subject to such terms of redemption, with or without premium, as may be provided by any such resolution of the authority. Any signature, manual or facsimile, of an officer of the authority appearing on bonds or notes or coupons shall be valid and sufficient for all purposes whether or not such officer shall then be in office. The authority may also provide for the authentication of the bonds or notes by a trustee or fiscal agent.

4. The resolution authorizing the issuance of any bonds or notes may provide that such bonds and notes may be payable at such place or places, within or without the state, may bear interest at such rate or rates, may be payable at such time or times, may be in such form and evidenced in such manner, and may contain such other provisions not inconsistent herewith, including provisions as to reserve or sinking funds, security for the payment of bonds or notes, redemption or refunding of bonds or notes, events of default, remedies of bondholders or noteholders, appointment of trustees or fiscal agents, custody, collection, securing, investment and payment of any money of the authority and amendment or abrogation of such provisions, all as the

authority shall determine.

5. Any bonds or notes of the authority may be sold at such price or prices, at public or private sale, in such manner and from time to time as may be determined by the authority, and the authority may pay all expenses, premiums and commissions which it may deem necessary or advantageous in connection with the issuance and sale thereof. No bonds or notes of the authority may be sold at private sale, however, unless such sale and the terms thereof have been approved in writing by (i) the comptroller where such sale is not to such comptroller, or (ii) the mayor where such sale is to such comptroller.

6. Neither the members, directors, officers or employees of the authority nor any person executing the bonds or notes of the authority shall be liable personally on the bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

7. Issuance by the authority of one or more series of bonds or notes for one or more purposes shall not preclude it from issuing other bonds or notes in connection with the same sports facility or any other sports facility, but the proceedings whereunder any subsequent bonds or notes may be issued shall recognize and protect any prior pledge or lease, made for any prior issue of bonds or notes unless in the proceedings authorizing such prior issue the right is reserved to issue subsequent bonds or notes on a parity with such prior issue.

8. All bonds or notes authorized under this section and the interest coupons applicable thereto are hereby made and shall be construed to be negotiable instruments.

9. The authority shall have power out of any funds available therefor to purchase (as distinguished from the power of redemption herein provided) any bonds or notes of the authority, and all bonds so purchased shall be cancelled.

* NB (Discontinued-Board of Directors never appointed)

*** § 2511. Security for bonds or notes.** 1. The principal of and interest on any bonds or notes issued by the authority may be secured by a pledge of any revenues and receipts of the authority and may be secured by a lease or other instrument covering all or any part of a sports facility, including any additions, improvements, extensions to or enlargements of any sports facilities thereafter made.

2. Bonds or notes issued for a sports facility may also be secured by an assignment of any lease of such sports facility and by an assignment of the revenues and receipts derived by the authority from any such lease.

3. Each pledge, agreement, mortgage or other instrument made for the benefit or security of any of the bonds or notes of the authority shall continue effective until the principal of and interest on the bonds or notes for the benefit of which the same were made shall have been fully paid, or until provision shall have been made for such payment in the manner provided in the resolution or resolutions under which the same may be authorized.

4. The authority may provide in any proceedings under which bonds or notes may be authorized for the time and manner of and the requisites for disbursements to be made for the cost of a sports facility, and for all certificates and approvals of construction and disbursements as the authority shall deem necessary.

5. Any pledge of earnings, revenues or other moneys made by the authority shall be valid and binding from the time when the pledge is made; the earnings, revenues or other moneys so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

6. In the discretion of the authority, the bonds may be secured by a trust indenture by and between the authority and a corporate trustee which may be any trust company or bank having the powers of a trust company in the state of New York. Such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to any sports facility and the custody, safeguarding and application of all moneys. The authority may provide by such trust indenture for the payment of the proceeds of the bonds and the revenues of any such sports facility to the trustee under such trust indenture or other depository, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out such trust indenture may be treated as a part of the cost of maintenance, operation and repairs of any such sports facility. If the bonds shall be secured by a trust indenture the bondholders shall have no authority to appoint a separate trustee to represent them.

* NB (Discontinued-Board of Directors never appointed)

*** § 2512. Reserve fund.** The authority may create and establish one or more reserve funds to be known as debt service reserve funds and may pay into such reserve funds (a) any moneys appropriated and made available by the city for the purposes of such funds (b) any proceeds of sale of bonds and notes to the extent provided in the resolution of the authority authorizing the issuance thereof (c) any moneys directed to be transferred by the authority to such funds, and (d) any other moneys which may be made available to the authority for the purposes of such funds from any other source or sources. The moneys held in or credited to any debt service reserve fund established under this section, except as hereinafter provided, shall be used solely for the payment of the principal of an interest on bonds of the authority secured by such reserve fund, as the same mature, required payments to any sinking fund established for the amortization of such bonds (hereinafter referred to as "sinking fund payments"), the purchase or redemption of such bonds of the authority or the payment or any redemption premium required to be paid when such bonds are redeemed prior to maturity; provided, however, that moneys in any such fund shall not be withdrawn therefrom at any time in such amount as would reduce the amount of such fund to less than the maximum amount of principal and interest maturing and becoming due in any succeeding calendar year on the bonds of the authority then outstanding and secured by such reserve fund, except for the purpose of paying principal and interest on the bonds of the authority secured by such reserve fund maturing and becoming due and sinking fund payments for the payment of which other moneys of the authority are not available.

* NB (Discontinued-Board of Directors never appointed)

*** § 2513. Remedies of bondholders and noteholders.** 1. In the event that the authority shall default in the payment of principal or of interest on any issue of bonds or notes after the same shall become due, whether at maturty or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title, or shall default in any agreement made with the holders of any issue of bonds or notes, the holders of twenty-five per centum in aggregate principal amount of the bonds or notes of such issue then outstanding, by instrument or instuments filed in the office of the clerk of the county in which the principal office of the authority is located, and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds or notes for the purposes herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds or notes then outstanding shall, in his or its own name:

(a) enforce all rights of the bondholders or noteholders, including the right to require the authority to collect interest and principal payments on the bonds held by it adequate to carry out any agreement as to, or pledge of, such interest and principal payments, and to require the authority to carry out any other agreements with the holder of such bonds or notes and to perform its duties under this title.

(b) bring suit upon such bonds or notes.

(c) by action or suit, require the authority to account as if it were the trustee of an express trust for the holders of such bonds or notes.
(d) by action or suit, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds or notes.
(e) declare all such bonds or notes due and payable and if all defaults shall be made good then with the consent of the holders of twenty-five per centum of the principal amount of such bonds or notes then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. Before declaring the principal of bonds or notes due and payable, the trustee shall first give thirty days' notice in writing to the mayor, to the authority and to the comptroller.

5. The supreme court shall have jurisdiction of any suit, action or proceeding by the trustee on behalf of bondholders or noteholders. The venue of any such suit, action, or proceeding shall be laid in the county of New York.
* NB (Discontinued-Board of Directors never appointed)

*** § 2514. State and city not liable on bonds and notes.** The bonds, notes and other obligations of the authority shall not be a debt of the state of New York or of the city or of any other municipality in the state, and neither the state nor any municipality shall be liable thereon, nor shall they be payable out of any funds other than those of the authority.
* NB (Discontinued-Board of Directors never appointed)

*** § 2515. Agreement of the state.** The state of New York does hereby pledge to and agree with the holders of any bonds or notes issued under this title that the state will not limit or alter the rights hereby vested in the authority to fulfill the terms of any agreements made with the holders thereof, or in any way impair the rights and remedies of such holders until such bonds or notes together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of such holders, are fully met and discharged. The authority is authorized to include this pledge and agreement of the state in any agreement with the holders of such bonds or notes.

* NB (Discontinued-Board of Directors never appointed)

*** § 2516. Property and income.** The property of the authority and its income and operations shall be exempt from taxation, assessments or service charges of every kind and nature, and the authority shall not be required to pay any recording fee or transfer tax of any kind on account of instruments recorded by it or on its behalf.

* NB (Discontinued-Board of Directors never appointed)

*** § 2517. Exemption from taxation of bonds and notes.** It is hereby determined that the creation of the authority is in all respects for the benefit of the people of the state, for the improvement of their health and welfare, and for the promotion of the economy, and that said purposes are public purposes and the authority will be performing an essential governmental function in the exercise of the powers conferred upon it by this title, and the state covenants with the purchasers and all subsequent holders and transferees of bonds and notes issued by the authority, in consideration of the acceptance of and payment for the bonds and notes, that the bonds and notes of the authority, issued pursuant to this title and the income therefrom and all its fees, charges, gifts, grants, revenues, receipts, and other moneys received or to be received, pledged to pay or secure the payment of such bonds or notes shall at all times be free from taxation, except for estate or gift taxes and taxes on transfers.

* NB (Discontinued-Board of Directors never appointed)

*** § 2518. Bonds and notes as legal investments.** The bonds and notes of the authority are hereby made securities in which all public officers and bodies of this state and all municipalities and municipal subdivisions, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, all administrators, guardian executors, trustees and other fiduciaries, and all other persons who are now or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them. The bonds and notes are also hereby made securities which may be deposited with and may be received by all public officers and bodies of this state and all municipalities and municipal subdivisions for any purpose for which the deposit of bonds or other obligations of this state is now or may hereafter be authorized.

* NB (Discontinued-Board of Directors never appointed)

*** § 2519. Legal officer of the authority.** The Corporation Counsel shall be attorney and counsel of the authority and shall approve all legal documents as to form.

* NB (Discontinued-Board of Directors never appointed)

*** § 2520. Actions against authority.** 1. Except in an action for wrongful death, an action against the authority for personal injury, real or personal property damage or destruction or founded on tort shall not be commenced more than one year and ninety days after the cause of action thereof shall have accrued nor unless a notice of claim shall have been served on a member of the authority or officer or employee thereof designated by the authority for such purpose, within the time limited by, and in compliance with the requirements of section fifty-e of the general municipal law. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

2. The venue of every action, suit or special proceeding brought against the authority shall be laid in the county of New York.

3. No member, officer, employee or agent of the authority, while acting in the scope of his authority, shall be subject to any personal liability resulting from exercising or carrying out of any of the authority's purposes or powers.
* NB (Discontinued-Board of Directors never appointed)

*** § 2521. Applicability.** The authority shall not acquire, construct or operate any sports or other facility in the Borough of Brooklyn.
* NB (Discontinued-Board of Directors never appointed)

TITLE 26

NEW YORK CITY STABILIZATION RESERVE CORPORATION

§ 2530. Short title. This title may be cited as the "New York City Stabilization Reserve Corporation Act".

§ 2531. Definitions. For the purposes of this title:

1. "City" means the city of New York.

2. "Director of management and budget" means the director of management and budget of the city of New York.

3. "Corporation" means the New York city stabilization reserve corporation as created by this title.

4. "Mayor" means the mayor of the city of New York.

5. "Comptroller" means the comptroller of the city of New York.

6. "State" means the state of New York.

7. "Bonds" and "notes" means revenue bonds and notes respectively, issued by the corporation pursuant to this title.

8. "Revenues" means all aid, rents, fees, charges, payments and other income and receipts paid or payable to the corporation or a trustee for the account of the corporation, including any payment required to be made to the corporation by this title.

9. "Operating expenses" means all expenses incurred by the corporation in the administration of the corporation including but not limited to

salaries, administrative expenses, insurance premiums, auditing and legal expenses and fees and expenses incurred for professional consultants and fiduciaires.

10. "Capital reserve fund requirement" means as of any particular date of computation, an amount of money equal to the amount required, for the then current fiscal year of the corporation, to pay interest during such fiscal year on all bonds of the corporation outstanding on said date of computation, the principal amount of all bonds of the corporation outstanding on said date of computation which matures during such fiscal year and the amount of sinking fund payments payable during such fiscal year with respect to any bonds of the corporation outstanding on said date of computation.

11. "Sinking fund payment" means the amount of money specified in the resolution authorizing bonds as payable into a sinking fund during a particular fiscal year for the retirement of term bonds which mature after such fiscal year, but shall not include any amount payable by reason only of the maturity of the bond.

§ 2532. New York city stabilization reserve corporation. (a) There is hereby created the New York city stabilization reserve corporation. The corporation shall be a corporate governmental agency constituting a public benefit corporation. It shall have the powers and privileges of a corporation and all of its business shall be transacted, all funds invested, all warrants for money drawn and payments made, and all cash and securities and other personal property held under its corporate name.

(b) The corporation shall continue until all its liabilities have been met or otherwise discharged and until its existence shall have been terminated by law. Upon the termination of the existence of the corporation, all of its rights and property shall pass to and be vested in the city.

§ 2533. Legislative findings and declaration of purposes. The legislature hereby finds and declares that the city of New York is faced with a grave and unprecedented fiscal crisis which threatens the city's ability to provide essential services and thereby endangers the welfare of all the inhabitants of such city. This crisis has been caused by a heightened demand for such services at a time of a sharp increase in the cost thereof. Accordingly, the legislature hereby further finds and declares that it is necessary for a corporation to be created to assist such city to enable it to provide such essential services during the nineteen hundred seventy-three--nineteen hundred seventy-four and nineteen hundred seventy-four--nineteen hundred seventy-five fiscal years of such city on a sound financial basis.

§ 2534. Administration of the corporation. (1) The corporation shall be administered by three directors, one of whom shall be the director of management and budget. The remaining two directors shall be appointed by the mayor, no more than one of whom may be a city official. Directors who are not city officials shall serve for a term expiring at the end of the term actually served by the officer making the appointment and may be removed for cause by the mayor after hearing on ten days notice.

(2) The mayor shall designate a chairman and a vice-chairman from among the directors. The chairman shall preside over all meetings of the directors and shall have such other duties as the directors or the corporation may direct. The vice-chairman shall preside over all meetings of the directors in the absence of the chairman and shall have such other duties as the directors of the corporation may prescribe.

(3) The directors of the corporation shall serve without salary, but each director shall be reimbursed for actual and necessary expenses incurred in the performance of his official duties as a director of the corporation. The directors of the corporation may engage in private employment or in a profession or business (if not otherwise prohibited from so doing by virtue of any other public office), subject to the limitations contained in sections seventy-three and seventy-four of the public officers law. The corporation shall, for the purpose of such sections, be a "state agency" and the directors thereof shall be "officers" of the agency for the purpose of said sections.

(4) Notwithstanding any inconsistent provisions of law, general,

special or local, no officer or employee of the state of New York, any city, county, town or village, any other political or civil division of the state, any municipality, any governmental entity operating any public school or college, any school district or any other public agency or instrumentality or unit of government which exercises governmental powers under the laws of the state, shall forfeit his office or employment by reason of his acceptance of appointment as a director, officer or agent of the corporation nor shall service as such director, officer or agent of the corporation be deemed incompatible or in conflict with such office or employment.

(5) A majority of the whole number of directors then in office shall constitute a quorum for the transaction of any business or the exercise of any power of the corporation. Except as otherwise specified in this title, for the transaction of any business or the exercise of any power of the corporation, the corporation shall have power to act by a majority of the directors present at any meeting at which a quorum is in attendance. The corporation may delegate to one or more of its directors, or officers, agents and employees, such powers and duties as the directors may deem proper.

(6) The corporation may appoint officers, employees and agents as it may require and prescribe their duties and fix their compensation.

(7) On or before November fifteenth of each year, the corporation shall submit a financial statement to the mayor, the state comptroller and the city comptroller, the state director of the budget and the city director of the budget, and to the city board of estimate and the city council.

§ 2535. General powers of the corporation. The corporation shall have the following powers in addition to those specially conferred elsewhere in this title: (1) to sue and be sued; (2) to have a seal and alter the same at pleasure; (3) to make and alter by-laws for its organization and internal management and, subject to agreements with noteholders or bondholders, to make rules and regulations governing the use of its property and facilities; (4) to make and execute contracts, leases, subleases and all other instruments or agreements necessary or convenient for the exercise of its powers and functions under this title; (5) to purchase real or personal property necessary and convenient for its corporate purposes; to execute and deliver deeds for real property held in its own name; and to sell or otherwise to dispose of such real or personal property that, in the judgment of the corporation, is no longer necessary for its corporate purposes; (6) to appoint officers, agents and employees, prescribe their duties and qualifications and fix their compensation; (7) to commence any action to protect or enforce any right conferred upon it by any law, contract or other agreement; (8) subject to other provisions of law, to transfer to the city such sums of money as are not required for other purposes; (9) to borrow money and to issue negotiable notes or bonds or other obligations and to fund or refund the same, and to provide for the rights of the holders of its obligations; (10) subject to the provisions of any contract with noteholders or bondholders, to invest any funds held in reserves or sinking funds, or any funds not required for immediate use or disbursement, at the discretion of the corporation, in obligations of the city, state or federal government, obligations the principal of and interest on which are guaranteed by the city, state or federal government, or obligations of agencies of the federal government which may, from time to time, be legally purchased by savings banks of the state as investments of funds belonging to them or in their control and which have been approved by the state comptroller or in secured time deposits or other interest bearing accounts secured by such obligations; (11) subject to the provisions of any contract with noteholders or bondholders, to purchase notes or bonds of the corporation; (12) to procure insurance against any loss in such amounts and from such insurers as it deems desirable; (13) to engage the services of consultants on a contract basis for rendering professional and technical assistance and advice; (14) to contract for and to accept any gifts or grants or loans of funds or property or financial or other aid in any form from the federal government or any agency or instrumentality thereof, or from any other source and to comply with the terms and conditions thereof; (15) as security for the payment of the principal of and interest on any bonds so issued and any agreements made in connection therewith, to pledge all or any part of its revenues; (16) to do any and all things necessary or convenient to carry out its purposes and exercise the powers expressly given and granted in this title.

§ 2536. Notes and bonds of the corporation. 1. (a) The corporation shall have power and is hereby authorized from time to time to issue its negotiable notes and bonds in conformity with applicable provisions of the uniform commercial code in such principal amount, as the corporation shall determine to be necessary, to provide sufficient funds for achieving its corporate purposes, including the making of payments to the city, the payment of interest on notes and bonds of the corporation, the establishment of reserves to secure such notes and bonds, and the payment of all operating expenses of the corporation and all other expenditures of the corporation incidental to or necessary or convenient to carry out its corporate purposes and powers.

(b) The corporation shall have the power, from time to time, to issue (i) notes to renew notes and (ii) bonds to pay notes, including the interest thereon and, whenever it deems refunding expedient, to refund any bonds by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and to issue bonds partly to refund bonds then outstanding and partly for any of its other corporate purposes. The refunding bonds may be exchanged for the bonds to be refunded or sold and the proceeds applied to the purchase, redemption or payment of such bonds.

(c) Except as may otherwise be expressly provided by the corporation, every issue of its notes and bonds shall be general obligations of the corporation payable out of any revenues of the corporation, subject only to any agreements with the holders of particular notes or bonds pledging any particular revenues.

(d) The notes and bonds shall be authorized by resolution of the corporation, shall bear such date and shall mature at such time as such resolution may provide, except that no note or bond or the renewal or refunding thereof shall mature more than ten years from the date of the original issue of such note or bond. The bonds may be issued as serial bonds or as term bonds or as a combination thereof. Provision for the payment of principal of and interest on bonds shall be made in not more than ten approximately equal annual installments or in not more than twenty approximately equal semi-annual installments. The notes and bonds shall bear interest at such rate and shall be in such denomination, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment, at such place and be subject to such terms of redemption as such resolution may provide. The notes and bonds may be sold by the corporation at public or private sale, at such price as the corporation shall determine.

2. Any resolution authorizing any notes or bonds or any issue thereof may contain provisions, which shall be a part of the contract with the holders thereof, as to:

(a) pledging all or any part of the revenues to secure the payment of the notes or bonds or of any issue thereof, subject to such agreements with noteholders or bondholders as may then exist;

(b) pledging all or any part of the assets of the corporation to secure the payment of the notes or bonds or of any issue of notes or bonds, subject to such agreements with noteholders or bondholders as may then exist;

(c) the setting aside of reserves or sinking funds and the regulation and disposition thereof;

(d) limitations on the purpose to which the proceeds of sale of notes or bonds may be applied and pledging such proceeds to secure the payment of the notes or bonds or of any issue thereof;

(e) limitations on the issuance of additional notes or bonds; the terms upon which additional notes or bonds may be issued and secured; and the refunding of outstanding or other notes or bonds;

(f) the procedure, if any, by which the terms of any contract with noteholders or bondholders may be amended or abrogated, the amount of notes or bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(g) limitations on the amount of moneys to be expended by the corporation for operating expenses of the corporation;

(h) vesting in a trustee such property, rights, powers and duties in trust as the corporation may determine, which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders pursuant to this title, and limiting or abrogating the right of the bondholders to appoint a trustee under this title or limiting the rights, powers and duties of such trustee;

(i) the acts or omissions to act which shall constitute a default in the obligations and duties of the corporation to the holders of the notes or bonds and providing for the rights and remedies of the holders of the notes or bonds in event of such default, including the right to appointment of a receiver; providing, however, that such rights and remedies shall not be inconsistent with the general laws of the state and the other provisions of this title;

(j) any other matters, of like or different character, which in any way affect the security or protection of the holders of the notes or bonds.

3. Any pledge made by the corporation shall be valid and binding from the time when the pledge is made. The revenues or property so pledged and thereafter received by the corporation shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the corporation, irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded or filed to protect such pledge except in the office of the corporation.

4. Neither the directors of the corporation nor any other person executing the notes or bonds of the corporation shall be subject to any personal liability or accountability by reason of the issuance thereof.

5. The corporation, subject to such agreements with noteholders or bondholders as may then exist, shall have power out of any funds available therefor, to purchase notes or bonds of the corporation, which shall thereupon be cancelled, at a price not exceeding:

(a) if the notes or bonds are then redeemable, the redemption price then applicable.

(b) if the notes or bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the notes or bonds becme subject to redemption.

6. In the discretion of the directors of the corporation, the bonds

may be secured by a trust indenture by and between the corporation and a corporate trustee, which may be any trust company or bank having the powers of a trust company in the state. Such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the corporation in relation to the exercise of its corporate powers and the custody, safeguarding and application of all moneys. The Corporation may provide by such trust indenture for the payment of the proceeds of the bonds and the revenues to the trustee under such trust indenture or other depository, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out such trust indenture may be treated as a part of the operating expenses of the corporation. If the bonds shall be secured by a trust indenture, the bondholders shall have no authority to appoint a separate trustee to represent them.

7. Whether or not the notes and bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the notes and bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the notes and bonds for registration.

8. The corporation shall not issue any bonds or notes if such issue would bring the aggregate amount of indebtedness evidenced by bonds or notes of the corporation issued pursuant to this title to an amount exceeding five hundred twenty million dollars. In calculating the amount of indebtedness issued by the corporation pursuant to this title, there shall be excluded the amount of indebtedness to be refunded or renewed from the proceeds from the sale of, or to be exchanged for, new obligations.

§ 2537. Reserve fund and appropriations. 1. (a) The corporation shall create and establish a special fund (herein referred to as the capital reserve fund) on or before December first, nineteen hundred seventy-five and shall pay into such capital reserve fund (1) any monies appropriated and made available by the city for the purpose of such fund, (2) any proceeds of sale of notes or bonds, to the extent provided in the resolution or resolutions of the corporation authorizing the issuance thereof, and (3) any other monies which may be made available to the corporation for the purpose of such fund from any other source. All monies held in the capital reserve fund, except as hereinafter provided, shall be used as required solely for the payment of the principal of bonds as the same mature, sinking fund payments, the purchase or redemption of bonds, the payment of interest on bonds or the payment of any redemption premium required to be paid when such bonds are redeemed prior to maturity; provided, however, that monies in such fund shall not be withdrawn therefrom at any time in such amount as would reduce the amount of such fund to less than the capital reserve fund requirement, except for the purposes provided herein, for which other monies of the corporation are not available. Any income or interest earned by, or increment to, the capital reserve fund due to the investment thereof may be transferred by the corporation to other funds or accounts of the corporation to the extent it does not reduce the amount of the capital reserve fund below the capital reserve fund requirement.

(b) In computing the amount of the capital reserve fund for the purposes of this section, securities in which all or a portion of such fund shall be invested shall be valued at par or if purchased at less than par at their cost to the corporation.

(c) To assure the continued operation and solvency of the corporation for the carrying out of its corporate purpose, provision is made in paragraph (a) of this subdivision for the accumulation in the capital reserve fund of an amount equal to the capital reserve fund requirement. In order further to assure such maintenance of the capital reserve fund, there shall be paid by the city to the corporation for deposit in the capital reserve fund on or before the first day of December, in each year, such amount, if any, needed for the purpose of maintaining the capital reserve fund at the capital reserve fund requirement as shall be certified by the chairman of the corporation to the mayor and the director of management and budget on or before the fifteenth day of February next preceding; provided that any such amount shall have been first appropriated by or on behalf of the city for such purpose or shall have been otherwise made available.

2. The corporation may create and establish such other fund or funds as may be necessary or desirable for its corporate purpose.

§ 2538. Payments to the city. (a) In the event that the mayor of such city certifies to the corporation an amount which is not in excess of one hundred fifty million dollars as the amount which is required by such city during the city fiscal year nineteen hundred seventy-three--nineteen hundred seventy-four to enable such city to provide essential services during such city fiscal year, the corporation may within the limitation of aggregate indebtedness set forth in section twenty-five hundred thirty-six of the title, issue its notes or bonds and deliver such amount to the comptroller of such city for deposit in the city's general fund.

(b) In the event that the mayor shall include in his proposed expense budget for the fiscal year nineteen hundred seventy-four--nineteen hundred seventy-five of such city an estimate of amounts payable from the corporation, the mayor shall, by July fifteenth of such fiscal year certify in writing to the corporation the amounts payable from the corporation which the city council deducted as part of the total amount of receipts as estimated by the mayor from the amount of the budget in fixing the tax rate pursuant to section fifteen hundred fifteen of the New York city charter. The amount as certified shall be the amount which is required by the city from the corporation. Upon receipt of such certification, the corporation may, within the limitation of aggregate indebtedness set forth in section twenty-five hundred thirty-six of this title, issue its notes or bonds in an amount adequate to provide the certified amount and shall promptly deliver such amount to the comptroller for deposit in the city's general fund. Such certification shall be deemed a finding by the mayor, city council and city board of estimate that the city is faced with a grave fiscal crisis warranting such financial assistance by the corporation.

§ 2539. Resources of the corporation. (a) Subject to the provisions of this title, the directors of the corporation shall receive, accept, invest, administer, expend and disburse for its corporate purposes all monies for the corporation from whatever sources derived including (1) payments by the city or by the state comptroller pursuant to the provisions of sections twenty-five hundred thirty-seven and twenty-five hundred forty of this title; and (2) any other payments, gifts, or appropriations to the fund from any other source.

(b) The monies of the corporation shall be paid to the comptroller as agent of the corporation who shall not commingle such monies with any other monies. Subject to the provisions of any contract with noteholders or bondholders, all corporation monies received by the corporation which, together with other monies of the corporation available for the operating expenses of the corporation including the payment of debt service and payments to the capital reserve fund, exceed the amount required for such purposes shall be transferred to the city on the fifteenth day of February.

(c) The monies in any of the corporation's accounts shall be paid out on checks signed by the comptroller on requisitions of the chairman of the directors of the corporation or of such other officer or employee as the directors shall authorize to make such requisition.

(d) The comptroller or his legally authorized representative, from time to time may examine the books and accounts of the corporation, including its receipts, disbursements, contracts, reserves, investments, and any other matters relating to its financial standing. Such an examination shall be conducted by the comptroller at least once every five years; in lieu of such an examination, the comptroller may accept from the corporation an external examination of the books and accounts made at the request of the directors of the corporation.

§ 2540. Payments to the corporation. (a) Since the corporation's continued discharge of its public and governmental purpose is of benefit to the city, the city shall pay, within the appropriations available therefor, the expenses of the establishment and continued operation of the corporation.

(b) In the event of the failure or inability of the city to pay over to the corporation, in full, on or before the first day of December, the amount required to be paid by section twenty-five hundred thirty-seven of this title, the chairman of the corporation shall forthwith certify to the state comptroller the amount remaining unpaid and thereupon the state comptroller shall pay such amount to the corporation out of the first monies available for the next succeeding payments to the city from the stock transfer tax fund established by section ninety-two-b of the state finance law.

(c) In the event that the amount paid by the comptroller pursuant to subdivision (b) of this section is inadequate to restore the capital reserve fund to the capital reserve fund requirement, the state comptroller shall pay to the corporation, out of the first monies available for the next succeeding payments of (i) state aid apportioned to the city of New York as per capita aid for the support of local government pursuant to section fifty-four of the state finance law or (ii) such other aid or assistance payable by the state to the city and not otherwise allocated as shall supersede or supplement such state per capita aid, including federal monies apportioned to the city by the state, such amount remaining unpaid, after giving written notice to the director of management and budget of each amount to be paid out of such aid, until the amount in the capital reserve fund is restored to the capital reserve fund requirement; except, however, that prior to any deductions from any such aid or assistance, state aid monies, if any, payable, pursuant to the provisions of any law the effective date of which is prior to the effective date of this title, to a public benefit corporation shall be paid in full to such corporation. Any amount so paid over to the corporation shall be deducted from the corresponding apportionment of such per capita state aid otherwise payable to the city of New York, and shall not obligate the state to make nor entitle the city to receive any additional apportionment or payment of per capita state aid.

§ 2541. Agreement with the state. The state does hereby pledge to and agree with the holders of any notes or bonds issued under this title that the state will not limit or alter the rights hereby vested in the corporation to fulfill the terms of any agreements made with the said holders thereof, or in any way impair the rights and remedies of such holders until such notes and bonds, together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged. The corporation is authorized to include this pledge and agreement of the state in any agreement with the holders of such notes or bonds.

§ 2542. State and city not liable on notes and bonds. The notes, bonds or other obligations of the corporation shall not be a debt of either the state or the city, and neither the state nor the city shall be liable thereon, nor shall they be payable out of any funds other than those of the corporation; and such notes and bonds shall contain on the face thereof a statement to such effect.

§ 2543. Remedies of noteholders and bondholders. 1. In the event that the corporation shall default in the payment of principal of or interest on or sinking fund payment on any issue of notes or bonds after the same shall become due, whether at maturity or upon call from redemption, or in the event that the corporation shall default in any agreement made with the holders of any issue of notes or bonds, the holders of twenty-five per centum in aggregate principal amount of the notes or bonds of such issue then outstanding, by instrument or instruments filed in the office of the clerk of the county of New York and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such notes or bonds for the purposes herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such notes or bonds then outstanding shall, in his or its own name:

(a) by suit, action or proceeding in accordance with the civil practice law and rules, enforce all rights of the noteholders or bondholders, including the right to require the corporation to carry out any agreement with such holders and to perform its duties under this title;

(b) bring suit upon such notes or bonds;

(c) by action or suit, require the corporation to account as if it were the trustee of an express trust for the holders of such notes or bonds;

(d) by action or suit, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such notes or bonds;

(e) declare all such notes or bonds due and payable, and if all defaults shall be made good, then, with the consent of the holders of twenty-five per centum of the principal amount of such notes or bonds then outstanding annul such declaration and its consequences.

3. The supreme court shall have jurisdiction of any suit, action or proceeding by the trustee on behalf of such noteholders or bondholders. The venue of any such suit, action or proceeding shall be laid in the county of New York.

4. Before declaring the principal of notes or bonds due and payable, the trustee shall first give thirty days' notice in writing to the corporation, the mayor and to the attorney general of the state.

§ 2544. Notes and bonds as legal investments. The notes and bonds of the corporation are hereby made securities in which all public officers and bodies of this state and all municipalities and municipal subdivisions, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, all administrators, guardians, executors, trustees and other fiduciaries, and all other persons whatsoever who are now or may hereafter be authorized to invest in bonds or in other obligations of the state, may properly and legally invest funds, including capital, in their control or belonging to them. The notes and bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of the state and all municipalities and public corportions for any purpose for which the deposit of bonds or other obligations of the state is now or may hereafter be authorized.

§ 2545. Exemption from taxation. 1. It is hereby determined that the creation of the corporation and the carrying out of its corporate purpose is in all respects a public and governmental purpose for the benefit of the people of the state and for the improvement of their health, safety, welfare, comfort and security, and that said purposes are public purposes and that the corporation will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

2. The property of the corporation and its income and operations shall be exempt from taxation.

3. The notes and bonds of the corporation issued pursuant to this title and the income therefrom and all its fees, charges, gifts, grants, revenues, receipts, and other monies received or to be received, pledged to pay or secure the payment of such notes or bonds shall at all times be free from taxation, except for estate and gift taxes and taxes on transfers.

§ 2546. Employees of the corporation. 1. Notwithstanding any inconsistent provisions of this act, the appointment and promotion of all employees of and for the corporation shall be made in accordance with the provisions of the civil service law and shall be subject to the jurisdiction of the city civil service commission and the compensation for such employees shall be fixed by the corporation.

2. The city and the corporation shall have the power to provide for the transfer to the corporation of agents, employees and facilities of the city to enable the corporation to fulfill its corporate purposes. Employees of the city to be transferred to the corporation pursuant to this title shall be automatically appointed and transferred to the corporation in the same or equivalent classification and position they hold at the time of the transfer. The corporation, its officers and

employees, shall be subject to article fourteen of the civil service law and for all purposes the corporation shall be deemed "public employer", provided, however, that chapter fifty-four of the New York city charter and administrative code of the city of New York and executive orders number fifty-two, dated September twenty-ninth, nineteen hundred sixty-seven, as amended, promulgated by the mayor, shall apply in all respects to the corporation, its officers and employees except that paragraph seven and paragraph eight of said executive order shall not be applicable to the corporation, its officers and employees. Employees who are members or beneficiaries of any existing pension or retirement system shall continue to have such rights, privileges, obligations or status with respect to such system as are prescribed by law on the date this title takes effect, and all such employees who have been appointed to positions in city service in accordance with the provisions of the civil service law under the rules of the city civil service commission shall have the same status with respect thereto in the service of the corporation as they had in city service.

§ 2547. Actions against the corporation. (a) Except in an action for wrongful death, an action against the corporation for personal injury or property damage or founded on tort shall not be commenced more than one year and ninety days after the cause of action thereof shall have accrued nor unless a notice of claim shall have been served on a director of the corporation or officer or employee thereof designated by the corporation for such purpose, within the time limited by, and in compliance with the requirements of section fifty-e of the general municipal law. An action against the corporation for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

(b) The venue of every action, suit or special proceeding brought against the corporation shall be laid in the county of New York.

(c) Neither any director of the corporation nor any officer, employee, or agent of the corporation, while acting within the scope of their authority, shall be subject to any personal liability resulting from exercising or carrying out of any of the corporation's purposes or powers.

§ 2548. Assistance to the corporation. With the consent of the city, the corporation may use agents, employees and facilities of the city, including the corporation counsel, paying to the city its agreed proportion of the compensation or costs.

§ 2549. Corporation counsel to be attorney. The corporation counsel of the city shall be attorney and counsel for the corporation, except with the approval of the corporation counsel the corporation may retain or employ such counsel as are necessary to carry on its corporate purposes.

§ 2550. Termination of authority and existence. At such time as notes and bonds of the corporation or notes and bonds of the municipal assistance corporation for the city of New York, or any combination thereof, are outstanding in the aggregate principal amount equal to five hundred twenty million dollars, the purposes for which the corporation was created shall have been satisfied and the corporation shall not be authorized to issue any notes or bonds that would cause such aggregate amount to be exceeded. If the corporation has no notes or bonds outstanding at such time as its authorization to issue notes or bonds terminates, the existence of the corporation shall terminate.

§ 2551. Bonds or notes legal investments for public authorities. Bonds and notes of the corporation are hereby declared to be legal investments for monies of public corporations of the state of New York and may be used to secure deposits of monies of such corporations in banks or trust companies authorized to do business in the state of New York.

TITLE 27

NEW YORK CONVENTION CENTER OPERATING CORPORATION

Section 2560. Definitions.

§ 2560. Definitions. The following terms, whenever used or referred to in this title, unless the context indicates otherwise, shall have the following meanings:

1. "Corporation." The New York convention center operating corporation.

2. "Convention center." The convention and exhibition center referred to in paragraph (l) of subdivision nine of section five hundred fifty-three of this chapter and any interest therein acquired by the corporation.

3. "State." The state of New York.

4. "City." The city of New York.

§ 2561. Legislative findings and declarations. It is hereby found and declared that existing facilities in the city for conventions, trade exhibitions and public shows including services for the operation and maintenance thereof are inadequate; that construction and operation of a convention center to adequately accommodate these activities would generate new business and employment opportunities, increase the number of public facilities, provide new sources of tax revenue and promote orderly redevelopment in the vicinity of the convention center, all of which would serve the interests of the city and state.

It is further found and declared that the area in New York county generally bounded by thirty-ninth street on the north, thirtieth street on the south, eleventh avenue on the east and twelfth avenue on the west is an area characterized by deteriorated industrial and commercial structures, uncoordinated and incompatible commercial uses, inadequate public facilities and unsanitary and substandard conditions, all of which are detrimental to the economic and social well-being of residents of the city and state and that the location and operation of a convention center in such area will serve as a catalyst for redevelopment and a rejuvenation of civic pride and accomplishment.

It is further found and declared that the convention center will provide significant economic and social benefits to the city, state and region, and that, consistent with social, economic, environmental and other essential considerations of state policy, locating the convention center in the area generally bounded by thirty-ninth street on the north, thirtieth street on the south, eleventh avenue on the east and twelfth avenue on the west is in the public interest, considering the convenience and accessibility of location, the elimination of unsanitary and substandard conditions, the nature and economic characteristics of various other sites considered and the immediacy of the needs of the people of the state for the realization of the significant economic and social benefits to be derived from the convention center.

Therefore, it is hereby found and declared that it is in the public interest to create a public benefit corporation for the purposes of operating and maintaining a convention and exhibition center and to vest such powers in such corporation as are necessary or convenient to effectuate these functions, and that the exercise of the rights and powers herein authorized shall serve a public purpose.

§ 2562. Creation of the corporation. 1. To effectuate the purposes and provisions of this title, there is hereby created the "New York convention center operating corporation", which shall be a body corporate and politic constituting a public benefit corporation. The corporation's board of directors shall consist of twenty-one persons to be appointed with the advice and consent of the senate, including fifteen persons appointed by the governor; two persons appointed by the temporary president of the senate; one person appointed by the minority leader of the senate; two persons appointed by the speaker of the assembly; and one person appointed by the minority leader of the assembly. Four of the members appointed by the governor shall be appointed on the written recommendation of the mayor of the city of New York. One of the directors shall be designated by the governor as chair of the board of directors to serve as such at the pleasure of the governor. Upon recommendation of the chair of the board of directors, the board of directors shall appoint an executive director of the corporation. Notwithstanding any general, special or local law concerning the holding of dual offices, an officer or employee of the state may be appointed as an officer or employee of the corporation, and officers and employees of the state may be appointed as members of the board of directors of the corporation, provided however, that the chair of the board of directors shall not be an officer or employee of the corporation, and the executive director of the corporation shall not be a member of the board of directors.

2. Directors of the corporation shall be appointed for a term of three years from the effective date of their appointments, provided, however, that two persons first appointed by the governor other than the chair shall have a two year term; three persons first appointed by the governor other than the chair shall have a one year term; the four persons appointed on the recommendation of the mayor of the city of New York shall have a term coterminous with the term of office of the mayor of the city of New York appointing them, one person first appointed by the temporary president of the senate shall have a two year term; the person first appointed by the minority leader of the senate shall have a one year term; one person first appointed by the speaker of the assembly shall have a two year term; and the person first appointed by the minority leader of the assembly shall have a one year term except for

those appointed on the recommendation of the mayor whose terms shall expire at the expiration of the term of the mayor appointing them. The terms of office of their successors shall be three years. All directors shall continue to hold office until their successors have been appointed and qualified. If at any time there is a vacancy in the membership of the board of directors by reason of death, resignation, disqualification or otherwise, such vacancy shall be filled for the unexpired term in the same manner as the original appointment.

3. A majority of the appointed voting membership of the board of directors shall constitute a quorum for the transaction of any business or the exercise of any power of the corporation. The powers of the corporation shall be exercised, or may be delegated to one or more directors, officers, agents or employees, by a majority of the appointed voting membership of the board of directors. No vote at such meeting shall be cast by proxy.

4. The directors, other than any officer of the corporation who also serves as a director, shall serve without a salary or other compensation, but each director shall be entitled to reimbursement for expenses incurred in the performance of official duties.

5. The governor may remove any member of the board for cause, provided that such member be first furnished with a list of charges against him and given an opportunity to be heard, in person or by counsel, upon not less than ten days' notice.

6. The fiscal year of the corporation shall end on the date on which the fiscal year of the state ends.

7. The existence of the corporation shall continue until terminated by law, provided, however, that no such law shall take effect so long as the corporation shall have obligations outstanding, unless adequate provision has been made for the payment thereof.

§ 2563. General powers of the corporation. In the exercise of the powers conferred and the performance of the duties imposed upon it by section twenty-five hundred sixty-four of this title, and subject to the limitations contained in other sections of this title, the corporation shall have the following general powers:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To make by-laws for the management and regulation of its affairs;

4. To make and execute contracts and all other instruments including leases and subleases necessary or convenient to accomplish its corporate purposes, including, without limitation, the operation and maintenance of the convention center;

5. To purchase, receive, take by gift, grant, devise, bequest or otherwise, lease or otherwise acquire, own, hold, improve, employ, use and otherwise deal in and with, real or personal property, or any interest therein, including air and subsurface rights and lands under water at the site of the convention center or in the general vicinity thereof;

6. To accept grants, loans, contributions, subsidies or other forms of financial assistance from the United States, the state and the city, or any agency or instrumentality thereof, and from any other source, including gifts or transfers by bequest or otherwise, and to use same or expend the proceeds thereof for its corporate purposes;

7. To invest any funds held in reserve or any moneys not required for immediate use or disbursement, at the discretion of the corporation, in obligations of the state or the United States government or obligations the principal and interest of which are guaranteed by the state or the United States government, or in accordance with the provisions of section ninety-eight-a of the state finance law;

8. Subject to the approval of the director of the budget in such form

as he shall specify, to appoint such officers, agents and employees as it may require for the performance of its duties, and to fix and determine their qualifications, duties and compensation and to retain or employ other agents, including but not limited to architects, counsel, auditors, engineers and private consultants on a contract basis or otherwise for rendering professional or technical services and advice;

9. With the consent of the state, to use the agents, employees and facilities of the state, paying to the state its agreed proportion of the compensation or costs;

10. To fix and collect rents, rates, fees and other charges for the use of the convention center;

11. To enter into agreements with the city and the state and the United States, or any agency or instrumentality thereof, individuals, firms or corporations for any lawful purposes necessary or desirable to effectuate the purposes of this title; and

12. To do all things necessary or convenient to carry out the purposes and provisions of this title.

13. (a) Notwithstanding paragraph three of subdivision b of section six hundred of the retirement and social security law and subdivision four of section two hundred one of the civil service law, or any other general, special or local law, the corporation may provide to persons in its employ any retirement benefits provided or required pursuant to any agreement with a labor union of which its employees are members, and the corporation is hereby authorized retroactively or in the future to make such contributions as may be necessary to provide such benefits, and any and all payments heretofore made by the corporation in compliance with any such agreement shall be and hereby are ratified and confirmed.

(b) Notwithstanding paragraph three of subdivision b of section six hundred of the retirement and social security law, persons in the employ of the corporation on whose behalf the corporation has made or shall make payments pursuant to paragraph (a) of this subdivision shall neither be required nor permitted to become members of the New York state and local employees' retirement system for so long as such payments continue; provided, however, that nothing in this paragraph shall be deemed to affect the rights and privileges of persons in the employ of the corporation who are enrolled members of the New York state and local employees' retirement system on the effective date of this subdivision, and further, that this paragraph shall not affect the membership of persons in the employ of the corporation who are enrolled members of the New York state and local employees' retirement system on the effective date of this subdivision.

§ 2564. Special powers and duties of the corporation. The corporation shall have the power and duty:

1. To maintain and operate the convention center including the expansion project; to rent parts thereof, and grant concessions, all on such terms and conditions as it may determine are fair and reasonable, subject, in the case of rentals and concessions other than for exhibition purposes, to the prior approval of the state comptroller;

2. To approve the plan and design of the convention center project as required by a chapter of the laws of nineteen hundred seventy-nine and the plan and design of the expansion project and any convention hotel financed by chapter three of the laws of two thousand four;

3. To transfer or otherwise make available to the subsidiary of New York state urban development corporation organized pursuant to said chapter of the laws of nineteen hundred seventy-nine, without consideration and when and as requested by said subsidiary, any or all rights, property and assets which shall have been transferred to the corporation pursuant to section twenty-two-a of chapter ten hundred eleven of the laws of nineteen hundred seventy-one as added by section eighteen of said chapter of the laws of nineteen hundred seventy-nine; and

4. To establish a subsidiary for the purposes of forming a pure captive insurance company as provided in section seven thousand two of

the insurance law. Prior to forming such captive insurance company, the corporation or its subsidiary shall complete a feasibility study including, but not limited to, an analysis of the actuarial risks and feasibility associated with the creation of the insurance captive, a measurement of value of such insurance captives relative to financing risk utilizing commercial insurance or self-financing, including in the aggregate and by respective insurance type, the advantages and disadvantages of potential insurance captive structures, and a domicile analysis. Such feasibility study shall be provided to the temporary president of the senate, the speaker of the assembly, and the governor upon completion, and shall be conducted by an independent risk consultant firm or captive insurance broker licensed by the state to perform such duties. Such related risk consultant firm, captive insurance broker, or any subsidiaries or affiliates thereof shall be prohibited from providing any management services for the captive insurance company for the corporation for no less than five years from the date of completing the study.

§ 2565. Cooperation by the state. For the purposes of assisting the corporation in effectuating the purposes and provisions of this title, with respect to the convention center, the state may, with or without consideration:

1. Acting by and through the commissioner of general services, dedicate, sell, convey, lease, grant or otherwise transfer any right, title and interest in any property, real or personal, to the corporation.

2. Enter into agreements with the corporation respecting action to be taken by the state to assist the corporation in carrying out and effectuating the purposes of this title.

3. Do all other things necessary or convenient to carry out the foregoing powers.

§ 2566. Appropriations. 1. To assure the continued operation and solvency of the corporation for the carrying out of the public purposes of this act, there may be, notwithstanding any provision of law to the contrary, annually apportioned and paid to the corporation such sum, if any, as shall be appropriated in the first instance by the state as necessary to enable the corporation to meet all items of expense, including proper maintenance of the convention center, that are approved by the director of the budget to be incurred by the corporation in the next succeeding state fiscal year. The chairman of the corporation shall annually, on or before September fifteenth, make and deliver to the governor and the director of the budget for their approval and for submission to the legislature a budget request for the operations of the corporation. The request shall delineate the total amount needed for corporate purposes, the source and amount of other funds that the corporation expects to receive, and such other information as the director of the budget shall require. The sum or sums appropriated in the first instance, or so much thereof as shall be necessary, shall be apportioned and paid to the corporation during the course of the fiscal year as needed.

2. Notwithstanding the provisions of any general or special law, no part of such appropriation shall be available for the purposes designated until a certificate of approval of availability shall have been issued by the director of the budget and a copy of such certificate filed with the state comptroller, the chairman of the senate finance committee and the chairman of the assembly ways and means committee. Such certificate may be amended from time to time, subject to the approval of the director of the budget, and a copy of each such amendment shall be filed with the state comptroller, the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

3. The director of the budget shall not issue any certificate of approval of availability until the corporation has entered into a written agreement with the director of the budget providing for repayment by such corporation to the state of an amount equal to the total amount expended by the state from such appropriation, on terms to

be determined by the director of the budget, and a copy of such agreement shall be filed with the state comptroller, the chairman of the senate finance committee and the chairman of the assembly ways and means committee. Notwithstanding the provisions of section forty-a of the state finance law and any other general or special law, such written agreement shall require repayment only to the extent that moneys are available from the convention center operating corporation fund established in accordance with section twenty-five hundred sixty-nine of this title.

§ 2567. State not liable on obligations. The obligations of the corporation shall not be debts of the state, and the state shall not be liable thereon, and such obligations shall not be payable out of any funds other than those of the corporation.

§ 2568. Exemption from taxation. It is hereby found, determined and declared that the creation of the corporation and the carrying out of its purposes is in all respects for the benefit of the people of the state and is a public purpose, and that the corporation will be performing an essential governmental function in the exercise of the powers conferred upon it by this title. The corporation and its operations, property and moneys shall be free and exempt from taxation of every kind by the city and the state and any subdivision thereof. Except as hereinabove provided and except as may otherwise specifically be provided, nothing contained in this title shall confer exemption from any tax, assessment or fee upon any person, firm, corporation or other entity, or upon the obligations of any of them.

§ 2569. Moneys of the corporation. All moneys of the corporation, from whatever source derived, shall be paid to the commissioner of taxation and finance as agent of the corporation, who shall not commingle such moneys with any other moneys. Such moneys shall be deposited in a separate bank account to be known as the "convention center operating corporation fund". The moneys in such fund shall be expended for payment of any and all costs and expenditures as required for the corporate purposes of the corporation and authorized by appropriation or required pursuant to repayment agreements required by section twenty-five hundred sixty-six of this title, provided that all expenditures from such fund shall be subject to the prior approval of the director of the budget. The moneys in such fund when made available shall be paid out on check of the commissioner of taxation and finance on requisition of the chairman of the corporation or of such other person or persons as the corporation may authorize to make such requisition. All deposits of such moneys shall, if required by the commissioner of taxation and finance or the corporation, be secured by obligations of the United States or of the state of a market value equal at all times to the amount of the deposit and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the corporation not required for immediate use or disbursement may, at the discretion of the corporation, be invested by the commissioner of taxation and finance in accordance with the provisions of section ninety-eight-a of the state finance law. The state comptroller and his legally authorized representatives are authorized and empowered from time to time to examine the accounts and books of the corporation, including its receipts, disbursements, contracts, leases, investments and any other records and papers relating to its financial standing.

§ 2570. Actions. A notice of claim, served in accordance with the provisions of section fifty-e of the general municipal law, shall be a condition precedent to the commencement of an action against the corporation, its directors, officers, employees or agents. No such action shall be commenced more than one year and ninety days after it has accrued, except that an action against the corporation for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

§ 2571. Limitation of liability; indemnification. 1. The directors and officers of the corporation, and any person acting in its behalf while acting within the scope of their authority, shall not be subject to any personal liability resulting from carrying out any of the powers given in this title.

2. The provisions of section seventeen of the public officers law shall apply to directors, officers, employees and agents of the corporation in connection with any and all claims, demands, suits, actions or proceedings which may be made or brought against any of them arising out of any determinations made or actions taken or omitted to be taken in compliance with any obligations under or pursuant to the terms of this title.

§ 2572. Separability. If any section, clause or provision of this title or the application thereof shall be adjudged invalid, such judgment shall not affect or invalidate any other section, clause or provision of this title.

TITLE 27-A
GREATER ROCHESTER SPORTS AUTHORITY

§ 2576. Short title. This title may be cited as the "Greater Rochester sports authority act".

§ 2577. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context, the following terms shall mean and include:

1. "Authority". The corporation created by section two thousand five hundred seventy-eight of this title.

2. "City". The City of Rochester.

3. "Board". The members of the authority constituting and acting as the governing body of the authority.

4. "Bonds". The bonds, notes or other evidences of indebtedness issued by the authority pursuant to this title, and the provisions of this title relating to bonds and bondholders shall apply with equal force and effect to notes and noteholders, respectively, unless the context otherwise clearly requires.

5. "Construct", "construction" or "constructed". The acquisition, erection, building, alteration, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of a professional soccer stadium; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings,

specifications, procedures and other actions preliminary or incidental thereto.

6. "Cost". As applied to any project, means and includes the cost of construction, the cost of the acquisition of all property, including real property and other property, real, personal and mixed and improved and unimproved, the cost of demolishing, removing or relocating of any buildings or structures on lands so acquired, including the cost of acquiring any lands to which such buildings or structures may be moved or relocated, the cost of the professional soccer stadium, machinery, apparatus and equipment, the cost of engineering and architectural surveys, plans and specifications, the cost of consultant and legal services, the cost of other expenses necessary or incidental to the construction of any project or facility for the purposes of professional soccer and the financing of the construction thereof and the financing of the placing of any such project or such facility in operation, including reimbursement to the county or any municipality, state agency, the state, the United States government or any other person for expenditures that would be costs of a project hereunder had they been made directly by the authority.

7. "Controller". The controller of the county of Monroe.

8. "County". The county of Monroe.

9. "County legislature". The Monroe county legislature.

10. "Notes". The notes authorized by the title.

11. "Person". Any natural person, partnership, association, joint venture or corporation, exclusive of a public corporation.

12. "Project". Any real property or improvements located within the state of New York and within Monroe county, whether or not now in existence or under construction, which shall be necessary or suitable for use as a sports facility or for a use incidental to a sports facility, including, but not limited to, machinery, equipment and other

facilities deemed necessary or desirable in connection therewith, or incidental thereto.

13. "Real property". Lands, including air and subsurface rights and lands under water, structures, franchises and interests in lands and any and all things usually included within the said terms, including not only fees simple absolute but also any and all lesser interests, such as easements, rights of way, uses, leases, licenses, and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms of years, and liens thereon by way of judgments, mortgages or otherwise, and also claims for damage to real estate.

14. "Revenues". All fees, charges, tolls, rentals, rates and other income and receipts derived from the operation of any sports facility including, without limiting the generality of the foregoing, investment proceeds and proceeds of insurance, condemnation, and sale or other disposition of assets, together with all federal, state or municipal aid if any.

15. "Sports facility". Real property and improvements and structures thereon in the county, constituting a professional soccer stadium and other structures or related facilities, suitable for the holding of professional soccer events, including parking therefor.

16. "State". The state of New York.

17. "State agency". Any state office, public benefit corporation, department, board, commission, bureau, division or other agency or instrumentality of the state.

§ 2578. Greater Rochester sports authority. 1. There is hereby created the Greater Rochester sports authority. The authority shall be a body corporate and politic constituting a public benefit corporation. The authority shall consist of three members. Two of such members shall be appointed by the county executive with the advice and consent of the county legislature and who shall serve at the pleasure of the county executive, and one of such members shall be appointed by the city mayor with the advice and consent of the city council, and shall serve at the pleasure of the city mayor.

2. All members shall continue to hold office until their successors are appointed and qualify. Vacancies shall be filled in the manner provided for original appointments. Members may be removed from office for the same reasons and in the same manner as may be provided by law for the removal of officers of a county. The members of the authority shall receive no compensation for their services but shall be reimbursed for all other actual and necessary expenses incurred in connection with the carrying out of the purposes of this title. The powers of the authority shall be vested in and be exercised by the members of the authority at a meeting duly called and held and a majority of members shall constitute a quorum. Except as hereafter provided, no action shall be taken except pursuant to the affirmative vote of at least two voting members. The board shall appoint from its members a chairperson, vice-chairperson, and a treasurer and may delegate to one or more of its members, officers, agents or employees, such powers and duties as it may deem proper.

3. Notwithstanding any inconsistent provision of any general, special or local law, ordinance, resolution or charter, no officer, member or employee of the state or of any public corporation shall forfeit his or her office, or employment, by reason of his or her acceptance of appointment as a member, officer or employee of the authority, nor shall service as such member, officer or employee be deemed incompatible or in conflict with such office, membership or employment.

4. The authority shall be perpetual in duration, unless terminated by law. Provided, however that no such law shall take effect so long as the authority shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof. Upon termination of the existence of the authority, all of its rights and property shall pass to and be vested in such municipality or legal entity as provided in said law.

5. It is hereby determined and declared, that the authority and the carrying out of its powers and duties are in all respects for the benefit of the people of the county and the state for the improvement of their health, welfare and prosperity and that such purposes are public purposes and that the authority is and will be performing an essential governmental function in the exercise of the powers conferred upon it by this title.

6. Nothing in this title shall be construed to obligate the state in any way in connection with the operation or obligations of the authority.

§ 2579. General powers of the authority. Except as otherwise limited by this title, the authority shall have power:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To borrow money and issue bonds for any of its corporate powers, purposes or its projects, and to provide for the rights of the holders thereof;

4. To make bylaws and rules for the management and regulation of its affairs and for the regulation of any project and, subject to agreements with its bondholders, to make and alter rules and regulations governing the exercise of its powers and the fulfillment of its purposes under this title. A copy of such bylaws and rules, and all amendments thereto, duly certified by the secretary of the authority shall be filed in the office of the county clerk of the county and shall be published thereafter once in each of two newspapers having a general circulation in the county;

5. To acquire by purchase, grant, lease, gift, or condemnation pursuant to the provisions of the eminent domain procedure law and at

the request of the municipality in which the real property is located, and to hold and use property necessary, convenient or desirable to carry out its corporate purposes, and to sell, convey, mortgage, lease, pledge, exchange or otherwise dispose of any such property in such manner as the authority shall determine;

6. To acquire, construct, reconstruct, lease, expand, improve, maintain, equip, furnish, and operate a project for purposes of professional soccer and, if necessary, to pay or finance the cost thereof, and provided, that any lease, management or operation agreement shall contain a condition that the lessee, manager or operator shall establish a summer soccer program for city youth;

7. To operate and maintain a facility for the purposes of minor league baseball, presently known as Frontier Field;

8. To apply for and to accept gifts, grants, loans, or contributions of funds or property or financial or other aid in any form, from, and enter into contracts or other transactions with, the federal government, the state, any municipality, any public corporation, or any other source, and to use any such gifts, grants, loans or contributions for any of its corporate purposes; provided that in any agreement selling the naming rights to a sports facility constructed for purposes of professional soccer, there shall be a provision requiring that the person purchasing such naming rights shall initiate a youth internship program for city high school students;

9. To grant options to renew any lease with respect to any project or projects and to grant options to buy any project at such price as the authority may deem desirable;

10. To designate the depositories of its money;

11. To establish its fiscal year;

12. To enter into contracts, agreements and leases and to execute all instruments necessary or convenient to accomplishing its purposes as

described in this title;

13. To appoint such officers, employees and agents as the authority may require for the performance of its duties, and to fix and determine their qualifications, duties, and compensation, subject to the provisions of the civil service law and any applicable collective bargaining agreement, and to retain or employ counsel, auditors, engineers and private consultants on a contract basis or otherwise for rendering professional, management or technical services and advice;

14. With the consent of the county executive, to use employees, agents, consultants and facilities of the county paying its agreed proportion of the compensation or costs;

15. To make plans, surveys, and studies necessary, convenient or desirable to the effectuation of the purposes and powers of the authority and to prepare recommendations in regard thereto;

16. To enter upon such lands, waters or premises as in the judgment of the authority may be necessary, convenient or desirable for the purpose of making surveys, soundings, borings and examinations to accomplish any purpose authorized by this title;

17. To establish, fix, revise, charge, collect and enforce fees and charges for the use of such facilities so as to provide revenues which, together with other earnings of the sports facilities, if any, as the same shall become due, offset the expense of operating and maintaining the sports facility together with proper reserves for maintenance, contingencies and all other obligations and indebtedness of the authority;

18. To do all things necessary, convenient or desirable to carry out its purposes and for the exercise of the powers granted in this title; and

19. To insure or provide for the insurance of the authority's property or operations.

§ 2580. Acquisition of real property for the authority. 1. Notwithstanding the provisions of any general, special or local law or charter, the county is hereby empowered to purchase or lease from the authority for a term not exceeding ninety-nine years, a sports facility, or enter into any other agreement relating to a sports facility, upon such terms and conditions as may be agreed upon by the county and the authority.

2. The county may enter into agreements with the authority for the management or operation, in whole or in part, of a sports facility owned or acquired by the county.

3. The county may enter into agreements with the authority for the operation or maintenance, in whole or in part, of a facility for the purpose of minor league baseball, presently known as Frontier Field.

4. The county may enter into agreements with the authority to pay for planning, design and feasibility studies undertaken, or caused to be undertaken, by the authority.

5. Since the authority's continued discharge of its public and governmental purposes is of benefit to the county, the county may pay, within the appropriations available therefor, if any, the expenses of the establishment and continued operation of the authority.

6. Notwithstanding any other provision of law, the county shall have the power to contract indebtedness and to issue its obligations pursuant to the local finance law for the purpose of financing any payment authorized to be made pursuant to subdivision two, three, four or five of this section. Any such payment shall constitute an object or purpose for which the period of probable usefulness is hereby determined to be five years.

§ 2581. Transfer of officers and employees. 1. In accordance with the provisions of section seventy of the civil service law, any officer or employee of the county, selected by the authority may, with the consent of the county executive, be transferred to the authority and shall be eligible for such transfer and appointment without further examination, to applicable offices, positions and employment under the authority.

2. A transferred employee shall remain in the same collective bargaining unit as was the case prior to his or her transfer; successor employees to the positions held by such transferred employees shall, consistent with the provisions of article fourteen of the civil service law, be included in the same unit as their predecessors. Employees serving in positions in newly created titles shall be assigned to such same collective bargaining unit if they would have been assigned to such unit were such titles created prior to the establishment of the authority. Nothing contained in this title shall be construed to diminish (a) the rights of employees pursuant to a collective bargaining agreement or (b) to affect existing law with respect to an application to the public employment relations board seeking a designation by the board that certain persons are managerial or confidential.

3. Any such officers or employees so transferred to the authority pursuant to this section, who are members of or benefit under any existing pension or retirement fund or system, shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law, but during the period of their employment by the authority, all contributions to such funds or system to be paid by the employer on account of such officers or employees shall be paid by the authority.

§ 2582. Bonds of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue bonds, notes or other obligations to pay the cost of any project or for any other purpose under this title, including the establishment of reserves to secure the bonds, the payment of principal of, premium, if any, and interest on the bonds and the payment of incidental expenses in connection therewith. The aggregate principal amount of such bonds, notes or other obligations shall not exceed thirty million dollars ($30,000,000), excluding bonds, notes or other obligations issued to refund or repay bonds, notes, or other obligations theretofore issued for such purposes; provided, however, that upon any such refunding or repayment the total aggregate principal amount of outstanding bonds, notes or other obligations may be greater than thirty million dollars ($30,000,000), only if the present value of the aggregate debt service of the refunding or repayment of bonds, notes or other obligations to be issued shall not exceed the present value of the aggregate debt service of the bonds, notes or other obligations so to be refunded or repaid. For purposes of this section, the present value of the aggregate debt service of the refunding or repayment of bonds, notes or other obligations and the aggregate debt service of the bonds, notes or other obligations and of the aggregate debt service of the bonds, notes or other obligations so to be refunded or repaid shall be calculated by utilizing the effective interest rate of the refunding or repayment of bonds, notes or other obligations, which shall be that rate arrived at by doubling the semi-annual interest rate (compounded semi-annually) necessary to discount the debt service payments on the refunding or repayment of bonds, notes or other obligations from payment of debts thereof to the date of issue of the refunding or repayment of bonds, notes or other obligations and to the price bid including estimated accrued interest from the sale thereof. The authority shall have the power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee or other subsidy with respect to any bonds.

2. The authority shall have the power from time to time to renew bonds or to issue renewal bonds for the purposes authorized under this title, to issue bonds to pay bonds, and, whenever it deems refunding expedient, to refund any bond by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds, partly to refund bonds then outstanding and partly for any other purpose of the authority. Bonds issued for refunding purposes shall be sold and the proceeds applied to the purchase, redemption or payment of the bonds or notes to be refunded.

3. Bonds issued by the authority may be general obligations secured by the faith and credit of the authority or may be special obligations payable solely out of particular revenues or other monies as may be designated in the proceedings of the authority under which the bonds shall be authorized to be issued, subject as to priority only to any agreements with the holders of outstanding bonds pledging any particular property, revenues or monies. The authority may also enter into loan agreements, lines of credit and other security agreements and obtain for or on its behalf letters of credit, insurance, guarantees or other credit enhancements to the extent now or hereafter available, in each case for securing its bonds or to provide direct payment of any costs which the authority is authorized to pay.

4. (a) Bonds shall be authorized by resolution of the governing body of the authority, be in such denominations and bear such date or dates and mature at such time or times, as such resolution may provide, provided that bonds and renewals thereof shall mature within thirty years from the date of original issuance of any such bonds.

(b) Bonds shall be subject to such terms of redemption, bear interest at such rate or rates, be payable at such times, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution may provide. Notwithstanding any other provision of law, the bonds of the authority issued pursuant to this section shall be sold to the bidder offering the lowest true interest cost, taking into consideration any premium or discount not less than four nor more than fifteen days, Sunday excepted, after a notice of such sale has been published at least once in a newspaper of general circulation in the service area of the authority, which shall state the terms of the sale. The terms of the sale may not change unless notice of such change is published in such newspaper at least one day prior to the date of the sale as set forth in the original notice of sale. Advertisements shall contain a provision to the effect that the authority, in its discretion, may reject any or all bids made pursuant to such advertisements, and in the event of such rejection, the authority is authorized to negotiate a private or public sale or readvertise for bids in the form and manner above described as many times as, in its judgment, may be necessary to effect satisfactory sale.

(c) Notwithstanding the provisions of paragraph (b) of this subdivision, whenever in the judgment of the authority the interests of the authority will be served thereby, the governing body of the authority, on the written recommendation of the chairperson may authorize the sale of such bonds at private or public sale on a negotiated basis or on either a competitive or negotiated basis. The authority shall set guidelines governing the terms and conditions of any such private or public sales. The private or public bond sale guidelines set by the authority shall include, but not be limited to, a requirement that where the interests of the authority will be served by a private or public sale of bonds, the authority shall select underwriters taking into account, among other things, qualifications of underwriters as to experience, their ability to structure and sell authority bond issues, anticipated costs to the authority, the prior experience of the authority with the firm, if any, the capitalization of such firms, participation of qualified minority and women-owned business enterprise firms in such private or public sales of bonds of the authority and the experience and ability of firms under consideration to work with minority and women-owned business enterprises so as to promote and assist participation by such enterprises.

(d) The authority shall have the power from time to time to amend such private bond sale guidelines in accordance with the provisions of this subdivision.

(e) No private or public bond sale on a negotiated basis shall be conducted by the authority without prior approval of the state comptroller. The authority shall annually prepare and approve a bond sale report which shall include the private or public bond sale guidelines as specified in this subdivision, amendments to such guidelines since the last private or public bond sale report, an explanation of the bond sale guidelines and amendments, and the results of any sale of bonds conducted during the fiscal year. Such bond sale report may be a part of any other annual report that the authority is required to make.

(f) The authority shall annually submit its bond sale report to the state comptroller and copies thereof to the senate finance committee and the assembly ways and means committee.

(g) The authority shall make available to the public copies of its bond sale report upon reasonable request thereof.

(h) Nothing contained in this subdivision shall be deemed to alter, affect the validity of, modify the terms of, or impair any contract or agreement made or entered into in violation of, or without compliance with, the provisions of this subdivision.

5. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as follows:

(a) pledging all or any part of the revenues, other moneys or property of the authority to secure the payment of the bonds, or any costs of issuance thereof, including but not limited to any contracts, earnings or proceeds of any grant to the authority received from any private or public source subject to such agreements with bondholders as may exist;

(b) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(c) limitations on the purpose to which the proceeds from the sale of bonds may be applied;

(d) the rates, rents, fees and other charges to be fixed and collected by the authority and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) limitations on the right of the authority to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;

(f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) the creation of special funds into which any revenues or moneys may be deposited;

(i) the terms and provisions of any trust, mortgage, deed or indenture securing the bonds under which the bonds may be issued;

(j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustees appointed by the bondholders pursuant to this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of such trustee;

(k) defining the acts or omissions to act which may constitute a default in the obligations and duties of the authority to the bondholders and providing for the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) limitations on the power of the authority to sell or otherwise dispose of any project or any part thereof;

(m) limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the authority;

(n) the payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine; and

(o) any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

6. In addition to the powers herein conferred upon the authority to secure its bonds, the authority shall have power in connection with the issuance of bonds to adopt resolutions and enter into such trust indentures, agreements or other instruments as the authority may deem necessary, convenient or desirable concerning the use or disposition of its revenues or other moneys or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, moneys or property and the doing of any act, including refraining from doing any act which the authority would have the right to do in the absence of such resolutions, trust indentures, agreements or other instruments. The authority shall have

power to enter into amendments of any such resolutions, trust indentures, agreements or other instruments. The provisions of any such resolutions, trust indentures, agreements or other instruments may be made a part of the contract with the holders of bonds of the authority.

7. Any provisions of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the authority shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfect against all parties having claims of any kind in tort, contract or otherwise, against the authority irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

8. Whether or not the bonds are of such form and character as to be securities under the terms of the uniform commercial code, the bonds are hereby made securities within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

9. Neither the members of the authority nor any person executing its bonds shall be liable personally on its bonds or be subject to any personal liability or accountability by reason of the issuance thereof.

10. Subject to such agreements with bondholders as may then exist, the authority shall have power out of any funds available therefor to purchase bonds of the authority, in lieu of redemption, at a price not exceeding, if the bonds are then redeemable, the redemption price then applicable plus accrued interest to the next interest payment date, or, if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date. Bonds so purchased shall thereupon be canceled.

11. The authority shall have power and is hereby authorized to issue negotiable bond anticipation notes in conformity with applicable provisions of the uniform commercial code and may renew the same from time to time but the maximum maturity of any such note, including renewals thereof, shall not exceed five years from the date of issue of such original note.

12. The authority may request of the state an increase in the aggregate amount of bonds, notes or other obligations established in subdivision one of this section only upon a two-thirds majority vote of the board.

§ 2583. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to this title:

1. In the event that the authority shall default in the payment of principal or of interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in aggregate principal amount of the bonds of such issue then outstanding, by instrument or instruments filed in the office of the Monroe county clerk and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds outstanding, shall in its own name:

(a) by action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the authority to collect rents, rates, fees and charges adequate to carry out any agreement as to, or pledge of, such rents, rates, fees and charges and to require the authority to carry out any other agreements with the holders of such bonds to perform its duties under this title;

(b) bring an action or proceeding upon such bonds;

(c) by action or proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) by action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. Such trustee shall, in addition to the foregoing, have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be in the county.

5. Before declaring the principal of bonds due and payable, the trustee shall first give thirty days notice in writing to the authority.

6. Any such trustee whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of a receiver of any part or parts of the project, the revenues of which are pledged for the security of the bonds of such issue, and such receiver may enter and take possession of such part or parts of the project and, subject to any pledge or agreement with the holders of such bonds, shall take possession of all moneys and other property derived from such part or parts of the project and proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith that the authority is under obligation to do, and operate, maintain and reconstruct such

part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee, the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the project.

§ 2584. State and county not liable on authority bonds. Neither the state nor the county shall be liable on the bonds of the authority and such bonds shall not be a debt of the state nor the county and such bonds shall contain on the face thereof a statement to such effect.

§ 2585. Moneys of the authority. All moneys of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in a bank or banks designated by the authority. The moneys in such accounts shall be paid out on check of the treasurer upon requisition by such person or persons as the authority may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of the United States or of the state or of any municipality of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. To the extent practicable, consistent with the cash requirements of the authority, all such moneys shall be deposited in interest bearing accounts. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds as to the custody, collection, security, investment and payment of any moneys of the authority or any moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds, and carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Moneys held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such moneys, may be secured in the same manner as moneys of the authority and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the authority not required for immediate use or disbursement may, at the discretion of the authority, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law. Subject to the provisions of any contract with bondholders and with the approval of the controller, the authority shall prescribe a system of accounts.

§ 2586. Bonds legal investment for fiduciaries. The bonds of the authority are hereby made securities in which all public officers and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now, or may hereafter be authorized to invest in bonds or other obligations of the state may properly and legally invest funds including capital in their control or belonging to them. The bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of the state and all municipalities for any purposes for which the deposit of bonds or other obligations of this state are now or hereafter may be authorized.

§ 2587. Agreement with state. The state does hereby pledge to and agree with the holders of any bonds issued by the authority pursuant to this title and with those persons or public corporations who may enter into contracts with the authority pursuant to the provisions of this title that the state will not alter, limit or impair the rights hereby vested in the authority to purchase, construct, own and operate, maintain, repair, improve, reconstruct, renovate, rehabilitate, enlarge, increase and extend, or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any contracts or agreements made with or for the benefit of the holders of bonds or with any person or public corporation with reference to such project or part thereof, or in any way to impair the rights and remedies of the holders of bonds, until the bonds, together with interest thereon, including interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the holders of bonds, are fully met and discharged and such contracts are fully performed on the part of the authority. The authority is authorized to include this pledge and agreement of the state in any agreement with the holders of bonds. Nothing contained in this title shall be deemed to restrict the right of the state to amend, modify, repeal or otherwise alter statutes imposing or relating to taxes or fees, or appropriations relating thereto. The authority shall not include within any resolution, contract or agreement with holders of the bonds issued under this title any provision which provides that a default occurs as a result of the state exercising its right to amend, repeal, modify or otherwise alter such taxes, fees, or appropriations. Nothing in this title shall be deemed to obligate the state to make any payments or impose any taxes to satisfy the debt service obligations of the authority.

§ 2588. Agreement with county. The county is authorized to pledge to and agree with the holders of any bonds issued by the authority pursuant to this title and with those persons or public corporations who may enter into contracts with the authority, pursuant to the provisions of this title, that the county will not alter, limit or impair the rights hereby vested in the authority to purchase, construct, own and operate, maintain, repair, improve, reconstruct, renovate, rehabilitate, enlarge, increase and extend, or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any agreements made with the holders of the bonds or with any public corporation or person with reference to such project or part thereof, or in any way impair the rights and remedies of the holders of bonds, until the bonds, together with interest thereon, including interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the holders of bonds, are fully met and discharged and such contracts are fully performed on the part of the authority.

§ 2589. Tax exemption and tax contract by the state. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes are in all respects for the benefit of the people of the state of New York and are public purposes. Accordingly, the authority shall be regarded as performing an essential governmental function in the exercise of the powers conferred upon it by this title. The property of the authority, its income and its operations shall be exempt from taxation, assessments, special assessments and ad valorem levies. The authority shall not be required to pay any fees, taxes, special ad valorem levies or assessments of any kind, whether state or local, including, but not limited to, fees, taxes, special ad valorem levies or assessments on real property, franchise taxes, sales taxes or other taxes, upon or with respect to any property owned by it or under its jurisdiction, control or supervision, or upon the uses thereof, or upon or with respect to its activities or operations in furtherance of the powers conferred upon it by this title, or upon or with respect to any fares, tolls, rentals, rates, charges, fees, revenues or other income received by the authority.

2. Any bonds issued pursuant to this title, their transfer and the income therefrom shall, at all times, be exempt from taxation.

3. The state hereby covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the authority pursuant to this title, in consideration of the acceptance of and payment for the bonds, that the bonds of the authority issued pursuant to this title and the income therefrom and all revenues, moneys, and other property pledged to pay or to secure the payment of such bonds shall at all times be exempt from taxation.

4. Notwithstanding any provision of this section, the authority shall

be required to pay water and sewer fees or charges imposed by any public corporation.

5. The foregoing shall not, however, limit the county from receiving rentals, fees or other consideration pursuant to agreements negotiated with the authority.

§ 2590. Actions against authority. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the authority, its members, officers, or employees for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence, tort or wrongful act of the authority or of any member, officer, agent or employee thereof, unless (a) a notice of claim shall have been made and served upon the authority within the time limit set by and in compliance with section fifty-e of the general municipal law, (b) it shall appear by, and as an allegation in the complaint or moving papers, that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

2. Whenever a notice of claim is served upon the authority, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. Any action or proceeding to which the authority or the people of the state may be parties, in which any question arises as to the

validity of this title, shall be preferred over all other civil causes of action or cases, except election causes of action or cases, in all courts of the state and shall be heard and determined in preference to all other civil business pending therein except election causes, irrespective of position on the calendar. The same preference shall be granted upon application of the authority or its counsel in any action or proceeding questioning the validity of this title in which the authority may be allowed to intervene.

5. The rate of interest to be paid by the authority upon any judgment for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section five thousand four of the civil practice law and rules. Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

6. The venue for all actions or proceedings against the authority of whatever nature shall be laid in supreme court for the county of Monroe.

§ 2591. Contracts. 1. Construction contracts let by the authority shall be in conformity with the applicable provisions of section one hundred thirty-five of the state finance law.

2. The authority may, in its discretion, assign contracts for supervision and coordination to the successful bidder for any subdivision of work for which the authority receives bids. Any construction contract awarded by the authority shall contain such other terms and conditions as the authority may deem desirable. The authority shall not award any construction contract except to the lowest bidder who, in its opinion, is qualified to perform the work required and who is responsible and reliable. The authority may, however, reject any or all bids or waive any informality in a bid if it believes that the public interest will be promoted thereby. The authority may reject any bid, if, in its judgment, the business and technical organization, plant, resources, financial standing, or experience of the bidder justifies such rejection in view of the work to be performed.

3. All contracts or leases for the construction, reconstruction, rehabilitation or improvement of buildings let by the authority shall comply with the provisions of section two hundred twenty of the labor law.

4. For the purposes of article fifteen-A of the executive law only, the authority shall be deemed a state agency as that term is used in such article, and all contracts for procurement, design, construction, services and materials shall be deemed state contracts within the meaning of that term as set forth in such article.

5. If after consideration, the authority determines acting within its discretion and proprietary capacity that given the purpose of any project and the impact of delay, the possibility of cost savings advantages, and the local history of labor unrest, if any, its interest in obtaining the best work at the lowest possible price and preventing favoritism, fraud and corruption are best met by requiring a project labor agreement as an incident of any contract let by the authority regarding any project, it may require such a project labor agreement.

§ 2592. Audit and annual report. In conformity with the provisions of section five of article ten of the constitution, the accounts of the authority shall be subject to the supervision of the state comptroller and an annual audit shall be performed by an independent certified accountant. The authority shall annually submit to the governor and the state comptroller and to the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee a detailed report pursuant to the provisions of section two thousand eight hundred of this chapter, and a copy of such report shall be filed with the clerk of the county legislature and the county executive.

§ 2593. Defense and indemnification. The authority shall not execute any of its powers, except as necessary to commence its corporate existence, until it has elected to make the provision of section eighteen of the public officers law applicable to its employees (as such term is defined in section eighteen of the public officers law) pursuant to subdivision two of such section; provided, however, that nothing contained within this section shall be deemed to permit the authority to extend the provisions of section eighteen of the public officers law upon any independent contractor.

§ 2594. Code of ethics. The authority shall be deemed a state agency for the purposes of section seventy-four of the public officers law.

§ 2595. Equal employment opportunity. The authority shall ensure that all employees or applicants for employment are afforded equal employment opportunity without discrimination on any basis prohibited under subdivision two of section forty-c of the civil rights law.

§ 2596. Transfer of applications, proceedings, approvals and permits. 1. Any application, review or process in relation to or in furtherance of the purposes of or contemplated by this title heretofore filed or undertaken, or any proceeding heretofore commenced or any determination, finding or award made, by the county or by the county with the federal government, the department of environmental conservation, the department of transportation or any other public corporation shall inure to and for the benefit of the authority to the same extent and in the same manner as if the authority had been a party to such application, review, process or proceeding from its inception, and the authority shall be deemed a party thereto, to the extent not prohibited by any federal law. Any license, approval, permit, determination, finding, award or decision heretofore or hereafter issued or granted pursuant to or as a result of any such application, review, process or proceeding shall inure to the benefit of and be binding upon the authority and shall be assigned and transferred by the county to the authority unless such assignment and transfer is prohibited by federal law.

2. All such applications, proceedings, licenses, approvals, permits,

determinations, findings, awards and decisions shall further inure to and for the benefit of and be binding upon any person leasing, acquiring, financing, constructing, maintaining, operating, using or occupying any facility financed in whole or in part by the authority.

§ 2597. Separability. If any clause, sentence, paragraph, section, or part of this title shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section, or part thereof involved in the controversy in which such judgment shall have been rendered.

§ 2598. Effect of inconsistent provisions. Insofar as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of the county or city charter or any local law, charter, ordinance or resolution of any other municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the authority otherwise set forth in this title. Except as specifically provided for in this title, in the performance of any of its functions, powers and duties, the authority shall be subject to all applicable general or special laws of the state, the county charter, and any local law, ordinance or resolution of the county.

TITLE 28

NEW YORK STATE OLYMPIC REGIONAL DEVELOPMENT AUTHORITY

§ 2605. Short title. This title shall be known and may be cited as the "New York state olympic regional development authority act".

§ 2606. Legislative findings. It is hereby found, determined and declared that there is an immediate need to institute a comprehensive, coordinated program of activities utilizing the olympic facilities in and around Lake Placid, New York, in order to insure optimum year-round use and enjoyment of these facilities to the economic and social benefit of the olympic region and to minimize the financial burden on the state and local governments in the maintenance and operation of these facilities by means of maximizing revenue opportunities for their support; and to take advantage of the opportunity to improve the physical fitness and athletic and recreational education of the people of this state and the United States by assisting in the use and maintenance of these facilities. It is further declared to be desirable to create a state olympic regional development authority to operate, manage and maintain the olympic facilities, develop, implement and supervise the professional management necessary for such a comprehensive, coordinated program and for the management, promotion, scheduling and conduct of an integrated, year-round program and a wide range of national and international athletic training and competitive opportunities and other activities which can effectively utilize the available facilities. The authority shall carry out its purposes and responsibilities and utilize the facilities through agreements with state and local agencies which have jurisdiction over the various olympic facilities in the olympic region. It is further declared to be desirable that the authority develop, construct, operate, manage and maintain facilities, or participate therein, for the training and housing of amateur athletes in connection with the United States olympic committee's training center program and the authority's conduct of national and international sports events. It is further declared that the authority shall be created as a public benefit corporation and that the corporate programs and powers conferred under this title and the expenditures of public moneys pursuant thereto are in furtherance of serving a valid public interest and public purpose.

§ 2607. Definitions. The following terms, whenever used or referred to in this title, unless the context indicates otherwise, have the following meanings:

1. The term "olympic facility" shall mean any publicly owned, administered or supervised facility located in the olympic region and suitable for use in connection with athletic training, housing or competition, or with recreational or physical educational activities. The fact that any such facility is also suitable for other uses in addition to those specified shall not exclude such facility from the scope of this definition.

2. The term "authority" shall mean the New York state olympic regional development authority as created by section twenty-six hundred eight of this title.

3. The term "events" shall mean any organized athletic competition, organized athletic training, recreational activity, educational activity, entertainment activity or other activity suitable to be conducted in any olympic facility.

4. The term "park district" shall mean the town of North Elba, public parks and playgrounds district, a special district created by chapter four hundred seventy-seven of the laws of nineteen hundred twenty-eight.

5. The term "olympic region" shall mean the county of Essex, state of New York.

6. The term "participating olympic facility" shall mean any olympic facility subject to an agreement entered into by the authority pursuant to section twenty-six hundred twelve or twenty-six hundred fourteen of this title.

7. The term "state" shall mean the state of New York.

§ 2608. New York state olympic regional development authority. 1. For the purposes of effectuating the policy declared in section twenty-six hundred six of this title, there is hereby created the "New York state olympic regional development authority", referred to in this title as "the authority", which shall be a body corporate and politic constituting a public benefit corporation. The authority shall consist of twelve members who shall be the commissioner of environmental conservation, the commissioner of economic development, the commissioner of parks, recreation and historic preservation and nine persons to be appointed by the governor, by and with the advice and consent of the senate. Of the nine persons appointed by the governor, by and with the advice and consent of the senate, one each shall be appointed upon the recommendation of the temporary president of the senate and the speaker of the assembly. Three of the persons appointed by the governor, by and with the advice and consent of the senate shall be appointed upon the recommendation of the town board of the town of North Elba and shall be residents of the park district. Two persons shall be appointed by the governor, by and with the advice and consent of the senate, one of whom shall reside in Ulster county and the other of whom shall reside in Delaware county. One of the persons appointed by the governor, by and with the advice and consent of the senate, shall be a resident of Warren county. The governor shall appoint a chairperson, a vice-chairperson and a second vice-chairperson from among any of the members of the authority and such chairperson, vice-chairperson and second vice-chairperson shall serve at the pleasure of the governor, provided, however, that the vice-chairperson shall be appointed on the recommendation of the town board of North Elba; and the second vice-chairperson shall be appointed upon the recommendation of the town boards of the town of Shandaken in Ulster county and the town of Middletown in Delaware county; and must be a resident of Ulster or Delaware counties; with a majority vote of the combined two town boards determining who shall be recommended to the governor for appointment of that position. From among any candidates recommended by the chairman, the members shall appoint a president/chief executive officer of the authority.

The members first appointed by the governor shall be appointed within thirty days of the effective date of this title. The members appointed as a result of the enactment of the chapter of the laws of two thousand twelve which amended this section, consisting of the eleventh and twelfth board members, shall be appointed within ninety days of the effective date of such chapter. The first members appointed by the governor upon the recommendation of the temporary president of the senate and the speaker of the assembly shall serve terms of three years respectively from January first next succeeding their appointment. The remaining four members first appointed by the governor shall serve terms of one, two, four and five years respectively from January first next succeeding their appointment. The fifth member appointed by the governor shall serve a term of two years from January first, next succeeding his or her appointment. Each appointment of a member following the expiration of the original terms of the appointment shall be for a term of five years. The members appointed by the governor who are required to reside in either Delaware or Ulster counties shall be appointed for terms of four years. Members shall continue to hold office until their successors have been appointed and qualified. In the event of a vacancy occurring during the term of a member's appointment, by reason of death, resignation, disqualification or otherwise, such vacancy shall be filled for the unexpired term in the same manner as the original appointment.

2. The members of the authority shall not receive a salary or other compensation for their services as members of the authority but each member shall be allowed reimbursement for the necessary and actual expenses which he or she shall incur in the performance of his or her duties under this title.

3. The president/chief executive officer shall serve at the pleasure of the members and shall be responsible for the discharge of the executive and administrative functions and exercise of any power or function of the authority.

4. Seven members of the authority shall constitute a quorum for the transaction of any business or the exercise of any power or function of the authority. The authority may delegate to one or more of its members, officers, agents and employees, such powers and duties as it may deem proper. The commissioner of environmental conservation, the commissioner of economic development, the commissioner of parks and recreation and any other member of the authority who is a full time employee of the state or who holds public office may designate one person from his department or from the public corporation in which he holds a public office to represent him at all meetings of the authority from which such member may be absent. Any representative so designated shall have the power to attend and to vote at any meeting of the authority from which the member so designating him is absent, with the same force and effect as if the member designating him were present and voting. Such designation shall be by written notice filed with the chairman of the authority by the member making the designation and shall be for a term of one year or until such representative shall resign or shall no longer be employed by the department of which such member making the designation is an employee or by the public corporation of which such member making the designation holds a public office or until revoked by the person making such designation. Such designation shall not limit the

power of the member making the designation to attend and vote in person at any meeting of the authority.

5. The authority shall be a "state agency" for the purposes of sections seventy-three and seventy-four of the public officers law.

6. Notwithstanding any inconsistent provisions of this or any other law, general, special or local, no officer or employee of the state, as defined in the public officers law, or of the park district shall be deemed to have forfeited or shall forfeit his office of employment or any benefits provided under the retirement and social security law or under any public retirement system maintained by the state or any of its subdivisions by reason of his acceptance of membership on or chairmanship of the authority; provided, however, a member or chairman who holds such other public office of employment shall receive no additional compensation for services rendered pursuant to this title, but shall be entitled to reimbursement for his actual and necessary expenses incurred in the performance of such services.

7. The governor may remove any member of the authority for cause, other than the commissioner of environmental conservation, the commissioner of economic development and the commissioner of parks and recreation, after giving him a copy of the charges against him and an opportunity to be heard, in person or by counsel in his defense, upon not less than ten days' notice. If any member shall be so removed, the governor shall file in the office of the department of state a complete statement of charges made against such member, and his findings thereon, together with a complete record of the proceedings.

8. The principal office of the authority shall be located in the town of North Elba and the authority shall establish a second office at the Belleayre Mountain ski center.

9. Nothing shall preclude the use of meetings and votes by video conference or other conferencing which permits conferees to see the other members during board meetings through television or the internet.

§ 2609. Community advisory panel. 1. Within ninety days following the appointment of the members of the authority, the members shall appoint an advisory panel to act as consultants to the authority for the purpose of advising and assisting the authority in procuring international and national athletic sporting events and competition.

2. The advisory panel shall consist of nineteen persons, ten of whom shall be appointed upon the recommendation of the North Elba sports council, a council created by the park district, two of whom shall be appointed upon the recommendation of the legislature of the county of Delaware and two of whom shall be appointed upon the recommendation of the legislature of the county of Ulster. Such ten members of the panel shall have knowledge of athletic competition and winter and summer sports and recreation events and activities. The members of the panel shall serve for a period of two years. In the event of a vacancy occurring during a panel member's appointment, by reason of death, resignation, disqualification or otherwise, such vacancy shall be filled for the unexpired term in the same manner as the original appointment.

3. The members of the panel shall serve without compensation, except that each member of the panel shall be allowed the necessary and actual expenses which he shall incur in the performance of his duties within the state under this title.

§ 2610. Review of and recommendation on continuation of the authority. 1. The authority and its corporate existence shall continue until terminated by law, provided, however, that no such law shall take effect so long as the authority shall have any outstanding obligations, unless adequate provision has been made for the satisfaction thereof.

2. The authority shall submit on August fifteenth, nineteen hundred ninety, a report to the governor, the chairman of the senate finance committee and the chairman of the assembly ways and means committee and the park district detailing the accomplishments of the authority since its creation and making recommendations concerning its continuation.

3. The comptroller may conduct periodic financial audits of the authority and report on August fifteenth, nineteen hundred ninety, to the governor, the chairman of the senate finance committee and the chairman of the assembly ways and means committee and the park district on the appropriateness of the financial practices of the authority.

4. The director of the budget is hereby directed to conduct a survey of the management and operating practices of the authority and report on August fifteenth, nineteen hundred ninety, to the governor, the chairman of the senate finance committee and the chairman of the assembly ways and means committee and the park district on the appropriateness of the management and operating practices of the authority. The director of the budget shall include in such report his recommendations of whether the authority shall be terminated or whether it shall be changed in any manner, and if the director of the budget shall recommend that the authority be terminated, he shall recommend what functions shall be eliminated and what functions shall be continued by another authority or agency.

5. In the event of termination of the existence of the authority, all of its rights and properties shall pass to and be vested in the state, except the personal property and any replacements and/or substitutions therefor, used solely in connection with a participating olympic facility which is administered, owned or supervised by the park district shall pass to and be vested in the park district. All property which passes to the state or the park district on termination of the authority shall be accepted by the state or the park district, as the case may be, in its condition at the time of such termination.

§ 2611. Powers of the authority. Except as otherwise may be limited by this title, the authority shall have power:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To acquire, lease, hold and dispose of real and personal property or any interest therein for its corporate purposes;

4. To make and alter by-laws for its organization and internal management, and rules and regulations governing the exercise of its powers and the fulfillment of its purposes under this title. Such rules and regulations must be filed with the secretary of state and the town clerk of North Elba and the town clerks of the towns of Johnsburg, Shandaken and Middletown;

5. To enter into contracts for employment of such officers and employees as it may require for the performance of its duties, and to fix and determine their qualifications, duties and compensation and to retain or employ such personnel as may be required for its corporate purposes and private consultants on a contract basis or otherwise for rendering professional or technical services and advice;

6. To schedule and book events at participating olympic facilities, and the facilities of Belleayre Mountain ski center and other properties owned or controlled by the authority with public and private individuals, organizations, groups and other entities desiring to use such facilities for conducting events and activities appropriate to the purposes of the authority;

7. To enter into contracts, leases and subleases and to execute all instruments necessary or convenient for the conduct of authority business, including agreements with the park district and any state agency which administers, owns or supervises any olympic facility or Belleayre Mountain ski center, as provided in sections twenty-six hundred twelve and twenty-six hundred fourteen of this title. This shall include the power to enter into contracts or other agreements to join reciprocal ski pass programs with other ski areas, where the members of such reciprocal pass program are required to defend and/or indemnify one or more other members of such program for claims or causes of action arising out of, or relating to, such contract or agreement. This power shall be limited by the amount of the authority's discretionary funds,

any lawful appropriation, or other funding, up to a limit of two hundred fifty thousand dollars per such claim or cause of action;

8. To undertake or cause to be undertaken plans, surveys, analyses and studies necessary, convenient or desirable for the effectuation of the purposes and powers of the authority and to prepare recommendations in regard thereto;

9. To enter into contracts to operate, maintain and manage olympic facilities and the Belleayre Mountain ski center;

10. To fix and collect fees, rents and other charges for the use of olympic facilities and to authorize any other person on its behalf to collect same;

11. To conduct or contract for the conduct of all necessary or convenient services relevant to the publicizing, advertising, marketing and promoting of participating olympic facilities and events scheduled at such facilities, including, without limitation, the sale of media rights;

12. To operate, or contract for the operation of, concession services at any participating olympic facility or the Belleayre Mountain ski center;

13. To contract for and to accept any gifts or grants, subsidies, or loans of funds or property or financial or other aid in any form from the federal or state government or any agency or instrumentality thereof, or from any other source, public or private, and to comply, subject to the provisions of this title, with the terms and conditions thereof; provided however, the authority shall not contract for the payment of debt evidenced by bonds or notes or other evidence of indebtedness issued by any public corporation for capital improvements either directly or through a lease purchase agreement with any public corporation without the prior approval of the public authorities control board;

14. To develop and construct, or participate in the development and construction of, a facility or facilities, whether or not to be owned by the authority, and to operate, maintain and manage any such facilities, for the training and housing of amateur athletes in connection with the United States olympic training center program and the authority's conduct of national and international sports events;

15. To procure insurance against any loss or liability in connection with the use, management, maintenance and operation of the participating olympic facilities and/or Belleayre Mountain ski center, in such amounts and from such insurers, subject to public bidding as it deems desirable; and

16. To do all things necessary, convenient or desirable to carry out its purposes and for the exercise of the powers granted in this title.

§ 2612. Agreement with the park district. 1. The specific terms of the agreement shall not exceed twenty years and shall be negotiated between the authority and the park district with respect to all participating olympic facilities owned by the park district, and shall include but not be limited to, the ski jump facilities located at Intervale and the speed skating and arena complex located in the village of Lake Placid.

2. The agreement between the authority and the park district shall provide the following:

(a) The authority shall receive the participating olympic facility, including any personal property and equipment owned by the park district and used solely in connection therewith, which is the subject matter of the agreement in its condition at the time of the commencement of the agreement.

(b) The authority shall agree to continue to provide at the participating olympic facility the space, facilities and the level of local recreation, including youth sports training, promotion and programming, as was provided by the park district during the year immediately preceding the execution of the agreement.

(c) The authority shall comply with (1) all agreements existing on the effective date of this title affecting the participating olympic facility, provided such existing agreements are listed in the agreement with the park district, and (2) all agreements entered into by the park district after the effective date of this title which affect the participating olympic facility, provided such agreements are first approved by the director of the budget.

(d) Upon termination of the agreement, the personal property, including replacements and/or substitutions therefor, which is owned by the authority and used solely in connection with the participating olympic facility which is the subject matter of the agreement shall pass to and be vested in the park district. Such personal property shall be accepted by the park district in its condition at the time of such termination.

(e) The authority shall maintain and keep the participating olympic facility, including the personal property and equipment used solely in connection therewith, in good repair, provided that the authority shall not be required to repair any damage to the participating olympic facility, including the personal property and equipment used solely in connection therewith, existing at the time the authority enters into the agreement unless funds are made available to the authority therefor.

(f) The authority may make improvements to the participating olympic facility to the extent that federal funds are made available for such purpose.

(g) The authority may terminate its agreement with the park district if the park district fails to carry out all of the provisions of the agreement or fails to appropriate and pay (1) in the first full fiscal year of the authority following the execution of the agreement an amount to be agreed upon by the park district and the authority, which amount shall be equal to the total cost of operating the participating olympic facility which is the subject matter of the agreement in the first full fiscal year of the park district immediately preceding execution of the agreement, less all income received by the park district from the operation of the participating olympic facility in such year; and (2) in each fiscal year thereafter an amount equal to the appropriation made to the authority as provided in subparagraph one of this paragraph in the first full fiscal year following execution of the agreement, plus such amount multiplied by the percentage increase of the park district's full tax assessment of real property within its taxing district for the fiscal year for which the appropriation is made over the full tax assessment in the first full fiscal year following execution of the agreement.

(h) The park district and the authority shall agree on the dates that the park district shall provide such appropriation to the authority.

(i) The park district may terminate its agreement with the authority if the park district fails to approve the budget of the authority as it pertains to the operation of participating olympic facilities or if the state fails to appropriate and pay funds as provided in paragraph (g) of subdivision two of section twenty-six hundred fourteen of this title.

§ 2613. Appropriations by the park district. 1. On or before August fifteenth, nineteen hundred eighty-one, and on each August fifteenth thereafter, the chairman of the authority, for the approval by the park district, shall make and deliver to the official designated by the park district a budget for the operation of participating olympic facilities by the authority for the forthcoming fiscal year of the state. The budget shall delineate the total amount needed for authority purposes, including the funds required by the authority for operation of the participating olympic facilities pursuant to agreements made in accordance with sections twenty-six hundred twelve and twenty-six hundred fourteen of this title, the source of all funds that the authority expects to receive and such other information as such official of the park district shall require. The park district shall approve the budget for the operation of participating olympic facilities by the authority if the park district determines that the budget demonstrates that the authority, without operating at a deficit, can continue in the forthcoming fiscal year of the state in the exercise of its corporate purposes, powers, duties and functions with the appropriations from the state and the park district in the amounts determined in accordance with sections twenty-six hundred twelve and twenty-six hundred fourteen of this title and income received by the authority from other sources.

2. The park district may appropriate and provide to the authority an amount of money determined in accordance with subparagraphs one and two

of paragraph (g) of subdivision two of section twenty-six hundred twelve of this title. The park district shall notify the state director of the budget not later than October first of each year whether or not it has approved the budget, made an appropriation to the authority and if such appropriation is made, the amount thereof.

§ 2614. Agreements with the state. 1. The specific terms of each agreement shall be negotiated between the authority and any state agency which administers or supervises a participating olympic facility owned by the state of New York.

2. Each such agreement shall provide the following:

(a) The authority shall receive the participating olympic facility, including the personal property and equipment used solely in connection therewith, which is the subject matter of this agreement in its condition at the time of the commencement of the agreement.

(b) The authority shall agree to continue to provide at the participating olympic facility the space, facilities and the level of public recreation, including youth sports training, promotion and programming, as was provided by the state agency operating said facility during the year immediately preceding the execution of the agreement.

(c) The authority shall comply with all agreements executed by the state affecting the participating olympic facility existing at the time the authority enters into the agreement with the state, provided such existing agreements are listed in the agreement with the state.

(d) Upon termination of the agreement, the personal property, including replacements and/or substitutions therefor, which is owned by the authority and used solely in connection with the participating olympic facility which is the subject matter of the agreement shall pass to and be vested in the state. Such personal property shall be accepted by the state in its condition at the time of such termination.

(e) The authority shall maintain and keep the participating olympic facility, including the personal property and equipment used solely in connection therewith, in good repair, provided that the authority shall not be required to repair any damage to the participating olympic facility, including the personal property and equipment used solely in connection therewith, existing at the time the authority enters into the agreement unless funds are made available to the authority therefor.

(f) The authority may make improvements to the participating olympic facility to the extent that federal funds are made available for such purpose.

(g) The authority may terminate its agreement with the state, if the state fails to carry out all of the provisions of the agreement or fails to appropriate and pay in each fiscal year of the state commencing with the fiscal year beginning April first, nineteen hundred eighty-two, the amount expended by the department of environmental conservation for the operation of the olympic facilities in the fiscal year immediately preceding the execution of said agreement, plus an amount supplied by a formula to be agreed upon by the parties which will reflect the legitimate and necessary net cost increases which may occur over the life of such agreement.

(h) The state may terminate its agreement with the authority if the director of the budget shall not approve the budget of the authority or if the park district fails to appropriate and pay funds as provided in subparagraphs one and two of paragraph (g) of subdivision two of section twenty-six hundred twelve of this title.

(i) To the extent the authority is not covered by insurance, the authority shall be held harmless by the state for any and all claims for damages or injuries arising out of the operation by the authority of any participating olympic facility owned by the state.

3. The authority shall enter into an agreement with the department of environmental conservation for the authority to operate, maintain and manage the Gore Mountain ski center located in the town of Johnsburg, county of Warren, state of New York. The specific terms of such agreement shall be negotiated by the authority and the department and shall include those provisions set forth in subdivision two of this section for inclusion in agreements with the state. Such agreement shall also provide that the authority may terminate the agreement if the state fails to appropriate and pay to the olympic regional development authority for the five consecutive fiscal years from April first, nineteen hundred eighty-five, through March thirty-first, nineteen hundred ninety for the operation of Gore Mountain, an amount at least

equal to the amount of funds appropriated and paid to the authority for the operation of Gore Mountain ski center for the fiscal year of the state beginning April first, nineteen hundred eighty-four, plus an amount supplied by the formula agreed to by the parties pursuant to paragraph (g) of subdivision two of this section. All of the powers of the authority provided by this title or any other law, including those pertaining to participating olympic facilities, shall apply in connection with such agreement and the operation and management of the Gore Mountain ski center.

4. The authority shall enter into an agreement with the department of environmental conservation for the authority to operate, maintain and manage the Belleayre Mountain ski center located in Ulster and Delaware counties, state of New York. The specific terms of such agreement shall be negotiated by the authority and the department and shall include those provisions set forth in subdivision two of this section for inclusion in agreements with the state. Such agreement shall include provisions to assure the continued viability of Belleayre as an attractive year-round tourist destination by, at a minimum, maintaining a level of capital investment, maintenance and operating support, consistent with the historical operating support, capital investment and maintenance provided by the department at Belleayre so that Belleayre Mountain ski center may be operated, maintained and improved in a similar manner to that of Whiteface and Gore Mountain ski centers. In addition, such agreement shall include provisions ensuring that the authority dedicate and utilize, for the operation, capital support and maintenance of Belleayre Mountain ski center: funds appropriated for the operation, maintenance and/or improvements of Belleayre Mountain ski center, revenue received as a result of Belleayre Mountain ski center operations, and monies received or intended from other sources and accounts that are intended for Belleayre Mountain ski center. All powers of the authority provided by this title or any other law, including those pertaining to participating olympic facilities, shall apply in connection with the operation and management of the Belleayre Mountain ski center.

5. The authority is hereby authorized to enter into an agreement with

the town of Johnsburg, Warren county to operate and manage town-owned ski and recreational facilities on town property in such town. The specific terms of such agreement shall be negotiated by the authority and the town and shall include those provisions set forth in subdivision two of this section for inclusion in such agreement with the town. All of the powers of the authority provided by this title or any other law, including those pertaining to participating olympic facilities, shall apply in connection with such agreement and the operation and management of such facilities.

§ 2615. Assistance by state officers, departments, boards and commissions. All officers, departments, boards, agencies, divisions and commissions of the state may render any services to the authority as are within the area of their respective governmental functions as fixed by law and as may be requested by the authority, and shall comply promptly with any reasonable request by the authority.

§ 2616. Appropriations by the state. 1. Notwithstanding the provisions of any general or special law, the director of the budget shall transfer to the authority from funds appropriated to the department of environmental conservation for the fiscal year beginning April first, nineteen hundred eighty-one, the amount necessary including an amount for general state charges to provide for the operation of participating olympic facilities pursuant to agreements made with state agencies in accordance with section twenty-six hundred fourteen of this title.

2. On or before August fifteenth, nineteen hundred eighty-one, and on each August fifteenth thereafter the chair of the authority shall make and deliver to the director of the budget for his or her approval and for submission to the legislature a budget for the operation of the authority for the forthcoming fiscal year of the state. The chair of the authority shall deliver a copy of such budget to the chair of the senate finance committee and the chair of the assembly ways and means committee at the same time that the budget is delivered to the director of the budget. The budget shall delineate the total amount needed for authority

purposes, including the funds required by the authority for operation of the olympic facilities, the Gore Mountain ski center and the Belleayre Mountain ski center pursuant to agreements made in accordance with sections twenty-six hundred twelve and twenty-six hundred fourteen of this title, the source of all funds that the authority expects to receive and such other information as the director of the budget shall require. The director of the budget shall approve the budget for the operation of the authority and the governor shall recommend in his or her annual budget appropriations to the authority if the director of the budget determines that the budget demonstrates that the authority, without operating at a deficit, can continue in the forthcoming fiscal year of the state, in the exercise of its corporate purposes, powers, duties and functions with the appropriations from the state and park district in the amounts determined in accordance with sections twenty-six hundred twelve and twenty-six hundred fourteen of this title and income received by the authority from other sources. The director of the budget shall notify the park district, the chair of the senate finance committee and the chair of the assembly ways and means committee not later than October first of each year whether or not he has approved the budget.

3. The state may appropriate and provide to the authority an amount of money determined in accordance with paragraph (g) of subdivision two and with subdivision three of section twenty-six hundred fourteen of this title.

4. To further assist the authority in carrying out its corporate purposes, the governor shall recommend to the legislature in his annual budget appropriation of such funds as may be available for such purposes from the earnings and accumulated income upon the principal of the winter sports education trust fund, pursuant to subdivision four of section four hundred ninety-five-a of the education law.

5. Notwithstanding the provisions of any general or special law, no part of such appropriations shall be available for the purposes designated until a certificate of approval of availability shall have been issued by the director of the budget and a copy of such certificate

is filed with the state comptroller, the chairman of the senate finance committee and the chairman of the assembly ways and means committee. Such certificate may be amended from time to time, subject to the approval of the director of the budget, and a copy of each such amendment shall be filed with the state comptroller, the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

6. Notwithstanding the provisions of section four hundred ninety-five-a of the education law, the sum of seven hundred fifty thousand dollars ($750,000), is hereby appropriated to the authority from the accumulated earnings upon the principal of the winter sports education trust fund.

§ 2617. Moneys of the authority. 1. The moneys of the authority shall be retained by it and deposited in a general account and such other accounts as the authority may deem necessary for the transaction of its business, and shall be paid out on checks signed by the president/chief executive officer of the authority or by such other members or officers as the authority may authorize.

2. The comptroller of the state and his legally authorized representatives are hereby authorized and empowered from time to time to examine the accounts and books of the authority including its receipts, disbursements, contracts, investments and any other matters relating to its financial standing.

§ 2618. Property and income of the authority. 1. The property of the authority and its income and operations shall be exempt from assessments of every kind and nature.

2. The authority may receive, accept, invest, administer, expend and disburse for its corporate purposes appropriations from the state and the park district, and other revenues and moneys made available or to be made available to it from any or all sources public or private.

3. Any such moneys of the authority not required for immediate use may, at the discretion of the authority, be invested pursuant to the provisions of section ninety-eight-a of the state finance law.

4. The authority shall accept from the New York state urban development corporation, created by chapter one hundred seventy-four of the laws of nineteen hundred sixty-eight, constituting the New York state urban development corporation act, all of the personal property acquired by it from Lake Placid nineteen hundred eighty Olympic Organizing Games, Inc.

§ 2619. Capital repair and improvement account. At the end of any authority fiscal year the members of the authority shall deposit not less than twenty-five percent of the profits, if any, of the preceding year's operations into a sinking fund for capital improvements. At the discretion of the members, the authority may undertake capital improvements and major repairs to the participating olympic facilities, to the Belleayre Mountain ski center, and to the Gore Mountain ski center; provided, however, that no such repairs may be undertaken without specific written approval by the entity which contracted with the authority for the operation of said facility. Any such repairs or improvements to real property shall upon completion become the property of and be vested in the owners of said real property. In the event of termination of the authority, the state and the park district each shall receive fifty percent of all moneys in the sinking fund. If an agreement between the authority and the park district or the state shall be terminated, the park district or the state, as the case may be, shall receive that portion of the moneys in the sinking fund it would have received if the authority were terminated as of the date of the termination of the agreement.

§ 2620. Public bidding. 1. Construction contracts let by the authority shall be in conformity with the applicable provisions of sections one hundred thirty-five and one hundred forty-four of the state finance law.

2. The authority may assign contracts for supervisions and coordination to the successful bidder for any subdivision of work for which the authority receives bids. Any construction contract award by the authority shall contain such other terms and conditions as the authority may deem desirable. The authority shall not award any construction contract except to the lowest bidder who, in its opinion, is qualified to perform the work required and who is responsible and reliable. The authority may, however, reject any or all bids or waive any informality in a bid if it reasonably believes that the public interest will be promoted thereby. The authority may reject any bid if, in its judgment, the business and technical organization, plant, resources, financial standing, or experience of the bidder justifies such rejection in view of the work to be performed.

§ 2621. Annual report. The authority shall submit to the governor, the chairman of the senate finance committee, the chairman of the assembly ways and means committee, the comptroller, the director of the budget, the supervisor of the town of Johnsburg, the supervisor of the town of Shandaken, the supervisor of the town of Middletown, and the supervisor of the town of North Elba within ninety days after the end of its fiscal year, a complete and detailed report setting forth: (1) its operations and accomplishments and (2) its receipts and expenditures during such fiscal year in accordance with the categories or classifications established by the authority for its operating and capital outlay purposes. Such report shall not be required to be submitted in print if the recipient of the report agrees to accept such report in electronic format.

§ 2622. Actions. 1. In any case founded upon tort a notice of claim shall be required as a condition precedent to the commencement of an action or special proceeding against the authority or any officer, appointee or employee thereof, and the provisions of section fifty-e of the general municipal law shall govern the giving of such notice.

2. Except in an action for wrongful death, no action shall be commenced (a) prior to the expiration of thirty days from the date on which the demand claim or claims upon which the action is founded were presented to a member of the authority or other officer thereof designated for such purpose; nor (b) more than one year and ninety days after the cause of action therefor shall have accrued. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

3. The venue of any action or proceeding against the authority or its members, officers, employees or agents, or in which any question arises as to the validity of any section of this act, shall be laid in the county in which the principal office of the authority is located.

4. Notwithstanding subdivision three of this section, exclusive jurisdiction is hereby conferred upon the court of claims to hear and determine any claim of any person brought hereafter against the authority to recover damages for injuries to property or for personal injury arising out of the operation by the authority of any participating olympic facility owned by the state or of the Belleayre Mountain ski center or of the Gore mountain ski center, in the same manner and to the extent provided and subject to the provisions of the court of claims act with respect to claims against the state, and to make awards and render judgments therefor. The payment of awards and judgments for any such claims brought in the supreme court pursuant to this title or in the court of claims shall be made from appropriations for judgments against the state pursuant to section twenty of the court of claims act.

§ 2623. Limitation of liability. 1. Neither the members of the authority, nor any person or persons acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from carrying out any of the powers of this title.

2. The provisions of section seventeen of the public officers law

shall apply to members, officers, and employees and agents of the authority in connection with any and all claims, demands, suits, actions or proceedings which may be made or brought against any of them arising out of any determination made or actions taken or omitted to be taken in compliance with any obligations under or pursuant to the terms of this title.

§ 2624. Exemption from taxation. 1. It is hereby determined that the creation of the authority and the conduct of its corporate purposes is in all respects for the benefit of the people of this state and the United States, and is a public purpose, and the authority shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title.

2. The authority, its operations, property and moneys shall be free from taxation of every kind and nature by a public corporation, the state and any subdivision thereof.

§ 2625. Inconsistent provisions of other laws superseded. Insofar as the provisions of this title are inconsistent with the provisions of any other law, general, special or local, the provisions of this title shall be controlling.

§ 2626. Construction. This title, being necessary for the welfare of the state and its inhabitants, shall be liberally construed so as to effectuate its purpose.

§ 2627. Separability. If any clause, sentence, paragraph, section or part of this title shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or part thereof directly involved in the controversy in which such judgment shall have been rendered.

§ 2628. Temporary assignment and transfer of employees. Whenever in the opinion of the authority it would be in the public interest, it may, after prior approval of the director of the budget, request the temporary assignment and transfer of certain employees of any board, commission, agency or department of the state or its political subdivisions, and said board, commission, agency or department shall, if in its opinion such transfer will not interfere with the performance of its duties and functions, make such assignment and transfer of said employees to the authority for a period of up to one year, with one extension of one year permitted if the authority so requests and said board, commission, agency or department which permanently employs such person consents. Such assignment and transfer or extension thereof shall not in any way affect the civil service status, continuity of service, retirement plan status, rights to compensation, grade or compensation or other rights or privileges of any employee so transferred. Any employee transferred under the authority of this section shall be paid as total reimbursement for expenses in the course of their duties incurred only the actual and necessary expenses incurred up to the maximum rates as established by the New York state department of audit and control.

§ 2629. Transfer of officers and employees. 1. Upon execution of the agreements for operation of the olympic facilities and the Gore Mountain ski center made pursuant to sections two thousand six hundred twelve and two thousand six hundred fourteen of this title, those employees of the state and the park district who are determined by the authority to be essential to the operation of the olympic facilities and the Gore Mountain ski center shall, with the approval of the employer and the employee, be transferred to the employment of the authority and shall be eligible for such transfer and appointment without examination to comparable offices, positions and employment under the authority. The salary or compensation of any such officer or employee shall, after such transfer, be paid by the authority. Notwithstanding the provisions of this act, any such officers or employees so transferred to the authority, pursuant to the provisions of this section, who are members of or beneficiaries under any existing pension or retirement system, shall continue to have all rights, privileges, obligations and status with respect to such fund system or systems as are prescribed by law, but during the period of their employment by the authority, all contributions to any pension or retirement fund or system to be paid by the employer on account of such officers or employees, shall be paid by the authority; and all such officers and employees who have been appointed to positions under the rules and classifications of the state civil service commission shall have the same status with respect thereto after transfer to the authority as they had under their original appointments.

2. (a) Within thirty days of execution of the agreement, entered into pursuant to subdivision four of section twenty-six hundred fourteen of this title, provision shall be made for the transfer to the olympic regional development authority of all current employees engaged in carrying out such functions with respect to the operation, maintenance and management of the Belleayre Mountain ski center. Such employees shall be transferred without further examination or qualifications and shall retain their respective civil service classifications, status, salary, wages and negotiating unit, if any. No individual who is transferred shall gain any additional rights as a result of such transfer. However, once the employment of any transferred employee who is currently placed within a negotiating unit as defined by article fourteen of the civil service law is terminated or otherwise ceases, by any means, any individual hired to fill such vacancy shall not be placed in the same negotiating unit of the former incumbent but rather shall be placed in the negotiating unit that contains employees of the authority.

(b) The salary or compensation of any such employees, after such transfer, shall be paid by the authority. Notwithstanding the provisions of this section, any such employees so transferred to the authority, pursuant to the provisions of this section, who are members of or beneficiaries under any existing pension or retirement system, shall continue to have all rights, privileges, obligations and status with respect to such fund system or systems as are prescribed by law, but during the period of their employment by the authority, all contributions to any pension or retirement fund or system to be paid by the employer on account of such employees, shall be paid by the authority.

TITLE 28-A

HUDSON-MOHAWK URBAN CULTURAL PARK COMMISSION

§ 2630. Short title. This title shall be known and may be cited as the "Hudson-Mohawk urban cultural park commission act."

§ 2631. Definitions. As used in this title, unless the context otherwise requires:

1. "Commission" shall mean the Hudson-Mohawk urban cultural park commission created pursuant to section two thousand six hundred thirty-two of this title.

2. "Board" shall mean the members of the commission.

3. "Municipality" shall mean the cities of Troy, Cohoes and Watervliet, the town of Waterford and the villages of Green Island and Waterford.

4. "Management plan" shall mean the management plan prepared pursuant to section 35.05 of the parks, recreation and historic preservation law.

5. "Urban cultural park" shall mean the Hudson-Mohawk urban cultural park designated pursuant to section 35.03 of the parks, recreation and historic preservation law and recognized pursuant to section 13.27 of such law.

6. "Bonds" shall mean the bonds authorized by this title.

7. "Project" shall mean any land, any building or other improvement, and all real and personal properties located within or partially within and partially without the urban cultural park for whose benefit the commission is created, including but not limited to, facilities deemed necessary or desirable in connection therewith, whether or not now in existence, which may include a recreational, educational or urban cultural facility, a transportation or service facility related to the plans and needs of the urban cultural park or any economic use in a facility, the preservation of which is a feature of the urban cultural park.

8. "Real property" shall mean lands, structures, franchises, and interest in lands, and any and all things usually included within the said term, and includes not only fees simple absolute but also any and all lesser interest, such as easements, rights of way, uses, leases, licenses, and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms of years, and liens thereon by way of judgments, mortgages or otherwise, and also claims for damage to real estate, in the area of the urban cultural park.

§ 2632. Hudson-Mohawk urban cultural park commission. A commission to be known as the "Hudson-Mohawk urban cultural park commission" is hereby created.

1. Such commission shall be a body corporate and politic, constituting a public benefit corporation.

2. The commission shall have a board of directors which shall consist of ten voting members, as follows:

(a) The mayor of the city of Troy.

(b) The mayor of the village of Waterford.

(c) The supervisor of the town of Waterford.

(d) The mayor of the city of Cohoes.

(e) The mayor of the village of Green Island.

(f) The mayor of the city of Watervliet.

(g) The supervisor of the town of Colonie.

(h) A resident official or employee of Saratoga county appointed by and serving at the pleasure of the board of supervisors of such county.

(i) The county executive of Rensselaer county.

(j) The county executive of Albany county.

The commissioner of the office of parks, recreation and historic preservation shall be a non-voting member of the board. Each member may designate a representative to participate in his place. The members shall choose from their number a chairman, vice-chairman, and secretary-treasurer. Six of the board's voting members shall constitute a quorum. The members of the board shall be entitled to no compensation for their services but shall be entitled to reimbursement for their actual and necessary expenses incurred in the performance of their official duties. The voting powers of the commission shall be vested in and exercised by a majority of the members of the board. Such board may delegate to one or more of its members or to its officers, agents and employees such powers and duties as it may deem proper.

§ 2633. Purposes and powers of the commission. The purposes of the commission shall be to undertake the necessary administrative and development activities in furtherance of the management plan; and to carry out the aforesaid purposes, the commission shall have the following powers:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To acquire, hold and dispose of personal property for its corporate purposes;

4. To acquire by purchase, grant, lease, gift, condemnation, or otherwise and to use, real property or rights or easements therein necessary for its corporate purposes subject to the local zoning, planning and historic preservation regulations as well as regional and local comprehensive land use plans, and to sell, convey, mortgage, lease, pledge, exchange or otherwise dispose of any such property in such manner as the commission shall determine;

5. To make by-laws for the management and regulation of its affairs and, subject to agreements with its bondholders, for the regulation of the use of a project or projects;

6. With the consent of the state or municipality, to use agents, employees and facilities of the state or municipality;

7. To appoint officers, agents and employees, to prescribe their qualifications and to fix their compensation and to pay the same out of funds of the commission;

8. To make contracts and leases, and to execute all instruments necessary or convenient to or with any person, firm, partnership or corporation, either public or private;

9. To acquire, construct, reconstruct, lease, improve, maintain, equip or furnish one or more projects;

10. To administer a preservation revolving fund, including provision for grants and loans therefrom with funds for such purpose from state, municipal, and/or private sources for the preservation of historic properties to private property owners for preservation projects in

furtherance of the public interest in preservation as declared in section 14.01 of the parks, recreation and historic preservation law;

11. To accept gifts, grants, loans, or contributions from, and enter into contracts or other transactions with, the United States and the state or any commission of either of them, any municipality, any public or private corporation or any other legal entity, and to use any such gifts, grants, loans or contributions for any of its corporate purposes;

12. To grant options to renew any lease with respect to any project or projects and to grant options to buy any project at such price as the commission may deem desirable;

13. To designate the depositories of its money;

13-a. To make amendments to the Hudson-Mohawk urban cultural park management plan, in lieu of the appropriate local legislative bodies, subject to the approval of the commissioner of parks, recreation and historic preservation pursuant to the provisions of section 35.05 of the parks, recreation and historic preservation law;

14. To establish and re-establish its fiscal year; and

15. To do all things necessary or convenient to carry out its purposes and exercise the powers expressly given in this title.

§ 2634. Cooperation with municipalities. 1. The commission is a cooperative regional organization of six municipalities to implement and manage an urban cultural park encompassing all or part of each of their territory and based upon the mutual assent and participation of each municipality. The activities of the commission shall be coordinated with the local planning, cultural and park activities of each municipality. No real property may be acquired or project undertaken by the commission in a municipality without the written approval for such action of the member of the board from such municipality.

2. Each municipality may provide the commission with the services of its agents, employees and facilities without charge to the corporation. Persons serving as officers or employees of the commission may be employees of a municipality and the commission, in such case, may pay the municipality an agreed portion of the compensation or costs.

3. For purposes of implementing the management plan, any individual municipality may act with the agreement of the commission to carry out an individual project in its own name or acquire real property for a project in the name of the commission at the cost and expense of the commission. In case the commission shall have the use and occupancy of any real property which it shall determine is no longer required for a project then, if such property was acquired at the cost and expense of a municipality, the commission shall have the power to surrender its use and occupancy thereof to the municipality, or, if such real property was acquired at the cost and expense of the commission, then the commission shall have power to sell, lease or otherwise dispose of said real property at public sale, and shall retain and have the power to use the proceeds of sale, rentals, or other moneys derived from the disposition thereof for its purposes.

§ 2635. Civil service status of officers and employees. Officers and employees of any board, commission or department of the municipality may be transferred to the commission in accordance with the provisions of the civil service law and shall be eligible for such transfer and appointment without examination to offices and positions under the commission. Officers and employees of the city who are members or beneficiaries of any existing pension or retirement system shall continue to have the rights, privileges, obligations and status with respect to such system or systems as are now prescribed by law, and all such employees who have been appointed to positions in the service of the city under the rules of the municipal civil service commission of the municipality shall have the same status with respect thereto after transfer to the commission as they had under their original appointments. The appointment and promotion of all employees of the commission shall be made in accordance with the provisions of the civil service law and the rules of the appropriate municipal civil service commission.

§ 2636. Moneys of the commission. All moneys of the commission from whatever source derived shall be paid to the treasurer and shall be deposited forthwith in one or more banks and/or trust companies in the state designated by the commission. The moneys in such accounts shall be paid out on checks of the treasurer upon requisition by the chairman of the commission or of such other officer or officers as the commission may authorize to make such requisitions. All deposits of such moneys shall be secured by obligations of or guaranteed by the United States of America or of the state of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. Any moneys of the commission not required for immediate use or disbursement may, at the discretion of the commission, be invested in those obligations specified pursuant to the provisions of section ninety-eight-a of the state finance law.

§ 2637. Tax exemptions. It is hereby determined that the creation of the commission and the carrying out of its corporate purposes is in all respects for the benefit of the people of the state and is a public purpose, and the commission shall be regarded as performing a governmental function in the exercise of the powers conferred upon it by this title and shall be required to pay no taxes or assessments upon any of the property acquired by it or under its jurisdiction or control or supervision or upon its activities.

§ 2638. Actions against the commission. 1. In an action against the commission founded upon tort, the complaint shall contain an allegation that at least thirty days have elapsed since the demand, claim or claims upon which the action is founded were presented to a member of the commission and to its secretary or to its chief executive officer, and that the commission has neglected or refused to make an adjustment or payment thereof for thirty days after the presentment.

2. In a case founded upon tort, a notice of claim shall be required as a condition precedent to the commencement of an action or special proceeding against the commission or an officer, appointee or employee thereof, and the provisions of section fifty-e of the general municipal law shall govern the giving of such notice. No action shall be commenced more than one year and ninety days after the cause of action therefor shall have accrued, except an action against the commission for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

§ 2639. Conflicts of interest. No member of the board of directors or officer or employee of the commission shall have any interest in any contract, or take any action or otherwise involve himself or herself in any activity which, pursuant to article eighteen of the general municipal law, would be deemed a conflict of interest for a municipal officer or employee holding a position with a municipality similar to the position held by the member, officer or employee with the commission.

It shall not be deemed a conflict of interest for a person to simultaneously hold positions as a member and as an officer of the commission.

§ 2640. Construction and purchase contracts. The commission shall let contracts for construction or purchase of supplies, materials, or equipment pursuant to section one hundred three of the general municipal law.

§ 2641. Severability. If any clause, sentence, paragraph, section or part of this title shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or part thereof directly involved in the controversy in which such judgment shall have been rendered.

TITLE 28-AA
CHAUTAUQUA, CATTARAUGUS, ALLEGANY AND STEUBEN SOUTHERN TIER EXTENSION RAILROAD AUTHORITY

§ 2642. Short title. This title may be cited as the "Chautauqua, Cattaraugus, Allegany and Steuben southern tier extension railroad authority act".

§ 2642-a. Legislative findings and intent. The legislature hereby finds and determines that:

1. The continued existence and strengthening of the system of railroads serving Chautauqua, Cattaraugus, Allegany and Steuben counties in New York state and Warren and Erie counties in the Commonwealth of Pennsylvania is essential to the long term viability of the economies, municipalities, and ways of life in these counties.

2. The viability and existence of the system of railroads serving Chautauqua, Cattaraugus, Allegany and Steuben counties in New York state and Warren and Erie counties in the Commonwealth of Pennsylvania is threatened by the dynamic economics of the railroad industry.

3. By creating the Chautauqua, Cattaraugus, Allegany and Steuben southern tier extension railroad authority, it is the intent of the legislature to preserve and enhance the system of railroads serving Chautauqua, Cattaraugus, Allegany and Steuben counties in New York state and Warren and Erie counties in the Commonwealth of Pennsylvania, so as to insure a healthy economy for these counties.

§ 2642-b. Definitions. As used or referred to in this title, unless a different meaning appears from the context:

1. "Authority" shall mean the corporation created by section twenty-six hundred forty-two-c of this title.

2. "Authority facilities" shall mean the authority's railroad facilities and operations pursuant to joint service arrangements as defined in subdivision eight of this section.

3. "Commonwealth" shall mean the Commonwealth of Pennsylvania.

4. "Commonwealth agency" or "agency of the Commonwealth" shall mean any officer, department, board, commissioner, bureau, division, public benefit corporation, agency or instrumentality of the Commonwealth of Pennsylvania.

5. "Comptroller" shall mean the comptroller of the state of New York.

6. "Equipment" shall mean rolling stock, vehicles, motors, boilers, engines, wires, ways, conduits and mechanisms, machinery, tools, implements, materials, supplies, instruments and devices of every nature whatsoever used or useful for railroad and related transportation purposes or for the generation or transmission of motive power including but not limited to all power houses, and all apparatus and all devices for signaling, communications and ventilation as may be necessary, convenient or desirable for the operation of a railroad or related transportation facility.

7. "Federal government" shall mean the United States of America, and any officer, department, board, commission, bureau, division, corporation, agency or instrumentality thereof.

8. "Joint service arrangements" shall mean agreements between or among the authority and any common carrier or freight forwarder, the state, the Commonwealth, any state agency or agency of the Commonwealth, the federal government, any other state or Commonwealth or agency or instrumentality thereof, any public authority of this or any other state, any participating county, or any political subdivision or municipality of this or any other state, relating to property, buildings, structures, facilities, services, rates, fares, classifications, divisions, allowances or charges, or rules or regulations pertaining thereto, for or in connection with or incidental to transportation in part in or upon railroad facilities located within the counties of Chautauqua, Cattaraugus, Allegany and Steuben and in part in or upon railroad facilities located outside said counties.

9. "Legislative body" or "legislative bodies" shall mean any or all of the governing boards of the counties of Chautauqua, Cattaraugus,

Allegany and Steuben.

10. "Municipality" shall mean any county, including the counties of Chautauqua, Cattaraugus, Allegany and Steuben, city, town, village, school district, improvement district, any other such instrumentality, including an agency or public benefit corporation of the state, or any of the foregoing, or any combination thereof.

11. "Participating counties" shall mean those of the counties of Chautauqua, Cattaraugus, Allegany and Steuben that shall have appointed members of the authority.

12. "Railroad facilities" shall mean right-of-way and related trackage, rails, cars, locomotives, other rolling stock, signal, power, fuel, communication and ventilation systems, power plants, stations, terminals, parking lots, garages, warehouses, storage yards, intermodal facilities, repair and maintenance shops, yards, equipment and parts, offices and other real estate or personalty used or held for or incidental to the operation, rehabilitation or improvement of any railroad operating or to operate between points within the counties of Chautauqua, Cattaraugus, Allegany and Steuben or pursuant to joint service arrangements, including but not limited to buildings, structures, and areas notwithstanding that portions thereof may not be devoted to any railroad purpose other than the production of revenues available for the costs and expenses of all or any facilities of the authority.

13. "Real property" shall mean lands, structures, franchises and interests in land, waters, lands under water, riparian rights and air rights and any and all things and rights included within said term and includes not only fees simple absolute but also any and all lesser interests including but not limited to easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgments, mortgages or otherwise.

14. "State" shall mean the state of New York.

15. "State agency" shall mean any officer, department, board, commissioner, bureau, division, public benefit corporation, agency or instrumentality of the state of New York.

16. "Southern tier extension railroad line" shall mean the railroad line generally described as located between the city of Hornell, New York (Cass street interlocking, at approximately milepost 331.8) and the New York-Pennsylvania state line in the county of Chautauqua.

§ 2642-c. Chautauqua, Cattaraugus, Allegany and Steuben southern tier extension railroad authority. 1. There is hereby created the "Chautauqua, Cattaraugus, Allegany and Steuben southern tier extension railroad authority" which shall be a body corporate and politic constituting a public benefit corporation.

2. The authority shall continue for thirty years from the effective date of this title, or so long as it shall have bonds or other obligations outstanding or until its existence shall otherwise be terminated by law. Upon the termination of the existence of the authority, all its rights and properties shall pass to and be vested in the participating counties pursuant to any agreements among the participating counties and the authority.

3. The authority shall adopt by-laws governing its operation and keep a record of its resolutions, transactions, findings and determinations, which record shall be a public record.

4. The authority shall consist of the following fourteen members:
(a) The county legislative bodies of Chautauqua, Cattaraugus, Allegany and Steuben counties each shall appoint three voting members of the authority who shall be residents of such county, upon the recommendation of the chief executive (county executive or chair of the county legislative body) of each such county; and
(b) The southern tier west regional planning and development board, upon the recommendation of the chairperson of such board, shall appoint

one member of the authority, who shall be a resident of one of the counties of Chautauqua, Cattaraugus, Allegany or Steuben.

(c) The Seneca Nation of Indians may appoint a member of such Nation to serve in an advisory non-voting capacity.

5. The term of office of members of the authority shall be three years. Four of the initial members of the authority shall serve a one year term, four shall serve a two year term and six, including the members appointed by the southern tier west regional planning and development board, and the Seneca Nation of Indians shall serve a three year term, provided that at the inception of the authority, each county shall appoint one member to hold office for three years, one for two years and one for one year.

6. All members shall continue to hold office until their successors are appointed and qualified. The resignation of any member shall be filed with the appointing authority and shall be effective when so filed. Vacancies occurring otherwise than by expiration of term of office shall be filled for the unexpired term in the same manner as provided for the original appointment.

7. The chairperson, vice-chairperson, secretary, and other necessary officers shall be named by a majority vote of all the voting members to serve for such period as the members shall decide. The chairperson shall preside over the meetings of the authority and shall appoint members of the authority to committees established by the authority to assist the authority in carrying out its duties.

8. Any member of the authority may be removed by resolution of the entity which appointed such member either for cause or for non-compliance with minimum requirements relating to meeting attendance and other criteria as may be established by resolution of such entity.

9. No person shall be precluded from serving as a member of the authority as appointed by a county legislative body, the southern tier west regional planning and development board or the Seneca Nation of Indians pursuant to this section because such member is an elected or

appointed official of a municipality, except that no member of the authority shall vote on any matter before the authority which has been the subject of a proposal, application or vote before the municipality where he or she serves in such elected or appointed capacity.

10. The members of the authority shall receive no salary or compensation for their services, but may be reimbursed for authorized, actual and necessary travel and expenditures.

11. A majority of the whole number of voting members of the authority then in office shall constitute a quorum for the transaction of any business or the exercise of any power of the authority. Notwithstanding any provision of statute or law to the contrary and except as otherwise specified in this title, for the transaction of any business or the exercise of any power of the authority, the authority shall have power to act by a majority of the whole number of voting members of the authority.

12. The authority shall be deemed a state agency for purposes of section seventy-four of the public officers law, provided, however, that no non-voting member of the authority shall be deemed an officer or employee of a state agency.

§ 2642-d. Purposes of the authority. 1. The purposes of the authority shall be the continuance, further development and improvement of railroad transportation and other services related thereto within the counties of Chautauqua, Cattaraugus, Allegany and Steuben, in accordance with the provisions of this title. It shall be the further purpose of the authority to develop and implement a unified railroad transportation policy and strategy for such counties.

2. It is hereby found and declared that such purposes are in all respects for the benefit of the people of the state and the authority shall be regarded as performing an essential governmental function in carrying out its purposes and in exercising the powers granted by this title.

§ 2642-e. General powers of the authority. Except as otherwise limited by this title, the authority shall have power:

1. To sue and be sued;

2. To have a seal and alter the same at pleasure;

3. To borrow money;

4. To invest any funds held in reserve or sinking funds, or any monies not required for immediate use or disbursement, at the discretion of the authority, in obligations in which the state comptroller may invest pursuant to section ninety-eight or ninety-eight-a of the state finance law;

5. To make and alter by-laws for its organization and internal management, and rules and regulations governing the exercise of its powers and the fulfillment of its purposes under this title;

6. To enter into contracts and leases and to execute all instruments necessary or convenient;

7. To acquire, hold and dispose of real or personal property in the exercise of its powers for its corporate purposes;

8. The authority may, whenever it shall determine that it is not in conflict with the interests or purposes of the authority, rent, lease or grant easements or other rights in, any land or property of the authority, including the granting of municipal utility easements;

9. To appoint such officers and employees as it may require for the performance of its duties, and to fix and determine their qualifications, duties, and compensation and to retain or employ counsel, auditors, engineers and private consultants on a contract basis or otherwise for rendering professional or technical services and

advice; such counsel, auditors, engineers, and private consultants, officers and employees may not be a member of the authority;

10. To make plans, surveys, and studies necessary, convenient or desirable to the effectuation of the purposes and powers of the authority and to prepare recommendations in regard thereto;

11. To contract for and accept any gifts or grants, subsidies or loans of funds or property or financial or other aid in any form from the federal or state government or Commonwealth government or any agency or instrumentality thereof, or from any other source, public or private, and to comply, subject to the provisions of this title, with the terms and conditions thereof;

12. To designate the depositories of its money;

13. To establish its fiscal year; and

14. To do all things necessary or convenient or desirable to carry out its purposes and exercise the powers expressly given in this title.

§ 2642-f. Special powers of the authority. In order to effectuate the purposes of this title: 1. The authority may acquire, by purchase, gift, grant, transfer, contract or lease, any railroad facility, wholly or partially within the counties of Chautauqua, Cattaraugus, Allegany and Steuben or any part thereof, or the use thereof, and may enter into any joint service arrangements as provided in this section. Any such acquisition or joint service arrangement shall be authorized only by resolution of the authority approved by not less than a majority of the whole number of voting members of the authority. In addition to and not in limitation of any other power conferred upon the authority by the provisions of this title, the authority is hereby empowered and authorized in respect of any property and assets at any time owned or held by, or under the jurisdiction of, the state, the Commonwealth, any political subdivision thereof, or any private or other public concern, to accept and receive any such interest therein as it may have been or may hereafter be designated by the state, the Commonwealth, any political subdivision thereof, or any other public or private concern, by law or other lawful means to receive, and in respect thereof, except as otherwise provided by the designating statute or contractual instrument, it shall have and exercise all of the powers and jurisdiction herein conferred upon it in respect of any other property, rights, assets, facilities and projects in any other manner acquired or from any other source received by it pursuant to the provisions of this title.

2. The authority may on such terms and conditions as the authority may determine necessary, convenient or desirable itself establish, construct, effectuate, operate, maintain, renovate, improve, extend or repair any such railroad facility, or may provide for such establishment, construction, effectuation, operation, maintenance, renovation, improvement, extension or repair by contract, lease, or other arrangement on such terms as the authority may deem necessary, convenient or desirable with any person, including, but not limited to, any common carrier or freight forwarder or other private for-profit firm, the state, the Commonwealth, any agency or the state or Commonwealth, the federal government, any other state or agency or instrumentality thereof, any non-profit corporation, any public authority of this or any other state or any political subdivision or municipality of the state. In connection with the operation of any such railroad facility, the authority may establish, construct, effectuate, operate, maintain, renovate, improve, extend or repair or may provide by contract, lease or other arrangement for the establishment, construction, effectuation, operation, maintenance, renovation, improvement, extension or repair of any related services and activities it deems necessary, convenient or desirable, including, but not limited to, the transportation and storage of freight and the United States mail, feeder and connecting transportation, parking areas, transportation centers, stations and related facilities.

3. The authority may establish, levy and collect or cause to be established, levied and collected and, in the case of a joint service arrangement, join with others in the establishment, levy and collection

of such fares, tolls, rentals, rates, charges and other fees as it may deem necessary, convenient or desirable for the use and operation of any railroad facility and related services operated by the authority or under contract, lease or other arrangement, including joint service arrangements, with the authority.

4. The authority may establish and, in the case of joint service arrangements, join with others in the establishment of such schedules and standards of operations and such other rules and regulations including but not limited to rules and regulations governing the conduct and safety of the public as it may deem necessary, convenient or desirable for the use and operation of any railroad facility and related services operated by the authority or under contract, lease or other arrangement, including joint service arrangements, with the authority.

5. The authority may acquire, hold, own, lease, establish, construct, effectuate, operate, maintain, renovate, improve, extend or repair any of its facilities.

6. The authority, in its own name, may apply for and receive and accept grants of property, money and services and other assistance offered or made available to it by any person, government or agency which it may use to meet capital or operating expenses and for any other use within the scope of its powers, and to negotiate for the same upon such terms and conditions as the authority may determine to be necessary, convenient or desirable.

7. The authority may do all things it deems necessary, convenient or desirable to manage, control and direct the maintenance and operation of railroad facilities, equipment or real property operated by or under contract, lease or other arrangement with the authority. Except as hereinafter specially provided, no municipality or political subdivision, including but not limited to a county, city, village, town or school or other district shall have jurisdiction over any facilities of the authority or any of its activities or operations. The local laws, resolutions, ordinances, rules and regulations of a municipality or political subdivision in the state conflicting with this title or any

rule or regulation of the authority, shall not be applicable to the activities or operations of the authority, or the facilities of the authority, except such facilities that are devoted to purposes other than transportation purposes. The authority may agree with the New York state department of transportation for the execution by such department of any grade crossing elimination project or any grade crossing separation reconstruction project along any railroad facility operated by the authority or under contract, lease or other arrangement with the authority. Any such project shall be executed as provided in article ten of the transportation law and the railroad law, respectively, and the costs of any such project shall be borne as provided in such laws.

§ 2642-g. Cooperation and assistance of other agencies. 1. To avoid duplication of effort and in the interests of economy, the authority may make use of existing studies, surveys, plans, data and other materials in the possession of any state agency or any municipality or political subdivision of the state. Each such agency, municipality or subdivision located in or serving some portion of the state is hereby authorized to make the same available to the authority and otherwise to assist it in the performance of its functions. At the request of the authority, each such agency, municipality or subdivision located in or serving some portion of the state which is engaged in railroad or other transportation activities or in land use or development planning, or which is charged with the duty of providing or regulating any transportation facility or any other public facility, is further authorized to provide the authority with information regarding its plans and programs affecting railroad transportation within the participating counties so that the authority may have available to it current information with respect thereto. The officers and personnel of such agencies, municipalities or subdivisions, and of any other government or agency whatever, may serve at the request of the authority upon such advisory committees as the authority shall determine to create and such officers and personnel may serve upon such committees without forfeiture of office or employment and with no loss or diminution in the compensation, status, rights and privileges which they otherwise enjoy.

2. Notwithstanding any contrary provision of law, every municipality located in the counties of Chautauqua, Cattaraugus, Allegany or Steuben is authorized and empowered to consent to the use by the authority of any real or personal property owned by any such municipality and necessary, convenient or desirable in the opinion of the authority for any of the facilities or projects authorized under this title, including such real property as has already been devoted to a public use, and as an incident to such consent, to lease or otherwise transfer and convey to the authority any such real or personal property upon such terms as may be determined by the authority and any such municipality. Every such municipality also is authorized and empowered, as an incident to such consent, to vest in the authority the control, possession, operation, maintenance, rents, charges and any and all other revenues of any facilities now owned by any such municipality, the title to such facilities remaining in such municipality.

§ 2642-h. Exemption from taxation. 1. It is hereby determined that the creation of the authority and the carrying out of its purposes under this title are in all respects for the benefit of the people of the state of New York and is a public purpose. Accordingly, the authority shall be regarded as performing an essential governmental function in the exercise of the powers conferred upon it by this title, and the authority shall not be required to pay any fees, taxes, special ad valorem levies or assessments of any kind, whether state or local, including but not limited to fees, taxes, special ad valorem levies or assessments on real property, franchise taxes, sales taxes or other taxes, upon or with respect to any property owned by it or under its jurisdiction, control or supervision, or upon the uses thereof, or upon or with respect to its activities or operations in furtherance of the powers conferred upon it by this title, or upon or with respect to any fares, tolls, rentals, rates, charges, fees, revenues or other income received by the authority.

2. Notwithstanding subdivision one of this section, the authority or any lessees of the authority shall be required to pay water and sewer fees, water and sewer assessments or water and sewer special ad valorem

levies.

3. The authority may pay, or may enter into agreements with any municipality, including school districts, to pay, a sum or sums annually or otherwise or to provide other considerations with respect to real property owned by the authority located within such municipality.

§ 2642-i. Advances on behalf of authority; transfer of property to authority; acquisition of property for authority. 1. In addition to any powers granted to it by law, any participating county may by resolution advance sums of money to or on behalf of the authority to defray costs or expenses of the authority to be incurred prior to the first issuance of bonds. Subject to the rights of any bondholders, the moneys so appropriated may be repaid by the authority to the participating county at such time and in such manner as may be agreed upon between the authority and the participating county.

2. Any participating county or any municipality along the southern tier extension railroad line may by resolution give, grant, sell, convey, lend, or license the use of or lease to the authority any property or facility which is useful to the authority in order to carry out its powers under this title. Any such transfer of property shall be upon such terms and conditions, subject to the rights of any bondholders, as the authority and the participating county or the municipality may agree.

3. Notwithstanding the provisions of any other law, general, special, or local, real property acquired by the authority or any participating county from the state may be used for any corporate purpose of the authority.

§ 2642-j. New York state and local employees' retirement system rights of employees; civil service. 1. In accordance with the provisions of section seventy of the civil service law, any officer or employee of a municipality transferred to the authority shall be eligible for such transfer and appointment, without further examination, to applicable offices, positions and employment under the authority. Any such officers or employees so transferred to the authority pursuant to this section, who are members of or benefit under any existing pension or retirement fund or system, shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law.

2. Nothing contained in this title shall be construed (a) to diminish the rights of employees pursuant to a collective bargaining agreement or (b) to affect existing law with respect to an application to the public employment relations board seeking a designation by the board that certain persons are managerial or confidential.

§ 2642-k. Equal employment opportunity. The authority shall ensure that all employees or applicants for employment are afforded equal opportunity employment without discrimination on any basis prohibited under subdivision two of section forty-c of the civil rights law.

§ 2642-l. Monies of the authority. All monies of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in an interest-bearing account in a bank or banks designated by the authority. The monies in such accounts shall be paid out or withdrawn on the order of such person or persons as the authority may authorize to make such requisitions. All deposits of such monies shall be secured by obligations of the United States or of the state or of any municipality of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. To the extent practicable, consistent with the cash requirements of the authority, all such monies shall be deposited in interest-bearing accounts. Any monies of the authority not required for immediate use or disbursement may, be invested in accordance with section ninety-eight or ninety-eight-a of the state finance law.

§ 2642-m. Contracts. 1. All contracts for the construction, reconstruction, rehabilitation or improvement of buildings let by the authority shall comply with the provisions of section two hundred twenty of the labor law and shall also be subject to the provisions of law applicable to contracts let by a municipal corporation, except as otherwise provided herein.

2. All contracts for the construction, reconstruction, rehabilitation or improvement of buildings let by the authority shall be in conformity with the applicable provisions of section one hundred thirty-five of the state finance law.

3. The authority may, in its discretion, assign contracts for supervision and coordination to the successful bidder for any subdivision of work for which the authority receives bids. Any construction contract awarded by the authority shall contain such other terms and conditions as the authority may deem desirable. The authority shall award any construction contract involving an expenditure of more than five thousand dollars to the lowest bidder who, in its opinion, is qualified to perform the work required and who is responsible and reliable. The authority may, however, reject any or all bids or waive any informality in a bid if it believes that the public interest will be promoted thereby. The authority may reject any bid, if, in its judgment, the business and technical organization, plant, resources, financial standing, or experience of the bidder justifies such rejection in view of the work to be performed.

4. For the purposes of article fifteen-A of the executive law only, the authority shall be deemed a state agency as that term is used in such article, and all contracts for procurement, design, construction, services and materials shall be deemed state contracts within the meaning of that term as set forth in such article.

§ 2642-n. Annual report and audit. In conformity with the provisions of section five of article ten of the constitution, the accounts of the authority shall be subject to the supervision of the state comptroller and an annual audit shall be performed by an independent certified public accountant. The authority shall annually submit to the county legislatures, county executives, governor and the state comptroller and to the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee a detailed report pursuant to the provisions of section twenty-eight hundred of this chapter, and a copy of such report shall be filed with the clerk of the county legislature and the county executives; provided further that a copy of such report shall be submitted to the southern tier west regional planning and development board.

§ 2642-o. Defense and indemnification. 1. The authority shall not execute any of its powers except as necessary to commence its corporate existence, until it has elected to make the provision of section eighteen of the public officers law applicable to its employees (as such term is defined in section eighteen of the public officers law) pursuant to subdivision two of such section; provided, however, that nothing contained within this section shall be deemed to permit the authority to extend the provisions of section eighteen of the public officers law upon any independent contractor.

2. Neither the members of the authority, nor any participating county, municipality, officer or employee acting on the authority's behalf, while acting within the scope of his, her or its authority, shall be subject to any personal liability resulting from the construction, maintenance or operation of any of the properties of the authority or from carrying out any of the powers expressly given in this title; provided, however, that this shall not be held to apply to any independent contractor.

§ 2642-p. Action by or against the authority. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the authority, its members, officers or employees for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence, tort or wrongful act of the authority or of any member, officer, agent or employee thereof, unless (a) notice of claim shall have been made and served upon the authority within the time limit set by and in compliance with section fifty-e of the general municipal law, (b) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, and (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based. An action against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

2. Whenever a notice of claim is served upon the authority, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. Any action or proceeding to which the authority or the people of the state may be parties, in which any question arises as to the validity of this title, shall be preferred over all other civil causes of action or cases, except election causes of action or cases, in all courts of the state and shall be heard and determined in preference to all other civil business pending therein except election causes, irrespective of position on the calendar. The same preference shall be granted upon application of the authority or its counsel in any action or proceeding questioning the validity of this title in which the authority may be allowed to intervene. The venue of any such action or proceeding shall be laid in the supreme court of any of the participating counties.

5. The rate of interest to be paid by the authority upon any judgment

for which it is liable, shall be the rate prescribed by section five thousand four of the civil practice law and rules.

6. All actions or proceedings against the authority of whatever nature shall be brought in a supreme court in any of the participating counties.

§ 2642-q. Track, bridge, signal, station and other facility operation and maintenance. The operation, maintenance and use of track, bridges, signals, freight stations, passenger stations and other facilities shall be public purposes of the authority and the participating counties. The total cost to the authority of operation, maintenance and use of each track, bridge, signal, freight station, passenger station and other facility within the counties of the district located in the state and serviced by one or more railroad facilities of the authority or corporations, including the buildings, appurtenances, platforms, lands and approaches incidental or adjacent thereto, shall be borne by the authority.

§ 2642-r. State, participating counties, and municipalities not liable for obligations of authority. 1. Neither the state, the participating counties, nor any municipality or public corporation shall be liable on any bond, note or other obligation of the authority, and such bonds, notes or other obligations shall not be debts of the state, the participating counties, nor any municipality or public corporation, and such bonds, notes or other obligations shall contain a statement to such effect.

2. Nothing in this title shall be construed to obligate the state in any way in connection with the operations and obligations of the authority.

§ 2642-s. Effect of inconsistent provisions. Insofar as the provisions of this title are inconsistent with the provisions of any other act, general or special, or of a county charter, any local law, ordinance or resolution of a municipality, the provisions of this title shall be controlling. Nothing contained in this section shall be held to supplement or otherwise expand the powers or duties of the authority otherwise set forth in this title.

TITLE 28-B

SCHENECTADY METROPLEX DEVELOPMENT AUTHORITY

§ 2650. Short title. This title shall be known and may be cited as the "Schenectady Metroplex Development Authority Act".

§ 2651. Statement of legislative findings. It is hereby found, determined and declared that there is an immediate need to institute a comprehensive, coordinated program of economic development activities in the Route 5 and Route 7 corridors of Schenectady county, especially in the downtown region of the city of Schenectady.

It is further found, determined and declared to be desirable to create a Schenectady metroplex development authority to provide the state of New York, and the county of Schenectady, with the capability to effectively and efficiently develop, renovate and optimize the economic and social activities of the Route 5 and Route 7 corridors of Schenectady county.

It is also hereby found, determined and declared that existing facilities in the Route 5 and Route 7 corridors of Schenectady county, for conventions, trade exhibitions, public shows, public entertainment, hotel accommodations, transportation, historic preservation, tourism, sporting events, social and educational centers, and retail, business, commercial and government office space, including services for the operation and maintenance thereof, are inadequate.

It is further found, determined and declared that the construction and operation of such new facilities to adequately accommodate such activities would generate new business, create employment opportunities, provide new sources of tax revenue, and promote effective and orderly redevelopment in the vicinity of the Route 5 and Route 7 corridors of

Schenectady county, all of which would serve the interests of the state of New York, and the county of Schenectady.

It is also found, determined and declared that the area in the vicinity of the Route 5 and Route 7 corridors of Schenectady county is an area characterized by deteriorated industrial and commercial structures, uncoordinated and incompatible commercial uses, inadequate public facilities, and substandard conditions, all of which are detrimental to the economic and social well-being of residents of the state of New York and the county of Schenectady, and that the construction and operation of such new facilities in such area will serve as a catalyst for redevelopment, and a rejuvenation of civic pride and accomplishment.

It is further found, determined and declared that the construction and operation of such new facilities will provide significant economic and social benefits to the state of New York, the county of Schenectady, and the entire capital district region, and that, consistent with social, economic, environmental and other essential considerations of state policy, locating these new facilities in the Route 5 and Route 7 corridors of Schenectady county is in the public interest, given the convenience and accessibility of the location, the elimination of substandard conditions, the nature and economic characteristics of various other sites considered, and the immediacy of the needs of the people of the state for the realization of the significant economic and social benefits to be derived from this development.

It is also found, determined and declared that the development of the Route 5 and Route 7 corridors of Schenectady county is a matter of essential state and county concern, and that the establishment and creation of a Schenectady metroplex development authority is necessary to provide for the economic prosperity, health, safety and general welfare of the people of the county of Schenectady and the state of New York, through the construction, development, location and operation of these new facilities.

It is further found, determined and declared that is the intent of the legislature that the Schenectady metroplex development authority shall carry out its purposes and responsibilities directly and through agreements with federal, state and local entities and authorities, and that the Schenectady metroplex development authority shall be created as a public benefit corporation and that the corporate programs and powers conferred under this title and the expenditures of public moneys pursuant thereto, are in furtherance of a valid public interest and public purpose.

§ 2652. Definitions. As used or referred to in this title, unless a different meaning clearly appears from the context:

1. The term "authority" shall mean the public benefit corporation created by section twenty-six hundred fifty-three of this title.

2. The term "board" shall mean the members of the authority created in section twenty-six hundred fifty-three of this title.

3. The term "person" shall mean any natural person, partnership, limited liability company, association, joint venture or corporation, exclusive of a public corporation.

4. The term "service district" shall mean the Schenectady metroplex service district created by section twenty-six hundred fifty-four of this title.

5. The term "bonds" shall mean bonds and notes issued by the authority pursuant to this title.

6. The term "state" shall mean the state of New York.

7. The term "governor" shall mean the governor of the state of New York.

8. The term "comptroller" shall mean the comptroller of the state of New York.

9. The term "director of the budget" shall mean the director of the budget of the state of New York.

10. The term "municipality" shall mean a county, town, city, or village.

11. The term "county" shall mean the county of Schenectady.

12. The term "county legislature" shall mean the Schenectady county legislature.

13. The term "city" shall mean the city of Schenectady.

14. The term "mayor" shall mean the mayor of the city of Schenectady.

15. The term "city council" shall mean the city council of the city of Schenectady.

16. The term "metroplex facility" shall mean any facility, building, structure, park or other real property owned, leased, constructed, created, designed, developed, planned, financed, operated, renovated, administered, managed and/or maintained by the authority.

17. The term "park district" shall mean any area designated by the authority, within the service district, to be an historic preservation district, a special entertainment district, an educational entertainment district, or a recreational park district.

18. The term "construction" shall mean the acquisition, erection, building, alteration, improvement, increase, enlargement, extension, reconstruction, renovation or rehabilitation of any project financed under the provisions of this title; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures and other actions preliminary or incidental thereto.

19. The term "real property" shall mean lands, waters, rights in lands or waters, structures, franchises and interests in land, including lands under water, riparian rights, property rights in air space and/or subsurface space and any and all other things and rights usually included within such term and includes also any and all interests in such property less than full title, such as easements permanent or temporary, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right legal or equitable.

20. The term "personal property" shall mean chattels and other tangible things of a movable or removable nature.

21. The term "cost" as applied to any project, includes the cost of construction, the cost of the acquisition of all property, rights in property, rights-of-way, easements, franchises, and interests, including real property and other property, both real, personal and mixed, improved and unimproved, the cost of demolishing, removing or relocating any buildings or structures on lands so acquired, including the cost of acquiring any lands to which such buildings or structures may be moved or relocated, the cost of all machinery, apparatus and equipment, financing charges, interest prior to, during and after construction to the extent not paid or provided for from revenues or other sources, the cost of engineering and architectural surveys, plans and specifications, the cost of consultant and legal services, the cost of guarantee, bond insurance or other credit support devices and the cost of other expenses necessary or incidental to the construction of any such project and the financing of the construction thereof, including the amount authorized in the resolution of the authority providing for the issuance of bonds to be paid into any reserve or other special funds from the proceeds of such bonds and the financing of the placing of any project in operation, including reimbursement to any municipality, state agency, the state, the United States government, or any other person for expenditures that would be costs of the project hereunder had they been made directly by the authority.

22. The term "project" shall mean a facility, building, structure, park or other real property, or any portion thereof, which the ownership, lease, transfer, design, development, planning, financing, creation, siting, construction, renovation, administration, operation, management and/or maintenance is authorized to be undertaken, in whole or in part, by the authority pursuant to this title.

23. The term "revenues" shall mean all monies, funds, rates, fees, tolls, rents, charges or other income derived by the authority from its planning, development, financing, construction, operation, management, or maintenance functions, or any monies or funds appropriated to the authority from the state or a municipality, or any monies or funds obtained from public or private donations to the authority or the tax revenues payable to the authority pursuant to section twelve hundred ten-C of the tax law.

24. The term "United States" shall mean the United States of America or any department, agency or instrumentality thereof acting on behalf of the United States of America.

§ 2653. Schenectady metroplex development authority. 1. The Schenectady metroplex development authority is hereby created. Such authority shall be a body corporate and politic constituting a public benefit corporation. The governing body of the authority shall be a board. The authority shall consist of eleven members who are residents of Schenectady county, appointed by a majority vote of the county legislature. Nominations for appointment by the county legislature shall be submitted as follows: one upon the recommendation of the mayor of the city of Schenectady, one upon the recommendation of the city council; one upon the recommendation of the supervisor of the town of Niskayuna, one upon the recommendation of the supervisor of the town of Glenville, one upon the joint recommendation of the supervisors of the towns of Princetown and Duanesburg, one upon the recommendation of the supervisor of the town of Rotterdam, one upon the recommendation of the minority leader of the county legislature, two upon the recommendation of the chairman of the county legislature and two by the joint recommendation of the county legislature. The members appointed upon the recommendation of the chair of the county legislature, the minority leader of the county legislature and the joint recommendation of the county legislature shall serve for a term of five years each, and the members appointed by the county legislature upon the recommendation of the city or town officers shall serve for a term of four years each, respectively, with each term commencing from the first day of January next succeeding their appointment. Each member unless removed for good cause by a two-thirds vote of the county legislature shall hold office until a successor has been appointed and qualified.

2. No person holding an elected or management/confidential-exempt position in any county government may be appointed to the authority except for the Schenectady county commissioner of economic development and planning. No member of the state legislature may be appointed to the authority. No person holding, or who has held within the previous four years, the position of chairperson of a village, town, city or county political party as defined by article two of the election law shall be appointed to the authority.

3. A member of the board shall be designated as chairman by a majority vote of all the members of the county legislature and shall be chairman of such board until his or her term as member expires. A member of the board shall also be so designated as vice-chairman of the board until his or her term as member expires. The chairman shall be the chief executive officer of the authority and shall be primarily responsible for the discharge of the administrative functions of the authority. The chairman may appoint an executive director of the authority, upon advice and consent of the board, to which such administrative functions may be delegated. The executive director shall be deemed an employee of the authority, and as such be an exempt management confidential employee, who is a public officer and entitled to an annual salary as established by the authority board.

4. The power of such corporation shall be vested in and exercised by the board. Such board may delegate to one or more of its members or its officers, agents and employees such powers and duties as it may deem

proper.

5. Such board and its corporate existence shall continue until its existence shall be terminated by law. Upon the termination of the existence of the authority all its rights and properties shall pass to and be vested in the county of Schenectady.

6. Six members of the board shall constitute a quorum for the transaction of business. A majority of the members of the board present at any meeting at which a quorum shall be present, shall be sufficient to pass any resolution, except as otherwise specified in this title. All propositions requiring the expenditure of money or affecting contract rights or property, shall be presented to the board in writing. No resolution containing such a proposition shall pass unless it receives approval of at least six board members in office.

7. The board shall hold at least one regular meeting every month. The chairman, or in his absence the vice-chairman, or any five members, may call a special meeting by notice as specified by the board. All meetings of the board shall be subject to article seven of the public officers law.

8. Members of the board shall be entitled to no compensation for their services, but shall be entitled to reimbursement for their actual and necessary expenses incurred in the performance of their official duties.

9. Notwithstanding any inconsistent provision of any general, special or local law, no officer or employee of the state, or of any municipality, as defined in the public officers law, the county law or the town law, shall be deemed to have forfeited or shall forfeit his public office or any benefits provided under the retirement and social security law or under any public retirement system maintained by the state or any of its subdivisions by reason of his acceptance of membership on or chairmanship or vice-chairmanship of the authority; provided, however, a member or chairman who holds such other public office shall receive no additional compensation for services rendered pursuant to this title, but shall be entitled to reimbursement for

actual and necessary expenses incurred in the performance of such services.

10. The principal office of the authority shall be located in the county of Schenectady.

11. The comptroller may conduct periodic audits of the authority and report the results of such audits to the governor, the chairman of the senate finance committee, and the chairman of the assembly ways and means committee.

12. Subject to the provisions of this title, members of the authority may engage in private employment, or in a profession or business.

§ 2654. Schenectady metroplex service district. 1. The Schenectady metroplex service district shall include all real property within the county of Schenectady, from the Albany county/Schenectady county border to the Montgomery county/Schenectady county border, and within thirty-five hundred feet of Route 5, except from the intersection of Route 5/State Street and Brandywine Avenue to the intersection of Route 5/Mohawk Avenue and Route 147/Sacandaga Road, whereupon the Schenectady metroplex service district shall include all real property within eighty-seven hundred fifty feet of Route 5. The service district shall also include all real property within Schenectady county from the town of Rotterdam/city of Schenectady border to the Schoharie county/Schenectady county border and within the boundaries and accompanying right of way of state Route 7; and all real property within two hundred feet of Chrisler Avenue in the city of Schenectady except as excluded by subdivision two of this section.

2. Notwithstanding any other provision of law, unless amended pursuant to local law, the Schenectady metroplex service district shall not include any parcel of real property upon which a non-multiple dwelling residence is located in the city of Schenectady and within the boundaries of the historic GE realty plot district, the Union College Triangle, the Mont Pleasant neighborhood association, or any defined

neighborhood within the Schenectady united neighborhood associations.

3. The Stockade Historic District shall be included within the Schenectady Metroplex Service District for the purposes of the design, development, planning, financing, creation, siting, construction, renovation, administration, operation, management, and/or maintenance of facilities, structures or parks as defined in paragraphs (e), (f), (g), (h), (i), (j), (k) and (l) of subdivision eight of section twenty-six hundred fifty-five of this title.

4. Any municipality located within the county shall have the power to increase the boundaries of the Schenectady metroplex service district within the municipality. To increase the boundaries of the service district within a municipality, the municipality must conduct a public hearing and enact by a two-thirds vote a local law defining the additional boundaries of such district. In the event a municipality elects to increase the boundaries of the service district, two certified copies of the local law increasing the service district, together with two certified maps designating such increased boundaries shall be filed with the office of the chairman of the Schenectady metroplex development authority. Within ten days of the filing of such certified copies and maps with the office of the chairman of the Schenectady metroplex development authority, such chairman shall file one certified copy of such local law and one certified copy of such map with the commissioner of the New York state department of taxation and finance. The territory and boundaries of the Schenectady metroplex development service district shall not be required to be contiguous.

§ 2655. General purposes and powers of the authority. The general purposes of the authority shall be to design, develop, plan, finance, create, site, construct, renovate, administer, operate, manage, and maintain all metroplex facilities and metroplex parks within the service district defined in section twenty-six hundred fifty-four of this title. To carry out such purposes the authority shall have the power:

1. To sue and be sued;

2. To acquire, hold and dispose of real and personal property for its corporate purposes;

3. To have a seal and alter the same at pleasure;

4. To borrow money and issue bonds for any of its corporate purposes or its projects, or to refund the same, and to provide for the rights of the holders thereof;

5. To make, subject to the provisions of section twenty-six hundred fifty-five-a of this title, by-laws for the management and regulation of its affairs and, subject to agreements with bondholders, for the design, development, planning, construction, financing, operation, management, siting and maintenance of all metroplex facilities and metroplex parks within the service district;

6. To appoint officers, agents and employees; and to describe their qualifications and fix their compensation; subject, however, to the provisions of the civil service law as provided in this title;

7. To make contracts and leases, and to execute all instruments necessary or convenient;

8. To design, develop, plan, finance, create, site, construct, renovate, administer, operate, manage and/or maintain such buildings, parks, structures, and other facilities as may be necessary or convenient, specifically, but not limited to:
(a) trade exhibition facilities;
(b) public show facilities;
(c) public entertainment facilities and parks;
(d) hotel and overnight accommodation facilities;
(e) transportation and parking facilities;
(f) historic preservation facilities and parks;
(g) tourism facilities and parks;
(h) sporting event facilities and parks;
(i) special entertainment facilities and parks;

(j) educational facilities and parks;
(k) cultural and social facilities and parks;
(l) infrastructure facilities;
(m) industrial and manufacturing facilities and parks; and/or
(n) business, commercial, retail, and/or government office space, buildings and/or facilities;

9. To collect revenues, dues, costs, assessments, rentals, fees and other charges for the use of real or personal property and/or facilities and parks of the authority subject to and in accordance with such agreements with bondholders as may be provided in this title;

10. To contract for the services of architects, engineers, consultants, lawyers, financial and other professional advisors, developers, contractors, vendors, concessioners, tenants, facility and/or park users, occupants and managers and other professional consultants and service providers, and to fix their compensation;

11. To declare, designate, establish, design, create, site, construct, develop, plan, finance, operate, renovate, administer, manage and/or maintain parks and park districts within the service district so as to establish parks and/or park districts for historic preservation, educational entertainment, and/or recreation;

12. Upon the resolution of a municipality, to avoid, and be exempt from, zoning and/or planning requirements, laws and/or regulations established, created or enacted by the municipality;

13. To designate the depositories of its money;

14. To establish its fiscal year;

15. To appoint such officers, employees and agents as the authority may require for the performance of its duties and to fix and determine their qualifications, duties, and compensation subject to the provisions of the civil service law and any applicable collective bargaining agreement, and to retain or employ counsel, auditors, engineers and

private consultants on a contract basis or otherwise for rendering professional, management or technical services and advice;

16. To receive and consider reports and recommendations from any advisory councils or boards as may be established by local law, ordinance, or resolution; and

17. To do all things necessary, convenient or desirable, including ancillary and incidental activities, to carry out its purposes and for the exercise of the powers granted in this title.

§ 2655-a. Bylaws of the authority. 1. The board shall draft proposed bylaws for the organization and procedure of the authority. Such bylaws shall be consistent with the provisions of this title and all other state and federal laws, and shall contain a provision that such bylaws may only be amended after final adoption by a two-thirds vote of all the voting members of the board. Upon the drafting of such proposed bylaws, the board shall conduct a public hearing on such proposed bylaws and solicit public comment on the same. After the public hearing and comment has been conducted and solicited, the board shall adopt such proposed bylaws, with any amendments made thereto in response to the public hearing and comment, and shall thereafter file the adopted proposed bylaws with the clerk of the county legislature.

2. Within thirty days of the filing of such adopted proposed bylaws with the clerk of the county legislature, the county legislature may, by a two-thirds vote of all the members of the county legislature, reject the proposed bylaws so filed and return them to the authority for possible amendment and redrafting. If the county legislature does not reject the proposed bylaws by such two-thirds vote within thirty days of the filing of the same, then such proposed bylaws so filed shall be deemed adopted and in full force and effect. If the county legislature rejects the proposed bylaws by such two-thirds vote, then the authority shall amend the proposed bylaws as deemed appropriate. Such amended bylaws shall be filed with the clerk of the county legislature, whereupon the county legislature may again consider the amended bylaws

as in the same manner as if such bylaws had been originally filed pursuant to subdivision one of this section.

3. In the absence of bylaws which are deemed adopted and in full force and effect, the authority shall operate and be governed by the provisions of this title and the most recently revised edition of Roberts Rules of Order.

§ 2655-b. Public hearings of the authority. Prior to the adoption of any project where the authority would:

1. expend more than five hundred thousand dollars;

2. borrow money or issue bonds pursuant to subdivision four of section twenty-six hundred fifty-five of this title; or

3. condemn real property pursuant to section twenty-six hundred fifty-nine of this title;

the board shall schedule and hold a public hearing and solicit public comment on such project. After the conclusion of the public hearing and comment, the board shall consider the results of the public hearing and comments with respect to the adoption of the proposed project. Such consideration by the board shall include the accommodation of the public interest with respect to such project, if such accommodation is deemed in the best interest of the community and the authority's purposes as expressed in section twenty-six hundred fifty-five of this title, the proposal and resolution may be amended.

§ 2655-c. Capital plan of the authority. On or before the first day of March, the authority shall annually produce, and present at a public hearing for public comment, a five-year capital projects plan, outlining the vision of its intended capital projects for the next five years. With respect to each project proposed in the plan, the authority shall provide a detailed description of the:

1. overall nature, purpose and extent of the project;

2. proposed amount and sources of capital funding to complete the project;

3. proposed amount and sources of operating funding necessary to operate the project;

4. urban and community planning performed or which needs to be performed;

5. economic development potential of the project;

6. financial feasibility of the project;

7. geographic location and impact of the project;

8. impact of the project on the community's natural resources;

9. tourism, entertainment and arts development potential of the project;

10. human and physical infrastructure requirements and impact of the project; and

11. other factors which have been considered for the purpose of enhancing the viability of the county.

An annual presentation of this five-year capital plan shall further be made to the county legislature. After the presentation of the first five-year capital plan, any subsequent plan presented shall describe any changes from, modifications to, and the current status of, projects included in the previous plans. In developing and maintaining such plan, the authority shall, from time to time, enter into contracts with any and all outside experts it may deem necessary for the plan's successful production, presentation and development.

§ 2655-d. Reports of the authority. 1. In addition to any other report required by this title, the authority, through its chairman, shall annually deliver, in oral and written form, a report to the county legislature. Such report shall be presented by March fifteenth of each year to the county legislature's standing committee on economic development. The report shall describe in detail the projects undertaken by the authority during the past year, the monies expended by the authority during the past year, the administrative activities of the authority during the past year, and the authority's compliance with the provisions of subdivision three of section twenty-six hundred fifty-six of this title. At the conclusion of the report, the chairman of the authority board shall be prepared to answer the questions of the county legislators with respect to the projects undertaken by the authority during the past year, the monies expended by the authority during the past year, and the administrative activities of the authority during the past year.

2. In addition to any other report required by this title, each board member appointed upon the recommendation of a municipality other than the county, shall annually deliver, in oral and written form, a report to the municipality from which such board member was appointed. In the case of the city of Schenectady, both members so appointed shall jointly deliver such report. Such report shall be presented at a meeting as designated by the municipality's town board or city council. The report shall describe in detail the projects undertaken by the authority during the past year, the monies expended by the authority during the past year, and the administrative activities of the authority during the past year. At the conclusion of the report, the board member or members shall be prepared to answer the questions of the supervisor, mayor, town board and/or city council with respect to the projects undertaken by the authority during the past year, the monies expended by the authority during the past year, and the administrative activities of the authority during the past year, or any other activities of the authority which have been conducted or which may be proposed for performance with the municipality.

§ 2656. Contracts. 1. Construction contracts let by the authority shall be in conformity with the applicable provisions of section one hundred thirty-five of the state finance law.

2. The authority may, in its discretion, assign contracts for supervision and coordination to the successful bidder for any subdivision of work for which the authority receives bids. Any construction contract awarded by the authority shall contain such other terms and conditions as the authority may deem desirable. The authority shall not award any construction contract except to the lowest bidder who, in its opinion, is qualified to perform the work required and who is responsible and reliable. The authority may, however, reject any or all bids or waive any informality in a bid if it believes that the public interest will be promoted thereby. The authority may reject any bid, if, in its judgment, the business and technical organization, plant, resources, financial standing, or experience of the bidder justifies such rejection in view of the work to be performed.

3. Each contract to which the authority is a party including, but not limited to, any contract, lease, grant, bond, covenant, or other debt agreement entered into directly or indirectly by the authority financing in whole or in part, the construction, demolition, reconstruction, excavation, rehabilitation, repair, renovation or alteration of a building or an improvement to property shall require that employers, contractors and sub-contractors shall comply with the provisions of section two hundred twenty of the labor law.

4. For the purposes of article fifteen-A of the executive law only, the authority shall be deemed a state agency as that term is used in such article, and all contracts for procurement, design, construction, services and materials shall be deemed state contracts within the meaning of that term as set forth in such article;

§ 2657. Employees, civil service. 1. The appointment and promotion of all non-exempt/non-management confidential employees of the authority shall be made in accordance with the civil service law and the rules of the Schenectady county civil service commission.

2. In accordance with the provisions of section seventy of the civil service law, any officer or employee of a municipality, school district or special district in the service area, may, at the request of the authority, be transferred to the authority and shall be eligible for such transfer and appointment, without further examination, to applicable offices, positions and employment under the authority. Any such officers or employees so transferred to the authority pursuant to this section, who are members of or benefit under any existing pension or retirement fund or system, shall continue to have all rights, privileges, obligations and status with respect to such fund or system as are now prescribed by law, but during the period of their employment by the authority, all contributions to such funds or systems to be paid by the employer on account of such officers or employees shall be paid by the authority.

3. A transferred employee shall remain in the same collective bargaining unit as was the case prior to his or her transfer. Successor employees to the positions held by such transferred employees shall, consistent with the provisions of article fourteen of the civil service law, be included in the same unit as their predecessors. Employees serving in positions in newly created titles shall be assigned to the same collective bargaining unit as they would have been assigned to such unit were such titles created prior to the establishment of the authority. Nothing contained in this title shall be construed (a) to diminish the rights of employees pursuant to a collective bargaining agreement or (b) to affect existing law with respect to an application to the public employment relations board seeking a designation by the board that certain persons are managerial or confidential.

§ 2658. Code of ethics. 1. As used in this section the term "authority employee" shall mean any member, officer or employee of the authority.

2. No authority employee shall have any interest, financial or otherwise, direct or indirect, or engage in any business or transaction or professional activity or incur any obligation of any nature, which is in substantial conflict with the proper discharge of his or her duties in the public interest.

3. (a) No authority employee shall accept other employment, which will impair his or her independence of judgment in the exercise of his or her official duties.

(b) No authority employee shall accept employment or engage in any business or professional activity which will require the employee to disclose confidential information which he or she has gained by reason of his or her official position or authority.

(c) No authority employee shall disclose confidential information acquired by the employee in the course of his or her official duties nor use such information to further his or her personal interests.

(d) No authority employee shall use or attempt to use his or her official position to secure unwarranted privileges or exemptions for him or herself or others.

(e) No authority employee shall engage in any transaction as representative or agent of the authority with any business entity in which he or she has a direct or indirect financial interest that might reasonably tend to conflict with the proper discharge of his or her official duties.

(f) An authority employee shall not by his or her conduct give reasonable basis for the impression that any person can improperly influence such employee or unduly enjoy his or her favor in the performance of his or her official duties, or that he or she is affected by the kinship, rank, position or influence of any party or person.

(g) An authority employee shall abstain from making personal investments in enterprises which he or she has reason to believe may be directly involved in decisions to be made by the employee or which will otherwise create substantial conflict between his or her duty in the public interest and his or her private interest.

(h) An authority employee shall endeavor to pursue a course of conduct which will not raise suspicion among the public that he or she is likely to be engaged in acts that are in violation of his or her trust.

(i) No authority employee employed on a full-time basis nor any firm or association of which such an employee is a member nor corporation a substantial portion of the stock of which is owned or controlled directly or indirectly by such employee, shall sell goods or services to any person, firm, corporation or association which is licensed or whose rates are fixed by the authority in which such employee serves or is employed.

(j) If any authority employee shall have a financial interest, direct or indirect, having a value of ten thousand dollars or more in any activity which is subject to the jurisdiction of a regulatory agency, he or she shall file with the secretary of state a written statement that he or she has such a financial interest in such activity which statement shall be open to public inspection.

4. In addition to any penalty contained in any other provision of law any such authority employee who shall knowingly and intentionally violate any of the provisions of this section may be fined, suspended or removed from office or employment.

5. The authority shall ensure that all employees or applicants for employment are afforded equal employment opportunity without discrimination.

6. All board members and employees of the authority shall be deemed to be public officers and shall, notwithstanding any other ethical requirements established by state or local law, and when not inconsistent with the provisions of this title, comply with sections seventy-three, seventy-three-a and seventy-four of the public officers law. Notwithstanding any other provision of law, the filing of a Schenectady county financial disclosure statement with the Schenectady county board of ethics by a board member shall constitute and be deemed in compliance with the financial disclosure requirements imposed by this section and section seventy-three-a of the public officers law.

§ 2659. Acquisition of land. The authority, upon the terms and conditions approved by resolution of the authority, shall have the power to acquire real property located within the service district by purchase, lease or condemnation to accomplish its lawful purposes. It shall also have the power to sell, lease or otherwise dispose of real property and shall retain and have the power to use the proceeds of such sale, rentals or other monies derived from the disposition thereof for its lawful purposes. A resolution of the authority to condemn real property shall require a two-thirds majority of the board for approval.

Claims for the value of the real property condemned and for legal damages caused by any such condemnation shall be adjusted and determined by the chairman with the approval of the board, or by the supreme court of Schenectady county as provided in section twenty-six hundred seventy of this title. When a claim has been filed with the supreme court, the claimant shall cause a copy of such claim to be served upon the authority and the authority shall have the right to be represented and heard before said court. All awards and judgments arising from such claims shall be paid out of moneys of the authority.

§ 2660. Request for state assistance. 1. Should the chairman of the authority determine that state assistance is necessary for the authority to achieve its lawful goals, powers and purposes, the chairman may annually may make and deliver to the director of the budget, the chairman of the senate finance committee and the chairman of the assembly ways and means committee a request for financial support for the operation of the authority for the forthcoming fiscal year of the state. The request for financial support shall delineate the total amount needed by the authority from the state to achieve its lawful goals, powers and purposes, the source of all funds that the authority expects to receive from all other sources, and such other information as the director of the budget, the chairman of the senate finance committee and the chairman of the assembly ways and means committee shall require.

2. The state may appropriate and provide to the authority an amount of money it deems necessary to provide the authority to assist it in its successful operation and achievement of its lawful goals, powers and

purposes.

3. Notwithstanding the provisions of any general or special law to the contrary, no part of such appropriations shall be available for the purposes designated until a certificate of approval of availability shall have been issued by the director of the budget and a copy of such certificate is filed with the comptroller, the chairman of the senate finance committee and the chairman of the assembly ways and means committee. Such certificate may be amended from time to time, subject to the approval of the director of the budget, and a copy of each such amendment shall be filed with the comptroller, the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

§ 2661. Request for municipal assistance. 1. Notwithstanding the provisions of any general or special law to the contrary, the county of Schenectady may transfer to the authority from funds appropriated by the county legislature for the fiscal year beginning nineteen hundred ninety-eight, and each fiscal year thereafter, the amount the county deems necessary to assist the authority in its successful operation and achievement of its lawful goals, powers and purposes.

2. On or before August fifteenth, nineteen hundred ninety-nine, and on each August fifteenth thereafter, the chairman of the authority shall make and deliver to the chairman of the county legislature's ways and means committee for his approval and for submission to the county legislature a request for financial support for the operation to the authority for the forthcoming fiscal year of the county. The request for financial support shall delineate the total amount needed by the authority from the county to achieve its lawful goals, powers and purposes, the source of all funds that the authority expects to receive from all other sources, and such other information as the chairman of the county legislature's ways and means committee shall require. The chairman of the county legislature's ways and means committee may recommend the request for financial support by the authority for the annual county budget appropriations to the authority if the chairman of

the county legislature's ways and means committee determines that the request for financial support will assist the authority to achieve its lawful goals, powers and purposes for the upcoming year. The chairman of the county legislature's ways and means committee shall notify the chairman of the authority not later than October first of each year whether or not he has recommended to the county legislature the request for financial support to the authority.

3. The county may appropriate and provide to the authority an amount of money it deems necessary to provide the authority to assist it in its successful operation and achievement of its lawful goals, powers and purposes.

4. Notwithstanding the provisions of any general or special law to the contrary, no part of such county appropriations shall be available for the purposes designated until a certificate of approval of availability shall have been issued by the chairman of the county legislature's ways and means committee and a copy of such certificate is filed with the county director of finance. Such certificate may be amended from time to time, subject to the approval of the chairman of the county legislature's ways and means committee, and a copy of each such amendment shall be filed with the county director of finance.

5. Notwithstanding the provisions of any general or special law to the contrary, a town, city or village of Schenectady county may transfer to the authority from funds appropriated by the town, city or village for the fiscal year beginning nineteen hundred ninety-eight, and each fiscal year thereafter, the amount the town, city or village deems necessary to assist the authority in its successful operation and achievement of its lawful goals, powers and purposes.

6. On or before August fifteenth, nineteen hundred ninety-nine, and on each August fifteenth thereafter, the chairman of the authority shall make and deliver to the supervisor or mayor of such town, city or village for his approval and for submission to the town board, city council or village board a request for financial support for the operation of the authority for the forthcoming fiscal year of the town,

city or village. The request for financial support shall delineate the total amount needed by the authority from the town, city or village to achieve its lawful goals, powers and purposes, the source of all funds that the authority expects to receive from all other sources, and such other information as the supervisor or mayor shall require. The supervisor or mayor may recommend the request for financial support by the authority for the annual town, city or village budget appropriations to the authority if the supervisor or mayor determines that the request for financial support will assist the authority to achieve its lawful goals, powers and purposes for the upcoming year. The supervisor or mayor shall notify the chairman of the authority not later than October first of each year whether or not he has recommenced to the town board, city council or village board the request for financial support to the authority.

7. A town, city or village of Schenectady county may appropriate and provide to the authority an amount of money it deems necessary to provide the authority to assist it in its successful operation and achievement of its lawful goals, powers and purposes.

8. Notwithstanding the provisions of any general or special law to the contrary, no part of such town, city or village appropriations shall be available for the purposes designated until a certificate of approval of availability shall have been issued by the supervisor or mayor of the town, city or village and a copy of such certificate is filed with the town, city or village's director of finance. Such certificate may be amended from time to time, subject to the approval of the supervisor or mayor, and a copy of each such amendment shall be filed with the town, city or village's director of finance.

9. The county of Schenectady shall dedicate net collections from sales and compensating use taxes imposed pursuant to the authority of section twelve hundred ten-C of the tax law at the rate of one-half of one percent, during the period beginning September first, nineteen hundred ninety-eight, and ending August thirty-first, two thousand thirty-eight, or, if the county does not impose taxes pursuant to the authority of section twelve hundred ten-C of the tax law, the county shall dedicate

net collections from sales and compensating use taxes imposed during such period at the rate of one-half of one percent pursuant to the authority of section twelve hundred ten of the tax law, and shall quarterly deposit such net collections in the Schenectady metroplex development authority support fund established in accordance with subdivision (b) of section twelve hundred ten-C of the tax law. On January first, nineteen hundred ninety-nine, and then quarterly thereafter, the director of finance of Schenectady county shall transfer seventy percent of such net collections deposited in the Schenectady metroplex development authority support fund to the authority for deposit in the authority's general fund. The authority may use such portion of such dedicated net collections received for any lawful purpose or power of the authority. On January first, nineteen hundred ninety-nine, and then quarterly thereafter, the director of finance of Schenectady county, after transferring seventy percent of such net collections to the authority for deposit in the authority's general fund, shall transfer all remaining monies in the Schenectady metroplex development authority support fund to the Schenectady county real property tax abatement and economic development fund.

§ 2662. Private donations. Notwithstanding the provisions of any general or special law to the contrary, any person may donate, give, tender or provide, and the authority may receive, private monies to assist the authority in its successful operation and achievement of its lawful goals, powers and purposes.

§ 2663. Monies of the authority. 1. All monies of the authority from whatever source derived shall be paid to the treasurer of the authority and shall be deposited forthwith in a bank or banks designated by the authority. The monies in such accounts shall be paid out or withdrawn on the order of such person or persons as the authority may authorize to make such requisitions. All deposits of such monies shall be secured by obligations of the United States or of the state or of any municipality of a market value equal at all times to the amount on deposit and all banks and trust companies are authorized to give such security for such deposits. To the extent practicable, consistent with the cash requirements of the authority, all such monies shall be deposited in interest bearing accounts. The authority shall have power, notwithstanding the provisions of this section, to contract with the holders of any bonds as to the custody, collection, security, investment and payment of any monies of the authority or any monies held in trust or otherwise for the payment of bonds or any way to secure bonds, and carry out any such contract notwithstanding that such contract may be inconsistent with the provisions of this section. Monies held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of such monies may be secured in the same manner as monies of the authority and all banks and trust companies are authorized to give such security for such deposits. Any monies of the authority not required for immediate use or disbursement may, at the discretion of the authority, be invested pursuant to section ninety-eight-a of the state finance law in accordance with guidelines established by the authority's board and amended from time to time. Subject to the provisions of any contract with bondholders and with the approval of the state comptroller, the authority shall prescribe a system of accounts.

2. Tax revenues received by the authority pursuant to section twelve hundred ten-C of the tax law, shall be applied in the following order of priority: first pursuant to the authority's contracts with bondholders, then to pay the authority's operating expense not otherwise provided for, and then the balance of such taxes not required to meet contractual or other obligations of the authority shall be deposited in the general fund of the authority.

§ 2664. Return of moneys to the county of Schenectady. 1. In the event that the revenues of the authority exceed its current liabilities by more than fifty percent at the end of its first fiscal year, or by more than ten percent at the end of its fiscal year of each fiscal year after its first fiscal year, after a lawful deposit in its reserve fund of not less than five percent of its revenues, and after a lawful deposit into its construction and development account in the amount necessary to provide payment for the anticipated projects of the next fiscal year, then the authority shall return to the county of Schenectady seventy-five percent of such surplus amount.

2. In the event that the revenues of the authority do not exceed its current liabilities by more than fifty percent at the end of its first fiscal year, or by more than ten percent at the end of its fiscal year of each fiscal year after its first fiscal year, after a lawful deposit in its reserve fund of not less than five percent of its revenues and after a lawful deposit into its construction and development account in the amount necessary to provide payment for the anticipated projects of the next fiscal year, or that sufficient funds are not available for the authority to make a lawful deposit in its reserve fund of not less than five percent of its revenues, and a lawful deposit into its construction and development account, then the authority shall not be required to return any funds to the county of Schenectady for that fiscal year.

3. The authority shall not return any funds to the county of Schenectady that have been received by the authority from sources other than the dedicated one-half of one percent of the sales tax.

§ 2665. Bonds or notes of the authority. 1. The authority shall have the power and is hereby authorized from time to time to issue bonds, notes or other obligations in conformity with applicable provisions of the uniform commercial code to pay the cost of any project, the establishment of reserves to secure the bonds, the payment of principal of, premium, if any, and interest on the bonds and the payment of incidental expenses in connection therewith. The aggregate principal amount of such bonds or notes of the authority shall not exceed one hundred million dollars ($100,000,000), excluding bonds or notes issued to refund or repay bonds or notes therefore issued for such purposes; provided, however, that upon any such refunding or repayment the total aggregate principal amount of outstanding bonds or notes may be greater than one hundred million dollars ($100,000,000), only if the present value of the aggregate debt service of the refunding or repayment of bonds or notes to be issued shall not exceed the present value of the aggregate debt service of the bonds or notes so to be refunded or repaid. For the purpose of this section, the present value of the aggregate debt service of the refunding or repayment bonds or notes and the aggregate debt service of the bonds or notes refunded or repaid shall be calculated by utilizing the effective interest rate of the refunding or repayment of bonds or notes, which shall be that rate arrived at by doubling the semi-annual interest rate (compounded semi-annually) necessary to discount the debt service payments on the refunding or repayment of bonds or notes from payment of dates thereof to the date of issue of the refunding or repayment of bonds or notes and to the price bid including estimated accrued interest from the sale thereof. The authority shall have the power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee to any bonds.

2. The authority shall have the power from time to time to renew bonds or to issue renewal bonds for such purpose, to issue bonds to pay bonds, and, whenever it deems refunding expedient, to refund any bond by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds, partly to refund bonds then outstanding and partly for any other purpose of the authority. Bonds issued for refunding purposes shall be sold and the proceeds applied to the purchase, redemption or payment of the bonds or notes to be refunded.

3. Bonds issued by the authority may be general obligations secured by the faith and credit of the authority or may be special obligations payable solely out of particular revenues or other monies as may be designated in the proceedings of the authority under which the bonds shall be authorized to be issued, subject as to priority only to any agreements with the holders of outstanding bonds pledging any particular property, revenues or monies. The authority may also enter into loan agreements, lines of credit and other security agreements and obtain for or on its behalf letters of credit, insurance, guarantees or other credit enhancements to the extent now or hereafter available, in each case for securing its bonds or to provide direct payment of any costs which the authority is authorized to pay.

4. (a) Bonds shall be authorized by resolution of the authority, be in such denominations and bear such date or dates and mature at such time or times, as such resolution may provide, provided that bonds and renewals thereof shall mature within thirty years from the date of original issuance of any such bonds.

(b) Bonds shall be subject to such terms of redemption, bear interest at such rate or rates, be payable at such times, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution may provide. Notwithstanding any other provision of law, the bonds of the authority issued pursuant to this section shall be sold to the bidder offering the lowest true interest cost, taking into consideration any premium or discount not less than four nor more than fifteen days, Sunday excepted, after a notice of such sale has been published at least once in a newspaper of general circulation in the area served by the authority, which shall state the terms of the sale. The terms of the sale may not change unless notice of such change is published in such newspaper at least one day prior to the date of the sale as set forth in the original notice of sale. Advertisements shall contain a provision to the effect that the authority, in its discretion, may reject any or all bids made pursuant to such advertisements, and in the event of such rejection, the authority is authorized to negotiate a private or public sale or readvertise for bids in the form and manner above described as many times as, in its judgment, may be necessary to effect satisfactory sale.

(c) Notwithstanding the provisions of the preceding paragraph, whenever in the judgment of the authority the interests of the authority will be served thereby, the members of the authority, on the written recommendation of the chairperson may authorize the sale of such bonds at private or public sale on a negotiated basis or on either a competitive or negotiated basis. The authority shall set guidelines governing the terms and conditions of any such private or public sales. The private or public bond sale guidelines set by the authority shall include, but not be limited to, a requirement that where the interests of the authority will be served by a private or public sale of bonds, the authority shall select underwriters taking into account, among other things, qualifications of underwriters as to experience, their ability to structure and sell authority bond issues, anticipated costs to the authority, the prior experience of the authority with the firm, if any, the capitalization of such firms, participation of qualified minority and women-owned business enterprise firms in such private or public sales of bonds of the authority and the experience and ability of firms under consideration to work with minority and women-owned business enterprises so as to promote and assist participation by such enterprises.

(d) The authority shall have the power from time to time to amend such private bond sale guidelines in accordance with the provisions of this subdivision.

(e) No private or public bond sale on a negotiated basis shall be conducted by the authority without prior approval of the state comptroller. The authority shall annually prepare and approve a bond sale report which shall include the private or public bond sale guidelines as specified in this subdivision, amendments to such guidelines since the last private or public bond sale report, an explanation of the bond sale guidelines and amendments, and the results of any sale of bonds conducted during the fiscal year. Such bond sale report may be a part of any other annual report that the authority is required to make.

(f) The authority shall annually submit its bond sale report to the state comptroller and copies thereof to the senate finance committee and the assembly ways and means committee.

(g) The authority shall make available to the public copies of its bond sale report upon reasonable request thereof.

(h) Nothing contained in this subdivision shall be deemed to alter, affect the validity of, modify the terms of, or impair any contract or agreement made or entered into in violation of, or without compliance with, the provisions of this subdivision.

5. Any resolution or resolutions authorizing bonds or any issue of bonds by the authority may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to:

(a) Pledging all or part of the revenues, together with any other monies or property of the authority to secure the payment of the bonds, or any costs of issuance thereof, including but not limited to, any contracts, earnings or proceeds of any grant to the authority received from any private or public source subject to such agreements with bondholders as may then exist;

(b) The setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;

(c) Limitations on the purpose to which the proceeds from the sale of bonds may be applied;

(d) The rates, rents, fees and other charges to be fixed and collected by the authority and the amount to be raised in each year thereby and the use and disposition of revenues;

(e) Limitations on the right of the authority to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;

(f) Limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;

(g) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, including the proportion of bondholders which must consent thereto, and the manner in which such consent may be given;

(h) The creation of special funds into which any revenues or monies may be deposited;

(i) The terms and provisions of any trust, mortgage, deed or indenture securing the bonds under which the bonds may be issued;

(j) Vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustees appointed by the bondholders pursuant to this title or limiting the rights, duties and powers of such trustee;

(k) Defining the acts or omissions to act which may constitute a default in the obligations and duties of the authority to the bondholders and providing for the rights and remedies of the bondholders in the event of such default, including as a matter of right appointment of a receiver, provided, however, that such acts or omissions to act which may constitute a default and such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;

(l) Limitations on the power of the authority to sell or otherwise dispose of any project or any part thereof or other property;

(m) Limitations on the amount of revenues and other monies to be expended or operating, administrative or other expenses of the authority;

(n) The payment of the proceeds of bonds, revenues and other monies to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine; and

(o) Any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of the bondholders.

6. In addition to the powers herein conferred upon the authority to secure its bonds, the authority shall have the power in connection with the issuance of bonds to adopt resolutions and enter into such trust indentures, agreements or other instruments as the authority may deem necessary, convenient or desirable concerning the use or disposition of its revenues or other monies or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, monies or property and the doing of any act, including refraining from doing any act which the authority would have the right to do in the absence of such resolutions, trust indentures, agreements or other instruments. The authority shall have power to enter into amendments of any such resolutions, trust indentures, agreements or other instruments within the powers granted to the authority by this title and to perform such resolutions, trust indentures, agreements or other instruments. The provisions of any such resolutions, trust indentures, agreements or other instruments may be made a part of the contract with the holders of bonds of the authority.

7. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, monies, accounts, contract rights, general intangibles or other personal property made or created by the authority shall be valid, binding and perfected from the time when such pledge is made or other security

interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

8. Whether or not the bonds of the authority are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

9. Neither the members nor the officers of the authority nor any person executing its bonds shall be liable personally on its bonds or be subject to any personal liability or accountability by reason of the issuance thereof.

10. Subject to such agreements with bondholders as may then exist, the authority shall have power out of any funds available therefor to purchase bonds of the authority, in lieu of redemption, at a price not exceeding, if the bonds are then redeemable, the redemption price then applicable plus accrued interest to the next interest payment date, or, if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date. Bonds so purchased shall thereupon be canceled.

11. The authority shall have power and is hereby authorized to issue negotiable bond anticipation notes in conformity with applicable provisions of the uniform commercial code and in accordance with section 21.00 of the local finance law, as amended from time to time.

§ 2666. Bonds; legal investment for fiduciaries. The bonds of the authority are hereby made securities in which all public officers and bodies of the state and all municipalities, all insurance companies and associations and other persons carrying on an insurance business, all banks, bankers, trust companies, savings banks and saving associations, including savings and loan associations, building and loan associations, investment companies and other persons carrying on a banking business, and administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever, who are now or may hereafter be authorized to invest in bonds or other obligations of the state may properly and legally invest funds including capital in their control or belonging to them. The bonds are also hereby made securities which may be deposited with and may be received by all public officers and bodies of the state and all municipalities for any purposes for which the deposit of bonds or other obligations of this state is now or hereafter may be authorized.

§ 2667. Tax exemption and tax contract by the state. 1. It is hereby determined that the creation of the authority and the carrying out of its corporate purposes is in all respects for the benefit of the people of the state of New York and is a public purpose. Accordingly, the authority shall be regarded as performing an essential governmental function in the exercise of the powers conferred upon it by this title. The property of the authority, its income and operations shall be exempt from taxation, assessments, special assessments and special ad valorem levies; the authority shall not be required to pay any fees, taxes, special ad valorem levies or assessments of any kind, whether state or local, including but not limited to fees, taxes, special ad valorem levies or assessments on real property, franchise taxes, sales taxes or other taxes, upon or with respect to any property owned by it or under its jurisdiction, control or supervision, or upon the uses thereof, or upon or with respect to its activities or operations in furtherance of the powers conferred upon it by this title, or upon or with respect to any fares, tolls, rentals, rates, charges, fees, revenues or other income received by the authority.

2. Bonds issued pursuant to this title together with the income therefrom shall at all times be exempt from taxation.

3. The state hereby covenants with the purchasers and with all subsequent holders and transferees of bonds issued by the authority pursuant to this title, in consideration of the acceptance of and payment for the bonds, that the bonds of the authority issued pursuant to this title and the income therefrom and all revenues, monies, and other property pledged to pay or to secure the payment of such bonds shall at all times be free from taxation.

4. The authority may pay, or may enter into agreements with the county or any municipality to pay, a sum or sums annually or otherwise or to provide other considerations with respect to the real property owned by the authority located within the county or such municipality.

5. Notwithstanding subdivision four of this section, any project authorized by paragraphs (d), (m) and (n) of subdivision eight of section twenty-six hundred fifty-five of this title except government office space, building or facilities shall be exempt from real property taxation, calculated not to exceed the following: ten years of full exemption followed by one year of exemption from eighty percent of such taxation, followed by one year of exemption from sixty percent of such taxation, followed by one year of exemption from forty percent of such taxation, followed by one year of exemption from twenty percent of such taxation.

§ 2668. Remedies of bondholders. Subject to any resolution or resolutions adopted pursuant to this title:

1. In the event that the authority shall default in the payment of principal of or interest on any issue of bonds after the same shall become due, whether at maturity or upon call for redemption, and such default shall continue for a period of thirty days, or in the event that the authority shall fail or refuse to comply with the provisions of this title or shall default in any agreement made with the holders of any issue of bonds, the holders of twenty-five percent in aggregate principal amount of the bonds of such issue then outstanding, by

instrument or instruments filed in the office of the clerk of the county in which the principal office of the authority is located and proved or acknowledged in the same manner as a deed to be recorded, may appoint a trustee to represent the holders of such bonds for the purpose herein provided.

2. Such trustee may, and upon written request of the holders of twenty-five per centum in principal amount of such bonds outstanding shall, in its own name:

(a) By action or proceeding in accordance with the civil practice law and rules, enforce all rights of the bondholders, including the right to require the authority to collect rents, rates, fees and charges adequate to carry out any agreement as to, or pledge of, such rents, rates, fees and charges and to require the authority to carry out any other agreements with the holders of such bonds to perform its duties under this title;

(b) Bring an action or proceeding upon such bonds;

(c) By action or proceeding, require the authority to account as if it were the trustee of an express trust for the holders of such bonds;

(d) By action or proceeding, enjoin any acts or things which may be unlawful or in violation of the rights of the holders of such bonds; and

(e) Declare all such bonds due and payable, and if all defaults shall be made good, then with the consent of the holders of the twenty-five per centum of the principal amount of such bonds then outstanding, to annul such declaration and its consequences.

3. Such trustee shall in addition to the foregoing have and possess all of the powers necessary or appropriate for the exercise of any functions specifically set forth herein or incident to the general representation of bondholders in the enforcement and protection of their rights.

4. The supreme court shall have jurisdiction of any action or proceeding by the trustee on behalf of such bondholders. The venue of any such action or proceeding shall be laid in the county.

5. Before declaring the principal of bonds due and payable, the

trustee shall first give thirty days notice in writing to the authority.

6. Any such trustee, whether or not the issue of bonds represented by such trustee has been declared due and payable, shall be entitled as of right to the appointment of any receiver of any part or parts of the project, the revenues of which are pledged for the security of the bonds of such issue, and such receiver may enter and take possession of such part or parts of the project and, subject to any pledge or agreement with the holders of such bonds, shall take possession of all monies and other property derived from such part or parts of the project and proceed with any construction thereon or the acquisition of any property, real or personal, in connection therewith that the authority is under obligation to do, and to operate, maintain and reconstruct such part or parts of the project and collect and receive all revenues thereafter arising therefrom subject to any pledge or agreement with bondholders relating thereto and perform the public duties and carry out the agreements and obligations of the authority under the direction of the court. In any suit, action or proceeding by the trustee, the fees, counsel fees and expenses of the trustee and of the receiver, if any, shall constitute taxable disbursements and all costs and disbursements allowed by the court shall be a first charge on any revenues derived from the properties.

§ 2669. State, county and municipalities not liable on bonds. Neither the state, the county nor any municipality therein shall be liable on the bonds or notes of the authority and such bonds or notes shall not be a debt of the state, the county or of any municipality therein and such bonds and notes shall contain on the face thereof a statement to such effect.

§ 2669-a. Agreement with state. The state does hereby pledge to and agree with the holders of any bonds issued by the authority pursuant to this title and secured by a pledge, and with those persons or public authorities who may enter into contracts with the authority pursuant to the provisions of this title that the state will not alter, limit or impair the rights hereby vested in the authority to purchase, construct, own and operate, maintain, repair, improve, reconstruct, renovate, rehabilitate, enlarge, increase and extend, or dispose of any project, or any part or parts thereof for which bonds of the authority shall have been issued, to establish and collect rates, rents, fees and other charges referred to in this title, to fulfill the terms of any contracts or agreements made with or for the benefit of the holders of bonds or with any person or public authority with reference to such project or part thereof, or in any way to impair the rights and remedies of the holders of bonds, until the bonds, together with interest thereon, including interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the holders of bonds, are fully met and discharged and such contracts are fully performed on the part of the authority. The authority is authorized to include this pledge and agreement of the state in any agreement with the holders of bonds. Nothing contained in this title shall be deemed to restrict the right of the state to amend, modify, repeal or otherwise alter statutes imposing or relating to taxes or fees or appropriations relating thereto. The authority shall not include in any resolution, contract or agreement with the holders of its bonds, or such persons or public authorities who may enter into contracts with the authority, any provision stating that, as a result of the state exercising its right to amend, repeal, modify or otherwise alter any such tax, fee or appropriation a default will occur. Nothing in this title shall be deemed to obligate the state to make additional payments or impose any taxes to satisfy the debt service obligations of the authority.

§ 2669-b. Agreement with county. 1. The county is authorized to pledge to and agree with the holders of any bonds issued by the authority pursuant to this title and secured by such a pledge, and with those persons or public authorities who may enter into contracts with the authority pursuant to the provisions of this title that the county will not alter, limit or impair the rights hereby vested in the authority to purchase, construct, own and operate, maintain, repair, improve, reconstruct, renovate, rehabilitate, enlarge, increase and extend, or dispose of any project, or any part or parts thereof, for which bonds of the authority shall have been issued, to establish, collect and adjust rates, rents, fees and other charges referred to in this title, to fulfill the terms of any agreements made with the holders of the bonds or with any public authority or person with reference to such project or part thereof, or in any way impair the rights and remedies of the holders of bonds, until the bonds, together with interest thereon, including interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the holders of bonds, are fully met and discharged and such contracts are fully performed on the part of the authority.

2. (a) Nothing contained in this title shall be deemed to restrict the right of the county to repeal the sales and compensating use taxes imposed pursuant to the authority of section twelve hundred ten-C of the tax law, provided such county imposes sales and compensating use taxes pursuant to the authority of section twelve hundred ten of the tax law at a rate not less than one-half of one percent, or, if the county does not impose such taxes pursuant to the authority of section twelve hundred ten-C of the tax law, to reduce the rate of such taxes imposed pursuant to the authority of such section twelve hundred ten of the tax law to a rate not less than one-half of one percent, or to amend, modify or otherwise alter such taxes or appropriations relating thereto or to amend, modify, repeal or otherwise alter other taxes or fees or appropriations relating thereto.

(b) The authority shall not include in any resolution, contract or agreement with the holders of its bonds, or such persons or public authorities who may enter into contracts with the authority, any provision stating that, as a result of the county exercising its right to reduce, as described in paragraph (a) of this subdivision, the rate of, amend, modify or otherwise alter such sales and compensating use taxes or related appropriations, or its right to amend, repeal, modify or otherwise alter any such other tax, fee or appropriation a default will occur.

3. Nothing in this title shall be deemed to obligate the county to make additional payments or impose any taxes to satisfy the debt service

obligations of the authority.

§ 2670. Actions against authority. 1. Except in an action for wrongful death, no action or special proceeding shall be prosecuted or maintained against the authority, its members, officers or employees for personal injury or damage to real or personal property alleged to have been sustained by reason of the negligence, tort or wrongful act of the authority or of any member, officer, agent or employee thereof, unless (a) notice of claim shall have been made and served upon the authority within the time limit set by and in compliance with section fifty-e of the general municipal law, (b) it shall appear by and as an allegation in the complaint or moving papers that at least thirty days have elapsed since the service of such notice and that adjustment or payment thereof has been neglected or refused, (c) the action or special proceeding shall be commenced within one year and ninety days after the happening of the event upon which the claim is based, and (d) an action, against the authority for wrongful death shall be commenced in accordance with the notice of claim and time limitation provisions of title eleven of article nine of this chapter.

2. Whenever a notice of claim is served upon the authority, it shall have the right to demand an examination of the claimant relative to the occurrence and extent of the injuries or damages for which claim is made, in accordance with the provisions of section fifty-h of the general municipal law.

3. The authority may require any person presenting for settlement an account or claim for any cause whatsoever against the authority to be sworn before a member, counsel or an attorney, officer or employee of the authority designated for such purpose, concerning such account or claim and, when so sworn, to answer orally as to any facts relative to such account or claim. The authority shall have power to settle or adjust all claims in favor of or against the authority.

4. Any action or proceeding to which the authority or the people of the state may be parties, in which any question arises as to the

validity of this title, shall be preferred over all other civil causes of action or cases, except election causes of action or cases, in all courts of the state and shall be heard and determined in preference to all other civil business pending therein except election causes, irrespective of position on the calendar. The same performance shall be granted upon application of the authority or its counsel in any action or proceeding questioning the validity of this title in which the authority may be allowed to intervene. The venue of any such action or proceeding shall be laid in the supreme court of the county.

5. The rate of interest to be paid by the authority upon any judgment for which it is liable, other than a judgment on its bonds, shall be the rate prescribed by section five thousand four of the civil practice law and rules. Interest on payments of principal or interest on any bonds in default shall accrue at the rate borne by such bonds from the due date thereof until paid or otherwise satisfied.

6. All actions or proceedings against the authority of whatever nature shall be brought in the supreme court of Schenectady county.

§ 2671. Limitation of liability; indemnification. 1. Neither the members of the authority nor any person acting in its behalf, while acting within the scope of their authority, shall be subject to any personal liability resulting from carrying out any of the powers expressly given in or authorized by this title.

2. The board shall elect the provisions of section eighteen of the public officers law to apply to the members, officers, employees and agents of the authority in connection with any and all claims, demands, suits, actions or proceedings which may be made or brought against any of them arising out of any determinations made or actions taken or failed to be taken in compliance with any obligations under or pursuant to the terms of this title.

§ 2672. Assistance by state officers, departments, boards and

commissions. The department of audit and control, department of law, and all other state officers, agencies, departments, boards, divisions offices, and commissions may render such services to the authority within their respective functions as may be requested by the authority.

Notwithstanding the provisions of any other law to the contrary, the commissioner of the office of general services is authorized to enter into a contract, from time to time, on behalf of and in the name of the state of New York, upon terms and conditions which are fair and equitable, for the conveyance of unappropriated state lands and lands under water which the authority shall certify to be necessary or desirable for the corporate purposes of the authority.

§ 2673. Audit, annual report, county approval of certain projects. 1. The accounts of the authority shall be subject to the supervision of the state comptroller and an annual audit shall be performed by an independent certified public accountant. The authority shall annually submit to the county legislature, governor, state comptroller, chairperson of the senate finance committee, and chairperson of the assembly ways and means committee a detailed report pursuant to the provisions of section twenty-eight hundred of this chapter, and a copy of such report shall be filed with the clerk of the county legislature.

2. The authority shall not undertake any project unless it shall have first been approved by a majority vote of the county legislature. The provisions of this subdivision shall not apply, and no approval of the county legislature shall be necessary, when: (a) the direct expenditure of funds used to complete such project is not anticipated to exceed ten million dollars in funds derived from the authority's share of the dedicated net collections described in subdivision nine of section twenty-six hundred sixty-one of this title, and the interest on one-third or less of bonds or notes that shall be issued for such project pursuant to this title shall be includable, under the United States Internal Revenue Code of 1986, as amended, or any subsequent corresponding internal revenue law of the United States, in gross income of the holders of the bonds or notes to the same extent and in the same

manner that the interest on bills, bonds, notes or other obligations of the United States is includable in the gross income of the holders thereof under the code or any of the subsequent laws; or (b) notwithstanding the provisions of paragraph (a) of this subdivision, no bonding is necessary; or (c) notwithstanding the provisions of paragraph (a) of this subdivision, solely where the action of the authority is site acquisition, site preparation or infrastructure development.

§ 2674. Separability. If any provision of any section of this title or the application thereof to any person or circumstance shall be adjudged invalid by a court of competent jurisdiction, such order or judgment shall be confined in its operation to the controversy in which it was rendered, and shall not affect or invalidate the remainder of any provision of any section of this title or the application of any part thereof to any other person or circumstance and to this end the provisions of each section of this title are hereby declared to be severable.

Insofar as the provisions of this title are inconsistent with the provisions of any other law, general, special or local, the provisions of this title shall be controlling.

TITLE 28-BB

ALBANY CONVENTION CENTER AUTHORITY

§ 2675-a. Short title. This title shall be known and may be cited as the "Albany convention center authority act".

§ 2675-b. Statement of legislative findings. It is hereby found, determined and declared that there is an immediate need to institute a comprehensive, coordinated program of convention activities in the city of Albany. It is further found, determined and declared to be desirable to create an Albany convention center authority to provide the city of Albany with the capability to effectively and efficiently develop, renovate and undertake certain transformational economic developmental projects in the historic downtown area to optimize the economic and social activities of the city and its environs. It is further found, determined and declared that the construction, transformation and improvement of new and existing facilities for a convention center consisting of trade exhibition, hotel accommodations, transportation infrastructure, tourism, theatre facilities, retail business, commercial office space facilities, including services for the operation and maintenance thereof, will provide significant economic and social benefits to the city and county of Albany and the entire capital district region and, that, consistent with social, economic, environmental and other essential considerations of state policy, locating and renovating these new and improved facilities in the historic downtown area of the city of Albany is in the public interest, given the convenience and accessibility of the city, its significance in the history of the state and nation, its designation as a heritage area, its stature as the capital city of the state and the seat of state government, and the immediacy of the needs of the people of the state for the realization of the significant economic and social benefits to be derived from this convention center.

It is further found, determined and declared that the development of the area is a matter of essential state and city concern, and that the establishment and creation of an Albany convention center authority is necessary to provide for the economic prosperity and general welfare of the people of the city of Albany and the state of New York for the construction, development, location and operation of a convention center consisting of these facilities.

It is further found, determined and declared to be the intent of the legislature that the Albany convention center authority shall carry out its purposes and responsibilities directly and through agreements with local entities, and that the Albany convention center authority shall be created as a public benefit corporation and that the corporate programs and powers conferred under this title and the expenditure of public monies pursuant thereto, are in furtherance of a valid public interest and public purpose.

§ 2675-c. Definitions. As used or referred to in this title, unless a different meaning appears from the context:

1. "Authority" shall mean the public benefit corporation created by section twenty-six hundred seventy-five-d of this title.

2. "Board" shall mean the members of the authority created in section twenty-six hundred seventy-five-d of this title.

3. "Bonds" shall mean hotel revenue bonds, notes, and other evidence of indebtedness issued by the authority pursuant to this title.

4. "City" shall mean the city of Albany.

5. "Common council" shall mean the common council of the city of

Albany.

6. "Comptroller" shall mean the comptroller of the state of New York.

7. "Convention facility" shall mean a convention center complex comprised of facilities for trade exhibition, hotel accommodations, transportation infrastructure, tourism, retail business, commercial office space and/or parking of which the ownership, lease, transfer, design, development, planning, financing, creation, siting, construction, renovation, administration, operation, management and/or maintenance is authorized to be undertaken, in whole or part, by the authority pursuant to this title.

8. "County executive" shall mean the county executive of the county of Albany.

9. "County legislature" shall mean the county legislature of the county of Albany.

10. "Director of the budget" shall mean the director of the budget for the state of New York.

11. "Downtown" shall mean the area within the boundaries of the city of Albany located within one mile of the State Capitol or Empire State Plaza.

12. "Governor" shall mean the governor of the state of New York.

13. "Mayor" shall mean the mayor of the city of Albany.

14. "Municipality" shall mean a county, town, city or village.

15. "Person" shall mean any natural person, partnership, limited liability company, association, joint venture or corporation, exclusive of a public corporation.

16. "Personal property" shall mean chattels and other tangible things

of a moveable or removable nature.

17. "Property" shall mean both real and personal property.

18. "Real property" shall mean lands, structures, franchises and interests in land, airspace, waters, lands under water, riparian rights, air rights, any fixtures, equipment and articles of personal property affixed to or used in connection therewith, and any and all things and rights included within said term and includes not only fees simple absolute but also any and all lesser interests including but not limited to easements, rights-of-way, uses, leases, licenses and all other incorporeal hereditaments and every estate, interest or right, legal or equitable, including terms for years and liens thereon by way of judgments, mortgages, or otherwise.

19. "State" shall mean the state of New York.

20. "Theatre facilities" shall mean a building or part of a building with one or more performance areas and one or more audience seating areas used primarily for the presentation of dramatic or musical theatre.

§ 2675-d. Albany convention center authority. 1. A corporation known as the Albany convention center authority is hereby created for the public purpose and charged with the duties and having the powers provided in this title. The authority shall be a body corporate and politic constituting a public benefit corporation. The governing body of the authority shall be a board. The authority shall consist of nine members. Three members shall be appointed by the governor. One member shall be appointed by the temporary president of the senate. One member shall be appointed by the speaker of the assembly. Two members shall be appointed by the mayor with the advice and consent of the common council. Two members shall be appointed by the county executive with the advice and consent of the county legislature. All members of the board shall serve at the pleasure of their appointing authority.

2. A member of the board shall be designated as chairperson by a majority vote of all the members of the board, provided that the initial chairperson must be one of the members appointed by the governor. A member of the board shall also be so designated as vice-chairperson of the board. The chairperson may appoint an executive director of the authority, upon advice and consent of the board, who shall be primarily responsible for the discharge of the administrative functions of the authority. The executive director shall be deemed an employee of the authority, and, as such, be an exempt management confidential employee, who is a public officer and entitled to an annual salary as established by the authority board, such salary not to exceed the salary of the mayor or county executive, whichever is higher.

3. The powers of such corporation shall be vested in and exercised by the board.

4. The authority and its corporate existence shall continue until its existence shall be terminated by law, provided, however, that no such termination shall take effect so long as the authority shall have bonds or other obligations outstanding unless adequate provision has been made for the payment or satisfaction thereof.

5. Five members of the board shall constitute a quorum for the transaction of business. At least four of the members of the board present at any meeting at which a quorum shall be present, shall be necessary to pass any resolution, except as otherwise specified in this title. All propositions requiring the expenditure of money or affecting contract rights or property, shall be presented to the board in writing. No resolution containing such a proposition shall pass unless it receives approval of at least a majority of the whole board.

6. The board shall hold at least one regular meeting quarterly. The chairperson, or in his or her absence the vice-chairperson, or any four members, may call a special meeting by notice as specified by the board. All meetings of the board shall be subject to article seven of the public officers law.

7. Members of the board shall be entitled to no compensation for their services, but shall be entitled to reimbursement for their actual and necessary expenses incurred in the performance of their official duties.
