§ 2981. Appointment of health care agent; health care proxy. 1. Authority to appoint agent; presumption of competence. (a) A competent adult may appoint a health care agent in accordance with the terms of this article.

(b) For the purposes of this section, every adult shall be presumed competent to appoint a health care agent unless such person has been adjudged incompetent or otherwise adjudged not competent to appoint a health care agent, or unless a guardian of the person has been appointed for the adult pursuant to article eighty-one of the mental hygiene law or article seventeen-A of the surrogate's court procedure act.

2. Health care proxy; execution; witnesses. (a) A competent adult may appoint a health care agent by a health care proxy, signed and dated by the adult in the presence of two adult witnesses who shall also sign the proxy. Another person may sign and date the health care proxy for the adult if the adult is unable to do so, at the adult's direction and in the adult's presence, and in the presence of two adult witnesses who shall sign the proxy. The witnesses shall state that the principal appeared to execute the proxy willingly and free from duress. The person appointed as agent shall not act as witness to execution of the health care proxy.

(b) For persons who reside in a mental hygiene facility operated or licensed by the office of mental health, at least one witness shall be an individual who is not affiliated with the facility and, if the mental hygiene facility is also a hospital as defined in subdivision ten of section 1.03 of the mental hygiene law, at least one witness shall be a qualified psychiatrist or psychiatric nurse practitioner.

(c) For persons who reside in a mental hygiene facility operated or licensed by the office for people with developmental disabilities, at least one witness shall be an individual who is not affiliated with the facility and at least one witness shall be a physician, nurse practitioner, physician assistant or clinical psychologist who either is employed by a developmental disabilities services office named in section 13.17 of the mental hygiene law or who has been employed for a minimum of two years to render care and service in a facility operated or licensed by the office for people with developmental disabilities, or has been approved by the commissioner of developmental disabilities in

accordance with regulations approved by the commissioner. Such regulations shall require that a physician, nurse practitioner, physician assistant, or clinical psychologist possess specialized training or three years experience in treating developmental disabilities.

2-a. Alternate procedure for witnessing of health care proxies. Witnessing a health care proxy under this section may be done using audio-video technology, for either or both witnesses, provided that the following conditions are met (as used in this subdivision, "remote witness" means a witness acting using audio-visual technology):

(a) The principal, if not personally known to a remote witness, shall display valid photographic identification to the remote witness during the audio-video conference;

(b) The audio-video conference shall allow for direct interaction between the principal and any remote witness;

(c) Any remote witness shall receive a legible copy of the health care proxy, which shall be transmitted via facsimile or electronic means, within twenty-four hours of the proxy being signed by the principal during the audio-video conference; and

(d) The remote witness shall sign the transmitted copy of the proxy, and transmit it back to the principal.

3. Restrictions on who may be and limitations on a health care agent. (a) An operator, administrator or employee of a hospital may not be appointed as a health care agent by any person who, at the time of the appointment, is a patient or resident of, or has applied for admission to, such hospital.

(b) The restriction in paragraph (a) of this subdivision shall not apply to:

(i) an operator, administrator or employee of a hospital who is related to the principal by blood, marriage or adoption; or

(ii) a physician, physician assistant, or nurse practitioner, subject to the limitation set forth in paragraph (c) of this subdivision, except that no physician or nurse practitioner affiliated with a mental hygiene facility or a psychiatric unit of a general hospital may serve as agent for a principal residing in or being treated by such facility or unit

unless the physician is related to the principal by blood, marriage or adoption.

(c) If a physician, physician assistant, or nurse practitioner is appointed agent, the physician, physician assistant, or nurse practitioner shall not act as the patient's attending practitioner after the authority under the health care proxy commences, unless the physician, physician assistant, or nurse practitioner declines the appointment as agent at or before such time.

(d) No person who is not the spouse, child, parent, brother, sister or grandparent of the principal, or is the issue of, or married to, such person, shall be appointed as a health care agent if, at the time of appointment, he or she is presently appointed health care agent for ten principals.

4. Commencement of agent's authority. The agent's authority shall commence upon a determination, made pursuant to subdivision one of section two thousand nine hundred eighty-three of this article, that the principal lacks capacity to make health care decisions.

5. Contents and form of health care proxy. (a) The health care proxy shall:

(i) identify the principal and agent; and

(ii) indicate that the principal intends the agent to have authority to make health care decisions on the principal's behalf.

(b) The health care proxy may include the principal's wishes or instructions about health care decisions, and limitations upon the agent's authority.

(c) The health care proxy may provide that it expires upon a specified date or upon the occurrence of a certain condition. If no such date or condition is set forth in the proxy, the proxy shall remain in effect until revoked. If, prior to the expiration of a proxy, the authority of the agent has commenced, the proxy shall not expire while the principal lacks capacity.

(d) A health care proxy may, but need not, be in the following form:

home address and telephone number of agent) as my health care agent to make any and all health care decisions for me, except to the extent I state otherwise.

This health care proxy shall take effect in the event I become unable to make my own health care decisions.

NOTE: Although not necessary, and neither encouraged nor discouraged, you may wish to state instructions or wishes, and limit your agent's authority. Unless your agent knows your wishes about artificial nutrition and hydration, your agent will not have authority to decide about artificial nutrition and hydration. If you choose to state instructions, wishes, or limits, please do so below:

(e) The health care proxy shall not be executed on a form or other writing that also includes the execution of a power of attorney, provided, however, that nothing in this paragraph shall invalidate a delegation of the authority to make health care decisions executed prior to the enactment of this article.

(f) A health care proxy may include the principal's wishes or instructions regarding organ and tissue donation and may limit the health care agent's authority to consent to organ or tissue donation or designate another person to do so, under article forty-three of this chapter. Failure to state wishes or instructions shall not be construed to imply a wish not to donate.

6. Alternate agent. (a) A competent adult may designate an alternate agent in the health care proxy to serve in place of the agent when:

(i) the attending practitioner has determined in a writing signed by the physician, physician assistant, or nurse practitioner (A) that the person appointed as agent is not reasonably available, willing and

competent to serve as agent, and (B) that such person is not expected to become reasonably available, willing and competent to make a timely decision given the patient's medical circumstances;

(b) If, after an alternate agent's authority commences, the person appointed as agent becomes available, willing and competent to serve as agent:

(ii) the attending practitioner shall record the change in agent and the reasons therefor in the principal's medical record.
