§ 2997-g. Legislative intent. The legislature hereby finds and declares that it is in the public interest for health care facilities to implement safe patient handling policies. There are many benefits that can be derived from safe patient handling programs. Patients benefit through improved quality of care and quality of life by reducing the risk of injury. Caregivers also benefit from the reduced risk of career ending and debilitating injuries leading to increased morale, improved job satisfaction, and longevity in the profession. Health care facilities may realize a return on their investment through reduced workers' compensation medical and indemnity costs, reduced lost workdays, and improved recruitment and retention of caregivers. All of this could lead to fiscal improvement in health care in New York State.
