§ 3908. Annual report. The director, in cooperation with the advisory board, shall report the activities of the center to the governor and the legislature on or before January first of each year. Such report shall include:

1. A description of on-going center research and program development;

2. Present and proposed working relationships with other agencies, not-for-profit groups or private associations;

3. A financial reporting on the nature and levels of revenues and expenditures of the center, as well as a listing of accumulated assets; and

4. Recommendations for enhancing agricultural health and safety in New York state.
