

CHAPTER 879

AN ACT in relation to the public health, constituting chapter
forty-five of the consolidated laws

Became a law April 20, 1953, with the approval of the Governor. Passed,
by a majority vote, three-fifths being present

The People of the State of New York, represented in Senate and
Assembly, do enact as follows:

CHAPTER 45 OF THE CONSOLIDATED LAWS

PUBLIC HEALTH LAW

Article

1. Short title and definitions: general provisions

Title I. Short title and definitions (§§ 1-2).

II. General provisions (§§ 10-24).

III. Office of the medicaid inspector general (§§
30-36).

2. The department of health.

Title I. Officers and employees (§§ 200--211-a).

II. The public health council (§§ 220-229).

II-A. Professional medical conduct (§§ 230--230-e).

* II-B. New York state health services corps (§§
231-233).

* NB Expired July 18, 1996

II-C. Charles D. Cook office of rural health (§§
234-237).

II-D. Health care practitioner referrals (§§
238--238-e).

II-E. HIV/HBV/HCV prevention training (§§
239--239-b).

II-F. Office of minority health (§§ 240*-244*).

III. State health areas (§§ 240-243).

IV. Spinal cord injury research board (§§ 250-251).

V. Health care practitioner volunteer pilot
program (§ 260).

V*. Obesity prevention act (§§ 260*-263).

VI. Women's Health (§§ 266-268).

6-A. The 21st century workgroup for disease
elimination and reduction (§ 266-a).

- VII. NY State of Health (§§ 268-268-h).
 - 8. Hunger prevention and nutrition assistance program (§ 269).
- 2-A. Prescription drugs.
 - Title I. Preferred drug and clinical drug review programs (§§ 270-277).
 - II. Prescription drugs; various provisions (§§ 278--280-d).
 - III. Prescription forms, electronic prescribing and language assistance (§ 281).
- 2-B. Drug take back (§§ 290-294).
- 3. Local health organization.
 - Title I. Local boards of health; general provisions (§§ 300-312).
 - II. Local health officers (§§ 320-329).
 - III. County and part-county health districts (§§ 340-357).
 - IV. Certain cities (§§ 360-378).
 - V. State park health districts (§§ 380-383).
 - VI. Consolidated health districts (§§ 390-399).
- 4. Property and hospitals in the department of health
 - Title I. General provisions (§§ 401-410).
 - II. Hospitals; boards of visitors (§§ 420-425).
 - IV. Hospitals; officers and employees (§§ 450-455).
- 4-A. Regulation of body piercing and tattooing (§§ 460-467).
- 4-B. Tongue-splitting (§ 470).
- 5. Laboratories
 - Title I. General provisions: state laboratories; approved laboratories (§§ 500-506).
 - II. County laboratories (§§ 520-528).
 - III. City laboratories (§§ 540-545).
 - IV. Laboratory supply stations (§§ 560-563).
 - V. Clinical laboratory and blood banking services (§§ 570-581).
 - VI. Laboratory business practices (§§ 585-588).
- 6. State aid to cities and counties
 - Title I. State aid for basic services (§§ 600-607).

- II. State aid for additional services (§§ 608-613).
- III. State aid; general provisions (§§ 614-621).
- 6-A. Rape crisis intervention and prevention program (§§ 695--695-e).
- 7. Federal grants-in-aid (§§ 700-703).
- 8. State health research council (§§ 800-803).
- 9. Primary care education and training (§§ 900-907).
- 9-A. New York state small business health insurance partnership program (§§ 921-922).
- 9-B. Primary Care Service Corps Practitioner Loan Repayment Program (§§ 923-924).
- 11. Public water supplies; sewerage and sewage control
 - Title I. Potable waters (§§ 1100--1114-b).
 - II. Realty subdivisions: water supply (§§ 1115-1120).
 - II-A. Water supply emergency plans (§ 1125).
 - III. Annual water supply statement (§§ 1150-1153).
 - IV. Drinking water revolving fund (§§ 1160-1169).
- 13. Nuisances and sanitation
 - Title I. General provisions: control and abatement (§§ 1300-1310).
 - II. Noxious weeds and growths (§§ 1320-1321).
 - III. Tenement house sanitation (§ 1325).
 - IV. Labor camp sanitation (§ 1330).
 - V. Suppression of certain businesses (§§ 1335-1336).
 - VI. Bathing establishments (§§ 1340-1342).
 - VII. Hotel sanitation (§§ 1345-1348).
 - VIII. Food handling (§§ 1350-1357).
 - IX. Location and disposition of radioactive gold jewelry (§ 1360).
 - X. Control of lead poisoning (§§ 1370-1377).
 - XI. State aid; planning for construction of solid waste management facilities (§§ 1380-1383).
 - XII. Toxic substances (§§ 1385-1389).
 - XII-A. Inactive hazardous waste disposal sites (§§1389-a--1389-e).

XIII. Storage, treatment and disposal of infectious waste (§§ 1389-aa--1389-gg).

- 13-A. State camp safety advisory council (§ 1390).
- 13-B. Regulation of overnight, summer day, and traveling summer day camps for children (§§ 1391-1396).
- 13-D. Regulation of housing; used as accommodations by employees of certain motels and hotels (§§ 1399-j--1399-m).
- 13-E. Regulation of smoking and vaping in certain public areas (§§ 1399-n--1399-x).
- 13-F. Regulation of tobacco products and herbal cigarettes; distribution to minors (§§ 1399-aa--1399-mmm).
- 13-G. Tobacco escrow funds (§§ 1399-nn--1399-pp).
- 13-H. Regulation of sharps (§§ 1399-ss--1399-ww).
- 13-I. Regulation of supplements and other products; distribution to minors (§ 1399-xx).
- 14. Regulation of camps for children (§§ 1400-1408).
- 15. Insect control
 - Title I. Municipal insect control (§§ 1500-1503).
 - II. County insect control (§§ 1520-1531).
- 16. Pesticide control board (§§ 1601-1609).
- 17. Ingredient disclosures for vapor products and e-cigarettes (§§ 1700-1702).
- 20. Reporting of Alzheimer's Disease (§§ 2000--2004-a).
- 20-A. Alzheimer's Community Assistance Program (§§ 2005-2009).
- 20-B. State Parkinson's disease registry (§§ 2010-2014).
- 20-C. State Frontotemporal Degeneration registry (§§ 2015-2019).
- 20-C*2. State Amyotrophic Lateral Sclerosis and Motor Neuron Disease registry (§§ 2020-2024).
- 21. Control of acute communicable diseases
 - Title I. General provisions (§§ 2100-2112).
 - II. Control of patients (§§ 2120-2125).
 - III. Human immunodeficiency virus (§§ 2130-2139).
 - IV. Rabies (§§ 2140-2146).
 - V. Typhoid fever (§§ 2150-2153).
 - VI. Poliomyelitis and Other Diseases (§§ 2160-2169).
 - VII. Hepatitis C (§§ 2170-2171).

- 8. Novel coronavirus, COVID-19 (§§ 2180-2183).
- 21-A. Long-term care resident and employee immunization act (§§ 2190-2196).
- 22. Control of tuberculosis
 - Title I. General provisions (§§ 2200-2207).
 - II. Control (§§ 2221-2230).
- 23. Control of sexually transmissible diseases
 - Title I. Care and treatment (§§ 2300-2312).
 - II. Houses of prostitution: injunction and abatement (§§ 2320-2334).
- 24. Control of malignant diseases
 - Title I. General provisions (§§ 2400--2404-d).
 - Title I-A. Cancer Detection and Education Program (§§ 2405--2409-a).
 - Title I-B. Health Research Science Board (§§ 2410-2413).
 - II. State institute for the study of malignant diseases (§§ 2420-2423).
- 24-A. Protection of human subjects (§§ 2440-2446).
- 24-B. Information program on dioxin (§ 2475).
- 24-C. Information program on low-level radioactive waste (§ 2485).
- 24-D. New York state occupational health clinics oversight committee (§§ 2490--2490-a).
- 24-E. Information about hysterectomy (§§ 2495--2499-a).
- 25. Maternal and child health
 - Title I. General provisions (§§ 2500--2509-d).
 - I-A. Child health insurance plan (§§ 2510-2511).
 - 1-B. Adolescent pregnancy prevention and services program (§§ 2515-2515-c).
 - II. Prenatal care (§§ 2522-2532).
 - II-A. Early intervention program for infants and toddlers with disabilities and their families (§§ 2540--2559-b).
 - IV. Institutions for children (§§ 2570-2575).
 - V. Children with physical disabilities (§§ 2580-2584).
 - VI*. Federal child care and adult food program (§§ 2585-2589).

* VI. Emergency nutrition aid program for pregnant women and adolescents (§§ 2590-2592)

* NB Expired March 31, 1986

VII. Youth sports (§ 2595).

VIII. Childhood obesity prevention program (§§ 2599-a--2599-d).

25-A. Reproductive health act (§§ 2599-aa--2599-bb).

25-B. Gestational surrogacy (§ 2599-cc).

26. Helen Hayes Hospital (§§ 2600-2602).

26-A. New York state veterans' home (§§ 2630-2635).

27. Bureau of chronic disease and geriatrics (§§ 2700-2702).

27-A. Osteoporosis prevention and education (§§ 2705-2706).

27-AA. New York state kidney disease institute (§§ 2710-2712).

27-B. Treatment of hypertension.

Title I. Mary Lasker Heart and Hypertension Institute (§§ 2720-2722).

II. Centers for the treatment of hypertension (§§ 2723-2724).

27-C. Birth defects institute (§§ 2730-2733).

27-CC. New York state traumatic brain injury program (§§ 2740-2744).

27-CCC. Leukemia, lymphoma and myeloma research, education and treatment program (§ 2747).

27-D. New York state burns care institute (§§ 2750-2752).

27-DD. State advisory panel on HIV/HBV infected health care workers (§§ 2760-2761).

27-E. The acquired immune deficiency syndrome institute (§§ 2775-2779).

27-F. HIV and AIDS related information (§§ 2780-2787).

27-G. Adult cystic fibrosis assistance program (§ 2795).

27-H*. Diabetes research and education program (§ 2796).

27-H. The Tick-Borne Disease Institute (§§ 2797--2798).

27-K. New York Wellness Works (§§ 2799-o--2799-r).

28. Hospitals (§§ 2800--2832-a).

28-A. Nursing home companies (§§ 2850-2869).

28-B. Hospital mortgage loan construction (§§ 2870-2883).

28-C. Nurse manpower center (§§ 2890-2892).

28-D. Practice of nursing home administration

- Title I. General provisions and public policy (§§ 2895--2895-a).
 - II. Licensing and registration (§§ 2896--2896-h).
 - III. Violations; penalties (§§ 2897--2897-d).
 - IV. Construction (§§ 2898--2898-a).
- 28-E. Review of criminal history information concerning prospective employees of nursing homes and home care services agencies (§§ 2899--2899-a).
- 28-F. Medical aid in dying (§§ 2899-d--2899-s).
- 29. Hospital survey, planning and review (§§ 2901-2907).
- 29-A. Access to community health care services in rural areas.
 - Title I. Rural health care access (§§ 2950-2958).
 - 1-A. Rural dentistry pilot program (§ 2958-a).
- 29-AA. Patient centered medical homes (§ 2959-a).
- 29-C. Health care agents and proxies (§§ 2980-2994).
- 29-CC. Family health care decisions act (§§ 2994-a--2994-u).
- 29-CCC. Nonhospital orders not to resuscitate (§§ 2994-aa--2994-gg).
- 29-CCCC. CARE act (caregiver advise, record and enable act) (§§ 2994-hh--2994-mm).
- 29-D. Health information and quality improvement.
 - Title I. Health information (§§ 2995--2997-f-1).
 - 1-A. Safe patient handling (§§ 2997-g--2997-l).
 - II. Quality improvement (§§ 2998--2999-a).
 - 3. Pay for performance (§§ 2999-b--2999-f).
 - 4. New York state medical indemnity fund (§§ 2999-g--2999-j).
 - 5. New York state hospital quality initiative (§ 2999-m).
- 29-E. Accountable care organizations demonstration program (§§ 2999-n--2999-r).
- 29-EE. Program of all-inclusive care for the elderly (§§ 2999-s--2999-y).
- 29-F. Improved integration of health care and financing (§§ 2999-aa--2999-bb).
- 29-G. Telehealth delivery of services (§§ 2999-cc--2999-ee).
- 29-I. Medical services for foster children (§ 2999-gg).

 - III-A. Filing of certificates of dissolution of marriage (§ 4139).
 - IV. Registration of deaths; burial permits (§§ 4140-4148).
 - V. Registration of fetal deaths (§§ 4160-4163).
 - V-A. Induced viable births.
 - VI. Registration of persons in institutions (§ 4165).
 - VII. Vital statistics records (§§ 4170-4179).
- 42. Cadavers
 - Title I. Disposition (§§ 4200-4203).
 - II. Autopsy and dissection (§§ 4209-4222).
- 43. Anatomical gifts (§§ 4300-4310).
- 43-A. Request for consent to an anatomical gift (§ 4351).

- 43-B. Organ procurement and donor support
 - Title 1. Organ, tissue and body parts procurement and storage (§§ 4360-4369).
 - 2. Living organ donation (§§ 4370-4372).
- 44. Health maintenance organizations (§§ 4400-4416).
- 45. Medical referral services (§§ 4500-4503).
- 45-A. Disclosure of material transactions (§§ 4550-4552).
- 46. Continuing care retirement communities (§§ 4600-4624).
- 46-A. Fee-for-service continuing care retirement communities demonstration program (§§ 4650-4676).
- 46-B. Assisted living.
 - Title I. Findings and definitions (§§ 4650*-4651*).
 - II. Assisted living (§§ 4652*-4653*).
 - III. Enhanced assisted living certificate (§§ 4654*-4655*).
 - IV. General requirements (§§ 4656*-4663*).
- 47. Shared health facilities (§§ 4700-4718).
- 48. Toxic substances (§§ 4800-4808).
- 49. Utilization review.
 - Title I. Certification of agents and utilization review process (§§ 4900-4908).
 - II. Right to external appeal (§§ 4910-4917).
- 49-A. Medical debt reporting (§§ 4925-4927).
- 50. Separability clause; saving clause; construction; laws repealed; time of taking effect (§§ 5000-5003).

ARTICLE I

SHORT TITLE AND DEFINITIONS: GENERAL PROVISIONS

- Title I. Short title and definitions (§§ 1-2).
- II. General provisions (§§ 10-24).
- III. Office of the Medicaid inspector general (§§ 30-36).

TITLE I

SHORT TITLE AND DEFINITIONS

- Section 1. Short title.

2. Definitions.

§ 1. Short title. This chapter shall be known as the "Public Health Law."

§ 2. Definitions. 1. Whenever used in this chapter, unless otherwise expressly stated or unless the context or subject matter requires a different meaning, the following terms shall have the respective meanings hereinafter set forth or indicated:

(a) Department. The term "department" means department of health of the state of New York.

(b) Commissioner. The term "commissioner" means commissioner of health of the state of New York.

(c) Health district. The term "health district" means a county health district, part-county health district, city, town, village or consolidated health district having a separate board of health.

(d) County health district. The term "county health district" means a health district comprising the entire county heretofore or hereafter established.

(e) Part-county health district. The term "part-county health district" means all that part of a county outside of a city or cities having a population of fifty thousand or more heretofore or hereafter established as a health district.

(f) County department of health. The term "county department of health" means that division of the county government having jurisdiction over the public health of a county or part-county health district.

(g) County health commissioner. The term "county health commissioner" means the executive officer of a county department of health.

(h) Local board of health. The term "local board of health" means the board of health of a county, part-county, city, village, town or consolidated health district.

(i) Municipality. The term "municipality" means a city, village, town or consolidated health district.

(j) Local health officer. The term "local health officer" means the health officer of a county, part-county, city, village, town or a

consolidated health district.

(k) Sanitary code. The term "sanitary code" means sanitary code of the state of New York.

(l) Communicable disease. The term "communicable disease" means infectious, contagious or communicable disease.

(m) State institution in the department. The term "state institution in the department" means any state hospital or institution subject to the jurisdiction, supervision and control of the state department of health, and such other state hospitals and institutions as may hereafter be made subject to the jurisdiction, supervision and control of the state department of health.

(n) Sexually transmissible disease. The term "sexually transmissible disease" shall mean a disease that appears on the list of diseases promulgated by the commissioner pursuant to section twenty-three hundred eleven of this chapter.

2. Whenever the term "state board of health" occurs or any reference is made thereto, in any law, it shall be deemed to mean or refer to the department as described in this article.

3. Whenever the term "public health council" or "state hospital review and planning council" occurs, or any reference is made thereto, in any law, it shall be deemed to mean or refer to the public health and health planning council as described in article two of this chapter.

TITLE II

GENERAL PROVISIONS

Section 10. Legal presumptions; evidence.

11. Rules and regulations of the department; evidence.

12. Violations of health laws or regulations; penalties and injunctions.

12-a. Formal hearings; notice and procedure.

12-b. Wilful violation of health laws.

12-c. Obstructing health officer in performance of his duty.

12-d. Filing of certain information by medical facilities.

13. Enforcement: against officers.

14. Actions against persons rendering professional services at the request of the department; defense and indemnification.
15. Examination and inspection of public works.
16. Summary action.
17. Release of medical records.
18. Access to patient information.
- 18*2. Registration and notification of boards of directors or trustees of certain voluntary, not-for-profit facilities or corporations.
- 18-a. Disclosure of information.
- 18-b. Procedures in the course of education or training; consent.
- 18-c. Separate patient consent for treatment and payment for health care services.
19. Reasonable charges for medicare beneficiaries.
20. Accelerated death benefits.
22. Health-related legal services program.
23. Claim forms.
24. Disclosure.

§ 10. Legal presumptions; evidence. 1. The actions, proceedings, authority, and orders of the department in enforcing the provisions of the public health law and the sanitary code applying them to specific cases shall at all times be regarded as in their nature judicial, and shall be treated as prima facie just and legal.

2. The written reports of state and local health officers, inspectors, investigators, nurses and other representatives of state and local health officers on questions of fact pertaining to, concerning or arising under and in connection with complaints, alleged violations, investigations, proceedings, actions, authority and orders, related to the enforcement of this chapter, the sanitary code or any local health regulation shall be presumptive evidence of the facts so stated therein, and shall be received as such in all courts and places. The persons making such reports shall be exempt from personal liability for the

statements therein made, if they have acted in good faith.

§ 11. Rules and regulations of the department; evidence. 1. The rules and regulations of the department promulgated pursuant to the provisions of this chapter may be read in evidence from the official compilation of codes, rules and regulations of the state of New York, or supplement thereto. To entitle any copy of the said rules and regulations, other than those in the official compilation or supplement thereto, to be read in evidence there shall be contained in the same book or pamphlet a printed certificate of the secretary of state that such copy is a correct transcript of the text of the said rules and regulations as published in the official compilation or supplement thereto. For such a certificate the secretary of state shall collect such a fee as he shall deem just and reasonable.

2. All regulations of the department on file in the department and in the office of the secretary of state on the date when this chapter takes effect shall continue to be binding and in force except as may be inconsistent with this chapter and as amended or repealed from time to time.

§ 12. Violations of health laws or regulations; penalties and injunctions. * 1. (a) Except as provided in paragraphs (b) and (c) of this subdivision, any person who violates, disobeys or disregards any term or provision of this chapter or of any lawful notice, order or regulation pursuant thereto for which a civil penalty is not otherwise expressly prescribed by law, shall be liable to the people of the state for a civil penalty of not to exceed two thousand dollars for every such violation.

(b) The penalty provided for in paragraph (a) of this subdivision may be increased to an amount not to exceed five thousand dollars for a subsequent violation if the person committed the same violation, with respect to the same or any other person or persons, within twelve months of the initial violation for which a penalty was assessed pursuant to paragraph (a) of this subdivision and said violations were a serious

threat to the health and safety of an individual or individuals.

(c) The penalty provided for in paragraph (a) of this subdivision may be increased to an amount not to exceed ten thousand dollars if the violation directly results in serious physical harm to any patient or patients.

Effective on and after April first, two thousand eight the comptroller is hereby authorized and directed to deposit amounts collected in excess of two thousand dollars per violation to the patient safety center account to be used for purposes of the patient safety center created by title two of article twenty-nine-D of this chapter.

* NB Effective until April 1, 2029

* 1. Any person who violates, disobeys or disregards any term or provision of this chapter or of any lawful notice, order or regulation pursuant thereto for which a civil penalty is not otherwise expressly prescribed by law, shall be liable to the people of the state for a civil penalty of not to exceed two thousand dollars for every such violation.

* NB Effective April 1, 2029

2. The penalty provided for in subdivision one of this section may be recovered by an action brought by the commissioner in any court of competent jurisdiction.

3. Nothing in this section contained shall be construed to alter or repeal any existing provision of law declaring such violations or any of them to be misdemeanors or felonies or prescribing the penalty therefor.

4. Such civil penalty may be released or compromised by the commissioner before the matter has been referred to the attorney general, and where such matter has been referred to the attorney general, any such penalty may be released or compromised and any action commenced to recover the same may be settled and discontinued by the attorney general with the consent of the commissioner.

5. It shall be the duty of the attorney general upon the request of the commissioner to bring an action for an injunction against any person

who violates, disobeys or disregards any term or provision of this chapter or of any lawful notice, order or regulation pursuant thereto; provided, however, that the commissioner shall furnish the attorney general with such material, evidentiary matter or proof as may be requested by the attorney general for the prosecution of such an action.

6. It is the purpose of this section to provide additional and cumulative remedies, and nothing herein contained shall abridge or alter rights of action or remedies now or hereafter existing, nor shall any provision of this section, nor any action done by virtue of this section, be construed as estopping the state, persons or municipalities in the exercising of their respective rights to suppress nuisances or to prevent or abate pollution.

§ 12-a. Formal hearings; notice and procedure. 1. The commissioner, or any person designated by him for this purpose, may issue subpoenas and administer oaths in connection with any hearing or investigation under or pursuant to this chapter, and it shall be the duty of the commissioner and any persons designated by him for such purpose to issue subpoenas at the request of and upon behalf of the respondent.

2. The commissioner and those designated by him shall not be bound by the laws of evidence in the conduct of hearing proceedings, but the determination shall be founded upon sufficient legal evidence to sustain it.

3. Notice of hearing shall be served at least fifteen days prior to the date of the hearing, provided that, whenever because of danger to the public health it appears prejudicial to the interests of the people of the state to delay action for fifteen days, the commissioner may serve the respondent with an order requiring certain action or the cessation of certain activities immediately or within a specified period of less than fifteen days and the commissioner shall provide an opportunity to be heard within fifteen days after the date the order is served.

4. Service of notice of hearing or order shall be made by personal service or by registered or certified mail. Where service, whether by personal service or by registered or certified mail, is made upon an infant, incompetent, partnership, corporation, governmental subdivision, board or commission, it shall be made upon the person or persons designated to receive personal service by article three of the civil practice law and rules.

5. The attorney-general may prefer charges, attend hearings, present the facts, and take any and all proceedings in connection therewith.

6. At a hearing, the respondent may appear personally, shall have the right of counsel, and may cross-examine witnesses against him and produce evidence and witnesses in his behalf.

7. Following a hearing, the commissioner may make appropriate determinations and issue an order in accordance therewith.

8. The commissioner may adopt, amend and repeal administrative rules and regulations governing the procedures to be followed with respect to hearings, such rules to be consistent with the policy and purpose of this chapter and the effective and fair enforcement of its provisions.

9. The provisions of this section shall be applicable to all hearings held pursuant to this chapter, except where other provisions of this chapter applicable thereto are inconsistent therewith, in which event such other provisions shall apply.

§ 12-b. Wilful violation of health laws. 1. A person who wilfully violates or refuses or omits to comply with any lawful order or regulation prescribed by any local board of health or local health officer, is guilty of a misdemeanor; except, however, that where such order or regulation applies to a tenant with respect to his own dwelling unit or to an owner occupied one or two family dwelling, such person is guilty of an offense for the first violation punishable by a fine not to exceed fifty dollars and for a second or subsequent violation is guilty

of a misdemeanor punishable by a fine not to exceed five hundred dollars or by imprisonment not to exceed six months or by both such fine and imprisonment.

* 2. A person who wilfully violates any provision of this chapter, or any regulation lawfully made or established by any public officer or board under authority of this chapter, the punishment for violating which is not otherwise prescribed by this chapter or any other law, is punishable by imprisonment not exceeding one year, or by a fine not exceeding ten thousand dollars or by both. Effective on and after April first, two thousand eight the comptroller is hereby authorized and directed to deposit amounts collected in excess of two thousand dollars per violation to the patient safety center account to be used for purposes of the patient safety center created by title two of article twenty-nine-D of this chapter.

* NB Effective until April 1, 2029

* 2. A person who wilfully violates any provision of this chapter, or any regulation lawfully made or established by any public officer or board under authority of this chapter, the punishment for violating which is not otherwise prescribed by this chapter or any other law, is punishable by imprisonment not exceeding one year, or by a fine not exceeding two thousand dollars or by both.

* NB Effective April 1, 2029

§ 12-c. Obstructing health officer in performance of his duty. A person who wilfully opposes or obstructs a health officer or physician charged with enforcement of the health laws, in performing any legal duty, is guilty of a misdemeanor.

§ 12-d. Filing of certain information by medical facilities. 1. In the event a medical facility fails to file the required financial and statistical reports, or specific additional data related to the rate setting process, on or before the prescribed due dates, or as the same may be extended by the commissioner, the commissioner shall reduce the current rate established for payments by governmental agencies by up to two percent for a period beginning on the first day of the calendar

month following the original due date of the required reports or additional data and continuing until the last day of the calendar month in which said reports or data are filed.

2. If the financial and statistical reports required by this section are determined by the commissioner to be incomplete, inaccurate or incorrect, the medical facility will have thirty days from the date of receipt of notification to provide the corrected or additional data. Failure to file the corrected or additional data that was previously required within such thirty day period, or as the same may be extended by the commissioner, shall result in a reduction of the current rate in accordance with subdivision one of this section.

3. For purposes of this section, "specific additional data related to the rate setting process", shall mean those for use in a wage geographic differential survey, a peer grouping data survey and a medical supplies survey and a malpractice insurance survey, as well as other information intended for use in establishing rates. The commissioner shall supply each medical facility with preliminary information concerning the data that will be required prior to the start of each rate period. Failure to file such additional data within thirty days from the date of receipt of notification to supply such information, or as the same may be extended by the commissioner, shall result in a reduction of the current rate in accordance with subdivision one of this section.

4. For the purposes of this section, "medical facility" shall mean a residential health care facility, general hospital, free-standing ambulatory care facility, diagnostic and/or treatment center and clinic authorized under article twenty-eight of this chapter, and a certified home health agency and long term home health care program authorized under article thirty-six of this chapter.

§ 13. Enforcement: against officers. The performance of any duty or the doing of any act enjoined, prescribed or required by this chapter, may be enforced by a proceeding pursuant to article seventy-eight of the civil practice law and rules at the instance of the department or of a

local board of health, or of any citizen of full age resident of the municipality where the duty should be performed or the act done.

§ 14. Actions against persons rendering professional services at the request of the department; defense and indemnification. The provisions of section seventeen of the public officers law shall apply to any physician, dentist, nurse or other health care professional who: (i) is licensed to practice pursuant to article one hundred thirty-one, one hundred thirty-one-B, one hundred thirty-three, one hundred thirty-six, one hundred thirty-seven, one hundred thirty-nine, one hundred forty-three, one hundred fifty-six, one hundred fifty-seven, one hundred fifty-nine or one hundred sixty-four of the education law and who is rendering professional treatment or consultation in connection with professional treatment authorized under such license at the request of the department, or at a departmental facility, including clinical practice provided pursuant to a clinical practice plan established pursuant to subdivision fourteen of section two hundred six of this chapter, to patients receiving care or professional consultation from the department while rendering such professional treatment or consultation; (ii) is rendering consultation in connection with an audit or prepayment review of claims or treatment requests under the medical assistance program; or (iii) assists the department as consultants or expert witnesses in the investigation or prosecution of alleged violations of article twenty-eight, thirty-six, forty-four or forty-seven of this chapter or rules and regulations adopted pursuant thereto.

§ 15. Examination and inspection of public works. All persons having the control, charge or custody of any public structure, work or ground, or of any plan, description, outline, drawing or chart thereof or relating thereto, made, kept or controlled by or under any public authority, shall permit and facilitate the examination, inspection and copying thereof by the commissioner, or by any person authorized by him to make such examination or inspection of such copies.

§ 16. Summary action. Whenever the commissioner, after investigation, is of the opinion that any person is causing, engaging in or maintaining a condition or activity which in his opinion constitutes danger to the health of the people, and that it therefore appears to be prejudicial to the interests of the people to delay action for fifteen days until an opportunity for a hearing can be provided in accordance with the provisions of section twelve-a of this chapter, the commissioner shall order the person, including any state agency or political subdivision having jurisdiction, by written notice to discontinue such dangerous condition or activity or take certain action immediately or within a specified period of less than fifteen days. As promptly as possible thereafter, within not to exceed fifteen days, the commissioner shall provide the person an opportunity to be heard and to present any proof that such condition or activity does not constitute a danger to the health of the people.

§ 17. Release of medical records. Upon the written request of any competent patient, parent or guardian of an infant, a guardian appointed pursuant to article eighty-one of the mental hygiene law, or conservator of a conservatee, an examining, consulting or treating physician or hospital must release and deliver, exclusive of personal notes of the said physician or hospital, copies of all x-rays, medical records and test records including all laboratory tests regarding that patient to any other designated physician or hospital provided, however, that such records concerning the treatment of an infant patient for venereal disease or the performance of an abortion operation upon such infant patient shall not be released or in any manner be made available to the parent or guardian of such infant, and provided, further, that original mammograms, rather than copies thereof, shall be released and delivered. Either the physician or hospital incurring the expense of providing copies of x-rays, medical records and test records including all laboratory tests pursuant to the provisions of this section may impose a reasonable charge to be paid by the person requesting the release and deliverance of such records as reimbursement for such expenses, provided, however, that the physician or hospital may not impose a

charge for copying an original mammogram when the original has been released or delivered to any competent patient, parent or guardian of an infant, a guardian appointed pursuant to article eighty-one of the mental hygiene law, or a conservator of a conservatee and provided, further, that any charge for delivering an original mammogram pursuant to this section shall not exceed the documented costs associated therewith. However, the reasonable charge for paper copies shall not exceed seventy-five cents per page. A release of records under this section shall not be denied solely because of inability to pay. No charge may be imposed under this section for providing, releasing, or delivering medical records or copies of medical records where requested for the purpose of supporting an application, claim or appeal for any government benefit or program, provided that, where a provider maintains medical records in electronic form, it shall provide the copy in either electronic or paper form, as required by the government benefit or program, or at the patient's request.

For the purposes of this section the term "laboratory tests" shall include but not be limited to tests and examinations administered in clinical laboratories or blood banks as those terms are defined in section five hundred seventy-one of this chapter.

*** § 18. Access to patient information.** 1. Definitions. For the purpose of this section:

(a) "Committee" means a medical access review committee appointed pursuant to subdivision four of this section.

(b) "Health care provider" or "provider" means a "health care facility" or a "health care practitioner" as defined by this subdivision.

(c) "Health care facility" or "facility" means a hospital as defined in article twenty-eight of this chapter, a home care services agency as defined in article thirty-six of this chapter, a hospice as defined in article forty of this chapter, a health maintenance organization as defined in article forty-four of this chapter, and a shared health facility as defined in article forty-seven of this chapter.

(d) "Health care practitioner" or "practitioner" means a person

licensed under article one hundred thirty-one, one hundred thirty-one-B, one hundred thirty-two, one hundred thirty-three, one hundred thirty-six, one hundred thirty-nine, one hundred forty-one, one hundred forty-three, one hundred forty-four, one hundred fifty-three, one hundred fifty-four, one hundred fifty-six or one hundred fifty-nine of the education law or a person certified under section twenty-five hundred sixty of this chapter.

(e) "Patient information" or "information" means any information concerning or relating to the examination, health assessment including, but not limited to, a health assessment for insurance and employment purposes or treatment of an identifiable subject maintained or possessed by a health care facility or health care practitioner who has provided or is providing services for assessment of a health condition including, but not limited to, a health assessment for insurance and employment purposes or has treated or is treating such subject, except (i) information and clinical records subject to the provisions of section 23.05 or 33.13 of the mental hygiene law, (ii) personal notes and observations of a health care practitioner, provided that such personal notes and observations are maintained by the practitioner and not disclosed by the practitioner to any other person after January first, nineteen hundred eighty-seven, (iii) information maintained by a practitioner, concerning or relating to the prior examination or treatment of a subject received from another practitioner, provided however, that such information may be requested by the subject directly from such other practitioner in accordance with the provisions of this section, and (iv) data disclosed to a practitioner in confidence by other persons on the basis of an express condition that such data would never be disclosed to the subject or other persons, provided that such data has never been disclosed to any other person. If at any time such personal notes and observations or such data is disclosed, it shall be considered patient information for purposes of this section. For purposes of this subdivision, "disclosure to any other person" shall not include disclosures made to practitioners as part of a consultation or referral during the treatment of the subject, to persons reviewing information or records in the ordinary course of ensuring that a provider is in compliance with applicable quality of care, licensure or accreditation standards, to an employee or official of a federal, state

or local agency for the sole purpose of conducting an audit in the course of his or her official duties, to the statewide planning and research cooperative system, to other persons pursuant to a court order, to governmental agencies, insurance companies licensed pursuant to the insurance law and other third parties requiring information necessary for payments to be made to or on behalf of patients, to qualified researchers, to the state board for professional medical conduct when such board requests such information in the exercise of its statutory function, to an insurance carrier insuring, or an attorney consulted by, a health care provider, or to a health maintenance organization certified pursuant to article forty-four of this chapter or licensed pursuant to the insurance law, or to the committee or a court pursuant to the provisions of this section.

For purposes of this subdivision treatment of a subject shall not include diagnostic services, except mammography, performed by a practitioner at the request of another health care practitioner provided, however, that such information, and mammograms, may be requested by the subject directly from the practitioner at whose request such diagnostic services were performed, in accordance with the provisions of this section.

(f) "Personal notes and observations" means a practitioner's speculations, impressions (other than tentative or actual diagnosis) and reminders, provided such data is maintained by a practitioner.

(g) "Qualified person" means any properly identified subject; or a guardian appointed under article eighty-one of the mental hygiene law; or a parent of an infant; or a guardian of an infant appointed under article seventeen of the surrogate's court procedure act or other legally appointed guardian of an infant who may be entitled to request access to a clinical record under paragraph (c) of subdivision two of this section; or a distributee of any deceased subject for whom no personal representative, as defined in the estates, powers and trusts law, has been appointed; or an attorney representing a qualified person or the subject's estate who holds a power of attorney from the qualified person or the subject's estate explicitly authorizing the holder to execute a written request for patient information under this section. A qualified person shall be deemed a "personal representative of the

individual" for purposes of the federal health insurance portability and accountability act of 1996 and its implementing regulations.

(h) "Subject" means an individual concerning whom patient information is maintained or possessed by a health care provider.

(i) "Treating practitioner" means the health care practitioner who has primary responsibility for the care of the subject within the health care facility or if such practitioner is unavailable, a practitioner designated by such facility.

(j) "Cease to do business in this state" shall mean any case where a health care provider who has engaged in an on-going practice or business within this state as a health care provider, ceases to engage in such business, provided however, that this term shall not include a health care practitioner whose practice is merged, consolidated, combined, or acquired by another health care provider and he or she continues to provide services including medical care, diagnosis or treatment to patients as an employee, contractor, or owner of the merged, consolidated, combined, or acquired health care provider.

2. Access by qualified persons. (a) Subject to the provisions of subdivision three of this section, upon the written request of any subject, a health care provider shall provide an opportunity, within ten days, for such subject to inspect any patient information concerning or relating to the examination or treatment of such subject in the possession of such health care provider.

(b) Subject to the provisions of subdivision three of this section, upon the written request of the committee for an incompetent appointed pursuant to article seventy-eight of the mental hygiene law, a health care provider shall provide an opportunity, within ten days, for the inspection by such committee of any patient information concerning the incompetent subject in the possession of such health care provider.

(c) Subject to the provisions of subdivision three of this section and except as otherwise provided by law, upon the written request of a parent or guardian of an infant appointed pursuant to article seventeen of the surrogate's court procedure act, or any other legally appointed guardian, a health care provider shall provide an opportunity, within ten days, for such parent or guardian to inspect any patient information maintained or possessed by such provider concerning care and treatment

of the infant for which the consent of such parent or guardian was obtained or where care was provided without consent in an emergency which was the result of accidental injury or the unexpected onset of serious illness; provided, however, that such parent or guardian shall not be entitled to inspect or make copies of any patient information concerning the care and treatment of an infant where the health care provider determines that access to the information requested by such parent or guardian would have a detrimental effect on the provider's professional relationship with the infant, or on the care and treatment of the infant, or on the infant's relationship with his or her parents or guardian.

(d) Subject to the provisions of subdivision three of this section, upon the written request of any qualified person, a health care provider shall furnish to such person, within a reasonable time, a copy of any patient information requested, and original mammograms requested, which the person is authorized to inspect pursuant to this subdivision. A qualified person may request a physical copy of any patient information requested pursuant to this section.

(e) The provider may impose a reasonable charge for all inspections and copies, not exceeding the costs incurred by such provider, provided, however, that a provider may not impose a charge for copying an original mammogram when the original has been furnished to any qualified person and provided, further, that any charge for furnishing an original mammogram pursuant to this section shall not exceed the documented costs associated therewith. However, the reasonable charge for paper copies shall not exceed seventy-five cents per page. A qualified person shall not be denied access to patient information solely because of inability to pay. No charge may be imposed under this section for providing, releasing, or delivering patient information or copies of patient information where requested for the purpose of supporting an application, claim or appeal for any government benefit or program, provided that, where a provider maintains patient information in electronic form, it shall provide the copy in either electronic or paper form, as required by the government benefit or program, or at the patient's request.

(f) A provider may place reasonable limitations on the time, place, and frequency of any inspections of patient information.

(g) In the event that a practitioner does not have space available to permit the inspection of patient information, the practitioner may, in the alternative, furnish a qualified person a copy of such information within ten days.

(h) A provider may request the opportunity to review the patient information with the qualified person requesting such information, but such review shall not be a prerequisite for furnishing the information.

(i) A provider may make available for inspection either the original or a copy of patient information.

3. Limitations on access. (a) Upon receipt of a written request by a qualified person to inspect or copy patient information, a practitioner may review the information requested. Unless the practitioner determines pursuant to paragraph (d) of this subdivision that (i) the requested review of the information can reasonably be expected to cause substantial and identifiable harm to the subject or others which would outweigh the qualified person's right to access to the information, or (ii) the material requested is personal notes and observations, or the information requested would have a detrimental effect as defined in subdivision two of this section, review of such patient information shall be permitted or copies provided.

(b) Upon receipt of a written request by a qualified person to inspect patient information maintained by a facility, the facility shall inform the treating practitioner of the request. The treating practitioner may review the information requested. Unless the treating practitioner determines, pursuant to paragraph (d) of this subdivision that the requested review of the information can reasonably be expected to cause substantial and identifiable harm to the subject or others which would outweigh the qualified person's right of access to the information or would have a detrimental effect as defined in subdivision two of this section, review of such patient information shall be permitted or copies provided.

(c) A subject over the age of twelve years may be notified of any request by a qualified person to review his/her patient information, and, if the subject objects to disclosure, the provider may deny the request. In the case of a facility, the treating practitioner shall be consulted.

(d) The provider may deny access to all or a part of the information and may grant access to a prepared summary of the information if, after consideration of all the attendant facts and circumstances, the provider determines that (i) the request to review all or a part of the patient information can reasonably be expected to cause substantial and identifiable harm to the subject or others which would outweigh the qualified person's right of access to the information, or would have a detrimental effect as defined in subdivision two of this section, or (ii) the material requested is personal notes and observations. In conducting such review, the provider may consider, among other things, the following factors: (i) the need for, and the fact of, continuing care and treatment; (ii) the extent to which the knowledge of the information may be harmful to the health or safety of the subject or others; (iii) the extent to which the information contains sensitive material disclosed in confidence to the practitioner or treating practitioner by family members, friends and other persons; (iv) the extent to which the information contains sensitive materials disclosed to the practitioner or the treating practitioner by the subject which would be injurious to the subject's relationships with other persons, except when the subject is requesting information concerning himself or herself; and (v) in the case of a minor making a request for access pursuant to subdivision two of this section, the age of the subject.

(e) In the event of a denial of access, the qualified person shall be informed by the provider of such denial, and whether the denial is based on the reasonable expectation that release of the information can reasonably be expected to cause substantial and identifiable harm to the subject or others which outweighs the qualified person's right of access to the information or on the reasonable expectation that release of the information would have a detrimental effect as defined in subdivision two of this section, or on the basis that the materials sought to be reviewed constitute personal notes and observations, and of the qualified person's right to obtain, without cost, a review of the denial by the appropriate medical record access review committee. If the qualified person requests such review, the provider shall, within ten days of receipt of such request, transmit the information including personal notes and observations as defined herein, to the chairman of the appropriate committee with a statement setting forth the specific

reasons for which access was denied. After an in camera review of the materials provided and after providing all parties a reasonable opportunity to be heard, the committee shall promptly make a written determination whether the requested review of the information can reasonably be expected to cause substantial and identifiable harm to the subject or others which outweighs the qualified person's right of access to the information pursuant to paragraph (d) of this subdivision or whether the requested review would have a detrimental effect as defined in subdivision two of this section, or whether all or part of the materials sought to be reviewed constitute personal notes and observations, and shall accordingly determine whether access to all or part of such materials shall be granted. In the event that the committee determines that the request for access shall be granted in whole or in part, the committee shall notify all parties and the provider shall grant access pursuant to such determination.

(f) In the event that access is denied in whole or in part because the requested review of information can reasonably be expected to cause substantial and identifiable harm to the subject or others which would outweigh the qualified person's right of access to the information, or would have a detrimental effect as defined in subdivision two of this section, the committee shall notify the qualified person of his or her right to seek judicial review of the provider's determination pursuant to this section: provided however, that a determination by the committee as to whether materials sought to be reviewed constitute personal notes and observations shall not be the subject of judicial review. Within thirty days of receiving notification of such decision, the qualified person may commence, upon notice, a special proceeding in supreme court for a judgment requiring the provider to make available the information for inspection or copying. The court upon such application and after an in camera review of the materials provided including the determination and record of the committee, and after providing all parties an opportunity to be heard, shall determine whether there exists a reasonable basis for the denial of access. The relief available pursuant to this section shall be limited to a judgement requiring the provider to make available to the qualified person the requested information for inspection or copying.

(g) Where the written request for patient information under this

section is signed by a distributee of a deceased subject for whom a personal representative has not been appointed, or from the holder of a power of attorney from such a distributee, a copy of a certified copy of the certificate of death of the subject shall be attached to the written request.

(h) Where the written request for patient information under this section is signed by the holder of a power of attorney, a copy of the power of attorney shall be attached to the written request. A written request under this subdivision shall be subject to the duration and terms of the power of attorney.

(i) The release of patient information shall be subject to: (i) article twenty-seven-F of this chapter in the case of confidential HIV-related information; (ii) section seventeen of this article and sections twenty-three hundred one, twenty-three hundred six and twenty-three hundred eight of this chapter in the case of termination of a pregnancy and treatment for a sexually transmitted disease; (iii) article thirty-three of the mental hygiene law; and (iv) any other provisions of law creating special requirements relating to the release of patient information, including the federal health insurance portability and accountability act of 1996 and its implementing regulations.

4. Medical record access review committees. The commissioner shall designate medical record access review committees to hear appeals of the denial of access to patient information as provided in paragraph (e) of subdivision three of this section. The commissioner shall promulgate rules and regulations necessary to effectuate the provisions of this subdivision.

5. Annual report. The commissioner shall submit an annual report on or before December thirty-first to the governor and the legislature. Such report shall include, but not be limited to, the number of requests for committee review of providers' denial of access and the committees' determinations thereon.

6. Disclosure to third persons. Whenever a health care provider, as otherwise authorized by law, discloses patient information to a person

or entity other than the subject of such information or to other qualified persons, either a copy of the subject's written authorization shall be added to the patient information or the name and address of such third party and a notation of the purpose for the disclosure shall be indicated in the file or record of such subject's patient information maintained by the provider provided, however, that for disclosures made to government agencies making payments on behalf of patients or to insurance companies licensed pursuant to the insurance law such a notation shall only be entered at the time the disclosure is first made. This subdivision shall not apply to disclosure to practitioners or other personnel employed by or under contract with the facility, or to government agencies for purposes of facility inspections or professional conduct investigations. Any disclosure made pursuant to this section shall be limited to that information necessary in light of the reason for disclosure. Information so disclosed should be kept confidential by the party receiving such information and the limitations on such disclosure in this section shall apply to such party.

7. Applicability of federal law. Whenever federal law or applicable federal regulations affecting the release of patient information are a condition for the receipt of federal aid, and are inconsistent with the provisions of this section, the provisions of federal law or federal regulations shall be controlling.

8. Challenges to accuracy. A qualified person may challenge the accuracy of information maintained in the patient information and may require that a brief written statement prepared by him or her concerning the challenged information be inserted into the patient information. This statement shall become a permanent part of the patient information and shall be released whenever the information at issue is released. This subdivision shall apply only to factual statements and shall not include a provider's observations, inferences or conclusions.

A facility may place reasonable restrictions on the time and frequency of any challenges to accuracy.

9. Waivers void. Any agreement by an individual to waive any right to

inspect, copy or seek correction of patient information as provided for in this section shall be deemed to be void as against public policy and wholly unenforceable.

10. Nothing contained in this section shall restrict, expand or in any way limit the disclosure of any information pursuant to articles twenty-three, thirty-one and forty-five of the civil practice law and rules or section six hundred seventy-seven of the county law.

11. No proceeding shall be brought or penalty assessed, except as provided for in this section, against a health care provider, who in good faith, denies access to patient information.

12. Immunity from liability. No health care provider shall be subjected to civil liability arising solely from granting or providing access to any patient information in accordance with this section.

13. (a) A health care provider which has in its possession patient information and/or patient medical records and which has determined to permanently cease to do business or practice in this state shall, at least thirty days prior to such action, make a good faith effort to notify each of the health care provider's current patients that the office will be closing and to inform each such patient of his or her right to request that his or her patient information and/or patient medical records be sent to a health care provider, health care facility or health care practitioner of the patient's choosing or, alternatively, that such information and records be returned to the patient.

(b) The provisions of this subdivision shall not affect any rights afforded pursuant to section seventeen of this title.

(c) Nothing in this subdivision shall affect the period of time that a health care provider is lawfully required to retain a patient's medical information and medical records.

(d) The provisions of this subdivision shall only apply with respect to a patient whose chart includes written permission to receive the notification described in paragraph (a) of this subdivision.

* NB There are 2 § 18's

*** § 18. Registration and notification of boards of directors or trustees of certain voluntary, not-for-profit facilities or corporations.** 1. Notwithstanding any other law, rule or regulation, the executive director, chairperson or president of a voluntary, not-for-profit corporation or facility which is subject to the jurisdiction of the department shall furnish annually to the commissioner a list of the names and addresses of the current members of the board of directors or trustees of such facility or corporation. Failure to furnish such annual list shall remove such facility from consideration for recertification.

2. In the event that such facility or corporation is found to be in violation of the provisions of this chapter or of rules and regulations promulgated pursuant to this chapter which could result in the revocation, cancellation, limitation or suspension of the operating certificate of such facility and if notice of such violation is provided to the facility pursuant to such regulations, a copy of such notice shall be provided to each of the current members of the board of directors or trustees of such facility or corporation by the commissioner.

3. The commissioner is authorized to promulgate such rules and regulations as are necessary to implement the provisions of this section.

* NB There are 2 § 18's

§ 18-a. Disclosure of information. 1. Each health care professional licensed, registered or certified pursuant to title eight of the education law shall, upon request, provide to his or her patient or prospective patient the following:

(a) information related to the health care professional's educational background, experience, training, specialty, and board certification, if applicable;

(b) affiliation with any health care facility licensed pursuant to article twenty-eight, thirty-six or forty-four of this chapter, and any

facility licensed pursuant to article nineteen, twenty-three, thirty-one or thirty-two of the mental hygiene law;

(c) information regarding the health care professional's participation in continuing education programs and compliance with any licensure, certification or registration requirements, if applicable; and

(d) information regarding the health care professional's participation in clinical performance reviews conducted by the department where applicable and where available.

2. Nothing contained herein shall require written disclosure of the information described in subdivision one by the health care professional to the patient.

§ 18-b. Procedures in the course of education or training; consent. In the case of any health care procedure or examination, the fact that it is performed in the course of education or training shall not diminish the requirement for informed consent for the procedure or examination.

§ 18-c. Separate patient consent for treatment and payment for health care services. Informed consent from a patient to provide any treatment, procedure, examination or other direct health care services shall be obtained separately from such patient's consent to pay for the services. Consent to pay for any health care services by a patient shall not be given prior to the patient receiving such services and discussing treatment costs. For purposes of this section, "consent" means an action which: (a) clearly and conspicuously communicates the individual's authorization of an act or practice; (b) is made in the absence of any mechanism in the user interface that has the purpose or substantial effect of obscuring, subverting, or impairing decision-making or choice to obtain consent; and (c) cannot be inferred from inaction.

§ 19. Reasonable charges for medicare beneficiaries. 1. No physician licensed under article one hundred thirty-one of the education law shall charge from a beneficiary of health insurance under title XVIII of the

federal social security act (medicare) any amount in excess of the following limitations:

(a) Effective January first, nineteen hundred ninety-one, a physician's charge shall not exceed one hundred fifteen percent of the reasonable charge for that service as determined by the United States secretary for health and human services.

(b) Beginning January first, nineteen hundred ninety-three, a physician's charge shall not exceed one hundred ten percent of the reasonable charge for that service as determined by the United States secretary for health and human services, provided however, that if the statewide percentage of medicare part B claims billed at or below the reasonable charge as determined by the United States secretary for health and human services for federal fiscal year nineteen hundred eighty-nine fails to increase by five percentage points for federal fiscal year nineteen hundred ninety-two, such physician's charge shall, thereafter, not exceed one hundred five percent of the reasonable charge as determined by the United States secretary for health and human services. If, in any subsequent federal fiscal year, such statewide percentage of medicare part B claims billed at or below such reasonable charge fails to maintain such five percentage point increase, physician's charge shall thereafter not exceed one hundred five percent of the reasonable charge as determined by the United States secretary for health and human services.

2. The charge limitation set forth in subdivision one of this section shall not apply if the service which such beneficiary is to be billed is either an office or home visit as set forth in procedure codes 90000 through 90170 in the Physician Current Procedural Terminology 4th Edition 1989.

3. The state office for the aging shall, through agreement with carriers and/or intermediaries contracted with by the federal government in this state pursuant to title XVIII of the federal social security act (medicare), obtain the percentages of physician's bills submitted at or below the reasonable charge as established by the United States secretary for health and human services, and shall issue a report by December first, nineteen hundred ninety-two and every December first,

thereafter, stating whether the percentage of bills submitted at or below such reasonable charge for federal fiscal year nineteen hundred ninety-two increased by five percentage points over the statewide percentage of bills submitted at or below such reasonable charge for federal fiscal year nineteen hundred eighty-nine and whether such percentage has been maintained for each successive federal fiscal year after nineteen hundred ninety-two.

4. Notwithstanding any inconsistent provision of this chapter, a physician who is determined, after opportunity for a hearing, to have violated the provisions of this section shall be subject for the first violation to a fine of not more than one thousand dollars nor less than the greater of three times the amount collected, or, if not collected, three times the amount charged, in excess of the limitations set forth in subdivision one of this section, and, for each additional violation committed within five years of the date of an immediately preceding violation of this section, to a fine of not more than five thousand dollars nor less than the greater of one thousand dollars or three times the amount collected, or, if not collected, three times the amount charged, in excess of the limitations set forth in subdivision one of this section; provided, however, that in no event shall the fine for an individual violation of this section be greater than five thousand dollars. In addition, where the provisions of this section have been violated, the physician shall refund to the beneficiary the amount collected in excess of the limitations set forth in subdivision one of this section.

§ 20. Accelerated death benefits. 1. For purposes of this section, "health care facility" means a hospital and residential health care facility as defined in article twenty-eight of this chapter, a home care services agency as defined in article thirty-six of this chapter, a hospice as defined in article forty of this chapter, and a continuing care retirement community as defined in article forty-six of this chapter.

2. No health care facility or practitioner shall coerce or require or

attempt to coerce or require any person to accelerate payment of part or all of the death benefit or special surrender value under a life insurance policy, as authorized by paragraph one of subsection (a) of section one thousand one hundred thirteen of the insurance law, or to enter into a viatical settlement pursuant to the provisions of article seventy-eight of the insurance law, as a condition of admission, providing or continuing care.

§ 22. Health-related legal services program. 1. As used in this section, "health-related legal services program" means a program that is a collaboration between health care service providers and legal services programs to provide on site legal services without charge to assist, on a voluntary basis, income eligible patients and their families to resolve legal matters or needs that have an impact on patient health or are created or aggravated by a patient's health. For the purpose of this section, legal matters may include, but shall not be limited to:

- (a) housing, including utilities;
- (b) public or private health insurance coverage;
- (c) employment and eligibility for employment benefits;
- (d) government benefits;
- (e) immigration;
- (f) family law, including, but not limited to, domestic violence, guardianship, custody, and child support;
- (g) advance planning, including, but not limited to, wills, health care proxies, powers of attorney and permanency planning;
- (h) special education; and
- (i) debtor and creditor issues.

2. The department may designate health-related legal services programs that comply with standards and guidelines established for such programs. The department shall work with legal services organizations, community health advocacy organizations, hospitals, diagnostic and treatment centers and other primary and specialty health care providers, to establish standards and guidelines for health-related legal services programs that are designated under this section.

3. A health-related legal services program designated under this section shall be a not-for-profit entity operated by or affiliated with one or more legal services organizations, law schools, social services organizations, or health care providers, and it shall comply with the standards, guidelines and regulations under this section, and have demonstrated ability and experience to provide high quality health-related legal services meeting the needs of the population to be served.

§ 23. Claim forms. A non-participating physician shall include a claim form for a third-party payor with a patient bill for health care services, other than a bill for the patient's co-payment, coinsurance or deductible.

§ 24. Disclosure. 1. A health care professional, or a group practice of health care professionals, a diagnostic and treatment center or a health center defined under 42 U.S.C. § 254b on behalf of health care professionals rendering services at the group practice, diagnostic and treatment center or health center, shall disclose to patients or prospective patients in writing or through an internet website the health care plans in which the health care professional, group practice, diagnostic and treatment center or health center, is a participating provider and the hospitals with which the health care professional is affiliated prior to the provision of non-emergency services and verbally at the time an appointment is scheduled.

2. If a health care professional, or a group practice of health care professionals, a diagnostic and treatment center or a health center defined under 42 U.S.C. § 254b on behalf of health care professionals rendering services at the group practice, diagnostic and treatment center or health center, does not participate in the network of a patient's or prospective patient's health care plan, the health care professional, group practice, diagnostic and treatment center or health center, shall: (a) prior to the provision of non-emergency services, inform a patient or prospective patient that the amount or estimated

amount the health care professional will bill the patient for health care services is available upon request; and (b) upon receipt of a request from a patient or prospective patient, disclose to the patient or prospective patient in writing the amount or estimated amount or, with respect to a health center, a schedule of fees provided under 42 U.S.C. § 254b(k)(3)(G)(i), that the health care professional, group practice, diagnostic and treatment center or health center, will bill the patient or prospective patient for health care services provided or anticipated to be provided to the patient or prospective patient absent unforeseen medical circumstances that may arise when the health care services are provided.

3. A health care professional who is a physician shall provide a patient or prospective patient with the name, practice name, mailing address, and telephone number of any health care provider scheduled to perform anesthesiology, laboratory, pathology, radiology or assistant surgeon services in connection with care to be provided in the physician's office for the patient or coordinated or referred by the physician for the patient at the time of referral to or coordination of services with such provider.

4. A health care professional who is a physician shall, for a patient's scheduled hospital admission or scheduled outpatient hospital services, provide a patient and the hospital with the name, practice name, mailing address and telephone number of any other physician whose services will be arranged by the physician and are scheduled at the time of the pre-admission testing, registration or admission at the time non-emergency services are scheduled; and information as to how to determine the healthcare plans in which the physician participates.

5. A hospital shall establish, update and make public through posting on the hospital's website, to the extent required by federal guidelines, a list of the hospital's standard charges for items and services provided by the hospital, including for diagnosis-related groups established under section 1886(d)(4) of the federal social security act.

6. A hospital shall post on the hospital's website: (a) the health

care plans in which the hospital is a participating provider; (b) a statement that (i) physician services provided in the hospital are not included in the hospital's charges; (ii) physicians who provide services in the hospital may or may not participate with the same health care plans as the hospital, and; (iii) the prospective patient should check with the physician arranging for the hospital services to determine the health care plans in which the physician participates; (c) as applicable, the name, mailing address and telephone number of the physician groups that the hospital has contracted with to provide services including anesthesiology, pathology or radiology, and instructions how to contact these groups to determine the health care plan participation of the physicians in these groups; and (d) as applicable, the name, mailing address, and telephone number of physicians employed by the hospital and whose services may be provided at the hospital, and the health care plans in which they participate.

7. In registration or admission materials provided in advance of non-emergency hospital services, a hospital shall: (a) advise the patient or prospective patient to check with the physician arranging the hospital services to determine: (i) the name, practice name, mailing address and telephone number of any other physician whose services will be arranged by the physician; and (ii) whether the services of physicians who are employed or contracted by the hospital to provide services including anesthesiology, pathology and/or radiology are reasonably anticipated to be provided to the patient; and (b) provide patients or prospective patients with information as to how to timely determine the health care plans participated in by physicians who are reasonably anticipated to provide services to the patient at the hospital, as determined by the physician arranging the patient's hospital services, and who are employees of the hospital or contracted by the hospital to provide services including anesthesiology, radiology and/or pathology.

8. A health care professional, or a group practice of health care professionals, a diagnostic and treatment center or a health center defined under 42 U.S.C. § 254b on behalf of health care professionals rendering services at the group practice, diagnostic and treatment

center or health center, and a hospital shall make publicly available, and if applicable, post on their public websites, and provide to individuals who are enrollees of health care plans, a one-page written notice, in clear and understandable language, containing information on the requirements and prohibitions under 42 U.S.C. §§ 300gg-131 and 300gg-132 and article six of the financial services law relating to prohibitions on balance billing for emergency services and surprise bills, and information on contacting appropriate state and federal agencies if an individual believes a health care provider has violated any requirement described in 42 U.S.C. §§ 300gg-131 and 300gg-132 or article six of the financial services law.

9. For purposes of this section:

(a) "Health care plan" means a health insurer including an insurer licensed to write accident and health insurance subject to article thirty-two of the insurance law; a corporation organized pursuant to article forty-three of the insurance law; a municipal cooperative health benefit plan certified pursuant to article forty-seven of the insurance law; a health maintenance organization certified pursuant to article forty-four of this chapter; a student health plan established or maintained pursuant to section one thousand one hundred twenty-four of the insurance law or a self-funded employee welfare benefit plan.

(b) "Health care professional" means an appropriately licensed, registered or certified health care professional pursuant to title eight of the education law.

(c) "Hospital" means a general hospital as defined in subdivision ten of section two thousand eight hundred one of this chapter.

TITLE III

OFFICE OF THE MEDICAID INSPECTOR GENERAL

Section 30. Legislative intent.

30-a. Definitions.

31. Establishment of the office of Medicaid inspector general.

32. Functions, duties and responsibilities.

33. Cooperation of agency officials and employees.

34. Transfer of employees.

35. Reports required of the inspector.
36. Disclosure of information.

§ 30. Legislative intent. This title establishes an independent office of Medicaid inspector general within the department to consolidate staff and other Medicaid fraud detection, prevention and recovery functions from the relevant governmental entities into a single office, and grants such office new powers and responsibilities. As such, this title is intended to create a more efficient and accountable structure, dramatically reorganize and streamline the state's process of detecting and combating Medicaid fraud and abuse and maximize the recoupment of improper Medicaid payments.

§ 30-a. Definitions. For the purposes of this title, the following definitions shall apply:

1. "Inspector" means the Medicaid inspector general created by this title.
2. "Investigation" means investigations of fraud, abuse, or illegal acts perpetrated within the medical assistance program, by providers or recipients of medical assistance care, services and supplies.
3. "Office" means the office of the Medicaid inspector general created by this title.

§ 31. Establishment of the office of Medicaid inspector general. 1. There is hereby created within the department the office of Medicaid inspector general. Pursuant to section three hundred sixty-three-a of the social services law, the department is the single state agency for the administration of the medical assistance program in New York state, provided that the office shall undertake and be responsible for the department's duties as the single state agency with respect to: (a) prevention, detection and investigation of fraud and abuse within the

medical assistance program; (b) referral of appropriate cases for criminal prosecution; and (c) recovery of improperly expended medical assistance funds. Such responsibility shall include, but not be limited to, medical assistance program audit functions, pursuant to sections three hundred sixty-four and three hundred sixty-eight-c of the social services law, and the function of medical assistance program fraud and abuse prevention, pursuant to sections one hundred forty-five-a and one hundred forty-five-b of the social services law (transferred to the New York state department of health from the former department of social services pursuant to subdivision (e) of section one hundred twenty-two of part B of chapter four hundred thirty-six of the laws of nineteen hundred ninety-seven).

2. The head of the office shall be the Medicaid inspector general who shall be appointed by the governor by and with the advice and consent of the senate. The inspector shall serve at the pleasure of the governor. The inspector shall report directly to the governor. The person appointed as inspector shall, upon his or her appointment, have not less than ten years professional experience in one or more of the following areas of expertise: law, provided the experience involves prosecution or some consideration of fraud; fraud investigation; and auditing. The inspector may possess comparable alternate experience in the area of health care or the area of senior management, in either the public or private setting, provided that such experience involves some consideration of fraud.

3. The inspector shall be compensated within the limits of funds available therefor, provided, however, such salary shall be no less than the salaries of certain state officers holding the positions indicated in paragraph (a) of subdivision one of section one hundred sixty-nine of the executive law.

§ 32. Functions, duties and responsibilities. The inspector shall have the following functions, duties and responsibilities:

1. to appoint such deputies, directors, assistants and other officers

and employees as may be needed for the performance of his or her duties and may prescribe their duties and fix their compensation within the amounts appropriated therefor;

2. to conduct and supervise activities to prevent, detect and investigate medical assistance program fraud and abuse amongst the following: the department; the offices of mental health, alcoholism and substance abuse services, temporary disability assistance, and children and family services and the office for people with developmental disabilities;

3. to coordinate, to the greatest extent possible, activities to prevent, detect and investigate medical assistance program fraud and abuse amongst the following: the department; the offices of mental health, alcoholism and substance abuse services, temporary disability assistance, and children and family services and the office for people with developmental disabilities; the commission on quality of care and advocacy for persons with disabilities; the department of education; the fiscal agent employed to operate the medical assistance information and payment system; local governments and entities; and to work in a coordinated and cooperative manner with, to the greatest extent possible, the deputy attorney general for Medicaid fraud control; the welfare inspector general, federal prosecutors, district attorneys within the state, the special investigative unit maintained by each health insurer operating within the state, and the state comptroller;

4. to solicit, receive and investigate complaints related to fraud and abuse within the medical assistance program;

5. to keep the governor, attorney general, state comptroller, temporary president and minority leader of the senate, the speaker and the minority leader of the assembly, and the heads of agencies with responsibility for the administration of the medical assistance program apprised of efforts to prevent, detect, investigate, and prosecute fraud and abuse within the medical assistance program, and to provide a quarterly briefing to the legislature on activities of the office;

6. to pursue civil and administrative enforcement actions against any individual or entity that engages in fraud, abuse, or illegal or improper acts or unacceptable practices perpetrated within the medical assistance program, including but not limited to: (a) referral of information and evidence to regulatory agencies and licensure boards; (b) withholding payment of medical assistance funds in accordance with state and federal laws and regulations; (c) imposition of administrative sanctions and penalties in accordance with state and federal laws and regulations; (d) exclusion of providers, vendors and contractors from participation in the program; (e) initiating and maintaining actions for civil recovery and, where authorized by law, seizure of property or other assets connected with improper payments; and entering into civil settlements; and (f) recovery of improperly expended medical assistance program funds from those who engage in fraud or abuse, or illegal or improper acts perpetrated within the medical assistance program. In the pursuit of such civil and administrative enforcement actions under this subdivision, the inspector shall consider the quality and availability of medical care and services and the best interest of both the medical assistance program and recipients;

6-a. to post on the department's internet website, within reasonably prompt fashion, all final administrative determinations issued by administrative law judges in connection with any actions taken by the office pursuant to this title;

7. to make information and evidence relating to suspected criminal acts which he or she may obtain in carrying out his or her duties available to appropriate law enforcement officials and to consult with the deputy attorney general for Medicaid fraud control, the welfare inspector general, and other state and federal law enforcement officials for coordination of criminal investigations and prosecutions.

The inspector shall refer suspected fraud or criminality to the deputy attorney general for Medicaid fraud control and make any other referrals to such deputy attorney general as required or contemplated by federal law. At any time after such referral, with ten days written notice to the deputy attorney general for Medicaid fraud control or such shorter

time as such deputy attorney general consents to, the inspector may additionally provide relevant information about suspected fraud or criminality to any other federal or state law enforcement agency that the inspector deems appropriate under the circumstances;

8. to subpoena and enforce the attendance of witnesses, administer oaths or affirmations, examine witnesses under oath, and take testimony;

9. to require and compel the production of such books, papers, records and documents as he or she may deem to be relevant or material to an investigation, examination or review undertaken pursuant to this section;

10. to examine and copy or remove documents or records of any kind related to the medical assistance program or necessary for the inspector to perform its duties and responsibilities that are prepared, maintained or held by or available to any state agency or local governmental entity the patients or clients of which are served by the medical assistance program, or which is otherwise responsible for the control of fraud and abuse within the medical assistance program; provided, however, that any such information be afforded confidentiality protection as provided for under state and federal law. The removal of records shall be limited to those circumstances in which a copy thereof is insufficient for an appropriate legal or investigative purpose, provided that in such instances the copying and return of such original, or copy where the original is required for an appropriate legal or investigative purpose, is expedited and such original or copy is readily accessible in accordance with the care and treatment needs of the patient,

11. to recommend and implement policies relating to the prevention and detection of fraud and abuse; provided however, that the consent of the attorney general shall be obtained prior to the implementation of any policy that shall affect the operations of the office of the attorney general;

12. to monitor the implementation of any recommendations made by the office to agencies or other entities with responsibility for

administration of the medical assistance program;

13. to prepare cases, provide testimony and support administrative hearings and other legal proceedings;

14. to review and audit contracts, cost reports, claims, bills and all other expenditures of medical assistance program funds to determine compliance with applicable federal and state laws and regulations and take such actions as are authorized by federal or state laws and regulations;

15. to work with the fiscal agent employed to operate the Medicaid management information system to optimize the system;

16. to work in a coordinated manner with relevant agencies in the implementation of information technology relating to the prevention and identification of fraud and abuse in the medical assistance program, including the surveillance utilization review system and other automated systems pursuant to paragraph (b) of subdivision eight of section three hundred sixty-seven-b of the social services law;

17. to conduct educational programs for medical assistance program providers, vendors, contractors and recipients designed to limit fraud and abuse within the medical assistance program;

18. to, in conjunction with the commissioner, develop protocols to facilitate the efficient self-disclosure and collection of overpayments and monitor such collections, including those that are self-disclosed by providers. The provider's good faith self-disclosure of overpayments may be considered as a mitigating factor in the determination of an administrative enforcement action;

19. to receive and to investigate complaints of alleged failures of state and local officials to prevent, detect and prosecute fraud and abuse in the medical assistance program;

20. to, consistent with provisions of this title, implement and amend,

as needed, rules and regulations relating to the prevention, detection, investigation and referral of fraud and abuse within the medical assistance program and the recovery of improperly expended medical assistance program funds;

21. to conduct, in the context of the investigation of fraud and abuse, on-site facility and office inspections;

22. to take appropriate actions to ensure that the medical assistance program is the payor of last resort;

23. to annually submit a budget request, for the ensuing state fiscal year, to the division of the budget, provided that the office's budget request shall not be subject to review, alteration or modification by the commissioner or any other entity or person prior to its submission to the division of the budget;

24. to meet quarterly with representatives of social services districts to discuss the status of ongoing cooperative efforts between the office of Medicaid inspector general and districts, including demonstration programs authorized pursuant to section five-a of part C of chapter fifty-eight of the laws of two thousand five, the potential for additional collaboration and/or for improved or innovative techniques to be employed, and any issues of concern to such districts with respect to the prevention and detection of fraud and abuse in the medical assistance program;

25. to request submission of social services districts annual budget and audit workplans for purposes of planning for and executing the county demonstration program and for the creation of the office's annual workplan and to include in the office's annual workplan a description of activities that will be conducted in collaboration with social services districts;

26. to develop training materials with respect to the office's audit standards and criteria for identifying fraud or waste, for use by social services districts who are engaged with the office in demonstration

programs or other collaborative efforts; and

27. to perform any other functions that are necessary or appropriate to fulfill the duties and responsibilities of the office in accordance with federal and state law.

§ 33. Cooperation of agency officials and employees. 1. In addition to the authority otherwise provided by this title, the inspector, in carrying out the provisions of this title, is authorized to request such information, assistance and cooperation from any federal, state or local governmental department, board, bureau, commission, or other agency or unit thereof as may be necessary for carrying out the duties and responsibilities enjoined upon the inspector by this section. State and local agencies or units thereof are hereby authorized and directed to provide to the inspector, or, at the request of the inspector, to state agencies or their contractors, such information, assistance and cooperation. Notwithstanding any other provision of law to the contrary, requests for information, assistance and cooperation may include, but not be limited to, all state and local government birth, death and vital statistics which may be contained in files, databases or registries, and for all information shall, upon request, include, where possible, making electronic copies or record exchanges available. Executive agencies shall coordinate and facilitate the transfer of appropriate functions and positions to the office as necessary and in accordance with applicable law.

2. Upon request of a local social services district or a prosecutor of competent jurisdiction, the office, department, any other state or local government entity and the Medicaid fraud control unit shall provide such information and assistance as such entity or unit shall deem necessary, appropriate and available to aid and facilitate the investigation of fraud and abuse within the medical assistance program and the recoupment of improperly expended funds.

§ 34. Transfer of employees. Upon the transfer of the medical

assistance program audit and fraud and abuse prevention functions from the department and the offices of mental health, alcoholism and substance abuse services, temporary disability assistance, and children and family services and the office for people with developmental disabilities to the office within the department pursuant to section thirty-one of this title, provision shall be made for the transfer of necessary officers and employees who are substantially engaged in the performance of the function to be transferred, and any documents and records necessary and related to the transfer of such functions. The heads of the departments or agencies from which such function is to be transferred and the inspector shall confer to determine the officers and employees who are substantially engaged in the medical assistance program audit and fraud and abuse prevention function to be transferred. In accordance with subdivision two of section seventy of the civil service law, officers and employees so transferred shall be transferred without further examination or qualification to the same or similar titles and shall remain in the same collective bargaining unit and shall retain their respective civil service classification, status and rights pursuant to their collective bargaining unit and collective bargaining agreement. Notwithstanding the office's regional operations, all office employees shall be co-located, to the greatest extent practicable. The inspector shall have sole responsibility for establishing methods of administration for the office.

§ 35. Reports required of the inspector. 1. The inspector shall, no later than October first of each year, submit to the governor, the temporary president of the senate, the speaker of the assembly, the state comptroller and the attorney general, a report summarizing the activities of the office during the preceding calendar year. Such report shall include:

(a) the number, subject and other relevant characteristics of investigations initiated, and those completed, including but not limited to outcome, region, source of complaint and whether or not such investigation was conducted jointly with the attorney general;

(b) the number, subject and other relevant characteristics of audits initiated, and those completed, including but not limited to outcome,

region, reason for audit and the total dollar value identified for recovery and the actual recovery from such audits;

(c) the number, subject and other relevant characteristics of administrative actions initiated, and those completed, including but not limited to outcome, region and type;

(d) the number, subject and other relevant characteristics of referrals for prosecution to the deputy attorney general for Medicaid fraud control and other federal or state law enforcement agencies, or for licensure action; such information shall include but not be limited to status and region;

(e) the number, subject and other relevant characteristics of civil actions initiated by the office related to improper payments, the resulting civil settlements entered and overpayments identified and the total dollar value both identified and collected;

(f) a narrative that evaluates the office's performance, describes any specific problems and connection with the procedures and agreements required under this section, discusses any other matters that may have impaired its effectiveness and summarizes the total savings to the state's medical assistance program; and

(g) a narrative, provided by the department in its annual report pursuant to paragraph (t) of subdivision one of section two hundred six of this chapter that summarizes the department's activities to mitigate fraud, waste and abuse during the preceding calendar year.

2. Pursuant to the reporting requirements contained within subdivision one of this section, the inspector shall not disclose information that jeopardizes an ongoing investigation or proceeding, provided that the inspector shall disclose required information that does not jeopardize an ongoing investigation or proceeding and fully apprises the designated recipients of the scope and quality of the office's activities.

3. The inspector shall, on or before April first, July first, October first and January first of each year following the calendar year in which this title shall take effect, submit to the governor, temporary president of the senate and speaker of the assembly an accountability statement providing a statistical profile of the referrals made to the state Medicaid fraud control unit, audits, investigations and

recoveries.

§ 36. Disclosure of information. The inspector shall not disclose information which is prohibited from disclosure by any other provision of law.

TITLE I

OFFICERS AND EMPLOYEES

- Section
- 200. Department of health; continuation.
 - 201. Functions, powers and duties of the department.
 - 202. Divisions.
 - 203. Commissioner; qualifications.
 - 204. Commissioner; appointment; term of office.

- 205. Commissioner; compensation and expenses.
- 206. Commissioner; general powers and duties.
- 206-a. Discrimination in hospital staff appointments and privileges prohibited.
- 206-b. Special requirements with respect to Lyme disease diagnosis.
- 207. Health care and wellness education and outreach program.
- 207-a. Tick-borne diseases and blood-borne pathogen impact study.
- 208. Deputy commissioners; appointment; qualifications and duties.
- 209. Deputy commissioners; compensation.
- 210. Officers and employees; appointment.
- 211. Training.
- 211-a. Continuation of salaries of employees of the department while receiving training.

§ 200. Department of health; continuation. There shall continue to be in the state government a department of health. The head of the department shall be the commissioner of health of the state of New York.

§ 201. Functions, powers and duties of the department. 1. The department shall, as provided by law:

- (a) supervise the work and activities of the local boards of health and health officers throughout the state, unless otherwise provided by law;
- (b) supervise and control the registration of births, deaths and marriages;
- (c) supervise the reporting and control of disease;
- (d) engage in research into morbidity and mortality;
- (e) produce, standardize and distribute diagnostic, prophylactic and therapeutic products;
- (f) conduct laboratory examinations for the diagnosis and control of disease;
- (g) promote education in the prevention and control of disease;

(h) promote or provide diagnostic and therapeutic services for maternal and child health, communicable disease, medical rehabilitation, cancer and other conditions and diseases affecting public health;

(i) except as otherwise provided by law, license, supervise and regulate maternity hospitals and homes and the occupation of midwifery;

(j) license, supervise and regulate the manufacture, distribution and use of narcotics;

(k) maintain and operate such state hospitals, institutions, public health centers and clinics as shall be established in the department;

(l) supervise and regulate the sanitary aspects of water supplies and sewage disposal and control the pollution of waters of the state;

(m) supervise and regulate the sanitary aspects of camps, hotels, boarding houses, public eating and drinking establishments, swimming pools, bathing establishments and other businesses and activities affecting public health and, in relation to hotels, boarding houses and temporary residences as defined in the state sanitary code, inspect such facilities (i) where inspections do not otherwise occur under the state uniform fire prevention and building code, (ii) to respond to complaints, or (iii) when otherwise necessary;

(n) exercise control over and supervise the abatement of nuisances affecting or likely to affect public health;

(o) advise any local unit of government and the public health officials thereof within the state, in the performance of their official duties and regulate the financial assistance granted by the state in connection with all public health activities;

(p) receive and expend funds made available for public health purposes pursuant to law;

(q) license, supervise and regulate the practice of funeral directing and embalming;

(r) supervise and regulate the public health aspects of ionizing radiation and nonionizing electromagnetic radiation; and may in its discretion license activities within the state affecting or likely to affect public health and relating to radioactive materials, excluding special nuclear materials in quantities sufficient to form a critical mass and excluding the handling and disposal of radioactive wastes and the release of radioactivity to the environment regulated by the state department of environmental conservation;

(s) administer to the medical and health needs of the ambulant sick and needy Indians on the reservations;

(u) engage in research into the causes of rocky mountain spotted fever and the prevention thereof and develop programs for the control of ticks, insects and anthropods which act as vectors of disease affecting man, within funds made available for such purposes.

(v) act as the single state agency for medical assistance pursuant to section three hundred sixty-three-a of the social services law, as amended by this chapter, with responsibility to supervise the plan for medical assistance as required by title XIX of the federal Social Security act, or its successor, and to adopt regulations as may be necessary to implement this plan.

(w) make available to the council on children and families information, in a format identified by the council, regarding home visiting programs that meet the criteria as required by section four hundred twenty-nine of the social services law regardless of whether such program has a contract with or receive funding from the state. Such information shall be provided in accordance with the requirements set forth in subdivision two of section four hundred eighty-three-h of the social services law. Such information shall be made available no less than once a year.

(x) produce an annual report analyzing the costs related to the sexual assault examination direct reimbursement program as created under subdivision thirteen of section six hundred thirty-one of the executive law and provide such report to the office of victim services on or before September first of each year. Such report shall be provided to the governor, temporary president of the senate and the speaker of the assembly.

(y) To develop a form by which a coroner, coroner's physician or medical examiner, pursuant to section six hundred seventy-seven of the county law, shall report to the division of veterans' services any death which appears to be caused by suicide by a person who, to the knowledge of the coroner, coroner's physician or medical examiner, is a veteran. This form shall at a minimum: (i) ensure compliance with the strictest privacy protections and encourage data aggregation to the extent feasible; (ii) provide the address to which the form is to be mailed or submitted electronically; and (iii) include the county of residence and

the branch of service of deceased veterans during the reporting period.

2. The department shall continue to exercise all of the functions, powers and duties which have been prescribed by law and which are being exercised by it when this chapter takes effect together with such functions, powers and duties as hereafter may be conferred and imposed upon it by law.

3. All the provisions of this chapter shall apply to the department continued by this chapter and to the commissioner, the public health council and any successor council, and to the divisions, bureaus and officers in such department.

§ 202. Divisions. 1. There shall be in the department such divisions, bureaus and other units as the commissioner from time to time may determine to be necessary and the director of the budget shall approve.

2. The commissioner may, from time to time, abolish, transfer and consolidate divisions, bureaus and other units within the department not expressly established by law as he may determine necessary for the efficient operation of the department.

§ 203. Commissioner; qualifications. The commissioner shall be a physician, a graduate of an incorporated medical college, of at least ten years' experience in the actual practice of his profession, and of skill and experience in public health duties and sanitary science.

§ 204. Commissioner; appointment; term of office. 1. The commissioner shall be appointed by the governor, by and with the advice and consent of the senate and shall hold office until the end of the term of the governor by whom he was appointed and until his successor is appointed and has qualified.

2. The present commissioner shall be the head of the department and

shall hold office until the expiration of his present term and until his successor is appointed and has qualified. If, prior to the expiration of such present term, a vacancy shall occur or exist in the office of the commissioner it shall be filled by appointment by the governor, by and with the advice and consent of the senate, for a term expiring with that of the governor by whom the appointment was made.

3. During his term of office the commissioner shall not engage in any occupation which conflicts with the performance of his official duties.

§ 205. Commissioner; compensation and expenses. The commissioner shall receive an annual salary not to exceed an amount appropriated therefor by the legislature and his expenses actually and necessarily incurred in the performance of his official duties, unless otherwise provided by the legislature.

§ 206. Commissioner; general powers and duties. 1. The commissioner shall:

(a) take cognizance of the interests of health and life of the people of the state, and of all matters pertaining thereto and exercise the functions, powers and duties of the department prescribed by law;

(b) exercise general supervision over the work of all local boards of health and health officers, unless otherwise provided by law;

(c) exercise general supervision and control of the medical treatment of patients in the state institutions, public health centers and clinics in the department;

(d) investigate the causes of disease, epidemics, the sources of mortality, and the effect of localities, employments and other conditions, upon the public health;

(e) obtain, collect and preserve such information relating to marriage, birth, mortality, disease and health as may be useful in the discharge of his duties or may contribute to the promotion of health or the security of life in the state; establish rules and regulations for the determination of asymptomatic conditions including, but not limited to RH sensitivity, anemia, sickle cell anemia, cooley's anemia and

venereal disease;

(f) enforce the public health law, the sanitary code and the provisions of the medical assistance program, or its successor, pursuant to titles eleven, eleven-A and eleven-B of the social services law, as amended by this chapter;

(g) cause to be made from time to time examinations and inspections of the sanitary conditions of each state institution and transmit copies of the reports and recommendations thereon to the head of the state department having jurisdiction over the institution examined;

(h) cause to be made from time to time, examinations and inspections of all labor camps and enforce the provisions of the sanitary code relating thereto;

(i) cause to be made, from time to time, examinations and inspections of all Indian reservations, and enforce all provisions of the sanitary code relating thereto.

(j) cause to be made such scientific studies and research which have for their purpose the reduction of morbidity and mortality and the improvement of the quality of medical care through the conduction of medical audits within the state. In conducting such studies and research, the commissioner is authorized to receive reports on forms prepared by him and the furnishing of such information to the commissioner, or his authorized representatives, shall not subject any person, hospital, sanitarium, rest home, nursing home, or other person or agency furnishing such information to any action for damages or other relief. Such information when received by the commissioner, or his authorized representatives, shall be kept confidential and shall be used solely for the purposes of medical or scientific research or the improvement of the quality of medical care through the conduction of medical audits. Such information shall not be admissible as evidence in any action of any kind in any court or before any other tribunal, board, agency, or person.

(k) notwithstanding any other provision of law, with the advice and assistance of the commissioner of agriculture and markets, establish rules and regulations to require such treatment of food or food products, including the addition or removal of specific substances, as may be necessary for the protection of the public health against the hazards of ionizing radiation.

(l) establish and operate such adult and child immunization programs as are necessary to prevent or minimize the spread of disease and to protect the public health. Such programs may include the purchase and distribution of vaccines to providers and municipalities, the operation of public immunization programs, quality assurance for immunization related activities and other immunization related activities. The commissioner may promulgate such regulations as are necessary for the implementation of this paragraph. Nothing in this paragraph shall authorize mandatory immunization of adults or children, except as provided in sections twenty-one hundred sixty-four and twenty-one hundred sixty-five of this chapter.

(m) make such rules and regulations which may be necessary to require pre-employment physical examination and thereafter require such annual examinations of all hospital employees for discovery of tuberculosis and other communicable diseases as he deems necessary for the safety and well being of the people of the state.

(n) by rule and regulation establish criteria for identification of areas and conditions involving high risk of lead poisoning, specify methods of detection of lead in dwellings, provide for the administration of prescribed tests for lead poisoning and the recording and reporting of the results thereof, and provide for professional and public education, as may be necessary for the protection of the public health against the hazards of lead poisoning.

(o) establish and publish a list of drug products, each of which shall meet the following conditions:

(1) The drug product has been certified or approved by the commissioner of the Federal Food and Drug Administration as being safe and effective for its labeled indications for use, and a new-drug application or an abbreviated new-drug application approved pursuant to the Federal Food, Drug, and Cosmetic Act is held for such drug product; and

(2) The commissioner of the Federal Food and Drug Administration has evaluated such drug product as:

(i) pharmaceutically and therapeutically equivalent and has listed such drug product on the list of approved drugs products with the therapeutic equivalence evaluations, provided, however, that the list prepared by the commissioner shall not include any drug product which

the commissioner of the Federal Food and Drug Administration has identified as having an actual or potential bioequivalence problem; or

(ii) as an interchangeable biological product and has listed such product on the list of approved drug products with interchangeability.

(p) promulgate rules and regulations establishing procedures to be used in implementing the provisions of article thirteen-E of this chapter as limited by section thirteen hundred ninety-nine-x of article thirteen-E of this chapter. Such rules and regulations shall include, but not be limited to, such matters as may be required to ensure that the established procedures thereunder shall at least be in compliance with the relevant provisions of the code of fair procedure set forth in section seventy-three of the civil rights law.

(q) have the authority to carry out the provisions of section one hundred seventy-seven-a of the navigation law.

* (r) shall prepare for publication, and cause to be distributed by general hospitals to patients upon inpatient admission, a booklet containing the information and materials required to be distributed to patients pursuant to this chapter and federal law. Where reasonable and appropriate, the booklet may summarize or describe information and materials required to be distributed to the patient, and how they may be obtained. The commissioner shall prepare and distribute to general hospitals physical, electronic or other materials from which the booklet can be produced. The commissioner shall revise and update such prepared booklet on a timely basis to reflect any changes in patient information and materials required to be distributed pursuant to law.

* NB There are 2 par. (r)'s

* (r) by rule and regulation, establish standards necessary and appropriate for the implementation of item (ii) of clause (a) of section three hundred twenty-two-c of the general business law. Such rules and regulations shall be approved by the New York state fire prevention and building code council.

* NB There are 2 par. (r)'s

(s) issue a readiness report to the legislature, detailing the status of the statewide health benefit exchange, state enrollment center, and state Medicaid enrollment center established under executive order number forty-two of two thousand twelve, by August thirtieth, two thousand thirteen. The readiness report may be provided in electronic

format and shall be distributed to the temporary president of the senate, the speaker of the assembly, the chair of the senate standing committee on health, and the chair of the assembly health committee. The readiness report shall outline the progress and preparedness of the health benefit exchange, state enrollment center, and state Medicaid enrollment center and detail how the exchange, state enrollment center, and state Medicaid enrollment center will carry out their respective functions including but not limited to:

(i) the process by which the health benefit exchange, state enrollment center, and state Medicaid enrollment center will begin accepting applications on October first, two thousand thirteen;

(ii) the process by which the health benefit exchange, state enrollment center, and state Medicaid enrollment center will certify qualified health plans;

(iii) the anticipated cost of individual and small group plans being offered in the health benefit exchange;

(iv) the number of navigators approved;

(v) the plan for full operation by January first, two thousand fourteen; and

(vi) the plan to become fiscally self-sustaining by January first, two thousand fifteen.

(t) The department shall submit as part of its annual report prepared pursuant to section one hundred sixty-four of the executive law, which may be submitted in electronic format, comprehensive information including, but not limited to, a detailed description of the department's mission, priorities and goals for the upcoming year, achievements of the past year, and any relevant data and statistics.

(u) The commissioner shall provide a written or electronic copy of any state plan amendment submitted to the centers for Medicare and Medicaid services to the chair of the senate standing committee on health and the chair of the assembly health committee, no later than five business days from the date of mailing or submission.

* (v) require, in consultation and cooperation with the superintendent of financial services, that every individual applying for health care coverage through the state health benefit exchange established pursuant to the federal Patient Protection and Affordable Care Act (P.L. 111-148), as amended by the federal Health Care and Education

Reconciliation Act of 2010 (P.L. 111-152), be provided space so that such applicant may register in the "donate life registry" for organ, eye and tissue donations under section forty-three hundred ten of this chapter with the following stated in clear conspicuous type:

"Would you like to be added to the Donate Life Registry? Check box for 'yes' or 'skip this question'."

The commissioner shall not maintain records of any person who checks "skip this question". Except where the application is made in person or electronically, failure to check a box shall not impair the validity of an application, and failure to check "yes" or checking "skip this question" shall not be construed to imply a wish not to donate. In the case of an applicant under eighteen years of age, checking "yes" shall not constitute consent to make an anatomical gift or registration in the donate life registry. Where an applicant has previously consented to make an anatomical gift or registered in the donate life registry, checking "skip this question" or failing to check a box shall not impair that consent or registration.

* NB Effective until December 21, 2026

* (v) require, in consultation and cooperation with the superintendent of financial services, that every individual applying for health care coverage through the state health benefit exchange established pursuant to the federal Patient Protection and Affordable Care Act (P.L. 111-148), as amended by the federal Health Care and Education Reconciliation Act of 2010 (P.L. 111-152), be provided space so that such applicant may register in the "donate life registry" for organ, eye and tissue donations under section forty-three hundred ten of this chapter with the following stated in clear conspicuous type:

"Would you like to be added to the Donate Life Registry? Check box for 'yes' or 'skip this question'."

The commissioner shall not maintain records of any person who checks "skip this question". Except where the application is made in person or electronically, failure to check a box shall not impair the validity of an application, and failure to check "yes" or checking "skip this question" shall not be construed to imply a wish not to donate. In the case of an applicant under eighteen years of age, checking "yes" shall

not constitute consent to make an anatomical gift or registration in the donate life registry, except as otherwise provided pursuant to the provisions of paragraph (b) of subdivision one of section forty-three hundred one of this chapter. Where an applicant has previously consented to make an anatomical gift or registered in the donate life registry, checking "skip this question" or failing to check a box shall not impair that consent or registration.

* NB Effective December 21, 2026

* NB There are 2 par (v)'s

* (v) by rule and regulation, cause the distribution of crib safety information. (1) The commissioner shall require that every hospital and birth center distribute at the time of discharge directly to each maternity patient and, upon request, to the general public an informational leaflet concerning crib safety. Such leaflet shall be designed by the commissioner in conjunction with the director of the division of consumer protection, on behalf of the consumer protection division, and shall contain information detailing safe sleeping procedures for babies, crib product recalls and disclosure of the federal standards on the manufacture and sale of cribs.

(2) Such leaflet shall be made available to hospitals and birth centers by the department on its website and shall be provided in English, as well as the top six languages other than English spoken in the state according to the latest available data from the United States Bureau of Census.

(3) Hospital staff shall inquire whether the maternity patient has a new crib available for any newborns. If the maternity patients do not have a new crib available, hospital staff shall provide information about where to obtain a new crib, including social services agencies, non-profit service providers or other relevant organizations.

* NB There are 2 par (v)'s

* (w) require that every electronic health record vendor include and integrate components into their electronic health record products implemented for general hospitals in the state regulated under article twenty-eight of this chapter in such a manner to allow patients to register directly in the New York state "donate life registry" for organ, eye and tissue donations as provided for under section forty-three hundred ten of this chapter. Such registration shall be via

a patient-facing portal, provided that, to protect patient confidentiality and prevent conflicts of interest, such electronic health record products do not retain or store patients' donor status information, and provided, further, that such electronic health record products meet standards as may be established by the commissioner, including, but not limited to, a standardized question allowing direct enrollment in the donate life registry and required data elements. Electronic health record vendors shall provide the integration of such elements without additional cost under this paragraph as a component of either existing or new implementations of their electronic health record products. Patient facing elements of these products shall include opportunities for patients to directly register in the "donate life registry" for organ, eye and tissue donations as a component of such elements.

* NB Effective December 21, 2026

2. The commissioner and any person authorized by him so to do, may, without fee or hindrance, enter, examine and survey all grounds, erections, vehicles, structures, apartments, buildings and places.

3. The commissioner may, on behalf and in the interest of the health of the people of the state enter into such contracts or agreements with individuals, colleges, universities, associations, corporations, municipalities and other units of government as may be deemed necessary and advisable to carry out the general intent and purposes of the public health law and the sanitary code. Such contracts may provide for payment by the state, within the limit of funds available, for materials, equipment or services.

4. The commissioner may:

(a) issue subpoenas, compel the attendance of witnesses and compel them to testify in any matter or proceeding before him, and may also require a witness to attend and give testimony in a county where he resides or has a place of business without the payment of any fees;

(b) annul or modify an order, regulation, by-law or ordinance of a local board of health concerning a matter which in his judgment affects the public health beyond the territory over which such local board of

health has jurisdiction;

(c) assess any penalty prescribed for a violation of or a failure to comply with any term or provision of this chapter or of any lawful notice, order or regulation pursuant thereto, not exceeding two thousand dollars for every such violation or failure, which penalty may be assessed after a hearing or an opportunity to be heard;

(d) assess civil penalties against a public water system which provides water to the public for human consumption through pipes or other constructed conveyances, as further defined in the state sanitary code or, in the case of mass gatherings, the person who holds or promotes the mass gathering as defined in subdivision five of section two hundred twenty-five of this article not to exceed twenty-five thousand dollars per day, for each violation of or failure to comply with any term or provision of the state sanitary code as it relates to public water systems that serve a population of five thousand or more persons or any mass gatherings, which penalty may be assessed after a hearing or an opportunity to be heard;

(e) issue a non-patient specific statewide standing order for the provision of doula services for pregnant, birthing, and postpartum individuals through twelve months postpartum.

5. Subject to the provisions of the state finance law, the commissioner is authorized to take, and administer for the state any grant, gift or bequest to be applied, principal or income or both, for the purposes specified in such grant, to the maintenance and use of any hospital, institution or service in the department.

6. The commissioner may enter into contracts:

(a) with corporations duly licensed in the state of New York to transact the business of accident and health insurance to provide to sick and disabled persons insured by them such home care, including nursing and other paramedical services (excluding physicians' services) as may be needed by them;

(b) with hospital service corporations organized and operating in accordance with article forty-three of the insurance law to provide to their subscribers nursing service and such other paramedical services as would have been available in a hospital (excluding physicians' services)

at rates which shall prior to payment be approved as to reasonableness by the superintendent of financial services;

(c) with any municipal corporation or local, state or federal agency to provide such home care, including nursing and other paramedical services (excluding physicians' services) as may be needed by sick and disabled persons;

(d) with medical expense indemnity corporations organized and operating in accordance with article forty-three of the insurance law to provide their subscribers with such home care, including nursing and other paramedical services, as may be needed by them at rates which shall prior to payment be approved as to reasonableness by the superintendent of financial services; and

(e) with any non-profit corporation, agency or association established for the purpose of improvement of health services or for the purpose of providing home care for sick and disabled persons, including nursing and other paramedical services (excluding physicians' services) as may be needed by such persons.

Such services may be provided by the state health commissioner by subcontract with a city or county rendering nursing and other paramedical services or any non-profit corporation, agency or association established for the purpose of the improvement of health services or for the purpose of providing home care for sick and disabled persons including nursing and other paramedical services (excluding physicians' services).

The state health commissioner shall establish the fees to be charged for such services to be rendered pursuant to such contracts and, upon receipt of such fees, shall remit the same to the comptroller.

7. The commissioner may establish fees for nursing and other paramedical services (excluding physicians' services) rendered to people sick at home.

Such services may be provided by the state health commissioner or by subcontract with a city or county rendering nursing and other paramedical services or any non-profit corporation, agency, or

association established for the purpose of the improvement of health services or for the purpose of providing home care for sick and disabled persons including nursing and other paramedical services (excluding physicians' services).

8. Whenever, in this chapter, the commissioner is empowered to or charged with the responsibility to do or perform any act, he may deputize in writing any officer or employee in the department to do or perform the act in his place and stead.

9. The commissioner may deputize in writing any local health officer to do or perform in his place and stead those duties and responsibilities charged upon the commissioner by paragraphs (d), (g), (h) and (i) of subdivision one of this section, those duties of inspection and enforcement charged upon the commissioner by paragraph f of subdivision three of section six thousand five hundred fifty-eight of the education law and those duties of inspection and supervision charged upon the department by paragraphs (m), (n), (r) and (s) of subdivision one of section two hundred one of this chapter; provided, however, in the city of New York such deputization shall be subject to the prior approval of the mayor of such city.

10. The commissioner, with the approval of the state director of the budget, shall establish and promulgate a schedule of proportional shares for cost sharing under subdivision one of section three hundred sixty-nine-d of the social services law. In developing such a schedule, the commissioner shall take into consideration various options available for obtaining health care services, the availability of such services, and the impact of cost sharing on prudent utilization and efficient provision of services without undue barriers to care for persons eligible for assistance under the catastrophic health care expense program established by section three hundred sixty-nine-c of the social services law.

11. The commissioner shall cooperate with the commissioner of the state department of environmental conservation, district attorneys and the department of law in providing assistance in the investigation and

prosecutions of violations of article twenty-seven of the environmental conservation law.

* 12. (a) The commissioner shall establish and assess a regulatory assessment fee which will be charged to providers of health-care services regulated by the department under the provisions of articles twenty-eight, thirty-six and forty-four of this chapter, including health maintenance organizations established pursuant to article forty-three of the insurance law. The level of such regulatory fees shall be sufficient to recover the costs related to regulating such providers and costs related to the establishment and auditing of rates of reimbursement for the state fiscal year ending during the annual period in which such fee shall be assessed. Such costs will be certified by the director of the budget to the commissioner and shall include direct and indirect costs. The commissioner, subject to the approval of the director of the budget, shall develop a means of distributing the assessment of such a fee among the affected health-care providers based upon each provider's proportionate share of the sum of total costs and revenues reported for all such providers. For the purposes of this section, the sum of total costs and revenues shall be calculated by including, for the most recent annual period for which certified data is available, total reported costs of a facility except that amounts included for general hospital outpatient and emergency services and treatment or diagnostic center services shall be based upon reported, or in its absence, estimated revenues, and costs included for article forty-four providers, and article forty-three providers of the insurance law shall exclude costs associated with the purchase of inpatient services.

(b) The fees assessed pursuant to this subdivision shall be deemed allowable operating costs in the determination of reimbursement rates and charges established pursuant to articles twenty-eight, thirty-six and forty-four of this chapter and article forty-three of the insurance law. The costs incurred for this purpose during a given rate year shall be included in the respective reimbursement rates for each such year. Charges established pursuant to subdivisions six and thirteen of section twenty-eight hundred seven-a of this chapter shall also be permitted to increase to include the annual costs associated with the assessment of such fee. The cost of such fee shall not be subject to reimbursement

ceilings or other penalties used by the commissioner for the purpose of establishing rates of reimbursement pursuant to articles twenty-eight, thirty-six and forty-four of this chapter and article forty-three of the insurance law. Whenever an adjustment in such fees is made, reimbursement rates shall also be adjusted to include the increase or decrease in costs associated with such assessment fee.

(c) There is hereby created and established in the joint custody of the comptroller and the commissioner of taxation and finance an account to be known as the health care regulatory account. Notwithstanding section one hundred twenty-one of the state finance law or any other law to the contrary, the commissioner shall pay to the state treasurer for deposit into such account any revenues received from the regulatory fee or amounts withheld pursuant to paragraph (d) of this subdivision. The commissioner shall establish by regulation a schedule of payments which to the extent practicable shall reflect the timeliness of reimbursement received by providers for the cost of such fee and define timely payments of the regulatory assessment fee for the purposes of implementing paragraph (d) of this subdivision. Payments established pursuant to this paragraph shall not be due until reimbursement rates established pursuant to articles twenty-eight, thirty-six and forty-four of this chapter and article forty-three of the insurance law are adjusted to include the annual cost of such fee. The fee may be adjusted by the commissioner at any time, but in no event shall the fees exceed the amount appropriated for transfer to the general fund from the health care regulatory account.

(d) Upon receipt of notification from the commissioner or the director of the budget, the comptroller or a fiscal intermediary designated by the director of the budget shall withhold from the amount of any payment to be made by the state to a provider enumerated in paragraph (a) of this subdivision the amount of such arrearage resulting from such provider's failure to make a timely payment of the regulatory assessment fee in accordance with the schedule promulgated by the commissioner. Upon withholding such amount, the comptroller or a designated fiscal intermediary shall pay the commissioner such amount withheld.

* NB (Effective pending Federal Government Ruling)

* 13. (a) The commissioner shall establish and assess a fee which will be charged to providers of health-care services regulated by the

department under the provisions of articles twenty-eight, thirty-six and forty-four of this chapter, including health maintenance organizations established pursuant to article forty-three of the insurance law. The level of such fee shall be sufficient to recover the costs of making grants to health systems agencies and to match other contributions pursuant to subdivision (g) of section two thousand nine hundred four-b of this chapter (the health systems agency fee). The commissioner, subject to the approval of the director of the budget, shall develop a means of distributing the assessment of the fee among the affected health-care providers based upon each provider's proportionate share of the sum of total costs and revenues reported for all such providers. For the purposes of this section, the sum of total costs and revenues shall be calculated by including, for the most recent annual period for which certified data is available, total reported costs of a facility except that amounts included for general hospital outpatient and emergency services and treatment or diagnostic center services shall be based upon reported, or in its absence estimated revenues, and costs included for article forty-four providers and article forty-three providers of the insurance law, shall exclude costs associated with the purchase of inpatient services. The fee shall not exceed one-tenth of one percent of the total costs or revenues reported by such provider. There is hereby created and established in the joint custody of the comptroller and the commissioner of taxation and finance an account to be known as the health systems agency account. Notwithstanding section one hundred twenty-one of the state finance law, or any other law to the contrary, the commissioner shall pay to the state treasurer for deposit into such account any revenues received from the health systems agency fees or amounts withheld pursuant to paragraph (c) of this subdivision for health systems agency fee obligations into the health systems agency account. The monies deposited to the health systems agency account shall be used to make grants to health systems agencies pursuant to subdivision (f) of section twenty-nine hundred four-b of this chapter and to match contributions pursuant to subdivision (g) of section two thousand nine hundred four-b of this chapter. The commissioner shall establish by regulation a schedule of payments which to the extent practicable shall reflect the timeliness of reimbursement received by providers for the cost of such fee and a definition of timely payments

for the purposes of implementing paragraph (c) of this subdivision. No payment shall be due until reimbursement rates established pursuant to articles twenty-eight, thirty-six and forty-four of this chapter and article forty-three of the insurance law are adjusted to include the costs of the fee. The fee may be adjusted by the commissioner at any time, but in no event shall the fees exceed the limitation set forth in this paragraph.

(b) The fees assessed pursuant to this subdivision shall be deemed allowable operating costs in the determination of reimbursement rates and charges established pursuant to articles twenty-eight, thirty-six and forty-four of this chapter and article forty-three of the insurance law. The costs incurred for this purpose during a given rate year shall be included in the respective reimbursement rates for each such year. Charges established pursuant to subdivisions six and thirteen of section twenty-eight hundred seven-a of this chapter shall also be permitted to increase to include the annual costs associated with the assessment of such fee. The cost of such fee shall not be subject to reimbursement ceilings or other penalties used by the commissioner for the purpose of establishing rates of reimbursement pursuant to articles twenty-eight, thirty-six and forty-four of this chapter and article forty-three of the insurance law. Whenever an adjustment in such fees is made, reimbursement rates shall also be adjusted to include the increase or decrease in costs associated with such fee.

(c) Upon receipt of notification from the commissioner or the director of the budget, the comptroller or a fiscal intermediary designated by the director of the budget shall withhold from the amount of any payment to be made by the state to a provider enumerated in paragraph (a) of this subdivision the amount of such arrearage resulting from such provider's failure to make a timely payment of the fee in accordance with the schedule promulgated by the commissioner. Upon withholding such amount, the comptroller or a designated fiscal intermediary shall pay the commissioner such amount withheld.

* NB (Effective pending Federal Government Ruling)

14. (a) Notwithstanding section one hundred twelve of the state finance law or any other provision of law to the contrary, the commissioner is authorized to establish a plan for the collection and

disbursement of clinical practice income resulting from the clinical practice of licensed health professionals employed by Roswell Park Cancer Institute.

(b) For the purposes of this subdivision the following words shall have the following meanings:

(i) "clinical practice" means providing all forms of medical and health care, including patient consultations, and performing clinical investigation involving patients, at or through Roswell Park Cancer Institute, for which acts a fee for professional service is customarily charged.

(ii) "clinical practice income" means the income from fees for services of licensed health professionals rendered in connection with clinical practice.

(iii) "clinical practice plan" means a facility-based plan established to provide for the management, including collection and disbursement, of clinical practice income, subject to direction by a facility-based governing board.

(c) The commissioner is authorized to promulgate such rules and regulations as may be necessary to implement the provisions of this subdivision. Such rules shall include, but not be limited to, criteria for participation in the clinical practice plan, including who contributes and who may receive income from the plan, the purposes for which such income may be disbursed, the maximum allowable compensation, the fringe benefits provided by the plan, provision for an accounting system for recording all receipts and disbursements of fees received, and provision for fiscal reports to the commissioner and an annual audit of such accounts by the state and/or an independent auditor.

Notwithstanding any law, rule or regulation to the contrary, the commissioner may determine the fringe benefits to be provided to the clinical practice plan members from clinical practice income and may authorize the expenditure of clinical practice income for this purpose or to supplement fringe benefits provided from state appropriations.

(d) Any clinical practice plan established pursuant to this subdivision shall not restrict the authority of the comptroller in paragraph (c) of subdivision two of section four hundred nine of this chapter to maintain at all times on deposit in the department of health

income fund established pursuant to section four hundred nine of this chapter the aggregate amount of money needed by the department during six calendar months to comply in full with all obligations of the department under the terms of every lease, sublease, or agreement of the department with the dormitory authority which is then in effect.

(e) Employees with a faculty appointment participating in a clinical practice plan at Roswell Park Cancer Institute established pursuant to subdivision fourteen of section two hundred six of this chapter who are eligible to participate in the New York state employees' retirement system may elect, within ninety days of becoming eligible to participate in such system, in lieu of participating in such system, to participate in the optional retirement program available to employees of the state university of New York pursuant to article eight-B of the education law, subject to the terms and conditions of that article and to the provisions of the retirement and social security law.

* 15. Notwithstanding any other provision of law to the contrary, the commissioner is authorized to establish a statewide in-line skate, skate board, and bicycle helmet public education and awareness program and a statewide in-line skate, skate board, and bicycle helmet distribution program. The purpose of the statewide in-line skate, skate board, and bicycle helmet public education and awareness program is to provide a plan for the coordination of county, city, town and village efforts to reduce in-line skate, skate board, and bicycle related injuries and fatalities. The purpose of the statewide in-line skate, skate board, and bicycle helmet distribution program is to provide a plan for the coordination of county, city, town and village efforts to distribute helmets to persons who can demonstrate an economic hardship that precludes them from purchasing such helmet. The commissioner shall make all necessary efforts to ensure that an in-line skate, skate board, and bicycle helmet distribution program is instituted in each county of the state. The commissioner is authorized to promulgate such rules and regulations as may be necessary to implement the provisions of this subdivision.

* NB There are 3 sub. 15's

* 15. (a) The commissioner shall promulgate rules and regulations which establish:

(i) procedures to review and approve rape crisis programs that provide

training to rape crisis counselors as defined in section four thousand five hundred ten of the civil practice law and rules;

- (ii) minimum training standards for rape crisis counselors;

- (iii) procedures to enable approved rape crisis programs to certify current and future rape crisis counselors, including volunteer counselors, provided such rape crisis counselors have met the minimum training standards as set forth in this subdivision; and

- (iv) procedures to periodically review approved training programs to assure they continue to satisfy established standards.

(b) Rape crisis programs approved by the commissioner shall provide training programs consisting of at least thirty hours of pre-service training and within the first year of service at least ten hours of in-service training for rape crisis counselors. This training shall include but not be limited to, instruction on the following:

- (i) the dynamics of sexual offenses, sexual abuses or incest;

- (ii) crisis intervention techniques;

- (iii) client-counselor confidentiality requirements;

- (iv) communication skills and intervention techniques;

- (v) an overview of the state criminal justice system;

- (vi) an update and review of state laws on sexual offenses, sexual abuse or incest;

- (vii) the availability of state and community resources for clients;

- (viii) working with a diverse population;

- (ix) an overview of child abuse and maltreatment identification and reporting responsibilities; and

- (x) information on the availability of medical and legal assistance for such clients.

(c) The department shall provide technical assistance to approved rape crisis programs to implement training programs in accordance with the minimum standards set forth in this subdivision.

* NB There are 3 sub. 15's

* 15. The commissioner is authorized to make grants and enter into contracts, as recommended by the state task force on clinical practice guidelines and medical technology assessment established pursuant to section twenty-eight hundred four-a of this chapter, for research and/or projects to promote the identification, evaluation, development and/or application of clinical practice guidelines and appropriate use of

medical technology, but in no way to direct or mandate the use of such guidelines or technology, to the extent of funds available therefor from the commissioner's priority distributions pursuant to subparagraph (ii) of paragraph (f) of subdivision nineteen of section twenty-eight hundred seven-c of this chapter. No grants or contracts executed pursuant to this section shall be for the purpose of developing clinical practice guideline based reimbursement methodologies or any other regulations. For the purposes of this subdivision, "clinical practice guidelines" shall mean systematically developed statements to assist physician and patient decisions about the appropriate health care for specific clinical circumstances, and "medical technology" shall mean an instrument or unit of equipment or technique for use as a health related treatment, testing or diagnostic tool.

* NB Expired June 30, 1996; There are 3 sub. 15's

16. The commissioner, in consultation with the commissioner of the department of motor vehicles, shall promulgate rules and regulations specifying the medical conditions based on health and safety which justify granting an exception to the requirements of subparagraphs one and two of paragraph (b) of subdivision twelve-a of section three hundred seventy-five of the vehicle and traffic law.

* 17. (a) The commissioner shall enter into an agreement with the commissioner of taxation and finance which shall set forth the procedures for the crediting of overpayments of tax owed to an individual taxpayer, estate or trust to the repayment of overpayments of medical assistance payments owed to the department or a social services district by such person pursuant to the provisions of section one hundred seventy-one-f of the tax law and is authorized to furnish to the commissioner of taxation and finance such information and to take such other actions as may be necessary to carry out the agreement provided for in such section, for the crediting of overpayments of tax to repayment of overpayments of medical assistance payments received by an individual who is or has been enrolled as a provider in the New York state medical assistance program as established under title eleven of article five of the social services law.

(b) The department shall by regulation establish procedures by which any individual, estate or trust which is the subject of a certification

to the department of taxation and finance in accordance with such agreement may contest such certification. Such regulations and the notice required by subdivision three of section one hundred seventy-one-f of the tax law shall set forth defenses which may be available to the individual, estate or trust to contest such certification and the manner in which a review of the certification based on such defenses may be obtained.

(c) In accordance with such agreement and the provisions of section one hundred seventy-one-f of the tax law, the department shall be entitled to receive payments to satisfy the payment obligation of a person who is receiving or has received payment as a provider in the New York state medical assistance program established under title eleven of article five of the social services law, in accordance with a written final determination of the department, provided that a proceeding for administrative or judicial review shall not be pending and the time for initiation of such proceedings shall be expired.

* NB There are 2 sub. 17's

* 17. The department, upon completion of a review of the existing scientific research regarding allergic reactions to natural rubber latex products, shall issue guidelines, in consultation with health care providers, for a latex management program, in health care settings.

* NB There are 2 sub. 17's

* 18. The commissioner is authorized and directed to promulgate rules and regulations to establish standards for water wells, including but not limited to drilling, construction, abandonment, repair, maintenance, water flow, including testing thereof, and pump standards for such wells.

* NB There are 2 sub. 18's

* 18. The commissioner, subject to the approval of the director of the budget, is authorized to approve and implement medicaid demonstration programs designed to provide additional knowledge and experience and to collect information concerning alternative methodologies for reimbursement, delivery of medical services, or eligibility for medical assistance in hospice operated nursing homes and is further authorized to waive such provisions of article twenty-eight of this chapter and title eleven of article five of the social services law as are necessary to implement such demonstration programs when such waiver will promote

the efficient delivery of appropriate, quality, cost-effective services and when the health, safety and general welfare of patients will not be impaired as a result of such waiver.

* NB There are 2 sub. 18's

18-a. Health information technology demonstration program. (a) (i) The commissioner is authorized to issue grant funding to one or more organizations broadly representative of physicians licensed in this state, from funds made available for the purpose of funding research and demonstration projects under subparagraph (ii) of this paragraph designed to promote the development of electronic health information exchange technologies in order to facilitate the adoption of interoperable health records.

(ii) Project funding shall be disbursed to projects pursuant to a request for proposals based on criteria relating to promoting the efficient and effective delivery of quality physician services. Demonstration projects eligible for funding under this paragraph shall include, but not be limited to:

- (A) efforts to incentivize electronic health record adoption;
- (B) interconnection of physicians through regional collaborations;
- (C) efforts to promote personalized health care and consumer choice;
- (D) efforts to enhance health care outcomes and health status generally through interoperable public health surveillance systems and streamlined quality monitoring.

(iii) The department shall issue a report to the governor, the temporary president of the senate and the speaker of the assembly within one year following the issuance of the grants. Such report shall contain, at a minimum, the following information: the demonstration projects implemented pursuant to this paragraph, their date of implementation, their costs and the appropriateness of a broader application of the health information technology program to increase the quality and efficiency of health care across the state.

* (b) The commissioner shall:

(i) post on its website by September first, two thousand fifteen and quarterly thereafter, information on the uses of funding in support of the Statewide Health Information Network of New York (SHIN-NY), including how such funds may be used to:

(A) support hospitals, physicians, and other providers in the achievement of federal meaningful use requirements;

(B) support DSRIP health information exchange and data requirements to help performing provider systems and the state meet DSRIP quality goals; and

(C) increase participation in regional health information organizations by providers at reasonable costs to the providers; and

(ii) convene a workgroup to:

(A) evaluate the state's health information technology infrastructure and systems, as well as other related plans and projects designed to make improvements or modifications to such infrastructure and systems including, but not limited to, the all payor database (APD), the state planning and research cooperative system (SPARCS), regional health information organizations (RHIOs), the statewide health information network of New York (SHIN-NY) and medical assistance eligibility systems; and

(B) develop recommendations for the state to move toward a comprehensive health claims and clinical database aimed at improving quality of care, efficiency, cost of care and patient satisfaction available in a self-sustainable, non-duplicative, interactive and interoperable manner that ensures safeguards for privacy, confidentiality and security;

(iii) submit an interim report to the governor, the temporary president of the senate and the speaker of the assembly, which shall detail the concerns and issues associated with establishing the state's health information technology infrastructure considered by the workgroup, on or before December first, two thousand fourteen; and

(iv) submit a report to the governor, the temporary president of the senate and the speaker of the assembly, which shall fully consider the evaluation and recommendations of the workgroup, on or before December first, two thousand fifteen.

* NB Effective until March 31, 2029

* (b) The commissioner shall make such rules and regulations as may be necessary to implement federal policies and disburse funds as required by the American Recovery and Reinvestment Act of 2009 and to promote the development of a statewide health information network of New York (SHIN-NY) to enable widespread interoperability among disparate health

information systems, including electronic health records, personal health records and public health information systems, while protecting privacy and security. Such rules and regulations shall include, but not be limited to, requirements for organizations covered by 42 U.S.C. 17938 or any other organizations that exchange health information through the SHIN-NY.

* NB Effective March 31, 2029

(c) The members of the workgroup shall include, at a minimum, three members who represent RHIIOs, two members employed by the department who are involved in the development of the SHIN-NY and the APD, two members who represent physicians, two members who represent hospitals, two members who represent home care agencies, one member who represents federally qualified health centers, one member who represents county health commissioners, the chair of the senate health committee or his or her designee, the chair of the assembly health committee or his or her designee, and other individuals with expertise in matters relevant to the charge of the workgroup.

* (d) The commissioner may make such rules and regulations as may be necessary to implement federal policies and disburse funds as required by the American Recovery and Reinvestment Act of 2009 and to promote the development of a self-sufficient SHIN-NY to enable widespread, non-duplicative interoperability among disparate health information systems, including electronic health records, personal health records, health care claims, payment and other administrative data, and public health information systems, while protecting privacy and security. Such rules and regulations shall include, but not be limited to, requirements for organizations covered by 42 U.S.C. 17938 or any other organizations that exchange health information through the SHIN-NY or any other statewide health information system recommended by the workgroup. If the commissioner seeks to promulgate rules and regulations prior to issuance of the report identified in subparagraph (iv) of paragraph (b) of this subdivision, the commissioner shall submit the proposed regulations to the workgroup for its input. If the commissioner seeks to promulgate rules and regulations after the issuance of the report identified in such subparagraph (iv) then the commissioner shall consider the report and recommendations of the workgroup. If the commissioner acts in a manner inconsistent with the input or recommendations of the workgroup,

he or she shall provide the reasons therefor.

* NB Effective until March 31, 2029

* 19. The commissioner is authorized and directed to promulgate rules and regulations as may be necessary, with respect to the form and content of applications for licenses, the fees to be charged for obtaining licenses, permits, duplicates and renewals, the reception thereof, the investigation and examination of applicants and of prospective applicants taking examinations and their qualifications, the inquiry into the operation of body piercing or tattooing studios and the conducting of periodic inspection of facilities to determine compliance by the tattoo or body piercing studio with applicable statutes, rules and regulations, appropriate penalties for failure to abide by rules and regulations promulgated pursuant to this article, and additional visits that may be made to tattoo or body piercing studios to determine whether violations or deficiencies have been corrected, to investigate any complaint, and for any other purposes deemed necessary and appropriate by the commissioner. Such regulations shall include, but not be limited to, the hygienic requirements for sterilization of sharps, needles, and other supplies and equipment, the general cleanliness of the body piercing studio or tattoo studio, the disposal of each sharp and other single use supplies after use on one customer, the proper disposal of contaminated supplies and equipment, and other matters incidental or appropriate to the powers and duties of the commissioner as prescribed by this subdivision and for the proper administration and enforcement of the provisions of this subdivision to ensure the health, safety and welfare of the public.

* NB There are 2 sub. 19's

* 19. (a) The commissioner shall ensure that any contracts entered into, renewed, extended, modified or in any way made or continued with entities pursuant to article twenty-eight of this chapter to receive, distribute and otherwise administer funds for the pools specified in this subdivision, require such pool administrators to submit directly to the temporary president of the senate and the speaker of the assembly quarterly reports on the collection, pooling and distribution of funds pursuant to the following sections of this chapter:

(i) paragraph (a) of subdivision eighteen of section twenty-eight hundred seven-c of this chapter, providing for a one percent assessment

on hospital revenues;

(ii) section twenty-eight hundred seven-j, establishing allowances on net patient service revenues;

(iii) section twenty-eight hundred seven-k, establishing the general hospital indigent care pool;

(iv) section twenty-eight hundred seven-l, establishing the health care initiatives pool;

(v) section twenty-eight hundred seven-m, establishing regional professional education pools;

(vi) section twenty-eight hundred seven-s, establishing professional education pool funding;

(vii) section twenty-eight hundred seven-t, establishing assessments on covered lives; and

(viii) section twenty-eight hundred seven-v, establishing tobacco control and insurance initiatives pool.

The commissioner shall assist such pool administrators, as necessary, in the fulfillment of this requirement.

(b) Reports filed pursuant to paragraph (a) of this subdivision shall, at a minimum, for each quarterly period

(i) profile, as of the end of each quarter and based on the available data, all revenue collected pursuant to each source specified in subparagraphs (i), (ii), (vi) and (vii) of paragraph (a) of this subdivision, as well as revenue collected for deposit into the pools specified in subparagraph (viii) of such paragraph, further reported, as applicable, according to each category of payer, including, but not limited to, medical assistance, private insurance, employer benefit plans, workers' compensation, no-fault, cigarette taxes, tobacco settlement funds, and the public asset established pursuant to sections four thousand three hundred one and seven thousand three hundred seventeen of the insurance law;

(ii) profile, as of the end of each quarter and based on the available data, aggregate revenue, by source, deposited for the quarter, into each pool specified in subparagraphs (iii), (iv), (v), and (viii) of paragraph (a) of this subdivision as well as the fund balances for each such pool as of the end of each quarter; and

(iii) profile, as of the end of each quarter and based on the

available data, every disbursement from each pool specified in subparagraphs (iii), (iv), (v) and (viii) of paragraph (a) of this subdivision, further reported, as applicable, according to and indicative of each allocation specified for such pool, and further reported according to and indicative of each recipient of funds from each such allocation, except allocations made pursuant to subparagraph (iii) of paragraph (c) of subdivision one of section twenty-eight hundred seven-1 of this chapter, and further indicative of the status of funding for each such recipient.

(c) The reports required by paragraph (a) of this subdivision shall cover the periods January through March, April through June, July through September and October through December and shall be submitted no later than forty-five days following the last day of the quarterly period covered by the report. Reports shall be submitted in both written and electronic form.

(d) The commissioner shall also ensure that any such contracts require such entities, beginning August first, two thousand three and no later than the twelfth day of each month thereafter, to report to the comptroller in an electronic and written format the beginning pool balances, receipts collected by source, the disbursements made by purpose, the amount and nature of any transfers made among such pools, and the ending pool balances for the pools described in subparagraphs (i), (ii) and (iii) of paragraph (b) of this subdivision and at the same level of specificity required by such paragraph. The comptroller shall include such information in the monthly report required by subdivision nine-a of section eight of the state finance law. Any additional expenses incurred by the entity as a result of this paragraph shall be borne by the department of health.

* NB There are 2 sub. 19's

20. The commissioner shall, in consultation with the superintendent of state police, promulgate, by regulation, a list of "select chemical agents" which shall consist only of those toxic chemicals which have been identified, as of the effective date of this subdivision, for the application of verification measures under article VI of the convention on the prohibition of the development, production, stockpiling and use of chemical weapons and on their destruction, opened for signature on

January thirteenth, nineteen hundred ninety-three, in schedules contained in the annex to said convention. The commissioner may, from time to time, promulgate regulations amending said list in the event that the schedules contained in the annex to the convention are amended, revised, modified or repealed, so that the list of select chemical agents promulgated pursuant to this subdivision conforms in whole or in part to any such amended, revised, modified or repealed list, if the commissioner determines that any such amendment, revision, modification or repeal is consistent with the purposes of this chapter.

* 21. The commissioner shall, in consultation with the superintendent of state police, promulgate, by regulation, a list of "select biological agents" which shall consist only of those select biological agents which have been identified, as of the effective date of this subdivision, by the United States Secretary of Health and Human Services and placed on the select agent list established pursuant to section 511 (d) of the Antiterrorism and Effective Death Penalty Act, Pub. L. 104-132 at 42 C.F.R. Part 72. The commissioner may, from time to time, promulgate regulations amending said list in the event that the list of select biological agents promulgated by federal regulations is amended, revised, modified or repealed, so that the list of select biological agents promulgated pursuant to this subdivision conforms in whole or in part to any such amended, revised, modified or repealed list, if the commissioner determines that any such amendment, revision, modification or repeal is consistent with the purposes of this chapter.

* NB There are 2 sub 21's

* 21. The commissioner shall make the information developed pursuant to section five hundred forty-four of the executive law available through, but not limited to, the department's website and written materials available to the public.

* NB There are 2 sub 21's

22. The commissioner shall provide information and technical assistance concerning the drug discount program authorized by section 340B of the federal public health service act (42 U.S.C § 256b) to:

(a) covered entities, as defined in section 340B of the public health service act, to facilitate their participation in such drug discount program; and

(b) local government officials, regarding the benefits of the drug discount program and the process of accessing discounted drugs under the program on behalf of individuals whose prescription drug costs are borne by local government, including but not limited to residents of county-operated nursing homes.

23. Pursuant to subdivision six of section two hundred two of the state administrative procedure act, on an emergency basis and upon a finding by the commissioner of an immediate threat to the public safety, the commissioner is authorized to remove a drug, procedure or supply whose primary purpose is to enhance or facilitate sexual performance from: (a) the definition of medical assistance established pursuant to section three hundred sixty-five-a of the social services law, (b) the definition of health care services covered by the family health plus program established pursuant to section three hundred sixty-nine-ee of the social services law, (c) the definition of covered health services established pursuant to subdivision seven of section twenty-five hundred ten of this chapter, or (d) the list of prescription drugs covered by the program for elderly pharmaceutical insurance coverage (EPIC) established pursuant to title three of article two of the elder law, or to otherwise restrict the criteria for payment for such drug, procedure or supply, by the medicaid, family health plus, child health plus, or EPIC programs, for those persons required to register as sex offenders pursuant to article six-C of the correction law.

* 24. Notwithstanding any inconsistent provision of law to the contrary, the commissioner is authorized to receive applications and to determine initial and continuing eligibility for enrollment under the child health plus program established under title I-A of article twenty-five of this chapter, the medical assistance program established under title eleven of article five of the social services law, and the family health plus program established under title eleven-D of such article. The commissioner may exercise such authority with respect to all residents, or a subset of residents, of one or more local social services districts. The commissioner is authorized to enter into one or more contracts, which contracts shall be procured on a competitive basis pursuant to a request for proposal process, for the purpose of exercising his or her authority under this subdivision. State employees

shall supervise and provide oversight and quality assurance monitoring of contract staff activities. Provided further, the department shall endeavor to use state employees in exercising the commissioner's authority under this subdivision.

* NB There are 2 sb 24's

* 24. The commissioner shall have the authority to correct errors on marriage certificates maintained by the department pursuant to paragraph (e) of subdivision one of this section upon request of any applicant whose name appears thereon for a certificate of marriage where:

(a) such error was not the result of any intended fraud, deception or attempt to avoid the effect of any valid law, regulation or statute; and

(b) either party to the marriage provides proof, satisfactory to the commissioner, of the accuracy of the facts presented in support of correcting the error.

To effectuate such correction and provide certified copies of the amended certificate, the commissioner shall be entitled to a fee not exceeding ten dollars. The commissioner shall forward a copy of such amended certificate to the clerk of the town or city which issued such certificate.

* NB There are 2 sb 24's

25. (a) In assessing and reporting on the impact of section sixty-eight hundred one of the education law, pursuant to subdivision four of such section the commissioner may use: (1) influenza vaccine supply data from the federal centers for disease control and prevention; (2) pneumococcal vaccine supply data provided by manufacturers and distributors of such vaccine; and (3) data from a third party entity that engages in the collection of data and tracking of pharmaceutical sales and distribution. Manufacturers and distributors of pneumococcal vaccine shall provide or arrange for the timely provision to the commissioner of such data as the commissioner may reasonably request to complete the report. Provider and customer identifiable information submitted pursuant to this paragraph shall be confidential, unless the information provider consents to its release or the commissioner determines disclosure is necessary to respond to an imminent public health emergency.

(b) Notwithstanding the provisions of paragraph (a) of this subdivision, the commissioner may require reporting by entities licensed pursuant to article twenty-eight or thirty-six of this chapter, pharmacies registered pursuant to article one hundred thirty-seven of the education law, manufacturers and distributors of adult immunizing agents doing business in this state, and others possessing such adult immunizing agents of additional information needed to respond to an imminent public health emergency.

26. The commissioner is hereby authorized and directed to review any policy or practice instituted in facilities operated by the department of corrections and community supervision, and in all local correctional facilities, as defined in subdivision sixteen of section two of the correction law, regarding human immunodeficiency virus (HIV), acquired immunodeficiency syndrome (AIDS), hepatitis C (HCV), and COVID-19, including the prevention of the transmission of and the treatment of such infections and diseases among incarcerated individuals. Such review shall be performed at least annually, and shall focus on whether such policy or practice is consistent with current, generally accepted medical standards and procedures used to prevent the transmission of and to treat those infections and diseases among the general public. In performing such reviews, in order to determine the quality and adequacy of care and treatment provided, department personnel are authorized to enter correctional facilities and inspect policy and procedure manuals and medical protocols, interview health services providers and incarcerated individual-patients, review medical grievances, and inspect a representative sample of medical records of incarcerated individuals known to be infected with any such infections or diseases. Prior to initiating a review of a correctional system, the commissioner shall inform the public, including patients, their families and patient advocates, of the scheduled review and invite them to provide the commissioner with relevant information. Upon the completion of such review, the department shall, in writing, approve such policy or practice as instituted in facilities operated by the department of corrections and community supervision, and in any local correctional facility, or, based on specific, written recommendations, direct the department of corrections and community supervision, or the authority

responsible for the provision of medical care to incarcerated individuals in local correctional facilities to prepare and implement a corrective plan to address deficiencies in areas where such policy or practice fails to conform to current, generally accepted medical standards and procedures. The commissioner shall monitor the implementation of such corrective plans and shall conduct such further reviews as the commissioner deems necessary to ensure that identified deficiencies in those policies and practices are corrected. All written reports pertaining to reviews provided for in this subdivision shall be maintained, under such conditions as the commissioner shall prescribe, as public information available for public inspection.

27. The commissioner shall promulgate regulations to require that a manufacturer or other entity selling, leasing, or otherwise providing any drug, device, or health care service shall not, directly or indirectly, establish as a condition for the use by a dentist of such drug, device, or health care service that the dentist meet any quota for the number of patients on whom the dentist uses the drug, device, or health care service and that a dentist shall not, directly or indirectly, request or receive from any manufacturer or other entity a drug, device, or health care service having a condition that the dentist meet any quota for the number of patients on whom the dentist uses the drug, device, or health care service.

28. The commissioner shall assist the commissioner of education in developing rules and regulations, relating to pupils who suffer mild traumatic brain injuries and the physicians and nurse practitioners authorized to evaluate such pupils, in accordance with subdivision forty-two of section three hundred five of the education law, and provide for the posting on the department's internet website of such information as shall be required pursuant to such subdivision.

* 30. The commissioner shall notify the commissioner of education in any instance in which a registered professional nurse engages in improper behavior while supervising an advanced home health aide pursuant to subdivision two of section sixty-nine hundred eight of the education law.

* NB Repealed March 31, 2029

31. The commissioner shall develop information, in conjunction with the commissioner of education related to students who exhibit signs or symptoms of pending or increased risk of sudden cardiac arrest. Such information shall include, but not be limited to, the definition of sudden cardiac arrest, signs and symptoms of sudden cardiac arrest, and information for the physicians and nurse practitioners authorized to evaluate whether a student may resume athletic activity. Such information shall be posted on the department's website.

§ 206-a. Discrimination in hospital staff appointments and privileges prohibited. 1. It shall be an unlawful discriminatory practice for the governing body of a hospital

a. To deny to or to withhold from a physician, dentist or podiatrist staff membership or professional privileges in a hospital because of his participation in any medical group practice, non-profit health insurance plan, or comprehensive health services plan offered by a health maintenance organization authorized by the laws of the state; or

b. To exclude or to expel a physician, dentist or podiatrist from staff membership or to curtail, terminate or diminish in any way a physician's, dentist's or podiatrist's professional privileges in a hospital because of his participation in any medical group practice, non-profit health insurance plan, or comprehensive health services plan offered by a health maintenance organization authorized by the laws of the state.

2. Any person claiming to be aggrieved by an unlawful discriminatory practice defined by this section may, by himself or his attorney, make, sign and file with the commissioner a verified complaint in writing which shall state the name and address of the hospital whose governing body is alleged to have committed the unlawful discriminatory practice complained of and which shall set forth the particulars thereof and contain such other information as may be required by the commissioner.

3. After the filing of any such complaint, the commissioner shall designate a deputy commissioner or other officer of the department to make a prompt investigation in connection therewith; and if such designee shall determine after investigation that probable cause exists for crediting the allegations of the complaint, he shall immediately endeavor to eliminate the unlawful discriminatory practice by conference, conciliation and persuasion.

4. In case of a failure so to eliminate such practice, or in advance thereof as in his judgment circumstances so warrant, the commissioner shall cause to be issued a written notice together with a copy of the complaint, as the same may have been amended, requiring each member of the governing body of the hospital in question (or such member or members thereof as in his judgment are warranted), hereinafter sometimes referred to as respondent, to answer charges of such complaint at a hearing before him (or before a deputy commissioner or other officer of the department other than the designee who investigated the complaint), hereinafter referred to as hearing officer, at a time and place to be specified in such notice.

5. The respondent may file a written verified answer to the complaint and appear at such hearing in person or otherwise with or without counsel and submit testimony.

6. If, upon all the evidence at the hearing, the hearing officer shall find that a respondent has engaged in any unlawful discriminatory practice defined in this section, the hearing officer shall state his findings of fact and the commissioner shall issue and cause to be served on such respondent an order requiring such respondent to cease and desist from such unlawful discriminatory practice.

7. If, upon all the evidence at the hearing, the hearing officer shall find that a respondent has not engaged in any unlawful discriminatory practice defined in this section, the hearing officer shall state his findings of fact and the commissioner shall issue and cause to be served on the complainant an order dismissing the said complaint as to such respondent.

8. The commissioner shall establish rules of practice to govern, expedite and effectuate the foregoing procedure and the actions to be taken thereunder.

9. Any complaint filed pursuant to this section must be so filed within ninety days after the alleged act of discrimination.

10. Any complainant, respondent or other person aggrieved by such order of the commissioner may obtain judicial review thereof, and the commissioner may obtain an order of court for its enforcement, in a proceeding as provided in this subdivision. Such proceeding shall be brought in the supreme court of the state within any county wherein the unlawful discriminatory practice which is the subject of the commissioner's order occurs or wherein any person required in the order to cease and desist from a unlawful discriminatory practice resides or transacts business. The findings of the hearing officer as to the facts shall be conclusive if supported by substantial evidence on the record considered as a whole. All such proceedings shall be heard and determined by the court and any appellate court as expeditiously as possible and with lawful precedence over other matters.

11. The following words, as used in this section, shall have the following meanings unless the context otherwise requires:

a. "Governing body" means the group or the individual ultimately responsible for a hospital's general policies with respect to staff membership and professional privileges and shall include, but not limited to, a board of trustees, a board of directors, a board of governors, a board of managers, a medical board, a director or any other official of a hospital with comparable responsibilities.

b. "Hospital" means an institution for the care and treatment of the sick and injured, equipped with the technical facilities, medical, nursing and other professional and technical personnel necessary for diagnosis and treatment of persons suffering from sickness or injury which requires bed care.

c. "Medical group practice" means the practice of medicine by physicians as partners or in groups with fees and moneys received for professional services furnished by any individual physician, member or employee of such partnership or group pooled and redistributed in accordance with a partnership or other agreement.

d. "Non-profit health insurance" means insurance issued by a non-profit medical expense indemnity corporation in accordance with article forty-three of the insurance law.

e. "Health maintenance organization" means such organization as defined in article forty-four of this chapter.

f. "Comprehensive health services plan" means such plan as defined in article forty-four of this chapter.

§ 206-b. Special requirements with respect to Lyme disease diagnosis.

1. Within thirty days after the effective date of this section, the commissioner shall, in writing, order every physician practicing in Suffolk, Westchester and Nassau counties to review the medical records of any patient such physician treated during the period commencing January first, nineteen hundred seventy-five and ending on the date of such order wherein such physician made a diagnosis of juvenile rheumatoid arthritis and to review the circumstances of such diagnosis to reconsider whether such patient has suffered, or is suffering, from the complex, multi-system disorder caused by the bacterium *Borrelia burgdorferi*, which disease is transmitted by the *Ixodes dammini* tick and is commonly referred to as "Lyme disease". In any case where a hospital or other health care institution or provider has custody or control of the medical records for a patient so diagnosed, upon request such physician shall be entitled to review such medical records for purposes of complying with such order or the commissioner may order any such hospital or other health care institution or provider wherever situated within the state to review such records to reconsider a diagnosis of Lyme disease.

2. The commissioner, upon a showing that there is a reasonable basis to believe that the order provided for herein has not been complied with, shall be entitled to apply to a justice of the supreme court for an order requiring any such physician to submit for the commissioner's consideration such records, charts or other pertinent data which will enable him to determine whether there has been full compliance with such order.

3. In any case where a review of such records indicates that a patient may have been, or is, suffering from Lyme disease, such physician shall, consistent with customary and acceptable medical standards, take such action he deems necessary to inform such patient or in the case of a minor, his or her parent or guardian of his findings, conduct additional tests, administer other necessary treatments or refer such patient to another physician for further diagnosis and/or treatment.

§ 207. Health care and wellness education and outreach program. 1.

There is hereby created within the department the health care and wellness education and outreach program. The department may conduct education and outreach programs for consumers, patients, educators, including but not limited to elementary and secondary school educators, and health care providers relating to any health care matters the commissioner deems appropriate and:

(a) Various health conditions, diseases and health care procedures and treatment options, including but not limited to those for breast, cervical, colorectal, prostate, testicular, skin, and ovarian cancer, shaken baby syndrome, reflex sympathetic dystrophy syndrome and post-polio sequelae.

(b) Recommended preventative and wellness practices and services, including evidence based age and gender appropriate testing and screening exams and immunization schedules.

(c) Lymphedema and lymphatic disease, an abnormal swelling of the extremities including the causes, symptoms of primary lymphedema, secondary lymphedema and lymphatic disease, prevention, early diagnosis, options for treatment and therapy, long-term chronic care issues, the

value of early detection, possible options for treatment including their benefits and risks, and other relevant information and the recommendation that hospitals treating breast cancer patients implement a lymphedema alert program by placing a bright pink wristband on the patient's affected arm. Links to national lymphedema and lymphatic disease organizations shall be provided as part of the informational summary and electronically through the department's websites.

(d) The need for and importance of organ and tissue donation, including living donation, including information about being registered as an organ and tissue donor and executing documents of gift under article forty-three of this chapter; and information to increase patient understanding about the medical option of transplant and its desirability. The department shall consult with the transplant council on the production of any such information and ensure that such information is culturally and linguistically appropriate for all recipients.

(e) The commissioner shall establish a statewide advance care planning campaign to:

(i) promote public awareness of hospice and palliative care services; and palliative care options for patients with a terminal illness or condition;

(ii) inform the public of the importance of advance care planning and the individual's right to direct and participate in health care decisions affecting the individual;

(iii) educate individuals on the tools available to ensure their health care decisions are honored; and

(iv) the need and importance for consumers and patients to have an advance directive, particularly a health care proxy, and the need and importance for health care providers to play a leadership role in discussing end-of-life care preferences and values with patients and to provide patients with health care proxy forms.

(f) Uterine fibroids, an abnormal growth that occurs in the uterus, including the causes and symptoms of uterine fibroids, the value of early detection, possible options for treatment including their benefits and risks, information on the elevated risk for minority women and other relevant information.

(g) Improving birth outcomes, including the importance of

preconceptional care, early prenatal care, considerations of health risks during pregnancy, considerations of benefits and risks of labor and delivery options including, but not limited to, vaginal and cesarean section delivery, elective or repeat cesarean sections, and appropriate use of drugs during delivery. There shall also be education and outreach concerning spina bifida, a permanently disabling birth defect occurring at the end of the first month of pregnancy which involves the incomplete development of the spinal cord or its coverings, and the importance of encouraging all women in their child-bearing years to increase their folic acid intake in order to reduce the incidence of spina bifida.

* (h)(i) Down syndrome including up-to-date and evidence-based information about Down syndrome, not limited to the following:

(1) expected physical, developmental, educational, and psychosocial outcomes;

(2) life expectancy;

(3) the clinical course description;

(4) expected intellectual and functional development;

(5) available intervention or treatment options;

(6) information hotlines specific to Down syndrome;

(7) relevant resource centers or clearinghouses;

(8) national and local Down syndrome organizations; and

(9) any other information the department deems necessary.

Such information shall be provided electronically through the department's website.

(ii) The commissioner shall (1) examine and utilize existing practices to ensure that the information provided under subparagraph (i) of this paragraph is culturally and linguistically appropriate for all recipients; and (2) meet with representatives from the Down syndrome community as necessary to ensure such information is current.

* NB There are 3 par (h)'s

* (h) Drug-induced movement disorders, including the importance of screening for and identifying symptoms of drug-induced movement disorders, treatment for drug-induced movement disorders, and information on methods by which the stigma experienced by people living with drug-induced movement disorders related to the treatment of mental health conditions may be reduced or eliminated. Any such educational

materials disseminated to healthcare providers shall be developed in consultation with the commissioner of the office of mental health, disseminated by the department in coordination with relevant healthcare provider groups, and shall include best practices for the treatment and screening of movement disorders informed by the American Psychiatric Association and other professional society practice guidelines.

* NB There are 3 par (h)'s

* (h) Births of infants with congenital heart defects, including treatment recommendations, and any other information the commissioner deems appropriate.

* NB There are 3 par (h)'s

(i) About the short term and long term adverse health risks to adults and children who become overweight, obese or underweight. The information shall include, but need not be limited to providing citations to the department's website, as well as any other websites providing information on the subject.

* (j) Maternal depression, including information about education, screening, referral services, and possible options for treatment.

* NB There are 2 par (j)'s

* (j) The eating disorders awareness and prevention program shall be designed to promote the awareness of eating disorders and available services, as well as to prevent and reduce the incidence and prevalence of eating disorders, especially among children and adolescents.

* NB There are 2 par (j)'s

* (k) Donating umbilical cord blood to a public cord blood bank.

* NB There are 3 par (k)'s

* (k) The availability of individual, family and group counseling programs, education programs, and advocacy services provided at no cost by governmental agencies and not-for-profit organizations for victims of any sexual offense which constitutes a crime and for victims of child pornography promotion or possession.

* NB There are 3 par (k)'s

* (k) The physical, sexual and psychological consequences of undergoing female genital mutilation, including the practice of "vacation cutting" whereby girls are sent out of state or the country to undergo female genital mutilation, typically during school vacations.

* NB There are 3 par (k)'s

(l) The dangers of women's cancers, including ways to prevent and severity of such diseases. For purposes of this paragraph, women's cancers shall mean and include: cervical, endometrial, gestational trophoblastic tumor, ovarian, uterine sarcoma, vaginal, and vulvar.

* (m) A Lyme disease and tick-borne infection awareness and prevention program designed to promote the awareness and prevention methods against Lyme disease and tick-borne infections. Such information shall include but not be limited to guidelines and methods of prevention, including the safe use of recommended insect repellents, the best practices for tick removal, recommendations for the reduction of exposure to ticks and appropriate course of action once a tick is removed from the body.

* NB There are 3 par (m)'s

* (m) The department shall conduct such a program relating to breast density, which shall include, but not be limited to, educational information regarding the meaning and potential health consequences of having dense breast tissue, the impact of dense breast tissue on mammographic screening for breast cancer and supplemental breast cancer screening techniques, and provide access to other educational websites regarding dense breast tissue and literature regarding risk factors.

* NB There are 3 par (m)'s

* (m) Lupus, a debilitating autoimmune disease that can cause inflammation and tissue damage to virtually any organ system in the body, including the skin, joints, other connective tissue, blood and blood vessels, heart, lung, kidney and brain, and which affects women, particularly women of color, in a disproportionate manner; provided that the program shall include an advisory council under this section that shall include representatives of people with lupus and their families and health care providers who specialize in treating lupus, among others.

* NB There are 3 par (m)'s

(n) Pediatric acute-onset neuropsychiatric syndrome, a clinical diagnosis given to children who have a sudden and dramatic onset of neuropsychiatric symptoms including obsessive compulsive disorder and/or eating disorder, and which may cause affected children to become moody, irritable and anxious, and to have difficulty with schoolwork. Provided that such program shall include an advisory council under this section that shall include representatives of people with pediatric acute-onset

neuropsychiatric syndrome and their families and health care providers who specialize in treating such syndrome, among others.

(o) For women who may become pregnant, expectant parents and parents of infants, information regarding:

(i) the incidence of cytomegalovirus;

(ii) the transmission and risks of cytomegalovirus to pregnant women and women who may become pregnant;

(iii) birth defects caused by congenital cytomegalovirus;

(iv) methods of diagnosing congenital cytomegalovirus;

(v) the available preventive measures to avoid the infection of women who are pregnant or may become pregnant; and

(vi) available methods of treating cytomegalovirus and resources available for families of children born with cytomegalovirus.

* (p) Reproductive health conditions that affect female fertility, including but not limited to polycystic ovary syndrome, endometriosis, and pelvic inflammatory disease.

* NB There are 3 par (p)'s

* (p) Postnatal donation of tissue and fluids.

* NB There are 3 par (p)'s

* (p) Preeclampsia, including information about detection, risk factors and management, and possible options for treatment.

* NB There are 3 par (p)'s

(q) Myalgic encephalomyelitis/chronic fatigue syndrome ("ME/CFS"), a multi-system disease associated with neurological, immunological and energy metabolism impairment characterized by long-standing and debilitating fatigue.

* (r) For those who are experiencing pregnancy loss or infant loss, which shall for the purposes of this paragraph include but not be limited to, miscarriage, stillbirth, or termination for medical reasons, information regarding:

(i) the potential mental and physical impact from such loss; and

(ii) resources for support and follow-up care.

* NB There are 4 par (r)'s

* (r) The physical, sexual, and psychological impact of medical procedures performed on intersex individuals, including those who have not themselves consented to the procedure; provided that the department shall consult with appropriate stakeholders, including, but not limited

to intersex persons, intersex-led organizations, and their chosen advocates, while developing this outreach program.

- * NB There are 4 par (r)'s

- * (r) Sickle cell disease including but not limited to screening, prevention, and treatment information. The department, through the health equity council pursuant to section two hundred forty-three of this article, or a successor council, shall consult with patients with sickle cell disease and their families and health care providers specializing in treating sickle cell disease, among others, in the production of any such information.

- * NB There are 4 par (r)'s

- * (r) Alzheimer's disease and other related dementias; including identification of dementia in health care facilities including but not limited to hospitals, nursing homes, clinics and assisted living facilities; community support services, including caregiver support groups and services, respite, and care management; and resources and information concerning Alzheimer's disease and any other dementia related matters that the commissioner deems appropriate.

- * NB There are 4 par (r)'s

- * (s) Promoting public awareness of the dangers of fatal and non-fatal drowning, including but not limited to the unique risk factors and exposures associated with infant and early drowning, childhood and teenage drowning and adult drowning, the disparate risk of drowning in disadvantaged communities identified pursuant to section 75-0111 of the environmental conservation law and with individuals with a mental disability as defined by subdivision three of section 1.03 of the mental hygiene law, and methods to reduce the risks of drowning, including but not limited to water safety instruction, swim lessons, and awareness of water based risks.

- * NB There are 2 par (s)'s

- * NB Effective June 1, 2025

- * (s) The importance of good oral health, including but not limited to, the impact of oral disease, causes of oral disease and its prevention, oral health across the lifespan, the total body connection, the value of early detection and the availability of oral health services in the community.

- * NB There are 2 par (s)'s

2. Programs under this section, dealing with one or more subjects, may include but not be limited to any of the following elements:

- (a) educational and informational materials in print, audio, visual, electronic or other media;
- (b) public service announcements and advertisements; and
- (c) establishment of toll-free telephone hotlines and electronic services to provide information.

3. The department may produce, make available to others for reproduction, or contract with others to develop such materials mentioned in this section as the commissioner deems appropriate. These materials shall be made available to the public and to educators, including but not limited to elementary and secondary school educators free of charge as appropriate or for a fee under certain circumstances. The commissioner may require where appropriate any health care provider to make these materials available to patients.

4. In exercising any of his or her powers under this section, the commissioner may consult with appropriate health care professionals, providers, consumers, educators and patients or organizations representing them.

5. The commissioner shall ensure that all information and materials produced pursuant to this section are maintained and updated to reflect best practice recommendations.

6. The commissioner may appoint as appropriate advisory councils relating to various matters that are or are proposed to be the subjects of programs under this section. All such councils shall include representation of health care professionals, providers, educators, consumers, patients and other appropriate interests. The members of the councils shall receive no compensation for their services, but shall be allowed their actual and necessary expenses incurred in performance of their duties.

7. In addition to state funds appropriated for programs under this

section, the commissioner may accept grants from public or private sources for these programs. The commissioner, in administering this section, shall seek to coordinate the department's programs with other public and private programs, and may undertake joint or cooperative programs with other public or private entities, including making grants (within amounts appropriated therefor and consistent with applicable law) to public or not-for-profit entities.

8. The commissioner may make rules and regulations necessary and appropriate for implementation of this section.

§ 207-a. Tick-borne diseases and blood-borne pathogen impact study. 1. The department, in conjunction with the commissioner of mental health, shall issue a report examining the mental health impacts of tick-borne diseases and blood-borne pathogens on mental illness rates in endemic areas of the state. Such report shall include but not be limited to:

(a) Considerations of how Lyme, tick-borne illnesses, and other blood-borne pathogens or vector-borne diseases may have correlations with mental illness in infected individuals;

(b) Populations at-risk including those individuals with occupations outdoors and/or increased exposure to vectors;

(c) Diagnostic indicators of mental illness that can be used as guidance for healthcare providers and mental health practitioners;

(d) Historical considerations of infection rates and mental illness indicators that may have gone undiagnosed or misdiagnosed in endemic areas; and

(e) Recommendations for intervention and coordinated care for individuals who exhibit mental illness symptoms as well as those who have both physical and mental health indicators.

2. Such report shall be submitted to the temporary president of the senate and the speaker of the assembly no later than October first, two thousand twenty-two. The department and the commissioner of mental health may engage stakeholders in the compilation of the report, including but not limited to, medical research institutions, health care practitioners, mental health providers, county and local government, and

advocates.

§ 208. Deputy commissioners; appointment; qualifications and duties.

1. The commissioner shall appoint and at pleasure remove a first deputy commissioner and such other deputy commissioners as he shall deem necessary for the proper organization and general classification of the work of the department.

2. The first deputy commissioner shall be a physician licensed or eligible for license to practice medicine and surgery in this state, and who shall have been actively engaged in the practice of his profession for a period of at least five years.

3. The deputy commissioners shall perform such duties as shall be prescribed by the commissioner.

§ 209. Deputy commissioners; compensation. The commissioner shall fix the compensation of deputy commissioners within the amount appropriated therefor by the legislature.

§ 210. Officers and employees; appointment. The commissioner shall appoint such assistant commissioners, officers and other assistants as are necessary for the proper performance of the powers and duties of the department.

§ 211. Training. The commissioner may, within the appropriation allowed therefor, provide suitable training for personnel engaged in or to be engaged in the maintenance or improvement of public health in the state.

§ 211-a. Continuation of salaries of employees of the department while receiving training. The commissioner may, within the amounts

appropriated therefor, continue the salaries, in full or in part, of employees of the department and the institutions in the department while such employees are absent from their regular duties and are receiving training for the better performance of duties, provided that no such compensation shall be so continued to a greater extent than will reimburse such employees for the loss of earnings while receiving such training.

TITLE II

THE PUBLIC HEALTH COUNCIL

- Section 220. Public health and health planning council; appointment of members.
221. Public health and health planning council; terms of office; vacancies.
222. Public health and health planning council; meetings; by-laws.
223. Public health and health planning council; compensation and expenses.
224. Public health and health planning council; secretary, employees.
- 224-b. Public health and health planning council; powers and duties; health care facilities, home care agencies and hospices.
225. Public health and health planning council; powers and duties; sanitary code.
226. Sanitary code; filing and publication.
227. Sanitary code; certified copy; evidence.
228. Sanitary code; application.
229. Sanitary code; violation; penalties.

§ 220. Public health and health planning council; appointment of members. There shall continue to be in the department a public health and health planning council to consist of the commissioner and twenty-six members to be appointed by the governor with the advice and consent of the senate. Membership on the council shall be reflective of

the diversity of the state's population including, but not limited to, the various geographic areas and population densities throughout the state. The members shall include representatives of the public health system, health care providers that comprise the state's health care delivery system, individuals with expertise in the clinical and administrative aspects of health care delivery, issues affecting health care consumers, health planning, health care financing and reimbursement, health care regulation and compliance, and public health practice and at least two members shall also be members of the behavioral health services advisory council; at least four members shall be representatives of general hospitals or nursing homes; at least two members shall be representatives of health care consumer advocacy organizations which have a statewide or regional constituency and have been involved in activities related to health care consumer advocacy including issues of interest to low- and moderate-income individuals; and at least one member shall be a representative of each of the following groups: women's health service providers, home care agencies, freestanding ambulatory surgery centers, diagnostic and treatment centers, health care payors, and labor organizations for health care employees.

§ 221. Public health and health planning council; terms of office; vacancies. 1. The terms of office of members of the public health and health planning council shall be six years. The members of the council shall continue in office until the expiration of their terms and until their successors are appointed and have qualified. Such appointments shall be made by the governor, with the advice and consent of the senate, within one year following the expiration of such terms.

2. Vacancies shall be filled by appointment by the governor for the unexpired terms within one year of the date upon which such vacancies occur.

3. In making appointments to the council, the governor shall seek to ensure that membership on the council reflects the diversity of the state's population including, but not limited to the various geographic

areas and population densities throughout the state.

4. Notwithstanding subdivision one of this section, of the ten members appointed or reappointed to the council on or after December first, two thousand ten, two shall serve a term of three years, two shall serve a term of four years, three shall serve a term of five years, and three shall serve a term of six years. Thereafter, members appointed or reappointed upon expiration of a term of office shall be appointed for a term of six years and shall continue in office until their successors are appointed.

§ 222. Public health and health planning council; meetings; by-laws.

1. The public health and health planning council shall meet as frequently as its business may require, and at least twice in each year.

2. The governor shall designate one of the members of the public health and health planning council as its chair.

3. The public health and health planning council shall enact and from time to time may amend by-laws in relation to its meetings and the transactions of its business.

4. All meetings of the public health and health planning council shall in every proceeding be deemed to have been duly called and regularly held, and all regulations and proceedings to have been duly authorized unless the contrary be proved.

§ 223. Public health and health planning council; compensation and expenses. The members of the public health and health planning council other than the commissioner of health shall receive no compensation for their services, but shall be reimbursed for expenses actually and necessarily incurred in the performance of their duties.

§ 224. Public health and health planning council; secretary,

employees. The commissioner upon request of the public health and health planning council, shall designate an officer or employee of the department to act as secretary of the public health and health planning council, and shall assign from time to time such other employees as the public health and health planning council may require.

§ 224-b. Public health and health planning council; powers and duties; health care facilities, home care agencies and hospices. The public health and health planning council shall have such powers and duties as are set forth in this chapter, including the consideration of applications for the establishment and construction of health care facilities, home care agencies and hospices licensed under articles twenty-eight, thirty-six or forty of this chapter. In carrying out its powers and duties, the council shall take into account the impact of its actions and recommendations on the quality, accessibility, efficiency and cost-effectiveness of health care throughout the state. The council shall undertake a comprehensive review of regulations and council procedures governing the establishment and construction of such health care facilities, home care agencies and hospices and shall submit to the commissioner any recommendations for the revisions of such regulations. Such review shall be conducted every five years, and the first set of recommendations shall be submitted to the commissioner on or before December first, two thousand sixteen.

§ 225. Public health and health planning council; powers and duties; sanitary code. 1. The public health and health planning council shall, at the request of the commissioner, consider any matter relating to the preservation and improvement of public health, and may advise the commissioner thereon; and it may, from time to time, submit to the commissioner, any recommendations relating to the preservation and improvement of public health.

2. The public health and health planning council shall appoint one or more advisory committees expert in the major areas of public health concern, including but not limited to health education, health manpower,

economics and delivery of health service, sanitation problems and interprofessional relationships. Members of advisory committees need not be members of the public health and health planning council.

3. The public health and health planning council shall have no executive, administrative or appointive duties except as otherwise provided by law.

4. The public health and health planning council shall have power by the affirmative vote of a majority of its members to establish, and from time to time, amend and repeal sanitary regulations, to be known as the sanitary code of the state of New York, subject to approval by the commissioner.

5. The sanitary code may:

(a) deal with any matters affecting the security of life or health or the preservation and improvement of public health in the state of New York, and with any matters as to which the jurisdiction is conferred upon the public health and health planning council;

(b) prescribe the qualifications of public health personnel of the department, directors of divisions, regional health directors, state district health officers, local health officers; county and city health commissioners, deputy and assistant county or city health commissioners; public health administrators; county health directors and deputy and assistant county health directors; directors of county physically handicapped children's programs; directors of medical care (local assistance programs); public health nurses; public health physical therapists; public health educators; nurse-midwives; medical social workers; public health social workers; radiation safety officers; sanitary and public health engineers, sanitarians, sanitary inspectors; public health veterinarians; operators of public water treatment and purification plants; and the qualifications of persons not paid from public funds and who are appointed and employed after January first, nineteen hundred forty-seven, as operators of water treatment or purification plants owned or operated by water companies, corporations or by a person or group of persons serving the general public residing in a political subdivision or any part thereof;

(c) establish regulations for the promotion of health in any or all Indian reservations;

(e) establish regulations for the maintenance of hospitals for communicable diseases;

(f) prescribe standards of efficiency for such laboratories as are under contract with the commissioner for the examination of specimens received from local health officers or physicians for routine examinations and analyses;

(g) set forth the diseases for which specimens shall be submitted for examination to a laboratory approved by the department.

(h) designate the communicable diseases which are dangerous to the public health;

(i) set forth the nature of the information required to be furnished by every physician in his notice to the department of each case of communicable disease.

(j) establish regulations in respect to contact or communication with or use of infected premises, places or things and prescribe the method or methods for the purification and cleansing of the same before general intercourse with the said premises, places or things, or use thereof is allowed;

(k) establish regulations defining the methods and precautions to be observed in disinfecting, cleansing or renovating premises vacated by persons suffering from a communicable disease;

(l) prescribe the qualifications that shall be possessed by persons in charge of diagnostic clinical laboratories as provided by the workmen's compensation law;

(m) require that application be made for a permit to operate a farm or food processing labor camp as defined in the sanitary code; authorize appropriate officers or agencies to issue such a permit when the applicant is in compliance with the established regulations; prescribe standards for living quarters at farm and food processing labor camps, including provisions for sanitary conditions; light, air, and safety; protection from fire hazards; maintenance; and such other matters as may be appropriate for security of life or health, provided however, that the provisions of the sanitary code established pursuant to the provisions hereof shall apply to all farm and food processing labor camps intended to house migrant workers and which are occupied. In the

preparation of such regulations, the public health and health planning council may request and shall receive technical assistance from the board of standards and appeals of the state department of labor and the state building code commission. Such regulation shall be enforced in the same manner as are other provisions of the sanitary code;

(n) prescribe the qualifications of occupational therapists employed in public general hospitals and tuberculosis hospitals and sanatoria maintained pursuant to the general municipal law;

(o) require that application be made for a permit to operate a temporary residence as defined in the sanitary code, or to hold or promote by advertising or otherwise a mass gathering which is likely to attract five thousand people or more and continue for twenty-four hours or more and authorize appropriate officers or agencies to issue such a permit when the applicant is in compliance with the established regulations and when it appears that such temporary residence can be operated or such gathering held without hazard to health and safety; establish regulations with respect to such gatherings to provide for: the furnishing of adequate undertakings to secure full compliance with the sanitary code and other applicable law, adequate and satisfactory water supply and sewerage facilities, adequate drainage, adequate toilet and lavatory facilities, adequate refuse storage and disposal facilities, adequate sleeping areas and facilities, wholesome food and sanitary food service, adequate medical facilities, insect and noxious weed control, adequate fire protection, and such other matters as may be appropriate for security of life or health. In his review of applications for permits for the holding or promoting of such a gathering the permit-issuing official may require such plans, specifications and reports as he shall deem necessary for a proper review, and in his review of such applications, as well as in carrying out his other duties and functions in connection with such a gathering, the permit-issuing official may request and shall receive from all public officers, departments and agencies of the state and its political subdivisions such cooperation and assistance as may be necessary and proper;

(p) establish regulations in respect to ionizing radiation and nonionizing electromagnetic radiation except in relation to special nuclear materials in quantities sufficient to form a critical mass and

excluding the handling and disposal of radioactive wastes and the release of radioactivity to the environment regulated by the state department of environmental conservation. Such regulations may require the posting of a bond or other security;

(q) authorize appropriate officers or agencies to register radiation installations as defined in the sanitary code, issue licenses for the transfer, receipt, possession and use of radioactive materials, other than special nuclear materials in quantities sufficient to form a critical mass, render such inspection and other radiation protection services as may be necessary in the interest of public health, safety and welfare, charge registration fees not to exceed a rate of fifty dollars per installation per annum and, subject to the approval of the commissioner and, in the case of charges by the department, the director of the budget, charge adequate and reasonable fees for licensing, inspection and other radiation protection services not exceeding the estimated costs of such services, except that, with the approval of the commissioner, one or more services may be rendered without any charge.

(r) establish regulations in respect to emergency medical treatment, equipment and services at public functions likely to attract 5,000 or more people, taking into consideration, differences in type, size and duration of function, composition of audience, and accessibility and adequacy of emergency health facilities in the vicinity.

(s) require that application be made for a permit to manufacture for sale at retail frozen desserts as defined in the sanitary code; authorize appropriate officers or agencies to issue such a permit for a fee of twenty-five dollars per annum.

(t) facilitate epidemiological research into the prevention of environmental diseases, by establishing regulations designating as environmentally related diseases those pathological conditions of the body or mind resulting from contact with toxins, mutagens or teratogens in solid, liquid or gaseous form, or in the form of ionizing radiation or nonionizing electromagnetic radiation, and by requiring the reporting of such diseases or suspected cases of such diseases to the department by physicians, medical facilities and clinical laboratories. Any information provided to the department pursuant to such regulations shall be in the form required by the department, and shall be kept confidential and used by the commissioner pursuant to the provisions of

paragraph (j) of subdivision one of section two hundred six of this chapter, and other applicable laws relating to the confidential treatment of patient and medical data, except that the department may share identifying or other information with a local health department when, and only to the extent that, the department determines this information is necessary to protect public health against the hazards associated with exposure to the material. Data shared with the local health department shall not be further disclosed and shall be otherwise subject to the confidentiality requirements of paragraph (j) of subdivision one of section two hundred six of this chapter and any other applicable laws related to the confidential treatment of patient and medical data.

(u) (i) require bacteriological testing of bottled water sold or distributed for use in this state. Such code shall establish requirements for sampling at regular time intervals and in number proportionate to the frequency of production days and the total volume of bottled water sold or distributed for use in this state.

(ii) require physical, inorganic chemical, organic chemical and radiological testing of bottled water. Such testing requirements shall meet or exceed the required parameters and frequencies for public water supplies. Testing for organic and inorganic chemicals shall occur at least annually. Testing for radiological content shall occur at least annually. Such testing shall be conducted on source water and bottled water product. The department shall designate a quarterly period when such annual tests will be conducted. Samples for such testing shall be taken on each production line and tested in labs approved by the department. Lab reports generated from such testing shall be sent directly to the department.

(iii) establish a procedure by which purveyors of bottled water shall certify, to the department, that their bottled water complies with the organic, inorganic, radiological and other water content standards established pursuant to this section. Such certifications shall be submitted to the department in accordance with the testing schedules indicated in subparagraph (ii) of this paragraph, for source water and bottled water product. The department shall at least on a quarterly basis compare random shelf samples of each product line of bottled water and test them for compliance with the standards established pursuant to

this section. If the findings of the random sampling comparison fail to comply with the standards established for bottled water pursuant to this section, the purveyor shall be subject to the penalties and sanctions of this chapter.

(iv) require purveyors who provide sodium content information on bottled water labels to numerically indicate in a manner consistent with federal law and regulation the sodium content of bottled water on labels affixed to bottled water.

(v) require purveyors to indicate, clearly and conspicuously, the bottling date by day, month and year on labels affixed to bottled water.

(vi) require the department of health to give public notice of, and make available to retailers of bottled water, the annual listing of certified bottled water purveyors that indicates only such certified waters may be lawfully sold. If within the annual notification cycle any purveyor is decertified, the department shall give public notice of such decertification. The department shall maintain and make available an updated list of certified purveyors for retailers.

(v) provide for the issuance of variances and waivers from requirements for providing lifeguards at swimming pools and bathing beaches that are part of temporary residences. The code shall provide that variances and waivers shall not expire upon change in ownership of the facility.

5-a. The sanitary code shall provide for the supervision of surf beaches customarily used for swimming or bathing which are owned or operated by a homeowners association by persons qualified as surf lifeguards according to standards for public surf beaches established in such code. For purposes of this subdivision, "surf beaches owned or operated by homeowner associations" shall include bathing beaches owned and operated by a condominium which is property subject to article nine-B of the real property law; a cooperative, in which the property is owned or leased by a corporation, the stockholders of which are entitled to use the bathing beach solely by reason of their ownership of stock in the corporation and occupy apartments for dwelling purposes, provided an "offering statement" or "prospectus" has been filed with the department of law; or an incorporated or unincorporated property association, by which all members own residential property in a fixed or defined

geographical area with deeded rights to use, with similarly situated owners, a defined bathing beach.

5-b. Places of public assembly on-site cardiac automated external defibrillator.

(a) Notwithstanding the provisions of paragraph (r) of subdivision five of this section, the sanitary code shall provide that each place of public assembly shall provide and maintain on-site automated external defibrillators (AED), as defined in paragraph (a) of subdivision one of section three thousand-b of this chapter, in quantities and types deemed by the commissioner to be adequate to ensure ready and appropriate access for use during emergencies.

(b) Whenever places of public assembly are used for public or private sponsored events or activities the owners, operators and administrators responsible for such place of public assembly shall ensure the presence of at least one staff person or volunteer who is trained, pursuant to paragraph (a) of subdivision three of section three thousand-b of this chapter, in the operation and use of an AED.

(c) For the purposes of this subdivision places of public assembly shall be those with an occupancy capacity of at least one thousand people and shall include: (i) all stadiums, ballparks, gymnasiums, field houses, arenas, civic centers and similar facilities used for the conduct of sporting events; and (ii) concert halls, recital halls, theatres, indoor and outdoor amphitheatres or other auditoriums used for the presentation of musical renditions or concerts. Places of public assembly shall not include halls owned by churches, religious organizations, granges, public associations, or free libraries as defined by section two hundred fifty-three of the education law.

(d) Places of public assembly and staff pursuant to paragraphs (a) and (b) of this subdivision shall be subject to the requirements and limitations of section three thousand-b of this chapter.

(e) Pursuant to sections three thousand-a and three thousand-b of this chapter, any public access defibrillation provider, or any employee or other agent of the provider who, in accordance with the provisions of this section, voluntarily and without expectation of monetary compensation renders emergency medical or first aid treatment using an AED which has been made available pursuant to this section, to a person

who is unconscious, ill or injured, shall be liable only pursuant to section three thousand-a of this chapter.

(f) Nothing in this subdivision shall be construed to prohibit a political subdivision of the state from continuing to implement and enforce any local law or regulation related to the placement of automated external defibrillators in places of public assembly as defined in this subdivision, in effect prior to the effective date of this subdivision. Where a political subdivision has a local law in effect prior to the effective date of this subdivision, the provisions of this subdivision shall have no force and effect until such time as the political subdivision repeals its local law.

5-c. Notwithstanding the provisions of paragraph (r) of subdivision five of this section, the sanitary code shall:

(a) provide that any public or private surf beach or swimming facility which is required by any other provision of law to be supervised by a surf lifeguard qualified according to the standards of such code, shall provide and maintain on-site automated external defibrillator (AED) equipment, as defined in paragraph (a) of subdivision one of section three thousand-b of this chapter. Such swimming facilities and staff shall be subject to the requirements and limitations of section three thousand-b of this chapter.

(b) provide that at least one lifeguard trained pursuant to paragraph (a) of subdivision three of section three thousand-b of this chapter in the operation and use of an AED shall be present during all periods of required supervision.

5-d. The state sanitary code shall:

(a) require that all lifeguards employed at children's overnight, summer day, and travelling summer day camps as defined in section thirteen hundred ninety-two of this chapter, meet the following qualifications:

(i) be at least seventeen years of age, except:

(A) a maximum of fifty percent of the required total number of lifeguards on duty may be at least fifteen years of age provided they are under the supervision of a camp aquatics director as required by part seven of the state sanitary code; and

(B) lifeguards required for wilderness swimming must be at least eighteen years of age; and

(ii) meet lifeguarding, first aid and CPR certification requirements for minimum lifeguard supervision levels as required in parts six and seven of the state sanitary code; and

(b) require all qualified lifeguards while on duty at the waterfront to not be engaged in duties or activities which distract them from the direct supervision of the waterfront.

5-e. Places of public assembly on-site epinephrine devices.

(a) Notwithstanding the provisions of paragraph (r) of subdivision five of this section and section three thousand-c of this chapter, the sanitary code shall provide that each place of public assembly as specified in this section shall be required to maintain and make available on-site epinephrine devices, as defined in paragraph (b) of subdivision one of section three thousand-c of this chapter, in quantities and types deemed by the commissioner to be adequate to ensure ready and appropriate access for use during emergencies.

(b) Whenever places of public assembly are used for public or private sponsored events or activities the owners, operators and administrators responsible for such place of public assembly shall ensure the presence of at least one staff person or volunteer who is trained, pursuant to paragraph (c) of subdivision two of section three thousand-c of this chapter, in the operation and use of an epinephrine device.

(c) For the purposes of this subdivision, "places of public assembly" shall mean those with an occupancy capacity of at least one thousand people and shall include: (i) all stadiums, ballparks, gymnasiums, field houses, arenas, civic centers and similar facilities used for the conduct of sporting events; and (ii) concert halls, recital halls, theatres, indoor and outdoor amphitheatres or other auditoriums used for the presentation of musical renditions or concerts. Places of public assembly shall not include halls owned by churches, religious organizations, granges, public associations, or free libraries as defined by section two hundred fifty-three of the education law.

(d) Places of public assembly and staff pursuant to paragraphs (a) and (b) of this subdivision shall be subject to the requirements and limitations of section three thousand-c of this chapter.

(e) Pursuant to sections three thousand-a and three thousand-c of this chapter, any public access epinephrine device provider, or any employee or other agent of the provider who, in accordance with the provisions of this section, voluntarily and without expectation of monetary compensation renders emergency medical or first aid treatment using an epinephrine device which has been made available pursuant to this section, to a person who is unconscious, ill or injured, shall be liable only pursuant to section three thousand-a of this chapter.

(f) Nothing in this subdivision shall be construed to prohibit a political subdivision of the state from continuing to implement and enforce any local law or regulation related to the placement of epinephrine devices in places of public assembly as defined in this subdivision, in effect prior to the effective date of this subdivision. Where a political subdivision has a local law in effect prior to the effective date of this subdivision, the provisions of this subdivision shall have no force and effect until such time as the political subdivision repeals its local law.

(g) (i) Operation of an epinephrine device pursuant to this section shall be considered first aid or emergency treatment for the purpose of any statute relating to liability.

(ii) Operation of an epinephrine device pursuant to this section shall not constitute the unlawful practice of a profession under title eight of the education law.

6. The public health council shall, no later than January first, nineteen hundred seventy-four, prescribe standards and establish regulations for summer day and children's camps which derive all water from a public water supply system and all sewage therefrom is discharged to a public sewer system. Such standards and regulations shall include provisions with respect to: operators, counsellors, living and sleeping quarters, food service facilities, recreational quarters and facilities, occupancy of living and sleeping quarters, and other facilities, protection from fire hazards, safety of arts and crafts and recreational equipment, boating safety, emergency health services, water supply and sewage facilities, refuse storage and disposal facilities, and such other matters as may be appropriate for protection and security of life or health. For purposes of this subdivision, the terms, a "summer day

camp" and a "children's camp" shall have the same definition as appears for those terms in the sanitary code.

7. The public health council shall, no later than January first, nineteen hundred seventy-four, prescribe standards and establish regulations for motels and hotels, as those terms are defined in the sanitary code and which derive all water from a public water supply system and all sewage therefrom is discharged to a public sewer system. Such standards and regulations shall include provisions with respect to: living and sleeping quarters, food service facilities, occupancy of living and sleeping quarters, and other facilities, protection from fire hazards, water supply and sewage facilities, refuse storage and disposal facilities, and such other matters as may be appropriate for protection and security of life or health, provided, however, that the provisions of this section shall not apply in cities having a population of one hundred twenty-five thousand or more.

8. The sanitary code shall delineate specific procedures for public notification of public health hazards to be used by public water suppliers. Such procedures shall include notification of the municipality wherein the public water system is located and the police department serving such municipality.

9. Notwithstanding the provisions of any general, special or local law to the contrary, in cities having a population of one million or more, the sanitary code shall provide that any installation, service, maintenance, testing, repair or modification of a backflow prevention device or any related work shall be performed in conformance with the plumbing code of any such city. All employees of a licensed plumber who perform testing of backflow prevention devices shall satisfactorily complete an approved course in backflow prevention device testing. Nothing in this subdivision shall require the commissioner to certify the completion of such approved course by such employees. For the purposes of this subdivision, "backflow prevention device" means an acceptable air gap, reduced pressure zone device, double check valve assembly or equivalent protective device acceptable to the commissioner that is designed to prevent or contain potential contamination of a

public water system by means of cross-connection control.

10. Notwithstanding the provisions of any general, special or local law to the contrary, the sanitary code of the state of New York shall provide that in any county, city having a population of less than one million, town or village having a plumbing code, the installation, service, maintenance, testing, repair or modification of a backflow prevention device or any related work shall be performed in accordance with such plumbing code. A person licensed under such plumbing code and any of his employees who perform testing of backflow prevention devices shall satisfactorily complete a course in backflow prevention device testing that has been approved by the department. Nothing in this subdivision shall require the commissioner to certify the completion of such approved course by such licensee or employees. For the purposes of this subdivision, "backflow prevention device" means an acceptable air gap, reduced pressure zone device, double check valve assembly or equivalent protective device acceptable to the commissioner that is designed to prevent or contain potential contamination of a public water system by means of cross-connection control.

11. The public health council, in consultation with the superintendent of financial services, shall, no later than March thirty-first, nineteen hundred ninety-three, report to the governor and the legislature regarding the efficacy of developing wellness incentives that could be used to allow premium reductions for certain individuals from established community rates in the individual and small group health insurance markets. Wellness incentives to be considered shall include, but not be limited to, smoking status, physical fitness activities, frequency of physician fitness evaluations and dietary habits. The council shall consider the effects of such wellness incentives on the individual and small group health insurance markets and on the health status of the population as a whole.

12. Notwithstanding the provisions of any general, special or local law to the contrary, a charitable or not-for-profit organization shall not be in violation of this chapter or any rule or regulation thereunder, including the sanitary code, for the possession,

preparation, distribution or service of game or wild game, donated pursuant to section 11-0917 of the environmental conservation law. Game or wild game means any deer or big game, or portions thereof, as defined in section 11-0103 of the environmental conservation law, taken by lawful hunting.

§ 226. Sanitary code; filing and publication. 1. Every regulation adopted by the public health and health planning council shall state the date on which it takes effect, and a copy thereof, duly signed by the secretary of the public health and health planning council, shall be filed as a public record in the department and in the office of the secretary of state.

2. A copy of every regulation adopted by the public health and health planning council shall be sent by the commissioner to each health officer within the state, and shall be published in such manner as the public health and health planning council may from time to time determine.

§ 227. Sanitary code; certified copy; evidence. The sanitary code may be read in evidence from the official compilation of codes, rules and regulations of the state of New York, or supplement thereto. To entitle any copy of the sanitary code, other than the official compilation or supplement thereto, to be read in evidence there shall be contained in the same book or pamphlet a printed certificate of the secretary of state that such copy is a correct transcript of the text of the sanitary code as published in the official compilation or supplement thereto. For such a certificate the secretary of state shall collect such a fee as he shall deem just and reasonable.

§ 228. Sanitary code; application. 1. The provisions of the sanitary code, unless otherwise stated by the public health and health planning council, shall apply to and be effective in all portions of the state and shall supersede all local ordinances heretofore or hereafter enacted

inconsistent therewith.

2. Each county, city, town or village, in the manner hereinafter prescribed, may enact sanitary regulations not inconsistent with the sanitary code established by the public health and health planning council.

3. Local laws, ordinances or regulations which comply with at least the minimum applicable standards set forth in the sanitary code shall be deemed not inconsistent with such code.

§ 229. Sanitary code; violation; penalties. The provisions of the sanitary code shall have the force and effect of law and the non-compliance or non-conformance with any provision thereof shall constitute a violation punishable on conviction for a first offense by a fine not exceeding two hundred fifty dollars or by imprisonment for not exceeding fifteen days, or both; and for a second or subsequent offense by a fine not exceeding five hundred dollars or by imprisonment for not exceeding fifteen days, or both.

TITLE II-A

PROFESSIONAL MEDICAL CONDUCT

Section 230. State board for professional medical conduct; proceedings.

230-a. Penalties for professional misconduct.

230-a*2. Infection control standards.

230-b. Disciplinary proceedings for physician's assistants and specialist's assistants.

230-c. Administrative review board for professional medical conduct.

230-d. Office-based surgery.

230-e. Unauthorized pelvic examinations.

§ 230. State board for professional medical conduct; proceedings. 1. A

state board for professional medical conduct is hereby created in the department in matters of professional misconduct as defined in sections sixty-five hundred thirty and sixty-five hundred thirty-one of the education law. Its physician members shall be appointed by the commissioner at least eighty-five percent of whom shall be from among nominations submitted by the medical society of the state of New York, the New York state osteopathic society, the New York academy of medicine, county medical societies, statewide specialty societies recognized by the council of medical specialty societies, and the hospital association of New York state. Its lay members shall be appointed by the commissioner with the approval of the governor. The board of regents shall also appoint twenty percent of the members of the board. Not less than sixty-seven percent of the members appointed by the board of regents shall be physicians. Not less than eighty-five percent of the physician members appointed by the board of regents shall be from among nominations submitted by the medical society of the state of New York, the New York state osteopathic society, the New York academy of medicine, county medical societies, statewide medical societies recognized by the council of medical specialty societies, and the hospital association of New York state. Any failure to meet the percentage thresholds stated in this subdivision shall not be grounds for invalidating any action by or on authority of the board for professional medical conduct or a committee or a member thereof. The board for professional medical conduct shall consist of not fewer than eighteen physicians licensed in the state for at least five years, two of whom shall be doctors of osteopathy, not fewer than two of whom shall be physicians who dedicate a significant portion of their practice to the use of non-conventional medical treatments who may be nominated by New York state medical associations dedicated to the advancement of such treatments, at least one of whom shall have expertise in palliative care, and not fewer than seven lay members. An executive secretary shall be appointed by the chairperson and shall be a licensed physician. Such executive secretary shall not be a member of the board, shall hold office at the pleasure of, and shall have the powers and duties assigned and the annual salary fixed by, the chairperson. The chairperson shall also assign such secretaries or other persons to the board as are necessary.

2. Members of such board shall be appointed by the commissioner or the board of regents for three year terms except that the terms of those first appointed shall be arranged so that as nearly as possible an equal number shall terminate annually. A vacancy occurring during a term shall be filled by an appointment by the commissioner or the board of regents for the unexpired term.

3. Each member of the board shall receive a certificate of appointment, shall before beginning his term of office file a constitutional oath of office with the secretary of state, shall receive up to one hundred fifty dollars as prescribed by the commissioner for each day devoted to board work not to exceed ten thousand dollars in any one year, and shall be reimbursed for his necessary expenses. Any member may be removed from the board at the pleasure of the commissioner.

4. The governor shall annually designate from the members of the board a chairperson who shall be a physician and vice-chairperson. The board shall meet upon call of the chairperson, and may adopt bylaws consistent with this section. A quorum for the transaction of business by the board shall be a majority of members.

5. From among the members of the board two or more committees on professional conduct shall be appointed by the board chairperson.

6. Any committee on professional conduct appointed pursuant to the provisions of this section shall consist of two physicians and one lay member.

7. (a) The board, by its committees on professional conduct, shall conduct disciplinary proceedings as prescribed in this section and shall assist in other professional conduct matters as prescribed by the chairperson. In this section the term "licensee" shall mean physician, including a physician practicing under a limited permit, a medical resident, physician's assistant and specialist's assistant. A committee on professional conduct, on notice to the licensee and after affording the licensee, the office of professional medical conduct, and their

attorneys an opportunity to be heard, shall have the authority to direct a licensee to submit to a medical or psychiatric examination when the committee has reason to believe the licensee may be impaired by alcohol, drugs, physical disability or mental disability. The committee, with the advice of the licensee and the office of professional medical conduct, shall designate the physician who will conduct the examination. The results of the examination shall be provided by the examining physician to the committee, the licensee, and the office of professional medical conduct. The licensee may also obtain a physician to conduct an examination the results of which shall be provided to the committee and the office of professional medical conduct.

(b) A committee on professional conduct may sit as an administrative tribunal for the purpose of issuing an order authorizing the office of professional medical conduct to obtain medical records or other protected health information pertaining to the licensee's physical or mental condition when the committee has reason to believe that the licensee may be impaired by alcohol, drugs, physical disability or mental disability and that the records or information may be relevant to the alleged impairment or that information regarding the licensee's medical condition may be relevant to an inquiry into a report of a communicable disease, as defined by the state sanitary code or HIV/AIDS. No such order shall be issued except on notice to the licensee and after affording the licensee and the office of professional medical conduct an opportunity to be heard.

(c) A committee on professional conduct, on notice to the licensee and after affording the licensee and the office of professional medical conduct an opportunity to be heard, shall have the authority to direct a licensee to submit to a clinical competency examination when the committee has reason to believe that the licensee has practiced with incompetence, generally in his or her medical practice or in a specific area of his or her medical practice. The committee, with the advice of the licensee and the office of professional medical conduct, shall designate the facility or institution to conduct the clinical competency examination. The results of the clinical competency examination shall be provided by the facility or institution to the committee, the licensee and the office of professional medical conduct. The licensee may also obtain an accredited facility or institution to conduct a clinical

competency examination, the results of which shall be provided to the committee and the office of professional medical conduct.

8. Notwithstanding any other provision of law, no member of a committee on professional conduct nor an employee of the board shall be liable in damages to any person for any action taken or recommendation made by him within the scope of his function as a member of such committee or employee provided that (a) such member or employee has taken action or made recommendations within the scope of his function and without malice, and (b) in the reasonable belief after reasonable investigation that the act or recommendation was warranted, based upon the facts disclosed.

9. Notwithstanding any other provisions of law, neither the proceedings nor the records of any such committee shall be subject to disclosure under article thirty-one of the civil practice law and rules except as hereinafter provided. No person in attendance at a meeting of any such committee shall be required to testify as to what transpired thereat. The prohibition relating to discovery of testimony shall not apply to the statements made by any person in attendance at such a meeting who is a party to an action or proceeding the subject matter of which was reviewed at such meeting.

9-a. At any time, if the board for professional medical conduct or the office of professional medical conduct determines that there is a reasonable belief that an act or omission that constitutes a crime under the law of the state of New York, any other state, or the United States has been committed by the licensee, the board for professional medical conduct or office of professional medical conduct shall notify the appropriate law enforcement official or authority except when the act or omission constitutes legally protected health activity, as defined by section 570.17 of the criminal procedure law.

9-b. Neither the board for professional medical conduct nor the office of professional medical conduct shall charge a licensee with misconduct as defined in sections sixty-five hundred thirty and sixty-five hundred thirty-one of the education law, or cause a report made to the director

of such office to be investigated beyond a preliminary review as set forth in clause (A) of subparagraph (i) of paragraph (a) of subdivision ten of this section, where such report is determined to be based solely upon the recommendation or provision of a treatment modality to a particular patient by such licensee that is not universally accepted by the medical profession, including but not limited to, varying modalities used in the treatment of Lyme disease and other tick-borne diseases. When a licensee, acting in accordance with paragraph e of subdivision four of section sixty-five hundred twenty-seven of the education law, recommends or provides a treatment modality that effectively treats human disease, pain, injury, deformity or physical condition for which the licensee is treating a patient, the recommendation or provision of that modality to a particular patient shall not, by itself, constitute professional misconduct. The licensee shall otherwise abide by all other applicable professional requirements.

9-c. (a) Neither the board for professional medical conduct nor the office of professional medical conduct shall charge a licensee, acting within their scope of practice, with misconduct as defined in sections sixty-five hundred thirty and sixty-five hundred thirty-one of the education law, or cause a report made to the director of such office to be investigated beyond a preliminary review as set forth in clause (A) of subparagraph (i) of paragraph (a) of subdivision ten of this section, where such report is determined to be based solely upon any legally protected health activity, as defined by section 570.17 of the criminal procedure law.

(b) When a licensee, acting within their scope of practice, and in accordance with paragraph e of subdivision four of section sixty-five hundred twenty-seven of the education law, engages in legally protected health activity, as defined by section 570.17 of the criminal procedure law, such legally protected activity shall not, by itself, constitute professional misconduct. The licensee shall otherwise abide by all other applicable professional requirements.

10. Professional misconduct proceedings shall consist of:

* (a) Investigation. (i) (A) The board for professional medical conduct, by the director of the office of professional medical conduct,

may investigate on its own any suspected professional misconduct, and shall investigate each complaint received regardless of the source. By the conclusion of a preliminary review, including an internal clinical review, the director shall determine if a report is based solely upon the recommendation or provision of a treatment modality by a licensee that is not universally accepted by the medical profession, including but not limited to varying modalities used in the treatment of Lyme disease or other tick-borne diseases. Upon a determination by the director that a report is based solely upon the provision of a treatment modality that is not universally accepted, no further review shall be conducted and no charges shall be brought. Nothing in this section shall preclude the director from making such a determination earlier in, or subsequent to, a preliminary review. (B) The director of the office of professional medical conduct shall cause a preliminary review of every report made to the department pursuant to section twenty-eight hundred three-e as added by chapter eight hundred sixty-six of the laws of nineteen hundred eighty, sections twenty-eight hundred five-l and forty-four hundred five-b of this chapter, and section three hundred fifteen of the insurance law, to determine if such report reasonably appears to reflect physician conduct warranting further investigation pursuant to this subparagraph.

(i-a) The director shall, in addition to the determination required by clause (A) of subparagraph (i) of this paragraph, determine if a report is based solely upon conduct which is otherwise permissible pursuant to section sixty-five hundred thirty-one-b of the education law and subdivision nine-c of this section, and upon a determination by the director that a report is based solely upon such permissible conduct, no further review shall be conducted and no charges shall be brought. Nothing in this section shall preclude the director from making such a determination earlier in, or subsequent to, a preliminary review.

(ii) If the investigation of cases referred to an investigation committee involves issues of clinical practice, medical experts, shall be consulted. Experts may be made available by the state medical society of the state of New York, by county medical societies and specialty societies, and by New York state medical associations dedicated to the advancement of non-conventional medical treatments. Any information obtained by medical experts in consultations, including the names of

licensees or patients, shall be confidential and shall not be disclosed except as otherwise authorized or required by law.

(iii) In the investigation of cases referred to an investigation committee, the licensee being investigated shall have an opportunity to be interviewed by the office of professional medical conduct in order to provide an explanation of the issues under investigation. Providing an opportunity for such an interview shall be a condition precedent to the convening of an investigation committee on professional misconduct of the board for professional medical conduct.

(A) At least twenty days before the interview, except as otherwise set forth herein, the licensee under investigation shall be given written notice of: (1) a description of the conduct that is the subject of the investigation; (2) the issues relating to the conduct that have been identified at the time of the notice; (3) the time frame of the conduct under investigation; (4) the identity of each patient whose contact with or care by the licensee is believed to be relevant to the investigation; and (5) the fact that the licensee may be represented by counsel and may be accompanied by a stenographer to transcribe the proceeding. All costs of transcription shall be paid by the licensee and a copy shall be provided to the department by the licensee within thirty days of the interview. The notice required by this subparagraph may be given less than twenty days before an interview in any case where the office of professional medical conduct anticipates that the commissioner will take summary action under subdivision twelve of this section, provided that the notice is given within a reasonable amount of time prior to the interview and advises of the possible summary action.

(B) Within thirty days following the interview or, in a case where a stenographer was present at the interview, within fifteen days after the office of professional medical conduct receives the transcript of the interview, whichever is later, the licensee shall be provided with a copy of the report of the interviewer. In addition, the licensee shall promptly be given written notice of issues identified subsequent to the interview. The licensee may submit written comments or expert opinion or medical or scientific literature that is directly relevant to the issues that have been identified by the office of professional medical conduct to the office of professional medical conduct at any time.

(C) If the director determines that the matter shall be submitted to

an investigation committee, an investigation committee shall be convened within ninety days of any interview of the licensee. The director shall present the investigation committee with relevant documentation including, but not limited to: (1) a copy of the original complaint; (2) the report of the interviewer and the stenographic record if one was taken; (3) the report of any medical or scientific expert; (4) copies of reports of any patient record reviews; and (5) the licensee's submissions.

(D) If the director determines to close an investigation following an interview without presentation to an investigation committee, the office of professional medical conduct shall notify the licensee in writing.

(iv) If the director of the office of professional medical conduct, after obtaining the concurrence of a majority of an investigation committee, and after consultation with the executive secretary, determines that a hearing is warranted the director shall, within fifteen days thereafter, direct counsel to prepare the charges. If the investigation committee is unanimous in its concurrence that a hearing is warranted, the charges shall be made public under paragraph (d) of this subdivision. If the investigation committee is not unanimous in its concurrence that a hearing is warranted, the members of such committee shall vote on whether the charges should be made public, and if all of the committee members vote in favor of publication, the charges shall be made public under paragraph (d) of this subdivision. If the director determines after consultation with an investigation committee that: (A) evidence exists of a single incident of negligence or incompetence, a pattern of inappropriate prescribing or medical practice, or impairment by drugs, alcohol, physical or mental disability; (B) a recommendation was made by a county medical society or the medical society of the state of New York that warrants further review; or (C) the facts underlying a verdict in a medical malpractice action warrant further review, the director, in addition to the authority set forth in this section, shall be authorized to conduct a comprehensive review of patient records of the licensee and such office records of the licensee as are related to said determination. The licensee shall cooperate with the investigation and willful failure to cooperate in a substantial or material respect may result in an enforcement proceeding pursuant to subparagraph (ii) of paragraph (o) of this subdivision. If there is a question of alcoholism,

alcohol abuse, drug abuse or mental illness, the director may refer the matter to a committee, as referred to in subparagraph (ii) of paragraph (c) of subdivision eleven of this section.

(v) The files of the office of professional medical conduct relating to the investigation of possible instances of professional misconduct shall be confidential and not subject to disclosure at the request of any person, except as provided by law in a pending disciplinary action or proceeding. The provisions of this paragraph shall not prevent the office from sharing information concerning investigations within the department and, pursuant to subpoena, with other duly authorized public agencies responsible for professional regulation or criminal prosecution. Nothing in this subparagraph shall affect the duties of notification set forth in subdivision nine-a of this section or prevent the publication of charges or of the findings, conclusions, determinations, or order of a hearing committee pursuant to paragraphs (d) or (g) of this subdivision. In addition, the commissioner may disclose the information when, in his or her professional judgment, disclosure of such information would avert or minimize a public health threat. Any such disclosure shall not affect the confidentiality of other information in the files of the office of professional medical conduct related to the investigation.

(vi) The office of professional medical conduct, acting under this section, may have access to the criminal history record of any licensee governed by the provisions of this section maintained by the division of criminal justice services pursuant to subdivision six of section eight hundred thirty-seven of the executive law.

(vii) The director of the office of professional medical conduct, in consultation with the patient safety center, shall cause a review on a continuous basis of medical malpractice claim and disposition information reported to the commissioner under section three hundred fifteen of the insurance law, for the purpose of identifying potential misconduct. The office shall commence a misconduct investigation if potential misconduct is identified as a result of such review, which shall be based on criteria such as disposition frequency, disposition type including judgment and settlement, disposition award amount, geographic region, specialty, or other factors as appropriate in identifying potential misconduct.

* NB Effective until July 1, 2028

* (a) Investigation. The board for professional medical conduct, by a committee on professional conduct, may investigate on its own any suspected professional misconduct, and shall investigate each complaint received regardless of the source. The results of the investigation shall be referred to the director of the office of professional medical conduct. If the director of the office of professional medical conduct, after consultation with a professional member of the board for professional medical conduct, determines that a hearing is warranted he shall direct counsel to prepare the charges within fifteen days thereafter. If it is determined by the director that the complaint involves a question of professional expertise then such director may seek, and if so shall obtain, the concurrence of at least two members of a panel of three members of the state board for professional medical conduct.

* NB Effective July 1, 2028

(b) Charges. The charges shall state the substance of the alleged professional misconduct and shall state clearly and concisely the material facts but not the evidence by which the charges are to be proved.

(c) Notice of hearing. The board shall set the time and place of the hearing. The notice of hearing shall state (1) the date, time and place of the hearing, (2) that the licensee shall file a written answer to each of the charges and allegations in the statement of charges no later than ten days prior to the hearing, that any charge and allegation not so answered shall be deemed admitted and that the licensee may wish to seek the advice of counsel prior to filing such answer, (3) that the licensee shall appear personally at the hearing and may be represented by counsel who shall be an attorney admitted to practice in New York state, (4) that the licensee shall have the right to produce witnesses and evidence in his behalf, to cross-examine witnesses and examine evidence produced against him, and to have subpoenas issued in his behalf to require the production of witnesses and evidence in manner and form as prescribed by the civil practice law and rules or either party may issue such subpoenas in their own behalf, (5) that a stenographic record of the hearing will be made, and (6) such other information as may be considered appropriate by the committee.

(d) Service of charges and of notice of hearing. (i) A copy of the charges and the notice of the hearing shall be served on the licensee personally by the board at least thirty days before the hearing. If personal service cannot be made after due diligence and such fact is certified under oath, a copy of the charges and the notice of hearing shall be served by registered or certified mail to the licensee's last known address by the board at least fifteen days before the hearing.

(ii) The charges shall be made public, consistent with subparagraph (iv) of paragraph (a) of this subdivision, no earlier than five business days after they are served, and the charges shall be accompanied by a statement advising the licensee that such publication will occur; provided, however, that charges may be made public immediately upon issuance of the commissioner's order in the case of summary action taken pursuant to subdivision twelve of this section and no prior notification of such publication need be made to the licensee.

(iii) If a hearing on the charges has not yet been conducted or if a hearing has been conducted but the committee has not yet issued a determination, the publication of charges by the department shall include a statement advising that the charges are only allegations which may be contested by the licensee in an administrative hearing, except that no such statement need be included if the licensee fails or affirmatively declines to contest the charges. In the event any or all such charges are dismissed, such dismissal shall be made public within two business days.

(d-1) Disclosure of exculpatory evidence. After service of the charges upon the licensee, counsel for the office of professional medical conduct shall, as soon as practicable and on a continuing basis, provide the licensee with any information or documentation in the possession of the office of professional medical conduct which tends to prove the licensee's innocence.

(e) Committee hearing. The hearing shall be conducted by a committee on professional conduct. The members of the hearing committee shall be appointed by the chairperson of the board who shall designate the committee chairperson. In addition to said committee members, the commissioner shall designate an administrative officer, admitted to practice as an attorney in the state of New York, who shall have the authority to rule on all motions, including motions to compel disclosure

of information or material claimed to be protected because of privilege or confidentiality, procedures and other legal objections and shall draft the conclusions of the hearing committee pursuant to paragraph (g). The administrative officer shall have the authority to rule on objections to questions posed by either party or the committee members. The administrative officer shall not be entitled to vote.

(f) Conduct of hearing. All hearings must be commenced within sixty days of the service of charges except that an adjournment of the initial hearing date may be granted by the hearing committee upon request by either party upon good cause shown. No adjournment shall exceed thirty days. The evidence in support of the charges shall be presented by an attorney. The licensee shall have the rights required to be stated in the notice of hearing (subparagraph (c) of this subdivision) and in section four hundred one of the state administrative procedure act. The committee shall not be bound by the rules of evidence, but its conclusion shall be based on a preponderance of the evidence. A hearing which has been initiated shall not be discontinued because of the death or incapacity to serve of one member of the hearing committee. In the event of a member's death or incapacity to serve on the committee, a member shall be appointed immediately by the chairperson of the board. The member shall affirm in writing that he or she has read and considered evidence and transcripts of the prior proceedings. The last hearing day must be held within one hundred twenty days of the first hearing day. Either party, for good cause shown, may request that the committee extend the last hearing day beyond one hundred twenty days. An extension requested by the licensee and granted by the committee may not be used as the grounds for a proceeding brought under paragraph (j) of this subdivision.

(g) Results of hearing. The committee shall make (1) findings of fact, (2) conclusions concerning the charges sustained or dismissed, and (3) a determination regarding charges sustained or dismissed, and in the event any of the charges have been sustained, of the penalty to be imposed or appropriate action to be taken and the reasons for the determination. For the committee to make a conclusion sustaining a charge, or determining a penalty or the appropriate action to be taken, two members of the committee must vote for such a conclusion or determination. The committee shall issue an order based on its determination. The

committee's findings, conclusions, determinations and order shall become public upon issuance. However, if the time to request a review of the committee's determination has not yet expired, or if the review has been requested but no determination as a result of the review has been issued, such publication shall include a statement advising that the licensee or the department may request a review of the committee's determination. No such statement is required if (a) the time to request such review has expired without the filing of such request by either of the parties, or (b) the licensee and the department both affirmatively decline to request review of the committee's determination or fail to perfect such review. In the event any or all such charges are dismissed, such dismissal shall be made public within two business days.

(h) Disposition of results. (i) The findings, conclusions, determination and the reasons for the determination of the committee shall be served upon the licensee, the department, and any hospitals, primary practice settings or health care plans required to be identified in publicly disseminated physician data pursuant to paragraph (j), (n), or (q) of subdivision one of section twenty-nine hundred ninety-five-a of this chapter, within sixty days of the last day of hearing. Service shall be either by certified mail upon the licensee at the licensee's last known address and such service shall be effective upon receipt or seven days after mailing by certified mail whichever is earlier or by personal service and such service shall be effective upon receipt. The licensee shall deliver to the board the license which has been revoked, annulled, suspended or surrendered, together with the registration certificate, within five days after receipt of the order. If the license or registration certificate is lost, misplaced or its whereabouts is otherwise unknown, the licensee shall submit an affidavit to that effect and shall deliver such license or certificate to the board when located. The director of the office shall promptly transmit a copy of the order to the division of professional licensing services of the state education department and to each hospital at which the licensee has privileges.

(ii) When a license has been: (A) revoked or annulled without stay pursuant to subdivision four or five of section two hundred thirty-a of this title; (B) surrendered by a licensee; (C) suspended without stay for more than one hundred eighty days; or (D) restricted to prohibit the

practice of medicine or to preclude the delivery of patient care, the licensee whose license has been so revoked, surrendered, annulled without stay, suspended without stay for more than one hundred eighty days, or restricted shall, within fifteen days of the effective date of the order:

(1) notify his or her patients, of the cessation or limitation of the licensee's medical practice; the names of other physicians or health care practitioners who have agreed to assume responsibility for the patient's care; that the patient should contact one of those named physicians or health care practitioners, or another physician or health care practitioner of the patient's choice, to determine the health care plans, as defined in sections four thousand nine hundred of the insurance law and forty-nine hundred of this chapter, in which the physician or health care practitioner participates and the policies and procedures of such physician or other health care practitioner; that the patient should notify the licensee of the name of the physician or other health care practitioner to whom the patient's medical records should be transferred; and that the licensee will retain, and remain responsible for the maintenance of the patient's medical records until the patient provides notice that the records shall be transferred directly to the patient, consistent with the provisions of sections seventeen and eighteen of this chapter, or to another practitioner of the patient's choice. The licensee shall also notify each health care plan with which the licensee contracts or is employed, and each hospital where he or she has privileges in writing of the cessation or limitation of the licensee's medical practice. Within forty-five days of the effective date of the order, the licensee shall provide the office of professional medical conduct with proof, in a form acceptable to the director of the office of professional medical conduct, that all patients and hospitals have been notified of the cessation or limitation of the licensee's medical practice.

(2) make arrangements for the transfer and maintenance of the medical records of his or her former patients. Records shall be either transferred to the licensee's former patients consistent with the provisions of sections seventeen and eighteen of this chapter or to another physician or health care practitioner as provided in clause (1) of this subparagraph who shall expressly assume responsibility for their

care and maintenance and for providing access to such records, as provided in subdivisions twenty-two and thirty-two of section sixty-five hundred thirty of the education law, the rules of the board of regents or the regulations of the commissioner of education and sections seventeen and eighteen of this chapter. When records are not transferred to the licensee's former patients or to another physician or health care practitioner, the licensee whose license has been revoked, annulled, surrendered, suspended or restricted shall remain responsible for the care and maintenance of the medical records of his or her former patients and shall be subject to additional proceedings pursuant to subdivisions twenty-two, thirty-two and forty of section sixty-five hundred thirty of the education law in the event that the licensee fails to maintain those medical records or fails to make them available to a former patient.

(3) notify the office of professional medical conduct of the name, address, and telephone number of any physician or other health care practitioner who has agreed to accept responsibility for storing and maintaining these medical records.

(4) in the event that the licensee whose license has been revoked, annulled, surrendered or restricted to prohibit the practice of medicine or to preclude the delivery of patient care holds a federal Drug Enforcement Agency (DEA) certificate, advise the DEA in writing of the licensure action, surrender his or her DEA controlled substance privileges to the DEA, and surrender any unused DEA #222 U.S. Official Order Forms, Schedules 1 and 2 to the DEA.

(5) for licensees whose license has been revoked, annulled, surrendered or restricted to prohibit the practice of medicine or to preclude the delivery of patient care, return any unused New York state official prescription forms to the bureau of narcotics enforcement of the department. The licensee shall cause all other prescription pads bearing the licensee's name to be destroyed. If no other licensee is providing services at the licensee's practice location, all medications shall be properly disposed.

(6) for licensees whose license to practice has been revoked, annulled, surrendered or restricted to prohibit the practice of medicine or to preclude the delivery of patient care, refrain from new advertising and make reasonable efforts to cease current advertising by

which his or her eligibility to practice medicine is represented.

In addition to any other penalty provided for in law, failure to comply with the requirements of this subparagraph shall constitute misconduct that may be prosecuted pursuant to this section and which may subject the licensee to the imposition of additional penalties pursuant to section two hundred thirty-a of this title.

(i) The determinations of a committee on professional conduct of the state board for professional medical conduct may be reviewed by the administrative review board for professional medical conduct.

(j) Time limitations. Failure to comply with a provision of this subdivision requiring that a specified action shall be taken within a specified period of time shall be grounds for a proceeding pursuant to article seventy-eight of the civil practice law and rules for an order staying the hearing or dismissing the charges or any part thereof or any other appropriate relief. Such proceeding shall be returnable before the supreme court of Albany county or New York county. The respondent in such proceeding shall have the initial burden to explain the reasons for the failure to comply with a provision of this subdivision requiring that a specified action to be taken within a specified period of time. The court shall not stay the hearing or dismiss the charges or grant any other relief unless it determines that failure to comply was not caused by the article seventy-eight petitioner and has caused substantial prejudice to the article seventy-eight petitioner.

(k) The executive secretary of the board with the specific approval of a committee on professional conduct of the board shall have the power to issue subpoenas requiring persons to appear before the board and be examined with reference to a matter within the scope of the inquiry or the investigation being conducted by the board and produce books, papers, records or documents pertaining thereto.

(l) The board or its representatives may examine and obtain records of patients in any investigation or proceeding by the board acting within the scope of its authorization. Unless expressly waived by the patient, any information so obtained shall be confidential and shall not be disclosed except to the extent necessary for the proper function of the board and the name of the patient may not be disclosed by the board or its employees at any stage of the proceedings unless the patient has

expressly consented. Any other use or dissemination by any person by any means, unless pursuant to a valid court order or otherwise provided by law, is prohibited.

(m) Expedited procedures. (i) Violations. Violations involving professional misconduct of a minor or technical nature may be resolved by expedited procedures as provided in subparagraph (ii) or (iii) of this paragraph. For purposes of this paragraph violations of a minor or technical nature shall include, but shall not be limited to, isolated instances of violations concerning professional advertising or record keeping, and other isolated violations which do not directly affect or impair the public health, welfare or safety.

(ii) Administrative warning and consultation. If the director of the office of professional medical conduct, after obtaining the concurrence of a majority of a committee on professional conduct, and after consultation with the executive secretary, determines that there is substantial evidence of professional misconduct of a minor or technical nature or of substandard medical practice which does not constitute professional misconduct, the director may issue an administrative warning and/or provide for consultation with a panel of one or more experts, chosen by the director. Panels of one or more experts may include, but shall not be limited to, a peer review committee of a county medical society or a specialty board. Administrative warnings and consultations shall be confidential and shall not constitute an adjudication of guilt or be used as evidence that the licensee is guilty of the alleged misconduct. However, in the event of a further allegation of similar misconduct by the same licensee, the matter may be reopened and further proceedings instituted as provided in this section.

(iii) Violation committee proceeding. If the director determines, after obtaining the concurrence of a majority of a committee on professional conduct, and after consultation with the executive secretary, that there is substantial evidence of a violation and that the violation is of a nature justifying a penalty as specified in this subparagraph the department may prepare and serve charges, either by personal service or by certified mail, return receipt requested. A violation committee proceeding shall be commenced within three years of the alleged professional misconduct. Such charges shall include a statement that the matter shall be referred to a committee on

professional conduct, which shall act as a violations committee for determination. The violations committee shall be appointed by the chairperson of the state board. Paragraph (c) of subdivision ten of this section shall apply to the proceeding. A stenographic record of the hearing shall be made. The evidence in support of the charges shall be presented by an attorney and the licensee shall be afforded an opportunity to be heard and to present evidence in his behalf. Such violations committee may issue a censure and reprimand, may require the licensee to perform up to twenty-five hours of public service in a facility licensed pursuant to article twenty-eight of this chapter in a manner and at a time and place directed by the board, and in addition, or in the alternative, may impose a fine not to exceed five hundred dollars for each specification of minor or technical misconduct. The violations committee may alternatively dismiss the charges in the interest of justice. The order shall be served either by certified mail to the licensee's last known address and such services shall be effective upon receipt or seven days after mailing by certified mail whichever is earlier or by personal service and such service shall be effective upon receipt. The order may be reviewed by the administrative appeals board for professional medical conduct.

(n) Engagement. A proceeding under this section shall be treated in the same manner as an action or proceeding in supreme court for the purpose of any claim by counsel of actual engagement.

(o) Orders for review of medical records. Where the director has issued an order for a comprehensive medical review of patient records and office records pursuant to subparagraph four of paragraph (a) of this subdivision and the licensee has refused to comply with the director's order, the director may apply to a justice of the supreme court, in writing, on notice to the licensee, for a court order to compel compliance with the director's order. The court shall not grant the application unless it finds that (i) there was a reasonable basis for issuance of the director's order and (ii) there is reasonable cause to believe that the records sought are relevant to the director's order. The court may deny the application or grant the application in whole or in part.

(p) Convictions of crimes or administrative violations. In cases of professional misconduct based solely upon a violation of subdivision

nine of section sixty-five hundred thirty of the education law, the director may direct that charges be prepared and served and may refer the matter to a committee on professional conduct for its review and report of findings, conclusions as to guilt, and determination. In such cases, the notice of hearing shall state that the licensee shall file a written answer to each of the charges and allegations in the statement of charges no later than ten days prior to the hearing, and that any charge or allegation not so answered shall be deemed admitted, that the licensee may wish to seek the advice of counsel prior to filing such answer that the licensee may file a brief and affidavits with the committee on professional conduct, that the licensee may appear personally before the committee on professional conduct, may be represented by counsel and may present evidence or sworn testimony in his or her behalf, and the notice may contain such other information as may be considered appropriate by the director. The department may also present evidence or sworn testimony and file a brief at the hearing. A stenographic record of the hearing shall be made. Such evidence or sworn testimony offered to the committee on professional conduct shall be strictly limited to evidence and testimony relating to the nature and severity of the penalty to be imposed upon the licensee. Where the charges are based on the conviction of state law crimes in other jurisdictions, evidence may be offered to the committee which would show that the conviction would not be a crime in New York state. The committee on professional conduct may reasonably limit the number of witnesses whose testimony will be received and the length of time any witness will be permitted to testify. The determination of the committee shall be served upon the licensee and the department in accordance with the provisions of paragraph (h) of this subdivision. A determination pursuant to this subdivision may be reviewed by the administrative review board for professional medical conduct.

(q) At any time subsequent to the final conclusion of a professional misconduct proceeding against a licensee, whether upon the determination and order of a hearing committee issued pursuant to paragraph (h) of this subdivision or upon the determination and order of the administrative review board issued pursuant to paragraph (d) of subdivision four of section two hundred thirty-c of this title, the licensee may file a petition with the director, requesting vacatur or

modification of the determination and order. The director shall, after reviewing the matter and after consulting with department counsel, determine in the reasonable exercise of his or her discretion whether there is new and material evidence that was not previously available which, had it been available, would likely have led to a different result, or whether circumstances have occurred subsequent to the original determination that warrant a reconsideration of the measure of discipline. Upon determining that such evidence or circumstances exist, the director shall have the authority to join the licensee in an application to the chairperson of the state board for professional medical conduct to vacate or modify the determination and order, as the director may deem appropriate. Upon the joint application of the licensee and the director, the chairperson shall have the authority to grant or deny such application.

11. Reporting of professional misconduct:

(a) The medical society of the state of New York, the New York state osteopathic society or any district osteopathic society, any statewide medical specialty society or organization, and every county medical society, every person licensed pursuant to articles one hundred thirty-one, one hundred thirty-one-B, one hundred thirty-three, one hundred thirty-seven and one hundred thirty-nine of the education law, and the chief executive officer, the chief of the medical staff and the chairperson of each department of every institution which is established pursuant to article twenty-eight of this chapter and a comprehensive health services plan pursuant to article forty-four of this chapter or article forty-three of the insurance law, shall, and any other person may, report to the board any information which such person, medical society, organization institution or plan has which reasonably appears to show that a licensee is guilty of professional misconduct as defined in sections sixty-five hundred thirty and sixty-five hundred thirty-one of the education law. Such reports shall remain confidential and shall not be admitted into evidence in any administrative or judicial proceeding except that the board, its staff, or the members of its committees may begin investigations on the basis of such reports and may use them to develop further information.

(b) Any person, organization, institution, insurance company,

osteopathic or medical society who reports or provides information to the board in good faith, and without malice shall not be subject to an action for civil damages or other relief as the result of such report.

(c) Notwithstanding the foregoing, no physician shall be responsible for reporting pursuant to paragraph (a) of this subdivision with respect to any information discovered by such physician solely as a result of:

(i) Participation in a properly conducted mortality and/or morbidity conference, departmental meeting or a medical or tissue committee constituted pursuant to the by-laws of a hospital which is duly established pursuant to article twenty-eight of the public health law, unless the procedures of such conference, department or committee of such hospital shall have been declared to be unacceptable for the purpose hereof by the commissioner, and provided that the obligations of reporting such information when appropriate to do so shall be the responsibility of the chairperson of such conference, department or committee, or

* (ii) Participation and membership during a three year demonstration period in a physician committee of the Medical Society of the State of New York or the New York State Osteopathic Society whose purpose is to confront and refer to treatment physicians who are thought to be suffering from alcoholism, drug abuse, or mental illness. Such demonstration period shall commence on April first, nineteen hundred eighty and terminate on May thirty-first, nineteen hundred eighty-three. An additional demonstration period shall commence on June first, nineteen hundred eighty-three and terminate on March thirty-first, nineteen hundred eighty-six. An additional demonstration period shall commence on April first, nineteen hundred eighty-six and terminate on March thirty-first, nineteen hundred eighty-nine. An additional demonstration period shall commence April first, nineteen hundred eighty-nine and terminate March thirty-first, nineteen hundred ninety-two. An additional demonstration period shall commence April first, nineteen hundred ninety-two and terminate March thirty-first, nineteen hundred ninety-five. An additional demonstration period shall commence on April first, nineteen hundred ninety-five and terminate on March thirty-first, nineteen hundred ninety-eight. An additional demonstration period shall commence on April first, nineteen hundred ninety-eight and terminate on March thirty-first, two thousand three. An

additional demonstration period shall commence on April first, two thousand three and terminate on March thirty-first, two thousand thirteen. An additional demonstration period shall commence April first, two thousand thirteen and terminate on March thirty-first, two thousand eighteen. An additional demonstration period shall commence April first, two thousand eighteen and terminate on July first, two thousand twenty-eight provided, however, that the commissioner may prescribe requirements for the continuation of such demonstration program, including periodic reviews of such programs and submission of any reports and data necessary to permit such reviews. During these additional periods, the provisions of this subparagraph shall also apply to a physician committee of a county medical society.

* NB Expires July 1, 2028

(d) In the event that a physician or administrator of a hospital established pursuant to article twenty-eight of this chapter shall reasonably be unable to determine if any information which he or she has is such that it does reasonably appear to show that a licensee is guilty of professional misconduct and therefore creates an obligation on such physician or such administrator to make a report pursuant to paragraph (a) hereof, he or she may either:

(i) in accordance with procedures established by the board, and without revealing the name of the licensee who he or she is considering making such a report about, request in writing the advice of the board as to whether or not a report should be made, and the physician or administrator so requesting such advice shall then be required to comply with the advice of the board. No such request for advice shall relieve the requesting physician or administrator of any obligation hereunder unless all other material facts are revealed, other than the name of the licensee in question, or

(ii) in the case where the licensee about whom another physician is considering making such report is affiliated with a hospital which is duly established pursuant to article twenty-eight of this chapter, a physician may elect to fulfill the obligations of paragraph (a) hereof by reporting such information to the appropriate executive committee or professional practices peer review committee which is duly constituted pursuant to by-laws of such hospital, unless the peer review procedures of such hospital shall have been declared to be unacceptable for the

purposes hereof by the commissioner. The physician members of such hospital executive committee or professional practices peer review committee shall thereupon have the responsibility of reporting such information to the board pursuant to paragraph (a) hereof, as required thereby, but in the event that such committee determines that a report shall be made to the board, the chairperson of such committee may fulfill the obligation of reporting on behalf of all the members of the committee, or

(iii) in a case where the physician, about whom he or she is considering making such report, is a member of a county medical society or district osteopathic society, and is not affiliated with a hospital, but practices his or her profession within such county or district, a physician may elect to fulfill the obligations of paragraph (a) hereof by reporting such information to the appropriate county medical society's or district osteopathic society's professional practices review committee duly constituted pursuant to the by-laws of such county medical society or district osteopathic society, unless the review procedures of such county medical society or district osteopathic society shall have been declared to be unacceptable for the purposes hereof by the commissioner. The physician members of such review committee shall thereupon have the responsibility of reporting such information to the board pursuant to paragraph (a) hereof, as required thereby, but in the event that such committee determines that a report shall be made to the board, the chairperson of such committee may fulfill the obligation of reporting on behalf of all the members of the committee.

(e) Nothing contained in this subdivision shall be so construed as to require any physician to violate a physician/patient privilege and therefore, no physician shall be required to report any information to the board which such physician has learned solely as a result of rendering treatment to another physician.

(f) A violation of this subdivision shall not be subject to the provisions of sections twelve and twelve-b of this chapter.

* (g) (i) Any physician committee of the Medical Society of the State of New York, the New York State Osteopathic Society or a county medical society referred to in subparagraph (ii) of paragraph (c) of this subdivision shall develop procedures in consultation with, and approved

by, the commissioner, including but not limited to the following:

(A) The committee shall disclose at least once a month such information as the director of the office of professional medical conduct may deem appropriate regarding reports received, contacts or investigations made and the disposition of each report, provided however that the committee shall not disclose any personally identifiable information except as provided in clause (B) or (C) of this subparagraph.

(B) The committee shall immediately report to the director the name, all information obtained and the results of any contact or investigation regarding any physician who is believed to be an imminent danger to the public.

(C) The committee shall report to the director in a timely fashion all information obtained regarding any physician who refuses to cooperate with the committee, refuses to submit to treatment, or whose impairment is not substantially alleviated through treatment.

(D) The committee shall inform each physician who is participating in a program of the procedures followed in the program, of the rights and responsibilities of the physician in the program and of the possible results of noncompliance with the program.

** (ii) No member of any such committee; nor the Medical Society of the State of New York, the New York State Osteopathic Society or a county medical society referred to in subparagraph (ii) of paragraph (c) of this subdivision that establishes a committee; nor any agent, servant, representative or employee that provides service to any such committee or society, shall be liable for damages to any person for any action taken by such committee, society, member, agent, servant, representative or employee provided that such action was taken without malice and within the scope of such individual's or entity's function in relation to such committee.

** NB Repealed July 1, 2028

** (iii) The committee, in conjunction with the director of the office of professional medical conduct, shall develop appropriate consent forms and disclosure proceedings as may be necessary under any federal statute, rule or regulation in order to permit the disclosure of the information as may be required under clauses (B) and (C) of subparagraph (i) of this paragraph.

** NB Repealed July 1, 2028

**(iv) Except as provided in this paragraph and notwithstanding any other provision of law, neither the proceedings nor the records of any such physician committee shall be subject to disclosure under article thirty-one of the civil practice law and rules nor shall any member of any such committee nor any person in attendance at any such meeting be required to testify as to what transpired thereat.

** NB Repealed July 1, 2028

* NB Expires July 1, 2028

(h) The office of professional medical conduct shall post on its website information on patients' rights and reporting options under this subdivision regarding professional misconduct, which shall specifically include information on reporting instances of misconduct involving sexual harassment and assault. All physicians' practice settings shall conspicuously post signage, visible to their patients, directing such patients to the office of professional medical conduct's website for information about their rights and how to report professional misconduct.

12. Summary action. (a) Whenever the commissioner, (i) after being presented with information indicating that a licensee is causing, engaging in or maintaining a condition or activity which has resulted in the transmission or suspected transmission, or is likely to lead to the transmission, of communicable disease as defined in the state sanitary code or HIV/AIDS, by the state and/or a local health department and if in the commissioner's opinion it would be prejudicial to the interests of the people to delay action until an opportunity for a hearing can be provided in accordance with the prehearing and hearing provisions of this section; or (ii) after an investigation and a recommendation by a committee on professional conduct of the state board for professional medical conduct, based upon a determination that a licensee is causing, engaging in or maintaining a condition or activity which in the commissioner's opinion constitutes an imminent danger to the health of the people, and that it therefore appears to be prejudicial to the interests of the people to delay action until an opportunity for a hearing can be provided in accordance with the prehearing and hearing provisions of this section; the commissioner may order the licensee, by

written notice, to discontinue such dangerous condition or activity or take certain action immediately and for a period of ninety days from the date of service of the order. Within ten days from the date of service of the said order, the state board for professional medical conduct shall commence and regularly schedule such hearing proceedings as required by this section, provided, however, that the hearing shall be completed within ninety days of the date of service of the order. To the extent that the issue of imminent danger can be proven without the attorney representing the office of professional medical conduct putting in its entire case, the committee of the board shall first determine whether by a preponderance of the evidence the licensee is causing, engaging in or maintaining a condition or activity which constitutes an imminent danger to the health of the people. The attorney representing the office of professional medical conduct shall have the burden of going forward and proving by a preponderance of the evidence that the licensee's condition, activity or practice constitutes an imminent danger to the health of the people. The licensee shall have an opportunity to be heard and to present proof. When both the office and the licensee have completed their cases with respect to the question of imminent danger, the committee shall promptly make a recommendation to the commissioner on the issue of imminent danger and determine whether the summary order should be left in effect, modified or vacated, and continue the hearing on all the remaining charges, if any, in accordance with paragraph (f) of subdivision ten of this section. Within ten days of the committee's recommendation, the commissioner shall determine whether or not to adopt the committee's recommendations, in whole or in part, and shall leave in effect, modify or vacate his summary order. The state board for professional medical conduct shall make every reasonable effort to avoid any delay in completing and determining such proceedings. If, at the conclusion of the hearing, (i) the hearing committee of the board finds the licensee guilty of one or more of the charges which are the basis for the summary order, (ii) the hearing committee determines that the summary order continue, and (iii) the ninety day term of the order has not expired, the summary order shall remain in full force and effect until a final decision has been rendered by the committee or, if review is sought, by the administrative review board. A summary order shall be public upon issuance.

(b) When a licensee has pleaded or been found guilty or convicted of committing an act constituting a felony under New York state law or federal law, or the law of another jurisdiction which, if committed within this state, would have constituted a felony under New York state law, or when a licensee has been charged with committing an act constituting a felony under New York state or federal law or the law of another jurisdiction, where the licensee's alleged conduct, which, if committed within this state, would have constituted a felony under New York state law, and in the commissioner's opinion the licensee's alleged conduct constitutes an imminent danger to the health of the people, or when the duly authorized professional disciplinary agency of another jurisdiction has made a finding substantially equivalent to a finding that the practice of medicine by the licensee in that jurisdiction constitutes an imminent danger to the health of its people, or when a licensee has been disciplined by a duly authorized professional disciplinary agency of another jurisdiction for acts which if committed in this state would have constituted the basis for summary action by the commissioner pursuant to paragraph (a) of this subdivision, the commissioner, after a recommendation by a committee of professional conduct of the state board for professional medical conduct, may order the licensee, by written notice, to discontinue or refrain from practicing medicine in whole or in part or to take certain actions authorized pursuant to this title immediately. The order of the commissioner shall constitute summary action against the licensee and become public upon issuance. The summary suspension shall remain in effect until the final conclusion of a hearing which shall commence within ninety days of the date of service of the commissioner's order, end within ninety days thereafter and otherwise be held in accordance with paragraph (a) of this subdivision, provided, however, that when the commissioner's order is based upon a finding substantially equivalent to a finding that the practice of medicine by the licensee in another jurisdiction constitutes an imminent danger to the health of its people, the hearing shall commence within thirty days after the disciplinary proceedings in that jurisdiction are finally concluded. If, at any time, the felony charge is dismissed, withdrawn or reduced to a non-felony charge, the commissioner's summary order shall terminate.

13. (a) Temporary surrender. The license and registration of a licensee who may be temporarily incapacitated for the active practice of medicine and whose alleged incapacity has not resulted in harm to a patient may be voluntarily surrendered to the board for professional medical conduct, which may accept and hold such license during the period of such alleged incapacity or the board for professional medical conduct may accept the surrender of such license after agreement to conditions to be met prior to the restoration of the license. The board shall give prompt written notification of such surrender to the division of professional licensing services of the state education department, and to each hospital at which the licensee has privileges. The licensee whose license is so surrendered shall notify all patients and all persons who request medical services that the licensee has temporarily withdrawn from the practice of medicine. The licensure status of each such licensee shall be "inactive" and the licensee shall not be authorized to practice medicine. The temporary surrender shall not be deemed to be an admission of disability or of professional misconduct, and shall not be used as evidence of a violation of subdivision seven or eight of section sixty-five hundred thirty of the education law unless the licensee practices while the license is "inactive". Any such practice shall constitute a violation of subdivision twelve of section sixty-five hundred thirty of the education law. The surrender of a license under this subdivision shall not bar any disciplinary action except action based solely upon the provisions of subdivision seven or eight of section sixty-five hundred thirty of the education law and where no harm to a patient has resulted, and shall not bar any civil or criminal action or proceeding which might be brought without regard to such surrender. A surrendered license shall be restored upon a showing to the satisfaction of a committee of professional conduct of the state board for professional medical conduct that the licensee is not incapacitated for the active practice of medicine provided, however, that the committee may impose reasonable conditions on the licensee, if it determined that due to the nature and extent of the licensee's former incapacity such conditions are necessary to protect the health of the people. The chairperson of the committee shall issue a restoration order adopting the decision of the committee. Prompt written notification of such restoration shall be given to the division of professional

licensing services of the state education department and to all hospitals which were notified of the surrender of the license.

(b) Permanent surrender. The license and registration of a licensee who may be permanently incapacitated for the active practice of medicine, and whose alleged incapacity has not resulted in harm to a patient, may be voluntarily surrendered to the board for professional medical conduct. The board shall give prompt written notification of such surrender to the division of professional licensing services of the state education department, and to each hospital at which the licensee has privileges. The licensee whose license is so surrendered shall notify all patients and all persons who request medical services that the licensee has permanently withdrawn from the practice of medicine. The permanent surrender shall not be deemed to be an admission of disability of or professional misconduct, and shall not be used as evidence of a violation of subdivision seven or eight of section sixty-five hundred thirty of the education law. The surrender shall not bar any civil or criminal action or proceeding which might be brought without regard to such surrender. There shall be no restoration of a license that has been surrendered pursuant to this subdivision.

14. Reports. The board shall prepare an annual report for the legislature, the governor and other executive offices, the medical profession, medical professional societies, consumer agencies and other interested persons. Such report shall include, but shall not be limited to, a description and analysis of the administrative procedures and operations based upon a statistical summary relating to (i) discipline, (ii) complaint, investigation, and hearing backlog and (iii) budget. Information provided for these sections shall be enumerated by regional office of the office of professional medical conduct.

* 15. The commissioner shall make grants to any physician committee as referred to in subparagraph (ii) of paragraph (c) of subdivision eleven of this section to fund the operations of such committee during the authorized demonstration period. Grants shall be awarded pursuant to an expenditure plan developed by the sponsoring organization in consultation with, and approved by the commissioner. No funds shall be made available unless the committee's procedures have been approved by the commissioner pursuant to paragraph (g) of subdivision eleven of this

section.

* NB Repealed July 1, 2028

16. Liability. Notwithstanding any other provision of law, persons who assist the department as consultants, expert witnesses, administrative officers or monitors in the investigation, prosecution or hearing of alleged professional misconduct, licensure matters, restoration proceedings, probation, or criminal prosecutions for unauthorized practice, shall not be liable for damages in any civil action or proceeding as a result of such assistance, except upon proof of actual malice. The attorney general shall defend such persons in any such action or proceeding, in accordance with section seventeen of the public officers law.

17. Monitoring. (a) A licensee may be ordered to have his or her practice monitored by another appropriate licensee after investigation and review pursuant to paragraph (a) of subdivision ten of this section, if there is reason to believe that the licensee is unable to practice medicine with reasonable skill and safety to patients.

(b) The director of the office of professional medical conduct, after consultation with the executive secretary, shall direct counsel to prepare a notice detailing the reasonable cause and a copy of the notice shall be served on the licensee. The matter shall be presented to a committee on professional conduct by an attorney for the department and the licensee shall have the opportunity to be heard by such committee and may be represented by counsel. A stenographic record of the proceeding shall be made. Service of the notice shall be in accordance with the methods of service authorized by paragraph (d) of subdivision ten of this section.

(c) If the committee determines that reasonable cause exists as specified in paragraph (a) of this subdivision and that there is insufficient evidence for the matter to constitute misconduct as defined in sections sixty-five hundred thirty and section sixty-five hundred thirty-one of the education law, the committee may issue an order directing that the licensee's practice of medicine be monitored for a period specified in the order, which shall in no event exceed one year, by a licensee approved by the director, which may include members of

county medical societies or district osteopathic societies designated by the commissioner. The licensee responsible for monitoring the licensee shall submit regular reports to the director. If the licensee refuses to cooperate with the licensee responsible for monitoring or if the monitoring licensee submits a report that the licensee is not practicing medicine with reasonable skill and safety to his or her patients, the committee may refer the matter to the director for further proceedings pursuant to subdivision ten of this section. An order pursuant to this paragraph shall be kept confidential and shall not be subject to discovery or subpoena, unless the licensee refuses to comply with the order.

(d) A licensee may not seek the appointment of a monitor pursuant to this subdivision in lieu of an order issued pursuant to subdivision seven of this section or a disciplinary proceeding pursuant to subdivision ten or twelve of this section.

18. (a) The director shall have the authority to monitor physicians, physician's assistants and specialist's assistants who have been placed on probation pursuant to a determination of professional misconduct by the board. During such period of probation, the director, or his or her designee, as provided in the order of the board, and after consultation with the executive secretary, (i) may review the professional performance of the licensee by randomly selecting office records, patient records and hospital charts, (ii) may require periodic visits by the licensee to a member of the state board for professional medical conduct or an employee of the office of professional medical conduct, (iii) may require the licensee to obtain an appropriate monitor, approved by the director, to monitor the licensee's practice, (iv) may require an audit of the licensee's billings for services rendered during probation, (v) may require the licensee to submit on a random basis to tests for the presence of alcohol or drugs, (vi) may require the licensee to obtain additional training prior to completion of the probation, (vii) may require the licensee to work in a supervised setting, (viii) may require, as a condition of the licensee's continued practice, that the licensee undergo therapy and/or treatment approved and monitored by the director, (ix) may require that the licensee comply with the requirements of the penalty imposed, and (x) may impose upon

the licensee such additional requirements as reasonably relate to the misconduct found or are necessary to protect the health of the people pursuant to regulation. The director is authorized to delegate some or all of the foregoing responsibilities to designated county medical societies and district osteopathic societies.

(b) Any health care provider licensed pursuant to this chapter or the education law, hospital licensed pursuant to article twenty-eight of this chapter or medical school that participates in a monitoring or remediation program pursuant to this subdivision and subdivision seventeen of this section shall not be liable for the negligence of the monitored licensee in providing medical care pursuant to a monitoring program. However, this paragraph does not diminish the participating provider's, hospital's or school's liability for failure to exercise reasonable care in properly carrying out its responsibilities under the program. The monitored licensee shall be required to maintain medical malpractice insurance coverage with limits no less than two million dollars per occurrence and six million dollars per policy year.

19. Upon receipt of information that indicates a licensee may be in violation of the terms or conditions of probation, the director of the office of professional medical conduct shall conduct an investigation. If the director determines that a licensee may have violated probation, the director shall give notice by letter to the licensee of the facts forming the basis of the alleged violation of probation by the licensee, that the licensee has a right to a hearing and may be represented by counsel. If the licensee does not dispute the facts forming the basis of the alleged violation of probation within twenty days of the date of the letter, the director shall submit the matter to a committee on professional conduct for its review and determination. If within twenty days of the date of the letter, the licensee disputes any of the facts forming the basis of the alleged violation of probation, the licensee shall be afforded a hearing before a committee on professional conduct to hear and make findings of fact, conclusions of law and a determination. A stenographic record of the hearing shall be made. The committee, after providing a licensee with an opportunity to be heard, shall determine whether the licensee has violated probation and shall impose an appropriate penalty as defined in section two hundred thirty-a

of this title. In determining the appropriate penalty, the committee shall consider both the violation of probation and the prior adjudication of misconduct. The chairperson of the committee shall issue an order adopting the decision of the committee on professional conduct. The order may be reviewed by the administrative review board for professional medical conduct.

*** § 230-a. Penalties for professional misconduct.** The penalties which may be imposed by the state board for professional medical conduct on a present or former licensee found guilty of professional misconduct under the definitions and proceedings prescribed in section two hundred thirty of this title and sections sixty-five hundred thirty and sixty-five hundred thirty-one of the education law are:

1. Censure and reprimand;
2. Suspension of license, (a) wholly, for a fixed period of time; (b) wholly, except to the limited extent required for the licensee to successfully complete a course of retraining; (c) wholly, until the licensee successfully completes a course of therapy or treatment prescribed by the board; (d) wholly, until the licensee completes rehabilitation to the satisfaction of the board; (e) wholly, until the licensee complies with the terms or conditions of a board order; (f) partially, until the licensee successfully completes a course of retraining in the area to which the suspension applies; (g) partially, for a specified period or until the licensee complies with the terms or conditions of a board order;
3. Limitation of the license to a specified area or type of practice;
4. Revocation of license;
5. Annulment of license or registration;
6. Limitation on registration or issuance of any further license;

7. A fine not to exceed ten thousand dollars upon each specification of charges of which the respondent is determined to be guilty;

8. A requirement that a licensee pursue a course of education or training; and

9. A requirement that a licensee perform up to five hundred hours of public service in a manner and at a time and place as directed by the board. The board may stay such penalties in whole or in part or place the licensee on probation with or without imposition of one of the penalties provided pursuant to this section. Any fine imposed pursuant to this section or pursuant to paragraph (m) of subdivision ten of section two hundred thirty of this title may be sued for and recovered in the name of the people of the state of New York in an action brought by the attorney general. In such action, the findings, determinations and order of the board shall be admissible evidence and shall be conclusive proof of the violation and the penalty assessed.

* NB There are 2 § 230-a's

* **§ 230-a. Infection control standards.** Notwithstanding any law to the contrary, including section sixty-five hundred thirty-two of the education law, the department shall promulgate rules or regulations describing scientifically accepted barrier precautions and infection control practices as standards of professional medical conduct for persons licensed under articles one hundred thirty-one and one hundred thirty-one-B of the education law. The department shall consult with the education department to ensure that regulatory standards for scientifically acceptable barrier precautions and infection prevention techniques promulgated pursuant to this section are consistent, as far as appropriate with such standards adopted by the education department applicable to persons licensed under the education law other than articles one hundred thirty-one and one hundred thirty-one-B of such law.

* NB There are 2 § 230-a's

§ 230-b. Disciplinary proceedings for physician's assistants and specialist's assistants. Disciplinary proceedings involving physician's assistants and specialist's assistants shall be conducted in accordance with the provisions of section two hundred thirty of this title.

§ 230-c. Administrative review board for professional medical conduct.

1. There is hereby created an administrative review board for professional medical conduct for the purpose of reviewing determinations of committees on professional conduct of the state board for professional medical conduct. The review board may not review a commissioner's summary order under subdivision twelve of section two hundred thirty of this title.

2. The review board shall consist of five members of the board appointed by the governor with the consent of the senate. Three of the members of the review board shall be physicians from the board for professional medical conduct. Two of the members of the review board shall be lay members from the board for professional medical conduct. The chairperson shall assign appropriate staff to assist the review board.

3. All members shall serve three year terms, provided that two of the initial appointments shall serve for a term of two years and one of the initial appointments shall serve for one year.

4. Filing and determination of review. (a) The determinations of a committee on professional conduct of the state board for professional medical conduct may be reviewed by the administrative review board for professional medical conduct. Either the licensee or the department may seek a review. A notice of review must be served by certified mail upon the administrative review board and the adverse party within fourteen days of service of the determination of the committee on professional conduct of the state board for professional medical conduct. A commissioner's summary order under subdivision twelve of section two hundred thirty of this title and the penalty in any case in which annulment, suspension without stay or revocation of the licensee's

license is ordered by the committee on professional conduct shall remain in effect until the review board renders its determination. Any penalty imposed by the order of the committee on professional medical conduct, other than a penalty of annulment, suspension without stay or revocation, is stayed by the service of the notice of review upon the administrative review board and remains stayed until the review board renders its determination. All parties have thirty days from the service of the notice of review to submit briefs to the board. A notice of review shall be perfected only if a brief is timely submitted. All parties shall have seven days from the receipt of the submitted brief to file a response. All reviews shall consist of a review of the record of the hearing and submitted briefs only. A written determination of the review board must be rendered within forty-five days of the submission of briefs and a stipulated record.

(b) The review board shall review whether or not the determination and the penalty are consistent with the findings of fact and conclusions of law and whether or not the penalty is appropriate and within the scope of penalties permitted by section two hundred thirty-a of this title. The review board shall have the authority to remand a case to the committee on professional conduct for reconsideration or further proceedings.

(c) All determinations shall be based upon a majority concurrence of the administrative review board.

(d) The administrative review board shall issue an order based upon the determination of the administrative review board. Such order shall be served on all parties by certified mail.

5. Judicial review. An order of the administrative review board for professional medical conduct or a determination of a committee in which no review by the administrative review board was requested may be reviewed pursuant to the proceedings under article seventy-eight of the civil practice law and rules. Such proceeding shall be returnable before the appellate division of the third judicial department and such decisions shall not be stayed or enjoined except upon application to such appellate division after notice to the department and to the attorney general and upon a showing that the petitioner has a substantial likelihood of success. Failure to seek an order of the

administrative review board shall not be grounds for dismissal of such a proceeding.

§ 230-d. Office-based surgery. 1. The following words or phrases, as used in this section shall have the following meanings:

(a) "Accredited status" means the full accreditation by nationally-recognized accrediting agency(ies) determined by the commissioner.

(b) "Adverse event" means (i) patient death within thirty days; (ii) unplanned transfer to a hospital or emergency department visit within seventy-two hours of office-based surgery for reasons related to the office-based surgery encounter; (iii) unscheduled hospital admission or assignment to observation services, within seventy-two hours of the office-based surgery, for longer than twenty-four hours; or (iv) any other serious or life-threatening event.

(c) "Deep sedation" means a drug-induced depression of consciousness during which (i) the patient cannot be easily aroused but responds purposefully following repeated painful stimulation; (ii) the patient's ability to maintain independent ventilatory function may be impaired; (iii) the patient may require assistance in maintaining a patent airway and spontaneous ventilation may be inadequate; and (iv) the patient's cardiovascular function is usually maintained without assistance.

(d) "General anesthesia" means a drug-induced depression of consciousness during which (i) the patient is not arousable, even by painful stimulation; (ii) the patient's ability to maintain independent ventilatory function is often impaired; (iii) the patient, in many cases, often requires assistance in maintaining a patent airway and positive pressure ventilation may be required because of depressed spontaneous ventilation or drug-induced depression of neuromuscular function; and (iv) the patient's cardiovascular function may be impaired.

(e) "Moderate sedation" means a drug-induced depression of consciousness during which (i) the patient responds purposefully to verbal commands, either alone or accompanied by light tactile stimulation; (ii) no interventions are required to maintain a patent airway; (iii) spontaneous ventilation is adequate; and (iv) the

patient's cardiovascular function is usually maintained without assistance.

(f) "Minimal sedation" means a drug-induced state during which (i) patients respond normally to verbal commands; (ii) cognitive function and coordination may be impaired; and (iii) ventilatory and cardiovascular functions are unaffected.

(g) "Minor procedures" means (i) procedures that can be performed safely with a minimum of discomfort where the likelihood of complications requiring hospitalization is minimal; (ii) procedures performed with local or topical anesthesia; or (iii) liposuction with removal of less than 500 cc of fat under unsupplemented local anesthesia.

(h) "Office-based surgery" means any surgical or other invasive procedure, requiring general anesthesia, moderate sedation, or deep sedation, and any liposuction procedure, where such surgical or other invasive procedure or liposuction is performed by a licensee in a location other than a hospital, as such term is defined in article twenty-eight of this chapter, excluding minor procedures and procedures requiring minimal sedation.

(i) "Licensee" shall mean an individual licensed or otherwise authorized under article one hundred thirty-one, one hundred thirty-one-B, individuals who have obtained an issuance of a privilege to perform podiatric standard or advanced ankle surgery pursuant to subdivisions one and two of section seven thousand nine of the education law.

2. Licensee practices in which office-based surgery is performed shall obtain and maintain full accredited status.

3. A licensee may only perform office-based surgery in a setting that has obtained and maintains full accredited status.

4. (a) Licensees shall report adverse events to the department's patient safety center within three business days of the occurrence of such adverse event. Licensees shall also report any suspected health care disease transmission originating in their practices to the patient safety center within three business days of becoming aware of such

suspected transmission. For purposes of this section, health care disease transmission shall mean the transmission of a reportable communicable disease that is blood borne from a health care professional to a patient or between patients as a result of improper infection control practices by the health care professional.

(b) The department may also require licensees to report additional data such as procedural information as needed for the interpretation of adverse events.

(c) The data reported under this subdivision shall be subject to all confidentiality provisions provided by section twenty-nine hundred ninety-eight-e of this chapter.

5. The commissioner shall make, adopt, promulgate and enforce such rules and regulations, as he or she may deem appropriate, to effectuate the purposes of this section. Where any rule or regulation under this section would affect the scope of practice of a health care practitioner licensed, registered or certified under title eight of the education law other than those licensed under articles one hundred thirty-one or one hundred thirty-one-B of the education law, the rule or regulation shall be made with the concurrence of the commissioner of education.

§ 230-e. Unauthorized pelvic examinations. For the purposes of this title, professional misconduct shall include pelvic examinations or supervising the performance of a pelvic examination in violation of subdivision seven of section twenty-five hundred four of this chapter.

* TITLE II-B

NEW YORK STATE HEALTH SERVICES CORPS

Section 231. New York state health service corps.

232. Powers and duties.

233. New York state health service corps scholarship and fellowship program.

* NB Expired July 18, 1996

*** § 231. New York state health service corps.** 1. The commissioner shall establish within the department the New York state health service corps (hereinafter "corps"). The commissioner shall have central responsibility for administering the provisions of this title with respect to increasing the availability of health services in certain eligible facilities and institutions.

2. For purposes of this title: (a) "health corps professional" means a nurse, physician's assistant, dental hygienist, occupational therapist, speech-language pathologist, audiologist, physical therapist, midwife or such other health professional, other than a physician or dentist, who is determined by the commissioner, in consultation with the commissioners of education, correctional services, mental health, mental retardation and developmental disabilities and the president of the civil service commission, to possess the skills and training appropriate to the needs of eligible institutions and facilities;

(b) "eligible institutions and facilities" shall include: (i) facilities operated by the department of correctional services, office of mental health and office of mental retardation and developmental disabilities; (ii) non-profit agencies possessing operating certificates issued by the office of mental health or office of mental retardation and developmental disabilities or under contract with the commission for the blind and visually handicapped; (iii) not-for-profit diagnostic and treatment centers licensed under article twenty-eight of this chapter which have a critical shortage of health personnel, as determined by the commissioner and which serve the medically indigent and medicaid eligible persons; (iv) AIDS service sites, as defined in this section; (v) health care facilities operated by the department, provided that at any time the total number of placements in such facilities shall not exceed ten percent of the total number of placements under this section; and (vi) in the case of midwives, not-for-profit facilities licensed under article twenty-eight of this chapter which serve the medically indigent and medicaid eligible women;

(c) "president" means the president of the New York state higher education services corporation.

(d) "AIDS service sites" means health care facilities and non-profit or public agencies, designated by the commissioner, which provide care

or treatment to persons infected with the human immunodeficiency virus (HIV) or who have acquired immunodeficiency syndrome (AIDS) and which are currently experiencing a shortage of health personnel to specifically serve such person.

* NB Expired July 18, 1996

* **§ 232. Powers and duties.** The commissioner shall, in consultation with the commissioners of education, correctional services, mental health, mental retardation and developmental disabilities and the president of the civil service commission, have the following powers and duties:

1. To recruit and select health corps professionals for service in eligible institutions and facilities;

2. To place health corps professionals in eligible institutions and facilities pursuant to agreements with the appropriate eligible institutions and facilities;

3. To select recipients of scholarships and fellowships authorized pursuant to section two hundred thirty-three of this title;

4. To develop criteria for the selection of students eligible for health corps scholarships or fellowships under the provisions of section two hundred thirty-three of this title, including, but not limited to, the student's academic achievement, previous work experience in their chosen health profession and a demonstrated interest in working with institutionalized populations or with persons infected with the human immunodeficiency virus (HIV) or who have acquired immunodeficiency syndrome (AIDS) or in a health care setting eligible pursuant to this title;

5. To accept and expend any grants, awards or other funds or appropriations as may be available to effectuate the purposes of this title subject to the limitations as to the approval of expenditures and audit as prescribed for state funds by the state finance law; and

6. To do any and all things necessary to carry out its functions, powers and duties and to effectuate the purposes of this title.

* NB Expired July 18, 1996

*** § 233. New York state health service corps scholarship and fellowship program.** 1. (a) New York state health service corps scholarships and fellowships for health corps professionals shall be awarded, within amounts appropriated, on a competitive basis, as determined by the commissioner, to students who: (i) are or will be enrolled in a program of undergraduate or graduate study to become a health care professional eligible to participate in the health service corps; and

(ii) agree to serve in eligible institutions or facilities upon satisfactory completion of their studies and upon satisfaction of applicable licensing and certification requirements; and

(iii) meet such other requirements as the commissioner, in consultation with the commissioners of education, correctional services, mental health, mental retardation and developmental disabilities, the commission for the blind and visually handicapped and the president of the civil service commission, may establish.

(b) In selecting students to be awarded such scholarships or fellowships, preference shall be given to students in the following order: (i) New York state residents who attend or plan to attend a program of undergraduate or graduate study located in New York state; (ii) New York state residents who attend or plan to attend a program of undergraduate or graduate study located out-of-state; and (iii) persons who are not residents of New York state who attend or plan to attend a program of undergraduate or graduate study located in New York state.

(c) The commissioner shall, pursuant to agreement with the appropriate agency, allocate, to the extent possible, the placement of award recipients to each catchment area or region, as defined by such agency, in which an eligible institution or facility is located.

2. Within such time as the commissioner shall by regulation provide, a recipient of an award shall have practiced as a health corps

professional in an eligible institution or facility for that number of months calculated by multiplying by eighteen the number of annual awards received by the recipient. If a recipient fails to comply fully with such conditions, the president shall be entitled to receive from such recipient an amount to be determined by the formula:

$$A = \frac{2B(T-S)}{t}$$

In which "A" is the amount the president is entitled to recover; "B" is the sum of all payments made to the recipient and the interest on such amount which would be payable if at the times such awards were paid they were loans bearing interest at the maximum prevailing rate; "t" is the total number of months in the recipient's period of obligated services; and "s" is the number of months of service actually rendered by the recipient. Any amount which the president is entitled to recover under this subdivision shall be paid within the five-year period beginning on the date that the recipient failed to comply with this condition. Any obligation to comply with such provisions shall be cancelled upon the death of the recipient. The commissioner of health shall promulgate regulations to provide for the waiver or suspension of any financial obligation when compliance would involve extreme hardship.

3. A recipient of an award shall report semi-annually to the president, on forms prescribed by him, as to the performance of the required services or the recipient's current status, commencing with the calendar year of the first award and continuing until the recipient shall have completed, or until it is determined he or she shall not be obligated to complete, the required services. The president may also require the recipient to file a report on his or her current status prior to completion of professional training during any calendar year in which an application for an additional award is not filed. The president shall make available any reports required hereunder to the commissioner. If the recipient shall fail to file any report required hereunder within thirty days of written notice to the recipient, mailed to the address shown on the last application for an award or last report filed, whichever is later, the president may impose a fine of up to one thousand dollars. The president shall have the discretion to waive the filing of a report, excuse a delay in filing, or a failure to file a

report, or waive or reduce any fine imposed for good cause shown.

* NB Expired July 18, 1996

TITLE II-C

CHARLES D. COOK OFFICE OF RURAL HEALTH

Section 234. Legislative findings and intent.

235. Definitions.

236. Charles D. Cook office of rural health created.

236-a. Study of health professional employment incentives.

236-b. Rural health council.

237. Preparation and distribution of reports.

§ 234. Legislative findings and intent. The legislature hereby finds, determines, and declares that:

1. There is a necessity to address different approaches to rural health care delivery in the state. These approaches need to support diverse community and individual needs including unique rural conditions such as low population density, a large proportion of elderly, geographic isolation, inadequate transportation, absence of economies of scale, as well as fluctuating and limited service demands.

2. It is often difficult for small, rural health care providers to obtain timely information on rural programs. Also, it is often burdensome for these providers to locate the resources to apply for aid from programs which exist to support rural health care services delivery.

3. Both private and public sectors have begun to recognize the urgency for programs that address the unique nature of rural health care access and service delivery. New rural health care programs have been established, however, these programs are administered by several organizations and municipalities. Coordination is essential to maximize their potential impact on the rural community.

4. Rural health care providers would greatly benefit if there were a single office within the department which would coordinate the administration and flow of information on rural health programs by promoting innovative and improved approaches to rural health care delivery.

§ 235. Definitions. For the purposes of this article:

1. "Rural area" shall mean a county with a population of two hundred thousand persons or less, or a town with a population density of one hundred fifty persons or less per square mile.

2. "Rural health care provider" or "rural provider" shall mean any agency, corporation, facility, or individual providing medical and/or health care services to residents of a rural area.

3. "Office" shall mean the Charles D. Cook office of rural health, as created pursuant to section two hundred thirty-six of this article.

4. "Rural health council" shall mean the rural health council established pursuant to section two hundred thirty-six-b of this title.

§ 236. Charles D. Cook office of rural health created. There is hereby created the Charles D. Cook office of rural health within the state department of health. Such office shall:

1. Integrate and coordinate selected state health care grant and loan programs established specifically for rural health care providers and residents. As part of this function, the office shall develop a coordinated application process for use by rural providers, municipalities and others in seeking funds and/or technical assistance on pertinent rural health care programs and services. The office shall also work to promote the usage of the Rural Assistance Information Network (RAIN) to assist rural providers and others in obtaining information on funding and/or technical assistance for rural health care

programs and services.

2. Apply for grants, and accept gifts from private and public sources for research to improve and enhance rural health care services and facilities. The office shall also promote rural health research in universities and colleges.

3. Together with the rural health council, serve as liaison and advocate for the department on rural health matters. This function shall include the provision of staff support to the rural health council and the establishment of appropriate program linkages with related federal, state, and local agencies and programs such as the office of rural affairs, the agricultural extension service and migrant health services.

4. Assist medical schools and state agencies to develop comprehensive programs to improve rural health personnel supply by promoting rural clinical training and curriculum improvement, and disseminating rural health career information to high school and college students.

5. Promote community strategic planning or new or improved health care delivery systems and networks in rural areas. Strategic network planning and development may include such considerations as personnel, capital facilities, reimbursement, primary care, long term care, acute care, rehabilitative, preventive, and related services on the health continuum.

6. Review the impact of programs, regulations, and health care reimbursement policies on rural services delivery and access.

§ 236-a. Study of health professional employment incentives. 1. The legislature hereby finds and declares that:

a. Some parts of rural New York are suffering from physician and nurse practitioner shortages forcing residents to forego proper care or travel long distances to receive health care. Rural areas have particular characteristics such as low population density, inadequate

transportation, increasing elderly population, and a lack of economies of scale. These issues make recruiting and retaining physicians and nurse practitioners in rural areas more challenging than in suburban and urban settings.

b. Therefore it is incumbent upon the state to provide incentives and assistance to physicians and nurse practitioners willing to practice in these shortage areas.

2. The Charles D. Cook office of rural health, in consultation with the rural health council, is hereby authorized and directed to conduct a study to analyze incentive options to encourage physicians and nurse practitioners to practice in rural, underserved areas. The report shall contain, but not be limited to, evaluations of the following incentive options: high needs service bonuses, signing bonuses, tax credits, small business assistance for beginning practices, programs designed to recruit high school students, and rural medical education tracks in medical schools. The report shall contain an analysis of current state level loan repayment programs and their effectiveness and may consider any similar local programs. The report shall also provide information on federal programs and their impact on New York state rural physician and nurse practitioner recruitment. The study shall make recommendations as to which incentives are the most effective in recruitment and retention of such health professionals.

3. The director of the Charles D. Cook office of rural health is hereby directed to prepare and present to the legislature, on or before March first of the year next succeeding the effective date of this section, a report containing a summary of its findings and recommendations.

§ 236-b. Rural health council. 1. There shall be established within the office a rural health council to be composed of twenty-one members who shall be appointed by the governor, with ten of these members appointed as follows:

- a. four members upon the recommendation of the temporary president of the senate;
- b. one member upon the recommendation of the minority leader of the senate;
- c. four members upon the recommendation of the speaker of the assembly; and
- d. one member upon the recommendation of the minority leader of the assembly.

Vacancies in the membership of such council shall be filled by the appropriate appointing authority. The governor shall select a chairperson from among the members of the council. The members of the council shall be reflective of the state's rural areas, as defined in subdivision seven of section four hundred eighty-one of the executive law, and shall include representatives of health care providers that comprise the health care delivery system in the state's rural areas, individuals with expertise in clinical and administrative aspects of health care delivery, health care financing and reimbursement, health care regulation, public health, health planning, health workforce education, and behavioral health.

2. The rural health council shall be responsible for advising the commissioner with respect to all aspects of rural health care and rural health care delivery including, but not limited to, the impact of proposed programs, statutes, regulations and health care reimbursement policies. The rural health council shall also assist the office with its responsibilities as delineated in section two hundred thirty-six of this title; contribute to the biennial report required pursuant to section two hundred thirty-seven of this title, and act as liaison and advocate on rural health matters.

3. The rural health council shall recommend to the department cost-effective ways to obtain timely data on the status of the health care workforce supply in rural areas. At least once every three years

the rural health council shall, in conjunction with the office, submit a report to the regional economic development councils on the status of the health care workforce supply in their respective regions to the extent data on the health care workforce supply is available.

4. Staff support for the rural health council shall be provided for by the office as provided for in section two hundred thirty-six of this title.

5. The rural health council shall meet as frequently as its business may require, but not less than two times a year. Meetings may be called by the chairperson at the request of the commissioner.

6. The entirety of each meeting of the rural health council shall be live webcast to the public on the department's website, and archived on the department's website, for a period of no less than two years, within twenty-four hours of the adjournment of the last meeting. The department shall provide notice to the public, via the department's website, of the availability of the live webcast of each such meeting.

7. The members of the rural health council shall receive no compensation for their services, but shall be allowed their actual and necessary expenses incurred in the performance of their duties hereunder.

§ 237. Preparation and distribution of reports. The department shall submit a biennial report to the governor and the legislature describing the activities of the office and health status of rural areas. The first such report shall be transmitted on or before September first, nineteen hundred ninety-three. Such report shall contain the following information:

1. Activities of the Charles D. Cook office of rural health, expenditures incurred in carrying out such activities, and anticipated activities to be undertaken in the future;

2. Progress in carrying out the functions and duties listed in section two hundred thirty-six of this article.

3. An analysis of the health status of rural citizens and the status of rural health delivery systems. Such analysis shall be conducted in cooperation with the rural health council and other interested agencies.

4. Any recommended improvements to programs and/or regulations that would enhance the cost effectiveness of the office, and programs intended to meet the health care needs of rural residents.

5. Notwithstanding any other provision of law to the contrary, such biennial report may also incorporate the reporting requirements for cooperative programs and networks for health care delivery in underserved rural areas as required by section twenty-nine hundred fifty-three of the public health law.

TITLE II-D

HEALTH CARE PRACTITIONER REFERRALS

Section 238. Definitions.

238-a. Prohibition of financial arrangements and referrals.

238-b. Provider requests for payment.

238-c. Provider reporting requirements.

238-d. Practitioner disclosure requirements.

238-e. Study of referrals by practitioners.

§ 238. Definitions. As used in this title, the following terms shall have the following meanings, unless the context clearly requires otherwise:

1. "Clinical laboratory services" shall mean the microbiological, serological, chemical, hematological, biophysical, cytological or pathological examination of materials derived from the human body, for the purposes of obtaining information for the diagnosis, prevention, or treatment of disease or the assessment of health condition.

2. "Fair market value" shall mean the value in arms length transactions, consistent with the general market value, and, with respect to rentals or leases, the value of rental property for general commercial purposes, not taking into account its intended use, and, in the case of a lease of space, not adjusted to reflect the additional value the prospective lessee or lessor would attribute to the proximity or convenience to the lessor where the lessor is a potential source of patient referrals to the lessee.

3. "Financial relationship" shall mean an ownership interest, investment interest or compensation arrangement.

4. "General hospital" shall have the same meaning as is set forth in subdivision ten of section twenty-eight hundred one of this chapter.

5. "Group practice" shall mean a group of two or more practitioners organized as a partnership, professional corporation, foundation, not-for-profit corporation, faculty practice plan or similar association; and

(a) in which each practitioner who is a member of the group provides substantially the full range of services which the practitioner routinely provides, including medical care, consultation, diagnosis or treatment, through the joint use of shared office space, facilities, equipment and personnel; and

(b) for which substantially all of the services of the practitioners who are members of the group are provided through the group and are billed in the name of the group and amounts so received are treated as receipts of the group; and

(c) in which the overhead expenses of the income from the practice are distributed in accordance with methods previously determined by members of the group; and

(d) provided, however, in the case of a faculty practice plan associated with a hospital with an approved residency training program in which practitioner members may provide a variety of different specialty services and provide professional services both within and outside the group, as well as perform other tasks such as research, the

provisions of paragraphs (a), (b) and (c) of this subdivision shall be applied only with respect to the services provided within the faculty practice plan.

6. "Health care provider" shall mean a practitioner in an individual practice, group practice, partnership, professional corporation or other authorized form of association, a hospital or other health care institution issued an operating certificate pursuant to this chapter or the mental hygiene law, a certified home health agency or a licensed home care services agency, and any other purveyor of health or health related items or services including but not limited to a clinical laboratory, a physiological laboratory, a pharmacy, a purveyor of x-ray or imaging services, a purveyor of physical therapy services, a purveyor of health or health related supplies, appliances or equipment, or an ambulance service.

7. "Health or health related items or services" shall include, but not be limited to, items and services available under the medical assistance program pursuant to title eleven of article five of the social services law.

8. "Immediate family member" shall include spouse; birth and adoptive parents, children and siblings; stepparents, stepchildren and stepsiblings; fathers-in-law, mothers-in-law, brothers-in-law, sisters-in-law, sons-in-law and daughters-in-law; and grandparents and grandchildren.

9. "Interested investor" shall mean, with respect to a health care provider, an investor who is a practitioner in a position to make or to influence referrals or business to the health care provider, or who is an immediate family member of such an investor.

10. "Investor" shall mean, with respect to a health care provider, a person with a financial relationship with the health care provider, subject to the exceptions provided in paragraph (b) of subdivision three, subdivision four and paragraph (b) of subdivision five of section two hundred thirty-eight-a of this title.

11. "Practitioner" shall mean a licensed or registered physician, dentist, podiatrist, chiropractor, nurse, midwife, physician assistant or specialist assistant, physical therapist, or optometrist.

12. "Rural" shall mean (i) a county with a population of two hundred thousand persons or less, or a town with a population density of one hundred fifty persons or less per square mile; and (ii) other rural areas pursuant to standards promulgated in regulation by the commissioner.

13. "X-ray or imaging services" shall mean diagnostic imaging techniques which shall include but not be limited to the following:

- (a) Conventional x-ray or radiology.
- (b) Fluoroscopy.
- (c) Digital radiography.
- (d) Computed tomography.
- (e) Magnetic resonance imaging.
- (f) Nuclear imaging.
- (g) Ultrasonography.
- (h) Angiography.

14. "Pharmacy services" shall mean the preparing, compounding, preserving or, the dispensing of drugs, medicines and therapeutic devices on the basis of prescriptions or other legal authority.

15. "Radiation therapy services" shall mean the use of high energy x-rays, particles, or radiation materials for the treatment of cancer and other diseases.

16. "Physical therapy services" means physical therapy as defined by section sixty-seven hundred thirty-one of the education law.

17. "Public health council" shall mean the public health and health planning council.

§ 238-a. Prohibition of financial arrangements and referrals. 1. (a)

A practitioner authorized to order clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services may not make a referral for such services to a health care provider authorized to provide such services where such practitioner or immediate family member of such practitioner has a financial relationship with such health care provider.

(b) A health care provider or a referring practitioner may not present or cause to be presented to any individual or third party payor or other entity a claim, bill, or other demand for payment for clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services furnished pursuant to a referral prohibited by this subdivision.

2. Subdivision one of this section shall not apply in any of the following cases:

(a) practitioners' services - in the case of practitioners' services provided personally by, or under the supervision of, another practitioner in the same group practice as the referring practitioner;

(b) in-office ancillary services - in the case of health or health related items or services (i) that are furnished personally by the referring practitioner, personally by a practitioner who is a member of the same group practice as the referring practitioner, or personally by individuals who are employed by such practitioner or group practice and who are supervised by the practitioner or by another practitioner in the group practice; and in a building in which the referring practitioner, or another practitioner who is a member of the same group practice, furnishes practitioners' services unrelated to the furnishing of such items or services, or in the case of a referring practitioner who is a member of a group practice, in another building which is used by the group practice for the centralized provision of such items or services of the group; and (ii) that are billed by the practitioner performing or supervising the services, by a group practice of which such practitioner is a member, or by an entity that is wholly owned by such practitioner or such group practice;

(c) in the case of health or health related items or services furnished to subscribers of a health maintenance organization operating

pursuant to article forty-three of the insurance law or article forty-four of this chapter, participants in a managed care program operating pursuant to section three hundred sixty-four-j of the social services law or persons enrolled in a prepaid health services plan authorized by law;

(d) in the case of a referral for inpatient hospital services, including services by hospital staff practitioners provided in the hospital;

(e) in the case of a referral of a hospital inpatient, outpatient or emergency services patient for clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services provided by the hospital, including services by hospital staff practitioners provided in the hospital;

(f) in the case of a financial relationship with a general hospital if the financial relationship does not relate specifically to the provision of clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services for which the referral was made; and

(g) in the case of any other financial relationship which the public health council determines and specifies in regulations, subject to approval by the commissioner, does not pose a substantial risk of payor or patient abuse in relation to patient benefits consistent, to the extent practicable, with financial relationships specified in regulations adopted pursuant to federal law applicable to reimbursement pursuant to title XVIII of the federal social security act (medicare) for clinical laboratory services provided to beneficiaries of title XVIII of the federal social security act (medicare).

3. For the purposes of this section, an ownership interest or an investment interest:

(a) may be through equity, debt or other means; but

(b) shall not include ownership of investment securities, including shares or bonds, debentures, notes or other debt instruments, which were purchased on terms generally available to the public and which are in a corporation that is listed for trading on the New York stock exchange or on the American stock exchange, or is a national market system security traded under an automated interdealer quotation system operated by the

national association of securities dealers, and had, at the end of the corporation's most recent fiscal year, total assets exceeding one hundred million dollars or to the extent such ownership would be permitted by federal law or regulation if the services rendered were clinical laboratory services provided to beneficiaries of title XVIII of the federal social security act (medicare).

4. An ownership interest or an investment interest shall not be subject to subdivision one of this section if:

(a) the health care provider authorized to provide clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services is in a rural area and the referring practitioner or the patient is in such rural area; or

(b) the clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services are provided by a general hospital, the referring practitioner is authorized to perform services at such general hospital and the ownership or investment interest is in the general hospital itself and not merely in a subdivision thereof; or

(c) the clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services are provided by an ambulatory surgical center issued an operating certificate pursuant to article twenty-eight of this chapter in conjunction with a surgical procedure performed by the referring practitioner at the ambulatory surgical center;

(d) and if each practitioner who is an interested investor in a health care provider within a category specified in paragraph (a), (b) or (c) of this subdivision and who makes a referral of a patient to such health care provider discloses to the patient, in a brief and reasonable form and manner specified in regulations proposed by the commissioner after consultation with representatives of consumer and physician organizations and adopted by the public health council, subject to approval by the commissioner, the practitioner's, or family member's ownership interest or investment interest in the health care provider and the patient's right to utilize a specifically identified alternative health care provider if any such alternative is reasonably available.

5. (a) For the purposes of this section, a compensation arrangement means any arrangement involving any remuneration between a practitioner, or immediate family member, and a health care provider. The term remuneration includes any remuneration, directly or indirectly, overtly or covertly, in cash or in kind.

(b) For the purposes of this section a compensation arrangement shall not include:

(i) payments made for the rental or lease of office space, if (A) there is a written agreement, signed by the parties, for the rental or lease of the space, which agreement specifies the space covered by the agreement and dedicated for the use of the lessee, provides for a term of rental or lease of at least one year, provides for a payment on a periodic basis of an amount that is consistent with fair market value, provides for an amount of aggregate payments that does not vary, directly or indirectly, based on the volume or value of any referrals of business between the parties, and would be considered to be commercially reasonable even if no referrals were made between the parties; or (B) in the case of rental or lease of office space in which a practitioner who is an interested investor, or an interested investor who is an immediate family member of the practitioner, has an ownership or investment interest, the office space is in the same building as the building in which the practitioner or group practice of which the practitioner is a member has a practice;

(ii) an arrangement between a general hospital and a practitioner, or immediate family member, for the employment of the practitioner, or immediate family member, or for the provision of administrative services, if the arrangement is for identifiable services, the amount of remuneration under the arrangement is consistent with the fair market value of the services, the remuneration is not determined in a manner that takes into account, directly or indirectly, the volume or value of any referrals by the referring practitioner and such remuneration is provided pursuant to an agreement which would be commercially reasonable even if no referrals were made to the general hospital;

(iii) an arrangement between a health care provider other than a general hospital and a practitioner if (A) the arrangement is for specific identifiable services as the medical director or as a member of a medical advisory board at the provider, for specific identifiable

practitioner services to be furnished to an individual receiving hospice care payable as hospice care, for specific practitioners' services furnished to a non-profit blood center, or for specific identifiable administrative services, other than direct patient care services, but only under exceptional circumstances; and (B) the amount of remuneration under the arrangement is consistent with the fair market value of the services, the remuneration is not determined in a manner that takes into account, directly or indirectly, the volume or value of any referrals by the referring practitioner and such remuneration is provided pursuant to an agreement which would be commercially reasonable even if no referrals were made;

(iv) remuneration which is provided by a general hospital to a practitioner to induce the practitioner to relocate to the geographic area served by the general hospital in order to be a member of the medical staff of the general hospital if the practitioner is not required to refer patients to the hospital and the amount of the remuneration under the arrangement is not determined in a manner that takes into account directly or indirectly the volume or value of any referrals by the referring practitioner;

(v) an isolated financial transaction, such as a one-time sale of property, if the amount of remuneration under the arrangement is consistent with the fair market value, the remuneration is not determined in a manner that takes into account, directly or indirectly, the volume or value of any referrals by the referring practitioner and such remuneration is provided pursuant to an agreement which would be commercially reasonable even if no referrals were made;

(vi) a compensation arrangement involving payment by a group practice of the salary of a practitioner member of the group practice;

(vii) and provided that any arrangement specified in subparagraphs (i) through (vi) of this paragraph meets such other requirements as the public health council may impose by regulation, subject to approval by the commissioner, as needed to protect against payor or patient abuse consistent with requirements imposed by regulations adopted pursuant to federal law applicable to reimbursement pursuant to title XVIII of the federal social security act (medicare) for clinical laboratory services provided to beneficiaries of title XVIII of the federal social security act (medicare);

(viii) an arrangement between a health care provider and an immediate family member of a practitioner for the employment of the immediate family member which the commissioner determines on application by the parties does not pose a substantial risk of payor or patient abuse in relation to patient benefits subject to such requirements as the commissioner shall determine necessary to protect the public interest, and which for a clinical laboratory that provides services to beneficiaries to title XVIII of the federal social security act (medicare) qualifies for an exception from the prohibitions on such compensation arrangements for purposes of reimbursement of clinical laboratory services pursuant to title XVIII of the federal social security act (medicare). Such application shall be in a form and content specified by the commissioner after consultation with representatives of consumer and physician organizations. The commissioner shall make such determination within sixty days of receipt of a complete application.

6. For the purposes of this title:

(a) in the case of clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services, the request by a practitioner for such services, including the request by a practitioner for a consultation with another practitioner, and any test or procedure ordered by, or to be performed by or under the supervision of that other practitioner, shall constitute a referral by a referring practitioner; and

(b) in the case of clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services, the request or establishment of a plan of care by a practitioner which includes the provision of clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services shall constitute a referral by a referring practitioner;

(c) provided further, however, that the following shall not constitute a referral by a referring practitioner:

(i) a request by a practitioner for practitioners' services consisting solely of professional services to be furnished personally by that practitioner, or under that practitioner's supervision;

(ii) a request by a pathologist for clinical diagnostic laboratory

tests and pathological examination services, if such services are furnished by or under the supervision of such pathologist pursuant to a consultation requested by another practitioner; and

(iii) a request by a radiologist for diagnostic x-ray or imaging services, if such services are furnished by or under the supervision of such radiologist pursuant to a consultation requested by another practitioner.

7. If a referring practitioner or a health care provider furnishing clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services or any other person or entity collects any amounts that were billed in violation of this section, such referring practitioner and health care provider and other person or entity shall be jointly and severally liable to the payor for any amounts so collected.

8. Each health care provider furnishing clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services shall submit such information as reasonably may be required by the department for purposes of this title.

9. Subdivision one of this section shall apply to an arrangement or scheme, such as a cross-referral arrangement, which the practitioner or health care provider knows or should know has a principal purpose of assuring referrals by the practitioner for clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services to a particular health care provider which, if the practitioner directly made referrals to such health care provider, would be in violation of subdivision one of this section.

10. The public health council shall adopt rules and regulations, subject to approval by the commissioner, necessary to effectuate the provisions and purposes of this title.

§ 238-b. Provider requests for payment. Each request for payment or bill submitted by a health care provider for clinical laboratory,

pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services for which the provider knows or has reason to believe that there has been a referral by a referring practitioner who is an interested investor in the health care provider shall identify the referring practitioner by name and by professional license number or any appropriate program provider number. The provisions of this section shall not apply to requests for payment or bills the content of which are regulated solely by federal law or regulation and to services excluded pursuant to paragraph (a), (b), (c), (d) or (e) of subdivision two of section two hundred thirty-eight-a of this title from the prohibitions of subdivision one of section two hundred thirty-eight-a of this title.

§ 238-c. Provider reporting requirements. Each health care provider providing clinical laboratory, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services shall report to the commissioner in writing every two years information concerning the provider's ownership arrangements, including the health or health related items or services provided by the provider and the names and professional license numbers or any appropriate program provider numbers of practitioners with an ownership or investment interest in the provider, or whose immediate relatives have such an ownership or investment. The information required to be reported to the commissioner pursuant to this section to the extent practicable shall be consistent with the information required pursuant to federal law and regulations to be reported to the secretary of health and human services for health care providers providing items or services to beneficiaries of title XVIII of the federal social security act (medicare). The commissioner shall consult with the commissioner of social services to avoid duplication of reporting requirements for health care providers that participate in the medical assistance program pursuant to title eleven of article five of the social services law.

§ 238-d. Practitioner disclosure requirements. 1. With respect to referrals not prohibited pursuant to this title, and except as provided

in subdivision three of this section, a practitioner may not make a referral to a health care provider for the furnishing of any health or health related items or services where such practitioner or immediate family member of such practitioner has any of the following financial relationships without disclosing to the patient such financial relationship:

(a) an ownership or investment interest, as defined in subdivision three of section two hundred thirty-eight-a of this title, with such health care provider; or

(b) a compensation arrangement, as defined in subdivision five of section two hundred thirty-eight-a of this title, with such health care provider which is in excess of fair market value or which provides for compensation that varies directly or indirectly based on the volume or value of any referrals of business between the parties.

2. The disclosure shall provide notice of any such financial relationship and shall also inform the patient of his or her right to utilize a specifically identified alternative health care provider if any such alternative is reasonably available, and shall be provided in a brief and reasonable form and manner specified in regulations proposed by the commissioner in consultation with consumer and physician organizations and adopted by the public health council, subject to approval by the commissioner.

3. Disclosure pursuant to this section shall not be required for a referral for the furnishing of any health or health related items or services under circumstances for which a referral of clinical laboratory services, pharmacy services, radiation therapy services, physical therapy services or x-ray or imaging services would not be prohibited pursuant to section two hundred thirty-eight-a of this title, provided that any disclosure required by section two hundred thirty-eight-a of this title remains applicable.

§ 238-e. Study of referrals by practitioners. 1. The commissioner may conduct a study of the ownership of or financial interests in health care providers by referring practitioners. Such study shall investigate:

(a) the types of such ownership arrangements and types of services offered under such arrangements; (b) the effect of such arrangements on the utilization of health or health related items and services; and (c) the effect of such arrangements on independent providers of similar services.

2. For the purposes of the study authorized by this section, the commissioner is authorized to request and any health care provider or practitioner shall provide, such information regarding those matters which the commissioner is authorized to study pursuant to subdivision one of this section in such form as may be prescribed by the commissioner.

3. Patient and practitioner identifying information collected pursuant to this section shall be confidential and not subject to disclosure.

TITLE II-E

HIV/HBV/HCV PREVENTION TRAINING

Section 239. Course work or training in infection control practices.

239-a. Infection control guidelines.

239-b. Study on multidose vials and disposable medical equipment.

§ 239. Course work or training in infection control practices. (a) Every physician, physician assistant and specialist assistant practicing in the state shall, on or before July first, nineteen hundred ninety-four and every four years thereafter, complete course work or training, appropriate to the professional's practice, approved by the department regarding infection control, which shall include sepsis, and barrier precautions, including engineering and work practice controls, in accordance with regulatory standards promulgated by the department in consultation with the department of education, to prevent the transmission of HIV, HBV, HCV and infections that could lead to sepsis in the course of professional practice. Such coursework or training must also be completed by every medical student, medical resident and

physician assistant student in the state as part of the orientation programs conducted by medical schools, medical residency programs and physician assistant programs.

(b) Every physician, physician assistant, specialist assistant, medical student, medical resident and physician assistant student must provide to the department documentation demonstrating the completion of and competence in the coursework or training required under subdivision (a) of this section, provided however, that physicians subject to the provisions of paragraph (f) of subdivision one of section twenty-eight hundred five-k of this chapter shall not be required to provide such documentation to the department.

(c) The department shall provide an exemption from the requirements imposed by subdivision (a) of this section to anyone who requests such an exemption and who (i) clearly demonstrates to the department's satisfaction that there would be no need for him or her to complete such course work or training because of the nature of his or her practice or (ii) that he or she has completed course work or training deemed by the department to be equivalent to the standards for course work or training approved by the department pursuant to this section. An individual granted an exemption must reapply to continue such exemption every four years.

(d) The department shall consult with organizations representative of professions, institutions and those with expertise in infection control and HIV, HBV, and HCV with respect to the regulatory standards promulgated pursuant to this section. On or before September first, two thousand eight, and periodically thereafter as determined necessary by the commissioner, the department, including its patient safety center, in consultation with the council on graduate medical education, shall review and revise the content of the coursework or training in infection control practices as necessary to ensure that such content: (i) reflects the current infection control practices and standards accepted and promoted by the medical and scientific communities; (ii) focuses particular attention on instruction in standards of practice for which compliance is suboptimal based on the department's experience; and (iii) emphasizes the application of infection control standards and practices in outpatient and ambulatory settings.

§ 239-a. Infection control guidelines. The commissioner shall develop evidence-based guidelines that identify key infection control practices in inpatient and outpatient medical care settings. Such guidelines shall specifically cover safe injection practices. On or before January first, two thousand nine, and every year thereafter, the department will distribute these guidelines to physicians, specialist assistants and physician assistants. Such guidelines shall also be made publicly available.

§ 239-b. Study on multidose vials and disposable medical equipment. The department shall conduct a study on medications packaged in multidose vials and disposable medical equipment, including but not limited to syringes, needles, stopcocks and tubing. Such study shall examine:

1. existing utilization patterns of multidose vials and disposable medical equipment;
2. the potential to improve infection control practices by restricting the use of multidose vials and mandating the use of disposable medical equipment engineered for single use; and
3. the viability of restricting the use of multidose vials and mandating the use of disposable medical equipment engineered for single use. On or before January first, two thousand nine, the commissioner shall provide the governor, the speaker of the assembly, the temporary president of the senate, and the chairpersons of the assembly and senate health committees with a report setting forth the conclusions of the study and the commissioner's recommendations regarding multidose vials and disposable medical equipment.

TITLE II-F

OFFICE OF HEALTH EQUITY

Section 240*2. Definitions.

241*2. Office of minority health created.

242*2. Preparation and distribution of reports.

243*2. Minority health council.

244. Transgender and non-binary (TGNB) wellness and equity program.

*** § 240. Definitions.** For the purposes of this article:

1. "Underserved populations" shall mean those who have experienced injustices and disadvantages as a result of their race, ethnicity, sexual orientation, gender identity, gender expression, disability status, age, immigration status, and/or socioeconomic status, among others as determined by the commissioner of health.

2. "Racially and ethnically diverse area" shall mean a county with a non-white population of forty percent or more, or the service area of an agency, corporation, facility or individual providing medical and/or health services whose non-white population is forty percent or more.

3. "Provider" shall mean any agency, corporation, facility, or individual providing medical and/or health care services to underserved populations.

4. "Office" shall mean the office of health equity, as created pursuant to section two hundred forty-one of this title.

5. "Health equity council" shall mean that advisory body to the commissioner, created pursuant to the provisions of section two hundred forty-three of this title.

6. "Health disparities" shall mean measurable differences in health status, access to care, and quality of care as determined by race, ethnicity, sexual orientation, gender identity, a preferred language other than English, gender expression, disability status, aging population, immigration status, and socioeconomic status.

7. "Health equity" shall mean achieving the highest level of health for all people and shall entail focused efforts to address avoidable inequalities by equalizing those conditions for health for those that have experienced injustices, socioeconomic disadvantages, and systemic disadvantages.

8. "Social determinants of health" shall mean life-enhancing resources, such as availability of healthful foods, quality housing, economic opportunity, social relationships, transportation, education, and health care, whose distribution across populations effectively determines the length and quality of life.

* NB There are 2 § 240's

*** § 241. Office of health equity created.** There is hereby created an office of health equity within the state department of health. Such office shall:

1. Work collaboratively with other state agencies and affected stakeholders, including providers and representatives of underserved populations, in order to set priorities, collect and disseminate data, and align resources within the department and across other state agencies. The office shall also conduct health promotion and educational outreach, as well as develop and implement interventions aimed at achieving health equity among underserved populations by implementing strategies to address the varying complex causes of health disparities, including the economic, physical, and social environments.

2. Integrate and coordinate selected state health care grant and loan programs established specifically for promoting health equity in New York state. As part of this function, the office shall develop a coordinated application process for use by providers, municipalities and others in seeking funds and/or technical assistance on pertinent programs and services targeted to address health equity among underserved populations.

3. Apply for grants, and accept gifts from private and public sources

for research to improve and enhance health equity. The office shall also promote health equity research in universities and colleges.

4. Together with the health equity council, serve as liaison and advocate for the department on health equity matters. This function shall include the provision of staff support to the health equity council and the establishment of appropriate program linkages with related federal, state, and local agencies and programs such as the office of health equity of the public health service, the agricultural extension service and migrant health services.

5. Assist medical schools and state agencies to develop comprehensive programs to improve the diversity of health personnel workforce by promoting health equity clinical training and curriculum improvement, and disseminating health career information to high school and college students.

6. Promote community strategic planning to address the complex causes of health disparities, including the social determinants of health and health care delivery systems and networks, in order to improve health equity. Strategic network planning and development may include such considerations as healthful foods, quality housing, economic opportunity, social relationships, transportation, and education, as well as health care systems, including associated personnel, capital facilities, reimbursement, primary care, long-term care, acute care, rehabilitative, preventive, and related services on the health continuum.

7. Review the impact of programs, regulations, and policies on health equity.

* NB There are 2 § 241's

*** § 242. Preparation and distribution of reports.** The department shall submit a biennial report to the governor and the legislature describing the activities of the office and health status of minority areas. The first such report shall be transmitted on or before September first,

nineteen hundred ninety-four. Such report shall contain the following information:

1. Activities of the office of health equity, expenditures incurred in carrying out such activities, and anticipated activities to be undertaken in the future.

2. Progress in carrying out the functions and duties listed in section two hundred forty-one of this title.

3. An analysis of the health status of underserved populations, including those populations within racially and ethnically diverse areas, and the status of health delivery systems serving those communities. Such analysis shall be conducted in cooperation with the health equity council and other interested agencies.

4. Any recommended improvements to programs and/or regulations that would enhance the cost effectiveness of the office, and programs intended to meet the health and health care needs of underserved populations.

* NB There are 2 § 242's

*** § 243. Health equity council.** 1. Appointment of members. There shall be established in the office of health equity a health equity council to consist of the commissioner and fourteen members to be appointed by the governor with the advice and consent of the senate. Membership on the council shall be reflective of the diversity of the state's population including, but not limited to, the various underserved populations throughout the state.

2. Terms of office; vacancies. a. Unless specified otherwise in the bylaws of the health equity council, the terms of office of members of the health equity council may be up to six years. The members of the health equity council shall continue in office until the expiration of their terms and until their successors are appointed and have qualified. Such appointments shall be made by the governor, with the advice and

consent of the senate, within one year following the expiration of such terms.

b. Vacancies shall be filled by appointment by the governor for the unexpired terms within one year of the date upon which such vacancies occur. Any vacancy existing on the effective date of paragraph c of this subdivision shall be filled by appointment within one year of such effective date.

c. In making appointments to the council, the governor shall seek to ensure that membership on the council reflects the diversity of the state's population including, but not limited to the various underserved populations throughout the state.

3. Meetings. a. The health equity council shall meet as frequently as its business may require, and at least twice in each year.

b. The governor shall designate one of the members of the public health and health planning council as its chair.

c. A majority of the appointed voting membership of the health equity council shall constitute a quorum.

4. Compensation and expenses. The members of the council shall serve without compensation other than reimbursement of actual and necessary expenses.

5. Powers and duties. The health equity council shall, at the request of the commissioner, consider any matter relating to the preservation and improvement of health status among the state's underserved populations, and may advise the commissioner on any recommendations relating to the preservation and improvement of health equity.

6. Sickle cell disease. a. The health equity council shall consider, and advise the commissioner regarding sickle cell disease.

b. The council shall issue recommendations to the commissioner to

promote screening and detection of sickle cell disease, especially among unserved or underserved populations; to educate the public regarding sickle cell disease and the benefits of early detection; and to provide counseling and referral services. For purposes of this subdivision, "unserved or underserved populations" means people having inadequate access and financial resources to obtain sickle cell disease screening and detection services, including people who lack health coverage or whose health coverage is inadequate or who cannot meet the financial requirements of their coverage for accessing detection services.

c. The council shall consider the feasibility of the following:

(i) the establishment of a statewide public education and outreach campaign to publicize evidence based sickle cell disease screening, detection and education services. The campaign shall include: general community education, outreach to specific underserved populations, evidence based clinical sickle cell disease screening services, and an informational summary that shall include an explanation of the importance of clinical examinations and what to expect during clinical examinations and sickle cell disease screening services;

(ii) the provision of grants to approved organizations;

(iii) the compilation of data concerning sickle cell disease and dissemination of such data to the public; and

(iv) the development of health care professional education programs including the benefits of early detection of sickle cell disease and clinical examinations, the recommended frequency of clinical examinations and sickle cell disease screening services, and professionally recognized best practices guidelines.

* NB There are 2 § 243's

§ 244. Transgender and non-binary (TGNB) wellness and equity program.

1. The department, through the AIDS institute, shall establish and operate a transgender and non-binary (TGNB) wellness and equity program as authorized pursuant to this section. Such program shall be established by April first, two thousand twenty-three.

2. The transgender and non-binary (TGNB) wellness and equity program

shall be designed to:

(a) Increase the capacity of grassroots organizations working at the local level and ensure New York state invests in organizations serving transgender, gender nonconforming, non-binary and intersex individuals.

(b) Increase transgender, gender nonconforming, non-binary and intersex cultural competence by investing in cultural competency programs or curriculums that are designed by, or in consultation with, transgender, gender nonconforming, non-binary and intersex individuals.

(c) Address inequities in current funding distribution for organizations serving transgender, gender nonconforming, non-binary and intersex individuals, including but not limited to organizations located outside of the city of New York.

(d) Enable unemployed transgender, gender nonconforming, non-binary and intersex residents of New York to become gainfully employed taxpayers through job training and job placement services provided by organizations serving transgender, gender nonconforming, non-binary and intersex individuals.

(e) Foster new and emerging transgender, gender nonconforming, non-binary and intersex leadership through capacity building support.

(f) Decrease homelessness and increase access to social services by investing in organizations primarily serving transgender, gender nonconforming, non-binary and intersex individuals and that provide housing solutions dedicated to transgender, gender nonconforming, non-binary and intersex individuals.

3. Subject to appropriation, moneys in the transgender and non-binary (TGNB) wellness and equity program fund, pursuant to section ninety-five-k of the state finance law, may be used for the following purposes:

(a) Identifying community-based organizations involving and serving transgender, gender nonconforming, non-binary and intersex individuals and providing them with grants to expand their existing work involving and serving transgender, gender nonconforming, non-binary and intersex individuals.

(b) Providing grants to organizations involving and serving transgender, gender nonconforming, non-binary and intersex individuals to create supportive housing solutions and to identify, assist, and

refer transgender, gender nonconforming, non-binary and intersex residents of New York state to supportive housing.

(c) Creating or funding existing programs serving transgender, gender nonconforming, non-binary and intersex individuals that primarily coordinate inclusive health care for individuals who identify as transgender, gender nonconforming, non-binary or intersex.

(d) Providing grants to organizations involving and serving transgender, gender nonconforming, non-binary and intersex individuals to increase the capacity of health care professionals to effectively provide gender affirming care. This includes the creation of educational materials or facilitation of capacity building training.

(e) Providing grants for behavioral health services developed by, or in consultation with, transgender, gender nonconforming, non-binary and intersex individuals that offer mental health and substance use services for transgender, gender nonconforming, non-binary and intersex youth, adults, seniors, and families.

(f) Providing grants for educational and vocational training programs developed by, or in consultation with, transgender, gender nonconforming, non-binary and intersex individuals to increase the employment status and educational attainment level of transgender, gender nonconforming, non-binary and intersex residents of New York state.

(g) Providing funds to improve data collection on gender identity and expression in New York state with a focus on transgender, gender nonconforming, non-binary and intersex residents of New York state and their needs.

TITLE III

STATE HEALTH AREAS

Section 240. State health areas; establishment; regional and district; appointment of officers.

241. Regional health directors; powers and duties.

242. District health officers; powers and duties.

243. State health areas; professional and other employees.

*** § 240. State health areas; establishment; regional and district; appointment of officers.** 1. The commissioner shall from time to time divide the state, except cities of the first class, into as many regional and district health areas as he may determine to be necessary for the efficient operation of the department.

2. The commissioner shall appoint for each regional health area a regional health director who shall be a physician.

3. The commissioner shall appoint for each district health area a state district health officer who shall be a physician licensed or eligible for license to practice medicine and surgery in this state.

* NB There are 2 § 240's

*** § 241. Regional health directors; powers and duties.** Each regional health director, subject to the provisions of this chapter and the sanitary code, shall act as the representative of the commissioner in all matters affecting public health within his region and shall perform such duties and exercise such powers as may be assigned to him by the commissioner.

* NB There are 2 § 241's

*** § 242. District health officers; powers and duties.** 1. Each state district health officer, under the direction of the commissioner and subject to the provisions of this chapter and the sanitary code, shall act under the immediate supervision of the regional health director of the regional health area in which his district is located, as the representative of the commissioner in all matters affecting public health within his district, and shall perform such duties and exercise such powers as may be assigned to him.

2. Each state district health officer shall act as the representative of the commissioner, and under his direction, in securing the enforcement within his district of the provisions of the public health law and the sanitary code.

* NB There are 2 § 242's

*** § 243. State health areas; professional and other employees.**

Whenever he may deem it expedient so to do, the commissioner may employ such professional or other assistants or employees as he shall consider necessary within the limits of his appropriation, and may assign them from time to time to regional and district health areas and in such manner as in his judgment will best aid in the control of communicable diseases and in the promotion of public health.

* NB There are 2 § 243's

TITLE IV

SPINAL CORD INJURY RESEARCH BOARD

Section 250. Spinal cord injury research board.

251. Powers and duties.

§ 250. Spinal cord injury research board. 1. A spinal cord injury research board is hereby created within the department for the purpose of administering spinal cord injury research projects and administering the spinal cord injury research trust fund created pursuant to section ninety-nine-f of the state finance law. The purpose of research projects administered by the board shall be neurological research towards a cure for such injuries and their effects. The members of the spinal cord injury research board shall include but not be limited to representatives of the following fields: neuroscience, neurology, neuro-surgery, neuro-pharmacology, and spinal cord rehabilitative medicine. The board shall be composed of thirteen members, seven of whom shall be appointed by the governor, two of whom shall be appointed by the temporary president of the senate, two of whom shall be appointed by the speaker of the assembly, one of whom shall be appointed by the minority leader of the senate, and one of whom shall be appointed by the minority leader of the assembly.

2. Board members shall be reimbursed for ordinary travel expenses,

including meals and lodging, incurred in the performance of duties pursuant to section two hundred fifty-one of this title.

3. The terms of board members shall be four years commencing January first, nineteen hundred ninety-nine.

4. At the end of a term, a member shall continue to serve until a successor is appointed. A member who is appointed after a term has begun shall serve the rest of the term and until a successor is appointed. A member who serves two consecutive full four year terms shall not be eligible for reappointment for four years after completion of those terms.

5. A majority of the full authorized membership of the board shall constitute a quorum.

6. One member of the board shall be chosen by the governor to serve as chairperson.

7. Meetings of the board shall be held at least twice a year but may be held more frequently as deemed necessary, subject to call by the chairman or by request of a majority of the board members. Board meetings shall concern, among other things, policy matters relating to spinal cord injury research projects and programs, research progress reports, and other matters necessary to carry out the intent of this title.

8. Members of the board shall be indemnified pursuant to section seventeen of the public officers law.

§ 251. Powers and duties. The spinal cord injury research board created pursuant to section two hundred fifty of this title shall:

1. Formulate policies and procedures necessary to carry out the provisions of this title;

2. Solicit, receive, and review applications from public and private agencies and organizations and qualified research institutions for grants from the spinal cord injury research trust fund, created pursuant to section ninety-nine-f of the state finance law, to conduct research programs which focus on the treatment and cure of spinal cord injury. The board shall make recommendations to the commissioner, and the commissioner shall, in his or her discretion, grant approval of applications for grants from those applications recommended by the board.

3. Ensure that state funds, appropriated for spinal cord injury research are not diverted to any other use; and

4. Provide the governor and the legislature an annual report by January thirty-first of each year succeeding the year in which this title shall take effect setting forth the status of funds appropriated for spinal cord injury research and the progress of the board in terms of the results of its spinal cord injury research efforts.

* TITLE V

HEALTH CARE PRACTITIONER VOLUNTEER PILOT PROGRAM

Section 260. Health care practitioner volunteer program.

* NB There are 2 Title 5's

* **§ 260. Health care practitioner volunteer program.** 1. There is hereby established in the department a health care practitioner volunteer program to implement a system by which eligible health care practitioner volunteers and other volunteers may provide free basic primary health care services to uninsured low income individuals.

2. The commissioner is authorized and directed to promulgate such rules and regulations as are necessary to implement the provisions of this title. Such rules and regulations shall enable the health care practitioner volunteer program approved hereunder to:

(a) provide free basic primary health care services primarily to

uninsured low income individuals;

(b) integrate the delivery of such services with the delivery of health care and other supportive services to the target population by other providers in the community; and

(c) meet standards of care which are appropriate to the level and nature of health care services to be provided.

3. A health care practitioner is eligible to participate as a health care practitioner volunteer under this title if he or she:

(a) is licensed, or exempt from licensure, pursuant to articles one hundred thirty-one, one hundred thirty-one-B, one hundred thirty-two, one hundred thirty-three, one hundred thirty-six, one hundred thirty-seven, one hundred thirty-nine, one hundred forty, one hundred forty-one, one hundred forty-three, one hundred forty-four, one hundred fifty-three, one hundred fifty-four, one hundred fifty-five, one hundred fifty-six, one hundred fifty-seven, one hundred fifty-nine, one hundred sixty, one hundred sixty-two, or one hundred sixty-four of the education law;

(b) has agreed to practice in a health care practitioner volunteer program without compensation or the expectation of compensation. For the purposes of this paragraph, the following shall not be considered compensation: (i) nominal payment solely to enable the health care practitioner to be considered an employee of an entity operating and administering the health care practitioner volunteer program established pursuant to this title; or (ii) the provision of medical liability insurance coverage to the health care practitioner pursuant to the requirements of this title;

(c) is well qualified and intends to serve as a volunteer in the practice or specialty area in which he or she is licensed and primarily practices, or practiced prior to retirement, or is licensed and demonstrably qualified to practice through training, retraining, or continuing education; and

(d) is not subject to any limitations on practice as the result of findings or action by, or any agreement with, any licensing or professional conduct agency or board, or any court or regulatory agency.

4. No health care practitioner volunteer shall participate in the

health care practitioner volunteer program established pursuant to this title unless, with respect to acts and omissions that occurred or allegedly occurred within the scope of his or her participation in such program, he or she is covered by an adequate professional liability insurance policy.

5. The commissioner shall, upon submission of satisfactory evidence of compliance with the provisions of this title, approve one or more health care practitioner volunteer programs to be located in and to serve a specified service area. Such program shall:

(a) be operated and administered by a not-for-profit entity licensed under article twenty-eight of this chapter, provided, however, that nothing contained herein shall preclude a facility otherwise licensed under this chapter or under the mental hygiene law from utilizing the services of health care practitioner volunteers for the provision of free health care services pursuant to such licensure; and

(b) have procedures to screen participating health care practitioner volunteers to ensure that they meet the requirements of subdivision three of this section.

6. (a) Each program shall report annually to the commissioner on the progress of the program. The report shall include a profile of participating health care practitioner volunteers, the number of persons served, a description of the activities of the program, an outline of the program's continuing or projected activities, a description of the impact of the program on the community, and an estimate of the value of volunteer services provided.

(b) On or before June first of each year, the commissioner shall report to the governor, the temporary president of the senate, the minority leader of the senate, the speaker of the assembly, the minority leader of the assembly, and the chairs of the senate and assembly committees on health on findings, conclusions, and recommendations on the implementation of the provisions of this title.

7. Notwithstanding any inconsistent provision of law to the contrary, the commissioner is authorized to waive, modify or suspend the provisions of rules and regulations promulgated pursuant to article

twenty-eight of this chapter if the commissioner determines that such waiver, modification or suspension is necessary for the successful implementing of the health care practitioner volunteer program authorized pursuant to this section and provided that the commissioner determines that the health, safety and general welfare of people receiving health care under such health care practitioner volunteer program will not be impaired as a result of such waiver, modification or suspension.

* NB There are 2 § 260's

* TITLE V

OBESITY PREVENTION ACT

Section 260*2. Short title.

261. Legislative intent.

262. Definitions.

263. Department authorized to study obesity-report.

* NB There are 2 Title 5's

* **§ 260. Short title.** This title shall be known and may be cited as the "obesity prevention act".

* NB There are 2 § 260's

§ 261. Legislative intent. The legislature hereby finds, determines, and declares that obesity is a serious medical problem affecting up to one-third of all Americans. In addition, a nineteen ninety-seven Kaiser Permanente study concluded that there is a significant potential for a reduction in health care expenditures through obesity prevention. In addition:

1. Obesity is known to cause or exacerbate a number of serious disorders including hypertension, dyslipidemia, cardiovascular disease, diabetes, respiratory dysfunction, gout, and osteoarthritis;

2. Nearly eighty percent of patients with diabetes mellitus are obese;

3. Nearly seventy percent of diagnosed cases of cardiovascular disease are related to obesity; and

4. Obesity ranks second only to smoking as a preventable cause of death, with some three hundred thousand deaths annually attributable to obesity.

§ 262. Definitions. As used in this title, unless the context otherwise requires:

"Obesity" means the condition in which a person's body mass index is at least thirty kilograms per meter squared, or where a person's body mass index is at least twenty-seven kilograms per meter squared and the person suffers from one or more of the following conditions or diseases:

1. Type II diabetes;
2. Impaired glucose tolerance;
3. Hyperinsulinemia;
4. Dyslipidemia;
5. Hypertension;
6. Cardiovascular disease;
7. Cerebrovascular disease;
8. Osteoarthritis of the hips or knees;
9. Sleep apnea;
10. Gastric reflux disease; or
11. Gall bladder disease.

§ 263. Department authorized to study obesity - report. 1. The department is authorized to sample and collect data on individual cases where obesity is being actively treated and to analyze such data in order to evaluate the impact of treating obesity. Such data collection and analysis shall include the following:

a. The effectiveness of existing methods for treating or preventing obesity;

b. The effectiveness of alternate methods for treating or preventing obesity;

c. The fiscal impact of treating or preventing obesity;

d. The compliance and cooperation of patients with various methods of treating or preventing obesity; or

e. The reduction in serious medical problems associated with diabetes that results from treating or preventing obesity.

2. The department is authorized to fund the research authorized in subdivision one of this section from gifts, grants, and donations from individuals, private organizations, foundations, or any governmental unit; except that no gift, grant, or donation may be accepted by the department if it is subject to conditions that are inconsistent with this title or any other laws of this state. The department shall have the power to direct the disposition of any such gift, grant, or donation for the purposes of this title.

3. After completion of the research authorized in subdivision one of this section, the department shall submit a report and supporting materials to the governor and the legislature by June first of the following year.

TITLE VI
WOMEN'S HEALTH

- Section 266. Department website.
267. Menstrual products in schools.
- 267-a. Self-administered hormonal contraceptives.
- 267-b. Menstrual products in public colleges and universities.
- 268*2. Informational materials concerning menstrual disorders.

§ 266. Department website. 1. The department shall establish and maintain an internet website for the purpose of advancing women's health initiatives. The website shall provide information for the purposes of educating the public and raising awareness of women's health issues, provide links to useful resources and encourage the use of services now made more widely available to the women of New York state. The website shall also promote the following preventative services now covered pursuant to federal law and regulation, and explain that such services must be covered with no cost sharing:

- (a) Anemia screening for pregnant women;
- (b) Bacteriuria urinary tract or other infection screening for pregnant women;
- (c) BRCA counseling about genetic testing for women at higher risk;
- (d) Breast cancer mammography screenings every one to two years for women over age forty;
- (e) Breast cancer chemoprevention counseling for women at higher risk;
- (f) Breastfeeding comprehensive support and counseling from trained providers, as well as access to breastfeeding supplies, for pregnant and nursing women;
- (g) Cervical cancer screening for sexually active women;
- (h) Chlamydia infection screening for younger women and other women at higher risk;
- (i) Contraception: Food and Drug Administration-approved contraceptive methods, sterilization procedures, and patient education and counseling, not including abortifacient drugs;
- (j) Domestic and interpersonal violence screening and counseling for all women;
- (k) Folic acid supplements for women who may become pregnant;

- (l) Gestational diabetes screening for women twenty-four to twenty-eight weeks pregnant and those at high risk of developing gestational diabetes;
- (m) Gonorrhea screening for all women at higher risk;
- (n) Hepatitis B screening for pregnant women at their first prenatal visit;
- (o) Human immunodeficiency virus (HIV) screening and counseling for sexually active women;
- (p) Human papillomavirus (HPV) DNA Test: high risk HPV DNA testing every three years for women with normal cytology results who are thirty years of age or older;
- (q) Osteoporosis screening for women over age sixty depending on risk factors;
- (r) RH incompatibility screening for all pregnant women and follow-up testing for women at higher risk;
- (s) Tobacco use screening and interventions for all women, and expanded counseling for pregnant tobacco users;
- (t) Sexually transmitted infections (STI) counseling for sexually active women;
- (u) Syphilis screening for all pregnant women or other women at increased risk; and
- (v) Well-woman visits to obtain recommended preventive services.

2. The commissioner shall develop and update as necessary information on possible complications from pregnancy that can endanger the life or health of the newborn or the mother for purposes of advancing women's health initiatives, pursuant to subdivision one of this section. Such information shall be developed in consultation with any state or local government maternal mortality review boards and health care providers or other experts in the field of women and newborn health. Such information shall be posted on the website in a printable format, in each of the top six languages spoken in the state, other than English, according to the latest available data from the United States Census Bureau, to allow all general hospitals, diagnostic and treatment centers, obstetricians, primary care providers, midwives, and other health care programs providing women's wellness services to provide the information to their patients as part of their wellness education or prenatal care

activities.

3. The department shall also consider making use of social media networks for the purposes of advancing such initiatives.

4. Information pursuant to subdivision two of this section shall include information related to pre-term labor and premature birth, including but not limited to definitions and information on the risks of pre-term labor and premature birth to the expectant mother and fetus, as well as signs and symptoms of pre-term labor. The information shall also include:

(a) a statement that the medical assistance program provides coverage for all income-eligible pregnant women residing in the state regardless of immigration status; and

(b) a statement informing individuals of their right to request a hospital discharge review in accordance with section twenty-eight hundred three-i of this article if they believe they are being asked to leave a hospital too soon; and

(c) a statement informing individuals that hospitals must determine whether an expectant mother is experiencing an emergency medical condition, and upon making a diagnosis of an emergency medical condition, admit the expectant mother to the general hospital or treat them in the emergency room for close observation and continuous monitoring until it is deemed medically safe for discharge or transfer in accordance with state and federal requirements including the federal Emergency Medical Treatment and Labor Act (EMTALA).

5. The department shall develop educational materials to be provided to emergency room medical staff regarding the state and federal discharge and transfer requirements.

6. Cytomegalovirus. (a) In addition to information provided pursuant to this section, the commissioner shall also develop comprehensive informational materials, which shall include, but not be limited to, the symptoms, the risks, the transmission and the prevention of cytomegalovirus and the effects that such virus may have on a pregnant individual, an individual who may become pregnant, and children.

(b) i. The commissioner shall distribute such cytomegalovirus informational materials to:

(1) licensed physicians who practice obstetric and/or gynecology in this state; and

(2) those licensed to practice midwifery pursuant to article one hundred forty of the education law.

ii. Such physicians or midwives shall provide the cytomegalovirus informational materials to each pregnant patient during such patient's first appointment with such physician or midwife.

*** § 267. Menstrual products in schools.** All elementary and secondary public schools in the state serving students in any grade from grade six through grade twelve shall provide menstrual products in the restrooms of such school building or buildings. Such products shall be provided at no charge to students.

* NB Effective until July 1, 2024

* § 267. Menstrual products in schools. 1. All elementary and secondary public schools and non-public schools in the state serving students in any grade from grade six through grade twelve shall provide menstrual products in the restrooms of such school building or buildings. Such products shall be provided at no charge to students.

2. A non-public school may be granted an exemption from the requirements of subdivision one of this section upon a demonstration sufficient to the commissioner of education that the school does not serve students who need such products and that menstrual products are available in a manner that ensures the privacy of any student seeking them within the school building or buildings, including but not limited to within any gender-neutral restroom. Such exemption may be revoked should the circumstances change on which the exemption is granted.

* NB Effective July 1, 2024

§ 267-a. Self-administered hormonal contraceptives. The commissioner is authorized to establish a non-patient specific order, consistent with

section sixty-eight hundred one of the education law, for dispensing self-administered hormonal contraceptives as defined in section sixty-eight hundred two of such chapter.

§ 267-b. Menstrual products in public colleges and universities. All public colleges and universities in the state shall provide menstrual products in the restrooms of such school building or buildings. Such products shall be provided at no charge to students.

*** § 268. Informational materials concerning menstrual disorders.** Subject to appropriation, the commissioner, in conjunction with the commissioner of education, shall create age specific informational materials to be provided to school districts and health care practitioners upon request to distribute to students and patients educating them about menstrual disorders and their symptoms. The materials shall include, but be not limited to:

1. the timing, signs and symptoms of endometriosis and other menstrual disorders;
2. the importance of menstrual health and its impacts on one's physical, emotional, social, and academic life;
3. basic statistics on endometriosis and other menstrual disorders;
4. best practices on how to be one's own healthcare advocate; and
5. basic treatment options for endometriosis and other menstrual disorders, as well as recommendations for follow-up care from a healthcare provider.

* NB There are 2 § 268's

TITLE 6-A

THE 21ST CENTURY WORKGROUP FOR DISEASE ELIMINATION AND REDUCTION

Section 266-a. The 21st century workgroup for disease elimination and reduction.

§ 266-a. The 21st century workgroup for disease elimination and reduction. The 21st century workgroup for disease elimination and reduction is hereby created within the department. The workgroup shall:

1. Be comprised of experts within the department's bureau of immunization, experts on the immunization advisory council and other experts the commissioner deems appropriate, charged with the mission of reviewing existing vaccines, the status of international research and development for vaccines likely to be candidates for the pharmaceutical marketplace, and to review the status of health threats which could be addressed by the development of vaccines;

2. Study the severity, frequency of occurrence, likelihood of recurrence, existing animal vaccines and potential human vaccines for tuberculosis, eastern equine encephalitis virus, Lyme disease, human immunodeficiency virus, and any other disease or virus the commissioner deems appropriate;

3. Consult with national vaccine and immunization policy making organizations, including but not limited to, the advisory committee on immunization practices under the centers for disease control and prevention, the national institute of health and the national institute of allergy and infectious diseases;

4. Apply for grants, accept gifts from private and public sources for purposes set forth herein; and

5. Report every three years, commencing January first, two thousand eighteen, to the commissioner, the temporary president of the senate, the speaker of the assembly, the chair of the senate standing committee on health, and the chair of the assembly health committee.

TITLE VII
NY STATE OF HEALTH

Section 268. Statement of policy and purposes.

268-a. Definitions.

268-b. Establishment of NY State of Health, The Official Health Plan Marketplace.

268-c. Functions of the Marketplace.

268-d. Special functions of the Marketplace related to health plan certification and qualified health plan oversight.

268-e. Appeals and appeal hearings; judicial review.

268-f. Marketplace advisory committee.

268-g. Funding of the Marketplace.

268-h. Construction.

*** § 268. Statement of policy and purposes.** The purpose of this title is to codify the establishment of the health benefit exchange in New York, known as NY State of Health, The Official Health Plan Marketplace (Marketplace), in conformance with Executive Order 42 (Cuomo) issued April 12, 2012. The Marketplace shall continue to perform eligibility determinations for federal and state insurance affordability programs including medical assistance in accordance with section three hundred sixty-six of the social services law, child health plus in accordance with section twenty-five hundred eleven of this chapter, the basic health program in accordance with section three hundred sixty-nine-gg of the social services law, the 1332 state innovation program in accordance with section three hundred sixty-nine-ii of the social service law, and premium tax credits and cost-sharing reductions, together with performing eligibility determinations for qualified health plans and such other health insurance programs as determined by the commissioner. The Marketplace shall also facilitate enrollment in insurance affordability programs, qualified health plans and other health insurance programs as determined by the commissioner, the purchase and sale of qualified health plans and/or other or additional health plans certified by the Marketplace pursuant to this title, and shall continue to have the authority to operate a small business health options program ("SHOP") to assist eligible small employers in selecting qualified

health plans and/or other or additional health plans certified by the Marketplace and to determine small employer eligibility for purposes of small employer tax credits. It is the intent of the legislature, by codifying the Marketplace in state statute, to continue to promote quality and affordable health coverage and care, reduce the number of uninsured persons, provide a transparent marketplace, educate consumers and assist individuals with access to coverage, premium assistance tax credits and cost-sharing reductions. In addition, the legislature declares the intent that the Marketplace continue to be properly integrated with insurance affordability programs, including Medicaid, child health plus and the basic health program, the 1332 state innovation program, and such other health insurance programs as determined by the commissioner.

* NB There are 2 § 268's

§ 268-a. Definitions. For purposes of this title, the following definitions shall apply:

1. "Commissioner" means the commissioner of health of the state of New York.

2. "Marketplace" means the "NY State of Health, The official health plan Marketplace" or "Marketplace" established as a health benefit exchange or "marketplace" within the department of health pursuant to Executive Order 42 (Cuomo) issued April 12, 2012 and this title.

3. "Federal act" means the patient protection and affordable care act, public law 111-148, as amended by the health care and education reconciliation act of 2010, public law 111-152, and any regulations or guidance issued thereunder.

4. "Health plan" means a policy, contract or certificate, offered or issued by an insurer to provide, deliver, arrange for, pay for or reimburse any of the costs of health care services. Health plan shall not include the following:

(a) accident insurance or disability income insurance, or any

combination thereof;

(b) coverage issued as a supplement to liability insurance;

(c) liability insurance, including general liability insurance and automobile liability insurance;

(d) workers' compensation or similar insurance;

(e) automobile no-fault insurance;

(f) credit insurance;

(g) other similar insurance coverage, as specified in federal regulations, under which benefits for medical care are secondary or incidental to other insurance benefits;

(h) limited scope dental or vision benefits, benefits for long-term care insurance, nursing home insurance, home care insurance, or any combination thereof, or such other similar, limited benefits health insurance as specified in federal regulations, if the benefits are provided under a separate policy, certificate or contract of insurance or are otherwise not an integral part of the plan;

(i) coverage only for a specified disease or illness, hospital indemnity, or other fixed indemnity coverage;

(j) Medicare supplemental insurance as defined in section 1882(g)(1) of the federal social security act, coverage supplemental to the coverage provided under chapter 55 of title 10 of the United States Code, or similar supplemental coverage provided under a group health plan if it is offered as a separate policy, certificate or contract of insurance; or

(k) the New York state medical indemnity fund established pursuant to title four of article twenty-nine-D of the public health law.

5. "Insurer" means an insurance company subject to article forty-two or a corporation subject to article forty-three of the insurance law, or a health maintenance organization certified pursuant to article forty-four of the public health law that contracts or offers to contract to provide, deliver, arrange, pay or reimburse any of the costs of health care services.

6. "Stand-Alone dental plan" means a dental services plan that has been issued pursuant to applicable law and certified by the Marketplace in accordance with section two hundred sixty-eight-d of this title.

7. "Qualified health plan" means a health plan that is issued pursuant to applicable law and certified by the Marketplace in accordance with section two hundred sixty-eight-d of this title, including a stand-alone dental plan.

8. "Insurance affordability program" means Medicaid, child health plus, the basic health program, the 1332 state innovation program, post-partum extended coverage and any other health insurance subsidy program designated as such by the commissioner.

9. "Eligible individual" means an individual, including a minor, who is eligible to enroll in an insurance affordability program or other health insurance program as determined by the commissioner.

10. "Qualified individual" means, with respect to qualified health plans, an individual, including a minor, who:

(a) is eligible to enroll in a qualified health plan offered to individuals through the Marketplace;

(b) resides in this state;

(c) at the time of enrollment, is not incarcerated, other than incarceration pending the disposition of charges; and

(d) is, and is reasonably expected to be, for the entire period for which enrollment is sought, a citizen or national of the United States or a noncitizen lawfully present in the United States.

11. "Secretary" means the secretary of the United States department of health and human services.

12. "SHOP" means the small business health options program operated by the Marketplace to assist eligible small employers in this state in selecting qualified health plans and/or other or additional health plans certified by the Marketplace and to determine small employer eligibility for purposes of small employer tax credits in accordance with applicable federal and state laws and regulations.

13. "Small employer" means an employer which offers coverage where the

coverage such employer offers would be considered small group coverage under the insurance law and regulations promulgated thereunder, provided that it is not otherwise prohibited under the federal act.

14. "Small group market" means the health insurance market under which individuals receive health insurance coverage on behalf of themselves and their dependents through a group health plan maintained by a small employer.

15. "Superintendent" means the superintendent of financial services.

16. "Essential health benefits" shall mean the categories of benefits defined in subsection (a) of section three thousand two hundred seventeen-i and subsection (a) of section four thousand three hundred six-h of the insurance law.

§ 268-b. Establishment of NY State of Health, The Official Health Plan Marketplace. 1. There is hereby established an office within the department of health to be known as the "NY State of Health, The official health plan Marketplace".

2. The purpose of the Marketplace is to facilitate enrollment in health coverage and the purchase and sale of qualified health plans and other health plans certified by the Marketplace; enroll individuals in coverage for which they are eligible in accordance with federal and state law; enable eligible individuals to receive premium tax credits, cost-sharing reductions, and to access insurance affordability programs and other health insurance programs as determined by the commissioner; assist eligible small employers in selecting qualified health plans and/or other, or additional health plans certified by the Marketplace and to qualify for small employer tax credits in accordance with applicable law; and to carry out other functions set forth in this title.

§ 268-c. Functions of the Marketplace. The Marketplace shall:

1. (a) Perform eligibility determinations for federal and state insurance affordability programs including medical assistance in accordance with section three hundred sixty-six of the social services law, child health plus in accordance with section twenty-five hundred eleven of this chapter, the basic health program in accordance with section three hundred sixty-nine-gg of the social services law, the 1332 state innovation program in accordance with section three hundred sixty-nine-ii of the social services law, premium tax credits and cost-sharing reductions and qualified health plans in accordance with applicable law and other health insurance programs as determined by the commissioner;

(b) certify and make available to qualified individuals, qualified health plans, including dental plans, certified by the Marketplace pursuant to applicable law, provided that coverage under such plans shall not become effective prior to certification by the Marketplace; and

(c) certify and/or make available to eligible individuals, health plans certified by the Marketplace pursuant to applicable law, and/or participating in an insurance affordability program pursuant to applicable law, provided that coverage under such plans shall not become effective prior to certification by the Marketplace, and/or approval by the commissioner.

2. Assign an actuarial value to each Marketplace certified plan offered through the Marketplace in accordance with the criteria developed by the secretary pursuant to federal law or the superintendent pursuant to the insurance law and/or requirements developed by the Marketplace, and determine each health plan's level of coverage in accordance with regulations issued by the secretary pursuant to federal law or the superintendent pursuant to the insurance law.

3. Utilize a standardized format for presenting health benefit options in the Marketplace, including the use of the uniform outline of coverage established under section 2715 of the federal public health service act or the insurance law.

4. Standardize the benefits available through the Marketplace at each level of coverage defined by the superintendent in the insurance law.

5. Maintain enrollment periods in the best interest of qualified individuals consistent with federal and state law.

6. Implement procedures for the certification, recertification and decertification of health plans as qualified health plans or health plans approved for sale by the department of financial services or department of health and certified by the Marketplace, consistent with guidelines developed by the secretary pursuant to section 1311(c) of the federal act and requirements developed by the Marketplace.

7. Contract for health care coverage offered to qualified individuals through the Marketplace, and in doing so shall seek to provide health care coverage choices that offer the optimal combination of choice, value, quality, and service.

8. Contract for health care coverage offered to certain eligible individuals through the Marketplace, pursuant to health insurance programs as determined by the commissioner, and in doing so shall seek to provide health care coverage choices that offer the optimal combination of choice, value, quality, and service;

9. Provide the minimum requirements an insurer shall meet to participate in the Marketplace, in the best interest of qualified individuals or eligible individuals;

10. Require qualified health plans and/or other health plans certified by the Marketplace to offer those benefits determined to be essential health benefits pursuant to state law or as required by the Marketplace.

11. Ensure that insurers offering health plans through the Marketplace do not charge an individual enrollee a fee or penalty for termination of coverage.

12. Provide for the operation of a toll-free telephone hotline to

respond to requests for assistance.

13. Maintain an internet website through which enrollees and prospective enrollees of qualified health plans and health plans certified by the Marketplace may obtain standardized comparative information on such plans and insurance affordability programs.

14. Make available by electronic means a calculator to determine the actual cost of coverage after the application of any premium tax credit under section 36B of the Internal Revenue Code of 1986 or applicable state law and any cost-sharing reduction under federal or applicable state law.

15. Operate a program under which the Marketplace awards grants to entities to serve as navigators in accordance with applicable federal law and regulations adopted thereunder, and/or a program under which the Marketplace awards grants to entities to provide community based enrollment assistance in accordance with requirements developed by the Marketplace; and/or a program under which the Marketplace certifies New York state licensed producers to provide assistance to eligible individuals and/or small employers pursuant to federal or state law.

16. In accordance with applicable federal and state law, inform individuals of eligibility requirements for the Medicaid program under title XIX of the social security act and the social services law, the children's health insurance program (CHIP) under title XXI of the social security act and this chapter, the basic health program under section three hundred sixty-nine-gg of the social services law, the 1332 state innovation program in accordance with section three hundred sixty-nine-ii of the social services law, or any applicable state or local public health insurance program and if, through screening of the application by the Marketplace, the Marketplace determines that such individuals are eligible for any such program, enroll such individuals in such program.

17. Grant a certification that an individual is exempt from the requirement to maintain minimum essential coverage pursuant to federal

or state law and from any penalties imposed by such requirements because:

(a) there is no affordable health plan available covering the individual, as defined by applicable law; or

(b) the individual meets the requirements for any other such exemption from the requirement to maintain minimum essential coverage or to pay the penalty pursuant to applicable federal or state law.

18. Operate a small business health options program ("SHOP") pursuant to section 1311 of the federal act and applicable state law, through which eligible small employers may select marketplace-certified qualified health plans offered in the small group market, and through which eligible small employers may receive assistance in qualifying for small business tax credits available pursuant to federal and state law.

19. Enter into agreements as necessary with federal and state agencies and other state Marketplaces to carry out its responsibilities under this title, provided such agreements include adequate protections with respect to the confidentiality of any information to be shared and comply with all state and federal laws and regulations.

20. Perform duties required by the secretary, the secretary of the United States department of the treasury or the commissioner related to determining eligibility for premium tax credits or reduced cost-sharing under applicable federal or state law.

21. Meet program integrity requirements under applicable law, including keeping an accurate accounting of receipts and expenditures and providing reports to the secretary regarding Marketplace related activities in accordance with applicable law.

22. Submit information provided by Marketplace applicants for verification as required by section 1411(c) of the federal act and applicable state law.

23. Establish rules and regulations that do not conflict with or prevent the application of regulations promulgated by the secretary.

24. Determine eligibility, provide notices, and provide opportunities for appeal and redetermination in accordance with the requirements of federal and state law.

25. The commissioner is authorized to submit the appropriate waiver applications to the United States secretary of health and human services and/or the department of the treasury to waive any applicable provisions of the Patient Protection and Affordable Care Act, Pub. L. 111-148 as amended, or successor provisions, as provided for by 42 U.S.C. 18052, and any other waivers necessary to achieve the purposes of high quality, affordable coverage through NY State of Health, the official health plan marketplace. The commissioner shall implement the state plans of any such waiver in a manner consistent with applicable state and federal laws, as authorized by the secretary of health and human services and/or the secretary of the treasury pursuant to 42 U.S.C. 18052. Copies of such original waiver applications and amendments thereto shall be provided to the chair of the senate finance committee, the chair of the assembly ways and means committee and the chairs of the senate and assembly health committees simultaneously with their submission to the federal government.

* 26. Subject to federal approval if required, the use of state funds and the availability of funds in the 1332 state innovation program fund established pursuant to section ninety-eight-d of the state finance law, the commissioner shall have the authority to establish a program to provide subsidies for the payment of premium or cost sharing or both to assist individuals who are eligible to purchase qualified health plans through the marketplace, or take such other action as appropriate to reduce or eliminate qualified health plan premiums or cost-sharing or both.

* NB Effective upon the commissioner of health obtaining and maintaining certain approvals (see chapter 57 of 2024 Pt. J § 10)

§ 268-d. Special functions of the Marketplace related to health plan certification and qualified health plan oversight. 1. Health plans certified by the Marketplace shall meet the following requirements:

(a) The insurer offering the health plan:

(i) is licensed or certified by the superintendent or commissioner, in good standing to offer health insurance coverage in this state, and meets the requirements established by the Marketplace;

(ii) offers at least one qualified health plan and/or other or additional health plans authorized for sale by the department of financial services or the department in each of the silver and gold levels as required by state law, provided, however, that the Marketplace may require additional benefit levels to be offered by all insurers participating in the Marketplace;

(iii) has filed with and received approval from the superintendent of its premium rates and policy or contract forms pursuant to the insurance law and/or this chapter;

(iv) does not charge any cancellation fees or penalties for termination of coverage in violation of applicable law; and

(v) complies with the regulations developed by the secretary under section 1311(c) of the federal act and such other requirements as the Marketplace may establish.

(b) The health plan: (i) provides the essential health benefits package described in state law or required by the Marketplace and includes such additional benefits as are mandated by state law, except that the health plan shall not be required to provide essential benefits that duplicate the minimum benefits of qualified dental plans if:

(A) the Marketplace has determined that at least one qualified dental plan or dental plan approved by the department of financial services or the department is available to supplement the health plan's coverage; and

(B) the insurer makes prominent disclosure at the time it offers the health plan, in a form approved by the Marketplace, that the plan does not provide the full range of essential pediatric benefits, and that qualified dental plans or dental plans approved by the department of financial services or department of health providing those benefits and other dental benefits not covered by the plan are offered through the Marketplace;

(ii) provides at least a bronze level of coverage as defined by state law, unless the plan is certified as a qualified catastrophic plan, as defined in section 1302(e) of the federal act and the insurance law, and

shall only be offered to individuals eligible for catastrophic coverage;

(iii) has cost-sharing requirements, including deductibles, which do not exceed the limits established under section 1302(c) of the federal act, state law and any requirements of the Marketplace;

(iv) complies with regulations promulgated by the secretary pursuant to section 1311(c) of the federal act and applicable state law, which include minimum standards in the areas of marketing practices, network adequacy, essential community providers in underserved areas, accreditation, quality improvement, uniform enrollment forms and descriptions of coverage and information on quality measures for health benefit plan performance;

* (v) meets standards specified and determined by the Marketplace, provided that the standards do not conflict with or prevent the application of federal requirements;

* NB Effective until January 1, 2028

* (v) meets standards specified and determined by the Marketplace, provided that the standards do not conflict with or prevent the application of federal requirements; and

* NB Effective January 1, 2028

* (vi) contracts with any national cancer institute-designated cancer center licensed by the department within the health plan's service area that is willing to agree to provide cancer-related inpatient, outpatient and medical services to enrollees in all health plans offering coverage through the Marketplace in such cancer center's service area under the prevailing terms and conditions that the plan requires of other similar providers to be included in the plan's provider network, provided that such terms shall include reimbursement of such center at no less than the fee-for-service medicaid payment rate and methodology applicable to the center's inpatient and outpatient services; and

* NB Effective until January 1, 2028

* (vi) complies with the insurance law and this chapter requirements applicable to health insurance issued in this state and any regulations promulgated pursuant thereto that do not conflict with or prevent the application of federal requirements; and

* NB Effective January 1, 2028

* (vii) complies with the insurance law and this chapter requirements applicable to health insurance issued in this state and any regulations

promulgated pursuant thereto that do not conflict with or prevent the application of federal requirements; and

* NB Repealed January 1, 2028

(c) The Marketplace determines that making the health plan available through the Marketplace is in the interest of qualified individuals in this state.

2. The Marketplace shall not exclude a health plan:

(a) on the basis that the health plan is a fee-for-service plan;

(b) through the imposition of premium price controls by the Marketplace; or

(c) on the basis that the health plan provides treatments necessary to prevent patients' deaths in circumstances the Marketplace determines are inappropriate or too costly.

3. The Marketplace shall require each insurer certified or seeking certification of a health plan as a qualified health plan or plan approved for sale by the department of financial services or the department to:

(a) submit a justification for any premium increase pursuant to applicable law prior to implementation of such increase. The insurer shall prominently post the information on its internet website. Such rate increases shall be subject to the prior approval of the superintendent pursuant to the insurance law;

(b)(i) make available to the public and submit to the Marketplace, the secretary and the superintendent, accurate and timely disclosure of:

(A) claims payment policies and practices;

(B) periodic financial disclosures;

(C) data on enrollment and disenrollment;

(D) data on the number of claims that are denied;

(E) data on rating practices;

(F) information on cost-sharing and payments with respect to any out-of-network coverage;

(G) information on enrollee and participant rights under title I of the federal act; and

(H) other information as determined appropriate by the secretary or otherwise required by the Marketplace;

(ii) the information shall be provided in plain language, as that term is defined in section 1311(e)(3)(B) of the federal act and state law, and in guidance jointly issued thereunder by the secretary and the federal secretary of labor; and

(c) provide to individuals, in a timely manner upon the request of the individual, the amount of cost-sharing, including deductibles, copayments, and coinsurance, under the individual's health plan or coverage that the individual would be responsible for paying with respect to the furnishing of a specific item or service by a participating provider. At a minimum, this information shall be made available to the individual through an internet website and through other means for individuals without access to the internet.

4. The Marketplace shall not exempt any insurer seeking certification of a health plan, regardless of the type or size of the insurer, from licensing or solvency requirements under the insurance law or this chapter, and shall apply the criteria of this section in a manner that ensures a level playing field for insurers participating in the Marketplace.

5. (a) The provisions of this article that apply to qualified health plans and plans approved for sale by the department of financial services and the department also shall apply to the extent relevant to qualified dental plans approved for sale by the department of financial services or the department, except as modified in accordance with the provisions of paragraphs (b) and (c) of this subdivision or otherwise required by the Marketplace.

(b) The qualified dental plan or dental plan approved for sale by the department of financial services and/or the department shall be limited to dental and oral health benefits, without substantially duplicating the benefits typically offered by health benefit plans without dental coverage, and shall include, at a minimum, the essential pediatric dental benefits prescribed by the secretary pursuant to section 1302(b)(1)(J) of the federal act, and such other dental benefits as the Marketplace or secretary may specify in regulations.

(c) Insurers may jointly offer a comprehensive plan through the Marketplace in which an insurer provides the dental benefits through a

qualified dental plan or plan approved by the department of financial services or the department and an insurer provides the other benefits through a qualified health plan, provided that the plans are priced separately and also are made available for purchase separately at the same price.

§ 268-e. Appeals and appeal hearings; judicial review. 1. Any applicant or enrollee, or any individual authorized to act on behalf of any such applicant or enrollee, may appeal to the department from determinations of department officials or failures to make determinations upon grounds specified in subdivision four of this section. The department must review the appeal de novo and give such person an opportunity for an appeal hearing. The department may also, on its own motion, review any decision made or any case in which a decision has not been made by the Marketplace or a social services official within the time specified by law or regulations of the department. The department may make such additional investigation as it may deem necessary, and the commissioner must make such determination as is justified and in accordance with applicable law.

2. Regarding any appeal pursuant to this section, with or without an appeal hearing, the commissioner may designate and authorize one or more appropriate members of his staff to consider and decide such appeals. Any staff member so designated and authorized will have authority to decide such appeals on behalf of the commissioner with the same force and effect as if the commissioner had made the decisions. Appeal hearings must be held on behalf of the commissioner by members of his staff who are employed for such purposes or who have been designated and authorized by the commissioner.

3. Persons entitled to appeal to the department pursuant to this section must include:

(a) applicants for or enrollees in insurance affordability programs and qualified health plans; and

(b) other persons entitled to an opportunity for an appeal hearing as directed by the commissioner.

4. An applicant or enrollee has the right to appeal at least the following issues:

(a) An eligibility determination made in accordance with this article and applicable law, including:

(i) An initial determination of eligibility, including:

(A) eligibility to enroll in a qualified health plan;

(B) eligibility for Medicaid;

(C) eligibility for Child Health Plus;

(D) eligibility for the Basic Health Program;

(E) eligibility for the 1332 state innovation program;

(F) the amount of advance payments of the premium tax credit and level of cost-sharing reductions;

(G) the amount of any other subsidy that may be available under law; and

(H) eligibility for such other health insurance programs as determined by the commissioner; and

(ii) a re-determination of eligibility of the programs under this subdivision.

(b) An eligibility determination for an exemption for any mandate to purchase health insurance.

(c) A failure by NY State of Health to provide timely written notice of an eligibility determination made in accordance with applicable law.

5. The department may, subject to the discretion of the commissioner, promulgate such regulations, consistent with federal or state law, as may be necessary to implement the provisions of this section.

6. Regarding every decision of an appeal pursuant to this section, the department must inform every party, and his or her representative, if any, of the availability of judicial review and the time limitation to pursue future review.

7. Applicants and enrollees of qualified health plans, with or without advance payments of the premium tax credit and cost-sharing reductions, also have the right to appeal to the United States Department of Health and Human Services appeal entity:

(a) appeals decisions issued by NY State of Health upon the exhaustion of the NY State of Health appeals process; and

(b) a denial of a request to vacate a dismissal made by the NY State of Health appeals entity.

8. The department must include notice of the right to appeal as provided by subdivision four of this section and instructions regarding how to file an appeal in any eligibility determination issued to the applicant or enrollee in accordance with applicable law. Such notice shall include:

(a) an explanation of the applicant or enrollee's appeal rights;

(b) a description of the procedures by which the applicant or enrollee may request an appeal;

(c) information on the applicant or enrollee's right to represent himself or herself, or to be represented by legal counsel or another representative;

(d) an explanation of the circumstances under which the appellant's eligibility may be maintained or reinstated pending an appeal decision; and

(e) an explanation that an appeal decision for one household member may result in a change in eligibility for other household members and that such a change will be handled as a redetermination of eligibility for all household members in accordance with the standards specified in applicable law.

§ 268-f. Marketplace advisory committee. 1. There is hereby created the marketplace advisory committee, which shall consider and advise the department and commissioner on matters concerning the provision of health care coverage through the NY State of Health or Health Plan Marketplace.

2. The marketplace advisory committee shall be composed of up to twenty-eight members consisting of twenty-four members appointed by the commissioner, two members appointed by the speaker of the assembly, and two members appointed by the temporary president of the senate. The advisory committee shall at all times be representative of each

geographic area of the state and include:

(a) representatives from the following categories, but not more than six from any single category:

- (i) health plan consumer advocates;
- (ii) small business consumer representatives;
- (iii) health care provider representatives;
- (iv) representatives of the health insurance industry;

(b) representatives from the following categories, but not more than two from either category:

- (i) licensed insurance producers; and
- (ii) representatives of labor organizations.

3. The commissioner shall select the chair of the advisory committee from among the members of such committee and shall designate an officer or employee of the department to assist the marketplace advisory committee in the performance of its duties under this section. The Marketplace shall adopt rules for the governance of the advisory committee, which shall meet as frequently as its business may require and at such other times as determined by the chair to be necessary, in consultation with the executive director of the Marketplace.

4. Members of the advisory committee shall serve without compensation for their services as members, but each shall be allowed the necessary and actual expenses incurred in the performance of his or her duties under this section.

§ 268-g. Funding of the Marketplace. 1. The Marketplace shall be funded by state and federal sources as authorized by applicable law, including but not limited to applicable law authorizing the respective insurance affordability programs available through the Marketplace.

2. The accounts of the Marketplace shall be subject to supervision of the comptroller and such accounts shall include receipts, expenditures, contracts and other matters which pertain to the fiscal soundness of the Marketplace.

3. Notwithstanding any law to the contrary, and in accordance with section four of the state finance law, upon request of the director of the budget, in consultation with the commissioner, the superintendent and the executive director of the Marketplace, the comptroller is hereby authorized and directed to sub-allocate or transfer special revenue federal funds appropriated to the department for planning and implementing various healthcare and insurance reform initiatives authorized by applicable law. Marketplace moneys sub-allocated or transferred pursuant to this section shall be paid out of the fund upon audit and warrant of the state comptroller on vouchers certified or approved by the Marketplace.

§ 268-h. Construction. Nothing in this article, and no action taken by the Marketplace pursuant hereto, shall be construed to:

1. preempt or supersede the authority of the superintendent or the commissioner; or

2. exempt insurers, insurance producers or qualified health plans from this chapter or the insurance law and any regulations promulgated thereunder.

TITLE 8

HUNGER PREVENTION AND NUTRITION ASSISTANCE PROGRAM

Section 269. Hunger prevention and nutrition assistance program.

§ 269. Hunger prevention and nutrition assistance program. 1. The commissioner shall annually assess changing economic indicators impacting service levels within the hunger prevention nutrition assistance program in all regions of the state. Such assessment may include, but not be limited to, the average cost per meal, personnel costs, transportation costs, fuel costs and storage capacity. The commissioner shall provide a summary of findings to the governor and the legislature to inform funding levels for the hunger prevention and

nutrition assistance program on or before the first day of December each year.

2. On or before the first day of December each year, the commissioner shall review and report to the governor and the legislature on the unmet need for cold storage equipment among regional food banks, food pantries and other emergency food organizations.

ARTICLE 2-A

PRESCRIPTION DRUGS

Title I. Preferred drug and clinical drug review programs (§§ 270-277).

II. Prescription drugs; various provisions (§§ 278--280-d).

III. Prescription forms, electronic prescribing and language assistance (§ 281).

TITLE I

PREFERRED DRUG AND CLINICAL DRUG REVIEW PROGRAMS

Section 270. Definitions.

272. Preferred drug program.

273. Preferred drug program prior authorization.

274. Clinical drug review program.

275. Applicability of prior authorization to EPIC.

276. Education and outreach.

277. Review and reports.

§ 270. Definitions. As used in this article, unless the context clearly requires otherwise:

1. "Administrator" means an entity with which the commissioner contracts for the purpose of administering elements of the preferred drug program, as established under section two hundred seventy-two of this article or the clinical drug review program established under section two hundred seventy-four of this article.

2. "Board" shall mean the drug utilization review board.

3. "Clinical drug review program" means the clinical drug review program created by section two hundred seventy-four of this article.

4. "Emergency condition" means a medical or behavioral condition as determined by the prescriber or pharmacists, the onset of which is sudden, that manifests itself by symptoms of sufficient severity, including severe pain, and for which delay in beginning treatment prescribed by the patient's health care practitioner would result in:

- (a) placing the health or safety of the person afflicted with such condition or other person or persons in serious jeopardy;
- (b) serious impairment to such person's bodily functions;
- (c) serious dysfunction of any bodily organ or part of such person;
- (d) serious disfigurement of such person; or
- (e) severe discomfort.

5. "Non preferred drug" means a prescription drug that is included in the preferred drug program and is not one of the drugs on the preferred drug list because it is either: (a) in a therapeutic class that is included in the preferred drug program and is not one of the drugs on the preferred drug list in that class or (b) manufactured by a pharmaceutical manufacturer with whom the commissioner is negotiating or has negotiated a manufacturer agreement and is not a preferred drug under a manufacturer agreement.

6. "Panel" means the elderly pharmaceutical insurance coverage panel established pursuant to section two hundred forty-four of the elder law.

7. "Preferred drug" means a prescription drug that is either (a) in a therapeutic class that is included in the preferred drug program and is one of the drugs on the preferred drug list in that class or (b) a preferred drug under a manufacturer agreement.

8. "Preferred drug program" means the preferred drug program established under section two hundred seventy-two of this article.

9. "Prescription drug" or "drug" means a drug defined in subdivision seven of section sixty-eight hundred two of the education law, for which a prescription is required under the federal food, drug and cosmetic act. Any drug that does not require a prescription under such act, but which would otherwise meet the criteria under this article for inclusion on the preferred drug list may be added to the preferred drug list under this article; and, if so included, shall be considered to be a prescription drug for purposes of this article; provided that it shall be eligible for reimbursement under a state public health plan when ordered by a prescriber authorized to prescribe under the state public health plan and the prescription is subject to the applicable provisions of this article and paragraph (a) of subdivision four of section three hundred sixty-five-a of the social services law.

10. "Prior authorization" means a process requiring the prescriber or the dispenser to verify with the applicable state public health plan or its authorized agent that the drug is appropriate for the needs of the specific patient.

11. "State public health plan" means the medical assistance program established by title eleven of article five of the social services law (referred to in this article as "Medicaid"), the elderly pharmaceutical insurance coverage program established by title three of article two of the elder law (referred to in this article as "EPIC"), and the family health plus program established by section three hundred sixty-nine-ee of the social services law to the extent that section provides that the program shall be subject to this article.

12. "Supplemental rebate" means a supplemental rebate under subdivision eleven of section two hundred seventy-two of this article.

13. "Therapeutic class" means a group of prescription drugs that produce a particular intended clinical outcome and are grouped together as a therapeutic class by the pharmacy and therapeutics committee.

14. "Manufacturer agreement" means an agreement between the

commissioner and a pharmaceutical manufacturer under paragraph (b) of subdivision eleven of section two hundred seventy-two of this article.

§ 272. Preferred drug program. 1. There is hereby established a preferred drug program to promote access to the most effective prescription drugs while reducing the cost of prescription drugs for persons in state public health plans.

2. When a prescriber prescribes a non-preferred drug, state public health plan reimbursement shall be denied unless prior authorization is obtained, unless no prior authorization is required under this article.

3. The commissioner shall establish performance standards for the program that, at a minimum, ensure that the preferred drug program and the clinical drug review program provide sufficient technical support and timely responses to consumers, prescribers and pharmacists.

4. Notwithstanding any other provision of law to the contrary, no preferred drug program or prior authorization requirement for prescription drugs, except as created by this article, paragraph (a-1) or (a-2) of subdivision four of section three hundred sixty-five-a of the social services law, paragraph (g) of subdivision two of section three hundred sixty-five-a of the social services law, subdivision one of section two hundred forty-one of the elder law and shall apply to the state public health plans.

5. The drug utilization review board shall consider and make recommendations to the commissioner for the adoption of a preferred drug program. (a) In developing the preferred drug program, the board shall, without limitation: (i) identify therapeutic classes or drugs to be included in the preferred drug program; (ii) identify preferred drugs in each of the chosen therapeutic classes; (iii) evaluate the clinical effectiveness and safety of drugs considering the latest peer-reviewed research and may consider studies submitted to the federal food and drug administration in connection with its drug approval system; (iv) consider the potential impact on patient care and the potential fiscal

impact that may result from making such a therapeutic class subject to prior authorization; and (v) consider the potential impact of the preferred drug program on the health of special populations such as children, the elderly, the chronically ill, persons with HIV/AIDS and persons with mental health conditions.

(b) In developing the preferred drug program, the board may consider preferred drug programs or evidence based research operated or conducted by or for other state governments, the federal government, or multi-state coalitions. Notwithstanding any inconsistent provision of section one hundred twelve or article eleven of the state finance law or section one hundred forty-two of the economic development law or any other law, the department may enter into contractual agreements with the Oregon Health and Science University Drug Effectiveness Review Project to provide technical and clinical support to the board and the department in researching and recommending drugs to be placed on the preferred drug list.

(c) The board shall from time to time review all therapeutic classes included in the preferred drug program, and may recommend that the commissioner add or delete drugs or classes of drugs to or from the preferred drug program, subject to this subdivision.

(d) The board shall establish procedures to promptly review prescription drugs newly approved by the federal food and drug administration.

6. The board shall recommend a procedure and criteria for the approval of non-preferred drugs as part of the prior authorization process. In developing these criteria, the board shall include consideration of the following:

(a) the preferred drug has been tried by the patient and has failed to produce the desired health outcomes;

(b) the patient has tried the preferred drug and has experienced unacceptable side effects;

(c) the patient has been stabilized on a non-preferred drug and transition to the preferred drug would be medically contraindicated; and

(d) other clinical indications for the use of the non-preferred drug, which shall include consideration of the medical needs of special populations, including children, the elderly, the chronically ill,

persons with mental health conditions, and persons affected by HIV/AIDS.

7. The commissioner shall provide thirty days public notice on the department's website prior to any meeting of the board to develop recommendations concerning the preferred drug program and any proposed eliminations to the list of drugs reimbursable under subdivision four of section three hundred sixty-five-a of the social services law. Such notice regarding meetings of the board shall include a description of the proposed therapeutic class to be reviewed, a listing of drug products in the therapeutic class, and the proposals to be considered by the board. The board shall allow interested parties a reasonable opportunity to make an oral presentation to the board related to the prior authorization of the therapeutic class to be reviewed. The board shall consider any information provided by any interested party, including, but not limited to, prescribers, dispensers, patients, consumers and manufacturers of the drug in developing their recommendations.

8. The commissioner shall provide notice of any recommendations developed by the board regarding the preferred drug program or elimination to the list of drugs reimbursable under subdivision four of section three hundred sixty-five-a of the social services law, at least five days before any final determination by the commissioner, by making such information available on the department's website. Such public notice may include: a summary of the deliberations of the board; a summary of the positions of those making public comments at meetings of the board; the response of the board to those comments, if any; and the findings and recommendations of the board.

9. Within ten days of a final determination regarding the preferred drug program or elimination to the list of drugs reimbursable under subdivision four of section three hundred sixty-five-a of the social services law, the commissioner shall provide public notice on the department's website of such determinations, including: the nature of the determination; and analysis of the impact of the commissioner's determination on state public health plan populations and providers; and the projected fiscal impact to the state public health plan programs of

the commissioner's determination.

10. The commissioner shall adopt a preferred drug program and amendments after considering the recommendations from the board and any comments received from prescribers, dispensers, patients, consumers and manufacturers of the drug.

(a) The preferred drug list in any therapeutic class included in the preferred drug program shall be developed based initially on an evaluation of the clinical effectiveness, safety and patient outcomes, followed by consideration of the cost-effectiveness of the drugs.

(b) In each therapeutic class included in the preferred drug program, the board shall determine whether there is one drug which is significantly more clinically effective and safe, and that drug shall be included on the preferred drug list without consideration of cost. If, among two or more drugs in a therapeutic class, the difference in clinical effectiveness and safety is not clinically significant, then cost effectiveness (including price and supplemental rebates) may also be considered in determining which drug or drugs shall be included on the preferred drug list.

(c) In addition to drugs selected under paragraph (b) of this subdivision, any prescription drug in the therapeutic class, whose cost to the state public health plans (including net price and supplemental rebates) is equal to or less than the cost of another drug in the therapeutic class that is on the preferred drug list under paragraph (b) of this subdivision, may be selected to be on the preferred drug list, based on clinical effectiveness, safety and cost-effectiveness.

(d) Notwithstanding any provision of this section to the contrary, the commissioner may designate therapeutic classes of drugs, including classes with only one drug, as all preferred prior to any review that may be conducted by the board pursuant to this section.

11. (a) The commissioner shall provide an opportunity for pharmaceutical manufacturers to provide supplemental rebates to the state public health plans for drugs within a therapeutic class; such supplemental rebates shall be taken into consideration by the board and the commissioner in determining the cost-effectiveness of drugs within a therapeutic class under the state public health plans.

(b) The commissioner may designate a pharmaceutical manufacturer as one with whom the commissioner is negotiating or has negotiated a manufacturer agreement, and all of the drugs it manufactures or markets shall be included in the preferred drug program. The commissioner may negotiate directly with a pharmaceutical manufacturer for rebates relating to any or all of the drugs it manufactures or markets. A manufacturer agreement shall designate any or all of the drugs manufactured or marketed by the pharmaceutical manufacturer as being preferred or non preferred drugs. When a pharmaceutical manufacturer has been designated by the commissioner under this paragraph but the commissioner has not reached a manufacturer agreement with the pharmaceutical manufacturer, then the commissioner may designate some or all of the drugs manufactured or marketed by the pharmaceutical manufacturer as non preferred drugs. However, notwithstanding this paragraph, any drug that is selected to be on the preferred drug list under paragraph (b) of subdivision ten of this section on grounds that it is significantly more clinically effective and safer than other drugs in its therapeutic class shall be a preferred drug.

(c) Supplemental rebates under this subdivision shall be in addition to those required by applicable federal law and subdivision seven of section three hundred sixty-seven-a of the social services law. In order to be considered in connection with the preferred drug program, such supplemental rebates shall apply to the drug products dispensed under the Medicaid program and the EPIC program. The commissioner is prohibited from approving alternative rebate demonstrations, value added programs or guaranteed savings from other program benefits as a substitution for supplemental rebates.

13. The commissioner may implement all or a portion of the preferred drug program through contracts with administrators with expertise in management of pharmacy services, subject to applicable laws.

14. For a period of eighteen months, commencing with the date of enactment of this article, and without regard to the preferred drug program or the clinical drug review program requirements of this article, the commissioner is authorized to implement, or continue, a prior authorization requirement for a drug which may not be dispensed

without a prescription as required by section sixty-eight hundred ten of the education law, for which there is a non-prescription version within the same drug class, or for which there is a comparable non-prescription version of the same drug. Any such prior authorization requirement shall be implemented in a manner that is consistent with the process employed by the commissioner for such authorizations as of one day prior to the date of enactment of this article. At the conclusion of the eighteen month period, any such drug or drug class shall be subject to the preferred drug program requirements of this article; provided, however, that the commissioner is authorized to immediately subject any such drug to prior authorization without regard to the provisions of subdivisions five through eleven of this section.

§ 273. Preferred drug program prior authorization. 1. For the purposes of this article, a prescription drug shall be considered to be not on the preferred drug list if it is a non preferred drug.

2. The preferred drug program shall make available a twenty-four hour per day, seven days per week telephone call center that includes a toll-free telephone line and dedicated facsimile line to respond to requests for prior authorization. The call center shall include qualified health care professionals who shall be available to consult with prescribers concerning prescription drugs that are not on the preferred drug list. A prescriber seeking prior authorization shall consult with the program call line to reasonably present his or her justification for the prescription and give the program's qualified health care professional a reasonable opportunity to respond.

3. (a) When a patient's health care provider prescribes a prescription drug that is not on the preferred drug list or the statewide formulary of opioid dependence agents and opioid antagonists established pursuant to subparagraph (vii) of paragraph (e) of subdivision seven of section three hundred sixty-seven-a of the social services law, the prescriber shall consult with the program to confirm that in his or her reasonable professional judgment, the patient's clinical condition is consistent with the criteria for approval of the non-preferred drug. Such criteria

shall include:

(i) the preferred drug has been tried by the patient and has failed to produce the desired health outcomes;

(ii) the patient has tried the preferred drug and has experienced unacceptable side effects;

(iii) the patient has been stabilized on a non-preferred drug and transition to the preferred drug would be medically contraindicated; or

(iv) other clinical indications identified by the drug utilization review board established pursuant to section three hundred sixty-nine-bb of the social services law, which shall include consideration of the medical needs of special populations, including children, elderly, chronically ill, persons with mental health conditions, and persons affected by HIV/AIDS, pregnant persons, and persons with an opioid use disorder.

(a-1) When a patient's health care provider prescribes a prescription drug that is on the statewide formulary of opioid dependence agents and opioid antagonists established pursuant to subparagraph (vii) of paragraph (e) of subdivision seven of section three hundred sixty-seven-a of the social services law, the department shall not require prior authorization unless required by the department's drug use review program established pursuant to section 1927(g) of the Social Security Act.

(b) In the event that the patient does not meet the criteria in paragraph (a) of this subdivision, the prescriber may provide additional information to the program to justify the use of a prescription drug that is not on the preferred drug list. The program shall provide a reasonable opportunity for a prescriber to reasonably present his or her justification of prior authorization. If, after consultation with the program, the prescriber, in his or her reasonable professional judgment, determines that the use of a prescription drug that is not on the preferred drug list is warranted, the prescriber's determination shall be final.

(c) If a prescriber meets the requirements of paragraph (a) or (b) of this subdivision, the prescriber shall be granted prior authorization under this section.

(d) In the instance where a prior authorization determination is not completed within twenty-four hours of the original request, solely as

the result of a failure of the program (whether by action or inaction), prior authorization shall be immediately and automatically granted with no further action by the prescriber and the prescriber shall be notified of this determination. In the instance where a prior authorization determination is not completed within twenty-four hours of the original request for any other reason, a seventy-two hour supply of the medication shall be approved by the program and the prescriber shall be notified of this determination.

4. When, in the judgment of the prescriber or the pharmacist, an emergency condition exists, and the prescriber or pharmacist notifies the program that an emergency condition exists, a seventy-two hour emergency supply of the drug prescribed shall be immediately authorized by the program.

5. In the event that a patient presents a prescription to a pharmacist for a prescription drug that is not on the preferred drug list and for which the prescriber has not obtained a prior authorization, the pharmacist shall, within a prompt period based on professional judgment, notify the prescriber. The prescriber shall, within a prompt period based on professional judgment, either seek prior authorization or shall contact the pharmacist and amend or cancel the prescription. The pharmacist shall, within a prompt period based on professional judgment, notify the patient when prior authorization has been obtained or denied or when the prescription has been amended or cancelled.

6. Once prior authorization of a prescription for a drug that is not on the preferred drug list is obtained, prior authorization shall not be required for any refill of the prescription.

7. No prior authorization under the preferred drug program shall be required when a prescriber prescribes a drug on the preferred drug list; provided, however, that the commissioner may identify such a drug for which prior authorization is required pursuant to the provisions of the clinical drug review program established under section two hundred seventy-four of this article.

8. The department shall monitor the prior authorization process for prescribing patterns which are suspected of endangering the health and safety of the patient or which demonstrate a likelihood of fraud or abuse. The department shall take any and all actions otherwise permitted by law to investigate such prescribing patterns, to take remedial action and to enforce applicable federal and state laws.

9. No prior authorization under the preferred drug program shall be required for any prescription under EPIC until the panel has made prior authorization applicable to EPIC under section two hundred seventy-five of this article.

10. Prior authorization shall not be required for any buprenorphine products, methadone, or long acting injectable naltrexone for detoxification or maintenance treatment of a substance use disorder prescribed according to generally accepted national professional guidelines for the treatment of a substance use disorder.

§ 274. Clinical drug review program. 1. In addition to the preferred drug program established by this article, the commissioner may establish a clinical drug review program. The commissioner may, from time to time, require prior authorization under such program for prescription drugs or patterns of utilization under state public health plans. When a prescriber prescribes a drug which requires prior authorization under this section, state public health plan reimbursement shall be denied unless such prior authorization is obtained.

2. The clinical drug review program shall make available a twenty-four hour per day, seven days per week response system.

3. In establishing a prior authorization requirement for a drug under the clinical drug review program, the commissioner shall consider the following:

(a) whether the drug requires monitoring of prescribing protocols to protect both the long-term efficacy of the drug and the public health;

(b) the potential for, or a history of, overuse, abuse, drug diversion

or illegal utilization; and

(c) the potential for, or a history of, utilization inconsistent with approved indications. Where the commissioner finds that a drug meets at least one of these criteria, in determining whether to make the drug subject to prior authorization under the clinical drug review program, the commissioner shall consider whether similarly effective alternatives are available for the same disease state and the effect of that availability or lack of availability.

4. The commissioner shall obtain an evaluation of the factors set forth in subdivision three of this section and a recommendation as to the establishment of a prior authorization requirement for a drug under the clinical drug review program from the drug utilization review board. For this purpose, the commissioner and the board, as applicable, shall comply with the following meeting and notice processes established by this article:

(a) the open meetings law and freedom of information law provisions of subdivision six of section two hundred seventy-one of this article; and

(b) the public notice and interested party provisions of subdivisions seven, eight and nine of section two hundred seventy-two of this article.

5. The board shall recommend a procedure and criteria for the approval of drugs subject to prior authorization under the clinical drug review program. Such criteria shall include the specific approved clinical indications for use of the drug.

6. The commissioner shall identify a drug for which prior authorization is required, as well as the procedures and criteria for approval of use of the drug, under the clinical drug review program after considering the recommendations from the board and any comments received from prescribers, dispensers, consumers and manufacturers of the drug. In no event shall the prior authorization criteria for approval pursuant to this subdivision result in denial of the prior authorization request based on the relative cost of the drug subject to prior authorization.

7. In the event that the patient does not meet the criteria for approval established by the commissioner in subdivision six of this section, the clinical drug review program shall provide a reasonable opportunity for a prescriber to reasonably present his or her justification for prior authorization. If, after consultation with the program, the prescriber, in his or her reasonable professional judgment, determines that the use of the prescription drug is warranted, the prescriber's determination shall be final and prior authorization shall be granted under this section; provided, however, that prior authorization may be denied in cases where the department has substantial evidence that the prescriber or patient is engaged in fraud or abuse relating to the drug.

8. In the event that a patient presents a prescription to a pharmacist for a prescription drug that requires prior authorization under this section and for which prior authorization has not been obtained, the pharmacist shall, within a prompt period based on professional judgment, notify the prescriber. The prescriber shall, within a prompt period based on professional judgment, either seek prior authorization or shall contact the pharmacist and amend or cancel the prescription. The pharmacist shall, within a prompt period based on professional judgment, notify the patient when prior authorization has been obtained or denied or when the prescription has been amended or cancelled.

9. In the instance where a prior authorization determination is not completed within twenty-four hours of the original request solely as the result of a failure of the program (whether by action or inaction), prior authorization shall be immediately and automatically granted without further action by the prescriber and the prescriber shall be notified of this determination. In the instance where a prior authorization determination is not completed within twenty-four hours of the original request for any other reason, a seventy-two hour supply of the medication will be approved by the program and the prescriber shall be notified of the determination.

10. When, in the judgment of the prescriber or the pharmacist, an emergency condition exists, and the prescriber or pharmacist notifies

the program to confirm that such an emergency condition exists, a seventy-two hour emergency supply of the drug prescribed shall be immediately authorized by the program.

11. The department or the panel shall monitor the prior authorization process for prescribing patterns which are suspected of endangering the health and safety of the patient or which demonstrate a likelihood of fraud or abuse. The department or the panel shall take any and all actions otherwise permitted by law to investigate such prescribing patterns, to take remedial action and to enforce applicable federal and state laws.

12. The commissioner may implement all or a portion of the clinical drug review program through contracts with administrators with expertise in management of pharmacy services, subject to applicable laws.

13. No prior authorization under the clinical drug review program shall be required for any prescription under EPIC until the commissioner has made prior authorization applicable to EPIC under section two hundred seventy-five of this article.

14. For the period of eighteen months, commencing with the date of enactment of this article, the commissioner is authorized to continue prior authorization requirements for prescription drugs subject to prior authorization as of one day prior to the enactment of this article and which are not described in subdivision fourteen of section two hundred seventy-two of this article. At the conclusion of the eighteen month period, any such drug shall be subject to the clinical drug review program requirements of this section; provided, however, that the commissioner is authorized to immediately subject any such drug to prior authorization without regard to the provisions of subdivisions three through six of this section.

§ 275. Applicability of prior authorization to EPIC. The panel shall, no later than April first, two thousand eight, proceed to make prior authorization under the preferred drug program and the clinical review

drug program, under this article, applicable to prescriptions under EPIC. The panel shall take necessary actions consistent with this article to apply prior authorization under this article to EPIC. Upon determining that the necessary steps have been taken to apply prior authorization under this article to EPIC, the panel shall, with reasonable prior public notice, make prescriptions under EPIC subject to prior authorization under this article as of a specified date. If necessary, the panel may provide that such applicability take effect on separate dates for the preferred drug program and the clinical drug review program.

§ 276. Education and outreach. The department or the panel may conduct education and outreach programs for consumers and health care providers relating to the safe, therapeutic and cost-effective use of prescription drugs and appropriate treatment practices for containing prescription drug costs. The department or the panel shall provide information as to how prescribers, pharmacists, patients and other interested parties can obtain information regarding drugs included on the preferred drug list, whether any change has been made to the preferred drug list since it was last issued, and the process by which prior authorization may be obtained.

§ 277. Review and reports. 1. The commissioner, in consultation with the drug utilization review board, shall undertake periodic reviews, at least annually, of the preferred drug program which shall include consideration of:

(a) the volume of prior authorizations being handled, including data on the number and characteristics of prior authorization requests for particular prescription drugs;

(b) the quality of the program's responsiveness, including the quality of the administrator's responsiveness;

(c) complaints received from patients and providers;

(d) the savings attributable to the state, and to each county and the city of New York, due to the provisions of this article;

(e) the aggregate amount of supplemental rebates received in the

previous fiscal year and in the current fiscal year, to date; and such amounts are to be broken out by fiscal year and by month;

(f) the education and outreach program established by section two hundred seventy-six of this article.

2. The commissioner and the board shall, beginning March thirty-first, two thousand six and annually thereafter, submit a report to the governor and the legislature concerning each of the items subject to periodic review under subdivision one of this section.

3. The commissioner and the board shall, beginning with the commencement of the preferred drug program and monthly thereafter, submit a report to the governor and the legislature concerning the amount of supplemental rebates received.

TITLE II

PRESCRIPTION DRUGS; VARIOUS PROVISIONS

Section 278. Prescription drug retail price lists.

278-a. Exceptions to drug prescription supply during an emergency.

279. Prescriber education.

280. Medicaid drug cap.

280-a. Pharmacy benefit managers.

280-b. Unused prescription drug donation and redispensing program.

280-c. Pharmacy audits by pharmacy benefit managers.

280-d. Patient notification of prescription label change.

§ 278. Prescription drug retail price lists. 1. The department shall make prescription drug retail price lists of pharmacies, with the name and address of each pharmacy, available to the public in a database on its website at all times. The website shall enable consumers to search the database for drug retail prices of pharmacies selected by zip code of the pharmacy and other appropriate factors, including enabling consumers to display and compare prices for one or more selected drugs

as well as for the full list. The website shall enable consumers to download and print displayed information. The website shall accommodate reasonably anticipated and actual public use of the database. The database shall display drug retail prices for the compendium of the one hundred fifty most frequently prescribed drugs received by the department from the department of education under section sixty-eight hundred twenty-six of the education law.

2. The department shall extract pharmacy retail price information, showing the actual price to be paid to the pharmacy by a retail purchaser for any listed drug at the listed dosage, from usual and customary price data collected by the medical assistance program under title eleven of article five of the social services law. Provided, however, that any pharmacy participating in the medical assistance program shall provide the usual and customary price data for the one hundred fifty most frequently prescribed drugs under section sixty-eight hundred twenty-six of the education law to the department through the same mechanism that the usual and customary price data is received under the medical assistance program. If the department is unable to process such data, the pharmacy shall fax or electronically transmit to the department the usual and customary price data for the one hundred fifty most frequently prescribed drugs under section sixty-eight hundred twenty-six of the education law. The prescription drug retail price list database shall be subject to and conform with applicable state and federal requirements, including those concerning privacy, confidentiality and use of information. The commissioner shall seek a waiver of any federal requirement necessary for development and implementation of the database under this section. Upon implementation of this system, this section shall apply in place of any inconsistent provision of section sixty-eight hundred twenty-six of the education law. The prescription drug retail price list database on the department's website shall list a pharmacy's price information extracted under this subdivision as the pharmacy's retail price for each drug. The department shall update the prescription drug retail price list at least weekly using the most recent retail price for each drug for each pharmacy as reasonably practicable.

2-a. Pharmacies which do not provide usual and customary price data in the manner specified in subdivision two of this section shall transmit the drug retail price list compiled pursuant to section sixty-eight hundred twenty-six of the education law to the department in a manner and frequency prescribed by the department and the department shall extract the usual and customary price data information from such drug retail price list; provided that the commissioner may exempt any category of pharmacy not required to compile such list pursuant to section sixty-eight hundred twenty-six of the education law.

3. The prescription drug retail price list database on the department's website shall contain an advisory statement by the department alerting consumers of the need to tell their health care practitioner and pharmacist about all the medications they may be taking and to ask them how to avoid harmful interactions between the drugs, if any. A pharmacy may submit to the department a brief statement, acceptable to the department, to be included on the website in conjunction with the pharmacy's prescription drug retail price information: (a) concerning discounts from its listed retail prices that may be available to consumers and (b) any limitations that the pharmacy may have as to what group or groups of customers it serves.

4. In developing and implementing the prescription drug retail price list database system, the department may seek and shall receive the assistance of the departments of education and law.

5. The commissioner shall provide an interim progress report concerning efforts to develop and implement the database system under this section not later than January thirty-first, two thousand six. The report shall include a projected completion date, a description of obstacles to development and implementation of the database system, and an estimate of the costs to complete the implementation of the database system.

6. As used in this section, "pharmacy" means any place in which drugs or prescriptions are possessed for the purpose of retailing, or in which drugs or prescriptions are retailed, or in which drugs or prescriptions

are by advertising or otherwise offered for sale at retail.

§ 278-a. Exceptions to drug prescription supply during an emergency.

The commissioner shall promulgate a list of prescription drugs that shall not be subject to subsection (c) of section three thousand two hundred forty-two and subsection (c) of section four thousand three hundred twenty-nine of the insurance law. Such list shall include, but not be limited to, all schedule II and schedule III controlled substances.

§ 279. Prescriber education. The department shall develop in collaboration with an academic institution a program designed to provide prescribers with an evidence-based, non-commercial source of the latest objective information about pharmaceuticals. Information shall be presented to prescribers by specially-trained pharmacists, nurses or other health professionals to assist the prescriber in making appropriate therapeutic recommendations.

§ 280. Medicaid drug cap. 1. The legislature hereby finds and declares that there is a significant public interest for the Medicaid program to manage drug costs in a manner that ensures patient access while providing financial stability for the state and participating providers. Since two thousand eleven, the state has taken significant steps to contain costs in the Medicaid program by imposing a statutory limit on annual growth. Drug expenditures, however, continually outpace other cost components causing significant pressure on the state, providers, and patient access operating under the Medicaid global cap. It is therefore intended that the department establish a supplemental rebate program as part of a focused and sustained effort to balance the growth of drug expenditures with the growth of total Medicaid expenditures.

2. The commissioner shall review at least annually the department of health state funds Medicaid drug expenditures to identify drugs in the eightieth percentile or higher of total spend, net of rebate or in the

eightieth percentile or higher based on cost per claim, net of rebate.

3. (a) The commissioner may identify and refer drugs in the eightieth percentile or higher of total spend, net of rebate or in the eightieth percentile or higher based on cost per claim, net of rebate, to the drug utilization review board established by section three hundred sixty-nine-bb of the social services law for a recommendation as to whether a target supplemental Medicaid rebate should be paid by the manufacturer of the drug to the department and the target amount of the rebate.

(b) If the department intends to refer a drug to the drug utilization review board pursuant to paragraph (a) of this subdivision, the department shall notify the manufacturer of such drug and shall attempt to reach agreement with the manufacturer on a rebate for the drug prior to referring the drug to the drug utilization review board for review. Such rebate may be based on evidence-based research, including, but not limited to, such research operated or conducted by or for other state governments, the federal government, the governments of other nations, and third party payers or multi-state coalitions, provided however that the department shall account for the effectiveness of the drug in treating the conditions for which it is prescribed or in improving a patient's health, quality of life, or overall health outcomes, and the likelihood that use of the drug will reduce the need for other medical care, including hospitalization.

(c) In the event that the commissioner and the manufacturer have previously agreed to a supplemental rebate for a drug pursuant to paragraph (b) of this subdivision or paragraph (e) of subdivision seven of section three hundred sixty-seven-a of the social services law, the drug shall not be referred to the drug utilization review board for any further supplemental rebate for the duration of the previous rebate agreement, provided however, the commissioner may refer a drug to the drug utilization review board if the commissioner determines there are significant and substantiated utilization or market changes, new evidence-based research, or statutory or federal regulatory changes that warrant additional rebates. In such cases, the department shall notify the manufacturer and provide evidence of the changes or research that would warrant additional rebates, and shall attempt to reach agreement

with the manufacturer on a rebate for the drug prior to referring the drug to the drug utilization review board for review.

(d) The department shall consider a drug's actual cost to the state, including current rebate amounts, prior to seeking an additional rebate pursuant to paragraph (b) or (c) of this subdivision.

(e) If the commissioner is unsuccessful in entering into a rebate arrangement with the manufacturer of the drug satisfactory to the department, the drug manufacturer shall, in that event be required to provide to the department, on a standard reporting form developed by the department, the following information:

(i) the actual cost of developing, manufacturing, producing (including the cost per dose of production), and distributing the drug;

(ii) research and development costs of the drug, including payments to predecessor entities conducting research and development, such as biotechnology companies, universities and medical schools, and private research institutions;

(iii) administrative, marketing, and advertising costs for the drug, apportioned by marketing activities that are directed to consumers, marketing activities that are directed to prescribers, and the total cost of all marketing and advertising that is directed primarily to consumers and prescribers in New York, including but not limited to prescriber detailing, copayment discount programs, and direct-to-consumer marketing;

(iv) the extent of utilization of the drug;

(v) prices for the drug that are charged to purchasers outside the United States;

(vi) prices charged to typical purchasers in the state, including but not limited to pharmacies, pharmacy chains, pharmacy wholesalers, or other direct purchasers;

(vii) the average rebates and discounts provided per payer type in the state; and

(viii) the average profit margin of each drug over the prior five-year period and the projected profit margin anticipated for such drug.

(f) All information disclosed pursuant to paragraph (e) of this subdivision shall be considered confidential and shall not be disclosed by the department in a form that identifies a specific manufacturer or prices charged for drugs by such manufacturer.

4. In determining whether to recommend a target supplemental rebate for a drug, the drug utilization review board shall consider the actual cost of the drug to the Medicaid program, including federal and state rebates, and may consider, among other things:

(a) the drug's impact on Medicaid drug spending, and the adequacy of capitation rates of participating Medicaid managed care plans, and the drug's affordability and value to the Medicaid program; or

(b) significant and unjustified increases in the price of the drug; or

(c) whether the drug may be priced disproportionately to its therapeutic benefits.

5. (a) If the drug utilization review board recommends a target rebate amount on a drug referred by the commissioner, the department shall negotiate with the drug's manufacturer for a supplemental rebate to be paid by the manufacturer in an amount not to exceed such target rebate amount.

(b) The supplemental rebate required by paragraph (a) of this subdivision shall apply to drugs dispensed to enrollees of managed care providers pursuant to section three hundred sixty-four-j of the social services law and to drugs dispensed to Medicaid recipients who are not enrollees of such providers.

(c) Where the department and a manufacturer enter into a rebate agreement pursuant to this section, which may be in addition to existing rebate agreements entered into by the manufacturer with respect to the same drug, no additional rebates shall be required to be paid by the manufacturer to a managed care provider or any of a managed care provider's agents, including but not limited to any pharmacy benefit manager, while the department is collecting the rebate pursuant to this section.

(d) In formulating a recommendation concerning a target rebate amount for a drug, the drug utilization review board may consider:

(i) publicly available information relevant to the pricing of the drug;

(ii) information supplied by the department relevant to the pricing of the drug;

(iii) information relating to value-based pricing provided, however,

if the department directly invites any third party to provide cost-effectiveness analysis or research related to value-based pricing, and the department receives and considers such analysis or research for use by the board, such third party shall disclose any funding sources. The department shall, if reasonably possible, make publicly available the following documents in its possession that it relies upon to provide cost effectiveness analyses or research related to value-based pricing: (A) descriptions of underlying methodologies; (B) assumptions and limitations of research findings; and (C) if available, data that presents results in a way that reflects different outcomes for affected subpopulations;

(iv) the seriousness and prevalence of the disease or condition that is treated by the drug;

(v) the extent of utilization of the drug;

(vi) the effectiveness of the drug in treating the conditions for which it is prescribed, or in improving a patient's health, quality of life, or overall health outcomes;

(vii) the likelihood that use of the drug will reduce the need for other medical care, including hospitalization;

(viii) the average wholesale price, wholesale acquisition cost, retail price of the drug, and the cost of the drug to the Medicaid program minus rebates received by the state;

(ix) in the case of generic drugs, the number of pharmaceutical manufacturers that produce the drug;

(x) whether there are pharmaceutical equivalents to the drug; and

(xi) information supplied by the manufacturer, if any, explaining the relationship between the pricing of the drug and the cost of development of the drug and/or the therapeutic benefit of the drug, or that is otherwise pertinent to the manufacturer's pricing decision; any such information, including the information on the standard reporting form requirement in paragraph (e) of subdivision three of this section, provided shall be considered confidential and shall not be disclosed by the drug utilization review board in a form that identifies a specific manufacturer or prices charged for drugs by such manufacturer.

6. (a) After taking into account all rebates and supplemental rebates received by the department, including rebates received to date pursuant

to this section, the commissioner may: subject any drug of a manufacturer referred to the drug utilization review board under this section to prior approval in accordance with existing processes and procedures when such manufacturer has not entered into a supplemental rebate arrangement as required by this section; direct a managed care plan to limit or reduce reimbursement for a drug provided by a medical practitioner if the drug utilization review board recommends a target rebate amount for such drug and the manufacturer has failed to enter into a rebate arrangement required by this section; direct managed care plans to remove from their Medicaid formularies any drugs of a manufacturer who has a drug that the drug utilization review board recommends a target rebate amount for and the manufacturer has failed to enter into a rebate arrangement required by this section; promote the use of cost effective and clinically appropriate drugs other than those of a manufacturer who has a drug that the drug utilization review board recommends a target rebate amount and the manufacturer has failed to enter into a rebate arrangement required by this section; allow manufacturers to accelerate rebate payments under existing rebate contracts; and such other actions as authorized by law. The commissioner shall provide written notice to the legislature at least thirty days prior to taking action pursuant to this paragraph.

(b) The commissioner shall be authorized to take the actions described in paragraph (a) of this subdivision. In addition, no such actions shall be deemed to supersede the provisions of paragraph (b) of subdivision three of section two hundred seventy-three of this article or the provisions of subdivisions twenty-five and twenty-five-a of section three hundred sixty-four-j of the social services law; provided further that nothing in this section shall prevent access by a Medicaid recipient to a drug which is the only treatment for a particular disease or condition.

7. The commissioner shall provide a report by July first annually to the drug utilization review board, the governor, the speaker of the assembly, and the temporary president of the senate on savings achieved through the supplemental rebate programs in the last fiscal year. Such report shall provide data on what savings were achieved through actions pursuant to subdivisions three, five and six of this section,

respectively, and what savings were achieved through other means and how such savings were calculated and implemented.

§ 280-a. Pharmacy benefit managers. 1. Definitions. As used in this section, the following terms shall have the following meanings:

(a) "Health plan " means an entity for which a pharmacy benefit manager provides pharmacy benefit management services and that is a health benefit plan or other entity that approves, provides, arranges for, or pays or reimburses in whole or in part for health care items or services, to include at least prescription drugs, for a substantial number of beneficiaries who work or reside in this state. The superintendent shall determine, in his or her sole discretion, by regulation how the phrase "a substantial number of beneficiaries who work or reside in this state" shall be interpreted.

(b) "Pharmacy benefit management services" means the management or administration of prescription drug benefits for a health plan, directly or through another entity, and regardless of whether the pharmacy benefit manager and the health plan are related, or associated by ownership, common ownership, organization or otherwise; including the procurement of prescription drugs to be dispensed to patients, or the administration or management of prescription drug benefits, including but not limited to, any of the following:

(i) mail service pharmacy;

(ii) claims processing, retail network management, or payment of claims to pharmacies for dispensing prescription drugs;

(iii) clinical or other formulary or preferred drug list development or management;

(iv) negotiation or administration of rebates, discounts, payment differentials, or other incentives, for the inclusion of particular prescription drugs in a particular category or to promote the purchase of particular prescription drugs;

(v) patient compliance, therapeutic intervention, or generic substitution programs;

(vi) disease management;

(vii) drug utilization review or prior authorization;

(viii) adjudication of appeals or grievances related to prescription

drug coverage;

(ix) contracting with network pharmacies; and

(x) controlling the cost of covered prescription drugs.

(c) "Pharmacy benefit manager" means any entity that performs pharmacy benefit management services for a health plan.

(d) "Maximum allowable cost price" means a maximum reimbursement amount set by the pharmacy benefit manager for therapeutically equivalent multiple source generic drugs.

(e) "Controlling person" means any person or other entity who or which directly or indirectly has the power to direct or cause to be directed the management, control or activities of a pharmacy benefit manager.

(f) "Covered individual" means a member, participant, enrollee, contract holder or policy holder or beneficiary of a health plan.

(g) "License" means a license to be a pharmacy benefit manager, under article twenty-nine of the insurance law.

(h) "Spread pricing" means the practice of a pharmacy benefit manager retaining an additional amount of money in addition to the amount paid to the pharmacy to fill a prescription.

(i) "Superintendent" means the superintendent of financial services.

2. Duty, accountability and transparency. (a) (i) The pharmacy benefit manager shall have a duty and obligation to perform pharmacy benefit management services with care, skill, prudence, diligence, and professionalism.

(ii) In addition to the duties as may be prescribed by regulation pursuant to article twenty-nine of the insurance law:

(1) A pharmacy benefit manager interacting with a covered individual shall have the same duty to a covered individual as the health plan for whom it is performing pharmacy benefit management services.

(2) A pharmacy benefit manager shall have a duty of good faith and fair dealing with all parties, including but not limited to covered individuals and pharmacies, with whom it interacts in the performance of pharmacy benefit management services.

(b) All funds received by the pharmacy benefit manager in relation to providing pharmacy benefit management services shall be received by the pharmacy benefit manager in trust and shall be used or distributed only pursuant to the pharmacy benefit manager's contract with the health plan

or applicable law; including any administrative fee or payment to the pharmacy benefit manager expressly provided for in the contract to compensate the pharmacy benefit manager for its services. Any funds received by the pharmacy benefit manager through spread pricing shall be subject to this paragraph. In addition to any other power conferred by law the superintendent shall have the authority to prescribe rules concerning pharmacy benefit manager administrative fees, including limitations on their form and use.

(c) The pharmacy benefit manager shall account, annually or more frequently to the health plan for any pricing discounts, rebates of any kind, inflationary payments, credits, clawbacks, fees, grants, chargebacks, reimbursements, or other benefits received by the pharmacy benefit manager. The health plan shall have access to all financial and utilization information of the pharmacy benefit manager in relation to pharmacy benefit management services provided to the health plan.

(d) The pharmacy benefit manager shall disclose in writing to the health plan the terms and conditions of any contract or arrangement between the pharmacy benefit manager and any party relating to pharmacy benefit management services provided to the health plan including but not limited to, dispensing fees paid to the pharmacies.

(e) The pharmacy benefit manager shall disclose in writing to the health plan any activity, policy, practice, contract or arrangement of the pharmacy benefit manager that directly or indirectly presents any conflict of interest with the pharmacy benefit manager's relationship with or obligation to the health plan.

(f) Any information required to be disclosed by a pharmacy benefit manager to a health plan under this section that is reasonably designated by the pharmacy benefit manager as proprietary or trade secret information shall be kept confidential by the health plan, except as required or permitted by law, including disclosure necessary to prosecute or defend any legitimate legal claim or cause of action. Designation of information as proprietary or trade secret information under this subdivision shall have no effect on the obligations of any pharmacy benefit manager or health plan to provide that information to the department of health or the department of financial services.

(g) The superintendent, in consultation with the commissioner may make regulations defining, limiting, and relating to the duties, obligations,

requirements and other provisions relating to pharmacy benefit managers under this subdivision.

3. Prescriptions. A pharmacy benefit manager may not substitute or cause the substituting of one prescription drug for another in dispensing a prescription, or alter or cause the altering of the terms of a prescription, except with the approval of the prescriber or as explicitly required or permitted by law, including regulations of the department of financial services or the department of health. The superintendent and commissioner, in coordination with each other, are authorized to promulgate regulations to determine when substitution of prescription drugs may be required or permitted.

4. Appeals. A pharmacy benefit manager shall, with respect to contracts between a pharmacy benefit manager and a pharmacy or, alternatively, a pharmacy benefit manager and a pharmacy's contracting agent, such as a pharmacy services administrative organization, include a reasonable process to appeal, investigate and resolve disputes regarding multi-source generic drug pricing. The appeals process shall include the following provisions:

(a) the right to appeal by the pharmacy and/or the pharmacy's contracting agent shall be limited to thirty days following the initial claim submitted for payment;

(b) a telephone number through which a network pharmacy may contact the pharmacy benefit manager for the purpose of filing an appeal and an electronic mail address of the individual who is responsible for processing appeals;

(c) the pharmacy benefit manager shall send an electronic mail message acknowledging receipt of the appeal. The pharmacy benefit manager shall respond in an electronic message to the pharmacy and/or the pharmacy's contracting agent filing the appeal within seven business days indicating its determination. If the appeal is determined to be valid, the maximum allowable cost for the drug shall be adjusted for the appealing pharmacy effective as of the date of the original claim for payment. The pharmacy benefit manager shall require the appealing pharmacy to reverse and rebill the claim in question in order to obtain the corrected reimbursement;

(d) if an update to the maximum allowable cost is warranted, the pharmacy benefit manager or covered entity shall adjust the maximum allowable cost of the drug effective for all similarly situated pharmacies in its network in the state on the date the appeal was determined to be valid; and

(e) if an appeal is denied, the pharmacy benefit manager shall identify the national drug code of a therapeutically equivalent drug, as determined by the federal Food and Drug Administration, that is available for purchase by pharmacies in this state from wholesalers registered pursuant to subdivision four of section sixty-eight hundred eight of the education law at a price which is equal to or less than the maximum allowable cost for that drug as determined by the pharmacy benefit manager.

5. Contract provisions. No pharmacy benefit manager shall, with respect to contracts between such pharmacy benefit manager and a pharmacy or, alternatively, such pharmacy benefit manager and a pharmacy's contracting agent, such as a pharmacy services administrative organization:

(a) prohibit or penalize a pharmacist or pharmacy from disclosing to an individual purchasing a prescription medication or service information regarding:

(i) the cost of the prescription medication or service to the individual, or the cost of the prescription medication or service to the pharmacy and the pharmacy's reimbursement for that prescription medication or service; or

(ii) the availability of any therapeutically equivalent alternative medications or alternative methods of purchasing the prescription medication, including but not limited to, paying a cash price; or

(b) charge or collect from an individual a copayment that exceeds the total submitted charges by the pharmacy for which the pharmacy is paid. If an individual pays a copayment, the pharmacy shall retain the adjudicated costs and the pharmacy benefit manager shall not redact or recoup the adjudicated cost.

§ 280-b. Unused prescription drug donation and redispensing program.

1. As used in this section:

(a) "Donor entity" means a manufacturer, wholesaler, or distributor of prescription drugs; a pharmacy; or a hospital authorized under article twenty-eight of this chapter.

(b) "Recipient entity" means a manufacturer, wholesaler, or distributor of prescription drugs; a pharmacy; or a hospital authorized under article twenty-eight of this chapter.

(c) "Third party intermediary" means a not-for-profit organization that facilitates the donation or transfer of prescription drugs under this section but does not take possession or ownership of the prescription drugs.

(d) "Redispense" means to dispense a prescription drug that was donated and received under this section.

2. The commissioner shall make regulations governing the donation and redispensing of unused prescription drugs under this section.

3. A donor entity may donate unused prescription drugs to a recipient entity, directly or through a third-party intermediary, in a secure manner, ensuring the privacy of any individuals for whom the prescription drugs were initially dispensed or intended to be dispensed. Prescription drugs redispensed under this section shall be inspected by a pharmacist or other licensed health care provider as provided by regulations. The participation of any donor or recipient entity in redispensing shall be voluntary.

4. Only prescription drugs received by the recipient entity in tamper-evident packaging as defined by United States pharmacopoeia (USP) general chapter 659, or in unit-dose or multiple-dose packaging, may be redispensed. No prescription drugs may be redispensed that:

(a) show evidence of being adulterated or misbranded;

(b) show evidence of packaging having been tampered with;

(c) will expire before the use by the patient based on the prescribing practitioner's directions for use;

(d) or have been excluded from the program under regulations of the commissioner.

5. A prescription drug shall not be redispensed if it is restricted to a patient registered with the drug's manufacturer under federal Food and Drug Administration requirements including, but not limited to, those relating to risk evaluation and mitigation strategies (REMS), unless the redispensing is effectively restricted to ensure that the prescription drug is only dispensed in accordance with those requirements as applicable.

6. A recipient entity may also be a donor entity.

7. Prescription drugs having passed inspection under subdivision three of this section may be repackaged or prepackaged by the recipient entity prior to further redispensing.

8. Recipient entities shall give priority for redispensing to patients who are indigent, uninsured, or under-insured.

9. A redispensed prescription drug shall not be resold by any person or entity. However, this subdivision does not bar the payment of reasonable processing fees.

10. No person or entity shall be subject to criminal or civil liability, or professional discipline for any action taken in reasonable good faith compliance with this section, except under otherwise applicable grounds for liability.

11. The department shall work with prospective and approved donor entities, recipient entities and third-party intermediaries to educate them about redispensing and promote participation in redispensing. The department shall maintain a list of recipient entities, and third-party intermediaries and publish it on the department's website.

§ 280-c. Pharmacy audits by pharmacy benefit managers. 1. Definitions. As used in this section, the following terms shall have the following meanings:

(a) "Pharmacy benefit manager" shall have the same meaning as in

section two hundred eighty-a of this article.

(b) "Pharmacy" shall mean a pharmacy that has contracted with a pharmacy benefit manager for the provision of pharmacy services.

2. When conducting an audit of a pharmacy's records, a pharmacy benefit manager shall:

(a) not conduct an on-site audit of a pharmacy at any time during the first three calendar days of a month;

(b) notify the pharmacy or its contracting agent no later than fifteen days before the date of initial on-site audit. Such notification to the pharmacy or its contracting agent shall be in writing delivered either (i) by mail or common carrier, return receipt requested, or (ii) electronically with electronic receipt confirmation, addressed to the supervising pharmacist of record and pharmacy corporate office where applicable, at least fifteen days before the date of an initial on-site audit;

(c) limit the audit period to twenty-four months after the date a claim is submitted to or adjudicated by the pharmacy benefit manager;

(d) include in the written advance notice of an on-site audit the list of specific prescription numbers to be included in the audit that may or may not include the final two digits of the prescription numbers;

(e) use the written and verifiable records of a hospital, physician or other authorized practitioner, which are transmitted by any means of communication, to validate the pharmacy records in accordance with state and federal law;

(f) limit the number of prescriptions audited to no more than one hundred randomly selected in a twelve-month period, except in cases of fraud;

(g) provide the pharmacy or its contracting agent with a copy of the preliminary audit report within forty-five days after the conclusion of the audit;

(h) be allowed to conduct a follow-up audit on-site if a remote or desk audit reveals the necessity for a review of additional claims;

(i) in the case of invoice audits, accept as validation invoices from any wholesaler registered with the department of education from which the pharmacy has purchased prescription drugs or, in the case of durable medical equipment or sickroom supplies, invoices from an authorized

distributor other than a wholesaler;

(j) provide the pharmacy or its contracting agent with the ability to provide documentation to address a discrepancy or audit finding, provided that such documentation must be received by the pharmacy benefit manager no later than the forty-fifth day after the preliminary audit report was provided to the pharmacy or its contracting agent. The pharmacy benefit manager shall consider a reasonable request from the pharmacy for an extension of time to submit documentation to address or correct any findings in the report; and

(k) provide the pharmacy or its contracting agent with the final audit report no later than sixty days after the initial audit report was provided to the pharmacy or its contracting agent.

3. Any claim that was retroactively denied for a clerical error, typographical error, scrivener's error or computer error shall be paid if the prescription was properly and correctly dispensed, unless a pattern of such errors exists, fraudulent billing is alleged or the error results in actual financial loss to the entity. A clerical error is an error that does not result in actual financial harm to the covered entity or consumer and does not include the dispensing of an incorrect dose, amount or type of medication or dispensing a prescription drug to the wrong person.

4. This section shall not apply to:

(a) audits in which suspected fraudulent activity or other intentional or willful misrepresentation is evidenced by a physical review, review of claims data or statements, or other investigative methods; or

(b) audits of claims paid for by federally funded programs; or

(c) concurrent reviews or desk audits that occur within three business days of transmission of a claim and where no chargeback or recoupment is demanded.

§ 280-d. Patient notification of prescription label change. A health care prescriber shall inform the patient if such prescriber has included or has requested to include the name or address of the prescribing health care practice instead of the name of such prescriber on the

prescription label when prescribing mifepristone or misoprostol.

TITLE III

PRESCRIPTION FORMS, ELECTRONIC PRESCRIBING AND LANGUAGE ASSISTANCE

Section 281. Official New York state prescription forms.

§ 281. Official New York state prescription forms. 1. In addition to the requirements of section sixty-eight hundred ten of the education law or article thirty-three of this chapter, all prescriptions written in this state by a person authorized by this state to issue such prescriptions shall be on serialized official New York state prescription forms provided by the department. Such forms shall be furnished to practitioners authorized to write prescriptions and to institutional dispensers, and shall be non-reproducible and non-transferable. The commissioner, in consultation with the commissioner of education, may promulgate emergency regulations for the electronic transmission of prescriptions from prescribers to pharmacists or for ordering and filling requirements of prescription drugs for prescriptions written for recipients eligible for medical assistance pursuant to title eleven of article five of the social services law, for participants in the program for elderly pharmaceutical insurance coverage pursuant to title three of article two of the elder law and for prescriptions written pursuant to article thirty-three of this chapter. Nothing in this section shall prohibit the commissioner in consultation with the commissioner of education from promulgating any additional emergency regulations in furtherance of this subdivision.

2. The commissioner, in consultation with the commissioner of education, shall promulgate regulations requiring that prescription forms and electronic prescriptions include: (a) a section wherein prescribers may indicate whether an individual is limited English proficient, as defined in section sixty-eight hundred twenty-nine of the education law; and (b) if the patient is limited English proficient, a line where the prescriber may specify the preferred language indicated by the patient. Failure to include such indication on the part of the

prescriber shall not invalidate the prescription.

3. On or before December thirty-first, two thousand twelve, the commissioner shall promulgate regulations, in consultation with the commissioner of education, establishing standards for electronic prescriptions. Notwithstanding any other provision of this section or any other law to the contrary, effective three years subsequent to the date on which such regulations are promulgated, no person shall issue any prescription in this state unless such prescription is made by electronic prescription from the person issuing the prescription to a pharmacy in accordance with such regulatory standards, except for prescriptions: (a) issued by veterinarians; (b) issued in circumstances where electronic prescribing is not available due to temporary technological or electrical failure, as set forth in regulation; (c) issued by practitioners who have received a waiver or a renewal thereof for a specified period determined by the commissioner, not to exceed one year, from the requirement to use electronic prescribing, pursuant to a process established in regulation by the commissioner, in consultation with the commissioner of education, due to economic hardship, technological limitations that are not reasonably within the control of the practitioner, or other exceptional circumstance demonstrated by the practitioner; (d) issued by a practitioner under circumstances where, notwithstanding the practitioner's present ability to make an electronic prescription as required by this subdivision, such practitioner reasonably determines that it would be impractical for the patient to obtain substances prescribed by electronic prescription in a timely manner, and such delay would adversely impact the patient's medical condition, provided that if such prescription is for a controlled substance, the quantity of controlled substances does not exceed a five day supply if the controlled substance were used in accordance with the directions for use; or (e) issued by a practitioner to be dispensed by a pharmacy located outside the state, as set forth in regulation.

3-a. A pharmacy that receives an electronic prescription from the person issuing the prescription may, if the prescription has not been dispensed and at the request of the patient or a person authorized to make the request on behalf of the patient, immediately transfer or

forward such prescription to an alternative pharmacy designated by the requesting party.

4. In the case of a prescription for a controlled substance issued by a practitioner under paragraph (b) of subdivision three of this section, the practitioner shall indicate in the patient's health record that the prescription was issued other than electronically due to temporary technological or electrical failure.

5. In the case of a prescription for a controlled substance issued by a practitioner under paragraph (d) or (e) of subdivision three of this section, the practitioner shall, upon issuing such prescription, indicate in the patient's health record either that the prescription was issued other than electronically because it (a) was impractical to issue an electronic prescription in a timely manner and such delay would have adversely impacted the patient's medical condition, or (b) was to be dispensed by a pharmacy located outside the state.

6. The waiver process established in regulation pursuant to paragraph (c) of subdivision three of this section shall provide that a practitioner prescribing under a waiver must notify the department in writing promptly upon gaining the capability to use electronic prescribing, and that a waiver shall terminate within a specified period of time after the practitioner gains such capability.

* 7. Notwithstanding any other provision of this section or any other law to the contrary, a practitioner shall not be required to issue prescriptions electronically if he or she certifies to the department, in a manner specified by the department, that he or she will not issue more than twenty-five prescriptions during a twelve month period. Prescriptions in both oral and written form for both controlled substances and non-controlled substances shall be included in determining whether the practitioner will reach the limit of twenty-five prescriptions.

(a) A certification shall be submitted in advance of the twelve-month certification period, except that a twelve-month certification submitted on or before July first, two thousand sixteen, may begin March twenty-seven, two thousand sixteen.

(b) A practitioner who has made a certification under this subdivision may submit an additional certification on or before the expiration of the current twelve-month certification period, for a maximum of three twelve-month certifications.

(c) A practitioner may make a certification under this subdivision regardless of whether he or she has previously received a waiver under paragraph (c) of subdivision three of this section.

* NB Repealed June 1, 2029

ARTICLE 2-B DRUG TAKE BACK

Section 290. Definitions.

291. Drug take back.

292. Collection.

293. Violations.

294. Jurisdiction.

§ 290. Definitions. As used in this article, unless the context clearly requires otherwise:

1. "Authorized collector" means: (a) a person, company, corporation or other entity that is registered with the United States Drug Enforcement Administration to collect controlled substances for the purposes of safe disposal and destruction; (b) a law enforcement agency; or (c) a person, company, corporation or other entity authorized by the department to provide alternative collection methods for covered drugs that are not controlled substances.

2. "Covered drug" means any substance recognized as a drug under 21 USC § 321(g)(1), as amended, and any regulations promulgated thereunder that is sold, offered for sale or dispensed in the state, whether directly or through a wholesaler, in any form including prescription and nonprescription drugs, drugs in medical devices and combination products, brand and generic drugs and drugs for veterinary use; provided however, covered drug shall not include: (a) vitamins or supplements;

(b) herbal-based remedies and homeopathic drugs, products or remedies; (c) cosmetics, soap (with or without germicidal agents), laundry detergent, bleach, household cleaning products, shampoos, sunscreens, toothpaste, lip balm, antiperspirants or other personal care products that are regulated as both cosmetics and nonprescription drugs under the Federal Food, Drug, and Cosmetic Act; (d) pet pesticide products contained in pet collars, powders, shampoos, topical applications, or other forms; (e) drugs that are biological products as defined in subdivision twenty-seven of section sixty-eight hundred two of the education law if the manufacturer already provides a take back program; (f) drugs for which a manufacturer provides a take back program as part of a Federal Food and Drug Administration managed risk evaluation and mitigation strategy; (g) emptied injector products or emptied medical devices and their component parts or accessories; and (h) drugs that are used solely in a clinical setting.

3. "Manufacturer" means a person, company, corporation or other entity engaged in the manufacture of covered drugs sold in the state. Manufacturer does not include a repackager or wholesaler.

4. "Pharmacies" means all pharmacies registered under section sixty-eight hundred eight of the education law that are part of a group of ten or more establishments that conduct business under the same name, or operate under a common ownership or management, or pursuant to a franchise agreement with the same franchisor, and all nonresident pharmacies registered pursuant to section sixty-eight hundred eight-b of the education law that provide covered drugs to state residents by mail.

5. "Drug take back organization" means an organization designated by a manufacturer or a group of manufacturers to act as an agent on behalf of the manufacturer or group of manufacturers to operate and implement a drug take back program as authorized by this article.

6. "Wholesaler" means any person, company, corporation or other entity that sells or distributes drugs and covered drugs for resale to an entity in the state other than a consumer.

7. "Repackager" means an entity that owns or operates an establishment that repacks and relabels a product or package containing a covered drug for further sale or for distribution without further transaction.

§ 291. Drug take back. 1. Any manufacturer of a covered drug shall:

(a) operate a drug take back program approved by the department individually or jointly with other manufacturers;

(b) enter into an agreement with a drug take back organization which shall operate a drug take back program approved by the department; or

(c) enter into an agreement with the department to operate a drug take back program on its behalf.

2. Any manufacturer of a covered drug, individually or jointly, or a drug take back organization contracted by a manufacturer of a covered drug shall within one hundred eighty days from the effective date of this section submit to the department, in a manner and form determined by the department, a proposed drug take back program that meets, at a minimum, the following requirements:

(a) Certifies the drug take back program will accept all covered drugs regardless of who produced them;

(b) Provides contact information for the person submitting the planned drug take back program with whom the department shall direct all inquiries;

(c) Details a collection system to provide convenient, ongoing collection services to all persons seeking to dispose of covered drugs pursuant to section two hundred ninety-two of this article that is geographically distributed in a way to ensure access in rural and underserved areas;

(d) Describes other collection methods by which covered drugs will be collected by authorized collectors;

(e) Explains how covered drugs will be safely and securely tracked and handled from collection through final disposal and destruction, policies to ensure security and compliance with all applicable laws and regulations including disposal and destruction at a permitted waste disposal facility meeting federal requirements;

(f) Describes the public education and outreach activities that will

be undertaken which shall include advertising of collection locations on a website and through use of signage and other written materials, and how effectiveness will be evaluated;

(g) Details how the costs of pharmacy collection and other authorized collectors will be reimbursed which shall include costs retroactive to the effective date of this article, and where more than one manufacturer will be involved in the planned drug take back program, a plan for the fair and reasonable manner of allocated costs among the participants in such program such that the costs paid by each manufacturer is reasonably related to the volume or value of covered drugs sold in the state; and

(h) Provides any further information deemed appropriate by the department.

3. Within thirty days of the effective date of this section, each wholesaler that sells covered drugs in or into the state shall provide the department with a list of manufacturers that produce covered drugs. The department may request updated lists at its discretion.

4. A manufacturer, individually or jointly, must pay all administrative and operational fees associated with the drug take back program, including the cost of collecting, transporting and disposing of covered drugs from pharmacies and other authorized collectors and the recycling or disposal, or both, of packing collected with the covered drug. Manufacturers shall also pay costs incurred by the state in the administration and enforcement of the drug take back program. Exclusive of fines and penalties, the state shall only recover its actual cost of administration and enforcement. In instances where manufacturers jointly conduct a drug take back program, the costs of administration and enforcement shall be fairly and reasonably allocated such that the portion of costs is reasonably related to the volume or value of covered drugs the manufacturers sell in the state. No manufacturer may charge a point-of-sale or other fee to consumers, or a fee that could be passed on to consumers, to recoup the cost of their drug take back program.

5. Within sixty days of receipt of a proposed drug take back program, the department, in consultation with the department of environmental conservation, shall determine whether such proposed drug take back

program complies with the requirements of this article and notify the applicant. The department may conduct a noticed public hearing prior to approval. If the drug take back program is approved, the department shall notify the applicant in writing. If the drug take back program is not approved, the department shall notify the applicant in writing and the applicant shall submit a revised drug take back program proposal within thirty days. If the department rejects the subsequent proposal, the manufacturer or manufacturers at issue shall be out of compliance with this article and subject to the enforcement provisions pursuant to section two hundred ninety-four of this article. The department shall provide, and update annually, on its website a list of all manufacturers participating in a drug take back program approved by the department.

6. At least every three years, a manufacturer, jointly or individually, or a drug take back organization shall update its drug take back program and submit an updated proposal to the department. A manufacturer who begins to offer a covered drug in the state after the effective date of this article, shall provide evidence of joining an existing approved drug take back program or submit a proposal for a drug take back program within ninety days following the initial offer for sale of a covered drug. Any proposed change to a drug take back program shall be submitted in writing and approved by the department prior to any change.

7. Each approved drug take back program shall report to the department at a date and manner set by the department. The department shall submit an annual report to the governor, speaker of the assembly and temporary president of the senate by January first detailing all program activities, the weight collected by each program, a description of collection activities, the name and location of all collection sites, public education and outreach activities, an evaluation of the efficacy of the program and each collection method, and any manufacturer out of compliance or subject to penalties pursuant to section two hundred ninety-four of this article.

§ 292. Collection. 1. All pharmacies shall provide for the safe

collection of drugs, which shall include:

(a) Offering drug collection by one or more of the following methods:

(i) On-site collection, dropbox, or receptacle meeting federal standards;

(ii) Mail-back collection by prepaid envelopes as authorized by federal law and regulation; or

(iii) Other federal drug enforcement agency approved methods of collection.

(b) Signage prominently displayed advertising such drug collection to consumers.

2. All drug take back program operators shall notify other potential authorized collectors of the opportunity to serve as an authorized collector for the drug take back program. Participation of authorized collectors besides pharmacies shall be voluntary.

3. All costs of pharmacies and other authorized collectors shall be paid or reimbursed by the manufacturer, jointly or individually, as part of the drug take back programs required by this article.

4. For any city with a population of one hundred twenty-five thousand or more as of the last decennial census, the commissioner shall establish by regulation a distribution plan that ensures that on-site collection receptacle or dropbox placement shall be reasonably accessible to all residents and that provides for program cost efficiency.

5. Pharmacies providing for mail-back collection as part of the drug take back program shall provide a voucher for a prepaid envelope upon dispensing a covered drug. Such voucher shall include information on drug take back and safe drug disposal methods.

§ 293. Violations. Violation of this article shall be subject to fines pursuant to section twelve of this chapter. Each day in which the violation continues shall constitute a separate violation.

§ 294. Jurisdiction. Jurisdiction of all matters pertaining to drug disposal by this article is vested exclusively in the state. Any provision of any local law or ordinance, or any rule or regulation promulgated prior to, or upon the effective date of this section, shall be preempted.

ARTICLE 3

LOCAL HEALTH ORGANIZATION

- Title I. Local boards of health; general provisions (§§ 300-312).
II. Local health officers (§§ 320-329).
III. County and part-county health districts (§§ 340-357).
IV. Certain cities (§§ 360-378).
V. State park health districts (§§ 380-383).
VI. Consolidated health districts (§§ 390-399).

TITLE I

LOCAL BOARDS OF HEALTH; GENERAL PROVISIONS

- Section 300. Local boards of health; continuation.
301. Local boards of health; certain cities; appointment.
302. Local boards of health; villages and towns; organization.
303. Local boards of health; notice of organization.
304. Local boards of health; town boards; jurisdiction; appropriations.
305. Local boards of health; compensation and expenses of members.
306. Local boards of health; expenses; payment.
307. Local boards of health; meetings.
308. Local boards of health; general powers and duties.
309. Local boards of health; quasi-judicial powers; enforcement.
310. Local boards of health; modification of orders by commissioner.
311. Local boards of health; towns and villages; application of law.
312. City of New York; exceptions and limitations.

§ 300. Local boards of health; continuation. There shall continue to be local boards and departments of health and health officers in the several counties, cities, villages and towns of the state except as otherwise provided by law.

§ 301. Local boards of health; certain cities; appointment. 1. In cities under fifty thousand population according to the latest federal or state census or enumeration, the board of health shall consist of the mayor of the city who shall be its president, and six other persons, one of whom shall be a competent physician who shall be appointed by the common council, upon the nomination of the mayor, and shall hold office for three years.

2. Appointments of members of such boards shall be made for such shorter terms as at any time may be necessary, in order that the terms of two appointed members shall expire annually.

§ 302. Local boards of health; villages and towns; organization. 1. In villages the board of health shall consist of the board of trustees of the village.

2. In towns the board of health shall consist of the town board.

§ 303. Local boards of health; notice of organization. Notice of the membership and organization of every local board of health shall be given forthwith by such board to the department.

§ 304. Local boards of health; town boards; jurisdiction; appropriations. A town board of health shall not have jurisdiction over any city or incorporated village or part of such city or village in such town unless otherwise provided by law. Appropriations for a town board

of health in a town in which there are one or more incorporated villages shall be a charge upon the taxable property of that part of the town outside of any incorporated village and shall be assessed, levied and collected therefrom in the same manner as other town charges levied on property outside of incorporated villages.

§ 305. Local boards of health; compensation and expenses of members.

1. The members of town boards and of village boards of trustees shall not receive additional compensation by reason of serving as members of boards of health, except that in the case of a consolidated health district, members of the board of health of such district, whether or not they are members of a town board or a village board of trustees, shall be allowed a per diem compensation of not more than ten dollars for each calendar day in actual attendance at a meeting of the board of health of the district, to be fixed and determined by the board of health of the district. Such per diem compensation in the case of any member shall not exceed the total sum of one hundred and fifty dollars in any one year.

2. Members of boards of health of consolidated districts shall also be allowed their actual and necessary expenses.

3. The compensation and expenses of members of boards of health of consolidated health districts shall be audited and paid in the same manner as the other expenses of the consolidated health districts.

§ 306. Local boards of health; expenses; payment. 1. All expenses incurred by any local board of health in the performance of the duties imposed upon it or its members by law shall be a charge upon the municipality, and shall be audited, levied, collected and paid in the same manner as the other charges of, or upon, the municipality are audited, levied, collected and paid.

2. The taxable property of any incorporated village shall not be subject to taxation for maintaining any town board of health, or for any

expenditure authorized by the town board, but the costs and expenditures of the town board shall be assessed and collected exclusively on the taxable property of the town situate outside of any such village, unless otherwise provided by law.

§ 307. Local boards of health; meetings. 1. Every local board of health shall meet at stated intervals to be fixed by it.

2. The presiding officer of every local board of health may call special meetings thereof when in his judgment the protection of the public health of the municipality requires it, and shall call such a meeting upon the petition of at least twenty-five residents thereof, of full age, setting forth the necessity of such meetings.

3. Any matter within the jurisdiction of a town or village board of health may be considered and acted upon at any regular or special meeting of such town board or village board of trustees.

§ 308. Local boards of health; general powers and duties. Subject to the provisions of this chapter and of the sanitary code, every local board of health shall:

(a) prescribe the duties and powers of the local health officer, who shall be its chief executive officer;

(b) direct the local health officer in the performance of his duties;

(c) fix the compensation of the local health officer in accordance with the provisions of section three hundred twenty-three of this chapter;

(d) make and publish, from time to time, such orders and regulations, not inconsistent with the provisions of the sanitary code, as it may deem necessary and proper for the preservation of life and health and the execution and enforcement of this chapter in the municipality a copy of such orders and regulations to be filed with the county health commissioner, if any, otherwise with the state district health officer;

(e) make, without publication thereof, such orders and regulations for the suppression of nuisances and concerning all other matters in its

judgment detrimental to the public health in special or individual cases, not of general application, and serve copies thereof upon the owner or occupant of any premises whereon such nuisances or other matters may exist, or upon which may exist the cause of other nuisances to other premises, or cause the same to be conspicuously posted thereon; and,

(f) maintain actions in any court of competent jurisdiction to restrain by injunction violations of its orders and regulations, or otherwise to enforce such orders and regulations.

§ 309. Local boards of health; quasi-judicial powers; enforcement. 1.
Every local board of health may:

(a) issue subpoenas which shall be regulated by the civil practice law and rules;

(b) compel the attendance of witnesses;

(c) administer oaths to witnesses and compel them to testify;

(d) by resolution, designate one of its members to sign and issue such subpoenas;

(e) issue warrants to any peace officer, acting pursuant to his special duties, or police officer of the municipality to apprehend and remove such person or persons as cannot otherwise be subjected to its orders or regulations, and to the sheriff of the county to bring to its aid the power of the county whenever it shall be necessary to do so;

(f) prescribe and impose penalties for the violation of or failure to comply with any of its orders or regulations, or any of the regulations of the state sanitary code, not exceeding two thousand dollars for a single violation or failure, to be sued for and recovered by it in any court of competent jurisdiction; and

(g) appoint one or more hearing officers as shall be necessary to carry out its functions and duties, The hearing officer shall have the same powers possessed by the board to hold and conduct hearings. The hearing officer shall function under the supervision of the local board and shall make findings of fact and recommendations to the board.

2. No subpoena shall be served outside the jurisdiction of the board of health issuing it, and no witness shall be interrogated or compelled

to testify upon matters not related to the public health.

3. Every warrant issued by a local board of health shall be forthwith executed by the officer to whom directed, who shall have the same powers and be subject to the same duties in the execution thereof, as if it had been duly issued out of a court of record of the state.

4. Nothing in this section contained shall be construed to alter or repeal any existing provision of law declaring such violations or any of them misdemeanors or felonies or prescribing a penalty therefor.

5. The penalty imposed by this section may be released or compromised by the commissioner.

§ 310. Local boards of health; modification of orders by commissioner. The commissioner may annul or modify an order, regulation, by-law or ordinance of a local board of health concerning a matter which in his judgment affects the public health beyond the territory over which such local board of health has jurisdiction.

§ 311. Local boards of health; towns and villages; application of law. The provisions contained in this article as to the local boards of health, and for the appointment of local health officers shall apply to all towns and villages, whether such villages are organized under general or special laws.

§ 312. City of New York; exceptions and limitations. Unless otherwise expressly provided, the provisions of this article except section three hundred ten of this chapter shall not apply to the city of New York.

TITLE II

LOCAL HEALTH OFFICERS

Section 320. Local health officer; appointment; residence.

- 321. Local health officer; power of commissioner to appoint; expenses.
- 322. Local health officer; term of office; removal.
- 323. Local health officer; compensation and expenses.
- 324. Local health officer; general powers and duties.
- 325. Local health officer; practice of medicine prohibited; certain cities.
- 326. Local health officer; temporary or acting; appointment; compensation; powers.
- 327. Local health officer; nurses; appointment.
- 328. Local health officer; nurses; duties.
- 329. Local health officer; immunity from personal liability.

§ 320. Local health officer; appointment; residence. 1. Except in the cities whose charters otherwise provide, and except as hereinafter provided for joint appointment by two or more local boards of health of one health officer for the municipalities joining in such appointment, and except in those local health districts within the area of a county or part-county health district, each local board of health shall appoint a health officer of the municipality. A member of the appointing board is not eligible to be appointed as the health officer. Such health officer shall be a citizen and qualified as provided in the sanitary code. Such qualifications shall be determined by the public health council, in consultation with the rural health council. Notwithstanding the provisions of any general or local law or charter, a person who is qualified as provided in the sanitary code at the time of his appointment shall be eligible for appointment as health officer.

2. The health officer need not reside within the village or town for which he is appointed.

3. The local boards of health of a town and village, or for two or more towns or villages, jointly, may appoint one health officer to be the health officer for the several municipalities joining in the appointment, upon the authorization of a resolution or ordinance duly adopted by each of the respective town boards or boards of trustees of

the villages affected, with the written approval of the commissioner.

§ 321. Local health officer; power of commissioner to appoint; expenses. 1. If any local board of health fails to appoint a health officer qualified as provided in the sanitary code, the commissioner may exercise the powers of a health officer in such municipality, or designate a health officer qualified as provided in the sanitary code, to exercise such powers.

2. The expenses lawfully incurred by the commissioner in such municipality shall be a charge upon and paid by such municipality until such time as a local health officer shall be appointed therein, whereupon the jurisdiction conferred by this section on the commissioner or other person designated by him shall cease.

§ 322. Local health officer; term of office; removal. 1. The term of office of the health officer of a municipality shall be four years and he shall hold office until his successor is appointed and qualifies.

2. (a) The health officer may be removed from office for just cause by the local board of health or by the commissioner after a hearing upon notice. Removal of the health officer by the local board of health shall be subject to the approval of the commissioner.

(b) Where a health officer has been appointed jointly, by two or more local boards of health, the power of a local board of health to remove the health officer shall in such case be exercised jointly by the local boards participating in the appointment.

§ 323. Local health officer; compensation and expenses. 1. Every local board of health shall fix the compensation of the local health officer, which in the case of the health officer of a city, town, village and consolidated health district having a population of eight thousand or less, shall not be less than the equivalent of fifteen cents per annum per inhabitant, including Indians on reservations, of the

city, town, village or consolidated health district, according to the latest federal or state census or enumeration; and in a city, town, village and consolidated health district having a population of more than eight thousand, shall not be less than twelve hundred dollars per annum.

2. In addition to his compensation as provided herein, the board of health shall allow the actual and reasonable expenses of the health officer (a) in the performance of his official duties, (b) in going to, attending and returning from the annual health conference or equivalent meeting held yearly within the state (c) in going to, attending and returning from conferences called by the commissioner or his authorized representative and (d) in going to, attending and returning from conferences called by the state district health officer of the district. The board of health, in lieu of allowing the actual and reasonable expenses for travel of said health officer, may determine by resolution to allow him an amount not to exceed eight cents per mile for the use of his own automobile for each mile actually and necessarily traveled by him in the performance of the duties of his office and in going to, attending and returning from any of such conferences.

4. (a) The regular compensation of a health officer appointed jointly by two or more local boards of health for two or more towns or villages shall be fixed jointly by such boards in such sum as they shall determine in accordance with the provisions of this section, and such compensation, together with the expenses of the health officer in the performance of his duties and in attending the annual sanitary conference or equivalent meeting and conferences called by the state district health officer, shall be allowed by the local boards of health and paid by the municipalities in the proportions to each as shall have been determined in the resolutions or ordinances authorizing the joint appointment of the health officer.

(b) The resolution or ordinance of the towns and villages authorizing the local boards of health of said towns or villages to appoint a health officer for the said towns or villages pursuant to subdivision three of section three hundred twenty of this chapter, shall state the proportion of compensation and expenses of the health officer for which each such

town or village shall be responsible.

5. The provisions of this section relating to the care of venereal diseases shall not apply to municipalities where a satisfactory clinic is reasonably available.

§ 324. Local health officer; general powers and duties. 1. In addition to such other duties as may be lawfully imposed upon him and subject to the provisions of this chapter and the sanitary code, every health officer shall:

(a) make an annual sanitary survey and maintain sanitary supervision over the territory within his jurisdiction;

(b) make a sanitary inspection periodically of all places of public assemblage, and report thereon to those responsible for the maintenance of such places of public assemblage;

(c) promote the spread of information as to the causes, nature and prevention of prevalent diseases, and the preservation and improvement of health;

(d) take such steps as may be necessary to secure prompt and full reports by physicians of reportable diseases and prompt and complete registration of births and deaths;

(e) enforce within his jurisdiction the provisions of this chapter and the sanitary code; and,

(f) attend conferences called by the commissioner or his authorized representatives.

2. The health officer may employ such persons as shall be necessary to enable him to carry into effect the orders and regulations of the board of health and the provisions of this chapter and of the sanitary code, and fix their compensation within the limits of the appropriation therefor.

3. A health officer appointed for two or more towns or villages shall have and exercise in each such town or village all the rights, powers, duties and obligations conferred and imposed by law upon a health officer therein, in the same manner as though appointed separately,

rather than jointly, by the local boards of health for each such town or village.

§ 325. Local health officer; practice of medicine prohibited; certain cities. In cities of more than fifty thousand population according to the latest federal or state census or enumeration, the local health officer hereafter appointed shall devote his entire time to the duties of his office and shall not engage in the private practice of medicine.

§ 326. Local health officer; temporary or acting; appointment; compensation; powers. 1. (a) A health officer with the consent of the board of health in a town or village, and with the consent of the board or official having power to appoint a health officer in a city, may appoint a person who meets the qualifications contained in the sanitary code to act as health officer during his temporary absence or incapacity on account of illness or other cause for a period not exceeding three months.

(b) In the event that the health officer fails to, or is physically incapable of appointing a qualified person to act as health officer during his temporary absence or incapacity, then the board of health in a town or village or the board or official having power to appoint a health officer in a city, shall appoint a qualified person to act as health officer during the temporary absence or incapacity of the regular health officer, for a period not exceeding three months.

(c) If any local board of health fails to appoint an acting health officer pursuant to this section then the commissioner may appoint a qualified person to serve as such health officer during the absence or incapacity of the health officer, for a period not exceeding three months.

2. The health officer, or the board of health or other official, who appoints a qualified person to act as health officer pursuant to this section, shall report immediately in writing to the department the name and address of the person so appointed.

3. An acting health officer, during the period for which he is appointed, shall have all the rights, powers and duties imposed upon the health officer by this chapter and the sanitary code.

4. The board of health in a town or village and the board or officer having authority to fix the salary of a health officer in a city may allow such compensation as it deems reasonable covering such temporary service. The appointment of an acting health officer in a case where the regular health officer shall have been appointed jointly by two or more local boards of health for two or more towns or villages shall be with the consent of the appointing local boards, and the compensation of such acting health officer shall be allowed and paid in the same manner as the fixed compensation of the regular health officer.

§ 327. Local health officer; nurses; appointment. Every health officer or other official exercising similar duties, by whatever official designation he may be known, with the approval and consent of the local board of health of his district, shall have power to employ such number of public health nurses, qualified as provided by the sanitary code, as in his judgment may be necessary within the limits of the appropriation made therefor by the municipality.

§ 328. Local health officer; nurses; duties. Subject to the provisions of this chapter and the sanitary code, public health nurses appointed pursuant to this article, shall work under the direction of the local health officer and shall perform such duties as may be assigned by him.

§ 329. Local health officer; immunity from personal liability. 1. No health officer, inspector, investigator, public health nurse, or other representative of a health officer, and no person or persons other than the county, city, village or town by which such health officer or representative thereof is employed shall be sued or held to liability for any act done or omitted by any such health officer or representative

of a health officer in good faith and with ordinary discretion on behalf or under the direction of such county, city, village or town pursuant to its regulations or ordinances, or the sanitary code, or this chapter.

2. Any person whose property may have been unjustly or illegally destroyed or injured pursuant to any order, regulation or ordinance, or action of any board of health or health officer, or representative of a health officer, for which no personal liability may exist as aforesaid, may maintain a proper action against the county, city, village or town for the recovery of proper compensation or damages. Every such suit must be brought within six months after the cause of action arose and the recovery shall be limited to the damages suffered.

TITLE III

COUNTY AND PART-COUNTY HEALTH DISTRICTS

Section 340. County or part-county health districts; establishment.

341. County or part-county health districts; local health districts within; villages in two counties.

342. County or part-county health districts; withdrawal of a city.

343. County or part-county boards of health; organization; appointment.

344. County or part-county boards of health; terms of office; vacancies.

345. County or part-county boards of health; compensation and expenses of members.

346. County or part-county boards of health; general expenses.

347. County or part-county boards of health; powers and duties; rules and regulations.

348. County or part-county health districts; sanitary codes; violations and penalties.

349. County or part-county boards of health; other health functions; hospitals and laboratories.

350. County or part-county boards of health; officers.

351. County or part-county health commissioner, public health director or county health director; appointment;

compensation.

352. County or part-county health commissioners; powers and duties.

353. Deputy county or part-county health commissioners; assistants and employees; appointment.

354. County or part-county health districts; removal of deputies, assistants and health officers.

355. County or part-county health districts; dissolution.

356. Certain counties; legislative bodies constituted boards of health; county health directors; nurses designated as school nurses.

357. Certain counties; health services advisory boards.

§ 340. County or part-county health districts; establishment. 1. (a)

The board of supervisors of any county, with the approval of the commissioner shall have power to establish a county or part-county health district and in such event shall appoint a board of health for such county or part-county health district. No city or any part thereof shall be included as a part of any such health district unless the mayor and a majority of the common council of such city or the officials exercising similar powers shall have consented thereto and, in respect of cities having a population of fifty thousand or more, according to the last preceding federal or state census or enumeration, unless a majority of the supervisors representing that part of the county outside such city shall have consented thereto.

(b) Notwithstanding the provisions of this subdivision or any other general, special or local law to the contrary, and except as provided in the provisions of article thirteen-E of this chapter, a board of health of a county health district, if there be one, shall have sole jurisdiction to enforce the provisions of article thirteen-E of this chapter on a county-wide basis.

2. In a county containing one or more cities having a population of fifty thousand or more, according to the last preceding federal or state census or enumeration which are not to be included in a county or part-county health district, a majority of the supervisors representing

that part of the county outside such city or cities may petition the board of supervisors to establish such part of the county as a part-county health district and, upon receiving such petition, the board of supervisors shall forthwith file a certified copy of such petition with the commissioner.

3. Whenever the provisions of this section shall have been proposed to be adopted in any county, and proceedings have been taken to establish a county or part-county health district within any such county, the board of supervisors shall notify the commissioner in writing of the proposed establishment of such county or part-county health district, and in such notice shall state the extent of the territory intended to be included within such district. The consent of the commissioner to the establishment of any such health district shall be evidenced by a certificate, setting forth the approval of the commissioner to the establishment of such health district. Such certificate shall be filed with the clerk of the board of supervisors.

§ 341. County or part-county health districts; local health districts within; villages in two counties. 1. Local health districts within the area of any county or part-county health district shall continue to exist as subdivisions of such health district, and the local boards of health shall continue to exist and to retain their powers and duties subject to the rulings and regulations of the board of health of the county or part-county health district, and may continue to appoint local health officers for such local health districts as provided by law.

2. If a county or part-county health district as heretofore or hereafter established by a board of supervisors shall by its terms contain a portion of any village which lies partly within said county and partly within some other county, said village, without regard to population, shall continue its local district organization in the same manner as before, in which case the health officer of the village acting within the county or part-county health district shall be a deputy of the county health commissioner with reference to acts performed within said county or part-county health district. Provided, however, said

village may, by resolution of the village board, limit the local health district to that portion of the village lying in the county outside of the county or part-county health district, in which event the compensation of the local health officer shall be based upon the number of inhabitants in the reduced village health district, and the residents of that portion of the village lying within the county or part-county health district shall not be taxed by the village for the maintenance of such reduced local health district.

3. The governing authorities of any city, village or town or the governing authorities of the cities, villages or towns within a consolidated health district may abolish such city, village, town or consolidated health district as a local health district, whereupon all the powers and duties of the local board of health of such local health district shall devolve upon the board of health of the county or part-county health district and all the powers and duties of the local health officer of such local health district shall devolve upon the county health commissioner.

4. The governing authorities of a town or village, the local board of health of which has been abolished pursuant to the provisions of this section, when authorized by a proposition submitted and adopted in the manner provided by law, may employ a public health nurse or public health nurses, qualified as provided in the sanitary code, and make the necessary appropriation therefor. Such public health nurse, or nurses, shall work under the direction of the county health commissioner.

5. Where the local health district within the area of any county or part county health district is a town in which there are one or more incorporated villages and the local board of health is a town board, appropriations made by the town board for the purposes stated in subdivisions one and four of this section shall be a charge upon the taxable property of that part of the town outside of any incorporated village.

If a proposition is submitted as provided in subdivision four of this section for the employment of public health nurses in a town in which

there are incorporated villages which constitute a local health district, only such persons who are electors and owners of record of property in the town outside of incorporated villages shall be entitled to vote upon such a proposition.

§ 342. County or part-county health districts; withdrawal of a city.

1. The governing authorities of any city which has consented to be included in a county or part-county health district, may, at any time after three years shall have elapsed since such city has been included in such health district, by resolution adopted by said authorities, provide for the withdrawal of such city from the county or part-county health district.

2. Before such action for the withdrawal of a city from a county or part-county health district is taken an opportunity shall be given for a public hearing before such governing authorities. Public notice shall be given and the board of health of the county or part-county health district shall be notified in writing, at least thirty days in advance, of the time and place of such hearing.

3. The withdrawal of a city from a county or part-county health district, shall become effective at a time to be stated in the resolution adopted by the governing authorities of the city pursuant to the provisions of this section, which said time shall be not less than thirty days from the date of the adoption of said resolution. Upon the date when such resolution shall become effective, the local health district of such city shall be reinstated and it shall have all the powers of a local health district as though such city had not been included in the county or part-county health district pursuant to the provisions of this article.

§ 343. County or part-county boards of health; organization; appointment. 1. The board of health of a county or part-county health district shall consist of seven members, one of whom shall be a member of the board of supervisors, selected by the board of supervisors, and

at least one of whom shall be a physician licensed to practice in the state of New York, and two of whom shall be a physician, nurse practitioner, physician assistant or any combination thereof licensed to practice in the state of New York, and in addition thereto, each city which becomes a part of the county or part-county health district shall be entitled to one additional representative member on the board of health.

2. The members of the board of health of a county or part-county health district shall be residents of the health district or a resident of a contiguous county who has a background in a health-related field and performs other substantial work within the health district associated with their health-related background.

3. (a) The members of the board of health shall be appointed by the board of supervisors.

(b) The county medical society of the county in which a county or part-county health district is established may submit to the board of supervisors a list of physicians from which the board of supervisors may choose the medical members of the board of health.

(c) The additional city representative members of the board of health shall each be appointed by the board of supervisors from a list of three persons submitted by the mayor or other administrative head of such city. Such city representative members so appointed shall have all the powers and duties conferred upon other members of said board.

§ 344. County or part-county boards of health; terms of office; vacancies. 1. The term of office of each appointive member of the board of health of a county or part-county health district, including the additional city representative members shall be six years, and the term of one of the members shall expire annually; except that the term of office of the representative member of the board of supervisors shall be for such lesser period as may be required in the event that he does not continue as a member of the board of supervisors.

2. Upon the establishment of a new county or part-county health

district, the first appointments shall be made for the respective terms of six, five, four, three, two and one years.

3. Vacancies shall be filled by appointment for the unexpired terms.

§ 345. County or part-county boards of health; compensation and expenses of members. The members of the board of health of a county or part-county health district shall receive for attendance at meetings of the board, and, when authorized by the president of the board, within appropriations made therefor, for meetings of standing committees, a per diem compensation which shall be fixed by the board of supervisors, and in addition thereto, they shall be allowed actual and necessary traveling expenses, to be audited and paid in the same manner as other expenses of such board of health.

§ 346. County or part-county boards of health; general expenses. 1. In counties having a county auditor or county comptroller, all charges and other expenses of a county or part-county health district shall be audited and paid in the same manner as other charges against the county. In counties that do not have a county auditor or county comptroller, all accounts, charges, claims and demands of such health district shall be presented to and audited by the board of health of said district and paid by the county treasurer upon warrants of the said board of health within the limits of the appropriation made therefor.

2. The board of health of a county or part-county health district shall submit annually in the manner prescribed by and on or before the date fixed by or pursuant to law, an itemized estimate of the revenues and expenditures of such health district, for the ensuing fiscal year. The board of supervisors shall levy a tax upon the taxable property within the county or part-county health district, to the extent necessary to provide moneys to meet appropriations for such health district. The board of supervisors may appropriate moneys in the manner provided by law for any items of expense of the county or part-county health district which may in any degree tend to promote the efficiency

of the administration of the provisions of this chapter and the regulations adopted pursuant to the authority thereof.

§ 347. County or part-county boards of health; powers and duties; rules and regulations. 1. Upon the establishment of a board of health for a county or part-county health district as provided in this article, it shall exercise all the powers and perform all duties of local boards of health as provided in this chapter, and such board of health may formulate, promulgate, adopt and publish rules, regulations, orders and directions for the security of life and health in the health district which shall not be inconsistent with the provisions of this chapter and the sanitary code. Such rules, regulations, orders and directions shall be known as the sanitary code of such district.

a. Every rule, regulation, order and direction adopted by a board of health or a county officer or body exercising the rule-making functions of a board of health shall state the date on which it takes effect and a copy thereof signed by the county health commissioner or his deputy or such county officer or the elective or appointive chief executive officer of such county body exercising the rule-making functions of a board of health shall be filed as a public record in the department, in the county or part-county department of health and in the office of the county clerk and shall be published in such manner as the board of health or such county officer or body exercising the rule-making functions of a board of health may from time to time determine. No such rule, regulation, order or direction shall be effective prior to filing as a public record in the department.

b. The county health commissioner or his deputy shall furnish certified copies of the sanitary code of the health district and its amendments for a fee of one dollar.

c. Nothing herein contained shall be construed to restrict the power of any county, city, town or village to adopt and enforce additional ordinances or enforce existing ordinances relating to health and sanitation provided that such ordinances are not inconsistent with the

provisions of this chapter or the sanitary code.

2. The board of health of a county or part-county health district is hereby authorized to enter into contracts with one or more counties for mutual aid in the delivery of health services, including but not limited to public health emergency responses such as disease surveillance, mass immunization programs, mass antibiotic distribution, and handling of mass casualties, provided approval of such contracts by the legislative body of each county and of the commissioner is obtained. Each county or part-county health district shall be liable for acts or omissions of its employees or agents when acting pursuant to such a contract in the same manner and to the same extent as if such acts or omissions occurred within the county or part-county health district; and such employees or agents shall have immunities and privileges for their acts or omissions when acting pursuant to such a contract in the same manner and to the same extent as if such acts or omissions occurred within the county or part-county health district; except that such a contract may apportion liability otherwise between or among the county or part-county health districts.

3. Except as provided in the provisions of article thirteen-E of this chapter, a board of health of a county health district shall exercise all the powers and perform all duties relative to the enforcement of article thirteen-E of this chapter pursuant to rules and regulations promulgated by the commissioner.

§ 348. County or part-county health districts; sanitary codes; violations and penalties. 1. The provisions of the sanitary code of a county or part-county health district shall have the force and effect of law.

2. Any non-compliance or non-conformance with any provision of such sanitary code or of a rule or regulation, duly made thereunder shall constitute a violation punishable on conviction for a first offense by a fine of not more than two hundred fifty dollars or by imprisonment for not more than fifteen days or by both such fine and imprisonment; and

for a second or subsequent offense by a fine not exceeding five hundred dollars or by imprisonment for not exceeding fifteen days, or both.

3. Certified copies of the sanitary code of a county or part-county health district shall be received in evidence in all courts and proceedings in the state.

§ 349. County or part-county boards of health; other health functions; hospitals and laboratories. In any county in which a county health district has been or is hereafter established, the boundaries of which are coterminous with the county, the board of supervisors shall have power to abolish the board of managers of the county tuberculosis hospital, or of the county public general hospital, or of the county laboratory, and, if so abolished, shall confer all the powers and duties of any or all of such boards of managers upon the county board of health.

§ 350. County or part-county boards of health; officers. The board of health of a county or part-county health district shall elect annually one of its members as president and another as vice-president. The board of health may designate the county health commissioner to act as its secretary without extra compensation.

§ 351. County or part-county health commissioner, public health director or county health director; appointment; compensation. 1. The board of health of each county and part-county health district or other body having the powers and duties of a board of health of a county or part-county health district or the county executive in those counties where the county charter provides that said commissioner is to be appointed by the county executive shall appoint a county health commissioner, county health director or, when authorized under the state sanitary code, public health director; except, however,

(a) that the boards of health of not more than three county or part-county health districts or other bodies having the powers and

duties of a board of health of a county or part-county health district may appoint the same person to serve as county health commissioner, county health director or, when authorized by the state sanitary code, public health director for said health districts, if the total population of health districts is not in excess of one hundred fifty thousand according to the latest federal decennial census, provided the approval of the commissioner is obtained; or

(b) the board of health or other body having the powers and duties of a board of health of a county or part-county health district of any county health district with a population of less than thirty-five thousand according to the latest federal decennial census may appoint the same person employed by a contiguous county or part-county health district to serve as county health commissioner, county health director or, when authorized by the state sanitary code, public health director without regard to the total population of both health districts, provided the approval of the commissioner is obtained.

The commissioner shall periodically review his or her determination to ensure such employment of the same county health director, director of public health or county health commissioner continues to serve the interest of public health and may terminate his or her approval at his or her discretion.

2. If the commissioner has approved the appointment of the same person to serve as the county commissioner of health or public health director of more than one county or part-county health district pursuant to subdivision one of this section, then during the continuation of such approval the commissioner may also authorize the same members to be appointed to the board of health of each respective health district, notwithstanding their residency in the other county.

3. Any boards of health or other bodies having the powers and duties of a board of health of a county or part-county health district having the same members shall annually submit such information and reports regarding the effect of such employment on administration of the respective health districts and the provision of public health services as the commissioner may require. The commissioner shall use such

information in determining whether such common membership continues to serve the interest of public health.

4. The county health commissioner or public health director shall possess such qualifications for office as are prescribed in the sanitary code.

5. The county health commissioner or public health director shall serve for a term of six years and shall not be removed during the term for which he or she shall have been appointed, except upon written charges after a hearing and upon notice.

6. The county health commissioner or public health director shall receive such compensation as may be fixed by the board of supervisors or, if the commissioner's approval has been obtained for the employment of the same person as the county health commissioner or public health director pursuant to subdivision one of this section, by the boards of supervisors.

§ 352. County or part-county health commissioners; powers and duties.

1. Every county health commissioner shall devote his entire time to the duties of his office except that in a county operating as a county health district, the boundaries of which are co-terminous with the county, he may, with the approval of the commissioner, be appointed superintendent of the county general hospital and further excepted, that in a county or part-county health district, he may, with the approval of the commissioner, be appointed medical consultant to any county or other local governmental agency within the county or part-county health district.

2. The county health commissioner shall, within his district, exercise general supervision and control of the medical treatment of patients in the institutions, public health centers and clinics operated by the health district and possess all the powers conferred upon and perform all the duties required of local health officers.

3. (a) The county health commissioner, within his district and with the approval of the county board of health, or the county manager or county executive in those counties having an optional or alternative form of county government, and with the approval of the state commissioner of health, may enter into contracts

(1) with corporations duly licensed in the state of New York to transact the business of accident and health insurance to provide to sick and disabled persons insured by them such home care, including nursing and other paramedical services (excluding physicians' services) as may be needed by them;

(2) with hospital service corporations organized and operating in accordance with article forty-three of the insurance law to provide to their subscribers nursing service and such other paramedical services as would have been available in a hospital (excluding physicians' services) at rates which shall prior to payment be approved as to reasonableness by the superintendent of financial services;

(3) with any municipal corporation or local, state or federal agency to provide such home care, including nursing and other paramedical services (excluding physicians' services) as may be needed by sick and disabled persons;

(4) with medical expense indemnity corporations organized and operating in accordance with article forty-three of the insurance law to provide their subscribers with such home care, including nursing and other paramedical services as may be needed by them at rates which shall prior to payment be approved as to reasonableness by the superintendent of financial services; and

(5) with any non-profit corporation, agency or association established for the purpose of improvement of health services, or for the purpose of providing home care for sick and disabled persons, including nursing and other paramedical services (excluding physicians' services) as may be needed by such persons.

(6) with any dentist, physician or group of physicians, without public bidding, for the rental or use of a portion of a clinic or public health center and its equipment and furnishings provided, however, that any such dentist, physician or group of physicians shall render such care and treatment as shall be necessary or possible under the circumstances to any person found eligible for emergency treatment including those

found in an unconscious, seriously ill or wounded condition and to any person eligible for medical assistance pursuant to section three hundred sixty-six of the social services law.

(b) such county commissioner, manager or executive, as the case may be, shall establish the fees to be charged for such services to be rendered pursuant to such contracts, collect such fees and pay the same over to the fiscal officer of the county in the manner provided by law. No contract made in accordance with the provisions of subdivision (a) of this section shall require payment for such services to an insured or subscriber at a rate in excess of the charge for the same service, if any, provided to a person afflicted with a similar disease or condition who is neither insured nor a subscriber.

4. The county or part-county health commissioner within his district and with the approval of the county or part-county board of health, or the county manager or county executive in those counties having an optional or alternate form of county government and with the approval of the state commissioner of health may establish and collect fees from a patient or a person or private or public agency responsible for his care for services rendered to patients in the institutions, public health centers and clinics operated by the health district and for nursing and paramedical services (excluding physicians' services) rendered to people sick at home. Fees so collected shall be paid to the fiscal officer of the county in the manner provided by law.

5. The county or part-county health commissioner may in his discretion, in proper cases, where substantial justice will best be served thereby, waive the collection of all, or any portion of, such fees or compromise any portion of such fees. Such waiver or compromise shall be made only upon prior approval of the county or part-county board of health, or the county manager or county executive in those counties having an optional or alternate form of county government, when it is deemed to be in the best interests of the county.

6. The county or part-county health commissioner, the public health director, the New York city commissioner of health or the county manager or county executive in those counties having an optional or alternate

form of county government, may contract with a private collection agency for the collection of overdue claims and obligations with respect to fees charged for physician, dentist, nursing, paramedical, therapist, laboratory and home health services and medical supplies and equipment or other health-related services provided by, on behalf of, or at the request of the county or part-county health district or health department.

§ 353. Deputy county or part-county health commissioners; assistants and employees; appointment. 1. Local health officers who continue to hold office after the establishment of a county or part-county health district, pursuant to the provisions of this article, shall be deputies of the county health commissioner, who may require any such local health officer to perform within his jurisdiction any of the duties required of local health officers.

2. The county health commissioner may appoint with the approval of the board of health such additional deputies, assistant deputies and other employees as may be required to fulfill the purposes of this article in the health district and as may be authorized by the board of supervisors pursuant to the provisions of section four hundred one of the county law. Such deputies and assistant deputies and other employees shall have the qualifications prescribed in the sanitary code.

3. The county health commissioner may designate in writing a deputy, qualified in accordance with the provisions of the sanitary code, to whom shall be delegated all the powers and duties of the county health commissioner when such commissioner is unable to act by reason of absence or disability.

§ 354. County or part-county health districts; removal of deputies, assistants and health officers. 1. The board of health of a county or part-county health district shall have power to remove the health officer of any local health district included within such county or part-county health district or any deputy or assistant deputy of the

county health commissioner for cause, upon written charges, and after such health officer or deputy, or assistant deputy, after due notice, has been given an opportunity to be heard.

2. The proceedings in connection with such removal shall be subject to review by the commissioner, who within thirty days of the receipt of an order of the board of health removing such health officer, may revoke such order whereupon the order of removal shall be void.

§ 355. County or part-county health districts; dissolution. 1. The board of supervisors of any county in which a county or part-county health district has been or may be established, with the consent of the supervisors representing that part of a county included in the district in respect to a part-county health district, may abolish such district at any time after three years shall have elapsed following its establishment, provided, however, that before such action may be taken an opportunity shall be given for a public hearing. Public notice shall be given and the commissioner shall be notified in writing, at least thirty days in advance, of the time and place of such hearing.

2. The action of the board of supervisors abolishing a health district pursuant to the provisions of this section shall become effective thirty days after the adoption of the resolution to abolish such health district, and at the end of such period the terms of office of the members of the board of health and of the county health commissioner shall terminate.

§ 356. Certain counties; legislative bodies constituted boards of health; county health directors; nurses designated as school nurses. 1. The legislative body of each county having a population of less than one hundred fifty thousand according to the nineteen hundred seventy federal decennial census or the legislative body of any county whose population shall be less than one hundred fifty thousand under any future federal decennial census, except a county in which a county or part-county health district has been established under this article or a county

having a county charter, optional or alternative form of government, shall constitute the board of health of such county and shall have all the powers and duties of a board of health of a county or part-county health district including the power to appoint a full-time or part-time county health director. The county health director may serve as director of the children and youth with special health care needs support services program and may employ such persons as shall be necessary to enable the county health director to carry into effect the orders and regulations of the board of health and the provisions of this chapter and of the sanitary code, and fix their compensation within the limits of the appropriation therefor. The members of a legislative body shall not receive additional compensation by reason of serving as members of a board of health. The county health director, so appointed, shall have all the powers and duties prescribed in section three hundred fifty-two of this title.

2. (a) With the approval of the county health director, the trustee or board of trustees of any common school district or the board of education of any union free school district or central school district within the county, may designate any nurse employed as provided in this section as a school nurse to perform, in addition to her other duties, the duties of a school nurse for any school or schools under such respective trustee, board of trustees or board of education.

(b) Any nurse so designated shall perform her duties as school nurse under the direction of the school medical inspector and the appropriate school authorities and under the provisions of the education law and the regulations prescribed pursuant thereto.

§ 357. Certain counties; health services advisory boards. 1. In a county wherein the legislative body constitutes the board of health of such county under and pursuant to the provisions of section three hundred fifty-six of this title, the county shall provide for the appointment by the board of health of a health services advisory board consisting of nine members. One member shall be a physician licensed to practice in the state of New York and one member shall be a physician, nurse practitioner, or physician assistant licensed to practice in the

state of New York. The remaining members of the board shall be known as public members and shall be selected on the basis of their interest and knowledge regarding the health needs, resources and facilities of the community.

2. The health services advisory board shall advise the county health director with respect to the discharge of his powers, responsibilities and duties.

3. A person may hold other public office or employment while serving as a member of a health services advisory board.

4. The members of a health services advisory board shall have fixed terms of four years except that three of the initial appointments shall be for two years and three shall be for three years. A term shall be deemed to run from the first day of the year in which the appointment is made. Vacancies shall be filled for unexpired terms in the same manner as original appointments. No person may serve as a member for more than two terms consecutively.

5. Board members shall be reimbursed for expenses actually and necessarily incurred in the performance of their duties.

6. Two or more such counties may agree to form a conjoined health services advisory board. Each county shall be entitled to appoint members in accordance with the provisions of subdivision one or may appoint such proportion of the total membership so computed as is mutually agreed upon by the participating counties.

7. Board members shall be residents of the county or a resident of a contiguous county who has a background in a health-related field and performs other substantial work within the county associated with their health-related background.

TITLE IV **CERTAIN CITIES**

- Section 360. Certain cities; department of public health; establishment.
361. Certain cities; commissioner of health and health officer; appointment and qualifications.
362. Certain cities; term of office of commissioner and health officer; removal.
363. Certain cities; appointment of deputy commissioners and others; removal.
364. Certain cities; compensation of commissioner and others.
365. Certain cities; undertakings required of health officers.
366. Certain cities; commissioner of health and health officer; powers and duties.
367. Certain cities; deputy commissioners; powers.
368. Certain cities; advisory board; appointment; compensation.
369. Certain cities; appointment of experts; compensation.
370. Certain cities; duty in case of peril to public health.
371. Certain cities; sanitary codes.
372. Certain cities; existing regulations and sanitary codes.
373. Certain cities; sanitary codes; violations and penalties.
374. Certain cities; appeals from orders of commissioner of health or health officers.
375. Certain cities; actions to restrain nuisances.
376. Certain cities; enforcement.
377. Certain cities; license fees.
378. Certain cities; contracts and fees for health services.

§ 360. Certain cities; department of public health; establishment. 1. The common council or similar legislative body of each city having a population of less than one hundred seventy-five thousand which has not by special law established a department of health, is hereby authorized and empowered by ordinance to abolish its board of health and in its place to create, establish and maintain a department of public health.

2. The commissioner of health in cities having a population of fifty thousand to one hundred seventy-five thousand, and the health officer in cities having a population of less than fifty thousand shall be the head of such department.

§ 361. Certain cities; commissioner of health and health officer; appointment and qualifications. 1. The commissioner of health in cities having a population of fifty thousand to one hundred seventy-five thousand shall be appointed by the mayor, and the health officer in cities having a population of less than fifty thousand shall be appointed by the same official or body who or which by charter is authorized to appoint the heads of city departments.

2. No person shall be eligible to appointment as commissioner of health or health officer unless he shall be a physician and surgeon duly licensed to practice under the laws of this state and who has practiced as such, or has been engaged in public health work for at least five years and who shall comply with the qualifications therefor prescribed by the public health council in the sanitary code, provided, however, that a physician who has received the degree of doctor of public health in a course in any institution of learning recognized by the University of the State of New York shall be eligible for appointment as health officer in cities having a population of less than fifty thousand.

§ 362. Certain cities; term of office of commissioner and health officer; removal. 1. The commissioner of health in cities having a population of fifty thousand to one hundred seventy-five thousand, and the health officer in cities having a population of less than fifty thousand, respectively, shall serve for a term of four years.

2. (a) The commissioner of health in cities having a population of fifty thousand to one hundred seventy-five thousand and the health officer in cities having a population of less than fifty thousand, shall not be removed by the official or body appointing him during the term for which he shall have been appointed other than for inefficiency, neglect of duty or misconduct in office, upon written charges and after an opportunity of being publicly heard in his defense.

(b) A copy of such charges shall be personally served upon such commissioner of health in cities having a population of fifty thousand

to one hundred seventy-five thousand or health officer in cities having a population of less than fifty thousand and he shall be given not less than five days' notice of the time and place of the hearing.

§ 363. Certain cities; appointment of deputy commissioners and others; removal. 1. The commissioner of health in cities having a population of fifty thousand to one hundred seventy-five thousand may appoint and at pleasure remove a deputy commissioner of health who shall be qualified as prescribed in the sanitary code.

2. The commissioner of health in cities having a population of fifty thousand to one hundred seventy-five thousand or health officer in cities having a population of less than fifty thousand shall appoint such subordinates as shall be prescribed by the board of estimate and apportionment or other board or authority in such cities which is by charter authorized to designate the number of employees.

§ 364. Certain cities; compensation of commissioner and others. In cities having a population of less than one hundred seventy-five thousand, the salary of the commissioner of health, deputy commissioner of health, health officer and all subordinates shall be fixed by the board of estimate and apportionment, or by the board or authority authorized by charter to fix salaries.

§ 365. Certain cities; undertakings required of health officers. Before entering upon the discharge of the duties of their respective offices, the commissioner of health, deputy commissioner of health or health officer in cities having a population of less than one hundred seventy-five thousand, shall each execute and file with the city clerk such official undertakings as the common council or similar legislative authority shall prescribe.

§ 366. Certain cities; commissioner of health and health officer;

powers and duties. 1. The commissioner of health or the health officer in cities having a population of less than one hundred seventy-five thousand shall:

(a) exercise all the powers and be charged with all the duties now or hereafter conferred upon or required of local boards of health or local health officers by the laws of this state so far as the same pertain to cities, except as limited or extended by the provisions of this article; and,

(b) possess such powers and perform such duties as may be prescribed by ordinance of the common council or similar legislative authority by this chapter or otherwise by law.

§ 367. Certain cities; deputy commissioners; powers. In case of the absence or disability of the commissioner of health or health officer in cities having a population of less than one hundred seventy-five thousand, or of any vacancy in the office, the deputy commissioner of health, when there is one, shall discharge the duties of the office until the commissioner of health or health officer returns, his disability ceases or the vacancy is filled.

§ 368. Certain cities; advisory board; appointment; compensation. 1. In cities having a population of less than one hundred seventy-five thousand, the mayor may appoint, and at his pleasure remove five resident and practicing physicians of the city who shall act as an advisory board to the mayor or commissioner of health or health officer upon matters pertaining to public health whenever requested by such mayor, commissioner, or health officer.

2. The members of such advisory board shall serve without compensation.

§ 369. Certain cities; appointment of experts; compensation. The commissioner of health or health officer in cities having a population of less than one hundred seventy-five thousand, with the written consent

of the mayor and subject to the approval of the board of estimate and apportionment or other board having similar powers in such cities and the common council or similar legislative authority in cities having no boards of estimate and apportionment or authorities with similar powers may temporarily employ such health and sanitary experts as may be necessary at a compensation fixed by the board of estimate and apportionment or other authority having power by charter to fix salaries of appointive officials.

§ 370. Certain cities; duty in case of peril to public health. 1. In case of great and imminent peril to the public health of the city, it shall be the duty of the commissioner of health or health officer in cities having a population of less than one hundred seventy-five thousand, with the approval and consent of the common council or similar legislative authority if it be practicable to convene that authority for prompt action, or if not, when approved by the board of estimate and apportionment or authority of similar powers, to take such measures and to do, order or cause to be done such acts and to make such extraordinary expenditures, in excess of the sum appropriated to the department of health, as provided by law, for the preservation and protection of the public health of such city, as he may deem necessary and proper.

2. Such peril to public health shall be deemed to exist only when and for such period as the commissioner of health and board of estimate and apportionment in cities having a population of fifty thousand to one hundred seventy-five thousand, and in cities having a population of less than fifty thousand, the health officer and the board of estimate and apportionment or authority having similar power and the common council or similar legislative authority in a city having no board of estimate and apportionment or authority with similar power, shall determine.

§ 371. Certain cities; sanitary codes. 1. The commissioner of health in cities having a population of less than one hundred seventy-five thousand or the health officer in cities having a population of less

than fifty thousand shall:

(a) formulate, adopt, promulgate and enforce complete rules, regulations, orders and directions for the security of life and health in the city, which shall not be inconsistent with the sanitary code; and

(b) in conjunction with the board of examining plumbers, formulate, adopt and promulgate rules and regulations for plumbing and drainage which shall govern the same.

2. The rules, regulations, orders and directions promulgated and adopted pursuant to the provisions of this section shall be known as the sanitary code of the city.

3. Before such rules and regulations shall take effect they shall be approved in writing by the mayor in cities having a population of fifty thousand to one hundred seventy-five thousand and by the common council or similar legislative authority in cities having a population of less than fifty thousand. After such approval the sanitary code of the city shall be published in such manner as the legislative authority shall prescribe.

4. The sanitary code of such cities may embrace all matters and subjects to which and so far as the jurisdiction, power and authority of the department of health of the city extends not inconsistent with the constitution or laws of the state, and may be revised, altered, amended or annulled from time to time by the commissioner of health or health officer of the city with the approval of the mayor in cities having a population of fifty thousand to one hundred seventy-five thousand and the common council or similar legislative authority in cities having a population of less than fifty thousand. The provisions thereof shall be binding and in full force and effect in such city.

§ 372. Certain cities; existing regulations and sanitary codes. The existing sanitary codes of cities having a population of less than one hundred seventy-five thousand, and all rules, regulations and special directions heretofore duly formulated, adopted and promulgated by the commissioner of public safety, the board of health or the health

officer, shall continue in full force and effect, except as the same may be revised, altered, amended or annulled from time to time as provided by law.

§ 373. Certain cities; sanitary codes; violations and penalties. 1.

The sanitary code of a city having a population of less than one hundred seventy-five thousand may provide for specific penalties for any violation thereof not exceeding one thousand dollars for each offense.

2. Except where specific penalty is so provided for, any person who violates or who fails to comply with any provision of the sanitary code, or of any rule, regulation, order or special direction duly made thereunder or authorized by this article, shall forfeit and pay to the city a penalty not to exceed one thousand dollars for each and every offense.

3. All suits and proceedings authorized by this article or to recover any penalty provided for in the sanitary code, or by this article, shall be brought by and in the name of the city, but no fees or costs shall be demanded or recovered from the commissioner of health or health officer of the city, or any officer thereof, in such suit or proceeding or action.

4. Any person who shall wilfully violate, neglect or refuse to comply with any provision or requirement of this article, or of any provision of the sanitary code of a city, or of any rule, regulation, order or special direction duly made thereunder, or authorized by this article shall in addition to the penalty or penalties therein or herein prescribed also be guilty of a misdemeanor.

§ 374. Certain cities; appeals from orders of commissioner of health or health officers. 1. Any person aggrieved by an order, decision or direction of the commissioner of health or health officer of a city having a population of less than one hundred seventy-five thousand, may appeal therefrom to the official or authority which appoints the head of

the department of health of such city, who or which may affirm, reverse or modify the order, decision or direction appealed from.

2. Such appeal may be made by serving on the said commissioner of health or health officer a written notice of appeal within two days, Sundays and legal holidays excepted, or within such further time as shall be allowed by the official or authority having power to hear the appeal after the appellant received notice of the order, decision or direction appealed from. Within two days after receiving such notice of appeal, Sundays and legal holidays excepted, the commissioner of health or health officer shall make a written return to the official or authority having power to hear the appeal of the facts and evidence on which such order, decision or direction is founded. Upon receipt of such return, or if no return be made within the time specified, the official or authority having power to hear the appeal shall forthwith proceed to hear and determine the matter. Upon such appeal the official or authority having power to hear it need not be confined to the evidence contained in the return but in his or its discretion may take additional evidence.

3. Until the decision of the appeal is made the order, decision or direction appealed from shall not be suspended unless the official or authority having power to hear the appeal by an order in writing shall so direct, which order shall be filed forthwith in the office of the commissioner of health or health officer of the city.

4. In case of failure to sustain the appeal the official or authority having power to hear the appeal may in his or its discretion impose costs not exceeding ten dollars upon the appellant.

§ 375. Certain cities; actions to restrain nuisances. The commissioner of health or health officer of a city having a population of less than one hundred seventy-five thousand, is authorized, by and with the advice and consent of the corporation counsel or city attorney, in the name of the city to maintain actions to restrain the threatened performance or the continued performance of any act contrary to his orders, directions,

decisions or ordinances, and to restrain and abate nuisances, and for the purpose of obtaining a temporary injunction in any such action no undertaking shall be required.

§ 376. Certain cities; enforcement. The head of the police department shall whenever requested in writing by the commissioner of health or health officer in cities having a population of less than one hundred seventy-five thousand, with the approval of the mayor, detail such number of regular police officers as shall be specified in such request who shall while so detailed serve under the direction of the commissioner of health or health officer.

§ 377. Certain cities; license fees. No license or permit shall be issued to any person or for any purpose subject to the jurisdiction or control of the commissioner of health or health officer of a city having a population of less than one hundred seventy-five thousand, except on the written approval of the department of health of such city and the payment thereof of the fee to be fixed by such commissioner or health officer. The amount of such fee to be paid shall be fixed by a general regulation made by such commissioner or health officer for each class of licenses or permits issued. Such license or permit shall be issued and such license fee shall be received by the official designated in the ordinance creating the department of health.

§ 378. Certain cities; contracts and fees for health services. (a) In cities having a population of less than one hundred and seventy-five thousand and in those cities which have by special law established a department of health, the commissioner of health or health officer, with the consent and approval of the mayor and the board of estimate and apportionment or other board having similar power in such cities and the common council or similar legislative authority in cities having no such boards, may enter into contracts

(1) with corporations duly licensed in the state of New York to transact the business of accident and health insurance to provide to

sick and disabled persons insured by them such home care, including nursing and other paramedical services (excluding physicians' services) as may be needed by them;

(2) with hospital service corporations organized and operating in accordance with article forty-three of the insurance law to provide to their subscribers nursing service and such other paramedical services as would have been available in a hospital (excluding physicians' services) at rates which shall prior to payment be approved as to reasonableness by the superintendent of financial services;

(3) with any municipal corporation or local, state or federal agency to provide such home care, including nursing and other paramedical services (excluding physicians' services) as may be needed by sick and disabled persons;

(4) with medical expense indemnity corporations organized and operating in accordance with article forty-three of the insurance law to provide their subscribers with such home care, including nursing and other paramedical services, as may be needed by them at rates which shall prior to payment be approved as to reasonableness by the superintendent of financial services; and

(5) with any non-profit corporation, agency or association established for the purpose of improvement of health services, or for the purpose of providing home care for sick and disabled persons, including nursing and other paramedical services (excluding physicians' services) as may be needed by such persons.

(6) with any dentist, physician or group of physicians, without public bidding, for the rental or use of a portion of a clinic or public health center and its equipment and furnishings provided, however, that any such dentist, physician or group of physicians shall render such care and treatment as shall be necessary or possible under the circumstances to any person found eligible for emergency treatment including those found in an unconscious, seriously ill or wounded condition and to any person eligible for medical assistance pursuant to section three hundred sixty-six of the social services law.

(b) Such commissioner of health or health officer shall establish the fees to be charged for such services to be rendered pursuant to such contracts, collect such fees and pay the same over to the fiscal officer of the city in the manner provided by law. No contract made in

accordance with the provisions of subdivision (a) of this section shall require payment for such services to an insured or subscriber at a rate in excess of the charge for the same service, if any, provided to a person afflicted with a similar disease or condition who is neither insured nor a subscriber.

(c) The commissioner of health or health officer with the consent and approval of the mayor and the board of estimates and apportionment or other board having similar power in such cities and the common council or similar legislative authority in cities having no such boards may establish and collect fees from a patient or a person or private or public agency responsible for his care for services rendered to patients in the institutions, public health centers and clinics operated by the city and for nursing and other paramedical services (excluding physicians' services) rendered to people sick at home. Fees so collected shall be paid to the fiscal officer of the city in the manner provided by law.

(d) The commissioner of health or health officer may in his discretion, in proper cases, where substantial justice will best be served thereby, waive the collection of all, or any portion of, such fees or compromise any portion of such fees. Such waiver or compromise shall be made only upon prior approval of the mayor and the board of estimate and apportionment or other board having similar power in such cities and the common council or similar legislative authority in cities having no such boards, when it is deemed to be in the best interests of the city.

TITLE V

STATE PARK HEALTH DISTRICTS

Section 380. State park health district; establishment.

381. State park health district; board of health; membership.

382. State park health district; board of health; powers and duties.

383. State park health district; health officer; powers and duties.

§ 380. State park health district; establishment. The commissioner may in his discretion, from time to time, create health districts comprised exclusively of lands lying within the boundaries of a state park by filing in the office of the secretary of state an order defining generally the boundaries of such district or districts.

§ 381. State park health district; board of health; membership. Upon the making and filing of an order by the commissioner creating and establishing a state park health district pursuant to section three hundred eighty of this chapter, the local board of health of such district shall consist of the park commission, and ex officio, the state commissioner of health or his duly authorized representative.

§ 382. State park health district; board of health; powers and duties. The board of health of a state park health district shall have all the powers and duties of local boards of health and shall appoint a health officer qualified as provided by the sanitary code.

§ 383. State park health district; health officer; powers and duties. The health officer of a state park health district shall have all the powers and duties under the law of the state and the sanitary code which local health officers now have or hereafter shall have within their respective localities.

TITLE VI

CONSOLIDATED HEALTH DISTRICTS

- Section 390. Consolidated health district; establishment.
391. Consolidated health district; board of health; organization.
392. Consolidated health district; status of existing local boards of health.
393. Consolidated health district; board of health; terms of office.

- 394. Consolidated health district; board of health; officers.
- 395. Consolidated health district; board of health; health officer; powers and duties.
- 395-a. Designation of depository.
- 396. Consolidated health district; health officer; appointment.
- 397. Consolidated health district; appointment of attorney.
- 398. Consolidated health district; compensation of board members.
- 399. Consolidated health district; expenses.

§ 390. Consolidated health district; establishment. The commissioner, on the written request of the town board of any town and the board of trustees of any village and the common council or other like authority of any city, may combine into one health district, hereinafter referred to as a consolidated health district, any two or more of such towns, villages or cities and may on the written request of the town board of any town, board of trustees of any village or common council or other like authority of any city at any time thereafter set apart such town, village or city as a separate health district.

§ 391. Consolidated health district; board of health; organization. 1. In every consolidated health district there shall be a board of health which shall consist of the supervisor of each town, the president of the board of trustees of each village, and the mayor and the supervisors of each city included in each district, provided that if the number of members so provided for is an even number less than seven, such members shall within thirty days after such district shall have been established by the commissioner choose an additional member of such board of health to be known as the elective member, and if the number of members so provided for is more than seven such members shall meet and elect a board of health of three members for such consolidated health district.

2. A member of the board, sitting ex-officio and not as one of a new board of three elected as hereinbefore provided, who is the lawful

incumbent of more than one of the offices entitling him to membership shall have as many votes in the board as there are municipalities of the district, in which he holds such offices, and in such a case the total number of votes on the board shall be regarded as the number of members, in applying the provisions hereof relative to the choosing of an additional member or reducing the membership to a board of three.

§ 392. Consolidated health district; status of existing local boards of health. 1. When any consolidated health district is established, as provided in this article, the boards of health of the towns, villages or cities included within such district, shall thereupon cease to exist as boards of health, and all their rights, powers, duties and obligations shall thereupon be transferred to the board of health of such district.

2. When the board of health of any such consolidated health district shall have appointed a health officer therefor, the terms of office of the health officers of the towns, villages or cities included in such district shall cease, and all their rights, powers, duties and obligations shall thereupon be transferred to and imposed upon the health officer appointed for such consolidated health district.

§ 393. Consolidated health district; board of health; terms of office. 1. Of the new reduced three member board of health of a consolidated health district first elected, one member shall be elected to serve until one year from the first day of January following his election, one to serve two years, and one to serve three years from such first day of January, and until his successor has been elected and has qualified.

2. Prior to December first each year the village mayors and supervisors of the municipalities included in the consolidated health district shall meet and elect one member of the board of health who shall serve three years from the January first following and until his successor has been elected and has qualified.

3. An elective member shall serve for a term of two years from the

first day of January preceding his election and until his successor shall have been appointed, provided that if at any time the number of members of the board of health, excluding the elective member, shall become an odd number, the term of office of the elective member shall thereupon cease.

§ 394. Consolidated health district; board of health; officers. The board of health of a consolidated health district shall from time to time elect a president from among its members. The health officer of a consolidated health district shall serve as the secretary of the board of health thereof without additional remuneration therefor.

§ 395. Consolidated health district; board of health; health officer; powers and duties. Each board of health and each health officer of a consolidated health district shall have all the rights, powers, duties and obligations conferred and imposed by law upon boards of health and health officers respectively.

§ 395-a. Designation of depository. The board of health of any consolidated health district may designate by resolution one or more banks or trust companies in which the moneys paid to the president of the board as provided herein shall be deposited. Notwithstanding the provisions of section four hundred ten of the education law, in a consolidated health district in which there is but one bank or trust company, the bank or trust company so designated as depository may be one of which members of such board of health are officers, directors or stockholders. Such designation and deposit of such moneys shall release the president of the board from any liability for loss of such moneys by reason of the default or insolvency of any such depository. The board of health may require any bank or trust company so designated as a depository in which such moneys are on deposit or are to be deposited to deliver to such board a surety bond payable to the consolidated health district, executed by a surety company authorized to transact business in this state and securing to such district the payment of such

deposits; or in lieu of such a surety bond, such board may require any such bank or trust company to deposit with such board obligations of the United States of America, of the state of New York or of any county, town, city, village or school district of the state of New York as security for such moneys so deposited, but such obligations shall be subject to the approval of such board and shall be held for safekeeping at such place and under such conditions as such board may determine.

§ 396. Consolidated health district; health officer; appointment. In each consolidated health district the board of health shall appoint a health officer qualified as provided in the sanitary code.

§ 397. Consolidated health district; appointment of attorney. The board of health of a consolidated health district may employ and fix the compensation of an attorney, which shall be audited and paid in the same manner as the other expenses of the district.

§ 398. Consolidated health district; compensation of board members. 1. Members of the board of health of a consolidated health district, whether or not members of a town board or a village board of trustees, shall be allowed a per diem compensation of not more than ten dollars for each calendar day in actual attendance at a meeting of the board of health of the district, to be fixed and determined by the board of health of the district and which compensation in the case of any member shall not exceed the sum of one hundred and fifty dollars in any one year.

2. Members of the board of health of a consolidated health district shall also be allowed their actual and necessary expenses.

3. The compensation and expenses of members of the board of health of a consolidated health district shall be audited and paid in the same manner as the other expenses of the consolidated health district.

§ 399. Consolidated health district; expenses. 1. The board of health of each consolidated health district shall from time to time audit all accounts, and allow or reject all charges, claims and demands against such health district for the remuneration and expenses of the health officer, registrar or registrars, and for all other expenses lawfully incurred by said board of health or on its authority.

2. (a) Unless the board of health of such consolidated health district adopts the estimate system of payments as provided by this section they shall, prior to the annual meeting of the board of supervisors each year, make an abstract to be known as the consolidated health district abstract, of the names of all persons who have presented to them accounts to be audited, the amounts claimed by each such person and the amounts finally audited and approved by them respectively, and, if such district be wholly in one county, shall deliver such abstract to the clerk of the board of supervisors.

(b) If such consolidated health district be located in more than one county the board of health of such district shall divide the total amount of the consolidated health district abstract as audited and approved in proportion to the assessed valuation of the real property of the towns, villages or cities of such consolidated health district located in each county, with a statement of the amount due from the real property of each town, village or city of the consolidated health district in each such county on account of the expenses of such board.

(c) The board of supervisors of each such county shall levy a tax upon the real property of each town, village or city within such consolidated health district sufficient to provide for the sums audited and approved by the board of health thereof and chargeable to the real property of each town, village or city of the consolidated health district in each such county.

(d) Such sums, when collected and paid to the county treasurer of each such county, respectively, shall be paid by him to the president of the board of health and shall be disbursed by him in accordance with the abstract of claims audited and approved by such board of health, as provided by this section.

3. (a) The board of health of any consolidated health district may annually make an estimate of the expenses of such board for the ensuing calendar year and, if such district be wholly in one county, shall deliver a certified copy of such estimate to the clerk of the board of supervisors of such county prior to the annual meeting of the board preceding such year.

(b) If such consolidated health district be located in more than one county, the board of health of such district shall proportion the total amount of such estimate in the same manner as provided by this section for proportioning the expenses of such a district when audited and approved by the board, and shall deliver to the clerk of the board of supervisors of each such county a certified statement of the total estimate and the amount due from the real property of each town, village or city of the consolidated health district in each such county on account thereof.

(c) The board of supervisors of each county shall levy a tax upon the real property within such health district sufficient to provide for the portion of the amount of such estimate chargeable to the real property of each town, village or city of the consolidated health district in each such county.

(d) Such sums, when collected and paid to the county treasurer of each county respectively, shall be paid by him to the president of the board of health and shall be disbursed by the board of health in accordance with the estimates.

(e) After such estimate system has been adopted by a consolidated health district, the board of health thereof shall deduct from the estimate for the succeeding calendar year the amount, if any, remaining in the custody of such board after all of the liabilities incurred on account of the preceding estimate have been paid, before the certified statement of the total estimate and the amount due from the real property of each town, village or city of the consolidated health district in each such county is certified to the respective clerks of the boards of supervisors for collection.

4. A consolidated health district may adopt the estimate system as provided by this section, and, as provided by this section, may make and file with the clerk of the board of supervisors of the county, or if

such district be located in more than one county, with the clerk of the board of supervisors of each such county, an estimate for the remainder of the current year and for the ensuing calendar year.

ARTICLE 4

PROPERTY AND HOSPITALS IN THE DEPARTMENT OF HEALTH

Title I. General provisions (§§ 401-410).

II. Hospitals: boards of visitors (§§ 420-425).

IV. Hospitals: officers and employees (§§ 450-455).

TITLE I

GENERAL PROVISIONS

Section 401. Land; purchase or acquisition.

403. Hospitals; property; authority to acquire and to hold.

403-a. The New York state home for veterans and their dependents at Oxford.

403-b. The New York state home for veterans in the city of New York.

403-c. The New York state home for veterans in western New York.

403-d. The New York state home for veterans in the lower-Hudson Valley.

404. Hospitals; property; authority to acquire and to hold.

405. Hospitals; visitors and officers; oaths and bonds.

406. Hospitals; refunds, waivers and compromises of bills.

407. Hospitals; privileges to students.

408. Hospitals; admission of patients; in general.

409. Department of health income fund.

409-a. Department of health New York city veterans home income fund.

409-b. Distribution of surplus revenue.

409-c. Powers and duties of the commissioner; administrative and fiscal functions.

410. Hospitals; reimbursement.

§ 401. Land; purchase or acquisition. 1. The commissioner, when an appropriation therefor has been made by the legislature, may acquire any real property which he may deem necessary for any departmental purpose by purchase or acquisition pursuant to the eminent domain procedure law.

Title to any such real property shall be taken in the name of and be vested in the people of the state of New York; provided, however, that no real property shall be so acquired by purchase unless the title thereto shall be approved by the attorney general.

2. Whenever real property is to be acquired pursuant to the eminent domain procedure law the commissioner shall cause to be made by the state department of transportation an accurate acquisition map as provided in such law.

3. On the approval of such map by the commissioner, the original tracing of such map shall be filed in the main office of the department.

4. If the commissioner shall determine, prior to the filing of such map in the office of the clerk or register of the county, that changes, alterations or modifications of such map as filed in the main office of the department should be made, he or she shall, subject to the provisions of article two of the eminent domain procedure law, if applicable, direct the preparation by the department of transportation of an amended map. On the approval of such amended map by the commissioner, it shall be filed in the main office of the department and the amended map shall thereupon in all respects and for all purposes supersede the map previously filed.

5. If the commissioner shall determine, prior to the filing of a copy of such acquisition map in the office of the county clerk or register as provided in section four hundred two of the eminent domain procedure law, that such map should be withdrawn, he or she may file a certificate of withdrawal in the offices of the department and of the department of law. Upon the filing of such certificate of withdrawal, the map to which it refers shall be cancelled and all rights thereunder shall cease and determine.

6. The commissioner shall deliver to the attorney general a copy of such acquisition map, whereupon it shall be the duty of the attorney general to advise and certify to the commissioner the names of the owners of the property, easements, interests or rights described in the said acquisition map, including the owners of any right, title or interest therein, pursuant to the requirements of section four hundred three of the eminent domain procedure law.

7. If, at or after the vesting of title to such property in the people of the state of New York as provided for in the eminent domain procedure law, the commissioner shall deem it necessary to cause the removal of an owner or occupant from any real property so acquired, he may cause such owner or occupant to be removed therefrom by proceeding in accordance with section four hundred five of the eminent domain procedure law. The proceeding shall be brought in the name of the commissioner as agent of the state and the attorney general shall represent the petitioner in the proceedings. No execution shall issue for costs, if any, awarded against the state or the commissioner, but they shall be part of the costs of the acquisition of the real property and be paid in like manner. Proceedings may be brought separately against one or more of the owners or occupants of any such property, or one proceeding may be brought against all or several of the owners or occupants of any or all such property within the territorial jurisdiction of the same court, justice or judge; judgment shall be made for immediate removal of persons defaulting in appearance or in answering, or withdrawing their answers, if any, without awaiting the trial or decision of issues raised by contestants, if any.

8. Claims for the value of any property acquired and for legal damages caused by any such acquisition may be adjusted by the commissioner, even though a claim has been filed with the court of claims, if the amount thereof can be agreed upon with the owner or owners thereof. If the amount of a claim cannot be agreed upon, the commissioner shall offer to the owner or owners the amount determined by the commissioner to be the value of such claim. Upon the acceptance of such offer the commissioner shall enter into an agreement with such owner or owners providing for

such payment with interest thereon, if any, as allowed by law and reserving to such owner or owners the right to file such claim with the court of claims or if a claim has been filed reserving the right to prosecute said claim. The reservation of the right to file said claim in the court of claims shall not extend or affect in any way the time limited for the filing of such claim as provided for in the court of claims act. The failure of the owner or owners to file said claim within the time of filing claims specified by the court of claims act shall be deemed an acceptance of the amount paid as full settlement of such claim. If such offer is refused by the owner or owners, or is not accepted within ninety days after notification by the commissioner of such offer by registered mail, interest on the amount of the claim so offered shall be suspended from the date of such refusal or the expiration of such ninety days, whichever is earlier, to the date of the entry of judgment in the court of claims. If such offer is refused or is not accepted within said ninety days the offer shall be deemed withdrawn and may be revived only at the discretion of the commissioner. Upon making any agreement provided for in section three hundred four of the eminent domain procedure law, the commissioner shall deliver to the comptroller such agreement and a certificate stating the amount due such owner or owners thereunder on account of such acquisition of his or their property and the amounts so fixed shall be paid out of the state treasury after audit by the comptroller from moneys appropriated for the acquisition of such real property, but not until there shall have been filed with the comptroller a certificate of the attorney general showing the person or persons claiming the amounts so agreed upon to be legally entitled thereto.

9. Application for reimbursement of incidental expenses as provided in section seven hundred two of the eminent domain procedure law shall be made to the commissioner upon forms prescribed by him and shall be accompanied by such information and evidence as the commissioner may require. Upon approval of such application, the commissioner shall deliver a copy thereof to the comptroller together with a certificate stating the amount due thereof, and the amount so fixed shall be paid out of the state treasury after audit by the comptroller from monies appropriated for the acquisition of property under this section.

10. The commissioner, with the approval of the director of the budget, shall establish and may from time to time amend rules and regulations authorizing the payment of actual reasonable and necessary moving expenses of occupants of property acquired pursuant to this section; of actual direct losses of tangible personal property as a result of moving or discontinuing a business or farm operation, but not exceeding an amount equal to the reasonable expenses that would have been required to relocate such property, as determined by the commissioner; and actual reasonable expenses in searching for a replacement business or farm; or in hardship cases for the advance payment of such expenses and losses. For the purposes of making payment of such expenses and losses only the term "business" means any lawful activity conducted primarily for assisting in the purchase, sale, resale, manufacture, processing or marketing of products, commodities, personal property or services by the erection and maintenance of an outdoor advertising display or displays, whether or not such display or displays are located on the premises on which any of the above activities are conducted. Such rules and regulations may further define the terms used in this subdivision. In lieu of such actual reasonable and necessary moving expenses, any such displaced owner or tenant of residential property may elect to accept a moving expense allowance, plus a dislocation allowance, determined in accordance with a schedule prepared by the commissioner and made a part of such rules and regulations. In lieu of such actual reasonable and necessary moving expenses, any such displaced owner or tenant of commercial property who relocates or discontinues his business or farm operation may elect to accept a fixed relocation payment in an amount equal to the average annual net earnings of the business or farm operation, except that such payment shall be not less than two thousand five hundred dollars nor more than ten thousand dollars. In the case of a business, no such fixed relocation payment shall be made unless the commissioner finds and determines that the business cannot be relocated without a substantial loss of its existing patronage, and that the business is not part of a commercial enterprise having at least one other establishment, which is not being acquired by the state or the United States, which is engaged in the same or similar business. In the case of a business which is to be discontinued but for which the

findings and determinations set forth above cannot be made, the commissioner may prepare an estimate of what the actual reasonable and necessary moving expenses, exclusive of any storage charges, would be if the business were to be relocated and enter into an agreed settlement with the owner of such business for an amount not to exceed such estimate in lieu of such actual reasonable and necessary moving expenses. Application for payment under this subdivision shall be made to the commissioner upon forms prescribed by him and shall be accompanied by such information and evidence as the commissioner may require. Upon approval of such application, the commissioner shall deliver a copy thereof to the comptroller together with a certificate stating the amount due thereunder, and the amount so fixed shall be paid out of the state treasury after audit by the comptroller from moneys appropriated for the acquisition of property under this section. As used in this subdivision the term "commercial property" shall include property owned by an individual, family, partnership, corporation, association or a nonprofit organization and includes a farm operation. As used in this subdivision the term "business" means any lawful activity, except a farm operation, conducted primarily for the purchase, sale, lease and rental of personal and real property, and for the manufacture, processing, or marketing of products, commodities, or any other personal property; for the sale of services to the public; or by a nonprofit organization.

11. Authorization is hereby given to the commissioner to make supplemental relocation payments, separately computed and stated, to displaced owners and tenants of residential property acquired pursuant to this section who are entitled thereto, as determined by him. The commissioner, with the approval of the director of the budget, may establish and from time to time amend rules and regulations providing for such supplemental relocation payments. Such rules and regulations may further define the terms used in this subdivision. In the case of property acquired pursuant to this section which is improved by a dwelling actually owned and occupied by the displaced owner for not less than one hundred eighty days immediately prior to initiation of negotiations for the acquisition of such property, such payment to such owner shall not exceed fifteen thousand dollars. Such payment shall be

the amount, if any, which, when added to the acquisition payment equals the average price, established by the commissioner on a class, group or individual basis, required to obtain a comparable replacement dwelling that is decent, safe and sanitary to accommodate the displaced owner, reasonably accessible to public services and places of employment and available on the private market, but in no event shall such payment exceed the difference between acquisition payment and the actual purchase price of the replacement dwelling. Such payment shall include an amount which will compensate such displaced owner for any increased interest costs which such person is required to pay for financing the acquisition of any such comparable replacement dwelling. Such amount shall be paid only if the dwelling acquired pursuant to this section was encumbered by a bona fide mortgage which was a valid lien on such dwelling for not less than one hundred eighty days prior to the initiation of negotiations for the acquisition of such dwelling. Such amount shall be equal to the excess in the aggregate interest and other debt service costs of that amount of the principal of the mortgage on the replacement dwelling which is equal to the unpaid balance of the mortgage on the acquired dwelling, over the remainder term of the mortgage on the acquired dwelling, reduced to discounted present value. The discount rate shall be the prevailing interest rate paid on savings deposits by commercial banks in the general area in which the replacement dwelling is located. Any such mortgage interest differential payment shall, notwithstanding the provisions of section twenty-six-b of the general construction law, be in lieu of and in full satisfaction of the requirements of such section. Such payment shall include reasonable expenses incurred by such displaced owner for evidence of title, recording fees and other closing costs incident to the purchase of the replacement dwelling, but not including prepaid expenses. Such payment shall be made only to a displaced owner who purchases and occupies a replacement dwelling which is decent, safe and sanitary within one year subsequent to the date on which he is required to move from the dwelling acquired pursuant to this section or the date on which he receives from the state final payment of all costs of the acquired dwelling, whichever occurs later, except advance payment of such amount may be made in hardship cases. In the case of property acquired pursuant to this section from which an individual or family, not otherwise eligible to

receive a payment pursuant to the above provisions of this subdivision, is displaced from any dwelling thereon which has been actually and lawfully occupied by such individual or family for not less than ninety days immediately prior to the initiation of negotiations for the acquisition of such property, such payment to such individual or family shall not exceed four thousand dollars. Such payment shall be the amount which is necessary to enable such individual or family to lease or rent for a period not to exceed four years, a decent, safe, and sanitary dwelling of standards adequate to accommodate such individual or family in areas not generally less desirable in regard to public utilities and public and commercial facilities and reasonably accessible to his place of employment, but shall not exceed four thousand dollars, or to make the down payment, including reasonable expenses incurred by such individual or family for evidence of title, recording fees, and other closing costs incident to the purchase of the replacement dwelling, but not including prepaid expenses, on the purchase of a decent, safe and sanitary dwelling of standards adequate to accommodate such individual or family in areas not generally less desirable in regard to public utilities and public and commercial facilities, but shall not exceed four thousand dollars, except if such amount exceeds two thousand dollars, such person must equally match any such amount in excess of two thousand dollars, in making the down payment. Such payments may be made in installments as determined by the commissioner. Application for payment under this subdivision shall be made to the commissioner upon forms prescribed by him and shall be accompanied by such information and evidence as the commissioner may require. Upon approval of such application, the commissioner shall deliver a copy thereof to the comptroller, together with a certificate stating the amount due thereunder, and the amount so fixed shall be paid out of the state treasury after audit by the comptroller from moneys appropriated for the acquisition of property under this section.

12. The owner of any real property so acquired may present to the court of claims, pursuant to section five hundred three of the eminent domain procedure law, a claim for the value of such property acquired and for legal damages caused by such acquisition, as provided by law for the filing of claims with the court of claims. Awards and judgments of

the court of claims shall be paid in the same manner as awards and judgments of that court for the acquisition of lands generally and shall be paid out of the state treasury after audit by the comptroller from moneys appropriated for the acquisition of such real property.

14. If the commissioner shall determine subsequent to the acquisition of a temporary easement in any real property that the purposes for which such easement right was acquired have been accomplished and that the exercise of such easement is no longer necessary, he shall make his certificate that the exercise of such easement is no longer necessary and that such easement right is therefore terminated, released and extinguished. The commissioner shall cause such certificate to be filed in the office of the department of state and upon such filing all rights acquired by the state in such property shall cease and determine. The commissioner shall cause a certified copy of such certificate as so filed in the office of the department of state to be mailed to the owner of the property affected, as certified by the attorney general, if the place of residence of such owner is known or can be ascertained by a reasonable effort and such commissioner shall cause a further certified copy of such certificate to be filed in the office of the recording officer of each county in which the property affected or any part thereof is situated. On the filing of such certified copy of such certificate with such recording officer, it shall be his duty to record the same in his office in the books used for recording deeds and to index the same against the name of the people of the state of New York as grantor.

15. Notwithstanding any other provision of this section, the commissioner shall have the power to acquire by grant or purchase, in the name of the people of the state of New York, any property which he deems necessary for any of the purposes provided for in this section and may also acquire for such purposes from the Palisades interstate park commission, in the name of the people of the state of New York, such lands and such easements, licenses, permits and other rights over lands as the said commission is authorized to grant, sell, exchange or convey. When the acquisition by appropriation, grant or purchase of property deemed necessary for departmental purposes would result in substantial

consequential damages to the owner's remaining property, due to loss of access, severance or control of access, the commissioner of transportation, for and in behalf of the people of the state of New York, may acquire by purchase or grant all or any portion of such remaining property. Payment therefor, if any, shall be made in the manner prescribed in this section for the payment of adjusted appropriation claims, provided, however, that no real property shall be so acquired unless the title thereto shall be approved by the attorney general.

§ 403. Hospitals; property; authority to acquire and to hold. 1. The following state hospitals are hereby continued in the department for the purposes for which they have been respectively established:

- (a) The Helen Hayes hospital;
- (b) Roswell Park Cancer Institute;
- (c) The New York state home for veterans and their dependents at Oxford;
- (d) The New York state home for veterans in the city of New York;
- (e) The New York state home for veterans in western New York;
- (f) The New York state home for veterans in the lower-Hudson Valley.

2. Notwithstanding any other inconsistent provisions of law, including, but not limited to, article four-C of the economic development law, and subject to the provisions of any lease, loan agreement or other agreement with the dormitory authority of the state of New York or any predecessor or successor agency or corporation, the commissioner, with the approval of the director of the budget, may contract with the Roswell Park Cancer Institute corporation, for the transfer of the operations of the Roswell Park Cancer Institute or any part thereof, practice plan or of any other program operated by such hospital. Such contract shall include terms and conditions under which the Roswell Park Cancer Institute corporation may issue bonds, notes or other evidences of indebtedness. Payments made pursuant to such contract or any other contracts between the department of health and the Roswell Park Cancer Institute corporation shall be limited to amounts made available pursuant to appropriations. Upon the transfer of the

operations of Roswell Park Cancer Institute to the Roswell Park Cancer Institute corporation, the Roswell Park Cancer Institute corporation shall operate the Roswell Park Cancer Institute for the department in accordance with the terms of any lease or other agreement between the department and the dormitory authority pertaining to the use, operation, maintenance and replacement of Roswell Park Cancer Institute.

§ 403-a. The New York state home for veterans and their dependents at Oxford. The New York state home for veterans and their dependents at Oxford shall be subject to the provisions of this article except when such provisions are inconsistent with the provisions of article twenty-six-A of this chapter.

§ 403-b. The New York state home for veterans in the city of New York. There is hereby established in the city of New York a New York state home for veterans. Such home for veterans shall be subject to the provisions of this article except when such provisions are inconsistent with the provisions of article twenty-six-A of this chapter.

§ 403-c. The New York state home for veterans in western New York. There is hereby established a state home for veterans in western New York. Such home for veterans shall be subject to the provisions of this article except when such provisions are inconsistent with the provisions of article twenty-six-A of this chapter.

§ 403-d. The New York state home for veterans in the lower-Hudson Valley. There is hereby established a state home for veterans in the lower-Hudson Valley. Such home for veterans shall be subject to the provisions of this article except when such provisions are inconsistent with the provisions of article twenty-six-A of this chapter.

§ 404. Hospitals; property; authority to acquire and to hold. 1. The

board of visitors of each state hospital in the department, as the agent of the department, is hereby authorized to take and hold, in the name of and for the people of the state, by grant, gift, devise or bequest, property to be applied, principal or income, or both, for the benefit of the hospital, institution or of any patient or patients therein or to the maintenance and the general uses of the hospital or institution.

2. No property shall be taken or held as provided by this section, except with the approval of the commissioner unless the rules of the commissioner otherwise provide. Utilization and administration of property so taken and held shall be subject to the rules of the commissioner.

3. Property taken and held as provided by this section shall be applied or expended for the purpose specified by the donor, subject to the rules of the commissioner.

4. The expenditure of moneys derived from any source pursuant to the provisions of this section, including income, shall be under the immediate direction of the hospital, or treasurer of the institution, except as the rules of the commissioner may otherwise provide.

§ 405. Hospitals; visitors and officers; oaths and bonds. 1. Each director, member of the board of visitors, and treasurer of the several state hospitals in the department shall take the constitutional oath of office.

§ 406. Hospitals; refunds, waivers and compromises of bills. 1. Moneys heretofore or hereafter received by the department for the accounts of any of the hospitals or institutions of the department may be refunded to the person or party for whose account same were received, and within six years thereafter upon satisfactory proof being submitted to the commissioner that:

a. such moneys were in excess of the charges imposed upon or incurred

by the party, pursuant to law; or,

b. such moneys were received as reimbursement for care, maintenance and treatment of patients, and such care, maintenance and treatment has not been rendered or furnished; or,

c. such moneys were received from the funds of patients not available for payment for the care, maintenance and treatment of patients.

2. Notwithstanding the provisions of section one hundred twenty-one of the state finance law, such refunds shall, upon approval by the commissioner and after audit by the comptroller, be paid from any moneys in the custody of the department received as reimbursement for the care, maintenance and treatment of patients in the several hospitals in the department.

3. The commissioner may in his discretion, in proper cases, where substantial justice will best be served thereby, waive bills for the maintenance, care and treatment received or furnished to patients in any of the hospitals or institutions of the department or compromise any portion of such bills. Such waiver or compromise shall be made only upon prior approval of the comptroller and the attorney general when they deem it to be for the best interest of the state.

§ 407. Hospitals; privileges to students. 1. Whenever the person or persons having lawful control and management over any public hospital in any city or county in this state, shall grant to matriculated students of any legally incorporated medical college in said city or county, privileges of admission to such hospital for hearing clinics or lectures, or receiving medical or surgical instruction therein, the like privileges and advantages shall be granted to the matriculated students in each and all legally incorporated medical colleges in said city and county who may desire the same, without distinction or preference, and upon equal terms and conditions as to all.

2. Nothing in this section shall prevent the directors of such

hospitals from limiting the attendance of students in such hospitals to a number compatible with the welfare of patients. But in such limitation they shall receive students from such legally incorporated medical colleges applying for such admission in proportion to the number of students in attendance upon such college.

§ 408. Hospitals; admission of patients; in general. 1. If in the judgment of the director of a hospital in the department the number of patients of the hospital at any time so far exceeds its proper capacity that suitable care, training or discipline cannot be given to additional patients, or for other reasons the admission of such additional patients is impracticable, the commissioner in his discretion, may suspend the admission of patients to such hospital until such time as they may properly be admitted.

2. The commissioner shall promptly notify courts and other public officers empowered to commit persons to such hospital of any such suspension of admission and of its termination. A person committed to such hospital before the court receives notice of such a suspension may be recommitted to another hospital to which he might have been lawfully committed in the first instance.

3. In the admission of patients to such hospital the several counties and the city of New York shall, so far as practicable, be entitled to have in such hospital, patients in the ratio which their respective populations bear to the population of the state as ascertained by the latest federal census or state enumeration.

§ 409. Department of health income fund. 1. There is established in the custody of the comptroller a special account, to be known as the department of health income fund.

2. (a) The commissioner shall, after the first day of July, nineteen hundred seventy-one, pay over moneys received by the department including, subject to subdivision six of this section, moneys received

from the Roswell Park Cancer Institute corporation for the care, maintenance and treatment of patients at state hospitals in the department as enumerated in section four hundred three of this chapter, together with money received from fees, including parking fees, refunds, reimbursements, payments received pursuant to leases, sales of property and miscellaneous receipts of such hospitals other than gifts, grants, bequests and moneys received under research contracts, and clinical practice income received pursuant to a clinical practice plan established pursuant to subdivision fourteen of section two hundred six of this chapter except for the amount of money required by the comptroller to be maintained on deposit in the department of health income fund pursuant to paragraph (c) of this subdivision less payments required to be made into pools created by this chapter and for assessments established pursuant to this chapter and less refunds made pursuant to law, to the comptroller to be deposited by the comptroller in the department of health income fund. Such moneys shall be kept separate and shall not be commingled with any other moneys in the hands of the comptroller. All deposits of such money shall, if required by the comptroller, be secured by obligations of the United States or of the state of market value equal at all times to the amount of the deposit and all banks and trust companies are authorized to give such securities for such deposits. The commissioner shall identify to the comptroller moneys received from Roswell Park Cancer Institute corporation or its subsidiaries.

(b) Subject to the terms of any agreement between the department and the dormitory authority, any such moneys in the department of health income fund not required for immediate use, may, in the discretion of the comptroller, be invested by the comptroller in obligations of the United States or the state or obligations the principal and interest of which are guaranteed by the United States or the state.

(c) The comptroller shall at all times maintain on deposit in the department of health income fund the aggregate amount of money needed by the department during the next succeeding six calendar months to comply in full with all obligations of the department under the terms of every lease, sublease or agreement of the department with the dormitory authority which is then in effect, including without limitation by the specification thereof, (i) the amount needed to make rental payments

thereunder during such semiannual period, and (ii) the amount needed to establish and maintain reserves thereunder during such period.

(d) The comptroller shall from time to time but in no event later than the last day of March, June, September and December of each year pay over and deposit in the special revenue funds - other, miscellaneous special revenue fund - 339, Roswell Park cancer institute account, Helen Hayes hospital account, New York state home for veterans and their dependents at Oxford account, western New York veterans' home account and New York state home for veterans in the lower-Hudson Valley account, in accordance with directions from the commissioner of health concerning the distribution of revenues among the various accounts, all moneys in the department of health income fund in excess of the aggregate amount of money required to be maintained in the department of health income fund pursuant to paragraph (c) of this subdivision. Prior to making any such transfer, the comptroller shall make and deliver to the director of the budget and to the dormitory authority his certificate stating the aggregate amount to be maintained on deposit in the department of health income fund to comply in full with the provision of paragraph (c) of this subdivision. When further directed by the commissioner, the comptroller shall transfer revenues and/or appropriations between and among these accounts and the special revenue funds - other, miscellaneous special revenue fund - 339, New York city veteran's home account. For purposes of transferring appropriations it is intended that the following accounts be understood to be part of the same program and same fund for purposes of section fifty-one of the state finance law, thereby authorizing unlimited interchangeability of appropriated amounts between the following accounts in the special revenue funds - other, miscellaneous special revenue fund - 339: Roswell Park Cancer Institute Account, Helen Hayes Hospital Account, New York State Home for Veterans and Their Dependents at Oxford Account, Western New York Veterans' Home Account, New York State Home for Veterans in the lower-Hudson Valley Account, and New York City Veterans' Home Account. The comptroller shall, as determined by the commissioner and consistent with any repayment agreement entered into between the director of the budget and the commissioner, transfer funds from the Roswell Park cancer institute account, Helen Hayes hospital account, New York state home for veterans and their dependents at Oxford account, western New York

veterans' home account or New York state home for veterans in the lower-Hudson Valley account to the department of health services account to repay all or part of any outstanding liabilities in the health services account attributed to the respective hospitals for which such accounts were established.

3. To secure the payment of any money due or to become due in any year under any lease, sublease or agreement entered into between the department and the dormitory authority, the commissioner may pledge or assign to the dormitory authority all or any moneys in the department of health income fund established pursuant to this section, and any and all moneys which may be receivable by the department and credited to such department of health income fund in the future, and any right, title and interest of the department in and to the money in or to be deposited in such department of health income fund.

4. The moneys in the department of health income fund shall be paid out of such fund on the audit and warrant of the comptroller on vouchers certified or approved by the commissioner, or by an officer or employee of the department designated by the commissioner, notwithstanding the provisions of any general or special law to the contrary.

5. Notwithstanding any inconsistent provision of this section or any other law to the contrary, including, but not limited to, section four of the state finance law, the comptroller shall no less than biweekly pay any moneys which the commissioner identifies as being attributed to the operation of the Roswell Park Cancer Institute corporation or the properties leased to it by the state or subsidiaries of such corporation, which are in excess of the amounts required to comply with the provisions of paragraph (c) of subdivision two of this section, into a depository account owned and controlled by the Roswell Park Cancer Institute corporation.

6. Notwithstanding the foregoing provisions of this section, upon the payment or provision for payment of all outstanding bonds issued on or before March thirty-first, two thousand twenty-five by the dormitory authority to make loans to the department to finance or refinance state

hospital facilities in accordance with the terms of the bond resolution under which such bonds were issued, the provisions of subdivisions two and five of this section requiring (i) the payment and identification by the department to the comptroller of moneys received from the Roswell Park Cancer Institute corporation, (ii) the deposit and maintenance of such moneys from the Roswell Park Cancer Institute corporation by the comptroller in the department of health income fund, and (iii) the release of excess moneys in the department of health income fund attributed to the operation of the Roswell Park Cancer Institute corporation or its subsidiaries, shall no longer be applicable and, thereafter, all such moneys from the operation of the Roswell Park Cancer Institute corporation shall remain in the custody and/or control of the corporation and/or its subsidiaries.

§ 409-a. Department of health New York city veterans home income fund.

1. There is established in the custody of the comptroller a special account, to be known as the "department of health New York city veterans home income fund", which shall be referred to in this section as "the fund".

2. (a) The commissioner shall, after the first day of July, nineteen hundred ninety-one, pay over moneys received by the department for the care, maintenance and treatment of patients at the New York state home for veterans in the city of New York, together with moneys received from fees, including parking fees, refunds, reimbursements, sales of property and miscellaneous receipts of such home other than gifts, grants, bequests and moneys received under research contracts to the comptroller to be deposited by the comptroller in the fund. Such moneys shall be kept separate and shall not be commingled with any other moneys in the hands of the comptroller. All deposits of such money shall, if required by the comptroller, be secured by obligations of the United States or of the state of market value equal at all times to the amount of the deposit and all banks and trust companies are authorized to give such securities for such deposits.

(b) Subject to the terms of any agreement between the department and the dormitory authority, any such moneys in the fund not required for

immediate use, may, in the discretion of the comptroller, be invested by the comptroller in obligations of the United States or the state or obligations the principal and interest of which are guaranteed by the United States or the state.

(c) The comptroller shall at all times maintain on deposit in the fund the aggregate amount of money needed by the department during the next succeeding six calendar months to comply in full with all obligations of the department under the terms of any lease, sublease or agreement of the department with the dormitory authority relating to the New York state home for veterans in the city of New York which is then in effect, including without limitation by the specification thereof, (i) the amount needed to make rental or other payments thereunder during such semiannual period and (ii) the amount needed to establish and maintain reserves thereunder during such period.

(d) The comptroller shall from time to time but in no event later than the last day of March, June, September and December of each year pay over and deposit in the special revenue funds - other, miscellaneous special revenue fund - 339, New York city veterans' home account, all moneys in the fund in excess of the aggregate amount of money required to be maintained in the department of health New York City veterans home income fund pursuant to paragraph (c) of this subdivision. Prior to making any such transfer, the comptroller shall make and deliver to the director of the budget and to the dormitory authority a certificate stating the aggregate amount to be maintained on deposit in the fund to comply in full with the provision of paragraph (c) of this subdivision. When further directed by the commissioner, the comptroller shall transfer revenues and/or appropriations between and among this account and the special revenue funds - other, miscellaneous special revenue fund - 339, Roswell Park cancer institute account, Helen Hayes hospital account, New York state home for veterans and their dependents at Oxford account, western New York veteran's home account and New York state home for veterans in the lower-Hudson Valley account. For purposes of transferring appropriations it is intended that the following accounts be understood to be part of the same program and same fund for purposes of section fifty-one of the state finance law, thereby authorizing unlimited interchangeability of appropriated amounts between the following accounts in the special revenue funds - other, miscellaneous

special revenue fund - 339: Roswell Park Cancer Institute Account, Helen Hayes Hospital Account, New York State Home for Veterans and Their Dependents at Oxford Account, Western New York Veterans' Home Account, New York State Home for Veterans in the lower-Hudson Valley Account, and New York City Veterans' Home Account. The comptroller shall, as determined by the commissioner and consistent with any repayment agreement entered into between the director of the budget and the commissioner, transfer funds from the New York city veteran's home account to the department of health services account to repay all or part of any outstanding liabilities in the health services account attributed to the New York city veterans' home.

3. To secure the payment of any money due or to become due in any year under any lease, sublease or agreement entered into between the department and the dormitory authority relating to the New York state home for veterans in the city of New York, the commissioner may pledge or assign to the dormitory authority all or any moneys in the fund established pursuant to this section, and any and all moneys which may be receivable by the department and credited to such fund in the future, and any right, title and interest of the department in and to the money in or to be deposited in such fund.

4. The moneys in the fund shall be paid out of such fund on the audit and warrant of the comptroller on vouchers certified or approved by the commissioner, or by an officer or employee of the department designated by the commissioner, notwithstanding the provision of any general or special law to the contrary.

§ 409-b. Distribution of surplus revenue. 1. Notwithstanding any inconsistent provisions of section four hundred nine of this article, the commissioner shall establish a plan for distribution of surplus revenue to the institutional program in accordance with the provisions of this section.

2. The commissioner shall annually certify to the director of the budget when there are sufficient receipts deposited to the department of

health income fund to meet the department's revenue target for debt service and institutional operations established in the budget for the fiscal year.

3. The commissioner shall allocate the full amount of the receipts received from state hospitals within the department which exceed the amount certified to the director of the division of the budget pursuant to subdivision two of this section to be paid over and deposited in the surplus revenue account established pursuant to subdivision four of this section to be allocated to such facilities in accordance with subdivision five of this section.

4. There shall be established within the special revenue funds - other a department of health facility surplus revenue account. All surplus revenues allocated pursuant to subdivision three of this section shall be paid over and deposited to the department of health facility surplus revenue account.

5. The commissioner shall segregate any funds available in the department of health facility surplus revenue account pursuant to subdivision four of this section to the state hospitals within the department based on consideration of the following factors: (i) the proportion of funds that each facility contributes to such surplus revenue; and (ii) the amounts each facility contributed to the department of health income fund under section four hundred nine of this article. The amounts shall be allocated to each facility in accordance with a plan, subject to the approval of the commissioner, submitted by each facility to ensure that such funds are used for non-recurring expenses including personal services contracts and equipment leases and rentals that are for no more than one year, but are potentially renewable and meet all applicable state purchasing requirements.

§ 409-c. Powers and duties of the commissioner; administrative and fiscal functions. 1. Notwithstanding the provisions of sections forty-four, forty-nine, fifty, fifty-one and ninety-three of the state finance law, section nine of the public buildings law or any other

provision of law to the contrary, the commissioner is authorized and empowered:

(a) to expend all lump sum or consolidated appropriations and other appropriations made for the institutional program. Within aggregate funds available for expenditures, the state comptroller shall draw warrants for the payment of all vouchers approved by the commissioner, or by such person as shall be designated by the commissioner by a rule or written direction filed with the state comptroller. Such lump sum or consolidated appropriations made for personal service, or for maintenance and operation or for non-personal service, or maintenance undistributed including personal service, other than appropriations from proprietary or fiduciary funds, shall be available for payments for personal service, or maintenance and operation or for non-personal service, or for maintenance undistributed including personal service upon the filing of a schedule of positions and salaries and the amounts to be available for other personal service classes of expenditure, and for the expenses of maintenance and operation, or for non-personal service with the director of the budget, chairman of the senate finance committee, chairman of the assembly ways and means committee, and the state comptroller. Any such schedule may be amended and such amendment shall be filed with the officers named above. The state comptroller is authorized to pay any amounts required for the salaries and related employment benefits of employees of the institutional program from any appropriations available therefor.

(b) To increase or decrease capital projects fund appropriations by transfer or interchange as follows:

(i) Amounts appropriated for the programs or purposes or for any item or items within such programs or purposes of the institutional program in the department from a particular fund or funds, excluding appropriations for major new facility construction or comprehensive facility renovation or modernization projects, in a fiscal year may be interchanged between items within the same program or purposes of an institution, or with other items appropriated from such fund not in the same program or purpose within an institution, but which are contained in the state comptroller's classification of items as last promulgated pursuant to a certificate of allocation. Such certificate shall be submitted by the commissioner to the state comptroller with copies to be

sent to the chairs of the senate finance committee and the assembly ways and means committee and the director of the budget for informational purposes only.

2. (a) Notwithstanding any inconsistent provision of section ninety-three of the state finance law or any other law to the contrary, any capital projects fund appropriation for state hospitals in the department shall be available to the department upon issuance of a certificate of approval of availability by the director of the budget. The certificate shall be for so much as shall be necessary to accomplish the purposes described in the report from the department specifying the scope of the project and the project budget within the limits of the appropriation and a copy of such certificate of approval shall be filed with the state comptroller, the chair of the senate finance committee and the chair of the assembly ways and means committee. Moneys so approved shall be paid on the audit and warrant of the state comptroller pursuant to vouchers approved by the commissioner.

(b) Notwithstanding any inconsistent provision of section nine of the public buildings law or any other law to the contrary, when the commissioner shall determine that there is a construction emergency, as defined in section nine of the public buildings law, the commissioner is empowered and authorized to exceed the limit of forty thousand dollars but not to exceed the limit of two hundred thousand dollars for such project and may utilize any capital projects fund appropriation for state hospitals within the department for the purposes of addressing such construction emergency.

3. The commissioner shall provide the chairs of the senate finance committee and the assembly ways and means committee and the director of the budget with: (i) quarterly reports of all expenditures within the institutional program pursuant to this section on the fifteenth day of July, October, January and April of each year; and (ii) a report on the health care activities of the facilities within the institutional program pursuant to this section and their participation in health care delivery networks, either directly or under contract on or around submission of the annual budget request, but in no event later than October fifteenth of each year. This report shall provide information

regarding: the impact of existing managed care contracts on services, census levels, operational costs and revenue; and the impact of planned expansion of existing managed care networks, including anticipated changes in service areas, census, operating costs and revenue projected as a result of such expansion.

4. Notwithstanding any provision of section one hundred sixty-three of the state finance law or any other law, rule or regulation to the contrary, the commissioner may:

(a) authorize contracts with public, non-profit or business entities for the provision of general comprehensive and specialty health care services in department inpatient or outpatient hospitals, clinics or other ancillary facilities, as defined in section four hundred three of this title, through managed care networks or other health care contractual arrangements for the provision of health care services. Consistent with applicable laws and regulations, the commissioner shall develop policies concerning the terms and conditions for such contracts including length of term, contributions, evidence of insurance, risk assumption and indemnification. Health care services to be provided under such contracts may be delivered directly by state hospitals in the department, as defined in section four hundred three of this title, or, with respect to health care services not provided by such hospitals, through contract, agreement or other arrangement with physicians and other health practitioners and providers or professional corporations, not-for-profit or business entities comprised thereof. Contracts for the provision of health care services hereunder: (i) shall be consistent with applicable provisions of agreements between the state and employee organizations pursuant to article fourteen of the civil service law; (ii) may be entered into without formal competitive bidding subject to the policies of the commissioner which shall include requirements for comparative review or other competitive processes where appropriate; and (iii) shall not increase operating costs above resulting increases in revenue such that expenditures related to services provided pursuant to such contracts will be limited to revenues projected to be received over the life of the contract. Before entering into any contract pursuant to this paragraph, the commissioner shall provide a written assurance to the director of the budget that such contract will not require any

additional resources from the state of New York not supported by contract revenues, based on the projected financial and economic analyses of the proposed contract submitted by the facility, including relevant assumptions regarding the projection.

* (b) notwithstanding section one hundred twelve of the state finance law to the contrary, authorize contracts for the purchase of goods and services for state hospitals in the department, as defined in section four hundred three of this title, without prior review and approval of any other state office or agency and subject to the commissioner's rules and regulations: (i) for any contract which does not exceed one hundred thousand dollars; or (ii) for joint or group purchasing arrangements which do not exceed three hundred thousand dollars. The state comptroller shall have ninety days to review arrangements over the limitations prescribed pursuant to this subparagraph. Purchases made pursuant to such joint or group purchasing arrangements shall not include services and be made from contracts awarded by a regionally or nationally recognized purchasing organization, and contracts with a regionally or nationally recognized purchasing organization shall be made on a competitive basis.

* NB Repealed March 31, 2027

(c) authorize contracts for the participation by state hospitals in the department, as defined in section four hundred three of this title, in joint and cooperative programs and arrangements for the delivery of health care services, or for the planning and administration thereof, with public, non-profit or business entities, including programs and arrangements on a regional or national basis.

(d) authorize the department to: (i) lease, sublease or otherwise make available in accordance with the commissioner's policies, space or facilities within its hospitals, as defined in section four hundred three of this title, to one or more practitioners or public, non-profit or business entities for the purposes specified in paragraphs (a) and (c) of this subdivision; or (ii) to lease or sublease any facilities or other property necessary for the delivery of health care services in accordance with the provisions of paragraphs (a) and (b) of this subdivision.

(e) nothing contained in this subdivision shall in any way alter or impair the rights provided pursuant to a collective bargaining

agreement, state law implementing such agreement or under article fourteen of the civil service law of all members of certified bargaining units currently or hereafter employed by the department in hospitals, as defined in section four hundred three of this title, and all certified employee organizations and negotiating units of such employees shall continue in accordance with the provisions of article fourteen of the civil service law. The commissioner shall assure that any contract or agreement entered into for the provision of general comprehensive and specialty health care services in department hospitals, as defined in section four hundred three of this title, through participation in managed care networks or other joint and cooperative programs and arrangements including those on a regional basis in fulfillment of any provision of this subdivision, the service of which is being provided by department employees at hospitals defined in section four hundred three of this title who are members of certified bargaining units at such hospital will be subject to the terms and conditions of any current or future collectively negotiated agreement between the state and certified employee organizations pursuant to article fourteen of the civil service law.

5. The commissioner shall submit a report to the governor, the temporary president of the senate, the speaker of the assembly and the office of the state comptroller on or before May first, two thousand two, which shall include a record of all group purchasing arrangements, including for each group purchasing arrangement: the name of the purchasing organization, overall contract amount, dollar value of purchases made by fiscal year, description of the commodities purchased, and methodology used to determine the cost effectiveness of such purchase.

§ 410. Hospitals; reimbursement. No corporation organized and operating in accordance with article forty-three of the insurance law, organization operating in accordance with the provisions of article forty-four of this chapter, commercial insurer licensed to do business in this state and authorized to write accident and health insurance or payor responsible for payments pursuant to the workers' compensation

law, the volunteer firefighters' benefit law, the volunteer ambulance workers' benefit law or the comprehensive motor vehicle insurance reparations act shall decline or refuse to make payments to a state hospital in the department as enumerated in section four hundred three of this chapter, in accordance with rates of payment established for such payor pursuant to article twenty-eight of this chapter for such hospital or hospital charges for services not covered by rates of payment, for hospital or health-related services provided to subscribers, beneficiaries, or enrolled members that would be a covered service for which such payor would make payment if provided at a voluntary non-profit hospital issued an operating certificate pursuant to section twenty-eight hundred five of this chapter, or, for a payor that provides for participating provider agreements, to enter into a participating provider agreement with such state hospital.

TITLE II

HOSPITALS: BOARDS OF VISITORS

Section 420. Boards of visitors; appointment.

421. Boards of visitors; officers; meetings.

422. Boards of visitors; compensation and expenses of members.

423. Boards of visitors; general powers and duties.

424. Boards of visitors; access to hospital; books, records and accounts.

425. Boards of visitors; reports to commissioner and governor.

§ 420. Boards of visitors; appointment. 1. (a) Subject to the provisions of this chapter, each hospital in the department shall continue to have a board of seven visitors, to be appointed by the governor by and with the advice and consent of the senate; provided however that in the case of the state institute for the study of malignant diseases one of the seven members of the board of visitors shall be the commissioner, ex-officio.

(b) At least two members of the board of visitors of the Helen Hayes hospital shall be duly licensed physicians and at least two members shall be women. This provision shall not affect the offices of the

present members; but appointments hereafter shall be so made as to comply herewith as soon as practicable.

(c) At least two of the members of the board of visitors of the state institute for the study of malignant diseases shall be residents of the city of Buffalo or vicinity and one member of the board of visitors shall be a member of the medical faculty or of the council of the University of Buffalo.

2. (a) The terms of office of the members of the boards of visitors, other than the members of the board of visitors of the state institute for the study of malignant diseases, shall be seven years, and they shall be so appointed that the term of at least one of the members of the board of visitors shall expire on the thirty-first day of December of each year.

(b) The terms of office of the members of the board of visitors of the state institute for the study of malignant diseases shall be five years and they shall be so appointed that the term of at least one of the members shall expire on the thirty-first of December of each year.

3. All vacancies on the several boards of visitors of hospitals in the department shall be filled by the governor in the same manner as original appointments, and the person appointed to fill a vacancy in the board of visitors of a hospital in the department shall hold office for the remainder of the term of the person whom he succeeds.

4. The governor may remove any member or members of a board of visitors for cause after an opportunity to be heard.

5. This section shall not affect the terms of the present members of such board.

6. Notwithstanding any inconsistent provision of this section or any other provision of law to the contrary, upon the transfer to the Roswell Park Cancer Institute corporation of the operations of the Roswell Park Cancer Institute, the board of visitors of Roswell Park Cancer Institute shall cease to operate and the terms of the current members of the board of visitors shall terminate. In the event that the operations of the

Roswell Park Cancer Institute revert to the department of health, the board of visitors shall be reconstituted and the governor shall make new appointments pursuant to this section.

§ 421. Boards of visitors; officers; meetings. 1. The board of visitors of a hospital in the department shall elect a chairman from among its members.

2. (a) The board of visitors of each hospital in the department, other than the institute for the study of malignant diseases, shall hold regular meetings at least once every three months throughout the year, and cause to be typewritten within ten days after each such meeting, the minutes and proceedings of such meeting, and cause a copy thereof, to be sent forthwith to each member of the board of visitors, to the commissioner and to the governor.

(b) The board of visitors of the state institute for the study of malignant diseases shall meet quarterly to consider the affairs of the institute and at the last quarterly meeting in a calendar year shall prepare and transmit to the commissioner, a report of the work of the institute for the twelve months preceding such meeting.

(c) The board of visitors of each hospital in the department may meet at any time on call of the chairman.

3. Members of a board of visitors who fail to attend meetings of the board at least twice in each calendar year shall be deemed to have vacated their membership in such board of visitors, whereupon the governor shall fill the vacancies so created as provided by this chapter, unless the absence of such visitors shall be excused by the governor.

§ 422. Boards of visitors; compensation and expenses of members. Members of the board of visitors of each hospital in the department shall receive no compensation, but each shall be entitled to receive his expenses actually and necessarily incurred in the performance of his duties.

§ 423. Boards of visitors; general powers and duties. 1. The board of visitors of each hospital in the department shall have the powers and duties expressly conferred or imposed on it by this chapter and such other powers and duties, not inconsistent with law as may be prescribed by rules of the commissioner.

2. Each board of visitors shall:

(a) subject to such rules and the statutory powers of the commissioner, take care of the general interest of the institution and see that its objective is carried into effect;

(b) maintain an effective inspection of the institution, for which purpose the board, or a majority of its members, shall visit and inspect the institution at least once every three months;

(c) keep in a book provided for that purpose, a fair and full record of its activities, which shall be open at all times to the inspection and examination of the governor or of any person appointed by the governor or by either house of the legislature, or to the commissioner or his authorized representatives;

(d) enter in a book, kept at the institution for that purpose, the date of each visit of each visitor;

(e) investigate, hear and ascertain the truth of all charges made against the director or other officer or employee of the institution, issue subpoenas, take and hear testimony in respect to such charges and make its recommendations thereon to the authority having the power to discharge or remove. A witness attending before such board shall be entitled to the same fees as a witness attending before a court of record or a judge thereof, which shall be paid as other institutional charges.

§ 424. Boards of visitors; access to hospital; books, records and accounts. The resident officers of each hospital in the department shall admit the members of the board of visitors of the respective hospital into every part of the hospital and its buildings, and exhibit to them on demand all the books, papers, accounts and writings belonging to the

hospital, or pertaining to its business, management, discipline or government, and furnish copies, abstracts and reports whenever required by them.

§ 425. Boards of visitors; reports to commissioner and governor. 1.

The board of visitors of each hospital in the department shall make a written report to the commissioner and to the governor within ten days after each inspection, such report to be signed by each member making the inspection. Such report shall state in detail the condition of the hospital and of its patients, and such other matters pertaining to the management and affairs thereof as in the opinion of the board of visitors should be brought to the attention of the commissioner or the governor, and may contain recommendations as to needed improvement in the hospital or in its management.

2. Each board of visitors shall make to the commissioner in January of each year a detailed report of the results of its visits and inspections, with suitable suggestions and such other matters as may be required of it by the commissioner for the year ending on the thirty-first day of December preceding the day of such report. Such report shall be prepared by a committee of the board of visitors, subject to the approval of the board.

TITLE IV

HOSPITALS: OFFICERS AND EMPLOYEES

Section 450. Directors of hospitals; qualifications and appointment.

451. Directors of hospitals; removal and suspension.

452. Directors of hospitals; general powers and duties.

453. Treasurers of hospitals; appointment.

454. Treasurers of hospitals; powers and duties.

455. Hospitals; special police officers; powers and duties.

§ 450. Directors of hospitals; qualifications and appointment. 1.

There shall be a director of each state hospital in the department, who

shall be in the competitive class of civil service, and who shall be appointed by the commissioner.

2. The director shall possess the qualifications prescribed by law, or, if no such qualifications be prescribed, such qualifications as may be prescribed in the sanitary code.

3. Before making the appointment of a director of a hospital, the commissioner shall give notice of his intended action to the members of the board of visitors, by registered mail, naming the person whom he proposes to appoint and his place of residence, and shall specify a day, not less than ten days from the mailing of the notice, before which the board of visitors may submit to the commissioner the objections of the board of visitors, if any, to such appointment; and the person named shall not be appointed before such day, except in the case of an express approval by the board of visitors.

4. Subject to removal in the manner provided by law, the director of each hospital in the department now in office is hereby continued in office.

§ 451. Directors of hospitals; removal and suspension. 1. The director of a hospital in the department may be removed by the commissioner for cause stated in writing, after an opportunity has been given the director to be heard thereon. Such action by the commissioner shall be final. The board of visitors of the hospital, however, shall be notified of any such hearing and its members be given an opportunity to be heard thereat. Pending the investigation by the commissioner or board of visitors of any charges against a director, the commissioner may suspend such director.

2. The commissioner may prefer charges of misconduct or incompetency against the director of a hospital in the department, to the board of visitors, and the board of visitors shall thereupon investigate the truth of such charges and make its recommendations thereon to the commissioner, or the commissioner or his duly authorized representative

may investigate any charges of like nature made to the commissioner. The investigating authority may subpoena witnesses, and take and hear testimony.

§ 452. Directors of hospitals; general powers and duties. 1. The director of each hospital in the department shall be the executive officer of the hospital and shall:

(a) be in immediate charge of the activities and management of the hospital, subject to the supervision and control of the commissioner;

(b) except as otherwise provided with respect to the treasurer, and subject to the approval of the commissioner, appoint and remove all members of the staff and all other employees of the hospital;

(c) annually, in the month of January, report to the commissioner of the activities of the hospital for the calendar year ending with the preceding thirty-first day of December;

(d) submit at each meeting of the board of visitors, a report showing changes in population, health of patients, officers and employees; accidents, suicides, unusual sickness, communicable diseases; important occurrences relating to the welfare of the patients and to the management and discipline of the employees, and such other matters as the board of visitors may specify; and,

(e) perform such other duties as the commissioner may require.

2. Nothing in this chapter shall prevent the adoption, by any director of a hospital in the department, of rules pertaining to duties of officers and employees of the hospital under his charge or for internal government, discipline and management of the hospital, consistent with the provisions of the civil service law, the rules promulgated pursuant thereto and the rules of the commissioner, but any rule of the director shall be subject to revocation or suspension by the commissioner.

§ 453. Treasurers of hospitals; appointment. 1. Each hospital in the department shall have a treasurer.

2. (a) The commissioner may appoint such an officer for each hospital.

(b) In the event that the commissioner fails to appoint a treasurer as provided by this section, or in the event of a vacancy occurring in the office of treasurer or pending the appointment of a treasurer, the director of the hospital shall be the treasurer.

(c) During the absence or disability of the treasurer of a hospital, the director thereof shall perform the duties of a treasurer.

§ 454. Treasurers of hospitals; powers and duties. Subject to rules and regulations of the commissioner, the treasurer of each hospital in the department shall:

(a) receive and have the custody of all moneys and securities of the hospital from whatever sources derived, except as otherwise provided by law and keep an accurate record thereof and of all obligations of the hospital;

(b) deposit in his name, as treasurer, in a bank approved by the state comptroller, all such moneys and transmit each month to the comptroller, and to the commissioner, a statement showing the amount received and deposited, from whom and for what received and when such deposits were made. Such statement of deposits shall be certified by the proper officer of the bank receiving such deposits. The treasurer shall make an affidavit to the effect that the sum so deposited is all the money received by him from any source of hospital income to the date of the last deposit appearing on such statement;

(c) pay out the money deposited for the proper uses of the hospital upon the voucher of the steward or business manager. Where the treasurer is a person other than the director, said voucher shall be countersigned by the director;

(d) keep full and accurate account of all receipts and payments in the manner and according to books and forms prescribed by the commissioner;

(e) balance all accounts on his books annually, for the preceding fiscal year, and make a statement thereof and an abstract of the receipts and payments for such year and transmit the same to the commissioner on or before the following fifteenth day of August;

(f) render an account of the state of the books and of the funds and property in his custody, whenever required by the commissioner; and,

(g) perform such other duties as the commissioner may require.

§ 455. Hospitals; special police officers; powers and duties. 1. The director of each hospital in the department may designate attendants or other employees to act as special police officers whose duty it shall be under the orders of the director to protect the grounds, buildings and patients of the hospital and to eject therefrom disorderly persons. Such attendants and employees, acting as special police officers, shall possess all the powers of peace officers, as set forth in section 2.20 of the criminal procedure law, on the grounds and premises.

2. The designation of such attendants and employees as special police officers in pursuance hereof, shall not be deemed to supersede, on the grounds and premises of such hospital, the authority of peace or police officers of the jurisdiction within which such hospital is located.

ARTICLE 4-A

REGULATION OF BODY PIERCING AND TATTOOING

Section 460. Definitions.

460-a. Restrictions on body piercing studios.

461. Permit required.

462. Application of article.

463. Denial of permit; notice of hearing.

464. Permits; display; renewal; duplicates.

465. Powers of the commissioner.

466. Judicial review.

467. Single use tattoo and body piercing equipment.

§ 460. Definitions. As used in this article, unless the context requires otherwise:

1. "Commissioner" shall mean the commissioner of health.

2. "Body piercing" shall mean the piercing of any part of the body, except the ear. Such term shall not include tongue-splitting, as defined

in section four hundred seventy of this chapter.

3. "Tattoo" shall mean a mark on the body of a person made with indelible ink or pigments injected beneath the outer layer of the skin.

4. "Body piercing specialist" shall mean any person who performs body piercing on the body of any other person.

5. "Tattooist" shall mean any person who applies a tattoo to the body of any other person.

6. "Body piercing studio" shall mean any premises in which the body piercing specialist conducts such practice.

7. "Tattoo studio" shall mean any premises in which the tattooist conducts such practice.

8. "Officer" shall mean the public official with primary responsibility for the enforcement of the state sanitary code within a county, or within a city with a population of one million or more persons. For purposes of this title an officer shall have the powers of a presiding officer under the state administrative procedure act within a county and shall have the powers of a presiding officer under the city administrative procedures act within a city with a population of one million or more persons.

9. "Department" shall mean the department of health.

10. "Approved ink handling procedure" shall mean tattoo ink storage and use procedures that are approved and deemed protective by the department.

11. "Single use needle" shall mean a needle that is sterile and that has never been used on another person.

§ 460-a. Restrictions on body piercing studios. 1. No owner, operator

or employee of a body piercing studio shall permit body piercing on a person under eighteen years of age unless such person provides the body piercing studio with the written consent, in a form prescribed by the commissioner, of a parent or legal guardian to use such body piercing studio. The parent or legal guardian shall sign such consent form in the presence of the owner of the body piercing studio or a body piercing specialist of such studio. Such original written consent shall be retained by the body piercing studio for a period of twelve months and may be retained off premises provided that an electronic image or facsimile of the original signed consent form is readily available by the owner or employee responsible for the operation of the body piercing studio.

2. A written consent form signed by a parent or legal guardian pursuant to subdivision one of this section shall expire twelve months from the date it is signed by the parent or legal guardian. Upon the expiration of a written consent form, a new written consent shall be provided in the manner prescribed in subdivision one of this section prior to the use of a body piercing studio by any person under eighteen years of age.

3. This section shall be exclusive and shall preempt any contrary local law or ordinance, except that this section shall not preempt or supersede local laws or ordinances imposing additional stricter restrictions on the operation of body piercing studios which are in effect prior to the effective date of this section.

§ 461. Permit required. 1. No person shall be a body piercing specialist or tattooist and no person, firm, corporation, partnership, or other association shall operate a body piercing studio or tattoo studio without first obtaining a permit from the department.

2. All body piercing or tattooing shall be performed in accordance with the rules and regulations promulgated by the commissioner pursuant to the public health law.

3. The department shall issue a permit if the body piercing specialist and body piercing studio or tattooist and tattoo studio are in compliance with this article, the penal law and the state sanitary code and are not otherwise disqualified under this article.

§ 462. Application of article. 1. This article shall not apply to or affect a physician duly licensed under article one hundred thirty-one of the education law or x-ray technicians.

2. This article shall not apply to, affect, or restrict the ability of a city, town, village, or county to enact a local law or ordinance prohibiting or restricting body piercing or tattooing within such city, town, village or county.

3. Nothing contained in this article shall be construed to limit the duty or power of an officer to act with regard to an immediate threat to the health of the customers of a body piercing specialist or tattooist or body piercing studio or tattoo studio or the community in which it is located, or to alter or abridge any of the duties and powers now or hereafter existing in the commissioner, state district health officers, county boards of health, county commissioners of health or local boards of health.

§ 463. Denial of permit; notice of hearing. The department shall, before making a final determination to deny an application for a permit, notify the applicant in writing of the reasons for such proposed denial and shall afford the applicant an opportunity to be heard in person or by counsel prior to denial of the application. Such notification shall be served personally or by certified mail or in any manner authorized by the civil practice law and rules for service of a summons. If a hearing is requested, such hearing shall be held at such time and place as the department shall prescribe. If the applicant fails to make a written request for a hearing within thirty days after receipt of such notification, then the notification of denial shall become the final determination of the department. The department, acting by such officer

as the commissioner may designate, shall have the power to subpoena and bring before the officer any person in this state, and administer an oath to and take testimony of any person or cause his deposition to be taken. A subpoena issued under this section shall be regulated by the civil practice law and rules. If, after such hearing, the application is denied, written notice of such denial shall be served upon the applicant personally or by certified mail or in any manner authorized by the civil practice law and rules for the service of a summons.

§ 464. Permits; display; renewal; duplicates. 1. All permits shall be for a period of two years.

2. No permit shall be assignable or transferable.

3. Each permit issued pursuant to this article shall be posted and kept posted in some conspicuous place in the body piercing studio or tattoo studio in which the permittee is engaged in the practice of body piercing or tattooing.

4. Any permit which has not been suspended or revoked, may, upon the payment of the renewal fee prescribed by the commissioner, be renewed for additional periods of two years from its expiration, upon the filing on any application for such renewal, on a form to be prescribed by the commissioner.

5. Any person, firm, corporation, partnership or other association failing to file application and fee for renewal of a permit within one year immediately following the expiration of his last permit shall pay an additional fee as prescribed by the commissioner.

6. A duplicate permit may be issued for one lost, destroyed or mutilated upon application therefor on a form prescribed by the commissioner and the payment of the fee prescribed therefor by the commissioner. Each such duplicate permit shall have the word "duplicate" stamped across the face thereof and shall bear the same number as the one it replaces.

§ 465. Powers of the commissioner. In addition to the powers and duties elsewhere prescribed in this article, the commissioner shall have power to:

1. Appoint one or more officers as shall be necessary to do or perform in the department's place or stead the acts authorized by this article;
2. Examine the qualifications and fitness of applicants for permits;
3. Keep records of all permits issued, suspended or revoked, or orders directing the cessation of unpermitted activities; and
4. Prepare a manual of rules and regulations for the conduct of examinations and to furnish copies thereof to persons desiring the same upon payment of a reasonable fee therefor.
5. Establish an appropriate fee structure for licenses, permits, renewals and duplicates, and set levels of punishments for failure to abide by this article.

§ 466. Judicial review. The action of the commissioner in suspending, revoking or refusing to issue or renew a permit or imposing any fine or reprimand upon the holder thereof may be reviewed by a proceeding brought under and pursuant to article seventy-eight of the civil practice law and rules.

§ 467. Single use tattoo and body piercing equipment.

1. All tattoo studios and body piercing studios shall use only single use needles and approved ink handling procedures in all tattoo and body piercing procedures performed in such establishments.
2. Prior to a person receiving a tattoo or body piercing from a

licensed tattooist or body piercing specialist, such person and licensed tattooist or body piercing specialist must sign a form confirming that the tattooist or body piercing specialist:

(a) Presented all single use needles in a sterile and sealed package, that are to be used during the tattoo or body piercing procedure, to the person receiving such tattoo or body piercing, and explained that only approved ink handling procedures would be used; and

(b) Opened all single use needles that are to be used during the tattoo or body piercing procedure in the presence of the person receiving such tattoo or body piercing.

3. A copy of the confirmation form shall be given to the person receiving a tattoo or body piercing. The tattoo studio or body piercing studio shall retain a copy of such confirmation form for a period not less than seven years.

4. The commissioner shall make regulations under this section.

ARTICLE 4-B **TONGUE-SPLITTING**

Section 470. Prohibition of tongue-splitting.

§ 470. Prohibition of tongue-splitting. 1. For the purposes of this section, "tongue-splitting" shall mean the cutting of a person's tongue into two or more parts.

2. No person shall perform a tongue-splitting on another person, unless the person performing such tongue-splitting is licensed to practice medicine pursuant to article one hundred thirty-one of the education law or licensed to practice dentistry pursuant to article one hundred thirty-three of the education law.

3. A violation of subdivision two of this section shall constitute a class A misdemeanor; provided, however, that a second or subsequent violation of such subdivision committed within five years of the date of

conviction for a prior offense shall constitute a class E felony.

ARTICLE 5

LABORATORIES

- Title I. General provisions: state laboratories; approved laboratories (§§ 500-506).
II. County laboratories (§§ 520-528).
III. City laboratories (§§ 540-545).
IV. Laboratory supply stations (§§ 560-563).
V. Clinical laboratory and blood banking services (§§ 570-581).
VI. Laboratory business practices (§§ 585-588).

TITLE I

GENERAL PROVISIONS: STATE LABORATORIES; APPROVED LABORATORIES

- Section 500. Wadsworth center for laboratories and research; establishment.
501. State laboratories; approved laboratories; powers and duties of commissioner.
502. Environmental laboratories; examinations; certificates of approval.
503. Laboratories; state hospitals; service to counties and municipalities.
504. Laboratories; scientific tests on living animals; rules; approval.
505. Animal irritancy tests prohibited.
505-a. Purchase of certain animals for scientific tests.
506. Unlawful interference with research laboratory operations.

§ 500. Wadsworth center for laboratories and research; establishment.

1. The commissioner shall establish and maintain one or more laboratories with such expert assistants and such facilities as are necessary for routine examinations and analyses, and for original investigations and research in matters affecting public health. The

laboratories shall be known as the Wadsworth center for laboratories and research.

2. The commissioner shall create within the Wadsworth center for laboratories and research a master of science degree program in the field of laboratory science, subject to approval of the board of regents and registration with the department of education.

§ 501. State laboratories; approved laboratories; powers and duties of commissioner. 1. The commissioner shall have authority:

(a) to make, at the expense of the state, examinations and analyses, at the request of any health officer or of any physician in accordance with the provisions of this article;

(b) to enter into contracts with laboratories in localities accessible to the various portions of the state for the prompt examination of specimens received from local health officers or physicians and for the immediate report thereon, at the expense of the state; provided that all such laboratories shall conform to the standards of efficiency established by the public health council, and that no obligation shall be incurred by the commissioner in excess of the sums available therefor.

§ 502. Environmental laboratories; examinations; certificates of approval. 1. For the purposes of this section, "environmental laboratory" is any facility that examines or is available for the examination of samples or specimens including, but not limited to: air, stack emissions, water, wastewater, surface water, ground water, recreational waters, swimming pools, leachate, land runoff, solid waste, hazardous waste, soil, sediments and vegetation, as well as any substance that could contribute to the pollution of or that could be contaminated by material contained in such samples or specimens. Such examinations shall be limited to the qualitative or quantitative determinations of the biological, chemical, radiochemical or physical characteristics of such samples or specimens for the purposes of public or personal health protection or the protection of the environment or

natural resources. Environmental laboratories shall not include non-laboratory chemical testing associated with residential water softeners and residential swimming pools.

2. No environmental laboratory may perform any examination on samples collected in the state of New York for which the commissioner issues a certificate of approval for such examination unless the laboratory has been issued such certificate of approval. Such laboratory examinations shall conform to any conditions under which the approval is granted.

3. The commissioner may issue to laboratories certificates of approval covering laboratory examinations, including but not limited to, specific procedures or specialties within such categories as wastewaters, potable waters, sediments, solid wastes, and air, and may prescribe the conditions under which such approvals will be granted. Notwithstanding any other conditions which he may prescribe, such an approval shall not be issued hereafter to a laboratory, not heretofore approved, unless the director or other person in charge of such examinations shall possess such educational and technical qualifications as the commissioner shall prescribe.

4. No state agency, authority, county, city, including the city of New York, town, village, water district, sewer district or other political subdivision of the state shall contract with any laboratory for laboratory examinations for which the commissioner issues certificates of approval pursuant to subdivision three of this section, unless such laboratory has been issued such certificate.

5. Subject to the approval of the director of the budget, the commissioner shall charge adequate and reasonable fees for the periodic inspection of out-of-state laboratories.

6. Subject to the approval of the director of the budget, the commissioner shall charge laboratories fees to recover the cost to the department of operating this program. The commissioner may waive all or any part of such fee charges for laboratories operated by the state. Fees shall include the following:

(a) a basic amount of five hundred dollars to be charged to each laboratory;

(b) the balance of the program cost from:

(1) an additional amount to be charged to each laboratory proportional to total adjusted volume of analytes performed by the laboratory in the preceding year as defined in regulations of the department, the total amount collected from which shall equal fifty percent of the balance of the program costs;

(2) an additional amount to be charged to each laboratory proportional to the number of analytes for which such laboratory maintains its certification.

Subparagraph one of paragraph (b) of this subdivision shall not apply to government laboratories.

7. For those categories, procedures or specialties as specified in subdivision three for which the commissioner has issued certificates of approval, the commissioner shall within thirty days of receipt of an application for a certificate from a laboratory existing on or before April first, nineteen hundred ninety-three, which is initially required to obtain certification, review such application and issue an interim certificate of approval in the particular category, procedure or speciality to all laboratories which provide adequate documentation in their application that they are capable of performing quality work in the category, procedure or speciality under review. An interim certificate of approval in specified categories will remain valid until such time as the commissioner shall reach a determination on the application.

8. The commissioner may adopt and amend rules and regulations to effectuate the provisions and purposes of this title.

9. A person who intentionally violates or refuses or omits to comply with subdivision two of this section, or any regulation adopted pursuant thereto, is guilty of a misdemeanor, punishable upon conviction, by imprisonment for not more than one year or by a fine of not more than one thousand dollars or by both such fine and imprisonment. A second or

subsequent conviction shall be punishable by imprisonment for not more than one year or a fine of not more than two thousand five hundred dollars or by both such fine and imprisonment.

10. The department may require an environmental laboratory to report laboratory test results to the department, or to any other health department in an electronic manner prescribed by the department.

§ 503. Laboratories; state hospitals; service to counties and municipalities. 1. The director of any hospital in the department, with the approval of the commissioner, may enter into a contract with proper municipal or county officials under which the laboratory service of the hospital may be made available to municipalities or counties or parts thereof when in his judgment such a contract shall be in the interest of public health and not prejudicial to the interest or work of the institution.

2. The treasurer of the hospital, or the director thereof, if there is no treasurer, shall receive all moneys paid in consideration of such contract and pay the same into the general fund of the state.

§ 504. Laboratories; scientific tests on living animals; rules; approval. 1. The commissioner is authorized to designate approved laboratories or institutions wherein properly conducted scientific tests, experiments or investigations, involving the use of living animals, may be performed or conducted.

2. (a) The commissioner shall promulgate rules under which such approvals shall be granted, and shall cause such rules to be published, and copies thereof shall be conspicuously posted in each such laboratory or institution.

(b) Such rules of the commissioner shall include requirements that all animals shall be kindly and humanely treated, properly fed and suitably housed, and that commensurate with experimental needs and with the physiologic function under study, all tests, experiments and

investigations involving pain shall be performed under adequate anesthesia.

3. The commissioner or his duly authorized representative shall inspect such laboratories or institutions to insure compliance with the rules and standards promulgated by him.

4. (a) The approval of a laboratory or institution by the commissioner for the purposes herein set forth shall be limited to a period not exceeding one year but may be renewed from year to year upon proper application to the commissioner.

(b) Each such approval may be revoked at any time for failure to comply with the rules promulgated by the commissioner.

5. The performance of animal experimentation without approval by the commissioner as herein provided shall constitute a misdemeanor.

§ 505. Animal irritancy tests prohibited. 1. No manufacturer or contract testing facilities shall conduct traditional animal test methods within this state for which an appropriate alternative test method has been scientifically validated and recommended by the Inter-Agency Coordinating Committee for the Validation of Alternative Methods (ICCVAM) and adopted by the regulation by the relevant federal agency or agencies or program within an agency responsible for regulating the specific product or activity for which the test is being conducted.

2. Nothing in this section shall prohibit the conduct of any alternative nonanimal test method for the testing of any product, product formulation, chemical, or ingredient that is not recommended by ICCVAM.

3. Nothing in this section shall prohibit the conduct of animal tests to comply with the requirements of state agencies. Nothing in this section shall prohibit the conduct of animal tests to comply with the requirements of federal agencies whenever the federal agency staff

concludes that the alternative nonanimal test does not assure the health or safety of consumers.

4. Notwithstanding any other provision of law, the exclusive remedy for enforcing this section shall be a civil action for injunctive relief brought by the attorney general. If the court determines that the attorney general is the prevailing party in the enforcement action, such prevailing party may also recover costs, attorneys fees and a civil penalty not to exceed one thousand dollars in that action.

5. This section shall not apply to any animal test conducted for the purpose of medical research.

6. For the purposes of this section, the following terms shall have the following meanings:

(a) "Animal" means a vertebrate nonhuman animal.

(b) "Contract testing facility" means any individual, partnership, corporation, association, or other legal relationship that tests chemicals, ingredients, product formulations, or products in this state.

(c) "ICCVAM" means the Inter-Agency Coordinating Committee for the Validation of Alternative Methods, a federal committee comprised of representatives from fourteen federal regulatory or research agencies, including the Food and Drug Administration, Environmental Protection Agency, and Consumer Products Safety Commission, that reviews the validity of alternative test methods. The committee is the federal mechanism for recommending appropriate, valid test methods to relevant federal agencies.

(d) "Manufacturer" means any individual, partnership, corporation, association, or other legal relationship that produces chemicals, ingredients, product formulations, or products in this state.

(e) "Medical research" means research related to the causes, diagnosis, treatment, control or prevention of physical or mental diseases and impairments of humans and animals, or related to the development of biomedical products, devices or drugs as defined in Section 321(g)(1) of Title 21 of the United States Code. Medical research does not include the testing of an ingredient that was formerly used in a drug, tested for the drug use with traditional animal methods

to characterize the ingredient and to substantiate its safety for human use, and is now proposed for use in a product other than a biomedical product, medical device or drug.

(f) "Person" means any individual, partnership, corporation, association or other legal entity.

(g) "Traditional animal test method" means a process or procedure using animals to obtain information on the characteristics of a chemical or agent. Toxicological test methods generate information regarding the ability of a chemical or agent to product a specific biological effect under specified conditions.

(h) "Validated alternative test method" means a test method that does not use animals, or in some cases reduces or refines the current use of animals for which the reliability and relevance for a specific purpose has been established in validation studies as specified in the ICCVAM report provided to the relevant federal agencies.

§ 505-a. Purchase of certain animals for scientific tests. It shall be unlawful for any laboratory or institution approved under this article, to purchase any dog or cat for experimental purposes unless the seller thereof shall provide proof of ownership of the animal of a sufficiency prescribed by the commissioner. Every such laboratory or institution shall keep a record of each such purchase with the name and address of the seller and a copy of the proof of ownership given at the time of the transaction.

§ 506. Unlawful interference with research laboratory operations. An agency as defined in subdivision three of section eighty-six of the public officers law may deny access to records or portions thereof concerning biomedical research or biomedical teaching conducted at an institution of higher education authorized by the state education department or at an institution within the state that receives state or federal funding to conduct such biomedical research or such biomedical teaching that, if disclosed, could endanger the life or safety of any person or would be reasonably likely to endanger the security of such biomedical research laboratory.

TITLE II

COUNTY LABORATORIES

Section 520. County laboratories; establishment; charges.

521. County laboratories; establishment by referendum.

522. County laboratories; boards of supervisors; powers and duties.

523. County laboratories; boards of managers; appointment; term.

524. County laboratories; boards of managers; officers; meetings; compensation and expenses.

525. County laboratories; boards of managers; powers and duties.

526. County laboratories; annual reports.

527. County laboratories; director; powers and duties.

528. County laboratories; bills and accounts; payment.

§ 520. County laboratories; establishment; charges. 1. The board of supervisors of any county may establish therein a laboratory or laboratories which shall serve the whole or part of the county.

2. In the resolution of the board of supervisors establishing such laboratory it shall define the area which it is intended to serve, which area from time to time may by resolution be altered; provided, however, that in defining such area the territory included in a town shall not be divided and provided further, that no city or any part thereof shall be included in the area so defined unless the mayor and the common council, or the officials exercising similar powers, shall have consented thereto.

3. The services of such laboratories shall be rendered at an adequate and reasonable charge, except that, with the approval of the commissioner, one or more services may be rendered without any charge.

4. The board of supervisors may, in lieu of the establishment of a laboratory and with the approval of the commissioner, provide for laboratory service by contracting with an established laboratory which

is conveniently located.

§ 521. County laboratories; establishment by referendum. 1. Upon the petition signed by two hundred or more taxpayers of the county or district to be served by such a laboratory, the governing body of that county or district at the next date for filling an elective office shall hold a referendum upon the question of establishing a laboratory the construction of which is to be financed by taxes levied for the fiscal year in which the expenditures therefor are to be made. If a majority of the votes cast are in favor of establishing such a laboratory it shall be mandatory upon the governing body of that county or district to take the steps necessary for the establishment and maintenance of such a laboratory as provided for by this chapter.

2. Nothing contained in sections five hundred to five hundred twenty-one, inclusive, of this chapter shall be construed to prevent the financing of any expenditure, in whole or in part, pursuant to the local finance law.

§ 522. County laboratories; boards of supervisors; powers and duties.

1. The board of supervisors, when it shall have determined to establish a county laboratory, shall have the power:

(a) to acquire by purchase, exchange or otherwise, necessary real property, building or rooms or to erect necessary buildings;

(b) to cause to be assessed, levied and collected in the same manner as other charges against the county, such sums of money as it shall deem necessary for laboratory purposes; provided, however, that where a laboratory is intended to serve less than a whole county the expenditures made in connection therewith shall be assessed only against the area served by the laboratory; and

(c) to accept and hold in trust for the county any grant or devise of land or any gift or bequest of money or other personal property or any donation to be applied, principal or income, or both, for the benefit of said laboratory.

2. Nothing in this article shall be construed to repeal or amend any provision of law not inconsistent herewith relating to laboratories in counties or to abrogate any powers of boards of supervisors relating thereto.

§ 523. County laboratories; boards of managers; appointment; term. 1. The board of supervisors of a county establishing a laboratory pursuant to this article shall appoint a board of managers for the laboratory which shall consist of at least five members, two of whom shall be physicians duly licensed to practice in the state of New York.

2. The county medical society may present to the board of supervisors a list of physicians residing in the county from which the board may choose the medical members of the board of managers.

3. In counties having a county board of health and a county health commissioner, the president of the county board of health and the county health commissioner shall be members of the board of managers ex-officio.

4. The members of the board of managers, with the exception of the members ex-officio, shall first be appointed, so that the term of one member shall expire within one year from the first day of January of the year in which he shall have been appointed, the term of another member shall expire within two years of the first day of January of the year in which he shall have been appointed, the term of another member shall expire within three years of the first day of January of the year in which he shall have been appointed, the term of another member shall expire within four years of the first day of January of the year in which he shall have been appointed, and the term of another member shall expire within five years of the first day of January of the year in which he shall have been appointed. Thereafter the terms of membership shall be made for five years from the first day of January of the year in which the appointment is made.

5. In any county in which a county health district has been or is

hereafter established, the boundaries of which are coterminous with the county, the board of supervisors shall have power to abolish the board of managers of the county laboratory, and confer all the powers and duties of such board of managers upon the county board of health.

6. The members of boards of managers in existence at the time when this chapter takes effect shall continue in office until their respective terms have expired and their respective successors are appointed and have qualified.

7. (a) The county laboratory board of managers in any county wherein an alternative form of government shall have established a county health district coterminous with the county is hereby abolished and the laboratory transferred and reestablished as a division of the county health department.

(b) The county may thereafter apply for state aid for such laboratory and shall be entitled to such state aid as would be provided under this section if the amount expended for maintenance and operation of such laboratory were expended for maintenance and operation of a laboratory established in accordance with other provisions of this chapter.

§ 524. County laboratories; boards of managers; officers; meetings; compensation and expenses. 1. Except in counties wherein the laboratory functions as a division of the county health department or wherein the board of managers has been abolished, the board of managers of each laboratory shall elect a chairman, vice chairman and a secretary.

2. The board of managers of each laboratory shall hold a meeting at least four times in each year, and at such other times as it may deem necessary.

3. Each member of the board of managers attending meetings of such board shall receive his actual and necessary expenses incident thereto, to be audited and paid in the same manner as other expenses of the laboratory.

4. Nothing contained in this section shall be construed to effect any change in the administration and organization of a county board of health which shall be vested with the powers and duties of a board of managers pursuant to subdivision five of section five hundred twenty-three of this chapter.

§ 525. County laboratories; boards of managers; powers and duties. The board of managers of each laboratory, or the county board of health in any county wherein an alternative form of government shall have established a county health district coterminous with the county, subject to the provisions of the county government law of such county, or a county board of health which has been vested with the powers and duties of a board of managers pursuant to subdivision five of section five hundred twenty-three of this chapter, shall have the following powers and duties:

(a) to appoint a director or other person in charge of the laboratory who shall have such qualifications as may be prescribed by the public health council;

(b) to exercise general management and control of the laboratory, of the grounds, buildings, rooms, employees and of all other matters relating to the government, discipline, contracts and fiscal concerns thereof;

(c) to make such rules and regulations as may be necessary in relation to the administration of the laboratory and the fees to be charged for laboratory service, not inconsistent with the provisions of this chapter;

(d) notwithstanding any other general or special law, to cause to be erected all additional buildings found necessary after the laboratory has been placed in operation and to cause to be made all necessary improvements and repairs within the limits of the appropriations made therefor; and,

(e) to establish branch laboratories if the area to be served by the laboratory is so large, if its topography is such as to make access to the laboratory difficult, or if for any other reason such action seems reasonable or desirable.

(f) to enter into an agreement annually with the governing board of

any charitable corporation or municipality operating and maintaining a hospital to provide that the hospital collect fees for laboratory services for the patients in such hospital in the same manner that hospital charges are collected, and forward them to the laboratory, and to provide that the cost of collecting such fees to be paid by the county to the hospital in an amount mutually acceptable and in lieu of actual and necessary expenses. No agreement shall become effective unless and until approved by the commissioner and by resolution of the board of supervisors.

§ 526. County laboratories; annual reports. 1. Except in counties wherein the laboratory has been transferred and established as a division of the county health department, the board of managers of each laboratory, or the county board of health which has been vested with the powers and duties of a board of managers pursuant to subdivision five of section five hundred twenty-three of this chapter, shall make to the board of supervisors annually at such time as said supervisors shall direct a detailed report of the operation of the laboratory during the calendar year, including among other things, the number and kind of specimens examined and the results of such examinations, together with suitable recommendations and such other matters as may be required of them.

2. In counties wherein the laboratory has been transferred and established as a division of the county health department pursuant to law the county board of health shall make to the county executive annually such report at such time as said county executive shall direct a detailed report of the operation of the laboratory during the calendar year, including among other things, the number and kind of specimens examined and the results of such examinations.

§ 527. County laboratories; director; powers and duties. 1. Except as provided in subdivision two of this section, the director or other person in charge of each county laboratory, subject to the approval of the board of managers, shall:

(a) equip the laboratory with all necessary furniture, appliances, fixtures and other needed facilities for the conduct of laboratory work and purchase all necessary supplies within the appropriations made therefor;

(b) have general supervision and control of the internal affairs and work of the laboratory;

(c) make and enforce such rules, regulations and orders as he may deem necessary, not inconsistent with law or with the rules and regulations of the board of managers, or of the county board of health, whichever is the governing authority;

(d) unless otherwise provided by law appoint employees of the laboratory within the limits of his appropriations, and remove them;

(e) cause to be kept proper accounts and records of the business and operation of the laboratory, including such records relating to specimens examined and render such reports as may be required by law or by the regulations of the commissioner.

2. The director or other person in charge of each county laboratory in any county wherein an alternative form of government shall have established a county health district coterminous with the county and in which the laboratory has been transferred and reestablished as a division of the county health department, subject to the approval of the county board of health and the provisions of the county government law of such county, shall:

(a) have general supervision and control of the internal affairs and work of the laboratory;

(b) make and enforce such rules, regulations and orders as he may deem necessary, not inconsistent with law or with the rules and regulations of the board of health;

(c) recommend to the board of health appointment of employees for the laboratory and the acquisition of equipment, furniture, appliances, fixtures and other needed facilities for the conduct of the work of the laboratory;

(d) cause to be kept proper accounts and records of the business and operation of the laboratory, including such records relating to specimens examined and render such reports as may be required by law or by the regulations of the commissioner.

§ 528. County laboratories; bills and accounts; payment. 1. Unless otherwise provided by law, the director or other person in charge of each laboratory shall certify all bills and accounts including salaries and wages, and transmit them to the board of supervisors of the county which shall provide for their payment in the same manner as other charges against the county.

2. The board of supervisors of a county not having a purchasing agent may make an appropriation for the maintenance of such laboratory and direct the county treasurer to pay all bills, accounts, salaries and wages which are approved by the director of the laboratory within the amount of such appropriation, subject to such regulations as to the payment and audit thereof as the board of supervisors may deem proper.

TITLE III

CITY LABORATORIES

Section 540. City laboratories; continuation and establishment.

541. City laboratories; operation and control.

542. City laboratories; boards of managers; appointment.

543. City laboratories; board of managers; power to enter into agreements with hospitals.

545. City of New York; exceptions.

§ 540. City laboratories; continuation and establishment. 1. (a) Nothing contained in sections five hundred twenty-five to five hundred twenty-eight, inclusive, of this chapter, shall be construed to repeal or amend any provision of law under which any health function or activity may be carried on in any city, or to transfer or affect any authority in relation to health activities now being exercised in any city by any public board or officer.

(b) Any public board or officer of a city now exercising health functions may, with the approval of the mayor, contract with the board of managers or other governing authority of any laboratory for the

purpose of cooperation and to join and share facilities.

2. If it is the intention of the common council or similar authority of a city to apply for state aid for a proposed laboratory, under the provisions of section six hundred twenty to six hundred twenty-three, inclusive, of this chapter, the common council or similar authority with the approval of the board of estimate, if such exists, shall have the power to establish a laboratory in such city.

§ 541. City laboratories; operation and control. 1. Upon the establishment or continuation of a laboratory by a city as provided in section five hundred forty of this chapter, all the powers and duties of the board of supervisors of a county in relation to laboratories provided in sections five hundred twenty and five hundred twenty-two of this chapter, shall devolve upon the common council or other authority exercising similar powers of such city.

2. The salaries of the director and other employees of the laboratory, and contracts to be made for, by or on behalf of the laboratory and appropriations for the acquisition of sites and buildings and for maintenance, shall all be under the control of the same officials as now have control of similar items and shall be governed by the same provisions of law.

§ 542. City laboratories; boards of managers; appointment. 1. (a) The mayor of any city establishing a laboratory in accordance with the provisions of this article shall appoint the board of managers of such laboratory which board shall consist of at least five members, two of them shall be physicians duly licensed to practice in the state of New York. The county medical society may present to the mayor a list of names of physicians residing in the city from which he may choose the medical members of the board of managers.

(d) The president of the local board of health, if such office exists, and the local commissioner of health or health officer shall be ex-officio members of the board of managers of the laboratory.

2. In cities when more than one laboratory is established, only one board of managers shall be appointed, which shall have jurisdiction over all the laboratories established or operating under sections five hundred forty to five hundred forty-three inclusive, of this chapter, in said city.

§ 543. City laboratories; board of managers; power to enter into agreements with hospitals. The board of managers of a city laboratory shall have the power to enter into an agreement annually with the governing board of any charitable corporation or municipality operating and maintaining a hospital to provide that the hospital collect fees for laboratory services for the patients in such hospital in the same manner that hospital charges are collected, and forward them to the laboratory, and to provide that the cost of collecting such fees be paid by the city to the hospital in an amount mutually acceptable and in lieu of actual and necessary expenses. No agreement shall become effective unless and until approved by the commissioner and by resolution of the common council or other body exercising similar powers.

§ 545. City of New York; exceptions. Unless otherwise expressly provided, the provisions of sections five hundred forty to five hundred forty-four of this chapter, inclusive, shall not apply to the city of New York.

TITLE IV

LABORATORY SUPPLY STATIONS

Section 560. Laboratory supply stations; districts; establishment.

561. Laboratory supply stations; custodian; appointment.

562. Laboratory supply stations; expenses.

563. Laboratory supply stations; control; inspection;
discontinuance.

§ 560. Laboratory supply stations; districts; establishment. 1. The commissioner or his authorized representative may establish district laboratory supply stations, for the distribution of laboratory supplies furnished by the department.

2. The commissioner may designate districts to be served by such district laboratory supply stations, each such district to include one or more municipalities provided, however, that no such district shall include the whole or part of more than one county.

§ 561. Laboratory supply stations; custodian; appointment. The commissioner may appoint the health officer of any municipality or county, the director or person in charge of any public health laboratory, or other competent person, to serve as the custodian of the district laboratory supply station.

§ 562. Laboratory supply stations; expenses. The actual and necessary expenses of operation and maintenance of the district laboratory supply station and sub-stations shall be paid in the manner prescribed for the payment of other bills of the municipality or county. All such sums shall be a charge upon the municipality, when a single municipality is included in a district, and, upon the county when more than one municipality is included, to be paid from amounts appropriated by the municipality or county for laboratory services or general public health purposes.

§ 563. Laboratory supply stations; control; inspection; discontinuance. 1. Each district laboratory supply station and the sub-stations thereof shall be maintained and operated in accordance with the rules and regulations of the department and shall be subject at all times to inspection by authorized representatives of the commissioner.

2. The commissioner may at any time discontinue any district laboratory supply station or sub-station or rescind any appointment

previously made under this chapter.

TITLE V

CLINICAL LABORATORY AND BLOOD BANKING SERVICES

- Section 570. Declaration of policy and statement of purpose.
571. Definitions.
572. Certificates of qualification.
573. Issuance of certificates of qualification.
574. Permits.
575. Issuance of permits.
- 575-a. Source plasma donation centers.
576. Duties and powers of the department.
- 576-a. Clinical laboratories and cytotechnologists examining Pap smears.
- 576-b. Performance of certain clinical laboratory services upon request.
- 576-c. Electronic reporting of disease and specimen submission.
577. Enforcement.
578. Penalties.
579. Scope and exceptions.
580. Construction.
581. Separability.

§ 570. Declaration of policy and statement of purpose. The proper performance of clinical laboratory and blood banking services is a matter of vital concern, affecting the public health, safety and welfare. Clinical laboratories and blood banks provide essential public health services in aiding the health care provider by furnishing information invaluable to the diagnosis and treatment of disease. The improper performance of a laboratory procedure may induce an erroneous diagnosis or contribute to the selection of an inappropriate method of treatment, resulting in prolonged or unnecessary hospitalization, injury or even death. The protection of the people of this state requires affirmative action to insure that the performance of clinical laboratory and blood banking services meet high standards of public health care.

It is the purpose of this title to promote the public health, safety and welfare by requiring the licensure of clinical laboratories and blood banks, by establishing minimum qualifications for directors, and by requiring that the performance of all procedures employed by clinical laboratories and blood banks meet minimum standards accepted and approved by the department.

§ 571. Definitions. As used in this title:

1. "Clinical laboratory" means a facility for the microbiological, immunological, chemical, hematological, biophysical, cytological, pathological, genetic, or other examination of materials derived from the human body, for the purpose of obtaining information for the diagnosis, prevention, or treatment of disease or the assessment of a health condition or for identification purposes. Such examinations shall include procedures to determine, measure or otherwise describe the presence or absence of various substances, components or organisms in the human body. The term clinical laboratory shall not include any facility or activity specifically excluded by section five hundred seventy-nine of this title.

2. "Blood bank" means a facility for the collection, processing, storage and/or distribution of human blood, blood components or blood derivatives, but shall not mean a source plasma donation center.

2-a. "Source plasma donation center" means a facility where source plasma is collected by plasmapheresis. "Source plasma" means the fluid portion of human blood collected by plasmapheresis and intended as source material for plasma protein therapies. "Source plasma donation center" shall not include single donor plasma products intended for intravenous use.

2-b. "Plasmapheresis" means a procedure by which, during a single visit to the facility, blood is removed from an individual, the source plasma separated from the formed elements, and at least the red blood

cells are returned to the donor.

3. "Reference system" means a system of assessment of methods, procedures and materials of clinical laboratories and blood banks, including, but not limited to, ongoing validation which may include direct testing and experimentation by the department of such methods, procedures and materials, the distribution of standards and guidelines, inspection of facilities, periodic submission of test specimens for examination, and research conducted by the department that involves the study of new or existing methods, procedures and materials related to the quality of clinical laboratory medicine.

4. "Director" means the person who is responsible for administration of the technical and scientific operation of a clinical laboratory or blood bank, including supervision of procedures and reporting of findings of tests.

5. "Waived test" means a clinical laboratory test that has been designated as a waived test or is otherwise subject to certificate of waiver requirements pursuant to the federal clinical laboratory improvement act of nineteen hundred eighty-eight, as amended.

* 6. "Qualified health care professional" means a physician, dentist, podiatrist, optometrist performing a clinical laboratory test that does not use an invasive modality as defined in section seventy-one hundred one of the education law, pharmacist administering COVID-19 and influenza tests pursuant to subdivision seven of section sixty-eight hundred one of the education law, physician assistant, specialist assistant, nurse practitioner, or midwife, who is licensed and registered with the state education department.

* NB Effective until July 1, 2030

* 6. "Qualified health care professional" means a physician, dentist, podiatrist, optometrist performing a clinical laboratory test that does not use an invasive modality as defined in section seventy-one hundred one of the education law, physician assistant, specialist assistant, nurse practitioner, or midwife, who is licensed and registered with the state education department.

* NB Effective July 1, 2030

7. "Provider-performed microscopy procedure" means a procedure performed by a qualified health care professional acting within the scope of his or her licensed profession, which has been designated as a provider-performed microscopy procedure pursuant to the federal clinical laboratory improvement act of nineteen hundred eighty-eight, as amended.

8. "Laboratory test registrant" means a person, partnership, corporation, or other entity holding a valid certificate of registration to perform one or more waived tests or provider-performed microscopy procedures pursuant to section five hundred seventy-nine of this title.

§ 572. Certificates of qualification. No person shall act as a director in a clinical laboratory located in or accepting specimens from New York state or in a blood bank located in or collecting, processing, storing or distributing blood products in New York state unless a valid certificate of qualification has been issued as provided in section five hundred seventy-three of this title.

§ 573. Issuance of certificates of qualification. 1. The department shall issue a certificate of qualification to any person who meets minimum qualifications, prescribed by the department and in accordance with federal regulations, including board certification as required, and who otherwise demonstrates to the department that such person possesses the character, competence, training and ability to administer properly the technical and scientific operation of a clinical laboratory or blood bank, including supervision of procedures and reporting of findings of tests.

2. Application for a certificate of qualification shall be made on forms provided by the department and such other information as the department may require.

3. The certificate shall be valid for a period of two years from the date of issuance and may be renewed for successive two-year periods

thereafter. The original application and each renewal application shall be accompanied by a registration fee of one hundred fifty dollars.

4. Notwithstanding the provisions of this section, the commissioner may issue a temporary certificate of qualification to any person pending the issuance of a certificate as provided in this section. A temporary certificate shall be valid for a period of thirty days from the date of its issuance and may be renewed for a maximum of four successive periods of thirty days.

§ 574. Permits. No person shall own or operate a clinical laboratory located in or accepting specimens from New York state or own or operate a blood bank which collects, processes, stores and/or distributes, human blood, blood derivatives or blood components, in New York state unless a valid permit has been issued as provided in section five hundred seventy-five of this title. A permit shall be issued authorizing the performance of one or more procedures or services within one or more categories. A separate permit shall be required for each facility at which clinical laboratory tests are to be performed or at which a blood bank is to be operated, provided, however that the department may adopt regulations not inconsistent with the federal clinical laboratory improvement act of nineteen hundred eighty-eight authorizing an owner to operate more than one facility under a single permit.

§ 575. Issuance of permits. 1. Application for a permit shall be made by the owner and the director of the clinical laboratory or blood bank in a manner and format prescribed by the department. The application shall contain the name of the owner, the name of the director, the procedures or categories of procedures or services for which the permit is sought, the location or locations and physical description of the facility or location or locations at which tests are to be performed or at which a blood bank is to be operated, and such other information as the department may require.

2. A permit shall not be issued unless a valid certificate of

qualification has been issued pursuant to the provisions of section five hundred seventy-three of this title, unless all fees and outstanding penalties, if any, have been paid, and the department finds that the clinical laboratory or blood bank is competently staffed and properly equipped, and will be operated in the manner required by this title.

3. The permit shall be issued jointly to the owner and the director and they jointly and severally shall be responsible to the department for the maintenance and operation of the clinical laboratory or blood bank and for any violations of this title and the rules and regulations promulgated thereunder.

4. A permit shall be valid for the year for which it is issued. The initial application for a permit shall be accompanied by a registration fee of one hundred dollars.

5. The permit shall specify the names of the owners and the director, the procedures or categories of procedures or services authorized, and the locations at which such procedures or services may be performed. The permit and the certificate of qualification shall be displayed at all times in a prominent place in the laboratory.

6. A permit shall become void by a change in the director, owner, or location. A category on a permit shall become void by a change in the director for that category. The department may, pursuant to regulations adopted under this title, extend the date on which a permit or category on a permit shall become void for a period not to exceed sixty days from the date of a change of the director, owner or location. An application for a new permit must be made in the manner provided by this section.

§ 575-a. Source plasma donation centers. 1. Notwithstanding section five hundred seventy-four and subdivision one of section five hundred seventy-one of this chapter, a source plasma donation center may collect source plasma through plasmapheresis, and may employ a person to perform total protein tests using digital refractometers, and to perform hematocrit tests, if the source plasma donation center and such person

comply with all the requirements of federal law and regulations governing the collection of source plasma, including, but not limited to, laws governing staff supervision, training, and duties, including requirements for performing total protein tests using digital refractometers in a source plasma donation center.

2. The commissioner may make reasonable additional regulations governing source plasma donation centers, including requirements for registration as a source plasma donation center and payment of a reasonable registration fee. Rules and regulations applicable to source plasma donation centers shall be consistent with this section.

§ 576. Duties and powers of the department. 1. The department may inquire into the operation of clinical laboratories and blood banks and may conduct periodic inspections and/or evaluations of facilities, methods, procedures, materials, staff and equipment to assess compliance with requirements set forth in this title, the regulations promulgated hereunder and local laws, codes or regulations as specified in subdivision three of section five hundred eighty of this title.

2. The department may require clinical laboratories and blood banks to submit, in a form prescribed by the department, periodic reports of tests performed and such other information as the department may require to carry out the provisions of this title. The department may adopt regulations to require clinical laboratories and blood banks to report all serious adverse incidents which may be connected to the clinical laboratory or blood bank services provided. Such incident reports shall be deemed confidential in the same manner as such reports submitted pursuant to section twenty-eight hundred five-m of this chapter. The department may also require clinical laboratories and blood banks to submit lists of personnel who are employed to perform laboratory procedures and to notify the department promptly of any changes in such personnel.

3. The department shall operate a reference system and shall prescribe standards for the proper operation of clinical laboratories and blood

banks and for the examination of specimens. As part of such reference system, the department may review and approve testing methods developed or modified by clinical laboratories and blood banks prior to the testing methods being offered in this state, and may require clinical laboratories and blood banks to analyze test samples submitted by the department and to report on the results of such analyses. The rules and regulations of the department shall prescribe the requirements for the proper operation of a clinical laboratory or blood bank, for the approval of methods and the manner in which proficiency testing or analyses of samples shall be performed and reports submitted. Failure to meet department standards for the proper operation of a clinical laboratory or blood bank, including the criteria for approval of methods, or failure to maintain satisfactory performance in proficiency testing shall result in termination of the permit in the category or categories of testing established by the department in regulation until remediation is achieved. Such standards shall be at least as stringent as federal standards promulgated under the federal clinical laboratory improvement amendments of nineteen hundred eighty-eight. Such failure and termination shall be subject to review in accordance with regulations adopted by the department.

4. (a) The department may adopt and amend rules and regulations to effectuate the provisions and purposes of this title. Such rules and regulations shall establish fees for clinical laboratories and blood banks in amounts not exceeding the cost of the reference system for clinical laboratories and blood banks and shall be subject to the approval of the director of the budget. For the purposes of this subdivision, standard federally established governmental cost allocation practices shall be used by the commissioner to determine the cost of the reference system. The department shall make available, on the department's website, information on the costs included in determining the permitted laboratories' fees. The department shall not deem as costs of the reference system, costs associated with federal grants and patents which are not related to the reference system. The fee paid by the department to maintain an exemption for clinical laboratories and blood banks from the requirements of the federal clinical laboratory improvement amendments of nineteen hundred eighty-eight shall be deemed

a cost of the reference system.

(b) In determining the fee charges to be assessed, the department shall, on or before May first of each year, compute the costs for the preceding state fiscal year which were expended to operate and administer the duties of the department pursuant to this title. The department shall, at such time or times and pursuant to such procedure as it shall determine by regulation, bill and collect from each clinical laboratory and blood bank an amount computed by multiplying such total computed operating expenses of the department by a fraction the numerator of which is the gross annual receipts of such clinical laboratory or blood bank during such twelve month period preceding the date of computation as the department shall designate by regulation, and the denominator of which is the total gross annual receipts of all clinical laboratories or blood banks operating in the state during such period.

(c) Each such clinical laboratory and blood bank shall submit to the department, in such form and at such times as the department may require, a report containing information regarding its gross annual receipts for all activities performed pursuant to a permit issued by the department in accordance with the provisions of section five hundred seventy-five of this title. The department may require additional information and audit and review such information to verify its accuracy.

(d) Partial payments equal to one-quarter of the total amount billed, may be made on or before June thirtieth, September thirtieth, December thirty-first and March tenth of the fiscal year to which the billing relates.

(e) On or before September fifteenth of each year, the department shall reconcile its costs and expenses for the reference system for the preceding state fiscal year and shall, on or before October fifteenth send to each clinical laboratory and blood bank, a statement setting forth the amount due and payable by, or the amount computed to the credit of, such clinical laboratory or blood bank, computed on the basis of the above stated formula, except that for the purposes of such computation the fraction shall be multiplied against the total recomputed expenses of the department for such fiscal year. Any amount due shall be payable not later than thirty days following the date of

such statement. Any credit shall be applied against any succeeding payment due.

(f) The commissioner may waive all or any part of such fee charges for clinical laboratories or blood banks operated by local governments and for nonprofit clinical laboratories or blood banks performing examinations and analyses or providing services under contract with the state or its local governments.

(g) Subject to the approval of the director of the budget, the commissioner shall charge adequate and reasonable fees for the periodic inspection of out-of-state clinical laboratories and blood banks, not exceeding the estimated additional costs incurred for out-of-state inspections under this title.

5. The department, within the amounts appropriated, may employ inspectors, investigators, assistants and other employees or may contract with the city of New York to carry out the provisions of this title, set the compensation of such employees, within limits provided by law, and prescribe the duties of such employees.

6. The commissioner may appoint one or more advisory committees of persons expert in the major categories of clinical laboratory procedures to advise the commissioner in connection with the qualifications of technical personnel employed and the use of appropriate procedures. Each such advisory committee shall include at least one designee of the commissioner of the department of health of the city of New York.

7. The department may adopt rules or regulations applicable only to or in the city of New York which are designed to address special needs or circumstances existing in such city. The department shall consider the recommendations of the city of New York, or the department or board of health of such city, concerning the adoption or amendment of any such rules or regulations.

8. The department may enter into agreements with the secretary of health and human services as authorized by the federal clinical laboratory improvement act of nineteen hundred eighty-eight and title XVIII of the social security act to perform such acts as may be

necessary to assure conformance with such laws by laboratories operating in the state.

§ 576-a. Clinical laboratories and cytotechnologists examining Pap smears. 1. Definitions. As used in this section, unless the context clearly requires otherwise, the following terms shall have the following meanings:

(a) "Cytotechnologist". A clinical laboratory professional specializing in the analysis of cytopathology samples, including Pap smears, for cervical cancer and related diseases who meets the qualifications specified by the department.

(b) "Cytotechnologist work standard". (i) A limitation on the number of Pap smears (also known as gynecologic slides) and non-gynecologic slides a cytotechnologist may examine during a particular time period, or other limitation on the quantity, speed or manner of examination of slides by a cytotechnologist, under regulations of the department.

(ii) The department may establish regulations for cytotechnologist workload standards that shall be at least as stringent as federal regulations.

(c) "Employ". To employ or contract with a cytotechnologist to examine gynecologic slides.

(d) "Clinical laboratory". A clinical laboratory issued a permit pursuant to this title.

(e) "Work day". A twenty-four hour period during which a cytotechnologist examines gynecologic slides for a clinical laboratory.

2. Compliance with cytotechnologist work standard. No cytotechnologist shall exceed the applicable cytotechnologist work standard. No clinical laboratory shall require, authorize, encourage or permit any cytotechnologist to exceed the applicable cytotechnologist work standard. In determining whether a cytotechnologist exceeds the applicable cytotechnologist work standard, all work done by the cytotechnologist during a given work day shall be considered, without regard to which clinical laboratory or other person for which or whom it was performed.

3. Record-keeping. (a) Each clinical laboratory shall maintain records, in a form prescribed by the department, which set forth, for each cytotechnologist employed by the clinical laboratory:

(i) the name of the cytotechnologist;

(ii) the number of hours worked by the cytotechnologist in each work day;

(iii) the number of gynecologic slides and non-gynecologic slides examined by the cytotechnologist during each work day; and

(iv) such other information as the department may require by regulation.

(b) Such records of clinical laboratories and cytotechnologists shall be made available for inspection and copying by the department upon request.

4. Multiple employers. Whenever a cytotechnologist is employed by more than one clinical laboratory or other person during a work day, the cytotechnologist shall advise each clinical laboratory of any previous employment during the work day and the amount of work performed, to insure that the applicable cytotechnologist work standard is not exceeded.

5. Standards for gynecologic slides. (a) A gynecologic slide of a Pap smear shall not be tested or reported on if:

(i) the apparent condition of the specimen indicates that it is unsatisfactory for testing or that it is inappropriate for the test requested;

(ii) it has been collected, labeled, preserved or otherwise handled in such a manner that it has become unsatisfactory or unreliable as a test specimen;

(iii) the slide is broken;

(iv) it contains insufficient cells or the cells are obscured by inflammation, blood or lubricating ointment, so that an adequate diagnosis cannot be made; or

(v) the slide is otherwise unsatisfactory, as defined by department regulations.

(b) If the slide is unsatisfactory as set forth in this subdivision, the clinical laboratory shall have an affirmative duty to advise the

collecting physician or other practitioner that the slide is unsatisfactory and request the submission of a new slide.

6. Re-examination of slides. The department shall prescribe, by regulation, a system of targeted re-examination of gynecologic slides examined and found to be not abnormal or questionable. The factors to be considered in the targeted re-examination may include, but are not limited to, the prior cancer and other history of the patient, the results of previous slide examinations, and the experience and ability of the cytotechnologist. Each clinical laboratory shall follow the prescribed re-examination system.

7. Notwithstanding any provisions of subdivision one of this section to the contrary, the department may, pursuant to regulation, increase the maximum number of slides which may be examined in a work day for clinical laboratories using slide examination or preparation technology approved by the federal food and drug administration, provided that such standards shall be at least as stringent as federal standards promulgated under the federal clinical laboratory improvement amendments of nineteen hundred eighty-eight or other applicable federal law.

8. Violations. (a) Sections twelve, twelve-a, and twelve-b of this chapter shall apply to violations of this section, except that the civil penalty for a violation of this section by a cytotechnologist shall not exceed five hundred dollars.

(b) If any clinical laboratory or other person violating this section is licensed, certified or registered by the department under other provisions of law, the violation of this section may be grounds for disciplining the person under such law.

§ 576-b. Performance of certain clinical laboratory services upon request. 1. A clinical laboratory may perform a clinical laboratory service (including accepting a specimen or assignment for examination and rendering a report), that it is otherwise allowed to perform, upon the request of the person on whom the service is to be performed and render a report directly to the person, where the service is for the

same purpose as a test or collection device that has been approved or cleared by the Food and Drug Administration of the United States Department of Health and Human Services for sale or distribution to the public on a direct or over-the-counter basis without a prescription from a qualified health care practitioner.

2. All services conducted pursuant to this section shall comply with the standards for testing established by the department and with any other laws of this state, including requirements for confidentiality and pre-test and post-test counseling.

3. The results of any test conducted pursuant to this section shall be provided only to the person who requested the test. Such results shall be provided in a clear and concise manner that is understandable by lay persons and that identifies results indicating the need for referral to a physician or other qualified health care practitioner.

4. Nothing in this section shall authorize a clinical laboratory to engage in the practice of any health care profession under title eight of the education law. The report issued to a person for a test conducted pursuant to this section shall contain a clear statement, presented in a prominent manner, to the effect that the report should not be viewed as medical advice and is not meant to replace direct communication with a physician or other health care practitioner.

§ 576-c. Electronic reporting of disease and specimen submission. 1. Whenever a clinical laboratory or blood bank is otherwise required by this chapter to report evidence of a disease or health condition to the commissioner or a local health officer, the laboratory director shall report the test results and such data elements as are determined by the commissioner to be necessary as authorized by law. All reports shall be sent electronically to the department in a standards based electronic format, using a network, communications protocol, clinical syntax and vocabulary all as determined by the commissioner to be compatible with national health information standards promulgated by the federal centers for disease control and prevention and the department of health and

human services. Reports shall be submitted on a schedule determined by the commissioner.

2. Clinical laboratories and blood banks may continue to submit reports in paper copy to the commissioner and/or local health officer as otherwise required by this chapter until the earlier of the date the laboratory director receives notice that the laboratory has been certified to report electronically or one year after the effective date of this section. Thereafter, all reports shall be sent electronically to the department.

3. In the event the system for electronic reporting is unavailable for any reason, including lack of certification for electronic reporting, clinical laboratories and blood banks shall make reports to the local health officer of the county of the patient's residence and the commissioner using an alternate mechanism determined by the commissioner.

4. Whenever the commissioner or a local health officer determines that supplemental testing is necessary to confirm evidence of a disease or health condition otherwise required to be reported to the commissioner or a local health officer pursuant to this chapter, or to further identify the characteristics of a causative agent for reasons of public health protection, the laboratory shall submit all or part of the specimen or its derivatives with patient identifiers to the department or its designee, or the local health officer or his or her designee, in a manner and as directed by the commissioner.

5. The commissioner may adopt rules and regulations necessary to implement the provisions of this section.

§ 577. Enforcement. 1. A permit or certificate of qualification may be revoked, suspended, limited or annulled, or the holder thereof censured, reprimanded or otherwise disciplined by the department on proof that the certificate holder, owner or director, or one or more persons in his or her employ:

(a) has been guilty of misrepresentation in obtaining the permit or certificate or in the operation of the clinical laboratory or blood bank, including the submission to the department of proficiency test results obtained from another clinical laboratory;

(b) has knowingly accepted or permitted to be accepted a specimen or assignment for clinical laboratory examination from or rendered a report thereon to a person or persons not authorized by law to submit such assignment or specimen or receive such report;

(c) has engaged or attempted to engage or represented himself or herself as entitled to perform any procedure or category or procedures or services he or she is not authorized to perform;

(d) has rendered a report on work actually performed in another clinical laboratory or blood bank without designating the fact that the examination or procedure was performed in another clinical laboratory or blood bank;

(e) has demonstrated incompetence or shown consistent errors in performance of examinations or procedures;

(f) has failed to file any report required by the provisions of this title or the rules and regulations promulgated thereunder;

(g) has violated or aided and abetted in the violation of any provision of this chapter, including this title, title six of this article, or the rules and regulations promulgated pursuant to this chapter or a violation of title eleven of article five of the social services law or the rules and regulations promulgated thereunder related to laboratory services; or

(h) has violated or aided and abetted in the violation of local laws, codes or regulations as specified in subdivision three of section five hundred eighty of this title.

(i) has been found upon inspection by the department to be in noncompliance with a provision or provisions of this title or the rules and regulations promulgated hereunder, and has failed to address such findings as required by the department.

2. Proceedings under this section may be initiated by any person, corporation, association or public officer, or by the department, by filing written charges with the department.

3. No permit or certificate shall be revoked, suspended, limited or annulled without a hearing, except as provided in subdivision three of section five hundred seventy-six of this title. However, a permit or certificate may be temporarily suspended without a hearing for a period not to exceed thirty days upon notice to the permit or certificate holder following a finding by the department that the public health, safety or welfare is in imminent danger.

4. The commissioner shall set a time and place for the hearing. A copy of the charges, together with the notice of the time and place of the hearing, shall be mailed to the permit or certificate holder, at the address specified on the permit at least fifteen days before the date set for the hearing. The permit or certificate holder shall file with the department, not less than five days prior to the hearing, a written answer to the charges.

5. Any person or entity which owns or operates a clinical laboratory and who does not hold a valid laboratory permit shall be liable to the people of the state for a civil penalty not to exceed two thousand dollars for each day for the unauthorized operation of the clinical laboratory.

§ 578. Penalties. 1. (a) A person who owns or operates a clinical laboratory or blood bank, and who does not hold a valid permit issued pursuant to the provisions of this title or who otherwise does not comply with this title or the New York city health code is guilty of a misdemeanor, punishable by imprisonment for not more than one year, or by a fine of not more than two thousand dollars, or by both such fine and imprisonment. For any subsequent offense, the penalty shall be both such fine and imprisonment.

(b) A person who owns or operates a clinical laboratory or blood bank and willfully misreports laboratory results or otherwise fails to comply with the provisions of this title is guilty of a class A misdemeanor, punishable by imprisonment for not more than one year, or by a fine of not more than one thousand dollars, or by both such fine and imprisonment.

2. A person who acts as a director after July first, nineteen hundred sixty-five, and who does not hold a valid certificate of qualification issued pursuant to the provisions of this title is guilty of a misdemeanor, punishable by imprisonment for not more than one year, or by a fine of not more than five hundred dollars or by both such fine and imprisonment.

§ 579. Scope and exceptions. 1. This title is applicable to all clinical laboratories and blood banks operating within the state, except clinical laboratories and blood banks operated by the federal government and clinical laboratories operated by a licensed physician, osteopath, dentist, midwife, nurse practitioner, optometrist performing a clinical laboratory test that does not use an invasive modality as defined in section seventy-one hundred one of the education law or podiatrist who performs laboratory tests or procedures, personally or through his or her employees, solely as an adjunct to the treatment of his or her own patients; to the extent authorized by federal and state law, including the education law.

2. This title shall not be applicable to and the department shall not have the power to regulate pursuant to this title: (a) any examination performed by a state or local government of materials derived from the human body for use in criminal identification or as evidence in a criminal proceeding or for investigative purposes; (b) any test conducted pursuant to paragraph (c) of subdivision four of section eleven hundred ninety-four of the vehicle and traffic law and paragraph (c) of subdivision eight of section 25.24 of the parks, recreation and historic preservation law; (c) any examination performed by a state or local agency of materials derived from the body of an incarcerated individual, pretrial releasee, parolee, conditional releasee or probationer to (i) determine, measure or otherwise describe the presence or absence of any substance whose possession, ingestion or use is prohibited by law, the rules of the department of corrections and community supervision, the conditions of release established by the board of parole, the conditions of release established by a court or a

local conditional release commission or the conditions of any program to which such individuals are referred and (ii) to determine whether there has been a violation thereof; or (d) any examination performed by a coroner or medical examiner for the medical-legal investigation of a death. Nothing herein shall prevent the department from consulting with the division of criminal justice services, the department of corrections and community supervision, the state police, or any other state agency or commission, at the request of the division of criminal justice services, the department of corrections and community supervision, the state police, or such other agency or commission, concerning examination of materials for purposes other than public health.

3. (a) This title shall not be applicable to any person, partnership, corporation or other entity performing any waived test or provider-performed microscopy procedure, provided such person, partnership, corporation or other legal entity: (i) holds a valid certificate of registration issued by the department authorizing the performance of one or more waived tests or provider-performed microscopy procedures; and (ii) only performs tests authorized by the certificate of registration; and (iii) otherwise complies with all applicable requirements of this subdivision.

(b) The department may issue a certificate of registration authorizing the performance of one or more waived tests or provider-performed microscopy procedures for a period of up to two years if the applicant: (i) files a completed application with the department on such forms as the commissioner may prescribe; (ii) provides documentation acceptable to the department demonstrating the ability to comply with the requirements of this subdivision; and (iii) pays a two hundred dollar biennial registration fee for each location where services are rendered; except that a voluntary ambulance service as defined in article thirty of the public health law and operated under section two hundred nine-b of the general municipal law shall be exempt from the requirement to pay a fee to obtain this certificate of registration; and except that the following may operate multiple locations under a single registration and pay a single registration fee: (A) not-for-profit, state or local government laboratories or programs engaged in limited public health testing not exceeding fifteen types of tests per registration; or (B)

applicants that maintain a fixed location in the state and are approved by the department to move from testing site to testing site.

(c) Laboratory test registrants shall: (i) provide only the tests and services listed on the registration issued by the department hereunder; (ii) advise the department of any change in the registrant's name, ownership, location or qualified health care professional or laboratory director designated to supervise testing within thirty days of such change; (iii) provide the department with immediate access to all facilities, equipment, records, and personnel as required by the department to determine compliance with this subdivision; (iv) comply with all public health law and federal requirements for reporting reportable diseases and conditions to the same extent and in the same manner as a clinical laboratory; (v) perform one or more tests as required by the department to determine the proficiency of the persons performing such tests; and (vi) designate a qualified health care professional or qualified individual holding a certificate of qualification pursuant to section five hundred seventy-three of this title, who shall be jointly and severally responsible for: (A) establishing, approving and continuously updating policies, procedures and personnel qualifications for each test employed; (B) establishing a comprehensive quality assurance system which includes, but is not limited to, test selection, test quality, laboratory proficiency and personnel competency; (C) ensuring all tests are performed in accordance with the manufacturers' instructions and standards of practice in laboratory medicine; (D) maintaining complete and accurate records of the tests performed, including but not limited to, the patient's name, results, person performing the test, and quality control data; (E) ensuring that persons do not participate in diagnostic or treatment decisions using such test results unless such persons are authorized by law to do so; (F) ensuring that provider-performed microscopy procedures are performed only by a qualified health care professional operating within the scope of practice for his or her profession and as part of the physical examination performed by such professional; and (G) complying with other applicable laws, rules and regulations.

(d) A certificate of registration shall become void by a change in the owner of the laboratory test registrant or location of testing.

(e) Notwithstanding the foregoing, if the commissioner determines that

the performance of a particular waived test or provider-performed microscopy procedure in a facility or location which does not possess a New York state clinical laboratory permit creates a risk of harm to the subjects of such test, the commissioner may issue an order prohibiting such test from being performed in any location other than a permitted clinical laboratory, physician's office or other location exempted by subdivision one or two of this section.

(f) Registration under this subdivision may be denied, limited, suspended, revoked or annulled by the department upon a determination that a laboratory services registrant: (i) failed to comply with the requirements of this subdivision; (ii) provided services that constitute an unwarranted risk to human health; (iii) intentionally provided any false or misleading information to the department relating to registration or performing laboratory services; or (iv) has demonstrated incompetence or shown consistent errors in the performance of examinations or procedures. A registration shall not be limited, suspended, revoked or annulled without a hearing conducted in accordance with subdivision four of section five hundred seventy-seven of this title. However, a registration may be temporarily limited, suspended, revoked or annulled without a hearing for a period not to exceed thirty days upon notice to the registrant following a finding by the department that the public health, safety or welfare is in imminent danger.

(g) The commissioner may adopt such rules and regulations as may be necessary to effectuate the purposes of this subdivision.

(h) Any person, partnership, corporation or other entity performing waived tests or provider-performed microscopy procedures without being authorized to do so pursuant to this title shall be subject to a civil penalty of up to five hundred dollars for each test performed, not to exceed two thousand dollars per day for each day tests are performed, in violation of this subdivision.

(i) All fees and civil penalties collected pursuant to this subdivision shall be deposited in the special revenue account established for the receipt of inspection and reference fees collected pursuant to section five hundred seventy-six of this title and shall be subtracted from the operating expenses of the department prior to calculation of such inspection and reference fees.

§ 580. Construction. 1. Nothing in this title shall be construed as affecting the educational program of any college or university or any legally chartered school approved by the department of education which program is conducted for the training of its students.

2. Nothing in this title shall be construed as affecting facilities which perform laboratory tests solely for research purposes, nor as affecting laboratory testing by a public health officer as part of an epidemiological investigation in which no patient identified result is reported for diagnostic purposes to a health care provider or the subject of the test.

3. (a) Nothing in this title shall be construed to impair or affect the power or authority of the city of New York or a department or agency thereof, to enact or enforce additional laws, codes or regulations affecting clinical laboratories or blood banks, not inconsistent with the provisions of this title or any regulations promulgated hereunder, related to the control, prevention or reporting of diseases or medical conditions or to the control or abatement of public health nuisances. Noncompliance with such laws, codes or regulations as documented by the local public health officer may be a basis for the department's denial or non-renewal of a laboratory permit or a certificate of qualification.

(b) Such local laws, codes or regulations which are more restrictive than or additional to the requirements set forth in this title or the regulations promulgated hereunder shall be deemed not inconsistent.

4. The collection, processing, storage, distribution or use of blood, blood components or blood derivatives for the purpose of diagnosis, prevention or treatment of disease is hereby declared to be a public health service and shall not be construed to be, and is declared not to be, a sale of such blood, blood components or blood derivatives, for any purpose or purposes whatsoever.

5. Notwithstanding any inconsistent provision of the education law, individuals performing only waived tests or provider-performed microscopy procedures in accordance with the provisions of subdivision

three of section five hundred seventy-nine of this title shall not be required to be licensed or certified as a clinical laboratory practitioner pursuant to the education law.

§ 581. Separability. If any clause, sentence, paragraph, section or part of this title shall be adjudged by any court of competent jurisdiction to be invalid, the judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section, or part thereof directly involved in the controversy in which the judgment shall have been rendered.

TITLE VI

LABORATORY BUSINESS PRACTICES

Section 585. Definitions.

586. Payment for services.

587. Prohibited practices.

588. Violations and penalties.

§ 585. Definitions. Whenever used in this title:

1. "Health services purveyor" means any person, firm, partnership, group, association, corporation or professional corporation, or any agent, employee, fiduciary, employer or representative thereof, including but not limited to a physician, dentist, podiatrist or chiropractor, either in individual practice, group practice or employed in a facility owned by any person, group, association, firm, partnership or corporation hiring any of the aforementioned practitioners, who provide health or health related services.

2. "Clinical laboratory" shall have the same meaning as is set forth in subdivision one of section five hundred seventy-one of this article.

§ 586. Payment for services. 1. It shall be unlawful for any purveyor of clinical laboratory services, directly or indirectly, through any person, firm, corporation or association or its officers or agents, to bill or receive payment, reimbursement, compensation or fee from any person other than the recipient of the services, such recipient being the person upon whom the clinical services have been or will be rendered.

2. The provisions of subdivision one of this section shall be inapplicable to services rendered by a clinical laboratory operated by the state of New York; and to payment by:

- (a) A legal relative of the recipient of the services;
- (b) An insurance carrier designated by the recipient of the services;
- (c) A hospital as defined in article twenty-eight of this chapter on behalf of an in-patient or out-patient of such hospital having been the recipient of the services;
- (d) One purveyor to another purveyor for actual services rendered;
- (e) An industrial firm only for its own employees;
- (f) A trade union health facility only for its registered patients;
- (g) Governmental agencies and/or their specified public or private agent, agency or organization on behalf of the recipient of the services;
- (h) A substance abuse or chemical dependence program which has been approved to operate by the office of alcoholism and substance abuse services pursuant to the provision of section 23.01 or article thirty-two of the mental hygiene law on behalf of clients of such a program having been the recipient of the services; and
- (i) A health maintenance organization operating in accordance with article forty-three of the insurance law or article forty-four of this chapter.

3. The public health council shall adopt and amend rules and regulations, subject to approval by the commissioner, to effectuate the provisions and purposes of this section.

§ 587. Prohibited practices. 1. No health services purveyor shall

solicit, receive, accept or agree to receive or accept any payment or other consideration in any form to the extent such payment or other consideration is given for the referral of services or participate in the division, transference, assignment, rebate, splitting of fees, with any clinical laboratory or its agent, employee or fiduciary, or with another health services purveyor in relation to clinical laboratory services. Specifically prohibited practices shall include, without limiting thereto, the following:

(a) Acceptance of payments for rental of space for more than the fair market value or where the rental amount is affected by test ordering volume or value.

(b) Acceptance of rental payments for storage space for any supplies provided by any clinical laboratory or its agent, employee or fiduciary.

(c) Acceptance of payments for filling in proper information on laboratory request forms for tests.

(d) Receipt or acceptance of employees, agents or other fiduciaries of any clinical laboratory to perform any duties in the facility of any health services purveyor provided, however, that nothing in this subdivision shall prohibit a hospital as defined in article twenty-eight of this chapter or a health maintenance organization operating in accordance with article forty-three of the insurance law or article forty-four of this chapter and a clinical laboratory from contracting for laboratory management services including the provision of technical services and employees for the performance of functions directly related to clinical laboratory operations.

(e) Receipt or acceptance of equipment, supplies or services provided by any clinical laboratory or its agent, employee or fiduciary for less than fair market value or when the purchase price or rental payment is in any way related to the reference of patients or specimens to any clinical laboratory.

(f) Receipt or acceptance of any monies or other consideration from any clinical laboratory or its agent, employee or fiduciary as a bonus, commission or fee in the form of a fixed or percentage return for the number or dollar value of laboratory tests performed or to be performed by any clinical laboratory to which patients or specimens are referred or for the number of patients or specimens referred.

(g) The purchase of prepayment coupons, tickets, booklets or any

variation of such prepayment instruments as advance payments by purveyors of health services for clinical laboratory services to be rendered by any clinical laboratory.

(h) To accept payment of money or other consideration from anyone for any clinical laboratory tests rendered or to be rendered on any specimen for transference of the money or other consideration in whole or in part to any clinical laboratory or to actually be kept by the health services purveyor.

(i) To accept or use directly any instrument or any clinical laboratory form marked "Invoice", "Receipt", "Payment Received" or any other variation for issuance to patients as if the patient had been billed and paid the clinical laboratory.

(j) Receipt or acceptance of any monies or other consideration from any clinical laboratory or its agent, employee or fiduciary for influencing any person to refrain from using or utilizing any other clinical laboratory.

2. No clinical laboratory or its agent, employee or fiduciary shall make, offer, give, or agree to make, offer, or give any payment or other consideration in any form to the extent such payment or other consideration is given for the referral of services or participate in the division, transference, assignment, rebate, splitting of fees, with any health services purveyor, or with another clinical laboratory. Specifically prohibited practices shall include, without limiting thereto, the following:

(a) To offer or agree to give or give any payments for rental of space for more than the fair market value or where the rental amount is affected by test ordering volume or value.

(b) To offer or agree to give or give rental payments for storage space for any supplies provided to any health services purveyor.

(c) To offer or agree to give or give any payments for filling in proper information on laboratory request forms for tests.

(d) To supply employees, agents or other fiduciaries of any clinical laboratory to perform any duties in the facility of any health services purveyor provided, however, that nothing in this subdivision shall prohibit a hospital as defined in article twenty-eight of this chapter or a health maintenance organization operating in accordance with

article forty-three of the insurance law or article forty-four of this chapter and a clinical laboratory from contracting for laboratory management services, including the provision of technical services and employees for the performance of functions directly related to clinical laboratory operations.

(e) To offer or agree to give or give any equipment, supplies or services to any health services purveyor for less than fair market value or when the purchase price or rental payment is in any way related to the reference of patients or specimens to any clinical laboratory.

(f) To offer or agree to give or give any monies or other consideration to any health services purveyor as a bonus, commission or fee in the form of a fixed or percentage return for the number or dollar value of laboratory tests performed or to be performed by any clinical laboratory to which patients or specimens are referred or for the number of patients or specimens referred.

(g) To sell any prepayment coupons, tickets, booklets or any variation of such prepayment instrument as advance payments by purveyors of health services for clinical laboratory services.

(h) To send a bill to or receive payment from any health services purveyor for clinical laboratory services rendered to any patient, where such bill is sent in code on blank paper, without name and address of the clinical laboratory, without name or address of the addressee, or without name or other identifying information of the person who was the recipient of the laboratory service or in any other falsified manner.

(i) To utilize any health services purveyor or anyone else not authorized by law to collect money or other consideration from anyone for any clinical laboratory tests rendered or to be rendered on any specimen for transference of the money or other consideration in whole or in part to the clinical laboratory or to be actually kept by the health services purveyor.

(j) To supply to any health services purveyor any printed form of a clinical laboratory marked "Invoice", "Receipt", "Payment Received", or any other variation for use by any health services purveyor issuing same to patients as if the patient had paid the clinical laboratory.

(k) To offer or agree to give or give any monies or other consideration for influencing any person to refrain from using or utilizing any other clinical laboratory.

3. This section shall not apply to any: (a) legally established hospital group purchasing program approved by the commissioner, or (b) any arrangement between a clinical laboratory and health maintenance organization operating in accordance with article forty-three of the insurance law or article forty-four of this chapter approved by the commissioner.

4. Any transaction excluded from the prohibition of section five hundred eighty-six of this title relating to payment for services rendered by clinical laboratories shall be deemed to be similarly excluded from the application of this section.

5. No clinical laboratory or its agent, employee or fiduciary shall make, offer, give or agree to make, offer or give to any person, partnership, corporation or other entity any payment or other consideration in any form as a bonus, commission or fee for securing referrals of services to the clinical laboratory except for payments made to a person who is an employee of the clinical laboratory.

6. The public health council shall adopt and amend rules and regulations, subject to approval by the commissioner, to effectuate the provisions and purposes of this section.

§ 588. Violations and penalties. 1. Any health services purveyor, clinical laboratory, or any agent, employee or fiduciary of a health services purveyor or clinical laboratory who violates the provisions of section five hundred eighty-six of this title, or any rule or regulation adopted pursuant thereto, is guilty of a class A misdemeanor and shall be punishable in accordance with the provisions of the penal law.

2. Any health services purveyor, clinical laboratory, or any agent, employee or fiduciary of a health services purveyor or clinical laboratory who violates the provisions of section five hundred eighty-seven of this title, or any rule or regulation adopted pursuant thereto, is guilty of a misdemeanor and shall be punishable by:

- (a) a term of imprisonment in accordance with the penal law; or
- (b) a fine of not less than five hundred dollars nor more than ten thousand dollars; or
- (c) if the defendant has gained money or property through a violation of the provisions of this section, a fine in an amount, fixed by the court, not to exceed double the amount of the defendant's gain from a violation of such provisions. In such event, the provisions of subdivision three of section 80.00 of the penal law shall be applicable to the sentence; or
- (d) both the imprisonment and the fine.

ARTICLE 6

STATE AID TO CITIES AND COUNTIES

- Title
- I. State aid for basic services. (§§ 600-607)
 - II. State aid for additional services. (§§ 608-613)
 - III. State aid; general provisions. (§§ 614-621)

TITLE I

STATE AID FOR BASIC SERVICES

- Section 600. State aid; general requirements.
- 601. Application for state aid.
 - 602. Core public health services.
 - 602-a. Community health assessment.
 - 603. Core public health services; implementation.
 - 604. Supervision of public health programs.
 - 605. State aid; amount of reimbursement.
 - 606. Assessment of fees; third-party coverage or indemnification.
 - 607. Supplemental health services grants.

§ 600. State aid; general requirements. In order to be eligible for state aid under this title, a municipality shall be required to do the following in accordance with the provisions of this article:

1. submit an application to the department for state aid which is approved by the commissioner in accordance with section six hundred one of this title;

2. provide core public health services, as defined in section six hundred two of this title, in accordance with an application for state aid submitted by the municipality and approved by the commissioner;

3. submit a community health assessment in accordance with section six hundred two-a of this title;

4. establish, collect and report fees and revenue for services provided by the municipality, in accordance with section six hundred six of this title; and

5. appropriate or otherwise make funds available to finance a prescribed share of the cost of public health services.

§ 601. Application for state aid. 1. The governing body of each municipality desiring to make application for state aid under this title shall annually, on such dates as may be fixed by the commissioner, submit an application for such aid.

2. The application shall be in such form as the commissioner shall prescribe, and shall include, but not be limited to:

(a) an organizational chart of the municipal health agency, and a statement providing the number of employees, by job title, proposed to provide public health services funded by this title;

(b) a budget of proposed expenditures for services funded by this title;

(c) a description of how the municipality will provide public health services;

(d) an attestation by the chief executive officer of the municipality that sufficient funds have been appropriated to provide the public health services for which the municipality is seeking state aid;

(e) an attestation by the municipal officer in charge of administering

public health that the municipality has diligently reviewed its state aid application and that the application seeks state aid only for eligible public health services;

(f) a list of public health services provided by the municipality that are not eligible for state aid, and the cost of each service;

(g) a projection of fees and revenue to be collected for public health services eligible for state aid, in accordance with section six hundred six of this title; and

(h) such other information as the commissioner may require.

3. The commissioner shall approve the state aid application to the extent that it is consistent with this section and any other conditions or limitations established in, or regulations promulgated pursuant to, this article.

4. A municipality may amend its state aid application with the approval of the commissioner, and subject to any rules and regulations that the commissioner may adopt.

§ 602. Core public health services. 1. To be eligible for state aid, a municipality must provide the following core public health services:

(a) Family health, which shall include activities designed to reduce perinatal, infant and maternal mortality and morbidity and to promote the health of infants, children, adolescents, and people of childbearing age. Such activities shall include family centered perinatal services and other services appropriate to promote the birth of a healthy baby to a healthy mother, and services to assure that infants, young children, and school age children are enrolled in appropriate health insurance programs and other health benefit programs for which they are eligible, and that the parents or guardians of such children are provided with information concerning health care providers in their area that are willing and able to provide health services to such children. Provision of primary and preventive clinical health care services shall be eligible for state aid for uninsured persons under the age of twenty-one, provided that the municipality makes good faith efforts to assist such persons with insurance enrollment and only until such time

as enrollment becomes effective. Provision of prenatal clinical health care services shall be eligible for state aid for uninsured women of any age, provided that the municipality makes good faith efforts to assist such women with insurance enrollment and only until such time as enrollment becomes effective.

(b) Communicable disease control, which shall include activities to control and mitigate the extent of infectious diseases. Such activities shall include, but not be limited to, surveillance and epidemiological programs, programs to detect diseases in their early stages, immunizations against infectious diseases, investigation of diseases and prevention of transmission, prevention and treatment of sexually transmissible diseases, and arthropod vector-borne disease prevention.

(c) Chronic disease prevention, which shall include promoting public, health care provider and other community service provider activities that encourage chronic disease prevention, early detection and quality care delivery. Such activities include, but are not limited to, those that promote healthy communities and reduce risk factors such as tobacco use, poor nutrition and physical inactivity. Provision of clinical services shall not be eligible for state aid, subject to such exceptions as the commissioner may deem appropriate.

(d) Community health assessment, as described in section six hundred two-a of this article.

(e) Environmental health, which shall include activities that promote health and prevent illness and injury by assuring that safe and sanitary conditions are maintained at public drinking water supplies, food service establishments, and other regulated facilities; investigating public health nuisances to assure abatement by responsible parties; protecting the public from unnecessary exposure to radiation, chemicals, and other harmful contaminants; and conducting investigations of incidents that result in illness, injury or death in order to identify and mitigate the environmental causes to prevent additional morbidity and mortality.

(f) Public health emergency preparedness and response, including planning, training, and maintaining readiness for public health emergencies.

2. The municipality must incorporate into each core public health

service the following general activities:

- (a) ongoing assessment of community health needs;
- (b) education on public health issues;
- (c) development of policies and plans to address health needs; and
- (d) actions to assure that services necessary to achieve agreed upon goals are provided.

3. The commissioner may approve a state aid application in which the municipality actually provides fewer services than those set forth in subdivision one of this section as long as the application identifies the availability of other services, who will provide those services and the manner in which the services will be provided and financed.

4. The commissioner shall consult with the county health commissioners, public health directors, and boards of public health when promulgating rules and regulations to effectuate the provisions and purposes of this article. The commissioner shall not have the power to prescribe the number of persons to be employed by any municipality.

§ 602-a. Community health assessment. 1. Every municipality shall submit to the department no more frequently than every two years, a community health assessment.

2. The community health assessment shall be in such form as the commissioner shall prescribe, and shall include, but not be limited to:

- (a) an estimate and description of the health status of the population and factors that contribute to health issues;
- (b) identification of priority areas for health improvement, in conjunction with the state health improvement plan;
- (c) identification of public health services in the municipality and in the community and other resources that can be mobilized to improve population health, particularly in those priority areas identified in paragraph (b) of this subdivision; and
- (d) a community health improvement plan consisting of actions, policies, strategies and measurable objectives through which the municipality and its community partners will address areas for health

improvement and track progress toward improvement of public health outcomes.

§ 603. Core public health services; implementation. 1. In order to be eligible for state aid under this title, each municipality shall administer its core public health services in accordance with the standards of performance established by the commissioner through rules and regulations pursuant to section six hundred nineteen of this article. Each municipality shall, in particular, ensure that public health services are provided in an efficient and effective manner to all persons in the municipality.

2. The commissioner may withhold state aid reimbursement under this title for the appropriate services if, on any audit, review of a state aid application or periodic claim for state aid, or other information available to the department, the commissioner finds that such services are not furnished or rendered in conformance with the rules and regulations established by the commissioner, including but not limited to the standards of performance established pursuant to section six hundred nineteen of this article, or that the expenditures were not for an activity set forth in section six hundred two of this title. In such cases, the commissioner, in order to ensure that the public health is promoted as defined in section six hundred two of this title, may use any proportionate share of a municipality's per capita or base grant that is withheld to contract with agencies, associations, or organizations. The health department may use any such withheld share to provide services upon approval of the director of the division of the budget. Copies of such transactions shall be filed with the fiscal committees of the legislature.

3. Consistent with paragraph (h) of subdivision two of section six hundred one of this title, when determining whether to approve a state aid application or periodic claim for state aid, the commissioner shall have authority to request any and all financial and other documents necessary or relevant to verify that the claimed expenditures are eligible for state aid under this article.

§ 604. Supervision of public health programs. In order to be eligible for state aid, under this title, each municipality shall employ a full-time local commissioner of health or public health director to supervise the provision of public health services for that municipality, subject to the following exceptions:

1. such person may serve as the head of a merged agency or multiple agencies, if the approval of the commissioner is obtained; and
2. such person may serve as the local commissioner of health or public health director of additional counties, when authorized pursuant to section three hundred fifty-one of this chapter.

§ 605. State aid; amount of reimbursement. 1. A state aid base grant shall be reimbursed to municipalities for the core public health services identified in section six hundred two of this title, in an amount of the greater of one dollar and thirty cents per capita, for each person in the municipality, or seven hundred fifty thousand dollars, provided that the municipality expends at least seven hundred fifty thousand dollars, for such core public health services. A municipality must provide all the core public health services identified in section six hundred two of this title to qualify for such base grant unless the municipality has the approval of the commissioner to expend the base grant on a portion of such core public health services. If any services in such section are not provided, the commissioner shall limit the municipality's per capita or base grant to reflect the scope of the reduced services, in an amount not to exceed five hundred seventy-seven thousand five hundred dollars. The commissioner may use the amount that is not granted to contract with agencies, associations, or organizations to provide such services; or the health department may use such proportionate share to provide the services upon approval of the director of the division of the budget.

2. State aid reimbursement for public health services provided by a

municipality under this title, shall be made if the municipality is providing some or all of the core public health services identified in section six hundred two of this title, pursuant to an approved application for state aid, at a rate of no less than thirty-six per centum of the difference between the amount of moneys expended by the municipality for public health services required by section six hundred two of this title during the fiscal year and the base grant provided pursuant to subdivision one of this section. Provided, however, that a municipality's documented fringe benefit costs submitted under an application for state aid and otherwise eligible for reimbursement under this article shall not exceed fifty per centum of the municipality's eligible personnel services. No such reimbursement shall be provided for services that are not eligible for state aid pursuant to this article.

3. Municipalities shall make every reasonable effort to collect payments for public health services provided. All such revenues shall be reported to the commissioner pursuant to section six hundred six of this title and will be deducted from expenditures identified under subdivision two of this section to produce a net cost eligible for state aid.

§ 606. Assessment of fees; third-party coverage or indemnification. 1. Assessment of fees by municipalities. Each municipality shall establish a schedule of fees for public health services provided by the municipality and shall make every reasonable effort to collect such fees. Fees for personal health services shall be reflective of an individual's ability to pay and shall not be inconsistent with the reimbursement guidelines of articles twenty-eight and thirty-six of this chapter and applicable federal laws and regulations. To the extent possible revenues generated shall be used to enhance or expand public health services. In its state aid application, each municipality shall provide the department with a projection of fees and revenue to be collected for that year. Each municipality shall periodically report to the department fees and revenue actually collected.

2. Assessment of fees by the commissioner. In each municipality, the

commissioner shall establish a fee and revenue plan for services provided by the department in a manner consistent with the standards and regulations established pursuant to subdivision one of this section.

3. Third party coverage or indemnification. For any public health service for which coverage or indemnification from a third party is available, the municipality must seek such coverage or indemnification and report any associated revenue to the department in its state aid application.

§ 607. Supplemental health services grants. 1. There shall be established within the special revenue fund-other a local public health services program account. All revenues derived from fees collected by the department pursuant to subdivision two of section six hundred six of this article and all fines levied and collected by the department from enforcement actions pursuant to the services provided under titles one and two of this article, and monies received or recovered as a result of any audit exception assessed against the state aid reimbursement to a municipality under this article, shall be deposited in the local public health services program account.

2. Notwithstanding the limitations of available state aid defined in section six hundred sixteen of this article, monies available for supplemental health services grants in the local health services program account shall be used by the commissioner for the purpose of providing supplemental health services grants to municipalities for the enhancement of public health services, as an incentive for a municipality not organized as a county health district or a part-county health district to become organized or in recognition of municipalities which have consistently maximized revenue collections. Criteria for eligibility for grants under this section shall be established by the commissioner. Monies received from such supplemental grants shall be used to enhance or expand public health services and may not supplant the amount that otherwise would be provided by the municipality or appropriated to the department.

TITLE II

STATE AID FOR ADDITIONAL SERVICES

Section 608. State aid; children and youth with special health care needs support services.

609. State aid; laboratories.

613. State aid; immunization.

§ 608. State aid; children and youth with special health care needs support services. 1. Whenever the commissioner of health of any county or part-county health district or, in a county lacking a county or part-county health district, the medical director of the children and youth with special health care needs support services program, or the department of health of the city of New York, issues an authorization for medical service for a child with physical disabilities, such county or the city of New York shall be granted state aid in an amount of fifty per centum of the amount expended in accordance with the rules and regulations established by the commissioner, except that such state aid reimbursement may be withheld if, on post-audit and review, the commissioner finds that the medical service rendered and furnished was not in conformance with a plan submitted by the municipality and with the rules and regulations established by the commissioner or that the recipient of the medical service was not a child with a physical disability as defined in section two thousand five hundred eighty-one of this chapter.

2. Whenever a court of any county issues an order for medical services for any Indian child with a physical disability, residing on an Indian reservation, such county shall be granted state aid in the amount of one hundred percent of the amount expended in accordance with the standards established by the commissioner. Such reimbursement shall be made from any funds appropriated to the department for payment of state aid for children with physical disabilities.

3. The clerk of the board of supervisors or other similar governing body of each county, or chief fiscal officer of the city of New York

which has paid claims as provided herein shall, not oftener than once in each month, transmit to the commissioner a certified statement in the form prescribed by him, stating the amount expended for the purposes specified herein, the date of each expenditure, and the purpose for which it was made. Upon the receipt of such certified statement the commissioner shall examine the same, and if such expenditures were made as required by law he shall approve it and transmit it to the comptroller for audit. The comptroller shall thereupon issue his warrant in the amount specified in such approved statement for the payment thereof out of moneys appropriated therefor to the county treasurer of the county or chief fiscal officer of the city of New York.

§ 609. State aid; laboratories. 1. Where a laboratory shall have been or is hereafter established pursuant to article five of this chapter, the state, through the legislature and within the limits to be prescribed by the commissioner, shall provide aid at a per centum, determined in accordance with the provisions of subdivision two of section six hundred five of this article, of the actual cost of repair, relocation, equipment and maintenance of the laboratory or laboratories for services associated with a core public health service, as described in section six hundred two of this title. Such cost shall be the excess, if any, of such expenditures over available revenues of all types, including adequate and reasonable fees, derived from or attributable to the performance of laboratory services.

2. Where a county or city provides or shall have provided for laboratory service by contracting with an established laboratory for services associated with a core public health service, as described in subdivision three of section six hundred two of this title, with the approval of the commissioner, it shall be entitled to state aid at a per centum, determined in accordance with the provisions of subdivision two of section six hundred five of this article, of the cost of the contracts.

3. The work of all laboratories except the laboratories in the department of health in the city of New York established or for which

aid is received in accordance with the provisions of this chapter shall be inspected and standardized by the commissioner and no state aid shall be given to any county or city unless the area of the district, site, design and construction of the buildings, equipment, work and conduct of the laboratory shall be first approved in writing, after inspection, by the commissioner or his representative.

4. The governing body of any county or city which has established and is maintaining a laboratory or which is providing laboratory services by contract with another laboratory and which desires to make applications for state aid under this title shall annually on such dates as may be fixed by the commissioner submit the request of such county or city for such state aid and shall support such request with such information as the commissioner may require. The commissioner shall prescribe the form in which such information shall be submitted.

§ 613. State aid; immunization. 1. (a) The commissioner shall develop and supervise the execution of a program of immunization, surveillance and testing, to raise to the highest reasonable level the immunity of the children of the state against communicable diseases including, but not limited to, influenza, poliomyelitis, measles, mumps, rubella, haemophilus influenzae type b (Hib), diphtheria, pertussis, tetanus, varicella, hepatitis B, pneumococcal disease, and the immunity of adults of the state against diseases identified by the commissioner, including but not limited to influenza, smallpox, hepatitis and such other diseases as the commissioner may designate through regulation. Municipalities in the state shall maintain local programs of immunization to raise the immunity of the children and adults of each municipality to the highest reasonable level, in accordance with an application for state aid submitted by the municipality and approved by the commissioner. Such programs shall include assurance of provision of vaccine, serological testing of individuals and educational efforts to inform health care providers and target populations or their parents, if they are minors, of the facts relative to these diseases and immunizations to prevent their occurrence.

(b) In connection with efforts to raise the immunity of children

against influenza, the commissioner shall administer a program of influenza education to the families of children ages six months to eighteen years of age who attend licensed and registered day care programs, nursery schools, pre-kindergarten, kindergarten, school age child care programs, public schools or non-public schools. Such program shall include educational materials on influenza and the benefits of influenza immunizations to be made available on the department's website in anticipation of times of highest risk for contraction of influenza as determined by the commissioner. The office of children and family services, the department of education, and the New York city department of health and mental hygiene shall, as part of their routine notification processes, notify licensed and registered day care programs, nursery schools, pre-kindergarten programs, kindergarten programs, school age child care programs, public schools and non-public schools that the information regarding immunizations for influenza is free and accessible on the department's website and such information shall be posted in such licensed and registered day care programs, nursery schools, pre-kindergartens, kindergartens, school age child care programs, public schools and non-public schools in plain view in anticipation of such times of highest risk for contraction of influenza as determined by the commissioner.

(c) The commissioner shall invite and encourage the active assistance and cooperation in such education activities of: the medical societies, organizations of other licensed health personnel, hospitals, corporations subject to article forty-three of the insurance law, trade unions, trade associations, parents and teachers and their associations, organizations of child care resource and referral agencies, the media of mass communication, and such other voluntary groups and organizations of citizens as he or she shall deem appropriate. The public health and health planning council, the department of education, the department of family assistance, and the department of mental hygiene shall provide the commissioner with such assistance in carrying out the program as he or she shall request. All other state agencies shall also render such assistance as the commissioner may reasonably require for this program. Nothing in this subdivision shall authorize mandatory immunization of adults or children, except as provided in sections twenty-one hundred sixty-four and twenty-one hundred sixty-five of this chapter.

2. The commissioner shall set such standards as he shall deem necessary for the proper, safe, and efficient administration of the program. He shall direct an annual survey to determine the immunization level of children entering school, and shall conduct annually an audit of such survey and an audit of the immunization level of children attending school. State aid provided by this article shall be reduced by ten percent, provided however that state aid for essential public health activities shall not be reduced, unless a municipality has submitted, in cooperation with local school districts, a plan within ninety days after the commissioner shall have certified to such municipality the results of his survey of the immunization level of children entering schools in such local school districts. Such plan shall be submitted for the next ensuing school year and a subsequent plan shall be submitted annually thereafter for assuring that immunizing agents are administered to pre-school children within a reasonable time prior to but, in any event, no later than their entrance into school, and to students generally, as required pursuant to section twenty-one hundred sixty-four of this chapter. Such plan shall include the manner in which immunization activities are coordinated among the local health authority and the school districts. Such reduction in state aid and the requirement that a municipality submit an immunization plan shall not be applicable to any municipality where ninety percent or more of its children entering school are immunized. The determination of the percentage of immunization shall be made by the commissioner based upon his audit of immunization surveys.

3. The commissioner shall expend such funds as the legislature shall make available for the purpose of adult and child immunization programs, including quality assurance and immunization education:

- (a) directly through the department;
- (b) by allocation to municipalities with qualifying programs for reimbursement in accordance with provisions of this section; or
- (c) by contract.

4. The commissioner shall expend such funds as the legislature shall make available for the purchase of the vaccines described in subdivision

one of this section. Vaccines purchased with funds made available under this section shall be made available without charge to licensed private physicians, hospitals, clinics and such others as the commissioner shall determine, and no charge shall be made to any patient for such vaccines.

TITLE III

STATE AID; GENERAL PROVISIONS

- Section 614. Definitions.
- 615. State aid; form.
 - 616. Limitations on state aid.
 - 617. Maintenance of effort.
 - 618. Performance and accountability.
 - 619. Commissioner; regulatory powers.
 - 619-a. Incentive standards of performance.
 - 620. Public health services program audit recoveries.
 - 621. State aid; public health emergencies.

§ 614. Definitions. The following terms shall have the following meanings:

1. "County", any county of the state other than one wholly embraced within a city or any combinations of counties or parts of a county that constitutes a health district.

2. "City", each city of the state having a population of one million or more, according to the last preceding federal census.

3. "Municipality", a county or city.

4. "Governing body", the board of supervisors of a county or the common council, city council or other legislative body of a city or county.

5. "Local commissioner of health", the officer who administers and manages public health programs within a county who is appointed pursuant

to section three hundred fifty-one of this chapter and who has the general powers and duties specified in section three hundred fifty-two of this chapter and the commissioner of health in a city having a population of more than one million.

6. "Public health director", a person, including a county health director, who, with appropriate medical consultation, administers and manages public health programs within a county, or a city having a population of less than two hundred fifty thousand, and who meets the qualifications as prescribed pursuant to section two hundred twenty-five of this chapter.

§ 615. State aid; form. The appropriations made or to be made for the purposes of carrying out the provisions of this article shall be available, in accordance with certificates of approval issued or to be issued by the director of the budget, to the commissioner for the payment of state aid to municipalities.

§ 616. Limitations on state aid. 1. The total amount of state aid provided pursuant to this article shall be limited to the amount of the annual appropriation made by the legislature. In no event, however, shall such state aid be less than an amount to provide the full base grant and, as otherwise provided by subdivision two of section six hundred five of this article, no less than thirty-six per centum of the difference between the amount of moneys expended by the municipality for eligible public health services pursuant to an approved application for state aid during the fiscal year and the base grant provided pursuant to subdivision one of section six hundred five of this article.

2. No payments shall be made from moneys appropriated for the purpose of this article to a municipality for contributions by the municipality for indirect costs.

3. Administrative policy changes relating to state aid shall not be implemented without reasonable and statewide advance written notice to

municipalities.

4. Moneys appropriated for the purposes of this article to a municipality may include reimbursement of a municipality's fringe benefits, including but not limited to employee retirement funds, health insurance and federal old age and survivor's insurance. However, costs submitted under an application for state aid must be consistent with a municipality's documented fringe benefit costs and shall not exceed fifty per centum of the municipality's eligible personnel services.

§ 617. Maintenance of effort. Such amount of state aid provided will be used to support and to the extent practicable, to increase the level of funds that would otherwise be made available for such purposes and not to supplant the amount to be provided by the municipalities. If a municipality that is provided state aid pursuant to title one of this article reduces its expenditures beneath the amount expended in its base year, which is the most recent fiscal year for which the municipality has filed all expenditure reports to the department, state aid reimbursement provided pursuant to subdivision one of section six hundred five of this article will be reduced by the percentage reduction in expenditures between its base year and its current fiscal year. For purposes of this section, reductions in expenditures shall be adjusted for: an absence of extraordinary expenditures of a temporary nature, such as disaster relief; unavoidable or justifiable program reductions, such as a program being subsumed by another agency; or in circumstances where the municipality can demonstrate, to the department's satisfaction, that the need for the expenditure no longer exists.

§ 618. Performance and accountability. The commissioner shall establish, in consultation with the municipalities, uniform statewide performance standards for the services funded pursuant to this article; provided, however, the commissioner may modify a specific standard for a municipality if such municipality demonstrates adequate justification. The commissioner shall recognize the particular needs and capabilities of the various municipalities. The commissioner shall monitor the

performance and expenditures of each municipality to ensure that each one satisfies the performance standards. Any municipality failing to satisfy its standards may be subject to a reduction or loss of aid until such municipality can demonstrate that it has the capacity to satisfy such standards. The commissioner shall establish a uniform accounting system for monitoring the expenditures for services of each municipality to which aid is granted and the amount of state aid received including any performance payments pursuant to section six hundred nineteen-a of this article. Such reporting system shall require information on the amount of public health moneys received from the federal government, the private sector, grants, and fees. Each such municipality shall comply with the regulations of such accounting and reporting systems.

§ 619. Commissioner; regulatory powers. The commissioner shall adopt regulations to effectuate the provisions and purposes of this article, including, but not limited to:

1. setting standards of performance for the provision of core public health services which shall include performance criteria to ensure that reimbursable health services are delivered in an efficient and effective manner by a municipality; and

2. monitoring, collecting data and evaluating the provision of core public health services by the municipalities and the amounts expended by the municipalities for such services.

§ 619-a. Incentive standards of performance. 1. The commissioner may establish statewide incentive performance standards for the delivery of core public health services.

2. Within amounts appropriated, and subject to the approval of the director of the budget, the commissioner may increase state aid to any municipality that meets or exceeds statewide incentive performance standards established under this section, provided that the total of such payments to all municipalities may not exceed one million dollars

annually.

§ 620. Public health services program audit recoveries. All monies received or recovered by the department after the effective date of this section as a result of any audit exception assessed against the state aid reimbursement to a municipality under this article shall be deposited in the local public health services program account.

§ 621. State aid; public health emergencies. If the state commissioner or a county health department or part-county department of health or municipality, with the approval of the state commissioner, determines that there is an imminent threat to public health, the department shall reimburse counties or municipalities at fifty per centum for the cost of emergency measures as approved by the department and subject to the approval of the director of the budget, except that aerial spraying for mosquitoes on state land shall be reimbursed at one hundred per centum, within amounts appropriated. Such funds shall be made available from funds appropriated for public health emergencies, only to those counties or municipalities, which have expended all other state aid which may be available for related activities and have developed measures to adequately address the emergency. Reimbursement is conditioned upon availability of appropriated funds. For purposes of this section, "municipality" means a health department of a city that is not located in a county or part-county health district or a county in which the legislature has the powers and duties of a board of health of a county or part-county health district and cities with a population of over one million persons.

ARTICLE 6-A

RAPE CRISIS INTERVENTION AND PREVENTION PROGRAM

Section 695. Short title.

695-a. Definitions.

695-b. Authorization of programs.

695-c. Technical assistance.

695-e. Assistance of other agencies.

§ 695. Short title. This article shall be known and may be cited as the "rape crisis intervention and prevention act of two thousand".

§ 695-a. Definitions. As used in this article:

1. "Rape crisis intervention and prevention program" means any program which has been approved by the department offering counseling and assistance to clients concerning sex offenses, sexual abuse, or incest.

2. "Community support system" means a system of service providers in a community designed to meet the needs of a victim of a sex offense, sexual abuse or incest.

3. "Comprehensive services" means hotline, counseling, community prevention, recruitment and training programs, accompaniment services, and referral.

4. "Counseling" means individual communication and interaction which helps the client make choices and act upon those choices, provided to a client concerning any sex offense, sexual abuse, incest, or attempt to commit a sex offense, sexual abuse, or incest.

5. "Client" means any person seeking or receiving the services of a rape crisis counselor for the purpose of securing counseling or assistance concerning any sex offense, sexual abuse, incest, or attempt to commit a sex offense, sexual abuse, or incest.

6. "Hotline" means twenty-four-hour access to rape crisis intervention and prevention services including telephone hotline and telephone counseling capabilities.

7. "Community prevention" means public education projects designed to encourage victim use of rape crisis intervention services, educating the

general public about the availability and significance of rape crisis intervention services, providing sex offense, sexual abuse or incest prevention and personal safety information, providing other education programs which sensitize service providers and the general public about the nature of sex offenses, sexual abuse or incest and the needs of survivors of a sex offense, sexual abuse or incest. "Community prevention" also means and includes public education projects designed to teach the general public about the problem of acquaintance rape, including but not limited to: (a) the importance of promptly respecting the decision of another person not to engage in sexual conduct; and (b) the right of every individual to make such a decision and have it respected.

8. "Recruitment and training programs" means programs designed to recruit and train staff or volunteers in a rape crisis intervention and prevention program as well as training or education to other agencies participating in a community support system.

9. "Accompaniment services" means services that assure the presence of a trained rape crisis worker to assist and support the client, at hospitals, law enforcement agencies, district attorneys' offices, courts and other agencies.

10. "Referral" means referral to and assistance with medical services and services of criminal justice agencies, mental health agencies, or other entities providing related services.

§ 695-b. Authorization of programs. 1. The department is hereby authorized to contract, within amounts appropriated, for the provision of rape crisis intervention and prevention programs as provided herein. Rules, regulations and guidelines as shall be necessary or appropriate to assure successful implementation of this program shall be promulgated by the department.

2. Nothing contained in this section shall prohibit a program, with the approval of the department, from subcontracting for, or otherwise

ensuring that the required services are available.

§ 695-c. Technical assistance. The department shall provide or arrange to provide technical assistance as requested and necessary to programs to develop appropriate services and train staff, improve coordination with other appropriate support services, the criminal justice system and other appropriate officials and services.

§ 695-e. Assistance of other agencies. To effectuate the purposes of this article, the department may request from any department, board, bureau, commission or other agency of the state, and the same are authorized to provide, such assistance, services and data as will enable the department to assure that the provisions and intent of this article are carried out.

ARTICLE 7

FEDERAL GRANTS-IN-AID

Section 700. Federal aid; department to administer.

701. Federal aid; powers and duties of commissioner.

702. Federal aid; custody and payment of funds.

703. Federal aid; allotments to municipalities and local health districts.

§ 700. Federal aid; department to administer. 1. The department is hereby designated as the agency of the state to administer the provisions of the federal social security act or any other act of the congress which relate to maternal and child health services, the care and treatment of children with physical disabilities and other public health work and to co-operate with the duly constituted federal authorities charged with the administration thereof.

2. The commissioner is authorized and empowered to take such steps, not inconsistent with law, as may be necessary for the purpose of

procuring for the people of this state all of the benefits and assistance, financial and otherwise, provided, or to be provided for, by or pursuant to any act of congress relating to maternal and child health services, care and treatment of children with physical disabilities and other public health work.

§ 701. Federal aid; powers and duties of commissioner. The commissioner is authorized and empowered:

(a) to receive and disburse pursuant to this article the federal-aid moneys allotted to the state by or pursuant to the federal social security act or any other act of the congress making appropriations for allocation among the states for maternal and child health services, care and treatment of children with physical disabilities and other state and local public health work;

(b) on behalf of the state, to adopt, execute and administer plans and to put into effect such measures as may be necessary for maternal and child health service, for the care and treatment of children with physical disabilities, and for other public health work in the state;

(c) on behalf of the state, to make and execute such contracts, agreements, covenants or conditions, not inconsistent with law, as may be necessary or required by any duly constituted agency of the federal government as a condition precedent to receiving or in connection with such benefits and assistance;

(d) to co-operate with all state or local authorities and agencies authorized under such acts of the congress to carry out the purposes thereof;

(e) to adopt and from time to time to amend such rules and regulations and to prescribe such conditions, not inconsistent with law, as may be necessary to make available to the people of the state the relief and assistance afforded by such act of the congress;

(f) to enforce all of the provisions of this article and rules adopted pursuant hereto.

§ 702. Federal aid; custody and payment of funds. 1. The department of taxation and finance is designated as custodian of all federal-aid funds

allotted to the state for the purposes of this article by the United States.

2. Such funds shall be payable only on the audit and warrant of the comptroller on the certificate of the commissioner as provided in section one hundred ten of the state finance law.

3. Subject to the rules and regulations of the commissioner, such funds may be allocated to any municipal corporation, including the city of New York, and to any health district for the use of such municipal corporation or local health district in carrying out the purposes of such act of the congress.

§ 703. Federal aid; allotments to municipalities and local health districts. 1. Notwithstanding the provisions of any general, special or local law, the governing body of any municipal corporation or of any health district by a majority vote may authorize the proper officials of such municipal corporation or local health district to accept grants or allotments made to such municipal corporation or health district by the commissioner for the purpose of extending or improving within such municipal corporation or local health district the maternal and child health services, the care and treatment of children with physical disabilities, and other public health work.

2. The commissioner is authorized and empowered to prescribe the terms and conditions, not inconsistent with law, which must be fulfilled, and the standards of service which must be met by the authorities of any municipal corporation or health district in order to receive such allotment of federal-aid moneys.

ARTICLE 8

STATE HEALTH RESEARCH COUNCIL

Section 800. State health research council.

801. Organization; executive director.

802. Powers and duties.

803. Gender-specific questions on grant applications.

§ 800. State health research council. There is hereby established in the health department a state health research council. The council shall consist of the commissioners of health, mental hygiene, environmental conservation, and education, the chancellor of the state university and such other persons as the governor shall appoint, not exceeding twenty-nine in number inclusive of the ex-officio members. The chairman of the council shall be appointed by the governor. All appointments to the council shall be upon the advice and consent of the senate. Members shall serve for three-year terms; provided, however, that of the members first appointed pursuant to this section, ten shall serve for a term of one year only, and ten shall serve for a term of two years only. Members of the council shall receive no compensation for their services as members, but shall be allowed their actual and necessary expenses incurred in the performance of their duties. The principal office of the council shall be located in the county of Albany.

§ 801. Organization; executive director. The council may organize into such organizational units as the members determine to be necessary. The chairman shall appoint an executive director for the council. The department and any institute created by this chapter are authorized to supply such staff and services to the council as may be necessary for the council to fulfill its functions under this article.

§ 802. Powers and duties. 1. The council shall have the power and duty to:

- a. identify strategic areas for health research;
- b. conduct ongoing surveys of the state allocation of health research sources;
- c. develop health research programs and establish priorities for such

programs;

d. assure that women's health needs as well as men's have been considered in research programs which the council develops and in the priorities it establishes;

e. review and disseminate the results of health research programs;

f. stimulate independent health research;

g. coordinate health research within New York state to avoid unnecessary duplication of effort and facilities;

h. encourage health research in designated priority areas by assisting research projects in obtaining grants or fellowships;

i. develop a model health research plan for the state;

j. hold meetings at least semiannually. Special meetings may be called by the chairman;

k. encourage education and training in the area of health research;

l. accept on behalf of the state any grant, gift, devise or bequest, made to the health research council; and to cause the department of taxation and finance to establish from all such monies a special trust fund to be used under the direction of the council for the purpose of health research and training. Such grants, gifts, devises or bequests shall be accepted subject to the provisions of section fifty-three-a of the state finance law and subject to audit by the state comptroller;

m. make rules and regulations for the exercise of the council's powers and performance of its duties in order to carry out the provisions of this article; and

n. exercise and perform such other functions, powers, and duties as may from time to time be conferred or imposed by law.

2. For the purposes of this section research shall not include the actual delivery of health care or equipment for health care provided by existing institutes established by this chapter to conduct research, scientific investigations, seek methods of medical care or provide for the treatment of patients.

§ 803. Gender-specific questions on grant applications. In order to obtain reliable and comprehensive data on the health needs of women as well as to ensure that women's health needs are served, in developing grant applications and consistent with the objectives and nature of the studies and research project, the department of health shall include gender-specific questions to determine whether the research and studies will impact primarily men or women and whether there are significant differences between the sexes in the outcome of the research or studies.

For purposes of this section, studies and research shall mean any studies or research for which the department of health provides funds. It shall not apply to any grant for which there are contrary indications in federal regulations.

ARTICLE 9

PRIMARY CARE EDUCATION AND TRAINING

Section 900. Short title.

901. Definitions.

902. Grants for primary care undergraduate medical education.

903. Primary care physician loan repayment program.

904. Primary care practitioner scholarship program.

905. Grants for primary care practitioner education.

906. Grants for minority participation in medical education.

907. Reports.

§ 900. Short title. This article shall be known and may be cited as the "primary care education and training act."

§ 901. Definitions. The following words or phrases as used in this article shall have the following meanings:

1. "Continuity experience" means that site where a resident spends at least twenty percent of his or her training providing primary care services to a panel of patients who are followed by such resident throughout his or her training.

2. "Council" means the New York state council on graduate medical education.

3. "President" means the president of the New York state higher education services corporation.

4. "Primary care practitioner program" means a full or part-time graduate, undergraduate or certificate course of study, approved or registered by the regents or a program registered by the department of education or determined by the department of education to be the equivalent required to practice as a licensed or certified primary care practitioner.

5. "Primary care medical training program" means a graduate medical education training program in New York state defined by the commissioner, in consultation with the council, pursuant to regulations, as providing appropriate training in primary care medicine.

6. "Underserved area" means an area or medically underserved population designated by the commissioner pursuant to regulation, and in consultation with the respective health systems agency, as having a shortage of primary care physicians or primary care practitioners.

7. "Primary care practitioner" means a midwife, nurse practitioner, or physician assistant who is licensed or certified to practice in New York state and who provides or arranges for coordinated primary care services.

8. "Primary care physician" means a physician specialist in the field of family practice, general pediatrics, primary care internal medicine or primary care obstetrics and gynecology; who provides coordinated primary care services.

§ 902. Grants for primary care undergraduate medical education. 1. The commissioner, in collaboration with the commissioner of education, is authorized, within amounts available pursuant to subdivision nineteen-a of section twenty-eight hundred seven-c of this chapter, to make grants to medical schools located in New York state in order to enhance the study of primary care, to increase the opportunities for undergraduate medical education in primary care at community-based sites and encourage the training of primary care physicians.

2. Grant proceeds may be used for faculty development; costs incurred teaching medical students at community-based sites, including, but not limited to, personnel, administration, and student-related expenses; expansion or development of programs that train primary care physicians; and other innovative programs designed to increase the number of medical students choosing primary care.

3. Such grants shall be awarded on a competitive basis in amounts not to exceed five hundred thousand dollars through a request for application process. In making awards, consideration shall be given to applicants who:

- (a) apply in collaboration with community-based providers;
- (b) make complementary efforts to enhance their curriculum in primary care;
- (c) make complementary efforts to recruit qualified faculty in primary care education;
- (d) make complementary efforts to reduce the percentage of students graduating in non-primary care specialties; and
- (e) make complementary efforts to match such award from funds raised through non-public sources.

4. The intent of this program is to augment or increase primary care undergraduate medical training. Grant funding shall not be used to offset existing expenditures that the medical school has obligated or intends to obligate for primary care training programs.

§ 903. Primary care physician loan repayment program. 1. The commissioner, in collaboration with the commissioner of education and the president of the higher education services corporation, is authorized and directed to establish a physician loan repayment program to encourage medical students to enter primary care specialties and to serve underserved areas and populations.

2. The commissioner is authorized, within amounts available pursuant to subdivision nineteen-a of section twenty-eight hundred seven-c and section twenty-eight hundred seven-l of this chapter, to make loan repayment awards as follows:

(a) beginning January first, nineteen hundred ninety-four, to any resident who first entered a primary care medical training program on or after January first, nineteen hundred ninety-four in the second or third year of such program; provided such resident agrees to practice primary care in an underserved area in New York state for one year for each such annual award received, with such practice beginning immediately after completion of such residency training. Such resident shall be eligible for an award of up to ten thousand dollars per year and beginning January first, nineteen hundred ninety-seven of up to fifteen thousand dollars per year; and

(b) beginning January first, nineteen hundred ninety-five, to a primary care physician, emergency medicine physician or other physician specialty determined by the commissioner to be in short supply, licensed to practice medicine in New York state, who agrees to practice for at least two years in an underserved area. Such physician shall be eligible for a loan repayment award of up to ten thousand dollars per year and beginning January first, nineteen hundred ninety-seven of up to fifteen thousand dollars per year for each of the first two years of practice in such area; provided, however, if such physician agrees to practice for an additional two years in such area, then such physician shall be

eligible for an award of up to fifteen thousand dollars per year and beginning January first, nineteen hundred ninety-seven of up to twenty thousand dollars per year for each of the second two years of such practice.

3. Loan repayment awards made to a physician pursuant to subdivision two of this section shall not exceed the total qualifying outstanding debt of the physician from student loans to cover tuition and other related educational expenses, made by or guaranteed by the federal or state government, or made by a lending or educational institution approved under title IV of the federal higher education act. Loan repayment awards shall be used solely to repay such outstanding debt.

4. Within such time as the commissioner shall by regulation provide, a recipient of an award shall have practiced as a primary care physician in an underserved area in the state of New York or, in the case of a recipient of an award after completion of residency training, the recipient shall have practiced in an underserved area for that number of months calculated by multiplying by twelve the number of annual awards received by the recipient. If a recipient fails to comply fully with such conditions, the president shall be entitled to receive from such recipient an amount to be determined by the formula:

$$A = 2B(t-s)$$

t

In which "A" is the amount the president is entitled to recover, "B" is the sum of all payments made to the recipient and the interest on such amount which would be payable if at the times such awards were paid they were loans bearing interest at the maximum prevailing rate; "t" is the total number of months in the recipient's period of obligated services; and "s" is the number of months of services actually rendered by the recipient. Any amount which the president is entitled to recover under this subdivision shall be paid within the five-year period beginning on the date that the recipient failed to comply with this condition. Any obligation to comply with such provisions shall be canceled upon the death of the recipient. The commissioner of health shall promulgate regulations to provide for the waiver or suspension of any financial

obligation when compliance would involve extreme hardship.

5. The commissioner is authorized to apply any funds available for purposes of subdivision two of this section for use as matching funds for federal grants for the purpose of assisting states in operating loan repayment programs pursuant to section three hundred thirty-eight I of the public health service act.

6. The commissioner, in consultation with the council, shall promulgate regulations necessary to effectuate the provisions and purposes of this section.

§ 904. Primary care practitioner scholarship program. 1. The commissioner, in collaboration with the commissioner of education and the president of the higher education services corporation, is authorized and directed to establish a primary care practitioner scholarship program to provide financial support to applicants to enter or continue in a primary care practitioner program and who agree to serve in underserved areas of New York state.

2. The commissioner is authorized, within amounts available pursuant to subdivision nineteen-a of section twenty-eight hundred seven-c and section twenty-eight hundred seven-l of this chapter, to make scholarship awards pursuant to this section.

3. A scholarship recipient shall (a) be a resident of New York state who attends or plans to attend a primary care practitioner program; and (b) agree to practice as a primary care practitioner in an underserved area of New York state.

4. In selecting students to be awarded scholarships, preference shall be given to students who attend or plan to attend a primary care practitioner program located in New York state. Priority in the selection of recipients shall be given to recipients applying for second year funding. Scholarships shall be awarded competitively using selection criteria that include, but are not limited to: academic

performance, previous work experience in their chosen profession, and a demonstrated interest or commitment in working with underserved populations or in underserved areas.

5. Within such time as the commissioner shall by regulation provide, a recipient of an award shall agree to practice in an underserved area of this state for a period of eighteen months for each annual award to be received by the recipient. In no case shall the total number of months of service be less than eighteen. The commissioner shall secure from each recipient a written agreement to:

(a) provide primary care services in an area designated as having a shortage of primary care practitioners;

(b) work in a practice site that accepts payment on behalf of beneficiaries of title XVIII of the federal social security act (medicare) and individuals eligible for medical assistance pursuant to title eleven of article five of the social services law; and

(c) provide thirty-five hours per week of direct patient care in the designated shortage area being served.

6. If a recipient fails to comply fully with such conditions, the president shall be entitled to receive from such recipient an amount to be determined by the formula:

$$A = 2B(t-s)$$

t

in which "A" is the amount the president is entitled to recover, "B" is the sum of all awards made to the recipient and the interest on such amount which would be payable if at the times such awards were paid they were loans bearing interest at the maximum prevailing rate; "t" is the total number of months in the recipient's period of obligated services; and "s" is the number of months of service actually rendered by the recipient. Any amount which the president is entitled to recover under this paragraph shall be paid within the five-year period beginning on the date that the recipient failed to comply with this service condition. Nothing in the written agreement shall affect the terms of employment of the individual who shall negotiate, separate and apart from the program, his or her salary and other forms of employment with

an agency, institution or a program in which he or she shall be employed. Any obligation to comply with such provisions as outlined in this section shall be canceled upon the death of the recipient. The commissioner shall promulgate regulations to provide for the waiver or suspension of any financial obligation when compliance would involve extreme hardship.

7. A recipient of an award shall report annually to the New York state higher education services corporation, on forms prescribed by the president, as to the performance of the required services, commencing with the calendar year in which the recipient begins to provide primary care services in an underserved area and continuing until the recipient shall have completed, or until it is determined that he or she shall not be obligated to complete, the required services. If the recipient shall fail to file any report required hereunder within thirty days of written notice to the recipient, mailed to the address shown on the last application for an award or last report filed, whichever is later, the president of the corporation may impose a fine of up to one thousand dollars. The president shall have the discretion to waive the filing of a report, excuse a delay in filing or a failure to file a report, or waive or reduce any fine imposed for good cause shown.

8. The commissioner is authorized to apply any funds available for purposes of subdivision two of this section for use as matching funds for the federal community scholarship programs grants pursuant to section three hundred thirty-eight L of the public health service act.

§ 905. Grants for primary care practitioner education. 1. The commissioner in collaboration with the commissioner of education is authorized, within amounts available pursuant to subdivision nineteen-a of section twenty-eight hundred seven-c of this chapter, to make grants to colleges, universities or hospital-based training programs within New York state to establish or expand training programs for nurse practitioners, physician assistants or midwives, and to increase the opportunities for practitioner education in primary care at community-based sites.

2. Grant funds may be used for administration, faculty recruitment and development, start-up costs and costs incurred teaching primary care practitioners at community-based sites, including, but not limited to, personnel, administration and student related expenses and other expenses judged reasonable and necessary by the commissioner.

3. Grants shall be awarded on a competitive basis in amounts not to exceed two hundred fifty thousand dollars through a request for application process. In making awards, the commissioner shall consider:

(a) the need for primary care practitioners in the region in which the applicant is located;

(b) the cost-effectiveness of the proposal; and

(c) the applicant's commitment to place graduates in primary care settings and/or underserved areas.

4. The intent of the program is to augment or increase training programs for nurse practitioners, physician assistants and midwives. Grant funding shall not be used to offset existing expenditures the institution or program has obligated or intends to obligate for such training programs.

§ 906. Grants for minority participation in medical education. 1. The commissioner, in collaboration with the commissioner of education, within amounts available pursuant to subdivision nineteen-a of section twenty-eight hundred seven-c and section twenty-eight hundred seven-l of this chapter, is authorized to make grants to encourage minority participation in medicine.

2. Grants shall be awarded through a request for application process for the following purposes:

to medical schools located in New York state or primary care medical training programs to encourage minority participation in medical education, which may include programs to enhance minority recruitment and retention, minority student mentoring programs, development of

medical career pathways for minority students, and development of minority faculty role models.

3. The intent of this program is to augment or increase minority participation in medical education. Grants funding shall not be used to offset existing expenditures which the grantee has obligated for minority participation in medical education.

§ 907. Reports. The commissioner, in conjunction with the commissioner of education, shall prepare and submit a report to the governor and the legislature, due on February first, nineteen hundred ninety-five, reporting the results and evaluating the effectiveness of the New York state primary care education and training act, including recommendations for the placement of primary care physicians and primary care practitioners in underserved areas.

ARTICLE 9-A

NEW YORK STATE SMALL BUSINESS HEALTH INSURANCE PARTNERSHIP PROGRAM

Section 921. Definitions.

922. New York state small business health insurance partnership program.

§ 921. Definitions. For the purposes of this article, unless the context clearly requires otherwise:

1. "Applicant" means an eligible employer which submits an application under subdivision two of section nine hundred twenty-two of this article.

2. "Eligible employer" means a sole proprietor or an employer of between one and fifty full-time employees, who has not within the twelve-month period prior to the effective date of this section provided group health insurance benefits to any employee associated with the employers' business.

3. "Small business health insurance partnership program" means a program which assists employers in providing health care coverage under subdivision two of section nine hundred twenty-two of this article.

4. "Small group health insurance policy" means a group health insurance policy or comprehensive health services plan issued on a community-rated, open-enrolled basis pursuant to article thirty-two or forty-three of the insurance law by an insurer licensed pursuant to article forty-one or forty-two of the insurance law, a corporation organized pursuant to article forty-three of the insurance law, or a health maintenance organization certified pursuant to article forty-four of the public health law; provided, however, in no event shall premiums be used to purchase riders to policies or to purchase non-comprehensive policies.

5. "Incentive payment" means the payment of the portion of the premium for a small group health insurance policy obtained through the small business health insurance partnership program.

6. "Partnership certificate" means a certificate evidencing the approval of an application from an eligible employer which is issued prior to January first, two thousand.

7. "Full-time employee" means an employee who works twenty or more hours per week.

§ 922. New York state small business health insurance partnership program. 1. The commissioner is authorized to the extent of funds available therefor to establish the New York state small business health insurance partnership program.

2. New York state small business health insurance partnership program. (a) A small business health insurance partnership program shall assist eligible employers in purchasing small group health insurance policies for their full-time employees and dependents.

(b) An eligible employer may apply to the commissioner for approval in the small business health insurance partnership program by submitting an application on a form prescribed by the commissioner. The information required on such application shall include, but not be limited to:

(i) the name and address of the employer and the nature of the business;

(ii) the names and salaries of the employer and employees;

(iii) an affidavit by the employer that employer-provided health insurance benefits have not been provided to employees in the twelve-month period prior to the effective date of this article; and

(iv) such other information as the commissioner may require.

(c) Upon reviewing the applications from eligible small employers, the commissioner shall, within the amount appropriated for such purpose, award partnership certificates to employers which meet the eligibility requirements; provided however, no partnership certificates will be awarded by the commissioner on and after January first, two thousand. In addition to evidencing approval of an eligible employer, the certificate shall state the amount of a small business health insurance partnership incentive payment for a small group health insurance policy, which in no event may exceed forty-five percent of the premium costs for group health care coverage for employees and their dependents. Employees may be required to make contributions to the payment of premium costs under this program at the option of the employer, but in no event shall such contribution exceed ten percent of the premium costs. Premium costs incurred by an employer for small group health insurance coverage for officers and directors of an employer and others with a proprietary or ownership interest in the employer may be eligible for an incentive payment to offset premium costs; provided, however, that the gross household income of such officers and directors or others with a proprietary or ownership interest is at or below two hundred twenty-two percent of the non-farm federal poverty level and provided further that one or more employees and their dependents proposed to be covered by such group health care coverage are unrelated to such officers, directors or other persons with a proprietary or ownership interest. If after joining the program an employer participating in a small business insurance partnership program hires more employees so that the employer has more than fifty full-time employees at any one time, the employer

may continue in the program but the premium costs attributable to the additional employees in excess of fifty or their families shall not be eligible for incentive payments.

(d) In approving partnership certificates for eligible small employers prior to January first, two thousand, the commissioner shall:

(i) first approve applications from eligible employers currently receiving assistance through a small business health insurance program created by the expanded health care coverage act authorized pursuant to chapter seven hundred three of the laws of nineteen hundred eighty-eight; and

(ii) give preference to eligible employers with the lowest average salaries and base the amount of the certificate on the salaries received by the employer and employees in order to maximize the impact of the small business partnership premium payments.

(e) Upon receipt of a partnership certificate from the commissioner, an approved eligible employer may obtain a small group health insurance policy from the insurer, health maintenance organization or corporation of its choice. No such insurer, health maintenance organization or corporation shall refuse to accept a small employer holding a valid partnership certificate and such insurer, organization or corporation shall arrange for the payment of the small employer's share of the small group health insurance policy or comprehensive health services plan premium. The approved applicant shall make available upon request from the commissioner information regarding continued eligibility in the program.

The commissioner shall, within amounts available therefor, on a competitive bid process, contract with organizations for purposes of public education, outreach and recruitment of eligible businesses, including the distribution of applications and information regarding enrollment. The organizations shall include, but not be limited to: community based organizations such as chambers of commerce or trade organizations, diagnostic and treatment centers, hospitals, and other such organizations which engage in outreach and marketing activities. In no event shall the amount available for education, outreach, and recruitment exceed two percent of the total amount available for the purposes of this section.

(f) The commissioner, by rules and regulations, adopted by the commissioner shall establish the procedure by which insurers, corporations and organizations issuing small group health insurance policies under this article may redeem a certificate or certificates for the portion of the premium not paid by the employer, but in no event shall such redemption occur on less than a quarterly basis.

Any business which, with the intent to obtain benefits, willfully misstates information required for application for participation in the New York state health insurance partnership program or willfully fails to notify the commissioner or the commissioner's designee of any change in status which makes the business ineligible for the program, shall repay such incentive payments paid on behalf of its employees or program participants for health coverage through the New York state health insurance partnership program.

(g) Notwithstanding any inconsistent provision of law or regulation to the contrary, benefits under the small business health insurance partnership program shall be considered secondary to any other plan of insurance or benefit program under which a person may have coverage.

(h) On or before April first, nineteen hundred ninety-seven, and annually thereafter through April first, two thousand, the commissioner shall submit a report on the small business health insurance partnership program to the governor, the speaker of the assembly and the majority leader of the senate. Such report shall include, but not be limited to:

(i) the number of employers and employees able to purchase small group health insurance policies under the program;

(ii) the location and the nature of the business of such employers;
and

(iii) recommendations for any changes which would improve the program.

ARTICLE 9-B

PRIMARY CARE SERVICE CORPS PRACTITIONER LOAN REPAYMENT PROGRAM

Section 923. Definitions.

924. Primary care service corps practitioner loan repayment program.

§ 923. Definitions. The following words or phrases as used in this section shall have the following meanings:

1. "Underserved area" means an area or medically underserved population designated by the commissioner as having a shortage of primary care physicians, other primary care practitioners, dental practitioners or mental health practitioners.

2. "Primary care service corps practitioner" means a physician assistant, nurse practitioner, midwife, general or pedodontic dentist, dental hygienist, clinical psychologist, licensed clinical social worker, psychiatric nurse practitioner, licensed marriage and family therapist, or a licensed mental health counselor, who is licensed, registered, or certified to practice in New York state and who provides coordinated primary care services, including, but not limited to, oral health and mental health services and meets the national health service corps state loan repayment program eligibility criteria.

3. "Physician assistant" means a person who has been registered as such pursuant to article one hundred thirty-one-B of the education law and meets the national health service corps state loan repayment program eligibility criteria.

4. "Nurse practitioner" means a person who has been certified as such pursuant to section sixty-nine hundred ten of the education law and meets the national health service corps state loan repayment program eligibility criteria.

5. "Midwife" means a person who has been licensed as such pursuant to section sixty-nine hundred fifty-five of the education law and meets the national health service corps state loan repayment program eligibility criteria.

6. "Psychologist" means a person who has been licensed as such pursuant to section seventy-six hundred three of the education law and

meets the national health service corps state loan repayment program eligibility criteria.

7. "Licensed clinical social worker" means a person who has been licensed as such pursuant to section seventy-seven hundred two of the education law and meets the national health service corps state loan repayment program eligibility criteria.

8. "Psychiatric nurse practitioner" means a nurse practitioner who, by reason of training and experience, provides a full spectrum of psychiatric care, assessing, diagnosing, and managing the prevention and treatment of psychiatric disorders and mental health problems and meets the national health service corps state loan repayment program eligibility criteria.

9. "Licensed marriage and family therapist" means a person who has been licensed as such pursuant to section eighty-four hundred three of the education law and meets the national health service corps state loan repayment program eligibility criteria.

10. "Licensed mental health counselor" means a person who has been licensed as such pursuant to section eighty-four hundred two of the education law and meets the national health service corps state loan repayment program eligibility criteria.

11. "General or pedodontic dentist" means a person who has been licensed or otherwise authorized to practice dentistry pursuant to article one hundred thirty-three of the education law excluding orthodontists, endodontists and periodontists and meets the national health service corps state loan repayment program eligibility criteria.

12. "Dental hygienist" means a person who is licensed to practice dental hygiene pursuant to section sixty-six hundred nine of the education law and meets the national health service corps state loan repayment program eligibility criteria.

§ 924. Primary care service corps practitioner loan repayment program.

1. Notwithstanding any contrary provision of this section, sections one hundred twelve and one hundred sixty-three of the state finance law, or any other contrary provision of law, the commissioner is authorized, within amounts available therefor, to make loan repayment awards to eligible primary care service corps practitioners who agree to practice full-time in an underserved area in New York state, in amounts to be determined by the commissioner, but not to exceed thirty-two thousand dollars per year for any year in which such practitioners provide full-time eligible obligated service, without competitive bid or request for proposal process.

2. Loan repayment awards made to a primary care service corps practitioner pursuant to subdivision one of this section shall not exceed the total qualifying outstanding debt of the practitioner from student loans to cover tuition and other related educational expenses, made by or guaranteed by the federal or state government, or made by a lending or educational institution approved under title IV of the federal higher education act. Loan repayment awards shall be used solely to repay such outstanding debt.

3. In the event that any commitment pursuant to the agreement referenced in subdivision one of this section is not fulfilled, the recipient shall be responsible for repayment in amounts which shall be calculated in accordance with the formula set forth in subdivision (b) of section two hundred fifty-four-o of title forty-two of the United States Code, as amended.

4. The commissioner is authorized to apply any funds available for purposes of subdivision one of this section for use as matching funds for any available federal grants for the purpose of assisting states in operating loan repayment programs.

5. The commissioner may postpone, change or waive the service obligation and repayments amounts set forth in subdivisions one and three of this section, respectively, in individual circumstances where there is compelling need or hardship.

6. In order to be eligible to receive a loan repayment award under this section, a primary care service corps practitioner must meet site and service eligibility criteria as determined by the commissioner.

7. The commissioner shall promulgate regulations necessary to effectuate the provisions and purposes of this article.

ARTICLE 11

PUBLIC WATER SUPPLIES; SEWERAGE AND SEWAGE CONTROL

- Title I. Potable waters (§§ 1100--1114-b).
- II. Realty subdivisions: water supply (§§ 1115-1120).
- II-A. Water Supply Emergency Plans (§ 1125).
- III. Annual water supply statement (§§ 1150-1153).
- IV. Drinking water revolving fund (§§ 1160-1169).

TITLE I

POTABLE WATERS

- Section 1100. Rules and regulations of the department.
- 1100-a. Fluoridation.
- 1101. Inspection.
- 1102. Violation; injunction and abatement.
- 1103. Violation; penalties.
- 1104. Sewage removal or purification; condemnation of property.
- 1105. Sewage removal or purification; rights of property owners.
- 1106. Limitations; city of New York.
- 1107. Orders of commissioner.
- 1108. Powers and duties with respect to comprehensive public water supply planning.
- 1109. Standards for water reuse.
- 1110. School potable water testing and standards.
- 1112. Emerging contaminant monitoring.
- 1113. Drinking water quality council; established.

- 1114. Lead service line replacement grant program.
- 1114-a. Voluntary public water system consolidation study.
- 1114-b. Service line inventories and mapping.

§ 1100. Rules and regulations of the department. 1. The department may make rules and regulations for the protection from contamination of any or all public supplies of potable waters and water supplies of the state or United States, institutions, parks, reservations or posts and their sources within the state, and the commissioner of environmental protection of the city of New York and the board of water supply of the city of New York may make such rules and regulations subject to the approval of the department for the protection from contamination of any or all public supplies of potable waters and their sources within the state where the same constitute a part of the source of the public water supply of said city.

2. Every such rule or regulation shall be published at least once in each week for two consecutive weeks, in at least one newspaper of the county where the waters to which it relates are located. The cost of such publication shall be paid by the corporation, municipality, state or United States or state or United States institution, park, reservation or post benefited by the protection of the water supply to which the rule or regulation published relates.

3. The affidavit of the printer, publisher or proprietor of the newspaper in which such rule or regulation is published shall be filed, together with the rule or regulation published, in the county clerk's office of such county, and such affidavit and rule and regulation shall be conclusive evidence of such publication, and of all the facts therein stated in all courts and places.

4. All rules and regulations heretofore duly made and published for the sanitary protection of public water supplies, pursuant to chapter five hundred forty-three of the laws of eighteen hundred eighty-five, and chapter six hundred sixty-one of the laws of eighteen hundred ninety-three, as amended, are hereby legalized, ratified, confirmed and

continued in force, until new rules and regulations become operative.

5. This section shall not be construed to repeal or affect any of the provisions of chapter three hundred seventy-eight of the laws of eighteen hundred ninety-seven, or its amendments.

§ 1100-a. Fluoridation. 1. Notwithstanding any contrary provision of law, rule, regulation or code, any county, city, town or village that owns both its public water system and the water supply for such system may by local law provide whether a fluoride compound shall be added to such public water supply.

2. Any county, wherein a public authority owns both its public water system and the water supply for such system, may by local law provide whether a fluoride compound shall be added to such public water supply.

3. No county, city, town or village, including a county wherein a public authority owns both its public water system and the water supply for such system, that fluoridates a public water supply or causes a public water supply to be fluoridated, shall discontinue the addition of a fluoride compound to such public water supply unless it has first complied with the following requirements:

(a) issue a notice to the public of the preliminary determination to discontinue fluoridation for comment, which shall include the justification for the proposed discontinuance, alternatives to fluoridation available, and a summary of consultations with health professionals and the department concerning the proposed discontinuance. Such notice may, but is not required to, include publication in local newspapers. "Consultations with health professionals" may include formal studies by hired professionals, informal consultations with local public health officials or other health professionals, or other consultations, provided that the nature of such consultations and the identity of such professionals shall be identified in the public notice. "Alternatives to fluoridation" may include formal alternatives provided by or at the expense of the county, city, town or village, or other alternatives available to the public. Any public comments received in response to

such notice shall be addressed by the county, city, town or village in the ordinary course of business; and

(b) provide the department at least ninety days prior written notice of the intent to discontinue and submit a plan for discontinuance that includes but is not limited to the notice that will be provided to the public, consistent with paragraph (a) of this subdivision, of the determination to discontinue fluoridation of the water supply, including the date of such discontinuance and alternatives to fluoridation, if any, that will be made available in the community, and that includes information as may be required under the Sanitary Code.

4. The commissioner is hereby authorized, within amounts appropriated therefor, to make grants to counties, cities, towns or villages that own their public water system and the water supply for such system, including a county wherein a public authority owns both its public water system and the water supply for such system, for the purpose of providing assistance towards the costs of installation, including but not limited to technical and administrative costs associated with planning, design and construction, and start-up of fluoridation systems, and replacing, repairing or upgrading of fluoridation equipment for such public water systems. Grant funding shall not be available for assistance towards the costs and expenses of operation of the fluoridation system, as determined by the department. The grant applications shall include such information as required by the commissioner. In making the grant awards, the commissioner shall consider the demonstrated need for installation of new fluoridation equipment or replacing, repairing or upgrading of existing fluoridation equipment, and such other criteria as determined by the commissioner. Grant awards shall be made on a competitive basis and be subject to such conditions as may be determined by the commissioner.

§ 1101. Inspection. 1. The person, officer, board or commission having the management and control of the potable water supply of any municipality, state or United States institution, park, reservation or post, and in the city of New York, the commissioner of environmental protection, and the board of water supply of the city of New York, or

the corporation furnishing such supply, may make such inspection of the sources of such water supply as such person, officer, board, corporation or commission deems advisable and to ascertain whether the rules or regulations of the department, and of the commissioner of environmental protection of the city of New York, and of the board of water supply of the city of New York, are complied with, and shall make such regular or special inspections as the commissioner, or the commissioner of environmental protection of the city of New York, or the board of water supply of the city of New York, may prescribe.

2. The authorities in charge of the water supply or their duly authorized representatives may without fee or hindrance, enter, examine and survey all grounds, structures, buildings and places on the watershed tributary to the sources of such water supply in order to ascertain whether such rules or regulations are complied with.

§ 1102. Violation; injunction and abatement. 1. If any inspection discloses a violation of any rule or regulation promulgated pursuant to section one thousand one hundred of this chapter relating to a temporary or permanent source or act of contamination, the person, officer, board, or commission having the management and control of the potable water supply of the municipality, state or United States institution, park, reservation or post, and in the city of New York, the commissioner of environmental protection, and the board of water supply of the city of New York, or the corporation furnishing such supply shall cause a copy of the rule or regulation violated to be served upon the person violating the same, with a notice of such violation. If the person served does not comply immediately with the rule or regulation violated, such person, officer, board, corporation or commission, except in a case concerning the violation of a rule or regulation relating to a temporary or permanent source or act of contamination affecting the potable water supply of the city of New York, shall notify the department of the violation.

2. (a) Upon being notified of any violation as herein provided, the department shall examine immediately into such violation; and if the

department finds such rule or regulation to have been violated, the commissioner shall order the local board of health of the health district wherein the violation or noncompliance occurs, to convene and enforce compliance with such rule or regulation.

(b) If the local board of health of the health district wherein the violation or noncompliance occurs, fails to enforce the order of the commissioner within ten days after its receipt, the corporation furnishing such water supply or the municipality, state, or United States or state or United States institution, park, reservation or post deriving its water supply from the waters to which such rule or regulation relates, or the commissioner, or the local board of health of the health district wherein the water supply protected by these rules is used, or any person interested in the protection of the purity of the water supply, may maintain an action in a court of record which shall be tried in the county where the cause of action arose against such person, for the recovery of the penalties incurred by such violation, and for an injunction restraining the person violating such rule or regulation from the continued violation thereof.

3. (a) If the person served with notice of violation does not comply within five days with the rule or regulation violated, in case such rule or regulation relates to a temporary or permanent source or act of contamination affecting the potable water supply of the city of New York, the commissioner of environmental protection of said city, or the board of water supply of the city of New York, may summarily enforce compliance with such rule or regulation and may summarily abate or remove the cause of the violation of such rule or regulation or the nuisance so created, and to that end may employ such force as may be necessary and proper; provided, however, that no building or improvement shall be removed, disturbed or destroyed by the said commissioner of environmental protection or the said board of water supply until he or they shall cause measurements to be made of the buildings and photographs of the exterior views thereof, which measurements and photographs shall be at the disposition thereafter of the owners or their attorneys, and failure to exercise such right of abatement shall not be deemed a waiver thereof.

(b) Failure to comply within five days with such rule or regulation

shall further entitle the city of New York to maintain an action in any court having jurisdiction thereof for the recovery of the penalties incurred by such violation in an amount authorized by section one thousand one hundred three of this title and for an injunction restraining the person from violating such rule or regulation, or creating or continuing such nuisance. The remedy by abatement herein provided for shall not be construed to be exclusive.

§ 1103. Violation; penalties. 1. If a person or entity willfully violates any rule or regulation promulgated pursuant to section one thousand one hundred of this title relating to a temporary or permanent source or act of contamination, such person or entity violating such rule or regulation shall be liable to prosecution for a misdemeanor for every such violation, and on conviction thereof shall be punished by a fine not exceeding one thousand dollars, or imprisonment not exceeding one year, or both.

2. If a person or entity violates any rule or regulation promulgated pursuant to section one thousand one hundred of this title relating to a temporary or permanent source or act of contamination, the department may impose a civil penalty for the violation thereof or the noncompliance therewith, not exceeding two hundred dollars for every such violation or noncompliance.

3. For purposes of calculating the applicable civil penalty under this section, each day on which such violation occurred may be considered a separate incident. In addition, a court may order such person or entity to make reparations for any permanent and/or substantial damage caused as a direct result of such violation. For purposes of subdivision one of this section, restitution and reparation may be ordered in accordance with applicable provisions of the criminal procedure law.

§ 1104. Sewage removal or purification; condemnation of property. 1. When the department or the commissioner of environmental protection of the city of New York, or the board of water supply of the city of New

York, shall, for the protection of a water supply from contamination, makes orders or regulations the execution of which will require or make necessary the construction and maintenance of any system of sewerage, or a change thereof, in or for any village or hamlet, whether incorporated or unincorporated, or the execution of which will require the providing of some public means of removal or purification of sewage, the municipality, corporation, state or United States or state or United States institution, park, reservation or post owning the waterworks benefited thereby shall, at its own expense, construct and maintain such system of sewerage, or change thereof, and provide and maintain such means of removal and purification of sewage and such works or means of sewage disposal as shall be approved by the department. For such purpose said municipality, corporation, state or United States or state or United States institution, park, reservation or post, may acquire, by condemnation the necessary real estate or interest therein or the easement or use thereof whether now used for public or private purposes.

2. When the execution of any such regulations of the department, or the commissioner of environmental protection of the city of New York, or the board of water supply of the city of New York will occasion or require the removal of any building or buildings, the municipality, corporation, state or state institution, park, reservation or post owning the waterworks benefited thereby shall, at its own expense, remove such buildings and pay to the owner thereof all damages occasioned by such removal.

3. When the execution of any such regulation will injuriously affect any property the municipality, corporation, state or state institution, park, reservation or post owning the waterworks benefited thereby shall make just and adequate compensation for the property so taken or injured and for all injuries caused to the legitimate use of operation of such property.

4. Until such construction or change of such system or systems of sewerage, and the providing of such means of removal or purification of sewage, and until such works or means of sewage disposal and the removal of any buildings are so made by the municipality, corporation, state or

state institution, park, reservation or post owning the waterworks to be benefited thereby at its own expense, and until, except in the case of a municipality, state or state institution, park, reservation or post, the corporation owning the waterworks benefited shall make just and adequate payment for all injuries to property and for all injuries caused to the legitimate use or operation of such property, there shall be no action or proceeding taken by any such municipality, officer, board, person, commission or corporation against any person or corporation for the violation of any regulation of the department under this article, and no person or corporation shall be considered to have violated or refused to obey any such rule or regulation.

§ 1105. Sewage removal or purification; rights of property owners. 1. The owner of any building the removal of which is occasioned or required, or which has been removed by any rule or regulation of the department, or the commissioner of environmental protection of the city of New York, or the board of water supply of the city of New York, made under the provisions of this article, and all persons whose rights of property are injuriously affected by the enforcement of any such rule or regulation, shall have a cause of action against the municipality or corporation, and shall have the right to present a claim against and to the state or state institution, park, reservation or post owning the waterworks benefited by the enforcement of such rule or regulation, for all damages occasioned or sustained by such removal or enforcement, including all injuries caused to the legitimate use or operation of such property.

2. (a) An action for such damages may be brought against such municipality or corporation in accordance with the provisions of the eminent domain procedure law.

§ 1106. Limitations; city of New York. Nothing contained in this chapter shall extend the sanitary control of the board of water supply of the city of New York, beyond the sources of potable water supply, tributary to the Catskill and Delaware aqueducts; and the powers granted

by this chapter to the board of water supply of the city of New York shall cease at the time of the transference of the jurisdiction over the source of water supply, by the board of water supply to the commissioner of environmental protection of the city of New York; and at no time shall the commissioner of environmental protection of the city of New York and the board of water supply of said city have or exercise concurrent powers or sanitary control over any source of potable water supply tributary to the Catskill or Delaware aqueduct.

§ 1107. Orders of commissioner. 1. When the commissioner, after investigation of the condition of any public water supply used for drinking or other domestic purposes, whether maintained and operated by a municipality, water district or private corporation, company or individual, shall certify to the board, corporation, company, officer or person in charge of the maintenance and operation of such water supply that in his opinion such water supply is so polluted or subject to dangerous pollution or so inadequate or of such objectionable physical quality as to constitute a menace to the public health and shall order reasonable improvements to be made for the protection of public health and such municipality, water district or private corporation, company or individual maintaining and operating such water supply shall fail to carry out such order forthwith, any court of competent jurisdiction may, upon the application of the commissioner, enforce prompt compliance with such order.

2. Service of the certificate by the commissioner as aforesaid shall be made upon the mayor or corporation counsel of the municipality or upon an officer of the water district or private corporation or company as the case may be.

3. The commissioner shall promulgate regulations to provide for immediate public notice, in a manner prescribed by such regulations, of the existence of a public health hazard concerning any public water supply.

§ 1108. Powers and duties with respect to comprehensive public water supply planning. The commissioner shall perform such duties and functions with respect to comprehensive public water supply planning as are provided in part five-A of article five of the conservation law, and shall have such powers and authority as may be necessary in that regard.

§ 1109. Standards for water reuse. 1. The commissioner shall advise the department of environmental conservation on the establishment of rules, regulations and standards for the reuse and disposal of reclaimed wastewater and/or greywater. Such advice shall include, but not be limited to, advice on water quality and pathogens monitoring requirements for each permitted use of reclaimed wastewater and greywater.

2. For the purposes of this section, the terms "greywater" and "reclaimed wastewater" shall have the same meaning as set forth in section 15-0601 of the environmental conservation law.

§ 1110. School potable water testing and standards. 1. In addition to school districts already classified as a public water system under parts 141 and 142 of title 40 of the code of federal regulations, as such regulations may, from time to time, be amended, every school district and board of cooperative educational services shall conduct triennial first-drawn tap testing of potable water systems to monitor for lead contamination in each occupied school building under its jurisdiction as required by regulations promulgated pursuant to this section. The testing shall be conducted and the results analyzed by an entity or entities approved by the commissioner.

2. Where a finding of lead contamination is made, the affected school district shall: (a) continue first-drawn tap water testing pursuant to regulations promulgated pursuant to this section; (b) provide school occupants with an adequate supply of safe, free to the school occupants, potable water for drinking as required by rules and regulations of the department until future tests indicate lead levels pursuant to

regulations promulgated pursuant to this section; and (c) provide parents or persons in parental relation to a child attending said school with written notification of test results.

3. The commissioner, in consultation with the commissioner of education, shall promulgate regulations to carry out the provisions of this section. Notwithstanding any other provision of law to the contrary, the regulations promulgated with regard to lead levels shall be consistent with the requirements for those school districts classified as a public water system under parts 141 and 142 of title 40 of the code of federal regulations as such regulations may, from time to time, be amended; provided, however, that the lead action level is exceeded if the concentration of lead is greater than 0.005 milligrams per liter.

4. The commissioner may grant a waiver from the testing requirements of this section for certain school buildings, provided that the school district has substantially complied with the testing requirements and has been found to be below lead levels as determined by regulations promulgated pursuant to this section, as amended, for such buildings.

5. Each school district and board of cooperative educational services conducting testing pursuant to subdivision one of this section and each school district classified as a public water system under parts 141 and 142 of title 40 of the code of federal regulations, as such regulations may, from time to time, be amended, shall make a copy of the results of all such testing, including laboratory reports, and any lead remediation plans available to the public on its website and any additional means as chosen by such district. A copy of the results of all testing shall also be immediately transmitted to the department and state education department in a format to be determined by the commissioner and to the county department of health in the local jurisdiction of the school building. The commissioner of education, in conjunction with the commissioner, shall publish a report triennially based on the findings from the tap water testing conducted according to the provisions of this section. Such report shall be sent to the commissioner, the governor, the temporary president of the senate, and the speaker of the assembly

and shall be made available on the department's and state education department's websites.

6. Expenses for remediation under this section and any regulations promulgated thereto shall be fully reimbursable from funds appropriated through the department of environmental conservation for clean water infrastructure projects.

§ 1112. Emerging contaminant monitoring. 1. Industry and modern technology have created thousands of new chemicals that would not otherwise exist in nature. Although some of these chemicals have proven benefits, the effect of many such chemicals on human health is unknown or not fully understood. Furthermore, with the advance of science and technology, public health scientists and experts are able to identify naturally occurring contaminants that pose previously unknown hazards to human health. Where these chemicals or contaminants, collectively referred to as "emerging contaminants," enter drinking water supplies, they can present unknown but potentially serious risks to public health. New Yorkers served by public water supplies have the right to know when potentially hazardous substances contaminate their drinking water and the department must be equipped to monitor and protect the public from these emerging contaminants.

2. a. "Emerging contaminants" shall mean any physical, chemical, microbiological or radiological substance listed as an emerging contaminant pursuant to subdivision three of this section.

b. "Notification level" means the concentration level of an emerging contaminant in drinking water that the commissioner has determined, based on available scientific information, warrants public notification and may require actions, which may include enhanced monitoring and activities to reduce exposure, pursuant to this section.

c. "Covered public water system" shall mean: (i) a public water system that serves at least five service connections used by year-round residents or regularly serves at least twenty-five year-round residents;

or (ii) a public water system that regularly serves at least twenty-five of the same people, four hours or more per day, for four or more days per week, for twenty-six or more weeks per year.

3. a. The commissioner shall promulgate regulations to identify and list substances as emerging contaminants that meet the following criteria:

(i) are not subject to any other substance-specific drinking water regulation of the department that establishes a maximum contaminant level, maximum residual disinfectant level, or action level;

(ii) are known or anticipated to occur in public water systems; and

(iii) because of their quantity, concentration, or physical, chemical or infectious characteristics, may cause physical injury or illness, or otherwise pose a potential hazard to human health when present in drinking water.

b. In determining what substances shall be listed as emerging contaminants the commissioner shall, at a minimum, consider:

(i) unregulated contaminants monitored pursuant to the federal Safe Drinking Water Act (42 U.S.C. § 300g-1) as amended from time to time;

(ii) substances that require regulation or monitoring when present in drinking water in other jurisdictions outside the state of New York;

(iii) pesticide chemicals for which the United States environmental protection agency has set human health benchmarks for drinking water;

(iv) substances found at sites in remedial programs located inside and outside the state of New York, including but not limited to inactive hazardous waste sites; and

(v) recommendations from the drinking water quality council established pursuant to section eleven hundred thirteen of this title.

c. The commissioner shall, at a minimum, include the following chemicals identified as emerging contaminants in the first list of emerging contaminants: perfluorononanoic acid (PFNA); perfluorohexanesulfonic acid (PFHxS); perfluoroheptanoic acid (PFHpA); perfluorobutanesulfonic acid (PFBS); hexafluoropropylene oxide dimer acid (HFPO-DA); Perfluorodecanoic acid (PFDA); Perfluorododecanoic acid (PFDoA); Perfluorohexanoic acid (PFHxA); Perfluoroundecanoic acid

(PFUnA); 11-chloroeicosafluoro-3-oxaundecane-1-sulfonic acid (11Cl-PF30UdS); 9-chlorohexadecafluoro-3-oxanonane-1-sulfonic acid (9Cl-PF30NS); 4,8-dioxa-3H-perfluorononanoic acid (ADONA); Nonafluoro-3,6-dioxaheptanoic acid (NFDHA); Perfluorobutanoic acid (PFBA); 1H, 1H, 2H, 2H-Perfluorodecane sulfonic acid (8:2FTS); Perfluoro(2-ethoxyethane)sulfonic acid (PFEESA); Perfluoroheptanesulfonic acid (PFHpS); 1H,1H, 2H, 2H-Perfluorohexane sulfonic acid (4:2FTS); Perfluoro-3-methoxypropanoic acid (PFMPA); Perfluoro-4-methoxybutanoic acid (PFMBA); 1H,1H, 2H, 2H-Perfluorooctane sulfonic acid (6:2FTS); Perfluoropentanoic acid (PFPeA); Perfluoropentanesulfonic acid (PFPeS).

d. The commissioner shall make regulations to list the following additional substances as emerging contaminants; provided however the commissioner may, upon review and recommendation by the drinking water quality council pursuant to section eleven hundred thirteen of this title determine not to include such chemicals as emerging contaminants by January first, two thousand twenty-four: 1,2,3-trichloropropane; chloromethane (methylchloride); 1,1-dichloroethane; bromomethane (methyl bromide); chlorodifluoromethene (HCFC-22); vanadium; molybdenum; cobalt; strontium; chromium-6; N-ethyl perfluorooctanesulfonamidoacetic acid (NEtFOSAA); N-methyl perfluorooctanesulfonamidoacetic acid (NMeFOSAA); Perfluorotetradecanoic acid (PFTA); Perfluorotridecanoic acid (PFTrDA). Provided, however, the commissioner may, upon review and recommendation by the drinking water quality council, determine not to include such chemicals as emerging contaminants: testosterone; and 4-androstene-3, 17-dione.

e. The commissioner shall by regulation remove any substance from the list of emerging contaminants upon adopting a maximum contaminant level for such substance.

4. Every covered public water system shall test drinking water for the presence of emerging contaminants at least once every three years pursuant to a schedule determined by the department through regulation.

5. Every test conducted in accordance with this section shall be

conducted by a laboratory certified by the department pursuant to section five hundred two of this chapter. Laboratories shall submit such results electronically to the department, to any other health department with jurisdiction over the covered public water system, and to the covered public water system, in the manner prescribed pursuant to section five hundred two of this chapter.

6. The commissioner shall promulgate regulations establishing notification levels for any emerging contaminant listed pursuant to subdivision three of this section. Any notification level established pursuant to this subdivision shall be equal to or lower than any federal lifetime health advisory level established pursuant to the federal Safe Drinking Water Act (42 U.S.C. § 300g-1). If no federal lifetime health advisory level has been established, the commissioner shall establish notification levels based upon the available scientific information, and may take into consideration recommendations of the drinking water quality council established pursuant to section eleven hundred thirteen of this title. Such notification levels shall be made easily accessible to the public through a link that is posted on the department's website and updated regularly.

7. Notwithstanding subdivision three of this section, the commissioner may, by declaration, add any physical, chemical, microbiological or radiological substance to the list of emerging contaminants established pursuant to subdivision three of this section, establish a notification level, and require testing for such substance, if the commissioner determines that: (i) such substance poses or has the potential to pose a significant hazard to human health when present in drinking water; (ii) such substance was recently detected in a public water system and has the potential to be present in other public water systems; and (iii) it appears to be prejudicial to the interests of the people to delay action by preparing and filing regulations. The commissioner shall, however, promulgate regulations adding such new emerging contaminant or establishing such notification level within one year of such declaration. Such declaration shall clearly state where and the date by which such testing must occur. After the commissioner promulgates regulations adding such emerging contaminant, such regulations shall

supersede the declaration issued pursuant to this subdivision. Until such notification levels are posted on the department's website pursuant to subdivision six of this section, the commissioner shall post the notification levels established by declaration on such website so that they are easily accessible through a link to the public.

8. Whenever one or more emerging contaminants is confirmed to be present in drinking water at concentrations at or above a notification level established pursuant to this section:

a. the covered public water system shall notify the department within twenty-four hours;

b. the covered public water system shall notify all owners of real property served by the covered public water system in a time and manner to be prescribed by the department, provided that in no event shall notification occur more than ninety days after the presence of an emerging contaminant at concentrations at or above a notification level established pursuant to this section is confirmed;

c. the commissioner may directly notify such owners of real property if it is determined that the public's interest would be best served by such notification, or if the commissioner determines that the covered public water system is not acting, or cannot act in a timely manner;

d. the commissioner may require that the covered public water system take such actions as may be appropriate to reduce exposure to emerging contaminants. If the commissioner determines that the concentration of the emerging contaminant constitutes an actual or potential threat to public health, based on the best available scientific information, the commissioner shall consult with the commissioner of the department of environmental conservation regarding any further action that may be appropriate, including but not limited to actions pursuant to title twelve of article twenty-seven of the environmental conservation law.

9. The commissioner shall work in consultation with the commissioner of the department of environmental conservation to develop educational

materials, and may take into consideration recommendations of the drinking water quality council established pursuant to section eleven hundred thirteen of this title. Such educational materials shall be made available through a link on the department's website that is easily accessible to the covered public water system and the general public, relating to methodologies for reducing exposure to emerging contaminants and potential actions that may be taken to mitigate or remediate emerging contaminants. Such link shall also include information relating to notification levels established by declaration pursuant to subdivision seven of this section and by regulation pursuant to subdivision six of this section. The commissioner shall coordinate with the United States Environmental Protection Agency to ensure that the information available on the EPA's Drinking Water Watch website is available to public water systems and that information available on the EPA's Safe Drinking Water Information System is available to the public through an easily accessible link on the department's website. The website and such links shall allow, to the extent practicable, the public to easily access information including but not limited to, basic water system information, including system identification number, name and type, department contacts, public notices, violations and enforcement actions taken by the state and federal government. The website and such links shall be monitored and updated regularly by the department. The commissioner shall also provide the covered public water system with information relating to potential funding sources provided by the state and federal government for mitigation or remedial activities, and to reduce the exposure to emerging contaminants.

10. Any owner of real property, including any owner's agent, to whom a covered public water system has provided notification of the exceedance of a notification level established pursuant to subdivision six of this section, shall take all reasonable and necessary steps to provide, within ten days, any tenants with copies of the notification provided by the covered public water system.

11. The commissioner may promulgate regulations pursuant to which the department may provide financial assistance for compliance with the testing requirements of this section, to any covered public water system

upon a showing that the costs associated with testing drinking water in compliance with this section would impose a financial hardship. Such regulations shall, when prioritizing public water systems for eligibility for financial assistance, incorporate provisions that give preference to public water systems serving less than ten thousand individuals.

12. The commissioner shall periodically review substances that have been identified as emerging contaminants pursuant to this section and determine if the department should establish a maximum contaminant level for the substance. Such review shall occur, at a minimum, once every three years.

13. The commissioner shall make draft regulations containing the first list of emerging contaminants within one hundred eighty days of the effective date of this subdivision and shall make regulations implementing this subdivision within ninety days thereafter.

14. The commissioner shall make regulations updating the list of emerging contaminants and their associated notification levels to reflect the latest available scientific information at least once every three years. The commissioner shall add new emerging contaminants under subdivision three of this section at least once every three years.

§ 1113. Drinking water quality council; established. 1. There shall be established, within the department, the drinking water quality council. Such council shall be composed of twelve members as follows:

(a) the commissioner, or the commissioner's designee, who shall be the chair of the council;

(b) the commissioner of environmental conservation or designee;

(c) a designee of the commissioner of environmental conservation with expertise in water resources;

(d) a designee of the commissioner with expertise in drinking water; and

(e) eight members appointed by the governor, two of whom shall be recommended by the temporary president of the senate, and two by the

speaker of the assembly.

2. (a) Of the four members appointed to the drinking water quality council and recommended by the temporary president of the senate and the speaker of the assembly, the temporary president of the senate and the speaker of the assembly shall each recommend:

- (i) one member who represents water purveyors; and
- (ii) one member representing the public, who has a background or expertise in toxicology or health risk assessment.

(b) Of the four additional members appointed to the drinking water quality council, the governor shall appoint:

- (i) one member who represents water purveyors;
- (ii) one member who has a background or expertise in toxicology or health risk assessment;
- (iii) one member who has a background or expertise in microbiology; and
- (iv) one member who has a background or expertise in environmental engineering.

(c) The members of such council appointed pursuant to paragraph (e) of subdivision one of this section shall serve terms of two years.

(d) The members appointed pursuant to paragraph (e) of subdivision one of this section shall each serve his or her term of office or until his or her successor is appointed; provided that any vacancy in the position of an appointed member shall be filled in the same manner as the original appointment and only for the unexpired term of the vacancy.

3. The members of the drinking water quality council shall receive no compensation for their services, but shall be allowed their actual and necessary expenses incurred in the performance of their duties pursuant to this title.

4. The drinking water quality council shall meet at such times and places as may be determined by its chair. The council shall meet at a minimum of two times per year. All meetings shall be open to the public pursuant to article seven of the public officers law. A majority of the members of such council shall constitute a quorum for the transaction of business. Action may be taken, and motions and resolutions adopted, at

any meeting by the affirmative vote of a majority of the full membership of the council.

5. The council shall make recommendations to the department relating to:

(a) those contaminants, which the department may list as emerging contaminants pursuant to section one thousand one hundred twelve of this title.

(i) In determining what substances shall be recommended as emerging contaminants the council shall, at a minimum, consider:

A. unregulated contaminants monitored pursuant to the federal Safe Drinking Water Act (42 USC § 300g-1) as amended from time to time;

B. substances that require regulation or monitoring when present in drinking water in other jurisdictions outside the state of New York;

C. pesticide chemicals for which the United States environmental protection agency has set human health benchmarks for drinking water;

D. substances found at sites in remedial programs located inside and outside the state of New York, including but not limited to inactive hazardous waste sites; and

E. waterborne pathogens and microbiological contaminants.

(ii) The council shall recommend a notification level for each recommended emerging contaminant.

(iii) The council shall recommend timeframes and frequencies in which testing should be required for the recommended emerging contaminants, allowing for variation based on circumstances such as the source of water, the region and size of the water system.

(iv) The council shall provide the department with its first list of recommended emerging contaminants and corresponding notification levels for which testing shall be required no later than one year from the initial meeting of the council, and the council shall update the list and recommend notification levels annually thereafter;

(b) a review of substances identified as emerging contaminants

pursuant to section one thousand one hundred twelve of this title. Where appropriate the council shall recommend either a maximum contaminant level (MCL), or the removal of the substance from the list of emerging contaminants, on the basis of available scientific evidence and any other relevant factors;

(c) the form and content of public notifications issued pursuant to section one thousand one hundred twelve of this title;

(d) working with other state agencies and the federal government to ensure funds are available and accessible, parties known to be responsible for contamination are pursued, and mitigation, remediation, and cleanup projects occur in a timely manner;

(e) the development of educational materials regarding private well water testing;

(f) the appropriate use of, and methods and manner of conducting, biomonitoring and biomonitoring studies;

(g) the inclusion of information on the online tracking and mapping system established in section 3-0315 of the environmental conservation law; and

(h) anything else the department or the department of environmental conservation designates.

6. The drinking water quality council shall be entitled to request and receive information from any state, municipal department, board, commission or agency that may be required or are deemed necessary for the purposes of such council, including but not limited to all water information and annual reports the department has relating to both public and private water supplies.

7. Before the council advances any recommendation to the department, the council shall provide an opportunity for public and stakeholder comments. Final recommendations of the council shall be posted on the department's website within thirty days after the council adopts such recommendations.

§ 1114. Lead service line replacement grant program. 1. The department shall allocate appropriated funds equitably among regions of the state.

Within each region, the department shall give priority to municipalities that have a high percentage of elevated childhood blood lead levels, based on the most recent available data. In distributing the awards allocated for each region to such priority municipalities, the department shall also consider whether the community is low income and the number of lead service lines in need of replacement. The department may request that such municipalities provide such documentation as the department may require to confirm award eligibility.

2. Further, the department shall establish a statewide plan for lead service line replacement, which shall include, at a minimum, a report on the implementation of subdivision one of this section, resources and techniques for identifying lead service lines throughout the state, the cost of replacing lead service lines, recommendations for municipalities on methods for evaluating the status of lead service lines present and guidance on replacement.

3. The department shall publish information, application forms, procedures and guidelines relating to the program on its website and in a manner that is accessible to the public and all potential award recipients.

§ 1114-a. Voluntary public water system consolidation study. 1. There shall be established in the department, by the commissioner, a voluntary public water system consolidation study designed to evaluate the feasibility of the joining of public water systems in order to improve water quality. Such study shall include:

(a) the feasibility of joining of two or more public water systems to form one water system;

(b) the feasibility of the consolidation of one or more public water systems into a larger public water system;

(c) the appropriate technical, managerial and financial capacity necessary for consolidation, including state funding mechanisms and incentives that could be utilized;

(d) potential public health impacts of consolidation, including ability to meet legally required water quality standards and the impact

on monitoring, reporting and enforcement of drinking water standards;

(e) appropriate and sufficient guidance from the department necessary for those public water systems interested in consolidation; and

(f) recommendations for public water systems interested in voluntary consolidation.

2. The department shall prepare and submit a report and supporting materials to the governor, the temporary president of the senate and the speaker of the assembly setting forth the information gathered and recommendations to the legislature by January first of the following year.

§ 1114-b. Service line inventories and mapping. 1. Definitions. For the purposes of this section:

(a) "Service line" means any piping connecting a water main to a building inlet.

(b) "Gooseneck, pigtail, or connector" means a short section of piping, typically not exceeding two feet, which can be bent and used for connections between rigid portions of a service line, as defined in 40 CFR 141.2.

(c) "Galvanized service line" means iron or steel piping that has been dipped in zinc to prevent corrosion and rusting.

(d) "Covered public water system" means (i) a public water system that serves at least fifteen service connections used by year-round residents or regularly serves at least twenty-five year-round residents; or (ii) a public water system that regularly serves at least twenty-five of the same people, four hours or more per day, for four or more days per week, for twenty-six or more weeks per year.

2. Each covered public water system shall submit a service line inventory, in a format to be developed by the department, that identifies the location, material composition, and other details of all service lines connected to its distribution system. Each covered public water system shall also submit an inventory summary form, in a format to be developed by the department, summarizing the data identified in the service line inventory. Notwithstanding subdivisions three and four of

this section, the development of service line inventories and inventory summary forms shall comply with requirements promulgated by the United States environmental protection agency.

3. Each service line shall be listed in service line inventories. Each covered public water system shall include for each service line the information listed in this subdivision. The covered public water system may mark "unknown" where documented evidence is not currently available:

- (a) street address;
- (b) town;
- (c) zip code;
- (d) if known, whether a gooseneck, pigtail, or connector made of lead is present;
- (e) if known, the material composition of both the public portion and customer portion of the service line;
- (f) if known, whether the public portion or customer portion of the service line was ever made of lead;
- (g) the verification method used to determine the material composition of both the public portion and customer portion of the service line;
- (h) if known, the installation or replacement date of both the public portion and customer portion of the service line;
- (i) if known, the diameter of both the public portion and customer portion of the service line;
- (j) if known, whether lead solder is present;
- (k) if known, the building type; and
- (l) if known, whether a point of use or point of entry treatment system is present.

4. Inventory summary forms shall include, but not be limited to, the following information about each covered water system:

- (a) water system name and identification number;
- (b) contact information for the owner or licensed operator of record completing the form;
- (c) the total number of service lines in the distribution system;
- (d) the total number of lead service lines, including the total number of lead public service line portions and the total number of lead customer service line portions;

(e) the total number of galvanized service lines requiring replacement as defined in 40 CFR 141.84, including the total number of galvanized public service line portions requiring replacement and the total number of galvanized customer service line portions requiring replacement;

(f) the total number of non-lead service lines, including the total number of non-lead public service line portions and the total number of non-lead customer service line portions;

(g) the total number of service lines of unknown material, including the total number of unknown public service line portions and the total number of unknown customer service line portions;

(h) the total number of public service line portions identified by historical records, field inspections, customer identification with photo or other verification, excavation, sequential sampling, statistical analysis/predictive modeling, or other method determined by the covered public water system to accurately identify service line materials;

(i) the total number of customer service portions identified by historical records, field inspections, customer identification with photo or other verification, excavation, sequential sampling, and statistical analysis/predictive modeling, or other method determined by the covered public water system to accurately identify service line materials;

(j) a description of how the service line inventory will be accessible to the public; and

(k) a certification verifying the accuracy of the information.

5. Each covered public water system shall electronically submit to the department an initial service line inventory and an initial inventory summary form no later than October sixteenth, two thousand twenty-four. The department may prescribe data management means and methods for electronic submissions by covered public water systems for uniformity purposes.

6. Covered public water systems whose inventories contain any service lines classified as lead, galvanized requiring replacement as defined in 40 CFR 141.84, or unknown shall electronically submit updated service line inventories and inventory summary forms to the department at least

annually. Updated service line inventories and inventory summary forms shall reflect information gathered during any service line replacements or service line material inspections that may have been conducted. Updated inventory summary forms shall additionally include:

- (a) a description detailing the steps being taken to determine the material composition of unknown service lines;
- (b) the total number of service lines classified as lead, galvanized requiring replacement, or unknown that were replaced over the course of the previous year; and
- (c) the total number of service lines classified as unknown that were determined to be lead, galvanized requiring replacement, or other material over the course of the previous year.

7. Each covered public water system which operates its own website shall make its most recent service line inventory and inventory summary form available to the public on its website.

8. No later than one hundred twenty days after receiving initial and updated service line inventories and inventory summary forms, the department shall make such inventories and inventory summary forms available to the public through the department's website. Each local health department shall include a link on its website to the website maintained by the department for hosting service line inventories and inventory summary forms.

9. No later than October sixteenth, two thousand twenty-six, the department shall make the information from the service line inventories of covered public water systems serving more than ten thousand people and fewer than two million people available to the public on the department's website in the form of an interactive map or maps. Such interactive map or maps shall include, for each service line:

- (a) material classification, including the material classification of both the public and customer portions of a service line;
- (b) street address; and
- (c) the verification method for the service line classification.

10. The department's interactive map or maps shall be searchable by

address, and color-coded where applicable to designate material classification. The department's interactive map or maps shall be updated at least annually, in conjunction with the submission of updated service line inventories by covered public water systems. The department may choose not to create an interactive map when a covered public water system certifies that it maintains and updates its own interactive map, and shall include a link to such interactive map on the department's website.

11. The department shall adopt such rules and regulations as it deems necessary and proper to implement the provisions of this section.

TITLE II

REALTY SUBDIVISIONS: WATER SUPPLY

Section 1115. Realty subdivisions; definitions.

1115-a. Remedy for purchaser of one parcel of unapproved realty subdivision.

1116. Realty subdivisions; plans required to be filed and approved.

1117. Realty subdivisions; duty of county clerk or register in respect to filing of plans and map.

1118. Realty subdivisions; local regulations.

1119. Realty subdivisions; filing fees to accompany plans.

1120. Realty subdivisions; regulation by commissioner.

§ 1115. Realty subdivisions; definitions. 1. As used in sections one thousand one hundred fifteen to one thousand one hundred eighteen of this chapter, inclusive, the word "subdivision" shall mean any tract of land which is divided into five or more parcels, after the effective date of this act, along an existing or proposed street(s), highway(s), easement(s) or right(s)-of-way for sale or for rent as residential lots or residential building plots, and in the county of Suffolk also as business, commercial or industrial lots or building plots, regardless of whether the lots or plots to be sold or offered for sale, or leased for any period of time, are described by metes and bounds or by reference to

a map or survey of the property or by any other method of description and regardless of whether the lots or plots are contiguous. A tract of land shall constitute a subdivision upon the sale, rental or offer for sale or lease of the fifth residential lot or residential building plot therefrom within any consecutive three year period, and at this time the provisions of section eleven hundred sixteen of the public health law shall apply to all such parcels thereof, including the first four parcels, regardless of whether said parcels have been sold, rented or offered for sale or lease singly or collectively.

2. The word "tract" shall mean any body of land, including contiguous parcels of land, under one ownership or under common control of any group of persons acting in concert as part of a common scheme or plan.

3. "Residential lot" or "residential building plot" shall mean any parcel of land of five acres or less, any point on the boundary line of which is less than one-half mile from any point on the boundary line of another such lot in the same tract, unless any such lot may not legally be used for residential purposes. Without limiting the generality of the foregoing, the term "residential" shall include temporary, seasonal and permanent residential use.

§ 1115-a. Remedy for purchaser of one parcel of unapproved realty subdivision. 1. The owner of a parcel of land acquired as one parcel for residential purposes may apply to the local or state health department having jurisdiction for a certificate approving the water supply for said parcel as adequate and satisfactory. The application shall include the description of the parcel as specified in the instrument, by which owner acquired title.

2. The proper department shall entertain said application and issue said certificate providing that the water supply shall, in the opinion of such department, be adequate in quality and potable and unobjectionable in physical and chemical quality and not be or become so polluted or subject to such pollution as to constitute a menace or potential menace to the public health or the health of persons using or

who may use the water thereby supplied.

3. The certificate approving the water supply for said parcel shall contain the name of the owner-applicant and the description of the property set forth in the application. The owner shall append the certificate of approval to a verified petition directed to the county clerk of the county wherein the property is located, praying that the petition and certificate of approval annexed be recorded and indexed against the owner-petitioner.

4. The county clerk upon receiving the petition with annexed certificate of approval, and upon tender of the lawful recording fees, shall record the same in his office and index it against the owner-petitioner. The recording of the petition with annexed certificate of approval shall be deemed compliance with section eleven hundred sixteen of this title, for the parcel described.

5. This section shall apply only to a single residential lot which was acquired May third, nineteen hundred sixty-six without having complied with the provisions of former section eighty-nine of the public health law or section eleven hundred sixteen of this title but was:

(a) acquired by the owner-applicant prior to January first, nineteen hundred seventy-one; or

(b) acquired by the owner-applicant through devise or intestate succession; or

(c) not at the time of acquisition of title by the owner-applicant, a part of a subdivision, as such term is defined in section eleven hundred fifteen of this title.

In addition, this section shall apply to a single residential lot which the appropriate department deems proper for approval because of hardship or other special circumstances established to its satisfaction by the owner-applicant.

§ 1116. Realty subdivisions; plans required to be filed and approved.

1. No subdivision or portion thereof shall be sold, offered for sale,

leased or rented by any corporation, company or person, and no permanent building shall be erected thereon, until a plan or map of such subdivision shall be filed with and approved by the department or city, county, or part-county department of health having jurisdiction and in the county of Suffolk until a plan or map shall have been also filed with and approved by the county department of environmental control and such plan or map thereafter filed in the office of the clerk of the county in which such subdivision is located.

2. Such plan or map shall show methods for obtaining and furnishing adequate and satisfactory water supply to said subdivision.

3. The installation of such facilities shall be in accordance with the plans or any revision or revisions thereof approved by the department or city, county or part-county department of health having jurisdiction.

§ 1117. Realty subdivisions; duty of county clerk or register in respect to filing of plans and map. The county clerk or register shall not file nor record nor accept for filing or recording any map or plat showing a subdivision of land in any town, village or city having a population of less than one million unless there is endorsed thereon or annexed thereto a certificate of the department or city, county or part-county department of health having jurisdiction approving the water supply system proposed or installed for such subdivision and consenting to the filing thereof.

§ 1118. Realty subdivisions; local regulations. 1. Any city or county which has established or establishes a city, county or part-county department of health may adopt regulations for the control of such developments. Regulations adopted by a county or city board of health may include, but not be limited to, establishment of such requirements as it may deem necessary to guarantee the installation of such water supply in accordance with the plans heretofore or hereinafter approved by the county or city department of health or any approved revision or revisions thereof.

2. Nothing contained in sections one thousand one hundred fifteen to one thousand one hundred eighteen of this chapter, inclusive, shall be construed to delegate the general powers of the department of environmental conservation nor to impair nor to deprive such department of its powers and functions as now provided by law.

§ 1119. Realty subdivisions; filing fees to accompany plans. 1. At the time of submitting a plan for approval as required by this article, a filing fee computed at the rate of fifty dollars per lot shall be paid to the department or to the city, county or part-county health district wherein such plans are filed.

2. The department, or the city, county or part-county health district, shall not review or approve any such subdivision map submitted for approval after this section takes effect until such fee, as herein provided, has been received by it.

3. If any plan submitted to the department, or to a city, county or part-county health district, cannot be approved, such plan shall be returned to the person who submitted the plan with a summary of the reasons for disapproval.

4. Notwithstanding any other provision of this title the commissioner is empowered to make administrative arrangements with the commissioner of environmental conservation for joint or cooperative administration of this title and title fifteen of article seventeen of the environmental conservation law, such that only one plan must be filed and only one fee totaling one hundred dollars per lot must be paid.

§ 1120. Realty subdivisions; regulation by commissioner. The commissioner of health may from time to time establish by rule or regulation standards for subdivisions necessary to effect the purposes of this title and not inconsistent with regulations of a city, county or part-county department of health having jurisdiction, now or hereafter

adopted pursuant to law. In the event of and to the extent of such inconsistency, the standards established by the commissioner shall be deemed inapplicable.

TITLE II-A

WATER SUPPLY EMERGENCY PLANS

Section 1125. Water supply emergency plans.

§ 1125. Water supply emergency plans. 1. Definitions. As used in this title:

(a) "Water supply emergency plan" shall mean a plan reviewed and approved by the commissioner and filed with the department. The plan shall follow a form which shall be specified by the department and which shall include, but not be limited to, those items enumerated in this section, and shall address those actions to be taken by a water supplier to anticipate emergencies and respond responsibly to emergency situations. The department shall maintain a list of all water suppliers required to submit a water supply emergency plan pursuant to this section.

(b) "Water supplier" shall mean any person who owns or operates a community water system that supplies drinking water to more than three thousand three hundred people.

2. All water suppliers shall prepare a water supply emergency plan; provided, however, if more than one water supplier is responsible for the same system, such plan shall be submitted jointly by such two or more water suppliers. The plan shall identify and outline the steps necessary to ensure that potable water is available during a water supply emergency. The water supply emergency plan shall include, but not be limited to, the following:

(a) establishment of criteria and procedures to determine critical water levels or safe yield of system,

(b) identification of existing and future sources of water under normal conditions and emergency conditions,

(c) system capacity and ability to meet peak demand and fire flows

concurrently,

- (d) storage capacities,
- (e) current condition of present interconnections and identification of additional interconnections to meet a water supply emergency,
- (f) specific action plan to be followed during a water supply emergency including a phased implementation of the plan,
- (g) general water conservation programs and water use reduction strategies for water supply emergencies,
- (h) prioritization of water users,
- (i) identification and availability of emergency equipment needed during a water supply emergency,
- (j) public notification program coordinated with the phased implementation schedule, and
- (k) a vulnerability analysis assessment, including an analysis of vulnerability to terrorist attack and cyber attack, which shall be made after consultation with local and state law enforcement agencies.

3. All water suppliers shall, prior to the final submission of the water supply emergency plan, publish a notice in a newspaper of general circulation in the area served by the community water system stating that the proposed water emergency plan is available for review and comment; provided, however, a water supplier shall exempt from public disclosure for public review and comment any information it determines to pose a security risk to operation of the water supply system. Such notice shall be printed at least once in each of two successive weeks and the water supplier shall accept public comment for at least fourteen days following the date of the first publication. The water supplier shall submit all public comments with the water emergency plan to the department.

4. Water supply emergency plans shall be submitted to the commissioner on or before December thirty-first, nineteen hundred ninety. All water suppliers who have previously submitted emergency water supply plans which were approved by the commissioner prior to the effective date of this title are exempt from the provisions of this subdivision. The commissioner shall retain a copy of each water supply emergency plan.

5. Every water supplier shall review, and if necessary, revise its water supply emergency plan and report its findings to the commissioner by December thirty-first, nineteen hundred ninety-five. Any water supplier whose water supply emergency plan does not include an analysis of vulnerability to terrorist attack and cyber attack, shall initiate such an analysis by June first, two thousand seventeen, and shall revise its emergency plan and report its findings to the commissioner by January first, two thousand eighteen. Every water supplier shall keep its water supply emergency plan up to date, shall provide updated communication and notification information to the commissioner by December thirty-first of every year, and shall submit its water supply emergency plan to the commissioner for review at least once every five years and within thirty days after major water facility infrastructure changes have been made. The commissioner shall make available for review, following established security protocols, a copy of each vulnerability analysis assessment from a water supplier to the superintendent of state police, commissioner of the division of homeland security and emergency services, and chief technology officer.

6. (a) The commissioner or a county health department may provide guidance and assistance to community water systems on conducting vulnerability assessments, preparing water supply emergency plans and addressing threats from terrorist attacks, including cyber attacks, designed to disrupt the provision of safe drinking water or significantly affect the public health, or significantly affect the safety or supply of drinking water provided to communities or individuals.

(b) A community water system, that is not a water supplier, may elect to complete a water supply emergency plan. Such community water system may elect to submit the plan to the commissioner for approval. In such a case, the commissioner shall subject the plan to such approval process as described in paragraph (a) of subdivision one of this section.

7. The commissioner, in his discretion, may provide an opportunity for public hearing for persons served by a community water system.

8. The commissioner shall make such rules and regulations which may be

necessary to effectuate the purposes of this title.

9. The commissioner, superintendent of state police, commissioner of the division of homeland security and emergency services, and chief technology officer shall keep confidential: (a) all vulnerability analysis assessments and all information derived therefrom; and (b) all information determined by a water supplier to pose a security risk to the operation of a water supply system. Such assessments and information shall be exempt from disclosure under article six of the public officers law. A person who, without authorization, discloses any such assessment or information to another person who has not been authorized to receive such assessment or information is guilty of a class A misdemeanor.

TITLE III

ANNUAL WATER SUPPLY STATEMENT

Section 1150. Definitions.

1151. Annual water supply statement.

1152. Annual water supply statement; delivery.

1152-a. New York state public water supply report.

1153. Rules and regulations.

§ 1150. Definitions. As used in this title the term "water works corporation" shall mean any entity that has one thousand or more water service connections, and comes within the definition in section two of the public service law or paragraph (a) of subdivision one of section one hundred twenty-u of the general municipal law.

§ 1151. Annual water supply statement. Each water works corporation shall prepare and provide an annual water supply statement to the customers it serves. Such statement shall contain such information as is required in this title as well as any additional information required by the commissioner. Additionally, the statement shall provide a section which explains, in plain language, the information required in the statement. The department may prepare or prescribe a format or model

upon which all such statements shall be produced. The annual water supply statement shall include, but not be limited to, the following items of information:

1. A brief description on the source or sources of the water supply and the general qualitative and quantitative condition of the water source.
2. The population served.
3. For water works corporations that calculate water use of all customers with meters, an accounting of the total annual amount of water withdrawn, delivered, and lost from the system.
4. The analytical testing results for those constituents required to be tested for under part five of the state sanitary code or as required by appropriate local health units, except for microbiological results, for each source of water.

Where more than one analysis per year is conducted on a specific constituent, the water works corporation shall list the range of results from highest to lowest during the reporting period. The applicable state guideline, standard, or MCL for each constituent present shall be listed and any instance where a state guideline, standard, or MCL is violated shall be noted.

For microbiological analyses as required by part five of the state sanitary code, the water works corporation shall indicate any instance where the water supply violated the MCL. The date or dates of violation, the location where the violation occurred, and the response of the water works corporation shall be listed.

5. A brief description of the types of treatment that the water receives before entering the distribution system.

6. Any water sources restricted, removed from service, or otherwise limited in their use and any actions taken to secure new supplies or

replace lost capacity. For the purposes of this subdivision, "water sources" shall include surface water sources, such as, but not limited to, lakes, ponds, rivers, streams, reservoirs and impoundments and for groundwater sources, supply wells. For the purposes of this subdivision, "water sources" shall not include water mains or other types of conveyance infrastructure.

7. Information on water conservation measures customers can implement such as, but not limited to, retrofitting plumbing fixtures, altering irrigation timing, using irrigation sensors, leak detection, proper use of water-conserving appliances, daily conscientious use of water, and the estimated savings in water and energy or money from the use of such measures.

8. A description of the risks associated with exposure to cryptosporidium parvum or giardia lamblia for specific at-risk populations and the general public and measures that at-risk populations can take to protect themselves according to recommendations by the department or other governmental public health or environmental agencies. In addition, for water works corporations that test for cryptosporidium parvum or giardia lamblia, a summary of the following: sampling sites; number of tests per year; testing results and actions taken in response to those results.

9. General information regarding lead pipes reasonably known to be located within the water system, as that term is defined in subdivision twenty-six of section two of the public service law.

The commissioner may add such additional requirements as he determines to be appropriate.

§ 1152. Annual water supply statement; delivery. 1. Each water works corporation shall provide a water supply statement to its customers annually. The annual water supply statement shall either be mailed to each customer or published in at least one newspaper of general circulation in the area served by the water works corporation. If the

statement is to be published in a newspaper, the water works corporation shall provide ample notification by announcing the publication date and newspaper name either on the customers bill or in the newspaper in which the statement shall appear. A limited number of additional copies, in a quantity to be determined by the water works corporation, shall be provided to customers upon request. In addition, the statement must be posted on the water works corporation's website, if such exists, or be made available to the municipality or municipalities in which the water works corporation services to be posted on such municipalities' website, if such exists.

2. Each water works corporation shall also provide one copy of each annual water supply statement to the commissioner and the state commissioner of environmental conservation.

3. The annual water supply statement shall be mailed or published, and posted online on or before the thirty-first day of May of each year and shall apply to data received by the water works corporation during the preceding calendar year.

4. The information required by subdivision four of section eleven hundred fifty-one of this title for each source of water may be placed in a supplement to the annual water supply statement instead of in the main body of the statement; provided that:

(1) the statement provides such information for a representative sampling of distribution point samples and a notice to the effect that such information for each source of water is included in a supplement available to each customer upon request from the water works corporation; and

(2) the supplement is included in each copy of the water supply statement provided to customers upon request under subdivision one of this section and provided to commissioners under subdivision two of this section; and

(3) the supplement shall be

(i) published in a notice at least one-half page in size, in one newspaper of general circulation within the water district; or

(ii) made available on a public electronic bulletin board, along with

the supplements from the two prior years, if such prior supplements exist, and notice of the availability of such information on a public electronic bulletin board shall be clearly provided on each billing statement and shall be published in a newspaper of general circulation within the water district; or

(iii) made available at all New York state documents information access centers, documents reference centers, documents depository libraries and documents research depository libraries within the water district and if no such libraries exist within the water district, at a public library within the water district, and notice of the availability of the supplement at such library of libraries shall be clearly provided on each billing statement and shall be published in a newspaper of general circulation within the water district.

Such supplement need not be included in the copy of the annual water supply statement mailed to each customer or published under subdivision one of this section.

§ 1152-a. New York state public water supply report. The department, shall prepare an annual New York state public water supply report. Such report shall consist of a compilation and analysis of the information and data submitted by water suppliers pursuant to the provisions of this article.

§ 1153. Rules and regulations. The department shall have the power to make any rules and regulations that are necessary and appropriate to carrying out the purposes of this title.

TITLE IV

DRINKING WATER REVOLVING FUND

Section 1160. Definitions.

1161. Eligible projects; priority ranking.

1162. Financial assistance; criteria and standards;
regulations.

1163. Financing agreements.

- 1164. Inspection and certification.
- 1165. Noncompliance; notification.
- 1166. Implementation agreements.
- 1167. Financial assistance; recipients.
- 1167-a. Reimbursement of state assistance payments or grants made to municipality or recipient; admissibility of state assistance payments or grants as collateral source.
- 1168. Construction contracts; designations.
- 1169. Compliance with other laws.

§ 1160. Definitions. As used in this section:

1. "Allocation" means the amount of moneys allocated to reduce a recipient's or group of recipients' total financing costs for one or more eligible projects.

2. "Construction" means the erection, building, acquisition, alteration, reconstruction, improvement, enlargement or extension of an eligible project; the inspection and supervision thereof; and the engineering, architectural, legal, fiscal, and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures, and other actions necessary thereto.

3. "Corporation" means the New York state environmental facilities corporation, continued pursuant to section twelve hundred eighty-two of the public authorities law, or any successor thereto.

4. "Eligible project" means a project for construction of a water supply facility which is intended to improve drinking water facilities, including a project that would be eligible for financing under or designed to comply with the requirements of the federal safe drinking water act or other applicable federal law and state drinking water quality goals and standards, which the commissioner has determined:

(a) is necessary for the objectives and goals of the state sanitary code or the federal safe drinking water act to assure safe public

drinking water;

(b) represents a reasonable effort to develop a viable water supply that can consistently meet drinking water standards;

(c) takes into consideration the water resources management strategy pursuant to title twenty-nine of article fifteen of the environmental conservation law;

(d) is a project for which financial assistance is available from the fund; and

(e) conforms with applicable state rules and regulations.

5. "Financial assistance to a recipient" has the same meaning as set forth in subdivision four of section twelve hundred eighty-five-m of the public authorities law.

6. "Financing agreement" means an agreement between the corporation and one or more recipients meeting the requirements of section eleven hundred sixty-three of this title.

7. "Fund" means the drinking water revolving fund established under section twelve hundred eighty-five-m of the public authorities law.

8. "Intended use plan" means a plan identifying the intended uses of the amounts available in the fund, including but not limited to:

(a) a list of those projects for construction of water supply facilities on the priority list developed pursuant to section eleven hundred sixty-one of this title;

(b) a description of the short and long term goals and objectives of the fund;

(c) information on the activities to be supported, including a description of project categories, terms of financial assistance and communities served; and

(d) the criteria and method established for the distribution of financial assistance from the fund.

9. "Municipality" means any county, city, town, village, district corporation, county or town improvement district, school district, Indian nation or tribe recognized by the state or the United States with

a reservation wholly or partly within the boundaries of New York state, any public benefit corporation or public authority established pursuant to the laws of New York or any agency of New York state which is empowered to construct and operate an eligible project, or any two or more of the foregoing which are acting jointly in connection with an eligible project.

10. "Recipient" means any municipality, public utility, or person, including any individual, firm, partnership, association, not-for-profit corporation or other corporation organized and existing under the laws of the state or any other state which is empowered to construct and operate an eligible project, or any two or more of the foregoing which are acting jointly in connection with an eligible project.

§ 1161. Eligible projects; priority ranking. Subject to the provisions of section thirty-two of the chapter of the laws of 1996 which added this section, in consultation with the commissioner of environmental conservation, the commissioner shall establish and maintain a list of potentially eligible projects and shall establish, pursuant to rules and regulations, a process for listing potentially eligible projects identified by potential recipients and a priority ranking system for the purpose of providing financial assistance to recipients for such projects under this title. In establishing such system, the commissioner shall take into account the public health significance of such potentially eligible projects which shall include, but need not be limited to, an assessment of (i) public health and safety; (ii) population affected; (iii) attainment of state drinking water quality goals and standards; (iv) taking into consideration the water resources management strategy pursuant to title twenty-nine of article fifteen of the environmental conservation law; (v) taking into consideration future physical climate risk due to sea level rise, and/or storm surges and/or flooding, based on available data predicting the likelihood of future extreme weather events, including hazard risk analysis data if applicable; and (vi) compliance with state and federal law, rules and regulations.

§ 1162. Financial assistance; criteria and standards; regulations. 1.

The corporation is authorized to promulgate regulations, developed in consultation with the commissioner and the director of the division of the budget, for the purpose of carrying out its responsibilities under this title, including establishing criteria and standards for determining the amount and kind of financial assistance to a recipient for an eligible project. To the extent financial assistance to a recipient for an eligible project is provided from the proceeds of bonds or notes of the corporation, the amount of an allocation applicable to the portion of such eligible project financed with such financial assistance shall be determined by the corporation in accordance with such regulations, if any.

2. The department is authorized to promulgate regulations, developed in consultation with the director of the division of the budget and the corporation, for the purpose of carrying out its responsibilities under this title.

§ 1163. Financing agreements. The corporation and any recipient having the power to contract with respect to the financing of an eligible project may enter into a loan or other financing agreement providing for the construction and financing of eligible projects. The corporation shall prepare each financing agreement, which shall include but is not limited to the following provisions:

1. A description of the eligible project;
2. An estimate of the eligible project cost;
3. A right of the corporation to approve any contracts for services and construction funded pursuant to a financing agreement, and to inspect and review the construction of eligible projects;
4. Notwithstanding the provisions of any other law, general, special or local, inconsistent with this section, a right of the corporation to

invest proceeds of the corporation's bonds or notes, including proceeds of bonds or notes of the recipient, as provided in subdivision four of section twelve hundred eighty-four of the public authorities law and as provided in subdivision six of section twelve hundred eighty-five-m of the public authorities law.

Such right shall include the right to invest such monies together with any other monies held by the corporation pursuant to the provisions of section twelve hundred eighty-five-m of the public authorities law;

5. Remedies in the event of a recipient's failure to comply with the terms of a financing agreement;

6. An agreement by the corporation to:

(a) lend to the recipient for the construction of an eligible project a specified amount from the proceeds of the corporation's bonds or notes, not to exceed the estimated reasonable cost of construction of the eligible project established in the financing agreement, subject to the ability of the corporation to provide such financing, including any other approvals required by state or federal law and such other conditions as the corporation shall determine necessary or desirable;

(b) use reasonable efforts to issue its bonds or notes in an amount sufficient to finance the estimated reasonable cost of the eligible project, including but not limited to costs of issuance, credit support fees, if any, trustees' fees, interest during construction, and such reserve funds, if any, as may be necessary to secure such bonds or notes;

(c) for any financial assistance made from the proceeds of the corporation's bonds or notes, establish an allocation and provide to the recipient an interest rate subsidy allocation for the eligible project in accordance with this title and section twelve hundred eighty-five-m of the public authorities law;

(d) in the alternative, provide financial assistance to the recipient for the construction of an eligible project in a specified amount from any moneys in or available for deposit in the fund, not to exceed the estimated reasonable cost of construction of the eligible project established in the loan or other financing agreement, as determined by

the corporation;

(e) administer the investment of funds held in accordance with such agreement, including funds of the recipient;

7. An agreement by the recipient to:

(a) proceed expeditiously with and complete the eligible project in accordance with plans approved;

(b) commence operation of the eligible project on completion of the project, and not abandon, discontinue operation of, sell, transfer or otherwise dispose of the eligible project as long as a loan or other financial assistance to the recipient for such project remains outstanding, without approval of the commissioner; provided, however, that the commissioner shall not approve disposition of the eligible project without the concurrent approval of the corporation. None of the foregoing shall limit the commissioner's authority to terminate or impose conditions upon the operation of an eligible project pursuant to the provisions of this chapter and any implementing regulations thereto;

(c) operate and maintain the eligible project in accordance with applicable requirements of federal and state law;

(d) establish and maintain project accounts in accordance with the financing agreement and generally accepted accounting standards;

(e) establish a dedicated source of revenue (which may include a general obligation of the recipient) providing for:

(i) operation and maintenance costs of the eligible project and equipment renewal and replacement; and

(ii) loan repayment regardless of whether the eligible project is in operation;

(f) notwithstanding the provisions of any other law, general, special or local, inconsistent with this section, delegate to the corporation the authority to invest proceeds of bonds or notes issued by the corporation or the recipient on behalf of the recipient; and

(g) permit any reviews or audits and provide assistance determined to be reasonable and necessary by the department or the corporation;

8. Such other agreements or covenants as may be deemed necessary or desirable in connection with the issuance by the corporation of its bonds or notes.

§ 1164. Inspection and certification. The corporation shall provide the means of ensuring compliance by recipients with each financing agreement by:

1. Retaining the right to inspect and review work on each eligible project in progress and upon completion, and determining whether such work was undertaken and completed in compliance with all relevant plans and the terms of such financing agreement;

2. Retaining the right to disburse or refuse to disburse payments to a recipient pursuant to a financing agreement;

3. Retaining the right to disburse or refuse to disburse payments to a recipient pursuant to a financing agreement based upon the determinations of any review or audit;

4. Establishing remedies if work on an eligible project has not been completed in accordance with all relevant plans and the terms of such financing agreement due to factors within the recipient's control; and

5. Requiring a recipient to maintain project accounts with respect to any eligible project.

Nothing herein shall be construed to affect or diminish the general authority of the department to inspect and review the work on any project financed pursuant to this title, or to inspect the records relating to such project, for the purpose of determining compliance with any other provisions of this chapter.

§ 1165. Noncompliance; notification. In the event the work completed pursuant to a financing agreement or loan agreement is deemed not in compliance with such agreement, the corporation shall expeditiously notify the recipient of such non-compliance and indicate the reasons for such determination.

§ 1166. Implementation agreements. For the purpose of implementing the drinking water revolving fund program set forth in this title and section twelve hundred eighty-five-m of the public authorities law, and ensuring compliance with the requirements of the state sanitary code, the federal safe drinking water act or other applicable federal law, the department may:

1. Arrange in consultation with the corporation for independently conducted reviews and audits on at least an annual basis necessary to carry out the objectives of the fund.

2. Submit a copy of each draft intended use plan to the governor, the director of the division of the budget, the chairman of the senate finance committee and the chairman of the assembly ways and means committee and submit a copy of each final intended use plan to such persons.

3. Enter into any agreement between the state of New York and the administrator of the United States environmental protection agency and take all other actions necessary to comply with the requirements of the federal safe drinking water act or applicable federal law and state law, including, but not limited to, approving each project as an eligible project under the program.

4. Enter into such agreements with the corporation as to the administration and implementation of the drinking water revolving fund as may be deemed desirable or necessary, which agreements may provide for among other things, the allocation and delegation of responsibilities of the commissioner, the department or the corporation set forth in this title amongst such parties.

§ 1167. Financial assistance; recipients. The corporation may provide financial assistance to recipients pursuant to paragraph (a) of subdivision four of section twelve hundred eighty-five-m of the public

authorities law from any available moneys in the fund other than the proceeds of the corporation's bonds or notes or moneys needed to comply with subdivision five of section twelve hundred eighty-five-m of the public authorities law if and to the extent the corporation determines that it is unable to, or that it is impractical or inadvisable to, finance all or a portion of the costs of an eligible project from the proceeds of bonds or notes that are special obligations of the corporation.

The interest rate charged on any loan made by the corporation pursuant to this section shall be such interest rate as determined by the corporation (including a zero percent rate of interest), but shall in any event be no more than two-thirds of the market rate of interest otherwise applicable thereto.

§ 1167-a. Reimbursement of state assistance payments or grants made to municipality or recipient; admissibility of state assistance payments or grants as collateral source. 1. A municipality or recipient that: (a) receives a state assistance payment/grant from the corporation for an eligible project to remove contaminants from drinking water or water supplies under this title, including but not limited to state assistance payments/grants for removing emerging contaminants; (b) takes legal action against a responsible party to recover the costs of such eligible project; and (c) receives payment by judgment, settlement or otherwise from such responsible party for the costs for such eligible project, shall reimburse the corporation the portion of such payment that is in excess of (1) the total cost of the project (including, but not limited to, the capital costs and operating and maintenance costs associated therewith for the period during which the contamination is expected to persist and require treatment); and (2) the expenses (including, but not limited to, attorneys' fees and litigation costs and expenses) incurred by the municipality or recipient pursuing recovery of such costs from responsible parties, provided, however, that the municipality or recipient shall not reimburse more than the amount of such state assistance payment/grant for the eligible project.

2. Notwithstanding any other provision of law, including section forty-five hundred forty-five of the civil practice law and rules, evidence of any state assistance payment/grant from the corporation to any municipality or recipient shall not be admissible in any action brought by such municipality or recipient against a responsible party to recover the costs for an eligible project and/or the operating and maintenance costs associated therewith, and the court shall not reduce the amount of any award against a responsible party in whole or in part because of such state assistance payment or grant.

§ 1168. Construction contracts; designations. The contracts for the construction of eligible projects constructed and financed pursuant to a financing agreement shall be subject to the requirements and provisions of article fifteen-A of the executive law and, for such purposes, any such contract shall be considered a "state contract" and the department shall be the "contracting agency" for each such contract.

§ 1169. Compliance with other laws. Nothing contained in this title shall be held to alter or abridge the powers and duties of the department of environmental conservation.

ARTICLE 13

NUISANCES AND SANITATION

Title	I.	General provisions; control and abatement (§§1300-1310).
	II.	Noxious weeds and growths (§§1320-1321).
	III.	Tenement house sanitation (§1325).
	IV.	Labor camp sanitation (§1330).
	V.	Suppression of certain businesses (§§1335-1336).
	VI.	Bathing establishments (§§1340-1342).
	VII.	Hotel sanitation (§§1345-1348).
	VIII.	Food handling (§§1350-1357).
	IX.	Location and disposition of radioactive gold jewelry (§1360).
	X.	Control of lead poisoning (§§1370-1377).

- XI. State aid: planning for construction of solid waste management facilities (§§1380-1383).
- XI-A. New York State Toxic Mold Task Force (§1384).
- XII. Toxic substances (§§1385-1389).
- XII-A. Inactive hazardous waste disposal sites (§§1389-a--1389-e).
- XIII. Storage, treatment and disposal of regulated medical waste (§§1389-aa--1389-gg).

TITLE I

GENERAL PROVISIONS; CONTROL AND ABATEMENT

- Section 1300. Nuisances; general powers of commissioner.
- 1300-a. Putting noisome or unwholesome substances or maintaining noisome business on or near highway.
 - 1300-b. Throwing gas tar or refuse into public waters.
 - 1300-c. Farming activities.
 - 1301. Nuisances; examination and abatement by order of governor; expenses.
 - 1302. Nuisances; local boards of health; duty to assist commissioner.
 - 1303. Nuisances; local boards of health; general powers and duties.
 - 1304. Nuisances; local health officers; general powers.
 - 1305. Nuisances; abatement by local boards of health.
 - 1306. Nuisances; abatement expenses.
 - 1307. Nuisances; abatement expenses; lien and execution.
 - 1308. Powers and duties of local boards of health.
 - 1309. City of New York; exceptions.
 - 1310. Removal of canine wastes in cities with a population of four hundred thousand or more persons and in the cities of Yonkers and Albany.
 - 1311. Hand washing facilities at certain public establishments featuring animals.

§ 1300. Nuisances; general powers of commissioner. 1. The

commissioner shall have all necessary powers to make investigations and examinations into nuisances, or questions affecting the security of life and health in any locality.

2. The commissioner may from time to time employ competent persons to render sanitary service, and make or supervise practical and scientific investigations and examinations requiring expert skill, and prepare plans and reports relative thereto.

§ 1300-a. Putting noisome or unwholesome substances or maintaining noisome business on or near highway. A person, who deposits, leaves or keeps, on or near a highway or route of public travel, either on the land or on the water, any noisome or unwholesome substance, or establishes, maintains or carries on, upon or near a public highway or route of public travel, either on the land or on the water, any business, trade or manufacture which is noisome or detrimental to public health, is guilty of a misdemeanor, punishable by a fine of not less than one hundred dollars, or by imprisonment not less than three nor more than six months, or both.

§ 1300-b. Throwing gas tar or refuse into public waters. A person, who throws or deposits gas tar, or the refuse of a gas house or gas factory, or offal, refuse, or any other noxious, offensive, or poisonous substance into any public waters, or into any sewer or stream running or entering into such public waters, is guilty of a misdemeanor.

§ 1300-c. Farming activities. Notwithstanding any other provision of law, the agricultural activities conducted on a farm, as defined in section six hundred seventy-one of the labor law, shall not be considered a private nuisance, provided such agricultural activities were commenced prior to the surrounding activities, have not increased substantially in magnitude or intensity and have not been determined to be the cause of conditions dangerous to life or health as determined by the commissioner, the local health officer or local board of health

pursuant to sections thirteen hundred, thirteen hundred-a, thirteen hundred three and thirteen hundred four of this chapter.

§ 1301. Nuisances; examination and abatement by order of governor; expenses. 1. Whenever required by the governor, the commissioner shall make an examination concerning nuisances or questions affecting the security of life and health in any locality, and shall report the results thereof to the governor, within the time prescribed by him therefor.

2. The report of every such examination, when approved by the governor, shall be filed in the office of the secretary of state, and the governor may declare the matters public nuisances, which may be found and certified in any such report to be nuisances, and may order them to be changed, abated or removed as he may direct.

3. Every such order shall be presumptive evidence of the existence of such nuisance; and the governor may, by a precept under his hand and official seal, require the district attorney, sheriff and other officers of the county where such nuisance is maintained, to take all necessary measures to execute such order and cause it to be obeyed, and the acts of any such county officer in the abatement of any such nuisance, reasonable or necessary for such abatement, shall be lawful and justifiable and the order of the governor a sufficient protection to such officer.

4. The expense of such abatement shall be paid by the municipality where the nuisance occurs, and shall be a debt recoverable by such municipality of all persons, maintaining it or assisting in its maintenance, and a lien and charge upon the lands upon which the nuisance is maintained, which may be enforced by a sale of such lands to satisfy the same.

§ 1302. Nuisances; local boards of health; duty to assist commissioner. 1. Whenever requested by the commissioner, the board of

health of any health district may appoint one of its members to act with and assist the commissioner during the investigation or examination of any nuisance, or for the purpose of determining whether a public nuisance exists.

2. Such representative may take part in such examination, but the final determination of the questions involved shall rest solely with the commissioner.

§ 1303. Nuisances; local boards of health; general powers and duties.

1. Every local board of health and local health officer shall receive and examine into all complaints made by any inhabitant concerning nuisances, or causes of danger or injury to life and health within the health district, and may enter upon or within any place or premises where nuisances or conditions dangerous to life and health or which are the cause of nuisances existing elsewhere are known or believed to exist, and by its members or other persons designated for that purpose, inspect and examine the same.

2. The local board of health or local health officer having the powers of a local board of health shall furnish the owners, agents and occupants of the premises with a written statement of the results and conclusions of any examination conducted pursuant to the provisions of sections one thousand three hundred three to one thousand three hundred five, inclusive, of this chapter.

3. Every local board of health shall order the suppression and removal of all nuisances and conditions detrimental to life and health found to exist within the health district.

4. Whenever the commissioner shall by notice to the presiding officer of any local board of health, direct him to convene such local board to take certain definite proceedings concerning which the commissioner shall be satisfied that the action recommended by him is necessary for the public good, and is within the jurisdiction of such board of health, such presiding officer shall convene such local board of health, which

shall take the action directed.

§ 1304. Nuisances; local health officers; general powers. The local health officer of a health district having no local board of health and each county health commissioner shall have authority equal to a local board of health to investigate and abate public nuisances which may affect health.

§ 1305. Nuisances; abatement by local boards of health. 1. The owners, agents and occupants of any premises shall permit sanitary examinations and inspections to be made pursuant to the provisions of this article.

2. If the owner or occupant of any premises whereon any nuisance or condition deemed to be detrimental to the public health exists or the cause of the existence elsewhere, fails to comply with any order or regulation of any local board or health officer having the power of a local board of health for the suppression and removal of any such nuisance or other matter, in the judgment of the board or health officer detrimental to the public health, made, served or posted as required in this article, such board or its agents or employees may enter upon the premises to which such order or regulation relates, and suppress or remove such nuisance or other matter.

§ 1306. Nuisances; abatement expenses. 1. The expense of suppression or removal of a nuisance or conditions detrimental to health shall be paid by the owner or occupant of the premises, or by the person who caused or maintained such nuisance or other matters, and the board of health of the municipality or county wherein the premises are located may maintain an action in the name of the municipality or county to recover such expense, and the same when recovered shall be paid to the treasurer of the municipality or county, or if it has no treasurer to its chief fiscal officer, to be held and used as the funds of the municipality or county.

2. Whenever the suppression or removal of such nuisance or conditions detrimental to health demand the immediate expenditure of money, every local board of health, local health officer of a health district having no board of health or county health commissioner shall be authorized to use for such purpose any money in the hands of the board, or may call on the governing body of the municipality or county as the case may be for such money. All such moneys so expended shall be immediately repaid to the fund or source whence they were received on the recovery of the same by action or otherwise from the persons responsible for the expenses of suppression or removal.

§ 1307. Nuisances; abatement expenses; lien and execution. 1. If execution upon a judgment for the recovery of the expense of the suppression or removal of a nuisance or other matter, pursuant to an order or regulation of any local board of health is returned wholly or in part unsatisfied, such judgment, if docketed in the place and manner required by law to make a judgment of a court of record a lien upon real property, shall be a first lien upon such premises, having preference over all other liens and encumbrances whatever. Notwithstanding the foregoing, such lien shall not have preference over any mortgage or other encumbrance for the benefit of the state of New York or a public benefit corporation thereof.

2. The board may cause such premises to be sold for a term of time for the payment and satisfaction of such lien and the expenses of the sale, provided, however, that where such premises are encumbered by a mortgage or other encumbrance for the benefit of the state of New York or a public benefit corporation thereof, the consent of that entity shall first be obtained.

3. Notice of such sale shall be published for twelve weeks successively, at least once in each week, in a newspaper of the city, village or town, or if no newspaper is published therein, in the newspaper published nearest to such premises. If the owner or occupant of the premises, or his agent, is known, a copy of such notice shall be

served upon him, either personally, at least fourteen days previous to the sale, or by mail at least twenty-eight days prior thereto.

4. The premises shall be sold to the person offering to take them for the shortest time, paying the amount unpaid on such judgment and interest and the expenses of the notice and sale. A certificate of the sale, signed and acknowledged by the president and secretary of the board, shall be made and delivered to the purchaser, and may be recorded as a conveyance of real property, and the purchaser shall thereupon be entitled to the immediate possession of such premises, and, if occupied, may maintain an action or proceeding to recover the possession thereof against the occupant, as against a tenant of real property holding over after the expiration of his term; and the cost of any such action or proceeding, if not paid by the occupant, shall also be a lien upon such premises, having the same preference as the lien of such judgment, and the right of the purchaser to such premises shall be extended for a longer term, which shall bear the same proportion to the original term as the amount of such costs bears to the amount paid by the purchaser on such sale.

5. The term of the purchaser at any such sale shall commence when he shall have acquired possession of the premises sold.

6. At any time within six months after recording such certificate of sale, the owner of the premises or any lessee, mortgagee or incumbrancer, thereof, or of any part of the same, may redeem the premises or any such part from such sale by paying to the purchaser the amount paid by him on the sale, and all cost and expenses incurred by him in any action or proceeding to recover possession with interest at the rate of ten per centum per annum thereon. If redemption is made by the owner, the right of the purchaser shall be extinguished; if by a lessee, the amount paid shall be applied as a payment upon any rent due or which may accrue upon his lease; if by a mortgagee or an incumbrancer, the amount paid shall be added to his mortgage, incumbrance or other lien, or if he have more than one to the oldest, and shall thereafter be a part of such mortgage, lien or incumbrance and enforceable as such.

§ 1308. Powers and duties of local boards of health. It shall be the duty of local boards of health to enforce the public health law, the state sanitary code and local sanitary codes whether promulgated by the county or any of the political subdivisions within said county. A local board of health is hereby authorized to make an ex parte application for a temporary restraining order and upon sufficient proof to satisfy it, the court may grant such an order, where there is a violation within the jurisdiction of the local board of health which requires immediate relief.

§ 1309. City of New York; exceptions. The provisions of sections one thousand three hundred three to one thousand three hundred seven of this chapter, inclusive, shall not apply to the city of New York.

§ 1310. Removal of canine wastes in cities with a population of four hundred thousand or more persons and in the cities of Yonkers and Albany. Notwithstanding any contrary provision of law, rule or regulation, in cities with a population of four hundred thousand or more persons and in the cities of Yonkers and Albany, it shall be the duty of each dog owner or person having possession, custody or control of a dog to remove any feces left by his or her dog on any sidewalk, gutter, street or other public area. Any violation of this section shall constitute a violation punishable by a fine or a civil penalty of not more than two hundred fifty dollars. For the purposes of enforcing the provisions of this section, appearance tickets may be issued by sanitation officers, dog enumerators, or wardens and by any persons authorized to issue tickets for parking violations. Notwithstanding any other provision of law to the contrary, in the city of New York, such appearance tickets may be returnable to the environmental control board which shall have the power to impose the civil penalties herein provided. The provisions of this section shall not apply to a guide dog, hearing dog or service dog accompanying any person with a disability, as defined in subdivision twenty-one of section two hundred ninety-two of

the executive law.

§ 1311. Hand washing facilities at certain public establishments featuring animals. 1. All public establishments including, but not limited to, carnivals, fairs and amusement parks, as such terms are defined in section eight hundred seventy-c of the labor law, farms, and farmers' markets, as such term is defined in section two hundred sixty of the agriculture and markets law, which feature displays of live animals that patrons may reasonably be expected to come into physical contact with for the purpose of touching, holding or petting shall provide hand washing or hand cleansing facilities for such patrons. Hand washing or hand cleansing facilities may be temporary or permanent fixtures and shall include one or more of the following: soap and running water; anti-bacterial fluids, foams or gels; or anti-bacterial or antiseptic wipes or towels.

2. Signs shall be conspicuously posted and shall state in a clear and legible typeface, the following: "Animals may carry germs and bacteria that can cause disease to people. It is strongly recommended that persons wash or cleanse their hands after touching, holding or petting the animals." Such signs shall also indicate where the hand washing or hand cleansing facility is located.

3. The commissioner may make rules guarding against the spread of bacteria and viruses at public establishments that feature animals as provided in subdivision one of this section, to persons employed at or to patrons of such establishments where such establishments are located outside the city of New York, and where such establishments are located within the city of New York, the commissioner of public health of the city of New York may make and enforce such rules.

TITLE II

NOXIOUS WEEDS AND GROWTHS

Section 1320. Noxious weeds and growths; declaration of nuisance.

1321. Noxious weeds and growths; notice to abate; enforcement.

§ 1320. Noxious weeds and growths; declaration of nuisance. 1.

Whenever in any health district there shall be growing on any property therein any ragweed or other species of weed, plant or growth which is noxious or detrimental to the public health, or the seed, pollen or other emanation therefrom, when carried through the air or otherwise dispersed, is noxious or detrimental to the public health, the local board of health of any such health district may take and file upon its records what it shall regard as sufficient proof to authorize a declaration that the existence of any such growth is a nuisance or danger to the public health, and may thereupon enter the same upon its records as a nuisance and order the same to be removed, destroyed or otherwise abated on any property wherever found.

2. The local board of health may also take and file among its records what it shall regard as sufficient proof to authorize a declaration that at any season or period of the year there exists a particular and imminent danger to the public health by reason of the approaching period of pollination of any such growth and may enter such determination upon its record.

§ 1321. Noxious weeds and growths; notice to abate; enforcement. 1.

In addition to the mode of service of any notice or order of any local board of health authorized by any other section of this chapter, and during the period or season when a particular and imminent danger to public health arising out of the pollination of weeds, plants or growths is determined to exist, any such local board of health may order the destruction of such weeds, plants or growths and the disposition thereof by posting a copy of such order conspicuously on the property where such noxious weeds, plants, or growths are found, requiring the destruction or other disposition thereof as shall be directed by such order. The posting of such order shall be sufficient notice of such order to the owner, lessee, occupant of, or principal person or persons interested in such property, of the nuisance created by such weeds, plants or growths.

2. If any such order is not complied with, or so far complied with as the local board of health shall regard as reasonable, within five days after service, or within a shorter time, which, in case of particular and imminent danger to the public health the local board of health may designate, such local board of health or other agency of the municipality or county may enter upon any such property and remove and destroy any weeds, plants and growths noxious or detrimental to the public health.

3. The provisions of sections thirteen hundred six and thirteen hundred seven of this chapter shall apply respecting the expense of such removal, destruction or abatement, except where a different method of collecting such expense is otherwise provided by law for and in respect to any health district, then and in that event the provisions of such law in connection therewith shall apply in the case of such health district.

4. The provisions of this section and of section thirteen hundred twenty of this chapter shall not operate to deprive the local legislative body of any municipality or county of the power to enact local laws in relation to any matter in respect to which such power would otherwise exist, nor shall it limit such power. If this power otherwise exists, any provision of this section and of section thirteen hundred twenty of this chapter may be superseded, supplemented or amended by local law in the same manner and to the same extent as such provisions could be superseded, supplemented or amended had this section and section thirteen hundred twenty of this chapter not been enacted.

TITLE III

TENEMENT HOUSE SANITATION

Section 1325. Tenement houses in cities; power of commissioner.

§ 1325. Tenement houses in cities; power of commissioner. 1. The commissioner shall have power to examine into the enforcement of the laws relating to tenement houses in any city.

2. Whenever required by the governor, the commissioner shall make such an examination and shall report the results thereof to the governor within the time prescribed by him therefor.

TITLE IV

LABOR CAMP SANITATION

Section 1330. Labor camps; violations; notice; injunction; administrative proceedings.

§ 1330. Labor camps; violations; notice; injunction; administrative proceedings. 1. When it appears to an officer that there has been a violation of the public health law or sanitary code at or in relation to any labor camp and such violation continues two days after written notice and demand for the discontinuance thereof, served as provided herein, he shall proceed pursuant to subdivision two or three of this section with respect to such violation.

2. An officer may institute proceedings to enjoin the continuance of such violation or the continued operation of such camp and, for purposes of such proceedings, a violation of any provision of the public health law or of the sanitary code shall be considered a public nuisance which may be enjoined or restrained. No bond or undertaking shall be required of such officer in such proceedings and no application to vacate or modify any judgment obtained shall be entertained by any court without proof to such court that ten days notice of such application, and copies of the papers upon which the application is to be made, have been served upon such officer.

3. (a) A hearing may be held, upon notice of not less than three days, before an officer or his representative. The officer shall make a determination with respect to any alleged violation and may assess a penalty not to exceed one hundred dollars for each violation, provided that (i) if the respondent establishes that a violation which existed prior to the service of the notice of hearing ceased to exist on or

prior to the date originally set for the hearing and has not reoccurred, then any penalty assessed for such violation shall be suspended on the condition that it will not reoccur during the next twenty-four months or (ii) for initial violations only which do not involve a serious and immediate risk to health or safety, if, prior to the date originally set for the hearing, an application for a loan for a farmworker housing project is made pursuant to section five hundred seventy-six-d of the private housing finance law and a satisfactory plan for curing the conditions giving rise to the violation is submitted to and approved by the department, then any penalty assessed may be vacated if such violation is cured within a reasonable period of time. In assessing a penalty hereunder, consideration shall be given to good faith efforts to cure the violation made on or prior to the date originally set for the hearing. A violation which continues for more than one day after the expiration of the two days for compliance provided for in subdivision one shall be considered to be a separate violation for each day that it continues after such notice and demand for discontinuance have been served.

(b) The notice of hearing also may provide that the labor camp may be ordered vacated if such an order is determined to be necessary for the health and safety of its occupants or of the community in which it is located. If the notice of hearing contains this provision and such an order is determined to be necessary, then the officer shall issue such order.

(c) The hearing officer acting pursuant to this subdivision may issue subpoenas which shall be regulated by the civil practice law and rules.

4. Before the effective date of an order or judgment enjoining the continued operation of a camp pursuant to subdivision two or of an order directing the vacating of such camp pursuant to subdivision three, the officer shall notify the county agricultural agent, the representative of the nearest office of the state employment service, and the county social services commissioner.

5. A notice required by this section may be served upon the owner or operator of the camp in the same manner as a summons in a civil action, or by registered mail to such owner or operator at the address filed by

him in the department or county health department or, if an address is not so filed, to his last known address or place of residence.

6. An officer may request and shall receive from all public officers, departments and agencies of the state and its political subdivisions such cooperation and assistance as may be necessary or proper in the enforcement of the provisions of this section.

7. Nothing contained in this section shall be construed to limit the duty or power of an officer to act with regard to an immediate threat to the health of the occupants of a camp or the community in which it is located, or to alter or abridge any of the duties and powers now or hereafter existing in the commissioner, state district health officers, county boards of health, county commissioners of health, local boards of health or other public agencies or public officials, or any private party.

8. As used in this section, the term "officer" shall mean the commissioner, or the county commissioner of health or the state district health officer having jurisdiction.

TITLE V

SUPPRESSION OF CERTAIN BUSINESSES

Section 1335. Certain businesses prohibited; application.

1336. Certain businesses prohibited; enforcement; violation.

§ 1335. Certain businesses prohibited; application. 1. It shall not be lawful for any person to engage in or carry on the business of fat rendering, boneboiling or the manufacture of fertilizers or any business as a public nuisance within the corporate limits of any incorporated city of this state, or within a distance of three miles from the corporate limits of any incorporated city, provided, however, that nothing herein contained shall prevent the rendering of fresh killed cattle or swine.

2. This section shall not apply to the counties of Fulton, Wayne, Tompkins, Chautauqua, Orange, Dutchess, Erie, Monroe, Oneida, Onondaga, New York, Schoharie, Ulster, Greene, Cayuga, Cattaraugus, Niagara, Saratoga, Schenectady, Hamilton, Montgomery and Orleans.

§ 1336. Certain businesses prohibited; enforcement; violation. 1. All departments of health or the commissioner or commissioners thereof in any incorporated city of this state shall have power to enforce the provisions of section thirteen hundred thirty-five of this chapter.

2. Any person violating the provisions of section thirteen hundred thirty-five of this chapter shall, upon conviction thereof, be guilty of a misdemeanor.

TITLE VI

BATHING ESTABLISHMENTS

Section 1340. Bathing places; sanitary requirements.

1341. Bathing places; safety requirements; ropes and life preservers.

1342. Bathing places; violations; penalties; enforcement.

§ 1340. Bathing places; sanitary requirements. 1. It shall be unlawful for any person to maintain, either as owner or lessee, any bathing establishment of any kind, in this state, for the accommodation of persons, for pay, or any consideration, at a point less than five hundred feet from any sewer connection emptying therein, or thereat, so as to pollute in any way, the waters used by those using or hiring bathing houses at such bathing establishment.

2. It shall be the duty of the owner, lessee or any other person maintaining any bathing establishment of any kind:

(a) to provide separate toilet rooms, with water-closets properly provided with sanitary plumbing, constructed in a manner approved by the local board of health of the health district wherein the bathing

establishment is located, and in such a way as not to contaminate the waters used by the bathers; and,

(b) to thoroughly wash and disinfect, or cause to be thoroughly washed and disinfected, in a manner approved by the said local board of health, all bathing suits that have been hired or used, before re-hiring or permitting the use of the same again.

§ 1341. Bathing places; safety requirements; ropes and life preservers. 1. (a) It shall be the duty of every person maintaining, as owner or lessee, any bathing establishment of any kind along the seashore of this state for the accommodation of persons for pay, to provide, for the safety of such bathers, two lines of sound, serviceable and strong manila or hemp rope, not less than one inch in diameter, anchored at some point above high water, at the same distance apart as the lines of bathing houses, or space fronting on such beach occupied by him or them, is in width. From the two points at which such life-lines are so anchored, such life-lines shall be made to extend as far into the surf as bathing is ordinarily safe and free from danger of drowning to persons not expert in swimming, and at such points of safety, such lines shall be anchored and buoyed. From the two points of such lines so extended, anchored and buoyed, a third rope shall be extended, of a similar size, connecting the two extremities, and buoyed at such points as to be principally above the surface of the water, thereby inclosing a space within such lines and the beach within which bathing is believed to be safe. In addition thereto, there shall be sufficient ropes of a similar size as herein described, anchored from a point at high water mark and buoyed or anchored at a parallel line or within the outer cross rope, so as to have not more than a space of seventy-five feet from one rope to another; and

(b) Every person maintaining any such bathing establishment shall cause to be painted and posted in some prominent place upon the beach near such bathing houses the following words: "Bathing beyond the lines dangerous", and

(c) Such lines so placed, anchored and buoyed, and such notice so posted, shall be so maintained and continued by every person maintaining any such establishment, during the entire season of surf bathing.

2. (a) Every person maintaining any such bathing establishment shall also keep and provide in connection therewith, for the facilitating of the rescue of persons in danger of drowning, a surfboat or a personal watercraft as defined in subdivision thirty of section two of the navigation law and in compliance with the regulations of the commissioner. A surfboat shall be not less than sixteen feet long, on each side of which there shall be hanging ropes arranged so that persons in the water can easily catch hold of same, or be supported thereby. Such boats shall be equipped with two or more sets of oars and life-lines and life-belts, and at least one ring buoy or life preserver, with quarter-inch cotton line, not less than five hundred feet in length, with suitable reel attached thereto. In addition thereto, there shall be anchored on the shore, a suitable reel with a half-inch cotton line not less than five hundred feet in length, with a life-belt attached thereto, kept in good order and proper condition, so that it can readily be used by those assisting in saving life.

(b) At all bathing establishments where there are equipments for two hundred bathers or more, said surf or life-boat shall be stationed in the water, opposite the lines, manned and in readiness for use, during bathing hours.

3. Every person maintaining any such bathing establishment shall employ or otherwise engage or provide the services of a bathing master or life-guard at such bathing establishment, who shall be an expert swimmer, and who shall be in constant and watchful attendance during bathing hours.

4. The owner of a bathing establishment shall not be subject to the provisions of this section when it is used, occupied or maintained by a lessee for hire, but such lessee shall be deemed the keeper or proprietor or person maintaining such bathing establishment.

5. Nothing in this section shall be construed in any way to affect any bathing establishments, in any municipality, or any bathing establishments or bathing beaches operated by a regional state park commission, at which there is maintained at public expense a life-saving

guard.

§ 1342. Bathing places; violations; penalties; enforcement. 1. Any person violating any of the provisions of section thirteen hundred forty-one of this chapter, shall forfeit and pay a penalty of not less than fifty dollars, nor more than two hundred dollars to be recovered by the sheriff of the county in which such violation is committed, except in the city of New York, when the penalty shall be sued for in the name of the department of health of the city of New York and collected by it.

2. A separate penalty may be recovered for each day that any person subject to the provisions of this section may violate any of the provisions of the same; but no penalty shall be recovered for any other violation thereof than shall have occurred during the days when the owner or lessee, or other person, maintaining the said bathing establishments, shall have kept the same open for the use of the public, or for such persons as may be the guests of any hotel with which such bathing establishments may be connected.

3. It shall be the duty of the sheriffs and constables of the several counties of this state abutting upon the seashore, to see that in their respective counties the provisions of this section are enforced, and to bring suit for the recovery of the penalty therein provided, unless some other person had already brought suit for the same.

TITLE VII

HOTEL SANITATION

Section 1345. Hotel sanitation; sewage; ventilation.

1346. Hotel sanitation; bedding; sheets, towels, drinking glasses, silverware and flatware.

1347. Hotel sanitation; enforcement; violations.

1348. Hotel sanitation; application of article.

§ 1345. Hotel sanitation; sewage; ventilation. Every hotel shall be

well drained and ventilated and every hotel connected with a cesspool or located in any municipality having a sewer system shall be well ventilated, drained, plumbed and connected according to sanitary principles with such cesspool or sewer system, and shall be kept free from effluvia arising from sewer, drain, water-closet or other source within the control of the owner, manager, agent or other person in charge of said hotel.

§ 1346. Hotel sanitation; bedding; sheets, towels, drinking glasses, silverware and flatware. 1. Every hotel shall furnish each guest with clean linen or cotton individual towels in each room occupied by such guest, and also in the public lavatories and washrooms of such hotel, and with clean sheets and pillow slips for the bed, bunk, or cot to be occupied by such guest.

2. Every hotel that furnishes drinking glasses, silverware or flatware in individual rooms shall provide that such items are fully sanitized using proper techniques as provided for by the department.

3. Each sheet shall be ninety-one inches long, minimum length after being hemmed and laundered, and of sufficient width to completely cover the mattress and springs, and all sheets and pillow slips after being used by one guest must be washed, ironed and dried before being furnished to another guest.

4. Nothing in this section shall prevent local municipalities from enacting stricter laws, rules or regulations.

§ 1347. Hotel sanitation; enforcement; violations. 1. All departments and boards of health and the commissioner or commissioners thereof shall have the power to enforce the provisions of sections thirteen hundred forty-five to thirteen hundred forty-seven, inclusive, of this chapter.

2. The commissioners of health and the respective local boards of health and any person authorized by either of them so to do, may enter

any hotel or any part thereof at any reasonable time to inspect and examine the same, to determine whether or not the laws and regulations relating to hotels are being violated.

3. Any hotel proprietor or manager violating any of the provisions of sections thirteen hundred forty-five to thirteen hundred forty-seven, inclusive, of this chapter, is guilty of a misdemeanor.

§ 1348. Hotel sanitation; application of article. The provisions of sections thirteen hundred forty-five to thirteen hundred forty-seven, inclusive, of this chapter, shall not apply to cities having a population of one million inhabitants or over.

TITLE VIII FOOD HANDLING

- Section 1350. Food places; powers of the commissioner.
1351. Food places; duty to permit inspections.
1352. Food places; sanitary requirements.
- 1352-a. Food places; toilet facilities.
- 1352-b. Public eating establishments; first aid instructions concerning food lodged in throat; liability.
- 1352-c. Ice cream or other frozen desserts made with liquor, wine, beer or cider.
- 1352-d. Public food service establishment inspection results.
- 1352-e. Companion dogs at food service establishments.
1353. Food places; violations; penalties.
1354. Contracts for meat inspection.
1355. Food service safety and sanitation training.
1356. Food allergies and intolerances notice in food service establishments and online food ordering services.
1357. Allergen labeling for prepackaged foods.

§ 1350. Food places; powers of the commissioner. 1. The commissioner shall have full power and authority to inspect and supervise all public

places in this state in which food is prepared, sold or served.

2. The commissioner may appoint and designate, from time to time, persons to make the inspections authorized by this section and section thirteen hundred fifty-one, of this chapter.

§ 1351. Food places; duty to permit inspections. Every owner, operator, lessor, lessee or person in charge of any hotel, restaurant, dining room, dining car, drug store, soda fountain, steamboat or other place engaged in the preparation, sale or service of food for and to the general public, and every officer or other person in charge of any public, penal or charitable institution in this state, shall permit the commissioner or his duly authorized agents or employees to have access to all parts of any and all of such places herein mentioned wherein food is stored, prepared or served for the purpose of ascertaining whether the provisions of sections thirteen hundred fifty to thirteen hundred fifty-two, inclusive, of this chapter, and the provisions of the sanitary code and provisions of local ordinances or regulations are being observed.

§ 1352. Food places; sanitary requirements. 1. A person or corporation engaged in the preparation and sale of food in any hotel, public restaurant, public dining room, dining car, drug store, soda fountain, steamboat or in any other place where food is prepared, sold or served for and to the general public in this state, or an officer of any public, penal or charitable institution in this state, shall not use in the preparation or service of any food utensils, dishes, glasses or other containers which have not been previously cleansed and made sanitary. In such cleansing the use of water which has become unsanitary by previous use is prohibited.

2. It shall be unlawful to furnish or serve in any public eating or drinking establishment, any straw, tube or similar device for drinking out of glasses, cups or containers of any type unless such straw, tube or similar device conforms to and is furnished or served in accordance

with the following requirements: When offered for use, it shall be completely enclosed in an impervious or a bactericidal wrapper to be opened by the ultimate user; if unwrapped it may be used if it is kept in an approved sanitary dispenser loaded from the original package without handling, which dispenses one such straw, tube or device at a time directly to the user and which is so constructed that the interior may be cleaned and kept in a sanitary condition; unused loose straws, tubes or devices already dispensed from the dispensing container shall not be used again. No single-service paper containers, paper cups, paper spoons, paper forks or paper plates shall be used a second time.

3. The commissioner shall require in food service establishments, as defined in the state sanitary code, for foods to be conveyed to the consumer uncooked and for foods handled after being cooked but prior to being conveyed to the consumer, that such food not come into direct manual contact with persons responsible for preparing or serving the food. Sanitary gloves, sanitary utensils or other effective barriers shall be utilized to avoid manual contact in the preparation and conveyance of these foods to the consumer. In preparing regulations pursuant to this subdivision, the commissioner may provide for an alternate standard that would permit minimal manual contact based upon finding that such alternate standard would protect worker safety and not compromise consumer health. In preparing regulations the commissioner shall consult with representatives of the food service industry, including workers in the industry.

4. To the extent that funds are available for the purposes set forth in this subdivision, the commissioner shall require that the following food service establishments: restaurants, bars, membership organizations, fraternal organizations, and private clubs, excepting establishments licensed pursuant to section sixty-four-a of the alcoholic beverage control law, that are not regulated by the department of agriculture and markets, at all times have in their employment at least one individual who has been trained and certified by an organization, approved by the commissioner, which specializes in and provides instruction concerning the safe and proper handling, preparation, cooking, storage, serving, delivery, removal and disposal

of food. Attendance at any course established pursuant to this section shall be in person, through distance learning methods, or through an Internet based online program. Such training shall meet the standards set forth by the commissioner pursuant to section thirteen hundred fifty-five of this title, either: (a) pursuant to a program approved by the commissioner under such section, or (b) pursuant to a course that shall address but not be limited to the following topics:

- (i) Contamination, food allergies and foodborne illness.
- (ii) Purchasing and receiving safe food.
- (iii) Keeping food safe in storage.
- (iv) Protecting food during preparation.
- (v) Protecting food during service.
- (vi) Sanitary facilities and equipment.
- (vii) Cleaning and sanitizing.
- (viii) Integrated pest management.
- (ix) Food-safety regulations and standards.
- (x) Employee food-safety training.

The commissioner shall allow a licensee a period of up to thirty days to come into compliance with this subdivision where an employee who has been certified as having completed the approved food safety training program separates from his or her place of employment.

§ 1352-a. Food places; toilet facilities. 1. A person or corporation operating an establishment with a seating capacity of twenty or more wherein food is sold for consumption on the premises shall provide appropriately identified and maintained public toilet facilities except that if there exists alternate available facilities in the same building wherein such establishment is located, suitable public notice of such alternate facility shall suffice for purposes of this act.

2. The provisions of subdivision one of this section shall not apply to establishments in operation on the effective date of this act.

§ 1352-b. Public eating establishments; first aid instructions

concerning food lodged in throat; liability. 1. Definitions. For purposes of this section:

a. "Public eating establishment" shall mean a cafeteria or lunchroom located in a school or educational institution and a restaurant, dining room, dining car or other place engaged in the preparation and service on the premises of food for and to the general public;

b. "Choking emergency" shall mean a situation occurring in a public eating establishment in which food has become lodged in a person's throat in such a manner as to prevent or severely inhibit the continued breathing of such person.

2. First aid instructions. a. The commissioner shall adopt and approve first aid instructions designed and intended for use in removing food lodged in the throat of a victim of a choking emergency. Such instructions shall be limited to first aid techniques not involving the use of any physical instrument or device to be inserted into the victim's mouth or throat.

b. The commissioner shall, as soon as is practicable, supply to the proprietor of every public eating establishment in this state such adopted and approved instructions.

3. Posting. The proprietor of every public eating establishment in this state shall, upon receipt thereof, post such instructions in a conspicuous place or places in order that the proprietor and employees may become familiar with them, and in order that the instructions may be consulted by any person attempting to provide relief to the victim of a choking emergency; provided, that the fact that such instructions shall not have been posted as required by this section at the time of a choking emergency shall not in and of itself subject such a proprietor, or his employees or agents, to liability in any civil action for damages for personal injuries or wrongful death arising from such choking emergency.

4. No duty to act. Nothing contained in this section shall impose any

duty or obligation on any proprietor, employee or other person to remove, assist in removing, or attempt to remove food from the throat of the victim of a choking emergency.

5. Immunity from liability. Notwithstanding any inconsistent provision of law or ordinance, a proprietor, employee or other person who voluntarily and without expectation of monetary compensation removes, assists in removing, or attempts to remove food from the throat of the victim of a choking emergency in accordance with the instructions adopted by the commissioner shall not be liable for damages for injuries alleged to have been sustained by such victim or for damages for the death of such victim alleged to have occurred by reason of an act or omission in the rendering of such emergency assistance unless it is established that such injuries were, or such death was, caused by gross negligence on the part of such proprietor, employee or person.

§ 1352-c. Ice cream or other frozen desserts made with liquor, wine, beer or cider. No person shall sell at retail individual servings of ice cream or other frozen desserts made with liquor, wine, beer or cider bearing or containing more than one-half of one percent but not more than five percent of alcohol by volume, unless the following statements are prominently displayed on the printed menu (or, if no printed menus are used, on the menu board or sign setting forth the bill of fare) immediately adjacent to the listing of the item or items of ice cream or other frozen desserts made with liquor, wine, beer or cider being offered provided that such statements may refer to liquor, wine, beer or cider or a combination thereof:

1. The sale of (insert liquor, wine, beer and/or cider) ice cream or other frozen desserts to individuals under the age of twenty-one is prohibited.

2. (Insert liquor, wine, beer and/or cider) ice cream or other frozen desserts contain alcohol up to five percent by volume.

3. Notice: (Insert liquor, wine, beer and/or cider) ice cream or other

frozen desserts contain alcohol used as a flavoring and, as with any product that contains alcohol:

(a) women should not consume alcohol during pregnancy because of the risk of birth defects, and

(b) consumption of alcohol impairs your ability to drive a car or operate machinery, and may cause health problems.

§ 1352-d. Public food service establishment inspection results. 1. (a) The department shall make available and prominently post on its website all public food service establishment inspection results for the most recent three years for which data is available, which shall include the determination concerning any alleged violation of this title.

(b) As used in this section, "its website" means a website or a portion of a website maintained by an entity of state government on which the department regularly posts departmental information.

(c) If a county department of health or local board of health maintains a website, it shall post a link to the department's website where the food service establishment inspection results are available.

2. A city with a population over one million shall be exempted from the provisions of this section.

§ 1352-e. Companion dogs at food service establishments. 1. Companion dogs under the control of a person may be allowed in an outdoor dining area at a food service establishment if all of the following conditions are satisfied:

(a) the owner of the food facility elects to allow companion dogs in its outdoor dining area or a designated portion of it, and subject to any restrictions that the owner of the facility may establish;

(b) a separate outdoor entrance is present where companion dogs enter without going through the food establishment to reach the outdoor dining area and companion dogs are not allowed on chairs, benches, seats or other fixtures;

(c) the outdoor dining area in which companion dogs are allowed is not used for food or drink preparation or the storage of utensils. A food

employee may refill a beverage glass in the outdoor dining area from a pitcher or other container;

(d) food and water provided to companion dogs shall only be in single-use disposable containers;

(e) food employees are prohibited from having direct contact with companion dogs while on duty. A food employee who does have such prohibited direct contact shall wash his or her hands as required by law;

(f) the outdoor dining area is maintained clean. Surfaces that have been contaminated by dog excrement or other bodily fluids shall be cleaned and sanitized;

(g) the companion dog is on a leash or confined in a pet carrier and is under the control of the companion dog owner;

(h) there is reasonable signage indicating that companion dogs are allowed in the outdoor dining area or a designated portion of it. The signage shall state that restrictions on companion dogs do not apply to guide, hearing or service animals;

(i) the food facility owner ensures compliance with local ordinances related to sidewalks, public nuisance and sanitation; and

(j) such other control measures approved by the enforcement agency are complied with.

2. This section shall not impair or diminish the right of an individual to be accompanied by an animal where otherwise permitted by law, including but not limited to the rights of people with disabilities using guide, hearing or service animals.

3. For purposes of this section:

(a) "Food service establishment" shall mean any business which has areas, including outdoor seating areas, in which food is sold for on-premises consumption.

(b) "Companion dog" shall mean a domesticated dog accompanying an individual or owner for the purpose of companionship or convenience of such individual or owner, and shall not include guide, hearing or service dogs.

§ 1353. Food places; violations; penalties. 1. Any person or corporation, or officer thereof, violating any of the provisions of sections thirteen hundred fifty to thirteen hundred fifty-three, inclusive, of this chapter, shall be guilty of a misdemeanor.

2. The conviction of a corporation shall not relieve any officer or officers, agents or employees of such corporation from prosecution under the provisions of sections thirteen hundred fifty to thirteen hundred fifty-three, inclusive, of this chapter.

§ 1354. Contracts for meat inspection. When a board of health of a county or part county health district or a city, or a public health committee of a county has made application to the commissioner for approval of a meat inspection program and providing such application has been approved by the commissioner, the board of supervisors of any such county or the common council of any such city, may approve and enter into a contract with another county or city for inspection in such county or city which has no meat inspection program. The county or city receiving such meat inspection shall pay to the county or city doing the meat inspection an amount agreed upon but not less than the actual cost of any such meat inspection. Any county or city may accept contributions from any individual, company or corporation which receives the benefit of any meat inspection.

§ 1355. Food service safety and sanitation training. 1. The commissioner shall promulgate rules and regulations (a) establishing food service safety and sanitation training programs and providing standards therefor or (b) providing for the approval of such programs to be administered by local health officials or private parties in accordance with such rules and regulations.

2. Such regulations shall include a provision permitting private citizens working in establishments subject to the jurisdiction of the commissioner pursuant to this title to attend such training program.

§ 1356. Food allergies and intolerances notice in food service establishments and online food ordering services. 1. Definitions. For the purposes of this section:

(a) "Food service establishment" shall mean a restaurant or catering hall where food is prepared and served either on or off site.

(b) "Menu" shall mean a list or pictorial display of a prepared food item or items available for sale from a food establishment for the purpose of permitting a customer to order such food item or items, including such list or pictorial display posted online for a customer to place food orders for delivery or take out.

2. The commissioner shall make available on the department's website, in English and in the twelve most common non-English languages spoken by limited-English proficient individuals in the state, based on the data in the most recent American Community Survey published by the United States Census Bureau, a notice containing information for staff of food service establishments regarding food allergies and intolerances. Such notice shall include:

(a) the procedures to be followed if a customer informs staff of such food service establishment that such customer has a food allergy or intolerance;

(b) any procedures to be followed to prevent cross contact; and

(c) the procedure to be followed if a customer has an allergic reaction, including a recommendation regarding the circumstances in which to call 911.

3. Every food service establishment shall post the notice containing information on food allergies and intolerances established pursuant to subdivision two of this section in a conspicuous location accessible to all employees involved in the preparation or service of food, in at least one of the languages spoken by each employee to the extent such languages are among those in which the department makes the notice available pursuant to subdivision two of this section.

4. The commissioner shall make available on the department's website, in the twelve most common non-English languages spoken by

limited-English proficient individuals in the state, based on the data in the most recent American Community Survey published by the United States Census Bureau, (a) a translation of the following: "If you have a food allergy or intolerance, please notify us."; and (b) a food allergy or intolerance message that food service establishments may use to inform customers about allergy and intolerance information for prepared food items.

5. Every food service establishment operating in New York state that makes available a menu shall include in a conspicuous manner on each menu or the assembly upon which the menu or menus are included, either, (a) the following notice: "If you have a food allergy or intolerance, please notify us."; or (b) a food allergy or intolerance message that informs the customer about the allergy or intolerance information for each prepared food item or items on such menu. If such menu is available in a language other than English for which the department makes a translation available pursuant to subdivision four of this section, such food service establishment shall also include such translation in a conspicuous manner. Every food service establishment that makes available a menu online for a customer to place food orders for delivery or take out, including under a third-party food delivery agreement pursuant to section three hundred ninety-one-v of the general business law, shall also include on such menu a food allergy or intolerance notification to customers and either, (1) provide a method by which a customer may indicate any food allergy or intolerance such customer has; or (2) provide a food allergy message that informs the customer about the allergy and intolerance information for each prepared food item or items on such menu.

6. Any food service establishment that violates the provisions of this section or any of the rules or regulations promulgated hereunder shall be liable for a civil penalty not to exceed one hundred twenty-five dollars for each violation.

*** § 1357. Allergen labeling for prepackaged foods.** 1. As used in this section, the following terms shall have the following meanings:

(a) "Prepackaged food" means food that is prepared, prepacked and offered or sold to customers on the same premises. Prepackaged food does not include food that is not in packaging or is packaged after a customer has ordered.

(b) "Food establishment" means any place food is prepared and intended for off-premises consumption, including all delis, bakeries, sandwich shops, ice cream parlors, cafeterias and food trucks operating within the state.

(c) (i) "Major food allergen" means:

(A) milk, eggs, fish, crustacean shellfish, tree nuts, wheat, peanuts, sesame, and soybeans; and

(B) a food ingredient that contains protein derived from a food named in clause (A) of this subparagraph.

(ii) "Major food allergen" does not include:

(A) any highly refined oil derived from a food specified in clause (A) of subparagraph (i) of this paragraph or any ingredient derived from such highly refined oil; or

(B) any ingredient that is exempt under the petition or notification process specified in the Food Allergen Labeling and Consumer Protection Act of 2004, as amended.

2. Every food establishment shall label all prepackaged food with a written notification on the package or on a label attached to the package identifying any ingredient with which a product is made that constitutes a major food allergen. Such label need not identify any ingredient that does not constitute a major food allergen under federal or state law.

* NB Effective November 12, 2026

* TITLE IX

LOCATION AND DISPOSITION OF RADIOACTIVE GOLD JEWELRY

Section 1360. Location and disposition of radioactive gold jewelry.

* NB Expired July 21, 1982

* § 1360. Location and disposition of radioactive gold jewelry. 1.

The commissioner is hereby authorized and directed to establish a program, which shall include the use of such investigations and personnel as may be necessary, to identify gold jewelry which has been contaminated by radioactive material which is, or may be, possessed by residents of this state. Such program shall be publicized by the commissioner, as may be practicable, to encourage residents to have such suspected radioactive gold jewelry tested free of charge, except that jewelers, manufacturers or distributors of gold jewelry may be charged a reasonable fee for the cost of such tests, as determined by the commissioner.

2. Notwithstanding any contrary provisions of law, in any case where such gold jewelry is so identified as radioactive, the commissioner is hereby authorized and empowered to purchase from a resident on behalf of the state such radioactive gold jewelry presented by such resident at the commercial value of the gold content of the radioactive gold jewelry, upon such terms and conditions as the commissioner deems necessary and proper, and within the amount appropriated by the legislature for this purpose.

3. Any such gold jewelry, purchased pursuant to the provisions of this section, shall be held decontaminated or disposed of in such a manner as shall be determined necessary and proper by the commissioner which disposition, however, may include, but not be limited to, the destruction thereof.

4. Any person, firm, association or corporation who learns that they possess radioactive gold jewelry shall immediately notify the commissioner or his designee of the existence of such radioactive gold jewelry.

* NB Expired July 21, 1982

TITLE X

CONTROL OF LEAD POISONING

Section 1370. Definitions.

1370-a. Lead poisoning prevention program.

- 1370-b. Advisory council on lead poisoning prevention.
- 1370-c. Screening by health care providers.
- 1370-d. Lead screening of child care or pre-school enrollees.
- 1370-e. Reporting lead exposure levels.
- 1371. Manufacture and sale of lead painted toys and furniture.
- 1372. Use of leaded paint.
- 1373. Abatement of lead poisoning conditions.
- 1374. Receivership.
- 1375. Enforcement agencies.
- 1376-a. Sale of consumer products containing lead or cadmium.
- 1377. State rental registry and proactive inspections to identify lead hazards.

§ 1370. Definitions. When used in this title, the following words and phrases shall have the following meanings, unless the context clearly requires otherwise:

1. "Dwelling" means a building or structure or portion thereof, including the property occupied by and appurtenant to such dwelling, which is occupied in whole or in part as the home, residence or sleeping place of one or more human beings and shall, without limiting the foregoing, include child care facilities for children under six years of age, kindergartens and nursery schools.

2. "Area of high risk" means an area designated as such by the commissioner or his representative and consisting of one or more dwellings in which a condition conducive to lead poisoning of children is present.

3. "A condition conducive to lead poisoning" means: (i) paint or other similar surface-coating material containing lead in a condition accessible for ingestion or inhalation or where peeling or chipping of the paint or other similar surface-coating material occurs or is likely to occur; and (ii) other environmental conditions which may result in significant lead exposure.

4. "Program" means the lead poisoning prevention program in the department established pursuant to section thirteen hundred seventy-a of this title.

5. "Council" means the advisory council on lead poisoning prevention established pursuant to section thirteen hundred seventy-b of this title.

6. "Elevated lead levels" means a blood lead level greater than or equal to five micrograms of lead per deciliter of whole blood or such lower blood lead level as may be established by the department pursuant to rule or regulation.

7. "Person" means any natural person.

* 8. "Owner" means and includes the owner or owners of the freehold of the premises or lesser estate therein, a mortgagee or vendee in possession, assignee of rents, receiver, executor, trustee, lessee, agent, or any other person, firm or corporation, directly or indirectly in control of a dwelling.

* NB Repealed November 3, 2028

§ 1370-a. Lead poisoning prevention program. 1. The department shall establish a lead poisoning prevention program. This program shall be responsible for establishing and coordinating activities to prevent lead poisoning and to minimize risk of exposure to lead. The department shall exercise any and all authority which may be deemed necessary and appropriate to effectuate the provisions of this title.

2. The department shall:

(a) promulgate and enforce regulations for screening children and pregnant women, including requirements for blood lead testing, for lead poisoning, and for follow up of children and pregnant women who have elevated blood lead levels;

(b) enter into interagency agreements to coordinate lead poisoning prevention, exposure reduction, identification and treatment activities and lead reduction activities with other federal, state and local

agencies and programs;

(c) establish a statewide registry of lead levels of children provided such information is maintained as confidential except for (i) disclosure for medical treatment purposes; (ii) disclosure of non-identifying epidemiological data; and (iii) disclosure of information from such registry to the statewide immunization information system established by section twenty-one hundred sixty-eight of this chapter;

(d) develop and implement public education and community outreach programs on lead exposure, detection and risk reduction;

(e) require primary health care providers to provide the parent or guardian of each child under six years of age anticipatory guidance on lead poisoning prevention as part of routine care, including but not limited to contact information for the state-designated childhood lead poisoning primary prevention program serving their county; and

(f) develop and update as necessary, in consultation with the New York state advisory council on lead poisoning prevention, a standardized lead exposure risk assessment questionnaire that shall be available on the department's website for primary health care providers to utilize pursuant to subdivision two-a of section thirteen hundred seventy-c of this title.

3. The department shall identify and designate areas in the state with significant concentrations of children identified with elevated blood lead levels as communities of concern for purposes of implementing a childhood lead poisoning primary prevention program, and may, within amounts appropriated, provide grants to implement approved programs. The commissioner of health of a county or part-county health district, a county health director or a public health director and, in the city of New York, the commissioner of the New York city department of health and mental hygiene, shall develop and implement a childhood lead poisoning primary prevention program to prevent exposure to lead-based paint hazards for the communities of concern in their jurisdiction. The department shall provide funding to the New York city department of health and mental hygiene or county health departments to implement the approved work plan for a childhood lead poisoning primary prevention program. The work plan and budget, which shall be subject to the approval of the department, shall include, but not be limited to: (a)

identification and designation of an area or areas of high risk within communities of concern; (b) a housing inspection program that includes prioritization and inspection of areas of high risk for lead hazards, correction of identified lead hazards using effective lead-safe work practices and, appropriate oversight of remediation work; (c) partnerships with other county or municipal agencies or community-based organizations to build community awareness of the childhood lead poisoning primary prevention program and activities, coordinate referrals for services, and support remediation of housing that contains lead hazards; (d) a mechanism to provide education and referral for lead testing for children and pregnant women to families who are encountered in the course of conducting primary prevention inspections and other outreach activities; and (e) a mechanism and outreach efforts to provide housing inspections for lead hazards upon request. The commissioner of health of a county or part-county health district, a county health director or a public health director and, in the city of New York, the commissioner of the New York city department of health and mental hygiene, shall also enter into an agreement or subcontract with a municipal government regarding inspection of the paint conditions in dwellings built prior to nineteen hundred seventy-eight for the area defined as the community of concern and may, when qualified staff exists, designate the local housing maintenance code enforcement agency in which the community of concern is located as an agency authorized to administer the provisions of this title pursuant to subdivision one of section thirteen hundred seventy-five of this title. A portion of grant funding received to support the local primary prevention plan may be used to reduce barriers to lead testing of children and pregnant women within the communities of concern, including the purchase of lead testing devices and supplies when the need for such resources is identified within the community. The commissioner, the commissioner of health of a county or part-county health district, a county health director or a public health director and, in the city of New York, the commissioner of the New York city department of health and mental hygiene, is authorized to enter into agreements, contracts, subcontracts or memoranda of understanding with, and provide technical and other resources to, local health officials, local building code officials, real property owners, and community organizations in such areas to

create and implement policies, education and other forms of community outreach to address lead exposure, detection and risk reduction. Primary prevention plans shall target children less than six years of age living in the highest risk housing in the communities of concern identified. The plans shall also take into consideration the extent the weatherization assistance program and other such programs can be used in conjunction with lead-based paint hazard risk reduction. Funding provided for this program shall be used for the activities described in this section and shall not be used for other activities required by this title.

§ 1370-b. Advisory council on lead poisoning prevention. 1. The New York state advisory council on lead poisoning prevention is hereby established in the department, to consist of the following, or their designees: the commissioner; the commissioner of labor; the commissioner of environmental conservation; the commissioner of housing and community renewal; the commissioner of children and family services; the commissioner of temporary and disability assistance; the secretary of state; and fifteen public members appointed by the governor. The public members shall have a demonstrated expertise or interest in lead poisoning prevention and at least one public member shall be representative of each of the following: local government; community groups; labor unions; real estate; industry; parents; educators; local housing authorities; child health advocates; environmental groups; professional medical organizations and hospitals. The public members of the council shall have fixed terms of three years; except that five of the initial appointments shall be for two years and five shall be for one year. The council shall be chaired by the commissioner or his or her designee.

2. Members of the advisory council shall serve without compensation for their services, except that each of them may be allowed necessary and actual expenses which he or she shall incur in the performance of his or her duties under this article.

3. A majority of the appointed voting membership of the council shall

constitute a quorum.

4. The council shall meet as often as may be deemed necessary to fulfill its responsibilities. The council shall have the following powers and duties:

(a) To develop a comprehensive statewide plan to prevent lead poisoning and to minimize the risk of human exposure to lead;

(b) To coordinate the activities of its member agencies with respect to environmental lead policy and the statewide plan;

(c) To recommend the adoption of policies with regard to the detection and elimination of lead hazards in the environment;

(d) To recommend the adoption of policies with regard to the identification and management of children with elevated lead levels;

(e) To recommend the adoption of policies with regard to education and outreach strategies related to lead exposure, detection, and risk reduction;

(f) To comment on regulations of the department under this title when the council deems appropriate;

(g) To make recommendations to ensure the qualifications of persons performing inspection and abatement of lead through a system of licensure and certification or otherwise;

(h) To recommend strategies for funding the lead poisoning prevention program, including but not limited to ways to enhance the funding of screening through insurance coverage and other means, and ways to financially assist property owners in abating environmental lead, such as tax credits, loan funds, and other approaches; and

(i) To report on or before December first of each year to the governor and the legislature concerning the previous year's development and implementation of the statewide plan and operation of the program, together with recommendations it deems necessary and the most currently available lead surveillance measures, including the actual number and estimated percentage of children tested for lead in accordance with New York state regulations, including age-specific testing requirements, and the actual number and estimated percentage of children identified with elevated blood lead levels. Such report shall be made available on the department's website.

§ 1370-c. Screening by health care providers. 1. The department is authorized to promulgate regulations establishing the means by which and the intervals at which children and pregnant women shall be screened for elevated lead levels. The department is also authorized to require screening for lead poisoning in other high risk groups.

2. Every physician or other authorized practitioner who provides medical care to children or pregnant women, shall screen children or refer them for screening for elevated lead levels at the intervals and using the methods specified in such regulations. Every licensed, registered or approved health care facility serving children including but not limited to hospitals, clinics and health maintenance organizations, shall ensure, by providing screenings or by referring for screenings, that their patients receive screening for lead at the intervals and using the methods specified in such regulations.

2-a. Every primary health care provider shall conduct a lead exposure risk assessment questionnaire provided by the department for each child who is at least six months of age and continuing until six years of age at each routine well-child visit, or at least annually if a child has not had routine well-child visits.

3. The health practitioner who screens any child for lead shall give a certificate of screening to the parent or guardian of the child.

4. The department shall establish a separate level of payment, subject to the approval of the director of the budget, for payments made by governmental agencies for screenings performed pursuant to this section by hospitals, as defined in section twenty-eight hundred one of this chapter.

§ 1370-d. Lead screening of child care, pre-school, pre-kindergarten or kindergarten enrollees. 1. Except as provided pursuant to regulations of the department, each child care provider, public and private nursery school, pre-school, and pre-kindergarten or kindergarten licensed,

certified or approved by any state or local agency shall, prior to or within three months after initial enrollment of a child under six years of age, obtain from a parent or guardian of the child evidence that said child has been screened for lead.

2. Whenever there exists no evidence of lead screening as provided for in subdivision one of this section or other acceptable evidence of the child's screening for lead, the child care provider, principal, teacher, owner or person in charge of the nursery school, pre-school, or pre-kindergarten or kindergarten shall provide the parent or guardian of the child with information on lead poisoning in children and lead poisoning prevention and refer the parent or guardian to a primary care provider or the local health authority.

3. (a) If any parent or guardian to such child is unable to obtain lead testing, such person may present such child to the health officer of the county in which the child resides, who shall then perform or arrange for the required screening.

(b) The local public health district shall develop and implement a fee schedule for households with incomes in excess of two hundred percent of the federal poverty level for lead screening pursuant to section six hundred six of this chapter, which shall vary depending on patient household income.

§ 1370-e. Reporting lead exposure levels. 1. Every physician or authorized practitioner shall give notice of elevated lead levels as specified by the commissioner pursuant to regulation, to the health officer of the health district wherein the patient resides, except as otherwise provided.

2. The commissioner may, by regulation, provide that cases of elevated lead levels which occur (a) in health districts of less than fifty thousand population not having a full-time health officer, or (b) in state institutions shall be reported directly to the department or its district health officer.

3. Whenever an analysis of a clinical specimen for lead is performed by a laboratory or a physician or authorized practitioner, the director of such laboratory or such physician or authorized practitioner shall, within such period specified by the commissioner report the results and any related information in connection therewith to the local and state health officer to whom a physician or authorized practitioner is required to report such cases pursuant to this section.

4. The person in charge of every hospital, clinic, or other similar public or private institution shall give notice of every child with an elevated blood lead level coming under the care of the institution to the local or state health officer to whom a physician or authorized practitioner is required to report such cases pursuant to this section.

5. The notices required by this section shall be in a form and filed in such time period as shall be prescribed by the commissioner.

§ 1371. Manufacture and sale of lead painted toys and furniture. 1. No person shall manufacture, sell or hold for sale a children's toy or children's furniture having paint or other similar surface-coating material thereon containing more than .06 of one per centum of metallic lead based on the total weight of the contained solids or dried paint film.

2. The commissioner of health may waive the provisions of this section in whole or in part upon a finding by the commissioner in a particular instance that there is no significant threat to the public health; with respect to miniatures the commissioner shall do so, on terms and conditions he or she shall establish, upon a final judicial or administrative finding that there is no immediate public health threat in that instance.

§ 1372. Use of leaded paint. No person shall apply paint or other similar surface-coating material containing more than .06 of one per centum of metallic lead based on the total weight of the contained

solids or dried paint film to any interior surface, window sill, window frame or porch of a dwelling.

§ 1373. Abatement of lead poisoning conditions. 1. Whenever the commissioner or his or her representative shall designate an area of high risk, he or she shall give written notice and demand, served as provided by this section, for the discontinuance of a paint condition conducive to lead poisoning in any designated dwelling in such area within a specified period of time.

2. Such notice and demand shall prescribe the method of discontinuance of a condition conducive to lead poisoning which may include the removal of paint containing more than one-half of one per centum of metallic lead based on the total weight of the contained solids or dried film of the paint or other similar surface-coating material from surfaces specified by the commissioner or his representative under such safety conditions as may be indicated and the refinishing of such surfaces with a suitable finish which is not in violation of section one thousand three hundred seventy-two of this title or the covering of such surfaces with such material or the removal of lead contaminated soils or lead pipes supplying drinking water as may be deemed necessary to protect the life and health of occupants of the dwelling.

3. In the event of failure to comply with a notice and demand, the commissioner or his or her representative shall take enforcement action as deemed appropriate by the commissioner or his or her representative, which may include conducting a formal hearing upon due notice in accordance with the provisions of section twelve-a of this chapter and on proof of violation of such notice and demand may order abatement of a paint condition conducive to lead poisoning upon such terms as may be appropriate and may assess a penalty not to exceed two thousand five hundred dollars for such violation; provided, however, that abatement shall not be ordered if the respondent proves by a preponderance of evidence at such hearing that a paint condition conducive to lead poisoning in the designated dwelling does not exist.

4. A notice required by this section may be served upon an owner or occupant of the dwelling or agent of the owner in the same manner as a summons in a civil action or by registered or certified mail to his last known address or place of residence.

5. The removal of a tenant from or the surrender by the tenant of a dwelling with respect to which the commissioner or his representative, pursuant to subdivision one of this section, has given written notice and demand for the discontinuance of a paint condition conducive to lead poisoning shall not absolve, relieve or discharge any persons chargeable therewith from the obligation and responsibility to discontinue such paint condition conducive to lead poisoning in accordance with the method of discontinuance prescribed therefor in such notice and demand.

§ 1374. Receivership. 1. In the event of failure to comply with an order issued pursuant to this title and containing provision for such application, the officer issuing the order may apply to a court of competent jurisdiction in the county wherein the dwelling is located for an order appointing such officer or his designee receiver of the rents of such dwelling for the purpose of effectuating the provisions of such order.

2. An application for appointment of a receiver hereunder shall be on at least ten days' notice to the owner of the dwelling, effected in the same manner as in an action to foreclose a mortgage. A receiver appointed hereunder shall not have any right superior to those of any mortgagee or lienor of record who has not had at least ten days' notice, by personal service or registered or certified mail, of the application for appointment of a receiver.

3. A receiver appointed hereunder shall have the power to collect the accrued and accruing rents of the dwelling and shall apply such collected rents to costs and expenses incurred in connection with (a) removing, replacing, repainting and covering surfaces of the dwelling necessary to effectuate the provisions of the order of abatement, (b) interim operation and management of the dwelling, (c) administration of

the receivership.

4. As soon as practicable after completion of his duties, the receiver shall render a full accounting to the court and, upon payment over of any surplus moneys to the owner or other persons as the court may approve or direct and upon the order of the court, he shall be relieved of any further responsibility or liability in connection with his receivership.

§ 1375. Enforcement agencies. 1. The commissioner's designee having jurisdiction, county and city commissioners of health and local housing code enforcement agencies designated by the commissioner's designee having jurisdiction or county or city commissioner of health shall have the same authority, powers and duties within their respective jurisdictions as has the commissioner under the provisions of this title.

2. The commissioner or his representative and an official or agency specified in subdivision one of this section may request and shall receive from all public officers, departments and agencies of the state and its political subdivisions such cooperation and assistance as may be necessary or proper in the enforcement of the provisions of this title.

3. Nothing contained in this title shall be construed to alter or abridge any duties and powers now or hereafter existing in the commissioner, county boards of health, city and county commissioners of health, the New York City department of housing preservation and development and the department of health, local boards of health or other public agencies or public officials, or any private party.

§ 1376-a. Sale of consumer products containing lead or cadmium. 1. In the absence of a federal standard for a specific type of product, the commissioner shall establish the maximum quantity of lead or cadmium (and the manner of testing therefor) which may be released from glazed ceramic tableware, crystal, china and other consumer products. Such

maximum quantity shall be based on the best available scientific data and shall insure the safety of the public by reducing its exposure to lead and cadmium to the lowest practicable level. The commissioner may amend such maximum quantity (and the manner of testing therefor) where necessary or appropriate for the safety of the public. Until such maximum quantity of lead or cadmium established by the commissioner is effective, no glazed ceramic tableware shall be offered for sale which releases lead in excess of 7 parts per million, or cadmium in excess of .5 parts per million.

2. The commissioner is hereby empowered to order the recall of or confiscation of glazed ceramic tableware, crystal, china or other consumer products offered for sale which do not meet the standards set forth in or pursuant to this section.

3. The commissioner of health may waive the provisions of this section in whole or in part upon a finding by the commissioner in a particular instance that there is no significant threat to the public health; with respect to miniatures the commissioner shall do so, on terms and conditions he or she shall establish, upon a final judicial or administrative finding that there is no immediate public health threat in that instance.

*** § 1377. State rental registry and proactive inspections to identify lead hazards.** 1. The department shall, in consultation with the division of housing and community renewal, develop a registry for all residential dwellings with two or more units built prior to nineteen hundred eighty which, by virtue of their property class designation, are potentially eligible for rental, lease, let or hiring out, and are located within communities of concern as identified by the department. Such registry shall only include qualifying residential dwellings outside a city with a population of one million people or more. The department shall utilize all available property information to develop the registry including but not limited to information from tax assessment rolls and information from property records in the office in which instruments affecting real property in the county are recorded.

2. The department, or their designee, shall provide written notice to the owners of residential dwellings qualifying for registration in accordance with this section within sixty days of the effectiveness of such registry.

3. Owners of all residential dwellings qualifying for registration in accordance with this section shall certify as free of lead paint hazards, in accordance with subdivision seven of this section and the regulations promulgated thereunder. Inspection certifications must be submitted by the owner to the local health department or their designee for recording in the rental registry by October first of the year the certification is due.

4. The department, or their designee, shall provide owners of qualifying residential dwellings a minimum of two notices prior to the deadline to submit a certification, not including the notification under subdivision two of this section. Such notice shall include information for owners to notify the department or their designee a residential dwelling is not eligible for rental, lease, let or hiring out and are therefore not required to submit a certification under this section.

If an owner fails to submit a certification by the deadline, or incorrectly asserts that they are not required to submit a certification under this section, the department, or their designee, shall provide an additional notice prior to taking any further action.

5. The department shall establish an annual inspection and audit process which shall review at least ten percent of the certification inspections of residential dwellings qualifying for the rental registry. Such process shall include individual inspections and document review to ensure that owners complied with all obligations and responsibilities under this section. Such audits shall be conducted in-person and shall confirm that a residential dwelling is or is not eligible for the rental registry and that the residential dwelling is free of lead paint hazards.

6. The commissioner shall promulgate regulations as needed to administer, coordinate, and enforce this section.

7. The commissioner shall promulgate regulations regarding the inspections required to be completed pursuant to this section as well as the certification of such inspections which shall include, but not be limited to: (a) the frequency of such inspections which shall be no less frequent than every three years; (b) the minimum conditions the residential dwelling must meet for a valid inspection certification; (c) qualifications for inspectors; (d) minimum standards for a standardized form on which the owner of a residential dwelling may self-certify as to a satisfactory inspection, such form shall require such owner to confirm such residential dwelling meets all the requirements of paragraph (b) of this subdivision and may require such owner to submit any documentation deemed necessary by the commissioner, provided, however, such owner shall meet the qualifications pursuant to paragraph (c) of this subdivision; (e) alternative methods of certification, which may include the submission of a valid and active residential occupancy permit for which the minimum conditions required under paragraph (b) of this subdivision were required to be met for such issuance; (f) procedures for false certifications, upon a finding by the department that a self-certified dwelling contains lead hazards; and (g) any other information or requirements deemed necessary by the commissioner to administer, coordinate, and enforce this section.

8. The inspection requirements under this section shall, at a minimum, include visual inspections for deteriorated paint and outdoor soil conditions, as well as the collection of dust wipe samples obtained in accordance with United States Environmental Protection Agency protocols for such procedures.

9. Remediation of lead-based paint hazards must be conducted in compliance with all municipal requirements and specific requirements specified in regulation.

10. A failure to file or filing a false certificate as required under this section shall be subject to civil penalties under section twelve of

this chapter, in addition to any penalties that may apply.

11. The commissioner shall, on or before December thirty-first in each year, beginning the calendar year after the effective date of this section, submit a report to the governor, the temporary president of the senate, and the speaker of the assembly on the activity and implementation of this section. Such report shall include but not be limited to: the number of residential properties qualifying for registration, the number of properties required to submit inspection certifications by October first of such year, the number of inspection certifications submitted by October first of such year, the number of inspections conducted pursuant to the audit process established in subdivision five of this section, the results of the audit process established in subdivision five of this section, and such other information as the commissioner determines. The information provided in the report shall reflect statewide activities in the aggregate and activities for each community of concern.

* NB Repealed November 3, 2028

TITLE ELEVEN

STATE AID: PLANNING FOR CONSTRUCTION OF SOLID WASTE MANAGEMENT FACILITIES

Section 1380. Definitions.

1381. State aid.

1382. Powers and duties of the commissioner.

1383. Powers of municipalities.

§ 1380. Definitions. As used in this title:

1. "Solid waste management facility" means any area or site, structure, facility or equipment used for or in connection with methods including, but not limited to shredding, compression, high-temperature incineration, pyrolization, separation or any other technology for resource recovery, transporting, storing, or the final placement and disposal of solid wastes in a manner satisfactory to the commissioner.

2. "Municipality" means a town, city, county, or village or any designated public agency thereof, or any two or more of the foregoing which are acting jointly in connection with a solid waste management facility, or a public authority.

3. "Commissioner" means the commissioner of environmental conservation of the state of New York.

§ 1381. State aid. 1. The commissioner may in the name of the state make or contract to make, within the limitation of the appropriations therefor, a state grant for payment to any municipality or to two or more municipalities jointly of not more than fifty per cent of the entire cost of the preparation of detailed plans, including consideration of recycling technology, ultimate land use, and environmental impact, for the construction of new solid waste management facilities or the improvement of existing solid waste management facilities, as determined and approved by the commissioner.

2. Payments authorized pursuant to this title shall be made in two apportionments, as follows:

(a) the first payment, not to exceed fifty per cent of the total grant, shall be payable when acceptable detailed plans are approved by the commissioner, and

(b) the balance of the grant shall be payable when construction contracts are awarded, or when construction begins, whichever occurs first.

§ 1382. Powers and duties of the commissioner. In administering and enforcing the provisions of this title, the commissioner shall:

1. make an estimate of funds or appropriations for inclusion annually in the executive budget;

2. receive applications for state aid in such form and containing such

information as he may require;

3. qualify municipalities for state aid and advise them concerning such qualifications;

4. approve detailed plans submitted by the applicant for the construction of solid waste management facilities or for improvement of existing solid waste management facilities where the same are found to be consistent with sound, comprehensive solid waste management planning, take into adequate account the feasibility of a recycling facility to shred, compress, pyrolize, separate or otherwise process the solid waste for resource recovery, the potential resources to be recovered, ultimate land use and are otherwise acceptable to him; provided, however, plans further:

a. describe the components of the solid waste estimated to be generated, by weight or volume;

b. describe the proposed method of transporting to be utilized from its source to the solid waste management facility, and the estimated cost therefor;

c. detail the separation techniques proposed to be utilized at the solid waste management facility; and

d. specify what and where the available markets are for recovered materials within the region covered by the plan, and/or within fifty miles outside the region covered by the plan;

5. approve vouchers for payment of state aid grants;

6. perform such other and further acts and promulgate such rules and regulations as may be necessary, proper or desirable to carry out effectively the provisions of this title.

§ 1383. Powers of municipalities. Any municipality or municipalities

acting jointly may:

1. apply to and contract with the commissioner for state aid pursuant to this title;

2. enter into contracts for consulting engineering services for the preparation of detailed plans for the construction of solid waste management facilities or the improvement of existing solid waste management facilities; provided, however, the contract cost negotiated between the person or firm chosen to perform the consulting engineering services or market research and the applicant for state aid under this title shall be subject to the approval of the commissioner;

3. expend money received from the state pursuant to this title only for purposes consistent therewith.

TITLE XII TOXIC SUBSTANCES

Section 1385. Legislative intent.

1386. Duties of the commissioner.

1387. Contracts.

1388. Powers of the commissioner; emergencies.

1389. Reports.

§ 1385. Legislative intent. Sites formerly operated as landfills to dispose of toxic substances are exposing the citizens of the state to unnecessary hazards, the duration and extent of which is unknown. To develop a plan for the alleviation of these conditions, it is necessary to conduct a study to determine the extent of such hazards. The potential hazard believed to exist at a specific landfill site in the county of Niagara, has precipitated the need for immediate action to authorize the department of health to undertake such study and to conduct a pilot program to evaluate the effect of individual corrective systems in affected residences.

§ 1386. Duties of the commissioner. The commissioner of health shall conduct a study of both the long and the short term effects of health hazards associated with exposure to toxic substances emanating from certain landfills.

§ 1387. Contracts. The commissioner of health is authorized to enter into contracts and agreements with individuals, corporations and municipalities to perform the study herein directed to alleviate the specific hazard to which the general public or members thereto may be exposed as the result of toxic substances emanating from landfills.

§ 1388. Powers of the commissioner; emergencies. In case of great and imminent peril to the health of the general public from such hazards as may be identified as resulting from exposure to toxic substances emanating from landfills, the commissioner may declare the existence of an emergency and take such measures and do such acts as he may deem reasonably necessary and proper for the preservation and protection of the public health.

§ 1389. Reports. The commissioner of health shall make an initial report to the governor and the legislature on or before September fifteenth, nineteen hundred seventy-eight of his progress and a further report to the governor and the legislature on or before April first, nineteen hundred eighty-one.

TITLE XII-A

INACTIVE HAZARDOUS WASTE DISPOSAL SITES

Section 1389-a. Definitions.

1389-b. Powers of the commissioner.

1389-c. Rules and regulations.

1389-d. New use of sites.

1389-e. Liability exemptions and defenses.

§ 1389-a. Definitions. 1. "Hazardous waste" means hazardous waste as defined in section 27-1301 of the environmental conservation law.

2. "Inactive hazardous waste disposal site" means an inactive hazardous waste disposal site as that term is defined in section 27-1301 of the environmental conservation law.

3. "Inactive hazardous waste disposal site remedial program" means an inactive hazardous waste disposal site remedial program as that term is defined in section 27-1301 of the environmental conservation law.

4. "Person" means an individual, trust, firm, joint venture, joint stock company, corporation, limited liability company, partnership, association, state, municipality, commission, political subdivision of a state, public benefit corporation, or any interstate body. Provided, however for the purposes of this title, a person shall not include a person as defined in section one thousand three hundred eighty-nine-e of this title.

5. "Waste" shall have the same meaning as set forth in section 27-1301 of the environmental conservation law.

§ 1389-b. Powers of the commissioner. 1. (a) The department shall be responsible for assessing (i) serious health problems at and in the immediate vicinity of inactive hazardous waste disposal sites and (ii) any health problems deemed by the department to be related to conditions at such sites.

(b) Section eight of the court of claims act or any other provision of law to the contrary notwithstanding, the state shall be immune from liability and action with respect to any act or omission done in the discharge of the department's responsibility pursuant to this title; provided, however, that this subdivision shall not limit any liability which may otherwise exist for unlawful, willful or malicious acts or omissions on the part of the state, state agencies, their officers,

employees or agents, or for ownership or responsibility for the disposal of hazardous waste, including the cost of cleanup, pursuant to this section or section 27-1313 of the environmental conservation law.

2. Whenever there is a condition dangerous to life or health resulting from an inactive hazardous waste disposal site, the commissioner shall immediately declare the existence of such condition. After the issuance of any such declaration and throughout the time period during which such a declaration is effective, the department shall be responsible for (a) monitoring such inactive hazardous waste disposal sites, (b) approving proposed inactive hazardous waste disposal site remedial programs for such sites and (c) certifying the completion of inactive hazardous waste disposal site remedial programs for such sites.

3. (a) Whenever the commissioner has issued such a declaration and throughout the time period during which such a declaration is effective, the commissioner may request the commissioner of environmental conservation pursuant to paragraph (b) of subdivision five of this section and within the funds available to the department of environmental conservation to develop an inactive hazardous waste disposal site remedial program for such site and/or, in addition to any other powers he may have, order the owner of such site and/or any person responsible for the disposal of hazardous wastes at such site (i) to develop an inactive hazardous waste disposal site remedial program for such site subject to the approval of the department and (ii) to implement such program within reasonable time limits specified in the order. Such order shall supersede any order issued by the commissioner of environmental conservation pursuant to section 27-1313 of the environmental conservation law.

(b) Whenever the commissioner has issued such a declaration and further finds that it would be prejudicial to the public interest to delay action until an opportunity for a hearing can be provided pursuant to this title, the department may request, pursuant to paragraph c of subdivision five of this section and within the funds available to the department of environmental conservation, the department of environmental conservation to develop and implement an inactive hazardous waste disposal site remedial program for such site. The

finding required pursuant to this paragraph may be made by the commissioner on an ex parte basis subject to judicial review.

4. Any order issued pursuant to subdivision three of this section shall be issued only after notice and the opportunity for hearing is provided to the persons who may be the subject of such order. The commissioner shall determine which persons are responsible pursuant to said subdivision according to applicable principles of statutory or common law liability. Such persons shall be entitled to raise any statutory or common law defenses at any such hearing and such defenses shall have the same force and effect at such hearings as they would have in a court of law. In the event a hearing is held, no order shall be issued by the commissioner under subdivision three of this section until a final decision has been rendered. Any such order shall be reviewable pursuant to article seventy-eight of the civil practice law and rules within thirty days after service of said order. The commissioner may request the participation of the attorney general in such hearings.

5. (a) Whenever a person ordered to eliminate a condition dangerous to life or health has failed to do so within the time specified in the order, the department of environmental conservation shall develop and implement or cause to be implemented, pursuant to a memorandum of understanding between the department and the department of environmental conservation, an inactive hazardous waste disposal site remedial program for such site. The expense of developing and implementing such remedial program by the department, the department of environmental conservation or any other state agency shall be paid by the person to whom the order was issued.

(b) In the event that the commissioner has issued a declaration that hazardous wastes at a site constitute a condition dangerous to life or health, but after a reasonable attempt to determine who may be responsible is either unable to determine who may be responsible, or is unable to locate a person who may be responsible, the department of environmental conservation may develop and implement an inactive hazardous waste disposal site remedial program for such site. The commissioner shall make every effort, in accordance with the requirements for notice, hearing and review provided for in this title,

to secure appropriate relief from the owner of such site and/or any person responsible for the disposal of hazardous wastes at such site, including, but not limited to, development and implementation of an inactive hazardous waste disposal site remedial program, payment of the cost of such a program, recovery of any reasonable expenses incurred by the state, money damages and penalties.

(c) Whenever the commissioner has made a declaration and finding pursuant to paragraph (b) of subdivision three of this section the department may request the department of environmental conservation to develop and implement an inactive hazardous waste disposal site remedial program to contain, alleviate or end the threat to life or health. The commissioner shall make every effort, in accordance with the requirements for notice, hearing and review provided for in this title, to secure appropriate relief from the owner or operator of such site and any person responsible for the disposal of hazardous wastes at such site, including but not limited to, development and implementation of an inactive hazardous waste disposal site remedial program, payment of the cost of such a program, recovery of any reasonable expenses incurred by the state, money damages and penalties.

6. Nothing contained within this section shall be construed as impairing or in any manner affecting the right or jurisdiction of the attorney general to seek appropriate relief pursuant to his statutory or common law authority.

7. If the person failing to comply with such order to eliminate a condition dangerous to life or health is a municipality, commission or political subdivision of the state, the comptroller shall, upon certification by the department subject to the approval of the director of the division of the budget of the expense of any action taken by the department, the department of environmental conservation or any other state agency pursuant to subdivision five of this section and upon notification to the affected person, deduct and withhold from the next succeeding allotments, payments or apportionments of local assistance aid, other than education aid, to such municipality, commission or political subdivision of the state an amount or amounts equal to the amount expended by the department, the department of environmental

conservation or any other state agency and not paid. Prior to such approval by the director of the division of the budget, the director shall (a) develop a schedule of deductions and withholdings that will ensure the continuity of essential services by such municipality, commission or political subdivision of the state and (b) give thirty days written notice of such deductions and withholdings to the speaker and minority leader of the assembly, the majority and minority leaders of the senate and the chairmen and ranking minority members of the senate finance committee and the assembly ways and means committee. Such deductions or withholdings will in no case take effect before one full fiscal year of the affected person after the date of such approval by the director of the division of the budget shall have elapsed. The state, by virtue of such deductions or withholdings, shall not be obligated to pay any additional or increased allotments, payments or apportionments of state aid. Allotments, payments or apportionments withheld pursuant to this subdivision shall be credited to the general fund of the state.

8. Moneys for actions taken or to be taken by the department, the department of environmental conservation or any other state agency in connection with the elimination of conditions dangerous to life or health pursuant to subdivision five of this section, including any inspection or sampling of wastes, soils, air, surface water and groundwater done upon behalf of a state agency whether or not such action is taken prior to the issuance of a declaration pursuant to subdivision two of this section, shall be payable directly to such agencies from the hazardous waste remedial fund pursuant to section ninety-seven-b of the state finance law.

§ 1389-c. Rules and regulations. The department shall have the power to make rules and regulations necessary and appropriate to carry out the purposes of this title. Any such regulations shall include provisions which establish the procedures for a hearing, pursuant to subdivision four of section thirteen hundred eighty-nine-b of this article. Such provision shall ensure a division of functions between the commissioner, the staff who present the case and any hearing officers appointed.

§ 1389-d. New use of sites. Subsequent to the adoption of regulations by the department of environmental conservation pursuant to section 27-1317 of the environmental conservation law, no person may substantially change the manner in which an inactive hazardous waste disposal site on the registry prepared and maintained by the department of environmental conservation pursuant to section 27-1305 of the environmental conservation law is used, without notifying the department and, pursuant to section 27-1317 of the environmental conservation law, the department of environmental conservation. A substantial change of use shall be defined in rules and regulations adopted by the department of environmental conservation and shall include, but not be limited to, the erection of a building or other structure on such site, the paving of such site for use as a roadway or parking lot, and the creation of a park or other public or private recreational facility on such site. Such notice shall be in writing, addressed to the commissioner and the commissioner of environmental conservation and shall include a brief description of the proposed change of use. Such notice shall be submitted at least sixty days before any physical alteration of the land or construction shall occur or, in the event any alteration or construction is not required to initiate such change of use, at least sixty days before any change of use.

Subsequent to the adoption of regulations by the department of environmental conservation pursuant to section 27-1317 of the environmental conservation law, no person may substantially change the manner in which an inactive hazardous waste disposal site, for which a declaration has been issued by the commissioner pursuant to subdivision two of section one thousand three hundred eighty-nine-b of this title, is used without the written approval of the commissioner. The commissioner shall not approve such change of use if such new use will expose persons to a significantly increased danger to life or health.

§ 1389-e. Liability exemptions and defenses. 1. Lender exemption. (a) For purposes of this title no lender shall incur any liability from any

statutory claims of the state as an owner or operator of a site, or a person responsible for the disposal of a hazardous waste at such site, provided such lender, without participating in the management of such site, holds indicia of ownership primarily to protect the lender's security interest in the site or, if such lender did not participate in the management of such site prior to a foreclosure on such site, notwithstanding that such lender:

(1) forecloses on such site; and

(2) after foreclosure, sells, releases (in the case of a lease finance transaction), or liquidates such site, maintains business activities, winds up operations, or takes any other measure to preserve, protect or prepare such site prior to sale or disposition; provided, however, that such lender shall take actions to sell, release (in the case of a lease finance transaction), or otherwise divest itself of such site at the earliest practicable, commercially reasonable time, on commercially reasonable terms, taking into account market conditions and legal and regulatory requirements.

(b) This exemption shall not apply to any lender that has caused or contributed to the release or threatened release of a hazardous waste from or onto the site, or to any lender that generated, transported, or disposed of, arranged for, or that caused the generation, transportation, or disposal of hazardous waste from or onto such site.

(c) For purposes of this section:

(1) The term "participating in management" means actually participating in the management or operational affairs of a site and does not include merely having the capacity to influence, or the unexercised right to control, site operations.

(i) A lender who holds indicia of ownership primarily to protect a security interest in such site shall be considered to participate in management only if, while the borrower is in possession of such site encumbered by the security interest, the lender:

(A) exercises decision making control over the environmental compliance related to such site, such that the lender has undertaken responsibility for the hazardous waste handling or disposal practices related to such site; or

(B) exercises control at a level comparable to that of a manager of such site, such that the lender has assumed or manifested

responsibility:

(I) for the overall management of such site encompassing day-to-day decision making with respect to environmental compliance; or

(II) over all or substantially all of the operational functions, excluding financial or administrative functions, of such site other than the function of environmental compliance.

(ii) The term "participate in management" does not include:

(A) Performing an act or failing to act prior to the time at which a security interest is created in a site;

(B) Holding a security interest or abandoning or releasing a security interest;

(C) Including in the terms of an extension of credit, or in a contract or security agreement relating to such extension, a covenant, warranty, or other term or condition that relates to environmental compliance;

(D) Monitoring or enforcing the terms and conditions of the extension of credit or security interest;

(E) Monitoring or undertaking one or more inspections of such site;

(F) Requiring a response action or other lawful means of addressing the release or threatened release of a hazardous waste in connection with such site prior to, during, or on the expiration of the term of the extension of credit;

(G) Providing financial or other advice or counseling in an effort to mitigate, prevent, or cure default or diminution in the value of such site;

(H) Restructuring, renegotiating, or otherwise agreeing to alter the terms and conditions of the extension of credit or security interest, exercising forbearance;

(I) Exercising other remedies that may be available under applicable law for the breach of a term or condition of the extension of credit or security agreement; or

(J) Conducting a response action under 42 U.S.C. Section 9607(d) or under the direction of an on-scene coordinator appointed under the national contingency plan if the actions do not rise to the level of participating in management within the meaning of this subparagraph.

(2) The term "extension of credit" includes a lease finance transaction:

(i) In which the lessor does not initially select the leased site and

does not during the lease term control the daily operations or maintenance of such site; or

(ii) That conforms with regulations issued by the appropriate federal banking agency or the appropriate state bank supervisor (as those terms are defined in section 3 of the federal deposit insurance act (12 U.S.C. 1813)) or with regulations issued by the national credit union administration board, as appropriate.

(3) The term "financial or administrative function" includes a function such as that of a credit manager, accounts payable officer, accounts receivable officer, personnel manager, comptroller, or chief financial officer, or a similar function.

(4) The terms "foreclosure" and "foreclose" mean, respectively, acquiring and to acquire, a site through:

(i) Purchase at sale under a judgment or decree, power of sale, or nonjudicial foreclosure sale;

(ii) A deed in lieu of foreclosure or similar conveyance from a trustee;

(iii) Repossession if such site was security for an extension of credit previously contracted;

(iv) Conveyance pursuant to an extension of credit previously contracted, including the termination of a lease agreement; or

(v) Any other formal or informal manner by which the lender acquires, for subsequent disposition, title to or possession of a site in order to protect the lender's security interest.

(5) The term "lender" means:

(i) An insured depository institution as defined in section 3 of the federal deposit insurance act (12 U.S.C. 1813);

(ii) An insured credit union as defined in section 101 of the federal credit union act (12 U.S.C. 1752);

(iii) A bank or association chartered under the farm credit act of 1971 (12 U.S.C. 2001 et seq.);

(iv) A leasing or trust company that is an affiliate of an insured depository institution;

(v) Any person, including a successor or assignee of any such person, that makes a bona fide extension of credit to or takes or acquires a security interest from a nonaffiliated person;

(vi) The federal national mortgage association, the federal home loan

mortgage corporation, the federal agricultural mortgage corporation, or any other entity that in a bona fide manner buys or sells loans or interests in loans;

(vii) A person that insures or guarantees against a default in the repayment of an extension of credit, or acts as a surety with respect to an extension of credit, to a nonaffiliated person; and

(viii) A person that provides title insurance and that acquires a site as a result of assignment or conveyance in the course of underwriting claims and claims settlement.

(6) The term "operational function" includes a function such as that of a site or plant manager, operations manager, chief operating officer, or chief executive officer.

(7) The term "security interest" includes a right under a mortgage, deed of trust, assignment, judgment, lien, pledge, security agreement, factoring agreement, or lease, and any other right accruing to a person to secure the repayment of money, the performance of a duty, or any other obligation by a nonaffiliated person.

2. Municipal exemption. (a) For the purposes of this title no public corporation shall incur any liability from any statutory claims of the state as an owner or operator of a site, or a person responsible for the disposal of a hazardous waste at such site, if such public corporation acquired such site involuntarily, and such public corporation retained such site without participating in the development of such site.

(b) This exemption shall not apply to any public corporation that has caused or contributed to the release or threatened release of a hazardous waste from or onto the site, or to any public corporation that generated, transported, or disposed of, arranged for, or that caused the generation, transportation, or disposal of hazardous waste, from or onto the site.

(c) When used in this section:

(1) "Public corporation" means a public corporation as defined in section sixty-five of the general construction law, a local public authority, supervisory district, improvement district within a county, city, town, or village, or Indian nation or tribe recognized by the state or the United States with a reservation wholly or partly within the boundaries of New York state, or any combination thereof.

(2) "Involuntary acquisition of ownership or control" includes but is not limited to the following:

(i) Acquisitions by a public corporation in its sovereign capacity, including but not limited to acquisitions pursuant to abandonment proceedings or bequest;

(ii) Acquisitions by a public corporation, or its agent, acting as a conservator or receiver pursuant to a clear and direct statutory mandate or regulatory authority;

(iii) Acquisitions of assets through foreclosure and its equivalents, or otherwise, by a public corporation in the course of administering a loan, loan guarantee, tax lien, or tax forbearance agreement, or loan insurance program; or

(iv) Acquisitions by a public corporation pursuant to seizure, injunction, condemnation, or forfeiture authority; provided that such ownership or control is not retained primarily for investment purposes.

(d) For the purpose of this section, the terms "foreclosure" and "foreclose" mean, respectively, acquiring or to acquire a brownfield site through:

(1) purchase at sale under a judgment or decree, power of sale, or non-judicial foreclosure sale;

(2) a deed in lieu of foreclosure, or similar conveyance, or abandonment from a person or trustee;

(3) conveyance pursuant to an extension of credit or tax forbearance previously contracted; or

(4) any other formal or informal manner by which a person acquires, for subsequent disposition, title to or possession of a site in order to protect the security interest of the public corporation or lender.

(e) "Participating in development" means the carrying out, or causing or permitting the carrying out, of any above-grade improvements to the site or any other environmental investigation or remediation, except for those improvements which are part of a site remedial program pursuant to this article or in furtherance of site safety, such as fencing or lighting, but does not include licensing, regulatory oversight, or the mere capacity to regulate or influence, or the unexercised right to control the operation of the property. For purposes of this section, participating in development does not include:

(1) having the capacity to influence management of a site;

(2) having the unexercised right to control or to regulate the site or operations thereof;

(3) holding, abandoning, or releasing a security interest or tax lien on such site;

(4) including a condition relating to environmental compliance in a contract, permit, license, or security agreement;

(5) monitoring or enforcing the terms and conditions of an agreement or tax forbearance agreement;

(6) monitoring or undertaking one or more inspections of a site including, but not limited to, boring test wells;

(7) exercising other remedies available under applicable laws;

(8) licensing, permitting, or granting permits, certificates of occupancy and variances as allowed by law and/or regulation;

(9) applying for or participating in federal or state statutory programs or benefits; or

(10) declining to take any of the actions described in subparagraphs one through nine of this paragraph.

(f) Any public corporation that has taken possession of a site shall notify the department of any release of hazardous waste within ten days of obtaining actual knowledge of such release, unless a shorter notice period is required under any other provision of law, in which case the shorter notice period controls. Failure to notify the department within the ten day or shorter notification period shall result in the loss of the exemption set forth in this section.

3. Fiduciary liability cap. For the purpose of this title, liability on the part of a fiduciary shall not exceed the assets held in the fiduciary capacity if such person is not liable independently of such person's ownership as a fiduciary or actions taken in a fiduciary capacity including, but not limited to, the fiduciary's negligently causing or contributing to the release or threatened release of hazardous waste at such site.

(a) For purposes of this subdivision:

(1) the term "fiduciary" means a person acting for the benefit of another party as a bona fide trustee; executor; administrator; custodian; guardian of estates or guardian ad litem; receiver; conservator; committee of estates of incapacitated person; personal

representative; trustee (including a successor to a trustee) under an indenture agreement, trust agreement, lease, or similar financing agreement, for debt securities, certificates of interest or certificates of participation in debt securities, or other forms of indebtedness as to which the trustee is not, in the capacity of trustee, the lender; or representative in any other capacity that the department, after providing public notice, determines to be similar to the various capacities previously described in this paragraph; and does not include either a person that is acting as a fiduciary with respect to a trust or other fiduciary estate that was organized for the primary purpose of, or is engaged in, actively carrying on a trade or business for profit, unless the trust or other fiduciary estate was created as part of, or to facilitate, one or more estate plans or because of the incapacity of a natural person or a person that acquires ownership or control of a property with the objective purpose of avoiding liability of the person or any other person.

(2) the term "fiduciary capacity" means the capacity of a person in holding title to a property, or otherwise having control of or an interest in a property, pursuant to the exercise of the responsibilities of the person as a fiduciary.

(b) Nothing in this subdivision affects the rights or immunities or other defenses that are available under law that are applicable to a person subject to this section; or creates any liability for a person or a private right of action against a fiduciary or any other person.

(c) Nothing in this subdivision applies to a person if that person acts in a capacity other than that of a fiduciary or in a beneficiary capacity and in that capacity, directly or indirectly, benefits from a trust or fiduciary relationship; or is a beneficiary and a fiduciary with respect to the same fiduciary estate and, as a fiduciary, receives benefits that exceed customary or reasonable compensation, and incidental benefits, permitted under other applicable law.

(d) This subdivision does not preclude a claim under this chapter against the assets of the estate or trust administered by the fiduciary; or a nonemployee agent or independent contractor retained by a fiduciary.

4. Affirmative defenses. (a) There shall be no liability under this

title for a person otherwise liable who can establish by a preponderance of the evidence that the significant threat to the environment attributable to hazardous waste disposed at an inactive hazardous waste disposal site was caused solely by: (1) an act of God; (2) an act of war; or (3) an act or omission of a third party other than an employee or agent of such person, or than one whose act or omission occurs in connection with a contractual relationship existing directly or indirectly with such person (except where the sole contractual arrangement arises from a published tariff and acceptance for carriage by a common carrier or rail), if such person establishes by a preponderance of the evidence that: (i) such person exercised due care with respect to the hazardous waste concerned, taking into consideration the characteristics of such hazardous waste, in light of all relevant facts and circumstances, and (ii) took precautions against foreseeable acts or omissions of any such third party and the consequences that could foreseeably result from such acts or omissions; or any combination of them.

(b) For purposes of this section, (1) the term "act of God" means an unanticipated grave natural disaster or other natural phenomenon of an exceptional, inevitable, and irresistible character, the effects of which could not have been prevented or avoided by the exercise of due care or foresight, (2) the term "contractual relationship" includes, but is not limited to, land contracts, deeds, or other instruments transferring title or possession, unless the real property on which the site concerned is located was acquired by such person after the disposal or placement of the hazardous waste on, in, or at such site, and such person establishes one or more of the circumstances described in clause (i), (ii), or (iii) of this subparagraph by a preponderance of the evidence:

(i) At the time such person acquired the site, such person did not know and had no reason to know that any hazardous waste which is the subject of the significant threat determination was disposed of on, in, or at the site; or

(ii) Such person is a government entity which acquired the site by escheat, or through any other involuntary transfer or acquisition or through the exercise of eminent domain authority by purchase or condemnation; or

(iii) Such person acquired the site by inheritance or bequest. In addition to establishing the foregoing, the person must establish that he or she has satisfied the requirements of clauses (i) and (ii) of subparagraph three of paragraph (a) of this subdivision, provides full cooperation, assistance, and site access to the persons that are authorized to conduct remedial actions at the site (including the cooperation and access necessary for the installation, integrity, operation, and maintenance of any complete or partial remedial action at the site), is in compliance with any land use restrictions established or relied on in connection with the remedial action at a site, and does not impede the effectiveness or integrity of any institutional and/or engineering control employed at the site in connection with a remedial action.

(c)(1) To establish that the person had no reason to know of the matter described in clause (i) of subparagraph two of paragraph (b) of this subdivision, the person must demonstrate to a court that:

(i) on or before the date on which the person acquired the site, the person carried out all appropriate inquiries, as provided in subparagraphs two and four of this paragraph, into the previous ownership and uses of the site in accordance with generally accepted good commercial and customary standards and practices; and

(ii) the person took reasonable steps to:

(A) stop any continuing release;

(B) prevent any threatened future release; and

(C) prevent or limit any human, environmental, or natural resource exposure to any previously released hazardous waste.

(2) Not later than one year after the effective date of this section, the commissioner shall by regulation establish standards and practices for the purpose of satisfying the requirement to carry out all appropriate inquiries under subparagraph one of this paragraph.

(3) In promulgating regulations that establish the standards and practices referred to in subparagraph two of this paragraph, the commissioner shall include each of the following:

(i) the results of an inquiry by an environmental professional;

(ii) interviews with past and present owners, operators, and occupants of the site for the purpose of gathering information regarding the potential for contamination at the site;

(iii) reviews of historical sources, such as chain of title documents, aerial photographs, building department records, and land use records, to determine previous uses and occupancies of the real property since the property was first developed;

(iv) searches for recorded environmental cleanup liens against the site that are filed under federal, state, or local law;

(v) reviews of federal, state, and local government records, waste disposal records, underground storage tank records, and hazardous waste handling, generation, treatment, disposal, and spill records, concerning contamination at or near the site;

(vi) visual inspections of the site and of adjoining properties;

(vii) specialized knowledge or experience on the part of the person;

(viii) the relationship of the purchase price to the value of the property, if the property was not contaminated;

(ix) commonly known or reasonably ascertainable information about the property;

(x) the degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation.

(4)(i) With respect to property purchased before May thirty-first, nineteen hundred ninety-seven, in making a determination with respect to a person described in subparagraph one of this paragraph a court shall take into account:

(A) any specialized knowledge or experience on the part of the person;

(B) the relationship of the purchase price to the value of the property, if the property was not contaminated;

(C) commonly known or reasonably ascertainable information about the property;

(D) the obviousness of the presence or likely presence of contamination at the property; and

(E) the ability of the person to detect the contamination by appropriate inspection.

(ii) With respect to property purchased on or after May thirty-first, nineteen hundred ninety-seven, and until the commissioner of environmental conservation promulgates the regulations described in subparagraph two of this paragraph, the procedures of the American Society for Testing and Materials, including the document known as

"Standard E1527-97", entitled 'Standard Practice for Environmental Site Assessment: Phase 1 Environmental Site Assessment Process', shall satisfy the requirements in subparagraph one of this paragraph.

(5) In the case of property for residential use or other similar use purchased by a nongovernmental or noncommercial entity, a site inspection and title search that reveal no basis for further investigation shall be considered to satisfy the requirements of this subparagraph.

(d) Nothing in this subdivision shall diminish the liability of any previous owner or operator of the site who would otherwise be liable under this title. Notwithstanding this subdivision, if such person obtained actual knowledge of the release or threatened release of a hazardous waste at the site when such person owned the site and then subsequently transferred ownership of the site to another person without disclosing such knowledge, such person shall be treated as a person responsible for the disposal of hazardous waste at the site, and no defense under this subdivision shall be available to such person. Nothing in this subdivision shall affect the liability under this section of a person who, by any act or omission, caused or contributed to the release or threatened release of a hazardous waste which is the subject of such proceeding relating to such site.

TITLE XIII

STORAGE, TREATMENT AND DISPOSAL OF REGULATED MEDICAL WASTE

Section 1389-aa. Definitions.

1389-bb. Requirements for generators of regulated medical waste.

1389-cc. Storage and containment of regulated medical waste.

1389-dd. Treatment and disposal of regulated medical waste.

1389-ee. Transfer of regulated medical waste to off-site
treatment and disposal facilities.

1389-ff. Rules and regulations.

1389-gg. Violations of title thirteen.

§ 1389-aa. Definitions. 1. "Regulated medical waste" shall mean any of the following waste which is generated in the diagnosis, treatment or

immunization of human beings or animals, in research pertaining thereto, or in production and testing of biologicals, provided, however, that "regulated medical waste" shall not include any hazardous waste identified or listed pursuant to section 27-0903 of the environmental conservation law, or any household waste as defined in regulations promulgated under such section.

(a) Cultures and stocks. This waste shall include cultures and stocks of agents infectious to humans, and associated biologicals, cultures from medical or pathological laboratories, cultures and stocks of infectious agents from research and industrial laboratories, wastes from the production of biologicals, discarded live or attenuated vaccines, or culture dishes and devices used to transfer, inoculate or mix cultures.

(b) Human pathological wastes. This waste shall include tissue, organs, and body parts (except teeth and the contiguous structures of bone and gum), body fluids that are removed during surgery, autopsy, or other medical procedures, or specimens of body fluids and their containers, and discarded material saturated with such body fluids other than urine, provided that the commissioner, by duly promulgated regulation, may exclude such discarded material saturated with body fluids from this definition if the commissioner finds that it does not pose a significant risk to public health. This waste shall not include urine or fecal materials submitted for other than diagnosis of infectious diseases.

(c) Human blood and blood products. This waste shall include: (i) discarded waste human blood, discarded blood components (e.g. serum and plasma) containers with free flowing blood or blood components or discarded saturated material containing free flowing blood or blood components; and (ii) materials saturated with blood or blood products provided that the commissioner, by duly promulgated regulation, may exclude such material saturated with blood or blood products from this definition if the commissioner finds that it does not pose a significant risk to public health.

(d) Sharps. This waste shall include but not be limited to discarded unused sharps and sharps used in animal or human patient care, medical research, or clinical or pharmaceutical laboratories, hypodermic, intravenous, or other medical needles, hypodermic or intravenous syringes to which a needle or other sharp is still attached, Pasteur

pipettes, scalpel blades, or blood vials. This waste shall include, but not be limited to, other types of broken or unbroken glass (including slides and cover slips) in contact with infectious agents. This waste shall not include those parts of syringes from which sharps are specifically designed to be easily removed and from which sharps have actually been removed, and which are intended for recycling or other disposal, so long as such syringes have not come in contact with infectious agents.

(e) Animal waste. This waste shall mean discarded materials, including carcasses, body parts, body fluids, blood, or bedding originating from animals known to be contaminated with infectious agents or from animals inoculated during research, production of biologicals, or pharmaceutical testing with infectious agents.

(f) Any other waste material containing infectious agents designated by the commissioner as regulated medical waste.

2. "Storage" shall mean the containment of regulated medical waste in such a manner as not to constitute disposal of such waste.

3. "Transport" shall mean the movement of regulated medical waste from the point of generation to any intermediate points and finally to the point of ultimate disposal.

4. "Treatment" shall mean any method, technique or process designed to change the character or composition of any regulated medical waste so as to either neutralize such waste or to render such waste not infectious as approved by the commissioner pursuant to section thirteen hundred eighty-nine-dd of this title.

5. "Infectious agents" shall mean any organisms that cause disease or an adverse health impact to humans, except that the commissioner may prescribe by regulation additional infectious agents as may be necessary to protect human health and the environment.

§ 1389-bb. Requirements for generators of regulated medical waste. 1. All the requirements of this title shall apply to hospitals as defined

in subdivision one of section twenty-eight hundred one of this chapter and to residential health care facilities as defined in subdivision three of section twenty-eight hundred one of this chapter and clinical laboratories as defined in section five hundred seventy-one of this chapter.

2. The commissioner shall promulgate regulations establishing standards which shall be applicable to generators of regulated medical waste, as may be necessary to protect human health and the environment. Such standards shall include, but need not be limited to, requirements respecting:

(a) Recordkeeping practices that accurately identify the quantities of such regulated medical waste produced and the disposition thereof;

(b) Compliance with the marking, labeling and packaging requirements pursuant to section thirteen hundred eighty-nine-cc of this title;

(c) Compliance with the tracking system pursuant to section 27-1504 of the environmental conservation law; and

(d) Submission of an annual report to the commissioner of environmental conservation, and additional reports at such times as the said commissioner deems necessary, on such forms as the said commissioner shall prescribe, respecting the quantities of regulated medical waste produced during a specified time period, and the disposition thereof.

§ 1389-cc. Storage and containment of regulated medical waste. 1. Containment of regulated medical waste shall be in a manner and location which affords protection from the environment and limits exposure to the public.

2. Regulated medical waste shall be separated from other waste as soon as practicable in the generator's facility.

3. Unless otherwise approved by the department, regulated medical waste shall be contained at the producing facility only for such periods and under such conditions pursuant to rules and regulations adopted in furtherance of this title.

4. Containment of regulated medical waste shall be separate from other wastes. Containers used for the containment of regulated medical waste shall be marked prominently on the containers with the universal warning sign or the word "biohazard".

5. Regulated medical waste, except for discarded sharps, shall be contained in bags which are impervious to moisture and have a strength sufficient to resist ripping, tearing or bursting under normal conditions of usage and of handling. The bags shall be secured so as to prevent leakage during storage, handling or transport. All bags used for containment and disposal of regulated medical wastes shall be red in color.

6. All discarded sharps shall be contained for disposal in leakproof, rigid, puncture-resistant containers which are secured to preclude loss of the contents. Such containers shall be red in color or shall be conspicuously labeled with the word "infectious" or the words "regulated medical waste".

7. Before regulated medical waste is transported from the generating facility, regulated medical waste contained in disposable containers shall be placed for storage or handling in disposable or reusable pails, cartons, drums, dumpsters or portable bins. The containment system shall be leakproof, have tight-fitting covers and be kept clean and in good repair. The containers may be of any color and shall be conspicuously labeled with the word "infectious" or the words "regulated medical waste".

8. Reusable containers for regulated medical waste shall be thoroughly washed and decontaminated each time they are emptied unless the surfaces of the containers have been completely protected from contamination by disposable liners, bags or other devices removed with the waste.

9. Reusable pails, drums, dumpsters or bins used for containment of regulated medical waste shall not be used for containment of waste to be disposed of as other wastes or for other purposes except after being

decontaminated.

10. Trash chutes shall not be used to transfer regulated medical waste between locations where it is contained.

§ 1389-dd. Treatment and disposal of regulated medical waste. 1. Treatment or disposal of regulated medical waste shall be by one of the following methods:

(a) By incineration in a regulated medical waste incineration facility approved and under permit pursuant to article nineteen of the environmental conservation law, which provides complete combustion of the waste to carbonized or mineralized ash. Regulated medical waste so combusted shall be disposable as nonhazardous waste provided it is not an otherwise hazardous waste as defined in the regulations promulgated under section 27-0903 of the environmental conservation law.

(b) By discharge to sewerage system if the waste is liquid or semiliquid, except as specifically prohibited by the commissioner of health.

(c) By decontamination by autoclaving, or by other technique approved by the department, so as to render the waste noninfectious. Regulated medical waste so treated shall be disposed of as solid waste provided it does not otherwise meet the definition of hazardous waste as defined in the regulations promulgated under section 27-0903 of the environmental conservation law or the regulations promulgated thereunder, and is accompanied by a certificate, in a form prescribed by the commissioner, which evidences such treatment.

(d) By other method approved by the commissioner.

2. Regulated medical waste shall not be disposed of by burial at a landfill disposal facility, unless treated in accordance with subdivision one of this section. All sharps must be rendered unrecognizable prior to disposal.

3. The commissioner, in consultation with the commissioner of environmental conservation, shall develop a limited number of cooperative pilot projects to promote the safe handling, treatment and

disposal of regulated medical waste generated in private residences, including the establishment of guidelines for safe transport and handling of such waste prior to disposal. Such pilot projects shall be limited to a maximum of four municipalities throughout the state, and may vary in scope from single-facility to multi-facility projects. Nothing in this subdivision shall be construed as imposing any new requirements on generators of regulated medical waste. The commissioner shall give due consideration to the experience of the pilot projects in developing rules and regulations authorized in subdivision four of this section. Any moneys allocated by any government or organization to the department of health or the department of environmental conservation for purposes of establishing such pilot projects are hereby authorized for appropriation pursuant to this subdivision.

4. Sharps, including needles, syringes and lancets, originating from a private residence, may be delivered for disposal to a general hospital, as defined in subdivision ten of section twenty-eight hundred one of this chapter, or a residential health care facility, as defined in subdivision three of section twenty-eight hundred one of this chapter. Sharps, including needles, syringes and lancets returned pursuant to this section must be accepted by the hospital or residential health care facility on the condition that the needles, syringes and lancets have been deposited in an approved puncture proof container by the generator. The hospital or residential health care facility receiving such contained sharps must dispose of sharps in accordance with this section. The commissioner shall promulgate rules and regulations establishing guidelines for safe transport and handling of such sharps, including the approval of puncture proof containers for sharps.

§ 1389-ee. Transfer of regulated medical waste to off-site treatment and disposal facilities. 1. Any generator of regulated medical waste shall transfer custody of the waste only to a transporter who is permitted as a regulated medical waste transporter by the department of environmental conservation.

2. Regulated medical waste shall be transported to an off-site

treatment or disposal facility in a leakproof, fully enclosed container or vehicle compartment.

3. Regulated medical waste shall not be transported in the same vehicle with other waste unless the regulated medical waste is separately contained in rigid reusable containers or kept separate by barriers from other waste, or unless all of the waste is to be treated or disposed of as regulated medical waste in accordance with the requirements of this title.

§ 1389-ff. Rules and regulations. The commissioner shall promulgate rules and regulations in conformity with the standards for generators of regulated medical waste, and the storage, containment, treatment and disposal of regulated medical waste found in this title. Nothing in this title shall authorize the commissioner to adopt or amend any rule or regulation in a manner inconsistent with the provisions of title fifteen of article twenty-seven of the environmental conservation law.

§ 1389-gg. Violations of title thirteen. 1. Notwithstanding any other provision of this chapter, any person who violates any of the provisions of, or who fails to perform any duty imposed by this title or any rule or regulation promulgated pursuant thereto, or any term or condition of any certificate or permit issued pursuant thereto, or any final determination or order of the commissioner made pursuant to this title shall be liable in the case of a first violation for a civil penalty not to exceed twenty-five hundred dollars and an additional penalty of not more than one thousand dollars for each day during which such violation continues, to be assessed by the commissioner after an opportunity to be heard pursuant to the provisions of this chapter or by the court in any action or proceeding pursuant to this chapter, and, in addition thereto, such person may by similar process be enjoined from continuing such violation and any permit or certificate issued to such person may be revoked or suspended or a pending renewal application denied. In the case of a second and any further violation, the liability shall be for a civil penalty not to exceed five thousand dollars for each such

violation and an additional penalty not to exceed twenty-five hundred dollars for each day during which such violation continues.

2. No penalty assessed or imposed pursuant to the provisions of this title shall be paid from medicaid or medicare funds.

ARTICLE 13-A

STATE CAMP SAFETY ADVISORY COUNCIL

Section 1390. Establishment of state camp safety advisory council.

§ 1390. Establishment of state camp safety advisory council. The commissioner of health shall establish within the state department of health a state camp safety advisory council to advise and consult on policy matters relating to youth camp safety. The council shall consist of nine members to be appointed by the governor with the advice and consent of the senate. Three members of the council shall be representatives of youth camps operated in New York for profit, three members of the council shall be representatives of youth camps operated in New York under philanthropic non-profit or charitable auspices, one member of the council shall be a representative of youth camp consumer interests, one shall be a representative of children's interests who does not operate a children's camp and one shall be a representative of summer day camps and traveling summer day camps operated by municipal corporations and other entities subject to article thirteen-D of this chapter. The council shall elect from among its members a chairman. On or before January first, nineteen hundred seventy-four, the governor shall appoint two youth camp representative members for a term of two years, two youth camp representative members for a term of four years and two youth camp representative members for a term of six years. Biennially thereafter the youth camp representative members shall be appointed to said council in like manner to succeed those whose terms expire, to serve for terms of six years each and until their successors are appointed. The member representative of youth camp consumer interests shall also serve for a term of six years and until a successor is appointed. On or before January first, nineteen hundred eighty-one,

the governor shall appoint the representative of children's interests for a term of four years and the representative of summer day camps and traveling summer day camps operated by municipal corporations and other entities subject to article thirteen-D of this chapter for a term of two years. Thereafter, each succeeding representative of children's interests and each succeeding representative of said summer day camps and traveling summer day camps shall serve terms of six years each and until their successors are appointed. Vacancies shall be filled by the governor for the unexpired portion of the term. Said council shall meet at least twice a year, and more often if necessary, on the call of the chairman or on the call of the commissioner of health. The members of the council shall receive no compensation but shall be reimbursed for their reasonable traveling and other expenses incurred in the performance of their official duties. A majority of the appointed voting membership of the council shall constitute a quorum.

ARTICLE 13-B

REGULATION OF OVERNIGHT, SUMMER DAY, AND TRAVELING SUMMER DAY CAMPS FOR CHILDREN

- Section 1391. Declaration of public policy.
1392. Definitions.
- 1392-a. Requirement to check sex offender registry.
1393. Permit requirements.
1394. Children's camps; standards and regulations.
- 1394-a. Requirement to check sex offender registry.
- 1394-b. Requirement to check sex offender registry.
- 1394-c. Camps for children with developmental disabilities.
- 1394-d. Requirement to check sex offender registry.
1395. Violations; temporary restraining order.
1396. Pesticide applications.
1397. Separability.

§ 1391. Declaration of public policy. It is the declared policy of the state of New York to protect the health, safety and welfare of children attending what are commonly called children's overnight, summer day, and

traveling summer day camps.

§ 1392. Definitions. As used in this article:

1. "Children's overnight camp" shall mean a property consisting of a tract of land and any tents, vehicles, buildings or other structures that may be pertinent to its use, any part of which may be occupied by persons under eighteen years of age under general supervision for the purpose of outdoor or indoor organized activities and on which provisions are made for overnight occupancy of children. The commissioner shall have the power to except by rule from this article and the sanitary code a place or facility that is not within the intent of this definition.

2. "Summer day camp" shall mean a property consisting of a tract of land and any tents, vehicles, buildings or other structures that may be pertinent to its use, any part of which may be occupied on a scheduled basis at any time between June first and September fifteenth in any year by children under sixteen years of age under general supervision, for the purpose of indoor or outdoor organized group activities, involving nonpassive recreational activities with significant risk of injury, as such activities are defined by the department in rules and regulations, for a period of less than twenty-four hours on any day the property is so occupied, and on which no provisions are made for overnight occupancy by such children. The commissioner shall have the power to except by rule from this article and the sanitary code a place, facility or activity that is not within the intent of this definition.

3. "Traveling summer day camp" shall mean a summer day camp which regularly operates in the period between May fifteenth and September fifteenth and which regularly transports children under the age of sixteen on a regular schedule to a facility, site, or property, including any tract of land, beach, park, stadium, building, tents or other structures pertinent to its use and primarily for the purposes of organized group activity. The commissioner shall have the power to except by rule from this article and the sanitary code a place, facility

or activity that is not within the intent of this definition.

4. "Officer" shall mean the commissioner, the health commissioner of a city with a population of over fifty thousand, the health commissioner of a county or part-county health district, the state district health officer, in whose jurisdiction a children's overnight camp, summer day camp, or the primary inclement weather facility of the children's traveling summer day camp is located, or if there be no such facility then the state district health officer in whose jurisdiction the central office is located, any county health director having all the powers and duties prescribed in section three hundred fifty-two of this chapter, the state district sanitary engineer or a grade one public health administrator qualified and appointed pursuant to part eleven of the sanitary code and serving as primary administrator of all health programs in a county or part-county health district.

§ 1392-a. Requirement to check sex offender registry. Every person, firm, limited liability company, association and corporation which operates a children's overnight camp shall be required, to ascertain whether an employee or volunteer is listed on the state sex offender registry pursuant to article six-C of the correction law and the national sex offender registry using the United States department of justice national sex offender public website prior to the day such employee or volunteer commences work at said camp and annually thereafter prior to their arrival at said camp.

§ 1393. Permit requirements. 1. No person, firm, corporation, or association shall operate a children's overnight, summer day, or traveling summer day camp without first obtaining a permit from an officer.

2. An officer shall issue a permit if, after inspection, the children's overnight, summer day, or traveling summer day camp is in compliance with this chapter and the sanitary code. All permits shall expire one year from the date of issuance of such permit or upon such

earlier date as specified by such officer which date shall in no event be earlier than the latest date that such camps may remain open pursuant to regulations prescribed by the commissioner. Nothing in this section shall be construed to limit the responsibilities and duties of compliance arising out of any other provision of law.

3. Notwithstanding any other provision of law, an officer in issuing a permit may waive any requirement of the sanitary code setting a minimum standard of floor space per camper in a camp's sleeping quarters. Such a waiver may be granted upon written application therefor, and shall be accompanied by a statement by the officer of the specific terms and conditions under which the waiver shall have been granted. Such waivers may be granted only to camps constructed prior to January first, nineteen hundred seventy-five. An officer shall grant such waiver where the application therefor is accompanied by a written certification by the local health officer of its need or desirability to avoid an immediate undue hardship upon the operator which may result in the closing of the children's overnight camp to prospective campers, and a statement by the local health officer that the granting of a waiver shall not present a hazard to public health and safety. All such waivers shall expire on December thirty-first of the year in which they are granted, but may be renewed for good and sufficient reason.

4. The fee for a permit shall be two hundred dollars, except that no fee shall be charged in the case of a children's overnight, summer day or traveling summer day camp operated by a person, firm, corporation or association for charitable, philanthropic or religious purposes.

5. Any enrollment application forms and/or enrollment contract forms mailed or delivered to a person for purposes of enrollment of a child for any children's overnight, summer day, or traveling summer day camp shall contain or be accompanied by a written statement which declares:

(a) that such camp is required to be licensed by the New York state department of health;

(b) that such camp is required to be inspected twice yearly; and

(c) the address where inspection reports concerning such camp are filed.

§ 1394. Children's camps; standards and regulations. 1. The public health and health planning council shall prescribe standards and establish regulations for children's overnight, summer day and traveling summer day camps, as defined in this article, concerning such matters as may be appropriate for the protection and security of the life, health and safety of the occupants of such camps.

2. All buses or other motor vehicles which are owned by a traveling summer day camp or which are operated or leased by such camp for the purpose of transporting children attending such camp shall meet the requirements for safe operation of such vehicles as provided for in section one hundred forty of the transportation law.

3. Notwithstanding the provisions of Title VIII of the education law, any person, firm, corporation, or association that operates a children's overnight, summer day, or traveling summer day camp, and has obtained a permit pursuant to section thirteen hundred ninety-three of this article, shall be authorized to employ or contract with a physician, nurse practitioner, physician assistant, registered nurse, or licensed practical nurse or emergency medical technician to act as a designated camp health director or to provide health services in assistance to the camp health director for the sole purpose of providing health services that benefit campers and staff at the camp while the camp is in operation. In cases where the camp health director's lawful scope of practice is more limited than that of the licensed professional providing services, the camp health director shall not supervise the provision of such treatment, but shall be informed of such treatment as medically necessary to ensure the well-being of the camper and staff. In cases where an emergency medical technician is the camp health director, the emergency medical technician shall not supervise the provision of treatment by the licensed professional providing services, but shall be informed of such treatment as medically necessary to ensure the well-being of the camper and staff.

4. Each children's overnight camp, summer day camp and travelling

summer day camp shall allow children attending such camp to carry and use topical sunscreen products approved by the federal Food and Drug Administration for over-the-counter use for the purpose of avoiding overexposure to the sun and not for medical treatment of an injury or illness, with the written permission of the parent or guardian of the child. A record of such permission shall be maintained by the camp. A child who is unable to physically apply sunscreen may be assisted by unlicensed personnel when directed to do so by the child, if permitted by a parent or guardian and authorized by the camp.

5. Each children's overnight camp, summer day camp and traveling summer day camp shall allow children attending such camp to carry and use insect repellent with the written permission of a parent or guardian of any child. A record of such permission shall be maintained by the camp. A child who is unable to physically apply insect repellent may be assisted by unlicensed personnel when directed to do so by the child, if permitted by a parent or guardian and authorized by the camp.

6. Notwithstanding the provisions of Title VIII of the education law, any person, firm, corporation, or association that operates a children's overnight, summer day, or traveling summer day camp, and has obtained a permit pursuant to section thirteen hundred ninety-three of this article, shall be authorized to employ or contract with individuals licensed under articles one hundred fifty-three, one hundred fifty-four, one hundred sixty-three and one hundred sixty-seven of the education law to provide mental health services for any period during which the camp has a valid permit to operate and for the sole purpose of providing health services that benefit campers and staff at the camp while the camp is in operation. Individuals hired under this section shall communicate with the camp health director when medically necessary.

7. All decisions, identification or coordination of professional services, or other professional interactions with campers and staff, must be made based on the professional judgment of such licensees to provide professional services within his or her lawful scope of practice for the purpose of treating campers and staff during their attendance or employment at such camp, pursuant to applicable regulations promulgated

by the commissioner in consultation with the commissioner of education.

8. Nothing in this section shall be construed to limit the authority of another state agency if such state agency is otherwise authorized under another provision of law to certify, license, contract or authorize such camp, nor shall the authority to hire individuals licensed pursuant to this section be construed to provide an exemption of such camp from any certification, licensure, or any other such requirement established by such state agency or under any other provision of law.

9. A camp that employs or contracts with an individual licensed under articles one hundred fifty-three, one hundred fifty-four, one hundred sixty-three and one hundred sixty-seven of the education law under this section shall list such individuals in their general consent form.

§ 1394-a. Requirement to check sex offender registry. Every person, firm, limited liability company, association and corporation which operates a summer day camp shall be required, to ascertain whether an employee or volunteer is listed on the state sex offender registry pursuant to article six-C of the correction law and the national sex offender registry using the United States department of justice national sex offender public website prior to the day such employee or volunteer commences work at said camp and annually thereafter prior to their arrival at said camp.

§ 1394-b. Requirement to check sex offender registry. Every person, firm, limited liability company, association and corporation which operates a traveling summer day camp shall be required, to ascertain whether an employee or volunteer is listed on the state sex offender registry pursuant to article six-C of the correction law and the national sex offender registry using the United States department of justice national sex offender public website prior to the day such employee or volunteer commences work at said camp and annually thereafter prior to their arrival at said camp.

§ 1394-c. Camps for children with developmental disabilities. 1. Camps for children with developmental disabilities, as defined in regulations, and in compliance with the justice center for the protection of people with special needs, shall be authorized to employ or contract with any of the individuals licensed under articles one hundred thirty-two, one hundred thirty-six, one hundred fifty-six, one hundred fifty-nine, one hundred sixty-two and one hundred sixty-seven of the education law, to provide professional services for any period during which the camp has a valid permit to operate. Individuals hired under this section shall communicate with the camp health director when medically necessary for the sole purpose of providing health services that benefit campers and staff at the camp while the camp is in operation. In cases where the camp health director's lawful scope of practice is more limited than that of the licensed professional providing services, the camp health director shall not supervise the provision of such treatment, but shall be informed of such treatment as medically necessary to ensure the well-being of the camper and staff.

2. All decisions, identification or coordination of professional services, or other professional interactions with campers and staff, must be made based on the professional judgment of such licensees to provide professional services within his or her lawful scope of practice for the purpose of treating campers and staff during their attendance or employment at such camp, pursuant to applicable regulations promulgated by the commissioner in consultation with the commissioner of education.

3. Nothing in this section shall be construed to limit the authority of another state agency if such state agency is otherwise authorized under another provision of law to certify, license, contract or authorize such camp, nor shall the authority to hire licensed professionals pursuant to this section be construed to provide an exemption of such camp from any certification, licensure, or any other such requirement established by such state agency or under any other provision of law.

§ 1394-d. Requirement to check sex offender registry. Every person, firm, limited liability company, association and corporation which operates a children's non-regulated camp as defined in section three hundred ninety-eight-f of the general business law shall be required to ascertain whether an employee or volunteer is listed on the state sex offender registry pursuant to article six-C of the correction law and the national sex offender registry using the United States department of justice national sex offender public website prior to the day such employee or volunteer commences work at such camp and annually thereafter prior to their arrival at such camp.

§ 1395. Violations; temporary restraining order. 1. A violation of this chapter or of the sanitary code in the operation of a children's overnight, summer day, or traveling summer day camp shall constitute a public nuisance which may be enjoined or restrained.

2. When an officer has cause to believe that there has been a violation of this chapter or the sanitary code in the operation of a children's overnight, summer day, or traveling summer day camp which does not constitute a public health hazard as defined by the sanitary code, and that such violation has continued for more than three days after notice of the violation and demand for discontinuance and abatement thereof has been served in writing on the children's overnight, summer day, or traveling summer day camp operator in the manner prescribed for the service of summons set forth in the civil practice law and rules, an officer may:

(a) Conduct a hearing upon at least three days notice served on the camp operator in the manner prescribed for the service of summons as set forth in the civil practice law and rules, and

(b) Make a determination after such hearing with respect to the alleged violation or violations and have the power to assess a fine on the children's overnight, summer day, or traveling summer day camp operator not to exceed two hundred fifty dollars for each violation for each day succeeding the third day after the notice of violation and demand for discontinuance and abatement thereof has been given, and

(c) With respect to the hearing set forth herein the officer in accordance with the civil practice law and rules may: issue subpoena, compel the attendance of witnesses, and administer oaths to witnesses, and

(d) Make an ex parte application to the supreme court of the state of New York for a temporary restraining order which the court may grant when it determines that there is a violation which requires immediate relief.

3. When an officer has cause to believe that there has been a violation of this chapter or the sanitary code in the operation of children's overnight, summer day, or traveling summer day camp which constitutes a public health hazard as defined by the sanitary code, and after notice of the violation has been served in writing on the children's overnight, summer day, or traveling summer day camp operator in the manner prescribed for the service of summons set forth in the civil practice law and rules, an officer may:

(a) Conduct a hearing upon at least fifteen days notice in accordance with the provisions of section twelve-a of this chapter served on the camp operator in the manner prescribed for the service of summons as set forth in the civil practice law and rules, and

(b) Make a determination after such hearing with respect to the alleged violation or violations and have the power to assess a fine on the children's overnight, summer day, or traveling summer day camp operator in accordance with the provisions of section twelve of this chapter for each violation, and

(c) With respect to the hearing set forth herein the officer in accordance with the civil practice law and rules may: issue subpoena, compel the attendance of witnesses, and administer oaths to witnesses, and

(d) Make an ex parte application to the supreme court of the state of New York for a temporary restraining order which the court may grant when it determines that there is a violation which requires immediate relief.

4. The officer may appoint one or more hearing officers as shall be necessary to do or perform in his place or stead the acts authorized by

paragraphs (a) and (c) of subdivision two of this section. The hearing officer shall make findings of fact and submit recommendations to the officer.

5. An officer may institute proceedings to enjoin the continuance of such violation or the continued operation of such camp. No bond or undertaking shall be required of such officer in such proceedings and no application to vacate or modify any judgment obtained shall be entertained by any court without proof to such court that ten days notice of such application, and copies of the papers upon which the application is to be made, have been served upon such officer.

6. Nothing contained in this section shall be construed to limit the duty or power of an officer to act with regard to an immediate threat to the health of the occupants of a children's overnight, summer day, or traveling summer day camp or the community in which it is located, or to alter or abridge any of the duties and powers now or hereafter existing in the commissioner, state district health officers, county boards of health, county commissioners of health or local boards of health.

7. Nothing contained in this section shall be construed to limit or preclude the officer from enforcing or pursuing any remedies or penalties available under this chapter or sanitary code with respect to violations which constitute a public health hazard as defined by the sanitary code, in the operation of the children's overnight, summer day, or traveling summer day camp, including, but not limited to, those remedies or penalties available under sections twelve, sixteen, two hundred six, two hundred twenty-nine, three hundred nine, and three hundred forty-eight of this chapter.

§ 1396. Pesticide applications. 1. For purposes of this section "pesticide" shall have the same meaning as set forth in subdivision thirty-five of section 33-0101 of the environmental conservation law, provided however that the following pesticide application shall be exempt:

(a) the application of anti-microbial pesticides as defined by FIFRA

in 7 U.S.C. Section 136 (mm) and 136 q (h) (2);

(b) the use of an aerosol product with a directed spray, in containers of eighteen fluid ounces or less, when used to protect individuals from an imminent threat from stinging and biting insects, including venomous spiders, bees, wasps and hornets;

(c) the use of non-volatile insect or rodent bait in a tamper resistant container;

(d) the application of a pesticide classified by the United States Environmental Protection Agency as an exempt material under 40 CFR Part 152.25;

(e) the use of boric acid and disodium octaborate tetrahydrate; or

(f) the use of horticultural soap and oils that do not contain synthetic pesticides or synergists.

2. No person shall apply pesticide to any playground, turf or athletic or playing field at any camp as defined pursuant to subdivisions one and two of section thirteen hundred ninety-two of this article, or children's non-regulated camp as defined pursuant to section three hundred ninety-eight-f of the general business law, other than those on publicly-owned or publicly-leased property in a city of more than one million, except that: (a) an emergency application of a pesticide may be made by a camp defined in subdivisions one and two of section thirteen hundred ninety-two of this article as determined by the county health department or for a county served by a district office of the department of health, such authority as the county legislature shall designate, the commissioner or his or her designee; and (b) an emergency application of a pesticide may be made by a children's non-regulated camp defined in section three hundred ninety-eight-f of the general business law as determined by the commissioner or his or her designee.

§ 1397. Separability. If any clause, sentence, paragraph, subdivision, section or part of this article shall be adjudged by any court of competent jurisdiction to be invalid, the judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part thereof directly involved in the controversy in which the judgment

shall have been rendered.

ARTICLE 13-D

REGULATION OF HOUSING; USED AS ACCOMMODATIONS BY EMPLOYEES OF CERTAIN MOTELS AND HOTELS

Section 1399-j. Definitions.

1399-k. Violations notice; administrative procedure; temporary
restraining order.

1399-l. Application.

1399-m. Separability.

§ 1399-j. Definitions. As used in this article:

1. "Motel or hotel" shall mean establishments distinguished as hotels, motels, bungalow colonies, or any other establishment comparable or equivalent to any of those previously mentioned. The term shall not include those places or facilities not having the general characteristics of a motel or hotel as that term is generally understood and the State Commissioner of Health shall have the power to except from this article and the Sanitary Code a place or facility that is not within the intent of this definition of a motel or hotel.

2. "Officer" shall mean the health commissioner of a city of fifty thousand population and over or of a county or part-county health district, or the state district health officer, in whose jurisdiction a hotel or motel is located or any county health director having all the powers and duties prescribed in section three hundred fifty-two of this chapter.

§ 1399-k. Violations notice; administrative procedure; temporary restraining order. 1. A violation of the public health law or of the sanitary code relating to the housing of motel and hotel employees shall constitute a public nuisance which may be enjoined or restrained.

2. When an officer has cause to believe that there has been a violation of the public health law or of the sanitary code or any other rules or regulations promulgated pursuant to article nineteen of the labor law in the housing of motel and hotel employees and that such violation has continued for more than three days after notice of the violation and demand for discontinuance and abatement thereof has been served in writing on the owner or his agent authorized to receive legal notice in the manner prescribed for the service of summons set forth in the civil practice law and rules, an officer may:

(a) Conduct a hearing upon at least three days notice served on the owner or his aforementioned agent in the manner prescribed for the service of summons as set forth in the civil practice law and rules, and

(b) Make a determination after such hearing with respect to the alleged violation or violations and have the power to assess a fine on the owner of such motel or hotel not to exceed two hundred fifty dollars for each violation for each day succeeding the third day after the notice of violation and demand for discontinuance and abatement thereof has been given, and

(c) With respect to the hearing set forth herein the officer in accordance with the civil practice law and rules may: issue subpoena, compel the attendance of witnesses, and administer oaths to witnesses, and

(d) Make an ex parte application to the supreme court of the state of New York for a temporary restraining order which the court may grant when it determines that there is a violation which requires immediate relief.

3. The officer may appoint one or more hearing officers as shall be necessary to do or perform in his place or stead the acts authorized by paragraphs (a) and (c) of this section. The hearing officer shall make findings of fact and submit recommendations to the officer.

4. An officer may institute proceedings to enjoin the continuance of such violation or the continued operation of such motel or hotel. No bond or undertaking shall be required of such officer in such proceedings and no application to vacate or modify any judgment obtained shall be entertained by any court without proof to such court that ten

days notice of such application, and copies of the papers upon which the application is to be made, have been served upon such officer.

5. Nothing contained in this section shall be construed to limit the duty or power of an officer to act with regard to an immediate threat to the health of the occupants of a motel or hotel or the community in which it is located, or to alter or abridge any of the duties and powers now or hereafter existing in the commissioner, state district health officers, county boards of health, county commissioners of health or local boards of health.

§ 1399-l. Application. The provisions of this article shall not apply to cities having a population of one hundred twenty-five thousand or more.

§ 1399-m. Separability. If any clause, sentence, paragraph, subdivision, section or part of this article shall be adjudged by any court of competent jurisdiction to be invalid, the judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part thereof directly involved in the controversy in which the judgment shall have been rendered.

ARTICLE 13-E

REGULATION OF SMOKING AND VAPING IN CERTAIN PUBLIC AREAS

Section 1399-n. Definitions.

1399-o. Smoking and vaping restrictions.

1399-o-1. Smoking and vaping restrictions; certain outdoor areas.

1399-o-2. Smoking restrictions; certain outdoor areas.

1399-p. Posting of signs.

1399-q. Smoking and vaping restrictions inapplicable.

1399-r. General provisions.

1399-s. Violations.

- 1399-t. Enforcement.
- 1399-u. Waiver.
- 1399-v. Penalties.
- 1399-w. Limitation of causes of action.
- 1399-x. Rules and regulations.

§ 1399-n. Definitions. For purposes of this article:

1. "Bar" means any area, including outdoor seating areas, devoted to the sale and service of alcoholic beverages for on-premises consumption and where the service of food is only incidental to the consumption of such beverages.

2. "Employer" means any person, partnership, association, limited liability company, corporation or nonprofit entity which employs one or more persons, including the legislative, executive and judicial branches of state government and any political subdivision of the state.

3. "Food service establishment" means any area, including outdoor seating areas, or portion thereof in which the business is the sale of food for on-premises consumption.

4. "Membership association" means a not-for-profit entity which has been created or organized for a charitable, philanthropic, educational, political, social or other similar purpose.

5. "Place of employment" means any indoor area or portion thereof under the control of an employer in which employees of the employer perform services, and shall include, but not be limited to, offices, school grounds, retail stores, banquet facilities, theaters, food stores, banks, financial institutions, factories, warehouses, employee cafeterias, lounges, auditoriums, gymnasiums, restrooms, elevators, hallways, museums, libraries, bowling establishments, employee medical facilities, rooms or areas containing photocopying equipment or other office equipment used in common, and company vehicles.

6. "School grounds" means any building, structure, and surrounding outdoor grounds contained within a public or private pre-school, nursery school, elementary or secondary school's legally defined property boundaries as registered in a county clerk's office, and any vehicles used to transport children or school personnel.

7. "Retail tobacco business" means a sole proprietorship, limited liability company, corporation, partnership or other enterprise in which the primary activity is the retail sale of tobacco products and accessories, and in which the sale of other products is merely incidental.

8. "Smoking" means the burning of a lighted cigar, cigarette, pipe or any other matter or substance which contains tobacco or cannabis as defined in section 222.00 of the penal law, or cannabinoid hemp as defined in section three of the cannabis law.

9. "Vaping" means the use of an electronic cigarette.

10. "Electronic cigarette" shall have the same meaning as in subdivision thirteen of section thirteen hundred ninety-nine-aa of this chapter.

11. "Retail electronic cigarette store" means a retail store devoted primarily to the sale of electronic cigarettes, and in which the sale of other products is merely incidental. The sale of such other products shall be considered incidental if such sales generate less than twenty-five percent of the total annual gross sales.

§ 1399-o. Smoking and vaping restrictions. 1. Smoking and vaping shall not be permitted and no person shall smoke or vape in the following indoor areas:

- a. places of employment;
- b. bars;

c. food service establishments, except as provided in subdivision six of section thirteen hundred ninety-nine-q of this article;

d. enclosed indoor areas open to the public containing a swimming pool;

e. public means of mass transportation, including subways, underground subway stations, and when occupied by passengers, buses, vans, taxicabs and limousines;

f. ticketing, boarding and waiting areas in public transportation terminals;

g. youth centers and facilities for detention as defined in sections five hundred twenty-seven-a and five hundred three of the executive law;

h. any facility that provides child care services as defined in section four hundred ten-p of the social services law, provided, however, that rooms in such a facility that is a private home shall be regulated by this paragraph as follows:

(i) when such private home is not required to be licensed or registered for such services by the office of children and family services, rooms in such home are excluded from the prohibition of this paragraph during periods when children receiving such services are not present; and

(ii) when such private home is required to be licensed or registered for such services by the office of children and family services, rooms in such home are included within the prohibition of this paragraph, regardless of whether or not children receiving such services are present.

i. child day care centers as defined in section three hundred ninety of the social services law and child day care centers licensed by the city of New York;

j. group homes for children as defined in section three hundred

seventy-one of the social services law;

k. public institutions for children as defined in section three hundred seventy-one of the social services law;

l. residential treatment facilities for children and youth as defined in section 1.03 of the mental hygiene law;

m. all public and private colleges, universities and other educational and vocational institutions, including dormitories, residence halls, and other group residential facilities that are owned or operated by such colleges, universities and other educational and vocational institutions, except that these restrictions shall not apply in any off-campus residential unit occupied by a person who is not enrolled as an undergraduate student in such college, university or other educational or vocational institution;

n. general hospitals and residential health care facilities as defined in article twenty-eight of this chapter, and other health care facilities licensed by the state in which persons reside; provided, however, that the provisions of this subdivision shall not prohibit smoking and vaping by patients in separate enclosed rooms of residential health care facilities, adult care facilities established or certified under title two of article seven of the social services law, community mental health residences established under section 41.44 of the mental hygiene law, or facilities where day treatment programs are provided, which are designated as smoking and vaping rooms for patients of such facilities or programs;

o. commercial establishments used for the purpose of carrying on or exercising any trade, profession, vocation or charitable activity;

p. indoor arenas;

q. zoos; and

r. bingo facilities.

2. Smoking and vaping shall not be permitted and no person shall smoke or vape in the following outdoor areas:

a. ticketing, boarding or platform areas of railroad stations operated by the metropolitan transportation authority or its subsidiaries.

b. on the grounds of general hospitals and residential health care facilities as defined in article twenty-eight of this chapter, within fifteen feet of a building entrance or exit or within fifteen feet of the entrance to or exit from the grounds of any such general hospital or residential health care facility. This subdivision shall not prohibit smoking and vaping by a patient or a visitor or guest of a patient of a residential health care facility in a separate area on the grounds designated as a smoking and vaping area by the residential health care facility, provided such designated smoking and vaping area is not within thirty feet of any building structure (other than a non-residential structure wholly contained within the designated smoking and vaping area), including any overhang, canopy, awning, entrance, exit, window, intake or exhaust.

3. Smoking and vaping shall not be permitted and no person shall smoke or vape within one hundred feet of the entrances, exits or outdoor areas of any public or private elementary or secondary schools; provided, however, that the provisions of this subdivision shall not apply to smoking or vaping in a residence, or within the real property boundary lines of such residential real property. The provisions of section thirteen hundred ninety-nine-p of this article shall not apply to this subdivision.

4. Smoking and vaping shall not be permitted and no person shall smoke or vape within one hundred feet of the entrances, exits or outdoor areas of any after-school program licensed or registered pursuant to section three hundred ninety of the social services law; provided, however, that the provisions of this subdivision shall only apply on those days and during those hours in which such after-school programs are operational; and provided, further, that the provisions of this subdivision shall not

apply to smoking or vaping in a residence, or within the real property boundary lines of such residential real property.

5. a. Use of an electronic cigarette or e-cigarette shall not be permitted on school grounds, as defined in subdivision six of section thirteen hundred ninety-nine-n of this article.

b. "Electronic cigarette" or "e-cigarette" shall have the same meaning as in subdivision thirteen of section thirteen hundred ninety-nine-aa of this chapter.

6. Smoking shall not be permitted and no person shall smoke within one hundred feet of the entrances, exits or outdoor areas of any public or association library as defined in subdivision two of section two hundred fifty-three of the education law; provided, however, that the provisions of this subdivision shall not apply to smoking in a residence, or within the real property boundary lines of such residential real property.

§ 1399-o-1. Smoking and vaping restrictions; certain outdoor areas. 1. Smoking and vaping shall not be permitted and no person shall smoke or vape during the hours between sunrise and sunset, when one or more persons under the age of twelve are present at any playground. For the purposes of this section, the term "playground" means an improved area designed, equipped, and set aside for play of six or more children which is not intended for use as an athletic playing field or athletic court, and shall include any play equipment, surfacing, fencing, signs, internal pathways, internal land forms, vegetation, and related structures. Playgrounds or playground equipment constructed upon one, two and three-family residential real property are exempt from the requirements of this section. This section shall not apply to any playground located within the city of New York.

2. No police officer, peace officer, regulatory officer or law enforcement official may arrest, ticket, stop or question any person based solely or in part on an alleged violation of subdivision one of this section, nor may an alleged violation of subdivision one of this

section support probable cause to conduct any search or limited search of any person or his or her immediate surroundings.

§ 1399-o-2. Smoking restrictions; certain outdoor areas. 1. Smoking shall not be permitted and no person shall smoke in any public park.

2. For the purposes of this section "park" shall mean:

(a) public parks, beaches, pools, boardwalks, marinas, playgrounds, recreation centers, and group camps; and

(b) equipment, buildings and facilities now or hereafter under the jurisdiction, charge or control of any state or local government agency or department that are located at or on any property described in paragraph (a) of this subdivision; provided, however, that for the purposes of this section the term public park shall not include the Adirondack park or the Catskill park as those terms are defined in section 9-0101 of the environmental conservation law.

3. The provisions of this section shall not apply to: (a) the sidewalks immediately adjoining parks, squares and public places; (b) any pedestrian route through any park strip, median or mall that is adjacent to vehicular traffic; (c) parking lots or roadways; (d) theatrical productions; and (e) any portion of a park that is not used for park purposes, except when smoking has been specifically prohibited in a state park or portion thereof by the office of parks, recreation and historic preservation. This subdivision shall not limit the applicability of any other laws to such places.

§ 1399-p. Posting of signs. 1. "Smoking" or "No Smoking" signs, or "Vaping" or "No Vaping" signs, or the international "No Smoking" symbol, which consists of a pictorial representation of a burning cigarette enclosed in a circle with a bar across it, shall be prominently posted and properly maintained where smoking and vaping are regulated by this article, by the owner, operator, manager or other person having control of such area.

2. The owner, operator or manager of a hotel or motel that chooses to develop and implement a smoking and vaping policy for rooms rented to guests shall post a notice at the reception area of the establishment as to the availability, upon request, of rooms in which no smoking and vaping are allowed.

3. The provisions of this section shall apply to after-school programs that are subject to the provisions of subdivision four of section thirteen hundred ninety-nine-o of this article, provided that signs posted pursuant to this subdivision shall specify the specific time period during which smoking and vaping shall be prohibited.

§ 1399-q. Smoking and vaping restrictions inapplicable. 1. This article shall not apply to:

- (a) Private homes and private residences;
- (b) Private automobiles;
- (c) A hotel or motel room rented to one or more guests;
- (d) Retail tobacco businesses;

(e) Membership associations; provided, however, that smoking and vaping shall only be allowed in membership associations in which all of the duties with respect to the operation of such association, including, but not limited to, the preparation of food and beverages, the service of food and beverages, reception and secretarial work, and the security services of the membership association are performed by members of such membership association who do not receive compensation of any kind from the membership association or any other entity for the performance of such duties;

(f) Cigar bars that, in the calendar year ending December thirty-first, two thousand two, generated ten percent or more of its total annual gross income from the on-site sale of tobacco products and the rental of on-site humidors, not including any sales from vending machines, and is registered with the appropriate enforcement officer, as defined in subdivision one of section thirteen hundred ninety-nine-t of this article. Such registration shall remain in effect for one year and shall be renewable only if: (a) in the preceding calendar year, the cigar bar generated ten percent or more of its total annual gross income

from the on-site sale of tobacco products and the rental of on-site humidors, and (b) the cigar bar has not expanded its size or changed its location from its size or location since December thirty-first, two thousand two;

(g) Outdoor dining areas of food service establishments with no roof or other ceiling enclosure; provided, however, that smoking and vaping may be permitted in a contiguous area designated for smoking and vaping so long as such area: (a) constitutes no more than twenty-five percent of the outdoor seating capacity of such food service establishment, (b) is at least three feet away from the outdoor area of such food service establishment not designated for smoking and vaping, and (c) is clearly designated with written signage as a smoking and vaping area;

(h) Enclosed rooms in food service establishments, bars, catering halls, convention halls, hotel and motel conference rooms, and other such similar facilities during the time such enclosed areas or rooms are being used exclusively for functions where the public is invited for the primary purpose of promoting and sampling tobacco products or electronic cigarettes, and the service of food and drink is incidental to such purpose, provided that the sponsor or organizer gives notice in any promotional material or advertisements that smoking and vaping will not be restricted, and prominently posts notice at the entrance of the facility and has provided notice of such function to the appropriate enforcement officer, as defined in subdivision one of section thirteen hundred ninety-nine-t of this article, at least two weeks prior to such function. The enforcement officer shall keep a record of all tobacco sampling events, and such record shall be made available for public inspection. No such facility shall permit smoking and vaping under this subdivision for more than two days in any calendar year;

(i) Retail electronic cigarette stores, provided however, that such stores may only permit the use of electronic cigarettes; and

(j) Adult-use on-site consumption premises authorized pursuant to article four of the cannabis law, provided however, that such locations may only permit the smoking or vaping of cannabis.

2. The restrictions of this article on the smoking or vaping of cannabis shall continue to apply to those locations identified in paragraphs (b), (d), (f), (g), (h) and (i) of subdivision one of this

section.

§ 1399-r. General provisions. 1. Nothing in this article shall be construed to deny the owner, operator or manager of a place covered by this article the right to designate the entire place, or any part thereof, as a nonsmoking and nonvaping area.

2. The provisions of this article shall apply to the legislative, executive and judicial branches of state government and any political subdivision of the state.

3. Smoking and vaping may not be permitted where prohibited by any other law, rule, or regulation of any state agency or any political subdivision of the state. Nothing herein shall be construed to restrict the power of any county, city, town, or village to adopt and enforce additional local law, ordinances, or regulations which comply with at least the minimum applicable standards set forth in this article.

§ 1399-s. Violations. 1. It shall be unlawful for any person, firm, limited liability company, corporation or other entity that owns, manages, operates or otherwise controls the use of an area in which smoking and vaping is prohibited or restricted pursuant to section thirteen hundred ninety-nine-o of this article to fail to comply with the provisions of this article. For violations of this subdivision, it shall be an affirmative defense that during the relevant time period actual control of the area was not exercised by the respondent, but rather by a lessee, the sublessee or any other person. To establish an affirmative defense, the respondent shall submit an affidavit and may submit any other relevant proof indicating that the respondent did not exercise actual control of said area during the relevant time period. Such affidavit and other proof shall be mailed by certified mail to the appropriate enforcement officer within thirty days of receipt of such notice of violation.

2. It shall be unlawful for an employer whose place of employment is

subject to subdivision one of section thirteen hundred ninety-nine-o of this article to fail to comply with the provisions of such subdivision. For violations of such subdivision, it shall be an affirmative defense that the employer has made good faith efforts to ensure that employees comply with the provisions of this article.

3. It shall be unlawful for any person to smoke or vape in any area where smoking and vaping is prohibited or restricted under section thirteen hundred ninety-nine-o of this article.

§ 1399-t. Enforcement. 1. For the purpose of this article the term "enforcement officer" shall mean the board of health of a county or part county health district established pursuant to title three of article three of this chapter, or in the absence thereof, an officer of a county designated for such purpose by resolution of the elected county legislature or board of supervisors adopted within sixty days after the effective date of this article. Any such designation shall be filed with the commissioner within thirty days after adoption. If no such designation is made, the county will be deemed to have designated the department as its enforcement officer. Any county that does not designate an enforcement officer during the time period specified above may do so at any time, thereafter, such designation will be effective thirty days after it is filed with the commissioner. The enforcement officer shall have sole jurisdiction to enforce the provisions of this article on a county-wide basis pursuant to rules and regulations promulgated by the commissioner. In a city with a population of more than one million the enforcement officer shall be the department of health and mental hygiene of such city which shall have sole jurisdiction to enforce the provisions of this article in such city.

2. If the enforcement officer determines after a hearing that a violation of this article has occurred, a civil penalty may be imposed by the enforcement officer pursuant to section thirteen hundred ninety-nine-v of this article. When the enforcement officer is the commissioner, the hearing shall be conducted pursuant to the provisions of section twelve-a of this chapter. When the enforcement officer is a

board of health or in a city with a population of more than one million, the department of health and mental hygiene, or an officer designated to enforce the provisions of this article, the hearing shall be conducted pursuant to procedures set forth in the county sanitary code, or health code of such city, or in the absence thereof, pursuant to procedures established by the elected county legislature or board of supervisors. No other penalty, fine or sanction may be imposed, provided that nothing herein shall be construed to prohibit an enforcement officer from commencing a proceeding for injunctive relief to compel compliance with this article.

3. Any person who desires to register a complaint under this article may do so with the appropriate enforcement officer.

4. The owner, manager, operator or other person having control of any area subject to the provisions of this article, shall inform, or shall designate an agent who shall be responsible for informing individuals smoking or vaping in an area in which smoking or vaping is not permitted that they are in violation of this article.

5. Any person aggrieved by the decision of an enforcement officer other than the commissioner may appeal to the commissioner to review such decision within thirty days of such decision. The decision of any enforcement officer shall be reviewable pursuant to article seventy-eight of the civil practice law and rules.

6. The enforcement officer, subsequent to any appeal having been finally determined, may bring an action to recover the civil penalty provided in section thirteen hundred ninety-nine-v of this article in any court of competent jurisdiction.

7. An enforcement officer who discovers a retail dealer who or which does not display a retail dealer certificate of license or registration from the department of taxation and finance issued pursuant to section four hundred eighty-a of the tax law shall notify the commissioner of taxation and finance within thirty days of the name and address of any such establishment so that the commissioner of taxation and finance can

take appropriate action.

§ 1399-u. Waiver. 1. The enforcement officer may grant a waiver from the application of a specific provision of this article, provided that prior to the granting of any such waiver the applicant for a waiver shall establish that:

(a) compliance with a specific provision of this article would cause undue financial hardship; or

(b) other factors exist which would render compliance unreasonable.

2. Every waiver granted shall be subject to such conditions or restrictions as may be necessary to minimize the adverse effects of the waiver upon persons subject to an involuntary exposure to second-hand smoke or vaping and to ensure that the waiver is consistent with the general purpose of this article.

§ 1399-v. Penalties. The commissioner may impose a civil penalty for a violation of this article in an amount not to exceed that set forth in subdivision one of section twelve of this chapter. Any other enforcement officer may impose a civil penalty for a violation of this article in an amount not to exceed that set forth in paragraph (f) of subdivision one of section three hundred nine of this chapter. Notwithstanding the foregoing provisions, a violation of the provisions of section thirteen hundred ninety-nine-o-two of this article shall be punishable by a civil penalty of fifty dollars for each violation.

§ 1399-w. Limitation of causes of action. An employer, administrator, manager, owner or operator of any indoor area, food service establishment, or place of employment regulated by this article who complies or fails to comply with the provisions of this article shall not be subject to any legal liability or action solely as a result of such compliance or noncompliance except as provided in section thirteen hundred ninety-nine-v of this article. Nothing in any other section of this article shall be construed to create, impair, alter, limit, modify,

enlarge, abrogate or restrict any theory of liability upon which any person may be held liable to any other person for exposure to smoke or vaping.

§ 1399-x. Rules and regulations. The commissioner shall not promulgate any rules or regulations to effectuate the provisions of section thirteen hundred ninety-nine-n, paragraph f of subdivision one of section thirteen hundred ninety-nine-o or subdivision one of section thirteen hundred ninety-nine-p of this article. The commissioner shall not promulgate any rules or regulations that create, limit or enlarge any smoking or vaping restrictions.

ARTICLE 13-F

REGULATION OF TOBACCO PRODUCTS, HERBAL CIGARETTES AND SMOKING PARAPHERNALIA; DISTRIBUTION TO MINORS

- Section 1399-aa. Definitions.
- 1399-bb. Distribution of tobacco products, vapor products, or herbal cigarettes without charge.
- 1399-bb-1. Promotions prohibited.
- 1399-cc. Sale of tobacco products, herbal cigarettes, liquid nicotine, shisha, rolling papers or smoking paraphernalia to minors prohibited.
- 1399-dd. Sale of tobacco products, herbal cigarettes or electronic cigarettes in vending machines.
- 1399-dd-1. Public display of tobacco product and electronic cigarette advertisements and smoking paraphernalia prohibited.
- 1399-ee. Hearings; penalties.
- 1399-ff. Enforcement.
- 1399-gg. Out-of-package sales and minimum package sizes.
- 1399-hh. Tobacco and vapor product enforcement.
- 1399-ii. Tobacco and vapor product use prevention and control program.
- 1399-ii-1. Electronic cigarette and vaping prevention, awareness and control program.

- 1399-jj. Evaluation requirements.
- 1399-kk. Annual tobacco and vapor product enforcement reporting.
- 1399-ll. Unlawful shipment or transport of cigarettes and vapor products.
- 1399-ll*2. Sale of bidis prohibited.
- 1399-mm. Sale of gutka prohibited.
- 1399-mm-1. Sale of flavored products prohibited.
- 1399-mm-2. Sale in pharmacies.
- 1399-mm-3. Carrier oils.
- 1399-mmm. Sale of kratom prohibited.

§ 1399-aa. Definitions. As used in this article:

1. "Enforcement officer" means the enforcement officer designated pursuant to article thirteen-E of this chapter to enforce such article and hold hearings pursuant thereto; provided that in a city with a population of more than one million it shall also mean an officer or employee or any agency of such city that is authorized to enforce any local law of such city related to the regulation of the sale of tobacco products to minors, or for the purposes of section thirteen hundred ninety-nine-ee of this article, the office of administrative trials and hearings of such city.

2. "Food service establishment" means any area, including outdoor seating areas, in which the business is the sale of food for on-premises consumption.

3. "Person" means a person, firm, company, corporation, partnership, sole proprietor, limited partnership or association.

4. "Private club" means an organization with no more than an insignificant portion of its membership comprised of people under the age of twenty-one years that regularly receives dues and/or payments from its members for the use of space, facilities and services.

5. "Tobacco products" means one or more cigarettes or cigars, bidis, chewing tobacco, powdered tobacco, nicotine water or any other tobacco products.

6. "Herbal cigarette" means any product made primarily of an herb or combination of herbs, and intended to be smoked in any of the methods that tobacco is smoked, including but not limited to, as a cigarette, cigar or pipe filler.

7. "Bidis" means a product containing tobacco that is wrapped in temburni leaf (*diospyros melanoxylon*) or tendra leaf (*diospyros exculpra*), or any other product offered to consumers as "beedies" or "bidis".

8. "Tobacco business" means a sole proprietorship, corporation, limited liability company, partnership or other enterprise in which the primary activity is the sale, manufacture or promotion of tobacco, tobacco products and accessories, either at wholesale or retail, and in which the sale, manufacture or promotion of other products is merely incidental.

9. "Factory" means any mill or other manufacturing establishment where one or more persons are employed in manufacturing including making, altering, repairing, finishing, bottling, canning, cleaning or laundering any article or thing.

10. "Gutka" means a product containing lime paste, spices, areca and tobacco.

11. "Nicotine water" means bottled water that is laced with nicotine.

12. "Shisha" means any product made primarily of tobacco or other leaf, or any combination thereof, smoked or intended to be smoked in a hookah or water pipe.

13. "Electronic cigarette" or "e-cigarette" means an electronic device that delivers vapor which is inhaled by an individual user, and shall

include any refill, cartridge and any other component of such a device.

14. "Price reduction instrument" means any coupon, voucher, rebate, card, paper, note, form, statement, ticket, image, or other issue, whether in paper, digital, or any other form, used for commercial purposes to receive an article, product, service, or accommodation without charge or at a discounted price.

15. "Listed or non-discounted price" means the price listed for cigarettes, tobacco products, or vapor products intended or reasonably expected to be used with or for the consumption of nicotine, on their packages or any related shelving, posting, advertising or display at the location where the cigarettes, tobacco products, or vapor products intended or reasonably expected to be used with or for the consumption of nicotine, are sold or offered for sale, including all applicable taxes.

16. "Retail dealer" means a person licensed by the commissioner of taxation and finance to sell cigarettes, tobacco products, or vapor products in this state.

17. "Vapor products" means any noncombustible liquid or gel, regardless of the presence of nicotine therein, that is manufactured into a finished product for use in an electronic cigarette, including any device that contains such noncombustible liquid or gel. "Vapor product" shall not include any device, or any component thereof, that does not contain such noncombustible liquid or gel, or any product approved by the United States food and drug administration as a drug or medical device, or manufactured and dispensed pursuant to title five-A of article thirty-three of this chapter.

18. "Vapor products dealer" means a person licensed by the commissioner of taxation and finance to sell vapor products in this state.

§ 1399-bb. Distribution of tobacco products, vapor products, or herbal

cigarettes without charge. 1. No retail dealer, or any agent or employee of a retail dealer engaged in the business of selling or otherwise distributing tobacco products, vapor products intended or reasonably expected to be used with or for the consumption of nicotine, or herbal cigarettes for commercial purposes, or any agent or employee of such retail dealer, or any agent or employee of a retail dealer, shall knowingly, in furtherance of such business:

(a) distribute without charge any tobacco products, vapor products intended or reasonably expected to be used with or for the consumption of nicotine, or herbal cigarettes to any individual, provided that the distribution of a package containing tobacco products, vapor products intended or reasonably expected to be used with or for the consumption of nicotine, or herbal cigarettes in violation of this subdivision shall constitute a single violation without regard to the number of items in the package; or

(b) distribute price reduction instruments which are redeemable for tobacco products, vapor products intended or reasonably expected to be used with or for the consumption of nicotine, or herbal cigarettes to any individual, provided that this subdivision shall not apply to coupons contained in newspapers, magazines or other types of publications, coupons obtained through the purchase of tobacco products, vapor products intended or reasonably expected to be used with or for the consumption of nicotine, or herbal cigarettes or obtained at locations which sell tobacco products, vapor products intended or reasonably expected to be used with or for the consumption of nicotine, or herbal cigarettes provided that such distribution is confined to a designated area or to coupons sent through the mail.

1-a. No retail dealer engaged in the business of selling or otherwise distributing tobacco products, herbal cigarettes, or vapor products intended or reasonably expected to be used with or for the consumption of nicotine for commercial purposes, or any agent or employee of such retail dealer, shall knowingly, in furtherance of such business:

(a) honor or accept a price reduction instrument in any transaction related to the sale of tobacco products, herbal cigarettes, or vapor products intended or reasonably expected to be used with or for the consumption of nicotine to a consumer;

(b) sell or offer for sale any tobacco products, herbal cigarettes, or vapor products intended or reasonably expected to be used with or for the consumption of nicotine to a consumer through any multi-package discount or otherwise provide to a consumer any tobacco products, herbal cigarettes, or vapor products intended or reasonably expected to be used with or for the consumption of nicotine for less than the listed price or non-discounted price in exchange for the purchase of any other tobacco products, herbal cigarettes, or vapor products intended or reasonably expected to be used with or for the consumption of nicotine by such consumer;

(c) sell, offer for sale, or otherwise provide any product other than a tobacco product, herbal cigarette, or vapor product intended or reasonably expected to be used with or for the consumption of nicotine to a consumer for less than the listed price or non-discounted price in exchange for the purchase of a tobacco product, herbal cigarette, or vapor product intended or reasonably expected to be used with or for the consumption of nicotine by such consumer; or

(d) sell, offer for sale, or otherwise provide a tobacco product, herbal cigarette, or vapor product intended or reasonably expected to be used with or for the consumption of nicotine to a consumer for less than the listed price or non-discounted price.

2. The prohibitions contained in subdivision one of this section shall not apply to the following locations:

(a) private social functions when seating arrangements are under the control of the sponsor of the function and not the owner, operator, manager or person in charge of such indoor area;

(b) conventions and trade shows; provided that the distribution is confined to designated areas generally accessible only to persons over the age of twenty-one;

(c) events sponsored by tobacco, vapor product intended or reasonably expected to be used with or for the consumption of nicotine, or herbal cigarette manufacturers provided that the distribution is confined to designated areas generally accessible only to persons over the age of twenty-one;

(d) bars as defined in subdivision one of section thirteen hundred ninety-nine-n of this chapter;

(e) tobacco businesses as defined in subdivision eight of section thirteen hundred ninety-nine-aa of this article;

(f) factories as defined in subdivision nine of section thirteen hundred ninety-nine-aa of this article and construction sites; provided that the distribution is confined to designated areas generally accessible only to persons over the age of twenty-one.

3. No retail dealer shall distribute tobacco products, vapor products intended or reasonably expected to be used with or for the consumption of nicotine, or herbal cigarettes at the locations set forth in paragraphs (b), (c) and (f) of subdivision two of this section unless such person gives five days written notice to the enforcement officer.

4. No retail dealer engaged in the business of selling or otherwise distributing electronic cigarettes or vapor products intended or reasonably expected to be used with or for the consumption of nicotine for commercial purposes, or any agent or employee of such person, shall knowingly, in furtherance of such business, distribute without charge any electronic cigarettes to any individual under twenty-one years of age.

5. The distribution of tobacco products, electronic cigarettes, vapor products intended or reasonably expected to be used with or for the consumption of nicotine, or herbal cigarettes pursuant to subdivision two of this section or the distribution without charge of electronic cigarettes, or vapor products intended or reasonably expected to be used with or for the consumption of nicotine, shall be made only to an individual who demonstrates, through (a) a driver's license or non-driver identification card issued by the commissioner of motor vehicles, the federal government, any United States territory, commonwealth, or possession, the District of Columbia, a state government within the United States, or a provincial government of the dominion of Canada, (b) a valid passport issued by the United States government or the government of any other country, or (c) an identification card issued by the armed forces of the United States, indicating that the individual is at least twenty-one years of age. Such identification need not be required of any individual who reasonably

appears to be at least twenty-five years of age; provided, however, that such appearance shall not constitute a defense in any proceeding alleging the sale of a tobacco product, electronic cigarette, vapor product intended or reasonably expected to be used with or for the consumption of nicotine, or herbal cigarette or the distribution without charge of electronic cigarettes, or vapor products intended or reasonably expected to be used with or for the consumption of nicotine to an individual.

§ 1399-bb-1. Promotions prohibited. 1. No manufacturer and no distributor of electronic cigarettes shall market, license, distribute, sell, or cause to be marketed, licensed, distributed, or sold any item (other than electronic cigarettes, including parts, components or accessories of electronic cigarettes) or service, which bears the brand name (alone or in conjunction with any other word), logo, symbol, motto, selling message, recognizable color or pattern of colors, or any other indicia of product identification identical or similar to, or identifiable with, those used for any brand of electronic cigarette. This subdivision shall not apply to a retailer's point of sale promotional materials for electronic cigarettes.

2. No manufacturer, distributor, or retailer may offer or cause to be offered any gift or item to any person purchasing electronic cigarettes in consideration of the purchase thereof.

3. No manufacturer, distributor, or retailer may sponsor or cause to be sponsored any athletic, musical, artistic, or other social or cultural event, or any entry or team in any event, in the brand name (alone or in conjunction with any other word), logo, symbol, motto, selling message, recognizable color or pattern of colors, or any other indicia of product identification identical or similar to, or identifiable with, those used for any brand of electronic cigarette. Nothing in this subdivision prevents a manufacturer, distributor, or retailer from sponsoring or causing to be sponsored any athletic, musical, artistic, or other social or cultural event, or team or entry, in the name of the corporation which manufactures the electronic

cigarettes, provided that the corporate name does not include any brand name (alone or in conjunction with any other word), logo, symbol, motto, selling message, recognizable color or pattern of colors, or any other indicia of product identification identical or similar to, or identifiable with, those used for any brand of electronic cigarettes.

§ 1399-cc. Sale of tobacco products, herbal cigarettes, liquid nicotine, shisha, rolling papers or smoking paraphernalia to minors prohibited. 1. As used in this section:

(a) "A device capable of deciphering any electronically readable format" or "device" shall mean any commercial device or combination of devices used at a point of sale or entry that is capable of reading the information encoded on the bar code or magnetic strip of a driver's license or non-driver identification card issued by the state commissioner of motor vehicles;

(b) "Card holder" means any person presenting a driver's license or non-driver identification card to a licensee, or to the agent or employee of such licensee under this chapter;

(c) "Smoking paraphernalia" means any pipe, water pipe, hookah, rolling papers, vaporizer or any other device, equipment or apparatus designed for the inhalation of tobacco;

(d) "Transaction scan" means the process involving an automated bar code reader by which a licensee, or agent or employee of a licensee under this chapter reviews a driver's license or non-driver identification card presented as a precondition for the purchase of a tobacco product or herbal cigarettes pursuant to subdivision three of this section; and

(e) "Liquid nicotine", "electronic liquid" or "e-liquid" means a liquid composed of nicotine and other chemicals, and which is sold as a product that may be used in an electronic cigarette.

2. Any person operating a place of business wherein tobacco products, herbal cigarettes, liquid nicotine, shisha or electronic cigarettes, are sold or offered for sale is prohibited from selling such products, herbal cigarettes, liquid nicotine, shisha, electronic cigarettes or smoking paraphernalia to individuals under twenty-one years of age, and

shall post in a conspicuous place a sign upon which there shall be imprinted the following statement, "SALE OF CIGARETTES, CIGARS, CHEWING TOBACCO, POWDERED TOBACCO, SHISHA OR OTHER TOBACCO PRODUCTS, HERBAL CIGARETTES, LIQUID NICOTINE, ELECTRONIC CIGARETTES, ROLLING PAPERS OR SMOKING PARAPHERNALIA, TO PERSONS UNDER TWENTY-ONE YEARS OF AGE IS PROHIBITED BY LAW." Such sign shall be printed on a white card in red letters at least one-half inch in height.

3. Sale of tobacco products, herbal cigarettes, liquid nicotine, shisha or electronic cigarettes in such places, other than by a vending machine, shall be made only to an individual who demonstrates, through (a) a valid driver's license or non-driver's identification card issued by the commissioner of motor vehicles, the federal government, any United States territory, commonwealth or possession, the District of Columbia, a state government within the United States or a provincial government of the dominion of Canada, or (b) a valid passport issued by the United States government or any other country, or (c) an identification card issued by the armed forces of the United States, indicating that the individual is at least twenty-one years of age. Such identification need not be required of any individual who reasonably appears to be at least twenty-five years of age, provided, however, that such appearance shall not constitute a defense in any proceeding alleging the sale of a tobacco product, herbal cigarettes, liquid nicotine, shisha or electronic cigarettes to an individual under twenty-one years of age.

4. (a) Any person operating a place of business wherein tobacco products, herbal cigarettes, liquid nicotine, shisha or electronic cigarettes are sold or offered for sale may perform a transaction scan as a precondition for such purchases.

(b) In any instance where the information deciphered by the transaction scan fails to match the information printed on the driver's license or non-driver identification card, or if the transaction scan indicates that the information is false or fraudulent, the attempted transaction shall be denied.

(c) In any proceeding pursuant to section thirteen hundred ninety-nine-ee of this article, it shall be an affirmative defense that

such person had produced a driver's license or non-driver identification card apparently issued by a governmental entity, successfully completed that transaction scan, and that the tobacco product, herbal cigarettes or liquid nicotine had been sold, delivered or given to such person in reasonable reliance upon such identification and transaction scan. In evaluating the applicability of such affirmative defense the commissioner shall take into consideration any written policy adopted and implemented by the seller to effectuate the provisions of this chapter. Use of a transaction scan shall not excuse any person operating a place of business wherein tobacco products, herbal cigarettes, liquid nicotine, shisha or electronic cigarettes are sold, or the agent or employee of such person, from the exercise of reasonable diligence otherwise required by this chapter. Notwithstanding the above provisions, any such affirmative defense shall not be applicable in any civil or criminal proceeding, or in any other forum.

5. A licensee or agent or employee of such licensee shall only use a device capable of deciphering any electronically readable format, and shall only use the information recorded and maintained through the use of such devices, for the purposes contained in subdivision four of this section. No licensee or agent or employee of a licensee shall resell or disseminate the information recorded during such a scan to any third person. Such prohibited resale or dissemination includes but is not limited to any advertising, marketing or promotional activities. Notwithstanding the restrictions imposed by this subdivision, such records may be released pursuant to a court ordered subpoena or pursuant to any other statute that specifically authorizes the release of such information. Each violation of this subdivision shall be punishable by a civil penalty of not more than one thousand dollars.

6. A licensee or agent or employee of such a licensee may electronically or mechanically record and maintain only the information from a transaction scan necessary to effectuate this section. Such information shall be limited to the following: (a) name, (b) date of birth, (c) driver's license or non-driver identification number, and (d) expiration date. The commissioner and state commissioner of motor vehicles shall jointly promulgate any regulations necessary to govern

the recording and maintenance of these records by a licensee under this chapter. The commissioner and the state liquor authority shall jointly promulgate any regulation necessary to ensure quality control in the use of the transaction scan devices under this chapter and article five of the alcoholic beverage control law.

7. No person operating a place of business wherein tobacco products, herbal cigarettes, liquid nicotine, shisha or electronic cigarettes are sold or offered for sale shall sell, permit to be sold, offer for sale or display for sale any tobacco product, herbal cigarettes, liquid nicotine, shisha or electronic cigarettes in any manner, unless such products and cigarettes are stored for sale (a) behind a counter in an area accessible only to the personnel of such business, or (b) in a locked container; provided, however, such restriction shall not apply to tobacco businesses, as defined in subdivision eight of section thirteen hundred ninety-nine-aa of this article, and to places to which admission is restricted to persons twenty-one years of age or older.

§ 1399-dd. Sale of tobacco products, herbal cigarettes or electronic cigarettes in vending machines. No person, firm, partnership, company or corporation shall operate a vending machine which dispenses tobacco products, herbal cigarettes or electronic cigarettes unless such machine is located: (a) in a bar as defined in subdivision one of section thirteen hundred ninety-nine-n of this chapter, or the bar area of a food service establishment with a valid, on-premises full liquor license; (b) in a private club; (c) in a tobacco business as defined in subdivision eight of section thirteen hundred ninety-nine-aa of this article; or (d) in a place of employment which has an insignificant portion of its regular workforce comprised of people under the age of twenty-one years and only in such locations that are not accessible to the general public; provided, however, that in such locations the vending machine is located in plain view and under the direct supervision and control of the person in charge of the location or his or her designated agent or employee.

§ 1399-dd-1. Public display of tobacco product and electronic cigarette advertisements and smoking paraphernalia prohibited. 1. For purposes of this section:

(a) "Advertisement" means words, pictures, photographs, symbols, graphics or visual images of any kind, or any combination thereof, which bear a health warning required by federal statute, the purpose or effect of which is to identify a brand of a tobacco product, electronic cigarette, or vapor product intended or reasonably expected to be used with or for the consumption of nicotine, a trademark of a tobacco product, electronic cigarette, or vapor product intended or reasonably expected to be used with or for the consumption of nicotine or a trade name associated exclusively with a tobacco product, electronic cigarette, or vapor product intended or reasonably expected to be used with or for the consumption of nicotine or to promote the use or sale of a tobacco product, electronic cigarette, or vapor product intended or reasonably expected to be used with or for the consumption of nicotine.

(b) "Smoking paraphernalia" means any pipe, water pipe, hookah, rolling papers, electronic cigarette, vaporizer or any other device, equipment or apparatus designed for the inhalation of tobacco or nicotine.

(c) "Vapor product" means any vapor product, as defined by section thirteen hundred ninety-nine-aa of this article, intended or reasonably expected to be used with or for the consumption of nicotine.

(d) "Tobacco products" shall have the same meaning as in subdivision five of section thirteen hundred ninety-nine-aa of this article.

(e) "Electronic cigarette" shall have the same meaning as in subdivision thirteen of section thirteen hundred ninety-nine-aa of this article.

2. (a) No person, corporation, partnership, sole proprietor, limited partnership, association or any other business entity may place, cause to be placed, maintain or to cause to be maintained, smoking paraphernalia or tobacco product, electronic cigarette, or vapor product intended or reasonably expected to be used with or for the consumption of nicotine advertisements in a store front or exterior window or any door which is used for entry or egress by the public to the building or structure containing a place of business within one thousand five

hundred feet of a school, provided that within New York city such prohibitions shall only apply within five hundred feet of a school.

(b) Any person, corporation, partnership, sole proprietor, limited partnership, association or any other business entity in violation of this section shall be subject to a civil penalty of not more than five hundred dollars for a first violation and not more than one thousand dollars for a second or subsequent violation.

§ 1399-ee. Hearings; penalties. 1. Hearings with respect to violation of this article shall be conducted in the same manner as hearings conducted under article thirteen-E of this chapter.

2. If the enforcement officer determines after a hearing that a violation of this article has occurred, he or she shall impose a civil penalty of a minimum of three hundred dollars, but not to exceed one thousand five hundred dollars for a first violation, and a minimum of one thousand dollars, but not to exceed two thousand five hundred dollars for each subsequent violation, unless a different penalty is otherwise provided in this article. The enforcement officer shall advise the retail dealer that upon the accumulation of three or more points pursuant to this section the department of taxation and finance shall suspend the dealer's registration. If the enforcement officer determines after a hearing that a retail dealer was selling tobacco products while their registration was suspended or permanently revoked pursuant to subdivision three or four of this section, he or she shall impose a civil penalty of twenty-five hundred dollars.

3. (a) Imposition of points. If the enforcement officer determines, after a hearing, that the retail dealer violated subdivision one of section thirteen hundred ninety-nine-cc of this article with respect to a prohibited sale to a minor, he or she shall, in addition to imposing any other penalty required or permitted pursuant to this section, assign two points to the retail dealer's record where the individual who committed the violation did not hold a certificate of completion from a state certified tobacco sales training program and one point where the retail dealer demonstrates that the person who committed the violation

held a certificate of completion from a state certified tobacco sales training program.

(b) Revocation. If the enforcement officer determines, after a hearing, that a retail dealer has violated this article four times within a three year time frame he or she shall, in addition to imposing any other penalty required or permitted by this section, direct the commissioner of taxation and finance to revoke the dealer's registration for one year.

(c) Duration of points. Points assigned to a retail dealer's record shall be assessed for a period of thirty-six months beginning on the first day of the month following the assignment of points.

(d) Reinspection. Any retail dealer who is assigned points pursuant to paragraph (a) of this subdivision shall be reinspected at least two times a year by the enforcement officer until points assessed are removed from the retail dealer's record.

(e) Suspension. If the department determines that a retail dealer has accumulated three points or more, the department shall direct the commissioner of taxation and finance to suspend such dealer's registration for one year. The three points serving as the basis for a suspension shall be erased upon the completion of the one year penalty.

(f) Surcharge. A two hundred fifty dollar surcharge to be assessed for every violation will be made available to enforcement officers and shall be used solely for compliance checks to be conducted to determine compliance with this section.

4. (a) If the enforcement officer determines, after a hearing, that a retail dealer has violated this article while their registration was suspended pursuant to subdivision three of this section, he or she shall, in addition to imposing any other penalty required or permitted by this section, direct the commissioner of taxation and finance to permanently revoke the dealer's registration and not permit the dealer to obtain a new registration.

(b) If the enforcement officer determines, after a hearing, that a vending machine operator has violated this article three times within a two year period, or four or more times cumulatively he or she shall, in addition to imposing any other penalty required or permitted by this section, direct the commissioner of taxation and finance to suspend the

vendor's registration for one year and not permit the vendor to obtain a new registration for such period.

5. The department shall publish a notification of the name and address of any retailer violating the provisions of this section and indicate the number of times the dealer has violated the provisions of this section. The notification shall be published in a newspaper of general circulation in the locality in which the retailer is located.

6. (a) In any proceeding pursuant to subdivision three of this section to assign points to a retail dealer's record, the retail dealer shall be assigned one point instead of two points where the retail dealer demonstrates that the person who committed the violation of section thirteen hundred ninety-nine-cc of this article held a valid certificate of completion from a state certified tobacco sales training program.

(b) A state certified tobacco sales training program shall include instruction in the following elements:

- (1) the health effects of tobacco use, especially at a young age;
- (2) the legal purchase age and the additional requirements of section thirteen hundred ninety-nine-cc of this article;
- (3) legal forms of identification and the key features thereof;
- (4) reliance upon legal forms of identification and the right to refuse sales when acting in good faith;
- (5) means of identifying fraudulent identification of attempted underage purchasers;
- (6) techniques used to refuse a sale;
- (7) the penalties arising out of unlawful sales to underage individuals; and
- (8) the significant disciplinary action or loss of employment that may be imposed by the retail dealer for a violation of the law or a deviation from the policies of the retail dealer in respect to compliance with such law.

(c) A tobacco sales training program may be given and administered by a retail dealer duly registered under section four hundred eighty-a of the tax law which operates five or more registered locations, by a trade association whose members are registered as retail dealers, by national and regional franchisors who have granted at least five franchises in

the state to persons who are registered as such retail dealers by a cooperative corporation with five or more members who are registered as retail dealers and are operating in this state, and by a wholesaler supplying fifty or more retail dealers. A person or entity administering such training program shall issue certificates of completion to persons successfully completing such a training program. Such certificates shall be prima facie evidence of the completion of such a training program by the person named therein.

(d) A certificate of completion may be issued for a period of three years, however such certificate shall be invalidated by a change in employment.

(e) Entities authorized pursuant to paragraph (c) of this subdivision to give and administer a tobacco sales training program may submit a proposed curriculum, a facsimile of any training aids and materials, and a list of training locations to the department for review. Training aids may include the use of video, computer based instruction, printed materials and other formats deemed acceptable to the department. The department shall certify programs which provide instruction in the elements set forth in paragraph (b) of this subdivision in a clear and meaningful fashion. Programs approved by the department shall be certified for a period of three years at which time an entity may reapply for certification. A non-refundable fee in the amount of three hundred dollars shall be paid to the department with each application.

§ 1399-ff. Enforcement. 1. Where a civil penalty for a particular incident has not been imposed or an enforcement action regarding an alleged violation for a particular incident is not pending under section thirteen hundred ninety-nine-ee of this article, a parent or guardian of a person under twenty-one years of age to whom tobacco products, herbal cigarettes or electronic cigarettes are sold or distributed in violation of this article may submit a complaint to an enforcement officer setting forth the name and address of the alleged violator, the date of the alleged violation, the name and address of the complainant and the person under twenty-one years of age, and a brief statement describing the alleged violation. The enforcement officer shall notify the alleged violator by certified or registered mail, return receipt requested, that

a complaint has been submitted, and shall set a date, at least fifteen days after the mailing of such notice, for a hearing on the complaint. Such notice shall contain the information submitted by the complainant.

2. With respect to any penalty imposed with respect to a complaint under this section, an enforcement officer other than the department shall use fifty percent of such penalty collected for educational efforts administered by the board or a local school district for the purposes of preventing adolescent tobacco use.

3. The enforcement officer shall promptly notify the commissioner of taxation and finance and the director of the division of the lottery of any determination, made after a hearing, that a violation of this article has occurred together with a direction to such commissioner and director with respect to any action to be taken concerning registration under section four hundred eighty-a of the tax law and licensing under section sixteen hundred seven of the tax law.

§ 1399-gg. Out-of-package sales and minimum package sizes. 1. All tobacco cigarettes sold or offered for sale by a retail dealer shall be sold or offered for sale in the package, box, carton or other container provided by the manufacturer, importer, or packager which bears all health warnings required by applicable law.

2. No person engaged in the business of manufacturing, selling or otherwise distributing tobacco products, herbal cigarettes, cigarette wrapping papers, wrapping leaves or tubes, or any agent or employee of such person, shall manufacture or cause to be manufactured for sale in this state, or sell or distribute in this state: (a) any package or other container of cigarettes containing fewer than twenty cigarettes; (b) any package of roll-your-own tobacco containing less than six-tenths of an ounce of tobacco; or (c) any package or other container of cigarette wrapping papers, wrapping leaves or tubes, that are or are held out to be suitable for use or used as devices to wrap tobacco for smoking, containing fewer than twenty sheets, leaves or tubes.

§ 1399-hh. Tobacco and vapor product enforcement. The commissioner shall develop, plan and implement a comprehensive program to reduce the prevalence of tobacco use, and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, use particularly among persons less than twenty-one years of age. This program shall include, but not be limited to, support for enforcement of this article.

1. An enforcement officer, as defined in section thirteen hundred ninety-nine-t of this chapter, may annually, on such dates as shall be fixed by the commissioner, submit an application for such monies as are made available for such purpose. Such application shall be in such form as prescribed by the commissioner and shall include, but not be limited to, plans regarding random spot checks, including the number and types of compliance checks that will be conducted, and other activities to determine compliance with this article. Each such plan shall include an agreement to report to the commissioner: the names and addresses of tobacco retailers and vendors and vapor products dealers determined to be unlicensed, if any; the number of complaints filed against licensed tobacco retail outlets and vapor products dealers; and the names of tobacco retailers and vendors and vapor products dealers who have paid fines, or have been otherwise penalized, due to enforcement actions.

2. The commissioner shall distribute such monies as are made available for such purpose to enforcement officers and, in so doing, consider the number of licensed vapor products dealers and retail locations registered to sell tobacco products within the jurisdiction of the enforcement officer and the level of proposed activities.

3. Monies made available to enforcement officers pursuant to this section shall only be used for local tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, enforcement activities approved by the commissioner.

§ 1399-ii. Tobacco and vapor product use prevention and control

program. 1. To improve the health, quality of life, and economic well-being of all New York state citizens, there is hereby established within the department a comprehensive statewide tobacco and vapor product use prevention and control program.

2. The department shall support tobacco and vapor product use prevention and control activities including, but not limited to:

(a) Community programs to prevent and reduce tobacco use through local involvement and partnerships;

(b) School-based programs to prevent and reduce tobacco use and use of vapor products;

(c) Marketing and advertising to discourage tobacco, vapor product and liquid nicotine use;

(d) Nicotine cessation programs for youth and adults;

(e) Special projects to reduce the disparities in smoking prevalence among various populations;

(f) Restriction of youth access to tobacco products and vapor products;

(g) Surveillance of smoking and vaping rates; and

(h) Any other activities determined by the commissioner to be necessary to implement the provisions of this section.

Such programs shall be selected by the commissioner through an application process which takes into account whether a program utilizes methods recognized as effective in reducing nicotine use. Eligible applicants may include, but not be limited to, a health care provider, schools, a college or university, a local public health department, a public health organization, a health care provider organization, association or society, municipal corporation, or a professional education organization.

3. (a) There shall be established a tobacco use prevention and control advisory board to advise the commissioner on tobacco use prevention and control issues and vapor product use amongst persons less than twenty-one years of age, including methods to prevent and reduce tobacco use in the state.

(b) The board shall consist of seventeen members who shall be

appointed as follows: nine members by the governor; three members by the speaker of the assembly; three members by the temporary president of the senate and one member each by the minority leader of the senate and minority leader of the assembly. Any vacancy or subsequent appointment shall be filled in the same manner and by the same appointing authority as the original appointment. The chairperson of the board shall be designated by the governor from among the members of the board.

(c) The members shall serve for terms of two years commencing on the effective date of this section. Members of the board shall receive no compensation but shall be reimbursed for reasonable travel and other expenses incurred in the performance of their duties hereunder.

(d) The board shall meet as often as it deems necessary, but no less than four times a year. No nominee to the board shall have any past or current affiliation with the tobacco industry, vapor products industry or any industry, contractor, agent, or organization that engages in the manufacturing, marketing, distributing, or sale of tobacco products. The board shall be appointed in full within ninety days of the effective date of this section.

(e) The department shall prepare and submit to the board a spending plan for the tobacco and vapor product use prevention and control program authorized pursuant to the provisions of subdivision one of this section no later than thirty days after the submission of the budget to the legislature.

§ 1399-ii-1. Electronic cigarette and vaping prevention, awareness and control program. The commissioner shall, in consultation and collaboration with the commissioner of education, establish and develop an electronic cigarette and vaping prevention, control and awareness program within the department. Such program shall be designed to educate students, parents and school personnel about the health risks associated with vapor product use and control measures to reduce the prevalence of vaping, particularly among persons less than twenty-one years of age. Such program shall include, but not be limited to, the creation of age-appropriate instructional tools and materials that may be used by all schools, and marketing and advertising materials to discourage electronic cigarette use.

§ 1399-jj. Evaluation requirements. 1. The commissioner shall evaluate the effectiveness of the efforts by state and local governments to reduce the use of tobacco products and vapor products, intended or reasonably expected to be used with or for the consumption of nicotine, among minors and adults. The principal measurements of effectiveness shall include negative attitudes toward tobacco and vapor products, intended or reasonably expected to be used with or for the consumption of nicotine, use and reduction of tobacco and vapor products, intended or reasonably expected to be used with or for the consumption of nicotine, use among the general population, and given target populations.

2. The commissioner shall ensure that, to the extent practicable, the most current research findings regarding mechanisms to reduce and change attitudes toward tobacco and vapor products, intended or reasonably expected to be used with or for the consumption of nicotine, use are used in tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, education programs administered by the department.

3. To diminish tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, use among minors and adults, the commissioner shall ensure that, to the extent practicable, the following is achieved:

The department shall conduct an independent evaluation of the statewide tobacco use prevention and control program under section thirteen hundred ninety-nine-ii of this article. The purpose of this evaluation is to direct the most efficient allocation of state resources devoted to tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, education and cessation to accomplish the maximum prevention and reduction of tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, use among minors and adults. Such evaluation shall be provided to the governor, the majority leader of the senate and

the speaker of the assembly on or before September first, two thousand one, and annually on or before such date thereafter. The comprehensive evaluation design shall be guided by the following:

- (a) sound evaluation principles including, to the extent feasible, elements of controlled experimental methods;

- (b) an evaluation of the comparative effectiveness of individual program designs which shall be used in funding decisions and program modifications; and

- (c) an evaluation of other programs identified by state agencies, local lead agencies, and federal agencies.

§ 1399-kk. Annual tobacco and vapor product enforcement reporting. The commissioner shall submit to the governor and the legislature an interim tobacco control report and annual tobacco control reports which shall describe the extent of the use of tobacco products and vapor products, intended or reasonably expected to be used with or for the consumption of nicotine, by those under twenty-one years of age in the state and document the progress state and local governments have made in reducing such use among those under twenty-one years of age.

1. The interim tobacco control report. The commissioner shall submit to the governor and the legislature an interim tobacco control report on or before September first, nineteen hundred ninety-eight. Such interim report shall, to the extent practicable, include the following information on a county by county basis:

- (a) number of licensed and registered tobacco retailers and vendors;

- (b) the names and addresses of retailers and vendors who have paid fines, or have been otherwise penalized, due to enforcement actions;

- (c) the number of complaints filed against licensed and registered tobacco retailers;

- (d) the number of fires caused or believed to be caused by tobacco products and deaths and injuries resulting therefrom;

- (e) the number and type of compliance checks conducted; and

- (f) such other information as the commissioner deems appropriate.

2. The commissioner shall submit to the governor and the legislature

an annual tobacco and vapor products, intended or reasonably expected to be used with or for the consumption of nicotine, control report which shall describe the extent of the use of tobacco products and vapor products, intended or reasonably expected to be used with or for the consumption of nicotine, by those under twenty-one years of age in the state and document the progress state and local governments have made in reducing such use among those under twenty-one years of age. The annual report shall be submitted to the governor and the legislature on or before March thirty-first of each year beginning on March thirty-first, nineteen hundred ninety-nine. The annual report shall, to the extent practicable, include the following information on a county by county basis:

- (a) number of licensed and registered tobacco retailers and vendors and licensed vapor products dealers;

- (b) the names and addresses of retailers and vendors who have paid fines, or have been otherwise penalized, due to enforcement actions;

- (c) the number of complaints filed against licensed and registered tobacco retailers and licensed vapor products dealers;

- (d) the number of fires caused or believed to be caused by tobacco products and vapor products, intended or reasonably expected to be used with or for the consumption of nicotine, and deaths and injuries resulting therefrom;

- (e) the number and type of compliance checks conducted;

- (f) a survey of attitudes and behaviors regarding tobacco use among those under twenty-one years of age. The initial such survey shall be deemed to constitute the baseline survey;

- (g) the number of tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, users and estimated trends in tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, use among those under twenty-one years of age;

- (h) annual tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, sales;

- (i) tax revenue collected from the sale of tobacco products and vapor products, intended or reasonably expected to be used with or for the consumption of nicotine;

- (j) the number of licensed tobacco retail outlets and licensed vapor

products dealers;

(k) the number of cigarette vending machines;

(l) the number and type of compliance checks;

(m) the names of entities that have paid fines due to enforcement actions; and

(n) the number of complaints filed against licensed tobacco retail outlets and licensed vapor products dealers.

The annual tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, control report shall, to the extent practicable, include the following information: (a) tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, control efforts sponsored by state government agencies including money spent to educate those under twenty-one years of age on the hazards of tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, use;

(b) recommendations for improving tobacco and vapor product, intended or reasonably expected to be used with or for the consumption of nicotine, control efforts in the state; and

(c) such other information as the commissioner deems appropriate.

*** § 1399-11. Unlawful shipment or transport of cigarettes and vapor products.** 1. It shall be unlawful for any person engaged in the business of selling cigarettes to ship or cause to be shipped any cigarettes to any person in this state who is not: (a) a person licensed as a cigarette tax agent or wholesale dealer under article twenty of the tax law or registered retail dealer under section four hundred eighty-a of the tax law; (b) an export warehouse proprietor pursuant to chapter 52 of the internal revenue code or an operator of a customs bonded warehouse pursuant to section 1311 or 1555 of title 19 of the United States Code; or (c) a person who is an officer, employee or agent of the United States government, this state or a department, agency, instrumentality or political subdivision of the United States or this state and presents himself or herself as such, when such person is acting in accordance with his or her official duties. For purposes of

this subdivision, a person is a licensed or registered agent or dealer described in paragraph (a) of this subdivision if his or her name appears on a list of licensed or registered agents or dealers published by the department of taxation and finance, or if such person is licensed or registered as an agent or dealer under article twenty of the tax law.

1-a. It shall be unlawful for any person engaged in the business of selling vapor products to ship or cause to be shipped any vapor products intended or reasonably expected to be used with or for the consumption of nicotine to any person in this state who is not: (a) a person that receives a certificate of registration as a vapor products dealer under article twenty eight-C of the tax law; (b) an export warehouse proprietor pursuant to chapter 52 of the internal revenue code or an operator of a customs bonded warehouse pursuant to section 1311 or 1555 of title 19 of the United States Code; or (c) a person who is an officer, employee or agent of the United States government, this state or a department, agency, instrumentality or political subdivision of the United States or this state and presents himself or herself as such, when such person is acting in accordance with his or her official duties. For purposes of this subdivision, a person is a licensed or registered agent or dealer described in paragraph (a) of this subdivision if his or her name appears on a list of licensed or registered agents or vapor product dealers published by the department of taxation and finance, or if such person is licensed or registered as an agent or dealer under article twenty eight-C of the tax law.

2. It shall be unlawful for any common or contract carrier to knowingly transport cigarettes to any person in this state reasonably believed by such carrier to be other than a person described in paragraph (a), (b) or (c) of subdivision one of this section. For purposes of the preceding sentence, if cigarettes are transported to a home or residence, it shall be presumed that the common or contract carrier knew that such person was not a person described in paragraph (a), (b) or (c) of subdivision one of this section. It shall be unlawful for any other person to knowingly transport cigarettes to any person in this state, other than to a person described in paragraph (a), (b) or (c) of subdivision one of this section. Nothing in this subdivision

shall be construed to prohibit a person other than a common or contract carrier from transporting not more than eight hundred cigarettes at any one time to any person in this state. It shall be unlawful for any common or contract carrier to knowingly transport vapor products intended or reasonably expected to be used with or for the consumption of nicotine to any person in this state reasonably believed by such carrier to be other than a person described in paragraph (a), (b) or (c) of subdivision one-a of this section. For purposes of the preceding sentence, if vapor products intended or reasonably expected to be used with or for the consumption of nicotine are transported to a home or residence, it shall be presumed that the common or contract carrier knew that such person was not a person described in paragraph (a), (b) or (c) of subdivision one-a of this section. It shall be unlawful for any other person to knowingly transport vapor products intended or reasonably expected to be used with or for the consumption of nicotine to any person in this state, other than to a person described in paragraph (a), (b) or (c) of subdivision one of this section. Nothing in this subdivision shall be construed to prohibit a person other than a common or contract carrier from transporting vapor products, provided that the amount of vapor products intended or reasonably expected to be used with or for the consumption of nicotine shall not exceed the lesser of 500 milliliters, or a total nicotine content of 3 grams at any one time to any person in this state.

3. When a person engaged in the business of selling cigarettes ships or causes to be shipped any cigarettes to any person in this state, other than in the cigarette manufacturer's original container or wrapping, the container or wrapping must be plainly and visibly marked with the word "cigarettes". When a person engaged in the business of selling vapor products ships or causes to be shipped any vapor products intended or reasonably expected to be used with or for the consumption of nicotine to any person in this state, other than in the vapor products manufacturer's original container or wrapping, the container or wrapping must be plainly and visibly marked with the words "vapor products".

4. Whenever a police officer designated in section 1.20 of the

criminal procedure law or a peace officer designated in subdivision four of section 2.10 of such law, acting pursuant to his or her special duties, shall discover any cigarettes or vapor products intended or reasonably expected to be used with or for the consumption of nicotine which have been or which are being shipped or transported in violation of this section, such person is hereby empowered and authorized to seize and take possession of such cigarettes or vapor products intended or reasonably expected to be used with or for the consumption of nicotine, and such cigarettes or vapor products intended or reasonably expected to be used with or for the consumption of nicotine shall be subject to a forfeiture action pursuant to the procedures provided for in article thirteen-A of the civil practice law and rules, as if such article specifically provided for forfeiture of cigarettes or vapor products intended or reasonably expected to be used with or for the consumption of nicotine seized pursuant to this section as a pre-conviction forfeiture crime.

5. Any person who violates the provisions of subdivision one, one-a, or two of this section shall be guilty of a class A misdemeanor and for a second or subsequent violation shall be guilty of a class E felony. In addition to the criminal penalty, any person who violates the provisions of subdivision one, one-a, two or three of this section shall be subject to a civil penalty not to exceed the greater of (a) five thousand dollars for each such violation; (b) one hundred dollars for each pack of cigarettes shipped, caused to be shipped or transported in violation of such subdivision; or (c) one hundred dollars for each vapor product intended or reasonably expected to be used with or for the consumption of nicotine shipped, caused to be shipped or transported in violation of such subdivision.

6. The attorney general may bring an action to recover the civil penalties provided by subdivision five of this section and for such other relief as may be deemed necessary. In addition, the corporation counsel of any political subdivision that imposes a tax on cigarettes or vapor products intended or reasonably expected to be used with or for the consumption of nicotine may bring an action to recover the civil penalties provided by subdivision five of this section and for such

other relief as may be deemed necessary with respect to any cigarettes or vapor products intended or reasonably expected to be used with or for the consumption of nicotine shipped, caused to be shipped or transported in violation of this section to any person located within such political subdivision. All civil penalties obtained in any such action shall be retained by the state or political subdivision bringing such action, provided that no person shall be required to pay civil penalties to both the state and a political subdivision with respect to the same violation of this section.

* NB There are 2 § 1399-ll's

*** § 1399-ll. Sale of bidis prohibited.** 1. No person shall knowingly sell or provide bidis to any other person. Notwithstanding that bidis is a tobacco product, no other provision of law authorizing the sale of tobacco products, other than subdivision two of this section, shall authorize the sale of bidis. Any person who violates the provisions of this subdivision shall be subject to a civil fine of not more than five hundred dollars.

2. (a) The provisions of subdivision one of this section shall not apply to a tobacco business, as defined in subdivision eight of section thirteen hundred ninety-nine-aa of this article.

(b) Any person operating a tobacco business wherein bidis is sold or offered for sale is prohibited from selling such bidis to individuals under twenty-one years of age, and shall post in a conspicuous place a sign upon which there shall be imprinted the following statement, "SALE OF BIDIS TO PERSONS UNDER TWENTY-ONE YEARS OF AGE IS PROHIBITED BY LAW." Such sign shall be printed on a white card in red letters at least one-half inch in height.

(c) Sales of bidis by a tobacco business shall be made only to an individual who demonstrates, through a driver's license or other photographic identification card issued by a government entity or educational institution indicating that the individual is at least twenty-one years of age. Such identification need not be required of any individual who reasonably appears to be at least twenty-five years of age, provided, however, that such appearance shall not constitute a

defense in any proceeding alleging the sale of a tobacco product to an individual under twenty-one years of age.

(d)(i) Any person operating a tobacco business wherein bidis is sold or offered for sale may perform a transaction scan as a precondition for such purchases.

(ii) In any instance where the information deciphered by the transaction scan fails to match the information printed on the driver's license or non-driver identification card, or if the transaction scan indicates that the information is false or fraudulent, the attempted transaction shall be denied.

(iii) In any proceeding pursuant to section thirteen hundred ninety-nine-ee of this article, it shall be an affirmative defense that such person had produced a driver's license or non-driver identification card apparently issued by a governmental entity, successfully completed that transaction scan, and that the bidis had been sold, delivered or given to such person in reasonable reliance upon such identification and transaction scan. In evaluating the applicability of such affirmative defense the commissioner shall take into consideration any written policy adopted and implemented by the seller to effectuate the provisions of this chapter. Use of a transaction scan shall not excuse any person operating a tobacco business wherein bidis is sold, or the agent or employee of such person, from the exercise of reasonable diligence otherwise required by this chapter. Notwithstanding the above provisions, any such affirmative defense shall not be applicable in any civil or criminal proceeding, or in any other forum.

(e) A tobacco business or agent or employee of such business shall only use a device capable of deciphering any electronically readable format, and shall only use the information recorded and maintained through the use of such devices, for the purposes contained in paragraph (d) of this subdivision. No tobacco business or agent or employee of such business shall resell or disseminate the information recorded during such a scan to any third person. Such prohibited resale or dissemination includes but is not limited to any advertising, marketing or promotional activities. Notwithstanding the restrictions imposed by this paragraph, such records may be released pursuant to a court ordered subpoena or pursuant to any other statute that specifically authorizes the release of such information. Each violation of this paragraph shall

be punishable by a civil penalty of not more than one thousand dollars.

(f) A tobacco business or agent or employee of such business may electronically or mechanically record and maintain only the information from a transaction scan necessary to effectuate this section. Such information shall be limited to the following: (i) name, (ii) date of birth, (iii) driver's license or non-driver identification number, and (iv) expiration date.

(g) As used in this subdivision, "a device capable of deciphering any electronically readable format", "card holder" and "transaction scan" shall have the same meanings as are ascribed to such terms by section thirteen hundred ninety-nine-cc of this article.

* NB There are 2 § 1399-ll's

§ 1399-mm. Sale of gutka prohibited. 1. No person shall knowingly sell or provide gutka to any other person under twenty-one years of age. No other provision of law authorizing the sale of tobacco products, other than subdivision two of this section, shall authorize the sale of gutka. Any person who violates the provisions of this subdivision shall be subject to a civil penalty of not more than five hundred dollars.

2. (a) The provisions of subdivision one of this section shall not apply to a tobacco business, as defined in section thirteen hundred ninety-nine-n of this chapter.

(b) Any person operating a tobacco business wherein gutka is sold or offered for sale is prohibited from selling such gutka to individuals under twenty-one years of age, and shall post in a conspicuous place a sign upon which there shall be imprinted the following statement, "SALE OF GUTKA TO PERSONS UNDER TWENTY-ONE YEARS OF AGE IS PROHIBITED BY LAW." Such sign shall be printed on a white card in red letters at least one-half inch in height.

(c) Sales of gutka by a tobacco business shall be made only to an individual who demonstrates, through a driver's license or other photographic identification card issued by a government entity or educational institution indicating that the individual is at least twenty-one years of age. Such identification need not be required of any individual who reasonably appears to be at least twenty-five years of

age, provided, however, that such appearance shall not constitute a defense in any proceeding alleging the sale of a tobacco product to an individual under twenty-one years of age.

(d) (i) Any person operating a tobacco business wherein gutka is sold or offered for sale may perform a transaction scan as a precondition for such purchases.

(ii) In any instance where the information deciphered by the transaction scan fails to match the information printed on the driver's license or non-driver identification card, or if the transaction scan indicates that the information is false or fraudulent, the attempted transaction shall be denied.

(iii) In any proceeding pursuant to section thirteen hundred ninety-nine-ee of this article, it shall be an affirmative defense that such person had produced a driver's license or non-driver identification card apparently issued by a governmental entity, successfully completed that transaction scan, and that the gutka had been sold, delivered or given to such person in reasonable reliance upon such identification and transaction scan. In evaluating the applicability of such affirmative defense the commissioner shall take into consideration any written policy adopted and implemented by the seller to effectuate the provisions of this chapter. Use of a transaction scan shall not excuse any person operating a tobacco business wherein gutka is sold, or the agent or employee of such person, from the exercise of reasonable diligence otherwise required by this chapter. Notwithstanding the above provisions, any such affirmative defense shall not be applicable in any civil or criminal proceeding, or in any other forum.

(e) A tobacco business or agent or employee of such business shall only use a device capable of deciphering any electronically readable format, and shall only use the information recorded and maintained through the use of such devices, for the purposes contained in paragraph (d) of this subdivision. No tobacco business or agent or employee of such business shall resell or disseminate the information recorded during such a scan to any third person. Such prohibited resale or dissemination includes but is not limited to any advertising, marketing or promotional activities. Notwithstanding the restrictions imposed by this paragraph, such records may be released pursuant to a court ordered subpoena or pursuant to any other statute that specifically authorizes

the release of such information. Each violation of this paragraph shall be punishable by a civil penalty of not more than one thousand dollars.

(f) A tobacco business or agent or employee of such business may electronically or mechanically record and maintain only the information from a transaction scan necessary to effectuate this section. Such information shall be limited to the following: (i) name, (ii) date of birth, (iii) driver's license or non-driver identification number, and (iv) expiration date.

(g) As used in this subdivision, "a device capable of deciphering any electronically readable format", "card holder" and "transaction scan" shall have the same meanings as are ascribed to such terms by section thirteen hundred ninety-nine-cc of this article.

§ 1399-mm-1. Sale of flavored products prohibited. 1. For the purposes of this section "flavored" shall mean any vapor product intended or reasonably expected to be used with or for the consumption of nicotine, with a distinguishable taste or aroma, other than the taste or aroma of tobacco, imparted either prior to or during consumption of such product or a component part thereof, including but not limited to tastes or aromas relating to any fruit, chocolate, vanilla, honey, candy, cocoa, dessert, alcoholic beverage, mint, wintergreen, menthol, herb or spice, or any concept flavor that imparts a taste or aroma that is distinguishable from tobacco flavor but may not relate to any particular known flavor. A vapor product intended or reasonably expected to be used with or for the consumption of nicotine, shall be presumed to be flavored if a product's retailer, manufacturer, or a manufacturer's agent or employee has made a statement or claim directed to consumers or the public, whether expressed or implied, that such product or device has a distinguishable taste or aroma other than the taste or aroma of tobacco.

2. No vapor products dealer, or any agent or employee of a vapor products dealer, shall sell or offer for sale at retail in the state any flavored vapor product intended or reasonably expected to be used with or for the consumption of nicotine.

3. Any vapor products dealer, or any agent or employee of a vapor products dealer, who violates the provisions of this section shall be subject to a civil penalty of not more than one hundred dollars for each individual package of flavored vapor product intended or reasonably expected to be used with or for the consumption of nicotine sold or offered for sale, provided, however, that with respect to a manufacturer, it shall be an affirmative defense to a finding of violation pursuant to this section that such sale or offer of sale, as applicable, occurred without the knowledge, consent, authorization, or involvement, direct or indirect, of such manufacturer. Violations of this section shall be enforced pursuant to section thirteen hundred ninety-nine-ff of this article, except that any person may submit a complaint to an enforcement officer that a violation of this section has occurred.

4. The provisions of this section shall not apply to any vapor products dealer, or any agent or employee of a vapor products dealer, who sells or offers for sale, or who possess with intent to sell or offer for sale, any flavored vapor product intended or reasonably expected to be used with or for the consumption of nicotine that the U.S. Food and Drug Administration has authorized to legally market as defined under 21 U.S.C. § 387j and that has received a premarket review approval order under 21 U.S.C. § 387j(c) et seq.

§ 1399-mm-2. Sale in pharmacies. 1. No tobacco product, herbal cigarette, or vapor product intended or reasonably expected to be used with or for the consumption of nicotine, shall be sold in a pharmacy or in a retail establishment that contains a pharmacy operated as a department as defined by paragraph f of subdivision two of section sixty-eight hundred eight of the education law. Provided, however, that such prohibition on the sale of tobacco products, herbal cigarettes, or vapor products intended or reasonably expected to be used with or for the consumption of nicotine, shall not apply to any other business that owns or leases premises within any building or other facility that also contains a pharmacy or a retail establishment that contains a pharmacy operated as a department as defined by paragraph f of subdivision two of

section sixty-eight hundred eight of the education law.

2. The commissioner shall have sole jurisdiction to enforce the provisions of this section. The commissioner shall have the power to assess penalties in accordance with section twelve of this chapter and pursuant to a hearing conducted in accordance with section twelve-a of this chapter. Nothing in this section shall be construed to prohibit the commissioner from commencing a proceeding for injunctive relief to compel compliance with this section.

§ 1399-mm-3. Carrier oils. 1. For the purposes of this section "carrier oils" shall mean any ingredient of a vapor product intended to control the consistency or other physical characteristics of such vapor product, to control the consistency or other physical characteristics of vapor, or to facilitate the production of vapor when such vapor product is used in an electronic cigarette. "Carrier oils" shall not include any product approved by the United States food and drug administration as a drug or medical device or manufactured and dispensed pursuant to title five-A of article thirty-three of this chapter.

2. The commissioner is authorized to promulgate rules and regulations governing the sale and distribution of carrier oils that are suspected of causing acute illness and have been identified as a chemical of concern by the United States centers for disease control and prevention. Such regulations may, to the extent deemed by the commissioner as necessary for the protection of public health, prohibit or restrict the selling, offering for sale, possessing with intent to sell, or distributing of carrier oils.

3. The provisions of this section shall not apply where preempted by federal law. Furthermore, the provisions of this section shall be severable, and if any phrase, clause, sentence, or provision is declared to be invalid, or is preempted by federal law or regulation, the validity of the remainder of this section shall not be affected thereby. If any provision of this section is declared to be inapplicable to any specific category, type, or kind of carrier oil, the provisions of this

section shall nonetheless continue to apply with respect to all other carrier oils.

*** § 1399-mmm. Sale of kratom prohibited.** 1. No person shall knowingly sell or provide kratom to any other person under twenty-one years of age. Any person who violates the provisions of this subdivision shall be subject to a civil penalty of not more than five hundred dollars.

2.(a) Any person operating a place of business wherein kratom is sold or offered for sale is prohibited from selling such kratom to individuals under twenty-one years of age, and shall post in a conspicuous place a sign upon which there shall be imprinted the following statement, "SALE OF KRATOM TO PERSONS UNDER TWENTY-ONE YEARS OF AGE IS PROHIBITED BY LAW". Such sign shall be printed on a white card in red letters at least one-half inch in height.

(b) Sales of kratom shall be made only to an individual who demonstrates, through (i) a valid driver's license or non-driver's identification card issued by the commissioner of motor vehicles, the federal government, any United States territory, commonwealth or possession, the District of Columbia, a state government within the United States or a provincial government of the dominion of Canada, or (ii) a valid passport issued by the United States government or any other country, or (iii) an identification card issued by the armed forces of the United States, or (iv) any other photographic identification card issued by a governmental entity or educational institution indicating that the individual is at least twenty-one years of age. Such identification need not be required of any individual who reasonably appears to be at least twenty-five years of age, provided, however, that such appearance shall not constitute a defense in any proceeding alleging the sale of kratom to an individual under twenty-one years of age.

(c)(i) Any person operating a place of business wherein kratom is sold or offered for sale may perform a transaction scan as a precondition for such purchases.

(ii) In any instance where the information deciphered by the transaction scan fails to match the information printed on the driver's

license or non-driver identification card, or if the transaction scan indicates that the information is false or fraudulent, the attempted transaction shall be denied.

(iii) In any proceeding pursuant to section thirteen hundred ninety-nine-ee of this article, it shall be an affirmative defense that such person had produced a driver's license or non-driver identification card apparently issued by a governmental entity, successfully completed that transaction scan, and that the kratom has been sold, delivered or given to such person in reasonable reliance upon such identification and transaction scan. In evaluating the applicability of such affirmative defense the commissioner shall take into consideration any written policy adopted and implemented by the seller to effectuate the provisions of this article. Use of a transaction scan shall not excuse any person operating a place of business wherein kratom is sold, or the agent or employee of such person, from the exercise of reasonable diligence otherwise required by this article. Notwithstanding the above provisions, any such affirmative defense shall not be applicable in any civil or criminal proceeding, or in any other forum.

(d) A business or agent or employee of such business shall only use a device capable of deciphering any electronically readable format, and shall only use the information recorded and maintained through the use of such devices, for the purposes contained in paragraph (c) of this subdivision. No business or agent or employee of such business shall resell or disseminate the information recorded during such a scan to any third person. Such prohibited resale or dissemination includes but is not limited to any advertising, marketing or promotional activities. Notwithstanding the restrictions imposed by this subdivision, such records may be released pursuant to a court ordered subpoena or pursuant to any other statute that specifically authorizes the release of such information. Each violation of this paragraph shall be punishable by a civil penalty of not more than one thousand dollars.

(e) A business or agent or employee of such business may electronically or mechanically record and maintain only the information from a transaction scan necessary to effectuate this section. Such information shall be limited to the following: (i) name, (ii) date of birth, (iii) driver's license or non-driver identification number, and (iv) expiration date.

(f) As used in this subdivision, "a device capable of deciphering any electronically readable format", "card holder" and "transaction scan" shall have the same meanings as are ascribed to such terms by section thirteen hundred ninety-nine-cc of this article.

* NB Effective and Repealed June 17, 2026

ARTICLE 13-G
TOBACCO ESCROW FUNDS

Section 1399-nn. Findings and purpose.

1399-oo. Definitions.

1399-pp. Requirements.

§ 1399-nn. Findings and purpose. 1. Cigarette smoking presents serious public health concerns to the state and to the citizens of the state. The Surgeon General has determined that smoking causes lung cancer, heart disease and other serious diseases, and that there are hundreds of thousands of tobacco-related deaths in the United States each year. These diseases most often do not appear until many years after the person in question begins smoking.

2. Cigarette smoking also presents serious financial concerns for the state. Under certain health-care programs, the state may have a legal obligation to provide medical assistance to eligible persons for health conditions associated with cigarette smoking, and those persons may have a legal entitlement to receive such medical assistance.

3. Under these programs, the state pays millions of dollars each year to provide medical assistance for these persons for health conditions associated with cigarette smoking.

4. It is the policy of the state that financial burdens imposed on the state by cigarette smoking be borne by tobacco product manufacturers rather than by the state to the extent that such manufacturers either determine to enter into a settlement with the state or are found culpable by the courts.

5. On November twenty-third, nineteen hundred ninety-eight, leading United States tobacco product manufacturers entered into a settlement agreement, entitled the "Master Settlement Agreement," with the state. The master settlement agreement obligates these manufacturers, in return for a release of past, present and certain future claims against them as described therein, to pay substantial sums to the state (tied in part to their volume of sales); to fund a national foundation devoted to the interests of public health; and to make substantial changes in their advertising and marketing practices and corporate culture, with the intention of reducing underage smoking.

6. It would be contrary to the policy of the state if tobacco product manufacturers who determine not to enter into such a settlement could use a resulting cost advantage to derive large, short-term profits in the years before liability may arise without ensuring that the state will have an eventual source of recovery from them if they are proven to have acted culpably. It is thus in the interest of the state to require that such manufacturers establish a reserve fund to guarantee a source of compensation and to prevent such manufacturers from deriving large, short-term profits and then becoming judgment-proof before liability may arise.

§ 1399-oo. Definitions. As used in this article the following terms shall mean:

1. "Adjusted for inflation" means increased in accordance with the formula for inflation adjustment set forth in exhibit C to the master settlement agreement.

2. "Affiliate" means a person who directly or indirectly owns or controls, is owned or controlled by, or is under common ownership or control with, another person. Solely for purposes of this definition, the term "owns," "is owned" and "ownership" mean ownership of an equity interest, or the equivalent thereof, of ten percent or more, and the term "person" means an individual, partnership, committee, association,

corporation or any other organization or group of persons.

3. "Allocable share" means allocable share as that term is defined in the master settlement agreement.

4. "Cigarette" means any product that contains nicotine, is intended to be burned or heated under ordinary conditions of use, and consists of or contains: (a) any roll of tobacco wrapped in any substance not containing tobacco, or (b) tobacco, in any form, that is functional in the product, which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette; or (c) any roll of tobacco wrapped in any substance containing tobacco which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette described in paragraph (a) of this definition. The term "cigarette" includes "roll-your-own" (i.e., any tobacco which, because of its appearance, type, packaging or labeling is suitable for use and likely to be offered to, or purchased by, consumers as tobacco for making cigarettes). For purposes of this definition of "cigarette," 0.09 ounces of "roll-your-own" tobacco shall constitute one individual "cigarette."

5. "Master settlement agreement" means the settlement agreement (and related documents) entered into on November twenty-third, nineteen hundred ninety-eight by the state and leading United States tobacco product manufacturers. A copy of said agreement, including any amendments thereto, shall be kept on file by the attorney general, who shall make it available for inspection and copying pursuant to the provisions of article six of the public officers law.

6. "Qualified escrow fund" means an escrow arrangement with a federally or state chartered financial institution having no affiliation with any tobacco product manufacturer and having assets of at least one billion dollars where such arrangement requires that such financial institution hold the escrowed funds' principal for the benefit of releasing parties and prohibits the tobacco product manufacturer placing

the funds into escrow from using, accessing or directing the use of the funds' principal except as consistent with paragraph (b) of subdivision two of section thirteen hundred ninety-nine-pp of this article.

7. "Released claims" means released claims as that term is defined in the master settlement agreement.

8. "Releasing parties" means releasing parties as that term is defined in the master settlement agreement.

9. "Tobacco product manufacturer" means an entity that after the effective date of this article directly (and not exclusively through any affiliate):

(a) manufacturers cigarettes anywhere that such manufacturer intends to be sold in the United States, including cigarettes intended to be sold in the United States through an importer (except where such importer is an original participating manufacturer (as that term is defined in the master settlement agreement) that will be responsible for the payments under the master settlement agreement with respect to such cigarettes as a result of the provisions of subsections II(mm) of the master settlement agreement and that pays the taxes specified in subsection II(z) of the master settlement agreement, and provided that the manufacturer of such cigarettes does not market or advertise such cigarettes in the United States);

(b) is the first purchaser anywhere for resale in the United States of cigarettes manufactured anywhere that the manufacturer does not intend to be sold in the United States; or

(c) becomes a successor of an entity described in paragraph (a) or (b) of this subdivision.

The term "tobacco product manufacturer" shall not include an affiliate of a tobacco product manufacturer unless such affiliate itself falls within any of the provisions of paragraph (a), (b) or (c) of this subdivision.

10. "Units sold" means the number of individual cigarettes sold in the state by the applicable tobacco product manufacturer (whether directly or through a distributor, retailer or similar intermediary or

intermediaries) during the year in question, as measured by excise taxes collected by the state on packs bearing the excise tax stamp of the state, or on "roll-your-own" tobacco containers. The commissioner of taxation and finance shall promulgate such regulations as are necessary to ascertain the amount of state excise tax paid on the cigarettes and roll-your-own tobacco of such tobacco product manufacturer for each year. Notwithstanding any other provision of law, a failure of a cigarette tax agent or distributor licensed pursuant to section four hundred seventy-two of the tax law to provide any information required by such regulations shall be deemed a violation of the regulations of the commissioner of taxation and finance promulgated under article twenty of the tax law. Notwithstanding any provision of law to the contrary, the commissioner of taxation and finance shall provide to the attorney general any information necessary for the administration and enforcement of this article, including: (a) returns filed in accordance with article twenty or twenty-eight of the tax law (or any other provision of the tax law providing for an excise tax on cigarettes or roll-your-own tobacco); and (b) in the event the commissioner is unable to ascertain the identity of the applicable tobacco product manufacturer with respect to particular cigarettes or roll-your-own tobacco sold in the state, the number and brand names of such cigarettes or roll-your-own tobacco, the identity of the person from whom the excise tax on such cigarettes or roll-your-own tobacco was collected, and all other available information relating to such cigarettes or roll-your-own tobacco, to be used by the attorney general to ascertain the identity of such tobacco product manufacturer and for the administration and enforcement of this article. Notwithstanding any provision of law to the contrary, the attorney general may redisclose any such information if necessary for the administration or enforcement of this article.

§ 1399-pp. Requirements. Any tobacco product manufacturer selling cigarettes to consumers within the state (whether directly or through a distributor, retailer or similar intermediary or intermediaries) after the effective date of this article shall do one of the following:

1. become a participating manufacturer (as that term is defined in

section II(jj) of the master settlement agreement) and generally perform its financial obligations under the master settlement agreement; or

2. (a) place into a qualified escrow fund by April fifteenth of the year following the year in question the following amounts (as such amounts are adjusted for inflation):

(i) 1999: \$.0094241 per unit sold after the effective date of this section;

(ii) 2000: \$.0104712 per unit sold;

(iii) for each of 2001 and 2002: \$.0136125 per unit sold;

(iv) for each of 2003 through 2006: \$.0167539 per unit sold;

(v) for each of 2007 and each year thereafter: \$.0188482 per unit sold.

(b) a tobacco product manufacturer that places funds into escrow pursuant to paragraph (a) shall receive the interest or other appreciation on such funds as earned. Such funds themselves shall be released from escrow only under the following circumstances:

(i) to pay a judgment or settlement on any released claim brought against such tobacco product manufacturer by the state or any releasing party located or residing in the state. Funds shall be released from escrow under this subparagraph: (A) in the order in which they were placed into escrow and (B) only to the extent and at the time necessary to make payments required under such judgment or settlement;

(ii) to the extent that a tobacco product manufacturer establishes that the amount it was required to place into escrow on account of units sold in the state in a particular year was greater than the master settlement agreement payments, as determined pursuant to section IX(i) of the master settlement agreement including after final determination of all adjustments, that such manufacturer would have been required to make on account of such units sold had it been a participating manufacturer, the excess shall be released from escrow and revert back to such tobacco product manufacturer; or

(iii) to the extent not released from escrow under subparagraph (i) or (ii) of this paragraph, funds shall be released from escrow and revert back to such tobacco product manufacturer twenty-five years after the date on which they were placed into escrow.

(c) Each tobacco product manufacturer that elects to place funds into

escrow pursuant to this subdivision shall annually certify to the attorney general that it is in compliance with this subdivision. The attorney general may bring a civil action on behalf of the state against any tobacco product manufacturer that fails to place into escrow the funds required under this subdivision. Any tobacco product manufacturer that fails in any year to place into escrow the funds required under this subdivision shall:

(i) be required within fifteen days to place such funds into escrow as shall bring it into compliance with this subdivision. The court, upon a finding of a violation of this subdivision, may impose a civil penalty to be paid to the general fund of the state in an amount not to exceed five percent of the amount improperly withheld from escrow per day of the violation and in a total amount not to exceed one hundred percent of the original amount improperly withheld from escrow;

(ii) in the case of a knowing violation, be required within fifteen days to place such funds into escrow as shall bring it into compliance with this subdivision. The court, upon a finding of a knowing violation of this subdivision, may impose a civil penalty to be paid to the general fund of the state in an amount not to exceed fifteen percent of the amount improperly withheld from escrow per day of the violation and in a total amount not to exceed three hundred percent of the original amount improperly withheld from escrow; and

(iii) in the case of a second knowing violation, be prohibited from selling cigarettes to consumers within the state (whether directly or through a distributor, retailer or similar intermediary) for a period not to exceed two years.

Each failure to make an annual deposit required under this subdivision shall constitute a separate violation, and the tobacco product manufacturer shall be required to pay the state's costs and attorney's fees incurred during a successful prosecution under this subdivision.

ARTICLE 13-H

REGULATION OF SHARPS

Section 1399-ss. Definitions.

1399-tt. Regulations.

1399-vv. Studies and reports.

1399-ww. Separability.

§ 1399-ss. Definitions. For the purposes of this article, unless the context clearly requires otherwise:

1. "Engineered sharps injury protection" means a physical attribute built into, or used with, a sharp that effectively reduces the risk of a sharps injury by a mechanism such as barrier creation, blunting, encapsulation, withdrawal, retraction, destruction or other mechanism.

2. "Exposure incident" means contact with blood or other potentially infectious materials that results from a sharps injury.

3. "Sharp" means any device that is or includes a needle used in the provision of health care, except for self-administration.

4. "Sharps injury" means any injury caused by a sharp, including, but not limited to, a cut, abrasion, or needlestick.

§ 1399-tt. Regulations. The commissioner shall make regulations, under this article, governing the use of sharps in health care for the purpose of: preventing sharps injuries, reducing exposure incidents, and promoting the use of safer technologies which include engineered sharps injury protections. Dentists licensed in this state, under title eight of the education law, shall be exempt from the regulations under this article. Regulations under this article shall prohibit the use of sharps that do not incorporate engineered sharps injury protections. The regulations may provide exceptions permitting the use of sharps without engineered sharps injury protections under circumstances where:

(a) appropriate engineered sharps are not available in the market;

(b) the use of sharps without engineered sharps injury protections is essential to the performance of a specific medical procedure; or

(c) based on objective product evaluation, sharps with engineered injury protections are not more effective in preventing exposure

incidents than sharps without engineered injury protections.

§ 1399-vv. Studies and reports. The commissioner shall conduct a study of exposure incidents occurring prior to and one year after the effective date of regulations made under this article to determine the effectiveness of the regulations in reducing sharps injuries and exposure incidents, the level of compliance, and the need for any modifications or revisions to the regulations. The results of the study shall be reported to the governor and the legislature no later than six months after the first twelve month period during which the regulations have been effective. The commissioner shall submit a second report no later than two years after the first report. The studies and reports under this section shall be done in consultation with the technical advisory committee established under this article.

§ 1399-ww. Separability. If any item, clause, sentence, subparagraph, subdivision, section or other part of this act, or the application thereof to any person or circumstances shall be held to be invalid, such holding shall not affect, impair or invalidate the remainder of this act, or the application of such section or part of a section held invalid, to any other person or circumstances, but shall be confined in its operation to the item, clause, sentence, subparagraph, subdivision, section or other part of this act directly involved in such holding, or to the person and circumstances therein involved.

ARTICLE 13-I

REGULATION OF SUPPLEMENTS AND OTHER PRODUCTS; DISTRIBUTION TO MINORS

Section 1399-xx. Sale or distribution of kratom products to minors.

§ 1399-xx. Sale or distribution of kratom products to minors. 1. For purposes of this section the following terms shall have the following meanings:

(a) "A device capable of deciphering any electronically readable format" or "device" shall mean any commercial device or combination of devices used at a point of sale or entry that is capable of reading the information encoded on the bar code or magnetic strip of a driver's license or non-driver identification card issued by the state commissioner of motor vehicles.

(b) "Card holder" means any person presenting a driver's license or nondriver identification card to a licensee, or to the agent or employee of such licensee under this section.

(c) "Enforcement officer" means, in a city with a population of more than one million, the department of health and mental hygiene of such city, which shall have the jurisdiction to enforce the provisions of this section in such city; and in all other counties, shall mean the department, which shall have jurisdiction to enforce the provisions of this article pursuant to rules and regulations which may be promulgated by the commissioner.

(d) "Kratom" means any part of the plant *Mitragyna speciosa* whether growing or not, and any compound, manufacture, derivative, mixture, salt or preparation of such plant or synthesized or semi-synthesized preparations of mitragynine or 7-hydroxymitragynine, their derivatives, salts, esters, and isomers.

(e) "Kratom business" means a sole proprietorship, corporation, limited liability company, partnership or other enterprise in which one of the activities is the sale, manufacture or promotion of kratom and kratom accessories, either at wholesale or retail, whether such sale, manufacture or promotion is primary or incidental, and including any agent and any employee.

(f) "Person" means a person, firm, company, corporation, partnership, sole proprietor, limited partnership or association.

(g) "Transaction scan" means the process, whether in person, online, or through any other means of communication, involving an automated bar code reader by which a licensee, or agent or employee of a licensee under this section reviews a driver's license or non-driver identification card presented as a precondition for the purchase of kratom under this section.

2. No person or kratom business shall knowingly sell or provide kratom

to any other person under twenty-one years of age.

3. (a) Any person or kratom business offering kratom for sale is prohibited from selling such kratom to individuals under twenty-one years of age, and shall post in a conspicuous place a sign upon which there shall be imprinted the following statement, "SALE OF KRATOM TO PERSONS UNDER TWENTY-ONE YEARS OF AGE IS PROHIBITED BY LAW". Such statement shall be posted in the following manner: (i) in any physical location at which such products are offered for sale, it shall be printed on a white card in red letters at least one-half inch in height and displayed as a sign, or (ii) on any website, it shall be posted in red letters in at least twelve-point font on any webpages on which such products are offered for sale, or (iii) in any mobile application, it shall be posted in red letters in at least twelve-point font on any screens on which such products are offered for sale, or (iv) in any electronic or printed materials, it shall be posted in red letters in at least twelve-point font on any pages on which such products are offered for sale.

(b) Sales of kratom shall be made only to an individual who demonstrates, through (i) a valid driver's license or non-driver's identification card issued by the commissioner of motor vehicles, the federal government, any United States territory, commonwealth or possession, the District of Columbia, a state government within the United States or a provincial government of the dominion of Canada, or (ii) a valid passport issued by the United States government or any other country, or (iii) an identification card issued by the armed forces of the United States, or (iv) any other photographic identification card issued by a governmental entity or educational institution indicating that the individual is at least twenty-one years of age. Such identification need not be required of any individual who reasonably appears to be at least twenty-five years of age, provided, however, that such appearance shall not constitute a defense in any proceeding alleging the sale of kratom to an individual under twenty-one years of age.

(c)(i) Any person or kratom business may perform a transaction scan as a precondition for such purchases.

(ii) In any instance where the information deciphered by the

transaction scan fails to match the information printed on the driver's license or non-driver identification card, or if the transaction scan indicates that the information is false or fraudulent, the attempted transaction shall be denied.

(iii) In any proceeding pursuant to subdivision five of this section, it shall be an affirmative defense that such individual had produced a driver's license or non-driver identification card apparently issued by a governmental entity, successfully completed that transaction scan, and that the kratom has been sold, delivered or given to such individual in reasonable reliance upon such identification and transaction scan. In evaluating the applicability of such affirmative defense the commissioner shall take into consideration any written policy adopted and implemented by the seller to effectuate the provisions of this section. Use of a transaction scan shall not excuse any person or kratom business from the exercise of reasonable diligence otherwise required by this article. Notwithstanding the above provisions, any such affirmative defense shall not be applicable in any civil or criminal proceeding, or in any other forum.

(d) A person or kratom business shall only use a device capable of deciphering any electronically readable format, and shall only use the information recorded and maintained through the use of such devices, for the purposes contained in paragraph (c) of this subdivision. No person or kratom business shall resell or disseminate the information recorded during such a scan to any third person. Such prohibited resale or dissemination includes but is not limited to any advertising, marketing or promotional activities. Notwithstanding the restrictions imposed by this subdivision, such records may be released pursuant to a court ordered subpoena or pursuant to any other statute that specifically authorizes the release of such information. Each violation of this paragraph shall be punishable by a civil penalty of not more than one thousand dollars.

(e) A person or kratom business may electronically or mechanically record and maintain only the information from a transaction scan necessary to effectuate this section. Such information shall be limited to the following: (i) name, (ii) date of birth, (iii) driver's license or non-driver identification number, and (iv) expiration date.

4. If the enforcement officer determines after a hearing that a violation of subdivision two, or paragraph (a) of subdivision three, of this section has occurred, a civil penalty may be imposed by the enforcement officer of no more than five hundred dollars, provided that each day that a person or kratom business fails to post signage required by paragraph (a) of subdivision three of this section that is identified by an enforcement officer shall be deemed a separate violation.

5. When the enforcement officer is the commissioner, the hearing shall be conducted pursuant to the provisions of section twelve-a of this chapter. When the enforcement officer is the department of health and mental hygiene, the hearing shall be conducted pursuant to procedures set forth in the county sanitary code, or health code of such city, or in the absence thereof, pursuant to procedures established by the county legislature or board of supervisors. Subsequent to any appeal having been finally determined, the commissioner may bring an action to recover the civil penalty in any court of competent jurisdiction. Nothing herein shall be construed to prohibit an enforcement officer from commencing a proceeding for injunctive relief to compel compliance with this section.

ARTICLE 14

REGULATION OF CAMPS FOR CHILDREN

Section 1400. Definitions.

1401. Disclosure statement.

1402. Delivery of disclosure statement to parent.

1403. Designation of secretary of state as agent for serving process.

1404. Penalties; failure to file disclosure statements.

1405. False and misleading statements; penalties; private rights of persons.

1406. Fees.

1407. Powers of the commissioner.

1408. Registry for children's non-regulated camps.

§ 1400. Definitions. As used in this article:

1. "Children's camp" or "camp" for the purpose of this article means any children's overnight camp, as defined in section thirteen hundred ninety-two of this chapter, children's summer day camp as defined in section thirteen hundred ninety-two of this chapter and children's traveling summer day camp as defined in section thirteen hundred ninety-two of this chapter which is located without the state and engages in any public solicitations, for deposits for, or contracts for the purpose of enrollments, or accepts or makes any contract of enrollment for any child residing in the state.

2. "Disclosure statement" means a written statement submitted initially and/or amended annually containing such information as the commissioner by regulation may require on forms to be prescribed by the commissioner. In developing such disclosure statements, the commissioner shall require any person, firm, corporation, or association operating such camp to disclose information including but not be limited to the following: (1) name and mailing address of such camp; (2) form of the business organization and principal owners, officers or directors; (3) name, address and state of incorporation, if applicable, of the owner of such camp; (4) financial stability statements; (5) the political subdivision in which such camp is located and the location of the property within that subdivision; (6) physical features of the camp including a map of the camp and such photographs as the commissioner may require; (7) provisions for sanitary and disposal facilities and water supply; (8) staffing ratios; (9) living and sleeping quarters; (10) food service facilities; (11) recreational quarters and facilities and occupancy limits; (12) insurance coverage including names and addresses of carriers; (13) emergency health services; (14) medical services; (15) results of inspections by local or state health and safety officials within the past eighteen months; and (16) any other information which the commissioner deems necessary.

3. "Short form disclosure statement" or "short form" means an abbreviated version of the disclosure statement containing such information from the disclosure statement as the commissioner may require.

4. "Parent" means the birth or adoptive parent, the guardian, or person otherwise authorized to make a contract of enrollment for a child.

§ 1401. Disclosure statement. No children's camp shall engage in any public solicitation for applications, for deposits for, or contracts for the purpose of enrollment, or advertise or cause to be advertised within the state, or otherwise solicit enrollments, or accept or make any contract of enrollment for any child residing in the state for any children's camp located without the state unless prior to such solicitation, advertisement, or acceptance of a contract or deposit for the purpose of enrollment there shall have been filed annually with the department of health a disclosure statement and a short form disclosure statement as defined in section fourteen hundred of this article. The commissioner may make provisions for amended disclosure statements.

§ 1402. Delivery of disclosure statement to parent. 1. A copy of the short form disclosure statement shall be mailed or delivered by the owner, director or other person soliciting the enrollment of a child residing within the state for any children's camp located without the state to the parent or guardian of such child. Such disclosure statement may accompany any literature or solicitation material mailed or delivered to such parent or guardian, but in no event, shall such disclosure statement be mailed or delivered to such parent or guardian later than the mailing or delivery of enrollment application forms and/or enrollment contract forms.

2. No advertisement, or other solicitation material, or enrollment application form or enrollment contract or short form, shall contain any representation that is inconsistent with any material representation or statement made in the disclosure statement or equivalent statement as last renewed or amended. Any such representation shall be deemed to be a deceptive practice pursuant to section three hundred forty-nine of the general business law.

§ 1403. Designation of secretary of state as agent for serving process. Every children's camp, operator and owner of such camp shall be deemed to have designated the secretary of state of the state of New York for service of process. Service shall be made by delivering the summons to the secretary of state or his designated representative at an office of the secretary of state within the state.

§ 1404. Penalties; failure to file disclosure statements. The attorney general may seek an injunction against any children's camp, camp owner, operator, director or officer enjoining the solicitation of enrollments for children in such camps who reside within the state of New York for failure to file a disclosure statement or repeated failure to comply with the provisions of section fourteen hundred two of this article.

§ 1405. False and misleading statements; penalties; private rights of persons. 1. Any solicitation made for the purpose of securing applications or deposits for contracts for the enrollment of a child residing in New York in a children's camp located without the state of New York shall be deemed to be advertising which if false shall be subject to the provisions of article twenty-two-A of the general business law; provided, however, that nothing contained in section three hundred fifty-e of such law shall prevent a party from seeking relief pursuant to this section.

2. Any person who has entered into a contract and enrolls a child in a children's camp located without the state of New York where a solicitation has been made by the use of a material false statement or in the failure to reveal material facts shall have the right to seek rescission of such contract and recover any moneys paid whether or not any performance has been rendered under any such contract; provided, however, that no action may be maintained if the attorney general has already commenced proceedings on behalf of such person for such relief.

3. Such relief shall be in addition to any other relief which may be sought by a party either in law or equity.

§ 1406. Fees. Upon filing the initial disclosure statement with the department, the fee shall be fifty dollars, except that no fee shall be charged in the case of camps operated by a person, firm, corporation or association for charitable, philanthropic, or religious purposes.

No filing fee shall be required for the filing of any amended disclosure statement or for the filing of subsequent disclosure statements pursuant to the annual filing requirements of section fourteen hundred one of this article.

§ 1407. Powers of the commissioner. In addition to the powers of the commissioner or the public health council to effectuate the provisions of this article, the commissioner shall have the power to:

1. Cooperate with state and federal officials to investigate the statements made in any statements or solicitation made or filed, and to promote camp safety standards.

2. Cooperate with the attorney general in the prosecution of actions under this article.

3. Maintain a file open for public inspection and answer any inquiries concerning any camp regulated by this article.

4. Establish forms and procedures to secure compliance with this article.

5. Publish a list of states which have adopted camp safety standards and a program of compliance comparable to those of New York.

§ 1408. Registry for children's non-regulated camps. The department shall establish and maintain an electronic database containing information collected pursuant to this section and section three hundred ninety-eight-f of the general business law for the purposes of providing education and outreach to children's non-regulated camps. Such database shall include the location and contact information of the children's non-regulated camp and how many children attended such camp in the prior calendar year. For establishment and maintenance of the registry, the annual fee to register shall be two hundred fifty dollars, except that no fee shall be charged in the case of a children's non-regulated camp operated by a person, firm, corporation or association for charitable, philanthropic or religious purposes.

ARTICLE 15

INSECT CONTROL

Title I. Municipal insect control (§§ 1500-1503).

II. County insect control (§§ 1520-1531).

TITLE I

MUNICIPAL INSECT CONTROL

Section 1500. Municipal insect control.

1501. Municipal mosquito control; costs to owner and municipality.

1502. Municipal mosquito control; costs; assessment on property benefited.

1503. City of New York; exceptions.

§ 1500. Municipal insect control. 1. The board of health of a municipality may take all necessary and proper steps for the control of mosquitoes, flies, black flies, punkies, ticks, and other insects detrimental to health within its jurisdiction which may require community action for the destruction or control of such insects.

2. Any accumulation of water in which mosquitoes are breeding, or are

likely to breed, is hereby declared to be a nuisance.

§ 1501. Municipal mosquito control; costs to owner and municipality.

1. Whenever the board of health of a municipality shall determine that any accumulation of water wherein mosquito larvae breed, constitutes a nuisance or a danger or injury to life or health, the owner or owners of the premises on which the breeding place is located shall bear the expense of its suppression or removal, or so much thereof as the local board of health shall determine to be equitable as hereinafter provided.

2. If the local board of health of a municipality shall determine that, owing to the natural conditions which are favorable to the breeding of mosquitoes and owing to the benefit to be secured to the public by the suppression of such conditions, a part of the expense of such suppression or removal shall be borne by the owner of such premises and a part thereof by the municipality wherein the premises are situated, such owner or occupant may proceed to suppress or remove such breeding place and shall be reimbursed by the municipality for such proportion of the reasonable expense of such suppression or removal as the board of health shall have determined should be borne by the municipality.

3. For the purpose of ascertaining the actual cost of such suppression or removal, the board of health of the municipality or its duly authorized agents may at all times have access to the premises whereon the work is being carried on; and the owner of the premises shall furnish to such board of health such information as the board of health may deem necessary or desirable for the purpose of ascertaining such actual cost.

4. If in any such case the owner of the premises shall not proceed, within a reasonable time, to suppress or remove such breeding place, the board of health of the municipality may proceed to suppress and remove the same, and for such proportion of the expense of such suppression and removal as the board of health shall have determined to be equitable, an action may be maintained against such owner, and the same shall become a

first lien upon the premises.

§ 1502. Municipal mosquito control; costs; assessment on property benefited. 1. If a local board of health of a municipality shall (a) determine, in its discretion, that, owing to the natural conditions which are favorable to the breeding of mosquitoes and owing to the benefits to be secured to the public by the suppression of such conditions, some part or all of the expenses of suppressing or removing a breeding place for mosquitoes should, in equity be borne by the owners of the property which will be benefited by such suppression; or, (b) deem it necessary, in order to suppress or remove any such breeding place, that any swamp, bog, meadow or other low or wet lands within the municipality over which said board has jurisdiction, shall be drained and that it is necessary, in order thereto, that a ditch or ditches or other channel for the free passage of water should be opened through lands belonging to a person or persons other than the owners of the lands whereon such breeding place shall be located, such local board of health shall make application to the state water power and control commission to construct and complete such channels and ditches for the free passage of water, or to do such other act or thing as such local board of health shall have determined to be necessary upon such lands in order to suppress or remove such breeding place, and to apportion, assess and collect the amount of the cost thereof from the owners of the lands which will be benefited by the suppression and removal of such breeding place.

2. The state water power and control commission shall proceed, construct and complete such channel and ditches, or do such other act or thing as may be necessary, and apportion, assess and collect the cost of the same from the owners of the lands benefited by such suppression or removal, in the manner provided for the drainage of any swamp, bog, meadow or other low or wet land and the apportionment, assessment and collection of the cost of such drainage, by the conservation law.

3. In any case where, under the provisions of this article the state water power and control commission is to determine what property is

benefited and to what extent said property is benefited by the suppression or removal of any such breeding place, such commission shall not be restricted in their determination to property immediately adjoining the premises whereon such breeding place is located; and, in apportioning the benefit to any property, such commission may consider any circumstances by reason whereon any property will be benefited by the suppression and removal of such breeding place.

4. This article shall be construed with the provisions of the conservation law. In case of conflict the provisions of this article shall be substituted for the provisions of the conservation law, but such parts of the provisions of the conservation law as are not necessarily superseded shall apply.

§ 1503. City of New York; exceptions. The provision of sections one thousand five hundred to one thousand five hundred two of this chapter, inclusive, shall not apply to the city of New York.

TITLE II

COUNTY INSECT CONTROL

Section 1520. County mosquito control commission; appointment; membership.

1521. County mosquito control commission; terms of office; oath.

1522. County mosquito control commission; compensation; expenses; officers.

1523. County mosquito control commission; legal entity.

1524. County mosquito control commission; employees; duties and compensation.

1525. County mosquito control commission; powers and duties; entry on lands.

1526. County mosquito control commission; owners' claims, damages and payments.

1527. County mosquito control commission; obstructions; interferences; violations.

1528. County mosquito control commission; estimate and approval

of annual requirements; power and duty of commissioner.
1529. County mosquito control commission; construction of law.
1530. County mosquito control commission; annual report.
1531. County mosquito control commission; regulations by board
of supervisors as to purchases, contracts and
expenditures.

§ 1520. County mosquito control commission; appointment; membership.

1. Within ten days after the presentation of a petition for the establishment of a county mosquito control commission, signed and acknowledged by two hundred residents of the county in the same manner as are deeds entitled to be recorded, the board of supervisors of a county, adjacent to a county in the state of New York which contains not more than three towns and which is adjacent to a city having a population of over three million, shall appoint a county mosquito control commission as hereinafter provided.

2. Each county mosquito control commission shall consist of

(a) four resident taxpayers of the county, to be appointed by the board of supervisors of the county duly convened by the chairman thereof for the purpose of making the said appointments; and,

(b) one member, to be appointed by the commissioner, who shall be a resident of the county for which such commission is appointed, and who shall have equal powers, privileges and duties with the other members of such commission, and who shall, in addition thereto represent the commissioner in all matters as the commissioner may direct; and,

(c) the chairman of the board of supervisors of the said county, who shall be a member ex-officio of said commission and who shall have equal powers, privileges and duties with the other members of such commission.

3. Each county mosquito control commission shall be known as "The (here shall be inserted the name of the county in and for which the commissioners are to be appointed) County Mosquito Control Commission."

4. The chairman of the board of supervisors of each county for which a county mosquito control commission is to be appointed pursuant to the

provisions of this section shall convene the said board at the most suitable and convenient place, or otherwise arrange for concerted action for the purpose of acting as a board for the appointment of the four resident taxpayers in such county, as herein provided. The members of such appointing board shall serve without pay, except that the necessary expenses of each member for actual attendance at any meeting of such board shall be allowed and paid.

§ 1521. County mosquito control commission; terms of office; oath. 1. The terms of office of all members of each county mosquito control commission, appointed after the expiration of the first appointment, shall be four years.

2. The members first appointed to the county mosquito control commission by the county board of supervisors in any district under the provisions of this article shall hold office respectively for the term of one, two, three and four years.

3. The term of the member appointed by the commissioner shall be four years.

4. Vacancies in such commission occurring by resignation or otherwise, shall be filled by the county board of supervisors in the manner provided in section one thousand five hundred twenty of this chapter, except any vacancy caused by resignation or otherwise of the member appointed by the commissioner shall be filled by the commissioner in the manner provided in section one thousand five hundred twenty of this chapter, and the persons so appointed to fill such vacancies shall be appointed for the unexpired term only.

5. Before entering upon the duties of his office each commission member shall take and subscribe an oath or affirmation before the clerk of the county in which is situated the district in and for which he is appointed to perform faithfully and impartially the duties of his office, which oath or affirmation shall be filed with such clerk.

§ 1522. County mosquito control commission; compensation; expenses; officers. 1. All members of a county mosquito control commission shall serve without compensation, except that the necessary expenses of each member for actual attendance at meetings of such commission shall be allowed and paid.

2. Such commission shall annually choose from among its members a president and a treasurer, who shall serve without pay, and they shall respectively perform the duties usually performed by persons holding such offices.

3. Such commission may appoint a secretary, whose compensation shall be fixed by the commission, by and with the approval of the board of supervisors.

4. No person employed by such commission shall be a member thereof.

§ 1523. County mosquito control commission; legal entity. From and after the appointment, qualification and organization of its members the county mosquito control commission shall become and be a body corporate and politic, under the name given in such petition, and by such name and style may sue, be sued, execute contracts, have a corporate seal, and shall have all powers herein conferred upon it within the county wherein it is appointed.

§ 1524. County mosquito control commission; employees; duties and compensation. 1. Each county mosquito control commission, may, with the approval of the board of supervisors of the county, appoint and employ such clerks, assistants, inspectors and day laborers as may be necessary to carry out the provisions of this article.

2. The compensation of such employees shall be fixed by the board of supervisors of the county.

3. The commission shall prescribe the duties and hours of employment of clerks and assistants and make all rules and regulations respecting the same and furnish them with necessary and proper facilities.

§ 1525. County mosquito control commission; powers and duties; entry on lands. 1. Each county mosquito control commission shall use every means feasible and practicable to suppress mosquitoes, ticks, flies and other hominoxious arthropods of every kind requiring community action for their control, and which may be found within the county for which such commission is appointed.

2. Such commission shall have power and authority to enter without hinderance upon any or all lands within the county for the purpose of draining or treating the same and to perform all other acts which in its opinion and judgment may be necessary and proper for the elimination of mosquitoes or other hominoxious arthropods which may require community action for their control, and which may be found within such counties, but such measures shall not be injurious to wild life.

3. Before entering upon any such lands for such purposes as outlined under this section, the commission shall publish each year at least once during the year, immediately following the approval of the board of supervisors of its plans for work during the ensuing year as provided in this article, in at least one newspaper in every town of the county where work is to be performed and in which such a paper is published, a general description of the land where the work is to be performed, and in case of a town where work is to be performed by the commission and in which no newspaper is published, individual notices shall be first sent to every owner in such town upon whose land the commission proposes to enter for said purposes if the name of such owner be known; if unknown such notice shall be posted in not less than five conspicuous places in such town.

§ 1526. County mosquito control commission; owners' claims, damages and payments. 1. Any person objecting to or who is aggrieved or who

claims damages due to the execution of the work of the commission, shall file a protest with the commission setting forth his grievance or claim. The commission shall thereupon and within thirty days after the filing of such protest or claim, set a day for a public hearing thereof. In all such cases the decision of the commission as to the necessity of such work shall be final.

2. Any damage claimed by any party on account of entry work of the commission upon his property shall be determined by an action in court to be tried in the county; and the amount of any damage that may be awarded such party shall be included in the next succeeding estimate of annual requirements of the commission and shall be included in the annual tax levy as provided for in this article, and be paid by the commission.

§ 1527. County mosquito control commission; obstructions; interferences; violations. Any person who obstructs or interferes with the entry of the county mosquito control commission or its employees upon land, or who obstructs or interferes with, molests, or damages any of the work performed by the said commission shall be guilty of a misdemeanor.

§ 1528. County mosquito control commission; estimate and approval of annual requirements; power and duty of commissioner. 1. Each county mosquito control commission shall, on or before the first day of October in each year, file with the commissioner and with the board of supervisors of its county, a detailed estimate of the moneys required for the ensuing year and a plan of the work to be done and the methods to be employed, together with a general description of such lands.

2. The board of supervisors shall have power to approve, modify or alter such estimates, plans and methods, and it shall be the duty of the board of supervisors in the county in which a commission is appointed at its annual or other meeting held in the month of October of each year and on receipt of the said report from the county commission, to cause

to be included in the annual budget of such county for the succeeding year the amount of money included in such estimate of moneys, as approved, modified or altered by it for the use and purposes of the mosquito control commission, in its said county.

3. Provided, however, that any district which at the time when this section, as hereby amended, take effect, shall have been legally established under chapter two hundred forty-six of the laws of nineteen hundred sixteen, as amended by chapter thirteen of the laws of nineteen hundred twenty-six, shall be exempted from the provisions of this chapter and from taxation under it.

4. The county treasurer of such county shall pay from time to time to the mosquito control commission, on the requisition of such commission, duly signed and approved by the president and secretary thereof such sums as may be needed within the appropriation.

§ 1529. County mosquito control commission; construction of law.

Nothing in this article shall be construed to alter, amend, modify or repeal any of the provisions of article thirteen of this chapter, or any of the provisions of the conservation law except to the extent that the provisions of this article are inconsistent therewith.

§ 1530. County mosquito control commission; annual report. It shall be the duty of each county mosquito control commission, on or before the first day of September in each year, to submit to the commissioner and to the board of supervisors in the county comprised within a mosquito control district, a report setting forth the amount of moneys expended during the previous year showing each item of expenditure, the methods employed, the work accomplished and any other information which in its judgment may seem pertinent, or which the board of supervisors may demand.

§ 1531. County mosquito control commission; regulations by board of

supervisors as to purchases, contracts and expenditures. Such mosquito extermination commission shall not pay any accounts or claims, make any contracts or expenditures or purchase any materials, supplies or equipment except after compliance with such regulations as may be adopted by the board of supervisors with respect to audit, advertising or otherwise.

ARTICLE 16

PESTICIDE CONTROL BOARD

Section 1601. Legislative findings and purpose.

1602. Definition.

1603. Creation of pesticide control board.

1604. Organization of pesticide control board.

1605. Meetings.

1606. Functions, powers and duties.

1607. Cooperation with other departments.

1608. Loans and grants.

1609. Conflicting laws.

§ 1601. Legislative findings and purpose. Pesticides have proved valuable in the control of harmful insects, weeds, fungi and other forms of plant and animal life. When used indiscriminately, however, they may injure crops, whether or not directly treated, contaminate the air, soil and water, thus upsetting the desired ecological balance, and harm humans, fish and wildlife by direct poisoning or by gradual accumulation of pesticide residues in tissues. It is the purpose of this article better to protect the public health and welfare and to minimize the potential pesticide hazard to man and his environment, consistent with the public interest in the benefits to be derived from their safe and scientific application, by establishing a pesticide control board to formulate over-all policy in the state's regulatory programs and coordinate state efforts to control the use of pesticides.

§ 1602. Definition. When used in this article, the term "pesticide"

means any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any insect, rodent, fungi, weeds, or other forms of plant or animal life or viruses, except viruses on or in living man or animals.

§ 1603. Creation of pesticide control board. 1. There is hereby created within the department of health a pesticide control board. Such board shall have seven voting members, who shall be the commissioners of agriculture and markets, commerce, conservation, education and health, the industrial commissioner and the commissioner of transportation. In addition, as advisory members, there shall be the dean of the New York state college of agriculture at Cornell university, the dean of the New York state college of forestry at Syracuse university, the dean of the New York state veterinary college, the director of the New York state agricultural experiment station at Geneva, and, to be appointed by the governor, six members at least one of whom shall be the dean of a state university college of medicine, one an ecologist, one a representative of the pesticide manufacturing industry, one a representative of custom applicators of pesticides and one a representative of organized conservationists.

2. Advisory members appointed by the governor shall serve for terms of three years, such terms to commence on July first and to expire on June thirtieth; provided, however, that of the advisory members first appointed, two shall be appointed for a one year term expiring on June thirtieth, nineteen hundred sixty-five, and two shall be appointed for a two year term expiring on June thirtieth, nineteen hundred sixty-six. Each such advisory member shall hold office until his successor shall have been appointed and qualified.

3. Each voting member and each ex-officio advisory member of such board may, by official order filed in the office of the board, designate a deputy or other representative in his department to perform his duties under this article, except as provided in subdivision one of section sixteen hundred six of this article.

4. The members of the board or their respective designees shall receive no additional compensation for their services as members of the board, but shall be allowed their actual and necessary expenses incurred in the performance of their duties under this article.

§ 1604. Organization of pesticide control board. 1. The chairman of the board shall be the commissioner of health.

2. The board shall appoint an executive secretary who shall act as the administrative agent of the board, keep a record of all meetings of the board and perform such other functions and duties as the board may direct.

3. The board may make and adopt by-laws to regulate its proceedings.

§ 1605. Meetings. 1. The board shall meet at least once every three months. Special meetings shall be called by the chairman on his own initiative or upon the written request of two voting members. Ten days' written notice of the time, place and purpose of each meeting shall be given to each member of the board.

2. Four voting members of the board shall constitute a quorum to transact the business of the board. A majority vote shall be necessary for any action taken by the board except as provided in subdivision one of section sixteen hundred six of this article.

§ 1606. Functions, powers and duties. 1. The board (a) may prepare and recommend rules and regulations, or amendment or repeal thereof, for controlling the use, transportation, storage and disposal of pesticides consistent with the declared purpose of this article and (b) shall designate the department or departments by whom such rules or regulations shall be promulgated, administered and enforced in accordance with the functions, powers and duties of such department or departments prescribed by law. Such rules and regulations shall not be

effective until filed in the office of the department of state. Any such action shall be taken only at a meeting upon the affirmative vote in person or by mail of at least five voting members of the board, exclusive of any deputy or other representative, after a meeting with the advisory members of the board and consideration of available scientific evidence.

2. To further the declared purpose of this article, the board shall have the following functions, powers and duties:

(a) To formulate over-all policy in the state's programs for regulating the use, transportation, storage and disposal of pesticides.

(b) To coordinate the activities and programs of member departments concerned with the use and effects of pesticides.

(c) To cause such studies, research and investigations to be made as it may deem advisable and necessary.

(d) To hold public hearings.

(e) To collect and compile information and data relating to the use and effects of pesticides.

(f) To advise and assist state departments and agencies upon request.

(g) To inform the public concerning the state's efforts to regulate the use of pesticides and to provide information concerning pesticides.

(i) To recommend that the use of specific pesticides be prohibited under specified conditions.

(j) To consult and cooperate with the appropriate agencies of the federal government or of other states to more effectively carry out its functions, powers and duties hereunder.

(k) To do all things necessary or reasonable to carry out the foregoing functions, powers and duties.

§ 1607. Cooperation with other departments. The board may request from any department, division, board, bureau, commission or other agency of the state, and the same are authorized to provide, without additional compensation, such assistance, services and data as may be necessary to carry out the purpose of this article. The board may, within appropriations available therefor, employ such other personnel as may be necessary to carry out its responsibilities under this article.

§ 1608. Loans and grants. The board shall have the power to accept and administer loans and grants from the federal government and other sources, public or private, for carrying out its functions under this article.

§ 1609. Conflicting laws. Nothing in this article shall be deemed to derogate or detract from the functions, powers and duties of any department or agency of the state prescribed by law.

ARTICLE 17

INGREDIENT DISCLOSURES FOR VAPOR PRODUCTS AND E-CIGARETTES

Section 1700. Definitions.

1701. Disclosure.

1702. Penalties.

§ 1700. Definitions. As used in this article, the following terms shall have the following meanings:

1. "Vapor products" shall mean any vapor product, as defined by section thirteen hundred ninety-nine-aa of this chapter, intended or reasonably expected to be used with or for the consumption of nicotine.

2. "Electronic cigarette" or "e-cigarette" shall have the same meaning as defined by section thirteen hundred ninety-nine-aa of this chapter.

3. "Ingredient" shall mean all of the following:

(a) any intentional additive present in any quantity in a vapor product;

(b) a byproduct or contaminant, present in a vapor product in any quantity equal to or greater than one-half of one percent of the content of such product by weight, or other amount determined by the

commissioner;

(c) a byproduct present in a vapor product in any quantity less than one-half of one percent of the content of such product by weight, provided such element or compound has been published as a chemical of concern on one or more lists identified by the commissioner; and

(d) a contaminant present in a vapor product in a quantity determined by the commissioner and less than one-half of one percent of the content of such product by weight, provided such element or compound has been published as a chemical of concern on one or more lists identified by the commissioner.

4. "Intentionally added ingredient" shall mean any element or compound that a manufacturer has intentionally added to a vapor product at any point in such product's supply chain, or at any point in the supply chain of any raw material or ingredient used to manufacture such product.

5. "Byproduct" shall mean any element or compound in the finished vapor product, or in the vapor produced during consumption of a vapor product, which: (a) was created or formed during the manufacturing process as an intentional or unintentional consequence of such manufacturing process at any point in such product's supply chain, or at any point in the supply chain of any raw material or ingredient used to manufacture such product; or (b) is created or formed as an intentional or unintentional consequence of the use of an e-cigarette or consumption of a vapor product. "Byproduct" shall include, but is not limited to, an unreacted raw material, a breakdown product of an intentionally added ingredient, a breakdown product of any component part of an e-cigarette, or a derivative of the manufacturing process.

6. "Contaminant" shall mean any element or compound made present in a vapor product as an unintentional consequence of manufacturing. Contaminants include, but are not limited to, elements or compounds present in the environment which were introduced into a product, a raw material, or a product ingredient as a result of the use of an environmental medium, such as naturally occurring water, or other materials used in the manufacturing process at any point in a product's

supply chain, or at any point in the supply chain of any raw material or ingredient used to manufacture such product.

7. "Manufacturer" shall mean any person, firm, association, partnership, limited liability company, or corporation which produces, prepares, formulates, or compounds a vapor product or e-cigarette, or whose brand name is affixed to such product. In the case of a vapor product or e-cigarette imported into the United States, "manufacturer" shall mean the importer or first domestic distributor of such product if the entity that manufactures such product or whose brand name is affixed to such product does not have a presence in the United States.

§ 1701. Disclosure. 1. Manufacturers of vapor products or e-cigarettes distributed, sold, or offered for sale in this state, whether at retail or wholesale, shall furnish to the commissioner for public record and post on such manufacturer's website, in a manner prescribed by the commissioner that is readily accessible to the public and machine readable, information regarding such products pursuant to rules or regulations which shall be promulgated by the commissioner.

(a) For each vapor product, the information posted pursuant to this subdivision shall include, but shall not be limited to:

(i) a list naming each ingredient of such vapor product in descending order of predominance by weight in such product, except that ingredients present at a weight below one percent may be listed following other ingredients without respect to the order of predominance by weight;

(ii) the nature and extent of investigations and research performed by or for the manufacturer concerning the effects on human health of such product or its ingredients;

(iii) where applicable, a statement disclosing that an ingredient of such product is published as a chemical of concern on one or more lists identified by the commissioner; and

(iv) for each ingredient published as a chemical of concern on one or more lists identified by the commissioner, an evaluation of the availability of potential alternatives and potential hazards posed by such alternatives.

(b) For each e-cigarette the information posted pursuant to this

subdivision shall include, but shall not be limited to:

(i) a list naming any toxic metal, including but not limited to lead, manganese, nickel, chromium, or zinc, as a constituent of any heating element included in such e-cigarette;

(ii) a list naming each byproduct that may be introduced into vapor produced during the normal use of such e-cigarette;

(iii) the nature and extent of investigations and research performed by or for the manufacturer concerning the effects on human health of such product or such ingredients;

(iv) where applicable, a statement disclosing that an ingredient is published as a chemical of concern on one or more lists identified by the commissioner; and

(v) for each constituent of any heating element identified as a toxic metal and ingredient published as a chemical of concern on one or more lists identified by the commissioner, an evaluation of the availability of potential alternatives and potential hazards posed by such alternatives.

2. Manufacturers shall furnish the information required to be posted pursuant to subdivision one of this section on or before January first, two thousand twenty-one, and every two years thereafter. In addition, such manufacturers shall furnish such information prior to the sale of any new vapor product or e-cigarette, when the formulation of a currently disclosed product is changed such that the predominance of the ingredients in such product is changed, when any list of chemicals of concern identified by the commissioner pursuant to this article is changed to include an ingredient present in a vapor product or e-cigarette subject to this article, or at such other times as may be required by the commissioner.

3. The information required to be posted pursuant to subdivision one of this section shall be made available to the public by the commissioner and manufacturers, in accordance with this section, with the exception of those portions which a manufacturer determines, subject to the approval of the commissioner, are related to a proprietary process the disclosure of which would compromise such manufacturer's competitive position. The commissioner shall not approve any exceptions

under this subdivision with respect to any ingredient published as a chemical of concern on one or more lists identified by the commissioner.

§ 1702. Penalties. Notwithstanding any other provision of this chapter, any manufacturer who violates any of the provisions of, or who fails to perform any duty imposed by, this article or any rule or regulation promulgated thereunder, shall be liable, in the case of a first violation, for a civil penalty not to exceed five thousand dollars. In the case of a second or any subsequent violation, the liability shall be for a civil penalty not to exceed ten thousand dollars for each such violation.

ARTICLE 20

REPORTING OF ALZHEIMER'S DISEASE

- Section 2000. Definition.
- 2001. Physicians and facilities; duty to report.
 - 2002. Contents of report.
 - 2003. Duties of department.
 - 2004. Duties of commissioner.
 - 2004-a. Coordinating council for services related to Alzheimer's disease and other dementia.

§ 2000. Definition. As used in this article, "facility" shall mean any governmental or private agency, department, institution, clinic, laboratory, hospital, nursing care facility, health maintenance organization, association or other similar entity that provides medical care.

§ 2001. Physicians and facilities; duty to report. An attending physician or a person representing or employed by a facility as defined by the commissioner shall report the existence of Alzheimer's disease to the department when the physician or other person diagnoses or confirms the presence of that illness.

§ 2002. Contents of report. The report as set forth in section two thousand one of this article shall be designated an Alzheimer's disease report and shall contain information which the commissioner establishes as necessary to identify, locate and investigate the occurrence, frequency, incidence, cause, effect and prognosis of Alzheimer's disease, and other relevant data and findings with respect thereto.

§ 2003. Duties of department. 1. Alzheimer's disease reports and data shall be maintained by the department in a manner suitable for research purposes, and shall be made available to persons as set forth in subdivision two of this section.

2. Notwithstanding any inconsistent provision of law, all information collected pursuant to this article shall be confidential insofar as the identity of the individual patient is concerned and shall be used solely for the purposes as provided in this article. Access to the information shall be limited to the authorized employees of the department and persons with a valid scientific interest and qualifications, as defined by the commissioner, who are engaged in demographic, epidemiological or other similar studies related to health, and who agree, in writing, to maintain confidentiality as established by the commissioner.

3. The department shall maintain an accurate record of all persons who are given access to the information contained in the Alzheimer's disease reports. The record shall include the name of the person authorizing access, the name, title and organizational affiliation of persons given access, dates of access, and the specific purpose for which information is to be used. The record of access shall be open to public inspection during normal operating hours of the department.

4. Any person who, in violation of a written agreement to maintain confidentiality, discloses any information provided pursuant to this section, or who uses information provided pursuant to this section in a manner other than that prescribed by the commissioner, may be denied

further access to any confidential information maintained by the department.

§ 2004. Duties of commissioner. The commissioner shall promulgate rules and regulations to implement the provisions of this article, including but not limited to:

1. defining a person representing or employed by a facility and defining a person with a valid scientific interest;
2. establishing the form, content and manner of filing the Alzheimer's disease report;
3. prescribing the permissible uses for the information made available pursuant to this article; and
4. establishing procedures to maintain the confidentiality of information provided to persons pursuant to this article.

§ 2004-a. Coordinating council for services related to Alzheimer's disease and other dementia. 1. There is hereby created in the department of health a coordinating council for services related to Alzheimer's disease and other dementia, to facilitate interagency planning and policy, review specific agency initiatives for their impact on services related to the care of persons with dementia and their families, and provide a continuing forum for concerns and discussion related to the formulation of a comprehensive state policy relating to Alzheimer's disease and services for persons with incurable dementia.

2. The council shall be comprised of twenty-one members as follows: the commissioner of health, the director of the state office for the aging, the commissioner of children and family services, the commissioner of education, the commissioner of mental health and the commissioner of the office for people with developmental disabilities who shall serve ex officio and who may designate representatives to act

on their behalf. The governor shall appoint seven other members with expertise in Alzheimer's disease, other dementia or elder care issues, at least two of whom shall represent not-for-profit corporations whose primary purpose is to provide access to experts in the care of persons with Alzheimer's disease and related dementia, that are part of a statewide network of not-for-profit corporations established specifically to respond at the local and regional level to the needs of this population and that provide family intervention services related to Alzheimer's disease in order to postpone or prevent nursing home placements of individuals with Alzheimer's disease or other dementia. Eight members shall be appointed by the governor on the recommendation of the legislative leaders as follows: the temporary president of the senate and the speaker of the assembly shall each recommend three members to the council. One of the three members recommended by the temporary president and one of the three members recommended by the speaker shall be a clinical or research expert in the field of dementia and one of the three members appointed by each shall be a family member or caregiver of a person suffering from Alzheimer's disease or other dementia. One member shall be appointed on the recommendation of the minority leader of the senate and one member shall be appointed on the recommendation of the minority leader of the assembly. The commissioner of health and the director of the office for the aging shall serve, ex officio, as co-chairs of the council. Administrative duties shall be the responsibility of the department. The members of the council shall receive no compensation for their services.

3. Within one year after the effective date of this section, the council shall establish community forums to gain input from consumers, providers, key researchers in the field and other interested parties to provide input and direction on developing a New York state plan for the identification and treatment of Alzheimer's disease in the community. A community forum shall be established in each of the following regions of the state: Long Island, New York city, Northern Metropolitan New York, Northeastern New York, Utica area, Central New York, Rochester area and Western New York. Such state plan shall include but not be limited to identifying best practices in working with persons with Alzheimer's disease, best interventions for caregivers to help reduce caregiver

burnout, best approaches to training doctors, nurses and other medical and non-medical professionals and paraprofessionals to identify Alzheimer's disease, a community assessment of strengths and gaps in community support services, ways in which to coordinate services among various systems, different financing approaches to pay for community support services and any other recommendations.

4. (a) The council shall meet quarterly or more frequently if its business shall require. The community forums in the first year of implementation count as a formal meeting of the council. The members of the council shall receive no compensation but shall be reimbursed for travel and other expenses actually and necessarily incurred in the performance of their duties. The council shall provide reports to the governor and the legislature on or before June thirtieth, two thousand nine and by June thirtieth of every other year thereafter. Such reports shall include recommendations for state policy relating to dementia and a review of services initiated and coordinated among public and private agencies to meet the needs of persons with Alzheimer's disease and other dementia and their families.

(b) The council shall additionally review and report upon the use of clinically recognized, scientifically based, cognitive impairment screening tools used to identify signs of and individuals at-risk for cognitive impairment, including Alzheimer's disease or other dementias, in all settings of the health continuum. Such tools shall include but not be limited to tools approved and/or recognized by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO), Agency for Healthcare Research and Quality (AHRQ), the Centers for Medicare and Medicaid Services (CMS), and others as determined by the council which are used by health care providers, across all settings of the health continuum. The council shall also review and report on best practices of providers concerning early identification of at-risk individuals and referral practices, the range of interventions and services available for the cognitively impaired, and shall report its assessment of the need and presence of such tools and practices in each sector of the health continuum. The council shall further include in its reports any findings concerning potential gaps of identification and intervention for the cognitively impaired, the need for public education about

cognitive impairment, and recommendations to address that education need.

5. The department shall serve as the focal point to develop comprehensive coordinated responses of the various state agencies with regard to Alzheimer's disease and related dementia and thus help to assure timely and appropriate responses to issues and problems. The department shall collaborate with the state office for the aging on issues related to nonmedical support services for individuals with Alzheimer's disease and other dementia and their caregivers. The department shall collaborate with other appropriate state agencies to establish a simplified coordinated assessment procedure for obtaining needed services for persons with Alzheimer's disease and other dementia.

6. The department, in consultation with the council, shall utilize data and information compiled and maintained pursuant to this article to coordinate state funded research efforts to ensure the most efficient use of funds available for this purpose.

ARTICLE 20-A

ALZHEIMER'S COMMUNITY ASSISTANCE PROGRAM

Section 2005. Legislative intent.

2006. Grants.

2007. Services to be provided.

2008. Apportionment.

2009. Availability of funds.

§ 2005. Legislative intent. 1. The legislature finds that Alzheimer's disease and related dementing illnesses which destroy certain vital cells in the brain, currently affect more than four hundred thousand New Yorkers. Although these diseases are not limited to the elderly, medical researchers have projected that Alzheimer's disease and related diseases of the brain will show a significant increase in numbers to coincide with the growth in the population of the elderly. Because of the inability of persons with Alzheimer's and related dementias to live in

safety or undertake even the simplest tasks of daily living without cueing, assistance and/or supervision, this population requires a high level of care throughout the moderate and advanced stages of the disease. The reconfiguration of the health care delivery system currently underway necessitates special recognition of this patient population which often, while sometimes otherwise physically healthy, demands this high level of care because of their cognitive impairment and other dementia symptoms.

2. In response to the needs of New York state's Alzheimer's community, and stemming from within this community, a statewide network of not-for-profit corporations have been established, dedicated specifically to responding at the local level to the needs of this community. This network provides important support and educational services to caregivers of persons with Alzheimer's disease. Eighty percent of all Alzheimer's care is provided at home and/or in the community, and is delivered by family caregivers. By supporting family caregivers and informal supports at home and in the community, costly institutionalization can be significantly delayed or avoided altogether. This results in a more effective utilization of resources. It is the intent of the legislature to encourage and foster such home and community-based assistance through this existing network of not-for-profit corporations. It is further important in this time of changing resources and resource allocation, to encourage this network to work closely with the department to ensure that the Alzheimer's community is appropriately educated and included with respect to all available health care options.

§ 2006. Grants. Subject to amounts expressly appropriated therefor, the commissioner is authorized to award grants to applicants approved by the department for the Alzheimer's Community Assistance Program (ACAP) which is hereby established within the department. Applicants shall be limited to not-for-profit corporations which have as their primary purpose providing family intervention services related to Alzheimer's disease, which are designed to postpone or prevent nursing home placements on a statewide basis.

§ 2007. Services to be provided. The Alzheimer's Community Assistance Program shall undertake the following services:

1. To establish and operate self-help support groups for family members of persons with Alzheimer's disease residing at home.
2. To provide training programs and support services for volunteers, family members, and/or home health care workers enabling them to deliver proper care for persons with Alzheimer's who reside at home and in the community.
3. To assist in the development of day care programs and other suitable respite services which will provide congregate care for persons with Alzheimer's.
4. To recruit, train and supervise volunteers who will provide in and out-of-home respite care services to support family caregivers.
5. To work with the department to distribute educational materials regarding community resources and care options, including managed care as it becomes available for persons with Alzheimer's disease.
6. To undertake outreach to families with a member suffering from Alzheimer's to participate in counseling, education and support.
7. To work with the department of health to explore delivery mechanisms for family intervention services to delay institutionalization.

§ 2008. Apportionment. Grants awarded pursuant to this article in any given fiscal year shall be apportioned out of the total funds appropriated for this purpose, to applicants based on the size of the Alzheimer's community served in proportion to the monies available as determined by the department. All qualified applicants shall be

entitled to a grant on the foregoing basis unless an applicant is receiving funding through the Alzheimer's Community Assistance Program.

§ 2009. Availability of funds. The funds appropriated pursuant to this article for services and expenses of the Alzheimer's Community Assistance Program (ACAP) to serve persons with Alzheimer's disease and their caregivers shall be made available to the commissioner for expenses incurred in carrying out the provisions of this article. Such monies shall be payable on the audit and warrant of the comptroller on vouchers certified in the manner prescribed by law.

ARTICLE 20-B

STATE PARKINSON'S DISEASE REGISTRY

Section 2010. Definitions.

2011. Duty to report.

2012. Establishment of registry.

2013. Duties of the department.

2014. Duties of the commissioner.

§ 2010. Definitions. As used in this article, the following terms shall have the following meanings:

1. "Parkinson's disease" means a chronic and progressive neurologic disorder resulting from deficiency of the neurotransmitter dopamine as the consequence of specific degenerative changes in the area of the brain called the basal ganglia.

2. "Parkinsonisms" means related conditions that cause a combination of the movement abnormalities seen in Parkinson's disease including, but not limited to, tremor at rest, slow movement, muscle rigidity, impaired speech, or muscle stiffness, which often overlap with and can evolve from what appears to be Parkinson's disease.

§ 2011. Duty to report. 1. Every physician, nurse practitioner, physician assistant and general hospital that diagnoses or is treating a patient diagnosed with Parkinson's disease or Parkinsonisms, shall give notice no later than one hundred eighty days of every case of Parkinson's disease coming under their care, to the department, in a format to be determined by the commissioner, except as otherwise provided in this article.

2. All patients diagnosed with Parkinson's disease or Parkinsonisms shall be provided written and verbal notice regarding the collection of information and patient data on Parkinson's disease. Patients who do not wish to participate in the collection of data shall affirmatively opt-out in writing after ample opportunity to review such notice, provided that, the mere incidence of a patient with Parkinson's disease shall be the sole required information for the registry under section two thousand twelve of this article for any patient who chooses not to participate.

§ 2012. Establishment of registry. 1. The department shall establish a Parkinson's disease registry for the collection of information on the incidence and prevalence of Parkinson's disease and Parkinsonisms. The department may consult with Parkinson's disease experts, including neurologists, patients living with Parkinson's disease, and Parkinson's disease researchers to assist in the development and implementation of such registry, and to determine what data shall be collected.

2. All information maintained by the department under the provisions of this section shall be confidential except as necessary to carry out the provisions of this section and shall not be released for any other purpose.

3. The department may enter into an agreement to provide data collected in the Parkinson's disease registry to the federal Centers for Disease Control and Prevention, or successor agency, to local health officers, or health researchers for the study of Parkinson's disease for public health and research purposes. Data shall be provided in summary,

statistical, aggregate, or other form such that no individual person can be identified.

4. On or before January first, two thousand twenty-six, the department shall create and maintain a public website called the "New York state Parkinson's disease registry" which shall include information on the incidence and prevalence of Parkinson's disease and Parkinsonisms in the state by county, and demographic information on affected patients.

§ 2013. Duties of the department. 1. Parkinson's disease reports and data shall be maintained by the department in a manner suitable for research purposes, and shall be made available to persons as set forth in section two thousand twelve of this article.

2. All information collected under this article shall be confidential insofar as the identity of individual patients is concerned and shall be used solely for the purposes as provided in this article. Access to such information shall be limited to authorized employees of the department as well as persons and organizations defined in section two thousand twelve of this article with valid scientific interest and qualifications, as determined by the commissioner, who are engaged in demographic, epidemiological, or other similar studies related to public health.

3. The department shall maintain an accurate record of all persons who are given access to the information contained in the Parkinson's disease registry. Such record shall include the name of the person authorizing access, the name, title and organizational affiliation of persons given access, dates of access, and the specific purposes for which information is to be used.

4. Any person who, in violation of a written agreement to maintain confidentiality, discloses any information provided under this section, or who uses information provided under this section in a manner other than that prescribed by the commissioner, may be denied further access to any confidential information maintained by the department.

§ 2014. Duties of the commissioner. The commissioner may promulgate any regulations necessary to implement the provisions of this article, including but not limited to:

1. Establishing the form, content, and manner by which providers shall report Parkinson's disease information into the registry established under section two thousand twelve of this article;

2. Prescribing the permissible uses for the information made available under this article; and

3. Establishing procedures to maintain the confidentiality of information collected by providers and provided to members of the department pursuant to this article. This shall include a procedure to ensure that confidential patient information is deidentified prior to being provided to authorized participants under this article.

* ARTICLE 20-C

**STATE FRONTOTEMPORAL DEGENERATION
REGISTRY**

Section 2015. Definitions.

2016. Duty to report.

2017. Establishment of registry.

2018. Duties of the department.

2019. Duties of the commissioner.

* NB There are 2 Art 20-C's

* **§ 2015. Definitions.** As used in this article, the following terms shall have the following meanings:

1. "Frontotemporal degeneration disorders" or "FTD disorders" means a group of clinical disorders caused by progressive nerve cell loss in the brain's frontal lobes and/or temporal lobes which can lead to loss of

function in these brain regions, which variably cause deterioration in behavior, personality and/or difficulty with producing or comprehending language, as well as loss of motor control and movement. For the purposes of this title frontotemporal degeneration disorders is the same as "FTD" and includes, but is not limited to behavioral variant FTD, primary progressive aphasia, corticobasal syndrome, and progressive supranuclear palsy. Some individuals with FTD may also be diagnosed with ALS.

2. "Dementia" means a usually progressive condition marked by the development of multiple cognitive deficits, which may include but is not exclusive to memory impairment, aphasia, and the inability to plan and initiate complex behavior. Dementia has numerous different causes including but not limited to FTD, Alzheimer's disease, Lewy Body Dementia and Vascular Dementia.

§ 2016. Duty to report. 1. Every physician, nurse practitioner, physician assistant and general hospital that diagnoses or is treating a patient diagnosed with FTD disorder shall give notice no later than one hundred eighty days of every case of FTD disorders coming under their care, to the department, in a format to be determined by the commissioner, except as otherwise provided in this article.

2. All patients diagnosed with FTD disorders shall be provided written and verbal notice regarding the collection of information and patient data on FTD disorders. Patients who do not wish to participate in the collection of data shall affirmatively opt-out in writing after ample opportunity to review such notice, provided that, the mere incidence of a patient with an FTD disorder shall be the sole required information for the registry under section two thousand seventeen of this article for any patient who chooses not to participate.

§ 2017. Establishment of registry. 1. The department shall establish a frontotemporal degeneration registry for the collection of information on the rate of clinical diagnoses of FTD disorders. The department shall

consult with FTD disorders experts, including neurologists, patients living with FTD disorders, and FTD disorders researchers to assist in the development and implementation of such registry, and to determine what data shall be collected.

2. All information maintained by the department under the provisions of this section shall be confidential except as necessary to carry out the provisions of this section and shall not be released for any other purpose.

3. The department may enter into an agreement to provide data collected in the frontotemporal degeneration registry to the federal Centers for Disease Control and Prevention, or successor agency, to local health officers, or health researchers for the study of FTD disorders for public health and research purposes. Data shall be provided in summary, statistical, aggregate, or other form such that no individual person can be identified.

4. On or before January first, two thousand twenty-seven, the department shall create and maintain a public website called the "New York state frontotemporal degeneration registry" which shall include information on the rate of clinical diagnoses of FTD disorders in the state by county, and demographic information on affected patients.

§ 2018. Duties of the department. 1. FTD disorders reports and data shall be maintained by the department in a manner suitable for research purposes, and shall be made available to persons as set forth in section two thousand seventeen of this article.

2. All information collected under this article shall be confidential insofar as the identity of individual patients is concerned and shall be solely for the purposes as provided in this article. Access to such information shall be limited to authorized employees of the department as well as persons and organizations specified in section two thousand seventeen of this article with valid scientific interest and qualifications, as determined by the commissioner, who are engaged in

demographic, epidemiological, or other similar studies related to public health.

3. The department shall maintain an accurate record of all persons who are given access to the information contained in the frontotemporal degeneration registry. Such record shall include the name of the person authorizing access, the name, title and organizational affiliation of persons given access, dates of access, and the specific purposes for which information is to be used.

4. Any person who, in violation of a written agreement to maintain confidentiality, discloses any information provided under this section, or who uses information provided under this section in a manner other than that prescribed by the commissioner, may be denied further access to any confidential information maintained by the department.

§ 2019. Duties of the commissioner. The commissioner may promulgate any regulations necessary to implement the provisions of this article, including but not limited to:

1. establishing the form, content, and manner by which providers shall report FTD disorders information into the registry established under section two thousand seventeen of this article;

2. prescribing the permissible uses for the information made available under this article; and

3. establishing procedures to maintain the confidentiality of information collected by providers and provided to members of the department pursuant to this article. This shall include a procedure to ensure that confidential patient information is deidentified prior to being provided to authorized participants under this article.

* ARTICLE 20-C

STATE AMYOTROPHIC LATERAL SCLEROSIS AND MOTOR NEURON DISEASE

REGISTRY

Section 2020. Definitions.

2021. Duty to report.

2022. Establishment of registry.

2023. Duties of the department.

2024. Duties of the commissioner.

* NB There are 2 Art 20-C's

§ 2020. Definitions. As used in this article, the following terms shall have the following meanings:

1. "ALS" means amyotrophic lateral sclerosis, a neurological disorder that affects motor neurons, the nerve cells in the brain and spinal cord that control voluntary muscle movement and breathing.

2. "MND" means motor neuron disease, a group of progressive neurological disorders that destroy motor neurons, the cells that control skeletal muscle activity such as walking, breathing, speaking, and swallowing. This group includes diseases such as amyotrophic lateral sclerosis, progressive bulbar palsy, primary lateral sclerosis, progressive muscular atrophy, spinal muscular atrophy, Kennedy's disease, and post-polio syndrome.

§ 2021. Duty to report. 1. Every physician, nurse practitioner, physician assistant and general hospital that diagnoses or is treating a patient diagnosed with ALS or MND shall give notice no later than one hundred eighty days of each case of ALS or MND coming under their care, to the department, in a format to be determined by the commissioner, except as otherwise provided in this article.

2. All patients diagnosed with ALS or MND shall be provided with written and verbal notice regarding the collection of information and patient data on ALS and MND. Patients who do not wish to participate in the collection of data shall affirmatively opt out in writing after ample opportunity to review such notice, provided that the mere

incidence of a patient with ALS or MND shall be the sole required information for the registry under section two thousand twenty-two of this article for any patient who chooses not to participate.

§ 2022. Establishment of registry. 1. The department shall establish an ALS and MND registry for the collection of information on the incidence and prevalence of ALS and MND. The department may consult with ALS and MND experts, including neurologists, patients living with ALS and MND, and ALS and MND researchers to assist in the development and implementation of such registry, and to determine what data shall be collected.

2. All information maintained by the department under the provisions of this section shall be confidential except as necessary to carry out the provisions of this section and shall not be released for any other purpose.

3. The department may enter into an agreement to provide data collected in the ALS and MND registry to the federal centers for disease control and prevention, or successor agency, to local health officers, or health researchers for the study of ALS and MND for public health and research purposes. Data shall be provided in summary, statistical, aggregate, or other form such that no individual person can be identified.

4. On or before January first, two thousand twenty-seven, the department shall create and maintain a public website called the "New York state ALS and MN Disease registry" which shall include information on the incidence and prevalence of ALS and MND in the state by county, and demographic information on affected patients.

§ 2023. Duties of the department. 1. ALS and MND reports and data shall be maintained by the department in a manner suitable for research purposes and shall be made available to people as set forth in section two thousand twenty-two of this article.

2. All information collection under this article shall be confidential insofar as the identity of individual patients is concerned and shall be used solely for the purposes as provided in this article. Access to such information shall be limited to authorized employees of the department as well as persons and organizations identified in section two thousand twenty-two of this article with valid scientific interest and qualifications, as determined by the commissioner, who are engaged in demographic, epidemiological, or other similar studies related to public health.

3. The department shall maintain an accurate record of all people who are given access to the information contained in the ALS and MND registry. Such a record shall include the name of the person authorizing access, the name, title and organizational affiliation of persons given access, dates of access, and the specific purposes for which information is to be used.

4. Any person who, in violation of a written agreement to maintain confidentiality, discloses any information provided under this article, or who uses information provided under this article in a manner other than that prescribed by the commissioner, may be denied further access to any confidential information maintained by the department.

§ 2024. Duties of the commissioner. The commissioner may promulgate any regulations necessary to implement the provisions of this article, including but not limited to:

1. Establishing the form, content, and manner by which providers shall report ALS and MND information into the registry established under section two thousand twenty-two of this article;

2. Prescribing the permissible uses for the information made available under this article; and

3. Establishing procedures to maintain confidentiality of information

collected by providers and provided to members of the department pursuant to this article. This shall include a procedure to ensure that confidential patient information is deidentified prior to being provided to authorized participants under this article.

ARTICLE 21

CONTROL OF ACUTE COMMUNICABLE DISEASES

- Title I. General provisions (§§ 2100-2112).
II. Control of patients (§§ 2120-2126).
III. Human Immunodeficiency Virus (§§ 2130-2139).
IV. Rabies (§§ 2140-2146).
V. Typhoid fever (§§ 2150-2153).
VI. Poliomyelitis and other diseases (§§ 2160-2169).
VII. Hepatitis C (§§ 2170-2171).
8. Novel coronavirus, COVID-19 (§§ 2180-2183).

TITLE I

GENERAL PROVISIONS

- Section 2100. Communicable diseases; local boards of health and health officers; powers and duties.
2101. Communicable diseases; physicians and institutions; duty to report.
2102. Communicable diseases; laboratory reports and records.
2103. Communicable diseases; local health officers; duty to report.
2104. Communicable diseases; municipalities within a county or part-county health district; duty to report.
2105. Communicable diseases; state institutions; duty to report; duty of commissioner.
2106. Communicable diseases; almshouses; removal of inmates.
2108. Communicable diseases; epidemic among Indians; state charges.
2109. Communicable diseases; municipal hospitals for; establishment, inspection and regulation.
2110. City of New York; exceptions.

2111. Disease management demonstration programs.

2112. Immunizations; prohibition on the use of mercury.

§ 2100. Communicable diseases; local boards of health and health officers; powers and duties. 1. Every local board of health and every health officer shall guard against the introduction of such communicable diseases as are designated in the sanitary code, by the exercise of proper and vigilant medical inspection and control of all persons and things infected with or exposed to such diseases.

2. Every local board of health and every health officer may:

(a) provide for care and isolation of cases of communicable disease in a hospital or elsewhere when necessary for protection of the public health and,

(b) subject to the provisions of the sanitary code, prohibit and prevent all intercourse and communication with or use of infected premises, places and things, and require, and if necessary, provide the means for the thorough purification and cleansing of the same before general intercourse with the same or use thereof shall be allowed.

§ 2101. Communicable diseases; physicians and institutions; duty to report. 1. Every physician shall immediately give notice of every case of communicable disease required by the department to be reported to it, to the health officer of the local health district where such disease occurs.

2. If there be no physician in attendance on any case of communicable disease, it shall be the duty of the superintendent or other officer of an institution, householder, hotel or lodging housekeeper, or other person where such case occurs, to give the notice of such case of communicable disease required by the department to be reported to it, to the health officer of the local health district where such disease occurs.

3. The sanitary code may provide that when cases of certain

communicable diseases occur (a) in districts of less than fifty thousand population not having a full-time health officer, or (b) in state institutions or (c) in tuberculosis hospitals or sanatoria, such cases shall be reported directly to the department or its district health officer.

4. Such notice shall contain such information concerning the case as shall be required by the sanitary code.

§ 2102. Communicable diseases; laboratory reports and records. 1. Whenever any laboratory examination discloses evidence of communicable disease, the results of such examination together with all required pertinent facts, shall be immediately reported by the person in charge of the laboratory or the person making such examination to the local or state health official to whom the attending physician is required to report such case.

2. The person in charge of such laboratory or the person making such examination shall keep for a period of time to be specified by the commissioner, a record of all the facts in connection with such examination, including the identity of the person from whom the specimen is taken and the name of the physician, if any, sending such specimen.

§ 2103. Communicable diseases; local health officers; duty to report. Every local health officer shall report promptly to the department, all cases of such communicable diseases as may be required by the department to be reported to it. In lieu of the original reports, the health officer may submit summary reports when authorized by the department.

§ 2104. Communicable diseases; municipalities within a county or part-county health district; duty to report. 1. The health officer of each city, village, town and consolidated health district included as part of any county or part-county health district, shall transmit daily all original reports of communicable disease cases to the county health

commissioner.

2. The county health commissioner shall transmit to the department the original reports of communicable disease cases within twenty-four hours after he receives them.

3. In lieu thereof, he may submit summary reports when authorized by the department.

§ 2105. Communicable diseases; state institutions; duty to report; duty of commissioner. 1. It shall be the duty of the director or person in charge of each state institution to report immediately an outbreak of a communicable disease in such institution to the commissioner and as may otherwise be provided in the sanitary code.

2. Upon receipt of a report from a state institution of the outbreak of a communicable disease in said institution, the commissioner shall advise the director or person in charge of the institution as to the best means to control said disease effectually.

§ 2106. Communicable diseases; almshouses; removal of inmates. If a communicable disease exists in any home operated by a public welfare district or in the vicinity thereof, and the physician thereof shall certify that such disease is likely to endanger the health of the inmates thereof, the public welfare commissioner of the district may cause such inmates or any of them to be removed to such other suitable place in the county as the local board of health of the health district where the almshouse is situated may designate, there to be maintained and provided for at the expense of the county, with all necessary medical care and attendance until they shall be safely returned to such home or otherwise discharged.

§ 2108. Communicable diseases; epidemic among Indians; state charges. 1. Whenever an epidemic of a communicable disease shall prevail among

the Indians of any nation, tribe or band in this state, the public welfare official of the welfare district in which the reservation of such nation, tribe or band, is wholly or partly situated, may in accordance with rules and regulations adopted by the commissioner, cause needed medical attendance, provisions and maintenance to be furnished to any indigent Indian residing in the town, who, or a member of whose family, is afflicted with such disease, while such disease shall continue. The cost thereof after being audited as herein provided shall be a state charge.

2. A verified statement of any expenses incurred under this section shall be transmitted by the public welfare official to the commissioner. The commissioner shall examine into the matter, and if satisfied that such expenses were properly and necessarily incurred in accordance with his rules and regulations, he shall approve the same; and the amount thereof, after audit by the comptroller, shall be paid from the state treasury on the warrant of the comptroller to such public welfare official.

§ 2109. Communicable diseases; municipal hospitals for; establishment, inspection and regulation. 1. The commissioner shall from time to time submit to the authorities of the several municipalities or counties of the state such recommendations as he may consider necessary as to the establishment of hospitals for communicable diseases, indicating the diseases for which in his judgment provision should be made and the extent of such provision.

2. It shall be the duty of the commissioner to inspect from time to time all hospitals for communicable diseases maintained under the jurisdiction of any municipal or county authority and to report as to the condition and needs of such hospitals to the authorities of the municipality or county, and to include an abstract of such reports in his annual report.

3. The public health council may from time to time establish regulations in the sanitary code for the maintenance of hospitals for

communicable diseases.

§ 2110. City of New York; exceptions. The provisions of sections two thousand one hundred to two thousand one hundred eight of this chapter, inclusive, shall not apply to the city of New York.

§ 2111. Disease management demonstration programs. 1. The department may establish disease management demonstration programs through a request for proposals process to enhance the quality and cost-effectiveness of care rendered to medicaid-eligible persons with chronic health problems whose care and treatment, because of one or more hospitalizations, multiple disabling conditions requiring residential treatment or other health care requirements, results in high medicaid expenditures. In order to be eligible to sponsor and to undertake a disease management demonstration program, the proposed sponsor may be a not-for-profit, for-profit or local government organization that has demonstrated expertise in the management or coordination of care to persons with chronic diseases or that has the experience of providing cost-effective community-based care to such patients, or in the case of a local government organization, has expressed a strong willingness to sponsor such a program. The department may also approve disease management demonstration programs which include, but are not limited to, the promotion of adherence to evidence-based guidelines, improvement of provider and patient communication and provide information on provider and beneficiary utilization of services. The department shall grant no fewer than six demonstration programs, no more than one-third of such programs shall be selected to provide these services in any single social services district; provided further, where the department grants less than six demonstration programs, no more than one such program shall be selected to provide these services in any single social services district. The department shall approve disease management demonstration programs which are geographically diverse and representative of both urban and rural social services districts. The program sponsor must establish, to the satisfaction of the department, its capacity to enroll and serve sufficient numbers of enrollees to

demonstrate the cost-effectiveness of the demonstration program.

2. The department shall establish the criteria by which individuals will be identified as eligible for enrollment in the demonstration programs. Persons eligible for enrollment in the disease management demonstration program shall be limited to individuals who: receive medical assistance pursuant to title eleven of article five of the social services law and may be eligible for benefits pursuant to title 18 of the social security act (Medicare); are not enrolled in a Medicaid managed care plan, including individuals who are not required or not eligible to participate in Medicaid managed care programs pursuant to section three hundred sixty-four-j of the social services law; are diagnosed with chronic health problems as may be specified by the entity undertaking the demonstration program, including, but not limited to one or more of the following: congestive heart failure, chronic obstructive pulmonary disease, asthma, diabetes or other chronic health conditions as may be specified by the department; or have experienced or are likely to experience one or more hospitalizations or are otherwise expected to incur excessive costs and high utilization of health care services.

3. Enrollment in a demonstration program shall be voluntary. A participating individual may discontinue his or her enrollment at any time without cause. The commissioner shall review and approve all enrollment and marketing materials for a demonstration program.

4. The demonstration program shall offer evidence-based services and interventions designed to ensure that the enrollees receive high quality, preventative and cost-effective care, aimed at reducing the necessity for hospitalization or emergency room care or at reducing lengths of stay when hospitalization is necessary. The demonstration program may include screening of eligible enrollees, developing an individualized care management plan for each enrollee and implementing that plan. Disease management demonstration programs that utilize information technology systems that allow for continuous application of evidence-based guidelines to medical assistance claims data and other available data to identify specific instances in which clinical interventions are justified and communicate indicated interventions to

physicians, health care providers and/or patients, and monitor physician and health care provider response to such interventions, shall have the enrollees, or groups of enrollees, approved by the department for participation. The services provided by the demonstration program as part of the care management plan may include, but are not limited to, case management, social work, individualized health counselors, multi-behavioral goals plans, claims data management, health and self-care education, drug therapy management and oversight, personal emergency response systems and other monitoring technologies, telehealth services and similar services designed to improve the quality and cost-effectiveness of health care services.

5. The department shall be responsible for monitoring the quality, appropriateness and cost-effectiveness of a demonstration program. The department shall utilize, to the extent possible, all potential sources of funding for demonstration programs, including, but not limited to, private payments and donations. All such funds shall be deposited by the commissioner and credited to the disease management account which shall be established by the comptroller in the special revenue-other fund. Additionally, to the extent of funds appropriated therefor, medical assistance funds, including any funding or shared savings as may become available through federal waivers or otherwise under titles 18 and 19 of the federal social security act, may be used by the department for expenditures in support of the disease management program.

6. Payments shall be made by the department to the entity responsible for the operation of the demonstration program on a fixed amount per member per month of enrollment and shall reimburse the program sponsor for the services rendered pursuant to subdivision four of this section. The amount paid shall be an amount reasonably necessary to meet the costs of providing such services, provided that the total amount paid for medical assistance to enrollees in any such disease management demonstration program, including any demonstration program expenditures, shall not exceed ninety-five percent of the medical assistance expenditure related to such enrollee that would reasonably have been anticipated if the enrollee had not been enrolled in such demonstration program. The department may make payments to demonstration programs that

provide administrative services only, provided that expenditures made for enrollees, or a group of enrollees, participating in the demonstration program shall provide sufficient savings as determined by the department, had the enrollees, or groups of enrollees, not been enrolled in such demonstration. The department shall provide an interim report to the governor, and the legislature on or before December thirty-first, two thousand six and a final report on or before December thirty-first, two thousand seven on the results of demonstration programs. Both reports shall include findings as to the demonstration programs' contribution to improving quality of care and their cost-effectiveness. In the final report, the department shall offer recommendations as to whether demonstration programs should be extended, modified, eliminated or made permanent.

§ 2112. Immunizations; prohibition on the use of mercury. 1. Except as otherwise provided in subdivisions two, three, four and five of this section, no person under three years of age and no woman who knows she is pregnant shall be vaccinated with a vaccine that contains more than 0.5 micrograms of mercury per 0.5 milliliter dose.

2. Persons under three years of age may be vaccinated with an influenza vaccine that contains not more than 0.625 micrograms of mercury per 0.25 milliliter dose.

3. Women who know they are pregnant may be vaccinated with an influenza vaccine that contains not more than 1.25 micrograms of mercury per 0.50 milliliter dose; provided, however, that no provision of this section shall apply to the administration of influenza vaccine to women who know they are pregnant until and unless the commissioner makes a yearly determination that there is an adequate supply of influenza vaccine that contains not more than 1.25 micrograms of mercury per 0.50 milliliter dose to meet anticipated demand.

4. The commissioner may authorize the use of vaccines containing more than the mercury levels described in subdivisions one, two and three of this section when he or she determines it is necessary to prevent or

respond to an outbreak of disease and there are insufficient amounts of vaccine containing the mercury levels described in subdivision one, two or three of this section to adequately protect the public health. Such authorization shall continue until the commissioner determines that the threat of an outbreak or the outbreak has ended.

5. The commissioner may authorize the use of specific vaccines containing more than the mercury levels described in subdivisions one, two and three of this section when he or she determines that a vaccine with lower mercury levels is not available for distribution in this state, and the parent of a person under three years of age provides informed consent to administration of such vaccine to his or her child or the woman who knows she is pregnant provides informed consent to the administration of such vaccine.

TITLE II

CONTROL OF PATIENTS

Section 2120. Communicable diseases; control of dangerous and careless patients; commitment.

2121. Communicable diseases; duty of committed patients; discipline.

2122. Communicable diseases; disorderly committed patients; commitment to penal institution.

2123. Communicable diseases; discharge of committed patient; duty to report.

2124. Communicable diseases; appeal by committed patient.

2125. City of New York; exceptions.

§ 2120. Communicable diseases; control of dangerous and careless patients; commitment. 1. Whenever a complaint is made by a physician to a health officer that any person is afflicted with a communicable disease or is a carrier of typhoid fever, tuberculosis, diphtheria or other communicable disease and is unable or unwilling to conduct himself and to live in such a manner as not to expose members of his family or household or other persons with whom he may be associated to danger of

infection, the health officer shall forthwith investigate the circumstances alleged.

2. If the health officer finds after investigation that a person so afflicted is a menace to others, he shall make and file a complaint against such person with a magistrate, and on such complaint the said person shall be brought before such magistrate.

3. The magistrate after due notice and a hearing, if satisfied that the complaint of the health officer is well founded and that the afflicted person is a source of danger to others, may commit the said person to any hospital or institution established for the care of persons suffering from any such communicable disease or maintaining a room, ward or wards for such persons.

4. In making such commitment the magistrate shall make such order for payment for the care and maintenance of the person committed as he may deem proper.

5. A person who is committed pursuant to the provisions of this section shall be deemed to be committed until discharged in the manner authorized by section two thousand one hundred twenty-three of this chapter.

§ 2121. Communicable diseases; duty of committed patients; discipline.

1. Every person committed under the provisions of this article shall observe all the rules and regulations of the hospital or institution to which he is committed.

2. Any person so committed who neglects or refuses to obey the rules and regulations of the institution may by direction of the chief medical officer of the institution be placed apart from the other patients.

§ 2122. Communicable diseases; disorderly committed patients; commitment to penal institution. 1. Any person who has been committed to

a hospital or institution pursuant to the provisions of section two thousand one hundred twenty of this chapter, who thereafter wilfully violates the rules and regulations of the institution or repeatedly conducts himself in a disorderly manner may be taken before a magistrate by the order of the chief medical officer of the institution.

2. The chief medical officer of the institution may enter a complaint against such person for disorderly conduct and the magistrate, after a hearing and upon sufficient evidence of such disorderly conduct, may commit such person for a period not to exceed six months to any institution to which persons convicted of disorderly conduct, vagrancy or similar violations are committed.

3. The authorities of the institution to which such person is committed by the magistrate pursuant to the provisions of this section shall keep such person separate and apart from the other incarcerated individuals.

§ 2123. Communicable diseases; discharge of committed patient; duty to report. 1. The chief medical officer of the hospital or other institution to which any person who has been committed pursuant to the provisions of section two thousand one hundred twenty of this chapter upon signing and placing among the permanent records of such hospital or institution a statement to the effect that such person has obeyed the rules and regulations of such hospital or institution, and that in his judgment such person may be discharged without danger to the health or life of others, or for any other reason stated in full which he may deem adequate and sufficient, may discharge the person so committed.

2. The chief medical officer shall report each such discharge together with a full statement of the reasons therefor at once to the health officer of the local health district from which the patient came and at the next meeting of the board of managers or other controlling authority of such hospital or institution.

§ 2124. Communicable diseases; appeal by committed patient. Nothing contained in this article shall be construed to prohibit any person committed to any institution pursuant to its provisions from appealing to any court having jurisdiction, for a review of the evidence on which commitment was made.

§ 2125. City of New York; exceptions. The provisions of sections two thousand one hundred twenty to two thousand one hundred twenty-four of this chapter, inclusive, shall not apply to the city of New York.

TITLE III

HUMAN IMMUNODEFICIENCY VIRUS

- Section 2130. AIDS and HIV infection; duty to report.
- 2131. Municipal health commissioner; duty to report.
 - 2132. Reporting of HIV infection after death.
 - 2133. Contact tracing of cases of AIDS, HIV related illness or HIV infection.
 - 2134. Disclosure of medical information.
 - 2135. Confidentiality.
 - 2136. Liability.
 - 2137. Domestic violence recognition.
 - 2138. Anonymous testing.
 - 2139. Rules and regulations.

§ 2130. AIDS and HIV infection; duty to report. 1. Every physician or other person authorized by law to order diagnostic tests or make a medical diagnosis, or any laboratory performing such tests shall immediately (a) upon determination that a person is infected with human immunodeficiency virus (HIV), (b) upon diagnosis that a person is afflicted with the disease known as acquired immune deficiency syndrome (AIDS), (c) upon diagnosis that a person is afflicted with HIV related illness, and (d) upon periodic monitoring of HIV infection by any laboratory tests report such case or data to the commissioner.

2. The commissioner shall promptly forward such report to the health commissioner of the municipality where such disease, illness or infection occurred. When cases of such disease, illness or infection occur in a municipality not having a health commissioner, such reports shall be forwarded directly to the district health officer.

3. Such report shall contain such information concerning the case as shall be required by the commissioner. Such report shall include information identifying the protected individual as well as the names, if available, of any contacts of the protected individual, as defined in subdivision ten of section twenty-seven hundred eighty of this chapter, known to the physician or provided to the physician by the infected person.

§ 2131. Municipal health commissioner; duty to report. If any contact resides in a county or district other than the one where the protected individual is found, the health officer receiving the report shall refer the contact report to the health officer in the county or district where the contact resides, who shall then make a good faith effort to notify such contact and otherwise comply with the provisions of section twenty-one hundred thirty-three of this title.

§ 2132. Reporting of HIV infection after death. If a coroner, pathologist, medical examiner, or other person qualified to conduct an examination of a deceased person discovers that at the time of death the individual was afflicted with AIDS, HIV related illness or HIV infection, he or she shall report the case promptly to the commissioner according to the manner provided in this title as if the diagnosis had been established prior to death.

§ 2133. Contact tracing of cases of AIDS, HIV related illness or HIV infection. 1. Every municipal health commissioner or the department's district health officer, upon determination that such reported case or, any other known case of HIV infection merits contact tracing in order to

protect the public health, shall personally or through their qualified representatives notify the known contacts of the protected individual. Such contact tracing shall be done consistent with protocols developed pursuant to section twenty-one hundred thirty-seven of this title.

2. Such contact shall also be informed of (a) the nature of HIV, (b) the known routes of transmission of the virus, (c) as circumstances may require, the risks of prenatal and perinatal transmission, (d) actions he or she can take to limit further transmission of the virus, (e) other facilities or community based organizations which are accessible to the person that provide counseling, medical care and treatment, further information or other appropriate services for persons infected with HIV.

3. In notifying any contact identified in the course of any investigation conducted pursuant to this section, the physician or public health officer shall not disclose the identity of the protected individual or the identify of any other contact.

4. A physician or public health officer making a notification to a contact pursuant to this section shall make such notification in person except where circumstances reasonably prevent doing so.

§ 2134. Disclosure of medical information. Disclosure of medical information obtained in accordance with this title, including a diagnosis of HIV infection, may be made only to (a) the protected individual, (b) the municipal health commissioner or district health officer if such commissioner or officer is not the examining physician, and (c) without specifically revealing the identity of the protected individual, contacts as defined pursuant to subdivision ten of section twenty-seven hundred eighty of this chapter.

§ 2135. Confidentiality. All reports or information secured by the department, municipal health commissioner or district health officer under the provisions of this title shall be confidential except: (a) in so far as is necessary to carry out the provisions of this title; (b)

when used in the aggregate, without patient specific identifying information, in programs approved by the commissioner for the improvement of the quality of medical care provided to persons with HIV/AIDS; (c) when used within the state or local health department by public health disease programs to assess co-morbidity or completeness of reporting and to direct program needs, in which case patient specific identifying information shall not be disclosed outside the state or local health department; or (d) when used for purposes of patient linkage and retention in care, patient specific identified information may be shared between local and state health departments and health care providers currently treating the patient as approved by the commissioner.

§ 2136. Liability. 1. Good faith reporting or disclosure pursuant to this title shall not constitute libel or slander or a violation of the right of privacy or privileged communication.

2. Any person who in good faith complies with this title shall be immune from civil and criminal liability for any action taken in compliance with its provisions.

3. No criminal or civil liability shall arise against any protected individual solely due to his or her failure to cooperate in contact tracing conducted pursuant to section twenty-one hundred thirty-three of this title.

§ 2137. Domestic violence recognition. The department shall, in consultation with the office for the prevention of domestic violence and statewide organizations and community based organizations, develop a protocol for the identification and screening of victims of domestic violence who may either be a protected individual or a contact as used in this title.

§ 2138. Anonymous testing. Nothing in this article shall be

interpreted to eliminate the anonymous testing option provided for in section twenty seven hundred eighty-one of this chapter.

§ 2139. Rules and regulations. The commissioner shall promulgate such rules and regulations as shall be necessary and proper to effectuate the purposes of this title.

TITLE IV RABIES

Section 2140. Definitions.

- 2141. Compulsory vaccination.
- 2142. Rabies; emergency provisions.
- 2143. Rabies; seizure and disposal; reports.
- 2144. Rabies; county responsibility.
- 2145. Rabies; services and expenses of suppression.
- 2146. City of New York; exceptions.

§ 2140. Definitions. For the purpose of this title:

1. "Actively immunized" shall mean that the animal has been injected with a rabies vaccine suitable to the species and which meets the standards prescribed by the United States department of agriculture for interstate sale and which was administered according to the manufacturer's instructions under the direction of a duly licensed veterinarian not later than the expiration date on the package. Active immunization shall begin fourteen days following primary vaccination or immediately following a booster vaccination, and continue for the period stated in the manufacturer's instructions.

2. "County" shall mean a county of the state other than those in the city of New York.

3. "County health authority" shall mean the county health agency.

4. "Domestic livestock" includes cattle, goats, horses, donkeys, mules, sheep, and swine.

5. "Certificate of immunization" shall mean a signed statement issued by the veterinarian containing the following information: name and address of the owner, date or dates of vaccination, type of vaccine administered and duration of immunity, amount and manner of administration, name of manufacturer of the vaccine, and the lot number and expiration date of the vaccine. The certificate of immunization for domestic livestock may include multiple animals. The system of identification applicable to the livestock is to be used.

6. "Owner" shall mean any person keeping, harboring, or having charge or control of, or permitting any dog, cat or domesticated ferret to remain on or be lodged or fed within such person's house, yard, or premises. This term shall not apply to veterinarians or other facilities temporarily maintaining on their premises dogs, cats or domesticated ferrets owned by others for periods of no more than four months or to the owner or occupant of property inhabited by a feral animal.

7. "Confinement and observation" refers to the conditions under which apparently healthy dogs, cats, domesticated ferrets, and domestic livestock, which are not exhibiting symptoms of rabies, must be maintained to determine rabies status if such an animal has potentially exposed a person to rabies, and the owner wishes to avoid euthanizing and testing the animal. If the county health authority does not approve home confinement, the ten day confinement and observation period must take place, at owner's expense, at an appropriate facility such as an animal shelter, veterinarian's office, kennel or farm. The confinement must include (i) provisions to prevent escape of the animal during the confinement period and (ii) requirements that the owner notify the public health authority immediately if the animal becomes ill at anytime during confinement, and (iii) verification by the county health authority or their designee at the end of the ten day period that the animal is healthy. If a police work dog bites an individual in the course of such dog's official duty the police department may apply for a

waiver from confinement from the local department of health. As part of such application for a waiver, the police department shall provide the local health department with records of such dog's past vaccination for rabies and proof that such dog's rabies vaccinations are up-to-date.

8. "Quarantine" refers to a six month period of restriction for animals which are not actively immunized against rabies and have been exposed to a potentially rabid animal, in accordance with applicable regulations of the department. The quarantine must include provisions to prevent escape of the animal during the quarantine period and to minimize contacts with humans and other animals, and these provisions must be verified by the county health authority during and at the end of the six month period.

9. "Local residence", under the conditions hereinafter specified, shall mean any person who has his or her primary residence, secondary residence, vacation home or school within a county of the state of New York shall be deemed to have local residence in such county.

10. "Qualification on residence." Local residence shall not include residence:

- (a) as an incarcerated individual of any state or federal prison, or
- (b) on a military reservation.

11. "Initial treatment after human exposure to rabies" shall mean administration of the first postexposure dose of rabies vaccine and, when necessary, administration of rabies immune globulin.

12. "Animal control officer" shall mean one or more persons designated by the county health authority as having responsibility for animal control issues in the county. This responsibility may be delegated to others such as cities and towns, law enforcement agencies, animal shelters, or private nuisance control officers.

13. "Feral animal" shall mean any cat, dog or ferret that is born in the wild and is not socialized, is the offspring of an owned or feral cat, dog or ferret and is not socialized, or is a formerly owned cat,

dog or ferret that has been abandoned and is no longer socialized.

§ 2141. Compulsory vaccination. 1. Every dog, cat and domesticated ferret shall be actively immunized against rabies in accordance with regulations promulgated by the commissioner. Every dog, cat and domesticated ferret shall have all initial vaccinations administered no later than four months after birth. Every dog, cat and domesticated ferret shall have a second vaccination within one year of the first. Terms of subsequent vaccine administration and duration of immunity must be in compliance with USDA licenses of vaccines used. The veterinarian immunizing or supervising any person authorized by law to immunize such animal shall provide the owner with a certificate of immunization consistent with the requirements of section one hundred nine of the agriculture and markets law. The veterinarian immunizing or supervising any person authorized by law to immunize such animal shall provide any public health official with the certificate of immunization in any case involving a dog, cat or domesticated ferret which has been or may have been exposed to rabies or in any case of possible exposure of a person or another animal to rabies.

2. Subdivision one of this section shall not apply to any feral animal or any dog, cat or domesticated ferret:

(a) that is transported through the state and remains in the state fifteen days or fewer;

(b) confined to the premises of an incorporated society devoted to the care of lost, stray or homeless animals;

(c) for which vaccination against rabies would adversely affect the animal's health, as determined by a licensed veterinarian; or

(d) confined for the purposes of research to the premises of a college or other educational or research institution.

3. (a) Every veterinarian providing treatment to a dog, cat or domesticated ferret shall verify, in accordance with standards established by the commissioner, if such animal is actively immunized against rabies or is exempt under subdivision two of this section. If active immunization or exemption cannot be verified, the veterinarian

shall immunize the animal at the owner's request.

(b) If the animal is exempt from the provisions of subdivision one of this section, pursuant to paragraph (c) of subdivision two of this section, the veterinarian shall provide the owner of the dog, cat or domesticated ferret with a certified statement verifying that the animal is exempt from immunization because the immunization would adversely affect the health of the animal, and verifying the nature and duration of such exemption. The certified statement shall be in a form prescribed by the commissioner and shall be consistent with the requirements of section one hundred nine of the agriculture and markets law. Medical exemptions are to be renewed on an annual basis.

4. The owning of a dog, cat or domesticated ferret by any person in violation of subdivision one of this section shall constitute a violation, and shall be subject to a fine not to exceed two hundred dollars for each offense.

§ 2142. Rabies; emergency provisions. Whenever the commissioner confirms an outbreak of the disease rabies in terrestrial animals in any county or the vicinity thereof, the commissioner shall declare a rabies alert for that area and so certify to the county or local health authorities or any local health district contained therein. It shall be the duty of the health officials to immediately and annually thereafter publish a notice of the existence of the disease, together with a summary of the provisions of this title, in a newspaper generally circulated within the county or local health district, or to post notices in several conspicuous places, or both. Such certification shall remain in force until such time as the commissioner confirms that the outbreak is over.

§ 2143. Rabies; seizure and disposal; reports. Whenever the commissioner certifies a county to have a rabies alert pursuant to section twenty-one hundred forty-two of this title, any duly appointed dog control officer, animal control officer, peace officer, police officer, or health officer for that area may seize and confine any dog,

cat or domesticated ferret found at large and may destroy a dog, cat or domesticated ferret found at large that is exhibiting symptoms of rabies and cannot be seized without placing any person at serious risk of physical injury. Any duly appointed person who seizes, confines, or destroys a dog, cat or domesticated ferret pursuant to this section shall immediately report in writing the facts relating thereto to the county or local health authority.

§ 2144. Rabies; county responsibility. Each county health authority is required to develop a rabies control protocol that identifies and coordinates all activities within the county to accomplish a comprehensive rabies response. The county health authority shall have responsibility for the implementation of the protocol, including the coordination of the response to rabies issues by other local agencies. This protocol must be approved by the department and revised and updated as directed by the department.

§ 2145. Rabies; services and expenses of suppression. 1. The county health authority is responsible for the services and expenses necessary for the suppression of human rabies. Suppression of human rabies shall include, but not be limited to:

(a) availability at all times for prompt investigation of reports of possible exposures to rabies of people, pets, or domestic livestock occurring within the county, and to render authorization for human postexposure treatment,

(b) making arrangements for appropriate disposition of the animals involved, including confinement and observation, quarantines, vaccination boosters, or euthanasia and testing,

(c) collection, preparation and submission of animal specimens to a laboratory approved by the commissioner for rabies diagnosis,

(d) verifying terms of confinement, observation and quarantines,

(e) authorized human postexposure treatment under the conditions hereinafter specified, except that third party coverage or indemnification shall first be applied against the cost of treatment, and

(f) operation of rabies vaccination clinics free of charge for dogs, cats and domesticated ferrets owned by persons with local residence.

2. Under the conditions specified below, the county health authority is responsible for authorized human postexposure treatment for all persons exposed within the county, regardless of the location of the person's residence; except in any case where the person's county of residence has agreed to be responsible for such treatment in accordance with the provisions of this title. In addition, for persons with local residence who are exposed to rabies in New York city or out of state, the county health authority is responsible for that portion of treatment that occurs after such persons return to their local residences.

3. Human postexposure treatment specifically authorized by the county health authority shall be rendered by the provider or providers selected by the county health authority, located within the county or the vicinity thereof, and shall be considered sufficient authorization for pre-approval by the person's health insurance carrier or managed care plan if pre-approval is required, and shall be approved, by the health insurance carrier or managed care plan, provided that:

(a) any person may, at his or her option, be treated at his or her own expense by the health care provider of his or her choice without approval by the county health authority,

(b) the county health authority may, at its option, assume financial responsibility for necessary treatment rendered by other providers; provided, however, that the county health authority shall not be obligated to assume financial responsibility if notified after the completion of treatment. If evidence of approval of the county health authority has not been provided, health care providers must report initiation of rabies postexposure prophylaxis within twenty-four hours of the first treatment,

(c) the county shall authorize initial treatment from a provider or providers geographically accessible to the location of the exposed person at the time that treatment is determined to be necessary, and

(d) the county shall authorize post-initial treatment from a provider or providers geographically accessible to the exposed person's residence if the person returns to his or her residence during the course of

treatment.

4. Consent by any person to human postexposure treatment authorized by the county health authority shall constitute assignment of any third party health benefits to the county health authority and permission for the person's health care and insurance providers to release medical and financial information regarding the treatment to the county health authority.

5. Health care and insurance providers shall comply with any requests by the county health authority for information regarding human postexposure treatment rendered to an enrollee whose treatment was authorized by the county health authority.

5-a. Health care providers shall accept payments by the county health authority for human postexposure treatment at a rate set by the commissioner; provided that such reimbursement shall be no less than the Medicaid rate.

6. Under the terms of this title, the county health authority is not responsible for:

(a) services and expenses of human postexposure treatment that were not specifically authorized by the county health authority, except for completion of treatment for their residents exposed and started on rabies treatment in New York city or elsewhere outside of New York state. Treatment started in New York city shall be confirmed as necessary treatment by the New York city department of health and mental hygiene, or the department,

(b) services and expenses of medical treatment unrelated to the prevention of rabies infection such as wound suturing and measures to control bacterial infection of bite wounds, and

(c) expenses of preexposure rabies vaccination.

7. A clinic for rabies vaccination for dogs, cats and domesticated ferrets of persons with local residence shall be conducted at least every four months within the county under the direction of the county government, by the health officials of the county and the several local

health districts within a county. Donations may be requested but not required at the clinics. Any listing of costs in clinic announcements or advertisements must indicate that vaccinations are available free of charge, and that donations are optional. Counties may at their option provide vaccination clinic services to persons without county residence, and may require a fee based on cost from these persons.

8. Claims for services and expenses, approved by the county shall be paid by the fiscal officer of the county from funds in his or her custody upon presentation of such claim, without further or other audit or may be paid pursuant to the local finance law.

§ 2146. City of New York; exceptions. The provisions of sections two thousand one hundred forty through two thousand one hundred forty-five of this title, inclusive, shall not apply to the city of New York.

TITLE V

TYPHOID FEVER

Section 2150. Typhoid fever; carriers; care and maintenance, in institutions.

2151. Typhoid fever; carriers; care and maintenance, privately.

2152. Typhoid fever; carriers; care and maintenance, payment of expenses.

2153. City of New York; exceptions.

§ 2150. Typhoid fever; carriers; care and maintenance, in institutions. Whenever any person is declared by the commissioner to be a carrier of typhoid fever bacilli and whenever, for the protection of the public health, the commissioner certifies to the necessity of continued isolation; or, whenever, the sanitary code prohibits a carrier of typhoid fever bacilli from engaging in his usual occupation, such person may be given hospital or institutional care under the surveillance of the local health officer at the expense of the state if the hospital or institution in the judgment of the commissioner is

properly equipped for the care and maintenance of said person.

§ 2151. Typhoid fever; carriers; care and maintenance, privately.

When no hospital or institution is available for the care of a carrier of typhoid fever bacilli in accordance with the provisions of section two thousand one hundred fifty of this chapter, and when in the opinion of the commissioner such person may be cared for at home or in a private family with due regard to the protection of the public health, the commissioner may furnish necessary medical attendance and maintenance and designate the agency or person through which such medical attendance and maintenance shall be furnished.

§ 2152. Typhoid fever; carriers; care and maintenance, payment of expenses. 1. No expenditure for the purposes authorized in sections two thousand one hundred fifty and two thousand one hundred fifty-one of this chapter, shall be contracted for or incurred by any agency or person until after such expense has been authorized and approved by the commissioner.

2. (a) A verified statement of any such approved expense incurred pursuant to this section and sections two thousand one hundred fifty and two thousand one hundred fifty-one of this chapter, shall be transmitted to the commissioner.

(b) The commissioner shall examine the statement and if satisfied that such authorized expenses are correct and necessary in accordance with rules and regulations adopted by him he shall audit and allow the same and when so audited the amount thereof shall be paid by the state department of taxation and finance, on the warrant of the state comptroller to the institution, agency or person.

§ 2153. City of New York; exceptions. The provisions of sections two thousand one hundred fifty to two thousand one hundred fifty-two of this chapter, inclusive, shall not apply to the city of New York.

TITLE VI

POLIOMYELITIS AND OTHER DISEASES

- Section 2160. Poliomyelitis; persons twenty-one years of age and over; medical inspection.
2161. Poliomyelitis; persons twenty-one years of age and over; care and maintenance.
2162. Poliomyelitis; application of statute; city of New York.
2164. Definitions; immunization against poliomyelitis, mumps, measles, diphtheria, rubella, varicella, Haemophilus influenzae type b (Hib), pertussis, tetanus, pneumococcal disease, meningococcal disease, and hepatitis B.
2165. Immunization of certain post-secondary students.
2166. Immunization; regulations.
2167. Immunization against meningococcal meningitis.
2168. Statewide immunization information system.
2169. Vaccine confidentiality.

§ 2160. Poliomyelitis; persons twenty-one years of age and over; medical inspection. In addition to the powers and duties prescribed by section two thousand one hundred of this chapter, every local board of health and every health officer shall exercise proper and vigilant medical inspection of all persons twenty-one years of age or over, infected or who have been infected with poliomyelitis.

§ 2161. Poliomyelitis; persons twenty-one years of age and over; care and maintenance. Every county or part-county health commissioner, city health officer in cities having more than fifty thousand population, and state district health officer shall, within their respective areas and after approval by the commissioner, provide at the remediable stages of the disease known as poliomyelitis, suitable surgical, medical or therapeutic treatment or hospital care, and necessary appliances and devices for all persons twenty-one years of age or over including Indians residing on reservations, so infected or exposed who cannot

otherwise be provided for. In a county the determination as to what persons cannot otherwise be provided for and relevant matters shall be made by the board of supervisors of such county against which the same is to be a charge and an investigation and report thereon to such board upon which to make its determination shall be made by the public welfare commissioner or such other county officer, or committee of the board as the board of supervisors may designate by resolution. The charges approved for such treatment shall be in full payment thereof and shall be accepted by the person or corporation furnishing such treatment as full payment and no such person or corporation shall ask or receive directly or indirectly any other or additional compensation.

§ 2162. Poliomyelitis; application of statute; city of New York.

Notwithstanding any other provision of this chapter or any other general, special or local law, the terms "local board of health" and "health officers" as used in sections two thousand one hundred sixty and two thousand one hundred sixty-one of this chapter shall include the department of health of the city of New York.

§ 2164. Definitions; immunization against poliomyelitis, mumps, measles, diphtheria, rubella, varicella, Haemophilus influenzae type b (Hib), pertussis, tetanus, pneumococcal disease, meningococcal disease, and hepatitis B. 1. As used in this section, unless the context requires otherwise:

a. The term "school" means and includes any public, private or parochial child caring center, day nursery, day care agency, nursery school, kindergarten, elementary, intermediate or secondary school.

b. The term "child" shall mean and include any person between the ages of two months and eighteen years.

c. The term "person in parental relation to a child" shall mean and include his father or mother, by birth or adoption, his legally appointed guardian, or his custodian. A person shall be regarded as the

custodian of a child if he has assumed the charge and care of the child because the parents or legally appointed guardian of the minor have died, are imprisoned, are mentally ill, or have been committed to an institution, or because they have abandoned or deserted such child or are living outside the state or their whereabouts are unknown, or have designated the person pursuant to title fifteen-A of article five of the general obligations law as a person in parental relation to the child.

d. The term "health practitioner" shall mean any person authorized by law to administer an immunization.

2. a. Every person in parental relation to a child in this state shall have administered to such child an adequate dose or doses of an immunizing agent against poliomyelitis, mumps, measles, diphtheria, rubella, varicella, Haemophilus influenzae type b (Hib), pertussis, tetanus, pneumococcal disease, and hepatitis B, in accordance with regulations issued by the commissioner, utilizing generally accepted medical standards and taking into consideration recommendations of the American Academy of Pediatrics, the American Academy of Family Physicians, the American College of Obstetricians and Gynecologists, the American College of Physicians, the Advisory Committee on Immunization Practices, and/or other similar nationally or internationally recognized scientific organizations.

b. Every person in parental relation to a child in this state born on or after January first, nineteen hundred ninety-four and entering sixth grade or a comparable age level special education program with an unassigned grade on or after September first, two thousand seven, shall have administered to such child a booster immunization containing diphtheria and tetanus toxoids, and an acellular pertussis vaccine, in accordance with regulations issued by the commissioner, utilizing generally accepted medical standards and taking into consideration recommendations of the American Academy of Pediatrics, the American Academy of Family Physicians, the American College of Obstetricians and Gynecologists, the American College of Physicians, the Advisory Committee on Immunization Practices, and/or other similar nationally or internationally recognized scientific organizations.

c. Every person in parental relation to a child in this state entering or having entered seventh grade and twelfth grade or a comparable age level special education program with an unassigned grade on or after September first, two thousand sixteen, shall have administered to such child an adequate dose or doses of immunizing agents against meningococcal disease in accordance with regulations issued by the commissioner, utilizing generally accepted medical standards and taking into consideration recommendations of the American Academy of Pediatrics, the American Academy of Family Physicians, the American College of Obstetricians and Gynecologists, the American College of Physicians, the Advisory Committee on Immunization Practices, and/or other similar nationally or internationally recognized scientific organizations.

3. The person in parental relation to any such child who has not previously received such immunization shall present the child to a health practitioner and request such health practitioner to administer the necessary immunization against poliomyelitis, mumps, measles, diphtheria, Haemophilus influenzae type b (Hib), rubella, varicella, pertussis, tetanus, pneumococcal disease, meningococcal disease, and hepatitis B as provided in subdivision two of this section.

4. If any person in parental relation to such child is unable to pay for the services of a private health practitioner, such person shall present such child to the health officer of the county in which the child resides, who shall then administer the immunizing agent without charge.

5. The health practitioner who administers such immunizing agent against poliomyelitis, mumps, measles, diphtheria, Haemophilus influenzae type b (Hib), rubella, varicella, pertussis, tetanus, pneumococcal disease, meningococcal disease, and hepatitis B to any such child shall give a certificate of such immunization to the person in parental relation to such child.

6. In the event that a person in parental relation to a child makes

application for admission of such child to a school or has a child attending school and there exists no certificate or other acceptable evidence of the child's immunization against poliomyelitis, mumps, measles, diphtheria, rubella, varicella, hepatitis B, pertussis, tetanus, and, where applicable, Haemophilus influenzae type b (Hib), meningococcal disease, and pneumococcal disease, the principal, teacher, owner or person in charge of the school shall inform such person of the necessity to have the child immunized, that such immunization may be administered by any health practitioner, or that the child may be immunized without charge by the health officer in the county where the child resides, if such person executes a consent therefor. In the event that such person does not wish to select a health practitioner to administer the immunization, he or she shall be provided with a form which shall give notice that as a prerequisite to processing the application for admission to, or for continued attendance at, the school such person shall state a valid reason for withholding consent or consent shall be given for immunization to be administered by a health officer in the public employ, or by a school physician or nurse. The form shall provide for the execution of a consent by such person and it shall also state that such person need not execute such consent if subdivision eight of this section applies to such child.

7. (a) No principal, teacher, owner or person in charge of a school shall permit any child to be admitted to such school, or to attend such school, in excess of fourteen days, without the certificate provided for in subdivision five of this section or some other acceptable evidence of the child's immunization against poliomyelitis, mumps, measles, diphtheria, rubella, varicella, hepatitis B, pertussis, tetanus, and, where applicable, Haemophilus influenzae type b (Hib), meningococcal disease, and pneumococcal disease; provided, however, such fourteen day period may be extended to not more than thirty days for an individual student by the appropriate principal, teacher, owner or other person in charge where such student is transferring from out-of-state or from another country and can show a good faith effort to get the necessary certification or other evidence of immunization.

(b) A parent, a guardian or any other person in parental relationship to a child denied school entrance or attendance may appeal by petition

to the commissioner of education in accordance with the provisions of section three hundred ten of the education law.

8. If any physician licensed to practice medicine in this state certifies that such immunization may be detrimental to a child's health, the requirements of this section shall be inapplicable until such immunization is found no longer to be detrimental to the child's health.

8-a. Whenever a child has been refused admission to, or continued attendance at, a school as provided for in subdivision seven of this section because there exists no certificate provided for in subdivision five of this section or other acceptable evidence of the child's immunization against poliomyelitis, mumps, measles, diphtheria, rubella, varicella, hepatitis B, pertussis, tetanus, and, where applicable, Haemophilus influenzae type b (Hib), meningococcal disease, and pneumococcal disease, the principal, teacher, owner or person in charge of the school shall:

a. forward a report of such exclusion and the name and address of such child to the local health authority and to the person in parental relation to the child together with a notification of the responsibility of such person under subdivision two of this section and a form of consent as prescribed by regulation of the commissioner, and

b. provide, with the cooperation of the appropriate local health authority, for a time and place at which an immunizing agent or agents shall be administered, as required by subdivision two of this section, to a child for whom a consent has been obtained. Upon failure of a local health authority to cooperate in arranging for a time and place at which an immunizing agent or agents shall be administered as required by subdivision two of this section, the commissioner shall arrange for such administration and may recover the cost thereof from the amount of state aid to which the local health authority would otherwise be entitled.

10. The commissioner may adopt and amend rules and regulations to effectuate the provisions and purposes of this section.

11. Every school shall annually provide the commissioner, on forms provided by the commissioner, a summary regarding compliance with the provisions of this section.

§ 2165. Immunization of certain post-secondary students. 1. As used in this section, unless the context requires otherwise:

a. The term "institution" means a college as defined in section two of the education law.

b. The term "student" means any person born on or after January first, nineteen hundred fifty-seven, who is registered to attend or attends classes at an institution, whether full-time or part-time. "Part-time student" shall mean a student who is enrolled for at least six but less than twelve semester hours, or the equivalent per semester or at least four but less than eight semester hours per quarter at an institution.

c. The term "health practitioner" means any person authorized by law to administer an immunization.

d. The term "immunization" means an adequate dose or doses of an immunizing agent against measles, mumps and rubella in accordance with regulations issued by the commissioner, utilizing generally accepted medical standards and taking into consideration recommendations of the American Academy of Pediatrics, the American Academy of Family Physicians, the American College of Obstetricians and Gynecologists, the American College of Physicians, the Advisory Committee on Immunization Practices, and/or other similar nationally or internationally recognized scientific organizations.

2. Each student at an institution shall provide to the institution a certificate from a health practitioner or other acceptable evidence of such student's immunization, unless such student presents a certificate under subdivision eight of this section or is exempt under subdivision eight-a or nine of this section. Upon compliance, no student shall be denied attendance at an institution because of the requirements of this

section.

3. A student who has not complied with subdivision two of this section shall present himself or herself to a health practitioner and request such practitioner to administer such immunization.

4. If any person is unable to pay for the services of a private health practitioner, such person shall present himself or herself to the health officer of the county in which such person resides, or the county in which the institution is located who shall then administer the immunization without charge.

5. The health practitioner who administers such immunization to any such person shall give a certificate of such immunization to such person.

6. In the event that a student registers at an institution and has not complied with subdivision two of this section, the institution shall inform such student of the necessity to be immunized, that such immunization may be administered by any health practitioner, or that the student may be immunized without charge by the health officer in the county where the student resides or in which the institution is located. In the event that such student does not comply with this section, he or she shall be given notice that attendance at the institution requires immunization unless a valid reason is provided by such student pursuant to subdivision eight or nine of this section.

7. No institution shall permit any student to attend such institution in excess of thirty days without complying with subdivision two of this section. However, such thirty day period may be extended to not more than forty-five days for a student where such student is from out-of-state or from another country and can show a good faith effort to comply with subdivision two of this section.

8. If any licensed physician or nurse practitioner certifies that such immunization may be detrimental to the person's health or is otherwise medically contraindicated, the requirements of this section shall be

inapplicable until such immunization is found no longer to be detrimental to such person's health or is no longer medically contraindicated.

8-a. Proof of discharge from the armed services within ten years from the date of application to an institution shall qualify as a certificate enabling a student to attend the institution pending actual receipt of immunization records from the armed services. If while awaiting the receipt of actual immunization records a health risk shall arise at an institution, a student presenting a certificate under the terms of this subdivision shall be removed from the institution if proper immunization cannot be proved or otherwise rectified.

9. This section shall not apply to a person who holds genuine and sincere religious beliefs which are contrary to the practices herein required, and no certificate shall be required as a prerequisite to such person being admitted or received into or attending an institution.

10. The institution shall provide annually to the commissioner, on forms provided by the commissioner, a summary regarding compliance with this section.

11. The commissioner may adopt and amend rules and regulations to effectuate the provisions and purposes of this section.

13. a. Prior to August first, nineteen hundred ninety-one, this section shall not apply to (i) part-time students or (ii) any student who attended the institution he or she is attending prior to August first, nineteen hundred eighty-nine.

b. Prior to August first, nineteen hundred ninety-one, the thirty and forty-five day periods referred to in subdivision seven of this section shall be deemed to be sixty and ninety days, respectively.

§ 2166. Immunization; regulations. The commissioner may promulgate regulations with respect to immunization conducted by a home care

services agency licensed pursuant to section thirty-six hundred five of this chapter or certified pursuant to section thirty-six hundred eight of this chapter, facilities or institutions established under article twenty-eight of this chapter, and other health care providers and practitioners, including, but not limited to, standards for the quality of care and services provided, consistent with the education law.

§ 2167. Immunization against meningococcal meningitis. 1. As used in this section, unless the context requires otherwise:

a. The term "student" means a person attending an institution and, in the case of a student attending college, "student" means a person who is registered to attend or who attends classes at an institution, who is enrolled for at least six semester hours or the equivalent per semester, or at least four semester hours per quarter.

b. The term "institution" means an academy or college, as defined in section two of the education law, or a children's overnight camp as defined in section one thousand three hundred ninety-two of this chapter, where the person attending such camp remains overnight for a period of not fewer than seven days.

c. The term "immunization" means an adequate dose or doses of an immunizing agent against meningococcal meningitis in accordance with regulations issued by the commissioner, utilizing generally accepted medical standards and taking into consideration recommendations of the American Academy of Pediatrics, the American Academy of Family Physicians, the American College of Obstetricians and Gynecologists, the American College of Physicians, the Advisory Committee on Immunization Practices, and/or other similar nationally or internationally recognized scientific organizations.

2. Each institution shall distribute, in a form provided or approved by the commissioner, written information about meningococcal meningitis and meningitis immunization to all students. The information provided by the institution shall include, but not be limited to, the following:

- a. a description of the disease and means of transmission;
- b. the benefits, risks, and effectiveness of immunization;
- c. the availability and cost of immunization, including an indication of whether or not the institution offers meningococcal meningitis immunization services.

3. Each institution shall also distribute, in a form provided or approved by the commissioner of health, a response form, to be completed by the student or, where the student is under the age of eighteen years, such student's parent or guardian, which shall include the following:

- a. The student, or if under the age of eighteen years the parent or guardian of the student, certifies that the student has already received immunization against meningococcal meningitis within the ten years preceding the date of the response form;

- b. The student, or if under the age of eighteen years the parent or guardian of such student, has received and reviewed the information provided by the institution, understands the risks of meningococcal meningitis and the benefits of immunization, and has decided that the student shall not obtain immunization against meningococcal meningitis.

The student, or if under the age of eighteen years the parent or guardian of such student, shall indicate his or her decision in a box or space placed appropriately on the form and shall return the completed form to the institution. Nothing in this subdivision shall be construed to prohibit an institution from incorporating the form required by this subdivision into another health certificate or form required by the institution.

4. Each institution shall maintain completed response forms.

5. No institution shall permit any student to attend the institution in excess of thirty days without complying with this section; provided,

however, that such thirty day period may be extended to not more than sixty days if a student can show a good faith effort to comply with this section.

6. Nothing in this section shall be construed to prohibit institutions from adopting or maintaining more stringent policies regarding immunization against meningococcal meningitis.

§ 2168. Statewide immunization information system. 1. The department is hereby directed to establish a statewide automated and electronic immunization information system that will serve, and shall be administered consistent with, the following public health purposes:

(a) collect reports of immunizations and thus reduce the incidence of illness, disability and death due to vaccine preventable diseases and collect results of blood lead analyses performed by physician office laboratories to provide to the statewide registry of lead levels of children established pursuant to section thirteen hundred seventy-a of this chapter;

(b) establish the public health infrastructure necessary to obtain, collect, preserve, and disclose information relating to vaccine preventable disease as it may promote the health and well-being of all children in this state;

(c) make available to an individual, or parents, guardians, or other person in a custodial relation to a child or, to local health districts, local social services districts responsible for the care and custody of children, health care providers and their designees, schools, WIC programs, and third party payers the immunization status of children; and

(d) appropriately protecting the confidentiality of individual identifying information and the privacy of persons included in the statewide immunization information system and their families.

2. For the purposes of this section:

(a) The term "authorized user" shall mean any person or entity authorized to provide information to or to receive information from the statewide immunization information system and shall include health care

providers and their designees, as defined in paragraph (d) of this subdivision, schools as defined in paragraph a of subdivision one of section twenty-one hundred sixty-four of this title, colleges as defined in section two of the education law, professional and technical schools as referred to in the definition of higher education in section two of the education law, children's overnight camps and summer day camps as defined in section thirteen hundred ninety-two of this chapter, third party payer as defined in paragraph (f) of this subdivision, local health districts as defined by paragraph (c) of subdivision one of section two of this chapter, local social services districts and the office of children and family services with regard to children in their legal custody, WIC programs as defined in paragraph (g) of this subdivision, registered professional nurses, and pharmacists authorized to administer immunizations pursuant to subdivision two of section sixty-eight hundred one of the education law. An authorized user may be located outside New York state. An entity other than a local health district shall be an authorized user only with respect to a person seeking or receiving a health care service from the health care provider, a person enrolled or seeking to be enrolled in the school, a person insured by the third party payer, a person in the custody of the local social services district or the office of children and family services, or a person seeking or receiving services through WIC programs, as the case may be.

(b) The term "statewide immunization information system" or "system" shall mean a statewide-computerized database maintained by the department capable of collecting, storing, and disclosing the electronic and paper records of vaccinations received by persons under nineteen years of age.

(c) The term "citywide immunization registry" shall mean the computerized database maintained by the city of New York department of health and mental hygiene capable of collecting, storing, and disclosing the electronic and paper records of vaccinations received by persons less than nineteen years of age. The term "citywide immunization registry" shall not include the childhood blood lead registry established pursuant to the health code of the city of New York. For the purposes of this section the term New York city department of health and mental hygiene, shall mean such agency or any successor agency

responsible for the citywide immunization registry.

(d) The term "health care provider" shall mean any person authorized by law to order an immunization or analysis of a blood sample for lead or any health care facility licensed under article twenty-eight of this chapter or any certified home health agency established under section thirty-six hundred six of this chapter; with respect to a person seeking or receiving a health care service from the health care provider.

(e) For purposes of this section a school is a public health authority, as defined in section 164.501 of part 45 of the federal code of rules, responsible for screening the immunization status of each child pursuant to section twenty-one hundred sixty-four of this article.

(f) The term "third party payer" shall mean health maintenance organizations certified under article forty-four of this chapter, health service corporations licensed pursuant to article forty-three of the insurance law, self-insured plans that pay for health care services, health insurance companies subject to article thirty-two of the insurance law which offer preferred provider products, corporations subject to article forty-three of the insurance law which offer preferred provider products, municipal cooperative health benefit plans certified pursuant to article forty-seven of the insurance law which offer preferred provider products, and preferred provider organizations as defined in section three hundred fifty-two of the workers' compensation law.

(g) For purposes of this section the term "WIC program" shall mean a state or local agency, as described pursuant to section 1786 of title 42 of the United States Code.

(h) The term "physician office laboratory" shall mean a laboratory operated by a health care provider pursuant to subdivision one of section five hundred seventy-nine of this chapter that is certified by the Centers for Medicare and Medicaid Services under regulations implementing the federal Clinical Laboratory Improvement Amendments of 1988 (CLIA).

3. (a) (i) Any health care provider who administers any vaccine to a person less than nineteen years of age or, on or after September first, two thousand nine, conducts a blood lead analysis of a sample obtained from a person under eighteen years of age in accordance with paragraph

(h) of subdivision two of this section; and immunizations received by a person less than nineteen years of age in the past if not already reported, shall report all such immunizations and the results of any blood lead analysis to the department in a format prescribed by the commissioner within fourteen days of administration of such immunizations or of obtaining the results of any such blood lead analysis. Health care providers administering immunizations to persons less than nineteen years of age in the city of New York shall report, in a format prescribed by the city of New York commissioner of health and mental hygiene, all such immunizations to the citywide immunization registry. Health care providers who conduct a blood lead analysis on a person under eighteen years of age and who report the results of such analysis to the city of New York commissioner of health and mental hygiene pursuant to New York city reporting requirements shall be exempt from this requirement for reporting blood lead analysis results to the state commissioner of health; provided, however, blood lead analysis data collected from physician office laboratories by the commissioner of health and mental hygiene of the city of New York pursuant to the health code of the city of New York shall be provided to the department in a format prescribed by the commissioner.

(ii) A pharmacist who administers a vaccine pursuant to subdivision two of section sixty-eight hundred one of the education law, to a person less than nineteen years of age, shall report all such immunizations to the department in a format prescribed by the commissioner within fourteen days of administration of such immunizations. Pharmacists administering immunizations pursuant to subdivision two of section sixty-eight hundred one of the education law to persons less than nineteen years of age in the city of New York shall report, in a format prescribed by the city of New York commissioner of health and mental hygiene, all such immunizations to the citywide immunization registry.

(b) (i) Any health care provider who administers any vaccine to a person nineteen years of age or older, may report, with the consent of the vaccinee, all such immunizations to the department in a format prescribed by the commissioner within fourteen days of administration of such immunizations. Health care providers administering immunizations to persons nineteen years of age or older in the city of New York may report, with the consent of the vaccinee, in a format prescribed by the

city of New York commissioner of health and mental hygiene, all such immunizations to the citywide immunization registry.

(ii) A registered professional nurse, or a pharmacist who administers a vaccine pursuant to subdivision two of section sixty-eight hundred one of the education law, to a person nineteen years of age or older, shall report, with the consent of the vaccinee, all such immunizations to the department in a format prescribed by the commissioner within fourteen days of administration of such immunizations. Registered professional nurses or pharmacists administering immunizations pursuant to subdivision two of section sixty-eight hundred one of the education law, to persons nineteen years of age or older in the city of New York shall report, with the consent of the vaccinee, in a format prescribed by the city of New York commissioner of health and mental hygiene, all such immunizations to the citywide immunization registry.

(c) The statewide immunization information system shall provide a method for health care providers to determine when the registrant is due or late for a recommended immunization and shall serve as a means for authorized users to receive prompt and accurate information, as reported to the system, about the vaccines that the registrant has received.

4. (a) All information maintained by the department, or in the case of the citywide immunization registry, the city of New York under the provisions of this section shall be confidential except as necessary to carry out the provisions of this section and shall not be released for any other purpose.

(b) The department and for the city of New York the department of health and mental hygiene may also disclose or provide such information to an authorized user when (i) such person or agency provides sufficient identifying information satisfactory to the department to identify such registrant and (ii) such disclosure or provision of information is in the best interests of the registrant or his or her family, or will contribute to the protection of the public health.

(c) Any data collected by the department may be included in the statewide immunization information system and the statewide registry of lead levels of children if collection, storage and access of such data is otherwise authorized. Such data may be disclosed to the statewide immunization information system only if provided for in statute or

regulation, and shall be subject to any provisions in such statute or regulation limiting the use or redisclosure of the data. Nothing contained in this paragraph shall permit inclusion of data in the statewide immunization information system if that data could not otherwise be accessed or disclosed in the absence of the system. For the city of New York the commissioner of health and mental hygiene may include data collected in the citywide immunization registry as provided in this paragraph.

(c-1) The department may require the collection of, maintenance and access to newborn infant hearing screening data and results through the statewide immunization information system in accordance with section twenty-five hundred-g of this chapter.

(d) A person, institution or agency to whom such immunization information is furnished or to whom, access to records or information has been given, shall not divulge any part thereof so as to disclose the identity of such person to whom such information or record relates, except insofar as such disclosure is necessary for the best interests of the person or other persons, consistent with the purposes of this section.

5. (a) All health care providers and their designees, except for providers reporting to the citywide immunization registry, shall submit to the commissioner information about any vaccinee less than nineteen years of age and about each vaccination given after January first, two thousand eight. The information provided to the system or the citywide immunization registry shall include the national immunization program data elements and other elements required by the commissioner. For the city of New York the commissioner of health and mental hygiene may require additional elements with prior notice to the commissioner of any changes.

(b) In addition to the immunization administration information required by this section, the operation of any immunization registry established under chapter five hundred twenty-one of the laws of nineteen hundred ninety-four, section 11.07 of title twenty-four of volume eight of the compilation of the rules of the city of New York and administered by a local health district collecting information from health care providers about vaccinations previously administered to a

vaccinee prior to the effective date of this section shall provide the commissioner access to such information.

(c) All health care providers shall provide the department or, as appropriate, the city of New York with additional or clarifying information upon request reasonably related to the purposes of this section.

(d) Notwithstanding the above, submission of incomplete information shall not prohibit entry of incomplete but viable data into the statewide immunization information system.

(e) The commissioner of the department of health and mental hygiene for the city of New York shall implement the requirements of this subdivision.

(f) The immunization status of children exempt from immunizations pursuant to subdivision eight of section twenty-one hundred sixty-four of this title shall be reported by the health care provider.

6. In the city of New York, the commissioner of the department of health and mental hygiene of the city of New York may maintain its existing registry consistent with the requirements of this section and shall provide information to the commissioner and to authorized users.

7. Each parent or legal guardian of a newborn infant or a child newly enrolled in the statewide immunization information system shall receive information, developed by the department, describing the enrollment process and how to review and correct information and obtain a copy of the child's immunization record. The city of New York will be responsible for providing information about the processes for enrollment and access to the citywide immunization registry by a parent or legal guardian of a newborn infant or newly enrolled child residing in the city of New York.

8. Access and use of identifiable registrant information shall be limited to authorized users consistent with this subdivision and the purposes of this section. (a) The commissioner shall provide a method by which authorized users apply for access to the system. For the city of New York, the commissioner of health and mental hygiene shall provide a method by which authorized users apply for access to the citywide

immunization registry.

(b) (i) The commissioner may use the statewide immunization information system and the blood lead information in such system for purposes of outreach, quality improvement and accountability, including professional responsibility proceedings of the office of professional medical conduct and the state education department, research, epidemiological studies and disease control, and to obtain blood lead test results from physician office laboratories for the statewide registry of lead levels of children established pursuant to subdivision two of section thirteen hundred seventy-a of this chapter; (ii) the commissioner of health and mental hygiene for the city of New York may use the immunization registry and the blood lead information in such system for purposes of outreach, quality improvement and accountability, research, epidemiological studies and disease control; (iii) local health departments shall have access to the immunization information system and the blood lead information in such system for purposes of outreach, quality improvement and accountability, epidemiological studies and disease control within their county; and

(c) health care providers and their designees, registered professional nurses, and pharmacists authorized to administer immunizations pursuant to subdivision two of section sixty-eight hundred one of the education law shall have access to the statewide immunization information system and the blood lead information in such system only for purposes of submission of information about vaccinations received by a specific registrant, determination of the immunization status of a specific registrant, determination of the blood lead testing status of a specific registrant, submission of the results from a blood lead analysis of a sample obtained from a specific registrant in accordance with paragraph (h) of subdivision two of this section, review of practice coverage, generation of reminder notices, quality improvement and accountability, including professional responsibility proceedings of the office of professional medical conduct and the state education department, and printing a copy of the immunization or lead testing record for the registrant's medical record, for the registrant's parent or guardian, or other person in parental or custodial relation to a child, or for a registrant upon reaching eighteen years of age.

(d) The following authorized users shall have access to the statewide

immunization information system and the blood lead information in such system and the citywide immunization registry for the purposes stated in this paragraph: (i) schools for the purpose of verifying immunization status for eligibility for admission, for the purpose of confirming a student has been screened for lead when enrolling in child care, pre-school, pre-kindergarten or kindergarten, and for the provision of appropriate educational materials developed by the department pursuant to section thirteen hundred seventy-a of this chapter on the dangers of lead exposure, and the health risks associated with elevated blood lead levels to the parents or legal guardians of the student with an elevated blood lead level, as such term is defined in subdivision six of section thirteen hundred seventy of this chapter, as well as information on programs that may be available to the student and the parents or legal guardians of the student. For each school that has the technical ability to batch download sets of immunization records, the department shall make available such sets of immunization records of only those children submitted by the school for which the school has obtained a certificate of immunization or for which the school has responsibility to verify the immunization status for school attendance purposes under section twenty-one hundred sixty-four of this article. Schools shall properly safeguard such information for use only as authorized by this section; (ii) colleges for verifying immunization status for eligibility for admission; (iii) professional and technical schools for verifying immunization status for eligibility for admission; (iv) children's overnight camps and summer day camps for verifying immunization status of children attending camp; (v) third party payer for performing quality assurance, accountability and outreach, relating to enrollees covered by the third party payer; (vi) commissioners of local social services districts with regard to a child in his/her legal custody; (vii) the commissioner of the office of children and family services with regard to children in their legal custody, and for quality assurance and accountability of commissioners of local social services districts, care and treatment of children in the custody of commissioners of local social services districts; and (viii) WIC programs for the purposes of verifying immunization and lead testing status for those seeking or receiving services.

(e) Institutes of higher education, medical research centers or other

institutions engaged in epidemiological research or other public health research shall have access to de-identified registrant information in the statewide immunization information system or the citywide immunization registry for research purposes if approved by the commissioner or the commissioner of the department of health and mental hygiene of the city of New York, as appropriate.

9. The commissioner may judge the legitimacy of any request for immunization system information and may refuse access to the statewide immunization information system based on the authenticity of the request, credibility of the authorized user or other reasons as provided for in regulation. For the city of New York the commissioner of health and mental hygiene may judge the legitimacy of requests for access to the citywide immunization registry and refuse access to the immunization registry based on the authenticity of the request, credibility of the authorized user or other reasons as provided for in regulation.

10. The person to whom any immunization record relates, or his or her parent, or guardian, or other person in parental or custodial relation to such person may request a copy of an immunization or lead testing record from the registrant's healthcare provider, the statewide immunization information system or the citywide immunization registry according to procedures established by the commissioner or, in the case of the citywide immunization registry, by the city of New York commissioner of the department of health and mental hygiene.

11. The commissioner, or in the city of New York, the commissioner of the department of health and mental hygiene, may provide registrant specific immunization and lead test records to the federal centers for disease control and prevention or its successor agency, to other state or city registries and registries maintained by the Indian Health Service and tribal nations recognized by the state or the United States pursuant to a written agreement requiring that the other registry conform to national standards for maintaining the integrity of the data and that the data will only be used for purposes consistent with the provisions of this section and provided that disclosure of identifiable registrant information shall be limited to the minimum amount necessary

to accomplish the purposes consistent with the provisions of this section as determined by the commissioner, or in the city of New York, the commissioner of the department of health and mental hygiene.

11-a. The commissioner, or in the city of New York, the commissioner of the department of health and mental hygiene, may only share registry information maintained by the department, or in the case of the citywide immunization registry, the city of New York under the provisions of this section with the federal Centers for Disease Control and Prevention, or successor agency, for public health purposes in summary, statistical, aggregate, or other form such that no individual person can be identified, except that either such commissioner may disclose identifiable registrant information to the federal Centers for Disease Control and Prevention, or its successor agency, when the commissioner has determined that the disclosure is in the best interests of the registrant or will contribute to the protection of public health and that the objective of the disclosure cannot be served by disclosure limited to de-identified information, or the federal health officials have committed in writing not to redisclose to or share registrant information with any other federal agency, including but not limited to the department of homeland security, immigration and customs enforcement, customs and border protection, or any successor agency, or any law enforcement agency; provided that either such commissioner may forgo the written commitment if requiring written commitment would result in the actual withholding of federal funds.

12. Information that would be provided upon the enrollment in the statewide immunization information system of a child being vaccinated, from birth records of all infants born in New York state on or after January first, two thousand four shall be entered into the statewide immunization information system, except in the city of New York, where birth record information shall be entered into the citywide immunization registry.

13. The commissioner shall promulgate regulations as necessary to effectuate the provisions of this section. Such regulations shall include provision for orderly implementation and operation of the

statewide immunization information system, including the method by which each category of authorized user may access the system. Access standards shall include at a minimum a method for assigning and authenticating each user identification and password assigned.

14. No authorized user shall be subjected to civil or criminal liability, or be deemed to have engaged in unprofessional conduct for reporting to, receiving from, or disclosing information relating to the statewide immunization information system when made reasonably and in good faith and in accordance with the provisions of this section or any regulation adopted thereto.

§ 2169. Vaccine confidentiality. 1. As used in this section, unless context requires otherwise:

(a) The term "consent" shall mean informed, affirmative, and voluntary authorization.

(b) The term "de-identified" shall mean that the information cannot identify or be made to identify or be associated with a particular individual, directly or indirectly, and is subject to technical safeguards and policies and procedures that prevent re-identification, whether intentionally or unintentionally, of any individual.

(c) The term "disclosure" shall mean release, transfer, provision of, access to, or divulging in any other manner of information outside the entity holding the information.

(d) The term "immigration authority" means any entity, officer, employee, or government employee or agent thereof charged with or engaged in enforcement of the federal Immigration and Nationality Act, including the United States Immigration and Customs Enforcement, United States Department of Homeland Security, or United States Customs and Border Protection, or agent, contractor, or employee thereof, or any successor legislation or entity.

(e) The term "law enforcement agent or entity" means any governmental entity or public servant, or agent, contractor or employee thereof, authorized to investigate, prosecute, or make an arrest for a criminal or civil offense, or engaged in any such activity, but shall not mean the department, the commissioner, a health district, a county department

of health, a county health commissioner, a local board of health, a local health officer, the department of health and mental hygiene of the city of New York, or the commissioner of the department of health and mental hygiene of the city of New York.

(f) The term "personal information" shall mean information obtained from or about an individual, in connection with their registering for a vaccination, that directly or indirectly identifies, relates to, describes, is capable of being associated with, or could reasonably be linked to a particular individual, household, or personal device. Information is reasonably linkable to an individual, household, or personal device if it can be used on its own or in combination with other reasonably available information, when such information is held by the vaccine navigator, to identify an individual, household, or a personal device.

(g) The term "service attendant to the delivery of immunization" shall mean facilitating an immunization appointment, sending reminders about immunization, arranging transportation to or from a vaccine provider, or reporting to the department, the New York City department of health and mental hygiene, or other local health agency on whose behalf such vaccine navigator is performing such services.

(h) The term "use" shall mean, with respect to personal information, the sharing, employment, application, utilization, examination or analysis of such information within an entity that maintains such information.

(i) The term "vaccine navigator" shall mean any person that collects personal information from an individual in order to register that individual for immunization or to help that individual register for immunization, provided the department, a local public health agency, or a person that administers vaccines or their designees are not vaccine navigators.

2. (a) Except as provided in paragraph (d) of this subdivision, absent consent from the individual seeking immunization, or if the individual lacks the capacity to make health care decisions, an individual authorized to consent to health care for the individual or the individual's legal representative, a vaccine navigator shall not use, disclose, or maintain personal information except as necessary to

provide services attendant to the delivery of immunization.

(b) A vaccine navigator may request consent from an individual, or if the individual lacks the capacity to make health care decisions, an individual authorized to consent to health care for the individual or the individual's legal representative, to use, disclose, or maintain the individual's personal information for purposes other than services attendant to the delivery of immunization provided that:

(i) a vaccine navigator shall not refuse to provide a service attendant to the delivery of immunization for an individual who does not provide such consent;

(ii) a vaccine navigator shall not relate the price or quality of any service attendant to the delivery of immunization to the privacy protections afforded the individual, including by providing a discount or other incentive in exchange for such consent, provided that this paragraph does not prohibit the offering of incentives to individuals to get vaccinated; provided that such incentives shall not be conditioned on an individual's consent to additional uses, disclosures, or maintenance of their personal information except as necessary to provide the incentive; and

(iii) a vaccine navigator shall clearly delineate what personal information is adequate, relevant, and necessary to provide a service attendant to the delivery of immunization by clearly and conspicuously indicating in any solicitation for the information that all other requests for personal information are optional.

(c) Except as provided in paragraph (d) of this subdivision:

(i) No vaccine navigator may provide personal information or otherwise make personal information accessible, directly or indirectly, to a law enforcement agent or entity or immigration authority;

(ii) No vaccine navigator may provide personal information or otherwise make personal information accessible, directly or indirectly, to any other individual or entity, except as explicitly authorized by this title; and

(iii) Without consent under this subdivision, personal information and any evidence derived therefrom shall not be subject to or provided in response to any legal process or be admissible for any purpose in any judicial or administrative action or proceeding unless provided in response pursuant to warrants, court-ordered subpoenas, administrative

subpoenas, or grand jury subpoenas.

(d) (i) This section does not bar otherwise lawful disclosure, possession or use of information pertaining to services attendant to the delivery of immunization, including aggregate information, that is de-identified. Disclosure, possession or use under this subparagraph shall only be for a public health or public health research purposes.

(ii) A vaccine navigator may only possess or use de-identified information pertaining to services attendant to the delivery of immunization if the vaccine navigator maintains technical safeguards and policies and procedures that prevent re-identification, whether intentional or unintentional, of any individual, as may be required by the commissioner (or the New York city commissioner of health and mental hygiene, in the case of information collected by or under authority of the New York city department of health and mental hygiene. The commissioner (or the New York city commissioner as the case may be) shall require safeguards, policies and procedures under this paragraph as the commissioner deems practicable.

(iii) Disclosure, possession and use of de-identified information under this subdivision shall be only pursuant to approval by the commissioner (or the New York city commissioner of health and mental hygiene in the case of information collected by or under authority of the New York city department of health and mental hygiene) specifying the purpose, nature and scope of the disclosure, possession and use and measures to ensure that it will comply with this section and the terms of the approval.

(e) A vaccine navigator that maintains personal information shall establish appropriate administrative, technical, and physical safeguards, policies, and procedures that ensure the security of that personal information. The safeguards, policies, and procedures must be appropriate to the volume and nature of the personal information maintained and the size, revenue, and sophistication of the vaccine navigator and must ensure that personal information is encrypted and protected at least as much as or more than other confidential information in the vaccine navigator's possession. The commissioner or, in the city of New York, the commissioner of the department of health and mental hygiene may make regulations as reasonably necessary to require that personal information possessed, used, or under the control

of a vaccine navigator shall be subject to technical safeguards, policies, and procedures for storage, transmission, use, and protection of the information. The regulations must take into account the different sizes, revenues and sophistications of different vaccine navigators, as well as the volume and nature of the personal information they maintain.

(f) Nothing in this section shall limit a vaccine navigator that has a pre-existing service provider-client, provider-patient, or familial relationship or a friendship with an individual from processing that individual's personal information as previously agreed to in the course of the pre-existing relationship.

3. Vaccine providers. A vaccine provider shall not delay or condition the provision of any service attendant to the delivery of immunization by inviting or requiring an individual seeking vaccination to complete an application for a customer discount card or account or share personal information that will be stored outside of a record protected under the federal Health Insurance Portability and Accountability Act of 1996, its implementing regulations, or section eighteen of this chapter for purposes other than services attendant to the delivery of immunization, or by engaging in any other activity unrelated to the provision of such a service that the commissioner designates by regulation.

TITLE VII

HEPATITIS C

Section 2170. Hepatitis C; educational materials.

2171. Required offering of hepatitis C screening testing.

§ 2170. Hepatitis C; educational materials. The commissioner shall develop and make available to physicians, other health care providers, veterans and other persons at high risk for hepatitis C educational materials, in written and electronic forms, on the diagnosis, treatment and prevention of hepatitis C. Such materials shall include the recommendations of the federal Centers for Disease Control and Prevention and any other person or entity having knowledge on hepatitis C, including the American Liver Foundation. Such materials shall be

written in terms which are understandable by members of the general public.

*** § 2171. Required offering of hepatitis C screening testing. 1.**

Every individual age eighteen and older (or younger than eighteen if there is evidence or indication of risk activity) who receives health services as an inpatient or in the emergency department of a general hospital defined in subdivision ten of section twenty-eight hundred one of this chapter or who receives primary care services in an outpatient department of such hospital or in a diagnostic and treatment center licensed under article twenty-eight of this chapter or from a physician, physician assistant, nurse practitioner or midwife providing primary care shall be offered a hepatitis C screening test unless the health care practitioner providing such services reasonably believes that:

(a) the individual is being treated for a life threatening emergency; or

(b) the individual has previously been offered or has been the subject of a hepatitis C screening test (except that a test shall be offered if otherwise indicated); or

(c) the individual lacks capacity to consent to a hepatitis C screening test.

2. If an individual accepts the offer of a hepatitis C screening test and the screening test is reactive, an HCV RNA test must be performed, on the same specimen or a second specimen collected at the same time as the initial HCV screening test specimen, to confirm diagnosis of current infection. The health care provider shall either offer all persons with a detectable HCV RNA test follow-up HCV health care and treatment or refer the individual to a health care provider who can provide follow-up HCV health care and treatment.

3. The offering of hepatitis C screening testing under this section shall be culturally and linguistically appropriate in accordance with rules and regulations promulgated by the commissioner.

4. This section shall not affect the scope of practice of any health

care practitioner or diminish any authority or legal or professional obligation of any health care practitioner to offer a hepatitis C screening test or hepatitis C diagnostic test or to provide services or care for the subject of a hepatitis C screening test or hepatitis C diagnostic test.

5. Definitions. As used in this section, the following terms shall have the following meanings:

(a) "Hepatitis C diagnostic test" shall mean any laboratory test or tests that detect the presence of hepatitis C virus in the blood and provides confirmation of whether the individual has a hepatitis C virus infection.

(b) "Hepatitis C screening test" shall mean any laboratory screening test or tests that detect the presence of hepatitis C virus antibodies in the blood.

(c) "Primary care" means the medical fields of family medicine, general pediatrics, primary care, internal medicine, primary care obstetrics, or primary care gynecology, without regard to board certification.

* NB Repealed January 1, 2030

TITLE 8

NOVEL CORONAVIRUS, COVID-19

Section 2180. Definitions.

2181. COVID-19 contact tracing; confidentiality.

2182. Regulations.

2183. Immunity passports.

§ 2180. Definitions. As used in this title the following terms shall have the following meanings:

1. "Contact tracing" means COVID-19 case investigation and identification of case individuals and contact individuals.

2. (a) "Contact tracer" and "contact tracing entity" means an

individual or entity employed by or under contract with the state, a local government, a state or local governmental entity, or an agent thereof, to conduct contact tracing, engage in contact tracing, or receive contact tracing information.

(b) A contact tracer or contact tracing entity shall not include a service provider that is a non-governmental entity that is employed by or under contract with a contact tracing entity or an agent thereof, that receives, transmits, maintains, stores, or hosts contact tracing information at the direction of a contact tracer or contact tracing entity so long as such service provider's access to the information is exclusively limited to the maintenance of the information and the contact tracer or contact tracing entity has the ability to delete and manage contact tracing information as provided by this chapter, law, rules or regulations. A service provider under this paragraph shall be referred to in this title as a "designated non-governmental entity." A service provider that does not meet the requirements of this paragraph and would otherwise be subject to paragraph (a) of this subdivision shall be a contact tracing entity.

3. "Contact tracing information" means any information that includes or can reveal the identity of any case individual or contact individual, and any COVID-19-related information or test results, received or collected for the purpose or in the course of contact tracing.

4. "Contact individual" means an individual who has or may have come in contact with a case individual or who has or may have been exposed to and possibly infected with COVID-19.

5. " Case individual" means an individual with a confirmed or probable diagnosis of COVID-19.

6. "COVID-19" means infection with or the disease caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).

7. "Immigration authority" means any entity, officer, employee, or government employee or agent thereof charged with or engaged in enforcement of the federal Immigration and Nationality Act, including

the United States Immigration and Customs Enforcement, United States Department of Homeland Security, or United States Customs and Border Protection, or agent, contractor or employee thereof, or any successor legislation or entity.

8. "De-identified" means, in relation to contact tracing information, that the information cannot identify or be made to identify or be associated with a particular individual, directly or indirectly and is subject to technical safeguards and policies and procedures that prevent re-identification, whether intentionally or unintentionally, of any individual.

9. "Law enforcement agent or entity" means any governmental entity or public servant, or agent, contractor or employee thereof, authorized to investigate, prosecute, or make an arrest for a criminal or civil offense (except a designated civil offense), or engaged in any such activity, but shall not mean the department, the commissioner, a health district, a county department of health, a county health commissioner, a local board of health, a local health officer, the department of health and mental hygiene of the city of New York, or the commissioner of the department of health and mental hygiene of the city of New York. As used in this subdivision, "designated civil offense" means a civil offense or offenses designated by the commissioner (or the commissioner of the New York city department of health and mental hygiene in the case of contact tracing information collected by or under authority of the New York city department of health and mental hygiene or the New York city health and hospitals corporation).

10. "Support" means resources or services provided to an individual to enable such individual to safely quarantine or isolate, including grocery, meal or pharmacy delivery, laundry services, child or elder care, pet walking, assistance with telephone, internet, or other communication services or devices, health and mental health services, legal services, provision of appropriate living space for individuals who cannot isolate or quarantine at home, and income replacement. "Support" may also include support provided to other individuals for whom the individual commonly provides those resources or services.

11. "Permitted purpose" means:

(a) disclosure to appropriate health care providers or their personnel for the purpose of the clinical diagnosis, care or treatment of the case individual or contact individual who is the subject of the information, where an emergency exists and the individual is in immediate need of medical attention and an attempt to secure consent would result in delay of treatment which would increase the risk to the individual's life or health;

(b) facilitating a legally-authorized public health-related action, where and only to the extent necessary to protect the public health in relation to COVID-19; or

(c) use or disclosure of contact tracing information to pursue a legal action in relation to a violation of this title; provided that disclosure shall be subject to in camera review and approval by the court, and, if the use is initiated by a party other than the case individual or contact individual who is the subject of the contact tracing information, the information must be highly material and relevant for the purpose.

12. "Covered entity" means a governmental entity or a place of public accommodation, resort or amusement, as defined in section two hundred ninety-two of the executive law.

13. "Physical immunity passport" means a credential that identifies an individual as having received a COVID-19 vaccine or a COVID-19 test result that does not rely on a digital or electronic device. Physical immunity passports include, but are not limited to, pieces of paper denoting immunity status.

§ 2181. COVID-19 contact tracing; confidentiality. 1. (a) All contact tracing information shall be kept confidential by any contact tracer, contact tracing entity, or designated non-governmental entity and may not be disclosed except as necessary to carry out contact tracing or a permitted purpose. A designated non-governmental entity may only act in relation to contact tracing information as explicitly authorized by this

title.

(b) Where a contact tracer or contact tracing entity discloses contact tracing information for a permitted purpose, the contact tracer or contact tracing entity shall make a record of the disclosure, including to whom it was made and when it was made, which shall be part of the contact tracing information.

(c) Nothing in this title prohibits otherwise lawful voluntary reporting, at the discretion of the contact tracer, reasonably and in good faith: (i) to the statewide central registry under title six of article six of the social services law, adult protective services under titles one and two of article nine-B of the social services law, or the justice center for the protection of people with special needs under article eleven of the social services law; or (ii) to a governmental or non-governmental emergency reporting system (such as a "911," domestic violence or suicide prevention system) to prevent imminent risk of injury to any person.

(d) This title does not limit disclosure to or by, or possession or use by, the case individual or contact individual who is the subject of the information.

2. (a) An individual may waive the confidentiality provided for by this section, only by a written, informed and voluntary waiver, in plain language and in a language understandable to the individual making the waiver, and not part of any other document. The waiver shall state the scope and limit of the waiver. No contact tracer, contact tracing entity or governmental or non-governmental entity may seek or act in reliance on a waiver to distribute, sell, or otherwise disclose identifiable or de-identified data to any individual or entity. Provided however, nothing in this subdivision shall prohibit distribution or disclosure that is otherwise explicitly authorized by this section. If an individual lacks the capacity to make a waiver, an individual authorized to consent to health care for the individual, or the individual's legal representative, may make the waiver. However, a waiver of confidentiality is not required to be written if it is solely for the purpose of arranging or providing support for the individual who is the subject of the contact tracing information, provided the consent is informed and voluntary.

(b) A waiver of confidentiality under this section shall only apply for the purpose of arranging or providing support if the individual who is the subject of the contact tracing information (or, if the individual lacks the capacity to provide informed consent, an individual authorized to consent to health care for the individual, or the individual's legal representative) provides voluntary informed consent to the arranging or providing of the support.

3. A disclosure of contact tracing information authorized under this section shall be limited in scope as to the identity of any individual, the information to be disclosed, and the party to which disclosure may be made, and as necessary to achieve the purpose of the disclosure under this section, and shall not authorize re-disclosure except as explicitly authorized by the terms of the waiver under this section. However, this section does not bar disclosure of contact tracing information pertaining to and identifying a case individual or contact individual by the individual who is identified.

4. (a) This section does not bar otherwise-lawful disclosure, possession or use of de-identified contact tracing information, including aggregate contact tracing information. Disclosure, possession or use under this subdivision shall only be for a public health or public health research or evaluation purpose as determined by the commissioner (or the commissioner of the New York city department of health and mental hygiene in the case of contact tracing information collected by or under authority of the New York city department of health and mental hygiene or the New York city health and hospitals corporation), and shall not authorize re-disclosure or other use.

(b) A person or entity may only disclose, possess or use de-identified contact tracing information if the person or entity, and the person or entity to which it is disclosed, maintains technical safeguards and policies and procedures that prevent re-identification, whether intentional or unintentional, of any individual, as may be required by the commissioner (or the New York city commissioner of health and mental hygiene in the case of contact tracing information collected by or under authority of the New York city department of health and mental hygiene or the New York city health and hospitals corporation). The commissioner

(or the New York city commissioner as the case may be) shall require safeguards, policies and procedures under this paragraph as the commissioner deems practicable.

(c) Disclosure, possession and use of de-identified contact tracing information under this subdivision shall be only pursuant to approval by the commissioner (or the New York city commissioner of health and mental hygiene in the case of contact tracing information collected by or under authority of the New York city department of health and mental hygiene or the New York city health and hospitals corporation) specifying the purpose, nature and scope of the disclosure, possession and use and measures to ensure that it will comply with this section and the terms of the approval.

5. No law enforcement agent or entity or immigration authority shall be a contact tracer or contact tracing entity or engage in contact tracing. This subdivision does not bar an individual who is associated with a law enforcement entity or immigration authority from acting only as a case individual or contact individual. This subdivision does not prevent a law enforcement agent or entity from assisting in a permitted use under paragraph (b) of subdivision eleven of section twenty-one hundred eighty of this title.

6. No contact tracer, contact tracing entity or designated non-governmental entity may provide contact tracing information to a law enforcement agent, entity or immigration authority, or any individual or entity other than the contact tracing entity from which it received the information, except as explicitly authorized by this title. Without consent under subdivision two of this section, contact tracing information and any evidence derived therefrom shall not be subject to or provided in response to any legal process or be admissible for any purpose in any judicial or administrative action or proceeding. However, this subdivision does not restrict providing information, relating to a specified case individual or contact individual, where and only to the extent necessary for a permitted purpose.

7. (a) Contact tracing entities shall establish appropriate administrative, technical and physical safeguards, policies and

procedures that ensure the security of contact tracing information under the entity's jurisdiction. The safeguards, policies and procedures must ensure contact tracing information is encrypted and protected at least as much as or more than other confidential information under the entity's jurisdiction. All storage of contact tracing information shall meet the requirements of this title. The commissioner (or the New York city commissioner of health and mental hygiene in the case of contact tracing information collected by or under authority of the New York city department of health and mental hygiene or the New York city health and hospitals corporation) shall make regulations as reasonably necessary to require that contact tracing information possessed, used or under the control of a contact tracer or contact tracing entity shall be subject to technical safeguards, policies and procedures for storage, transmission, use and protection of the information. The regulations shall prevent possession, use or disclosure of the contact tracing information not permitted by this title, and shall be at least as or more protective than the safeguards, policies and procedures the commissioner (or the New York city commissioner as the case may be) provides for other confidential information.

(b) This paragraph applies to a contact tracer or contact tracing entity that is a non-governmental individual or entity employed by or under contract with a governmental entity, or an agent thereof. Within sixty days of collecting or receiving the contact tracing information, the entity shall (i) remove information from its possession or control and deliver it to the appropriate governmental contact tracing entity or a designated non-governmental entity specified by the governmental contact tracing entity, retaining no copy of it; (ii) expunge the information from its possession or control; or (iii) de-identify the information. However, the expungement or de-identification of particular contact tracing information may be postponed for up to fifteen days after the initial sixty day period while the contact tracer or contact tracing entity is actively engaged in contact tracing using that information, provided that the case individual or contact individual to whom it pertains gives voluntary informed consent. The disclosure, possession and use of the de-identified contact tracing information shall be subject to subdivision four of this section.

§ 2182. Regulations. The commissioner shall make regulations as reasonably necessary to implement this title.

§ 2183. Immunity passports. 1. Any covered entity that requires proof of COVID-19 immunization shall permit the use of physical immunity passports. No covered entity may require digital, electronic, or smartphone-based proof of immunity. Notwithstanding this section, anyone requiring an immunization passport shall accept a valid COVID-19 Vaccination Record Card allocated to COVID-19 vaccine providers by the Centers for Disease Control and Prevention for that purpose. The provisions of this section shall apply to valid COVID-19 Vaccination Record Cards allocated to COVID-19 vaccine providers by the Centers for Disease Control and Prevention.

2. Nothing in this section requires a covered entity to require proof of COVID-19 immunity or to independently verify the information contained in an immunity passport.

3. Nothing in this section shall be construed to limit a covered entity's obligations under the Americans with Disabilities Act, article fifteen of the executive law, the civil rights law, or any other federal, state, or local anti-discrimination law.

4. Nothing in this section shall be construed to affect the practices of a health care provider, as defined in section eighteen of this chapter, a hospital or nursing home as defined in article twenty-eight of this chapter, a health practitioner as defined in section twenty-one hundred sixty-four of this chapter, a facility, as defined in section 33.13 of the mental hygiene law, or a correctional health service governed by the department of corrections and community supervision, the rules of the board of correction in the city of New York, or a county board of correction, with respect to records concerning their patients' vaccinations.

ARTICLE 21-A
**LONG-TERM CARE RESIDENT AND
EMPLOYEE IMMUNIZATION ACT**

Section 2190. Short title.

2191. Definitions.

2192. Long-term care resident and employee immunization required.

2193. Resident immunization.

2194. Employee immunization.

2195. Exceptions.

2196. Rules and regulations; report.

§ 2190. Short title. This article shall be known and may be cited as the "long-term care resident and employee immunization act".

§ 2191. Definitions. For the purposes of this article:

1. "Long-term care facility" or "facility" means a residential health care facility as defined in section twenty-eight hundred one of this chapter, adult home as defined in subdivision twenty-five of section two of the social services law or enriched housing program as defined in subdivision twenty-eight of section two of the social services law, adult day health care program in accordance with regulations of the department, and any other facility providing residential housing for five or more persons over the age of sixty-five unrelated to the operator and supportive services including, but not limited to, food service, housekeeping, laundry, arranging for medical care, and assistance with daily living.

2. "Documentation" means written evidence from an individual's health care provider indicating the date and place when the individual received the influenza vaccine or the pneumococcal vaccine.

3. "Medically contraindicated" means influenza or pneumococcal vaccine should not be administered to an individual because it may be

detrimental to the individual's health if the individual receives the vaccine.

4. "Employee" means an individual employed (whether directly, by contract with another entity or as an independent contractor) by a long-term care facility, on a part-time or full-time basis.

§ 2192. Long-term care resident and employee immunization required.

Except as provided in section twenty-one hundred ninety-five of this article, every long-term care facility in this state shall require residents and employees to be immunized for influenza virus and pneumococcal disease in accordance with regulations of the commissioner.

§ 2193. Resident immunization. 1. Upon admission, a long-term care facility shall notify the resident of the immunization requirements of this article and request that the resident agree to be immunized against influenza virus and pneumococcal disease.

2. Every long-term care facility shall document the annual immunization against influenza virus and immunization against pneumococcal disease for each resident. Upon finding that a resident is lacking such immunization or the long-term care facility or individual is unable to provide documentation that the individual has received the appropriate immunization, the long-term care facility shall provide or arrange for immunization. Immunization and the documentation thereof shall take place no later than November thirtieth of each year.

3. An individual who becomes a resident after November thirtieth but before April first shall have his or her status for influenza and pneumococcal immunization determined by the facility, and if found to be deficient, the facility shall provide or arrange for the necessary immunization.

§ 2194. Employee immunization. 1. Every long-term care facility shall

notify every employee of the immunization requirements of this article and request that the employee agree to be immunized against influenza virus and pneumococcal disease.

2. The long-term care facility shall require documentation of annual immunization against influenza virus and immunization against pneumococcal disease for each employee. Upon finding that an employee is lacking such immunization or the long-term care facility or individual is unable to provide documentation that the individual has received the appropriate immunization, the long-term care facility must provide or arrange for immunization. Immunization and the documentation thereof shall take place no later than November thirtieth of each year.

3. An individual who is newly employed as an employee after November thirtieth but before April first shall have his or her status for influenza and pneumococcal immunization determined by the facility, and if found to be deficient, the facility shall provide or arrange for the necessary immunization.

§ 2195. Exceptions. No individual shall be required to receive either an influenza vaccine or pneumococcal vaccine if the vaccine is medically contraindicated, or if it is against his or her religious beliefs, or if he or she refuses the vaccine after being fully informed of the health risks of such action.

§ 2196. Rules and regulations; report. 1. The commissioner shall promulgate regulations relating to the immunization requirements of this article, taking into consideration the recommendations of the centers for disease control and prevention.

2. The commissioner is hereby directed to make available educational and informational materials to all long-term care facilities with respect to vaccination against influenza virus and pneumococcal disease.

3. The commissioner shall report three years from the effective date

of this article to the governor, the temporary president of the senate, the speaker of the assembly, the minority leader of the senate and the minority leader of the assembly on the number of outbreaks in long-term care facilities each year due to influenza virus and pneumococcal disease and number of hospitalizations of long-term care facility residents each year due to influenza virus, pneumococcal disease and complications thereof.

ARTICLE 22

CONTROL OF TUBERCULOSIS

Title I. General provisions (§§ 2200-2207).

II. Control (§§ 2221-2230).

TITLE I

GENERAL PROVISIONS

Section 2200. Tuberculosis; definitions and explanation of terms.

2201. Tuberculosis; powers and duties of commissioner.

2202. Tuberculosis; care and treatment.

2204. Tuberculosis; removal of patients to another state or country; costs.

2205. Tuberculosis; removal of patients to this state; reciprocity agreements.

2206. Tuberculosis; administration costs; appropriations.

2207. Tuberculosis; application of law to city of New York.

§ 2200. Tuberculosis; definitions and explanation of terms. 1. (a) State residence. Under the conditions hereinafter specified, any person who has resided in the state of New York continuously for at least one year immediately preceding the date of admission to a hospital for the care and treatment of tuberculosis shall be deemed to have state residence.

(b) State residence so acquired shall continue until such person shall have removed from the state and remained therefrom for one year; provided, however, that no person shall lose state residence by absence

from the state while serving in the armed forces of the United States or in the United States merchant marine, or while attached to and serving with the armed forces of the United States and, provided, further, that no member of the family of any such person shall lose state residence by absence from the state while living with or near such person during the period of such service and on account thereof.

2. Local residence. Under the conditions hereinafter specified, any person with state residence as herein defined who has also resided within a county of the state or in the city of New York continuously for at least six months preceding the date of admission to a hospital for the care and treatment of tuberculosis shall be deemed to have local residence in such county or in the city of New York, as the case may be.

3. Qualification on residence. The continuous residence required to acquire either state residence or local residence shall not include any period during which the person was (a) a patient in a hospital, or (b) an incarcerated individual of any public institution, incorporated private institution, or private tuberculosis home, cottage or hospital, or (c) residing on any military reservation. If, however, the periods of residence immediately prior and subsequent to the periods specified in (a), (b), or (c) shall together equal the required period of residence, such person shall be deemed to have the required continuous residence.

4. State charge. State charge shall mean any person suffering from tuberculosis or suspected of having tuberculosis and in need of tuberculosis hospital care and treatment therefor who is:

- (a) without state residence;
- (b) with state residence but without local residence;
- (c) an Indian or member of his family residing upon any Indian reservation in the state.

5. Local charge. Local charge shall mean any person suffering from tuberculosis or suspected of having tuberculosis and in need of tuberculosis hospital care and treatment therefor who has acquired local residence, as defined in this article.

§ 2201. Tuberculosis; powers and duties of commissioner. 1. The commissioner shall: (a) formulate such standards as he may deem necessary in order to carry out the objectives and provisions of this article and article six of this chapter relating to state aid for the care and treatment of tuberculous patients;

(b) make a detailed study of the administration of existing public hospitals caring for tuberculous patients throughout the state, including the city of New York;

(c) make, adopt, promulgate and enforce such rules and regulations as he may deem appropriate for the facilities, operation, administration and the future conduct of public hospitals caring for tuberculous patients throughout the state including the city of New York, under the provisions of this article and article six of this chapter, and he may, from time to time, amend or repeal the same;

(d) forward a copy of such rules and regulations to the board of supervisors of each county and to the mayor of each city, eligible for state aid under this article and article six of this chapter;

(e) have full power and authority to examine any or all records, reports and other data pertaining to patients or the facilities, operation or administration of a hospital providing care or treatment of tuberculous patients for which a county or city applies for state aid;

(f) have full power and authority to examine or cause to be examined any patient in a hospital providing care or treatment for which a county or city applies for state aid;

(g) have full power and authority to make or cause to be made such laboratory tests or X-ray examinations as in his judgment may be desirable;

(h) have power and authority to recommend to counties and cities such changes in the facilities, operation or administration of public hospitals caring for tuberculous patients throughout the state, including the city of New York, as, in his judgment, are necessary for the county or city to qualify for state aid under the provisions of this article and article six of this chapter and the rules and regulations promulgated thereunder.

§ 2202. Tuberculosis; care and treatment. 1. (a) Notwithstanding any inconsistent provision of this chapter or of any other general, special or local law or city charter, when a person suffering from tuberculosis or suspected of having tuberculosis is in need of care and treatment therefor from a hospital, as defined in article twenty-eight of this chapter, or a certified home health agency which provides such care and treatment, the county or the city of New York, as the case may be, in which such person resides or is found shall provide or secure such care and treatment.

(b) The legislative body of each county and the corresponding authority of the city of New York shall designate the commissioner of health of any county or part-county health district or the city of New York or, in a county lacking a county or part-county health district, the county health director, or appropriate health officer, as the case may be, to be responsible for providing or securing such care and treatment.

(c) The cost to the hospital or other provider as established in accordance with the provisions of section twenty-eight hundred seven of this chapter relating to rates of payment of such care and treatment shall be a charge against the county or the city of New York, as the case may be, in which such person has local residence, except that third party coverage or indemnification shall first be applied against the total cost to the hospital or other provider as established in accordance with the provisions of section twenty-eight hundred seven of this chapter relating to rates of payment of the individual's care and treatment as hereinafter provided.

(d) The care and treatment of state charges, as defined in this article, shall be subject to the rules of the commissioner who may designate any local public official to act for him in emergency cases involving such state charges.

(e) Diagnoses, tests, studies or analyses for the discovery of tuberculosis and care and treatment by a hospital, as defined in article twenty-eight of this chapter, or by a certified home health agency which are provided by the state or by any county or city shall be available without cost or charge to the persons receiving such examinations, care or treatment, except that the third party coverage or indemnification shall first be applied against the total cost to the hospital or other

provider as established in accordance with the provisions of section twenty-eight hundred seven of this chapter relating to rates of payment of the individual's care and treatment as hereinafter provided.

2. Any person who volunteers to assume and pay for the cost of such hospital care and treatment or for the cost of such diagnosis, test, study or analysis shall be permitted to do so; but no state, county, city or other public official shall request or require payment or make, or cause to be made, any inquiry or investigation for the purpose of determining the ability of a person or of his legally responsible relatives to pay for diagnoses, tests, studies or analyses for the discovery of tuberculosis or for care and treatment provided by a hospital, as defined by article twenty-eight of this chapter, or by a certified home health agency except to determine if there is third party coverage or indemnification to pay or indemnify all or part of such cost to the hospital or other provider as established in accordance with the provisions of section twenty-eight hundred seven of this chapter relating to rates of payment.

3. Determinations and orders concerning liability to pay for care and treatment and the provision of care and treatment to persons suffering from tuberculosis or suspected of having tuberculosis by the state or by any county or city shall be in accordance with the rules and regulations of the commissioner and expenses incurred therefor shall be eligible for state aid reimbursement pursuant to the provisions of title two of article six of this chapter after applying against the total cost to the hospital or other provider as established in accordance with the provisions of section twenty-eight hundred seven of this chapter relating to rates of payment of the individual's treatment the amounts received from or payable by medicare, workers' compensation, medical assistance in accordance with the social services law, or other third party payers and indemnitors and less any payments made or assignable under any federal law or laws heretofore enacted, provided, however, that expenses incurred for inpatient hospital care shall be eligible for reimbursement for a period not to exceed six weeks for any individual patient during any calendar year, unless approved as necessary by the commissioner for a longer period of time.

4. If upon a review of a claim submitted for the purposes of state aid reimbursement, the county, or the part county health district, or the city of New York, or the state determine that the person was in fact eligible for third party coverage or indemnification at the time care and treatment was provided and the hospital or certified home health agency failed to make a good faith effort to determine third party coverage or indemnification, the hospital or the certified home health agency shall not receive state aid reimbursement for that claim from the county or the city of New York. The commissioner shall promulgate rules and regulations requiring recoupment or repayment from the hospital or the certified home health agency if the hospital or the certified home health agency has already received state aid reimbursement from the county or the city of New York.

§ 2204. Tuberculosis; removal of patients to another state or country; costs. 1. When any state charge, as defined in this article, who has not acquired state residence has settlement or residence or otherwise belongs to or in any other state or country, has legally responsible relatives or friends willing to undertake the obligations to support him or to aid in supporting him in such other state or country, the department may furnish him with transportation to such state or country, provided, in the judgment of the commissioner the interest of the state and the welfare of such person will be promoted thereby.

2. The commissioner shall designate or employ nurses or attendants to accompany such persons being removed out of the state unless it appears that such persons are in suitable condition to travel alone with safety.

3. The expense of such removal shall be paid from the state treasury on the audit and warrant of the comptroller pursuant to a verified account submitted by the department, and the commissioner shall thereupon seek reimbursement for such expense from the state or country of residence.

§ 2205. Tuberculosis; removal of patients to this state; reciprocity agreements. 1. The commissioner may make reciprocal agreements with state officials or agencies of other states regarding interstate transportation of state charges without state residence and to arrange for the acceptance and tuberculosis hospital care and treatment of persons receiving similar public care and treatment in other states in accordance with the terms of such reciprocal agreements, but this state shall not, nor shall any county or city be committed to such care and treatment of persons who are not, in the opinion of the commissioner, entitled to such public care and treatment by the laws of this state.

2. No agreement made pursuant to the provisions of this section shall become effective until the attorney general has approved its form and sufficiency.

§ 2206. Tuberculosis; administration costs; appropriations. The appropriations made or to be made for the purposes of carrying out the provisions of this article and article six of this chapter providing for state aid for tuberculous patients shall be available, in accordance with certificates of approval issued or to be issued by the director of the budget, to the commissioner for the payment of expenses of personal service and other maintenance and operation, including purchase of equipment and the purchase of passenger automobiles and for travel outside the state, necessary for the administration of this article.

§ 2207. Tuberculosis; application of law to city of New York. All of the provisions of sections two thousand two hundred to two thousand two hundred seven, inclusive, of this chapter, shall apply throughout the entire state and to each county and city thereof, including the city of New York.

TITLE II

CONTROL

Section 2221. Tuberculosis; records of tuberculous patients;

confidential.

- 2222. Tuberculosis; protection of patient's family; duty of physicians and health officers.
- 2223. Tuberculosis; carelessness of patients; violation and penalty; duty of health officer.
- 2224. Tuberculosis; false reports; violation and penalty.
- 2225. Tuberculosis; recovery of patient; duty to report.
- 2226. Tuberculosis; death or removal of patient from premises; notice to health officer.
- 2227. Tuberculosis; duty of public health council.
- 2229. Tuberculosis; vaccine and vaccination.
- 2230. Tuberculosis; violations and penalties.

§ 2221. Tuberculosis; records of tuberculous patients; confidential.

Reports of tuberculous patients made pursuant to law and the sanitary code and also all records of examinations of such patients shall not be open to inspection by any person other than the health authorities of the state and of the local health district, and said health authorities shall not permit any such report or record to be divulged so as to disclose the identity of the person to whom it relates, except as may be authorized in the sanitary code.

§ 2222. Tuberculosis; protection of patient's family; duty of physicians and health officers. 1. It shall be the duty of a physician attending a patient having tuberculosis to take all proper precautions and to give proper instructions to provide for the safety of all individuals occupying the same house or apartment, and if no physician be attending such patient this duty shall devolve upon the state district health officer or local health officer.

2. All duties imposed upon physicians by any sections of this article shall be performed by the state district health officer or local health officer in all cases of tuberculosis not attended by a physician, or when the physician fails to perform the duties herein specified.

§ 2223. Tuberculosis; carelessness of patients; violation and penalty; duty of health officer. 1. Any person having tuberculosis who shall dispose of his sputum, saliva or other bodily secretion or excretion so as to cause offense or danger to any person or persons occupying the same room or apartment, house, or part of a house, shall on complaint of any person or persons subjected to such offense or danger, be deemed guilty of a nuisance and any persons subjected to such a nuisance may make complaint in person or writing to the health officer of the local health district where the nuisance complained of is committed.

2. It shall be the duty of the local health officer receiving such complaint to investigate and if it appears that the nuisance complained of is such as to cause offense or danger to any person occupying the same room, apartment, house or part of a house, he shall serve a notice upon the person so complained of, reciting the alleged cause of offense or danger and requiring him to dispose of his sputum, saliva or other bodily secretion or excretion in such a manner as to remove all reasonable cause of offense or danger.

3. Any person failing or refusing to comply with orders or regulations of the local health officer requiring him to cease to commit such nuisance, shall be deemed guilty of a misdemeanor and on conviction thereof shall be fined not more than ten dollars.

§ 2224. Tuberculosis; false reports; violation and penalty. Any physician or person practicing as a physician who shall wilfully make any false statement concerning the name, age, sex, color, occupation, place where last employed if known, or address of any person reported as affected with tuberculosis, or who shall certify falsely as to any of the precautions taken to prevent the spread of infection, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be subject to a fine of not more than one hundred dollars.

§ 2225. Tuberculosis; recovery of patient; duty to report. Upon the

recovery of any person having tuberculosis, it shall be the duty of the attending physician to make a report of this fact to the proper health officer, who shall record the same in the records of his office, and shall relieve said person from further liability to any requirements imposed by this article.

§ 2226. Tuberculosis; death or removal of patient from premises; notice to health officer. In case of the vacation of any apartment or premises by the death or removal therefrom of a person having tuberculosis, it shall be the duty of the attending physician, or if there be no such physician, or if such physician be absent, of the owner, lessee, occupant, or other person having charge of the said apartment or premises, within twenty-four hours thereafter, to notify the health officer of the local health district of said death or removal.

§ 2227. Tuberculosis; duty of public health council. The public health council shall include in the sanitary code regulations defining the methods and precautions to be observed in disinfecting, cleansing, or renovating premises under the provisions of this article.

§ 2229. Tuberculosis; vaccine and vaccination. 1. No vaccine shall be used for the purpose of inducing immunity against tuberculosis in humans in this state unless produced in accordance with regulations established or approved by the commissioner.

2. Vaccination with such approved vaccine shall be performed only in accordance with regulations established by the commissioner.

§ 2230. Tuberculosis; violations and penalties. Any person violating any of the provisions of sections two thousand two hundred twenty to two thousand two hundred twenty-six, inclusive, of this chapter shall be deemed guilty of a misdemeanor and upon conviction thereof shall be

subject, except as in this article otherwise provided, to a fine of not less than five dollars nor more than fifty dollars.

ARTICLE 23

CONTROL OF SEXUALLY TRANSMITTED DISEASES

Title I. Care and treatment (§§ 2304-2312).

II. Houses of prostitution: injunction and abatement (§§ 2320-2334).

TITLE I

CARE AND TREATMENT

- Section 2304. Sexually transmitted diseases; treatment facilities; administration.
2305. Sexually transmitted diseases; treatment by licensed physician or staff physician of a hospital; prescriptions.
2306. Sexually transmitted diseases; reports and information, confidential.
2307. Venereal disease; person knowing himself to be infected.
2308. Sexually transmitted disease; pregnant women; blood test for syphilis.
- 2308-a. Sexually transmitted diseases; tests for sexually transmitted diseases.
2311. Sexually transmitted disease list.
2312. Expedited partner therapy for chlamydia trachomatis infection and other sexually transmitted infections.

§ 2304. Sexually transmitted diseases; treatment facilities; administration. 1. It shall be the responsibility of each board of health of a health district to provide adequate facilities for the diagnosis and treatment of persons living within its jurisdiction who are suspected of being infected or are infected with a sexually transmitted disease.

2. The health officer of said health district shall administer these facilities directly or through contract and shall promptly examine or arrange for the examination of persons suspected of being infected with a sexually transmitted disease, and shall promptly institute treatment or arrange for the treatment of those found or otherwise known to be infected with a sexually transmitted disease, provided that any person may, at his option, be treated at his own expense by a licensed physician of his choice.

3. The facilities provided by the board of health and the administration of these facilities by the health officer shall comply with requirements of the commissioner.

4. Each board of health and local health officer shall ensure that diagnosis and treatment services are available and, to the greatest extent practicable, seek third party coverage or indemnification for such services; provided, however, that no board of health, local health officer, or other municipal officer or entity shall request or require that such coverage or indemnification be utilized as a condition of providing diagnosis or treatment services.

5. The term "health officer" as used in this article shall mean a county health officer, a city health officer, a town health officer, a village health officer, the health officer of a consolidated health district or a state district health officer.

§ 2305. Sexually transmitted diseases; treatment by licensed physician or staff physician of a hospital; prescriptions. 1. No person, other than a licensed physician, or, in a hospital, a staff physician, shall diagnose, treat or prescribe for a person who is infected with a sexually transmitted disease, or who has been exposed to infection with a sexually transmitted disease, or dispense or sell a drug, medicine or remedy for the treatment of such person except on prescription of a duly licensed physician.

2. A licensed physician, or in a hospital, a staff physician, may

diagnose, treat or prescribe for a person under the age of twenty-one years without the consent or knowledge of the parents or guardian of said person, where such person is infected with a sexually transmitted disease, or has been exposed to infection with a sexually transmitted disease.

3. For the purposes of this section, the term "hospital" shall mean a hospital as defined in article twenty-eight of this chapter.

§ 2306. Sexually transmitted diseases; reports and information, confidential. All reports or information secured by a board of health or health officer under the provisions of this article shall be confidential except in so far as is necessary to carry out the purposes of this article. Such report or information may be disclosed by court order in a criminal proceeding in which it is otherwise admissible or in a proceeding pursuant to article ten of the family court act in which it is otherwise admissible, to the prosecution and to the defense, or in a proceeding pursuant to article ten of the family court act in which it is otherwise admissible, to the petitioner, respondent and attorney for the child, provided that the subject of the report or information has waived the confidentiality provided for by this section except insofar as is necessary to carry out the purposes of this article. Information may be disclosed to third party reimbursers or their agents to the extent necessary to reimburse health care providers for health services; provided that, when necessary, an otherwise appropriate authorization for such disclosure has been secured by the provider. A person waives the confidentiality provided for by this section if such person voluntarily discloses or consents to disclosure of such report or information or a portion thereof. If such person lacks the capacity to consent to such a waiver, his or her parent, guardian or attorney may so consent. An order directing disclosure pursuant to this section shall specify that no report or information shall be disclosed pursuant to such order which identifies or relates to any person other than the subject of the report or information. Reports and information may be used in the aggregate in programs approved by the commissioner for the improvement of the quality of medical care provided to persons with

sexually transmitted diseases; or with patient identifiers when used within the state or local health department by public health disease programs to assess co-morbidity or completeness of reporting and to direct program needs, in which case patient identifiers shall not be disclosed outside the state or local health department except as otherwise provided for in this section.

§ 2307. Venereal disease; person knowing himself to be infected. Any person who, knowing himself or herself to be infected with an infectious venereal disease, has sexual intercourse with another shall be guilty of a misdemeanor.

§ 2308. Sexually transmitted disease; pregnant persons; blood test for syphilis. 1. Every physician or other authorized practitioner attending pregnant persons in the state shall in the case of every person so attended take or cause to be taken a sample of blood of such person at the time of first examination, and submit such sample to an approved laboratory for a standard serological test for syphilis. In addition to testing at the time of first examination, every such physician or other authorized practitioner shall order a syphilis test during the third trimester of pregnancy consistent with any guidance and regulations issued by the commissioner.

2. Every other person permitted by law to attend upon pregnant women in the state but not permitted by law to take blood tests, shall cause a sample of the blood of such pregnant woman to be taken promptly by a duly licensed physician and submitted to an approved laboratory for a standard serological test for syphilis.

3. The term "approved laboratory" means a laboratory approved for the purpose as herein provided by the department, or in the city of New York by the department of health of such city.

4. A standard serological test for syphilis is one recognized as such by the department or in the city of New York by the department of health

of such city.

§ 2308-a. Sexually transmitted diseases; tests for sexually transmitted diseases. 1. The administrative officer or other person in charge of a clinic or other facility providing gynecological, obstetrical, genito-urological, contraceptive, sterilization or termination of pregnancy services or treatment shall require the staff of such clinic or facility to offer to administer to every resident of the state of New York coming to such clinic or facility for such services or treatment, appropriate examinations or tests for the detection of sexually transmitted diseases.

2. Each physician providing gynecological, obstetrical, genito-urological, contraceptive, sterilization, or termination of pregnancy services or treatment shall offer to administer to every resident of the state of New York coming to such physician for such services or treatment, appropriate examinations or tests for the detection of sexually transmitted diseases.

§ 2311. Sexually transmitted disease list. The commissioner shall promulgate a list of sexually transmitted diseases, such as gonorrhea and syphilis, for the purposes of this article. The commissioner, in determining the diseases to be included in such list, shall consider those conditions principally transmitted by sexual contact, other sections of this chapter addressing communicable diseases and the impact of particular diseases on individual morbidity and the health of newborns.

§ 2312. Expedited partner therapy for chlamydia trachomatis infection and other sexually transmitted infections. 1. Notwithstanding any other provision of law and consistent with section two thousand three hundred five of this title, a health care practitioner (who is authorized under title eight of the education law to diagnose and prescribe drugs for sexually transmitted chlamydia trachomatis infection and other sexually

transmitted infections, acting within his or her lawful scope of practice) who diagnoses a sexually transmitted chlamydia trachomatis infection or other sexually transmitted infection in an individual patient may prescribe, dispense, furnish, or otherwise provide prescription antibiotic drugs for the sexually transmitted infections for which the Centers for Disease Control and Prevention recommends the use of expedited partner therapy to that patient's sexual partner or partners without examination of that patient's partner or partners.

2. A health care practitioner who reasonably and in good faith renders expedited partner therapy in accordance with this section and following the rules and regulations promulgated by the commissioner shall not be subject to civil or criminal liability or be deemed to have engaged in unprofessional conduct.

3. The commissioner shall promulgate rules and regulations concerning the implementation of this section and shall also develop forms for patients and their partners explaining expedited partner therapy for a chlamydia trachomatis infection and other sexually transmitted infections for which the Centers for Disease Control and Prevention recommends the use of expedited partner therapy. Such forms shall be written in a clear and coherent manner using words with common, everyday meanings.

TITLE II

HOUSES OF PROSTITUTION: INJUNCTION AND ABATEMENT

- Section 2320. Houses of prostitution; equipment; nuisance.
2321. Houses of prostitution; injunction; jurisdiction, complaint and parties to the action.
2322. Houses of prostitution; injunction; service of summons.
2323. Houses of prostitution; injunction; temporary restraining order; service.
2324. Houses of prostitution; injunction; trial of action.
- 2324-a. Presumptive evidence.
2325. Houses of prostitution; injunction; withdrawal of complaint.

- 2326. Houses of prostitution; injunction; dismissal; costs against plaintiff.
- 2327. Houses of prostitution; injunction; scope; violation.
- 2328. Houses of prostitution; injunction; penalty for violation.
- 2329. Houses of prostitution; injunction; order of abatement; sale and removal of property; fees.
- 2330. Houses of prostitution; abatement; breaking, entering or using closed building.
- 2331. Houses of prostitution; abatement; proceeds.
- 2332. Houses of prostitution; abatement; release of property on filing bond.
- 2333. Houses of prostitution; injunction proceedings; witnesses and officers fees.
- 2334. Houses of prostitution; criminal proceeding; duty of district attorney.

§ 2320. Houses of prostitution; equipment; nuisance. 1. Whoever shall erect, establish, continue, maintain, use, own, or lease any building, erection, or place used for the purpose of lewdness, assignation, or prostitution is guilty of maintaining a nuisance.

2. The building, erection, or place, or the ground itself, in or upon which any lewdness, assignation, or prostitution is conducted, permitted, or carried on, continued, or exists, and the furniture, fixtures, musical instruments, and movable property used in conducting or maintaining such nuisance, are hereby declared to be a nuisance and shall be enjoined and abated as hereafter provided.

§ 2321. Houses of prostitution; injunction; jurisdiction, complaint and parties to the action. 1. When a nuisance is kept, maintained, or exists, as defined in this article, the district attorney, or any citizen of the county, or any society, association, or body incorporated under the laws of this state, may maintain an action in equity in the name of the people of the state of New York, upon the relation of such

district attorney, citizen, or corporation to perpetually enjoin said nuisance, the person or persons conducting or maintaining the same from further conducting or maintaining the same, and the owner, or agent of the building or ground upon which said nuisance exists, from further permitting such building or ground or both to be so used.

2. Such action shall be brought in the supreme court of the county in which the property is situated.

3. The complaint in such action shall be verified and shall set forth the facts constituting the nuisance complained of, and may at or before the commencement of the action be filed in the office of the clerk of the county, together with a notice of the pendency of the action, stating the names of the parties and the object of the action, and containing a brief description of the property, real and personal, in the county affected thereby.

4. Upon the verified complaint and upon such other proof as the court may require, and notwithstanding any other provision of law to the contrary, the supreme court, or a justice of the supreme court, may, without a hearing and without notice, grant an injunction order, restraining the defendants and each of them from continuing such nuisance, and from removing, or in any manner interfering with, the furniture, fixtures, musical instruments and movable property used in conducting such nuisance, and described and set forth in the complaint, and in such order fix a time of hearing at a term of the supreme court to be held in such county, for an order continuing such injunction order during the pendency of the action.

5. Such injunction order shall be served, together with a copy of the complaint and the affidavits, if any, upon which the same was granted, personally upon the defendants, or by leaving copies thereof with a person of full age, if any such person be found at the premises described in the complaint, or by posting at or on the main entrance to the building on such premises, copies thereof, on or before the time fixed for such service in such injunction order. The defendants, or any of them, may upon such hearing submit proof by affidavits, and the

plaintiff may submit additional proof by affidavits. If it appears upon such hearing that there is probable proof of the maintenance of such nuisance, the court may continue the injunction order during the pendency of the action.

6. No bond or undertaking shall be required as a condition of granting or continuing such injunction order, or orders.

7. The person in whose name the real estate affected by the action is recorded in the county clerk's office shall be presumed to be the owner thereof.

8. The owner and any person having any claim or lien against the real or personal property affected by the action shall be made parties defendant. If any such persons be unknown to the relator such unknown persons shall be designated as "all other persons unknown claiming any ownership, right, title, or interest in the property affected by this action."

§ 2322. Houses of prostitution; injunction; service of summons. The summons in an action provided by section two thousand three hundred twenty-one of this chapter, may be served as in a civil action except that, in case service by publication is ordered, the mailing of a copy of the order and the summons to the defendant may be dispensed within the order and the order may provide that such publication in a paper published daily in the city where the property affected by the action is located, twice a week for two weeks, will be sufficient publication, in which case service will be deemed completed upon the date of last publication; and except that where personal service is made without the state, the service will be deemed completed upon the date of such personal service.

§ 2323. Houses of prostitution; injunction; temporary restraining order; service. 1. Where a permanent or temporary injunction is prayed for, the court, or judge in vacation, on the application of the

plaintiff, may issue an ex parte restraining order, restraining the defendants and all other persons from removing or in any manner interfering with the furniture, fixtures, musical instruments and movable property used in conducting the alleged nuisance, until the decision of the court or judge granting or refusing such temporary injunction and until the further order of the court thereon.

2. The restraining order may be served by handing to and leaving a copy of said order with any person in charge of said property or residing in the premises, and by posting a copy thereof in a conspicuous place at or upon one or more of the principal doors at entrances of such premises where such nuisance is alleged to be maintained, or by either such delivery or posting.

3. The officers serving such restraining order shall forthwith make and return into court an inventory of the personal property situated in and used in conducting or maintaining said nuisance and shall enter upon the premises for such purpose.

4. Where such order is so posted, mutilation or removal thereof, while the same remains in force, shall be a contempt of court, provided such posted order contains thereon or therein a notice to that effect.

§ 2324. Houses of prostitution; injunction; trial of action. 1. The action for a permanent injunction instituted pursuant to this article, shall be triable at the first term of the supreme court after due and timely notice has been served as in other actions.

2. If the complaint be uncontroverted it shall be deemed true without further proof.

3. (a) In such action evidence of the common fame and general reputation of the place, of the inmates or occupants thereof, or of those resorting thereto, shall be competent evidence to prove the existence of the nuisance.

(b) An admission or finding of guilt of any person of a violation of

section 230.40 of the penal law at such place shall be presumptive evidence of the nuisance, and a plea of guilty or a conviction in a criminal action of maintaining a nuisance at the place described in the complaint shall be prima facie evidence of the nuisance, and the records of any court in the jurisdiction shall be admissible as evidence to prove the conviction or plea of guilty.

(c) If evidence of the general reputation of the place, or of the inmates or occupants thereof, is sufficient to establish the existence of a nuisance it shall be prima facie evidence of knowledge thereof and acquiescence and participation therein and responsibility for the nuisance, on the part of the owners, lessors, lessees, users, and all those in possession of or having charge of, as agent or otherwise, or having any interest in any form of property, real or personal, used in conducting or maintaining said nuisance.

§ 2324-a. Presumptive evidence. For the purposes of this title, two or more convictions of any person or persons had, within a period of one year, for any of the offenses described in section 230.00, 230.05, 230.06, 230.08, 230.11, 230.12, 230.13, 230.20, 230.25, 230.30, 230.32 or 230.34-a of the penal law arising out of conduct engaged in at the same real property consisting of a dwelling as that term is defined in subdivision four of section four of the multiple dwelling law shall be presumptive evidence of conduct constituting use of the premises for purposes of prostitution.

§ 2325. Houses of prostitution; injunction; withdrawal of complaint.
1. If the complaint in an action instituted pursuant to the provisions of this article, is filed by any person or association, it shall not be dismissed except upon a sworn statement made by the complainant and his attorney, setting forth the reasons why the action should be dismissed, and the dismissal approved by the district attorney in writing or in open court.

2. If the judge is of the opinion that the action should not be dismissed, he may direct the district attorney to prosecute said action

to judgment, and if the action is continued more than one term of court, except for good cause shown, any citizen of the county or the district attorney may be substituted for the complaining party and prosecute said action to judgment.

§ 2326. Houses of prostitution; injunction; dismissal; costs against plaintiff. If an action instituted pursuant to the provisions of this article, is brought by any person or association and the court finds there were not reasonable grounds or cause for said action the costs may be taxed against such person or association.

§ 2327. Houses of prostitution; injunction; scope; violation. 1. When an injunction has been granted pursuant to the provisions of this article, it shall be binding on each defendant throughout the state, and any violation of the provisions of the injunction or temporary restraining order herein provided, shall be a contempt and punished as hereinafter provided.

2. In case of a violation of any injunction granted under the provisions of this article, or of a restraining order or the commission of any contempt of court in proceedings under this article the court, or in vacation a judge thereof, may summarily try and punish the offender.

3. The contempt proceedings shall be commenced by filing with the clerk of the court a complaint under oath, setting out and alleging the facts constituting such violation, upon which the court or judge shall cause a warrant to issue, under which the defendant shall be arrested. The trial may be had upon affidavits, or either party may demand the production and oral examination of the witnesses.

§ 2328. Houses of prostitution; injunction; penalty for violation. A party found guilty of contempt under the provisions of this article shall be punished by a fine of not less than three hundred nor more than one thousand dollars or by imprisonment for not less than three nor more

than six months or by both fine and imprisonment, for the first offense, and for the second and each subsequent offense shall be imprisoned for one year.

§ 2329. Houses of prostitution; injunction; order of abatement; sale and removal of property; fees. 1. If the existence of the nuisance be admitted or established in an action as provided in this article, or in a criminal proceeding in any court, an order of abatement shall be entered as a part of the judgment in the case, which order shall direct the removal from the building or place of all fixtures, furniture, musical instruments, or movable property used in conducting the nuisance and shall direct the sale of such in the manner provided for the sale of chattels under execution, and shall direct the effectual closing of the building, erection or place against its use for any purpose, and so keeping it closed for a period of one year, unless sooner released as hereinafter provided. Such closing, however, shall not be deemed, in any manner or form, to be an assumption of the supervision and care of the building, erection or place by any officer authorized to act pursuant to this section, if provision is made in the order of abatement that the owner or lessor of the building, erection or place shall be permitted access to supervise and maintain the building, erection or place. In cities having a population of one million or more, the order of abatement which shall be entered pursuant to this section may, in addition to or in lieu of the provisions set forth in this subdivision, direct the commissioner of the department of buildings of such city, or such other competent city official as may be appropriate, to issue an order to vacate for the purpose of assisting in the effectual closing of the building pursuant to this section. The issuance of such order to vacate and the closing of the building, erection or place in accordance therewith shall not be deemed, in any manner or form, an assumption of the supervision and care of the building, erection or place by any city authorized to act pursuant to this subdivision, if provision is made in the order of abatement that the owner or lessor of the building, erection or place shall be permitted access to supervise and maintain the building, erection or place.

2. For removing and selling the movable property, the officer shall be entitled to a charge and receive the same fees as he would for levying upon and selling like property, on execution and for closing the premises and keeping it closed a reasonable sum shall be allowed by the court.

§ 2330. Houses of prostitution; abatement; breaking, entering or using closed building. If any person shall break and enter, or use a building, erection, or place directed to be closed pursuant to the provisions of this article, he shall be punished as for contempt as provided in this article.

§ 2331. Houses of prostitution; abatement; proceeds. 1. All moneys collected under the provisions of sections two thousand three hundred twenty to two thousand three hundred thirty-four, inclusive, of this chapter, shall be paid to the county treasurer.

2. The proceeds of the sale of the personal property as provided in section two thousand three hundred twenty-nine of this chapter, shall be applied in payment of the costs of the action and abatement or so much of such proceeds as may be necessary, except as hereinafter provided.

§ 2332. Houses of prostitution; abatement; release of property on filing bond. 1. If the owner of the premises in which a nuisance, as defined in this article, has been maintained appears and pays all costs of the proceeding and files a bond with sureties to be approved by the court in the full value of the property, to be ascertained by the court, or in vacation by the judge thereof, conditioned that he will immediately abate said nuisance and prevent the same from being established, or kept therein within a period of one year thereafter, the court, or in vacation the judge, if satisfied of his good faith, may order the premises, closed or sought to be closed under the order of abatement, delivered to said owner, and said order of abatement cancelled so far as the same may relate to said real property.

2. The release of the property under the provisions of this section shall not release it from the injunction herein provided against the property nor any of the defendants nor from any judgment, lien, or liability to which it may be subject by law.

§ 2333. Houses of prostitution; injunction proceedings; witnesses and officers fees. In any action brought to enjoin and abate a nuisance, as defined in this article, no officer or witness shall be entitled to receive in advance fees for service or attendance.

§ 2334. Houses of prostitution; criminal proceedings; duty of district attorney. 1. In case the existence of a nuisance as defined in this article, is established, in a criminal action in a court other than the supreme court it shall be the duty of the district attorney to proceed promptly under the provisions of this article to enforce the provisions and penalties thereof.

2. The conviction of the defendant in such criminal action, unless reversed or set aside, shall be conclusive as against such defendant as to the existence of the nuisance.

ARTICLE 24

CONTROL OF MALIGNANT DISEASES

Title I. General provisions (§§ 2400--2404-d).
 I-A. Cancer Detection and Education Program (§§ 2405--2409-a).
 I-B. Health Research Science Board (§§ 2410-2413).
 II. State institute for the study of malignant diseases
 (§§ 2420-2423).

TITLE I

GENERAL PROVISIONS

Section 2400. Cancer; powers and duties of commissioner.

- 2401. Cancer; duty to report.
- 2401-a. Skin cancer reporting.
- 2401-b. Cancer incidence and environmental facility maps.
- 2402. Cancer; reports confidential.
- 2403. Cancer; compulsory submission for supervision or inspection not required.
- 2404. Breast cancer; duty to inform.
- 2404-a. Prostate cancer; duty to inform.
- 2404-b. Breast cancer; duty of providers of mammography services to ascertain and provide clinical breast examination information.
- 2404-c. Breast cancer; duty of providers of mammography services to notify and inform.
- 2404-d. Breast cancer; duty to provide extended hours.

§ 2400. Cancer; powers and duties of commissioner. The commissioner shall conduct investigations of the cause, mortality, methods of treatment, prevention and cure of cancer, and allied diseases, including the nature and extent of the facilities available in the several counties and cities of the state, for the diagnosis and treatment of these diseases, and shall cooperate with local health authorities, physicians, hospitals, clinics and voluntary associations, in the development of suitable facilities for the diagnosis, treatment and control of cancer.

§ 2401. Cancer; duty to report. 1. Every physician, dentist and other health care provider shall give notice immediately but not later than one hundred eighty days of every case of cancer or other malignant disease coming under his or her care, to the department, except as otherwise provided.

2. Whenever an examination of a tissue specimen in a laboratory discloses the existence of cancer or other malignant disease, the person in charge of such laboratory or the person making such examination shall immediately but not later than one hundred eighty days report the same

together with all the facts in connection therewith to the department.

3. The person in charge of every cancer reporting facility shall immediately but not later than one hundred eighty days give notice of every case of cancer or malignant disease coming under the care of the institution to the department.

4. All abstracting work performed by a cancer reporting facility pursuant to the reporting provisions of this section shall be performed by a certified tumor registrar. Cancer reporting facilities may establish consortia to engage a certified tumor registrar to perform the reporting requirements of this section. A "certified tumor registrar" is an individual certified by a nationally recognized not-for-profit organization which certifies tumor registrars. The provisions of this subdivision shall not apply to any cancer reporting facility which renders services for one hundred or fewer cases of cancer and malignant disease per year as determined by the commissioner.

5. The department shall establish and update as necessary a manual designating which specific data elements shall be reported to the department pursuant to this section. The department shall make such manual available to every cancer reporting facility, physician, dentist and other health care provider required to comply with the provisions of this section.

6. The department shall establish and update as necessary a data dictionary to standardize information interpretation of data elements reported by cancer reporting facilities and other health care providers. The department shall make such dictionary available to every cancer reporting facility, physician, dentist and other health care provider required to comply with the provisions of this section.

7. The department shall, to the extent funds are made available, establish or contract for regional training programs to provide training to any cancer reporting facility, physician, dentist or other health care provider required to comply with the provisions of this section. Such regional training programs shall provide training relating to the

specific data elements which must be reported pursuant to this section, the data dictionary established pursuant to this section, and any other subjects which are intended to ensure quality, timely and complete compliance with this section.

8. The department shall, meet cancer registry goals established by a nationally recognized central cancer registry organization unless any such goal is contrary to any provision of law.

9. Where a cancer reporting facility fails to comply with the provisions of this section, the department may elect to perform registry services for such facility. Such cancer reporting facility shall reimburse the department for actual expenses incurred.

10. A physician, dentist, laboratory, cancer reporting facility or other health care provider which violates any provision of this section shall be subject to a civil penalty as provided in section twelve of this chapter.

11. The notices required by this section shall be upon forms supplied by the commissioner and shall contain such information as shall be required by the commissioner.

12. For the purpose of this section, a "cancer reporting facility" means a hospital as defined in article twenty-eight of this chapter, clinic or any organization certified pursuant to article forty-four of this chapter, or other similar public or private institution.

13. The commissioner shall have the power to promulgate any such rules and regulations as shall be necessary and proper to effectuate the purposes of this section.

§ 2401-a. Skin cancer reporting. The department shall submit a written report every three years, commencing January first, two thousand eighteen, to the governor and the legislature on the incidence of skin cancer in the state of New York, by type and as a percentage of the

overall number of reported cases of all types of cancer, as well as the associated causes of each type of skin cancer, if such causes are readily ascertainable. Such report shall be generated based on data gathered and reviewed pursuant to this title, and shall provide information which is as current as practicable; provided, however, a retrospective of the past ten years of information collected pursuant to this title and predominant trends associated with such information, as concerns skin cancer and its associated causes, shall be a component of such report and each report submitted thereafter. At the discretion of the commissioner, such reports may provide additional information other than the information required by this section. The first report created pursuant to this section shall be submitted one year after the effective date of this section. The reports generated pursuant to this section shall be made available to the public on the department's website.

*** § 2401-b. Cancer incidence and environmental facility maps.** 1. For purposes of this section, "environmental facility" shall have the same meaning as provided in section 3-0317 of the environmental conservation law.

2. For purposes of this section, "cancer incidence and environmental facility maps technical advisory group" or "technical advisory group" shall mean the environmental public health tracking program technical advisory group required by a cooperative agreement between the department and the federal centers for disease control and prevention.

3. The technical advisory group shall make recommendations to the department on the appropriate use and communication of the cancer incidence and environmental facility maps. Such recommendations shall consider the scientific strengths and limitations of such mapping and overlay methodologies for cancer tracking and geospatial linking to significant disease risk factors, and the appropriate means for communicating such strengths and limitation to the public in an easily discernible manner. The department shall consider the recommendations of the technical advisory group when making the maps required by this section available to the public.

4. The department, in consultation with the department of environmental conservation and the technical advisory group, shall establish and maintain a computer mapping system for plotting cancer incidence and environmental facilities throughout the state, including but not limited to cancer clusters. Such maps shall overlay locations of environmental facilities with cancer incidences.

5. Cancer incidence and environmental facility maps shall include data on the incidence of the following cancer types:

- (a) lung and bronchus;
- (b) female breast;
- (c) urinary bladder (including in situ);
- (d) brain and other nervous system;
- (e) colon and rectum;
- (f) non-Hodgkin lymphomas;
- (g) leukemias;
- (h) thyroid;
- (i) liver/intrahepatic bile duct;
- (j) kidney and renal pelvis;
- (k) prostate;
- (l) oral cavity and pharynx;
- (m) stomach;
- (n) esophagus;
- (o) larynx;
- (p) pancreas;
- (q) corpus uterus;
- (r) ovary;
- (s) testis;
- (t) mesothelioma;
- (u) bone;
- (v) nasal and nasopharynx; and
- (w) soft tissue sarcomas.

6. Plotting of data for cancer incidence and environmental facility maps shall be by census block, except in cases where such plotting could disclose the identity of any person to whom the data relate, in which

case census blocks shall be aggregated for plotting to protect the identity of such person. When such aggregation is required, the department shall utilize the minimum number of census blocks practicable to protect the identity of such person.

7. By March first, two thousand eleven the department shall make available to the public information on cancer as designated by the environmental public health tracking program of the centers for disease control and prevention, and, in consultation with the department of environmental conservation, current data on locations and type of environmental facilities.

8. By June thirtieth, two thousand eleven the department shall make available to the public cancer incidence and environmental facility maps which show available information on the location of environmental facilities and the total number of reported cancers by census block and associated data for each reported cancer type listed in subdivision five of this section.

9. The department shall make available to the public cancer incidence and environmental facility maps in the manner described in subdivision four of this section showing cancer clusters by cancer types. Prior to plotting such data, the department shall use an appropriate statistical method to detect statistical anomalies for the purpose of identifying cancer clusters.

The department shall make such maps available on its public website, and shall, in consultation with the department of environmental conservation, update the maps not less than once every five years.

* NB Repealed May 1, 2028

§ 2402. Cancer; reports confidential. The reports of cancer cases made pursuant to the provisions of this article shall not be divulged or made public so as to disclose the identity of any person to whom they relate, by any person, except in so far as may be authorized in the sanitary code.

§ 2403. Cancer; compulsory submission for supervision or inspection not required. Nothing in this article shall be construed to compel any individual to submit to medical or health department supervision or inspection.

§ 2404. Breast cancer; duty to inform. 1. The commissioner shall develop a standardized written summary, in plain non-technical language, which shall explain the alternative medically viable methods of treating breast cancer, including but not limited to hormonal, radiological, chemotherapeutic or surgical treatments, or combinations thereof. The summary shall contain information on breast or chest wall reconstructive surgery, including but not limited to, the use of breast implants, their side effects, risks and other pertinent information to aid a person in deciding on a course of treatment. Chest wall reconstructive information shall include information on aesthetic flat closure as such term is defined by the National Cancer Institute.

1-a. The informational summary shall also include an explanation of the special provisions relating to mastectomy, lymph node dissection, or lumpectomy, and breast or chest wall reconstructive surgery coverage, and second opinion coverage (including out-of-network options) under the insurance law and section twenty-eight hundred three-o of this chapter, and suggest that patients undergoing such procedures check their health plans and/or insurance policies for the details of their coverage.

2. The standardized written summary for alternative breast cancer treatments shall be provided by a physician to each person under his care who has been diagnosed to be afflicted with breast cancer upon said diagnosis, or as soon thereafter as practicable.

3. The summary shall be updated as is necessary.

4. Nothing in this section shall be construed to create a cause of action for lack of informed consent in any instance in which such cause

of action would be limited by section twenty-eight hundred five-d of this chapter.

§ 2404-a. Prostate cancer; duty to inform. 1. The commissioner shall develop a standardized written summary, in plain non-technical language, which shall explain the following:

(a) the symptoms and risk factors for prostate cancer;

(b) the available methods for the detection and diagnosis of prostate cancer, including information on the relative accuracy of the available detection and diagnostic techniques;

(c) the availability of insurance coverage for diagnostic screening for prostate cancer without cost sharing pursuant to subparagraph (B) of paragraph eleven-a of subsection (i) of section three thousand two hundred sixteen, subparagraph (B) of paragraph eleven-a of subsection (1) of section three thousand two hundred twenty-one and paragraph two of subsection (z-1) of section four thousand three hundred three of the insurance law; and

(d) the alternative medically viable methods of treating prostate cancer, including but not limited to hormonal, radiological, chemotherapeutic or surgical treatments, or combinations thereof. The summary shall contain information on prostate post-treatment risks and other pertinent information to aid a person in deciding a course of treatment. The summary shall be updated as is necessary.

2. The summary shall be provided to any health care provider or practitioner providing medical treatment to adult men without charge or fee for distribution in accordance with subdivision three of this section.

3. The standardized written summary provided for by subdivision one of this section may be provided by a health care provider to each person under his or her care who is or may be at risk for prostate cancer or who has been diagnosed to be afflicted with prostate cancer upon said diagnosis, or as soon thereafter as practicable.

4. Nothing in this section shall be construed to create a cause of

action for lack of informed consent in any instance in which such cause of action would be limited by section twenty-eight hundred five-d of this chapter.

5. The commissioner shall have the written summary, required by this section, completed and prepared for distribution on or before January first, nineteen hundred ninety-eight.

§ 2404-b. Breast cancer; duty of providers of mammography services to ascertain and provide clinical breast examination information. Every provider who provides mammography services shall ascertain when, or if, their patients have had a clinical breast examination prior to providing such service and shall include such information with any mammography results or reports to alert healthcare providers if a clinical breast examination has not recently been performed. Criminal penalties for violation pursuant to subdivisions one and two of section twelve-b of this chapter shall not apply to this section.

§ 2404-c. Breast cancer; duty of providers of mammography services to notify and inform. Every provider of mammography services shall, if a patient's mammogram demonstrates dense breast tissue, provide notification to such patient that shall include, but not be limited to, the following information, in any summary of the mammography report sent, pursuant to the federal mammography quality standards act, to the patient:

Your mammogram shows that your breast tissue is dense. Dense breast tissue is very common and is not abnormal. However, dense breast tissue can make it harder to find cancer on a mammogram and may also be associated with an increased risk of breast cancer.

This information about the result of your mammogram is given to you to raise your awareness. Use this information to talk to your doctor about your own risks for breast cancer. At that time, ask your doctor if more screening tests might be useful, based on your risk. A report of your

results was sent to your physician.

For the purposes of this section dense breast tissue shall mean heterogeneously dense or extremely dense tissue as defined in nationally recognized guidelines or systems for breast imaging reporting of mammography screening, including, but not limited to, the breast imaging reporting and data system of the American College of Radiology, and any equivalent new terms, as such guidelines or systems are updated.

§ 2404-d. Breast cancer; duty to provide extended hours. 1.

Applicability. This section shall apply to any general hospital or extension clinic that is certified as a mammography facility pursuant to the federal mammography quality standards act (MQSA).

2. Extended service hours. Any general hospital or extension clinic certified as a mammography facility pursuant to the MQSA shall provide extended hours, i.e. in the early morning, evening, or weekend hours, for screening mammography services. Extended hours for screening mammography services shall be provided on at least two days each week, for at least two hours each day offered, for a total of at least four hours each week, including but not limited to the following times:

(a) Monday through Friday, between the hours of 7:00 AM and 9:00 AM;

(b) Monday through Friday, between the hours of 5:00 PM and 7:00 PM;

or

(c) Saturday or Sunday, between the hours of 9:00 AM and 5:00 PM.

3. Waiver. (a) A facility may submit an application for a waiver from the requirements of this section, in whole or in part, if it can demonstrate, to the department's satisfaction, that the facility:

(i) does not have sufficient staff to provide extended hours for screening mammography services in accordance with this section, and that it is making diligent efforts to obtain staffing such that it can provide extended hours;

(ii) is in the process of discontinuing screening mammography services, as part of a consolidation or similar change; or

(iii) is subject to such other hardships as the department deems

appropriate.

(b) The department may deny, grant or extend a waiver pursuant to paragraph (a) of this subdivision for ninety days, or more if the department determines appropriate, in its sole discretion.

TITLE I-A

CANCER DETECTION AND EDUCATION PROGRAM

Section 2405. Cancer detection and education program; establishment.

2406. Grants to approved organizations.

2406-a. Grants to community-based organizations.

2408. Annual report.

2409. Ovarian cancer information program.

2409-a. Advisory council.

§ 2405. Cancer detection and education program; establishment. 1.

There is hereby created within the department the cancer detection and education program, also known as the cancer services program. This program is established to promote screening and detection of cancer among unserved or underserved populations, to educate the public regarding cancer and the benefits of early detection, and to provide counseling and referral services. For purposes of this section, "unserved or underserved populations" shall mean persons having inadequate access and financial resources to obtain cancer screening and detection services, including persons who lack health insurance or whose health insurance coverage is inadequate or who cannot meet their deductible obligations for purposes of accessing coverage under their health insurance.

2. The program shall include:

(a) establishment of a statewide public education and outreach campaign to publicize evidence based cancer detection and education services, such campaign shall include: general community education, outreach to specific underserved populations, evidence based clinical cancer screening services, and an informational summary that shall include an explanation of the importance of clinical examinations and

what to expect during clinical examinations and cancer screening services;

(b) provision of grants to approved organizations under section twenty-four hundred six of this title;

(c) compilation of data concerning the cancer detection and education program and dissemination of the data to the public; and

(d) development of professional education programs including the benefits of early detection of cancer and clinical examinations, the recommended frequency of clinical examinations and cancer screening services, and professionally recognized best practices guidelines.

§ 2406. Grants to approved organizations. 1. The commissioner shall make grants within the amounts appropriated to approved organizations for the provision of services relating to the evidence based screening and detection of cancer as part of this program. Such services shall include but not be limited to:

(a) promotion and provision of early detection of cancer, including clinical examinations and cancer screening services;

(b) provision of counseling and information on treatment options and referral for appropriate medical treatment;

(c) dissemination of information to unserved and underserved populations, to the general public and to health care professionals concerning cancer, the benefits of early detection and treatment, and the availability of cancer screening services;

(d) identification of local cancer screening services within the approved organization's region;

(e) provision of information, counseling and referral services to individuals diagnosed with cancer; and

(f) provision of information regarding the availability of medical assistance, including medical assistance under paragraph (v) of subdivision four of section three hundred sixty-six of the social services law, to an individual who requires treatment for cancer.

2. The commissioner shall give notice and provide opportunity to submit applications to provide cancer detection and education programs. In order to be considered for a grant to provide cancer detection and

education programs, applicants must show evidence of the following:

- (a) ability to provide and to ensure consistent and quality cancer detection services;
- (b) expertise in cancer detection and treatment;
- (c) capacity to coordinate services with physicians, hospitals and other appropriate local institutions or agencies;
- (d) ability to provide cancer detection and education services to unserved or underserved populations; and
- (e) ability to implement a cancer detection and education program in accordance with the standards specified in subdivision three of this section.

Applications shall be made on forms provided by the commissioner.

3. The commissioner shall develop standards for the implementation of cancer detection and education programs by approved organizations which shall ensure the following:

- (a) integration of the approved organization with existing health care providers;
- (b) maximizing third party reimbursement;
- (c) provision of services to unserved or underserved populations.

4. Within the amounts of state or federal funds appropriated for cancer early detection and diagnosis, approved organizations may be authorized by the department to provide such services for populations served pursuant to this title. Early detection services shall include, but not be limited to, complete examinations, evidence based screening, patient education, counseling, follow-up and referral.

§ 2406-a. Grants to community-based organizations. 1. The commissioner shall make grants within any such amount as may be appropriated specifically for community-based organizations for the provision of counseling, education and outreach programs for persons diagnosed with breast cancer.

2. For the purposes of this section, "community-based organizations"

shall mean grass roots, free-standing organizations in which breast cancer survivors hold significant decision-making responsibility, and which offer a broad range of breast cancer education and support services free of charge.

3. The commissioner shall provide notice and opportunity for community-based organizations to submit applications to provide post-diagnosis breast cancer counseling, education and outreach programs. Such applications shall be on forms established by the commissioner.

§ 2408. Annual report. The commissioner shall submit on or before December first, an annual report to the governor and the legislature concerning the operation of the breast and cervical cancer detection and education program. Commencing in nineteen hundred ninety-five, such reports shall include the experience of the program in providing cervical cancer early detection and diagnostic services. The annual report shall include strategies for implementation of the cervical cancer prevention plan and for promoting the plan to the general public, state and local elected officials, and various public and private organizations, associations, businesses, industries, and agencies. Approved organizations shall provide such data and assessment as the commissioner may require for such report. Such report shall also include any recommendations for additional action to respond to the high incidence of breast cancer in this state.

§ 2409. Ovarian cancer information program. 1. There is hereby created within the department the ovarian cancer information program (referred to in this section as the "program"), which shall provide information for consumers, patients, and health care providers relating to ovarian cancer, including signs and symptoms, risk factors, the benefits of early detection through appropriate diagnostic testing and treatment options.

2. The program may include but not be limited to the following

elements:

- (a) educational and informational materials in print, audio, video, electronic, or other media;
- (b) public service announcements and advertisements; and
- (c) establishment of toll-free telephone hotlines to provide information.

3. The department shall produce, make available to others for reproduction, or contract with others to develop the materials mentioned in this section as the commissioner deems appropriate. These materials shall be made available to the public free of charge as appropriate or for a fee under certain circumstances. The commissioner shall require, where appropriate, health care providers to provide or make these materials available to patients.

4. In exercising any of his or her powers under this section, the commissioner shall consult with appropriate health care professionals, providers, consumers and patients, or organizations representing them.

5. In addition to any state funds appropriated for the program, the commissioner may accept grants from public or private sources for the program. The commissioner, in administering this section, shall seek to coordinate the program with other public and private efforts, and may undertake joint or cooperative programs with other public or private entities.

6. The commissioner may make rules and regulations necessary and appropriate for the implementation of this section.

§ 2409-a. Advisory council. 1. There is hereby established in the department the cancer detection and education program advisory council, for the purpose of advising the commissioner with regards to providing information to consumers, patients, and health care providers relating, but not limited to, breast, cervical, prostate, testicular and ovarian cancer, including signs and symptoms, risk factors, the benefits of prevention and early detection, guideline concordant cancer screening

and disease management, options for diagnostic testing and treatment, new technologies, and survivorship.

2. The advisory council shall: (a) make recommendations to the department regarding the promotion and implementation of programs under sections twenty-four hundred six and twenty-four hundred nine of this title; and (b) prior to the department providing grants from the New York State prostate and testicular cancer research and education fund, created pursuant to section ninety-five-e of the state finance law, advise the department on various components of the department's solicitation to distribute such funds, including but not limited to, the potential uses of the funds, the entities that may be eligible to apply for the funds, the recommended contract deliverables for entities receiving the funds, the recommended geographic distribution of the funds, and the recommended award amounts.

3. The commissioner shall appoint twenty-one voting members, which shall include representation of health care professionals, consumers, patients, one voting member who shall be a person who has or has had prostate or testicular cancer, one voting member who shall be a person who has or has had breast, cervical or ovarian cancer and other appropriate interests reflective of the diversity of the state, with expertise in breast, cervical, prostate, testicular and/or ovarian cancer. The commissioner shall appoint one member as a chairperson. The members of the council shall receive no compensation for their services, but shall be allowed their actual and necessary expenses incurred in performance of their duties.

4. A majority of the appointed voting membership of the board shall constitute quorum.

5. The advisory council shall meet at least twice a year, at the request of the department.

TITLE 1-B
HEALTH RESEARCH SCIENCE BOARD

- Section 2410. Health research science board.
2411. Powers and duties of the board.
2412. Agency implementation.
2413. Biennial report.

§ 2410. Health research science board. 1. There is hereby established in the department the health research science board. The board shall be comprised of seventeen voting members, three non-voting regional members and three non-voting ex-officio members as follows:

(a) twelve voting members shall be scientists each of whom shall have either an M.D., D.O., Ph.D., or Dr.P.H. in one of the following fields: biochemistry, biology, biostatistics, chemistry, epidemiology, genetics, immunology, medicine, microbiology, molecular biology, nutrition, oncology, reproductive endocrinology, or toxicology and must currently be engaged in treating patients or conducting health research. Such members shall be appointed in the following manner: two shall be appointed by the temporary president of the senate and one by the minority leader of the senate; two shall be appointed by the speaker of the assembly and one by the minority leader of the assembly; six shall be appointed by the governor;

(b) the governor shall appoint six regional members, three of whom shall serve as full voting members and three of whom shall serve as alternative members without voting rights. Such regional members shall be persons who have or have had breast cancer, and shall be actively involved with a community-based, grass-roots breast cancer organization. Two of such appointments shall be made upon the recommendation of the temporary president of the senate and two shall be made upon the recommendation of the speaker of the assembly. One regional member shall be appointed from each of the following geographic areas of the state: Long Island, New York City, the Hudson Valley, Northern New York, Central New York and Western New York. The order of appointments and recommendations for appointments and voting rights shall rotate as follows:

(i) The governor shall appoint regional members for three year terms in the following order:

(A) Long Island, which member shall have voting rights,

- (B) Central New York, which member shall not have voting rights,
- (C) Hudson Valley, which member shall have voting rights,
- (D) Northern New York, which member shall not have voting rights,
- (E) Western New York, which member shall have voting rights, and
- (F) New York City, which member shall not have voting rights;

(ii) The governor, upon the recommendation of the temporary president of the senate, shall appoint regional members for three year terms in the following order:

- (A) Hudson Valley, which member shall not have voting rights,
- (B) Northern New York, which member shall have voting rights,
- (C) Western New York, which member shall not have voting rights,
- (D) New York City, which member shall have voting rights,
- (E) Long Island, which member shall have voting rights, and
- (F) Central New York, which member shall not have voting rights; and

(iii) The governor, upon the recommendation of the speaker of the assembly, shall appoint regional members for three year terms in the following order:

- (A) Western New York, which member shall have voting rights,
- (B) New York City, which member shall not have voting rights,
- (C) Long Island, which member shall not have voting rights,
- (D) Central New York, which member shall have voting rights,
- (E) Hudson Valley, which member shall not have voting rights, and
- (F) Northern New York, which member shall have voting rights;

(c) the governor shall appoint three non-voting ex officio members to the board, one of whom shall be the commissioner, or his or her designee, one of whom shall be the commissioner of environmental conservation, or his or her designee, and one of whom shall be the director of the Cornell University Institute for Comparative and Environmental Toxicology, or his or her designee; and

(d) the governor shall appoint one voting member who shall be a person who has or has survived breast cancer and one voting member who shall be a person who has or has survived prostate or testicular cancer.

The governor shall designate the chair of the board. The governor, temporary president of the senate, minority leader of the senate, speaker of the assembly, and minority leader of the assembly may solicit recommendations from the Centers for Disease Control and Prevention, the

National Institutes of Health, the Federal Agency For Health Care Policy and Research, and the National Academy of Sciences for appointments or recommendations for appointments to the board.

2. All members shall serve for terms of three years and may be reappointed, such terms to commence July first and expire June thirtieth; provided, however, that of the scientific members first appointed, three such members, one appointed by the governor, one appointed by the temporary president of the senate and one appointed by the speaker of the assembly, shall be appointed for terms of one year, and three such members, one appointed by the governor, one appointed by the temporary president of the senate, and one appointed by the speaker of the assembly shall be appointed for a term of two years.

The board shall convene on or before September first, nineteen hundred ninety-seven.

3. Any member, after notice and an opportunity to be heard, may be removed by the governor for neglect of duty or malfeasance in office. Any member who fails to attend three consecutive meetings of the board, unless excused by formal vote of the board, shall be deemed to have vacated his or her position.

4. Any vacancy in the board shall be filled for the unexpired term in the same manner as the original appointment.

5. A majority of the voting members of the board shall constitute a quorum for the transaction of any business or the exercise of any power or function of the board.

6. Members of the board shall not receive compensation for their services as members, but shall be allowed their actual and necessary expenses incurred in the performance of their duties.

7. For the purposes of this section the following counties shall constitute the following geographic areas:

(a) Long Island: the counties of Nassau and Suffolk.

(b) New York City: the counties of Kings, Queens, Richmond, New York and Bronx.

(c) Hudson Valley: the counties of Westchester, Rockland, Putnam, Orange, Dutchess, Ulster, Greene, Columbia, Sullivan and Delaware.

(d) Northern New York: the counties of Albany, Clinton, Essex, Franklin, Fulton, Herkimer, Hamilton, Montgomery, Otsego, Rensselaer, Saratoga, Schenectady, Schoharie, Warren and Washington.

(e) Central New York: the counties of Broome, Cayuga, Chemung, Chenango, Cortland, Jefferson, Lewis, Madison, Oneida, Onondaga, Oswego, Seneca, Schuyler, St. Lawrence, Tioga, Tompkins and Wayne.

(f) Western New York: the counties of Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Niagara, Orleans, Wyoming, Livingston, Monroe, Ontario, Steuben and Yates.

§ 2411. Powers and duties of the board. 1. The board shall:

(a) Survey state agencies, boards, programs and other state governmental entities to assess what, if any, relevant data has been or is being collected which may be of use to researchers engaged in breast cancer research;

(b) Consistent with the survey conducted pursuant to paragraph (a) of this subdivision, compile a list of data collected by state agencies which may be of assistance to researchers engaged in breast cancer research as established in section twenty-four hundred twelve of this title;

(c) Consult with the Centers for Disease Control and Prevention, the National Institutes of Health, the Federal Agency For Health Care Policy and Research, the National Academy of Sciences and other organizations or entities which may be involved in cancer research to solicit both information regarding breast cancer research projects that are currently being conducted and recommendations for future research projects;

(d) Review requests made to the commissioner for access to information pursuant to paragraph b of subdivision one of section 33-1203 and paragraph c of subdivision two of section 33-1205 of the environmental conservation law for use in human health related research projects. Such data shall only be provided to researchers engaged in human health related research. The request made by such researchers shall include a

copy of the research proposal or the research protocol approved by their institution and copies of their institution's Institutional Review Board (IRB) or equivalent review board approval of such proposal or protocol. In the case of research conducted outside the auspices of an institution by a researcher previously published in a peer-reviewed scientific journal, the board shall request copies of the research proposal and shall deny access to the site-specific and nine-digit zip code pesticide data if the board determines that such proposal does not follow accepted scientific practice for the design of a research project. The board shall establish guidelines to restrict the dissemination by researchers of the name, address or other information that would otherwise identify a commercial applicator or private applicator or any person who receives the services of a commercial applicator;

(e) Solicit, receive, and review applications from public and private agencies and organizations and qualified research institutions for grants from the breast cancer research and education fund, created pursuant to section ninety-seven-yy of the state finance law, to conduct research or educational programs which focus on the causes, prevention, screening, treatment and cure of breast cancer and may include, but are not limited to mapping of breast cancer, and basic, behavioral, clinical, demographic, environmental, epidemiologic and psychosocial research. The board shall make recommendations to the commissioner, and the commissioner shall, in his or her discretion, grant approval of applications for grants from those applications recommended by the board. The board shall consult with the Centers for Disease Control and Prevention, the National Institutes of Health, the Federal Agency For Health Care Policy and Research, the National Academy of Sciences, breast cancer advocacy groups, and other organizations or entities which may be involved in breast cancer research to solicit both information regarding breast cancer research projects that are currently being conducted and recommendations for future research projects. As used in this section, "qualified research institution" may include academic medical institutions, state or local government agencies, public or private organizations within this state, and any other institution approved by the department, which is conducting a breast cancer research project or educational program. If a board member submits an application for a grant from the breast cancer research and education fund, he or

she shall be prohibited from reviewing and making a recommendation on the application;

(f) Consider, based on evolving scientific evidence, whether a correlation exists between pesticide use and pesticide exposure. As part of such consideration the board shall make recommendations as to methodologies which may be utilized to establish such correlation;

(g) After two years of implementation of pesticide reporting pursuant to section 33-1205 of the environmental conservation law, the board shall compare the percentage of agricultural crop production general use pesticides being reported to the total amount of such pesticides being used in this state as estimated by Cornell University, Cornell Cooperative Extension, the department of environmental conservation, and the Environmental Protection Agency;

(h) Meet at least six times in the first year, at the request of the chair and at any other time as the chair deems necessary. The board shall meet at least two times a year and as needed thereafter. Provided, however, that at least one such meeting a year shall be a public hearing, at which the general public may question and present information and comments to the board with respect to the operation of the health research science board, the breast cancer research and education fund, and pesticide reporting established pursuant to sections 33-1205 and 33-1207 of the environmental conservation law. At such hearing, the commissioner of the department of environmental conservation or his or her designee shall make a report to the board with respect to the efficiency and utility of pesticide reporting established pursuant to sections 33-1205 and 33-1207 of the environmental conservation law. Should the existing bylaws be amended by the board, any such amendments shall be consistent with the revisions of this paragraph;

2. The commissioner shall request that the department of environmental conservation compile information pursuant to paragraph b of subdivision one of section 33-1203 of the environmental conservation law as necessary to fulfill board approved requests, pursuant to paragraph (d) of subdivision one of this section.

3. The commissioner shall provide the board with such staff assistance

and support services as are necessary for the board to perform the functions required of it under this section.

§ 2412. Agency implementation. All state agencies, including, but not limited to, the departments of agriculture and markets, environmental conservation, and health, shall review their programs and operations (pursuant to guidelines established by the board) to determine whether they currently collect data which may be of use to researchers engaged in breast, prostate or testicular cancer research. Any agency collecting such data shall forward a description of the data to the health research science board.

§ 2413. Biennial report. The commissioner shall submit a report on or before January first commencing in nineteen hundred ninety-nine, and biennially thereafter, to the governor, the temporary president of the senate and the speaker of the assembly concerning the operation of the health research science board. Such report shall include recommendations from the health research science board including, but not limited to, the types of data that would be useful for breast cancer researchers and whether private citizen use of residential pesticides should be added to the reporting requirements. The report shall also include a summary of research requests granted or denied. In addition, such report shall include an evaluation by the commissioner, the commissioner of the department of environmental conservation and the health research science board of the basis, efficiency and scientific utility of the information derived from pesticide reporting pursuant to sections 33-1205 and 33-1207 of the environmental conservation law and recommend whether such system should be modified or continued. The report shall include a summary of the comments and recommendations presented by the public at the board's public hearings.

TITLE II

STATE INSTITUTE FOR THE STUDY OF MALIGNANT DISEASES

Section 2420. Cancer institute; continued.

2421. Cancer institute; functions; powers and duties.

2422. Cancer institute; commissioner's duty to publish reports.

2423. Cancer institute; administration of gifts and trusts.

§ 2420. Cancer institute; continued. The state institute for the study of malignant diseases, known as the Roswell Park Cancer Institute, is hereby continued under the management and control of the department.

§ 2421. Cancer institute; functions; powers and duties. 1. The state institute for the study of malignant diseases, shall conduct investigations of the cause, mortality, treatment, prevention and cure of cancer and allied diseases.

2. Persons afflicted with cancer or allied diseases, may be received free of charge in the said state institute for study, experimental or other treatment, under regulations established by the commissioner.

3. The direction of related research work in whole or in part toward malignant diseases in connection with conditions other than cancer shall not be a violation of the conditions of the grants made pursuant to the provisions of chapter one hundred twenty-eight of the laws of nineteen hundred eleven.

§ 2422. Cancer institute; commissioner's duty to publish reports. The commissioner shall publish from time to time the result of the investigations by the state institute for the study of malignant diseases for the benefit of humanity, and from time to time, he shall collate its publications in a scientific report for distribution to scientific organizations and to medical scientists and qualified members of the medical profession.

§ 2423. Cancer institute; administration of gifts and trusts. The commissioner, as the successor of the board of trustees of the state

institute for the study of malignant diseases, shall execute and administer any gifts, transfer or trust heretofore made to or for the benefit of such institute and may receive gifts, legacies and bequests, and use the same for the advancement of the subjects and purposes of the institute.

ARTICLE 24-A

PROTECTION OF HUMAN SUBJECTS

Section 2440. Policy and purpose.

2441. Definitions.

2442. Informed consent.

2443. Conduct of human research.

2444. Human research review committees.

2445. Applicability.

2446. Rules and regulations.

§ 2440. Policy and purpose. The use of human subjects in medical research projects has brought about many beneficial scientific advances resulting in the increased health and well-being of the human race. Safeguarding the rights and welfare of individual human subjects in the conduct of these human research projects is a matter of vital state concern. Every human being has the right to be protected against the possible conduct of medical or psychological research upon his body without his voluntary informed consent. Human research may effect dangerous and unanticipated results causing irreversible damage to the human subject. Accordingly, it shall be the policy of this state to protect its people against the unnecessary and improper risk of pain, suffering or injury resulting from human research conducted without their knowledge or consent.

§ 2441. Definitions. For the purposes of this article: 1. "Human subject" shall mean any individual who may be exposed to the possibility of injury, including physical, psychological or social injury, as a consequence of participation as a subject in any research, development,

or related activity which departs from the application of those established and accepted methods necessary to meet his needs or which increases the ordinary risk of daily life including the reecognized risks inherent in a chosen occupation or field of service.

2. "Human research" means any medical experiments, research, or scientific or psychological investigation, which utilizes human subjects and which involves physical or psychological intervention by the researcher upon the body of the subject and which is not required for the purposes of obtaining information for the diagnosis, prevention, or treatment of disease or the assessment of medical condition for the direct benefit of the subject. Human research shall not, however, be construed to mean the conduct of biological studies exclusively utilizing tissue or fluids after their removal or withdrawal from a human subject in the course of standard medical practice, or to include epidemiological investigations.

3. "Fluid" means a normal body excretion or any fluid formed by normal or pathological body processes obtained during diagnostic or therapeutic procedures conducted for the benefit of the human subject.

4. "Tissue" means part or all of any organ of a human subject removed during a diagnostic or therapeutic procedure conducted for the benefit of the human subject.

5. "Voluntary informed consent" means the legally effective knowing consent of an individual or his legally authorized representative, so situated as to be able to exercise free power of choice without undue inducement or any element of force, fraud, deceit, duress or other form of constraint or coercion. With regard to the conduct of human research, the basic elements of information necessary to such consent include:

(a) a fair explanation to the individual of the procedures to be followed, and their purposes, including identification of any procedures which are experimental;

(b) a description of any attendant discomforts and risks reasonably to be expected;

(c) a description of any benefits reasonably to be expected;

(d) a disclosure of any appropriate alternative procedures that might be advantageous for the individual;

(e) an offer to answer any inquiries by the individual concerning the procedures; and

(f) an instruction that the individual is free to withdraw his consent and to discontinue participation in the human research at any time without prejudice to him.

6. "Researcher" means any person licensed under title VIII of the education law to perform diagnosis, treatment, medical services, prescription or therapeutic exercises with regard to or upon human beings, or any other person deemed appropriately competent and qualified by a human research review committee as provided by section twenty-four hundred forty-four of this chapter.

§ 2442. Informed consent. No human research may be conducted in this state in the absence of the voluntary informed consent subscribed to in writing by the human subject. If the human subject be a minor, such consent shall be subscribed to in writing by the minor's parent or legal guardian. If the human subject be otherwise legally unable to render consent, such consent shall be subscribed to in writing by such other person as may be legally empowered to act on behalf of the human subject. No such voluntary informed consent shall include any language through which the human subject waives, or appears to waive, any of his legal rights, including any release of any individual, institution or agency, or any agents thereof, from liability for negligence.

§ 2443. Conduct of human research. No one except a researcher shall conduct human research in this state.

§ 2444. Human research review committees. 1. Each public or private institution or agency which conducts, or which proposes to conduct or authorize, human research, shall establish a human research review committee. Such committee shall be composed of not less than five

persons, approved by the commissioner, who have such varied backgrounds as to assure the competent, complete and professional review of human research activities conducted or proposed to be conducted or authorized by the institution or agency. No member of a committee shall be involved in either the initial or continuing review of an activity in which he has a conflicting interest, except to provide information required by the committee. No committee shall consist entirely of persons who are officers, employees, or agents of, or who are otherwise associated with the institution or agency, apart from their membership on the committee, and no committee shall consist entirely of members of a single professional group.

2. The human research review committee in each institution or agency shall require that institution or agency to promulgate a statement of principle and policy in regard to the rights and welfare of human subjects in the conduct of human research, and the committee and the commissioner shall approve that statement prior to its taking effect. The committee shall review each proposed human research project to determine (1) its necessity; (2) that the rights and welfare of the human subjects involved are adequately protected, (3) that the risks to the human subjects are outweighed by the potential benefits to them or by the importance of the knowledge to be gained; (4) that the voluntary informed consent is to be obtained by methods that are adequate and appropriate, and (5) that the persons proposed to conduct the particular medical research are appropriately competent and qualified. The committee shall periodically examine each existing human research project with regard to the proper application of the approved principles and policies which the institution or agency has promulgated. The committee shall report any violation to the commissioner. In addition to the voluntary informed consent of the proposed human subject as required by section twenty-four hundred forty-two of this chapter, the consent of the committee and the commissioner shall be required with relation to the conduct of human research involving minors, incompetent persons, mentally disabled persons and prisoners.

3. Each person engaged in the conduct of human research or proposing to conduct human research shall affiliate himself with an institution or

agency having a human research review committee, and such human research as he conducts or proposes to conduct shall be subject to review by such committee in the manner set forth in this section.

§ 2445. Applicability. 1. The provisions of this article shall not apply to the conduct of human research which is subject to, and which is in compliance with, policies and regulations promulgated by any agency of the federal government for the protection of human subjects.

2. Upon attestation, satisfactory to the commissioner, by an institution or agency that such institution or agency (a) conducts human research that is subject to and is in compliance with policies and regulations promulgated by any agency of the federal government for the protection of human subjects, and (b) conducts or proposes to conduct or authorize human research, which is not subject to but does or shall comply with federal policies and regulations, the commissioner may deem, subject to conditions, such institution or agency's human research in compliance with this article. Such attestation shall be submitted annually on or before January first to the department on a form prescribed by the commissioner.

§ 2446. Rules and regulations. The commissioner shall have the power to promulgate such rules and regulations as shall be necessary and proper to effectuate the purposes of this article.

ARTICLE 24-B

INFORMATION PROGRAM ON DIOXIN

Section 2475. Special policies with respect to dioxin exposure.

§ 2475. Special policies with respect to dioxin exposure. 1. For the purpose of identifying persons who were exposed to an herbicide containing dioxin and for the purpose of compiling data on the health effects of this exposure, the commissioner of health shall:

(a) establish, promote and maintain a public information program on dioxin. Such program shall include, but may not be limited to, an effort to contact Vietnam era veterans and employees of the public and private sectors within the state who were exposed to an herbicide containing dioxin;

(b) initiate an epidemiological study of the health effects of exposure to herbicides containing dioxin;

(c) maintain a central data bank within the department for information collected on the health effects of exposure to dioxin and for the cataloguing of existing scientific and medical literature on the health effects of this exposure; and

(d) initiate education for health professionals to assist them in understanding the potential risks and state-of-the-art knowledge with regard to detection, diagnosis and treatment of acute and chronic symptoms associated with dioxin exposure.

2. The commissioner may request and shall receive from any department, division, board, bureau, commission or agency of the state or of any political subdivision thereof such assistance and data as will enable him to properly carry out his activities hereunder and effectuate the purposes herein set forth. The commissioner may also enter into any contract for services as he deems necessary with a private agency or concern upon said terms and conditions as he deems appropriate. Information concerning patient and medical data provided to the commissioner pursuant to this subdivision shall be kept confidential according to the provisions of paragraph (j) of subdivision one of section two hundred six of this chapter.

ARTICLE 24-C

INFORMATION PROGRAM ON LOW-LEVEL RADIOACTIVE WASTE

Section 2485. Program to inform and educate the public on low-level radioactive waste.

§ 2485. Program to inform and educate the public on low-level radioactive waste. In consultation and cooperation with the advisory

committee established pursuant to section 29-0501 of the environmental conservation law, and with the department of environmental conservation, the commissioner of health shall plan and carry out a statewide public information program on the public health and safety implications of low-level radioactive waste management. The content of such program shall include a basic explanation of the types of materials which comprise low-level radioactive waste and why such materials require special handling and care; and reasonably detailed explanations of alternative disposal methods and their probable effects.

ARTICLE 24-D

NEW YORK STATE OCCUPATIONAL HEALTH CLINICS OVERSIGHT COMMITTEE

Section 2490. Oversight committee.

2490-a. Occupational health clinic advisory committees.

§ 2490. Oversight committee. 1. There is hereby established the occupational health clinics oversight committee to be comprised of the following persons or their designees: the commissioner of health; the commissioner of labor; the chairperson of the workers' compensation board; six persons appointed by the governor, one of whom shall be on nomination of the New York state American federation of labor-congress of industrial organizations, and one of whom shall be on the nomination of the business council of the state of New York; two persons appointed by the temporary president of the senate; two persons appointed by the speaker of the assembly; one person appointed by the minority leader of the senate and one person appointed by the minority leader of the assembly. The governor shall designate a chairperson from among the members of the committee. The initial appointments shall be made on or before September first, two thousand eight.

2. The committee shall meet at least four times a year. Special meetings may be called by the chairperson.

3. Members of the oversight committee shall receive no compensation for their services, but shall be allowed their actual and necessary

expenses incurred in the performance of their duties hereunder.

4. Vacancies shall be filled in the same manner as the original appointments.

5. The committee shall make recommendations to the governor and the legislature on or before September thirtieth, two thousand nine, regarding:

- (a) statewide needs to be met by the network;
- (b) coordination of clinic activities with not-for-profit, private sector concerns and state agencies, including but not limited to an evaluation of current jurisdictional and oversight responsibilities;
- (c) coordination and sharing of clinic resources and services;
- (d) dissemination of research results and educational information;
- (e) identification of funding sources for the network;
- (f) the activities of the clinics and their effectiveness in meeting the objectives as set forth in statute and in clinic specific contracts with the state;
- (g) local, regional, occupation or business sector specific needs that may be met by one or more clinic;
- (h) other issues as determined by the oversight committee; and
- (i) incorporation of provisions to implement its recommendations in requests for applications of state funding for occupational health clinics.

§ 2490-a. Occupational health clinic advisory committees. The chief executive officer of every clinic in the occupational health clinic network shall convene an advisory committee consisting of two local representatives each of business, labor unions, public health agencies and community groups which shall be selected in consultation with the occupational health clinics oversight committee. The oversight committee will assist in the development of policies, the creation and implementation of a targeted outreach plan for working with business, unions and workers, an assessment of clinic-specific funding needs and potential funding sources, and overall guidance for the clinics on an ongoing basis.

ARTICLE 24-E

INFORMATION ABOUT HYSTERECTOMY

- Section 2495. Legislative findings and intent.
2496. Written summary regarding hysterectomy.
2497. Availability of written summary.
2498. Provision of summary by physician.
2499. Informed consent.
2499-a. Exception.

§ 2495. Legislative findings and intent. Hysterectomy is one of the most common major surgical procedures performed on women and is a commonly recommended treatment for some gynecological disorders, such as uterine leiomyofibroma, endometriosis, disorders of menstruation, and uterine neoplasms. Some disorders, depending on the patient's diagnosis and situation, may be managed with alternative treatments. In an effort to promote patients' involvement in health care decisions and to promote informed consultation with their physician or other health care practitioner, the department of health shall make available information which describes the medical diagnoses that are commonly treated with a hysterectomy, the various hysterectomy procedures, and treatment alternatives to the diagnoses commonly treated with hysterectomy.

§ 2496. Written summary regarding hysterectomy. The commissioner, in consultation with the medical society of the state of New York, consumers and others knowledgeable on the topic of hysterectomy shall develop a standardized written summary which shall explain:

1. the common diagnoses for which hysterectomy is a common treatment including but not limited to uterine leiomyofibroma, endometriosis, disorders of menstruation, premalignant or malignant changes in uterus or cervix and salpingo-oophoritis;
2. alternative treatments to hysterectomy for such diagnoses, in

accordance with accepted medical practices;

3. the types of hysterectomy including radical, subtotal abdominal, total abdominal and vaginal;

4. the common physiological changes, side effects, risks and benefits which result after each type of hysterectomy or alternative is performed;

5. that the hysterectomy is irreversible, results in infertility and the end of menstruation; and

6. an oophorectomy, a treatment often associated with hysterectomy, including unilateral, bilateral and salpingo-oophorectomy.

§ 2497. Availability of written summary. The commissioner shall make the summary provided for in section twenty-four hundred ninety-six of this article available free of charge to all clinics, health maintenance organizations, hospitals, and physician offices.

§ 2498. Provision of summary by physician. The summary shall be provided by a physician to each person under such physician's care, when a hysterectomy is under consideration for that person.

§ 2499. Informed consent. Nothing in this section shall be construed to create a cause of action for lack of informed consent in any instance in which such cause of action would be limited by section twenty-eight hundred five-d of this chapter.

§ 2499-a. Exception. The dispensing of the standard written summary shall not pertain when the hysterectomy is performed in a situation of imminent danger in which the physician determines prior dispensing is not possible or feasible.

ARTICLE 25

MATERNAL AND CHILD HEALTH

- Title
- I. General provisions (§§ 2500--2509-d).
 - I-A. Child health insurance plan (§§ 2510-2511).
 - 1-B. Adolescent pregnancy prevention and services program (§§ 2515--2515-c).
 - II. Prenatal care (§§ 2522-2532).
 - II-A. Early intervention program for infants and toddlers with disabilities and their families (§§ 2540--2559-b).
 - III-A. Community doula expansion program (§§ 2560-2563).
 - IV. Institutions for children (§§ 2570-2575).
 - V. Children with physical disabilities (§§ 2580-2584).
 - VI*. Federal child care and adult food program (§§ 2585-2589).
 - VI. Emergency nutrition aid program for pregnant women and adolescents (§§ 2590-2592)
 - VII. Youth sports (§ 2595).
 - VIII. Childhood obesity prevention program (§§ 2599-a--2599-d).

TITLE I

GENERAL PROVISIONS

- Section 2500. Maternal and child health; duties of commissioner.
- 2500-a. Test for phenylketonuria and other diseases and conditions.
 - 2500-b. Sudden infant death syndrome.
 - 2500-c. Special programs with respect to diethylstilbestrol.
 - 2500-d. New York state poison control network.
 - 2500-e. Pregnant women, blood test for hepatitis B; follow-up care.
 - 2500-f. Human immunodeficiency virus; testing of newborns.
 - 2500-f-1. Special program for HIV services for women and children, including adolescents.

- 2500-g. Newborn infant hearing screening.
- 2500-h. Statewide perinatal data system.
- 2500-h*2. Anaphylactic policy for school districts and child care providers.
- 2500-i. Child food choking prevention.
- 2500-j. Autism spectrum disorders; screening of children.
- 2500-k. Maternal depression.
- 2500-l. Pregnant people, blood test for hepatitis C virus (HCV); follow-up care.
- 2500-m. Access to doulas.
- 2501. Health and welfare services to all children; duty of local boards.
- 2502. Report of certain conditions.
- 2503. Drug information to be furnished expectant mothers.
- 2504. Enabling certain persons to consent for certain medical, dental, health and hospital services.
- 2504-a. Hepatitis B immunization of a minor.
- 2504-b. Information concerning pelvic exams.
- 2505. Human breast milk; collection, storage and distribution; general powers of the commissioner.
- 2505-a. Rights of breastfeeding mothers.
- 2505-b. Lactation accommodations in airports.
- 2506. Obstetric and pediatric practitioner incentive demonstration program.
- 2507. Special supplemental nutrition program for women, infants and children; specialty formula.
- 2508. Newborn health and safe sleep study.
- 2509. Maternal mortality review board.
- 2509-a. Corded window blind leaflet.
- 2509-c. Availability of adverse childhood experiences services.
- 2509-d. Veterans reproductive mental health care.

§ 2500. Maternal and child health; duties of commissioner. 1. The commissioner shall act in an advisory and supervisory capacity, in matters pertaining to the safeguarding of motherhood, the prevention of

maternal, perinatal, infant and child mortality, the prevention of diseases, low birth weight, childhood obesity, and defects of childhood and the promotion of maternal, prenatal and child health, including care in hospitals, and shall administer such services bearing on the health of mothers and children for which funds are or shall hereafter be made available.

2. The commissioner shall establish minimum standards in accordance with established and accepted medical principles for local maternal and child health services administered by or under the general supervision of the commissioner.

3. a. The commissioner shall, in conjunction with hospitals, obstetricians, midwives, doulas, maternal health care provider organizations; mental health care provider organizations; and any additional stakeholders that the commissioner deems necessary, evaluate and make recommendations related to the development of maternal health care and birthing best practices which support each patient receiving the highest quality of care. These recommendations shall include, but not be limited to, best practices for every patient to receive:

(i) fair, courteous and respectful culturally competent care free of discrimination;

(ii) accurate and judgment-free advice and recommendations that allow for informed decision making and consent regarding care and treatment, including risks, benefits, outcomes and alternative procedures;

(iii) clear, concise and easily understood information about their care and treatment outcomes, medical team and birthing options, the policies and procedures of the hospital or birthing center, and resources available to them;

(iv) an opportunity to discuss their birthing preferences with their care team and have such preferences documented; and

(v) adequate support during their pregnancy, labor and childbirth, including access to doula and mental health services.

b. No later than one year after the effective date of this subdivision the commissioner shall publish such recommendations on the department of health's website and update all relevant materials provided to the

public through the department to reflect these standards. Such recommendations shall be updated at least once after publishing and as necessary thereafter.

4. In conjunction with the state department having general supervision, the commissioner may make or may cause to be made investigation of the conditions affecting the health of children in institutions for day care or domiciliary care. If he shall find any conditions detrimental to health in such institutions, he shall make and report recommendations thereon to the appropriate state department.

5. The commissioner shall cooperate with other state departments having jurisdiction over matters affecting the health of mothers and children, to the end that existing activities may be coordinated and duplication of effort avoided. He shall cooperate with and stimulate local agencies, public and private, in promoting such measures and undertakings as may be designed to accomplish the purposes of this section.

§ 2500-a. Test for phenylketonuria and other diseases and conditions.

1. It shall be the duty of the administrative officer or other person in charge of each institution caring for infants twenty-eight days or less of age and the person required in pursuance of the provisions of section forty-one hundred thirty of this chapter to register the birth of a child, to cause to have administered to every such infant or child in its or his care a test for diseases and conditions designated by the commissioner under regulations of the commissioner, and for:

- (a) Phenylketonuria.
- (b) Homozygous sickle cell disease.
- (c) Hypothyroidism.
- (d) Branched-chain ketonuria.
- (e) Galactosemia.
- (f) Homocystinuria.
- (g) Critical congenital heart defects through pulse oximetry screening.
- (h) With regard to any newborn infant who is identified as, or

suspected of, having a hearing impairment as a result of a screening conducted pursuant to section twenty-five hundred-g of this title, a urine polymerase chain reaction (PCR) test for cytomegalovirus, unless the parent of the infant objects thereto; provided that if the commissioner determines that another test for cytomegalovirus is diagnostically equivalent to or better than the urine polymerase chain reaction test, the commissioner may, by regulation under this section, allow or require the use of that other test.

(i) Adrenoleukodystrophy.

(j) Glucose-6-phosphate dehydrogenase deficiency using a quantitative enzymatic test or other diagnostic test in cases where: the newborn infant presents with hemolytic anemia, hemolytic jaundice, or early-onset increasing neonatal jaundice, that is, jaundice (bilirubin level greater than fortieth percentile for age in hours) persisting beyond the day of birth through the week after birth; the newborn infant has been admitted to the hospital for jaundice following birth; or the biological parent of the newborn infant indicates a family, racial, or ethnic risk of glucose-6-phosphate dehydrogenase deficiency, including having significant African, Asian, Mediterranean, or Middle Eastern ancestry.

(k) Duchenne muscular dystrophy using a test validated by the Wadsworth center for laboratories and research.

2. Testing, the recording of the results of such tests, tracking, follow-up reviews and educational activities shall be performed at such times and in such manner as may be prescribed by the commissioner. The commissioner shall promulgate regulations setting forth the manner in which information describing the purposes of the requirements of this section shall be disseminated to parents or a guardian of the infant tested.

3. The provisions of this section shall not apply in the case of any infant or child whose parent or guardian is a member of a recognized religious organization whose teachings and tenets are contrary to the testing herein required and who notifies the person charged with having such test administered of his objection thereto.

§ 2500-b. Sudden infant death syndrome. (a) Declaration of policy.

Occurrence of sudden deaths of infants is a tragedy for the child, the family and the community, and a matter of vital concern to the public health. In order to provide for the protection and promotion of the health of the inhabitants of the state, the department of health shall have the central and comprehensive responsibility for the development and administration of the state's policy with respect thereto.

(b) The commissioner shall establish a program to study the sudden deaths of infants which are unexpected by medical history, and for which adequate causes of death have not been demonstrated.

(c) Such program may initially consist of pilot projects which shall include epidemiological investigation, family counseling and evaluation in order to identify the major risk factors in sudden infant deaths with the objective of preventing such deaths.

§ 2500-c. Special programs with respect to diethylstilbestrol. 1. For the purpose of identifying persons who have been exposed to the potential hazards and afflictions of diethylstilbestrol, and for the purpose of educating the public concerning the symptoms and prevention of associated malignancies, the commissioner shall establish, promote and maintain a public information campaign on diethylstilbestrol. Such campaign shall be conducted throughout the state and shall include but not be limited to a concerted effort at reaching those persons or the offspring of persons who have been exposed to diethylstilbestrol in order to encourage them to seek medical care for the prevention or treatment of any malignant condition.

2. (a) The commissioner shall designate and enter into contracts with providers of health care for the purpose of establishing regional screening programs for diethylstilbestrol exposed persons. In determining the provider with which to contract, the commissioner shall consider such provider's compliance with state and federally mandated standards, the location in relation to the geographical distribution of persons exposed to diethylstilbestrol, and the capacity of such provider

to properly screen for breast cancer, vaginal cancer, cervical cancer, vaginal adenosis, testicular cancer and any other malignancy and abnormal conditions resulting from DES exposure.

(b) Each contract for a regional screening program shall be upon such terms and conditions as the commissioner determines, provided, however, that expenses incurred shall be reimbursed by the state after applying against the total cost of screening and diagnosis the amounts received from third party payers and less any fee charged each person receiving such services where the commissioner shall determine a sliding fee scale based on ability to pay.

3. Each provider of health care that enters into a contract as provided for in this section shall conduct a training program in conjunction with the department for purposes of instructing physicians, physician assistants and nurses within the respective health systems agency in the detection, diagnosis, treatment and prevention of diethylstilbestrol exposed persons.

4. The bureau of cancer control within the health department shall establish and maintain a registry of women who took diethylstilbestrol during pregnancy and their offspring who were exposed to diethylstilbestrol prenatally for the purpose of follow-up care and treatment of long term problems associated with diethylstilbestrol exposure. Enrollment in the registry shall be upon a voluntary basis.

5. The commissioner may request and shall receive from any department, division, board, bureau, commission or agency of the state or of any political subdivision thereof such assistance and data as will enable him to properly carry out his activities hereunder and effectuate the purposes herein set forth. The commissioner may also enter into any contract for services as he deems necessary with a private agency or concern upon said terms and conditions as he deems appropriate.

7. Special programs as provided for in this section shall be conducted within the appropriation made therefor.

§ 2500-d. New York state poison control network. 1. For the purposes of reducing the incidence, severity and expenditures for accidental, homicidal, suicidal or environmental poisoning; educating the public concerning the prevention and treatment of hazardous exposures; and organizing poison control activities on a regional basis in order to avoid duplication and waste, the commissioner shall designate facilities within the state as regional poison control centers.

2. The commissioner shall consider the following criteria in designating regional poison control centers: compliance or expected compliance with state poison control standards; location in relation to the geographical distribution of persons to be served; the need for expanded poison control services in the area to be served by the provider; whether the facility is presently providing poison control services; and the capacity of such providers to deliver and coordinate poison prevention information and poison treatment to the general public.

3. The commissioner shall establish minimum standards for designation as a regional poison control center. Such standards shall include:

a. services to be provided which may include:

(i) dissemination of expert information and consultation services to professional personnel on the diagnosis, treatment, and management of any suspected or actual poisonings;

(ii) dissemination of information, emergency first aid, and referral services to the general public;

(iii) coordination, assurance and monitoring of poison prevention and medical management programs for the professional community and the general public in the region it serves; and

(iv) collection of uniform data and research activity to enhance poison control management;

b. staffing requirements including the number, qualifications and training of personnel;

c. operational requirements including availability of and access to

services and informational resources, public and professional education, and protocols;

d. comprehensive treatment capabilities and a categorized system of treatment facilities for the region;

e. health professional outreach program; and

f. regional data collection system including a method of insuring the confidentiality of such data as is otherwise required by law.

4. The department shall make an annual report to the legislature of its findings and recommendations concerning the effectiveness, impact and benefits derived from the programs as established pursuant to this section. Such report shall be submitted on or before the first day of February and shall contain evaluations of such programs.

5. The commissioner shall appoint a committee to advise the department on matters pertaining to poison prevention and control. Membership on such committee shall include directors of regional poison control centers, consumers, industrial representatives, and representatives of state and federal agencies involved in poison safety.

6. A general hospital which is designated as a regional poison control center shall submit a budget indicating the costs of operating such center. Costs determined by the commissioner to be necessary and reasonable in order to comply with the requirements of this section shall be reimbursable and shall be allocated to costs of general hospital emergency services. Such reimbursable costs for a rate period shall be considered in the calculation of rates of payment for emergency services of a general hospital for such rate period in accordance with subdivision two of section twenty-eight hundred seven of this chapter without application of the maximum payment for the operating cost component of rates of payment for emergency services. Notwithstanding any inconsistent provision of law, reimbursable costs of a general hospital of operating a regional poison control center determined pursuant to this subdivision for annual rate periods beginning on or

after January first, nineteen hundred ninety-one through December thirty-first, nineteen hundred ninety-six allocable to emergency services provided to persons within such payor categories as specified in paragraphs (a), (b) and (c) of subdivision one of section twenty-eight hundred seven-c of this chapter for inpatient hospital services, excluding governmental agencies, shall be included in the determination of inpatient rates of payment for such payors, excluding governmental agencies, and rates of payment determined in accordance with section twenty-eight hundred seven-c of this chapter shall be adjusted on a hospital-specific basis in accordance with rules and regulations adopted by the state hospital review and planning council, subject to the approval of the commissioner, to reflect such costs and maximum inpatient charges of such general hospital computed in accordance with such section shall be adjusted accordingly; and cost based rates of payment for emergency services for such payors, other than governmental agencies, shall be calculated excluding costs of operating a regional poison control center.

7. Notwithstanding any inconsistent provision of law to the contrary, the commissioner is authorized to make grants, within amounts available therefor, to general hospitals designated as regional poison control centers to assist such general hospitals to meet reasonable costs of operation of the regional poison control center.

§ 2500-e. Pregnant women, blood test for hepatitis B; follow-up care.

1. At the time that a blood sample is taken to be tested for syphilis pursuant to section twenty-three hundred eight of this chapter, every physician or other authorized practitioner attending a pregnant woman in the state shall, in addition, submit or cause to be submitted such sample to an approved laboratory for a standard serological test for hepatitis B surface antigen.

2. The term "approved laboratory" means a laboratory approved for the purpose as herein provided by the department, or in the city of New York by the department of health of such city.

3. A standard serological test for hepatitis B surface antigen is one recognized as such by the department or in the city of New York by the department of health of such city.

4. The physician or other authorized practitioner attending a pregnant woman shall record the hepatitis B surface antigen test results prominently in the pregnant woman's medical record at or before the time of hospital admission for delivery.

5. If, at the time of hospital admission for delivery, hepatitis B surface antigen test results are not available, the hospital shall arrange immediate testing of the mother with results available within twenty-four hours, or as soon thereafter as practicable, but in no event longer than forty-eight hours.

6. It shall be the duty of the administrative officer or other person in charge of each institution caring for infants twenty-eight days of age or less to report the hepatitis B surface antigen test results of all mothers of newborn children to the department in such a manner as may be required by the commissioner.

7. If the mother of a newborn infant has tested positive for hepatitis B surface antigen, the physician or other authorized practitioner attending the infant shall offer or cause to be offered immunizing doses of hepatitis B vaccine and hepatitis B immune globulin to the newborn within twelve hours of birth or whenever the infant is stable physiologically and immunizing doses of hepatitis B vaccine and follow-up vaccine in accordance with the schedule specified by the commissioner. If the mother's hepatitis B surface antigen test results were unavailable when the mother was admitted to a hospital for delivery, the physician or other authorized practitioner attending the infant shall offer or cause to be offered immunizing doses of hepatitis B vaccine and hepatitis B immune globulin for the newborn immediately upon receiving results showing that the mother has tested positive for hepatitis B surface antigen and offer immunizing doses of hepatitis B vaccine and follow-up vaccine in accordance with the schedule specified by the commissioner.

8. The parent or guardian of any child born to a mother positive for hepatitis B surface antigen shall have administered to such child immunizing doses of hepatitis B immune globulin at birth and hepatitis B vaccine as well as follow-up hepatitis B vaccine in accordance with the schedule specified by the commissioner.

9. If the parent or guardian of such child is unable to pay for the services of a private physician or other authorized practitioner, such person shall present such child to the health officer of the county in which the child resides, who shall then administer the follow-up hepatitis B vaccine without charge.

10. If any licensed physician or nurse practitioner certifies that a follow-up dose of hepatitis B vaccine may be detrimental to a child's health, the requirements of this section shall be inapplicable until such immunization is found no longer to be detrimental to such child's health.

11. The provision of this section relating to immunization shall not apply in the case of any newborn infant whose parent or guardian holds genuine and sincere religious beliefs which prohibit immunization and who notifies the person charged with administering such immunization of the religious objection thereto.

12. The commissioner of health shall promulgate such rules and regulations as are necessary to carry out the requirements of this section.

§ 2500-f. Human immunodeficiency virus; testing of newborns. 1. In order to improve the health outcomes of newborns, and to improve access to care and treatment for newborns infected with or exposed to human immunodeficiency virus (HIV) and their mothers, the commissioner shall establish a comprehensive program for the testing of newborns for the presence of human immunodeficiency virus and/or the presence of antibodies to such virus.

2. The commissioner shall promulgate regulations governing the implementation of the program required pursuant to subdivision one of this section, including the administration of testing, counseling, tracking, disclosure of test results pursuant to section twenty-seven hundred eighty-two of this chapter, follow-up reviews, and educational activities relating to such testing.

§ 2500-f-1. Special program for HIV services for women and children, including adolescents. The commissioner, pursuant to a request for proposal, shall make grants to programs to provide HIV services for women and children, including adolescents which may include outreach and education concerning HIV infection, modes of transmission, the benefits of early diagnosis and medical intervention and the availability of services in the community for women and children, including adolescents, including those in need of prenatal and postpartum services. Such programs may make referrals for and may deliver medical and other appropriate services to assist such women and children, including adolescents. The commissioner is authorized to make grants within amounts available therefor to hospitals, community-based organizations and community service programs for programs authorized under this section.

§ 2500-g. Newborn infant hearing screening. 1. The commissioner shall, within the amounts appropriated therefor, and in consultation with health care providers or their representatives, establish a program to screen newborn infants for hearing problems. This program shall incorporate consensus medical guidelines and protocols, reflecting the most cost-effective methods for detecting hearing problems as early as possible in an infant's life. The program shall provide for follow-up screening including referrals for screening or care. Such program shall also provide for the reimbursement of health care providers performing such services under the program.

2. It shall be the duty of the administrative officer or other

designated person at each facility licensed pursuant to article twenty-eight of this chapter caring for newborn infants, to either administer a hearing screening upon each such newborn infant or, if the facility is not reasonably able to screen a newborn infant prior to discharge, provide a referral for the newborn infant to obtain the service following discharge. Facilities subject to the provisions of this section that administer a newborn infant hearing screening shall report to the department in a manner and format required by the commissioner:

- (a) the results of each newborn infant hearing screening performed;
- (b) instances in which a newborn infant hearing screening is not performed on a newborn infant before such infant is discharged from the facility; and
- (c) such other information or data as may be required by the commissioner pursuant to regulation to fulfill the purposes of this section.

3. Any person who performs a newborn infant hearing screening, meaning a hearing screening performed upon a newborn infant, other than a hearing screening administered by a facility pursuant to subdivision two of this section, or upon a child under six months of age, shall report to the department, in a manner and format required by the commissioner pursuant to regulation:

- (a) the results of each newborn infant hearing screening performed; and
- (b) such other information or data as may be required by the commissioner to fulfill the purposes of this section.

4. The department shall collect and maintain the newborn infant hearing results and information provided pursuant to subdivisions two and three of this section in a statewide information system developed by the department for such purpose.

5. The department shall provide access to newborn infant hearing screening results and other information or data as determined by the department to the following persons or entities for the following purposes:

(a) The commissioner of health for the purposes of outreach, quality improvement and accountability, research, and epidemiological studies and disease control;

(b) The commissioner of health and mental hygiene for the city of New York and local health departments for purposes of outreach, quality improvement and accountability, research, epidemiological studies and disease control;

(c) Health care professionals licensed under title eight of the education law and their designees for the purposes of determining, with respect to newborn infants or children under their care, whether a newborn infant hearing screening was performed, whether a re-screening or other follow-up is necessary, to enter newborn infant hearing screening results and data, and for treatment purposes;

(d) A facility licensed under article twenty-eight of this chapter that administers a newborn infant hearing screening for the purposes of entering newborn infant hearing screening results and data into the statewide information system and determining whether a screening, re-screening or other follow-up is necessary;

(e) Third party payers as defined in paragraph (f) of subdivision two of section twenty-one hundred sixty-eight of this chapter for the purposes of quality assurance, accountability and outreach relating to enrollees covered by the third party payer; and

(f) A commissioner of a local social services district with regard to newborn infants or children in his or her legal custody.

6. All newborn hearing screening results and other information or data maintained by the department shall be confidential and shall not be disclosed except as provided for in this section. The parent or guardian of a newborn infant or child for whom a newborn infant hearing screening was performed may obtain a copy of the newborn infant hearing screening results from:

(a) The facility that administered the newborn infant hearing screening;

(b) The person who performed the screening, if the screening was not administered at a facility subject to the provisions of this section; or

(c) The statewide information system that maintains the results by requesting the record pursuant to procedures established by the

commissioner in regulation.

*** § 2500-h. Statewide perinatal data system.** 1. In order to support quality care at all hospitals with obstetric services, the department is authorized to provide de-identified information for all births at each affiliate hospital in each regional perinatal center's network to the regional perinatal center and the affiliate, except that such information shall include zip code and a unique identifier such as medical record number.

2. The information when received by the department shall be used solely for the purpose of improving quality of care and shall not be subject to release under article six of the public officers law, and where applicable, shall be subject to the confidentiality provisions of section twenty-eight hundred five-m of this chapter, except that the release of birth certificate information shall be subject to section forty-one hundred seventy-four of this chapter.

3. The commissioner may release information collected through the statewide perinatal data system to his or her designees, including persons or entities under contract with the department to review quality of care issues, as required to monitor regional perinatal centers and affiliate hospitals and conduct quality improvement initiatives as needed to monitor, evaluate and improve patient care and outcomes. Such designee or person or entity under contract with the department to review quality of care issues shall maintain the confidentiality of all such information and shall use it only to improve quality of care, as approved by the department.

* NB There are 2 § 2500-h's

*** § 2500-h. Anaphylactic policy for school districts and child care providers.** 1. (a) The commissioner, in consultation with the commissioner of education, shall establish an anaphylactic policy for school districts setting forth guidelines and procedures to be followed for both the prevention of anaphylaxis and during a medical emergency

resulting from anaphylaxis. Such policy shall be developed after consultation with representatives of pediatric physicians, school nurses and other health care providers with expertise in treating children with anaphylaxis, parents of children with life threatening allergies, school administrators, teachers, school food service directors and appropriate not-for-profit corporations representing allergic individuals at risk for anaphylaxis.

(b) The commissioner, in consultation with the commissioner of children and family services, shall establish an anaphylactic policy for child day care providers as defined in section three hundred ninety of the social services law setting forth guidelines and procedures to be followed for both the prevention of anaphylaxis and during a medical emergency resulting from anaphylaxis. Such policy shall be developed after consultation with representatives of pediatric physicians and other health care providers with expertise in treating children with anaphylaxis, parents of children with life threatening allergies, child day care administrators and personnel, and appropriate not-for-profit corporations representing allergic individuals at risk for anaphylaxis. The commissioner, in consultation with the commissioner of children and family services, shall create informational materials detailing such anaphylactic policies to be distributed to child day care centers.

(c) In establishing policies pursuant to this subdivision, such commissioners shall consider existing requirements, as well as current and best practices for schools and child day care providers on allergies and anaphylaxis, including those in place for child care centers regulated by the New York city department of health and mental hygiene. Such commissioners shall also consider the voluntary guidelines for managing food allergies in schools and early care and education programs issued by the United States department of health and human services, to the extent appropriate for the setting.

(d) The commissioner shall create informational materials detailing such anaphylactic policies to be distributed to local school boards of education, charter schools, boards of cooperative educational services, and child day care centers, and shall make the materials available on the department's website.

2. The anaphylactic policies established under subdivision one of this

section shall include the following:

(a) a procedure and treatment plan, including emergency protocols and responsibilities for school nurses and other appropriate school and child day care personnel, for responding to anaphylaxis;

(b) a training course for appropriate school and child day care personnel for preventing and responding to anaphylaxis. The commissioner shall, in consultation with the commissioner of children and family services and the commissioner of education, consider existing training programs for responding to anaphylaxis in order to avoid duplicative training requirements. Such pre-existing program shall fulfill the requirement for a training course pursuant to this subdivision if the standards of such pre-existing program are deemed by the commissioner to be at least as stringent as the standards promulgated by the commissioner in the development of the training course by the state;

(c) a procedure and appropriate guidelines for the development of an individualized emergency health care plan for children with a food or other allergy which could result in anaphylaxis;

(d) a communication plan for intake and dissemination of information provided by the state regarding children with a food or other allergy which could result in anaphylaxis, including a discussion of methods, treatments and therapies to reduce the risk of allergic reactions, including anaphylaxis;

(e) strategies for the reduction of the risk of exposure to anaphylactic causative agents, including food and other allergens; and

(f) a communication plan for discussion with children that have developed adequate verbal communication and comprehension skills and with the parents or guardians of all children about foods that are safe and unsafe and about strategies to avoid exposure to unsafe food.

3. At least once per calendar year, schools shall send a notification to the parents and/or guardians of all children under the care of such schools to make them aware of such anaphylactic policies, as developed by the commissioner. For children under the care of the child day care providers, such notification shall be provided by the child day care provider when the child is enrolled and annually thereafter. Such notifications shall include contact information for parents and guardians to engage further with the school or child day care provider

to learn more about individualized aspects of such policies.

4. Within six months of the effective date of the chapter of the laws of two thousand nineteen which amended this section, the anaphylactic policies established under this section shall be jointly forwarded by the commissioner as well as the commissioner of education or the commissioner of children and family services as appropriate to each local school board of education, charter school, board of cooperative educational services and child day care service provider, as defined in section three hundred ninety of the social services law, in the state. Each such entity shall implement or update as appropriate their anaphylactic policy in accordance with those developed by the state within six months of receiving the anaphylactic policies.

5. The anaphylactic policies established by this section shall be updated at least once every three years, or more frequently if the commissioner determines it to be necessary or desirable for the protection of children with a food allergy or other allergy which could result in anaphylaxis.

* NB There are 2 § 2500-h's

§ 2500-i. Child food choking prevention. 1. The department shall establish criteria for determining which foods and food products may pose a significant choking risk for children in various age groups.

2. The department shall conduct an ongoing public awareness and education program under section two hundred seven of this chapter on choking risks, precautions and life-saving procedures, including, but not limited to, listing on its internet website information that assists members of the public in locating infant and child cardiopulmonary resuscitation classes.

3. The department shall produce and distribute educational materials on food choking risks, precautions and life-saving procedures. Such materials shall be made available to child care centers, pediatricians and nursery, elementary and secondary schools for distribution to

persons in parental relation to children, and to hospitals, birthing centers and other appropriate health care providers for distribution to maternity patients. In addition, such materials shall be provided to health care professionals engaged in the care and treatment of children for distribution to such children and persons in parental relation. The department shall also provide information on food choking risks, precautions and life-saving procedures on the department's internet website. No provision of this subdivision shall be deemed to prohibit the utilization and distribution of educational materials relating thereto produced by any public, private or governmental entity, in lieu of the department's production of such materials.

4. The department shall periodically review available data on choking incidents in children and update the information on choking risks, precautionary measures and life-saving procedures provided in its educational materials and on its internet website, as appropriate.

5. The department shall report every three years, commencing January first, two thousand eighteen, to the governor, the temporary president of the senate and the speaker of the assembly on the implementation of this section and any recommendations for furthering the purpose of this section.

6. Implementation of this section shall be contingent upon and shall be conducted within appropriations made therefor.

§ 2500-j. Autism spectrum disorders; screening of children. 1. The commissioner shall establish, for use by pediatric primary care providers, best practice protocols for early screening of children for autism spectrum disorders, including but not limited to developmental screening for children three years of age and under. Such protocols shall incorporate standards and guidelines established by the American Academy of Pediatrics, shall be updated at least biennially, and shall include, but not be limited to:

(a) the routine employment of objective autism spectrum disorder screening tools at regular intervals during critical childhood

developmental stages;

(b) a provider/parental dialogue, utilizing the modified checklist for autism in toddlers as a reference, intended to educate parents in regard to autism spectrum disorders; and

(c) an appropriate referral mechanism for children who, based upon results of the aforementioned screening process, require further evaluation.

2. The modified checklist for autism in toddlers referred to in subdivision one of this section shall be accessible by the public on the department's internet website.

3. The commissioner shall promulgate any rules and regulations necessary to implement the provisions of this section.

§ 2500-k. Maternal depression. 1. Definitions. As used in this section:

(a) "Maternal depression" means a wide range of emotional and psychological reactions an individual may experience throughout pregnancy and the postpartum period. These reactions may include, but are not limited to, feelings of despair or extreme guilt, prolonged sadness, lack of energy, difficulty concentrating, fatigue, extreme changes in appetite, and thoughts of suicide or of harming the baby. Maternal depression may include prenatal depression, perinatal mood and anxiety disorder, the "baby blues," postpartum depression, or postpartum psychosis.

(b) "Maternal health care provider" means a physician, midwife, nurse practitioner, or physician assistant, or other health care practitioner acting within his or her lawful scope of practice, attending a perinatal individual, including any practitioner attending the individual's child, from conception up to one year postpartum.

2. Maternal depression information. (a) The commissioner, in consultation with the commissioner of mental health, shall make available to maternal health care providers information on maternal depression. The information shall include, but not be limited to:

(i) a summary of the current evidence base and professional guidelines for maternal depression screening;

(ii) validated, evidence-based tools for maternal depression screening;

(iii) information about follow-up support for patients who may require further evaluation, referral, or treatment including, when available, information about specific community resources and entities licensed by the office of mental health; and

(iv) information on engaging support for the mother, which may include communicating with the other parent of the child and other family members, as appropriate and consistent with patient confidentiality.

(b) The information on maternal depression shall be posted on the department's website. The commissioner shall, in collaboration with the commissioner of mental health, update and review the information on maternal depression, as necessary.

3. Maternal depression screenings. (a) The commissioner, in consultation with the office of mental health, the office of addiction services and supports, and other relevant stakeholders as determined by the commissioner, shall publish guidance for incorporating maternal depression screenings into routine perinatal care. This guidance shall include, but not be limited to, recommendations and best practices related to:

(i) when maternal health care providers should initiate maternal depression screenings and how often such screenings should be repeated throughout pregnancy and the postpartum period;

(ii) screening for social needs that may contribute to maternal depression such as social support, intimate partner violence, food and housing insecurity, diaper insecurity, and barriers to appropriate healthcare;

(iii) screening for substance use disorders;

(iv) referrals for appropriate follow-up evaluation, diagnosis, and treatment; and

(v) reimbursement methodologies to incentivize provider participation.

(b) The commissioner, in consultation with the office of mental health, the office of addiction services and supports, and other relevant stakeholders as determined by the commissioner, shall identify

existing information and training programs designed to inform providers in an effort to promote maternal depression screening and treatment, and publish the links to such information and training programs on the department's website. The identified information and training programs shall include the following topics:

- (i) health equity;
- (ii) implicit bias and cultural competency;
- (iii) screening, referral and treatment options;
- (iv) patient resources and available services;
- (v) patients' rights;
- (vi) pharmacotherapy;
- (vii) trauma-informed, patient-centered care; and
- (viii) other topics as identified by the commissioner.

4. Maternal depression treatment. The commissioner, in consultation with the commissioner of mental health, shall:

(a) inform providers of the need to raise awareness about maternal depression; and

(b) provide information on the department's and office of mental health's websites regarding how to locate available providers who treat or provide support for maternal depression including, but not limited to, mental health professionals, other licensed professionals, peer support, not-for-profit corporations and other community resources.

5. The commissioner shall make any regulations necessary to implement this section.

§ 2500-1. Pregnant people, blood test for hepatitis C virus (HCV); follow-up care. 1. Every physician or other authorized practitioner attending a pregnant person in the state shall order a hepatitis C virus (HCV) screening test and if the test is reactive, an HCV RNA test must be performed on the same specimen, or a second specimen collected at the same time as the initial HCV screening test specimen, to confirm diagnosis of current infection. The health care provider shall either offer all persons with a detectable HCV RNA test follow-up HCV health care and treatment or refer the individual to a health care provider who

can provide follow-up HCV health care and treatment.

2. The physician or other authorized practitioner attending a pregnant person shall record the HCV test results prominently in the pregnant person's medical record at or before the time of hospital admission for delivery.

3. The commissioner may promulgate such rules and regulations as are necessary to carry out the requirements of this section.

§ 2500-m. Access to doulas. (a) When a person is admitted to a maternal health care facility for delivery and/or inpatient care post-delivery, such person may designate a doula to have access to such person. The maternal health care facility shall not deny such person access to such person's designated doula. For the purposes of this section, the term "maternal health care facility" shall mean a hospital or freestanding birthing center providing perinatal services in accordance with article twenty-eight of this chapter and applicable regulations.

(b) Nothing in this section shall require a maternal health care facility to grant a doula access to a person or area of the facility during emergencies or when such access could compromise the safety of the patient or health care team.

(c) The department shall require all maternal health care facilities to include and/or post on the maternal health care facility's webpage, lobby, and patient waiting areas information stating a birthing parent is allowed to have a doula present in the maternal health care facility for delivery and/or inpatient care post-delivery. Such information shall be written in layperson's language and shall be made available in English and the six most common non-English languages spoken by individuals with limited English proficiency in New York state as based on the most recent census. The department shall produce and provide maternal health care facilities with informational pamphlets stating a birthing parent shall be allowed to have a doula present in the maternal health care facility for delivery and/or inpatient care post-delivery. The informational pamphlet shall be: available in each patient waiting

area as a printed deliverable; written in layperson's language; and made available in English and the six most common non-English languages spoken by individuals with limited English proficiency in New York state as based on the most recent census.

§ 2501. Health and welfare services to all children; duty of local boards. 1. The local board of health or similar health authority of each local health district shall provide children who attend schools other than public with all or any of the health and welfare services and facilities, including but not limited to health, surgical, medical, dental and therapeutic care and treatment and corrective aids and appliances, authorized by law and now granted or hereafter made available by such local board of health or similar health authority for or to children in the public schools in so far as these services and facilities may be requested by the authorities of the schools other than public.

2. Any services or facilities provided pursuant to the provisions of this section shall be so provided notwithstanding any provision of any charter or other provision of law inconsistent herewith.

§ 2502. Report of certain conditions. Any nurse-midwife, nurse or other person having the care of an infant within the age of two weeks who neglects or omits to report immediately to the health officer or to a legally qualified practitioner of medicine of the city, town or place where such child is being cared for, the fact that one or both eyes of such infant are inflamed or reddened whenever such shall be the case, or who applies any remedy therefor without the advice, or except by the direction of such officer or physician is guilty of a misdemeanor.

§ 2503. Drug information to be furnished expectant mothers. The physician or nurse-midwife to be in attendance at the birth of a child shall inform the expectant mother, in advance of the birth, of the drugs that such physician or nurse-midwife expects to employ during pregnancy

and of the obstetrical and other drugs that such physician or nurse-midwife expects to employ at birth and of the possible effects of such drugs on the child and mother.

§ 2504. Enabling certain persons to consent for certain medical, dental, health and hospital services. 1. Any person who is eighteen years of age or older, or is the parent of a child or has married, or is a homeless youth as defined in section five hundred thirty-two-a of the executive law, or receives services at an approved runaway and homeless youth crisis services program or a transitional independent living support program as defined in section five hundred thirty-two-a of the executive law, may give effective consent for medical, dental, health and hospital services, including behavioral health services, for themselves, and the consent of no other person shall be necessary.

2. Any person who has been married or who has borne a child may give effective consent for medical, dental, health and hospital services for his or her child. Any person who has been designated pursuant to title fifteen-A of article five of the general obligations law as a person in parental relation to a child may consent to any medical, dental, health and hospital services for such child for which consent is otherwise required which are not: (a) major medical treatment as defined in subdivision (a) of section 80.03 of the mental hygiene law; (b) electroconvulsive therapy; or (c) the withdrawal or discontinuance of medical treatment which is sustaining life functions.

3. Any person who is pregnant may give effective consent for medical, dental, health and hospital services relating to prenatal care.

4. Medical, dental, health and hospital services may be rendered to persons of any age without the consent of a parent, legal guardian or person possessing a lawful order of custody when, in the physician's judgment an emergency exists and the person is in immediate need of medical attention and an attempt to secure consent would result in delay of treatment which would increase the risk to the person's life or health.

5. Where not otherwise already authorized by law to do so, any person in a parental relation to a child as defined in section twenty-one hundred sixty-four of this chapter and, (i) a grandparent, an adult brother or sister, an adult aunt or uncle, any of whom has assumed care of the child and, (ii) an adult who has care of the child and has written authorization to consent from a person in a parental relation to a child as defined in section twenty-one hundred sixty-four of this chapter, may give effective consent for the immunization of a child. However, a person other than one in a parental relation to the child shall not give consent under this subdivision if he or she has reason to believe that a person in parental relation to the child as defined in section twenty-one hundred sixty-four of this chapter objects to the immunization.

6. Anyone who acts in good faith based on the representation by a person that he is eligible to consent pursuant to the terms of this section shall be deemed to have received effective consent.

7. No person shall perform a pelvic examination or supervise the performance of a pelvic examination on an anesthetized or unconscious patient unless the person performing the pelvic examination is legally authorized to do so and the person supervising the performance of the pelvic examination is legally authorized to do so and:

(a) the patient or the patient's authorized representative gives prior oral or written informed consent specific to the pelvic examination;

(b) the performance of a pelvic examination is within the scope of care for the surgical procedure or diagnostic examination scheduled to be performed on the patient and to which the patient has already given oral or written consent; or

(c) the patient is unconscious and the pelvic examination is medically necessary for diagnostic or treatment purposes, and the patient is in immediate need of medical attention and an attempt to secure consent would result in a delay of treatment which would increase the risk to the patient's life or health.

Nothing in this subdivision diminishes any other requirement to obtain

informed consent for a pelvic examination or any other procedure.

§ 2504-a. Hepatitis B immunization of a minor. 1. A health care practitioner may administer immunization against hepatitis B to a person under the age of eighteen years without the consent or knowledge of the parents or guardian of said person, if said person has capacity to consent and consents to the immunization, and said person is housed in a state or local correctional facility.

2. For the purposes of this section:

(a) the term "health care practitioner" shall mean a person licensed, certified or otherwise authorized to practice under title eight of the education law, acting within his or her lawful scope of practice; and

(b) the term "capacity to consent" shall mean an individual's ability, determined without regard to the individual's age, to understand and appreciate the nature and consequences of the proposed immunization, and to make an informed decision concerning the immunization.

§ 2504-b. Information concerning pelvic exams. 1. On or before July first, two thousand twenty-two, the department shall develop an informational pamphlet for patients undergoing pelvic examinations. In developing the pamphlet, the department shall consult with state professional societies representing physicians in general, obstetricians and gynecologists, family practice physicians, nurse practitioners, physician assistants and midwives. The pamphlet shall include but not be limited to information concerning, the following:

(a) what a pelvic exam is and how it is properly performed;

(b) if applicable, a description of other relevant exams;

(c) privacy expectations, including that privacy should be provided for the patient both when undressing and dressing and that a gown or a drape should be provided;

(d) an explanation of what a speculum is and how it should be properly used during an examination;

(e) that gloves should be worn by the practitioner during the examination; and

(f) a telephone number for the office of professional medical conduct in the department and the office of the professions in the state education department, at which a patient may report any misconduct that the patient feels may have occurred.

2. The informational pamphlet shall be made available for use by practitioners. The informational pamphlet shall be posted as a printable file on the department's internet website, and may also be made available for order as a printed deliverable on the department's internet website.

3. The informational pamphlet shall be written in layperson's language and shall be made available in English and the six most common non-English languages spoken by individuals with limited English proficiency in New York state as based on the most recent census.

4. A practitioner may provide the patient the informational pamphlet developed pursuant to this section.

5. For purposes of this section, "practitioner" means a health care professional licensed, certified, or otherwise authorized to practice under the education law, acting within the scope of practice.

§ 2505. Human breast milk; collection, storage and distribution; general powers of the commissioner. The commissioner is hereby empowered to:

(a) adopt regulations and guidelines including, but not limited to donor standards, methods of collection, and standards for storage, and distribution of human breast milk;

(b) conduct educational activities to inform the public and health care providers of the availability of human breast milk for infants determined to require such milk and to inform potential donors of the opportunities for proper donation;

(c) conduct educational activities to encourage and facilitate employers and child day care centers to establish environments that do not discourage breastfeeding and the provision of breast milk. Such

environments may include sanitary locations for breastfeeding and refrigerators to assist in breastfeeding and feeding babies with expressed breast milk; and

(d) establish rules and regulations to effectuate the provisions of this section.

§ 2505-a. Rights of breastfeeding mothers. 1. The principles enunciated in subdivision three of this section are declared to be the public policy of the state and a copy of such statement of rights shall be posted conspicuously in a public place in each maternal health care facility and child day care facility. For purposes of this section, "maternal health care provider" means a physician, midwife, or other authorized practitioner attending a pregnant woman; and "maternal health care facility" includes hospitals and freestanding birthing centers providing perinatal services in accordance with article twenty-eight of this chapter and applicable regulations.

2. The commissioner shall make available to every maternal health care provider, maternal health care facility and child day care facility, on the health department's website for the purpose of health care facilities to include such rights in the maternity information leaflet as described in section twenty-eight hundred three-j of this chapter, a copy of the statement of rights provided in subdivision three of this section in the top six languages other than English spoken in the state according to the latest available data from the U.S. Bureau of Census, and shall adopt any rules and regulations necessary to ensure that such patients are treated in accordance with the provisions of such statement.

3. The statement of rights shall consist of the following:

"Breastfeeding Mothers' Bill of Rights"

Choosing the way you will feed your new baby is one of the important decisions you will make in preparing for your infant's arrival. Doctors agree that for most women breastfeeding is the safest and most healthy choice. It is your right to be informed about the benefits of

breastfeeding and have your health care provider, maternal health care facility and child day care facility encourage and support breastfeeding. You have the right to make your own choice about breastfeeding. Whether you choose to breastfeed or not you have the following basic rights regardless of your race, creed, national origin, sexual orientation, gender identity or expression, or source of payment for your health care. Maternal health care facilities have a responsibility to ensure that you understand these rights. They must provide this information clearly for you and must provide an interpreter if necessary. These rights may only be limited in cases where your health or the health of your baby requires it. If any of the following things are not medically right for you or your baby, you should be fully informed of the facts and be consulted.

(1) Before You Deliver, if you attend prenatal childbirth education classes provided by the maternal health care facility and all hospital clinics and diagnostic and treatment centers providing prenatal services in accordance with article 28 of the public health law you must receive the breastfeeding mothers' bill of rights. Each maternal health care facility shall provide the maternity information leaflet, including the Breastfeeding Mothers' Bill of Rights, in accordance with section twenty-eight hundred three-i of the public health law to each patient or to the appointed personal representative at the time of prebooking or time of admission to a maternal health care facility. Each maternal health care provider shall give a copy of the Breastfeeding Mothers' Bill of Rights to each patient at or prior to the medically appropriate time.

You have the right to complete information about the benefits of breastfeeding for yourself and your baby. This will help you make an informed choice on how to feed your baby.

You have the right to receive information that is free of commercial interests and includes:

- * How breastfeeding benefits you and your baby nutritionally, medically and emotionally;
- * How to prepare yourself for breastfeeding;
- * How to understand some of the problems you may face and how to solve

them.

(2) In The Maternal Health Care Facility:

- * You have the right to have your baby stay with you right after birth whether you deliver vaginally or by cesarean section. You have the right to begin breastfeeding within one hour after birth.

- * You have the right to have someone trained to help you in breastfeeding give you information and help you when you need it.

- * You have the right to have your baby not receive any bottle feeding or pacifiers.

- * You have the right to know about and refuse any drugs that may dry up your milk.

- * You have the right to have your baby in your room with you 24 hours a day.

- * You have the right to breastfeed your baby at any time day or night.

- * You have the right to know if your doctor or your baby's pediatrician is advising against breastfeeding before any feeding decisions are made.

- * You have the right to have a sign on your baby's crib clearly stating that your baby is breastfeeding and that no bottle feeding of any type is to be offered.

- * You have the right to receive full information about how you are doing with breastfeeding and get help on how to improve.

- * You have the right to breastfeed your baby in the neonatal intensive care unit. If nursing is not possible, every attempt will be made to have your baby receive your pumped or expressed milk.

- * If you, or your baby, are re-hospitalized in a maternal care facility after the initial delivery stay, the hospital will make every effort to continue to support breastfeeding, to provide hospital grade electric pumps and rooming in facilities.

- * You have the right to have help from someone specially trained in breastfeeding support and expressing breast milk if your baby has special needs.

- * You have the right to have a family member or friend receive breastfeeding information from a staff member if you request it.

(3) When You Leave The Maternal Health Care Facility:

- * You have the right to printed breastfeeding information free of commercial material.

* You have the right, unless specifically requested by you, and available at the facility, to be discharged from the facility without discharge packs containing infant formula, or formula coupons unless ordered by your baby's health care provider.

* You have the right to get information about breastfeeding resources in your community including information on availability of breastfeeding consultants, support groups and breast pumps.

* You have the right to have the facility give you information to help choose a medical provider for your baby and understand the importance of a follow-up appointment.

* You have the right to receive information about safely collecting and storing your breast milk.

* You have the right to breastfeed your baby in any location, public or private, where you are otherwise authorized to be. Complaints can be directed to the New York State Division of Human Rights.

* You have a right to breastfeed your baby at your place of employment or child day care center in an environment that does not discourage breastfeeding or the provision of breast milk.

* You have the right to take reasonable unpaid breaks at work so you can pump breast milk for up to three years following childbirth under section 206-c of the Labor Law. Your employer must make reasonable efforts to provide a room or other locations where you can express breast milk in privacy. Your employer may not discriminate against you based on your decision to express breast milk at work. Complaints can be directed to the New York State Department of Labor.

All the above are your rights. If the maternal health care facility does not honor these rights you can seek help by contacting the New York state department of health or by contacting the hospital complaint hotline or via email.

4. The commissioner shall make regulations reasonably necessary to implement this section.

§ 2505-b. Lactation accommodations in airports. 1. The terminal operator of a commercial service airport owned or operated by a county,

city, town, village, or state or local authority that has one million or more enplanements a year shall provide a room or other location at each airport passenger terminal behind the airport security screening area for members of the public to express breast milk in private that meets the following conditions:

- (a) includes, at a minimum, a chair and an electrical outlet;
- (b) is located outside of the confines of a public restroom; and
- (c) upon completion of the construction of a new passenger terminal, or the replacement, expansion, or renovation of an existing passenger terminal, includes a sink.

2. The terminal operator of a commercial service airport owned or operated by a county, city, town, village, or state or local authority that has fewer than one million, but more than ten thousand enplanements a year shall, upon completion of the construction of a new passenger terminal, or the replacement, expansion, or renovation of an existing passenger terminal, provide a room or other location at each airport passenger terminal behind the airport security screening area for members of the public to express breast milk in private that meets the following conditions:

- (a) includes, at a minimum, a chair, a sink, and an electrical outlet; and
- (b) is located outside of the confines of a public restroom.

3. As used in this section, "renovation of an existing passenger terminal" means the repurposing of more than twenty-five percent of the space in the passenger terminal.

§ 2506. Obstetric and pediatric practitioner incentive demonstration program. 1. There is hereby established in the department the obstetric and pediatric practitioner incentive demonstration program, to provide financial support for obstetric practitioners providing prenatal and obstetric services to medically needy women and to pediatric practitioners serving children up to one year of age, to assist them in paying for professional liability insurance coverage related to those services, within amounts appropriated for that purpose.

2. As used in this section, the following terms shall have the following meanings:

(a) "Obstetric practitioner". A physician who is board certified or an active candidate for board certification in obstetrics, a physician who is board certified, or eligible for board certification, in family practice and provides obstetric services, a certified nurse midwife, or an obstetric nurse practitioner.

(b) "Pediatric practitioner". A physician who is board certified, or eligible for board certification, in pediatrics or a pediatric nurse practitioner.

(c) "Prenatal and obstetric services to medically needy women" and "pediatric services for children up to one year of age". Prenatal and obstetric services provided by an obstetric practitioner, and pediatric services for children up to one year of age, in private individual or group practice, or comprehensive diagnostic and treatment centers pursuant to article twenty-eight of this chapter, to women and children (i) through the prenatal care assistance program, or the medical assistance program under the social services law; or (ii) through a program approved by the commissioner under this section, under which the services are provided without remuneration to the practitioner for his or her services; or (iii) who are not covered for these services by subparagraph (i) of this paragraph or by private health insurance.

3. The commissioner is authorized to contract with obstetric and pediatric practitioners to provide financial support for the costs they bear for their professional liability insurance coverage, to the extent that the cost is reasonably related or proportional to the amount of prenatal and obstetric and pediatric services to medically needy women and children up to one year of age the practitioner provides in proportion to the total amount of prenatal, obstetric and pediatric services the practitioner provides.

4. Prenatal and obstetric services and pediatric services for children up to one year of age provided without remuneration to the obstetrical or pediatric practitioner, for the purposes of this section, shall be provided as part of a program administered by a general hospital (as

defined in article twenty-eight of this chapter) or a city or county health department, approved by the commissioner.

5. The commissioner shall establish regulations, standards and procedures for the obstetric and pediatric practitioner incentive demonstration program, including but not limited to quality assurance, the services to be provided, and the provision of records and information by obstetric and pediatric practitioners applying for or receiving support under this section.

6. In making contracts under this section, the commissioner shall consider the extent to which the support will increase, maintain and improve the accessibility and quality of prenatal and obstetric services to medically needy women and pediatric services to children up to one year of age, and shall assure that support is reasonably distributed geographically throughout urban and rural areas of the state.

7. On or before February first, nineteen hundred ninety-two, the commissioner shall submit to the governor and the chairs of the assembly and senate committees on health a report on the operation and effectiveness of the obstetric and pediatric practitioner incentive demonstration program, including any recommendations the commissioner deems appropriate.

§ 2507. Special supplemental nutrition program for women, infants and children; specialty formula.

1. Definitions. For the purposes of this section:

(a) "WIC" shall mean the special supplemental nutrition program for women, infants and children;

(b) "WIC food vendor" shall mean a business entity that operates a retail delivery system that is authorized by the department to sell products covered by WIC to individuals under the WIC program; and

(c) "Specialty formula" shall mean specifically formulated nutrition products prescribed for medically fragile WIC participants with qualifying medical conditions.

2. Every WIC food vendor shall be authorized to sell any product covered under WIC, including specialty formula, in accordance with the WIC vendor type as designated by the department, unless specifically limited or barred by the commissioner pursuant to state or federal regulations. The commissioner is authorized to establish criteria defining which WIC food vendors can sell specialty formula. Any such criteria shall not be applied arbitrarily and shall ensure WIC participant access to specialty formula. The commissioner shall establish a process to address individual cases where there is evidence of inadequate WIC participant access.

§ 2508. Newborn health and safe sleep study. There shall be established in the department, by the commissioner, a newborn health and safe sleep study designed to reduce infant mortality rates across the state and enhance existing strategies to improve safe sleep practices. The department, in consultation with health care providers, hospitals, safe sleep product manufacturers, provider groups, the New York state office of children and family services, and any other person or entity the commissioner deems necessary, shall conduct a study on the effectiveness of existing safe sleep practices and identify additional safe sleep practices that reduce infant mortality rates. The study shall include a review of baby boxes and other products aimed at encouraging safe and healthy sleep practices. The department shall report to the legislature within twelve months of the effective date of this section on the results of this study. Within twelve months after the completion of the study, the department shall conduct a pilot program aimed at improving caregiver education and continued safe sleep practices in counties or areas with high infant mortality rates, and also shall pursue available funding options and make efforts to establish a public-private partnership with organizations that promote such causes or manufacture such products in order to seek to obtain donations for these purposes.

§ 2509. Maternal mortality review board. 1. (a) There is hereby

established in the department the maternal mortality review board for the purpose of reviewing maternal deaths and maternal morbidity and developing and disseminating findings, recommendations, and best practices to contribute to the prevention of maternal mortality and morbidity. The board shall assess the cause of death, factors leading to death and preventability for each maternal death reviewed and, in the discretion of the board, cases of severe maternal morbidity, and shall develop and disseminate strategies for reducing the risk of maternal mortality and morbidity, including risk resulting from racial, economic, or other disparities. The commissioner may delegate the authority to conduct maternal mortality reviews.

(b) The commissioner may enter into an agreement with the city of New York providing:

(i) that the functions of the state board relating to maternal deaths and severe maternal morbidity occurring within the city of New York shall be conducted by the city board;

(ii) the city board shall provide to the state board the results of its reviews, relevant information in the possession of the city board, and the recommendations of the city board; and

(iii) the department and the state board shall provide information and assistance to the city board for the performance of its functions.

(c) Nothing in this section shall prevent the city of New York from establishing, without an agreement with the commissioner, a board relating to maternal deaths and severe maternal morbidity occurring within the city of New York.

2. As used in this section, unless the context requires otherwise:

(a) "Advisory council" and "council" mean the advisory council on maternal mortality and morbidity, established under this section.

(b) "Board" means a maternal mortality review board established by this section, referred to in this section as the "state board", or a board operating under this section established by the city of New York, with or without an agreement with the commissioner, referred to in this section as the "city board".

(c) "Maternal death" means the death of a woman during pregnancy or within a year from the end of pregnancy.

(d) "Severe maternal morbidity" or "morbidity" means unexpected

outcomes of pregnancy, labor, or delivery that result in significant short- or long-term consequences to a woman's health.

(e) "City commissioner" means the commissioner of the New York city department of health and mental hygiene.

3. (a) The members of the state board shall be comprised of multidisciplinary experts in the field of maternal mortality, women's health and public health, and shall include health care professionals or other experts who serve and are representative of the racial, ethnic, and socioeconomic diversity of the women and mothers of the state and, to the extent possible, the medically underserved areas of the state or areas of the state with disproportionately high occurrences of maternal mortality or morbidity.

(b) The state board shall be composed of at least fifteen members, all of whom shall be appointed by the commissioner.

(c) The terms of the state board members shall be three years. The commissioner may choose to reappoint state board members to additional three year terms.

(d) A majority of the appointed membership of the state board, no less than three, shall constitute a quorum.

(e) When any member of the state board fails to attend three consecutive regular meetings, unless such absence is for good cause, that membership may be deemed vacant for purposes of the appointment of a successor.

(f) Meetings of the state board shall be held at least twice a year but may be held more frequently as deemed necessary, subject to request of the department.

(g) Members of the state and city boards shall be indemnified under section seventeen of the public officers law or section fifty-k of the general municipal law, as the case may be.

(h) Members of the state board shall not be compensated for their participation on the board but shall receive reimbursement for their ordinary and necessary expenses of participation.

(i) Membership on a board shall not disqualify any person from holding any public office or employment.

4. (a) The commissioner may request and shall receive upon request

from any department, division, board, bureau, commission, local health departments or other agency of the state or political subdivision thereof or any public authority, such information, including but not limited to death records, medical records, autopsy reports, toxicology reports, hospital discharge records, birth records and any other information that will help the department under this section to properly carry out its functions, powers and duties. The commissioner, or the city commissioner for the maternal deaths or maternal morbidity occurring within the vital statistics registration district of the city of New York may request and shall receive upon request from any department, division, board, commission or other agency under the authority of the city of New York as well as hospitals established pursuant to article twenty-eight of this chapter, birthing facilities, medical examiners, coroners and coroner physicians and any other facility providing services associated with maternal mortality or maternal morbidity, such information, including, but not limited to, death records, medical records, autopsy reports, toxicology reports, hospital discharge records, birth records and any other information that will help the department under this section to properly carry out its functions, powers and duties.

(b) The commissioner and the city commissioner shall receive and may solicit voluntary information, including oral or written statements, relating to any maternal death and case of severe maternal morbidity, from any family member or other interested party (including the patient in a case of severe maternal morbidity) relating to any case that may come before the board. Oral statements received under this paragraph shall be transcribed or summarized in writing. The commissioner and the city commissioner shall transmit that information to the board considering the case.

(c) Before transmitting any information to the board, the commissioner or the city commissioner shall remove all personal identifying information of the woman, health care practitioner or practitioners or anyone else individually named in such information, as well as the hospital or facility that treated the woman, and any other information such as geographic location that may inadvertently identify the woman, practitioner or facility. This paragraph shall not preclude the transmitting of information to the board that is reasonably necessary to

enable the board to perform an appropriate review under this section.

5. Each board:

(a) shall make and report findings and recommendations to the commissioner, and in the case of the city board to the commissioner and the city commissioner regarding the cause of death, factors leading to death, and preventability of each maternal death case, and each case of severe maternal morbidity reviewed by the board, by reviewing relevant information for each case in the state or the city of New York, as the case may be, and consulting with experts as needed to evaluate the information for each death; and shall provide such findings and recommendations, including best practices and strategies for reducing the risk of maternal mortality and morbidity, to the advisory council; provided that material provided to the advisory council shall not include any information that would be confidential under this section;

(b) shall develop recommendations to the commissioner, and in the case of the city board to the commissioner and the city commissioner for areas of focus, including issues of severe maternal morbidity and issues of racial, economic or other disparities in maternal outcomes;

(c) may, in addition to the findings and recommendations made under this subdivision, and consistent with all applicable confidentiality protections, bring any particular matter to the attention of the commissioner or the city commissioner, and in the case of the city board to the commissioner and the city commissioner;

(d) shall issue a report on its findings and recommendations every two years, and may also issue reports more frequently. The reports shall be public documents; and

(e) may request and shall receive the assistance of the commissioner in the instance of the state board and the city commissioner in the instance of the city board in carrying out its functions.

6. The commissioner and the city commissioner and the state and city boards shall each keep confidential any information collected or received under this section that includes personal identifying information of the woman, health care practitioner or practitioners or anyone else individually named in such information, as well as the hospital or facility that treated the woman, and any other information

such as geographic location that may inadvertently identify the woman, practitioner or facility, and shall use the information provided or received under this section solely for the purposes of improvement of the quality of health care of women and to prevent maternal mortality and morbidity. This subdivision shall not preclude the transmitting of information to the board that is reasonably necessary to enable the board to perform an appropriate review under this section. All records received, meetings conducted, reports, except those reports required to be issued by the board by this section, and records made and maintained and all books and papers obtained by the board shall be confidential and shall not be made open or available, including under article six of the public officers law, and shall be limited to board members as well as those authorized by the commissioner or city commissioner. Such information shall not be discoverable or admissible as evidence in any action in any court or before any other tribunal, board, agency or person.

7. The commissioner and the city commissioner, within their respective legal authority, may use the recommendations and findings of the boards to develop guidance and other actions relating to best practices, and shall disseminate information relating to that guidance and other actions to appropriate health care providers.

8. (a) There is hereby established in the department an advisory council on maternal mortality and morbidity.

(b) The advisory council:

(i) may review the findings of the boards;

(ii) may develop recommendations on policies, best practices, and strategies to prevent maternal mortality and morbidity;

(iii) may hold public hearings on those matters;

(iv) may make findings and issue reports, including an annual report, on such matters; and

(v) may request and shall receive the assistance of the commissioner, the city commissioner, and the boards in carrying out its functions.

(c) The advisory council shall consist of at least twenty members to be determined by the commissioner. The commissioner shall appoint the members of the council, at least ten of whom shall be on the

recommendation of the city commissioner. The commissioner shall appoint the chair of the council.

(d) The members of the council shall be comprised of multidisciplinary experts and lay persons knowledgeable in the field of maternal mortality, women's health and public health and shall include members who serve and are representative of the racial, ethnic, and socioeconomic diversity of the women and mothers of the state, and to the extent possible, the medically underserved areas of the state or areas of the state with disproportionately high occurrences of maternal mortality or morbidity.

(e) The terms of the council members shall be three years. The commissioner may choose to reappoint council members to additional three-year terms. Vacancies on the council shall be filled by appointment by the commissioner, consistent with paragraph (c) of this subdivision. A majority of the appointed membership of the council shall constitute a quorum. When any member of the council fails to attend three consecutive regular meetings, unless such absence is for good cause, that membership may be deemed vacant for purposes of the appointment of a successor.

(f) Meetings of the council shall be held at least twice a year.

(g) Members of the council shall be indemnified under section seventeen of the public officers law. Members of the council shall not be compensated for their participation on the council but shall receive reimbursement for their ordinary and necessary expenses of participation. Membership on the council shall not disqualify any person from holding any public office or employment.

§ 2509-a. Corded window blind leaflet. The commissioner, in consultation with the secretary of state, shall create a leaflet regarding the danger that corded window blinds pose to children including proper installation of blinds, examples of current standards and the potential fatal consequences from strangulation posed by corded window blinds. Such leaflet shall be posted on the department's website in a printable format to allow each pediatric primary care provider to provide the leaflet to parents at a child's six month well child visit.

§ 2509-c. Availability of adverse childhood experiences services.

Every pediatrics health care provider licensed pursuant to article one hundred thirty-one of the education law shall be required to provide the parent, guardian, custodian or other authorized individual of a child that the pediatrician sees in their official capacity, with educational materials developed pursuant to subdivision two of section three hundred seventy-c of the social services law. Such materials may be provided electronically and shall be used to inform and educate them about adverse childhood experiences, the importance of protective factors and the availability of services for children at risk for or experiencing adverse childhood experiences.

§ 2509-d. Veterans reproductive mental health care. 1. As used in this section:

(a) "Maternal health care provider" means a physician, midwife, nurse practitioner, physician assistant, or other health care practitioner acting within their lawful scope of practice, attending a pregnant veteran or a veteran up to one year after childbirth, including a practitioner attending the veteran's child up to one year after childbirth.

(b) "Women veterans coordinator" shall mean the women veterans coordinator appointed pursuant to section nineteen of the veterans' services law.

(c) "Veteran" shall have the same meaning as such term is defined in section one of the veterans' services law and shall also include a veteran who has a qualifying condition, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable from such service, or is a discharged LGBT veteran, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable from such service.

2. (a) The commissioner, in consultation with the commissioner of mental health and the women veterans coordinator, shall make available to maternal health care providers information on veterans reproductive

mental health care. The information shall include, but not be limited to:

- (i) the importance of identifying whether a patient has served in the military in providing adequate maternal health care to veterans;

- (ii) ensuring that all pregnant veteran patients are appropriately screened for depression, intimate partner/domestic violence, military sexual trauma, post-traumatic stress disorder, anxiety, substance abuse, and postpartum depression;

- (iii) a summary of the current evidence-based and professional guidelines for the screening of conditions listed in subparagraph (ii) of this paragraph;

- (iv) validated, evidence-based tools for screening the conditions listed in subparagraph (ii) of this paragraph; and

- (v) information about follow-up support for patients who may require further evaluation, referral, or treatment including, when available, information about specific community resources and entities licensed by the office of mental health.

(b) The information on veterans reproductive mental health care shall be posted on the department's website. The commissioner shall, in collaboration with the commissioner of mental health and the women veterans coordinator, update and review the information on veterans reproductive mental health, as necessary.

3. The commissioner, in consultation with the commissioner of mental health and the women veterans coordinator, shall: (a) inform providers of the need to raise awareness about veterans reproductive mental health issues; and (b) provide information on the department and the office of mental health's websites regarding how to locate available providers who treat or provide support for veterans reproductive mental health issues including maternal depression including but not limited to, mental health professionals, other licensed professionals, peer support, not-for-profit corporations and other community resources.

4. The commissioner, in consultation with the women veterans coordinator, shall make any regulations necessary to implement this section.

TITLE I-A
CHILD HEALTH INSURANCE PLAN

Section 2510. Definitions.

2511. Child health insurance plan.

§ 2510. Definitions. For the purpose of this title, unless the context clearly requires otherwise:

1. "Applicant" means an eligible organization which submits a proposal under subdivision six of section two thousand five hundred eleven of this title.

1-a. "Applicant for insurance" means the person or persons applying for insurance coverage for a child pursuant to this title.

2. "Approved organization" means an eligible organization approved by the commissioner under subdivision seven of section two thousand five hundred eleven of this title to underwrite a child health insurance plan and an organization approved by the commissioner under subdivision seven-a of section two thousand five hundred eleven of this title.

3. "Eligible organization" means:

(a) a commercial insurer;

(b) a corporation or health maintenance organization licensed under article forty-three of the insurance law;

(c) a health maintenance organization certified under article forty-four of this chapter; or

(d) a comprehensive health services plan operating pursuant to regulations of the department of social services or the department of health.

4. "Eligible child" or "eligible children" means a person or persons under the age of thirteen years for the period January first, nineteen hundred ninety-one through December thirty-first, nineteen hundred ninety-three; born on or after June first, nineteen hundred eighty and

under the age of sixteen for a period commencing on or after January first, nineteen hundred ninety-four through December thirty-first, nineteen hundred ninety-six; and for a person or persons enrolled in the program on the day before they are sixteen years of age, under the age of seventeen for a period commencing on or after June first, nineteen hundred ninety-five through December thirty-first, nineteen hundred ninety-six; and under the age of nineteen for periods commencing on or after January first, nineteen hundred ninety-seven, who meets or meet the criteria in section two thousand five hundred eleven of this title.

5. "Child health insurance plan" means the written undertaking of an approved organization to provide coverage for covered health care services to eligible children under this title.

6. "Period of eligibility" means that period commencing on the first day of the month during which a child is an eligible child and enrolled or recertified for enrollment on an annual basis based on all required information and documentation and ending on the last day of the twelfth month following such date, provided, however:

(a) the period of eligibility for a child who ceases to be eligible because he or she no longer resides in New York state or has access to or obtained other health insurance coverage, as defined by the commissioner in consultation with the superintendent pursuant to paragraph (c) of subdivision two of section twenty-five hundred eleven of this article, shall end the last day of the month in which the child ceases to be an eligible child; and

(b) the period of eligibility for a child who becomes eligible for medical assistance shall end the last day of the third month after the child becomes eligible for medical assistance; and

(c) the period of eligibility for a child for whom an applicable premium payment has not been paid shall end in accordance with time frames and procedures determined by the commissioner.

(d) effective on or after March first, two thousand twenty-three through March thirty-first, two thousand twenty-seven, subject to extension under Title XXI of the federal social security act, the period of eligibility for pregnant individuals enrolled in the child health insurance plan shall include twelve months postpartum coverage

commencing on the first day of the month following the last day of pregnancy and ending on the last day of the month in which the twelve-month postpartum period ends; provided, however, such postpartum coverage may end prior to the end of the twelve-month period only under the following circumstances: (i) the individual requests voluntary termination; (ii) the individual ceases to be a state resident; (iii) eligibility was determined incorrectly because of error, fraud, abuse, or perjury attributed to the individual; or (iv) the individual dies.

7. "Covered health care services" means: the services of physicians, optometrists, nurses, nurse practitioners, midwives and other related professional personnel which are provided on an outpatient basis, including routine well-child visits; diagnosis and treatment of illness and injury; inpatient health care services; laboratory tests; diagnostic x-rays; prescription and non-prescription drugs, ostomy and other medical supplies and durable medical equipment; radiation therapy; chemotherapy; hemodialysis; outpatient blood clotting factor products and other treatments and services furnished in connection with the care of hemophilia and other blood clotting protein deficiencies; emergency room services; ambulance services; hospice services; emergency, preventive and routine dental care, including orthodontia but excluding cosmetic surgery; emergency, preventive and routine vision care, including eyeglasses; speech and hearing services; inpatient and outpatient mental health, alcohol and substance abuse services, including children and family treatment and support services, children's home and community based services, assertive community treatment services and residential rehabilitation for youth services which shall be reimbursed in accordance with the ambulatory patient group (APG) rate-setting methodology as utilized by the department of health, the office of addiction services and supports, or the office of mental health for rate-setting purposes or any such other fees established pursuant to article forty-three of the mental hygiene law; and health-related services provided by voluntary foster care agency health facilities licensed pursuant to article twenty-nine-I of this chapter; as defined by the commissioner. "Covered health care services" shall not include drugs, procedures and supplies for the treatment of erectile dysfunction when provided to, or prescribed for use by, a person who is

required to register as a sex offender pursuant to article six-C of the correction law, provided that any denial of coverage of such drugs, procedures or supplies shall provide the patient with the means of obtaining additional information concerning both the denial and the means of challenging such denial.

8. "Subsidy payment" means a payment made to an approved organization for the cost of covered health care services coverage to an eligible child or children.

9. "Premium payment" means: a payment made on behalf of an eligible child for enrollment in the child health insurance plan equal to:

(a) for periods prior to October first, nineteen hundred ninety-seven, twenty-five dollars per year for each child, but no more than one hundred dollars per year per family; and

(b) for periods on or after October first, nineteen hundred ninety-seven, amounts as follows:

(i) no payments are required for eligible children whose family net household income is less than one hundred twenty-six percent of the non-farm federal poverty level or the gross equivalent of such net income;

(ii) nine dollars per month for each eligible child whose family net household income is between one hundred twenty-six percent and one hundred thirty-two percent of the non-farm federal poverty level or the gross equivalent of such net income, but no more than thirty-six dollars per month per family; and

(iii) thirteen dollars per month for each eligible child whose family net household income is between one hundred thirty-three percent and one hundred eighty-five percent of the non-farm federal poverty level or the gross equivalent of such net income, but no more than fifty-two dollars per month per family.

(c) for periods on or after January first, nineteen hundred ninety-nine, amounts as follows:

(i) no payments are required for eligible children whose family net household income is less than one hundred thirty-three percent of the non-farm federal poverty level or the gross equivalent of such net income and, effective August first, two thousand, no payments are

required for eligible children who are American Indians or Alaskan Natives, as defined by the U.S. Department of Health and Human Services; and

(ii) nine dollars per month for each eligible child whose family net household income is between one hundred thirty-three percent and one hundred eighty-five percent of the non-farm federal poverty level or the gross equivalent of such net income, but no more than twenty-seven dollars per month per family; and

(iv) effective September first, two thousand eight, twenty dollars per month for each eligible child whose family gross household income is between two hundred fifty-one percent and three hundred percent of the non-farm federal poverty level, but no more than sixty dollars per month per family;

(v) effective September first, two thousand eight, thirty dollars per month for each eligible child whose family gross household income is between three hundred one percent and three hundred fifty percent of the non-farm federal poverty level, but no more than ninety dollars per month per family; and

(vi) effective September first, two thousand eight, forty dollars per month for each eligible child whose family gross household income is between three hundred fifty-one percent and four hundred percent of the non-farm federal poverty level, but no more than one hundred twenty dollars per month per family.

(d) for periods on or after July first, two thousand nine, amounts as follows:

(i) no payments are required for eligible children whose family household income is less than one hundred sixty percent of the non-farm federal poverty level and for eligible children who are American Indians or Alaskan Natives, as defined by the U.S. Department of Health and Human Services, whose family household income is less than two hundred fifty-one percent of the non-farm federal poverty level; and

(ii) nine dollars per month for each eligible child whose family household income is between one hundred sixty percent and two hundred twenty-two percent of the non-farm federal poverty level, but no more than twenty-seven dollars per month per family; and

(iii) fifteen dollars per month for each eligible child whose family household income is between two hundred twenty-three percent and two

hundred fifty percent of the non-farm federal poverty level, but no more than forty-five dollars per month per family; and

(iv) thirty dollars per month for each eligible child whose family household income is between two hundred fifty-one percent and three hundred percent of the non-farm federal poverty level, but no more than ninety dollars per month per family;

(v) forty-five dollars per month for each eligible child whose family household income is between three hundred one percent and three hundred fifty percent of the non-farm federal poverty level, but no more than one hundred thirty-five dollars per month per family; and

(vi) sixty dollars per month for each eligible child whose family household income is between three hundred fifty-one percent and four hundred percent of the non-farm federal poverty level, but no more than one hundred eighty dollars per month per family.

(e) for periods on or after October first, two thousand twenty-two, amounts as follows:

(i) no payments are required for eligible children whose family household income is less than two hundred twenty-three percent of the non-farm federal poverty level and for eligible children who are American Indians or Alaskan Natives, as defined by the United States department of health and human services, whose family household income is less than two hundred fifty-one percent of the non-farm federal poverty level; and

(ii) fifteen dollars per month for each eligible child whose family household income is between two hundred twenty-three percent and two hundred fifty percent of the non-farm federal poverty level, but no more than forty-five dollars per month per family; and

(iii) thirty dollars per month for each eligible child whose family household income is between two hundred fifty-one percent and three hundred percent of the non-farm federal poverty level, but no more than ninety dollars per month per family; and

(iv) forty-five dollars per month for each eligible child whose family household income is between three hundred one percent and three hundred fifty percent of the non-farm federal poverty level, but no more than one hundred thirty-five dollars per month per family; and

(v) sixty dollars per month for each eligible child whose family household income is between three hundred fifty-one percent and four

hundred percent of the non-farm federal poverty level, but no more than one hundred eighty dollars per month per family.

10. "Superintendent" means the superintendent of financial services.

11. "Inpatient health care services" means: inpatient hospital services provided by a general hospital, as defined in article twenty-eight of this chapter, a facility operated by the office of mental health under section 7.17 of the mental hygiene law, a facility issued an operating certificate pursuant to the provisions of article twenty-three or thirty-one of the mental hygiene law and services provided by physicians and other professional personnel on an inpatient basis for covered inpatient services; as defined by the commissioner in consultation with the superintendent.

12. "Group health plan" or "health insurance coverage" shall have the same meanings as set forth in section twenty-one hundred ten of the federal social security act.

13. "Household income" means the sum of the modified adjusted gross income of every individual included in a child's household calculated in accordance with applicable federal law and regulations, as may be amended.

14. "State enrollment center" means the centralized system and operation of eligibility determinations by the state or its contractor for all insurance affordability programs, including the child health insurance program established pursuant to this title.

15. "Insurance affordability programs" means those programs set forth in section 435.4 of title 42 of the code of federal regulations.

§ 2511. Child health insurance plan 1. (a) The commissioner, in consultation with the superintendent, shall establish a program to the extent of funds available therefor through contractual arrangements with approved organizations to provide covered health care services coverage

for eligible children. The availability of coverage for primary and preventive health care services and inpatient health care services coverage shall be continued pending approval of contractual arrangements that include covered health care services coverage and implementation of such coverage to the extent of funds available therefor.

(b) Coverage for covered health care services shall not be effective until such time as contractual arrangements are executed pursuant to this section for such purposes and an eligible child is enrolled in the program.

2. In order to be eligible for a subsidy payment pursuant to subdivision three of this section, a child shall meet the following criteria:

(a) (i) effective January first, nineteen hundred ninety-nine, resides in a household having a net household income at or below one hundred ninety-two percent of the non-farm federal poverty level (as defined and updated by the United States department of health and human services) or the gross equivalent of such net income; and

(ii) effective July first, two thousand, resides in a household having a gross household income at or below two hundred fifty percent of the non-farm federal poverty level (as defined and updated by the United States department of health and human services); and

(iii) effective September first, two thousand eight, resides in a household having a household income at or below four hundred percent of the non-farm federal poverty level (as defined and updated by the United States department of health and human services);

(b) is not eligible for medical assistance, except that a child who becomes eligible for medical assistance after becoming an eligible child under this title, may be eligible for a subsidy payment pursuant to subdivision three of this section as medical assistance for a period up to three months after becoming eligible for medical assistance; and

(c) does not have health care coverage under insurance, as defined by the commissioner, in consultation with the superintendent. The applicant for insurance shall attest to the source and nature of the child's health care coverage under this paragraph, if any; and

* (e) is a resident of New York state. Such residency shall be demonstrated by adequate proof, as determined by the commissioner, of a

New York state street address. If the child has no street address, such proof may include, but not be limited to, school records or other documentation determined by the commissioner.

* NB Effective until January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Part D § 76 sb h)

* (e) is a resident of New York state. Such residency shall be attested to by the applicant for insurance, provided however, the commissioner shall require adequate proof of a New York state street address in circumstances when there is an inconsistency with residency information from other data sources.

* NB Effective January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Pt. D § 76 sub h)

(f) * (i) In order to establish income eligibility under this subdivision at initial application, a household shall provide such documentation specified in subparagraph (iii) of this paragraph, as necessary and sufficient to determine a child's financial eligibility for a subsidy payment under this title. The commissioner may verify the accuracy of such income information provided by the household by matching it against income information contained in databases to which the commissioner has access, including the state's wage reporting system pursuant to subdivision five of section one hundred seventy-one-a of the tax law and by means of an income verification performed pursuant to a cooperative agreement with the department of taxation and finance pursuant to subdivision four of section one hundred seventy-one-b of the tax law.

* NB Effective until January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Part D § 76 sb h)

* (i) In order to establish income eligibility under this subdivision at initial application, a household shall provide the social security numbers for each parent and legally responsible adult who is a member of the household, subject to subparagraph (v) of this paragraph. The commissioner shall determine eligibility based on income information contained in databases to which the commissioner has access, including the state's wage reporting system pursuant to subdivision five of section one hundred seventy-one-a of the tax law and by means of an income verification performed pursuant to a cooperative agreement with the department of taxation and finance pursuant to subdivision four of

section one hundred seventy-one-b of the tax law. The commissioner shall require an attestation by the household that the income information obtained from electronic data sources is accurate. Such attestation shall include any other household income information not obtained from an electronic data source that is necessary to determine a child's financial eligibility for a subsidy payment under this title. If the attestation is reasonably compatible with information obtained from available data sources, no further information or documentation is required. If the attestation is not reasonably compatible with information obtained from available data sources, documentation shall be required as specified in subparagraph (iii) of this paragraph.

* NB Effective January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Pt. D § 76 sub h)

(ii) In order to establish income eligibility under this subdivision at recertification, the commissioner may make a redetermination of eligibility without requiring information from the individual if able to do so based on reliable information contained in the individual's enrollment file or other more current information contained in databases to which the commissioner has access, including the state's wage reporting system and by means of an income verification performed pursuant to a cooperative agreement with the department of taxation and finance pursuant to subdivision four of section one hundred seventy-one-b of the tax law. The commissioner shall require an attestation by the household that the income information contained in the enrollment file or obtained from electronic data sources is accurate. Such attestation shall include any other household income information not obtained from an electronic data source that is necessary to redetermine a child's financial eligibility for a subsidy payment under this title. In the event that there is an inconsistency between the income information attested to by the household and any information obtained by the commissioner from other sources pursuant to this subparagraph, and such inconsistency is material to the household's eligibility for a subsidy payment under this title, the commissioner shall require the household to provide income documentation as specified in subparagraph (iii) of this paragraph.

* (iii) Income documentation shall include, but not be limited to, one or more of the following for each parent and legally responsible adult

who is a member of the household and whose income is available to the child;

(A) current annual income tax returns;

(B) paycheck stubs;

(C) written documentation of income from all employers; or

(D) written documentation of income eligibility of a child for free or reduced breakfast or lunch through the school meal program certified by the child's school, provided that:

(I) the commissioner may verify the accuracy of the information provided in the same manner and way as provided for in subparagraph (ii) of this paragraph; and

(II) such documentation may not be suitable proof of income in the event of a material inconsistency in income after the commissioner has performed verification pursuant to subparagraph (ii) of this paragraph; or

(E) other documentation of income (earned or unearned) as determined by the commissioner, provided, however, such documentation shall set forth the source of such income.

* NB Effective until January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Part D § 76 sb h)

* (iii) If the attestation of household income required by subparagraphs (i) and (ii) of this paragraph is not reasonably compatible with information obtained from data sources, further information, including documentation, shall be required. Income documentation shall include, but not be limited to, one or more of the following for each parent and legally responsible adult who is a member of the household and whose income is available to the child;

(A) current annual income tax returns;

(B) paycheck stubs;

(C) written documentation of income from all employers; or

(D) written documentation of income eligibility of a child for free or reduced breakfast or lunch through the school meal program certified by the child's school, provided that:

(I) the commissioner may verify the accuracy of the information provided in the same manner and way as provided for in subparagraph (ii) of this paragraph; and

(II) such documentation may not be suitable proof of income in the

event of a material inconsistency in income after the commissioner has performed verification pursuant to subparagraph (ii) of this paragraph; or

(E) other documentation of income (earned or unearned) as determined by the commissioner, provided, however, such documentation shall set forth the source of such income.

* NB Effective January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Pt. D § 76 sub h)

* (iv) In the event a household does not provide income documentation required by subparagraph (iii) of this paragraph within two months of the approved organization's request, the approved organization shall disenroll the child at the end of such two month period. Except as provided in paragraph (c) of subdivision five-a of this section, approved organizations shall not be obligated to repay subsidy payments made by the state on behalf of children enrolled during this two month period.

* NB Effective until January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Part D § 76 sb h)

* (iv) In the event a household does not provide income documentation required by subparagraph (iii) of this paragraph within two months of the approved organization's or state enrollment center's request, whichever is applicable, the approved organization or state enrollment center shall disenroll the child at the end of such two month period. Except as provided in paragraph (c) of subdivision five-a of this section, approved organizations shall not be obligated to repay subsidy payments made by the state on behalf of children enrolled during this two month period.

* NB Effective January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Pt. D § 76 sub h)

* (v) In the event a household chooses not to provide the social security numbers required by subparagraph (ii) of this paragraph, such household shall provide income documentation specified in subparagraph (iii) of this paragraph as a condition of the child's enrollment. Nothing in this paragraph shall be construed as obligating a household to provide social security numbers of parents or legally responsible adults as a condition of a child's enrollment or eligibility for a subsidy payment under this title.

* NB Effective until January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Part D § 76 sb h)

* (v) In the event a household chooses not to provide the social security numbers required by subparagraphs (i) and (ii) of this paragraph, such household shall provide income documentation specified in subparagraph (iii) of this paragraph as a condition of the child's enrollment. Nothing in this paragraph shall be construed as obligating a household to provide social security numbers of parents or legally responsible adults as a condition of a child's enrollment or eligibility for a subsidy payment under this title.

* NB Effective January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Pt. D § 76 sub h)

* (vi) Any income verification response by the department of taxation and finance pursuant to subparagraphs (i) and (ii) of this paragraph shall not be a public record and shall not be released by the commissioner, the department of taxation and finance or an approved organization except pursuant to this paragraph. Information disclosed pursuant to this paragraph shall be limited to information necessary for verification. Information so disclosed shall be kept confidential by the party receiving such information. Such information shall be expunged within a reasonable time to be determined by the commissioner and the department of taxation and finance.

* NB Effective until January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Part D § 76 sb h)

* (vi) Any income verification response by the department of taxation and finance pursuant to subparagraphs (i) and (ii) of this paragraph shall not be a public record and shall not be released by the commissioner, the department of taxation and finance, an approved organization, or the state enrollment center, except pursuant to this paragraph. Information disclosed pursuant to this paragraph shall be limited to information necessary for verification. Information so disclosed shall be kept confidential by the party receiving such information. Such information shall be expunged within a reasonable time to be determined by the commissioner and the department of taxation and finance.

* NB Effective January 1, 2014 or a later date to be determined by the commissioner of health (see chapter 56 of 2013 Pt. D § 76 sub h)

* (g) (i) Notwithstanding any inconsistent provision of law to the contrary and subject to the availability of federal financial participation under title XIX of the federal social security act, a child under the age of nineteen shall be presumed to be eligible for subsidy payments and temporarily enrolled for coverage under this title, once during a twelve month period, beginning on the first day of the enrollment period following the date that an approved organization determines, on the basis of preliminary information, that a child's net household income does not exceed the income level specified in title eleven of article five of the social services law for children eligible for medical assistance based on such child's age. The temporary enrollment period shall continue until the earlier of the date an eligibility determination is made pursuant to this title or title eleven of article five of the social services law, or two months after the date temporary enrollment begins; provided however, a temporary enrollment period may be extended in the event an eligibility determination under this title or title eleven of article five of the social services law is not made within such two month period through no fault of the applicant for insurance for medical assistance. The commissioner shall assure that children who are enrolled pursuant to this paragraph receive the appropriate follow-up for a determination of eligibility for benefits under this title or title eleven of article five of the social services law prior to the termination of the temporary enrollment period. The commissioner shall assure that children and their families are informed of all available enrollment sites in accordance with subdivision nine of this section.

(ii) Effective September first two thousand seven, through March thirty-first, two thousand fourteen temporary enrollment pursuant to subparagraph (i) of this paragraph shall be provided only to children who apply for recertification of coverage under this title who appear to be eligible for medical assistance under title eleven of article five of the social services law.

* NB Expires July 1, 2025

* (h) The commissioner may, in consultation with the superintendent, promulgate rules and regulations necessary to prevent fraud and abuse in eligibility determinations made by approved organizations pursuant to this subdivision.

* NB Expires July 1, 2025

(i) Notwithstanding any inconsistent provision of law, rule or regulation:

(i) A newborn child who meets the eligibility criteria set forth in this subdivision or subdivision five of this section, as determined by an approved organization or the health insurance exchange marketplace, whichever is applicable, shall be enrolled retroactively to the first day of the month in which the child is born, provided that the applicant for insurance submits a completed and signed application and required information and documentation within sixty days of the child's birth.

(ii) A newborn child shall be presumed eligible for subsidy payments under this subdivision or eligible for coverage under subdivision five of this section, provided that the applicant for insurance submits a completed and signed application within sixty days of the child's birth. Once eligibility is determined by the approved organization or the health insurance exchange marketplace, whichever is applicable, on the basis of preliminary information, the child shall be enrolled retroactively to the first day of the month in which the child is born. All other procedures and standards regarding presumptive enrollment applicable to eligible children enrolled under this title and specified in state contracts with approved organizations or implemented by the health insurance exchange marketplace, whichever is applicable, shall apply to presumptive enrollment of newborn children.

(j) Where an application for recertification of coverage under this title contains insufficient information for a final determination of eligibility for continued coverage, a child shall be presumed eligible for a period not to exceed the earlier of two months beyond the preceding period of eligibility or the date upon which a final determination of eligibility is made based on the submission of additional data. In the event such additional information is not submitted within two months of the approved organization's or state enrollment center's request, whichever is applicable, the approved organization or state enrollment center shall disenroll the child following the expiration of such two month period. Except as provided in paragraph (c) of subdivision five-a of this section, approved organizations shall not be obligated to repay subsidy payments received on behalf of children enrolled during this two month period.

2-a. (a) An approved organization that has reasonable cause to believe that an applicant for insurance, parent or legally responsible adult has provided false income information may submit tax returns and any other available income information, including, if not prohibited by federal law for purposes of income verification, social security account numbers, to the department as may be necessary to determine income eligibility. The department shall promptly furnish to the department of taxation and finance, pursuant to the agreements authorized by subdivision five of section one hundred seventy-one-a and subdivision four of section one hundred seventy-one-b of the tax law, the names, address and social security account numbers, if available, of the parents and legally responsible adults who are members of the household, together with a request that the department of taxation and finance, pursuant to those agreements, promptly ascertain insofar as is possible, and from the most recent available data, whether the collective income reported by those individuals exceeds the income eligibility level for that household, as determined by the department in compliance with paragraph (a) of subdivision two of this section. The department, in consultation with the department of taxation and finance, shall establish a methodology for comparing numerical equivalents. In ascertaining whether a household's income exceeds the income eligibility threshold transmitted by the department, the department of taxation and finance shall also examine information available pursuant to section one hundred seventy-one-a of the tax law where any of the named individuals have failed to file a New York state income tax return for the most recent filing year or where there is an indication, from the department or otherwise, that the individual's income may have changed. Reliance on such section one hundred seventy-one-a information shall be specially indicated in the department of taxation and finance's response. This provision shall not be construed to authorize the department of taxation and finance to disclose any figure on any personal income tax return. The department shall promptly inform the approved organization of the response from the department of taxation and finance. Submission of income information for verification shall not delay the application of any other provision of this section to an applicant for insurance or an enrolled child.

(b) Before an approved organization submits income information to the department for verification with the department of taxation and finance, it shall:

(i) provide the applicant for insurance with notification of its intent to seek such verification;

(ii) notify the applicant for insurance of the confidentiality and expungement provisions contained in paragraph (c) of this subdivision; and

(iii) provide the applicant for insurance with the opportunity to review and modify the income information.

(c) Such income information and verification response by the department of taxation and finance shall not be a public record and shall not be released by the department, the department of taxation and finance or the approved organization except pursuant to this subdivision. Information disclosed pursuant to this section shall be limited to information necessary for verification. Information so disclosed shall be kept confidential by the party receiving such information. Such income information shall be expunged within a reasonable time to be determined by the department and the department of taxation and finance.

2-b. (a) For purposes of claiming federal financial participation under paragraph nine of subsection (c) of section twenty-one hundred five of the federal social security act, a household shall provide:

(i) the social security number for the applicant to be verified by the commissioner in accordance with a process established by the social security administration pursuant to federal law, or

(ii) documentation of citizenship and identity of the applicant consistent with requirements under the medical assistance program, as specified by the commissioner on the initial application.

(b) Pending receipt of the information required by subparagraph (i) of paragraph (a) of this subdivision, an initial application shall continue to be processed by an approved organization or enrollment facilitator and a child shall be presumptively enrolled in the program in accordance with procedures and timeframes currently specified in contracts.

2-c. Express lane eligibility. (a) Notwithstanding any inconsistent

provision of law, rule or regulation, the commissioner is authorized to (i) establish standards and procedures for express lane enrollment and renewal implemented in accordance with section 2107(e)(1)(B) of the federal social security act, including but not limited to reliance on a finding made by an express lane agency, as defined in section 1902(e)(13)(F) of the federal social security act, to determine whether a child meets one or more of the eligibility criteria set forth in subdivision two of this section; (ii) specify such standards and procedures in the state child health plan established under title XXI of the federal social security act and applicable contracts with approved organizations and enrollment facilitators; and (iii) waive any information and documentation requirements set forth in this section necessary to implement express lane eligibility pursuant to standards and procedures established under subparagraphs (i) and (ii) of this paragraph; provided, however, that information and documentation required pursuant to subdivision two-b of this section may not be waived.

(b) Subject to federal approval, such standards and procedures shall specify that information and documentation regarding citizenship and immigration status collected by an express lane agency and provided to the commissioner for the purpose of express lane eligibility may be used to satisfy the requirements of subdivision two-b of this section.

(c) Such standards and procedures shall also include a process for determining enrollment error rates and implementing corrective actions as required by section 1902(e)(13)(E) of the federal social security act.

3. Subsidy payments shall be made, pursuant to subdivision eight of this section, to approved organizations for the purposes of subsidizing the entire cost of coverage for eligible children meeting the criteria of subdivision two of this section. Notwithstanding any inconsistent provision of this subdivision, the total annual aggregate cost-sharing with respect to all eligible children in a family under this section shall not exceed amounts provided pursuant to applicable federal law. In order to be eligible for a subsidy payment pursuant to this subdivision a premium payment shall be paid for an eligible child in accordance with the provisions of subdivision nine of section twenty-five hundred ten of

this title. Nothing herein shall preclude payment of the premium on behalf of an eligible child on a monthly, quarterly, semi-annual or annual basis.

4. Households shall report to the approved organization or state enrollment center, whichever is applicable, within thirty days, any changes in New York state residency or health care coverage under insurance that may make a child ineligible for subsidy payments pursuant to this section. Any individual who, with the intent to obtain benefits, willfully misstates income or residence to establish eligibility pursuant to subdivision two of this section or willfully fails to notify an approved organization or state enrollment center of a change in residence or health care coverage pursuant to this subdivision shall repay such subsidy to the commissioner. Individuals seeking to enroll children for coverage shall be informed that such willful misstatement or failure to notify shall result in such liability.

4-a. Any individual who, with the intent to obtain benefits, willfully misstates income or residence to establish eligibility pursuant to subdivision two of this section or willfully fails to notify an approved organization of an increase in income or change in residence pursuant to subdivision two of this section shall repay such subsidy to the commissioner. Individuals seeking to enroll children for coverage shall be informed that such willful misstatement or failure to notify shall result in such liability.

5. Notwithstanding any inconsistent provisions of subdivision two of this section, an individual who meets the criteria of paragraphs (b) and (c) of subdivision two of this section but not the criteria of paragraph (a) of such subdivision may be enrolled for covered health care services, provided however, that an approved organization shall not be eligible to receive a subsidy payment for providing coverage to such individuals. The cost of coverage shall be determined by the commissioner, in consultation with the superintendent and shall be no more than the cost of providing such coverage.

5-a. Obligations of approved organizations or the state enrollment

center. (a) An approved organization or state enrollment center, whichever is applicable, shall have the obligation to review all information provided pursuant to subdivision two of this section and shall not certify or recertify a child as eligible for a subsidy payment unless the child meets the eligibility criteria.

(b) An approved organization or state enrollment center, whichever is applicable, shall promptly review all information relating to a potential change in eligibility based on information provided pursuant to subdivision four of this section. Within at least thirty days after receipt of such information, the approved organization or state enrollment center shall make a determination whether the child is still eligible for a subsidy payment and shall notify the household and the commissioner if it determines the child is not eligible for a subsidy payment.

(c) Any approved organization which engages in a pattern and practice of enrolling or recertifying children who are ineligible pursuant to subdivision two of this section, as determined by the commissioner, in consultation with the superintendent, shall be required to repay all subsidy payments received on account of ineligible children. Improper enrollment based upon a good faith reliance on documentation which appears accurate on its face shall not constitute a pattern or practice. Any such approved organization may also be removed as an approved organization, provided however, that eligible children shall continue to receive services until such time as the orderly transition to other approved organizations can be effected.

6. The commissioner shall, in consultation with the superintendent, establish guidelines for the submission of proposals by eligible organizations for the purposes of providing covered health care services coverage to eligible children including, but not limited to, the following components:

(a) standards for individual enrollment including mechanisms for presumptive eligibility and annual recertification;

(b) standards for provider enrollment;

(c) standards for scope of covered health care service benefits;

(d) standards for health care provider payment methodologies, provided however, that levels and methods of payment shall be consistent with

those provided under similar insurance plans;

(e) standards for appropriate utilization review, quality assurance and case management mechanisms; and

(f) such other criteria which may be deemed necessary.

6-a. The commissioner, in consultation with the superintendent, may establish a program for cards issued to eligible children which can store or access information electronically, including the identity of the child and such other medical data and information as the commissioner, in consultation with the superintendent, may prescribe.

7. (a) A proposal submitted by an eligible organization shall meet the following criteria:

(i) designate the geographic area to be served by the program, and estimate the number of eligible participants and actual participants in such designated area;

(ii) assure access to and delivery of high quality, appropriate covered health care services and, when applicable, include a network of health care providers in sufficient numbers and geographically accessible to service program participants;

(iii) describe the procedures for marketing and determining eligibility for the health care coverage plan in the program location, including the designation of other entities which may perform such functions under contract with the organization;

(iv) describe proposed health care provider payment methodologies;

(v) describe in detail the estimated expenses, including personnel costs and other types of administrative expenses which will be incurred in the development and implementation of the program;

(vi) describe the quality assurance, utilization review and case management mechanisms to be implemented;

(vii) demonstrate the applicant's ability to meet the data analysis and reporting requirements of the program;

(viii) describe the benefit package to be offered by the program and the cost of such benefit package;

(ix) describe the provisions for arranging for or offering conversion coverage in the event of termination of coverage under this title;

(x) demonstrate financial feasibility of the program;

(xi) describe the premium, copayments and deductibles to be paid by program participants who are ineligible for subsidy payments; and

(xii) include such other information as the commissioner and the superintendent may deem appropriate.

(b) The commissioner, in consultation with the superintendent, shall make a determination whether to approve, disapprove or recommend modification of the proposal. In order for a proposal to be approved by the commissioner, the proposal must also be approved by the superintendent with respect to the provisions of subparagraphs (ix) and (xii) of paragraph (a) of this subdivision.

(c) The commissioner, in consultation with the superintendent, shall ensure, to the extent possible, that child health insurance plan coverage is available in all geographic areas. The commissioner may approve more than one approved organization to serve all or part of a geographic area.

7-a. (a) Notwithstanding any inconsistent provisions of subdivisions one and three of section two thousand five hundred ten of this title, subdivisions six and seven of this section, subject to paragraph (b) of this subdivision, and section one hundred sixty-three of the state finance law, the commissioner may contract with organizations approved under section three hundred sixty-four-j of the social services law, without a competitive bid or request for proposal process, to provide covered health care services coverage for eligible children pursuant to this title.

(b) In order to be approved pursuant to this subdivision, an organization shall meet the criteria set forth in subdivision seven of this section and shall comply with standards established by the commissioner, in consultation with the superintendent, pursuant to subdivision six of this section.

(c) Organizations approved pursuant to this subdivision shall comply with the requirements of this title and contractual provisions established thereunder, title XXI of the federal social security act and any implementing federal regulations, and requirements set forth in the state child health plan established pursuant to title XXI of the federal social security act.

(d) Notwithstanding any inconsistent provision of section one hundred

twelve or one hundred sixty-three of the state finance law, at the discretion of the commissioner, without a competitive bid or request for proposal process, contractual arrangements with approved organizations, as defined in subdivision two of section twenty-five hundred ten of this article, in effect in two thousand seven may be extended to any period on and after July first, two thousand seven to provide an uninterrupted continuation of services and may be amended as deemed necessary.

8. The commissioner shall determine the amount of funds to be allocated to an approved organization for the purposes described in subdivision one of this section within such funds which may be available for the purposes of this article. (a) Subsidy payments made to approved organizations on and after April first, two thousand five through March thirty-first, two thousand six, shall be at amounts approved prior to April first, two thousand five. Applications for increases to subsidy payments submitted by approved organizations to the superintendent on or after January first, two thousand five, shall not be considered for approval until after March thirty-first, two thousand six. (b) Further, subsidy payments made to approved organizations on and after April first, two thousand seven through March thirty-first, two thousand eight, shall be at amounts approved prior to April first, two thousand seven. Applications for increases to subsidy payments submitted by approved organizations to the superintendent on or after January first, two thousand seven, shall not be considered for approval until after March thirty-first, two thousand eight. (c) Nothing in this subdivision shall prohibit decreases in subsidy payments in accordance with relevant contract provisions.

(d)(i) Effective April first, two thousand nine, payment for marketing and facilitated enrollment activities set forth in subdivision nine of this section and included in subsidy payments made to approved organizations providing such services pursuant to a contract with the state shall be limited to an amount determined annually by the commissioner.

(ii) Such subsidy payments shall be adjusted by the commissioner to remove any costs of approved organizations in excess of the amount determined in accordance with subparagraph (i) of this paragraph based on cost reports submitted to the department by approved organizations.

(f) The commissioner shall adjust subsidy payments made to approved organizations on and after April first, two thousand eleven through March thirty-first, two thousand twelve, so that the amount of each such payment is reduced by one and seven-tenths percent.

(g) The commissioner may increase subsidy payments made to approved organizations that voluntarily participate in the multi-payor patient centered medical home program to reflect additional costs associated with enhanced payments made to certified medical homes by approved organizations as required by article twenty-nine-AA of this chapter.

(h) Notwithstanding any inconsistent provision of this title, articles thirty-two and forty-three of the insurance law and subsection (e) of section eleven hundred twenty of the insurance law, for the period April first, two thousand fourteen through March thirty-first, two thousand fifteen, subsidy payments made to approved organizations shall be at amounts approved prior to April first, two thousand fourteen.

(i) Notwithstanding any inconsistent provision of this title, articles thirty-two and forty-three of the insurance law and subsection (e) of section eleven hundred twenty of the insurance law:

(i) The commissioner shall, subject to approval of the director of the division of the budget, develop reimbursement methodologies for determining the amount of subsidy payments made to approved organizations for the cost of covered health care services coverage provided pursuant to this title for payments made on and after January first, two thousand twenty-four.

(ii) Effective January first, two thousand twenty-three, the commissioner shall coordinate with the superintendent of financial services for the transition of the subsidy payment rate setting function to the department and, in conjunction with its independent actuary, review reimbursement methodologies developed in accordance with subparagraph (i) of this paragraph. Notwithstanding section one hundred sixty-three of the state finance law, the commissioner may select and contract with the independent actuary selected pursuant to subdivision eighteen of section three hundred sixty-four-j of the social services law, without a competitive bid or request for proposal process. Such independent actuary shall review and make recommendations concerning appropriate actuarial assumptions relevant to the establishment of reimbursement methodologies, including but not limited to the adequacy

of subsidy payment amounts in relation to the population to be served adjusted for case mix, the scope of services approved organizations must provide, the utilization of such services and the network of providers required to meet state standards.

9. The commissioner shall, within amounts available therefor, contract with community-based and other marketing organizations for purposes of public education, outreach, and recruitment of eligible children, including the distribution of applications and information regarding enrollment. In awarding such contracts, the commissioner shall consider the marketing, outreach and recruitment efforts of approved organizations, and the extent to which such organizations are able to effectively target efforts in geographic regions where the proportion of eligible children enrolled under this title are lower than in other geographic regions of the state. Community-based organizations shall include, but not be limited to: day care centers, schools, community-based diagnostic and treatment centers, and hospitals.

10. Notwithstanding any other law or agreement to the contrary, and except in the case of a child or children who also becomes eligible for medical assistance, benefits under this title shall be considered secondary to any other plan of insurance or benefit program, except the children and youth with special health care needs support services program and the early intervention program, under which an eligible child may have coverage.

11. (a) An approved organization shall submit required reports and information to the commissioner in such form and at times, at least annually, as may be required by the commissioner and specified in contracts and official department of health administrative guidance, in order to evaluate the operations and results of the program and quality of care being provided by such organizations. Such reports and information shall include, but not be limited to, enrollee demographics (applicable only until the state enrollment center is implemented), program utilization and expense, patient care outcomes and patient specific medical information, including encounter data maintained by an approved organization for purposes of quality assurance and oversight.

Any information or data collected pursuant to this paragraph shall be kept confidential in accordance with Title XXI of the federal social security act or any other applicable state or federal law.

(b) In the event an approved organization fails to submit any required report and information, as specified in contracts and official department of health administrative guidance, on or before the due date specified by the commissioner, the commissioner may reduce the approved organization's subsidy payments by up to a total of two percent each month for a period beginning on the first day of the calendar month following the original due date of the required report and information and continuing until the last day of the calendar month in which the required report and information are submitted; provided however, an approved organization shall not be subject to the percentage reduction under the following conditions: (i) for any new report for which such organization did not have reasonable notice which shall be at least sixty days notice of its requirement, data and submission specifications, and due date by certified mail to the approved organization's chief financial officer; or (ii) for any report, upon a finding by the commissioner that such report was not submitted on a timely basis for good cause, which may include, but not be limited to, additional time required to modify or add to computer data systems.

12. The commissioner shall, in consultation with the superintendent, establish procedures to coordinate the child health insurance plan with the medical assistance program, including but not limited to, procedures to maximize enrollment of eligible children under those programs by identification and transfer of children who are eligible or who become eligible to receive medical assistance and procedures to facilitate changes in enrollment status for children who are ineligible for subsidies under this section and for children who are no longer eligible for medical assistance in order to facilitate and ensure continuity of coverage. The commissioner shall review, on an annual basis, the eligibility verification and recertification procedures of approved organizations under this title to insure the appropriate enrollment of children. Such review shall include, but not be limited to, an audit of a statistically representative sample of cases from among all approved organizations and shall be applicable to any period during which an

approved organization's responsibilities include determining eligibility. In the event such review and audit reveals cases which do not meet the eligibility criteria for coverage set forth in this section, that information shall be forwarded to the approved organization and the commissioner for appropriate action.

12-a. The commissioner shall establish procedures to audit approved organizations for compliance with the requirements of this title, including the requirements of subdivision twelve of this section, contractual provisions established thereunder and advisory memoranda issued by the commissioner, title XXI of the federal social security act and any implementing federal regulations, and requirements set forth in the state child health plan established pursuant to title XXI of the federal social security act. Approved organizations shall comply with such procedures and make available any data necessary to perform such audits. Audit procedures shall include, but not be limited to, the following:

- (a) standards and procedures for a preliminary audit to be conducted on no more than an annual basis;

- (b) standards and procedures for the submission of a plan of correction by an approved organization, including time periods allowed to implement such plan of correction;

- (c) standards and procedures for a second audit, including an exit conference which provides an approved organization the opportunity to rebut the composition of the audit sample as representative prior to recovery of subsidy payments and the imposition of penalties;

- (d) standards and procedures for recovery of subsidy payments made for ineligible children, which, notwithstanding any inconsistent provisions of this title, may include recoveries based on extrapolated findings from a statistically representative sample of cases which shall be actuarially based and consistent with accepted auditing standards; and

- (e) standards and procedures for the imposition of penalties for substantial noncompliance, which may include, but not be limited to, financial penalties in addition to penalties set forth in section twelve of this chapter and consistent with applicable federal standards, as specified in contracts, and contract termination; provided however

- (f) audit standards and procedures established pursuant to this

section, including penalties, shall be applicable to eligibility determinations made by approved organizations only for periods during which an approved organization's responsibilities include making such eligibility determinations.

14. The commissioner, in consultation with the superintendent, shall enter into agreements with one or more persons, not-for-profit corporations, or other organizations, other than a state employee, official or agency, for the performance of a comprehensive evaluation of the implementation and effectiveness of the child health insurance program. Notwithstanding any inconsistent provision of law, the commissioner may allocate and distribute from funds otherwise available for distribution for purposes of this title an amount not to exceed five hundred thousand dollars for the costs of such evaluation. The evaluation shall include, but not be limited to:

(a) the overall effect of the child health insurance program on access to, utilization and quality of primary and preventive health care services, including, but not limited to, patterns of service utilization, geographic availability of service providers, possible reductions in uncompensated care as a result of the program, and enrollee satisfaction with program administration, services and quality;

(b) the impact of the child health insurance program on the health status of program participants, including the comparative impact on families that have a child enrolled in the program and other children that are not eligible and do not have coverage;

(c) the effect of the child health insurance program on emergency room utilization, including the effectiveness of preventing inappropriate utilization;

(d) the geographic accessibility of the child health insurance program, including the availability and accessibility of service providers, premium levels and premium increases;

(e) the effect of community-based and statewide outreach education efforts;

(f) the results of a statistically valid sampling of cases verifying certification and recertification of eligibility for subsidy payments under this title including but not limited to data on failure by approved organizations to adequately verify enrollee eligibility;

(g) any recommendations for programmatic changes to improve the child health insurance program based on program evaluation and enrollee satisfaction data; and

(h) a cost and patient outcome comparison of indemnity plans and managed care plans offered under this program.

A preliminary evaluation shall be submitted to the governor and the legislature by April first, nineteen hundred ninety-five and a further evaluation shall be submitted by January first, nineteen hundred ninety-six.

14-a. The commissioner shall enter into an agreement with one or more persons, not-for-profit corporations, or other organizations, other than a state employee, official or agency, for comprehensive research concerning the health care coverage of children in New York state. The organization conducting the research shall, at least annually, issue a report of its findings to the governor and the legislature. The research shall include, but not be limited to:

(a) a survey of the uninsured in the state;

(b) on-going comprehensive studies of the characteristics of uninsured children and their families, including demographic characteristics, and reasons such children and families are uninsured;

(c) the collection and dissemination of data and other relevant information relating to the health care coverage of children and their families; and

(d) a review of such factors relating to the uninsured in New York state as the commissioner, in consultation with the superintendent, shall require.

15. Notwithstanding any inconsistent provision of section one hundred twelve or one hundred sixty-three of the state finance law or any other law, at the discretion of the commissioner without a competitive bid or request for proposal process:

(a) contractual arrangements with approved organizations to provide primary and preventive health care services coverage for eligible children, or with organizations for purposes of public education, outreach and recruitment of eligible children, in effect in nineteen

hundred ninety-three may be extended to provide for primary and preventive health care services coverage for eligible children or public education, outreach and recruitment of eligible children in nineteen hundred ninety-four and nineteen hundred ninety-five and those contractual arrangements with approved organizations to provide primary and preventive health care services coverage for eligible children in effect for nineteen hundred ninety-five may be extended through June thirtieth, nineteen hundred ninety-six to provide an uninterrupted continuation of services and additional time for program evaluation and may be amended as may be necessary, provided, however, that the commissioner shall periodically review the process of ensuring adequate participation of approved organizations under this section; and

(b) contractual arrangements with approved organizations to provide primary and preventive health care services coverage for eligible children, or with organizations for purposes of public education, outreach and recruitment of eligible children in effect in the period January first, nineteen hundred ninety-six through June thirtieth, nineteen hundred ninety-six may be extended for public education, outreach and recruitment of eligible children through December thirty-first, nineteen hundred ninety-six and to provide for primary and preventive health care services coverage for eligible children through such periods for which such coverage continues to apply prior to the addition of coverage for inpatient health care services to provide an uninterrupted continuation of services and may be amended as may be necessary.

* 16. The commissioner and the commissioner of social services shall jointly develop a simplified application form for coverage under this title, the medical assistance program and the federal women, infants and children program, and shall also develop appropriate verification and sampling procedures for the child health insurance plan in order to facilitate the appropriate enrollment of eligible children into the child health insurance plan, the medical assistance program, and the women, infants and children program. Nothing in this subdivision shall be construed to require that eligibility documentation requirements for the services under this title shall apply to the medical assistance program, nor shall this subdivision be construed to preclude eligibility for any person pending the development of that application. Such

application shall be available for use by local social services districts and approved organizations under this title by June thirtieth, nineteen hundred ninety-four.

* NB Expired July 1, 2007

16-a. The commissioner shall develop a simplified recertification form for use by approved organizations in renewing coverage for eligible children under this title. The form shall include requests only for such information that is: (i) reasonably necessary to determine continued eligibility for coverage under this title; and (ii) subject to change since the date of the household's initial application.

17. The commissioner, in consultation with the superintendent, is authorized to establish and operate a child health information service which shall utilize advanced telecommunications technologies to meet the health information and support needs of children, parents and medical professionals, which shall include, but not be limited to, treatment guidelines for children, treatment protocols, research articles and standards for the care of children from birth through eighteen years of age. Such information shall not constitute the practice of medicine, as defined in article one hundred thirty-one of the education law.

18. Premium Assistance Program. (a) The commissioner shall establish a premium assistance program for the purchase of family coverage under a group health plan or health insurance coverage that includes coverage of an eligible child, as defined in subdivision four of section twenty-five hundred ten of this article, contingent upon:

(i) a determination by the commissioner that the purchase of family coverage under this subdivision is cost effective relative to the amount the state would pay to obtain coverage under this title solely for the eligible child or children; and

(ii) the availability of federal financial participation in accordance with a waiver application submitted by the commissioner and approved by the secretary of the department of health and human services.

(b) The commissioner shall establish and specify standards for the implementation of the premium assistance program in the federal waiver application, including, but not limited to, the following:

(i) standards for eligibility of children and families for and enrollment in the premium assistance program which shall include, at a minimum, the eligibility criteria set forth in subdivision two of this section; provided that:

(A) participation in the program for a child who resides in a household having a household income at or below two hundred fifty percent of the non-farm federal poverty level (as defined and updated by the United States department of health and human services) shall be voluntary and an eligible child may disenroll from the premium assistance program at any time and enroll in individual coverage under this title; and

(B) participation in the program for a child who resides in a household having a household income between two hundred fifty-one and four hundred percent of the non-farm federal poverty level (as defined and updated by the United States department of health and human services) and meets certain eligibility criteria shall be mandatory. A child in this income group who meets the criteria for enrollment in the premium assistance program shall not be eligible for individual coverage under this title;

(ii) standards for required levels of employer contributions toward the cost of premiums for family coverage;

(iii) standards for the level of state payment toward the cost of premiums for family coverage;

(iv) standards for the scope and level of benefits to be provided in the premium assistance program;

(v) standards for data collection including, but not limited to, data regarding the substitution of health insurance coverage that would be provided to eligible children in the absence of family coverage purchased pursuant to this subdivision; and

(vi) any other standards deemed necessary by the commissioner to implement the premium assistance program.

(c) The state share of the cost of the premium assistance program, if implemented, shall be funded within amounts appropriated for the purpose of providing healthcare coverage for uninsured and underinsured children pursuant to this title.

19. Claims submitted to an approved organization for payment for

medical care, services, or supplies furnished by an out-of-network health care provider must be submitted within fifteen months of the date the medical care, services, or supplies were furnished to an eligible person to be valid and enforceable against the approved organization. If a claim by an out-of-network health care provider is not submitted within fifteen months of the date that the medical care, services or supplies were furnished and the claim is subsequently denied by the approved organization for that reason, such out-of-network health care provider shall not seek payment for such medical care, services or supplies from the enrollee. This deadline for claims submission shall not apply where the claims submission is warranted to address findings or recommendations identified in a state or federal audit except where such audit also indicates that an inappropriate provider payment was solely the fault of the out-of-network health care provider.

20. For approved organizations with negotiated rates of payment for inpatient hospital services under contracts in effect on April first, two thousand eight, that have a payment rate methodology for such inpatient hospital services that utilizes rates calculated by the department of health pursuant to paragraph (a) or (a-2) of subdivision one of section twenty-eight hundred seven-c of the public health law for patients under the medical assistance program, such rate shall not include adjustments pursuant to subdivision thirty-three of section twenty-eight hundred seven-c of this chapter for contract periods prior to January first, two thousand ten.

21. The commissioner may make any necessary amendments to a contract pursuant to this section with an approved organization, as defined in subdivision two of section twenty-five hundred ten of this title, to allow such approved organization to participate as a qualified health plan in a state health benefit exchange established pursuant to the federal Patient Protection and Affordable Care Act (P.L. 111-148), as amended by the federal Health Care and Education Reconciliation Act of 2010 (P.L. 111-152).

22. Notwithstanding the provisions of this title and effective on and after January first, two thousand twenty-three, the consultative,

review, and approval functions of the superintendent of financial services related to administration of the child health insurance plan are no longer applicable and references to those functions in this title shall be null and void. The child health insurance plan set forth in this title shall be administered solely by the commissioner. All child health insurance plan policies reviewed and approved by the superintendent of financial services in accordance with section eleven hundred twenty of the insurance law shall remain in effect until the commissioner establishes a process to review and approve member handbooks in accordance with the requirements of Title XXI of the federal social security act and implementing regulations, and such member handbooks are issued by approved organizations to enrollees in place of child health insurance plan policies which were subject to review under section eleven hundred twenty of the insurance law.

TITLE 1-B

ADOLESCENT PREGNANCY PREVENTION AND SERVICES PROGRAM

Section 2515. Definitions.

2515-a. Administration.

2515-b. Community service project plans.

2515-c. Use of funds.

§ 2515. Definitions. For the purposes of this title the following definitions shall apply:

1. "Eligible adolescent" means a person aged twenty-one or under who is at risk of becoming a parent, is pregnant, or is a parent.

2. "Services for eligible adolescents" means those services, including but not limited to: vocational and educational counseling, job skills training, family life and parenting education, life skills development, coordination, case management, primary preventive health care, pregnancy and child nutrition counseling for expectant mothers to curb the incidence of childhood obesity, family planning, social and recreational programs, child care, outreach and advocacy, follow-up on service

utilization, crisis intervention, and efforts to stimulate community interest and involvement.

3. "Community council" means a group of volunteers responsible for the development of the community service project plan which, to the extent possible, represents the needs and values of the community and which includes representatives of the following community groups or organizations: community residents, including youths; local government; the business community; service providers, including agencies providing vocational, housing services, child care agencies serving youth and youth services agencies; charitable organizations; health providers; educational institutions; family planning agencies; and community networks and coalitions.

§ 2515-a. Administration. 1. The department is authorized to request and receive community service project plans, as defined in section twenty-five hundred fifteen-b of this title. Such projects shall be limited to a twelve month duration but may, with the approval of such department, be renewed for additional periods based on demonstrated effectiveness, need, and availability of funds. The department shall offer technical assistance to applicants for and operators of community service projects. Technical assistance shall be provided for, but shall not be limited to, the following activities: development of community service plans, overall program planning, contract development, budgeting, and designing local client-specific data collection systems.

2. The department shall review such community service project plans. The commissioner, within appropriations made therefor, may approve such plans for funding in accordance with the provisions of this title. In approving or disapproving the funding of such plans, the commissioner shall only approve projects which meet the requirements set forth in section twenty-five hundred fifteen-b of this title which demonstrate clear coordinating activities with local social services districts and other available city, school, county, state or federally funded programs and shall give priority to projects which:

(a) stress the development and expansion of primary prevention

programs aimed at decreasing the incidence of adolescent pregnancy, and the establishment of a comprehensive and coordinated approach to prevent initial and repeated pregnancy and to deal more effectively with the consequences associated with adolescent parenting;

(b) serve a geographic area where there is a large number of eligible adolescents, or a high rate of adolescent pregnancy;

(c) serve a geographic area where the incidence of infant mortality, low birth weight infants, childhood obesity and the prevalence of low-income families are high and where the availability or accessibility of services for eligible adolescents is low;

(d) utilize existing community resources; and

(e) maximize the use of federal, or other state, private and local resources.

§ 2515-b. Community service project plans. 1. Plans for community service projects may be submitted to the department by not-for-profit agencies or by county or municipal governments, or any subdivision thereof. Such plan shall:

(a) include a statement of project goals and objectives and a description of the services to be provided to meet such goals and objectives;

(b) identify the geographic area to be served, which may include a county, municipality or any subdivision thereof, or a combination of counties, municipalities or subdivisions thereof;

(c) identify the prevalence and incidence of adolescent pregnancy and parenting and related problems to be addressed by the project in the geographic area; and a description, by number and characteristics, of the project's target population to be served;

(d) describe the services currently available to serve the eligible adolescents which may help reinforce the goals and objectives of the community service project;

(e) describe how services for eligible adolescents will be coordinated within such project plans, and efforts to be made to improve client access to such services by improving interagency cooperation and program coordination;

(f) describe how the project funds received pursuant to this title

shall be used;

(g) describe the community's involvement in the project plan, and the involvement of relevant agencies and appropriate groups involved within such project plan;

(h) describe how the proposed services are relevant to the population being served; and

(i) describe the method to be used to evaluate and report upon the effectiveness of the community service project funded under the provisions of this title.

2. The community service project plan shall be developed by the community council which shall direct the activities of the community service project. The community council shall select a lead agency which shall be responsible for the administration of the community service project. The community council shall select and approve the funding of subcontractors pursuant to this title for the purpose of the development of the community service project plan.

§ 2515-c. Use of funds. 1. Subject to amounts made available therefor, such funds shall be made available for up to seventy-five percent of approved community service project plan expenditures after first deducting therefrom any federal or other state funds received or to be received on account thereof. The remaining twenty-five percent cost of such plan may be met by local governmental or private funds, services or property. The commissioner, within his or her discretion, may, however, waive the twenty-five percent requirement for the year if he or she determines that a plan, which otherwise meets the requirements of this title, is unable to obtain local governmental or private funding, services or property. Any such waiver shall be requested upon submittal of such plan to the commissioner. No more than five percent of the funds approved under this article shall be retained by the department for administrative and evaluation purposes.

2. Funds granted to not-for-profit corporations or governmental entities pursuant to the adolescent pregnancy prevention and services program shall not be used to supplant other federal, state or local

funds.

TITLE II
PRENATAL CARE

- Section 2522. Programs; powers of the commissioner.
2530. Nurse-family partnership.
2530-a. Payment for prenatal care special services.
2531. Children and recovering mothers program.
2532. Workgroup.

§ 2522. Programs; powers of the commissioner. In order to promote comprehensive prenatal care, the commissioner is authorized to provide funds, including the awarding of grants to not-for-profit community-based organizations, local health departments, public education organizations and such other organizations as may be designated by the commissioner, for public and provider education and outreach, home visiting, referral of pregnant women to prenatal care providers, and improvement of regional systems of perinatal care. This education, outreach, home visiting, referral and systems improvement may include, but is not limited to:

- (a) public education concerning availability of prenatal services;
- (b) promotion of community awareness of the benefits to the mother and child of preconception health and early and continuous prenatal care;
- (c) outreach and direct recruitment of service recipients and providers;
- (d) referrals and linkage to organizations providing assistance with applications for medical assistance and enrollment in Medicaid managed care programs;
- (e) referrals and linkage with home visiting and other community services;
- (e-1) health and nutritional education and services for both parents, regarding childhood and adult obesity and asthma, and the prevention or mitigation thereof;
- (f) follow-up of patient participation in prenatal care services;
- (g) identification of regional perinatal health care system barriers

and limitations that lead to poor perinatal outcomes and development of strategies to address such barriers and limitations;

(h) coordination of service delivery by community-based organizations among health care providers and health plans using health information technology and uniform screening criteria for perinatal risk; and

(i) promotion of training and continuing medical education opportunities in military cultural competency for providers of prenatal care to veterans. For purposes of this subdivision, the term "veteran" shall have the same meaning as such term is defined in section one of the veterans' services law and shall also include a veteran who has a qualifying condition, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable from such service, or is a discharged LGBT veteran, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable from such service.

§ 2530. Nurse-family partnership. 1. The commissioner is authorized to establish, subject to federal financial participation and within amounts appropriated therefor, the nurse-family partnership program, a Medicaid program subject to title eleven of article five of the social services law, aimed at improving the health of eligible participants.

2. As used in this section, the following terms shall have the following meanings:

(a) "Eligible participant" means a person enrolled in medical assistance under title eleven of article five of the social services law who is a pregnant woman who will be a first-time mother; and her newborn, either or both of whom is at risk for poor outcomes.

"Participant" means an eligible participant who is participating in the nurse-family partnership program.

(b) "Nurse-family partnership program" or "program" means the nurse-family partnership program established under this section.

(c) "Nurse-family partnership provider" or "provider" means a county health department, including the health department of the city of New York, or an entity in contract with such a health department to provide services under the program or an entity that contracts directly with the

commissioner to provide services under this program.

(d) "Case management services" means services that assist a participant in gaining access to needed medical, social, educational, and other services, including: an assessment to determine service needs; development of a care plan based on the assessment; referral to medical, social, educational and other providers; and monitoring and other follow-up activities to ensure that the care plan is effectively implemented and addresses the assessed needs.

3. The nurse-family partnership program is a nurse home-visiting program in which a nurse-family partnership provider provides case management and nursing services (primarily nurse home visits to participants) to eligible participants up to the child's second birthday. Participation in the program shall be voluntary for eligible participants.

4. A nurse-family partnership provider shall be approved by a nationally-recognized organization involved with nurse-family partnership programs, designated by the commissioner, and shall meet such other criteria as established by the commissioner.

5. The commissioner may establish the nurse-family partnership program in one or more social services districts and may establish program enrollment limits based on analysis of need and available appropriations.

6. Nurse-family partnership program services provided by a provider to an eligible participant under this section shall be deemed to be medical assistance services under title eleven of article five of the social services law. The commissioner may establish, subject to the approval of the director of the division of the budget, rates of payment to nurse-family partnership providers for providing nurse-family partnership program services.

7. The commissioner shall submit all appropriate amendments to the state plan for medical assistance and shall submit applications for waivers of the federal social security act as shall be necessary to

obtain federal financial participation in the costs of services provided pursuant to this section.

§ 2530-a. Payment for prenatal care special services. 1. The commissioner is authorized to establish a program to provide services under title eleven or title eleven-D of article five of the social services law, for early and continuous prenatal care for pregnant women who are eligible to receive services under those titles, to prevent complications during pregnancy and childbirth and to reduce neonatal intensive care admissions (referred to in this section as the "program"). The program shall include the collection, and transmittal to the department, of health status data pertinent to the management of pregnancy risk on a health status data form established by the department.

2. The collection of data under the program shall be based on the pregnant woman's informed written consent, which shall be in a format developed by the commissioner and maintained in the provider's medical record. Participation in the program shall be voluntary for the pregnant woman. A woman's failure to give consent for the collection of data under this section or to participate in the program shall not result in the diminution of any services otherwise available under title eleven or eleven-D of article five of the social services law.

3. If consent and voluntary participation pursuant to subdivision two of this section is obtained, providers of prenatal care under title eleven or title eleven-D of article five of the social services law, shall endeavor to collect at the earliest possible prenatal visit, and report to the department in a form and manner determined by the commissioner, health status data concerning each pregnant woman eligible for services under title eleven or title eleven-D of article five of the social services law, and treated by such provider.

4. Upon receipt of a health status data form, the department shall take one of the following actions:

(a) If the pregnant woman, at the time of the receipt of the health

status data form by the department, is enrolled in a managed care health plan, the department shall send the form to the plan for triage and appropriate care management interventions, which shall include available plan services and referrals for other services available in the community.

(b) If the pregnant woman, at the time of the receipt of the health status data form by the department, is not enrolled in a managed care health plan, the department shall send the form to an entity described in subdivision five of this section for triage and appropriate care management services, which shall include, but not be limited to, needed home visits and referrals to community based services for high risk pregnant women. If the pregnant woman subsequently becomes enrolled in a managed care health plan, the designated entity and the plan shall assure continuity of care.

5. Patient health status data collected under this section shall be maintained as confidential by the department and by any person or entity to whom the department discloses the data. Such data may only be disclosed by the department under this section.

6. For purposes of the activities described in paragraph (b) of subdivision four of this section, the department is authorized to enter into agreements with and, within amounts appropriated therefor, provide funding to, local health departments or not-for-profit organizations to promote positive pregnancy outcomes, optimal child health, growth and development, and safe home environments.

7. The department is authorized to operate the program authorized by this section in a subset of counties in the state.

8. Within amounts appropriated therefor, the commissioner is authorized to develop fees to reimburse enrolled fee-for-service providers for the collection and transmittal of clinical data authorized by this section.

§ 2531. Children and recovering mothers program. Subject to

appropriation, the commissioner, in consultation with the commissioner of alcoholism and substance abuse services, is authorized to establish the children and recovering mothers program, a program aimed at providing health care providers, hospitals and midwifery birth centers with guidance, education and assistance when providing care to expectant mothers with a substance use disorder. Such program shall:

1. Provide information to both health care providers as well as expectant mothers regarding use of medication assisted treatment for pregnant women, which shall include information regarding buprenorphine training, tools for providers on effective management of women with a substance use disorder during pregnancy, and a referral list of providers in the area;
2. Provide guidance and referral information for substance use disorder services, home visiting services and other benefits and services that they may be eligible for while expecting and after birth;
3. Develop a system for rapid consultation and referral linkage services for obstetricians and primary care providers statewide who provide care for expectant mothers with substance use disorders;
4. Provide guidance on the identification of signs and symptoms of substance use disorder in expectant mothers; and
5. Anything else deemed necessary to implement the program.

§ 2532. Workgroup. The commissioner, in conjunction with the commissioner of alcoholism and substance abuse services, shall convene a workgroup of stakeholders, including but not limited to, hospitals, local health departments, obstetricians, midwives, pediatricians, and substance use disorder providers to study and evaluate barriers and challenges in identifying and treating expectant mothers, newborns and new parents with a substance use disorder. The workgroup shall report on its findings and recommendations to the commissioner, the commissioner of alcoholism and substance abuse services, the speaker of the assembly

and the temporary president of the senate within one year of the effective date of this section.

TITLE II-A

EARLY INTERVENTION PROGRAM FOR INFANTS AND TODDLERS WITH DISABILITIES AND THEIR FAMILIES

- Section 2540. Establishment of early intervention program.
2541. Definitions.
2542. Comprehensive child find system and public awareness program.
2543. Service coordinators.
2544. Screening and evaluations.
2545. Individualized family services plans ("IFSP").
2546. Interim services.
2547. Respite services.
- 2547-a. Day care support services.
2548. Transition plan.
2549. Due process.
2550. Responsibilities of lead agency.
2551. Coordinated standards and procedures.
2552. Responsibility of municipality.
2553. Early intervention coordinating council.
2554. Local early intervention coordinating councils.
2556. Administrative costs.
2557. Financial responsibility and reimbursement.
2558. Responsibility for certain temporary-resident infants and toddlers with disabilities.
2559. Medical assistance program payments.
- 2559-a. Transportation.
- 2559-b. Regulations.

§ 2540. Establishment of early intervention program. There is established an early intervention program under the administration of the commissioner.

§ 2541. Definitions. As used in this title the following terms shall have the following meanings, unless the context clearly requires otherwise:

1. "Children at risk" means children who may experience a disability because of medical, biological or environmental factors which may produce developmental delay, as determined by the commissioner through regulation.

2. "Coordinated standards and procedures" means standards and procedures developed by state early intervention service agencies pursuant to section twenty-five hundred fifty-one of this title.

3. "Council" means the early intervention coordinating council established under section twenty-five hundred fifty-three of this title.

4. "Developmental delay" means that a child has not attained developmental milestones expected for the child's chronological age, as measured by qualified professionals using appropriate diagnostic instruments and/or procedures and informed clinical opinion, in one or more of the following areas of development: cognitive, physical, communication, social or emotional, or adaptive.

5. "Disability" means:

- (a) a developmental delay; or
- (b) a diagnosed physical or mental condition that has a high probability of resulting in developmental delay, such as Down syndrome or other chromosomal abnormalities, sensory impairments, inborn errors of metabolism or fetal alcohol syndrome.

6. "Early intervention official" means an appropriate municipal official designated by the chief executive officer of a municipality and an appropriate designee of such official.

7. "Early intervention services" means developmental services that:

- (a) are provided under public supervision;

(b) are selected in collaboration with the parents;

(c) are designed to meet a child's developmental needs in any one or more of the following areas:

(i) physical development, including vision and hearing,

(ii) cognitive development,

(iii) communication development,

(iv) social or emotional development, or

(v) adaptive development;

(d) meet the coordinated standards and procedures;

(e) are provided by qualified personnel;

(f) are provided in conformity with an IFSP;

(g) are, to the maximum extent appropriate, provided in natural environments, including the home and community settings where children without disabilities would participate;

(h) include, as appropriate:

(i) family training, counseling, home visits and parent support groups,

(ii) special instruction,

(iii) speech pathology and audiology,

(iv) occupational therapy,

(v) physical therapy,

(vi) psychological services,

(vii) case management services, hereafter referred to as service coordination services,

(viii) medical services for diagnostic or evaluation purposes, subject to reasonable prior approval requirements for exceptionally expensive services, as prescribed by the commissioner,

(ix) early identification, screening, and assessment services,

(x) health services necessary to enable the infant or toddler to benefit from the other early intervention services,

(xi) nursing services,

(xii) nutrition services,

(xiii) social work services,

(xiv) vision services,

(xv) assistive technology devices and assistive technology services,

(xvi) transportation and related costs that are necessary to enable a child and the child's family to receive early intervention services, and

- (xvii) other appropriate services approved by the commissioner.
- (i) are cost-effective.

8. (a) "Eligible child" means an infant or toddler from birth through age two who has a disability; provided, however, that any toddler with a disability who has been determined to be eligible for program services under section forty-four hundred ten of the education law and:

(i) who turns three years of age on or before the thirty-first day of August shall, if requested by the parent, be eligible to receive early intervention services contained in an IFSP until the first day of September of that calendar year; or

(ii) who turns three years of age on or after the first day of September shall, if requested by the parent and if already receiving services pursuant to this title, be eligible to continue receiving such services until the second day of January of the following calendar year.

(b) Notwithstanding the provisions of paragraph (a) of this subdivision, a child who receives services pursuant to section forty-four hundred ten of the education law shall not be an eligible child.

9. "Evaluation" means a multidisciplinary professional, objective assessment conducted by appropriately qualified personnel and conducted pursuant to section twenty-five hundred forty-four of this title to determine a child's eligibility under this title.

10. "Evaluator" means a team of two or more professionals approved pursuant to section twenty-five hundred fifty-one of this title to conduct screenings and evaluations.

11. "IFSP" means the individualized family service plan adopted in accordance with section twenty-five hundred forty-five of this title.

12. "Lead agency" means the department of health, the public agency responsible for the administration of the early intervention system in collaboration with the state early intervention service agencies.

13. "Municipality" means a county outside the city of New York or the

city of New York in the case of a county contained within the city of New York.

13-a. Subject to federal law and regulations, "natural environment" or "natural setting" means a setting that is natural or normal for the child's age peers who have no disability.

14. "Parent" means parent or person in parental relation to the child. With respect to a child who has no parent or person in a parental relation, "parent" shall mean the person designated to serve in parental relation for the purposes of this title, pursuant to regulations of the commissioner promulgated in consultation with the commissioner of social services for children in foster care.

15. "Qualified personnel" means:

(a) persons holding a state approved or recognized certificate, license or registration in one of the following fields:

(i) special education teachers;

(ii) speech and language pathologists and audiologists;

(iii) occupational therapists;

(iv) physical therapists;

(v) social workers;

(vi) nurses;

(vii) dietitians or nutritionists;

(viii) other persons designated by the commissioner who meet requirements that apply to the area in which the person is providing early intervention services, where not in conflict with existing professional licensing, certification and/or registration requirements.

(b) persons holding a state approved license in one of the following fields:

(i) psychologists; or

(ii) physicians.

16. "Service coordinator" means a person who:

(a) meets the qualifications established in federal law and regulation and demonstrates knowledge and understanding of:

(i) infants and toddlers who may be eligible for services under this

title;

(ii) principles of family-centered services;

(iii) part H of the federal individuals with disabilities education act and its corresponding regulations;

(iv) the nature and scope of services available under this title; and

(v) the requirements for authorizing and paying for such services and other pertinent information;

(b) is responsible for:

(i) assisting eligible children and their families in gaining access to services listed on the IFSP;

(ii) coordinating early intervention services with other services such as medical and health services provided to the child;

(iii) coordinating the performance of evaluations and assessments;

(iv) participating in the development, monitoring and evaluation of the IFSP;

(v) assisting the parent in identifying available service providers;

(vi) coordinating service delivery;

(vii) informing the family of advocacy services;

(viii) where appropriate, facilitating the transition of the child to other appropriate services; and

(ix) assisting in resolving any disputes which may arise between the family and service providers, as necessary and appropriate; and

(c) meets such other standards as are specified pursuant to section twenty-five hundred fifty-one of this title.

17. "State early intervention service agencies" means the departments of health, education and social services and the offices of mental health and alcoholism and substance abuse services and the office for people with developmental disabilities.

18. "Year" shall mean the twelve-month period commencing July first unless otherwise specified.

§ 2542. Comprehensive child find system and public awareness program.

1. The commissioner shall develop a comprehensive child find system that ensures that eligible children in the state are identified, located,

referred to the early intervention official and evaluated. Such system shall:

(a) require early intervention officials to identify and locate eligible children within their municipality;

(b) be coordinated with efforts to identify, locate and track children conducted by other agencies responsible for services to infants and toddlers and their families, including the efforts in (i) part B of the federal individuals with disabilities education act, including early childhood direction centers, (ii) the maternal and child health program under title V of the federal social security act, including the infant health assessment program, (iii) medicaid's early periodic screening, diagnosis and treatment program under title XIX of the federal social security act, and (iv) the federal supplemental security income program; and

(c) provide for the identification, tracking and screening of children at risk of developmental delay, using resources available through the programs, identified in paragraph (b) of this subdivision and such other available resources as the commissioner shall commit to this purpose.

2. The commissioner shall develop, implement, and maintain a public awareness program to inform the general public and the professional community of the availability of the early intervention program and the benefits of services to infants and toddlers with disabilities and their families. The program shall include materials which describe the normal developmental achievements of young children, identification and procedures for referral of children with disabilities, and how to gain access to early intervention services.

3. The following persons and entities, within two working days of identifying an infant or toddler suspected of having a disability or at risk of having a disability, shall refer such infant or toddler to the early intervention official or the health officer of the public health district in which the infant or toddler resides, as designated by the municipality, but in no event over the objection of the parent made in accordance with procedures established by the department for use by such primary referral sources, unless the child has already been referred: hospitals, child health care providers, day care programs, local school

districts, public health facilities, early childhood direction centers and such other social service and health care agencies and providers as the commissioner shall specify in regulation; provided, however, that the department shall establish procedures, including regulations if required, to ensure that primary referral sources adequately inform the parent or guardian about the early intervention program, including through brochures and written materials created or approved by the department.

4. The commissioner shall provide each early intervention official with a list of all approved evaluators and service coordinators in the municipality or geographic area proximate to such municipality or, with respect to the city of New York, subdivisions of the city as prescribed by the commissioner.

Such list of approved evaluators shall be updated at least annually and shall describe the specific areas of expertise of each qualified evaluator, if known.

§ 2543. Service coordinators. 1. Upon referral to the early intervention official of a child thought to be an eligible child by a parent or professional, the early intervention official shall promptly designate an initial service coordinator, selecting whenever appropriate a service coordinator who has an established relationship with the child or family, and shall promptly notify the parent of such designation.

2. The initial service coordinator shall promptly arrange a contact with the parent after such designation, provided that such contact must be in a time, place and manner reasonably convenient for the parent and consistent with the timeliness requirements of this title.

§ 2544. Screening and evaluations. 1. Each child thought to be an eligible child is entitled to a multidisciplinary evaluation, and the early intervention official shall ensure such evaluation, with parental consent.

2. (a) The parent may select an evaluator from the list of approved evaluators as described in section twenty-five hundred forty-two of this title to conduct the evaluation. The parent or evaluator shall immediately notify the early intervention official of such selection. The evaluator may begin the evaluation no sooner than four working days after such notification, unless otherwise approved by the initial service coordinator.

(b) the evaluator shall designate an individual as the principal contact for the multidisciplinary team.

(c) If, in consultation with the evaluator, the service coordinator identifies a child that is potentially eligible for programs or services offered by or under the auspices of the office for people with developmental disabilities, the service coordinator shall, with parent consent, notify the office for people with developmental disabilities' regional developmental disabilities services office of the potential eligibility of such child for said programs or services.

3. (a) To determine eligibility, an evaluator shall, with parental consent, either (i) screen a child to determine what type of evaluation, if any, is warranted, or (ii) provide a multidisciplinary evaluation. In making the determination whether to provide an evaluation, the evaluator may rely on a recommendation from a physician or other qualified person as designated by the commissioner.

(b) If, based upon the screening, a child is believed to be eligible, or if otherwise elected by the parent, the child shall, with the consent of a parent, receive a multidisciplinary evaluation. All evaluations shall be conducted in accordance with the coordinated standards and procedures and with regulations promulgated by the commissioner.

4. The evaluation of each child shall:

(a) be conducted by personnel trained to utilize appropriate methods and procedures;

(b) be based on informed clinical opinion;

(c) be made without regard to the availability of services in the municipality or who might provide such services; and

(d) with parental consent, include the following:

(i) a review of pertinent records related to the child's current health status and medical history;

(ii) an evaluation of the child's level of functioning in each of the developmental areas set forth in paragraph (c) of subdivision seven of section twenty-five hundred forty-one of this title;

(iii) an assessment of the unique needs of the child in terms of each of the developmental areas set forth in paragraph (c) of subdivision seven of section twenty-five hundred forty-one of this title, including the identification of services appropriate to meet those needs;

(iv) an evaluation of the transportation needs of the child, if any; and

(v) such other matters as the commissioner may prescribe in regulation.

5. An evaluation shall not include a reference to any specific provider of early intervention services.

6. Nothing in this section shall restrict an evaluator from utilizing, in addition to findings from his or her personal examination, other examinations, evaluations or assessments conducted for such child, including those conducted prior to the evaluation under this section, if such examinations, evaluations or assessments are consistent with the coordinated standards and procedures.

7. Following completion of the evaluation, the evaluator shall provide the parent and service coordinator with a copy of a summary of the full evaluation. To the extent practicable, the summary shall be provided in the native language of the parent. Upon request of the parent, early intervention official or service coordinator, the evaluator shall provide a copy of the full evaluation to such parent, early intervention official or service coordinator.

8. A parent who disagrees with the results of an evaluation may obtain an additional evaluation or partial evaluation at public expense to the extent authorized by federal law or regulation.

9. Upon receipt of the results of an evaluation, a service coordinator

may, with parental consent, require additional diagnostic information regarding the condition of the child, provided, however, that such evaluation or assessment is not unnecessarily duplicative or invasive to the child, and provided further, that:

(a) where the evaluation has established the child's eligibility, such additional diagnostic information shall be used solely to provide additional information to the parent and service coordinator regarding the child's need for services and cannot be a basis for refuting eligibility;

(b) the service coordinator provides the parent with a written explanation of the basis for requiring additional diagnostic information;

(c) the additional diagnostic procedures are at no expense to the parent; and

(d) the evaluation is completed and a meeting to develop an IFSP is held within the time prescribed in subdivision one of section twenty-five hundred forty-five of this title.

10. (a) If the screening indicates that the infant or toddler is not an eligible child and the parent elects not to have an evaluation, or if the evaluation indicates that the infant or toddler is not an eligible child, the service coordinator shall inform the parent of other programs or services that may benefit such child, and the child's family and, with parental consent, refer such child to such programs or services.

(b) A parent may appeal a determination that a child is ineligible pursuant to the provisions of section twenty-five hundred forty-nine of this title, provided, however, that a parent may not initiate such appeal until all evaluations are completed.

11. Notwithstanding any other provision of law to the contrary, where a request has been made to review an IFSP prior to the six-month interval provided in subdivision seven of section twenty-five hundred forty-five of this title for purposes of increasing frequency or duration of an approved service, including service coordination, the early intervention official may require an additional evaluation or partial evaluation at public expense by an approved evaluator other than the current provider of service, with parent consent.

§ 2545. Individualized family services plans ("IFSP"). 1. If the evaluator determines that the infant or toddler is an eligible child, the early intervention official shall convene a meeting, at a time and place convenient to the parent, consisting of the parent, such official, the evaluator, the initial service coordinator and any other persons who the parent or the initial service coordinator, with the parent's consent, invite, provided that such meeting shall be held no later than forty-five days from the date that the early intervention official was first contacted regarding the child, except under exceptional circumstances prescribed by the commissioner. The early intervention official, at or prior to the time of scheduling the meeting, shall inform the parent of the right to invite any person to the meeting.

2. The early intervention official, initial service coordinator, parent and evaluator shall develop an IFSP for an eligible child whose parents request services. The IFSP shall be in writing and shall include, but not be limited to:

(a) a statement, based on objective criteria, of the infant's or toddler's present levels of physical development, including vision and hearing; cognitive development; communication development; social or emotional development; and adaptive development;

(b) with parental consent, a statement of the family's strengths, priorities and concerns that relate to enhancing the development of the infant or toddler;

(c) a statement of (i) the major outcomes expected to be achieved for the child and the family, including timelines, and (ii) the criteria and procedures that will be used to determine whether progress toward achieving the outcomes is being made and whether modifications or revisions of the outcomes or services are necessary;

(d) a statement of specific early intervention services, including transportation and the mode thereof, necessary to meet the unique needs of the child and the family, including the frequency, intensity, location and the method of delivering services;

(e) a statement of the natural environments, including the home and community settings where children without disabilities participate, in

which early intervention services shall appropriately be provided and an explanation of their appropriateness, and, where the child is in day care, a plan for qualified professionals to train the day care provider to accommodate the needs of the child, where appropriate;

(f) a statement of other services, including but not limited to medical services, that are not required under this title but that are needed by the child and the family;

(g) a statement of other public programs under which the child and family may be eligible for benefits, and a referral, where indicated;

(h) the projected dates for initiation of services and the anticipated duration of such services;

(i) the name of the service coordinator selected by the parent who will be responsible for the implementation of the IFSP and coordination with other agencies and persons;

(j) the steps to be taken supporting the potential transition of the toddler with a disability to services provided under section forty-four hundred ten of the education law or to other services, to the extent the child is thought to be eligible for such services, including:

(i) discussions with and education of parents regarding potential options and other matters related to the child's transition;

(ii) procedures to prepare the child for changes in service delivery, including steps to help the child adjust to, and function in, a new setting; and

(iii) with parental consent, the transmission of information about the child to the committee on preschool special education, to ensure continuity of services, if appropriate, including evaluation and assessment information and copies of IFSPs.

3. In developing the IFSP, consideration shall first be given to provision of transportation by a parent of a child to early intervention services. Other modes of transportation shall be provided if the parent can demonstrate the inability to provide appropriate transportation services.

4. If the IFSP team members, including the early intervention official and the parent agree on the IFSP, the IFSP shall be deemed final and the service coordinator shall be authorized to implement the plan.

5. If the IFSP team members, including the early intervention official and the parent do not agree on an IFSP, the service coordinator shall implement the sections of the proposed IFSP that are not in dispute, and the parent shall have the due process rights set forth in section twenty-five hundred forty-nine of this title.

6. The contents of the IFSP shall be fully explained to the parent, and informed consent from the parent shall be obtained prior to the provision of the early intervention services therein. If the parent does not provide such consent with respect to a particular early intervention service, then only those early intervention services with respect to which consent is obtained shall be provided.

7. The IFSP shall be reviewed at six month intervals and shall be evaluated annually by the early intervention official, service coordinator, the parent and providers of services to the eligible child. Upon request of a parent, the plan may be reviewed by such persons at more frequent intervals.

8. If, at any time, the parent and the service coordinator agree, in writing, that the child has met all the goals set forth in the IFSP or is otherwise no longer in need of services pursuant to this article, the service coordinator shall certify that the child is no longer an eligible child.

9. A parent may, at any time during or after development of the IFSP, select a service coordinator who will become responsible for implementing the IFSP and who may be different from the initial service coordinator.

10. The service coordinator shall ensure that the IFSP, including any amendments thereto, is implemented in a timely manner but not later than thirty days after the projected dates for initiation of the services as set forth in the plan.

§ 2546. Interim services. 1. Early intervention services for an eligible child and the child's family may commence before the completion of the evaluation and assessment in sections twenty-five hundred forty-four and twenty-five hundred forty-five of this title, if the following conditions are met:

(a) Parental consent is obtained;

(b) An interim IFSP is developed that includes: (i) the name of a service coordinator who will be responsible for implementation of the interim IFSP and coordination with other agencies and persons; and (ii) the early intervention services that have been determined to be needed immediately by the child and the child's family; and

(c) The evaluation and assessment are completed within forty-five days from the date the early intervention official was first contacted regarding the child.

2. The costs that an approved provider of early intervention services incurs in providing such interim services shall be approved costs to the extent they are otherwise consistent with section twenty-five hundred fifty-five of this title.

§ 2547. Respite services. 1. Subject to the availability of federal funds, the commissioner shall allocate a portion of such funds for respite services for families of eligible children. The commissioner shall establish criteria for selecting families for such services, which may include the severity of the child's disability, the availability of respite services to the family through other programs, and the availability of informal supports to the family.

2. In addition to respite services provided pursuant to subdivision one of this section and subject to the amounts appropriated therefor, the state shall reimburse the municipality in accordance with the percentage of state aid reimbursement for approved costs as set forth in subdivision two of section twenty-five hundred fifty-seven of this title, for the costs of respite services provided to eligible children and their families with the approval of the early intervention official.

3. The commissioner shall contact the appropriate federal governmental agencies and personnel to facilitate the availability of federal funds for respite services.

§ 2547-a. Day care support services. The commissioner shall allocate up to one million dollars of federal funds for purposes of establishing two or more demonstration programs for the provision of day care support services for eligible children which may include the use of paraprofessionals to work with one or more children with disabilities within the same setting. The commissioner, in consultation with other appropriate state agencies, shall establish criteria for the selection of demonstration sites for such services, such criteria to include, but not be limited to, geographic distribution, the disability severity of children to be served by such a program and the availability of similar services from other sources.

§ 2548. Transition plan. To the extent that a toddler with a disability is thought to be eligible for services pursuant to section forty-four hundred ten of the education law, the service coordinator shall notify in writing the committee on preschool special education of the local school district in which an eligible child resides of the potential transition of such child and, with parental consent, arrange for a conference among the service coordinator, the parent and the chairperson of the preschool committee on special education or his or her designee at least ninety days before such child would be eligible for services under section forty-four hundred ten of the education law to review the child's program options and to establish a transition plan, if appropriate. If a parent does not consent to a conference with the service coordinator and the chairperson of the preschool committee on special education or his or her designee to determine whether the child should be referred for services under section forty-four hundred ten of the education law, and the child is not determined to be eligible by the committee on preschool special education for such services prior to the child's third birthday, the child's eligibility for early intervention program services shall end at the child's third birthday.

§ 2549. Due process. 1. If a parent disagrees with the determination of the evaluator or the local early intervention official with regard to the eligibility for or provision of early intervention services or if such official fails to act within such period of time as may be required by this title or regulations of the commissioner, a parent may make a request in writing for mediation or an impartial hearing to resolve the dispute; provided, however, if a parent elects not to pursue mediation, such election shall not (a) preclude a parent from requesting an impartial hearing or (b) constitute a failure to exhaust administrative remedies.

2. A request for mediation shall be made to the early intervention official for the municipality in which the child resides. Upon such request, the municipality shall notify a community dispute resolution center designated by the commissioner to provide mediation services for such municipality. The community dispute resolution center shall arrange for the mediation to be conducted at a place and time convenient to the parent. Such mediation shall be at no cost to the parent. If all parties agree to the terms of a mediation agreement, a copy of such agreement shall be forwarded by the community dispute resolution center to the participating parties and the service coordinator who shall incorporate the provisions of such agreement into the IFSP no later than five days after receiving a copy of such agreement. If the parties are unable to reach agreement, in full or in part, the mediator shall inform the parent of the availability of the impartial hearing procedures.

3. A parent may file a written request at any time for an impartial hearing with the commissioner or a designee provided, however, that a request for a hearing to contest a determination that a child is not eligible for services under this title must be made within six months of such determination. Upon receipt of such request, the commissioner, or the designee, shall promptly notify the parent, or a person designated by the parent, and other appropriate parties in accordance with the regulations of the commissioner. Any such notice to the parent shall be provided in the native language of such person whenever practicable and,

if not, in a manner to ensure notice to such person and shall include but not be limited to:

- (a) the procedural safeguards afforded to a parent;
- (b) the date, time and location for the impartial hearing, which shall be reasonably convenient for the parent;
- (c) the procedures for the appointment of an impartial hearing officer; and
- (d) the right of the parent to appeal the decision of the impartial hearing to a court of competent jurisdiction.

4. After receipt of notice from the commissioner of a parent's request for an impartial hearing, the early intervention official shall promptly notify the parent as to whether the municipality intends to be represented by an attorney at such hearing.

5. The impartial hearing shall be conducted by the hearing officer in accordance with the regulations of the commissioner. The hearing shall be held, and a decision rendered, within thirty days after the department receives the request for an impartial hearing except to the extent that the parent consents, in writing, to an extension. The decision shall be in writing and shall state the reasons for the decision and shall be final unless appealed by a party to the proceeding. A copy of the decision reached by the hearing officer shall be mailed to the parent, any public or private agency that was a party to the hearing, the service coordinator, the department and any state early intervention service agency with an interest in the decision. Where ordered by the hearing officer, the service coordinator shall modify the IFSP in accordance with the decision within five days after such decision.

6. During the pendency of any mediation or impartial hearing conducted pursuant to this section, the child and family shall, with parental consent, receive those early intervention services that are not in dispute or that are provided pursuant to the IFSP previously in effect.

7. (a) All orders or determinations made hereunder shall be subject to review as provided for in article seventy-eight of the civil practice

law and rules. In any proceeding under article seventy-eight of the civil practice law and rules, the court may grant any relief authorized by the provisions of section seventy-eight hundred six of such law and rules and also may, in its discretion, remand the proceedings to the department for further consideration upon a finding that any relevant and material evidence is then available which was not previously considered by the department.

(b) A parent who, after completing mediation, substantially prevails in an impartial hearing or a judicial challenge to an order or determination under this title shall be entitled to reimbursement for reasonable attorney's fees incurred in such impartial hearing or judicial challenge provided, however, that the parent shall only be entitled to reimbursement for such fees for prevailing in an impartial hearing if the municipality was represented by an attorney at such impartial hearing.

8. (a) The early intervention official shall maintain the confidentiality of all personally identifiable information regarding the children and families receiving early intervention services. The early intervention official shall ensure that no information regarding the conditions, services, needs, or other individual information regarding a child and family is communicated to any parties other than the service coordinator and service providers currently serving the child and family, without the express written consent of the parent.

(b) Providers of service to eligible children and families shall maintain the confidentiality of all personally identifiable information regarding children and families receiving their services. The provider shall ensure that no information regarding the condition, services, needs, or any other individual information regarding a child and family is released to any party other than the early intervention official without the express written consent of the parent, except as specifically permitted in the coordinated standards and procedures, which shall additionally ensure that the requirements of federal or state law which pertain to the early intervention services of the state early intervention service agencies have been maintained.

(c) This section shall not prohibit disclosure otherwise required by law.

§ 2550. Responsibilities of lead agency. 1. The lead agency is responsible for the general administration and supervision of programs and activities receiving assistance under this title, and the monitoring of programs and activities used by the state to carry out this title, whether or not such programs or activities are receiving assistance made available under this title, to ensure that the state complies with the provisions of this title.

2. In meeting the requirements of subdivision one of this section, the lead agency shall adopt and use proper methods of administering the early intervention program, including:

(a) establishing standards for evaluators, service coordinators and providers of early intervention services;

(b) approving, and periodically re-approving evaluators, service coordinators and providers of early intervention services who meet department standards; provided however that the department may require that approved evaluators, service coordinators and providers of early intervention services enter into agreements with the department in order to conduct evaluations or render service coordination or early intervention services in the early intervention program. Such agreements shall set forth the terms and conditions of participation in the program. If the department requires that such providers enter into agreements with the department for participation in the program, "approval" or "approved" as used in this title shall mean a provider who is approved by the department in accordance with department regulations and has entered into an agreement with the department for the provision of evaluations, service coordination or early intervention services. The department shall use best efforts to ensure provider capacity in the early intervention program.

(c) monitoring of agencies, institutions and organizations under this title and agencies, institutions and organizations providing early intervention services which are under the jurisdiction of a state early intervention service agency;

(d) enforcing any obligations imposed on those agencies under this title or Part H of the federal individuals with disabilities education

act and its regulations;

(e) providing training and technical assistance to those agencies, institutions and organizations, including initial and ongoing training and technical assistance to municipalities to help enable them to identify, locate and evaluate eligible children, develop IFSPs, ensure the provision of appropriate early intervention services, promote the development of new services, where there is a demonstrated need for such services and afford procedural safeguards to infants and toddlers and their families;

(f) correcting deficiencies that are identified through monitoring; and

(g) in monitoring early intervention services, the commissioner shall provide municipalities with the results of any review of early intervention services undertaken and shall provide the municipalities with the opportunity to comment thereon.

3. The commissioner, through a comprehensive system of personnel development, shall promote the availability of qualified personnel to provide evaluations and early intervention services to eligible children and their families.

§ 2551. Coordinated standards and procedures. 1. The state early intervention service agencies shall jointly establish coordinated standards and procedures for:

(a) early intervention services and evaluations;

(b) child find system and public awareness program; and

(c) programs and services, operating under the approval authority of any state early intervention service agency, which include any early intervention services or evaluations.

2. Such coordinated standards and procedures shall be designed to:

(a) enhance the objectives of this title, including the provision of services in natural environments to the maximum extent possible;

(b) minimize duplicative and inconsistent regulations and practices among the state early intervention service agencies;

(c) conform, to the extent appropriate, to existing standards and

procedures of state early intervention service agencies; and

(d) ensure that persons who provide early intervention services are trained, or can demonstrate proficiency in principles of early childhood development.

3. Coordinated standards and procedures may include guidelines suggesting appropriate early intervention services for enumerated disabilities that are most frequently found in eligible children.

4. Coordinated standards and procedures may encompass or allow for agreements among two or more such agencies.

5. Any standards promulgated by regulation or otherwise by any state early intervention service agency governing early intervention services or evaluations shall be consistent with the coordinated standards and procedures.

6. In the event of an inability to agree upon any coordinated standard or procedure, any state early intervention service agency may refer the issue to the early intervention coordinating council for its advice with respect to the standard or procedure which the council shall provide to the early intervention service agencies affected by the issue. The commissioner, after obtaining such advice, shall adopt an appropriate standard or procedure, provided however, that the commissioner may adopt an interim standard or procedure while awaiting such advice.

7. The early intervention service agencies, in consultation with the director of the budget, shall, where appropriate, require as a condition of approval that evaluators and providers of early intervention services participate in the medical assistance program.

8. The coordinated standards and procedures shall permit such evaluators and providers of services to rely on subcontracts or other written agreements with qualified professionals, or agencies employing such professionals, provided that such professionals perform their responsibilities in conformance with regulations of the commissioner and that providers and evaluators fully disclose any such arrangements,

including any financial or personal interests, on all applications for approval.

9. Coordinated standards and procedures may identify circumstances and procedures under which an evaluator or service provider may be disqualified under this title, including procedures whereby a municipality may request such disqualification.

§ 2552. Responsibility of municipality. 1. Each municipality shall be responsible for ensuring that the early intervention services contained in an IFSP are provided to eligible children and their families who reside in such municipality. A municipality may monitor, which may include site visitation, evaluators and providers of such services within the municipality in accordance with this title and regulations promulgated hereunder, including making the determinations specified in this section. The service coordinator shall report, in a manner and format as determined by the municipality, on the delivery of services to an eligible child in accordance with the eligible child's IFSP. A municipality may request that the parent select a new service coordinator or require that the service coordinator select a new provider of services if the municipality finds that the service coordinator has not been performing his or her responsibilities as required by this title or that services have not been provided in accordance with the eligible child's IFSP. If the early intervention official determines that the evaluator has not followed the requirements in this title or regulations promulgated hereunder, the early intervention official may require that the evaluator immediately submit additional documentation to support the eligibility determination. If the evaluator does not provide the requested documentation, or the documentation provided continues to be inconsistent with the requirements of this title or regulations, the early intervention official can require that the parent select another evaluator to conduct a multidisciplinary evaluation to determine whether the child meets eligibility for program services.

2. The early intervention official shall require an eligible child's

parent to furnish the parents' and eligible child's social security numbers for the purpose of the department's and municipality's administration of the program.

§ 2553. Early intervention coordinating council. 1. (a) The department shall establish an early intervention coordinating council.

(b) The council shall consist of thirty members, unless otherwise required by federal law, appointed by the governor. At least five members shall be parents, four of whom shall be parents of children with disabilities aged twelve or younger and one of whom shall be the parent of a child with disabilities aged six or younger; at least five shall be representatives of public or private providers of early intervention services; at least one shall be involved in personnel preparation or training; at least three shall be representatives of managed care plans or managed care plan trade associations familiar with how claims for services provided pursuant to this title are managed; at least two shall be early intervention officials; at least two shall be members of the legislature or such members' designees; seven shall be the commissioner and the commissioners of education, the office of children and family services, people with developmental disabilities, mental health, alcoholism and substance abuse services and the superintendent of financial services, or their appropriate designees with sufficient authority to engage in policy planning and implementation on behalf of their agencies.

(c) The governor shall appoint ten members on the recommendation of the temporary president of the senate and the speaker of the assembly, each of whom shall recommend five members as follows: one parent of a child with disabilities age twelve or younger; one representative of public or private providers of early intervention services; one representative of a managed care plan or managed care plan trade association familiar with how claims for services provided pursuant to this title are managed; one member of the legislature; and one early intervention official. The governor shall appoint four members on the recommendations of the minority leader of the assembly and the minority leader of the senate, each of whom shall recommend two members as follows: one parent of a child with disabilities age twelve or younger;

one representative of public or private providers of early intervention services.

(d) The governor shall designate a chairperson from among the members of the council. All members shall serve for terms of three years. Such terms shall be established so that the terms of no more than one-third of the members of the council expire each year.

(e) A majority of the appointed voting membership of the council shall constitute a quorum.

2. The council shall:

(a) assist the lead agency in the effective performance of the lead agency's responsibilities set out under this title, including:

(i) identifying the sources of fiscal support for early intervention services and programs, assignment of financial responsibility to the appropriate agency and promotion of interagency agreements;

(ii) preparing applications and amendments required pursuant to federal law;

(iii) advising and assisting the commissioner regarding payment methodologies established pursuant to section twenty-five hundred fifty-five of this title to reimburse adequately the cost of services authorized pursuant to this article and to promote the efficient, economical, productive and stable delivery of early intervention services. The council shall convene a reimbursement advisory panel, the members of which shall be appointed by the commissioner, to assist the council regarding such payment methodologies. Such panel shall consist of no more than sixteen members, and shall include at least four representatives of municipalities, at least four representatives of statewide and regional provider organizations, and such other members as the commissioner shall deem appropriate.

(b) advise and assist the commissioner and other state early intervention service agencies in the development of coordinated standards and procedures pursuant to section twenty-five hundred fifty-one of this title in order to promote the full participation and cooperation of such agencies;

(c) advise and assist the commissioner and the commissioner of education regarding the transition of toddlers with disabilities to services provided under section forty-four hundred ten of the education

law, to the extent such services are appropriate;

(d) advise and assist the commissioner in identifying barriers that impede timely and effective service delivery, including advice and assistance with regard to interagency disputes; and

(e) prepare and submit an annual report to the governor and legislature on the status of the early intervention program.

3. The council shall meet at least four times a year. Special meetings may be called by the chairperson and shall be called at the request of the commissioner.

4. At least sixty days prior to the commissioner's final approval of rules and regulations pursuant to this title, other than emergency rules and regulations, the commissioner shall submit proposed rules and regulations to the council for its review. The council shall review all proposed rules and regulations and report its recommendations thereon to the commissioner within sixty days. The commissioner shall not act in a manner inconsistent with the recommendations of the council without first providing the reasons therefor. The council, upon a majority vote of its members, may require that an alternative approach to the proposed rules and regulations be published with a notice of the proposed rules and regulations pursuant to section two hundred two of the state administrative procedure act. When an alternative approach is published pursuant to this section, the commissioner shall state the reasons for not selecting such alternative approach.

5. The members of the council shall be allowed their reasonable and necessary expenses incurred in the performance of their duties hereunder.

§ 2554. Local early intervention coordinating councils. 1. A local early intervention coordinating council shall be established in each municipality. The council shall consist of members appointed by the early intervention official. At least four members of each council shall be parents of infants or toddlers with disabilities or of children aged three through twelve with disabilities. Each council shall also include

at least three public or private providers of early intervention services, at least one child care provider or representative of child care providers, the chief executive officers or their designees of the municipality's departments of social services, health and mental hygiene, a representative from the local developmental disabilities services office and a representative from one or more committees on preschool special education of local school districts in the municipality. A local body which has been previously constituted may serve this purpose if it has the appropriate members. The commissioner, in his or her discretion, may waive one or more of the foregoing membership composition requirements in those municipalities where such requirements cannot reasonably be met.

2. The local early intervention coordinating council shall meet, in open forum, at least four times a year for its first two years of existence.

3. The council shall advise the early intervention official regarding:

(a) the planning for, delivery and assessment of the early intervention services for eligible children and their families, including the transition from early intervention services to services and programs under section forty-four hundred ten of the education law and other early childhood programs;

(b) the identification of service delivery reforms needed to promote the availability of early intervention services within natural environments;

(c) the coordination of public and private agencies; and

(d) such other matters relating to early intervention policies and procedures within the municipality as are brought to its attention by parents, providers, public agencies or others.

4. The council will report annually to the early intervention official on the adequacy of the early intervention system to ensure the availability of family centered, coordinated services; and interface with other existing planning bodies that serve like populations.

§ 2556. Administrative costs. On or after July first, nineteen hundred ninety-four, and annually thereafter, municipalities shall be eligible for reimbursement for administrative costs exclusive of due process costs incurred during the preceding year pursuant to this title. Such reimbursement shall be made in the first instance from any federal funds available for such purpose, as determined by the commissioner. To the extent that such federal funds are not sufficient or available to reimburse a municipality for such administrative costs, reimbursement shall be made with state funds in an amount up to, but not exceeding, one hundred dollars for each eligible child served in such preceding year.

§ 2557. Financial responsibility and reimbursement. 1. The approved costs for an eligible child who receives an evaluation and early intervention services pursuant to this title shall be a charge upon the municipality wherein the eligible child resides or, where the services are covered by the medical assistance program, upon the social services district of fiscal responsibility with respect to those eligible children who are also eligible for medical assistance. All approved costs shall be paid in the first instance and at least quarterly by the appropriate governing body or officer of the municipality upon vouchers presented and audited in the same manner as the case of other claims against the municipality. Notwithstanding the insurance law or regulations thereunder relating to the permissible exclusion of payments for services under governmental programs, no such exclusion shall apply with respect to payments made pursuant to this title. Notwithstanding the insurance law or any other law or agreement to the contrary, benefits under this title shall be considered secondary to the medical assistance program under which an eligible child may have coverage.

2. The department shall reimburse the approved costs paid by a municipality for the purposes of this title, other than those reimbursable by the medical assistance program, in an amount of fifty percent of the amount expended in accordance with the rules and regulations of the commissioner; provided, however, that in the discretion of the department and with the approval of the director of

the division of the budget, the department may reimburse municipalities in an amount greater than fifty percent of the amount expended. Such state reimbursement to the municipality shall not be paid prior to April first of the year in which the approved costs are paid by the municipality, provided, however that, subject to the approval of the director of the budget, the department may pay such state aid reimbursement to the municipality prior to such date.

3. The department may perform audits, which may include site visitation, to all or any of the following: municipalities; service coordinators; evaluators or providers of early intervention services. The department shall provide the municipalities with a copy of the findings of such audits. Early intervention program state aid reimbursement or portion thereof may be withheld if, on post-audit and review, the commissioner finds that the early intervention services were not provided or those provided were not in substantial conformance with the rules and regulations established by the commissioner or that the recipient of such services was not an eligible child as defined in section twenty-five hundred forty-one of this title. In the event that the commissioner determines that there may be a withholding of state reimbursement to any municipality under this section, he shall inform the state early intervention coordinating council and the relevant local early intervention coordinating council and shall consider alternative courses of action recommended within sixty days by either body prior to withholding state reimbursement.

3-a. Each municipality may perform an audit, which may include site visitation, of evaluators and providers of such services within its municipality in accordance with standards established by the commissioner. The municipality shall submit the results of any such audit to the commissioner for review and, if warranted, adjustments in state aid reimbursement pursuant to subdivision three of this section, as well as for recovery by the municipality of its share of any disallowances identified in such audit.

5. (a) The commissioner, in his or her discretion, is authorized to contract with one or more entities to act as the fiscal agent for the

department and municipalities with respect to fiscal management and payment of early intervention claims. Municipalities shall grant sufficient authority to the fiscal agent to act on their behalf. Municipalities, and individual and agency providers as defined by the commissioner in regulation shall utilize such fiscal agent for payment of early intervention claims as determined by the department and shall provide such information and documentation as required by the department and necessary for the fiscal agent to carry out its duties.

(b) Notwithstanding any inconsistent provision of section one hundred twelve or one hundred sixty-three of the state finance law, sections one hundred forty-two and one hundred forty-three of the economic development law, or any other contrary provision of law, the commissioner is authorized to enter into a contract or contracts under paragraph (a) of this subdivision without a competitive bid or request for proposal process, provided, however, that:

(i) The department shall post on its website, for a period of no less than thirty days:

(1) A description of the proposed services to be provided pursuant to the contract or contracts;

(2) The criteria for selection of a contractor or contractors;

(3) The period of time during which a prospective contractor may seek selection, which shall be no less than thirty days after such information is first posted on the website; and

(4) The manner by which a prospective contractor may seek such selection, which may include submission by electronic means;

(ii) All reasonable and responsive submissions that are received from prospective contractors in a timely fashion shall be reviewed by the commissioner; and

(iii) The commissioner shall select such contractor or contractors that, in his or her discretion, are best suited to serve the purposes of this section.

(c) Paragraph (b) of this subdivision shall apply only to the initial contract or contracts necessary to obtain the services of a fiscal agent for early intervention program fiscal management and payment of early intervention claims and shall not apply to subsequent contracts needed to maintain such services, as determined by the commissioner in his or her discretion.

§ 2558. Responsibility for certain temporary-resident infants and toddlers with disabilities. 1. Definitions. In addition to the definitions contained in section twenty-five hundred forty-one of this title, the following terms shall have the following meanings:

(a) "Foster child" shall mean a child in the care, custody or guardianship of a commissioner of a local social services district.

(b) "Homeless child" shall mean a child placed in a hotel, motel, shelter, or other temporary housing arrangement by a social services district because of the unavailability of permanent housing.

(c) "Municipality of current location" shall mean a municipality in which a child lives which is different from the municipality in which a child or such child's family lived at the time a social services district assumed responsibility for the placement of such child or family or at the time the child was admitted for care or treatment in a facility licensed or operated by another state agency.

(d) "Municipality of residence" shall mean the municipality in which a child or such child's family lived at the time the local social services district assumed responsibility or custody for such child or family or at the time the child was admitted for care or treatment in a facility licensed or operated by another state agency.

(e) "Child in residential care" shall mean an infant or toddler living in a residential facility licensed or operated by a state agency. For the purposes of subdivisions two, three and four of this section, a child in residential care shall be deemed to be a homeless child.

2. Evaluation and IFSP responsibility. The municipality of current location of a foster child or homeless child shall be responsible for the evaluation and IFSP procedures prescribed for an infant or toddler suspected of having a disability. The municipality of current location shall identify to the commissioner each eligible foster child or homeless child, and the municipality of current location of such child shall also transmit a copy of the IFSP and cost of service of such child to the municipality of residence.

3. Contract and payment responsibility. The municipality of current

location shall be the municipality of record for an eligible foster child or homeless child for the purposes of this title, provided that notwithstanding the provision of subdivision two of section twenty-five hundred fifty-seven of this title, the state shall reimburse one hundred percent of the approved costs paid by such municipality which shall be offset by the local contribution due pursuant to subdivision four of this section.

4. Local contribution. The municipality of residence shall be financially responsible for the local contribution in the amount of fifty percent of the amount expended provided, however, that in the discretion of the department and with the approval of the director of the division of the budget, in accordance with subdivision two of section twenty-five hundred fifty-seven of this title, the department may require that municipalities be financially responsible for a local contribution in an amount less than fifty percent of the amount expended. The commissioner shall certify to the comptroller the amount of the local contribution owed by each municipality to the state. The comptroller shall deduct the amount of such local contribution first from any moneys due the municipality pursuant to section twenty-five hundred fifty-six of this title and then from any other moneys due or to become due to the municipality.

§ 2559. Medical assistance program payments. 1. Nothing in this title shall be construed to permit the department or any other state agency or municipality to reduce medical assistance or other assistance or services available to eligible children.

2. Notwithstanding any other provisions of law, costs incurred for early intervention services that otherwise qualify as medical assistance that are furnished to an eligible child who is also eligible for benefits pursuant to title eleven of article five of the social services law are considered to be medical assistance for purposes of payments to providers and state reimbursement to the extent that federal financial participation is available therefor.

3. (a) Parents shall provide the municipality and the service coordinator with a written referral from a primary care provider as documentation, for eligible children, of the medical necessity of early intervention services.

(b) Providers shall utilize the department's fiscal agent and data system for claiming payment for evaluations and services rendered under the early intervention program.

(c) A municipality, or its designee, and a provider shall be subrogated, to the extent of the expenditures by such municipality or for early intervention services furnished to persons eligible for benefits under this title, to any rights such person may have or be entitled to from the medical assistance program. The provider shall submit notice to the insurer or plan administrator of his or her exercise of such right of subrogation upon the provider's assignment as the early intervention service provider for the child. The right of subrogation does not attach to benefits paid or provided prior to receipt of written notice of the exercise of subrogation rights. Notwithstanding any inconsistent provision of this title, except as provided for herein, no third party payor other than the medical assistance program shall be required to reimburse for early intervention services provided under this title.

4. Notwithstanding any other provision of law, the commissioner, pursuant to a memorandum of understanding with the commissioner of the office for people with developmental disabilities, shall develop and submit a medicaid home and community based services waiver, pursuant to section 1915c of the social security act, for the purpose of creating a waiver program to provide and finance services for children who qualify for the early intervention program. In further establishing eligibility criteria under the waiver program, the commissioner, in conjunction with the commissioner of the office for people with developmental disabilities, shall establish health, developmental and psycho-social criteria which shall permit the broadest eligibility based on criteria for the early intervention program and federal standards for participation in a waiver program. The waiver application shall be submitted pursuant to section 1915c of the social security act no later than January first, two thousand four.

5. Notwithstanding any law to the contrary, there is hereby established an early intervention demonstration project to be conducted in Albany, Montgomery, Rensselaer, Saratoga and Schenectady Counties. Such project shall be for the purposes of facilitating coverage eligibility determinations and claims submissions for early intervention services. The commissioner is hereby authorized and directed to facilitate and, within the amounts appropriated, shall award grant funds for the implementation and operation of such demonstration project which shall be conducted by an association representative of health maintenance organizations licensed under article forty-four of this chapter and article forty-three of the insurance law in conjunction with the commissioner and the counties specified in this subdivision.

Such demonstration shall include the development of an integrated web portal enabling access to health plan data bases to facilitate coverage eligibility, benefit determinations and claims submission and processing. Such access shall be subject to all federal and state laws for the confidentiality of personal and medical record information. The demonstration will develop technology solutions to facilitate coverage determinations and streamline and monitor claims processes and payment.

The association conducting the demonstration, the commissioner and participating counties shall submit a report to the temporary president of the senate and the speaker of the assembly, not later than one year following the commencement of the program's operation, describing the experiences, feasibility and advisability of replication, and any additional recommendations for continuation, modification or cessation of the program.

§ 2559-a. Transportation. The municipality in which an eligible child resides shall, beginning with the first day of service, provide either directly, by contract, or through reimbursement at a mileage rate authorized by the municipality for the use of a private vehicle or for other reasonable transportation costs, for suitable transportation pursuant to section twenty-five hundred forty-five of this title. All

contracts for transportation of such children shall be provided pursuant to the procedures set forth in section two hundred thirty-six of the family court act, using the date on which the child's IFSP is implemented, in lieu of the date the court order was issued; provided, however, that the city of New York shall provide such transportation in accordance with the provisions of chapter one hundred thirty of the laws of nineteen hundred ninety-two, if applicable.

§ 2559-b. Regulations. The commissioner may adopt regulations necessary to carry out the provisions of this title. In promulgating such regulations, the commissioner shall incorporate coordinated standards and procedures, where applicable, and shall consider the regulations, guidelines and operating procedures of other state agencies that administer or supervise the administration of services to infants, toddlers and preschool children to ensure that families, service providers and municipalities are not unnecessarily required to meet differing eligibility, reporting or procedural requirements.

TITLE III CONTROL OF MIDWIFERY

TITLE IV INSTITUTIONS FOR CHILDREN

Section 2570. Children's institutions; regular physician required.

2571. Children's institutions; examination of children on admission.

2573. Children's institutions; inspections; reports.

2574. Children's institutions; environmental sanitation.

2575. Children's institutions; duty of local health officer.

§ 2570. Children's institutions; regular physician required. 1. Every institution in this state, operated for the express purpose of receiving or caring for dependent, neglected or destitute children or juvenile

delinquents, except hospitals, shall have attached thereto a regular physician of its selection duly licensed under the laws of the state and in good professional standing, whose name and address shall be kept posted conspicuously within such institution.

2. The words "juvenile delinquents" used in this article shall include all children whose commitment to an institution is authorized by law.

§ 2571. Children's institutions; examination of children on admission.

1. The administrative officer or person in charge of every institution in this state operated for the express purpose of receiving or caring for dependent, neglected or destitute children or juvenile delinquents, except hospitals, upon receiving a child therein, by commitment or otherwise, shall, before permitting such child to contact with other children, cause inquiry to be made concerning the presence or recent exposure of such child to a communicable disease.

2. If, on the basis of such inquiry, there is reason to suspect that such child may be ill or recently exposed to a communicable disease, such child shall not be permitted to contact other children until so authorized by the regular physician of the institution. A record of the results of all such inquiries and examinations shall be kept on file in the institution.

3. A thorough medical examination shall be performed on all children either immediately prior to admission to the institution or shortly thereafter.

§ 2573. Children's institutions; inspections; reports. 1. The administrative officer or person in charge and the regular physician of every institution caring for children referred to in this article shall make such reports concerning the physical condition and health of the children and the environmental sanitation of the institution as may be required by the state health commissioner, local health officer or health commissioner having jurisdiction.

2. In conjunction with the state department having general supervision, the commissioner may make inspection of such institutions from time to time with respect to the physical health and condition of the children and the environmental sanitation of the institution or he may direct that such inspections be made by the health officer having jurisdiction.

§ 2574. Children's institutions; environmental sanitation. Every institution caring for children referred to in this article shall comply with such orders, rules and regulations respecting water supply, milk supply, sewerage disposal, food handling, and other sanitary matters as are established by the state or local sanitary codes, rules or regulations or, in the case of milk supply, rules and regulations of the commissioner of agriculture and markets.

§ 2575. Children's institutions; duty of local health officer. 1. The county, part-county, city (over fifty thousand population) health commissioner or district state health officer within whose jurisdiction any institution for the care of children, referred to in this article, is situated, shall immediately investigate any complaint against the management of the institution as to the existence of any condition therein dangerous or detrimental to life or health.

2. If after such investigation, such health commissioner or health officer is satisfied that a condition exists therein which is dangerous or detrimental to life or health, he shall cause the said condition to be remedied without delay.

TITLE V

CHILDREN WITH PHYSICAL DISABILITIES

Section 2580. Children with physical disabilities; policy.

2581. Children with physical disabilities; definitions.

2582. Children with physical disabilities; duty of the

department.

2583. Children with physical disabilities; rules and regulations; limitations.

2584. Children with physical disabilities; transportation.

§ 2580. Children with physical disabilities; policy. It is the policy of the state of New York to provide medical service for the treatment and rehabilitation of children with physical disabilities.

§ 2581. Children with physical disabilities; definitions. As used in this article: 1. "Children with physical disabilities" means any persons under twenty-one years of age who are disabled by reason of a defect or disability, whether congenital or acquired by accident, injury, or disease, or who are suffering from long-term disease, including, but without limiting the generality of the foregoing, chronic granulomatous, cystic fibrosis, epidermolysis bullosa, muscular dystrophy, nephrosis, rheumatic fever and rheumatic heart disease, blood dyscrasies, cancer, lymphatic diseases, including, but not limited to: insufficiency of lymphatic circulatory function (to include all forms of lymphedema, both primary and secondary); lipedema; complex vascular diseases of the lymphatic vasculature, including lymphangiomatosis, lymphangioma-myomatosis, lymphangiectasias, lymphangiomas, cystic hygromas, Gorham's disease, lymphangiosarcoma, and complex vascular/lymphatic malformations and syndromes, brain injured, and chronic asthma, or from any disease or condition likely to result in a disability in the absence of treatment, provided, however, no child shall be deprived of a service under the provisions of this chapter solely because of the degree of developmental disability.

2. "Medical service" means such diagnostic, therapeutic, and rehabilitative care by medical and paramedical personnel, including hospital and related care, and drugs, prostheses, appliances, equipment and devices as necessary.

§ 2582. Children with physical disabilities; duty of the department.

1. The department shall on its own initiative provide, within the limits of the appropriations made therefor, such medical service for children with physical disabilities as in the judgment of the commissioner is needed.

2. The commissioner of health of any county or part-county health district or, in a county lacking a county or part-county health district, the medical director of the program for children with physical disabilities, or the department of health of the city of New York, may issue authorizations for medical service for children with physical disabilities, and the expenses thereof, when approved by such health commissioner, department of health or medical director and duly audited, shall be a charge upon the county, or upon the city of New York if such be the case, wherein the children are domiciled at the time application is made for such medical service.

3. Such health commissioner, department of health or county medical director may determine and order that the person or persons charged with the liability under the laws to support such child shall pay a part or all of such expenses. A parent or other person who is ordered to contribute to the cost of medical service authorized by this section may petition the family court , pursuant to section two hundred thirty-two of the family court act, for review of the order. Whenever a parent or other person who is ordered to contribute to the cost of medical service authorized by this section fails to make such contribution, the health commissioner, department of health or medical director may apply to the family court, pursuant to section two hundred thirty-two of the family court act, for an order compelling such contribution. The amount authorized to be paid for medical service shall be in full payment thereof and shall be accepted by the person or corporation furnishing such service in full payment thereof when any payment is made under such authorization by the county or by the city of New York, and no such person or corporation shall ask or receive directly or indirectly any other or additional compensation.

4. When the commissioner of health of any county or part-county health

district, or, in a county lacking a county or part-county health district, the medical director of the program for children with physical disabilities, or the department of health of the city of New York, shall issue authorizations for medical service for children with physical disabilities, the commissioner, if he approves such authorizations, shall certify to such effect, copies of which certification shall be filed with the clerk of the board of supervisors or other governing elective body of the county or chief fiscal officer of the city of New York and with the commissioner.

5. The medical service provided for in any authorization issued pursuant to subdivision two may be furnished and completed even though the person for whom such service is to be provided under such authorization shall have thereafter attained the age of twenty-one years; provided, however, that no such authorization shall provide for treatment beyond eighteen months from the date thereof.

6. The circumstance that a child is not eligible for medical assistance pursuant to the provisions of title eleven of article five of the social services law shall not be a bar to the furnishing and completion of the medical assistance for children with physical disabilities authorized by this title.

§ 2583. Children with physical disabilities; rules and regulations; limitations. 1. Such service shall be provided in accordance with rules and regulations established by the commissioner. The commissioner's rules and regulations may relate to:

(a) the defects, disabilities, diseases and conditions eligible under the program and the type and extent of care that may be offered.

(b) qualifications of professional personnel, both medical and paramedical.

(c) standards of institutional care, whether in general hospitals, special hospitals, long-term care facilities, or such other special facilities, whether inpatient or outpatient, as may be needed to obtain the services required.

(d) limitations on the amount of professional fees, and on rates in

general hospitals, special hospitals, long-term care facilities and special facilities for which reimbursement may be made under this article.

(e) standards and procedures for administration of programs for children with physical disabilities.

2. Sections two thousand five hundred eighty to two thousand five hundred eighty-three, inclusive, and section six hundred sixty, of this chapter, shall not apply to:

(a) children requiring permanent custodial care.

(b) children institutionalized in mental, correctional or penal institutions of the state of New York.

(c) children who, in the judgment of the commissioner, may not be expected to benefit from medical service.

(d) children whose parents or guardians object to medical services because of exclusive dependence for healing on the practice of religious tenets of any church.

§ 2584. Children with physical disabilities; transportation. 1. The department shall on its own initiative provide, within the limits of the appropriations made therefor, such transportation for such children with physical disabilities as in the judgment of the commissioner is needed to such places wherein the medical services outlined in section two thousand five hundred eighty-one of this chapter are administered or provided to such children.

2. When the commissioner of health of any county or part-county health district or the medical director of the program for children with physical disabilities, or the department of health of the city of New York, in pursuance of section two thousand five hundred eighty-two of this chapter, shall issue an authorization for medical service for any child with physical disabilities, including among the expenses thereof transportation necessary to obtain such services, the commissioner, if he approves such order, shall issue a certificate to such effect, copies of which shall be filed with the clerk of the board of supervisors or other governing elective body of the county or chief fiscal officer of

the city of New York and one in the office of the commissioner.

* TITLE VI

FEDERAL CHILD CARE AND ADULT FOOD PROGRAM

Section 2585. Federal child care and adult food program; establishment.

2586. Definitions.

2587. Program approval.

2588. Reimbursement.

2589. Rules and regulations.

* NB There are 2 Article VI's

§ 2585. Federal child care and adult food program; establishment.

There is hereby established within the department the federal child care and adult food program for the purpose of providing nutritious meals to children and adults in or under the auspices of institutions providing day care. The commissioner is authorized to develop and submit the plan required for participation in the federal child care and adult food program (42 USCS § 1766). The commissioner is authorized to take any action necessary or consistent with federal law, rule and regulation, to implement the provisions of this title.

§ 2586. Definitions. As used in this title, the following terms shall have the following meanings, unless the context clearly requires otherwise:

1. "Eligible institution" means any child or adult day care institution defined in federal law, rule or regulations eligible to receive cash assistance under the federal child care and adult food program. A child day care program shall be licensed by the department of social services or licensed or otherwise approved by a state or local government agency or shall operate under the auspices of a sponsoring organization licensed by the department of social services. An adult day care program shall be licensed and approved by the department or other state agency or shall operate under the auspices of a sponsoring

organization licensed or approved by the department or other state agency.

2. "Program" means the federal child care and adult food program. (42 USCS § 1766).

§ 2587. Program approval. 1. Eligible institutions seeking cash assistance under the program shall submit an application to the commissioner. Such application shall be in a format and quantity determined by the commissioner, and shall include:

- (a) a general description of the proposed program;
- (b) a copy of a valid license or other approval issued by the department, the department of social services or other state agency to provide or sponsor child or adult day care programs; and
- (c) such other information as required by the commissioner.

2. The commissioner shall not approve an eligible institution for receipt of cash assistance under this title unless the applicant:

- (a) accepts final administrative and financial responsibility for management of an effective food service;
- (b) possesses a valid license or other approval issued by the department, the department of social services or other state agency to operate or sponsor child or adult day care programs;
- (c) has not been seriously deficient in its operation of the program or any other program specified in federal law, rule or regulation;
- (d) demonstrates that it will provide adequate supervisory and operational personnel for overall monitoring and management of the program; and
- (e) meets standards prescribed in federal law, rule or regulation.

3. The commissioner shall provide written notice of approval or disapproval of the proposed application to the applicant.

§ 2588. Reimbursement. 1. The total amount of cash assistance provided pursuant to this title shall be limited to the amount of

federal funds appropriated for the program.

2. Eligible institutions approved by the commissioner pursuant to section two thousand five hundred eighty-seven of this title shall be reimbursed for meals, preparation of meals and administrative expenses when provided to children and adults in amounts specified under federal law, rule or regulation and consistent with the application as approved by the commissioner. In the event that eligible institutions request advance payment for meals, preparation of meals or administrative expenses in accordance with federal law, rule or regulation, such advance shall be paid if it is consistent with state and federal law, rule or regulation and the application as approved by the commissioner.

§ 2589. Rules and regulations. The commissioner may adopt and amend rules and regulations to effectuate the purposes and provisions of this title.

* TITLE VI

EMERGENCY NUTRITION AID PROGRAM FOR PREGNANT WOMEN AND ADOLESCENTS

Section 2590. Emergency nutrition aid program for pregnant women and adolescents; establishment.

2591. Eligibility.

2592. Rules and regulations.

* NB Expired March 31, 1986

* NB There are 2 Article VI's

*** § 2590. Emergency nutrition aid program for pregnant women and adolescents; establishment.** The emergency nutrition aid program for pregnant women and adolescents is established within the department of health.

* NB Expired March 31, 1986

*** § 2591. Eligibility.** Eligibility for the program shall be limited

to pregnant women and adolescents who, because of low income and dietary deficiencies, are at high risk endangering the nutritional well-being of their fetuses and risking the delivery of low birth weight infants.

* NB Expired March 31, 1986

* **§ 2592. Rules and regulations.** The commissioner of health may adopt rules and regulations to implement the emergency nutrition aid program.

* NB Expired March 31, 1986

TITLE VII YOUTH SPORTS

Section 2595. Football programs; information on concussions.

§ 2595. Football programs; information on concussions. 1. All tackle football programs in the state shall provide an informational packet about concussions and sub-concussive blows, and the injuries that might occur as a result of receiving such blows, to the parents or guardians of all children participating in such tackle football program. The informational packet shall be provided by the department and shall be available to be downloaded free of charge from the department's website.

2. For the purposes of this section, "tackle football program" shall include any practice, game or other activity which involves engaging in tackle football and which is organized by a school, adult, or public or private league or other entity whose purpose is to allow children to participate in contact football.

TITLE VIII CHILDHOOD OBESITY PREVENTION PROGRAM

Section 2599-a. Childhood obesity prevention program; establishment.

2599-b. Program development.

2599-c. School-based childhood obesity prevention and physical activity programs.

§ 2599-a. Childhood obesity prevention program; establishment. The childhood obesity prevention program is established within the department.

§ 2599-b. Program development. 1. The program shall be designed to prevent and reduce the incidence and prevalence of obesity in children and adolescents, especially among populations with high rates of obesity and obesity-related health complications including, but not limited to, diabetes, heart disease, cancer, osteoarthritis, asthma, emphysema, chronic bronchitis, other chronic respiratory diseases and other conditions. The program shall use recommendations and goals of the United States departments of agriculture and health and human services, the surgeon general and centers for disease control and prevention in developing and implementing guidelines for nutrition education and physical activity projects as part of obesity prevention efforts. The content and implementation of the program shall stress the benefits of choosing a balanced, healthful diet from the many options available to consumers, without specifically targeting the elimination of any particular food group, food product or food-related industry.

2. The childhood obesity prevention program shall include, but not be limited to:

(a) developing media health promotion campaigns targeted to children and adolescents and their parents and caregivers that emphasize increasing consumption of low-calorie, high-nutrient foods, decreasing consumption of high-calorie, low-nutrient foods and increasing physical activity designed to prevent or reduce obesity;

(b) establishing school-based childhood obesity prevention nutrition education and physical activity programs including programs described in section twenty-five hundred ninety-nine-c of this article, as well as other programs with linkages to physical and health education courses, and which utilize the school health index of the National Center for Chronic Disease Prevention and Health Promotion or other recognized

school health assessments pursuant, but not limited, to article nineteen of the education law;

(c) establishing community-based childhood obesity prevention nutrition education and physical activity programs including programs which involve parents and caregivers, and which encourage communities, families, child care and other settings to provide safe and adequate space and time for physical activity and encourage a healthy diet, and can be in coordination with county cooperative extension programs established pursuant to section two hundred twenty-four-b of the county law;

(d) coordinating with the state education department, department of agriculture and markets, office of parks, recreation and historic preservation, office of temporary and disability assistance, office of children and family services and other federal, state and local agencies to incorporate strategies to prevent and reduce childhood obesity into government food assistance, health, education and recreation programs;

(e) sponsoring periodic conferences or meetings to bring together experts in nutrition, exercise, public health, mental health, education, parenting, media, food marketing, food security, agriculture, community planning and other disciplines to examine societal-based solutions to the problem of childhood obesity and issue guidelines and recommendations for New York state policy and programs;

(f) developing training programs for medical and other health professionals to teach practical skills in nutrition and exercise education to children and their parents and caregivers;

(g) developing screening programs in coordination with health care providers and institutions including but not limited to day care centers and schools for overweight and obesity for children aged two through eighteen years, using body mass index (BMI) appropriate for age and gender, and notification, in a manner protecting the confidentiality of such children and their families, of parents of BMI status, and explanation of the consequences of such status, including recommended actions parents may need to take and information about resources and referrals available to families to enhance nutrition and physical activity to reduce and prevent obesity; and

(h) coordinating with the education department, office of temporary and disability assistance, office of children and family services and

other federal, state and local agencies to incorporate strategies to curtail the incidence of asthma, chronic bronchitis and other chronic respiratory diseases to enable adults and children to safely increase physical activity.

3. The department, in cooperation with the education department, shall periodically collect and analyze information from schools, health and nutrition programs and other sources to determine the prevalence of childhood obesity in New York state, and to evaluate, to the extent possible, the effectiveness of the childhood obesity prevention program.

§ 2599-c. School-based childhood obesity prevention and physical activity programs. The commissioner, in cooperation with the commissioners of education and agriculture and markets, and county boards of cooperative extension, shall encourage the establishment of school-based childhood obesity prevention and physical activity programs that promote:

1. A healthy school environment, including physical and aesthetic surroundings and culture designed to prevent and reduce the incidence and prevalence of obesity; and

2. Parent/community involvement, including an integrated school, parent, and community approach for enhancing the health and well-being of students.

§ 2599-d. Powers of commissioner. The commissioner may administer directly or through contract, within the amount of funds allocated and within amounts appropriated pursuant to paragraph (k) of subdivision one of section twenty-eight hundred seven-v of this chapter, the childhood obesity prevention program. The commissioner shall also make grants, within the amount of funds available therefor, for community-based and school-based projects targeted to high-risk populations and communities to implement the provisions of this title.

ARTICLE 25-A
REPRODUCTIVE HEALTH ACT

Section 2599-aa. Policy and purpose.
2599-bb. Abortion.
2599-bb-1. Reproductive freedom and equity grant program.

§ 2599-aa. Policy and purpose. The legislature finds that comprehensive reproductive health care is a fundamental component of every individual's health, privacy and equality. Therefore, it is the policy of the state that:

1. Every individual has the fundamental right to choose or refuse contraception or sterilization.
2. Every individual who becomes pregnant has the fundamental right to choose to carry the pregnancy to term, to give birth to a child, or to have an abortion, pursuant to this article.
3. The state shall not discriminate against, deny, or interfere with the exercise of the rights set forth in this section in the regulation or provision of benefits, facilities, services or information.

§ 2599-bb. Abortion. 1. A health care practitioner licensed, certified, or authorized under title eight of the education law, acting within his or her lawful scope of practice, may perform an abortion when, according to the practitioner's reasonable and good faith professional judgment based on the facts of the patient's case: the patient is within twenty-four weeks from the commencement of pregnancy, or there is an absence of fetal viability, or the abortion is necessary to protect the patient's life or health.

2. This article shall be construed and applied consistent with and subject to applicable laws and applicable and authorized regulations governing health care procedures.

§ 2599-bb-1. Reproductive freedom and equity grant program. 1. As used in this section, the following terms shall have the following meanings:

(a) "Abortion" shall mean the termination of pregnancy pursuant to section twenty-five hundred ninety-nine-bb of this article.

(b) "Health care services" shall mean the range of care related to the provision of abortion.

(c) "Program" shall mean the reproductive freedom and equity grant program established pursuant to subdivision two of this section.

2. There is hereby established in the department a reproductive freedom and equity grant program to ensure access to abortion care in the state. The program shall provide funding to abortion providers and non-profit organizations that provide or facilitate access to abortion care. The program shall be designed to provide support to abortion providers and non-profit organizations to increase access to care, fund uncompensated care, and to address the support needs of individuals accessing abortion care. Funding used to support the program shall be subject to appropriation.

3. The commissioner shall distribute funds made available for expenditure under this section. In determining funding for applicants under the grant program, the commissioner shall consider the following criteria and goals:

(a) Increase access to care by growing the capacity of abortion providers to meet present and future care needs. Funds may be awarded to support the recruitment, hiring, and retention of clinical and medical staff, costs of increasing the number of hours, days, and/or alternate times for currently employed clinical staff to provide increased access, care management and navigation, staff training, outreach and marketing costs, and other operational needs that increase access to abortion care.

(b) Fund uncompensated health care services associated with abortion care, to ensure the affordability of and access to care for individuals who lack ability to pay for care, for individuals who lack insurance coverage, are underinsured, or whose insurance is deemed unusable by the

rendering provider.

4. In establishing and operating the program, the commissioner may consult a range of experts including but not limited to individuals and entities providing abortion care, abortion funds and other organizations whose mission is to expand access to abortion care, to ensure the program structure and expenditures reflect the needs of abortion providers, abortion funds and consumers. The commissioner may make regulations necessary for implementing the program.

5. The department and any non-profit organization or abortion provider receiving funds from the program shall take all necessary steps to ensure the confidentiality of the individuals receiving services pursuant to state and federal laws. The commissioner may request aggregate, de-identified information about how funding allocated pursuant to the program is spent, provided that no information which, alone or in combination, would permit a patient, provider, or an individual who sought, received, provided, or supported health care services under the program to be identified may be requested or shared.

ARTICLE 25-B

GESTATIONAL SURROGACY

Section 2599-cc. Gestational surrogacy.

§ 2599-cc. Gestational surrogacy. 1. The commissioner shall promulgate regulations on the practice of gestational surrogacy. Such regulations shall include, but not be limited to:

(a) guidelines and procedures for obtaining fully informed consent from potential persons acting as surrogates, including but not limited to a full disclosure of any known or potential health risks and mental health impacts associated with acting as a surrogate;

(b) the development and distribution, in printed form and on the department's website, of informational material relating to gestational surrogacy;

(c) the establishment of a voluntary central tracking registry of

persons acting as surrogates, as reported by surrogacy programs licensed by the department pursuant to article forty-four of the general business law upon the affirmative consent of a person acting as surrogate. Such registry shall provide a means for gathering and maintaining accurate information on the:

- (i) number of times a person has acted as a surrogate;
- (ii) health information of the person acting as surrogate; and
- (iii) other information deemed appropriate by the commissioner;
- (d) the development of guidelines, procedures or protocols, in consultation with the American college of obstetricians and gynecologists and the American society for reproductive medicine, to assist physicians in screening potential surrogates for their ability to serve as a surrogate as required under subdivision four of section 581-402 of the family court act including taking into consideration the potential surrogates family medical history and complications from prior pregnancies and known health conditions that may pose a risk to the potential surrogate during pregnancy; and
- (e) the development of guidance to reduce conflicts of interest among physicians providing health care services to the surrogate.

2. All such regulations shall maintain the anonymity of the person acting as surrogate and any resulting offspring and govern access to information maintained by the registry. Such registry shall comply with all state and federal laws and regulations related to maintaining the privacy and confidentiality of records contained with the registry.

ARTICLE 26

HELEN HAYES HOSPITAL

Section 2600. Helen Hayes Hospital; hospital care and treatment.

2601. Helen Hayes Hospital; functions; powers and duties.

2602. Helen Hayes Hospital; charges for service and reimbursement.

§ 2600. Helen Hayes Hospital; hospital care and treatment. 1. The Helen Hayes Hospital is continued for the care and treatment of persons

who are physically disabled, deformed or are suffering from disease from which they are likely to become physically disabled or deformed.

2. The patients in such hospital shall be permitted to exercise and enjoy religious profession and worship freely and without discrimination or preference.

§ 2601. Helen Hayes Hospital; functions; powers and duties. 1. The Helen Hayes Hospital may receive persons who are physically disabled, deformed or suffering from disease from which they are likely to become physically disabled or deformed, for care, study and experimental or other treatment, under regulations established by the commissioner.

2. No person provided for by this article, however, shall be admitted to the hospital unless at the time of his admission he is capable of benefiting from care in terms of improved capacity for remunerative occupation or self-sufficiency.

3. The hospital shall, in conjunction with its provision of care and treatment, conduct investigations of the cause, mortality, treatment, prevention and cure of physically disabling or deforming diseases and conditions.

§ 2602. Helen Hayes Hospital; charges for service and reimbursement. 1. The commissioner shall establish the rates to be paid for the maintenance, care and treatment of all patients admitted to the Helen Hayes Hospital.

2. The commissioner shall require that the director of the hospital shall render bills at suitable intervals and a final bill as soon as practicable on discharge of a patient, to the person or agency in each instance who guarantees payment or, if payment is to be made from public funds, to the proper fiscal officer of the agency or county or municipality indicated.

3. The commissioner may in his discretion, in proper cases, where substantial justice will best be served thereby, waive such bills or compromise any portion of such bills for the maintenance, care and treatment received or furnished to patients in the hospital. Such waiver or compromise shall be made only upon prior approval of the comptroller and the attorney general when they deem it to be for the best interest of the state.

ARTICLE 26-A

NEW YORK STATE VETERANS' HOME

Section 2630. Purpose.

2631. Board of visitors; special provision.

2632. Admission to home.

2633. Acquisition and application of property.

2634. Designation of the "New York State Women Veterans Memorial Community Room".

2635. Designation of the "Arnold Swanson Community Room".

§ 2630. Purpose. The New York state home for veterans and their dependents at Oxford, the New York state home for veterans in the city of New York, the New York state home for veterans in western New York and the New York home for veterans in the lower-Hudson Valley shall be for the care of aged dependent veterans and their spouses, veterans' mothers and fathers, unremarried surviving spouses, and army nurses.

§ 2631. Board of visitors; special provision. The board of visitors of each such home shall consist of nine members appointed from the members of the New York departments of the major organizations of war veterans to which charters have been issued by Acts of Congress or of their women's auxiliaries. The terms of office of such visitors hereafter appointed shall be five years, and they shall be so appointed that the terms of two of the members shall expire on the first day of February of each year, except that the term of but one member shall so expire every fifth year. Appointments shall be so made that there will

be at all times four women and five men members of such board.

§ 2632. Admission to home. 1. Every veteran of the armed forces of the United States, who (i) (A) was separated or discharged under honorable conditions after serving on active duty therein for a period of not less than thirty days, or (B) has a qualifying condition, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable after serving on active duty therein for a period of not less than thirty days, or (C) is a discharged LGBT veteran, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable after serving on active duty therein for a period of not less than thirty days, or (ii) (A) was separated or discharged under honorable conditions after serving on active duty therein for a period of not less than thirty days or (B) has a qualifying condition, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable after serving on active duty therein for a period of not less than thirty days, and who was a recipient of the armed forces expeditionary medal, navy expeditionary medal or marine corps expeditionary medal for participation in operations in Lebanon from June first, nineteen hundred eighty-three to December first, nineteen hundred eighty-seven, in Grenada from October twenty-third, nineteen hundred eighty-three to November twenty-first, nineteen hundred eighty-three, or in Panama from December twentieth, nineteen hundred eighty-nine to January thirty-first, nineteen hundred ninety, or in Bosnia and Herzegovina from November twenty-first, nineteen hundred ninety-five to November first, two thousand seven, or was a recipient of the Kosovo campaign medal or (iii) (A) was separated or discharged under honorable conditions after serving on active duty therein for a period of not less than thirty days or (B) has a qualifying condition, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable after serving on active duty

therein for a period of not less than thirty days, or (C) is a discharged LGBT veteran, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable after serving on active duty therein for a period of not less than thirty days, and who served during the period of actual hostilities of either

(a) the Spanish-American war; or

(b) the incidental insurrection in the Philippines prior to July fourth, nineteen hundred two; or

(c) world war I between April sixth, nineteen hundred seventeen and November eleventh, nineteen hundred eighteen, both inclusive; or

(d) world war II between December seventh, nineteen hundred forty-one and December thirty-first, nineteen hundred forty-six, both inclusive, or who was employed by the War Shipping Administration or Office of Defense Transportation or their agents as a merchant seaman documented by the United States Coast Guard or Department of Commerce, or as a civil servant employed by the United States Army Transport Service (later redesignated as the United States Army Transportation Corps, Water Division) or the Naval Transportation Service; and who served satisfactorily as a crew member during the period of armed conflict, December seventh, nineteen hundred forty-one, to August fifteenth, nineteen hundred forty-five, aboard merchant vessels in oceangoing, i.e., foreign, intercoastal, or coastwise service as such terms are defined under federal law (46 USCA 10301 & 10501) and further to include "near foreign" voyages between the United States and Canada, Mexico, or the West Indies via ocean routes, or public vessels in oceangoing service or foreign waters and who has received a Certificate of Release or Discharge from Active Duty and a discharge certificate, or an Honorable Service Certificate/Report of Casualty, from the Department of Defense, or who served as a United States civilian employed by the American Field Service and served overseas under United States Armies and United States Army Groups in world war II during the period of armed conflict, December seventh, nineteen hundred forty-one through May eighth, nineteen hundred forty-five, and who (i) was discharged or released therefrom under honorable conditions, or (ii) has a qualifying condition, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable from

such service, or (iii) is a discharged LGBT veteran, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable from such service, or who served as a United States civilian Flight Crew and Aviation Ground Support Employee of Pan American World Airways or one of its subsidiaries or its affiliates and served overseas as a result of Pan American's contract with Air Transport Command or Naval Air Transport Service during the period of armed conflict, December fourteenth, nineteen hundred forty-one through August fourteenth, nineteen hundred forty-five, and who (iv) was discharged or released therefrom under honorable conditions, or (v) has a qualifying condition, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable from such service, or (vi) is a discharged LGBT veteran, as defined in section one of the veterans' services law, and has received a discharge other than bad conduct or dishonorable from such service; or

(e) Korean conflict between June twenty-seventh, nineteen hundred fifty and January thirty-first, nineteen hundred fifty-five, both inclusive; or

(f) Viet Nam conflict between November first, nineteen hundred fifty-five and May seventh, nineteen hundred seventy-five, both inclusive; or

(g) veterans who served in the United States military and were exposed to radiation during military service in a "radiation-risk activity" defined as participation in the occupation of Hiroshima or Nagasaki, Japan between August sixth, nineteen hundred forty-five through July first, nineteen hundred forty-six; were prisoners of war in Japan during World War II; onsite participation in a test involving the atmospheric detonation of a nuclear device, whether or not the testing nation was the United States; or

(h) in the Persian Gulf conflict from the second day of August, nineteen hundred ninety to the end of such conflict including military service in Operation Enduring Freedom, Operation Iraqi Freedom, Operation New Dawn or Operation Inherent Resolve and was the recipient of the global war on terrorism expeditionary medal or the Iraq campaign medal or the Afghanistan campaign medal; and who was a resident of the state of New York at the time of entry upon such active duty or who

shall have been a resident of this state for six months next preceding the application for admission shall be entitled to admission to said home after the approval of the application by the board of visitors, subject to the provisions of this article and to the conditions, limitations and penalties prescribed by the regulations of the department. Any such veteran or dependent, who otherwise fulfills the requirements set forth in this section, may be admitted directly to the skilled nursing facility or the health related facility provided such veteran or dependent is certified by a physician designated or approved by the department to require the type of care provided by such facilities.

2. The unremarried surviving spouse as such term is defined under section 101 of title thirty-eight of the United States Code of any such veteran, or the unremarried surviving spouse, mother or father of any such member of the armed forces of the United States who died while on active duty, notwithstanding the length of such service, shall be entitled to admission to said home after the approval of the application by the board of visitors, subject to the provisions of this article and to the conditions, limitations and penalties prescribed by the regulations of the department and by the secretary of the United States department of veterans affairs.

3. The spouse, as such term is defined under section 101 of title thirty-eight of the United States Code, of any such veteran, unless such veteran and his or her spouse have been legally separated, shall be entitled to admission to said home after the approval of the application by the board of visitors, subject to the provisions of this article and to the conditions, limitations and penalties prescribed by the regulations of the department and by the secretary of the United States department of veterans affairs.

4. No spouse or unremarried surviving spouse of such a veteran shall be admitted as a resident of said home unless married to such veteran at least one year prior to the date of application.

5. Preference in admission shall be given as follows: first, to

veterans accompanied by their spouses based upon severity of illness or disability and need for care; second, to other eligible veterans pursuant to clause (ii) or (iii) of subdivision one of this section based upon severity of illness or disability and need for care and the order of the date of the conflict or operation listed in such clauses; third, to other eligible veterans pursuant to clause (i) of subdivision one of this section based upon severity of illness or disability and need for care; fourth, to spouses and unremarried surviving spouses based upon severity of illness or disability and need for care; fifth, to mothers and fathers based upon severity of illness or disability and need for care.

6. The board of visitors shall require an applicant for admission to such home to file an affidavit of New York state residence and the affidavits of at least two householders in and residents of the county in New York state of which the applicant claims at the time of such application to be a resident; and such affidavits shall, on presentation, be accepted and received as sufficient proof, unless contradicted, of the residence of such applicant in any actions or proceedings against such county in which such residence of such applicant is material.

7. The regulations of the department shall require that each applicant for admission shall furnish a certification of all property of which he or she is possessed and of all sources of income and that, following admission, each resident shall be required to furnish further certifications as to such facts from time to time, but not oftener than at intervals of twelve months, and shall also require the payments by residents of the home from such resources or income, or both, such amounts in payment on account of the care and maintenance provided by the home as the department shall find to be reasonable.

§ 2633. Acquisition and application of property. Subject to the regulations of the department, the board of visitors or the duly appointed treasurer of the homes, as agent of the department, may receive, retain and expend receipts other than state appropriations, any

money or other personal property given, bequeathed or entrusted to the board of visitors or duly appointed treasurer, for the purposes for which it is given or bequeathed to the homes or entrusted for safekeeping or, if unaccompanied by conditions or limitations, for any of the purposes of the homes or for the convenience of the residents thereof.

§ 2634. Designation of the "New York State Women Veterans Memorial Community Room". The communal area multi-purpose room of the New York state home for veterans in the city of New York, such room as referred to as area one hundred ninety-four in the architectural plans and drawings of such home for veterans, shall be designated and known as the "New York State Women Veterans Memorial Community Room" in honor of all women veterans of this state.

§ 2635. Designation of the "Arnold Swanson Community Room". The communal area multi-purpose room of the New York state home for veterans in the city of Batavia shall be designated and known as the "Arnold Swanson Community Room" in honor of Arnold Swanson.

ARTICLE 27

BUREAU OF CHRONIC DISEASE AND GERIATRICS

Section 2700. Bureau of chronic disease and geriatrics established.

2701. Purpose and functions.

2702. Powers and duties.

§ 2700. Bureau of chronic disease and geriatrics established. The state department of health shall establish a bureau of chronic disease and geriatrics, which shall develop a program designed to improve and protect the health and vitality of middle-aged and elderly citizens of the state.

§ 2701. Purpose and functions. The department, at the discretion of the commissioner, shall:

1. Plan public health programs to aid in the prevention, rehabilitation and control of degenerative diseases and chronic illnesses.

2. Develop a program for integrating community and institutional agencies and facilities and for utilization of geriatric techniques to provide a comprehensive program of prevention, rehabilitation and control of degenerative diseases and chronic illnesses.

3. Develop a plan for periodic health inventories for the middle-aged and elderly.

4. Explore possibilities of reducing cost and improving care of the chronically ill through use of non-institutional as well as institutional facilities.

5. Develop laboratory, clinical and statistical research on chronic disease and health problems of older people in consultation with the state medical society and other agencies, including the state department of mental hygiene and the state university of New York.

6. (a) Carry on programs of professional education and training of medical students, physicians and nurses in the prevention, rehabilitation, medical and nursing care of diseases of older people.

(b) Plan and carry out the Alzheimer's disease assistance program to enhance support services for people with Alzheimer's disease and their caregivers. Services to be provided by the program may include:

(i) education and training for health care practitioners, caregivers, volunteers and informal caregivers regarding services for or the treatment of persons with Alzheimer's disease;

(ii) counseling for families of persons with Alzheimer's disease;

(iii) respite services for informal caregivers of persons with Alzheimer's disease; and

(iv) technological assistance for persons with Alzheimer's disease.

The commissioner shall make grants under this paragraph within amounts appropriated therefore to public and not-for-profit entities including local health agencies, health care providers, higher educational institutions affiliated with medical facilities, community-based organizations and other organizations with demonstrated expertise in serving persons with Alzheimer's disease. The commissioner may coordinate grants under this paragraph with the availability of grants from other sources. The commissioner may also accept or seek grants from other sources to enhance amounts appropriated to this program.

7. Plan and carry out programs to stimulate the prevention, rehabilitation and control of chronic illnesses and the promotion of the health of adult, middle-aged and older persons, through "day hospital" and a "meals on wheels" demonstration projects.

§ 2702. Powers and duties. The commissioner shall have the power and it shall be his duty to employ such assistants and personnel, within the amount of the appropriation, as is necessary to carry out the provisions of this article.

ARTICLE 27-A

OSTEOPOROSIS PREVENTION AND EDUCATION

Section 2705. Legislative findings and declarations.

2706. Osteoporosis prevention and education program established.

§ 2705. Legislative findings and declarations. The legislature hereby finds and declares that osteoporosis is a public health problem that poses a threat to the health and quality of life to as many as twenty-four million Americans; and that it may ultimately affect as many as half of all women in the United States over the age of forty-five and an increasing number of men; and costs the nation ten billion dollars a year in hospitalization and treatment for resulting injuries, including chronic disability, pain, and the need for long term care.

The legislature further finds and declares that over one million fractures a year result from osteoporosis and that the pain, discomfort, immobility and social isolation that may result from fractures affect quality of life, threaten people's ability to live independently and costs millions annually in nursing home and assistive care.

The legislature further finds and declares that a plan should be established to insure the availability of comprehensive educational services in communities, and that such services include awareness of the disease, its rate of incidence, risk factors, facts about its progression, and implications during pregnancy, the peri-menopausal and post-menopausal years, and in later life; education about the prevention of osteoporosis including nutrition, positive health habits and exercise, and their benefits from an early age; education regarding the availability and significance of diagnostic screening as well as predisposing factors including genetic disposition and interventions for those who already have bone mass loss or those who may be at high risk of bone mass loss; education about available and experimental treatments and the benefits, risks, and side effects of each.

The legislature hereby finds and declares that educating the public about this potentially devastating disease is of paramount importance and that educating the public throughout the state is in every respect in the public interest and to the benefit of all persons in this state.

§ 2706. Osteoporosis prevention and education program established. 1. There is hereby created within the department the osteoporosis prevention and education program. This program is established to promote public awareness of the causes of osteoporosis, options for prevention, the value of early detection and possible treatments, including their benefits and risks.

2. The program shall include: (a) establishment of a public education and outreach campaign to promote osteoporosis prevention and education that will enable individuals to make informed choices about their

health, including, but not limited to the following:

- (1) cause and nature of the disease;
- (2) risk factors;
- (3) impact of menopause;
- (4) impact of drug interactions;
- (5) prevention, including but not limited to:
 - (i) nutrition and diet and,
 - (ii) physical exercise;
- (6) diagnostic procedures and appropriate indications for their use;
- (7) all available treatment options, including benefits and risks;
- (8) environmental safety and injury prevention;
- (9) implications of hip fracture and the potential options for rehabilitation;
- (10) rest and use of appropriate body mechanics;
- (11) availability of osteoporosis diagnostic and treatment services in the community.

(b) development of educational materials to be made available for consumers, particularly targeted to high risk groups, through local departments of health, local health care practitioners, practitioners of gerontology and geriatrics, other health care providers, including, but not limited to, health maintenance organizations, hospitals, walk-in medical care centers, mobile care units, surgi-centers, health-oriented places of business, clinics and organizations serving women and the aged populations.

(c) development and provision of professional education programs for health care providers and health-related community-based organizations, including, but not limited to, the following:

- (1) research findings;
- (2) cause and nature of the disease;
- (3) risk factors, including but not limited to, lifestyle, heredity, and drug interactions;
- (4) impact of menopause;
- (5) prevention, including, but not limited to:
 - (i) nutrition and diet and,
 - (ii) physical exercise;
- (6) diagnostic procedures and appropriate indications for their use;
- (7) all medical and surgical treatment options, including experimental

and established drug therapies, and the benefits and risks of each option;

(8) environmental safety and injury prevention;

(9) availability of osteoporosis diagnostic and treatment and support services in the community.

3. The commissioner shall seek any federal waiver or waivers that may be necessary to maximize funds from the federal government, including, but not limited to, funds provided under Titles XVIII and XIX of the federal Social Security Act for the services provided under this section. The commissioner may accept any grants, awards or other funds or appropriations as may be made available for the purposes of this section.

ARTICLE 27-AA

NEW YORK STATE KIDNEY DISEASE INSTITUTE

Section 2710. Legislative findings and purpose.

2711. New York state kidney disease institute; organization.

2712. Functions, powers and duties.

§ 2710. Legislative findings and purposes. It is hereby declared and found that one of the major problems facing medicine and the public health and welfare is the lack of trained individuals, available facilities, research and equipment for the discovery, evaluation, diagnosis, treatment and cure of kidney disease. It is estimated that more than two thousand people die in New York state each year from kidney failure. No parallel situation in medicine exists today where techniques have been developed for the diagnosis and prevention of disease which would save lives, yet at the same time people continue to progress to chronic kidney disease and death only for the lack of facilities for diagnosis and treatment. New York state must take the initiative to combat this indiscriminate and often needless killer. Basic research is needed into the nature of diseases of the kidneys and the problems of kidney transplantation; in developing mass testing procedures for the early detection of kidney disease; and for the

development of more effective and economical devices for blood purification. An intensive survey of state-wide needs and facilities is necessary to formulate a long-range program for the state.

It is imperative that a comprehensive program to combat kidney disease be implemented through the combined and correlated efforts of state and local governments, medicine, universities, non-profit organizations and individuals. The program provided by this article is designed to bring to bear all the possible resources of the state and to coordinate the efforts of the state in this vital matter of public health.

§ 2711. New York state kidney disease institute; organization. 1. The New York state kidney disease institute is hereby created within the department of health.

2. The commissioner shall appoint a director of the institute and may employ such assistants and personnel, within the amounts appropriated, as is necessary to carry out the provisions of this article.

§ 2712. Functions, powers and duties. 1. In order to further the declared purposes of this article, the institute shall have the following functions, powers and duties:

(a) To conduct a survey of all of the existing facilities within the state having to do with the diagnosis, evaluation and treatment of patients with kidney disease and to prepare and submit its findings and a specific program of action.

(b) To evaluate the need for the creation of local or regional facilities and for the establishing of a major kidney research center.

(c) To develop and administer scientific investigations into the cause, prevention, methods of treatment and cure of renal disease, including research into transplantation of kidneys.

(d) To develop techniques for an effective method of mass testing for the detection of kidney diseases and urinary tract infections.

(e) To develop more efficient methods of medical care for kidney disease and to develop more effective and economical kidney dialysis

equipment.

(f) To survey and evaluate the need for a program of professional education and training for medical students, physicians and nurses in the care and treatment of kidney diseases.

(h) To enter into such contracts and agreements with individuals, colleges, universities, associations, corporations, municipalities and other units of government as may be deemed necessary and advisable to carry out the general intent and purposes of this article. Such contracts may provide for payment by the state, within the limit of funds available, for materials, equipment or services.

2. The commissioner may adopt rules and regulations necessary to effectuate the purposes and provisions of this article.

ARTICLE 27-B

TREATMENT OF HYPERTENSION

TITLE I. Mary Lasker Heart and Hypertension Institute (§§ 2720-2722).

II. Centers for the treatment of hypertension (§§ 2723-2724).

TITLE I

MARY LASKER HEART AND HYPERTENSION INSTITUTE

Section 2720. Legislative declaration.

2721. Mary Lasker Heart and Hypertension Institute;
organization.

2722. Commissioner; functions, powers and duties.

§ 2720. Legislative declaration. The rising incidence of heart disease, strokes and hypertension over the past twenty years has caused increasing awareness and concern among public health officials and private practitioners. It is imperative that new concepts be developed to combat the problems of heart disease, stroke and hypertension by attempting to reduce the causes leading to these diseases. The program provided by this article is designed to prevent heart disease, stroke and hypertension by concentrating on the elimination of risk factors

associated therewith. In order to provide for the protection and promotion of the health of the inhabitants of the state, the department of health shall have the central and comprehensive responsibility for the development and administration of the state's policy with respect to the conduct of scientific investigation and research concerning the causes, prevention, treatment and care of hypertension.

§ 2721. Mary Lasker Heart and Hypertension Institute; organization.

The commissioner shall establish within the department a heart and hypertension institute to be named the Mary Lasker Heart and Hypertension Institute for the purpose of promoting the screening, evaluation and methods of treatment of hypertension.

§ 2722. Commissioner; functions, powers and duties. In order to further the declared purposes of this article, the commissioner shall have the following functions, powers and duties:

1. to conduct scientific investigations into the causes, prevention, evaluation and treatment of hypertension;
2. to develop more efficient methods for screening, evaluation and treatment of hypertension;
3. promote programs of professional education and training in the prevention of heart disease and hypertension and the rehabilitation of victims of heart disease and hypertension for physicians, medical students, nurses, pharmacists and persons in the public health profession;
4. gather data and statistics relative to the prevention of heart disease and hypertension and develop methods and procedures for the rehabilitation of these victims;
5. enter into such contracts and agreements with individuals, colleges, universities, associations, corporations, municipalities and

other units of government as may be deemed necessary and advisable to carry out the general intent and purposes of this article.

TITLE II

CENTERS FOR THE TREATMENT OF HYPERTENSION

Section 2723. Centers for treatment of hypertension; establishment by commissioner.

2724. Commissioner; additional functions, powers and duties.

§ 2723. Centers for treatment of hypertension; establishment by commissioner. Pursuant to rules and regulations of the department, the commissioner shall establish such centers throughout the state as he deems necessary to provide a program of treatment and care for hypertension and promote the diagnosis, screening, evaluation and methods of treatment of hypertension. The commissioner shall also designate the geographic areas to be served by such center and may provide for the proper administration of such centers.

§ 2724. Commissioner; additional functions, powers and duties. In order to further the declared purposes of this title, the commissioner shall have the following functions, powers and duties:

1. to develop programs for screening, evaluation and treatment of hypertension;

2. to enter into contracts and agreements to provide for the screening, evaluation and treatment of hypertension pursuant to this section by July first, nineteen hundred eighty-two;

3. to require as the commissioner may determine to be appropriate that any facility established, incorporated, licensed or regulated pursuant to the provisions of article twenty-eight or forty-seven of this chapter, test for hypertension as part of their ordinary and regular care or treatment of patients and as necessary screen, treat and

diagnose the incidence of hypertension;

4. to apply for special grants from the federal government and any institution making grants for such purposes and use any monies so obtained to supplement any other monies made available from any source for the purposes of this title;

5. to require persons receiving treatment for hypertension in any center providing such treatment to pay a fee established by the commissioner on a sliding fee scale based on the treatment recipient's ability to pay after applying against the total cost of such treatment the amounts received from third party payors.

ARTICLE 27-C

BIRTH DEFECTS INSTITUTE

Section 2730. Declaration of policy.

2731. Birth defects institute.

2732. Commissioner; functions, powers and duties.

2733. Reporting of birth defects; confidentiality of information.

§ 2730. Declaration of policy. Occurrence of malformation or inherited disease at the time of birth is a tragedy for the child, the family and the community, and a matter of vital concern to the public health. In order to provide for the protection and promotion of the health of the inhabitants of the state, the department of health shall have the central and comprehensive responsibility for the development and administration of the state's policy with respect to the conduct of scientific investigations and research concerning the causes, prevention, treatment and cure of birth defects and genetic and allied diseases.

§ 2731. Birth defects institute. The commissioner shall establish within the department a birth defects institute for the purposes of

initiating and conducting investigations of the causes, mortality, methods of treatment, prevention and cure of birth defects and genetic and allied diseases.

§ 2732. Commissioner; functions, powers and duties. The commissioner shall have the following powers and duties:

(a) To conduct scientific investigations and surveys of the causes, mortality, methods of treatment, prevention and cure of birth defects and genetic and allied diseases.

(b) To publish from time to time the results of such investigations and surveys for the benefit of the public health and from time to time collate such publications for distribution to scientific organizations and qualified scientists and physicians.

(c) To carry on programs of professional education and training of medical students, physicians, nurses, scientists and technicians in the causes, methods of treatment, prevention and cure of birth defects and genetic and allied diseases.

(d) To conduct and support counseling services.

§ 2733. Reporting of birth defects; confidentiality of information.

1. Birth defects and genetic and allied diseases shall be reported by physicians, hospitals, and persons in attendance at births in the manner and on such forms as may be prescribed by the commissioner.

2. Such reports and information shall be kept confidential and shall not be admissible as evidence in an action or proceeding in any court or before any other tribunal, board, agency or person. The commissioner may, however, publish analyses of such reports and information from time to time for scientific and public health purposes, in such a manner as to assure that the identities of the individuals concerned cannot be ascertained.

ARTICLE 27-CC

NEW YORK STATE TRAUMATIC BRAIN INJURY PROGRAM

Section 2740. Traumatic brain injury program.

2741. Definitions.

2742. Functions, powers and duties of the department.

2743. Funding of traumatic brain injury services.

2744. The traumatic brain injury services coordinating council.

§ 2740. Traumatic brain injury program. The department shall have the central responsibility for administering the provisions of this article and otherwise coordinating the state's policies with respect to traumatic brain injury, in consultation with the office for people with developmental disabilities, the office of mental health, the department of education, the office of alcoholism and substance abuse services, the department of social services, the office of the advocate for the disabled and the commission on quality of care for the mentally disabled.

§ 2741. Definitions. As used in this article:

1. "Traumatic brain injury" means an acquired injury to the brain caused by an external physical force resulting in total or partial disability or impairment and shall include but not be limited to damage to the central nervous system from anoxic/hypoxic episodes or damage to the central nervous system from allergic conditions, toxic substances and other acute medical/clinical incidents. Such term shall include, but not be limited to, open and closed brain injuries that may result in mild, moderate or severe impairments in one or more areas, including cognition, language, memory, attention, reasoning, abstract thinking, judgment, problem-solving, sensory perceptual and motor abilities, psycho-social behavior, physical functions, information processing and speech. Such term shall not include progressive dementias and other mentally impairing conditions, depression and psychiatric disorders in which there is no known or obvious central nervous system damage, neurological, metabolic and other medical conditions of chronic, congenital or degenerative nature or brain injuries induced by birth trauma.

2. "Concussion" means a mild traumatic injury to the brain that is characterized by immediate and transient alteration of mental status and level of consciousness, resulting from mechanical force or trauma.

§ 2742. Functions, powers and duties of the department. The department shall have the following powers and duties:

1. to develop a comprehensive statewide program that includes medical, housing, vocational, educational, transportation, social, personal care, family support, day program services, community re-entry services, outpatient rehabilitation services and other essential services;

2. to develop outreach services to provide coordinated information regarding assistance available to persons with traumatic brain injury and their families;

3. to develop and maintain a clearinghouse of information on traumatic brain injuries and concussions, including but not limited to, resources that support the development and implementation of community-based services and rehabilitation;

4. to track the amount of and cost of services provided to persons with traumatic brain injury placed in out-of-state treatment settings;

5. to develop innovative educational programs on the causes and prevention of traumatic brain injuries and concussions, with an emphasis on outreach campaigns. Such programs and information shall include, but not be limited to, treatment and services for persons with traumatic brain injury and/or a concussion and their families;

6. to accept and expend any grants, awards of other funds or appropriations as may be available for these purposes, subject to limitations as to the approval of expenditures and audits as prescribed for state funds by the state finance law;

7. to gather and disseminate statistics and conduct investigations and research relating to the causes and prevention of traumatic brain injuries and concussions and the treatment of such injuries, including the methods and procedures for rehabilitation, including from time to time, such publications for distribution to appropriate scientific organizations;

8. to contract with independent consultants to conduct assessments of the needs of persons with traumatic brain injury;

9. to develop training programs for persons providing discharge plans and case management; and

10. to develop standards for licensing or certifying residential and non-residential services for persons with traumatic brain injury to the extent that such services are not otherwise subject to the jurisdiction of another state agency.

§ 2743. Funding of traumatic brain injury services. 1. The department shall develop a biennial plan and priorities for the funding of services and programs as authorized by this article, with emphasis on the development and expansion of community-based services and programs.

2. Such plan shall provide for the development of services, dispersed geographically to the extent feasible, which shall minimize the need for out-of-state placements and promote the return of individuals currently placed out-of-state to enhance family involvement and promote community reintegration.

3. The department shall, to the extent feasible, utilize existing organizations with demonstrated interest and expertise in serving persons with traumatic brain injuries and shall, within funds available, enter into contracts with such organizations.

§ 2744. The traumatic brain injury services coordinating council. 1.

The traumatic brain injury services coordinating council is hereby established and shall consist of the following persons or their designees: the commissioner, the commissioner of the office for people with developmental disabilities, the office of mental health, the commissioner of education, the commissioner of alcoholism and substance abuse services, the commissioner of social services, the state advocate for the disabled and the commission on quality of care for the mentally disabled. In addition, the council shall consist of the following persons: five persons appointed by the governor, three of whom shall be persons with traumatic brain injury and two of whom shall be representative of the public and have a demonstrated expertise and interest in traumatic brain injury; two persons appointed by the temporary president of the senate, one of whom shall be a person with traumatic brain injury and one of whom shall be representative of the public and have a demonstrated expertise and interest in traumatic brain injury; two persons appointed by the speaker of the assembly, one of whom shall be a person with traumatic brain injury and one of whom shall be representative of the public and have a demonstrated expertise and interest in traumatic brain injury, one person appointed by the minority leader of the senate who shall be a person with traumatic brain injury or be representative of the public and have a demonstrated expertise and interest in traumatic brain injury; and one person appointed by the minority leader of the assembly who shall be a person with traumatic brain injury or be representative of the public and have a demonstrated expertise and interest in traumatic brain injury. Of the five persons appointed by the governor, three shall serve for a term of one year, one shall serve for a term of two years and one shall serve for a term of three years. Of the two persons appointed by the temporary president of the senate, one shall serve for a term of two years and one shall serve for a term of three years. Of the two persons appointed by the speaker of the assembly, one shall serve for a term of two years and one shall serve for a term of three years. The person appointed by the minority leader of the senate and the person appointed by the minority leader of the assembly shall serve for a term of one year. Subsequent appointments for vacancies shall be for a term of three years and shall be filled in the same manner as the original appointment.

2. (a) The council shall be charged with recommending to the department long range objectives, goals and priorities. It shall also provide advice on the planning, coordination and development of needed services. In making such recommendations, the council shall consider:
