§ 190-d. Procedure for establishment of a sewage disposal district. All of the provisions of section one hundred ninety-c of this chapter, relating to the preparation of maps and plans and establishment of a water storage and distribution district, shall apply to the preparation of maps and plans and establishment of a sewage disposal district, except that in the case of a sewage disposal district, the map and plan shall show the mode of constructing the proposed sewer facilities and the location thereof, including trunk, interceptor and outfall sewers, pumping stations and sewage treatment and disposal works.
