PROCEEDINGS 1 2 THE PRESIDENT: The Senate will 3 come to order. 4 I ask everyone present to please 5 rise and repeat with me the Pledge of Allegiance. (Whereupon, the assemblage recited 6 7 the Pledge of Allegiance to the Flag.) 8 THE PRESIDENT: Our invocation 9 today will be given by Rabbi Stuart Verstandig. 10 And I want to acknowledge he's also joined by his son, Sam. And he serves the Young Israel of 11 Kew Garden Hills, in Flushing. 12 13 Rabbi? 14 RABBI VERSTANDIG: As we open 15 today's session, we ask God for a blessing upon our State of New York and of the United States of 16 America. May we as a nation be guided by the 17 18 divine to rediscover the sacred flame of our 19 national heritage, which so many have given their 20 lives to safeguard. 21 Let the wounds of separation and 22 division be healed by opening our hearts to listen to the truth on all sides, allowing us to 23 find a higher truth that includes all. May we 24 25 learn to honor and enjoy our diversity and

differences as a people, even as we more deeply discover our fundamental commonalities.

May we as a people undergo a transformation that will draw forth individuals to lead our nation who embody courage, compassion, and a higher vision.

May our leaders inspire us and we so inspire each other with our potential as individuals and as a nation, that a new spirit of forgiveness, caring and honesty be born in our nation.

May we as a united people move with clear, directed purpose to take our place within the community of nations to help build a better future for all humankind.

May we as a nation rededicate ourselves to truly living as one nation under God, indivisible, with liberty and justice for all.

As we celebrated yesterday, remember when Martin Luther King, Jr., once said, and I quote: "The ultimate measure of a man is not where he stands in moments of comfort and convenience, but where he stands in times of challenge and controversy."

1 These indeed are days of challenge 2 and controversy. Senators, may your decisions here today be wise and guided by the values of 3 our forefathers. 4 5 May God grant life, liberty and the pursuit of happiness to all people. May God give 6 7 strength to the leadership of New York State and 8 the people of the United States, and may God protect the great State of New York and bless us 9 10 forever and always. 11 Amen. 12 THE PRESIDENT: The reading of the Journal. 13 14 THE SECRETARY: In Senate, Monday, 15 January 21, 2019, the Senate met pursuant to 16 adjournment. The Journal of Saturday, January 19, 2019, was read and approved. 17 18 motion, the Senate adjourned. 19 THE PRESIDENT: Without objection, 20 the Journal stands approved as read. 21 Presentation of petitions. 22 Messages from the Assembly. 23 Messages from the Governor. Reports of standing committees. 24 Reports of select committees. 25

1
                  Communications and reports of state
 2
     officers.
 3
                  Motions and resolutions.
                  Senator Gianaris.
 4
 5
                  SENATOR GIANARIS: Madam President,
     can you please call on Senator Griffo.
 6
                  THE PRESIDENT:
 7
                                   Senator Griffo.
 8
                  SENATOR GRIFFO: Madam President, I
 9
     move that the following bills be discharged from
10
     their respective committees and be recommitted
     with instructions to strike the enacting clause:
11
12
     Senate Bill 175, by Senator Helming.
13
                  THE PRESIDENT:
                                   So ordered.
14
                  SENATOR GRIFFO: I also move,
15
     Madam President, that the following bills be
16
     discharged from their respective committees and
     be recommitted with instructions to strike the
17
18
     enacting clause: Senate Bill 1594, by
19
     Senator O'Mara.
20
                  THE PRESIDENT: So ordered.
21
                  SENATOR GRIFFO:
                                   Thank you.
22
                  THE PRESIDENT:
                                   Senator Gianaris.
23
                  SENATOR GIANARIS:
                                      Madam President,
     there will be an immediate meeting of the
24
     Rules Committee in Room 332 of the Capitol.
25
```

```
1
                  THE PRESIDENT:
                                    There's an
 2
     immediate meeting of the Rules Committee in
 3
     Room 332 of the Capitol.
                  The Senate will stand at ease.
 4
 5
                  (Whereupon, the Senate stood at ease
     at 2:34 p.m.)
 6
 7
                  (Whereupon, the Senate reconvened at
 8
     2:55 p.m.)
 9
                  THE PRESIDENT: The Senate will
10
     come to order.
                  Senator Gianaris.
11
12
                  SENATOR GIANARIS:
                                       Thank you,
13
     Madam President.
                  I believe there's a Rules Committee
14
15
     report at the desk.
16
                  THE PRESIDENT:
                                    There is a
     Committee on Rules report at the desk, and the
17
18
     Secretary will read.
                  THE SECRETARY:
19
                                    Senator
20
     Stewart-Cousins, from the Committee on Rules,
21
     reports the following bills:
22
                  Senate Print 240, by
23
     Senator Krueger, an act to amend the
     Public Health Law;
24
25
                  Senate 659A, by Senator Salazar, an
```

```
act to amend the Insurance Law and the
 1
 2
     Social Services Law;
 3
                  Senate 660, by Senator Metzger, an
 4
     act to amend the Labor Law;
 5
                  Senate 1250, by Senator Sepúlveda,
     an act to amend the Education Law;
 6
 7
                  Senate 1262, by Senator Mayer, an
     act to amend the Education Law;
 8
9
                  Senate 1675, by Senator Skoufis, an
10
     act to amend the Real Property Tax Law;
                  Senate 1889, by Senator Skoufis, an
11
     act to amend the Education Law;
12
                  Senate 1904, by Senator Gaughran, an
13
14
     act to amend Chapter 97 of the Laws of 2011;
15
                  Senate 2039, by Senator Seward, an
     act to amend the Insurance Law and a chapter of
16
     the Laws of 2018 amending the Insurance Law;
17
18
                  Senate 2040, by Senator LaValle, an
     act to amend the Public Authorities Law;
19
20
                  Senate 2041, by Senator Benjamin, an
     act to amend the Public Authorities Law;
21
                  Senate 2042, by Senator Gounardes,
22
     an act to amend the Civil Service Law;
23
                  Senate 2043, by Senator Seward, an
24
25
     act to amend Chapter 589 of the Laws of 2015
```

```
1
     amending the Insurance Law; and
 2
                  Senate 2044, by Senator Ritchie, an
     act to amend the Agriculture and Markets Law.
 3
                  All bills ordered direct to third
 4
 5
     reading.
                  THE PRESIDENT:
                                    Senator Gianaris.
 6
 7
                  SENATOR GIANARIS:
                                       I move to accept
 8
     the Rules Committee report.
 9
                  THE PRESIDENT: All those in favor
10
     of accepting the report from the Rules Committee
     signify by saying aye.
11
12
                  (Response of "Aye.")
13
                  THE PRESIDENT:
                                   Opposed?
14
                  (No response.)
15
                  THE PRESIDENT:
                                   The report of the
16
     Rules Committee is accepted.
17
                  Senator Gianaris.
18
                  SENATOR GIANARIS: Madam President,
19
     there is a Senate calendar at the desk. We will
20
     be taking up a few bills from this calendar.
21
                  And at the outset, let me just
     indicate to my colleagues that I think the bill
22
     of most interest will be taken up on debate at
23
     the end. So I would encourage those on our side,
24
25
     if they have extensive comments, they may want to
```

```
save them for the bill that will be -- that we
 1
 2
     expect to be held for debate. Of course with the
 3
     exception of the sponsors on the next two, who
 4
     I'm sure will be speaking on their bills.
 5
                  So with that, can we begin by
     calling up Calendar Number 34.
 6
 7
                  THE PRESIDENT:
                                   The Secretary will
 8
     read.
 9
                  THE PRESIDENT: Calendar Number 34,
10
     by Senator Salazar, Senate 659A, an act to amend
     the Insurance Law and the Social Services Law.
11
12
                  THE PRESIDENT:
                                   Read the last
     section.
13
                                    Section 6.
14
                  THE SECRETARY:
                                                This
15
     act shall take effect January 1, 2020.
16
                  THE PRESIDENT:
                                   Call the roll.
                  (The Secretary called the roll.)
17
18
                  THE PRESIDENT:
                                    Senator Salazar to
     explain your vote.
19
20
                  SENATOR SALAZAR:
                                      Thank you,
21
     Madam President.
22
                  I'm proud to have introduced this
23
     legislation and to be voting to pass the CCCA
     today. What this signifies to New Yorkers is
24
25
     that we want to empower them, especially to
```

1 empower women to exercise autonomy over our 2 bodies and, in turn, to have more autonomy over 3 our destinies. 4 When private insurers refuse to 5 cover the cost of a patient's contraception, it presents a severe risk to the patient's economic 6 7 reproductive freedom and to their health. 8 one's healthcare decisions should be dependent on what they can afford to pay. 9 10 While this legislation will allow more New Yorkers to access the 18 types of 11 12 contraception approved by the FDA, it is my hope and commitment that eventually we will go 13 further, that we will eliminate the barriers that 14 15 many New Yorkers face because healthcare is not 16 free at point of service. But in the future, we will have single-payer healthcare and universal 17 18 healthcare in New York State. 19 But I am proud to be voting to 20 support this legislation today to make sure that 21 we are expanding access to contraception. 22 Thank you. 23 THE PRESIDENT: Announce the result. 24

Those recorded in

THE SECRETARY:

25

```
1
     negative on Calendar Number 34 are
 2
     Senators Amedore, Antonacci, Felder, Funke,
     Gallivan, Helming, Jordan, Lanza, Ortt,
 3
     Ranzenhofer and Ritchie.
 4
 5
                  Ayes, 51. Nays, 11.
                  THE PRESIDENT: The bill is passed.
 6
 7
                  Senator Gianaris.
 8
                  SENATOR GIANARIS: Madam President,
 9
     I'd like to pause to note that this is
10
     Senator Salazar's first bill to pass the Senate.
11
                  (Standing ovation.)
                                   Senator Gianaris.
12
                  THE PRESIDENT:
13
                  SENATOR GIANARIS: Can we please
     take up Senate Calendar Number 35.
14
15
                  THE PRESIDENT:
                                   The Secretary will
16
     read.
17
                  THE SECRETARY: Calendar Number 35,
18
     by Senator Metzger, Senate Print 660, an act to
     amend the Labor Law.
19
20
                  THE PRESIDENT: Read the last
21
     section.
22
                  THE SECRETARY:
                                   Section 2.
                                               This
23
     act shall take effect immediately.
                                   Call the roll.
                  THE PRESIDENT:
24
25
                  (The Secretary called the roll.)
```

THE PRESIDENT: 1 Senator Metzger to 2 explain your vote. 3 SENATOR METZGER: Thank you, Madam President. 4 5 First I'd like to acknowledge and thank Senator Liz Krueger for her leadership on 6 7 this bill, which she first introduced five years 8 ago. 9 We are on a dangerous, slippery 10 slope in this country when it comes to protecting an individual's right to privacy and autonomy in 11 12 decision-making about family planning and reproductive health. Since enactment of the 13 Affordable Care Act, over 100 lawsuits have been 14 15 filed by employers determined to deny workers coverage of reproductive health services and 16 products based on the employer's own personal and 17 18 political beliefs. In its 2014 decision in the 19 Hobby Lobby case, the Supreme Court for the first 20 21 time recognized a qualification for a religious exemption by a corporation. 22 23 As Justice Ruth Bader Ginsburg "The court has essentially treated 24 argued: 25 for-profit corporations as people capable of

```
exercising religion, putting us on a dangerous
 1
 2
     path with regard to employees' privacy and
 3
     personal freedoms."
 4
                  The Boss Bill seeks to prevent this
 5
     further encroachment by employers into the
     private decisions of employees on matters that
 6
 7
     have nothing to do with the performance of their
 8
     job.
 9
                  Choosing whether, when and how to
10
     have children is a decision for individuals and
     their families. No one should have fear that
11
12
     they will lose their job or be demoted because of
     their own private reproductive health decisions.
13
14
                  Thank you.
15
                  THE PRESIDENT:
                                    Thank you, Senator.
16
                  Announce the result.
17
                  THE SECRETARY:
                                    Those recorded in
18
     the negative on Calendar Number 35 are
19
     Senators Amedore, Antonacci, Funke, Gallivan and
20
     Jordan.
              Also Senator Ortt.
21
                  Ayes, 56. Nays, 6.
22
                  THE PRESIDENT:
                                    The bill is passed.
23
                  (Applause from galleries.)
                  THE PRESIDENT:
                                    Senator Gianaris.
24
25
                  SENATOR GIANARIS:
                                       Now,
```

```
1
     Madam President, may we please take up
 2
     Senate Bill Number 33, by Senator Krueger.
                                   The Secretary will
 3
                  THE PRESIDENT:
 4
     read.
 5
                  THE SECRETARY:
                                   Calendar Number 33,
     by Senator Krueger, Senate Print 240, an act to
 6
 7
     amend the Public Health Law.
 8
                  SENATOR GRIFFO: Lay it aside.
 9
                                   Lay it aside.
                  THE PRESIDENT:
10
                  SENATOR GIANARIS:
                                      Madam President,
     may we now take up the controversial reading of
11
12
     the calendar, please.
13
                  THE PRESIDENT:
                                   The Secretary will
     ring the bell, and the Secretary will read.
14
15
                  THE SECRETARY:
                                   Calendar Number 33,
16
     by Senator Krueger, Senate Print 240, an act to
     amend the Public Health Law.
17
18
                  THE PRESIDENT:
                                   Senator Griffo.
19
                  SENATOR GRIFFO: Madam President, I
20
     believe there's an amendment at the desk.
21
     waive the reading of that amendment and ask that
22
     you call upon Senator Young for an explanation.
23
                  THE PRESIDENT:
                                   Thank you, Senator
     Griffo.
24
25
                  Upon review of the amendment, in
```

```
accordance with Rule 6, Section 4B, I rule it
 1
 2
     nongermane and out of order at this time.
                  SENATOR GRIFFO:
 3
                                     Madam President, I
 4
     appeal the ruling of the chair and ask that you
 5
     recognize Senator Young, that she may be heard
 6
     upon that appeal.
 7
                  THE PRESIDENT:
                                   The appeal has been
     made and recognized, and the Senator may be
 8
 9
     heard.
10
                  But before we begin debate, I want
     to remind all of our guests that we must maintain
11
     decorum in this chamber, and we ask that you
12
     remain silent while observing from the gallery.
13
14
     All Senators have the right to be heard, and
15
     without interruption, and our stenographer needs
     to be able to hear what they're saying. So I
16
17
     appreciate everyone's cooperation at this time.
18
     Thank you.
19
                  Senator Young.
20
                  SENATOR YOUNG:
                                   Thank you,
21
     Madam President.
22
                  These amendments are germane for the
23
     following reasons. The amendment establishing
     the Maternal Mortality Review Board is germane
24
25
     because it creates a vital and long-overdue
```

public health initiative to address
pregnancy-related deaths.

The high rates of maternal mortality and morbidity across the United States, and particularly in New York State, are a grave concern that call for immediate legislative attention due to the devastating impact on pregnant women, their families, and the entire New York State community.

The legislative intent of the RHA states that "The Legislature finds that comprehensive reproductive healthcare, including contraception and abortion, is a fundamental component of a woman's health, privacy and equality."

The Governor held an event earlier this month to announce intentions for a constitutional amendment to protect abortion access. He was joined by Hillary Clinton, who stated: "Even in places like New York, which is home to some of the leading healthcare institutions in the world, we are in the midst of an epidemic of maternal mortality which disproportionately affects black women."

The RHA legislative intent goes on

to state: "The goal of medical regulation should be to improve the quality and availability of healthcare services."

Under this legislation, the board would establish systems to study causes of death of pregnant women or death within 12 months of the end of the pregnancy, or adverse health outcomes resulting from pregnancy, labor or delivery, by compiling and analyzing relevant information to devise solutions for New York's unacceptably high rates of maternal morbidity and mortality.

The "Policy and Purpose" section of the RHA states that "Every individual who becomes pregnant has the fundamental right to choose to carry the pregnancy to term, to give birth to a child, or to have an abortion."

all pregnant women should be entitled to conditions that assure the healthiest possible pregnancy and short- and long-term health outcomes. The RHA explicitly states that there is a right to choose to carry a pregnancy to term and a right to give birth. The analysis of public health data on maternal mortality and morbidity that would be performed by the board is

essential to assuring equitable access to care 1 2 for the women that choose to carry a pregnancy to 3 term and/or choose to give birth, as the RHA 4 states. 5 The language advanced to establish the Maternal Mortality Review Board is identical 6 7 to the bill this house voted 62-to-zero to pass last spring, Senate 8907, sponsored by 8 then-Health Chair Senator Hannon. The bill, 9 10 Senate 1819, has been reintroduced by Senator Rivera without changes. 11 12 Like the RHA, the board is included, for the second year in a row, in the Executive's 13 14 budget proposal. 15 Furthermore, the provisions establishing the Liv Act are germane because the 16 RHA repeals the only existing state statutes 17 18 intended to address illegal abortions -- domestic violence victims, for example. Liv Abreu joined 19 20 us earlier today. Her attacker was charged under the abortion statutes that are being repealed 21 today by the RHA. 22 The Liv Act would establish a new 23 section in the penal code that expressly 24

recognizes the pregnant woman as the victim of

25

```
violence, and that to do so violates a woman's
 1
 2
     reproductive freedom. When violence is done to a
 3
     pregnant woman, her reproductive freedom is
 4
     trampled, and the law should continue to provide
 5
     a remedy recognizing this harm.
                  The provisions that restore medical
 6
 7
     recordkeeping requirements are germane to the
 8
     bill in that they merely restore provisions the
     bill intends to repeal. Medical recordkeeping
 9
10
     and reporting always has been crucial, and
     continues to be, to public health, and repealing
11
12
     recordkeeping for situations that may occur is
     counterproductive.
13
                  So yes, Madam President, these
14
     amendments are germane.
15
16
                  THE PRESIDENT:
                                   Thank you, Senator.
                  I'll remind the house that the vote
17
18
     is on the procedures of the house and the ruling
     of the chair.
19
20
                  Those in favor of overruling the
21
     chair signify by saying aye.
22
                  (Response of "Aye.")
                  SENATOR GRIFFO: Show of hands,
23
24
     please.
25
                  THE PRESIDENT:
                                   A show of hands has
```

```
been ordered.
 1
                  (Show of hands.)
 2
 3
                  THE SECRETARY: Ayes, 22.
 4
                  THE PRESIDENT: The ruling of the
 5
     chair stands, and the bill-in-chief is before the
     house.
 6
 7
                  Senator Griffo.
 8
                  SENATOR GRIFFO: Madam President,
9
     would you recognize Senator Ritchie, please.
10
                  THE PRESIDENT:
                                   Senator Ritchie.
                  SENATOR RITCHIE:
                                     Madam President,
11
12
     would the sponsor yield for a few questions?
13
                  THE PRESIDENT:
                                   Will the sponsor
14
     yield?
15
                  SENATOR KRUEGER:
                                     Yes,
16
     Madam President.
17
                  SENATOR RITCHIE: Good afternoon,
18
     Senator Krueger.
                  Your bill has been characterized as
19
     codifying Roe vs. Wade. Can you explain to me
20
21
     the differences between Roe vs. Wade and the
22
     Reproductive Health Act?
23
                  SENATOR KRUEGER: Thank you,
     Madam President.
24
25
                  New York State law was passed in
```

```
1
     1970, pre-Roe v. Wade in 1973. So it's
 2
     technically 46 years since Roe v. Wade was
 3
     determined by the U.S. Supreme Court, and we've
 4
     been out of compliance with our existing law
 5
     since that time, because our law predates
     Roe v. Wade. So our law does not explicitly --
 6
 7
     existing law in New York State does not
     explicitly codify in our health statutes the
 8
     rights to abortion.
 9
10
                  What this bill does is it moves
     abortion out of the criminal code and into the
11
     health code where it belongs, so that providers
12
     are free to provide treatment to their patients.
13
                  It ensures that the health of a
14
15
     pregnant person, not just their life, is a factor
16
     for access to abortion later in pregnancy.
     protects a patient from being forced to carry a
17
18
     nonviable pregnancy to term. And it confirms
19
     that all medical professionals licensed to
20
     provide abortions within their scope of practice
21
     are able to do so.
22
                                   Senator Ritchie.
                  THE PRESIDENT:
                  SENATOR RITCHIE:
                                     Would the sponsor
23
24
     continue to yield?
25
                  THE PRESIDENT:
                                   Will the sponsor
```

1	continue to yield?
2	
	SENATOR KRUEGER: Certainly,
3	Madam President.
4	SENATOR RITCHIE: Can you explain
5	why you repealed the criminal provisions
6	pertaining to abortion in the Penal Law?
7	SENATOR KRUEGER: Thank you.
8	Madam President, through you, it's a
9	medical procedure. It actually should never have
10	been in the criminal code. But again, it was
11	1970 the last time we took up the law in New York
12	State, so I won't presume what people were
13	thinking in 1970. But since 1973, it's been very
14	explicit under federal law and under a series of
15	federal and state constitutional lawsuits that
16	this is a healthcare service and should be in our
17	health statute.
18	THE PRESIDENT: Thank you, Senator.
19	Senator Ritchie.
20	SENATOR RITCHIE: Will the sponsor
21	continue to yield?
22	THE PRESIDENT: Will the sponsor
23	continue to yield?
24	SENATOR KRUEGER: Certainly.
25	SENATOR RITCHIE: Do you believe it

is good public policy to repeal criminal 1 2 violations for individuals who take by force a 3 woman's right to carry a pregnancy to term? 4 SENATOR KRUEGER: I apologize, I 5 couldn't quite hear you. Can you repeat that? Through you, Madam President. 6 7 SENATOR RITCHIE: Do you believe it is good public policy to repeal criminal 8 violations for individuals who take by force a 9 10 woman's right to carry a pregnancy to term? SENATOR KRUEGER: 11 Thank you, Madam President. 12 13 I don't think that abortion should be within the criminal code. I believe very 14 15 strongly in New York State's laws that in fact provide a criminal penalty when someone attacks a 16 17 woman, a pregnant woman, a man. We have very 18 specific criminal laws that can and are applied 19 by prosecutors when someone attempts to murder 20 someone, one attempts a violent felony against someone, one kidnaps and forces someone against 21 their will into a situation where they can do 22 harm to them. So I'm very confident that 23 New York State law allows for all kinds of 24 25 appropriate criminal penalties if someone is

```
1
     attacked, whether or not they are pregnant.
 2
                  But no, abortion was never a crime,
     since we've established in 1970 the right and in
 3
 4
     1973 forward. So I don't believe the appropriate
 5
     place for criminal penalties are in -- are
     related to the abortion law per se.
 6
 7
                  THE PRESIDENT:
                                   Thank you, Senator.
 8
                  Senator Ritchie.
                  SENATOR RITCHIE: Will the sponsor
 9
10
     continue to yield?
                                   Will the sponsor
11
                  THE PRESIDENT:
12
     continue to yield?
13
                  SENATOR KRUEGER: Yes, I will.
14
                  SENATOR RITCHIE: Do you think
15
     individuals who assault pregnant women should be
16
     held accountable for such assaults?
17
                  SENATOR KRUEGER:
                                     Through you,
18
     Madam President, I think anyone who assaults
19
     anyone in this state should be held accountable
20
     under our laws. And I'm confident that whether
21
     or not we pass the Reproductive Health Act today,
22
     we have those protections throughout our criminal
23
     code.
                                   Senator Ritchie.
24
                  THE PRESIDENT:
25
                  SENATOR RITCHIE:
                                     Will the sponsor
```

1 continue to yield? 2 I do. SENATOR KRUEGER: 3 THE PRESIDENT: Will the sponsor 4 continue to yield? 5 SENATOR KRUEGER: Yes, Madam President. 6 7 SENATOR RITCHIE: Can you 8 explain -- or provide us why pregnant women are 9 offered special benefits in other areas of the 10 law, such as maternity leave, special workplace accommodations, and anti-discrimination laws, but 11 12 they will not be allowed in the Penal Law now? 13 SENATOR KRUEGER: So it's an 14 interesting question about whether women are 15 offered special accommodations in lots of our 16 other laws. Many of us spent our lives thinking women actually don't have equal treatment under 17 18 many of our laws, including employment laws, and 19 that we need more work there also. 20 But I am quite confident that a 21 medical procedure -- abortion -- does not need to 22 be within the criminal code and that our criminal 23 code allows for many different options for a district attorney to charge someone with a crime 24 25 against a woman or a man.

1	THE PRESIDENT: Senator Ritchie.
2	SENATOR RITCHIE: Would the sponsor
3	continue to yield?
4	THE PRESIDENT: Will the sponsor
5	continue to yield?
6	SENATOR KRUEGER: Yes, I will,
7	Madam President.
8	SENATOR RITCHIE: Currently
9	New York requires abortions to be performed by a
10	physician. What new professions are statutorily
11	authorized by this legislation to perform
12	abortions?
13	SENATOR KRUEGER: Thank you.
14	Through you, Madam President. Sorry, just
15	turning to the right page. Thank you.
16	So medical providers that have
17	abortion care within their scope of practice.
18	This currently includes some physicians as well
19	as some advanced-practice clinicians, physician
20	assistants, nurse practitioners, and licensed
21	midwives.
22	THE PRESIDENT: Senator Ritchie.
23	SENATOR RITCHIE: Would the sponsor
24	continue to yield?
25	THE PRESIDENT: Will the sponsor

```
1
     continue to yield?
 2
                  SENATOR KRUEGER:
                                     Yes,
 3
     Madam President.
 4
                  THE PRESIDENT:
                                   The Senator yields.
 5
                  SENATOR RITCHIE:
                                     Can you explain
     who will make the ultimate decision who or what
 6
 7
     type of doctor or nurse practitioner would be
 8
     able to perform the abortion?
 9
                  SENATOR KRUEGER:
                                    Yes, in New York
10
     State you are a licensed physician, M.D. or D.O.,
     and advanced-practice clinicians function under
11
12
     your authority.
13
                  So there may be a physician who
     hires physician assistants and/or nurse
14
15
     practitioners and/or licensed midwives who are
16
     performing procedures within their scope of
     practice in that field.
17
18
                  The State Education Department
19
     regulates the licensing of professions and
20
     establishes the definitions of who meets that
21
     licensing criteria and the scope of practice.
22
                  THE PRESIDENT:
                                   Senator Ritchie.
23
                  SENATOR RITCHIE:
                                     If the sponsor
     would continue to yield.
24
25
                  THE PRESIDENT: Will the sponsor
```

```
yield?
 1
 2
                  SENATOR KRUEGER: Yes, Madam
 3
     President.
 4
                  THE PRESIDENT:
                                   The Senator yields.
 5
                  SENATOR RITCHIE:
                                     What specific
     training will these health professionals receive
 6
 7
     before performing abortions?
 8
                  SENATOR KRUEGER:
                                     Through you,
 9
     Madam President, I am not a trainer of healthcare
10
     providers nor a healthcare provider. The State
11
     Education Department establishes specific
12
     licensing and scope of practice. And we have
13
     many, many practitioners under advanced-practice-
     clinician categories in New York State.
14
15
                  Interestingly, Madam President, in
     1970, when our law was written, we had nothing
16
     known as a physician assistant, a nurse
17
18
     practitioner, or a licensed midwife. They simply
19
     didn't exist as licensed professions. Hence, the
20
     1970 law was silent on them.
21
                  But since then we have established
22
     specific healthcare professions with licensing
     and scope of practice and training that is
23
     defined as appropriate for different activities
24
     and different kinds of healthcare, and so these
25
```

```
1
     categories are included.
 2
                  Through you, Madam President.
 3
                  THE PRESIDENT:
                                   Thank you, Senator.
 4
                  Senator Ritchie.
 5
                  SENATOR RITCHIE: Would the sponsor
     continue to yield?
 6
 7
                  SENATOR KRUEGER:
                                     Yes, I will.
 8
                  THE PRESIDENT:
                                   The Senator yields.
 9
                  SENATOR RITCHIE:
                                     Section 4164 of
10
     the Public Health Law concerns recordkeeping. It
     is good public policy and practice to maintain
11
     data in records of medical procedures. Does this
12
     bill keep current recordkeeping procedures for
13
     abortions and live births?
14
15
                  SENATOR KRUEGER:
                                     Through you,
16
     Madam President, this bill doesn't say anything
     about changing procedures on tracking or records.
17
18
     So I'm not that familiar with the Public Health
19
     Law on recordkeeping, but this bill does nothing
20
     to change it.
21
                  THE PRESIDENT:
                                   Thank you, Senator.
                  Senator Ritchie.
22
                  SENATOR RITCHIE: Will the sponsor
23
     continue to yield?
24
25
                  THE PRESIDENT:
                                   Does the sponsor
```

```
continue to yield?
 1
 2
                  SENATOR KRUEGER: Yes, I will.
 3
                  THE PRESIDENT: The Senator yields.
 4
                  SENATOR KRUEGER:
                                     Are there any
 5
    protections under this bill for religious
     organizations and hospitals from having to
 6
 7
    perform abortions?
 8
                  SENATOR KRUEGER:
                                     This bill does
 9
     nothing to change existing protections for
10
     individuals or institutions. Both the state and
     federal law contain provisions that protect
11
12
     individuals and hospitals from being forced to
    provide abortion. The Reproductive Health Act
13
     does not eliminate existing state or federal
14
15
     conscience provisions that protect institutions
16
     and providers with moral objection to abortion.
17
                  The existing protections in the law
18
     are included in the New York Civil Rights Law,
     79.I; in the NYCRR, 405.9(B)10. Protections
19
20
     under federal law include 42 USC 300a-7; 42 USC
21
     1396u-2(b)(3), 42 USC 238n, and 42 USC
22
     1395w-22(j)(3)(b), Madam President.
23
                  THE PRESIDENT:
                                   Senator Ritchie.
                  SENATOR RITCHIE: Would the sponsor
24
25
     continue to yield?
```

```
1
                  THE PRESIDENT:
                                   Will the sponsor
 2
     continue to yield?
 3
                  SENATOR KRUEGER:
                                     Certainly,
     Madam President.
 4
 5
                  THE PRESIDENT:
                                   The Senator yields.
                  SENATOR RITCHIE:
 6
                                     Are religious
 7
     hospitals protected if they take steps to protect
 8
     a viable fetus?
 9
                  SENATOR KRUEGER:
                                     Through you,
10
     Madam President, it is the responsibility of the
     medical professional, in coordination with the
11
12
     patient, to handle any circumstances that may
     take place between them and their patient. So
13
     whether or not they're in a religious facility or
14
15
     any other facility, that same standard would
16
     apply.
                  THE PRESIDENT:
17
                                  Thank you, Senator.
18
                  Senator Ritchie.
19
                  SENATOR RITCHIE:
                                     Though I disagree
20
     with Senator Krueger on this bill, I want to
21
     thank her for her responses.
22
                  And I want to say that I am still
     strongly opposed to this bill and will be voting
23
     in the negative.
24
25
                  THE PRESIDENT:
                                   Thank you, Senator.
```

```
Any other Senators wishing to be
 1
 2
     heard?
 3
                  Senator Lanza.
 4
                  SENATOR LANZA:
                                   Yes,
 5
     Madam President. Would the sponsor yield for a
     couple of questions?
 6
 7
                  THE PRESIDENT: Will the sponsor
 8
     yield?
 9
                  SENATOR KRUEGER:
                                     Certainly,
10
     Madam President.
                  THE PRESIDENT: The sponsor yields.
11
12
                  SENATOR LANZA: Thank you,
     Madam President. Through you.
13
                  Senator Krueger, I listened very
14
15
     intently to the discussion. Just a couple of
16
     points of concern.
17
                  You said that the reason this is
18
     being taken out of the penal code is because it
19
     is a medical practice and medical care. As
20
     you're aware, if someone in the State of New York
21
     practices medicine, performs a surgery or does
22
     another medical procedure without having a
23
     medical license, a person that's not a doctor,
     for instance, a quack, currently under our law
24
25
     that would be a crime.
```

```
Do you believe that should continue
 1
 2
     to be the case?
                  SENATOR KRUEGER:
                                     So under New York
 3
 4
     State laws, there are various medical
 5
     practitioners who are licensed to provide
     healthcare services within their scope of
 6
 7
     practice. It includes doctors, nurses, nurse
     practitioners, advanced-practice clinicians,
 8
     nurse midwives.
 9
10
                  So each and all of them, any of
     those professions, have certain standards that
11
12
     they must comply with. Of course they can be at
     risk of malpractice. And if they commit any
13
     criminal activity, each and every one of them
14
15
     potentially would face a criminal charge if they
     in fact performed a criminal act.
16
                  THE PRESIDENT: Senator Lanza.
17
18
                  SENATOR LANZA: Madam President,
     would the sponsor continue to yield?
19
20
                  THE PRESIDENT:
                                   Will the sponsor
     continue to yield?
21
22
                  SENATOR KRUEGER:
                                     Certainly,
     Madam President.
23
                                   The Senator yields.
24
                  THE PRESIDENT:
25
                  SENATOR LANZA:
                                   Through you, Madam
```

```
1
     President. I'm not sure you understood my
 2
     question, Senator Krueger. What I'm saying is
     that -- what I'm asking is if a person who is not
 3
 4
     a doctor, not a healthcare provider, is a
 5
     quack --
                  SENATOR KRUEGER:
 6
                                     Okay.
 7
                  SENATOR LANZA: -- and performs
 8
     surgery on someone or tricks them into paying
     them to perform another medical procedure for
 9
10
     which they are not licensed to do in the State of
     New York, currently that is a crime.
11
                                           That is
12
     within the penal code. Do you believe that
     should continue to be the case?
13
                  SENATOR KRUEGER:
                                     So this bill
14
15
     makes no changes in any standards of New York
16
     State law for finding someone in violation of
     pretending to be a doctor or a healthcare
17
18
     professional and providing healthcare services
19
     that they are not licensed to do.
20
                  So that is currently the law in
     New York State, as we know, and there's nothing
21
22
     in the bill that changes that.
23
                  SENATOR LANZA:
                                   Through you,
     Madam President, will the sponsor continue to
24
25
     yield?
```

Will the sponsor THE PRESIDENT: 1 2 continue to yield? 3 SENATOR KRUEGER: Yes, I will, Madam President. 4 5 THE PRESIDENT: The Senator yields. SENATOR LANZA: 6 Through you, 7 Madam President. I'll take that as a yes, you do agree that that ought to continue to be a crime, 8 in spite of the fact that it's within the context 9 10 of medical procedure. 11 I also listened to you respond to 12 questions from Senator Ritchie concerning 13 protections for pregnant women against domestic 14 violence. And I heard you say that there are 15 adequate protections for victims in that context currently within the Penal Law. And Senator 16 Krueger, I believe that that is the way you would 17 18 want it. 19 A concern I have -- and it's more of 20 a suggestion for your consideration more than it is a question -- is this. Under the current 21 Penal Law -- or I should say if this becomes law 22 in the State of New York, someone who punches a 23 24 woman who's not pregnant and another person who 25 intentionally assaults and punches a pregnant

woman with the intention of having that person abort their fetus would be treated precisely the same.

It seems to me that under those circumstances, there are not, once this becomes law, adequate protections for pregnant women against domestic violence.

SENATOR KRUEGER: Through you,

Madam President, I want to thank the sponsor for
that question.

I'll start out by pointing out that all the major domestic violence organizations within the State of New York have endorsed the Reproductive Health Act and have made very clear that they do not believe removal of abortion from the criminal code puts women at any greater risk of domestic violence. And they also believe that there are criminal charges that can be applied in any and all circumstances when women, whether pregnant or not, are being attacked.

As we know, New York State's first-degree assault, a Class B felony carrying a penalty of five to 25 years -- criminal abortion charges, which we are trying to remove from the law, only carry penalties of two to seven years,

```
and they run concurrent. So the actual charges
 1
 2
     always default to the stricter charge and longer
 3
     time in prison.
 4
                  Judges have the discretion when
 5
     sentencing to increase the penalty for
     particularly violent or brutal crimes.
 6
                                              And you
 7
     might very well see a judge accepting an argument
     of a DA that the attack on a pregnant woman as
 8
     you described meets that standard of a
 9
10
     particularly violent or brutal crime, and a
11
     first-degree assault carries a penalty up to
12
     25 years.
13
                  So again, I'm quite confident that
14
     our courts, our DAs, and our criminal code give
15
     us a broad range of penalties to apply to people
     who commit heinous crimes on others, including
16
17
     pregnant women.
18
                  SENATOR LANZA:
                                   Madam President,
     would the sponsor yield for one more question?
19
20
                  THE PRESIDENT:
                                    Will the sponsor
     yield for one more question?
21
22
                  SENATOR KRUEGER:
                                      I will even yield
     for more than one more question.
23
24
                  THE PRESIDENT:
                                   Thank you, Senator.
25
                  SENATOR LANZA:
                                   I'll keep that in
```

mind.

Thank you, Madam President. Through you. In spite of what that group has said to you, clearly they do not understand the penal code and the relevant statutes, statutes which are -- which bear on this subject.

With respect to assault, the attendant circumstances which aggravate it from one level to another, up to assault 1, as you described, have to do with a number of attendant circumstances. But with respect to that which is relevant to this, it is the injury to the victim.

Were this to be law, the death of the fetus is not an injury to the woman. And therefore, that would not be an aggravating circumstance raising the level of the crime to an assault 1.

So again, Senator Krueger, if this becomes law, punching a woman who's not pregnant in the stomach will be treated precisely the same under our penal code as punching a pregnant woman with the intent of ending her pregnancy and in fact doing so. Do you think that should be the case?

SENATOR KRUEGER: Through you,

Madam President, I have to disagree with my colleague.

I have gone over this with criminal attorneys, and they make it clear to me that judges do have the discretion and that attacking a pregnant woman is a criminal action and can be punished as a harm to the pregnant woman who is being assaulted.

Even earlier today I believe you held a press conference with a woman who went through a tragic situation a few months ago where her boyfriend -- I believe it was a boyfriend -- stabbed her multiple times and basically kidnapped her and held her captive. So the DA is charging with attempted murder and with violent felony assault.

If we have the abortion standard that we do now, he can also charge with abortion, but that's a very short time period of any kind of prison time that would concurrent with the much longer penalties of attempted murder or felony assault.

So I think sometimes we get confused that actually having abortion in the criminal code offers our DAs and our judges a greater

```
scope for penalty, because it does not. But it
 1
 2
     actually does put at risk women who have actually
     found themselves in situations they did not
 3
     imagine themselves in, in places that have
 4
 5
     abortion in its criminal code.
                  So we don't disadvantage any women
 6
 7
     who have been -- hopefully not, but going through
     terrible circumstances, by changing our laws.
 8
     But we do protect a far greater number of women
 9
10
     to be able to get, without discrimination, the
     healthcare services they need throughout the
11
12
     state when they need them.
13
                  SENATOR LANZA:
                                    Thank you,
14
     Madam President. On the bill.
15
                  THE PRESIDENT:
                                   Senator Lanza on
     the bill.
16
                  SENATOR LANZA:
17
                                   Thank you,
18
     Madam President. And on the bill just to this
     point in particular.
19
20
                  I disagree with what my colleague
     just said in that last discussion with respect to
21
     the protections that will exist for the pregnant
22
     women under the circumstances that I described.
23
                  The bottom line is under the current
24
25
     Penal Law, once this becomes law, assaulting a
```

woman who's not pregnant -- punching her, for 1 2 instance, in the abdomen -- will be treated 3 precisely the same in a criminal way as someone 4 punching a pregnant woman in the stomach with the 5 intent to end the pregnancy and in fact ending that pregnancy. Surely that should not be the 6 7 state of the law here in New York moving forward. 8 And my suggestion would be to propose a criminal law which would address the 9 10 concern which I've raised here without changing where this statute finds itself in our law here 11 12 in New York. It would be very simple to do so, and it ought to be done, because we don't want 13 women to find themselves in a situation -- we 14 15 know domestic violence in the State of New York happens, sadly, many times a day, and we want to 16 make sure that women have the protection that 17 18 they deserve to have in the State of New York 19 moving forward. 20 Thank you, Madam President. 21 (Scattered applause from gallery.) 22 THE PRESIDENT: Are there any other Senators who wish to be heard? 23 Seeing and hearing none, the debate 24

25

is closed.

```
The Secretary will ring the bell.
 1
 2
                  Read the last section.
                  THE SECRETARY:
                                   Section 14.
 3
                                                 This
     act shall take effect immediately.
 4
 5
                  THE PRESIDENT:
                                   Call the roll.
                  (The Secretary called the roll.)
 6
 7
                  THE PRESIDENT:
                                   Senator Montgomery
 8
     to explain your vote.
 9
                  SENATOR MONTGOMERY:
                                         Thank you,
10
     Madam President.
                  I just rise to, first of all, thank
11
12
     the sponsor, Senator Krueger, who has been
     working on this for many, many years, and the
13
     Leader even before that, and to thank
14
15
     Senator Salazar for the companion bill that was
     argued.
16
                  And I must say that this is really
17
18
     such a celebration of -- as you know,
19
     Madam Chair, having been chair of the New York
20
     State Suffrage Commission, this is really one of
21
     the most important aspects of what suffrage has
22
     represented. Women's healthcare, women's
     reproductive health was very much part of the
23
     suffrage movement. And today we codify one of
24
25
     the particular issues related to women's health,
```

```
1
     and that is reproductive health.
 2
                  Reproductive health is very much a
 3
     part of who we are, what our needs are. We're
 4
     not separated from every aspect. And this
 5
     procedure, which is the procedure that the
     decision between a woman and her doctor come to
 6
 7
     agree that is best for that woman, is part of the
 8
     health decisions that we have to deal with with
     every other part of our bodies as well.
 9
10
                  So codifying this, removing it from
     the criminal code, making it part of health is
11
     important. And Madam Chair, I think --
12
     Madam President, I think that there's no other
13
14
     vote that is more important as a symbol of
15
     women's suffrage victories in our nation as the
     vote we're taking today.
16
17
                  So I vote aye.
18
                  THE PRESIDENT:
                                   Thank you, Senator.
19
                  Senator Montgomery recorded in the
20
     affirmative.
21
                  Senator Harckham to explain your
22
     vote.
23
                                      Thank you,
                  SENATOR HARCKHAM:
     Madam Chair.
24
25
                  First I would like to thank
```

Senator Krueger for sponsoring this bill, and for all the Senators who worked on this for many, many years before -- certainly before I got here.

I also want to thank advocates on both sides of this issue from my district who I saw in the hallways today and met with. I thank them for their advocacy and for traveling up here.

My daughters grew up in a political household, and they often worked on campaigns, I think, out of a sense of obligation. Well, this campaign they worked on because they wanted to, and their friends worked on because they wanted to. And their friends' mothers worked on this because they wanted to, because of this issue.

This was the motivating issue that drove so many women in my district -- as young as 13 knocking on doors, and we had one woman 97 years old knocking on doors, because they were so motivated, both positively and negatively. The negative motivation was what was happening in Washington and what was a very real threat to their healthcare choice and the right for them to determine their own course of healthcare and what to do with their bodies. And on the positive

```
1
     side, that if we made change politically, we
 2
     could make change today.
                  And so I am very fortunate to be
 3
 4
     here and very proud to say aye on behalf of my
 5
     daughters and all of the other daughters, from 13
     to 97. Thank you.
 6
 7
                  (Applause from the gallery.)
                  THE PRESIDENT:
                                    Thank you, Senator.
 8
 9
                  Senator Harckham recorded in the
10
     affirmative.
11
                  Senator Little to explain your vote.
12
                  SENATOR LITTLE:
                                     Thank you,
     Madam President.
13
                  I think we can all agree today that
14
15
     abortion is a highly sensitive issue. And I
     don't rise today in judgment of anyone, but I
16
     only want to make the point that Roe v. Wade was
17
18
     legal in New York State -- or abortion was legal
     in New York State before Roe v. Wade.
19
20
                  I don't believe the legislation
     before us is necessary, and I am very concerned
21
     about how this bill has been drafted, some of the
22
     language that is in it.
23
24
                  In the past two weeks I've had many,
25
     many calls and emails to my office, and the vast
```

```
majority of them have asked me not to vote for
 1
 2
     this piece of legislation. I am pro-life.
     value the sanctity of life. And I will
 3
 4
     respectfully be voting no on this piece of
 5
     legislation today.
 6
                  Thank you.
 7
                  (Applause from the gallery.)
 8
                  THE PRESIDENT:
                                    I wish to remind
     our guests in the gallery that no additional
 9
10
     applause or voices should be heard at this time.
     Only the Senators have a right to be heard.
11
                  Senator Little to be recorded in the
12
13
     negative.
14
                  Senator Martinez to explain your
15
     vote.
16
                  SENATOR MARTINEZ:
                                       Thank you,

17
18
                  First of all, I would like to thank
     the sponsor for her leadership on this issue.
19
20
                  Today we are faced with uncertainty.
21
     Every year women throughout the state are put in
22
     danger through our current inadequate laws. With
23
     the monumental Roe v. Wade Supreme Court decision
     under constant threat at the federal level, it is
24
25
     critical that we here in the great State of
```

1 New York codify the protections afforded therein 2 and ensure that we protect access to safe 3 healthcare options for women across the state by 4 adopting this resolution. 5 Regardless of my personal opinions, a woman's right to choose and access to safe 6 7 healthcare options are to be left between a woman and her medical professionals. It is for these 8 reasons that I put my personal opinions aside to 9 10 support this bill and vote in the affirmative. THE PRESIDENT: Senator Martinez to 11 be recorded in the affirmative. 12 Senator Gallivan to explain your 13 14 vote. 15 SENATOR GALLIVAN: Thank you, 16 Madam President. I have many concerns and objections 17 18 about this legislation, but I'll confine my 19 remarks to just one and stand for the unborn 20 child. 21 I remember, when my youngest son was 22 born, going with my wife to the doctor's appointments on a monthly basis. And I know that 23 many of my colleagues have shared this 24 25 experience, whether you were the pregnant one or

whether you were the male in the relationship,
and whether it was the ultrasound or the
sonogram, hearing the heartbeat and looking at
that little baby moving around at a very early
stage.

I know most recently Senator Jacobs no doubt had the experience, Senator Benjamin no doubt had the experience.

And I would make the argument, like many, that that little heartbeat and that little -- little thing moving around in the mother's womb is a unique human being. It doesn't meet our definition in the Penal Law of a person, but it has a heartbeat and it is moving and it has an identity.

And I would also venture to say that we have people in this very chamber -- we certainly know people, but there's those in this very chamber that were born premature, in their seventh month or in their eighth month.

So these unique human beings going forward that nobody today is speaking for. We often talk in this chamber about equal protection. Who is providing the protection for these unborn children?

And I hear oftentimes, with many, 1 2 many different things that we talk about -- and I share this feeling that part of the job of 3 4 government and part of what we're here for is to 5 stand up and protect the innocent and protect the most vulnerable. 6 7 I'm very sad to say that in this case, though, today New York State has failed. 8 9 I vote nay. 10 THE PRESIDENT: Senator Gallivan to 11 be recorded in the negative. 12 Senator Parker to explain your vote. 13 SENATOR PARKER: Thank you, Madam President. 14 15 I rise on behalf of the people in my district, the 21st District in Brooklyn, and 16 particularly the women there who have sent me 17 18 here to help protect their rights. 19 And I think that, you know, most of 20 us will agree that a right to choose is one of those fundamental rights. We really shouldn't 21 22 even have to go through this exercise of passing this bill. This should be just kind of a given 23 in the framework of our state government. 24 25 it's not.

And the signals we've gotten from the federal government certainly show us that a woman's right to choose and a woman's decisions about her body are being threatened every single day by this federal government.

And so this was necessary. Without this, medical procedures that have been safe in practice for a number of years in this state will be illegal immediately if in fact things turn badly in the Supreme Court.

And so I'm proud to stand with my colleagues to vote for this bill. I want to thank Senator Krueger for her long toiling in the fields to stand up, you know, for a woman's right to choose; obviously Leader Cousins; and all my colleagues who have contributed to this day and have, you know, stood — in the face of a lot of pressure not to do the right thing, they have found the courage and found the right things to do for not just the people of the state but particularly for the women of the State of New York.

Thank you.

THE PRESIDENT: Senator Parker to be recorded in the affirmative.

```
Senator Amedore to explain your
 1
 2
     vote.
 3
                  SENATOR AMEDORE:
                                     Thank you,
 4
     Madam President. I rise to explain my vote.
 5
                  You know, I share with all of my
     colleagues in this great chamber the importance
 6
 7
     of women's health. But I find it hypocritical
     that we are talking today about women's health
 8
     and yet we haven't heard about the quality and
 9
10
     safety of women's health. Because what this bill
11
     actually does is put women's health and lives in
12
     jeopardy.
13
                  This bill is not simply a
14
     codification. It is a dangerous expansion that
15
     would allow for late-term abortions and would
16
     allow nondoctors to perform them.
                  Bottom line, this bill will put more
17
18
     lives in danger. I vote no.
19
                  THE PRESIDENT: Senator Amedore to
20
     be recorded in the negative.
21
                  Senator Savino to explain your vote.
22
                  SENATOR SAVINO:
                                    Thank you, Madam
     President.
23
24
                  I also want to thank Senator Krueger
25
     and Senator Stewart-Cousins for carrying this
```

bill and moving it through lo these many years since it was first introduced.

It's been said that this is a deeply personal issue, and it is -- for everyone not just in this chamber, but in this state. But I like to think about how different my life has been compared to prior generations. You know, I was 9 years old when Roe v. Wade was decided, so I came of age in an era where women had the right in this state and across the country to have access to a safe, legal abortion.

And I think back to my great-grandmother. She came to this country at the age of 17, met a young man on the boat, and before she docked at Ellis Island, she was already carrying the first of what would be 18 pregnancies -- 14 live births, the oldest of which was my grandmother. She buried six of her children before they made the age of five. That was a woman's lot in life. That's what happened.

She didn't have access to birth control, but I would guarantee you she wished she had. Even though she loved all of her children, the struggle of giving birth to that many children, caring for them, providing for them,

experiencing that level of loss was normal for 1 2 That's what happened. Until birth control became available, when women were finally 3 4 able to take control of their reproductive health 5 so they could plan their families, so that they could be able to be the kind of mother that they 6 7 wanted to be, not worrying about losing children to disease, making sure that you were able to 8 feed them and clothe them. 9 10 That's what this is really about. It's not about abortion, although that's a part 11 12 of it. It's not about contraception, but that's a part of it. It's about allowing women to 13 really be fulfilled as women and as parents and 14 15 choose the kind of family they want. 16 So yes, it's deeply personal. think that we're taking a step forward. 17 I think 18 of my great-grandmother and what she would say. 19 She would say vote yes for this bill, give her 20 and others the kind of opportunity that her 21 great-granddaughter had to make choices, and the right ones, for her own family. 22 23 Thank you, Madam President. THE PRESIDENT: Senator Savino to 24 25 be recorded in the affirmative.

Senator Jordan to explain your vote. 1 2 SENATOR JORDAN: Thank you, Madam President. 3 4 Legislation has been rushed through 5 this past week without enough thought. Voting reform bills were passed with no funding in 6 place, no electronic poll books for EDs for 7 integrity of registration and voting. And no 8 statewide broadband, which is a fumble in terms 9 10 of logistics. 11 GENDA was passed with a definition 12 that could backfire against a well-meaning person 13 because it wasn't readily apparent to that person 14 how an individual perceived themselves on a 15 particular day. RHA, or late-term abortion, is 16 another bill not given enough thought but will 17 18 pass anyway given the super-majority in both The Liv Act presented today was to 19 houses. 20 correct what RHA forgot when it stripped abortion from the Penal Law. 21 Not only do I take issue that bad 22 bills are being passed for the sake of a hurried 23 progressive agenda, but I specifically take issue 24 25 with RHA. I'm pro-life. But even if you're

pro-choice, the bill should give anyone cause for concern.

The present law in New York won't change. For the first 24 weeks of pregnancy, a woman can have an abortion without an excuse, and that's sad enough. But RHA allows for abortion at any time up until the moment of birth to protect the patient's life or health. The breadth of this is just too broad. The lack of a definition of a patient's health makes abortion a free-for-all. It enables anyone to claim mental distress as part of their health concern.

We're a feel-good, throw-away society. If something interferes with your mental health, forget it. Get rid of it. If you don't like it, throw it away. If it's inconvenient, toss it. If it's too expensive to maintain, get rid of it. If it doesn't fit your lifestyle, throw it away.

A baby inside its mother is not an inanimate object, it's a life. It has a heartbeat, it can hiccup, it can kick, it can hear its mother's voice and music, it can feel pain.

The next time you throw something

```
away or hear a baby cry in pain, think of what
 1
 2
     you're allowing to be tossed away with a yes
     vote. And I speak for thousands of emails that
 3
     I've received even before I took my oath of
 4
 5
     office.
                  I vote no.
 6
 7
                  THE PRESIDENT:
                                   Senator Jordan to
     be recorded in the negative.
 8
 9
                  Senator Carlucci to explain your
10
     your vote.
                  SENATOR CARLUCCI:
11
                                       Thank you,
     Madam President.
12
13
                  I too want to thank Leader
14
     Stewart-Cousins and Senator Krueger for
15
     supporting this important legislation.
16
                  And this legislation is about access
     to quality, safe reproductive healthcare for
17
     every woman in the State of New York. And about
18
     allowing every woman in the State of New York to
19
20
     have control over their own destiny.
21
                  Now more than ever, from what we
22
     hear coming out of Washington -- from members of
     the Supreme Court, from our president -- we in
23
     New York have to stand up to codify Roe v. Wade
24
25
     to make sure that every woman in New York State
```

```
has the right to choose and make those decisions
 1
 2
     for themselves.
 3
                  So I will be supporting and voting
 4
     yes on the Reproductive Health Act. I want to
 5
     thank my colleagues for doing the same.
                  Thank you, Madam President.
 6
 7
                  THE PRESIDENT:
                                   Senator Carlucci to
 8
     be recorded in the affirmative.
 9
                  Senator Boyle to explain your vote.
10
                  SENATOR BOYLE: Madam President, to
     explain my vote.
11
                  We've had legal abortion in this
12
     state for almost 50 years. And I don't remember
13
14
     a great outcry or rallies saying that women did
15
     not have access to this.
16
                  What I hear about this bill over and
17
     over again is we are afraid the Trump
18
     administration, the Supreme Court, is going to
     overturn Roe vs. Wade. So my question is, why do
19
20
     we want to pass a law hewing our reproductive
21
     health laws closer to Roe vs. Wade? We already
     had it. It's just going to confuse people. I
22
     don't think the Supreme Court is going to
23
     overturn Roe vs. Wade. If they do, it's going to
24
25
     cause tremendous confusion on the part of
```

```
millions of our constituents here in New York
 1
 2
     State.
 3
                  I particularly have a great concern
 4
     with nondoctors performing these procedures.
 5
                  I'll vote in the negative.
                  THE PRESIDENT:
 6
                                    Senator Boyle to be
 7
     recorded in the negative.
 8
                  Senator Biaggi to explain your vote.
 9
                  SENATOR BIAGGI:
                                     Thank you,
10
     Madam President.
11
                  First I want to start by thanking
     the sponsor of this bill. Senator Krueger, thank
12
     you very much for never giving up on the
13
     Reproductive Health Act. Also to Leader
14
15
     Stewart-Cousins for all of her work in support of
     this bill as well.
16
                  Fifteen months ago while working for
17
18
     the Governor, I was assigned to support the
     passing of this bill but was destined to fail, as
19
20
     I would soon learn. Two months ago, supported by
     a wave of grassroots enthusiasm, Planned
21
     Parenthood, NARAL, WCLA, NIRH, I had the great
22
     honor of being elected to join this body.
23
                  Today I am proud to play my part in
24
25
     making the Reproductive Health Act become law and
```

to finally finish the assignment I was given.

This is a pivotal moment for the women of New York, and it is long overdue. Today we vote to codify Roe v. Wade into law and finally remove abortion from our Penal Law to place it where it has always belonged, into our Health Law. And in doing so, we protect ourselves from a Supreme Court that will overturn Roe v. Wade at the first chance that they get. I wish we still didn't have to worry about that, but I'm proud of us for recognizing the threat and for acting.

I hope that all of New York is watching today and that they recognize that elections have consequences and that when you vote for people who stand up for your rights, your rights become protected. To disrupt the status quo and make this vote possible, it took communities across the state fighting to deliver a Democratic majority to this chamber. And a lot of powerful people said that it could never happen.

So often people who stand up to claim their rights, women who rise to claim their rights, people of color who rise to claim their

rights, are told no, not now, later. And 1 Soon. 2 today we say no, not later, not soon, now. 3 It is true, the work of claiming 4 your rights can make other people uncomfortable. 5 But then, being uncomfortable is part of the Today we counter what's going on at the 6 work. 7 highest levels of our government with a different kind of politics, a transformational politics of 8 love and courage that takes the powers vested in 9 10 our elected leaders and uses them to lift up and 11 energize our communities. 12 I am proud of this Legislature, and I am humbled to be part of today's historic vote 13 14 for women. Madam President, I vote aye. 15 THE PRESIDENT: Senator Biaggi to be recorded in the affirmative. 16 Senator Seward to explain your vote. 17 18 SENATOR SEWARD: Thank you, Madam President, to explain my vote. 19 20 You know, personally I consider the New York law going back to 1970, as well as the 21 22 Roe v. Wade and other subsequent court decisions, to be what I would call settled law and 23 precedent. And I understand the push to update 24 25 and modernize our reproductive and women's health laws in the state. But my concern is that this legislation before us today goes way beyond simply codifying Roe v. Wade, to the detriment of women's health.

For example, allowing nondoctors to perform abortions under this legislation before us. And it would also repeal a number of key Public Health Law provisions that protect both the mother and the viable unborn fetus. And to repeal these provisions is both inhumane and irresponsible, to say the least.

I have further concerns about this legislation actually removing the state's ability to prosecute any person who performs an abortion outside the legal parameters, enabling unsafe back-alley abortions. And it eliminates provisions that would increase penalties for assaulting a pregnant woman, causing the death of an unborn child.

So, Madam President, for these reasons I stand to say I vote in the negative.

THE PRESIDENT: Senator Seward to be recorded in the negative.

Senator Metzger to explain your vote.

1 SENATOR METZGER: Thank you, 2 Madam President. 3 I am proud to cosponsor and cast my 4 vote in support of the Reproductive Health Act 5 today, and thank Senator Krueger for her leadership and our Majority Leader for her 6 7 leadership and all of our colleagues who have 8 worked on this. 9 This legislation has been long 10 awaited by women and men throughout the state, nearly eight out of 10 of whom support a woman's 11 right to choose. 12 13 I don't take this vote lightly, and 14 I respect those who oppose abortion on the basis 15 of their personal and religious beliefs. But I 16 firmly believe that a woman has a fundamental right to full autonomy over her own body and that 17 18 New York State's law did not adequately recognize 19 this right or sufficiently protect women's 20 health. 21 Today we modernize this law, classify it as a medical matter and not as a 22 criminal matter. 23 As the representative of the most 24 25 rural district in the Democratic Conference, I

```
1
     want to emphasize the importance of the RHA's
 2
     provision enabling licensed nurse practitioners,
     physician assistants and other qualified
 3
 4
     healthcare professionals to provide abortion
 5
     services.
                  Health outcomes for women across the
 6
 7
     board are worse in rural areas, in part because
 8
     of a lack of access to healthcare. This
 9
     provision of the RHA will make abortions safer
10
     and more accessible in underserved rural
11
     communities where doctors are few and far
12
     between.
13
                  Thank you very much.
14
                  THE PRESIDENT:
                                    Senator Metzger to
15
     be recorded in the affirmative.
16
                  Senator Helming to explain your
17
     vote.
18
                  SENATOR HELMING:
                                     Thank you,
     Madam President.
19
20
                  First I'd like to say that I stand
21
     in judgment of no one. What your decision is,
22
     it's your personal decision. I have no opinion
23
     on that.
                  But I do find that so much of the
24
25
     discussion about the RHA has been misleading,
```

starting with the sponsor's memo that states that "This bill relates to access to reproductive services and updates New York State's abortion status to address constitutional flaws in our laws."

It's my opinion that the RHA is an extreme expansion of abortion rights that goes far beyond codifying Roe v. Wade. It does nothing to safeguard the rights of women who choose to bring their babies to term. In fact, it exposes them to additional risk.

By removing these regulations from penal law and putting them into health law, the Legislature is sending a message that New York does not value the choices of women who want to bring their babies to full term but don't have that opportunity because of the unlawful, criminal actions of another person.

Once again we'll be reading in the papers, the politicians will get all the headlines. And you know who won't be heard from again? The victims of violence. They'll pay the price for this action and the passage of this bill.

This radical proposal will

1 fundamentally alter our current laws and take 2 away important protections for victims of all forms of violence and their unborn children. 3 4 Earlier today we heard the tragic story of Liv, 5 about the domestic violence and the abuse that she suffered and the end result, the loss of her 6 7 unborn daughter. 8 Under the measure passed in the house today, it's my belief that law enforcement 9 10 will not be able to levy more serious charges on those who kill unborn children. Whether it's 11 during a domestic violence incident or a drunk 12 driving case, this is just unconscionable. 13 Ensuring justice for victims of violence should 14 15 be a priority for each person here. 16 I also feel that allowing abortions up until the moment of birth is an extreme 17 18 position and is definitely out of step with the 19 feelings of the majority of the people that I 20 represent. And for those reasons, 21 Madam President, I will be voting nay. 22 THE PRESIDENT: Senator Helming to 23 be recorded in the negative. 24 25 Senator Mayer to explain your vote.

1 SENATOR MAYER: Thank you, 2 Madam President. First I want to thank the sponsor, 3 4 Senator Krueger, and a special thanks to our 5 leader, Senator Andrea Stewart-Cousins, who in 2007, when I was a staffer here, introduced the 6 7 Reproductive Health Act and faced significant consequences in our district for her courage at 8 that time. 9 10 I also want to thank the advocates, many of whom are here today, who have been 11 12 relentless in making the case that regardless of one's personal choices, the ability to make the 13 most private and intimate decision about whether 14 15 to have a child belongs to a woman and her health practitioner. 16 And I want to acknowledge that they 17 18 have changed the minds of people, including those 19 who would not choose to have an abortion, in 20 recognizing that it is a function of government to protect the personal autonomy of women and 21 22 their ability to make this most, in many cases, difficult of choices. 23 I want to be particularly 24 25 appreciative that we have moved the provisions

```
1
     that govern abortion into the Public Health Law,
 2
     where I have long thought they belonged, as do
     other procedures in health. And that this is an
 3
 4
     essential function of our democracy, granting
 5
     personal autonomy to make difficult choices.
                  So I'm so pleased to be voting in
 6
     the affirmative. It's a somber and serious
 7
     subject; it deserves that kind of attention. I'm
 8
     glad we have that today. But I'm proud to be
 9
     voting in the affirmative, and I thank my
10
     colleagues on both sides of the aisle for their
11
12
     thoughtful remarks as we pass this historic piece
     of legislation.
13
14
                  Thank you.
15
                  THE PRESIDENT:
                                   Senator Mayer to be
     recorded in the affirmative.
16
17
                  Senator Rivera to explain your vote.
18
                  SENATOR RIVERA:
                                     Thank you,
     Madam President.
19
20
                  It has been said already but it has
21
     to be said one more time. Thank you,
     Senator Krueger, for bringing this to the floor.
22
     Thank you to our Majority Leader, who back in
23
     2007, when Senator Mayer was a staffer here and I
24
25
     was a staffer there -- I was her chief of staff
```

back in 2007 when she brought this piece of legislation to the floor -- I'm sorry, when she brought it to the Senate. It's being brought to the floor today for the first time.

This is ultimately an issue about basic autonomy of women. That's what it boils down to. The idea that it is not -- that Roe v. Wade is not at risk from the national government is laughable. It is absolutely at risk. And ultimately changing that at the federal level leaves thousands if not millions of women all across the country with no protection.

We're making sure that that is not the case in the State of New York. I'm very proud to vote in the affirmative on this.

And for those of you -- I know that some of you actually care a lot about my Facebook posts. I got something this morning, it was a reminder -- you know that thing that says, you know, eight years ago, two years ago, three years ago. It said eight years ago -- this is true -- eight years ago, January 22, 2011, I wrote a Facebook post that said "Today is an important day, the 38th anniversary of Roe v. Wade. Let us not forget that we must continue to defend a

```
woman's right to choose." And so I posted it
 1
 2
     with a message today that says "Eight years ago I
     was commemorating the date with words, and today
 3
 4
     I celebrated it by moving the Reproductive Health
 5
     Act out of the committee that I chair." So what
     a difference a majority makes.
 6
 7
                  I'm very proud to be standing here
     on this floor to vote in the affirmative. I am
 8
     sad that we'll not be wearing these {indicating
 9
10
     scarf } next year --
11
                  (Laughter.)
12
                  SENATOR RIVERA: -- but then again,
     I might just wear it the entire year in any
13
14
     event.
15
                  So again I vote in the affirmative,
     Madam President. Thank you.
16
                  THE PRESIDENT:
                                   Senator Rivera to
17
18
     be recorded in the affirmative.
19
                  Senator Stavisky to explain your
20
     vote.
21
                  SENATOR STAVISKY: Yes, thank you,
     Madam President.
22
                  And thank you to Senator Krueger,
23
     Senator Stewart-Cousins, but also the advocates
24
25
     who have really persisted. And today you're
```

```
seeing the fruits, I think, of the labor.
 1
 2
                  I think it was Senator Savino who
     mentioned pre-1970 days. And I remember those
 3
 4
     days where people had to go to another country,
 5
     if they could afford it, or another state or a
     back alley if they couldn't afford traveling.
 6
 7
     And those days, fortunately, have changed.
 8
     They've changed in a remarkable way.
 9
                  And I am very proud here to say that
10
     in 1970 when the bill came before the Assembly,
     my husband voted for it, took a lot of heat back
11
12
     home in his district. And I very proudly vote
     aye today.
13
                  Thank you, Madam President.
14
15
                  THE PRESIDENT:
                                    Senator Stavisky to
     be recorded in the affirmative.
16
                  Senator Hoylman to explain your
17
18
     vote.
19
                  SENATOR HOYLMAN:
                                      Thank you,
20
     Madam President.
21
                  I join my colleagues in
22
     congratulating Senator Krueger and Leader
     Stewart-Cousins and Senator Metzger and
23
     Senator Salazar for this package of historic
24
25
     bills. And also to the activists. We have
```

drawerfuls of magenta scarves and bow ties and the like. So we'll have to figure out something to do with them moving forward.

But I was thinking about the fact that the last time we updated our laws, as Senator Krueger said, was 1970 in this regard. And if you think about it, like where in human health have we not updated the laws for that long a period? And if you think about it, it's like the fact that we have been frozen in time here in the Senate is going to change.

So I'd like just to mention in 1970 the Beatles were still a group, a postage stamp was 6 cents, people still mailed letters. Marcus Welby, M.D., was the top-rated TV show. So all of that I think points to the fact that we are finally addressing an issue that's long overdue.

And I was speaking to a couple in my office in New York City last week. Erika Christensen -- I think a number of you know her story, but it bears repeating. In 2016 Erika, at 31 weeks pregnant, went for a medical visit and found out the fetus she was carrying would not be able to survive after delivery.

Because of our outdated abortion

```
laws, she had to fly to Colorado,
 1
 2
     Madam President, to begin the process of a
     third-trimester abortion. She flew back to
 3
     New York and had a stillbirth. And then she
 4
 5
     became an advocate and started to share her story
 6
     publicly.
 7
                  In Colorado, while she was there,
     she wrote: "I lay on the table, looking up at
 8
 9
     the ceiling. My internal questions played like a
10
     tape over and over in my mind: Why am I here?
     Did New York expect me to carry this baby to term
11
12
     only to watch him suffer and die? Since then,
     I've tried to answer that second question.
13
14
     only answer, " she writes, "I've come up with is
15
     yes."
                  Today on the floor I think we all
16
     owe New Yorkers like Erika our heartfelt apology
17
18
     for not having acted sooner.
19
                  And at the same time Erika was
20
     flying out to Colorado in 2016, Donald Trump was
21
     asked about what he wanted to see happen to Roe
     v. Wade. And he said, I quote: "Well, if we put
22
     another two or perhaps three justices on the
23
     Supreme Court, that's really what's going to
24
25
     happen, that will happen" -- I'm apologizing for
```

```
1
     Donald Trump's writing --
 2
                  (Laughter.)
                  SENATOR HOYLMAN:
 3
                                      -- "and
 4
     automatically, in my opinion, because I am
 5
     putting pro-life justices on the court."
                  Well, we know Donald Trump has
 6
 7
     already gotten two justices on the court.
 8
     Nationwide, abortion rights are under threat.
                                                     We
     are not acting a moment too soon in New York.
 9
10
                  Thank you, Madam President.
11
                  THE PRESIDENT:
                                    Senator Hoylman to
     be recorded in the affirmative.
12
13
                  Again, please restrain the applause
     and the outbursts at this time.
                                      We need to
14
15
     maintain decorum in these chambers.
16
                  Senator Liu to explain your vote.
17
                  SENATOR LIU:
                                 Thank you,
18
     Madam President, for the opportunity to explain
19
     my vote on the Reproductive Health Act.
20
                  First let me congratulate Senator
21
     Salazar on the passage of the Comprehensive
     Contraceptive Coverage Act, her bill, and also
22
     Senator Metzger on the passage of the Boss Bill.
23
     Like the RHA, those bills also address issues of
24
     women's health.
25
```

1 And I want to thank Senator Krueger 2 for her steadfast leadership and advocacy on this very important issue at hand. 3 4 You know, in the interests of full 5 disclosure, I'm a guy. I'm a man. 6 (Laughter.) 7 SENATOR LIU: And as a man, the 8 State of New York does not tell me what to do 9 with my body. They do not tell me how to 10 restrict my choices of health. And the State of New York neither should tell a woman what to do 11 12 with her body and to restrict her choices as well. 13 That's what this is about. It's 14 15 about codifying, it is about making a -recognizing a woman's right to choose as a matter 16 of health. It doesn't belong in the criminal 17 18 statutes, it belongs in our health laws for the State of New York. 19 20 So I proudly vote yes. I proudly 21 cosponsor the Reproductive Health Act. I want to 22 thank the advocates. Brad took my -- I was going 23 to thank Erika Christensen and also Garin Marschall, of RHAVote, among many other advocates 24

who have relentlessly pursued this issue.

25

```
1
                  This should have been passed a long
 2
     time ago, but we pass it today, and I proudly
 3
     vote aye.
                Thank you.
 4
                  THE PRESIDENT:
                                   Senator Liu to be
 5
     recorded in the affirmative.
                  Senator Thomas to explain your vote.
 6
 7
                  SENATOR THOMAS:
                                     Thank you,
 8
     Madam President.
 9
                  Thank you to the sponsor of this
10
     bill.
11
                  And I just want to say women's
     rights are human rights. And in 2019 we're still
12
     debating what a woman can do with her body, and
13
     this is unacceptable.
14
15
                  I've heard a number of my Republican
16
     colleagues ask why is this bill necessary.
     bill is necessary because of the assault on
17
18
     women's rights by the federal government, and
19
     because of who has been appointed to the U.S.
20
     Supreme Court.
21
                  And in debates like this, I would
22
     like to quote Ruth Bader Ginsburg: "It is
     essential to woman's equality with man that she
23
     be the decisionmaker, that her choice be
24
25
     controlling. If you impose restraints that
```

```
impede her choice, you are disadvantaging her
 1
 2
     because of her sex."
                  On that basis, Madam President, I
 3
 4
     vote yes.
 5
                  THE PRESIDENT:
                                    Senator Thomas to
     be recorded in the affirmative.
 6
 7
                  Senator Sepúlveda to explain your
 8
     vote.
 9
                  SENATOR SEPÚLVEDA:
                                        Thank you,
10
     Madam President, for allowing me to explain my
11
     vote.
12
                  I applaud the sponsors of these
     bills, Senators Krueger, Salazar, Metzger and of
13
14
     course our Senate Majority Leader, Andrea
15
     Stewart-Cousins, and my colleagues and the
     advocates for their strong work to protect
16
     New York constitutional rights with this historic
17
18
     act to protect a woman's right to choose, a
19
     choice that I believe should be exclusively a
20
     woman's choice and no one else.
                  As the Trump administration fights
21
     to reverse Roe v. Wade, New York must act now to
22
     recognize that a woman has the fundamental right
23
     to make her own medical decisions in all facets
24
25
     of healthcare, including her reproductive
```

choices.

Since the Roe decision, there have been constant attacks on a woman's reproductive rights. We cannot allow this constitutional right to erode any further than it already has.

The Reproductive Health Act would shield New York from this constant threat. Our conference has made historic strides here in the first couple of weeks, and I'm incredibly proud to be standing here today on the anniversary of the 1973 historic Supreme Court decision Roe v. Wade, in my pink bow tie, to vote in support of the Reproductive Act as we realize another legislative milestone.

I will be voting in the affirmative.

THE PRESIDENT: Senator Sepúlveda to be recorded in the affirmative.

Senator Ortt to explain your vote.

SENATOR ORTT: Thank you,

Madam President.

I rise because I've heard a number of my colleagues from the Majority talk today about the assault by the federal government. But what must be recognized and pointed out is the fact that this bill has been around long before

```
1
     President Trump was even in office, when we had a
 2
     Democrat in the White House and there was no
     assault. So those claims are disingenuous at
 3
     best and a fabrication at worst.
 4
 5
                  The reality is this bill can be
     distilled really into one clear aspect, and I
 6
 7
     want to attach my comments to my colleague
     Senator Gallivan's. The reality is this bill
 8
     today clearly defines -- with the move from the
 9
10
     criminal statute to a different part of the law,
     it basically says that we simply do not place any
11
12
     value, legally speaking, on the life of the
     unborn child, even up to the last minutes of --
13
     almost up to birth.
14
15
                  There is no legal protection or
16
     legal value on that child's life, and the reason
     is because it undercuts the larger argument.
17
18
                  And so for those reasons,
     Madam President, I proudly and regrettably vote
19
20
     no.
21
                  THE PRESIDENT:
                                    Senator Ortt to be
22
     recorded in the negative.
                  Senator Jackson to explain your
23
24
     vote.
25
                  SENATOR JACKSON:
                                      Thank you,
```

Madam President.

I rise this afternoon and as many of you know, I said I represent a large part of Manhattan. And I say to you that during my campaign to become the New York State Senator representing the 31st Senatorial District, hundreds and hundreds and hundreds of activists communicated with me how important it is that we pass the Reproductive Health Act here in the New York State Senate. And many of them voted for me just for that reason. And if I did not vote for it tonight -- today or this afternoon, they would be very, very disappointed.

And I say to you that this bill has been pending for years and has not been done by the New York State Senate. And I understand people's personal beliefs. And in fact I've communicated to people in my district that there are people outside with placards handing me information and talking to me, and I respect their right to do that. And in fact you know that is true democracy in action.

And to say that today is a failure,

I don't agree with that. This is a good day in

New York State. We're passing a law -- and some

people may say, well, it's this or that, it's not 1 2 perfect. Democracy isn't perfect. But this is going to help so many people deciding what they 3 want to do and not be criminalized for it. 4 5 And so on behalf of all the people that are in favor of it from the 31st Senatorial 6 7 District in Manhattan, I vote aye, and I thank you for your time and attention. 8 9 THE PRESIDENT: Senator Jackson to 10 be recorded in the affirmative. 11 Senator Gaughran to explain your 12 vote. 13 SENATOR GAUGHRAN: Thank you, Madam President. And I will be brief because I 14 15 think we would like the Governor to sign this before the end of the day, and we're starting to 16 run out of time. 17 18 But I too would like to thank so much Senator Krueger and Senator Stewart-Cousins 19 20 for sponsoring this, and the organizations and 21 the activists that have fought so hard for this 22 for so many years. 23 And I do have to disagree with my Republican colleagues, while I respect 24 25 everybody's right on this issue, and it's a very

```
1
     personal decision. But I do have to disagree
 2
     with their concept that this is perhaps
 3
     theoretical. Unfortunately, I am convinced that
 4
     we may be seeing Roe v. Wade overturned, and
 5
     maybe sooner than later.
                  So it is vital that we pass this
 6
 7
     bill today.
                  And Madam President, I vote aye.
                  THE PRESIDENT:
                                   Senator Gaughran to
 8
     be recorded in the affirmative.
 9
10
                  Senator Kaminsky to explain your
11
     vote.
12
                  SENATOR KAMINSKY:
                                       Thank you,
     Madam President.
13
14
                  I just want to not only thank the
15
     sponsor and our Majority Leader, but just make a
     quick point about the arguments that have been
16
     made for decades about this and how what we're
17
18
     doing today fits that.
19
                  So for years people have complained
20
     about the Supreme Court decision and how it
21
     usurped democracy and a state's ability to make
     decisions for themselves. There's been a steady
22
     drumbeat trying to push back on Roe v. Wade, laws
23
     passed all over the country saying that a woman
24
25
     must listen to a heartbeat of a fetus before
```

making a decision, parental consent, on and on and on, a steady erosion of the right that the Supreme Court put in place.

mandate in an election where this was front and center and every scare tactic about this bill was put front and center, in church bulletins and on throughout, certainly in my district, voters made a decision that a woman's right to choose should be paramount in this state. Because in this state where they choose to live, it matters, and it matters to the point that we're going to be leading the country. And if you don't like that, then there are plenty of other places that have different laws, and we can vote with our feet if we want to.

But our voters sent us here with a clear mandate. That mandate is being exercised today in the most democratic, straightforward way. I'm very proud to support the Reproductive Health Act. I vote aye.

THE PRESIDENT: Senator Kaminsky to be recorded in the affirmative.

Senator Tedisco to explain your vote.

SENATOR TEDISCO: Madam President and my colleagues, for a while now the citizens of New York State have been waiting to see what the agenda will be like with the new legislature. And today I think they see it as a very sad day and a sad agenda.

I think today what they see, and over the past two weeks, is another addition to those two weeks so far, of a radical, extreme, regressive agenda for New York State. Let me repeat that: A radical, extreme, regressive agenda for New York State. Because I think we're moving backwards today.

I say it's regressive because just last week the extreme regressives in this room hailed the Governor for standing up -- and I'm not opposed to it -- and suggesting we have to increase the penalties for those who would perpetrate violence or harm on reporters in New York State. And I don't have a problem with that. I think it's a good thing. They're important.

irony. As we want to move legislation in that area, we want to minimize, reduce or eliminate

the protections for the most vulnerable in our population. And others have talked about that. Those who cannot protect themselves, those who do not have a voice. But, as others have stated here, those who are alive and living in the body of a woman -- really not the body of a woman, a separate body within a woman.

I would suggest to you if a child was born on the outside growing out, how would you feel about destroying it? Still part of the mom, the woman.

The most important thing we should be doing while this is legal now, this process, this procedure -- and we've always agreed upon that. Pro-choice and pro-life individuals have always agreed upon one thing. If it's legal and it's going to be done, we want to protect the life and the safety of the mom and the woman.

As has been pointed out, this bill really doesn't do that. You don't want an acupuncturist or a masseuse providing this particular procedure for a woman. That's not going to protect that individual. I don't know what the Education Department is going to decide. I know I would want a medical doctor to do this

```
procedure. We can respect women that much, if it
 1
 2
     is indeed legal.
                  But the irony is a bill put out to
 3
 4
     protect human beings, and today to minimize and
 5
     maybe eliminate any protections against violence
     for an unborn child. I think we could do both.
 6
 7
     We should put it in one bill --
 8
                  THE PRESIDENT:
                                   Senator Tedisco --
 9
                  SENATOR TEDISCO: -- protect
10
     reporters and protect unborn children.
11
                  THE PRESIDENT:
                                   Senator Tedisco,
12
     your time has lapsed. How do you vote?
                  SENATOR TEDISCO: Thank you,
13
     Madam President.
14
15
                  THE PRESIDENT: How do you vote?
     How do you plan to vote?
16
                  SENATOR TEDISCO:
17
                                     I vote no.
18
                  THE PRESIDENT: Senator Tedisco to
     be recorded in the negative.
19
                  Senator Bailey, please explain your
20
21
     vote.
22
                  SENATOR BAILEY:
                                    Thank you,
     Madam President. I will be very brief.
23
                  Senator Krueger, thank you for your
24
25
     defense and dissertation about this very
```

- important health topic. Leader Stewart-Cousins, thank you for introducing it upon your introduction to the State Senate. We are appreciative. And when I say "we," I don't mean just members of this body, I mean women all around the State of New York. Ladies and gentlemen, we're talking about choice. This is not compulsory. There is nothing in this bill that says you must get an abortion if you qualify ABC or XYZ. This is about a choice.
 - I am not of the opinion that we should be taking choices away from people, much less a woman. Much less a woman having to do with her own body.

Senator Liu, you hit the nail on the head when you said that I would imagine there's no equivalent in this state law that indicates that a male should not have a procedure for him to reproduce. When we think about putting those restrictions on men, we should think about putting restrictions on women. We haven't done it for men, and today we're no longer going to do it for women.

Senator Krueger, thank you for

standing up. I vote aye, Madam President. 1 2 THE PRESIDENT: Senator Bailey to be recorded in the affirmative. 3 4 Senator Gianaris. 5 SENATOR GIANARIS: Thank you, Madam President. 6 7 I have just three words to say about the passage of RHA today. It's about time. I've 8 heard a number of my colleagues talk about how 9 10 we're moving too quickly and we've passed a lot of things in the last three legislative days. 11 12 Well, they'd better get used to it, because we are just getting started and there are going to 13 14 be a lot of things that are going to pass in this 15 house that have been held up for way too long. And by the way, it's not as if these 16 bills have not had their day in the sun for 17 18 public discussion. RHA was introduced over a decade ago. GENDA was first introduced in 2003. 19 20 Some of the election reform bills we passed last week I introduced when I was in the Assembly. 21 So let's be clear, these are things 22 that people want, these are things that people 23 have been demanding, and these are things that 24 25 have been held up for way too long. If we want

1 to talk about who's regressive and extreme, I 2 would submit to the Minority that they're in the minority because they have been deemed regressive 3 4 and extreme by the voters of this state. 5 We are the ones who have campaigned on these issues. We are the ones who won 6 7 elections on these issues. And we know that the people of this state have been demanding progress 8 on these and the additional issues you're going 9 10 to see coming tomorrow and the week after that and the week after that and the week after that. 11 12 So I submit to my colleagues on the other side they'd better roll up their sleeves 13 and get ready for some real work, because there 14 15 has been things that have been held up and on the shelf in this state for way too long. And as for 16 RHA and everything else we're going to pass, it 17 18 is about time we're finally getting it done. 19 I vote aye. 20 THE PRESIDENT: Senator Gianaris to be recorded in the affirmative. 21 22 Senator Krueger to explain your 23 vote. 24 SENATOR KRUEGER: Thank you, 25 Madam President.

I want to thank my colleagues on both sides of the aisle.

I have to say I wish that my colleagues who oppose this bill had spent more time debating me, because then they might have learned more details about what is actually in this bill versus some of the things I've heard during the comments which are simply not true. There's nothing radical about this bill.

The decision about whether to have an abortion is deeply personal. It involves a complex weighting of woman's unique circumstances, her medical needs, her private morality, and her own body.

I value the sanctity of life, women's lives. And I remind everyone that what goes on in the course of a pregnancy can be extremely different from person to person. This is why it is a decision that must be made by a woman and her healthcare provider alone, not by us in government.

Our abortion laws, once groundbreaking, are now almost 50 years old. They did not meet the standard set by Roe v. Wade, and they do not reflect modern medical

about being worried about masseuses performing abortions -- I hope everybody knows that in modern times, four out of five abortions involve the taking of two pills provided by licensed, approved medical providers. Just two pills, licensed providers.

It should not have taken this long to get to this day. Forty-six years today since the Roe v. Wade decision in 1973. And I am so proud that Sarah Weddington is here on the floor with us today so we can thank her for her lifetime dedication. She debated the original bill before the federal Supreme Court. And I think everybody, wherever you are on this bill, I would just like to ask you to rise and applaud Sarah Weddington for her amazing life and work.

(Extended standing ovation.)

SENATOR KRUEGER: And you know, we still have not learned how to talk to each other about this complex issue. Thirty percent of American women will have an abortion by the age of 45. That's one out of four. And I doubt we could find one who said it was easy and who did not think long and hard about their decision.

And yet we still do not allow people a place to discuss their feelings, emotions and experiences because laws and attitudes make them feel at risk. We will never know how many New York women have suffered and even died because of our antiquated laws preventing them from getting the care they desperately needed, particularly low-income women and women of color.

But laws are not enough. We need to move further to ensure that our healthcare providers are trained and available in every county in our state and no one faces prohibitive costs in order to meet women's needs near where they live.

Today we are turning a page, and I'm very proud to be a small part of that with my colleagues here today and my leader, Andrea Stewart-Cousins. By enacting the Reproductive Health Act, the CCCA, and the Boss Bill, New York will once again take the lead in the nation on women's reproductive healthcare and we will help ensure that all New Yorkers have the freedom and opportunity to make their own decisions about their health and their families.

I proudly vote aye, Madam President.

THE PRESIDENT: 1 Senator Krueger to 2 be recorded in the affirmative. 3 Senator Kaplan to explain your vote. 4 SENATOR KAPLAN: A woman's decision 5 to choose motherhood is deeply personal. decision that should be made by her, without 6 7 interference by the government. For too long, too many barriers have been put up to prevent 8 women from freely accessing health services and 9 10 exercising their right to make decisions about their reproductive health. 11 12 I applaud Senator Liz Krueger and our Majority Leader, Andrea Stewart-Cousins. I'm 13 14 proud to stand here today as a cosponsor of this 15 legislation and to vote in favor of its passage so that women's rights are protected in New York 16 no matter what happens at the federal level. 17 18 Thank you. 19 THE PRESIDENT: Senator Kaplan to 20 be recorded in the affirmative. 21 Seeing and hearing no other Senators 22 that wish to explain their vote -- Senator Benjamin to explain your vote. 23 24 SENATOR BENJAMIN: Briefly, Madam 25 President.

I was sitting here not planning to speak, but I was reflecting on the concept that I was hearing from the other side about hypocrisy, and I felt compelled to say something on that.

First of all, I want to commend

Senator Krueger and those who have fought so hard
in our galleries to make this day possible.

When you talk about hypocrisy, I want to talk about the hypocrisy of individuals who say they're pro-life but then when their daughter might be in a situation, they all of a sudden have a different perspective for their child, but they have a different view for everyone else.

And I think it's important that we don't be hypocritical today. A woman's right to choose should be her right. And we shouldn't have a standard for everybody else but when it comes to us, we want to have a second set of standards.

And so I think it's important that we are here today to let everyone know that in the State of New York a woman has a right to choose. And for that, I vote aye.

THE PRESIDENT: Senator Benjamin to

be recorded in the affirmative.

Seeing and hearing no other Senators that wish to explain their vote, Majority Leader Andrea Stewart-Cousins to close.

SENATOR STEWART-COUSINS: Thank you, Madam President.

So here we are again, breaking down yet another barrier. And today is a day that, as has been stated, marks 46 years since Roe v.

Wade. So it's appropriate that we take up this issue and debate it as we have done today.

I appreciate my colleagues on the other side. You answered a question for me, the question that I've been asking since 2007, whether or not there would be a vote that would be similar to what happened in 1970, where some Republicans joined with Democrats to vote for a woman's choice.

And I understand that you feel the way you feel. But 46 years ago, the federal government decided that women needed to have control over their destinies. You know, women were dying needlessly. In a country where the medical services were the best in the world, because women had no choice, they resorted to

methods that in many cases ended their lives or ended the prospects for their lives.

Roe v. Wade said that we're better than that as a country and that women who have a choice can have a choice and can have the best care possible should they decide to have an abortion.

And we thought that the struggle to affirm women's rights were done. We thought that it was settled law. We thought there was no more going back. And yet we've watched brick by brick being placed in the path of women and their right to their own destiny.

When I first carried this bill in 2007, they did tell -- "Oh, no, no, no, we don't have to discuss this." I mean, I was frankly appalled when I came in. I didn't realize that the abortion laws were in the homicide codes. I really didn't know that. And I didn't realize that the 1973 law had more provisions than we had in 1970. I didn't know that.

And I thought that I'd come in and why don't we stop talking about homicide when we're talking about women's health issues. And why aren't we as up-to-date as the federal

government? After all, we were the leaders. I was shocked when we were told that "Oh, don't worry, it's not a problem. Nothing's going to happen."

So no, it's not about being disingenuous, it's about watching brick by brick the walls being built, walls that are meant to be barriers. We can't pretend that the case now and what can happen with women's choice and Roe v. Wade is not in jeopardy. Clearly our president has stated -- and, you know, my colleagues have said that he has made it clear that some days he thinks women should be punished for their reproductive choices. Maybe -- I think he -- maybe they should go to jail, we'll have to see.

But what is very clear is that there is no appetite for allowing women who have the right to their own destiny to be able to keep those decisions as their own personal decisions.

And so today we're saying no. We're saying not here in New York. We're saying that women's health matters. We're saying that her decisions about her life matter. And once again, we are leading the way.

Today we're also saying that

contraceptive care matters. 1 It was interesting -- as an aside, I was talking to my 2 son about the fact that we're passing these laws. 3 4 He knew how -- the fact that the contraceptive 5 was in month increments. My son knew that. It's 6 not just a woman's issue. 7 So I'm happy that we're saying that contraceptive care matters, that we're saying 8 that your boss should have no right to determine 9 10 your reproductive choices around your health 11 insurance. And that being said, I really want 12 to thank Senator Krueger, who's been, you know, 13 just an incredible friend and a champion for 14 15 women's rights. Thank you for being who you are. I want to thank all of my colleagues 16 who have, you know, made this day finally 17 18 possible. Thank you, Jen, thank you, Julia, for doing incredible work. I mean, I think that we 19 20 have the best freshman class ever. But I really want to say that we 21 22 have all thought a lot about this, each and every one of my colleagues. And you've heard how 23 thoughtful everybody is, and my Republican 24

colleagues as well. And I just want it to be

25

```
really clear. Nobody takes this lightly. Nobody
 1
 2
     thinks that these aren't serious decisions.
     Nobody, nobody believes that at any moment, if
 3
 4
     you are confronted with this, it cannot be
 5
     anguished.
                  But the reality is what we are
 6
     saying today is that we will get out of the way,
 7
 8
     that women will be able to make their decisions
     and lead their lives the way a democracy in
 9
     America allows them to lead.
10
11
                  I vote aye.
12
                  THE PRESIDENT:
                                   Senator Andrea
     Stewart-Cousins to be recorded in the
13
     affirmative.
14
15
                  Announce the results.
16
                  THE SECRETARY:
                                    Those recorded in
     the negative on Calendar Number 33 are
17
18
     Senators Addabbo, Akshar, Amedore, Antonacci,
19
     Boyle, Felder, Funke, Gallivan, Griffo, Helming,
20
     Jacobs, Jordan, Lanza, LaValle, Little, O'Mara,
21
     Ortt, Ranzenhofer, Ritchie, Robach, Serino,
22
     Seward, Tedisco and Young.
23
                  Ayes, 38. Nays, 24.
                  THE PRESIDENT:
                                    The bill is passed.
24
25
                  (Cheers; extended standing ovation.)
```

```
1
                  UNIDENTIFIED WOMAN IN GALLERY:
 2
     Almighty God have mercy on the State of New York.
 3
                  (Continuing uproar.)
                  THE PRESIDENT: Order in the
 4
 5
     chambers.
 6
                  Senator Gianaris.
 7
                  We will have order in these
 8
     chambers. The Sergeant-at-Arms will have order
 9
     in these chambers.
10
                  SENATOR GIANARIS:
                                      Madam President,
     is there any further business at this desk until
11
12
     tomorrow, when we get to do it all again?
13
                  THE PRESIDENT: There is no further
     business at the desk.
14
15
                  SENATOR GIANARIS:
                                       That being the
16
     case, I move to adjourn until tomorrow,
     Wednesday, January 23rd, at 11:00 a.m.
17
18
                  THE PRESIDENT:
                                   On motion, the
19
     Senate stands adjourned until Wednesday,
20
     January 23rd, 11:00 a.m.
21
                  (Whereupon, at 4:48 p.m., the Senate
22
     adjourned.)
23
24
25
