1 title only, and recognize Senator Jordan on the 2 resolution. 3 ACTING PRESIDENT BENJAMIN: The 4 Secretary will read. 5 THE SECRETARY: Senate Resolution 2244, by Senator Jordan, congratulating the 6 7 Stillwater Girls Soccer Team upon the occasion of capturing the New York State Public High School 8 Athletic Association Class C Championship. 9 10 ACTING PRESIDENT BENJAMIN: Senator Jordan on the resolution. 11 12 SENATOR JORDAN: Mr. President and my colleagues, I rise for the purposes of 13 14 speaking on my resolution and making an 15 introduction. 16 I'm incredibly proud to welcome and congratulate the Stillwater Girls Soccer Team, 17 18 who are my very special Senate guests today. 19 This is the second year in a row 20 that they've captured the Class C championship 21 for New York State in women's soccer. There's no denying the incredible 22 growing popularity of girls' and women's soccer 23 and the impressive skill, athleticism, dedication 24 25 and achievements of its players. Consider this.

1 Today there are an estimated 30 million women 2 playing soccer worldwide, 4 million more than in 3 2006. 4 Approximately 14.3 million U.S. 5 viewers tuned into the final match of the 2019 Women's World Cup on television, compared to 6 7 11.4 million for the 2018 Men's World Cup Final. 8 The success of the Stillwater Girls 9 Soccer Team further illustrates the continued 10 popularity of women's soccer. The Stillwater 11 Girls Soccer Team captured the New York State Public High School Athletic Association Class C 12 Championship on November 17, 2019, in Cortland. 13 The Stillwater Lady Warriors 14 15 concluded a very successful season, finishing 16 21-0-2, ending their historic season with a 1-0 victory over Section 4 Champion Unatego, to 17 18 secure the Class C New York State Girls Soccer 19 Championship. 20 In 2018, the Lady Warriors also won 21 the Class C New York State Girls Soccer 22 Championship. The Lady Warriors have a remarkable record of 43-0-3 over the last two 23 years with their back-to-back championship 24

25

victories.

I want to recognize Head Coach 1 2 Christine Ihnatolya and her expert coaching staff, Assistant Coaches Katie Carlin, Cassidy 3 4 Chapko, and Chris Stanley, for their hard work 5 and leadership of this championship team. And to the Lady Warriors, I commend 6 7 you on your championship, but you should know that you should use that championship as an 8 9 important life lesson: Nothing great comes easy. 10 Hard and smart work, dedication, and perseverance 11 is what will help you to achieve your goals in 12 anything you do in life. Teamwork is also key. You have learned this through playing soccer. 13 14 Carry these lessons through for a successful 15 future. I'm so very proud to congratulate 16 the members of the Stillwater High School Girls 17 18 Soccer Team on your outstanding season. The New York State Senate proudly recognizes and 19 20 celebrates your success. ACTING PRESIDENT BENJAMIN: 21 The 22 resolution was previously adopted on January 14th. 23 To the Stillwater Girls Soccer Team, 24 25 I welcome you on behalf of the Senate. We extend

                  SENATOR METZGER:
                                     Thank you,
     Mr. President.
19
20
                  As chair of the Agriculture
21
     Committee and the representative of counties in
22
     the Mid-Hudson regions and Catskill regions that
     are home to some 2,000 farms, I just want to
23
     first of all thank my colleagues for contributing
24
25
     to this package of agriculture bills that we're
```

moving on today, and thank Majority Leader Andrea Stewart-Cousins for bringing them to the floor.

We need to recognize how fortunate we are to have an agricultural sector in this state that produces such an enormous diversity of fruits, vegetables, meats, dairy products, and now hemp -- almost all on family farms, most of which are small and midsize. These are characteristics that we need to celebrate and we need to preserve for the health of our economy, for the health of our rural communities, for our environment and for our food security.

But we also have to recognize how precarious the situation is for many farmers, because they are competing against farms elsewhere that are in many cases much larger, because universally they are competing against farms with lower production costs, lower labor costs, lower taxes, among other costs. And this makes it very difficult for many of our farms to thrive.

It's important that we as a state get behind our farmers, support them, and support policies that ensure their long-term viability.

The package of bills that we are

```
1
     acting on today are an important step forward,
 2
     helping reduce costs, expand markets for our
     farmers' products, making access to technical
 3
 4
     support easier, and nurturing the next generation
 5
     of farmers.
                  A key bill in this package is a bill
 6
 7
     I introduced to double the Farm Workforce
 8
     Retention Tax Credit and extend it indefinitely.
 9
     With farm labor costs in New York that are nearly
10
     twice the national average, this tax can help our
     farmers stay out of the red and hire the labor
11
12
     they need.
13
                  So I appreciate all of my
14
     colleagues' support on this package today, and I
15
     vote aye.
16
                  Thank you.
17
                  ACTING PRESIDENT BENJAMIN:
18
     Senator Metzger to be recorded in the
     affirmative.
19
20
                  Senator Ortt to explain his vote.
21
                  SENATOR ORTT:
                                   Thank you,
22
     Mr. President.
23
                  I rise to support this legislation
     and a host of these bills, which I do think are
24
25
     absolutely good for our farmers. And I agree
```

```
with my colleague when she talked about the
 1
 2
     burdens and the precarious situation that our
 3
     farms find themselves in, particularly when it
 4
     comes to competing against other states that have
 5
     lower costs.
                  But I would remind everyone,
 6
 7
     especially my colleagues across the aisle, we
     added to those costs as recently as last year
 8
     when we passed a number of bills, most notably
 9
10
     the Farm Fair Labor Act, which increased burdens
     on our farms.
11
12
                  So while this legislation is overdue
     and is needed and is good, I think in light of
13
14
     the bills we've passed, I would encourage my
15
     colleagues to rethink some of the legislation
     we've already passed -- again, as recently as
16
17
     last year -- because we are making the situation
18
     worse, and I don't know if these are just a day
     late and a dollar short.
19
20
                  So with that, Mr. President, I vote
21
     aye.
                  ACTING PRESIDENT BENJAMIN:
22
                                                Senator
     Ortt to be recorded in the affirmative.
23
                  Announce the results.
24
25
                  THE SECRETARY:

the roll. 1 2 (The Secretary called the roll.) ACTING PRESIDENT BENJAMIN: 3 Senator 4 Gianaris to explain his vote. 5 SENATOR GIANARIS: Thank you, Mr. President. 6 7 One would think that we've reached a point in our society where we do not permit 8 discrimination purely based on one's gender. 9 10 yet in the position of insurance premiums, we do allow higher rates to be charged to cover women 11 in our society. 12 13 This bill would alleviate that by 14 prohibiting different rates being charged to 15 women and to men and to others in a workplace so that, in fact, there would not be a disincentive 16 for an employer to hire women because they would 17 18 fear the added costs that they would be burdened with as a result. 19

And so this is a measure that's been adopted in other states with great success, and I'm proud that we stand here today ready to pass a bill that would create greater equality in our workplaces and make it more conducive for more women to enter the workplace and be productive

ACTING PRESIDENT BENJAMIN: 1 Senator 2 May to explain her vote. 3 SENATOR MAY: Thank you, Mr. President. 4 5 Agriculture is the leading industry in New York State, but the age of farmers right 6 now is 59 years old and getting older. And so 7 I'm proud to have sponsored this bill to create a 8 9 Young Farmer Apprenticeship Program through the 10 BOCES system so that younger people can learn the tricks of the trade and the tools of the trade, 11 12 so that they can become successful farmers moving forward and continue the strength of agriculture 13 14 in our state. 15 So I'm grateful to the Majority Leader for bringing this bill forward. I agree 16 with Senator Metzger that I'm pleased to see a 17 18 package of bills about agriculture. 19 I also didn't mention it earlier, 20 but I wanted to say we also passed a bill to create a school garden fund checkoff on your tax 21 forms. And school gardens are one of the best 22 ways to get children interested in agriculture, 23 interested in eating fresh vegetables. And so 24 25 I'm excited about that one too.

```
1
                  So I vote aye on this one and
 2
     proudly voted age on the previous one.
 3
                  Thank you.

17
18
                  SENATOR AKSHAR: Mr. President,
19
     thank you.
20
                  I too am pleased to see a package of
21
     agriculture bills come to the floor of the State
     Senate; I believe that we all think that
22
23
     agriculture is in fact important.
24
                  But none of these bills are going to
25
     matter if we eradicate agriculture from the
```

state. I think that I heard the chair of the 1 Agriculture Committee talk about the 2 sustainability and vitality of the agriculture 3 4 industry. I agree with her wholeheartedly. 5 I think all of us, though, in this room, Republicans and Democrats alike, should be 6 7 terribly alarmed at the conversations surrounding the Wage Board's intrusion into the overtime 8 issue. It's an issue that whether you agreed 9 10 with it or disagreed with it last year, that the Legislature -- we landed on a number, because the 11 12 Legislature listened to the industry. 13 And now the fact that the Wage Board is having conversations about rolling that back I 14 15 think is incredibly alarming, or at least should be incredibly alarming to all of us. 16 17 So I rise of course to support this 18 legislation, but I think it's incredibly 19 important for this house, this body, to protect the agriculture industry, protect farmers whether 20 they're upstate, downstate, on Long Island, 21 22 wherever they may be. 23 Mr. President, I vote aye. ACTING PRESIDENT BENJAMIN: 24 Senator Akshar to be recorded in the affirmative. 25

```
Senator Borrello to explain his
 1
 2
     vote.
 3
                  SENATOR BORRELLO:
                                       Thank you,
     Mr. President.
 4
 5
                  I also will support this bill, but I
     have to agree with my colleague Senator Akshar.
 6
                  I find it disturbing that this body
 7
 8
     passed a law that would put the power to
 9
     dramatically and negatively impact the entire
10
     agriculture industry -- the number-one industry
     in my district and in most districts in this
11
     state -- and put that into the hands of three
12
     unelected officials.
13
14
                  You took the power that you have and
15
     handed it to three unaccountable, unelected
     officials that will have a devastating impact on
16
     the cost of labor at farms throughout this state.
17
18
     I think that's shameful.
19
                  Thank you, Mr. President.
20
                  ACTING PRESIDENT BENJAMIN:
                                                Senator
21
     Borrello to be recorded in the affirmative.
22
                  Senator Ramos to explain her vote.
                  SENATOR RAMOS: Yeah, thank you,
23
     Mr. President.
24
25
                  I rise in defense of the bill that I
```

passed last year to protect farmworkers.

It is unconscionable that we need to pit the industry against the workers who make their profit possible, or vice versa. We did the right thing by producing a bill that not only protects workers but actually incorporated many of the thoughts and opinions of the farmers themselves.

We did our due diligence by making sure that we were holding hearings in key parts of the state, allowing so many of the farmers to voice their opinions. And we have promised and will uphold our promise to continue to work with them to strengthen the farming industry here in New York State.

The Wage Board will allow for there to be a working relationship and information-gathering that will not necessarily result in the cutting back of hours in order to produce overtime.

I understand that given the time of year, fearmongering might be in season. But nevertheless, that should not be an enemy of accuracy and making sure that we are talking about and working together to make sure that our

```
1
     farms prosper.
 2
                  I vote aye on this bill in order to
     continue protecting our farmers, and we will
 3
     continue to do so not at the expense of
 4
 5
     farmworkers or any other human being.
                  Thank you, Mr. President.
 6
 7
                  ACTING PRESIDENT BENJAMIN:
                                                Senator
 8
     Ramos to be recorded in the affirmative.
 9
                  Announce the results.
10
                  THE SECRETARY: Ayes, 61.

21
                  SENATOR GIANARIS: I should say as

10
                  Senator Flanagan.
11
                  SENATOR FLANAGAN:
                                      Thank you,
     Mr. President. Will the sponsor yield?
12
13
                  ACTING PRESIDENT BENJAMIN: Does the
     sponsor yield?
14
15
                  SENATOR GIANARIS:
                                      Yes,
16
     Mr. President.
17
                  ACTING PRESIDENT BENJAMIN:
                                                The
18
     sponsor yields.
19
                  SENATOR FLANAGAN: Mr. President, I
20
     have a series of questions, and I'm more than
21
     happy to go through the chair.
22
                  Am I correct that Senator Gianaris
23
     is the sponsor?
24
                  SENATOR GIANARIS: The sponsor is
25
     Leader Stewart-Cousins, but I will be answering
```

1 questions, Mr. President. 2 SENATOR FLANAGAN: I think we have to go through a little bit of a painstaking 3 discussion, because this sort of redefines 4 5 "message of necessity." And let me start by asking 6 7 Senator Gianaris, who negotiated this bill? 8 SENATOR GIANARIS: Let me first -since Senator Flanagan mentioned it, yes, I do 9 10 believe this issue redefines "message of necessity," because we are at an incredibly 11 12 necessary moment in dealing with a crisis that's engulfing the whole world and has reached 13 14 New York. 15 I have sat in this chamber for over a decade watching all sorts of nonsensical 16 messages of necessity be accepted by the very 17 18 same people who are now trying to debate this bill which is trying to deal with a public health 19 20 crisis that is on the verge of becoming much more 21 of a problem than it already is. 22 So to answer the second question or 23 comment that Senator Flanagan made, the bill was negotiated just like all other bills are 24 25 negotiated, by members and staff on the majority

side of the Senate and the Assembly. 1 2 SENATOR FLANAGAN: Okay, so I'm looking at the -- is it fair to that the genesis 3 4 of this legislation is the public health crisis 5 that you alluded to -- which I acknowledge and certainly feel that we should be addressing. 6 7 at the root of that, would it not be the coronavirus that has engulfed the world, now the 8 United States of America, and by extension the 9 10 State of New York? SENATOR GIANARIS: That's correct. 11 12 SENATOR FLANAGAN: Okay. So I'm looking at the title of this bill that was 13 14 negotiated by the usual course of action, 15 according to the sponsor, and it says -- the title "as it relates to issuing by the Governor 16 of any directive necessary to respond to a state 17 18 disaster or emergency." 19 And then I read the language in here 20 that clearly, clearly allows the Governor, by executive order, to issue any directive. 21 than an executive order. And he can do so during 22 a state disaster emergency that goes well beyond, 23

well beyond the coronavirus. This is far more

sweeping than dealing with the public health

24

issues involving the coronavirus.

So why would this majority grant unfettered discretion, unbridled authority, and cede our power as a directly elected legislative body to the Executive in a much broader and much more sweeping fashion than is necessary to deal with the coronavirus?

SENATOR GIANARIS: Wow. So many misstatements that it's going to take me a little while to respond. And Senator Flanagan knows better, because he's served long enough in the Legislature.

His first point about the title of the bill. As he well knows, the bill amends a section of existing law. So it says it is an act to amend the Executive Law as it relates to when the Governor gets to issue directives dealing with state disaster emergencies, because it is in the section of New York State law, in the Executive Law, that deals with disaster declarations.

That is why the title is what it is, because we're amending a section of law that deals with the broader subject matter.

Secondly, Senator Flanagan said it

1 goes beyond executive order. The law -- or the 2 bill, by its very words, says the Governor, by executive order, may issue such directives. 3 4 any action taken by the Governor will be by 5 executive order. Next, he said it would be unbridled 6 7 authority. Well, again, as Senator Flanagan 8 should know, in the law itself, in Section 4, it says very clearly "The Legislature may terminate 9 10 by concurrent resolution executive orders issued under this section at any time." 11 12 So that is hardly unbridled. is a check and balance that the Legislature has 13 14 over this process. And should the Governor issue 15 an executive order with which we disagree and 16 with which the Assembly disagrees, we can revoke that at any time by act of the Legislature. 17 18 SENATOR FLANAGAN: Mr. President, through you, if the sponsor will continue to 19 20 yield. 21 ACTING PRESIDENT BENJAMIN: Does 22 the sponsor yield? 23 SENATOR GIANARIS: Yes. ACTING PRESIDENT BENJAMIN: 24 The 25 sponsor yields.

I'm looking at 1 SENATOR FLANAGAN: 2 page 3, line 4: "Disaster means occurrence or 3 imminent, impending, or urgent threat." 4 What is an impending or urgent 5 threat? Because there are a number of my colleagues who feel that imminent is vastly 6 7 different from impending or urgent. And "impending" may be giving powers to the Executive 8 9 for something that may never happen or may never 10 occur. Why would that language be expanded 11 12 to give more power to the Executive? 13 SENATOR GIANARIS: We are dealing 14 with a crisis that has already visited other 15 nations in the world and is currently spreading through the West Coast of this country and we 16 know has -- people have contracted this virus in 17 18 New York State already. 19 I don't think it's time to play 20 politics and screw around and allow a dispute to 21 exist as to whether or not a situation is 22 particularly imminent. What is the definition of 23 "imminent," some might say. Is one person contracting the virus in Manhattan who's under 24 25 house quarantine an imminent threat or not?

1 We're trying to solve something 2 before it gets to the point where people start dying in our state. And I would think that would 3 4 be something that everyone in this chamber could 5 understand the importance of doing. Now, you want to vote against this, 6 7 that's your right as a member of the Legislature. 8 You can do that. But you are fond of saying on that side of the aisle -- inaccurately, for the 9 10 most part -- when consequences lead to horrific 11 results based on what we do here. 12 We're trying to avoid that. We're trying to be responsible and say there is 13 something that is brewing in the world that has 14 15 reached New York. Okay? We are dealing with, yes, an impending crisis, but perhaps not, in the 16 strict definition, an imminent crisis. And we're 17 18 we are trying to make sure that the law provides 19 opportunity for this state to take action and 20 protect its citizens, which is what we're here to 21 do. SENATOR FLANAGAN: Mr. President, 22 23 will the sponsor continue to yield. ACTING PRESIDENT BENJAMIN: 24 Does 25 the sponsor yield?

```
SENATOR GIANARIS:
 1
                                      Yes.
 2
                  ACTING PRESIDENT BENJAMIN:
                                                The
 3
     sponsor yields.
 4
                  SENATOR FLANAGAN:
                                       I'm going to
 5
     preface my question by saying I just listened to
     three responses, and I let each one of them pass.
 6
 7
                  Not playing politics, not screwing
 8
     around, not playing any kind of games. Actually
     trying to have a debate and have real discussion
 9
10
     on something that has not been discussed in here
     at all.
11
12
                  So if you want to go down that path,
     I'm all ready to go down that path. This is not
13
     about politics. And in fact, this is one of the
14
15
     few occasions where I can say the chief executive
16
     of the state has been complimentary of the
     federal government and complimented the
17
18
     appointment of Vice President Pence to head the
     coronavirus issue and task force at the federal
19
20
     level.
21
                  (Scattered laughter.)
                  SENATOR GIANARIS: Mr. President --
22
                  SENATOR FLANAGAN: Mr. President --
23
                  SENATOR GIANARIS: Mr. President,
24
25
     let's all maintain decorum. We are on a debate,
```

1 as Senator Flanagan said. 2 What I do find ironic is that he's not playing politics and then spent the next 3 4 30 seconds talking about how great the federal 5 government is. But -- but please, go on. 6 7 SENATOR FLANAGAN: Mr. President, 8 will the sponsor continue to yield. 9 ACTING PRESIDENT BENJAMIN: Does 10 the sponsor yield? SENATOR GIANARIS: 11 Yes. The 12 ACTING PRESIDENT BENJAMIN: sponsor yields. 13 14 SENATOR FLANAGAN: Senator 15 Gianaris, I'm looking at specific portions of 16 this legislation. The Governor can now under law, under this bill that you negotiated, he can 17 18 suspend an entire statute. Which gives him 19 broader and more explicit authority than he has 20 under present law. 21 And in fact, it says, under current 22 law, specific provisions of any statute. Now it just says any statute. That is a broader 23 authority than the Governor presently has, which 24 25 would allow him to suspend any statute not only

1 involving the coronavirus. Because it says it 2 could be on fire, flood, earthquake, hurricane, tornado, high water, landslide, mud slide, 3 4 windstorm, wave action, volcanic activity. 5 You're giving the Governor power to suspend any statute. That is a broader 6 7 discretion of authority being given to him. Why would you do this when we're dealing with the 8 coronavirus? That doesn't have anything to do 9 10 with wind. 11 SENATOR GIANARIS: Mr. President, 12 Senator Flanagan is once again mistaken. power to suspend specific provisions of any 13 statute, which existed previously, gave the 14 15 Governor the power to suspend every specific provision of a specific statute if he so chose to 16 17 do. 18 SENATOR FLANAGAN: Then why did you take that language out? 19 20 SENATOR GIANARIS: So in fact this 21 is not anything that has any great substantive value in terms of difference from preexisting 22 law, which has been here -- and by the way, I 23 heard the Senator read through the list of 24 25 disasters. Is the Senator suggesting we do not

```
want to worry about those disasters that have
 1
 2
     been in law for many, many years? Do you not
     want to protect people from hurricanes,
 3
 4
     earthquakes, et cetera? I mean, is that --
 5
                  SENATOR FLANAGAN: Mr. President,
     is the sponsor asking me to yield? I'm happy to
 6
 7
     yield to a question if there is a question.
                  SENATOR GIANARIS:
                                      That was a
 8
9
     rhetorical question, Mr. President.
10
                  Let me -- let me make it as a
     statement. It seems to me that Senator Flanagan
11
12
     does not care about whether or not New Yorkers
13
     are adequately protected against hurricanes,
14
     earthquakes, floods, et cetera, as listed in the
15
     statute.
16
                  SENATOR FLANAGAN: Is the statement
     and the rhetorical part done? Because I'd like
17
18
     to continue.
19
                  Mr. President, through you.
20
                  ACTING PRESIDENT BENJAMIN:
                                               Are you
     asking the sponsor to yield?
21
                  SENATOR FLANAGAN: I'm asking the
22
     sponsor to yield. Yes, I am.
23
                  ACTING PRESIDENT BENJAMIN:
24
                                               Does
25
     the sponsor yield?
```

1 SENATOR GIANARIS: Yes. 2 ACTING PRESIDENT BENJAMIN: The sponsor yields. 3 4 SENATOR FLANAGAN: All those 5 occurrences and potentialities are covered in existing law. You're granting broader and deeper 6 7 authority to the Executive to go well beyond 8 what's in existing law. 9 All those things that were 10 mentioned, fire, flood, earthquake, hurricane, tornado -- Senator Gianaris, I don't question 11 your passion on issues, so don't do it to me. 12 Ι know what exactly what all these are. 13 14 exactly what the current law is. And frankly, I 15 don't need to be schooled on what the law is. 16 I'm reading the existing statute, and all of those are right there. 17 18 And why could this not have been simply legislation that with all those other 19 20 things, under definition of a disaster, you add 21 "disease outbreak" and leave it at that? You're 22 giving all this new written authority, including any directive that heretofore does not exist. 23 You're saying the Governor could do it already. 24 25 Well, if he could do it already, you wouldn't be

amending the statute. You wouldn't be putting 1 2 all this new language in. 3 So yes, I care very deeply about the 4 very same things that you do. We got at it from 5 a different level. I believe it's in the purview of this legislative body to actually enact 6 7 legislation and not give our authority away to the Governor. So why could you not simply just 8 add "disease outbreak"? 9 10 SENATOR GIANARIS: I sat here for over a decade, most of the years in the Minority, 11 12 watching the then-Majority cede power to the Governor day after day in this chamber. 13 know, we're dealing with a Medicaid Redesign Task 14 15 Force proposal this year. It's called MRT II because there was an MRT I that your --16 SENATOR FLANAGAN: Mr. President, 17 18 is this pertinent or germane to this legislation? 19 SENATOR GIANARIS: It absolutely 20 is, Mr. President. If he's talking about ceding control to the Governor --21 ACTING PRESIDENT BENJAMIN: 22 Senator Gianaris has the floor. 23 SENATOR GIANARIS: -- you better 24 25 believe I'm going to talk about you ceded control

to the Governor when you didn't complain about it.

And I'm sorry, Senator Flanagan, but if you're making mistakes about what the law says, I am going to school you on it, because we're going to set the facts straight as it relates to this debate.

So there was a Medicaid Redesign

Task Force that ceded control to the Governor for

10 years that your majority passed. For the last

10 years, the executive has been making cuts to

healthcare in this state without the proper

legislative authority.

You didn't have a problem then.

We're sitting here today dealing with a current and pending crisis in our state, and frankly in the world. And if we don't take the steps necessary to deal with it today, then there's going to be consequences well beyond the borders of our state, but certainly for the millions of people that live here.

Now, like I said, yeah, you want to play politics, you go right ahead and do it.

Vote how you want. That's your right in this body. But we're going do the right thing and

```
1
     make sure that New Yorkers are protected.
 2
                  SENATOR FLANAGAN:
                                      Mr. President,
 3
     will the sponsor continue to yield.
 4
                  ACTING PRESIDENT BENJAMIN:
                                                Does
 5
     the sponsor yield?
                  SENATOR GIANARIS:
 6
                                      Yes.
 7
                  ACTING PRESIDENT BENJAMIN:
                                                The
 8
     sponsor yields.
                  SENATOR FLANAGAN:
 9
                                      Why is this
10
     authority granted for 13 months? We heard an
11
     original version of this bill gave power to the
     Governor throughout the balance of his term. How
12
13
     did you end up coming up with 13 months, through
     the end of next April?
14
15
                  SENATOR GIANARIS:
                                      I appreciate
16
     Senator Flanagan pointing out that the
     negotiations led to more stringent controls and
17
18
     checks and balances than were originally
19
     proposed. So as a result of negotiations, that
20
     was -- we settled on the time in the bill.
21
                  SENATOR FLANAGAN:
                                      Why not 60 days
     or 90 -- through you, Mr. President, if the
22
23
     sponsor will yield.
                  ACTING PRESIDENT BENJAMIN:
24
                                                Does
25
     the sponsor yield?

                  SENATOR FLANAGAN:
                                       Why not 60 or
 2
     90 days? Why give over a year's authority to the
 3
     Executive?
                                       That is where
 4
                  SENATOR GIANARIS:
 5
     the negotiations concluded.
                  And let me remind the Senator once
 6
 7
     again that there is a provision in the existing
 8
     law that will remain there that allows the
 9
     Legislature at any time to rescind an executive
10
     order of the Governor as it relates to this
     section of law.
11
                  That could be one day, that could be
12
     10 days, that could be 30 days -- whenever we
13
     decide that we don't support something that has
14
15
     been done, we can revoke it.
16
                  SENATOR FLANAGAN:
                                      And I would
     remind the sponsor that the current law allows
17
18
     the Executive to spend --
                  ACTING PRESIDENT BENJAMIN:
19
                                                Senator
20
     Flanagan, are you asking the sponsor to yield?
21
                  SENATOR FLANAGAN:
                                       Yes.
                  ACTING PRESIDENT BENJAMIN:
22
                                                Will
23
     the sponsor yield?
                  SENATOR GIANARIS:
24
                                       Yes.
25
                  ACTING PRESIDENT BENJAMIN:
                                                The
```

1 sponsor yields. 2 SENATOR FLANAGAN: Under current law, an executive order allows for suspension of 3 4 a provision of a statute. This new law allows 5 the directive to create new law without legislation. The Governor can unilaterally act 6 7 on virtually any subject matter having nothing to 8 do with the coronavirus. The Governor could 9 suspend an election, which he has done before. 10 This would give him the authority to do that with 11 more discretion than in the past. 12 Why would you do that? 13 SENATOR GIANARIS: I hope the 14 Senator is not suggesting that the election that 15 was canceled on 9/11 should not have been 16 canceled. SENATOR FLANAGAN: He wasn't 17 18 Governor. And I know exactly what I was 19 referring to, and that was not it. 20 SENATOR GIANARIS: Okay. But the 21 power to cancel elections which Senator Flanagan 22 seems so concerned about was used with great notice on 9/11. So there are reasons that the 23 powers are there. And there's a good example of 24 25 why it was inconvenient or impossible for a

Legislature to convene to take such action.

There are moments of crisis that require dramatic and quick action on behalf of the state. And to suggest that he can do it anytime for any -- I'm afraid Senator Flanagan is not reading Subdivision 2 of the law, which lists numerous restrictions on this power. Including restricting it to 30 days at a time, that the suspension be directly related to the emergency declared -- and I won't read them all because it will take too long, but there are -- it goes up to Subdivision F. So what is that, six or seven restrictions on this power.

14 SENATOR FLANAGAN: Mr. President,

15 | will the sponsor yield.

16 ACTING PRESIDENT BENJAMIN: Does

17 | the sponsor yield?

18 SENATOR GIANARIS: Yes.

19 ACTING PRESIDENT BENJAMIN: The

20 sponsor yields.

SENATOR FLANAGAN: How is the \$40 million going to be appropriated? Who's going to make that determination? Is the money going to go to Brooklyn, is it going to go to Binghamton, is it going to go to the North

1057

```
1
     Country? Are we giving all that power to the
 2
     Governor? Are we giving it to the Commissioner
 3
     of Health? Who's going to be able to weigh in?
 4
                  SENATOR GIANARIS:
                                      As it's the
 5
     Governor's decision, I presume he will consult
 6
    with his appropriate experts.
 7
                  SENATOR FLANAGAN: And will there
 8
    be any -- will the sponsor continue to yield?
 9
                  ACTING PRESIDENT BENJAMIN:
                                               Does
10
     the sponsor yield?
                  SENATOR GIANARIS:
11
                                      Yes.
12
                  ACTING PRESIDENT BENJAMIN:
                                               The
     sponsor yields.
13
                                      Will there be
14
                  SENATOR FLANAGAN:
15
     any legislative input as to the distribution of
16
     those funds? Because you're acknowledging that
     this is all going to be within the jurisdiction
17
18
     of the Governor and the Department of Health and
     the Commissioner of Health.
19
20
                  SENATOR GIANARIS:
                                      The legislative
21
     input is happening tonight. We are appropriating
22
     $40 million to deal with the coronavirus crisis.
                  SENATOR FLANAGAN:
                                      With no
23
     legislative oversight.
24
25
                  SENATOR GIANARIS:
                                      You -- you're --
```

```
1
     the Senator and his colleagues are certainly
 2
     welcome to vote yes or no on this bill. Just
 3
     like when we pass a budget later this month,
 4
     we'll be voting yes or no on billions of dollars
 5
     of appropriations, some with greater specificity
     listed than others.
 6
 7
                  In this case, this money is going to
 8
     deal with the coronavirus crisis.
                  SENATOR FLANAGAN: Mr. President,
 9
10
     would the sponsor continue to yield.
                  ACTING PRESIDENT BENJAMIN:
11
                                                Does
12
     the sponsor yield?
                  SENATOR GIANARIS:
13
                                      Yes.
14
                  ACTING PRESIDENT BENJAMIN:
                                                The
15
     sponsor yields.
                  SENATOR FLANAGAN:
                                      In the budget
16
17
     that was passed last year -- I want to cite the
18
     page correctly. I think this is accurate, but
     the sum is not in dispute. I'm looking at
19
20
     page 743, Miscellaneous All-State Departments and
21
     Agencies, "Special Emergency Appropriation.
22
     sum of $1 billion is hereby appropriated solely
     for transfer by the Governor to the General
23
     Special Revenue, capital projects, proprietary or
24
25
     fiduciary funds, to meet unanticipated
```

```
1
     emergencies pursuant to Section 53 of the State
 2
     Finance Law."
                  That seems to cover more than --
 3
 4
     certainly more than is being asked for in this
 5
     legislation. It speaks to unanticipated
     emergencies. Why would the Legislature now
 6
 7
     provide $40 million when there's a billion
 8
     dollars of appropriation authority that already
 9
     exists?
10
                  SENATOR GIANARIS:
                                      This is an
     appropriation, it's very specific to the
11
     coronavirus crisis and that's where this money is
12
     dedicated. That larger pot is for other
13
14
     potential emergencies.
15
                  SENATOR FLANAGAN: So would the
16
     sponsor continue to yield.
17
                  ACTING PRESIDENT BENJAMIN:
                                               Does
18
     the sponsor yield?
19
                  SENATOR GIANARIS:
                                      Yes.
20
                  ACTING PRESIDENT BENJAMIN:
                                               The
21
     sponsor yields.
22
                  SENATOR FLANAGAN:
                                      Under this
23
     section, it gives Governor discretion for a
     billion dollars. You don't believe that he has
24
25
     the discretion right now to address this
```

```
emergency or some similarly situated emergency
 1
 2
     like flooding?
 3
                  SENATOR GIANARIS: No, I didn't say
 4
     that, Mr. President. I just said we are
 5
     specifically allocating $40 million tonight for
     the coronavirus crisis. And that that larger pot
 6
 7
     is there to deal with other potential
 8
     emergencies.
 9
                  SENATOR FLANAGAN: Mr. President,
10
     on the bill.
                  ACTING PRESIDENT BENJAMIN:
11
                                               Senator
     Flanagan on the bill.
12
13
                  SENATOR FLANAGAN:
                                      Thank you,
     Senator Gianaris.
14
15
                  You know, it's interesting to listen
     to my own comments, let alone those of
16
     Senator Gianaris. I'm going to speak to the
17
18
     contents of this legislation, and then I'm going
19
     to speak to the process. And I'm going to talk
20
     about the here and now and what we're looking at
21
     and what we're seeing, what we're debating, and
22
     what we are actually going to be called to vote
23
     upon.
                  I found it interesting that the
24
25
     Senator made a lot of suppositions about what I
```

may think or how I may vote, and there's probably good reason, because he wouldn't know. I just saw this bill less than two hours ago. It certainly hasn't been out there for public review. There's been no public hearings.

And it's not as if this issue
materialized overnight. It's been out there for
weeks. But somehow today, today it became so
paramount that we had to do a message of
necessity, bypass an entire process, and be doing
this bill now.

There's not one member -- and I will not speak for any of my Democratic colleagues -- there is not one member in our conference who isn't deeply concerned about the public health and welfare of their constituents and of all the constituents of the State of New York. There is not one member of our conference who doesn't believe we should do everything within our power to help bring about and effectuate change. And one of the ways we can do that is by having facts and figures and statistics and input.

We only got a smattering of that one hour ago. The Commissioner of Health was gracious enough to come over and give us some

background details. So we know what's involved.
We know what the Governor has said. We know
what's coming from the federal government.

And I don't, like my colleagues on the other side, find it a laughing matter. I was not the one sitting here snickering as I'm laying out some comments. This is a real public health crisis. It's a governmental crisis, and how we respond is critically important.

If this were only about the coronavirus, great. It needs to be addressed. If this were only about appropriation authority to the tune of \$40 million, great. If this were only about giving the Governor discretion on that \$40 million, I get it.

But I asked the question for a specific reason, because there may be acuity of circumstance in any one of your districts or any one of ours where we might want to actually have input and some legislative involvement.

The problem with this legislation is not its goal, it's how we get there. This changes New York State law radically. Not superficially, not marginally, not evenly subliminally. It's right out there. The

Governor is being given far more power and authority than he's ever had. The Governor is being given far more power than he deserves.

And the idea that there will be a Concurrent Resolution that it can be suspended at any time, that's going to be really, really hard to achieve. And I don't think we should have that provision, because I don't think we should have this law. Because this law is not about the coronavirus. It's about far more than that.

When a legislative body says the Governor can suspend any statute in its entirety, we'd better really, really be careful. Because then we don't matter. And "imminent" is a lot different than "impending" or "urgent."

This gives the Governor far more power than either the Senate or the Assembly. I don't believe for a second that that is in the best interests of the people we represent.

And I know a number of my colleagues are going to say, You're playing politics. I'm not, and we're not. I know we need to do something. But I don't want to be a member in this body, an elected member of this body and say the Governor has all this authority -- and yeah,

the idea that it can be done for 30 days, that's
already in law. I know it's already in law. I
don't have to see that underlined or bracketed.
He has the power to issue that executive order.
But now he can do it -- and you've given him that
Authority -- for almost 14 months. Statutorily,
you've given the Governor more authority.

And to say, well, you know, it was going to be till the end of his term, but we fought back and it's only 13 months -- I don't think that's good enough. I don't think that's in the best interests of the people that we represent or our responsibility as being members in this body.

This is the type of legislation that seemingly is innocuous in many respects. And it goes beyond executive orders. It uses the word "directive" on multiple occasions. And the Governor is the one that gets to determine what is reasonable and necessary, not anybody else. There's no standard here other than what the Governor and his executive agencies think.

I believe the public expects better of us. Do I think we need to act? Yes. And I will not take a back seat to anyone in our

efforts to try and address issues like this in a timely and detailed and compassionate fashion.

I am sure that some of my colleagues want to speak on this bill. I am glad that we are actually having this discussion, because there have been no discussions prior to this.

And, Senator Gianaris, I came in here today, found out about this, and I'm struggling right now. I'm struggling right now as someone who has been here a long time. And I'll wear that like a badge of honor every single day that I'm here. I get it. I know how this place works. On the one hand, I want to jump up and vote yes, because we have an obligation to do something. On the other hand, I am chafing, chafing at the notion that we're going to give more power to the Executive.

And it's not Governor Cuomo. It's the Executive. That's what I'm struggling with.

So I walked in here not cavalierly, and not predetermined on how I was going to vote, because my colleagues and I were actually having this discussion: What do you think? Where should we go on this?

I could have easily just jumped up

1066

```
and said I'm voting yes. But I would not have
 1
 2
     been able to go out of here tonight and say, you
     know, I wish, I wish I had said something. As
 3
 4
     soon as I saw this legislation, I knew I was
 5
     going to get up. And I'm no different or any
     better than anyone here. I think our members
 6
 7
     grapple with the same types of things.
 8
                  So I actually came in to listen to
 9
     my colleagues, because this is for sure not the
10
     last time we're going to be addressing this issue
     in terms of the coronavirus, this issue in terms
11
12
     of public health, and this issue, sure as heck,
     about executive power and authority and privilege
13
     and discretion.
14
15
                  Mr. President, I appreciate the
     courtesies of my colleagues, your indulgence.
16
     And, Senator Gianaris, thank you for answering my
17
18
     questions.
19
                  ACTING PRESIDENT BENJAMIN:
                                                Senator
20
     Lanza.
21
                  SENATOR LANZA:
                                   Thank you,
     Mr. President. On the bill.
22
                  ACTING PRESIDENT BENJAMIN:
23
                                                Senator
     Lanza on the bill.
24
25
                  SENATOR LANZA: So we're about to
```

vote on a piece of legislation that cedes
enormous power from the Legislature to the
Executive. The ink is barely dry. None of us
really, in all honesty, have had the ability to
read it, to digest, to understand it.

Now, Mr. President, I've been here long enough to know that when you get up and talk about a piece of legislation, especially one that has the importance of the legislation before us, that some idiot is going to tweet that you don't care about coronavirus, that you don't care about the emergency. It happens on both sides.

Doesn't make it right; it's still wrong.

My good friend Senator Gianaris said that it's not the time to play politics. I agree completely, Mr. President. But that's exactly what's happening here.

I'm not going to blame Senate

Democrats or Senate Republicans. I don't think

anyone in this room, quite frankly, is playing

politics with this. But I know someone is. And

we all know someone is.

I want to talk about the process and a little about the merits. You know, it's a dirty little secret that elected officials like

emergencies sometimes because it gives them that opportunity to look presidential. Allows them to stand up and act like a leader. Gives them the opportunity to prove to the people back home that they know what needs to be done.

You know, a lot of people have been talking about this for a couple of months now. I know myself and others on this side of the aisle, some of my friends across the aisle, last month said something needs to be done. You know, but you were a xenophobe if you talked about the fact that this was an emergency only a month ago. In fact, the President, when I think rightly, very early, said that we ought to screen people coming from the affected area in China with a travel ban, he was called a xenophobe, a bigot and a racist by some pretty highly prominent elected officials in this country.

I know people are shaking their heads, they agree with that. But not because of what he did.

And I wondered aloud, what are we doing in New York and when are we going to talk about it? And I reached out to the Health Department, both in the state and the city. And

we were repeatedly told that there wasn't a problem.

In fact, this afternoon, early this afternoon I saw our Governor doing a press conference on the subject, Mr. President. And I listened very intently. Why? First, I consider him a personal friend. I do. He's intelligent, he speaks well. You figure if anyone has all the facts concerning the real emergency concerning the coronavirus, it must be our Governor. Most importantly, he's Italian.

So I listened. And what did the
Governor tell us? We've had our first confirmed
case in New York. It was inevitable. We knew it
was happening, we knew it was coming. It's not a
problem. Nothing to worry about. In fact, for
all -- he didn't say this, but I can tell you
last month when people like me said, What are we
doing, as is always the case when you question
people in government, I was called a fearmonger.
There was no real threat. That's what was said.

And in fact the proof of that is we
were here last week, nothing happened. We were

before that, nothing happened. So I just assumed

here the week before, nothing happened.

that I was wrong, there was no emergency.

Nothing to see here, move along.

Today the Governor said we have the best healthcare system in the world. I believe that. The flu is more dangerous. I don't know what to believe anymore. You try to inform the people back home. I want to be able to tell the people of Staten Island you should worry or you shouldn't worry. Two weeks ago, if I told them they should worry, I was a fearmonger.

This morning, the Governor confirmed that: We knew it was coming. This is not a surprise. There's no danger. People shouldn't worry.

Now, unless something very significant changed between that press conference and now, you have to wonder why is it that we are now faced with a piece of legislation that in effect allows the Governor to declare martial law. Is it that serious? Certainly coronavirus, pandemic, the potential for it is very dangerous. Is this the answer? Is this the only answer? My good friend Senator Gianaris talked about the fact, well, this is an emergency. Aren't you worried about emergencies? We have hurricanes

and earthquakes and floods, he said. 1 2 Well, if this is the only way to deal with emergencies, then why make it 14 3 4 months? It ought to be permanent. Because after 5 all, there's always a risk of hurricanes and earthquakes and floods. 6 7 If this were the only way to do it, why not do it on a 30-day basis? Again, I'm 8 asking questions. I know that's wrong around 9 10 here. God forbid you ask questions. Here's the piece of legislation, swallow it. Fourteen 11 12 months, 18 months, three years -- whatever it says. Better agree with it, or you're 13 That's how it works around here. 14 pro-pandemic. 15 It's sick. It really is. Is it a legitimate question to ask 16 whether or not it ought to be on a 30-day 17 18 revolving basis? We come back here in 30 days, if the emergency is still imminent, we get the 19 20 chance to do this all again. Are we allowed to ask that as a Legislature? 21 And I'm looking around this 22 chamber -- all good friends. All good friends, 23 Democrat and Republican. And I see the 24

expressions on people's faces here. I'll speak

25

for you. You'll have your turn, you can get up 1 2 and say I was wrong. I don't think anybody 3 agrees that this is the right process. 4 And again, I'm not blaming anyone on 5 that side or this side. We're being jammed. That's the way it works around here. We've got 6 7 that Hobson's choice: Vote for this or go home. Vote no, and you're pro-coronavirus, you're 8 9 pro-pandemic. 10 It's not the way it's supposed to be. It isn't the way it's supposed to be. And 11 12 my friends, we all know it. But we're stuck. are stuck, because there is a serious threat 13 It's real. Maybe if the Governor has the 14 15 power to declare martial law, the threat will go away, it will dissipate. Forty million dollars? 16 Why not? He's already got a billion dollars. 17 18 The Governor already has the power to declare an 19 emergency. Forty million dollars? I guess it 20 allows people to go home and say, See, I did something. Look at me. Look at me. 21 I acted. 22 Decisively. With strength and conviction. But again I ask the question, did 23 24 anything change between the press conference and 25 now? We were here this morning. I heard my good friend Senator Gianaris ask my good friend
Mr. President, is there any other business before
at the desk? And the answer was no, there is
not. That wasn't three weeks ago. That was a
couple of hours ago.

But in between then -- I'm getting to an end here sometime, Senator Savino. But now we've got this hastily put together piece of legislation that again gives the Executive even more broad, unconditional power that goes way beyond, way beyond what would be necessary to deal with the pandemic.

Remember, it was only last week that we were told by the same people -- not by him, but I know by people in his administration that are the experts when it comes to health and disease and pandemic -- they told us the flu represents a greater threat. You all heard it.

We all heard it. Shame on me, I believed it. I went home and I told my people -- I like to call them my people out there on the Staten Island -- it's okay. The flu is more dangerous. Let's keep in this perspective. Let's take precautions. Let's wash our hands. Let's avoid contact, close contact with people who may be

evidencing symptoms. But it's okay. 1 2 There's a mixed message here. 3 is why people don't believe us. Not us, 4 government. They don't believe us. They don't 5 know what to believe. Everything is okay. A cold is worse. Five minutes later, martial law. 6 7 Five minutes later, martial law is the only thing that will save us. What are people to think? 8 I'm chuckling because it said -- but it's 9 10 confusing. People are going to watch this. The 11 same people that watched that press conference that I saw earlier, who I hope believed our 12 Governor -- I believed him. Now we're going to 13 14 say: But wait a minute. If that was true, why 15 is the Legislature basically saying here, you can do our job too? We're going to go home, you've 16 got it all. 17 18 If I'm sitting back home, I'm thinking, wow, they're not telling us something. 19 20 They're hiding something. And it's human nature to think that. There's got to be something else 21

going on. All that stuff about this being the

getting ready for something. It does not

engender confidence. It just doesn't.

common cold, it's a big lie. They know. They're

22

25

And again, we're being stuck with this. My friends on the Democratic side and on the Republican side, I cast aspersion to no one in this room. I blame no one in this room. This is -- I guess it comes with the territory. But it shouldn't be this way.

And now we've got to figure out what to tell people back home. Is the world coming apart? Is it all about to end, to the point now that the Legislature is basically saying no más? Guv, you take it? Senator Sepúlveda liked that.

So again. You know, we're going to have to vote for this, I think. I don't want to speak for everyone here; it's difficult not to.

You want to give the Governor {chuckling} -- I don't know what to do because it's a dangerous piece of legislation. I do.

I think ultimately -- I'm thinking aloud here, again, because I didn't have the liberty of actually sitting down for a couple of minutes. I still haven't seen it in hard copy. I'm trusting what people are saying about it. That's no way to vote on legislation. It happened over the years I'm here, both sides.

I guess, if you're going to vote 1 2 yes, you're going to count on that rescission 3 clause. You're going to count on the fact that 4 you trust the Governor, he's not going to abuse 5 this awful power that he's being given. Remember, people, when given the 6 7 opportunity, though, good and bad people alike tend to abuse it when they get it. So we're 8 9 going to have to be mindful. We're going to have 10 to keep our eye on it here. This is a terrible, 11 terrible way to go about a very, very serious 12 problem. Thank you, Mr. President. 13 14 ACTING PRESIDENT BENJAMIN: Senator 15 Borrello. SENATOR BORRELLO: 16 Thank you, 17 Mr. President. I rise to speak on the bill. 18 ACTING PRESIDENT BENJAMIN: Senator Borrello on the bill. 19 SENATOR BORRELLO: 20 Thank you. 21 In my time as county executive, we 22 had crises come up that required quick action by our legislature. And, you know, that's why the 23 24 last page, the appropriation page, makes sense. 25 Here's the money, here's what it's for. We did

that many times.

It was never an opportunity for an amazingly bold power grab. And even though I was a Republican and we had a majority of Republicans in our legislature, had I tried something like that, my Republican colleagues would have said, No, we are not going to grant you ridiculous-oligarch-type power for the purpose of addressing this particular issue.

That's why the rest of this bill makes no sense to me.

You know, I don't know -- sometimes it's -- this quote is attributed to Saul Alinsky, sometimes it's attributed to Rahm Emanuel -- but "Never let a crisis go to waste." That's what's going on here. We're taking this coronavirus and giving the Governor an opportunity to have sweeping changes.

Now, I know that there is this, you know, allocation that will allow this Legislature to rescind whatever he might do, potentially.

But any Legislature that would cede this much power to the Executive will likely be reluctant to take it away, no matter how egregious those actions might be.

1 And this law actually allows the 2 Governor to not just suspend or rescind, but actually to write new laws. You're giving the 3 4 Governor the power to write legislation on his 5 own. That's the very definition of a dictatorial action. 6 7 So I understand that this is a 8 politically charged issue. People are emotional about this. And if it was all this was, was the 9 10 appropriations page, I'd be happy to support 11 this. 12 But -- I might take some shots from whomever, but I know that my constituents are 13 14 smart enough to see through this and to see what 15 an egregious power grab this is by the Governor. 16 Never let a crisis go to waste. And 17 that's what's going on here. And I will be 18 voting no. 19 Thank you, Mr. President. 20 ACTING PRESIDENT BENJAMIN: Senator 21 Tedisco. SENATOR TEDISCO: Mr. President, 22 23 would the sponsor yield for a few questions. ACTING PRESIDENT BENJAMIN: 24 Does 25 the sponsor yield?

1 SENATOR GIANARIS: Sure. 2 ACTING PRESIDENT BENJAMIN: The sponsor yields. 3 4 SENATOR TEDISCO: Thank you, 5 Senator Gianaris. Senator, I think we both agree, we 6 7 all agree that every single individual in here cares about stemming the tide on this particular 8 9 coronavirus. We want to protect our 10 constituents. We want to go home tonight and put 11 our head on our pillow and say we did everything 12 we could tonight to help the Governor, the Assemblymen, the Senators here, our the state 13 14 government, our health officials make sure that 15 this does not expand. 16 And we're not only talking about New York State, we're talking about it's coming from 17 18 other countries around the world, globally. 19 this could go outside of New York State. I think 20 we all agree upon that. And the first question I have to ask 21 22 you, this is an emergency piece of legislation, an emergency piece of legislation related to the 23 coronavirus, giving the Governor extended power 24 25 to make decisions with the \$40 million on how we

```
1
     can best do that to protect our constituents in
 2
     the state. That's what it is, an emergency piece
 3
     of legislation to give the Governor expanded
 4
     power to do some things normally the Legislature
 5
     and he would be involved with.
                  Is that what this is, for the
 6
 7
     coronavirus?
 8
                  SENATOR GIANARIS:
                                      This is a piece
 9
     of legislation that is intended to deal with the
10
     coronavirus crisis in an emergency fashion.
                  SENATOR TEDISCO: And it gives --
11
12
     would the gentleman yield?
13
                  ACTING PRESIDENT BENJAMIN:
                                                Does
14
     the sponsor yield?
15
                  SENATOR GIANARIS:
                                      Yes.
16
                  ACTING PRESIDENT BENJAMIN:
                                                The
     sponsor yields.
17
18
                  SENATOR TEDISCO: And it gives the
     Governor expanded powers to do that.
19
20
                  SENATOR GIANARIS:
                                      That's right.
21
                  SENATOR TEDISCO:
                                     Okay. Would the
22
     Senator yield?
23
                  ACTING PRESIDENT BENJAMIN:
     the sponsor yield?
24
25
                  SENATOR GIANARIS:
                                      Yes.
```

```
1
                  ACTING PRESIDENT BENJAMIN:
                                               The
 2
     sponsor yields.
 3
                  SENATOR TEDISCO: Now, if someone
 4
     was sitting in these chambers with the
 5
     coronavirus, could the chamber start on fire and
     this building start on fire, in and of itself,
 6
 7
     that that individual had the coronavirus?
 8
                  SENATOR GIANARIS:
                                      I don't even
 9
    know how to answer that question.
10
                  (Laughter.)
                  SENATOR GIANARIS: Are you asking
11
     if a person could spontaneously combust?
12
13
                  (Laughter.)
                  SENATOR TEDISCO: Do you think so?
14
15
                  SENATOR GIANARIS:
                                      I'm not equipped
16
     to answer that question. I'm not enough of a
    health professional to know whether someone with
17
18
     coronavirus might spontaneously light on fire. I
     do not know.
19
20
                  (Laughter.)
21
                  SENATOR TEDISCO:
                                    Would the
22
     gentleman yield for another question.
23
                  ACTING PRESIDENT BENJAMIN:
                                               Does
     the Senator yield?
24
25
                  SENATOR GIANARIS:
                                      Yes.
```

```
1
                  ACTING PRESIDENT BENJAMIN:
                                                The
 2
     Senator yields.
                  SENATOR TEDISCO: If someone had
 3
 4
     that virus, would it cause a cause flood in the
 5
     building right now?
                  SENATOR GIANARIS: I don't know.
 6
 7
                  SENATOR TEDISCO: You don't know if
     it would cause a flood if someone had the
 8
 9
     coronavirus?
10
                  SENATOR GIANARIS: Mr. President, I
     don't know what Senator Tedisco is trying to get
11
12
     at, but we are dealing with a very serious issue
     where people -- thousands of people around the
13
     world have died in a very short period of time.
14
15
     People on the West Coast of the United States, in
     just a matter of days, were identified to have
16
     contracted this virus, and now they have multiple
17
18
     deaths. And now we know that someone in New York
19
     has contracted this virus.
20
                  So asking whether someone who has
21
     the virus will cause a flood or spontaneously
     combust or light on fire or whatever Senator
22
     Tedisco is asking, is all sophistry that's beside
23
     the point.
24
25
                  We are trying to deal with a very
```

```
1
     real crisis. We're trying to appropriate monies
 2
     so the state can act quickly to deal with it and
     save lives in New York. That's what this
 3
 4
     legislation does.
 5
                  SENATOR TEDISCO:
                                     Thank you,
 6
     Senator.
 7
                  Would the gentleman yield again?
 8
                  ACTING PRESIDENT BENJAMIN:
9
     the Senator yield?
10
                  SENATOR GIANARIS:
                                      Yes.
                  ACTING PRESIDENT BENJAMIN:
11
                                                The
12
     Senator yields.
13
                  SENATOR TEDISCO: Well, the reason
     why I asked for a fire and a flood, because
14
15
     that's what it gives extended power to the
16
     Governor here, for a fire or a flood emergency.
     So I think the answers to the first two questions
17
18
     were no.
19
                  But could it cause an earthquake if
20
     the individual here had the coronavirus?
21
                  SENATOR GIANARIS:
                                      I'm going to
22
     answer that I don't know to the whole list of
     possible disasters. So if Senator Tedisco would
23
     like to stipulate to that, we could save
24
25
     ourselves a lot of time.
```

```
Will the
 1
                  SENATOR TEDISCO:
 2
     gentleman yield?
 3
                  ACTING PRESIDENT BENJAMIN:
                                                Does
 4
     the Senator yield?
 5
                  SENATOR GIANARIS:
                                      Yes.
                  ACTING PRESIDENT BENJAMIN:
 6
                                                The
 7
     Senator yields.
 8
                  SENATOR TEDISCO:
                                     So I guess that's
          Someone with the coronavirus couldn't cause
 9
10
     an emergency with a fire, couldn't cause an
     emergency with a flood, couldn't cause an
11
12
     emergency with an earthquake. And I guess I
     won't ask you the other ones, but I'll mention
13
           A hurricane, a tornado -- I don't know if
14
15
     the virus causes high wind, but I'm seeing some
     high wind from your side of the aisle here. I
16
     hope you don't have it. A landslide. I don't
17
18
     think it could cause a mud slide, a windstorm,
     wave action, a volcano activity.
19
20
                  These are all in the legislation
     we're giving the Governor expanded powers. I
21
     don't believe this is the Walking Dead, okay?
22
     And I hope it's not. But I'm going to ask you
23
     another question, and I think you'll answer this
24
25
     one right. Could it cause an epidemic if they
```

were in this room or expand an epidemic? Could it cause a disease outbreak right here in our area because of that, and probably cause some air contamination if there was someone in this room?

SENATOR GIANARIS: Mr. President,

I'm going to say again this is not an issue to be

made light of. So I'm sitting here listening to

my colleague talk about whether someone has -- is

passing wind in this chamber. There are people

dying as we speak because of this. There are

people dying, and Senator Tedisco is making fart

jokes on the floor of the Senate. So maybe that

tells us all we need to know.

We're trying to appropriate money and give the state power to deal with an impending crisis that we expect to reach our state. We know someone already has contracted the virus in New York. And just today on the West Coast, in Washington State, people have died because of this. So I don't think it's a time to be making jokes like that. And frankly, I'm offended.

As I said earlier, you want to vote no, that's your right as a legislator, and your constituents can decide whether they like what

you did or not.

But we're here because -- I've sat here for a long time and I've watched messages of necessity come and go. I don't think I've ever seen a message more necessary than this one.

I've seen all sorts of crap come through this chamber on a message of necessity that the other side of the aisle, when they were in the majority, threw at us with even less notice than you're dealing with.

I'm sorry -- well, I'm not sorry
you're in the minority. I'm glad you're in the
minority, but I'm sorry you're having to
experience what we had to experience for 10 years
when you were in charge.

But this is actually a genuine emergency that requires immediate action. So if there was ever a time when this process that exists to pass something with a message was appropriate, this is it. So save your breath. You know, there's a budget coming up, you'll have a lot of things that are going to have a lot more merit on to criticize and have a debate on. This isn't it, my colleagues.

SENATOR TEDISCO: Would the

```
1
     gentleman yield again?
 2
                  ACTING PRESIDENT BENJAMIN:
                                                Does
     the Senator yield?
 3
 4
                  SENATOR GIANARIS:
                                       Yes.
 5
                  ACTING PRESIDENT BENJAMIN:
                                                The
     Senator yields.
 6
 7
                  SENATOR TEDISCO:
                                     It wasn't a fart
     joke, it was a hot air joke coming from your
 8
 9
     side.
10
                  But the epidemic, disease outbreak
     and air contamination, I think you were saying
11
12
     yes to that. If someone was in this room with
     the epidemic, a disease outbreak or air
13
     contamination, if they had it, it could spread
14
15
     through here. That's why I am going to vote for
     in, because that language is in there.
16
                  But you understand, Mr. Gianaris,
17
18
     with all that hot air you were talking about
19
     before.
              The reason I asked you about all those
20
     other things, they have nothing to do with the
21
     coronavirus. Let's see. Fire, flood,
     earthquake, hurricane, tornado, hot water {sic},
22
     landslide, mud slide, windstorm has nothing to do
23
     with the coronavirus.
24
25
                  But these three things do.
                                               And
```

because those three things do -- it could cause an epidemic, it could cause of disease outbreak in here -- I'm going to vote for this bill. I'm going to vote for the \$40 million. And I'm not making a joke here. What I'm telling you is you wasted a lot of time with the Governor giving him this power that doesn't relate to what we're trying to do here.

We're trying to stop an epidemic, a disease outbreak, an air contamination. Those three things make sense. I won't vote against this because that's the right thing to spend money on. All the other things is ancillary, because they're not going to start a fire here if they have it. They're not going to cause a flood, an earthquake or a hurricane. You know that, I know that, the Governor knows that.

I think what we're saying here, why is all that in this bill for? All you need is to stop the epidemic, the disease outbreak and the air contamination, and all of my colleagues would vote for it. But I can't go home and not vote for this because that is in there.

I guess what I'm saying to you, this is serious, I agree. And those three or four

1 words make it serious to me to vote for it. But 2 the question I'm asking -- and I think it's an 3 appropriate one -- is why do we have to have all 4 those other issues in there which you laughed 5 about a little bit. But the answers to all these -- and I'm not going to ask him another question. 6 7 You can sit down, Senator. And I appreciate you and thank you for asking and answering those 8 9 questions. 10 ACTING PRESIDENT BENJAMIN: Senator Tedisco on the bill. 11 12 SENATOR TEDISCO: On the bill. And the reason I why I asked the 13 14 Senator, the sponsor of this bill, about the 15 Governor getting expanded powers for a fire, a flood, an earthquake, a hurricane -- that's hot 16 air. None of that can take place with somebody 17 18 who has the coronavirus. If anything, we want to be honest to our constituents. We want to let 19 20 them know we're doing something serious and 21 realistic. 22 The fact that you have an epidemic, a disease outbreak, an air contamination, that 23 makes it serious to me. I'm going to vote for it 24 25 because of that. But really, the rest of it is

telling your constituents for some reason you had to give the Governor all this power.

Now, I don't know what the negotiations are, but if the negotiations said we're not going to do anything unless you give me power over fire, water, earthquake, hurricanes and tornadoes, and you had to accept it because of that, well, so be it.

I'm going to vote for it because I can't go put my head on the pillow when I go home because there are those things that will -- hopefully the Governor will use it appropriately. It does concern me that this is an overreach. It does concern me that you're not coming back to the Legislature to be a part of where that money is being spent.

But I can't go home and tell my constituents I'm not going to protect them in those issues in those areas which do relate to stopping this coronavirus from spreading to my constituents in the 49th Senatorial District.

I thank you, Mr. President.

ACTING PRESIDENT BENJAMIN:

Senator LaValle.

25 | SENATOR LaVALLE: Thank you,

1 Mr. President. 2 As everyone knows, this is a very, 3 very --4 ACTING PRESIDENT BENJAMIN: Senator 5 LaValle, are you on the bill or are you asking the Senator questions? 6 7 SENATOR LaVALLE: Pardon me? 8 ACTING PRESIDENT BENJAMIN: Are you 9 speaking on the bill or are you --10 SENATOR LaVALLE: On the bill. ACTING PRESIDENT BENJAMIN: 11 Senator LaValle on the bill. 12 13 SENATOR LaVALLE: So again, this is 14 a very serious matter. And the people that send 15 us here send us here to protect their health and 16 welfare. And certainly what we're talking about right now is doing just that. 17 18 It is critically important, as people beyond this chamber listen to this debate, 19 20 that they see this chamber unified in wanting to 21 do something to protect them. Does this 22 legislation give the Governor broader powers than 23 maybe we would want him to have? Yeah. But on the other hand, we have to start someplace, and I 24 25 think we are in the first inning of a nine-inning game.

So all of us have been watching television, talking to people -- friends, neighbors, constituents -- and there's a lot of fear out there. There is a lot of fear out there. So it is important that we speak with one voice, that we tell people with that one voice that we care about them, that we have a plan and we want to move forward to protect them and their families and our neighborhoods.

So it's not about the Governor, because the Governor is going to have to explain to people, just like we have to explain to people how we vote or legislation that we propose, whether we overreach or not. And that is not for me to decide, but time will play this out. This is not the first discussion that we're going to have on this issue, I would think.

So I'm going to support this legislation, and I hope that all of us can support it so that we speak with one voice strongly, that we are focused in protecting the health and welfare of the people that we represent and the people of this state.

ACTING PRESIDENT BENJAMIN: Are

```
there any other Senators wishing to be heard?
 1
 2
                  Seeing and hearing none, debate is
 3
     closed.
 4
                  The Secretary will ring the bell.
 5
                  Read the last section.
                  THE SECRETARY: Section 4. This
 6
 7
     act shall take effect immediately.
                  ACTING PRESIDENT BENJAMIN:
                                                Call
 8
     the roll.
9
10
                  (The Secretary called the roll.)
                  ACTING PRESIDENT BENJAMIN:
11
12
     Majority Leader Stewart-Cousins to explain her
     vote and to close.
13
14
                  SENATOR STEWART-COUSINS:
                                              Thank
15
     you, Mr. President.
16
                  I don't think anybody is taking what
     we're doing here lightly. I see the anguish that
17
18
     so many of you have expressed -- the questions,
19
     the conversation, the postulations, all of it
20
     appropriate.
                  And then, as we go through the
21
     stages of why are we here, we remember.
22
     remember that globally there are 87,137 confirmed
23
     cases. In China alone, 79,968; 2,873 deaths.
24
25
     Outside of China, 7,169 confirmed, 58 countries,
```

1 104 deaths. Expanded local transmission in South 2 Korea, Japan, Iran, Italy. In the United States, 3 total cases, 43. Total hospitalized, 17. Total 4 deaths, two. States reporting cases, 10. New 5 York State reporting a case today, one. Almost 20 million people are 6 7 depending upon us in this state to act. Because 8 we are not talking about a flu, nor is there a reason to panic, but there is a reason to act. 9 10 We could continue to talk, and we will. We can continue to debate whether or not 11 12 there's an overreach of power. I think we all are looking at a lot of different ways that maybe 13 this could have transpired. 14 15 But the reality is our state and our nation continues to look for leadership and we, 16 probably better than most places, have the 17 18 ability to act, we have the facilities, we have 19 the personnel. And quite honestly, I know 20 Senator Flanagan expressed great, you know, 21 confidence in the national scene. I have 22 confidence in New York paying attention to what's important and doing what's right for our people. 23 That's why we're here today. 24 That's 25 why we're acting now. We have one case. We can

```
1
     keep talking, but I think people expect us to do
 2
     what we came to do, and that's to protect them.
 3
                  I vote aye.
 4
                  ACTING PRESIDENT BENJAMIN:
                                                Leader
 5
     Stewart-Cousins to be recorded in the
     affirmative.
 6
 7
                  Announce the results.
 8
                  THE SECRETARY:
                                   In relation to

                  Ayes, 53. Nays, 4.
15
                  Oh, pardon me, pardon me. Pardon
     me. Absent from voting: Senators Akshar,
16
     Carlucci, Sanders and Ranzenhofer, pardon me.
17
18
                  Ayes, 53. Nays, 4.
                  ACTING PRESIDENT BENJAMIN:
19
                                                The
20
     bill is passed.
21
                  Senator Gianaris, that completes the
     reading of the controversial calendar.
